| **Tax Credit Creation Date:** | August 28, 2016 L. 2016 S.B. 665 | **Year of Last Legislative Change:** | FY 2022 Special Session | | |

**Program Description and Eligibility Requirements:**

To stimulate investment in the meat processing industry in Missouri and to enable the livestock industry to capture more value in the form of further processed meat products. To be eligible, the owner and operator has to complete a meat processing facility modernization and or expansion activity(ies) on or after January 1, 2017 through December 2028; a resident of Missouri; the facility must be in Missouri; certified through E-Verify program and in good standing with USDA and or Missouri Department of Agriculture's inspection(s). Also, whomever owns a meat processing facility located in Missouri and employs a combined total of fewer than five hundred individuals in all meat processing facilities owned by the individual or entity in this country.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

The tax credit is 25% of the total qualifying meat processing facility modernization and or expansion expenses paid in the tax year. There is a $75,000 maximum tax credit per meat processing facility per tax year allowed. All participants must submit an application which must be approved by the MASBDA Commission prior to tax credit issuance.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 2,000,000 None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

The tax credits will be issued on an as-received basis until the calendar year limit of $2 million is reached. Any tax credits not issued in any calendar year shall expire and shall not be issued in any subsequent years. Maximum fiscal year amount is set in 135.686.4 RSMo.

**Sunset Provision:** No Date of Sunset _____ Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**

For all taxable years beginning on or after January 1, 2017, but ending on or before December 31, 2028, a taxpayer shall be allowed a tax credit for meat processing modernization or expansion related to the taxpayer's meat processing facility that employs a combined total of fewer than five hundred individuals in all meat processing facilities owned by the individual or entity in this country. This tax credit program is for expenditures made on or before December 31, 2028.

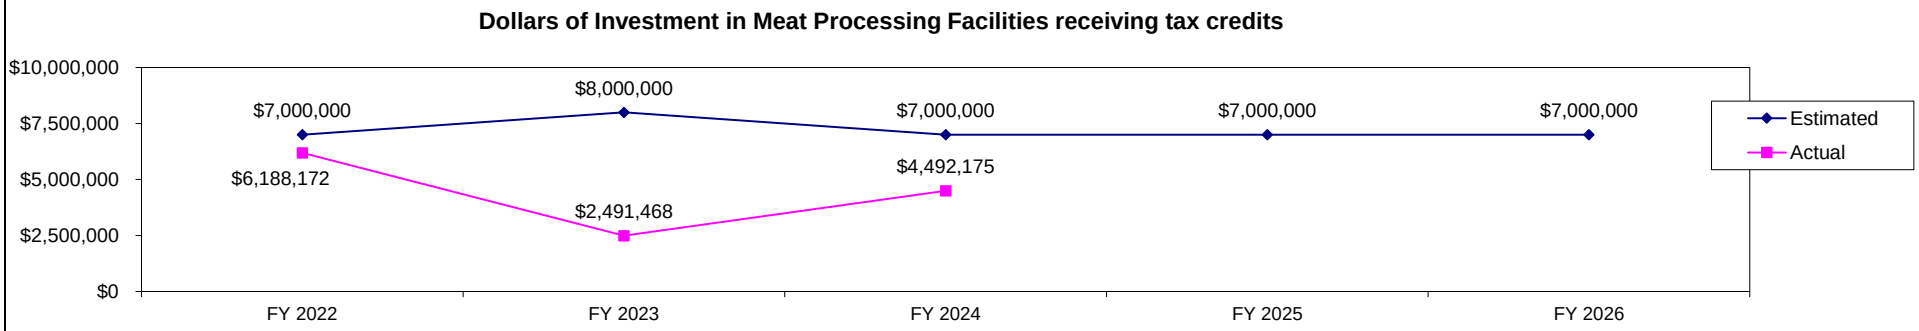
| **BENEFIT: COST** | **5.88** | **4.02** |

**Derivation of Benefits:**
IMPLAN economic modeling software was used to quantify direct and indirect fiscal benefits to Missouri state taxes. These benefits were derived from construction impacts (based on investment dollars) and operational impacts (based on new direct jobs added at the plants) as a result of modernization and or expansion of the facilities.

**Other Benefits:**

## PERFORMANCE MEASURE(S)



**Comments on Performance Measure:**
Tax credit program was renewed during FY 22 1st Special Session on HB 3. Due to the length of the rulemaking process, MASBDA will start accepting application on October 2, 2023 for expenditures made starting January 1, 2022 and after. This tax credit program is for expenditures made on or before December 31, 2028.

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | **New Generation Cooperative Incentive Tax Credit Program** | | | | |
| **Department:** | Agriculture | **Contact Name & No.:** | Jill S. Wood 573-751-5624 | **Date:** | 12/31/2024 |
| **Program Category:** | Agricultural | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | 348.432 RSMo | **Applicable Taxes:** | Income (143 RSMo), Franchise (147 RSMo), and Financial Institution (148 RSMo) | | |
| **Tax Credit Creation Date:** | July 2, 1999 1999 H.B. 888 | **Year of Last Legislative Change:** | FY 2022 Special Session | | |

**Program Description and Eligibility Requirements:**

To induce private investment into "Eligible new generation processing entities" which will; result in the processing of Missouri agricultural commodities and agricultural products into value-added goods, provide substantial benefit to Missouri's agricultural producers, and result in the creation of jobs for Missourians. Eligible "Producer members" investing in an "Eligible new generation processing entity" (which is either a "Development facility" or a "Renewable fuel production facility") may receive the tax credit.

"Eligible new generation processing entity" is a partnership, corporation, cooperative, or limited liability company organized or incorporated pursuant to Missouri laws and consisting of not less than twelve members, approved by the authority, for the purpose of owning or operating within Missouri a "Development facility" or a "Renewable fuel production facility" in which producer members; (a) hold a majority of the governance or voting rights of the entity and any governing committee; (b) control the hiring and firing of management; and (c) deliver agricultural commodities or products to the entity for processing, unless processing is required by multiple entities.

"Producer member" is a person, partnership, corporation, trust, or limited liability company whose main purpose is agricultural production that invests cash funds in an eligible new generation processing entity.

"Development facility", a facility producing either a good derived from an agricultural commodity or using a process to produce a good derived from an agricultural product.

"Renewable fuel production facility", a facility producing an energy source which is derived from a renewable, domestically grown, organic compound capable of powering machinery, including an engine or power plant, and any by-product derived from such energy source.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

The lesser of 50% of the eligible producer members' cash investment in an eligible new generation processing entity or $15,000. However, the members investing in a "Large Capital Project" (capital costs greater than one million dollars) may not receive tax credits totaling more than $1.5 million and members investing in an "Employee Qualified Capital Project" (capital costs greater than fifteen million dollars which employ at least sixty employees) may not receive tax credits totaling more than $3.0 million. All participants must submit an application which must be approved by the MASBDA Commission.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 6,000,000 None _____

**Cap Shared Between Programs** Yes **Which Program(s)?** **Agricultural Product Utilization Contributor Tax Credits**

**Explanation of Cap:**

The aggregate of tax credits issued per fiscal year pursuant to sections 348.430 and 348.432 shall not exceed six million dollars. If on May 1st of each year the Missouri Agricultural and Small Business Development Authority determines that any of the $6,000,000 will not be utilized as New Generation Cooperative Incentive Tax Credits then the unused credits may be sold as Agricultural Product Utilization Contributor Tax Credits. Credits not issued as New Generation Cooperative Incentive Tax Credits or sold as Agricultural Product Utilization Contributor Tax Credits lapse June 30 of each year.

**Sunset Provision:** Yes Date of Sunset 31-Dec-28 Date of Last Sunset Extension FY 2022 Special Session

**Explanation of Expiration of Authority:**

The provisions of sections 348.432 shall expire December 31, 2028 pursuant to 348.436 RSMo. This program was extended during FY 22 1st Special Session on H.B. 3 to take effect on January 2, 2023.

**Specific Provisions:** (if applicable)

Carry forward 4 years Carry Back n/a Refundable No Apportioned No Appropriated Yes

| **Tax Credit Creation Date:** | August 28, 2007 L. 2007 1st Ex. Sess H.B. 1 | **Year of Last Legislative Change:** | 2016 | | |

**Program Description and Eligibility Requirements:**
Provide Missouri cattle farmers with an economic incentive to background and or finish Missouri born and raised qualified beef cattle in this state.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

All participants were required to submit an application for review and approval by the MASBDA Commission prior to tax credit issuance.
There are two separate tax credit incentives as of August 28, 2016 and the two tax credit amounts are as follows:

·Any cattle weighing 599 lbs. or less qualify for the ten cents ($.10) per pound. The calculation is the qualifying sale weight minus the baseline weight multiplied by $.10 per pound provided the sale weight is one hundred (100) pounds or greater than the baseline weight.

·Any cattle weighing 600 lbs. or more qualify for the twenty-five cents ($.25) per pound. The calculation is the qualifying sale weight minus the baseline weight multiplied by $.25 per pound provided the sale weight is one hundred (100) pounds or greater than the baseline weight.

·$15,000 maximum credit per tax payer per calendar year allowed.

·MASBDA may waive no more than twenty-five (25%) of the required one hundred (100) pound gain. The waiver shall be based only on any disaster declaration by the U.S. Department of Agriculture.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 0 None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
As of December 31, 2021, the program expired and not renewed. No cap amount in FY 2022 and after. Before the expiration date, the tax credits would be issued on an as-received basis until the calendar year limit of $2 million is reached. The annual limit of $2 million is accumulation of Qualified Beef Tax Credit and Meat Processing Facility Investment Tax Credit programs. Any tax credits not issued in any calendar year shall expire and shall not be issued in any subsequent years. Maximum fiscal year amount is set in 135.679.4 RSMo.

**Sunset Provision:** Yes Date of Sunset 12/31/2021 Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**
This authorizing statute for this program expired on December 31, 2021. On May 18, 2018, the House Budget Committee passed a motion stating that no credits are approved for Qualified Beef, pursuant to Section 135.679, RSMo, for any tax year beginning on or after July 1, 2018 and on or before June 30, 2019. This motion has been renewed through remaining life of program. This program did expire on December, 31, 2021 and not renewed.

| **Statutory Authority:** | 135.1610 RSMo Effective January 2023 | **Applicable Taxes:** | Income (143 RSMo) | | |
| **Tax Credit Creation Date:** | January 2, 2023 2022 1st Ex. Sess. H.B. 3 | **Year of Last Legislative Change:** | | | |

**Program Description and Eligibility Requirements:**

This program provides Missouri Tax Credits to any individual, partnership, or corporation for an amount equal to fifty percent of the taxpayer's eligible expenses for establishing or improving an urban farm that focuses on food production. 'Urban Farm' is defined as an agricultural plot or facility in an urban area that produces agricultural food products used solely for distribution to the public by sale or donation. This does include community-run gardens and excludes personal farms or residential lots for personal use. Eligible expenses are incurred in the construction or development of establishing or improving an urban farm in an urban area. The term eligible expenses shall not include any expense for labor or any expense incurred to grown medical marijuana, industrial hemp or recreational marijuana.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

The tax payer can claim a tax credit for an amount equal to fifty percent of the taxpayer's eligible expense for establishing or improving an urban farm that focuses on food production or a donation to an Urban Farm. Maximum tax credit allowed per taxpayer per urban farm is $5,000 with a maximum amount to all taxpayers per urban farm is $25,000. All participants must submit an application with all required documentation to MASBDA and which must be approved by the MASBDA Commission prior to tax credit issuance.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 200,000 None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

Fiscal year limits are set in 135.1610.4 RSMo. Individual tax credit limit per taxpayer per urban farm of $5,000 and maximum tax credit amount issued per urban farm is $25,000 is set in 135.1610.3 RSMo.

**Sunset Provision:** Yes Date of Sunset 12/31/2028 Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**

Program is set to automatically sunset on December 31, 2028, unless reauthorized by an act of the general assembly. 135.1610.8 RSMo

**Specific Provisions:** (if applicable)

Carry forward 3 years Carry Back n/a Refundable No Apportioned No Appropriated Yes

Sellable/Assignable No Organizations Remit an Offset No Additional Federal Deductions/Credits Available No

**Comments on Specific Provisions:**

The Urban Farm Investment Tax Credit shall not be transferred, sold, or assigned.

**Legislative / General Assembly Action(s) During Prior Five Years:**

Urban Farm Investment Tax Credit Program was created on H.B. 3 which was passed in FY 2022 1st Special Session and became active January 1, 2023.

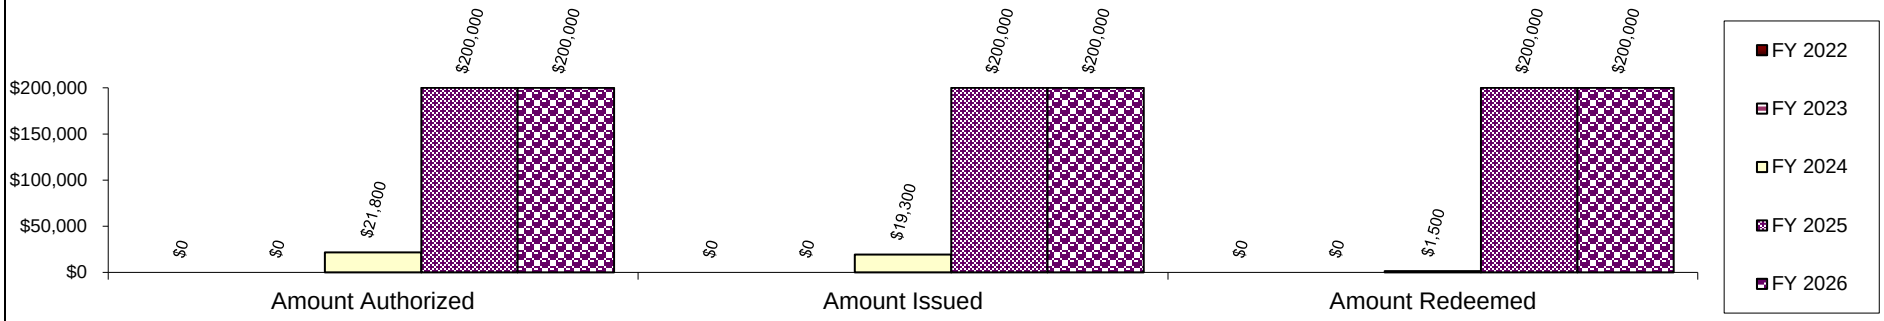
# TAX CREDIT ANALYSIS

**Program Name:** Urban Farm Investment Tax Credit Program

## HISTORICAL AND PROJECTED INFORMATION



**Comments on Historical and Projected Information:** MASBDA began accepting applications in November 2023.

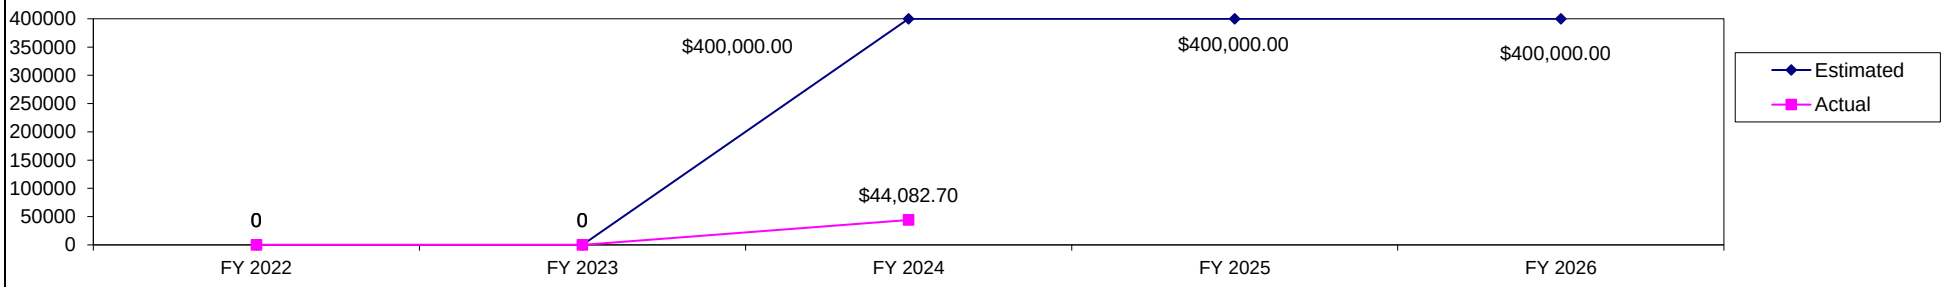
## BENEFIT: COST ANALYSIS (includes only state revenue impacts)

| | FY 2024 ACTIVITY | Other Fiscal Period (FY 23) |
|---|---|---|
| **BENEFITS** | | |
| Direct Fiscal Benefits | $0 | $0 |
| Indirect Fiscal Benefits | $3,399 | $0 |
| **Total** | $3,399 | $0 |
| **COSTS** | | |
| Direct Fiscal Costs | $13,515 | $0 |
| Indirect Fiscal Costs | | |
| **Total** | $13,515 | $0 |
| **BENEFIT: COST** | **0.25** | **#DIV/0!** |

**Derivation of Benefits:**
IMPLAN economic modeling software was used to quantify direct and indirect fiscal benefits to Missouri state taxes. These benefits were derived from industry spending patterns (based on investment dollars) as a result of the donations received to establish or improve an urban farm.

**Other Benefits:**

## PERFORMANCE MEASURE(S)



**Comments on Performance Measure:**
The program was on HB 3, which was passed during FY 22 1st Special Session and the program became active on January 2, 2023. MASBDA began accepting applications in November 2023. FY 2024 will be the first year of activity.

# TAX CREDIT ANALYSIS

|---|---|---|---|---|---|
| **Program Name:** | **Missouri Empowerment Scholarship Account Program** | | | | |
| **Department:** | State Treasurer's Office | **Contact Name & No.:** | Angela Peterson 573-751-2543 | **Date:** | September 2024 |
| **Program Category:** | Training and Educational | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Sections 135.712-135.719 RSMo. | **Applicable Taxes:** | Income Taxes | | |
| **Tax Credit Creation Date:** | 2021 | **Year of Last Legislative Change:** | 2024 | | |

**Program Description and Eligibility Requirements:**

Any taxpayer may claim a tax credit, not to exceed 50% of the taxpayer's state liability, for any qualifying contribution to an educational assistance organization.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

Credits are awarded on a first come first served basis up to the annual cap of $75 Million.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 27,625,000 None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
The cumulative amount of tax credits issued in any one calendar year started at $25 million for 2022 and shall be adjusted by the State Treasurer annually based upon inflation with a maximum cap of $75 million. Given that authorization is based on calendar years, and the information presented here is based on fiscal years, fiscal year actuals may vary from the estimates below. Inflation adjustments are calculated in December, for this exercise the next budget year cap amount is estimated. Note: it is possible, in any given fiscal year, that issuances from two calendar years could exceed the estimates below, due to the difference in calendar/fiscal years.

**Sunset Provision:** No Date of Sunset _____ Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**

**Specific Provisions:** (if applicable)

Carry forward 4 years Carry Back n/a Refundable No Apportioned No Appropriated No

Sellable/Assignable No Organizations Remit an Offset No Additional Federal Deductions/Credits Available No

**Comments on Specific Provisions:**

**Legislative / General Assembly Action(s) During Prior Five Years:**

HB 2287 & SB 727 (2024) increased the annual authorization limit and changed the annual adjustment from inflation to state aid distributed to public schools.

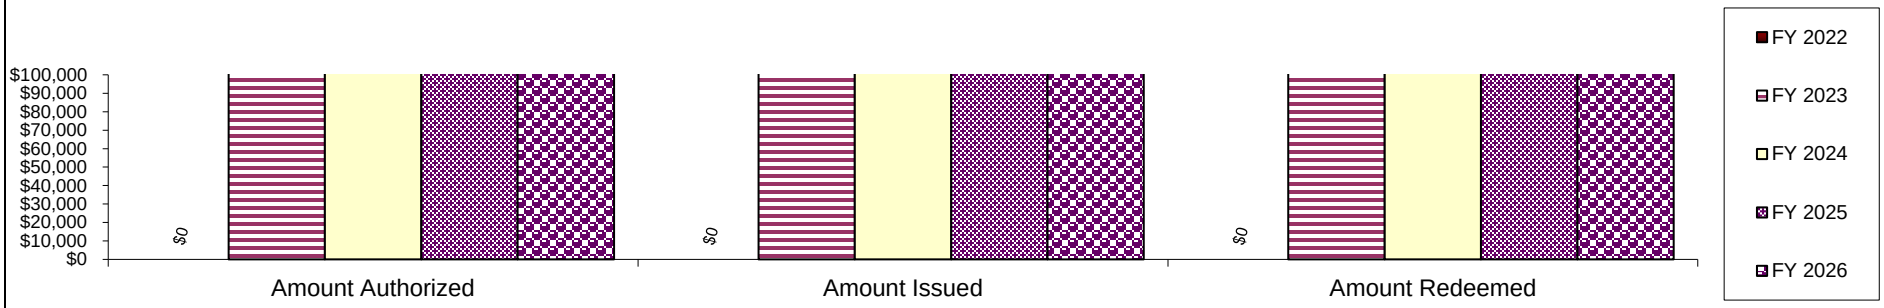
**Program Name:** Missouri Empowerment Scholarship Account Program

## HISTORICAL AND PROJECTED INFORMATION



**Comments on Historical and Projected Information:**

## BENEFIT: COST ANALYSIS (includes only state revenue impacts)

| | FY 2024 ACTIVITY | Other Fiscal Period (indicated time period) |
|---|---|---|
| **BENEFITS** | | |
| Direct Fiscal Benefits | $31,468,726 | |
| Indirect Fiscal Benefits | | |
| **Total** | $31,468,726 | $0 |
| **COSTS** | | |
| Direct Fiscal Costs | $7,281,302 | |
| Indirect Fiscal Costs | | |
| **Total** | $7,281,302 | $0 |
| **BENEFIT: COST** | **4.32** | **0.00** |

**Derivation of Benefits:**

Per the US Census, the average US school system spent per pupil in Missouri in 2022 was $15,758. (https://www.census.gov/data/tables/2022/econ/school-finances/secondary-education-finance.html)

For the FY 2024 year, 1,997 students were awarded a scholarship. Based on the average, the benefit of this is almost $31.5 million, while only $7.2 million in tax credits to fund this benefit were redeemed in the FY 2024 year.

**Other Benefits:**

Other Benefits: Unlike some tax credits, which are intended to create jobs or foster economic development, the MOScholars tax credit is for the purpose of providing educational opportunities for children with IEPs or low-income households. These students are able to receive an education best suited to their specific needs which grows a well-educated workforce and general population.

# Introduction

The purpose of this tax expenditure report is to provide the public and the Legislature with information on special provisions and the cost of these special provisions in terms of reduced tax revenue.

## What are Tax Expenditures and Why Measure Them?

When a state agency has a program to accomplish a goal, such as paving state highways, operating prisons, or funding local school districts, the program will have a direct cost to taxpayers, i.e. the taxes they must pay to finance the program. The program's budget spells out how much the program will cost and how the money will be spent.

When the state tax code contains provisions that give incentives for taxpayers to behave in certain aways, such as saving more or donating to charities, this also has a cost to taxpayers. Without the special provisions, general taxes could be lower or more revenue could be available to provide public services. This cost to the state budget, and ultimately to other taxpayers, is called a tax expenditure.

When the legislature creates tax expenditures, conventional accounting gives a distorted picture of the state budget. For example: the legislature is considering two programs to provide $10 million in assistance to private landowners who remove beetle-killed trees.

One program would provide grants to landowners based on their costs and the benefits to public safety.

The other program would make exactly the same payments to exactly the same people for cutting down and removing exactly the same trees, but, at the end of the program, the checks would be written by the Department of Revenue instead of the Department of Natural Resources and Conservation, and the money would be called a tax credit instead of a grant.

The two programs would also have the same effect on the bottom line of the state budget. They would both reduce the ending fund balance by $10 million. In the first case, conventional accounting correctly shows how this has happened. The state spent an additional $10 million with no change in revenue.

In the second case, conventional accounting is misleading. The $10 million spent disposing of beetle killed trees is shown as a reduction of revenue, rather than as the expenditure it really is.

This distorted accounting allows legislators to propose new spending programs while portraying them as tax cuts. Accounting for tax expenditures gives legislators and the public a better picture of both the size and scope of state government and the trade-offs between state programs.

# How are Tax Expenditures Measured?

There are two components to measuring tax expenditures:

- identifying special provisions of the tax code
- estimating the revenue lost because of each special provision

Since the introduction of the tax expenditure concept by the U.S. Department of the Treasury in 1967, there has been considerable controversy about what should be considered a tax expenditure and about what baseline should be used in estimating a special provision's revenue impact.

In part, the controversy has been about technical points of economic theory. It has also been an ideological argument between proponents of different visions of an ideal tax system. This controversy has obscured the goal of tax expenditure reporting, which is to serve as a starting point for evaluating whether special features of the tax law should be continued, modified, or replaced.

For each tax considered, this report first identifies the general structure of the tax – the general rules defining the tax base and the normal rate structure. The report then identifies exceptions from these general rules. The exceptions may take the form of special, limited exemptions from the tax base, special rates with limited applicability, or tax credits. For each special provision, it explores how the special provision affects qualifying taxpayers, the state budget, and other taxpayers.

This report presents the amount of each tax expenditure based on information from actual tax returns, such as the amount of credits claimed or the reduction in tax liability due to reported exclusions or deductions. It does not attempt to estimate the changes in behavior a tax incentive has induced or the additional revenue that would result from repealing it.

# How Should This Information be Used?

Ideally, policymakers would give tax expenditures the same kind of scrutiny that they give direct program expenditures. They would consider the likely costs and results of new proposals and periodically evaluate the actual costs and impacts of existing tax expenditures. This evaluation would examine each tax expenditure's effectiveness and its cost-effectiveness.

Evaluating a tax expenditure's effectiveness would require having a clear statement of its purpose and measuring whether it accomplishes that purpose. In general, a tax expenditure's purpose is to change taxpayers' behavior in some way. An effective tax expenditure would produce a large change in taxpayers' behavior for a small cost in lost revenue. An ineffective tax expenditure would reward people for doing what they would have done, anyway.

Thus, measuring a tax expenditure's effectiveness requires knowing its cost, knowing how much of the desired activity taxpayers engaged in, and estimating how much of the activity taxpayers would have done without the incentive.

Evaluating a tax expenditure's cost-effectiveness would require comparing it with other methods of accomplishing the same goal. For example, the tax credits to encourage energy conservation investments could be compared to direct grant programs or changes in building codes. The tax credit for extending infrastructure to new manufacturing plants could be compared to a direct grant program or changes in land use planning.

The table on the next page (Table 9.1) lists all of the tax expenditures in this report, as well as each expenditure's code for reference, year of enactment, and bill and chapter reference

# Tax-Exempt Organizations

In addition to the tax expenditures for each tax type listed in this section, the state also exempts some organizations and property from taxation by the state. In general, organizations that qualify for tax-exempt status include government, charitable and educational organizations, properties used for religious purposes, or nonprofits that provide care to qualified individuals. A complete list of tax-exempt organization types can be found in 15-6-201, MCA. To receive tax-exempt status, each organization must meet the requirements and apply with the Department of Revenue by March 1.

# Individual Income Tax Expenditures

## Tax Expenditures: Individual Income Tax

The individual income tax is a tax on the income a person or couple receives during a year. The general structure of the income tax has three components:

- the taxpayer's adjusted gross income, which generally includes cash receipts and the value of nonmonetary compensation, minus costs related to earning income
- an exemption for each taxpayer and dependent, and a standard deduction, both of which are subtracted from adjusted gross income to give taxable income
- the tax rates, which in Montana take the form of a graduated rate schedule with the first increments of income taxed at lower rates. The total of the personal exemption and standard deduction can be viewed as defining an initial rate bracket with a zero tax rate.

Tax expenditures for the income tax take four forms:

- tax credits for taxpayers who meet certain conditions or make certain types of expenditures
- special treatment of specific types of income, either through special provisions for measuring income, or by excluding some types of income from the definition of adjusted gross income
- itemized deductions from adjusted gross income for taxpayers who meet certain conditions or make certain types of expenditures
- lower tax rates for certain types of income

# Definition of Adjusted Gross Income – Passive Expenditures

## Tax Expenditures in the Definition of Adjusted Gross Income

In most cases, Montana law adopts the federal definition of adjusted gross income as the starting point for measuring income that is subject to the state income tax. Tax expenditures in the definition of adjusted gross income arise from two sources: the federal definition of adjusted gross income and the special provisions of Montana law.

State tax expenditures that arise from the state's adoption of federal law are called passive tax expenditures. The legislature has not taken any action to create them and would have to act to prevent them.

Some passive tax expenditures result from federal law exempting certain types of income from tax. Others arise from special rules for measuring income. These include special depreciation provisions, rules for the timing of recognition of income, and rules that determine when expenditures that employers make on behalf of their employees count as income to the employee. A third type of passive expenditure results from extra expense deductions that federal law allows as incentives to make certain types of investment.

Federal credits do not create passive state tax expenditures because they do not affect the taxpayer's adjusted gross income.

Montana tax returns do not include information that would allow reliable state-level estimates of individual passive tax expenditures. Total passive tax expenditures can be roughly estimated from the estimates of federal tax expenditures published by the congressional Joint Committee on Taxation (JCT).

Based on JCT estimates, federal tax expenditures created approximately $912 million in Montana passive tax expenditures. This amount, multiplied by the ratio of adjusted gross income reported on federal returns with a Montana address to adjusted gross income reported on all federal returns (0.31 percent), and the ratio of the top Montana rate to the top federal rate (18.2 percent), results in passive tax expenditures of $512 million due to the federal definition of total income.

Other passive tax expenditures arise from specific adjustments to gross income. These items are listed on both federal and state tax returns. For Tax Year 2023, these adjustments are on Schedule 1 of Montana's Form 2. These items are sometimes called federal adjustments to income or above-the-line deductions.

Five above-the-line deductions should not be considered tax expenditures. Four of these allow taxpayers to deduct unreimbursed costs of doing their jobs or otherwise earning income. The first four above-the-line deductions are:

- the deduction for educator expenses
- the deduction for business expenses of reservists, performing artists, and fee-basis local government officials
- the deduction for expenses of moving for members of the Armed Forces
- the deduction for penalties for early withdrawal of savings
- the deduction for alimony paid, which ensures that income allocated between former spouses is taxed to the person who ultimately receives it

There are seven other above-the-line deductions that are considered tax expenditures.

# Deductions for the Self-Employed: Federal Provision

**Legislation: N/A**

Three above-the-line deductions give the self-employed taxpayer the same treatment as employees for fringe benefits and retirement plans. These deductions are:

- the deduction for one-half of the self-employment tax
- the deduction for contributions to qualified self-employed retirement plans
- the deduction for a self-employed person's health insurance premiums

These three deductions are equivalent to an employer's payments for payroll taxes, health insurance benefits, and pension contributions that are not included in an employee's adjusted gross income.

The exclusions for employees provide an incentive for employers to offer and employees to accept pension and health benefits because they make it cheaper for employers to provide additional after-tax compensation as fringe benefits rather than as wages. Providing the same exclusions for self-employed persons removes an incentive to be an employee rather than self-employed.

The costs of the exclusions for employees are included in the figure for passive tax expenditures. The following tables show these deductions for Tax Years 2015 through 2023.

**Table 9.6 One-Half of Self Employment Tax**

# Health Savings Account Deduction: Federal Provision

**Legislation: N/A**

A Health Savings Account (HSA) is a tax-advantaged account for certain medical expenses of taxpayers whose only health insurance is a high-deductible insurance plan. Funds in an HSA may be used only to pay medical costs that are not reimbursed by insurance. Both deposits to and distributions from an HSA are exempt from income tax.

HSAs provide a partial subsidy to taxpayers who buy their own health insurance and choose a high-deductible plan. This provides an incentive for individuals to purchase high-deductible health insurance themselves rather than choose some other option for health insurance or to do without.

The following table shows HSA deductions for Tax Years 2015 through 2023.

**Table 9.9 Health Savings Account Deduction**

| TY | Residents | | Nonresidents | | Part-Year Residents | | Total | |
|---|---|---|---|---|---|---|---|---|
| | N | $ | N | $ | N | $ | N | $ |

# Individual Retirement Account Deduction: Federal Provision

**Legislation: N/A**

An Individual Retirement Account (IRA) is a tax-advantaged account for retirement savings. Taxpayers are allowed an above-the-line deduction for contributions to a traditional IRA. For most taxpayers, the deduction was limited to $6,500 in Tax Year 2023. The limit is $1,000 higher for taxpayers at least 50 years old. Higher-income taxpayers who participate in one of several types of pension plans have a lower limit that depends on their income.

Earnings kept in an IRA are not taxed. Funds deposited in an IRA and accumulated earnings are both taxed when they are withdrawn. This deferral of taxes gives taxpayers an incentive to increase retirement savings.

The following table shows IRA deductions for Tax Years 2015 through 2023.

**Table 9.10 Individual Retirement Account Deduction**

# Student Loan Interest Deduction: Federal Provision

**Legislation: N/A**

Taxpayers may deduct up to $2,500 of interest they paid on student loans for either their own or their dependents' post-secondary education. The deduction phases out for incomes between $75,000 and $90,000 ($155,000 and $185,000 for a joint return) and may not be claimed by a taxpayer who is claimed as someone else's dependent. This deduction provides a subsidy to taxpayers who borrow to pay for either their own or their dependents' education. This provides an incentive for taxpayers to invest more in their own or their dependents' educations. It also provides an incentive to increase the proportion of education expenses financed by borrowing.

The following table shows student loan interest deductions for Tax Years 2015 through 2023.

**Table 9.11 Student Loan Interest Deduction**

# Archer MSA Deduction: Federal Provision

**Legislation: N/A**

An Archer MSA is a tax-advantaged account for medical savings and expenses. Taxpayers are allowed an above-the-line deduction for contributions to an Archer MSA. Earnings kept in an Archer MSA are not taxed. In addition, distributions from an Archer MSA are not considered taxable if used for qualified medical expenses.

The following table shows the Archer MSA deductions for Tax Years 2021 through 2023.

**Table 9.12 Archer MSA Deduction**

# Definition of Adjusted Gross Income

## Montana Adjustments to Income

Through Tax Year 2023, Montana had 50 adjustments to Federal Adjusted Gross Income that taxpayers were either allowed or required to make in calculating their Montana Adjusted Gross Income. Some of these Montana adjustments allocate income between spouses filing separate Montana returns when they file a joint federal return. Other state adjustments exist because federal law prohibits states from taxing certain types of income that the federal government taxes. A few exist because the state taxes some types of income that the federal government does not tax. Most exist because the legislature has chosen to exempt certain types of income partly or completely from taxation.

Most of the adjustments in this section were eliminated by the 2021 Legislature starting Tax Year 2024. In addition, starting Tax Year 2024, Montana's personal income tax will no longer based on Federal Adjusted Gross Income, but instead Federal Taxable Income. As a result, the Montana adjustments to income are no longer applied to adjusted gross income, but instead applied to taxable income.

## ABLE Accounts: 15-30-2110 (12), MCA

**Legislation: SB 399, 2015 Session**

In 2014, Congress amended Section 529 of the Internal Revenue Code to create the Achieving a Better Life Experience (ABLE) account, which is a tax-advantaged savings account to be used for the benefit of a person with disabilities. Earnings on an ABLE account are exempt from federal tax as long as the funds withdrawn from the account are used for eligible expenses related to the beneficiary's disability. More than one person can contribute to a single account, but total contributions in a year may not exceed $15,000 (adjusted annually for inflation). As long as the balance in the account is $100,000 or less, having an ABLE account will not affect the beneficiary's eligibility for Social Security or Medicaid.

Beginning in Tax Year 2015, Montana exempts up to $3,000 contributed by a taxpayer to an ABLE account from income tax. More than one taxpayer can contribute to the same account if total deposits do not exceed the annual limit, and each taxpayer can exempt the amount of their deposit.

The table below lists exempt income reported on Montana income tax returns for Tax Years 2015 through 2023.

**Table 9.13 ABLE Account Deposits**

# Business Purchases of Recycled Material: 15-32-609, MCA through 15-32-611, MCA

**Legislation: SB 111, 1991 Session**

Montana allows businesses to take an extra deduction of 10 percent of the cost of purchases of recycled materials. In effect, this allows a business expense deduction of 110 percent of these costs. This reduces the cost of recycled material relative to other raw materials, giving businesses an incentive to use recycled material.

The deduction is available to corporations and to the owners of sole-proprietor businesses and pass-through entities. The following table shows individual income tax deductions for purchases of recycled material since Tax Year 2015.

**Table 9.14 Business Expense for Recycled Materials**

# Capital Gain Exclusion from Sale of Mobile Home Park: 15-31-163, MCA

**Legislation: HB 636, 2009 Session**

A taxpayer who was the owner of a mobile home park may be able to deduct a portion of their capital gains if the park was sold to a tenant's association, a 501(c)(3) organization, or a county or municipal housing authority.

The table below contains the income exempted from Montana income tax for Tax Years 2018 through 2023.

# Disability Retirement Income: 15-30-2110(10), MCA

## Legislation: SB 464, 1985 Session

Taxpayers who were under the age of 65 and permanently disabled could exclude up to $5,200 of disability retirement income. The amount taxpayers could exclude was reduced by any amount by which their pre-exclusion adjusted gross income exceeded $15,000. This exclusion increased the after-tax income of permanently disabled taxpayers with low incomes.

This exemption expired at the end of tax year 2023.

The following table shows disability income excluded since Tax Year 2015.

**Table 9.16 Exempt Disability Retirement Income**

# Exempt Tribal Income: Federal Provision

**Legislation: N/A**

Indian tribes are sovereign governments, and state taxation of tribes and their members is governed by federal law and treaties. The right to tax the income earned on the reservation by a member who lives on the tribe's reservation is limited to the tribal government. The state may tax income earned by non-members on a reservation and income earned by a tribal member off the reservation. This is similar to the general rule for taxation across national borders–a country may tax income earned by its citizens anywhere and may tax income earned by non-citizens in the country, but it may not tax income earned by citizens of another country in another country. Therefore, it is not clear whether the exemption for tribal income should be considered a tax expenditure.

The following table shows exempt tribal income reported on Montana returns since Tax Year 2015.

**Table 9.17 Exempt Tribal Income**

| | Residents | | Nonresidents | | Part-Year Residents | | Total | |

# Expenses Incurred by Medical Marijuana Providers: 15-30-2131, MCA

## Legislation: SB 333, 2017 Session

Under federal law, Medical Marijuana providers may not deduct business expenses directly related to the production and sale of marijuana beyond those directly related to the cost of manufacturing the product. Medical Marijuana providers that are registered with the state of Montana can exempt any ordinary and necessary business expenses that are disallowed under Internal Revenue Code Section 280E.

The table below has exempt income reported on Montana income tax returns for Tax Years 2018 through 2023.

# Family Education Savings Accounts: 15-62-101, MCA through 15-62-302, MCA

**Legislation: HB 536, 1997 Session**

Section 529 of the Internal Revenue Code allows states to set up higher education savings programs. These programs allow taxpayers to set up an account for a designated beneficiary, usually a child or grandchild. States may give special tax treatment to deposits to a qualifying account; withdrawals to pay the beneficiary's education expenses are not included in Federal Adjusted Gross Income, which means that account earnings are tax free.

Montana taxpayers may exclude up to $3,000 of contributions to one or more Family Education Savings Accounts from adjusted gross income each year. Any withdrawals that are not used for higher education expenses are taxed at the highest income tax rate. The 2013 Legislature (SB 117) expanded the deduction to include deposits to other states' college savings plans. The 2021 Legislature also expanded the types of expenditures from the accounts that qualify as tax free spending to those covered in 26 U.S. Code 529. The new tax-free expenses include K-12 tuition, certain expenses for registered apprenticeships, and the repayment of student loans.

This program encourages families to save for their children's education by lowering the cost of saving any given amount. The tax expenditure from the federal exclusion of account earnings is included in the estimate of passive tax expenditures. The state exclusion of deposits to an education savings account creates an additional tax expenditure.

The following table shows deposits to Montana Family Educations Savings Accounts since Tax Year 2015.

# Farm and Ranch Risk Management Accounts: 15-30-3001, MCA through 15-30-3005, MCA

## Legislation: SB 245, 2001 Session

The 2001 Legislature created Farm and Ranch Risk Management Accounts as a tool for family farms to deal with uneven and uncertain income. An individual or family farm corporation could set up an account and deposit up to 20 percent of their net income from agriculture each year, with a limit of $20,000. The 2021 Legislature eliminated this program starting tax year 2024, so that no new funds could be deposited into an account and no new accounts could be created.

Deposits to a risk management account before tax year 2024 are excluded from adjusted gross income. Funds deposited in an account must be withdrawn within five years. Income and withdrawals from the account are taxable.

Federal law allows farmers to average income over three years for income tax purposes. The additional tax smoothing allowed by Montana Farm and Ranch Risk Management Accounts has seen very little use. No deposits were made in Tax Years 2019 through 2023. The tables below show exempt deposits and taxable withdrawals since Tax Year 2015.

# First-Time Home Buyer Accounts: 15-63-101, MCA through 15-63-205, MCA

## Legislation: HB 599, 1997 Session

Through Tax Year 2023, Montana law allowed residents who have never owned a home to establish a First-Time Home Buyer Account. Deposits of up to $3,000 per year ($6,000 for a married couple filing a joint return) and account earnings were exempt from taxation. Funds in the account must be used for the down payment and closing costs on a single-family house within 10 years after the account is established. If funds are withdrawn for another use or are not used within 10 years, they must be reported as taxable income. This program attempted to encouraged home ownership by reducing the cost of saving for a down payment.

The 2021 Legislature (SB 399) eliminated the income exemption for deposits made into the home buyer accounts after December 31, 2023.

The following tables show exempt deposits and earnings and taxable withdrawals.

# Health Benefits Limited to Highly Compensated Employees: 15-30-2110(2)(h), MCA

## Legislation: SB 72, 1985 Session

Federal law treats employer-paid premiums for group health insurance and reimbursement of medical costs by an employer's self-insurance program as a nontaxable fringe benefit if the same benefits are available to all employees. This creates a passive tax expenditure, and the cost to the state is included in the estimate of passive tax expenditures.

When an employer's health plan provides more benefits to a select group of highly compensated employees, such as company executives, major stockholders, or the highest-paid employees, federal law requires these employees to count the difference between their benefits and the benefits available to all employees as taxable compensation. Montana law allowed these select employees to count their extra health insurance benefits as non-taxable fringe benefits.

The 2021 Legislature ended this exemption starting tax year 2024.

The purpose of the federal exclusion is to encourage employers to provide group health insurance by providing preferential treatment for group health plans that cover all employees. The additional state exclusion undermined this purpose by providing the same state tax treatment to plans that cover only select employees.

The following table shows federally taxable health insurance premiums excluded from Montana Adjusted Gross Income since Tax Year 2015.

# Military Salary: 15-30-2117(2), MCA Legislation: HB 152, 1979

**Session: SB 378, 2015 Session**

Montana exempts the military salary of residents who are on active duty in the armed forces. This includes members of the Montana National Guard who are serving in a homeland defense activity or contingency operation.

The following table shows the amount of income subject to this exemption since Tax Year 2015.

**Table 9.26 Active Duty Military Salary**

# Montana Medical Care Savings Accounts: 15-61-101, MCA to 15-61-205, MCA

## Legislation: HB 560, 1995 Session

Federal law has created two mechanisms, the Archer Medical Savings Account and the Health Savings Account, for taxpayers or their employers to set aside pretax funds to pay medical expenses. Deposits to these accounts and distributions from these accounts to pay medical expenses are excluded from Federal Adjusted Gross Income. This means that they also are excluded from Montana Adjusted Gross Income. The tax expenditure from this federal exclusion is in the section on federal adjustments to income.

In Tax Year 1997, the legislature created a similar state program. The main difference is that the federal programs are limited to taxpayers whose only health insurance is a high-deductible policy, while the state program does not have this limitation. The 2023 Legislature (SB 550) also expanded the types of qualified medical expenditures to include any direct fee associated with a direct patient care agreement as well as any expenses paid by a member to a qualified health care sharing ministry. The purpose of these accounts appears to be to encourage taxpayers to set aside funds ahead of time to cover medical costs that will not be covered by insurance.

Before Tax Year 2023, taxpayers could exclude up to $4,500 of their contributions to an account during a year and any withdrawals from an account that are used to pay medical expenses. Starting in Tax Year 2024, the exclusion from taxable income increased to $4,500 and is set to be adjusted each year for inflation. This exclusion means that earnings kept in the account are also not taxed.

Funds may be withdrawn for other purposes, but then the amount withdrawn is treated as income.

The following tables show exempt medical savings account deposits and earnings and taxable withdrawals.

**Table 9.27 Montana Medical Care Savings Accounts**

# National Guard Life Insurance Premiums: 15-30-2117(3)

## Legislation: HB 761, 2005 Session

Before Tax Year 2024, the state would reimburse members of the National Guard or Reserve who were on active duty for premiums they pay for military group life insurance. This reimbursement was treated as income for federal income tax, but the state exempted it from taxation. This exemption increased the after-tax income of Guard and Reserve members, increasing the financial incentive to join or remain in the Guard or Reserves. It also provided an incentive for Guard and Reserve members to purchase military group life insurance.

The National Guard life insurance reimbursements, and the corresponding state income tax exemption for the reimbursements, was eliminated by the 2023 Legislature (HB 89). The reimbursements are no longer available starting Tax Year 2024.

The following table shows exempt Guard and Reserve life insurance premium reimbursements since Tax Year 2015.

**Table 9.29 National Guard Life Insurance Premiums**

# Partial Interest Exclusion for Elderly Taxpayers: 15-30-2110(2)(b), MCA

**Legislation: HB 18, 1981 Session**

Through Tax Year 2023, taxpayers who were at least 65 years old could exclude up to $800 of interest income from their Montana taxable income. This exemption was eliminated starting Tax Year 2024 by the 2021 Legislature.

The following table shows interest income excluded since Tax Year 2015. This exemption provided a limited incentive for retirees to hold interest-paying assets, such as corporate bonds, rather than assets that pay other types of income. The primary effect of the exemption was to reduce tax paid by older taxpayers. However, it also provided a limited incentive for retirees to locate in Montana rather than in a state without a similar exemption.

**Table 9.30 Partial Interest Exclusion for Elderly Taxpayers**

# Partial Pension Exemption: 15-30-2110(2)(c), MCA

## Legislation: HB 232, 1963 Session / SB 226, 1991 Session

Before Tax Year 2024, taxpayers with Federal Adjusted Gross Income below a threshold could have part of their pension income exempted from taxation. For taxpayers with higher incomes, the exemption amount was reduced by $2 for each $1 that the Federal Adjusted Gross Income exceeds the threshold. Both the threshold and the amount exempted were adjusted for inflation each year. For Tax Year 2023, the amount exempted was $5,060 and the threshold was $42,140. Taxpayers with Federal Adjusted Gross Income between $42,140 and $44,670 were eligible for an exemption of less than $5,060, and taxpayers with incomes over $44,670 were not eligible for the exemption. This exemption ended at the end of Tax Year 2023.

This exemption provided a limited incentive to participate in a retirement system and to keep funds in a retirement plan rather than withdrawing them. It also provided a limited incentive for retirees to locate in Montana rather than in a state without a similar exemption. However, this does not appear to have been the legislative purpose. Montana was one of 23 states that originally exempted state employee pensions from the state income tax. This allowed the state to make smaller pension contributions and resulted in some administrative savings.

In addition, the legislature exempted the first $3,600 of income from federal government pensions. In Tax Year 1989, a group of federal government and military retirees sued states that exempted state pensions, including Montana, arguing that states must give them the same exemption. The states lost, with the U.S. Supreme Court ruling that states may tax different types of income differently but may not tax the same type of income differently depending on who paid it. As a result, the states that had exempted state employee pensions changed their laws in a variety of ways. The Montana Legislature eliminated the exemption for state employee pensions but extended the $3,600 partial exemption to all pension income.

The following table shows pension income excluded from taxation since 2015.

**Table 9.31 Partial Pension Exemption**

# Sales of Land to Beginning Farmers: 80-12-211, MCA

**Legislation: SB 316, 1983 Session**

Before Tax Year 2024, Montana allowed taxpayers to exclude up to $50,000 of income from the sale of at least 80 acres to a beginning farmer. To be eligible, a taxpayer's land sale must have been approved by the Montana Department of Agriculture. The deduction provides an incentive for retiring farmers to sell land to someone who will keep it in agriculture rather than convert it to another use.

The following table shows income excluded since Tax Year 2015. Fewer than 10 taxpayers have used the exclusion every year.

**Table 9.32 Sales of Land to Beginning Farmers**

# Small Business Investment Company Dividends: 15-33-106, MCA

**Legislation: HB 834, 1981 Session**

The federal Small Business Investment Act of 1958 created a category of venture capital firms called small business investment companies. Montana law allows taxpayers to exempt capital gains or dividends from a Montana small business investment company. This provides an incentive to invest in these companies rather than in other businesses.

The following table shows income exempted under this provision since Tax Year 2015.

**Table 9.33 Capital Gains from Small Business Investment Companies**

# Loan Repayment Through Quality Educator Loan Assistance Program: 15-30-2110(14), MCA

**Legislation: HB 211, 2019 Session**

Starting Tax Year 2020, taxpayers who received loan repayment assistance during the tax year from the Quality Educator Loan Assistance Program could exclude the assistance amount from their adjusted gross income. The exclusion was limited to a maximum of $5,000 for the tax year. The 2021 Legislature eliminated this exemption starting Tax Year 2024.

The table below shows the cost of this exclusion for Tax Years 2020 through 2023.

**Table 9.34 Educator Student Loan Repayment included in Federal AGI**

# Third-Party Repayment of Health Care Professional's Student Loans: 15-30-2110(12), MCA

**Legislation: SB 408, 2003 Session**

There are several private, federal, and state programs intended to encourage health care professionals to locate in under-served areas by making student loan payments for those who do. Federal law excludes repayments made by certain federal and state programs from taxable income. Montana law excluded qualifying repayments from all programs, including programs provided by private health-care facilities for their employees.

The state cost of the federal exclusion is part of the estimate of passive tax expenditures. The additional state exclusions were eliminated starting Tax Year 2024.

The following table shows the cost of the additional state exclusion since Tax Year 2015.

**Table 9.35 Health Care Professional Student Loan Repayment Included in Fed. AGI**

# Tier I and Tier II Railroad Retirement: Federal Provision

**Legislation: N/A**

Railroad retirement benefits are divided into Tier I and Tier II. Tier I is equivalent to Social Security, and Tier I benefits are taxed the same as Social Security benefits. Tier II benefits are similar to a private pension but are based only on railroad earnings. Both sources of income a potentially taxable at the federal level. However, Montana taxes neither source of income.

The tables below show Tier I and Tier II railroad retirement benefits exempted from Montana taxation.

### Table 9.36 Tier I Railroad Retirement Benefits

# Tip Income and Gratuities: 15-30-2110(2)(f), MCA

## Legislation: HB 841, 1983 Session

Before Tax Year 2024, tips earned while working for a licensed food service, beverage, or lodging establishment were not taxable in Montana. The reasoning behind this exclusion was that tips should be considered voluntary gifts from a restaurant's patrons to its employees, and gifts generally are not included in taxable income. Federal law considers tips to be taxable compensation for providing services. The 2021 Legislature eliminated this exemption starting Tax Year 2024.

The following table shows tips excluded from income since Tax Year 2015.

**Table 9.38 Exempt Tip Income**

# Unemployment Compensation: 15-30-2101, MCA

## Legislation: HB 363, 1979 Session

Federal law taxes unemployment compensation. Before Tax Year 2024, Montana law exempted unemployment compensation from its income tax. Starting Tax Year 2024, however, the exemption for unemployment compensation was eliminated.

The following table shows additional state exemptions for unemployment compensation since Tax Year 2015.

**Table 9.39 Exempt Unemployment Compensation**

# Worker's Compensation: 15-30-2110(2)(g), MCA

## Legislation: SB 72, 1985 Session

Federal law exempts worker's compensation payments, except payments that are reimbursement for medical expenses deducted in an earlier year. Before Tax Year 2024, Montana law also exempted all worker's compensation payments. This additional exemption was eliminated by the 2021 Legislature starting Tax Year 2024. The state revenue loss from the federal exemption is included in the estimate of passive tax expenditures.

The following table shows additional state exemptions for worker's compensation payments since Tax Year 2015.

**Table 9.40 Exempt Unemployment Compensation**

# Itemized Deduction Tax Expenditures

In general, itemized deductions provide a partial subsidy or reimbursement for deductible expenses. The amount of the subsidy depends on the taxpayer's marginal tax rate and on the amount by which itemized deductions exceed the standard deduction.

For a taxpayer whose deductible expenses are less than their standard deduction, the fact that an expense is deductible provides no extra benefit to the taxpayer and no cost to the state general fund.

For a taxpayer whose deductible expenses are more than their standard deduction, an extra $100 of itemized deductions reduces tax liability by $100 multiplied by the marginal tax rate.

For example, a taxpayer with taxable income of $6,000 in Tax Year 2023 would be in the 2 percent state tax bracket and the 10 percent federal tax bracket. An additional $100 deduction would reduce this person's state tax liability by $2 and federal tax liability by $10, for a total of $12 if the taxpayer itemizes their deductions. The $100 expenditure that was the basis of the deduction cost the taxpayer $88 and cost the state and federal governments, and ultimately other taxpayers $12.

A taxpayer with a taxable income of $500,000 in 2023 was in the 6.75 percent state tax bracket and the 35 percent federal tax bracket. An additional $100 deduction would reduce this person's state tax liability by $6.75 and federal tax liability by $35, for a total of $41.75 if the taxpayer itemizes. The $100 expenditure that was the basis of the deduction cost this taxpayer $58.25 and cost the state and federal governments, and ultimately other taxpayers $41.75.

Not all itemized deductions are considered tax expenditures. For example, itemized deductions that allow taxpayers to deduct costs of earning income are generally not considered tax expenditures. An example of this type of deduction is the deduction of gambling losses. Taxpayers who report income from gambling can deduct gambling losses up to the amount of reported winnings. This makes the income tax apply to net winnings from gambling.

## Before Tax Year 2024

Prior to Tax Year 2024, Montana law generally allowed itemized deductions also allowed by federal law (15-30-2131(1)(a), MCA). There were a few exceptions where Montana law specifically disallowed a federal deduction. Montana law also allowed several itemized deductions that are not allowed by federal law. These additional deductions included the deduction for medical insurance premiums, long-term care insurance premiums, and federal income taxes paid.

## Starting Tax Year 2024

After Tax Year 2024, Montana's personal income tax moved from being based on Federal Adjusted Gross Income to Federal Taxable Income. Under this new structure, Montana specific deductions, both standard and itemized, were eliminated and taxpayers determined their Montana taxable income based on federal deduction amounts. The only adjustment to the federal deductions amounts is to add back any Montana income tax deducted at the federal level.

# Casualty and Theft Losses: Federal Provision

**Legislation: N/A**

Federal and Montana law allows taxpayers to take an itemized deduction for the uncompensated theft, damage, or destruction of non-business property that exceeds 10 percent of the taxpayer's adjusted gross income. Casualty and theft losses of business property are deducted as a business expense in calculating adjusted gross income.

Starting in Tax Year 2018, the deduction is limited to losses attributable to a federally declared disaster.

This deduction essentially treats the value of a taxpayer's significant property loss as an offset to income. This reduces the incentive to insure or protect property against theft, damage, or other losses.

The following table shows itemized deductions for casualty and theft losses for Tax Years 2015 through 2023.

**Table 9.41 Casualty and Theft Losses**

| | Residents | | Nonresidents | | Part-Year Residents | | Total | |

# Charitable Contributions: Federal Provision

**Legislation: N/A**

Federal and Montana law allows an itemized deduction for charitable contributions. In any year, this deduction is limited to 50 percent of the taxpayer's adjusted gross income. In addition, gifts to certain types of charities and certain types of gifts are subject to lower limits. A taxpayer whose contributions exceed the limit may carry the excess contributions forward and deduct them in a later tax year. The deduction provides an incentive for taxpayers to contribute to tax-exempt charities by making the taxpayer's cost of the donation less than the amount the charity receives.

The following tables show itemized deductions for contributions for Tax Years 2015 through 2023.

## Table 9.42 Charitable Contributions

# Child and Dependent Care Expenses: 15-30-2131(1)(c), MCA

## Legislation: HB 47, 1977 Session

Montana law allowed an itemized deduction for up to $4,800 for the expenses of maintaining a household for or providing care for certain dependents while the taxpayer is at work or looking for a job. The dependent could have been a child under 15 or any person who was unable to care for him or herself while the taxpayer is at work. To qualify for the deduction, the taxpayer and spouse, if married, must have had combined Montana Adjusted Gross Income of less than $22,800 if caring for one eligible dependent. The income limit was $25,200 if the taxpayer was caring for two dependents and $27,600 for three or more dependents.

Federal law allows taxpayers to claim a credit rather than an itemized deduction for dependent care expenses. The conditions for claiming the federal credit are similar to the conditions for claiming the state deduction.

This deduction reduced the cost of working for taxpayers who had a child or other dependent to care for. It provided an incentive to engage in paid work and pay to have the dependent cared for rather than to provide the care personally.

This deduction was eliminated at the end of Tax Year 2023.

The table below shows itemized deductions for child and dependent care expenses for Tax Years 2015 through 2023.

# Federal Income Tax: 15-30-2131(1)(b), MCA

## Legislation: HB 328, 1933 Session

Montana law allowed an itemized deduction for federal income tax paid during the year with a limit of $5,000 for a single taxpayer or married taxpayer filing separately and $10,000 for a married couple filing a joint return. Before 2005, there was no upper limit on this deduction.

The cap was introduced by SB 407 (2003 legislative session). The sponsors of this legislation had several goals, which included reducing income tax revenue, lowering the top marginal rate, reducing the number of rate brackets, making the brackets narrower, eliminating the itemized deduction for federal taxes, and having no income group pay more than under prior law. It proved impossible to fully meet all these goals, and the capped deduction was kept, preventing the narrower rate brackets from increasing taxes on middle-income taxpayers. The 2003 Legislature chose not to index the cap for inflation, so that, in real terms, the cap will decrease over time.

This deduction partially or completely avoided having the state levy income tax on income paid to the federal government as income tax. It also had the same effect on taxpayers as having lower tax rates for taxpayers who itemize deductions and whose income put them below the cap on this deduction. This is because each extra dollar of income increased adjusted gross income by 1 dollar but also increased itemized deductions by the federal marginal tax rate times 1 dollar. Thus, an extra dollar of adjusted gross income translated into less than an extra dollar of taxable income.

For example, a single taxpayer with taxable income of $25,000 in Tax Year 2023 would be in the 6.75 percent state tax bracket and the 12 percent federal tax bracket. An additional $100 of income would result in an additional $12 of federal income tax, for an $88 increase in taxable income. Applying the 6.75 percent rate to $88 provides additional tax of $5.94, for an effective marginal tax rate of about 5.9 percent rather than 6.75 percent. For a taxpayer whose federal taxes are above the cap on the deduction, the effective marginal tax rate is 6.75 percent.

This deduction was eliminated starting Tax Year 2024

The following table shows itemized deductions for federal income tax for Tax Years 2015 through 2023.

# Home Mortgage Interest and Insurance Premiums: Federal Provision

**Legislation: N/A**

Federal and state law allow an itemized deduction for home mortgage interest paid during the tax year. The deduction of interest is limited to the first $750,000 of debt that is incurred after December 2017. In addition, taxpayers cannot deduct interest paid on equity indebtedness for Tax Years 2018 through 2025.

Federal and state law also allow taxpayers to deduct the mortgage insurance premiums paid for mortgage insurance issued after Tax Year 2006. Federal law considers mortgage insurance premiums to be part of mortgage interest, and Montana law follows federal law on this point.

The deduction for home mortgage interest and mortgage insurance provides an incentive for home ownership and a disincentive for taxpayers to pay off their mortgages.

The following table shows itemized deductions for home mortgage interest and insurance.

**Table 9.47 Home Mortgage Interest**

| | Residents | | Nonresidents | | Part-Year Residents | | Total | |

# Light Vehicle Registration Fees: 15-30-2131(1)(h), MCA

**Legislation: HB 540, 1999 Session**

Before Tax Year 2024, Montana taxpayers were allowed to deduct any light vehicle registration fees paid by the taxpayer for a Montana vehicle during the tax year from their income. Before Tax Year 2018, this deduction was reported with other personal property taxes when the taxpayer itemized their deductions. However, the federal deduction limitation for state and local taxes does not apply to Montana light vehicle registrations and was separated on Montana's income tax return starting in Tax Year 2018.

The exemption of light vehicle registration fees from taxable income provided an incentive for vehicle ownership. In addition, as the registration rate is higher for newer vehicles, the deduction also provided an incentive for taxpayers to operate newer vehicles.

This state deduction was eliminated starting Tax Year 2024.

The following table shows the deductions claimed for light vehicle registration fees for Tax Year 2018 through 2023.

**Table 9.48 Light Vehicle Registration Fees**

# Long-Term Care Insurance Premiums: 15-30-2131(1)(a)(iv), MCA

**Legislation: SB 151, 1997 Session**

In addition to the federal deduction for medical expenses, Montana law allowed an itemized deduction for all unreimbursed long-term care insurance premiums. As with medical insurance premiums, long-term care premiums could not be claimed as an itemized deduction if they were claimed as an above-the-line deduction in calculating adjusted gross income. In addition, a taxpayer could not claim a deduction for premiums that were part of the expense qualifying for the elderly care credit.

This deduction provided a partial subsidy to taxpayers who buy long-term care insurance.

The following table shows itemized deductions for medical insurance premiums for Tax Years 2015 through 2023.

# Medical and Dental Expenses: Federal Provision

**Legislation: N/A**

Both federal and state law allow an itemized deduction for a portion of the taxpayer's unreimbursed medical and dental expenses. Expenses paid directly by another party or which are reimbursed by insurance are not deductible. Premiums for health insurance and long-term care insurance are considered deductible medical expenses.

In Tax Year 2012, the deduction for expenses was more than 7.5 percent of adjusted gross income. Beginning in Tax Year 2013, taxpayers younger than 65 could only deduct expenses that are more than 10 percent of adjusted gross income. Federal tax law changes lowered the expenses threshold to 7.5 percent for all taxpayers until Tax Year 2020. Beginning in Tax Year 2020, the 10 percent threshold will apply to all taxpayers. This deduction provides a partial reimbursement or subsidy for taxpayers who have high unreimbursed medical expenses in a year.

The table below shows itemized deductions for medical and dental expenses for Tax Years 2015 through 2023.

**Table 9.50 Medical Expenses**

# Medical Insurance Premiums: 15-30-2131(1)(a)(iii), MCA

**Legislation: HB 202, 1995 Session**

In addition to the federal deduction for medical expenses, Montana law allowed an itemized deduction for all unreimbursed health insurance premiums. Insurance premiums could not be claimed as an itemized deduction if they were claimed as an above-the-line deduction in calculating adjusted gross income. This would be the case for a self-employed taxpayer who deducted premiums as a business expense, an employee who had premiums excluded as a fringe benefit, or if the taxpayer paid the premiums with pre-tax funds from a medical savings account.

This deduction was eliminated at the end of Tax Year 2023.

This deduction provided a partial subsidy to taxpayers who buy their own health insurance.

The following table shows itemized deductions for medical insurance premiums for Tax Years 2015 through 2023.

**Table 9.51 Medical Insurance Premiums Not Deducted Elsewhere**

# Per Capita Livestock Fees: 15-30-2131(1)(i), MCA

## Legislation: HB 124, 2001 Session

Montana taxpayers were able to deduct the per capita livestock fees paid by the taxpayer during the tax year from their income. Before Tax Year 2018, this deduction was reported with other personal property taxes when the taxpayer itemized their deductions. However, the federal deduction limitation for state and local taxes does not apply to Montana livestock fees and was separated on Montana's income tax return starting Tax Year 2018.

This deduction was eliminated starting Tax Year 2024.

The exemption of livestock fees from taxable income reduced the cost of having livestock subject to the fee. This exemption provided an incentive for livestock ownership.

The following table shows the deductions claimed for per capita livestock fees for Tax Years 2018 through 2023.

**Table 9.52 Per Capita Livestock Fees**

# Political Contributions: 15-30-2131(1)(d), MCA

## Legislation: HB 407, 1979 Session

Montana law allowed taxpayers an itemized deduction for up to $100 of contributions to candidates for political office or to political parties. Federal law does not allow a comparable deduction. This deduction provided a subsidy for taxpayers making political contributions totaling up to $100.

The last year to claim this deduction was Tax Year 2023.

The following table shows itemized deductions for political contributions for Tax Years 2015 through 2023.

**Table 9.53 Political Contributions**

# Other Deductible Taxes: Federal Provision

## Legislation: N/A

Federal and state law allows itemized deductions for several other types of taxes, including the generation-skipping transfer tax and income taxes paid to other countries. This deduction avoids having the state levy income tax on income paid as tax to the United States or another country. As with other deductions for taxes, the effect on taxpayers is similar to having lower rates as long as taxpayers with higher incomes tend to pay more of the deductible taxes.

The following table shows itemized deductions for other taxes from Tax Years 2015 through 2023.

**Table 9.54 Other Deductible Taxes**

| | Residents | | Nonresidents | | Part-Year Residents | | Total | |

# State and Local Taxes: Federal Provision

**Legislation: N/A**

Federal law allows taxpayers to choose an itemized deduction for state and local taxes paid. The deduction applies to state and local sales taxes, local income taxes, real estate taxes paid, and value based personal property taxes. State income taxes are excluded from this deduction for Montana income taxes.

Starting in Tax Year 2018, federal tax law changes limited this deduction to $10,000 for taxpayers who file tax returns as single, head of household, or married filing jointly tax. For taxpayers who are married filing separately, the deduction is limited to $5,000 for each taxpayer.

The effect of this deduction on taxpayers is like the effect of the deduction for federal taxes. Formally, it avoids having the state levy income tax on income paid as tax to another state or political subdivision of another state. Practically, it is essentially equivalent to a lower tax rate for taxpayers who pay sales tax or local income tax in another state and itemize deductions.

For example, a taxpayer who lives in another state but has Montana income spends 90 percent of any extra income on purchases that are subject to their home state's 8 percent sales tax.

For every $100 of extra income, this person will have $7.40 of extra sales tax deductions, so that an extra $100 of gross income is only $92.80 of taxable income. If they were in the 6.75 percent top rate bracket, their effective marginal rate was 6.26 percent (6.75 percent x $92.80).

The table below show itemized deductions for state and local taxes.

**Table 9.55 State and Local Tax Deduction Limited to $10,000**

# Tax Credits

Tax credits offset tax liability for taxpayers who make specified expenditures or take specified actions. Tax credits are not part of the basic structure of the income tax and are therefore tax expenditures. Credits generally give taxpayers an incentive to make certain expenditures by providing a partial subsidy for those expenditures, which lowers the taxpayer's cost. The amount of subsidy a taxpayer receives depends on whether the taxpayer can also claim a federal deduction or credit, whether the taxpayer could claim a state deduction for the same expenditure, and whether the taxpayer must choose between a state deduction and the state credit, or can claim both.

For each credit, this section shows taxpayer subsidies, taking the interactions of state and federal taxes into account, for taxpayers whose federal taxes are above and below the cap on the state deduction for federal taxes.

Sometimes, a taxpayer will have a credit or combination of credits that is greater than their tax liability. If a credit is refundable, the taxpayer receives a direct subsidy equal to the difference between the credit and tax liability, and the cost to the general fund is the full amount of the credit. If a credit is non-refundable but has a carry-over provision, any excess of the credit over tax liability must be carried forward and applied against tax liability in a later year.

The current cost to the general fund is limited to the tax liability of taxpayers claiming the credit, but some credits claimed one year may be carried forward and reduce general fund revenue in future years. Also, part of the credits claimed in the current year may have been carried forward from earlier years. If a credit is non-refundable and cannot be carried over, the cost to the general fund is limited by the current tax liability of taxpayers claiming the credit.

The 2021 Individual Income Tax reform bill (SB 399) eliminated several of Montana's income tax credits, with 17 credits eliminated starting in Tax Year 2022.

## Adoption Credit: 15-30-2364, MCA

**Legislation: HB 490, 2007 Session**

The Internal Revenue Code allows an income tax credit for costs of adopting a child.

Before Tax Year 2023, a taxpayer who meet the requirements for the federal credit could also claim a credit of $1,000 against their Montana income tax. If the credit was more than the taxpayer's liability, the excess was not refunded, but excess credits could be carried forward for up to five years. This credit was first available in Tax Year 2007 and expired in Tax Year 2022.

Starting Tax Year 2023, however, the state adoption credit was brought back, but was changed significantly. Under the new credit, taxpayers could claim a Montana adoption credit for a qualified adoption even if they did not claim the federal credit. The credit amount was also increased to $7,500 if the eligible child was in foster care under the custody of the state when adopted. If the child was not under the custody of the state, taxpayers would qualify for a $5,000 credit on the year the adoption was finalized. The credit was also made fully refundable.

The following table shows credits claimed for Tax Years 2015 through 2023.

**Table 9.56 Adoption Credit**

| TY | Residents | | Nonresidents | | Part-Year Residents | | Total | |
|---|---|---|---|---|---|---|---|---|
| | N | $ | N | $ | N | $ | N | $ |
| 2015 | 183 | $219,789 | 23 | $27,367 | 10 | $10,594 | 216 | $257,750 |
| 2016 | 185 | $222,618 | 14 | $12,591 | 10 | $12,582 | 209 | $247,791 |
| 2017 | 175 | $205,210 | 17 | $16,291 | * | $5,582 | * | $227,083 |
| 2018 | 151 | $179,974 | * | $7,888 | * | $12,000 | * | $199,862 |
| 2019 | 138 | $182,016 | 12 | $13,169 | * | $8,453 | * | $203,638 |
| 2020 | 108 | $148,946 | * | $4,039 | * | $1,000 | * | $153,985 |
| 2021 | 126 | $153,283 | * | $10,000 | * | $14,714 | * | $177,997 |

** Not disclosed due to confidentiality concerns*

In Tax Year 2023, taxpayers reported $1,906,579 Adoption credits on their returns.

# Apprenticeship Credit: 15-30-2357, MCA and 39-6-109, MCA

**Legislation: HB 308, 2017 Session**

State taxpayers are allowed a credit for employing an apprentice or veteran apprentice as a new employee in a state-registered apprenticeship training program. The credit is worth $750 per approved apprentice, or $1,500 per approved veteran apprentice, and may only be claimed for five years per apprentice.

The credit is non-refundable and cannot exceed the individual's tax liability.

This credit was first available in Tax Year 2018. The table below shows the credits reported on income tax returns for Tax Years 2018 through 2023.

**Table 9.57 Apprenticeship Credit**

| TY | Residents | | Nonresidents | | Part-Year Residents | | Total | |

# Capital Gains Credit: 15-30-2301, MCA

**Legislation: HB 407, 2003 Session**

A taxpayer has a gain or loss when the price of an asset the taxpayer owns changes and the change is not equal to depreciation on the asset. Gains and losses are realized when the taxpayer sells the asset. A taxpayer has unrealized gains or losses when the market value of an asset is more or less than the taxpayer's basis, which usually is the purchase price minus depreciation.

In most cases, gains or losses on asset sales are considered capital gains or losses and are given special tax treatment by both federal and Montana law. In some cases, where an asset's book value is less than its market value because of excess depreciation, part or all of the gain from its sale is taxed as ordinary income.

Both federal law and Montana law require taxpayers to recognize gains and losses when assets are sold, rather than when the price change occurs. Gains and losses in the same year are netted against each other. If the result is a net gain, it is taxed that year. A net loss of up to $3,000 ($1,500 for a married taxpayer filing a separate return) may be used to offset other income in the same year, and any loss over this limit must be carried forward to the next year.

Federal law taxes income from capital gains and corporate dividends at lower rates than ordinary income.

Before Tax Year 2024, Montana did not have separate rates for different types of income but did allow a credit equal to 2 percent of capital gains income. If the capital gains credit exceeded the taxpayer's tax liability, the excess credit was not refunded and may not be carried forward or backward to other tax years. This credit was equivalent to taxing capital gains at a lower rate than other income. With the credit, a taxpayer in the top income bracket would be taxed at 6.75 percent on an additional dollar of ordinary income, but at 4.75 percent on an additional dollar of capital gains income.

Starting Tax Year 2024, the 2 percent capital gains tax credit was eliminated. Instead, two different tax rates were created specifically for net-long-term capital gains income. Like at the federal level, these new rates tax capital gains income a rate lower than non-capital gains income. The new tax rates for capital gains income were 3 percent and 4.1 percent.

The income tax would not affect taxpayers' choices between assets that yield a stream of income and assets that provide a return through appreciation if:

- capital gains were taxed (and capital losses were deducted) when they accrue rather than when they are realized
- if capital gains were taxed at the same rate as ordinary income, and
- gains and losses were calculated after adjusting the taxpayer's basis for inflation

In most cases, the preferential treatment of capital gains income creates incentives for taxpayers to invest in assets that produce capital gains rather than producing a stream of income, for taxpayers to make riskier investments, and for taxpayers to hold assets that have appreciated and sell assets that have lost value. However, these incentives may be reversed if taxpayers expect asset price increases to be offset by inflation.

The following table shows capital gains credits for Tax Years 2015 through 2023. The reduction in income tax revenue is less than the total amount of credits claimed because some taxpayers reach zero tax liability without using all of their credit.

**Table 9.58 Capital Gains Credit**

# Credit for Other States' Taxes: 15-30-2302, MCA

**Legislation: HB 38, 1941 Session**

Taxpayers who earn income in more than one state generally will owe tax in each of those states where the taxpayer has an income tax. A Montana resident computes Montana income tax on their entire income and then is allowed a credit for income tax paid to other states. A non-resident or part-year resident computes Montana income tax on their entire income and then multiplies that by the percentage of income earned in Montana to find Montana tax liability. A part-year resident is then allowed a credit for income tax paid to another state on income also taxed in Montana.

If the credit is more than the taxpayer's liability, the excess credit is not refunded and may not be carried forward or backward to another tax year.

This credit prevents two states from taxing the same income. Not having a credit for income tax paid to other states would create a disincentive for individuals to work or have business interests in more than one state. The following table shows the credits claimed for Tax Years 2015 through 2023.

**Table 9.59 Credit for Other States' Taxes**

| | Residents | | Nonresidents | | Part-Year Residents | | Total | |
|---|---|---|---|---|---|---|---|---|
| TY | N | $ | N | $ | N | $ | N | $ |

# Earned Income Tax Credit: 15-30-2318, MCA

## Legislation: HB 391, 2017 Session

Individual taxpayers with income from working or owning a business can claim the federal Earned Income Tax Credit if they meet the requirements and file a federal tax return. The credit is determined by the amount of income and number of qualified dependents the taxpayer reports. With zero qualifying children, a taxpayer could receive a federal tax credit of up to $600 in Tax Year 2023, depending on their income. The maximum credit amounts in Tax Year 2023 increased to $3,995 for taxpayers with one qualifying child, $6,604 for two children and $7,430 for three or more. The federal credit is fully refundable.

When first created, taxpayers in Montana were allowed a credit equal to 3 percent of the federal Earned Income Tax Credit on their state income taxes. Starting Tax Year 2024, Montana's credit was increased to 10 percent of the federal credit.

Montana's credit was enacted by the 2017 Legislature and expanded by the 2023 Legislature. The state credit is also fully refundable.

The table below has the number of credits reported on returns through Tax Year 2023.

**Table 9.60 Earned Income Tax Credit**

| 2023 | 56,502 | $3,943,201 | 0 | $0 | 2,760 | $104,649 | 59,262 | $4,047,850 |

# Elderly Homeowner/Renter Credit: 15-30-2337 to 15-30-2341, MCA

## Legislation: SB 337, 1981 Session

Taxpayers who are age 62 or older and have a household income of less than $45,000 may be eligible for the Elderly Homeowner/Renter Credit. The credit refunds part or all of the property tax a homeowner pays directly, or a renter pays indirectly, that is more than a certain percentage of household income. For a household with income between $12,000 and $45,000, this percentage is 5 percent. For households with lower incomes, the credit refunds part or all of property taxes above a smaller percent of income. For taxpayers with income between $2,000 and $2,999, the credit refunds part or all of property taxes above 0.6 percent of income. The credit is limited to a maximum of $1,150 per household. The credit phases out for households with income between $35,000 and $45,000.

Taxpayers who receive the Elderly Homeowner/Renter Credit pay their property taxes and then receive a partial refund. Local governments, school districts, the university system, and the state general fund all receive full payments of property taxes on these taxpayers' residences. Then, taxpayers are refunded part of the tax they paid via this credit, which reduces revenue going to the general fund.

This credit is essentially a property tax refund administered through the income tax system. The credit could be considered a tax expenditure either for the income tax or the property tax.

This credit provides a subsidy for older taxpayers who own their home and whose income is no longer proportional to the value of their home, to help them stay in their homes. For older taxpayers who rent, it subsidizes the rent they pay.

Taxpayers who claim the credit may take an itemized deduction for property taxes on their homes. For a taxpayer who takes the state and federal standard deductions, the credit reduces state income tax by $1 for each $1 by which the taxpayer's property tax exceeds the credit percentage for their income. If the taxpayer itemizes deductions, the credit reduces the federal deduction for state taxes, which increases federal income tax. This increases the state deduction for federal taxes, further reducing state taxes.

A taxpayer who is eligible for the credit may be in any state rate bracket but is likely to be in the 10 percent or 12 percent federal brackets. The table below shows: federal and state subsidies for a taxpayer in the top state and 12 percent federal rate brackets who claims the credit and itemizes; the federal and state subsidies if the taxpayer itemizes but does not claim the credit; and the difference due to the credit.

For a taxpayer who itemizes, the credit reduces the federal deduction for state taxes by the amount by which the federal deduction for property taxes exceeds the credit percentage.

The tables below show the credits claimed with income tax returns for Tax Years 2015 through Tax Year 2023.

### Table 9.61 Elderly Homeowner / Renter Credit Offsetting Factors

| Taxpayer Claims Credit and Federal and State Deductions | |
|---|---|
| Federal Tax Subsidy | -$0.82 |

# Historic Property Preservation Credit: 15-30-2342, MCA and 15-31-151, MCA

## Legislation: HB 601, 1997 Session

Taxpayers may take a credit against either individual income tax or corporation income tax for costs of rehabilitating a certified historic building. The credit is 25 percent of the federal credit allowed by 26 U.S.C. 47(a)(2). The federal credit is 20 percent of the cost of rehabilitation. A certified historic building must either be in the National Register of Historic Buildings or be in a designated historic district and be certified by the Department of the Interior as having historic significance to the district. Only commercial buildings that can be depreciated are eligible for the credit. No credits may be claimed for rehabilitating a private residence. This credit is effectively a subsidy from the state general fund for rehabilitation of privately owned real estate.

Through Tax Year 2011, individuals were allowed a credit against income tax for 20 percent of the costs and loss of value from creating a conservation easement and protecting and preserving the property as required by the conservation easement.

There is no maximum for the rehabilitation credit. If the credit is more than the taxpayer's liability, the excess is not refunded but may be carried forward for seven years.

The rehabilitation credit was enacted by the 1997 Legislature (HB 601). The conservation easement credit was enacted by the 2001 Legislature (HB 619) and was sunset at the end of Tax Year 2011.

With the combination of state and federal credits, a taxpayer who rehabilitates a historic property can have 25 percent of the costs paid by the federal and state governments. Claiming the credits does not reduce the depreciation the taxpayer may take over the life of the building. If the taxpayer itemizes, the state credit will reduce the taxpayer's federal deduction for state taxes, and the federal credit may reduce the taxpayer's state deduction for federal taxes. The following table shows the net federal and state tax subsidies for a taxpayer in the top state and federal rate brackets.

**Table 9.63 $100 Expenditure for Historic Building Rehabilitation**

| Taxpayer Claims State and Federal Credits | | |
|---|---|---|
| | Deduction for Federal Taxes | |
| | Capped | Not Capped |
| Federal Tax Subsidy | $18.15 | $18.61 |
| State Tax Subsidy | $5.00 | $3.74 |
| Net Taxpayer Subsidy | $23.15 | $22.36 |

The following table shows credits taken against individual income tax for Tax Years 2015 through 2023.

# Infrastructure Users Fee Credit: 17-6-316, MCA

## Legislation: SB 100 and HB 602, 1995 Session

The Board of Investments may make loans to local governments to finance infrastructure to serve a new or relocated business that will result in 15 or more new full-time jobs. The local government may charge fees to the users for extending the infrastructure. The business may claim a credit against income or corporation tax for the amount of the fee it pays.

If the credit is more than the taxpayer's liability, the excess is not refunded, but may be carried forward for seven years or carried back to the three previous tax years. The credit has not been amended since it was enacted.

This credit, in effect, pays the taxpayer for having local infrastructure extended to serve its business. For example, if a business pays $100 per year to its local government to cover the cost of having sewer service extended to the business, it can claim a credit of $100 and deduct $100 as a business expense. For a taxpayer in the 6.75 percent tax bracket, the net effect would be the same as being paid $6.75 per year to have a new sewer hookup. However, if the taxpayer is an individual who itemizes deductions, the taxpayer's federal deduction for state taxes will be smaller, resulting in higher federal taxes. This may result in a smaller state deduction for federal taxes. The table below shows the net change in federal and state taxes and the net subsidy from claiming a $100 credit for a taxpayer in the top federal and state tax rate brackets.

**Table 9.65 $100 Expenditure on Infrastructure Fees**

| Taxpayer Claims State and Federal Credits | | |
|---|---|---|
| | Deduction for Federal Taxes | |
| | Capped | Not Capped |
| Federal Tax Subsidy | -$37.00 | -$37.95 |
| State Tax Subsidy | $100.00 | $102.56 |
| Net Taxpayer Subsidy | $63.00 | $64.61 |

The following table shows credits against individual income tax for Tax Years 2015 through 2023.

** Not disclosed due to confidentiality concerns*

In general, local governments recover the cost of infrastructure investments through user fees for the services the infrastructure provides, as with water and sewer services, or through taxes, as with roads. In some cases, local governments charge impact fees to cover the cost of extending infrastructure to new developments. Through this credit, the state general fund pays the cost of extending infrastructure to selected new businesses. This credit provides a subsidy for businesses that locate into a jurisdiction that needs to invest in additional infrastructure to provide services to the business rather than in a jurisdiction that has existing capacity.

# Innovative Educational Program Credit: 15-30-3110, MCA

**Legislation: SB 410, 2015 Session**

Taxpayers are allowed a credit against any pre-approved donation to the state's educational improvement account. Through Tax Year 2021, the credit was limited to $150 per taxpayer, with a limit of $300 for taxpayers who file a joint return. Starting Tax Year 2022, the maximum credit for each taxpayer was increased to $200,000. The credit is proportional to the size of the donation made by the taxpayer, up to the credit limit. The credit is non-refundable and can be claimed by individuals, corporations, partnerships, small businesses, estates, and trusts.

The credit was first available in Tax Year 2016. The total amount of credits that can be claimed each tax year is capped, with a limit of $3 million in total credits in Tax Year 2021. The maximum credit amount was reduced to $1 million for Tax Year 2022 and $2 million in Tax Year 2023. The 2023 Legislature (HB 408) increased the maximum credit amount to $5 million in Tax Year 2024.

This credit effectively pays the taxpayer for donating to the state's education improvement account. For example, if an individual donates $100 to the improvement account, they will be able to claim a credit of $100. However, if the taxpayer is an individual who itemizes their deductions, the taxpayer's federal deduction for state taxes will be smaller, resulting in higher federal taxes.

This may result in a smaller state deduction for federal taxes. The table below shows the net change in federal and state taxes and the net subsidy from claiming a $100 credit for a taxpayer in the top federal and state tax rate brackets who itemize their deductions.

**Table 9.67 $100 Contribution to Innovative Educational Program**

| Taxpayer Claims State and Federal Credits | | |
|---|---|---|
| | Deduction for Federal Taxes | |
| | Capped | Not Capped |
| Federal Tax Subsidy | -$37.00 | -$37.95 |
| State Tax Subsidy | $100.00 | $102.56 |
| Net Taxpayer Subsidy | $63.00 | $64.61 |

The following table shows the credits claimed on individual income tax returns for Tax Years 2016 through 2023.

# Job Growth Incentive Credit: 15-30-2361, MCA

## Legislation: HB 629, 2021 Session

Since Tax Year 2022, taxpayers have been able to claim an individual income tax credit for half the Federal Insurance Contributions Act (FICA) paid by an employer for qualified new employees.

To qualify for the credit, an employer must hire new qualifying employees that are associated with a project in the state that "encourages, promotes, and stimulates economic development in the sectors of construction, natural resources, mining, agriculture, forestry, manufacturing, transportation, utilities, or outdoor recreation." The employer must also have net employee growth associated with the qualifying project.

To qualify, new employees must have been hired towards the qualifying project. They must also have an annual wage that is above the qualifying cutoff amount, which is adjusted each year for inflation. The qualifying income amounts were $50,000 in 2022 and $54,530 in 2023. Qualifying employees must also work at least 6 months in the year the credit is being claimed.

If an employer meets the credit requirements, they must apply for a tax credit certificate from the Montana Department of Labor and Industry before they can claim the credit. If the Department of Labor and Industry determines the businesses has met all the necessary requirements, they will issue a credit certificate. With the credit certificate, the employer can claim the Job Growth Incentive credit on their personal income tax returns.

The credit is non-refundable, but taxpayer can carryforward unused credit amounts for up to 10 years. The credit is currently set to expire in Tax Year 2028.

This credit is unique in that the use of this credit is not considered confidential taxpayer information. Taxpayers who claim the credit consent to the Department of Revenue reporting their use of the credit to the Revenue Interim Committee and Department of Labor and Industry. They also consent to the release of the number of employees used to claim the credit and the number of credits claimed.

The following table shows the credits claimed on individual income tax returns for Tax Years 2022 and 2023.

**Table 9.69 Job Growth Incentive Credit**

| | Residents | | Nonresidents | | Part-Year Residents | | Total | |

# Media Production Credit: 15-31-1001 through 1012, MCA

**Legislation: HB 293, 2019 Session**

Media production companies, and their affiliates, are allowed to claim a credit against their individual or corporate income taxes for any investments made by a state-certified production in the state during the tax year. To claim the credit, the production company must have been approved by the Department of Commerce. The credit is equal to 20 percent of the production expenditures made in Montana during the tax year. Additional credits are allowed for the production based on the compensation provided to residents and non-residents, equipment purchases or rentals, or for spending in underserved areas of the state. In total, up to 35 percent of the production company's base investments can be claimed as credits by the qualified company.

Any unused credits can be carried forward for up to five years or can be transferred to a different taxpayer for the tax year. Transferred tax credits sold by the production companies must be purchased at a price that is equal to at least 85 percent of the credits value. The total number of credits that can be claimed are limited to $12 million each tax year.

The following table shows the credits claimed on individual income tax returns for Tax Years 2020 through 2023.

**Table 9.70 Media Production Credit**

# Qualified Endowment Credit: 15-30-2327, MCA through 15-30-2329, MCA

**Legislation: HB 434, 1997 Session**

Individual taxpayers are allowed a credit of 40 percent of the present value of a planned gift to a qualified endowment, which is a permanent fund held by or on behalf of a 501(c)(3) charitable organization. A planned gift is one of nine types of arrangements specified in the IRS code. Planned gifts basically fall into three categories. In the first, the donor continues to receive income or benefits from the donated assets, either for a fixed term or for life, and the endowment receives the assets at the end of the term or when the donor dies. Examples include charitable remainder trusts and life estate arrangements. In the second category, the endowment receives income from the assets, generally for a fixed term, and then the assets revert to the donor or the donor's heirs. Charitable lead trusts fall into this category. The third category of planned gifts is paid-up life insurance.

Corporations are allowed a credit of 20 percent of a gift to a qualified endowment. Because the concept of planned gifts only makes sense for individuals, corporations are only allowed the credit for an outright gift.

Before Tax Year 2024, the credit was limited to $10,000. Starting Tax Year 2024, the maximum credit amount was increased a maximum of $15,000. A taxpayer with a credit that is larger than their tax liability will not be refunded the excess, and excess credits may not be carried forward or backward to another tax year. A taxpayer may claim the credit for multiple gifts in one year, as long as total credits do not exceed $15,000. A taxpayer who makes eligible contributions in multiple years may take the credit each year. An individual will receive the maximum credit for a gift with a present value of $37,500. A corporation will receive the maximum credit for a gift of $75,000.

The credit originally was 50 percent of the present value of the planned gift with a limit of $10,000. The credit was to sunset at the end of Tax Year 2001. The 2001 Legislature (HB 377) reduced the credit to 40 percent of the present value of the planned gift for individuals and 20 percent of the value of the gift for corporations. It also clarified the definition of planned gift and extended the sunset date to the end of Tax Year 2007. The 2001 Legislature (SB 350) also created an affordable housing revolving loan program and made contributions to the account for this program eligible for the credit. This provision sunset at the end of Tax Year 2004, and the Legislature did not extend it. In August 2002, the Montana legislature met in a special session to deal with revenue shortfalls.

To reduce the costs of the credit in the short run, the Legislature (SB 15) reduced the credit for the period from August 28, 2002, through June 30, 2003, to 30 plrcent for individuals and 13.3 percent for corporations, with a cap of $6,600. The same bill increased the credit for the period from July 1, 2003, to April 30, 2004, to 50 percent for individuals and 26.7 percent for corporations, with a cap of $13,400. The credit returned to its previous levels on May 1, 2004. The 2003 Legislature (SB 143) defined the term "charitable gift annuity" in Montana Code Annotated Title 33, which deals with insurance, and made the credit language refer to that definition. The 2005 Legislature (HB 193) provided for recapture of the tax credit when a gift is returned to the taxpayer. The 2007 Legislature (SB 150) clarified that a building fund or other fund that spends from contributions rather than just from its earnings is not a charitable endowment. SB 150 also extended the sunset date to the end of 2013. The 2013 Legislature (SB 108) extended the sunset date to the end of Tax Year 2019. The credit was extended again during the 2019 Legislature (SB 111) to the end of Tax Year 2025. The 2023 Legislature (SB 506) extended the credit indefinitely and increased the maximum credit amount from $10,000 to $15,000.

The arrangements that can be used for planned gifts are defined in the IRS code, but there is no specific federal tax treatment of planned gifts other than the general deduction for contributions. A taxpayer may not claim the credit for a gift and take a state itemized deduction for the same gift. If the present value of the contribution exceeds the limit, the deduction may be taken on the excess. The taxpayer may take a federal itemized deduction for the full amount of the gift.

This credit is essentially a transfer from the state general fund to Montana charitable endowment funds. The table below shows the portions of a $100 contribution to an eligible endowment fund that are ultimately paid by a donor, and by federal and state taxpayers, when the donor claims state and federal itemized deductions for the donation, when the donor claims the state credit and the federal deduction, and the difference due to the credit. The table assumes that the donor is in the top federal and state rate brackets.

**Table 9.71 $100 Contribution to Charitable Endowment Fund**

| Taxpayer Claims Credit and Federal Itemized Deduction | | |
|---|---|---|
| | Deduction for Federal Taxes | |
| | Capped | Not Capped |
| Federal Tax Subsidy | $22.20 | $22.77 |
| State Tax Subsidy | $40.00 | $38.46 |
| Net Taxpayer Subsidy | $62.20 | $61.23 |

| Taxpayer Claims Federal and State Itemized Deductions | | |
|---|---|---|
| | Deduction for Federal Taxes | |
| | Capped | Not Capped |
| Federal Tax Subsidy | $34.50 | $35.39 |
| State Tax Subsidy | $6.75 | $4.36 |
| Net Taxpayer Subsidy | $41.25 | $39.75 |

| Difference Due to Credit | | |
|---|---|---|
| | Deduction for Federal Taxes | |
| | Capped | Not Capped |
| Federal Tax Subsidy | -$12.30 | -$12.62 |
| State Tax Subsidy | $33.25 | $34.10 |
| Net Taxpayer Subsidy | $20.95 | $21.48 |

A taxpayer who takes state and federal itemized deductions for a charitable contribution receives a subsidy from other taxpayers of a little more than 40 percent of the donation, with most of that subsidy coming from federal taxes. A taxpayer who claims the state credit and a federal itemized deduction receives a subsidy of a little more than 60 percent, with about two-thirds of the subsidy coming from state taxes.

The table below shows qualified endowment credits claimed by individuals for Tax Years 2015 through 2023.

**Table 9.72 Qualified Endowment Contribution Credit**

** Not disclosed due to confidentiality concerns*

# Recycling Credit: 15-32-601, MCA through 15-32-614, MCA

**Legislation: SB 111, 1991 Session**

Taxpayers are allowed a credit against individual income tax or corporate license tax for part of the cost of investments in depreciable property used in collecting or processing reclaimable material or in manufacturing a product from reclaimed material. The credit is 25 percent of the first $250,000 invested, 15 percent of the next $250,000 invested, and 5 percent of the next $500,000 invested. The credit for an investment of $1 million or more is $125,000.

If a taxpayer claims a credit in excess of his or her tax liability, the excess credit is not refunded and may not be carried forward or backward to another tax year. An individual may claim the credit directly for an investment made by a sole-proprietor business or may claim a share of the credit for an investment made by a pass-through entity.

The credit was enacted as a credit equal to 25 percent of investments made between Tax Years 1990 and 1995. The 1993 Legislature (HB 519) clarified the definitions used to determine eligible investments. The 1995 Legislature (SB 358) extended the sunset date to Tax Year 2001 and expanded eligible investments to include equipment to reclaim contaminated soils. The 2001 Legislature (SB 92) extended the sunset date to Tax Year 2005 and removed equipment to reclaim contaminated soils from eligible investments. The 2005 Legislature (SB 213) extended the sunset date to Tax Year 2011. The 2009 Legislature (HB 21) made the credit permanent.

The basis of property for which the credit is claimed is not affected by the credit. Taxpayers are allowed to deduct depreciation on property on which the credit has been claimed.

The credit provides a subsidy to taxpayers who make investments in recycling plant and equipment by reducing the taxpayer's cost. For investments under $250,000, the cost is reduced by 25 percent. For more expensive investments, the percentage reduction is a declining function of the cost.

If a taxpayer who claims this credit itemizes deductions on their federal and state tax returns, the credit will reduce the federal deduction for state taxes, increasing the taxpayer's federal income tax. If the taxpayer's federal taxes are less than the cap on the state deduction for federal taxes, this will increase that deduction, reducing state taxes. The following table shows the net state tax subsidy and federal tax cost for the first $100 of expenditure on recycling equipment by a taxpayer in the top federal and state rate brackets.

**Table 9.73 $100 Recycling Equipment Expenditure**

| Difference Due to Credit | | |
|---|---|---|
| | Deduction for Federal Taxes | |
| | Capped | Not Capped |
| Federal Tax Subsidy | -$9.25 | -$9.49 |
| State Tax Subsidy | $25.00 | $25.64 |
| Net Taxpayer Subsidy | $15.75 | $16.15 |

The following table shows use of the recycling credit by individuals for Tax Years 2015 through 2023. This credit is equivalent to a subsidy from the state general fund for the purchase of private property to be used in recycling.

**Table 9.74 Recycling Credit**

# Student Scholarship Organization Credit: 15-30-3111, MCA

## Legislation: SB 410, 2015 Session

Taxpayers are allowed a credit against any preapproved charitable donation to a registered student scholarship organization in the state. Through Tax Year 2021, the credit was limited to $150 per taxpayer, with a limit of $300 for taxpayers who file a joint return. Starting in Tax Year 2022, the maximum credit amount per taxpayer was increased to $200,000. The credit is proportional to the size of the donation made by the taxpayer up to the credit limit. The credit is non-refundable and can be claimed by individuals, corporations, partnerships, small businesses, estates, and trusts.

The credit was first available in Tax Year 2016. The total amount of credits that can be claimed each tax year is capped, with a limit of $3 million in total credits for Tax Year 2019. For Tax Years 2022 and 2023, the maximum credit amounts were changed to $1 million and $2 million, respectively. The 2023 Legislature (HB 408) increased the maximum credit amount to $5 million in Tax Year 2024.

This credit, in effect, pays the taxpayer for donating to a student scholarship organization. For example, if an individual donates $100 to an organization, they will be able to claim a credit of $100. However, if the taxpayer is an individual who itemizes their deductions, the taxpayer's federal deduction for state taxes will be smaller, resulting in higher federal taxes. This may result in a smaller state deduction for federal taxes. The table below shows the net change in federal and state taxes and the net subsidy from claiming a $100 credit for a taxpayer in the top federal and state tax rate brackets who itemize their deductions.

**Table 9.75 $100 Contribution to Student Scholarship Organization**

| Difference Due to Credit | | |

# Trades Education and Training Credit: 15-30-2359, MCA and 15-31-174, MCA

**Legislation: HB 252, 2021 Session**

Taxpayers are allowed a credit for training expenses paid by the taxpayer to an unrelated third-party for training of qualified employees in a vocational, technical, or trade profession.

The 2023 Legislature (HB 245) expanded the number of occupations that qualify for the credit and extended the termination date of the credit from Tax Year 2026 to Tax Year 2028.

The credit is equal to 50% of the costs incurred by the taxpayer on qualified expenses and is limited to $2,000 per employee and $25,000 per employer. The credit is non-refundable and cannot be carried forward or backward.

This credit was first available in Tax Year 2021, and it set to expire after Tax Year 2028. The table below shows the credit use through Tax Year 2023.

# Unlocking State Lands Credit: 15-30-2380, MCA

## Legislation: HB 444, 2013 Session

A taxpayer is allowed a credit of $750 for allowing recreational access across the taxpayer's property to an isolated parcel of state land or federal land managed by the U.S. Forest Service or the U.S. Bureau of Land Management. Access must be granted by a contract between the landowner and the Montana Department of Fish, Wildlife, and Parks. A taxpayer granting access across multiple parcels is limited to a maximum of $3,000 in credits. If a property has multiple owners, they are to share a single credit for granting access. If the credit is more than the taxpayer's tax liability, the excess is to be refunded.

This credit was enacted by the 2013 Legislature and was first available for Tax Year 2014. SB 309, enacted by the 2015 Legislature, increased the maximum credit per taxpayer from $2,000 to $3,000 and expanded coverage to providing access to federal land. The 2017 Legislature (HB 498) extended the credit sunset date to the end of Tax Year 2027.

This credit is equivalent to an annual lease payment of $750 for an easement across private land. The following table shows credits claimed for Tax Years 2015 through 2023. For each tax year, the number of taxpayers claiming the credit was less than 10 and could not be released.

**Table 9.78 Unlocking State Lands Credit**

# Individual Income Tax Expenditures Summary

## Tax Expenditures by Income

The tables on the following pages show the distribution of income tax expenditures between income groups and between residents and non-residents. The left half of the table shows the number of residents in 13 income groups and the number of non-residents and part-year residents. The first group contains all taxpayers with incomes less than zero. The next nine categories contain the remaining taxpayers and groups them into income deciles. The final three categories contain the final decile broken down into three equal groups based on their income. It also shows total income, the percent of total income, total tax, and the percent of total tax for each group. The right half of the table shows total tax expenditures and the percent of the total going to each group for four categories of tax expenditures and for the total.

# Revenue Cost Estimates of Tax Expenditures

All of the prior tax expenditure tables in this section reported the amounts reported on taxpayer returns for each of the income tax expenditures. However, the impact to income tax revenues is likely different from the amounts reported on taxpayer returns. For income subtractions and deductions, the impact to income tax revenue is the change in taxable income multiplied by the marginal tax rate applied to the exempted income. For non-refundable tax credits, the impact to income tax revenue is the smaller of the credit amount, or the taxpayer's tax liability after removing all other non-refundable credits.

To determine the income tax revenue impact of each tax expenditure, the tax liability of each taxpayer claiming each tax expenditure listed previously is estimated with and without the tax expenditure in place. The difference between the two liability amounts provides an estimate of the revenue impact of each tax expenditure. Table 9.81 below provides revenue estimates for each of the tax expenditures reported in this section for Tax Years 2018 through 2023.

**Table 9.81 Income Tax Expenditure Cost Estimates, Tax Years 2018 – 2023**

| Job Growth Incentive Credit | $0 | $0 | $0 | $0 | $0 | $0 |

Over time, the revenue impact of each tax expenditure is likely to increase as a result of more taxpayers filing Montana tax returns over time and with taxable incomes generally increasing over time. To compare the impacts of each tax expenditure over time, the revenue impact of each tax expenditure for each tax year can be compared to the total number of taxpayers filing a tax return. This comparison provides a comparable per-taxpayer tax expenditure estimate for each tax year. The table below provides a per-taxpayer breakdown of each of the income tax expenditures in this section for Tax Years 2018 through 2023.

**Table 9.82 Per Taxpayer Tax Expenditure Cost Estimates, Tax Years 2018 - 2023**

| | Tax Year | | | | | |
|---|---|---|---|---|---|---|
| **Tax Expenditure** | **2018** | **2019** | **2020** | **2021** | **2022** | **2023** |
| **Above-The-Line Deductions** | | | | | | |
| Deductions for the Self-Employed | $25.77 | $28.58 | $28.27 | $31.80 | $31.59 | $30.31 |
| Health Savings Account Deduction | $4.07 | $4.39 | $4.33 | $4.56 | $4.50 | $4.65 |
| Individual Retirement Account Deduction | $5.86 | $5.92 | $6.04 | $6.09 | $5.66 | $5.63 |
| Student Loan Interest Deduction | $4.64 | $4.66 | $2.36 | $1.23 | $1.06 | $1.55 |
| Archer MSA Deduction | $0.00 | $0.00 | $0.00 | $0.00 | $0.00 | $0.00 |
| **Montana Adjustments to Income** | | | | | | |
| ABLE Accounts | $0.01 | $0.02 | $0.03 | $0.03 | $0.03 | $0.03 |
| Business Purchases of Recycled Material | $0.04 | $0.02 | $0.02 | $0.04 | $0.08 | $0.02 |
| Mobile Home Park Capital Gain Exclusion | $0.00 | $0.13 | $0.00 | $0.00 | $0.05 | $0.06 |

| Job Growth Incentive Credit | $0.00 | $0.00 | $0.00 | $0.00 | $0.00 | $0.00 |

# Corporate Tax Expenditures

The following is a list of expenditures that reduce tax liability for corporate income taxpayers. Many of these expenditures can also be claimed by small businesses, S Corporations, or Limited Liability Companies whose income is "passed through" to the owner, member, or partner and is taxed as individual income.

## Water's Edge Election

## Code: 15-31-322 through 324, MCA

**Legislation: HB 703, 1987 Session**

Montana requires corporations that have common ownership to file a combined report. The income of the members of the group of corporations under common ownership is apportioned to Montana based on the combined apportionment factors of the group. The purpose of the combined reporting is to make the apportionment of income to Montana independent of the financial arrangements between group members.

Under state law (15-31-324, MCA), corporations can choose to file as a water's edge corporation. In doing so, the corporation will pay a higher rate, 7 percent, instead of the normal corporate income tax rate of 6.75 percent, on income apportioned to Montana. Only its domestic (rather than worldwide) income and apportionment factors are included in the apportionment process, with certain exceptions. Under the water's edge election, foreign affiliates are generally excluded from the process of apportioning income to Montana. Prior to tax year 2023, countries included on a "tax haven" list had to be included in the combined report. The 2023 Legislature repealed the tax haven list, so all foreign income may now be excluded by corporations making the water's edge election.

If the water's edge election was eliminated completely, additional revenue based on prior audit research is estimated to be $8 million to $12 million. This estimate, which is based upon audit experience, may be conservative, as the number and tax liability of water's edge filers has almost doubled over the last six years. The number of corporations electing to file water's edge was 757 in Tax Year 2022 and 767 in Tax Year 2021.

# Montana Deductions

## Capital Gain Exclusion for Mobile Home Park (15-31-163, MCA)

A taxpayer may exclude a portion of the recognized gain from sale of a mobile home park from taxable corporate income or taxable individual income if the sale is to: a tenants' association or a mobile home park residents' association; a nonprofit organization that purchases a mobile home park on behalf of a tenants' association or mobile home park residents' association; a county housing authority; or a municipal housing authority. The exclusion of recognized capital gain is limited to 50 percent for mobile home parks with more than 50 lots; for mobile home parks with 50 lots or fewer, the excluded gain is 100 percent.

Usually, properties owned by municipal and county housing authorities are eligible for a property tax exemption; however, if the corporate tax exclusion is used for a mobile home park property, it is not eligible for the property tax exemption allowed under Title 15, Chapter 6, Part 2, while the property is used as a mobile home park. The exclusion was passed by the 2009 Legislature (HB 636) and applies to tax years beginning after December 31, 2008.

## Deduction for Purchasing Montana-Produced Organic or Inorganic Fertilizer Produced (15-32-303, MCA)

In addition to the other allowed deductions from gross corporate income, a taxpayer may deduct expenditures for organic fertilizer and inorganic fertilizer produced as a byproduct if the fertilizer was made and used in Montana. The purpose of this deduction is to promote the use of inorganic byproducts and organic matter produced by Montana industries. The deduction was established in Tax Year 1981 with the passage of SB 322.

## Deduction for Donation of Exploration Information (15-32-510, MCA)

A taxpayer may deduct expenses from the donation of mineral exploration information to the Montana Tech Foundation for placement in the Montana Tech research library. Montana Tech may limit what information is accepted and what deductions are granted. The documented expenses must be based on the cost of recreating the donated information. If the exploration incentive credit is also claimed by the taxpayer, then this deduction is limited to 20 percent of the actual value of the data.

The deduction was established in 1999 with the passage of SB 625 and is intended to encourage the sharing of mineral exploration information.

# Energy-Conserving Investments Deduction (15-32-103, MCA)

A corporate taxpayer may deduct a portion of expenditures on capital investment in a building for an energy conservation purpose from gross corporate income. If the building is a residential building, the taxpayer may deduct 100 percent of the first $1,000 expended, 50 percent of the next $1,000 expended, 20 percent of the third $1,000 expended, and 10 percent of the fourth $1,000 expended.

For example, if a corporate taxpayer invested $4,000 in approved energy conservation measures in a residential apartment building owned by the taxpayer, it would be able to deduct $1,800 of the expenses (100 percent of $1,000, plus 50 percent of $1,000, plus 20 percent of $1,000, plus 10 percent of $1,000, or $1,000+$500+$200+$100).

For non-residential buildings, the taxpayer may deduct 100 percent of the first $2,000 spent on energy conservation capital investments, 50 percent of the second $2,000 spent, 20 percent of the third $2,000 spent, and 10 percent of the fourth $2,000 spent. If a corporate taxpayer invested $4,000 in approved energy conservation measures in a non-residential building owned by the taxpayer, it could deduct $3,000 of the expenses (100 percent of $2,000, plus 50 percent of $2,000, or $2,000+$1,000). If the taxpayer invested $8,000 in approved energy conservation measures in the same building, it could deduct $3,600 of the expenses (100 percent of $2,000, plus 50 percent of $2,000, plus 20 percent of $2,000, plus 10 percent of $2,000, or, $2,000+$1,000+$400+$200).

This deduction is subject to approval of the Department of Revenue and cannot be taken on expenditures financed by a state, federal, or private grant. The purpose of this deduction is to encourage energy-conserving investments in existing buildings.

The deduction was established in Tax Year 1975 with the passage of HB 663.

# Recycled Material Qualifying for Deduction (15-32-609 and 610, MCA)

A taxpayer may deduct an additional 10 percent of expenditures for the purchase of recycled material that was otherwise deductible as a business-related expense. The Department of Revenue defines the types of recycled material that may be used to claim this deduction. The purpose of this deduction is to encourage the use of goods made from reclaimed materials, especially post-consumer materials. The deduction was set to expire at the end of calendar year 2011, but HB 21, passed by the 2009 Legislature, makes the additional 10 percent deduction permanent. The deduction originally began in 1991 with the passage of SB 111.

This deduction is the only one for which data is accessible. In the Tax Year 2022 database of corporate taxpayer returns, the total deductions claimed were $21,813,840. At the general tax rate of 6.75 percent, this is a reduction in tax revenue of $1,472,434.

# Montana Corporate Tax Credits

Many of these credits are also available to individual income taxpayers as well as corporate income taxpayers. More thorough explanations of many of the credits and their history are available in the individual income tax section on tax expenditures.

There are differences between the tax periods for individual and corporate income taxes. The tax year for individual income tax returns is the calendar year, and data from the tax returns is presented on that basis. The corporate income tax year and filing requirements are based upon the corporation's fiscal year, which can vary from the calendar year.

There is another change in the tables presented in this section due to the availability of a more complete, updated dataset of corporate tax returns. The tables in this section show seven years of history unless the credit has not been in effect that long.

## Apprenticeship Credit (15-30-2357 and 39-6-109, MCA)

**Legislation: HB 308, 2017 Session**

Individual and corporate income taxpayers are allowed a credit for employing an apprentice or veteran apprentice as a new employee in a state-registered apprenticeship training program. The credit is worth $750 per approved apprentice or $1,500 per approved veteran apprentice, and may only be claimed for five years per apprentice. This tax credit is effective for tax years beginning January 1, 2018, and thereafter.

The credit was established in Tax Year 2017 with the passage of HB 308.

Table 9.83 shows credits claimed on corporate tax returns for Tax Years 2017 through 2022.

**Table 9.83 Apprenticeship Credit**

| Tax Year | Number of Credits Claimed | Total Credits Claimed |
|---|---|---|
| 2017 | 0 | $0 |
| 2018 | * | $3,068 |
| 2019 | 0 | $0 |
| 2020 | * | $18,150 |
| 2021 | 10 | $47,356 |
| 2022 | 13 | $66,868 |

**Not disclosed due to confidentiality concerns.*

# Charitable Endowment Credit (15-31-161 and 162, MCA)

**Legislation: HB 434, 1997 Session**

A qualified endowment is a permanent fund held by or on behalf of a 501(c)(3) charitable organization. A planned gift is one of nine types of arrangements specified in the IRS code that generally provide income to the donor for life or a set period, with the remainder going to the charity. Individual taxpayers are allowed a credit of 40 percent of the present value of a planned gift to a qualified charitable endowment.

Corporations are allowed a credit of 20 percent of a gift to a qualified endowment. The 2013 Legislature passed SB 108, which extends the credit through 2019. Among other changes, the legislation made the definition of a "permanent, irrevocable fund," which can accept donations eligible for the credit refer to the Uniform Prudent Management of Institutional Funds Act (Title 72, Chapter 30).

This credit was established in Tax Year 1997 with the passage of HB 434.

Table 9.84 shows credits claimed on corporate tax returns for Tax Years 2013 through 2022.

**Table 9.84 Charitable Endowment Credit**

| Tax Year | Number of Credits Claimed | Total Credits Claimed |
|---|---|---|
| 2015 | 15 | $31,436 |
| 2016 | 11 | $25,130 |

# Contractor's Gross Receipts Credit (15-50-207, MCA)

**Legislation: HB 530, 1967 Session**

Contractors are required to pay a license fee equal to 1 percent of the gross receipts from government contracts during the year for which the license is issued. The agency or prime contractor withholds the 1 percent license fee from payments to the prime contractor or subcontractors. The agency or contractor is responsible for remitting the correct amount to the Department of Revenue, along with a form reporting who is to be credited with the license fee payment.

Contractors may use the amount of gross receipts tax paid as a credit against the contractor's corporation income tax liability or income tax liability, depending upon the type of tax the contractor must pay. The credit may be carried forward a maximum of 5 years.

The table 9.85 shows credits claimed on corporate tax returns for Tax Years 2013 through 2022.

**Table 9.85 Contractor's Gross Receipts Credit**

| Tax Year | Number of Credits Claimed | Total Credits Claimed |
|---|---|---|
| 2015 | 91 | $644,922 |
| 2016 | 88 | $319,316 |
| 2017 | 83 | $940,774 |
| 2018 | 75 | $924,808 |
| 2019 | 78 | $729,854 |
| 2020 | 76 | $1,939,697 |
| 2021 | 60 | $656,217 |
| 2022 | 55 | $1,340,768 |

# Innovative Educational Program Credit (15-31-158 and 159, MCA)

**Legislation: SB 410, 2015 Session**

The 2015 Legislature created a non-refundable individual and corporate income tax credit for donations made to the educational improvement account provided for in 20-9-905, MCA, for providing supplemental funding to public schools for innovative educational programs and technological deficiencies. This credit was limited to $150 per taxpayer through Tax Year 2021 and increased to $200,000 in Tax Year 2022. The aggregate amount of tax credits allowed is capped at $1 million for Tax Year 2022 and $2 million for Tax Year 2023. This credit cap is allowed to increase by 20% each year after TY 2023 if at least 80% of the available credits were claimed in the prior tax year.

The 2015 Legislature also created a non-refundable individual and corporate income tax credit for donations made to student scholarship organizations. The individual cap and total credits cap are the same as the educational improvement credit above.

This credit was claimed by corporate taxpayers for the first time in TY 2022 for a total of $50,000.

# Historic Property Preservation Credit (15-31-151, MCA)

**Legislation: HB 601, 1997 Session**

Corporate taxpayers may take a credit against corporation income tax for costs of rehabilitating a historic building in Montana. The credit is 25 percent of the federal credit allowed by 26 U.S.C. 47. The federal credit is 20 percent of the rehabilitation cost of a building certified as having historic significance, or 10 percent of the cost of rehabilitation of a building placed in service before 1936 that has not been certified.

The credit is not refundable if it exceeds the amount of taxes owed, but unused credits can be carried over to the seven succeeding tax years. If the corporation is a partnership or S Corporation, the credit must be attributed to the partners or shareholders in the same proportion used to report the partnership or corporation income or loss for Montana income tax purposes.

The credit was created in Tax Year 1997 with the passage of HB 601.

Table 9.86 shows credits claimed on corporate tax returns for Tax Years 2013 through 2022.

**Table 9.86 Historic Property Preservation Credit**

| Tax Year | Number of Credits Claimed | Total Credits Claimed |
|---|---|---|
| 2015 | * | $374,586 |
| 2016 | * | $39,653 |
| 2017 | * | $50 |
| 2018 | * | $50 |
| 2019 | * | $53 |
| 2020 | * | $50 |
| 2021 | * | $50 |
| 2022 | * | $88,638 |

**Not disclosed due to confidentiality concerns.*

# Infrastructure Users Fee Credit (17-6-316, MCA)

**Legislation: SB 100 & HB 602, 1995 Session**

The Board of Investments may make loans to local governments to finance infrastructure to serve a new or relocated business that will result in 15 or more new full-time jobs. The infrastructure may serve as collateral for the loan, and the local government may charge fees to the users for extending the infrastructure. The business may claim a credit against income or corporation tax for the fee it pays.

The total credit claimed may not exceed the amount of the loan. The credit can be carried forward for seven years and used to reduce tax liability or carried back for three years.

The credit was created in Tax Year 1995 with the passage of SB 100 and HB 602.

Table 9.87 shows credits claimed on corporate tax returns for Tax Years 2013 through 2022.

**Table 9.87 Infrastructure Users Fee Credit**

| Tax Year | Number of Credits Claimed | Total Credits Claimed |
|---|---|---|
| 2015 | * | $1,676,702 |
| 2016 | * | $706,524 |
| 2017 | * | $276,976 |
| 2018 | 12 | $579,462 |
| 2019 | 12 | $264,738 |
| 2020 | 11 | $398,786 |
| 2021 | * | $244,790 |
| 2022 | * | $263,474 |

**Not disclosed due to confidentiality concerns.*

# Job Growth Incentive Credit: 15-30-2361, MCA

## Legislation: HB 629, 2021 Session

Beginning with Tax Year 2022, taxpayers have been able to claim an individual income tax credit for half the Federal Insurance Contributions Act (FICA) paid by an employer for qualified new employees.

To qualify for the credit, an employer must hire new qualifying employees that are associated with a project in the state that "encourages, promotes, and stimulates economic development in the sectors of construction, natural resources, mining, agriculture, forestry, manufacturing, transportation, utilities, or outdoor recreation." The employer must also have net employee growth associated with the qualifying project.

The credit is non-refundable, but taxpayer can carryforward unused credit amounts for up to 10 years. The credit is currently set to expire in Tax Year 2028.

This credit has not been claimed by any corporate taxpayers.

# Media Production Credit (15-31-1001 through 1012, MCA)

## Legislation: HB 293, 2019 Session

The 2019 Legislature created the Montana Economic Development Industry Advancement Act, which provides a tax credit of up to 35 percent of total spending in Montana for media productions within the state. The total credit amount started at $10 million per year in Tax Year 2019 and was increased to $12 million per year by the 2021 Legislature. These transferable tax credits are sold by the productions to Montana taxpayers for 85 percent of the credit value.

Table 9.88 shows credits claimed on corporate tax returns for Tax Years 2019 through 2022.

**Table 9.88 Media Production Credit**

| Tax Year | Number of Credits Claimed | Total Credits Claimed |
|---|---|---|
| 2018 | 0 | 0 |
| 2019 | 0 | 0 |
| 2020 | * | $5,533,471 |
| 2021 | * | $7,899,298 |
| 2022 | * | $6,202,042 |

**Not disclosed due to confidentiality concerns.*

# Recycling Credit (15-32-601-611, MCA)

## Legislation: SB 111, 1991 Session

Taxpayers are allowed a credit against individual income tax or corporate income tax for a portion of the cost of investments in depreciable property used in collecting or processing reclaimable material or manufacturing a product from reclaimed material. The amount of the credit is equal to 25 percent of the cost of the first $250,000 invested in property, 15 percent of the cost of the next $250,000 invested in property, and 5 percent of the next $500,000 of investment.

Therefore, if the taxpayer invests a total investment $1,000,000 in property that qualifies for the credit, the taxpayer can claim a credit of $125,000. If the taxpayer invests $250,000 in property qualifying for the credit, the taxpayer can claim a credit of $62,500. The credit was to end December 31, 2011, but the 2009 Legislature made the credit permanent (HB 21). An asterisk in the table indicates fewer than 10 corporate taxpayers claimed this credit.

The credit was originally established in Tax Year 1991 by SB 111.

Table 9.89 shows credits claimed on corporate tax returns for Tax Years 2013 through 2022.

**Table 9.89 Recycling Credit**

| Tax Year | Number of Credits Claimed | Total Credits Claimed |
|---|---|---|
| 2013 | * | $40,379 |
| 2014 | * | $114,755 |
| 2015 | * | $20,777 |
| 2016 | * | $7,605 |
| 2017 | * | $12,982 |
| 2018 | * | $38,176 |
| 2019 | * | $38,232 |
| 2020 | * | $132,349 |
| 2021 | * | $125,000 |
| 2022 | * | $88,538 |

**Not disclosed due to confidentiality concerns.*

# Trades Education and Training Credit: 15-30-2359, MCA and 15-31-174, MCA

**Legislation: HB 252, 2021 Session**

Taxpayers are allowed a credit for training expenses paid by the taxpayer to an unrelated third-party for training of qualified employees in a vocational, technical, or trade profession.

The 2023 Legislature (HB 245) expanded the number of occupations that qualify for the credit and extended the termination date of the credit from Tax Year 2026 to Tax Year 2028.

The credit is equal to 50% of the costs incurred by the taxpayer on qualified expenses and is limited to $2,000 per employee and $25,000 per employer. The credit is non-refundable and cannot be carried forward or backward. This credit was first available in Tax Year 2021, and it set to expire after Tax Year 2028.

This credit has not been claimed by any corporate taxpayers.

# Unlocking Public Lands Credit (15-30-2380, MCA)

**Legislation: HB 444, 2013 Session**

The 2013 Legislature created a refundable individual and corporate income tax credit for taxpayers that provide access to state land. The 2015 Legislature expanded the credit to those providing public access to any public land and increased the credit amount. The tax credit is equal to $750 for each qualified access to public land that is provided. The maximum credit a taxpayer may claim in a year is $3,000.

This credit has not been claimed by any corporate taxpayers.

# Repealed Tax Credits

The table 9.90 includes tax credits that were repealed for Tax Year 2022 as part of SB 399 in the 2021 legislative session that were claimed on corporate income tax returns for TY 2021 and/or TY 2022. Some of these credits have carryforward provisions, allowing leftover credit amounts from prior years to be claimed on TY 2022 tax returns.

**Table 9.90 Repealed Tax Credits**

| | Tax Year 2021 | | Tax Year 2022 | |
|---|---|---|---|---|
| | Number of Credits | Total Credit Amounts | Number of Credits | Total Credit Amounts |
| Alternative Energy Production Credit | * | $50 | * | $75,229 |
| College Contribution Credit* | 16 | $5,227 | 0 | $0 |
| Dependent Care Assistance Credit* | * | $17,325 | 0 | $0 |
| Geothermal Heating System Credit* | * | $302 | * | $258 |
| Alternative Fuel Motor Vehicle Conversion Credit* | * | $1,100 | 0 | $0 |
| Mineral Exploration Credit* | * | $25 | 0 | $0 |
| Qualified Research Credit | 0 | $0 | * | $284,123 |
| **Total Expenditure on Repealed Credits** | **22** | **$24,029** | * | **$359,610** |

*Some of the above credits are claimed on returns that have not been audited yet. The amount of credit claimed may change once these returns are audited. In addition, some of the above numbers represent a carryback of some credits claimed on amended returns received during the fiscal year. Credits claimed on less than 10 returns are indicated by a *.*

# Corporate Tax Expenditures - Passive Expenditures

## Passive Expenditures

Passive tax expenditures refer to the loss of Montana tax revenue due to federal tax laws. These tax expenditures are not due to actions taken by the Montana Legislature but by our adherence to the definitions of income, exemptions, and deductions set at the federal level. Montana's corporate income tax calculations rely to some extent on these definitions, so if there are changes at the federal level, the tax collected by the state can also be affected.

One example of these federal tax credits is the accelerated depreciation of machinery and equipment listed in the table below. Depreciation is an income tax deduction that allows a taxpayer an annual allowance for the wear and tear, deterioration, or obsolescence of the property.

The figures provided in table 9.91 below are an estimate of the impact that Montana's adherence to these definitions has on state income tax collections. The estimates are based on the federal tax expenditures estimated by the U.S. Treasury Department and included in the annual Executive Budget of the United States and are scaled down to Montana proportions. These passive tax expenditures are estimates based on other estimates and should be viewed as approximations. As with other tax expenditures, the figures shown do not necessarily equal the increase in tax revenues that would occur if the provision did not exist.

**Table 9.91 Estimated Impact of Passive (Federal) Corporate Tax Expenditures on Montana Tax Revenue**

| | FY 2023 | FY 2024 |
|---|---|---|
| **Exemptions** | | |
| Deferral of income from controlled foreign corporations (normal tax method) | $14,774,889 | $15,799,173 |
| Exclusion of interest on life insurance savings | $5,446,589 | $5,743,306 |
| Excess of percentage over cost depletion, fuels and nonfuel minerals | $321,105 | $337,363 |
| Exemption of certain mutuals' and cooperatives' income | $40,646 | $40,646 |
| Exemption of credit union income | $882,022 | $955,185 |
| Deferral of gain on sale of farm refiners | $8,129 | $8,129 |
| Deferral of tax on shipping companies | $4,065 | $4,065 |
| Deferral of gain on sale of farm refiners | $2,427 | $2,427 |
| Deferral of tax on shipping companies | $1,618 | $1,618 |
| **Deductions** | | |
| Accelerated depreciation of machinery and equipment (normal tax method) | $4,678,376 | -$1,036,478 |
| Accelerated depreciation on rental housing (normal tax method) | $1,849,402 | $1,959,146 |
| Deductibility of charitable contributions (education) | $2,239,605 | $2,365,608 |
| Empowerment zones, Enterprise communities, and Renewal communities | $40,646 | $44,711 |
| Expensing of exploration and development costs, fuels | $89,422 | $142,262 |
| Expensing of certain multiperiod production costs for farmers | $113,809 | $117,874 |
| Expensing of certain small investments (normal tax method) | $1,410,423 | $2,837,104 |
| Expensing of exploration and development costs, nonfuel minerals | $4,065 | $8,129 |
| Expensing of multiperiod timber growing costs | $89,422 | $97,551 |
| Expensing research and experimentation expenditures (normal tax method) | -$16,120,278 | -$11,657,326 |
| **Other** | | |
| Special alternative tax on small property and casualty insurance companies | $491,819 | $504,013 |
| Special ESOP rules | $89,422 | $93,486 |
| Special rules for certail film and TV production | $40,646 | $73,163 |
| Tax incentives for preservation of historic structures | $272,329 | $329,234 |

*Sources: Estimates of corporate tax expenditures are calculated by the U.S. Treasury and published annually as a part of the Executive Budget of the United States. The data is in the Analytical Perspectives section of the Executive Budget. The Montana estimates were developed using the ratio of total income subject to tax and total income tax before credits for Montana and federal taxes. Total income subject to tax and total income tax comes from www.irs.gov, SOI tax statistics, total returns of active corporations, and from Montana data.*

# Property Tax Expenditures

## Property Tax Expenditures

Property tax expenditures are provisions in the property tax laws that reduce taxes for properties that meet certain criteria.

In general, local governments may levy a certain amount of budget dollars, regardless of the tax base available to them. For that reason, property tax expenditures mostly represent a shift onto other taxpayers, rather than a reduction in tax revenues. The major exception to this is the revenue losses from the fixed statewide mills. In this section, the tax expenditure is reported as the decrease of state revenue caused by each program and the tax shift to other taxpayers is reported as a tax shift.

There are several local option reductions in tax revenue available to local governments, with the largest being the New and Expanding Industry Abatement (15-24-1401). These expenditures are contemplated by local governments and school districts, but do not affect tax dollars levied by the state. For that reason, local abatements are not considered in this section, although they do have tax shifting effects.

## Residential Property Tax Expenditures

There are three major property tax programs that target homeowners: The Property Tax Assistance Program (PTAP), the Montana Disabled Veterans (MDV) Program, and the Intangible Land Value Property Exemption.

The Elderly Homeowner/Renter Credit is a credit based on property taxes. However, it is administered through the income tax, so it is classified as an income tax expenditure.

## Property Tax Assistance Program (PTAP): 15-6-305, MCA

**Legislation: HB 398, 1979 Session**

The Property Tax Assistance Program (PTAP) reduces property taxes for low-income households. The program works by reducing the Class 4 tax rate by 80 percent, 50 percent, or 30 percent, depending on the income of the owners. Table 9.92 displays income ranges for different levels of tax rate reduction.

**Table 9.92 TY 2024 PTAP Income Levels**

| Single Min. | Single Max. | Married Min. | Married Max. | Reduction % |
|---|---|---|---|---|
| 0 | 13,590 | 0 | 18,310 | 80% |
| 13,591 | 18,580 | 18,311 | 27,667 | 50% |
| 18,581 | 27,621 | 27,668 | 37,019 | 30% |

Table 9.93 contains summary information about the PTAP program.

**Table 9.93 Property Tax Assistance Program Tax Expenditure**

| Tax Year | Participants | Reduction in Taxable Value | Loss in State Revenue | Tax Shifts | Total Tax Benefit to Participants | Average Tax Benefit |
|---|---|---|---|---|---|---|
| 2015 | 20,397 | $20,491,472 | $2,082,193 | $10,828,944 | $12,911,136 | $633 |
| 2016 | 22,551 | $22,768,947 | $2,313,681 | $12,278,536 | $14,592,217 | $647 |
| 2017 | 22,381 | $24,404,373 | $2,479,756 | $13,622,589 | $16,102,346 | $719 |
| 2018 | 23,021 | $25,488,134 | $2,589,729 | $14,603,900 | $17,193,630 | $747 |
| 2019 | 23,479 | $27,615,293 | $2,805,878 | $15,482,499 | $18,288,377 | $779 |
| 2020 | 22,639 | $27,692,549 | $2,813,852 | $15,720,994 | $18,534,846 | $819 |
| 2021 | 22,474 | $29,075,913 | $2,954,368 | $15,604,819 | $18,559,187 | $826 |
| 2022 | 21,527 | $28,007,306 | $2,845,918 | $15,292,524 | $18,138,442 | $843 |
| 2023 | 21,505 | $32,423,139 | $3,294,382 | $14,897,922 | $18,192,304 | $846 |
| 2024 | 30,468 | $65,850,305 | $6,690,113 | $29,713,283 | $36,403,396 | $1,195 |

The reduced taxable value from PTAP applies to the first $350,000 in market value of the property. This was increased from a previous cap of $200,000 prior to Tax Year 2024 by HB 189 of the 2023 Legislature. By Tax Year 2023, more than half of properties enrolled in the program had a greater market value than the cap of $200,000. This bill also increased income thresholds for qualification. These changes explain the increase in both average benefit and number of participants from TY 2023 to TY 2024. In addition, in TY 2024 the department utilized property tax rebate data for a targeted post card mailing informing potentially eligible property owners that they may qualify for PTAP. Table 9.94 summarizes the program by tier of exemption percent in Tax Year 2024.

**Table 9.94 Property Tax Assistance Program by Exemption Tier**

| PTAP Reduction Level | Properties | TV Reduction | Properties Over Value Cap | Loss in State Revenue | Tax Shifts | Total Benefit | Average Benefit |
|---|---|---|---|---|---|---|---|
| 30% | 4,577 | $4,850,387 | 40% | $492,995 | $2,237,844 | $2,730,839 | $597 |
| 50% | 4,152 | $7,357,573 | 41% | $747,737 | $3,345,147 | $4,092,884 | $986 |
| 80% | 21,739 | $53,642,345 | 30% | $5,449,382 | $24,130,292 | $29,579,673 | $1,361 |
| **Total** | **30,468** | **$65,850,305** | **33%** | **$6,690,113** | **$29,713,283** | **$36,403,396** | **$1,195** |

# Montana Disabled Veterans (MDV) Program: 15-6-311, MCA

## Legislation: HB 213, 1979 Session

The Montana Disabled Veterans (MDV) Program reduces property taxes for disabled veterans. It reduces the residential Class 4 tax rate by 100 percent, 80 percent, 70 percent, or 50 percent, depending on the level of income of qualified veterans. To qualify, the property must be the primary residence of a veteran who was honorably discharged and paid at the 100 percent disabled rate by the Department of Veterans Affairs for a service-connected disability. The spouse of a veteran killed while on active duty or who died from a service-connected disability qualifies for MDV benefits as well. Table 9.95 displays income ranges for different levels of tax rate reduction.

**Table 9.95 TY 2024 MDV Income Levels**

| Single Min. | Single Max. | Married Min. | Married Max. | Surviving Sp. Min. | Surviving Sp. Max. | Reduction % |
|---|---|---|---|---|---|---|
| 0 | 45,803 | 0 | 54,963 | 0 | 38,169 | 100% |
| 45,804 | 50,384 | 54,964 | 59,544 | 38,170 | 42,750 | 80% |
| 50,385 | 54,963 | 59,545 | 64,124 | 42,751 | 47,330 | 70% |
| 54,964 | 59,544 | 64,125 | 68,705 | 47,331 | 51,911 | 50% |

Table 9.96 contains summary information for the last ten years of the MDV program. Unlike PTAP, there is no cap on tax benefit for MDV. The more generous rate reductions and lack of value cap mean the average benefit to MDV properties is significantly higher than PTAP properties. However, there are only a tenth of the PTAP participants enrolled in MDV due to the qualifications.

**Table 9.96 Montana Disabled Veteran Program Tax Expenditure**

| Tax Year | Participants | Reduction in Taxable Value | Loss in State Revenue | Tax Shifts | Total Tax Benefit to Participants | Average Tax Benefit |
|---|---|---|---|---|---|---|
| 2015 | 2,103 | $4,916,616 | $499,854 | $2,495,371 | $2,995,225 | $1,424 |
| 2016 | 2,383 | $5,324,319 | $541,332 | $2,764,896 | $3,306,227 | $1,387 |
| 2017 | 2,427 | $5,920,080 | $601,769 | $3,176,103 | $3,777,872 | $1,557 |
| 2018 | 2,567 | $6,370,030 | $647,417 | $3,528,561 | $4,175,978 | $1,627 |
| 2019 | 2,660 | $7,266,634 | $738,592 | $3,937,860 | $4,676,452 | $1,758 |
| 2020 | 2,824 | $7,944,119 | $807,196 | $4,315,708 | $5,122,904 | $1,814 |
| 2021 | 2,960 | $9,361,039 | $950,985 | $4,778,511 | $5,729,496 | $1,936 |
| 2022 | 3,028 | $9,573,247 | $972,630 | $4,970,760 | $5,943,390 | $1,963 |
| 2023 | 3,243 | $14,177,406 | $1,440,173 | $6,137,639 | $7,577,813 | $2,337 |
| 2024 | 3,455 | $15,139,389 | $1,538,225 | $6,529,965 | $8,068,190 | $2,335 |

# Intangible Land Value Property Exemption: 15-6-240, MCA

## Legislation: SB 94, 2017 Session

The Land Value Property Tax Assistance Program helps residential property owners if the value of their land is disproportionately higher than the value of their home or other buildings on their land, and the land has been in their family for at least 30 years. The benefit applies to the portion of the property owner's land value that is more than 150 percent of the department's appraised market value of the home and other improvements located on the land, effectively capping the value of the property owners land to 150 percent of the Improvement value. The benefit applies to a maximum of five acres. There is no value cap for the benefit, nor is there an income qualification.

Table 9.97 contains summary information of annual tax expenditures associated with this program since Tax Year 2018, which was the first year the program could be utilized.

**Table 9.97 Intangible Land Value Property Exemption Tax Expenditure**

| Tax Year | Participants | Exempted Taxable Value | Loss in State Revenue | Tax Shift | Benefit to Participants | Average Benefit |
|---|---|---|---|---|---|---|
| 2018 | 104 | $592,904 | $59,909 | $291,587 | $351,496 | $3,380 |
| 2019 | 120 | $594,461 | $60,072 | $285,401 | $345,473 | $2,879 |
| 2020 | 152 | $690,142 | $69,748 | $328,471 | $398,219 | $2,620 |
| 2021 | 151 | $663,594 | $67,081 | $281,932 | $349,013 | $2,311 |
| 2022 | 166 | $703,290 | $71,092 | $294,711 | $365,803 | $2,204 |
| 2023 | 197 | $1,463,532 | $147,903 | $448,612 | $596,515 | $3,028 |
| 2024 | 231 | $1,627,932 | $164,538 | $510,303 | $674,840 | $2,921 |

There is considerable variance in property value benefits under this program. Table 9.98 contains summary statistics of total tax benefit by property enrolled in the program.

**Table 9.98 Summary Statistics for Intangible Land Value Exemption**

| Total Market Value of Properties | | | | Associated Tax Savings | | |
|---|---|---|---|---|---|---|
| Tax Year | Min | Median | Max | Min | Median | Max |
| 2018 | $61,422 | $798,175 | $3,753,800 | $114 | $2,326 | $17,621 |
| 2019 | $58,346 | $756,390 | $3,349,040 | $37 | $1,975 | $15,243 |
| 2020 | $58,346 | $756,390 | $3,197,290 | $37 | $1,756 | $14,891 |
| 2021 | $91,929 | $766,610 | $3,372,100 | $16 | $1,564 | $15,386 |
| 2022 | $70,485 | $723,138 | $3,372,100 | $19 | $1,540 | $14,832 |
| 2023 | $110,797 | $1,076,590 | $4,933,140 | $45 | $2,154 | $15,271 |
| 2024 | $105,304 | $1,022,200 | $4,933,140 | $77 | $2,149 | $15,669 |

# Economic Development Tax Expenditures

In addition to the residential property tax exemptions, there are tax expenditures in statute that encourage economic development by reducing the taxable value of properties or by creating a Tax Increment Finance district. These expenditures are described below.

## Energy Production or Development Tax Abatement: 15-24-3111, MCA

**Legislation: HB 3, May 2007 Special Session**

The energy production or development tax abatement provides a 50 percent rate reduction on a qualified energy production or development facility and equipment. The tax rate reduction may be in effect during the construction period and for the first 15 years after the facility begins operation, up to a total of 19 years. Currently, the properties that may take advantage of this abatement are Class 14 and Class 15, both of which are normally taxed at 3 percent. Class 15 property that qualifies under this program instead has a statutory tax rate of 1.5%, meaning that for class 15 property that qualifies under this program, it represents a 75% rate reduction. This program changes the tax rate to 1.5 percent for Class 14 property and 0.75% for Class 15 property.

**Table 9.99 Energy Production or Development Tax Abatement Expenditure**

| Tax Year | Market Value | Reduction in Taxable Value | Loss in State Revenue | Tax Shifts | Total Tax Benefit to Participants |
|---|---|---|---|---|---|
| 2015 | $292,397,489 | $4,252,907 | $429,985 | $1,450,428 | $1,880,413 |
| 2016 | $265,608,525 | $3,984,127 | $402,829 | $1,532,755 | $1,935,584 |
| 2017 | $311,476,994 | $4,352,038 | $439,978 | $1,640,662 | $2,080,640 |
| 2018 | $270,122,970 | $3,793,800 | $383,588 | $1,491,228 | $1,874,816 |
| 2019 | $264,778,742 | $3,652,952 | $369,352 | $1,445,350 | $1,814,703 |
| 2020 | $168,989,059 | $2,214,106 | $223,714 | $763,197 | $986,911 |
| 2021 | $163,009,772 | $2,148,898 | $217,171 | $774,672 | $991,843 |
| 2022 | $236,551,136 | $3,274,652 | $330,900 | $1,015,684 | $1,346,584 |
| 2023 | $236,928,247 | $3,870,740 | $391,017 | $1,110,752 | $1,501,769 |
| 2024 | $225,424,801 | $3,672,445 | $370,990 | $1,093,394 | $1,464,384 |

# New Fiber Optic and Coaxial Cable Exemption: 15-6-135, MCA; 15-6-156, MCA; 15-6-219, MCA

**Legislation: SB 51, 2021 Session**

Certain new fiber optic and coaxial cables are exempt from property taxation for the first five years; taxation will then phase in at 20 percent a year for the next five years until they are taxed at the normal rate in year ten. To receive and maintain the exemption, the company must reinvest the tax savings from the exemption into the installation of new fiber option or coaxial cable within two years, and not use federal funds received pursuant to the federal American Rescue Plan Act. There is an annual reporting requirement with the Department of Revenue for companies claiming this exemption.

The fiscal impact of exempting new fiber optic and coaxial cables is estimated by calculating the reduction in taxable value resulting from the exemption. The Table 9.100 contains the market value of exempt cable, the associated decrease in taxable value, the loss in state revenue, and the estimated amount shifted to local taxpayers. Tax Year 2022 is the first year impacted by this tax expenditure.

**Table 9.100 New Fiber Optic and Coaxial Cable Exemption**

| Tax Year | Exempt Market Value | Reduction in Taxable Value | Loss in State Revenue | Tax Shifts | Total Tax Benefit |
|---|---|---|---|---|---|
| 2022 | $20,159,589 | $604,788 | $61,180 | $299,022 | $360,202 |
| 2023 | $47,899,458 | $1,633,542 | $165,501 | $746,518 | $912,019 |
| 2024 | $113,359,539 | $4,270,178 | $432,642 | $1,788,646 | $2,221,288 |

# New Manufacturing Machinery, Fixtures, and Equipment: 15-6-138, MCA;

**Legislation: SB 530, 2023 Session**

Manufacturing machinery, fixtures, and equipment installed and placed after December 31, 2022 are fully or partially exempt from taxation for five years, and then the normal tax-rate is phased in at 20 percent per year until the tenth year after placement when the property becomes fully taxable. This exemption is unique because it is modeled in part off the new and expanding industry local abatement, where companies must apply to the county commissioners of the jurisdiction the property is placed in. The commissioners may approve either a 90% or 100% abatement of the new manufacturing property, or at a minimum 80%. The unique aspect of this exemption is that it also applies to the state mills, unlike the new and expanding industry abatement.

The fiscal impact of exempting this property is calculated by applying the normal class 8 tax rate to the exempted property and then applying the relevant mills. The first year this program is applicable to is Tax Year 2024. Table 9.101 shows the amount of exempted taxable value, the forgone state mill revenue, and the local tax shifts associated with the exemption.

**Table 9.101 New Manufacturing Machinery, Fixtures, and Equipment Exemption**

| Tax Year | Properties | Reduction in Taxable Value | Loss in State Revenue | Tax Shifts | Total Tax Benefit |
|---|---|---|---|---|---|
| 2024 | 11 | 2,199,141 | 225,369 | 1,073,014 | 1,298,384 |

# Tax Increment Finance Districts: 7-15-4282, MCA

## Legislation: HB 193, 1974 Session

Tax increment financing (TIF) provides for the segregation of the taxable value, in a qualified district, into base and increment values. Tax increment financing may be used to pay for a variety of development activities within the TIF district, including land acquisition, demolition and removal of structures, relocation of occupants, infrastructure costs, construction of publicly owned buildings and improvements, administration of urban renewal activities, and paying bonds that were issued to fund appropriate costs. To learn more about TIF districts, please refer to the property tax chapter of this report.

The TIF increment value is the amount of taxable value increase of the TIF district after its creation. The normal mills are applied against property in the district, and tax revenue levied against the increment is segregated for the purposes of the TIF district. There is different treatment for which mills are applied to the increment based on the type of district and its creation date. In general, all mills except the 6 university and 1.5 vo-tech school mills are levied against the incremental taxable value to generate revenue for the TIF.

Unlike the other property tax expenditures, there are no tax savings to taxpayers. Instead, the district diverts normal tax dollars for its purposes. Since TIF districts reduces state revenue collections from the equalization mills, it is included in this section, but it should be noted that the beneficiaries of TIF districts are projects that receive TIF funds, not taxpayers within the TIF district. Jurisdictions set mills by subtracting out TIF incremental value within their boundaries, which means that mills are higher than they would otherwise be for these jurisdictions if the TIF did not exist. Apart from the true expenditure of the statewide mills, the other mill categories represent tax increases due to the TIFs existence.

**Table 9.102 TIF Expenditure**

| Tax Year | Increment | Revenue From Statewide Mills | Revenue From County Mills | Revenue From School Mills | Revenue From City Mills | Revenue From Misc. Mills | Total From All Mills |
|---|---|---|---|---|---|---|---|
| 2015 | $50,785,821 | $4,871,444 | $9,031,894 | $12,909,760 | $5,823,421 | $1,498,020 | $34,134,539 |
| 2016 | $52,929,104 | $5,069,499 | $10,221,322 | $13,090,100 | $5,369,837 | $1,618,956 | $35,369,714 |
| 2017 | $58,171,093 | $5,571,918 | $10,688,524 | $14,728,273 | $6,639,817 | $2,245,574 | $39,874,104 |
| 2018 | $54,926,982 | $5,258,806 | $10,385,468 | $15,769,712 | $6,436,009 | $1,561,221 | $39,411,215 |
| 2019 | $72,989,242 | $6,993,062 | $13,560,838 | $20,471,046 | $8,999,505 | $2,408,196 | $52,432,647 |
| 2020 | $58,056,977 | $5,571,216 | $11,589,572 | $16,410,663 | $8,042,248 | $1,354,510 | $42,968,208 |
| 2021 | $67,214,436 | $6,859,036 | $12,563,265 | $17,320,044 | $9,522,703 | $1,793,353 | $48,058,402 |
| 2022 | $68,492,578 | $6,988,183 | $12,563,179 | $18,112,880 | $11,371,706 | $1,969,117 | $51,005,064 |
| 2023 | $99,816,016 | $9,526,262 | $13,165,924 | $22,368,499 | $15,353,542 | $2,499,083 | $62,913,309 |
| 2024 | $100,622,560 | $9,537,470 | $13,917,469 | $21,459,739 | $16,853,905 | $2,612,904 | $64,381,487 |

# Centrally Assessed Tax Expenditures

Centrally Assessed Properties have the advantage of a unique exemption not available to locally assessed properties.

## Intangible Personal Property (IPP) Exemption Legislation: SB 111, 1999 Session

Montana is a unit value state, which means a total unit value of a centrally assessed company is determined, and the relevant portion of the total value is allocated to Montana, using an apportionment formula for property tax purposes. The Montana unit value includes both tangible and Intangible Personal Property (IPP). Since centrally assessed companies are valued as a whole unit and not as a sum of each individual part, the value of IPP must be excluded from the unit value.

The concept of IPP is not easily grasped as it lacks a physical presence and cannot be seen or touched. IPP is statutorily defined in 15- 6-218, MCA. In some instances, the statute very clearly defines IPP. Certificates of stock, bonds, promissory notes, licenses, copyrights, patents, trademarks, contracts, software, and franchises are all specifically defined as IPP. However, IPP is also defined as the following more nebulous descriptions: goodwill, property that "has no intrinsic value but is representative of value," or property that "lacks a physical presence."

The department excludes IPP by automatically granting each company a percentage reduction to account for the inclusion of IPP in the unit value. However, a company may claim a larger reduction if it can prove that the value of IPP is greater than the default percentage provided by rule.

The fiscal impact of exempting intangible personal property is estimated by applying the appropriate tax rate to the exempted IPP value and applying the relevant mills.

**Table 9.103 Intangible Personal Property Exemption**

| Tax Year | Exempt Market Value | Reduction in Taxable Value | Loss in State Revenue | Tax Shifts | Total Tax Benefit |
|---|---|---|---|---|---|
| 2015 | $1,864,874,318 | $116,341,728 | $11,818,446 | $53,397,311 | $65,215,756 |
| 2016 | $1,738,771,588 | $111,478,545 | $11,322,582 | $51,124,671 | $62,447,253 |
| 2017 | $2,445,472,074 | $154,291,592 | $15,680,073 | $77,326,355 | $93,006,427 |
| 2018 | $2,447,543,291 | $153,466,984 | $15,595,004 | $80,224,603 | $95,819,607 |
| 2019 | $2,390,922,811 | $151,032,836 | $15,346,013 | $76,664,770 | $92,010,783 |
| 2020 | $2,485,862,974 | $157,320,301 | $15,984,335 | $80,955,489 | $96,939,825 |
| 2021 | $2,753,790,896 | $172,465,976 | $17,530,867 | $90,403,847 | $107,934,714 |
| 2022 | $2,891,328,678 | $180,922,800 | $18,386,332 | $89,960,419 | $108,346,751 |
| 2023 | $2,438,106,034 | $150,770,681 | $15,318,564 | $63,960,386 | $79,278,950 |
| 2024 | $2,580,618,389 | $155,575,423 | $15,807,532 | $70,848,968 | $86,656,501 |

# Generally Exempt Property

There are many types of property that are exempt from taxation. Article VIII, Section 5 of the Montana Constitution establishes the right of the legislature to exempt certain property from property taxation. Some of these exemptions are contained explicitly within the definitions of the classes of property, and some are contained in standalone code sections. An example of an exemption contained within a class definition is Pollution Control Equipment. The definition of class 5 property in 15-6-135 (3)(b)(i) states that "Air and water pollution control and carbon capture equipment placed in service after January 1, 2014 and that satisfies the criteria in subsection (2)(d) is exempt from taxation." On the other hand, the Agricultural Processing Facilities Exemption is contained in a standalone code section 15-6-220. Some of the previous expenditures listed in this report fit into this category of expenditures as well. Table 9.104 contains a list of exempt property types and descriptive information about the exemptions. This table is partially sourced from Legislative Audit Division.

**Table 9.104 Montana's Exempt Property Type Descriptions**

| Exemption Type | Statutory Reference (MCA) | Year Enacted | Purpose When Enacted |
|---|---|---|---|
| Pollution Control and Carbon Capture | 15-6-135(3)(b)(i) | 2015 | Exempt equipment mandated by current and future Clean Air and Environmental regulatory acts to promote compliance and public health |
| Renewable Small Electric Generation | 15-6-225 | 2001 | No Documented Purpose |
| Governmental Exemptions | 15-6-201 (1) (a) | 1891, 1977, 1993, 2009 | No Documented Purpose |
| Religious Exemptions | 15-6-201 (1) (b) | 1891 | No Documented Purpose |
| Agricultural and Horticultural Societies | 15-6-201 (1) (d) | 1891 | No Documented Purpose |
| Educational Exemptions | 15-6-201 (1) (e) | 1891 | No Documented Purpose |
| Nonprofit Healthcare | 15-6-201 (1) (f) | 1891 | No Documented Purpose |
| Cemeteries, Mausoleums, Crematories | 15-6-201 (1) (h) | 1891 | No Documented Purpose |
| Charitable Exemptions | 15-6-201 (1) (i) | 1891 | No Documented Purpose |
| Art Galleries/Observatories/Zoos/ Museums | 15-6-201 (1) (k) | 1911 | No Documented Purpose |
| Nonprofit Water Association | 15-6-201 (1) (l) | 1987 | No Documented Purpose |
| Developmentally Disabled Org/ Mentally Impaired | 15-6-201 (1) (n) (i) | 1983 | No Documented Purpose |
| Retired/Aged/Chronically Ill | 15-6-201 (1) (n) (ii) | 1991 | No Documented Purpose |
| Nonprofit International Athletic Facility | 15-6-201 (1) (o) | 1987 | No Documented Purpose |
| Veteran's Clubhouse | 15-6-203 | 1931 | No Documented Purpose |
| Farm Buildings Less Than $500 | 15-6-207 (3) | 2005 | No Documented Purpose |
| Community Service Building/ Fraternal | 15-6-209 | 1977 | No Documented Purpose |
| Low Income Housing | 15-6-221 | 1999 | No Documented Purpose |
| Transmission Line Right-of-Way Easement | 15-6-229 | 2007 | No Documented Purpose |

**Table 9.104 Montana's Exempt Property Type Descriptions (continued)**

| Exemption Type | Statutory Reference (MCA) | Year Enacted | Purpose When Enacted |
|---|---|---|---|
| Temporary Tribal | 15-6-230 | 2011 | No Documented Purpose |
| Abandoned Mobile Homes | 15-6-242 | 2019 | No Documented Purpose |
| Exempt Mobile Homes | 15-6-241 | 2019 | No Documented Purpose |
| Natural Disaster | 15-16-611 | 1979 | No Documented Purpose |
| Navigable River | 15-24-1208 | 1993 | Exempt the portion of land which have rivers or streams deemed navigable which were proclaimed state owned as the result of court action |
| Deeded Exempt Right of Way | 15-24-1208 | 1993 | Exempt the portion of land deeded away to government entities for public right-of-ways |
| Designated Open Space | 76-6-104 | 1969 | Preserve open spaces to protect environmental life support systems from degradation and for the general health and welfare of the citizens of the state |
| **The following exemptions are not utilized or entities that do utilize them qualify under a different program** | | | |
| Property of Incompetent Veterans Held by a Guardian | 15-6-203 (2) | 1891 | No documented purpose. |
| State Water Conservation Projects | 15-6-205 | 1937 | No documented purpose. |
| Irrigation and Drainage Facilities | 15-6-206 | 1965 | No documented purpose. |
| Property Rented or Leased to a Taxing Unit for Less Than $100 a Year and Used for Public Park, Recreation, or Landscape Beautification Purposes | 15-6-201 (1) (p) | 2015 | Exempt green space in Thompson Falls owned by the railroad and leased to the city for use as open space/a park. |
| Property Used in the Manufacture of Ammunition Components (Terminates December 31, 2024) | 15-24-1410 | 2015 | "The legislature intends to encourage the manufacture of smokeless propellant, small arms, primers, and cartridge cases within the borders of Montana to ensure availability of small arms ammunition for the people of Montana and to fully implement the right to bear arms that the people have reserved for themselves." |
| Business Incubator | 15-24-1802 | 1989 | Encourage the establishment of business incubator organizations, which assist startup companies in their first years by providing shared services such as secretarial telephone, fax, copy, computer, meeting facilities and consulting services. |

**Table 9.104 Montana's Exempt Property Type Descriptions (continued)**

| Exemption Type | Statutory Reference (MCA) | Year Enacted | Purpose When Enacted |
|---|---|---|---|
| Industrial Trade Park | 15-24-1902 | 1989 | Assist in local development by facilitating the establishment of industrial parks owned by local economic development organizations, which encourages industry to move into the state, thereby promoting job creation and increasing revenue for local governments. |
| Land and Buildings of a Local Economic Development Organization | 15-24-2002 | 1991 | Allow for vacant, rundown buildings to be sold or donated to an economic development organization to help reduce local deteriorating infrastructure and encourage economic development. |

Table 9.105 shows the tax impact of some of the property tax exemptions that could be estimated in the property tax database. However, this is an underestimate, as the tax impact cannot be estimated for all types of exempt property. In particular, values on government property are not quality checked with the same diligence as normal property since they will not be taxed. Some designations categories overlap. For example, most right-of-way lands are owned by government entities. Entity level exemptions take precedent in this summary over property level exemptions.

**Table 9.105 Montana's Exempt Property Tax Expenditures**

| Exemption Type | Properties | Exempted Market Value | Reduction in Taxable Value | Loss in State Revenue | Tax Shifts | Total Benefit |
|---|---|---|---|---|---|---|
| Governmental Exemptions | 119,406 | 16,402,626,884 | 211,195,209 | 21,471,890 | 101,359,190 | 122,831,081 |
| Pollution Control and Carbon Capture | 19 | 2,351,410,706 | 70,542,321 | 7,229,986 | 27,836,296 | 35,066,282 |
| Non-Profit Health Care | 473 | 2,702,451,290 | 51,040,831 | 5,191,530 | 26,895,783 | 32,087,312 |
| Religious Exemptions | 2,665 | 2,114,170,334 | 39,107,672 | 3,974,481 | 19,593,012 | 23,567,493 |
| Charitable Exemptions | 1,352 | 1,220,619,858 | 23,925,406 | 2,438,167 | 11,372,644 | 13,810,811 |
| Low Income Housing | 260 | 855,515,764 | 15,914,160 | 1,620,642 | 8,832,569 | 10,453,211 |

| Abandoned Mobile Home (15-6-242, MCA) | 22 | 152,980 | 2,065 | 209 | 685 | 894 |
| **Total** | 156,628 | 27,670,570,487 | 449,558,062 | 45,772,545 | 213,933,772 | 259,706,319 |

In addition to the exemptions above, some personal property is also specifically exempt from property taxation including:

- the first $1,00,000 of Class 8 business equipment
- freeport merchandise and business inventories
- agricultural irrigation systems livestock and the unprocessed products of livestock
- livestock that is subject to a per capita fee
- producer-held grain in storage; unprocessed agricultural products
- poultry and the unprocessed products of poultry
- bees and the unprocessed products of bees
- biological control insects
- some sugar beet equipment
- agricultural implements and machinery worth less than $100
- down-hole equipment in oil and gas wells
- certain motion picture and television property
- intangible personal property, including software
- harness, saddles, and other tack
- the first $15,000 or less of handheld tools
- household goods and furniture
- bicycles or mopeds used for personal transportation
- personal property intended for rent or lease if it meets specific conditions
- space vehicles and all associated equipment
- title plane owned by a title insurer
- business equipment used in the manufacture of ammunition components
- property subject to registration fees

These exemptions do not have a quantifiable tax expenditure because of the reporting nature of personal property. For example, if the legislature wanted to remove the exemption for household goods and furniture and require every citizen in Montana to report the value of their furniture, the department would not have a way to reliably estimate the revenue that would generate because there is no current reporting requirement. Similarly, the $1 million exemption of business equipment results in hundreds of businesses with personal property less than the exemption threshold. They have no filing requirement as a result, so their property values are not contained in the property tax system. Therefore, no estimate of the tax expenditure associated with these personal property exemptions is given.

# Natural Resource Tax Expenditures

## Oil and Gas Tax Expenditures

There are many tax rates for production from oil and natural gas wells, depending on the type of well, when it was drilled, and whether the production is owned by working interest or royalty owners.

The following tax expenditures only apply to working interest owners; the tax rate on royalties is always 15.1 percent. When this section refers to the "regular rate" for oil, that implies a tax rate of 9.3 percent for post-1999 oil wells, or 12.8 percent for pre-1999 oil wells. The "regular rate" for natural gas is 9.3 percent for post-99 gas wells, or 15.1 percent for pre-1999 gas wells.

Estimated expenditures are summarized in a table at the end of this section.

### Reduced Rates for "New" Oil and Gas Production

**Code: 15-36-304, MCA**

**Legislation: HB 553, 1977 Session**

Oil and gas produced from a well that qualifies as "new" production are taxed at a reduced rate of 0.8 percent. This reduced rate applies for the first 12 months of production from a conventional vertical well and the first 18 months of production from a horizontally completed well.

New production includes production from new wells, as well as from existing wells that have not produced oil or gas during the previous 60 months. This reduced rate is intended to provide an incentive for the exploration, development, and production of oil and gas.

### Reduced Rate for Horizontally Recompleted Oil Wells

**Code: 15-36-304, MCA**

**Legislation: SB 18, 1993 Session**

The first 18 months of incremental production from a horizontally recompleted well is taxed at 5.8 percent. After this period, the tax rate reverts to the regular rate.

There had been no production reported from horizontally recompleted oil wells until the first quarter of Calendar Year 2024.

## Reduced Rates for Incremental Oil Production from Enhanced Recovery Projects

**Code: 15-36-304, MCA**

**Legislation: HB 636, 1985 Session; SB 28, 2019 Session**

Incremental production (excess production generated by an enhanced recovery project) receives preferential tax rates. In any quarter when the average price of West Texas Intermediate (WTI) crude oil is less than $54 per barrel, incremental production from secondary recovery projects is taxed at 8.8 percent. Otherwise, these wells are taxed at the regular rate.

Incremental production from tertiary recovery projects is always taxed at 6.1 percent. See 15-36-303, MCA, for the definitions and differences between secondary and tertiary recovery projects. These reduced rates provide incentive to keep existing wells open by subsidizing the cost of increasing their productive capacity.

## Reduced Rates for Stripper Exemption and Stripper Oil Wells

**Code: 15-36-304, MCA**

**Legislation: HB 661, 1999 Session; HB 658, 1999 Session**

In any quarter when the average price received by the well operator is less than $54 per barrel of crude oil, oil from wells on leases that produce less than 3 barrels per well per day is taxed at 0.8 percent (stripper exemption). If the price received is equal to or greater than $54 per barrel, this oil is taxed at 5.3 percent.

In any quarter that the average price received by the producer is less than $30 per barrel, wells drilled on or after January 1, 1999 that produce between 3 and 15 barrels per well per day are classified as stripper wells and are taxed at 5.3 percent on the first 10 barrels. If applicable, barrels 11 through 15 are taxed at the regular rate. If the average price received by the producer is at least $30 per barrel, post-1999 stripper wells are taxed at the regular rate.

For wells drilled before 1999, the criteria for stripper well classification differs slightly. Pre-1999 oil wells that produce between 3 and 10 barrels per well per day, regardless of the average price received, are classified as stripper wells and are taxed at 9.3 percent. The reduced rates on stripper exemption and stripper oil provide an incentive to keep low-volume wells in production.

## Reduced Rates for Pre-1999 “Stripper” Gas Wells

**Code: 15-36-304, MCA**

**Legislation: SB 530, 1999 Session**

Gas wells drilled prior to January 1, 1999, that produced less than 60,000 cubic feet of natural gas a day during the previous year (stripper wells) receive a preferential tax rate of 11.3 percent. The reduced rate for stripper gas wells provides an incentive to keep low-volume wells in production.

# Oil and Natural Gas Severance Tax Expenditures

### Table 9.106 Natural Gas: New Production Tax Holiday

| Fiscal Year | Working Interest Value | Actual Tax Rate | Tax Revenue | Normal Tax Rate | Normal Tax Revenue | Tax Expenditure |
|---|---|---|---|---|---|---|
| 2020 | $2,737,083 | 0.800% | $21,897 | 9.300% | $143,462 | $232,652 |

# Introduction

This 2024 Tax Expenditure Report and Summary is published by the Nebraska Department of Revenue (DOR), pursuant to the Tax Expenditure Reporting Act, Neb. Rev. Stat. §§ 77-379 through 77-385. This report provides a review of tax and fee (tax) expenditures, which is required in even numbered years to enable the Legislature to better determine those sectors of the economy that are receiving indirect subsidies as a result of tax expenditures.

A "tax expenditure" is defined as a revenue reduction that occurs in the tax base of the state or a political subdivision as a result of an exemption, deduction, exclusion, tax deferral, credit, or preferential rate introduced into the tax structure. See Neb. Rev. Stat. § 77-381(1). The tax expenditures included in this report are those in effect on July 1, 2024. All tax programs that generate state or local revenue annually in excess of $2 million are included in the report.

This report is submitted to the Governor, the Executive Board of the Legislative Council, and the chairpersons of the Legislature's Revenue and Appropriations Committees. This report is also available on the DOR website at revenue.nebraska.gov , under Tax Research.

A sincere thank you is extended to the following state agencies for the cooperation and contribution to this report: the Secretary of State; the Liquor Control Commission; the Department of Insurance; and the Department of Motor Vehicles.

Questions and comments regarding the format, content, and usefulness of the information provided in this report may be directed to Michael J. Walsh, Tax Policy Manager, at mike.walsh@nebraska.gov or 402-471-5920. The DOR appreciates input and feedback from the public on this report.

James R. Kamm
Tax Commissioner

# Nebraska Tax Expenditure Reporting Requirements

**Neb. Rev. Stat. § 77-379 provides:**

Sections 77-379 to 77-385 shall be known and may be cited as the Tax Expenditure Reporting Act.

**Neb. Rev. Stat. § 77-380 provides:**

It is the intent of sections 77-202.03 and 77-380 to 77-385 to provide a mechanism which will enable the Legislature to better determine those sectors of the economy which are receiving indirect subsidies as a result of tax expenditures. The Legislature recognizes that the present budgeting system fails to accurately and totally reflect the revenue lost due to such tax expenditures and that as a result undetermined amounts of potential revenue are escaping public or legislative scrutiny. The loss of such potential revenue causes a narrowing of the tax base which in turn forces higher tax rates on the remaining tax base.

**Neb. Rev. Stat. § 77-381 provides:**

For purposes of the Tax Expenditure Reporting Act, unless the context otherwise requires:

(1) Tax expenditure shall mean a revenue reduction that occurs in the tax base of the state or a political subdivision as the result of an exemption, deduction, exclusion, tax deferral, credit, or preferential rate introduced into the tax structure;

(2) Department shall mean the Department of Revenue;

(3) Income tax shall mean the tax imposed upon individuals and corporations under the Nebraska Revenue Act of 1967;

(4) Sales tax shall mean the tax imposed upon expenditures under the Nebraska Revenue Act of 1967;

(5) Property tax shall mean the tax imposed upon real and personal property under Chapter 77; and

(6) Miscellaneous tax shall mean revenue sources other than income, sales, and property taxes for state and local government including, but not limited to, motor fuel taxes, liquor taxes, cigarette taxes, inheritance and estate taxes, generation-skipping transfer taxes, insurance premium taxes, and occupation taxes and fees or other taxes which generate state or local revenue annually in excess of two million dollars.

**Neb. Rev. Stat. § 77-382 provides:**

(1) The department shall prepare a tax expenditure report describing (a) the basic provisions of the Nebraska tax laws, (b) the actual or estimated revenue loss caused by the exemptions, deductions, exclusions, deferrals, credits, and preferential rates in effect on July 1 of each year and allowed under Nebraska's tax structure and in the property tax, (c) the actual or estimated revenue loss caused by failure to impose sales and use tax on services purchased for nonbusiness use, and (d) the elements which make up the tax base for state and local income, including income, sales and use, property, and miscellaneous taxes.

(2) The department shall review the major tax exemptions for which state general funds are used to reduce the impact of revenue lost due to a tax expenditure. The report shall indicate an estimate of the amount of the reduction in revenue resulting from the operation of all tax expenditures. The report shall list each tax expenditure relating to sales and use tax under the following categories:

(a) Agriculture, which shall include a separate listing for the following items: Agricultural machinery; agricultural chemicals; seeds sold to commercial producers; water for irrigation and manufacturing; commercial artificial insemination; mineral oil as dust suppressant; animal grooming; oxygen for use in aquaculture; animal life whose products constitute food for human consumption; and grains;

(b) Business across state lines, which shall include a separate listing for the following items: Property shipped out-of-state; fabrication labor for items to be shipped out-of-state; property to be transported out-of-state; property purchased in other states to be used in Nebraska; aircraft delivery to an out-of-state resident or business; state reciprocal agreements for industrial machinery; and property taxed in another state;

(c) Common carrier and logistics, which shall include a separate listing for the following items: Railroad rolling stock and repair parts and services; common or contract carriers and repair parts and services; common or contract carrier accessories; and common or contract carrier safety equipment;

(d) Consumer goods, which shall include a separate listing for the following items: Motor vehicles and motorboat trade-ins; merchandise trade-ins; certain medical equipment and medicine; newspapers; laundromats; telefloral deliveries; motor vehicle discounts for the disabled; and political campaign fundraisers;

(e) Energy, which shall include a separate listing for the following items: Motor fuels; energy used in industry; energy used in agriculture; aviation fuel; and minerals, oil, and gas severed from real property;

(f) Food, which shall include a separate listing for the following items: Food for home consumption; Supplemental Nutrition Assistance Program; school lunches; meals sold by hospitals; meals sold by institutions at a flat rate; food for the elderly, handicapped, and Supplemental Security Income recipients; and meals sold by churches;

(g) General business, which shall include a separate listing for the following items: Component and ingredient parts; manufacturing machinery; containers; film rentals; molds and dies; syndicated programming; intercompany sales; intercompany leases; sale of a business or farm machinery; and transfer of property in a change of business ownership;

(h) Lodging and shelter, which shall include a separate listing for the following item: Room rentals by certain institutions;

(i) Miscellaneous, which shall include a separate listing for the following items: Cash discounts and coupons; separately stated finance charges; casual sales; lease-to-purchase agreements; and separately stated taxes;

(j) Nonprofits, governments, and exempt entities, which shall include a separate listing for the following items: Purchases by political subdivisions of the state; purchases by churches and nonprofit colleges and medical facilities; purchasing agents for public real estate construction improvements; contractor as purchasing agent for public agencies; Nebraska lottery; admissions to school events; sales on Native American Indian reservations; school-supporting fundraisers; fine art purchases by a museum; purchases by the Nebraska State Fair Board; purchases by the Nebraska Investment Finance Authority and licensees of the State Racing and Gaming Commission; purchases by the United States Government; public records; and sales by religious organizations;

(k) Recent sales tax expenditures, which shall include a separate listing for each sales tax expenditure created by statute or rule and regulation after July 19, 2012;

(l) Services purchased for nonbusiness use, which shall include a separate listing for each such service, including, but not limited to, the following items: Motor vehicle cleaning, maintenance, and repair services; cleaning and repair of clothing; cleaning, maintenance, and repair of other tangible personal property; maintenance, painting, and repair of real property; entertainment admissions; personal care services; lawn care, gardening, and landscaping services; pet-related services; storage and moving services; household utilities; other personal services; taxi, limousine, and other

transportation services; legal services; accounting services; other professional services; and other real estate services; and

(m) Telecommunications, which shall include a separate listing for the following items: Telecommunications access charges; prepaid calling arrangements; conference bridging services; and non-voice data services.

(3) It is the intent of the Legislature that nothing in the Tax Expenditure Reporting Act shall cause the valuation or assessment of any property exempt from taxation on the basis of its use exclusively for religious, educational, or charitable purposes.

**Neb. Rev. Stat. § 77-383 provides:**

The department may request from any state or local official or agency any information necessary to complete the reports required under § 77-382 and subsection (2) of § 77-385. All state and local officials or agencies shall cooperate with the department with respect to any such request.

**Neb. Rev. Stat. § 77-385 provides:**

(1) The report required under § 77-382 and a summary of the report shall be submitted to the Governor, the Executive Board of the Legislative Council, and the chairpersons of the Legislature's Revenue and Appropriations Committees on or before October 15, 1991, and October 15 of every even-numbered year thereafter. The report submitted to the executive board and the committees shall be submitted electronically. The department shall, on or before December 1 of each even-numbered year, appear at a joint hearing of the Appropriations Committee of the Legislature and the Revenue Committee of the Legislature and present the report. Any supplemental information requested by three or more committee members shall be presented within thirty days after the request. The summary shall be included with or appended to the Governor's budget presented to the Legislature in odd-numbered years.

(2)(a) In addition to the tax expenditure report required under § 77-382, the department shall prepare an annual report that focuses specifically on the tax expenditures relating to sales and use tax as follows:

(i) For 2014 and every fourth year thereafter, the report shall analyze the actual or estimated revenue loss caused by the tax expenditures described in subdivisions (2)(a) through (c) of § 77-382;

(ii) For 2015 and every fourth year thereafter, the report shall analyze the actual or estimated revenue loss caused by the tax expenditures described in subdivisions (2)(d) through (f) of § 77-382;

(iii) For 2016 and every fourth year thereafter, the report shall analyze the actual or estimated revenue loss caused by the tax expenditures described in subdivisions (2)(g) through (j) of § 77-382; and

(iv) For 2017 and every fourth year thereafter, the report shall analyze the actual or estimated revenue loss caused by the tax expenditures described in subdivisions (2)(k) through (m) of § 77-382.

(b) The report required under this subsection shall be submitted to the Governor, the Executive Board of the Legislative Council, and the chairpersons of the Revenue Committee of the Legislature and the Appropriations Committee of the Legislature on or before October 15 of each year. The report submitted to the executive board and the committees shall be submitted electronically. The department shall, on or before December 1 of each year, appear at a joint hearing of the Appropriations Committee of the Legislature and the Revenue Committee of the Legislature and present the report. Any supplemental information requested by three or more committee members shall be presented within thirty days after the request.

# Section A — Nebraska Local Sales and Use Taxes

## Basic Provisions and Tax Base

**Sales Tax[1,2]**

Nebraska sales tax is imposed upon the gross receipts from:

- all sales, leases, rentals, installation, application, and repair of tangible personal property;
- every person engaged as a public utility, cable service operator, or a satellite service provider;
- retailers of intellectual or entertainment property;
- selling admissions, bundled transactions, prepaid calling arrangements, or specified digital products;
- selling warranties, guarantees, service agreements, and maintenance agreements on property, the sale of which is taxable;
- renting or furnishing accommodations or lodging for periods of less than 30 days; and
- selling or providing certain services.

The state sales tax rate is 5.5%, except in Good Life Districts where the rate is 2.75%.

Property is defined as all tangible and intangible property (including rights, licenses, and franchises) and any services that are subject to tax.

**Use Tax[1]**

Use tax is a complement to the sales tax and is imposed upon the storage, use, distribution, or other consumption of all tangible personal property, and taxable sales of intangible property, services, bundled transactions, or specified digital products purchased at retail when the sales tax has not been paid.

**Local Sales and Use Taxes**

Any Nebraska county or incorporated municipality (city or village) may impose a local sales and use tax upon approval by a majority of their voters in a regular election. The local tax applies to the identical transactions subject to the state sales and use tax, with the exception of direct-to-home satellite programming, which is exempt from local, but not state sales taxes under federal law. Local sales taxes may be approved by county voters at a rate of 0.5%, 1%, 1.5%, 1.75%, and 2%, except in cities of the metropolitan class and counties, which are limited to a local sales tax rate of 0.5%, 1%, or 1.5%. The tax is collected and remitted to the state and is then remitted to the cities and counties after deducting refunds plus a 3% administrative fee. The 3% fee from cities is deposited in the Municipal Equalization Fund; the 3% fee from counties is deposited in the State General Fund.

Sources are listed for most estimates provided in Section A. The data sources cited in each category provide the raw data and are analyzed by DOR to arrive at the estimates. Generally, sources include DOR sales tax records, other State of Nebraska agencies, the federal government, nonprofit organizations, and trade groups. Some estimates are based on confidential DOR data, so a data source is not provided. In some cases, no reliable data exists to provide an estimate, and is listed as “not available.”

For 2014 and each fourth year thereafter, Neb. Rev. Stat. § 77-385(2)(a)(i) requires DOR to analyze the actual or estimated revenue loss caused by the tax expenditures described in subdivisions (2)(a) through (c) of § 77-382. This report satisfies the requirements of that section.

---

[1] *The taxes collected are deposited into two funds: the State General Fund; and the Highway Trust Fund. Deposits to the Highway Trust Fund are made from the sales and use taxes derived from registration of motor vehicles, trailers, and semi-trailers in Nebraska. The balance of taxes collected is deposited into the State General Fund.*

[2] *Estimates presented in the report are for calendar year 2024 unless otherwise noted.*

# Exemptions

## Agriculture

1. **Agricultural Machinery and Equipment**
   **Statutory citation:** 77-2704.36
   **Description:** Sales and use tax shall not be imposed on the gross receipts from the sale, lease, or rental of depreciable agricultural machinery and equipment purchased, leased, or rented on or after January 1, 1993, for use in commercial agriculture.
   **Estimate:** $110,000,000 (Estimate includes trucks and autos used in agriculture)
   **Data source:** U.S. Department of Agriculture

2. **Agricultural Repair Parts**
   **Statutory citation:** 77-2704.64
   **Description:** Repair or replacement parts for agricultural machinery and equipment used in commercial agriculture.
   **Estimate:** $18,534,000
   **Data source:** U.S. Census Bureau, Economic Census

3. **Agricultural Chemicals**
   **Statutory citation:** 77-2704.41 and 77-2704.46(3)
   **Description:** Agricultural chemicals, adjuvants, surfactants, bonding agents, clays, oils, and any other additives or compatibility agents used in commercial agriculture, including applications to land, crops, or any form of animal life whose products ordinarily constitute food for human consumption or whose pelts are ordinarily used for human apparel.
   **Estimate:** $159,390,000
   **Data source:** U.S. Department of Agriculture, Rural & Farm Finance Policy Analysis Center

4. **Seeds Sold to Commercial Producers and for Agricultural Purposes**
   **Statutory citation:** 77-2704.46(2)
   **Description:** Seeds and annual plants, whose products are food for human consumption, when sold to commercial producers of the products of such seeds, seed legumes, seed grasses, and seed grains when sold to be used exclusively for agricultural purposes.
   **Estimate:** $74,082,000
   **Data source:** U.S. Department of Agriculture, Agricultural Census
   **Note:** Neb. Rev. Stat. § 77-382(2)(a) requires a separate listing for “seeds sold to commercial producers.” This exemption also applies to seeds sold and used exclusively for agricultural purposes. With the data sources used, it is not possible for the DOR to break out commercial and agricultural uses for purposes of this exemption.

5. **Water for Irrigation and Manufacturing**
   **Statutory citation:** 77-2704.13(3)
   **Regulation:** 1-066.07 and .08
   **Description:** Water used for irrigation of agricultural lands and manufacturing purposes if no more than 10% is used for incidental purposes.
   **Estimate:** $18,526,000
   **Data source:** U.S. Geological Survey; Metropolitan Utilities District, Omaha; U.S. Department of Agriculture, Agricultural Census
   The bingo tax applies to the bingo gross receipts of the licensed organization. This tax does not apply to the sale of bingo equipment and supplies by a licensed distributor to a licensed organization, or to the sale of bingo supplies by some other retail business to the general public.

6. **Commercial Artificial Insemination**
   **Statutory citation:** 77-2704.23
   **Description:** Semen and insemination services for use in ranching, farming, commercial, or industry.
   **Estimate:** $1,323,000
   **Data source:** National Association of Animal Breeders; U.S. Department of Agriculture, National Agricultural Statistics Service

7. **Mineral Oil as Dust Suppressant**
   **Statutory citation:** 77-2704.60
   **Description:** Mineral oil applied to grain as a dust suppressant.
   **Estimate:** $881,040
   **Data source:** U.S. Department of Agriculture, National Agricultural Statistics Service

8. **Animal Grooming**
   **Statutory citation:** 77-2701.16(4)(g)
   **Description:** Animal grooming services performed by a licensed veterinarian or licensed veterinary technician in conjunction with the medical treatment of an animal.
   **Estimate:** $700,000
   **Data source:** U.S. Census Bureau, Economic Census

9. **Oxygen for Use in Aquaculture**
   **Statutory citation:** 77-2704.46(4)
   **Estimate:** Not available

10. **Animal Life Whose Products Constitute Food for Human Consumption or for Human Apparel**
    **Statutory citation:** 77-2704.46(1)
    **Description:** Any form of animal life whose products ordinarily constitute food for human consumption or whose pelts are ordinarily used for human apparel.
    **Estimate:** $1,013,039,000
    **Data source:** U.S. Department of Agriculture, Agricultural Census
    **Note:** Neb. Rev. Stat. § 77-382(2)(a) requires a separate listing for “animal life whose products constitute food for human consumption.” This exemption also includes an exemption for animal life whose pelts are used for human apparel. With the data sources used, the DOR cannot separate these two exemptions for purposes of this report.

11. **Grains (including animal feed) for Animal Life that Constitute Food for Human Consumption or Human Apparel**
    **Statutory citation:** 77-2704.41
    **Description:** Grains for consumption by any form of animal life whose products ordinarily constitute food for human consumption or whose pelts are ordinarily used for human apparel. This category also includes minerals, salts, proteins, fats, fibers, vitamins, and grit commonly used as feed or feed supplements.
    **Estimate:** $265,942,000
    **Data source:** U.S. Department of Agriculture, Agricultural Census
    **Note:** Neb. Rev. Stat. § 77-382(2)(a) requires a separate listing for “grains.” This exemption also includes feed, other than grain, for consumption by animal life whose products constitute food for human consumption, including minerals, salts, proteins, fats, fibers, vitamins, and grit commonly used as feed or feed supplements. With the data sources used, DOR cannot separate these two exemptions for purposes of this report. Seed grain is included in #4 above.

12. **Water and Veterinary Medicines for Animal Life that Constitute Food for Human Consumption or for Human Apparel**
**Statutory citation:** 77-2704.41
**Description:** Water and veterinary medicines for consumption by, to be used on, or that are otherwise used in caring for any form of animal life of a kind whose products ordinarily constitute food for human consumption or of a kind of pelts ordinarily used for human apparel.
**Estimate**: $21,362,000
**Data source:** U.S. Geological Survey, Estimated Water Use Report; U.S. Department of Agriculture, Economic Research Service; U.S. Department of Agriculture, Agricultural Census; Metropolitan Utilities District, Omaha

13. **Energy Used in Drying, Aerating, Blending, etc. of Grain**
**Statutory citation:** 77-2704.13
**Description:** Provides that processing includes drying, aerating, blending, cleaning, or sorting of grain in commercial agricultural facilities.
**Estimate:** Not available due to lack of data.
**Note:** Tax expenditure amount is included in Exemption #38

14. **Net Wrap, Baling wire, and Twine**
**Statutory citation:** 77-2704.36(1)(b)
**Description:** Net wrap, Baling wire, and Twine purchased for use in commercial agriculture from sales tax. Net wrap means plastic wrap used in the baling of livestock feed or bedding; Baling wire means wire used in the baling of livestock feed or bedding; Twine means a strong string of two or more strands twisted together used in the baling of livestock feed or bedding.
**Estimate:** $393,707
**Data source:** U.S. Census Bureau, Economic Census

## Business across State Lines

15. **Property Shipped Out-of-State**
**Statutory citation:** 77-2704.11
**Description:** Property shipped outside Nebraska pursuant to a sales contract calling for out-of-state delivery by the retailer, or delivery by the retailer to a carrier, to the post office, or to a forwarding agent for its shipment out-of-state.
**Estimate:** Not available

16. **Fabrication Labor for Items to be Shipped Out-of-State**
**Statutory citation:** 77-2704.11
**Description:** The amount charged for the fabrication (production labor) of property owned and furnished by an in-state or out-of-state customer that is fabricated in Nebraska and then shipped by the Nebraska retailer performing the fabrication to a point outside Nebraska. This statute also exempts installation and application labor, and any other services.
**Estimate:** Not available

17. **Property to be Transported Out of State**
**Statutory citation:** 77-2704.44(1)
**Description:** Property purchased from a non-nexus seller and retained solely for transporting out-of-state or to be incorporated into other property that will be transported out-of-state.
**Estimate:** Not available

**18. Property Purchased and First Used in Other States Prior to Being Brought into Nebraska**
**Statutory citation:** 77-2704.44(2)
**Description:** Property purchased in another state, territory, or possession of the U.S., the Commonwealth of Puerto Rico, or any foreign country that is intended to be used at that location, and that is actually used for its intended purpose (motor vehicles or motorboats registered in another state, commonwealth, territory, possession or country) and then is brought into the State of Nebraska for use.
**Estimate:** Not available

**19. Aircraft Delivery to Out-of-State Resident or Business**
**Statutory citation:** 77-2704.26
**Description:** An aircraft delivered or any service listed in 77-2701.16(4) that is performed on an aircraft brought into Nebraska by an individual who is a resident of another state or any other person who has a business in another state when the aircraft is not to be registered or based in Nebraska and it will not remain in Nebraska more than ten days after the sale or service is completed.
**Estimate:** Not available

**20. State Reciprocal Exemption for Industrial Machinery**
**Statutory citation:** 77-2704.43
**Description:** Industrial machinery and equipment, including parts for repairs, by another state or political subdivision of another state if the other state provides a similar reciprocal exemption.
**Estimate:** $0
**Note:** No other state currently provides an exemption to Nebraska or it's political subdivisions on industrial machinery and equipment.

**21. Property Taxed in Another State**
**Statutory citation:** 77-2704.49, 77-2704.31
**Description:** Property that has been taxed in another state, territory, or possession of the U.S., when a reciprocal exclusion or an exemption similar to transactions in Nebraska is granted.
**Estimate:** Not available

## Common Carrier and Logistics

**22. Railroad Rolling Stock; Repair Parts and Services**
**Statutory citation:** 77-2704.27
**Description:** The purchase, rental, or lease, whether purchased by a railroad or by another person; repair and replacement parts; and associated repair labor charges.
**Estimate:** $23,728,000
**Data source:** U.S. Census Bureau, Annual Capital Expenditures Survey; Bureau of Economic Analysis
**Note:** Estimate does not include repair services.

**23. Common or Contract Carriers; Repair Parts and Services**
**Statutory citation:** 77-2704.50, 77-2704.30(1)
**Regulation:** 1-069
**Description:** The sale, rental, or lease of motor vehicles, trailers, semitrailers, watercraft, or aircraft used as a common or contract carrier; repair and replacement parts; and any associated labor charges.
**Estimate:** $22,685,000
**Data source:** U.S. Census Bureau, Annual Capital Expenditures Survey; Bureau of Economic Analysis
**Note:** Estimate does not include repair services. This estimate includes purchase of non-common carrier trucks and trailers. With the available data, the DOR is unable to isolate non-common carrier purchases from the estimate.

**24. Common or Contract Carrier Accessories**
**Regulation:** 1-069.03C
**Description:** Accessories purchased for use with a common or contract carrier vehicle, watercraft, or aircraft that could have been included in the list price at the time of purchase.
**Estimate:** Not available.

**25. Common or Contract Carrier Safety Equipment**
**Regulation:** 1-069.03E
**Description:** Equipment required by a federal or state regulatory agency to be included on a common or contract carrier vehicle, watercraft, or aircraft operating in or through the State of Nebraska for the health or safety of passengers or cargo.
**Estimate:** Not available.

## Consumer Goods

**26. Motor Vehicle/Motorboat Trade-ins**
**Statutory citation:** 77-2701.35(3)(e)(ii)
**Description:** The value of a motor vehicle, motorboat, all-terrain vehicle, or utility-type vehicle taken by any person in trade as all or part of the consideration for a sale of another motor vehicle, motorboat, all-terrain vehicle, or utility-type vehicle.
**Estimate:** $72,189,000
**Data source:** Nebraska Department of Motor Vehicles

**27. Merchandise Trade-ins**
**Statutory citation:** 77-2701.35(3)(e)(i)
**Description:** The value of trade-ins taken in connection with a sale of property.
**Estimate:** Not available.

**28. Certain Medical Equipment and Medicine**
**Statutory citation:** 77-2704.09(1)
**Description:** Insulin, prescription drugs, mobility-enhancing equipment, drugs sold under a doctor's prescription, and durable medical equipment, home medical supplies, prosthetic devices, oxygen, and any oxygen equipment for a patient's use sold under a doctor's prescription and are eligible for coverage by Medicaid.
**Estimate:** $203,439,000
**Data source:** U.S. Center for Medicare and Medicaid Services

**29. Newspapers**
**Statutory citation:** 77-2704.07
**Description:** Newspapers issued at least once a week; and newspaper advertising supplements distributed with newspapers.
**Estimate:** $3,970,000
**Data source:** U.S. Census Bureau, Economic Census

**30. Laundromats**
**Statutory citation:** 77-2704.14
**Description:** Receipts of coin-operated machines for laundering and cleaning, except for washing motor vehicles.
**Estimate:** $669,000
**Data source:** U.S. Census Bureau, Economic Census

**31. Tele-floral Deliveries**
**Regulation:** 1-052.03
**Description:** Amounts received by Nebraska florists who make deliveries in this state pursuant to instructions received from florists in other states.
**Estimate:** $1,224,000
**Data source:** DOR database

**32. Motor Vehicle Discounts for the Disabled**
**Statutory citation:** 77-2704.21
**Description:** The entire purchase price of a motor vehicle purchased when the maximum amount allowed by law is contributed by the U.S. Department of Veterans Affairs or the Nebraska Department of Health and Human Services for a disabled person. If the amount contributed is less than the maximum amount, the exemption is based on the portion of the purchase price contributed.
**Estimate:** $9,000
**Data source:** U.S. Department of Veterans Affairs

**33. Political Campaign Fundraisers**
**Statutory citation:** 77-2704.10(4)
**Description:** Fees and admissions charged for political events by ballot question committees, candidate committees, independent committees, and political party committees as defined in the Nebraska Political Accountability and Disclosure Act.
**Estimate:** Not available

**34. Residential Water Services**
**Statutory citation:** 77-2704.68
**Description:** Provides an exemption from sales and use taxes on the gross receipts from the sale, lease, or rental of and the storage, use, or other consumption of residential water service.
**Estimate:** $9,375,000
**Data source:** DOR

**35. Feminine Hygiene Products**
**Statutory citation:** 77-2704.70
**Description:** Feminine hygiene products defined as: Tampons, panty liners, menstrual cups, sanitary napkins, and other similar tangible personal property designed for feminine hygiene. Does not include general grooming and hygiene products such as soaps, toothpaste, shampoo, and lotions.
**Estimate:** $1,729,000
**Data source:** U.S. Census Bureau; Economic Census

## Energy

**36. Motor Fuels**
**Statutory citation:** 77-2704.05
**Description:** Motor vehicle fuels such as gasoline, including casing head or natural gasoline, and any other liquids or gases for use in motor vehicles or motorboats; diesel and compressed fuels delivered into the fuel supply tanks of other vehicles; or for railroad use.
**Estimate:** $282,368,000
**Data source:** DOR; U.S. Department of Energy, Energy Information Administration

**37. Energy Used in Industry**
**Statutory citation:** 77-2704.13(2)
**Description:** Sales and purchases of the energy sources in § 77-2704.13(1) when more than 50% of the amount purchased is for use directly in processing, manufacturing, or refining, in the generation of electricity, in the compression of natural gas for retail sale as a vehicle fuel, or by any hospital.
**Estimate:** $153,266,000
**Data source:** U.S. Department of Energy, Energy Information Administration, State Energy Price and Expenditure Report

**38. Energy Used in Agriculture**
**Statutory citation:** 77-2704.13(1)
**Description:** Sales and purchases of electricity, coal, gas, fuel oil, diesel fuel, tractor fuel, propane, gasoline, coke, nuclear fuel, butane, wood as fuel, and corn as fuel when more than 50% of the amount purchased is for use directly in irrigation or farming.
**Estimate:** $84,276,000
**Data source:** U.S. Department of Agriculture, Agricultural Census; U.S. Geological Survey, Estimated Water Use Report; Metropolitan Utilities District, Omaha

**39. Aviation Fuel**
**Statutory citation:** 77-2704.03
**Description:** Fuel for use in aircraft, specifically aviation gasoline and jet fuel.
**Estimate:** $5,241,000
**Data source:** DOR; U.S. Department of Energy, Energy Information Administration

**40. Minerals, Oil, and Gas Severed from Real Property**
**Statutory citation:** 77-2704.04
**Description:** Mining or extracting minerals, oil, and gas in Nebraska.
**Estimate:** $8,812,000
**Data source:** DOR, Form 61 returns

**41. Net Metering of Electricity**
**Statutory citation:** 77-2701.16(2)(c)(ii)
**Description:** A customer-generator's electricity production will be netted against their electricity consumption for the purpose of determining the customer-generator's sales tax liability.
**Estimate:** $400,922
**Data Source:** U.S. Department of Energy, Energy Information Administration

**42. Community-Based Energy Development (C-BED) Projects**
**Statutory citation:** 77-2704.57
**Description:** Personal property for use in a community-based energy development (CBED) project.
**Estimate:** $1,128,000
**Data Source:** DOR, Renewable Energy Generation Facilities Operating in Nebraska

**43. Energy Used to Compress Natural Gas for Fuel**
**Statutory citation:** 77-2704.13
**Description:** Sales and use taxes shall not be imposed on energy sources or fuels when more than 50% of the amount purchased is for use directly in processing manufacturing, or refining, in the generation of electricity, in the compression of natural gas for retail sale as a vehicle fuel, or by any hospital.
**Estimate:** Included in #37 above

**44. Leases or use of Electric Power Structures or Facilities Owned by Political Subdivisions of the State, Electric Cooperatives, or Electric Membership Associations**
**Statutory citation:** 77-2701.16(2)(e)(i)
**Description:** The gross income received by political subdivisions of the state, an electric cooperative, an electric membership association, or by a contractor for the construction of or services provided on the lease or use of electric generation, transmission, distribution, or street lighting structures or facilities owned by a political subdivision of the state to persons furnishing a public utility service.
**Estimate:** $13,043,000
**Data source:** DOR

## Food

**45. Food or Food Ingredients (including but not limited to, food for home consumption)**
**Statutory citation:** 77-2704.24
**Description:** Food or food ingredients, except prepared food and food sold through vending machines.
**Estimate:** $263,088,000
**Note:** Estimate excludes Supplemental Nutrition Assistance Program purchases.
**Data source:** U.S. Department of Labor, Bureau of Labor Statistics, Consumer Expenditure Survey

**46. Supplemental Nutrition Assistance Program (SNAP) — formerly "food stamps"**
**Statutory citation:** 77-2704.54
**Description:** Food or food ingredients that are purchased by electronic benefits transfer or with food coupons.
**Estimate:** $17,339,000 (State taxation is prohibited by federal law)
**Data source:** U.S. Department of Agriculture, Food and Nutrition Service, Supplemental Nutrition Assistance Program

**47. Prepared Food Sold by Schools**
**Statutory citation:** 77-2704.10(1)
**Description:** Prepared food, including soft drinks and candy, served by public or private schools, school districts, student organizations, or parent-teacher associations pursuant to an agreement with the proper school authorities, in an elementary or secondary school or at any institution of higher education, public or private, during the regular school day, or at an approved function of any school or institution. However, this exemption does not apply to sales at any facility or function that is open to the general public, except that concession sales by elementary and secondary schools, public or private, are exempt.
**Estimate:** $11,029,000
**Data source:** Nebraska Department of Education, Annual Financial Report; University of Nebraska room and board rates; National Center for Education Statistics

**48. Prepared Food Sold by Hospitals**
**Statutory citation:** 77-2704.10(3)
**Description:** Prepared food, including soft drinks and candy, for human consumption when served to patients and inmates of hospitals and other institutions licensed by the State of Nebraska for care of human beings.
**Estimate:** $951,000
**Data source:** U.S. Census Bureau, Economic Census

**49. Prepared Food Sold by Institutions at a Flat Rate**
**Regulations:** 1-083.09, 1-083.10
**Description:** Prepared food furnished at fraternities, sororities, cooperative student societies, and summer camps that charge a single amount to attend.
**Estimate:** $1,579,000
**Data source:** U.S. Census Bureau, Economic Census
**Note:** Educational institutions are included in #45 above.

**50. Prepared Food for Elderly, Handicapped, and Supplemental Security Income Recipients**
**Statutory citation:** 77-2704.10(5)
**Description:** Prepared food sold to the elderly, handicapped, or recipients of Supplemental Security Income by an organization that accepts SNAP or food coupons under regulations issued by the U.S. Department of Agriculture, although it is not necessary for the purchaser to use SNAP or food coupons to pay for the meal.
**Estimate:** $134,000
**Data source:** Internal Revenue Service Exempt Organizations Business Master File via National Center for Charitable Statistics; Meals on Wheels Association of America

**51. Prepared Food Sold by Churches**
**Statutory citation:** 77-2704.10(2)
**Description:** Prepared food, including soft drinks and candy, for human consumption when sold by a church at a church function.
**Estimate:** Not available.

## General Business

**52. Component/Ingredient Parts**
**Statutory citation:** 77-2704.45(1)
**Description:** Property that becomes an ingredient or component part of property that is manufactured, processed, or fabricated for ultimate sale at retail.
**Estimate:** $1,796,740,000
**Data source:** REMI model

**53. Manufacturing Machinery and Equipment**
**Statutory citation:** 77-2704.22(1), 77-2704.22(2)
**Description:** The sale, lease, rental, storage, use, or other consumption in Nebraska by a manufacturer of manufacturing machinery, equipment, and repair parts and labor.
**Estimate:** $96,484,000
**Data source:** U.S. Census Annual Survey of Manufactures
**Note:** This estimate includes installation, repair, and maintenance services performed on manufacturing machinery and equipment. The estimate does not include repair labor.

**54. Containers**
**Statutory citation:** 77-2704.47(1)
**Description**: Nonreturnable containers sold to purchasers who place contents in the container and sell the contents with the container.
**Estimate:** $68,021,000
**Data source:** U.S. Census Bureau, Economic Census; U.S. Bureau of Economic Analysis
**Note:** This estimate includes containers that hold contents that are not subject to sales or use tax (77-2704.47[2]) and returnable containers when sold with the contents or resold for refilling (77-2704.47[3]).

**55. Film Rentals**
**Statutory citation:** 77-2704.53
**Description:** Gross income received from videotape, film rentals, and satellite programming when tax is charged on the admission or service.
**Estimate:** $25,000
**Data source:** U.S. Census Bureau, Economic Census; U.S. Bureau of Economic Analysis

**56. Molds and Dies**
**Statutory citation:** 77-2704.40 and 77-2701.47(1)(c)
**Description:** Sales of molds, dies, and patterns that are used to manufacture a single product that is either injection-molded from plastic or stamped from metal.
**Estimate**: $9,125,000
**Data source:** U.S. Census Bureau, Annual Survey of Manufacturers; U.S. Bureau of Economic Analysis
**Note:** This estimate is for all molds and dies even though most would be exempt as manufacturing machinery or equipment under Neb. Rev. Stat. § 77-2704.22.

**57. Syndicated Programming**
**Statutory citation:** 77-2704.39
**Description:** Sales of syndicated programming for rebroadcast by a radio or television station.
**Estimate:** Minimal
**Data source:** U.S. Census Bureau, Economic Census; Bureau of Economic Analysis

**58. Intercompany Sales**
**Statutory citation**: 77-2701.24(1), 77-2704.48
**Description:** An intercompany sale, but not a lease or rental of property to a parent or vice versa, from one subsidiary to another subsidiary having the same parent, or between brother-sister companies if the seller or transferor has previously, directly or indirectly, paid a sales or use tax thereon.
**Estimate:** Not available

**59. Intercompany Leases**
**Statutory citation:** 77-2704.28
**Description:** An intercompany lease from a subsidiary to the parent company or vice versa, from one subsidiary to another subsidiary of the same parent company, or between brother-sister companies if the seller or transferor directly or indirectly has previously paid a sales or use tax on the leased property.
**Estimate:** Not available

**60. Sale of Used Business or Farm Machinery and Equipment**
**Statutory citation:** 77-2701.24(3), 77-2704.48
**Description:** The sale of business or farm machinery and equipment if the machinery or equipment was used by the seller, for at least one year, as a capital asset and sales or use tax was previously paid or specifically exempted.
**Estimate:** Not available.

**61. Transfer of Property in Change of Business Ownership**
**Statutory citation:** 77-2701.24(5), 77-2704.48
**Description:** Sale of property that is made in connection with the sale to a single buyer of all or substantially all of the property of a trade of business if the seller has previously paid a sales or use tax on the property sold.
**Estimate:** Not available

**62. Direct Mail Postage**
**Statutory citation:** 77-2701.11 and 77-2701.35(3)(d)
**Description:** Delivery charges do not include U.S. postage charges on direct mail if the charges for U.S. postage are separately stated on the invoice, bill of sale, or similar document given to the purchaser. Separately stated charges for U.S. postage on direct mail are no longer subject to sales and use taxes.
**Estimate:** $3,778,000
**Data Source:** U.S. Postal Service; Bureau of Economic Analysis.

**63. Data Centers**
**Statutory citation:** 77-2704.62
**Description:** Tangible personal property, acquired by a person operating a data center, to be assembled, engineered, processed, fabricated, manufactured into, attached to, or incorporated into other tangible personal property for subsequent use outside of Nebraska.
**Estimate:** $7,084,000
**Data source:** U.S. Census Bureau, Economic Census

**64. Certain Catalysts, Chemicals and Materials**
**Statutory citation:** 77-2704.69
**Description:** Sales of catalysts, chemicals, and materials used in manufacturing ethyl alcohol and its coproducts.
**Estimate:** $951,000
**Data source:** U.S. Census Bureau, Economic Census

**65. Leases or Uses of Towers or Structures Primarily for Internet, GPS, or Broadcasting**
**Statutory citation:** 77-2701.16(2)
**Description:** The gross income received for the lease or use of towers or other structures primarily used for furnishing Internet access services, agricultural GPS locating services, or radio or television broadcasting.
**Estimate:** $4,757,000
**Data source:** Vertical Consultants

## Lodging and Shelter

**66. Room Rentals by Certain Institutions**
**Statutory citation**: 77-2701.33(2)
**Description:** Room rentals made by certain facilities licensed under the Health Care Facility Licensure Act, college dormitories, and other facilities licensed by the State of Nebraska.
**Estimate:** $140,581,000
**Data source:** U.S. Census Bureau, Economic Census; University of Nebraska on-campus enrollment and boarding rates; National Center for Health Statistics, American Hospital Directory

**67. Long-term Lodging**
**Statutory citation:** 77-2701.33(2)
**Description:** Lodging for 30 continuous days or more.
**Estimate:** Not available

## Miscellaneous

**68. Cash Discounts/Coupons**
**Statutory citation:** 77-2701.35(3)(a)
**Description:** Cash discounts allowed and taken on sales not reimbursed by a third party, including coupons issued and redeemed by the retailer.
**Estimate:** Not available

**69. Separately Stated Finance Charges**
**Statutory citation:** 77-2701.35(3)(b)
**Description:** Separately Stated finance, carrying, service, or interest charges in connection with credit extended under a deferred payment plan.
**Estimate:** Not available.

**70. Occasional Sales**
**Statutory citation:** 77-2701.24(2), 77-2704.48
**Description:** Garage sales and sales made by individuals on an online auction site of household goods and personal belongings. The sale cannot be held more than three days in a year and the sales must meet additional criteria contained in these sections.
**Estimate:** Not Available

**71. Occasional Sales Aircraft**
**Statutory citation:** 77-2701.24(2), 77-2704.48
**Description:** Sale of an aircraft when it is an intercompany sale from a subsidiary to the parent, from a parent to a subsidiary, from one subsidiary to another subsidiary of the same parent, or between brother-sister companies, business reorganizations and windups.
**Estimate:** $1,000,000
**Data source:** DOR

**72. Lease-to-Purchase Agreements**
**Statutory citation**: 77-2704.08
**Description:** Leased property sold to a lessee of the property under a rental agreement (lease-purchase agreement) where the rental payments are credited against the purchase price of the property to the extent tax was collected on the payments.
**Estimate:** Not available

**73. Separately Stated Taxes**
**Statutory citation:** 77-2701.35(3)(c)
**Description:** Any taxes legally imposed on the consumer that are separately stated on the invoice, bill of sale, or other similar document given to the purchaser.
**Note:** Examples of this type of tax include the federal luxury tax or the Nebraska Universal Service Fund Surcharge.
**Estimate:** Minimal

**74. Bullion or Currency**
**Statutory citation:** 77-2704.66
**Description:** The sale of bullion or currency is exempt from sales and use taxes.
**Estimate**: $2,005,017
**Data Source:** U.S. Census Bureau, Economic Census

**75. Biochips**
**Statutory citation:** 77-2704.61
**Description:** Solid substrates upon, or into which, is incorporated genetic or protein information when used for the purpose of genotyping or analyzing gene expression, protein expression, genomic sequencing, or protein profiling.
**Estimate:** $3,032,000
**Data source:** Coherent Market Insights

# Nonprofits and Governments Exemption

**76. Purchases by Political Subdivisions of the State**

**Statutory citation:** 77-2704.15(1)

**Description:** Purchases by the state, including public educational institutions recognized or established under the provisions of Chapter 85, any Nebraska county, township, city, village, rural or suburban fire protection district, city airport authority, county airport authority, joint airport authority, drainage district organized under Neb. Rev. Stat. §§ 31-401 to 31-450, land bank, natural resource district, elected county fair board, housing agency as defined in Neb. Rev. Stat. § 71-1575 except for purchases for any commercial operation that does not exclusively benefit the residents of an affordable housing project, cemetery created under Neb. Rev. Stat. § 12-101, or joint entity or agency formed to fulfill the purposes described in the Integrated Solid Waste Management Act by any combination of two or more counties, townships, cities, or villages pursuant to the Interlocal Cooperation Act, the Integrated Solid Waste Management Act, or the Joint Public Agency Act, except for purchases for use in the business of furnishing gas, water, electricity, or heat, or by any irrigation or reclamation district, the irrigation division of any public power and irrigation district, or public schools established under Chapter 79. This estimate includes purchases by nonprofit corporations formed solely to finance one or more construction projects for an exempt governmental agency.

**Estimate:** $212,902,000

**Data source:** U.S. Census Bureau, State and Local Government Finances

**77. Purchases by Churches and Nonprofit Colleges and Medical Facilities**

**Statutory citation:** 77-2704.12(1)

**Description:** Purchases made by:

1) Nonprofit organizations created exclusively for religious purposes (1967);
2) Nonprofit organizations providing services exclusively to the blind (1967);
3) Nonprofit Nebraska-licensed private educational institution established under §§ 79-1601 to 79-1607 (1967);
4) Nonprofit Nebraska-licensed private college or university with its primary campus located in Nebraska (2011);
5) The medical care levels and facilities (a) through (k) must be licensed under the Nebraska Health Care Facility Licensure Act:
    a) Nonprofit Nebraska-licensed hospitals (1967);
    b) Nonprofit Nebraska-licensed health clinics when one or more hospitals or the parent corporations of the hospitals own or control the health clinic for the purpose of reducing the cost of health services, or when the health clinic receives federal funds through the United States Public Health Service for the purpose of serving populations that are medically underserved (1984);
    c) Nonprofit Nebraska-licensed skilled nursing facilities (1977);
    d) Nonprofit Nebraska-licensed intermediate care facilities (1977);
    e) Nonprofit Nebraska-licensed assisted-living facilities (2008);
    f) Nonprofit Nebraska-licensed intermediate care facilities for the developmentally disabled (2004);
    g) Nonprofit Nebraska-licensed nursing facilities (1991);
    h) Nonprofit Nebraska-licensed home health agency (1982);
    i) Hospice or hospice service (2005)
    j) Respite care service (2005);
    k) Nonprofit Nebraska-licensed mental health substance abuse treatment center (2012); and
6) Nonprofit Nebraska-licensed center for independent living as defined in 29 U.S.C. 796a;
7) Nonprofit Nebraska-licensed residential child-caring agencies (1980) or child placement agencies (1967);
8) Nonprofit organizations certified by the Department of Health and Human Services (HHS) to provide community-based services for persons with developmental disabilities (2006).
9) Any nonprofit organization for purchases of property that will be transferred to an organization listed in subdivisions (a) through (i) of this subsection until the property is transferred or the contract is completed, provided that the nonprofit organization (i) acquires property that will be transferred to an organization listed in subdivisions (a) through (i) of this subsection or (ii) enters into a contract of construction, improvement, or repair upon property annexed to real estate if the property will be transferred to an organization listed in subdivisions (a) through (i) of this subsection.

**Estimate:** $251,198,000

**Data source:** National Center for Charitable Statistics

**78. Purchasing Agents for Construction Improvements for Political Subdivisions of the State**

**Statutory citation:** 77-2704.15(2)

**Description:** The appointment of purchasing agents will be recognized for the purpose of altering the status of the construction contractor as the ultimate consumer of building materials that are annexed to the structure and which belong to the state or governmental subdivision.

**Note:** Estimate is included in Exemption #76, 77-2704.15(1), above.

**79. Purchasing Agents for Churches, Nonprofit Colleges, and Medical Facilities**
**Statutory citation:** 77-2704.12(3)
**Description:** A construction contractor may be appointed as purchasing agent for these entities and make tax exempt purchases of building materials that will be annexed to real property.
**Note:** Estimate is included in Exemption #76, 77-2704.15(1), above.

**80. Nebraska Lottery**
**Statutory citation:** 77-2704.38
**Description:** Nebraska Lottery tickets sold pursuant to the State Lottery Act.
**Estimate:** $12,105,500
**Data source:** DOR, Nebraska Lottery

**81. Admissions to School Events**
**Statutory citation:** 77-2704.10(6)
**Description:** Fees and admissions charged by a school district, student organization, or parent-teacher association for functions at elementary or secondary schools, public or private.
**Estimate:** $738,000
**Data source:** Nebraska High School Activities Association; Lincoln Public Schools Annual Budget; Nebraska Department of Education enrollment statistics

**82. School-supporting Fundraisers**
**Statutory citation:** 77-2704.25
**Description:** Property sold by parent-booster clubs, parent-teacher associations, parent-teacher-student associations, or school-operated stores approved by an elementary or secondary school, public or private, if the proceeds are used to support school activities or the school itself.
**Estimate:** $764,000
**Data source:** Internal Revenue Service Exempt Organizations Business Master File via National Center for Charitable Statistics

**83. Sales on Native American Indian Lands**
**Statutory citation:** 77-2704.02
**Description:** Property sold to a Native American Indian living in Indian country, as defined in federal law, or to a Native American Tribal Council or Tribal corporation when it is within Indian country.
**Estimate:** $4,864,000 (State taxation is prohibited by federal law)
**Data source:** DOR; Census Bureau

**84. Certain Purchases by a Museum**
**Statutory citation:** 77-2704.56
**Description:** Sales and use taxes are not imposed on purchases of historical, scientific, cultural, or artistic property or fine art by a museum as defined by Neb. Rev. Stat. § 51-702. The exemption was broadened to include property in addition to fine art in 2016.
**Estimate**: $539,000
**Data source:** Internal Revenue Service Exempt Organizations Business Master File via National Center for Charitable Statistics

**85. Purchases by the Nebraska State Fair Board**
**Statutory citation:** 77-2704.15
**Estimate:** $125,000
**Data source:** Nebraska State Fair Board

**86. Purchases by the Nebraska Investment Finance Authority**
**Statutory citation:** 77-2704.17
**Estimate:** Minimal

**87. Purchases by the Licensees of the State Racing and Gaming Commission**
**Statutory citation:** 77-2704.20
**Description:** An exemption is granted to any purchases by licensees of the State Racing and Gaming Commission, which includes casinos and horse tracks.
**Estimate:** $2,858,000
**Data source:** U.S. Census Bureau, Economic Census

**88. Purchases by U.S. Government**
**Statutory citation:** 77-2704.02
**Description:** Purchases by the U.S. Government, its agencies, and instrumentalities.
**Estimate:** Not available
**Note:** State taxation is prohibited by federal law.

**89. Public Records**
**Statutory citation:** 77-2704.42
**Description:** Copies of public records as defined in 84-712(1), except those documents developed, produced, or acquired and made available for commercial sale to the general public.
**Estimate:** Not available

**90. Sales by Religious Organizations**
**Statutory citation:** 77-2701.24(4), 77-2704.48
**Description:** One annual sale of property by an organization created exclusively for religious purposes.
**Estimate:** $69,000
**Data source:** Internal Revenue Service Exempt Organizations Business Master File via National Center for Charitable Statistics

**91. Admissions to Statewide Sports Events**
**Statutory citation:** 77-2704.10(7)
**Description:** Fees and admissions charged to participants by nonprofit IRC § 501(c)(3) organizations that conduct statewide sports events with multiple sports for both adults and youth.
**Estimate:** $22,000
**Data source:** Cornhusker State Games website

**92. Admissions Charged by Organizations Dedicated to Youth Development and Healthy Living**
**Statutory citation:** 77-2704.10(8)
**Description:** Fees and admissions charged to participants by nonprofit IRC § 501(c)(3) organizations that are affiliated with a national organization that is primarily dedicated to youth development and healthy living and offers sports instruction or sports events in multiple sports.
**Estimate:** $4,063,000
**Data source:** Internal Revenue Service Exempt Organizations Business Master File via National Center for Charitable Statistics

**93. Entry Fees for Youth Sports Events**
**Statutory citation:** 77-2704.63
**Description:** Entry fees or other amounts charged by political subdivisions or IRC § 501(c)(3) organizations to participate in sports events, sports leagues, or competitive educational activities that are restricted to participants who are less than 19 years old.
**Estimate:** $175,000
**Data source:** Nebraska city budgets and Consolidated Annual Financial Reports

**94. Membership or Admission to or Purchase by Zoo or Aquarium**
**Statutory citation:** 77-2704.67
**Description:** Sales and use taxes shall not be imposed on the gross receipts from the sale, lease, or rental of and the storage, use, or other consumption in this state of any sale of a membership in, an admission to, or any purchase by a nationally accredited zoo or aquarium operated by a public agency or nonprofit corporation primarily for educational or scientific or tourism purposes.
**Estimate:** $2,365,000
**Data source:** DOR

**95. Sanitary Drainage Districts**
**Statutory citation:** 77-2704.15
**Description:** Sales tax exemption for purchases made by sanitary drainage districts.
**Estimate:** Not available.

**96. Automobile Museums**
**Statutory citation:** 77-2704.65
**Description:** Sales and use tax exemption on purchases of items that are on display, or held for display, by any historic automobile museum and are reasonably related to the general purpose of the historic automobile museum. A historic automobile museum is defined as a museum that is open to the public for at least four hours a week, on average, and is used to maintain and exhibit at least 150 vehicles.
**Estimate:** $118,000
**Data source:** DOR sales and use tax records

**97. County Agricultural Societies**
**Statutory citation:** 77-2704.15
**Description:** County agricultural societies are exempt from paying sales and use taxes on their purchases.
**Estimate:** $302,000
**Data source:** IRS Form 990

## Recent Sales Tax Exemptions

**98. Nonprofit Organizations Expanded**
**Statutory citation:** 77-2704.12
**Description:** Sales tax exemption to any nonprofit organization certified or contracted by a regional behavioral health authority or the Division of Behavioral Health of the Department of Health and Human Services to provide community-based mental health or substance use services.
**Estimate:** $471,000
**Data source:** U.S. Census Bureau; Economic Census

## Services Purchased for Non-Business Use[3]

**99. Motor Vehicle Cleaning and Repair**

**Description and Estimate:**

Motor vehicle cleaning:[4]

Total motor vehicle repair: $43,001,600

- Body repair: $15,887,568
- Brake repair: $2,705,919
- Electrical system repair: $1,582,481
- Repair of recreational motor vehicles: $129,040
- Other repair services, such as muffler and exhaust systems, air conditioning and heating systems, etc.: $7,635,600
- Power train repair: $8,626,864
- Scheduled preventative maintenance: $5,285,462
- Wheel and alignment services: $1,148,666

**Data Source:** U.S. Census Bureau, Economic Census.

**100. Cleaning and Repair of Clothing**

**Description and Estimate:**

Total cleaning of clothing: $3,096,000

- Coin-operated laundry and dry cleaning: $690,397
- Dry cleaning services: $1,679,376
- Other laundry services: $726,131

**Data Source:** U.S. Census Bureau, Economic Census

**101. Cleaning and Repair of Tangible Personal Property**

**Description and Estimate:**

- Cleaning of tangible personal property: Not available
- Maintenance of tangible personal property: N/A (it's taxable)
- Repair of tangible personal property: N/A (it's taxable)

**102. Maintenance, Painting, and Repair Services to Real Property**

**Estimate**: $25,240,000

- Painting and wall covering contractors: $828,000
- Poured concrete foundation and structure contractors: $791,000
- Framing contractors: $240,000
- Glass and glazing contractors: Not available
- Roofing contractors: $3,028,000
- Siding contractors: $924,000
- Electricians: $2,579,000
- Plumbing, heating, and air conditioning contractors: $13,250,000
- Drywall and insulation contractors: $744,000
- Flooring contractors: $191,000
- Carpentry contractors: $2,663,000

**Data Source:** U.S. Census Bureau, Economic Census

**Note:** The estimates above refer only to repair work completed to existing single family housing and not to commercial structures, which are excluded from the estimate pursuant to Neb. Rev. Stat. § 77-382.

---

[3] *With the available data sources, DOR is unable to separate business use from non-business use in many of the following services.*

[4] *Neb. Rev. Stat. § 77-382(2)(l), as amended by LB 989 (2014), requires a listing for "motor vehicle cleaning and repair services;" however, motor vehicle cleaning is subject to sales tax. The estimates above refer to services related to motor vehicle repair performed, and do not include the value of replacement parts installed.*

**103. Entertainment Admissions**

**Estimate:** *

***Note:** Neb. Rev. Stat. § 77-382(2)(l), as amended by LB 989 (2014), requires a listing for "entertainment admissions;" however, entertainment admissions are subject to sales tax.

**104. Personal Care Services**

**Estimate:** $11,467,000

- Hair care services: $7,566,000
- Hair removal services: $226,000
- Massage services: $455,000
- Nail care services: $1,152,000
- Tattoo and body modification services: $1,659,000
- Skin care services: $409,000

**Data Source:** U.S. Census Bureau, Economic Census

**105. Lawn Care, Gardening, and Landscaping Services**

**Estimate:** $20,000,000

**Data Source:** DOR

**Note:** Neb. Rev. Stat. § 77-382(2)(l), as amended by LB 989 (2014), requires a listing for "lawn care, gardening, and landscaping services;" however, installation of landscaping materials and live plants is subject to sales tax.

**106. Pet-related Services**

**Estimate:** $27,268,000

**Data Source:** U.S. Census Bureau, Economic Census

**Note:** The estimate includes veterinary services performed on both pets and livestock. Other pet-related services, such as the boarding and caring of animals; grooming; training, exercising, or handling; waste removal; breeding and insemination services; and cremation, burial, and disposal services are subject to sales tax.

**107. Storage and Moving Services**

**Estimate:** $11,150,000

- Used household goods moving services: $9,210,000
- Lessors of mini-warehouses and self-storage units: $1,940,000

**Data Source:** U.S. Census Bureau, Economic Census

**108. Household Utilities Estimate:**

**Estimate:** Not Applicable

**109. Other Personal Services**

**Estimate**: $7,589,000

- Weight loss services: $1,464,000
- Pre-burial services: $3,193,000
- Interment of human remains: $882,000
- Graves, plots and other spaces for human remains: $819,000
- All other personal services, including bail bonding, shoeshine, wedding planning, social escorts, and plots for human remains: $1,231,000

**Data Source:** U.S. Census Bureau, Economic Census

**110. Taxi, Limousine, and Other Transportation Services**

**Estimate:** $8,110,000

- Local, fixed-route passenger transportation by road and transit rail: $4,292,000
- Long-distance passenger transportation by road, except fixed-route: $605,000
- Local taxi service: $584,000
- Local passenger transportation by chartered road vehicles, except limousines: $17,000
- Local passenger transportation by limousines and similar luxury vehicles: $1,236,000
- Special needs transportation service, including paratransit, senior citizen, etc.: $1,128,000
- Sightseeing services by ground vehicles: $244,000

**Data Source:** U.S. Census Bureau, Economic Census.

**Note:** Estimates above include transportation services sold to businesses.

**111. Legal Services**

**Estimate:** $70,391,000

**Data Source:** U.S. Census Bureau, Economic Census

**Note:** Estimate includes legal services purchased by businesses.

**112. Accounting Services**

**Estimate:** $13,918,000

**Data Source:** U.S. Census Bureau, Economic Census

**Note:** Estimate includes tax preparation services for individuals and unincorporated businesses and does not include services, such as preparation of financial statements, payroll, and budgets.

**113. Other Professional Services**

**Estimate:** $406,211,000

- Investment advice: $8,545,000
- Travel agencies: $3,086,000
- Tour operators: $155,000
- Offices of physicians: $278,762,000
- Offices of dentists: $57,722,000
- Offices of chiropractors: $10,541,000
- Offices of optometrists: $6,162,000
- Offices of mental health practitioners: $6,255,000
- Family planning: $251,000
- Substance abuse: $6,436,000
- Other outpatient services: $28,296,000

**Data Source:** U.S. Census Bureau, Economic Census

**114. Other Real Estate Services**

**Estimate:** $49,395,000

- Offices of real estate agents: $46,853,000
- Offices of real estate appraisers: $2,542,000

**Data Source:** U.S. Census Bureau, Economic Census

## Telecommunications

**115. Telecommunications Access Charges**

**Statutory citation:** 77-2704.51

**Description:** Telecommunication services between telecommunications companies, including division of revenues, settlements, or access charges.

**Estimate:** $13,782,000

**Data Source:** Federal Communications Commission ARMIS Report 43-01 and 43-08.

**116. Prepaid Calling Arrangements**
**Note:** Prepaid calling arrangements are subject to sales tax under Neb. Rev. Stat. § 77-2701.16(9) at the time of sale rather than the time of use.

**117. Conference Bridging Services**
**Statutory citation:** 77-2701.16(2)(a)(i)
**Description:** Sales of conference bridging services associated with the provision of ancillary services.
**Estimate:** $858,000
**Data source:** U.S. Census Bureau, Economic Census; Bureau of Economic Analysis

**118. Non-voice Data Services**
**Statutory citation:** 77-2701.16(2)(a)(i)
**Description:** Sales of value-added, non-voice data service associated with the provision of telephone communications services.
**Estimate:** Not available.

**119. Leases or Sales of Dark Fiber**
**Statutory citation:** 77-2704.51
**Description:** Leases and sales of dark fiber as defined in Neb. Rev. Stat. § 86-574, between telecommunications companies.
**Estimate:** Not available.

## Credits and Refunds

**120. Refund for Tax Paid on Materials Annexed Outside the U.S.**
**Statutory citation:** 77-2704.32
**Description:** A sales tax refund for tax paid on materials actually annexed outside the U.S. or its territories or possessions.
**Estimate:** Not available.

**121. Refund for Changes in Sales Tax Rate in Fixed Price Contracts**
**Statutory citation:** 77-2704.33
**Description:** A sales tax credit or refund is given when a written contract exists for a fixed price for a construction project and the sales tax rate is increased during the term of the contract. The contractor can then apply for a refund of the increased sales tax amount paid on building materials when the amount exceeds $10.
**Estimate:** Not available.

**122. Bad Debt Deduction**
**Statutory citation:** 77-2708(2)(j)(i)&(ii)
**Description:** A sales tax credit is given to the retailer, contractor, or repairperson for sales charged off as worthless or uncollectible for federal income tax purposes or against bad debt reserve; a credit given for the portion of the purchase price remaining unpaid at the time of repossession.
**Estimate:** Not available.

**123. Pollution Control Facility Refund**
**Statutory citation:** 77-27,149 through 77-27,155
**Description:** A refund is made for sales tax paid by a claimant or a contractor on an air or water pollution control facility used primarily for eliminating industrial or agricultural waste from air or water.
**Estimate:** Not available.

***For sales and use tax refunds related to the Nebraska Advantage Act, see Section U.***

## Deductions

**124. Retailers' Collection Fee**

**Statutory citation:** 77-2703(2)(d) and 77-2708(1)(d)

**Description:** A collection fee is taken by retailers and other persons collecting the sales and use tax to defray the expense of the collection. The collection fee is 3% of the first $5,000 remitted each month, maximum of $150.The fee is computed on the basis of each licensed location when a combined return is filed.

**Estimate:** $27,616,000

**Data Source:** DOR

**125. Administrative Fee for Collecting Municipal and County Sales Taxes**

**Statutory citation:** 77-27,144

**Description:** The State deducts a 3% administrative fee from local sales and use tax collections.

**Estimate:** $20,572,000

**Data Source:** DOR

**Note:** The fee is redistributed to municipalities pursuant to Neb. Rev. Stat. § 77-27,139.03. The fee associated with county sales tax is retained in the General Fund.

## Preferential Tax Rates

**126. Good Life District**

**Statutory citation:** 77-4405

**Description:** On and after July 1, 2023, any transactions occurring within a good life district shall be subject to a reduced state sales tax rate as provided in section 77-2701.02.

**Estimate:** $12,000,000 (in 2025)

**Data Source:** DOR

# Section B — Income Tax: Individual, Fiduciary, Corporation, and Financial Institution Tax

## Basic Provisions and Tax Base

### All estimates are independent of each other and cannot be summed.

### Individual Income Tax[1]

Nebraska individual income tax is imposed for each taxable year on the entire income of every resident individual. Nonresident and partial-year resident individuals are taxed on income derived from Nebraska sources. For tax year 2024, the rates are 2.46%, 3.51%, 5.01%, and 5.84% of Nebraska taxable income. Brackets for each filing status are outlined in Neb. Rev. Stat. § 77-2715.03. A personal exemption credit is allowed against the tax computed for every Nebraska personal exemption of the taxpayer. For tax year 2024, the credit is $166.

The tax is calculated as a percentage of Nebraska taxable income. Additional taxes are computed on premature and lump-sum distributions from qualified retirement plans at a rate equal to 29.6% of the federal tax liability. Nebraska taxable income starts with federal adjusted gross income (AGI), adds interest from non-Nebraska state and local government obligations, and subtracts U.S. government obligations and other adjustments increasing and decreasing income. Nebraska taxable income is further reduced by either federal itemized deductions less state and local income taxes; or a standard deduction equal to the smaller of the federal standard deduction or the Nebraska standard deduction amounts specified in § 77-2716.01(3). Additional standard deduction amounts are allowed to elderly and blind taxpayers. The standard deduction, including the additional standard deduction amounts, are adjusted for inflation.

### Fiduciary Income Tax[1]

Nebraska income tax is imposed for each taxable year on the federal taxable income of a resident estate or trust after the adjustments contained in § 77-2716. Nonresident estates and trusts have the Nebraska income tax imposed for each taxable year on the portion of their income derived from sources within Nebraska.

In both cases, the tax is calculated as a percentage of Nebraska taxable income. The rates are 2.46%, 3.51%, 5.01%, and 5.84%. The brackets are established in § 77-2715.03. Additional tax is imposed on premature and lump-sum distributions from qualified retirement plans at a rate equal to 29.6% of the federal tax liability.

### Corporation Income Tax[1]

Nebraska corporation income tax is imposed upon any corporation or any other entity taxed as a corporation (not including a corporation with a valid federal subchapter S election or any financial institution defined in § 77-3801 that is doing business in Nebraska. For a corporate taxpayer subject to tax in another state, the entire federal taxable income of the unitary business, after the adjustments in §§ 77-2716 and 77-2734.07(1), is apportioned according to the statutory formula to determine the portion attributable to sources within Nebraska. For a corporate taxpayer not subject to tax in another state, the entire taxable income is subject to tax in Nebraska. Each corporate taxpayer is required to file a single, combined unitary tax return for each taxable year. The corporation income tax rate for 2024 is 5.58% on the first $100,000 of taxable income and 5.84% on the excess. See § 77-2734.02(1)(a) and (b).

[1] *The taxes collected are deposited to the State General Fund for these tax programs.*

### Financial Institution Tax[2]

Every financial institution which is chartered or qualified to do business in Nebraska, or that maintains a permanent place of business in Nebraska and actively solicits deposits from residents of Nebraska, must file a Nebraska Financial Institution Tax Return, Form 1120NF. This franchise tax is based on the average deposits of the financial institution. The rate of tax on deposits is 12.3 times the limitation rate. The limitation rate is 48.8% of the maximum corporation income tax rate in effect for the taxable year. The maximum corporation income tax rate in effect for the 2024 taxable year is 5.84% so the limitation rate is equal to 2.85%. The franchise tax imposed cannot exceed the limitation amount. The limitation amount is the product of the net financial income of the financial institution multiplied by the limitation rate. Financial institutions pay a franchise tax of 35 cents per $1,000 of average deposits (12.3 times the limitation rate), limited by the institution's net financial income multiplied by 2.85%. Each financial institution is required to file a separate franchise tax return.

The tax imposed is based on the amount of average deposits connected with the financial institution's operations in Nebraska. These deposits are deposits which are accepted at the financial institution's offices located in Nebraska, plus deposits solicited from residents in Nebraska even if accepted at an office of the financial institution outside of Nebraska.

## Individual, Fiduciary, and Corporation Income Taxes[3]

## Exemptions

Nebraska utilizes the federal calculation of taxable income for corporations as a base for computing taxpayers' Nebraska liability. Federal AGI, plus and minus certain adjustments, is used to determine Nebraska taxable income for individuals. Income tax for fiduciaries is based on taxable income. Nebraska tax tables, rates, tax rate schedules, and credits are used to determine tax liability. Some deductions (Nebraska corporation income tax) and adjustments to income (Nebraska individual, fiduciary, and corporation income tax) adopted under the Internal Revenue Code and federal regulations are recognized by Nebraska due to the linkage between the two systems. Federal tax credits are not recognized unless specifically approved by the Legislature. Any federal taxable income that is exempt from state taxation pursuant to federal law is not taxed by Nebraska.

**Nebraska income tax liability after nonrefundable credits not greater than federal income tax liability before credits.**
**Statutory citation:** 77-2715
**Description:** An individual taxpayer with less than $5,000 in adjustments increasing income will not have a Nebraska tax larger than their federal tax.
**Estimate:** $8,039,000

## Deductions

**Interest and Dividends on U.S. Obligations**
**Statutory citation:** 77-2716(1)(a) and (b)
**Description:** A subtraction from the tax base is allowed for interest or dividend income derived from federal obligations. This applies to federal taxable income for corporations and fiduciaries and to AGI for individuals.
**Estimate:** $20,770,000 (State taxation is prohibited by federal law)

[2] *The taxes collected are deposited to the State General Fund for these tax programs.*
[3] *Estimates are for tax year 2024.*

**Subtraction for Foreign Income Taxed in Excess of Maximum Federal Tax Rate**
**Statutory citation:** 77-2716(6)
**Description:** A subtraction is allowed from federal taxable income for any portion of income subject to tax by a foreign country that is higher than the maximum federal tax rate.
**Estimate:** Indeterminable

**Net Operating Losses**
**Statutory citation:** 77-2716(2)
**Description:** A subtraction is allowed a resident individual, estate, or trust for a federal net operating loss (NOL), which is adjusted for the modifications to federal AGI in the statutes. A nonresident or partial-year resident individual, estate, or trust is allowed a subtraction for a federal NOL adjusted by the modifications in the statutes. Any carryovers or carrybacks are limited to the portion of the loss derived from Nebraska sources.
**Estimate:** $25,756,000

**State Income Tax Refund**
**Statutory citation:** 77-2716(3)
**Description:** A subtraction is allowed for any state income tax refund included in federal AGI.
**Estimate:** $1,005,000

**Foreign Dividend Subtraction**
**Statutory citation:** 77-2716(5)
**Description:** A subtraction is allowed from taxable income for any dividends received for a foreign corporation not subject to the Internal Revenue Code.
**Estimate:** $20,825,000

**IRC § 1341(A)(5) Exclusion**
**Statutory citation:** 77-2716(7)
**Description:** Federal AGI is reduced by any amount repaid by the taxpayer under the federal claim of right principle.
**Estimate:** Not available

**Contributions to the Nebraska Educational Savings Plan**
**Trust Statutory citation:** 77-2716(8)(b)
**Description:** A subtraction is allowed from AGI (for individuals), and from taxable income (for corporations and fiduciaries), for any contribution as a participant in the Nebraska educational savings plan trust. The subtraction cannot exceed $5,000 for a married, filing separately return, or $10,000 for any other return.
**Estimate:** $5,464,000

**Nebraska Standard Deduction**
**Statutory citation:** 77-2716.01(3)
**Description:** An individual taxpayer not itemizing deductions is allowed a standard deduction equal to the smaller of the federal standard deduction or the Nebraska standard deduction amounts in § 77-2716.01(3)(b). Additional standard deduction amounts are allowed to elderly and blind taxpayers.
**Assumption:** No standard deduction and no itemized deduction.
**Estimate:** $542,000,000

**Nebraska Itemized Deductions**
**Statutory citation:** 77-2716.01(3)
**Description:** An individual taxpayer itemizing deductions for federal purposes is allowed the greater of either the Nebraska standard deduction or the federal itemized deduction, except for the amount deducted on the federal return for state and local income taxes paid.
**Estimate:** $86,000,000

**Deduction for Firefighter Cancer Benefits**
**Statutory citation:** 77-2716 (17)
**Description:** For taxable years beginning on or after January 1, 2022, federal adjusted gross income is reduced by the amount received by or on behalf of a firefighter for cancer benefits under the Firefighter Cancer Benefits Act to the extent included in federal adjusted gross income.
**Estimates:** Minimal

**Teach in Nebraska Today Act**
**Statutory citation:** 77-2716 (18)
**Description:** An income tax deduction from the federal AGI for any amount received by the individual as student loan repayment assistance under the Act, to the extent included in federal AGI.
**Estimates:** Minimal

**Deduction for health insurance premiums paid by retired law enforcement officers.**
**Statutory citation:** 77-2716 (19)
**Description:** An income tax deduction to federal AGI for the amount of health insurance premiums paid by a retired law enforcement officer to the extent the premiums were not previously deducted in determining the retiree's federal AGI.
**Estimates:** $180,000

**Corporation Non-apportionable Income**
**Statutory citation:** 77-2734.06
**Description:** Corporate taxpayers are allowed to deduct non-apportionable income, less related expenses from the income subject to apportionment.
**Estimate:** Not available

**Corporation NOL and Capital Loss**
**Statutory citation:** 77-2734.07
**Description:** Corporate taxpayers are required to add to federal taxable income any federal deduction due to a carryforward of an NOL or capital loss. Corporate taxpayers are allowed an NOL carryforward (if connected with operations in Nebraska). An NOL and a capital loss incurred in tax years beginning before January 1, 2014, may be carried forward for five taxable years following the year of the loss, and an NOL incurred in tax years beginning on and after January 1, 2014, may be carried forward for 20 tax years following the year of the loss. Corporate taxpayers are allowed a capital loss carryforward (if connected with operations in Nebraska) for five taxable years following the year of the loss. No carrybacks are allowed for either NOLs or capital losses.
**Estimate:** $27,000,000

**Relocation Assistance Act Awards**
**Statutory citation:** 76-1235
**Description:** Awards to displaced persons under the Relocation Assistance Act can be deducted if included in federal AGI.
**Estimate:** Not available

# Exclusions

**Dividends and Capital Gains Deduction**
**Statutory citation:** 77-2715.09
**Description:** Resident individuals or trusts may elect to subtract from federal AGI or from taxable income, respectively, the extraordinary dividends paid on, and the capital gain from the sale or exchange of, capital stock of a corporation acquired by the individual (i) on account of employment by the corporation, or (ii) while employed by the corporation.
**Estimate:** $30,987,770

**Non-Nebraska S Corporation and LLC Income/Loss Exclusion**
**Statutory citation:** 77-2716(4)
**Description:** An exclusion is allowed from federal AGI (or for a fiduciary, federal taxable income) for the portion of the income or loss received from an S corporation or from a limited liability company (LLC), that is not connected with Nebraska sources as determined in § 77-2734.01.
**Estimate:** $43,000,000

**Income Tax Exemption for Military Retirement Income**
**Statutory citation:** 77-2716(15)(b)
**Description:** A taxpayer may exclude 100% of the military retirement benefit income received by such individual to the extent included in federal adjusted gross income beginning with tax year on or after January 1, 2022.
**Estimate:** $24,463,000

**Income Tax Exemption for Social Security Income**
**Statutory citation:** 77-2716(14)
**Description:** A taxpayer may subtract one hundred percent of Social Security income included in federal adjusted gross income for taxable years beginning or deemed to begin on or after January 2024.
**Estimate:** $113,527,000

**Achieving a Better Life Experience (ABLE) Account**
**Statutory citation:** 77-2716(8)(b)
**Description:** Individual, corporations, or fiduciaries that make a contribution to an account as a participant under this Act and IRC § 529A to pay qualified expenses of a disabled person, may exclude from federal adjusted gross income or federal taxable income contributions to the account up to $5,000 for a married, filing separately return or $10,000 for any other return. The owner of the account may exclude any income earned by the account.
**Estimate:** $32,000

# Credits[4]

**Credit for Elderly and Disabled**
**Statutory citation:** 77-2715.07(1)(a)
**Description:** A nonrefundable credit for qualified residents is allowed in an amount equal to 100% of the federal credit for the elderly and the disabled.
**Estimate:** $7,000

**Credits for Child/Dependent Care**
**Statutory citation:** 77-2715.07(2)
**Description:** A nonrefundable credit for qualified residents is allowed in an amount equal to 25% of the federal credit. For returns reporting federal AGI of $29,000 or less, a refundable credit equal to a percentage of the federal credit under IRC § 21 is allowed, whether or not the federal credit was limited by the federal tax liability. The percentage of the federal credit varies for incomes between $22,000 and $29,000.
**Estimate:** $11,374,000

**Credit for Income Taxes Paid to another State**
**Statutory citation:** 77-2715.07(1)(b), 77-2730
**Description:** A resident individual and a resident estate or trust are allowed a credit against income tax for some or all of any income tax imposed on them for the taxable year by another state, political subdivision, or the District of Columbia on income derived from sources therein, which is also subject to Nebraska income tax.
**Estimate:** $75,953,000

**School Readiness Income Tax Credit**
**Statutory citation:** 77-3606
**Description:** A nonrefundable income tax credit to persons who own or operate an eligible childcare and education program that serves children who participate in the childcare subsidy program established in Neb. Rev. Stat. § 68-1202. A refundable income tax credit to staff members who are both employed with an eligible program for at least six months during the taxable year and are classified in the Nebraska Early Childhood Professional Record System. The DOR may approve tax credits under the School Readiness Tax Credit Act each taxable year until the total amount of credits approved for the taxable year reaches seven million five hundred thousand dollars.
**Estimate:** $2,249,000

**Stillborn Child Refundable Tax Credit**
**Statutory citation:** 77-2715.07 (9)
**Description:** For taxable years beginning on or after January 1, 2022, a $2,000 refundable tax credit to the parent of a stillborn child in the year the stillbirth occurred.
**Estimates:** $85,000

**Nonrefundable credit for employers paying wages to certain employees convicted of a felony**
**Statutory citation:** 77-27,240
**Description:** A nonrefundable credit for employers that employ an individual who has been convicted of a felony in Nebraska or any other state.
**Estimates:** $60,000

[4] *The estimates are for tax year 2024 and are based on actual 2022 tax year data.*

**Volunteer Emergency Responders Income Tax Credit**

**Statutory citation:** 77-3105
**Description:** An income tax credit for qualified active volunteer emergency responders, rescue squad members, and firefighters.
**Estimate:** $660,000

**Purchase of a Residence in Extremely Blighted Area Tax Credit**
**Statutory citation:** 77-2715.07(7)
**Description:** For taxable years beginning or deemed to begin on or after January 1, 2020, and before January 1, 2026, an individual can claim a $5,000 nonrefundable income tax credit for the purchase of a residence in an extremely blighted area. The credit may be carried forward to subsequent tax years until fully utilized.
**Estimate**: $458,000

**Beginning Farmer Tax Credit**
**Statutory citation:** 77-2715.07(2)(c), 77-5701 through 5715
**Description:** Individuals, estates, trusts, and corporations are allowed a refundable credit under the Beginning Farmer Tax Credit Act.
**Estimate:** $2,000,000

**Community Development Tax Credit**
**Statutory citation:** 77-2715.07(3)(b), 77-2715.07(4)(b), 77-2734.03(2), 13-203 through 13-207
**Description:** Individuals, estates, trusts, and corporations are allowed a credit for contributions to certified community betterment programs.
**Estimate:** $196,000

**Credits for Franchise Tax Paid by Financial Institution**
**Statutory citation:** 77-2715.07(5)(b)
**Description:** A nonrefundable credit for partners, S corporation shareholders, LLC members, or beneficiaries of an estate or trust who have ownership in a financial institution is allowed against an individual's income tax liability for 100% of the individual's share of the franchise taxes paid by the financial institution.
**Estimate:** $6,014,000

**Refundable Earned Income Credits**
**Statutory citation:** 77-2715.07(2)
**Description:** A refundable credit is allowed to resident individuals equal to 10% of the federal earned income credit.
**Estimate:** $30,056,000

**Nebraska Personal Exemption Credit**
**Statutory citation:** 77-2716.01
**Description:** A nonrefundable credit of $166 for 2024 is allowed to resident individuals for every personal exemption.
**Estimate:** $247,250,000

**Resident of Two States**
**Statutory citation:** 77-2731
**Description:** An individual considered to be a resident of Nebraska and of another state (dual state resident), is allowed a reduction of tax on the portion of income subject to tax in both jurisdictions, provided the other taxing jurisdiction allows a similar reduction.
**Estimate:** Minimal

**Credit for In-lieu-of Intangible Tax Paid**
**Statutory citation:** 77-2734.03, 77-908, 81-523, 44-4233
**Description:** A credit is allowed to insurers, for premium taxes paid.
**Estimate:** $28,000,000

**Nebraska Property Tax Incentive**
**Statutory citation:** 77-6702
**Description:** Provides a refundable income tax credit or credit against franchise tax for any taxpayer who pays community college taxes paid or who pay school district taxes.
**Estimates:** $60,000,000

**Employment and Investment Growth Act (LB 775) Tax Incentive**
**Credits Statutory citation:** 77-4101
**Description:** A taxpayer's business may be eligible for tax incentives under LB 775 if the business is in a qualified activity and the plans result in (a) the investment in qualified property of at least $3 million and the hiring of at least 30 new employees, or (b) the investment in qualified property of at least $10 million and the hiring of at least 100 new employees. New applications are no longer being accepted.
**Estimate:** See Section U.

**Quality Jobs Act Credits**
**Statutory citation:** 77-4901
**Description:** Taxpayers who have previously been approved may qualify for additional benefits beyond those received under § 77-4101 (LB 775). Each taxpayer must make an investment of $50 million in qualified property and hire 500 new employees, or $100 million in investment and hire 250 new employees by the end of the sixth year after filing of the application. New applications are no longer being accepted.
**Estimate:** See Section U.

**Nebraska Advantage Act Credits**
**Statutory citation:** 77-5701
**Description:** Businesses may qualify for benefits by meeting specified employment and/or investment requirements.
**Estimate:** See Section U.

**Nebraska Advantage Research and Development Act Credits**
**Statutory citation:** 77-5801
**Description:** Businesses which make investments in research and experimental activities in Nebraska are allowed a research tax credit equal to 15% of any federal credit allowed under IRC § 41 of 1986, as amended. If the investment in research and experimental activities takes place on the campus of a college or university in Nebraska, or at a facility in Nebraska owned by a college or university, the credit is increased to 35%. The credit may be used to obtain a refund of sales and use taxes paid, or as a refundable income tax credit.
**Estimate:** See Section U.

**Nebraska Advantage Act Microenterprise Tax**
**Credit Act Statutory citation:** 77-5901
**Description:** Businesses creating or expanding microbusinesses (five or fewer FTEs) are entitled to refundable tax credits equal to 20% of new investment or employment.
**Estimate:** See Section U.

**Nebraska Advantage Rural Development Act Credits**
**Statutory citation:** 77-27,188
**Description:** Income tax credits are available to businesses that make investment in new property and/or add employees. There are separate required levels of employment and investment for counties with populations of less than 25,000 and for those with less than 15,000.
**Estimate:** See Section U.

**Renewable Energy Tax Credit**
**Statutory citation:** 77-27,235
**Description:** Income tax credits or sales tax refunds are available to producers of electricity generated by a new zero emission facility based on kilowatt-hours generated.
**Estimate:** Minimal

**New Markets Tax Credit**
**Statutory citation:** 77-1113
**Description:** A person or entity that acquires a qualified equity investment earns a nonrefundable tax credit that may be used to offset the corporate income tax, the franchise tax imposed on a financial institution, or the premium tax imposed on an insurance company. The credit is equal to 39% of the qualified equity investment over five tax years.
**Estimate:** $10,500,000

**Nebraska Job Creation Mainstreet Revitalization Act**
**Statutory citation:** 77-2911
**Description:** The Act provides that no more than $15 million in Nebraska Historic Tax Credits (NHTCs) may be allocated annually, beginning January 1, 2015 and ending December 31, 2022. NHTCs are equal to 20% of eligible expenditures incurred for improvements to qualifying historically significant real property, limited to a $1 million tax credit per project. NHTCs may be used against income tax, the premium tax imposed on insurance companies, or the franchise tax imposed on financial institutions.
**Estimate:** $5,000,000

**Affordable Housing Tax Credit Act**
**Statutory citation:** 77-2501
**Description:** The Affordable Housing Tax Credit Act created a Nebraska state tax credit (AHTC) for developing affordable housing modeled after the federal low-income housing tax credit (LIHTC) provided in Section 42 of the Internal Revenue Code (IRC). The AHTC Act allows individuals, corporations, financial institutions, and insurance companies to claim nonrefundable tax credits. A qualified taxpayer may use the credits to offset income tax, the premium and related retaliatory tax imposed on insurance companies, and the franchise tax imposed on financial institutions.
**Estimate:** $11,600,000

# Preferential Tax Rates[5]

**Individual and Fiduciary Income Tax Rates**
**Statutory citation:** 77-2715.02
**Description:** The preferential rate is the difference between the top rate, 5.84%, and the lowest rate, 2.46%.
**Estimate:** $895,000,000

**Corporation Income Tax Rates**
**Statutory citation:** 77-2734.02(1)
**Description:** The corporation income tax rates are 5.58% applied to the first $100,000 of taxable income and a rate of 5.84% applied to the excess.
**Estimate:** $1,048,000

**Insurance Company Tax Rates**
**Statutory citation:** 77-2734.02(2)
**Description:** Insurance companies are subject to the lesser of the rates set under § 77-2734.02(1) or the rate of tax imposed in the state or country in which the insurance company is domiciled, if the state or country of domicile imposes a retaliatory tax on Nebraska insurance companies, which includes the Nebraska corporate income tax.
**Estimate:** Not available

# Financial Institution Tax

## Exemptions

**Federal Credit Unions & Mutual Fund Companies**
**Statutory citation:** 77-3802(1), 77-3801(4)(a)
**Description:** The franchise tax is not imposed on federal credit unions and mutual fund companies.
**Estimate:** $1,304,000

## Credits

**Community Development Assistance Act Tax Credit**
**Statutory citation:** 13-201 through 13-208
**Description:** Financial institutions are allowed a credit for contributions to certified community betterment programs.
**Estimate:** Included in New Market Tax Credits, Nebraska Historic Tax Credits, and Affordable Housing Tax Credits.

[5] *The estimates are for tax year 2024 and are based on actual 2022 tax year data.*

# Section C — Property Assessment

## Basic Provisions and Tax Base

All property in the State of Nebraska is subject to property tax unless an exemption is mandated or permitted by the Nebraska Constitution art. VIII and enabling legislation is adopted by the Legislature. Federal law may supersede the Nebraska Constitution with regard to taxation of property owned by the federal government or its agencies or instrumentalities. All property in the State of Nebraska, which is subject to taxation, must be valued as of January 1, 12:01 a.m., of each year, unless a Destroyed Real Property Report pursuant to Neb. Rev. Stat. §§77-1307 to 77-1309.

The county assessor is responsible for valuing all real and personal property with the exception of railroads, public service entities, and specific personal property of air carrier and rail car line companies, which are assessed by the Property Tax Administrator. The valuation of real property is determined according to professionally accepted mass appraisal techniques, including but not limited to the following: (1) sales comparison approach; (2) income approach; and (3) cost approach. The valuation of personal property is determined using a statutory method of depreciated values similar to the federal Modified Accelerated Cost Recovery System and 150% declining balance depreciation schedules.

All real property is assessed at or near 100% of actual value, except agricultural and horticultural land which is assessed at or near 75% of actual value, except that for school district taxes levied to pay the principal and interest on bonds that are approved by a vote of the people on or after January 1, 2022, such land has a 50% level of assessment. Agricultural and horticultural land receiving special valuation pursuant to Neb. Rev. Stat. § 77-1344 is assessed at or near 75% of its special value, which is the value of the land for agricultural and horticultural purposes uninfluenced by other uses, except that for school district taxes levied to pay the principal and interest on bonds that are approved by a vote of the people on or after January 1, 2022, such land has a 50% level of assessment. Personal property is assessed at 100% of the net book taxable value as determined by the statutory method.

Permissive exemptions are allowed for certain educational, religious, charitable, and cemetery organizations; and for agricultural and horticultural societies pursuant to Neb. Rev. Stat. § 77-202. The organization must file an application for exemption of real and/or personal property. The county assessor will recommend approval or denial to the county board of equalization which will meet to make the final decision regarding the application for exemption.

There are exemptions for business and agricultural inventory, and for certain business personal property belonging to qualifying companies under the Nebraska Advantage Act or the ImagiNE Nebraska Act. In addition, any tangible personal property purchased by a person operating a data center located in Nebraska, which is then incorporated into other tangible personal property for subsequent use outside the state by the same person operating a data center in this state, is exempt from the personal property tax.

Regarding renewable energy production, an exemption exists in Neb. Rev. Stat. § 77-6203 for any depreciable tangible personal property used directly in generating electricity using wind, solar, biomass, or landfill gas as the fuel source, if such depreciable tangible personal property was installed on or after January 1, 2016, and has a nameplate capacity of one hundred kilowatts or more. These renewable energy generation facilities instead pay a nameplate capacity tax in place of the personal property tax and the real property is assessed locally by the county assessor.

The Property Tax Administrator also implements the assessment and collection of the nameplate capacity tax on renewable energy generation pursuant to Neb. Rev. Stat. §§ 77-6201 to 77-6204. This tax is applied at a rate of $3,518.00 per megawatt. Each year renewable energy facilities submit a report of their nameplate capacity for the prior year and after the amount due is calculated, including any prior outstanding tax, interest, and penalties, the facilities remit payments to the State, which are then distributed out to the applicable counties.

Motor vehicles, trailers, and semitrailers required to be registered for operation on the highways of Nebraska are exempt from property taxes, but are subject to motor vehicle taxes and fees in lieu of property taxes.

There is an exemption for certain personal property belonging to qualified beginning farmers, pursuant to Neb. Rev. Stat. § 77-5209.02 of the Beginning Farmer Act.[1]

There is an exemption for either a mobile home or motor vehicle of any veteran of the United States Armed Forces who was honorably discharged and has a service-connected disability. See Exemption Application, Form 453.

For individuals, the homestead exemption program is designed to provide local property tax relief to qualifying seniors, certain disabled individuals, and certain disabled veterans and their surviving spouses who own and live in the home for which an exemption application is made. The exemption applies to all or part of the property taxes levied against the home, with the State of Nebraska reimbursing counties from general fund revenues for those taxes exempted under the program (see Homestead Exemption).

The Property Tax Credit Act provides a real property tax credit based on the valuation of each parcel of real property compared to the valuation of all real property in the state. The tax credit amount varies each year depending on appropriation and value. The Act provides a real property tax credit (credit) based on the credit allocation valuation of each parcel of real property compared to the credit allocation valuation of all real property in the state. For purposes of the Act, credit allocation valuation means 120% of the taxable value of agricultural and horticultural land and agricultural and horticultural land receiving special valuation. For all real property, other than agricultural and horticultural land, credit allocation valuation means 100% of the taxable value. For tax year 2023 the tax credit rate for agricultural and horticultural land was $133.55 per $100,000 of value and the tax credit rate for all other real property was $111.30 (see section for Real Property Tax Credit).

The Nebraska Property Tax Incentive Act provides for a refundable income tax credit (credit) to any person or entity that pays school district and community college taxes in Nebraska. The credit is determined by multiplying the amount of taxes levied on real property in Nebraska by a school district or multiple district school system and community colleges, excluding property taxes levied for bonded indebtedness or any levy override approved by voters, by a credit percentage. The credit percentage equals the amount of dollars available for the credit divided by the total real property taxes levied for school and community college purposes. The amount of dollars available for the credit for school taxes paid is $560.7 million for tax year 2023, and then increases those credits by the allowable growth percentage each year thereafter. Allowable growth percentage is defined as the percentage increase in the total assessed value of all real property in the state from the prior year to the current year. The amount of dollars available for the community college taxes paid credit is $100 million for tax year 2023. Beginning in tax year 2024, community college taxes paid will be reimbursed at a rate of 100% of taxes paid.

Between January 1 and March 19 of each year, the county assessor updates and revises the real property assessment roll. Each year between early April and May 15, the Tax Equalization and Review Commission has the authority to adjust the valuation of classes or subclasses of real property in any county in order to achieve equalization of property values. Decisions of the Tax Equalization and Review Commission may be appealed to the Nebraska Court of Appeals.

The county assessor revises the real property assessment rolls for any orders issued by the Tax Equalization and Review Commission and notifies property owners of value increases or decreases by June 1. Individual protests of real property valuations may be made to the county board of equalization. The county board of equalization may adjust the protested value of individual properties. Decisions of the county board of equalization may be appealed to the Tax Equalization and Review Commission.

Personal property is self-reported by the taxpayer, on or before May 1. If the county assessor makes changes to the reported valuation, a notice must be sent to the taxpayer. The action may be appealed to the county board of equalization.

---

[1] *See Section B for expenditure estimate.*

On or before August 10, the Tax Equalization and Review Commission must equalize the real property of centrally assessed railroad and public service companies with the statewide level of assessment. The Property Tax Administrator certifies centrally assessed values to the counties.

On or before August 20, the county assessor compiles and certifies the total taxable value (real, personal, and centrally assessed) to each local government taxing subdivision for tax rate setting purposes.

Each year, on or before October 20, the county board of equalization levies the necessary taxes, within the limits of the law, for operation of all functions of county government, school districts, cities, etc. The tax rates for these various local government taxing subdivisions are determined by dividing the subdivision's annual tax request by the current total taxable value within their boundaries. The tax rates are expressed as $1 per $100 of taxable value.

Property taxes are determined by multiplying the property's taxable value by the total consolidated tax rate for the tax district where the property is located. The tax district is comprised of various governing bodies empowered to levy property taxes for services, such as county government, school district, city, etc.

On or before November 22, the county assessor transcribes the real property tax list and delivers it to the county treasurer for collection of property taxes. All real and personal property taxes, including taxes of centrally assessed railroad and public service companies, are due December 31. The first half of the tax becomes delinquent on the following May 1, and the second half becomes delinquent on September 1; except in Douglas, Lancaster, and Sarpy counties, where the first half becomes delinquent on April 1 and the second half becomes delinquent on August 1.

More information is available at revenue.nebraska.gov/PAD.

## Exemptions

The taxable value of exempt property (for example, governmental or permissive exempt) is not available. Due to the exempt status of the real property, the assessed value may not have been determined. The county assessor allocates time and resources to establishing the assessed values of taxable properties.

**Description:** The Beginning Farmer Act provides beginning farmers and livestock producers with personal property exemptions. Beginning farmers and livestock producers must be approved and certified by the Beginning Farmer Board to be eligible for the programs or exemption of personal property.
**Estimate:** See Section B – Income Tax Credit for Beginning Farmers

**Statutory citation:** 77-4209 through 77-4212
**Description:** The Property Tax Credit Act provides a real property tax credit (credit) based on the credit allocation valuation of each parcel of real property compared to the credit allocation valuation of all real property in the state. For purposes of the Act, credit allocation valuation means 120% of the taxable value of agricultural and horticultural land and agricultural and horticultural land receiving special valuation. For all real property, other than agricultural and horticultural land, credit allocation valuation means 100% of the taxable value. The program was funded $363 million for tax year 2023, with an additional $1,365,285 added to the fund from gaming income pursuant to Neb. Rev. Stat. §9-1204, for a total credit amount of $364,365,285. A portion of the credit monies are returned as unused due to homestead exemptions.
**Estimate:** $359,791,120

# Preferential Tax Rates and Valuation

**Statutory citation:** 77-201(2)
**Description:** Agricultural land and horticultural land is valued at 75% of its actual value, except that for school district taxes levied to pay the principal and interest on bonds that are approved by a vote of the people on or after January 1, 2022, such land shall be valued at 50% of its actual value.
**Estimate:** Not Available

**Statutory citation:** 77-201(3)
**Description:** Agricultural land and horticultural land receiving special valuation is valued at 75% of its special valuation, except that for school district taxes levied to pay the principal and interest on bonds that are approved by a vote of the people on or after January 1, 2022, such land shall be valued at 50% of its special valuation.
**Estimate:** Not Available

**Statutory citation:** 77-1385
**Description:** Historically significant real property which has received a final certificate of rehabilitation from the State Historic Preservation Officer is valued at its base-year value for eight years after the certificate is issued.

In the ninth year after the certificate is issued, the property is valued at the base-year value plus 25% of the difference between the base-year value and the current actual value.

In the 10th year after the certificate is issued, the property is valued at the base-year value plus 50% of the difference between the base-year value and the current actual value.

In the 11th year after the certificate is issued, the property is valued at the base-year value plus 75% of the difference between the base-year value and the current actual value.

In the 12th year after the certificate is issued, the property is valued at the current actual value.

**Estimate:** Not Available

# Homestead Exemptions

A homestead exemption provides relief from property taxes by exempting all or a portion of the valuation of the homestead from taxation. The State of Nebraska reimburses the counties for the taxes lost due to homestead exemptions. A homestead exemption is available to three categories of homeowners: (1) persons over age 65; (2) individuals with certain disabilities; or (3) certain veterans that have been deemed to be totally disabled and their surviving spouses.

More information regarding the homestead exemption program and the property tax relief it provides for qualified homeowners is available at revenue.nebraska.gov/PAD.

**The total tax expenditure for the State of Nebraska in 2023 was $142,657,802.** One hundred percent was reimbursed to the counties by the State of Nebraska. The table in Section C, page 9 lists the total homestead exemption to each county.

**Sections** 77-3507 and 77-3508
For homesteads valued at or below the maximum value as defined in § 77-3505.02, claimants receive an exemption percentage commiserate with their household income amount as defined in § 77-3501.01(1), and whether the claimant is single, married or living with closely related family members.

**Section** 77-3501.01 **Exempt amount, defined:**
(1) For purposes of § 77-3507, exempt amount means the lesser of (a) the taxable value of the homestead, or (b) 100% of the average assessed value of single-family residential property in the claimant's county of residence as determined in § 77-3506.02 or $40,000 whichever is greater.

(2) For purposes of § 77-3508 exempt amount means the lesser of (a) the taxable value of the homestead, or (b) 120% of the average assessed value of single-family residential property in the claimant's county of residence as determined in § 77-3506.02 or $50,000 whichever is greater.

(3) For purposes of § 77-3506, exempt amount shall mean the taxable value of the homestead.

**Section** 77-3505.02 **Maximum value, defined:**
(1) For applicants eligible under § 77-3507, 200% of the average assessed value of single family residential property in the claimant's county of residence as determined in § 77-3506.02 or $95,000, whichever is greater.

(2) For applicants eligible under §§ 77-3508, 225% of the average assessed value of single-family residential property in the claimant's county of residence as determined in § 77-3506.02 or $110,000, whichever is greater.

# Section D — Railroads, Public Service Entities, Car Lines, and Air Carrier Flight Equipment Property Tax

## Basic Provisions and Tax Base

Property valued by the state includes those companies or industries that the Property Tax Administrator is statutorily responsible for determining a taxable valuation each year. Companies owning or leasing operating property are required to furnish information annually, on prescribed forms, to the Property Tax Administrator. "Taxable value" is defined as actual value for real property, franchise, and net book value for tangible depreciable personal property, excluding registered motor vehicles, which is determined by using a statutory method.

**Railroads**

Neb. Rev. Stat. § 77-601, et. al., requires the Property Tax Administrator to value the operating property of any company owning, controlling, or operating property used for railroad purposes.

The Property Tax Administrator determines the total taxable value of the railroad company, including real, franchise, and net book personal property, attributable to Nebraska. The Property Tax Administrator apportions the railroad's taxable value by taxing subdivision based on a statutory formula, as follows: (1) 5% is distributed to all taxing subdivisions where the railroad company has investment in general office buildings or machine and repair facilities; and (2) the balance is distributed to all taxing subdivisions based 50% on track mileage and 50% on traffic density. The value per mile of main track must equal twice the value per mile of side track. The apportioned value is certified by the Property Tax Administrator to the county assessor for assessment and tax collection.

**Public Service Entities**

Neb. Rev. Stat. § 77-801, et. al., requires the Property Tax Administrator to determine the total taxable value of public service entities, organized for profit under the laws of this state or any other state or government and engaged in the business of waterworks, electrical power, gas works, natural gas, telecommunications, and pipeline transmissions. Generally, the entities affected by this law fall into three groups: telecommunications; pipeline companies; and certain utility companies.

The Property Tax Administrator determines the total taxable value, including real, franchise, and net book personal property value attributable to Nebraska.

The Property Tax Administrator distributes the public service entity's taxable value to the various taxing subdivisions based on a ratio of the public service entity's original cost of all operating property located in the taxing subdivision compared to the original cost of all operating property located in the state. The Property Tax Administrator certifies the distributed taxable value of public service entities to the county assessor for assessment and tax collection at the local government level.

**Car Line Companies**

Neb. Rev. Stat. § 77-679, et. al., requires the assessment and taxation of car line companies. A "car line company" means any person, other than a railroad company, owning or operating any railroad cars of any description through, in, or into the State of Nebraska. The Property Tax Administrator determines the total taxable value (i.e., net book personal property value) of the car line company cars attributable to Nebraska. The Property Tax Administrator must levy against the value assessed, for property tax purposes, at a rate equal to the state's average tax rate.

The taxes are payable to the Property Tax Administrator, which are remitted, less a 3% collection fee, to the State Treasurer for distribution to the counties.

The car line taxes are distributed among the various taxing subdivisions in proportion to all railroad taxes levied pursuant to § 77-684.

The collection fee is remitted to the State Treasurer for credit to the DOR Property Assessment Division Cash Fund.

**Air Carrier Flight Equipment**

Neb. Rev. Stat. § 77-1245, et. al., requires the assessment and taxation of air carriers. An "air carrier" means any person, firm, or assignee engaged in interstate carriage of persons or cargo for hire by company or corporate aircraft. The Property Tax Administrator determines the total taxable value (i.e., net book personal property value of the air carrier's flight equipment) attributable to Nebraska. The Property Tax Administrator must levy against the value assessed, for property tax purposes, at a rate equal to the state's average tax rate.

The taxes are payable to the Property Tax Administrator which are remitted, less a 3% collection fee, to the State Treasurer for distribution to the counties.

The air carrier taxes are distributed to the counties as a credit to the county general fund in proportion to the amount the total property taxes levied in the county bears to the total property taxes levied in the state as a whole. The collection fee is remitted to the State Treasurer for credit to the DOR Property Assessment Division Cash Fund.

## Exemptions

**Statutory Citation:** 77-4105 **and/or** 77-5725
**Description:** Railroad Personal Property
Public Service Entity Personal Property
Air Carrier Flight Equipment
**Estimate:** $0[1]

## Deductions

**Statutory Citation:** 77-684
**Description:** Car line companies collection fee.
**Estimate:** $84,532.12[2]

**Statutory Citation:** 77-1250
**Description:** Air carriers collection fee.
**Estimate:** $24,507.59[2]

[1] *Based on tax year 2023 net book taxable personal property value exempted, multiplied by the state's average tax rate for 2021.*
[2] *Based on tax year 2023 net book taxable personal property of car line companies and air carriers; the 3% collection fee retained by the state as a credit to the DOR Property Assessment Division Cash Fund. (Tax year 2023 taxes are collected during 2024.)*

# Section E — Alcoholic Beverages Tax and Fees

## Basic Provisions and Tax Base

Neb. Rev. Stat. § 53-160 imposes a tax upon the privilege of doing business in Nebraska as a manufacturer or distributor of alcoholic liquors. The tax is imposed at the rate of 31 cents per gallon on all beer, 95 cents per gallon for wine, $3.75 per gallon on alcohol and spirits, and six cents per gallon for wine produced in farm wineries. Revenue raised from the gallonage tax is placed in the State General Fund. Neb. Rev. Stat. § 53-160.04 imposes a tax upon a business engaging as a manufacturer or wholesaler of ready-to-drink cocktails at a rate of $.95 per gallon. This classification of excise tax was created in 2021 by LB274. Ready-to-drink cocktails are defined in § 53-103.49 as a beverage or confection containing spirits in an original package which contains 12.5% or less ABV.

Neb. Rev. Stat. §§ 53-124 and 53-131.01 provide that registration and annual license fees are paid to the Nebraska Liquor Control Commission. The law provides a schedule of license fees to be paid by manufacturers, distributors, and retailers of alcoholic beverages. In addition, Neb. Rev. Stat. § 53-132 allows for an occupation tax to be imposed by cities and villages.

The fees paid by manufacturers and distributors vary depending upon whether beer, wine, and/or spirits are handled by the licensee. Retailer's license fees vary depending upon: what alcoholic beverages are sold; whether sold for consumption on- or off-premises; whether sold in a village or larger community; whether issued to a privately-owned recreation area; whether issued to a nonprofit corporation for on premise consumption; whether issued to a municipal corporation, fine arts museum, or nonprofit religious or fraternal organization; whether issued to a restaurant for on premise consumption; whether issued to a railroad, passenger boat operator, non-beverage user, airline; or whether issued to a farm winery or brewpub. Nonprofit corporations can obtain a special designated permit for limited purposes.

The fees derived from local retail license fees by cities or villages are placed in the Common School Fund of the district lying wholly or partially within the corporate limits of the city or village. (See Neb. Rev. Stat. §§ 53-132 & 53-138.01) The fees raised from Special Designated Licenses are deposited into the State General Fund.

Annual license fees received by the Nebraska Liquor Control Commission are paid to the State Treasurer for deposit in the Common School Fund. Registration fees received by the Commission are placed in the State General Fund.

Beer Shipping License fees are credited to the Nebraska Beer Industry Promotional Fund beginning July 1, 2016 per Neb. Rev. Stat. § 53-123.15 (2).

Direct Shipper License fees are credited to the Winery & Grape Producers Promotional Fund per Neb. Rev. Stat. § 53-123.15 (4 & 5).

53-165.01: Brand Registration is required as of 7/1/24 on all alcoholic liquor sold or shipped in the State of Nebraska. Fees were set by rule at $20 per Brand/product as a one-time fee. All fees collected pursuant to this section are credited to the Nebraska Liquor Control Commission Rule and Regulation Cash Fund (53-117.06).

# Exemptions

**Statutory citation:** 53-168.06
**Description:** The following activities are excluded from the definition of manufacturing and distribution and therefore, are not subject to the Liquor Tax:

1) Possessing and transporting alcoholic liquors for the personal use of the possessor, his or her family, and guests;
**Estimate:** Not available

2) Making wine, cider, or other alcoholic beverages by an individual from fruits, vegetables, or grains (or the product thereof) by fermentation and without distillation if used solely for the use of the maker, his or her family, and guests;
**Estimate:** Not available

3) Possession and use by a licensed practicing physician, dentist, hospital, or pharmacist in the practice of his or her profession, treating patients, or compounding prescriptions for treatment;
**Estimate:** Minimal

4) Possessing and dispensing wine by an authorized representative of any church for the purpose of conducting any bona fide rite or religious ceremony conducted by the church.
**Estimate:** Not available

**Statutory citation:** 53-164.01
**Description:** Liquors shipped out-of-state for sale or consumption outside Nebraska are exempt.
**Estimate:** Not available

**Statutory citation:** 53-160
**Description:** Dry or fortified wines manufactured or imported solely and exclusively for sacramental purposes are exempt.
**Estimate:** Not available

**Description:** The tax is not imposed upon any beer sold to a manufacturer consumer for use in the manufacture of: patent and proprietary medicines and medicinal, antiseptic, and toilet preparation; flavoring extracts in syrups and food products; scientific, industrial and chemical products, excepting denatured alcohol; and for scientific, chemical, experimental or mechanical purposes.
**Estimate:** Not available

**Description:** The tax is not imposed upon the privilege of engaging in any business in interstate commerce or otherwise where taxation is prohibited under the United States Constitution and federal law.
**Estimate:** Not available (State taxation prohibited).

**Statutory citation:** 53-160.01
**Description:** No direct or indirect excise tax is imposed upon selling, using, delivering or storing articles of merchandise to or by any instrumentality of the U.S. armed forces engaged in resale activity.
**Estimate:** Not available (State taxation prohibited)

# Deductions

**Statutory citation:** 53-164.01
**Description:** The manufacturer or distributor is allowed a discount of 1% of the tax on alcoholic liquors for the timely payment of the tax due the Nebraska Liquor Control Commission.
**Estimate:** $312,764

# Credits

**Statutory citation:** 53-161
**Description:** A credit is allowed to a distributor or manufacturer for tax paid on: (1) beer shipped out-of-Nebraska for sale and consumption outside the state; or (2) beer returned to the manufacturer for credit, substitution, or replacement.
**Estimate:** $111,000

**Statutory citation:** 53-164.01
**Description:** A credit is allowed to a manufacturer or distributor for the amount of tax paid on beer sold or delivered to any instrumentality of the U.S. armed forces engaged in resale activities.
**Estimate:** $23,000

# Preferential Tax Rates

**Statutory citation:** 53-160
**Description:** Different rates of tax per gallon are levied depending upon the class of alcoholic beverage and its alcoholic content. The following are the applicable rates per gallon, operative July 1, 2003.

**Beer**: $0.31 per gallon (Hard Cider under 8.5% of alcohol content)
**Estimate:** A one-cent variation in the tax would result in a revenue change of $467,000.

**Wine**: $0.95 per gallon (14% or under of alcohol content)
**Estimate:** A five-cent variation in the tax would result in a revenue change of $169,000.

**Alcohol and Spirits**: $3.75 per gallon
**Estimate:** A five-cent variation in the tax would result in a revenue change of $181,000.

**Wine from Farm Wineries**: $0.06 per gallon
**Estimate:** A one-cent variation in the tax would result in a revenue change of $5,000.

**Wine from Direct Shippers**: $1 per gallon
**Estimate:** A five-cent variation in the tax would result in a revenue change of $3,500.

**Micro Distilleries**: $3.75 per gallon
**Estimate:** A five-cent variation in the tax would result in a revenue change of $810.

# Section F — Bingo, Lottery, Raffle, and Lottery by Pickle Card Tax

## Basic Provisions and Tax Base

**Bingo**

A nonprofit organization wishing to conduct bingo where: (1) a charge is made to participate; or (2) any prize to be awarded exceeds $25 in value, must apply for and obtain a license from the Nebraska Department of Revenue (DOR). DOR will issue a qualifying nonprofit organization either a Class I Bingo License (annual bingo gross receipts less than $100,000) or a Class II Bingo License (annual bingo gross receipts of $100,000 or more).

All licensed organizations are subject to a tax of 3% of the bingo gross receipts. Bingo gross receipts include the sale or rental of all bingo cards, any rental fees charged for the use of bingo card monitoring devices, and admission charges. The bingo tax return is filed on a quarterly basis. A licensed organization cannot hold more than ten bingo occasions per month. Sales or rentals of bingo cards to the public are not subject to sales tax. The proceeds from conducting bingo must be used by the organization for a lawful purpose.

A qualifying nonprofit organization not holding a bingo license can apply for a Special Event Bingo permit. A Special Event Bingo permit allows small-stakes bingo games by an organization at a special event where bingo is not the primary function of the event. An organization may apply for two Special Event Bingo permits per calendar year, for an aggregate total of not more than 14 days. Special Event bingo cards cannot be sold for more than 25 cents per card, and individual prizes are limited to no more than $25 in value. Special Event Bingo is exempt from the licensing, tax, and reporting requirements imposed on licensed organizations. The proceeds from special event bingo must be used for a charitable or community betterment purpose.

All licensed organizations must purchase bingo equipment only from a licensed distributor. A licensed distributor must purchase bingo equipment only from a licensed manufacturer. Both distributors and manufacturers must obtain licenses from DOR.

**Lottery by Pickle Card**

A nonprofit organization wishing to sell pickle cards must apply for and obtain a license from DOR. There are two classes of licenses issued that authorize the sale of pickle cards. A Class I license allows pickle card sales at the nonprofit organization's location, including where it conducts bingo games. A Class II license permits the sale of pickle cards at the organization's location, its bingo occasions, and at certain retail locations, known as pickle card operators. Any person or business holding a retail liquor license with the Nebraska Liquor Control Commission may apply to DOR to obtain a pickle card operator's license. If a licensed organization sells pickle cards at the location of a pickle card operator, it must also license at least one of its members as a sales agent. A sales agent is responsible for all marketing activity with a pickle card operator relative to selling the licensed organization's pickle cards. A licensed organization must apply for and obtain a pickle card operator authorization from DOR for each pickle card operator location selling the licensed organization's pickle cards. The proceeds from a lottery by the sale of pickle cards must be used by the organization for a lawful purpose.

All licensed organizations must purchase pickle card units only from a licensed distributor. A licensed distributor must purchase pickle card units only from a licensed manufacturer. Both distributors and manufacturers must obtain licenses from DOR.

A licensed distributor selling pickle card units to a licensed organization is subject to a tax of 10% of the definite profit of each pickle card unit sold. The "definite profit of a pickle card unit" is the gross proceeds of

the unit less all possible prizes. The gross proceeds of a unit is determined by multiplying the number of pickle cards in the unit by the selling price per individual pickle card. The pickle card tax return is filed on a monthly basis. The tax paid by the licensed distributor is passed along to the licensed organization as a part of the selling price of a pickle card unit. The appropriate sales tax is also due on the sale of each pickle card unit, unless the licensed organization purchasing the unit is exempt from paying sales tax. Selling individual pickle cards to the public either by a licensed organization or a licensed pickle card operator is not subject to sales tax.

If a licensed organization or pickle card operator uses a coin or currency-activated pickle card dispensing device, this device must be registered with DOR. An annual registration fee is required and each device must be affixed with a registration decal issued by DOR.

**Lottery/Raffle**

A nonprofit organization wishing to conduct a lottery (primarily cash prizes) or a raffle (at least 80% of prizes are merchandise) with gross proceeds in excess of $15,000, must first apply for and obtain a license from DOR. The permissible forms of winner determination for a lottery or raffle are limited to: (1) a random ticket drawing; or (2) a race using inanimate, buoyant objects floated along a river, canal, or other waterway (duck races).

Lotteries and raffles exceeding $15,000 in gross proceeds are subject to a tax of 2% of the gross proceeds. The gross proceeds are based upon the selling price of the lottery or raffle ticket and include the value of any free tickets given away and any other consideration which is required to be paid by a participant in order to be eligible for the drawing. Selling lottery or raffle tickets to the public is not subject to sales tax.

The lottery/raffle tax return is filed annually, even if the gross proceeds for the tax period do not exceed the $15,000 threshold. Upon the conclusion of the lottery or raffle, if the licensed organization's actual gross proceeds did not exceed the $15,000 threshold, the licensed organization may request a refund of any tax previously paid. Proceeds from a lottery or raffle must be used for a lawful purpose.

**County/City Lottery**

Any county, city, or village that has approved a lottery in a special or regularly-scheduled election must apply for and obtain a license from DOR prior to commencing the lottery activity. There are two forms of authorized lottery activity for a county, city, or village: (1) a traditional ticket drawing where winners are determined by a random drawing; and (2) keno. A community which has approved a lottery may conduct the lottery on its own, or contract with another person or business to conduct the lottery on its behalf. The person or business that contracts with the community is called a "lottery operator." A lottery operator must apply for and obtain a license from DOR. In addition to the licensing requirements for the community and the lottery operator, all persons who perform any work directly related to conducting the lottery, other than a person whose sole responsibilities are as a keno writer, must apply for and obtain a lottery worker license from DOR. Any location where tickets are going to be sold, other than the lottery operator's location, must also be licensed as a sales outlet location.

A tax of 2% of the gross proceeds must be remitted to DOR on a quarterly basis by the county, city, or village. The net proceeds of the lottery must be used by the county, city, or village for community betterment purposes. Lottery equipment must be purchased only from a licensed manufacturer-distributor. A manufacturer-distributor of lottery equipment must obtain a license from DOR.

**Tax Allocation**

Forty percent of all taxes collected and referred to in this section are credited to the Charitable Gaming Operations Fund for administration and enforcement of the charitable gaming laws by DOR's Charitable Gaming Division. The remaining 60% is transferred to the General Fund. Beginning July 1, 2021, on or before November 1 each year, the State Treasurer shall transfer $100,000 from the Charitable Gaming Operations Fund to the Compulsive Gamblers Assistance Fund, except that no transfer will occur if the Charitable Gaming Operations Fund contains less than one hundred thousand dollars. Any funds remaining in the Charitable Gaming Operations Fund after the transfer to the Compulsive Gamblers Assistance Fund, which was not used by the Charitable Gaming Division for its administrative and enforcement duties, may be transferred to the General Fund at the direction of the Legislature.

## Exemptions

**Statutory citation:** Neb. Rev. Stat. § 9-230
**Description:** The bingo tax does not apply to any bingo game for which no charge is made to participate, and no prize awarded exceeds $25 in value. The bingo tax does not apply to Special Event Bingo.
**Estimate:** Minimal

**Statutory citation:** Regulation 35-215.01A
**Description:** The bingo tax applies to the bingo gross receipts of the licensed organization. This tax does not apply to the sale of bingo equipment and supplies by a licensed distributor to a licensed organization, or to the sale of bingo supplies by some other retail business to the general public.
**Estimate:** Minimal

**Statutory citation:** Neb. Rev. Stat. § 9-429
**Description:** The lottery/raffle tax does not apply to any lottery or raffle conducted by a nonprofit organization when the gross proceeds do not exceed $15,000.
**Estimate:** Not Available

**Statutory citation:** 4 U.S.C. 109 and 25 U.S.C. 2701, et al.
**Description:** The bingo tax imposed by Neb. Rev. Stat. § 9-230 on the gross receipts of a licensed organization is not applicable to bingo activity conducted by a federally recognized Indian tribe in Indian country within Nebraska. In addition, the pickle card tax imposed by Neb.Rev. Stat. § 9-344 on a licensed distributor is not applicable to pickle card units sold by a licensed distributor to a federally recognized Indian tribe located either within Nebraska or located in another state if the sale of these pickle cards occurs only at the tribe's bingo operation in Indian country. Federal law prohibits state taxation relative to these activities.
**Estimate:** Not Available (State Taxation Prohibited)

# Section G — Cigarette Tax

## Basic Provisions and Tax Base

The Nebraska cigarette tax is a special privilege tax paid by every person engaged in distributing or selling cigarettes at wholesale in Nebraska. Each stamping agent who obtains an annual Nebraska Stamping Agent's License must pay an application fee of $500, which is placed in the State General Fund. On packages containing 20 or fewer cigarettes, a tax of 64 cents per package is paid. On packages containing more than 20 cigarettes, a tax of 64 cents for the first 20 cigarettes plus a tax of 1/20 of 64 cents on each cigarette in excess of 20 cigarettes is paid, in addition to all other taxes. A cigarette tax stamp is placed on each package of cigarettes as proof of cigarette tax paid.

The distribution of Nebraska cigarette tax revenues can be found on the Department of Revenue's website revenue.nebraska.gov under Tax Research and Reports. The Nebraska Tax Rate Chronologies are updated quarterly.

## Exemptions

**Statutory citation:** Neb. Rev. Stat. § 77-2607
**Description:** The portion of the stamping agent's stock of cigarettes which is not intended to be sold or given away in Nebraska is exempt from the tax, unless the stock is not out of the dealer's possession within 30 days of receipt.
**Estimate:** Not Available

**Statutory citation:** 4 U.S.C. 107
**Description:** Federal law prohibits state taxation of cigarettes sold to the U.S. government or any of its agencies.
**Estimate:** $0

## Deductions

**Statutory citation:** Neb. Rev. Stat. § 77-2608
**Description:** The Tax Commissioner sells the cigarette tax stamps only to licensed stamping agents. The sale of cigarette tax stamps to licensed stamping agents in Nebraska or outside of Nebraska is authorized at a discount of 1.85% of the face value of the cigarette tax as a commission for affixing and canceling the cigarette tax stamps.
**Estimate:** $987,000

## Credits

**Statutory citation:** Neb. Rev. Stat. § 77-2610
**Description:** Any unused or spoiled stamps are redeemed by the Tax Commissioner and a refund is made in the amount of the stamps less the commission for affixing the stamps.
**Estimate:** $351,000

**Statutory citation:** 4 U.S.C. 109, et al.
**Description:** Federal statutes and treaties prohibit state taxation of cigarettes sold to Native American Indians in Indian country within Nebraska. A credit is allowed by the state to licensed cigarette stamping agents for the amount of tax credited by them to retailers who make exempt sales of cigarettes to Native American Indians.
**Estimate:** $125,000 (State taxation Prohibited)
**Source:** U.S. Census

# Section H — Corporation Occupation Tax

## Basic Provisions and Tax Base

A biennial occupation tax is levied against domestic and foreign corporations. The tax is due March 1 of each even-numbered year. The tax levied against domestic corporations is calculated based on the amount of paid-up capital stock of the corporation.

**Nebraska Corporation Occupation Tax Fee Schedule**

| Amount of Paid-Up Capital Stock[1] | Tax Fee | Amount of Paid-Up Capital Stock[1] | Tax Fee |
|---|---|---|---|
| $0.00 - $10,000 | $26 | $450,000.01 - $500,000 | $800 |
| 10,000.01 - 20,000 | 40 | 500,000.01 - 600,000 | 910 |
| 20,000.01 - 30,000 | 60 | 600,000.01 - 700,000 | 1,010 |
| 30,000.01 - 40,000 | 80 | 700,000.01 - 800,000 | 1,120 |
| 40,000.01 - 50,000 | 100 | 800,000.01 - 900,000 | 1,230 |
| 50,000.01 - 60,000 | 120 | 900,000.01 - 1,000,000 | 1,330 |
| 60,000.01 - 70,000 | 140 | 1,000,000.01 - 2,000,000 | 2,130 |
| 70,000.01 - 80,000 | 160 | 2,000,000.01 - 3,000,000 | 2,930 |
| 80,000.01 - 90,000 | 180 | 3,000,000.01 - 4,000,000 | 3,730 |
| 90,000.01 - 100,000 | 200 | 4,000,000.01 - 5,000,000 | 4,530 |
| 100,000.01 - 125,000 | 240 | 5,000,000.01 - 6,000,000 | 5,330 |
| 125,000.01 - 150,000 | 280 | 6,000,000.01 - 7,000,000 | 6,130 |
| 150,000.01 - 175,000 | 320 | 7,000,000.01 - 8,000,000 | 6,930 |
| 175,000.01 - 200,000 | 360 | 8,000,000.01 - 9,000,000 | 7,730 |
| 200,000.01 - 225,000 | 400 | 9,000,000.01 - 10,000,000 | 8,530 |
| 225,000.01 - 250,000 | 440 | 10,000,000.01 - 15,000,000 | 12,000 |
| 250,000.01 - 275,000 | 480 | 15,000,000.01 - 20,000,000 | 14,660 |
| 275,000.01 - 300,000 | 520 | 20,000,000.01 - 25,000,000 | 17,330 |
| 300,000.01 - 325,000 | 560 | 25,000,000.01 - 50,000,000 | 20,660 |
| 325,000.01 - 350,000 | 600 | 50,000,000.01 - 100,000,000 | 21,330 |
| 350,000.01 - 400,000 | 666 | When paid-up capital stock | |
| 400,000.01 - 450,000 | 730 | exceeds $100,000,000 | 23,990 |

**The occupation tax and biennial fees for business corporations are deposited in the State General Fund.**

The tax levied against foreign corporations is based on the actual value of all real estate and personal property employed in Nebraska by the foreign corporation in the transaction of its business (Neb. Rev. Stat. § 21-306).

[1] *For purposes of Chapter 21, Article 3, the term "paid-up capital stock" means, the sum of the par value of all shares of capital stock of the corporation issued and outstanding (Neb. Rev. Stat. § 21-329).*

**Nebraska Corporation Occupation Tax Fee Schedule for Foreign Corporations**

| Amount of Assets in Nebraska | Tax Fee | Amount of Assets in Nebraska | Tax Fee |
|---|---|---|---|
| $0.00 - $10,000 | $52 | $350,000.01 - $400,000 | $1,332 |
| 10,000.01 - 20,000 | 80 | 400,000.01 - 450,000 | 1,460 |
| 20,000.01 - 30,000 | 120 | 450,000.01 - 500,000 | 1,600 |
| 30,000.01 - 40,000 | 160 | 500,000.01 - 600,000 | 1,820 |
| 40,000.01 - 50,000 | 200 | 600,000.01 - 700,000 | 2,020 |
| 50,000.01 - 60,000 | 240 | 700,000.01 - 800,000 | 2,240 |
| 60,000.01 - 70,000 | 280 | 800,000.01 - 900,000 | 2,460 |
| 70,000.01 - 80,000 | 320 | 900,000.01 - 1,000,000 | 2,660 |
| 80,000.01 - 90,000 | 360 | 1,000,000.01 - 2,000,000 | 4,260 |
| 90,000.01 - 100,000 | 400 | 2,000,000.01 - 3,000,000 | 5,860 |
| 100,000.01 - 125,000 | 480 | 3,000,000.01 - 4,000,000 | 7,460 |
| 125,000.01 - 150,000 | 560 | 4,000,000.01 - 5,000,000 | 9,060 |
| 150,000.01 - 175,000 | 640 | 5,000,000.01 - 6,000,000 | 10,660 |
| 175,000.01 - 200,000 | 720 | 6,000,000.01 - 7,000,000 | 12,260 |
| 200,000.01 - 225,000 | 800 | 7,000,000.01 - 8,000,000 | 13,860 |
| 225,000.01 - 250,000 | 880 | 8,000,000.01 - 9,000,000 | 15,460 |
| 250,000.01 - 275,000 | 960 | 9,000,000.01 - 10,000,000 | 17,060 |
| 275,000.01 - 300,000 | 1,040 | 10,000,000.01 - 15,000,000 | 24,000 |
| 300,000.01 - 325,000 | 1,120 | 15,000,000.01 - 20,000,000 | 29,320 |
| 325,000.01 - 350,000 | 1,200 | When assets exceed 20,000,000 | 30,000 |

Domestic and foreign corporations that have been dissolved by operation of law for failure to file a report and pay the tax may be reinstated. To be reinstated, corporations must: file an application for reinstatement; pay a filing fee of $30 if submitted in writing or $25 if submitted electronically; pay all taxes due; and pay a variable statutory percent penalty calculated to the date of reinstatement (Neb. Rev. Stat. §§ 21-323.01, 21-325.01). Reinstatement more than five years after dissolution carries a $500 reinstatement fee rather than $25 or $30.

A biennial fee of $30 if submitted in writing, or $25 if submitted electronically, is levied against nonprofit corporations. The fee is collected in the odd-numbered years on a biennial basis and remitted to the State Treasurer. 60% of the fee is credited to the General Fund and the remaining 40% to the Secretary of State Cash Fund. Reinstatement more than five years after dissolution carries a $500 fee for all nonprofit corporation except homeowners associations which only pay an additional $100 fee (Neb. Rev. Stat. §§ 18-3105).

## Exemptions

**Statutory Reference:** 21-321

**Description:** All banking, insurance, and building and loan association corporations paying fees and making reports to the Director of Insurance or the Director of Banking and Finance, and all other corporations paying an occupation tax to the state under any other statutory provisions than those of §§ 21-301 to 21-330, are exempt from the corporation occupation tax.

**Estimate:** Not Available

# Section I — Documentary Stamp Tax

## Basic Provisions and Tax Base

The documentary stamp tax is a tax imposed on the grantor executing a deed for the privilege of transferring beneficial interest in or legal title to real estate. The tax rate is $2.25 for each $1,000 of value (or fraction thereof) of the real estate transferred. All deeds are presumed taxable unless it clearly appears on the face of the deed or sufficient documented proof is presented to the register of deeds that the instrument is exempt under Neb. Rev. Stat. § 76-902.

From each $2.25 of the tax collected, the register of deeds retains $0.50 to be placed in the county general fund, and remits the balance to the State Treasurer. The State Treasurer credits $0.95 of this amount to the Affordable Housing Trust Fund, $0.25 to the Homeless Shelter Assistance Trust Fund, $0.25 to the Site and Building Development Fund, and $0.30 to the Behavioral Health Services Fund.

For tax year 2023, there was a total of 72,537 transactions (46,641 taxable and 25,896 nontaxable). Total collections for tax year 2023 were $32,887,438. From this total, $7,307,589 was retained by the counties and $25,579,849 was credited to the funds listed above.

## Exemptions

****All the estimates of expenditure for the following exemptions are not available. ****

**Statutory citation:** 76-902(1)
**Description:** Deeds recorded prior to November 18, 1965.

**Statutory citation:** 76-902(2)
**Description:** Deeds to property transferred by or to the U.S., the State of Nebraska, or any of their instrumentalities, agencies, or subdivisions.

**Statutory citation:** 76-902(3)
**Description:** Deeds which secure or release a debt or other obligation.

**Statutory citation:** 76-902(4)
**Description:** Deeds which, without additional consideration, confirm, correct, modify, or supplement a deed previously recorded; that do not extend or limit existing title or interest.

**Statutory citation:** 76-902(5)
**Description:** Deeds between husband and wife, parent and child, or between ex-spouses conveying property acquired or held during the marriage, without consideration, and deeds to or from a family corporation, partnership, or limited liability company.

**Statutory citation:** 76-902(6)
**Description:** Tax deeds.

**Statutory citation:** 76-902(7)
**Description:** Deeds of partition.

**Statutory citation:** 76-902(8)
**Description:** Deeds for mergers, consolidations, sales, or transfers of the assets of corporations due to the plans of merger or consolidation.

**Statutory citation:** 76-902(9)
**Description:** Deeds made by a subsidiary corporation to its parent corporation for no consideration other than the cancellation or surrender of the subsidiary's stock.

**Statutory citation:** 76-902(10)
**Description:** Cemetery deeds.

**Statutory citation:** 76-902(11)
**Description:** Mineral deeds.

**Statutory citation:** 76-902(12)
**Description:** Deeds executed pursuant to court decrees.

**Statutory citation:** 76-902(13)
**Description:** Land contracts.

**Statutory citation:** 76-902(14)
**Description:** Deeds which release a reversionary interest, a condition subsequent or precedent, a restriction, or any other contingent interest.

**Statutory citation:** 76-902(15)
**Description:** Deeds of distribution by a personal representative conveying property passing by testate or interstate succession.

**Statutory citation:** 76-902(16)
**Description:** Transfer on death deeds or revocations of transfer on death deeds.

**Statutory citation:** 76-902(17)
**Description:** Certified or authenticated death certificates.

**Statutory citation:** 76-902(18)
**Description:** Deeds transferring property located within the boundaries of an Indian reservation if the grantor or grantee is a Native American living in Indian country.

**Statutory citation:** 76-902(19)
**Description:** Deeds transferring property into a trust where the transfer of the same property would be exempt if the transfer were made directly from the grantor to the beneficiaries under the trust.

**Statutory citation:** 76-902(20)
**Description:** Deeds transferring property from a trustee to a beneficiary of a trust.

**Statutory citation:** 76-902(21)
**Description:** Deeds that convey property held in the name of any partnership or limited liability company not subject to subdivision (5) of this section to any partner in the partnership or member of the limited liability company or his or her spouse.

**Statutory citation:** 76-902(22)
**Description:** Leases.

**Statutory citation:** 76-902(23)
**Description:** Easements.

**Statutory citation:** 76-902(24)
**Description:** Deeds which transfer title from a trustee to a beneficiary pursuant to a power of sale exercised by a trustee under a trust deed.

**Statutory citation:** 76-902(25)

**Description:** Deeds transferring property, without actual consideration therefor, to a nonprofit organization that is exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code and is not a private foundation as defined in section 509(a) of the Internal Revenue Code.

# Section J — Inheritance Tax

## Basic Provisions and Tax Base

The inheritance tax in Nebraska is administered by the county court of the county where the decedent resided or where the real or personal property is located. The tax is levied as a percentage of the clear market value of the property, including proceeds of insurance upon the life of the decedent, that to the extent the benefit is recovered by the personal representation transferred by will or by the intestate laws from any person who, at the time of death, was a Nebraska resident or if a nonresident, possessed nonexempt property located within the State of Nebraska. The rate is determined by the relationship between the decedent and the beneficiary.

The inheritance tax is required to be apportioned among the counties in the same ratio that the gross property (including both taxable and nontaxable property) in each county bears to the gross value of all property reportable for inheritance tax purposes.

**All inheritance tax revenue is credited to the county general fund or to any other fund of the county selected by the county board.**

## Exemptions

**Statutory citation:** 77-2004 and 30-2322
**Description:** The homestead allowance is exempt. A surviving spouse of a decedent who was domiciled in Nebraska is entitled to a homestead allowance of $20,000. If there is no surviving spouse, each minor or dependent child of the decedent is entitled to a homestead allowance of $20,000 divided by the number of minor and dependent children of the decedent.
**Estimate:** Not Available

**Statutory citation:** 77-2004 and 30-2323
**Description:** The surviving spouse or children of a decedent who was domiciled in Nebraska is entitled to an amount not exceeding $2,500 in excess of any security interest, of household furniture, automobiles, furnishings, appliances, and personal effects.
**Estimate:** Not Available

**Statutory citation:** 77-2004, 30-2324, and 30-2325
**Description:** The family maintenance allowance is exempt. If the decedent was domiciled in Nebraska, the surviving spouse and minor children whom the decedent was obligated to support, and children who were in fact being supported by the decedent, are entitled to a reasonable monetary allowance during the administration of the estate up to $20,000 total without a court order.
**Estimate:** Not Available

**Statutory citation:** 77-2004
**Description:** The first $100,000 of the clear market value of property received by each lineal relative or sibling of the decedent is exempt, for decedents dying on or after January 1, 2023.
**Estimate:** Not Available

**Statutory citation:** 77-2004
**Description:** Interests passing to the surviving spouse are exempt.
**Estimate:** Not Available

**Statutory citation:** 77-2005.01
**Description:** The first $40,000 of the clear market value of property received by each cousin and other remote relative of the decent is exempt, for decedents dying on or after January 1, 2023.
**Estimate:** Not Available

**Statutory citation:** 77-2006
**Description:** The first $25,000 of the clear market value of the beneficial interest in the estate received by someone other than a relative is exempt, for decedents dying on or after January 1, 2023. For decedents dying on or after January 1, 2023, the first $25,000 of the clear market value of the beneficial interests received by someone other than a relative is exempt.
**Estimate:** Not Available

**Statutory citation:** 77-2007
**Description:** Payments received by an estate under an employee benefit plan are exempt to the extent that the benefit is life insurance otherwise excluded from the tax, or the benefit is not subject to the federal estate tax.
**Estimate:** Not Available

**Statutory citation:** 77-2007.03
**Description:** Property transferred to either: (1) the U.S. or any of its departments, instrumentalities, or agencies; or (2) Nebraska or any of its governmental subdivisions, departments, agencies, or instrumentalities, any municipal corporation or body politic created by or under the laws of Nebraska, or any agency, institution, foundation, or fund administered or operated by any of these entities is exempt.
**Estimate:** Not Available (State taxation prohibited)

**Statutory citation:** 77-2007.04
**Description:** All inheritances to or for the use of any corporation, organization, association, society, institution, or foundation organized and operating exclusively for religious, charitable, public, scientific, or educational purposes, is exempt if certain conditions are met.
**Estimate:** Not Available

## Credits

**Statutory citation:** 77-2018.06
**Description:** When a decedent has received property from another person who died within five years prior to the death of the decedent, upon which Nebraska inheritance tax was paid, the tax paid is allowed as a credit against the amount of inheritance tax assessed against the recipients of property from the estate of the decedent.
**Estimate:** Not Available

## Preferential Tax Rates

**Statutory citation:** 77-2004, 77-2005, and 77-2006
**Description:** Property transferred to lineal relatives and siblings, remote relatives, and others for decedents dying on or after January 1, 2023 are taxed at the rates:

- Lineal relatives and siblings
  - $0 - $100,000 at 0%
  - $100,000.01 & over at 1%
- Remote relatives
  - $0 - $40,000 at 0%
  - $40,000.01 & over at 11%
- Non-relatives
  - $0-25,000 at 0%
  - $25,000.01 & over at 15%

**Estimate:** Not Available

# Section K — Insurance Premium Tax

## Basic Provisions and Tax Base

Each insurance company organized as a stock, mutual, assessment, or reciprocal insurer, and every nonprofit hospital service corporation (except fraternal benefit societies) which transacts business in Nebraska, is required to pay a tax to the Director of Insurance (Director) on or before March 1 of each year. This is in lieu of any other intangible property tax of 1% of the gross amount of direct written premiums received by it during the preceding calendar year for business done in Nebraska. Exceptions to this include: (1) for group sickness and accident insurance, the rate of tax is 0.5%; and (2) for property and casualty insurance, excluding individual sickness and accident insurance, the rate is 1%. A captive insurer authorized under the Captive Insurers Act that is transacting business in Nebraska is required to pay a tax to the Director, on or before March 1 of each year, of .25% of the gross amount of direct writing premiums received by it during the preceding calendar year for business done in Nebraska.

The taxable premiums include premiums paid on the lives of persons residing in Nebraska and premiums paid for risks located in Nebraska, whether or not the insurance written in Nebraska. When insurance is written on a group which exceeds 500 lives, the taxable premium includes the portion of the premium paid for insurance on Nebraska residents or risks located in Nebraska. The tax also applies to premiums received by domestic companies for insurance written on individuals residing outside Nebraska, or risks located outside Nebraska, if no comparable tax is paid by the direct writing domestic company to any other appropriate taxing authority.

Insurance companies whose plan of operation contemplates the return of a portion of premiums to policyholders, without the policyholders being claimants of the term of their policies, may deduct the returned premiums or dividends from their gross premiums for the purpose of calculating premium tax liability.

The Director is required to transmit 50% of the taxes paid to the Insurance Tax Fund, 40% to the General Fund, and 10% to the Mutual Finance Assistance Fund promptly upon completion of an audit and examination of the tax returns submitted by the insurers, but in no event later than May 1 of each year.

Commencing with the taxable year ending December 2001, all premium and retaliatory taxes paid by insurers writing health insurance in Nebraska are remitted to the Comprehensive Health Insurance Pool Distributive Fund in lieu of transmitting 50% of the taxes paid to the Insurance Tax Fund, 40% to the General Fund, and 10% to the Mutual Finance Assistance Fund. For tax year 2023, $65,376,436 was allocated to the Comprehensive Health Insurance Pool Fund.

The Director is required to transmit 10% of the premium taxes collected to the Mutual Finance Assistance Fund. This fund is used to provide assistance to rural or suburban fire protection districts and mutual finance organizations which qualify under the Mutual Finance Assistance Act. For tax year 2023, $13,767,879 was allocated to this fund which would have gone to the General Fund prior to the enactment of this legislation. Nebraska law directs the State Treasurer to disburse all of the funds in the Insurance Tax Fund prior to June 1 of each year as follows:

- 10% of the total to the counties, proportionately in the proportion that the population of each county bears to the entire state, as shown by the latest U.S. census;
- 30% of the total to the Municipal Equalization Fund; and
- 60% of the total to the State Department of Education for distribution to school districts as equalization aid pursuant to the Tax Equity and Educational Opportunities Support Act as follows. The Commissioner of Education must (a) include the amount certified by the State Treasurer pursuant to this section with the amount appropriated to the Tax Equity and Education

Opportunities Fund for distribution in the ensuing school fiscal year, (b) include such amount in the state aid certified to each school district, and (c) distribute such fund as equalization aid under the provisions of the Act during the ensuing fiscal year.

An insurer whose annual tax for the preceding taxable year was $4,000 or more must make prepayments of its annual taxes on or before April 15, June 15 and September 15 of the current taxable year. The amount of each prepayment must be at least one-fourth of either (1) the total tax paid for the immediately preceding taxable year, or (2) 80% of the actual tax due for the current taxable year.

The Director is required to deposit one-half of the prepayments received into the Premium and Retaliatory Tax Suspense Fund and the other half into the General Fund. Commencing with the taxable year ending December 31, 2001, all prepayments paid by insurers writing health insurance in this state shall be remitted to the Comprehensive Health Insurance Pool Distribution Fund in lieu of transmitting one-half of the taxes paid to the Premium and Retaliatory Tax Suspense Fund and one-half to the General Fund.

The Director is required to collect from insurers and transmit to the State Treasurer, for credit to the Workers' Compensation Court Cash Fund, a tax of 1% on the gross amount of direct workers' compensation insurance premiums received by an insurance company. For tax year 2023, $4,221,417 was allocated to the Workers' Compensation Court Cash Fund. The Director is also required to collect from insurers and risk management pools and transmit to the State Treasurer, for credit to the Workers' Compensation Trust Fund, a tax on the amount of workers' compensation benefits paid by each insurer during the preceding calendar year. For the tax year 2023, $0 was allocated to the Workers' Compensation Trust Fund due to the fact a tax was not assessed as the trust balance was in excess of the statutory amount required.

An insurer may offset against its premium and retaliatory tax liability to Nebraska, with respect to business transacted in each year, an amount equal to 20% of the face amount of contributions made to the Nebraska Life and Health Insurance Guaranty Association and the Nebraska Property and Liability Insurance Guaranty Association.

# Section L — Local Occupation Taxes

## Basic Provisions and Tax Base

Neb. Rev. Stat. §§ 14-109, 15-202, 15-203, 16-205, 17-525, and 18-1208 allow cities of the metropolitan class, cities of the primary class, first class cities, second class cities, and villages respectively, to raise revenue by levying and collecting an occupation tax on any occupation or business, including a public service corporation, within the limits of the city or village. The monies raised by these local taxes are for use by local governments in their governmental operations.

## Exemptions

**Statutory citation:** 14-109, 15-203, 16-205, 17-525**, and** 18-1208

**Description:** Exclude from imposition of any occupation tax all scientific and literary lectures and entertainments; also concerts and all other musical entertainment given exclusively by the citizens of the city or village. Also excludes the occupation tax on any transaction which is subject to tax under section 53-160, 66-489, 66-489.02, 66-4,140, 66-4,145, 66-4,146, 77-2602, or 77-4008 or which is exempt from tax under section 77-2704.24.

**Estimate:** Not Available

# Section M — Nebraska and County Lodging Tax

## Basic Provisions and Tax Base

The lodging tax is a tax imposed upon the total gross receipts charged for the occupancy of any space furnished by any hotel (including a Nebraska-operated hotel), motel, tourist home, campground, court, inn, bed, and breakfast, or lodging house in Nebraska for less than 30 consecutive days. Additionally, online travel companies that are facilitating sales as a Multivendor Marketplace Platform are required to be licensed for the lodging tax. The lodging tax is imposed in addition to sales and use taxes. The Nebraska lodging tax is 1%. Receipts from Nebraska lodging tax are paid to the State Visitors Promotion Cash Fund.

Each county in Nebraska may impose a lodging tax of 2% or less. The county lodging tax receipts are paid to the County Visitors Promotion Fund. Each county may also impose an additional lodging tax of 2% or less. Receipts from this additional county lodging tax are paid to the County Visitors Improvement Fund. A 3% administrative fee is deducted by DOR and deposited in the General Fund.

Both county lodging taxes are in addition to the 1% Nebraska lodging tax and regular sales and use taxes.

## Exemptions

**Statutory citation:** 81-3722, 77-2704.02, 77-2704.12(1), and 77-2704.15 through 77-2704.20
**Description:** Purchases by:

- Nonprofit organizations created exclusively for religious purposes;
- Nonprofit organizations providing services exclusively to the blind;
- Nonprofit Nebraska-licensed schools, colleges, universities established under §§ 79-1601 to 79-1607 or any regionally or nationally accredited, nonprofit, privately controlled college or university with its primary campus physically located in Nebraska (not including Nebraska public post-secondary institutions);
- Nonprofit Nebraska-licensed hospitals;
- Nonprofit Nebraska-licensed health clinics when one or more hospitals or the parent corporations of the hospitals own or control the health clinic for the purpose of reducing the cost of health services, or when the health clinic receives federal funds through the United States Public Health Service for the populations that are medically underserved;
- Nonprofit Nebraska-licensed skilled nursing facilities;
- Nonprofit Nebraska-licensed intermediate care facilities;
- Nonprofit Nebraska-licensed assisted-living facilities;
- Nonprofit Nebraska-licensed intermediate care facilities for persons with developmental disabilities;
- Nonprofit Nebraska-licensed nursing facilities;
- Nonprofit Nebraska-licensed home health agencies, hospice or hospice services, and respite care services;
- Nonprofit Nebraska-licensed mental health substance use treatment center;
- Center for independent living as defined in 29 U.S. C. 796a;
- Nonprofit Nebraska-licensed child-caring agencies or child placement agencies; and Nonprofit organizations certified by the Department of Health and Human Services (HHS) to provide community-based services for persons with developmental disabilities;
- The state, including public educational institutions recognized or established under the provisions of Chapter 85, or any Nebraska county, township, city, village, rural or suburban fire protection district, city airport authority, county airport authority, joint airport authority, drainage district organized under §§ 31-401 to 31-450, land bank created under the Nebraska Municipal Land Bank Act, natural resource district, elected county fair board, housing agency as defined in § 71-1575 except for purchases for any commercial operation that does not exclusively benefit the residents of an affordable housing project, cemetery

created under § 12-101, or joint entity or agency formed by any combination of two or more counties, townships, cities, villages, or other exempt governmental units pursuant to the Interlocal Cooperation Act, the Integrated Solid Waste Management Act, or the Joint Public Agency Act, except for purchases for use in the business of furnishing gas, water, electricity, or heat, or by any irrigation or reclamation district, the irrigation division of any public power and irrigation district, or public schools or learning communities established under Chapter 79.

- The Nebraska State Fair Board.
- The Nebraska Investment Finance Authority.
- Licensees of the State Racing Commission.
- The federal government when payment is made directly by the federal government, state tax is prohibited.

**Estimate**: State: $328,000
Counties: $1,278,000

## Deductions

**Statutory citation:** 81-3723
**Description:** The state retains 3% of the County Visitors Promotion Fund receipts as an administrative fee to defray the cost of collecting and administering the tax.
**Estimate**: State: $0
Counties: $465,000[1]

[1] *The administrative fee is retained in the State General Fund.*

# Section N — Motor Vehicle, Diesel, Aircraft, and Compressed Fuels Taxes

## Basic Provisions and Tax Base

**Motor Fuels Tax – Motor Vehicle Fuels and Diesel Fuels**

Motor vehicle fuels and undyed diesel fuels are subject to an excise tax imposed on the motor fuels received, imported, produced, refined, manufactured, compounded, or blended in the State of Nebraska for use, distribution, sale, or delivery in Nebraska. Motor vehicle fuels include all products commonly or commercially known as gasoline, gasohol, ethanol, casing head gasoline, and natural gasoline. Products such as naphtha, methanol, benzene, and benzol, although not defined as motor vehicle fuels, are subject to tax if placed directly into a licensed motor vehicle or blended into gasoline at a point in the distribution chain after the refinery. Diesel fuels include all combustible liquids suitable for use in diesel-powered motor vehicles including biodiesel blends. It does not include kerosene which is subject to tax if it is blended with undyed diesel fuel.

Dyed diesel fuel placed in licensed motor vehicles by governmental agencies is also subject to motor fuels tax. Governmental agencies placing dyed diesel fuel in a licensed motor vehicle must remit motor fuels use tax by filing the Nebraska Motor Fuels Use Tax Return, Form 74.

Businesses licensed as producers, suppliers, distributors, wholesalers, importers, or exporters report and remit the motor fuels tax. Beginning in 2024, retailers of gasoline, ethanol, and gasoline/ethanol blends file quarterly informational reports regarding the type of product and gallons sold, and the percentage of ethanol in those gallons. Retailers are also subject to field record reviews or audits. Liquid fuel carrier licenses and terminal operator licenses are required for businesses involved in the movement of motor fuels in the State of Nebraska. The proper license is obtained by completing a Nebraska Motor Fuels License Application, Form 20MF.

The motor fuels tax is subject to change each January 1 and July 1, and consists of a fixed portion, a variable excise tax rate, and a variable wholesale component. The fixed portion excise tax was 10.3 cents per gallon through December 31, 2015. Beginning in 2016, the fixed portion increased 1.5 cents per gallon each January 1 through January 1, 2019, bringing the total fixed portion excise tax to 16.3 cents per gallon. The variable excise tax rate is set to meet appropriations. The variable wholesale component is 5% of the average wholesale price of gasoline for the previous six months. The total motor fuels tax per gallon for the first half of 2023 was 29.0 cents, and for the second half of 2023, it was 29.0 cents. For the first half of 2024, it was 29.1 cents, and for the second half of 2024, it is 29.6 cents.

The business producing, importing, or removing motor fuels from a Nebraska fuel pipeline terminal has the option to remit the tax or to pass the liability on to a customer who is a licensed supplier, distributor, exporter, or wholesaler. If the tax liability is passed on to the customer, the customer must remit the tax to Nebraska, and cannot subsequently sell that fuel tax-free unless a qualified exemption applies.

Exemptions for motor vehicle fuels are:

- exports with sales or use in a state other than Nebraska;
- sales to the U.S. Government or its agencies, and federal corporations wholly owned by the U.S.;
- sales to a metropolitan transit authority;
- natural gasoline (and gasoline products effective August 1, 2024) purchased by ethanol producers for use as a denaturant; or

- sales in Indian country, as defined by federal law, to a Native American Indian residing in Indian country.[1]

While natural gasoline (and gasoline products effective August 1, 2024) purchased for use as a denaturant in the production of ethanol is exempt from the motor fuels tax, it is subject to an excise tax reported and remitted by licensed ethanol producers. The tax of 1.25 cents per gallon is deposited into the Agricultural Alcohol Fuel Tax Fund (AAFTF). Effective August 1, 2024, ethanol producers also pay the 1.25 cent tax on 2% of sales of non-beverage alcohol not meeting ATSM D4804.

Exemptions for diesel fuels are:

- exports with sales or use in a state other than Nebraska;
- sales to the U.S. Government or its agencies, and federal corporations wholly owned by the U.S.;
- sales to a metropolitan transit authority;
- sales in Indian country to a Native American Indian residing in Indian country[1];
- sales of 50 gallons or less for use in a temperature control unit (reefer) or power-take-off unit. The consumer of the reefer fuel must submit an approved exemption certificate to the retailer and must also pay applicable sales tax.

A refund of the motor fuels tax paid on gallons used in unlicensed equipment is claimed by completing a Nebraska Non-Ag Use Motor Fuels Tax Refund Claim, Form 84, or a Nebraska Ag Use Motor Fuels Tax Refund Claim, Form 84AG. Claims may be submitted whenever the motor fuels tax claimed exceeds $25 within a calendar year. The minimum must be met within a calendar year for each fuel type claimed.

**Aircraft Fuels Tax**

Aircraft fuels are subject to an excise tax imposed upon aircraft fuels purchased for and used in aircraft within the State of Nebraska. Aircraft fuels include aviation gasoline, jet fuel, or any other fuel used and consumed exclusively for the purpose of propelling aircraft. Aviation gasoline is taxed at five cents per gallon, and aviation jet fuel is taxed at three cents per gallon.

Reporting and remitting of the aircraft fuels tax is done by businesses licensed as a supplier, distributor, wholesaler, importer, or exporter. Retailers, while licensed, are not required to file reports. Instead, they are subject to field record reviews. Liquid fuel carrier licenses and terminal operator licenses are required for businesses involved in the movement of aircraft fuels in the State of Nebraska. The proper license is obtained by completing a Nebraska Motor Fuels License Application, Form 20MF.

The aircraft fuels tax is administered in the same manner as the tax on motor vehicle fuels with regard to the point of taxation and exemptions.

**Compressed Fuel Tax**

The Nebraska compressed fuel tax is an excise tax imposed on retail sales of compressed fuel being placed in a licensed motor vehicle, or to an end user who intends to use the fuel by placing it in a licensed motor vehicle. Compressed fuel includes compressed natural gas, liquefied petroleum gas, liquefied natural gas, and any other compressed fuel used to power a motor vehicle. Persons required to be licensed as compressed fuel retailers are those who are engaged in the business of selling or otherwise providing compressed fuel to consumers of the fuel for use in a motor vehicle. A retailer who has equipment capable of dispensing compressed fuel into a motor vehicle must also be licensed as a compressed fuel retailer. The proper license is obtained by completing a Nebraska Motor Fuels License Application, Form 20MF.

[1]*Under the authority of Neb. Rev. Stat. § 66-741, agreements are in effect with the Winnebago Tribe, the Santee Sioux Tribe, and the Omaha Tribe, which eliminate this exemption on their reservations. These agreements provide that the tribes will collect a tribal tax equivalent to the Nebraska motor fuels tax on all reservation retail pump sales. It further provides that the tribes and the State of Nebraska share the motor fuels tax revenue in accordance with the negotiated apportionment. These agreements extend to all products subject to the Nebraska motor fuels tax.*

Compressed fuel is taxed at the same rate as motor vehicle and diesel fuels. Purchases of compressed fuel to be placed in licensed motor vehicles by the U.S. Government, and purchases made in Indian country by a Native American that resides in Indian country in Nebraska, are exempt from the compressed fuel tax[1].

## Exemptions

**Statutory citation:** 14-1810 and 18-819
**Description:** Motor vehicle, compressed, and diesel fuels sold to and used in the operations of a metropolitan transit authority are exempt from tax.
**Estimate:** $110,000

**Statutory citation:** 66-4,103 and 66-4,116
**Description:** Exempts foreign or interstate commerce from motor fuels tax.
**Estimate:** NA (State taxation prohibited)

**Statutory citation:** 66-489
**Description:** Natural gasoline (and gasoline products effective August 1, 2024) purchased by producers for use as denaturant.
**Estimate:** $10,650,000

**Statutory citation:** 66-489
**Description:** Federal law prohibits the state from taxing the U.S. Government or its agencies on their motor fuel purchases.
**Estimate:** $470,000 (State taxation prohibited)

**Statutory citation:** 66-495
**Description:** Undyed diesel fuel used in the operation of temperature control units or power take-off units may be purchased tax-free, if the fuel is purchased in quantities of 50 gallons or less and placed directly into the supply tank of an engine not connected to the main supply tank of a licensed motor vehicle. The consumer of the fuel must submit an approved exemption certificate to the retailer and must also pay applicable sales tax.
**Estimate:** Minimal

## Deductions

**Statutory citation:** 66-486
**Description:** A motor vehicle fuel producer, supplier, distributor, wholesaler, or importer can deduct a commission of 5% of the first $5,000 of tax, and 2.5% of all amounts over $5,000 of tax remitted each month.
**Estimate:** $6,900,000

**Statutory citation:** 66-486, 3-148, and 3-149
**Description:** An aircraft fuel supplier, distributor, wholesaler, or importer can deduct a commission of 5% of the first $5,000 of tax, and 2.5% of all amounts over $5,000 of tax remitted each month.
**Estimate:** $58,000

**Statutory citation:** 66-486
**Description:** A diesel fuel producer, supplier, distributor, wholesaler, or importer can deduct a commission of 2% of the first $5,000 of tax, and 0.5% of all amounts over $5,000 of tax remitted each month.
**Estimate:** $880,000

**Statutory citation:** 66-6,113
**Description:** A compressed fuel retailer can deduct a commission of 2% of the first $5,000 of tax, and 0.5% of all amounts over $5,000 of tax remitted each tax period.
**Estimate:** $10,000

## Credits and Refunds

**Statutory citation:** 66-489
**Description:** Motor fuels sold and used in buses equipped to carry more than seven persons for hire and engaged entirely in the transportation of passengers for hire within municipalities or within a radius of six miles.
**Estimate:** $130,000

**Statutory citation:** 66-489 and 66-741
**Description:** Diesel, compressed, and motor vehicle fuels sold in Indian country, as defined by federal law, to a Native American Indian residing in Indian country. This exemption does not apply to retail pump sales made on the Winnebago, Santee Sioux, and Omaha Reservations per agreements between the tribes and Nebraska (see footnote1 of Section N, page 2).
**Estimate:** Minimal

**Statutory citation:** 66-726
**Description:** Refund of motor fuels tax which was paid on fuel
**Estimate:**

| | | |
|---|---|---|
| 1) Destroyed | - | Minimal |
| 2) Sold in a state outside Nebraska | - | Minimal |
| 3) Agricultural, quarrying, industrial, or other non-highway use | - | $1,180,000 |

**Statutory citation:** 66-726
**Description:** Refund of aircraft fuels tax which was paid on fuel:
**Estimate:**

| | | |
|---|---|---|
| 1) Destroyed | - | Minimal |
| 2) Sold in a state outside Nebraska | - | Minimal |

**Statutory citation:** 3-150
**Description:** Any person who buys and uses aviation fuels for use in an FAA approved air school is entitled to a refund of the amount of tax paid.
**Estimate:** Minimal

## Preferential Tax Rates

**Statutory citation:** 3-148
**Description:** Aviation gasoline is subject to a tax of five cents per gallon; aviation jet fuel is subject to a tax of three cents per gallon.
**Estimate:** $1,660,000

# Section O — Motor Vehicle Registration and Licensing Fees

## Basic Provisions and Tax Base

Motor vehicles, trailers, semi-trailers, or cabin trailers operated on Nebraska highways must be registered and have specified fees paid as directed by the Nebraska statutes. Every snowmobile operated in Nebraska must also be registered.

The **Highway Trust Fund** is credited with:

1. All registration fees collected by county treasurers, except as provided in §§ 60-3,156, 39-2215(3), and 60-3,141;
2. 64% of all registration fees collected for apportioned vehicles (§ 60-3,202);
3. Up to $4.20 per plate fee as set by the Nebraska Department of Motor Vehicles (DMV) (§ 60-3,102);
4. The amount of unladen weight registration fees (§ 60-3,198[10]);
5. All single plate decal fees collected by county treasurers (§ 60-3,100);
6. A portion of all personalized message plate fees (§ 60-3,119);
7. A portion of all Nebraska Cornhusker Spirit Plate fees (§ 60-3,128);
8. A portion of all special interest specialty plate fees (§ 60-3,135.01); and
9. A portion of all organizational license plate fees (§ 60-3,104.01).

The **Highway Cash Fund** is credited with the amount of registration fees collected from:

1. Trip permits issued via the DMV online permit system (§ 60-3,198 [10]);
2. Permanent plate fees for apportioned vehicles (§ 60-3,203);
3. Grain hauling permits (§ 60-3,112);
4. Nonresident carnival operator permits (§ 60-384); and
5. Local trucks operating beyond their specified limits for the purpose of equipping, modifying, or servicing the truck (§ 60-3,110).

The DMV Cash Fund is credited with $2 from each registration issued; a portion of the fees collected from the sale of personalized message plates, Nebraska Cornhusker Spirit plates, Gold Star Family message plates, special interest motor vehicle plates, organizational plates, mountain lion conservation message plates, breast cancer awareness message plates, Native American Cultural Awareness and History message plates, choose life message plates, military honor message plates, Sammy's Superheroes message plates, donate life message plates, Down Syndrome awareness message plates, the good life is outside message plates, vets get pets message plates, prostate cancer awareness message plates, support the arts message plates, support our troops message plates, wildlife conservation message plates, Josh the Otter-Be Safe Around Water message plates, and Nebraska history message plates. 25% of the net registration fees obtained from snowmobile registrations is credited to the State General Fund. The Nebraska Snowmobile Trail Cash Fund is credited with 75% of the net registration fees obtained from snowmobile registrations.

The International Registration Plan Distributive Fund is credited with fees obtained from owners operating fleets of apportionable commercial motor vehicles in Nebraska for interstate commerce who, in lieu of general registration, register and license their fleet under the prorate provision contained in the statutes.

The International Fuel Tax Agreement (IFTA) program is administered by the DMV, Division of Motor Carrier Services.

Motor vehicle fees and taxes are collected by county officials and administered by the DMV.

# Exemptions

**Statutory citation:** 60-339

**Description:** The following are not included in the definition of motor vehicles and are therefore exempt from registration fees:

- mopeds;
- farm tractors;
- self-propelled equipment designed and used exclusively to carry and apply fertilizer, chemicals, or related products to agricultural soil and crops;
- other implements of husbandry designed for and used primarily for tilling the soil,
- harvesting crops, or feeding livestock;
- vehicles which run only on rails or tracks;
- off-road designed vehicles including, but not limited to, golf carts, go-carts, riding lawn mowers, garden tractors, all terrain vehicles, utility-type vehicles, snowmobiles, and mini bikes;
- road, general purpose construction, and maintenance machinery not designed or used primarily for the transportation of persons or property including, but not limited to, ditch digging apparatus, asphalt spreaders, bucket loaders, leveling graders, earth moving carryalls, power shovels, earth moving equipment, and crawler tractors;
- self-propelled chairs used by persons who are disabled;
- electric personal assistive mobility devices; and,
- bicycles.

**Estimate:** Not Available

**Statutory citation:** 60-366 **and** 60-367

**Description:** A nonresident owner operating a foreign vehicle in Nebraska is not required to register this vehicle or pay any fees if the car has been properly registered in the foreign state and the number plates are displayed while in operation. However, any nonresident owner whose passenger car is operated in Nebraska for 30 or more days must register this car in the same manner as a Nebraska resident, unless the state of his or her residence grants immunity from these requirements to residents of Nebraska operating a passenger car in that state.

**Estimate:** Not Available

**Statutory citation**: 60-373

**Description:** Each licensed dealer in motor vehicles or dealer in trailers doing business in Nebraska, instead of registering each motor vehicle or trailer which the dealer owns that is a type otherwise required to be registered, or any employee of such dealer, may: (a) operate or move the motor vehicle upon the streets and highways of Nebraska solely for purposes of transporting, testing, demonstrating, or using it the ordinary course and conduct of his or her business as a motor vehicle or trailer dealer, including the personal or private use of the dealer, and including the personal or private use of any bona fide employee, or for transporting industrial equipment held by the licensee for purposes of demonstration, sale, rental, or delivery; or (b) sell the motor vehicle without registering each motor vehicle or trailer if dealer number plates are displayed on the vehicle.

Each licensed manufacturer who manufactures or assembles motor vehicles, motorcycles, or trailers, in lieu of the registering of each motor vehicle or trailer which the manufacturer owns which is a type otherwise required to be registered, or any employee of the manufacturer, may operate or move the motor vehicle upon the streets and highways of Nebraska solely for purposes of transporting, testing, demonstrating to prospective customers, or using it the ordinary course and conduct of business as a motor vehicle, motorcycle, or trailer manufacturer, upon the condition that the dealer number plates be displayed on the vehicle. Finance companies licensed to do business in Nebraska may, in lieu of registering each motor vehicle or trailer repossessed, make an application for a repossession certificate and one repossession plate for a fee of $10.

Any transporter doing business in Nebraska may, in lieu of registering each motor vehicle or trailer which the transporter is transporting, make an application to the DMV for a transporter's certificate and one transporter number plate for a fee of $10.

**Estimate:** Not Available

**Statutory citation:** 60-368

**Description:** Nonresidents, certified by the Nebraska Department of Labor as being engaged in temporary agricultural employment within Nebraska, are exempt from licensing passenger vehicles for 60 days, provided the vehicle is duly licensed in their state of residence.

**Estimate:** Not Available

**Statutory citation:** 60-3,160

**Description:** No registration fee is collected on any motor vehicle owned by any city or village of Nebraska used in connection with police, street, public transportation, park, library, or fire prevention activity, fire trucks owned and used by any rural fire protection district, and motor vehicles owned and operated by the Civil Air Patrol; nor any motor vehicle owned and used by any public school district, county, state, or U.S. government, municipal public body, or authority used in operating a public passenger transportation system.

**Estimate:** $2,450,000

**Statutory citation:** 60-3,185

**Description:** In addition to the registration fees provided by Chapter 60, article 3, and the motor vehicle fee imposed in § 60-3,190, a motor vehicle tax is imposed on motor vehicles registered for operation upon the highways of Nebraska except: (1) Motor vehicles exempt from the registration fee in § 60-3,160; (2) One motor vehicle owned and used for his or her personal transportation by a disabled or blind honorably discharged veteran of the U.S. Armed Forces as defined in § 77-202.23 whose disability or blindness is recognized by the U.S. Department of Veterans Affairs if an application for the exemption has been approved under subsection (1) of § 60-3,189; (3) Motor vehicles owned by Indians as defined in 25 U.S.C. 479; (4) Motor vehicles owned by a member of the U.S. Armed Forces serving in Nebraska in compliance with military or naval orders or his or her spouse if this person is a resident of a state other than Nebraska; (5) Motor vehicles owned by the state and its governmental subdivisions and exempt as provided in subdivision (1)(a) of § 77-202; and (6) Motor vehicles owned and used exclusively by an organization or society qualified for a tax exemption provided in subdivision (1)(b) or (1)(c) of § 77-202 if an application for the exemption provided in this subdivision has been approved under subsection (2) of § 60-3,189.

**Estimate:** Not Available

**Statutory citation:** 60-3,185(4) **(Soldiers' and Sailors' Civil Relief Act)**

**Description:** This federal act allows nonresident military personnel stationed at a military base or his or her spouse in Nebraska, or in one of the various recruiting services, to obtain tax-free license plates. These motor vehicles are only exempt from the motor vehicle tax and fee; the registration fee and sales tax must be paid.

**Estimate:** Not Available (Federal law prohibits state taxation)

# Credits

**Statutory citation:** 60-398
**Description:** A nonresident may, if he or she applies within 90 days from the original registration date and surrenders the registration certificate and the license which were assigned, receive a refund in the amount of 50% of the original license fee; except no refund will be made on any license surrendered after the ninth month of the registration period for which the vehicle was registered.
**Estimate:** Not Available

**Statutory citation:** 60-3,198(8)
**Description:** A Nebraska-based fleet owner may file an application with the DMV to delete a registered motor vehicle from a fleet of registered motor vehicles because the vehicle is disabled and has been removed from service, and return the registration certificate or certificates. The fleet owner receives a credit for that portion of the registration fee deposited in the Highway Trust Fund based upon the number of unexpired months remaining in the registration year.
**Estimate:** Not Available

**Statutory citation:** 60-3,200
**Description:** Whenever a motor vehicle has been registered by the owner under the provisions of § 60-362, the motor vehicle taxes imposed in § 60-3,185,and the motor vehicle fee imposed in § 60-3,190 have been paid on that motor vehicle for the registration period, and the motor vehicle is registered under the prorate provisions of § 60-3,198, the DMV, upon application of the owner of the motor vehicle, is to certify that the motor vehicle owner is entitled to receive the refund of the unused registration fees, motor vehicle taxes, and motor vehicle fees for the registration period.
**Estimate:** Not Available

**Statutory citation:** 60-395
**Description:** The registered owner of a motor vehicle or cabin trailer which is sold or lost due to fire, theft, dismantlement, junking, or when a salvage certificate of title is issued, may, or whenever a type or class of motor vehicle previously registered is subsequently declared by legislative act or court decision to be illegal or ineligible to be operated on the public roads and no longer subject to registration fees or taxes, or in case of a change in the tax situs of a motor vehicle to a location outside of Nebraska, may, by returning the registration certificate, the number plates and renewal tabs, and after making an affidavit to the county treasurer of such transfer of loss, receive a refund of that part of the unused fees on passenger vehicles, trucks, and cabin trailers based on the number of unexpired months remaining in the registration period. The registered owner must make claim for refund or credit within 60 days from the date of the event. The date of the event will be the date of the transfer or loss, the date of registration in another state, the effective date of the legislative act, or the date the court decision is rendered.
**Estimate:** Not Available

**Statutory citation:** 60-396
**Description:** Whenever the registered owner files an application with his or her county treasurer showing that a motor vehicle is disabled and has been removed from service, the registered owner may, by returning the registration certificate, number plates, and when appropriate, the renewal tabs, or if these are unavailable, then by making an affidavit to the treasurer of the disablement and removal from service, receive a credit for a portion of the registration fee from the fee deposited with the State Treasurer at the time of registration based upon the number of unexpired months remaining in the registration year.
**Estimate:** Not Available

# Preferential Tax Rates

**Statutory citation:** 60-3,198
**Description:** Any owner engaged in operating a fleet of apportionable vehicles in Nebraska in interstate, commerce may, in lieu of registration of these vehicles under the general provisions of §§ 60-301 to 60-3,220, register and license this fleet for operation in Nebraska by filing a sworn statement and the application required by § 60-3,203 with the DMV. Upon receiving of this statement and application, the DMV will determine the total fee payment which is equal to the amount of fees due pursuant to § 60-3,203 and the amount obtained by applying the proportion of in-state fleet miles to total fleet miles, as reported in these states, to a fee of $35 per ton based upon gross vehicle weight of the empty weights of any trailer, semi-trailer, or combination with which it is to be operated in combination at any one time, plus the weight of the maximum load to be carried at any one time. The registered vehicles are exempt from all further registration and license fees under §§ 60-301 to 60-3,220 for operating in the State of Nebraska, except as provided in § 60-3,203.
**Estimate:** Not Available

**Statutory citation:** 60-3,145
**Description:** Local vehicles operated solely within a ten-mile radius of an incorporated city or village's corporate limits must pay a registration fee of 30% of the regular commercial registration, but never less than $18.
**Estimate:** $64,673

**Statutory citation:** 60-3,146
**Description:** For farm trucks, except for farm trucks or combinations of trucks or truck-tractors and trailers or semi-trailers having a gross vehicle weight exceeding 16 tons, the registration fee is $18 for up to and including five tons gross vehicle weight. In excess of five tons, the fee is $22. For a truck or a combination of truck or truck-tractor and trailer or semi-trailer, the registration fees are: for a gross weight in excess of 16 tons up to and including 20 tons, $40 plus five dollars for each ton of gross weight over 17 tons; and for gross weight exceeding 20 tons, $65 plus $10 for each ton of gross weight over 20 tons. Fees are based on the combined gross weight as provided in § 60-3,147, but at a reduced rate.
**Estimate:** $32,041,584

**Statutory citation:** 60-3,147(4)(6)
**Description:** Commercial trucks used exclusively for transporting livestock, unprocessed milk, poultry, grain, sugar beets, potatoes, and hay, pay fees at a rate of 10% less than other commercial trucks.
**Estimate:** Not Available

**Statutory citation:** 60-3,149
**Description:** Trucks, truck-tractors, trailers, or semi-trailers which are not for hire, owned by those engaged in soil and water conservation work, and used for the purpose of transporting pipe and equipment used exclusively by these contractors, pay registration fees at one-half of the commercial truck fee rate, but in no case less than the minimum fee of $18.
**Estimate:** $62,418

**Statutory citation:** 60-3,111
**Description:** Special 30-day farm permits at one-twelfth of the commercial truck fee, but never less than $25, can be used by farmers or ranchers for trucks used exclusively to carry their own supplies, farm equipment, and household goods to and from the owner's farm and ranch, and used to carry the owner's agricultural products, livestock, and produce to or from storage or market.
**Estimate:** Not Available

**Statutory citation:** 60-3,151
**Description:** Trailers in Nebraska are registered and pay differing fees depending upon their classification:

- **Utility trailer** - $1 per 1,000 pounds of gross weight up to 9,000 pounds;
- **Farm trailer** - $1 regardless of weight;
- **Fertilizer trailer** - $1 regardless of weight, or $3 per ton when the registration weight is to a separate unit;
- **Commercial trailer or semi-trailer** - $1 regardless of weight; and
- **Pole and cable reel trailer** - $2 per 1,000 pounds of gross weight up to 16,000 pounds.

**Estimate:** Not Available

**Statutory citation:** 60-3,151
**Description:** Recreational vehicles are registered and pay differing fees depending upon their classification:

- **Self-propelled mobile home -**
  - 8,000 pounds or less = $18
  - 8,001 – 11,999 pounds = $30
  - 12,000 pounds and over = $42
- **Cabin trailers without motive power –**
  - 1,000 pounds or less = $9
  - 1,001 – 1,999 pounds = $12
  - 2,000 pounds and over = $15

**Estimate:** Not Available

**Statutory citation:** 60-3,155
**Description:** Well-boring apparatus pay a registration fee of one-twelfth of the regular commercial registration fee.
**Estimate:** $385,351

# Section P — Oil and Gas Severance Tax and Oil and Gas Conservation Tax

## Basic Provisions and Tax Base

The severance tax is levied at the rate of 3% of the value of non-stripper oil and natural gas severed from the soil of Nebraska and 2% of the value of stripper oil severed from the soil of Nebraska. The tax is paid by the first purchaser if the oil or natural gas is sold in Nebraska, or by the person doing the severing if the oil or natural gas is sold outside Nebraska. The tax collected is identified either as coming from school lands or from all other lands. The entire amount is credited to the Severance Tax Fund.

The Severance Tax Administration Fund receives 1% of the gross severance tax receipts, excluding those receipts from tax derived from oil and natural gas severed from school lands. The balance of the Severance Tax Fund received from school lands is credited to the Permanent School Fund. The balance of the Severance Tax Fund received from other than school lands is allocated as follows:

(a) The Legislature may transfer an amount to be determined by the Legislature through the appropriations process up to $300,000 for each year to the State Energy Office Cash Fund;

(b) The Legislature may transfer an amount to be determined by the Legislature through the appropriations process up to $30,000 for each year to the Public Service Commission for administration of the Municipal Rate Negotiations Revolving Loan Fund; and

(c) The remainder is credited to the Permanent School Fund.

In addition to the severance tax, the value of oil or gas is subject to the conservation tax. The conservation tax is levied and assessed in the same manner as the severance tax. The tax is imposed on the value at the well of all oil and gas produced, saved, and sold or transported from the premises in Nebraska. The producer of the oil or gas pays the tax unless the oil or gas is sold within Nebraska. If the oil or gas is sold in Nebraska, then the first purchaser in Nebraska pays the tax.

The conservation tax rate is set by the Oil and Gas Conservation Commission. Effective May 1, 2022, the tax rate is 0.7% or 7 mills. Revenue from the conservation tax is deposited in the Oil and Gas Conservation Fund.

## Exclusions

**Statutory citation:** 57-702
**Description:** Oil or gas used only in severing operations or for re-pressuring or recycling purposes is excluded from the oil and gas severance tax.
**Estimate:** Not Available

## Exemptions

**Description:** DOR has received an Attorney General's Opinion that interests of governmental units and Native American Indian tribes are exempt from the severance tax.
**Estimate:** $0

## Preferential Tax Rates

**Statutory citation:** 57-701(7) & (8)
**Description:** Oil produced from stripper wells that have a base production level of ten or fewer barrels per day is subject to a severance tax of 2% rather than 3%.
**Estimate:** Minimal

# Section Q — Pari-Mutuel Wagering Tax

## Basic Provisions and Tax Base

A pari-mutuel tax is imposed on the gross amount wagered in excess of $10 million dollars at each horserace track during a calendar year. Any amount wagered over $10 million, but not more than $73 million, is taxed at the rate of 2.5%. Amounts wagered in excess of $73 million are taxed at the rate of 4%.

## Exemptions

**Statutory citation:** 2-1208.01
**Description:** The first $10 million wagered by the pari-mutuel method at every race meeting is not taxed.
**Estimate**: $ 823,000

## Credits

**Statutory citation:** 2-1208.01
**Description:** All licensed race meets, except for race meets conducted at the location where the Nebraska State Fair is held, retain as a credit against the tax, an amount equal to 2% of the first taxable $70 million. Race meets conducted at the location where the Nebraska State Fair is held retain 2.5%. The amount retained is used for capital improvements and maintenance.
**Estimate**: $223,000

# Section R — Public Power and Irrigation Districts' Gross Revenue Tax

## Basic Provisions and Tax Base

Every public corporation and political subdivision in Nebraska, organized primarily to provide electricity, or irrigation and electricity, and which sells electricity at retail within incorporated cities or villages, pays a tax equal to 5% of this gross revenue. A deduction is allowed for in lieu of taxes paid. The in lieu of tax is the dollar amount paid in property taxes to the city or village in calendar year 1957 with respect to its properties in the city or village. In addition, the public power districts are allowed to deduct the city occupation tax from the gross revenue tax.

## Deductions

**Statutory citation:** 70-651.03
**Description:** Public power districts are allowed to deduct from the gross revenue tax remitted to county treasurers an amount equivalent to the amount paid in property taxes to the city or village in calendar year 1957.
**Estimate:** $1,119,636[1]

**Statutory citation:** 70-651.05
**Description:** Public power districts are allowed to deduct from the gross revenue tax remitted to county treasurers the city occupation tax.
**Estimate:** $ 322,775[1]

[1] *This may not be considered a true tax expenditure since the public power districts still pay the fixed in lieu of taxes and the city occupation taxes in addition to the (net) gross revenue tax (tax amounts are calculated from the 2021 Certificate of Taxes Levied Reports filed by the county assessors).*

# Section S — Waste Reduction and Recycling Incentive Act

## Basic Provisions and Tax Base

The Nebraska Waste Reduction and Recycling Incentive Act imposes a fee of $1 on each tire of every new motor vehicle, trailer, or semi-trailer registered in Nebraska. The fee is collected by the county treasurer at the time of registration, and is remitted to DOR for deposit in the Waste Reduction and Recycling Incentive Fund. This Fund is administered by the Nebraska Department of Environment and Energy.

In addition, a fee of $1 is imposed on every new tire sold at retail for a motor vehicle, trailer, semi-trailer, or farm tractor. The fee is collected by the retailer in the same manner as sales tax and is remitted to DOR for deposit in the Waste Reduction and Recycling Incentive Fund.

The Nebraska Waste Reduction and Recycling Incentive Act imposes an annual waste reduction and recycling fee on all businesses with retail sales of tangible personal property which are subject to the tax. The fee is $25 for each Nebraska location with retail sales of tangible personal property of $50,000 or more.

The Tax Commissioner deducts and withholds from the fees a collection fee to reimburse DOR for the actual cost of collecting and administering the fees. The Legislature appropriates money from this collection fund for DOR to cover the actual costs of administering the program.

## Exemptions

**Statutory citation:** 81-15,159 through 81-15,165
**Description**: A qualified tire does not include: any recapped or re-grooved tire; any new tire sold specifically for use on off-road vehicles (e.g., bicycles, golf carts, riding lawn-mowers); and farm implements (e.g., plows, disks, wagons, except farm tractor tires, which are subject to the fee).
**Estimate**: Not Available

**Statutory citation:** 81-15,159 through 81-15,165
**Description**: Qualified tires sold for resale purposes.
**Estimate**: $473,000

**Statutory citation:** 81-15,159 through 81-15,165
**Description:** Qualified tires sold and delivered to another state.
**Estimate**: $1,000

**Statutory citation:** 81-15,159 through 81-15,165
**Description:** Qualified tires sold to the federal government and its agencies.
**Estimate**: $3,000

**Statutory citation:** 81-15,159 through 81-15,165
**Description:** Qualified tires sold to Native American Indians if the Native American Indian resides in Indian country, and delivery of the tires takes place in Indian country.
**Estimate**: Included in above (Qualified tires sold for resale purposes)

# Section T — Petroleum Release Remedial Action Fee

## Basic Provisions and Tax Base

The Nebraska Petroleum Release Remedial Action Act imposes a fee upon the producer, importer, refiner, distributor, wholesaler, or supplier who engages in the sale, distribution, delivery, and use of petroleum (motor vehicle fuels, diesel fuels, and aviation fuels) in Nebraska. The fee is $0.009 per gallon on aviation gasoline and motor vehicle fuels, such as gasoline, and $0.003 per gallon on jet fuel and diesel fuels, including dyed diesel.

The revenue raised from this fee is placed in the Nebraska Petroleum Release Remedial Action Cash Fund. Revenues for this fund totaled $11,549,556 for fiscal year 2023-24.

## Exemptions

**Statutory citation:** 66-1510
**Description:** Natural gasoline (and gasoline products effective August 1, 2024) used as a denaturant by a Nebraska ethanol facility.
**Estimate:** $350,000

**Statutory citation:** 66-1521
**Description:** Federal law prohibits the state from taxing the U.S. Government
**Estimate:** $10,000

## Credits

**Statutory citation:** 66-1521
**Description:** Any fee paid on petroleum which was taxed and then exported.
**Estimate:** Minimal

**Statutory citation:** 66-1521
**Description:** Any fee paid on petroleum which was taxed and then sold to a federal agency.
**Estimate:** $8,000

# Section U — Employment and Investment Growth Act, Quality Jobs Act, Invest Nebraska Act, Nebraska Advantage Act, Nebraska Advantage Rural Development Act, Nebraska Advantage Microenterprise Tax Credit Act, and Nebraska Advantage Research and Development Act

## Basic Provisions and Tax Base

For a complete analysis of credits, refunds, and exemptions provided under the above Acts, please refer to the Nebraska Tax Incentives Annual Reports to the Nebraska Legislature prepared by DOR. A copy of this report is provided annually to all members of the Unicameral.

# 2023-2024
# Tax Expenditure Report

Report to the Governor and the Director of the Legislative Counsel Bureau for transmittal to the Legislature and appropriate interim committee or committees of the Legislature: NRS 360.137

Prepared and compiled by the *Nevada Department of Taxation*

4206/8585

# Introduction

During the 77th Nevada Legislative Session, Assembly Bill 466 (AB 466) was enacted, requiring the Executive Director of the Department of Taxation to prepare and deliver a report of tax expenditures to the Governor and the Legislature in November of each even-numbered year. This, the sixth edition of the report, covers tax expenditures for the 2023-2024 biennium.

AB 466 was codified as follows:

**NRS 360.137 Duty of Executive Director to submit tax expenditure report; contents; requests for information.**

1. On or before November 10 of each even-numbered year, the Executive Director shall submit a tax expenditure report to the Governor and the Director of the Legislative Counsel Bureau for transmittal to the Legislature and the appropriate interim committee or committees of the Legislature.
2. The report required by subsection 1 must provide, for each tax expenditure:
   (a) A description of the tax expenditure;
   (b) The year in which the tax expenditure was enacted;
   (c) The purpose for which the tax expenditure was enacted;
   (d) A summary of any amendments to the tax expenditure since it was enacted;
   (e) To the extent that pertinent information is available, estimates of:
      (1) The fiscal impact to this State and local governments of the tax expenditure during each fiscal year of the biennium in which the report is prepared;
      (2) The number of taxpayers receiving benefit from the tax expenditure; and
      (3) The revenue that would result from repeal of the tax expenditure; and
   (f) A statement of:
      (1) Any pertinent information which is not available to prepare the estimates required by paragraph (e); and
      (2) The reasons for the unavailability of that information.
3. Each agency, bureau, board, commission, department, division, office and other governmental entity of the State of Nevada, each county treasurer and county assessor and each entity receiving the benefit of a tax expenditure, shall respond fully and appropriately to any request for information made by the Executive Director for use in the report required by this section not later than 30 days after such a request is made, to the extent that the requested information is not confidential, privileged or otherwise protected from disclosure by any provision of state or federal law.
4. As used in this section, "tax expenditure" means any law of this State that exempts, in whole or in part, certain persons, income, goods, services or property from the impact of established taxes, including, without limitation, tax abatements, tax credits, tax deductions, tax deferrals, tax exemptions, tax exclusions, tax subtractions and preferential tax rates.

## Purpose of the Tax Expenditure Report

The purpose of this report is to provide information that will allow the public and policy makers to identify and analyze tax expenditures and to periodically make criteria-based decisions on the efficiency and fairness of existing tax expenditures and whether they should be continued. Tax expenditures provide special benefits to certain individuals or businesses by relieving them of paying a particular tax or a portion of the tax.

The tax expenditure categories that are included in this report, as required by statute are:

- Tax deductions
- Tax abatement
- Tax credits
- Tax deferrals
- Tax exemptions
- Tax exclusions
- Tax subtractions, and
- Preferential tax rates.

## How the Report is Organized

This report has been designed to allow for a quick overview of Nevada's current tax expenditures. It is organized alphabetically by tax type (the taxes that expenditures are associated with). For example, all expenditures associated with Property Tax will be grouped in the "Property Tax" section. The "Property Tax" section can be found by looking alphabetically in the Table of Contents. Additionally, the back of the report contains an index which groups the tax expenditures by category (e.g., deductions, credits, etc.). The online version of the report is a Portable Document Format (PDF) that can be searched using key terms.

With the exception of Commerce Tax deductions, which are combined and attached to the back of this report, each tax expenditure appears on its own page and contains the following information:

Tax Type
The type of tax to which the expenditure applies (e.g., Property Tax).

Expenditure Name
The summary, descriptive name of the tax expenditure.

Category
The category of the expenditure: deduction, abatement, credit, deferral, exemption, exclusion, subtraction, or preferential rate.

Agency
The government agency responsible for administration.

Division (if applicable)
The Division within the agency responsible for administration.

Description
Brief summary of how the expenditure is intended to apply, drawn from the statute that enacted the expenditure.

Year Enacted
The year the tax expenditure was enacted into law.

Sunset Date
The date the tax expenditure is set to expire.

Purpose
The legislative intent of the expenditure (interpretation of intent is not provided if the intent was not made clear in statute).

Who Benefits
Where possible, provides information about the beneficiaries of the tax expenditure. This was determined using the number of taxpayers who filed returns for a specific tax type or by using a number derived from analysis of economic data or data provided by sources that implement the expenditure.

NRS or NAC
The Nevada Revised Statute (NRS) or Nevada Administrative Code (NAC) that governs the tax expenditure.

*All applicable NRS and NAC can be found at http://www.leg.state.nv.us.*

Summary of Amendments
A summary of each time the provision has been amended by the Legislature.

*To see the legislative history, access the online version of the Nevada Revised Statutes and click on the relevant link following the statutory provision. If no link is available, please contact the Nevada Research Library for information on how to conduct legislative history research.*

Fiscal Year 2023 Expenditures/Fiscal Year 2024 Expenditures
These tables contain information on who benefits from the expenditure, the number of taxpayers receiving the benefit, and the total expenditure amount by fiscal year.

## Considerations

The revenue impact of a tax expenditure is intended to measure indirect "spending" through the tax system with respect to that one provision or, alternatively, the amount of relief or subsidy being provided through that provision. The dollar impact is *not* the amount of revenue that could be gained by repealing the tax expenditure. There are four primary reasons for this:

- Many tax expenditures are taken over a period of years and can also be carried forward if there is insufficient tax liability to offset. In these cases, even if the tax expenditure were eliminated, there would remain some unused multi-year and carried-forward tax expenditures that could be claimed over time.
- The estimates do not incorporate behavioral changes that may occur if a tax expenditure were eliminated.
- Each provision is estimated independently. A tax expenditure beneficiary may qualify for a tax reduction under more than one law.
- Government may not be able to collect the full liability for some tax expenditures for administrative reasons.

For these reasons, and because tax expenditures interact with each other and the rest of the tax system, caution should be used when summing the revenue impacts.

Finally, where available, the amount of the expenditure is pulled from the taxpayer-filed returns, which include reporting for the expenditure. If no reporting data is available, in some cases, estimates for certain Sales and Use Tax exemptions were made based on aggregated federal data. As of the date of this report, data for those estimates were not yet available for Fiscal Year 2024. Accordingly, the report does not contain estimates for certain Sales and Use Tax expenditures for Fiscal Year 2024. Additionally, for many tax types, no data are available because the taxpayer is not required to report its exemptions and no reliable data exist to form an estimate as to the value of the expenditure.

If no data were available for the amount of the expenditure, the report data page will state the reason for the unavailability. If the expenditure amount was based on economic estimates, that will be indicated on the report data page.

## Definitions of Expenditure Categories

**Abatement/deferral:** A reduction in the level of tax due by an individual or company for a specific period. Examples of abatement include a decreased tax rate.

**Subtraction:** An amount that can be subtracted before calculating the amount of tax due to the state. An example of this is the collection allowance that is subtracted on the Sales/Use Tax return.

**Credit**: An amount of money that a taxpayer can take as a credit against the amount of tax that is owed to the state. An example of this is the credit for a home office or regional home office for insurance companies in Nevada.

**Deduction:** A deduction from gross income, wages, or revenue that arises due to various types of expenses incurred by a taxpayer. Tax deductions are removed from the tax base and thus

lower the overall tax-expense liability. An example of this is the amount of qualifying healthcare wages that can be deducted from gross wages when calculating the Modified Business Tax.

**Exclusion:** A rule that sets aside certain types of income as nontaxable. There are many types of income that qualify under this rule, such as life insurance death benefit proceeds, child support, welfare, and municipal bond income.

**Exemption:** To be free from, or not subject to, taxation by regulators or government entities. A tax exemption may apply to a single or multiple taxation laws, or to a specific location. For example, a bank with only one branch location in a county is exempt from the Bank Excise Tax. If a bank has multiple branches in a county, then one location is exempt from the excise tax.

**Preferential Tax Rate:** Preferential tax treatment by means of different tax rates for the types of businesses that are engaged in business in Nevada.

The expenditure categories can be used interchangeably by definition. For this reason, the category assigned to each expenditure was either found in statute or in a similar expenditure.

## Summary of 2023-2024 Report Findings

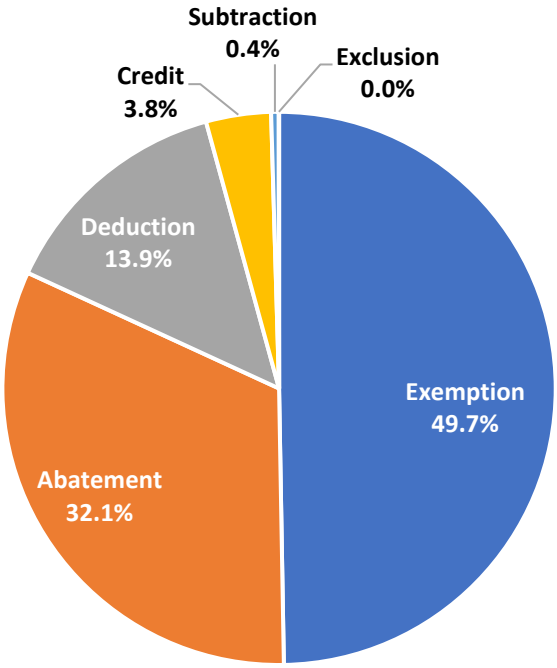
In aggregate, there are 267 tax expenditures over 21 tax types. The combined known or estimated expenditure amount for the 2023-24 biennium is **$9,111,694,254**. The combined amount is composed of **$4,360,262,477** in expenditures claimed or reported in Fiscal Year 2023, and **$4,751,431,777** in expenditures in Fiscal Year 2024 (total may differ due to rounding).

Tables and charts detailing these amounts broken out by both expenditure category and by tax type are below.

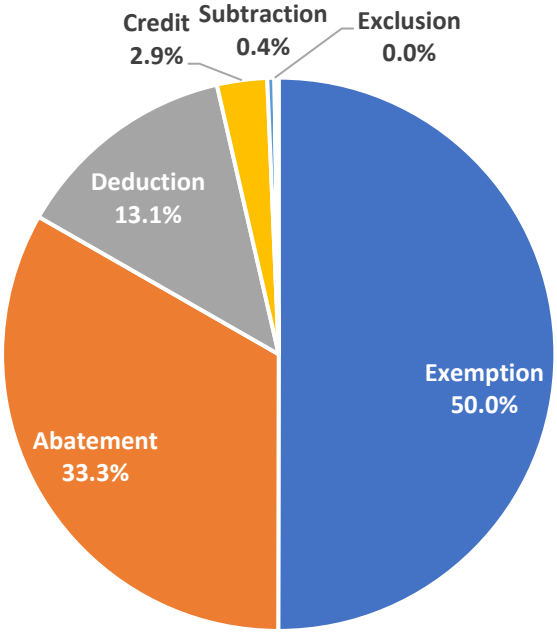
**Expenditures by Category**

| Expenditure Category | FY2023 Expenditures | FY2024 Expenditures | FY23-24 Biennium Total |
|---|---|---|---|
| Exemption | $2,168,226,663 | $2,376,937,362 | $4,545,164,026 |
| Abatement | $1,401,365,792 | $1,580,232,569 | $2,981,598,361 |
| Deduction | $605,289,507 | $623,649,379 | $1,228,938,886 |
| Credit | $165,266,068 | $139,174,065 | $304,440,133 |
| Subtraction | $19,268,031 | $19,762,617 | $39,030,648 |
| Exclusion | $846,415 | $1,006,477 | $1,852,891 |
| Preferential Tax Rate | $- | $10,669,308 | $10,669,308 |
| **Total** | **$4,360,262,477** | **$4,751,431,777** | **$9,111,694,254** |

## FY2023 Expenditures by Category



## FY2024 Expenditures by Category



**Expenditures by Tax Type**

| Tax Type | FY2023 Expenditures | FY2024 Expenditures | FY23-24 Biennium Total |
|---|---|---|---|
| Property Tax | $2,090,722,157 | $2,608,564,062 | $4,699,286,219 |
| Sales and Use Tax | $1,192,656,374 | $986,186,419 | $2,178,842,793 |

## Tax Type: Fuel Tax

**Expenditure Name: Special mobile equipment exemption** **Category: Exemption**

**Agency:** Department of Motor Vehicles **Division:** Motor Carrier Division/Fuel Industry

**Description:** The sale or use of special fuel for any purpose other than to propel a motor vehicle upon the public highways of Nevada is exempt from the application of the tax imposed by NRS 366.190. The exemption provided in this subsection applies only in those cases where the purchasers or the users of special fuel establish, to the satisfaction of the Department, that the special fuel purchased or used was used for purposes other than to propel a motor vehicle upon the public highways of Nevada.
Special mobile equipment includes every motor vehicle not designed or used primarily for the transportation of persons or property, and only incidentally operated or moved upon a highway. The term includes scoopmobiles, forklifts, ditch-digging apparatus, well-boring apparatus and road construction and maintenance machinery such as asphalt graders, bituminous mixers, bucket loaders, tractors other than truck tractors, leveling graders, finishing machines, motor graders, road rollers, scarifiers, earth-moving carryalls and scrapers, power shovels and draglines, and earth-moving equipment. NRS 366.085.

**Year Enacted:** 1953 **Sunset Date:** None

**Purpose:** Legislative intent not defined in statute

**Who Benefits:** Special fuel user

**NRS:** 366.200 (5)

**Summary of Amendments:** Amended in the following year (s): [Part 3:364:1953; A 1955, 425]—NRS A 1957, 602; 1971, 87; 1983, 1944; 1995, 2411; 2001, 853

## Tax Type: Tobacco Tax

**Expenditure Name: Allowance of refund for certain taxes paid** **Category: Credit**

**Agency:** Department of Taxation **Division:**

**Description:** A refund or credit must be allowed for taxes paid upon products made from tobacco other than cigarettes, that are sold to the United States Government for the purposes of the Armed Forces and shipped to a point within Nevada to a place lawfully ceded to the United States Government for the purposes of the Armed Forces. This includes military bases, veterans hospitals, Indian reservations.

This expenditure also includes credits allowed for taxes paid on product shipped out of state, pursuant to NRS 370.490(2).

Beginning January 1, 2020, this expenditure also includes credits allowed for taxes paid on product purchased by a person who holds a current, valid registration certificate to operate a medical marijuana establishment pursuant to chapter 453A of NRS, pursuant to NRS 370.054(3)(c).

In addition to the credits for taxes paid on product that falls under these exemptions, the total reduction in taxes paid due to these exemptions is also included.

**Year Enacted:** 1991 **Sunset Date:** None

**Purpose:** Legislative intent not defined in statute

**Who Benefits:** Other tobacco product wholesalers

**NRS:** 370.503

**Summary of Amendments:** NRS 370.503 added to NRS by 1991, 2280; A 2009, 66; 2015, 2499

## Tax Type: Tobacco Tax

**Expenditure Name: Premium cigars preferential rate** **Category: Preferential Tax R**

**Agency:** Department of Taxation **Division:**

**Description:** There is a tax upon the purchase or possession of other tobacco products (OTP) of 30% of the wholesale price unless the other tobacco products are premium cigars. If 30 percent of the wholesale price of the premium cigar products is:
(1) Greater than 50 cents for each premium cigar, the tax imposed shall be 50 cents for each premium cigar.
(2) Less than 30 cents for each premium cigar, the tax imposed shall be 30 cents for each premium cigar.

**Year Enacted:** 2023 **Sunset Date:** 6/30/2027

**Purpose:** Legislative intent not defined in statute

**Who Benefits:** Other tobacco product wholesalers

**NRS:** 370.450 (1)(b)

**Summary of Amendments:** Added to NRS by 1983, 707; A 1997, 1504; 2001, 1596; 2003, 20th Special Session, 19; 2007, 911; 2008, 25th Special Session, 19; 2009, 2097; 2015, 2497; 2019, 636; 2023, 3353

| Fiscal Year 2024 Expenditures | | |
|---|---|---|
| **Beneficiary Category** | **# Receiving Benefit** | **Expenditure Amount** |
| Business | 58 | $4,640,741.58 |
| **Fiscal Year Total:** | **58** | **$4,640,741.58** |

2024 - Expenditure Explanation: Estimation calculated by applying the 30 percent Other Tobacco Tax rate to the taxpayer reported premium cigar wholesale prices and subtracting the taxpayer reported reductions and tax credits. This calculationdoes not include the possibility of larger reductions and credits resulting from the non-capped tax rate and may or may not be overstated.

## Tax Type: Tobacco Tax

**Expenditure Name:** **Tobacco products other than cigarettes are exempt if shipped out of state or exhibited at a trade show** **Category:** **Exemption**

**Agency:** Department of Taxation **Division:**

**Description:** There is a tax upon the purchase or possession of other tobacco products (OTP) of 30% of the wholesale price unless the OTP is displayed or exhibited at a trade show, convention or other exhibition in the state by a manufacturer or wholesale dealer who is not licensed in Nevada. Effective January 1, 2020, NRS 370.450(2)(b) was moved to NRS 370.450(2)(a), and NRS 370.450(2)(b) further specifies that product acquired free of charge at a trade show, convention or other exhibition or public event in the state, and which did not have significant value as determined by the Department, is also exempted from the tax.

**Year Enacted:** 1983 **Sunset Date:** None

**Purpose:** Legislative intent not defined in statute

**Who Benefits:** Other tobacco product wholesalers

**NRS:** 370.450 (2)(b) *Effective January 1, 2020, expenditure covers NRS 370.450(2)(a)(b)*

Lindsey M. Stepp
Commissioner

September 15, 2025

Her Excellency, Governor Kelly A. Ayotte
And Honorable Council

Dear Governor Ayotte and Honorable Councilors,

It is my pleasure to present the Department of Revenue Administration's (DRA) 2025 annual report, as required by RSA 20:7, to you and the citizens of New Hampshire. This report is intended to provide readers with current insight into the activities of the operational units within the DRA, as well as data regarding the taxes we collect and the municipal finance and assessing laws that we administer.

In addition to useful information regarding revenue statistics and property tax data, this report also highlights DRA's Employee of the Year, communication efforts relative to the repeal of the Interest and Dividends Tax, the Federation of Tax Administrators 2025 Award for Innovation and Excellence for the DRA Timber Tax Educational Campaign, and the upgrade to our Revenue Information Management System (RIMS) software to include many improvements. As always, I am incredibly proud of the work that the DRA performs all year.

Thank you for taking the time to review this annual report. If you have any questions, or if you require any additional information, please do not hesitate to contact me directly.

Sincerely,

Lindsey M. Stepp

Lindsey M. Stepp
Commissioner

# Our Mission

**The mission of the Department of Revenue Administration is to fairly and efficiently administer the tax laws of the State of New Hampshire, collecting the proper amount of taxes due, incurring the least cost to the taxpayers, in a manner that merits the highest degree of public confidence in our integrity. Further, we will provide prompt and constructive assistance to the municipal units of government in matters of budget, finance, and the appraisal of real estate.**

This report is submitted to

Governor Kelly A. Ayotte

And

Members of the Executive Council

District 1 – Joseph D. Kenney

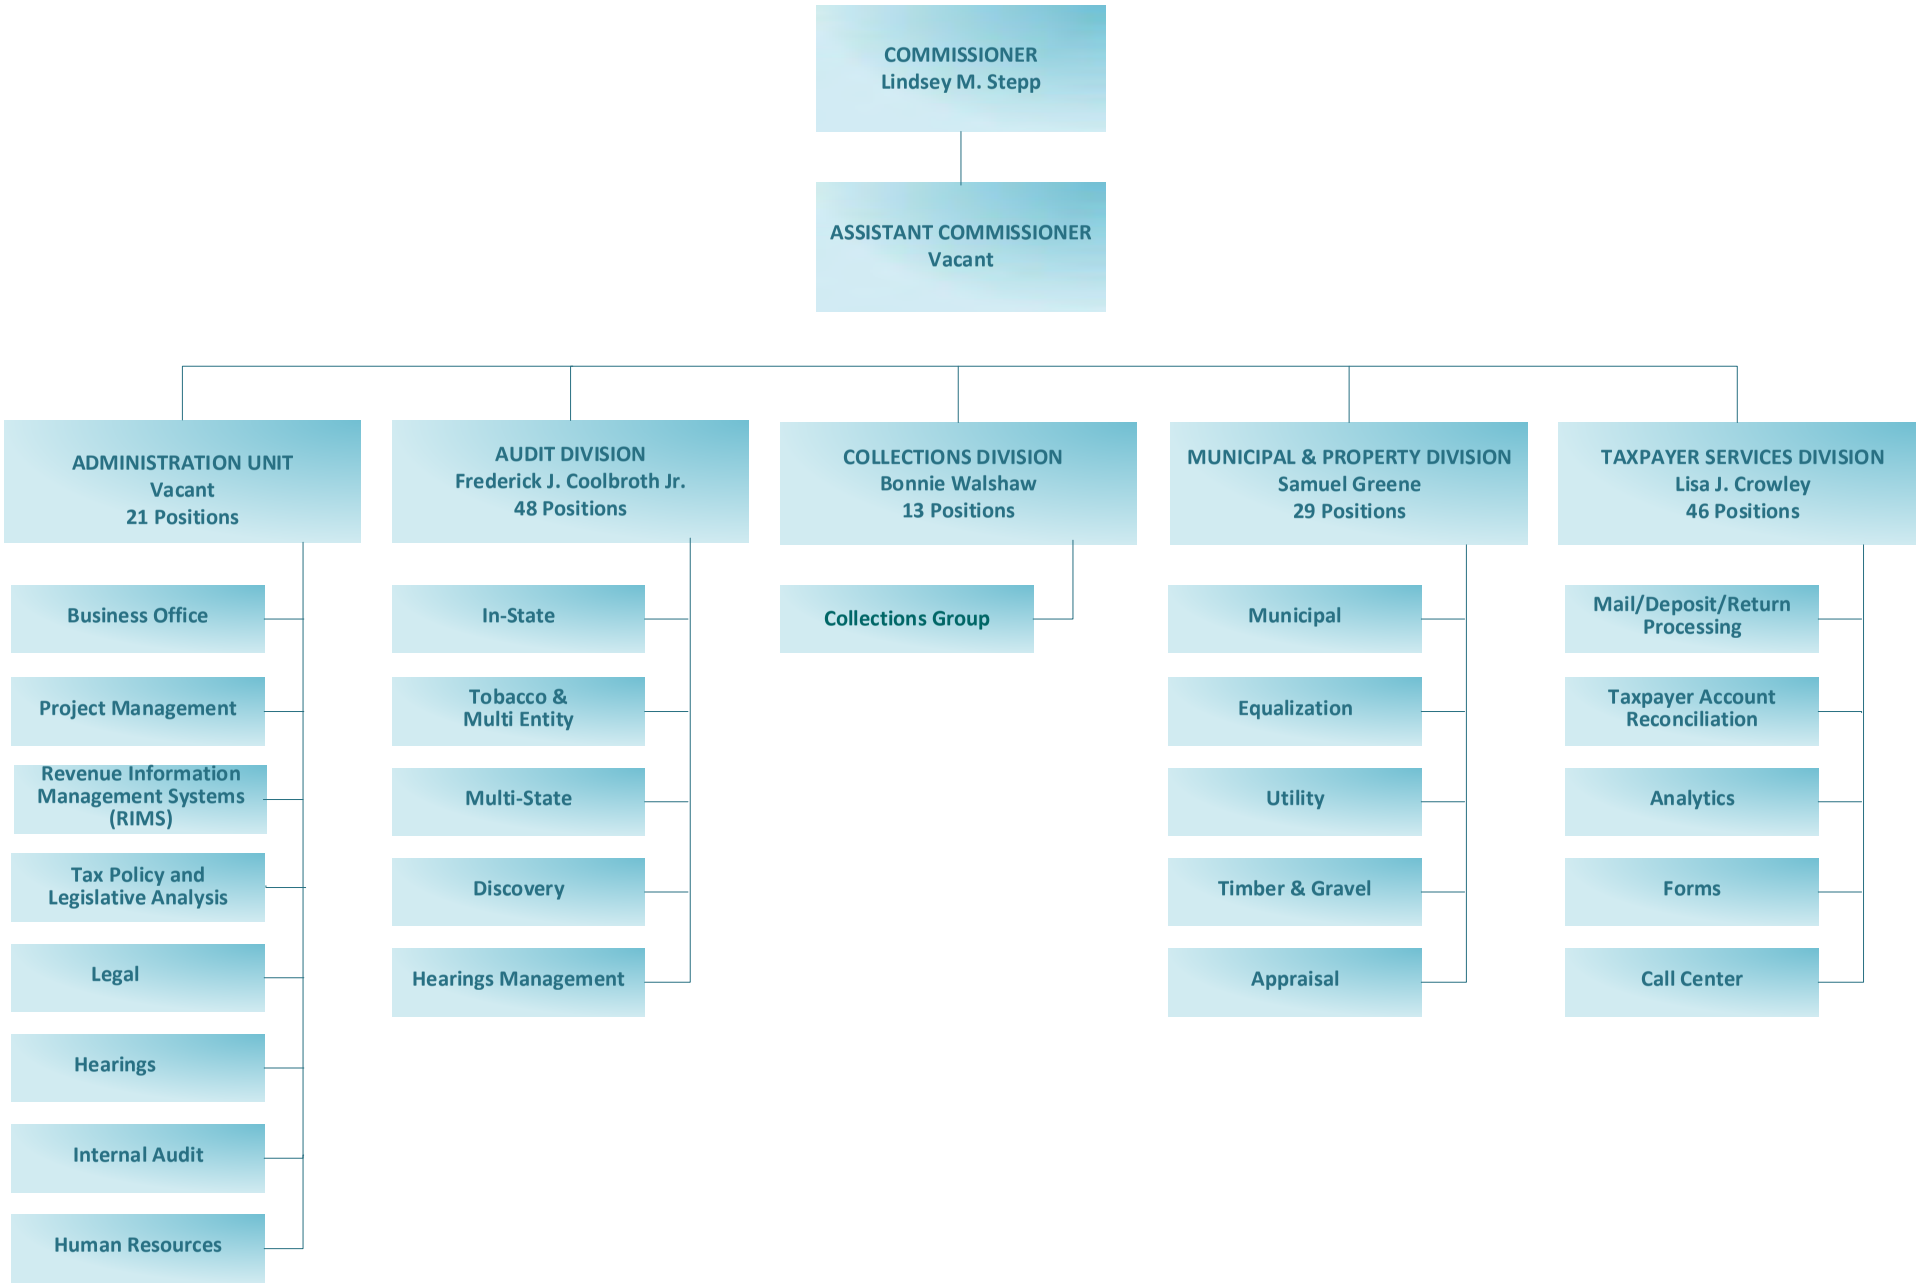
District 2 – Karen Liot Hill

District 3 – Janet Stevens

District 4 – John Stephen

District 5 – David K. Wheeler

# Department of Revenue Administration



# Division Primary Functions

## Administration Unit

The Administration unit performs administrative functions necessary to support Department of Revenue Administration (DRA) operations including accounting, purchasing, administrative hearings, tax policy and legislative analysis, fleet and facility maintenance, human resources, legal services, and project management.

## Audit Division

The Audit Division conducts audits of tax returns of individuals, partnerships, estates, trusts, corporations, and other documents filed with DRA to ensure compliance with New Hampshire tax laws and rules.

## Collections Division

The Collections Division initiates collection activities in pursuit of delinquent tax returns and outstanding payments for all taxes administered by DRA. The Division also issues wholesale tobacco tax certificates, meals and rentals tax licenses, and sells tobacco tax stamps.

## Municipal and Property Division

The Municipal and Property Division (M&P) establishes and approves municipal, school, county and village district tax rates and provides technical assistance relative to taxation and finance to the political subdivisions of the state. The Division also prescribes a uniform chart of accounts for all municipalities, schools, counties, and village districts and assists and educates municipalities with the methods of appraisal and assessment of real property. Providing revaluation monitoring statewide to municipalities and conducting once in five-year assessment reviews, the Municipal and Property Division equalizes the local assessed valuation of each municipality to bring such valuations to the full and true market value of the property. In addition, the Division advises and assists municipalities and taxpayers in timely collection of the excavation tax and timber yield tax and appraises public utility and railroad property for equalization and state utility property tax. Last, the Division assists local municipalities with the administration of the Current Use law RSA 79-A.

## Department of Information Technology

The embedded Department of Information Technology personnel design, develop, and maintain computerized systems to support the administration of taxes and to automate labor intensive functions.

## Taxpayer Services Division

The Taxpayer Services Division processes taxpayer documents in an accurate and efficient manner and provides general taxpayer assistance to the public for all taxes administered by the Department while also maintaining taxpayer accounts.

## 2024 Employee of the Year

Ms. Aimee Aguiar has worked for the Department of Revenue Administration since 2006 and was promoted to Tax Examiner IV in January 2022. As a Tax Examiner in the TPS Account Maintenance Group, Aimee's responsibilities include maintaining taxpayer accounts, issuing refunds and notices of assessment, assisting taxpayers on the phone and during in-person lobby visits, taking part in numerous systems testing responsibilities throughout the year, and taking on additional projects as assigned. As one of our most senior examiners, Aimee's knowledge of NH tax types as well as DRA processes and procedures makes her a go-to person for all things DRA. Her attention to detail and willingness to ask questions are by far her greatest strengths, and she is always thinking about making processes easier for her co-workers as well as the taxpayers we serve.

Aimee has grown tremendously during the past year as a member of the Core 21 project team. Although taking on that project was outside her comfort zone, she excelled at being part of the team. She provided her input whenever she was asked, assisted other DRA users with questions, and even lead a division training on the new Core 21 features. Although she said from the beginning that she didn't want to give presentations, she did a fantastic job walking her peers through the nuances of the new system version. Aimee is the definition of a team player, she leads by example everyday through her actions, positive attitude and her dedication to the Department. She is always willing to go above and beyond her normal work duties, she has stayed positive while under pressure, continuing to treat those around her with kindness and respect and her willingness to step up and help her co-workers doesn't go unnoticed. She proves that leadership isn't about a position or title, but about the way you encourage and support those around you. Aimee gives 100% effort to anything she does and her peers, all DRA staff, as well as the taxpayers we serve are better off for it.

Finally, Aimee demonstrates the importance of leadership within the DRA and is deserving of recognition as the 2024 Employee of the Year. Aimee is an employee you can count on when details matter. Whether it's through her participation in the forms committee, as a member of the website redesign team, or as a SME in the Core 21 project, there is never a question with her ability to represent herself, TPS, or the department in an extremely professional and thorough manner. She wants DRA to have the tools necessary to provide excellent customer service, and she holds herself to a high standard when it comes to her own work.

The DRA Employee Code of Respect reads "We will cultivate respect and teamwork among fellow co-workers by encouraging each other to live up to our full potential through honesty, understanding, dignity, tolerance and accountability". We thank Aimee for exemplifying this code and being a part of the DRA and recognize her as the DRA 2024 Employee of the Year.

# SUMMARY OF TAXES ADMINISTERED BY THE DEPARTMENT OF REVENUE ADMINISTRATION FY 2025

*This is only a brief summary of certain New Hampshire taxes administered by the Department of Revenue Administration. This summary is not intended to be relied upon as a full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.*

## BUSINESS PROFITS TAX – RSA CHAPTER 77-A

The Business Profits Tax (BPT) has historically been one of the largest sources of general fund revenue. Enacted in 1970 as a replacement for the municipal property tax on stock-in-trade, farm livestock, poultry, fuel pumps, mills and machinery, the initial rate was established at 6%. The rate steadily increased to a high of 9.56% in Fiscal Year (FY) 1983. The rate then decreased to 7% beginning FY 1995, then increased to 8% for tax years ending on or after July 1, 1999. The rate of 8.5% was effective for all returns and taxes due on account of taxable periods ending on or after July 1, 2001. For taxable periods ending on or after December 31, 2016, the BPT rate was reduced to 8.2%. For taxable periods ending on or after December 31, 2018, the BPT rate was reduced to 7.9%, because, in accordance with Chapter 274:23, Laws of 2015, the amount of combined unrestricted general and education trust fund revenue collected for the biennium ending June 30, 2017, was more than $4.64 billion. For taxable periods ending on or after December 31, 2019, the BPT rate was reduced to 7.7%. For taxable periods ending on or after December 31, 2022, the BPT rate was reduced to 7.6%. For taxable periods ending on or after December 31, 2023, the BPT rate was reduced to 7.5%. The BPT is assessed on income from conducting business activity within the state. For multi-state businesses, prior to taxable periods ending before December 31, 2022, gross business profits were apportioned using a weighted sales factor of two and the standard payroll and property factors. For taxable periods ending on or after December 31, 2022, multi-state businesses shall apportion gross business profits using only the sales factor. Organizations operating a unitary business must use combined reporting in filing their NH return. Four annual estimate payments are required on liabilities greater than $200, paid at 25% each. BPT return due dates are consistent with federal return due dates based on the taxpayer's entity type. For taxable periods beginning January 1, 2025, business organizations with over $109,000 of gross business income from all their activities are required to file a return. That threshold amount was $103,000 for taxable periods ending on or after December 31, 2023, $92,000 for taxable periods ending on or after December 31, 2022, and $50,000 for taxable periods ending after June 30, 1993. For tax years beginning January 1, 2023, the Commissioner is required to biennially adjust the filing threshold using the Consumer Price Index, Northeast Region. Business organizations that realize a gain or loss on the sale or exchange of an interest in the business organization shall file a return for the taxable period, regardless of whether the business organization's gross business income is in excess of the threshold during the taxable period.

## BUSINESS ENTERPRISE TAX – RSA CHAPTER 77-E

In 1993, a 0.25% tax was enacted on taxable enterprise value tax base, which is the sum of all compensation paid or accrued, interest paid or accrued, and dividends paid after special adjustments and apportionment. Chapter 17, Laws of 1999 increased the rate from 0.25% to 0.5%. The rate was increased to 0.75% in 2001. For taxable periods ending on or after December 31, 2016, the Business Enterprise Tax (BET) rate was reduced to 0.72%. For taxable periods ending on or after December 31, 2018, the BET rate was reduced to .675%, because, in accordance with Chapter 274:24, Laws of 2015, the amount of combined unrestricted general and education trust fund revenue collected for the biennium ending June 30, 2017, was more than $4.64 billion. For taxable periods ending on or after December 31, 2019, the BET rate was reduced to 0.60%. For taxable periods ending on or after December 31, 2022, the BET rate was reduced to 0.55%. In 2001, the filing threshold increased to $150,000 (from $100,000) of gross business receipts or $75,000 (from $50,000) of the enterprise value tax base. In 2013, the filing thresholds increased to $200,000 of gross business receipts or $100,000 of the enterprise value tax base. For taxable periods ending on or after December 31, 2022, the filing threshold was increased to $250,000 for both the gross business receipts threshold and the enterprise value tax base threshold. For taxable periods ending on or after December 31, 2023, the filing threshold was increased to $281,000 for both the gross business receipts threshold and the enterprise value tax base threshold. For taxable periods beginning January 1, 2025, this threshold amount increased to $298,000. Beginning with taxable periods ending on or after December 31, 2015, the Commissioner is required to biennially adjust these filing threshold amounts using the Consumer Price Index, Northeast Region. Four annual estimate payments are required on liabilities greater than $260 for taxable periods ending on or after December 31, 2013; paid at 25% each on the 15th day of the 4th, 6th, 9$^{th}$, and 12th months of the taxable year. The BET return is due at the same time the BPT return is due. The BET may be used as a credit against the BPT under RSA 77-A:5. Any unused portion of the credit may be carried forward and allowed against the BPT for 5 taxable periods from the taxable period in which the BET was paid for credits from taxable periods ending before December 31, 2014, and for 10 taxable periods from the taxable period in which the BET was paid for credits from taxable periods ending on or after December 31, 2014.

## COMMUNICATIONS SERVICES TAX – RSA CHAPTER 82-A

First enacted in 1990 at 5.5%, this tax was assessed upon two-way communications services. Chapter 158, Laws of 2001, increased the permanent portion of the tax to 4.5% and continued the surtax of 2.5%, resulting in an overall tax rate of 7% for the period beginning July 1, 2001, and ending June 30, 2003. A permanent rate of 7% was passed effective July 1, 2003. Retailers must register with the Department and are required to collect and remit the tax. Communications Services Tax returns must be filed by the retailer on the 15th day of the month for the preceding calendar month unless the average monthly liability is less than $100. Any retailer who can reasonably estimate its average monthly liability to be in excess of $10,000 is required to make an estimated payment equal to 90% of the actual tax collected. This payment is due on or before the 15th day of the month during which the liability is incurred.

## EDUCATION PROPERTY TAX – RSA 76:3

Under Chapter 17, Laws of 1999, the Education Property Tax was established. The tax is assessed and collected by municipalities to be retained for use by their local school districts. The rate was originally $6.60 per thousand of equalized valuation without utilities. The tax appears on the same bill as the other property taxes administered at the local level. The effective date of this tax was April 1, 1999. The sunset provision of the Education Property Tax was repealed, making the tax a permanent revenue source dedicated to funding education. As of April 1, 2005, the rate was $3.33 per $1,000. Beginning July 1, 2005, and every fiscal year thereafter, the Commissioner is required to set the education tax rate at a level sufficient to generate revenue of $363,000,000, with the exception that, for the fiscal year ending June 30, 2023, the Commissioner was required to set the education tax rate at a level sufficient to generate $263,000,000.

## INTEREST & DIVIDENDS TAX – RSA CHAPTER 77

The Interest & Dividends (I&D) Tax, which was first enacted in 1923, applied a tax based on the "average rate of property taxation" upon the interest and dividend income received by New Hampshire residents from sources other than New Hampshire and Vermont banks. The tax was changed significantly in FY 1995 to eliminate the exemption on income from New Hampshire and Vermont banks. In conjunction with this change, the personal exemption increased from $1,200 to $2,400. The exemption for joint filers increased from $2,400 to $4,800. Estimated I&D Tax payments are due on tax liabilities greater than $500 on the 4$^{th}$, 6$^{th}$, 9$^{th}$, and 12$^{th}$ months of the tax year, unless the taxpayer is a calendar year taxpayer in which case the final payment is due on January 15$^{th}$ following the tax year. The I&D Tax return is due on the 15$^{th}$ day of the 4$^{th}$ month following the tax year. Additional exemptions are available for residents who are 65 years of age or older, who are blind, or who are disabled, unable to work, and have not yet reached their 65th birthday. For taxable periods ending on or after December 31, 2013, trusts are no longer taxable under the I&D Tax. Instead, interest and dividend income received by the grantors or beneficiaries of trusts, to the extent that they are inhabitants or residents of New Hampshire, is subject to taxation. Chapter 91:89-102 was enacted during the 2021 legislative session and phased out the I&D Tax over several years. Chapter 79:85-88 enacted during the 2023 legislative session accelerated the repeal of the I&D Tax. The I&D Tax rate was reduced from 5% to 4% for taxable periods ending on or after December 31, 2023, and is reduced to 3% for taxable periods ending on or after December 31, 2024. The I&D tax is repealed for taxable periods beginning after December 31, 2024.

## LOCAL PROPERTY TAX – RSA CHAPTER 76

Property taxes, based upon local assessed valuations, are administered and collected by the individual cities and towns. The majority of property taxes collected are based on the market value of the property at its highest and best use. Some property taxes, however, are based on the market value of a property's actual use, such as:

- Current use assessments under RSA Chapter 79-A for certain farmland, forest land, and unproductive land. The program is for properties dedicated to remaining as open space. A Land Use Change Tax of 10% of the market value of the property is charged upon the occurrence of a disqualifying event (usually a development, use or sale of a portion of a property). Typically, ten acres or more of dedicated land is required. Application to local officials on or before April 15th is required.
- Taxes on the value of standing timber assessed under RSA Chapter 79. These are assessed by local officials, at a rate of 10% of the value of the standing timber. The annual filing of an intent to cut and the subsequent report of timber cut are required.
- Taxes on the value of gravel and excavated materials assessed under RSA Chapter 72-B. These are assessed at a rate of $.02 per cubic yard of earth excavated.

## Local Property Tax Exemptions, Credits and Deferrals

### Elderly Exemption – RSA 72:39-a

Effective July 23, 1996, RSA 72:39-a replaced the Standard, Expanded, Adjusted and Optional Adjusted Elderly Exemptions. The statute sets the minimum exemption, which the cities and towns may modify as follows:

- Different dollar amounts for qualified residents ages 65-75, 75-80, and 80 or older;
- Net income limitations, including social security or pension payments; and
- Net asset limitations.

### Blind Exemption – RSA 72:37

The exemption is a minimum $15,000 reduction of the assessed value of residential real estate (as defined in RSA 72:29, II) and could be higher if modified by the municipality.

### Deferral for the Elderly or Disabled – RSA 72:38-a

Property taxes are deferred and accrue interest at the rate of 5% per annum for qualifying taxpayers. The deferred property tax may not exceed more than 85% of the equity value of the residence. If granted by the assessing officials, the deferral is available to any resident property owner who is 65 years or older or eligible under the federal Social Security Act for benefits for the disabled, has owned the home for at least 5 years (or one year if eligible under the federal Social Security Act), and is currently residing there.

## Veterans' Tax Credits and Disabled Exemption

Qualified residents are entitled to the following tax credits in the following amounts, which are to be deducted from their tax bills:

- **RSA 72:28** – The standard veterans' tax credit in the amount of $50 unless, alternatively, the municipality adopts the optional veterans' tax credit which is an amount from $51 up to $750;
- **RSA 72:28-b** – The all veterans' property tax credit if adopted by the municipality, in the amount of the standard or optional veterans' tax credit in effect in the municipality;
- **RSA 72:28-c** – The combat service tax credit if adopted by the municipality, in an amount from $50 up to $500;
- **RSA 72:29-a** – The standard surviving spouse tax credit in the amount of $700 unless, alternatively, the municipality adopts the optional surviving spouse tax credit which is an amount from $701 up to $2,000; and
- **RSA 72:35** – The standard service-connected total disability tax credit in the amount of $700 unless, alternatively, the municipality adopts the optional service-connected total disability tax credit which is an amount from $701 up to $5,000. (However, the optional service-connected total disability tax credit may not be taken in addition to credits received under 72:28, 72:28-c, or an exemption under 72:36-a.)

**Certain Disabled Veterans' Exemption under RSA 72:36-a:** A resident discharged under conditions other than dishonorable or honorably separated from military service, who is 100% totally and permanently disabled from service connection, who is a double amputee, paraplegic, or has blindness of both eyes with visual acuity of 5/200 or less as the result of service connection, and who owns a specially adapted home acquired with the assistance of the United States Department of Veterans Affairs is exempt from all taxation on that home.

## Tax Exemption for Improvements to Assist Persons with Disabilities – RSA 72:37-a

This exemption is limited to any increase in the assessed value of residential real estate owing to improvements made by the resident owner for the purpose of assisting a person with a disability who also resides on the residential real estate.

## Tax Exemptions for Wind-Powered, Solar, and Wood heating Energy Systems RSAs 72:66, 72:62, 72:70

These exemptions are optional to the cities and towns and must be voted upon locally.

## Tax Exemption for the Disabled – RSA 72:37-b

This exemption is available to persons eligible under the federal Social Security Act for benefits to the disabled. It is applicable only on the applicant's principal place of abode. The exemption is

optional and must be voted on by the municipality, which also determines the amount of the exemption and the income/asset limitations.

## MEALS & ROOMS (RENTALS) TAX – RSA CHAPTER 78-A

The Meals and Rooms (Rentals) (M&R) Tax was enacted in 1967 at a rate of 5%. The tax is assessed upon patrons of hotels, restaurants, and motor vehicle rental establishments on certain rentals of rooms and motor vehicles, and upon meals costing $.36 or more, but collected and remitted to the State by operators. Chapter 330:1, Laws of 1977, increased the tax rate from 5% to 6%. Chapter 568:150, Laws of 1981, increased the rate from 6% to 7%, Chapter 8:1, Laws of 1990, Chapter 354:12 Laws of 1991, Chapter 350:36, Laws of 1993, Chapter 96:1, Laws of 1995, Chapter 132, Laws of 1997 imposed a rate of 8% for every biennium beginning April 1, 1990. Chapter 17, Laws of 1999 fixed the 8% and removed the biennial time frame. Chapter 144, Laws of 2009, increased the rate from 8% to the rate of 9%. Chapter 91:103-105, Laws of 2021 reduced the rate to 8.5% for taxable periods beginning on or after October 1, 2021. An M&R Tax operator's license is required. The M&R Tax is required to be remitted to the State on the 15th day of the month following the collection of tax, accompanied by the M&R Tax return. An M&R Tax operator is required to maintain books and records showing the amount of tax collected and to remit the tax monthly to the State, less a 3% commission if the return and payment are filed both timely and electronically.

## MEDICAID ENHANCEMENT TAX – RSA CHAPTER 84-A

The Medicaid Enhancement Tax (MET) was enacted in 1991 at a rate of 8% of gross patient services revenue of every hospital. In 1993, the rate was changed to be established by legislation each biennium upon the gross patient services revenue of every hospital for the hospital's fiscal year ending during the first full calendar year preceding the taxable period. If the Legislature failed to set the rate of tax on or before April 1, preceding the first fiscal year of the biennium, the tax rate was to be zero for that biennium. In no event was the rate of the tax to be greater than 6 percent for any biennium. In 1998, the law was amended to require the Legislature to set the tax rate on or before May 1. In 2003, the tax rate was changed to 6% of gross patient services revenue. In 2004, the 6% tax on gross patient services revenue was changed to a 6% tax upon the "net" patient services revenue of every hospital. In 2007, the tax rate was reduced to 5.5% of net patient services revenue. For taxable periods ending June 30, 2014, and prior, hospitals were required to pay 100% of the tax due for the taxable period no later than the 15th day of the fourth month of the taxable period and were required to file a tax return with the Department on or before the 10th day of the month following the expiration of the taxable period. For taxable periods beginning July 1, 2014, and after, special hospitals for rehabilitation are no longer included in the definition of "hospital" and hospitals are required to file a return on or before the 15th day of April in the taxable period. In addition, every hospital shall on or before January 15 in the taxable period make a nonbinding estimate of its projected tax payment. The tax rate decreased to 5.45% for the taxable period ending June 30, 2016, and to 5.4% for the taxable period ending June 30, 2017, and for every taxable period thereafter.

## REAL ESTATE TRANSFER TAX – RSA CHAPTER 78-B

The Real Estate Transfer Tax (RETT) was first enacted in 1967. Chapter 17, Laws of 1999, increased the permanent tax rate assessed on the sale, granting, and transfer of real estate and any interest in real estate to $.75 per $100, or fractional part thereof, of the price or consideration. This rate is assessed on both the buyer and seller for a combined tax rate of $1.50 per $100. Where the price or consideration is $4,000 or less, there is a minimum tax of $20 assessed on both the buyer and seller. The tax is paid at the Registry of Deeds office in the county where the property is located. A Declaration of Consideration (Form CD-57) must be filed with the Department by both the purchaser and seller no later than 30 days from the recording of the deed at the Registry of Deeds or transfer of real estate, whichever is later.

## RAILROAD TAX – RSA CHAPTER 82

Every railroad, railway, express, and every parlor, sleeping or dining car company, or other company not a railroad company owning any cars operated for profit on any railroad in this state shall pay an annual Railroad Tax. The Railroad Tax is assessed on the market value of the property and estate in this state of any such company as of April 1 of each year. The tax is imposed at the average rate of taxation at that time upon other property throughout the State. Railroad "property" applies to both railroad companies (an enterprise, corporation, partnership, etc.) and private rail cars operated for profit on any railroad in the State.

## TOBACCO TAX – RSA CHAPTER 78

The Tobacco Tax is a direct tax upon the consumer at retail. However, it is pre-collected and paid by the wholesaler. It is presumed the Tobacco Tax has been pre-collected and paid by the wholesaler by the affixing of a Tobacco Tax stamp (aka "indicia of tax paid") on the tobacco product. The Tobacco Tax was first enacted in 1939. Originally the tax was based upon the value at the usual selling price of all tobacco products. In 1975, the tax was changed to a flat rate of $0.12 per package of 20 cigarettes. At that time, there was no tax on other tobacco products. Over the next 34 years the tax was increased from $0.12 to $1.78 per package. In 2011, the Tobacco Tax rate was decreased from $1.78 to $1.68 for each package containing 20 cigarettes or at a rate proportional to such rate for packages containing more or less than 20 cigarettes. As of August 1, 2013, the Tobacco Tax rate increased from $1.68 back to $1.78 for each package containing 20 cigarettes, per Chapter 224:379 through 381, Laws of 2011. In 1991, the Legislature enacted a tax on tobacco products other than cigarettes (OTP Tax) at the rate "proportional to the cigarette tax, having such ratio to the usual wholesale price of the tobacco product other than cigarettes as the cigarette tax bears to the usual wholesale price of the cigarettes." In 2003, the OTP Tax was changed to 19% of the wholesale sales price. The OTP Tax rate was changed again in 2009 to 48.59% of the wholesale sales price, and then in 2010 to a rate of 65.03% of the wholesale sales price. In 2011, the OTP Tax rate was decreased to 48% of the wholesale sales price. As of August 1, 2013, the OTP Tax rate increased from 48% back to 65.03% of the wholesale sales price, per Chapter 224:379 through 381, Laws of 2011. Chapter 346, Laws of 2019 amends

the Tobacco Tax to include electronic cigarettes effective January 1, 2020. Electronic cigarettes are treated as OTP but subject to different tax rates under RSA 78:2, II, one for closed cartridges or containers that are not intended to be opened (or "closed system" devices), and the other for containers that are intended to be opened ("open system" devices). For closed system devices, the tax is imposed at a rate of $0.30 per milliliter on the volume of the liquid or other substance containing nicotine in the cartridge or container. For open system devices, the tax is imposed at a rate of 8% of the wholesale sales price of the container of liquid or other substance containing nicotine. Wholesalers are required to report their tax liability for the collection of the OTP Tax on a monthly basis. The return is due on or before the 15th day of the month following the end of the reporting period. Wholesalers may file quarterly, but permission to file quarterly must be pre-approved, in writing, by the Department.

## UTILITY PROPERTY TAX-RSA CHAPTER 83-F

Utility property is defined, generally, as "all real estate, buildings and structures, machinery, dynamos, apparatus, poles, wires, fixtures of all kinds and descriptions, and pipe lines located within New Hampshire employed in the generation, production, supply, distribution, transmission, or transportation of electric power or natural gas, crude petroleum and refined petroleum products or combinations thereof, water, or sewage subject to tax under RSA 72:6, 72:7 and 72:8, but not exempt under RSA 72:23," but excludes: electric power fixtures employed solely as an emergency source of electric power, water and air pollution control facilities exempt from local property taxation under RSA 72:12-a, water and sewer companies exempt from regulation as public utilities by the public utility commission under RSA 362:4, and any other property which is not subject to local property taxation. In 2011, "utility property" was amended to also exclude: the electrical generation, production, and supply equipment of an "eligible customer-generator" as defined in RSA 362-A:1-a, II-b; property used for the retail distribution of fuel for personal, non-commercial use, use as a fuel in a motorized vehicle, home cooking, or heating; and that portion of a manufacturing establishment's generation, production, supply, distribution, transmission, or transportation of electric power or natural gas, crude petroleum and refined petroleum products or combinations thereof, water, or sewage subject to tax under RSA 72:6, 72:7, and 72:8, but not exempt under RSA 72:23, that is expended, used, or consumed on-site primarily for the operation of the manufacturing establishment and that does not otherwise enter the stream of commerce. In 2021, "utility property" was amended to also exclude the storage equipment of an "eligible customer-generator" and the generation, production, storage, and supply equipment of a "limited producer" as defined in RSA 362-A:1-a, III if selling under RSA 362-A:2-a, for facilities with a rated electricity production capacity of up to and including one megawatt. In 2025, "utility property" was amended to also exclude property used for the purposes of generating electricity, except such property owned by entities as defined in RSA 362:2, I that are engaged in the distribution or transmission of electricity.

The Utility Property Tax rate is $6.60 per $1,000 of value of utility property. On December 1 of each year the Department determines the market value of utility property as of the previous April 1. The tax is due annually on or before January 15th. Every utility or property owner required to pay Utility Property Tax must file a declaration of its estimated Utility Property Tax for the

subsequent taxable period, accompanied by payment of 1/4 of the estimated tax due, on or before April 15 of each year. Additional quarterly estimated payments of the Utility Property Tax are due on June 15th, September 15th, and December 15th.

# New Hampshire FY 2025
# Legislative Session in Review

*This Legislative Review is published as a convenient reference guide of relevant statutory changes made during the 2025 Legislative Session by the New Hampshire General Court. This review is intended to provide a summary or synopsis of enacted legislation. It is not intended to be relied upon as a full and complete text or as a substitute for the actual state law. Please refer to the applicable statute and rules to determine how this information applies to specific persons or situations.*

## BUSINESS TAX

**HB 2 (Chapter 141)** creates a new Granite Patron of the Arts Tax Credit (GPA). Up to one-half of any donation to the DNCR Division of the Arts or the NH Council of the Arts may be used as a credit against any BPT and then any BET owed by the donor. The aggregate credit is capped at $350,000 per year and is to be pro-rated if necessary. Applications are due to DRA by June 30 and determinations are to be made by September 30. The credit must be used in the tax year awarded. It may not be carried forward.

***Statute Added:*** *RSA 77-A:5, XVI.*
***Effective Date:*** *July 1, 2025.*

## TOBACCO TAX

**SB 80 (Chapter 224)** requires tobacco manufacturers and wholesalers to be licensed by the New Hampshire Liquor Commission (NHLC) and provides that agency with audit and enforcement powers. DRA's tobacco tax licenses are renamed "tobacco tax certificates"; otherwise, DRA's authority remains unchanged. Manufacturers and wholesalers are now required to hold both a license and a certificate in order to do business and are subject to dual regulation.

***Statutes Amended:*** *RSA 78 and RSA 178.*
***Effective Date:*** *July 1, 2025.*

## UTILITY PROPERTY TAX

**HB 696 (Chapter 206)** exempts property used for electricity generation from payment of the Utility Property Tax (UPT). Electricity generators will now be subject to the Statewide Education Property Tax (SWEPT). If a PILOT agreement (an agreement to make a payment in lieu of taxes) is in effect as of July 1, 2027, the utility will not pay SWEPT until either the PILOT agreement expires or July 1, 2032, whichever is earlier.

***Statutes Amended:*** *RSA 72:24, 83-F:1, 83-F: 5, 83-F:9.*
***Effective Date:*** *July 1, 2027.*

## MUNICIPAL AND PROPERTY

**HB 99 (Chapter 15)** increases the maximum amount of the optional Tax Credit for Service-Connected Total Disability to $5,000 and clarifies that a qualifying disability must be total *and permanent.* The bill also provides that the credit may no longer be claimed in addition to the standard or optional Veterans' Tax Credit or All Veterans' Tax Credit, the Optional Tax Credit for Combat Service, or the Disabled Veterans' Homestead Exemption.

***Statute Amended:*** *RSA 72:35, I-a.*
***Effective Date:*** *July 13, 2025.*

**SB 173 (Chapter 120)** simplifies the assessing methodology applicable to property subject to housing covenants under the Low Income Housing Tax Credit Program (LIHTC). Property tax will now equal ten percent of the net rental and other income. Accordingly, DRA will no longer compute an annual market capitalization rate for the geographic areas containing such properties.

***Statute Amended:*** *RSA 75:1-a.*
***Effective Date:*** *July 1, 2025.*

## MISCELLANEOUS

**HB 123 (Chapter 26)** establishes a moratorium on carbon sequestration, allows for a voluntary payment to municipalities of the difference between timber tax paid and "pre sequestration timber tax revenue" in lieu of the general taxation of standing wood or timber, and creates a study commission to look at the impacts of carbon sequestration programs. The Commissioner of the DRA or designee shall be a member of this commission.

***Statutes Added/Amended:*** *RSA 79:1, 79:5, 79:32-37.*
***Effective Date:*** *July 1, 2025; repealed November 1, 2027.*

**HB 2 (Chapter 141)** also amends the distribution statutes for the business taxes, the tobacco tax, and the Real Estate Transfer Tax (RETT) to create a more uniform splitting of revenue between the general fund and the education trust fund as follows:

| | Current | | New | |
|---|---|---|---|---|
| | Gen. Fund | Ed. Trust Fund | Gen. Fund | Ed. Trust Fund |
| BPT | 59% | 41% | 61% | 39% |
| BET | 59% | 41% | 61% | 39% |
| Tobacco (Stamps) | 56.18% | 43.82% | | |
| Tobacco (OTP) | 100% | 0% | | |
| All Tobacco | | | 61% | 39% |
| RETT | 66.67% | 33.33% | 61% | 39% |

***Statutes Amended:*** *RSAs 77-A:20-a, 77-E:14, I., 78:24, 78-B:13, I.*
***Effective Date:*** *July 1, 2025.*

**HB 2 (Chapter 141)** also provides taxpayers with amnesty from the assessment of penalties and 50% of accrued interest as of the date of payment for taxes due and unpaid on or before June 30, 2025 and reported and paid in full between December 1, 2025 and February 15, 2026.

***Statutes Affected:*** *Chaptered Law Only.*
***Effective Date:*** *July 1, 2025.*

# DRA HIGHLIGHTS FY 2025

**Balanced Scorecard.** Staff from each unit of the DRA work diligently to establish and track performance measures for key operational functions by building a Balanced Scorecard which assists managers and staff in tracking progress and identifying areas for improvement. The Balanced Scorecard is tracked monthly and the annual results are posted to the DRA website. Take a look!

**Timber Tax Outreach and Education Initiative.** Launched in late calendar year 2024, the Timber Tax campaign highlighted several resources for landowners, municipalities, and loggers on a newly redesigned website, including details on how the Timber Tax is assessed, necessary forms, a series of Frequently Asked Questions, guidance for municipalities in administering the Timber Tax, and links to partner organizations. The Federation of Tax Administrators (FTA) named the DRA as a recipient of its 2025 FTA Award for Innovation and Excellence in Tax Administration noting DRA's "innovation, exceptional service, and dedication" for the Timber Tax campaign.

**Boards and Councils.** The DRA is a statutory member of a number of boards, councils and advisory committees including the Assessing Certification Advisory Board, Assessing Standards Board, Current Use Board, IT Council and the Public Deposit Investment Pool Advisory Council. These groups meet regularly and are another way that DRA fulfills its mission. Of note during FY 2025 was the work of the Assessing Certification Advisory Board to adopt rules for the licensing and certification of Building Measurers and Listers, Assessor Assistants, Assessors and Assessor Supervisors.

The New Hampshire Department of Revenue Administration's staff will always be ready to take your important phone call. To request forms, please email: forms@dra.nh.gov, or call the Forms Line at (603) 230-5001. For any other questions, please contact Taxpayer Services at (603) 230-5920.

# Office of Revenue Counsel

**Revenue Counsel**
**Lawrence P. Gagnon**

**Assistant Revenue Counsel**
**Cheryl C. Deshaies**

The Office of Revenue Counsel (the Legal Bureau) provides legal advice and representation to the Department. This work includes rendering advice and legal opinions to Department personnel, managing bankruptcy cases, responding to Right-to-Know requests, and representing the Department before the Board of Tax and Land Appeals (BTLA) and the Department's Hearings Bureau.The Legal Bureau provides assistance and advice to the Commissioner's Office, the Municipal and Property Division (M&P Division), and to other divisions in connection with audits and other stages of the enforcement and administration of tax laws. In addition, the Legal Bureau coordinates and assists with the Department of Justice's representation of the Department before state and federal courts and acts as co-counsel in certain cases.

*Noteworthy Cases from FY2025*

*Rand v. State*

The plaintiffs in Rand sought determination that the Statewide Education Property Tax (SWEPT) was unconstitutional. The Legal Bureau assisted the Department of Justice in preparing numerous pleadings and affidavits defending the computation of tax rates and the administration of SWEPT. Partial summary judgment was granted to the Plaintiffs in the Superior Court and the State appealed to the New Hampshire Supreme Court. The Court found that the SWEPT taxing scheme was constitutional, while disallowing the use of negative local education rates in certain unincorporated areas with no educational expenditure needs.

*Morris v. DRA*

The taxpayers appealed a determination that they were New Hampshire residents and subject to the Interest and Dividends Tax for earnings during their residency. The Superior Court granted the Department judgment on March 28, 2024, following a bench trial. The taxpayers have appealed to the New Hampshire Supreme Court where briefing has been concluded. The Court declined to hear oral arguments. An order is expected in early FY 2026.

*Hologic, Inc. v. DRA*

The plaintiff, a Massachusetts bio-tech company, appealed an assessment of taxes following an audit. The Legal Bureau is assisting the Department of Justice in trying the case. The Superior Court found in the plaintiff's favor, ruling that entities within a combined group may cross-utilize prior year net-operating losses. The State appealed the matter to New Hampshire Supreme Court where briefing and oral arguments are expected to occur during FY 2026.

*Bankruptcy Cases and Receiverships*

The Legal Bureau filed 56 proofs of claim in Bankruptcy Courts or State Courts related to bankruptcy and receivership proceedings throughout the United States for unpaid taxes,

**Revenue Counsel**
**PO Box 457**
**Concord, NH**
**03302-0457**

**603.230.5026**
**603.230.5932 Fax**

penalties, and interest in an amount exceeding $903,704.60 and collected payments from bankruptcy cases and receiverships in an amount totaling $1,083,356.24.

Bankruptcy cases generally involve objecting to reorganization and payment plans which do not comply with law, filing and defending claims from objections, protecting security interests, and tracking a significant number of cases through the court processes to protect the Department's interests including compelling compliance with post-petition tax obligations while a taxpayer's bankruptcy is ongoing. The cases run the gamut from large corporate cases filed in out-of-state courts, to New Hampshire domiciled individuals and businesses filed here. Many claims are filed in "unknown" amounts due to a taxpayer's failure to submit a return for one or more years or are based on estimates made by the Audit Division using available information. Taxpayers with missing returns are strongly encouraged to file their returns.

*Utility Property Tax Appeals*

The Legal Bureau is representing the Department in six appeals. Hearings are scheduled for FY 2026. Four other appeals were resolved prior to the close of the fiscal year.

*Right to Know Requests*

The Legal Bureau responded to 191 requests for government records pursuant to RSA 91-A:4 over the course of the past year. Some of these requests involved voluminous records and contested issues.

*Appeals from Final Orders, Board of Tax and Land Appeals*

The Legal Bureau engaged in representation of the Department in fifteen appeals, relating to Meals & Rentals Tax assessments, Real Estate Transfer Tax, license denials/revocations, audit tax assessments, and Low & Moderate applications.

The Legal Bureau further filed two petitions related to reassessments and worked on multiple municipal related appeals at the Board's request.

*Appeals from Final Orders, Superior Court*

The Legal Bureau has coordinated and acted as co-counsel with the Department of Justice on four Superior Court tax appeals.

*Simon Properties v. DRA*

The taxpayer appealed a Business Tax assessment based on an audit determination that rental income from a major shopping center was correctly sourced to New Hampshire. The Department of Justice, with the Legal Bureau's assistance, is preparing the case for trial in FY 2026.

*Aldean Khater v. DRA*

Additional Tobacco Tax and Business Tax was assessed against Khater and the Department's Hearing Officer denied his appeal. He subsequently appealed to a Massachusetts superior court, which dismissed it. Khater refiled in the New Hampshire Superior Court and the Department of Justice, with assistance from the Legal Bureau, moved to dismiss, which was granted. The plaintiff appealed to the New Hampshire Supreme Court where an order affirming the Superior

Court's dismissal was issued in early FY 2026. Khater is subject to a criminal restitution order in excess of $12 million. Efforts are being made by the Legal Bureau to enforce that judgment.

*Hewlett Packard Enterprise Company v. DRA*

The Legal Bureau is assisting the Department of Justice in responding to the appeal filed by the Texas technology company appealing a denial of a refund request premised on alternative apportionment and statute of limitations concerns. The appeal was filed early FY 2024 and is set for trial in December FY 2026.

*Timber Investigations and Referrals*

The Legal Bureau has worked closely with the Municipal and Property, Timber Appraisers to investigate concerns around non-compliance with the Timber Tax requirements pursuant to RSA 79. The Legal Bureau made two criminal investigation referrals during FY 2025 related to these efforts and has continued to work with law enforcement efforts to complete these investigations and proceed to criminal charges.

*Declaratory Rulings*

No declaratory rulings were issued in FY 2025.

*Technical Information Releases*

# Hearings Bureau

**Hearing Officer**
**Denise Daniel**

During FY 2025, the Hearings Bureau continued to strive to provide better service to the taxpayer. We have continued to review administrative tasks and workflow to ensure that our processes are as lean and efficient as possible to maximize our productivity.

In FY 2025, with respect to taxpayer petitions, the time to produce a final order after the close of the record averaged 31.21 days, which is an increase of 49.98% from the average of 20.81 days it took in FY 2024. This increase was the result of several complex cases, which required lengthy final orders. Our goal for taxpayer petitions in FY 2025 was to issue final orders within 90 days after the close of the record 90% of the time. We met our goal and issued orders in 90 days or less for taxpayer petitions 94.57% of the time. With respect to cases in which a final order still needs to be issued, there were only three cases outstanding (other than cases being held in abeyance) as of June 30, 2025. The record closed on June 18, 2025 for the oldest outstanding case.

In FY 2025, with respect to cases involving license denials, suspensions, revocations, and tobacco seizures, the time to produce a final order after the close of the record averaged 10.13 days, which was an increase of 1.60% from the average of 9.97 days it took to produce an order in FY 2024. Our goal for FY 2025 for cases involving license denials, suspensions, revocations, and tobacco seizures was to issue final orders within 14 days after the close of the record 90% of the time. We met our goal and issued orders in 14 days or less for cases involving license denials, suspensions, revocations, and tobacco seizures, 91.35% of the time.

The number of docketed appeals filed in FY 2025 was the same number as the number filed in FY 2024, so there was no percentage of increase or decrease. The total number of final orders issued in FY 2025 increased by 7.10% from the number issued in FY 2024.

During FY 2025, the Hearings Bureau worked collaboratively with other Department stakeholders and embedded FAST personnel to implement electronic filing of appeals through Granite Tax Connect. This improvement streamlined processing for Department personnel and made filing an appeal easier for taxpayers. The Hearings Bureau has also participated in designing a process to safely use Federal Tax Information in adjudicative proceedings, collaborating with other Department stakeholders.

The Hearing Bureau's goals for FY 2026 are to maintain an appeal process that provides a fair and efficient system, timely performance, and ensures the highest degree of confidence in the integrity of the system. This includes continuing to

**Hearings Bureau**
**PO Box 1467**
**Concord, NH 03302-1467**

**603.230.5002**
**603.230.5948 Fax**

streamline administrative processes to allow us to meet our goal of issuing Final Orders in a timely manner.

The following statistics summarize the activity of the Hearings Bureau during the past fiscal year as compared to the prior fiscal year:

| | FY 2024 | FY 2025 | % of Change |
|---|---|---|---|
| Appeals Filed | 296 | 296 | 0.00% |
| Cases Closed | 260 | 302 | 16.15% |
| Cases appealed to Superior Court, Board of Tax and Land Appeals, or Supreme Court | 3 | 10 | 233.33% |
| Cases transferred to OPLC | 1 | 0 | (100%) |
| Cases open as of June 30 | 128 | 123 | 3.91% |
| **Final Orders Issued for the period of 7/1/2024 to 6/30/2025** | | | |
| Assessor Discipline (as delegate for OPLC) | 0 | 1 | n/a |
| Business Tax | 58 | 54 | (6.90%) |
| Business Tax & Meals & Rentals Tax | 4 | 4 | 0.00% |
| Interest & Dividends Tax | 15 | 10 | (33.33%) |
| Meals & Rentals Tax | 96 | 114 | 18.75% |
| Real Estate Transfer Tax | 0 | 1 | n/a |
| Tobacco Tax | 9 | 12 | 33.33% |
| Utility Property Tax | 1 | 0 | (100.00%) |
| **Total Final Orders Issued** | 183 | 196 | 7.10% |

# The Collection Division

**Director of Collection: Bonnie Walshaw**

The mission of the Collection Division is to ensure taxpayer compliance with the tax laws of New Hampshire by fairly and effectively recovering overdue taxes through the uniform application of state laws, rules, and policies.

The division is primarily responsible for collecting delinquent notices of assessment resulting from tax returns, following up on unfiled Meals and Rentals Tax (M&R) returns, selling tobacco stamps, and licensing and educating M&R operators charging for taxable meals, room rentals, and motor vehicle rentals.

| FY 2025 Value of Inventory and Collections | |
|---|---|
| Delinquent Inventory – beginning July 1, 2024 | $90,027,657 |
| Delinquent Inventory – ending June 30, 2025 | $83,193,504 |
| Delinquent Payments Collected | $30,059,194 |

| FY 2024 Statistical Counts | |
|---|---|
| New Meals & Rentals Operators Licensed | 865 |
| Meals and Rentals Unfiled Returns Followed Up | 9850 |
| Tax Liens Recorded | 1946 |
| Tobacco Tax Field Compliance Visits | 114 |
| Payment Plans Initiated | 620 |
| Field Visits Conducted | 1740 |

The Division budget authorized thirteen full-time positions: one unclassified and twelve classified. Due to a medical injury, only seven of the eight Compliance Officer II (CO II) positions were active for the entire fiscal year. Also, one of our two Compliance Officer I (CO I) positions was not filled for 6 months due to an unexpected retirement. Despite the personnel staffing challenges, the Division managed to exceed the prior year's total collections by approximately $500,000.

As noted in the table above, FY25 saw the Division reduce delinquent inventory by almost $7m. This was in large part due to the CO II position that was added during FY24. This CO II position was established to handle tax assessments generated through the Department's data exchange agreement with the IRS. Ultimately, the Division was unable to fully utilize this position as the CO II was needed to devote time to help cover one of the Division's seven regions. Once fully staffed, the Division expects to see an increase in funds collected that are directly attributable to the Department's partnership with the IRS.

# The Taxpayer Services Division

**Director of Taxpayer Services: Lisa Crowley**

**Assistant Director of Taxpayer Services: Rhonda Drouin**

The mission of the Division of Taxpayer Services is to continuously improve taxpayer experiences through efficient data processing, accurate account maintenance, and exemplary customer service.

The Division operates two high speed scanners that allow employees to scan, validate, and process large volumes of tax forms more efficiently. By using the high-speed scanners in conjunction with our new Revenue Information Management System (RIMS) and electronic filing methods, we've introduced numerous efficiencies related to processing documents, electronically routing correspondence, and managing taxpayer requests.

Once again the fiscal year ended with an increase in the use of electronic filing methods with FY 2025 bringing in just under 30,000 more electronically filed documents than FY 2024. This year after year increase ensures our division can continue its focus on processing returns, refunds, and documents on time, as well as meeting our goal of responding to most taxpayer requests within 30 days.

Another big change for FY 2025 was the repeal of the Interest & Dividends Tax (I&D), effective for tax periods beginning on or after January 1, 2025. In January 2025, DRA mailed more than 96,000 letters to I&D taxpayers throughout the state informing them of the repeal and their final filing requirements. Additional communication efforts were made using our main taxpayer services phone line as well as banners placed on our website and on the homepage of our Granite Tax Connect web portal. The communication was well received and well worth the effort.

| Documents Processed | FY 2023 | FY 2024 | FY 2025 |
|---|---|---|---|

# The Municipal and Property Division

**Director of Municipal and Property:**

**Samuel Greene**

**Assistant Director of Municipal and Property:**

**Adam Denoncour**

The mission of the Municipal and Property Division (M&P) is to assure fairness, equity and proportionality in the assessment and collection of property taxes and the administration of municipal finances in the state by establishing tax rates, providing technical assistance and education to municipal officials, monitoring revaluations, reviewing assessment practices, equalizing local assessed valuation, appraising public utility and railroad property, and administering timber and gravel taxation.

The Division consists of two bureaus, the Municipal Bureau and the Property Bureau.

The Municipal Bureau establishes and approves municipal, school, county, state education and village district tax rates. It also provides technical assistance on taxation and finance to the approximately 564 political subdivisions of the state, and the general supervision of municipal tax collectors. Other services include:

- Prescribing a uniform chart of accounts for all municipalities.
- Establishing a standard technical assistance manual for municipalities' use.
- Conducting over 4,000 technical pre-reviews of draft warrant articles in preparation for annual meetings. Reviewing and tracking the same articles to determine statutory compliance and appropriation amounts used in property tax rate calculations.
- Reviewing trustee reports of municipal trust funds in conjunction with the Department of Justice Charitable Trust Unit.
- Conducting workshops and seminars for municipal officials including selectmen, budget committees, trustees of trust funds, tax collectors, and school officials.

**Municipal and Property Division**
**PO Box 487**
**Concord, NH**
**03302-0487**

**Municipal Bureau**
**603.230.5090**
**603.230.5947 Fax**

**Property Appraisal Bureau**
**603.230.5950**
**603.230.5943 Fax**

The Property Bureau oversees the assessment review process and monitors revaluations and revaluation contracts, as well as the following specialized services:

- The Equalization Group determines the total equalized value of all taxable property within the state on an annual basis. This allows shared tax burdens, such as the state education tax, county property tax, and cooperative school taxes to be apportioned at a single standard, full market value. The equalization process includes compiling assessment data, conducting assessment- to- sales ratio studies and preparing statistical reports.
- The Utility Appraiser values all utility and railroad properties in order to determine the correct assessment of RSA 82 Railroad Taxes and RSA 83-F Utility Property Taxes.

- The Timber and Gravel Appraisers provide administrative, technical and enforcement support to all municipalities in their assessment and collection of the RSA 79 Timber Tax and the RSA 72-B Excavation Tax.
- Staff provides support to two administratively attached boards, the Assessing Standards Board (ASB) and the Current Use Board (CUB).

**ASSESSING STANDARDS BOARD (ASB)**

Chairman – Betsey Patten

asb@dra.nh.gov

**CURRENT USE BOARD (CUB)**

Chairman – Charles Souther

cub@dra.nh.gov

**Accomplishments of FY 2025 Municipal and Property Division**

The M&P Division continues to make strides to improve services to municipalities and municipal officials while improving transparency to the public. Several initiatives were completed while others are new or ongoing. During FY 2025, these efforts have led to the following accomplishments:

- Continued to provide educational offerings for assessors and municipal employees on topics including current use, timber and gravel, institutional exemptions, and assessment review.
- Fulfilled tax rate requests within three days, on average.
- Real estate appraisers monitored 66 revaluations for the 2024 tax year, conducted assessment reviews, and continued to provide related technical assistance to taxpayers, assessors, and municipalities.
- Utilized Catalis valuation software to appraise $7.33B in utility value and $41M+ in railroad property value.
- Continued testing and development with Catalis of a new generation of equalization and MS-1 software system to update old systems and replace Access databases.
- Established capitalization rates for low-income housing tax credits (LIHTC) and values for telecommunications poles and conduits.
- Provided administrative support to the Assessing Standards Board and Current Use Board including rulemaking and the establishment of current use values.

- The Federation of Tax Administrators 2025 Award for Innovation and Excellence was awarded to DRA for the Timber Tax Educational Campaign. The Timber and Gravel Bureau provided numerous educational opportunities for municipal officials, town clerks, tax collectors, and licensed foresters in New Hampshire including on-site timber trainings for municipal personnel. The appraisers also completed approximately 1,798 operation site visits.

**MUNICIPAL AND PROPERTY DIVISION**

# The Audit Division

**Director of Audit:**
**Frederick J. Coolbroth, Jr.**

**Assistant Director of Audit:**
**Robert LaBrecque**

**Reporting Tax Fraud**
**PO Box 1338**
**Concord, NH 03302-1388**
**Tax Fraud Hotline**
**603.230.5030**
**603.230.5949 Fax**

**taxfraudhotline@dra.nh.gov**

**Audit Division**
**PO Box 1388**
**Concord, NH 03302-1388**

**603.230.5030**

**Discovery Bureau**
**PO Box 488**
**Concord, NH 03302-0488**

**603.230.5086**

The mission of the Audit Division is to promote taxpayer compliance with New Hampshire's tax laws through fair, impartial, and efficient selection and review of taxpayers' returns; taxpayer education; and discovery of non-filers. The Audit Division is committed to teamwork, professional development, and high standards of professionalism. Audit staff are responsible for conducting both desk and field audits.

For the fiscal year ended June 30, 2025, Audit staff reviewed 813 taxpayers' returns, which was an increase over the prior year. Of that number, after a full audit, the Audit Division determined that taxpayers' returns in 109 cases were materially in compliance, and these audits were closed without an assessment or other changes. Another 549 taxpayers' returns were audited with changes, resulting in assessments totaling $71,372,600.15 in tax, interest, and penalties (including reduced refund requests), as well as reductions to net operating loss deductions, Business Enterprise Tax credit carryforwards, and other credits totaling $2,574,949.22. Additionally, taxpayers filed original returns totaling more than $1.9 million in tax, interest, and penalties as a result of these audits. Of the total assessments, the Audit Division recognized more than $2.6 million in what the Department terms "revenue uplift," which consists of payments following an audit where the auditor used new tools and efficiencies from the RIMS system. Of the 813 returns reviewed, the Division ultimately did not pursue full formal audits of the remaining 155, because no material issues were identified.

In addition to its normal operations, the Division continued its nationally recognized program, colloquially referred to as "monitor forward," allowing selected taxpayers, in lieu of a traditional audit, to opt into an arrangement where more limited reviews of their meals and rooms tax returns were conducted, while their future monthly tax returns were monitored for compliance on an ongoing basis. In addition to continuing its past practice of deploying Division staff and management to present on a variety of topics at several state and regional level training events and conferences, the Audit Division also hosted a "nexus school" taught by the Multistate Tax Commission.

In addition, the Discovery/Nexus Bureau researched federal and state filings, as well as online resources, to discover non-filers who may have a duty to file and pay New Hampshire business taxes, meals and rooms taxes, or interest and dividends taxes. As a result of their efforts in FY 2025, an additional $9,232,985.26 in tax, penalties, and interest was collected, of which $1,668,534.31 came in through the voluntary disclosure program. Roughly $4.8

million of these payments were attributed to revenue uplift and when combined with the amounts attributed to auditing (described above), the Audit Division generated more than $7.4 million in total revenue uplift. Additionally, the Discovery/Nexus Bureau recovered another $1,001,261 in revenue by correcting improperly calculated BET credits.

The Tobacco Group conducted 63 retail tobacco compliance checks during the fiscal year, which resulted in the seizure of contraband tobacco products at 14 separate locations. The lead tobacco auditor became certified as a hazardous waste coordinator for the department which enabled the Group to destroy a total of 915 boxes of contraband (consisting of more than 200 thousand individual units of seized vape products) accumulated over the past five years. The group conducted 16 full audits of tobacco wholesalers. The group also added an additional member to improve and expand its operations, including improving customer service by assisting tobacco licensees with RIMS account questions and electronic filing through GTC. In addition, members of the group attended the Northeast Regional Tobacco Conference located in New Haven, Connecticut to collaborate with other states and receive training on current compliance issues. The group continued to work with the Department of Justice to ensure diligent enforcement of the Master Settlement Agreement by tobacco manufacturers and wholesalers and continued to offer quarterly training to all licensed retailers and wholesalers.

# Department of Information Technology

**Karen Sampson**
**Information Technology Manager**

**Business Relationship Management Division at The Department of Revenue Administration**

**603-230-5990**

**27 Hazen Drive**
**Concord, NH 03301**

The Department of Revenue Administration (DRA), with the support of the Department of Information Technology (DoIT), uses technology to provide an efficient and streamlined end-to-end tax process, which benefits the agency as well as NH taxpayers by providing modernized operations and accurate information.

During FY 2025, the team completed a major conversion of RIMS, upgrading the primary application from V12 to Core21. The upgrade went live in the second quarter of FY 2025. DoIT continues to utilize one DoIT Business Relationship Management Division employee to handle all security updates in the system and one DoIT employee is responsible for printing, folding, enveloping, and sealing over 340,000 pieces of mail over the course of a year. The large increase was the result of the Interest and Dividends repeal letter.

Ongoing efforts to maintain the highest level of security and comply with IRS Publication 1075 standards continue. In the second quarter of FY 2025, the Core21 version of the RIMS application went through a complete NIST 800-53 V5 Security Assessment and the Commissioner of DRA was confident in signing the Authorization to Operate (ATO) which is required after all major enhancements. All FTI mail is now generated in separate mail batches, logged in transit and securely delivered directly to the United States Postal Service.

In addition to the internal DoIT initiatives, DoIT Shared Services recently released an upgrade to convert all desktops/laptops to Windows 11. In wrapping up FY 2025, DoIT Infrastructure and Operations moved all DRA servers to the state's new Managed Datacenter Colocation site.

Lisa Crowley

## RIMS Core 21 Upgrade

In January 2024, our team kicked off the RIMS Core 21 software upgrade project, which went live on October 7, 2024. This upgrade provided visual updates to internal system configuration, new tools for viewing and searching for information, improvements to existing workflows, added security measures for our Granite Tax Connect (GTC) web portal, and updated the development code from Visual Basic to C#. The Core 21 project spanned a period of 10 months and required full-time commitment from several DRA business users, DoIT, and FAST developers. During this time, those assigned to the project painstakingly reviewed thousands of system definitions from the original implementation phases to ensure that all necessary code was updated. In addition, numerous hours were spent by developers, business testers, and trainers to ensure all DRA staff were prepared for the system changes going live on October 7, 2024.

During FY 2025, we also maintained our focus on making RIMS better for internal users and taxpayers alike. To that end, our Production Support Team continued to address requests for RIMS corrections or changes during the year. Over 611 requests for updates or changes to RIMS functionality were entered, with more than 470 requests completed by the end of the fiscal year. These requests are generated from internal users of the system as well as comments we receive from taxpayers through phone calls or other GTC feedback. For example, most of the processes you can perform via GTC include a feedback section at the end. We review this feedback monthly to identify areas of concern for our taxpayers, and if possible, we begin discussions immediately centered around making the process better. Although there are some limitations to what we can do, whether due to our stringent confidentiality and security requirements or due to the cost of maintaining certain enhancements, we are always looking to make the NH taxpayer experience a better one.

As we head into FY 2026, our focus remains on making the NH taxpayer experience as easy and stress-free as possible. We know that's not always an easy task but as always, DRA remains ready to face the challenge.

The Audit Tobacco Group and members of the Collections Division are responsible for conducting tobacco compliance checks at NH retail locations as part of the diligent enforcement provision of the Master Settlement Agreement (MSA). These checks are to ensure that NH retailers are purchasing tobacco products on which the NH tobacco tax has been paid and to identify product in the state from Non-Participating Manufacturers as outlined in the MSA. When tobacco products are found without the tax paid, it is considered contraband and subject to seizure.

[1]Misc Tax before transfers consists of Gambling Winnings Tax, Railroad Tax, Private Car Tax and Excavation Tax

# Summary of 2022 Business Taxes[1]

- Approximately 205,000 Businesses have registered with the NH Secretary of State (SoS) and are in "Good Standing" or have an "Active" status.[2,3]
  - 77,526 Business Entities filed business tax returns
    - 27,243 Business Entities filing business tax returns paid no ($0) BET or BPT
  - 50,283 Business Entities filed business tax returns with payments totaling $1,113.6m, of which
    - 2,672 (5.3%) of those paid 79.8% of BET/BPT ($888.5m out of $1,113.6m)
      - 2,072 (77.5%) are corporations paying a total of $766.7m
      - 472 (17.7%) are partnerships paying a total of $104.4m
      - 128 (4.8%) are proprietors and fiduciaries paying a total of $17.4m
    - The remaining 47,611 (94.7%) paid 20.2% of BET/BPT ($225.1m out of $1,113.6m), of which
      - 10,216 (21.4%) paid under $500 = $2.2m (1.0%)
      - 7,513 (15.8%) paid $500 - $1,000 = $5.5m (2.4%)
      - 23,481 (49.4%) paid $1,000 - $10,000 = $79.6m (35.4%)
      - 6,401 (13.4%) paid $10,000 - $50,000 = $137.8m (61.2%)

| Entities | BET | BPT | Combined | % |
|---|---|---|---|---|
| **Corporations** | $199,504,328 | $700,527,172 | $900,031,500 | 80.8% |
| **Partnerships** | $31,858,129 | $122,647,424 | $154,505,553 | 13.9% |
| **Proprietors** | $17,404,253 | $37,397,895 | $54,802,148 | 4.9% |
| **Fiduciaries** | $48,847 | $4,237,872 | $4,286,719 | 0.4% |
| *Total* | $248,815,557 | $864,810,363 | $1,113,625,920 | 100.0% |

- If there are 205,000 business entities operating in the state of NH, then 154,717 or 75.5% of them pay no business taxes (neither BET nor BPT)
- When BET and BPT are segregated:
  - 664 (1.5%) are paying 49.2% of BET
    - 590 (88.9%) are corporations paying a total of $114.2m
    - 74 (11.1%) are partnerships, proprietors and fiduciaries paying a total of $8.2m
  - 2,111 (10.2%) are paying 84.7% of BPT
    - 1,594 (75.5%) are corporations paying a total of $625.5m
    - 397 (18.8%) are partnerships paying a total of $91.1m
    - 120 (5.7%) are proprietors and fiduciaries paying a total of $16.2m

[1] Per returns received as of July 21, 2025.
[2] Information is provided by NH SoS as of October 10, 2024.
[3] Businesses that want to preserve a trade name have to register a trade name with the NH SoS. A corporation, LLC or limited partnership must also register with the NH SoS. Being registered with the NH SoS does not necessarily mean that the business is engaging in business activity in NH or that they meet the BET or BPT filing threshold. Proprietorships and rental businesses do not register unless they want to protect the name of the business.

# Low and Moderate Income Homeowners Property Tax Relief Historical Claims Data

The Low and Moderate Income Homeowners Property Tax Relief program (RSA 198:56-57) was designed to lessen the economic burden of the Statewide Education Property Tax on certain at-risk taxpayers.

Eligible claimants apply for relief to the New Hampshire Department of Revenue Administration using Form DP-8. Claimants must include a copy of their final property tax bill and federal income tax return for the claim year and any additional documentation as required by law. Completed Forms DP-8 must be postmarked no earlier than May 1, and no later than June 30 following the due date of the final property tax bill.

| Claim Year * | Claims Granted | Total Relief Paid |
|---|---|---|
| **2012** | 11,674 | $2.3 million |
| **2013** | 10,222 | $2.0 million |
| **2014** | 9,414 | $1.8 million |
| **2015** | 8,541 | $1.6 million |
| **2016** | 7,938 | $1.4 million |
| **2017** | 7,258 | $1.2 million |
| **2018** | 6,865 | $1.1 million |
| **2019** | 5,818 | $0.9 million |
| **2020** | 5,572 | $0.8 million |
| **2021** | 5,821 | $1.4 million |
| **2022** | 5,943 | $0.9 million |
| **2023** | 5,611 | $1.0 million |
| **2024 ** ** | 4,901 | $0.8 million |

* The claim year corresponds with the taxable period, starting April 1st, for the property tax bill from which relief is being sought.
**Claims paid for 2024 program year through July 11, 2025, numbers may increase as claims may be paid through November.

## HISTORICAL SUMMARY OF COMMUNICATIONS SERVICES TAX, RSA 82-A

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Communications Services Tax, RSA 82-A, was enacted by Laws of 1990, chapter 9, effective April 1, 1990.
**Current Due Date:** Returns are due on or before the 15th day of each month for the preceding calendar month.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | RATE |
|---|---|---|---|---|---|
| 1990 | 4/1/1990 for communication services purchased at retail on or after 3/1/90 | CH 9<br>CH 101 | 90% of the actual tax collections for the same calendar month of the preceding year; or 90% of the estimated tax collections for the current month. | Communication service retailers with sales in excess of $10,000. | 3% with a surtax of 66 2/3% |
| 1991 | 7/1/91 | CH 354:13 | | | Surcharge of 100% for the period beginning 7/1/91 and ending 6/30/93 |
| 1993 | 7/1/93 | CH 350:37 | | | 5.5% for the period beginning 7/1/93 and ending 6/30/95 |
| 1995 | 7/1/95 | CH 96:2 | | | 5.5% for the period beginning 7/1/95 and ending 6/30/97 |
| 1997 | 7/1/97 | CH 130:2 | | | 5.5% for the biennium ending 6/30/99 |
| 1997 | | CH 351:35 | Amended the RSA 82-A:2, V (f) exemption for charges paid by coin-operated phones. Repealed RSA 82-A:2 V (g) relative to the exemption from the CST tax for changes paid by coin-operated phones. | | |
| 1997 | | CH 351:36<br>CH 351:37 | Amended RSA 82-A:4-a requiring that tax on coin-operated telephone service may be computed to the nearness multiple of $.05 except that, where the tax is midway. | | |
| 2001 | 7/1/01 | CH 158 | | | Tax shall be 7% for period beginning 7/1/01 and ending 6/30/03 |
| 2002 | 7/1/02 | CH 219 | Amendment to RSA 82-A:1 imposes tax to source mobile telecommunications services determined under P.L. 106-252 to be the place of primary use. | | |
| 2003 | 7/1/03 | CH 319 82-A 3,4<br>See 39,40 | | | Intrastate Communications Services Tax 7% Rate imposed. |
| 2004 | 7/1/04 | CH 111<br>See 1-7 | Amends definition of gross charge service address paid calling server.<br>Special rules for private communication server place of primary use. | | |
| 2005 | 7/1/05 | CH 190 | Unbundling services to apply CST.<br>Adds audits of retailers of enhanced 911 services surcharge. | | |
| 2005 | 7/14/05 | CH 251 | Adds examinations of telephone Co. records, 911 charges. Adds appeals of 911 charges. | | |
| 2007 | 7/1/07 | CH 263:79 | Repeals exemption eff 7/1/07 | | |
| 2012 | 6/21/12 | CH 279:4 through 279:8 | Adds the definition of "Internet" and "Internet access" to RSA 82-A:2; then excludes "Internet access" from the definition of "communication services" under RSA 82-A:2, III and excludes charges for Internet access from the definition of "gross charges" under RSA 82-A:2,V. CH 279:8, Laws of 2012 instructs the DRA not to enforce any existing assessments, to promptly withdraw any pending assessments and prohibits the DRA from issuing any additional assessments with respect to Internet access and CST. | | |
| 2019 | 1/1/20 | CH 346:252-258 | Clarifies the applicability of the CST to VoIP and prepaid wireless telecommunications services. | | |

# HISTORICAL SUMMARY OF BUSINESS PROFITS TAX, RSA 77-A

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Business Profits Tax, RSA 77-A, was enacted by Laws of 1970, chapter 5, section 1, effective April 27, 1970.
**Current Due Date:** Return due dates are consistent with federal income tax due dates based on the taxpayer's entity type.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1970 Special Session | 4/27/70 Inception of the law | CH 5:1 | | $3,000, Gross Business Income | 6% |
| 1971 | 7/1/71 | CH 515:14 | | | Increased Rate 7% |
| 1973 | Returns due on periods ending on or after 12/31/73 | CH 579:1 | | $6,000, Gross Business Income | 7% |
| 1977 | 7/1/77 | CH 593:1 | | | Increased Rate 8% |
| 1979 | 8/24/79 | CH 446:4 | 25% each quarter estimate payments | | 8% |
| 1981 | 7/1/81 | CH 461:1 [Rev 305.01(a), Doc.#4192] | | $12,000, Gross Business Income | 8% plus, surtax of 13.5% Effective rate 9.08% |
| 1982 | 7/1/82 | CH 568:65,II, CH 42:70 | Minimum tax of $250, repealed the 1982 law DRA ordered to refund $ | $12,000, Gross Business Income | |
| 1983 | 7/1/83 | CH 469.42 [Rev 305.01 (b), Doc.#4192] | | $12,000, Gross Business Income for all tax years ending on and after 7/1/83 and on or before 6/30/84 | 8% plus, surtax of 19.5% Effective rate 9.56% |
| 1983 | 7/1/84 | CH 469.42 [Rev 305.01 (b), Doc.#4192] | | $12,000, Gross Business Income for all tax years ending on and after 7/1/84 and on or before 6/30/85 | 8% plus, surtax of 13.5% Effective rate 9.08% (surtax ended 6/30/85) |
| 1985 | 7/1/85 | CH 408:1 | | $12,000, Gross Business Income | An effective rate that declines monthly during the State of NH's fiscal year ending 6/30/86 |
| 1985 | 7/1/85 | CH 408 | | | All tax years ending on or after 7/1/85 and on or before 6/30/86 except short period tax years. The eff. Rate shall be as follows:<br>07/31/85 9.01% 01/31/86 8.60%<br>08/31/85 8.94% 02/28/86 8.53%<br>09/30/85 8.87% 03/31/86 8.46%<br>10/31/85 8.80% 04/30/86 8.39%<br>11/30/85 8.73% 05/31/86 8.32%<br>12/31/85 8.66% 06/30/86 8.25% |
| 1985 | Short period tax years beginning before 7/1/85 and ending after 6/30/86. | CH 469:42 | | Multiply the number of months of the tax period occurring prior to 7/1/85 by the monthly eff. tax rate (.007566) for such period. Multiply the number of months of the tax period occurring subsequent to 7/1/85 by the monthly eff. Tax rate (.006875) for such period. Add the product of these calculations; divide this sum by the total number of months in the short period tax year; and multiply the resulting product by 12. | |
| 1986 | 6/30/86 | CH 153 | | $12,000, Gross Business Income | Effective rate 8.25% for tax years ending on or after 7/1/86 and before 7/1/87 |
| 1988 | 6/30/88 | | | $12,000, Gross Business Income | Decreased Rate 8% |
| 1990 | 4/1/90 | CH 3:71 | 30%, 30%, 20%, 20% quarterly estimate payments | $12,000, Gross Business Income | 8% |
| 1991 | 3/28/91 | CH 5:1<br>CH 354<br>CH 354:7 | Business tax credits expanded, RSA 77-A:5, VI-VII<br>Sales apportionment factor x 1.5 Payroll, Property & Sales ÷ 3.5 eff. 1/1/92<br>35%, 35%, 15%, 15% quarterly estimate payments | $12,000, Gross Business Income | 8% |
| 1991 | 5/27/91 | CH 163:17 | 30%, 30%, 20%, 20% quarterly estimate payments | $12,000, Gross Business Income | 8% |
| 1993 | 7/1/94 & 7/1/99 | CH 350:11<br>CH 350:12 | Sales apportionment factor x 2, plus Payroll & Property ÷ 4 (Effective for federal tax year ending 7/1/94).<br>For tax years ending on or after 7/1/99 the factors revert back to:<br>Sales apportionment factor x 1.5, plus Payroll & Property ÷ 3.5 | | |

| 2009 | 7/15/09 | CH 223 | Establish a committee to study business tax credits and report findings 12/1/2009. | | |

## HISTORICAL SUMMARY OF BUSINESS PROFITS TAX, RSA 77-A

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Business Profits Tax, RSA 77-A, was enacted by Laws of 1970, chapter 5, section 1, effective April 27, 1970.
**Current Due Date:** Return due dates are consistent with federal income tax due dates based on the taxpayer's entity type.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2010 | 7/8/10 | CH 286 | RSA 77:4-b, allows a business organization engaged in an IRC §1031 Like-Kind Exchange to utilize a single member limited liability company, revocable trust or other entity disregarded for federal tax purposes as the recipient entity. Under the special rule, the recipient entity takes the basis of the relinquished property as held by the parent organization as computed for federal income tax purposes. | | |
| 2010 | 7/13/10 | CH 311 | RSA Chapter 162-N Economic Revitalization Zone Tax Credit amended to extend the availability of the credits for four years and makes certain changes to the eligibility for and determination of the eligible amounts for the credits. | | |
| 2010 | 7/20/10 | CH 324:2, 4 and 5 | RSA 77-A:4, III the amount of the deduction for compensation for personal services shall be determined, as applicable to NH's tax structure, using the standards set forth in IRC §162(a)(1). Beginning on or after 1/1/11 there is a record-keeping safe harbor for deductions up to $50,000 as total compensation for the tax year. Also creates a study committee to study safe harbors and the taxation of investment organizations (report due 11/1/11). | | |
| 2011 | 6/14/11 | CH 181:2 | RSA 77-A:1, XXI(a), to include under the definition of "Qualified Investment Company" a Qualified Community Development Entity (as defined in section 45D of the US Internal Revenue Code), which is owned, controlled, or managed, directly or indirectly, by the NH Business Finance Authority. | | |
| 2011 | 6/25/11 | CH 207 | RSA 77-A:4, III, for taxable periods beginning on or after January 1, 2011: Modified the standards and burden of proof with respect to the Business Profits Tax deduction for reasonable compensation attributable to owners of partnerships, limited liability companies, and sole proprietorships that file a business tax return as a partnership or proprietorship. Keeps the standards set forth in IRC §162(a)(1) and the $50,000 "record-keeping safe harbor." Amends the burden of proving the reasonableness of the compensation deduction: A business organization claiming a deduction bears the burden of proving that all proprietors, partners, or members for whom a deduction is being claimed provided actual personal services to the business organization at any time during the taxable period. Once a business organization satisfies this burden of proof, the amount claimed as a deduction shall be presumed to be reasonable, unless the Department proves by a preponderance of the evidence that the deduction claimed by the business organization is clearly unreasonable. | | |
| 2011 | 7/1/13 | CH 224:363 | RSA 77-A:4, XIII, increases the amount of Net Operating Loss that may be generated in a tax year from $1,000,000 to $10,000,000. | | |
| 2011 | 7/1/14 | CH 225 | RSA 77-A:5, X, applicable for taxable periods ending on or after July 1, 2014, changes the carryforward periods for the BET credit against the BPT from five taxable periods to ten taxable periods. | | |
| 2012 | 6/27/12 | CH 287:2 | RSA 77-G, establishes an Education Tax Credit against the BPT equal to 85% of a business organization's donation to a scholarship organization under new chapter RSA 77-G. First year of program to begin January 1, 2013. | | |
| 2012 | 5/23/12 | CH 71 | RSA 77-A:4, XIII (e), changes the applicability date for CH 224:363, Laws of 2011 (see above) from July 1, 2013 to January 1, 2013. | | |
| 2012 | 8/4/12 | CH 116 | Changes the prospective repeal date for the Research and Development Tax Credit under RSA 77-A:5, XIII from July 1, 2013 to July 1, 2015. | | |

## HISTORICAL SUMMARY OF BUSINESS PROFITS TAX, RSA 77-A

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Business Profits Tax, RSA 77-A, was enacted by Laws of 1970, chapter 5, section 1, effective April 27, 1970.
**Current Due Date:** Return due dates are consistent with federal income tax due dates based on the taxpayer's entity type.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2012 | 7/1/12 | CH 253 | RSA 77-A:7, I (a) puts into statute the current practice of allowing a taxpayer to apply the BET credit against the BPT on a quarterly basis when making estimate payments. | | |
| 2012 | 6/21/12 | CH 279:10 | Creates new section RSA 77-A:3-a "Expense Deductions," which allows an IRC §179 deduction not to exceed $25,000. Applicable to any qualifying IRC §179 property placed into service on or after January 1, 2012. | | |
| 2013 | 5/20/13 | CH 5 | Increased the maximum aggregate amount of R&D tax credit awarded from $1,000,000 to $2,000,000 under RSA 77-A:5, effective May 20, 2013. Also removed the prospective repeal of the R&D tax credit. The R&D tax credit remains in effect indefinitely. | | |
| 2013 | 8/19/13 | CH 90:3 | RSA 77-A:10 amended to require the DRA to give notice to a taxpayer within 6 months of the taxpayer's filing of a Report of Change that their return is being reviewed. | | |
| 2013 | 7/1/13 | CH 71 | RSA 77-A:4, III (c) increasing the deduction amount for the personal compensation deduction record-keeping safe harbor from $50,000 to $75,000, effective July 1, 2013. | | |
| 2014 | 7/1/14 | CH 192 | RSA 77-A:5, X, clarifying CH. 225, Laws of 2011, any unused BET credit from taxable periods ending on or after December 31, 2014 may be carried forward for 10 years from the taxable period in which it was paid. | | |
| 2015 | 7/1/15 | CH 599 | RSA 162-N, altering the qualifications for the economic revitalization zone tax credit and requiring review of qualification for the tax credit every 5 years. | | |
| 2015 | 1/1/16 | CH 274:23-24 | | | 8.2% (for taxable periods ending on or after 12/31/2016)<br>7.9% (for taxable periods ending on or after 12/31/2018 contingent upon combined unrestricted general and education trust fund revenues of $4.64 billion being collected during the biennium ending 6/30/2017 |
| 2015 | 7/1/17 | CH 276:241 | RSA 77-A:5, XIII (a)(1) increasing the total aggregate amount of the R&D Tax Credit to $7 million. | | |
| 2015 | 7/1/15 | CH 276:242-243 | Authorized a Tax Amnesty Program applicable to all taxes administered by the DRA running from 12/1/15-02/15/16. | | |
| 2016 | 6/21/16 | CH 295 | Adopted the IRC of 1986 in eff. on 12/31/15 except IRC §§ 168(k) (bonus depreciation), 199 (domestic production activities), 181 (movie production expenses), and 179 (maximum deduction limited to $100,000 for NH purposes). The changes are eff. for tax years beginning on or after 1/1/17. | | |

## HISTORICAL SUMMARY OF BUSINESS PROFITS TAX, RSA 77-A

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Business Profits Tax, RSA 77-A, was enacted by Laws of 1970, chapter 5, section 1, effective April 27, 1970.
**Current Due Date:** Return due dates are consistent with federal income tax due dates based on the taxpayer's entity type.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2016 | 6/21/16 | CH 300 | RSA 77-A:4, XIV, eliminates the requirement that a business organization make an addition to gross business profits when an interest or beneficial interest in the business organization is sold or exchanged in an amount equal to the net increase in the basis of all underlying assets. Any portion of the annual depreciation or amortization attributable to the increase in basis federally from the sale of an ownership interest shall be added back to the gross business profits of the business organization and the gain or loss on the sale or disposition of the asset shall be calculated without regard to the basis increase recognized federally. The business organization may make an irrevocable election to recognize the basis increase for any particular sale or exchange and if made, the business organization shall make an addition to gross business profits in an amount equal to the net increase in the basis of its assets in the tax period when the sale or exchange of the ownership interest occurs. The business organization may then deduct against gross business profits any annual depreciation or amortization attributable to the increased basis and take into consideration the basis increase upon the sale or disposition of the asset. Applicable to sales or exchanges occurring on or after 1/1/16. | | |
| 2017 | 7/1/19 | CH 156:213 | | | 7.7% (for taxable periods ending on or after 12/31/2019) |
| 2017 | 7/1/21 | CH 156:215 | | | 7.5% (for taxable periods ending on or after 12/31/2021) **REPEALED** |
| 2018 | 7/29/18 | CH 157 | Establishes exemptions for qualified regenerative manufacturing companies from the Business Profits Tax and the Business Enterprise Tax, which expires for taxable periods beginning after December 31, 2017. | | |
| 2018 | 7/1/18 | CH 357 | Allows a business organization to carry forward any unused portion of the education tax credit amount awarded for 5 succeeding years, but not more than $1,000,000 in any given tax year. | | |
| 2019 | 7/1/19 | CH 247 | Establishes a tax credit against the Business Profits Tax for qualifying charitable donations to career and technical education centers. The program is scheduled to be repealed after state fiscal year 2026. | | |
| 2019 | 7/1/19 | CH 346:200-202 | | | 7.7% (for taxable periods ending on or after 12/31/2019) |
| 2019 | 7/1/19 | CH 346:200-202 | | | For all taxable periods ending on or after December 31, 2021, the BPT rate depends on the combined amount of general and education trust fund revenue collected for the fiscal year ending June 30, 2020. If the combined revenue is 6% or more below the official revenue estimates, the BPT rate will be 7.9%. If the combined revenue is 6% or more above the official revenue estimates, the BPT rate will be 7.5%. Otherwise, the BPT rate will continue to be 7.7%. |
| 2019 | 1/1/21 | CH 346:424-425, 430 | Adopts the market-based sourcing method of apportioning sales of services and intangibles for purposes of the BPT (effective January 1, 2021, for taxable periods ending on or after December 31, 2021). | | |
| 2019 | 1/1/22 | CH 346:426-429 | Adopts a single sales factor apportionment formula (effective January 1, 2022 for taxable periods ending on or after December 31, 2022 unless rescinded by majority vote of the Legislative Committee on Apportionment). | | |

The Business Profits Tax, RSA 77-A, was enacted by Laws of 1970, chapter 5, section 1, effective April 27, 1970.
**Current Due Date:** Return due dates are consistent with federal income tax due dates based on the taxpayer's entity type.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2021 | 7/1/21 | CH 199 | RSA 77-A:6, I, the BPT threshold amounts shall be biennially adjusted based on the 2-year percentage change in the CPI for All Urban Consumers, Northeast Region, as published by the Bureau of Labor Statistics, U.S. Department of Labor, using the amount published for the month of June in the year prior to the start of the tax year. Effective for taxable period beginning January 1, 2023. | $92,000 (taxable periods ending on or after 12/31/22); $103,000 (taxable periods ending on or after 12/31/23); $109,000 (taxable periods ending on or after 12/21/25) | |
| 2021 | 6/25/21 | CH 91:109-111 | | | 7.6% (taxable periods ending on or after 12/31/22) |
| 2022 | 6/17/22 | CH 189 | | | 7.5% (taxable periods ending on or after December 31, 2023). |
| 2022 | 7/1/22 | CH 241 | Modifies the calculation of net operating loss carryover, shall only be apportioned in the year the net operating loss is incurred (shall apply to business organizations tax years ending on or after December 31, 2022). | | |
| 2023 | 7/1/2023 | CH 79: 191 | Amends the formula employed for the distribution of BPT revenue to the Education Trust Fund, which will now be at the rate of 41%. | | |
| 2023 | 1/1/24 | CH 169 | Allows a deduction of business interest expense without the federal IRC §163(j) limitation, for taxable periods beginning on or after January 1, 2024. | | |

## HISTORICAL SUMMARY OF BUSINESS ENTERPRISE TAX, RSA 77-E

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Business Enterprise Tax, RSA 77-E, was enacted by Laws of 1993, chapter 350, effective July 1, 1993.
**Current Due Date:** Return due dates are consistent with federal income tax due dates based on the taxpayer's entity type.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1993 | 7/1/93 | CH 350 | | Total Gross Receipts in excess of $100,000, or the enterprise value tax base of which is greater than $50,000. The sum of all compensation paid or accrued, interest paid or accrued and dividends paid by the business enterprise, before special adjustments or apportionments. | .25% of the enterprise value tax base, calculated using three components: Compensation, Dividends and Interest & % of total sales. |
| 1993 | 7/1/93 | CH 350:16 | Established a dollar-for-dollar credit against the BPT for taxes paid under the BET. This tax credit was allowed to be carried forward for up to five years from the taxable period in which the tax was paid. No amount of tax paid pursuant to RSA 77-E and used as a credit against the taxes due under RSA 83-C or RSA 400-A shall be allowed as a credit under this paragraph except as provided in RSA 83-C:2-a or RSA 400-A:34-a. | | |
| 1996 | 7/1/96 | CH 235:2 | Amended RSA 77-E:5 to establish estimate payments and to require a declaration of estimated tax; and RSA 77-E:6 to establish 25% quarterly payment schedule. If the estimated tax is less than $200 a declaration need not be filed. Apply to returns & taxes due ending on or after 1/1/97 | | |
| 1999 | 7/1/99 | CH 17 | | | .25% to .5% for entire tax period and not just for the months after 6/3/99. |
| 2001 | 7/1/01 | CH 158 | | Increased filing threshold to gross business receipts in excess of $150,000 or the enterprise value tax base greater than $75,000 | From 5% to .75% (three quarters of 1%) for periods ending on or after 7/1/01. |
| 2003 | 7/1/03 | CH 301 77E:3-a | Crop Zone Credit | | |
| 2004 | 5/24/04 | CH 143 77E 1,5 | QIC | | |
| 2007 | 7/1/07 | CH 263 3-a<br>CH 271 3b | Repealed and reenacted Economic Revitalization Zone tax credit eff. 7/1/07. R&D Credit unused portion available to apply to BET eff 7/1/07 | | |
| 2009 | 40009 | CH 223 | Establish a study committee to study business tax credits. Report due 12/1/09. | | |
| 2010 | 7/13/10 | CH 311 | RSA Chapter 162-N Economic Revitalization Zone Tax Credit amended to extend the availability of the credits for four more years and makes certain changes to the eligibility for and determination of the eligible amounts for the credits. | | |
| 2011 | 7/1/14 | CH 225 | RSA 77-A:5, X, applicable for taxable periods ending on or after July 1, 2014 changes the carryforward periods for the BET credit against the BPT from five taxable periods to ten taxable periods. | | |
| 2011 | 6/14/11 | CH 181:3 | RSA 77-E:1, XIV(a) to include under the definition of "Qualified Investment Company" a Qualified Community Development Entity (as defined in section 45D of the US Internal Revenue Code), which is owned, controlled, or managed, directly or indirectly, by the NH Business Finance Authority. | | |
| 2012 | 6/27/12 | CH 287:3 | RSA 77-G, establishes an Education Tax Credit against the BET equal to 85% of a business enterprise's donation to a scholarship organization under new chapter RSA 77-G. The credit is not deemed taxes paid for purposes of RSA 77-A:5, X. First year of program to begin January 1, 2013. | | |

## HISTORICAL SUMMARY OF BUSINESS ENTERPRISE TAX, RSA 77-E

## HISTORICAL SUMMARY OF MEALS AND ROOMS (RENTALS) TAX, RSA 78-A

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Meals and Rooms (Rentals) Tax, RSA 78-A, was enacted by Laws of 1967, chapter 213, section 1, effective July 7, 1967.
**Current Due Date:** Returns are due on or before the 15th day of the calendar month following the collection of taxes.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2009 | 1/10/10 | CH 144:269 | RSA 78-A:8-b, I-a, $5000 bond to secure tax on I&P deed | | |
| 2009 | 1/10/10 | CH 144:271 | RSA 78-A:4 I, No license if unpaid taxes or filed as subterfuge. | | |
| 2010 | 5/3/10 | CH 6<br>CH 231 | RSA 78-A:3, III eliminated the Meals and Rentals Tax on campsites | | |
| 2010 | 1/17/10 | CH 48 | RSA 78-A:4, IV makes licenses, operator information displayed on licenses and license dispositions (such as issuance, renewal, suspension and revocation) public record. Amends RSA 21-J:14, IV. | | |
| 2010 | 5/18/10 | CH 58 | Repeals RSA 78-A:8-b, 1-a requiring a surety bond. | | |
| 2010 | 8/20/10 | CH 187 | Repeals RSA 78-A:8-b, 1-a requiring a surety bond. | | |
| 2011 | 7/1/11 | CH 224:1,2<br>CH 224:316 | RSA 78-A:26, for each fiscal year of the biennium ending June 30, 2013, the State Treasurer shall fund the distribution of revenue at no more than the fiscal year 2011 distribution.<br>For the biennium ending June 30, 2013, distribution of net income pursuant to RSA 78-A:26, I(a)(2) credited to the Department of Resources and Economic Development, Division of Travel and Tourism Development is suspended.<br>RSA 78-A:4, II, repeals the $5.00 fee for a Meals & Rentals Operator's License. | | |
| 2012 | 5/23/12 | CH 73:3 through 73:6 | RSA 78-A:5, II clarifies that an M&R License shall remain valid during the pendency of an appeal for a refusal to renew such license. RSA 78-A:7, I(a) and RSA 78-A:7, IV clarifies the current tax rate at 9%. RSA 78-A:8-b, I clarifies the timing of filing a surety bond to be *after* a hearing. | | |
| 2016 | 8/23/16 | CH 323 | RSA 78-A:4-a, requiring that advertisements for short-term rentals include the M&R License number of the Operator. | | |
| 2019 | 1/1/20 | CH 304 | Simplifies, clarifies, and modernizes the M&R Tax Law as it relates to meals. Although changes primarily editorial in nature, there are substantive changes including: (1) modifications to meals-related definitions; (2) a penalty provision (after a warning, a license revocation, suspension, or denial) for violating the requirement that a license "shall be conspicuously posted in a public area upon the premises"; (3) authority to require a surety bond or cash from an operator without an initial hearing; and (4) an extension of the deadline for an operator to appeal a license revocation, suspension, or denial to the BTLA or Superior Court, from 10 days to 15 days. | | |
| 2021 | 6/25/21 | CH 91:103-105 | | | 8.5% (taxable periods beginning on or after 10/1/21) |
| 2024 | 7/1/24 | CH 190 | Exempts taxation on meals consumed or provided by a restaurant, café, or other food service establishment that are redeemed through the Bureau of Elderly and Adult Services restaurant voucher program. | | |
| 2024 | 1/1/25 | CH 310 | Amends RSA 78-A:21 so that, for purposes of imposing a lien on an operator due to unpaid M&R taxes, an operator is any person who has actual or constructive managerial or custodial responsibility and does not include persons with a mere ownership interest. | | |

## HISTORICAL SUMMARY OF MEDICAID ENHANCEMENT TAX, RSA 84-A

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Medicaid Enhancement Tax, RSA 84-A, was enacted by Laws of 1991, chapter 299, effective June 20, 1991.
**Current Due Date:** Returns are due on or before the 15th day of April.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1991 | 6/20/91 | CH 299 | Medicaid Enhancement Tax enacted RSA 84-A. This tax was designed to be paid by electronic transfer to the State Treasurer | | 8% of gross patient services revenue |
| 1991 | 11/12/91 | CH 390 | Supplemental Medicaid Tax enacted RSA 84-B | | Imposed on medical patient discharges in the amount of $250 M, times the number of Medicaid patient discharges of each hospital for the same period during each hospital's fiscal year ending during the first full calendar year preceding the taxable period. |
| 1993 | 7/1/93 | CH 4:16 | Supplemental Medicaid Tax repealed RSA 84-B | | |
| 1995 | 5/10/95 | CH 80 | Setting the rate on or before 4/1 preceding the first fiscal year of the biennium, the rate of tax for the period beginning 7/1/95 and ending 6/30/97 | | 6% upon the gross patient services revenue of every hospital |
| 1999 | | | | | 6% of gross patient services revenue |
| 2003 | 7/1/03 | CH 319 | | | Impose 6% upon gross patient services revenue |
| 2004 | 7/1/05 | CH 260 | | | Impose 6% upon gross patient services revenue |
| 2007 | 7/1/07 | CH 263:50 | | | Impose tax of 5.5% |
| 2010 | 7/1/10 | CH 1:12 | Amends RSA 84-A:3, II-a, tax due no later than the 15th day of the 4th month of the taxable period. | | |
| 2011 | 7/1/11 | CH 224:34<br>CH 224:38-40 | Transfers the authority for the Medicaid Enhancement Tax Account from the DHHS to the DRA. Amends the definition of “hospital” under RSA 84-A:1, III and the definition of “net patient services revenue” under RSA 84-A:1, IV-a In addition, paragraphs I and II of RSA 84-A:3, as they were applied in 1991 and 1992, were declared null and void. | | |
| 2014 | 7/1/14 | CH 158:1-11 & :19 | Adds new definitions for "inpatient hospital services" and "outpatient hospital services". Amends the definition of “hospital” under RSA 84-A:1, III and the definition of “net patient services revenue” under RSA 84-A:1, IV-a In addition, a "non-binding estimate" is now due by January 15 and 100% of payment is due April 15 with the filing of the return due the same day. | | No change until 2016 - reduces the current tax rate of 5.5% to 5.45% in 2016 and to 5.4% in 2017 and beyond, unless the total aggregate uncompensated care for hospitals with both a critical and noncritical designation falls below $375,000,000, at which point the rate shall be 5.25%. |
| 2018 | 6/6/18 | CH 162:34 | Removes the possibility of a future rate reduction (from 5.4% to 5.25%) to the extent the total aggregate uncompensated care for hospitals with both a critical and a noncritical access hospital designation falls below $375 million for the taxable period. | | 5.4% |

## HISTORICAL SUMMARY OF NURSING FACILITY QUALITY ASSESSMENT TAX, RSA 84-C

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Nursing Facility Quality Assessment Tax, RSA 84-C, was enacted by Laws of 2003, chapter 223, effective July 1, 2003.
**Current Due Date:** Returns are due on or before the 10th day of the month following the expiration of the assessment period.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2004 | 6/16/04 | CH 260 | Impose 6% tax net patient revenue | | 6% of net patient services revenue |
| 2007 | 7/1/07 | CH 263:51 | | | 5.5% of net patient services revenue |
| 2010 | 8/13/10 | CH 152:1 | Amend RSA 21-J:3, XXI exempting RSA 84-C:5 from electronic payment threshold of $100,000. | | |
| 2010 | 8/13/10 | CH 152:5 | Amend RSA 84-C:3, no penalties or interest for late payments if paid by the last day of the month due. | | |
| 2011 | 7/1/11 | CH 224:46-48 | Provides a contingency for the biennium ending June 30, 2013, that no Nursing Facility Quality Assessment (NFQA) shall be assessed and no return shall be required.<br>For the biennium ending June 30, 2013, 25% of the receipts from the NFQA and the ICF Quality Assessment shall be deposited as restricted revenue in accounts of the DHHS.<br>The assessment period beginning April 1st shall be April 1 to May 31, 2011; the returns shall be filed on or before June 27, 2011; the remainder of the assessment period (June 1 - June 30, 2011) shall be carried out as would otherwise have been, except that the returns filed in July, 2011 shall only cover the period June 1- June 30, 2011. | | |
| 2019 | 1/1/19 | CH 346:358, I | Repeals the ICF quality assessment under RSA 84-D. | | |

## HISTORICAL SUMMARY OF REAL ESTATE TRANSFER TAX, RSA 78-B

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. ## HISTORICAL SUMMARY OF REAL ESTATE TRANSFER TAX, RSA 78-B

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Real Estate Transfer Tax, RSA 78-B, was enacted by Laws of 1967, chapter 320.
**Current Due Date:** Returns are due no later than 30 days from the recording of the deed at the registry of deeds or transfer of real estate, whichever is later.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2011 | 8/13/11 | CH 179 | RSA 78-B:10, requires a purchaser and seller in a real estate transfer (or transfer of interest therein) to each file a separate Declaration of Consideration (Form CD-57-P and Form CD-57-S) with the Department. | | |
| 2015 | 7/1/15 | CH 255 | RSA 78-B, exempts any lease, including any sale, transfer or assignment of any interest in leased property, from the RETT when the term of the lease is for less than 99 years, including all renewals. | | |
| 2015 | 7/1/15 | CH 133 | RSA 78-B:1, IV, clarifying the definition of "price or consideration, and RSA 78-B:2, clarifying the exception for transfers by devise or testamentary disposition. | | |
| 2016 | 6/21/16 | CH 288 | RSA 78-B:2, XXI, exempting transfers that are coincidental to a change in the transferor's form of organization, provided: (1) no consideration is exchanged; (2) the assets and liabilities of the transferor immediately preceding the transfer and the assets and liabilities of the transferee immediately following the transfer are the same; and (3) the owner(s) of the transferor and transferee and their respective ownership percentages remain the same. RSA 78-B:2, XXII, exempting transfers from the owners of an entity to the entity, or from the entity to the owners of the entity, provided that: (1) no consideration is exchanged; (2) the assets and liabilities of the transferor and transferee remain the same except with respect to the transferred real estate; and (3) the owner(s) of the transferor and transferee and their respective ownership percentages remain the same. RSA 78-B:1-a, IV, the definition of "price or consideration," is amended to provide that transfers made solely to obtain financing or refinancing, as required by the lending institution, shall not be sufficient consideration to make a transfer a contractual transfer. The definition of "price or consideration" is further amended to specify that the definition does not include the recitation of nominal consideration of $10 or other valuable consideration for purposes of satisfying the statute of frauds. | | |
| 2018 | 7/1/18 | CH 171 | Removes the references to stamps as being required to indicate payment of the Real Estate Transfer Tax and the land and community heritage investment program (L-CHIP) recording surcharge. | | |
| 2019 | 7/1/19 | CH 136 | Adds an exception to the Real Estate Transfer Tax (RETT) for transfers of interest in certain low-income housing projects subject to federal, state, or local land use restriction and rental housing affordability covenants which limit allowable rents charged to individuals or families, provided that the RETT was paid when the real property was acquired. | | |
| 2024 | 7/1/24 | CH 1 | Adds an exception to the Real Estate Transfer Tax (RETT) for "transfer on death deeds" under (new) RSA 563-D, the Uniform Real Property Transfer on Death Act. | | |

## HISTORICAL SUMMARY OF STATE EDUCATION PROPERTY TAX, RSA 76

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1999 | 4/1/99 | CH 17 | RSA 76:3 is repealed and reenacted to read as follows: An annual education property tax at the uniform rate of $6.60 on each $1,000 of the value of taxable property is hereby imposed on all persons and property taxable pursuant to RSA 72 and RSA 73, except property subject to tax under RSA 82 and RSA 83-F | | $6.60 per $1,000 of equalized value |
| 2001 | 4/1/02 | CH 158:18, 84 | Uniform rate of $5.80 on each $1,000 of the value of taxable property, except property subject to tax under RSA 82 and RSA 83-F | | $5.80 per $1,000 of equalized value |
| 2003 | 7/1/05 | CH 241 | Renamed statewide enhance education tax beginning FY 2005 (See also tax rate) | | $4.92 per $1,000 of equalized value for FY 2004 and $3.24 for FY 2005; At a rate that raises $363,677,547 beginning FY 2006 |
| 2004 | 7/1/04 | CH 195 | Clarifies method of calculating utility property | | |
| 2005 | 9/1/05<br>7/1/05 | CH 96 CH 257 | Further clarifications re: utility property Establishes new education funding regime and fixes tax rate contingent upon constitutionality | | Set to raise $363,000,000 |
| 2009 | 7/1/09 | CH 144:270 | RSA 21-J:43, Changes installment plan time length from 6 months to no amount of time | | |
| 2009 | 7/1/09 | CH 144:285 | RSA 72:28, Tax exemption on Commercial Industrial Construction changed to preceding the tax year for which exemption is claimed | | |
| 2010 | 6/14/10 | CH 153 | RSA 76:15-aa,I, allowing towns converting to quarterly property tax billing to make the first bill due on a date other than April 1st. | | |
| 2011 | 7/1/11 | CH 258 | RSA 198 and RSA 76 - Changes the name of the "State Education Property Tax" to "Education Tax" and repeals the requirement for excess payments to be remitted to the Department, thereby allowing municipalities to retain all of the state tax accessed. It also repeals RSA 198:47 regarding the DP-5 form and amends the calculation of adequate education grants and makes other changes to the education grant formula and distribution. | | |
| 2011 | 7/13/11 | CH 262 | RSA 76:15-a and RSA 76:15-aa - Allows for the adjustment in the method of calculating the partial payment of taxes related to an increase or decrease in local education taxes resulting from a change to the town's or city's adequate education grant or excess tax amount. The changes apply to both semi-annual and quarterly collection of taxes. | | |
| 2012 | 7/1/12 | CH 29 | RSA 76:11 - Allows any town, with the approval of the governing body, to send tax bills or notices by electronic means to those taxpayers who have specifically requested such delivery. | | |
| | 4/1/13 | CH 169 | RSA 76:2 and RSA 76:21 - Establishes the procedure for the proration of assessments for property taxes for taxable buildings damaged due to unintended fire or natural disaster to the extent that the building can no longer be used for its intended use. | | |

## HISTORICAL SUMMARY OF STATE EDUCATION PROPERTY TAX, RSA 76

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2016 | 7/2/16 | CH 37 | RSA 80:90, I(f), reduces the penalty paid from 15% to 10% of the assessed value of the property when a former owner repurchases tax-deeded property. Amends RSA 80:89, II to provide that the penalty referenced above shall not be assessed when the property being repurchased was the former owner's principal residence. RSA 80:89, II is also amended to provide that the former owner has 30 days (instead of the current 15) to pay all monies owed after providing the municipality notice of the intent to repurchase tax-deeded property. | | |
| 2018 | 4/1/19 | CH 282:1-2 | Lowers the interest rate charged on delinquent property taxes from 12 to 8 percent per annum. The lower interest rates apply to taxes assessed on or after April 1, 2019. | | |
| 2021 | 1/1/22 | CH 91:322-324 | Provides that for the fiscal year ending June 30, 2023, the Commissioner of DRA shall set the education tax rate at a level sufficient to generate $263 million effective for taxable periods beginning on or after April 1, 2022. | | Set to raise $263,000,000 for tax year 2022 only (FY 2023) |

## HISTORICAL SUMMARY OF TIMBER TAX, RSA 79

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Timber Tax, RSA 79, was enacted by Laws of 1949, chapter 295.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1949 | | CH 295:1 | Forest Conservation and Taxation statute enacted. | | 10% of stumpage value taxable at time of cutting |
| 1955 | | RSA 79:20 and RSA 79:23 CH 287:1 | Addition of special aid to heavily timbered towns | | 12% of stumpage value |
| 1975 | | CH 457:3 | Repealed special aid to heavily timbered towns | | Effective 4/1/80. Tax rate returned to 10% of stumpage value |
| 1999 | | | Current requirements for filing: All timber is taxable except as provided in RSA 79:1,II,b,1-5 and RSA 79:2. The normal yield tax shall be deposited into the general fund within the town the timber was cut. | | |
| 2003 | | | Amend language no tax change | | |
| 2004 | | | Intent to cut | | |
| 2012 | 7/1/12 | CH 141 | RSA 79:1, II(a), changes the definition of an owner of timber right to address joint tenants and tenants in common. | | |
| 2018 | 9/1/18 | CH 182 | CH 182 (1) authorizes a municipality to waive the yield tax on timber harvested from land owned by, and located in, the municipality; (2) eliminates the requirement of filing a supplemental notice when the total volume of the cut exceeds the total volume reported in the intent to cut by less than 25 percent, except where a bond is required by RSA 79:3-a or RSA 79:10-a, II; (3) reduces the time for assessing officials to sign an intent to cut from 30 days to 15 days if all conditions for approval have been met, but allows them to sign it outside a public meeting; and (4) requires a municipality to provide public notice of an intent to cut before it is signed by assessing officials. | | |
| 2019 | 8/17/19 | CH 84 | Clarifies that public notice of an intent to cut timber is required only when the intent to cut will be signed by the assessing officials outside a public meeting. | | |
| 2023 | 8/29/23 | CH 117 | Allows the owner to commence cutting operations if the owner had met all the conditions for approval but the notice of intent to cut timber is not signed by the assessing officials within 15 days and that the assessing officials have not communicated a reason to the owner as to why conditions for approval have not been met. Prior to cutting, the owner shall submit to the DRA, a copy of the notice of intent and provide the date of filing. If the assessing officials determine that conditions for approval have not been met, the assessing officials shall notify the owner and the person responsible for the cutting, where the cutting operations shall cease until those conditions are met and the intent signed. This bill also requires assessing officials to forward any signed intent to the Commissioner of the DRA within five business days, and provide a copy to the owner. | | |
| 2024 | 7/1/24 | CH 19 | Amends the personal use exceptions to the requirement to file an intent to cut and to pay tax, to increase the exempt amounts from 10,000 to 15,000 board feet of logs, from 20 to 30 cords of fuel wood, and to add 300 tons of whole tree chips. | | |

## HISTORICAL SUMMARY OF TOBACCO TAX, RSA 78

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Tobacco Tax, RSA 78, was enacted by Laws of 1939, chapter 167.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1939 | | RSA 78 CH 167:1 | For cigarettes, the Department sells tobacco tax stamps to licensed wholesalers. | | 15%, based on the value at usual selling price of all Tobacco Products |
| 1965 | | CH 132 | RSA 78:9 establishes a discount rate, based on the volume of sales, as follows: 2-3/4% sales up to the first $500,000; 2-3/8% sales from $501,000 to $1M; 2% sales in excess of $1M. Based on annual sales from July 1st through June 30th. | | Increased to **21%** |
| 1967 | | CH 159 | | | Increased to **30%** |
| 1970 | | CH 5 | | | Increased to **34%** |
| 1971 | 7/1/71 | CH 475 | | | Increased to **42%** |
| 1975 | 7/1/75 | CH 466 | | | Changed the **flat rate of $0.12** per package of 20 cigarettes; no tax on other tobacco products. |
| 1983 | 7/1/83 | CH 469:103 | | | Increased to **$0.17** per package (to match the State of Vermont) |
| 1985 | 8/25/85 | CH 396:1 | Contingency plan to adjust the tax rate only if Vermont changed their tax rate. | | |
| 1986 | | CH 75:1 | | | Rate fixed at **$0.17** per package of 20 cigarettes, and $0.21 per package of 25 cigarettes. |
| 1989 | 7/1/89 | CH 336:1 | | | Rate fixed at **$0.21** per package of 20 cigarettes, and **$0.26¼** per package of 25 cigarettes, and proportional to packages of more or less. |
| 1990 | 2/20/90 | CH 5:1 | | | Increased to **$0.25** per package of 20 cigarettes, and **$0.31¼** per package of 25 cigarettes. |
| 1991 | 7/1/91 | CH 292 | Enacted a Smokeless Tobacco Tax, with a rate "…proportional to the cigarette tax, having such ratio to the usual wholesale price of the tobacco product other than cigarettes as the cigarette tax bears to the usual wholesale price of the cigarettes." This is a rate that must be periodically calculated by the Collection Division. | | |
| 1993 | 1/1/94 | CH 114 | Restructured licensing process so the license will expire in each even-numbered year (good for two years), with prices as follows:<br>Manufacturer $100<br>Wholesalers $250<br>Sub-jobber $150<br>Retailer $10<br>Vending Machine $10<br>Vending Machine Operator $70 | | |
| 1995 | 8/18/95 | CH 259:2 | Enacted a prohibition against the sale or distribution to persons under 18 years of age; anyone not complying is guilty of a violation with a fine of $100 for each offense. Also enacted restrictions on sale of tobacco products through vending machines. | | |
| 1997 | 1/1/97 | CH 351:57 | | | Increased the tax rate from $0.25 to $0.37. |
| 1997 | 1/1/98 | CH 338:2 | Added license fees for tobacco samplers and for each vending machine location. | | |
| 1997 | 1/1/98 | CH 338:7 | Enacted further restrictions on sale of tobacco products through vending machines. | | |
| 1999 | | CH 351:57 | | | Increased the rate of tobacco to $0.52 per pack of 20 not to include cigars, pipe tobacco and loose tobacco. |
| 2003 | 7/1/03 | CH 152 | | | Rate $0.52 per pack. 19% tax on tobacco other than cigarettes. |

## HISTORICAL SUMMARY OF TOBACCO TAX, RSA 78

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Tobacco Tax, RSA 78, was enacted by Laws of 1939, chapter 167.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2003 | 7/1/03 | CH 319 | Tax stamps discount removed. Repealed comp for collecting tax. | | |
| 2005 | 7/1/05 | CH 177 | Added "loose tobacco" to definition of tobacco products. Inventory submitted as of 20 days of effective date. | | Increased tax from $0.52 to $0.80 |
| 2007 | 7/1/07 | CH 263 | | | $1.08 Tax imposed |
| 2009 | 7/1/09 | CH 144:2 (HB 2) | | | RSA 78:7, $0.45 increase in tax from $1.33 to $1.78 |
| 2009 | 7/1/09 | CH 144:3 | RSA 78:2, Inventory | | |
| 2009 | 7/1/09 | CH 144:177 | RSA 78:1 XIV, Added: Includes snuff and cigars but not premium cigars | | |
| 2009 | 7/1/09 | CH 144:178 | RSA 78:1 XX, Adds definition of premium cigars | | |
| 2009 | 7/1/09 | CH 144:179 | | | RSA 78:7-C, Rate increase from 19% to 48.59% of wholesale price. No tax on premium cigars |
| 2009 | 7/1/09 | CH 144:257 | | | RSA 78:32, I, Amount changed from $0.37 to $1.00 |
| 2010 | 6/10/10 | CH 1:45 | | | RSA 78:7-c, rate increase from 48.59% to 65.03% of wholesale price. No tax on premium cigars. |
| 2011 | 6/27/11 | CH 27 | RSA 78:12, substituting the word "return" for the word "report." | | |
| 2011 | 7/1/11 | CH 224:377-381 | | | RSA 78:7, $0.10 decrease in tax from $1.78 to $1.68<br>RSA 78:7-c, decrease in tax from 65.03% to 48% of wholesale price. Contingency for decrease in tax to remain - if the DRA reports that the amount of Tobacco Tax revenue received for July 1, 2011 through June 30, 2013 was equal to or above the amount received for the period of July 1, 2009 through June 30, 2011, then the Tobacco Tax rates shall remain at the decreased rates. |
| 2013 | 5/31/13 | CH 35 | RSA 78:1, XVII the definition of "cigarette" is amended to conform with the definition of "cigarette" under RSA 541-C:2, IV, the Master Settlement Agreement. | | |
| 2013 | 8/1/13 | CH 224:379-381, Laws of 2011 | | | The tax rate for each pack containing 20 cigarettes is increased from $1.68 to $1.78 per pack – a 10¢ increase.<br>The tax rate for each pack containing 25 cigarettes is increased from $2.10 to $2.23 per pack – a 13¢ increase.<br>The tax rate for all other tobacco products (OTP), except premium cigars, is increased from 48% to 65.03% of the wholesale sales price. |
| 2016 | 7/1/16 | CH 320 | Amends RSA 78:1, XXI, the definition of "premium cigar," to eliminate the criteria that the product wholesale for $2 or more. | | |

## HISTORICAL SUMMARY OF TOBACCO TAX, RSA 78

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Tobacco Tax, RSA 78, was enacted by Laws of 1939, chapter 167.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2019 | 1/1/20 | CH 178 | Simplifies, clarifies, and modernizes the Tobacco Tax Law. Although changes primarily editorial in nature, there are substantive changes including: (1) the wholesaler required to collect and pay the Tobacco Tax is the wholesaler who ships or transports the tobacco products to a retailer in this state; (2)every wholesaler is required to keep a sufficient number of recently purchased stamps on hand to pay the Tobacco Tax due on all cigarettes present at any premises in this state, and to file a monthly accounting of cigarettes and little cigars sold in packages of other than 20 or 25 and other tobacco products transferred to and from any premises in this state; (3) authority to suspend or revoke licenses to retailer, and assess an administrative fine in addition to or instead of a period of suspension. | | |
| 2019 | 1/1/20 | CH 346:92-94 | Amends the Tobacco Tax to include electronic cigarettes. Electronic cigarettes are treated as OTP but subject to different tax rates under RSA 78:2, II, one for closed cartridges or containers that are not intended to be opened (or "closed system" devices), and the other for containers that are intended to be opened ("open system" devices). For closed system devices, the tax is imposed at a rate of $0.30 per milliliter on the volume of the liquid or other substance containing nicotine in the cartridge or container. For open system devices, the tax is imposed at a rate of 8% of the wholesale sales price of the container of liquid or other substance containing nicotine. | | |
| 2025 | 7/1/25 | CH 224:1-18 | Changes references from Tobacco Tax Licenses to Tobacco Tax Certificates and requires wholesalers and manufacturers to have licenses issued by the Liquor Commission. | | |

## HISTORICAL SUMMARY OF RAILROAD TAX, RSA 82

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Railroad Tax, RSA 82, was enacted by Laws of 1990, chapter 9, effective March 31, 1990.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2005 | 7/1/05 | CH Law 93 | Changes assessment, collection, and appeals procedures. | | |
| 2010 | 7/1/10 | CH 60 | Makes various changes to RSA 82 relative to the definitions and procedures relating to the Railroad Tax. (Market value versus actual value, evidence of value, information filing to DRA on or before May 1st each year, and Failure to File penalty of 1% of the property tax (no less than $250 or more than $2,500) for failure to file the information, or obtain an extension to file. | | |

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Utility Property Tax, RSA 83-F, was enacted by Laws of 1999, chapter 17, effective April 29, 1999.
**Current Due Date:** Payment forms are due on or before January 15 each year.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1999 | 4/29/99 | CH 17 | RSA 83-F was adopted | | The rate is $6.60 per $1,000 of value of utility property. On December 1st of each year the DRA will determine the value of utility property as of the previous April 1st. |
| 2004 | 7/1/04 | CH 200 | Exempt from enhanced statewide education tax. | | |
| 2005 | 7/1/05 | CH 93:4,1,23 | Determine value Appeals payments and tax notice repealed public hearings | | |
| 2007 | 8/24/07 | CH 216:2 | RSA 83-F:5, VII and VIII added<br>Info filing penalties change of ownership | | |
| 2010 | 8/27/10 | CH 219:2 | RSA 83-F:3 amended to require utility property to be appraised at market value using generally accepted appraisal methods and techniques and to require the Commissioner to hold one annual public hearing prior to performing assessments for valuation of utility property of regulated public utilities. | | |
| 2010 | 8/27/10 | CH 219:3 | RSA 83-F:5, VIII amended to require a taxpayer acquiring utility property or assets to notify the Commissioner, in writing, no later than 30 days subsequent to the sale or transfer of the utility's property or asset. | | |
| 2011 | 7/1/11 | CH 59 | RSA 83-F:1, V amended to exclude from the definition of "utility property" anything that does not go into the stream of commerce. | | |
| 2021 | 8/26/21 | CH 229:12 | RSA 83-F:1, V amended to exclude limited producers of electricity (1 megawatt or less)from the definition of "utility property". | | |
| 2025 | 7/1/27 | CH 206:2 | RSA 83-F:1, V definition of "utility property" amended to exclude electricity generating property, except when owned by entities as defined in RSA 362:2, I that are engaged in the distribution and tranmission of electricity. | | |

## HISTORICAL SUMMARY OF COMMUTERS INCOME TAX, RSA 77-B

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Commuters Income Tax, RSA 77-B, was repealed by Laws of 2017, chapter 54, effective August 1, 2017.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1970 | | CH 20 | COMMUTERS INCOME TAX: 77-B DECLARED UNCONSTITUTIONAL 1975 | Enacted RSA 77-B. The tax was found unconstitutional in Austin v. New Hampshire, 420 U.S. 656, 95 Sect. 1191, 43 L.Ed.2d 530 (1975) | 4% of income derived outside of NH |
| 1975 | | | | Declared Unconstitutional | |
| 2017 | 8/1/17 | CH 54 | Repealed | | |

## HISTORICAL SUMMARY OF ELECTRICITY CONSUMPTION TAX, RSA 83-E

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Electricity Consumption Tax, RSA 83-E, was repealed by Laws of 2017, chapter 156, section 224, effective January 1, 2019.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1997 | 5/1/01 | CH 347 (HB 602) | | All persons, including governmental units, distributing, redistributing or transmitting electrical energy for consumption in this state. Effective 30 days after PUC certified (5/1/01). Enacted a new RSA 83-E, Electricity Consumption tax replacing RSA 83-C, Franchise Tax effective when electric utility deregulation is implemented. | A tax is imposed on the consumption in this state of electrical energy at the rate of $.00055 per kilowatt-hour. |
| 2017 | 1/1/19 | CH 156:224 | Repealed | | |

## HISTORICAL SUMMARY OF ESTATE TAX, RSA 87[1]

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Estate Tax, RSA 87, is currently void because the federal estate tax provisions that allow a credit for state death taxes against the decedent's federal estate (Internal Revenue Code section 2011) terminated with respect to the estates of decedents dying after December 31, 2004.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1931 | | CH 125:1 | A resident decedent's estate, which has a total gross estate of $600,000 or more and files a federal Form 706, must file with NH. A non-resident decedent's estate, which has real estate in NH and files a federal Form 706, must file with NH. | | The amount of the federal credit taken for state death taxes paid is what is sent to NH |
| 1995 | 8/18/95 | CH 246 | Apportionment of credit between states and report of federal changes | | |

[1] **RSA 87:9 Chapter Void, When. -** This chapter shall become void and of no effect in respect to the estates of persons who die subsequent to the effective date of the repeal of the federal estate tax provisions within the United States Internal Revenue Code of 1986, as amended, or that portion of such provisions that allow a credit for state death taxes against the decedent's federal estate tax. Source. 1931, 125:1, RL 88:9. 1995, 246:3, eff. Aug. 18, 1995.

## HISTORICAL SUMMARY OF FRANCHISE TAX (Electric), RSA 83-C

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. The Franchise Tax, RSA 83-C, was repealed by Laws of 1997, chapter 347, section 5, I, effective May 1, 2001.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1959 | 01/01/60 | CH 86:2 | RSA 83-A Franchise Tax was repealed | | |
| 1983 | 07/01/83 | CH 469:100 | RSA 83-B Franchise Tax was repealed | | 9% of the net utility operating income |
| | 07/01/83 | CH 469:98 | Enacted the present RSA 83-C. Public utilities engaged in the manufacture, generation, distribution, transmission or sale of gas or electricity pursuant to franchises granted by this state | | 1% |
| 1991 | 07/01/91 | CH 354:4 | Removed "electricity" from the language | | |
| 1993 | 04/16/93 | CH 49:2 | Reinserted "electricity" into the language | | |
| 1994 | 06/02/94 | CH 263: 1, 2 | Removed "Gas" from the language | | |
| 1997 | 07/01/97 | CH 347:5, I | Repealed 5/1/01<br>Enacted a new RSA 83-E, Electricity Consumption tax replacing RSA 83-C, Franchise Tax effective when electricity utility deregulation is implemented | | |
| 2001 | | | Repealed | | |

## HISTORICAL SUMMARY OF GAMBLING WINNINGS TAX, RSA 77:38-50

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Gambling Winnings Tax, RSA 77:38-50, was repealed by Laws of 2011, chapter 47, effective May 23, 2011.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 2009 | 7/1/09 | CH 144:249-253 | Enacted this tax. The New Hampshire Gambling Tax is a 10% tax on any and all gambling winnings. RSA 77:38, III defines "gambling winnings" as winnings from lotteries and games of chance including, but not limited to bingo, slot machines, keno, poker tournaments, and any other gambling winnings subject to federal income tax withholding. | | 10% |
| 2010 | 7/23/10 | CH 371 | Amends RSA 77:41, II exempting the gambling tax on gambling winnings won prior to 1/1/1999 and distributed in annuity payments. | | |
| 2011 | 5/23/11 | CH 47 | **Repealed**. Applicable to all gambling winnings received on or after May 23, 2011. | | |

## HISTORICAL SUMMARY OF LEGACY AND SUCCESSION TAX, RSA 86

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Legacy and Succession Tax, RSA 86, was repealed by Laws of 2002, chapter 232, section 14, II, effective January 1, 2003.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1905 | | | RSA 86, first enacted in 1905, as far as can be determined, it was enacted at 8½%<br>Executors or administrators of every estate subject to tax under this chapter. A tax liability occurs when a bequest, joint transfer, or the rest and residue is granted to a taxable legatee such as, but not limited to brothers, sisters, aunts, uncles, cousins, friends and neighbors. | | 9% |
| 1965 | | CH 65:1 | | | Increased the rate to 10% |
| 1970 | | CH 5:4 | | | Increased the rate to 15% |
| 1977 | 6/30/97 | CH 467 | Amended 86:6 I to read: All property within the jurisdiction of the state, real or personal and any interest therein, belonging to domiciliaries of the state. Amended 86:6 II to include the decedent's share of a homestead, which for a period of one year immediately preceding the date of death of the decedent, was jointly owned and occupied as a place of residence by the decedent and by the brother or sister or both, shall be exempt from the tax if said homestead passes to or for the use of said brother or sister. | | |
| 1991 | 7/31/91 | CH 348 | Significantly restructured how this tax is administered, resulting in extensive redesign of the tax forms | | Increased the rate to 18% |
| 1991 | 7/2/91 | CH 353:1 | | | |
| 1995 | 7/1/95 | CH 250:6 | RSA 86:21 amended, effective 7/1/95 requiring executors, administrators and trustees to file an inventory with Probate and DRA | | |
| 1995 | 7/1/95 | CH 250 | Clarifications on adopted or step children, allowed compensation and deductions, reports of trusts… | | |
| 1997 | 7/1/97 | CH 128 | If a return is not filed within 9 months, penalties shall not accrue as of the date an estimated tax payment is made of a least 90% of the tax due | | |
| 2001 | 1/1/03 | CH 158 | Repeal RSA 86:6, relative to taxable property under and tax rate of the legacies and successions tax, is repealed.<br>This act shall apply only to estates established as the result of deaths on or after January 1, 2003. | | |
| 2002 | 1/1/03 | CH 232:14, II | Entire chapter repealed. | | |
| 2004 | 1/1/05 | CH 99 Section 3 | Change reference from Natural Parent to Birth Parent | | |

## HISTORICAL SUMMARY OF NON-RESIDENT PERSONAL PROPERTY TRANSFER TAX, RSA 89

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Non-Resident Personal Property Transfer Tax, RSA 89, was repealed by Laws of 2002, chapter 232, section 14, III, effective January 1, 2003.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1921 | | CH 70 | A non-resident decedent's estate owning tangible personal property in NH must file | | 2% |
| 2002 | 1/1/03 | CH 232:14, III | Repealed | | |

## HISTORICAL SUMMARY OF NUCLEAR STATION PROPERTY TAX, RSA 83-D

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Nuclear Station Property Tax, RSA 83-D, was repealed by Laws of 1999, chapter 17, section 58, V, effective April 1, 1999.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1991 | 7/1/91 | CH 354:1 | Enacted RSA 83-D, and amended RSA 83-C to remove electric companies | | For taxable periods ending before 1/1/93, 0.64 percent of valuation as of April 1. For taxable period ending 12/31/93, 0.491 percent of valuation as of April 1. For taxable periods ending after 12/31/94, 0.25 percent of valuation as of April 1. |
| 1992 | 5/19/92 | CH 13:10 | Repealed relative to the administration of the tax on nuclear station property | | |
| 1993 | For taxable periods ending before 1/1/93 | CH 49:4 | A tax is imposed upon the value of nuclear station property | | .64% of valuation, to be assessed annually as of 4/1 |
| 1993 | For taxable periods ending 12/31/93 | | A tax is imposed upon the value of nuclear station property | | .491% of valuation, to be assessed as of 4/1/93 |
| 1993 | For taxable periods ending 12/31/94 | | A tax is imposed upon the value of nuclear station property | | .491% of valuation, to be assessed as of 4/1/94. For taxable periods ending after 12/31/94, 0.25 percent of valuation as of April 1. |
| 1993 | 1/1/93 | CH 83-D:4 | | | Valuation - for the purposes of the tax assessed prior to 4/1/93, the Commissioner of DRA shall determine the valuation of nuclear station property using the standard estimate pursuant to RSA 75:1. For purposes of the tax imposed by this chapter assessed as of 4/1/93 and for every year thereafter, the valuation of nuclear property shall be $3,000,000,000. |
| 1999 | 4/1/99 | CH 17:58, V | The Nuclear Station Property Tax is repealed eff. 4/1/99 | | Subject to the utility property tax |

## HISTORICAL SUMMARY OF SAVINGS BANK TAX, RSA 84

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Savings Bank Tax, RSA 84, was repealed by Laws of 1993, chapter 350, section 41, IV, effective July 1, 1993.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | STATUTORY CHANGES | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1923 | | CH 22 | | | |
| 1935 | | | Since 1935, it was based upon Capital Stock value, plus interest, Dividends, and other divided profits for the 12 months preceding April 1st, less $10,000, multiplied by 1% | | |
| 1961 | 3/31/62 | CH 249:2 | Repealed 84:8 - 84:16, Savings Banks, Trust Companies, Building and Loan associations, etc. Added 84:16 a-e | | |
| 1989 | 6/18/89 | CH 50 | Amended 84:16 - b, c & d | Established a Declaration of Estimated Tax, with payment of 1/4 of the estimated tax to be made on 6/15, 9/15, 12/15 and 3/15 | |
| 1993 | 7/1/93 | CH 350:41, IV | Repealed RSA 84. The banks are now paying the BET and included in their enterprise base is the interest, which they pay to depositors. | | |

## HISTORICAL SUMMARY OF TELEPHONE TAX (Property Tax), RSA 82

This document is only a brief summary of the subject matter, current as of the last revision date. It is not intended to be relied upon as the full and complete text. Please refer to the applicable forms, instructions, rules and to the laws cited below to determine how this information applies to specific persons or situations.

The Telephone Tax, RSA 82, was repealed by Laws of 1990, chapter 9, effective March 31, 1990.

| SESSION YEAR | EFFECTIVE DATE | CHAPTER | Statutory Changes | FILING THRESHOLD | TAX RATE |
|---|---|---|---|---|---|
| 1911 | | RSA 82 | Enacted | | |
| 1990 | 3/31/90 | CH 9:3 | Repealed | | |

# 2024 Tables by County

This report presents the 2024 Tables by County as compiled by the New Hampshire Department of Revenue Administration pursuant to RSA 21-J:3, XII, which states:

> *"XII. File with the secretary of state his report showing all the taxable property in the state and its assessed value, in tabulated form, and such other statistics and information as may be deemed of interest. This report shall be filed not later than 30 days after all necessary figures become available."*

Annually, each municipality is required to certify to the Department of Revenue Administration the assessed valuation of all taxable property in that municipality. This information is reported on the MS-1 Report, Summary Inventory of Valuation.

Assessment information is also gathered with regards to exemptions and tax credits as well as taxes raised by each municipality. An exemption is an amount deducted from a taxpayer's assessment. A tax credit is an amount deducted from the taxes due by a taxpayer.

The following is an explanation of the information contained in this report.

LAND VALUATION: The sum of the *taxable* land valuations for the following land subcategories:

- RSA 79-A, Current Use
- RSA 79-B, Conservation Restriction
- RSA 79-C, Discretionary Easement
- RSA 79-D, Discretionary Preservation Easement
- RSA 79-F, Taxation of Farm Structures and Land Under Farm Structures
- Residential
- Commercial/Industrial

*The values in the above columns are prior to the application of any exemption and do not include any utility land value.*

BUILDING VALUATION: The sum of the *taxable* building valuations for the following building subcategories:

- Residential
- RSA 674:31, Manufactured (MFG) Housing
- Commercial/Industrial
- RSA 79-D, Discretionary Preservation Easement
- RSA 79-F, Taxation of Farm Structures and Land Under Farm Structures

*The values in the above columns are prior to the application of any exemptions and do not include utility building value.*

PUBLIC UTILITIES: The figure represents the sum of all utility values classified as PUBLIC WATER, GAS, ELECTRIC, OIL, PIPELINE or OTHER pursuant to RSA 83-F. OTHER utilities include utilities that the Department of Revenue Administration has not appraised. Some examples of OTHER utilities include hydro-electric plants, water suppliers, and certain gas companies.

MATURE WOOD & TIMBER: As per RSA 79:5.

GROSS VALUATION: Gross valuation represents the valuation of all *taxable* property in each municipality prior to adjustments for property tax exemptions.

EDUCATIONAL & SPECIAL EXEMPTIONS: The sum of the following exemptions granted:

- RSA 72:36-a, Certain Disabled Veterans
- RSA 72:37-a, Improvements to Assist Persons with Disabilities
- RSA 72:38-b, Improvements to Assist the Deaf
- RSA 72:23, IV, School Dining, Dormitory and Kitchen Exemption (maximum $150,000 per property)
- RSA 72:12-a, Water & Air Pollution Control Facilities Exemption

MODIFIED ASSESSED VALUATION: Modified assessed valuation represents the sum of the gross valuation minus the educational and special exemptions. The modified assessed valuation is the basis for calculating the equalized values for each municipality.

LOCAL EXEMPTIONS OR EXEMPTIONS WITH OPTIONAL ELEMENTS: Each municipality has adopted an elderly exemption. The amount of the exemption and the specific criteria (asset and income limits) to qualify are determined locally within statutory requirements. Each municipality may adopt or modify the other exemptions listed below in this section:

- RSA 72:37, Blind Exemption
- RSA 72:37-b, Disabled Exemption
- RSA 72:38-b, Deaf Exemption
- RSA 72:39-a &-b, Elderly Exemption
- RSA 72:70, Wood-Heating Energy Systems Exemption
- RSA 72:62, Solar Energy Systems Exemption
- RSA 72:66, Wind-Powered Energy Systems Exemption
- RSA 72:23, IV, Additional School Dining, Dormitory and Kitchen Exemption (amount > $150,000 per property)
- RSA 72:85, Exemption for Electric Energy Storage Systems
- RSA 72:87, Renewable Generation Facilities & Electric Energy Systems

NET LOCAL ASSESSED VALUATION: Net local assessed valuation represents the sum of the modified assessed valuation minus the value of the blind, elderly and local optional exemptions.

GROSS PROPERTY TAXES: Gross Property taxes represent the sum of the net tax commitment plus the veterans' tax credits. The Department of Revenue Administration's Municipal Bureau establishes the property tax rate using this figure.

LESS VETERANS' CREDITS: Veterans' credits represent the sum of credits granted pursuant to RSA 72:28; 72:28-b; 72:28-c; 72:29-a; 72:32 and RSA 72:35.

NET TAX COMMITMENT: Net tax commitment represents the sum of gross property taxes minus the sum of the veteran tax credits. The amount a municipality must actually raise in taxes equals the sum of the amount appropriated by the municipal legislative body minus any revenues.

ACTUAL TAX RATE: The actual tax rate equals the sum of the municipal, county, local and statewide school education property tax rates. This tax rate does not include village district or precinct tax rates.

RESIDENT TAX: Resident tax represents the sum of monies collected by a municipality for the Residents Tax pursuant to RSA 72:1.

COUNTY SUMMARY: The county summary represents the totals for each of the above listed columns for all ten counties in the state. The county tax rate listed is the average county tax rate and is calculated by taking the sum of the tax rates for all municipalities in a county and dividing by the number of municipalities.

EDUCATIONAL & SPECIAL EXEMPTIONS REPORT: This report provides a breakdown of the educational and special exemptions granted by municipalities. These are not optional.

LOCAL OPTIONAL EXEMPTIONS REPORT: This report provides a breakdown of what each municipality currently grants. These are optional and must be adopted by the legislative body of the municipality.

For further explanation about any information contained in this report, please contact the Department of Revenue Administration, Municipal & Property Division at (603) 230-5950.

# New Hampshire Property Tax Summary

The New Hampshire property tax system involves the budget, appropriation, and tax rate setting processes, the assessment of property values and appeal procedures, and the application of exemptions and tax credits. The Department equalizes property values for apportionment purposes and reviews municipal records for compliance with applicable laws and rules.

**BUDGET AND APPROPRIATIONS**

Every property owner is responsible for paying a portion of the money necessary to operate their municipality (town or city), school district, county, and village district. Each municipality, school district, county, and village district, annually establishes a budget to submit to their legislative body for approval. It is the budget and appropriations, voted by the legislative body, that establishes the basis for property taxes in New Hampshire.

The legislative body that votes the appropriations necessary to fund budgets varies depending on the type of government. In a town, school, and village district, it is by vote of the residents at an annual meeting. In a city or a town with a council form of government, the town or city council serves as the legislative body, and in a city, the Board of Mayor and Aldermen may serve as the legislative body. In a county, the county commissioners represent the legislative body and are responsible for the appropriation of and oversight over all expenditures necessary to fund county government. County taxes are apportioned to each municipality within the county based on its proportion of the county's total equalized value.

**SETTING OF TAX RATES**

The total appropriations voted by the municipality, school district, county, and village district less revenue from all sources, is the amount of money needed to be raised by taxes. The amount to be raised by taxes is divided by the total local assessed property value to calculate the property tax rates.

$$\frac{\text{Voted Appropriation} - \text{Total Revenue}}{\text{Local Assessed Property Value}} \times 1{,}000 = \text{Tax Rate}$$

**For example:**

| | | |
|---|---|---|
| Annual town meeting appropriations = | $ 1,000,000 | - |
| Total Revenues | $ 300,000 | |
| Total to be Raised by Taxes | $ 700,000 | divided by |
| Total Local Assessed Property Value | $25,000,000 | = |
| Tax Rate | $28.00 (for every $1,000 of value) | |

By law, every property tax bill must show the assessed value of property and the tax rate for each component of the total tax bill: Municipal, School (Local and/or Regional), State Education, County, and Village District.

**PROPERTY ASSESSMENT AND APPEAL PROCESS**

Property taxes are based upon the assessed value of property as of April 1. This means that the first tax bill, typically mailed in December, reflects the assessed value of property as of the previous April 1. For example, if a garage is built on May 15, the taxes would not be assessed on the garage until the following year since it did not exist on April 1 of the current tax year.

It is the responsibility of the selectmen or the assessor to annually determine the local assessed value of the property within a municipality as of April 1 each year. The accuracy of assessments, compared to market value, is best determined by a periodic revaluation of all property within the municipality.

During a revaluation, properties are valued using the applicable approach(es) to value known as sales, income, and cost. The intent of a revaluation is to assess property at its “full and true” value, also referred to as “market value.” More importantly, the purpose of a revaluation is to ensure that property within the municipality is assessed proportionally so that each property owner equally shares the property tax burden based upon the “value” of their property.

A revaluation establishes base year property values which must be updated at least once every five years. In the years following a revaluation, the assessor value pick-ups including new construction, subdivisions, and other changes to property as of April 1. Depending on the amount of change reflected in current sales, assessors may conduct a partial or statistical revaluation to maintain proportionality among all property values on an annual basis.

Unless all properties are updated to current market value, pick-ups are valued not at current year values but at the most recent revaluation year values. That way, if a revaluation had been done in 2021, a 3-bedroom cape style home built in 2022 will be assessed comparably to a 3-bedroom cape style home built in 2021. This assumes all other factors affecting the value of the home are the same, such as the neighborhood, the amount of land, the quality of construction, the number of bathrooms, etc. Other characteristics of a property that may contribute to value such as a view, water frontage, or a junkyard, must also be considered.

There is a two-level appeal process available to any property owner who believes the assessment of their property is in error. The first level of appeal is to request an abatement of property taxes with the local assessing officials. The request for abatement must be made in writing, or filed on a form, by March 1 after the date the tax bills were mailed. If the local assessing officials neglect or refuse to satisfactorily abate the tax, the second level of appeal is to either the Board of Tax and Land Appeals (BTLA) or to the superior court in the county where

the property is located. Forms for both the municipal and BTLA appeal may be found on the BTLA's website at *https://www.btla.nh.gov/jurisdiction/property-tax*.

An opinion that property taxes are "too high" is not adequate grounds to justify an abatement. The "amount of tax" is usually not appealable since the amount of money needed to fund local government operations is determined by the local legislative bodies through the budget process. Generally, there must be an error in the assessment of the property, or evidence of a disproportionate assessment, to qualify for an abatement. If an appeal is filed, the burden is on the property owner to show how the assessment was in error.

**RATIO STUDY AND EQUALIZATION**

All municipalities do not conduct revaluations in the same year. Some may be assessing property close to full value (due to a recent revaluation) while other municipalities are assessing property at more or less than full value (because their revaluation is not current). This variation makes it difficult to compare municipalities to one another because the local assessed valuations are based upon different revaluation years.

The ratio study process involves a detailed review of property sales throughout the state and compares qualified sales with the local property assessments. Statistics are derived from this process that measure the level of assessments (median ratio), uniformity of assessments (coefficient of dispersion), and proportionality of assessments (price-related differential).

The median ratio is used to determine the level in which assessments compare to market value. The coefficient of dispersion, or COD, measures the equity within a group of ratios from the median ratio. And the price-related differential, or PRD, measures the differences in the appraisal of low value and high value properties. These statistics are reviewed annually to understand the general level of assessment in a municipality and used to determine if a revaluation is needed. Whether a municipality's median ratio is high or low, the COD is more important. The lower the COD, the more uniform the assessment and property owners are paying their fair share of the property tax burden based on the value of their property.

The weighted mean, also known as the equalization ratio, is the other statistic calculated from the ratio study. This ratio is used to adjust each municipalities' total local assessed property value to 100% or full value to reasonably apportion shared tax burdens. Shared tax burdens include the county tax, state education tax, cooperative school district tax, and village districts. This process of adjusting property values to 100% or full value is called the equalization process. The Department issues the total equalized values to each municipality, typically, in April. Details about the ratio study process, equalization process, and an explanation of statistics are provided in the NH Equalization Manual, which can be found on the DRA's website at Equalization | NH Department of Revenue Administration. You may also contact the Department with questions at (603) 230-5950.

## LOW AND MODERATE INCOME HOMEWOWNER'S PROPERTY TAX RELIEF

The low and moderate income homeowner's property tax relief program, also known as education property tax relief, is available to homeowners who:

- Own a homestead or an interest in a homestead subject to the State Education Property Tax.
- Have resided in the homestead on April 1 of the year for which the claim is made; and
- Had a total "household income" of:
  - $37,000 or less, if a single person.
  - $47,000 or less, if married or head of a New Hampshire household.

There are two ways to submit a claim:

- Form DP-8, Low and Moderate Income Homeowner's Property Tax Relief, is available on the DRA's website at *Current Year Forms and Instructions | NH Department of Revenue Administration* under the **Low & Moderate Program** heading. The form is a fillable PDF which may be opened, completed, and saved.

- Through Granite Tax Connect at *Granite Tax Connect | NH Department of Revenue Administration*.

Pursuant to *RSA 198:57 Low and Moderate Income Homeowners Property Tax Relief*, claims must be filed with the Department of Revenue Administration between May 1 and June 30 following the due date of the final tax bill as defined in RSA 76:1-a for State Education Property Taxes.

For purposes of calculating the maximum award available, the maximum homestead value is increased to $220,000. For purposes of calculating the total award each recipient receives, the income brackets for single applicants and married or head of household applicants are incrementally increased for each income bracket.

The Department of Revenue Administration rules for the low and moderate income homeowner's property tax relief (Rev 1200) are located on the Office of Legislative Services, Administrative Rules page at *https://gencourt.state.nh.us/rules/state_agencies/rev1200.html*.

This program is administered by the Taxpayer Services Division of the Department of Revenue Administration. For additional information or questions, call (603) 230-5920 or visit their website at *Low and Moderate Income Homeowners Property Tax Relief | NH Department of Revenue Administration*.

## ASSESSMENT REVIEW

As a result of the Supreme Court's 2001 decision in (*Evelyn Sirrell v. State of New Hampshire*), *RSA 75:8-a Five-Year Valuation* was signed into law requiring all towns and cities in New Hampshire to reappraise all real estate within the municipality at least as often as every fifth year to ensure assessments are at the full and true value. The Department of Revenue Administration is mandated by *RSA 21-J:11-a Assessment Report* and *RSA 21-J:11-b Implementation of Assessment Review* to review and report the degree to which assessments of municipalities achieve compliance with applicable statutes and rules.

The Assessing Standards Board (ASB) amended and adopted the *Standards for Monitoring of Local Assessment Practices* in April 2023, to be implemented during the fifth 5-year Assessment Review cycle that began in 2023. All municipalities will have undergone Assessment Review within this cycle, ending in 2027. The Department's staff conducts file and field reviews of municipal records and reports on the assessing practices of the municipalities in accordance with the ASB standards. The findings are reported to the municipalities and to the ASB. The final municipal report becomes a public document after a 30-day review period has ended.

## EXEMPTIONS AND TAX CREDITS

An exemption is a reduction in the local assessed value of property, while a credit is a reduction of the amount of tax due. Every municipality offers an exemption for blind and elderly property owners meeting certain qualifications, and a tax credit for veterans. In addition, municipalities may adopt, modify or rescind, the following exemptions: blind, elderly, disabled, deaf, woodheating energy system, wind-powered energy system, solar energy system, and electric energy storage systems. Property tax credits are available to qualifying veterans or their surviving spouses.

Form PA-29, Permanent Application for Property Tax Credits/Exemptions, shall be used to apply for an exemption or a tax credit and must be filed with the municipality on or before April 15, prior to that year's tax bill. Form PA-29 shall also be used to apply for tax deferral for elderly or disabled taxpayers meeting certain criteria and shall be filed with the municipality on or before March 1 prior to that year's tax bill. Form PA-29, Permanent Application for Property Tax Credits/Exemptions, is available on the DRA website at *Current Year Forms and Instructions | NH Department of Revenue Administration* under the **Property** heading.

## CONCLUSION

Property taxation in New Hampshire can be a complex process. The Assessing Standards Board has published a document called Understanding NH Property Taxes: The Official NH Assessing Reference Manual, that can be found on the Department's website at *Municipal and Property Division | NH Department of Revenue Administration* under **Related Links.**

The information in this manual includes municipal and taxpayer form due dates, the equalization process, the appraisal process, approaches to value, revaluations, jurisdictional exceptions (taxes based on values other than market value), exemptions and credits, taxpayer rights, a breakdown of real estate taxes, forms, and frequently asked questions.

For additional information, contact the Department's Municipal and Property Division at (603) 230-5950 or visit the website https://www.revenue.nh.gov/about-dra/municipal-and-property-division.

# 2024 Equalization Survey

## "Including Utilities and Railroads"

## May 1, 2025

This report presents the results of the 2024 Equalization Survey **"including utilities and railroads"** conducted by the New Hampshire Department of Revenue Administration pursuant to RSA 21-J:3, XIII which states:

> *"XIII. Equalize annually by May 1 the valuation of the property as assessed in the several towns, cities, and unincorporated places in the state including the value of property exempt pursuant to RSA 72:37, 72:37-b, 72:39-a, 72:62, 72:66 and 72:70, RSA 72:85, and RSA 72:87, property which is subject to tax relief under RSA 79-E:4, and property which is subject to tax relief under RSA 79-E:4-a or RSA 79-E:4-b, by adding to or deducting from the aggregate valuation of the property in towns, cities and unincorporated places such sums as will bring such valuations to the true and market value of the property, and by making such adjustments in the value of other property from which the towns, cities, and unincorporated places receive taxes or payments in lieu of taxes, including renewable generation facility property subject to a payment in lieu of taxes agreement under RSA 72:74 and combined heat and power agricultural facility property subject to a payment in lieu of taxes agreement under RSA 72:74-a, as may be equitable and just, so that any public taxes that may be apportioned among them shall be equal and just. In carrying out the duty to equalize the valuation of property, the commissioner shall follow the procedures set forth in RSA 21-J:9-a."*

To accomplish the foregoing, assessment ratio studies were conducted to determine how the average level of assessment for all cities and towns compared with the statutory ratio of 100%, so that taxes can be apportioned equitably.

The Department of Revenue Administration (DRA) has completed its process of calculating the total equalized valuation of all the municipalities and unincorporated places throughout the state. The ratios reported for each municipality in this survey were derived by comparing the sale prices of sales of land, land and buildings and manufactured housing, covering the period of October 1, 2023, to September 30, 2024, against the actual assessments applied by the municipalities. Sales information was verified by the grantee whenever possible by means of Form PA-34, Inventory of Property Transfer. Our goal is to use only arms-length sales transferred for market value in this analysis. Every effort has been made to exclude non- arms-length transactions including but not limited to: sales involving courts and government agencies, sales between relatives or corporate affiliates, sales settling an estate, forced sales, etc.

Every municipality was notified of its 2024 sales assessment ratio. These ratios were used in conjunction with other DRA adjustments to determine each municipality's total equalized value for purposes of RSA 21-J:3, XIII.

The following is an explanation of the information contained in this report.

MODIFIED ASSESSED VALUATION: The modified assessed valuation for each municipality as reported to the Department of Revenue Administration on the municipality's 2024 MS-1, Summary Inventory of Valuation.

GROSS LOCAL ASSESSED VALUATION is the sum of all assessed values in the municipality minus:

- RSA 72:36-a, Certain Disabled Veterans'
- RSA 72:38-b, V, Improvements to Assist Persons who are Deaf
- RSA 72:37-a, Improvements to Assist Persons with Disabilities Exemption
- RSA 72:23, IV, School Dining/Dormitory/Kitchen Exemption ($150,000 max per exemption)
- RSA 72:12-a, Water & Air Pollution Control Exemption

= MODIFIED ASSESSED VALUATION minus:

- RSA 72:37, Blind Exemption
- RSA 72:37-b, Disabled Exemption
- RSA 72:38-b, Deaf Exemption
- RSA 72:39-a & b, Elderly Exemption
- RSA 72:62, Solar Energy System Exemption
- RSA 72:66, Wind Powered Energy System Exemption
- RSA 72:70, Wood-Heating Energy System Exemption
- RSA 72:23, IV, Additional School Dining/Dormitory/Kitchen Exemption (Exemption amount > $150,000)
- RSA 72:85, Exemption for Electric Energy Storage Systems
- RSA 72:87, Renewable Generation Facilities & Electric Energy Systems

= NET LOCAL ASSESSED VALUATION. This is used to compute the municipal, county and local school tax rates.

**TAX INCREMENT FINANCE DISTRICTS (TIFS)**: RSA 162-K:10, III. - The retained captured assessed value is added to the modified assessed value and will be equalized for all TIF districts created after 4/29/99. The original assessed value plus any unretained value is used to set a municipality's tax rate.

DRA INVENTORY ADJUSTMENT is the sum of the adjustments of the modified local assessed valuation and is divided into three categories.

Category 1: The total modified local assessed value of land (excluding land in current use, conservation restriction assessment, discretionary easements and utilities), buildings and manufactured housing is equalized by the 2024 equalization ratio. This category includes discretionary preservation easements, taxation of farm structures and land under farm structures. The difference between the modified local assessed valuation of land, buildings and manufactured housing and the equalized value equals the DRA adjustment for land, buildings, and manufactured housing.

Category 2: An adjustment for land assessed at current use, conservation restriction assessment, and discretionary easement values are applied. This adjustment is calculated by dividing the total net local assessed valuation for land in these two categories by the 2023 equalization ratio to obtain the equalized value of current use, conservation restriction assessments, and discretionary easements. If a municipality has had a full revaluation, cyclical revaluation or full statistical revaluation as defined by Rev 601.24, 601.16 and 601.25, a ratio of 100.0 is used.

The difference between the local assessed value of the land and the equalized value equals the DRA adjustment for current use, conservation restriction assessments, and discretionary easements.

Category 3: The total modified local assessed value of public utilities, as defined by RSA 83-F, is equalized by the 2024 ratio. The difference between the modified local assessed value of utilities and the equalized value of utilities equals the DRA adjustment for utilities. The value of public utilities is not added into the "Total Equalized Value Not Including Utility Value or Equalized Railroad Taxes."

DRA INVENTORY ADJUSTMENT**:** The sum of the adjustments for the above three categories.

EQUALIZED ASSESSED VALUATION: The equalized assessed valuation represents the equalized value of all "taxable" properties in a municipality and is the sum of the "modified local assessed valuation" plus the DRA inventory adjustment.

PAYMENT IN LIEU OF TAXES: The equalized value for payments received in lieu of taxes includes State & Federal Forest Land Reimbursements, Recreation Land Reimbursements, Flood Land Reimbursements, renewable energy facilities (if applicable) and others.

RAILROAD TAX: The equalized value for monies received from the railroad tax. This figure is not included in the "Total Equalized Valuation Not Including Utility Values and Equalized Railroad Taxes."

TOTAL EQUALIZED VALUATIONS *INCLUDING* UTILITY VALUE AND EQUALIZED RAILROAD TAXES: This figure represents the sum of the equalized assessed valuation, the equalized value of payments in lieu of taxes and the equalized value of the railroad tax monies.

The Total Equalized Valuation including the value of utilities and equalized value of railroad monies reimbursed to municipalities represents the equalized value of all property in a municipality including utilities and will be used to:

- Apportion county taxes for the 2025 tax year.
- Calculate state reimbursements, and;
- Apportion cooperative school taxes for the 2025 tax year.

LOCAL TAX RATE: The local tax rate, also known as the actual tax rate, is calculated by the Department of Revenue Administration, Municipal Bureau. The tax rate includes the municipal, county, local school and state education property tax rates.

EQUALIZATION RATIO: The 2024 equalization ratio as determined by a ratio study conducted by the Department of Revenue Administration's Equalization Bureau.

FULL VALUE TAX RATE: The 2024 gross local property taxes to be raised as reported by the Department of Revenue Administration, Municipal & Property Division, divided by the total equalized valuation including utility values and equalized railroad taxes. This figure represents the estimated tax rate for a municipality if all the taxable property was assessed at 100% and includes the equalized value of properties for which a payment in lieu of property taxes is made.

% PROPORTION TO COUNTY TAX: The percentage of proportion to $1,000 of tax that is to be allocated to each town within the county comparing each municipality's total equalized value to the total equalized value of the county.

% PROPORTION TO STATE TAX: The percentage of proportion to $1,000 of tax that is to be allocated to each town within the state by comparing the town's total equalized value to the total equalized value of the state.

**APPEAL OF TOTAL EQUALIZED VALUATION**

Municipalities were sent their 2024 Notification of Total Equalized Valuations on **May 1, 2025**.

Per RSA 71-B:5, II, any municipality aggrieved by the total equalized valuation as determined by the DRA must appeal to the Board of Tax and Land Appeals in writing **within 30 days of the town's notification** of the municipality's total equalized valuation.

The appeal period is not extended due to any communication, either verbal or written, between the DRA and a municipality regarding the total equalized valuation.

# 2024 Equalization Survey

## "Not Including Utilities and Railroads"

### May 1, 2025

This report presents the results of the 2024 Equalization Survey **"not including utilities and railroads."** It was conducted by the New Hampshire Department of Revenue Administration pursuant to RSA 21-J:3, XIII which states:

> *"XIII. Equalize annually by May 1 the valuation of the property as assessed in the several towns, cities, and unincorporated places in the state including the value of property exempt pursuant to RSA 72:37, 72:37-b, 72:39-a, 72:62, 72:66 and 72:70, RSA 72:85, and RSA 72:87, property which is subject to tax relief under RSA 79-E:4, and property which is subject to tax relief under RSA 79-E:4-a or RSA 79-E:4-b, by adding to or deducting from the aggregate valuation of the property in towns, cities and unincorporated places such sums as will bring such valuations to the true and market value of the property, and by making such adjustments in the value of other property from which the towns, cities, and unincorporated places receive taxes or payments in lieu of taxes, including renewable generation facility property subject to a payment in lieu of taxes agreement under RSA 72:74 and combined heat and power agricultural facility property subject to a payment in lieu of taxes agreement under RSA 72:74-a, as may be equitable and just, so that any public taxes that may be apportioned among them shall be equal and just. In carrying out the duty to equalize the valuation of property, the commissioner shall follow the procedures set forth in RSA 21-J:9-a."*

To accomplish the foregoing, assessment ratio studies were conducted to determine how the average level of assessment for all cities and towns compares with the statutory 100% ratio so that taxes can be apportioned equitably.

The Department of Revenue Administration has completed its process of calculating the total equalized valuation of all the municipalities and unincorporated places throughout the state. The ratios reported for each municipality in this survey were derived by comparing the sale prices of sales of land, land and buildings and manufactured housing, covering the period of October 1, 2023, to September 30, 2024, against the actual assessments levied by the municipalities. Sales information was verified by the grantee whenever possible by means of Form PA-34, Inventory of Property Transfer. Our goal is to use only arm's-length sales that transferred for market value in this analysis. Every effort has been made to exclude non-arm's length transactions including but not limited to: sales involving courts and government agencies, sales between relatives or corporate affiliates, sales settling an estate, forced sales, etc.

Every municipality was notified of its 2024 sales assessment ratio. These ratios were used in conjunction with other Department of Revenue adjustments to determine each municipality's total equalized value for purposes of RSA 21-J:3, XIII.

The following is an explanation of the information contained in this report.

MODIFIED ASSESSED VALUATION: The modified assessed valuation for each municipality as reported to the Department of Revenue Administration on the municipality's 2024 MS-1,

Summary Inventory of Valuation, "not including utility values taxed pursuant to RSA 83-F."

GROSS LOCAL ASSESSED VALUATION is the sum of all assessed values in the municipality

minus:

- RSA 72:36-a, Certain Disabled Veteran's
- RSA 72:38-b, V, Improvements to Assist Persons who are Deaf
- RSA 72:37-a, Improvements to Assist Persons with Disabilities Exemption
- RSA 72:23, IV, School Dining/Dormitory/Kitchen Exemption: ($150,000 max per exemption)
- RSA 72:12-a, Water & Air Pollution Control Exemption:

= MODIFIED ASSESSED VALUATION is used to calculate the total equalized valuation
minus:

- RSA 72:37, Blind Exemption
- RSA 72:37-b, Disabled Exemption
- RSA 72:38-b, Deaf Exemption
- RSA 72:39-a & b, Elderly Exemption
- RSA 72:62, Solar Energy System Exemption
- RSA 72:66, Wind Powered Energy System Exemption
- RSA 72:70, Wood-Heating Energy System Exemption
- RSA 72:23, IV, Additional School Dining/Dormitory/Kitchen Exemption (Exemption amount > $150,000)
- RSA 72:85, Exemption for Electric Energy Storage Systems
- RSA 72:87, Renewable Generation Facilities & Electric Energy Systems

= NET LOCAL ASSESSED VALUATION Not Including Utility Valuation

The State Education property tax rate is computed using the Net Local Assessed Valuation Not Including Utility Valuation.

**TAX INCREMENT FINANCE DISTRICTS (TIFS)**: RSA 162-K:10, III - The retained captured assessed value is added to the modified assessed value and will be equalized for all TIF districts created after 4/29/99. The original assessed value and any unretained value is used to set a municipality's tax rates.

DRA INVENTORY ADJUSTMENT is the sum of the adjustments of the modified local assessed valuation is divided into two categories.

Category 1: The total modified local assessed value of land (excluding land in current use, conservation restriction assessment, discretionary easements, and utilities) buildings and manufactured housing is equalized by the 2024 equalization ratio. This category includes discretionary preservation easements, taxation of farm structures, and land under farm structures. The difference between the modified local assessed valuation of land, buildings and manufactured housing and the equalized value equals the DRA adjustment for land, buildings, and manufactured housing.

Category 2: An adjustment for land assessed at current use, conservation restriction assessment, and discretionary easement values are made. This adjustment is calculated by dividing the total net local assessed valuation for land in these two categories by the 2023 equalization ratio to obtain the equalized value of current use, conservation restriction assessments and discretionary easements. If a municipality has had a full revaluation, cyclical revaluation or full statistical revaluation as defined by Rev 601.24, Rev 601.16, and Rev 601.25, a ratio of 100.0 is used.

The difference between the local assessed value of the land and the equalized value equals the DRA adjustment for current use, conservation restriction assessments, and discretionary easements.

DRA INVENTORY ADJUSTMENT: The sum of the adjustments for the above two categories.

EQUALIZED ASSESSED VALUATION: The equalized assessed valuation represents the sum of the "modified local assessed valuation" plus the DRA inventory adjustment. The equalized assessed valuation represents the equalized value of all "taxable" properties in a municipality.

PAYMENT IN LIEU OF TAXES: The equalized value for payments received in lieu of taxes includes State & Federal Forest Land Reimbursements, Recreation Land Reimbursements, Flood Land Reimbursements, renewable energy facilities (if applicable and others.

TOTAL EQUALIZED VALUATIONS *NOT INCLUDING* UTILITY VALUE AND EQUALIZED RAILROAD TAXES: This figure represents the sum of the equalized assessed valuation and the equalized value of payments in lieu of taxes.

The 2024 "total equalized valuation not including utility and equalized value of railroad monies reimbursed to municipalities" will be used to apportion the State Education property tax for the tax year 2026. The 2023 total equalized valuation not including utilities and the value of railroad monies reimbursed to municipalities will be used to apportion the state education property tax for the tax year 2025.

EQUALIZATION RATIO: The 2024 equalization ratio as determined by a ratio study conducted by the Department of Revenue Administration's equalization staff.

% PROPORTION TO STATE TAX: The percentage of proportion to $1,000 of tax that is to be allocated to each town within the state by comparing the town's total equalized value to the total equalized value of the state.

**APPEAL OF TOTAL EQUALIZED VALUATION**

Municipalities were sent their 2024 Notification of Total Equalized Valuations on **May 1, 2025**.

Per RSA 71-B:5, II, any municipality aggrieved by the total equalized valuation as determined by the DRA must appeal to the Board of Tax and Land Appeals in writing **within 30 days of the town's notification** of the municipality's total equalized valuation.

The appeal period is not extended due to any communication, either verbal or written, between the DRA and a municipality regarding the total equalized valuation.

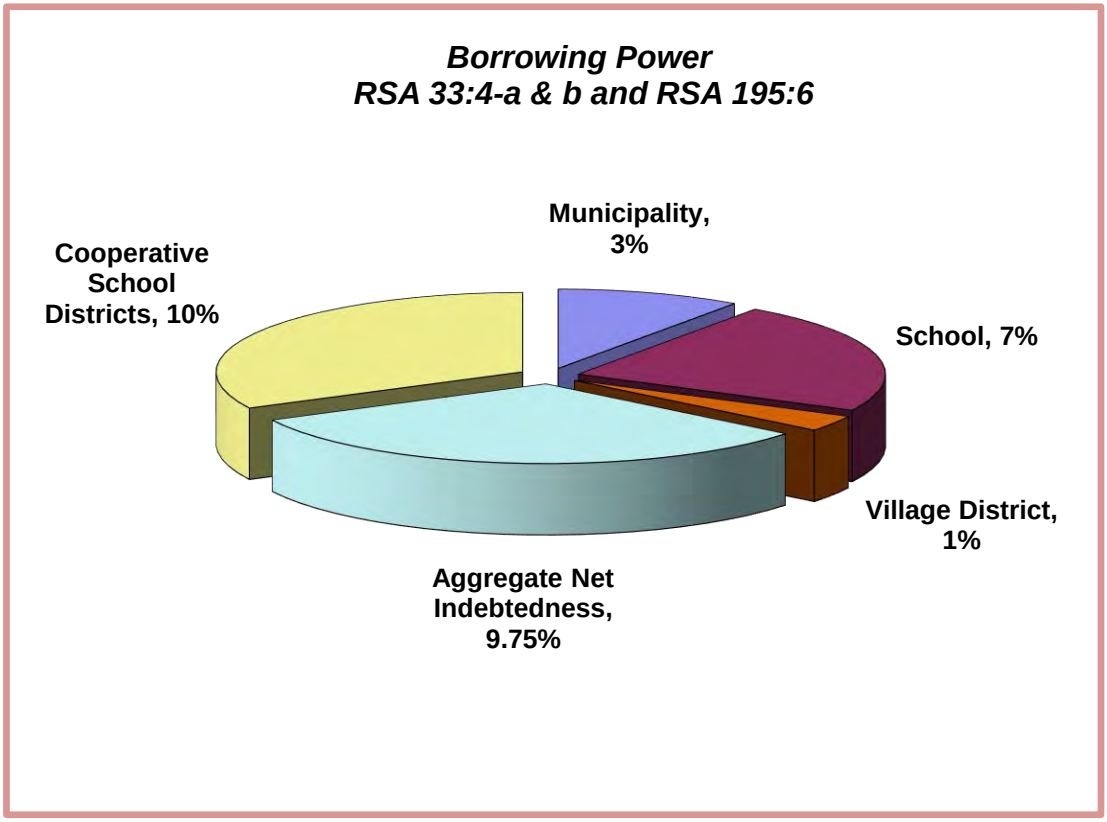
# Base Valuation for Debt Limits



**RSA 33:4-b Debt Limit; Computation**. *The debt limitations herein before prescribed, except for counties, shall be based upon the applicable last locally assessed valuation of the municipality as last equalized by the commissioner of revenue administration under RSA 21-J:3, XIII and shall include the equalized value of property formerly taxed pursuant to the provisions of RSA 72:7; 72:15, I, V, VII, VIII, IX, X and XI; 72:16; 72:17; 73:26; 73:27 and 73:11 through 16 inclusive, all as amended, which was relieved from taxation by 1970, 5:3, 5:8 and 57:12, as determined under the provisions of RSA 71:11 as amended. Whenever several municipalities possessing the power to incur indebtedness cover or extend over identical territory, each such municipality shall so exercise the power to incur indebtedness under the foregoing limitations so that the aggregate net indebtedness of such municipalities shall not exceed 9.75 percent of the valuation of the taxable property as herein before determined, except as provided for cooperative school districts under RSA 195:6. A written certificate signed by the commissioner of the department of revenue administration shall be conclusive evidence of the base valuation of municipalities for computing debt limits hereunder.*

# 2024
# Comparison of Full Value Tax Rates

The full value tax rate represents the estimated tax rate for a municipality if all the taxable property was assessed at 100% and includes the equalized value of properties for which a payment in lieu of property taxes is made.

The full value tax rate is calculated by dividing the 2024 gross local property taxes to be raised as reported by the Department of Revenue Administration, Municipal & Property Division, by the total equalized valuation including utility values and equalized railroad taxes.

The full value rates are ranked in ascending order from lowest to highest (1-220 for 2024). If two municipalities have the same full value tax rate they are ranked with the same number. The unincorporated towns (signified by N/A in the Rank column) have no 2024 tax rate, and thus are not ranked.

The full value tax rate can only be used to make a limited comparison of what a property in one municipality would pay for taxes to a property of equal value in another municipality.

| | | | |
|---|---|---|---|
| **For example:** | **Town A** | **100,000 X 21.95** | |
| | | **1000 =** | **$2,195.00** |
| | **Town B** | **100,000 X 26.56** | |
| | | **1000 =** | **$2,656.00** |

**Due to diverse real estate values in New Hampshire, properties of equal value do not equate to properties of equal size or quality.**

Prior to making any assumptions or decisions regarding a property owner's tax burden in a municipality, other factors should be considered such as real estate values, municipal services, schools, community make-up, and locational factors including proximity to urban areas, medical facilities, highways, recreation areas, etc.

# Introduction

A State Tax Expenditure Report must be included in the Governor's Annual Budget Message, pursuant to P.L. 2009, Chapter 189. This is New Jersey's sixteenth annual Tax Expenditure Report.

**WHAT IS A TAX EXPENDITURE?**

Usually, when we speak of expenditures made by the State (or other governments), we are referring to *direct expenditures.* These are the typical expenditures that comprise a state budget – money spent on the personnel, goods and services required to support state programs and policy priorities in areas such as education, transportation, public safety, health and welfare, environmental protection and others.

In some cases, rather than distributing funds directly, the State will instead support certain priorities by reducing the amount of revenue it would otherwise collect under existing taxes. Like direct expenditures, these targeted tax reductions – typically provided in the form of tax exemptions, exclusions, credits, deductions or special rates – support the State's programs and policy priorities and are referred to as *tax expenditures*.

Tax expenditures can:

- Reduce tax burdens for specific groups of taxpayers – both individuals and businesses;
- Lower or eliminate taxes on goods, services or transactions that would normally be taxed; or
- Combine these features by providing tax relief that targets certain types of income or transactions for specific groups of taxpayers.

Some tax expenditures are widely available and benefit many taxpayers: for example, the federal mortgage interest deduction that allows homeowners who itemize their deductions to subtract the interest portion of their mortgage payments from their income, thus lowering their overall income tax bill; or special exemptions that eliminate sales tax on food and clothing in many states. Other tax expenditures are more narrowly focused, such as incentives that encourage specific types of businesses to locate in certain areas in exchange for a reduction in their corporate or property tax liability.

What these examples share in common is that they reduce the total revenue that would otherwise be collected under these taxes. Thus, tax expenditures are essentially a form of spending executed through the tax code.

**WHAT ARE THE TYPES OF TAX EXPENDITURES?**

For the purposes of this report, the Division of Taxation considers "tax expenditures" to be only those tax-revenue-reducing provisions explicitly specified under State law. These generally fall into five categories of preferential tax treatment: exemptions, exclusions, deductions, credits and direct property tax relief. These five categories are defined as follows:

**Exemptions** are categories of goods (or certain uses of those goods) or services that by law cannot be taxed. For example, prescription drugs are exempt under the New Jersey Sales and Use Tax law, as are food and clothing, as noted above. These expenditures often are not required to be reported. Social Security income is exempt for New Jersey Income Tax purposes and does not need to be reported on the State Income Tax return. Some exemptions, such as the Personal Exemption and Veteran Personal Exemption, represent reductions in taxable income intended to recognize certain unspecified personal costs incurred by individuals. (Other reductions in taxable income are classified as deductions, as described below).

**Exclusions** are similar in nature to exemptions**,** but may apply to only a portion of that otherwise-taxed category. For example, unlike Social Security income, only a portion of pension income is nontaxable. The portion of pension income not subject to tax is referred to as the Pension Exclusion.

**Deductions** reduce the amount of income or business receipts that are subject to tax. These reductions are usually tied to a particular type of expense that was incurred – for example, mortgage interest or alimony paid. Deductions may reduce taxable income by a specified dollar amount or a percentage of the expense incurred, and may be available broadly or to a specific category of recipient. Deductions are provided for any number of reasons, including the avoidance of double taxation on items that may have been taxed already. Common New Jersey Income Tax deductions include certain medical expenses and alimony.

**Credits** are direct reductions from the amount of taxes that must be paid. Because tax credits directly reduce the amount of taxes collected, they generally have a greater effect on revenues than exemptions, exclusions or deductions. Credits may result in refunds to taxpayers having no tax liability, as in the case of the New Jersey Earned Income Tax Credit.

**Direct Property Tax Relief** refers to direct payments from governmental entities to taxpayers who have completed the appropriate forms, in order to offset their local property tax burden.

## WHAT'S IN THIS REPORT?

This report provides estimates of the dollar amounts by which New Jersey's tax expenditures reduce the final tax liability of individuals and businesses in the State. The estimates herein best reflect current law at the time of publication of this report, and do not assume or reflect policy changes recommended at the time of the Governor's Budget Message. The tax expenditures included in this report are grouped according to the taxes to which they apply. They are first presented in a comprehensive table organized by tax and type of tax expenditure, and are then explained in greater detail throughout the tax-specific sections that follow.

P.L. 2009, Chapter 189, requires the publication of all State tax expenditures made in the last completed fiscal year, the current fiscal year and the fiscal year to which the budget message applies. For the purposes of this report, those years are FY 2025, FY 2026 and FY 2027. The tax expenditure numbers for FY 2026 are estimated based on the first six months of actual data from FY 2026.

In addition to the estimates of the value of the tax expenditures, the law requires this report to include the following information, provided in the detailed sections of the report:

- Citation of the enabling legislation;
- Effective date of the tax expenditure;
- Objective of the tax expenditure;
- Description of the tax expenditure;
- Data source used for the estimate; and
- A measure of the reliability of the estimate.

While there are provisions in the tax code that represent direct expenditures or that aid in the efficient collection of revenue, the compilers of this report have made every effort to include only those provisions that represent actual tax expenditures as described above.

### RELIABILITY OF THE ESTIMATES

Every estimate of the fiscal impact of a tax expenditure provided in this report is assigned a reliability rating on a scale of 1 to 4, 1 being the most reliable and 4 being the least. The rating takes into account the source and quality of the available data and the associated methodology used in calculating the estimated revenue foregone as a result of the given exemption, credit, deduction or exclusion. While estimates of the fiscal impact of many tax expenditures can be calculated directly from information reported on tax returns, others by necessity must be derived from incomplete or aggregate data from tax returns, from other State government agencies or from external sources such as federal agencies and market studies. **As such, estimates in the report should be understood in the context of their reliability ratings and are subject to change annually as new data become available and methodologies for estimating are revisited.** The ratings scale is provided below. Both the numeric rating and its definition are provided with the description of each tax expenditure for which an estimate is provided.

| Reliability Rating | Definition |
|---|---|
| 1 | Based on the population of verified tax returns. |
| 2 | Based on a sample of verified tax returns. |
| 3 | Based on unverifiable tax records or information from other State and/or federal government agencies. |
| 4 | Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources. |

The table below provides the distribution of ratings for tax expenditures under three major taxes and other taxes. Each column provides the rating distribution within a given tax. For example, under the Gross Income Tax, out of 48 tax expenditure estimates, four have a reliability rating of 1, 28 have a reliability rating of 2, and so on. Reading across the rows gives the distribution of each rating across taxes. For example, out of 39 tax expenditure estimates with a reliability rating of 1, there are four under the Gross Income Tax, none under the Sales and Use Tax, 11 under the Corporation Business Tax and 24 under other taxes.

**Reliability Ratings by Tax**

| Rating | GIT | SUT | CBT | Other | Total |
|---|---|---|---|---|---|
| **1** | 4 | 0 | 11 | 24 | **39** |
| **2** | 28 | 0 | 0 | 2 | **30** |
| **3** | 3 | 6 | 17 | 5 | **31** |
| **4** | 13 | 32 | 1 | 0 | **46** |
| **Total** | **48** | **38** | **29** | **31** | **146** |

# What is New in This Edition?

The Tax Expenditure Report is formatted to highlight the costs of various tax incentives and tax-related benefits provided by the State of New Jersey. Some incentives are used to comply with Federal law or are required by the State Constitution.

This report contains estimates for the previous, current, and next fiscal year. In some cases, estimates will differ from the corresponding figures in a prior report. This is either because the data has been revised to reflect the most up-to-date figures or because improved techniques have been used to estimate the expenditures.

This edition includes updates in the following tax expenditures:

**Gross Income Tax**

The Family Leave Benefit Exclusion estimate, under the Gross Income Tax, has been broken out from the Temporary Disability Exclusion estimate, and reported separately in this year's report.

An exclusion of exempt gross income for certain net capital gains or income derived from the sale, exchange, or other disposition of qualified small business stock to the extent such gains or income are exempt from federal taxation, is available under the Gross Income Tax.

The Angel Investor Tax Credit rates, under the Gross Income Tax, are increased from 20 percent of the qualified investment made by a taxpayer to 35 percent; the higher credit amount of 25 percent of the qualified investment allowed to taxpayers (meeting certain requirements) is increased to 40 percent.

**Sales and Use Tax**

Beginning July 1, 2025, the sale of zero emission vehicles is taxed at the full statutory Sales and Use Tax rate, which is currently 6.625 percent, due to the Sales and Use Tax exemption on the sale of such vehicles phasing-out on June 30, 2025.

**Corporation Business Tax**

The Angel Investor Tax Credit rates, under the Corporation Business Tax, are increased from 20 percent of the qualified investment made by a taxpayer to 35 percent; the higher credit amount of 25 percent of the qualified investment allowed to taxpayers (meeting certain requirements) is increased to 40 percent.

The New Jersey Film and Digital Media Tax Credit rate, under the Corporation Business Tax, is increased from 35 percent to 40 percent of a company's qualified production expenses, as approved by the New Jersey Economic Development Authority.

The Brownfields Redevelopment Incentive Program, a tax credit program to incentivize environmental remediation, abatement, and demolition activities to allow for the redevelopment of brownfields sites, as approved by the New Jersey Economic Development Authority, is included in this year's report.

The Next New Jersey Manufacturing Program, a tax credit program intended to foster job growth by encouraging manufacturing facilities to establish and expand their physical presence in New Jersey, as approved by the New Jersey Economic Development Authority, is included in this year's report.

The New Jersey Housing and Mortgage Finance Agency is authorized to conduct tax credit auctions to provide financial assistance to support the development of certain housing programs. Purchasers who receive a tax credit through the auction may apply the credit against their Corporation Business Tax liability for the current privilege period of the date the credit was approved.

**Insurance Premiums Tax**

The New Jersey Housing and Mortgage Finance Agency is authorized to conduct tax credit auctions to provide financial assistance to support the development of certain housing programs. Purchasers who receive a tax credit through the auction may apply the credit against their Insurance Premiums Tax liability for the current privilege period of the date the credit was approved.

**Local Property Tax Supported by State Government**

The Property Tax Reimbursement program, also known as Senior Freeze, was amended to include disabled individuals under age 65 who receive federal Railroad Retirement Disability payments, and who meet all other program eligibility requirements. Previously, the program only included eligible disabled individuals under age 65 who received federal Social Security Disability payments.

# Detail of Identifiable State Tax Expenditures

## Gross Income Tax
## Overview

### Description

This graduated tax is levied on gross income earned or received after June 30, 1976, by New Jersey resident and nonresident individuals, estates, and trusts.

### Rate

Marginal rates for tax years beginning on or after January 1, 2020, range from 1.4 percent to 10.75 percent

### Filing Threshold

For tax years beginning on or after January 1, 2001, the filing threshold is $10,000 or less for the entire year (single filers, married persons filing separately, and estates and trusts), and $20,000 or less for the entire year (married couples filing jointly, heads of household, and surviving spouses).

### Exemptions

- Taxpayer, $1,000
- Taxpayer's spouse/civil union partner or domestic partner who does not file separately, $1,000
- Taxpayer 65 years old or more, additional $1,000; same for spouse/civil union partner age 65 or older who does not file separately
- Blind or totally disabled taxpayer, additional $1,000; same for blind or totally disabled spouse/civil union partner who does not file separately
- Taxpayer's dependent child and other dependents, $1,500
- Taxpayer's dependent under age 22 and attending college full time, additional $1,000
- Veterans honorably discharged, $6,000; in addition to the $1,000 personal exemption

### Deductions

- Payments of alimony or for separate maintenance are deductible by the payer if reported as income by the payee
- Unreimbursed medical expenses in excess of 2 percent of gross income; qualified medical savings account contributions; and for the "self-employed," qualified health

insurance costs

- Property Tax Deduction, up to $15,000, if refundable credit is not taken
- Qualified Conservation Contributions
- Deduction for eligible taxpayers who provide primary care medical and/or dental services at a qualified practice located in or within five miles of a Health Enterprise Zone
- Organ or bone marrow donation deduction for unreimbursed expenses for travel, lodging, and lost wages related to the donation, up to $10,000
- New Jersey Better Educational Savings Trust (NJBEST) contributions, up to $10,000
- Principal and interest payment on student loans under the New Jersey College Loans to Assist State Students (NJCLASS), up to $2,500
- Tuition paid to an in-State higher learning institution, up to $10,000
- Deduction for the Alternative Business Calculation Adjustment

### Credits

- Payments of income or wage tax imposed by another state (or political subdivision) or by the District of Columbia, with respect to income subject to tax under this Act. This will not exceed the proportion of tax otherwise due that the amount of the taxpayer's income subject to tax by the other jurisdiction bears to the taxpayer's entire New Jersey income
- Amounts withheld by an employer and payments of estimated tax, including any payments made in connection with the sale or transfer of real property by a nonresident, estate, or trust
- Amounts paid by an S corporation on behalf of a shareholder
- Amounts paid by a partnership on behalf of a partner
- New Jersey Earned Income Tax Credit
- Excess unemployment and disability insurance contributions withheld
- Property Tax Credit, up to $250, if deduction is not taken
- Sheltered Workshop Tax Credit
- Garden State Film and Digital Media Jobs Act Credit
- Child and Dependent Care Tax Credit
- Organ/Bone Marrow Donation Credit for employers
- Child Tax Credit
- Angel Investor Tax Credit
- Gold Star Family Counseling Credit
- Wounded Warrior Caregivers Credit

## Disposition of Revenues

Revenues are deposited in the Property Tax Relief Fund to be used for the purpose of reducing or offsetting property taxes.

## Recent History

P.L. 2025, Chapter 67: The law provides an exclusion from New Jersey gross income of certain exempt net capital gains or income derived from the sale, exchange, or other disposition of qualified small business stock, to the extent such gains or income are exempt from federal taxation under section 1202 of the federal Internal Revenue Code. This law went into effect on July 1, 2025, and applies to taxable years beginning on or after January 1, 2026.

P.L. 2025, Chapter 71: The law increases the Angel Investor Tax Credit from 20 percent to 35 percent of the qualified investment made by the taxpayer, and from 25 percent to 40 percent for taxpayers meeting certain requirements. The law modifies the definition of "New Jersey based business" and "New Jersey emerging technology business" to decrease the employee threshold from fewer than 225 to fewer than 150. The value of credits cannot exceed $500,000 for each qualified investment made. The credit can be applied against a taxpayer's Gross Income Tax liability and must be allowed in the privilege period in which the taxpayer applied for the credit. The law also repeals the New Jersey Ignite Act. This law went into effect on June 30, 2025, and applies to any applications for the Angel Investor Tax Credit that are approved for taxable years and privilege periods beginning on or after January 1, 2026.

P.L. 2024, Chapter 1: The law allows GIT taxpayers to utilize an alternative method to calculate a depreciation deduction of eligible capital expenditures incurred in connection with the construction of new affordable housing developments, owned by the taxpayer.

P.L. 2023, Chapter 125: The law revises the statute of limitations for a taxpayer to adjust their credit for taxes paid to another jurisdiction if the taxpayer’s income is adjusted by another state. The law also establishes an employer convenience income sourcing rule for New Jersey. The law creates a tax credit for resident taxpayers that successfully challenges another state’s employer convenience income sourcing rules when working from a New Jersey location. The law establishes a pilot program within the Economic Development Authority to provide grants to qualifying businesses that reassign their New Jersey resident employees to New Jersey locations.

P.L. 2023, Chapter 72: The law doubles the benefit amount of the Child Tax Credit. This refundable tax credit is available to taxpayers with less than $80,000 in taxable income and who have children age five years and younger at the end of the taxable year.

P.L. 2023, Chapter 4: The law provides gross income tax credits for certain deliveries of low carbon concrete and for costs of conducting environmental product declaration analyses of low carbon concrete. For GIT filers, the credits may not reduce the taxpayer’s liability below zero.

Unused credits may be carried forward for up to seven tax years. The Division of Taxation can neither issue more than $10 million in tax credit certificates per year nor allow any taxpayer to obtain tax credits of more than $1 million in any tax year. This law went into effect on July 30, 2023, and applies to tax years beginning on or after January 1, 2024.

P.L. 2022, Chapter 125: The law codified the existing treatment of the cancellation of a disabled veteran's federal student loan debt for New Jersey Gross Income Tax purposes. The cancellation or forgiveness of debt income is currently not subject to New Jersey Gross Income Tax. The law codified this treatment as it applies specifically to certain federal student loan debt held by disabled veterans that is discharged through the Total and Permanent Disability discharge program of the U.S. Department of Education. This law went into effect on December 5, 2022.

P.L. 2022, Chapter 71: The law exempts compensation for services performed by a member of a district board of elections from Gross Income Tax, including any compensation paid to an election officer during an early voting period. This law went into effect on July 28, 2022.

P.L. 2022, Chapter 24 and P.L.2022, Chapter 115: The law created a refundable Child Tax Credit for resident taxpayers with taxable incomes of $80,000 or less. This credit is available for all filing statuses except married filing separate. The taxable income ranges and credit amounts are the same, regardless of filing status. A taxpayer could claim a tax credit amount of up to $500 per child under the age of six. This law applies to tax years beginning on or after January 1, 2022.

## 1 Age 65 Years or Older Exemption

**Citation:** N.J.S.A. 54A:3-1

**Effective Date:** 7/6/1976
**Applied Date:** 7/1/1976

**2027 Estimate:** $53,200,000

**Objective:** To provide tax relief to senior citizens.

**Description:** An exemption is allowable for the taxpayer 65 years of age or over at the close of the taxable year in the amount of $1,000. An exemption is also allowable for a taxpayer's spouse 65 years of age or over at the close of the taxable year in the amount of $1,000.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** Approximately 1,399,100 exemptions were claimed in Tax Year 2024.

## 2 Alimony and Separate Maintenance Payments

**Citation:** N.J.S.A. 54A:3-2

**Effective Date:** 7/8/1976
**Applied Date:** 7/1/1976

**2027 Estimate:** $42,700,000

**Objective:** To avoid double taxation of alimony payments, which are subject to Gross Income Tax payable by the recipient.

**Description:** A deduction is available for amounts paid as alimony to a former spouse, or to a spouse receiving separate maintenance pursuant to a court decree. Such amounts must be reported as income to the recipient of alimony or separate maintenance payments.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** Approximately 18,000 returns took this deduction in Tax Year 2024.

## 3 New Jersey Angel Investor Tax Credit Act

**Citation:** N.J.S.A. 54A:4-13

**Effective Date:** 1/31/2013 **2027 Estimate:** $35,000,000

**Applied Date:** 1/1/2012

**Objective:** To encourage investment in New Jersey technology businesses.

**Description:** Upon approval by the NJEDA, a taxpayer is allowed a credit against the Gross Income Tax (N.J.S.A. 54A:1-1 et seq.) amount due for the taxable year, of up to 40 percent of the qualified investment made in a New Jersey emerging technology business, up to a maximum allowed credit of $500,000 for the taxable year for each qualified investment made by the taxpayer. A maximum of up to $25 million in credits may be approved per calendar year.

**Data Source:** New Jersey Economic Development Authority

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies. Current fiscal year value indicates the statutory maximum.

## 4 Blind/Disabled Exemption

**Citation**: N.J.S.A. 54A:3-1

**Effective Date:** 7/6/1976 **2027 Estimate:** $2,200,000

**Applied Date:** 7/1/1976

**Objective:** To provide tax relief for the blind and individuals with disabilities.

**Description:** A taxpayer is allowed a $1,000 exemption if the taxpayer was blind or disabled on the last day of the tax year. If a taxpayer is filing jointly, the taxpayer's spouse can take a $1,000 exemption if they were also blind or disabled on the last day of the tax year.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** Approximately 180,700 exemptions were claimed in Tax Year 2024.

## 7 Capital Gain Exclusion on Sale of Principal Residence

**Citation:** N.J.S.A. 54A:6-9.1

**Effective Date:** 3/20/1998 **2027 Estimate:** $569,000,000

**Objective:** This exclusion conforms the Gross Income Tax treatment of gains derived from the sale or exchange of a principal residence to a similar federal income tax exemption provided under the federal Taxpayer Relief Act of 1997.

**Description:** Gross income does not include up to $500,000 in gain from the sale of a personal residence, subject to certain timing restrictions similar to restrictions found in the parallel federal income tax exclusion.

**Data Source:** U.S. Internal Revenue Service

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 11 Child Support

**Citation:** N.J.S.A. 54A:5-1(n)

**Effective Date:** 7/8/1976 **2027 Estimate:** $31,400,000

**Objective:** As part of the original legislation which created the Gross Income Tax, the Legislature ensured child support is not included in gross income. This exclusion remains in effect.

**Description:** Child support payments received are not included in gross income.

**Data Source:** U.S. Department of Health and Human Services

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 13 Credit for Taxes Paid to Other Jurisdiction(s)

**Citation:** N.J.S.A. 54A:4-1
**Effective Date:** 7/7/1993 **2027 Estimate:** $4,932,500,000

**Objective:** To allow resident taxpayers who receive income from other taxing jurisdictions (work or derive income in other states or cities that impose tax on those earning income there) which is subject to tax both in New Jersey and in that other jurisdiction to take a credit for those taxes. The credit is the greater of the tax actually paid or a calculated amount representing the proportion of income subject to tax in the other jurisdiction as compared to income from all sources which is taxable to a New Jersey resident.

**Description:** A New Jersey resident is allowed a credit for tax paid to certain other jurisdictions when the income is subject to tax by both New Jersey and the outside jurisdiction.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** 527,700 returns used this credit in Tax Year 2024.

## 16 Deductions from Business Income

**Citation:** N.J.S.A. 54A:5-1(b)

**Effective Date:** 7/24/1998 **2027 Estimate:** $1,171,200,000

**Objective:** The allowance of legitimate business deductions from gross income realized from an unincorporated business, primarily the same deductions as allowed for federal income tax purposes, ensures that only net income is subject to the Income Tax.

**Description:** In calculating net income from the operation of a business, profession or other activity, taxpayers are permitted to deduct all costs and expenses incurred in the conduct of such business.

**Data Source:** U.S. Internal Revenue Service; NJ-1040 forms.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** This deduction was reported on 832,600 returns reporting business income in Tax Year 2024.

## 17 Deductions from Rents, Royalties, Patents and Copyrights

**Citation:** N.J.S.A. 54A:5-1(d)

**Effective Date:** 7/24/1998 **2027 Estimate:** $780,700,000

**Objective:** To allow the recipients of rent, royalty, patent and copyright income to reduce gross income from these sources by the legitimate costs of earning such income.

**Description:** In calculating net income, taxpayers are permitted to deduct all costs and expenses.

**Data Source:** Gross Income Tax Calculator and IMF/IRTF file (IRS).

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** New Jersey, since the inception of the Income Tax, has allowed deductions for the vast majority of federally allowable business expenses including that for rents, royalties, patents and copyrights. This serves to simplify New Jersey's tax calculations. This deduction was reported on about 253,700 returns in Tax Year 2024.

## 18 Dependent Child Exemption

**Citation:** N.J.S.A. 54A:3-1

**Effective Date:** 7/12/1990 **2027 Estimate:** $189,000,000
**Applied Date:** 1/1/1991

**Objective:** To financially support child-rearing taxpayers.

**Description:** A taxpayer is allowed a $1,500 exemption for each dependent who qualifies as a dependent of the taxpayer during the taxable year for federal income tax purposes.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** Approximately 1.7 million exemptions were claimed in Tax Year 2024.

## 19 Dependents Attending College

**Citation:** N.J.S.A.54A:3-1.1

**Effective Date:** 9/2/1976 **2027 Estimate:** $12,500,000

**Objective:** To provide additional relief for taxpayers whose dependents were and are attending college.

**Description:** A deduction which reduces taxable income by $1,000 for each dependent claimed on the New Jersey tax return who is under age 22 for the entire tax year and is attending college full-time.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** Approximately 238,900 exemptions were claimed in Tax Year 2024.

## 21 Employee 401(k) Contributions

**Citation:** N.J.S.A. 54A:6-21

**Effective Date:** 1/1/1984 **2027 Estimate:** $330,200,000

**Objective:** Allows for employee contributions to their own 401(k) retirement fund to be excluded from gross income. This exclusion took effect January 1, 1984.

**Description:** Gross income does not include amounts contributed by an employee to a 401(k) retirement plan.

**Data Source:** U.S. Bureau of Economic Analysis; U.S. Bureau of Labor Statistics.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** It is assessed that this expenditure is effective as individuals enrolled in other pension or retirement plans seek the advantage of the 401(k) contribution exclusion.

## 23 Employer 401(k) Contributions

**Citation:** N.J.S.A. 54A:6-21

**Effective Date:** 1/1/1984 **2027 Estimate:** $330,200,000

**Objective:** Allows for employer contributions, on behalf of the employee, to an employee's 401(k) retirement fund to be excluded from gross income. This exclusion took effect January 1, 1984.

**Description:** Gross income does not include amounts contributed by an employer on behalf of and at the election of an employee to a 401k retirement plan.

**Data Source:** U.S. Bureau of Economic Analysis; U.S. Bureau of Labor Statistics.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** Effective January 1, 1984, 401(k) pension contributions were made allowable to reduce taxable annual income to assist taxpayers funding their own retirement.

## 24 Employer Contributions to Retirement Plans

**Citation:** N.J.S.A. 54A:6-10

**Effective Date:** 7/8/1976 **2027 Estimate:** $1,952,500,000
**Applied Date:** 8/30/1976

**Objective:** To encourage employer support of employee retirement.

**Description:** Employer contributions to employee retirement plans are not included in gross income for Gross Income Tax purposes.

**Data Source:** U.S. Bureau of Economic Analysis; U.S. Bureau of Labor Statistics.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** The Gross Income Tax Act does not require employer contributions to a retirement account to be taxed or reported as income by a recipient. This fosters employer support of employee retirement without consequence to the employee.

## 25 Exempt Interest (Federal) Exclusion

**Citation:** N.J.S.A. 54A:6-14

**Effective Date:** 7/8/1976 **2027 Estimate:** $235,300,000

**Objective:** Non-discretionary. Required under federal law.

**Description:** Gross income does not include interest on (or capital gain from) obligations of a U.S. agency, including such received through an investment fund.

**Data Source:** National income and product accounts, Bureau of Economic Analysis.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** The federal government requires certain interest earned to be exempt. The State of New Jersey follows this requirement. This encourages the investment in government bonds and other similar instruments.

## 26 Exempt Interest (State) Exclusion

**Citation:** N.J.S.A. 54A:6-14

**Effective Date:** 7/8/1976 **2027 Estimate:** $23,200,000

**Objective:** The exemption of interest on New Jersey obligations was a part of the original Gross Income Tax Act as an attempt to encourage investment in New Jersey securities.

**Description:** Gross income does not include interest on obligations of a New Jersey State agency, Authority or a New Jersey political subdivision.

**Data Source:** National income and product accounts, Bureau of Economic Analysis.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** The State of New Jersey excludes certain interest earned from taxation. This encourages the investment in government bonds and other similar instruments.

## 29 Gifts and Inheritances

**Citation:** N.J.S.A. 54A:6-5

**Effective Date:** 7/8/1976 **2027 Estimate:** $667,100,000

**Objective:** As part of the original legislation which created the Gross Income Tax, the Legislature ensured that gross income does not include the value of property acquired by gift, bequest, devise or inheritance as they may be taxed under other tax laws.

**Description:** Gross income does not include the value of property acquired by gift, bequest, devise or inheritance.

**Data Source:** Inheritance Tax Master Cash File, Division of Taxation.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** These income sources have been nontaxable since the inception of the Gross Income Tax as they may be taxed under other tax laws.

## 30 Filing Threshold – Gross Income Under $20,000

**Citation:** N.J.S.A. 54A:8-3.1

**Effective Date:** 9/11/1980 **2027 Estimate:** $130,000,000

**Objective:** To provide tax relief to those with gross income less than $20,000

**Description:** New Jersey filers with gross income totaling less than $20,000, or $10,000, depending on filing status, are not subject to income taxation.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** About 1,368,500 returns fell below the filing threshold in Tax Year 2024.

## 31 Health Enterprise Zone Deduction

**Citation:** N.J.S.A. 54A:3-8

**Effective Date:** 3/1/2005 **2027 Estimate:** $1,500,000

**Objective:** To provide access to quality medical and dental primary care for the traditionally medically underserved communities in New Jersey. To that end, this law institutes incentives to encourage primary care physicians and dentists to set up and maintain their medical and dental offices in the State's medically and dentally underserved areas.

**Description:** A taxpayer engaged in providing primary care in a practice located within a Health Enterprise Zone or in a qualified practice located within 5 miles of a Health Enterprise Zone is allowed a deduction.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** About 370 returns took this deduction in Tax Year 2024.

## 36 Lottery Winnings under $10,000

**Citation:** N.J.S.A. 54A:6-11

**Effective Date:** 6/29/2009 **2027 Estimate:** $100,000

**Objective:** To support recipient agencies and populations benefiting from State Lottery proceeds.

**Description:** Gross income does not include individual winnings or prize amounts under $10,000 from the New Jersey Lottery.

**Data Source:** Extrapolation of New Jersey Lottery Commission data.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 37 Medical Expenses

**Citation:** N.J.S.A. 54A:3-3

**Effective Date:** 9/22/1999 **2027 Estimate:** $608,600,000

**Objective:** To allow taxpayers to deduct the cost of certain medical expenses under the New Jersey Gross Income Tax.

**Description:** A taxpayer is allowed to deduct from gross income unreimbursed medical expenses for the taxpayer, spouse or domestic partner, and dependents to the extent that such medical expenses exceed two percent of the taxpayer's gross income.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** The federal government allows for deductions for medical expenses when the expenses total more than 10 percent of Adjusted Gross Income, while New Jersey alters that standard to two percent of New Jersey Gross Income. New Jersey has provided residents a greater deduction and, therefore, a greater relief from the growing burden of medical expenses than the federal government. Approximately 1,652,000 returns in Tax Year 2024.

## 40 New Jersey Earned Income Tax Credit

**Citation:** N.J.S.A. 54A:4-7

**Effective Date:** 6/30/2010 **2027 Estimate:** $628,100,000

**Objective:** To assist low- to moderate income New Jersey families with providing for their children, reduce child poverty, help families afford better care for their children, support WorkFirst NJ efforts, and foster employment Statewide.

**Description:** The law provides a refundable tax credit program for low- to moderate-income individuals and families with earned income. The State credit is equal to 40 percent of the federal Earned Income Tax Credit for eligible filers. More information is available at https://www.state.nj.us/treasury/taxation/eitc/eitcinfo.shtml.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** About 617,800 Earned Income Tax Credit claims were issued, at an average credit of $977 per claim, for Tax Year 2024.

## 41 Other Dependent Exemptions

**Citation:** N.J.S.A. 54A:3-1

**Effective Date:** 7/12/1990 **2027 Estimate:** $11,500,000
**Applied Date:** 1/1/1991

**Objective:** To provide additional exemption(s) to all dependents for which the taxpayer is eligible to take a federal exemption.

**Description:** A taxpayer is allowed a $1,500 exemption for each dependent who qualifies as a dependent of the taxpayer during the taxable year for federal income tax purposes.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

## 42 Other Retirement Income Exclusion and Special Exclusion

**Citation:** N.J.S.A. 54A:6-15

**Effective Date:** 7/8/1976 **2027 Estimate:** $127,700,000

**Objective:** This “additional exclusion" allows those eligible seniors, who receive less than the maximum exclusion to reduce other, passive income receipts up to the maximum excludable amounts otherwise available to provide parity amongst senior taxpayers.

The additional Special Exclusion is provided for those seniors who cannot receive Social Security or Railroad Retirement benefits.

**Description:** For taxable years beginning on or after January 1, 2021, the maximum excludable amounts are $100,000 for married/civil union couples filing jointly, $75,000 for individuals, and $50,000 for married/civil union partners filing separately. Those taxpayers with income between $100,000 and $150,000 may be eligible for an exclusion based on a percentage of their reported taxable pension, annuity, and IRA withdrawals.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

## 43 Pension Exclusion

**Citation:** N.J.S.A.54A:6-10

**Effective Date:** 7/8/1976 **2027 Estimate:** $493,100,000

**Objective:** The pension exclusion was included in the original Gross Income Tax Act and any and all modifications were intended to provide limited tax relief to New Jersey senior and disabled taxpayers.

**Description:** For taxable years beginning on or after January 1, 2021, the maximum excludable amounts are $100,000 for married/civil union couples filing jointly, $75,000 for individuals, and $50,000 for married/civil union partners filing separately. Those taxpayers with income between $100,000 and $150,000 may be eligible for an exclusion based on a percentage of their reported taxable pension, annuity, and IRA withdrawals.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** Approximately 631,300 resident returns claimed this exclusion in Tax Year 2024.

## 44 Permanent Disability Exclusion

**Citation:** N.J.S.A. 54A:6-10

**Effective Date:** 7/8/1976 **2027 Estimate:** $82,900,000

**Objective:** To exclude amounts received as permanent disability payments through a public or private plan from gross income.

**Description:** Gross income does not include amounts received as permanent disability payments through a public or private plan.

**Data Source:** Annual Personal Income Tables (BEA).

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 46 Property Tax Credit

**Citation:** N.J.S.A. 54A:3A-20

**Effective Date:** 1/1/1996 **2027 Estimate:** $35,900,000

**Objective:** To provide a tax credit in the amount of $50 for homeowners or renters who do not benefit from taking a property tax deduction.

**Description:** A tax credit in the amount of $50 for homeowners or renters who do not take a property tax deduction. This credit is also available to certain senior or disabled residents who do not have a Gross Income Tax obligation.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** For New Jersey residents who have, for years, suffered from the burden of high property taxes, this credit, based on a calculation, reduces taxable liability. All residents who qualify take advantage of the most financially beneficial option. About 721,900 returns claimed this credit in Tax Year 2024.

## 47 Property Tax Deduction

**Citation:** N.J.S.A. 54A:3A-16

**Effective Date:** 1/1/1996 **2027 Estimate:** $787,000,000

**Objective:** To provide tax relief by reducing a taxpayer’s income by up to $15,000 for property taxes paid by homeowners, or the rental equivalent thereof paid by tenants, on a taxpayer's principal residence in this State.

**Description:** Taxpayers are entitled to a deduction up to $15,000 from gross income for property taxes due and paid for that calendar year on the taxpayer's homestead.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** About 1,906,500 returns claimed this deduction in Tax Year 2024.

## 48 Qualified Conservation Contribution

**Citation:** N.J.S.A. 54A:3-6

**Effective Date:** 1/14/2000 **2027 Estimate:** $1,200,000

**Objective:** To provide New Jersey taxpayers with an incentive to transfer ownership interests in real property to governmental or nongovernmental agencies engaged in land conservation or, through such means as development easements and conservation restrictions, to limit permanently the use of such property so that its natural character is preserved.

**Description:** A taxpayer is allowed a deduction against gross income for a qualified conservation contribution if so qualified under IRC section 170(h).

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** About 480 returns took this deduction in Tax Year 2024.

## 49 Railroad Retirement Exclusion

**Citation:** N.J.S.A. 54A:6-3

**Effective Date:** 7/8/1976 **2027 Estimate:** $12,600,000

**Objective:** To exclude payments received under the Railroad Retirement Act from gross income.

**Description:** Two years after the Social Security Act of 1935, the Railroad Retirement and Carrier Taxing Acts of 1937 became law, allowing employees of the railroad industry to have a retirement pension. Like Social Security, the State of New Jersey excludes this income from taxation to allow our State's seniors to have greater disposable income. This ensures that both Social Security and Railroad Retirement Benefits recipients are treated equitably.

**Data Source:** Personal Current Transfer Data, SAINC35, New Jersey, Bureau of Economic Analysis.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 52 Self-Employed Health Insurance Costs

**Citation:** N.J.S.A. 54A:3-5

**Effective Date:** 9/22/1999 **2027 Estimate:** $52,100,000

**Objective:** The law allows self-employed taxpayers to deduct health insurance costs. Employer paid health benefits are not included in employees' taxable income; the law provides equitable treatment of self-employed and employee taxpayers.

**Description:** Self-employed taxpayers are allowed to deduct, from their gross income, an amount equal to the amount paid, during the taxable year, for insurance for medical expenses for themselves, their spouses and dependents.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** New Jersey, since the inception of the Income Tax, has allowed deductions for the vast majority of federally allowable business expenses. This serves to simplify New Jersey's tax calculations. This deduction ensures that those self- employed taxpayers are not burdened with taxes on expenditures for maintaining good health.

## 53 Sheltered Workshop Tax Credit

**Citation:** N.J.S.A. 54A:4-11

**Effective Date:** 3/1/2005 **2027 Estimate:** $100,000

**Objective:** To support the operations of nonprofit agencies that furnish extended employment programs to individuals with disabilities.

**Description:** A credit available to certain taxpayers that employ qualified person(s) under an extended employment program.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

## 54 Social Security Income Exclusion

**Citation:** N.J.S.A. 54A:6-2

**Effective Date:** 7/8/1976
**Applied Date:** 7/1/1976

**2027 Estimate:** $2,394,300,000

**Objective:** To ensure that Social Security benefits received are not taxable under the Gross Income Tax to any extent.

**Description:** Social Security benefits received are not taxable under the Gross Income Tax to any extent.

**Data Source:** New Jersey Gross Income Tax Returns; Personal Current Transfer Data, SAINC35, New Jersey, Bureau of Economic Analysis.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** The State of New Jersey does not tax monies received as Social Security benefits, preserving the value of this important component of income for New Jersey's seniors.

## 53 Taxpayer and Spouse/CU Partner

**Citation:** N.J.S.A. 54A:3-1

**Effective Date:** 7/6/1976
**Applied Date:** 7/1/1976

**2027 Estimate:** $238,300,000

**Objective:** All taxpayers receive a personal exemption of $1,000 for themselves, their spouse and dependents, intended, in the same manner as federal tax exemptions, to shield from taxable income an allowance for personal needs.

**Description:** Each taxpayer is allowed a personal exemption of $1,000 which may be taken as a deduction from his or her New Jersey gross income. An additional exemption is allowable for the taxpayer's spouse, or domestic partner, who does not file separately.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** About 7,013,000 exemptions were claimed in Tax Year 2024.

## 54 Temporary Disability Exclusion

**Citation:** N.J.S.A. 54A:6-6 (P.L. 1976, Chapter 47)

**Effective Date:** 7/8/1976 **2027 Estimate:** $35,800,000

**Objective:** To ensure that gross income does not include amounts received as temporary disability payments through the New Jersey State temporary disability insurance law.

**Description:** Gross income does not include amounts received as temporary disability payments through the New Jersey State temporary disability insurance law.

**Data Source:** New Jersey Department of Labor and Workforce Development

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** The State's Temporary Disability Insurance program covers nearly 2.9 million workers and pays out roughly $730 million in benefits annually. By excluding these benefits from State taxation, this law ensures that beneficiaries receive nearly the full value of payments during periods when a person is unable to work. Benefits may still be subject to federal taxation.

## 55 Unemployment Insurance Exclusion

**Citation:** N.J.S.A. 54A:6-13 (P.L. 1976, Chapter 47)

**Effective Date:** 7/8/1976 **2027 Estimate:** $109,900,000

**Objective:** To ensure that gross income does not include benefits received under any unemployment insurance law. This exclusion remains in effect.

**Description:** Gross income does not include benefits received under any unemployment insurance law.

**Data Source:** United States Department of Labor

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** The State's Unemployment Insurance program covers more than four million workers and pays out roughly $3.3 billion in benefits annually. By excluding these benefits from State taxation, this law ensures that beneficiaries receive nearly the full value of payments during periods when a person is out of work. Benefits may still be subject to federal taxation.

## 58 Family Leave Benefit Exclusion

**Citation:** N.J.S.A. 54A:6-31 (P.L. 2008, Chapter 17)

**Effective Date:** 5/2/2008 **2027 Estimate:** $22,400,000

**Objective:** To ensure that gross income does not include benefits received under the State's family leave insurance law. This exclusion remains in effect.

**Description:** Gross income does not include benefits received benefits received under the State's family leave insurance law.

**Data Source:** New Jersey Department of Labor and Workforce Development

**Reliability:** 3

**Effectiveness:** The State's Family Leave Insurance program covers more than four million workers and pays out roughly $600 million in benefits annually. By excluding these benefits from State taxation, this law ensures that beneficiaries receive nearly the full value of payments during periods when a person is unable to work due to a non-work-related illness, injury, or pregnancy. Benefits may still be subject to federal taxation.

## 59 Welfare Assistance Payments

**Citation:** N.J.S.A. 54A:6-13

**Effective Date:** 7/8/1976 **2027 Estimate:** $73,800,000

**Objective:** To ensure that monies received as welfare assistance are not included in gross income.

**Description:** Monies received as welfare assistance are not included in gross income.

**Data Source:** Personal Current Transfer Data, SAINC35, New Jersey, Bureau of Economic Analysis

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** New Jersey has taken the position that individuals who fall below the poverty line and receive money from Welfare Assistance programs are not taxed. All who are qualified take advantage of this exclusion.

## 60 Workers' Compensation Exclusion

**Citation:** N.J.S.A. 54A:6-6

**Effective Date:** 7/8/1976 **2027 Estimate:** $18,600,000

**Objective:** To ensure that gross income does not include amounts received through worker's compensation acts.

**Description:** Gross income does not include amounts received through worker's compensation acts.

**Data Source:** Personal Current Transfer Data, SAINC35, New Jersey, Bureau of Economic Analysis

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** Like temporary disability payments, the State does not reduce the value of these payments which are received by taxpayers who cannot work during the period for which worker's compensation payments are received.

## 64 Qualified Small Business Stock Capital Gains Exclusion

**Citation:** N.J.S.A. 54A:6-34

**Effective Date:** 1/1/2026 **2027 Estimate:** $26,700,000

**Objective:** To help promote investment in small and medium-sized companies that find it difficult to attract initial capital investors.

**Description:** Allows a Gross Income Tax exclusion for exempt gains from the sale or exchange of qualifying small-business stock, conforming to 26 U.S. Code § 1202.

**Data Source:** U.S. Department of the Treasury.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 61 Veteran Personal Exemption

**Citation:** N.J.S.A. 54A:3-1

**Effective Date:** 1/1/2017 **2027 Estimate:** $32,800,000
**Applied Date:** 10/14/2016

**Objective:** To provide additional tax relief to veterans who were honorably discharged or released under honorable circumstances from active duty in the Armed Forces of the United States, a reserve component thereof, or the National Guard of New Jersey in a federal active duty in the Armed Forces of the United States, a reserve component thereof, or the National Guard of New Jersey in a federal active duty status.

**Description:** For Tax Year 2019 and each tax year thereafter, a personal exemption of $6,000 is allowed for veterans who were honorably discharged or released under honorable circumstances from active duty in the Armed Forces of the United States, a reserve component thereof, or the National Guard of New Jersey in a federal active duty status, as defined in N.J.S.A. 38A:1-1. This exemption is in addition to the $1,000 personal exemption that each taxpayer is entitled to, and any other additional exemption for which the veteran is eligible.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** About 164,200 exemptions were claimed in Tax Year 2024.

## 62 Child and Dependent Care Tax Credit

**Citation:** N.J.S.A. 54A:4-17 **2027 Estimate:** $23,800,000

**Objective:** To allow New Jersey resident taxpayers with taxable income of $150,000 or less who receive the federal Child and Dependent Care Credit to be granted a refundable Gross Income Tax credit.

**Description:** For taxpayers with gross incomes below $150,000, provides a tax credit for expenses related to the care of one or more qualifying individuals. Qualifying individuals include children under age 13 and spouses or other dependents incapable of self-care. The credit is equal to between 10 percent and 50 percent of the federal credit for expenses for household and dependent care services (IRC 26 U.S.C. s. 21), depending on the taxpayer's gross income (credit levels for Tax Year 2025 are shown in the table below). The credit is refundable.

| *NJ taxable income*: | *Amount of NJ credit*: |
|---|---|
| Not over $30,000 | 50 percent of federal credit |
| Over $30,000 but not over $60,000 | 40 percent of federal credit |
| Over $60,000 but not over $90,000 | 30 percent of federal credit |
| Over $90,000 but not over $120,000 | 20 percent of federal credit |
| Over $120,000 but not over $150,000 | 10 percent of federal credit |

**Data Source:** NJ-1040 data

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** About 116,600 credits were claimed in Tax Year 2024 with an average credit amount of $198.

## 63 Child Tax Credit

**Citation:** N.J.S.A. 54A:4-17.1

**Effective Date:** 6/30/2022 **2027 Estimate:** $207,400,000

**Objective:** To provide New Jersey resident taxpayers with taxable income of $80,000 or less as well as children age five or younger a refundable Gross Income Tax credit.

**Description:** For taxpayers with gross incomes below $80,000, provides a refundable tax credit of $200 to $1,000 per dependent child aged five or younger. The credit is $1,000 per eligible child for filers with income of $30,000 or less, $800 for filers with income of over $30,000 but not over $40,000, $600 for filers with income of over $40,000 but not over $50,000, $400 for filers with income of over $50,000 but not over $60,000, and $200 for filers with income of over $60,000 but not over $80,000.

**Data Source:** Gross Income Tax Calculator using NJ-1040 data.

**Reliability:** 1 Based on the population of verified tax returns.

**Effectiveness:** About 232,500 credits were claimed in Tax Year 2024 with an average credit amount of $949.

## 64 Organ/Bone Marrow Donation Deduction/Credit

**Citation:** N.J.S.A. 54A:3-10 and N.J.S.A. 54A:4-20

**Effective Date:** 5/21/2020 **2027 Estimate:** $200,000

**Objective:** To compensate New Jersey organ donors for unreimbursed expenses associated with organ donation, and to compensate employers of organ donors who provide their employees with additional paid time off associated with organ donation.

**Description:** Taxpayers may deduct from gross income up to $10,000 of unreimbursed expenditures for travel, lodging and lost wages related to an organ donation incurred in the taxable year. Eligible employers can take a credit of 25 percent of the employee's salary for up to 30 days of missed time for each donation, provided the paid time off was in addition to any other paid time off to which the employee was entitled.

**Data Source:** NJ-1040 data

**Reliability:** 1 Based on the population of verified tax returns.

## 65 New Jersey College Affordability Act Deductions

**Citation:** N.J.S.A. 54A:3-12 through 54A:3-14

**Effective Date:** 6/29/2021 **2027 Estimate:** $16,500,000

**Objective:** Provides Gross Income Tax deductions to help defray higher education costs for New Jersey taxpayers.

**Description:** The law creates three deductions related to the costs of higher education. The first allows taxpayers with gross income under $200,000 to deduct up to $10,000 annually in contributions made to an NJBEST college savings plan. The second allows for an annual deduction of up to $2,500 of principal and interest paid on student loans made under the NJCLASS program for taxpayers with gross income under $200,000. The third allows a deduction of up to $10,000 for tuition paid at New Jersey higher education institutions.

**Data Source:** NJ-1040 data

**Reliability:** 1 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 66 Alternative Business Calculation Adjustment Deduction

**Citation:** N.J.S.A. 54A:3-9

**Effective Date:** 1 /1/2012 **2027 Estimate:** $192,900,000

**Objective:** Gross Income Tax deduction for taxpayers with business losses.

**Description:** Four categories of business income are applicable under the calculation adjustment: 1) net profits from business, 2) partnership income, 3) S corporation income, and 4) net gains or income from rents, royalties, patents, and copyrights. This adjustment allows taxpayers to partially offset gains in one or more categories of business income with losses in the other categories of business income. It also allows taxpayers to carry forward such unused losses for up to twenty years to calculate future adjustments.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

**Effectiveness:** This deduction was reported on approximately 199,300 returns reporting business income in Tax Year 2024.

## 67 Gold Star Family Counseling Credit

**Citation:** N.J.S.A. 54A:4–16

**Effective Date:** 1/1/2018 **2027 Estimate:** $100,000

**Objective:** Incentivize mental health care professionals to provide counseling to Gold Star family members free of charge.

**Description:** Non-refundable credit amount is equal to the number of hours of counseling provided times the TRICARE rate for the service. The mental health care professional must provide at least 20 hours of counseling to qualify for the credit. The maximum number of hours authorized for the credit is 40. A Gold Star family member is a New Jersey resident and the surviving spouse, close relative, or legal guardian of a member of the United States Armed Forces or the National Guard who died while on active duty.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 2 Based on a sample of verified tax returns.

## 68 Wounded Warriors Caregivers Credit

**Citation:** N.J.S.A. 54A:4–14

**Effective Date:** 1 /1/2018 **2027 Estimate:** $100,000

**Objective:** Gross Income Tax credit to family caregivers of disabled armed service members.

**Description:** Refundable credit for taxpayers that provide care for a relative who is a qualifying armed services member. Taxpayers gross income must be $100,000 or less (for joint filers, heads of households, and widow(er)s) or $50,000 or less (for single and separate filers). Disability must arise out of service in any war or conflict on or after September 11, 2001. Credit amount is equal to the federal veteran disability compensation of the armed services member for which the family caregiver renders care, or $675, whichever is less.

**Data Source:** Gross Income Tax Calculator.

**Reliability:** 1 Based on the population of verified tax returns.

# Sales and Use Tax
# Overview

## Description

Sales and Use Tax applies to receipts from the retail sale, rental, or use of tangible personal property or digital property; retail sale of producing, fabricating, processing, installing, maintaining, repairing, and servicing tangible personal property or digital property; maintaining, servicing, or repairing real property; certain direct- mail services; tattooing, tanning, and massage services; investigation and security services; information services; limousine services; sales of restaurant meals and prepared food; rental of hotel and motel rooms; certain admission charges; certain membership fees; parking charges; storage services; sales of magazines and periodicals; delivery charges; and telecommunications services, except as otherwise provided in the Sales and Use Tax Act.

A compensating Use Tax is also imposed when taxable goods and services are purchased and New Jersey Sales Tax is either not collected or is collected at a rate less than New Jersey's Sales Tax rate. The Use Tax is due when such goods, or the goods on which taxable services are performed, come into New Jersey. If Sales Tax was paid to another state, the Use Tax is only due if the tax was paid at a rate that is less than New Jersey's rate.

All persons required to collect the tax must file a Business Registration Application (Form NJ-REG). Each registrant's authority to collect the Sales Tax is certified by a Certificate of Authority issued by the Division, which must be prominently displayed at each place of business to which it applies.

Major exemptions include: sales of newspapers; magazines and periodicals sold by subscription and membership periodicals; casual sales except motor vehicles and registered boats; clothing; farm supplies and equipment; flags of New Jersey and the United States; unprepared food and food ingredients purchased for human consumption; food sold in school cafeterias; prescription and certain nonprescription drugs and other medical aids; motor fuels; textbooks; professional and personal services unless otherwise taxable under the Act; real estate sales; tangible personal property used in research and development; production machinery and equipment.

The Sales and Use Tax Act was amended, effective October 1, 2005, to conform New Jersey's law to the requirements of the Streamlined Sales and Use Tax Agreement.

SSUTA is a multi-state effort to simplify and modernize the collection and administration of Sales and Use Taxes. The adoption of the SSUTA resulted in significant changes in New Jersey's tax policy and administration, including uniform product definitions and changes in the taxability of specific items. In addition, the SSUTA provided for the creation of a new central registration system, certain amnesty provisions, and minor changes in the treatment of exemption certificates.

## Rate

The rate of tax is 6.625 percent as of January 1, 2018.

## Disposition of Revenues

Revenues are deposited in the State Treasury for general State use; provided, however, a percentage of the annual revenue derived from the tax is constitutionally dedicated for the purposes of property tax reform.

## Recent History

P.L. 2024, Chapter 80: The law revises the definition of a "qualified assistance fund expense" to include the improvement of transportation infrastructure located within the UEZ, regardless of whether the improvement is made within a commercial or transportation corridor. The law also clarifies that qualifying municipalities would be able to use funds received through the UEZ program for transportation infrastructure projects and related debt service.

P.L. 2024, Chapter 73: The law modifies the definition of "hemp product" and adds a definition of "total THC" (tetrahydrocannabinol) pursuant to the New Jersey Hemp Farming Act. It also amends the New Jersey Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization (CREAMM) Act to add a definition of "intoxicating hemp product" and "total THC." The law imposes Sales Tax and local transfer tax (if imposed by the municipality) to retail sale of intoxicating hemp beverages.

P.L. 2024, Chapter 64: The law exempts receipts of investment metal bullion and investment coin sales from Sales and Use Tax. "Investment metal bullion" is defined as any elementary precious metal that has been put through a process of smelting or refining. This includes, but is not limited to, gold, silver, platinum, and palladium in a state or condition that its value depends on its contents, not its form. It does not include any precious metal that has been assembled, fabricated, manufactured, or processed for industrial, aesthetic, or artistic use. "Investment coin" is defined as any numismatic coin manufactured of gold, silver, platinum, palladium, or other metal having fair market value of not less than $1,000, and does not include jewelry or works of art made of coins or commemorative medallions.

P.L. 2024, Chapter 19: The law phases-out the Sales and Use Tax exemption for sales of zero emission vehicles (ZEVs). Effective October 1, 2024, through June 30, 2025, a tax rate of 3.3125 percent will be imposed on the sale of ZEVs. Beginning July 1, 2025, ZEVs will be taxed at the full statutory rate, which is currently 6.625 percent. The law also repeals the annual Sales Tax holiday established by P.L. 2022, Chapter 21, for the sale of certain school supplies and sport or recreational equipment.

P.L. 2024, Chapter 3: The law provides a Sales and Use Tax exemption for purchases made by

contractors or repair persons of materials, supplies, and services for certain affordable housing projects. All units must be for occupants with moderate, low, or very low incomes as defined in the "Fair Housing Act".

P.L. 2023, Chapter 282: The law clarifies that the retail sale of recreational cannabis and cannabis products sold in Urban Enterprise Zones (UEZs) are subject to the full Sales Tax rate, and that the resulting tax revenues be credited to the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Fund instead of the Urban Enterprise Zone Assistance Fund. Non-cannabis related retail sales made by businesses located in designated UEZs continue to qualify for the 50 percent Sales Tax exemption.

P.L. 2022, Chapter 97: The law excludes the installation of signs from the existing capital improvement Sales and Use Tax exemption. Sign fabricators and installation contractors can purchase signs or materials used to fabricate or install signs without paying Sales Tax if they issue a fully completed resale certificate to the seller. However, they must charge their customers Sales Tax on the sales price of all signs. This law applies to transactions occurring on or after October 1, 2022.

P.L. 2022, Chapter 42: The law authorizes a Sales and Use Tax exemption for certain purchases made by certain supermarkets and grocery stores located within Urban Enterprise Zones. The law clarifies that the $100,000 exempt purchase limitation imposed on UZ-4/UZ-5 holders is an annual limitation. In addition, the law allows unlimited exempt purchases by supermarkets or grocery stores within Urban Enterprise Zones if they receive an annual certification from the State Department of Community Affairs. This law went into effect on June 30, 2022.

P.L. 2022, Chapter 21: The law established a 10-day Sales Tax exemption period for certain retail purchases of personal computers with a sales price of less than $3,000, school computer supplies priced less than $1,000, school supplies, school art supplies, school instructional materials, and sport or recreational equipment. This law went into effect on June 30, 2022, and was applicable to purchases made between 12:01 a.m. on the ninth day preceding the first Monday in September of each year and 11:59 p.m. on the first Monday in September of each year. For 2022, the dates were August 27 through September 5. For 2023, the dates are August 26 through September 4. This law was later repealed by P.L.2024, Chapter 19, and only was in effect during Calendar Years 2022 and 2023.

## 3 Advertising To Be Published in a Newspaper

**Citation:** N.J.S.A. 54:32B-8.30

**Effective Date:** 9/11/1980 **2027 Estimate:** $7,900,000
**Applied Date:** 9/11/1980

**Objective:** To exempt Receipts from the sales of advertising to be published in a newspaper from the tax imposed by the Sales and Use Tax Act.

**Description:** Receipts from the sales of advertising to be published in a newspaper are exempt from the tax imposed under the Sales and Use Tax Act.

**Data Source:** Statista.com website.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 4 Bakery Items

**Citation:** N.J.S.A. 54:32B-3(c)(3)(ii)(c)

**Effective Date:** 7/2/2005 **2027 Estimate**: $35,900,000
**Applied Date:** 10/1/2005

**Objective:** The State's Sales and Use Tax has been revised to conform to various provisions of the multi-state Streamlined Sales and Use Tax Agreement (SSUTA). The changes are intended to simplify and modernize the State's tax collection and administrative procedures, and to ensure New Jersey continues to remain compliant with the provisions of the SSUTA.

**Description:** Bakery items sold as such, including but not limited to, bread, rolls, buns, biscuits, bagels, croissants, pastries, donuts, danish, cakes, tortes, pie, tarts, muffins, bars, cookies, and tortillas are exempt from tax if sold without eating utensils provided by the seller.

**Data Source:** Food Marketing Institute data.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 7 Broadcast Equipment (as defined in N.J.S.A. 54:32B-8.13(e))

**Citation:** N.J.S.A. 54:32B-8.13(e)

**Effective Date:** 7/14/1997 **2027 Estimate:** $6,200,000
**Applied Date:** 1/1/1998

**Objective:** This exemption allows commercial broadcasters or cable operators to purchase certain otherwise-taxable items for their own use without payment of the tax.

**Description:** Machinery, apparatus, or equipment used directly and primarily in the production or transmission of radio or television broadcasts by commercial broadcasters operating under a broadcasting license issued by the Federal Communications Commission or by providers of cable/satellite television program services. The exemption also applies to parts with a useful life of more than one year.

**Data Source:** Economic Census 2007-2012, US Census Bureau. Estimates are determined using compound average growth rates.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 14 Charitable Organizations Exemption

**Citation:** N.J.S.A. 54:32B-9(b)

**Effective Date:** 7/8/2006 **2027 Estimate:** $96,900,000

**Objective:** To exempt purchases made by certain charitable entities for the purposes of those entities from tax in an effort to reduce costs for those organizations.

**Description:** New Jersey Exempt Organizations may purchase otherwise-taxable items for their own use without payment of the Sales Tax on those items.

**Data Source:** IRS website – Tax Year 2021 Statistics on Charities and other Tax-Exempt Organizations.

BEA Personal Income data series, up to 2024.

**Reliability**: 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 16 Clothing and Footwear

**Citation:** N.J.S.A. 54:32B-8.4

**Effective Date:** 12/19/2008 **2027 Estimate:** $598,500,000

**Objective:** To exclude receipts from sales of articles of clothing and footwear from the New Jersey Sales and Use Tax. This exemption does not apply to fur clothing, clothing accessories or equipment, sport or recreational equipment, or protective equipment.

**Description:** Receipts from sales of articles of clothing and footwear, excluding fur clothing, for human use are exempt from the tax imposed under the "Sales and Use Tax Act."

**Data Source:** Economic Census 2012-2017, U.S. Census Bureau. Estimates are determined using compound average growth rates.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** New Jersey exempts most clothing and footwear in recognition of the critical nature of these purchases.

## 25 Credit for Certain Property When Used as a Trade-in

**Citation:** N.J.S.A. 54:32B-2(oo)(2)(E)

**Effective Date:** 12/19/2008 **2027 Estimate:** $257,600,000

**Objective:** To stipulate that the "sale price" does not include credit for any trade-in of property of the same kind accepted in part payment and intended for resale if the amount is separately stated on the invoice, bill of sale, or similar document given to the purchaser.

**Description:** Within the Sales and Use Tax Act, the term "sales price" does not include credit for any trade-in of property of the same kind accepted in part payment and intended for resale if the amount is separately stated on the invoice, bill of sale, or similar document given to the purchaser.

**Data Source:** New Jersey MVC New & Used Car Sales Report FY 2014-2024. Quora.com website.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 27 Dietary Supplements

**Citation:** N.J.S.A. 54:32B-8.2

**Effective Date:** 12/19/2008 **2027 Estimate:** $20,900,000

**Objective:** To exclude sales of food and food ingredients and dietary supplements sold for human consumption from the New Jersey Sales and Use Tax.

**Description:** Products required by the federal government to be labeled as a dietary supplement, and that are identifiable by the Supplement Facts box on the label are exempt from New Jersey Sales and Use Tax.

**Data Source:** Economic Census 2012-2017, U.S. Census Bureau. Estimates are determined using compound average growth rates.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** New Jersey allows for the exemption of certain medical supplies, including dietary supplements, to support the health and welfare of New Jersey citizens.

## 30 Disposable Household Paper Products

**Citation:** N.J.S.A. 54:32B-8.44

**Effective Date:** 7/15/1991 **2027 Estimate:** $34,000,000

**Objective:** To exclude sales of disposable household paper products, including towels, napkins, toilet tissues, cleaning tissues, diapers, paper plates and cups purchased for household use, from the tax imposed under the "Sales and Use Tax Act".

**Description:** Sales of disposable household paper products such as towels, napkins, toilet tissue, paper plates, and paper cups are exempt from Sales Tax.

**Data Source:** Consumer Expenditure Survey 2018-2024 data, U.S. Bureau of Labor Statistics.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 33 Eggs, Fish, Meat and Poultry

**Citation:** N.J.S.A. 54:32B-3(c)(3)(i)(B)

**Effective Date:** 12/1/2008 **2027 Estimate:** $406,600,000
**Applied Date:** 12/1/2008

**Objective:** To define prepared food as two or more food ingredients mixed or combined by the seller for sale as a single item, but not including food that is only cut, repackaged, or pasteurized by the seller, and eggs, fish, meat, poultry, and foods containing these raw animal foods requiring cooking by the consumer. Also aligns with federal Food and Drug Administration regulations to prevent food borne illnesses.

**Description:** The sale of eggs, fish, meat, poultry and foods that contain these raw animal foods that require cooking by the consumer are not subject to Sales Tax.

**Data Source:** Consumer Expenditure Survey 2017-2024 data, U.S. Bureau of Labor Statistics.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 34 Electricity Sales, Exchanges and Delivery (as defined in N.J.S.A. 54:32B-8.46)

**Citation:** N.J.S.A. 54:32B-8.46

**Effective Date:** 1/16/2010 **2027 Estimate:** $13,300,000
**Applied Date:** 1/16/2010

**Objective:** The law requires that the Board of Public Utilities, when determining electric and natural gas rates, pass along to consumers all tax savings realized by utilities as a result of this bill. To encourage more competition and free market among electrical sales within municipal boundaries, and thus prevent the establishment of regulated monopolies.

**Description:** Receipts from the sale, exchange, delivery or use of electricity are exempt from the tax imposed under the "Sales and Use Tax Act," if the electricity is sold by a municipal electric corporation to customers within its municipal or regulatory

## 40 Exempt Organizations: State of New Jersey and Its Agencies

**Citation:** N.J.S.A. 54:32B-9(a)(1)

**Effective Date:** 7/8/2006 **2027 Estimate:** $784,200,000

**Objective:** In order to ensure that the business of governmental entities is conducted in the most cost-efficient manner possible for the benefit of taxpayers, purchases by government are not subject to Sales and Use Tax.

**Description:** Certain purchasers are exempt from Sales and Use Tax including the State of New Jersey, or any of its agencies, instrumentalities and public authorities.

**Data Source:** State and Local Government Finances 2017-2023 – Data Extrapolated by Harmonic Mean.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 43 Exempt Organizations: United States of America

**Citation:** N.J.S.A. 54:32B-9(a)(2)

**Effective Date:** 7/8/2006 **2027 Estimate:** $511,500,000

**Objective:** The State exempts the federal government on purchases it makes from the burden of Sales and Use Tax subjectivity and also from the requirement of Sales Tax collection on certain sales it makes.

**Description:** The law exempts the United States of America, and any of its agencies and instrumentalities, where it is the purchaser, user or consumer, or where it sells services or property of a kind not ordinarily sold by private persons.

**Data Source:** USA Spending Government website.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 46 Feminine Hygiene Products

**Citation:** N.J.S.A. 54:32B-8.1

**Effective Date:** 12/19/2008 **2027 Estimate:** $10,000,000

**Objective:** These necessary personal hygiene items have been long determined to be exempt from the tax.

**Description:** An exemption is provided for feminine hygiene products such as tampons, sanitary napkins and panty liners.

**Data Source:** Statista.com website. Extrapolated by 2022 New Jersey Population Share.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 50 Firearm Storage Vaults

**Citation:** N.J.S.A. 54:32B-8.51

**Effective Date:** 12/1/1999 **2027 Estimate:** $200,000

**Objective:** To ensure a place of secure storage for firearms and to prevent tragic events caused by firearms from occurring through affording lawful firearm owners with an effective means of storing their firearms in a place that, while convenient to the owner, is inaccessible to a child, intruder or anyone else that the owner would wish to exclude from access to firearms.

**Description:** Receipts from sales of firearm vaults providing secure storage for firearms.

**Data Source:** US Census Bureau 2015 Population Estimates; Business Insider, July 2015; Sportsmanguide.com website.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 53 Food and Food Ingredients

**Citation:** N.J.S.A. 54:32B-8.2

**Effective Date:** 12/19/2008 **2027 Estimate:** $1,888,700,000

**Objective:** The State's Sales and Use Tax laws have been revised to conform with various provisions of the multi-state Streamlined Sales and Use Tax Agreement (SSUTA). The changes are intended to simplify and modernize the State's tax collection and administrative procedures, and to ensure New Jersey remains compliant with the provisions of the SSUTA.

**Description:** Food sold for human consumption in various states but not including hot or prepared food, candy and soft drinks.

**Data Source:** Consumer Expenditure Surveys 2022 and 2023, U.S. Bureau of Labor Statistics.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 54 Food Purchased With Food Stamps

**Citation:** N.J.S.A. 54:32B-2(oo)(2)(D)

**Effective Date:** 9/11/1980 **2027 Estimate:** $156,000,000

**Objective:** To clarify that "sales price" does not include the amount for which food stamps have been used for full or partial payment.

**Description:** The term "sales price" does not include the amount for which food stamps have been properly tendered in full or partial payment.

**Data Source:** SNAP data from the USDA, Food & Nutrition Service for FY 2018 and FY 2023.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 58 Garbage Removal and Sewer Services (as defined in N.J.S.A. 54:32B-3(b)(4))

**Citation:** N.J.S.A. 54:32B-3(b)(4)

**Effective Date:** 4/16/1967 **2027 Estimate:** $19,700,000
**Applied Date:** 5/1/1967

**Objective:** To exclude garbage removal and sewer services performed on a regular contractual basis for a term not less than 30 days from subjectivity to the New Jersey Sales and Use Tax.

**Description:** Garbage removal and sewer maintenance services performed on a regular contractual basis for a term not less than 30 days is exempt from the Sales and Use Tax.

**Data Source:** Economic Census 2007-2012, U.S. Census Bureau. Estimates are determined using compound average growth rates.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 70 Internet Access Service

**Citation:** N.J.S.A. 54:32B-2(cc)(12)

**Effective Date:** 12/19/2008 **2027 Estimate:** $196,800,000

**Objective:** To conform to various provisions of the multi-state Streamlined Sales and Use Tax Agreement (SSUTA) to simplify and modernize the State's tax collection and administrative process.

**Description:** Internet access service charges, including the routing of internet traffic, are not subject to tax.

**Data Source:** U.S. Bureau of Labor Statistics CEX Data from 2017 and 2022. NJ Data Extrapolated.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 71 Laundry and Dry Cleaning Services for Clothing

**Citation:** N.J.S.A. 54:32B-3(b)(2)(iii)

**Effective Date:** 12/19/2008 **2027 Estimate:** $102,300,000

**Objective:** Generally, the sale of most clothing and footwear, other than certain specialty items, is not subject to the Sales Tax. This exemption ensures that the laundering and/or dry cleaning of those items also remains exempt.

**Description:** Charges for laundering, dry cleaning, tailoring, weaving, and pressing, limited specifically to clothing, are exempt.

**Data Source:** Statistics of U.S. Businesses, U.S. Census Bureau. Estimates are determined using compound average growth rates.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 78 Massage Therapy Services (as defined in N.J.S.A. 54:32B-3(b)(9))

**Citation:** N.J.S.A. 54:32B-3(b)(9)

**Effective Date:** 12/19/2008 **2027 Estimate:** $14,900,000
**Applied Date:** 1/1/2009

**Objective:** To provide an individual with massage, bodywork or somatic services tax free in order to treat a physical aliment or another purpose prescribed by a doctor.

**Description:** Massage therapy services performed pursuant to a doctor's prescription or performed at a licensed medical professional's place of business to treat a physical ailment is exempt from tax.

**Data Source:** American Massage Therapy Association survey data and U.S. BEA data.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 83 Motor, Airplane and Railroad Fuels

**Citation:** N.J.S.A. 54:32B-8.8

**Effective Date:** 9/11/1980 **2027 Estimate:** $1,081,200,000

**Objective:** These fuels, dependent on their use, may be subject to State motor fuels taxation.

**Description:** The sale of fuels for use in motor vehicles, airplanes and railroad cars is exempt.

**Data Source:** U.S. Energy Information Administration Data.

**Reliability**: 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 84 Municipal Parking Charges

**Citation:** N.J.S.A. 54:32B-3(i)

**Effective Date:** 12/19/2008 **2027 Estimate:** $11,400,000

**Objective:** The majority of services provided to the users of government services have been tax exempt since the tax was enacted in 1966. This exemption provided that benefit to parking facilities so operated.

**Description:** The law exempts charges for parking, storing or garaging provided a motor vehicle by a municipality, county, or municipal or county parking authority.

**Data Source:** 2017 and 2020 State and Local Governmental Finance, U.S. Census Bureau, Local Government Parking Charges.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 88 Over-the-Counter Drugs

**Citation:** N.J.S.A. 54:32B-8.1

**Effective Date:** 12/19/2008 **2027 Estimate:** $83,400,000

**Objective:** The sales of over the counter drugs are included under the general exemption of medically necessary items sold to end consumers to alleviate human suffering.

**Description:** Sales of over-the-counter drugs where there is a label identifying the product as a drug, such as a Drug Facts panel or a statement of active ingredients.

**Data Source:** Statista.com website, U.S. Census Bureau.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 91 Participatory Sporting Activities

**Citation:** N.J.S.A. 54:32B-3(e)(1)

**Effective Date:** 12/19/2008 **2027 Estimate:** $177,900,000

**Objective:** The exemption from tax is related to the participatory nature of the sport, as opposed to mere admission charges for viewing an event, which are generally subject to tax.

**Description:** Charges for sporting activities where the purchaser pays a fee to engage as a participant such as kart racing or batting cage fees.

**Data Source:** Business Research Company website, U.S. Census Bureau.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 94 Prescribed Drugs and Medications

**Citation:** N.J.S.A. 54:32B-8.1

**Effective Date:** 12/19/2008 **2027 Estimate:** $697,500,000

**Objective:** The general medical exemption for medication and related items provided to end consumers to alleviate human suffering encompasses prescribed medications.

**Description:** Drugs sold pursuant to a doctor's prescription are exempt from tax provided there is a label identifying the product as a drug, such as a Drug Facts panel or a statement of active ingredients.

**Data Source:** Economic Census 2012-2017, U.S. Census Bureau. Estimates are determined using compound average growth rates.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 99 Property Purchased for Film or Video Productions

**Citation:** N.J.S.A. 54:32B-8.49

**Effective Date:** 12/1/1999 **2027 Estimate:** $14,100,000

**Objective:** To encourage the expansion of the commercial production of motion pictures and videos in New Jersey.

**Description:** Tangible personal property used directly and primarily in the production of film or video for sale including charges for installing, maintaining, servicing, or repairing such property are exempt from tax.

**Data Source:** Ibis World Industry Statistical Reports website, New Jersey Motion Picture & Television Commission.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

**Effectiveness:** Massachusetts has done an extensive study of its similar film tax credit. *www.mass.gov/Ador/docs/dor/News/2010FilmIncentiveReport.pdf*

## 101 Prosthetic Devices

**Citation:** N.J.S.A. 54:32B-8.1

**Effective Date:** 12/19/2008 **2027 Estimate:** $86,600,000

**Objective:** Prosthetic devices fall within the meaning of the general exemption for medically necessary items purchased by end consumers for the alleviation of human suffering.

**Description:** The sale of prosthetic devices, including repair parts and replacement parts, is exempt from Sales Tax.

**Data Source:** Economic Census 2012-2017, U.S. Census Bureau. Estimates are determined using compound average growth rates.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 104 Purchases for Resale

**Citation:** N.J.S.A. 54:32B-2(e)(1)

**Effective Date:** 12/19/2008 **2027 Estimate:** $7,392,300,000

**Objective:** One of the basic tenets of the Sales Tax law in this State is that the tax is levied on the purchase of taxable goods and services by end consumers. All purchases for resale, whether they are finished goods acquired for retail sale or work in process acquired by manufacturers to finish or add value to the product, such purchases are not subject to tax as the final sale of the finished good to an end consumer, reflecting all added value, will be taxed.

**Description:** Items purchased to resell, or to be incorporated into other products for resale, are exempt from Sales Tax.

**Data Source:** Wholesale and Construction Exemptions in New Jersey Sales Tax Reports.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 106 Recycling Equipment Purchases (as defined in N.J.S.A. 54:32B-8.36)

**Citation:** N.J.S.A. 54:32B-8.36

**Effective Date:** 10/1/2005 **2027 Estimate:** $300,000

**Objective:** To ensure that recycling equipment, which provides environmental benefits, is not subject to the tax.

**Description:** Receipts from the sales of recycling equipment used exclusively to sort and prepare solid waste for recycling or in the recycling of solid waste is exempt from the tax.

**Data Source:** Institute for Scrap Recycling Industries website.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 109 Resale of Taxable Services

**Citation:** N.J.S.A. 54:32B-3(b)

**Effective Date:** 12/19/2008 **2027 Estimate:** $413,400,000

**Objective:** The resale of otherwise-taxable services is treated in an identical manner to the resale of otherwise taxable goods; these transactions are exempt from tax. The Sales Tax in New Jersey is levied on the sale, to end consumers of taxable tangible personal property and certain taxable services.

**Description:** The law exempts services when purchased by a contractor or vendor for resale such as in subcontracted service.

**Data Source:** New Jersey Division of Taxation Reports 2019-2023.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 113 Salem County Reduced Sales Tax

**Citation:** N.J.S.A. 54:32B-8.45

**Effective Date:** 7/8/2006 **2027 Estimate:** $8,100,000

**Objective:** There is a 50 percent reduction in the Sales Tax rate on certain otherwise fully taxable purchases within the entire county of Salem. This preferential tax treatment was enacted to allow for competitiveness with the state of Delaware which has no Sales Tax.

**Description:** Sales of tangible personal property, except for motor vehicles, are subject to New Jersey Sales Tax at a reduced 50 percent rate.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 117 School Textbooks

**Citation:** N.J.S.A. 54:32B-8.21

**Effective Date:** 10/1/2005 **2027 Estimate:** $2,600,000

**Objective:** The Sales Tax law has exempted textbooks from tax since the law became effective in 1966. In general, books, whether in physical form or delivered electronically, are taxable. This exemption recognizes the value of books for educational purposes.

**Description:** The sale of textbooks for use by students in a school, college, university, or other educational institution, approved as such by the Department of Education, when the educational institution declares that the books are required reading for school purposes.

**Data Source:** NJ.Gov Higher Education Data 2018-2022. NJ Spotlight.com website. Educationdata.org – Textbooks cost estimates.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 121 Sewing Materials

**Citation:** N.J.S.A. 54:32B-8.4

**Effective Date:** 12/19/2008 **2027 Estimate:** $3,600,000

**Objective:** In general, clothing and footwear for human use, other than certain specified specialty items, is exempt from tax. The law provides that the materials which are incorporated into normally exempt clothing are also exempt.

**Description:** Receipts from sales of sewing materials, such as fabrics, thread, knitting yarn, buttons and zippers, purchased by noncommercial purchasers for incorporation into clothing as a constituent part thereof, are exempt from the tax imposed under the Sales and Use Tax Act.

**Data Source:** Economic Census 2012-2017, U.S. Census Bureau.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 123 Solar Energy Devices and System Components

**Citation:** N.J.S.A. 54:32B-8.33

**Effective Date:** 9/11/1980 **2027 Estimate:** $26,400,000

**Objective:** To support the solar energy industry, these approved energy-generation systems have been made tax exempt. Qualifications for exemptions are determined by standards set by The Division of Energy Planning and Conservation.

**Description:** Devices or systems specifically approved by the Board of Public Utilities, Division of Energy and designed to provide heating or cooling or electrical or mechanical power by converting solar energy to some other usable energy source, including devices for storing solar-generated energy.

**Data Source:** BEA Personal Income, Economic Census 2012-2017.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 131 Urban Enterprise Zone Exempt Business Purchases

**Citation:** N.J.S.A. 52:27H-79

**Effective Date:** 12/17/2008 **2027 Estimate:** $30,100,000

**Objective:** Urban Enterprise Zones, of which there are currently 37 in 37 cities, are a designated portion of a city or town where it has been deemed that it is a public purpose to stimulate economic activity.

**Description:** A great variety of face-to-face sales made at business locations within these designated areas are subject to 50 percent of the current Sales Tax rate. The law provided certain advantages for hiring local citizens as well. This exemption permits those urban enterprise zone-located businesses to purchase items for the use of the business within that location without payment of the Sales Tax. As of January 1, 2022, only the first $100,000 of annual taxable purchases are Tax Exempt.

**Data Source:** New Jersey Department of Community Affairs, UEZ Authority internal records.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 132 Urban Enterprise Zone Special Sales Tax Rate

**Citation:** N.J.S.A. 52:27H-80

**Effective Date:** 8/15/1983
**Applied Date:** 8/15/1983

**2027 Estimate:** $217,800,000

**Objective:** To allow for a reduced Sales Tax rate on certain purchases in designated Urban Enterprise Zones (UEZs) in order to stimulate economic activity in those areas. A UEZ is a designated area within a municipality which has suffered economic problems and meets certain other criteria. UEZs are created through legislation enacted by the State Legislature that provides for the designation of additional UEZs following a review of applications that are submitted by cities that meet the required criteria. Decisions are based upon the need of the city for economic development, the unemployment rate, the percentage of families on welfare, the potential benefits as demonstrated by the application, and other similar factors.

**Description:** Allows qualified businesses in a UEZ to collect Sales Tax at one-half the regular rate on the retail sale of goods other than motor vehicles, alcoholic beverages, cigarettes, manufacturing equipment, and energy. Currently there are 32 Urban Enterprise Zones.

**Data Source:** DORES Reports and UEZ Authority data.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 138 Metal Bullion and Certain Investment Coins

**Citation:** N.J.S.A. 54:32B-8.32

**Effective Date:** 9/12/2024

**2027 Estimate:** $5,800,000

**Objective:** To exempt receipts from the sales of investment metal bullion and investment coins from the Sales and Use Tax (SUT).

**Description:** Exempts receipts of investment metal bullion and investment coin sales from the SUT. Investment metal bullion is defined as any elementary precious metal that has been put through a process of smelting or refining. This includes, but is not limited to, gold, silver, platinum, and palladium in a state or condition that its value depends on its contents, not its form. It does not include any precious metal that has been assembled, fabricated, manufactured, or processed for industrial, aesthetic, or artistic use. Investment coin is defined as any numismatic coin manufactured of gold, silver, platinum, palladium, or other metal having fair market value of not less than $1,000, and does not include jewelry or works of art made of coins or commemorative medallions.

**Data Source:** Fiscal impacts from multiple states revenue departments.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 141 Contractor Supplies and Materials – Affordable Housing Projects

**Citation:** N.J.S.A. 54:32B-8.22

**Effective Date:** 3 /20/2024 **2027 Estimate:** 14,800,000

**Objective:** To exempt receipts from the sales of materials, supplies and services for certain affordable housing projects.

**Description:** The law amendment provides a sales and use tax exemption for purchases made by contractors or repair persons of materials, supplies, and services for certain affordable housing projects. All units must be for occupants with moderate, low, or very low incomes as defined in the "Fair Housing Act".

**Data Source:** New Jersey Department of Community Affairs.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

# Corporation Business Tax
# Overview

## Description

The Corporation Business Tax Act imposes a franchise tax on a domestic corporation for the privilege of existing as a corporation under New Jersey law, and on a foreign corporation for the privilege of having or exercising its corporate charter in this State or doing business, employing or owning capital or property, maintaining an office, deriving receipts, or engaging in contracts in New Jersey. The tax applies to all domestic corporations and all foreign corporations having a taxable status unless specifically exempt. The tax also applies to joint-stock companies or associations, business trusts, limited partnership associations, financial business corporations, and banking corporations, including national banks.

Also, a corporation is defined as any other entity classified as a corporation for federal income tax purposes and any state or federally chartered building and loan association or savings and loan association. Taxpayers must pay the greater of their liability under the net Income Tax or the alternative minimum assessment. The income-based tax is measured by that portion of the net income allocable to New Jersey. The tax applies to net income for the firm's accounting period (calendar year or fiscal year), or any part thereof during which the corporation has a taxable status within New Jersey.

The alternative minimum assessment is based on apportioned gross receipts or gross profits. Exempt from the tax are certain agricultural cooperative associations; federal corporations which are exempt from state taxation; corporations created under the limited-dividend housing corporation law; nonprofit cemetery corporations; nonprofit corporations without capital stock; non-stock mutual housing corporations; railroad and canal corporations; sewerage and water corporations; insurance companies subject to premiums tax; and certain municipal electric corporations.

## Rate

The tax rates range from 6.5 percent to 9 percent on adjusted entire net income, or the portion of entire net income allocated to New Jersey. However, most taxpayers pay the top rate of 9 percent. For privilege periods beginning in 2024 through 2028, there is an additional 2.5 percent Corporate Transit Fee on taxpayers with allocated taxable net income over $10 million.

The minimum Corporation Business Tax ranges from $375 to $2,000 (depending on corporate structure) for all members of a controlled or affiliated group of corporations if the aggregate annual payroll for all corporations is $5 million or more.

## Disposition of Revenues

Revenues collected from general business corporations are deposited in the State Treasury for general State use.

Article 8, Section 2, paragraph 6, of the State Constitution was amended to dedicate four percent of Corporation Business Tax revenue to fund hazardous discharge cleanup, underground storage tank improvements, and surface water quality projects.

## Recent History

P.L. 2025, Chapter 71: The law increases the Angel Investor Tax Credit from 20 percent to 35 percent of the qualified investment made by the taxpayer, and from 25 percent to 40 percent for taxpayers meeting certain requirements. The law modifies the definition of "New Jersey based business" and "New Jersey emerging technology business" to decrease the employee threshold from fewer than 225 to fewer than 150. The value of credits cannot exceed $500,000 for each qualified investment made. The credit can be applied against a taxpayer's Corporation Business Tax liability and must be allowed in the privilege period in which the taxpayer applied for the credit. The law also repeals the New Jersey Ignite Act. This law went into effect on June 30, 2025, and applies to any applications for the Angel Investor Tax Credit that are approved for taxable years and privilege periods beginning on or after January 1, 2026.

P.L. 2025, Chapter 81: The law modifies certain requirements and award availability under the Film and Digital Media Content Production Tax Credit Program. The law extends the eligibility period of the program by 10 years, from on or before July 1, 2039, to on or before July 1, 2049, and extends the timeframe for awarding credits from prior to Fiscal Year 2040 to prior to Fiscal Year 2050. The law amends various definitions and eligibility requirements the New Jersey Economic Development Authority uses to award Garden State Film and Digital Media tax credits and changes how the tax certificate or tax credit transfer certificate holder may use the credit. This law went into effect on June 30, 2025, and applies to applications submitted after that date.

P.L. 2025, Chapter 111: The law authorizes the New Jersey Housing and Mortgage Finance Agency to use $500,000,000 in tax credits to support the development of certain housing programs by amending the New Jersey Economic Recovery Act of 2020 and supplementing P.L. 1983, c.530. The law directs the NJHMFA to conduct tax credit auctions to provide financial assistance for certain housing purposes. Purchasers who receive a tax credit through auction shall apply the credit against their Corporation Business Tax liability for the current privilege period as of the date the credit was approved. This law went into effect on July 22, 2025.

P.L. 2025, Chapter 123: The law establishes the Next New Jersey Manufacturing Program under the authority of the New Jersey Economic Development Authority to incentivize in-State manufacturing investments and job creation. This tax credit program is designed to foster job growth by encouraging manufacturing facilities to establish and expand their physical presence in New Jersey. To claim the credits, an eligible business must apply to the NJEDA beginning August

13, 2025, but prior to March 1, 2029; be in good standing; and receive a tax clearance certificate from the Division of Taxation. This law went into effect on August 13, 2025.

P.L. 2024, Chapter 61: The law modifies definitions and eligibility requirements that the New Jersey Economic Development Authority (NJEDA) uses to award Historic Property Reinvestment Program tax credits, as well as revises the amount of the award or tax credit allowed.

P.L. 2024, Chapter 49: The law establishes the "Next New Jersey Program" under the jurisdiction of the New Jersey Economic Development Authority, and modifies certain parts of the "New Jersey Economic Recovery Act of 2020." Beginning July 25, 2024, through March 1, 2029, a business that is primarily engaged in the artificial intelligence industry may apply to receive tax credit(s) that may be applied against their Corporation Business Tax or Insurance Premium Tax liabilities.

P.L. 2024, Chapter 40: The law amends eligibility requirements that the New Jersey Economic Development Authority will use to award tax credits for the Business Retention and Relocation Assistance Act (P.L. 1996, c.25), the Business Employment Incentive Program Act (P.L. 1996, c.26), the Urban Transit Hub Tax Credit Act (P.L. 2007, c.346), and the Grow New Jersey Assistance Act (P.L. 2011, c.149) programs. The law changes how the tax certificate holder may either use or transfer the credit. For all programs, the tax certificate holder can now first use the credit in the tax period *for* which it was issued, or the tax period *in* which it was issued. Additionally, tax credits issued for the Business Retention and Relocation Assistance and the Grow New Jersey Assistance programs can be first used in any tax period during the project's specified commitment duration, while tax credits issued for Business Employment Incentive Program and the Urban Transit Tax Credit program can be first used in any tax period during the time the business is required to maintain the project at a New Jersey location.

P.L. 2024, Chapter 33: The law amends the Garden State Film and Digital Media Jobs Act to address the treatment of wages paid under reciprocity agreements. It expands the definition of "qualified film production expenses" and "qualified digital media content production expenses" to include the treatment of New Jersey wages and salaries paid to Pennsylvania residents. In addition, the definition of "full-time or full-time equivalent employee" was also modified to include Pennsylvania residents working in New Jersey.

P.L. 2024, Chapter 20: The law imposes a 2.5 percent Corporate Transit Fee on Corporation Business Tax (CBT) taxpayers with allocated taxable net income in excess of $10 million. The Corporate Transit Fee is in addition to the taxpayer's regular CBT liability, and taxpayers cannot claim a credit against the fee except for credits for installment payments, estimated payments made with request for an extension of time to file a return, or overpayments from prior privilege periods. The definition of "Allocated taxable net income" is identical to "taxable net income" as defined in the Corporation Business Tax Act for the purpose of this chapter law.

P.L. 2024, Chapter 1: The law allows CBT taxpayers to utilize an alternative method to calculate a depreciation deduction of eligible capital expenditures incurred in connection with the construction of new affordable housing developments, owned by the taxpayer.

P.L. 2023, Chapter 197: The law establishes the Cultural Arts Incentives Program, which incentivizes the establishment of cultural arts projects in New Jersey. An eligible cultural arts institution seeking a tax credit pursuant to the program must apply for the credit with the NJEDA beginning January 1, 2026, and prior to March 1, 2029. Tax credits awarded to a cultural arts institution under this program may be applied against Corporation Business Tax (CBT) and Insurance Premium Tax (IPT) liabilities.

P.L. 2023, Chapter 118: The law allows for businesses to apply New Jersey Innovation Evergreen tax credits against their Insurance Premiums Tax liability. The law no longer requires that a purchaser apply for a tax credit transfer certificate in the same privilege period in which the director allowed the credit. The law modifies the treatment of tax credits that are sold under the Food Desert Relief Program. The change allows a business to claim a tax credit in the privilege period during which the sale is approved.

P.L. 2023, Chapter 98: The law revises various provisions of "New Jersey Economic Recovery Act of 2020," specifically revisions to New Jersey Aspire Program. The law allows an eligible New Jersey Aspire Program tax certificate holder to transfer all or some of the tax credit amount to another recipient for use in the tax period that the original certificate was issued. In addition, the law allows the tax certificate holder to carry forward all or a portion of the tax credit amount over five successive tax periods.

P.L. 2023, Chapter 97: The law revises provisions of the Garden State Film and Digital Media Jobs Act. The law extends the timeframe of the credit’s availability, to privilege periods or tax years beginning before July 1, 2039.

P.L. 2023, Chapter 4: The law provides corporation business tax credits for certain deliveries of low carbon concrete and for costs of conducting environmental product declaration analyses of low carbon concrete. For CBT filers, the credits may not reduce the amount of tax due below the statutory minimum. Unused credits may be carried forward for up to seven privilege periods. The Division of Taxation can neither issue more than $10 million in tax credit certificates per year nor allow any taxpayer to obtain tax credits of more than $1 million in any privilege period. This law went into effect on July 30, 2023, and applies to privilege periods beginning on or after January 1, 2024.

P.L. 2022, Chapter 75: The law increases total available tax credits under the Economic Redevelopment and Growth (ERG) Program by $25 million while also amending requirements for certain mixed use parking projects undertaken by municipal redevelopers under ERG.

P.L. 2022, Chapter 48: The law allows certain cannabis businesses to benefit from specific

economic and financial incentives they were previously not eligible to receive. It redefined the types of economic and financial incentive awards considered to be "State or local economic incentives" under the "New Jersey Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Act." In addition, the law newly defines "small business" for determining which cannabis businesses may be eligible for certain financial incentives or funding provided by the NJEDA or Department of Labor and Workforce Development. This law went into effect on June 30, 2022.

P.L. 2022, Chapter 47: The law revises certain provisions of the Food Desert Relief Program administered by the New Jersey Economic Development Authority (NJEDA). Credits issued under the program now may be applied against Insurance Premium Tax liabilities, in addition to Corporation Business Tax liabilities. The law also adds a seven-year carryforward provision for those credits sold by the NJEDA to eligible businesses. Taxpayers may apply to the Division of Taxation and the NJEDA for a tax credit transfer certificate in lieu of the taxpayer being allowed to claim their credit against their tax liability. The taxpayer is allowed to sell the credit for no less than $25,000 during the privilege period in which they receive the certificate, and the taxpayer may not sell the certificate, or use it as collateral, for less than 85 percent of the credit amount. Credits purchased from a taxpayer may be carried forward for 10 privilege periods and cannot reduce tax liability below the statutory minimum tax. This law became effective on June 30, 2022.

P.L. 2020, Chapter 156 (Sections 9-19): The law establishes the Brownfields Redevelopment Incentive Program under the jurisdiction of the New Jersey Economic Development Authority. The purpose of the program is to compensate developers of redevelopment projects located on brownfield sites for remediation costs through the issuance of tax credits. A brownfield site is defined as any former or current commercial or industrial site that is currently vacant or underutilized and on which there has been, or is suspected to have been, a discharge of a contaminant or contaminated building material. To qualify, developers must enter into a redevelopment agreement with the authority and demonstrate a project financing gap, with developer-contributed capital of at least 20 percent of total remediation costs. The total value of tax credits approved by the authority is subject to the limitations set forth in section 98 of P.L. 2020, c.156, and any unapproved, uncertified, or recaptured portions may be carried over and reallocated in succeeding years.

---

*Note: The New Jersey Economic Development Authority (NJEDA) provides tax expenditure estimates for certain business tax credits available under the CBT and GIT. These estimates reflect credits certified and issued or expected to be issued in the fiscal year in question, including credits for prior tax years. These credits are not necessarily applied to returns during the fiscal year in which they are issued. In addition, for some credit programs, the estimates reflect the statutory maximum for credits that can be issued in the tax year.*

## 42 The Economic Redevelopment and Growth Program (ERG)

**Citation:** N.J.S.A. 52:27D-489e

**Effective Date:** 9/18/2013 **2027 Estimate:** $63,600,000
**Applied Date:** 9/18/2013

**Objective:** To encourage capital investment in New Jersey commercial and residential real estate projects.

**Description:** The Economic Redevelopment and Growth program (ERG) is an incentive for real estate development projects that have a financing gap, what the New Jersey Economic Development Authority (NJEDA) defines as having insufficient revenues to support the project debt service under a standard financing scenario. The incentive can also apply to projects that have a below-market development margin or rate of return. The ERG involves a "grant" of tax benefits offered on annual incremental State and local taxes for a period of up to 75 percent of the annual incremental State tax and/or local tax revenue or 85 percent if the company is located in a Garden State Growth Zone.

**Data Source:** New Jersey Economic Development Authority.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 43 Grow New Jersey Assistance Program

**Citation:** N.J.S.A. 34:1B-243 et seq.

**Effective Date:** 9/18/2013 **2027 Estimate:** $304,100,000
**Applied Date:** 9/18/2013

**Objective:** To encourage job creation by attracting and retaining businesses in New Jersey.

**Description:** This program is administered by the New Jersey Economic Development Authority (EDA). The program allows the EDA to grant tax credits to businesses that meet the eligibility qualifications of the grant program. The tax credit is applied against the business's Corporation Business Tax liability pursuant to N.J.S.A. 54:10A-5. The amount of the tax credit that exceeds the business's tax liabilities for the tax period can be carried forward for a period of 20 years, provided the total value of all credits awarded by the EDA do not exceed the yearly limit of $200,000,000 or $1,500,000,000 in the course of ten years, as set forth. Businesses that receive the tax credit can also apply for a benefit transfer certificate covering tax periods over one or more years in lieu of using the credits. The transfer certificate can be sold to another business that has Corporation Business Tax liabilities for consideration of an amount which is a minimum of at least 75 percent of the value of the tax credit transferred. The amount of a tax liability shall be subject to the same limitations and considerations that apply to the use of the credit by the business that originally received the credit.

**Data Source:** New Jersey Economic Development Authority.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 3 New Jersey Angel Investor Tax Credit Act

**Citation:** N.J.S.A. 54:10A-5.30

**Effective Date:** 6/30/2025 **2027 Estimate:** $0

**Applied Date:** 1/1/2026

**Objective:** To encourage investment in New Jersey technology businesses.

**Description:** Upon approval by the NJEDA, a taxpayer is allowed a credit against the Corporation Business or Gross Income Tax amount due for the taxable year, of up to 40 percent of the qualified investment made in a New Jersey emerging technology business, up to a maximum allowed credit of $500,000 for the taxable year for each qualified investment made by the taxpayer. The amount of credits approved by the NJEDA cannot exceed $25 million in any calendar year.

**Data Source:** New Jersey Economic Development Authority.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 5 AMA Tax Credit

**Citation:** N.J.S.A. 54:10A-5af

**Effective Date:** 7/1/2002 **2027 Estimate:** $800,000

**Objective:** To provide that, if a taxpayer incurs an AMA (Alternative Minimum Assessment) liability in excess of the regular Corporation Business Tax (CBT) liability, the excess may be carried over to subsequent years and used as a credit against the regular CBT liability. The carryovers were designed never to expire. There are, however, limitations as to how much credit can be taken on any single return.

**Description:** 1) If the alternative minimum assessment for a taxpayer computed pursuant to this section exceeds the tax computed pursuant to section 5 of P.L. 1945, Chapter 165 (C.54:10A-5) for a privilege period, the taxpayer is allowed an amount of credit equal to the amount by which the alternative minimum assessment computed pursuant to this section for the privilege period exceeds the tax computed pursuant to section 5 of P.L. 1945, Chapter 165 (C.54:10A-5) for that privilege period; provided however, that a taxpayer shall not be allowed a credit for any amount of alternative minimum assessment for a privilege period for which a credit is allowed pursuant to section 29 of P.L. 2002, Chapter 40 (C.54:10A-5b). The amount of credit may be carried forward for application in subsequent privilege periods subject to the limitations of paragraph (2) of this subsection.

2)A taxpayer may apply all or a portion of the credits allowed by paragraph (1) of this subsection against the tax computed pursuant to section 5 of P.L. 1945, Chapter 162 (C.54:10A-5), for a privilege period for which the tax pursuant to that section exceeds the alternative minimum assessment computed for the privilege period pursuant to this section; provided however, that the amount of credit applied shall not reduce the amount of tax otherwise due to less than the alternative minimum assessment as computed pursuant to this section for the privilege period, shall not reduce the amount of tax otherwise due by more than 50 percent, and shall not reduce the amount of tax otherwise due below the statutory minimum provided in subsection (e) of section 5 of P.L. 1945, Chapter 162 (C.54:10A-5).

**Data Source:** Division of Taxation Unpublished Data

**Reliability:** 1 Based on the population of verified tax returns.

## 6 Business Employment Incentive Program (BEIP)

**Citation:** N.J.S.A. 34:1B-124 et seq.

**Effective Date:** 5/9/1996
**Applied Date:** 6/1/1996

**2027 Estimate:** $1,200,000

**Description:** The Business Employment Incentive Program, codified at 34:1B-124 et seq. (P.L. 1996, Chapter 26) was one of the State's tools, jointly administered by the New Jersey Economic Development Authority and the New Jersey Division of Taxation, to promote job growth in New Jersey. Approved businesses receive annual cash grants based on the number of new jobs they have created in the State of New Jersey.

The Business Employment Incentive Program statute was changed through P.L. 2015, Chapter 194, effective January 1, 2016. A business that was eligible to receive a grant under the Business Employment Incentive Program (BEIP) to direct the New Jersey Economic Development Authority (authority) to convert the grant to a refundable tax credit against its Corporation, Gross Income, or Insurance Premium Tax liability in an amount equal to the credit payment schedule provided in the bill. The direction to convert the grant to a tax credit is to be irrevocable. Approved tax credits may only be applied in the tax period for which they are issued and are not to be carried forward. If the credit exceeds the amount of tax liability otherwise due from a business that pays Corporation Business Taxes, the amount of excess is to be deemed an overpayment, and the business is to receive a refund without interest due to it.

**Data Source:** New Jersey Economic Development Authority.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 8 Business Retention and Relocation Assistance Grants

**Citation:** P.L. 1996, Chapter 25, § 4, as amended.

**Effective Date:** 5/9/1996 **2027 Estimate:** $2,300,000
**Applied Date:** 6/1/1996

**Objective:** The purpose of the program is to encourage economic development, preserve existing jobs, and stimulate new job activity in New Jersey.

**Description:** The Business Retention and Relocation Assistance Act (C.34:1B-112 et seq., was signed into law on May 9, 1996 and was subsequently amended and expanded in scope. The BRRAG Program, which approved new projects until 2013, was a one-time grant of Corporation Business Tax credits (or Insurance Premiums Tax credits as applicable) to businesses to assist them in retaining jobs and developing projects that relocate within the state. Additionally, eligible businesses would also be authorized to acquire certain materials without payment of Sales Tax. Grants of up to $1,500 per job were available for relocation of jobs within the state and were scored based on a number of factors, such as the type of industry, quality of the jobs, and consistency with New Jersey's Smart Growth policies, with bonus grants of up to an additional 50 percent available for businesses relocating 2,000 jobs or more into a designated urban center.

## 13 Economic Recovery Tax Credit

**Citation:** N.J.S.A. 52:27BBB-53 et seq.

**Effective Date:** 6/30/2002 **2027 Estimate:** $100,000

**Objective:** To foster business investment in qualified municipalities established under the authority of the "Qualified Municipality Open For Business Incentive Program".

**Description:** The credit is equal to $2,500 for each new full-time position at that location in credit year one and $1,250 for each new full-time position at that location in credit year two. No taxpayer shall be allowed more than a single 24-month continuous period in which credits shall be allowed for activity at a location within a qualified municipality. The credit allowable under this section shall not exceed 50 percent of the tax liability otherwise due and shall not reduce the tax liability to an amount less than the statutory minimum.

Any unused credit may be carried forward, if necessary, for use in the five privilege periods following the privilege period for which the credit is allowed. The credit allowed for credit year one may be refundable at the close of the privilege period in which or with which credit year two ends. The amount of the credit received for credit year one remaining, if any, after the liabilities for the privilege period in which or with which credit year two ends and for any prior privilege period have been satisfied, multiplied by the sustained effort ratio, shall be an overpayment for the purposes of section N.J.S.A. 54:49-15 for the privilege period in which or with which credit year two ends; that amount of the credit received for credit year one remaining, if any, that is not an overpayment may be carried forward.

## 19 Manufacturing Equipment and Employment Investment Tax Credit

**Citation:** N.J.S.A. 54:10A-5.16 through N.J.S.A. 54:10A-5.21

**Effective Date:** 1/1/1994 **2027 Estimate:** $9,300,000

**Objective:** The purpose of the Manufacturing Equipment and Employment Investment Tax Credit is to offset the purchase of manufacturing equipment and to support the creation of new jobs. The law allows a Corporation Business Tax credit of two percent on the purchase price on new machinery or equipment during the first year of operation. For each of the next two years, a company could qualify for an additional credit of three percent by creating new jobs, capped at $1,000 per additional employee.

**Description:** A taxpayer shall be allowed a credit against the tax imposed pursuant to section 5 of P.L. 1945, Chapter 162 (C.54:10A-5), in an amount equal to two percent of the investment credit base of qualified equipment placed in service in the tax year, up to a maximum allowed credit for the tax year of $1,000,000; provided however, that if a taxpayer has 50 or fewer employees (an average number of full-time employees and full-time employee equivalents of 50 or less) and entire net income to be used as a measure of the tax determined pursuant to section 6 of P.L. 1945, Chapter 162 (C.54:10A-6) of less than $5,000,000 for the tax year, the taxpayer shall be allowed a credit against the tax imposed pursuant to section 5 of P.L. 1945, Chapter 162 (C.54:10A-5), in an amount equal to four percent of the investment credit base of qualified equipment placed in service in the tax year, up to a maximum allowed credit for the tax year of $1,000,000.

**Data Source:** Division of Taxation Unpublished Data TY 2019 – 2023 extrapolated as a mean of reported numbers.

**Reliability:** 1 Based on the population of verified tax returns.

## 20 Neighborhood Revitalization State Tax Credit

**Citation:** N.J.S.A. 52:27D-490 et seq.

**Effective Date:** 7/1/2002 **2027 Estimate:** $17,800,000

**Objective:** To create an incentive for businesses to invest in neighborhood revitalization and preservation projects sponsored by nonprofit corporations through the granting of a tax credit.

**Description:** A business entity shall be eligible for a certificate for neighborhood revitalization State tax credits if it has provided funding for a qualified project that has been approved in accordance with sections 4 and 5 of P.L.2001, Chapter 415 (C.52:27D-493 and C.52:27D-494).

a. Credits may be granted in an amount up to 100 percent of the approved assistance provided to a nonprofit organization to implement a qualified neighborhood preservation and revitalization project.

b. The credit may be applied by the business entity receiving the certificate as credit against tax imposed on business related income, other than tax imposed under the New Jersey Gross Income Tax, including, but not limited to, business income subject to the provisions of the Corporation Business Tax Act (1945), P.L.1945, Chapter 162 (C.54:10A-1 et al.), "The Savings Institution Tax Act," P.L.1973, Chapter 31 (C.54:10D-1 et seq.), the tax imposed on marine insurance companies pursuant to R.S.54:16-1 et seq., the tax imposed on insurers generally, pursuant to P.L.1945, Chapter 132 (C.54:18A-1 et seq.), the sewer and water utility excise tax imposed pursuant to section 6 of P.L.1940, Chapter 5 (C.54:30A-54) and the petroleum products gross receipts tax imposed pursuant to section 3 of P.L.1990, Chapter 42 (C.54:15B-3).

c. The credit allowed to a business entity under this section may not exceed for any taxable year $1,000,000 or the total amount of tax otherwise payable by the business entity for the taxable year and, in addition, shall not exceed limitations placed on the amounts of credits or carryforward credits allowed, if any, under the relevant statute as enumerated in subsection b. of this section concerning the tax for which a credit is being claimed.

d. Credit shall not be allowed for activities for which the business entity is receiving credit under any other provision against any tax on business related income other than the New Jersey Gross Income Tax, including, but not limited to, the Corporation Business Tax, Insurance Premiums Tax, Petroleum Products Gross Receipts Tax, public utilities franchise tax, Public Utilities Gross Receipts Tax, public utility excise tax, railroad franchise tax, and the saving institution tax.

e. The tax credit shall be awarded only for assistance provided within the same year in which the commissioner issued the certificate, or if the commissioner approved assistance for more than one year, within the year in which payment was scheduled.

f. The total tax credits certified for all qualified projects proposed in a fiscal year shall not exceed $10,000,000.

## 23 New Jobs Investment Tax Credit

**Citation:** N.J.S.A. 54:10A-5.5 through N.J.S.A. 54:10A-5.15

**Effective Date:** 7/7/1993 **2027 Estimate:** $7,800,000

**Objective:** To create a Corporation Business Tax credit for creating new jobs in New Jersey.

**Description:** The New Jobs Investment Tax Credit is taken in five equal annual installments. The annual credit cannot exceed 50 percent of that portion of the Corporation Business Tax liability which is attributable to and the direct result of the taxpayer's qualified investment and shall not reduce the tax liability below the statutory minimum. This tax credit is available for investment in new or expanded business facilities that create new jobs in New Jersey.

**Reliability:** 1 Based on the population of verified tax returns.

## 27 Redevelopment Authority Project Tax Credit

**Citation:** N.J.S.A. 55:19-3

**Effective Date:** 7/26/1991 **2027 Estimate:** $0

**Objective:** To incentivize job creation.

**Description:** Any taxpayer that is actively engaged in the conduct of business at a location within a project as defined in N.J.S.A. 55:19-1 et seq., and whose business at that location consists primarily of manufacturing or other business that is not retail sales or warehousing oriented, may be entitled to claim the Redevelopment Authority Project Tax Credit. The credit is $1,500 each year for two years for new employees that were unemployed or on public assistance prior to joining a manufacturing company in the project area. The Redevelopment Authority Project Tax Credit is allowed in the tax year following the tax year of qualification, and may be continued into a second tax year if such qualification continues. Any credit which remains after the second tax year following the tax year of qualification is forfeited.

**Data Source:** Division of Taxation Unpublished TY Data 2019 – 2023 Extrapolated as Mean of Reported Data.

## 29 Research and Development Tax Credit

**Citation:** N.J.S.A. 54:10A-5.24

**Effective Date:** 1/1/1998 **2027 Estimate:** $433,300,000

**Objective:** Research and development costs have been deemed to be critical corporate expenditures as they could result in future economic activity based on product discovery and innovation. This credit is one of the most used credits available to corporations, clear demonstration of its importance.

**Description:** A taxpayer is allowed a credit against their Corporation Business Tax liability equal to 10 percent of the excess of the qualified research expenses for the privilege period over the base amount; and 10 percent of the basic research payments determined in accordance with section 41 of the Internal Revenue Code of 1986, 26 U.S.C. s.41, and other restrictions as set forth in the law.

For privilege periods beginning on and after January 1, 2018, amounts paid or incurred by the taxpayer in carrying on any trade or business of the taxpayer during the privilege period, including as contributions, to an energy research consortium for energy research shall also qualify as a basic research payment for purposes of this subsection.

## 30 Sheltered Workshop Tax Credit

**Citation:** N.J.S.A. 54:10A-5.38

**Effective Date:** 1/12/2006 **2027 Estimate:** $0

**Objective:** To support the operations of nonprofit agencies that furnish extended employment programs to individuals with disabilities.

**Description:** A credit available to certain taxpayers that employ qualified person(s) under an extended employment program.

**Data Source:** Division of Taxation Unpublished TY Data 2019 – 2023 Extrapolated as Mean of Reported Data.

**Reliability:** 1 Based on the population of verified tax returns.

## 31 Urban Enterprise Zone Employee Tax Credit

**Citation:** N.J.S.A. 52:27H-78

**Effective Date:** 8/4/1988 **2027 Estimate:** $0

**Objective:** To allow a business, which is not retail sales or warehouse oriented, within a specified enterprise zone to receive an employee tax credit against the tax imposed by the Corporation Business Tax Act.

**Description:** This credit is available to a taxpayer that was certified as a qualified business in the preceding tax year as well as the current tax year. The amount of this credit in addition to the amount of any other tax credits taken is limited to 50 percent of the taxpayer's total tax liability and cannot exceed an amount which would reduce the total tax liability below the statutory minimum. The credit is $1,500 if the employee was formerly unemployed or on public assistance; $500 if the employee meets the other qualifications but not these. Qualifying employees must have been hired after certification and must have worked six consecutive months in the tax year following the tax year in which employment began.

**Data Source:** Division of Taxation reports TY 2019 – 2023.

**Reliability:** 1 Based on the population of verified tax returns.

## 32 Urban Enterprise Zone Investment Tax Credit

**Citation:** N.J.S.A. 52:27H-78c and 52:27H-86

**Effective Date:** 8/4/1988 **2027 Estimate:** $0

**Objective:** To allow a business within a specified enterprise zone, which is not retail sales or warehouse oriented and is unable to receive employee tax credits, to receive a one-time tax credit against the tax imposed by the Corporation Business Tax Act for new investment into the enterprise zone.

**Description:** A qualified business which is not entitled to an employee tax credit may be entitled to the investment tax credit. This credit is only available to an employer with less than 50 employees. The investment must be at least $5,000 if there are 10 or fewer employees, and increases by $500 for each additional employee.

**Data Source:** Division of Taxation reports TY 2019 – 2023.

**Reliability:** 1 Based on the population of verified tax returns.

## 33 Urban Transit Hub Tax Credit

**Citation:** N.J.S.A. 34:1B-207 et seq.

**Effective Date:** 7/28/2009 **2027 Estimate:** $53,500,000

**Objective:** To promote economic development in urban transit hubs through a tax credit program for capital investment and increased employment. The approved tax credit is only allowable after the capital expenditure has actually been made.

**Description:** This tax credit is based on a capital investment made by a qualified business to a location defined as an Urban Transit Hub. An Urban Transit hub is property located within a 1/2 mile radius surrounding the mid-point of a New Jersey Transit Corporation, Port Authority Transit Corporation or Port Authority Trans-Hudson Corporation rail station platform area, including all light rail stations, and property located within a one mile radius of the mid-point of the platform area of such a rail station if the property is in a qualified municipality under the "Municipal Rehabilitation and Economic Recovery Act," P.L. 2002, Chapter 43 or a property located within a 1/2 mile radius surrounding the mid-point of one of up to two underground light rail stations' platform areas that are most proximate to an interstate rail station or a property adjacent to, or connected by rail spur to a freight rail line, if the business utilizes that freight line for loading and unloading freight cars on trains per declaration made by the Economic Development Authority.

## 34 New Jersey Innovation Evergreen Fund (NJIEF)

**Citation:** N.J.S.A. 34:1B-288 through 34:1B-302

**Effective Date:** 1/7/2021 **2027 Estimate:** $0

**Objective:** Partnering with private-sector venture capital firms to raise and invest funds in innovative early-stage companies in New Jersey.

**Description:** Authorized under the Economic Recovery Act (ERA) of 2020, the Evergreen Program, administered by the New Jersey Economic Development Authority, will raise funds in part through auctions of up to $300 million in tax credits that can be used against Corporation Business Tax or Insurance Premiums Tax liabilities, with the annual issuance not to exceed $60 million.

**Data Source:** New Jersey Economic Development Authority.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies. Current fiscal year value indicates the statutory maximum.

## 35 Emerge Program

**Citation:** N.J.S.A. 34:1B-336 et seq.

**Effective Date:** 1/7/2021 **2027 Estimate:** $16,800,000

**Objective:** To encourage economic development in priority sectors and targeted communities through tax credits for businesses that create and/or retain jobs.

**Description:** Authorized under the Economic Recovery Act (ERA) of 2020, the Emerge Program, administered by the New Jersey Economic Development Authority, provides tax credits ranging from $500 to $8,000 per job for firms that create at least 35 jobs and/or retain at least 500 jobs in eligible locations in the State, meet minimum capital investment requirements, and yield a minimum net positive economic benefit to the State of at least 200 percent to 400 percent, among other requirements. Combined assistance under the Emerge Program and Aspire Program, also authorized under the ERA of 2020, is capped at $1.1 billion annually for six years.

**Data Source:** New Jersey Economic Development Authority.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 36 Food Desert Relief Program

**Citation:** N.J.S.A. 34:1B-303 through 34:1B-310

**Effective Date:** 1/7/2021 **2027 Estimate:** $5,000,000

**Objective:** To use tax credits, loans, grants and other assistance to address the food security needs of New Jersey communities by increasing access to nutritious foods and seek new approaches to alleviating food deserts.

**Description:** Authorized under the Economic Recovery Act (ERA) of 2020, the Food Desert Relief Program, administered by the New Jersey Economic Development Authority, will provide up to $40 million annually in tax credits, grants and other assistance to incentivize establishment and/or retention of supermarkets and grocery stores in food desert communities. Eligible businesses must be retail outlets of at least 16,000 square feet, be the first or second supermarket or grocery store in a designated food desert and commit to accepting benefits from SNAP, WIC and other assistance programs.

**Data Source:** New Jersey Economic Development Authority.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies. Current fiscal year value indicates the statutory maximum.

## 37 Aspire Program

**Citation:** N.J.S.A. 34:1B-324 through 34:1B-335

**Effective Date:** 1/7/2021 **2027 Estimate:** $58,800,000

**Objective:** Gap financing tool to support commercial, mixed use, and residential real estate development projects.

**Description:** Authorized under the Economic Recovery Act (ERA) of 2020, the Aspire Program, administered by the New Jersey Economic Development Authority. Most Aspire projects will be subject to a total award cap of $42 million, but residential projects also receiving Low Income Housing Tax Credits or projects located in certain economically disadvantaged locations may receive up to $60 million. Combined assistance under the Aspire Program and Emerge Program, also authorized under the ERA of 2020, is capped at $1.1 billion annually for six years.

**Data Source:** New Jersey Economic Development Authority.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies. Current fiscal year value indicates the statutory maximum.

## 38 Low Carbon Concrete Products

**Citation:** N.J.S.A. 54:10A-5.49, 54A:10A-5.50, and 54A:4-23

**Effective Date:** 7 /30/2023 **2027 Estimate:** $10,000,000

**Objective:** Tax credits for concrete mixes supplied pursuant to contracts with State government agencies in accordance with global warming potential baselines and thresholds for low-embodied carbon concrete and concrete that incorporates carbon capture, utilization, and storage technology.

**Description:** Corporation business tax (CBT) credits for certain deliveries of low carbon concrete and for costs of conducting environmental product declaration analyses of low carbon concrete. The Division of Taxation can neither issue more than $10 million in tax credit certificates per year, nor allow any taxpayer to obtain tax credits of more than $1 million in any privilege period. Nonrefundable gross income tax credits are also authorized under this law and count towards the $10 million cap. Most, if not all of the tax credit claims associated with this program are expected under the CBT.

**Data Source:** Division of Taxation.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies. Current fiscal year value indicates the statutory maximum.

## 39 Alternative Method of Depreciation

**Citation:** N.J.S.A. 54:10A-4.17

**Effective Date:** 1/1/2025 **2027 Estimate:** $15,400,000

**Objective:** To allow taxpayers to utilize an alternative method of depreciation for certain affordable housing related expenditures under the Corporation Business Tax.

**Description:** The alternative method of depreciation allows taxpayers to depreciate eligible expenditures related to the development of affordable housing over a 10-year period. Affordable housing is housing that is occupied or restricted to occupancy by households with income no greater than 80 percent of the regional median income, included to, but not limited to, housing that is deed restricted as affordable pursuant to the "Fair Housing Act". An "Affordable housing development" qualifying for this method of depreciation must have commenced construction after January 1, 2025, must have taxes that are not abated or exempted, and must not be subsidized for the construction of low- and moderate-income housing. Furthermore, an affordable housing development includes one or more units of housing, where at least 20 percent of the units qualify as affordable housing. The method of depreciation is calculated as two times (the number of affordable housing units in the development divided by the total number of housing units in the development).

**Data Source:** Affordable Housing Data from the New Jersey Department of Community Affairs and New Jersey Housing and Mortgage Finance Agency.

**Reliability:** 4 Based on average or marginal tax rates applied to aggregate data, including data from external and/or non-government sources.

## 40 Next New Jersey Program

**Citation:** N.J.S.A. 34:1B-394

**Effective Date:** 7/25/2024 **2027 Estimate:** $0

**Objective:** To provide tax credits to eligible artificial intelligence (AI) businesses as approved by EDA, and to attract new investment in AI-related industries in the state.

**Description:** Tax credits would be provided to businesses or divisions primarily engaged in the AI or large-scale AI data center industry. An eligible business is one that has at least 50 percent of its employees engaged in AI-related activities, or at least 50 percent of the business's revenue generated from AI-related activities. Under the program, the amount of the tax credit allowed for a particular project would be equal to the lesser of either: 0.1 percent of the business's total capital investment multiplied the number of new full-time jobs, 25 percent of the eligible business's total capital investment, or $250 million. The program provides up to $500 million in tax credits, originally allocated for the New Jersey Aspire Program and the Emerge Program, be made available to eligible AI businesses.

**Data Source:** New Jersey Economic Development Authority.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 42 Brownfields Redevelopment Tax Credits

**Citation:** N.J.S.A. 34:1B-277

**Effective Date:** 1/7/2021 **2027 Estimate:** $10,000,000

**Objective:** To compensate developers of redevelopment projects located on brownfield sites for remediation costs.

**Description:** The Brownfields Redevelopment Incentive Program is a $50 million per year project-based tax credit. The Program provides a one-time tax credit to incentivize environmental remediation, abatement, and demolition activities that will allow for the redevelopment of brownfields sites for commercial, retail, or mixed-use development or expansion. The awards are based on the remediation costs and project location. The maximum award per project is $12 million.

**Data Source:** New Jersey Economic Development Authority

## 43 Next New Jersey Manufacturing Program

**Citation:** N.J.S.A. 34:1B-403 through 34-1B-412

**Effective Date:** 8/13/2025 **2027 Estimate:** $0

**Objective:** To foster job growth by encouraging manufacturing facilities to establish and expand their physical presence in New Jersey.

**Description:** Eligible manufacturing applicants may be awarded a tax credit of up to $150 million based on their proposed new jobs and capital investment. Applicants will be awarded the lesser of: 0.1 percent of the eligible business' total capital investment multiplied by the number of new full-time jobs, or 25% of the eligible business's total capital investment, or $150 million.

**Data Source:** New Jersey Economic Development Authority

**Reliability:** 3 Based on unverifiable tax records or information from other State government agencies. Current fiscal year value indicates the statutory maximum.

## 44 NJHMFA Housing Tax Credits

**Citation:** N.J.S.A. 54:14K-106 through 55-14K-110

**Effective Date:** 7/22/2025 **2027 Estimate:** $0

**Objective:** To support development of certain housing programs and directs NJHMFA to conduct tax credit auctions.

**Description:** NJHMFA is authorized to use $500,000,000 in tax credits to support the development of certain housing programs. Each year, at most, $100 million in State tax credits will be awarded. The minimum bid price per tax credit is $0.80 on the dollar. NJHMFA conducts tax credit auctions to provide financial assistance for certain housing purposes. Purchasers who receive a tax credit through auction shall apply the credit against their Corporation Business Tax or Insurance Premiums Tax liability for the current privilege period as of the date the credit was approved.

**Data Source:** New Jersey Housing and Mortgage Finance Agency

# 9-1-1 System and Emergency Response Assessment
# Overview

## Description

P.L. 2004, Chapter 48, imposes a fee on periodic billings to mobile telecommunications and telephone exchange customers. This fee is charged by:

- Mobile telecommunications companies for each voice grade access service number as part of mobile telecommunications service provided to a customer billed by or for the customer's home service provider and provided to a customer with a place of primary use in this State; and
- Telephone exchange companies for each telephone voice grade access service line provided as part of that telephone exchange service.

The fee is not applicable to the federal government, its agencies, or instrumentalities. The fee is also not applicable to State, county and municipal governments, and school districts from the fee imposed on telephone exchange services.

## Rate

The 9-1-1 System and Emergency Response Fee is $0.90 for each voice grade access service number and line to mobile telecommunications and telephone exchange customers.

## Disposition of Revenues

The revenue collected pursuant to the fee is deposited into the 9-1-1 System and Emergency Response Trust Fund and is appropriated to offset relevant expenditures in the Department of Law and Public Safety, Department of Military and Veteran's Affairs, and the Department of the Treasury.

## 1 Exempt Telephone Lines

**Citation:** N.J.S.A. 52:17C-17 et seq.

**Effective Date:** 6/29/2004 **2027 Estimate:** 400,000
**Applied Date:** 7/1/2004

**Objective:** To continue an established tradition of providing 9-1-1 system equipment and maintaining this system without any cost to local governments.

**Description:** Exemptions include lines billed to customers enrolled in the Lifeline Telecommunication program, or in receipt of Lifeline Telecommunication or Universal Service Fund benefits, State government agencies, and county and municipal governments and their agencies, and school districts.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

# Alcoholic Beverage Tax
# Overview

## Description

Under the Alcoholic Beverage Tax Law at N.J.S.A. 54:43-1 et seq. (P.L. 1933, Chapter 434), New Jersey levies and imposes an excise tax upon any sale of alcoholic beverages made within this State, or upon any delivery of alcoholic beverages made within or into this State.

## Rates

Alcoholic beverages are subject to excise taxes on each gallon. The tax on beer is imposed at $0.12 per gallon. The tax on liquor is imposed at $5.50 per gallon. The tax on wine, vermouth, and sparkling wine is imposed at $0.875 per gallon. Cider containing at least 3.2 percent of alcohol by volume but no more than seven percent of alcohol by volume is taxed at the rate of $0.15 per gallon. Tax on bitters, grenadine and other mixers: All bitters, grenadine, highballs, cocktails, cordials and other mixes that are classified by the IRS as intoxicating liquors and which require federal strip stamps are taxable at the rate of $5.50 per gallon. (N.J.A.C. 18:3-3.3)

## Disposition of Revenues

Revenues are deposited in the State Treasury for general State use, except that beginning on July 1, 1992, $11 million of the tax revenue is deposited annually into the Alcohol Education, Rehabilitation and Enforcement Fund, and beginning on July 1, 2009, $22 million of the tax revenue is deposited into the Health Care Subsidy Fund. A small percentage also goes to the New Jersey Wine Promotion Account.

## 1 Out-of-State Sales - Beer and Malt

**Citation:** N.J.S.A. 54:43-2

**Effective Date:** 6/14/1938
**Applied Date:** 7/1/1938

**2027 Estimate:** $32,000,000

**Objective:** Out-of-State sales are not subject to the tax.

**Description:** No tax imposed by this subtitle shall be payable on any sale of alcoholic beverages by any state licensee for resale and consumption outside of this State, or directly for consumption outside of this State, when said sale is accompanied by the actual transportation of such beverages out of this State and by the delivery of such beverages in full compliance with the laws of the place or places of delivery; provided, evidence of such sales and deliveries satisfactory to the director is submitted.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 2 Out-of-State Sales - Liquor

**Citation:** N.J.S.A. 54:43-2

**Effective Date:** 6/14/1938
**Applied Date:** 7/1/1938

**2027 Estimate:** $5,200,000

**Objective:** Out-of-State sales of these products are not subject to the tax.

**Description:** No tax imposed by this subtitle shall be payable on any sale of alcoholic beverages by any state licensee for resale and consumption outside of this State, or directly for consumption outside of this State, when said sale is accompanied by the actual transportation of such beverages out of this State and by the delivery of such beverages in full compliance with the laws of the place or places of delivery; provided, evidence of such sales and deliveries satisfactory to the Director is submitted.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 3 Out-of-State Sales - Still Wine

**Citation:** N.J.S.A. 54:43-2

**Effective Date:** 6/14/1938
**Applied Date:** 7/1/1938

**2027 Estimate:** $22,200,000

**Objective:** Out-of-State sales of these products are not subject to the tax.

**Description:** No tax imposed by this subtitle is payable on any sale of alcoholic beverages by any state licensee for resale and consumption outside of this State, or directly for consumption outside of this State, when said sale is accompanied by the actual transportation of such beverages out of this State and by the delivery of such beverages in full compliance with the laws of the place or places of delivery; provided, evidence of such sales and deliveries satisfactory to the Director is submitted.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 4 Out-of-State Sales - Vermouth/Sparking Wine/Apple Cider

**Citation:** N.J.S.A. 54:43-2

**Effective Date:** 6/4/1938
**Applied Date:** 7/1/1938

**2027 Estimate:** $1,800,000

**Objective:** Out-of-State sales of these products are not subject to the tax.

**Description:** No tax imposed by this subtitle shall be payable on any sale of alcoholic beverages by any state licensee for resale and consumption outside of this State, or directly for consumption outside of this State, when said sale is accompanied by the actual transportation of such beverages out of this State and by the delivery of such beverages in full compliance with the laws of the place or places of delivery; provided, evidence of such sales and deliveries satisfactory to the director is submitted.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

# Cigarette Tax
# Overview

## Description

The Cigarette Tax is collected primarily from licensed distributors who receive cigarettes directly from out-of- State manufacturers. Unless otherwise provided by law, every package of cigarettes must be stamped before being transferred from the original acquirer in New Jersey. This tax is not imposed on other tobacco products.

## Rate

Effective August 1, 2025, the tax rate is $3.00 per pack of 20 cigarettes.

A distributor is allowed a .166667 percent discount on the purchase of 1,000 or more stamps or meter impressions.

## Disposition of Revenues

The first $391.5 million in revenue collected from the cigarette tax is dedicated to the Health Care Subsidy Fund (N.J.S.A. 26:2H-18.58g). Additionally, starting on July 1, 2018, an amount equal to one percent of gross cigarette tax collections is dedicated to the Department of Health to fund anti-smoking initiatives (N.J.S.A. 26:2H-18.58g). Any remaining revenue collections are deposited in the State Treasury for general State use.

## 1 Director's Redemption of Certain Stamps

**Citation:** N.J.S.A. 54:40A-19

**Effective Date:** 6/21/1957
**Applied Date:** 4/16/1956 **2027 Estimate:** $1,000,000

**Objective:** To allow any distributor or dealer to receive a credit for any unused or mutilated, but identifiable, stamps for the face value of the given stamp.

**Description:** The Director shall redeem any unused or mutilated, but identifiable, stamps that any distributor or dealer may present for redemption, and issue a refund of the face value.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 2 Distributor Discounts

**Citation:** N.J.S.A. 54:40A-11

**Effective Date:** 10/31/2008 **2027 Estimate:** $1,000,000

**Objective:** To allow for a tax credit due to the service and expense of the distributor in affixing and handling revenue stamps, for any sale of 1,000 stamps or more.

**Description:** On sales of revenue stamps the Director shall allow, as compensation for the services and expenses of the distributor in affixing and handling of such stamps, a discount of 1.80 percent [*level stipulated in original statute*] of the face amount of any sale of 1,000 stamps or more; provided, that the distributor has complied with all the provisions of this Act; and, provided, further, however, that the Director shall be empowered to adjust such discount to provide equivalent compensation with respect to the face value of each 1,000 stamps or more. The current level of the discount is 0.166667 percent.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns

# Domestic Security Fee
# Overview

## Description

A statutory assessment designated as the "Domestic Security Fee" is imposed under P.L. 2002, Chapter 34 on motor vehicle rental companies for each day or part thereof that a motor vehicle is rented under rental agreements of not more than 28 days.

## Rate

Effective July 8, 2006, the fee is assessed at the rate of $5 per day. The fee applies only to the first 28 days of a rental agreement with the same renter. Thus, the maximum rental fee in the aggregate is $140 even if the actual rental extends beyond 28 days.

## Disposition of Revenues

The first $2 of the fee is paid to the State Treasurer for deposit in the New Jersey Domestic Security Account. The remaining revenues are deposited in the State Treasury for general State use.

## 1 Total Deductions

**Citation:** N.J.S.A. App.A:9-78

**Effective Date:** 7/1/2002
**Applied Date:** 8/1/2002

**2027 Estimate:** $1,000,000

**Objective:** The exemption for certain motor vehicles from the Sales and Use Tax is likewise applied to the domestic security fee on those exempted vehicles.

**Description:** The law does not impose the Domestic Security Fee on motor vehicle rentals that are exempt for Sales and Use Tax purposes, such as resale transactions and rentals to tax exempt organizations or government agencies.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

# State Occupancy Fee and Municipal Occupancy Tax
# Overview

## Description

P.L. 2003, Chapter 114 imposes a State Occupancy Fee and authorizes the imposition of a Municipal Occupancy Tax on charges for the rental of a room in a hotel, motel, or similar facility in most New Jersey municipalities. P.L.2018, Chapter 49 imposed the Hotel and Motel Occupancy Fee (as well as the Sales and Use Tax) on rentals of transient accommodations, effective October 1, 2018.

## Rate

The State Occupancy Fee rate is 5 percent for occupancies on and after July 1, 2004, or at a lower rate in cities in which such occupancies are already subject to tax:

Atlantic City, Elizabeth, Newark, and Jersey City —1 percent
The Wildwoods—3.15 percent

As of July 2024, an overwhelming majority of municipalities have enacted a municipal occupancy tax rate of 3 percent.

Effective January 1, 2026, a $3.00 per day surcharge is applied on every hotel room occupancy that is subject to the Sales Tax and also is located in a first class city in which an international airport is also located. Currently, the city of Newark is the only city that meets these stipulations.

## Disposition of Revenues

The monies collected from the State Occupancy Fee are statutorily dedicated, in varying percentages, pursuant to N.J.S.A. 54:32D-2, to the New Jersey State Council on the Arts for cultural projects; the New Jersey Historical Commission; the Division of Travel and Tourism in the Department of State for tourism advertising and promotion; and the New Jersey Cultural Trust. Any amount over the dedication is allocated to the General Fund. Collections from the Municipal Occupancy Tax are distributed back to the municipality.

## 1 Government Exemption

**Citation:** N.J.S.A54:32D-1b

**Effective Date:** 7/1/2003 **2027 Estimate:** $2,600,000
**Applied Date:** 7/1/2003

**Objective:** To allow occupancies that are exempt for Sales and Use Tax purposes, including occupancies for government use, a credit from the Hotel/Motel occupancy fee.

**Description:** The law provides that the Hotel/Motel Occupancy Fee will not apply on occupancies that are exempt for Sales and Use Tax purposes, including occupancies for government use.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 2 Permanent Resident Exemption

**Citation:** N.J.S.A. 54:32D-1b (P.L. 2003, Chapter 114, as amended)

**Effective Date:** 7/1/2003 **2027 Estimate:** $11,100,000

**Objective:** To allow occupancies that are exempt for Sales and Use Tax purposes or motel occupancy where the purchaser resides at the lodging facility for at least 90 day, a deduction/exemption from the Hotel/Motel occupancy fee.

**Description:** The law provides that the Hotel/Motel Occupancy Fee will not apply on occupancies that are exempt under the Sales and Use Tax Act such as a hotel or motel occupancy where the purchaser resides at the lodging facility for at least 90 days.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 3 Rooms for Assembly

**Citation:** N.J.S.A. 54:32D-1b (P.L. 2003, Chapter 114, as amended)

**Effective Date:** 7/1/2003 **2027 Estimate:** $1,500,000

**Objective:** To allow occupancies that are exempt for Sales and Use Tax purposes or using rooms for the purpose of assembly an exclusion from the Hotel/Motel Occupancy

**Description:** The law provides that the Hotel/Motel Occupancy Fee is imposed on rooms used for occupancy. The fee is not imposed on rooms used for the purpose of assembly, such as conference, meeting or banquet rooms.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

# Local Property Tax Supported by State Government
# Overview

## Description

New Jersey offers several property tax deductions and exemptions, which are typically managed by the local municipality a resident resides in. The State also offers property tax relief via reimbursement programs such as Senior Freeze (Property Tax Reimbursement, the Affordable New Jersey Communities for Homeowners and Renters (ANCHOR), and the Stay NJ Property Tax Credit program.

## Deductions

Senior Citizens and Disabled Persons Property Tax Deduction
Veterans Property Tax Deduction

## Exemptions

100% Disabled Veteran Property Tax Exemption

## Reimbursement

Senior Freeze (Property Tax Reimbursement)
Affordable New Jersey Communities for Homeowners and Renters (ANCHOR)
Stay NJ Property Tax Credit program

## Recent History

P.L. 2025, Chapter 24: The law makes disabled persons receiving disability payments pursuant to the federal Railroad Retirement Act eligible to receive homestead property tax reimbursement. The law amends N.J.S.A. 54:4-8.67 to allow disabled individuals under age 65 who receive federal Railroad Retirement Disability payments, and meet all of the other eligibility requirements, to apply for the Property Tax Reimbursement (PTR) program. Previously, only disabled individuals under age 65 who received federal Social Security Disability payments who met all of the other eligibility requirements could apply for the PTR program. This law went into effect March 6, 2025.

P.L. 2024, Chapter 88: The law requires the Division to promulgate a combined single application for the ANCHOR rebate, Property Tax Reimbursement (Senior Freeze) benefit, and Stay NJ; notify claimants in writing with a detailed calculation of the amount they are entitled to receive, if eligible; outline the maximum benefit allowed; replace the definition of "gross income" with "income;" amend the definition of "eligible claimant;" and amend N.J.S.A. 54:4-8.58, N.J.S.A. 54A:3A-17, as well as facets of N.J.S.A. 47:1B-3 (Daniel's Law).

P.L. 2023, Chapter 84 allows a Property Tax Reimbursement program claimant to retain their base year when their income exceeds the income limit for the application year so long as the claimant's income in the succeeding tax year does not also exceed the income limit. The claimant

will be ineligible for reimbursement in the year that their income exceeds the limit. If the claimant again exceeds the income limit for any succeeding tax year, they will have to establish a new base year when they become eligible.

P.L. 2023, Chapter 75 established the Stay NJ property tax credit program and the Stay NJ Task Force, expanded income limits and modified ownership requirements for eligibility to receive homestead property tax reimbursement, and enhanced ANCHOR benefits for seniors.

## 1 Senior Citizens and Disabled Persons Property Tax Deduction

**Citation:** N.J.S.A. 54:4-8.41

**Effective Date:** 1/3/1990
**Applied Date:** 1/1/1991

**2027 Estimate:** $5,700,000

**Objective:** To establish an annual deduction of $250 for real Property Taxes in the event a given dwelling is owned by qualified senior citizens or disabled persons.

**Description:** An annual $250 deduction from real property taxes is provided for the dwelling of a qualified senior citizen, disabled person or their surviving spouse.

**Data Source:** Department of Community Affairs data reports TY 2022 – 2025.

**Reliability:** 1 Based on the population of verified tax returns.

## 2 Veteran's Property Tax Deduction

**Citation:** N.J.S.A. 54:4-8.11

**Effective Date:** 3/30/2000

**2027 Estimate:** $26,300,000

**Objective:** To implement the State constitutional amendment, approved by the voters of the State on November 2, 1999, which provides for a veteran's property tax deduction and to increase that annual property tax deduction for certain veterans and surviving spouses of those veterans from $50 to $250.

**Description:** The law provides a $250 real estate tax deduction for residents who served or currently serve in the Armed Forces of the United States during a time of war and who were honorably discharged. Surviving spouses are also eligible for this deduction.

**Data Source:** Department of Community Affairs data reports TY 2022 – 2025.

**Reliability:** 1 Based on the population of verified tax returns.

## 3 Property Tax Reimbursement (Senior Freeze)

**Citation:** N.J.S.A. 54:4-8.67

**Effective Date:** 1/14/1998 **2027 Estimate:** $311,600,000

**Description:** The Property Tax Reimbursement program, otherwise known as Senior Freeze, seeks to refund Property Tax increases to eligible senior and disabled homeowners and mobile homeowners. Claimants must satisfy all eligibility requirements for two consecutive years to be eligible to receive reimbursement. Beginning with the 2023 filing season, the income limits for the program, which are now automatically adjusted for increases in the cost of living, were set at $150,000 for Tax Year 2022 and $163,050 for Tax Year 2023, and the 10 consecutive years of residency requirement was eliminated. Furthermore, if a claimant's income exceeds the income limits for an application year, the claimant is allowed to retain their base year so long as the claimant's income in the succeeding tax year does not also exceed the income limit.

**Data Source:** New Jersey Office of Revenue and Economic Analysis Property Tax Relief Model, using Division of Taxation PTR-100 data.

**Reliability:** 1 Based on the population of verified tax returns.

## 4 Affordable New Jersey Communities for Homeowners and Renters (ANCHOR)

**Citation:** N.J.S.A. 54A:3A-15, Modified by FY 2023 Appropriations Act, Section 82 (Dept. of the Treasury), Subsection 75 (State Subsidies and Financial Aid) and P.L. 2023, Chapter 75)

**Effective Date:** 1/1/1996, Modified 6/30/2022 **2027 Estimate:** $1,865,900,000
**Applied Date:** 1/1/1996, Modified 6/30/2022

**Objective:** Expands the tax relief available under the existing Homestead Benefit program to cover more homeowners and renters with higher benefit levels. The Homestead Benefit program also provided a property tax rebate for homeowners and renters.

**Description:** The ANCHOR program established new income eligibility and benefit levels for property tax relief recipients, beginning with tax year 2019. Homeowners with gross incomes of $150,000 or less will receive $1,500; with income of more than $150,000 and up to $250,000 will receive $1,000; residential renters with income of $150,000 or less will receive $450. Those who are 65 and older receive an additional $250. You must have paid rent to be eligible.

**Data Source:** New Jersey Office of Revenue and Economic Analysis Property Tax Relief Model, using Division of Taxation PTR-100 data.

**Reliability:** 2 Based on a sample of verified tax returns

## 5 Stay NJ Property Tax Credit Program

**Citation:** N.J.S.A. 54:4-8.75c

**Effective Date:** 1/1/2026 **2027 Estimate:** $1,157,000,000

**Objective:** To provide uniform property tax relief to senior citizen homeowners and tenants.

**Description:** The Stay NJ program established a new benefit equal to 50 percent of property taxes paid or $6,500, whichever amount is less. The program institutes a higher income eligibility limit of $500,000 and compares aggregate ANCHOR and Senior Freeze benefits to the new Stay benefit to give homeowners the highest benefit amount. The program also requires a single combined application for the ANCHOR, Senior Freeze, and Stay NJ programs, and stipulates quarterly credits to be applied to local property tax bills beginning with Calendar Year 2026. The Fiscal Year 2026 estimate reflects two out of the four annual quarterly payments for Calendar Year 2026 being credited to recipients during the second half of Fiscal Year 2026.

**Data Source:** New Jersey Office of Revenue and Economic Analysis Property Tax Relief Model, using Division of Taxation PTR-100 data.

**Reliability:** 2 Based on a sample of verified tax returns

# Motor Fuels Tax

## Description

P.L. 2010, Chapter 22, the Motor Fuels Tax Act, effective July 1, 2010, as amended, and operative beginning January 1, 2011, repeals prior Motor Fuels legislation in order to make sweeping changes in the licensing, reporting, and the imposition and collection of the Motor Fuels Taxes.

Motor fuels taxes are levied on all grades of gasoline, diesel, and gasohol (a mixture of ethanol and unleaded gasoline). Dyed Fuel is exempt from taxation.

The tax is due from the consumer, but it is remitted to the State by the supplier, or in rare cases, by the distributor. The tax is pre-collected by the supplier before going all the way down the supply chain.

## Rate

The general motor fuels tax rate is $0.105 per gallon of gasoline. A tax of $0.0525 per gallon is imposed on petroleum gas and liquefied petroleum gas sold or used to propel motor vehicles on public highways.

The Diesel Fuel Tax rate is $0.135 per gallon, of which $0.03 per gallon is refundable for fuel used in passenger automobiles and motor vehicles of less than 5,000 pounds gross weight.

Tax exempt sales include sales to the United States or any agency or instrumentality thereof and to the State of New Jersey and its political subdivisions, departments and agencies. Sales of dyed fuel and sales for export are also exempt.

## Disposition of Revenues

Certain revenues are credited to a special account in the General Fund and are dedicated from the Motor Fuels Tax, the Petroleum Products Gross Receipts Tax, and the Sales and Use Tax to the Transportation Trust Fund for maintenance of the State's transportation system (New Jersey Constitution, Article 8, Section 2, paragraph 4).

## 1 Exported Fuels

**Citation:** N.J.S.A. 54:39-112

**Effective Date:** 6/29/2010 **2027 Estimate:** $0
**Applied Date:** 10/1/2010

**Objective:** To stipulate that fuels exported outside of the State are, in general, exempt from the tax imposed with certain limitations applying.

**Description:** Fuels exported outside New Jersey are generally exempt from imposition of the tax, with certain limitations.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 2 Fuel Used by Aircraft

**Citation:** N.J.S.A. 54:39-112

**Effective Date:** 10/1/2010 **2027 Estimate:** $0

**Objective:** To exempt fuel used by aircrafts from the tax imposed by the Motor Fuels Tax Act.

**Description:** Fuel used by aircraft is exempt from the tax imposed by the "Motor Fuels Tax Act," P.L. 2010, c.22 (C.54:39-101 et seq.), and a refund of the tax imposed by subsection a. of section 3 of P.L.2010, Chapter 22 (C.54:39-103) may be claimed by the consumer providing proof the tax has been paid and no refund has been previously issues.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 3 Fuel Used by Ambulances

**Citation:** N.J.S.A. 54:39-112

**Effective Date:** 10/1/2010 **2027 Estimate:** $100,000

**Objective:** To allow the fuel used by an ambulance to be exempt from the current Motor Fuels Tax, or receive a refund of taxes imposed.

**Description:** Fuel used by ambulances is exempt from the tax imposed by the "Motor Fuel Tax Act," P.L. 2010, Chapter 22 (C.54:39-101 et seq.), and a refund of the tax imposed by subsection a. of section 3 of P.L.2010, Chapter 22 (C.54:39-103) may be claimed by the consumer providing proof the tax has been paid and no refund has been previously issued.

**Reliability:** 1 Based on the population of verified tax returns.

**Data Source:** New Jersey Division of Taxation.

**Effectiveness:** Current law allows for the deduction or exclusion of certain vehicles, including ambulances, from the motor fuels tax in order to reduce an entities' expenses. All eligible to benefit take advantage of either this deduction or exemption.

## 4 Fuel Used by Certain Agricultural Tractors and Farm Machinery

**Citation:** N.J.S.A. 54:39-112

**Effective Date:** 10/1/2010 **2027 Estimate:** $0

**Objective:** Motor fuel used by certain vehicles for defined purposes are exempt from the tax imposed by the Motor Fuel Tax Act of 2010.

**Description:** Fuel used by agricultural tractors not operated on a public highway is exempt from the tax imposed by the "Motor Fuel Tax Act," P.L. 2010, Chapter 22 (C.54:39-101 et seq.), and a refund of the tax imposed by subsection a. of section 3 of P.L. 2010, Chapter 22 (C.54:39-103) may be claimed by the consumer providing proof the tax has been paid and no refund has been previously issued.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 5 Fuel Used by Certain Autobuses

**Citation:** N.J.S.A. 54:39-112

**Effective Date:** 10/1/2010 **2027 Estimate:** $400,000

**Objective:** Motor fuels used by certain vehicles for defined purposes are exempt from the tax imposed by the Motor Fuels Tax Act of 2010.

**Description:** Fuel used by autobuses while being operated over the highways of this State in those municipalities to which the operator has paid a monthly franchise tax for the use of the streets therein under the provisions of R.S.48:16-25 and autobuses while being operated over the highways of this State in a regular route bus operation as defined in R.S.48:4-1 and under operating authority conferred pursuant to R.S.48:4-3, or while providing bus service under a contract with the New Jersey Transit Corporation or under a contract with a county for special or rural transportation bus service subject to the jurisdiction of the New Jersey Transit Corporation pursuant to P.L. 1979, Chapter 150 (C.27:25-1 et seq.), and autobuses providing commuter bus service which receive or discharge passengers in New Jersey is exempt from the tax imposed by the "Motor Fuels Tax Act," P.L. 2010, Chapter 22 (C.54:39-101 et seq.), and a refund of the tax imposed by subsection a. of section 3 of P.L. 2010, Chapter 22 (C.54:39-103) may be claimed by the consumer providing proof the tax has been paid and no refund has been previously issued.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 6 Fuel Used by Non-Highway Equipment

**Citation:** N.J.S.A. 54:39-112a

**Effective Date:** 10/1/2010 **2027 Estimate:** $600,000

**Objective:** Motor fuels used by certain vehicles for defined purposes are exempt from the tax imposed by the Motor Fuels Tax Act of 2010.

**Description:** Fuel used by stationary machinery and vehicles or implements not designed for the use of transporting persons or property on the public highways is exempt from the tax imposed by the "Motor Fuels Tax Act," P.L. 2010, Chapter 22 (C.54:39-101 et seq.), and a refund.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 7 Off Road Use of On Road Vehicles

**Citation:** N.J.S.A. 54:39-112a(8)

**Effective Date:** 10/1/2010 **2027 Estimate:** $300,000

**Objective:** Motor fuels used by certain vehicles for defined purposes are exempt from the tax imposed by the Motor Fuels Tax Act of 2010.

**Description:** Fuel used by highway motor vehicles that are operated exclusively on private property is exempt from the tax imposed by the "Motor Fuels Tax Act," P.L. 2010, Chapter 22 (C.54:39-101 et seq.), and a refund of the tax imposed by subsection a. of section 3 of P.L.2010, Chapter 22 (C.54:39-103) may be claimed by the consumer providing proof the tax has been paid and no refund has been previously issued.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

## 8 Total Exempt Government Sales

**Citation:** N.J.S.A. 54:39-112

**Effective Date:** 10/1/2010 **2027 Estimate:** $1,400,000

**Objective:** To stipulate that sales made to government entities are exempt under the current Motor Fuels Tax Act and were exempt under the previous statute.

**Description:** Sales made to government entities are exempt under the current motor fuels law and were exempt under the previous statute.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

# Motor Vehicle Tire Fee
# Overview

## Description

P.L. 2004, Chapter 46 imposes a fee on the sale of new motor vehicle tires, including new tires sold as a component part of a motor vehicle, either sold or leased, that are subject to New Jersey Sales Tax. The tire fee is imposed per tire, including the spare tire sold as part of a motor vehicle. The tire fee also applies to sales of new tires in connection with a repair or maintenance service.

## Rate

The motor vehicle tire fee is $1.50 per tire.

## Disposition of Revenues

The revenue collected from the Motor Vehicle Tire Fee is deposited in the Tire Management and Cleanup Fund established in the Department of Environmental Protection. Any additional revenue collected is available for appropriation to the Department of Transportation to support snow removal operations.

## 1 Exempt Tires Sales Times $1.50 Tire Fee

**Citation:** N.J.S.A. 54: 32F-1 et seq.

**Effective Date:** 6/29/2004 **2027 Estimate:** $1,800,000
**Applied Date:** 8/1/2004

**Objective:** To offset the cost of proper scrap tire pile management.

**Description:** The law exempts the Motor Vehicle Tire Fee on transactions where Sales Tax would be exempt. Examples could include new tire sales for resale, tires sold to exempt organization or government agency and vehicles purchased by non-residents where the vehicle will be registered in their state of residency.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

# Nursing Home Provider Assessment
# Overview

## Description

The New Jersey "Nursing Home Quality of Care Improvement Fund Act" established an assessment on nursing homes, in accordance with federal regulations set forth at 42 C.F.R. 433.68, in order to provide additional funds for improving the quality of care by increasing Medicaid reimbursement for services delivered to those senior citizens and other persons residing in New Jersey nursing homes.

The Department of Health is responsible for the oversight, coordination and disbursement of fund monies. The New Jersey Division of Taxation is charged with the responsibility for collecting the quarterly assessments. The fund will receive revenues from quarterly assessments from nursing homes based upon payment of an assessment in accordance with 42 C.F.R. 433.68. This assessment shall be paid to the Division of Taxation, Department of the Treasury.

## Rate

The per diem assessment rate is $14.67 per non-Medicare day to applicable nursing homes.

## 1 Exempt Days Times Rate

**Citation:** N.J.S.A. 26:2H-92 et seq.

**Effective Date:** 6/29/2004 **2027 Estimate:** $15,300,000
**Applied Date:** 7/1/2004

**Objective:** To ensure compliance with applicable federal requirements that will enable the State to receive its maximum share of federal Medicaid matching funds.

**Description:** The New Jersey Nursing Home Quality Care Act established a quarterly assessment on nursing homes in order to provide additional funds for improving the quality of care by increasing Medicaid reimbursement for services delivered to those senior citizens and other persons residing in New Jersey nursing homes.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

# Petroleum Products Gross Receipts Tax
# Overview

## Description

The Petroleum Products Gross Receipts Tax (PPGRT) is imposed on all companies engaged in refining and/or distributing petroleum products for distribution in this State. It applies to the first sale, not for export, of petroleum products within New Jersey. P.L. 2024, Chapter 7 requires that the PPGRT rate be recalculated annually to ensure that revenue collections meet the Highway Fuel Cap Revenue Target determined for each fiscal year. The FY 2026 Highway Fuel Cap is set by the new statute at exactly $2.115 billion, the FY 2027 Highway Fuel Cap is set at $2.199 billion, with annual, defined growth required through FY 2029. Any change to the PPGRT rate must be implemented by January 1st of each year.

## Rate

Gasoline and Liquefied Petroleum Gas (LPG) – Effective January 1, 2026, the tax rate on gross receipts from the first sale of gasoline, including blended fuel that contains gasoline or is intended for use as gasoline, and LPG in the State, is $0.386 per gallon.

Diesel Fuel – Effective January 1, 2026, the tax rate on gross receipts from the first sale of diesel fuel, blended fuel that contains diesel fuel or is intended for use as diesel fuel, and kerosene, other than aviation grade kerosene, is $0.426 per gallon.

Fuel Oil – Effective January 1, 2025, the tax rate on gross receipts from the first sale of fuel oil products in New Jersey is $0.124 per gallon.

Petroleum Products Other than Highway Fuel and Aviation Fuel – Effective January 1, 2025, companies that refine and/or distribute petroleum products (other than highway fuel and aviation fuel) pay a tax of 7 percent on their gross receipts from the first sale of those products in New Jersey.

Additional Tax – There is an additional tax of $0.04 per gallon on the gross receipts from the first sale in New Jersey of gasoline, blended fuel that contains gasoline or that is intended for use as gasoline, LPG, and aviation fuel.

The additional tax is also imposed on the gross receipts from the first sale of diesel fuel, blended fuel that contains diesel fuel or is intended for use as diesel fuel, and kerosene, other than aviation grade kerosene at a rate of $0.08 per gallon.

## Disposition of Revenues

Certain revenues are credited to a special account in the General Fund and dedicated to the

Transportation Trust Fund under the New Jersey Constitution, Article 8, Section 2, paragraph 4.

## Recent History

P.L. 2024, Chapter 7: Beginning Fiscal Year 2025, the law increases the highway fuel cap annually through Fiscal Year 2029. It also changes the date from August 15 to November 15 by which the State Treasurer and the Legislative Budget and Finance Officer must determine the total revenue derived from the gas taxes collected in the prior State fiscal year.

## 1 Withdrawn for Use Outside New Jersey

**Citation:** N.J.S.A. 54:15B-3

**Effective Date:** 6/30/2000 **2027 Estimate:** $847,300,000

**Objective:** To set the Petroleum Products Gross Receipts Tax rate on fuel oils, aviation fuels and motor fuels subject to tax under R.S.54:39-1 et seq. at the current rate of 4¢ per gallon which is the minimum statutory rate allowed.

**Description:** Petroleum Gross Receipts Tax is only levied upon petroleum products for use or consumption within this State. Any such products withdrawn to be used outside New Jersey are exempt.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 1 Based on the population of verified tax returns.

# Realty Transfer Fee
# Overview

## Description

The Realty Transfer Fee is imposed upon the recording of deeds evidencing transfers of title to real property in the State of New Jersey. The Realty Transfer Fee is calculated based on the amount of consideration recited in the deed.

The Realty Transfer Fee does not apply to a deed: for a consideration of less than $100; by or to the United States of America, this State, or any instrumentality, agency, or subdivision thereof; solely in order to provide or release security for a debt or obligation; which confirms or corrects a deed previously recorded; on a sale for delinquent taxes or assessments; on partition; by a receiver, trustee in bankruptcy or liquidation, or assignee for the benefit of creditors; eligible to be recorded as an "ancient deed" pursuant to R.S. 46:16-7; acknowledged or proved on or before July 3, 1968; between husband and wife, or parent and child; conveying a cemetery lot or plot; in specific performance of a final judgment; releasing a right of reversion; previously recorded in another county and full Realty Transfer Fee paid or accounted for, as evidenced by written instrument, attested by the grantee, and acknowledged by the county recording officer; by an executor or administrator of a decedent to a devisee or heir to effect distribution of the decedent's estate in accordance with the provisions of the decedent's will or the intestate laws of this State; recorded within 90 days following the entry of a divorce decree which dissolves the marriage between grantor and grantee; issued by a cooperative corporation, as part of a conversion of all of the assets of the cooperative corporation into a condominium, to a shareholder upon the surrender by the shareholder of all of the shareholder's stock in the cooperative corporation and the proprietary lease entitling the shareholder to exclusive occupancy of a portion of the property owned by the - corporation.

## Rate

In accordance with Chapter 66, Laws of 2004, as amended by Chapter 19, Laws of 2005, the level or rate of the Realty Transfer Fee is as follows:

## Standard Transactions and New Construction

### *Total Consideration not Over $350,000*

| Consideration Over | but not over | Rate/$500 |
|---|---|---|
| $0 | $150,000 | $2.00 |
| 150,000 | 200,000 | 3.35 |
| 200,000 | 350,000 | 3.90 |

### *Total Consideration Over $350,000*

| Consideration Over | but not over | Rate/$500 |
|---|---|---|
| $0 | $150,000 | $2.90 |
| 150,000 | 200,000 | 4.25 |
| 200,000 | 550,000 | 4.80 |
| 550,000 | 850,000 | 5.30 |
| 850,000 | 1,000,000 | 5.80 |
| 1,000,000 | * | 6.05 |

## Senior Citizens or Blind or Disabled Persons; Low- and Moderate-Income Housing

### *Total Consideration not Over $350,000*

| Consideration Over | but not over | Rate/$500 |
|---|---|---|
| $0 | $150,000 | $0.50 |
| 150,000 | 350,000 | 1.25 |

### *Total Consideration Over $350,000*

| Consideration Over | but not over | Rate/$500 |
|---|---|---|
| $0 | $150,000 | $1.40 |
| 150,000 | 550,000 | 2.15 |
| 550,000 | 850,000 | 2.65 |
| 850,000 | 1,000,000 | 3.15 |
| 1,000,000 | * | 3.40 |

### Graduated Percent Fee

The Graduated Percent Fee (P.L. 2025, Chapter 69), formerly known as the Assessment on Real Property Greater than $1.0 million, is a supplemental fee to the Realty Transfer Fee. Sellers must now pay the Graduated Percent Fee on real property sales over $1.0 million. Previously, buyers were responsible for paying the Assessment.

The Graduated Percent Fee applies to real property transactions under the following four New Jersey property classes:

- Class 2 residential.
- Class 3A where the property is a farm (but only if the farmland contains a building or structure intended or suited for residential use).
- Class 4A commercial property (other than industrial or apartment).
- Class 4C cooperative units (four families or less).

The progressive rate structure for the Graduated Percent Fee is shown below, the rates for each tax bracket apply back to the first dollar in each bracket, respectively:

- 1.0 percent of total consideration if in excess of $1.0 million, but not in excess of $2.0 million.
- 2.0 percent of total consideration if in excess of $2.0 million, but not in excess of $2.5 million.
- 2.5 percent of total consideration if in excess of $2.5 million, but not in excess of $3.0 million.
- 3.0 percent of total consideration if in excess of $3.0 million, but not in excess of $3.5 million.
- 3.5 percent of total consideration if in excess of $3.5 million.

### Controlling Interest Transfer Tax

The Controlling Interest Transfer Tax is now also imposed on sellers. It applies the same progressive rate structure as the Graduated Percent Fee, but specifically to non-deed transfers of a controlling interest in an entity that directly or indirectly owns certain real property.

The tax is only triggered if:

- The property is classified as “4A Commercial”, and
- The consideration or valuation of the property exceeds $1.0 million.

### Exemption

Sellers are exempt from the Controlling Interest Transfer Tax if they have already paid the Graduated Percent Fee on a standard deed transfer.

### Disposition of Revenues

The Realty Transfer Fees per $500 of consideration will be allocated according to the type of transaction as follows: Affordable Housing and the State Extraordinary Aid Account.

## 1 Exempt Sales Exceeding $1 million Where the Grantor Pays

**Citation:** N.J.S.A 46:15-7.4, P.L. 2025, Chapter 69

**Effective Date:** 7/8/2006 **2027 Estimate:** $27,800,000

**Applied Date:** 8/1/2006

**Objective:** In an effort to provide adequate funding for State services during what was then an austere fiscal period, the Realty Transfer Fee was increased on certain high-value income-producing properties (not including residential property, farm property, industry).

**Description:** The Graduated Percent Fee which is imposed on the grantor as of July 10, 2025, shall not apply to a deed if a real property transfer is incidental to a corporate merger or acquisition and the equalized assessed value of the real property transferred is less than 20 percent of the total value of all assets exchanged in the merger.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

## 2 Partial Realty Transfer Fee Exemption (Sales Price Known)

**Citation:** N.J.S.A. 46:15-10.1

**Effective Date:** 6/30/2004 **2027 Estimate:** $32,700,000

**Objective:** To generate revenue through the "general purpose fee" to be used for general State purposes. The bill also makes a number of editorial revisions in the text of the Realty Transfer Fee statute for purposes of clarifying its provisions.

**Description:** Under the partial Realty Transfer Fee exemption, the State portion of the fee is not charged on sale of a one- or two-family residential premises owned and occupied by a senior citizen, blind person or disabled seller or the sale of low- and moderate-income housing. Transfers of title to real property upon which there is new construction shall be 80 percent exempt from payment based on the first $150,000 of consideration.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

### 3 Total Realty Transfer Fee Exemption for Sales Price Less than $100 (Sales Price Known)

**Citation:** N.J.S.A. 46:15-10(a)

**Effective Date:** 1/14/2000 **2027 Estimate:** $93,800,000

**Objective:** To exempt the Reality Transfer Fee to a deed imposed if the consideration is less than $100.

**Description:** The law does not impose a Realty Transfer Fee to a deed where the consideration, as defined in section 1(c) of the law, is less than $100.00.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

### 4 Total Realty Transfer Fee Exemption Where Such Sales Price Would Have Exceeded $100 (Sales Price Known)

**Citation:** N.J.S.A. 46:15-10

**Effective Date:** 1/14/2000 **2027 Estimate:** $6,800,000

**Objective:** To clarify that the conversion of real property from a cooperative form of ownership to a condominium form of ownership is not subject to the Realty Transfer Fee, which applies to sales and transfers of interests in real property, by specifying an exemption.

**Description:** Statutory exemptions to the Realty Transfer Fee include: sales by or to the United States of America, this State, or any instrumentality, agency, or subdivision thereof; sales made solely in order to provide or release security for a debt or obligation.

**Data Source:** New Jersey Division of Taxation.

**Reliability:** 3 Based on unverifiable tax records or information from other State and/or federal government agencies.

# Appendix I: Tax Expenditures that Do Not Have an Estimate

The following statutory provisions, segregated by tax, have been deemed tax expenditures. This agency cannot make estimates of their value at this time.

## Gross Income Tax

# Appendix II: Taxes of the State of New Jersey

The following outline provides basic information regarding taxes imposed by the State of New Jersey and administered by the Division of Taxation and the Division of Revenue and Enterprise Services that a new business may be responsible for collecting and paying.

**New Jersey Gross Income Tax**
(N.J.S.A. 54:A:1-1 et seq.)

Personal Income Tax is imposed on the New Jersey taxable income of resident and nonresident individuals, estates and trusts for taxable years ending on or after July 1, 1976. Residents are subject to tax on all income, regardless of where it was earned, while nonresidents are only subject to tax on income derived from sources within New Jersey.

The withholding requirements apply to *every* New Jersey employer making payment of taxable wages. For New Jersey Gross Income Tax purposes, the term "employer" includes organizations that may be exempt from federal income tax or New Jersey Corporation Business Tax, such as religious organizations and governmental agencies.

Generally, anything regarded as "wages" for federal withholding purposes is subject to withholding for the New Jersey Income Tax. Every employer is required to file a quarterly return of tax withheld (NJ-927) for each calendar quarter. Some employers are also required to file a monthly remittance (NJ-500). Employers classified as "weekly payers" must remit payment of withholdings by means of Electronic Funds Transfer (EFT) on the Wednesday of the week following the week in which the taxes were withheld.

Employers not classified as weekly payers must remit the tax withheld with their withholding return either monthly or quarterly, depending on the amount of withholding liability.

**Reciprocal Agreement**

(New Jersey & Pennsylvania Residents Only)

Under the Reciprocal Tax Agreement, the compensation derived by residents of either state (New Jersey or Pennsylvania) will be subject to income tax only in the state of residence including compensation income derived from sources within the other state.

Compensation that is limited to the provisions of the Reciprocal Agreement means salaries, wages, tips, fees, commissions, bonuses and other remuneration received for services rendered. Businesses or professional income earned by a resident of either state is not covered by the Reciprocal Agreement and is subject to the income tax of the state in which it is earned.

**Withholding Requirement for Contractor Services**
(N.J.S.A.54A:7-1)

Effective January 1, 2007, the law requires persons, other than a governmental entity, homeowner, or tenant, who maintain an office or transact business in New Jersey and make payments for services to certain unincorporated construction contractors and unregistered individuals to withhold New Jersey Gross Income Tax at the rate of 7 percent from those payments. For more information regarding the withholding requirement for contractor services, go to the Division's Web site at:
*www.state.nj.us/treasury/taxation/noticegit.shtml.*

**Unemployment and Disability Taxes**
If you are employing, or expect to employ, one or more persons, you should notify the Division of Revenue and Enterprise Services so that a determination can be made as to whether or not you are subject to the law. Under the law (N.J.S.A. 43:21-19(h1) et seq.) it is your responsibility to make the fact known.

**Determination of Liability** - If you start a business and employ one or more individuals and pay wages of $1,000 or more in a calendar year, you may be subject to the law.

If you acquire the organization, trade or business, or substantially all the assets of an employing unit which is already subject to the law, you immediately become a subject employer.

If you are subject to the provisions of the Federal Unemployment Tax Act (FUTA) you automatically become subject under the law, unless the services performed are specifically excluded under the New Jersey law. An employing unit is generally subject to FUTA if it had covered employment during some portion of a day in 20 different calendar weeks within the calendar year or had a quarterly payroll of $1,500 or more.

**Note:** Agricultural Employers -You are liable for contributions on wages paid to agricultural employees if:

1. You were already a registered employer, or
2. Not registered, you were or became subject to the Law, having paid wages of $1,000 or more in a calendar year to one or more workers for services performed in a non-agricultural business operation, or
3. You acquired the organization, trade or business, or substantially all the assets of an employing unit already subject to the law, or
4. You are subject to the Federal Unemployment Tax Act, or
5. Not subject under the above provisions, you:
    1. Paid gross cash remuneration of $20,000 or more to individuals employed in

agricultural labor during any calendar quarter, or

2. Employed ten or more individuals in agricultural labor, regardless of whether they were employed at the same moment of time, for some portion of a day in each of 20 different calendar weeks, whether or not such weeks were consecutive.

**Special Employers** - Under certain circumstances, a crew leader who provides a crew to an agricultural employer, can be considered the employer of the crew for unemployment tax purposes. The agreement between the crew leader and entity must comply with all federal and State regulations and the crew leader must be registered under the New Jersey Crew Leader Registration Act. For further information contact any Regional Office.

**Domestic Employers** - In order for you to become subject to the law, you must have paid gross cash wages of at least $1,000 to domestic labor in a calendar quarter.

The State of New Jersey and its political subdivisions are subject to the law.

**Set Off of Individual Liability**
(N.J.S.A. 54A:9-7 et *seq.)*

Public Laws of 1981, Chapter 239, provides the authority for the New Jersey Department of the Treasury to apply or cause to be applied any monies due a taxpayer as a Gross Income Tax refund or Homestead Property Tax rebate, or both, if necessary, toward satisfaction of any indebtedness that the taxpayer may have outstanding to any agency or institution of the New Jersey State *Government* or the Internal Revenue Service.

**Corporation Business Tax**
(N.J.S.A. 54:10A-1 *et seq.)*

The Corporation Business Tax Act imposes a franchise tax for the privilege of having or exercising a corporate charter, deriving income or doing business, employing or owning capital or property or maintaining an office in New Jersey. The tax also applies to foreign corporations falling into one of the following categories:

Holds a general Certificate of Authority issued by the Division of Revenue and Enterprise Services to do business in New Jersey; or

- Holds a certificate, license, or other authorization issued by another New Jersey department or agency authorizing it to engage in business within New Jersey; or
- Employs or owns capital in New Jersey; or
- Employs or owns property in New Jersey; or
- Maintains an office in New Jersey; or

- Derives receipts from sources in New Jersey; or
- Engages in contacts in New Jersey; or
- Does business in New Jersey.

Returns are required to be filed on or before the 15th day of the fourth month following the close of the taxpayer's accounting period. Every corporation must, before commencing to do business in this State, obtain a Corporate Charter from the Division of Revenue and Enterprise Services.

**New Jersey S Corporations**

P.L. 1993, Chapter 173, provides that a corporation may elect to be treated as a New Jersey S corporation. A corporation may make the election to be treated as a New Jersey S corporation only if the corporation is or will be an S corporation pursuant to Section 1361 of the Internal Revenue Code, and each initial shareholder of the corporation consents to the election and the jurisdiction requirements by submitting the S corporation election form (CBT-2553).

**Notice of Business Activities Reporting Act**

(N.J.S.A. 14A:13-14 to 14A:13-23)

Foreign corporations which carry on any activity or own or maintain any property in this State, unless specifically exempted, must file an annual Notice of Business Activities Report. No report is necessary if the foreign corporation has received a Certificate of Authority to do business in New Jersey or has filed a timely return as required under the Corporation Business Tax or the Corporation Income Tax Acts.

The failure of a foreign corporation to file a timely report may prevent the use of the courts in New Jersey for all contracts executed and all causes of action that arose at any time prior to the end of the last accounting period for which the corporation failed to file a required timely report.

**Corporation Banking and Financial Business Tax**

(N.J.S.A. 54:10A-l *et seq.)*

Banking and financial businesses that operate as corporate entities are subject to the provisions of the New Jersey Corporation Business Tax Act. For a calendar year operation, a Banking and Financial Corporation Return (BFC-l) is due on the 15th day of April or the 15th day of the fourth month after the close of the fiscal year.

**Sales and Use Tax**

(N.J.S.A. 54:32B-l *et seq.)*

A tax is imposed on the receipts from every retail sale or rental of tangible personal property,

food and beverage sold by restaurants or caterers, and charges for admissions and occupancies of hotel rooms except as otherwise provided in the Act. The tax is also imposed on the receipts from every sale except for resale of certain services as enumerated in the Act including, for example, installing, repairing or maintaining tangible or real property, storage services, telecommunications, direct mail processing, investigation and security services.

A Use Tax is imposed on items acquired for use in this State on which a Sales Tax would be due but has not been paid.

The law exempts many items such as food ingredients for human consumption, prescription drugs, ordinary clothing and footwear, and utilities such as water, steam, and fuel.

The Act further provides tax exemptions for certain items and services when used or consumed under specifically defined conditions or circumstances.

The Sales and Use Tax is imposed on the consumer; however, every person required to collect any tax imposed by this Act shall be personally liable for collecting and remitting such tax.

Persons required to collect the tax and persons accepting exemption certificates must complete the Registration Application (NJ-REG).

Sales and Use Tax returns (Forms ST-50/ST-51) must be filed electronically, either online or by phone. All vendors are required to file quarterly returns (Form ST-50), and some vendors may also have to file monthly returns (ST-51).

**Salem County**
(N.J.S.A 54:32B-8.45 *et seq.)*

Certain sales made by businesses located in Salem County are taxable at a reduced Sales Tax rate. To qualify for the rate, the sale must be made from a place of business regularly operated by the vendor for the purpose of making retail sales at which items are regularly exhibited and offered for retail sale and which is not utilized primarily for the purpose of catalogue or mail order sales. Also, merchandise must be ordered or picked up in person by the purchaser at the place of business in Salem County. Salem County vendors file the ST-450 return.

**Atlantic City Luxury Sales Tax**
(N.J.S.A. 40:48-8.15 *et seq.)*

Atlantic City imposes a tax on specified retail sales or sales at retail occurring within the city limits. "Retail sale" or "sale at retail" is defined to include:

- Any sale in the ordinary course of business for consumption of whiskey, beer or other

alcoholic beverages by the drink in restaurants, cafes, bars, hotels, and similar establishments;

- Any cover, minimum, entertainment or other similar charge made to any patron of any restaurant, cafe, bar, hotel or other similar establishment;
- The hiring (with or without service) of any room in any hotel, inn, rooming or boarding house;
- The hiring of any rolling chair, beach chair or cabana; and
- Admissions to any theater, moving picture, pier, exhibition or place of amusement.

Vendors are required to be licensed. Sales to or by the State of New Jersey or its political subdivisions, sales exempt under federal law, and sales by a church or bona fide nonprofit charitable association are exempt.

The ST-250 return is required to be filed by vendors on or before the 20th day of each month covering receipts for the preceding calendar month. Taxes are paid by the purchaser to the vendor who remits the tax to the State. Payment accompanies the return.

**Cape May County Tourism Sales Tax**
(N.J.S.A. 40:54D-l *et seq.)*

The Tourism Improvement and Development District Act authorizes qualified municipalities to levy an additional Sales and Use Tax on predominantly tourism-related retail sales. The retail sales to be taxed include admissions, hotel occupancies, food and drink sold in restaurants, or similar establishments.

To qualify for the additional Sales Tax, all such retail sales must be taxable under the Sales and Use Tax Act (P.L. 1966, Chapter 30; N.J.S.A. 54:32B-l *et seq.).* The local Sales and Use Tax would "piggyback" onto the State Sales and Use Tax which would be collected by the Division of Revenue and Enterprise Services placed in a special reserve fund to pay principal and interest on bonds and notes issued by the tourism authority for financing tourism promotion activities and projects within the district. Businesses that make sales of tourism-related items will file the ST-350 return on a monthly basis.

**Urban Enterprise Zone**
(N.J.S.A. 52:27H-60 *et seq.)*

The Urban Enterprise Zone Act authorizes certain tax benefits for businesses designated as "qualified" by the Department of Commerce and Economic Development. These tax benefits are covered under the Sales and Use Tax Act and the Corporation Business Tax Act.

Application can be made with the Division of Revenue and Enterprise Services for these benefits

only after the business has been designated as "qualified" by the Department of Commerce and Economic Development.

**State Occupancy Fee and Municipal Occupancy Tax**
(N.J.S.A. 40:48E-l *et seq.)*

As of August 1, 2003, there is a State Occupancy Fee imposed on the rental of a room in a hotel, motel or similar facility, other than for assembly purposes. The rate in all municipalities other than Newark, Jersey City, Atlantic City, Wildwood, Wildwood Crest and North Wildwood was 7 percent as of August 1, 2003, and is reduced to 5 percent as of July 1, 2004. The State Occupancy Fee in those specific municipalities remains constant at 1 percent, except for the Wildwoods, where it is 3.15 percent. In addition, each municipality may adopt an ordinance imposing a Municipal Occupancy Tax which can be imposed at a rate of up to 1 percent as of August 1, 2003, and up to 3 percent as of July 1, 2004.

There is an exemption from the State Occupancy Fee and Municipal Occupancy Tax for rentals by agencies and instrumentalities of the federal government, agencies, instrumentalities and political subdivisions of the State of New Jersey and the United Nations and similar organizations. Holders of an Exempt Organization Certificate (ST-5) are not exempt from the State Occupancy Fee or Municipal Occupancy Tax.

All businesses engaged in renting rooms in a hotel or similar facility must file the HM-100 Return by the 20th of each month and report and remit the State Occupancy Tax and the Municipal Occupancy Fee, if applicable. The HM-100 is also available on the Division's Web site.

**Alcoholic Beverage Tax**
(N.J.S.A. 54:43-1 *et seq.)*

The Alcoholic Beverage Tax Act imposes taxes on alcoholic beverages.

The Alcoholic Beverage Tax is to be paid by manufacturers, wholesalers and other persons licensed by the Division of Alcoholic Beverage Control. Retail licenses are authorized and issued by municipalities of New Jersey.

**Cigarette Tax**
(N.J.S.A. 54:40A-1 *et seq.)*
A tax is imposed on the sale, use or possession for sale or use within New Jersey of all cigarettes. License fees are payable by distributors, wholesalers, manufacturers, retailers and vending machine retailers.

**Motor Fuels Tax**
(N.J.S.A. 54:39-101 *et seq.)*
The Motor Fuels Tax applies to sales of gasoline, diesel fuel or liquefied petroleum gas used in motor vehicles on public highways.

**Insurance Premiums Tax**
(N.J.S.A. 54:16-1 *et seq.,* 16A-1 *et seq.,* 54:18A-1 et seq., 54:17-4 et seq.)

Insurance Premiums Tax applies to premiums collected on insurance risks in this State during the preceding calendar year. The tax applies to every stock, mutual and assessment insurance company organized or existing under any general or special law of this State or any other state or foreign country transacting business in this State.

Taxable premiums of life insurance companies include all gross contract premiums except premiums for reinsurance and annuity considerations, less certain specified deductions. Non-life companies generally are taxed upon gross premiums and assessments except reinsurance premiums less certain deductions.

An annual Premium Tax return, reporting the tax liability for the preceding calendar year, must be filed and the tax paid by March 1 of each year. The March 1 return must also include a prepayment of the current year's tax liability equivalent to 50 percent of the prior year's tax liability. An additional prepayment of the current year's liability, also equivalent to 50 percent of the prior year's tax liability, is due June 1 of each year.

A tax on the premiums for fire insurance written by a company not organized under the laws of New Jersey must be reported and paid to the treasurer of a duly incorporated firemen's relief association in which the fire insurance risk is located by March 1 of each year, covering the preceding calendar year. The company must also report these premiums on the annual premium tax return. A deduction for the amount of tax paid directly to a firemen's relief association(s) applicable to the calendar year covered by the annual Premium Tax return is allowed.

A tax on the three-year average underwriting profits on ocean marine insurance is reported to the Commissioner of Insurance by April 1 of each year.

A tax on premiums charged for surplus lines coverage is collected from the insured by the surplus lines agent.

Insurance companies may also be subject to retaliatory tax under certain provisions in the law (N.J.S.A. 17:32-15. 17B:23-5).

**Realty Transfer Fee**
(N.J.S.A. 46:15-5)

Recording of deeds which transfer title to real property in New Jersey is subject to the Realty Transfer Fee. The fee is collected by the County Clerk or County Registrar of Deeds when the deed is presented for recording in the county in which the transfer of title occurred.

**Public Utility Franchise Tax**
(N.J.S.A. 54:30A-49 *et seq.)*

The Public Utility Franchise and Gross Receipts Taxes apply to persons, co-partnerships, associations, and corporations, other than those specifically exempted, operating as sewerage or water companies or providing sewerage and water service in the State of New Jersey.

**Local Property Tax**
(N.J.S.A. 54:4-1 *et seq.)*

The Local Property Tax is measured by property values and is apportioned among taxpayers according to the assessed value of taxable property owned by each taxpayer. The tax applies to real estate and tangible personal property of telephone and telegraph companies and messenger systems.

The property tax is a local tax assessed and collected by municipalities for the support of municipal and county governments and local school districts. No part of it is used for support of State government.

**Spill Compensation and Control Tax**

(N.J.S.A. 58:10-23.11 *et seq.)*
The Spill Compensation and Control Tax is imposed upon the transfer of petroleum products and other hazardous substances, as determined by the New Jersey Department of Environmental Protection, within New Jersey.
The tax is payable by:

1. the operator or owner of the receiving major facility or vessel on a transfer of a hazardous substance from a major facility or vessel; or
2. the operator or owner of the transferring New Jersey major facility on a transfer of a previously untaxed non-petroleum hazardous substance to a non-major facility; or
3. the owner of a hazardous substance transferred to a public storage terminal from a major facility or vessel.

A major facility is a facility with a storage capacity of 200,000 gallons or more for all hazardous substances, including petroleum products, or a storage capacity of 20,000 gallons or more of non- petroleum hazardous substances.

The SCC-5 return is required to be filed on or before the 20th day of each month for the preceding month's hazardous substance transfers.

**Litter Control Fee**
(N.J.S.A. 13:1 E-213 through 13:1 E-223)

The Clean Communities and Recycling Grant Act imposes an annual Litter Control Fee on all gross receipts from wholesale sales and on all gross receipts from retail sales of litter-generating products sold within or into New Jersey by each person engaged in business in the State as a manufacturer, wholesaler, distributor, or retailer of such products. Any retailer with less than $500,000 in annual retail sales of litter-generating products is excluded from this fee for that calendar year. Annual returns (LF-5) are required to be filed on or before March 15 of each year.

Litter-generating products are: beer and other malt beverages, cigarette and tobacco products, cleaning agents and toiletries, distilled spirits, food for human or pet consumption, glass containers sold as such, groceries, metal containers sold as such, motor vehicle tires, newsprint and magazine paper stock, nondrug drugstore sundry products, paper products and household paper other than roll stock and wood pulp, plastic or fiber containers made of synthetic material and sold as such, soft drinks and carbonated waters, and wine.

**Sanitary Landfill Taxes**

All sanitary landfill taxes are reportable on one consolidated Sanitary Landfill Tax Return (Form SLT-5).

The Consolidated Sanitary Landfill Tax Return (Form SLT-5) must be filed by the 20th day of the month following that in which tax liability was first incurred and monthly thereafter.

**Landfill Closure and Contingency Tax**
(N.J.S.A. 13:1 E-100 *et seq.)*

The Landfill Closure and Contingency Tax is levied upon the owner or operator of every sanitary landfill facility located in New Jersey on all solid waste accepted for disposal.

The Act also requires the sanitary landfill facility owner or operator to establish an escrow

account, administered by the New Jersey Department of Environmental Protection, and to deposit into the account $1.00 per ton of all solid waste accepted for disposal.

**Solid Waste Services Tax**

(N.J.S.A. 13:1 E-138a)

The Solid Waste Services Tax is levied on the owner or operator of every sanitary landfill facility in New Jersey on all solid waste accepted for disposal.

The revenue collected from the Solid Waste Services Tax will be deposited in the Solid Waste Services Tax Fund to be administered by the New Jersey Department of Environmental Protection.

**Petroleum Products Gross Receipts Tax**

(N.J.S.A. 54:15b-1 *et seq.)*

The Petroleum Products Gross Receipts Tax imposes a tax on (a) the gross receipts derived or gallons sold from the first sale of petroleum products made to points in New Jersey, and (b) the dollar consideration given or contracted to be given for petroleum products imported or caused to be imported for use or consumption within New Jersey.

Receipts from (a) the sale of home heating oil and propane gas used exclusively for residential use, and (b) the sale of petroleum products to governmental entities and exempt organizations are exempt. This exemption does not extend to home heating oil and propane gas for commercial use.

Monthly remittances (PPT-41) and Quarterly reconciliation returns (PPT-40) are required to be filed no later than the 25th day of the month following the end of the month the tax was collected.

**Tobacco and Vapor Products Tax**

(N.J.S.A. 54:40B-1 *et seq.)*

The Tobacco and Vapor Products Tax is imposed on sales of all tobacco products (excluding cigarettes as defined in N.J.S.A 54:40A-2) by a wholesaler or distributor.

Distributors and wholesalers who also sell tobacco products at retail or otherwise use the tobacco products must pay a compensating use tax on the wholesale sales price of the products.

Monthly returns (TP-20) are required to be filed no later than the 20th day of the month following the month the tax was collected.

**Domestic Security Fee**
(N.J.S.A. App. A:9-78 as amended by P.L. 2006, Chapter 42 § 1 )

The Domestic Security Fee Act imposes a $5 per day fee on motor vehicle rental companies for each day or part thereof that a motor vehicle is rented for the transportation of persons and noncommercial freight, for a period of not more than 28 days. The fee, which must be designated as the

"Domestic Security Fee" in the rental agreement, is separate from and in addition to any Sales and Use Tax imposed on the rental transaction and is not to be included in the receipts subject to Sales and Use Tax liability assessed pursuant to the "Sales and Use Tax Act," P.L.1966, Chapter 30 (C.54:32B-1 et seq.).

The fee must *be* reported on Form DSF-100, which is filed telephonically or by using an Internet-based application on the Division of Taxation's Web site. The quarterly return must be filed whether or not there are any fees due for the quarter.

**New Jersey Motor Vehicle Tire Fee**
(N.J.S.A. 54:32F-1)

As of August 1, 2004, a fee of $1.50 per tire is imposed on the retail sale of new motor vehicle tires, including tires that are a component part of a motor vehicle that is sold or leased. The Motor Vehicle Tire Fee is imposed on those transactions that are subject to the New Jersey Sales Tax Act. Thus, it is not imposed on sales made to federal or State governmental agencies and entities, qualified exempt organizations; sales for an exempt use; sales to nonresidents.

**Emergency Preparedness and 9-1-1 System Assessment**
(N.J.S.A. 52:17C-17 et seq.)

The "Emergency Preparedness and 9-1-1 System Assessment" fee of $0.90 is to be charged by:

- Mobile telecommunications companies for each *voice* grade access service number as part of mobile telecommunications service provided to a customer billed by or for the customer's home service provider and provided to a customer with a place of primary use in this State, and
- Telephone exchange companies for each telephone *voice* grade access service line provided as part of that telephone exchange service.

The law became effective July 1, 2004, for mobile telecommunications and August 1, 2004, for PBX Systems.

The fee must be reported on Form ERF-100, which is required to be filed on or before the 20th day of the month following the close of the calendar quarter and must be filed by phone. Payments must be made by electronic check, electronic funds transfer, or credit card.

# SECRETARY'S MESSAGE

The Taxation & Revenue Department is proud to release the 2025 Tax Expenditure Report, an important transparency tool that allows State policymakers, advocacy groups, and the public a unique opportunity to evaluate the State's tax code. The State's operating budget undergoes extensive annual scrutiny and prioritization, with hundreds of hearings on agency budgets. However, this is not so with the tax code, and without this Tax Expenditure Report, New Mexico would lack the ability to evaluate the amount and efficacy of the revenue that the State foregoes through myriad tax credits, deductions, exemptions, preferential tax rates, and other tax expenditures. Just as the State's appropriations are evaluated and reprioritized annually, tax expenditures should be periodically reviewed to ensure they are achieving their intended results at an appropriate cost to the public.

From 2012 through 2022, Tax & Rev produced a Tax Expenditure Report as directed in Executive Order 2011-072. Beginning in 2023, the Tax Expenditure Report has been produced by November 15 of each year in compliance with Section 7-1-84 NMSA 1978.

I am appreciative of Tax & Rev's team of talented economists and staff who have dedicated many hours throughout the year researching and evaluating the tax expenditures catalogued in this report. The primary contributors to this report are Chief Economist Lucinda Sydow and Senior Economists Pedro Clavijo, Sara Grubbs, and Chen Xie. An undertaking of this magnitude would not be possible without the professional skills and diligence of this group. Nor would it be possible without the cooperation of other State agencies that play a role in administering many of the tax incentives New Mexico uses to encourage beneficial social and economic activity. We are grateful for their assistance.

Stephanie Schardin Clarke
Secretary of Taxation and Revenue
State of New Mexico

# CONTRIBUTORS

**Pedro Clavijo, Senior Economist**
**Sara Grubbs, Senior Economist**
**Chen Xie, Senior Economist**
**Lucinda Sydow, Chief Economist**
Taxation and Revenue Department, Tax Analysis, Research and Statistics Group

Finally, all the former economists from the Taxation and Revenue Department who worked on this report since its inception in 2012.

# ANNUAL TAX EXPENDITURE BUDGET REPORT
# STATUTORY CITATION

This report is published in compliance with Section 7-1-84 NMS 1978, enacted in 2023, which requires the Department to present a tax expenditure budget report by November 15 of each year.

**7-1-84 NMSA 1978 Tax expenditure budget**

A. No later than November 15 of each year, the secretary shall compile and present a tax expenditure budget to the governor, the revenue stabilization and tax policy committee and the legislative finance committee and post the tax expenditure budget to the department's website.

B. A tax expenditure budget shall include the following information for each tax expenditure of a tax administered by the department:

(1) the statutory basis;
(2) the year of enactment, amendment or repeal, if any;
(3) a brief description;
(4) the intended purpose, if specified in the law providing for the tax expenditure;
(5) an estimate of the amount of foregone revenue by fiscal year for the three fiscal years preceding the current fiscal year, including the general fund, other state funds and local government revenues;
(6) the number of taxpayers that claimed a tax expenditure for each fiscal year reported, unless reporting of such data is in a form that can be associated with or otherwise identify, directly or indirectly, a particular taxpayer;
(7) the data source used for the estimate;
(8) a description of the reliability of the estimate;
(9) an evaluation of the tax expenditure, if required in statute for the specific expenditure; and (10) a description of the tax expenditure's effect on tax administration, if any.

C. The department may request from an executive agency or a local government agency or official the information necessary to complete a tax expenditure budget required by this section. The agency or official shall comply with a request made pursuant to this section by the department as permitted by law.

D. As used in this section, "tax expenditure" means a provision of law administered by the department to reflect state tax policy, as determined by the secretary, including promoting the general welfare of citizens, giving preferential tax treatment to a specific industry or reflecting a specific purpose, including incentivizing consumer behavior, economic development or job creation. A tax expenditure does not include provisions of laws enacted to prevent violation of state or federal law, prevent federal preemption, ensure comity between governments, avoid multiple taxation or define a tax base."

---

The report is to be published for public access at the Taxation and Revenue Department website and this year's and all previous years' reports may be found at:

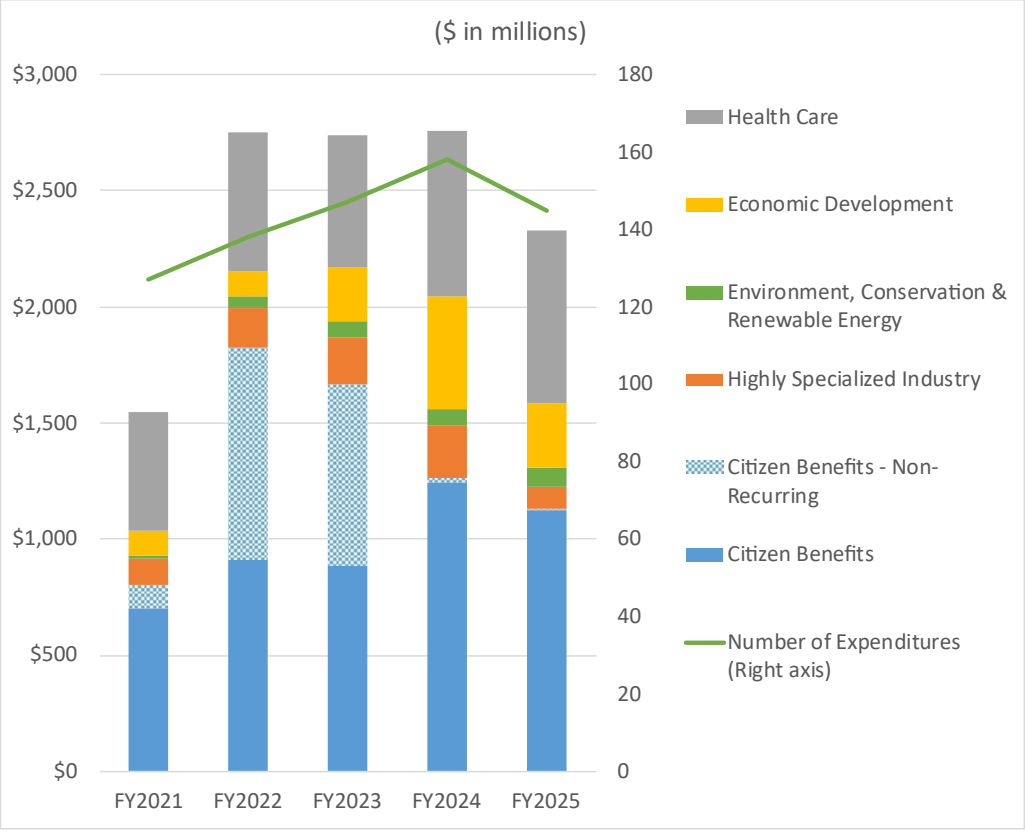
https://www.tax.newmexico.gov/forms-publications/

Under 'Publications' and then 'Tax Expenditure Reports.'

The 2025 Tax Expenditure Budget Report estimates the aggregate reduction in state and local revenue as a result of tax expenditures. This year's report includes 149 tax expenditures that existed in statute for fiscal year 2025. Of the 149, nine are new expenditures enacted through recent legislation (new expenditures are detailed at the end of this Executive Summary). The chart below reflects the non-redacted data[1] available for all tax expenditures for fiscal year 2025 and historical years, except for property tax expenditures.[2] Caution is advised when evaluating expenditures in aggregate given: the number of expenditures with no estimated cost; overlap and potential double counting of some expenditures where data is limited and there is a lower level of reliability; and interactions between expenditures.

A description of the categories and the reliability of the data are discussed further under "Notes about the Data" and "Categorizing Expenditures".

## TAX EXPENDITURES BY CATEGORY[3]



[1] As explained below, certain taxpayer data is subject to confidentiality rules, and must therefore be redacted.
[2] Property tax data has a lag of one year.
[3] Placement of a particular expenditure into a specific category is sometimes a matter of judgment, as discussed under "Categorizing Expenditures".

While new expenditures have been added to the tax code, the expenditure aggregate dollar drop in FY2025 is attributable primarily to the reclassification of expenditures. Within the category of Economic Development, TIDD – Tax Increment for Development District Dedicated GRT Distributions and Local Economic Development Act (LEDA) Special GRT distributions were reclassified as 'arguable.' In addition, three expenditures under Highly Specialized: Processing Natural Gas Deduction from Oil and Gas Emergency School Tax; Reasonable Expense of Trucking Product to Market Deduction from Oil and Gas Emergency School Tax; and Transportation of Natural Gas Deduction from Oil and Gas Emergency School Tax have been reclassified as not tax expenditures. Due to legislative changes in the 2025 legislative session that changed the taxable incidence to 'severed and sold' under the Oil and Gas Emergency School Tax, the three deductions are no longer unique from the other severance taxes and join other comparable deductions under not tax expenditures.

## STATE AND LOCAL TAX EXPENDITURE INCIDENCE

New Mexico's tax expenditures forego a mix of state and local revenue. The only expenditures that generally have a local government revenue impact result from Gross Receipts Tax (GRT) and Property Tax expenditures. With the exception of the low-income property tax Personal Income Tax (PIT) rebate that is reimbursed by certain counties, tax expenditures in PIT and Corporate Income Tax (CIT) affect only State revenue. For example, foregone state and local GRT from Sale of Software Development Services GRT Deduction is as follows.

| | | | | |
|---|---|---|---|---|
| **Sale of Software Development Services GRT Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **State General Fund Expenditure (thousands)** | $4,193 | $3,673 | $16,600 |
| | **Local Government Expenditure (thousands)** | $2,717 | $2,407 | $10,880 |

For fiscal year 2025, 84% of all estimated tax expenditures represented foregone state revenues, while 16% represented foregone local government revenue. Property tax expenditures are not included in this estimate. This is due to the lag in the data and also the inability to delineate cleanly the expenditure incidence by each government entity.

## NEW EXPENDITURES ENACTED – RECENT LEGISLATION

The 2025 Tax Expenditure Report includes 9 new expenditures and 1 "arguable", in which consensus is lacking, presented below. More detail on these expenditures may be found under each specific tax expenditure's reporting page.

| Expenditure Name | Statute | Legislative Session | 2025 Amount ($000s) (Local and State) |
|---|---|---|---|
| Child Care Providers GRT Deduction | 7-9-77.2 (A) & (B) NMSA 1978 | 2024 Regular | $13,008 |
| Clean Care Income Tax Credit against PIT and CIT | 7-2-18.36 and 7-2A-19.1 NMSA 1978 | 2024 Regular | $1,225 |
| Clean Car Charging Unit Income Tax Credit against PIT and CIT | 7-2-18.37 and 7-2A-19.2 NMSA 1978 | 2024 Regular | $0 |
| Environmental Modifications for Medicaid Recipients GRT Deduction | 7-9-73.4 NMSA 1978 | 2024 Regular | $2,100 |
| Geothermal Electricity Generation-Related Sales and Use GRT and Compensating Tax Deduction [4] | 7-9-112.1 NMSA 1978 | 2024 Regular | $164 |
| Home Fire Recovery Income Tax Credit against PIT | 7-2-18.35 NMSA 1978 | 2024 Regular | $0 |
| Legal Services for Wildfire Compensation Recovery GRT Credit | 7-9-121 NMSA 1978 | 2024 Regular | Redacted |
| Sale of Dyed Special Fuel for Agricultural Purposes GRT Credit | 7-9-58.1 NMSA 1978 | 2024 Regular | Redacted |
| School Supplies Purchased by a Public School Teacher Deduction from PIT | 7-2-41 NMSA 1978 | 2024 Regular | $232 |

| Arguable Name | Statute | Legislative Session | 2025 Amount ($000s) (Local and State) |
|---|---|---|---|
| Metropolitan Redevelopment Projects GRT Distribution | 7-1-6.71 NMSA 1978 | 2023 Regular | $0 |

[4] This deduction has several qualifying subsections that have less than 3 taxpayers reporting.

# DETERMINING TAX EXPENDITURES

The federal government defines tax expenditures as "those revenue losses attributable to provisions of the federal tax laws which allow a special exclusion, exemption, or deduction from gross income or which provide a special credit, a preferential rate of tax, or a deferral of tax liability…."[5] Applying this concept to New Mexico, this report defines tax expenditures as "deviations from a baseline tax system created by specific tax law provisions." Tax expenditures may reflect an overarching statewide policy, such as promoting the general welfare of all citizens, or may reflect a specific purpose, such as incentivizing certain consumption, economic development, or job creation. The term "tax expenditure" reflects the perspective that foregoing revenue that would normally accrue may be thought of as spending through the tax code.

With that definition in mind, not every credit, exemption, deduction, or rate differential constitutes a tax expenditure. Certain credits, exemptions, and deductions are not considered tax expenditures because they are included in the tax code due to constitutional prohibition, federal pre-emption, comity between governments, avoiding double-taxation, or defining a tax base. Therefore, they do not represent policy choices by the state Legislature but simply mandates of law or defining what is the baseline of the tax system.

The questions are: do different tax structures constitute "tax expenditures"? If so, what is the baseline from which they are deviating?

If a tax structure taxes different activities or products differently without establishing a base tax rate, these rate differentials are not treated as tax expenditures. In other words, if different tax rates apply to different classes of taxable activities, products or services, then the rate differentials are defining the tax base. If, however, a tax structure has a base tax rate and there are instances in which the same or very similar activities, products or services are taxed at a different rate, these tax rate differences are treated as tax expenditures.

Reasonable minds with a shared understanding of these definitions may disagree on specific tax expenditure determinations. This report appeals to generally accepted standards for most deviations and includes a discussion of the rationale for each determination, so readers may form their own judgement. Similarly, the report conforms to generally accepted standards for examples of deviations that are not tax expenditures in that section.

Finally, the report includes a list of provisions on which consensus is lacking – categorized as "Arguable" tax expenditures. This section ensures transparency and consistency in reporting. The report includes the statutory basis, intended purpose, evaluation, any recommendations, and the actual or estimated fiscal impact for each tax expenditure.

The report also includes a reliability factor and a brief history of each statute to describe how the statute has evolved. The description of each expenditure shows in which of the five categories of purposes (citizen benefit, economic development, etc.) the expenditure belongs. Many statutes have been amended several times, so the year of amendment and substance of the change is noted.

[5] 2 USC § 622

In total, there are 149 tax expenditures, 122 provisions that are not tax expenditures, and 27 "arguable" activities in which consensus is lacking.

## EXEMPTIONS AND DEDUCTIONS

In terms of the practical effect on tax liability, there is little difference between an exemption and a deduction. Both are applied to reduce a taxpayer's taxable income or receipts, thereby reducing tax liability. However, there are administrative differences between the two. An exemption frees a taxpayer from a duty, liability, or requirement to report income, receipts, or other activity. Exemptions come in several forms:

- broad exemptions for certain types of taxpayers from a tax program;
- exemptions for certain types of transactions; and
- exemptions for certain amounts of income, revenue, or gross receipts.

In most instances, exemptions free taxpayers of a reporting obligation with respect to the exempt entity, transactions, or amounts. Unless specifically required by statute or instruction, exemptions are not reported. Therefore, assessing the impact and effectiveness of an exemption is more difficult than for most deductions. However, if an exemption exists to avoid double-taxation under another tax, then indirect reporting still occurs under the other tax.

Like exemptions, deductions can apply to certain types of entities, to transactions, or to amounts of income, revenue, or gross receipts. Unlike exemptions, deductions do not typically free taxpayers of reporting obligations. Rather, taxpayers entitled to deductions typically must file returns under the particular tax program to which the deduction pertains, identify the amount of the income or receipts before the deduction, and then reduce this amount by the amount of the deduction. In addition, many deductions under the GRT program require the taxpayer to obtain non-taxable transaction certificates or alternative evidence to establish entitlement to the deduction.

As noted in the "Determining Tax Expenditures" section above, many deductions and exemptions in New Mexico statutes are not tax expenditures.

Tax exemptions and deductions cannot reduce a taxpayer's tax liability below zero because the they cannot exceed the amount of the income or gross receipts from the taxable activity.

## CREDITS

A tax credit allows taxpayers that meet the qualifications for obtaining a credit to subtract the amount of the credit from the total tax liability they owe the State; in this respect, credits differ from deductions and exemptions, which reduce taxable income or receipts rather than tax liability. Tax credits are a "one-for-one" reduction in tax liability. Tax credits can be granted in recognition of taxes already paid or to encourage social and economic behaviors like investment or parenting. Most tax credits are reported on returns and are typically separately reported.

Unlike exemptions and deductions, tax credits may be used to reduce a taxpayer's tax liability below zero, resulting in a tax refund. These credits are referred to as "refundable" tax credits. Conversely, non-refundable tax credits may be carried forward to reduce tax liability in subsequent reporting periods. Some credits may be sold to other taxpayers; these are referred to as "transferable" tax credits.

## NOTES ABOUT THE DATA

This report qualifies estimated expenditure amounts with Reliability Factors to help the reader understand the methodology for determining the fiscal impact of the tax expenditure. The fiscal impact of an expenditure needs to be considered in the context of that expenditure's reliability factor. The Reliability Factor is a scale of 1-4 as follows:

1: The most reliable information comes directly from taxpayer-reported data, as contained in GenTax, Tax & Rev's tax system of record. It requires no additional estimation or manipulation with one exception; instances where the GRT actual average rate is used to estimate the forgone tax instead of using the known rates in the different jurisdictions in the state.

2: Estimated from taxpayer-reported data as summarized in GenTax reports (e.g. RP-80, RP-500). For example, if a GRT tax expenditure is industry-specific, an estimate can be prepared using data on the industry based on North American Industry Classification System ("NAICS") codes.

3: Estimated using national data and extrapolating to New Mexico.

4: The least reliable data. Estimates represent Tax & Rev's best estimate about the fiscal impact of a tax expenditure. Due to limited data for analysis, these estimates are frequently rounded.

In addition, a limited number of expenditures have unknown reliability, because there is no data available to make even an estimate of the amount. The table below shows the number of expenditures for each Reliability Factor.

| Reliability Factor | Description | Number of Expenditures |
|---|---|---|
| 1 | Most reliable. No estimation | 67 |
| 2 | Estimated from GenTax data | 32 |
| 3 | Estimated from national data | 23 |
| 4 | Least reliable. Estimated from limited data | 10 |
| Unknown | No data available | 17 |

Taxpayers may amend tax returns for up to three years, plus the current year. Amended returns often impact expenditure amounts. Therefore, when comparing this year's Report to prior versions, the reader should expect to see some revisions to prior years. For example, the amount of a particular expenditure may be different in this Report than it was in a previous report. Amended returns comprise a significant, but not the sole, reason for these variations. Other sources of the variation include late filings by taxpayers or improvements to Tax & Rev estimating methodologies.

New Mexico, like many states, defines a year differently for different tax programs. For instance, the GRT tax year corresponds to the State's fiscal year (July 1-June 30), while income taxes use a tax/calendar year (January 1-December 31). In addition, many corporations delay their filings using the no-restriction extension from March to September of any given year. This presents a challenge for organizing and reporting the data. We present the income tax programs by both tax year and by fiscal year. The fiscal year in this case is representative of the fiscal impact regardless of the tax year; so the data show what was the aggregate fiscal impact from all filers and any tax year.

This report reflects current law at the time of publication. A statute may be repealed, but due to carry-forwards or amended returns, expenditures may continue into future years. Repealed statutes that are listed as not a tax expenditure or arguable will be noted as repealed if that action occurred since the last publication of this report. Otherwise, if repealed prior to the publication of last year's tax expenditure report, they will no longer be listed.

Finally, Tax & Rev is limited by federal and state law from disclosing data that might reveal a taxpayer's identity, except where noted in statute, notably 7-1-8.3 NMSA 1978, *Information that may be revealed to public*. Therefore, when there are fewer than three taxpayers reporting a deduction, exemption, or credit against a particular tax, Tax & Rev must typically aggregate the data for all of the tax programs affected by those deductions, exemptions, and credits to preserve confidentiality. When aggregating the data is not sufficient to preserve confidentiality, the data is redacted. The reader will find several blank entries in tables where the data are redacted.

## CATEGORIZING EXPENDITURES

This report divides tax expenditures into the following five major categories according to their purpose: citizen benefits; economic development; environment, conservation, and renewable energy; health care; and specialized industry incentives.

As with the determination of whether a particular deduction, credit, or exemption constitutes a tax expenditure, there can be legitimate differences of opinion as to whether a particular expenditure belongs in one category or another. Certain expenditures may cross multiple categories. For example, an expenditure listed in the highly specialized industry category might also serve economic development purposes. However, to avoid double-counting, each expenditure is included in only one category.

The outline below sets forth types of expenditures included in each category. The full list of expenditures by category can be found in Appendix A.

1. **Citizen Benefits**
   a. Expenditures that are available to, or that benefit, all individual taxpayers who engage in certain activities, such as the expenditures related to food, medical services, and education.
   b. Expenditures designed to alleviate burdens for a specific subset of the population, such as veterans, active military, low-income individuals and families, or the elderly.
   c. Expenditures that lessen the demand for government services, such as certain nonprofit expenditures.

2. **Economic Development**
   a. Expenditures designed to stimulate investment in New Mexico, such as the angel investment PIT credit.
   b. Job creation expenditures, such as the high-wage and rural job tax credits.
   c. Expenditures designed to retain and attract industries, such as the film production tax credit.

3. **Environment, Conservation, and Renewable energy**
   a. Expenditures designed for environmental health, to promote conservation, and to promote renewable energy technologies and usage, such as the advanced energy credit (renewables and carbon sequestration), biofuels incentives, renewable energy production tax credit, and PIT/CIT credit for land conservation contributions.

4. **Health Care**
   a. Expenditures designed to increase accessibility to and lower the costs of health care. Examples include the health care practitioners GRT deduction, hospital construction deduction, and rural health care practitioners PIT credit.

5. **Highly Specialized Industries**
   a. Expenditures available to specific or highly specialized industries, such as agriculture, uranium, and aerospace.

# PRINCIPLES OF GOOD TAX POLICY

Much discussion occurs about what makes good tax policy, and there are several principles around which consensus exists. These principles often support competing public policies, and balance should be kept between these principles.

An example of how some principles can take priority over others is shown in the application of New Mexico's Gross Receipts and Compensating Tax Act. These taxes have increasingly lost simplicity as efforts have been made to achieve equity, efficiency, and accountability.

We use this illustration not to disparage any particular section of the tax code, but to remind policy makers that reliance on these principles requires consideration of how application of one principle impacts other principles.

## ADEQUACY

Tax revenues should be sufficient to support needed government services. Legislative and Executive determination of necessary spending defines what level of revenues is necessary. Conversations around adequacy implicate the revenue streams and demands upon State and local governments.

## EQUITY

Tax equity or fairness considers how tax burdens are distributed amongst taxpayers. There are two different types of equity: 1) "vertical" equity, which requires that tax burdens should be distributed according to taxpayers' ability to pay, so that taxpayers with greater ability to pay bear a larger burden than those with a lesser ability to pay, and 2) "horizontal" equity, which tries to ensure that similarly-situated taxpayers face similar tax burdens. Without vertical equity, tax burdens may become too regressive, falling on those with the least ability to pay, and leaving them without the ability to afford basic necessities. Without horizontal equity, the government arguably gives one taxpayer a competitive advantage over another. There may be legitimate policy reasons for doing so, but violating this principle should be done with full understanding of the potential impacts.

## EFFICIENCY

Efficiency denotes whether policies benefit economic growth. Tax policy experts agree that all taxes potentially affect or distort economic behavior by making certain economic choices more or less attractive, and that these effects on the economy are complicated. As a rule, tax efficiency requires that taxes be levied in a way that seeks to minimize market distortions that occur as taxpayers substitute untaxed goods, or lower-taxed goods, for more highly taxed goods to reduce tax burdens and costs.

Evaluation of efficiency in the application of economic theory is complicated when an activity generates externalized costs, which are costs not borne by the participants in the economic activity. A common example of externalized cost is environmental degradation, where the cost of environmental damage of producing a good is not reflected in the price, and is therefore not paid by either the purchaser or the seller of the good. Externalities may not be fully considered by individual actors in their marketplace decisions. In this case, taxes may be imposed as proxies for costs that

would otherwise not be taken into account; taxes can arguably improve the functioning of the economy by replacing the externalized, and so avoided, cost. For example, this reasoning supports tax expenditures incentivizing renewable energy because they may reduce pollution. We note that the concept of "efficiency" may seem to imply that there is an ideal, frictionless economic model, which is likely not the case. Therefore, tax policy can seek to reduce, but not eliminate, economic distortion.

## SIMPLICITY

Taxpayers incur compliance burdens as they prepare, submit, and keep records for tax returns. They also face penalties, interest, and representation costs for failure to correctly file and pay. Likewise, Tax & Rev incurs administrative costs to collect taxes, review the accuracy of tax returns and payments, and bring taxpayers into compliance. Incorrect tax filings can cause difficult changes to distributions to the State, local governments and tribal entities. The magnitude of these costs to taxpayers and government is affected by how taxes are defined and collected; the more complicated the code, the higher the cost everyone must bear to ensure compliance.

While they may increase accountability, tax expenditures that require separate reporting move away from the tax principle of simplicity for both taxpayers and State. Although generally hidden from view, the costs of collection and compliance impose significant burdens on society and should be kept to a minimum level. However, as this Report itself shows, some reporting is required for policymakers to evaluate tax incentives and make sound economic choices.

## ACCOUNTABILITY

Tax expenditures should be easy to monitor and evaluate. Moreover, taxes should be transparent so that taxpayers can better evaluate government policy. Improved accountability is an important goal of this tax expenditure report.

Tax expenditures can be used to steer the economy toward a specific objective. For instance, fiscal incentives to certain industries like manufacturing or professional services can increase the share of these industries in the economy. A higher participation of specific industries might be desirable due to their impact on employment, economic growth, or the environment. In this way, tax expenditures can incentivize economic diversification.

Economic diversification means expanding an area's economic base beyond a narrow range of traditional sectors, often shifting from reliance on primary products (e.g., agriculture, mining) to a broader range of manufacturing, services, and technologically advanced industries. Economic literature consistently highlights a strong positive correlation between economic diversification and improved macroeconomic performance.[6]

A diversified economy is less vulnerable to external shocks, such as commodity price volatility, changes in global demand for a specific product, or industry-specific downturns.[7] When one sector faces challenges, others can buffer the impact, ensuring more stable growth and resilience. Diversification often involves the emergence of new industries that create jobs and boost income levels. Developing technologically advanced sectors can lead to higher wages and improved job opportunities, potentially reducing poverty and inequality.[8]

Over time, as an economy becomes more complex, tax capacity grows. Economic diversification broadens the government's tax base by making it more balanced and less reliant on a particular sector. Tax diversification creates a more stable and robust revenue stream, which in turn can support government spending, tax cuts, and economic growth. This stability allows governments to plan and fund public investments (e.g., infrastructure, education) more effectively, which are crucial for long-term economic growth.

The Theil index[9] measures the tax diversification in a particular tax revenue.[10] A Thiel index of 0 represents perfect diversification, while in this application an index of 3 represents total reliance on one industry only. Figure 1 shows the evolution of the Theil index for New Mexico's gross receipt tax from March 2008 to March 2025.

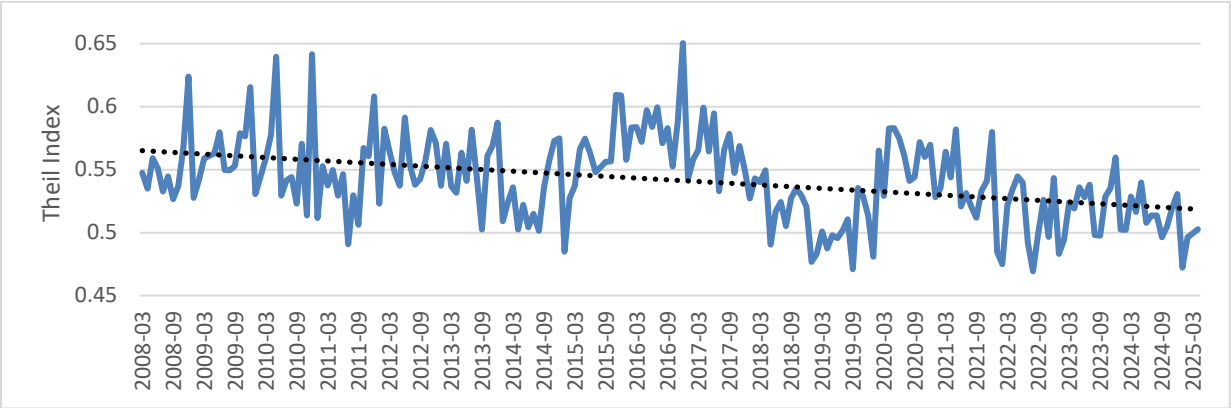
[9] Theil, Henri. 1967. *Economics and Information Theory*. North Holland

[10] The Theil index is used to calculate the dispersion of the gross receipts tax (GRT) by industry by a range of 2-digit codes in New Mexico. The Theil index (T) is written as:

$$T = \frac{1}{n}\sum_{i=1}^{n} \frac{GRT_i}{\mu} \times \ln\left(\frac{GRT_i}{\mu}\right);$$

where $n$ is the number of industries (21); $i$ represents a specific GRT industry subcomponent (manufacturing, construction, etc.); and μ stands for the average of the GRT industry subcomponent $i$. T is a measure of concentration, with a higher value of the index referring to a more concentrated GRT structure and a lower value referring to a more diverse GRT structure. By construction, the resulting Theil index will vary between 0 (perfect diversification) and ln(21) (reliance on one industry only), which is 3.

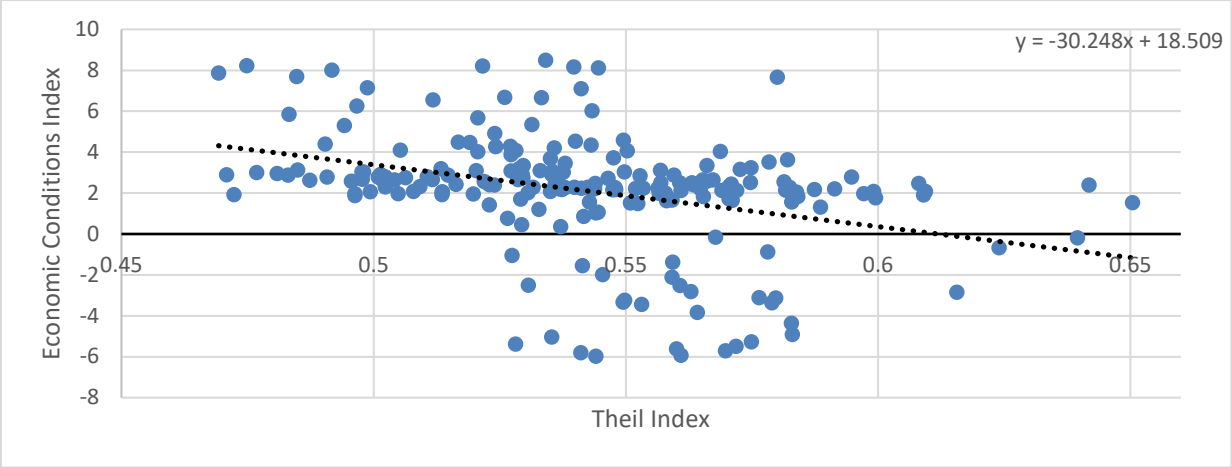
**Figure 1. Theil index for Gross Receipts Tax in New Mexico**



Source: Tax & Rev's calculations

The index displays a substantial variability over the sample with significant ups and downs. However, the value of the index has hovered around relatively low levels, suggesting New Mexico's GRT tax base is relatively diversified. The index also shows a gradual improvement over time, with some of the volatility reflecting changes to oil and natural gas markets. This long-term declining trajectory suggests that GRT has become more diversified. The macroeconomic effects associated with this tax diversification are presented in Figures 2 and 3.

**Figure 2. Theil Index vis-a-vis Economic Conditions Index for New Mexico**



Source: Tax & Rev's calculations

In Figure 2, the Theil index for GRT is plotted against an index of State economic conditions that covers multiple dimensions of the state economy.[11, 12] Figure 2 suggests that a diversified tax

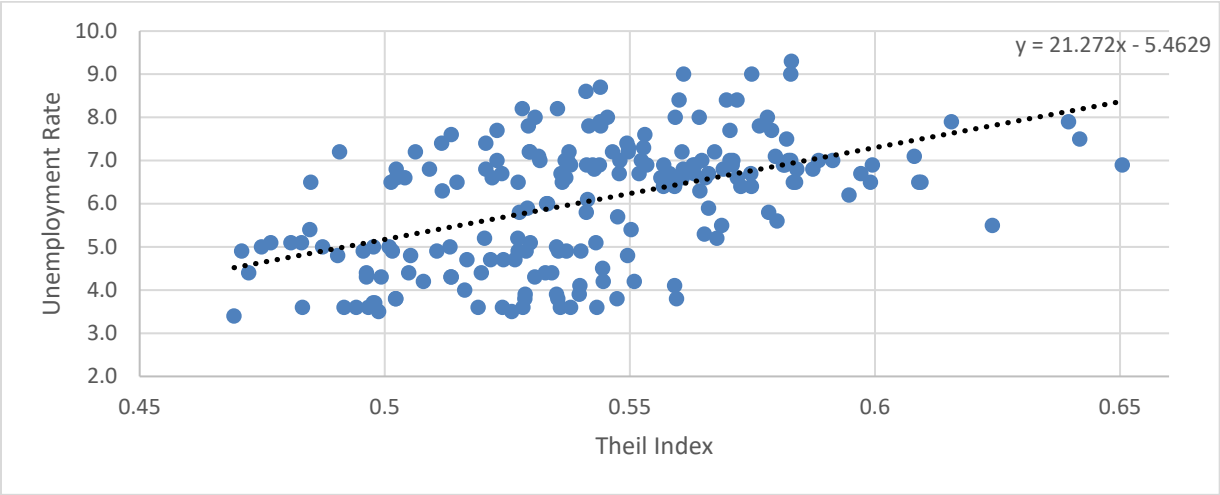
[11] Baumeister, Christiane, Danilo Leiva-León, and Eric Sims. 2024. "Tracking weekly state-level economic conditions." The Review of Economics and Statistics, 106, 483–504.

[12] The index of economic conditions includes state level variables grouped by the following categories: mobility measures; labor market indicators; economic activity; economic expectation measures; financial indicators; and household spending. Included in the variables are state-specific characteristics to tailor the measure for each U.S. state. For New Mexico this includes oil rig counts and oil production variables.

structure (a lower Thiel index) correlates with stronger economic conditions (a higher economic conditions index).

Looking at New Mexico's unemployment rate alone, Figure 3 underscores that a more diverse GRT correlates to a lower unemployment rate.[13] This correlation validates the premise that a diversified tax base improves labor market conditions, where periods of high unemployment are associated with a higher Theil Index.

**Figure 3. Theil Index vis-a-vis Unemployment Rate in New Mexico**



Source: Tax & Rev's calculations

New Mexico has enacted some tax reforms to foster a more diversified economy and adopted policies that prevent the natural resource curse and promote sustainable economic growth. Those reforms have aimed at developing new industries focused on leveraging New Mexico's static comparative advantages to create future dynamic comparative advantages.[14]

For example, the State has leveraged its strategic position as a producer of alternative energy sources while enhancing this strategy with technologically advanced industries to lead the energy transition in the US. Additionally, measures have been taken to transfer windfall oil and gas revenues into investments for future needs. While this analysis does not directly tie the impact of tax expenditures to the trend in GRT tax base diversification, the Theil Index provides a future measure to evaluate the progression of economic and tax revenue diversification with current and future changes to the tax code.

[13] https://fred.stlouisfed.org/series/NMUR

[14] Static comparative advantage is a region's ability to produce a good at a lower opportunity cost based on its current factor endowment, such as resources and technology. Dynamic comparative advantage is the ability of a region to shift its production pattern over time by developing new skills and industries, rather than being limited by its current endowments.

# FEDERAL CONFORMITY AND STATE EXPENDITURES

The scope of this report is limited to state laws that impact the definition, administration, and collection of state tax revenue. New Mexico, like many other states, begins with federal definitions of income, which is referred to as "federal conformity". These definitions of income flow through to New Mexico Personal Income Tax and Corporate Income and Franchise Tax. Built into the federal definitions of income are federal level tax expenditures that then carry into the New Mexico tax code. For example, the federal reductions to individual gross income include: a deduction for IRA contributions and a deduction for student loan interest. Unless a state income tax law requires these deductions to be added back in to gross income, they are a federal expenditure within the state tax code.

The Federal Government prepares annual expenditures reports which include forecasted revenue impacts. These reports may be found here: https://home.treasury.gov/policy-issues/tax-policy/tax-expenditures.

It is often necessary to evaluate state laws in the larger context of federal conformity to determine when the federal code is defining the tax base. For example, the Federal Tax Cuts and Jobs Act in 2017 eliminated the personal exemption for the federal income tax while raising the standard deduction. That change altered the New Mexico income tax base, bringing in more revenue from taxpayers with more dependents, because the increase in the standard deduction was more than offset by the loss of the exemption that used to be allowed for each child. New Mexico and other conforming states were compelled either to accept this new tax base determined by federal law, or to create laws to continue to define the tax base as it was prior to passage of the Tax Cuts and Jobs Act. New Mexico chose to do the latter by creating a dependent deduction. This deduction is therefore not classified as a tax expenditure as it maintained an understood tax base.

Federal conformity eases many state administrative aspects of the income tax programs, and for taxpayers provides more seamless completion of federal and state income tax returns, leading to improved compliance. While New Mexico may choose to decouple from the federal tax base by bringing some federal expenditures back into the tax base, that may come at a cost of increased complexity in compliance and administration for taxpayers and state administration.

## PERSONAL INCOME TAX

New Mexico's Personal Income Tax (referred to herein as "Personal Income Tax" or "PIT" [15]) contributed about 16% of the State's recurring General Fund revenues in FY2025. Like several other states, New Mexico computes its income tax based on the federal definition of taxable income. This means that New Mexico uses federal adjusted gross income (AGI) as the starting point when determining personal income taxes. New Mexico also ties its standard deduction to the federal tax code. Because these adjustments and deductions are common practice among the states that conform to the federal tax code, and because they are applied broadly to all taxpayers who qualify, they are considered as simply defining the tax base and are not treated as tax expenditures in this report.

New Mexico is one of 27 states with a progressive PIT rate structure. Under the principle of vertical equity, a progressive tax is based on the policy that taxes should, at least in part, reflect ability to pay, and progressive tax systems therefore impose a lower percentage tax rate on lower income taxpayers than on those with a higher income. In contrast, 14 other states have a "flat rate" tax structure, wherein the same percentage tax rate is imposed regardless of income. From tax year 2021 to tax year 2024[16], New Mexico had a five-tier progressive PIT rate structure, as shown in the first of the following two tables[17]. During the 2024 legislative session, legislation was enacted to revise the PIT rate structure. The revision included an additional bracket per filing status and changes to the taxable income levels per bracket. The current tax brackets are effective beginning tax year 2025.

| 2021-2024 New Mexico Tax Rates | | | | |
|---|---|---|---|---|
| **Income Bracket** | **Married Filing Separately** | **Head of Household, Surviving Spouses, and Married Filing Jointly** | **Individuals, Estates, and Trusts** | **Rate** |

[15] For reference, a list of commonly used acronyms is provided in Appendix B.
[16] Beginning in tax year 2021, a tax bracket has been added at the top with a tax rate of 5.9%.
[17] Statutory reference, 7-2-7 NMSA 1978

When looking at income tax rates under a progressive tax structure, a distinction is made between the marginal tax rate and the average or effective tax rate faced by individuals. Marginal tax rate is the rate of tax charged on a taxpayer's last dollar of income, while the effective tax rate is the average tax rate paid by the taxpayer on their total gross income.

The following table shows how the marginal and effective rates, for a single individual with an AGI of $65,000, differ under the New Mexico PIT rate structure. For this individual, the top marginal tax rate is 4.7%, and the total tax paid is $2,646. The top marginal rate of 4.7% does not mean that the individual paid 4.7% of his AGI in New Mexico income taxes. Due to the progressive nature of the tax structure, the individual paid 1.5% tax on their first $5,500 of income, 3.2% tax on the next $11,000 (= $16,500 - $5,500) of their income, 4.3% tax on the next $17,000 (= $33,500 - $16,500) of their income and 4.7% tax on the next $31,500 (= $65,000-$33,500). The top marginal rate paid by the individual in this scenario only applies to any income earned over $33,500, which in this case is $31,500. As a result, the total tax liability for this individual is 4.1% of their AGI, lower than the top marginal rate of 4.7%. This 4.1% rate is referred to as the individual's effective or average tax rate.

| Income Bracket | Marginal Tax Rate | AGI in this bracket | NM Tax Due |
|---|---|---|---|
| 1 | 1.50% | $ 5,500 | $ 83 |
| 2 | 3.20% | $ 11,000 | $ 352 |
| 3 | 4.30% | $ 17,000 | $ 731 |
| 4 | 4.70% | $ 31,500 | $ 1,481 |
| **Total AGI** | | **$ 65,000** | **$ 2,646** |
| **Effective Tax Rate** | | **= Total NM Tax Due/Total AGI (= $2,646/$65,000) = 4.1%** | |

In New Mexico, the overall effective tax rate among all taxpayers during Tax Year 2024 was 2.0%. This varied between residents, at 2.8%, and non-residents, at 0.5%. Non-residents typically have a lower effective tax rate because only a small portion of the non-resident taxpayer's AGI is apportioned to New Mexico and subject to the state's PIT.[18] The effective tax rate is computed by dividing the total New Mexico income tax liability of all New Mexico taxpayers for tax year 2023 by the total AGI of all taxpayers. The table below breaks down the effective tax rate by New Mexico taxable income for all taxpayers in New Mexico. Residents include first year residents and non-residents include part-time residents.

[18] "Apportionment" in the context of PIT is the term for determining which state has the authority to tax part of a taxpayer's income. These rules are also often referred to as "sourcing" rules. The rules of apportionment are designed to approximate which state is the source of the taxable income.

| Taxable Income Level | Effective Tax Rate Tax Year 2024 | | |
|---|---|---|---|
| | Residents | Non-Residents | All Taxpayers |
| No Taxable Income | 0.0% | 0.0% | 0.0% |
| Under $25,000 | 0.9% | 0.4% | 0.9% |
| $25,000-$50,000 | 2.4% | 0.9% | 2.3% |
| $50,000-$75,000 | 2.9% | 1.1% | 2.6% |
| $75,000-$100,000 | 3.3% | 1.2% | 2.9% |
| $100,000-$200,000 | 3.6% | 1.0% | 3.1% |
| Over $200,001 | 4.2% | 0.3% | 1.7% |
| **Total** | **2.8%** | **0.5%** | **2.0%** |
| **Number of Returns** | **1,017,853** | **128,907** | **1,146,760** |

Although New Mexico's personal income tax rates are generally in line with those imposed by other states, the structure of the tax brackets – i.e., the threshold at which each rate takes effect -- varies significantly across states. Given the lack of a standard tax bracket structure, this report does not treat the lower rates imposed on low-income brackets as a tax expenditure. In addition to a lower tax rate for low-income taxpayers, New Mexico offers income tax rebates and credits to low-income taxpayers, such as the Low-Income Comprehensive Tax Rebate and Working Families Tax Credit. These provisions also add to progressivity in New Mexico's income tax structure and are reported as tax expenditures in this report.[19]

New Mexico law also provides several other special tax preferences to its taxpayers that are reported on various forms as supplements to the annual PIT return. A number of these are reported on as tax expenditures in this report.

## ENTITY-LEVEL TAX

The entity-level tax is an income tax that is paid in lieu of PIT or CIT by pass-through entities such as partnerships and limited liability companies. Until recent changes to the law, pass-through entities did not pay tax directly; instead, their income was "passed through" to their owners, who each paid PIT or CIT on their portion of the income, as appropriate. That law was changed in response to changes in federal law made by the Tax Cuts and Jobs Act of 2017, and most pass-through entities may now elect to pay income tax on behalf of their owners. Pass-through entities are defined as personal services businesses or certain other business associations, but not including sole proprietorships, estates or corporations. A pass-through entity must make an annual election to pay the entity level tax. The rate of the entity-level tax is equal to the higher of the maximum tax rate imposed by PIT or CIT. Currently the highest tax rates in PIT and CIT are both equal at 5.9%, which

[19] The effective tax rates in the table do not reflect refundable expenditures, money paid out to taxpayers when the refundable credits or rebates exceed their liability. For those taxpayers, their tax rate is a negative rate, as they do not owe taxes but receive revenue due to the progressive tax policy and structure.

is then the rate for the entity-level tax. The entity-level tax was enacted in 2022. The income generated by entity-level payments is assigned to CIT for categorization purposes.

## CORPORATE INCOME TAX

The corporate income tax ("CIT") provided about 6 percent of recurring State General Fund revenue in FY2025. New Mexico's CIT also conforms to the federal corporate income tax with the same corresponding administrative benefits for taxpayers and the State in its administration.

Section 7-2A-2(C) NMSA 1978 defines "base income" as that part of the taxpayer's federal taxable income, excluding the amount of the net operating loss carryover deduction and including interest received on state or local bonds claimed on the federal tax return. "Net income" is defined as the base income of a corporation filing a tax return as a separate entity, or it is the combined base income and losses of corporations that are part of a filing group when filing a consolidated filing return under the Internal Revenue Code and the Corporate Income and Franchise Tax Act[20]. The other method of determining a taxpayer's net income is by using the "unitary reporting" method and includes members of a unitary group as defined by the Corporate Income and Franchise Tax Act. Corporations pay CIT on the amount of their overall income that is apportioned to New Mexico, as discussed below.

Thus, "net income" is defined as the tax base for CIT purposes in New Mexico, and, by application of the income-graduated percentage tax rate, "baseline tax revenue" is defined.

The following table shows the CIT rates from 1987 to present[21]:

| Taxable Income | 1987-2013 | 2014 | 2015 | 2016 | 2017 | 2018-2024 | 2025 - Beyond |
|---|---|---|---|---|---|---|---|
| Up to $500,000 | 4.8% | 4.8% | 4.8% | 4.8% | 4.8% | 4.8% | 5.9% |
| $500,000.01 to $1,000,000 | 6.4% | 6.4% | 6.4% | 6.4% | 6.2% | 5.9% | |
| Over $1,000,000 | 7.6% | 7.3% | 6.9% | 6.6% | | | |

During the 2024 legislative session, legislation was enacted to revise the CIT rate structure to a flat rate of 5.9%. The revised tax bracket is effective beginning tax year 2025.

Two general concepts define how corporations file CIT in New Mexico, income apportionment and the method used to file the taxpayer's return. For income apportionment, New Mexico has adopted the Uniform Division of Income for Tax Purposes Act (UDITPA.)[22] When a corporation operates in more than one state, UDITPA defines how to apportion its income among those states. For most corporations, a three-factor formula is applied, which takes an average percentage of the ratios between the property, payroll, and sales factors of the business activity in New Mexico and the corporation's total business activity everywhere. In 2013, legislation added the single-sales factor apportionment election for manufacturers, followed in 2015 by the single-sales factor apportionment election for companies with their headquarters in New Mexico. Under single-sales factor apportionment, only sales are considered in apportionment; the property and payroll factors are not considered.

[20] Effective January 1, 2020 – Section 7-2A-2(M) NMSA 1978.
[21] Statutory reference, 7-2A-5 NMSA 1978
[22] Statutory reference, 7-4-1 NMSA 1978

The type of filing method used looks at the corporate structure and what type of return is required to be filed. 2013 legislation provided the following options for a taxpayer to file its return: separate corporate entity; combination of domestic unitary corporations, water's edge group, or federal consolidated group. If filing as a separate corporate entity, the corporation, regardless of how it filed at the federal level, files its New Mexico return as a stand-alone entity. Effective January 1, 2020, legislation required corporations to file a consolidated or unitary return.

If filing as a combination of domestic unitary corporations, two or more corporations, regardless of how it filed at the federal level, report the combined income of all members of the unitary business. A corporation may file a domestic unitary return. To be included in the unitary group, the corporations must be related through common ownership, and be economically interdependent. Corporations filing a consolidated report must have filed a federal consolidated return. In addition, the legislation required mandatory combined reporting for certain retailers. Corporations that file as a unitary group must use combined reporting unless they properly elect to report and pay tax as a water's-edge or consolidated group. A water's-edge group consists of all corporations that are part of a unitary group[23] and have more than 20 percent of their property, payroll and sales sourced to locations within the United States. A consolidated group is a group of entities properly filing a federal consolidated return under the Internal Revenue Code for the taxable year.

## GROSS RECEIPTS TAX

The Gross Receipts Tax (GRT) provided about 31 percent of recurring State General Fund revenue and about 50 percent of local government revenues in FY2025. The State GRT rate, plus various local and tribal option taxes, are imposed on sellers' gross receipts received from engaging in business in the state. As of July 1st, 2022, the statewide GRT rate was lowered from 5.125% to 5%. Another reduction of the state rate from 5% to 4.875% took effect on July 1, 2023.

The incidence of the GRT is on the seller, rather than on the purchaser as is the case in a sales tax. "Gross receipts" is the total amount of money or other consideration generated "from selling property in New Mexico, from leasing or licensing property employed in New Mexico, from granting a right to use a franchise employed in New Mexico, from selling services performed outside of New Mexico, the product of which is initially used in New Mexico, or from performing services in New Mexico"[24]. As of July 1, 2019, a person or company is "engaging in business" in New Mexico if it meets certain physical presence requirements or had at least $100,000 in taxable gross receipts sourced to New Mexico in the prior calendar year.

The GRT is ideally a broad-based tax imposed on businesses for the sale of tangible property and services; New Mexico is one of three states that taxes all services (the others being Hawai'i and South Dakota). The GRT base is reduced by many exemptions and deductions. These provisions are intended to achieve a variety of public policy purposes, as discussed further in this report. Some are necessary to prevent multiple taxation of transactions, either within the GRT or between the GRT and other tax programs, to prevent the associated economic distortion that could result. Examples of multiple taxation within the GRT, usually called "pyramiding", are the gross receipts taxation of certain business inputs, which are subject to tax when purchased as an input, and then again when

[23] As defined under Section 7-2A-2 AA NMSA 1978, a unitary group is a group of two or more corporations, with certain exceptions, that are related through common ownership and economically interdependent with one another based on the factors of centralized management, functional integration, and economics of scale.
[24] Section 7-9-3.5(A)(1) NMSA 1978.

the final product in which the inputs are included is sold. A special deduction for receipts from goods or services sold for resale is designed to also avoid double taxation. Additionally, the Legislature enacted legislation eliminating almost of the potential pyramiding for sales of tangible personal property or professional services to manufacturers. Multiple taxation between tax programs is prevented through various exemptions and deductions including personal income taxation of wages, dividends, and interest, and transactions taxed under separate excise taxes are exempted from the gross receipts tax. As noted below under excise taxes, certain excise taxes such as liquor and cigarette tax are paid in addition to gross receipts tax.

Several deductions and exemptions are not treated as tax expenditures in this report, but instead are considered to be defining the tax base. Examples of defining the tax base include "anti-pyramiding" provisions like the deduction for the sale of property for resale. In that case, the tax base is being defined as receipts from retail, or final, sales, rather than wholesale sales.[25] The GRT has been characterized as imposing a heavier-than-normal tax on business inputs.[26] Deductions, like the deduction for the sale of goods for re-sale, reduce multiple levels of taxation and ensure that the tax policy principles of horizontal equity and efficiency are met.

GRT tax expenditures in this report are calculated using a weighted average gross receipts tax rate. The average GRT rates, shown in the following table, were calculated using the gross tax amount divided by the amount of matched taxable gross receipts. Data is drawn from the Taxation and Revenue Department's RP-500 report. Expenditures that have a local government impact are estimated based on the fiscal year average of the split between local government and state revenues. Actual rates vary widely among local governments.

**Average Statewide GRT Rate by State Rate and Local Option**

| Average Statewide GRT Rate | |
|---|---|
| FY19 | 7.12% |
| FY20 | 7.01% |
| FY21 | 7.10% |
| FY22 | 7.23% |
| FY23 | 7.05% |
| FY24 | 6.94% |
| FY25 | 6.94% |

The RP-500 report is published monthly to the Department's website, detailing distributions made to each municipality, county, tribal entity, and certain other political subdivisions for the month in which the business activity took place. The RP-500 report breaks distributions into either the current activity month or all other months; changes to prior months can result from late tax reporting or amended tax returns. As an example, if a taxpayer amends returns for six months in the reporting month of September, the amended returns will affect distributions made in October and would be reported under "Other Months" in the RP-500 report. The RP-500 is not updated with the effects of

[25] The sale for resale deduction reduces pyramiding. Further, by making the GRT operate in some ways as a retail sales tax, deductions such as this mean that New Mexico's GRT is really a hybrid of a gross receipts tax and a retail sales tax, and not a pure gross receipts tax.
[26] For example, see Council on State Taxation, "*The Best and Worst of State Sales Tax Systems.*"

taxpayer amendments on older returns. Instead, they are aggregated into the "Other Months" category.

The RP-500 also contains summarized information from returns by major industry group[27]. Although a valuable resource on industry contributions to the tax base, users of this information should be aware that it provides only an approximate measure of the types of economic activity in the tax base. For example, a taxpayer may report that they are primarily a retail enterprise, but they may carry on a variety of commercial activities such as real estate management, wholesale trade, transportation and warehousing, etc. Receipts from their various activities sourced to the same business location will generally be combined and reported under their primary industry code. Furthermore, taxpayers self-report their industry group, and are not penalized for inaccurate information. Self-reported data may be unreliable.

As discussed further below, the GRT base, referred to as "taxable gross receipts" or "TGR", is determined by subtracting from gross receipts any receipts that are eligible to be exempted or deducted. Exemptions are not reported to the Department. As a rule, taxpayers do not separately state the amount of receipts that are deductible pursuant to each provision of the tax code. Rather, most deductions are lumped together, except for those noted below that must be separately reported. By allowing deductions to be reported together, the tax code is less transparent, but it is simpler for taxpayers to comply.

For fiscal year 2025, there are 33 "special deduction codes" identified in the GRT return instructions that are statutorily required to be separately reported. Taxpayers are informed that they must use the special code to claim the relevant deduction. When not in violation of confidentiality requirements, the data from the amounts reported under these codes are presented in this report to estimate fiscal impacts of the associated deductions. However, these estimates should be treated with caution because taxpayers are not penalized if they select the wrong deduction code. Tax & Rev takes steps to ensure accurate reporting of separately stated deductions, but, due to the lack of penalty for misreporting, cannot be completely certain.

## GOVERNMENTAL GROSS RECEIPTS TAX

The governmental gross receipts tax is imposed on the receipts from specified activities of every agency, institution, instrumentality or political subdivision of New Mexico state, except any school district and licensed entities engaged in providing health care services, excluding hospitals. The statewide governmental gross receipts tax rate is 5%. Governmental gross receipts include, for example, the sale by public entities of certain tangible personal property, services, and utilities. Tax & Rev distributes the governmental gross receipts tax to the Public Project Revolving Fund at the New Mexico Finance Authority, the Energy, Minerals and Natural Resources Department, the Department of Cultural Affairs, and the State General Fund.

## COMPENSATING TAX

The compensating tax provided about 0.6 percent of State General Fund revenue in FY2025. The compensating tax is imposed on the use of tangible property and the product of certain services in New Mexico. As of July 1st, 2022, the statewide compensating tax rate was lowered from 5.125% to

[27] Taxpayers self-identify their industry by the appropriate North American Industrial Classification System or "NAICS" Code.

5%. Another reduction from 5% to 4.875% took effect on July 1, 2023. This tax is New Mexico's version of a "use" tax, which is a mechanism states use to ensure that purchases from outside of the state do not compete unfairly with purchases from in-state retailers due to not being subject to the state GRT. Unlike the GRT, the legal incidence of the compensating tax is on the purchaser. Typically, the compensating tax is imposed on New Mexico businesses when they purchase from out-of-state vendors who lack nexus with New Mexico and are therefore not required to register with the Department and pay GRT.[28] Because of the expansive nature of the GRT, many of the deductions from the compensating tax base can be thought of as simply defining the tax base.

Legislation enacted in 2019 provided for a local option compensating tax rate equivalent to the respective local option GRT rate, effective July 1, 2021.

With New Mexico applying its gross receipts tax to internet sellers and other sellers without physical presence in the state as of July 1, 2019, more receipts are subject to the gross receipts tax, and therefore fewer are subject to the compensating tax.

## SPECIAL EXCISE TAXES

Special excise taxes provided about 6 percent of State General Fund revenues in FY2025.[29] A special excise tax is defined as a special tax on specific goods or activities, unlike a broad consumption tax such as the GRT.[30] New Mexico has many special excise taxes. Some of these taxes are in lieu of the GRT, such as the gasoline tax. Others, such as the cigarette tax, are in addition to the GRT. Some special excise taxes fall on different stages of the production or marketing chain; for example, the liquor excise tax is imposed on wholesalers of alcoholic beverages, whereas the GRT is imposed on the retailer. As is the case with the GRT and the compensating tax, New Mexico's special excise taxes contain several provisions that define the tax base to prevent double taxation or tax pyramiding. Examples include the exemption for sales of cigarettes on tribal lands to tribal members, which is designed to avoid the taxation of the same transaction by competing tax authorities. Some of these parameters of the tax base arise from the U.S. or New Mexico Constitutions, which forbid or preempt the State from imposing its taxes on a particular activity, sale, or property.

The Cannabis Excise Tax came into effect on April 1, 2022, for adult use retail cannabis sales. The excise tax is imposed on the retailer for the taxable value of adult use cannabis products, in addition to the gross receipts tax. Receipts from medical cannabis sales are not subject to the cannabis excise tax and may be deducted from gross receipts tax under the prescription drug deduction. Two-thirds of the revenue from the tax is distributed to the General Fund, and one-third is distributed to local governments.

[28] An out-of-state business has nexus with New Mexico if, in the previous calendar year, it had taxable gross receipts of $100,000 or more in New Mexico. Compensating tax may also be owed when the user of property or the product of a service converts the use from a non-taxable to a taxable use. For example, a retailer may buy cleaning products for resale in its store, which would be deductible, but then use some of the products to clean its own facilities. Once the product is no longer available for resale the deduction does not apply, and the purchaser of the product owes compensating tax on the amount it paid for the product.

[29] This figure includes the revenue from: Cigarette Tax; Tobacco Products Tax; Liquor Excise Tax; Cannabis Excise Tax; Insurance Premium Tax; Motor Vehicle Excise Tax; and Gaming Tax.

[30] Technically, the GRT is also an excise tax, but of general application; "special excise taxes" as used herein refer to specialized excise taxes.

Over time, the excise tax rate will rise to a maximum rate of 18%, as detailed in the table below:

| Fiscal Year | Excise Tax Rate |
|---|---|
| FY22-FY25 | 12% |
| FY26 | 13% |
| FY27 | 14% |
| FY28 | 15% |
| FY29 | 16% |
| FY30 | 17% |
| FY31 and on | 18% |

## NATURAL RESOURCE EXTRACTION TAXES

Natural resource extraction taxes provided about 9.4 percent of recurring State General Fund revenues in FY2025. New Mexico imposes a variety of taxes on the privilege of severing natural resources and the associated production activities related to those natural resources. The tax base is generally defined as the value of the products at the extraction site. The final taxable values are reduced for several deductions. In addition, some taxes apply different tax rates based on the natural resource, which this report defines as "rate differentials". The largest of the deductions associated with these taxes are for royalties paid to federal, Indian, and state owners of the minerals. Because the State is preempted by federal law from imposing tax on these entities — or because it wouldn't be reasonable for the State to tax itself — these are not treated as tax expenditures. Other provisions, aimed at stimulating particular types of production, continue to be treated as tax expenditures. Rate differentials previously absent from the report have been incorporated in this year's edition.

Other tax expenditures for oil and natural gas listed in this report incentivize continued production when prices drop below specific thresholds. Because prices have generally exceeded the threshold values that would trigger these incentives, those expenditures remain at zero in this report, as they have been for over 10 years.

## PROPERTY TAX

Property tax does not provide any revenue to the State's General Fund; but it is an important source of revenue for operations and capital expenditures for the State, local governments, school districts, and other political subdivisions. The property tax code features several limitations and exclusions that reduce the tax burden on various groups of property owners for various reasons. Some of these are broad-based and are not treated as tax expenditures in this report. Examples include the exclusion from tax of personal property and the 3% limit on annual value growth for residential property. Many property tax deductions and limitations are provided for in the state Constitution and therefore are also not included as tax expenditures, because the Constitution is deemed to define the tax base. Other statutory property tax provisions that target specific populations are included. Because most property taxes are assessed, collected and distributed at the county level, Tax & Rev does not detail the fiscal impact of property tax expenditures by specific revenue recipients but provides a high-level fiscal impact.

## PERSONAL INCOME TAX AND CORPORATE INCOME TAX DATA BY TAX YEARS

The following tables provide an aggregate breakdown of New Mexico's personal income tax by taxable income, estimated tax on taxable income, and the number of returns for tax years 2023 and 2024. The 2023 table may differ from that published in last year's report as a result of extended filers

and amended returns. Typically, higher income filers are more likely to extend their filing date to October 15 of each year; as such, revisions to the prior year will be most dramatic in the higher income brackets.

Similarly, two tables for New Mexico's corporate income tax are provided. The data is grouped by taxpayers' self-reported 2-digit NAICS code, taxable income, estimated tax on taxable income and the number of returns for tax years 2022 and 2023. As with personal income tax, 2022 data may differ from that published in last year's report due to extended filers and amended returns.

| Personal Income Tax by Income Bracket Table – Tax Year 2023 Data | | | | | | |
|---|---|---|---|---|---|---|
| **All Tax Filers** | | | | | | |
| **Income Bracket** | **Number of Returns** | **Percent of Returns** | **New Mexico Taxable Income** | **Percent of NM Taxable Income** | **Estimated Tax on Taxable Income** | **Percent of Estimated Tax** |
| **No Taxable Income** | 342,124 | 30.62% | $0 | 0.00% | $0 | 0.00% |
| **Under $25,000** | 257,794 | 23.07% | $3,113,421,403 | 1.81% | $84,519,768 | 3.83% |
| **$25,000-$50,000** | 176,865 | 15.83% | $6,433,666,362 | 3.75% | $233,977,416 | 10.61% |
| **$50,000-$75,000** | 100,861 | 9.03% | $6,187,821,620 | 3.61% | $236,131,534 | 10.71% |

Table Notes: "-" means data is redacted due to fewer than 3 taxpayers; Only businesses that reported a valid NAICS codes are included in the Table Above.

# TAX EXPENDITURES

Tax expenditures are presented in alphabetical order. The table of contents provides an alphabetized list of the expenditures. To find a specific expenditure based on its statutory citation, use the index at the end of the report.

# ADDITIONAL INCOME TAX REBATE 2021 TAX YEAR FILING

**Category:** Citizen Benefits

**Brief Description:** Resident taxpayers who are not dependents of another taxpayer are eligible for a tax rebate having filed or when filing their tax year 2021 PIT return. The rebate is $1,000 for heads of household, surviving spouses, and married individuals filing jointly and $500 for single individuals and married individuals filing separately. The rebate is not allowed for 2021 PIT returns filed after May 31, 2024.

**Statutory Basis:** 7-2-7.7 NMSA 1978

**Intended Purpose:** To equitably distribute surplus State General Fund revenue to every resident taxpayer in New Mexico while supporting New Mexicans coping with continued high costs of inflation.

**History:** Originally enacted in 2023.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 1 – This rebate is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|

| | **Claims** | 951,931 | 13,784 | 564 |
| | **Expenditure (thousands)** | $694,320 | $10,039 | $909 |

# AFFORDABLE HOUSING
# CREDIT AGAINST MODIFIED COMBINED TAX, PIT, OR CIT

**Category:** Citizen Benefits

**Brief Description:** A tax credit may be claimed against GRT (less local option gross receipts taxes), compensating tax (less local option compensating taxes), withholding, PIT, CIT, E911, and interstate telecommunications gross receipts tax for investments in affordable housing projects equal to 50% of the amount of cash invested or the fair market value of the land, buildings, materials, or services relating to such projects. The credit cannot be claimed for the governmental gross receipts taxes. This tax expenditure is available to taxpayers receiving a tax credit voucher issued by the New Mexico Mortgage Finance Authority (MFA).

The tax credit voucher program is administered by the MFA and is based on donations made to affordable housing projects approved by MFA and the Affordable Housing Charitable Trust. The maximum amount for this expenditure is calculated annually by multiplying a base rate, adjusted for inflation, and the state's population. For tax year 2024, the maximum is approximately $5.7 million. Donations may include land, buildings, materials, cash or services. Cash equivalents such as store credit or waived invoices are considered a cash donation. Donations received by the project sponsor in exchange for tax credits may be used to fund the acquisition, substantial rehabilitation, and/or new construction of affordable housing projects throughout the state, including down payment and closing cost assistance for acquisition of affordable single-family housing. No minimum or maximum dollar limits are placed on donations made directly to the Affordable Housing Charitable Trust.

The credit is not refundable but may be carried forward for up to five years.

**Statutory Basis:** 7-9I *et seq.* NMSA 1978

**Intended Purpose:** To incentivize the construction of affordable housing projects.

**History:** Originally enacted in 2005 and amended in 2010 and 2015. The 2010 amendment to the Affordable Housing Tax Credit Act expanded where eligible "affordable housing projects" can be located from counties with a population of less than 100,000 to all counties and to include materials as an allowable investment.

**Evaluation:** Every year since the inception of the credit, the MFA program has approved affordable housing projects eligible for contributions and applications for the credit. During the same time, claims for the credit have grown from an average of 14 in the first seven years, to 181 in the last three tax years. For the most recent tax years, these contributions have supported 3 to 4 housing projects per year for a total of over 400 affordable housing units.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required. The data source for projects and units supported through the credit is the New Mexico MFA.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Affordable Housing Credit against modified combined tax, PIT or CIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |

| | **Claims** | 186 | 210 | 209 |
| | **Expenditure (thousands)** | $449 | $1,523 | $310 |

# AGRICULTURAL BIOMASS
# CREDIT AGAINST PIT AND CIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** A dairy or feedlot owner is eligible for a credit of $5 for each wet ton of agricultural biomass that is transported from the owner's dairy or feedlot to a facility that uses agricultural biomass to generate electricity or make fuels for commercial use. The aggregate annual combined total of all agricultural biomass PIT and CIT credits is capped at $5,000,000. Taxpayers receive certification of their project for a credit from EMNRD.

For purposes of the credit:

(1) "agricultural biomass" means wet manure meeting specifications established by EMNRD from either a dairy or feedlot commercial operation;

(2) "biocrude" means a non-fossil form of energy that can be transported and refined using existing petroleum refining facilities and that is made from biologically derived feedstocks and other agricultural biomass;

(3) "feedlot" means an operation that fattens livestock for market; and

(4) "dairy" means a facility that raises livestock for milk production.

The credit is not refundable but may be carried forward for up to four years or transferred to another taxpayer. The credit is applicable for taxable years after January 1, 2011 and ending prior to January 1, 2030.

**Statutory Basis:** 7-2-18.26 and 7-2A-26 NMSA 1978

**Intended Purpose:** To incentivize the sale and use of agricultural biomass as a fuel.

**History:** Originally enacted in 2010. Amended in 2020 and 2025. The 2020 amendment extended the sunset date to January 1, 2030. The 2025 amendment revised the procedures for the certification of eligibility and clarified statute language.

**Evaluation:** In the past, EMNRD received applications for this tax credit and issued approved certificates. Due to credit transferability, Tax & Rev received numerous inquiries regarding this credit from both in-state and out-of-state tax credit brokers. The certificates issued have all been transferred. High levels of transfers may indicate that the incentive is not properly scoped to the taxpayers most directly involved in the desirable behavior.

**Recommendations:** Continue to monitor and evaluate credit utilization and credit transfers to determine whether the incentive is effective in stimulating the desired outcome.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|

# AIRCRAFT SALES OR SERVICES GRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from selling, maintaining, refurbishing, remodeling or otherwise modifying a commercial or military carrier over ten thousand pounds gross landing weight are deductible from gross receipts.

**Statutory Basis:** 7-9-62.1 NMSA 1978

**Intended Purpose:** To incentivize a more robust commercial and military aircraft industry in New Mexico.

**History:** Originally enacted in 2000 and amended in 2005. Amended in 2014 to expand the deduction by adding the sale of an aircraft over 10,000 pounds to the activities that are deductible. A separate reporting requirement was added. The 2025 amendment revised reporting requirements and removed certain obsolete language.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 2 – This deduction is separately reported. Despite being a separately reported deduction, the reliability factor for this deduction is a 2 to reflect that some taxpayers may be claiming this deduction in error. Tax & Rev will be further analyzing this data and taxpayer reporting of the GRT deductions.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Aircraft Sales or Services GRT Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Taxpayers** | 50 | 69 | 72 |

| | **Local Government Expenditure (thousands)** | $1,066 | $2,849 | $3,015 |

# ALTERNATIVE ENERGY PRODUCT MANUFACTURERS CREDIT AGAINST MODIFIED COMBINED TAX

**Category:** Economic Development

**Brief Description:** Manufacturers of certain alternative energy products who hire at least one new employee for every $500,000 in qualified expenditures (up to $30 million) and for every $1,000,000 in qualified expenditures (over $30 million) may receive a tax credit not to exceed 5% of qualified expenditures for purchase of manufacturing equipment used in the manufacturing operation. The tax credit can be applied against the state portion of GRT, compensating tax, withholding tax, interstate telecommunications gross receipts tax, E911 surcharge and telecommunications relay service surcharge

The credit is not refundable but may be carried forward for up to five years.

**Statutory Basis:** 7-9J NMSA 1978

**Intended Purpose:** Presumably to encourage hiring and investment in the alternative energy production sector.

**History:** Originally enacted in 2007 and amended in 2011. The 2011 amendment included products of single cell photosynthetic organisms as eligible alternative energy products for taxable years 2011 through 2019. Repealed in 2025 with an effective date of July 1, 2025.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:** **This is the last year this expenditure is reported.**

TABLE NOTE: "-" Means data is redacted due to fewer than 3 taxpayers.

# ANGEL INVESTMENT CREDIT AGAINST PIT

**Category:** Economic Development

**Brief Description:** A taxpayer who files a New Mexico PIT return and makes a qualified investment may claim a credit in an amount not to exceed 25% of the qualified investment not to exceed $62,000. The investment must be made in a business that maintains its principal place of business in New Mexico and engages in high-technology research or manufacturing activities in New Mexico.

The taxpayer may make five qualified investments per tax year. The aggregate annual cap is $2,000,000. For credits issued after 2015, any unused credit may be carried forward for five consecutive years.

**Statutory Basis:** 7-2-18.17 NMSA 1978

**Intended Purpose:** To incentivize the investment in qualified research or manufacturing activities in New Mexico by angel investors.

**History:** Originally enacted in 2007 with a delayed repeal date of January 1, 2013. The credit was amended in 2012, 2015, 2020, 2024, and 2025.

The 2012 amendment eliminated the delayed repeal and extended the date before which an investment must be made to qualify for the credit to December 31, 2025. The 2015 amendment changed the qualified investment amount, relaxed the limits on the number of investments, increased the annual cap and extended the carry forward period. The 2020 amendment moved the review and approval of the credit from EDD to Tax & Rev and clarified certain statutory provisions. The 2024 amendment extended the eligibility date for the qualified investment credit to December 31, 2030.

**Evaluation:** In the past three fiscal years, on average there have been 169 claims per year accounting for $1,003,000 in average expenditures for this credit. Since fiscal year 2023, the expenditure on this credit has increased by 7%. This credit appears to be used as intended.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Angel Investment Credit against PIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |

| | **Claims** | 155 | 158 | 198 |
| | **Expenditure (thousands)** | $1,071 | $875 | $1,052 |

# APPORTIONMENT
# ELECTION OF CIT FOR HEADQUARTERS

**Category:** Economic Development

**Brief Description:** A filing group or a taxpayer whose principal business activity is a headquarters operation may elect to have its business income apportioned to New Mexico by using a single sales factor. Headquarters operation is where the center of operations of a business meets the following criteria:

(1) corporate staff are physically located in New Mexico,

(2) centralized functions are primarily performed, to direct one or more centralized functions, and where final authority of those functions is issued,

(3) primary functions and aspects of operations are managed,

(4) Has authority to directs regional and subregional offices,

(5) national and regional headquarters if the national headquarters is subordinate only to the ownership of the business or its representatives and the regional headquarters is subordinate to the national headquarters.

For taxable years beginning on or after January 1, 2020, a taxpayer electing to use the single sales factor must use this filing method for at least 3 consecutive taxable years. .

**Statutory Basis:** 7-4-10(C) , 7-4-10(D) and 7-4-10(E) NMSA 1978

**Intended Purpose:** To encourage companies to locate their headquarters or center of operations for their managerial activities in New Mexico, thereby increasing employment and economic activity within the state.

**History:** Originally enacted in 2015, amended in 2019.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 2 – This election is reported. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Special Election, Headquarters Apportionment Formula** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 91 | 70 | 40 |
| | **Expenditure (thousands)** | $9,455 | $724 | $319 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 72 | 69 | 69 |
| | **Expenditure (thousands)** | $11,772 | $1,657 | $8,327 |

# APPORTIONMENT
# ELECTION OF CIT FOR MANUFACTURERS

**Category:** Economic Development

**Brief Description:** A filing group or a taxpayer who has eighty percent or more of their property or payroll factors in manufacturing or operating a computer processing facility may elect to have its business income apportioned to New Mexico by using a single sales factor for the taxable year. Manufacturing is defined as combining or processing components or materials to increase their value for sale in the ordinary course of business, but does not include the following:

(1) construction,

(2) farming,

(3) power generation, with the exception that it may include electricity generation at a facility that does not require location approval and a certificate of convenience as pursuant to the Public Utility Act,

(4) processing natural resources, including hydrocarbons, and

(5) processing or preparation of meals for immediate consumption.

For taxable years beginning on or after January 1, 2020, a taxpayer electing to use the single sales factor must use this filing method for at least 3 consecutive taxable years.

**Statutory Basis:** 7-4-10(B), 7-4-10(D) and 7-4-10(E) NMSA 1978

**Intended Purpose:** As enacted in 1993, the purpose of the double-weighted sales factor formula election for manufacturers was to encourage investment and employment in this state by manufacturers who do not anticipate substantial sales revenue within this state. The current single sales factor apportionment introduced in the 2013 amendment continues that original intent.

**History:** Originally enacted in 1993 and amended in 2001, 2002, 2009, 2013, 2015, 2019, 2020, and 2024. The 2013 amendment provided a phase-in over five years of the use of a single sales factor by taxpayers whose principal business activity is manufacturing. The 2020 amendment allows computer operating facilities to use the sales apportionment election permitted to manufacturers. The 2024 amendment removes the January 1, 2024, sunset to include power generation from a facility that does not require approval and a certificate of convenience pursuant to the Public Utility Act in the definition of manufacturing. The law now permanently defines this category of power generation as manufacturing.

**Evaluation:** The single sales factor is an incentive for multi-state companies whose majority sales are outside New Mexico to move to New Mexico. These firms gain the most from this election. For domestic New Mexico companies, the single sales factor reduces their income tax liability to the extent they have sales outside New Mexico. The fiscal impact of this expenditure is tied in part to overall economic strength.

**Recommendations:** None.

**Reliability Factor:** 2 – This election is reported. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Special Election, Manufacturer's Apportionment Formula** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 55 | 35 | 10 |
| | **Expenditure (thousands)** | $91,861 | $18,776 | $0 |

| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 36 | 45 | 26 |
| | **Expenditure (thousands)** | $33,490 | $104,401 | $81,229 |

# ARMED FORCES RETIREMENT PAY EXEMPTION FROM PIT

**Category:** Citizen Benefits

**Brief Description[31]:** An individual who is an armed forces retiree may claim an exemption from PIT in tax years 2022 through 2026. The amount of exemption per tax year is $30,000.

**Statutory Basis:** 7-2-5.13 NMSA 1978

**Intended Purpose:** To ease the tax burden on individuals who served in the armed forces and surviving spouses of armed forces retirees, and to encourage military retirees to reside in New Mexico.

**History:** Originally enacted in 2022 and amended in 2024. The 2024 amendment removed the graduated maximum exemption amounts for previous tax years, made the $30,000 exemption permanent, and expanded the eligible taxpayers to include the surviving spouse of an armed forces retiree. This amendment was effective January 1, 2025, and will not be reflected in the fiscal impact until tax year 2025.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 2 – This exemption is separately reported. Some estimation is required. Note: The number of claims is based on tax returns. A joint return may have 2 qualifying taxpayers claiming the exemption.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Armed Forces Retirement Pay Exemption** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 13,807 | 14,514 | 14,270 |
| | **Expenditure (thousands)** | $5,112 | $9,986 | $13,305 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 12,766 | 14,584 | 15,392 |
| | **Expenditure (thousands)** | $4,727 | $9,754 | $14,037 |

[31] Description reflects current law as of January 1,2025. The original 2022 legislation graduated the exemption by tax year. In tax year 2022, the exemption was $10,000. In tax year 2023, the was $20,000 and for taxable years 2024 through 2026, the exemption was $30,000.

# ARMED FORCES SALARIES EXEMPTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** A salary paid by the United States government to a taxpayer for active duty service in the armed forces of the United States is exempt from PIT.

**Statutory Basis:** 7-2-5.11 NMSA 1978

**Intended Purpose:** To provide a tax benefit for our armed forces personnel.

**History:** Originally enacted in 2007.

**Evaluation:** This is a discretionary incentive to recognizing our members of the armed forces.

**Recommendations:** None.

**Reliability Factor:** 2 – This exemption is separately reported. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Armed Forces Salaries Exemption from PIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 14,712 | 14,457 | 14,094 |
| | **Expenditure (thousands)** | $16,093 | $16,874 | $17,669 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 14,787 | 14,924 | 14,725 |
| | **Expenditure (thousands)** | $15,988 | $17,457 | $18,643 |

# BACK-TO-SCHOOL TAX-FREE WEEKEND GRT DEDUCTION

**Category:** Citizen Benefits

**Brief Description:** Receipts from retail sales of specified tangible personal property if the sale occurs during the last full weekend (Friday through Sunday) in July are deductible from gross receipts. The deductions is allowed for purchases of certain clothing valued under $100, computers valued under $1,000, computer accessories valued under $500, and school supplies.

**Statutory Basis:** 7-9-95 NMSA 1978

**Intended Purpose:** To reduce the cost of school supplies and school clothes.

**History:** Originally enacted in 2005. Amended in 2025. The 2025 amendment changed the period for the tax holiday to the last weekend of July to reflect earlier school start dates.

**Evaluation:** New Mexico is one of 20 states that had a form of a tax-free holiday in 2024, an increase from 2023 when 19 states held tax-free holidays Tax-free holidays do not generally grow the local economy but rather shift consumption within the economy from one time to another time. The deduction benefits families with children by reducing the cost of school necessities, but citizens who do not attend school may also benefit from the tax-free weekend.

**Recommendations:** None.

**Reliability Factor:** 3 - Tax & Rev requests taxpayers who take advantage of this deduction to separately report the deductible amount on their returns, but there is no statutory requirement to do so. Despite being a separately reported deduction, the reliability factor for this deduction is a 3 to reflect that some taxpayers may be claiming this deduction in error and others may not be reporting under this deduction code. Tax & Rev will analyze this data and taxpayer reporting of GRT deductions. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Back-to-School Tax-Free Weekend GRT Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Taxpayers** | 170 | 271 | 231 |
| | **State General Fund Expenditure (thousands)** | $276 | $461 | $273 |
| | **Local Government Expenditure (thousands)** | $176 | $295 | $175 |

# BIODIESEL BLENDING FACILITY TAX
# THIRTY PERCENT CREDIT AGAINST GRT AND COMPENSATING TAX

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** A taxpayer who is a rack operator as defined in the Special Fuels Supplier Tax Act, and who owns and installs biodiesel blending equipment at its facility to produce blended biodiesel fuel, may claim a GRT or compensating tax credit. The credit is 30% of the purchase and installation cost of equipment not to exceed $50,000 for the installation of the equipment. The maximum aggregate amount of credits allowed in any tax year is $1 million.

Biodiesel is a renewable and biodegradable fuel derived from agricultural plant oils or animal fat. Blended biodiesel fuel is a diesel fuel that contains at least 2% biodiesel.

The credit is not refundable but may be carried forward for up to four years.

**Statutory Basis:** 7-9-79.2 NMSA 1978

**Intended Purpose:** To incentivize the establishment or the expansion of a facility that produces blended biodiesel fuel.

**History:** Originally enacted in 2007. Repealed in 2025 with an effective date of July 1, 2025.

**Evaluation:** According to EMNRD's Energy Conservation and Management Division, fewer than three applicants for this credit have received certification. No new claims have been received in the last three years.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation required.

**Fiscal Impact:** This credit is repealed effective July 1, 2025. This will be the last time this credit is reported on in the annual Tax Expenditure Report.

| | | | | |
|---|---|---|---|---|
| **Biodiesel Blending Facility Thirty Percent Credit Against GRT and Compensating Tax** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 0 | 0 | 0 |
| | **Expenditure (thousands)** | $0 | $0 | $0 |

# BIOMASS-RELATED EQUIPMENT AND BIOMASS MATERIALS DEDUCTION FROM COMPENSATING TAX

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** The value of a biomass boiler, gasifier, furnace, turbine-generator, storage facility, feedstock processing or drying equipment, feedstock trailer or interconnection transformer, and the value of biomass materials used for processing into bio power, biofuels or bio-based products is deductible when computing the compensating tax due.

**Statutory Basis:** 7-9-98 NMSA 1978

**Intended Purpose:** To incentivize the construction of biomass power generation and use of biomass materials.

**History:** Originally enacted in 2005.

**Evaluation:** According to EMNRD, several bioenergy projects are currently underway in the state and typically involve partnerships between federal agencies, local governments, New Mexico higher education institutions, and foreign entities. These include Albuquerque's Southside Water Reclamation Plant and the Las Cruces Wastewater Treatment Plant. As these are operated by local governments, the receipts from these projects are unaffected by the deduction due to government exemption.

In the private sector, EMNRD reports a very limited number of bioenergy projects undergoing construction in the last few years, with only a single project operating and another ceasing construction after funding difficulties. The deduction appears insufficient to incentivize new private projects. A survey of publicly-available information indicates that proposed projects may not be finalized at the time this report is published.

Note that this deduction can only be taken against compensating tax, which could incentivize firms to purchase equipment out of state.

**Recommendations:** For consistency, a GRT deduction for in-state sales of the described equipment would bring parity in the tax code.

**Reliability Factor:** 4 - In previous publications, the limited number of private bioenergy projects that have undergone construction over the last few years were estimated from publicly-available sources of the size of the projects. A two-year construction timeframe was assumed on projects that continued, as well as assuming 50% of the project cost would involve purchasing equipment from out of state, and therefore be subject to compensating tax.

Research for this year's publication based on NAICS codes associated with the generation of energy with the use of biomass yielded no economic activity. It is assumed that no project was operational in FY2025.

**Fiscal Impact:**

| Biomass-Related Equipment and Biomass Materials Deduction from Compensating Tax | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | Expenditure (thousands) | $0 | $0 | $0 |

# BORDER-ZONE TRADE-SUPPORT COMPANY GRT DEDUCTION

**Category:** Economic Development

**Brief Description:** The receipts of a trade-support company are deductible from gross receipts if:

(1) the trade-support company first locates in New Mexico within twenty miles of a port of entry on New Mexico's border with Mexico on or after July 1, 2003, but before July 1, 2013; or they locate in a border-zone after July 1, 2016, but before January 1, 2021;

(2) the receipts are received by the company within a five-year period beginning on the date the trade-support company locates in New Mexico and the receipts are derived from its business activities and operations at its border zone location; and;

(3) the trade-support company employs at least two employees in New Mexico.

A "trade-support company" means a customs brokerage firm or a freight forwarder.

**Statutory Basis:** 7-9-56.3 NMSA 1978

**Intended Purpose:** To incentivize the location of trade-support companies to support and increase economic activities at the various ports of entry (Santa Teresa, Columbus, and Antelope Wells).

**History:** Originally enacted in 2003, amended in 2007, 2015, 2021, and 2025. The 2015 amendment extended the credit and added reporting requirements. The 2021 amendment revised the definition of "employee". The 2025 amendment revised reporting requirements and removed certain obsolete language.

**Evaluation:** The expenditure may be underutilized based on the number of taxpayers that claim the deduction.

**Recommendations:** None.

**Reliability Factor:** 3 - This deduction is separately reported. Despite being a separately reported deduction, the reliability factor for this deduction is a 3 to reflect that some taxpayers may be claiming this deduction in error and others may not be reporting under this deduction code. Tax & Rev will further analyze this data and taxpayer reporting of GRT deductions. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Border-Zone Trade-Support Company GRT Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Taxpayers** | 12 | 57 | 32 |
| | **State General Fund Expenditure (thousands)** | $146 | $180 | $420 |
| | **Local Government Expenditure (thousands)** | $93 | $120 | $280 |

# BUSES OPERATED BY RELIGIOUS AND NONPROFIT CHARITABLE ORGANIZATIONS
# EXEMPTION FROM WEIGHT DISTANCE TAX

**Category:** Citizen Benefits

**Brief Description:** Use of the highways in New Mexico by buses operated by religious or nonprofit charitable organizations is exempt from the weight distance tax (WDT).

**Statutory Basis:** 7-15A-5(C) NMSA 1978

**Intended Purpose:** To reduce transportation costs of religious and charitable organizations the federal government has determined to be performing socially-beneficial activities.

**History:** Originally enacted in 1988 and amended in 2006.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 3 –The number of buses registered as nonprofit was received from the Motor Vehicle Division. Exempt miles are not reported on any WDT form, so average miles traveled per school bus were calculated from national school data sources. Weight was calculated as an average of weights between 26,000 and 30,000 pounds gross vehicle weight rating, which most type C buses are.

**Fiscal Impact:**

| **Buses Operated by Religious and Nonprofit Charitable Organizations Exemption from WDT** | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | **Expenditure (thousands)** | $31 | $27 | $40 |

# BUSES USED FOR TRANSPORTATION OF AGRICULTURAL LABORERS EXEMPTION FROM WEIGHT DISTANCE TAX

**Category:** Highly Specialized Industry

**Brief Description:** Use of the highways in New Mexico by buses used exclusively for the transportation of agricultural laborers is exempt from the WDT.

**Statutory Basis:** 7-15A-5(B) NMSA 1978

**Intended Purpose:** To lower the cost of labor for agricultural producers.

**History:** Originally enacted in 1988.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 3 –The number of buses registered for agricultural use was collected from the Motor Vehicle Division. Exempt miles are not reported on any WDT form, and no public source is available for miles traveled by agricultural buses. Therefore, average miles traveled per school bus was calculated from national school data sources (school buses operate on a similar twice-a-day schedule). Weight was calculated as an average of weights between 26,000 and 30,000 pounds gross vehicle weight rating, which most type C buses are.

**Fiscal Impact:**

| **Buses Used for Transportation of Agricultural Laborers Exemption from WDT** | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | **Expenditure (thousands)** | $6.0 | $7.3 | $12.4 |

# CAPITAL GAIN
# DEDUCTION FROM PIT

**Category:** Citizen Benefits

**Brief Description[32]:** A taxpayer may claim a deduction from net income in an amount equal to the greater of:

(1) the taxpayer's net capital gain income for the taxable year for which the deduction is being claimed, but not to exceed $2,500; or

(2) 40% of up to $1,000,000 of the taxpayer's net capital gain income from the sale of a business that is allocated or apportioned to New Mexico[33].

**Statutory Basis:** 7-2-34 NMSA 1978

**Intended Purpose:** The capital gain deduction exists to incentivize savings and investment and to recruit individuals earning investment income to New Mexico. The deduction also decreases tax liability for tax filers who sell a business at a gain.

**History:** Originally enacted in 1999 and amended in 2003, 2019, and 2024. The 2003 amendment expanded the capital gains deduction at the same time income tax rates were reduced. The 2019 amendment reduced the 50% threshold to 40% effective tax year 2019.

The 2024 amendment restricted the maximum deduction of option (1) from $1,000 to $2,500 and caps the 40% option at $1,000,000 for option (2). Option (2) was also amended to limit the capital gain income from the sale of a New Mexico business only. The 2024 amendment will not be reflected in the fiscal impact until tax year 2025.

**Evaluation:** Prior to the 2024 amendment, any taxpayer who recognized a capital gain during a tax year regardless of income level, would reduce their tax liability by at least 40% of their capital gains income in that year with this deduction. Because higher earning individuals tend to have higher capital gains, they received a larger proportion of benefit from this deduction. However, taxing capital gains affects savings and investment decisions over the long term and there are low risks involved such as capital flight or a decline in entrepreneurship.

**Recommendations:** None.

**Reliability Factor:** 2 – This deduction is separately reported. Some estimation is required.

[32] Description reflects current law. New law takes effect January 1, 2025, as described in history section.
[33] Prior to 2019, the threshold was 50% of the taxpayer's net capital gain income. From 2019 to 2024, option (1) was capped at $1,000 and option (2) was 40% of all net capital gain income.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Capital Gain Deduction** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 114,897 | 100,423 | 95,907 |
| | **Expenditure (thousands)** | $102,038 | $69,223 | $52,419 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 121,564 | 107,093 | 125,183 |
| | **Expenditure (thousands)** | $115,318 | $101,596 | $93,750 |

# CERTAIN DISABLED MILITARY VETERAN EXEMPTION FROM MOTOR VEHICLE EXCISE TAX

**Category:** Citizen Benefits

**Brief Description:** An individual is exempt from the Motor Vehicle Excise Tax (MVX) if the person is a resident of New Mexico who served in the armed forces of the United States and who suffered, while serving in the armed forces or from a service-connected cause, the loss or complete and total loss of use of:

(1) one or both legs at or above the ankle; or

(2) one or both arms at or above the wrist.

**Statutory Basis:** 7-14-6(E) NMSA 1978

**Intended Purpose:** To ease the tax burden of individuals whose service in the armed forces resulted in disability.

**History:** Section was originally enacted in 1978 and amended in 2007 to include Subsection E.

**Evaluation:** This tax expenditure meets its intended purpose of lowering the tax burden of disabled veterans. The estimated fiscal impact of this expenditure suggests that the exemption from the excise tax has had a positive effect on vehicle purchases.

**Recommendations:** None.

**Reliability Factor:** 3 - The number of disabled veterans in 2025 in the State of New Mexico was obtained from the US Census Bureau. The Department of Veterans Services provided Service-Connected Disability (SCD) rating distributions for FY 2023. The veterans with SCD rating >70% will most likely match the exemption criteria in the statue. This represents 56.8% of all disabled veterans with SCD rating in FY2023. This percentage is applied to the 2025 census data. The national average prices of new and used vehicles were collected for each year and averaged together. In 2022 - 2024, an average of 6% of licensed drivers bought a new or used light vehicle. The total number of disabled veterans with a sufficient disability rating was multiplied by 6% and by the average price of a new and used vehicle. The resulting dollar amount was multiplied by the MVX rate of 4%. The expenditures for FY2023 and FY2024 have been revised due to methodological change in 2025.

**Fiscal Impact:**

| Certain Disabled Military Veteran Exemption from MVX | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | Expenditure (thousands) | $1,794 | $1,836 | $2,490 |

# CERTAIN HEALTH CARE PROVIDERS FEDERAL PAYMENTS EXEMPTION FROM GROSS RECEIPTS – AMERICAN RESCUE PLAN ACT OF 2021 (ARPA)

**Category:** Health Care

**Brief Description:** Receipts derived from funds received pursuant to the American Rescue Plan Act (ARPA) of 2021 are exempted from gross receipts for health care providers.

**Statutory Basis:** 7-9-41.6(B) NMSA 1978

**Intended Purpose:** This exemption was aimed at supporting health care providers severely impacted by the COVID-19 pandemic. By exempting these gross receipts payments from GRT, this statute provided relief to these providers and prevented the increase of costs for all recipients of health care in the state. The exemption of ARPA payments was consistent with previously exempted Coronavirus Aid, Relief, and Economic Security Act (CARES) federal payments also aimed at supporting health care providers serving during the COVID-19 pandemic.

**History:** Originally enacted in 2023.

**Evaluation:** None

**Recommendation:** None

**Reliability Factor:** 3 – Data from the New Mexico Human Services Department's Quarterly Spending Plan and Narrative for the 4th quarter of FY2024 on implementing the American Rescue Plan Act of 2021 were used to estimate the expenditure. The exemption amount is multiplied by the statewide average GRT rate to calculate the cost.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Certain Health Care Providers Federal Payments GRT Exemption** | **State General Fund Expenditure (thousands)** | $2,900 | $3,300 | Unknown |
| | **Local Governments Expenditure (thousands)** | $1,800 | $2,200 | Unknown |

# CERTAIN HEALTH CARE PROVIDERS FEDERAL PAYMENTS EXEMPTION FROM GROSS RECEIPTS – CORONAVIRUS AID, RELIEF, AND ECONOMIC SECURITY ACT (CARES)

**Category:** Health Care

**Brief Description:** Receipts derived from funds received pursuant to the Coronavirus Aid, Relief, and Economic Security Act (CARES) are exempted from gross receipts for health care providers.

**Statutory Basis:** 7-9-41.6(A) NMSA 1978

**Intended Purpose:** This exemption was aimed at supporting health care providers severely impacted by the COVID-19 pandemic. By exempting these gross receipts payments from GRT, this statute provided relief to these providers and prevented the increase of costs for all recipients of health care in the state.

**History:** Originally enacted in 2020.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 3 - Data from the Federal Health Resources & Services Administration on provider relief fund payments were used to estimate the expenditure. There is no impact in FY24 and FY25 as the program ceased June 30, 2023. The exemption amount is multiplied by the statewide average GRT rate to calculate the cost.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Certain Health Care Providers Federal Payments – CARES – GRT Exemption** | **State General Fund Expenditure (thousands)** | $700 | NA | NA |
| | **Local Government Expenditure (thousands)** | $500 | NA | NA |

# CHILD CARE PROVIDERS GRT DEDUCTION

**Category:** Citizen Benefits

**Brief Description:** (A) Receipts from the sale of child care assistance services by a taxpayer pursuant to a contract or grant with the Early Childhood Education and Care Department (ECECD) to provide such services through a licensed child care assistance program may be deducted from gross receipts.

(B) Receipts of for-profit pre-kindergarten providers for the sale of pre-kindergarten services pursuant to the Pre-Kindergarten Act may be deducted from gross receipts.

**Statutory Basis:** 7-9-77.2(A)-(B) NMSA 1978

**Intended Purpose:** To improve the parity between for-profit and non-profit pre-kindergarten service providers and to make child care services more affordable, since the GRT is generally passed on to families.

**History:** Originally enacted in 2024 and amended in 2025. The 2025 amendment revised reporting requirements.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 1 - This deduction is separately reported. No estimation is required.

**Fiscal Impact:**

| | | |
|---|---|---|
| **Child care providers GRT Deduction (A)** | **Fiscal Year** | 2025 |
| | **Taxpayers** | 265 |
| | **State General Fund Expenditure (thousands)** | $5,809 |
| | **Local Government Expenditure (thousands)** | $3,873 |
| **Child care providers GRT Deduction (B)** | **Taxpayers** | 88 |
| | **State General Fund Expenditure (thousands)** | $1,996 |
| | **Local Government Expenditure (thousands)** | $1,331 |

# CHILD CARE TO PREVENT INDIGENCY CREDIT AGAINST PIT

**Category:** Citizen Benefits

**Brief Description:** Any resident who files a PIT return and who is not a dependent of another taxpayer may claim a credit for child daycare expenses incurred and paid to a caregiver in New Mexico during the taxable year. The credit is available to a taxpayer who has a modified gross income, including child support payments, of not more than the annual income that would be derived from earning double the federal minimum wage.

The credit is 40% of actual compensation paid to a caregiver and may not exceed $480 for each qualifying dependent or $1,200 for all qualifying dependents in any taxable year. This credit is refundable.

**Statutory Basis:** 7-2-18.1 NMSA 1978

**Intended Purpose:** To protect the health, safety and well-being of children of low-income families and to provide parents an opportunity to place their children in day care working.

**History:** Originally enacted in 1981 and amended in 1990, 1995, 1999, and 2015.

**Evaluation:** The number of taxpayers claiming this credit has decreased by 50% on average since 2020. This is due in part to changes in taxpayer behavior in response to the pandemic. Also, the credit is tied to the federal minimum wage which currently is $7.25 and has not seen an increase since 2009. As wages have increased with inflation in recent years, fewer taxpayers are eligible for this credit.

**Recommendations:** Consider benchmarking the modified gross income and the maximum credit amount to an index which is adjusted annually for inflation.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Child Care Credit against PIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 672 | 575 | 433 |
| | **Expenditure (thousands)** | $280 | $233 | $190 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 684 | 594 | 464 |
| | **Expenditure (thousands)** | $286 | $243 | $208 |

## CHILD INCOME TAX CREDIT AGAINST PIT

**Category:** Citizen Benefits

**Brief Description:** A resident taxpayer who is not a dependent of another taxpayer may claim a tax credit against PIT for each qualifying child. A qualifying child is defined by federal statute but generally includes a minor child or stepchild supported by the taxpayer. For the first tax year of enactment, 2023, the amount of the credit ranged from $25 to $600 per qualified child, depending on adjusted gross income.[34] The amount of the child income tax credit is adjusted annually for inflation and is refundable. This credit expires January 1, 2032.

**Statutory Basis:** 7-2-18.34 NMSA 1978

**Intended Purpose:** To reduce the tax liability of households with children and increase family income, thereby reducing poverty.

**History:** Originally enacted in 2022. Amended in 2023, the amount of credit increased for taxpayers with adjusted gross incomes under $25,000, $50,000, and $75,000 from $175, $150, and $125 to $600, $400, and $200, respectively.

**Evaluation:** The American Rescue Plan Act (ARPA) expanded the federal child tax credit for 2021. Expansion of the federal refundable credit helped to reduce the overall national poverty rate[35] from 9.2% in 2020 to 7.8% in 2021 and reduced the child poverty rate from 9.7% in 2020 to 5.2% in 2021[36]. The expanded federal child income tax credit temporarily lifted 5.3 million Americans out of poverty, 3 million of whom were under 18 years old[37]. When the federal child tax credit expansion ended, the overall and child poverty rate both rose to 12.4% in 2022.

Based on evidence that the federal child tax credit was an effective tool to reduce poverty, New Mexico enacted and then expanded this credit. The average credit for FY2025 was $540 per taxpayer. With this credit in place, New Mexico can anticipate a reduction to the overall state poverty rate and the child poverty rate. This seems to be proving true in the most recent

[34] For inflation-adjusted child income tax credit amounts, see PIT returns and instructions at, www.tax.newmexico.gov/forms-publications/

[35] The U.S. Census Bureau provides two measures of poverty: the official poverty measure and the Supplemental Poverty Measure (SPM). The official poverty measure is estimated using pretax money income. The SPM extends the official poverty measure by accounting for several government program and geographic variations in housing expenses. The national rates reported above are reflective of the SPM.

[36] U.S. Census Bureau, Current Population Survey, 2010 to 2022 Annual Social and Economic Supplements (CPS ASEC); table B-3

[37] U.S. Census Bureau, Current Population Survey, 2021 to 2022 Annual Social and Economic Supplements (CPS ASEC); table B-8

Official and Supplemental Poverty Measures released by the US Census Bureau. In 2024, New Mexico's Official Poverty Measure for children fell 3.2%, the largest improvement in the nation.

For more information on this credit, see "Tax Policy Examinations – Child Income Tax Credit" on page 30 in the 2024 New Mexico Tax Expenditure Report.

Given that the savings rate among lower income taxpayers is relatively low, there is a high likelihood that this money is recirculating throughout the New Mexico economy to increase consumption and economic activity in New Mexico.

**Recommendation:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | |
|---|---|---|---|

# CLEAN CAR INCOME TAX CREDIT AGAINST PIT AND CIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Taxpayers may receive an income tax credit for purchasing or leasing electric vehicles, plug-in hybrids, or fuel cell vehicles in New Mexico. Credit amounts vary depending on the type of vehicle and whether it is new or previously owned. Taxpayers receive certification for the credit from EMNRD. A taxpayer can be certified for one tax credit in a taxable year and only one tax credit shall be certified per previously owned motor vehicle. A previously owned vehicle must have a model year that is at least two years prior to the calendar year in which the taxpayer purchased or leased the vehicle. The credit amount begins to phase out beginning with the tax year 2027. The credit amounts are:

For taxable years beginning January 1, 2024 and prior to January 1, 2027, the credit ranges from $2,000 to $3,000;

For the taxable year beginning January 1, 2027 and prior to January 1, 2028, the credit ranges from $1,480 to $2,220;

For the taxable year beginning on January 1, 2028 and prior to January 1, 2029, the credit ranges from $980 to $1,470; and

For the taxable year beginning January 1, 2029, the credit ranges from $640 to $960.

Applicants must apply for certification with EMNRD within one year of purchase or lease, and if certified, may claim the credit on their tax return within three years of certification.

The credit is refundable and transferable. The credit is effective as of May 15, 2024, and is applicable for taxable years beginning on or after January 1, 2024 and ending prior to January 1, 2031. This credit is repealed effective January 1, 2031.

Select definitions:

(1) "electric vehicle" means a motor vehicle that derives all of the vehicle's power from electricity stored in a battery that:

a. has a capacity of not less than twenty-five kilowatt-hours;

b. is capable of powering the vehicle for a range of at least one hundred miles; and

c. is capable of being recharged from an external source of electricity.

(2) " fuel cell vehicle" means a motor vehicle that:

a. uses a fuel cell to produce electricity that is used to drive an electric motor; and

b. is capable of powering the vehicle for a range of at least one hundred miles.

(3) "new" means a motor vehicle that has a base manufacturer suggested retail price, before options and destination charges and before any taxes are imposed, of fifty-five thousand dollars ($55,000) or less;

(4) "plug-in hybrid electric vehicle" means a motor vehicle that derives part of the vehicle's power from electricity stored in a battery that:

a. has a capacity of not less than six kilowatt-hours;

b. is capable of powering a vehicle for a range of at least thirty miles; and

c. is capable of being recharged from an external source of electricity;

(5) “previously owned" means a motor vehicle that is not new, that has a market value of twenty-five thousand dollars ($25,000) or less, that is certified by the dealer selling the motor vehicle and for which the dealer provides at least a one-year extended manufacturer's warranty against defects and repairs.

**Statutory Basis:** 7-2-18.36 and 7-2A-19.1 NMSA 1978

**Intended Purpose:** To encourage the adoption of clean transportation technologies and infrastructure in New Mexico by providing tax incentives for the purchase of clean cars.

**History:** Originally enacted in 2024.

**Evaluation:** This credit was intended to be coupled with the federal clean car credit, which was scheduled to expire at the end of 2032. Under amended federal law, the federal clean car credit expired on September 30, 2025. This may impact the number of claims for New Mexico clean car credits.

**Recommendation:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | |
|---|---|---|
| **Clean Car Income Tax Credit against PIT and CIT** | **Tax Year (Calendar)** | 2024 |

# CLEAN CAR CHARGING UNIT INCOME TAX CREDIT AGAINST PIT AND CIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Taxpayers may receive a credit for purchasing and installing an electric vehicle or fuel cell charging unit in New Mexico. The credit amount is based on charging unit type. Taxpayers receive certification of eligibility from EMNRD. Only one tax credit shall be certified per taxpayer per taxable year.

The amount of tax credit shall be:

(1) $25,000 or the cost to purchase and install a direct current fast charger or fuel cell charging unit, whichever is less, and
(2) $400 or the cost to purchase and install all other electric vehicle charging units, whichever is less.

Applicants apply for a certification from EMNRD within one year of purchase, and if approved, may claim the credit on their tax return within three years of certification.

This refundable credit is effective as of May 15, 2024, and is applicable for taxable years beginning on or after January 1, 2024, and ending prior to January 1, 2031.

Select definitions:

(1) "direct current fast charger" means an electric vehicle charging unit that provides at least fifty kilowatts of direct current electrical power for charging an electric vehicle through a connector based on fast charging equipment standards and that is approved for installation for that purpose by certain certifying organizations;

(2) "electric vehicle charging unit" means a device that:

a. is used to provide electricity to an electric vehicle or plug-in hybrid electric vehicle;

b. is designed to create a connection between an electricity source and the electric vehicle or plug-in hybrid electric vehicle; and

c. uses the electric vehicle's or plug-in hybrid electric vehicle's control system to ensure that electricity flows at an appropriate voltage and current level;

(3) "fuel cell charging unit" means a facility or unit that dispenses liquefied or compressed hydrogen for fuel cell vehicle refueling and that is approved for installation for that purpose under applicable codes and compliant with requirements of applicable certifying organizations.

For definitions of electric, fuel-cell and plug-in hybrid electric vehicles, see the expenditure summary for "Clean Care Income Tax Credit against PIT and CIT."

**Statutory Basis:** 7-2-18.37 and 7-2A-19.2 NMSA 1978

**Intended Purpose:** To encourage the adoption of clean transportation technologies and infrastructure in New Mexico by providing tax incentives for the purchase and installation of clean car charging units.

**History:** Originally enacted in 2024.

**Evaluation:** This credit was intended to be coupled with the federal clean car credit, which was scheduled to expire at the end of 2032. Under amended federal law, the federal clean car credit expired on September 30, 2025. This may impact the number of claims for New Mexico clean car credits.

**Recommendation:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:** No taxpayers have claimed this credit.

# CIGARETTE TAX RATE REDUCTION FOR MODIFIED RISK PRODUCTS

**Category:** Highly Specialized Industries

**Brief Description:** The excise tax on cigarettes may be reduced by fifty percent or twenty-five percent for a cigarette for which a modified risk tobacco product order has been issued by the United States secretary of health and human services pursuant to Section 21 U.S.C. 387k(g)(1) or Section 21 U.S.C. 387k(g)(2), respectively.

**Statutory Basis:** 7-12-3(C) & (D) NMSA 1978

**Intended Purpose:** To incentivize the sale and consumption of products that have less detrimental health effects for the individual consumer or the population as a whole.

**History:** Subsections C and D were originally enacted in 2019 as an amendment to Section 7-12-3 NMSA 1978.

**Evaluation:** None.

**Recommendation:** Tax & Rev recommends repealing this statute. The tax reduction remains underutilized since its enactment. Additionally, for public health reasons, the World Health Organization recommends increasing tobacco taxes and prices as the single most effective and cost-effective measure to reduce use. The U.S. Centers for Disease Control and Prevention (CDC) argues that there are no safe tobacco products, particularly for youth and adolescents, including those permitted by the FDA to use a modified risk claim.

**Reliability Factor:** 1 – This expenditure is calculated directly using taxpayer data. No estimation is required.

**Fiscal Impact:** No taxpayers have reported the sale of modified-risk tobacco products, so there is no fiscal impact on the cigarette excise tax.

# COAL EXEMPTION FROM SEVERANCE SURTAX

**Category:** Highly Specialized Industry

**Brief Description:** Coal is not subject to the surtax under certain conditions. The exemption applies to:

(1) coal sold under contracts signed on or after July 1, 1990, with deliveries beginning after that date, is exempt. However, the exemption does not apply if a new contract simply replaces or revises an older one under nearly identical terms, if a purchaser sets up an affiliated company to buy coal on its behalf, or if a purchaser breaks an older contract that was still valid on July 1, 1990, just to qualify for the exemption.

(2) coal sold under contracts already in effect on July 1, 1990, is exempt if the deliveries go beyond a certain baseline. This baseline is the greater of either the average yearly deliveries made under the contract during 1987, 1988, and 1989, or the highest minimum delivery requirement in those same years.

(3) If a contract that existed on July 1, 1990, is renegotiated after May 20, 1992, and the renegotiated terms require annual deliveries higher than that baseline, then the surtax does not apply to the excess deliveries for the rest of the renegotiated contract's term.

For contracts covered by this exemption, if the contract only applied for part of the years 1987 to 1989, the average yearly deliveries will be adjusted (annualized) to fairly reflect a full year's deliveries. Beginning after June 30, 2009, if yearly deliveries under the contract fall below the average deliveries from 1987 to 1989, the exemption no longer applies unless the shortfall is caused by events outside the control of either party.

Before claiming any exemption under this law, the taxpayer must register the qualifying coal contract with Tax & Rev using official forms. If the department reviews the contract or audits the related transactions and finds that one of the parties acted in a way that undermines the intent of this law, the exemption will be denied.

**Statutory Basis:** 7-26-6.2 NMSA 1978

**Intended Purpose:** This tax expenditure is an incentive for continued production by the New Mexico coal mining industry, providing reduced tax liability under new or restructured contracts.

**History:** Originally enacted in 1990 and amended in 1992, 1994, 1995, 1997, and 1999.

**Evaluation:** This exemption directly benefits the coal mining industry by providing an exemption from the severance surtax. Since 2010, new agreements have been entered into which have resulted in previously unallowable activity to be eligible for this exemption. In the last five years, all coal mined in New Mexico

qualified for an exemption from the surtax. The retirement of the Escalante Power Plant in 2020 and the San Juan Generating Station in 2022 have reduced the amount of coal eligible for the exemption. This tax incentive also is in direct conflict with tax incentives meant to incentive the production of renewable energy and decarbonization. Benefiting the coal mining industry, and subsidizing energy production using coal as fuel, would appear to undermine the goals of tax incentives designed to increase the use of renewable energy, and to encourage electric generation from renewable sources.

**Recommendations:** Evaluate benefits of this exemption given no revenues received from severance surtax.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required. Data is allowed to be reported despite fewer than 3 claims pursuant to Section 7-1-8.3(B) NMSA 1978.

**Fiscal impact:**

| | | | | |
|---|---|---|---|---|
| **Coal Exemption from Severance Surtax** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 2 | 2 | 2 |
| | **Expenditure (thousands)** | $4,970 | $4,972 | $1,134 |

# COMMERCIAL MOTOR CARRIER VEHICLES OPERATING EXCLUSIVELY WITHIN 10 MILES OF MEXICO BORDER EXEMPTION FROM TRIP TAX AND WEIGHT DISTANCE TAX

**Category:** Economic Development

**Brief Description:** Commercial motor carrier vehicles are exempt from the trip tax and the weight distance tax while operating on New Mexico highways exclusively within 10 miles of a border with Mexico and crossing the border with Mexico is exempt from the trip tax and the WDT.

**Statutory Basis:** 7-15-3.2 and 7-15A-5(D) NMSA 1978

**Intended Purpose:** To incentivize companies that have cross-border activities to do business in New Mexico instead of Texas and Arizona.

**History:** Originally enacted in 2006.

**Evaluation:** The New Mexico Border Authority reports that the number of commercial vehicles crossing the New Mexico/Mexico border has increased since FY2011. This tax expenditure meets its intended purpose of creating a competitive environment for business in New Mexico. The opening of the large Union Pacific intermodal transfer yard in 2014 near Santa Teresa and in 2018, the port of entry near Columbus, New Mexico quadrupled the number of commercial tucking dock also indicate this expenditure meets its intended purpose.

**Recommendations:** None.

**Reliability Factor:** 3 - Data for truck entries at Santa Teresa and Columbus were obtained from the U.S. Department of Transportation. From conversations with NMDOT, it was assumed that all of the Santa Teresa entry traffic would stay within the 20-mile North American Free Trade Agreement commercial zone and was destined for the large Union Pacific transfer station 10 miles from the border, or other nearby freight transfer facilities. Twenty miles per entry was assumed for a round-trip total road miles calculation. The total number of miles was then multiplied by the average WDT rate of all the weight classes. The same procedure was followed to calculate the trip tax expenditure.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Commercial Motor Carrier Vehicles Operating Exclusively within 10 Miles of Mexico Border Exemption from Trip Tax and WDT** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Weight Distance Tax Expenditure (thousands)** | $95 | $105 | $87 |
| | **Trip Tax Expenditure (thousands)** | $452 | $501 | $418 |

# CONSTRUCTION EQUIPMENT AND MATERIALS USED IN THE CONSTRUCTION OF SOLE COMMUNITY PROVIDER HOSPITALS GRT DEDUCTION

**Category:** Health Care

**Brief Description:** Receipts from sales of construction equipment or construction materials to a foundation or nonprofit organization for use in new facility construction of a sole community provider hospital located in a federally designated health professional shortage area are deductible from gross receipts under certain circumstances.

**Statutory Basis:** 7-9-100 NMSA 1978

**Intended Purpose:** To reduce the costs of constructing sole community provider hospitals.

**History:** Originally enacted in 2006.

**Evaluation:** According to the HCA, the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 established a rural community hospital demonstration project for five years to study a reasonable reimbursement methodology for such hospitals. Section 10313 of the Affordable Care Act (ACA) expanded and extended this demonstration for another five years until 2013. The extension for the federal pilot program expired, there are no federal matching funds to support the services provided at sole community provider hospitals. As a result, and based on information received from HCA, Tax & Rev is unaware of any recent new construction of sole community provider hospitals.

**Recommendations:** Because the ACA did not preclude an entity from building or making capital investments in rural (sole) community provider hospitals, the deduction could still fulfill its purpose as rural health facilities find alternative sources of funding for operations.

**Reliability Factor:** 1 - No new sole community provider hospitals were built in New Mexico over the last several years. No estimation is required.

**Fiscal Impact:** None.

# CONSTRUCTION OF SOLE COMMUNITY PROVIDER HOSPITALS GRT DEDUCTION

**Category:** Health Care

**Brief Description:** Receipts from the sale of engineering, architectural, and construction services to a foundation or nonprofit organization for use in the new facility construction of a sole community provider hospital located in a federally-designated health professional shortage area are deductible from gross receipts.

**Statutory Basis:** 7-9-99 NMSA 1978

**Intended Purpose:** To reduce the costs of constructing sole community provider hospitals.

**History:** Originally enacted in 2006.

**Evaluation:** According to the HCA, the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 established a rural community hospital demonstration project for five years to study a reasonable reimbursement methodology for such hospitals. Section 10313 of the Affordable Care Act expanded and extended this demonstration for another five years until 2013. The extension for the federal pilot program has expired, there are no more federal matching funds to support the services provided at sole community provider hospitals. As a result, and based on information received from HCA, Tax & Rev is unaware of any recent new construction of sole community provider hospitals.

**Recommendations:** Based on the presumption that the ACA did not preclude an entity from building or making capital investments in rural (sole) community provider hospitals, this deduction would be able to fulfill its purpose as rural health facilities find alternative sources of funding for operations.

**Reliability Factor:** 1 - No new sole community provider hospitals were built in New Mexico over the last several years. No estimation is required.

**Fiscal Impact:** None**.**

# CONTRIBUTIONS OF INVENTORY TO NONPROFIT ORGANIZATIONS OR GOVERNMENTAL AGENCIES DEDUCTION FROM COMPENSATING TAX

**Category:** Citizen Benefits

**Brief Description:** The value of tangible personal property that is removed from inventory and contributed to a United States or New Mexico government entity or the governing body of an Indian nation, tribe, or pueblo for use on an Indian reservation or pueblo grant or to 501(c)(3) organizations, is deductible in computing the compensating tax due.

**Statutory Basis:** 7-9-91 NMSA 1978

**Intended Purpose:** To incentivize the contribution of inventory to government entities and nonprofit organizations.

**History:** Originally enacted in 2001 and amended in 2025.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** No data is available to estimate the fiscal impact of this deduction.

**Fiscal Impact:** Unknown.

# CONVEYANCE OF LAND FOR CONSERVATION OR PRESERVATION FIFTY PERCENT CREDIT AGAINST PIT AND CIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Taxpayers may receive a credit against CIT or PIT for donations of land or interests in land if:

(1) the donation is for the purpose of open space, natural resource or biodiversity conservation, agricultural preservation or watershed or historic preservation by the landowner or taxpayer; and

(2) the entity receiving the donation is a public or private conservation agency eligible to hold the land and interests therein for conservation or preservation purposes. The credit equals 50% of the fair market value of land or interest therein that was donated.

The amount of the credit that may be claimed by a taxpayer shall not exceed $100,000 for a conveyance made prior to January 1, 2008, and shall not exceed $250,000 for a conveyance made on or after that date.

The credit is not refundable but may be transferred in increments of $10,000 or more or may be carried forward up to 20 years.

A taxpayer may claim one tax credit per taxable year.

**Statutory Basis:** 7-2-18.10 and 7-2A-8.9 NMSA 1978

**Intended Purpose:** These credits were enacted as part of the Land Conservation Incentives Act to encourage private landowners to be stewards of lands that are important habitat areas, or concern significant natural, open space, and historic resources. The credits encourage the protection of private land for open space, natural resources, biodiversity conservation, outdoor recreation, farmland and forest preservation, historic preservation, and land conservation purposes.

**History:** Originally enacted in 2003 and amended in 2007.

**Evaluation:** As demonstrated by the table below, for tax years 2022 through 2024, 329,841 acres of land, or interests therein, have been conveyed for preservation and conservation purposes. This roughly corresponds to total foregone revenue of $4.0 million to the State in the past three tax years. The average cost per acre from 2016 to 2024 is approximately $24. Based on the data, it appears the credit has met its intended purpose

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required. The data source for acres conserved is EMNRD, which collects the data during the certification process for this credit.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Conveyance of Land for Conservation or Preservation Fifty Percent Credit against PIT and CIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 48 | 53 | 19 |
| | **Acres Conserved** | 3,990 | 318,691 | 7,160 |
| | **Expenditure (thousands)** | $1,776 | $2,143 | $129 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 65 | 54 | 50 |
| | **Expenditure (thousands)** | $2,585 | $2,274 | $1,819 |

# CORPORATE-SUPPORTED CHILD CARE CREDIT AGAINST CIT

**Category:** Citizen Benefits

**Brief Description:** Corporations providing or paying for licensed childcare services for employees' children under 12 years of age may claim a credit equal to 30% of eligible expenses from their CIT liability for the tax year in which the expenses occur. This credit has a three-year carry forward. The credit may not exceed $30,000 per taxpayer in any taxable year.

**Statutory Basis:** 7-2A-14 NMSA 1978

**Intended Purpose:** To incentivize the provision of licensed childcare by corporations.

**History:** Originally enacted in 1983 and amended in 1986 and 1995. Repealed in 2025 with an effective date of July 1, 2025.

**Evaluation:** This credit has not been claimed for recent tax years.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:** None. The credit has not been claimed in the last three tax years.

This credit is repealed effective July 1, 2025. This will be the last time this credit is reported on in the annual Tax Expenditure Report.

# DISABLED PERSON
# EXEMPTION FROM MOTOR VEHICLE EXCISE TAX

**Category:** Citizen Benefits

**Brief Description:** An individual is exempt from the motor vehicle excise tax if they have a disability at the time the person purchases a vehicle and can prove to the Motor Vehicle Division of Tax & Rev or its agent, that modifications have been made to the vehicle that are:

(1) due to that person's disability; and

(2) necessary to enable that person to drive the vehicle or be transported in the vehicle.

**Statutory Basis:** 7-14-6(D) NMSA 1978

**Intended Purpose:** To lower the tax burden of purchasing a vehicle by individuals with a disability who need to modify their vehicles to drive them.

**History:** This exemption was originally enacted in 1988 and amended in 2007 to include Subsection D.

**Evaluation:** This tax expenditure meets its intended purpose of lowering the tax burden of disabled persons.

**Recommendations:** MVD interprets this exemption to require that the vehicle modification be made for the current purchaser's disability. A disabled person who purchases a used vehicle that was previously modified for a previous individual's disability is not eligible for this exemption. It may be the legislative intent for the exemption to only apply once over the life of the vehicle modifications. However, if the intent is to allow the exemption to be taken every time the vehicle changes ownership, the statute could be amended.

**Reliability Factor:** 3 - Information on the number of parking placards for mobility-impaired individuals was collected from MVD's Tapestry system. According to the Bureau of Transportation Statistics, 2.3% of disabled people have a specially modified vehicle. The national average prices of new and used vehicles were collected for each year and averaged together. In 2022, 6% of licensed drivers bought a new or used light vehicle. The total number of mobility-impaired placards was multiplied by the ratio of those with specially modified vehicles, then multiplied by 6% and then by the average price of a new and used vehicle. The resulting dollar amount was multiplied by the MVX rate of 4%. Higher car prices in recent years partly explain the increase in the estimate.

**Fiscal Impact:**

| **Disabled Person Exemption from MVX** | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | **Expenditure (thousands)** | $116 | $ 80 | $108 |

# DISABLED STREET VENDORS EXEMPTION FROM GRT

**Category:** Citizen Benefits

**Brief Description:** Receipts of disabled street vendors from the sale of goods are exempt from GRT.

**Statutory Basis:** 7-9-41.3 NMSA 1978

**Intended Purpose:** To eliminate the burden of having to file and pay GRT for disabled street vendors.

**History:** Originally enacted in 2007.

**Evaluation:** The compliance rate of the disabled vendors prior to the enactment of the exemption would be expected to be low, resulting in a minimal effective loss of revenue.

**Recommendations:** None.

**Fiscal Impact:** Unknown.

# DISABLED VETERAN EXEMPTION FROM PROPERTY TAX

**Category:** Citizen Benefits

**Brief Description:** Property owned by a disabled veteran, surviving spouse, or held in trust by a disabled veteran or the veteran's surviving spouse is exempt from property taxation in an amount equal to the percentage of the veteran's disability when occupied by the disabled veteran or surviving spouse as the principal place of residence. The exemption can remain on subsequently transferred property or attach to a new principal place of residency. Qualification of the exemption is done in collaboration between the Veterans' Services Department, county assessors and the Taxation and Revenue Department.

A "disabled veteran" is defined as an individual who:

(1) has been honorably discharged from membership in the armed forces of the United States or issued a discharge certificate by a branch of the armed forces for civilian service recognized by federal law as service in the armed forces; and

(2) has been determined by federal law to have a permanent and total service-connected disability.

**Statutory Basis:** 7-37-5.1 NMSA 1978

**Intended Purpose:** To ease the tax burden of individuals whose service in the armed forces resulted in disability.

**History:** Originally enacted in 2000 and amended in 2003, 2004, 2015, and 2025. The 2025 amendment is enabling legislation to implement November 2024 voter approved expansion of the exemption to allow an exemption based on the percentage of the veteran's disability. Previously, only veterans with a 100 percent disability were granted a full property tax exemption.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 2 - The fiscal impact is based on the reported number of taxpayers granted the disabled veteran exemption and the associated taxable value exempted in each county in annual County Assessor Evaluation Reports. The fiscal impact is rated a two as the exempted value by county is then multiplied by the weighted average residential mill rate for that county. The total fiscal impact is the sum of the county level estimates.

**Fiscal Impact:** The fiscal impact is shared amongst various taxing authorities that impose the property tax. These include school districts, local governments, special districts and the state general obligation bond debt service fund. Note: The 2025 amendment to proportion the amount of exemption to the percentage of disability becomes effective for property tax year 2026. Prior to tax year 2026, the fiscal impacts below represent veterans with a 100 percent disability and full exemption from property tax liability.

| | | | | |
|---|---|---|---|---|
| **Disabled Veteran Exemption from Property Tax** | **Tax Year** | 2021 | 2022 | 2023 |
| | **Claims** | 12,018 | 12,501 | 13,472 |
| | **Expenditure (thousands)** | $21,600 | $25,224 | $29,494 |

# DISABLED VETERANS EXEMPTION FROM SPECIAL BENEFIT ASSESSMENT UNDER PROPERTY TAX

**Category:** Citizen Benefits

**Brief Description:** Property owned by a disabled veteran, surviving spouse or held in trust by a disabled veteran or the veteran's surviving spouse is exempt from the imposition of a special benefit assessment under property taxation when occupied by the disabled veteran or surviving spouse as the principal place of residence.

A "disabled veteran" is defined as an individual who:

(1) has been honorably discharged from membership in the armed forces of the United States or issued a discharge certificate by a branch of the armed forces for civilian service recognized by federal law as service in the armed forces; and

(2) has been determined by federal law to have a one hundred percent permanent and total service-connected disability.

A "special benefit assessment" is defined as:

(1) an assessment or levy authorized by law for benefits, damages, construction, improvements or maintenance on property that is specially benefited by the benefits, damages, construction, improvements or maintenance.

**Statutory Basis:** 7-37-5.4 NMSA 1978

**Intended Purpose:** To ease the tax burden of individuals whose service in the armed forces resulted in disability.

**History:** Originally enacted in 2015.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** Insufficient data to estimate the fiscal impact.

**Fiscal Impact:** Unknown. In tax year 2023, 13,472 property owners qualified for the Disabled Veteran Exemption from Property Tax under 7-37-5.1 NMSA 1978. Data on the number of special benefit assessments across all counties that would impact disabled veterans property owners is not currently known to estimate a fiscal impact.

# DOH-LICENSED HOSPITALS
# SIXTY PERCENT GRT AND GGRT DEDUCTION

**Category:** Health Care

**Brief Description:** 60% of the receipts of hospitals licensed by the Department of Health (DOH) are deductible from gross receipts.

This deduction may be applied only to the taxable gross receipts remaining after all other appropriate deductions have been taken.

**Statutory Basis:** 7-9-73.1 NMSA 1978

**Intended Purpose:** To reduce the costs of hospital operations.

**History:** Originally enacted in 1991 and amended in 1993, 1995 and 2019.

The 2019 amendment increased the deduction amount from 50% to 60%, made the receipts of non-profit hospitals taxable at the State rate with the 60% deduction, and made the receipts of government owned hospitals subject to the governmental gross receipts tax with a 60% deduction.

**Evaluation:** The economic subsidy provided by this deduction against gross receipts and governmental gross receipts tax is a social policy decision taken to reduce the total cost borne by New Mexicans for hospital care.

**Recommendations:** None.

**Reliability Factor:** 2 - The estimate uses individual tax filings from qualifying entities and assumes hospitals claim the maximum deduction allowable against their liability. When available, Tax & Rev applied the tax rates applicable to each hospital.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **DOH-Licensed Hospitals Sixty Percent GRT Deduction** | **State General Fund Expenditure (thousands)** | $171,581 | $213,107 | $213,811 |
| | **Local Government Expenditure (thousands)** | $24,530 | $46,180 | $30,948 |

# DURABLE MEDICAL EQUIPMENT GRT AND GGRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from the sale or rental of durable medical equipment and supplies are deductible from gross receipts and governmental gross receipts tax. Qualified taxpayers must derive no less than 90 percent of their gross receipts from the sale or rental of durable medical equipment, supplies, or infusion therapy services and medications used in infusion therapy.

**Statutory Basis:** 7-9-73.3 NMSA 1978

**Intended Purpose:** To help protect jobs and retain businesses in New Mexico that sell or rent durable medical equipment and medical supplies.

**History:** Originally enacted in 2014. Amended in 2020 to extend the sunset date of the deduction from July 1, 2020, to July 1, 2030. The 2025 amendment revised reporting requirements and removed certain obsolete language.

**Evaluation:** This deduction removes the gross receipts tax burden from sellers that would otherwise pass it on to consumers of these medically necessary goods.

The expenditure is determined to be effective based on the utilization of the deduction and testimony from the industry.

**Recommendations:** None.

**Reliability Factor:** 2 – This deduction is separately reported. Despite being a separately reported deduction, the reliability factor for this deduction is a 2 to reflect that some taxpayers may be claiming this deduction in error and others may not be reporting under this deduction code. Tax & Rev will further analyze this data and taxpayer reporting of GRT deductions. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Durable Medical Equipment Deduction** | **Taxpayers** | 110 | 245 | 219 |
| | **State General Fund Expenditure (thousands)** | $5,600 | $19,600 | $10,200 |
| | **Local Government Expenditure (thousands)** | $3,600 | $13,100 | $6,800 |

# EDUCATION TRUST FUND PAYMENT DEDUCTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** A taxpayer may claim a deduction from net income in an amount equal to the payments made during the taxable year into the Education Trust Fund pursuant to an education investment agreement or prepaid tuition contract under the Education Trust Act in the taxable year for which the deduction is being claimed.

**Statutory Basis:** 7-2-32 NMSA 1978

**Intended Purpose:** To incentivize saving for various types of post-secondary education including vocational schools, community colleges and universities.

**History:** Originally enacted in 1997 and amended in 2023. The 2023 amendment expanded the definition of what types of education trust fund payments may be deductible from PIT for strictly college education trust fund payments to a broad array of post-secondary education schools.

**Evaluation:** The use of this incentive has been increasing over time. Between fiscal year 2023 and 2025, expenditures associated with this deduction have grown at an average rate of 28%.

**Recommendations:** None.

**Reliability Factor:** 2 - This deduction is separately reported. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Education Trust Fund Payment Deduction** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 5,595 | 5,816 | 5,665 |
| | **Expenditure (thousands)** | $2,529 | $2,496 | $2,480 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 5,662 | 5,872 | 6,420 |
| | **Expenditure (thousands)** | $2,356 | $2,671 | $2,993 |

# ENVIRONMENTAL MODIFICATIONS FOR MEDICAID RECIPIENTS GRT DEDUCTION

**Category:** Health Care

**Brief Description:** Beginning July 1, 2024, and prior to July 1, 2034, receipts of an eligible provider for environmental modifications on a recipient's home that are necessary to ensure the recipient's health, welfare and safety which are reimbursed by the medical assistance division of the Health Care Authority may be deducted from gross receipts.

Select definitions:

(1) "environmental modifications" include the purchasing and installing of equipment to provide physical safety adaptions on a recipient's home to increase their ability to act independently.

(2) "Medicaid" is the medical assistance program established pursuant to Title 19 of the federal Social Security Act.

(3) "recipient" is a person eligible for Medicaid-related services through a waiver program granted by the Federal Department of Health and Human Services.

**Statutory Basis:** 7-9-73.4 NMSA 1978

**Intended Purpose:** To increase the number of Medicaid-related services a Medicaid recipient may receive to ensure the recipient's health, welfare and safety. Medicaid recipients under a waiver program receive an annual budget to purchase services, which includes covering all related taxes. Reducing the amount of GRT on services allows more of the recipient's annual budget to be used for direct care.

**History:** Originally enacted in 2024.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 4 – Tax & Rev cannot track the amount of this deduction as there is no statutory requirement for separately reporting. Data from the HCA on environmental modifications for Medicaid waiver participants was used to calculate the cost of this expenditure. The estimated deduction is multiplied by the statewide average GRT rate to estimate the cost.

**Fiscal Impact:**

| | | |
|---|---|---|
| **Environmental Modifications for Medicaid Recipients Deduction** | **Fiscal Year** | 2025 |
| | **State General Fund Expenditure (thousands)** | $1,260 |
| | **Local Government Expenditure (thousands)** | $840 |

# ELECTRIC TRANSMISSION AND STORAGE FACILITIES GRT AND COMPENSATING TAX DEDUCTION

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Receipts from selling equipment to the New Mexico Renewable Energy Transmission Authority ("RETA") or an agent or lessee of the authority are deductible from gross receipts if the equipment is installed as part of an electric transmission facility or an interconnected storage facility acquired by the RETA, pursuant to the New Mexico Renewable Energy Transmission Authority Act.

The value of equipment installed as part of an electric transmission facility or an interconnected storage facility acquired by the authority pursuant to the New Mexico Renewable Energy Transmission Authority Act, is deductible in computing the compensating tax due.

**Statutory Basis:** 7-9-101 and 7-9-102 NMSA 1978

**Intended Purpose:** To encourage the development of renewable energy transmission infrastructure in New Mexico.

**History:** Both deductions were originally enacted in 2007 as part of legislation that enacted the New Mexico Renewable Energy Transmission Authority Act.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** The 2020 and 2022 annual reports from RETA indicate bond issuance and that projects are in construction or completed. The Western Spirit transmission project was completed during this time frame and began operation in December 2021. Further data is needed to determine if associated receipts from these projects qualify for this deduction.

**Fiscal Impact:** Unknown.

# ELECTRIC TRANSMISSION AND STORAGE FACILITIES SERVICES GRT DEDUCTION

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Receipts from providing services to the New Mexico Renewable Energy Transmission Authority (RETA) or an agent or lessee of RETA for the planning, installation, repair, maintenance or operation of an electric transmission facility or an interconnected storage facility acquired by the authority pursuant to the RETA Act, are deductible from gross receipts.

**Statutory Basis:** 7-9-103 NMSA 1978

**Intended Purpose:** The deduction is intended to encourage the development of renewable energy transmission infrastructure in New Mexico.

**History:** Originally enacted in 2007 as part of legislation that enacted the New Mexico Renewable Energy Transmission Authority Act.

**Evaluation:** None.

**Recommendations:** It would be beneficial for RETA to provide data on the status of its current and planned operations as this and other RETA-based deductions have shown very little utilization in recent years.

**Reliability Factor:** Unlike other electricity GRT deductions where some reporting has been initiated, there is no separate reporting of this GRT deduction. Further research and data from RETA, may allow for determination of taxpayers claiming this deduction.

**Fiscal Impact:** Unknown.

# ELECTRICITY CONVERSION GRT DEDUCTION

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Receipts from the transmission of electricity where voltage source conversion technology is employed to provide such services, and from ancillary services, are deductible from gross receipts.

This deduction works in tandem with the electricity exchange deduction provided in Section 7-9-103.2 NMSA 1978.

**Statutory Basis:** 7-9-103.1 NMSA 1978

**Intended Purpose:** To encourage businesses using voltage source conversion technology to locate in New Mexico.

**History:** Originally enacted in 2012. Amended in 2025 to require separate reporting by taxpayers starting July 1, 2025.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 3 –Starting July 1, 2025, taxpayers must separately report this deduction per statute. The reliability factor for this deduction is a 3 to reflect that some taxpayers may have claimed this deduction in error prior to July 1, 2025, and others may not be reporting under this deduction code. Tax & Rev will analyze data on future separate reporting. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Electricity Conversion GRT Deduction** | **Taxpayers** | 11 | 59 | 45 |
| | **State General Fund Expenditure (thousands)** | $ 1,125 | $5,609 | $2,729 |
| | **Local Government Expenditure (thousands)** | $ 729 | $3,712 | $1,797 |

# ELECTRICITY EXCHANGE GRT DEDUCTION

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Receipts from the transaction and exchange of electric power, as a part of the transmission of electricity where voltage source conversion technology is employed to provide such services and from ancillary services, are deductible from gross receipts.

This deduction works in tandem with the electricity conversion deduction provided in Section 7-9-103.1 NMSA 1978.

**Statutory Basis:** 7-9-103.2 NMSA 1978

**Intended Purpose:** To encourage the location of electricity exchanges in New Mexico.

**History:** Originally enacted in 2012. Amended in 2025 to require separate reporting by taxpayers starting July 1, 2025, and consent to reveal return information to comply with reporting of the Tax Expenditure Report.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 3 –Starting July 1, 2025, taxpayers must separately report this deduction per statute. The reliability factor for this deduction is a 3 to reflect that some taxpayers may have this deduction in error prior to July 1, 2025, and others may not be reporting under this deduction code. Tax & Rev will analyze data on future separate reporting. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Electricity Exchange GRT Deduction** | **Taxpayers** | 566 | 188 | 142 |
| | **State General Fund Expenditure (thousands)** | $4,331 | $8,473 | $9,822 |
| | **Local Government Expenditure (thousands)** | $2,839 | $5,607 | $6,467 |

# EXCESS OF ELDERLY TAXPAYERS MAXIMUM PROPERTY TAX LIABILITY REBATE FROM PIT

**Category:** Citizen Benefits

**Brief Description:** Taxpayers who are 65 and older may claim a PIT rebate for their property tax that exceeds the maximum liability, ranging from $20 to $300 depending on the taxpayer's modified gross income. A taxpayer whose modified gross income exceeds $16,000 is not eligible for the rebate unless county in which the taxpayer's principal place of residence has a resolution authorizing a $25,000 gross income cap. This rebate is refundable.

**Statutory Basis:** 7-2-18 NMSA 1978

**Intended Purpose:** To offset the property tax costs for taxpayers who are often on fixed income.

**History:** Originally enacted in 1977 and amended in 1981, 1993, 1997, 1999, and 2003. Currently, no counties have passed a resolution increasing to the $25,000 gross income cap.

**Evaluation:** According to the U.S. Census Bureau, the number of people over 65 who are in the labor force is increasing. By continuing to work, the likelihood is that these seniors' income exceeds the statutory threshold so that they no longer qualify for this rebate. Also, some seniors rely on social security income, which is annually adjusted for cost-of-living. These adjustments may push some taxpayer's income over the eligibility threshold. Since the income thresholds and the rebate amounts are not indexed to inflation, the beneficiary taxpayer group as well as the real value of the rebate shrinks over time.

**Recommendations:** None.

**Reliability Factor:** 1 - This rebate is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Excess of Elderly Taxpayers Maximum Property Tax Liability Rebate from PIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 13,900 | 11,987 | 10,936 |
| | **Expenditure (thousands)** | $2,908 | $2,502 | $2,277 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 14,727 | 12,628 | 11,779 |
| | **Expenditure (thousands)** | $3,082 | $2,637 | $2,450 |

# FEES FROM SOCIAL ORGANIZATIONS EXEMPTION FROM GRT

**Category:** Citizen Benefits

**Brief Description:** Receipts from dues and registration fees of nonprofit social, fraternal, political, trade, labor, or professional organizations and business leagues, are exempt from GRT.

**Statutory Basis:** 7-9-39 NMSA 1978

**Intended Purpose:** To reduce the tax burden of certain nonprofit entities.

**History:** Originally enacted in 1969 and amended in 1977.

**Evaluation:** With no direct data, a proper evaluation is difficult.

**Recommendations:** For clarity and consistency with other statutes addressing nonprofits, reference the United States Internal Revenue Code organization subsections that correspond to the description of organizations and leagues in statute.

**Reliability Factor:** 4 – The Internal Revenue Service (IRS) releases data for many nonprofits exempt from federal income tax who file an annual Form 990 Return. The National Center for Charitable Statistics (NCSS) has assembled IRS Form 990 data to report aggregate statistics by state. State-level data is available for total revenue and total assets by nonprofits sub-divided by the IRS subsections for 501(c). Assumptions are made as to which 501(c) organizations this statute applies to and the corresponding percentage of revenue coming from dues and fees. This percentage was assumed to be 75% based on the requirements for exemption for social clubs from the IRS.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Fees from Social Organizations Exemption from GRT** | **State General Fund Expenditure (thousands)** | $142 | $181 | $13 |
| | **Local Government Expenditure (thousands)** | $92 | $118 | $9 |

# FEMININE HYGIENE PRODUCTS GRT DEDUCTION

**Category:** Citizen Benefits

**Brief Description:** Receipts from the sale of feminine hygiene products may be deducted from gross receipts and governmental gross receipts.

As used in this section, “feminine hygiene products" means tampons, menstrual pads and sanitary napkins, pantiliners, menstrual sponges and menstrual cups.

**Statutory Basis:** 7-9-120 NMSA 1978

**Intended Purpose:** To reduce the financial cost for consumers who require these products.

**History:** Originally enacted in 2022.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 3 - This deduction is separately reported. Despite being a separately reported deduction, the reliability factor for this deduction is a 3 to reflect that some taxpayers may be claiming this deduction in error and others may not be reporting under the correct deduction code. Tax & Rev will further analyze this data and taxpayer reporting of GRT deductions. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Feminine Hygiene Products GRT Deduction** | **Taxpayers** | 33 | 43 | 25 |
| | **State General Fund Expenditure (thousands)** | $93 | $56 | $73 |
| | **Local Government Expenditure (thousands)** | $59 | $37 | $49 |

# FILM AND TELEVISION
# CREDIT AGAINST PIT AND CIT

**Category:** Economic Development

**Brief Description:** For film production companies that commence principal photography on or after January 1, 2016, a refundable credit against PIT or CIT is available for 25% of direct production and postproduction expenditures made in New Mexico that are subject to taxation by the State of New Mexico and directly attributable to the production of a film or commercial audiovisual product. Under 2025 legislation, obsolete statutory language for credits available for the time period of 2016 to 2019 was repealed effective July 1, 2025.

For production companies that commence principal photography on or after July 1, 2019, the film credit is referred to as the "new film production tax credit." Additional amendments to the credit in the 2023 legislative session created additional criteria for receiving a film credit which apply to the commencement of principal photography after July 1, 2023.

The following applied to film production between July 1, 2019, and July 1, 2023:

An additional 5% credit is available for direct production expenditures for television pilots and series with at least six episodes in a single season and a budget of at least $50,000 per episode. The additional 5% also applies to direct production expenditures that are directly attributable to the wages and fringe benefits paid to a New Mexico resident directly employed in an industry crew position, excluding a performing artist, on a production with a total budget of:

(1) not more than $30,000,000 that shoots at least ten principal photography days at a qualified production facility in New Mexico; or

(2) $30,000,000 or more that shoots at least fifteen principal photography days at a qualified production facility in New Mexico.

For the "new film" tax credit, an additional 5% credit is available for direct production and postproduction expenditures for qualified film and television production located at least 60 miles outside of Bernalillo and Santa Fe Counties.

The following applies to film production on or after July 1, 2023:

An additional 10% credit shall be applied for payments for direct production expenditures and postproduction expenditures. For work, services or items provided on location for production of a film or commercial audiovisual product that is in New Mexico but at least 60 miles from the city hall of the

county seat of Class A counties with a net taxable value of property for property taxation purposes of greater than $7.5 billion.

An additional 5% credit is available for either direct production expenditures for television pilots and series with at least six episodes in a single season or meeting criteria for the use of qualified production facilities, which are different building sites intended for regularly producing films.

A non-resident below-the-line crew credit is available in an amount equal to 15% of the payment of wages for below-the-line nonresident industry crew when certain criteria are met.

An aggregate annual cap limits payouts of the film production tax credit to $110 million across both PIT and CIT programs for fiscal years prior to 2024. For fiscal year 2024 through fiscal year 2028, the annual cap is increased by $10 million in each fiscal year. For fiscal year 2029 and subsequent fiscal years, the cap is $160 million. New Mexico film partners, defined as having made a 10 year or more commitment by purchasing or entering a 10-year contract to lease a qualified production facility, are excluded from the annual cap for productions that commenced principal photograph after July 1, 2019.

**Statutory Basis:** 7-2F *et seq.* NMSA 1978

**Intended Purposes:** The purposes and goals of the film production tax credit are to:

1. establish the film industry as a permanent component of the economic base of New Mexico;
2. develop a pool of trained professionals and businesses in New Mexico to supply and support the film industry in the state;
3. increase employment of New Mexico residents;
4. improve the economic success of existing businesses in New Mexico; and
5. develop the infrastructure in the state necessary for a thriving film industry.

**History:** Originally enacted in 2002 and amended in 2003, 2005, 2006, 2007, 2011, 2013, 2015, 2016, 2019, 2023, and 2025.

The 2011 amendment added a $50 million cap, provided tracking requirements, required film production companies to submit the application/claim within one year after making their final expenditure in New Mexico, and required mandatory income tax withholding on non-resident actors. Although the 2011 amendment capped the annual payout to $50 million, it did not stop credits from being approved for payment in subsequent years, thereby creating a $127 million backlog of approved but unpaid credits that were ultimately repaid in FY2019 and FY2020.

The 2013 amendment allowed the additional 5% to be added to the calculation for the film production tax credit for television shows subject to certain requirements; also allowed for any amount of annual film credit that

was unused in Fiscal Years 2013-2015 under the $50 million cap — up to a maximum of $10 million — to be carried forward and added into the subsequent fiscal year's cap; in any year where the $50 million cap was not reached, if there were amounts that would be paid in a subsequent year under the multi-year provisions of the film credit, those subsequent year amounts may be paid in the current year up to the $50 million cap; provided more specific requirements for withholding taxes related to services provided by artists under the "direct production expenditures" provisions of the credit, and provided for a definition of "qualified production facility" and clarified tax obligations of non-resident vendor services.

In 2015, the film and television tax credit added credits for television pilots and series, qualified production facilities, non-resident industry crews, limited payments for performing artists, and added requirements to contract with certain vendors. An additional amendment added a provision for a film production company that is eligible to receive a film production credit, to assign payment of all or a portion of the credit to either a third-party financial institution or another authorized third party. The 2015 amendment had no impact on the time periods covered by this report.

The 2019 amendment allowed for an additional credit of 5% for direct expenditures of qualified film and television productions located more than 60 miles outside of the boundaries of Bernalillo and Santa Fe counties, and increased the annual cap of the credit from $50 million to $110 million. The 2019 expanded cap excludes credits paid to New Mexico film partners that have made a 10 or more year commitment by purchasing property or entering a lease of a qualified film production facility in New Mexico.

The 2023 amendment increased the fiscal year annual cap by $10 million per year for fiscal years 2024 through 2028, reaching $160 million and then holds the cap at $160 million for fiscal year 2029 and beyond. The amendment created an additional amount of credit for payments applied to direct production expenditures by a New Mexico film partners and changed other additional amounts for expenditures including the amounts for nonresident below the line crew.

The 2025 amendment repealed sections 7-2F-1, 7-2F-2.1 and sections 7-2F-6 through 7-2F-11 NMSA 1978 effective July 1, 2025. These sections applied to obsolete credit language for productions between 2016 and 2019.

**Evaluation:**

The film and television industry is highly competitive, with many states and countries competing to incentivize film and television production in their location. The incentive has been extremely effective in attracting major film and television productions. Recent amendments have increased filming in rural locations, and may incentivize film production companies to make long-term investments in New Mexico. The lower credit amount for FY2025 is seen as the lag impact of the slowdown in the industry due to strikes and taxpayer behavior as to when they decide to claim credits.

For recent studies and presentations on the impact of the film credit for New Mexico and the economy, see "Economic Impact of the New Mexico Film @Production Tax Credit Update," by the New Mexico Film Office, Economic Development Department, December 19, 2022, see: NM-Film-Study-Update-2022-2.pdf
https://nmfilm.com/assets/uploads/NM-Film-Study-Update-2022-2.pdf

And, "New Mexico Film Incentives: Update and Analysis," by economist Brendon Gray at the Legislative Finance Committee, September 27, 2023, see: ALFC 092723 Item 3 Film Production Tax Credit Update and Analysis.pdf, https://www.nmlegis.gov/handouts/ALFC%20092723%20Item%203%20Film%20Production%20Tax%20Credit%20Update%20and%20Analysis.pdf

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Film and Television Credit Against PIT and CIT** | **Credits subject to Film cap (thousands)** | $100,237 | $92,630 | $28,705 |
| | **Film Partners (thousands)** | $3 | $9,536 | $5,260 |
| | **Total Expenditure (thousands)** | $100,240 | $102,166 | $33,966 |

# FOSTER YOUTH EMPLOYMENT CREDIT AGAINST PIT AND CIT

**Category:** Citizen Benefits

**Brief Description:** A taxpayer who is not a dependent of another taxpayer and employs a qualified foster youth in New Mexico is eligible for a credit against the taxpayer's PIT or CIT liability. The credit amount is up to $1,000 of gross wages paid during the taxable year and may be claimed for multiple qualified foster youth, but the credit must be claimed within one calendar year from the date of hire.

A "qualified foster youth" is defined as an individual:

(1) who:

(a) is currently in the legal custody of the Children, Youth and Families Department or a New Mexico Indian nation, tribe or pueblo or the United States Department of the Interior, Bureau of Indian Affairs, Division of Human Services; or

(b) within the seven years prior to the taxable year for which the credit is claimed was aged 14 years or older and was in the legal custody of the Children, Youth and Families Department or a New Mexico Indian nation, tribe or pueblo or the United States Department of the Interior, Bureau of Indian Affairs, Division of Human Services.

(2) who works at least 20 hours per week during the taxable year for which the credit is claimed; and

(3) who was not previously employed by the taxpayer during the prior taxable year.

Any portion of credit that is not used against the taxpayer's liability may be carried forward for up to three years. This credit cannot be transferred to another taxpayer, but it can be allocated based on a taxpayer's ownership interest in a business.

**Statutory Basis:** 7-2-18.30 and 7-2A-29 NMSA 1978

**Intended Purpose:** To encourage the employment of individuals who as youth were adjudicated as abused or neglected or who were in the legal custody of the Children, Youth and Families Department or a New Mexico Indian nation, tribe or pueblo or the United States Department of the Interior, Bureau of Indian Affairs, Division of Human Services.

**History:** Originally enacted in 2018. Repealed in 2025 with an effective date of July 1, 2025.

**Evaluation:** Tax expenditures that target the hiring of individuals who may have difficulty entering the work force have precedent with the current federal Work Opportunity Tax Credit. The federal credit targets several employee groups and has successfully been administered at the federal level. Research supports foster youth appearing to have high unemployment rates in the work force. To date, the state credit has never been claimed. Based on a comparison to the federal credit, the certification process and the relatively low credit amount may be impediments to employers considering the credit.

**Recommendation:** None.

**Reliability Factor:** 1 – The credit is separately reported. No estimation is required.

**Fiscal Impact:** None. This credit has never been claimed.

This credit was repealed effective July 1, 2025. This will be the last time this credit is reported on in the annual tax Expenditure Report.

# FUEL FOR SPACE VEHICLES
# EXEMPTION FROM GRT AND COMPENSATING TAX

**Category:** Highly Specialized Industry

**Brief Description:** Receipts from the sale and the use of fuel, oxidizer, or a substance that combines fuel and oxidizer to propel space vehicles or to operate space vehicle launchers are exempt from GRT and compensating tax.

**Statutory Basis:** 7-9-26.1 NMSA 1978

**Intended Purpose:** To incentivize launches at Spaceport America and elsewhere in the state.

**History:** Originally enacted in 2003 as part of legislation exempting several space-related activities from GRT and compensating tax.

**Evaluation:** Publicly available information published by Spaceport America, in 2017 a company expanded at the Spaceport to include manufacturing fueled motors. Two other operators that would require refueling activities have also made significant investments at the site and others have signed partnerships with the Spaceport Authority. Additionally, a space focused small business relocated its headquarters to New Mexico, but progress on actual launches appears to be sporadic.

**Recommendations:** Consider replacing this exemption with a separately reported deduction to allow estimation of the associated fiscal impact.

**Reliability Factor:** No data is available to estimate the fiscal impact, but it is probably minimal. Without a reporting requirement, it is difficult to ascertain the size of this exemption.

**Fiscal Impact:** Unknown.

# FUTURE DISTRIBUTION TO A NONRESIDENT BENEFICIARY DEDUCTION FROM PIT

**Category:** Economic Development

**Brief Description:** A taxpayer that is an estate or trust may claim a deduction from net income in the amount equal to income set aside for future distribution to a nonresident individual beneficiary. The deduction excludes income derived from New Mexico real property, oil and gas, and water interests as well as income that the estate or trust would allocate or apportion to New Mexico.

**Statutory Basis:** 7-2-38 NMSA 1978

**Intended Purpose:** To increase estate and trust business in New Mexico.

**History:** Originally enacted in 2019. This deduction sunset on January 1, 2025.

**Evaluation:** Further data would be needed to assess whether this deduction increased estate and trust business in New Mexico. Although most states tax all income of resident trusts and then offer a credit for taxes paid to another state on trust income, New Mexico is different. New Mexico allows trust income to be apportioned. Apportioning trust income outside of New Mexico means that it is not subject to New Mexico tax and no credit for taxes paid to other states is needed. This deduction allowed trust income owed to a non-resident beneficiary to be deducted; that did not seem necessary since New Mexico allows it to be apportioned elsewhere to avoid taxation in New Mexico. Further, providing a benefit to resident trusts but not to non-resident trusts may violate the commerce clause of the United States Constitution.

**Recommendation:** None.

**Reliability Factor:** 2 – This expenditure is calculated directly using taxpayer data as the deduction is separately reported on fiduciary income tax returns. The reliability factor is at a 2 given there is a degree of estimation involved under a fiduciary income tax return.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Future Distribution to a Non-Resident Beneficiary Deduction from PIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 130 | 132 | 102 |
| | **Expenditure (thousands)** | $323 | $192 | $278 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 107 | 128 | 121 |
| | **Expenditure (thousands)** | $884 | $1,852 | $265 |

# GEOTHERMAL ELECTRICITY GENERATION-RELATED SALES AND USE GRT AND COMPENSATING TAX DEDUCTION

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Beginning January 1, 2025, and prior to July 1, 2032, receipts from the sale of tangible personal property or services associated with constructing and equipping a geothermal electricity generation facility may be deducted from gross receipts or compensating tax. The tangible personal property or services must be related to the construction or equipping of a geothermal electricity generation facility or for sales of tangible personal property used in the distribution of electricity to a geothermal electricity generation facility.

The sale must be made to a person who holds an interest in a geothermal electricity generation facility and who delivers a nontaxable transaction certificate to the seller or provides alternative evidence pursuant to Section 7-9-43 NMSA 1978.

Select definitions:

(1) "geothermal electricity generation facility" means a new facility built on or after January 1, 2025, or an existing facility which after January 1, 2025, increases the amount of electricity generated from geothermal resources by at least one hundred percent.

(2) "geothermal resources" is the natural heat below the surface of the earth which is extracted through different forms in excess of two hundred fifty degrees Fahrenheit and may heat or cool buildings through on-site geoexchange heat pumps or other systems.

**Statutory Basis:** 7-9-112.1 NMSA 1978

**Intended Purpose:** To encourage investment in geothermal electricity generation and promote renewable energy development.

**History:** Originally enacted in 2024 and amended in 2025.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | Fiscal Year | 2025 |
|---|---|---|
| **GRT Deduction – Constructing and Equipping a Geothermal Generation Facility** | **Taxpayers** | 18 |
| | **State General Fund Expenditure (thousands)** | $99 |
| | **Local Government Expenditure (thousands)** | $65 |
| **GRT Deduction – Geothermal Electricity Distribution System Installation** | **Taxpayers** | <3 |
| | **State General Fund Expenditure (thousands)** | -- |
| | **Local Government Expenditure (thousands)** | -- |
| **GRT Deduction – Geothermal Generation Facility Construction Plant Costs** | **Taxpayers** | <3 |
| | **State General Fund Expenditure (thousands)** | -- |
| | **Local Government Expenditure (thousands)** | -- |

TABLE NOTE: "--" Means data is redacted due to fewer than 3 taxpayers.

# GEOTHERMAL GROUND-COUPLED HEAT PUMP CREDIT AGAINST PIT AND CIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** A taxpayer who purchases and installs after January 1, 2024 but before December 31, 2034[38] a geothermal ground-coupled heat pump in a residence, business, or agricultural enterprise in New Mexico may claim a credit up to 30% of the purchase and installation costs against PIT or CIT. For credits prior to tax year 2024, the portion of the unused credit may be carried forward for a maximum of 10 consecutive years. For credits issued for tax year 2024 and after, the credit is refundable. The total geothermal ground-coupled heat pump tax credit allowed to a taxpayer shall not exceed $9,000. The department may allow a maximum annual aggregate of $8 million in geothermal ground-coupled heat pump tax credits. EMNRD certifies taxpayer credits.

A "geothermal ground-coupled heat pump" is a device that provides space or water heating or cooling via direct or indirect utilization of heat below the surface of the earth.

**Statutory Basis:** 7-2-18.24 and 7-2A-24 NMSA 1978

**Intended Purpose:** To foster adoption of geothermal ground-coupled heat pumps.

**History:** Originally enacted in 2009 and amended in 2024 and 2025. The 2024 amendment extended the sunset date from 2020 to 2034, made the credit refundable, and increased the annual aggregate amount of credits allowed to $4 million from $2 million.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

[38] Prior law before amended in 2024, effective May 15, 2024, installation had to occur after January 1, 2010 and before December 31, 2020.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Geothermal Ground-Coupled Heat Pump Credit against PIT and CIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 74 | 41 | 22 |
| | **Expenditure (thousands)** | $91 | $43 | $19 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 81 | 47 | 25 |
| | **Expenditure (thousands)** | $111 | $54 | $22 |

# GOODS AND SERVICES FOR THE DOD RELATED TO DIRECTED ENERGY AND SATELLITES GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Prior to January 1, 2031, receipts from the sale by a qualified contractor of qualified research and development services and qualified directed energy and satellite-related inputs, may be deducted from gross receipts when sold pursuant to a contract with the U.S. Department of Defense.

A taxpayer allowed a deduction pursuant to this section shall report the amount of the deduction separately in a manner required by Tax & Rev.

Definitions:

(1) "directed energy" means a system, including related services, that enables the use of the frequency spectrum, including radio waves, light and x-rays;

(2) "inputs" means systems, subsystems, components, prototypes and demonstrators or products and services involving optics, photonics, electronics, advanced materials, nanoelectromechanical and microelectromechanical systems, fabrication materials and test evaluation and computer control systems related to directed energy or satellites.

**Statutory Basis:** 7-9-115 NMSA 1978

**Intended Purpose:** To promote new and sophisticated technology, enhance the viability of directed energy and satellite projects, attract new projects and employers to New Mexico and increase high-technology employment opportunities in New Mexico.

**History:** Originally enacted in 2015, amended in 2019 and 2025. The 2019 amendment extended the sunset by 10 years to January 1, 2031. The 2025 amendment revised reporting requirements.

**Evaluation:** The deduction has incentivized the growth of this advanced technology industry in New Mexico as demonstrated by the growth in the use of the deduction.

**Recommendations:** None.

**Reliability Factor:** 2 - This deduction is separately reported. Despite being a separately reported deduction, the reliability factor for this deduction is a 2 to reflect that some taxpayers may be claiming this deduction in error. Tax & Rev will further analyze this data and taxpayer reporting of GRT deductions.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **DoD Directed Energy and Satellites Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Taxpayers** | 25 | 39 | 39 |
| | **State General Fund Expenditure (thousands)** | $5,522 | $14,039 | $11,161 |
| | **Local Government Expenditure (thousands)** | $3,531 | $9,359 | $7,441 |

# HEAD-OF-FAMILY EXEMPTION FROM PROPERTY TAX

**Category:** Citizen Benefits

**Brief Description:** Property owned by the head of a family who is a New Mexico resident, or property held in trust for the head of a family, is eligible for a $2,000 exemption from property taxation. The exemption shall be deducted from the taxable value of the property to determine the net taxable value of the property. The exemption may only be granted in one county in any tax year.

"Head of a family" is defined as a New Mexico resident who is either:

(1) A married person, but only one spouse in the household may qualify for the exemption; or

(2) A widow or widower; or

(3) A head of household who contributes more than one-half of the cost to support any related person; or

(4) A single person, but only one person in a household may qualify for the exemption; or

(5) A member of a condominium association or like entity who pays the property tax through the association.

**Statutory Basis:** 7-37-4 NMSA 1978

**Intended Purpose:** The exemption supports home ownership and building capital for New Mexico residents and their families.

**History:** Originally enacted in 1973 and amended in 1983, 1989, 1991, and 1993.

**Evaluation:** None.

**Recommendations:** To ensure that inflation does not erode the value of this exemption, the $2,000 exemption amount established in 1993 could be re-indexed for inflation and thereafter adjusted annually for inflation.

**Reliability Factor:** 2 - The fiscal impact is based on the reported number of taxpayers granted the head-of-family exemption and the associated taxable value exempted in each county in the annual County Accessor Evaluation Reports. The fiscal impact is rated a two as the exempted value by county is then multiplied by the weighted average residential mill rate for that county. The total fiscal impact is the sum of the county level estimates. Tax Year 2023 is the most recent data available.

**Fiscal Impact:** The fiscal impact is shared by various taxing authorities that impose the property tax. These include school districts, local governments, special districts and the state general obligation bond debt service fund.

| | | | | |
|---|---|---|---|---|
| **Head-of-Family Exemption from Property Tax** | **Tax Year** | 2021 | 2022 | 2023 |
| | **Claims** | 284,260 | 278,532 | 276,111 |
| | **Expenditure (thousands)** | $16,831 | $17,367 | $17,087 |

# HEALTH CARE PRACTITIONER SERVICES
# GRT DEDUCTION AND HOLD HARMLESS DISTRIBUTION

**Category:** Health Care

**Brief Description:** Receipts of licensed health care practitioners from payments by managed health care providers or by health care insurers for commercial contract services or by Medicare Part C services provided by a health care practitioner, are deductible from gross receipts.

The deduction is separately reported. In 2016, Section 7-1-69.2 was enacted to add a penalty for incorrectly filing for this deduction instead of claiming other exemptions or deductions that must be taken first, resulting in a hold harmless distribution. The penalty is equal to 20% of the value of the hold harmless distribution resulting from the incorrect deduction.

The originating legislation provided for local governments to be held harmless from revenue losses associated with this deduction. Under 2013 legislation, hold harmless distributions were to be phased out over 15 years with exceptions for certain small municipalities and counties. Legislation in 2022 provided for additional exceptions to the phaseout for municipalities with a population over 10,000 and that had not enacted a local-option GRT hold harmless rate. Depending on the municipality's poverty level, as determined by the American Community Survey, the hold harmless distribution no longer phases-out but holds at either 30%, 50% or 80%.

**Statutory Basis:** 7-9-93, 7-1-6.46, and 7-1-6.47 NMSA 1978

**Intended Purpose:** To recruit and retain health care providers in the state.

**History:** All three sections of law were originally enacted in 2004 and amended in 2006 and 2007. Sections 7-1-6.46 and 7-1-6.47 NMSA 1978 were amended in 2013 to initiate the phaseout of local hold harmless distributions. Section 7-9-93 was amended in 2016, following case law that allowed the deduction to be claimed by hospitals, to reinstate the presumed original intention of the deduction by clarifying that the deduction is restricted to health care practitioners only and not hospitals. Section 7-9-93 was amended in 2021 to clarify that physician practice groups are eligible to claim the GRT deduction. Sections 7-1-6.46 and 7-1-6.47 NMSA 1978 were amended in 2022 to make exceptions to the phaseout of the hold harmless distributions.

A 2023 amendment to 7-9-93 NMSA 1978 temporarily expands the deduction to include all receipts from copayments and deductibles paid by an insured to a healthcare practitioner for commercial contract services provided under health insurance until June 30, 2028. A 2024 amendment to 7-9-93 NMSA 1978 clarified the definition of a copayment. 2025 amendments deleted certain obsolete language and clarified language in all three sections.

**Evaluation:** Because of the local hold harmless provision and the loss of the revenue, this deduction comes at a significant cost to the State General Fund.

**Recommendations:** None.

**Reliability Factor:** 1 – This deduction is separately reported. No estimation is required. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Health Care Practitioner Services GRT Deduction and Hold Harmless Distribution** | **State General Fund Expenditure from Local Hold Harmless Distributions (thousands)** | $15,282 | $16,565 | $18,941 |
| | **State General Fund Expenditure from Deduction (thousands)** | $37,203 | $44,239 | $54,912 |
| | **Net State General Fund Expenditure (thousands)** | **$52,485** | **$60,804** | **$73,853** |
| | **Local Government Expenditure from Deduction (thousands)** | $24,103 | $28,993 | $35,988 |
| | **Net Local Government Expenditure** | **$8,821** | **$12,428** | **$17,047** |
