**Business environment** – a tax exemption that encourages competitiveness with other states by impacting the tax burden of business entities that engage in specific activities that include holding or maintaining inventory or property in the state, using for deriving benefit from water, electric power, energy or any other utility type resources, or buying, leasing, renting or selling machines or equipment used for the production, modification, creation or facilitation of tangible personal property in the state, or using consumables in the manufacturing process that does not become part of the final product

**Corporate income tax formula** – a tax exemption that is unique or specific to Louisiana and relates to assisting, guiding or aiding a business entity in determining the amount of its income for Louisiana tax purposes

**Dealers and vendors compensation and discounts** – a tax exemption that encourages either the timely filing of a return, report, form or document or the timely payment of a tax, fee or other amount due. The discount for tobacco stamps is the only one not based on timely filing and/or payment; it is to provide a volume discount and to compensate dealers for expenses related to tax collection.

**Educational breaks for educational institutions** – a tax exemption that pertains to an entity that engages in a specified activity that provides or facilitates the act of learning, or an entity or institution that provides or facilitates learning

**Educational breaks for taxpayers** – a tax exemption that pertains to an individual or business who engages in a specified activity that is beneficial to, or provides or facilitates the act of learning

**Federally imposed exemption** – a tax exemption that is based on a prohibition of taxation in the U.S. Constitution or a federal statute

**Health care/medical** – a tax exemption that was created to assist taxpayers providing health care or medical treatment or that modifies the tax burden on health care or medical treatment

**Incentives** – a tax exemption that encourages a particular or specified economic activity by modifying the tax burden of the economic activity or behavior that is taking place

**Louisiana constitutional mandates** – a tax exemption outlined in the state constitution that modifies the tax burden

**Natural disaster** – a tax exemption that was created to assist taxpayers in recovering from a natural disaster or was created as a direct result of a natural disaster

**Normal tax structure** – a tax exemption that is commonly used or implemented in other states; enacted to prevent double taxation; or used to prevent the taxation of direct business inputs

**Personal income tax formula** – a tax exemption that assists, guides, or aids an individual in determining Louisiana tax table income after determining Louisiana adjusted gross income

**Preferential income tax rate** – a tax exemption that provides a reduced or lower rate of tax for certain persons, types of income, transactions, or property that results in reduced tax revenue

**Retirement, disability, and military** – a tax exemption that modifies the tax owed by individuals who receive money including, but not limited to, wages and interest as a result of this special status or position in life that is recognized by statute

**Specialty income tax exemptions** – an income tax exemption that encourages a particular or specified economic activity by providing a credit or deduction for the economic activity or behavior that is taking place. Categories of specialty income tax exemptions include tax exemptions for performance of a specific activity, purchase of a specific item, purchase made by a specific taxpayer, or an exemption for specific activity that benefits a community.

**Specialty sales tax exemptions** – a sales tax exemption that encourages a particular or specified economic activity by modifying the tax burden of the economic activity or behavior that is taking place. Categories of specialty sales tax exemptions include sales tax holidays, purchase of a specific item, purchase made by a specific taxpayer, or activities of a specific group or organization.

**Tax incentives and exemption contracts** – tax exemptions that encourage a particular or specified economic activity by modifying the tax burden of the economic activity or behavior that is taking place. Categories of incentives include those that spur the hiring of employees by business, or that are administered by and through a contract with the Departments of Economic Development, Culture, Recreation & Tourism, Environmental Quality or Department of Revenue.

**Total potential collections** – actual tax collections plus the state revenue losses due to tax exemptions

OFFICE OF TAX POLICY

MICHAEL J. ALLEN
ASSOCIATE COMMISSIONER FOR
TAX POLICY

February 15, 2025

Sen. Nicole Grohoski, Chair
Rep. Kristen Cloutier, Chair
Members Joint Standing Committee on Taxation

The Office of Tax Policy is pleased to submit to the Committee a detailed report on state income tax and sales tax expenditures. For purposes of this report, 36 M.R.S.A. § 199-B defines tax expenditure as any provision of state law that results in the reduction of tax revenue due to special exclusions, exemptions, deductions, credits, preferential rates or deferral of tax liability.

We have excluded from the definition tax expenditures that are (1) required under federal mandate (e.g., the sales tax exclusion for food stamp purchases), (2) created at the state level to maintain conformity with traditional tax law when the federal government deviates from that law because it creates credits that the state does not adopt (e.g., the subtraction modification associated with federal work opportunity credit), or (3) are the result of the state taxing certain activities under a different tax system (e.g., the income of a financial institution that is an S corporation).

This report provides no recommendation regarding the amendment, repeal or replacement of any tax expenditure. Such recommendations are included in the Governor's biennial budget or separate legislation submitted by the Administration.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Michael J. Allen

# Table of Contents

Introduction: TAX EXPENDITURES ..... 1

**Chapter 1: INCOME TAX (Personal and Corporation) and PROPERTY TAX REIMBUREMENTS ..... 5**

1.001 Reimbursement for business equipment tax exemption to municipalities. ..... 5

1.002 Reimbursement for taxes paid on certain business property (BETR). ..... 6

1.003 Deduction for Income from Depreciation Recapture on Sale of Multi-Family Affordable Housing Property. ..... 7

1.004 Deduction for social security benefits taxable at federal level. ..... 8

1.005 Deduction for contributions to capital construction funds. ..... 9

1.006 Deduction for pension income. ..... 10

1.007 Deduction for interest and dividends on Maine state and local securities by individuals. 11

1.008 Deduction for Holocaust victim settlement payments. ..... 12

1.009 Deduction for active duty military pay earned outside of Maine ..... 13

1.010 Deduction for military annuity payments made to a survivor ..... 14

1.011 Family Development Account proceeds ..... 15

1.012 Municipal property tax benefits for senior citizens ..... 16

1.013 Deduction for gains on sales of eligible timberlands ..... 17

1.014 Deduction for employer student loan payments on behalf of a qualified health care employee ..... 18

1.015 Deduction for student loan payments made directly to lender by a student loan repayment program funded by a nonprofit foundation and administered by the Finance Authority of Maine ..... 19

1.016 Exclusion of certain income earned by tribal members residing on tribal land ..... 20

1.017 Deduction for contributions to a 529 Plan ..... 21

1.018 Itemized deductions. ..... 22

1.019 Additional standard deduction for the blind and elderly. ..... 23

1.020 Deduction for exempt associations, trusts and organizations. ..... 24

1.021 Deduction for interest and dividends on U.S., Maine state and local securities. ..... 25

1.022 Deduction for Maine Space Corporation bond interest ..... 26

1.023 Exemption for certain out-of-state suppliers of spirits sold to the Bureau of Alcoholic Beverages and Lottery Operations. ..... 27

1.024 Sales Tax Fairness Credit. ..... 28

1.025 Credit to beneficiary for accumulation distribution. ..... 29

1.026 Seed capital investment tax credit. ..... 30

1.027 Student Loan Repayment Credit ..... 31

1.028 Employer support for volunteer firefighters and volunteer municipal emergency medical services persons tax credit. ..... 32
1.029 Income tax credit for child care expenses. ..... 33
1.030 Adult Dependent Care Credit. ..... 34
1.031 Research expense tax credit. ..... 35
1.032 Earned income credit. ..... 36
1.033 Pine Tree Development Zone tax credit. ..... 37
1.034 Biofuel commercial production and commercial use credit. ..... 38
1.035 Tax benefits for media production companies. ..... 39
1.036 Credit for rehabilitation of historic properties. ..... 40
1.037 Dental care access credit. ..... 41
1.038 Innovation finance credit. ..... 42
1.039 Credit for Wellness Programs. ..... 43
1.040 New Markets Capital Investment Credit. ..... 44
1.041 Property Tax Fairness Credit. ..... 45
1.042 Primary care access credit. ..... 47
1.043 Maine Capital Investment Credit. ..... 48
1.044 Credit for disability income protection plans in the workplace. ..... 50
1.045 Dirigo Business Incentives Tax Credit. ..... 51
1.046 Credit for major business headquarters expansions ..... 52
1.047 Shipbuilding facility credit. ..... 53
1.048 Dependent Exemption Tax Credit in Excess of Tax Liability ..... 54
1.049 Employer Credit for Family and Medical Leave ..... 55
1.050 Credit for major food processing and manufacturing facility expansion. ..... 56
1.051 Credit for affordable housing. ..... 57
1.052 Renewable chemicals tax credit. ..... 58
1.053 Credit for paper manufacturing facility investment. ..... 59
1.054 Access to Justice Income Tax Credit. ..... 60
1.055 Credit for Investment in Qualified Baseball Facilities. ..... 61
1.056 Employment tax increment financing and other job increment financing. ..... 62
1.057 Health savings accounts. ..... 64
1.058 Deduction for interest on student loans. ..... 65
1.059 Deduction for moving expenses. ..... 66
1.060 Pension contributions- individual retirement plans. ..... 67
1.061 Pension contributions- partners & sole proprietors – Self-employed SEP, Simple, and KEOGH plans. ..... 68

1.062 Deduction for health insurance premiums and long-term care insurance premiums by the self-employed. ..... 69
1.063 Educator Expenses. ..... 70
1.064 Tax-exempt interest income ..... 71
1.065 Section 179 Expensing. ..... 72
1.066 Deduction for dividends received by domestic corporations from certain foreign corporations. ..... 73
1.067 Opportunity Zones. ..... 74
1.068 Pension contributions & earnings - employer-provided pension contributions and earnings. ..... 75
1.069 Employer-paid medical insurance and expenses. ..... 76
1.070 Exclusion of capital gains at death. ..... 77
1.071 Exclusion of capital gains on sales of principal residences. ..... 78
1.072 Exclusion of Social Security and Railroad Retirement not included in Federal Adjusted Gross Income. ..... 79
1.073 Federal Conformity: Other ..... 80
**Chapter 2: Sales and Excise Taxes ..... 81**
2.001 Paint Stewardship Program Assessment. ..... 81
2.002 Sales to the State & political subdivisions. ..... 82
2.003 Grocery staples. ..... 83
2.004 Ships' stores. ..... 85
2.005 Prescription drugs. ..... 86
2.006 Prosthetic or orthotic device. ..... 87
2.007 Meals served by public or private schools, school districts, student organizations and parent-teacher associations to the students or teachers of a school. ..... 88
2.008 Meals served to patients in hospitals & nursing homes. ..... 89
2.009 Sales of meals by hospitals, schools, long-term care facilities, food contractors and restaurants to incorporated nonprofit area agencies on aging for the purpose of providing meals to the elderly. ..... 90
2.010 Sales of meals to residents of certain nonprofit congregate housing. ..... 91
2.011 Meals served by colleges to employees of the college when the meals are purchased with debit cards issued by the college. ..... 92
2.012 Meals served by certain youth camps. ..... 93
2.013 Meals served by a retirement facility to its residents. ..... 94
2.014 Products used in agricultural and aquacultural production, and bait. ..... 95
2.015 Certain jet fuels. ..... 96
2.016 Coal, oil, and wood for cooking & heating homes. ..... 97

2.017 Fuels for burning blueberry lands. ..... 98
2.018 Residential electricity. ..... 99
2.019 Residential gas. ..... 100
2.020 Fuel and electricity used at a manufacturing facility. ..... 101
2.021 Fuel oil or coal which becomes an ingredient or component part. ..... 102
2.022 Certain returnable containers. ..... 103
2.023 Packaging materials. ..... 104
2.024 Free publications and components of publications. ..... 105
2.025 Sales to hospitals, research centers, churches and schools. ..... 106
2.026 Rental charges for living quarters in nursing homes and hospitals. ..... 108
2.027 Sales to certain nonprofit residential child care institutions. ..... 109
2.028 Rental of living quarters at schools. ..... 110
2.029 Rental charges on continuous residence for more than 28 days. ..... 111
2.030 Automobiles used in driver education programs. ..... 112
2.031 Certain loaner vehicles. ..... 113
2.032 Automobiles to amputee veterans. ..... 114
2.033 Certain vehicles purchased or leased by nonresidents. ..... 115
2.034 Certain vehicles purchased or leased by qualifying resident businesses. ..... 116
2.035 Funeral services. ..... 117
2.036 Watercraft purchased by nonresidents. ..... 118
2.037 Snowmobile; all-terrain vehicle. ..... 119
2.038 Nonprofit fire departments and nonprofit ambulance services. ..... 120
2.039 Community mental health facilities, community developmentally disabled facilities and community substance abuse facilities. ..... 121
2.040 Water pollution control facilities. ..... 122
2.041 Air pollution control facilities. ..... 123
2.042 Machinery and equipment. ..... 124
2.043 Machinery and equipment for research. ..... 125
2.044 Diabetic supplies. ..... 126
2.045 Sales through coin-operated vending machines. ..... 127
2.046 Goods and services for seeing eye dogs. ..... 128
2.047 Regional planning commissions and councils of government. ..... 129
2.048 Residential water. ..... 130
2.049 Manufactured housing. ..... 131
2.050 Certain instrumentalities of interstate or foreign commerce. ..... 132

2.051 Historical societies, museums and certain memorial foundations. ..... 133
2.052 Child care facilities. ..... 134
2.053 Certain church-affiliated residential homes. ..... 135
2.054 Certain property purchased outside the State. ..... 136
2.055 Residential facilities for medical patients and their families. ..... 138
2.056 Emergency shelter and feeding organizations. ..... 139
2.057 Child abuse and neglect councils; child advocacy organizations; community action agencies ..... 140
2.058 Certain libraries. ..... 141
2.059 Veterans' Memorial Cemetery Associations. ..... 142
2.060 Railroad track materials. ..... 143
2.061 Nonprofit volunteer search and rescue organizations. ..... 144
2.062 Incorporated nonprofit hospice organizations. ..... 145
2.063 Nonprofit youth organizations. ..... 146
2.064 Self-help literature on alcoholism. ..... 147
2.065 Portable classrooms. ..... 148
2.066 Sales to certain incorporated nonprofit educational organizations. ..... 149
2.067 Sales to incorporated nonprofit animal shelters. ..... 150
2.068 Construction contracts with exempt organizations. ..... 151
2.069 Charitable suppliers of medical equipment. ..... 152
2.070 Organizations fulfilling the wishes of children with life-threatening diseases. ..... 153
2.071 Schools and school-sponsored organizations. ..... 154
2.072 Monasteries and convents. ..... 155
2.073 Incorporated nonprofit providers of certain support systems for single-parent families. ..... 156
2.074 Nonprofit home construction organizations. ..... 157
2.075 Vietnam veteran registries. ..... 158
2.076 Organizations providing certain services for hearing-impaired persons. ..... 159
2.077 State-chartered credit unions. ..... 160
2.078 Nonprofit housing development organizations. ..... 161
2.079 Seedlings for commercial forestry use. ..... 162
2.080 Property used in production. ..... 163
2.081 Certain meals and lodging. ..... 164
2.082 Aircraft parts. ..... 165
2.083 Eye banks. ..... 166
2.084 Farm animal bedding and hay ..... 167

2.085 Electricity used for net billing. ..... 168
2.086 Animal waste storage facility. ..... 169
2.087 Sales of property delivered outside this State. ..... 170
2.088 Sales of certain printed materials. ..... 171
2.089 Centers for innovation. ..... 172
2.090 Certain sales by auxiliary organizations of the American Legion. ..... 173
2.091 Pine Tree Development Zone businesses; reimbursement of certain taxes. ..... 174
2.092 Sales of tangible personal property to qualified development zone businesses. ..... 175
2.093 Sales or leases of certain aircraft. ..... 176
2.094 Sales of aircraft and parts. ..... 177
2.095 Sales of qualified snowmobile trail grooming equipment. ..... 178
2.096 Certain sales of electrical energy. ..... 179
2.097 Certain vehicle rentals. ..... 180
2.098 Plastic bags sold to redemption centers. ..... 181
2.099 Positive airway pressure equipment & supplies. ..... 182
2.100 Sales of certain adaptive equipment. ..... 183
2.101 Certain veterans' support organizations. ..... 184
2.102 Nonprofit library collaboratives. ..... 185
2.103 Certain veterans' service organizations. ..... 186
2.104 Certain sales by civic, religious, and fraternal organizations. ..... 187
2.105 Sales to nonprofit heating assistance organizations. ..... 188
2.106 Certain support organizations for combat-injured veterans. ..... 189
2.107 Sales to nonprofit youth camps. ..... 190
2.108 Sales to pet food pantries. ..... 191
2.109 Sales to certain nonprofit community-based worldwide charitable organizations. ..... 192
2.110 Sales of menstrual products. ..... 193
2.111 Sales to area agencies on aging. ..... 194
2.112 Sales to nonprofit cemeteries. ..... 195
2.113 Sales to certain educational collaboratives. ..... 196
2.114 Sales of firearm safety devices. ..... 197
2.115 Sales to tribes. ..... 198
2.116 Sales to tribal members. ..... 199
2.117 Sales to tribal entities. ..... 200
2.118 Sales to 501(c)(3) nonprofit organizations ..... 201
2.119 Trade-in credits. ..... 202

2.120 Donations to exempt organization. ..... 203
2.121 Refund of sales tax on goods removed from the state. ..... 204
2.122 Refund of sales tax on depreciable machinery and equipment purchases. ..... 205
2.123 Fish passage facilities. ..... 206
2.124 Refund of sales tax on purchases of parts and supplies for windjammers. ..... 207
2.125 Reimbursement of the sales tax paid on certain battery energy storage systems. ..... 208
2.126 Amusement & recreational services. ..... 209
2.127 Medical services. ..... 210
2.128 Educational services. ..... 211
2.129 Social services. ..... 212

# Introduction: TAX EXPENDITURES

## *I. Introduction*

State law requires Maine Revenue Services to provide two tax expenditure reports every odd-numbered year. The first report must be included in the state budget document. 5 M.R.S.A. §1664 provides that the document specifically includes

> . . . the estimated loss in revenue during the last completed fiscal year and the fiscal year in progress, and the anticipated loss in revenue for each fiscal year of the ensuing biennium, caused by the tax expenditures provided in Maine statutes; the term "tax expenditures" means those State tax revenue losses attributable to provisions of Maine tax laws which allow a special exclusion, exemption or deduction or which provide a specific credit, a preferential rate of tax or a deferral of tax liability.

The second report, required by 36 M.R.S.A. § 199-B, must be submitted to the Joint Standing Committee on Taxation by February 15th of each odd-numbered year. This report must contain

> a summary of each tax expenditure, a description of the purpose and background of the tax expenditure and the groups likely to benefit from the tax expenditure, an estimate of the cost of the tax expenditure for the current biennium, any issues regarding tax expenditures that need to be considered by the Legislature, and any recommendation regarding the amendment, repeal or replacement of the tax expenditure."

The Governor's budget submission for the 2026-27 biennium includes the first report. This report meets the second statutory requirement.

The tax expenditure budget is a concept that was developed to assure a budget review process for tax preferences similar to the review required for direct expenditure programs. The federal government and most state governments engage in a periodic review of tax expenditures. Generally, tax expenditures provide tax incentives designed to encourage certain activities by taxpayers or provide relief to taxpayers in special circumstances. Many tax expenditures are the equivalent of a governmental subsidy in which the foregone tax revenue is essentially a direct budget outlay to specific groups of taxpayers.

## *II. Identifying Tax Expenditures*

Tax expenditures are defined relative to a benchmark "normal tax law." Thus, identifying tax expenditures requires defining normal tax law. Tax expenditures are then aspects of the law that reduce revenue relative to normal tax law.

For the income tax the report adopts the same definition of normal income tax law as the Congressional Joint Committee on Taxation uses to identify federal income tax expenditures. The normal law tax structure includes personal exemptions, the standard deduction, the current tax rate schedule, and business expenses deductions. The base for normal law is much broader than taxable income. Tax expenditures are exclusions, exemptions, or deductions that reduce taxable income below

the "normal law" tax base and tax credits, preferential tax rates, or income tax deferral that reduce income tax liability.

Defining normal sales tax law is complicated because there are competing theoretical constructs for what this benchmark should be. One possibility is that the normal sales tax base is defined by *36 M.S.R.A. § 1811* and includes "all tangible personal property and taxable services sold at retail in this state." Under this definition, sales tax exclusions for services are *not* tax expenditures but sales tax exemptions for business purchases of tangible personal property *are* tax expenditures. Another possibility is that the normal sales tax base is all retail purchases for consumption. In this case, sales tax exclusions for services *are* tax expenditures but sales tax exemptions for business purchases of tangible personal property are *not* tax expenditures because these purchases are not consumption. This report defines the normal sales tax base as the combination of these two bases. Thus, the benchmark base includes all sales of tangible personal property and services sold at retail, and both exemptions for business purchases and exclusions for the purchase of services are counted as tax expenditures.

The report uses broad definitions of the benchmark income and sales tax bases to maximize the number of tax expenditures identified and thus provide the most information to legislators. The choice of benchmark law does not reflect a judgment that benchmark law is preferred to current law. One area where the choice of normal law is important is when making cross-state comparisons of tax expenditures, as different choices of normal law will lead to different lists of expenditures even when states have identical tax policies.

There are a few other important considerations for the definition of normal tax law in this report. The report defines normal law to exclude as expenditure those parts of the law that are (1) established by federal mandate (e.g., the sale tax exclusion for food stamp purchases), (2) created at the state level to maintain conformity with normal tax law when the federal government deviates from that law because it creates credits that the state does not adopt (e.g., the subtraction modification associated with federal work opportunity credit), or (3) the result of the state taxing certain activities under a different tax system (e.g., the income of a financial institution that is an S corporation).

## *III. Estimating the Size of Tax Expenditures*

### *A) General Conceptual issues*

In estimating the revenue loss attributed to a tax expenditure, it is assumed that the provision of law granting special tax treatment is repealed and that no other changes in tax law, taxpayer behavior or general economic activity occur as a result of its repeal. Consequently, it should not be concluded that the repeal of any of these tax expenditures will necessarily generate the amount of revenue which they are estimated to forego. Differences between the tax expenditure estimate and the revenue raised by repeal can be especially large for provisions related to timing, such as depreciation and deferment of income recognition, and for tax credits where carryforwards are a large component of the credit. In these cases, and especially in the near term, the revenue gain from ending a tax expenditure may be significantly different from the revenue cost of maintaining the expenditure. Sales tax expenditure estimates do not generally account for the availability of other exemptions that could apply and therefore can significantly overstate the revenue that would be raised by repeal.

General Fund expenditures are reported for sales tax and income tax. Due to local government revenue sharing, these General Fund expenditures are 95% of the total expenditure in all fiscal years covered by this report.

### *B) Sales Tax*

Sales tax expenditure estimates are particularly challenging to estimate. The sales tax return does not contain data pertinent to most exemptions and external data sources to inform the expenditure estimates do not exist in many cases. State-level consumption and business intermediate input and investment expenditures data would be the most relevant data for estimating expenditures but is unavailable.

Many expenditure estimates cite the sales tax model as the source. The sales tax model refers to national data on consumption and business expenditures multiplied by an estimated Maine share, a policy mapping of those expenditures to sales tax liability, and a simple data aging process. Due to limitations with the source data and, in many cases, an imperfect correspondence between the exemption in law and the policy mapping, estimates based on the sales tax model are subject to significant uncertainty.

Due to the numerous sales tax exemptions and the challenges of estimating the revenue lost from the exemptions, a few practical considerations are important.

First, for almost all sales tax expenditures, a legislative proposal to eliminate the exemption would spur a more thorough review of the expenditure estimate. The results of a more thorough review could result in significant changes.

Second, many sales tax expenditure estimates are reported as ranges due to the challenges of estimating the expenditure. Many of the range estimates are the same as the prior tax expenditure report and were not revisited for this report.

### C) Income Tax

Maine's individual and corporate income tax systems are based upon the federal definitions of adjusted gross income and taxable income. Therefore, certain tax expenditures, referred to as “conformity tax expenditures” are authorized by continued acceptance of the provisions of the Internal Revenue Code.

Tax expenditures for tax credits, Maine subtraction modifications, itemized deductions, and “above-the-line” deductions to Federal Adjusted Gross income are based on tax data and therefore should be reliably estimated for FY 2024. For forecast periods, some tax credits and minor deductions can be volatile because the benefits are concentrated with one or two taxpayers.

Tax expenditures arising from the definition of federal total income present numerous challenges. First, there is a paucity of data available to estimate these expenditures. Our estimates rely on the Joint Committee on Taxation’s *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028* (JCX-48-

24, December 21, 2024). "Sharing down" national estimates from the JCT is the standard approach to estimating these expenditures, but the results are unreliable. Second, many of these provisions arguably belong in normal State tax law, as conformity to the federal law is common or near-universal across states, decoupling would create significant challenges, and the state has a long history of conforming to the provision. Finally, related to the first two points, understanding the implications of decoupling from many of these provisions would require a significant amount of legal and economic research and is outside the scope of this report.

For these reasons, income tax expenditures related to the definition of total income are only listed for some of the largest expenditures and items related to recent policy changes or attention. This report includes more detail on the remaining tax expenditures in Appendix D. JCT classifies tax expenditures by function; Appendix D lists the federal expenditures that flow through to Maine and are not elsewhere included in the report by function and shows the estimated federal expenditure. For each function or group of functions, a wide range for the total state expenditure is also included. A range is reported both because of the uncertainty involved with going from national to state estimates and the fact that interaction effects mean the sum of the individual estimates is different than the total expenditure.

## *IV. Changes to Tax Expenditure Report*

The Legislature enacted three new income tax expenditures related to tax credits since the last report. Two new credits, the Dirigo Business Incentives Credit and the credit for investment in qualified professional baseball facilities in the state, were created. Furthermore, the dependent exemption tax credit was made refundable starting in 2024. The part of the credit that offsets tax liability is considered part of reference tax law and not a tax expenditure, like other features of the individual income tax code such as personal exemptions for self and spouse and the standard deduction. The credit amount that exceeds tax liability is, however, considered a tax expenditure and has been added to the report.

In addition to these new expenditures, the Property Tax Fairness Credit and pension income deduction were significantly expanded since the last report. One tax expenditure, the credit for certain modifications for qualified expenses incurred to make a homestead accessible to an individual with a disability or physical hardship, was repealed, except for carryforwards, beginning in tax year 2023 and has been removed from this report.

Since the last report one new sales tax expenditure was added, an exemption for purchases by nonprofit organizations that have been determined by the IRS to be exempt from federal income taxation under Section 501(c)(3), if the purchases are to be used primarily for the purposes for which the nonprofit organization was organized. Many such organizations were already exempt under other sales tax exemptions for specific categories of nonprofit organizations.

# Chapter 1: INCOME TAX (Personal and Corporation) and PROPERTY TAX REIMBUREMENTS

## 1.001 Reimbursement for business equipment tax exemption to municipalities.

*36 M.R.S.A. § 691*

Under this provision, qualified business equipment first subject to property tax assessment on or after April 1, 2008 will be exempt from property taxes. The state reimburses municipalities for property revenue loss according to the following schedule: 100% in 2008, 90% in 2009, 80% in 2010, 70% in 2011, 60% in 2012, and for years beginning 2013 and for subsequent years, 50%. Municipalities where the total value of business personal property exceeds 5% of total taxable value plus the value of exempt business equipment can receive an enhanced reimbursement according to the following formula:

$$Reimbursement\ Percentage = .5 + .5 * \left(\frac{Total\ value\ of\ business\ personal\ property}{Total\ taxable\ value + exempt\ business\ equipment}\right)$$

There is also additional reimbursement provided for municipalities with respect to revenues related to tax increment financing revenues used by municipalities on their own qualifying tax increment financing projects.

**Reason(s) for exemption**

Provides an incentive for business to make new investments that will foster economic development.

**Estimated General Fund revenue loss**

FY ‘24 $64,779,045
FY ‘25 $70,730,000
FY ’26 $73,596,000
FY ’27 $76,575,000

**Methods used to calculate the revenue loss**

Estimates based on the Revenue Forecasting Committee report.

**Number of taxpayers affected**

11,297 exemptions in 2023

# 1.002 Reimbursement for taxes paid on certain business property (BETR).

*36 M.R.S.A. Chapter 915*

A business against which property taxes have been assessed with respect to eligible property (generally qualified business property first placed in service in Maine, or constituting construction in progress commenced in Maine, after April 1, 1995 and before April 2, 2007 (with the exception of certain retail property newly placed in service after that date that remains eligible for BETR reimbursement)) and who has paid those taxes is entitled to reimbursement of those taxes from the State. The reimbursement is 100% of the taxes assessed and paid with respect to eligible property for the first 12 years the property tax was paid. The reimbursement is 75% in Year 13 and is annually reduced until reimbursement reaches 50% in Year 17. Property placed in service after April 1, 2007 is generally qualified for the business equipment tax exemption under 36 M.R.S.A. Chapter 105 Subchapter 4-C. See item 1.001 on the previous page.

**Reason(s) for exemption**

Provides an incentive for business investment and subsequent economic development.

**Estimated General Fund revenue loss**

FY ‘24 $18,095,129
FY ‘25 $17,340,000
FY ‘26 $16,319,000
FY ‘27 $15,538,000

**Methods used to calculate the revenue loss**

Estimates based on the Revenue Forecasting Committee report.

**Number of taxpayers affected**

807 businesses requested reimbursement for 2022 property taxes.

# 1.003 Deduction for Income from Depreciation Recapture on Sale of Multi-Family Affordable Housing Property.

*36 M.R.S.A. § 5122-(2)(Z) & § 5200-A (2)(Q)*

For income tax years beginning on or after January 1, 2006, Maine adjusted gross income (MAGI) is reduced by capital gains and ordinary income resulting from depreciation recapture determined in accordance with the Code, §§ 1245 and 1250 realized on the sale of property certified as multifamily affordable housing property by the Maine State Housing Authority.

**Reason(s) for exemption**

Exemption is granted to claimants to encourage the preservation of affordable housing in Maine.

**Estimated General Fund revenue loss**

FY ‘24 $45,000
FY ‘25 $45,000
FY ’26 $45,000
FY ’27 $45,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Fewer than 10 taxpayers affected.

# 1.004 Deduction for social security benefits taxable at federal level.

*36 M.R.S.A. § 5122-(2)(C)*

Federal adjusted gross income is reduced by social security benefits and railroad retirement benefits paid by the United States to the extent included in federal adjusted gross income.

**Reason(s) for exemption**

Federal taxation of social security benefits provides funds to the Social Security Trust Fund. The state does not have this need, therefore social security and railroad retirement benefits are excluded from Maine taxable income.

**Estimated General Fund revenue loss**

FY ‘24 $144,600,000
FY ‘25 $153,390,000
FY ’26 $157,160,000
FY ‘27 $166,930,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse and the individual income micro-simulation tax model.

**Number of taxpayers affected**

Estimated 110,000 taxpayers affected.

# 1.005 Deduction for contributions to capital construction funds.

*36 M.R.S.A. § 5122-(2)(I)*

For income tax years beginning on or after January 1, 1991, federal adjusted gross income is reduced by the amount by which federal taxable income is reduced for vessel earnings from fishing operations contributed to a capital construction fund.

**Reason(s) for exemption**

An incentive for taxpayers involved in fishing operations for future maintenance or replacements of fishing vessels.

**Estimated General Fund revenue loss**

FY ‘24 $16,000
FY ‘25 $50,000
FY ’26 $50,000
FY ’27 $50,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 10 taxpayers.

# 1.006 Deduction for pension income.

*36 M.R.S.A. § 5122(2)(M)*

Federal adjusted gross income is reduced by the lesser of: (1) the individual maximum amount, reduced by the individual's social security and railroad retirement benefits paid by the United States, but not less than $0, except that the reduction does not apply to benefits paid under a military retirement plan; or (2) the aggregate of benefits under employee retirement plans and taxable distributions from individual retirement accounts included in the individual's federal adjusted gross income. The individual maximum amount was $10,000 in tax year 2021, $25,000 in tax year 2022, and $30,000 in tax year 2023. Beginning with tax year 2024, the individual maximum amount in a tax year is the maximum annual Social Security benefit of someone retiring at retirement age on January 1st of the tax year. In 2024, this amount is $45,864.

Beginning in 2016, benefits received under a military retirement plan, including survivor benefits, are fully exempt from Maine income tax.

The deduction is available to each individual who is a primary recipient (individual upon whose earnings the employee retirement plan benefits are based or the surviving spouse of that individual) of benefits under an employee retirement plan (state, federal or military retirement plan or any other retirement benefit plan established and maintained by an employer for the benefit of its employees).

**Reason(s) for exemption**

Provide tax relief to taxpayers with pension income, particularly taxpayers with military pensions and taxpayers who do not receive social security income; also, provides some degree of equity between public and private pension providers.

**Estimated General Fund revenue loss**

FY '24 $79,880,000
FY '25 $121,330,000
FY '26 $133,210,000
FY '27 $141,710,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse and the individual income micro-simulation tax model.

**Number of taxpayers affected**

Approximately 80,000 taxpayers in tax year 2023

# 1.007 Deduction for interest and dividends on Maine state and local securities by individuals.

*36 M.R.S.A. § 5122(2)(N)*

Federal adjusted gross income is reduced by the amount of interest and dividends on obligations or securities of this state and its political subdivisions and authorities to the extent included in federal adjusted gross income.

**Reason(s) for exemption**

Provides an incentive for investment in Maine state and local bonds.

**Estimated General Fund revenue loss**

FY ‘24 $335,000
FY ‘25 $370,000
FY ‘26 $340,000
FY ‘27 $285,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse and the individual income micro-simulation tax model.

**Number of taxpayers affected**

Approximately 3,100 taxpayers

# 1.008 Deduction for Holocaust victim settlement payments.

*36 M.R.S.A. § 5122(2)(O)*

Federal adjusted gross income is reduced by Holocaust victim settlement payments received by a Holocaust victim to the extent included in federal adjusted gross income. A Holocaust victim is an individual who died, lost property or was a victim of persecution as a result of discriminatory laws, policies or actions targeted against discrete groups of individuals based on race, religion, ethnicity, sexual orientation or national origin. "Holocaust victim" includes the spouse or a descendant of such an individual.

**Reason(s) for exemption**

Allows the full amount of compensation received to be used by individuals compensated for holocaust injustices.

**Estimated General Fund revenue loss**

FY '24 $0 – $10,000
FY '25 $0 – $10,000
FY '26 $0 – $10,000
FY '27 $0 – $10,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Fewer than 10 taxpayers.

# 1.009 Deduction for active duty military pay earned outside of Maine

*36 M.R.S.A. § 5122-(2)(LL)*

For tax years beginning on or after January 1, 2014, pay received for active duty military service performed outside of Maine upon written orders is exempt. Active duty military compensation earned by a nonresident individual is fully exempt from Maine taxation, whether earned in Maine or elsewhere, by operation of federal law. See 50 U.S.C. § 571(b). The effect of the law is to further exempt from Maine taxation military compensation earned outside Maine by active duty military personnel who are residents of Maine.

**Reason(s) for exemption**

To provide tax relief to active duty military service members who are residents of Maine.

**Estimated General Fund revenue loss**

FY '24 $2,280,000
FY '25 $2,485,000
FY '26 $2,615,000
FY '27 $2,750,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 1,000 taxpayers

# 1.010 Deduction for military annuity payments made to a survivor

*36 M.R.S.A. § 5122-(2)(HH)*

To the extent included in federal adjusted gross income, annuity payments made to the survivor of a deceased member of the military who died as the result of service in active or reserve components of the United States Army, Navy, Air Force, Marines or Coast Guard under a survivor benefit plan or reserve component survivor benefit plan pursuant to 10 United States Code, Chapter 73 are exempt from Maine income tax.

**Reason(s) for exemption**

To provide tax relief to survivors of a deceased member of the military.

**Estimated General Fund revenue loss**

FY ‘24 $250,000
FY ‘25 $260,000
FY ‘26 $270,000
FY ‘27 $285,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 185.

# 1.011 Family Development Account proceeds

*10 M.R.S.A. § 1077*

Individuals whose family income is below 200% of the poverty level may open a family development account in connection with an approved community development organization. Account balances and withdrawals are exempt from Maine individual income tax to the extent included in federal adjusted gross income.

**Reason(s) for exemption**

To provide tax relief to family development account owners.

**Estimated General Fund revenue loss**

FY '24 $0-$10,000
FY '25 $0-$10,000
FY '26 $0-$10,000
FY '27 $0-$10,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Fewer than 10.

# 1.012 Municipal property tax benefits for senior citizens

*36 M.R.S.A. § 5122-(2)(EE)*

A municipality, by ordinance, may adopt a program that permits claimants who are at least 60 years of age to earn benefits up to a maximum $750 by volunteering to provide services to the municipality. The amount of the benefits received during the tax year are exempt from Maine individual income tax.

**Reason(s) for exemption**

Provide tax relief for recipients of municipal property tax benefits.

**Estimated General Fund revenue loss**

FY ’24 $10,000
FY ‘25 $10,000
FY ‘26 $10,000
FY ‘27 $10,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 60 taxpayers.

# 1.013 Deduction for gains on sales of eligible timberlands

*36 M.R.S.A. § 5122-(2)(U) & § 5200-A (2)(P)*

A subtraction modification is allowed on the Maine individual income tax return equal to the applicable percentage of the gain from the sale of sustainably managed, eligible timberlands that is included in federal adjusted gross income. The applicable percentage depends on how long the eligible timberlands have been held since January 1, 2005: timberlands held for less than 10 years since 1/1/2005 are ineligible for the deduction, and timberlands held for 10 or more years receive a deduction equal to 6.67 percent plus an additional 6.67 percent for each year exceeding 10 years (but not more than 100%).

**Reason(s) for exemption**

To provide tax relief to taxpayers who sell eligible timberlands

**Estimated General Fund revenue loss**

FY ‘24 $49,000
FY ‘25 $355,000
FY ‘26 $405,000
FY ‘27 $460,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 30 taxpayers.

# 1.014 Deduction for employer student loan payments on behalf of a qualified health care employee

*36 M.R.S.A. § 5122-(2)(XX)*

For tax years beginning on or after January 1, 2020, a qualified health care employee (generally, an individual who is licensed as a registered nurse, practical nurse, osteopathic physician, or to practice medicine or surgery and is employed by a hospital in Maine) may claim, to the extent included in the employee's federal adjusted gross income, the income subtraction modification for student loan payments made by an employer directly to the lender.

**Reason(s) for exemption**

Provide tax relief to health care employees who are employed by a hospital and have their student loan repaid by the hospital.

**Estimated General Fund revenue loss**

FY '24 $39,000
FY '25 $41,000
FY '26 $43,000
FY '27 $45,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 80 taxpayers.

# 1.015 Deduction for student loan payments made directly to lender by a student loan repayment program funded by a nonprofit foundation and administered by the Finance Authority of Maine

*36 M.R.S.A. § 5122-(2)(XX)*

For tax years beginning on or after January 1, 2022, an individual taxpayer may claim, to the extent included in federal adjusted gross income, the income subtraction modification for student loan payments made directly to a lender on behalf of the taxpayer by a student loan repayment program funded by a nonprofit foundation and administered by the Finance Authority of Maine for residents of the State employed by a business located in the State.

**Reason(s) for exemption**

To provide tax relief to taxpayers who have their student loans repaid by a qualifying repayment program.

**Estimated General Fund revenue loss**

FY ‘24 $55,000
FY ‘25 $50,000
FY ‘26 $50,000
FY ‘27 $50,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Fewer than 50 taxpayers.

# 1.016 Exclusion of certain income earned by tribal members residing on tribal land

*36 M.R.S.A. § 5122-(2)(XX) and § 5122-(2)(PP)*

For tax years beginning on or after January 1, 2023, the income and losses of tribal members and estates of tribal members residing on tribal land when the income and losses are derived from or connected with sources on tribal land is excluded from Maine Adjusted Gross Income.

**Reason(s) for exemption**

Provide economic benefits to the tribes, their tribal lands and tribal members, to surrounding communities and to the State; and to clarify and simplify the application of the State's tax laws to the tribes, their tribal lands and tribal members.

**Estimated General Fund revenue loss**

FY ‘24 $305,000
FY ‘25 $351,000
FY ‘26 $365,000
FY ‘27 $379,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 150

# 1.017 Deduction for contributions to a 529 Plan

*36 M.R.S.A. § 5122-(2)(YY)*

For tax years beginning on or after January 1, 2023, eligible taxpayers can deduct contributions of up to $1,000 per beneficiary to a qualified tuition plan established under Section 529 of the Internal Revenue Code. Eligibility for the deduction is limited to taxpayers whose federal adjusted gross income is $100,000 or less if filing single or married filing separately or $200,000 or less if married filing jointly or head of household.

**Reason(s) for exemption**

Provide additional incentives to contribute to a 529 plan

**Estimated General Fund revenue loss**

FY ‘24 $390,000
FY ‘25 $405,000
FY ‘26 $420,000
FY ‘27 $435,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 3,900

# 1.018 Itemized deductions.

*36 M.R.S.A. § 5125*

An individual who has claimed itemized deductions from federal adjusted gross income in determining the individual's federal taxable income for the taxable year may claim itemized deductions from Maine adjusted gross income.

The sum of an individual's itemized deductions is: (1) reduced by any state income or sales tax; (2) increased by any interest or expense incurred in the production of the individual's Maine income that was not deducted in determining the individual's federal taxable income; (3) reduced by any amount of deduction attributable to income taxable to financial institutions; (4) reduced by any amount attributable to interest or expenses incurred in the production of income exempt from tax; and (5) reduced by any amount included in the basis of the family development account reserve fund credit.

For tax years beginning in 2018 the federal itemized deduction for all state and local taxes is limited to $10,000. Taxpayers can add back any real estate and personal property taxes that are excluded from federal itemized deductions because of this limit.

Itemized deductions, except for the deduction for medical expenses, are subject to a cap that is adjusted for inflation. In tax year 2024 the cap is $35,250. Itemized deductions are reduced for high-income taxpayers. In 2024 itemized deductions for single taxpayers are reduced in a straight line between $97,150 and $172,150 of Maine adjusted gross income; these thresholds are multiplied by two for married taxpayers filing jointly and 1.5 for head of household taxpayers.

**Reason(s) for exemption**

Generally provides conformity to federal individual tax law. Conformity reduces filing errors, increases compliance and keeps Maine taxes competitive with other states.

**Estimated General Fund revenue loss**

FY '24 $9,410,000
FY '25 $9,790,000
FY '26 $10,380,000
FY '27 $11,010,000

**Methods used to calculate the revenue loss**

Estimate is based on the Maine Revenue Services individual income micro-simulation tax model and information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 20,500 taxpayers

# 1.019 Additional standard deduction for the blind and elderly.

*36 M.R.S.A. § 5124-A*

For tax years beginning in 2024, taxpayers who are age 65 and older or blind may take an additional $1,950 standard deduction if single, or $1,5500 if married. The additional standard deduction is subject to the same phase out as the regular standard deduction and itemized deductions.

**Reason(s) for exemption**

Provide tax relief for the elderly and blind.

**Estimated General Fund revenue loss**

FY ‘24 $10,980,000
FY ‘25 $10,220,000
FY ‘26 $10,850,000
FY ‘27 $11,260,000

**Methods used to calculate the revenue loss**

Estimate is based on data from Maine Revenue Services individual income micro-simulation tax model and information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 90,000 taxpayers affected.

# 1.020 Deduction for exempt associations, trusts and organizations.

*36 M.R.S.A. § 5162(2)*

An association, trust or other unincorporated organization which by reason of its purposes or activities is exempt from federal income tax is exempt from Maine income tax except with respect to its unrelated business taxable income.

**Reason(s) for exemption**

Conforms to federal tax law and provides tax benefits to charitable and benevolent organizations.

**Estimated General Fund revenue loss**

FY '24 $0 – $50,000
FY '25 $0 – $50,000
FY '26 $0 – $50,000
FY '27 $0 – $50,000

**Methods used to calculate the revenue loss**

Revenue loss is estimated as a range of possible values because little or no data is available.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.021 Deduction for interest and dividends on U.S., Maine state and local securities.

*36 M.R.S.A. §§ 5200-A-(2)(K)*

The taxable income of a taxpayer under the laws of the United States is reduced by the amount of interest or dividends on obligations or securities of the United States, this state and its political subdivisions and authorities to the extent included in federal taxable income.

**Reason(s) for exemption**

Provides an incentive for corporations to invest in federal, Maine state and local obligations.

**Estimated General Fund revenue loss**

FY ’24 $20,000 - $100,000
FY ‘25 $20,000 - $100,000
FY ‘26 $20,000 - $100,000
FY ‘27 $20,000 - $100,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data. A range is used because amounts reported on this line of the tax return include income that Maine is prohibited from taxing under federal law.

**Number of taxpayers affected**

Uncertain

# 1.022 Deduction for Maine Space Corporation bond interest

*5 M.R.S.A. §§ 13207*

Interest income from Maine Space Corporation bonds is exempt from Maine income tax.

**Reason(s) for exemption**

Reduce the cost of capital for the Maine Space Corporation

**Estimated General Fund revenue loss**

FY ‘24 $0
FY ‘25 $0
FY ‘26 $0 - $10,000
FY ‘27 $0 - $10,000

# 1.023 Exemption for certain out-of-state suppliers of spirits sold to the Bureau of Alcoholic Beverages and Lottery Operations.

*36 M.R.S. § 5202-D*

For tax years beginning on or after January 1, 2022, a person (corporation, pass-through entity, individual, etc.) domiciled in a state other than Maine that approves, from a location outside Maine, orders of spirits placed by the Maine Bureau of Alcoholic Beverages and Lottery Operations (BABLO) or an agent or contractor of BABLO, may not be considered to have sufficient nexus to subject the person to Maine income tax, including the pass-through entity withholding, based *solely* on the following in-state activities:

- the sale of spirits to BABLO, even if the amount of the sales exceeds the nexus thresholds in Title 36, section 5200-B, subsection 1;
- the shipment of spirits from outside Maine to any warehouse operated or used by BABLO or to another facility as directed by BABLO;
- the storage of spirits at any warehouse operated by or used by BABLO or at another facility as directed by BABLO, even if the value of those spirits exceeds the nexus thresholds in Title 36, section 5200-B, subsection 1; or,
- any other activity required by BABLO to facilitate fulfillment of its orders of spirits.

Spirits manufactured or produced outside the State and shipped into the State pursuant to an order for spirits from BABLO do not, when the order is approved outside the State, become subject to Maine income tax solely as a result of a delay in transfer of title of those spirits to BABLO.

**Reason(s) for exemption**

Provide tax relief for non-Maine liquor manufacturers who only have nexus with Maine because of certain requirements of BABLO

**Estimated General Fund revenue loss**

FY ‘24 $665,000
FY ‘25 $700,000
FY ‘26 $735,000
FY ‘27 $770,000

**Methods used to calculate the revenue loss**
Estimate is based on tax return data.

**Number of taxpayers affected**
Fewer than 5.

# 1.024 Sales Tax Fairness Credit.

*36 M.R.S.A. § 5213-A*

For tax years beginning on or after January 1, 2016, low- and middle-income residents are allowed a refundable sales tax fairness credit. In 2024, the maximum credit, known as the "base credit," is given by the following table:

| Base Credit Amount | Filing status/Dependents |
|---|---|
| $150 | Single |
| $210 | Married Joint (0 dependents), Head of household (<=1 dependents) |
| $240 | Married Joint (1 dependent), Head of household (2 dependents) |
| $270 | Married Joint (2+ dependents), Head of household (3+ dependents) |
| $0 | Married separate |

In 2024 the credit is reduced by $20 for every $1,000 of income above $24,750 for taxpayers filing single, $37,100 for taxpayers filing as heads of household and $49,500 for taxpayers filing married joint returns. The phaseout income thresholds are adjusted annually for inflation. Income for purposes of the credit is equal to federal total income as reported on the individual's federal income tax return increased by nontaxable social security and railroad retirement benefits, tax exempt interest and certain business and capital losses.

The credit does not apply to married individuals filing separate returns, "safe-harbor" residents, and individuals who are incarcerated.

**Reason(s) for exemption**

Provide targeted sales tax relief to offset the regressivity of the Maine sales and use tax.

**Estimated General Fund revenue loss**

FY '24 $25,525,000
FY '25 $27,720,000
FY '26 $28,355,000
FY '27 $27,860,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse & the individual income micro-simulation tax model.

**Number of taxpayers affected**

Approximately 187,000 taxpayers in tax year 2023

# 1.025 Credit to beneficiary for accumulation distribution.

*36 M.R.S.A. § 5214-A*

A beneficiary of a trust whose adjusted gross income includes all or part of an accumulation distribution by that trust is allowed a credit against the tax for all or a proportionate part of any tax paid by the trust on that income in any preceding taxable year which would not have been payable if the trust had in fact made distribution to its beneficiaries.

**Reason(s) for exemption**

Eliminates double taxation of income on which a trust has already paid the Maine income tax in a prior tax year.

**Estimated General Fund revenue loss**

FY ’24 $0 – $50,000
FY ‘25 $0 – $50,000
FY ’26 $0 – $50,000
FY ‘27 $0 – $50,000

**Methods used to calculate the revenue loss**

Revenue loss is estimated as a range of possible values because little or no data is available.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.026 Seed capital investment tax credit.

*36 M.R.S.A. § 5216-B*

The credit is available for investment in new or recent business ventures. For investments made in 2014 and prior to April 1, 2020, the credit rate is 50% for all investors. The credit rate is 40% for investments made on or after April 1, 2020.

FAME issues a certificate to investors to claim the credit and certificates are subject to an annual cap of $675,000 in 2014, $4,000,000 in 2015, $5,000,000 for calendar years 2015 to 2019, $15 million for calendar years 2020 to 2026, and $5 million for calendar years 2027 and later.

Investments may be used for fixed assets, research or working capital. Beginning April 1, 2020 aggregate investment up to $3,500,000 per business ($2 million per calendar year) is eligible; the prior cumulative investment limit was $5 million per business. The investment must be at risk for 5 years. Investors must own less than 50% of the business and immediate relatives of principal owners are not eligible. An eligible investment is an investment in a business that: a) is located in Maine; b) has gross sales of $3,000,000 or less per year ($5,000,000 or less per year for investments in 2014 and later); c) is the full-time, professional activity of at least one of the principal owners; and d) is a manufacturer, value-added natural resource enterprise, or a product or service provider with 60% of sales derived from outside the state or to out-of-state residents, is engaged in developing or applying advanced technologies or is a certified visual media production company.

25% of the authorized credit may be used for each tax year beginning with the tax year during which the investment was made. The credit is limited to 50% of income tax liability, except the credit for investments made by a venture capital fund after 2011 is fully refundable. Unused credits may be carried over for up to 15 years.

**Reason(s) for exemption**

Provides an incentive for investment in small businesses in Maine.

**Estimated General Fund revenue loss**

FY ‘24 $6,040,000
FY ‘25 $5,370,000
FY ‘26 $5,270,000
FY ‘27 $5,470,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse and credit certificates issued.

**Number of taxpayers affected**
Approximately 330 taxpayers

# 1.027 Student Loan Repayment Credit

*36 M.R.S.A. § 5217-E*

For tax years beginning on or after January 1, 2022, qualified individuals are eligible for a refundable student loan repayment tax credit (SLRTC) equal to 100% of student loan payments for eligible loans up to $2,500. Eligible loans are part of financial aid package, which can include private loans, borrowed for attendance at a certified college at which the student obtained a degree in 2008 or later. Qualified individuals are resident individuals who obtained a postsecondary degree after 2007 and have earned income equal to at least the minimum wage multiplied by 936. A $25,000 lifetime cap applies to the SLRTC for each qualified individual.

The SLRTC replaces the credit for educational opportunity (EOTC), which can no longer be claimed starting in 2022. The student loan repayment credit incorporates two forms of transition relief for prior EOTC claimants:

(1) Taxpayers who were eligible for a refundable EOTC in 2019, 2020, or 2021 may elect to increase the SLRTC cap from $2,500 to $3,500 in either 2022 or 2023. The credit claimed in excess of $2,500 does not apply against the $25,000 lifetime cap.
(2) Unused EOTC credits earned between 2012 and 2021 that can be carried forward can be claimed as part of the SLRTC through 2026.

**Reason(s) for exemption**

Provide financial relief for college graduates with education debt and encourage college graduates to live and work in Maine.

**Estimated General Fund revenue loss**

FY ‘24 $42,045,000
FY ‘25 $67,490,000
FY ‘26 $74,815,000
FY ‘27 $77,800,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse and projections that account for developments in federal student loan repayment relief.

**Number of taxpayers affected**
Approximately 26,000 in tax year 2023.

# 1.028 Employer support for volunteer firefighters and volunteer municipal emergency medical services persons tax credit.

*36 M.R.S.A. § 5217-F*

For tax years beginning on or after January 1, 2022, an employer who permits employees who are volunteer firefighters or volunteer municipal emergency medical services persons to be absent from work for firefighting or emergency response activities without a reduction in pay is eligible for an income tax credit. The credit is equal to the compensation that is paid to the employee at the employee's regular rate of pay while the employee is away from work due to firefighting or emergency response during the tax year.

For tax years beginning on or after January 1, 2025, the credit is extended to include volunteer municipal firefighters that are part-time or on-call municipal firefighters who receive up to 20% of the compensation of a full-time municipal firefighter and who may receive injury and death benefits.

The credit may not exceed the tax liability of the taxpayer.

**Reason(s) for exemption**

Support recruitment and retention of volunteer firefighters and emergency medical responders

**Estimated General Fund revenue loss**

FY '24 $3,000
FY '25 $12,000
FY '26 $41,000
FY '27 $41,000

**Methods used to calculate the revenue loss**

Support recruitment and retention of volunteer firefighters and emergency medical responders

**Number of taxpayers affected**

Estimate is based on analysis provided to the Legislature.

# 1.029 Income tax credit for child care expenses.

*36 M.R.S.A. § 5218*

An individual taxpayer is allowed a credit for expenses incurred for the care of a child or a dependent during the year, while the taxpayer worked or looked for work. The credit is 25% of the allowable federal tax credit, or 50% of the allowable federal tax credit with respect to quality child care services. The credit is refundable up to $500. For tax years beginning in 2016, the credit is no longer refundable for nonresident taxpayers.

"Quality child-care services" is defined as services provided at child-care sites that meet minimum licensing standards and are accredited by an independent, nationally recognized program approved by the Department of Health and Human Services ("DHHS"), Office of Child Care and Head Start. The service provider must utilize recognized quality indicators for child-care services approved by DHHS, Office of Child Care and Head Start and include provisions for parent and client input, review of the provider's policies and procedures, program records and an on-site program review.

**Reason(s) for exemption**

Helps taxpayers to be gainfully employed by providing tax relief for working parents, especially lower income, single parents.

**Estimated General Fund revenue loss**

FY '24 $3,955,000
FY '25 $4,110,000
FY '26 $4,275,000
FY '27 $4,445,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse and individual income micro-simulation tax model.

**Number of taxpayers affected**

Approximately 25,000 taxpayers affected.

# 1.030 Adult Dependent Care Credit.

*36 M.R.S.A. § 5218-A*

For tax years beginning on or after January 1, 2016, eligible taxpayers are allowed to claim a tax credit equal to 5% – 8.75% of adult dependent care expenses paid for adult day care, hospice services and respite care during the taxable year to the extent the expenses are not used to calculate the federal child and dependent care credit. The credit percentage depends on federal adjusted gross income.

The dependent care expenses that may be used to calculate the credit are limited to $3,000 for one qualifying individual or $6,000 for two or more qualifying individuals. The credit is refundable up to $500.

**Reason(s) for exemption**

Provide tax relief for taxpayers with adult dependent care expenses

**Estimated General Fund revenue loss**

FY ‘24 $16,500
FY ‘25 $17,000
FY ‘26 $17,500
FY ‘27 $18,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 110 taxpayers.

# 1.031 Research expense tax credit.

*36 M.R.S.A. § 5219-K*

An income tax credit is allowed for investment in research and development. The credit is equal to 5% of the excess, if any, of the qualified research expense for the taxable year over the average spent by the taxpayer on qualified research during the three prior tax years, plus 7.5% of the basic research payments made during the taxable year. The total taxpayer credit claimed may not reduce the taxpayer's tax liability for any tax year to less than zero. The credit is limited to research expenses incurred in Maine.

**Reason(s) for exemption**

Provides an incentive to encourage Maine businesses to invest in research and development in Maine.

**Estimated General Fund revenue loss**

FY '24 $3,220,000
FY '25 $3,350,000
FY '26 $3,950,000
FY '27 $4,110,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data.

**Number of taxpayers affected**

Approximately 180 taxpayers affected.

# 1.032 Earned income credit.

*36 M.R.S.A. § 5219-S*

For tax years beginning in 2016 to 2019, a taxpayer is allowed a credit equal to 5% of the federal earned income credit the credit is refundable for Maine residents.

For tax years beginning in 2020 and after, eligibility for the Maine earned income credit is also extended to childless taxpayers aged 18 to 24 who are ineligible for the Federal earned income credit solely due to their age. Their Maine credit is based on the Federal EITC that the taxpayer would have received if eligible.

For tax years beginning in 2020 the credit rate increases to 12% for taxpayers with a qualifying child and 25% for taxpayers without a qualifying child.

For tax years beginning in 2021 the credit rate is 20% for all taxpayers. In 2021 there was a temporary expansion of the federal credit that expired at the end of the year.

For tax years beginning in 2022 and later, the credit is 25% for taxpayers with a qualifying child and 50% for taxpayers without a qualifying child.

**Reason(s) for exemption**

Creates incentive for individuals to enter the workforce. It raises the after-tax income of lower and moderate-income families, especially those with dependents.

**Estimated General Fund revenue loss**

FY ‘24 $38,150,000
FY ‘25 $40,350,000
FY ‘26 $41,300,000
FY ‘27 $40,900,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse & the individual income micro-simulation tax model. The estimate is net of the transfer of TANF funds that partially offsets the General Fund loss.

**Number of taxpayers affected**

Approximately 92,000 taxpayers in tax year 2023

# 1.033 Pine Tree Development Zone tax credit.

*36 M.R.S.A. § 5219-W and § 2529*

The credit is available to certain businesses that expand or begin operations in most areas of the state. The credit allowed is 100% of the tax liability for the first five years and, for businesses located in a tier 1 location, 50% of the tax for each tax year six through ten. A business located in York or Cumberland County but not in a tier 1 Pine Tree Zone location could be certified as a qualified Pine Tree Zone business between January 1, 2010 and December 31, 2013 and receive the 100% income tax credit for the first five years. Only the tax associated with qualified business activity is eligible for the credit.

A business certified as a qualified business for the Dirigo business incentives program may not also be certified as a qualified Pine Tree Development Zone business.

The credit may also be claimed against the tax on insurance premiums that are attributable to a qualified business activity. The credit allowed is 100% of the tax liability for the first five years and, for businesses located in a tier 1 location, 50% of the tax for each tax year six through ten.

**Reason(s) for exemption**

Provides an incentive for economic development in Maine.

**Estimated General Fund revenue loss**

FY ‘24 $3,145,000
FY ‘25 $3,270,000
FY ‘26 $2,750,000
FY ‘27 $2,065,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 65 taxpayers

# 1.034 Biofuel commercial production and commercial use credit.

*36 M.R.S.A. § 5219-X*

A taxpayer engaged in the production of biofuels in Maine who has received certification from the Commissioner of Environmental Protection is allowed a credit against tax imposed on income derived during the taxable year from the production of biofuel. The credit is equal to five cents per gallon of certified liquid biofuel or gaseous biofuel. The credit may not reduce the taxpayer's liability to less than zero, but unused credits may be carried over to the next succeeding five taxable years.

The credit expired in 2015 and is reinstated for tax years beginning on or after January 1, 2021.

**Reason(s) for exemption**

Provides an incentive to produce biofuels in the state.

**Estimated General Fund revenue loss**

FY '24 $0
FY '25 $0
FY '26 $0 - $50,000
FY '27 $0 - $50,000

**Number of taxpayers affected**

Unavailable

# 1.035 Tax benefits for media production companies.

*36 M.R.S.A. § 5219-Y, c. 919-A*

For tax years starting on or after January 1, 2006, a media production company that intends to undertake a media production in Maine may apply to the Department of Economic and Community Development to have the production, or a portion of the production, certified for purposes of claiming the media production reimbursement pursuant to 36 M.R.S.A., chapter 919-A and the income tax credit under 36 M.R.S.A., § 5219-Y. A qualified media production company is allowed a reimbursement equal to 12% of certified production wages paid to employees who are residents of Maine and 10% of certified production wages paid to other employees. The tax credit, equal to 5% of qualified expenses, may not reduce the tax otherwise due to less than zero and may be used only in the year in which the certified media production income is generated. Taxpayers claiming the Pine Tree Development Zone credit are not eligible for this credit.

**Reason(s) for exemption**

Provides an incentive for media production activity in the State.

**Estimated General Fund revenue loss**

FY ‘24 $151,933
FY ‘25 $150,000
FY ’26 $230,000
FY ’27 $240,000

**Methods used to calculate the revenue loss**

Estimate is based on information from Maine Revenue Services data.

**Number of taxpayers affected**

Fewer than 10 taxpayers affected.

# 1.036 Credit for rehabilitation of historic properties.

*36 M.R.S.A. § 5219-BB*

The credit is equal to 25% of qualified expenditures for which a federal credit is claimed under the Code § 47 or for which a federal credit is not claimed, but qualified expenditures are between $50,000 and $250,000. The credit must exclude expenditures incurred after 2025. Certain affordable housing projects may qualify for an enhanced credit (34% in 2019 and 2020). The credit must be taken in 25% increments over four years. For tax years beginning after 2013, the credit is limited to $5 million for each portion of the certified rehabilitation or for each building that is a component part of a certified historic structure for which a credit is claimed.

**Reason(s) for exemption**

Designed to enlist private funds for the rehabilitation of historic properties. The credit helps reduce the cost of these projects.

**Estimated General Fund revenue loss**

FY ‘24 $10,577,000
FY ‘25 $16,897,000
FY ’26 $21,074,000
FY ’27 $22,707,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse and data provided by the Maine Historic Preservation Commission.

**Number of taxpayers affected**

Approximately 45 individual and corporate taxpayers are affected.

# 1.037 Dental care access credit.

*36 M.R.S.A. § 5219-DD*

Dentists certified as eligible for this credit by the Department of Health and Human Services, Oral Health Program ("OHP") may claim a nonrefundable credit on their individual income tax return. OHP may certify up to 5 eligible dentists in each year between 2009 and 2011, up to 6 dentists in each year 2012 through 2015, and up to 6 dentists each year between 2018 and 2022. To be eligible, the dentist must be licensed by Maine and must agree to practice in an underserved area of Maine for at least 5 years.

The credit may be claimed beginning the first year the dentist meets the conditions of eligibility for at least 6 months and each of the 4 subsequent years if they retain eligibility. For dentists certified prior to 2012, the credit may not exceed $15,000 per year. For dentists certified from 2012 to 2015, the credit may not exceed $12,000 per year. For dentists certified in 2018 and later, the credit may not exceed $6,000 in the first year, $9,000 in the second year, $12,000 in the third year, $15,000 in the fourth year, and $18,000 in the fifth year.

**Reason(s) for exemption**

Provides an incentive for dentists to locate their practice in underserved areas of the state.

**Estimated General Fund revenue loss**

FY '24 $129,000
FY '25 $90,000
FY '26 $66,000
FY '27 $26,000

**Methods used to calculate the revenue loss**

Analysis of the history of certifications and credit claims.

**Number of taxpayers affected**

Approximately 15.

# 1.038 Innovation finance credit.

*36 M.R.S.A. § 5219-EE*

The Finance Authority of Maine ("FAME") is authorized to oversee a state innovation finance program that facilitates investment by the Maine Public Employees Retirement System ("MainePERS") in venture capital funds for innovative businesses. FAME may issue refundable tax credits to MainePERS sufficient to offset 80% (up to $4,000,000) of the cost of each single commitment in a venture capital fund in the event of realized losses in value. Reimbursement for any such losses is capped at a maximum aggregate of $20,000,000. Maine Revenue Services administers the tax credit provisions. Effective July 12, 2010.

**Reason(s) for exemption**

Encourages MainePERS to invest in innovative businesses.

**Estimated General Fund revenue loss**

FY '24 $0 - $4,000,000
FY '25 $0 - $4,000,000
FY '26 $0 - $4,000,000
FY '27 $0 - $4,000,000

**Methods used to calculate the revenue loss**

This credit has never been utilized.

# 1.039 Credit for Wellness Programs.

*36 M.R.S.A. § 5219-FF*

Beginning in 2014, a taxpayer constituting an employing unit with 20 or fewer employees on an average monthly basis during the taxable year is allowed a credit for qualified wellness program expenditures made during the taxable year.

A wellness program is defined as a program instituted by an employing unit that improves employee health, morale and productivity, including, without limitation:
(1) Health education programs;
(2) Behavioral change programs, such as counseling or seminars or classes on nutrition, stress management or smoking cessation; and
(3) Incentive awards to employees who engage in regular physical activity.

The credit per tax year for each taxpayer is limited to $100 per employee or $2,000, whichever is less. The credit is not refundable and any unused credit amount may be carried over for 5 years.

**Reason(s) for exemption**

Encourage small employers to establish wellness programs.

**Estimated General Fund revenue loss**

FY ‘24 $0
FY ‘25 $0 - $10,000
FY ’26 $0 - $10,000
FY ’27 $0 - $10,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Fewer than 10

# 1.040 New Markets Capital Investment Credit.

*36 M.R.S.A. § 5219-HH*

A person making a qualified equity investment in a low-income community business is allowed a credit equal to 39% of the investment. The credit is taken over seven years, with 0% allowed in the first two years, 7% allowed in year three and 8% allowed in each of years four through seven. The credit is fully refundable, or the taxpayer may elect to carry any unused portion of the credit forward for up to 20 years. Certain recapture provisions apply. Applies to tax years beginning on or after January 1, 2012.

**Reason(s) for exemption**

Encourage new investment in Maine.

**Estimated General Fund revenue loss**

FY '24 $3,857,000
FY '25 $3,389,000
FY '26 $841,000
FY '27 $643,000

**Methods used to calculate the revenue loss**

Analysis of credit claims and credit certificates issued to date.

**Number of taxpayers affected**

Fewer than 10 taxpayers

# 1.041 Property Tax Fairness Credit.

*36 M.R.S.A. § 5219-KK*

A refundable tax credit for property taxes and rent paid is available. The credit equals:

Benefit base – Income * Threshold Percentage

where the benefit base equals property taxes paid plus 15% of rent, up the benefit base limit, and the credit cannot exceed the credit maximum or be below zero. A recent history of the income thresholds, maximum credits, and benefit base limits is shown in the table below:

| Tax Year | Income Threshold | Credit Maximum (Under 65 / 65 and older) | Benefit Base Limit* |
|---|---|---|---|
| 2019 | 6% | $750 / $1,200 | $2,050 / $2,650 / $3,300 |
| 2020 | 5% | $750 / $1,200 | $2,100 / $2,700 / $3,350 |
| 2021 | 5% | $1,000 / $1,500 | $2,100 / $2,750 / $3,400 |
| 2022 | 4% | $1,000 / $1,500 | $2,200 / $2,800 / $3,450 |
| 2023 | 4% | $1,000 / $1,500 | $2,300 / $3,000 / $3,700 |
| 2024 | 4% | $1,000 / $2,000 | Under 65: $2,450/$3,200/$3,900<br><br>65 and older: $4,000, regardless of filing status or number of dependents |

* The first limit applies to taxpayers who file with a single filing status, the second limits applies to head of household taxpayers with one dependent or married joint or qualified widower taxpayers without dependents, and the third limit applies to the credit-eligible taxpayers. Married filing separately taxpayers cannot claim the credit.

Beginning in 2024, a separate benefit base limit applies to the taxpayers who are 65 or older. The new limit is $4,000 regardless of filing status or the number of dependents claimed and will be adjusted for inflation after 2024.

The income measure used to calculate the credit is generally Federal Adjusted Gross income plus 1) all federal "above-the-line" deductions; 2) tax-exempt Social Security income; 3) tax-exempt interest; 4) net business and capital losses included in Federal Adjusted Gross income.

**Reason(s) for exemption**

Provide targeted property tax relief to Maine homeowners and renters.

**Estimated General Fund revenue loss**

FY ‘24 $74,645,000
FY ‘25 $109,740,000
FY ‘26 $118,145,000
FY ‘27 $122,160,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse & the individual income micro-simulation tax model.

**Number of taxpayers affected**

Approximately 119,000 taxpayers in tax year 2023

# 1.042 Primary care access credit.

*36 M.R.S.A. § 5219-LL*

To qualify for the credit, a primary care professional must be certified by the Department of Health and Human Services and agree to practice full time for at least 5 years in an underserved area. The Department of Health and Human Services may certify up to 5 primary care professionals each year prior to 2018 and up to 10 primary care professionals beginning in 2018. The credit applies to tax years beginning on or after January 1, 2014.

The credit is equal to the annual payments made on a student loan for course work directly related to that person's training in primary care medicine. The credit may be claimed in the first year that the eligible primary care professional meets the conditions of eligibility for at least 6 months, and each of the four subsequent years. The credit is limited to $6,000 in the first year of eligibility, $9,000 in the second year, $12,000 in the third year, $15,000 in the fourth year and $18,000 in the fifth year. The credit may not reduce the tax otherwise due to less than zero.

**Reason(s) for exemption**

Encourage primary care professionals to provide services in underserved areas.

**Estimated General Fund revenue loss**

FY ‘24 $57,000
FY ‘25 $70,000
FY ‘26 $80,000
FY ‘27 $90,000

**Methods used to calculate the revenue loss**

Analysis of credit claims and certifications to date.

**Number of taxpayers affected**

15

# 1.043 Maine Capital Investment Credit.

*36 M.R.S.A. § 5219-NN*

Taxpayers are allowed a credit based on federal bonus depreciation for eligible property placed in service in Maine.

The credit base equals the bonus depreciation addition modification required under 36 M.R.S. § 5122(1)(KK)(1) related to property placed in service in Maine and used in Maine continuously for at least 12 months following the date the property is placed in service. This amount represents the net increase in the federal depreciation deduction due to bonus depreciation. The credit does not apply to the Maine financial institutions franchise tax and is prohibited with respect to certain property.

For individual taxpayers, the credit percentage is 7% for tax years beginning after 2014 and before 2020 and 1.2% for tax years beginning in 2020 and later. For corporate taxpayers, the credit percentage is 9% for tax years beginning after 2014 and before 2020 and 1.2% for tax years beginning in 2020 and later.

Investments placed in service during a taxable year beginning on or after January 1, 2025 are ineligible for the Maine Capital Investment Credit. Carryforward credits amounts can still be claimed after 2024.

For credits claimed on investments occurring in tax years 2020 and later, taxpayers can recapture the disallowed federal depreciation that represents the credit base in future tax years. For the credit in earlier years, taxpayers are prohibited from recapturing the depreciation addback in future tax years.

Any unused portion of the credit may be carried forward to the following year or years for a period not to exceed 20 years.

The TCJA increased bonus depreciation to 100% for property placed in service after 9/27/2017 and expanded the definition of qualified property to include used equipment. Bonus depreciation is reduced to 80% for investments placed in service in 2023 and 60% for investments placed in service in 2024.

The General Fund revenue loss reported below represents the estimated revenue impact of tax credits for investments occurring in tax years 2020 and later. It excludes the revenue loss from carryforwards from pre-2020 credits and the revenue increase from foregone depreciation for pre-2020 investments.

**Reason(s) for exemption**

Encourage investment in Maine

**Estimated General Fund revenue loss for credits first claimed in tax year 2020 and later**

FY ‘24 $9,600,000
FY ‘25 $8,100,000
FY ‘26 $2,800,000

FY ‘27 $350,000

**Methods used to calculate the revenue loss**

Analysis based on history of credit claims and carryforwards.

**Number of taxpayers affected**

Approximately 4,000 taxpayers

# 1.044 Credit for disability income protection plans in the workplace.

*36 M.R.S.A. § 5219-OO*

For tax years beginning on or after January 1, 2017, a credit against income tax is allowed for employers providing either a qualified short-term disability income protection plan or a qualified long-term disability income protection plan. The credit is equal to $30 per employee enrolled in a plan after January 1,2017 who was not covered under a disability income protection plan offered by the employer in the tax year immediately preceding the year in which the credit is first available. The credit must be taken in the first year the employer becomes eligible to claim the credit and may be claimed for up to 3 consecutive tax years. The credit is limited to the tax liability of the taxpayer and any unused credit may not be carried back or forward to any other tax year. Expenditures used to calculate the credit that are also used as an expense in calculating federal adjusted gross income must be added back to income through a Maine addition modification.

**Reason(s) for exemption**

Encourage employers to offer disability insurance policies with automatic enrollment.

**Estimated General Fund revenue loss**

FY ‘24 $2,250
FY ‘25 $0 - $10,000
FY ‘26 $0 - $10,000
FY ‘27 $0 - $10,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Fewer than 10 taxpayers in 2023.

# 1.045 Dirigo Business Incentives Tax Credit.

*36 M.R.S.A. § 5219-AAA*

For tax years beginning on or after January 1, 2025, the Dirigo Business Incentives program (DIRIGO) income tax credit may be claimed by qualified businesses that have been certified under the program by DECD and make eligible capital investments in eligible business property or that provide qualified training to its employees within the State.

A DIRIGO qualified business must be certified by DECD as a for-profit business in Maine engaged in one of the following eligible sectors: agriculture, forestry, and fishing; manufacturing; long-distance freight transportation; software publishing, data processing, and computer design services; or engineering, architecture, and scientific research and development services. The following businesses are not eligible to participate in the DIRIGO program: a public utility; a business certified for incentives under the Pine Tree Development Zone program, the Employment Tax Increment Financing program, the Maine shipbuilding credit, or the Maine paper manufacturing facility credit; or a business with 20 or more employees that has undergone a layoff within the two taxable years prior to the year during which an application for certification is filed with DECD.

The credit is equal to: (1) 10% of the eligible capital investment for property placed in service in Maine during the taxable year outside of Cumberland, Sagadahoc, and York counties; plus (2) 5% of eligible capital investment in property placed in service during the taxable year in Cumberland, Sagadahoc, and York counties; plus (3) $2,000 for each qualified employee that completes a qualified training program during the tax year. For any one tax year, the credit is limited to $2 million and is refundable up to $500,000. The credit and the refundability cap must be prorated among affiliated businesses or members of pass-through entities. Unused credit may be carried forward for up to 4 succeeding tax years.

**Reason(s) for exemption**

Improve the productivity of workers and businesses in the State by encouraging businesses to invest in capital and worker training.

**Estimated General Fund revenue loss**

FY ‘24 $0
FY ‘25 $3,581,500
FY ‘26 $44,783,000
FY ‘27 $46,388,500

**Methods used to calculate the revenue loss**

Estimate is based on analysis provided to the Legislature.

# 1.046 Credit for major business headquarters expansions

*36 M.R.S.A. §5219-QQ*

A refundable tax credit is available to businesses headquartered in Maine that meet certain employment and investment thresholds. A business must be certified by the Commissioner of Economic Development to receive the credit. Certification requires 1) The applicant's headquarters are or will be located in the State; (2) The applicant employs at least 5,000 full-time employees worldwide of which at least 25% are or will be based in this State; (3) The applicant has business locations in at least 3 other states or foreign countries; and (4) The applicant intends to make a qualified investment in Maine within 5 years following the date of the application. A qualified investment means an investment of at least $35,000,000 to design, permit, construct, modify, equip or expand the applicant's headquarters in the State. Qualified investments must occur after receiving a certificate of approval and before December 31, 2022. The commissioner may not issue certificates of approval that total, in the aggregate, more than $100,000,000 of qualified investment or any individual certificate of approval for more than $40,000,000 of qualified investment.

The credit begins in the year the applicant receives a certificate of completion from the Commissioner of Economic Development, but not before 2020. The credit equals 2% of qualified investments, is available for 20 consecutive tax years, and the cumulative credit is limited to $16 million per certificate. To receive the credit applicant must meet certain targets for employment growth.

**Reason(s) for exemption**

Provide an incentive to make the investments subsidized by the credit.

**Estimated General Fund revenue loss**

FY ‘24 $760,000
FY ‘25 $760,000
FY ‘26 $760,000
FY ‘27 $760,000

# 1.047 Shipbuilding facility credit.

*36 M.R.S.A. § 5219-RR*

A nonrefundable income tax credit is available to shipbuilders who meet employment and investment thresholds. Applicants must be certified by the Commissioner of Economic Development to receive the credit. Certification requires, among other things, that the applicant employs at least 5,000 qualified workers and does not receive Pine Tree Zone or ETIF benefits. The credit equals $3 million per year beginning in the year when cumulative qualified investments from January 1, 2018 onwards exceed $100,000,000, or 2020, whichever is later. The credit can be increased up to $3.5 million, but not more than 3% of post-2017 cumulative investment, if the applicant satisfies certain employment thresholds. The credit is reduced if qualified employment falls below 5,500, and taxpayers with qualified employment below 4,000 cannot claim the credit. Unused credits cannot be carried forward.

Taxpayers may claim the credit for 10 consecutive years. This limitation is extended to 15 consecutive tax years if the taxpayer makes an additional $100 million investment.

The former Shipbuilding facility credit (Chapter 919) has expired.

**Reason(s) for exemption**

Encourages major investment in shipbuilding projects in Maine.

**Estimated General Fund revenue loss**

FY ‘24 $3,087,500
FY ‘25 $2,968,750
FY ‘26 $2,968,750
FY ‘27 $2,968,750

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maime Revenue Services data warehouse.

**Number of taxpayers affected**

Fewer than 5 taxpayers affected.

# 1.048 Dependent Exemption Tax Credit in Excess of Tax Liability

*36 M.R.S.A. §5219-(SS)*

A taxpayer is allowed a credit equal to $300 for each dependent of the taxpayer for whom the taxpayer was eligible to claim the federal child tax credit; beginning in tax year 2026, the credit is for each dependent for whom the taxpayer was eligible to claim the federal personal exemption. Nonresident and part-year resident credits are prorated.

The $300 credit amount is first adjusted for inflation beginning in tax year 2025.

For tax years beginning in 2024 after, the tax credit is refundable for full-year and part-year residents. The tax expenditure amount only represents the estimate of the tax credit in excess of income tax liability. The portion of the tax credit that offsets income tax is considered part of reference tax law.

**Reason(s) for exemption**

Provide income support for low-income families with children.

**Estimated General Fund revenue loss**

FY ‘24 $0
FY ‘25 $18,050,000
FY ‘26 $17,820,000
FY ‘27 $17,730,000

**Methods used to calculate the revenue loss**

Estimate is based on the individual income micro-simulation tax model.

**Number of taxpayers affected**

# 1.049 Employer Credit for Family and Medical Leave

*36 M.R.S.A. §5219-(UU)* and *§2536*

For tax years beginning on or after January 1, 2018, a person is allowed a credit against the tax otherwise due under this chapter in an amount equal to the federal employer credit for paid family and medical leave allowed to that person under the Internal Revenue Code, Section 45 as a result of wages paid to employees based in the State during the taxable year.

The credit allowed under this section may not reduce the tax otherwise due under this chapter to less than zero. The credit may not be carried forward or carried back to any other tax year.

The federal credit equals 12.5% of the amount of wages paid to qualifying employees during any period in which such employees are on family and medical leave ("FMLA") if the rate of payment under the program is 50% of the wages normally paid to an employee. The credit is increased by 0.25 percentage points (but not above 25%) for each percentage point by which the rate of payment exceeds 50%.

The federal credit is scheduled to expire at the end of 2025.

**Reason(s) for exemption**

Provide tax benefits to employers that provide paid family and medical leave

**Estimated General Fund revenue loss**

FY '24 $74,000
FY '25 $68,000
FY '26 $71,000
FY '27 $36,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Fewer than 10 taxpayers.

# 1.050 Credit for major food processing and manufacturing facility expansion.

*36 M.R.S.A. § 5219-VV*

A refundable income tax credit may be claimed by a qualified business for the construction, or expansion of, a food processing and manufacturing facility, plant or mill in Maine that processes, produces and manufactures food from agricultural products primarily grown and harvested in Maine. A qualified business must be certified by DECD and must: 1) have been headquartered in Maine for a period of at least 5 years prior to applying for a certificate of approval; 2) make a qualified investment of at least $35,000,000 within 5 years of applying for a certificate of approval; 3) pay an annual income derived from employment to at least 75% of its employees that exceeds the annual per capita personal income in the county where the facility is located; and 4) employ at least 40 full-time employees in the State over the base level of employment for each of the first three years for which the credit is claimed (60 full-time employees each year after the third year of claiming the credit). The credit must be claimed over a period of 20 years beginning with the first full tax year following the year the taxpayer receives a certificate of completion or the tax year beginning January 1, 2022, whichever is later. The annual credit amount is equal to 1.8% of the taxpayer's qualified investment. A credit is not allowed for any tax year following two consecutive tax years during which the certified applicant's ordinary business income was not between $5,500,000 and $12,000,000. The aggregate credit allowed with respect to each certificate may not exceed $34,000,000. Additional restrictions and recapture provisions apply.

**Reason(s) for exemption**

Encourages major investment in food processing and manufacturing facilities.

**Estimated General Fund revenue loss**

FY '24 $0
FY '25 $0
FY '26 $0
FY '27 $1,453,500

**Methods used to calculate the revenue loss**

Estimate is based on analysis provided to the Legislature.

**Number of taxpayers affected**

Fewer than 5 taxpayers affected.

# 1.051 Credit for affordable housing.

*36 M.R.S.A. § 5219-WW*

A taxpayer receiving a tax credit certificate for the taxable year from the Maine State Housing Authority for an affordable housing project located in Maine may claim a refundable income tax credit for that taxable year. The MSHA may allocate $10 million in tax credits per year plus carry forward allocations if total allocations are less than $10 million in prior years; the total amount, including carry forwards, that may allocated in a calendar cannot exceed $15 million. MSHA may make an allocation only during a calendar year beginning in 2021 through 2028. The credit is equal to either (1) the total federal low-income housing tax credit claimed under Internal Revenue Code, Section 42 using the entire federal credit period for all buildings in a qualified Maine project, or (2) an amount equal to the lesser of $500,000 or 50% of the qualified basis of an affordable housing project that incurs at least $100,000 includible in eligible basis in the construction or rehabilitation of an affordable housing project for which a federal low-income housing tax credit is not claimed under Section 42 of the Code with respect to those expenditures. Other allocation, recapture, and reporting provisions apply.

**Reason(s) for exemption**

Encourage construction of affordable housing.

**Estimated General Fund revenue loss**

FY ‘24 $0
FY ‘25 $14,250,000
FY ‘26 $14,250,000
FY ‘27 $14,250,000

**Methods used to calculate the revenue loss**

Estimate is based on tax data and information on tax credit awards.

# 1.052 Renewable chemicals tax credit.

*36 M.R.S.A. § 5219-XX*

For tax years beginning on or after January 1, 2021, a taxpayer engaged in the production of renewable chemicals in Maine may claim a credit equal to 8¢ per pound of the renewable chemicals produced. The credit may only be used to reduce the Maine tax imposed on income derived during the taxable year from the production of renewable chemicals. Unused credit amounts may be carried forward for up to ten taxable years. Eligible taxpayers must demonstrate to DECD that at least 75% of the employees of the contractors hired or retained to harvest renewable biomass used in the production of the renewable chemicals meet the eligibility conditions specified in the Employment Security Law. Taxpayer and legislative reporting requirements apply.

**Reason(s) for exemption**

Encourage the production of renewable chemicals

**Estimated General Fund revenue loss**

FY ‘24 $0
FY ‘25 $0
FY ‘26 $0 - $49,999
FY ‘27 $0 - $49,999

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

# 1.053 Credit for paper manufacturing facility investment.

*36 M.R.S.A. § 5219-YY*

A refundable income tax credit may be claimed by a paper manufacturer certified by DECD as a qualified applicant. The applicant must make a qualified investment of at least $15,000,000 to modernize or improve a paper making facility. The credit is equal to 4% of the certified applicant's qualified investment claimed over a period of 10 years beginning with the tax year during which the certificate of completion is issued or the tax year beginning in 2024, whichever is later. DECD may, for purposes of the credit, certify up to $40,000,000 of qualified investments in the aggregate. Qualified investments must be made after December 31, 2018 and no later than December 31, 2023. Cumulative credits claimed by all certified applicants may not exceed $1,600,000 per year and $16,000,000 in the aggregate. Additional restrictions and recapture provisions apply

**Reason(s) for exemption**

Provide incentives for the revitalization of paper manufacturing facilities in counties with high unemployment and to create or retain high-quality jobs in the State by encouraging paper manufacturers to modernize their paper manufacturing equipment to better compete in the marketplace

**Estimated General Fund revenue loss**

FY '24 $0
FY '25 $0
FY '26 $1,520,000
FY '27 $1,520,000

**Methods used to calculate the revenue loss**

Information provided in the annual report on the Paper Manufacturing Facility Investment program

# 1.054 Access to Justice Income Tax Credit.

*36 M.R.S.A. § 5219-ZZ*

The Supreme Judicial Court may certify up to five eligible attorneys each year from 2022 to 2027 for the Access to Justice income tax credit. To be certified, an attorney must: 1) agree to practice law in an underserved area for at least five years; 2) be rostered by the Maine Commission on Indigent Legal Services to accept court appointments to represent clients in an underserved area; and 3) agree to perform pro bono legal services in an underserved area The credit is $6,000 per year, may be claimed in the first year that the eligible attorney meets the conditions of eligibility for at least six months and in each of the four subsequent years, and is nonrefundable. The court must decertify individuals who cease to meet the conditions of eligibility.

**Reason(s) for exemption**

Encourage attorneys to practice law in underserved areas of Maine.

**Estimated General Fund revenue loss**

FY ‘24 $35,000
FY ‘25 $52,500
FY ‘26 $70,000
FY ‘27 $87,500

**Methods used to calculate the revenue loss**

Estimate is based on analysis provided to the Legislature.

**Number of taxpayers affected**

Fewer than 10 in 2023

# 1.055 Credit for Investment in Qualified Baseball Facilities.

*36 M.R.S.A. § 5219-BBB*

A qualified applicant that has made a qualified investment of at least $1,000,000 between October 1, 2023 and November 30, 2026 in a qualified professional baseball facility in Maine and that has received a certificate of approval and a certificate of completion from DECD may be eligible for a refundable credit equal to 1.33% of the qualified investment, up to $133,000 per tax year and $1,995,000 in cumulative total. The credit may be claimed over a 15-year period beginning with the tax year during which the certificate of completion is issued, or the tax year beginning in 2025, whichever is later. The credit is subject to reporting requirements and recapture provisions.

**Reason(s) for exemption**

Provide financial support for investments in qualified baseball facilities.

**Estimated General Fund revenue loss**

FY ‘24 $0
FY ‘25 $0
FY ‘26 $126,350
FY ‘27 $126,350

**Methods used to calculate the revenue loss**

Estimate is based on analysis provided to the Legislature.

**Number of taxpayers affected**

# 1.056 Employment tax increment financing and other job increment financing.

*36 M.R.S.A. Chapter 917 and 5 M.R.S.A. §13080-O-T and §13083-S-1*

A qualified business is entitled to reimbursement of Maine income tax withheld during the calendar year for which reimbursement is requested and attributed to qualified employees after July 1, 1996 in the following amounts:

For qualified employees employed by a qualified business in state labor market areas in which the labor market unemployment rate is at or below the state unemployment rate at the time of the application, the reimbursement is equal to 1.35% of gross wages during each of the first 5 calendar years for which reimbursement is requested and attributed to those qualified employees.

For qualified employees employed by a qualified business in state labor market areas in which the labor market unemployment rate is greater than the state unemployment rate at the time of the application, the reimbursement is equal to 2.25% of gross wages during each of the first 5 calendar years for which reimbursement is requested and attributed to those qualified employees.

For qualified employees employed by a qualified business in state labor market areas in which the labor market unemployment rate is greater than 150% of the state unemployment rate at the time of the application, the reimbursement is equal to 3.38% of gross wages during each of the first 5 calendar years for which reimbursement is requested and attributed to those qualified employees.

For qualified Pine Tree Development Zone employees, employed directly in the qualified business activity of a qualified Pine Tree Development Zone business, for whom a certificate has been issued, the reimbursement is equal to 3.6% of gross wages each year for which reimbursement is requested and attributed to those qualified employees for a period of no more than 10 years for tier 1 locations and no more than 5 years for tier 2 locations. Reimbursement under this paragraph may not be paid for years beginning after December 31, 2034.

Special job increment financing programs exist for purposes of providing funding to the Loring Development Authority (the former Loring Air Force Base) and the Midcoast Regional Redevelopment Authority (the former Brunswick Naval Air Station) for the purpose of redeveloping the former base areas.

The employment tax increment financing program (ETIF) is being phased out. Certificates of approval for the program may not be issued after December 31, 2024 and a certificate of approval for the Dirigo Business Incentives program may not be issued to business with an ETIF certificate of approval.

**Reason(s) for exemption**

Provides incentives for businesses to hire new employees with a designated level of wages, health and retirement benefits.

**Estimated General Fund revenue loss**

Employee Tax Increment Financing:

FY ‘24 $10,275,947
FY ‘25 $10,282,054
FY ’26 $9,697,000
FY ’27 $6,745,000

*If enhanced ETIF reimbursements for Pine Tree Zones did not exist for calendar year 2023 ETIF reimbursements (paid in FY 2025), the General Fund expenditure would have been approximately $5,720,000.

Loring Job Increment Financing:

FY ’24 $581,141
FY ’25 $599,971
FY ’26 $624,000
FY ’27 $665,000

Brunswick Naval Air Station Job Increment Financing:

FY ’24 $255,192
FY ’25 $238,230
FY ’26 $243,000
FY ’27 $248,000

**Methods used to calculate the revenue loss**

Estimate is based on claims through calendar year 2023.

**Number of taxpayers affected**

85 ETIF recipients in FY 2025.

# 1.057 Health savings accounts.

*36 M.R.S.A. § 5102 (1-D)*

Health savings accounts (HSAs) enable workers with high-deductible health insurance to make pre-tax contributions equal to the lesser of the annual deductible or $3,450 for self-coverage ($6,900 for families) for 2018 to cover health care costs. Any amount paid or distributed from an HSA which is used exclusively to pay qualified medical expenses of any account beneficiary is not included in gross income. Distributions not used to pay qualified medical expense must be included in gross income and are subject to a 20% penalty.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $2,430,000
FY ‘25 $2,560,000
FY ‘26 $2,670,000
FY ‘27 $2,800,000

**Methods used to calculate the revenue loss**

Estimate is based on the individual income micro-simulation tax model. The estimate is only for the HSA deduction claimed on the Federal 1040 and not for employee contributions that are subtracted from taxable wages.

**Number of taxpayers affected**

Approximately 11,400 taxpayers.

# 1.058 Deduction for interest on student loans.

*36 M.R.S.A. § 5102-(1-D)*

Taxpayers may claim an above-the-line deduction of up to $2,500 on interest paid on an education loan. The deduction is reduced when modified adjust gross income exceeds $60,000 ($125,000 for joint filers) and is eliminated when income exceeds $75,000 ($155,000 for joint filers).

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $2,020,000
FY ‘25 $3,230,000
FY ‘26 $3,680,000
FY ‘27 $4,020,000

**Methods used to calculate the revenue loss**

Estimate is based on the individual income micro-simulation tax model.

**Number of taxpayers affected**

Approximately 37,000 taxpayers in tax year 2023.

# 1.059 Deduction for moving expenses.

*36 M.R.S.A. § 5102-(1-D)*

Taxpayers may claim an above-the-line deduction for unreimbursed moving expenses when the move is related to starting work in a new location. To deduct moving expenses a taxpayer must meet a distance test and a time test. For tax years beginning in 2018 - 2025, this deduction may only be claimed by members of the Armed Forces who move pursuant to a military order.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $26,000
FY ‘25 $29,000
FY ‘26 $30,000
FY ‘27 $570,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 185 taxpayers

# 1.060 Pension contributions- individual retirement plans.

*36 M.R.S.A. § 5102-(1-D)*

Taxpayers may deduct from adjusted gross income (AGI) contributions to various Individual Retirement Accounts (IRAs). The IRA contribution limit is $6,000 for 2019 – 2022 and $6,500 in 2023. Taxpayers over age 50 may make additional "catch-up" contributions of $1,000.

Taxpayers who are not covered by a retirement plan at work may claim a full deduction for contributions to a traditional IRA. The deductible amount is subject to income limitations when a taxpayer is covered by a retirement plan. In 2022, married taxpayers with both spouses covered by a retirement plan can claim a full deduction if modified AGI is below $109,000 ($68,000 for single filers) and a partial deduction if modified AGI is below $129,000 ($78,000 for single filers).

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY '24 $4,910,000
FY '25 $5,120,000
FY '26 $5,340,000
FY '27 $5,600,000

**Methods used to calculate the revenue loss**

Estimate is based on the individual income micro-simulation tax model and information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 15,000 taxpayers.

# 1.061 Pension contributions- partners & sole proprietors – Self-employed SEP, Simple, and KEOGH plans.

*36 M.R.S.A. § 5102-(1-D)*

Self-employed individuals may make deductible contributions to their own retirement (Keogh) plans equal to 25 percent of their post-contribution income, up to a maximum of $61,000 in 2022. Total plan contributions are limited to 25 percent of the firm's total wages. Tax on the investment income earned by the Keogh plan is deferred until withdrawn.

Self-employed individuals may also set up SEP and SIMPLE plans for themselves and their employees.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY '24 $8,160,000
FY '25 $8,610,000
FY '26 $8,990,000
FY '27 $9,400,000

**Methods used to calculate the revenue loss**

Estimate is based on the individual income micro-simulation tax model and information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 5,800 taxpayers.

# 1.062 Deduction for health insurance premiums and long-term care insurance premiums by the self-employed.

*36 M.R.S.A. § 5102-(1-D)*

Self-employed taxpayers may deduct 100% of family health insurance premiums paid. Taxpayers without self-employment income are not eligible for this deduction but may claim premiums as an itemized deduction.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $10,180,000
FY ‘25 $10,710,000
FY ‘26 $11,190,000
FY ‘27 $11,670,000

**Methods used to calculate the revenue loss**

Estimate is based on the individual income micro-simulation tax model and information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 21,500 taxpayers.

# 1.063 Educator Expenses.

*36 M.R.S.A. § 5102-(1-D)*

Eligible educators are allowed a deduction of up to $300 for unreimbursed purchases of materials and equipment used in the classroom in tax year 2024. The deduction limit is adjusted annually for inflation.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $280,000
FY ‘25 $290,000
FY ‘26 $305,000
FY ‘27 $315,000

**Methods used to calculate the revenue loss**

Estimate is based on information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 15,000 taxpayers.

# 1.064 Tax-exempt interest income

*36 M.R.S.A. § 5102 (1-D)*

Interest from most state and local bonds is exempt from federal and state taxation. Individual taxpayers report the amount of their exempt interest on the Federal 1040; this tax expenditure is an estimate of the revenue that would be raised from taxing that income.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY '24 $12,070,000
FY '25 $12,230,000
FY '26 $10,990,000
FY '27 $9,060,000

**Methods used to calculate the revenue loss**

Estimate is based on the individual income micro-simulation tax model and information from the Maine Revenue Services data warehouse.

**Number of taxpayers affected**

Approximately 23,000 taxpayers.

# 1.065 Section 179 Expensing.

*36 M.R.S.A. § 5102 (1-D)*

For tax years beginning in 2022, taxpayers can expense up to $1,080,000 (the dollar limit) of investments in eligible property under the Code Section 179. The maximum amount that can be expensed is reduced dollar for dollar by the amount of equipment investment exceeding $2,700,000 (the phase out amount). These limits are adjusted annually for inflation.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $2,500,000
FY ‘25 $2,600,000
FY ‘26 $2,800,000
FY ‘27 $3,500,000

**Methods used to calculate the revenue loss**

Estimate is based on *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028*, compiled by the U.S. Joint Standing Committee on Taxation.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.066 Deduction for dividends received by domestic corporations from certain foreign corporations.

*36 M.R.S.A. § 5102-(1-D)*

The Tax Cuts and Jobs Act allows a domestic corporation that is an owner of a specified 10% foreign corporation a 100% dividends received deduction ("DRD") for the foreign-source portion of dividends received from the foreign corporation.

The 100% DRD would be available only to domestic C corporations that are neither real estate investment trusts nor regulated investment companies. Maine conforms to this 100% DRD.

The deduction for dividends paid from income that has been previously taxed is not considered a tax expenditure. Previously taxed income includes income subject to the deemed repatriation in the Tax Cuts and Jobs Act of 2017 (TCJA), GILTI, and Subpart F income.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY '24 $500,000 - $2,000,000
FY '25 $500,000 - $2,000,000
FY '26 $500,000 - $2,000,000
FY '27 $500,000 - $2,000,000

**Methods used to calculate the revenue loss**

The revenue loss is estimated as a range of possible values because little or no data is available.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.067 Opportunity Zones.

*36 M.R.S.A. § 5102-(1-D)*

The TCJA created Opportunity Zones, which are designated low-income areas where investments through qualified vehicles receive preferential capital gains tax treatment. When capital gains are reinvested in a qualified opportunity fund, which must invest at least 90% of its assets in qualified opportunity zone property, the gains are deferred until the assets are disposed of or 2026, whichever is earlier. Furthermore, capital gains from investments in qualified opportunity funds are permanently excluded if the investment is held for ten years and reinvested capital gains receive a basis step-up if they are held in a Opportunity Fund for at least five years.

The end of the deferral period for capital gains reinvested in a Opportunity Fund in 2026 should increase Maine income tax revenue relative to a baseline where Opportunity Zones did not exist.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $2,5000,000 - $5,000,000
FY ‘25 $2,500,000 - $5,000,000
FY ‘26 $500,000 - $2,000,000
FY ‘27 -$13,000,000

**Methods used to calculate the revenue loss**

Estimate is based on *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028*, compiled by the U.S. Joint Standing Committee on Taxation and the Fiscal Year 2026 Tax Expenditure Report by the Office of Tax Analysis, U.S. Department of Treasury.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.068 Pension contributions & earnings - employer-provided pension contributions and earnings.

*36 M.R.S.A. § 5102-(1-D)*

Taxpayers may exclude from adjusted gross income employer contributions to individual pension plans. The tax on the related investment income is deferred until it is withdrawn.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $399,600,000
FY ‘25 $436,700,000
FY ‘26 $480,500,000
FY ‘27 $569,400,000

**Methods used to calculate the revenue loss**

Estimate is based on *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028*, compiled by the U.S. Joint Standing Committee on Taxation.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.069 Employer-paid medical insurance and expenses.

*36 M.R.S.A. § 5102-(1-D)*

Employer-paid health insurance premiums and medical expenses (including long-term care) are excluded from an employee's gross income even if the employer's cost for the insurance is deducted as a business expense. Self-employed individuals may also deduct part of family health insurance premiums.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY '24 $236,500,000
FY '25 $253,100,000
FY '26 $257,800,000
FY '27 $266,800,000

**Methods used to calculate the revenue loss**

Estimate is based on *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028*, compiled by the U.S. Joint Standing Committee on Taxation.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.070 Exclusion of capital gains at death.

*36 M.R.S.A. § 5102 (1-D)*

Capital gains on assets held at the owner's death are not subject to capital gains taxes. The cost basis of the appreciated assets is adjusted upward to the market value at the owner's date of death.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY '24 $50,900,000
FY '25 $50,300,000
FY '26 $54,600,000
FY '27 $58,300,000

**Methods used to calculate the revenue loss**

Estimate is based on *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028*, compiled by the U.S. Joint Standing Committee on Taxation.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.071 Exclusion of capital gains on sales of principal residences.

*36 M.R.S.A. § 5102-(1-D)*

A homeowner can exclude from tax up to $500,000 (joint filers) or $250,000 (single filers) of capital gains from the sale of a principal residence. The exclusion may not be used more than once every two years.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $32,400,000
FY ‘25 $35,000,000
FY ‘26 $42,200,000
FY ‘27 $45,800,000

**Methods used to calculate the revenue loss**

Estimate is based on *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028,* compiled by the U.S. Joint Standing Committee on Taxation.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.072 Exclusion of Social Security and Railroad Retirement not included in Federal Adjusted Gross Income.

*36 M.R.S.A. § 5102-(1-D)*

Social security and railroad retirement income that is not taxable at the federal level is also not taxed by Maine.

**Reason(s) for exemption**

Maine generally conforms to federal income exclusion and deduction provisions used to calculate federal adjusted gross income. Conformity reduces filing errors, eases tax administration and increases tax compliance. Conformity also helps keep Maine taxes more competitive with other states.

**Estimated General Fund revenue loss**

FY ‘24 $88,000,000
FY ‘25 $93,300,000
FY ‘26 $112,600,000
FY ‘27 $123,200,000

**Methods used to calculate the revenue loss**

Estimate is based on *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028,* compiled by the U.S. Joint Standing Committee on Taxation.

**Number of taxpayers affected**

Number of taxpayers affected is not available.

# 1.073 Federal Conformity: Other

*36 M.R.S.A. § 5102-(1-D)*

This expenditure includes tax expenditures arising from the definition of federal income that have not been covered elsewhere in the report. The discussion of expenditures related to the definition of federal total income in the introduction provides more details.

Appendix D contains a list of individual expenditures and *national* estimates of tax expenditure.

| **Function** | **Annual Expenditure** |
|---|---|
| National Defense and International Affairs | $8,000,000 - $15,000,000 |
| Energy | $1,000,000 - $3,000,000 |
| Natural Resources and Environment | $500,000 - $2,000,000 |
| Commerce, General Science, Community and Regional Development, and Housing | $80,000,000 - $100,000,000 |
| Education, Training, Employment, and Social Services | $40,000,000 - $50,000,000 |
| Health and Income Security | $80,000,000 - $120,000,000 |
| Miscellaneous/Other | $45,000,000 - $60,000,000 |

# Chapter 2: Sales and Excise Taxes

## 2.001 Paint Stewardship Program Assessment.

*36 M.R.S.A. § 1752.14-B.13.*

The fee imposed to fund the paint stewardship program is exempted from sales tax.

Reason(s) for exemption

Equalize the sales tax treatment of this assessment and mandatory fees.

Estimated General Fund revenue loss

FY '24 $83,000
FY '25 $84,000
FY '26 $85,000
FY '27 $86,000

Method used to calculate the revenue loss

Based on information contained in the Maine Paint Stewardship Program FY 2020 Annual Report.

# 2.002 Sales to the State & political subdivisions.

*36 M.R.S.A. § 1760.2 and 2557.2.*

Sales to the State or any political subdivision, or to the Federal Government, or to any unincorporated agency or instrumentality of either of them or to any incorporated agency or instrumentality of them wholly owned by them are exempt from tax. This exemption does not apply where title is held or taken as security for any financing arrangement. This exemption also does not apply to corporations organized under Title IV, Part E of the Farm Credit Act of 1971, 12 United States Code, Sections 2211 to 2214.

Reason(s) for exemption

The State does not impose the sales tax on itself, and it provides additional funding to its political subdivisions and schools through this sales tax exemption.

Estimated General Fund revenue loss

FY '24 $225,135,000
FY '25 $230,893,000
FY '26 $236,832,000
FY '27 $242,965,000

Method used to calculate the revenue loss

Based on state and local government expenditures as reported in the U.S. Census Bureau, Annual Survey of State Government Finances.

Number of exempt organizations on file

Governments and agencies of government – 1,235

# 2.003 Grocery staples.

*36 M.R.S.A. § 1760.3.*

Grocery staples are exempt from the sales and use tax. Grocery staples means food products ordinarily consumed for human nourishment.

Grocery staples does not include:

A. Spirituous, malt or vinous liquors;
B. Medicines, tonics, vitamins and preparations sold as dietary supplements or adjuncts, except when sold on the prescription of a physician;
C. Water, including mineral, bottled and carbonated waters and ice;
D. Dietary substitutes;
E. Candy and confections, including but not limited to confectionery spreads. As used in this paragraph, "candy" means a preparation of sugar, honey or other natural or artificial sweeteners in combination with chocolate, fruits, nuts or other ingredients or flavorings in the form of bars, drops or pieces;
F. Prepared food; and
G. The following food and drinks ordinarily sold for consumption without further preparation:
   (1) Soft drinks and powdered and liquid drink mixes except powdered milk, infant formula, coffee and tea;
   (2) Sandwiches and salads;
   (3) Supplemental meal items such as corn chips, potato chips, crisped vegetable or fruit chips, potato sticks, pork rinds, pretzels, crackers, popped popcorn, cheese sticks, cheese puffs and dips;
   (4) Fruit bars, granola bars, trail mix, breakfast bars, rice cakes, popcorn cakes, bread sticks and dried sugared fruit;
   (5) Nuts and seeds that have been processed or treated by salting, spicing, smoking, roasting or other means;
   (6) Desserts and bakery items, including but not limited to doughnuts, cookies, muffins, dessert breads, pastries, croissants, cakes, pies, ice cream cones, ice cream, ice milk, frozen confections, frozen yogurt, sherbet, ready-to-eat pudding, gelatins and dessert sauces; and
   (7) Meat sticks, meat jerky and meat bars.

"Grocery staples" includes bread and bread products, jam, jelly, pickles, honey, condiments, maple syrup, spaghetti sauce or salad dressing when packaged as a separate item for retail sale.

"Soft drinks" means nonalcoholic beverages that contain natural or artificial sweeteners. "Soft drinks" does not include beverages that contain milk or milk products; that contain soy, rice or similar milk substitutes; or that contain greater than 50% vegetable or fruit juice by volume.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $183,963,000
FY '25 $182,423,000
FY '26 $183,884,000
FY '27 $185,155,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.004 Ships' stores.

*36 M.R.S.A. § 1760.4.*

Sales of cabin, deck, engine supplies and bunkering oil to ships engaged in transporting cargo or passengers for hire in interstate or foreign commerce are exempt from the sales and use tax. Bunker oil in this exemption refers to any fuel used to propel the vessel as opposed to used in the operation of any equipment, such as cranes, hoists and generators.

Reason(s) for exemption

The ships are engaged in interstate and/or foreign commerce.

Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.005 Prescription drugs.

*36 M.R.S.A. § 1760.5.*

Sales of medicines for human beings sold on doctor's prescription are exempt from the sales and use tax. This exemption does not apply to the sale of marijuana pursuant to Title 22, chapter 558-C. Sales to individuals of "over-the-counter" drugs without a written prescription are taxable, even if the drug is purchased on the advice or recommendation of a physician. However, there is no tax on nonprescription medicines purchased by a doctor for use in the doctor's medical practice. Sales of medicines originally prescribed by a doctor on a refillable prescription are exempt when the prescription is refilled.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $117,041,000
FY '25 $121,131,000
FY '26 $126,010,000
FY '27 $130,865,000

Method used to calculate the revenue loss

Sales tax micro simulation model and National Health Expenditure Data from the U.S. Centers for Medicare & Medicaid Services.

# 2.006 Prosthetic or orthotic device.

*36 M.R.S.A. § 1760.5-A.*

Sale of prosthetic or orthotic devices sold by prescription and sale of crutches and wheelchairs for the use of sick, injured or disabled persons and not for rental are exempt from the sales and use tax.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $8,076,000
FY '25 $8,199,000
FY '26 $8,231,000
FY '27 $8,254,000

Method used to calculate the revenue loss

Sales tax micro simulation model and National Health Expenditure Data from the U.S. Centers for Medicare & Medicaid Services.

# 2.007 Meals served by public or private schools, school districts, student organizations and parent-teacher associations to the students or teachers of a school.

*36 M.R.S.A. § 1760.6-A.*

Sales of meals made in the school lunchroom during the normal school day or by a school or student organization at a school event where it is evident that those in attendance are mainly students and teachers, are exempt from the sales and use tax. The sale of meals served to students or teachers by a caterer or other person not associated with the school are taxable.

Reason(s) for exemption

Subsidize the provision of meals to students and teachers at schools.

Estimated General Fund revenue loss

FY '24 $6,932,000
FY '25 $7,151,000
FY '26 $7,385,000
FY '27 $7,628,000

Method used to calculate the revenue loss

National personal consumption expenditure data and education statistics.

# 2.008 Meals served to patients in hospitals & nursing homes.

*36 M.R.S.A. § 1760.6-B.*

Meals served to patients of institutions licensed by the Department of Health and Human Services for the hospitalization or nursing care of human beings, or to patients or residents of institutions licensed by the Department of Health and Human Services under Title 22, Subtitle 6 or Title 22, section 1781, are exempt from the sales and use tax.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $8,801,000
FY '25 $9,050,000
FY '26 $9,246,000
FY '27 $9,442,000

Method used to calculate the revenue loss

Statistics for hospitals and nursing homes and several strong assumptions.

# 2.009 Sales of meals by hospitals, schools, long-term care facilities, food contractors and restaurants to incorporated nonprofit area agencies on aging for the purpose of providing meals to the elderly.

*36 M.R.S.A. § 1760.6-C.*

Meals sold to the area agencies on aging for the purpose of providing meals to the elderly are exempt from the sales and use tax.

Reason(s) for exemption

This exemption supports the provision of meals to the elderly.

Estimated General Fund revenue loss

FY '24 $1,000,000 – 2,999,999
FY '25 $1,000,000 – 2,999,999
FY '26 $1,000,000 – 2,999,999
FY '27 $1,000,000 – 2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

68

# 2.010 Sales of meals to residents of certain nonprofit congregate housing.

*36 M.R.S.A. § 1760.6-D.*

Meals sold to residents of church-affiliated congregate housing facilities are exempt from the sales and use tax.

Reason(s) for exemption

This exemption supports the provision of meals to the elderly.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.011 Meals served by colleges to employees of the college when the meals are purchased with debit cards issued by the college.

*36 M.R.S.A. § 1760.6-E.*

Meals served by a college to employees of the college who purchase those meals with a debit card issued by the college are exempt from sales and use tax.

Reason(s) for exemption

To eliminate the need for colleges to have to determine which purchases are taxable and which are exempt when a debit card issued by the college is being used to purchase meals.

Estimated General Fund revenue loss

FY '24 $0 - $49,999
FY '25 $0 - $49,999
FY '26 $0 - $49,999
FY '27 $0 - $49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.012 Meals served by certain youth camps.

*36 M.R.S.A. § 1760.6-F.*

Sales of meals served by youth camps licensed by the Department of Health and Human Services and defined in Title 22, section 2491, subsection 16 as a combination of program and facilities established for the primary purpose of providing an outdoor group living experience for children with social, recreational, spiritual and educational objectives and operated and used for 5 or more consecutive days during one or more seasons of the year. “Youth camp” includes day camps, residential camps and trip and travel camps.

Reason(s) for exemption

Subsidize the sale of prepared meals at certain youth camps.

Estimated General Fund revenue loss

FY ‘24 $250,000 - $999,999
FY ‘25 $250,000 - $999,999
FY ‘26 $250,000 - $999,999
FY ‘27 $250,000 - $999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.013 Meals served by a retirement facility to its residents.

*36 M.R.S.A. § 1760.6-G.*

Sales of meals served by a retirement facility to its residents are exempt from the sales and use tax when participation in the meal program is a condition of occupancy or the cost of the meals is included in or paid with a comprehensive fee that includes the right to reside in a residential dwelling unit and meals or other services.

Reason(s) for exemption

This exemption supports the provision of meals to the elderly.

Estimated General Fund revenue loss

FY '24 $1,000,000 - $2,999,999
FY '25 $1,000,000 - $2,999,999
FY '26 $1,000,000 - $2,999,999
FY '27 $1,000,000 - $2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.014 Products used in agricultural and aquacultural production, and bait.

*36 M.R.S.A. § 1760.7-A, 7-B, 7-C.*

Sales of feed, hormones, pesticides, antibiotics and medicine for use in aquacultural production and sales of bait to commercial fishermen are exempt from the sales and use tax.

Sales of seed, fertilizers, defoliants and pesticides, including, but not limited to, rodenticides, insecticides, fungicides and weed killers, for use in commercial agricultural production are exempt from the sales and use tax.

Sales of breeding stock, semen, embryos, feed, hormones, antibiotics, medicine, pesticides and litter for use in animal agricultural production and sales of antiseptics and cleaning agents used in commercial animal agricultural production are exempt from the sales and use tax. Animal agricultural production includes the raising and keeping of equines.

Reason(s) for exemption

Provide funding to the agricultural, aquacultural, and commercial fishing industries through a sales tax exemption.

Estimated General Fund revenue loss

FY '24 $9,804,000
FY '25 $9,881,000
FY '26 $9,960,000
FY '27 $10,040,000

Method used to calculate the revenue loss

USDA Farm Income and Wealth Statistics and sales tax micro simulation model.

# 2.015 Certain jet fuels.

*36 M.R.S.A. § 1760.8-B.*

Internal combustion engine fuels bought and used for the purpose of propelling jet or turbojet engine aircraft are exempt from the sales and use tax.

Reason(s) for exemption

This fuel is subject to an excise tax when used for domestic flights.

Estimated General Fund revenue loss

FY '24 $8,828,000
FY '25 $7,821,000
FY '26 $7,537,000
FY '27 $7,324,000

Method used to calculate the revenue loss

The number of gallons of jet fuel sold, which is reported on motor fuel tax returns, is used with a forecast of jet fuel prices to estimate the cost of this exemption.

# 2.016 Coal, oil, and wood for cooking & heating homes.

*36 M.R.S.A. § 1760.9.*

Coal, oil, wood and all other fuels, except gas and electricity, when bought for cooking and heating in buildings designed and used for both human habitation and sleeping are exempt from tax. Kerosene or home heating oil that is prepackaged or dispensed from a tank for retail sale in containers with a capacity of 5 gallons or less, or the sale of any amount of wood pellets or any 100% compressed wood product intended for use in a wood stove or fireplace, or of any amount of firewood, is presumed to be purchased for residential use.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $45,694,000
FY '25 $45,129,000
FY '26 $44,680,000
FY '27 $43,690,000

Method used to calculate the revenue loss

U.S. Energy Information Administration residential energy expenditure data for Maine and a forecast of energy prices is used to estimate the cost of this exemption.

# 2.017 Fuels for burning blueberry lands.

*36 M.R.S.A. § 1760.9-A.*

Sales of all fuels used in burning blueberry fields are exempt from the sales and use tax.

Reason(s) for exemption

Provide support for the blueberry industry.

Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.018 Residential electricity.

*36 M.R.S.A. § 1760.9-B.*

Sale and delivery of the first 750 kilowatt hours of residential electricity per month is exempt from the sales and use tax. For purposes of this subsection, "residential electricity" means electricity furnished to buildings designed and used for both human habitation and sleeping, with the exception of hotels. Where residential electricity is furnished through one meter to more than one residential unit and where the transmission and distribution utility applies its tariff on a per unit basis, the furnishing of electricity is considered a separate sale for each unit to which the tariff applies. For purposes of this subsection, "delivery" means transmission and distribution. Off-peak residential electricity used for space heating or water heating by means of an electric thermal storage device is also exempt from the sales and use tax.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $49,020,000
FY '25 $45,030,000
FY '26 $45,710,000
FY '27 $46,020,000

Method used to calculate the revenue loss

Estimate based on data from the sales tax data warehouse, U.S. Energy Information Administration, and the American Community Survey PUMS.

# 2.019 Residential gas.

*36 M.R.S.A. § 1760.9-C.*

Sales of gas when bought for cooking and heating in buildings designed and used for both human habitation and sleeping, with the exception of hotels, are exempt from the sales and use tax.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $15,936,000
FY '25 $16,705,000
FY '26 $17,544,000
FY '27 $18,204,000

Method used to calculate the revenue loss

Estimate based on data from the U.S. Energy Information Administration and the American Community Survey PUMS.

# 2.020 Fuel and electricity used at a manufacturing facility.

*36 M.R.S.A. § 1760.9-D.*

Ninety-five percent of the sale price of all fuel and electricity purchased for use at a manufacturing facility is exempt from the sales and use tax. For purposes of this subsection, "sale price" includes, in the case of electricity, any charge for transmission and distribution.

Ninety-five percent of the sale price of fabrication services for the production of fuel for use at a manufacturing facility as defined in section 1752, subsection 6-A.

Reason(s) for exemption

Provide an economic development incentive to manufacturers by subsidizing their purchases of fuel and electricity used at manufacturing facilities.

Estimated General Fund revenue loss

FY '24 $34,685,000
FY '25 $29,869,000
FY '26 $27,624,000
FY '27 $25,891,000

Method used to calculate the revenue loss

Data is collected from sales and use tax returns.

# 2.021 Fuel oil or coal which becomes an ingredient or component part.

*36 M.R.S.A. § 1760.9-G.*

Fuel oil or coal, the by-products from the burning of which, become an ingredient or component part of tangible personal property for later sale are exempt.

Reason(s) for exemption

Avoid pyramiding of the sales tax.

Estimated General Fund revenue loss

FY '24 $0 - $49,999
FY '25 $0 - $49,999
FY '26 $0 - $49,999
FY '27 $0 - $49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.022 Certain returnable containers.

*36 M.R.S.A. § 1760.12.*

Sales of returnable containers when sold with the contents in connection with a retail sale of the contents or when resold for refilling are exempt from the sales and use tax.

Reason(s) for exemption

The decision was made not to impose the sales tax on returnable bottle and can deposits.

Estimated General Fund revenue loss

FY '24 $1,000,000 - $2,999,999
FY '25 $1,000,000 - $2,999,999
FY '26 $1,000,000 - $2,999,999
FY '27 $1,000,000 - $2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.023 Packaging materials.

*36 M.R.S.A. § 1760.12-A.*

Sales of containers, boxes, crates, bags, cores, twines, tapes, bindings, wrappings, labels and other packing, packaging and shipping materials are exempt from the sales and use tax when purchased by persons engaged in the business of packing, packaging, shipping and transporting tangible personal property; or when purchased by persons for use in packing, packaging or shipping tangible personal property sold by them or on which they have performed the service of cleaning, pressing, dyeing, washing, repairing, or reconditioning in their regular course of business that are transferred to the possession of the purchaser of that tangible personal property.

This exemption includes materials that are used to insure the delivery of the contents in physically good condition. There is no distinction between non-returnable and returnable packaging materials. The exemption applies to both. In addition, the exemption does not apply unless the materials pass into the possession of the customer of the shipper. Packaging items used by a business to store goods are subject to tax.

Reason(s) for exemption

Subsidize the purchase of packaging materials by businesses.

Estimated General Fund revenue loss

FY '24 $20,631,000
FY '25 $20,913,000
FY '26 $20,868,000
FY '27 $20,914,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.024 Free publications and components of publications.

*36 M.R.S.A. § 1760.14-A.*

Any publication that is purchased for distribution without charge as a free publication; and printed paper materials, including advertising flyers and promotional materials, purchased for inclusion in a publication are exempt from the sales and use tax.

Reason(s) for exemption

The publications are distributed free of charge. Components of publications, such as advertising flyers were exempt from tax prior to the repeal of the sales tax exemption for certain publications.

Estimated General Fund revenue loss

FY '24 $1,451,000
FY '25 $1,686,000
FY '26 $1,744,000
FY '27 $1,803,000

Method used to calculate the revenue loss

The revenue loss is estimated using data from sales tax returns.

# 2.025 Sales to hospitals, research centers, churches and schools.

*36 M.R.S.A. § 1760.16 and 2557.3.*

Sales to incorporated hospitals.
Sales to incorporated nonprofit nursing homes licensed by the Department of Health and Human Services.
Sales to incorporated nonprofit residential care facilities licensed by the Department of Health and Human Services.
Sales to incorporated nonprofit assisted housing programs for the elderly licensed by the Department of Health and Human Services.
Sales to incorporated nonprofit home health agencies certified under the United States Social Security Act of 1965, Title XVIII, as amended.
Sales to incorporated nonprofit rural community health centers and to certain incorporated nonprofit federally qualified health centers.
Sales to incorporated nonprofit dental health centers.
G-1. Sales to incorporated nonprofit medical clinics whose sole mission is to provide free medical care to the indigent or uninsured.
Sales to incorporated nonprofit organizations organized for the sole purpose of conducting medical research.
Sales to incorporated nonprofit organizations organized for the purpose of establishing and maintaining laboratories for scientific study and investigation in the field of biology or ecology.
Sales to institutions incorporated as nonprofit corporations for the purpose of operating educational television or radio stations.
Sales to schools.
Sales to incorporated nonprofit organizations or their affiliates whose purpose is to provide literacy assistance or free clinical assistance to children with dyslexia.
Sales to regularly organized churches or houses of religious worship.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $6,000,000 or more
FY ‘25 $6,000,000 or more
FY ‘26 $6,000,000 or more
FY ‘27 $6,000,000 or more

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

| | |
|---|---|
| Hospitals | 57 |
| Nursing homes | 27 |
| Rural community health | 77 |
| Dental health centers | 14 |
| Residential care facilities | 107 |
| Medical research orgs. | 27 |
| Biology/ecology labs | 19 |
| Educational TV/radio | 21 |
| Schools | 768 |
| Literacy assistance orgs. | 29 |
| Assist children w/dyslexia | Fewer than 10 |
| Churches | 2,328 |
| Free medical clinics | Fewer than 10 |
| Fed qualified health center | Fewer than 10 |

# 2.026 Rental charges for living quarters in nursing homes and hospitals.

*36 M.R.S.A. § 1760.18.*

Rental charged for living or sleeping quarters in an institution licensed by the State for the hospitalization or nursing care of human beings.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $6,000,000 or more
FY '25 $6,000,000 or more
FY '26 $6,000,000 or more
FY '27 $6,000,000 or more

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.027 Sales to certain nonprofit residential child care institutions.

*36 M.R.S.A. § 1760.18-A and 2557.4.*

Sales to incorporated private nonprofit residential child care facilities that are licensed by the Department of Health and Human Services as child care facilities, are exempt from the sales and use tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $50,000 – 250,000
FY ‘25 $50,000 – 250,000
FY ‘26 $50,000 – 250,000
FY ‘27 $50,000 – 250,000

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

62

# 2.028 Rental of living quarters at schools.

*36 M.R.S.A. § 1760.19.*

Rental charged for living quarters, sleeping or housekeeping accommodations to any student necessitated by attendance at a school as defined in subsection 16.

Reason(s) for exemption

Provide financial assistance to students by exempting rental charges for living quarters at schools from the sales tax.

Estimated General Fund revenue loss

FY '24 $17,773,000
FY '25 $18,407,000
FY '26 $19,063,000
FY '27 $19,742,000

Method used to calculate the revenue loss

Estimate based on data from the Integrated Postsecondary Education Data System.

# 2.029 Rental charges on continuous residence for more than 28 days.

*36 M.R.S.A. § 1760.20.*

Rental charged to any person who resides continuously for 28 days or more at any one hotel, rooming house, and tourist or trailer camp if:
The person does not maintain a primary residence at some other location; or
The person is residing away from that person's primary residence in connection with employment or education.
Tax paid during the initial 28-day period must be refunded to the taxpayer. The retailer may take a credit on the sales tax return filed by the retailer covering the month in which the refund was made.

Reason(s) for exemption

Living quarters are a necessity of life.

Estimated General Fund revenue loss

FY '24 $141,729,000
FY '25 $150,613,000
FY '26 $158,193,000
FY '27 $165,733,000

Method used to calculate the revenue loss

The estimate is based on national personal consumption expenditure data and rent data from the American Community Survey.

# 2.030 Automobiles used in driver education programs.

*36 M.R.S.A. § 1760.21.*

Sales to automobile dealers, registered under section 1754-B, of automobiles for the purpose of equipping the same with dual controls and loaning or leasing the same to public or private secondary schools without consideration or for a consideration of not more than $1 a year, and used exclusively by such schools in driver education programs.

Reason(s) for exemption

Subsidize driver education programs offered by secondary schools.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.031 Certain loaner vehicles.

*36 M.R.S.A. § 1760.21-A.*

The use of a loaner vehicle provided by a new vehicle dealer, as defined in Title 29-A, section 851, subsection 9, to a service customer pursuant to a manufacturer's or a dealer's warranty is exempt from tax.

Reason(s) for exemption

Certain motor vehicle dealers are providing the short-term use of loaner vehicles free of charge to certain service customers pursuant to a manufacturer's or a dealer's warranty.

Estimated General Fund revenue loss

FY '24 $250,000 - $999,999
FY '25 $250,000 - $999,999
FY '26 $250,000 - $999,999
FY '27 $250,000 - $999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.032 Automobiles to amputee veterans.

*36 M.R.S.A. § 1760.22.*

Sales of automobiles to veterans who are granted free registration of such vehicles by the Secretary of State under Title 29-A, section 523, subsection 1 are exempt from sales tax. Certificates of exemption or refunds of taxes paid must be granted under such rules or regulations as the State Tax Assessor may prescribe.

Reason(s) for exemption

Subsidize the purchase of automobiles by amputee veterans.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.033 Certain vehicles purchased or leased by nonresidents.

*36 M.R.S.A. § 1760.23-C.*

Sales or leases of the following vehicles to a person that is not a resident of this State, if the vehicle is intended to be driven or transported outside the State immediately upon delivery:

A. Motor vehicles other than those that are being leased for a period of less than one year;
B. Semitrailers;
C. Aircraft, if not exempted under subsection 88-A; and
D. Camper trailers, including truck campers, other than those that are being leased for a period of less than one year.

If the vehicles are registered for use in the State within 12 months of the date of purchase, the person seeking registration is liable for use tax based on the original purchase price.

Reason(s) for exemption

The vehicles are being purchased or leased by nonresidents.

Estimated General Fund revenue loss

FY '24 $250,000 – 999,999
FY '25 $250,000 – 999,999
FY '26 $250,000 – 999,999
FY '27 $250,000 – 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.034 Certain vehicles purchased or leased by qualifying resident businesses.

*36 M.R.S.A. § 1760.23-D.*

The sale or lease of a motor vehicle, except an automobile rental for a period of less than one year or an all-terrain vehicle or snowmobile as defined in Title 12, section 13001, to a qualifying resident business if the vehicle is intended to be driven or transported outside the State immediately upon delivery and intended to be used exclusively in the qualifying resident business's out-of-state business activities.

Reason(s) for exemption

The vehicles are being purchased or leased by qualifying resident businesses for use outside of this State.

Estimated General Fund revenue loss

FY '24 $1,000,000 – 2,999,999
FY '25 $1,000,000 – 2,999,999
FY '26 $1,000,000 – 2,999,999
FY '27 $1,000,000 – 2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.035 Funeral services.

*36 M.R.S.A. § 1760.24.*

"Sales of funeral services" are considered to mean sales of tangible personal property by a funeral director insofar as such sales are a necessary part of the preparation of a human body for burial or cremation, or a necessary part of the ceremony conducted by the funeral director prior to or in connection with the burial or cremation of a human body. Sales by funeral directors of caskets, vaults, boxes, clothing, crematory urns, or other similar items generally referred to as "funeral furnishings", are exempt from tax. Items sold as an accommodation rather than as an integral part of the funeral service (or preparation therefore), such as sale of flowers, or items of a similar character, are taxable.

The tax expenditure estimate includes the service component of funeral services.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $6,445,000
FY '25 $6,673,000
FY '26 $6,849,000
FY '27 $7,048,000

Method used to calculate the revenue loss

The estimate is based on national expenditures on funeral and burial services and Maine's share of national deaths.

# 2.036 Watercraft purchased by nonresidents.

*36 M.R.S.A. § 1760.25.*

Sales to or use by a person that is not a resident of this State of watercraft or materials used in watercraft.

The following are exempt when the sale is made in this State to a person that is not a resident of this State and the watercraft is sailed or transported outside the State within 30 days of delivery by the seller:

(1) A watercraft;

(2) Sales, under contract for the construction of a watercraft, or materials to be incorporated in that watercraft; and

(3) Sales of materials to be incorporated in the watercraft for the repair, alteration, refitting, reconstruction, overhaul or restoration of that watercraft.

The sale of a watercraft is exempt if the watercraft is purchased and used by the present owner outside the State if the watercraft is registered outside the State by an owner who is an individual and the watercraft is present in the State not more than 30 days for a purpose other than temporary storage during the 12 months following its purchase.

If, for a purpose other than temporary storage, a watercraft is present in the State for more than 30 days during the 12-month period following its date of purchase, the exemption applies only to 60% of the sales price of the watercraft or materials for the construction, repair, alteration, refitting, reconstruction, overhaul or restoration of the watercraft, as specified in paragraph A.

Reason(s) for exemption

Economic development.

Estimated General Fund revenue loss

FY ‘24 $250,000 - 999,999
FY ‘25 $250,000 - 999,999
FY ‘26 $250,000 - 999,999
FY ‘27 $250,000 - 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.037 Snowmobile; all-terrain vehicle.

*36 M.R.S.A. § 1760.25-C.*

The sale of a snowmobile, as defined in Title 12, section 13001, subsection 25, or an all-terrain vehicle, as defined in Title 12, section 13001, subsection 3, to an individual who is not a resident of this State, unless the seller is a retailer in this State.

Reason(s) for exemption

Exempt nonresidents from paying the sales and use tax unless the seller is a retailer in this State.

Estimated General Fund revenue loss

FY ‘24 $50,000 - 249,999
FY ‘25 $50,000 - 249,999
FY ‘26 $50,000 - 249,999
FY ‘27 $50,000 - 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.038 Nonprofit fire departments and nonprofit ambulance services.

*36 M.R.S.A. § 1760.26 and 2557.5.*

Sales to incorporated nonprofit fire departments, sales to incorporated nonprofit ambulance services, sales to air ambulance services that are limited liability companies all of whose members are nonprofit organizations and sales of tangible personal property leased to air ambulance services that are limited liability companies all of whose members are nonprofit organizations are exempt from sales and use tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $50,000 - 249,999
FY '25 $50,000 - 249,999
FY '26 $50,000 - 249,999
FY '27 $50,000 - 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

| | |
|---|---|
| Nonprofit fire departments | 83 |
| Nonprofit ambulance services | 40 |

# 2.039 Community mental health facilities, community developmentally disabled facilities and community substance abuse facilities.

*36 M.R.S.A. § 1760.28 and 2557.6.*

Sales to the following mental health facilities, developmentally disabled facilities or substance abuse facilities are exempt from the sales and use tax:

A. Contractors under or receiving support under the Federal Community Mental Health Centers Act, or its successors; or

B. Receiving support from the Department of Health and Human Services pursuant to Title 5, section 20005 or Title 34-B, section 3604, 5433 or 6204.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $250,000 – 999,999
FY '25 $250,000 – 999,999
FY '26 $250,000 – 999,999
FY '27 $250,000 – 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

| | |
|---|---|
| Mental health facilities | 213 |
| Developmentally disabled facilities | 226 |
| Substance abuse facilities | 16 |

# 2.040 Water pollution control facilities.

*36 M.R.S.A. § 1760.29.*

Sales of water pollution control facilities, certified as such by the Commissioner of Environmental Protection, and sales of parts or accessories of a certified facility, materials for the construction, repair or maintenance of a certified facility and chemicals or supplies that are integral to the effectiveness of a certified facility.

Reason(s) for exemption

Subsidize the installation of pollution control facilities.

Estimated General Fund revenue loss

FY '24 $250,000 – 999,999
FY '25 $250,000 – 999,999
FY '26 $250,000 – 999,999
FY '27 $250,000 – 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.041 Air pollution control facilities.

*36 M.R.S.A. § 1760.30.*

Sales of air pollution control facilities, certified as such by the Commissioner of Environmental Protection, and sales of parts or accessories of a certified facility, materials for the construction, repair or maintenance of a certified facility and chemicals or supplies that are integral to the effectiveness of a certified facility.

Reason(s) for exemption

Subsidize the installation of pollution control facilities.

Estimated General Fund revenue loss

FY '24 $250,000 – 999,999
FY '25 $250,000 – 999,999
FY '26 $250,000 – 999,999
FY '27 $250,000 – 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.042 Machinery and equipment.

*36 M.R.S.A. § 1760.31.*

Sales of machinery and equipment:

A. For use by the purchaser directly and primarily in the production of tangible personal property intended to be sold or leased ultimately for final use or consumption or in the production of tangible personal property pursuant to a contract with the Federal Government or any agency thereof, or, in the case of sales occurring after June 30, 2007, in the generation of radio and television broadcast signals by broadcast stations regulated under 47 Code of Federal Regulations, Part 73. This exemption applies even if the purchaser sells the machinery or equipment and leases it back in a sale and leaseback transaction. This exemption also applies whether the purchaser agrees before or after the purchase of the machinery or equipment to enter into the sale and leaseback transaction and whether the purchaser's use of the machinery or equipment in production commences before or after the sale and leaseback transaction occurs; and
B. To a bank, leasing company or other person as part of a sale and leaseback transaction, by a person that uses the machinery or equipment as described in paragraph A, whether the original purchaser's use of the machinery or equipment in production commences before or after the sale and leaseback transaction occurs.

Reason(s) for exemption

Provide an economic development incentive to manufacturers by subsidizing their purchases of machinery and equipment used at manufacturing facilities.

Estimated General Fund revenue loss

FY '24 $29,288,000
FY '25 $29,840,000
FY '26 $29,470,000
FY '27 $29,407,000

Method used to calculate the revenue loss

The estimate is based on BEA data on investment by detailed industry, national and state data on value added by industry, and national and state data on employment by industry.

# 2.043 Machinery and equipment for research.

*36 M.R.S.A. § 1760.32.*

Sales of machinery and equipment for use by the purchaser directly and exclusively in research and development in the experimental and laboratory sense and sales of machinery, equipment, instruments and supplies for use by the purchaser directly and primarily in biotechnology applications, including the application of technologies such as recombinant DNA techniques, biochemistry, molecular and cellular biology, immunology, genetics and genetic engineering, biological cell fusion techniques and new bioprocesses using living organisms or parts of organisms to produce or modify products, improve plants or animals, develop microorganisms for specific uses, identify targets for small-molecule pharmaceutical development, transform biological systems and useful processes and products or to develop microorganisms for specific uses. Equipment and supplies used for biotechnology include but are not limited to microscopes, diagnostic testing materials, glass wares, chemical reagents, computer software and technical books and manuals. "Research and development" includes testing and evaluation for the purposes of approval and compliance with regulatory standards for biotechnological products or materials. "Research and development" does not include the ordinary testing or inspecting of materials or products for quality control, efficiency surveys, management studies, consumer surveys, advertising, promotions, or research in connection with literary, historical or similar projects.

Reason(s) for exemption

Provide an economic development incentive by subsidizing the purchase of these goods.

Estimated General Fund revenue loss

FY '24 $50,000 - 249,999
FY '25 $50,000 - 249,999
FY '26 $50,000 - 249,999
FY '27 $50,000 - 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.044 Diabetic supplies.

*36 M.R.S.A. § 1760.33.*

Diabetic supplies include all equipment and supplies, whether medical or otherwise, used in the diagnosis or treatment of diabetes. Sales of insulin, antidiabetic drugs, testing supplies such as Clinitest, Clinistix and Tes-Tape, and other items used only in the treatment of diabetes are exempt from tax. Sales of hypodermic syringes and needles to diabetic patients are exempt. Sales of items that are not used only in the diagnosis or treatment of diabetes, and which are not prescription medicines, should be regarded as taxable unless the purchaser has provided evidence such as a statement from a doctor that the patient has been diagnosed as diabetic, and unless the purchaser states that the items being purchased are to be used in the treatment of his or her diabetes.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $1,422,000
FY '25 $1,510,000
FY '26 $1,608,000
FY '27 $1,711,000

Method used to calculate the revenue loss

The revenue loss is estimated using national expenditures on diabetes supplies (not including prescription drugs which would be otherwise exempt under 36 M.R.S.A. § 1760.5) and Maine's share of the U.S. population that has been diagnosed with diabetes.

# 2.045 Sales through coin-operated vending machines.

*36 M.R.S.A. § 1760.34.*

Sales of products for internal human consumption when sold through coin-operated vending machines by a person more than 50% of whose gross receipts from the retail sale of tangible personal property are derived from sales through vending machines. The status of products sold through vending machines depends upon the product being sold and the type of business activity of the retailer. “Coin-operated vending machines” do not include “snack boxes” that require purchasers to be on their honor in paying for the selected items.

This exemption only applies to sales of products for internal human consumption by a person who primarily is a vending company. Although the exemption exists for the sale, the items are subject to tax based on the seller’s cost. “Products for internal human consumption” means: “edible products sold for human nutrition or refreshment and containers or utensils provided simultaneously for the consumption of these products. It does not include spirituous, malt or vinous liquors, medicines, tonics, vitamins, dietary supplements or cigarettes”. See Title 36 MRSA section 1752, subsection 5-A.

Items that come within the scope of this definition are sandwiches, chips, ice cream, candy, soft drinks and other food items. Also included within this definition are the paper plates, cups, utensils and packaging materials for these items. Chewing gum is not for “internal human consumption”.

Items, other than those mentioned above, when sold through vending machines are retail sales and subject to tax on the selling price. Examples of such items are cigarettes, toys, gum, health and beauty aids and other goods not for “internal human consumption”.

When 50% or less of a retailer’s retail sales take place through coin-operated vending machines, the retailer does not qualify for this exemption.

Reason(s) for exemption

Lower the administrative burden on vending machine companies.

Estimated General Fund revenue loss

FY ‘24 $1,298,000
FY ‘25 $1,354,000
FY ‘26 $1,412,000
FY ‘27 $1,473,000

Method used to calculate the revenue loss

The revenue loss is estimated using sales tax return data from vending retailers.

# 2.046 Goods and services for seeing eye dogs.

*36 M.R.S.A. § 1760.35.*

Sales of tangible personal property and taxable services essential for the care and maintenance of Seeing Eye dogs used to aid any blind person are exempt from the sales and use tax.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.047 Regional planning commissions and councils of government.

*36 M.R.S.A. § 1760.37 and 2557.7.*

Sales to regional planning commissions and councils of government, which are established in accordance with Title 30-A are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.048 Residential water.

*36 M.R.S.A. § 1760.39.*

Sales of water purchased for use in buildings designed and used for both human habitation and sleeping, with the exception of hotels, are exempt from tax. Sales of water for all commercial uses are taxable. The sale of bottled water delivered by the seller is governed by whom the purchaser is.

This exemption does not apply to sales of bottled water in retail stores, such as grocery stores, convenience stores, department stores and the like. These sales are taxable since they are governed by the definition of "grocery staple", which specifically excludes water.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $9,820,000
FY '25 $9,552,000
FY '26 $9,789,000
FY '27 $10,032,000

Method used to calculate the revenue loss

The estimate is based on national and state personal consumption expenditure data and the American Community Survey.

# 2.049 Manufactured housing.

*36 M.R.S.A. § 1760.40.*

Sales of manufactured housing includes:

Used manufactured housing; and
New manufactured housing to the extent of all costs, other than materials, included in the sale price, but the exemption may not exceed 50% of the sale price.

When a new manufactured house is sold, the sales tax applies to either the portion of the sale price that represents the cost of materials or 50% of the sale price, whichever is greater. No sales or use tax applies to sales of manufactured housing that has been permanently incorporated into real property by the seller, although the seller would be subject to a tax on its purchase of the home. Sales of used manufactured houses are exempt.

Reason(s) for exemption

Necessity of life

Estimated General Fund revenue loss

FY '24 $5,891,000
FY '25 $6,144,000
FY '26 $6,408,000
FY '27 $6,683,000

Method used to calculate the revenue loss

Estimated based on information from sales tax returns.

# 2.050 Certain instrumentalities of interstate or foreign commerce.

*36 M.R.S.A. § 1760.41.*

The sale of a vehicle, railroad rolling stock, aircraft or watercraft that is placed in use by the purchaser as an instrumentality of interstate or foreign commerce within 30 days after that sale and that is used by the purchaser not less than 80% of the time for the next 2 years as an instrumentality of interstate or foreign commerce. The State Tax Assessor may for good cause extend for not more than 60 days the time for placing the instrumentality in use in interstate or foreign commerce. For purposes of this subsection, property is "placed in use as an instrumentality of interstate or foreign commerce" by its carrying of, or providing the motive power for the carrying of, a bona fide payload in interstate or foreign commerce, or by being dispatched to a specific location at which it will be loaded upon arrival with, or will be used as motive power for the carrying of, a payload in interstate or foreign commerce. For purposes of this subsection, "bona fide payload" means a cargo of persons or property transported by a contract or common carrier for compensation that exceeds the direct cost of carrying that cargo or pursuant to a legal obligation to provide service as a public utility or a cargo of property transported in the reasonable conduct of the purchaser's own nontransportation business in interstate commerce. A bus with a capacity of at least 47 passengers that is contracted to transport passengers of a cruise ship that originated and will terminate outside of Maine qualifies as use in interstate or foreign commerce while transporting those passengers within Maine.

Reason(s) for exemption

Interstate commerce

Estimated General Fund revenue loss

FY '24 $3,000,000 – 5,999,999
FY '25 $3,000,000 – 5,999,999
FY '26 $3,000,000 – 5,999,999
FY '27 $3,000,000 – 5,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.051 Historical societies, museums and certain memorial foundations.

*36 M.R.S.A. § 1760.42 and 2557.8.*

Sales to incorporated nonprofit memorial foundations that primarily provide cultural programs free to the public, historical societies and museums are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $50,000 – 249,999
FY ‘25 $50,000 – 249,999
FY ‘26 $50,000 – 249,999
FY ‘27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

495

# 2.052 Child care facilities.

*36 M.R.S.A. § 1760.43 and 2557.9.*

Sales to licensed, incorporated nonprofit child care facilities are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $50,000 - 249,999
FY '25 $50,000 - 249,999
FY '26 $50,000 - 249,999
FY '27 $50,000 - 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

193

# 2.053 Certain church-affiliated residential homes.

*36 M.R.S.A. § 1760.44 and 2557.10.*

Sales to an incorporated, church-affiliated nonprofit organization that operates a residential home for adults.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

11

# 2.054 Certain property purchased outside the State.

*36 M.R.S.A. § 1760.45.*

Sales of property purchased and used by the present owner outside the State are exempt from tax:

A. If the property is an automobile, as defined in Title 29-A, section 101, subsection 7 and if the owner is an individual who was, at the time of purchase, a resident of the other state;
B. If the property is a snowmobile or all-terrain vehicle as defined in Title 12, section 13001 and the purchaser is an individual who is not a resident of the State.
C. If the property is an aircraft not exempted under subsection 88 or 88-A and the owner at the time of purchase was a resident of another state or tax jurisdiction and the aircraft is present in this State not more than 20 days during the 12 months following its purchase, exclusive of days during which the aircraft is in this State for the purpose of undergoing "major alterations", "major repairs" or "preventive maintenance" as those terms are described in 14 Code of Federal Regulations, Appendix A to Part 43, as in effect on January 1, 2005. The location of an aircraft on the ground in the State at any time during a day is considered presence in the State for that entire day. A day must be disregarded if at any time during that day the aircraft is used to provide free emergency or compassionate air transportation arranged by an incorporated nonprofit organization providing free air transportation in private aircraft by volunteer pilots so children and adults may access life-saving medical care.
D. If the property is brought into this State solely to conduct activities directly related to a declared state disaster or emergency, at the request of the State, a county, city, town or political subdivision of the State or a registered business, the property is owned by a person not otherwise required to register as a seller under section 1754-B and the property is present in this State only during a disaster period.
E. For more than 12 months in all other cases.

Property, other than automobiles, snowmobiles, all-terrain vehicles and aircraft, that is required to be registered for use in this State does not qualify for this exemption unless it was registered by its present owner outside this State more than 12 months prior to its registration in this State. If property required to be registered for use in this State was not required to be registered for use outside this State, the owner must be able to document actual use of the property outside this State for more than 12 months prior to its registration in this State. For purposes of this subsection "use" does not include storage but means actual use of the property for a purpose consistent with its design.

Reason(s) for exemption

Exempt property that was purchased and used out-of-state before it was brought into this State.

Estimated General Fund revenue loss

FY '24 $1,000,000 – 2,999,999

FY ‘25 $1,000,000 – 2,999,999
FY ‘26 $1,000,000 – 2,999,999
FY ‘27 $1,000,000 – 2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.055 Residential facilities for medical patients and their families.

*36 M.R.S.A. § 1760.46 and 2557.11.*

Sales to incorporated nonprofit organizations providing:

A. Temporary residential accommodations to pediatric patients suffering from critical illness or disease, such as cancer, or who are accident victims, and adult patients with cancer, or the families of the patients.
B. Temporary residential accommodations, or food, or both, to hospital patients or to the families of hospital patients.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

8

# 2.056 Emergency shelter and feeding organizations.

*36 M.R.S.A. § 1760.47-A and 2557.12.*

Beginning October 1, 1996, sales to incorporated nonprofit organizations that provide free temporary emergency shelter or food for underprivileged individuals in this State are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $250,000 - 999,999
FY '25 $250,000 - 999,999
FY '26 $250,000 - 999,999
FY '27 $250,000 - 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

190

# 2.057 Child abuse and neglect councils; child advocacy organizations; community action agencies.

*36 M.R.S.A. § 1760.49 and 2557.13.*

Except for the sale, storage or use for activities that are mainly commercial enterprises, sales to the following organizations are exempt from tax:

A. Incorporated nonprofit child abuse and neglect councils as defined in Title 22, section 3872, subsection 1-A;
B. Statewide organizations that advocate for children and that are members of the Medicaid Advisory Committee;
C. Community action agencies designated in accordance with Title 22, section 5324.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $250,000 - 999,999
FY '25 $250,000 - 999,999
FY '26 $250,000 - 999,999
FY '27 $250,000 - 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

| | |
|---|---|
| Child abuse and neglect councils | 10 |
| Community action agencies | 11 |
| Medicaid advisory | Fewer than 10 |

# 2.058 Certain libraries.

*36 M.R.S.A. § 1760.50 and 2557.14.*

Sales to any nonprofit free public lending library, which is funded in part or wholly by the State, any political subdivision of the State or the federal government is exempt from tax. Sales made by a library or a nonprofit corporation organized to support the library are exempt from sales tax if the proceeds from any sales are used to benefit the library.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $50,000 - 249,999
FY ‘25 $50,000 - 249,999
FY ‘26 $50,000 - 249,999
FY ‘27 $50,000 - 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

284

# 2.059 Veterans' Memorial Cemetery Associations.

*36 M.R.S.A. § 1760.51 and 2557.15.*

Sales to incorporated nonprofit Veterans' Memorial Cemetery Associations are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

Fewer than 10

# 2.060 Railroad track materials.

*36 M.R.S.A. § 1760.52.*

Railroad track materials purchased and installed on railroad lines located within the boundaries of the State are exempt from tax. The track materials shall include rail, ties, ballast, joint bars and associated materials, such as bolts, nuts, tie plates, spikes, culverts, steel, concrete or stone, switch stands, switch points, frogs, switch ties, bridge ties and bridge steel.

For a taxpayer to qualify for an exemption under this subsection, the taxpayer may not require any landowner to pay any fee or charge for maintenance or repair or to assume liability for crossings or rights-of-way if the landowner was not required to do so prior to July 1, 1981, and the taxpayer must continue to maintain crossings and rights-of-way which it was required to maintain on that date and may not remove the crossings if there is any objection to their being removed.

Reason(s) for exemption

Subsidizes the purchase of track materials.

Estimated General Fund revenue loss

FY ‘24 $580,000
FY ‘25 $592,000
FY ‘26 $606,000
FY ‘27 $620,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.061 Nonprofit volunteer search and rescue organizations.

*36 M.R.S.A. § 1760.53 and 2557.16.*

Sales to incorporated nonprofit volunteer search and rescue organizations are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

19

# 2.062 Incorporated nonprofit hospice organizations.

*36 M.R.S.A. § 1760.55 and 2557.17.*

Sales to incorporated nonprofit hospice organizations, which provide a program of care for the physical and emotional needs of terminally ill patients, are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

31

# 2.063 Nonprofit youth organizations.

*36 M.R.S.A. § 1760.56 and 2557.18.*

Sales to nonprofit youth organizations whose primary purpose is to provide athletic instruction in a nonresidential setting, or to councils and local units of incorporated nonprofit national scouting organizations.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $250,000 – 999,999
FY '25 $250,000 – 999,999
FY '26 $250,000 – 999,999
FY '27 $250,000 – 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

| | |
|---|---|
| Athletic youth organizations | 390 |
| National scouting organizations | 32 |

# 2.064 Self-help literature on alcoholism.

*36 M.R.S.A. § 1760.57.*

Sales of self-help literature relating to alcoholism to alcoholics anonymous groups are exempt from tax.

Reason(s) for exemption

Subsidize the sale of this literature by alcoholics anonymous groups through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.065 Portable classrooms.

*36 M.R.S.A. § 1760.58.*

Sales of tangible personal property to be physically incorporated in and become a part of portable classrooms for lease to schools entitled to exemption under subsection 16 are exempt from tax. If the portable classrooms are used for an otherwise taxable use within 2 years from the date of the first use, the lessor shall become liable for the use tax based on the original sale price.

Reason(s) for exemption

Subsidize the cost of portable classrooms that are to be leased to schools.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.066 Sales to certain incorporated nonprofit educational organizations.

*36 M.R.S.A. § 1760.59 and 2557.19.*

Sales to incorporated nonprofit educational organizations that are receiving, or have received, funding from the Department of Education, and that provide educational programs specifically designed for teaching young people how to make decisions about drugs, alcohol and interpersonal relationships at a residential youth camp setting are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

Fewer than 10

# 2.067 Sales to incorporated nonprofit animal shelters.

*36 M.R.S.A. § 1760.60.*

Sales to incorporated nonprofit animal shelters of tangible personal property used in the operation and maintenance of those shelters or in the maintenance and care of any animal, including wildlife, housed in those shelters are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $50,000 - 249,999
FY '25 $50,000 - 249,999
FY '26 $50,000 - 249,999
FY '27 $50,000 - 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

126

# 2.068 Construction contracts with exempt organizations.

*36 M.R.S.A. § 1760.61 and 2557.31.*

Sales of tangible personal property, to a construction contractor, that are to be physically incorporated in, and become a permanent part of, real property for sale to any organization or government agency provided exemption under this section (Title 36 MRSA section 1760), except as otherwise provided are exempt from tax.

This exemption only applies to property that will become physically attached to the realty of the exempt organization. It does not apply to supplies used by the contractor nor to any machinery or equipment purchased by the contractor, even though the equipment is being purchased specifically for the exempt job. For purposes of this exemption, contractors also include sub-contractors. If a contractor has an inventory of property on which tax has been paid and subsequently uses the property on an exempt job, the contractor would be eligible for refund provided the property meets the requirements stated above.

Sales to a construction contractor or its subcontractor of fabrication services that are to be physically incorporated in, and become a permanent part of, real property for sale to any organization or government agency provided exemption under this section (Title 36 MRSA section 2557), except as otherwise provided are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $1,000,000 - 2,999,999
FY ‘25 $1,000,000 - 2,999,999
FY ‘26 $1,000,000 - 2,999,999
FY ‘27 $1,000,000 - 2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.069 Charitable suppliers of medical equipment.

*36 M.R.S.A. § 1760.62 and 2557.20.*

Sales to local branches of incorporated international nonprofit charitable organizations that lend medical supplies and equipment to persons free of charge are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

Fewer than 10

# 2.070 Organizations fulfilling the wishes of children with life-threatening diseases.

*36 M.R.S.A. § 1760.63 and 2557.21.*

Sales to incorporated nonprofit organizations whose sole purpose is to fulfill the wishes of children with life-threatening diseases, when their family or guardian is unable to otherwise financially fulfill those wishes, are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

10

# 2.071 Schools and school-sponsored organizations.

*36 M.R.S.A. § 1760.64.*

Sales of tangible personal property and taxable services by public and private elementary and secondary schools that otherwise qualify as schools under subsection 16, and by student organizations sponsored by those schools, including booster clubs and student or parent-teacher organizations, as long as the profits from such sales are used to benefit those schools or student organizations or are used for a charitable purpose are exempt from tax.

Public and private elementary and secondary schools making sales of candy bars, calendars, yearbooks, clothing, etc. are exempt from charging tax on such sales, provided the profits are used to benefit the school or student organization or are used for a charitable purpose.

Reason(s) for exemption

Provide support for schools and school-sponsored organizations when they are making sales to raise money to benefit the school, student organizations or charity.

Estimated General Fund revenue loss

FY ‘24 $250,000 – 999,999
FY ‘25 $250,000 – 999,999
FY ‘26 $250,000 – 999,999
FY ‘27 $250,000 – 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.072 Monasteries and convents.

*36 M.R.S.A. § 1760.65.*

Sales of tangible personal property to incorporated nonprofit monasteries and convents for use in their operation and maintenance are exempt from tax. For the purpose of this subsection, “monasteries” and “convents” means the dwelling places of communities of religious persons.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

58

# 2.073 Incorporated nonprofit providers of certain support systems for single-parent families.

*36 M.R.S.A. § 1760.66 and 2557.22.*

Sales to incorporated nonprofit organizations engaged primarily in providing support systems for single-parent families for the development of psychological and economic self-sufficiency are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

24

# 2.074 Nonprofit home construction organizations.

*36 M.R.S.A. § 1760.67 and 2557.23.*

Sales to local branches of incorporated, nonprofit organizations whose purpose is to construct low-cost housing for low-income people are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $50,000 - 249,999
FY '25 $50,000 - 249,999
FY '26 $50,000 - 249,999
FY '27 $50,000 - 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

34

# 2.075 Vietnam veteran registries.

*36 M.R.S.A. § 1760.69 and 2557.24.*

Sales to incorporated, nonprofit organizations whose sole purpose is to create, maintain and update a registry of Vietnam veterans are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

Fewer than 10

# 2.076 Organizations providing certain services for hearing-impaired persons.

*36 M.R.S.A. § 1760.70 and 2557.25.*

Sales to incorporated, nonprofit organizations whose primary purposes are to promote public understanding of hearing impairment and to assist hearing-impaired persons through the dissemination of information about hearing impairment to the general public and referral to and coordination of community resources available to hearing-impaired persons are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

Fewer than 10

# 2.077 State-chartered credit unions.

*36 M.R.S.A. § 1760.71 and 2557.26.*

Sales to credit unions that are organized under the laws of this State are exempt from tax. This subsection shall remain in effect only for the time that federally chartered credit unions are, by reason of federal law, exempt from payment of state sales tax.

Reason(s) for exemption

Provide state charted credit unions with the same sales tax exemption that federally chartered credit union have by federal law.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

State charted credit unions - 14
Federal charted credit unions exempt by Federal law - 97

# 2.078 Nonprofit housing development organizations.

*36 M.R.S.A. § 1760.72 and 2557.27.*

Sales to nonprofit organizations whose primary purpose is to develop housing for low-income people are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY ‘22 $250,000 - 999,999
FY ‘23 $250,000 - 999,999
FY ‘24 $250,000 - 999,999
FY ‘25 $250,000 - 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

174

# 2.079 Seedlings for commercial forestry use.

*36 M.R.S.A. § 1760.73.*

Sales of tree seedlings for use in commercial forestry are exempt from tax.

Reason(s) for exemption

Subsidize the purchase of tree seedlings to be used in commercial forestry.

Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.080 Property used in production.

*36 M.R.S.A. § 1760.74.*

Sales of tangible personal property that becomes an ingredient or component part of tangible personal property produced for later sale or lease, other than lease for use in this State, or that becomes an ingredient or component part of tangible personal property produced pursuant to a contract with the Federal Government or any agency of the Federal Government are exempt from tax.

Tangible personal property, other than fuel or electricity, that is consumed or destroyed or loses its identify directly and primarily in the production tangible personal property for later sale or lease, other than lease for use in this State, or that is consumed or destroyed or loses its identity directly and primarily in the production of tangible personal property produced pursuant to a contract with the Federal Government or any agency of the Federal Government is exempt from tax.

Tangible personal property is "consumed or destroyed" or "loses its identity" in production if it has a normal physical life expectancy of less than one year as a usable item in the use to which it is applied.

Reason(s) for exemption

Avoid pyramiding of the sales and use tax.

Estimated General Fund revenue loss

FY '24 $432,421,000
FY '25 $432,816,000
FY '26 $437,993,000
FY '27 $443,292,000

Method used to calculate the revenue loss

The estimate is based on 2017 Economic Census data and a forecast of Maine's manufacturing output level.

# 2.081 Certain meals and lodging.

*36 M.R.S.A. § 1760.75.*

Meals or lodging provided to employees at their place of employment when the value of those meals or that lodging is allowed as a credit toward the wages of those employees are exempt from tax.

Reason(s) for exemption

The value of the meals or lodging is allowed as a credit toward the wages of the employees.

Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.082 Aircraft parts.

*36 M.R.S.A. § 1760.76.*

The sale or use in this State of replacement or repair parts of an aircraft used by a scheduled airline in the performance of service under 49 United States Code, Subtitle VII and Federal Aviation Administration regulations are exempt from tax.

Reason(s) for exemption

Economic development

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.083 Eye banks.

*36 M.R.S.A. § 1760.77 and 2557.28.*

Sales to nonprofit organizations whose primary purpose is to obtain, medically evaluate and distribute eyes for use in corneal transplantation, research and education are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

Fewer than 10

# 2.084 Farm animal bedding and hay.

*36 M.R.S.A. § 1760.78.*

Sales of organic bedding materials for farm animals and hay are exempt from tax.

Reason(s) for exemption

Provide support to farmers by subsidizing the purchase of these items.

Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.085 Electricity used for net billing.

*36 M.R.S.A. § 1760.80.*

Sale or delivery of kilowatt hours of electricity to net energy billing customers as defined by the Public Utilities Commission for which no money is paid to the electricity provider or to the transmission and distribution utility are exempt from tax.

Reason(s) for exemption

No money is paid to the electricity provider or to the transmission and distribution utility.

Estimated General Fund revenue loss

FY '24 $8,120,000
FY '25 $9,463,000
FY '26 $11,222,000
FY '27 $512,361,000

Method used to calculate the revenue loss

The estimate is based on data on currently operational net metering agreements and future projects. Note that the cost of this exemption is reduced by overlap with the exemptions provided by 1760.9-B and 1760.9-D. Without these exemptions, the estimated cost of 1760.80 would be:

FY '24 $11,578,000
FY '25 $14,399,000
FY '26 $17,876,000
FY '27 $20,169,000.

# 2.086 Animal waste storage facility.

*36 M.R.S.A. § 1760.81.*

Any materials for the construction, repair or maintenance of an animal waste storage facility are exempt from tax. For the purposes of this section, "animal waste storage facility" means a structure or pit constructed and used solely for storing manure, animal bedding waste or other wastes generated by animal production. For a facility to be eligible for this exemption, the Commissioner of Agriculture, Conservation and Forestry must certify that a nutrient management plan has been prepared in accordance with Title 7, section 4204 for the farm utilizing that animal waste storage facility.

Reason(s) for exemption

Subsidize the construction of these facilities through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $250,000 – 999,999
FY '25 $250,000 – 999,999
FY '26 $250,000 – 999,999
FY '27 $250,000 – 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.087 Sales of property delivered outside this State.

*36 M.R.S.A. § 1760.82.*

Sales of tangible personal property when the seller delivers the property to a location outside this State or to the United States Postal Service, a common carrier or a contract carrier hired by the seller for delivery to a location outside this State, regardless of whether the property is purchased F.O.B. shipping point or other point in this State and regardless of whether passage of title occurs in this State are exempt from tax.

Reason(s) for exemption

The goods are being shipped to a location outside of this State.

Estimated General Fund revenue loss

FY ‘24 $6,000,000 or more
FY ‘25 $6,000,000 or more
FY ‘26 $6,000,000 or more
FY ‘27 $6,000,000 or more

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.088 Sales of certain printed materials.

*36 M.R.S.A. § 1760.83.*

Sales of advertising or promotional materials printed on paper and purchased for the purpose of subsequently transporting such materials outside the State for use by the purchaser thereafter solely outside the State.

If a retailer purchases printed advertising or promotional materials, like flyers, pamphlets or brochures, for the purpose of mailing them directly out-of-state or for inclusion as "stuffers" in goods being delivered out-of-state, the purchase is exempt from tax.

Reason(s) for exemption

The advertising or promotional materials are being transported outside of this State for use by the purchaser solely outside of this State.

Estimated General Fund revenue loss

FY '24 $1,000,000 – 2,999,999
FY '25 $1,000,000 – 2,999,999
FY '26 $1,000,000 – 2,999,999
FY '27 $1,000,000 – 2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.089 Centers for innovation.

*36 M.R.S.A. § 1760.84 and 2557.29.*

Sales to centers for innovation as described in Title 5, section 13141 are exempt from tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exempt organizations on file

Fewer than 10

# 2.090 Certain sales by auxiliary organizations of the American Legion.

*36 M.R.S.A. § 1760.85.*

Sales of meals and related items and services by a nonprofit auxiliary organization of the American Legion in connection with a fund-raising event sponsored by the auxiliary organization are exempt from tax if the meals and related items and services are provided in a room that is separate from the lounge facilities, if any, of the American Legion and patrons are prohibited from taking alcoholic beverages from the lounge facilities to the separate room where the meals and related items and services are provided.

Reason(s) for exemption

Provide support to these organizations by subsidizing their sales of meals and related items and services by exempting them from the sales tax.

Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.091 Pine Tree Development Zone businesses; reimbursement of certain taxes.

*36 M.R.S.A. § 2016.*

A reimbursement of sales and use tax is allowed with respect to the sale or use of tangible personal property that is to be physically incorporated in and becomes a permanent part of real property that is owned by or sold to a qualified Pine Tree Development Zone business and is used directly and primarily by that business in one or more qualified business activities.

Reason(s) for exemption

Encourage economic development in certain regions of the State.

Estimated General Fund revenue loss

FY '24 $1,000
FY '25 $5,000
FY '26 $3,000
FY '27 $2,000

Method used to calculate the revenue loss

The estimate is based on the recent history of Pine Tree Zone sales tax reimbursements.

# 2.092 Sales of tangible personal property to qualified development zone businesses.

*36 M.R.S.A. § 1760.87.*

Beginning July 1, 2005, sales of tangible personal property to a qualified Pine Tree Development Zone business, as defined in Title 30-A, section 5250-I, subsection 17, for use directly and primarily in one or more qualified business activities, as defined in Title 30-A, section 5250-I, subsection 16. The exemption provided by this subsection is limited for each qualified Pine Tree Development Zone business to sales occurring within a period of 10 years in the case of a business located in a tier 1 location, as defined in Title 30-A, section 5250-I, subsection 21-A, and 5 years in the case of a business located in a tier 2 location, as defined in Title 30-A, section 5250-I, subsection 21-B, from the date the business is certified pursuant to Title 30-A, section 5250-O or until December 31, 2028, whichever occurs first.

Reason(s) for exemption

Encourage economic development in certain regions of the State.

Estimated General Fund revenue loss

FY '24 $1,000,000 – 2,999,999
FY '25 $1,000,000 – 2,999,999
FY '26 $1,000,000 – 2,999,999
FY '27 $1,000,000 – 2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exemptions on file

134

# 2.093 Sales or leases of certain aircraft.

*36 M.R.S.A. § 1760.88.*

Sales or leases of aircraft that weigh over 6,000 pounds, that are propelled by one or more turbine engines or that are in use by a Federal Aviation Administration classified 135 operator.

Reason(s) for exemption

Most of these aircraft are in this State for short periods of time.

Estimated General Fund revenue loss

FY '24 $50,000 - $249,999
FY '25 $50,000 - $249,999
FY '26 $50,000 - $249,999
FY '27 $50,000 - $249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.094 Sales of aircraft and parts.

*36 M.R.S.A. § 1760.88-A.*

Sales, use or lease of aircraft and sales of repair and replacement parts exclusively for use in aircraft or in the significant overhauling or rebuilding of aircraft or aircraft parts or components are exempt from sales and use tax from July 1, 2011 to June 30, 2033.

Reason(s) for exemption

Provide an incentive for the purchase, repair and overhaul or rebuilding of aircraft in the State.

Estimated General Fund revenue loss

FY '24 $701,000
FY '25 $758,000
FY '26 $818,000
FY '27 $884,000

Method used to calculate the revenue loss

The estimate is based on data from sales tax returns of sellers of aircraft and aircraft parts.

# 2.095 Sales of qualified snowmobile trail grooming equipment.

*36 M.R.S.A. § 1760.90.*

Sales to incorporated nonprofit snowmobile clubs of snowmobiles and snowmobile trail grooming equipment used directly and exclusively for the grooming of snowmobile trails is exempt from sales and use tax.

Reason(s) for exemption

Subsidize the repair and maintenance of snowmobile trails.

Estimated General Fund revenue loss

FY '24 $10,000
FY '25 $17,000
FY '26 $17,000
FY '27 $17,000

Method used to calculate the revenue loss

The estimate is based on sales/use tax return forms.

# 2.096 Certain sales of electrical energy.

*36 M.R.S.A. § 1760.91.*

Sales or use of electrical energy, or water stored for the purpose of generating electricity, when the sale is to or by a wholly owned subsidiary by or to its parent corporation, except for electrical energy or water purchased for resale to or by the wholly owned subsidiary.

Reason(s) for exemption

The transactions are between a parent corporation and its wholly owned subsidiary.

Estimated General Fund revenue loss

FY '24 $250,000 – 999,999
FY '25 $250,000 – 999,999
FY '26 $250,000 – 999,999
FY '27 $250,000 – 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.097 Certain vehicle rentals.

*36 M.R.S.A. § 1760.92.*

The rental for a period of less than one year of an automobile when the rental is to the service customer of a new vehicle dealer, pursuant to a manufacturer's or new vehicle dealer's warranty and the rental fee is paid by that new vehicle dealer or warrantor.

Reason(s) for exemption

The rental fee is included in the warranty.

Estimated STAR Fund revenue loss

FY '24 $250,000 – 999,999
FY '25 $250,000 – 999,999
FY '26 $250,000 – 999,999
FY '27 $250,000 – 999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.098 Plastic bags sold to redemption centers.

*36 M.R.S.A. § 1760.93.*

Sales to a local licensed redemption center of plastic bags used by the redemption center to sort, store or transport returnable beverage containers are exempt from the sales and use tax.

Reason(s) for exemption

Provide funding to redemption centers through an exemption from the sales and use tax.

The Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.099 Positive airway pressure equipment & supplies.

*36 M.R.S.A. § 1760.94.*

Positive airway pressure equipment and supplies sold or leased for personal use are exempt from sales and use tax.

Reason(s) for exemption

Necessity of life

The Estimated General Fund revenue loss

FY ‘24 $2,040,000
FY ‘25 $5,133,000
FY ‘26 $9,593,000
FY ‘27 $10,092,000

Method used to calculate the revenue loss

Estimated from National Health Expenditure Data from the U.S. Centers for Medicare & Medicaid Services and Medicare data on Durable Medical Equipment expenditures.

# 2.100 Sales of certain adaptive equipment.

*36 M.R.S.A. § 1760.95.*

Sales to persons with a disability or a person at the request of a person with a disability of adaptive equipment for installation in or on a motor vehicle to make that vehicle operable or accessible by a person with a disability who is issued a disability plate or placard by the Secretary of State pursuant to Title 29-A, section 521.

Reason(s) for exemption

Subsidize the purchase of adaptive equipment needed to modify motor vehicles for persons with a disability.

The Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.101 Certain veterans' support organizations.

*36 M.R.S.A. § 1760.98 and 2557.37.*

Sales to incorporated nonprofit organizations organized for the purpose of providing direct supportive services in the State to veterans and their families living with service-related post-traumatic stress disorder or traumatic brain injury.

Reason(s) for exemption

Provide financial support to certain organizations serving veterans by exempting their purchases from the sales and use tax.

Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exemptions on file

Fewer than 10

# 2.102 Nonprofit library collaboratives.

*36 M.R.S.A. § 1760.99 and 2557.38.*

Sales to nonprofit collaboratives of academic, public, school and special libraries that provide support for library resource sharing, promote quality library information services and support the cultural, educational and economic development of the State are exempt from the sales and use tax.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.103 Certain veterans' service organizations.

*36 M.R.S.A. § 1760.100.*

Sales to an organization that provides services to veterans and their families that is chartered under 36 United States Code, Subtitle II, Part B, including posts or local offices of that organization, and that is recognized as a veterans' service organization by the United States Department of Veterans Affairs.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exemptions on file

115

# 2.104 Certain sales by civic, religious, and fraternal organizations.

*36 M.R.S.A. § 1760.101.*

Sales of prepared food by a civic, religious or fraternal organization, including an auxiliary of such an organization, at a public or member-only event, except when alcoholic beverages are available for sale at the event. This exemption is limited to the first 24 days during which such sales are made in a calendar year and does not apply to sales made at private functions such as weddings.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $34,000
FY '25 $34,000
FY '26 $34,000
FY '27 $33,000

Method used to calculate the revenue loss

Based on sales tax return data from eligible organizations.

# 2.105 Sales to nonprofit heating assistance organizations.

*36 M.R.S.A. § 1760.102.*

Sales to organizations that have been determined by the United States Internal Revenue Service to be exempt from taxation under Section 501(c)(3) of the Code and whose primary purpose is to provide residential heating assistance to low-income individuals.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $20,000
FY '25 $20,000
FY '26 $20,000
FY '27 $20,000

Method used to calculate the revenue loss

Based on the fiscal note prepared for the enacted legislation.

Number of exemptions on file

Fewer than 10

# 2.106 Certain support organizations for combat-injured veterans.

*36 M.R.S.A. § 1760.103 and 2557.39.*

Certain support organizations for combat-injured veterans. Sales to incorporated nonprofit organizations organized for the primary purpose of operating a retreat in the State for combat-injured veterans and their families free of charge.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exemptions on file

Fewer than 10

# 2.107 Sales to nonprofit youth camps.

*36 M.R.S.A. § 1760.104.*

Sales to nonprofit youth camps as defined in Title 22, section 2491, subsection 16 that are licensed by the Department of Health and Human Services and receive an exemption from property tax under section 652, subsection 1.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exemptions on file

11

# 2.108 Sales to pet food pantries.

*36 M.R.S.A. § 1760.105.*

Sales to an incorporated nonprofit organization organized for the purpose of providing food or other supplies intended for pets at no charge to owners of those pets.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exemptions on file

Fewer than 10

# 2.109 Sales to certain nonprofit community-based worldwide charitable organizations.

*36 M.R.S.A. § 1760.106.*

Sales to a nonprofit community-based worldwide charitable organization that, using private funding, provides financial support to other nonprofit charitable organizations at the community level, including, but not limited to, food banks and homeless or domestic violence shelters, to improve health and education and strengthen financial stability.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $266,000
FY '25 $293,000
FY '26 $307,000
FY '27 $316,000

Method used to calculate the revenue loss

Based on expense data reported on IRS Form 990 filings by eligible organizations.

Number of exemptions on file

17

# 2.110 Sales of menstrual products.

*36 M.R.S.A. § 1760.107.*

Sales of menstrual products. For purposes of this subsection, "menstrual products" means tampons, panty liners, menstrual cups, sanitary napkins and other similar tangible personal property designed for feminine hygiene in connection with the human menstrual cycle.

Reason(s) for exemption

Necessity of life.

Estimated General Fund revenue loss

FY ‘24 $904,000
FY ‘25 $946,000
FY ‘26 $989,000
FY ‘27 $1,032,000

Method used to calculate the revenue loss

The estimate is based on data on the market for feminine hygiene products and census data on Maine’s population demographics.

# 2.111 Sales to area agencies on aging.

*36 M.R.S.A. § 1760.108.*

Sales to an area agency on aging designated under Title 22, section 5116, subsection 1, paragraph B, or sales to a public or nonprofit private agency that is operating under grants authorized by Title 22, chapter 1457, that is providing social services in order to secure and maintain maximum independence and dignity in a home environment for older people capable of self-care with appropriate supportive services.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $108,000
FY '25 $119,000
FY '26 $125,000
FY '27 $129,000

Method used to calculate the revenue loss

The estimate is based on testimony from a subset of the exempt organizations and IRS Form 990 data on operating expenses of the remaining organizations.

Number of exemptions on file

68

# 2.112 Sales to nonprofit cemeteries.

*36 M.R.S.A. § 1760.109.*

Sales to a cemetery company that is exempt from federal income tax under Section 501(c)(13) of the Code.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $6,000
FY '25 $6,000
FY '26 $6,000
FY '27 $6,000

Method used to calculate the revenue loss

Based on the fiscal note prepared for the enacted legislation.

Number of exemptions on file

11

# 2.113 Sales to certain educational collaboratives.

*36 M.R.S.A. § 1760.110.*

Sales to an incorporated nonprofit collaborative whose members are regional school units, as defined in Title 20-A, section 1, subsection 24-B, and that is organized to assist those units with professional development opportunities and services.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $4,000
FY '25 $4,000
FY '26 $4,000
FY '27 $4,000

Method used to calculate the revenue loss

Based on the fiscal note prepared for the enacted legislation.

Number of exemptions on file

Fewer than 10

# 2.114 Sales of firearm safety devices.

*36 M.R.S.A. § 1760.111*.

Sales of firearm safety devices. For purposes of this subsection, "firearm safety device" means, if specifically designed for securing firearms:

A. A safe or lockbox; or

B. A trigger or barrel lock.

Reason(s) for exemption

The exemption supports the safe storage of firearms.

Estimated General Fund revenue loss

FY ‘24 $99,000
FY ‘25 $102,000
FY ‘26 $102,000
FY ‘27 $102,000

Method used to calculate the revenue loss

The estimate is based on 2017 Economic Census data and a forecast of consumption expenditures.

# 2.115 Sales to tribes.

*36 M.R.S.A. § 1760.112.*

Sales to the Houlton Band of Maliseet Indians, the Passamaquoddy Tribe or the Penobscot Nation. For purposes of section 1760-C, sales to the tribes identified in this subsection for any purpose are exempt.

Reason(s) for exemption

Provide economic benefits to the tribes, their tribal lands and tribal members, to surrounding communities and to the State; and to clarify and simplify the application of the State's tax laws to the tribes, their tribal lands and tribal members.

Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.116 Sales to tribal members.

*36 M.R.S.A. § 1760.112.*

Sales to a tribal member that are sales sourced to tribal land, except that, if the property or service is used by the purchaser, including any lessee, primarily outside of tribal land, the purchaser is liable for use tax based on the original sale price, unless otherwise exempt under this Part.
For purposes of this subsection:

A. "Primarily" means more than 50% of that period of time that begins on the date on which the property or service is first placed in service by the purchaser and ends one year from that date or at the time that the property or service is sold, scrapped, destroyed or otherwise permanently removed from service, whichever occurs first; and
B. "Sales sourced to tribal land" means sales sourced pursuant to section 1819 to a location on tribal land.

Reason(s) for exemption

Provide economic benefits to the tribes, their tribal lands and tribal members, to surrounding communities and to the State; and to clarify and simplify the application of the State's tax laws to the tribes, their tribal lands and tribal members.

Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.117 Sales to tribal entities.

*36 M.R.S.A. § 1760.114.*

Sales to a tribal entity that are sales sourced to tribal land, except that, if the property or service is used by the purchaser, including any lessee, primarily outside of tribal land, the purchaser is liable for use tax based on the original sale price, unless otherwise exempt under this Part.
For purposes of this subsection:

A. "Primarily" means more than 50% of that period of time that begins on the date on which the property or service is first placed in service by the purchaser and ends one year from that date or at the time that the property or service is sold, scrapped, destroyed or otherwise permanently removed from service, whichever occurs first; and
B. "Sales sourced to tribal land" means sales sourced pursuant to section 1819 to a location on tribal land.

Reason(s) for exemption

Provide economic benefits to the tribes, their tribal lands and tribal members, to surrounding communities and to the State; and to clarify and simplify the application of the State's tax laws to the tribes, their tribal lands and tribal members.

Estimated General Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.118 Sales to 501(c)(3) nonprofit organizations

*36 M.R.S.A. § 1760.115.*

Sales to a nonprofit organization that has been determined by the United States Internal Revenue Service to be exempt from federal income taxation under Section 501(c)(3) of the Code, if the tangible personal property or taxable services sold are to be used primarily for the purposes for which the nonprofit organization was organized.

Many 501(c)(3) nonprofit organizations were already exempt under other sales tax exemptions for specific categories of nonprofit organizations. The estimate here only reports the estimated expenditure for exemptions claimed by organizations that registered under this exemption rather than one of the pre-existing nonprofit sales tax exemptions.

Reason(s) for exemption

Provide funding to these organizations through an exemption from the sales tax.

Estimated General Fund revenue loss

FY '24 $0
FY '25 $3,829,000
FY '26 $9,510,000
FY '27 $9,807,000

Method used to calculate the revenue loss

Based on expense data reported on IRS Form 990 filings by eligible organizations.

# 2.119 Trade-in credits.

*36 M.R.S.A. § 1765.*

When one or more of the following items of tangible personal property are traded in toward the sale price of another of the same kind of the following items, the sales and use tax shall be levied only upon the difference between the sale price of the purchased property and the trade-in allowance of the property taken in trade, except for transactions between dealers involving exchange of the property from inventory:

- Motor vehicles;
- Watercraft;
- Aircraft;
- Chain saws;
- Special mobile equipment;
- Trailers and truck campers.

Reason(s) for exemption

The value of the trade-in was taxed when the product was originally purchased.

Estimated General Fund revenue loss

FY '24 $40,443,000
FY '25 $39,872,000
FY '26 $40,215,000
FY '27 $40,323,000

Method used to calculate the revenue loss

The estimate is based on a combination of data from National Automobile Dealers Association annual reports on the used automobile market and tax return data from retailers of eligible tangible personal property.

# 2.120 Donations to exempt organization.

*36 M.R.S.A. § 1864.*

A use tax is not imposed on the donation of merchandise by a retailer from inventory, including merchandise that has been returned to the retailer, to an organization if sales to that organization are exempt from sales tax under section 1760 or if that organization is exempt from taxation under the Code, Section 501(c)(3).

Reason(s) for exemption

Provide an incentive for donations to exempt organizations.

Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.121 Refund of sales tax on goods removed from the state.

*36 M.R.S.A. § 2012.*

When a business which operates from fixed locations within and without this State purchases supplies and equipment in this State, places them in inventory in this State, and subsequently withdraws then from inventory either for use at a location of the business in another taxing jurisdiction or for fabrication, attachment or incorporation into other tangible personal property for use at a location of the business in another taxing jurisdiction, without having made use other than storage or such fabrication, attachment or incorporation within this State, it may request a refund of Maine sales tax paid at the time of purchase, provided it maintains inventory records by which the acquisition and disposition of such supplies and equipment purchased can be traced. No refund shall be made where the taxing jurisdiction to which the supplies and equipment are removed levies a sales or use tax. Such refunds must be requested in accordance with section 2011 (Overpayment; refunds).

Reason(s) for exemption

The goods are being used outside of the State.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.122 Refund of sales tax on depreciable machinery and equipment purchases.

*36 M.R.S.A. § 2013.*

This section applies to persons engaged in commercial farming, commercial fishing (including commercial aquaculture), and/or commercial wood harvesting, and persons operating commercial nurseries and greenhouses. Although this is a refund provision, it does provide an exemption for purchases made after certification. Prior to certification or in cases where an exemption card cannot be used to purchase a certain item, the purchaser can seek a refund. The exemption card, which is issued by Maine Revenue Services, can be used to purchase qualifying depreciable machinery and equipment, including repair parts for such, free of tax.

This section also provides for the refund of sales tax paid on eligible purchases of electricity and fuel.

Reason(s) for exemption

Provide financial support to commercial agriculture, aquaculture, fishing and wood harvesting.

Estimated General Fund revenue loss

FY '24 $16,043,000
FY '25 $16,211,000
FY '26 $15,980,000
FY '27 $16,323,000

Method used to calculate the revenue loss

Sales tax micro-simulation model and information from sales tax returns.

Number of exemptions on file

Farmers – 1,235
Commercial Fishing – 1,884
Wood Harvesting – 403

# 2.123 Fish passage facilities.

*36 M.R.S.A. § 2014.*

Taxes on the sale or use of materials used in the construction of fish passage facilities in new, reconstructed or redeveloped dams, when the fish passage facilities are built in accordance with plans and specifications approved by the Department of Inland Fisheries and Wildlife or the Department of Marine Resources are refundable.

Reason(s) for exemption

Provide an incentive for the installation of fish passage facilities.

Estimated General Fund revenue loss

FY '24 $0 - 49,999
FY '25 $0 - 49,999
FY '26 $0 - 49,999
FY '27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.124 Refund of sales tax on purchases of parts and supplies for windjammers.

*36 M.R.S.A. § 2020.*

Purchases of parts and supplies for use in the operation, repair or maintenance of a windjammer are exempt from the sales and use tax. The purchaser may receive a refund of tax paid or purchase parts and supplies tax exempt upon presentation of a certificate issued to the purchaser by the State Tax Assessor.

Reason(s) for exemption

Provide financial support to the businesses that sell cruises on windjammers.

Estimated General Fund revenue loss

FY '24 $50,000 – 249,999
FY '25 $50,000 – 249,999
FY '26 $50,000 – 249,999
FY '27 $50,000 – 249,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

Number of exemptions on file

12

# 2.125 Reimbursement of the sales tax paid on certain battery energy storage systems.

*36 M.R.S.A. § 2021.*

Purchases of qualifying battery energy storage systems on or after January 1, 2023 and before December 31, 2025 are exempt from the sales and use tax. A person that purchases a qualifying battery energy storage system and pays the tax imposed pursuant to this Part may submit a claim for reimbursement on a form prescribed by the assessor filed within 3 years of the payment of the sales or use tax to which the reimbursement relates, except that a claim for reimbursement may not be submitted prior to July 1, 2023.

Reason(s) for exemption

Provide incentives to support the development and installation of energy storage systems in Maine.

Estimated General Fund revenue loss

FY '24 $0
FY '25 $0
FY '26 $2,257,000
FY '27 $3,386,000

Method used to calculate the revenue loss

Based on the fiscal note prepared for the enacted legislation.

# 2.126 Amusement & recreational services.

*36 M.R.S.A. § 1752.11.*

Amusement and recreational services include membership clubs, participant sports centers, amusement parks, camp grounds and related recreational services, motion picture services, live entertainment, spectator sports, museums and libraries, photo studios, repair of audio-visual, photographic and information processing equipment, casino gambling, lotteries, pari-mutuel net receipts, veterinary and other services for pets, and maintenance and repair of recreational vehicles and sports equipment.

Reason(s) for exemption

These amusement and recreational services have never been taxed.

Estimated General Fund revenue loss on consumer purchases

FY '24 $140,395,000
FY '25 $144,660,000
FY '26 $148,057,000
FY '27 $150,062,000

Estimated General Fund revenue loss on business purchases

FY '24 $24,828,000
FY '25 $25,706,000
FY '26 $26,133,000
FY '27 $26,582,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.127 Medical services.

*36 M.R.S.A. § 1752.11.*

Medical services include physician services, dental services, home health care, medical laboratories, specialty outpatient care facilities and health and allied services, all other professional medical services, nonprofit hospitals' services to households, proprietary hospitals, government hospitals, nonprofit nursing homes' services to households and proprietary and government nursing homes.

Reason(s) for exemption

Medical services are a necessity of life that have never been taxed.

Estimated General Fund revenue loss on consumer purchases

FY '24 $647,061,000
FY '25 $679,013,000
FY '26 $707,260,000
FY '27 $739,973,000

Estimated General Fund revenue loss on business purchases

FY '24 $12,018,000
FY '25 $12,441,000
FY '26 $12,654,000
FY '27 $12,858,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.128 Educational services.

*36 M.R.S.A. § 1752.11.*

Educational services include proprietary and public higher education, nonprofit private higher education services to households, elementary and secondary schools, day care and nursery schools and commercial and vocational schools.

Reason(s) for exemption

Educational services have never been taxed.

Estimated General Fund revenue loss on consumer purchases

FY '24 $64,072,000
FY '25 $66,223,000
FY '26 $68,027,000
FY '27 $70,023,000

Estimated General Fund revenue loss on business purchases

FY '24 $4,478,000
FY '25 $4,592,000
FY '26 $4,656,000
FY '27 $4,701,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.129 Social services.

*36 M.R.S.A. § 1752.11.*

Services in this category include child care, homes for the elderly, residential mental health and substance abuse facilities, individual and family services, vocational rehabilitation services, community food and housing/emergency/other relief services, other social assistance, social advocacy and civic and social organizations, religious organizations' services to households, and foundations and grant making and gift giving to households.

Reason(s) for exemption

These services have never been taxed.

Estimated General Fund revenue loss on consumer purchases

FY '24 $78,383,000
FY '25 $80,490,000
FY '26 $82,820,000
FY '27 $85,215,000

Estimated General Fund revenue loss on business purchases

FY '24 $108,000
FY '25 $102,000
FY '26 $106,000
FY '27 $107,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.130 Financial services.

*36 M.R.S.A. § 1752.11.*

Services in this category include commercial banks, other depository institutions and regulated investment companies, pension funds, financial service charges and fees, exchange listed equities, other direct commissions, over-the-counter equity securities, other imputed commissions, mutual fund sales charges, portfolio management and investment advice service, trust, fiduciary, and custody activities, life insurance, net household insurance, medical care and hospitalization insurance, income loss insurance, workers' compensation insurance, and net motor vehicle and other transportation insurance.

Reason(s) for exemption

These services have never been taxed.

Estimated General Fund revenue loss on consumer purchases

| | |
|---|---|
| FY '24 | $224,007,000 |
| FY '25 | $234,320,000 |
| FY '26 | $238,539,000 |
| FY '27 | $241,898,000 |

Estimated General Fund revenue loss on business purchases

| | |
|---|---|
| FY '24 | $400,217,000 |
| FY '25 | $410,578,000 |
| FY '26 | $417,058,000 |
| FY '27 | $423,902,000 |

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.131 Consumer purchases of personal, household and business services.

*36 M.R.S.A. § 1752.11.*

Services in this category include legal services, tax preparation and other related services, employment agency services, other personal business services, labor organization dues, professional association dues, funeral and burial services, hairdressing salons and personal grooming establishments, miscellaneous personal care services, laundry and dry cleaning services, clothing repair, rental and alteration services, repair and hire of footwear, domestic services, moving storage and freight services, repair of furniture, furnishings and floor coverings, repair of household appliances, other household services, and garbage and trash collection.

Reason(s) for exemption

These services have never been taxed.

Estimated General Fund revenue loss

| | |
|---|---|
| FY '24 | $105,219,000 |
| FY '25 | $107,775,000 |
| FY '26 | $110,787,000 |
| FY '27 | $113,772,000 |

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.132 Business purchases of repair, maintenance and personal services.

*36 M.R.S.A. § 1752.11.*

This category includes automotive repair and maintenance, car wash, electronic and precision equipment repair and maintenance, commercial and industrial machinery repair and maintenance, personal and household goods repair and maintenance, personal care services dry cleaning and laundry services, and other personal services.

Reason(s) for exemption

These services have never been taxed.

Estimated General Fund revenue loss

FY '24 $42,378,000
FY '25 $43,442,000
FY '26 $44,072,000
FY '27 $44,698,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.133 Information services.

*36 M.R.S.A. § 1752.11.*

This category includes purchases of delivery services (except from the U.S. Postal Service), internet access, directory mailing list and other publishing services, motion picture and video services, sound recording services, radio and television broadcasting services, internet publishing and broadcasting services, internet service providers and web search portals, data processing hosting and related services and other information services.

Reason(s) for exemption

These services have never been taxed.

Estimated General Fund revenue loss on consumer purchases

FY '24 $12,358,000
FY '25 $12,694,000
FY '26 $13,061,000
FY '27 $13,438,000

Estimated General Fund revenue loss on business purchases

FY '24 $79,472,000
FY '25 $82,183,000
FY '26 $83,725,000
FY '27 $85,305,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.134 Transportation services.

*36 M.R.S.A. § 1752.11.*

Services in this category include purchases of motor vehicle maintenance and repair services, parking fees and tolls, railway transportation, intercity buses, taxicabs, Intracity mass transit, other road transportation services, air transportation, water transportation, scenic and sightseeing transportation, support activities for transportation, truck transportation, couriers and messengers, and warehousing and storage services purchased by businesses.

Reason(s) for exemption

These services have never been taxed.

Estimated General Fund revenue loss on consumer purchases

FY '24 $106,751,000
FY '25 $110,711,000
FY '26 $112,230,000
FY '27 $113,948,000

Estimated General Fund revenue loss on business purchases

FY '24 $101,280,000
FY '25 $103,746,000
FY '26 $104,936,000
FY '27 $106,363,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.135 Business purchases of legal, business, administrative and support services.

*36 M.R.S.A. § 1752.11.*

Services in this category include purchases of legal services, accounting, tax preparation, bookkeeping and payroll services, architectural, engineering and related services, specialized design services, custom computer programming services, computer systems design services, other computer related services including facilities management, management, scientific and technical consulting services, environmental and other technical consulting services, scientific research and development services, advertising and related services, all other miscellaneous professional, scientific and technical services, photographic services, veterinary services, management of companies and enterprises, other administrative services, facilities support services, business support services, investigation and security services, services to buildings and dwellings, other support services, employment services, travel arrangement and reservation services, and waste management and remediation services.

Reason(s) for exemption

These services have never been taxed.

Estimated General Fund revenue loss

FY '24 $686,822,000
FY '25 $705,792,000
FY '26 $715,929,000
FY '27 $727,143,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.136 Business purchases of construction services for maintenance and repair.

*36 M.R.S.A. § 1752.11.*

This category includes residential building, commercial and institutional building, manufacturing and industrial building, water, sewer and pipeline construction services. The purchase of tangible personal property by a construction contractor or a subcontractor that is to be physically incorporated in and become a permanent part of real property for sale is subject to tax unless the construction contract is with government or an exempt organization.

Reason(s) for exemption

These services have never been taxed.

Estimated General Fund revenue loss

FY '24 $68,682,000
FY '25 $70,614,000
FY '26 $71,719,000
FY '27 $72,733,000

Method used to calculate the revenue loss

Sales tax micro-simulation model.

# 2.137 Casual sales.

*36 M.R.S.A. § 1752.11.B (1)*

Casual sales are exempt from tax. “Casual sale” means an isolated transaction in which tangible personal property or a taxable service is sold other than in the ordinary course of repeated and successive transactions of like character by the person making the sale. “Casual sales” include transactions at a bazaar, fair, rummage sale, picnic or similar event by a civic, religious or fraternal organization that is not a registered retailer. The sale by a registered retailer of tangible personal property that that retailer has used in the course of the retailer’s business is not a “casual sale” if that property is of like character to that sold by the retailer in the ordinary course of repeated and successive transactions. “Casual sale” does not include any transaction in which a retailer sells tangible personal property or a taxable service on behalf of the owner of that property or the provider of that service.

Casual sales involving the sale of camper trailers, truck campers, motor vehicles, special mobile equipment except farm tractors and lumber harvesting vehicles or loaders, livestock trailers, watercraft or aircraft (From July 1, 2011 to June 30, 2033 all sales of aircraft are exempt.) except those sold for resale at retail sale or to a corporation, partnership, limited liability company or limited liability partnership when the seller is the owner of 50% or more of the common stock of the corporation or of the ownership interests in the partnership, limited liability company or limited liability partnership are subject to tax.

The sales tax must be levied upon all casual rentals of living quarters in a hotel, rooming house or tourist or trailer camp. This does not apply to the rental of living quarters rented for a total of fewer than 15 days in the calendar year, except that a person who owns and offers for rental more than one property in the State during the calendar year is liable for collecting sales tax with respect to the rental of each unit regardless of the number of days for which it is rented.

When individuals who are not in the business of selling goods dispose of their own used household items by selling them at a yard sale or similar event, or by placing an advertisement in the classified section of a newspaper, they are making casual sales. If the property sold is a motor vehicle, aircraft, watercraft, camper trailer, livestock trailer or special mobile equipment, the purchaser is responsible for the payment of the sales tax directly to the State.

Reason(s) for exemption

These are isolated sales by people who are not in the business of selling goods.

Estimated General Fund revenue loss

FY ‘24 $1,000,000 - 2,999,999
FY ‘25 $1,000,000 - 2,999,999
FY ‘26 $1,000,000 - 2,999,999
FY ‘27 $1,000,000 - 2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# 2.138 Sales by executors.

*36 M.R.S.A. § 1752.11.B (2).*

Any sale by a personal representative in the settlement of any estate, unless the sale is made through a retailer, or unless the sale is made in the continuation or operation of a business is exempt from tax.

Reason(s) for exemption

These are isolated sales that occur because of the settlement of an estate.

Estimated General Fund revenue loss

FY ‘24 $0 - 49,999
FY ‘25 $0 - 49,999
FY ‘26 $0 - 49,999
FY ‘27 $0 - 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# General Fund Service Provider Tax Expenditures

## 2.139 Telecommunications services.

*36 M.R.S.A. § 2557.33 & 34.*

All sales of international and interstate telecommunications service were exempt from tax through December 31, 2015. Effective January 1, 2016, consumer purchases of these services became taxable.

Reason(s) for exemption

This exemption reduces the cost of interstate telephone calls for all consumers and businesses and is an economic development incentive for business.

Estimated General Fund revenue loss on business purchases

FY '24 $1,000,000 - $2,999,999
FY '25 $1,000,000 - $2,999,999
FY '26 $1,000,000 - $2,999,999
FY '27 $1,000,000 - $2,999,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

# Highway Fund Sales and Use Tax Expenditures

## 2.140 Motor vehicle fuel.

*36 M.R.S.A. § 1760.8-A.*

Purchases of motor fuels that are subject to the gasoline tax or the special fuel tax are exempt from sales and use tax.

Reason(s) for exemption

Motor fuels are subject to the gasoline tax or the special fuel tax.

Estimated Highway Fund revenue loss

FY '24 $197,120,000
FY '25 $190,289,000
FY '26 $184,520,000
FY '27 $180,114,000

Method used to calculate the revenue loss

Actual and projected motor fuel tax revenue and estimates of the average prices of motor fuels are used to estimate the revenue loss.

# Highway Fund Gasoline and Special Fuel Tax Expenditures

## 2.141 State and local government exemption from the gasoline tax.

*36 M.R.S.A. § 2903.*

Internal combustion engine fuel sold in bulk to any political subdivision of this State and purchases of gasoline by the State are exempt from the gasoline tax.

Reason(s) for exemption

Retain funds for other public purposes.

Estimated Highway Fund revenue loss

FY '24 $971,000
FY '25 $900,000
FY '26 $913,000
FY '27 $925,000

Estimated other special revenue loss

FY '24 $139,000
FY '25 $133,000
FY '26 $134,000
FY '27 $137,000

Method used to calculate the revenue loss

The estimated revenue loss is based on information reported on motor fuel tax returns.

# 2.142 Gasoline exported from the state.

*36 M.R.S.A. § 2903.*

Internal combustion engine fuel sold only for exportation from this State is exempt from the Special Fuel Tax.

Reason(s) for exemption

The special fuel is being exported from this State.

Estimated Highway Fund revenue loss

FY '24 $31,156,000
FY '25 $31,464,000
FY '26 $30,342,000
FY '27 $29,261,000

Estimated other special revenue loss

FY '24 $4,448,000
FY '25 $4,644,000
FY '26 $4,479,000
FY '27 $4,319,000

Method used to calculate the revenue loss

The estimated revenue loss is based on information reported on fuel tax return forms.

# 2.143 Refund of the gasoline tax for off-highway use and for certain bus companies.

*36 M.R.S.A. § 2908 and 2909.*

The excise tax paid on internal combustion engine fuel bought and used for the purpose of operating or propelling commercial motor boats, tractors used for agricultural purposes not operating on public ways, or for registered vehicles operating off the highways of this State, or vehicles owned or operated by railroad companies while operating on rails or tracks, or in stationary engines, or in the mechanical or industrial arts, or for any other commercial use except in nonrailroad motor vehicles operated or intended to be operated upon any of the public highways of this State, or turnpikes operated and maintained by the Maine Turnpike Authority is refundable less one cent per gallon. All fuel qualifying for a refund is subject to the use tax.

Any person, firm or corporation engaged in furnishing common carrier passenger service under a certificate issued by the Public Utilities Commission shall be reimbursed and repaid to the extent of the entire amount of the gasoline tax paid by him upon that portion of the internal combustion engine fuel used in locally encouraged vehicles (Buses upon which no excise tax is collected, under section 1483, subsection 13.) operated by him which his tax-exempt passenger fare revenue derived from such service bears to his total passenger fare revenue. Tax-exempt passenger fare revenue means revenue attributable to fares which were exempt from the federal tax upon transportation of persons imposed by section 4261 of the Federal Internal Revenue Code, by reason of sections 4262 or 4263 of said Internal Revenue Code. Total passenger fare revenue means all revenue attributable to the claimant's passenger operations, whether or not pursuant to the certificate issued by the Public Utilities Commission. The refund is made only if the claimant's tax-exempt passenger fare revenue is at least 60% of the claimant's total passenger fare revenue derived during the calendar quarter for which such refund is claimed.

Reason(s) for exemption

The fuel is being used for off-highway purposes. The exemption for certain bus companies encourages the provision of free transportation to certain persons.

Estimated Highway Fund revenue loss

FY '24 $47,000
FY '25 $74,000
FY '26 $72,000
FY '27 $70,000

Estimated other special revenue loss

FY '24 $7,000
FY '25 $11,000
FY '26 $10,000
FY '27 $10,000

Method used to calculate the revenue loss
The estimate is based on actual refunds issued.

# 2.144 Refund of the gasoline tax to government agencies and political subdivisions.

*36 M.R.S.A. § 2910-B.*

Any government agency that buys and uses internal combustion engine fuel and that has paid the gasoline tax must be reimbursed in the amount of the tax paid upon presenting to the State Tax Assessor a statement accompanied by the original invoices showing the purchases. By contractual agreement, a government agency may assign to another person its right to receive refunds. Applications for refunds must be filed with the assessor within 12 months from the date of purchase.

"Government agency" means the State, or any political subdivision of the State, or the Federal Government.

Reason(s) for exemption

Retain funds for other public purposes.

Estimated Highway Fund revenue loss

FY '24 $1,383,000
FY '25 $1,290,000
FY '26 $1,310,000
FY '27 $1,330,000

Estimated other special revenue loss

FY '24 $197,000
FY '25 $190,000
FY '26 $193,000
FY '27 $196,000

Method used to calculate the revenue loss

The estimate is based on actual refunds issued.

# 2.145 State & local government exemption from the special fuel tax.

*36 M.R.S.A. § 3204-A.3.*

Sales of special fuel to this State or any political subdivision of this State are exempt from the special fuel tax.

Reason(s) for exemption

Retain funds for other public purposes.

Estimated Highway Fund revenue loss

FY '24 $1,682,000
FY '25 $1,628,000
FY '26 $1,574,000
FY '27 $1,521,000

Estimated other special revenue loss

FY '24 $192,000
FY '25 $186,000
FY '26 $180,000
FY '27 $174,000

Method used to calculate the revenue loss

The estimated revenue loss is based on information reported on motor fuel tax returns.

# 2.146 Special fuel exported from the state.

*36 M.R.S.A. § 3204-A.*

Special fuel sold only for exportation from this State is exempt from the Special Fuel Tax.

Reason(s) for exemption

The special fuel is being exported from this State.

Estimated Highway Fund revenue loss

FY '24 $6,776,000
FY '25 $6,853,000
FY '26 $6,764,000
FY '27 $6,676,000

Estimated other special revenue loss

FY '24 $774,000
FY '25 $783,000
FY '26 $772,000
FY '27 $762,000

Method used to calculate the revenue loss

The estimated revenue loss is based on information reported on motor fuel tax returns.

# 2.147 Refund of special fuel tax for off-highway use and for certain bus companies.

*36 M.R.S.A. §s 3215 and 3218.*

The excise tax paid on special fuel bought and used for the purpose of operating or propelling motor boats, tractors used for agricultural purposes not operating on public ways, or in such vehicles as run only on rails or tracks, in stationary engines, in the mechanical or industrial arts, for registered vehicles operating off the highways of this State, or for any other use except in registered motor vehicles operated on the highways of this State is refundable less one cent per gallon. All fuel qualifying for a refund is subject to use tax.

Any person, firm or corporation engaged in furnishing common carrier passenger services under a certificate issued by the Public Utilities Commission is reimbursed and repaid to the extent of the entire amount of that tax paid by him upon that proportion of the combustible gases and liquids used in an internal combustion engine used in locally encouraged vehicles (Buses upon which no excise tax is collected, under section 1483, subsection 13.) operated by him, which his tax-exempt passenger fare revenue derived from that service bears to his total passenger fare revenue. "Tax-exempt passenger fare revenue" means revenue attributable to fares which were exempt from the federal tax upon transportation of persons imposed by the United States Internal Revenue Code Section 4261, by reasons of the United States Internal Revenue Code, Section 4262 or 4263. "Total passenger fare revenue" means all revenue attributable to the claimant's passenger operations, whether or not pursuant to the certificate issued by the Public Utilities Commission. The refund shall be made only if the claimant's tax-exempt passenger fare revenue is at least 60% of the claimant's total passenger fare revenue derived during the calendar quarter for which that refund is claimed.

Reason(s) for exemption

The fuel is being used for off-highway purposes. The purpose of the common carrier exemption is to encourage the provision of free transportation to certain persons.

Estimated Highway Fund revenue loss

FY '24 $1,227,000
FY '25 $1,351,000
FY '26 $1,342,000
FY '27 $1,334,000

Estimated other special revenue loss

FY '24 $140,000
FY '25 $154,000
FY '26 $154,000
FY '27 $152,000

Method used to calculate the revenue loss

The estimate is based on actual refunds issued.

# 2.148 Refund of special fuel tax to government agencies and political subdivisions

*36 M.R.S.A. §s 3208-A.*

Any government agency that buys and uses special fuel and that has paid special fuels tax is eligible for reimbursement in the amount of the tax paid. By contractual agreement, a government agency may assign to another person its right to receive funds. A refund application on a form prescribed by the State Tax Assessor must be filed to claim a refund pursuant to this section. Applications for refunds must be filed with the assessor within 12 months from the date of purchase.

"Government agency" means the State, or any political subdivision of the State, or the Federal Government.

Reason(s) for exemption

The fuel is being used for off-highway purposes. The purpose of the common carrier exemption is to encourage the provision of free transportation to certain persons.

Estimated Highway Fund revenue loss

FY ‘24 $373,000
FY ‘25 $360,000
FY ‘26 $348,000
FY ‘27 $336,000

Estimated other special revenue loss

FY ‘24 $43,000
FY ‘25 $41,000
FY ‘26 $40,000
FY ‘27 $38,000

Method used to calculate the revenue loss

The estimate is based on actual refunds issued.

# Multimodal Transportation Fund Aeronautical Fuel Tax Expenditures

## 2.149 Excise tax exemption on jet or turbojet fuel.

*36 M.R.S.A. § 2903.4*

Fuel bought or used by any person to propel jet or turbojet engine aircraft in international flight is exempt from the aeronautical jet fuel tax.

Reason(s) for exemption

Foreign commerce

Estimated Multimodal Transportation Fund revenue loss

FY '24 $73,000
FY '25 $99,000
FY '26 $98,000
FY '27 $97,000

Method used to calculate the revenue loss

The estimated revenue loss is based on information reported on motor fuel tax returns.

# 2.150 Refund of gasoline tax to users of aircraft.

*36 M.R.S.A. § 2910.*

The gasoline excise tax paid on internal combustion engine fuel bought or used for the purpose of propelling piston engine aircraft is refundable to the user, less four cents per gallon. If the fuel tax is refunded, the purchase of the fuel is subject to the sales tax.

Reason(s) for exemption

Off-highway use.

Estimated Multimodal Transportation Fund revenue loss

FY '24 $20,000
FY '25 $20,000
FY '26 $20,000
FY '27 $20,000

Method used to calculate the revenue loss

The estimate is based on the value of refunds issued.

# Cigarette Tax Exemption

## 2.151 Cigarette stamp tax deduction for licensed distributors.

*36 M.R.S.A. § 4366-A.2.*

Cigarette tax stamps are sold to licensed distributors at a discount from their face value. Stamps with a face value of 100 mills ($2.00) are sold at a discount of 1.15%.

Reason(s) for exemption

The discount provides a subsidy to licensed distributors to help them cover the cost of affixing the tax stamps to packages of cigarettes.

Estimated General Fund revenue loss

FY '24 $1,148,000
FY '25 $1,211,000
FY '26 $1,182,000
FY '27 $1,154,000

Method used to calculate the revenue loss

The estimated revenue loss is based on the cigarette tax revenue forecast.

# Special Revenue Tax Expenditures

## 2.152 Wild blueberries grown on tribal land.

*36 M.R.S.A. § 4303-B.*

The blueberry tax imposed by section 4303 does not apply to wild blueberries grown on tribal land.

Reason(s) for exemption

Provide economic benefits to the tribes, their tribal lands and tribal members, to surrounding communities and to the State; and to clarify and simplify the application of the State's tax laws to the tribes, their tribal lands and tribal members.

Estimated Multimodal Transportation Fund revenue loss

FY '24 $95,000
FY '25 $95,000
FY '26 $95,000
FY '27 $95,000

Method used to calculate the revenue loss

Based on the fiscal note prepared for the enacted legislation.

# 2.153 Potatoes grown on tribal land.

*36 M.R.S.A. § 4605.1-A.*

The potato tax imposed by section 4605 does not apply to any potatoes grown on tribal land.

Reason(s) for exemption

Provide economic benefits to the tribes, their tribal lands and tribal members, to surrounding communities and to the State; and to clarify and simplify the application of the State's tax laws to the tribes, their tribal lands and tribal members.

Estimated Multimodal Transportation Fund revenue loss

FY '24 $0 – 49,999
FY '25 $0 – 49,999
FY '26 $0 – 49,999
FY '27 $0 – 49,999

Method used to calculate the revenue loss

The revenue loss is estimated as a range of possible values because little or no data is available.

## Appendix A: General Fund Tax Expenditures – Income Tax (Personal and Corporate) and Property Tax Reimbursement

| General Fund Income Tax Expenditures | 36 MRSA § | FY'24 | FY'25 | FY'26 | FY'27 |
|---|---|---|---|---|---|
| Reimbursement For Business Equipment Tax Exemption to Municipalities | Chapter 105, Subchapter 4-c | $64,779,045 | $70,730,000 | $73,596,000 | $76,575,000 |
| Reimbursement for Taxes Paid on Certain Business Property (BETR) | Chapter 915 | $18,095,129 | $17,340,000 | $16,319,000 | $15,358,000 |
| Income from depreciation recapture on sale of multi-family affordable housing property | 5122(2)(Z) | $45,000 | $45,000 | $45,000 | $45,000 |
| Deduction for Social Security Benefits Taxable at Federal Level | 5122(2)(C) | $144,600,000 | $153,390,000 | $157,160,000 | $166,930,000 |
| Deduction for Contributions to Capital Construction Funds | 5122(2)(I) | $16,000 | $50,000 | $50,000 | $50,000 |
| Deduction for Pension Income | 5122(2)(M-2) | $79,880,000 | $121,330,000 | $133,210,000 | $141,710,000 |
| Deduction for Interest and Dividends on Maine State and Local Securities - Individual Income Tax | 5122(2)(N) | $335,000 | $370,000 | $340,000 | $285,000 |
| Deduction for Holocaust Victim Settlement Payments | 5122(2)(O) | A | A | A | A |
| Deduction for active duty military pay earned outside of Maine | 5122(2)(LL) | $2,280,000 | $2,485,000 | $2,615,000 | $2,750,000 |
| Military annuity payments made to survivor | 5122(2)(HH) | $250,000 | $260,000 | $270,000 | $285,000 |
| Family development account proceeds | 10 MRSA §1077 | A | A | A | A |
| Municipal property tax benefits for senior citizens | 5122(2)(EE) | $10,000 | $10,000 | $10,000 | $10,000 |
| Deduction for gain on sales of eligible timberlands | 5122(2)(U) | $49,000 | $355,000 | $405,000 | $460,000 |
| Deduction for employer student loan payments on behalf of a qualified health care employee | 5122(2)(SS) | $39,000 | $41,000 | $43,000 | $45,000 |
| Deduction for student loan payments made directly to lender by a program funded by a nonprofit and administered by FAME | 5122(2)(XX) | $55,000 | $50,000 | $50,000 | $50,000 |
| Exclusion of income earned by tribal members on tribal land | 5122(2)(ZZ) and 5122(1)(PP) | $305,000 | $351,000 | $365,000 | $379,000 |
| Deduction for contributions to a 529 plan | 5122(2)(YY) | $390,000 | $405,000 | $420,000 | $435,000 |
| Itemized Deductions | 5125 | $9,410,000 | $9,790,000 | $10,380,000 | $11,010,000 |
| Additional standard deduction for the elderly and disabled | 5124-A | $10,980,000 | $10,220,000 | $10,850,000 | $11,260,000 |
| Deduction for Exempt Associations, Trusts and Organizations | 5162(2) | A | A | A | A |
| Deduction for Interest and Dividends on U.S., Maine State and Local Securities | 5200-A(2)(K) | C | C | C | C |
| Deduction for interest on Maine Space Corporation Bond Interest | Title 5, 3207(2)(B) | $0 | $0 | A | A |
| Nexus carve out for out-of-state suppliers of spirits | 5202-D | $665,000 | $700,000 | $735,000 | $770,000 |
| Sales Tax Fairness Credit | 5213-A | $25,525,000 | $27,720,000 | $28,355,000 | $27,860,000 |
| Credit to Beneficiary for Accumulation Distribution | 5214-A | B | B | B | B |
| Seed Capital Investment Tax Credit | 5216-B | $6,040,000 | $5,370,000 | $5,270,000 | $5,470,000 |
| Student Loan Repayment Tax Credit | 5217-E | $42,045,000 | $67,490,000 | $74,815,000 | $77,800,000 |
| Employer Support for Volunteer Firefighters Tax Credit | 5217-F | $3,000 | $12,000 | $41,000 | $41,000 |
| Income Tax Credit for Child Care Expense | 5218 | $3,955,000 | $4,110,000 | $4,275,000 | $4,445,000 |
| Adult dependent care credit | 5218-A | $16,500 | $17,000 | $17,500 | $18,000 |
| Research Expense Tax Credit | 5219-K | $3,220,000 | $3,350,000 | $3,950,000 | $4,110,000 |
| Earned Income Credit** | 5219-S | $38,150,000 | $40,350,000 | $41,300,000 | $40,900,000 |
| Pine Tree Development Zone Tax Credit | 5219-W | $3,145,000 | $3,270,000 | $2,750,000 | $2,065,000 |
| Biofuel commercial production and commercial use | 5219-X | $0 | $0 | B | B |
| Tax Benefits for Media Production Companies | 5219-Y, c. 919-A | $151,933 | $150,000 | $230,000 | $240,000 |
| Credit for Rehabilitation of Historic Properties | 5219-BB | $10,577,000 | $16,897,000 | $21,074,000 | $22,707,000 |
| Dental Care Access Credit | 5219-DD | $129,000 | $90,000 | $66,000 | $26,000 |

Estimated General Fund revenue loss: $45,000,000 - $60,000,000

[1] Estimated tax expenditure of less than $50 million.

\A Estimate includes both bonus depreciation and general acceleration under MACRS. Maine decouples from bonus depreciation and provides the Maine Capital Investment Credit (MCIC), based on federal bonus depreciation, for property placed in service in Maine. The MCIC is listed separately in this report. The reported range below incorporates a reduction in this tax expenditure for bonus depreciation, but the size of the adjustment is uncertain and contributes to the large range of the total expenditure. Further research is required to estimate the revenue impact of MACRS relative to sec. 168(g) depreciation.

\B A separate estimate of the tax expenditure for HSA contributions reported as an above-the-line deduction on the 1040 is included in this report. The HSA expenditure estimate also includes pre-tax contributions from wages and tax-free inside buildup. The above-the-line deduction is not considered when reporting the state expenditure range.

\C A separate estimate of the tax expenditure for deductible IRA contributions is included in this report. The traditional IRA expenditure estimate also includes tax-free inside buildup. The above-the-line deduction is not considered when reporting the state expenditure range.

## Appendix E: Tax Incidence Report

This appendix reports estimates of the distribution of state and local taxes by tax family in 2023. The interested reader should reference the Maine State Tax Expenditure Report 2020-2021 for a discussion of tax incidence concepts and details about the estimates.

Tables 1 and 2 show the distribution of Maine individual income tax liability for tax year 2023. These tables are based on return information contained in the Maine tax data warehouse. Table 1 shows the distribution of tax returns by Maine Adjusted Gross income (MAGI) groups with no adjustment for family size. The lack of family size adjustment implicitly treats taxpayers with the same income as having the same economic wellbeing regardless of family size. Table 2 divides MAGI by the square root of family size and defines income groups by the number of people represented in each group rather than the number of returns.[1]

A number of high-income resident taxpayers have low Maine income tax liability because a significant share of their income is sourced to other states, they pay taxes to those states, and they receive a Maine tax credit for the income tax paid to those other jurisdictions. This situation is arguably distinct from the case of a high-income taxpayer with low Maine income tax liability due to other tax credits or income exemptions. For this reason, the last set of columns in Tables 1 and 2 combines the credit for income taxes paid to other jurisdictions and Maine income tax liability.

The remaining tables are based on the Maine tax model. These tables show the tax liability distribution by tax family and expanded income. Unlike Tables 1 and 2, these tables include income tax nonfilers[2]. Taxes are divided into two groups: taxes imposed directly on individuals (individual income tax, sales and excise tax levied on consumers, and property tax on owner-occupied housing) and business taxes (sales tax on business intermediate goods and investment purchases, corporate income tax, and other property tax). The amount and distribution of business taxes shifted to Maine residents is especially uncertain because the estimates rely on strong assumptions.

[1] The Congressional Budget Office uses the same approach except that their unit of analysis is the household rather than the tax unit. See "the Congressional Budget Office, The Distribution of Household Income, 2017", October 2020.

[2] The discrepancy between individual income tax liability in Table 1 and Table 3 is due to several factors. First, model estimates include projections of amended returns and compliance efforts beyond the time period covered by Table 1. Second, certain policy changes after the model base year are not incorporated into the tax model. Third, the tax liability of dependents is included with their tax family in Table 3 and excluded from Table 1.

**Table 1: Distribution of Maine Income Tax by Maine Adjusted Gross Income for Maine Resident Returns, 2023**

*Deputy Secretary*

February 2021

The Honorable Larry Hogan
Governor
100 State Circle
Annapolis MD 21401-1991

The Honorable Bill Ferguson
President of the Senate
H-107 State House
State Circle
Annapolis MD 21401-1991

The Honorable Adrienne A. Jones
Speaker of the House
H-101 State House
State Circle
Annapolis MD 21401-1991

Dear Governor Hogan, President Ferguson, and Speaker Jones:

The Department of Budget and Management is required by law to prepare on a biennial basis a statement of the estimated amount by which exemptions from taxation reduce State revenues and revenues collected by local governments. These foregone revenues are often called "tax expenditures" since the same benefits could be distributed using budgeted expenditures instead of a tax provision. This report, which covers fiscal years 2019-2020, is intended to assist the Governor and General Assembly in their respective reviews of the advantages and drawbacks of the tax expenditures. I wish to acknowledge the individuals in the various tax-collecting agencies that contributed data and estimates for this report. Without their hard work and careful analysis, this report would not be possible.

If you have any questions regarding this report, please call 410-260-7041.

Sincerely,

David R. Brinkley
Secretary

* Excludes structural and incidental tax expenditures.

** Local governments bear a portion of this foregone revenue.

Note: Totals may not add due to rounding.

Section 7-117 of the State Finance and Procurement Article requires the Department of Budget and Management (DBM) to prepare in every other year a statement of the estimated amount by which exemptions from taxation reduce revenues. This requirement is the basis of Maryland's tax expenditure report.

## Classes of Tax Expenditures

For purposes of analysis, this report divides tax expenditures into three classes.

### "Structural" Tax Expenditures

There are some items that are so inextricably a part of a tax structure that it is not reasonable to consider repealing them without other major adjustments in the tax law. The regular personal exemptions and the standard deduction of the personal income tax are in this class. Structural tax expenditures are also distinct from categorical tax expenditures (see next section) in that they are generally available to all rather than to selected groups of taxpayers.

### "Categorical" Tax Expenditures

Most tax expenditures are classified as "categorical" expenditures. These are fairly narrow provisions that have an easily defined range of beneficiaries and a more or less discernable policy goal. In this report, these tax expenditures will be reported in two groupings. First, they will be grouped according to their primary beneficiary or purpose. Second, they will be reported again in order by tax.

### "Incidental" Tax Expenditures

Some tax provisions are in the code to solve administrative problems or to avoid double-taxation. If the expenditure exists to avoid excessive administrative burdens, it is likely that repealing the provision would add more to the cost of collecting the tax than it would generate in revenue.

### Local Effects

This report explicitly demonstrates the loss of State revenues. Special note should be made to the effect of state tax changes on local expenditures. The most important instance of this is the "piggyback income tax," an income tax that provides income tax revenue to local governments in Maryland but that is tied to the state income tax base and collected with the state income tax.

This tax is a major source of local government revenue in Maryland. In general, any tax expenditure from the individual income tax reduces total local revenue, on average, by roughly 60 percent of the amount it reduces state revenue. Tax expenditures due to income tax credits, other than the non-refundable earned income tax credit, only affect state revenues.

## Technical Notes

Estimating tax expenditures is an inherently imprecise business. The estimator has to count dollars of revenue that are not collected. In some cases, such as tax expenditures delivered through refunds or credits, one can measure the foregone revenue with some precision. In other cases, the tax expenditure involves an activity that is exempt from both taxation and reporting requirements, and one must use outside sources of data to estimate the volume. For many provisions, there is simply no basis for a reliable estimate.

This section focuses on a number of the most important issues in tax expenditure estimating and discusses how they are handled in the report.

### Measurement

The estimates in this report measure the difference between existing tax collections and what collections would be without the tax expenditures. Thus, the cost to the state from each tax expenditure is estimated as the revenue that the state would collect if the activity that is the subject of a special tax provision were taxed at the general rate.

### Difficulty from Attempting to Sum the Various Estimates

For a variety of reasons, the revenue effect of repealing two or more tax expenditures simultaneously may be more or less than the sum of the individual tax expenditure estimates.

There may be overlap between two tax expenditures. The income tax credit for earned income of individuals below the poverty level benefits many of those eligible for the earned income credit. If either one were repealed, the other provision would "catch" much of the income affected. If both were repealed, the revenue gain would be much larger than the sum of the two individual estimates.

In some cases, changing one tax expenditure will affect other tax revenues. For example, real estate taxes paid are an itemized deduction under the income tax. Eliminating a tax expenditure in the property tax that would increase these deductions would also reduce income tax revenues. The estimates in this report do not include the effects from these interactions.

### Data Sources

Administering agencies are the principal source for estimates of tax expenditures from the tobacco and alcoholic beverage taxes, the property tax, motor-vehicle taxes and fees, the excise tax on vessels and the insurance premium tax. The Bureau of Revenue Estimates assists with the sales tax, the individual and corporation income taxes and the property transfer tax, and the Department of Budget and Management prepares the balance of estimates from other data sources.

## Notes on Particular Taxes

### Individual Income Tax

The starting point for calculating the Maryland individual income tax is federal adjusted gross income (FAGI). Some provisions of the federal tax code make FAGI less than total "economic income" – the full value of all income received by the taxpayer. Examples include the exclusion from FAGI of public assistance benefits and employee fringe benefits. The revenue foregone by the federal government as a result of these exclusions is counted as tax expenditures for federal purposes. The state component of such foregone revenue could be considered a state tax expenditure. However, this report does not include estimates of such tax expenditures. There is a conceptual difficulty in separating the effect of the standard deduction from itemized deductions since for many taxpayers the standard deduction represents an alternative to itemized deductions. In this report, the standard deduction is considered a "structural" tax expenditure, while individual itemized deductions are considered "categorical" tax expenditures.

### Sales Tax

Maryland's sales tax base includes most tangible goods, as well as a few enumerated services. Some goods are specifically exempt from the tax as are certain purchasers of these items, for example, governments, charitable organizations, etc. The list of tax expenditures enumerates these exemptions.

**Corporate Income Tax**

The only tax expenditures from the corporate income tax reported here result from subtractions from income allowed in state law and the several state income tax credits.

**Property Tax**

Estimates of property tax expenditures include only the impact of exclusions on the state property tax. In general, exclusions from the state tax base are also exclusions from the local tax base, so the state tax expenditures are accompanied by local tax expenditures. The amount of the local tax expenditures depends on the tax rate set by each local government. Property tax credits are not included in this report since funds required to pay those credits are appropriated through the regular budget process.

**Admissions and Amusement Tax**

These tax expenditures affect only local revenues, and are adopted by local governments. For these reasons, admissions and amusement tax expenditures are not catalogued in this report.

## Detail of Tax Expenditures by Function
## ($ millions)

| | FY 2019 | FY 2020 | FY 2021 | FY 2022 |
|---|---|---|---|---|
| **I. Structural Tax Expenditures** | | | | |

While taxes are an essential source of revenue for all state governments, the manner in which they are imposed varies widely from state to state. In its simplest form, a tax is an across-the-board levy on a base, such as income, to which a specific rate applies and for which no modifications exist. Taxes are rarely levied in this manner, however. Instead, most state tax codes incorporate a number of exemptions, deductions, credits, and deferrals designed to encourage certain taxpayer activities or to limit the tax burden on certain types of individuals or endeavors. Known as "tax expenditures", these provisions can have a significant impact on state tax revenues.

This document offers a summary of the tax expenditures affecting the taxes from which Massachusetts derives the bulk of its revenues: the personal income tax, the corporate excise and other business excises, and the sales and use tax. It also provides revenue estimate for each tax expenditure, as mandated by Massachusetts state law. Organized into five separate sections, this study analyzes all aspects of Massachusetts tax expenditures. Part I contains a detailed explanation of how we identify and estimate the costs of tax expenditure provisions in the tax code. In the next sections (Parts II - IV), we have provided detailed information about each of the three major tax types, including an explanation of how each tax is calculated and the ways in which that tax's basic structure is modified to produce the various types of tax expenditures. The tax expenditures for each tax are listed after the description of the tax.

Following the expenditure listings, Part V provides four appendices. The first lists recent law changes which affect this year's tax expenditure budget; the second is a glossary that defines terms used throughout the text; the third gives five-year tax expenditure estimates that are consistent with our most recent estimation methodology; and the fourth appendix is used for items that no longer qualify as tax expenditures due to legislative changes but are estimated for the purpose of comparisons to prior reports. In reviewing this document it is important to remember that although a tax expenditure represents a deviation from the generally agreed-upon, or basic, structure of a given tax, determining whether a provision is a tax expenditure is not the same as making a judgment about its desirability. An element of the basic structure of a tax can be inequitable or have undesirable economic effects, just as a tax expenditure can. If so, it can be changed by legislative action just as a tax expenditure can.

The estimates of the costs of tax expenditures included in this volume are revised annually. As improved methodologies and data become available over the course of the year, some estimates may be reexamined and occasionally revised.

## What Are Tax Expenditures?

Tax expenditures are provisions in the tax code, such as exclusions, deductions, credits, and deferrals, which are designed to encourage certain kinds of activities or to aid taxpayers in special circumstances. When such provisions are enacted into the tax code, they reduce the amount of tax revenues that may be collected. Massachusetts General Laws (MGL), Ch 29, Sec 1 as modified by the Ch. 165 of the Acts of 2012 (section 112) defines *tax expenditures* as

> *"state tax revenue foregone as a direct result of any general or special law which allows exemptions, deferrals, deductions from or credits against taxes imposed on income, businesses and corporations, financial institutions, insurance and sales but excluding revenue foregone as a direct result of any general or special law which allows a personal income tax exemption. Sales that do not involve tangible personal property shall not result in tax expenditures under this definition."*

In this sense, the fiscal effects of a tax expenditure are just like those of a direct government expenditure. Some tax expenditures involve a permanent loss of revenue, and thus are comparable to a payment by the government; others cause a deferral of revenue to the future, and thus are comparable to an interest-free loan to the taxpayer. Since tax expenditures are designed to accomplish certain public goals that otherwise might be met through direct expenditures, it seems reasonable to apply to tax expenditures the same kind of analysis and review that the appropriations budget receives.

It is essential to distinguish between those provisions of the tax code that represent tax expenditures and those that are part of the "basic structure" of a given tax. The basic structure is the set of rules that defines the tax; a tax expenditure is an exception to those rules. In general, most taxes have a series of features that define their basic structure. These features are:

1. A base, on which the tax is levied, such as net income, or a particular class of transactions;
2. A taxable unit, such as a person or a corporation;
3. A rate, to be applied to the base;
4. A definition of the geographic limits of the state's exercise of its tax jurisdiction; and
5. Provisions for the administration of the tax.

## Defining the Basic Tax Structure

A tax expenditure is a deviation from the generally agreed-upon, or basic, structure of a given tax. For example, the base of the sales tax includes all retail sales to final consumers. The exemption for sales of energy conservation equipment is an exception, created to encourage purchases of such equipment. The sales tax that is not collected because of the existence of this exemption is tax expenditure.

While this general definition seems straightforward enough, the task of compiling a comprehensive list of tax expenditures presents many conceptual problems. For example, some of the deductions and exemptions allowed under the tax statutes are not tax expenditures. The broad category of income tax deductions allowed for business expenses is not listed as tax expenditure. Since the income tax is generally considered to be a tax on income net of the costs of producing that income, deductions for business expenses are taken against gross income and therefore occur prior to calculation of the tax base. In addition, tax provisions reflecting constitutional prohibitions, such as the prohibition on taxation of sales to the federal government, are considered parts of the basic tax structure and therefore are not properly considered tax expenditures. These distinctions are fairly simple, but more complex analytical questions quickly arise.

For example, deductions for the depreciation of property and equipment used in a trade or business are considered part of the basic tax structure because the use of productive assets is a legitimate cost of doing business. However, federal depreciation rules allow larger depreciation deductions in the early years of a property's useful life. These accelerated depreciation rules could be viewed as properly reflecting changing notions of obsolescence and thus as part of the basic tax structure; or the faster rates of depreciation could be considered a special adjustment in the tax base designed to provide an incentive for investment, and therefore a tax expenditure. Past federal tax expenditure budgets prepared by the Congressional Budget Office and versions prepared by the Treasury Department have disagreed on exactly this issue.

We have adopted the point of view that accelerated depreciation is tax expenditure. Although accelerated depreciation still allows the same total deduction for a piece of property; the rate of depreciation allowed in the early years is faster than would be permitted under traditional accounting principles. Generally, revenue cost estimates in this document for tax expenditures associated with accelerated depreciation rely on assumptions used in congressional federal tax expenditure analysis concerning ordinary depreciation rates.

We have chosen to view the rules for personal exemptions and for no tax status in the Commonwealth's personal income tax as provisions which help to define the income tax base, and thus as a part of the basic structure of the tax (much as the progressive rate structure of the federal income tax, which similarly reduces the tax burden on low-income people, is a part of its basic structure). The base of the tax is defined as net income above what is required for subsistence. Since personal exemptions help define the amount of income needed for subsistence, and therefore the base, they should not be classified as tax expenditures. According to this reasoning, exemptions allowed for dependents would also be considered part of the basic tax structure, since subsistence requirements increase with the size of the taxpayer's household. However, we note that this view of the tax structure does not always lead to easy conclusions. First, taxpayers are allowed exemptions for dependents even if those dependents have their own income and take personal exemptions for themselves. We have treated the use of the dependents' exemption as tax expenditure. Second, the fact that the no tax status amount is greater than the personal exemption suggests that the intent behind the no tax status and personal exemptions goes beyond simple definition of an income base. Although personal exemptions and the no tax status are not listed in this document as tax expenditures, estimates for the revenue losses associated with these provisions are provided in an endnote.

Many Massachusetts tax expenditures in the personal income tax and corporate tax derive from federal income tax rules and thus piggyback on many but not all, federal tax expenditures. We have chosen to include such tax expenditures in this tax expenditure budget, as Massachusetts generally has the ability legally to “decouple” from federal tax expenditures, and has done so in certain cases (e.g., bonus depreciation) from time to time. However, one can question whether federal tax expenditures should generally be included in the Massachusetts tax expenditure budget, because for the most part they simply reflect the fact that Massachusetts has generally chosen to incorporate much of the federal tax laws into the determination of Massachusetts taxable income for personal and corporate income tax purposes.

The sales tax presents the most difficult case. The sales tax statute and its legislative history indicate that the established base of the tax is all "retail" sales. At a minimum, the sales tax exemptions for business purchases of component parts and of products to be resold appear to be provisions that help define which sales are considered non-retail sales, and therefore should not be classified as tax expenditures. However, it is difficult if not impossible to decide which other sales tax exemptions might also cover non-retail sales. For example, manufacturing companies are allowed an exemption from the sales tax for purchases of machinery used in the production process. Since this machinery is not a direct component part of any product being manufactured and is not purchased simply to be resold, it could be argued that the machinery purchase is a retail sale and that the machinery exemption is a tax expenditure. Others would argue that because these purchases are not made by the final consumers of an end product, and because they represent legitimate business expenses, these sales tax exemptions should not be considered tax expenditures.

The largest proportion of Massachusetts tax expenditure dollars used to be sales and use tax expenditures. This was largely because of the exclusion (or non-taxation) of certain property and services (other than telecom) from sales and use taxation. The Center on Budget and Policy Priorities’ tax expenditure survey report indicates that items such as non-taxation of services, which are so-called “implicit tax expenditures”, should be included in the tax expenditure budget. They also report that about 19 states have such items in their annual tax expenditure reports (https://www.cbpp.org/research/state-budget-and-tax/promoting-state-budget-accountability-through-tax-expenditure). This provides a means of quantifying the cost of not taxing most services, and allows for comparison with other states that do apply their sales and use tax to various types of specified services. However, in July 2012 legislation was enacted stating explicitly that “sales that do not involve tangible personal property shall not result in tax expenditures”. See St 2012, c.165, §112. Pursuant to this legislation, from fiscal year 2014 on, we remove some items, including non-taxation of services, from our tax expenditure estimates, which we regularly reported in prior years. But to facilitate comparison to tax expenditure estimates in prior years, we list these items in Appendix D.

As stated in the introduction, the most important thing to remember is that making a judgment about whether a provision is tax expenditure is not the same as making a judgment about its desirability. With this in mind, we have attempted to provide more rather than fewer tax expenditure estimates, so that necessary information is available for those charged with making policy judgments.

## Description of the Data

This budget should be considered part of an ongoing effort to list tax expenditures, describe their characteristics, and estimate their revenue costs. Each year, we attempt to improve upon the analysis presented in the prior year's tax expenditure budget. For purposes of comparison, we have provided an appendix containing updated tax expenditure estimates for the past four years as well as for Fiscal Year 2026.

Information collected by the Department of Revenue (DOR) from Massachusetts tax returns was an important source of data in this budget. Estimates made from these data tend to be the most reliable. Unfortunately, many tax expenditures cannot be estimated from DOR records. When a particular category of income is excluded from taxation, amounts often do not appear on tax records. This is especially likely to be the case for those tax expenditures brought about by "coupling" the state tax code to the federal code, since exclusions and some deductions are not reported explicitly, but are simply carried over to state tax calculations as part of the reporting of federal income. In such cases we have had to estimate a Massachusetts figure using national tax data, census information, sales statistics, and other information.

You will note that in several cases, this year's tax expenditure estimates are very different from last year's. Revisions to the estimates occur for four reasons: we have new data sources; federal tax expenditure estimates on which we rely have changed; we have refined our estimation methodologies; or changes in Massachusetts tax law have modified existing estimates. In a few instances, more than one of these factors operates to explain the difference. All estimates are projections forward from a base year (which varies depending on the availability of data) to Fiscal Year 2026.

We have incorporated the economic impacts of COVID-19 into our estimates for Fiscal Year 2020 and beyond, where practical. In addition, effective taxable year 2024 Massachusetts personal income tax will adhere to the Internal Revenue Code (“Code”) as amended on January 1, 2024.

## Data Limitations

There are some additional caveats that the reader should keep in mind when reading this budget. First, most revenue loss estimates have been made without taking into account how repeal of a provision might change taxpayer behavior. For example, if the sales tax exemption for a particular item were repealed, the item would become more expensive to consumers, so one would expect sales of that item to decline. The revenue gain from repealing the provision would be, therefore, somewhat less than if the level of sales for the affected items remained the same. On the other hand, some of the income not spent on that item might be spent on other taxable items. To the extent that consumers and businesses pay more taxes and have less income available for other purposes, the repeal of a tax expenditure might have much broader economic and revenue effects. Clearly, the full estimation of these effects demands extensive data which are not easily available.

Second, interactions among different taxes and tax expenditures may be quite complex. Repealing some tax expenditures may increase or decrease the value of others. For example, increasing the no tax status amount would mean that fewer people would pay taxes, and thus fewer people would claim other exemptions. This would reduce the revenues lost through other exemptions. Therefore, the combined cost of several tax expenditure items may be different from the total of the cost of the separate tax expenditure items.

Third, the revenue cost estimates do not generally reflect compliance factors that may significantly reduce revenues available from tax expenditure repeal. In particular, where Massachusetts tax provisions are "coupled" with federal tax rules, audits of Massachusetts taxpayers generally compare state and federal returns. If Massachusetts tax provisions were "decoupled", taxpayers would have to make separate calculations for Massachusetts tax purposes, and these provisions would require special audit procedures. Compliance difficulties would certainly result.

And fourth, particular caution is appropriate with respect to the tax expenditure budget's totals for expenditures for particular taxes. Not only do these totals reflect the imprecision of the specific estimates, but they also omit those items for which no estimates were available. In consequence, particular totals may be substantially understated. At the same time, included in the totals, particularly with regard to the sales tax, are a number of substantial items that many analysts would not regard as tax expenditures, but rather as features of the underlying tax itself. The general approach in preparing the tax expenditure budget has been to count questionable items as tax expenditures, so that information concerning them would be available for analysis. The result is that the totals are higher than they would be under a more restrained analytic approach.

## Reading the Budget

In this document, tax expenditures and cost estimates are listed according to the taxes to which they pertain: personal income, corporate excise, and sales and use. Note that the corporate section of the Tax Expenditure Budget includes other business excises along with the corporate excise. These additional business excise taxes are the financial institution excise, the public utility excise, which was repealed effective January 1, 2014, the excises on insurance companies, and the excise on security corporations. Each of the three major taxes includes an introductory section with a description of the tax, followed by a listing of the tax expenditures for that tax. Each tax expenditure item includes a brief description, the cost estimate, a statutory citation, and an indication of the tax expenditure's type. The various special excises on motor fuels, cigarettes, alcoholic beverages, etc. are not covered in this budget.

## Note on the impact of Federal Law changes

Recent federal law changes have impacted tax expenditures. On December 22, 2017, Public Law 115-97, commonly known as the Tax Cuts and Jobs Act (TCJA) was signed into law. On March 27, 2020, Public Law No. 116-136, the federal “Coronavirus Aid, Relief and Economic Security Act,” also known as the CARES Act was signed into law. Most recently, the Federal Consolidated Appropriations Act, 2021 and the American Rescue Plan Act of 2021 were enacted. These Acts provide federal changes to a variety of provisions in the Internal Revenue Code (“Code”) that affect the personal income tax and corporate & business excise tax.

As mentioned, Massachusetts updated the year for which it adheres to federal personal income tax law, and follows the IRC as of January 1, 2024, but does not adopt any federal personal income tax law changes incorporated since. However, specific Massachusetts personal income tax provisions, as set forth in MGL Ch. 62, § 1(c), automatically conform to the current IRC. See Appendix A of Fiscal Year 2025 TEB.

For corporate and business tax regulations, in general, Massachusetts adopts federal tax expenditure items. For tax expenditure that are newly created or significantly altered, these changes are discussed in detail in Appendix A.

Note that where Massachusetts automatically conforms to federal changes, existing tax expenditures in the state’s Tax Expenditure Budget (TEB) that are calculated based on federal estimates will reflect the impact of those changes.

While we have incorporated federal tax law changes into this year’s budget wherever possible, some of more recent changes may not have been reflected. DOR will continue to review the impacts of the federal tax law changes and will incorporate those impacts into future TEB reports as necessary.

Although income from professions, trades or employment was taxed throughout the nineteenth century under the local property tax, it was not until 1916, under the authority of Article 44 of the Amendments to the Massachusetts Constitution, that the Massachusetts personal income tax was enacted as a separate tax. Because Article 44 requires that all income of the same class be taxed at the same rate, Massachusetts applies a flat tax rate regardless of total income; the federal tax structure (and that used in most states) uses graduated rates.

Generally, the Massachusetts personal income tax ties into the federal Internal Revenue Code as it was on January 1, 2024; previously Massachusetts adhered to the 2022 Code. To the extent that the Massachusetts tax takes federal law as its starting point, it adopts many federal tax expenditures (see the Fiscal Year 2024 TEB, Appendix A for more details).

The personal income tax is the state's largest revenue source, accounting for 59.1% of Department of Revenue tax collections in Fiscal Year 2024.

## Personal Income Tax: Basic Structure

**Tax Base:** The personal income tax base is gross income minus the costs of producing the gross income (trade or business expenses). Massachusetts gross income is defined as federal gross income with certain modifications. Effective January 1, 1996 it was divided into three classes: interest, dividends, and short-term capital gains ("Part A" income); long-term capital gains (“Part C” income); and all other income ("Part B" income). Massachusetts taxpayers are entitled to a basic personal exemption, which varies according to taxpayer status. The exempted amounts are considered to be outside the generally accepted tax base. They reflect the notion that income needed for bare subsistence should be free from tax. Thus, for the purposes of this document, these exemptions are not listed as tax expenditures. In addition, taxpayers whose income is below a specified level are entitled to "no tax status." For the same reason, this status is not listed as tax expenditure. On the other hand, because policy makers are often interested in the effects of adjusting the dollar amounts for the personal exemptions and the no tax status, estimates are provided for them in endnote 3 to item 1.405 in the list of personal income tax expenditures.

**Taxable Unit:** Individuals are taxed separately, with the exception of married couples, who may file a joint return. The income of children is not aggregated with that of their parents. The income of trusts, estates, and unincorporated associations is also subject to the personal income tax.

**Rate Structure:** The rate structure has been evolving to a system where most income is taxed at the Part B rate. Also, the Part B rate has been rolling back during years in which certain trigger levels of collections are met. The rate was 5.10% for tax years 2017 and 2018 but decreased to 5.05% for tax year 2019. It decreased further to 5.00% for tax year 2020 and remains at that level for 2021 and subsequent years. Currently, only short-term capital gains and long-term capital gains on collectibles are taxed at a different rate. The vast majority of income is linked to the Part B rate.

With the passage of a 2022 ballot initiative, referred to as “the millionaire’s tax”, beginning in taxable year 2023 an additional 4.0% tax (4% surtax) is levied on taxable income over $1.0 million, increased annually for inflation (surtax threshold). The 4.0% rate applies to taxable income amounts beyond this threshold, regardless of income type (i.e., Part A, B, or C). Due to time constraints, the additional income tax has not been factored into any relevant income tax expenditure estimates in the Fiscal Year 2026 TEB report.

**Historical Notes**
Prior to tax year 1999, the tax rate on interest and dividend income (one component of Part A income) was 12% compared with the Part B "earned" taxable income rate of 5.95%. Effective January 1, 2000, the rate on both Part B and the linked Part A income (Interest and Dividends) dropped to 5.85%, then to 5.60% on January 1, 2001, and to 5.30% on January 1, 2002. The rate was scheduled to decline to 5.00% on January 1, 2003; however, Chapter 186 of the Acts of 2002 ("An Act Enhancing State Revenues") delayed the final phase of the rate reduction. The tax rates on interest and dividend income and Part B income, declined to 5.25% for tax year 2012 and 2013, to 5.20% for tax year 2014, to 5.15% for tax year 2015, and to 5.10% for tax years 2016, 2017, and 2018. The rate was 5.05% for tax year 2019 and 5.00% for tax year 2020 and beyond. All other things being equal, a reduction in tax rates -- which are part of the basic tax structure -- has the effect of reducing the value of tax expenditures, because when tax rates decline, so does the value of any exceptions to that basic structure.

Of historical interest, between January 1, 1996 and January 1, 2003, Part C income (long-term capital gains), was subject to the following tax rates based on how long the assets were held:

| Holding Period | Tax Rate |
|---|---|
| more than one, but less than two years | 5% |
| more than two, but less than three years | 4% |
| more than three, but less than four years | 3% |
| more than four, but less than five years | 2% |
| more than five, but less than six years | 1% |
| more than six years | 0% |

Assets acquired prior to January 1, 1996 were deemed to have been acquired on the later of January 1, 1995 or the actual date of acquisition.

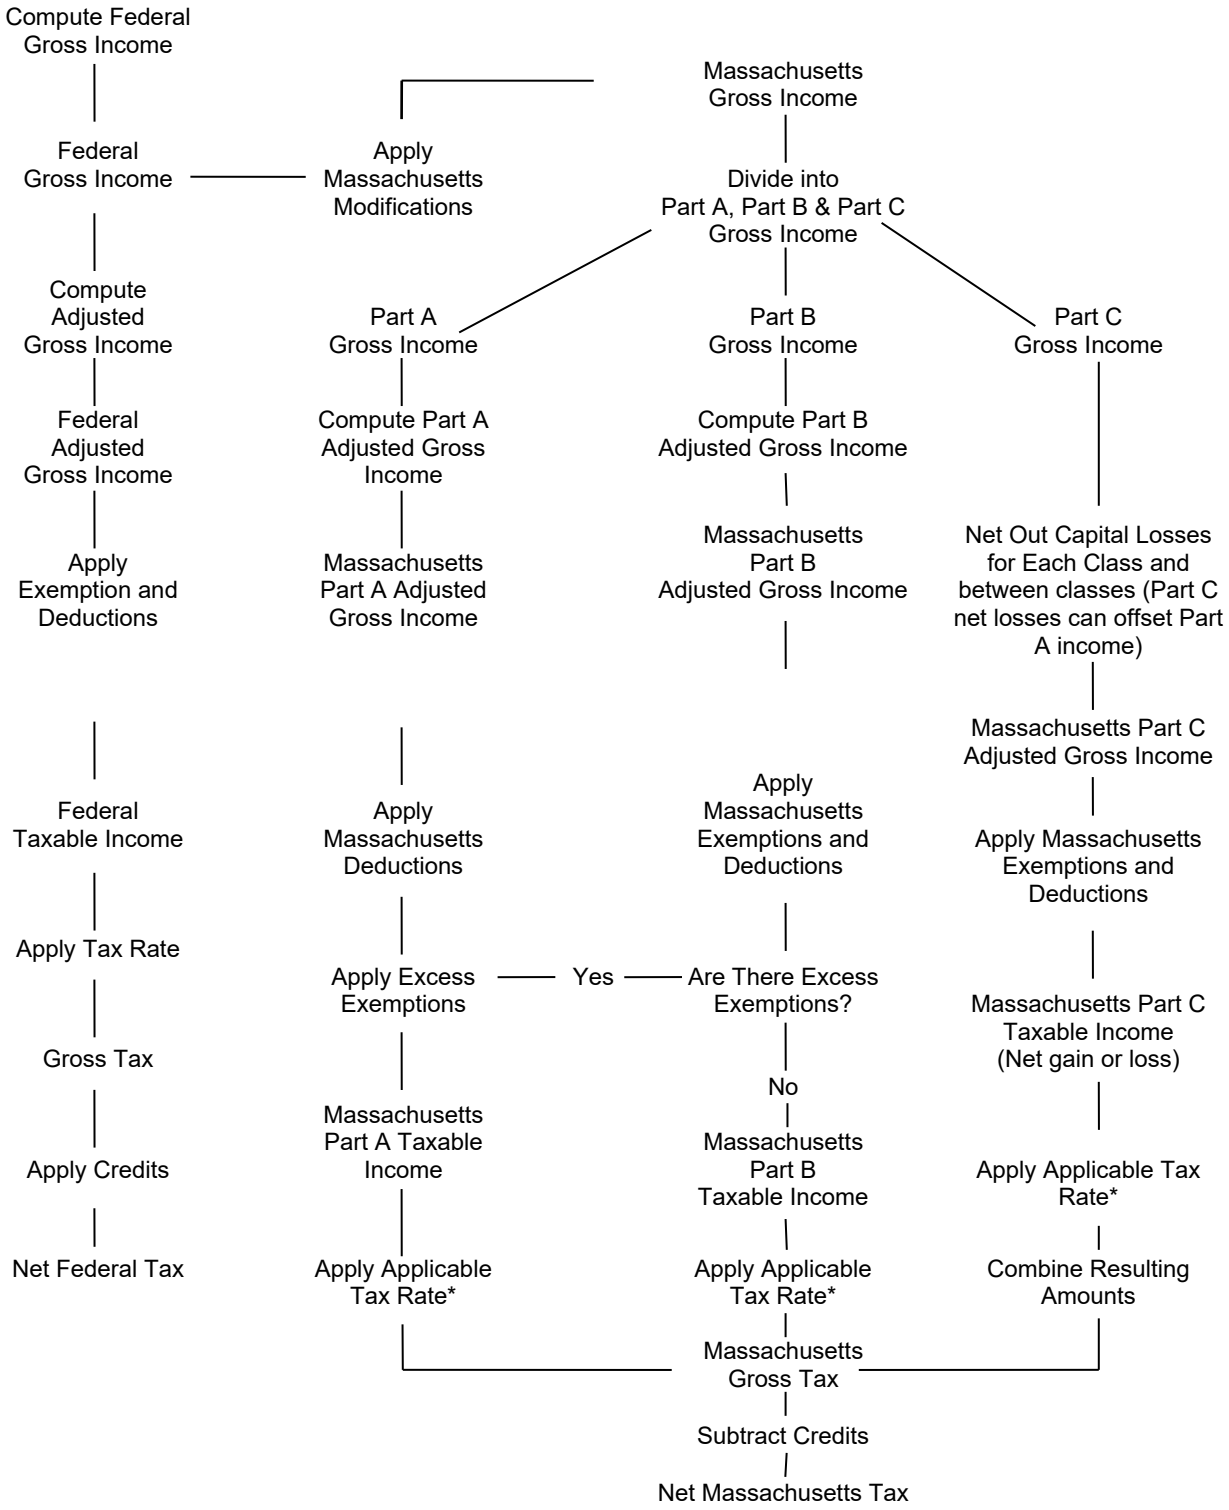
Chapter 186 of the Acts of 2002 eliminated the "sliding scale" treatment of capital gains on assets held for more than one year. This was originally effective May 1, 2002; subsequent legislation changed the effective date of the tax change to apply to assets sold on or after January 1, 2003. Gains on such transactions are now taxed at the Part B rate of 5.00% for tax year 2020 and beyond.

Note that capital assets held less than one year are considered Part A income; these short-term realizations were taxed at 12%. Effective January 1, 2023, the tax rate on gains from the sale of capital assets held for one year or less (short-term capital gains) is 8.5% and the tax rate on long-term gains from the sale of collectibles is still 12.0% (subject to a 50% deduction).

**Taxable Period:** The taxable period is one year (or less), usually the calendar year. Income may be reported according to the cash or accrual method. Where property is sold on a deferred payment basis, gains may be reported in the years the payments are received. There is no Massachusetts provision for income averaging. Net capital losses may be carried forward to future years. Ordinary losses may not be carried forward.

**Interstate and International Aspects:** Residents are taxed upon their entire income, whether derived from Massachusetts sources or elsewhere, without allocation or apportionment. Nonresidents are taxed only on income from sources within Massachusetts. A resident may take a limited credit against the Massachusetts income tax for income taxes due to other states, the District of Columbia, any territory or possession of the United States, or Canada or its provinces on any item of Massachusetts gross income.

## Computation of the Personal Income Tax



***** Beginning in taxable year 2023 an additional 4.0% tax is levied on the portion of taxable income that exceeds $1.0 million, which is adjusted for inflation annually.

## Types of Tax Expenditures under the Personal Income Tax

The basic structure of the personal income tax can be modified in a number of different ways to produce tax expenditures. Brief explanations of the various types of tax expenditures follow:

**Exclusions from Gross Income:** Gross income is the starting point in the calculation of income tax liability and, in the absence of tax expenditures, would include all income received from all sources. Typically, the taxpayer does not report items of income that are excluded from gross income on his or her tax return. Thus, they escape taxation permanently.

**Deferrals of Gross Income:** Where an item of income is not included in gross income in the year when it is actually received, but is instead included in a later year, the result is tax expenditure in the form of an interest-free loan from the state to the taxpayer in the amount of the tax payment that is postponed.

**Deductions from Gross Income:** Certain amounts are subtracted from gross income to arrive at adjusted gross income (AGI). Many of these deducted amounts reflect the costs of producing income (business expenses), and are not properly part of the income tax base. Such deductions are not tax expenditures. Other deductions that do not reflect business expenses constitute tax expenditures, which permit corresponding amounts of income to escape taxation permanently.

**Accelerated Deductions from Gross Income:** In a number of cases, taxpayers are allowed to deduct business expenses from gross income at a time earlier than such expenses would ordinarily be recognized under Generally Accepted Accounting Principles. The total amount of the permissible deduction is not increased, but it can be utilized more quickly to reduce taxable income. The result is to defer taxes, thus in effect occasioning an interest-free loan from the state to the taxpayer.

**Deductions from Adjusted Gross Income (AGI):** Taxable income results from the subtraction of certain deductions and exemptions from AGI. Certain of these subtracted items represent amounts of income necessary for subsistence; their exclusion is part of the basic structure of the income tax. Other subtracted items represent tax expenditures, which permit corresponding amounts of income to escape taxation permanently.

**Credits against Tax:** After a taxpayer's basic tax liability has been calculated by applying the tax rates to taxable income, the taxpayer may subtract certain credit amounts from this initial liability in determining the actual amount of taxes that must be paid. It is important to note that, whereas a one-dollar exclusion or deduction results in a tax savings of only a few cents (one dollar times the applicable tax rate), a one-dollar credit results in a one-dollar tax savings.

Note on Personal Exemptions, Dependent Exemptions, No Tax Status, and Limited Income Credit: These exempted amounts are considered to be outside the generally accepted tax base, and thus, for the purposes of this document, these exemptions are not listed as tax expenditures. However, because policy makers are often interested in the impact of adjusting their dollar amounts, estimates are provided for them in a footnote following the “Credits against Tax” section.

## List of Personal Income Tax Expenditures

**1.000 EXCLUSIONS FROM GROSS INCOME**

1.001 Exemption of Premiums on Accident and Accidental Death Insurance[1]

Employer contributions for premiums on accident and accidental death insurance are not included in the income of the employee and are deductible by the employer.

Origin: IRC § 106

Estimate: Included in 1.004

1.002 Exemption of Premiums on Group-Term Life Insurance[1]

Due to Massachusetts' reliance on the Internal Revenue Code ("Code") for purposes of determining income, employer payments of employees' group-term life insurance premiums for coverage up to $50,000 per employee are not included in income by the employee.

Origin: IRC § 79

Estimate: $32.1

1.003 Exemption of Death Benefits and Interest on Life Insurance Policy and Annuity Cash Value

Due to Massachusetts' conformity with Internal Revenue Code (IRC) § 101, increases in the cash value of life insurance policies and annuities are not taxed until distributed to the policy holder. If the policy holder dies with the policy in force, the increase in value and the death benefit are excluded from income when paid to policy or annuity beneficiaries.

Origin: IRC § 101

Estimate: $442.7

1.004 Exemption of Employer Contributions to Accident and Health Plans and Certain Benefits Received[1]

Massachusetts conforms to the federal individual income tax exclusions for: (i) employer contributions to employees' accident and health plans and (ii) benefits received by employees from such plans.

Origin: M.G.L. c. 62, §§ 1(c), 1(d), and § 2(a)(2)(Q); Code §§ 105 and 106

Estimate: $1,627.3

1.005 Exemption of Annuity or Pension Payments to Fire and Police Personnel

Income from noncontributory annuities or pensions to certain retired fire and police personnel or their survivors are tax-exempt.

Origin: M.G.L. c. 32

Estimate: N.A.

1.006 Exemption of Distributions from Certain Contributory Pension and Annuity Plans[2]

Income from contributory pensions of the U.S. and Massachusetts governments, including their agencies and political subdivisions, is excluded from Massachusetts gross income.

Origin: M.G.L. c. 62, §§ 2(a)(2)(E)

Estimate: $528.8

1.007 Exemption of Railroad Retirement Benefits

Railroad Retirement benefits are excluded from Massachusetts gross income.

Origin: M.G.L. c. 62, § 2(a)(2)(H)

Estimate: $1.6

1.008 Exemption of Public Assistance Benefits

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, public assistance benefits are excluded from gross income.

Origin: IRC § 61(a)(1); Rev. Rul. 71-425, 1971-2 C.B. 76

Estimate: $1,734.3

1.009 Exemption of Social Security Benefits

Social Security benefits are excluded from Massachusetts gross income.

Origin: M.G.L. c. 62, § 2 (a)(2)(H)

Estimate: $658.9

1.010 Exemption of Workers' Compensation Benefits

Due to Massachusetts' reliance on the Internal Revenue Code ("Code") for purposes of determining income, amounts received under workers' compensation acts as compensation for personal injuries or sickness are excluded from gross income.

Origin: IRC § 104 (a)(1)

Estimate: $54.5

1.011 Exemption for Dependent Care Expenses[1]

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, dependent care assistance provided by employers to employees is excluded from Massachusetts gross income.

Origin: M.G.L. c. 62, §§ 1(c), 1(d), 2(a); Internal Code § 129

Estimate: $5.7

1.012 Exemption of Certain Foster Care Payments

Massachusetts conforms to the federal income tax exclusion for payments by state and local social services agencies to taxpayers that provide foster care to children in need.

Origin: IRC § 131

Estimate: $3.9

1.013 Exemption of Payments Made to Coal Miners

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, amounts received by coal miners or their survivors as compensation for disability or death from black lung disease are excluded from Massachusetts gross income.

Origin: IRC § 104(a)(1); Rev. Rul. 72-400

Estimate: Negligible

1.014 Exemption of Rental Value of Parsonages[1]

Massachusetts conforms to Internal Revenue Code (the "Code") § 107, which allows ministers to exclude from gross income a housing allowance or the rental value of a parsonage furnished as part of their compensation. As defined in Internal Revenue Service pronouncements and federal case law, the term "minister" includes people holding various titles in a variety of religious organizations.

Origin: M.G.L. c. 62, §§ 1(c), 1(d), and § 2(a); Code § 107

Estimate: $4.5

1.015 Exemption of Scholarships, Fellowships, and Tuition Reductions

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, qualifying scholarships, fellowship grants, and tuition reductions are excluded from Massachusetts gross income.

Origin: IRC § 117(a), (d)

Estimate: $55.5

1.016 Exemption of Certain Prizes and Awards

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, prizes for achievements in specified fields and certain cash payments received for participating in the Olympics or Paralympics are excluded from Massachusetts gross income.

Origin: IRC § 74

Estimate: $3.5

1.017 Exclusion of Payments Received Under Government Conservation, Reclamation and Restoration Programs

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, property owners may exclude from income certain payments they receive for participating in designated conservation, reclamation, and restoration programs.

Origin: IRC § 126

Estimate: $0.4

1.018 Exclusion from Employee Income of Meals and Lodging Furnished for the Convenience of the Employer[1]

This tax expenditure provides employees with an income exclusion for the value of meals and lodging provided by their employers for the employers' business purposes. Massachusetts conforms to the exclusion set out in the Internal Revenue Code (the "Code"), which results in a state tax expenditure.

Origin: M.G.L. c. 62, § 2(a)

Estimate: $75.8

1.019 Exclusion from Employee Income of Business-Related Meals and Entertainment[1]

Provides an income exclusion for the value of business-related meals and entertainment provided to employees, consistent with the federal exclusion.

Origin: M.G.L. c. 62, § 2(a)

Estimate: $32.4

1.020 Exemption of Income from the Sale, Lease, or Transfer of Certain Patents

Exempts from tax income from the sale or transfer of certain patents, or from the production of royalty or other income from property subject to such patents, for a period of five years. The patents must be issued to or applied for by a Massachusetts resident or a Massachusetts corporation, support energy conservation or alternative energy, and be approved by the commissioner of energy resources.

Origin: M.G.L. c. 62, § 2(a)(2)(G); M.G.L. c. 63, § 30.3

Estimate: Expired

1.021 Exemption of Capital Gains on Home Sales

Massachusetts conforms to the Internal Revenue Code (the "Code") § 121 exclusion from gross income for up to $250,000 of capital gain (or $500,000 if filing jointly) on the sale of a principal residence.

Origin: M.G.L. c. 62, §§ 1(c), 1(d), and § 2(a); Code § 121

Estimate: $429.2

1.022 Exemption for Capital Gains at Time of Death

Ordinarily, for federal income tax purposes, capital gains are taxed at the time appreciated property is transferred to a new owner. However, tax is not imposed on capital assets transferred by reason of the owner's death. Further, the new owner receives the assets with a new basis (i.e. the fair market value of assets at the time of decedent's death) rather than the same "carryover" basis of the decedent. Thus, the amount of appreciation that occurred while the decedent held the asset is never taxed. Massachusetts generally follows the federal rules for purposes of determining taxable capital gains. This conformity allows capital assets to escape the personal income tax to the extent of appreciation occurring prior to the decedent's death, resulting in a state tax expenditure. Comment: See also item 1.106

Origin: IRC §§ 1001 and 1014

Estimate: $915.0

1.023 Exemption of Interest from Massachusetts Obligations

Interest earned on Massachusetts state and local obligations is exempt from the personal income tax. The exemption applies to interest income from any obligation issued by the Commonwealth, any political subdivision of the Commonwealth, or any agency or instrumentality thereof.

Origin: M.G.L. c. 62, § 2 (a)(1)(A); IRC § 103

Estimate: $87.7

1.024 Exemption of Benefits and Allowances to Armed Forces Personnel[1]

Due to its reliance on the Internal Revenue Code (Code) for purposes of determining income, Massachusetts excludes several benefits to members of the armed services, including, under IRC § 112 (i) compensation earned by members of the Armed Forces serving in a combat zone and (ii) income received by such individuals who were hospitalized as a result of injury incurred while serving in a combat zone, and under IRC § 134, certain qualified military benefits, such as certain medical and disability benefits, moving allowances, dependent care assistance, and certain travel benefits.

Origin: IRC §§ 112, 134

Estimate: $17.4

1.025 Exemption of Veterans' Pensions, Disability Compensation and G.I. Benefits

Federal law provides that amounts received as veterans' disability pensions, disability compensation and G.I. benefits are exempt from federal and state taxation. Massachusetts is thus not permitted to tax such amounts.

Origin: 38 U.S.C. § 5301

Estimate: $69.5

1.026 Exemption of Military Disability Pensions

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, amounts received as military disability pensions are excluded from gross income.

Origin: M.G.L. c. 62, § 1(c); IRC §§ 104(a)(4) and (5), and IRC §§ 104 (b)

Estimate: $0.8

1.027 Exemption of Compensation to Massachusetts-Based Nonresident Military Personnel

Nonresident servicemembers are not subject to personal income tax on compensation for active-duty military service, even if the service is performed in Massachusetts.

Origin: M.G.L. c. 62, § 5A(c)

Estimate: $12.8

1.028 Exemption for Taxpayers Killed in Military Action or by Terrorist Activity

Certain individuals that died as a result of injuries sustained in (i) military service in a combat zone, (ii) military or civilian service in a military action or terrorist attack, or (iii) specified terrorist attacks on civilians are exempted from the Massachusetts personal income tax, subject to certain limitations. The Massachusetts exclusion parallels a similar federal exclusion.

Origin: M.G.L. c. 62, § 25; IRC, § 692.

Estimate: Neglible

1.029 Exemption for Retirement Pay of the Uniformed Services

Income from U.S. military pensions is excluded from Massachusetts gross income. Such pensions are those derived from service in the Army, Navy, Air Force, Marine Corps, Space Force, Coast Guard, and the Commissioned Corps of the Public Health Service and National Oceanic and Atmospheric Administration. Note that income from such pensions is subject to the federal income tax.

Origin: M.G.L. c. 62, § 2(a)(2)(E); St.1997, c. 139, s. 1

Estimate: $24.6

1.030 Exclusion from Gross Income of Parking, T-Pass and Vanpool Fringe Benefits

Massachusetts conforms to the federal tax exclusion for employer-provided parking, transit passes, and vanpool benefits provided under the Internal Revenue Code (the "Code"). In 2023, the Massachusetts and federal exclusions are subject to monthly maximums of $300 for parking and $300 for combined transit pass and vanpool benefits. The Massachusetts exclusion amount was different than the federal exclusion amount in prior years because prior to 2022 the state relied on the federal exclusion amounts determined under the 2005 Code.

Origin: M.G.L. c. 62, §§ 1(c), 1(d), and § 2(a); Code § 132(f)

Estimate: $59.6

1.031 Health Savings Accounts

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, eligible contributions to, earnings in, and qualified distributions from health savings accounts (HSAs) are not subject to the personal income tax.

Origin: M.G.L. c. 62, §§ 1(c), 1(d), and 2(d)(1); IRC § 223

Estimate: $61.1

1.032 Employer-Provided Adoption Assistance

Massachusetts adopted the federal exclusion for employer-provided adoption expenses paid (or treated as paid under IRC sec. 137). Previously, Massachusetts followed the 2005 Code and as such the exclusion had a sunset after 2010. With the recent update to the Code as of January 1, 2022, Massachusetts this expenditure has been restored.

Origin: IRC § 137

Estimate: $2.5

1.033 Employer-Provided Educational Assistance

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, certain employer payments for employee education and training assistance are excluded from employee gross income.

Origin: M.G.L. c. 62, § 1(c); Code §§ 127 and 132(j)(8)

Estimate: $13.7

1.035 Department of Defense Homeowners Assistance Plan

Due to Massachusetts' reliance on the Internal Revenue Code (Code), Massachusetts adopts the federal exclusion for qualified military base realignment and closure fringe benefits paid by the Department of Defense (DOD) to military personnel, eligible civilian personnel, or their spouses. Such benefits are intended to compensate such individuals for reductions in the fair market value of their homes that result from having to move due to base closures or injury related to military service.

Origin: M.G.L. c. 62, § 1(c) ; IRC § 132 (a)(8), (n); 42 U.S. Code § 3374

Estimate: $0.2

1.036 Survivor Annuities of Fallen Public Safety Officers

For both Massachusetts and federal tax purposes, an exclusion from income is allowed for amounts paid under a governmental plan as an annuity to the survivor of a public safety officer killed in the line of duty. Massachusetts adopts the federal exclusion as amended and in effect on January 1, 2005, that excludes these annuities.

Origin: IRC § 101(h)

Estimate: N.A.

1.037 Survivor Annuities of Fallen Astronauts

Massachusetts adopts the federal exclusion for death benefits paid by the U.S. government to the survivors of astronauts who die in the line of duty. The Massachusetts exclusion is effective for payments made on or after January 1, 2005.

Origin: IRC § 101(i)

Estimate: N.A.

1.039 Discharge of Indebtedness for Health Care Professionals

Massachusetts adopts the federal exclusion for discharges of indebtedness related to certain costs for students entering health care professions.

Origin: M.G.L. c. 62, § 2; IRC § 108(f)(4)

Estimate: $1.2

1.040 Archer Medical Savings Accounts

Due to Massachusetts' reliance on the Internal Revenue Code ("Code") for purposes of determining income, eligible contributions to, earnings in, and qualified distributions from Archer medical savings accounts ("Archer MSAs") are not subject to the personal income tax.

Origin: M.G.L. c. 62, §§ 1(c), 1(d), and 2(d)(1); IRC § 220

Estimate: $0.2

1.041 Earnings of Pre-paid and Tuition Savings ("529" plans)

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, Massachusetts allows an income exclusion for amounts earned by pre-paid tuition programs and tuition savings accounts.. See TIR 18-14 for more information.

Origin: IRC § 529

Estimate: $37.3

1.042 Exclusion of Gains of Qualified Small Business Stock (QSBS) Gain

For federal tax purposes Internal Revenue Code ("IRC") § 1202 allows individuals an income exclusion for gains derived from the sale of qualified small business stock ("QSBS"). Because Massachusetts generally follows the IRC as in effect in 2005 for personal income tax purposes, Massachusetts allows an income exclusion for 50% of such gains.

Origin: IRC § 1202

Estimate: $25.2

1.043 Exclusion of Alimony Payments Made

Due to Massachusetts' conformity with Internal Revenue Code (IRC) § 61, Massachusetts excludes from gross income alimony payments made pursuant to any divorce or separation instrument executed after December 31, 2018, and (ii) to any divorce or separation instrument executed before 2019 but modified after 2018 to expressly provide that alimony or separate maintenance payments are not deductible by the payer or includible in the gross income of the recipient.

Origin: IRC §§ 61(a)(8) and 62(a)(10)

Estimate: $7.0

1.044 Exclusion From Gross Income Of Discharged Qualified Principal Residence Indebtedness

Due to Massachusetts' conformity with IRC § 108(a)(1), Massachusetts excludes from gross income the discharge of qualified principal residence indebtedness. The maximum amount excludable from Massachusetts gross income as discharged qualified principal residence indebtedness is $750,000 ($375,000 if married filing separately)

Origin: IRC § 108(a)(1)(E)

Estimate: $0.3

1.045 Exclusion From Gross Income Of Amounts Received Under The Work Colleges Program

Due to Massachusetts' conformity with IRC § 117(c)(2), Massachusetts allows an exclusion from gross income for amounts an individual receives from a comprehensive student work-learning service program at a work college.

Origin: IRC § 117(c)(2)

Estimate: $40.3

1.046 Exclusion Of Benefits Provided To Volunteer Firefighters And Emergency Medical Responders

Due to Massachusetts' conformity with IRC § 139B, a member of a qualified volunteer emergency response organization may exclude from gross income (i) any qualified state or local tax benefit provided on account of the member's services and (ii) qualified payments of up to $600 for the member's services. A "qualified volunteer emergency response organization" is any volunteer organization which is (i) organized and operated to provide

firefighting or emergency medical services, and (ii) is required to provide such services by a state or local government. A taxpayer may take a charitable deduction for expenses incurred in performing services as a member of a qualified volunteer emergency response organization only to the extent those expenses exceed the amount of the taxpayer's qualified payments excluded from federal gross income under IRC § 139B.

Origin: IRC § 139B

Estimate: $0.7

1.047 Exclusion From Gross Income Of Indian Healthcare Benefits

Due to Massachusetts' conformity with IRC § 139D, Massachusetts allows taxpayers to exclude from gross income the value of any qualified Indian health care benefit.

Origin: IRC § 139D

Estimate: $15.8

1.048 Exclusion From Gross Income Of Indian General Welfare Benefits

Due to Massachusetts' conformity with IRC § 139E, Massachusetts allows taxpayers to exclude from gross income general Indian welfare payments paid by Indian tribal government programs.

Origin: IRC § 139E

Estimate: $0.1

1.049 Exclusion From Gross Income Of Certain Amounts Received By Wrongfully Incarcerated Individuals

Due to Massachusetts' conformity with IRC § 139F, Massachusetts allows taxpayers to exclude from gross income amounts received as civil damages, restitution, or other monetary award relating to the wrongful incarceration of an individual.

Origin: IRC § 139F

Estimate: $0.1

**1.100 DEFERRALS OF GROSS INCOME**

1.101 Net Exemption of Contributions to Employee Stock Bonus Plans, Pensions, and Profit-Sharing Trusts[2]

Employee contributions to employee stock bonus plans, pensions, and profit-sharing trusts are not subject to the Massachusetts personal income tax when made, if requirements under federal pension law are met. Distributions from such plans are generally taxable when received. Where employee contributions are not eligible for an exclusion, the distributions from those plans are excluded up to the amount of previously taxed contributions. Massachusetts conforms to these federal rules. This results in a deferral of tax on contributions to such plans, or an exclusion from tax on distributions, both of which constitute a state tax expenditure.

Origin: IRC §§ 401-415; M.G.L. c. 62, §§ 2(a)(2)(F); 2(a)(3)(C); and M.G.L. c. 62, § 2(a)(1)(I).

Estimate: $1,349.2

1.102 Treatment of Incentive Stock Options

Massachusetts adopts the federal tax treatment of incentive stock options as provided in the Internal Revenue Code (the "Code") as amended on January 1, 2024. Under the federal rules, and therefore for Massachusetts purposes as well, no tax consequences result when employees are granted or exercise options to purchase company stock. Employees are taxed only when they sell the stock acquired through the exercise. This results in a deferral of tax for both federal and Massachusetts tax purposes which constitutes a tax expenditure.

Origin: M.G.L. c. 62 § 1(c) and (d); G.L. c. 62, § 2(a); Code§§ 421, 422, and 424

Estimate: $6.8

1.103 Exemption of Earnings on Stock Bonus Plans, Pensions or Profit-Sharing Trusts

Employee stock bonus plans, employee pension plans and employee profit-sharing plans are exempt from the Massachusetts personal income tax.

Origin: M.G.L. c. 62, § 5(b)

Estimate: $1,683.5

1.104 Exemption of Earnings on IRAs and Keogh Plans[2]

Massachusetts exempts the earnings of IRAs and Keogh plans from the personal income tax until the earnings are distributed. Distributions of earnings from Roth IRAs may be exempt if the account is held for at least 5 years and certain additional requirements are satisfied. This is consistent with the federal tax treatment of such plans.

Origin: M.G.L. c. 62, § 5(b)

Estimate: $270.3

1.106 Exemption for Capital Gains at Time of Gift

Ordinarily, for federal income tax purposes, capital gains are taxed at the time appreciated property is transferred to a new owner. However, the tax on capital gains on property transferred by gift is deferred until the new owner sells the property. If the new owner dies holding the gifted property, the tax is never imposed (see TE 1.022). Massachusetts generally follows the federal rules for purposes of determining taxable capital gains. This conformity results in a deferral and potential exclusion of tax on capital gains and therefore constitutes a state tax expenditure.

Origin: IRC §§ 1001, 1015

Estimate: $31.9

1.107 Teacher's Expense Deduction

Due to Massachusetts' conformity with IRC § 62, teachers may deduct from their gross income unreimbursed, qualified expenses (e.g., expenses for books, supplies, and computer equipment used in the classroom; expenses incurred during qualified professional development courses). The deduction is limited to an inflation-adjusted amount. For the 2024 tax year, the deduction is limited to $300, and, if the educator is married and files a joint return with another eligible educator, the limit rises to $600 with not more than $300 deducted per spouse.

Origin: IRC § 62(a)(2)(D)

Estimate: $1.4

**1.200 DEDUCTIONS FROM GROSS INCOME**

1.201 Capital Gains Deduction for Collectibles

The expenditure provides a 50% deduction for long-term capital gains on the sale or exchange of collectibles.

Origin: M.G.L. c. 62, § 2(c)(3)

Estimate: $2.4

1.202 Deduction of Capital Losses Against Interest and Dividend Income

Taxpayers may deduct up to $2,000 of net capital loss against interest and dividend income.

Origin: M.G.L. c. 62, § 2(c)(2)

Estimate: $15.1

1.203 Excess Natural Resource Depletion Allowance

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, taxpayers in extractive industries such as mining or drilling for natural resources may deduct a percentage of gross mining income as a depletion allowance ("percentage depletion") without regard to their cost basis in the income producing property and may continue to claim the depletion allowance even after the cost of the property has been reduced to zero. This method of cost recovery is often more beneficial to taxpayers than the traditional cost recovery method applicable to natural resource property. For a more detailed description of this tax expenditure, see corporate excise item 2.204.

Origin: IRC §§ 611 and 613A; M.G.L. c. 62, § 2(d)(1)

Estimate: $0.4

1.204 Abandoned Building Renovation Deduction

A deduction is provided to corporations and individuals for 10% of the cost of renovating abandoned buildings in certain areas. The deduction is in addition to any other deduction available for the cost of such renovation. Thus, an additional deduction may be allowed for expenses already included in deductible business expenses or deductible depreciation.

Origin: M.G.L. c. 62, § 3(B)(a)(10)

Estimate: Negligible

**1.300 ACCELERATED DEDUCTIONS FROM GROSS INCOME**

1.301 Modified Accelerated Depreciation on Rental Housing

In general, taxpayers may recover the cost of durable business assets only by capitalizing the cost and claiming depreciation deductions over a period of years. This expenditure reflects Massachusetts' conformity with federal rules allowing for accelerated depreciation of new and used buildings placed in service as rental property.

Origin: IRC § 168(b)

Estimate: $23.4

1.303 Modified Accelerated Depreciation on Buildings (other than Rental Housing)

In general, businesses may recover the cost of durable business assets only by capitalizing the cost and claiming depreciation deductions over a period of years. This expenditure reflects Massachusetts' conformity with federal rules allowing for accelerated depreciation of nonresidential buildings.

Origin: IRC § 168

Estimate: $3.8

1.304 Modified Accelerated Cost Recovery System (MACRS) for Equipment

In general, businesses may recover the cost of durable business assets only by capitalizing the cost and claiming depreciation deductions over a period of years. Traditional financial accounting rules required the cost to be recovered pro rata over a set number of years. However, Massachusetts conforms to the Modified Accelerated Cost Recovery System (MACRS) set out in the Internal Revenue Code (the "Code"). MACRS allows more of the cost of the property to be deducted in the first few years of an asset's life, and relatively less later. MACRS also allows taxpayers to choose an alternative depreciation method that more closely conforms to traditional financial accounting rules. The use of the accelerated method instead of the alternative method results in a temporary reduction of tax in the earlier years of an asset's life, which constitutes a tax expenditure. The deferral of tax is analogous to an interest-free loan from the Commonwealth to taxpayers.

Origin: IRC § 168

Estimate: $31.9

1.305 Expense Deduction for First-Year Business Assets

Under the Internal Revenue Code (the "Code"), businesses may recover the cost of durable business assets only by capitalizing the cost and claiming depreciation deductions over a period of years. The Code adopts different depreciation schedules for specified classes of assets. Massachusetts follows the federal depreciation rules, with modifications. Code § 179 allows federal taxpayers to elect to claim an immediate expense deduction in the tax year during which the asset was first placed in service. Due to its conformity to the Code for determining business expense deductions, Massachusetts allows the Code § 179 deduction in the same amount as it is allowed for federal tax purposes. The tax expenditure is a result of such conformity. The immediate deduction of the cost of business assets constitutes a tax expenditure because it results in a deferral of tax.

Origin: IRC § 179

Estimate: $38.5

1.306 Election to Deduct and Amortize Business Start-up Costs

For federal tax purposes, taxpayers can immediately deduct startup costs that would otherwise have to be capitalized over a period of 15 years. Massachusetts conforms to the federal deduction, resulting in a state tax expenditure.

Origin: IRC § 195

Estimate: $1.4

1.308 Expensing Exploration and Development Costs

For federal tax purposes taxpayers can immediately deduct certain costs incurred in developing specified mineral deposits. Such costs would otherwise have to be capitalized and deducted over a period of years. The recovery period for capitalized items varies based on the nature of the costs and the type of mineral deposit. Massachusetts conforms to the federal deduction, resulting in a state tax expenditure.

Origin: Code §§ 193, 263(c), 616, 617; M.G.L. c. 63, §30.4.

Estimate: Neglible

1.309 Expensing Research and Experimental Expenditures in One Year

Prior to tax year 2022, for federal purposes taxpayers could elect to immediately deduct research and experimental expenditures that they would otherwise have had to capitalize and deduct over a period of 5 years. Starting with tax year 2022 all expenditures for research conducted in the U.S must be capitalized and deducted over 5 years. Expenditures incurred outside the U.S. must be capitalized and deducted over 15 years. Massachusetts generally conforms to the federal rules for deducting research and experimental expenditures. This conformity resulted in a Massachusetts tax expenditure for tax years prior to 2022.

Origin: IRC § 174

Estimate: Neglible

1.310 Five-Year Amortization of Pollution Control Facilities

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, taxpayers may elect to amortize the cost of a certified pollution control facility over a five-year period, potentially allowing for accelerated recovery of these costs. For a more detailed description of this tax expenditure, see corporate excise item 2.311.

Origin: IRC § 169; M.G.L. c. 62, § 2(d)(1)

Estimate: N.A.

1.311 Seven-Year Amortization for Reforestation

Due to Massachusetts' conformity to Internal Revenue Code (Code) § 194, taxpayers can elect to deduct up to $10,000 of forestation or reforestation expenditures in a taxable year, with excess amounts amortized over seven years. The election applies to both the personal income tax and the net income measure of the corporate excise. For a more detailed description of this tax expenditure, see corporate excise item 2.313.

Origin: IRC § 194; M.G.L. c. 62, §§ 1(c), 1(d), and 2(d); M.G.L. c. 63, § 30.4

Estimate: $0.2

1.312 Expensing Certain Capital Outlays of Farmers

This tax expenditure results from Massachusetts' conformity to the Internal Revenue Code (Code) with regard to the immediate deduction allowed to farmers for soil and water conservation expenses, prevention of erosion, endangered species recovery, and fertilizer costs. Such items might otherwise have to be capitalized and depreciated or amortized over a number of years.

Origin: IRC §§ 175, 180 and MGL c. 62, §§ 1, 2(d)(1); c. 63, § 30

Estimate: $0.1

1.313 Expenditures to remove architectural and transportation barriers to the handicapped and elderly

Massachusetts conforms to Internal Revenue Code ("Code") § 190, which allows taxpayers to elect an immediate deduction of up to $15,000 of expenses incurred in removing architectural or transportation barriers to the handicapped and elderly. The cost of an improvement to a business asset is normally a capital expense, which would normally have to be capitalized and deducted over a period of years. The accelerated deduction applies to the first $15,000 of expenses. Costs over that amount must be capitalized and deducted under the generally applicable depreciation schedules set out in the Code. Expenses eligible for the deduction include costs incurred in making a building or public transportation vehicle more accessible to people with disabilities and the elderly. Examples with regard to buildings include installing ramps, widening doors, modifying restrooms, and lowering counters to accommodate customers in wheelchairs. Examples with regard to vehicles include installing lifts for wheelchairs and modifying signage and public address systems to accommodate the visually or hearing impaired. The deduction is not available for costs incurred in completely renovating a building or vehicle or to the cost of replacing

depreciable property in the normal course of business. The immediate deduction of eligible expenses results in a deferral of tax. The deferral constitutes a Massachusetts tax expenditure.

Origin: M.G.L. c. 62, § (2)(d)(1)

Estimate: $0.2

**1.400 DEDUCTIONS FROM ADJUSTED GROSS INCOME**

1.401 Deduction for Employee Social Security and Railroad Retirement Payments

Taxes paid by employees to fund the Social Security and Railroad Retirement systems are deductible against "earned" income up to a maximum of $2,000 per individual. Comment: The estimate also covers item 1.402 below.

Origin: M.G.L. c. 62, § 3B(a)(3)

Estimate: $341.4

1.402 Deduction for Employee Contributions to Public Pension Plans[2]

Employee contributions to federal and state contributory pension plans are deductible against "earned" income up to a maximum of $2,000 per individual.

Origin: M.G.L. c. 62, § 3B(a)(4)

Estimate: Included in 1.401

1.403 Additional Exemption for the Elderly

A taxpayer age 65 or over is entitled to an additional exemption against "earned" income of $700 ($1,400 for a married couple filing jointly if both spouses are age 65 or over).

Origin: M.G.L. c. 62, §§ 3B(b)(1)(C), (1A)(C), and (2)(C)

Estimate: $34.3

1.404 Additional Exemption for the Blind

A blind taxpayer is allowed an additional exemption against "earned" income of $2,200 ($4,400 for a married couple filing jointly if both spouses are blind).

Origin: M.G.L. c. 62, §§ 3B(b)(1)(B), (1A)(B), and (2)(B)

Estimate: $0.6

1.405 Dependents Exemption Where the Child Earns Income[3]

Taxpayers are allowed an additional exemption of $1,000 for a dependent child even when the child earns income against which a personal exemption can be taken. Comment: The estimate cannot be separated from the figure for the dependents exemption in endnote 3.

Origin: IRC § 151(c) in effect January 1, 1988 and M.G.L. c. 62 § 3B(b)(3)

Estimate: N.A.

1.406 Deduction for Dependents Under 12

Individual taxpayers and married taxpayers filing jointly with one or more dependents under age 12, who do not claim the deduction for child care described in item 1.409 below, may claim this deduction. Filers with one dependent under 12 may deduct $3,600, while filers with two or more dependents under 12 may deduct $7,200.

Origin: M.G.L. c. 62, § 3B(a)(8)

Estimate: N.A.

1.407 Personal Exemption for Students Age 19 or Over

Massachusetts provides a $1,000 personal income tax exemption for each of a taxpayer's dependent children. Generally, the exemption is available for children aged 18 or under and qualifying relatives. That exemption is not treated as a tax expenditure. However, as a result of conformity with the federal definition of "dependent," the exemption is also available for children who are full-time students between the ages of 19 and 23. That portion of the exemption is treated as a tax expenditure.

Origin: IRC §§ 151-152; M.G.L. c. 62 § 3B(b)(3)

Estimate: $10.6

1.408 Deduction for Adoption Fees

Adoption fees paid to a registered adoption agency are deductible against Part B income.

Origin: M.G.L. c. 62, § 3B(b)(5)

Estimate: $0.3

1.409 Deduction for Business-Related Child Care Expenses

Taxpayers qualifying for the credit for employment-related childcare expenses in the Internal Revenue Code are allowed a deduction against "earned" income for the amount of the expenses that qualify for the credit. Beginning in tax year 2001, the cap on this deduction was increased, and the coverage expanded to include elderly and disabled dependents. The cap increased from $2,400 to $3,600 for filers with one dependent, and from $2,400 to $4,800 for filers with two or more dependents. Beginning in tax year 2002, the cap was further increased to $4,800 for qualifying filers with one dependent and to $9,600 for filers with two or more dependents. Comment: For federal tax purposes, the requirement that employment-related child care expenses relate only to children under age 15 was further restricted to children under age 13. In addition, a federal change now requires a taxpayer to include employer-provided dependent care expenses when calculating the limitation amount of qualifying expenses.

Origin: IRC § 21, and M.G.L. c. 62, § 3B(a)(7)

Estimate: N.A.

1.410 Exemption of Medical Expenses

Medical and dental expenses in excess of 7.5% of federal adjusted gross income are deductible against "earned" income for taxpayers who itemize deductions on their federal returns.

Origin: IRC § 213 and M.G.L. c. 62, § 3B(b)(4)

Estimate: $206.6

1.411 Rental Deduction

Renters may deduct one-half of the rent paid for a principal residence located in Massachusetts up to a maximum deduction of $3,000 per year. The deduction is available to all renters, regardless of age or income.

Origin: M.G.L. c. 62, § 3B(a)(9)

Estimate: $191.0

1.412 Nontaxation of Charitable Purpose Income of Trustees and Estates

Trusts and estates subject to the personal income tax an deduct trust or estate income that is currently payable to or irrevocably set aside for charitable purposes.

Origin: M.G.L. c. 62, §§ 3A(a)(2), 3B(a)(2), and 3C(a)(2)

Estimate: $15.9

1.413 Exemption of Interest on Savings in Massachusetts Banks

Up to $100 ($200 on a joint return) of interest from savings deposits or savings accounts in Massachusetts banks is deductible from gross income.

Origin: M.G.L. c. 62, § 2(b)(1)(A); M.G.L. c. 62, § 3B(a)(6)

Estimate: Expired

1.414 Tuition Deduction

A deduction is allowed for tuition payments made by taxpayers, for themselves or their dependents, for programs that would lead to a degree or certificate from a two or four-year college. The deduction is equal to the amount by which the net tuition payments exceed 25% of the filer's Massachusetts adjusted gross income.

Origin: IRC § 222; M.G.L. c. 62, § 3B(a)(11)

Estimate: $17.7

1.415 Charitable Contributions and Gifts

Corporations are permitted to deduct charitable contributions for purposes of determining the net income measure of the corporate excise. Beginning with 2023 tax years, individuals will be permitted to deduct contributions to § 501(c)(3) organizations for personal income tax purposes.

Origin: M.G.L. c. 62, § 3(B)(a)(13); IRC § 170

Estimate: $338.8

1.418 Deduction for Costs Involved in Unlawful Discrimination Suits

Massachusetts adopts the federal deduction for attorney fees and court costs paid to recover a judgment or settlement for a claim of unlawful discrimination, up to the amount included in gross income for the tax year from such claim.

Origin: IRC §§ 62(a)(20) and 62(e)

Estimate: N.A.

1.419 Business Expenses of National Guard and Reserve Members

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for determining employee business expense deductions, Massachusetts allows a personal income tax deduction for travel expenses incurred by National Guard and Armed Forces reserve members who must travel more than 100 miles from their homes to their assigned posts.

Origin: M.G.L. c. 62, § 2(d)(1); Code § 62(a)(2)(E)

Estimate: $1.6

1.420 Archer Medical Savings Accounts

Due to Massachusetts' reliance on the Internal Revenue Code ("Code") for purposes of determining income, eligible contributions to, earnings in, and qualified distributions from Archer medical savings accounts ("Archer MSAs") are not subject to the personal income tax.

Origin: M.G.L. c. 62, §§ 1(c), 1(d), and 2(d)(1); IRC § 220

Estimate: Negligible

1.421 Deduction for Clean-Fuel Vehicles and Certain Refueling Property

A deduction is allowed for a portion of the cost of qualifying motor vehicles that use clean-burning fuel placed in service on or before December 31, 2006. The deduction exists in Massachusetts because it was present in the Code as of 1/1/05. The federal deduction was repealed in 2014.

Origin: IRC §§ 62(a)(14) and 179A

Estimate: Expired

1.422 Health Savings Accounts

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, eligible contributions to, earnings in, and qualified distributions from health savings accounts (HSAs) are not subject to the personal income tax.

Origin: M.G.L. c. 62, §§ 1(c), 1(d), and 2(d)(1); IRC § 223

Estimate: $7.4

1.423 Commuter Deduction

(Note: item 1.423 was formerly the temporary Tuition and Fees Deduction). Individuals may deduct certain commuting expenses that exceed $150. Eligible expenses are limited to tolls paid through an EZ Pass account and the cost of weekly or monthly passes for Massachusetts Bay Transit Authority (MBTA) transit. Amounts that are reimbursed or are otherwise deducted are not eligible. The deduction is limited to $750 of such expenses per taxpayer. Joint filers may each deduct up to $750.

Origin: M.G.L. Chapter 62, § 3 (B) (a) (15)

Estimate: $19.5

1.424 Self-Employed Health Insurance Deduction

Due to Massachusetts' adoption of the trade or business expense deductions allowed under the Internal Revenue Code ("Code"), Massachusetts allows a deduction for health insurance expenses incurred by self-employed taxpayers.

Origin: IRC § 162(l), M.G.L. c. 62, §1(l), § 2(d)(1)

Estimate: $49.5

1.425 Deduction for Employer Payments of Employee Qualified Education Loans

Massachusetts allows two alternative deductions for student loan interest. The first is based on the deduction for student loan interest allowed under the Internal Revenue Code (Code). The Code allows a deduction of up to $2,500 of interest paid on loans used to pay for undergraduate or graduate education, subject to income limitations. The second deduction applies to interest on undergraduate student loans, which is not limited in amount and is not subject to income limitations. Taxpayers cannot take both deductions for the same interest payments.

Origin: M.G.L. c. 62, §§ 2(d)(1), 3B(a)(12); I.R.C. § 62(a)(17), § 221

Estimate: $17.5

1.426 Expenses of Human Organ Transplant

Resident individuals that donate specified organs to another person may deduct certain expenses relating to the donation on their personal income tax returns.

Origin: M.G.L. c. 62, § 3B(a) (16)

Estimate: Negligible

1.427 Prepaid Tuition or College Savings Plan Deduction2

A deduction against Part B income is allowed in an amount equal to 1) purchases of or 2) contributions made in a taxable year to an account in a pre-paid tuition program or a college savings program established by the Commonwealth or an instrumentality or authority of the Commonwealth. The deduction is capped at $1,000 for a single person or head of household and $2,000 for a married couple filing a joint return. The deduction originally applied to tax years beginning on or after January 1, 2017 through the tax year

beginning on January 1, 2021. The FY22 Budget amends St. 2016, c. 219, § 138 to eliminate the expiration, making the deduction permanent. See TIR 22-5 for further information.

Origin: G.L. c. 62, § 3.B(a) paragraph (19)

Estimate: $3.7

1.428 Gambling Loss Deduction

For tax years beginning on or after January 1, 2015 a deduction is allowed from Part B income for gambling losses incurred at certain licensed gaming establishments or "racing meeting licensee or simulcasting licensee" establishments but only to the extent of winnings from such establishments included in gross income for the calendar year. See TIR 15-14 and Schedule Y, line 17 for more information. The new gambling loss deduction is the only deduction for gambling losses allowed for a Massachusetts taxpayer, unless the gambling activities constitute a trade or business. See DD 03-3. Note that Massachusetts does not adopt the federal deduction under IRC § 165(d) for gambling losses.

Origin: Origin: G.L. c. 62, § 3.B(a) paragraph (18)

Estimate: $16.8

1.429 Moving Deduction

Filers who moved due to a change in their job or business location or to start a new job or business can deduct reasonable unreimbursed moving expenses if all of the following requirements are met: 1) The move was closely related to the start of work; 2) It meets a distance test; and 3) It meets a time test. Under the TCJA, a deduction for moving expenses is no longer allowed except for certain members of the Armed Forces; However, Massachusetts does not adopt this change. A deduction for moving expenses continues to be allowed if the above requirements are met as Massachusetts follows the Code as in effect as of January 1, 2024.

Origin: IRC § 217

Estimate: $1.3

1.430 Deduction for Student Loan Payment Assistance

For tax years beginning on or after January 1, 2023, employees may deduct employer payments of principal or interest on a qualified education loan during the taxable year that has not already been excluded from their federal gross income. The deduction is substantially identical to the federal exclusion from gross income provided by IRC § 127(c)(1), which Massachusetts follows as amended on January 1, 2022 and in effect for the taxable year. However, while IRC § 127(c)(1) is limited to $5,250 per employee and applies only to employer payments made before January 1, 2026, the new Massachusetts deduction is not subject to a dollar limit nor does it have a sunset date. Employees claiming the deduction may not claim any other deduction, such as for student loan interest, for the same amounts paid by their employer.

Origin: M.G.L. c. 62, § 3(B)(a)(20)

Estimate: $5.6

1.431 Whistleblower Attorneys' Fees Deduction

Due to Massachusetts' conformity with IRC § 62(a)(21), Massachusetts allows taxpayers to exclude from gross income attorney fees and court costs associated with whistleblower suits brought under the Securities Exchange Act of 1934, any state false claims act, or under the Commodity Exchange Act.

Origin: IRC § 62(a)(21)

Estimate: $1.6

**1.500 PREFERENTIAL RATE OF TAXATION**

1.501 Small Business Stock, Capital Gains Tax Rate

Gains derived from the sale of certain "qualified small business stock" ("QSBS") are eligible for a 50% income exclusion because of Massachusetts' conformity with section 1202 of the Internal Revenue Code (the "Code") as in effect in 2022. If it meets certain requirements, QSBS gain that is included in income is taxed at a rate of 3% instead of the generally applicable long-term gain rate of 5%.

Origin: IRC § 1202; M.G.L. c. 62, § 1,4(c)

Estimate: $0.1

**1.600 CREDITS AGAINST TAX**

1.601 Renewable Energy Source Credit

Provide homeowners and tenants a credit equal to 15% of the net expenditure for renewable energy source property or $1,000, whichever is less. The credit is limited to certain types of equipment used directly for the production of solar or wind energy for residential properties.

Origin: M.G.L. c. 62, § 6(d)

Estimate: $6.7

1.602 Credit for Removal of Lead Paint

A personal income tax credit is provided to defray the cost that property owners incur when removing, containing, or replacing paint, plaster, or other accessible structural materials containing dangerous levels of lead in residential buildings constructed prior to 1978. A smaller credit is available for partial removal, containment, or replacement of such materials, so long as the partial remediation meets statutory requirements.

Origin: M.G.L. c. 62, § 6(e)

Estimate: $6.4

1.603 Economic Development Incentive Program Credit

Under the provisions of the Economic Development Incentive Program (EDIP), the Economic Assistance Coordinating Council (EACC) may authorize taxpayers participating in certified projects to claim tax credits. To be eligible, a project must be certified by the EACC. The total dollar amount of the EDIP credit that may be authorized in a calendar year is $30 million. See item # 2.605 for more details.

Origin: M.G.L. c. 63, § 38N; c. 62, § 6(g)

Estimate: $6.5

1.604 Credit for Employing Former Full-Employment Program Participants

This tax expenditure relates to a credit that is no longer active. The credit was required to be authorized by the Department of Transitional Assistance (DTA). However, the DTA is no longer authorizing this credit. When in effect, the credit provided employers an incentive to retain certain employees who had been hired under DTA's full employment program after program subsidies had run out.

Origin: St. 1995, c. 5, § 110(m)

Estimate: Not Active

1.605 Earned Income Credit

Effective January 1, 2023, taxpayers are allowed a refundable credit against Massachusetts tax equal to 40% of the amount of the earned income credit claimed on their federal individual income tax returns. Note that, since the state credit amount is based on the federal, any changes, temporary or permanent, to the calculation of the federal credit will be automatically reflected in credit claims made against state tax. Note that while credit is refundable, it is not transferable.

Origin: M.G.L. c. 62, § 6(h)

Estimate: $459.5

1.606 Septic System Credit

Effective January 1, 2023, taxpayers required to repair or replace a failed cesspool or septic system pursuant to the provisions of Title V, as promulgated by the Department of Environmental Protection, are allowed a credit equal to 60% of the design and construction costs incurred, up to a maximum of $4,000 per tax year and $18,000 in total. For previous tax years, the credit is equal to 40% of the design and construction costs incurred (less any subsidy or grant from the Commonwealth), up to a maximum of $1,500 per tax year and $6,000 in total. Unused credits may be carried forward for up to five years. The credit is neither transferable nor refundable.

Origin: M.G.L. c. 62, § 6(i)

Estimate: $19.9

1.607 Low Income Housing Credit

The Low-Income Housing Tax Credit (LIHTC) is available to corporate excise and personal income taxpayers that invest in low-income housing projects that meet federal and state eligibility rules. The credit is part of a federal program that authorizes a federal credit for such investments and subsidizes state credits in states that opt into the program. The Massachusetts Department of Housing and Community Development (DHCD) determines eligibility for, and the amount of, the credit pursuant to federal guidelines. See also Corporate item 2.609.

Origin: M.G.L. c. 62, § 6I, c. 63, § 31H

Estimate: $18.1

1.608 Brownfields Credit

Taxpayers are allowed to claim a credit for amounts expended to remediate contaminated property owned or leased for business purposes and located within an economically distressed area. The Brownfields credit may be claimed by a taxpayer or non-profit corporation that commences and diligently pursues an environmental response action and achieves and maintains a permanent solution or remedy operation status in compliance with chapter 21E. Taxpayers may sell, transfer, or assign the credit. The environmental response action must be commenced on or before August 5, 2028, and eligible costs that qualify for the credit must be incurred before January 1, 2029. The credit may be carried forward for up to 5 years. The amount of the credit varies according to the extent of the environmental remedy. If the taxpayer's permanent solution or remedy operation status includes an activity and use limitation, then the amount of the credit is 25% of the net response and removal costs incurred by the taxpayer. However, if there is no activity and use limitation, then the amount of the credit is 50% of the net response and removal costs.

Origin: M.G.L. c. 62, §6 (j)

Estimate: $2.8

1.609 Refundable State Tax Credit Against Property Taxes for Seniors ("Circuit Breaker")

Seniors (taxpayers age 65 or older) are eligible for a tax credit to the extent that their property taxes - or 25% of rent - exceed 10% of their income. Income limits and a cap on the maximum assessed value of the filer's primary residence apply. The maximum credit is also adjusted annually for inflation, see Appendix A. Income limits and the maximum credit are adjusted for inflation over a 1999 base year; however, chapter 136 of the Acts of 2005 increased the assessed home valuation to $600,000 and set its base year to 2004. The base amount upon which the maximum credit is determined was doubled in the 2023 tax year. The credits may not be sold or transferred to another taxpayer, but are refundable.

Origin: M.G.L. c. 62, § 6 (k)

Estimate: $175.3

1.610 Massachusetts Historic Rehabilitation Credit

The Massachusetts historic rehabilitation tax credit is a credit for qualified expenditures made by a taxpayer in rehabilitating a qualified historic structure.

Origin: M.G.L. c. 62, § 6J; M.G.L c. 63, § 38R

Estimate: $16.4

1.611 Film Production Incentives (tax credit and sales tax exemption)

The Massachusetts film tax incentives, as amended in July 2007, allow a producer of a motion picture a tax credit equal to 25% of the film's production cost and 25% of the film's payroll costs. They also provide an exemption from sales tax for film productions in Massachusetts.

Origin: M.G.L. c. 62, § 6(l), c. 63, § 38X, c. 64H, § 6(ww)

Estimate: $2.0

1.613 Medical Device User Fee Credit

The Medical Device Credit is equal to 100% of the user fees actually paid to the United States Food and Drug Administration (FDA) by a medical device company during the taxable year for which the tax is due for premarket submissions to market new technologies or upgrades, changes, or enhancements to existing technologies, developed or manufactured in Massachusetts.

Origin: M.G.L. c. 63, § 31L; c. 62, § 6½

Estimate: Expired

1.614 Dairy Farmer Tax Credit

Massachusetts provides dairy farmers a refundable personal income tax or corporate excise credit to offset cyclical downturns in milk prices. The credit is triggered when milk production costs exceed milk prices. The credit is determined by the Massachusetts Department of Agricultural Resources (MDAR), which notifies the Department of Revenue(DOR) of the amount of the credit awarded to each taxpayer. Effective January 1, 2023, the total cumulative value of the credits authorized pursuant to this section combined with M.G.L. c. 63, § 38Z is $8 million. These credits may not be sold or transferred to another taxpayer, but are fully refundable. See corporate item 2.618 for more details.

Origin: M.G.L. c. 62, § 6 (o)

Estimate: $5.0

1.615 Conservation Land Credit

Filers who donate land for conservation in perpetuity for the use of all citizens of the Commonwealth can receive a credit of up to $75,000. Approval of the donation is required from the Secretary of the Office of Energy & Environment Affairs. The credits may not be sold or transferred to another taxpayer, but are refundable. The total credits that may be approved are capped at $2.0 million annually.

Origin: M.G.L. c. 62, § 6 (p)

Estimate: $1.6

1.616 Employer Wellness Program Tax Credit

The 2012 Health Care Act establishes an Employer Wellness Program Tax Credit that is effective for tax years beginning on or after January 1, 2013 and is set to expire on December 31, 2017. The Employer Wellness Program Tax Credit was created to provide incentives for business to recognize the benefits of wellness programs with the goal of providing smaller businesses with an expanded opportunity to implement these programs. The credit is available to both chapter 62 and chapter 63 taxpayers (personal income taxpayers and corporate & business excise taxpayers). The credit is set at 25 percent of the costs associated with implementing a "certified wellness program." The maximum amount of Employer Wellness Program Credits available to a taxpayer is $10,000 in any tax year. The total amount of Employer Wellness Program Credits authorized by the Department of Public Health is subject to a $15 million annual cap starting calendar year 2013. The Employer Wellness Program Tax Credit is non- refundable and non-transferrable. However, the portion of the Employer Wellness Program Tax Credit that exceeds the tax for the taxable year may be carried forward and applied against such taxpayer's tax liability in any of the succeeding 5 taxable years.

Origin: St. 2012, c. 224, §§ 41, 41A, 56, 56A, 238, 239, 297, and 298. M.G.L. c. 62, § 6N; M.G.L. c. 63, § 38FF

Estimate: Expired

1.617 Community Investment Tax Credit

A personal income tax and corporate excise credit is available for 50% of qualified investments in "community partners" selected by the Executive Office of Housing and Livable Communities through a competitive process. The community partner then uses the amount invested to fund approved programs designed to improve economic opportunities in Massachusetts communities. Such investments are in the nature of contributions, i.e., the investor does not receive any equity or other financial stake in the programs that are funded. The 2012 Jobs Act provides a Community Investment Tax Credit that is effective January 1, 2014 and is set to expire on December 31, 2019. However, St. 2018, chapter 99, § 25 extended the sunset date for the credit to year 2025. The total amount of the credit was subject to a $3 million cap in taxable year 2014, and $6 million in each year of taxable years 2015 through 2018, $8 million in each year of taxable years 2019 and 2020, $10 million in each year of taxable years 2021 and 2022, and $12 million in each year of taxable years 2023 through 2025. This credit is refundable, but not transferrable and it could be carried over up to five years.

Origin: M.G.L. c. 62, § 6M; c. 63, § 38EE

Estimate: $8.4

1.618 Farming and Fisheries Tax Credit

Personal income taxpayers who are primarily engaged in agriculture, farming, or commercial fishing are allowed an investment tax credit equal to 3% of the cost of qualifying property used in such activities in Massachusetts.

Origin: M.G.L. c. 62, § 6(s)

Estimate: $0.3

1.619 Certified Housing Development Tax Credit

A personal income tax and corporate excise credit is allowed for up to 25% of costs incurred in constructing or rehabilitating housing in areas designated by the Department of Housing and Community Development (DHCD). Eighty percent of the housing must be available for rent or sale at market rate prices. Designated areas must be located in a city or town identified by statute as a gateway municipality. The DHCD determines eligibility for, and the amount of, the credit.

Estimate: $7.4

1.620 Veteran's Hire Tax Credit

A credit is available to businesses that hire veterans who live and work in Massachusetts. The credit is equal to $2,000 for each qualified veteran hired. Businesses with 100 or fewer employees may claim a $2,000 credit against the corporate excise or personal income tax for each qualified veteran hired. See TIR 17-10.

Origin: M.G.L. c. 62, § 6(u)

Estimate: $0.5

1.621 Apprentice Tax Credit

A personal income tax and corporate excise credit is allowed to employers that establish apprenticeship programs in designated computer technology, health care technology or manufacturing occupations. The credit is equal to the lesser of $4,800 or 50% of the wages paid to the apprentice in a taxable year.

Origin: M.G.L. c. 62, § 6(v); M.G.L. c. 63, § 38HH

Estimate: Negligible

1.622 Disability Hire Credit

Effective for tax years beginning on or after January 1, 2023, employers that hire disabled employees may claim a nontransferable, refundable credit equal to (i) the lesser of $5,000 or 30% of the wages paid to a disabled employee in the employee's first year of employment, and (ii) the lesser of $2,000 or 30% of the wages paid to a disabled employee in each subsequent year of the employee's employment. The credit is available to employers provided that (i) the employee is certified by the Massachusetts Rehabilitation Commission as having a disability as defined under the Americans with Disabilities Act, 42 U.S.C. § 12102; (ii) the employee is capable of working independently; (iii) the employee has a mental or physical disability that constitutes or results in a substantial impediment to employment; (iv) the employee is hired after July 1, 2021; (v) the employee's primary place of employment and primary place of residence is in Massachusetts; (vi) the employer must obtain certification from the Massachusetts Rehabilitation Commission that the employee is

qualified no later than the employee's first day of work; and (vii) the employer employs the employee for at least 12 consecutive months prior to and in the taxable year in which the credit is claimed.

Origin: M.G.L. c. 62, § 6(z).

Estimate: $1.0

1.623 Cranberry Bog Renovation Credit

Effective for tax years beginning on or after January 1, 2020, taxpayers primarily engaged in cranberry production may claim a nontransferable, refundable credit equal to 25% of expenses incurred in the renovation, repair, replacement, regrading or restoration of a cranberry bog for the cultivation, harvesting or production of cranberries. The Secretary for Energy and Environmental Affairs determines eligible costs and the amount of the credit. The amount of credit that can be claimed by a taxpayer for a taxable year cannot exceed $100,000. The credit is no longer available for taxable years beginning on or after January 1, 2030.

Origin: M.G.L. c. 62, § 6(w).

Estimate: $1.0

1.624 Credit for Eligible Dependents

Effective for tax years beginning on or after January 1, 2021, taxpayers may claim a nontransferable, refundable credit for eligible dependents. To claim the credit, a taxpayer must furnish over half of the cost of maintaining a household. The household must include a dependent that qualifies as a dependent under IRC § 152 and who is (i) under the age of 12; (ii) age 65 or over; or (iii) disabled. The credit is equal to $180 if the taxpayer claims one dependent, or $360 if the taxpayer claims two or more dependents. The credit cannot be claimed by married taxpayers that file separate Massachusetts personal income tax returns. A taxpayer claiming this credit may not also claim the credit for dependent care expenses allowed under G.L. c. 62, § 6(x).

Origin: M.G.L. c. 62, § 6(y).

Estimate: Expired

1.625 Dependent Care Expenses Credit

Effective for tax years beginning on or after January 1, 2021, taxpayers may claim a refundable, nontransferable credit for dependent care expenses. The credit is equal to "employment-related expenses" allowed for purposes of determining the credit provided under IRC § 21. Under IRC § 21, employment-related expenses include certain expenses incurred to enable the taxpayer to be gainfully employed, including household expenses and expenses for the care of a qualified individual. A qualifying individual is (i) a dependent of the taxpayer who is younger than 13 years old; or (ii) a dependent of the taxpayer, including a spouse, who is physically or mentally incapable of taking care of himself or herself and principally lives with the taxpayer. The credit cannot exceed $240 if the taxpayer claims expenses for one qualifying individual, or $480 if the taxpayer claims expenses for two or more qualifying individuals. Married taxpayers must file a joint federal income tax return to claim the credit. For taxpayers that file a joint federal income tax return and who file as married filing separately in Massachusetts, either spouse may claim the

credit for expenses he or she incurred, but the combined credit for both spouses cannot exceed $240 for one qualifying individual or $480 for two or more qualifying individuals. A taxpayer claiming the credit may not also claim the dependent credit allowed under G.L. c. 62, § 6(y).

Origin: M.G.L. c. 62, § 6(x).

1.626 Offshore wind tax incentive program: cover the Wind Power Incentive Jobs Credit and Wind Power Incentive Investment Credit

The Massachusetts offshore wind tax incentive program consists of two tax credits, a Wind Power Incentive Jobs Credit and a Wind Power Incentive Investment Credit, for offshore wind companies subject to either the personal income tax or the corporate excise. The credits are available to certified offshore wind companies only to the extent authorized by the Massachusetts Clean Energy Technology Center (the "Center"), may be claimed starting with taxable years beginning on or after January 1, 2023, share an annual cap of $35,000,000, are subject to recapture in the event that the offshore wind company's certification is revoked by the Center, and expire on January 1, 2033. For offshore wind companies subject to the personal income tax, the credit is attributed on a pro rata basis to the owners, partners, or members of the legal entity. The Wind Power Incentive Jobs Credit is available to certified offshore wind companies that commit to the creation of a minimum of 50 net new permanent full-time employees in Massachusetts. Effective for taxable years beginning on or after January 1, 2024, certified offshore wind companies must commit to the creation of a minimum of 10 net new permanent full-time employees in Massachusetts. Where the credit exceeds the taxpayer's liability for the taxable year, 90 percent of such excess credit may be refunded to the taxpayer. Excess credit amounts cannot be carried forward to subsequent taxable years. The Wind Power Incentive Investment Credit is available for certified offshore wind companies that make a capital investment in an offshore wind facility that they either own or lease in an amount up to 50 percent of such investment. The total amount of the credit awarded is distributed in equal parts over five taxable years that correspond to the period in which the offshore wind company is certified. Eligibility requirements vary depending on whether the certified offshore wind company owns or leases the offshore wind facility, but, in general, the certified offshore wind company must demonstrate to the Center that (i) it has a total capital investment in an offshore wind facility that equals not less than $35,000,000; and (ii) the offshore wind facility must employ not less than 200 new full-time employees by the fifth year of the offshore wind company's certification. A certified offshore wind company claiming this credit may not also claim the Wind Power Incentive Jobs Credit or the Economic Development Incentive Program Credit provided by M.G.L. c. 62, § 6(g) in the same taxable year.

Origin: M.G.L. c. 23J, § 8A; M.G.L. c. 62, § 6(bb), (cc).

Estimate: $2.5

1.627 National Guard Credit

A business employing not more than 100 employees may be allowed a credit equal to $2,000 for each member of the Massachusetts national guard hired by the business. To be eligible for a credit: (i) the primary place of employment and the primary residence of the member of the Massachusetts national guard must be in Massachusetts; and (ii) not later than the day an individual begins work, a business shall have obtained the applicable certification from the office of the adjutant general that the individual is a member of the

Massachusetts national guard. A business that claims this credit is eligible for a second credit of $2,000 in the subsequent taxable year with respect to such member of the Massachusetts national guard, subject to certification of continued employment during the subsequent taxable year. The credit is nontransferable and nonrefundable. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward to any of the three subsequent taxable years. The credit must be attributed on a pro rata basis to the owners, partners or members of the legal entity entitled to the credit. The personal income and corporate excise versions of this credit are subject to the same annual cap of $1,000,000.

Origin: M.G.L. c. 62, §6(aa); St.2022, c.154, § 7.

Estimate: $0.1

1.628 Child and Family Tax Credit

Effective for tax years beginning on or after January 1, 2023, taxpayers may claim a nontransferable, refundable credit if they maintain a household that includes an individual who is (1) under the age of 13 and who qualifies for exemption as a dependent for federal purposes; (2) a dependent, or the taxpayer's spouse, who is physically or mentally incapable of taking care of himself or herself and principally lives with the taxpayer; or (3) a dependent who is age 65 or over or disabled. The credit cannot be claimed by a person who is a non-resident for the entire taxable year or married taxpayers that file separate Massachusetts personal income tax returns. For the tax year beginning on or after January 1, 2023, the amount of the credit is equal to $310 for each such individual. The credit will be increased to $440 for each such individual for tax years beginning on or after January 1, 2024.

Origin: M.G.L. c. 62, § 6(x)

Estimate: $467.0

1.629 Renewable Energy Source Credit

Starting with taxable years beginning on or after January 1, 2024, partnerships, limited liability corporations, or other legal entities subject to the personal income tax that provide training to a qualified trainee through an authorized training program may claim a temporary authorized training tax credit for emergency assistance. A qualified individual is an individual receiving benefits through the emergency housing assistance program pursuant to G.L. c. 23B, § 30. To qualify for the credit, a taxpayer must (1) have a place of business in the Commonwealth; (2) conduct an authorized training program in the Commonwealth that is in compliance with recommendations of the Executive Office of Labor and Workforce Development ("EOLWD"); (3) enroll the qualified trainee in an authorized training program on or after April 30, 2024; and (4) meet any additional requirements determined by the Executive Office for Administration and Finance and EOLWD. The credit is equal to $2,500 for each qualified trainee that receives the training from the entity. The amount of the credit that exceeds the tax due for a taxable year may be carried forward to the subsequent taxable year. The credit is subject to an annual cap of $10,000,000. The credit may no longer be claimed as of (1) January 1, 2026; or (2) the taxable year in which the end of the capacity limitation on the emergency shelter assistance program occurs, whichever is sooner. See TIR 24-7 for more information.

Origin: M.G.L. c. 62, § 6(dd)(1)

Estimate: $2.0

1.630 First-Time Homeownership Development Credit

Starting with taxable years beginning on or after January 1, 2025, personal income taxpayers may claim a Massachusetts homeownership tax credit in relation to a qualified homeownership development project to the extent authorized by the Executive Director of the Massachusetts Housing Finance Agency ("MHFA"). The credit is non-refundable but is transferrable. The amount of the credit authorized by MHFA cannot exceed the maximum credit amount, which is 35% of the lesser of either: (1) the project's total qualified project expenditures calculated on a per single-family dwelling basis; or (2) 80% of the area median new single-family dwelling sales price, subject to further limitations established by MHFA. A sponsor cannot claim the credit before the first taxable year stated on the eligibility certificate issued to the sponsor by MHFA. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward for the duration of the qualified homeownership development project's affordability period, which is a 10-year period that begins as of the date of the first sale of a single-family dwelling that was constructed as part of the project. The credit is subject to recapture. The amount of credits that MHFA can authorize annually cannot exceed the sum of (1) $10,000,000; (2) any credit amounts not authorized in the preceding taxable year; and (3) any credits returned to MHFA by a sponsor. Effective January 1, 2030, the amount of credits that can be authorized annually is the sum of (1) any credit amounts not authorized in the preceding taxable year; and (2) any credits returned to MHFA by a sponsor.

Origin: M.G.L. c. 62, § 6O

Estimate: $2.0

1.631 Qualified Conversion Project Tax Credit

Starting with taxable years beginning on or after January 1, 2025, personal income taxpayers may claim a refundable, non-transferable qualified conversion credit in relation to a qualified conversion project that has been certified by the Executive Office of Housing and Livable Communities ("EOHLC"). To claim the credit, a sponsor must submit a project proposal to EOHLC requesting the certification of a housing development project as a qualified conversion project. After certifying the project, EOHLC determines the amount of credit awarded to the sponsor, which cannot exceed 10% of the qualified conversion's project's development costs. The credit is allowed for the taxable year in which EOHLC notifies the Commissioner of the certified qualified conversion project's completion. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward to any of the 10 taxable years subsequent to the taxable year that the credit was allowed. The credit is subject to recapture. The credit is no longer available for taxable years ending after December 31, 2029.

Origin: M.G.L. c. 62, § 6(ee)

Estimate: $1.0

1.632 Climatetech Tax Incentive Program

Massachusetts provides a climatetech tax incentive program, which is administered by the Massachusetts clean energy center ("CEC"), in consultation with DOR. The tax incentives consist of three tax credits, the climatetech capital investment tax credit, a refundable climatetech jobs tax credit, and a climatetech qualified research expenses tax credit; as well as a sales and use tax exemption for purchases of tangible personal property to be

used for the construction of research, development or manufacturing or other commercial climatetech facilities. The incentives all share an annual cap of $30 million and are effective for taxable years beginning on or after January 1, 2024. The climatetech capital investment tax credit is a refundable tax credit available to personal income and corporate excise taxpayers who make capital investments in a climatetech facility. The amount of the credit is determined by the CEC, but cannot exceed 50% of the owner's total capital investment in the facility. The refundable climatetech jobs tax credit is a refundable tax credit available to personal income taxpayers who commit to creating at least 5 net new jobs in Massachusetts. The amount of credit is determined by the CEC. Where the credit exceeds the taxpayer's liability, 90% of excess credit amount is refunded to the taxpayer.

Origin: M.G.L. c. 62, § 6(gg), (hh)

Estimate: $6.0

1.633 Live Theater Tax Credit

The live theater tax credit program is administered by the Massachusetts Office of Business Development, in consultation with DOR. The credit is available to personal income and corporate excise taxpayers. The amount of the credit cannot exceed $7,000,000 and is equal to (1) 35% is of the total in-state payroll costs; (2) 25% of production and performance expenditures; and (3) 25% of transportation expenditures. The credit is not refundable, but is transferrable. Any unused amount of credit may be carried forward to the next 5 taxable years. The annual amount of credits that can be authorized cannot exceed $7,000,000. The credit is effective for taxable years beginning on or after January 1, 2025 and expires on January 1, 2030.

Origin: M.G.L. c. 62, section 6(ff)

Estimate: $3.5

1.634 Qualified Internship Tax Credit

The qualified internship tax credit is available to personal income and corporate excise taxpayers who hire a qualified intern. The credit is equal to the lesser of $5,000 or 50% of the wages paid to the intern. The annual amount of credits that can be authorized cannot exceed $10,000,000. A single employer cannot claim more than $100,000 in credits in a taxable year. The credit is effective starting for the taxable year beginning on or after January 1 of the first calendar year following the next fiscal year that closes after November 20, 2024 with a consolidated net surplus of at least $400 million. The credit expires on January 1 of the sixth tax year following the effective date of the credit.

[1] This item and others citing this endnote cover employee fringe benefits. We accept as standard the following treatment of these benefits: the expense incurred by the employer in providing the benefit is properly deductible as a business expense and the benefit is taxed as compensation to the employee as if the employee had received taxable compensation and then used it to purchase the benefit. Of course, there are problems with this analysis. In some cases, the "benefit" is more a condition of employment than a true benefit. For example, a teacher required to have lunch in the school cafeteria may prefer to eat elsewhere even if the school lunch is free. On the other hand, in many cases the provision of tax-free employee benefits is clearly a substitution for taxable compensation.

[2] This item and others citing this endnote cover contributory pension plans. The standard tax treatment of these plans is as follows:

| Component | Standard Treatment |
|---|---|
| Contributions: | Made out of income that is currently taxed to employees. |
| Investment Income: | Taxed to the employee as "earned" income. |
| Distributions from Pension Funds: | Tax-free to the extent they are made out of dollars previously taxed to the employees as contributions or investment income. |

The non-standard treatment of contributions, investment income, or distributions as described in items 1.006, 1.101, 1.104, 1.402, and 1.427, results in either nontaxation or deferrals of tax.

[3] FY26 estimates for the basic personal exemptions and the no-tax status discussed in the introduction to the personal income tax are (in millions of dollars):

Personal exemption for single taxpayers: $417
Personal exemption for married couples: $538
Personal exemption for married taxpayers filing separately: $23
Dependents exemption: $86
Personal exemption for heads of households: $118
Limited income credits: $13
No tax status: $13

ENSE PETIT PLACIDAM SVB LIBERTATE QVIETEM

Beginning in Fiscal Year 2013, the corporate section of the Tax Expenditure Budget includes other business excises along with the corporate excise. These additional business excise taxes are the financial institution excise, the public utility excise which was repealed effective January 1, 2014, the excises on insurance companies, and the excise on security corporations. The financial institution excise is structured similarly to the corporate excise. It begins with federal net income with certain Massachusetts modifications, proceeds to additional Massachusetts deductions, applies the appropriate apportionment percentage, applies the appropriate tax rate to compute the excise due before credits and applies credits to reach the final excise due. The revenue estimates for the items in the list will now reflect their use by financial institutions. Note that most of the expenditure items are unavailable to insurance companies as these companies are not taxed on net income. However, insurance companies can apply certain credits to reduce their excises. Credits available to insurance companies are so indicated within the item descriptions and the revenue estimates for these credits will reflect their use.

In Fiscal Year 2024, revenues from the corporate excise and the other business excises mentioned above represented 11.8% of total Department of Revenue tax collections. Together these taxes ranked third in Fiscal Year 2024 in terms of total taxes collected, after the individual income tax and the sales and use tax.

## Corporate Excise: Short History and Basic Structure

The corporate excise was enacted in 1919, replacing a corporate franchise tax, which was levied on the value of capital stock. Initially, the corporate excise was imposed on corporate excess and on net income.

In 1962, the corporate excess measure was repealed. The corporate excise tax is now levied on tangible property or net worth (depending on the mix of property held by the corporation) and on net income.

**Tax Base:** Most business corporations are subject to tax under the corporate excise which has three components: an income measure, a non-income measure, and a minimum excise.

The income measure of the tax is based on net income for federal tax purposes with certain additions, such as interest earned on state obligations, and certain deductions, most of which are allowable under the provisions of the Internal Revenue Code. Many of the deductions are considered to be part of the basic structure. For example, in providing for depreciation deductions, the basic structure would allow the cost of property to be written-off evenly over its useful life (so-called “straight-line depreciation”). However, rules that allow accelerated depreciation deductions are listed as tax expenditures.

Under the non-income measure, corporations with qualifying tangible assets in Massachusetts that equal or exceed 10% of their qualifying total assets in Massachusetts (apportioned according to their income apportionment percentages) are taxed on the values of their tangible properties. Other corporations are taxed on a net worth basis.

The minimum excise is $456.

**Taxable Unit:** A corporation is a taxpayer separate and distinct from its shareholders.

**Rate Structure:** Overall, the rates have declined since January 2010. However, the minimum excise remains unchanged at $456. The current (tax year 2024) excise rate on C-corporations that are not financial institutions is 8.00% of net income apportioned to Massachusetts, and $2.60 per $1,000 of the

value of Massachusetts tangible property (as determined to be taxable under § 30(7)) or net worth allocable to Massachusetts (as determined to be taxable under § 30(8) – (9)). The tax rate on S-corporations that are not financial institutions is 3.00% for companies with total receipts $9 million or more, and 2.00% for companies with total receipts $6 million or more but less than $9 million. The tax rate on tangible property or net worth is the same as for C-corporations.

**Taxable Period and Net Operating Loss Carry-forward:** The taxable periods for corporations are diverse and can be chosen by each tax filer. Estimated payments are made every three months during the taxable period. Net operating loss (NOL) carry-forwards are allowed for future deductions. Before January 2010, qualifying losses could be carried forward up to five years. However, there was a statutory expansion of the general NOL carry-forward period from 5 to 20 years for business corporations. Refer to Appendix A of the FY2016 tax expenditure budget report for details.

**Interstate and International Aspects:** All domestic and foreign corporations with nexus in Massachusetts are subject to the corporate excise. Corporations are required to apportion their net incomes if they have incomes from business activity that is taxable in another jurisdiction using a formula based on the proportions of corporate real and tangible property, payroll, and sales that are located in Massachusetts. Under certain circumstances, taxpayers may petition for, or the Commissioner may impose, alternative methods of accounting to reflect more fairly a taxpayer's income from business operations in Massachusetts. Effective for tax years beginning on or after January 1, 2025, all such corporations are required to use single sales factor apportionment. See tax expenditure 2.401.

**Combined Reporting:** Since January 1, 2009, Massachusetts has required certain businesses engaged in a unitary business to calculate their income on a combined basis. A corporation is subject to this requirement if it is subject to a tax on its income under Massachusetts General Laws (M.G.L). c. 63, §2, §2B, §32D, §39 or §52A and it is engaged in a unitary business with one or more other corporations under common control, whether or not the other corporations are taxable in Massachusetts. Those certain businesses can be general corporations, financial institutions, or public utilities. Note that combined reporting does not apply to the non-income measure of corporate excise.

## The Other Business Excises

The other business excises possess some different features from the corporate excise. First, many of the financial institutions still do not qualify for combined reporting, and no insurance companies are subject to combined reporting. Second, these businesses are not allowed to take net operating loss deductions. Third, financial institutions weigh the three apportionment factors (sales, payroll, property) equally before tax year 2025. Fourth, the main tax base of insurance companies is the insurance premiums those companies have charged. Fifth, some credits such as the investment tax credit are not applicable to these businesses. There are some additional differences. For further details, refer to the applicable tax return forms. The basic structures of the excises for these businesses are described in the diagrams that follow.

## Summary of 2024 Tax Forms for Insurance Companies

| Tax Form | Type of Company | Foreign or Domestic | Base of Tax | Tax Rate | Retaliatory Tax Provision |
|---|---|---|---|---|---|
| 63-20P | Life Insurance | Domestic | Taxable life, accident and health insurance premiums, net value of policies | 2% on life and acc./health ins. Premiums | N/A |
| | Life Insurance | Foreign | Taxable life insurance premiums attributable to Massachusetts, accident and health insurance premiums | 2% on all premiums | Yes |
| 63-23P | Insurance Companies, except Life Insurance or Ocean Marine | Domestic | Taxable (non-life) insurance premiums and gross investment income | 2.28% on premiums; then: 1%, 0.8%, 0.6%, 0.4%, 0.2% or 0.0% on investment income | N/A |
| | Insurance Companies, except Life Insurance or Ocean Marine | Foreign | Taxable premiums for insurance of property or interests attributable to Massachusetts | 2.28% | Yes |
| | Preferred Providers (Accident and Health Insurers, Nonprofit Hospitals, HMO's, and other nonprofit medical, optometric or dental companies) | Domestic and Foreign | Gross premiums for coverage of persons who reside in Massachusetts | 2.28% | N/A |

## Types of Tax Expenditures

As with the personal income tax, the basic structure of the corporate excise tax is subject to several different types of modifications that can produce tax expenditures.

**Exclusions from Gross Income:** Gross income is the starting point in the calculation of the income component of the corporate excise. In the absence of tax expenditures, it would include all income received from all sources. Items of income that are excluded from gross income escape taxation permanently.

**Deferrals of Gross Income:** Where an item of income is not included in gross income in the year when it is actually received, but is instead included in a later year, the result is a tax expenditure in the form of an interest-free loan from the state to the taxpayer in the amount of the tax payment that is postponed.

**Deductions from Gross Income:** Certain amounts are subtracted from gross income to arrive at taxable income. Many of these deducted amounts reflect the costs of producing income (business expenses) and are not included in the corporate income measure of excise; such deductions are not tax expenditures. Other deductions, which do not reflect business expenses, but permit income to escape taxation permanently, do constitute tax expenditures.

**Accelerated Deductions from Gross Income:** In a number of cases, corporations are allowed to deduct business expenses from gross income at a time earlier than such expenses would ordinarily be recognized under accepted accounting principles. The total amount of the permissible deduction is not increased but it can be utilized more quickly to reduce taxable income. The result is to defer taxes, thus in effect occasioning an interest-free loan from the state to the taxpayer.

**Adjustments to Apportionment Formula:** In the case of a business that earns income both inside and outside the Commonwealth, an apportionment formula is used to determine what portion of the total business income to allocate to Massachusetts for the calculation of corporate excise. When the standard formula is adjusted to reduce the apportionment ratios for certain businesses, tax expenditures result. The practical effect is to exclude certain portions of those business incomes from taxation.

**Exclusions from Property Component:** In addition to the excise based on income, corporations pay the excise tax based on the value of their property in the state. To the extent that certain classes of property are not included in the excise's property measure, tax expenditures result.

**Credits against Tax:** After a corporation has computed its basic tax liability, it may subtract certain credit amounts in determining the actual amount of taxes due. It is important to note that, whereas one-dollar exclusion or deduction results in tax savings of only a few cents (one dollar times the applicable tax rate), one-dollar credit generally results in one-dollar tax saving.

**Entity Exempt from Taxation:** In some cases, a business or other entity may be completely exempt from taxation. To the extent businesses or investment incomes go untaxed, tax expenditures result.

## List of Corporate and Other Business Excise Expenditures

**2.000 EXCLUSIONS FROM GROSS INCOME**

2.001 Small Business Corporations

In general, corporations organized under, or subject to, Chapters 156, 156A, 156B, 156C, 156D or 180 of Massachusetts General Laws (M.G.L.) or that have privileges, powers, rights or immunities not possessed by individuals or partnerships are subject to the corporate excise. Most corporations have an income tax component of their excise. For those corporations, income is taxed at a rate of between 8 and 9%. Dividends distributed to Massachusetts residents are also subject to the personal income tax rate of 5%. Certain corporations with no more than 100 shareholders may elect to be taxed, for both federal and state tax purposes, as "S corporations." Under federal law, most S corporation income is passed through and taxed only as personal income to shareholders, and is not taxable at the entity level. Only limited categories of income are subject to an entity-level tax for federal tax purposes. For Massachusetts purposes generally, S corporation income is not subject to an entity level tax, except as follows: 1) those limited categories of income that are subject to an entity-level tax for federal tax purposes are also taxable in Massachusetts at the full corporate rate; and 2) the income of an S corporation with receipts of $6 million or more is subject to tax at reduced corporate rates. As of 2020, S corporations with total receipts of at least $6 million but less than $9 million are subject to a corporate excise of 2.00% of net income for non-financial institutions and 2.67% for financial institutions. An S corporation with total receipts of $9 million or more is subject to an excise of 3.00% of net income for non-financial institutions and 4.00% for financial institutions. The favorable manner in which income is taxed to an S corporation and its shareholders as compared to an ordinary business corporation (including its shareholders) constitutes a tax expenditure. Massachusetts first adopted this treatment of S corporations in 1986.

**2.100 DEFERRALS OF GROSS INCOME**

2.101 Deferral of Tax on Certain Shipping Companies

Federal law provides for the creation of special funds ("merchant marine capital construction funds" or "CCFs") by taxpayers who own eligible vessels. Taxpayers can use CCFs to set aside funds for the acquisition, construction, modernization, and major repair of ships that are constructed or reconstructed in the U.S., registered in the U.S., and used in trade or fishing activity. A deduction is allowed under the Code for amounts properly deposited into a CCF. Tax on income earned on amounts in the fund is deferred. Amounts placed in the CCF must be used for an eligible purpose within 25 years of being contributed or they will be taxed. Massachusetts conforms to the federal tax treatment of the contributions by virtue of its conformity with the Code. Amounts withdrawn from a CCF are characterized as either qualified withdrawals or nonqualified withdrawals. Qualified withdrawals are those made for the purpose of either the acquisition, construction, or repair of qualified vessels, or making principal payments on the mortgage of a qualified vessel. Qualified withdrawals are excluded from a taxpayer's taxable income. Instead, taxpayers must reduce the depreciable basis of the vessel by the amount of the qualified withdrawal. Nonqualified withdrawals, which are any withdrawals that are not qualified withdrawals, are taxable. Nonqualified withdrawals include amounts used to make principal payments on the mortgage of a vessel if the basis of that vessel has already been reduced to zero.

Amounts that remain in a CCF after the termination of the agreement with the U.S. Secretary of Commerce or the U.S. Department of Transportation (see the next paragraph) are taxable. In addition, any amount left in the account for more than 25 years after being contributed must be recaptured through the inclusion of twenty percent of such amount in income in each of the next five years. The Department of Transportation's Maritime Administration (MARAD) and the Department of Commerce's National Oceanic and Atmospheric Administration (NOAA) are responsible for administering the CCF program, with MARAD handing commercial vessels, and NOAA handling those in the fishing industry. The deferral of the tax is essentially an interest-free loan from the government.

Estimate: $1.0

2.102 Deferral of Federal Gain Invested in Qualified Opportunity Zones

The TCJA added Code Subchapter Z, §§ 1400Z-1 and 1400Z-2, effective December 22, 2017. Under Subchapter Z, Taxpayers may elect to defer gain from the sale or exchange of property to an unrelated party by reinvesting that gain within 180 days of the sale or exchange in a "qualified opportunity fund," which is defined as an investment vehicle organized as a corporation or partnership for the purpose of investing in "qualified opportunity zones." The Code defines qualified opportunity zones as population census tracts that are low income communities nominated by a state governor and designated by the U.S. Treasury as qualified opportunity zones. The deferred federal gain must be included in income upon the earlier of (i) the tax year in which the taxpayer's investment in the qualified opportunity fund is sold or exchanged, and (ii) tax year 2026, if the taxpayer's investment in the qualified opportunity fund is not sold or exchanged by December 31, 2026. In either case, the amount of gain includable in the taxpayer's federal gross income is the excess of: the amount of gain excluded or the fair market value of the investment in the qualified opportunity fund, whichever is less, over the taxpayer's federal basis in the investment. For Massachusetts corporate excise purposes, the gain will be similarly determined. See TIR 19-7 for more information.

Origin: IRC §1400Z-1; 1400Z-2

Estimate: $5.1

## 2.200 DEDUCTIONS FROM GROSS INCOME

2.201 Charitable Contribution and Gift Deduction

In calculating net income, corporations may deduct charitable donations up to 10% of taxable income computed without the deduction. The Tax Cuts and Jobs Act (TCJA; enacted December 22, 2017) changed the limitation and the charitable deduction is no longer allowed for contributions to a college or university in exchange for athletic event seating rights. There is a carryover of excess contributions available for 5 succeeding taxable years.

Origin: IRC §170; M.G.L. c. 63, § 30.4

Estimate: $67.6

2.203 Net Operating Loss (NOL) Carry-Forward

The net operating loss (NOL) deduction is a current-year deduction for losses sustained in prior years. Losses incurred in years a corporation is not subject to the corporate excise in Massachusetts (for example, where the corporation does no business in Massachusetts) are not allowed to be carried forward. While the Internal Revenue Code provides a federal deduction for NOLs, Massachusetts does not conform to those rules; rather the General Laws provide for a specific Massachusetts deduction. The deduction was enacted in 1988. Prior to 2010, NOLs incurred by Massachusetts corporate excise filers could be carried forward for not more than 5 years, and could not be carried back. Losses incurred in taxable years beginning on or after January 1, 2010 can be carried forward for 20 years, and cannot be carried back.

Origin: IRC §172; M.G.L. c. 63, §30.5

Estimate: $279.3

2.204 Excess Natural Resource Depletion Allowance

An essential characteristic of a business income tax is that it is imposed on the net of business receipts over deductible business expenses. However, an immediate deduction is generally not allowed for the full cost of investments in natural resources such as mineral, natural gas or oil deposits. Rather, the cost of the natural resource property is required to be recovered over time as the natural resources are depleted by extraction. Traditional financial accounting and tax accounting rules base cost recovery on the percentage of the volume of natural resources extracted in a year over the estimated total volume of natural resources included in the investment. This traditional cost recovery method is referred to as the "cost-depletion" method. Internal Revenue Code (Code) § 613 gives taxpayers the option to use an alternative cost recovery method for investments in natural resource property. The alternative method is referred to as "percentage depletion." Under this method the deduction for cost recovery is based on a percentage of the income generated by the natural resource property. Specially, percentage depletion permits deduction of a statutory percentage of gross income from natural resource property, and bears no relationship to cost or other basis. In fact, an allowance calculated under percentage depletion is deductible even when the taxpayer's adjusted basis in the property is zero, provided that the taxpayer has gross income from the property. The statutory percentage of gross income allowed as a deduction depends on the type of natural resource that is extracted. The percentages range from 22% for sulfur, uranium and other designated minerals including most metals, to 5% for sand and gravel. See Code § 613(b). The deduction may not exceed 50% (in some cases, 100%) of net income from the property. The percentage depletion method is not available to large, integrated oil companies or for natural gas resources located outside the US. See Code §§ 613(d), 613A. Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, taxpayers must recover the cost of natural resource property in the same manner and in the same amount as they do for federal tax purposes. Thus, Massachusetts permits the use of the percentage depletion method if it is used for federal tax purposes. The percentage depletion method often results in a larger deduction than traditional cost depletion method. The excess of the deduction determined using the percentage depletion method over the deduction using the cost depletion method constitutes a tax expenditure.

Origin: IRC §§613, 613A; M.G.L. c. 63, §30.3

Estimate: $3.6

2.205 Deduction for Certain Dividends of Cooperatives

Cooperatives are organizations comprised of separate businesses that band together for limited purposes to take advantage of economies of scale, for example when buying supplies or selling products. Farmers' cooperatives and certain corporations acting as cooperatives may deduct so-called "patronage dividends" from their gross incomes. A "patronage dividend" is a dividend paid to members of the cooperative: (i) based on the quantity or value of business done with the members, (ii) under a pre-existing obligation of the cooperative; and (iii) determined by the cooperative's net earnings from business with members. In order to deduct the dividends, cooperatives must provide notice to members of the total patronage dividend and must pay a minimum of 20% of each member's dividend in cash within 8½ months following the close of the cooperative's taxable year. The deduction is based on the notion that the cooperative is an agent working for the members and that any funds transferred to members already belong to the members. See Farm Service Cooperative v. Commissioner, 619 F.2d 718, 722 (1979). In this view, the primary function of a cooperative is the allocation of the economic benefits of the cooperative, either in the form of net savings or net earnings. The deduction recognizes that taxing patronage dividends would discourage such allocation and could result in double taxation of income (first when earned by the cooperative and second as a dividend received by the member).

Origin: IRC §§1381-1388

Estimate: $5.1

2.206 Deduction for Renovation of Abandoned Buildings as Part of Certified Project

Corporations and individuals are subject to tax on their taxable net income (under the corporate excise) and taxable income (under the personal income tax), respectively. In determining the applicable tax base, a deduction is provided to corporations and individuals for 10% of the cost of renovating abandoned buildings. The deduction is in addition to any other deduction for the cost of such renovation that is available to corporations subject to the net income measure of the corporate excise or to individuals subject to the personal income tax. Apart from this deduction, renovation expenses incurred with respect to business property are generally deductible as current business expense deductions or as depreciation. Amounts allowed under the renovation deduction might also be included in deductible business expenses or deductible depreciation. Thus, the deduction functions as an extra, or bonus, deduction for renovation expenses. To be deductible, the renovation costs must be incurred with respect to a building (i) located in an economic opportunity area and (ii) designated as abandoned, by the Economic Assistance Coordinating Council (EACC). The deduction is part of the Massachusetts Economic Development Incentive Program (EDIP). The EDIP generally employs local property tax incentives to spur economic development, often in blighted areas. These incentives are available for projects that will create new jobs. In addition to the local property tax incentives, the EACC is empowered to authorize the abandoned building renovation deduction. The revenue lost as a result of the deduction constitutes a tax expenditure.

Origin: M.G.L. c. 63, §38O

Estimate: Negligible

## 2.300 ACCELERATED DEDUCTIONS FROM GROSS INCOME

### 2.301 Modified Accelerated Cost Recovery System on Rental Housing

An essential characteristic of a business income tax is that it is imposed on the net of business receipts over deductible business expenses. However, an immediate deduction is generally not allowed for the full cost of buildings, which have a useful life measured in years. Rather, the cost of such property must be capitalized and deducted as depreciation expense over a number of years based on the property's useful life. Traditional financial accounting rules required the cost of buildings to be recovered pro rata over a period intended to approximate the property's anticipated actual useful life. This depreciation schedule is referred to as the "straight-line" method. The use of straight-line depreciation over a 40-year useful life to recover cost of buildings is considered to conform to traditional financial accounting rules. The Internal Revenue Code (the "Code") allows landlords and investors to determine their depreciation deduction for new and used rental housing using an accelerated method of depreciation. Rental housing placed in service after 1986 is depreciated on a straight-line basis over a 27.5-year period rather than the 40-year recovery period used under traditional financial accounting rules. Rental housing placed in service before 1986 was depreciable over shorter periods, generally 19 or 20 years, and, instead of straight-line depreciation, the 175% declining balance method was permitted. Massachusetts generally adopts the business expense deductions allowed under the Code, including the federal deduction for depreciation. As a result, Massachusetts conforms to the use of straight-line depreciation over a 27.5-year accelerated recovery period for residential rental property. This allows for a larger depreciation deduction in the earlier years of the useful life of residential rental property than would be available under traditional accounting concepts. However, the depreciation deduction is smaller in the later years. The net result is a temporary reduction, or deferral, or tax. The deferral of tax can be viewed as an interest-free loan from the Commonwealth to taxpayers. The deferral constitutes a Massachusetts tax expenditure.

Origin: IRC §168

Estimate: $6.7

### 2.303 Expenditures to remove architectural and transportation barriers to the handicapped and elderly

Massachusetts conforms to Internal Revenue Code ("Code") § 190, which allows taxpayers to elect an immediate deduction of up to $15,000 of expenses incurred in removing architectural or transportation barriers to the handicapped and elderly. The cost of an improvement to a business asset is normally a capital expense, which would normally have to be capitalized and deducted over a period of years. The accelerated deduction applies to the first $15,000 of expenses. Costs over that amount must be capitalized and deducted under the generally applicable depreciation schedules set out in the Code. Expenses eligible for the deduction include costs incurred in making a building or public transportation vehicle more accessible to people with disabilities and the elderly. Examples with regard to buildings include installing ramps, widening doors, modifying restrooms, and lowering counters to accommodate customers in wheelchairs. Examples with regard to vehicles include installing lifts for wheelchairs and modifying signage and public address systems to accommodate the visually or hearing impaired. The deduction is not available for costs incurred in completely renovating a building or vehicle or to the cost of replacing depreciable property in the normal course of business. The immediate deduction of eligible expenses results in a deferral of tax. The deferral constitutes a Massachusetts tax expenditure.

Origin: IRC §190; M.G.L. c. 63, §30.4

Estimate: $0.5

2.304 Election to Deduct and Amortize Business Start-up Costs

Taxpayers who pay or incur business start-up costs and who subsequently enter the trade or business can elect to expense to the lesser of the amount of start-up expenditures with respect to the active trade or business or $5,000 of the costs. The balance of start-up expenses, if any, is amortized over a period of 180 months, starting with the month in which the business begins. The election must be made no later than the date (including extensions) for filing the return for the tax year in which the business begins or is acquired. A taxpayer is deemed to have made an election to deduct and amortize start-up expenses for the tax year in which the active trade or business to which the expenses relate begins. A taxpayer who does not make the election must capitalize the expenses.

Origin: IRC §195

Estimate: $0.5

2.305 Modified Accelerated Cost Recovery System for Equipment

An essential characteristic of a business income tax is that it is imposed on the net of business receipts over deductible business expenses. However, an immediate deduction is generally not allowed for the full cost of durable business property that has a useful life measured in years. Rather, the cost of such property must be capitalized and deducted as depreciation expense over a number of years based on the property's useful life. Traditional financial accounting rules required the cost of depreciable tangible personal property to be recovered pro rata over a period intended to approximate the property's anticipated actual useful life. This depreciation schedule is referred to as the "straight-line" method. The Internal Revenue Code (the "Code") follows the general approach to cost recovery described above by providing depreciation schedules applicable to different classes of property. However, the Code permits taxpayers to use depreciation schedules that are more favorable than straight-line depreciation. Specifically, the Code adopts the Modified Accelerated Cost Recovery System (MACRS), which allows accelerated cost recovery over a period that is shorter than the property's anticipated useful life and allows more of the cost of the property to be deducted in the first few years of an asset's life, and relatively less later. In addition to such accelerated depreciation, MACRS allows taxpayers to elect to use an alternative method that conforms more closely to traditional financial accounting rules by requiring the use of straight-line depreciation. Massachusetts conforms to MACRS for purposes of determining taxable net income under the corporate excise and taxable income under the personal income tax. The state tax expenditure is a result of this conformity. Allowing accelerated depreciation under MACRS is a tax expenditure because it allows a larger depreciation deduction earlier in an asset's life than would be allowed under alternative depreciation. To the extent that taxpayers employ accelerated depreciation instead of alternative depreciation, a temporary reduction of tax results. The reduction is temporary because the depreciation deduction is smaller in the later years of an asset's useful life. The temporary deferral of tax can be viewed as an interest-free loan from the Commonwealth to taxpayers.

Origin: IRC §168

Estimate: $115.4

2.306 Expense Deduction for Excess First-Year Business Assets

An essential characteristic of a business income tax is that it is imposed on the net of business receipts over deductible business expenses. However, an immediate deduction is generally not allowed for the full cost of durable business property that has a useful life measured in years. Rather, the cost of such property must be capitalized and deducted as depreciation expense over a number of years based on the property's useful life. The Internal Revenue Code (the "Code") adopts this approach in providing depreciation schedules applicable to different classes of property. The net income measure of the Massachusetts corporate excise and the Massachusetts personal income tax both adopt the federal depreciation rules, with modifications not relevant to this report. Code § 179 allows taxpayers an election to immediately deduct in a given year 100% of the cost of depreciable property placed in service in that year, up to a limit of $1 million. If the taxpayer's asset purchases for the year exceed $2.5 million, the deduction is reduced on a dollar-for-dollar basis for each additional dollar spent. Both these thresholds are adjusted annually for inflation. The Code § 179 deduction is allowed in addition to the allowable depreciation deduction, but the basis for depreciation is reduced by the amount of the deduction. Massachusetts conforms to the Code § 179 deduction for both corporate excise net income tax and personal income tax purposes. The Massachusetts tax expenditure is a result of this conformity. The Code § 179 deduction is a tax expenditure because it allows the cost of eligible assets to be deducted earlier in an asset's useful life, resulting in a temporary reduction of tax. The tax reduction is temporary because it reduces the allowable depreciation deduction later in the asset's useful life. The deferral of tax can be viewed as an interest-free loan from the Commonwealth to taxpayers.

Origin: IRC §179

Estimate: $9.3

2.307 Modified Accelerated Depreciation on Buildings (other than Rental Housing)

An essential characteristic of a business income tax is that it is imposed on the net of business receipts over deductible business expenses. However, an immediate deduction is generally not allowed for the full cost of buildings, which have a useful life measured in years. Rather, the cost of such property must be capitalized and deducted as depreciation expense over a number of years based on the property's useful life. Traditional financial accounting rules required the cost of buildings to be recovered pro rata over a period intended to approximate the property's anticipated actual useful life. This depreciation schedule is referred to as the "straight-line" method. The Internal Revenue Code (the "Code") follows the general approach to cost recovery described above by providing depreciation schedules applicable to different classes of property. Since 1993, the Code has allowed nonresidential buildings to be depreciated using straight-line depreciation over 39 years. The Code refers to this method as "accelerated". The Code also provides an option to use straight-line depreciation over a period of 40 years. This method is considered to conform to traditional financial accounting rules. The benefit of using the 39-year recovery period instead of the 40-year recovery period is a federal tax expenditure to which Massachusetts conforms. The expenditure also reflects more favorable federal depreciation rules in effect for nonresidential buildings prior to 1993. These rules allowed a larger depreciation deduction over a shorter recovery period than the current Code rules. For example, a building placed in service in 1992 could be depreciated over 31.5 years. Some of buildings placed in service prior to 1993 are still in service and continue to be depreciated under these historical rules. For such legacy buildings, the Code allows more of the cost of the property to be deducted than would be allowed under the current depreciation rules. This legacy effect is also considered to be part of the federal tax

expenditure. Massachusetts generally adopts the business expense deductions allowed under the Code, including the federal deduction for depreciation. Specifically, Massachusetts allows the use of the 39-year accelerated recovery period for nonresidential buildings under the current Code and adopts the favorable historic rules applicable to legacy buildings under the Code. These rules allow a larger depreciation deduction in the earlier years of the useful life of nonresidential buildings than would be available under traditional accounting concepts. However, the depreciation deduction is smaller in the later years. The net result is a temporary reduction, or deferral, of tax. The deferral of tax can be viewed as an interest-free loan from the Commonwealth to taxpayers.

Origin: IRC §168

Estimate: $3.2

2.308 Expensing Research and Experimental Expenditures in One Year

Taxpayers may elect to treat research or experimental expenditures incurred in connection with a trade or business as currently deductible expenses, and not chargeable to their capital account. Under generally accepted accounting principles, at least some of these expenses would otherwise be treated as capital expenditures and depreciated or amortized over a period of years. The current deduction constitutes a tax expenditure, resulting in a deferral of tax similar to an interest-free loan

Origin: IRC §174

Estimate: $0.0

2.309 Expensing Exploration and Development Costs

Certain capital costs incurred in bringing a known mineral deposit into production are deductible in the year incurred. A portion of domestic mining exploration costs can also be expensed, although they will be recaptured if the mine reaches the production stage. Certain intangible drilling and development costs of domestic oil, gas, and geothermal wells are deductible when made, but to a certain extent may be recaptured upon disposition of oil, gas, or geothermal property to which they are properly chargeable. The immediate expensing of these costs, which would otherwise be capitalized and recovered through depreciation or through depletion as the natural resource is removed from the ground, results in a deferral of tax or an interest-free loan.

Origin: IRC §§193, 263(c), 616, 617; M.G.L. c. 63, §30.4

Estimate: $0.0

2.311 Five-Year Amortization of Pollution Control Facilities

Due to Massachusetts' reliance on the Internal Revenue Code (Code) for purposes of determining income, taxpayers may elect to amortize the cost of a certified pollution control facility over a five-year period, allowing for potential accelerated recovery of these costs. See Code § 169. Five-year amortization is only available for pollution control facilities subsequently added to plants that were in operation before 1976. In the absence of Code § 169, taxpayers would be required to recover the cost of pollution control facilities using one of the depreciation methods that is generally available for machinery and equipment under Code § 167. To the extent that five-year amortization allows accelerated cost recovery, it results in a deferral of tax, which could be viewed as an interest-free loan.

Such a deferral of tax constitutes a tax expenditure.

Origin: IRC § 169; M.G.L. c. 63, § 30.3

Estimate: $0.3

2.312 Expensing of Alternative Energy Units

Massachusetts General Laws chapter 63, § 38H, adopted in 1976, allows a corporation to deduct "expenditures paid or incurred during the taxable year with respect to the installation of any solar or wind powered climatic control unit and any solar or wind powered water heating unit, or any other type of unit or system powered thereby." Without this provision, such costs would have to be capitalized and depreciated. To qualify for the deduction, the equipment must be located in Massachusetts and used exclusively in the trade or business of the corporation. The statute provides that equipment must meet certain technical standards that are required to be set by a now-defunct state agency – the Bureau of Building Construction. In the past, a corporation was required to submit technical documentation regarding the equipment to the Bureau of Building Construction for certification of the deduction. The Bureau of Building Construction was abolished in 1980 and was absorbed by the Division of Capital Planning and Operations ("DCPO"), which was subsequently renamed the Division of Capital Asset Management & Maintenance ("DCAMM"). There is now no certification process in place and no current published guidance in effect. DOR has received few inquiries regarding the deduction. One of the reasons for this may be that there are other tax benefits available to corporations with respect to alternative energy equipment that are generally more favorable, such as expensing under Internal Revenue Code §§ 179, 179D and depreciation under Code §§ 167, 168. Further, as noted, no state agency is currently responsible for issuing certification standards, guidelines or regulations defining eligible equipment or corporations seeking to take the § 38H deduction.

Origin: M.G.L. c. 63, §38H

Estimate: Not Active

2.313 Seven-Year Amortization for Reforestation

Taxpayers may elect to amortize reforestation costs for qualified timber property over a seven-year period. In the absence of this special provision, these costs would be capitalized and depreciated over a longer period or recovered when the timber is sold. The accelerated cost recovery results in a deferral of tax or an interest-free loan.

Origin: IRC §194

Estimate: $0.2

2.314 Expensing of Certain Capital Outlays of Farmers

Income tax or corporate excise as applied to business activity is typically imposed on the net of business receipts over deductible business expenses. However, an immediate deduction is generally not allowed for the full cost of items that will be used over multiple years. Rather, the cost of such items must be capitalized and deducted as depreciation or amortization expenses over several years, based on the item's useful life. Code §§ 175 and 180 provide exceptions to the capitalization requirement for expenses incurred by farmers for (i) soil and water conservation expenses and (ii) fertilizer costs, respectively.

Code § 175 allows a deduction for soil and water conservation expenses in the year they are incurred even if the conservation measures provide a benefit over a number of years. The deduction cannot exceed 25% of a taxpayer's gross income derived from farming. To qualify for an immediate deduction, expenses must be consistent with a plan approved by the federal Department of Agriculture or a similar state agency. Eligible expenses include amounts paid for (i) the treatment or moving of earth, including leveling, grading and terracing, (ii) contour furrowing, (ii) the construction, control, and protection of diversion channels, drainage ditches, earthen dams, watercourses, outlets, and ponds, (iv) the eradication of brush, (v) the planting of windbreaks, and (vi) expenses incurred in preserving endangered animal species under a recovery plan approved pursuant to the federal Endangered Species Act of 1973. Code § 180 allows the immediate deduction of fertilizer costs even if the fertilizer's effect lasts for multiple years. There is no limit on the amount of the deduction and no requirement that the expenses be approved by any federal or state agency. Massachusetts generally adopts the business expense deductions allowed under the Code, including the federal deduction allowed to farmers for soil and water conservation expenses and fertilizer costs. Thus, Massachusetts conforms to the federal provisions allowing farmers to deduct such expenses immediately, rather than recovering the expense over a period of years. The net result is a temporary reduction, or deferral, of tax. The deferral of tax can be viewed as an interest-free loan from the Commonwealth to farmers. The deferral constitutes a Massachusetts tax expenditure.

Origin: IRC §§ 175, 180 and MGL c. 63, § 30

Estimate: $0.1

## 2.400 ADJUSTMENTS TO APPORTIONMENT FORMULA

### 2.401 Unequal Weighting of Sales, Payroll, and Property in the Apportionment Formula

Apportionment formulas are used throughout the country to determine the share of a multistate corporation's income that an individual state may tax. Massachusetts employs such formulas. Corporations with a presence both in Massachusetts and in other states generally apportion income to the Commonwealth using a three-factor apportionment formula. A corporation's sales, payroll, and property in Massachusetts are compared to those outside Massachusetts and the resulting percentage is applied to total income to determine income taxable in the Commonwealth. Double-Weighted Sales Factor An apportionment calculation that counts the sales factor twice (so-called "double-weighted sales") was adopted for most business corporations beginning with taxable years ending on or after December 31, 1976. Companies with property and payroll in Massachusetts and sales in other states tend to benefit from an apportionment formula that weights sales more heavily than the other factors. On the other hand, businesses located outside of the state with a large volume of sales into Massachusetts are hurt by double weighted sales factor formula. On balance, apportionment with double-weighted sales factor is a tax expenditure. Single-Sales Factor Certain corporations are permitted to apportion their income using only the sales factor (so- called "single-sales factor" apportionment). Eligible defense corporations were permitted to apportion using a single-sales factor formula starting in 1996. Single-sales factor apportionment was extended to other qualified manufacturers (referred to in this report as "section 38 manufacturers") in 2000. Starting in 1997, corporations that perform services for a mutual fund are allowed to apportion their income to Massachusetts based solely on the percentage of the mutual fund's shareholders that are Massachusetts residents. As is the case with double-weighted sales factor, not all corporations that apportion using single-sales factor benefit from the rule, in particular those that are located outside of Massachusetts. However, on balance, single-sales factor

apportionment is a tax expenditure.

Effective January 1, 2025, all corporations are required to apportion their income using a single-sales factor. Accordingly, DOR will reevaluate whether this item constitutes a tax expenditure. The FY26 impact of this item is not available.

Origin: M.G.L. c. 63, §38 (c), (k), (l), (m)

Estimate: N.A.

## 2.500 EXCLUSIONS FROM PROPERTY COMPONENT

### 2.501 Nontaxation of Certain Energy Property

This tax expenditure allows a corporate excise deduction for certain alternative energy property. It is not currently active, although the statute authorizing it is still in effect, because the deduction requires certification by a state agency that no longer exists. In the absence of that agency or a successor agency to certify the property, no exemption can be allowed. These circumstances are further explained below. In addition to a tax on net income, the Massachusetts corporate excise also imposes a tax on net worth or tangible personal property. The tax on tangible personal property applies if the book value of the taxpayer's tangible personal property located in Massachusetts and not subject to local taxation is ten percent or more of the taxpayer's total assets (with certain adjustments). If this is the case, the non-income measure of the corporate excise is based on the book value of the corporation's tangible property located in Massachusetts and is not subject to local tax. The statute provides for a deduction from tangible property subject to the excise for "expenditures paid or incurred during the taxable year with respect to the installation of any solar or wind powered climatic control unit and any solar or wind powered water heating unit or any other type unit or system powered thereby." The statute further provides that the exemption is limited to equipment "for which the manufacturer's British thermal unit impact statement has been submitted to the director of the bureau of building construction and which have been certified by said director as complying with applicable provisions of regulations and standards issued by him pursuant to law." Historically, the Bureau of Building Construction was responsible for setting construction standards in Massachusetts. In 1980, it was absorbed by the Division of Capital Planning and Operations ("DCPO"), now the Division of Capital Asset Management & Maintenance ("DCAMM"). The Bureau of Construction's function in certifying alternative energy property was not specifically delegated to any successor agency. No certification standards, guidelines or regulations have been established by DCAMM or any other Massachusetts agencies for corporations seeking to take the alternative energy property deduction. As a result of these circumstances this tax expenditure is not active.

Origin: M.G.L. c. 63, §38H(f)

Estimate: Not Active

### 2.502 Exemption for Property Subject to Local Taxation

Under M.G.L. c. 63, § 39, all business corporations organized or doing business in Massachusetts are required to pay the corporate excise "for the enjoyment under the protection of the laws of the commonwealth, of the powers, rights, privileges and immunities derived by reason of its existence and operation." The corporate excise is comprised of a net income measure and a non-income measure based on the value of a

corporation's property or net worth, depending upon the type of corporation. In calculating the non-income measure, a taxpayer may exclude property subject to local taxation from the value of the business corporation. M.G.L. c. 59, § 5, paragraph sixteen, identifies what property of a business corporation is exempt from local taxation. Generally, the state taxes only the machinery of manufacturing corporations, but it exempts business real estate and tangible personal property. For purposes of estimating revenue loss from this tax expenditure, the state's rate on property (non-income measure), $2.60 per $1,000, has been applied. The incentive to exempt property subject to local taxation from the value of the property/net worth measure was enacted in 1962. Note that corporations are subject to the non-income measure of corporate excise based on different computations depending on whether the corporations are classified as tangible property corporations or intangible property corporations. The determination of whether a corporation is a tangible property corporation or an intangible property corporation is generally made by taking the ratio at book value of: (i) tangible assets located in Massachusetts on the last day of the taxable year and not subject to local taxation to (ii) total assets on the last day of the taxable year (less assets locally taxed and less investments in subsidiary corporations which represent 80% or more of the voting stock of those corporations) multiplied by the income apportionment percentage. If the ratio of (i) to (ii) is 10% or more, the corporation is a "tangible property corporation", if the ratio is less than 10%, the corporation is an "intangible property corporation." For tangible property corporations, the non-income measure of the excise is imposed at a rate of 0.26% on the book value of tangible property located in Massachusetts on the last day of the taxable year and that is not subject to local taxation. For intangible property corporations, the non-income measure of the excise is imposed at a rate of 0.26% on the book value of a corporation's total assets on the last day of the taxable year, less the sum of (i) its liabilities on said date, (ii) the book value of its tangible property situated in Massachusetts on said date and subject to local taxation, and (iii) the book value on said date of its investment in subsidiary corporations which represent 80% or more of the voting stock of said corporations, multiplied by the intangible property corporation's income apportionment percentage.

Estimate: $420.6

**2.600 CREDITS AGAINST TAX**

2.602 Investment Credit

Manufacturing corporations and corporations engaged primarily in research and development, agriculture or commercial fishing are allowed to take an investment tax credit (ITC) of 3% (for tax years ending before January 1, 1993 the rate was 1%) of the cost of qualifying tangible property. Both owners and eligible corporate lessees of property may claim the ITC. Qualifying property includes tangible personal property, real property including buildings and build-outs. It does not include motor vehicles. The property must be depreciable under Code § 167 and have a useful life of four years or more, and it must be used in Massachusetts and situated in Massachusetts on the last day of the taxable year. The maximum amount of ITC allowed in any one taxable year cannot exceed fifty percent of the excise due for the taxable year. The credit is neither transferable nor refundable. A corporation that does not use the full amount of ITC generated in a taxable year because the credit exceeded its excise for the taxable year may carry over the credit, as reduced from year to year, for three years. Any portion of ITC not used in a taxable year because of the fifty percent limitation may be carried over, as reduced from year to year, indefinitely. A portion of the credit is subject to a recapture tax if the qualifying property sold or otherwise

transferred before the end of its useful life, unless the property was in qualified use for more than twelve years. The incentive was enacted on July 1, 1971, and applied to qualifying tangible property acquired, constructed, reconstructed, or erected after December 31, 1969.

Origin: M.G.L. c. 63, §31A (i), (j)

Estimate: $135.1

2.603 Vanpool Credit

The tax expenditure allows business corporations a credit equal to 30% of the cost of company shuttle vans used in Massachusetts in an employer-sponsored ridesharing program. The credit applies to the cost of purchasing or leasing the shuttle vans. The shuttle vans must be used for transporting employees to and from the workplace. The credit is neither transferable nor refundable and cannot be carried forward. Recapture provisions apply to vans that are taken out of vanpool service before the end of their useful lives. If the credit did not exist, the cost of acquiring vans used in vanpools would be borne entirely by employers, who might then be less inclined to provide their employees with vanpool services. The amount of revenue foregone as a result of the credit constitutes a tax expenditure.

Origin: M.G.L. c. 63, §31E

Estimate: Negligible

2.604 Research Credit

Massachusetts provides corporations a credit for increased spending in research and development. The credit is available only for expenditures for research activity conducted in Massachusetts. The Massachusetts research credit, in large part, is based on the research credit allowed under Internal Revenue Code (Code) § 41. In particular, the alternative simplified method for calculating the credit is modeled after the federal alternative simplified method. The credit can be shared among affiliated corporations that are members of the same combined group, subject to limitations. There are two methods for calculating the Massachusetts research credit. Under one method, the amount of the credit is equal to: 10% of the difference between the current year's Massachusetts qualified research expenses and a "base amount" plus 15% of the Massachusetts basic research payments for the taxable year as determined under Code § 41(e)(1)(A). The actual computation of the credit under this method can be complex. Pursuant to legislation enacted in 2014, a taxpayer can now elect to determine its credit using the so-called "alternative simplified method." This method is based on the federal simplified method which was enacted in 2006. Using this method, the amount of the credit is equal to a percentage of the difference between the corporation's qualified research expenses for the current taxable year and 50% of the corporation's average qualified research expenses for the 3 taxable years preceding the taxable year for which the credit is being determined. The percentage used to calculate the credit under the alternate simplified method is being phased in over a 7-year period. For calendar years 2015, 2016 and 2017, a rate of 5 percent was used to calculate the credit under the alternative simplified method, for calendar years 2018, 2019 and 2020, that rate was 7.5 percent and for calendar years beginning on or after January 1, 2021, the rate is 10 percent. Regardless of which method the corporation uses to determine the credit amount to which it is entitled for a taxable year, the amount of research credit that can be used in a taxable year is limited to 100 percent of a corporation's first $25,000 of excise, plus 75 percent of the corporation's excise in excess

of $25,000. A single $25,000 amount applies to affiliated groups of corporations. Credit not used because of the limitations generally can be carried over for 15 years. In certain instances, the credit can be carried forward indefinitely. The research credit is not transferable and generally is not refundable. However, a certified Life Science Company may apply to the Massachusetts Life Science Center and a certified Climatetech company may apply to the Massachusetts clean energy center for a refund of a portion of its available excess research credits in lieu of carrying such credits forward for use in later years.

Origin: M.G.L. c. 63, § 38M

Estimate: $1,054.2

2.605 Economic Development Incentive Program Credit

Under the Economic Development Incentive Program (EDIP), the Economic Assistance Coordination Council (EACC) may award tax credits to taxpayers that participate in a "certified project" (as defined in G.L. c. 23A, §§ 3A and 3F). The amount of credit allowed in each case is determined by the EACC based on numerous factors set forth in G.L. c. 23A, § 3D, including the number of jobs expected to be created, the amount of capital to be invested, and the net new economic benefit expected to be created. The EACC may designate the credit as refundable for any certified project. Unless designated as refundable, the maximum amount of credit allowed in any one taxable year cannot exceed fifty percent of the excise due for the taxable year. The amount of credit allowed cannot reduce the excise below the minimum excise. The EACC is authorized to eliminate or limit carry-over of the credit. The EDIP credits used in a calendar year are subject to an annual cap of $30 million. Recapture is required if the EACC revokes a business project certification The credit is not transferable; however, if a certified project is sold or otherwise disposed of, the credit allowed may be transferred to the purchaser of the certified project, provided that the EDIP contract is assigned to and assumed by the purchaser and approved in writing by the EACC. When it was first enacted in 1993, the credit was for a fixed 5 percent of the costs of qualifying tangible property, and the project had to be located in a designated "economic opportunity area". In 2010, the statute was amended to increase the percentage to "up to 10 percent" and "up to a refundable forty percent" in some cases, eliminate the "economic opportunity area" requirement and impose an annual cap of $25 million. As of 2017, the credit is whatever amount is awarded by the EACC as part of the certification process.

Origin: M.G.L. c. 63, §38N

Estimate: $29.7

2.606 Credit for Employing Former Full-Employment Program Participants

This tax expenditure is no longer in effect. It previously provided a tax credit for employers who continued to employ former participants in the full employment program adopted by the Department of Transitional Assistance (DTA). The program subsidized the salaries of certain disadvantaged individuals. The credit was equal to $100 per month for each month of non-subsidized employment, up to a maximum of $1,200 per employee, per year, for each employee retained after DTA subsidies ceased. The credit was required to be authorized by the DTA. The credit was neither transferable nor refundable. The reduction of revenue resulting from the credit constituted a state tax expenditure. The full employment program was created by St. 1995, c. 5, § 110(m) but was never codified into the General Laws. The law authorizing the program was never repealed, but the DTA

stopped authorizing the credit in 2016 . Because the credit may be carried forward for only a maximum of five years, no carryover of the credit can apply after 2021. As a result of these circumstances, this tax expenditure is not active.

Origin: St. 1995, c. 5, §110(m)

Estimate: Not Active

2.607 Harbor Maintenance Credit

Domestic and foreign corporations that are shippers, importers, or exporters are allowed to claim a dollar-for-dollar credit against the corporate excise for certain harbor maintenance taxes paid to the federal government. To qualify for the credit the federal tax paid must be attributable to the shipment of break-bulk or containerized cargo by sea and ocean-going vessels through one of three designated Massachusetts ports. The allowable credit is not subject to the 50% limitation of G.L. c. 63, §32C. The credit may not reduce the taxpayer's corporate excise due below the minimum excise, currently $456. The credit is not refundable or transferable. Unused credit may be carried forward for up to 5 years. The expenditure was enacted on August 9, 1996, applicable to harbor maintenance tax paid on or after July 1, 1996. The FY22 Budget repeals the credit effective for taxable years beginning on or after January 1, 2022. However, unused portions of the credit claimed in taxable years beginning before January 1, 2022 may continue to be carried forward.

Origin: M.G.L. c. 63, §38P

Estimate: Expired

2.608 Brownfields Credit

Taxpayers are allowed to claim a credit for amounts expended to remediate contaminated property owned or leased for business purposes and located within an economically distressed area. The Brownfields credit may be claimed by a business corporation that commences and diligently pursues an environmental response action and achieves and maintains a permanent solution or remedy operation status in compliance with chapter 21E. Taxpayers may sell, transfer, or assign the credit. The environmental response action must be commenced on or before August 5, 2028, and eligible costs that qualify for the credit must be incurred before January 1, 2029. The credit may be carried forward for up to 5 years. The amount of the credit varies according to the extent of the environmental remedy. If the taxpayer's permanent solution or remedy operation status includes an activity and use limitation, then the amount of the credit is 25% of the net response and removal costs incurred by the taxpayer. However, if there is no activity and use limitation, then the amount of the credit is 50% of the net response and removal costs.

Origin: M.G.L. c. 63, §38Q.

Estimate: $26.5

2.609 Low Income Housing Credit

The Low-Income Housing Tax Credit (LIHTC) is available to corporate excise taxpayers as well that invest in low-income housing projects that meet federal and state eligibility rules. The credit is part of a federal program that authorizes a federal credit for such investments and subsidizes state credits for eligible projects. The Executive Office of Housing and Livable Communities (EOHLC) DHCD), determines eligibility for, and the amount of, the

Massachusetts credit pursuant to federal guidelines. The LIHTC has two components. First, the Standard LIHTC is allowed for the construction or development of new low-income housing or the preservation and improvement of existing federal or state subsidized housing. Second, the Donation LIHTC is allowed for the donation of real or personal property to non-profit entities for use in purchasing, constructing, or rehabilitating housing projects otherwise eligible for the LIHTC. The amount of credit that Massachusetts taxpayers may claim is determined by the EOHLC, subject to the rules set out in Internal Revenue Code (Code) § 42. Under those rules the amount of the Standard LIHTC is based on a number of factors, including the cost of the project. The Donation LIHTC is generally equal to 50% of the value of the donation, but the EOHLC can increase that amount to 65% if necessary for the viability of a specific project. To qualify for the credit, a project must meet affordability standards set out in Code § 42. Effective January 1, 2023, the Massachusetts LIHTC is subject to an annual statewide cap of $60 million. EOHLC allocates the credit to taxpayers in accordance with federal and state law. The LIHTC can be used to offset the entire Massachusetts tax liability of a personal income taxpayer and all the tax liability of a corporate taxpayer except for the $456 minimum excise. Unused Standard LIHTC can be carried over for five years. However, the Donation LIHTC must be used in the taxable year that the donation is made. If the taxpayer disposes of the property generating the LIHTC, a portion of the credit may be subject to recapture. The Massachusetts LIHTC is transferable.

Origin: M.G.L. c. 63, §31H

Estimate: $214.4

2.610 Historic Buildings Rehabilitation Credit

The Massachusetts historic rehabilitation tax credit ("MHRTC") is a credit equal to a percentage, not to exceed 20%, of the qualified rehabilitation expenditures made by a taxpayer in rehabilitating a qualified historic structure which has received final certification by the Massachusetts Historical Commission ("MHC") and has been placed in service. The MHRTC is available to both chapter 62 (personal income) and chapter 63 (corporate) taxpayers. Unused portions of the MHRTC may be carried forward for up to 5 years and may be transferred or sold to another taxpayer, but are not refundable. The MHRTC cannot be used to reduce the corporate excise due below the minimum excise provided by G.L. c. 63, § 39(b), currently $456. The allowable corporate credit is not subject to the 50% limitation of G.L. c. 63, § 32C. If, before the end of the five-year period beginning on the date on which the qualified historic structure received final certification and was placed in service, the taxpayer disposes of its interest in the structure, the credit will be subject to recapture and the taxpayer's tax for the taxable year in which the disposition occurs will be increased by the recapture amount. The original annual cap was set at $15 million per year, effective for taxable years beginning January 1, 2005 and ending December 31, 2009. Then it increased to $50 million per year, for taxable years beginning January 1, 2017 and ending December 31, 2022. However, it soon again changed to $55 million per year, effective for taxable years beginning January 1, 2018 and ending December 31, 2022. The FY22 Budget extend the credit to tax years ending on or before December 31, 2027. Recently, for taxable years beginning on or after January 1, 2024, the annual cap has been increased to $110 million. The credit has been extended further to taxable years ending on or before December 31, 2030. Effective August 13, 2014, taxpayers subject to the personal income tax imposed by G.L. c. 62 that acquire a qualified historic structure may transfer MHRTC awards subject to criteria established by the MHC. In the case of a multi-phased project MHRTC awards may be transferred for any phase of the project that meets the MHC's criteria. Effective August 10, 2016, MHRTC awards also may be transferred by taxpayers subject to the corporate excise under G.L. c. 63. See TIR 15-6 and 16-15.

Origin: M.G.L c. 63, §38R

Estimate: $84.8

2.614 Film or Motion Picture Credit

The Massachusetts film tax incentives, as amended in July 2007, are allowed for taxpayers engaged in the production of feature-length films, videos, digital media projects, television series, and commercials, for theatrical or television viewing. The statute makes no reference to productions that are instead made for viewing on the Internet. The film tax incentives consist of a tax credit equal to 25% of a film's production cost and 25% of a film's payroll cost, and an exemption from sales tax for film productions. The incentives are dependent upon a taxpayer incurring Massachusetts production expenses of at least $50,000 in a twelve-month period. Assuming that threshold requirement is met, a taxpayer may claim the payroll portion of the credit for any in-state employment of persons in connection with the filming and production of a motion picture, so long as the payment constitutes Massachusetts source income to the recipient. The credits were due to expire on January 1, 2023. However, the FY22 Budget amends "An Act Providing Incentives to the Motion Picture Industry," which created the film incentive credits, to make them permanent. The FY22 Budget also amends credit eligibility with respect to production expenses. For taxable years beginning on or after January 1, 2022, a taxpayer must incur at least 75% of its production expenses in Massachusetts for a film project to qualify for the credit. A 50% threshold applies to prior taxable years. The tax credits are available to both corporate excise and personal income tax filers and can be used to reduce the taxpayer's liability. At the taxpayer's election, the Department of Revenue will refund 90% of any amount of the tax credit that exceeds the taxpayer's liability. The tax credits may also be transferred or sold by taxpayers to third parties that may use the tax credits to reduce their Massachusetts corporate, insurance, financial institution, or personal income tax liabilities.

Origin: M.G.L. c. 63, §38X

Estimate: $78.0

2.615 Medical Device-User Fee Credit

Medical device companies subject to tax under either the personal income tax under M.G.L. c. 62 or a corporate excise under M.G.L. c. 63, and which develop or manufacture medical devices in Massachusetts can claim a transferable credit equal to 100% of the user fees paid by them when submitting certain medical device applications and supplements to the FDA. The credit may not be carried forward to subsequent tax years and is not refundable. However, unused portions of the credit may be transferred, and the transferee may carry over the credit, but must use it within 5 years. This particular tax expenditure was enacted on July 8, 2006, making the incentive applicable from tax years beginning on or after January 1, 2006. St. 2006, c. 144, 145. The FY22 Budget repeals the credit effective for taxable years beginning on or after January 1, 2022. However, taxpayers will still be able to transfer previously awarded credits, and transferees will be able to apply unused amounts of the credit within five years of the credit's transfer.

Estimate: Expired

2.617 Life Sciences Tax Incentive Program

While often referred to as a singular "Life Science credit," Massachusetts offers an array of life sciences tax incentives for the life sciences industry, which consist of multiple tax credits, a corporate excise deduction, and a sales and use tax exemption. The original tax incentives enacted in "An Act Providing for the Investment in and Expansion of the Life Sciences Industry in the Commonwealth," (St. 2008, c. 130), include the following tax credits: the Life Sciences FDA User Fees Tax Credit, the Life Sciences Refundable Investment Tax Credit, and the Life Sciences Research Tax Credit (and also a modified version of the standard Research Tax Credit); as well as a corporate excise deduction allowing for the deduction of qualified clinical expenses for certain drugs that would not be fully deductible otherwise, and a sales and use tax exemption for materials used to construct a life sciences facility. Effective January 1, 2011, the Life Sciences Refundable Jobs Tax Credit was added to this program (St. 2011, c. 58, §§ 65, 70). The Angel Investor Tax Credit was added to the ambit of life sciences tax incentives (St. 2016, c. 219, § 139) ), but is no longer available for taxable years beginning on or after January 1, 2024. While most of the tax credits are available to life sciences companies subject to either the personal income tax or the corporate excise the Life Sciences Research Tax Credit and the modified version of the standard Research Tax Credit are available only to life sciences companies subject to a corporate excise and the Angel Investor Tax Credit was only available to personal income taxpayers. The Life Sciences Tax Incentive Program is administered by the Massachusetts Life Sciences Center (MLSC). The MLSC is charged with reviewing and as appropriate approving applications from life sciences companies which certifies them as eligible for various life sciences tax incentives. The life sciences tax incentives are available only to certified life sciences companies to the extent authorized by the MLSC. Prior to receiving any life sciences tax incentives a company must be certified by the MLSC. To become a certified life sciences company the company must apply to the MLSC by a date set by the MLSC. The company must be registered to do business in Massachusetts maintain at least 10 full-time employees as of the end of the previous calendar year and be in good standing with the Secretary of the Commonwealth and the Massachusetts Department of Revenue. In evaluating an applicant the MLSC considers certain criteria such as whether the applicant has shown it has the ability to create and retain jobs for five years as well as general considerations including a wide geographic distribution of life sciences operations In Massachusetts a wide distribution of life sciences technologies and industries supported by the MLSC and diversity among businesses at different stages of product development and commercialization. The MLSC particularly encourages companies from outside Greater Boston to apply. All of the life sciences tax incentives provided to a life sciences company are subject to recapture if the life sciences company's certification is revoked by the MLSC. Effective for taxable years beginning on or after January 1, 2024, the annual amount of life science tax incentives that can be authorized has been increased from $30,000,000 to $40,000,000.

Estimate: $17.0

2.618 Dairy Farmer Credit

A taxpayer who holds a certificate of registration as a dairy farmer pursuant to M.G.L. Ch. 94, § 16A is allowed to take a refundable tax credit based on the amount of milk produced and sold. The Massachusetts dairy farmer tax credit was established to offset the cyclical downturns in milk prices paid to dairy farmers and is based on the U.S. Federal Milk Marketing Order for the applicable market, such that when the U.S. Federal Milk Marketing Order price drops below a trigger price anytime during the taxable year the taxpayer will be

entitled to the tax credit. Effective January 1, 2023, the total cumulative value of the credits authorized pursuant to this section combined with M.G.L. c. 63, § 38Z is $8 million. These credits may not be sold or transferred to another taxpayer, but are fully refundable. See personal income tax item 1.614 for more details.

Origin: M.G.L. c. 63, §38Z

Estimate: $1.5

2.619 Conservation Land Credit

A tax credit is allowed for qualified donations of certified land to a public or private conservation agency. The credit is equal to 50% of the fair market value of the qualified donation. The amount of the credit that may be claimed by a taxpayer for each qualified donation cannot exceed $75,000. Approval of the donation is required from the Secretary of the Office of Energy & Environment Affairs. The credits may not be sold or transferred to another taxpayer, but are refundable. The total credits that may be approved are capped at $2.0 million annually for the combined amount from personal income tax filers and chapter 63 taxpayers.

Origin: M.G.L. c. 63, §38AA

Estimate: $0.0

2.620 Employer Wellness Program Credit

The 2012 Health Care Act established an Employer Wellness Program Tax Credit effective for tax years beginning on or after January 1, 2013 and which expired on December 31, 2017. The tax credit was created to provide incentives for business to recognize the benefits of wellness programs with the goal of providing smaller businesses with an expanded opportunity to implement these programs. The credit, available to both personal income taxpayers and corporate & business excise taxpayers, was set at 25 percent of the costs associated with implementing a "certified wellness program." The maximum amount of credits available to a taxpayer was $10,000 in any tax year. The credit was neither refundable nor transferrable. However, the portion of the tax credit that exceeded the tax for the taxable year was allowed to be carried forward and applied against the taxpayer's tax liability in any of the succeeding 5 taxable years. The Department of Public Health has promulgated a regulation, 105 CMR 216.000, entitled Massachusetts Wellness Tax Credit Incentive, which set forth criteria for authorizing and certifying the credit. This credit has expired and is no longer available to employers for taxable years beginning after December 31, 2017. However, certain unused credits previously granted to personal income or corporate excise taxpayers remain available to be claimed against their tax liability incurred during tax years up until the period beginning on January 1, 2023.

Origin: St. 2012, c. 224, §§41, 41A, 56, 56A, 238, 239, 297, and 298; M.G.L. c. 63, §38FF

Estimate: $0.1

2.621 Community Investment Credit

A personal income tax and corporate excise credit equal to 50% of the total amount of qualified investments made by a taxpayer in a "community partner." A Qualified investment is a cash contribution made to: (i) a specific community partner to support the implementation of the community partner's approved community investment plan, or (ii) a

community partnership fund. Community partners include "community development corporations" and "community support organizations" selected by the Executive Office of Housing and Livable Communities (EOHLC) through a competitive process. A "community partnership fund" is a fund administered by a nonprofit organization selected by the EOHLC to receive qualified investments from taxpayers for the purpose of allocating the investments to community partners. A "community development corporation" is a non-profit corporation dedicated to improving the economic well-being of communities in the Commonwealth, as certified by the EOHLC. A "community support organization" is any nonprofit organization which is not a community development corporation "but has a focus on and track record of providing capacity building services to community development corporations." A qualified investment must be in the form of a cash contribution of at least $1,000. A taxpayer must claim the credit in the taxable year in which a qualified investment is made. The credit is refundable, or alternatively may be carried forward by the taxpayer for 5 years. The credit is not transferable. The EOHLC is mainly responsible for administering the credit. The EOHLC determines whether an organization is a community partner and decides whether projects proposed by community partners will be eligible for the credit. The total cumulative value of all credits authorized may not exceed $12 million in any taxable beginning in 2023 or later. Prior limits were $10 million for 2021 and 2022 taxable years, $8 million for 2019 and 2020 taxable tears, $6 million for 2015 through 2018 taxable years, and $3 million for 2014 taxable years. For taxable years beginning on or after January 1, 2025, the annual cap has been increased from $12 million to $15 million. The credit was due to expire on December 31, 2025, but has been made permanent. The amount of revenue foregone as a result of the credit constitutes a tax expenditure.

Origin: St. 2012, c. 238, §§29, 30, 35, 36 ; M.G.L. c. 63, § 38EE

Estimate: $6.5

2.622 Certified Housing Development Credit

A tax credit is allowed for up to 25% of qualified expenditures in certified housing development projects. The credit is administered by the Executive Office of Housing and Livable Communities (EOHLC). The EOHLC determines the amount of the credit to which a taxpayer is entitled. Qualified expenditures are those costs directly related to the construction or substantial rehabilitation of residential property located in designated areas of gateway municipalities. Qualified expenditures do not include the initial purchase price of the property. To be considered a certified housing development a project must meet a number of requirements. Specifically, the project must contain two or more housing units. In addition, 80% of the units contained in the project must be priced consistently with prevailing rents or sale prices in the city or town where the property is located. Finally, the city or town must have adopted full or partial property tax exemptions for projects that are otherwise eligible for the credit. A taxpayer can claim a credit equal to the amount awarded by the EOHLC. The total amount of credits awarded in the Commonwealth cannot exceed $57 million for calendar year 2023 and $30 million for subsequent years. The credit is available for the tax year in which the EOHLC gives the Department of Revenue (DOR) written notification of completion of the certified housing development project. The credit may be claimed against the full amount of the recipient's tax liability, except that corporations may not use the credit to offset the $456 minimum excise. Unused credits may be carried forward for ten years. Taxpayers are allowed to sell their credits to third parties. The amount of revenue foregone as a result of the credit constitutes a tax expenditure.

Estimate: $16.0

2.623 Veteran's Hire Credit

Certain employers that hire "qualified veterans" who live and work in Massachusetts may be eligible to claim a tax credit equal to $2,000 for each qualified veteran hired. In order to be eligible for the credit, the employer must (i) employ less than 100 employees; (ii) be certified by the commissioner of veteran's services; and (iii) qualify for and claim the Work Opportunity Credit allowed under I.R.C. § 51, as amended and in effect for the taxable year. In order to claim the credit, the primary place of employment and the primary residence of the qualified veteran must be in Massachusetts. An employer must obtain certification that the veteran is a qualified veteran from the Department of Career Services (or any successor agency), no later than the employee's first day of work. For taxable years beginning on or after January 1, 2024, the amount of credit a business can claim for each qualified veteran it hires has been increased from $2,000 to $2,500. The credit is non-transferrable and non-refundable. However, any excess amount of credit over the tax due may be carried forward up to 3 subsequent taxable years. The total cumulative value of the credits authorized must not exceed $1 million annually. The credit is available for qualified veterans hired after July 1, 2017 for tax years beginning on or after January 1, 2017. See TIR 17-10 for additional details.

Origin: St. 2017, c. 47; M.G.L. c. 63, §38GG

Estimate: $0.5

2.624 Apprentice Credit

The tax expenditure allows employers to claim a credit against the personal income tax or corporate excise if they establish apprenticeship programs and hire apprentices in designated computer technology, health care technology, or manufacturing occupations. A tax credit is a dollar for dollar offset of the amount of tax that a taxpayer owes. The credit is equal to the lesser of $4,800 or 50% of the wages paid to the apprentice. Employers that claim the credit in a taxable year will be eligible for an additional credit in the following year with respect apprentices that are retained. Apprentices must be Massachusetts residents working for employers with business premises in the Commonwealth. The credit is refundable but nontransferable. The credit applies to taxable years beginning on or after January 1, 2019. Occupations eligible for the credit include a range of jobs in the designated fields. Such occupations generally include jobs that require technical skills but do not necessarily require post-secondary education. To be eligible for the credit, employers must register their apprenticeship programs and program participants with the Massachusetts Executive Office of Labor and Workforce Development, Division of Apprentice Standards. The amount of the credit available to any employer is determined by the Secretary for Labor and Workforce Development in consultation with the Massachusetts Executive Office for Administration and Finance. The total amount of cumulative credit available annually is limited to $2.5 million. Effective from January 1st, 2023, the credit has been extended to apprentices hired and trained by expansion industries identified by the Secretary of Labor and Workforce Development as critical to a regional labor market economy. The credit is a Massachusetts tax expenditure because it reduces the amount of personal income tax and corporate excise revenue that would otherwise be available to appropriate for other purposes.

Estimate: $0.5

2.625 Cranberry Bog Renovation Credit

Effective for tax years beginning on or after January 1, 2020, taxpayers primarily engaged in cranberry production may claim a nontransferable, refundable credit equal to 25% of expenses incurred in the renovation, repair, replacement, regrading or restoration of a cranberry bog for the cultivation, harvesting or production of cranberries. The Secretary for Energy and Environmental Affairs determines eligible costs and the amount of the credit. The amount of credit that can be claimed by a taxpayer for a taxable year cannot exceed $100,000. The annual total cap amount is $2 million. The credit is no longer available for taxable years beginning on or after January 1, 2030.

Origin: M.G.L. c. 63, §38II

Estimate: $1.0

2.626 Disability Hire Credit

Effective for tax years beginning on or after January 1, 2023, employers that hire disabled employees may claim a nontransferable, refundable credit equal to (i) the lesser of $5,000 or 30% of the wages paid to a disabled employee in the employee's first year of employment, and (ii) the lesser of $2,000 or 30% of the wages paid to a disabled employee in each subsequent year of the employee's employment. The credit cannot reduce the excise due below the minimum excise The credit is available to employers provided that (i) the employee is certified by the Massachusetts Rehabilitation Commission as having a disability as defined under the Americans with Disabilities Act, 42 U.S.C. § 12102; (ii) the employee is capable of working independently; (iii) the employee has a mental or physical disability that constitutes or results in a substantial impediment to employment; (iv) the employee is hired after July 1, 2021; (v) the employee's primary place of employment and primary place of residence is in Massachusetts; (vi) the employer must obtain certification from the Massachusetts Rehabilitation Commission that the employee is qualified no later than the employee's first day of work; and (vii) the employer employs the employee for at least 12 consecutive months prior to and in the taxable year in which the credit is claimed.

Origin: M.G.L. c. 63, §38JJ

Estimate: $1.0

2.627 Offshore Wind Tax Incentive Program

The Massachusetts offshore wind tax incentive program consists of two tax credits, a Wind Power Incentive Jobs Credit and a Wind Power Incentive Investment Credit, for offshore wind companies subject to either the personal income tax or the corporate excise. The credits are available to certified offshore wind companies only to the extent authorized by the Massachusetts Clean Energy Technology Center (the "Center"), may be claimed starting with taxable years beginning on or after January 1, 2023, share an annual cap of $35 million, are subject to recapture in the event that the offshore wind company's certification is revoked by the Center, and expire on January 1, 2033. The Wind Power Incentive Jobs Credit is available to certified offshore wind companies that commit to the creation of a minimum of 50 net new permanent full-time employees in Massachusetts.Effective for taxable years beginning on or after January 1, 2024, certified offshore wind companies must commit to the creation of a minimum of 10 net new permanent full-time employees in Massachusetts. Where the credit exceeds the taxpayer's liability for the taxable year, 90 percent of such excess credit may be refunded to the taxpayer. Excess credit amounts cannot be carried forward to subsequent taxable years.

The Wind Power Incentive Investment Credit is available for certified offshore wind companies that make a capital investment in an offshore wind facility that they either own or lease in an amount up to 50 percent of such investment. The total amount of the credit awarded is distributed in equal parts over five taxable years that correspond to the period in which the offshore wind company is certified. Eligibility requirements vary depending on whether the certified offshore wind company owns or leases the offshore wind facility, but, in general, the certified offshore wind company must demonstrate to the Center that (i) it has a total capital investment in an offshore wind facility that equals not less than $35 million; and (ii) the offshore wind facility must employ not less than 200 new full-time employees by the fifth year of the offshore wind company's certification. A certified offshore wind company claiming this credit may not also claim the Wind Power Incentive Jobs Credit or the Economic Development Incentive Program Credit provided by M.G.L. c. 63, § 38N in the same taxable year.

Origin: M.G.L. c. 23J, §8A; M.G.L. c. 63, §§38LL; 38MM

Estimate: $7.3

2.628 National Guard Credit

A business corporation employing not more than 100 employees may be allowed a credit equal to $2,000 for each member of the Massachusetts national guard hired by the business corporation. To be eligible for a credit: (i) the primary place of employment and the primary residence of the member of the Massachusetts national guard must be in Massachusetts; and (ii) not later than the day an individual begins work, the business corporation shall have obtained the applicable certification from the office of the adjutant general that the individual is a member of the Massachusetts national guard. A business corporation that claims this credit is eligible for a second credit of $2,000 in the subsequent taxable year with respect to such member of the Massachusetts national guard, subject to certification of continued employment during the subsequent taxable year. The credit is nontransferable and nonrefundable. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward to any of the three subsequent taxable years. For business corporations subject to a minimum corporate excise, the credit cannot reduce the business corporation's excise liability below the minimum corporate excise amount. The personal income and corporate excise versions of this credit are subject to the same annual cap of $1 million.

Origin: M.G.L. c. 63, §38KK; St.2022, c.154, §8

Estimate: $0.1

2.629 Temporary Authorized Training Credit for Emergency Assistance

Starting with taxable years beginning on or after January 1, 2024, business corporations taxable under G.L. c. 63 that provide training to a qualified trainee through an authorized training program may claim a temporary authorized training tax credit for emergency assistance. A qualified individual is an individual receiving benefits through the emergency housing assistance program pursuant to G.L. c. 23B, § 30. To qualify for the credit, a taxpayer must (1) have a place of business in the Commonwealth; (2) conduct an authorized training program in the Commonwealth that is in compliance with recommendations of the Executive Office of Labor and Workforce Development ("EOLWD"); (3) enroll the qualified trainee in an authorized training program on or after April 30, 2024; and (4) meet any additional requirements determined by the Executive Office for Administration and Finance and EOLWD. The credit is equal to $2,500 for each

qualified trainee that receives the training from the entity. The amount of the credit that exceeds the tax due for a taxable year may be carried forward to the subsequent taxable year. The credit is subject to an annual cap of $10 million. The credit may no longer be claimed as of (1) January 1, 2026; or (2) the taxable year in which the end of the capacity limitation on the emergency shelter assistance program occurs, whichever is sooner. See TIR 24-7 for more information.

Origin: M.G.L. c. 63, § 38NN

Estimate: $8.0

2.630 Massachusetts Homeownership Credit

Starting with taxable years beginning on or after January 1, 2025, taxpayers subject to tax under G.L. c. 63 may claim a Massachusetts homeownership tax credit in relation to a qualified homeownership development project to the extent authorized by the Executive Director of the Massachusetts Housing Finance Agency ("MHFA"). The credit is non-refundable but is transferrable. The amount of the credit authorized by MHFA cannot exceed the maximum credit amount, which is 35% of the lesser of either: (1) the project's total qualified project expenditures calculated on a per single-family dwelling basis; or (2) 80% of the area median new single-family dwelling sales price, subject to further limitations established by MHFA. A sponsor cannot claim the credit before the first taxable year stated on the eligibility certificate issued to the sponsor by MHFA. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward for the duration of the qualified homeownership development project's affordability period, which is a 10-year period that begins as of the date of the first sale of a single-family dwelling that was constructed as part of the project. The credit is subject to recapture if MHFA determines that a sponsor or qualified homeownership development project does not qualify for the credit, ceases to qualify for the credit, or did not qualify for the credit at the time they claimed the credit. The amount of credits that MHFA can authorize annually cannot exceed the sum of (1) $10 million; (2) any credit amounts not authorized in the preceding taxable year; and (3) any credits returned to MHFA by a sponsor. Effective January 1, 2030, the amount of credits that can be authorized annually is the sum of (1) any credit amounts not authorized in the preceding taxable year; and (2) any credits returned to MHFA by a sponsor.

Origin: M.G.L. c. 63, § 38PP

Estimate: $8.0

2.631 Qualified Conversion Project Credit

Starting with taxable years beginning on or after January 1, 2025, taxpayers subject to tax under G.L. c. 63 may claim a refundable, non-transferable qualified conversion credit in relation to a qualified conversion project that has been certified by the Executive Office of Housing and Livable Communities ("EOHLC"). To claim the credit, a sponsor must submit a project proposal to EOHLC requesting the certification of a housing development project as a qualified conversion project. After certifying the project, EOHLC determines the amount of credit awarded to the sponsor, which cannot exceed 10% of the qualified conversion's project's development costs. The credit is allowed for the taxable year in which EOHLC notifies the Commissioner of the certified qualified conversion project's completion. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward to

any of the 10 taxable years subsequent to the taxable year that the credit was allowed. The credit is subject to recapture. The credit is no longer available for taxable years ending after December 31, 2029.

Origin: M.G.L. c. 63, § 38OO

Estimate: $9.0

2.632 Climatetech Tax Incentive Program

Massachusetts provides a climatetech tax incentive program, which is administered by the Massachusetts clean energy center ("CEC"), in consultation with DOR. The tax incentives consist of three tax credits, the climatetech capital investment tax credit, a refundable climatetech jobs tax credit, and a climatetech qualified research expenses tax credit; as well as a sales and use tax exemption for purchases of tangible personal property to be used for the construction of research, development or manufacturing or other commercial climatetech facilities. The incentives all share an annual cap of $30 million and are effective for taxable years beginning on or after January 1, 2024. The climatetech capital investment tax credit is a refundable tax credit available to personal income and corporate excise taxpayers who make capital investments in a climatetech facility. The amount of the credit is determined by the CEC, but cannot exceed 50% of the owner's total capital investment in the facility. The climatetech qualified research expenses tax credit is available to corporate excise taxpayers. The credit amount is based on the taxpayer's qualified research expenses in a manner similar to the standard research expense tax credit. The credit is not refundable, but unused amounts of the credit may be carried forward to the next subsequent 15 taxable years.

Origin: M.G.L. c. 63, § 38RR; M.G.L. c. 63, § 38SS

Estimate: $24.0

2.633 Live Theater Credit

The live theater tax credit program is administered by the Massachusetts Office of Business Development, in consultation with DOR. The credit is available to personal income and corporate excise taxpayers. The amount of the credit cannot exceed $7 million and is equal to (1) 35% is of the total in-state payroll costs; (2) 25% of production and performance expenditures; and (3) 25% of transportation expenditures. The credit is not refundable, but is transferrable. Any unused amount of credit may be carried forward to the next 5 taxable years. The annual amount of credits that can be authorized cannot exceed $7 million. The credit is effective for taxable years beginning on or after January 1, 2025 and expires on January 1, 2030.

Origin: M.G.L. c. 63, § 38QQ

Estimate: $3.5

2.634 Qualified Internship Credit

The qualified internship tax credit is available to personal income and corporate excise taxpayers that hire a qualified intern. The credit is equal to the lesser of $5,000 or 50% of the wages paid to the intern. The annual amount of credits that can be authorized cannot exceed $10 million. A single employer cannot claim more than $100,000 in credits in a taxable year. The credit is effective starting the taxable year beginning on or after January 1 of the first calendar year following the next fiscal year that closes after November 20, 2024 with a consolidated net surplus of at least $400 million. The credit expires on January 1 of the sixth tax year following the effective date of the credit.

Origin: M.G.L. c. 63, § 38UU

Estimate: N.A.

## 2.700 ENTITY EXEMPT FROM TAXATION

2.701 Exemption of Credit Union Income

Credit unions, which are member-owned financial cooperatives, are considered tax-exempt organizations for both federal and state income tax purposes and therefore are generally exempt from the income measure of the corporate excise. However, like other nonprofit entities, unrelated business income of credit unions is subject to the income measure of the corporate excise. In 1909, the enactment of the Massachusetts Credit Union Act (Chapter 419 of the Acts of 1909) authorized the creation of Massachusetts chartered credit unions as tax-exempt entities. In 1934, the enactment of the Federal Credit Union Act, 12 USC § 1751, et seq., authorized the creation of federally chartered credit unions, which are exempt from federal income tax pursuant to 26 USC § 501(c)(14)(a).

Origin: IRC §501(c)(14)(A); M.G.L. c. 63, §30

Estimate: $23.5

2.702 Tax-Exempt Organizations

Internal Revenue Code (IRC) § 501 provides a general exemption from federal income tax for non-profit corporations. As provided in IRC § 512, the exemption does not apply to unrelated business income that such corporations earn from activities outside the scope of their exempt purposes. Massachusetts provides a corporate excise exemption for corporations that qualify for the federal exemption, but subjects unrelated business income to the net income measure of the excise.

Origin: IRC § 501; M.G.L. c. 63, § 30, M.G.L. c. 63, §38Y, M.G.L. c. 63, § 39.

Estimate: $445.6

2.703 Exemption for Regulated Investment Companies

Regulated Investment Companies (RICs) are specialized corporations that serve as investment vehicles. RICs hold securities, receive earnings from those securities and pay out virtually all of their earnings to shareholders. They hire service providers for investment advice and administrative services. RICs are typically established by financial services corporations that sponsor the RIC, provide the RIC's corporate management, and market

shares of the RIC to the investing public. The RIC's management decides whom to hire to provide investment advice and administrative services to the RIC. The service providers hired are frequently subsidiaries or affiliates of the financial services corporation that established the RIC. The RIC itself has no employees and no property other than the securities it holds and its own books and records. Federal tax and securities law imposes limitations on the type of assets RICs can hold and requires RICs to distribute at least 90% of their income as dividends to shareholders. Federal tax law allows RICs a deduction for dividends paid, which is generally not available to other corporations. See Internal Revenue Code § 852(b). The Massachusetts exemption for RICs is a statutory provision that employs the federal definition of a RIC but is not otherwise tied to the federal deduction. The Massachusetts corporate excise imposes a tax on a corporation's apportioned net income and a tax on the corporation's apportioned net worth or tangible property located in Massachusetts. See MG.L. c. 63, § 39. RICs are exempt from both taxes because they are not taxable corporations pursuant to MG.L. c. 63, § 68C(8). This exclusion constitutes a tax expenditure in Massachusetts because, absent the exclusion, RICs would be subject to the corporate excise.

Origin: M.G.L. c. 63, §68C(8); c. 63, §30

Estimate: $516.3

| KEY | ORIGIN | |
|---|---|---|
| | **IRC** | Federal Internal Revenue Code (26 U.S.C.) |
| | **M.G.L.** | Massachusetts General Laws |
| | **U.S.C** | United States Code |
| | **ESTIMATES** | All estimates are in $ millions. |

Massachusetts imposes a sales and use tax on retail sales. In addition to the sales and use tax, there are several separate excises, each limited to a particular type of commodity. These special excises have not been included in this tax expenditure budget.

The Massachusetts sales and use tax, first imposed in 1966, was levied at a rate of 5%. Effective on and after August 1, 2009, the rate was changed from 5% to 6.25%. The sales tax applies to sales made within the state, and the use tax to property and services purchased outside of Massachusetts but intended for use within the state.

Revenue from the sales and use tax represented 22.9% of total Department of Revenue tax collections for Fiscal Year 2024 and was the second largest source of tax revenue after the income tax.

## Sales and Use Tax: Basic Structure

**Tax Base:** For the purposes of this tax expenditure budget, we have chosen not to make any assumptions about the base of the Massachusetts sales and use tax. Some people take a narrow view of what a retail sale is, limiting the term to sales to final consumers, i.e., individuals. Others would include sales to businesses, especially in instances where the purchase will not become an ingredient or component in a product to be sold. In an effort to acknowledge both theories, we will simply list the various exemptions under the sales tax. Some or many of these exemptions could be properly excluded from the tax base depending upon one's point of view.

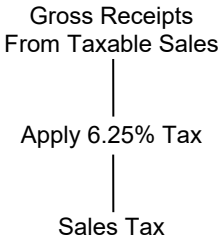
**Taxable Unit:** The sales and use tax is levied on the property or service to be sold or used.

**Rate Structure:** The sales and use tax rate is 6.25% of the price.

**Taxable Period:** Except for sales of motor vehicles, in which the tax is imposed and paid by the purchaser to the Registry of Motor Vehicles, the tax is imposed at the time of sale and remitted at specified intervals by the vendor. The use tax is paid directly to the Department of Revenue by the user of the item and may be paid annually or more often (typically monthly).

**Interstate and International Aspects:** Massachusetts applies the destination principle to international and interstate sales. Accordingly, exports are exempt, and imports are taxable under the sales and use tax. Statutory exemptions for exports of property and for services used outside of the Commonwealth are therefore not listed as tax expenditures.

## Computation of Massachusetts Sales and Use Tax by Vendor*



* A purchaser is also responsible for paying use tax directly to the Commonwealth on the sales price of taxable property or services purchased out-of-state and stored, used, or otherwise consumed in the Commonwealth, provided that a sales and use tax of 6.25% or more has not been paid separately to another state.

## Types of Tax Expenditures under the Sales and Use Tax

In the case of the sales and use tax, all tax expenditures are of a single type. They all result from the exclusion of certain transactions from the taxable base. The exclusion can be based on any of a number of characteristics of the transaction - who the buyer is, who the seller is, what the product or service is, what the product or service will be used for, etc. - but structurally all such tax expenditures operate in the same way. Hence, we have omitted the designation of tax expenditure types from the descriptions in this section.

## List of Sales and Use Tax Expenditures

**3.000 EXEMPT ENTITIES**

3.001 Exemption for Sales to the Federal Government

Sales to the federal government and its agencies are not subject to the sales and use tax because the US Constitution prohibits states from taxing such sales. The prohibition is effectuated by an exemption set out in the Massachusetts sales and use tax statutes.

Origin: M.G.L. c. 64H, § 6(d)

Estimate: $62.4

3.002 Exemption for Sales to the Commonwealth

Sales to the Commonwealth, its agencies and political subdivisions are exempt from sales tax.

Origin: M.G.L. c. 64H, § 6(d)

Estimate: $119.2

3.003 Exemption for Sales to Tax-Exempt Organizations

Non-profit organizations that are exempt from taxation under Internal Revenue Code (the "Code") § 501(c)(3) are exempt from sales and use tax on purchases of tangible personal property and services used in carrying out their tax-exempt purposes. Purchases by nonprofit volunteer fire departments and ambulance services are also exempt.

Origin: M.G.L. c. 64H, § 6(e) and (x)

Estimate: $953.5

3.004 Exemption for Sales of Tangible Personal Property to Motion Picture Production Companies

Sales of tangible personal property to a qualifying motion picture production company or to an accredited film school student for the production expenses related to a school film project are exempt from the sales tax.

Origin: M.G.L. c. 62, § 6(l), c. 63, § 38X, c. 64H, § 6(ww)

Estimate: $0.3

3.005 Exemption for Sales of Certain Tangible Personal Property Purchased for a Certified Life Sciences Company

Sales of tangible personal property purchased for a certified life sciences company, to the extent authorized pursuant to the life sciences tax incentive program, for use in connection with the construction, alteration, remodeling, repair or remediation of research, development or manufacturing facilities and utility support systems, are exempt from sales tax.

Origin: M.G.L. c. 62, §§ 6(m), (n), (r), and (t); c.63, §§ 31M, 38M(k), 38U, 38W, 38V, and 38CC; c. 64H, § 6(xx)

Estimate: $0.4

3.006 Exemption for Sales of Certain Tangible Personal Property Purchased for a Certified Climatetech Company

Sales of tangible personal property purchased for a certified climatetech company, to the extent authorized pursuant to the climatetech tax incentive program, for use in connection with the construction, alteration, remodeling, repair or remediation of research, development or manufacturing facilities and utility support systems, are exempt from sales tax.

Origin: M.G.L. 64H, § 6(yy)

Estimate: N.A.

3.007 Exemption for Sales of Equipment, Software, and Electricity Used in Qualified Data Center

A sales and use tax exemption is available to the owner or operator of a qualified data center for the purchase of eligible data center equipment, software, electricity used in a qualified data center, and construction costs incurred in the building, renovation, or refurbishment of a qualified data center. For a data center to be qualified, it must meet certain criteria and be certified by the Secretary of the Executive Office of Economic Development ("EOED"). However, EOED will not accept applications for certification until it completes its development, in consultation with DOR, of the required regulations and a standardized application form for the certification of qualified data centers.

Origin: M.G.L. c. 64H, § 6(zz)

Estimate: $17.0

**3.100 EXEMPT PRODUCTS/SERVICES**

3.101 Exemption for Food

Food for human consumption is exempt from sales tax, including food purchased with federal food stamps. The exemption does not cover meals served in restaurants and similar establishments. Meals are taxed under the sales tax at a rate of 6.25%.

Origin: M.G.L. c. 64H, § 6(h) and (kk)

Estimate: $1,283.8

3.102 Exemption for Certain Food and Beverages Sold in Restaurants

Although generally food and beverages sold in restaurants are taxed, there are certain exceptions. These are: a) food sold by weight, measure, count, or in unopened original containers or packages (for example, milk, meat, bread); b) beverages in unopened original containers which have a capacity of at least 26 fluid ounces; and c) bakery products sold in units of six or more.

Origin: M.G.L. c. 64H, § 6(h)

Estimate: N.A.

3.103 Exemption for Clothing

Sales of clothing or footwear up to $175 per item are exempt from sales and use tax. The exemption does not include special clothing or footwear designed for athletic or protective uses and not normally worn except for these uses.

Origin: M.G.L. c. 64H, § 6(k)

Estimate: $214.2

3.104 Exemption for Medical and Dental Supplies and Devices including Breast Pumps

Sales of certain medicines, medical supplies and devices, and dental supplies and devices are exempt from sales and use tax. Comment: This estimate includes new estimate of $19.2 million of medical marijuana for FY22, $15.9 million for FY23, $13.0 million for FY24, $14.4 million for FY25, and $15.4 million for FY26. This estimate also includes new estimate of $0.6 million of breast pumps for FY22 - FY26.

Origin: M.G.L. c. 64H, § 6(l), (z)

Estimate: $871.0

3.105 Exemption for Water

Sales of water are exempt from sales and use tax whether the water is provided through utility services, in containers or otherwise, and regardless of how the water is used, except that charges for water provided as part of meals served by restaurants are taxable.

Origin: M.G.L. c. 64H, § 6(i)

Estimate: $159.3

3.106 Exemption for Newspapers and Magazines

Sales of periodicals such as newspapers and magazines are exempt from the sales and use tax.

Origin: M.G.L. c. 64H, § 6(m)

Estimate: $13.6

3.107 Exemption for the American Flag

Sales of the flag of the United States are exempt from sales and use tax.

Origin: M.G.L. c. 64H, § 6(w)

Estimate: $1.3

3.108 Exemption for Certain Precious Metals

The tax expenditure provides for a sales tax exemption for transactions with a sale amount of $1,000 or more of certain precious metals. The exempt items are: rare coins of numismatic value; gold or silver bullion or coins; and gold or silver tender of any nation which is traded and sold according to its value as precious metal. Fabricated precious metals that have been processed or manufactured for industrial, professional, or artistic use do not qualify for the exemption.

Origin: M.G.L. c. 64H, § 6(LL)

Estimate: $11.4

3.109 Exemption for Cement Mixers

Concrete mixing units mounted on the back of trucks are exempt from sales tax. Spare parts for such units are also exempt. The truck chassis is subject to sales tax.

Origin: M.G.L. c. 64H, § 6(y)

Estimate: $1.8

3.112 Exemption for Aircraft & Aircraft Parts

Airplanes, helicopters, gliders and other aircraft are exempt from sales tax. Parts used exclusively for the repair of aircraft are also exempt.

Origin: M.G.L. c. 64H, § 6(uu) and (vv); M.G.L. c. 64I, § 7(d) and (e).

Estimate: $25.3

3.113 Exemption for Breast Pumps

Physician-prescribed, medically necessary breast pumps are exempt from sales tax.
Estimate: included in 3.104

Origin: M.G.L. c. 64H, § 6(l)

Estimate: included in 3.104

3.114 Exemption for Sales of Commercial Gun Safes and Trigger Lock Devices

Safes designed for storing firearms and ammunitions, equipped with a tamper-resistant mechanical lock or other safety device, and safety devices designed to prevent the discharge of weapons by unauthorized users are exempt from the sales tax.

Origin: M.G.L. c. 64H, § 6(rr)

Estimate: $2.0

**3.200 EXEMPT, TAXED UNDER ANOTHER EXCISE**

3.201 Exemption for Alcoholic Beverages

Alcoholic beverages, except those sold as part of a meal, are exempt from sales tax. They are instead subject to an excise tax determined by volume rather than retail price under another provision of state law. Comment: Revenues collected under the alcoholic beverages excise were $98.3 million in Fiscal Year 2023 and $97.6 million in Fiscal Year 2024.

Origin: M.G.L. c. 64H § 6(g)

Estimate: $149.2

3.202 Exemption for Motor Fuels

Motor fuels are exempt from sales and use tax. They are instead subject to an excise tax determined by price per gallon under another provision of state law. Comment: Revenues collected under the motor fuels excise were $701.9 million in Fiscal Year 2023 and $713.2 million in Fiscal Year 2024.

Origin: M.G.L. c. 64H § 6(g)

Estimate: $614.3

**3.300 EXEMPT COMPONENT OF A PRODUCT OR CONSUMED IN PRODUCTION**

3.301 Exemption for Items Used in Making Clothing

Sales of materials used in making clothes, such as thread and fabric, are exempt from sales and use tax.

Origin: M.G.L. c. 64H, § 6(v)

Estimate: Negligible

3.302 Exemption for Materials, Tools, Fuels, and Machinery Used in Manufacturing

Materials, tools, fuels and machinery, and replacement parts, used directly and exclusively in manufacturing are exempt from sales tax if they become components of a product to be sold, or are consumed or directly used in the manufacturing process.

Origin: M.G.L. c. 64H, § 6(r) and (s)

Estimate: $656.2

3.303 Exemption for Materials, Tools, Fuels, and Machinery Used in Research and Development

Materials, tools, fuels, machinery, and replacement parts used directly and exclusively in research and development by manufacturing or research and development corporations are exempt from sales tax. Comment: This estimate includes sales /use tax exemption of $7.9 million for qualifying limited partnership engaged in research activities under Section 66 in St. 2014, c. 287.

Origin: M.G.L. c. 64H, § 6(r) and (s)

Estimate: $98.6

3.304 Exemption for Materials, Tools, Fuels, and Machinery Used in Furnishing Power

The tax expenditure provides for an exemption from the sales and use tax for sales of materials, tools, fuels, and machinery, including replacement parts, used in furnishing gas, water, steam, or electricity to consumers through mains, lines, or pipes.

Origin: M.G.L. c. 64H, § 6(r) and (s)

Estimate: $51.1

3.306 Exemption for Materials, Tools, Fuels, and Machinery Used in Newspaper Printing

Materials, tools, fuels, and machinery, including replacement parts, are exempt from sales tax if they are consumed and used directly and exclusively in an industrial plant for purposes of publishing a newspaper to be sold.

Origin: M.G.L. c. 64H, § 6(r) and (s)

Estimate: $3.6

3.308 Exemption for Materials, Tools, Fuels, and Machinery Used in Agricultural Production

Materials, tools, fuels, and machinery, including spare parts, are exempt from sales and use tax if they are consumed or used directly and exclusively in agricultural production. Also exempt under this expenditure are sales of livestock and poultry used for food for human consumption, and sales of feed, and the bags in which the feed is contained, used for animals that either (i) ordinarily constitute food for human consumption, (ii) are used for research or testing for health and safety purposes, or (iii) are fur-bearing animals whose pelts are sold in the regular course of business. In addition, seeds and plants are exempt if used to grow food for human consumption. Comment: This estimate includes sales/use tax exemption of $11.7 million for FY26 for materials, tools, fuel, machinery and replacement parts, used directly and exclusively in production and manufacturing of marijuana.

Origin: M.G.L. c. 64H, § 6(p), (r) and (s)

Estimate: $27.3

3.309 Exemption for Vessels, Materials, Tools, Fuels, and Machinery Used in Commercial Fishing

Vessels, materials, tools, fuels, and machinery, and replacement parts which are consumed and used directly and exclusively in commercial fishing are exempt from sales tax.

Origin: M.G.L. c. 64H, §§ 6(o), (r), and (s)

Estimate: $17.6

3.310 Exemption for Materials, Tools, Fuels, and Machinery Used in Radio and TV Broadcasting

The tax expenditure provides for an exemption from the sales and use tax for sales of materials, tools, fuels and machinery, including replacement parts, used in commercial radio and television broadcasting.

Origin: M.G.L. c. 64H, § 6(r) and (s)

Estimate: $8.3

**3.400 EXEMPTIONS FOR SPECIFIED USES OF PRODUCTS/SERVICES**

3.401 Exemption for Electricity

The tax expenditure provides a sales and use tax exemption for sales of (i) electricity for residential use, (ii) electricity purchased by certain small businesses, and (iii) electricity purchased for use in an industrial plant.

Origin: M.G.L. c. 64H, § 6(i) and (qq)

Estimate: $500.7

3.402 Exemption for Fuel Used for Heating Purposes

The tax expenditure provides a sales and use tax exemption for sales of (i) fuel used for residential heating purposes, (ii) fuel used for heating purposes by certain small businesses and (iii) fuel used for heating purposes in industrial plants.

Origin: M.G.L. c. 64H, § 6(j) and (qq)

Estimate: $89.0

3.403 Exemption for Gas

The tax expenditure provides a sales and use tax exemption for sales of (i) gas used for residential purposes, (ii) gas purchased for use by certain small businesses and (iii) gas purchased for use in an industrial plant.

Origin: M.G.L. c. 64H, § 6(i) and (qq)

Estimate: $272.6

3.404 Exemption for Steam

The tax expenditure provides a sales and use tax exemption for sales of (i) steam used for residential purposes, (ii) steam purchased for use by certain small businesses and (iii) steam purchased for use in an industrial plant subject.

Origin: M.G.L. c. 64H, § 6(i) and (qq)

Estimate: $0.7

3.405 Exemption for Certain Energy Conservation Equipment

Equipment for a solar, wind or heat pump system used as a primary or auxiliary energy source in a principal residence is exempt from sales and use tax.

Origin: M.G.L. c. 64H, § 6(dd)

Estimate: $11.5

3.406 Exemption for Funeral Items

Coffins, caskets, burial garments, and other materials that are generally sold by a funeral director as part of the business of funeral directing are exempt from sales tax.

Origin: M.G.L. c. 64H, § 6(n)

Estimate: $14.9

3.407 Exemption for Certain Motor Vehicles

The tax expenditure provides an exemption from the sales and use tax for the sale of a motor vehicle that is purchased by and for the use of: (i) a person that has permanently lost the use of two or more limbs or (ii) a permanently disabled veteran.

Origin: M.G.L. c. 64H, § 6(u)

Estimate: $2.3

3.408 Exemption for Textbooks

Sales of textbooks and other books required for instructional purposes at educational institutions are exempt from sales and use tax.

Origin: M.G.L. c. 64H, § 6(m)

Estimate: $12.2

3.409 Exemption for Books used for Religious Worship

Books used for religious worship are exempt from sales tax.

Origin: M.G.L. c. 64H, § 6(m)

Estimate: $1.0

3.410 Exemption for Containers

Sales of several types of containers are exempt from sales tax. Sales eligible for the exemption include sales of empty containers to be filled and resold, containers the contents of which are exempt from the sales tax, and returnable containers when sold with the contents or resold for refilling.

Origin: M.G.L. c. 64H, § 6(q)

Estimate: $169.6

3.411 Exemption for Certain Sales by Typographers, Compositors and Color Separators

Sales by typographers, compositors or color separators of composed type, film positives and negatives and reproduction proofs, or the fabrication or transfer of such items to a printer, publisher, or manufacturer of folding boxes, for use in printing are exempt from sales tax.

Origin: M.G.L. c. 64H, § 6(gg)

Estimate: $3.6

3.412 Exemption for Sales of Building Materials and Supplies Used in federal and Massachusetts Government Construction Contracts and Construction Contracts with Tax Exempt Organizations

Massachusetts allows a sales and use tax exemption for the sale of building materials and supplies used by contractors in fulfilling construction contracts with federal and Massachusetts government entities or with certain tax-exempt organizations.

Origin: M.G.L. c. 64H, § 6(f)

Estimate: $213.6

3.417 Exemption for Commuter Boats

Boats used exclusively to provide scheduled commuter passenger service and parts, materials and tools used to maintain and repair such vessels, are exempt from sales tax.

Origin: M.G.L. c. 64H, § 6(pp)

Estimate: $7.0

3.418 Exemption for Fuels, Supplies, and Repairs for Vessels Engaged in Interstate or Foreign Commerce

The tax expenditure provides for an exemption from the sales and use tax for sales in Massachusetts of fuels, supplies, and repairs for vessels engaged in interstate or foreign commerce.

Origin: M.G.L. c. 64H, § 6(o)

Estimate: $1.8

3.419 Exemption for Fuel Used in Operating Aircraft and Railroads

The tax expenditure provides an exemption from the sales and use tax for purchases of fuel used in the operation of aircraft or railroads. Note that a separate fuel excise applies to aircraft fuel.

Origin: M.G.L. c. 64H, § 6(j)(3)

Estimate: $97.8

3.420 Exemption for Sales of Certain New and Used Buses

New and used buses purchased by carriers that provide scheduled intra-city bus service as certified by the Department of Public Utilities are exempt from sales and use tax. The exemption includes replacement parts, materials and tools used to maintain or repair these buses. The exemption has been interpreted as applying to all buses and equipment purchased by a carrier that has at least on DPU certificate.

Origin: M.G.L. c. 64H, § 6(aa)

Estimate: $7.7

3.421 Exemption for Films

Motion picture films sold for commercial exhibition are exempt from sales tax.

Origin: M.G.L. c. 64H, § 6(m)

Estimate: $6.1

## 3.600 MISCELLANEOUS EXEMPTIONS

### 3.601 Exemption for Casual or Isolated Sales

Certain sales made outside a seller's regular course of business are exempt from the Massachusetts sales and use tax. Such sales are referred to as "casual and isolated" sales and include: (i) non-recurring sales by schools, churches, and other non-profits for fundraising purposes (such as a church bizarre); (ii) nonrecurring sales by individuals (such as a garage sale); (iii) non-recurring sales by businesses of used business equipment and fixtures (such as a store selling its used cash registers); and (iv) bulk sales of assets when an entire business is sold to new owners. Sales of motor vehicles, trailers, boats, or airplanes do not qualify for this exemption, unless they are between family members.

Origin: M.G.L. c. 64H, § 6(c) and M.G.L. c. 64I, § 7(b).

Estimate: $43.1

### 3.602 Exemption for Vending Machine Sales

Vending machine sales of items costing ten cents or less are exempt from sales tax. In addition, sales through vending machines which exclusively sell snacks and candy with a sales price of less than three dollars and fifty cents are exempt from the sales tax on meals

Origin: M.G.L. c. 64H § 6(h) and (t)

Estimate: $1.5

### 3.603 Exemption for Certain Meals

A sales and use tax exemption is allowed for meals provided by (i) religious institutions, (ii) hospitals, (iii) facilities for senior citizens or individuals with disabilities, (iv) educational institutions that provide meals to students, and (v) other meal providers enumerated in M.G.L. c. 64H, § 6(cc) except summer camps, which are covered in TE 3.605.

Origin: M.G.L. c. 64H, § 6(cc)

Estimate: $136.4

### 3.604 Exemption for Certain Bed and Breakfast Businesses from Sales Tax on Meals

Meals at bed and breakfast businesses are exempt from sales tax on meals unless (i) they are provided by a bed and breakfast that has four or more rooms; and (ii) the meals are included in rent subject to the room occupancy excise.

Origin: M.G.L. c. 64H, § 6(h)

Estimate: $0.1

3.605 Exemption for Certain Summer Camps from Sales Tax on Meals and Room Occupancy Excise

A sales and use tax exemption is allowed for meals provided by summer camps for children aged 18 and under, or by summer camps for developmentally disabled individuals.

Origin: M.G.L. c. 64H, § 6(cc)

Estimate: $0.7

3.606 Exemption for Trade-in Allowances for Motor Vehicles and Trailers

In most cases, motor vehicles and trailers bought from a dealer in a trade-in transaction are subject to tax only on the excess of the purchase price over the amount credited for the trade-in, rather than on the full purchase price.

Origin: M.G.L c. 64H, § 26, c. 64I, § 27

Estimate: $136.0

3.607 Exemptions for Publications of Tax-Exempt Organizations in an accessible format used by disabled individuals.

Sales of publications of 501(c)(3) organizations are exempt if such publications are produced in an accessible format, including, but not limited to, braille, enlarged print, audio or electronic text, for use by individuals unable to read other print due to disability. Note: Before September 27, 2024, the exemption applied to sales of all publications of any corporation, foundation, organization or institution that is an exempt organization pursuant to Code § 501(c)(3).

Origin: M.G.L. c. 64H, § 6(m)

Estimate: $1.0

3.608 Exemption for Gifts of Scientific Equipment

Massachusetts provides a sales and use tax exemption for donations of scientific equipment by manufacturers to non-profit educational institutions, to the Massachusetts Technology Park Corporation, or to the Bay State Skills Corporation.

Origin: M.G.L. c. 64H, § 6(jj)

Estimate: N.A.

3.609 Exemption for Vessels or Barges 50 Tons and Over

Vessels or barges of 50 tons burden or over are exempt from sales tax when constructed instate and sold by the builder.

Origin: M.G.L. c. 64H, § 6(o)

Estimate: $0.4

3.610 Exemption for Rental Charges for Refuse Bins and Containers

Rental charges for refuse containers or bins in connection with service contracts by wasteservice firms are exempt from sales and use tax when the containers are placed on the customer's premises by the waste service firm.

Origin: M.G.L. c. 64H, § 6(ii)

Estimate: $1.0

3.611 Exemption for Honor Snack Trays

Snacks and candy purchased from honor trays are exempt from the sales tax on meals, provided all items in the tray are sold for less than $3.50.

Origin: M.G.L. c. 64H, § 6(h)

Estimate: $0.7

3.612 Sales Tax Holiday

Retail sales of tangible personal property during a 2-day weekend Sales Tax Holiday in August each year are exempt from sales tax.

Origin: St. 2018, c. 121, § 4

Estimate: $38.6

The following tax expenditures have been revised or created due to recent law changes.

## Personal Income Tax Changes:

"An Act Making Appropriations for the Fiscal Year 2023 for Supplementing Certain Existing Appropriations and for Certain Other Activities and Projects," "An Act Making Appropriations for the Fiscal Year 2024 to Provide for Supplementing Certain Existing Appropriations and for Certain Other Activities and Projects," the Fiscal Year 2025 (FY25) Budget, "An Act Relative to the Affordable Homes Act", "An Act Honoring, Empowering, and Recognizing Our Servicemembers and Veterans", and "An Act Relative to Strengthening Massachusetts' Economic Leadership" enacted various changes to the personal income tax.
The following personal income tax expenditures have been revised or created due to recent law changes:

Repeal of the deduction of interest and dividends from Massachusetts banks (TE Item 1.413)
For taxable years beginning on or after January 1, 2024, personal income taxpayers can no longer deduct interest and dividends from savings deposits, savings accounts, shares or share savings accounts that are in a Massachusetts bank. Prior to the repeal, taxpayers could deduct such interest and dividends in the amount of $100 for a single person, head of household or a married person filing a separate return, or $200 for a husband and wife filing a joint return.

Expansion of wagering loss deduction to sports wagering losses (TE Item 1.428)
For taxable years beginning on or after January 1, 2023, the wagering loss deduction has been expanded to allow personal income taxpayers to deduct losses from sports wagering that are incurred from wagers placed through a licensed sports wagering operator. Taxpayers may claim this deduction for sports wagering losses incurred in a calendar year only if they had wagering winnings from any such sports wagering operator, gaming establishment, racing meeting licensee, or simulcasting licensee in the same calendar year. The deduction allowed for sports wagering losses may not exceed the amount of any wagering winnings included in gross income for the calendar year. See TIR 24-6 for more information.

Increase of the annual cap for and extension of the Massachusetts historic rehabilitation credit (TE Item 1.610)
For taxable years beginning on or after January 1, 2024, the Massachusetts historic rehabilitation credit's annual cap has been increased from $55 million to $110 million. The credit was due to expire on December 31, 2027, but has been extended to taxable years ending on or before December 31, 2030.

Increase of the annual cap for and extension of the community investment credit (TE Item 1.617)
For taxable years beginning on or after January 1, 2025, the community investment credit's annual cap has been increased from $12 million to $15 million. The credit was due to expire on December 31, 2025, but has been made permanent.

Increase to the Qualified Veterans Hire Tax Credit (TE Item 1.620)
For taxable years beginning on or after January 1, 2024, the amount of credit a business can claim for each qualified veteran it hires has been increased from $2,000 to $2,500.

Cranberry Bog Renovation Credit (TE Item 1.623)
Effective for tax years beginning on or after January 1, 2020, taxpayers primarily engaged in cranberry production may claim a nontransferable, refundable credit equal to 25% of expenses incurred in the renovation, repair, replacement, regrading or restoration of a cranberry bog for the cultivation,

harvesting or production of cranberries. The Secretary for Energy and Environmental Affairs determines eligible costs and the amount of the credit. The amount of credit that can be claimed by a taxpayer for a taxable year cannot exceed $100,000. The annual total cap amount is $2 million. The credit is no longer available for taxable years beginning on or after January 1, 2030.

Temporary authorized training tax credit for emergency assistance (New TE Item 1.629)
Starting with taxable years beginning on or after January 1, 2024, partnerships, limited liability corporations, or other legal entities subject to the personal income tax that provide training to a qualified trainee through an authorized training program may claim a temporary authorized training tax credit for emergency assistance. A qualified individual is an individual receiving benefits through the emergency housing assistance program pursuant to G.L. c. 23B, § 30. To qualify for the credit, a taxpayer must (1) have a place of business in the Commonwealth; (2) conduct an authorized training program in the Commonwealth that is in compliance with recommendations of the Executive Office of Labor and Workforce Development ("EOLWD"); (3) enroll the qualified trainee in an authorized training program on or after April 30, 2024; and (4) meet any additional requirements determined by the Executive Office for Administration and Finance and EOLWD. The credit is equal to $2,500 for each qualified trainee that receives the training from the entity. The amount of the credit that exceeds the tax due for a taxable year may be carried forward to the subsequent taxable year. The credit is subject to an annual cap of $10 million.

The credit may no longer be claimed as of (1) January 1, 2026; or (2) the taxable year in which the end of the capacity limitation on the emergency shelter assistance program occurs, whichever is sooner. See TIR 24-7 for more information.

Massachusetts homeownership credit (New TE Item 1.630)
Starting with taxable years beginning on or after January 1, 2025, personal income taxpayers may claim a Massachusetts homeownership tax credit in relation to a qualified homeownership development project to the extent authorized by the Executive Director of the Massachusetts Housing Finance Agency ("MHFA"). The credit is non-refundable but is transferrable. The amount of the credit authorized by MHFA cannot exceed the maximum credit amount, which is 35% of the lesser of either: (1) the project's total qualified project expenditures calculated on a per single-family dwelling basis; or (2) 80% of the area median new single-family dwelling sales price, subject to further limitations established by MHFA. A sponsor cannot claim the credit before the first taxable year stated on the eligibility certificate issued to the sponsor by MHFA. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward for the duration of the qualified homeownership development project's affordability period, which is a 10-year period that begins as of the date of the first sale of a single-family dwelling that was constructed as part of the project. The credit is subject to recapture.

The amount of credits that MHFA can authorize annually cannot exceed the sum of (1) $10 million; (2) any credit amounts not authorized in the preceding taxable year; and (3) any credits returned to MHFA by a sponsor. Effective January 1, 2030, the amount of credits that can be authorized annually is the sum of (1) any credit amounts not authorized in the preceding taxable year; and (2) any credits returned to MHFA by a sponsor.

Qualified conversion credit (New TE Item 1.631)
Starting with taxable years beginning on or after January 1, 2025, personal income taxpayers may claim a refundable, non-transferable qualified conversion credit in relation to a qualified conversion project that has been certified by the Executive Office of Housing and Livable Communities ("EOHLC"). To claim the credit, a sponsor must submit a project proposal to EOHLC requesting the certification of a housing development project as a qualified conversion project. After certifying the project, EOHLC determines the amount of credit awarded to the sponsor, which cannot exceed 10% of the qualified conversion's project's development costs.

The credit is allowed for the taxable year in which EOHLC notifies the Commissioner of the certified qualified conversion project's completion. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward to any of the 10 taxable years subsequent to the taxable year that the credit was allowed. The credit is subject to recapture.

The credit is no longer available for taxable years ending after December 31, 2029.

Climatetech Tax Incentive Program (New TE item 1.632)

Massachusetts provides a climatetech tax incentive program, which is administered by the Massachusetts clean energy center ("CEC"), in consultation with DOR. The tax incentives consist of three tax credits, the climatetech capital investment tax credit, a refundable climatetech jobs tax credit, and a climatetech qualified research expenses tax credit; as well as a sales and use tax exemption for purchases of tangible personal property to be used for the construction of research, development or manufacturing or other commercial climatetech facilities. The incentives all share an annual cap of $30 million and are effective for taxable years beginning on or after January 1, 2024.

The climatetech capital investment tax credit is a refundable tax credit available to personal income and corporate excise taxpayers who make capital investments in a climatetech facility. The amount of the credit is determined by the CEC, but cannot exceed 50% of the owner's total capital investment in the facility.

The refundable climatetech jobs tax credit is a refundable tax credit available to personal income taxpayers who commit to creating at least 5 net new jobs in Massachusetts. The amount of credit is determined by the CEC. Where the credit exceeds the taxpayer's liability, 90% of excess credit amount is refunded to the taxpayer.

Live Theater Tax Credit (New TE item 1.633)

The live theater tax credit program is administered by the Massachusetts Office of Business Development, in consultation with DOR. The credit is available to personal income and corporate excise taxpayers. The amount of the credit cannot exceed $7 million and is equal to (1) 35% of the total in-state payroll costs; (2) 25% of production and performance expenditures; and (3) 25% of transportation expenditures. The credit is not refundable, but is transferrable. Any unused amount of credit may be carried forward to the next 5 taxable years. The annual amount of credits that can be authorized cannot exceed $7 million.

The credit is effective for taxable years beginning on or after January 1, 2025 and expires on January 1, 2030.

Qualified Internship Tax Credit (New TE item 1.634)

The qualified internship tax credit is available to personal income and corporate excise taxpayers who hire a qualified intern. The credit is equal to the lesser of $5,000 or 50% of the wages paid to the intern. The annual amount of credits that can be authorized cannot exceed $10 million. A single employer cannot claim more than $100,000 in credits in a taxable year.

The credit is effective starting for the taxable year beginning on or after January 1 of the first calendar year following the next fiscal year that closes after November 20, 2024 with a consolidated net surplus of at least $400 million. The credit expires on January 1 of the sixth tax year following the effective date of the credit.

## Corporate Excise Changes:

“An Act Making Appropriations for the Fiscal Year 2024 to Provide for Supplementing Certain Existing Appropriations and for Certain Other Activities and Projects”, “An Act Relative to the Affordable Homes Act”, “An Act Honoring, Empowering, and Recognizing Our Servicemembers and Veterans”, and “An Act Relative to Strengthening Massachusetts’ Economic Leadership” enacted various changes to the corporate excise.

The following corporate expenditures have been revised or created due to recent law changes:

Economic Development Incentive Program Credit (TE Item 2.605)
Under the Economic Development Incentive Program (EDIP), the Economic Assistance Coordination Council (EACC) may award tax credits to taxpayers that participate in a "certified project" (as defined in G.L. c. 23A, §§ 3A and 3F). The amount of credit allowed in each case is determined by the EACC based on numerous factors set forth in G.L. c. 23A, § 3D, including the number of jobs expected to be created, the amount of capital to be invested, and the net new economic benefit expected to be created. The EACC may designate the credit as refundable for any certified project. Prior to January 1, 2024, the EACC could not annually designate more than $5 million in refundable credits. This limitation is eliminated effective January 1, 2024.

Increase of the cap for and extension of the Massachusetts historic rehabilitation credit (TE Item 2.610)
For taxable years beginning on or after January 1, 2024, the Massachusetts historic rehabilitation credit’s annual cap has been increased from $55 million to $110 million. The credit was due to expire on December 31, 2027, but has been extended to taxable years ending on or before December 31, 2030.

Life Sciences Tax Incentive Program (TE Item 2.617)
Effective for taxable years beginning on or after January 1, 2024, the Angel Investor Tax Credit is no longer available. In addition, the annual amount of life science tax incentives that can be authorized has been increased from $30 million to $40 million.

Increase of the cap for and extension of the community investment credit (TE Item 2.621)
For taxable years beginning on or after January 1, 2025, the community investment credit’s annual cap has been increased from $12 million to $15 million. The credit was due to expire on December 31, 2025, but has been made permanent.

Increase to the qualified veterans hire tax credit (TE Item 2.623)
For taxable years beginning on or after January 1, 2024, the amount of credit a business can claim for each qualified veteran it hires has been increased from $2,000 to $2,500.

Cranberry Bog Renovation Credit (TE Item 2.625)
Effective for tax years beginning on or after January 1, 2020, taxpayers primarily engaged in cranberry production may claim a nontransferable, refundable credit equal to 25% of expenses incurred in the renovation, repair, replacement, regrading or restoration of a cranberry bog for the cultivation, harvesting or production of cranberries. The Secretary for Energy and Environmental Affairs determines eligible costs and the amount of the credit. The amount of credit that can be claimed by a taxpayer for a taxable year cannot exceed $100,000. The annual total cap amount is $2 million. The credit is no longer available for taxable years beginning on or after January 1, 2030.

Temporary authorized training tax credit for emergency assistance (New TE Item 2.629)
Starting with taxable years beginning on or after January 1, 2024, business corporations taxable under G.L. c. 63 that provide training to a qualified trainee through an authorized training program may claim a temporary authorized training tax credit for emergency assistance. A qualified individual is an individual receiving benefits through the emergency housing assistance program pursuant to G.L. c.

23B, § 30. To qualify for the credit, a taxpayer must (1) have a place of business in the Commonwealth; (2) conduct an authorized training program in the Commonwealth that is in compliance with recommendations of the Executive Office of Labor and Workforce Development ("EOLWD"); (3) enroll the qualified trainee in an authorized training program on or after April 30, 2024; and (4) meet any additional requirements determined by the Executive Office for Administration and Finance and EOLWD. The credit is equal to $2,500 for each qualified trainee that receives the training from the entity. The amount of the credit that exceeds the tax due for a taxable year may be carried forward to the subsequent taxable year. The credit is subject to an annual cap of $10 million.

The credit may no longer be claimed as of (1) January 1, 2026; or (2) the taxable year in which the end of the capacity limitation on the emergency shelter assistance program occurs, whichever is sooner. See TIR 24-7 for more information.

Massachusetts homeownership credit (New TE Item 2.630)

Starting with taxable years beginning on or after January 1, 2025, taxpayers subject to tax under G.L. c. 63 may claim a Massachusetts homeownership tax credit in relation to a qualified homeownership development project to the extent authorized by the Executive Director of the Massachusetts Housing Finance Agency ("MHFA"). The credit is non-refundable but is transferrable. The amount of the credit authorized by MHFA cannot exceed the maximum credit amount, which is 35% of the lesser of either: (1) the project's total qualified project expenditures calculated on a per single-family dwelling basis; or (2) 80% of the area median new single-family dwelling sales price, subject to further limitations established by MHFA. A sponsor cannot claim the credit before the first taxable year stated on the eligibility certificate issued to the sponsor by MHFA. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward for the duration of the qualified homeownership development project's affordability period, which is a 10-year period that begins as of the date of the first sale of a single-family dwelling that was constructed as part of the project. The credit is subject to recapture if MHFA determines that a sponsor or qualified homeownership development project does not qualify for the credit, ceases to qualify for the credit, or did not qualify for the credit at the time they claimed the credit.

The amount of credits that MHFA can authorize annually cannot exceed the sum of (1) $10 million; (2) any credit amounts not authorized in the preceding taxable year; and (3) any credits returned to MHFA by a sponsor. Effective January 1, 2030, the amount of credits that can be authorized annually is the sum of (1) any credit amounts not authorized in the preceding taxable year; and (2) any credits returned to MHFA by a sponsor.

Qualified conversion credit (New TE Item 2.631)

Starting with taxable years beginning on or after January 1, 2025, taxpayers subject to tax under G.L. c. 63 may claim a refundable, non-transferable qualified conversion credit in relation to a qualified conversion project that has been certified by the Executive Office of Housing and Livable Communities ("EOHLC"). To claim the credit, a sponsor must submit a project proposal to EOHLC requesting the certification of a housing development project as a qualified conversion project. After certifying the project, EOHLC determines the amount of credit awarded to the sponsor, which cannot exceed 10% of the qualified conversion's project's development costs.

The credit is allowed for the taxable year in which EOHLC notifies the Commissioner of the certified qualified conversion project's completion. Any amount of the credit that exceeds the tax due for a taxable year may be carried forward to any of the 10 taxable years subsequent to the taxable year that the credit was allowed. The credit is subject to recapture.

The credit is no longer available for taxable years ending after December 31, 2029.

Climatetech Tax Incentive Program (New TE Item 2.632)
Massachusetts provides a climatetech tax incentive program, which is administered by the Massachusetts clean energy center ("CEC"), in consultation with DOR. The tax incentives consist of three tax credits, the climatetech capital investment tax credit, a refundable climatetech jobs tax credit, and a climatetech qualified research expenses tax credit; as well as a sales and use tax exemption for purchases of tangible personal property to be used for the construction of research, development or manufacturing or other commercial climatetech facilities. The incentives all share an annual cap of $30 million and are effective for taxable years beginning on or after January 1, 2024.

The climatetech capital investment tax credit is a refundable tax credit available to personal income and corporate excise taxpayers who make capital investments in a climatetech facility. The amount of the credit is determined by the CEC, but cannot exceed 50% of the owner's total capital investment in the facility.

The climatetech qualified research expenses tax credit is available to corporate excise taxpayers. The credit amount is based on the taxpayer's qualified research expenses in a manner similar to the standard research expense tax credit. The credit is not refundable, but unused amounts of the credit may be carried forward to the next subsequent 15 taxable years.

Live Theater Credit (New TE Item 2.633)
The live theater tax credit program is administered by the Massachusetts Office of Business Development, in consultation with DOR. The credit is available to personal income and corporate excise taxpayers. The amount of the credit cannot exceed $7 million and is equal to (1) 35% of the total in-state payroll costs; (2) 25% of production and performance expenditures; and (3) 25% of transportation expenditures. The credit is not refundable, but is transferrable. Any unused amount of credit may be carried forward to the next 5 taxable years. The annual amount of credits that can be authorized cannot exceed $7 million.

The credit is effective for taxable years beginning on or after January 1, 2025 and expires on January 1, 2030.

Qualified Internship Credit (New TE Item 2.634)
The qualified internship tax credit is available to personal income and corporate excise taxpayers that hire a qualified intern. The credit is equal to the lesser of $5,000 or 50% of the wages paid to the intern. The annual amount of credits that can be authorized cannot exceed $10 million. A single employer cannot claim more than $100,000 in credits in a taxable year.
The credit is effective starting the taxable year beginning on or after January 1 of the first calendar year following the next fiscal year that closes after November 20, 2024 with a consolidated net surplus of at least $400 million. The credit expires on January 1 of the sixth tax year following the effective date of the credit.

## Sales and Use Tax Changes

The FY25 Budget and "An Act Relative to Strengthening Massachusetts' Economic Leadership" enacted the following changes to the sales and use tax.

Repeal of the sales tax exemption for certain publications of tax-exempt organizations (TE Items 3.607)
Effective September 27, 2024, the sales and use tax exemption for sales of publications of any corporation, foundation, organization or institution that is an exempt organization pursuant to Code § 501(c)(3) and described in G.L. c. 64H, § 6(e) is repealed, except in cases where such publications are produced in an accessible format, including, but not limited to, braille, enlarged print, audio or electronic text, for use by individuals unable to read other print due to disability.

Exemption for Sales of Certain Tangible Personal Property Purchased for a Certified Climatetech Company (New TE Item 3.006)

Effective for taxable years beginning on or after January 1, 2024, sales of tangible personal property purchased for a certified climatetech company, to the extent authorized pursuant to the climatetech tax incentive program, for use in connection with the construction, alteration, remodeling, repair or remediation of research, development or manufacturing facilities and utility support systems, are exempt from sales tax.

Qualified Data Center Sales and Use Tax Exemption (New TE Item 3.007)

A sales and use tax exemption is available to the owner or operator of a qualified data center for the purchase of eligible data center equipment, software, electricity used in a qualified data center, and construction costs incurred in the building, renovation, or refurbishment of a qualified data center. For a data center to be qualified, it must meet certain criteria and be certified by the Secretary of the Executive Office of Economic Development ("EOED"). However, EOED will not accept applications for certification until it completes its development, in consultation with DOR, of the required regulations and a standardized application form for the certification of qualified data centers.

QVIETEM

**Amortization**: Annual deduction allowed for the gradual exhaustion or obsolescence of intangible assets having a limited useful life which are used in the production of income, such as patents and copyrights; analogous to depreciation of tangible assets.

**Capital Expenditure:** An expenditure made in acquiring, adding to or bettering a fixed asset. For accounting purposes, capital expenditures are not charged against current revenue. They are added to capital account or "capitalized" and then may be depreciated, amortized, or recovered when a business is sold. This concept should be distinguished from an expense.

**Credit:** Amount by which a taxpayer is allowed to reduce a tax liability, as computed by applying the tax rates to the tax base, to be distinguished from a deduction from the tax base.

**Deduction:** Amount that a taxpayer is allowed to subtract from the gross tax base.

**Depreciation:** Annual deduction allowed for the gradual exhaustion or obsolescence of tangible property used in the production of income.

**Exclusion:** The legal elimination from the tax base of items recognized as falling within its definition. The federal term for what is sometimes called an exemption for Massachusetts. (See below.)

**Exemption:** The legal elimination from the tax base of items or transactions recognized as falling within its definition, or of taxable units that would normally be subject to tax.

**Expense:** A revenue expenditure or cost, which, for accounting purposes, is charged against current revenue. To be distinguished from a capital expenditure.

**Gross income:** The total of all items included in the concept of income that a taxpayer receives during the taxable period.

**Net income:** Amount remaining after subtracting exempt income and deductions from gross income.

**Personal exemption:** A specific amount or percentage of net income on which the tax rate is zero. To be distinguished from an exemption as defined above, which applies to a class of income or taxpayers. Sometimes called an "allowance".

**Taxable income:** Amount to which the tax rates are applied in computing tax liability, after subtracting personal exemptions from net income.

# Fiscal Year 2026 Tax Expenditure Budget: Appendix C Summary Table

The following table shows tax expenditure estimates for the three major taxes from Fiscal Year 2022 to Fiscal Year 2026. In general, the revenue estimate for a tax expenditure tends to follow the anticipated growth of tax collections. However, year-to-year changes in estimates may vary for four other principal reasons: new data sources; refinements to the estimate methodology; changes to federal tax expenditure estimates which are used as the basis for many of the state tax expenditure estimates; and changes in tax laws.

Where possible, we have recalculated past estimates based on revised data, improved methodologies, and changes in statute.

## Personal Income Tax (In Millions)

| Tax Expenditure | Item Number | FY2022 | FY2023 | FY2024 | FY2025 | FY2026 |
|---|---|---|---|---|---|---|
| **EXCLUSIONS FROM GROSS INCOME** | | | | | | |
| Exclusions from Gross Income | 1.000 | 5,516.4 | 6,032.6 | 6,381.2 | 6,730.7 | 7,084.0 |

| Sales Tax Holiday | 3.612 | 33.7 | 36.2 | 36.9 | 37.9 | 38.6 |

In July 2012 legislation was enacted stating explicitly that “sales that do not involve tangible personal property shall not result in tax expenditures”. See St 2012, c.165, §112. Pursuant to this legislation, from fiscal year 2014 on, we remove some items from our tax expenditure estimates, which we regularly reported in prior years. But to facilitate comparison to tax expenditure estimates in prior years, we list these items in this appendix.

**Items:**

3.203 Exemption for Hotel/Motel Rooms
Rental charges for real property are exempt from sales tax. However, rentals of rooms in hotels, motels or lodging houses are subject to a state excise at a rate of 5.7% of the rental price, and, at a municipality’s option, to a local excise of up to 6% of the rental price (6.5% in the city of Boston). A Convention Center financing fee of 2.75% is also included in certain areas.

Origin: General exclusion of real property transactions
Estimate: $319.2

Comment: Revenues collected under the budgeted state room occupancy excise were $235.7 million in Fiscal Year 2023 and $248.4 million in Fiscal Year 2024. Beginning July 1, 2019, the room occupancy excise also applies to short-term rentals of property for 31 days or less.

3.422 Exemption for Telephone Services
Sales of residential telecommunications services of up to $30 per month are exempt from sales tax.

Origin: M.G.L. c. 64H, § 6(i)
Estimate: $18.1

Comment: Telegraph services are also exempt but are not included in this estimate.

3.501 Nontaxation of Transfers of Real Property
Real estate is exempt from sales tax but is subject to a deeds excise at a rate of 0.456% of the taxable price of the property (0.342% in Barnstable County). The estimate represents revenues that would be collected under the sales tax if sales of real property were taxed at 6.25%.

Origin: General exclusion of real property transactions
Estimate: $5,059.1

Comment: Revenues collected under the Deeds Excise Tax (including Secretary State Deeds) were $336.9 million in Fiscal Year 2023 and $303.5 million in Fiscal Year 2024.

3.502 Nontaxation of Rentals of Real Property
Rental charges for real property, whether for residential or business purposes,

are exempt from sales tax.

Origin: General exclusion of real property transactions
Estimate: $2,380.6

Comment: This estimate excludes rentals of hotel/motel rooms, which are separately stated under item 3.203.

3.503 Nontaxation of Certain Services
Certain services are not subject to sales tax. This estimate includes a range of services to individuals and businesses which are excluded from taxation by their omission from the statutory definition of services.

Origin: M.G.L. c. 64H § 1
Estimate: $26,053.3

3.504 Nontaxation of Internet Access and Related Services
Internet access services, electronic mail services, electronic bulletin board services, web hosting services or similar on-line computer services are not subject to the sales and use tax.

Origin: M.G.L. c. 64H § 1
Estimate: $238.1

**Summary:**

| Description of Item | Former TEB number | FY2022 | FY2023 | FY2024 | FY2025 | FY2026 |
|---|---|---|---|---|---|---|
| Exemption for Hotel/Motel Rooms | 3.203 | 204.2 | 258.4 | 272.4 | 287.5 | 319.2 |
| Exemption for Telephone Services | 3.422 | 18.3 | 17.5 | 17.7 | 17.7 | 18.1 |
| Nontaxation of Transfers of Real Property | 3.501 | 7,037.7 | 5,018.9 | 4,521.5 | 5,004.7 | 5,059.1 |
| Nontaxation of Rentals of Real Property | 3.502 | 2,069.7 | 2,158.2 | 2,246.9 | 2,312.4 | 2,380.6 |
| Nontaxation of Certain Services | 3.503 | 18,864.3 | 20,665.3 | 22,219.3 | 23,853.9 | 26,053.3 |
| Nontaxation of Internet Access and Related Services | 3.504 | 209.7 | 218.2 | 224.4 | 231.2 | 238.1 |

## ACKNOWLEDGMENTS

This report was compiled by Scott Darragh, Director of the Tax Analysis Division of the Office of Revenue and Tax Analysis (ORTA). ORTA economists Denise Heidt, Andrew Lockwood, David Simon, Thomas Patchak-Schuster, and Zehra Siddiqui prepared significant contributions.

County equalization directors provided estimates of the value of tax-exempt property in their counties, county treasurers provided data for the taxes they administer, and city income tax directors provided estimates for other local tax credits, deductions, and exemptions. We would like to thank all of these officials for their assistance and cooperation.

The public act summaries in this report are intended to be brief overviews of the legislation enacted in 2020 and 2021. They are not intended to provide any tax guidance and may not be relied upon as the official interpretation or position of the Michigan Department of Treasury.

This report is available on the Internet at *http://www.michigan.gov/treasury*.

# APPENDIX ON TAX CREDITS, DEDUCTIONS, AND EXEMPTIONS

## EXECUTIVE SUMMARY

### Fiscal Years 2022 and 2023

The *Appendix on Tax Credits, Deductions, and Exemptions* (formerly entitled the *Tax Expenditure Appendix*) is a compilation of the revenue cost of the various tax credits, deductions, and exemptions contained in Michigan tax law. Section 1 of Public Act 72 of 1979 requires the Governor to submit a report on specific tax credits, deductions, and exemptions along with the annual presentation of the *Executive Budget* to the Legislature. Throughout this report, credits, deductions, and exemptions will often be referred to as tax expenditures.

Tax expenditures can be defined broadly as the tax revenue foregone as a result of preferential provisions such as credits, deductions, exemptions, deferrals, exclusions, or lower tax rates. These provisions are tax expenditures because, like appropriations, they allocate resources for specific public purposes, but do so through the tax system rather than the expenditure system.

Total tax expenditures are projected to increase 7.0 percent between fiscal year (FY) 2022 and FY 2023, from $46.39 billion to $49.63 billion. Tax expenditures are divided into five broad categories: business privilege, consumption, individual income, local property, and transportation.

Business privilege tax expenditures are predicted to decrease from $881.6 million to $861.2 million from FY 2022 to FY 2023. The estimates under the business privilege tax category reflect the credits, deductions, and exemptions in place under the corporate income tax and the credits which may be claimed under the Michigan business tax.

Consumption tax expenditures are predicted to increase 7.9 percent between FY 2022 and FY 2023, from $21,259.1 million to $22,942.6 million. The impact of the pandemic was incorporated, but for this sector of the economy the impact was different in the various industries. Comparisons between the estimates for consumption tax expenditures contained in this report and those in prior editions of the *Tax Expenditure Appendix* are not valid due to changes in the methodology and data sources used to calculate tax expenditures related to services.

Individual income tax expenditures are predicted to rise from $10,848.3 million in FY 2022 to $11,322.3 million in FY 2023, a 4.4 percent increase. In recent tax years the income tax adjustment for income attributable to another state has been volatile, resulting in volatility of the estimated income tax expenditure.

Local tax expenditures are predicted to increase 8.3 percent between FY 2022 and FY 2023, rising from $13,331.6 million to $14,432.7 million. The value of local tax exemptions rises with higher property values.

Transportation tax expenditures are predicted to increase by 4.5 percent between FY 2022 and FY 2023, from $67.1 million to $70.2 million.

# CHAPTER 1

# INTRODUCTION TO TAX EXPENDITURES

Section 1 of Public Act 72 of 1979 requires the Governor to submit a report on specific tax credits, deductions, and exemptions along with the annual presentation of the *Executive Budget* to the Legislature:

> The governor, with the annual budget message to the legislature, shall report, at a minimum, the tax credits, deductions, and exemptions enumerated in this act. The message shall include tax credits, deductions, and exemptions by budget and also shall contain a separate report on tax credits, deductions, and exemptions in total, which may be printed as an appendix to the budget. The department of treasury shall furnish these items to the governor for inclusion in the report as required by this act.

The *Appendix on Tax Credits, Deductions, and Exemptions* is a compilation of the revenue cost of the various tax credits, deductions, and exemptions contained within the Michigan state and local tax structure. These provisions are more commonly known as tax expenditures and will be referred to as tax expenditures in this report. When known, the number of taxpaying units taking advantage of a given tax expenditure is also included.

This *Appendix* is divided into eight chapters. Chapter 1 discusses the definition and measurement of tax expenditures. Chapter 2 presents a summary of tax expenditures by type of tax. Chapter 3 lists tax expenditures by budget category. Chapters 4 through 8 examine the five main tax expenditure categories in greater detail: business privilege, consumption, individual income, transportation, and local property. Chapters 4 through 8 discuss changes in tax laws and the reliability of tax expenditure estimates. In addition, a brief description of each tax expenditure is provided.

## Defining Tax Expenditures

Tax expenditures can be defined broadly as the tax revenue foregone as a result of preferential provisions such as credits, deductions, exemptions, deferrals, exclusions, or lower tax rates on specific items or activities. These provisions are tax expenditures because, like appropriations, they allocate resources for specific public purposes, but do so through the tax system rather than the expenditure system. For economic purposes, it makes no difference whether a policy objective is pursued through direct spending or through the tax code. For example, a tax credit of 50 percent of the amount spent on health care by individuals is exactly the same as a spending program that pays 50 percent of health care expenses, since both reduce the effective cost of health care by 50 percent, assuming the choice of how to establish the subsidy does not affect the population covered by the program.

Classifying items as tax expenditures is a subjective process. Some argue that the tax expenditure definition should be as broad as possible, encompassing all deductions or credits that reduce the taxable base from 100 percent of income or wealth. Others recommend a narrower definition that includes only those tax deductions or credits that are adjustments to the "normal" or appropriate tax structure. The narrow tax expenditure definition reserves the term tax expenditure for items that are substitutes for direct spending. This report includes statutory credits, deductions, and exemptions, a broader concept than tax expenditures, and this broader approach includes several tax provisions that many would consider adjustments necessary to obtain the appropriate tax base, such as the exemption for food under the sales tax.

Changes in law can affect revenues and not involve a tax expenditure. For example, general reductions in tax rates would reduce tax revenues but do not fit the definition of a tax expenditure. Changes in the way the tax law apportions income between states would also not qualify as a tax expenditure. Finally, a tax change that requires a change in the recognition of income between subsidiaries (perhaps through unitary or separate reporting) or the recognition of expenses between a client and an employment agency would not be tax expenditures.

Traditionally, tax expenditures have served two purposes. First, they redistribute the tax burden. Tax expenditures such as personal income tax exemptions, sales tax exemptions for food and prescription drug purchases, and the corporate income tax credit for small firms all shift the relative tax burden. These tax expenditures are designed to reduce the tax burden on low-income individuals and businesses. Second, tax expenditures create an incentive for individuals or firms to change their behavior. The earned income tax credit, at both the federal and state levels, is intended to increase work effort and attachment to the labor force and is a good example of a tax expenditure designed to influence taxpayer behavior.

Tax expenditures are so named because they can be viewed as alternatives to direct government appropriations or regulation. In fact, tax expenditures are very similar to direct appropriations in many respects. The main difference is that while appropriations achieve policy goals directly, tax expenditures achieve policy goals indirectly by changing relative prices or reducing costs. For example, the government may help the poor directly by providing food stamps. Alternatively, the government can exempt food from the sales tax, which lowers the cost of food purchases relative to other goods. This will aid poorer residents because they spend a greater percentage of their income on basic needs such as food, which is not taxed.

However, the allocation of government resources through the tax system suffers from some drawbacks. First, because tax expenditures accomplish their goals indirectly, they may provide a less efficient means of targeting benefits than direct expenditures. Sometimes, the targeted group may not receive the benefits, or other groups who were not targeted originally may benefit. Second, policymakers tend to ignore tax expenditures during the budgeting process. Instead, they focus their attention almost strictly upon actual revenue and spending. They may spend less time considering revenue that might be collected by eliminating or reducing current tax expenditures. Finally, providing resources via tax expenditures may be more costly than through direct appropriation. Centralized purchasing of certain items such as prescription drugs or diabetic supplies by the state may result in a lower cost than if individuals purchase the items and then

apply for a tax credit. On the other hand, the cost to governments of administering most tax expenditures is usually a fraction of the cost of administering direct spending programs.

Annual review of tax expenditures would encourage policymakers to rank all policy goals before deciding which should be funded, by how much, and by what means. Ideally, this review process would use three criteria in order to evaluate which tax expenditures are retained. First, the effectiveness of the specific tax expenditure should be evaluated. Does it accomplish its objective at the lowest cost without unintended outcomes? Second, the tax expenditure should be more effective relative to alternatives such as direct spending or regulation. Finally, the relative importance of the tax expenditure and its goals should be examined and compared to direct spending actions. This report does not attempt to evaluate each tax expenditure according to these criteria. It is designed to aid policymakers in evaluating the efficiency, effectiveness, and relative importance of each tax expenditure.

## Technical Issues

### State Versus Federal Tax Expenditures

The starting point in calculating Michigan taxable income is the federal Internal Revenue Code definition of adjusted gross income (AGI). As a result, the exclusions and deductions used in the calculation of federal AGI also reduce state income tax liability. Exclusions or deductions from federal AGI that Michigan does not disallow specifically are classified as federal tax expenditures. This classification does not mean that federal tax expenditures are outside the control of state government. Michigan could require that specific federal tax expenditures be added back to AGI in calculating Michigan taxable income.

### State Versus Local Tax Expenditures

This report also distinguishes between state tax expenditures (associated with taxes collected by the state government) and local tax expenditures (associated with taxes collected by local governments). For the purposes of this report, the distinction between state and local government tax expenditures rests on which level of government collects the tax, not the level of government affected by the tax expenditure. In fact, some state tax expenditures have implications for local government budgets, while some local government tax expenditures have ramifications for the state government budget. For example, property tax exemptions granted for industrial or commercial development are classified as local tax expenditures. These local property tax exemptions also have state budget implications because they reduce state education tax revenue and reduce taxable value per pupil and thus increase state aid payments to local school districts through the state's formula for providing funds to K-12 education.

**Income Tax Personal Exemption**

For tax year 2022, individual Michigan taxpayers could claim a $5,000 personal exemption for themselves and each of their dependents. The personal exemption is classified as a tax expenditure in this report. Some contend that the exemption is essential for determining an appropriate income tax base and should not be considered a tax expenditure.

**Industrial Processing Exemption From Sales Tax**

The levy of a "pure" retail sales tax takes place only at the retail level, that is, sales to the final consumer. Goods or services used in the production of consumer goods are exempt from this pure retail sales tax. States differ as to the business purchases they exempt from the sales tax. In Michigan, sales of goods used in industrial processing are exempt, although sales of goods used in business, but not in the actual manufacturing process, are subject to taxation. In this sense, the exclusion of non-retail sales from a pure retail sales tax base is not a tax expenditure even though it is a statutory exemption in the General Sales Tax Act.

## Measuring Tax Expenditures

The estimates in this report for fiscal year (FY) 2022 and FY 2023 are based on the most recent data available. Tax year 2021 income tax data (returns processed in the spring of 2022) are used, as are 2022 property and sales tax data, and tax year 2020 Corporate Income Tax (CIT) data. Most estimates of the cost (in terms of foregone revenue) of credits, deductions, exemptions, and other reductions are based on actual tax return data. However, many exemptions are not reported on tax returns. In these instances, tax expenditure estimates were derived from other sources.

The tax expenditure estimates *do not* necessarily reflect the amount of actual revenue that would be gained through the repeal of specific provisions. This is attributable to three economic assumptions (listed below) which have been made to ease the task of estimation. (These assumptions are consistent with those made at the federal level and used by other states.)

**Assumption 1: The elimination of a particular tax expenditure does not alter economic behavior.**

In many instances, tax expenditures are specifically designed to provide incentives for people and businesses to behave in a certain manner. Elimination of tax expenditures would most likely alter their behavior. For example, if the sales tax exemption for food were eliminated, the final price that consumers pay for food would increase and food purchases would decline. In this case, the elimination of the tax expenditure would be similar to a price increase. This drop in food purchases offsets some of the revenue gain from eliminating the exemption.

**Assumption 2: Each tax expenditure is independent.**

The repeal of certain tax expenditure provisions can increase or decrease the revenue losses associated with other provisions that are kept in place. For example, reducing or removing one property tax exemption may allow firms to take greater advantage of other exemptions, offsetting at least some of the original revenue impact.

**Assumption 3: The elimination of tax expenditures does not affect overall macroeconomic conditions.**

In principle, repeal or enactment of major tax expenditure provisions would have some impact on the economy. For example, imposing the sales tax on services or repealing the personal income tax exemption may significantly reduce income levels and affect taxpayers' spending which would affect the macro economy. However, marginal changes in particular provisions are unlikely to have a significant impact on overall income levels and rates of economic growth.

In essence, each tax expenditure estimate is an isolated estimate. That is, each estimate assumes implicitly that no other tax expenditures exist (i.e., there is no interaction) and that all other factors remain constant (i.e., taxpayers do not change their behavior and the repeal of the provision does not affect the overall economy). Because this report ignores many of these factors to simplify estimation, actual state revenue gains from eliminating specific tax expenditures would generally fall short of the estimates.

## Cautionary Notes and the Reliability of Estimates

In many instances, this report aggregates individual tax expenditure estimates. However, due to the simplifying assumptions that have been made, aggregating various tax expenditure estimates in order to measure the cost of changing all of them simultaneously will not be accurate. The estimated revenue gain from simultaneously eliminating two tax expenditures will be less than the sum of the cost of the two measured separately. Therefore, the reader is cautioned regarding interactions between tax expenditures.

The reader is also cautioned about comparing tax expenditure estimates across years. Substantial changes in federal, state, and local tax laws occur each year that affect the number, type, and magnitude of tax expenditures. In addition, measurement techniques may also vary from year to year, depending on the available data.

Tax expenditure estimates that appear in this report have different levels of reliability depending on the accuracy of the data and the estimation procedure employed. Chapters 4 through 8 denote the reliability of tax expenditure estimates included in the respective chapters. High reliability implies that the estimate should be relatively accurate. If the estimate does not approximate closely the actual value of the tax expenditure, it is most likely incorrect by a relatively small margin. Conversely, low reliability implies that the actual value could be much greater or smaller and that the range of possible values is large. Reliability indicators are as follows:

**1. High reliability level.**

This category is reserved for estimates that were derived using actual recent tax return data. The tax expenditure for education savings plans, which is based on recent income tax return data, is an example of an estimate that is accurate and highly reliable.

**2. Average reliability level.**

Tax expenditure estimates in this category were also based on tax return data. However, specific economic assumptions were necessary to derive these estimates because less recent data or sample data were used. The personal exemption from city income taxes is an example of an estimate with average reliability. Estimates were based on a recent survey of city treasurers. Some city estimates were carried forward from last year, while other estimates were based on rounded figures. While this will affect the precision of the total estimate, the impact should be relatively small.

**3. Low reliability level.**

This category is reserved for estimates that are imprecise. Estimates in this category were based on highly aggregated (national) data, required restrictive assumptions, or used poor non-tax data sources. For example, federal income tax expenditure estimates have a low degree of reliability because they were based on national tax expenditure data apportioned to Michigan.

## Why Report Tax Expenditures?

Some economists argue that a regular periodic evaluation of tax expenditures should become common practice. Unlike fixed appropriations, tax expenditures are open-ended entitlements: if people or firms qualify for an exemption, they receive it. In periods of recession, tax expenditures are rarely re-examined as budget cuts are typically focused on direct spending. When the economy improves, both direct spending and tax expenditures tend to increase as legislators can afford to be more generous.

According to the Advisory Commission on Intergovernmental Relations (ACIR), there are at least three reasons why tax expenditures should be reviewed periodically:

**1. Tax Equity.**

Reviewing tax expenditures helps to ensure both vertical and horizontal equity in the tax structure. Horizontal equity refers to taxpayers in similar income groups, while vertical equity refers to taxpayers in different income groups. If a tax system that relies on voluntary compliance is to work, people must regard that system as equitable.

**2. Fiscal Discipline.**

Adopting regular tax expenditure reporting gives policymakers more information regarding available resources and how these resources are being used. All state programs, whether they are funded through direct or indirect spending, should work in unison so that particular policy objectives can be attained.

**3. Political Accountability.**

By mandating a periodic review of the tax code, state lawmakers would foster a public discussion about how the tax system should be designed. In addition, lawmakers would indicate publicly whether they support or oppose certain tax expenditures, much like the appropriations process.

The Michigan Legislature has recognized these potential problems and places sunset dates on some new tax expenditures, or requires a report on the activity related to the tax break. In addition, the annual publication of this report provides an itemization of tax expenditures along with their cost.

Credits, deductions and exemptions are listed in this report independent of the steps necessary to amend or eliminate them. Some of these items may be altered with a change in Michigan statute, while others may require a change in federal law to allow Michigan to change its policy. Others, such as the sales tax exemption for food other than prepared food, would require an amendment to the Michigan Constitution.

Finally, the inclusion of any item as a tax expenditure should not be viewed as an expression of support for or objection to any particular tax policy. As noted above, tax expenditures represent spending done outside of the annual appropriation process. While a periodic review of tax expenditures is encouraged as a way to better conduct public policy, the inclusion of a particular credit, deduction, or exemption in this report does not signify any conclusion regarding the public policy merit of that particular tax expenditure.

# CHAPTER 2

## SUMMARY OF TAX EXPENDITURES

Chapter 2 lists tax expenditures by the tax categories business privilege, consumption, individual income, transportation, local property, and other local tax expenditures. Chapter 2 also includes aggregated tax expenditures. As noted earlier, aggregated measures of tax expenditures should be viewed with caution. The independence assumption underlying individual tax expenditure estimates is unrealistic and, if relaxed, aggregated figures would likely decrease.

Total tax expenditures are projected to increase from $46.388 billion in FY 2022 to $49.629 billion in FY 2023, a 7.0 percent increase (see Exhibit 1). The overall increase in tax expenditures was concentrated in consumption and property tax expenditures.

**Exhibit 1**
**Total Tax Expenditures, FY 2022 and FY 2023**

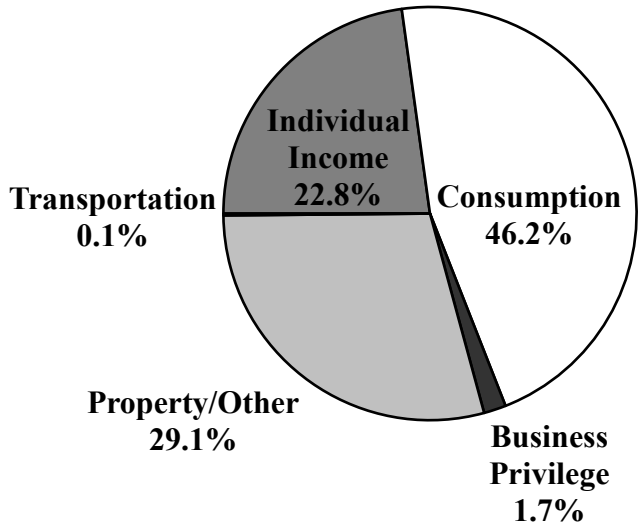
| Tax Category | FY 2022 (000) | FY 2023 (000) | Change (000) |
|---|---|---|---|
| Business Privilege | $881,600 | $861,230 | -$20,370 |
| Consumption | 21,259,094 | 22,942,644 | 1,683,550 |
| Individual Income | 10,848,298 | 11,322,298 | 474,000 |
| Property | 13,057,460 | 14,153,280 | 1,095,820 |
| Other Local (City Income) | 274,110 | 279,390 | 5,280 |
| Transportation | 67,131 | 70,153 | 3,022 |
| **TOTAL** | $46,387,693 | $49,628,995 | $3,241,302 |

Totals may differ slightly due to rounding.

Most tax expenditures result from deductions, exemptions, or credits from consumption, income, and property taxes (see Exhibit 2). For FY 2023, consumption tax expenditures comprise 46.2 percent of total tax expenditures, while income tax expenditures comprise 22.8 percent and property and other local taxes comprise 29.1 percent. Not surprisingly, taxes that generate significant revenue are also associated with large tax expenditures (see Exhibit 3). Most notable

are consumption tax expenditures resulting from the exemptions for food, services, and industrial processing.

**Exhibit 2**
**FY 2023 Distribution of Tax Expenditures**



Total may not equal 100 percent due to rounding.

**Exhibit 3**
**FY 2023 Tax Expenditures and Projected Revenue**
**(millions of dollars)**

| Tax Category | Tax Expenditure | Projected Revenues* | Percent of Revenues |
|---|---|---|---|
| Business Privilege | | | |
| Oil and Gas Severance | $4.1 | $27.1 | 15.0% |
| Corporate Income/MBT | 819.2 | 1,171.7 | 69.9% |
| Consumption | | | |
| Total Alcohol | 0.1 | 264.2 | 0.0% |
| Cigarette and Tobacco | 15.3 | 721.9 | 2.1% |
| Sales and Use | 22,927.2 | 13,369.7 | 171.5% |
| Individual Income Tax | 8,253.4 | 12,341.5 | 66.9% |
| Transportation | | | |
| Aviation Fuel | 4.7 | 5.6 | 83.7% |
| Gasoline | 42.2 | 1,222.4 | 3.5% |
| Diesel Fuel | 7.1 | 270.2 | 2.6% |
| Motor Vehicle Registration | 15.3 | 1,503.5 | 1.0% |
| City Income Tax | 279.4 | 615.0 | 45.4% |
| **TOTAL** | $32,368.0 | $31,512.8 | 102.7% |

*From Consensus Revenue Estimating Conference, January 2024. City income taxes are not a consensus estimate.

Exhibits 4 through 8 provide a breakdown of individual tax expenditures across the five tax categories. An asterisk denotes a new tax expenditure or one that has been modified by legislation since the publication of the previous report. For more detailed information regarding these changes, consult the specific chapter relating to the tax expenditure.

# CHAPTER 3

# TAX EXPENDITURE BUDGET

Chapter 3 illustrates the concept of a tax expenditure budget. This presentation organizes tax expenditures by the spending category that benefits from the expenditure rather than by the revenue source that finances it. Tax expenditures are grouped in categories similar to direct expenditures in the *Executive Budget* such as commerce, education, transportation, and natural resources. This allows for a comparison of funding between direct appropriations and tax expenditures for selected spending categories.

By a wide margin, the commerce and income distribution budget categories tend to receive most funding from tax expenditures (see Exhibit 9). Relative to direct spending, tax expenditures appear to be a preferred method to fund these objectives. In contrast, transportation and higher education are funded much more intensively via direct appropriations (see Exhibit 10).

Exhibits 11 and 12 provide an itemized breakdown of tax expenditures by spending category. These exhibits are a simple reorganization of the summary tables provided in Chapter 2; only the groupings are different.

**Exhibit 9**
**Tax Expenditure Budget, FY 2023**

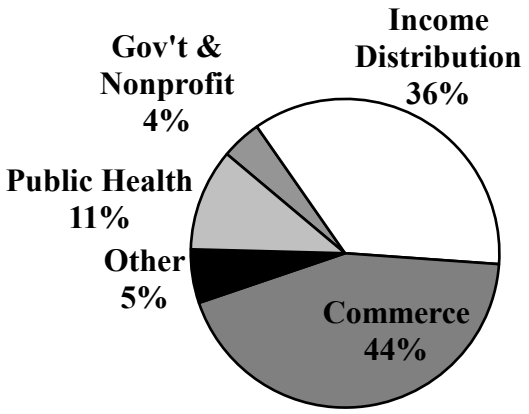

**Exhibit 10**
**Comparison of State Tax and Direct Expenditures (From State Resources)**
**for Selected Spending Categories, FY 2023**

| Spending Category | FY 2023 Tax Expenditure (000) | FY 2023 Direct Expenditure (000) | Total (000) | Percent Tax Expenditure |
|---|---|---|---|---|
| Agriculture | $336,630 | $167,696 | $504,326 | 66.7% |
| Commerce (LARA) | 18,755,806 | 463,148 | 19,218,954 | 97.6% |
| Higher Education | 568,530 | 1,888,109 | 2,456,639 | 23.1% |
| Health & Human Services | 14,719,971 | 9,302,721 | 24,022,693 | 61.3% |
| Military Affairs | 135,741 | 146,260 | 282,001 | 48.1% |
| Natural Resources | 52,934 | 434,611 | 487,545 | 10.9% |
| Transportation | 88,025 | 3,971,272 | 4,059,297 | 2.2% |
| **TOTAL** | $34,657,638 | $16,373,817 | $51,031,455 | 67.9% |

Notes:

1. FY 2023 expenditure figures from *FY 2022-23 Appropriations Report, Part II - Initial Appropriations* , Senate Fiscal Agency. Totals are from "State Spending from State Resources."
2. The Governor combined the Departments of Human Services and Community Health into the Department of Health and Human Services. Tax expenditures related to public health and income distribution have been combined here.

Note that Exhibit 10: (1) compares *own* state resources to tax expenditures (i.e., it ignores federal grants), and (2) *does not* include local tax expenditures and local direct expenditures. For example, the income distribution budget category does not include tax expenditures associated with the city income tax. Tax expenditures associated with the government and nonprofit budget category are also not included, because there is no comparable direct expenditure category.

## Exhibit 11
## Fiscal Summary, Tax Expenditure Budget

| Budget Category | FY 2022 (000) | FY 2023 (000) |
|---|---|---|
| Agriculture | $1,064,705 | $1,182,491 |
| Commerce | 20,090,447 | 21,668,939 |
| Education | 1,113,950 | 1,154,530 |
| Government and Nonprofit Organizations | 1,990,827 | 2,088,308 |
| Income Distribution | 16,701,366 | 17,769,828 |
| Military Affairs | 121,841 | 135,741 |
| Natural Resources | 228,490 | 230,034 |
| Public Health | 4,991,665 | 5,311,099 |
| Transportation | 84,402 | 88,025 |
| **TOTAL** | $46,387,693 | $49,628,995 |

Note: Total may differ from Exhibit 1 due to rounding.
See Exhibit 12 for a detailed list of tax expenditures.

# CHAPTER 4

# BUSINESS PRIVILEGE TAX EXPENDITURES

Business privilege tax expenditures include insurance company retaliatory, oil and gas severance, and corporate income expenditures. Business privilege tax expenditures are projected to decrease from $863.6 million in FY 2022 to $839.9 million in FY 2023. The reduction of tax credits and deductions under the corporate income tax results in much smaller tax expenditures than under the Michigan Business Tax (MBT).

**Estimate Reliability**
(2) Small Business Alternative Tax Rate Credit, most Certificated Credits, Severance and Insurance Tax
(3) Other Corporate Income Tax and MBT Tax Expenditures

A big difference between the corporate income tax and the MBT is that the corporate income tax only applies to traditional corporations. Other types of business entities, such as sole proprietorships, partnerships, S-corporations, and other flow-through entities are not taxed under the corporate tax. The income from flow-through entities is taxable to the owners under the individual income tax. Other tax expenditure estimates from business privilege taxes were based on 2020 data. Insurance and oil and gas severance tax expenditure estimates are also reliable because they were based on recent data collected by the state.

## Business Privilege Tax Expenditure Changes

No tax law changes affecting business privilege tax expenditures in 2020 or 2021.

## Insurance Company Tax

Effective January 1, 2012, the MBT on Michigan insurance premiums was replaced by a 1.25 percent tax in the Income Tax Act. Foreign companies are also subject to a retaliatory tax, which requires them to pay the same tax that a Michigan-based insurer would have to pay in the firm's home state. Foreign insurers pay the premiums tax or the retaliatory tax, whichever is greater. The estimated yield from taxes on insurers is $465.9 million for FY 2023; revenue goes to the State General Fund.

**FY 2023 Estimate**

**Captive Insurance Companies** n.a.

Exempts companies authorized under the Insurance Code as captive insurance companies or special purpose financial captives from the MBT and its gross premiums tax.

| | FY 2023 Estimate |
|---|---|
| **Disability Insurance Exclusion**<br>Exempts the first $190,000,000 of disability insurance premiums written in Michigan. | $3,310,000 |
| **Michigan Association and Facilities Credit**<br>Provides a credit for payments made to the Michigan workers' compensation placement facility, the Michigan basic property insurance association, the Michigan automobile insurance placement facility, the property and casualty guaranty association, and the life and health guaranty association. | $7,450,000 |
| **Michigan Examination Fees Credit**<br>Allows an insurance company to claim a credit equal to 50 percent of the examination fees paid by the company during the year under section 224 of the insurance code. | $5,800,000 |
| **Qualified Health Insurance Policies**<br>The tax rate on qualified health policies is reduced each year to generate annual savings of $18,000,000 | $21,290,000 |
| **Workers' Disability Supplemental Benefit (WDSB) Credit**<br>Provides a credit for 100 percent of the supplemental cost of living payments made to persons injured between September 1965 and December 1979. | $120,000 |

## Oil and Gas Severance Tax

Enacted in 1929, the oil and gas severance tax is levied on the privilege of producing oil and gas. The base is the gross cash market value of oil and gas that is severed from the ground. The tax rate is 6.6 percent for normal oil production, 5.0 percent for natural gas production, and 4.0 percent for stripper wells, marginal properties, and production achieved through carbon dioxide secondary or enhanced recovery projects. The projected yield is $27.1 million for FY 2023; revenue goes to the State General Fund.

| | FY 2023 Estimate |
|---|---|
| **Marginal Wells**<br>Taxes oil from marginal or stripper wells at 4.0 percent, rather than the 6.6 percent rate on other oil production. | $3,080,000 |
| **Public Land**<br>Exempts oil and gas severed from publicly-owned lands from taxation. | $980,000 |

## Corporate Income Tax Expenditures

Public Act 38 of 2011 added a 6.0 percent tax on corporate income to the Income Tax Act. The new tax took effect on January 1, 2012, and applies only to C corporations and entities taxed as C corporations for federal income tax purposes, with the tax imposed on federal taxable income subject to allocation or apportionment. A significant difference between the MBT and the new corporate tax is the elimination of most tax credits. The only credit enacted against the corporate income tax is the small business alternative credit. Financial institutions are not taxed on business income or gross receipts, but are subject to a tax of 0.29 percent on their apportioned net capital.

An entity that has received, has been approved before 2012 to receive, or has been assigned certain certificated tax credits under the MBT may elect to continue to file and pay under the MBT in lieu of the corporate income tax. Examples of the remaining certificated credits are the photovoltaic credit, the MEGA employment tax credit, polysilicon credit, select renaissance zone credits, battery pack credits, historic preservation credit, brownfield redevelopment credit, film production and infrastructure credits, and the farmland preservation credit.

Gross revenues from the corporate income tax were estimated at the January 2024 Consensus Conference to be $2,209.3 million in FY 2023. Legislation enacted in 2023 directed $600 million of corporate income tax revenue to economic development, resulting in net revenue of $1,609.3 million. The net revenues from the MBT were estimated at -$434.1 million in FY 2023, driven mainly by certificated credits with some other factors contributing.

Included with the estimated reduction in corporate tax revenue associated with the small business alternative credit are estimates of the remaining certificated credits that will be claimed by those taxpayers that continue to file under the MBT.

| | FY 2023 Estimate |
|---|---|
| **Brownfield Redevelopment Credit (MBT Certificated Credit)**<br>Provides credit for a portion of the cost for investments made for the demolition, construction, restoration, alteration, renovation, or improvement of buildings located in Brownfield development zones. | $11,000,000 |
| **Compensation and Investment Tax Credits (Non-Certificated Credits)**<br>The compensation credit is equal to 0.370 percent of the taxpayer's Michigan compensation. The investment tax credit (ITC) is equal to 2.90 percent of Michigan investment. The sum of the compensation credit and ITC cannot exceed 52 percent of the MBT liability. | $34,460,000 |

| | FY 2023 Estimate |
|---|---|
| **Farmland Preservation Credit (MBT Certificated Credit)**<br>Provides property tax relief for corporate farms eligible under former Public Act 116 of 1974 and reenacted by Public Act 451 of 1994. Unlike most MBT certificated credits, an agreement for this credit may be entered into after 2011. | $1,700,000 |
| **Foreign Dividends Exemption (Corporate Income)**<br>Excludes dividends and royalties received from a foreign entity or person from taxable income. There are constitutional limitations that do not make taxing foreign dividends a simple policy. | $245,840,000 |
| **Government Securities Interest Exemption (Corporate Income)**<br>Excludes interest income from obligations or securities of the federal government, State of Michigan or Michigan governmental unit. | $1,320,000 |
| **Historic Preservation Credit (MBT Certificated Credit)**<br>Provides for a credit of up to 25 percent of expenditures for the restoration of a qualified historic site. | $0 |
| **Income from Extractive Activities Deduction (Corporate Income)**<br>The extraction of oil, natural gas, and non-ferrous metals are subject to specific taxes in lieu of other taxes. | $990,000 |
| **Michigan Economic Growth Authority (MEGA) Credits (MBT Certificated Credit)**<br>Provides numerous credits for new or expanding firms based on additional payroll and health care costs or additional business activity costs associated with an expansion or new location. Credits are also available for job retention. | $495,000,000 |
| **MEGA Polycrystalline Silicon Manufacturing Credit (MBT Certificated Credit)**<br>Provides for a single twelve-year MEGA credit for the manufacture of polycrystalline silicon to be used for solar cells and semiconductor microchips beginning with a tax year that begins after December 31, 2011. The credit's MEGA agreement must have been entered by December 31, 2008. | $0 |
| **Other Non-Certificated Credits**<br>These include the Arts and Culture, Large Food Retailer, Low-Grade Hematite, and Worker's Disability Supplemental Benefit credits. | $2,630,000 |

| | FY 2023 Estimate |
|---|---|
| **Personal Property Tax Credit (Non-Certificated Credit)**<br>The personal property tax credit provides three separate refundable credits for personal property taxes paid in the tax year. The credits equal: (1) 35 percent of eligible industrial personal property taxes; (2) 13.5 percent of State Utility Tax Act taxes on eligible telephone equipment; and (3) 10 percent of the personal property tax paid on an eligible natural gas pipeline. | $3,510,000 |
| **Renaissance Zone Credit (MBT Certificated Credit)**<br>Provides a credit for the portion of tax attributable to business activity in a renaissance zone designated based on a development or qualified collaboration agreement. | $2,000,000 |
| **Research and Development Credit (Non-Certificated Credit)**<br>Provides a credit equal to 1.90 percent of the taxpayer's research and development expenses in Michigan. The taxpayer cannot claim an ITC and this credit on the same expenses. The sum of this credit, the ITC, and compensation credit cannot exceed 65 percent of the taxpayer's MBT liability. | $14,820,000 |
| **Small Business Alternative Tax Credit (Corporate Income)**<br>For qualifying smaller firms, provides a credit that effectively lowers the taxpayer's tax to 1.8 percent of adjusted business income. Qualifications include: Gross receipts must be less than or equal to $20 million (the credit is phased out for firms with gross receipts between $19 million and $20 million). Total adjusted business income may not exceed $1.3 million. Allocated business income limit for any one owner may not exceed $180,000 (with a credit phase-out between $160,000 and $180,000). | $5,930,000 |
| **Small Business Credit (Non-Certificated Credit)**<br>For qualifying smaller firms, provides a credit that effectively lowers the taxpayer's tax to 1.8 percent of adjusted business income. Qualifications include: Gross receipts must be less than or equal to $20 million (the credit is phased out for firms with gross receipts between $19 million and $20 million). Total adjusted business income may not exceed $1.3 million. Allocated business income limit for any one owner may not exceed $180,000 (with a credit phase-out between $160,000 and $180,000). | $0 |

# CHAPTER 5

# CONSUMPTION TAX EXPENDITURES

Consumption tax expenditures include tax expenditures associated with alcohol, cigarette, and sales and use taxes. Total consumption tax expenditures are projected to increase to $22,942.6 million in FY 2023, a 7.9 percent increase over the FY 2022 level of $21,259.1 million. The growth in sales and use tax expenditures associated with exempt services such as health care and professional, scientific, and technical services account for most of the growth between FY 2022 and FY 2023. Sales and use tax expenditure estimates are based on FY 2008 through FY 2022 data. Alcohol and cigarette tax expenditure estimates were based on FY 2021 and FY 2022 data.

**Estimate Reliability**
(1) Alcohol and Cigarette Taxes
Residential Utilities Exemption
(3) Other Sales and Use Tax Expenditures

Because firms' sales tax returns provide no information regarding most sales of exempt goods or services, sales and use tax expenditures are difficult to estimate. For example, because restaurants do not report the actual gratuities and tips their workers receive, it is not possible to accurately gauge the revenue lost from excluding these payments from the sales tax base. In this and many other instances, it was necessary to base estimates on restrictive assumptions. In addition, many estimates were based on national sales data apportioned to Michigan.

Cigarette tax expenditure estimates were based on recent tax collections. These estimates are reliable.

## Consumption Tax Expenditure Changes

**Public Acts 46 and 47 of 2020** amended the General Sales Tax Act and the Use Tax Act, respectively, to modify the exemption for prosthetic devices to include certain sales of devices for implantation into a human with or without a prescription.

**Public Act 102 of 2021** amended the Tobacco Products Tax Act to extend the cap on the tax imposed on cigars permanently. The cap is 50 cents per stick and the cap was previously temporary and would have expired on October 1, 2021.

**Public Acts 108 and 109 of 2021** amended the General Sales Tax Act and the Use Tax Act, respectively, to exempt the sale of feminine hygiene products from sales or use taxes.

## Alcoholic Beverage Taxes

The following table lists specific alcoholic beverage taxes and their expected yields for FY 2023 (millions of dollars).

**Alcoholic Beverage Taxes**
**(millions)**

| Tax | Location of Deposit | FY 2023 Revenue |
|---|---|---|
| Beer and Wine Excise | General Fund | $46.3 |
| 4.0 Percent Liquor Excise | School Aid Fund | $75.0 |
| 4.0 Percent Liquor Specific | General Fund | $67.9 |
| 4.0 Percent Liquor Tourism | Convention Facility Development Fund | $67.9 |

| | FY 2023 Estimate |
|---|---|
| **Beer Shipped Out-of-State**<br>Exempts beer manufactured in Michigan, or imported into this state, and then shipped for sale and consumption outside the state. | n.a. |
| **Damaged Beer**<br>Exempts beer from the beer tax when consumed on the manufacturer's property or not offered for sale. | n.a. |
| **Homemade Wine**<br>Exempts homemade wine or alcoholic cider from the wine tax when made on the premises by an owner for family use. | n.a. |
| **Small Brewer's Credit**<br>Allows brewers who produce less than 50,000 barrels annually to apply for a $2 per barrel credit on the first 30,000 barrels produced. | $90,000 |

**Tobacco Products Tax**

In 1947, the State of Michigan enacted an excise tax on the sale and distribution of cigarettes to consumers. The tax rate is currently $2.00 per pack of 20 cigarettes. Cigarette tax revenues are mainly distributed to the School Aid Fund, the Medicaid Benefits Trust Fund, and the General Fund-General Purpose account. In FY 2023, the tax on cigarettes yielded an estimated $614.2 million. Taxes on other tobacco products (smokeless tobacco and cigars) yielded $107.7 million.

| | FY 2023 Estimate |
|---|---|
| **Bad Debt Deduction**<br>Allows cigarette wholesalers to deduct any losses from bad debts. | $300,000 |
| **Licensee Expenses**<br>Exempts 1.5 percent of the cigarette tax due from licensees, and 1.0 percent of the tax on other tobacco products, to cover their expenses in administering the tax. | $10,900,000 |
| **Sales on Military Bases and Reservations**<br>Exempts the sale of cigarettes on U.S. military bases and to tribal members living within their own tribe's Indian country. Tribal tax agreements establish the number of cigarettes that each tribe may obtain tax-free for the tribe's resident members. | $4,120,000 |

## State Convention Facility Development Tax

Public Act 106 of 1985 is known as the State Convention Facility Development Act. The Act levies a tax of 1.5 percent of the room charge on hotels with 81 to 160 rooms located in Wayne (excluding Detroit), Oakland, and Macomb Counties, and 5 percent on hotels with over 160 rooms. For Detroit, the rates are 3 and 6 percent. The Act became effective October 1, 1985. Revenue is used to pay for qualified convention facilities and other statutorily required distributions, with excess revenue returned to Michigan counties.

| | FY 2023 Estimate |
|---|---|
| **Small Hotel Exemption**<br>Excludes hotels and motels with fewer than 81 rooms from the state convention facility development tax. | n.a. |

## Sales and Use Tax Expenditures

Enacted in 1933, the sales tax is levied on gross proceeds from retail sales of tangible personal property for use or consumption. The sales tax rate is equal to 6 percent. Sales tax collections are projected to have yielded $10,667.3 million in FY 2023. Sales tax revenues are distributed as follows: 73.3 percent to the School Aid Fund; up to 24.3 percent to cities, villages, and townships; and the remainder to the General Fund. State law earmarks 4.65 percent of the sales tax on transportation-related items to the Comprehensive Transportation Fund (CTF). The use tax is levied on the privilege of use, storage, and consumption of certain tangible personal property that is not subject to the sales tax. It is also levied on the services of telephone, telegraph, and other leased wire communications; sales of used autos between individuals; and transient hotel and

motel charges. Most services are exempt. The use tax was enacted in 1937 as a complement to the sales tax; the rate is 6 percent of the purchase or rental price. Two-thirds of the revenue goes to the General Fund while the remainder is deposited into the School Aid Fund. Use tax collections are projected to total $2,154.4 million in FY 2023. Use tax collections do not include the local community stabilization share tax described under Public Act 80 of 2014. Current law directs $548.0 million of the tax collected for FY 2023 to the authority. Due to their complementary nature, sales and use tax expenditures are reported together and include both the state use tax and the local community stabilization share tax.

| | FY 2023 Estimate |
|---|---|
| **Air and Water Pollution**<br>Exempts the sale of personal property purchased or installed as part of air or water pollution control facilities. | $50,904,000 |
| **Aircraft Parts**<br>Exempts sales of parts and materials affixed in Michigan to passenger, cartage, and certain other aircraft from tax. | $13,940,000 |
| **Bad Debts**<br>Effective January 1, 1984, a retailer is allowed to deduct the amount of bad debts related to previously reported, taxable retail sales at the time that these debts become worthless or uncollectible. | $13,100,000 |
| **Cargo Aircraft**<br>Exempts from use tax aircraft owned by an air carrier certified by the United States Department of Transportation and used solely for the transport of air cargo. | $21,910,000 |
| **Church Construction**<br>Exempts materials used in the construction of a church sanctuary. This exemption was created by Public Act 274 of 1998. | $1,520,000 |
| **Church Cars**<br>Exempts sales of most cars and trucks to regularly organized churches or houses of religious worship. | $2,222,000 |
| **Collection Fee**<br>Sales and use tax returns are due by the 20th of the month for sales made the previous month. A seller may retain 0.75 percent of the tax (not to exceed $20,000) if proceeds are remitted by the 12th of the month, or 0.50 percent of the tax (not to exceed $15,000) if proceeds are remitted from the 13th through the 20th of the month. | $39,740,000 |

| | FY 2023 Estimate |
|---|---|
| **Commercial Domestic Aircraft**<br>Exempts from use tax aircraft owned by domestic passenger carriers if the aircraft is used primarily in regular commercial passenger transportation. | $3,990,000 |
| **Commercial Vessels**<br>Exempts sales of commercial vessels of 500 tons or more when purchased on special order. Also exempts bunker and galley fuel, provisions, supplies, maintenance and repairs for the exclusive use of such vessels engaged in interstate commerce. | n.a. |
| **Communication and Telephone Exemption**<br>Exempts communications and telephone service from coin-operated installations, switchboards, concentrator identifiers, and interoffice circuitry and their accessories for telephone answering services and directory advertising proceeds. | $38,730,000 |
| **Data Centers**<br>Exempts the sale of data center equipment to the owner or operator of a qualified data center or a colocated business for assembly, use, or consumption in the operation of the data center, or a person engaged in construction or improvement to the extent the equipment is affixed to or made a structural part of a data center. | $1,057,000 |
| **Donated Vehicles**<br>Exempts certain vehicle transfers from the sales or use taxes when the vehicle is transferred from a qualifying organization to certain low-income families. | $125,000 |
| **Driver Training**<br>Exempts property used for demonstration or driver training programs. | $105,000 |
| **Employee Meals**<br>Exempts meals provided by employers to their employees. | $31,899,000 |
| **Feminine Hygiene Products**<br>Exempts feminine hygiene products. | $8,160,000 |
| **Food**<br>Exempts food for human consumption, except prepared food intended for immediate consumption. | $1,911,000,000 |
| **Food for Students**<br>Exempts sales of food by nonprofit schools or other similar educational institutions to students. | $36,540,000 |

| | FY 2023 Estimate |
|---|---|
| **Government or Red Cross**<br>Exempts sales to the United States or agencies or instrumentalities wholly owned by the U.S.; the American Red Cross; and the State of Michigan, its departments, institutions, and political subdivisions. | $205,260,000 |
| **Gratuity and Tips**<br>Excludes a separately billed and itemized gratuity or tip from a retailer's gross proceeds. | $107,750,000 |
| **Horticultural and Agricultural Products**<br>Exempts sales of property used or consumed in connection with production of horticultural or agricultural products to persons engaged in business. | $283,310,000 |
| **Imported Property**<br>Exempts property that is not an aircraft purchased by a nonresident and brought into Michigan more than 90 days after purchase from the use tax. A similar exemption applies to property purchased by a resident and brought into the state more than 360 days after purchase. | $1,990,000 |
| **Industrial Processing**<br>Exempts sales to persons for use or consumption in industrial processing. This tax expenditure estimate excludes raw materials used in production. This estimate includes exemptions for durable and non-durable manufacturing equipment and utility expenses. | $1,611,000,000 |
| **International Telecommunications**<br>Exempts international and WATS calls from the use tax. | $2,250,000 |
| **Interstate Trucks and Trailers**<br>Exempts purchases of qualified trucks and their trailers (and parts affixed to them) by interstate motor carriers from sales and use tax. | $44,580,000 |
| **Investment Coins**<br>Exempts investment coins from sales and use tax. Investment coins are legal tender with a fair market value greater than the face value of the coins. | $6,864,000 |
| **Isolated Sales**<br>Exempts an isolated sale or transfer transaction by a property owner not required to possess a sales tax license. | n.a. |
| **Military PX Sales**<br>Exempts military post-exchange sales. | $188,000 |

| | FY 2023 Estimate |
|---|---|
| **Military Vehicle Sales**<br>Exempts vehicle sales to nonresidents serving in the U.S. armed forces, or when purchased by a Michigan resident in military service when sales tax is paid to another state. | n.a. |
| **Newspapers, Periodicals, and Films**<br>Exempts sales of copyrighted films, newspapers, and periodicals. | $123,430,000 |
| **Nonprofit Ambulance and Fire Service**<br>Exempts sales of vehicles not for resale to Michigan nonprofit corporations organized exclusively to provide a community with ambulance or fire department services. | n.a. |
| **Nonprofit Hospital or Housing Construction**<br>Exempts tangible personal property used by contractors where the property is affixed to and made a structural part of the real estate of a nonprofit hospital or nonprofit housing. | $6,750,000 |
| **Nonprofit Organizations**<br>Exempts sales to nonprofit schools, hospitals, homes for the care of children or aged persons, and other benevolent institutions operated by an entity of government, a regularly-organized church, a religious or fraternal organization, a veteran's organization, a nonprofit corporation, or a parent-cooperative preschool. | $222,090,000 |
| **Nonprofit Sales Under $25,000**<br>Exempts sales made for raising funds up to $10,000 for qualified nonprofit organizations. | n.a. |
| **Nonresident Merchandise Transfer**<br>Exempts promotional merchandise that is transferred pursuant to a redemption offer to a person located outside the state. | n.a. |
| **Nonresident Property**<br>Exempts the storage, use, or consumption of property brought into Michigan by a nonresident living temporarily within this state. | n.a. |
| **Ophthalmic and Orthopedic Products**<br>Exempts sales to individuals of artificial limbs or eyes, ophthalmic products, or orthopedic appliances. | $75,350,000 |
| **Prescription Drugs**<br>Exempts drugs, both prescription and over-the- counter drugs dispensed by a prescription, for human consumption. | $728,400,000 |

| | FY 2023 Estimate |
|---|---|
| **Radio and TV**<br>Exempts sales to persons licensed to operate commercial radio or television stations when the property is used as a component of a film, tape, or recording produced for resale or transmission. | $8,020,000 |
| **Rail Rolling Stock**<br>Exempts rail rolling stock and selected other related equipment, material, and supplies from sales and use taxes. | $6,730,000 |
| **Residential Utilities**<br>Exempts the residential use of electricity, natural gas, and home heating fuels from the additional two percent sales and use tax rate. | $191,000,000 |
| **Returned Vehicles**<br>Exempts from gross proceeds "a refund less an allowance" for motor vehicle buybacks by manufacturers under provisions of the lemon law. | $1,740,000 |
| **Sale of Business**<br>Excludes from the use tax non-inventoried property purchased as part of a business. | n.a. |
| **Sale of Water**<br>Exempts the sale of water through water mains or delivered in bulk tanks in quantities over 500 gallons. | $93,680,000 |
| **Services**<br>Exempts services for categories listed in the table below. The estimates include services consumed by businesses, consumers, and government/non-profit entities. Approximately $5.37 billion of the total represents services purchased by consumers. | $16,925,010,000 |

**Service Tax Expenditures, FY 2023**
**(millions)**

| Category | For Profit | Nonprofit | Total |
|---|---|---|---|
| Accommodations and Food Service | $21.4 | $0.0 | $21.4 |
| Admin., Support, and Waste Mgmt. | 1,436.7 | 21.8 | 1,458.5 |
| Arts, Entertainment, and Recreation | 174.5 | 46.8 | 221.3 |
| Construction | 1,989.2 | 0.0 | 1,989.2 |

| Transportation and Warehousing | 2,034.0 | 0.0 | 2,034.0 |
| Utilities | 0.0 | 139.2 | 139.2 |
| **TOTAL** | $13,750.4 | $3,174.4 | $16,925.0 |

Source: Calculations by the Office of Revenue and Tax Analysis using the *2017 Economic Census: Geographic Area Series, Michigan,* U.S. Department of Commerce. Totals may differ from other exhibits and may not add due to rounding.

**FY 2023 Estimate**

**Small Out-of-State Purchases** n.a.

Exempts property purchased outside Michigan where the purchase price or actual value does not exceed $10 per calendar month.

**Tax on the Difference - Vehicles** $63,500,000

Exempts a portion of the credit given for motor vehicles used as a partial payment on the purchase of a motor vehicle. The exemption was limited to no more than $9,000 in 2023 and will rise by $1,000 each succeeding January 1. The full value of a trade-in is also exempt for a titled watercraft used as partial payment on the purchase of a titled watercraft.

**Telephone Services** $19,570,000

Exempts tangible personal property located on the premises of the subscriber and central office equipment or wireless equipment directly used in transmitting, receiving, or switching, or in the monitoring or switching of a two-way interactive device.

| | FY 2023 Estimate |
|---|---|
| **Textbooks Sold by Schools**<br>Exempts sales of textbooks sold by a public or nonpublic school to students enrolled in a K-12 program. | n.a. |
| **Tribal Tax Agreements**<br>Exempts certain sales of tangible personal property to tribes and tribal members for use within a designated agreement area, while providing for increased collections on sales to non-members. | n.a. |
| **Vehicle and Aircraft Transfers**<br>Exempts certain isolated transfers of vehicles, aircraft, snowmobiles, or watercraft. | $10,820,000 |
| **Vehicles Purchased for Use in Another State**<br>Provides for an adjusted tax on the vehicles purchased in Michigan for use in another state. The sales tax is equal to what would have been paid if the vehicle had been purchased in the other state. | n.a. |
| **Vending Machines and Mobile Facilities**<br>Exempts the portion of gross proceeds representing commissions paid to an entity otherwise exempt from the sales tax where the gross proceeds are from certain non-electric vending machines where consideration is 10 cents or less. Also exempts sales of nonalcoholic beverages, and items sold near room temperature from a mobile facility or vending machine. | $13,010,000 |

# CHAPTER 6

# INDIVIDUAL INCOME TAX EXPENDITURES

Individual income tax expenditures include federal income tax expenditures (i.e., tax revenue foregone due to deductions, credits, or exemptions from the calculation of federal adjusted gross income), and state income tax expenditures (i.e., tax revenue foregone due to credits and exemptions that appear on the state income tax form). State individual income tax expenditures are projected to increase 2.8 percent from $8,030.1 million in FY 2022 to $8,253.4 million in FY 2023. Federal income tax expenditures are projected to increase 8.9 percent from $2,818.2 million in FY 2022 to $3,068.9 million in FY 2023. Individual income tax expenditure estimates were based on tax year 2021 data.

**Estimate Reliability** (1) State Income Tax Expenditures (high reliability)
(3) Federal Income Tax Expenditures (low reliability)

State income tax expenditure estimates are reliable because they are based on actual individual tax returns for tax year 2021. In addition, most state income tax expenditures are credits that are relatively stable from year to year.

In contrast, federal income tax expenditure estimates are less reliable. Federal income tax expenditures are estimated by apportioning total (national) federal tax expenditure estimates to Michigan using a three-step formula (outlined later). Thus, Michigan federal income tax expenditure estimates will only be as reliable as federal government (national) estimates and the assumptions used to apportion those estimates to Michigan.

## Individual Income Tax Expenditure Changes

**Public Act 65 of 2020** amended the Income Tax Act to allow a deduction for widows and widowers if the deduction would have applied if the deceased spouse remained alive, under certain circumstances.

**Public Act 343 of 2020** amended the Income Tax Act to provide for a tax credit for rehabilitation of historic structures, buildings, and sites. The credit would equal 25 percent of the qualified expenditures.

**Public Act 25 of 2021** amended the Income Tax Act to allow for the subtraction of income from the cancellation or discharge of a student loan for a disabled veteran, as defined in the Act. The subtraction would apply retroactively for tax years 2016 through 2019, and for tax years 2025 and following.

**Public Act 135 of 2021** amended the Income Tax Act to create a flow-through entity tax on income earned by an entity taxed as an S-corporation or partnership. The entity can elect to be taxed under this tax, and any tax paid flows through as a credit under the individual income tax for the owners

of the entity. The tax is designed to raise the same amount of state revenue, but to allow the flow-through entity to deduct the full amount of state income tax imposed on the entity in the calculation of income. This allows the owners of the entity to avoid the cap on the federal deduction of state and local taxes imposed on individuals.

**Public Act 168 of 2021** amended the Income Tax Act to allow a subtraction for gambling losses that were reported as an itemized deduction on the taxpayer's federal income tax return. The subtraction is limited for nonresidents to the amount of Michigan winnings and can only be claimed for losses from a Michigan casino or race meeting. Taxpayers may claim the subtraction for tax years that begin on or after January 1, 2021.

## State Income Tax Expenditures

Enacted in 1967, the Michigan individual income tax is a direct tax on federal AGI after certain adjustments are made. For FY 2023, the State of Michigan collected an estimated $12,341.5 million in net income tax revenue. Income tax revenue goes to the School Aid Fund and General Fund.

State income tax expenditures include the state personal exemption, subtractions from income, and various state tax credits. In tax year 2020, these tax expenditures reduced Michigan's effective income tax rate from a nominal rate of 4.25 percent to an average effective rate of 2.34 percent. Detailed information on income tax expenditures is presented in Exhibits 13 through 16.

| | FY 2023 Estimate |
|---|---|
| **College Savings Account**<br>A deduction is allowed for contributions to purchase contracts under the Michigan Education Trust or to fund accounts in the Michigan Education Savings Program. Investment earnings are also exempt. | $14,120,000 |
| **Dependent Exemption**<br>Taxpayers claimed as a dependent on another taxpayer's return may claim an exemption equal to $1,500 for themselves when filing their tax return. | $14,940,000 |
| **Disabled Veterans Exemption**<br>Allows a taxpayer to claim an additional exemption of $400 if the taxpayer or a dependent of the taxpayer is a qualified disabled veteran. | $410,000 |
| **Earned Income Tax Credit**<br>Provides a refundable income tax credit equal to 6 percent of any federal earned income tax credit for which a taxpayer is eligible. | $111,730,000 |

| | FY 2023 Estimate |
|---|---|
| **Farmland Development Credit**<br>Provides an income tax credit for property taxes paid on farms covered by a farmland development rights agreement to reduce conversion of agricultural and open space lands to other uses (see Exhibit 16). This credit was expanded by Public Act 421 of 2000. | $53,320,000 |
| **Historic Preservation Credit**<br>Provides a credit against qualified expenditures made to rehabilitate a historic resource. The rehabilitation plan must be certified by the Michigan Historical Center. | $55,000 |
| **Holocaust Survivor Asset Recovery Deduction**<br>Public Act 181 of 1999 allows Holocaust survivors to subtract any income received as a result of a settlement of claims against any entity or individual for any recovered asset pursuant to the German act regulating unresolved property claims. | n.a. |
| **Home Heating Assistance Credit**<br>Provides a refundable credit to assist low-income households with the cost of home heating. For FY 2023, these credits totaled an estimated $77.6 million. The program is primarily funded with a block grant from the federal government. The credit's net cost to the state was $139,700 in FY 2023. | $147,000 |
| **Homestead Property Tax Credit**<br>Provides a refundable credit against income tax liability for property tax paid. This credit is generally 60 percent of the amount by which property taxes exceed 3.2 percent of household income. Renters may use 23 percent of the rent paid to approximate their property tax, and then calculate their credit as above.<br><br>Special credits are available for low-income senior citizens, veterans, and blind and disabled persons. For tax year 2021, homestead credits, excluding the farmland credit itemized separately, totaled $750.4 million (Exhibit 16). Of the homestead credits, 57.6 percent went to general taxpayers, 35.4 percent went to senior citizens, and the remaining 8.0 percent went to veterans and blind and disabled persons. | $757,930,000 |
| **Income Attributable to Another State**<br>Provides a deduction to Michigan residents for business income earned in another state and gains on the sale of property in other states. In addition, non-residents may deduct income not allocated to Michigan. This deduction has been growing rapidly in recent tax years. | $3,687,650,000 |

| | FY 2023 Estimate |
|---|---|
| **Income from Extractive Activities Deduction**<br>The extraction of oil, natural gas, and non-ferrous metals are subject to specific taxes in lieu of other taxes. | $1,040,000 |
| **Income Tax Paid to Another State Credit**<br>Provides a credit to Michigan taxpayers subject to income tax if the taxpayer's income is also taxed by another state. For tax year 2021, taxpayers claimed $94.9 million in credits. | $103,150,000 |
| **Military Pay**<br>Exempts compensation received while on active duty in the U.S. Armed Forces. | $27,820,000 |
| **Miscellaneous Deductions**<br>Includes the amount used to determine the federal credit for the elderly or totally and permanently disabled and expenses from a recreational marijuana business not deducted in determining AGI. | $94,540,000 |
| **Net Operating Loss Deduction**<br>Taxpayers may only deduct the Michigan portion of a net operating loss. | n.a. |
| **Net Adjustment for Gains/Losses**<br>Michigan taxpayers only include in Michigan taxable income gains or losses on business or real property if that property is in Michigan. Losses on property located outside Michigan may not be subtracted and gains on property located outside Michigan may be excluded. | $10,000,000 |
| **Pension and Retirement Benefits Deduction**<br>Provides a deduction for pension and retirement benefits based on the age of the taxpayer and, if married, the taxpayer's spouse. For those born prior to 1946, all benefits from public sources are deductible and benefits from private sector plans are deductible up to $61,518 for singles and $123,036 for married couples filing a joint return (2023 limits). Public Act 4 of 2023 expanded the deduction for retirement or pension benefits, phasing in over four years. | $347,690,000 |

| | FY 2023 Estimate |
|---|---|
| **Personal Exemption**<br>Exempts $5,400 (tax year 2023) from AGI for each personal exemption claimed on the federal income tax return. The personal exemption reduced tax year 2021 revenue by approximately $1,520 million.<br><br>The distribution of effective exemptions across AGI classes is outlined in Exhibit 13. Effective exemptions are exemptions that offset actual income. | $1,916,280,000 |
| **Renaissance Zones**<br>Public Act 376 of 1996 establishes Renaissance Zones. Public Act 98 of 1999 allows for the designation of 10 additional zones. Public Act 139 of 1999 lets the communities with zones designated in 1996 establish new subzones and extend the tax cuts in their subzones. The Income Tax Act exempts residents of the zones from tax on most types of income. Special provisions apply to capital gains, interest, dividend, and lottery income. | $756,000 |
| **Senior Investment Income Deduction**<br>Allows a taxpayer who was born prior to 1946 to deduct dividends, interest, and capital gains included in AGI up to limits which are adjusted for inflation annually. The limits for tax year 2021 are $12,127 for singles and $24,254 for couples filing a joint return. The limits are reduced by the amount deducted for pension and retirement benefits. | $19,160,000 |
| **Senior Standard Deduction**<br>Beginning in tax year 2013, taxpayers born after 1945 and before 1953 who have reached age 67 are eligible for a deduction against all income in lieu of a deduction for retirement benefits. The deduction is $20,000 for singles and $40,000 for couples filing a joint return. Beginning for tax year 2020, a deduction is also available to those reaching age 67 and born after 1952. Public Act 4 of 2023 expanded the subtraction for retirement or pension benefits as an alternative to claiming a standard deduction. | $470,400,000 |
| **Social Security Benefits Included in AGI**<br>Provides a deduction for Social Security benefits included in AGI. Depending on income, benefit recipients may have to include some Social Security benefits in AGI for federal tax purposes. | $594,520,000 |

| | FY 2023 Estimate |
|---|---|
| **Special Exemption**<br>Allows a taxpayer and his or her spouse to each claim a $3,100 exemption for tax year 2023 if they or a dependent are disabled. These exemptions are adjusted periodically for inflation. | $15,310,000 |
| **State and Local Income Tax Refunds**<br>Provides a deduction of a state and local income tax refund if the refund is included in AGI. For federal tax purposes, payments of state and local taxes that are reported as an itemized deduction but subsequently returned as a refund are included in AGI for the year in which the refund was received. The reduction in the number of taxpayers claiming itemized deductions after tax year 2017 reduced the number subsequently required to include any refund in AGI. | $2,400,000 |
| **Tribal Tax Agreements**<br>Exempts all non-business income of resident tribal members from the income tax. Business income will be allocated based on the percentage of business activity that takes place within tribal and trust lands. | n.a. |
| **U.S. Government Bond Interest Deduction**<br>Provides a deduction for interest received on debt issued by the U.S. Government and included in AGI. The deduction includes interest received from U.S. Savings Bonds and U.S. Treasury bills, notes, and bonds. | $10,040,000 |

(1) The effective exemption number includes special exemptions (e.g., disabled exemption).

(2) Income tax credits were divided by the tax rate (4.25%) to determine the equivalent tax deduction. Nonrefundable credits include the credit for taxes paid to other states, and the historic preservation credit.

## Federal Income Tax Expenditures

Michigan's income tax uses the federal definition of AGI as the starting point in calculating taxable income. Therefore, income sources excluded from AGI at the federal level are excluded automatically from state income taxation unless the state explicitly adds these items back. This section lists income sources that are not included in the federal definition of AGI and are not added back to Michigan taxable income.

Federal income tax expenditure estimates were derived using a three-step formula:

1. Federal (national) government tax expenditure estimate times Michigan's apportionment factor equals Michigan's share of federal government revenue loss.

2. Michigan's share of federal revenue loss divided by the average marginal tax rate for federal taxpayers equals Michigan income excluded from federal taxation.

3. Michigan income excluded from federal taxation times the state income tax rate equals Michigan's tax expenditure due to federal deductions or exemptions.

Federal government estimates are from the *Budget of the United States Government*.

The apportionment factors for the various expenditures are based on relevant statistics from the Bureau of Economic Analysis, the U.S. Census Bureau, and other sources. Federal marginal tax rates are from the U.S. Department of Treasury.

The reader is again cautioned regarding the reliability of federal income tax expenditure estimates. The accuracy of these estimates is dependent upon the accuracy of federal estimates, apportionment factor estimates, and marginal tax rate estimates.

| | **FY 2023 Estimate** |
|---|---|
| **Accelerated Depreciation**<br>When a person buys property to be used in a business or to earn rent and the property has a useful life of more than one year, the cost of the property is typically depreciated over its expected life. For tax purposes, a person may deduct depreciation at an accelerated rate. The federal tax expenditure estimate for depreciation now compares tax law depreciation with the estimated economic depreciation adjusted for inflation. | $68,860,000 |
| **Employer Contributions to Health and Life Insurance**<br>Exempts employer payments for employee medical insurance from taxation. Also exempts employer payments for life insurance premiums on the first $50,000 of life insurance. | $1,061,270,000 |

| | FY 2023 Estimate |
|---|---|
| **Employer Pension Plans**<br>Exempts employer payments into qualified employee pension plans from taxation. | $852,960,000 |
| **Federal Adjustments to Income**<br>Excludes moving expenses, health insurance purchased by self-employed persons, and alimony paid from the calculation of federal AGI. | $46,150,000 |
| **Fellowships and Scholarships**<br>Excludes most fellowships and scholarships used for tuition and fees for degree-seeking candidates from the calculation of federal AGI. | $28,920,000 |
| **Gain on Sale of Primary Residence**<br>Excludes from AGI a gain from the sale of a primary residence. To qualify for the full exemption, the taxpayer must have owned and lived in the home for at least two of the past five years and not claimed an exclusion in the previous two years. The maximum exclusion is $250,000 for a single return and $500,000 for a joint return. | $194,030,000 |
| **Income Maintenance Benefits**<br>Excludes public assistance benefits such as Temporary Aid to Needy Families (TANF) and general assistance from taxation. | $3,320,000 |
| **Individual Retirement Accounts**<br>Since 1982, taxpayers could establish an IRA and deduct from taxable income contributions up to $2,000 per year. The maximum contribution is $6,500 for 2021. Only persons with an AGI below $116,000 on a joint return ($73,000 on a single return) or those not covered by an employer retirement plan can take the full $6,500 deduction. A partial deduction, phased out according to income, is available between $116,000-$136,000 for joint filers and $73,000-$83,000 for single filers. | $350,990,000 |
| **Interest on Life Insurance Savings**<br>Exempts interest earned from life insurance from tax if used to buy additional life insurance. | $60,350,000 |
| **Medical Care Savings Account**<br>Reduces income by the amount contributed by or on behalf of a taxpayer to a qualified medical care savings account. | $46,720,000 |

| | FY 2023 Estimate |
|---|---|
| **Railroad Retirement Benefits**<br>Exempts most Type I railroad retirement benefits, which are taxed the same as social security benefits (see below). | $1,060,000 |
| **Social Security Benefits Excluded from AGI**<br>Exempts most social security benefits. Federal social security benefits are not taxable unless half of these benefits plus modified AGI exceed $32,000 on a joint return or $25,000 on an individual return. If benefits exceed this amount, a portion (generally no more than 50 percent but potentially up to 85 percent of social security benefits) is taxable under federal law. This estimate is only for the portion of Social Security benefits that are excluded from federal AGI. The portion included in AGI is reported separately above. | $202,410,000 |
| **Student Loan Deduction**<br>Allows a deduction for interest paid on qualified education loans. | $14,800,000 |
| **Veterans' Benefits**<br>Excludes veterans' benefits administered by the Veterans' Administration from AGI. | $102,030,000 |
| **Workers' Compensation**<br>Exempts workers' compensation received by the worker or his or her beneficiaries from taxation. | $35,020,000 |

# CHAPTER 7

# TRANSPORTATION TAX EXPENDITURES

Transportation tax expenditures are projected to rise modestly, increasing from $67.13 million in FY 2022 to $70.15 million in FY 2023. Transportation tax expenditure estimates were based on FY 2021 and FY 2022 data.

**Estimate Reliability**

(1) Aviation Fuel Tax
Motor Vehicle Registration Fee
Watercraft Registration Fee

(2) Marine Vessel Fuel
Motor Fuel Tax

Because most transportation tax expenditures require taxpayers to claim a refund from the state, transportation tax expenditure estimates have a relatively high degree of reliability. In addition, most of the estimates were based on recent data.

## Transportation Tax Expenditure Changes

**Public Act 124 of 2021** amended the Motor Fuel Tax Act to repeal the existing requirement that the additional tax be paid on motor fuel held in inventory over a certain amount when the motor fuel tax increased. The is often referred to as a floor tax on inventory.

## Aircraft Registration and Transfer Fee

In lieu of general or local property taxes on aircraft, the state levies an aircraft registration fee. The tax base is either the maximum gross weight or maximum take-off weight, whichever is greater. The registration fee is assessed at one cent per pound. The transfer fee is $1. These fees yielded an estimated $430,000 to the state's Aeronautics Fund in FY 2023.

## Aviation Fuel Tax Expenditures

Enacted in 1929, the aviation fuel tax is a tax on fuel sold for propelling aircraft. It is levied on the privilege of using aviation facilities, and the rate is three cents per gallon. In FY 2023, the aviation fuel tax raised $5.6 million, which is deposited into the state's Aeronautics Fund.

| | FY 2023 Estimate |
|---|---|
| **Federally-Owned Aircraft**<br>Exempts the federal government from the aviation gasoline tax for fuel used in federally-owned aircraft. | $533,000 |
| **Interstate Flight Refund**<br>Airlines that operate scheduled interstate flights receive a refund of 1.5 cents per gallon of aviation fuel used. | $4,127,000 |

## Marine Vessel Fuel Tax Expenditures

Enacted in 1947, the marine vessel fuel tax is levied on the privilege of operating vessels on navigable streams. The rate is 15 cents per gallon on diesel fuel. Two percent of gasoline sales is assumed to be for off-road use and is earmarked to the Recreation Improvement Fund. Not less than 80 percent of this amount is transferred to the Waterways Fund.

| | FY 2023 Estimate |
|---|---|
| **Marine Vessel Exemption**<br>Exempts watercraft used: by federal, state, or local governments; for commercial fishing; by the Sea Scouts; in interstate or foreign commerce; by a railroad company; and in connection with an activity providing a person's chief means of livelihood from the tax on marine fuels. | $807,000 |

## Motor Carrier Privilege Fee

A $100 fee is assessed on most vehicles operating on highways as common and contract carriers. Buses, trucks, or tractors used solely for the transportation of household goods pay a $50 fee. The fee was enacted in 1929 for the privilege of using highways. Revenue is deposited into the Michigan Transportation Fund. There are no tax expenditures associated with this fee.

## Motor Fuel Taxes

Motor fuel taxes include gasoline, diesel fuel, motor carrier diesel fuel, and liquefied petroleum gas taxes. The tax rate on gasoline increased to 28.6 cents per gallon, effective January 1, 2023. The diesel fuel tax rate also increased to 28.6 cents per gallon in January 2023. Revenue is earmarked to the Michigan Transportation Fund, and distributed to the state, counties, and cities to maintain roads, and to the Comprehensive Transportation Fund to help finance public transportation. In FY 2023, motor fuel taxes raised an estimated $1,494.5 million.

| | FY 2023 Estimate |
|---|---|
| **Diesel Fuel for Railroads**<br>Exempts diesel fuel used by railroad locomotives from motor fuel taxes. | n.a. |
| **Evaporation and Loss Allowance**<br>The 2 percent evaporation and loss allowance was replaced in 1997 by a 1.5 percent allowance for the collection of fuel taxes. | $18,583,000 |
| **Fuel for Job Sites and Charter Firms**<br>Exempts fuel consumed on job sites or by private and public charter bus trips from the gasoline and diesel fuel taxes. | $7,093,000 |
| **Fuel for Off-Road Use**<br>Exempts fuel purchased for motor vehicles used exclusively on nonpublic roads. | $1,759,000 |
| **Municipal Franchise Vehicles**<br>Refunds gasoline tax to persons operating passenger vehicles under a municipal franchise, license, permit, agreement or grant, such as taxi cabs. | $2,011,000 |
| **Public Vehicles**<br>Exempts fuel purchased for motor vehicles owned or leased by state, federal, or local governments from motor fuel taxes. | $19,888,000 |
| **Tribal Tax Agreements**<br>Provides for tribes to obtain tax-free motor fuel for use by the tribe, tribal entities, and resident tribal members. Sales to other parties made by tribal retailers will be fully taxed. | n.a. |

## Motor Vehicle Registration Fee

The motor vehicle registration fee was based originally on vehicle weight and type and was levied in lieu of the general property tax. Beginning with model year 1984, the registration fee for passenger vehicles became based on the vehicle's value rather than its weight. Other vehicles are still taxed on their weight. Registrations are effective for one year and expire annually on the owner's birthday. For FY 2023, the motor vehicle registration fee raised $1,503.5 million.

| | FY 2023 Estimate |
|---|---|
| **Disabled Veterans' Vehicles**<br>Provides totally disabled veterans free vehicle license plates. | $823,000 |
| **Handicapper Vans**<br>Reduces the tax by 50 percent for vans that are owned by persons using a wheelchair. | n.a. |
| **Intercity Commercial Buses**<br>Intercity commercial buses pay a registration fee of $25 rather than a tax based on weight. | n.a. |
| **Public and Nonprofit Vehicles**<br>Motor vehicles owned and operated by the state, a state institution, a municipality, a nonprofit college or university, or other nonprofit organization pay a lower rate of $5 for license plates with a five-year registration period. | $14,514,000 |

## Watercraft Registration Fee

A fee is assessed on motorboats and other vessels operating in Michigan waters based on boat type and length. The fee was enacted in 1967. The Marine Safety Fund receives 49 percent of the revenue, the Waterways Fund receives 17.5 percent, and the Harbor Development Fund receives the remaining 33.5 percent. Registrations are valid for three years.

| | FY 2023 Estimate |
|---|---|
| **Publicly-Owned Watercraft**<br>Levies a special fee of $1.50 for publicly-owned vessels if the vessels are not used for recreational, commercial, or rental purposes. | $15,000 |

# CHAPTER 8

# PROPERTY AND OTHER LOCAL TAX EXPENDITURES

Property tax expenditures include expenditures associated with general property, iron ore specific, mobile home, real estate property transfer, and city income taxes. Local property and other local tax expenditures are projected to increase 8.3 percent from $13,331.6 million in FY 2022 to $14,432.7 million in FY 2023. Growing property values increased the value of the taxable value cap for property owners. Estimates were based on FY 2021 and FY 2022 data.

**Estimate Reliability**

(1) Railroad Right-of-Way
(3) Tax-Exempt Property
(1-2) Homestead Exemption for Farm and Homestead Property
Other Local Taxes
Technology Parks

Tax expenditure estimates attributable to tax-exempt property are not reliable due to the inherent difficulty of estimating values of tax-exempt properties within each of Michigan's 83 counties. County equalization directors provide these estimates based on their own estimates or surveys of local units. Estimates are somewhat arbitrary because equalization directors use different methods to derive estimates. In many cases, equalization directors did not provide estimates, and estimates from previous years were used. These latter cases are noted in the exhibits.

Other local tax expenditures include accommodations, city income, and city utility users' tax. For most of these categories, data were not available to estimate the statewide value of tax expenditures associated with these taxes. The two exceptions are the Nonresident Reduced Rate and Personal Exemption tax expenditures associated with the city income tax. These estimates were based on a survey of city treasurers and are relatively stable from year to year.

## Property and Other Local Tax Expenditure Changes

**Public Act 3 of 2020** amended the Neighborhood Enterprise Zone Act to amend the standards to apply to properties with a current true cash value of $120,000 or less with proposed improvements that cost more than $10,000 (owner-occupied) or $15,000 (non-owner-occupied). Beginning in 2021, the dollar amounts would be adjusted for inflation.

**Public Act 28 of 2020** amended the General Property Tax Act to exempt eligible data center property located in a specific renaissance zone from local government debt and school millages.

**Public Act 96 of 2020** amended the General Property Tax Act to extend the deadline to file a principal residence exemption from June 1 to June 30, for calendar year 2020 only.

**Public Acts 217 and 218 of 2020** amended the Commercial Rehabilitation Act and the Commercial Redevelopment Act, respectively, to extend the period during which property tax abatements can be granted.

**Public Act 259 of 2020** amended the Brownfield Redevelopment Financing Act to expand the eligible uses of tax increment revenues.

**Public Act 355 of 2020** amended the General Property Tax Act to exempt real and personal property that is part of a public bridge facility subject to a public-private agreement that is exempt from ad valorem property taxes. The bill is a part of a broader package addressing bridges.

**Public Act 138 of 2021** amended the Brownfield Redevelopment Financing Act to allow the owner or developer of a transformational brownfield plan site to elect a safe harbor method for computing the income tax capture revenues and withholding tax capture revenues, as detailed in the Act. The Public Act also made several changes to the administration of the program.

**Public Act 150 of 2021** amended the General Property Tax Act to increase the value of personal property eligible for an exemption under the Act. This is often referred to as the small taxpayer exemption. The Public Act raised the ceiling amount of true cash value eligible for exemption from $80,000 to $180,000.

**Public Acts 153 through 157 of 2021** amended several Acts to make technical changes to the administration of the exemption of eligible manufacturing personal property and the alternative tax that applies to exempt eligible property.

**Public Act 164 of 2021** amended the General Property Tax Act to extend through the 2022 tax year the provision requiring that personal property that is in an alternate location due to the COVID-19 pandemic be assessed in its ordinary location.

## Utility Property Tax Expenditures

The State of Michigan levies a utility property tax on certain public utilities doing business in Michigan. The tax base is equal to 50 percent of the true cash value of all property owned by railroad, railroad car, and telephone and telegraph companies. Enacted in 1905, the utility property tax rate equals the average statewide general property tax rate in the preceding year on commercial and industrial property. Revenue is deposited into the General Fund, and FY 2023 collections were $35.9 million.

| | FY 2023 Estimate |
|---|---|
| **Broadband Investment Credit**<br>Public Act 50 of 2002 provides a credit for the state utility property tax for a company that installs telecommunications equipment with information carrying capability exceeding 200 kilobits per second in both directions. This credit was intended to accelerate the introduction of broadband Internet access to Michigan. | $30,810,000 |
| **Railroad Right-of-Way**<br>Provides a credit to railroad companies for maintaining or improving certain rolling stock and rights-of-way in Michigan. | $46,810,000 |

## General Property Tax

Enacted in 1893, Michigan's general property tax is the main source of revenue for local governments. The property tax is levied on a base of taxable value. Taxable value cannot increase in any one year by more than 5 percent or the rate of inflation, whichever is less (excluding transfers, new construction, and additions). Rates may vary by local unit, though each local unit's rate is subject to the State Constitution (Article IX, Sec. 6) and various statutes. The following table lists average statewide millage rates since 1990.

| | FY 2023 Estimate |
|---|---|
| **Agricultural Transfers**<br>Increases in the taxable value of property are capped at 5 percent or the rate of inflation, whichever is less. When ownership in property is transferred, the taxable value is set equal to the state equalized value, which is 50 percent of the true cash value. This provision exempts transfers of agricultural property from the "pop up" in taxable value when the new owner certifies that the property will continue to be used in agriculture. | $49,050,000 |
| **Air and Water Pollution Control**<br>Exempts air and water pollution control equipment from the property tax after approval and certification by the State Tax Commission. | $177,100,000 |
| **Cultural Organizations**<br>Exempts from the property tax real property owned and occupied by a nonprofit organization meeting specific requirements. Some of the requirements are that the organization must be: incorporated under state law; devoted exclusively to the development of literature, music, painting or sculpture; and available to the general public on a regular basis. Data are not available to estimate this item. | n.a. |

**Exhibit 17**
**Average Statewide Millage Rates**

| Calendar Year | Homestead Property | Non-homestead Property | All Property |
|---|---|---|---|
| 1993 | n.a. | n.a. | 56.64 |
| 1994 | 30.22 | 48.17 | 38.19 |
| 1995 | 31.00 | 48.79 | 38.88 |
| 1996 | 31.36 | 49.54 | 39.32 |
| 1997 | 31.36 | 49.63 | 39.25 |
| 1998 | 31.43 | 49.68 | 39.27 |
| 1999 | 31.40 | 49.76 | 39.16 |

| 2019 | 35.04 | 53.38 | 42.06 |
| 2020 | 35.44 | 53.86 | 42.44 |
| 2021 | 35.12 | 53.81 | 42.16 |

Source: All Property Millage Rates from State Tax Commission except 1994; CY 1994 All Property Rate and Homestead and Non-homestead millage rates from Office of Revenue and Tax Analysis, Michigan Department of Treasury.

| | FY 2023 Estimate |
|---|---|
| **Disabled Veteran Homestead Exemption**<br>Exempts from property taxes real property used and owned by a disabled veteran who is entitled to veterans' benefits at the 100 percent rate, has received or is receiving assistance due to disability for specially adapted housing, or has been rated by the U.S. Department of Veterans Affairs as unemployable. A surviving spouse of a disabled veteran who does not remarry may retain the exemption. | $63,540,000 |
| **Fairground Property**<br>Exempts property owned by an agricultural society and used primarily for fair purposes. | n.a. |
| **Homestead Exemption**<br>Exempts most owner-occupied housing that is the primary residence of the owner from local school operating mills, generally 18 mills. | $3,730,150,000 |
| **Homestead Exemption for Farm Property**<br>Exempts qualified agricultural property, including houses, from local school operating mills. | $222,280,000 |
| **Industrial Facilities Development**<br>Allows local governments to grant property tax exemptions for up to 12 years to encourage the establishment of new industrial facilities and the creation, restoration, or replacement of obsolete facilities. In lieu of property tax, an industrial facilities tax is levied on industrial property (building, machinery, and equipment, but not land).<br><br>For a restored facility, the industrial facilities tax is levied at the same rate as the local property tax, but only on the taxable value of the property before the exemption. Therefore, the value of restoration or replacement is exempt from the industrial facilities tax. For a new facility approved after 1993, the industrial facility tax is half the property tax rate applied to the taxable value of the new facility. The full 6-mill State Education Tax rate is levied unless reduced by the Director of the Strategic Fund. Exhibit 18 displays a partial estimate of the taxable value of property subject to the industrial facilities development program. Public Act 39 of 2007 and Public Act 457 of 2008 reduced the tax on new facility personal property on land classified as industrial or commercial real property. | $143,830,000 |

| | FY 2023 Estimate |
|---|---|
| **Neighborhood Enterprise Zones**<br>Allows local units of government that participate in this program to grant property tax abatements. For new housing, the property tax rate is equal to one-half the statewide average millage rate. For rehabilitated housing, assessments are frozen so that the value of improvements is not taxed. | $9,290,000 |
| **Obsolete Property Rehabilitation Exemption**<br>Under the Obsolete Property Rehabilitation Act (OPRA), commercial buildings in qualified local governmental units may be granted an OPRA abatement certificate, which results in reduced property taxes on the increased value of renovated and redeveloped facilities. | $31,530,000 |
| **Personal Property Ad Valorem Exemptions**<br>Exempts industrial personal property from the 18-mill property tax for local schools and the state education tax (6 mills). Commercial personal property is exempt from 12 of the 18 mills for schools. | $301,860,000 |
| **Personal Property Industrial Facilities**<br>Provides an exemption from the industrial facilities tax equal to the portion of the tax attributable to the 6 mills for state education tax and the 18 mills for school operations. | $19,770,000 |
| **Small Taxpayer Exemption/Eligible Manufacturing Personal Property**<br>The small taxpayer exemption provides an exemption for personal property classified as industrial or commercial personal property if, among other qualifications, the true cash value of all industrial and commercial personal property owned by, leased by or in the possession of the owner in a tax collecting unit is less than $80,000. Public Act 150 of 2021 raised the threshold to $180,000, beginning in 2023.<br><br>Eligible Manufacturing Personal Property (EMPP) is personal property used at least 50% of the time in industrial processing or direct integrated support. EMPP is exempt if placed in service after 2012 or more than 10 years before the tax year, e.g. for 2021, placed in service before 2011. Exempt EMPP is subject to the state Essential Services Assessment. | $480,690,000 |
| **Poverty Exemption**<br>Provides an exemption for impoverished individuals who, in the judgment of the township supervisor and board of review, are unable to contribute towards the provision of public services. | $10,810,000 |

| | FY 2023 Estimate |
|---|---|
| **Renaissance Zones**<br>Exempts homeowners in a Renaissance Zone or a business that is located and conducts business activity within a Renaissance Zone from most property taxes. | $37,230,000 |
| **Tax-Exempt Property**<br>Exhibit 18 reports the results from the 2020 County Survey of Tax-Exempt Property. The survey includes seven categories of tax-exempt property reported by county. These estimates of the taxable value of exempt property were provided by county equalization departments, as required by Public Act 155 of 1925. Exhibit 17 contains a map of Michigan's counties.<br><br>The total estimated taxable value of exempt property (not including tax-exempt property for industrial facility development) reported was $36.4 billion. If taxed at the 2021 average nonhomestead statewide rate of 53.81 mills, tax-exempt property would have yielded $1.96 billion in property tax revenue.<br><br>Note: Tax-exempt property for Ingham and Wayne counties is not included in estimates. Both counties contain *substantial* tax-exempt property used for public education, state and federal government, municipal and personal purposes. Estimates for the various classifications of tax-exempt property are presented below. | $2,058,000,000 |
| **Tax-Exempt Acreage**<br>Exhibit 19 shows exempt nonprofit religious or educational property by county. Properties are exempt under Article IX, Sec. 4, of the State Constitution. Tax-exempt acreage totaled an estimated 1,007,035 acres in 2019. | n.a. |
| **Tax-Exempt County and Municipal Property**<br>Exempts real property owned by counties, townships, cities, villages, and school districts. | $327,000,000 |
| **Tax-Exempt Federal Property**<br>Exempts real property belonging to the United States government. | $379,000,000 |
| **Tax-Exempt Other Real Tax Exempt Property**<br>Exempts other real property including hospitals, charitable institutions, selected nonprofit organizations, cemeteries, and utilities. | $222,000,000 |

| | FY 2023 Estimate |
|---|---|
| **Tax-Exempt Personal Property**<br>Exempts specific items from the property tax. Examples include hospital equipment, special tools, inventories, solar wind and water energy equipment, air and water pollution equipment, and wood and fish harvesting equipment.<br><br>Examples of personal property owners receiving the exemption include charitable institutions, libraries, banks and trusts, credit unions, parent-cooperative preschools, government units, airports, memorial posts, and public service organizations. The estimate does not include personal property owned by religious and nonprofit educational organizations. | $296,000,000 |
| **Tax-Exempt Public Education Property**<br>Exempts real property owned, leased, loaned, or otherwise made available to school districts if the property is used primarily for public school purposes. | $586,000,000 |
| **Tax-Exempt Specifically-Taxed Property**<br>Imposes a registration fee on motor vehicles, boats, and aircraft in lieu of property taxes. The difference between the revenue from the registration fee compared to revenue that would result from a property tax represents a tax expenditure. | n.a. |
| **Tax-Exempt State Property**<br>Exempts real property owned by the State of Michigan. | $248,000,000 |
| **Tax Increment Financing**<br>Allows municipalities to create tax increment finance plans under the Downtown Development Authority Act, P.A. 197 of 1975; the Tax Increment Finance Authority Act, P.A. 450 of 1980; the Local Development Finance Authority Act, P.A. 281 of 1986; and the Brownfield Redevelopment Act, P.A. 381 of 1996. Each authority may capture millage from the general property tax and industrial and commercial facilities taxes. The captured revenue, which would normally accrue to the city, county, and school district, is diverted to finance commercial and industrial costs.<br><br>Estimates of the cost of tax increment financing assume that local units would have invested in projects without assistance from tax increment finance plans. To the extent these investments would not have occurred without funding through the tax increment finance plan, the tax expenditure estimates are overstated. | $277,450,000 |

| | FY 2023 Estimate |
|---|---|
| **Taxable Value Cap**<br>Limits the rate of increase in property tax assessments to 5 percent or the rate of inflation, whichever is less. Taxable value becomes 50 percent of true cash value when ownership is transferred. | $6,383,680,000 |
| **Veterans' Organizations**<br>Exempts real and personal property owned and occupied by veterans' organizations. Previously, exemptions were limited to those buildings used as residences. Some revenue will be lost through the exemption, but only a few headquarters were previously on the tax rolls. | n.a. |
| **Water Softeners and Water Coolers**<br>Exempts rented or leased water softener equipment and leased bottled water coolers from the personal property tax. | $1,430,000 |

## Iron Ore Specific Tax

The iron ore tax is levied on iron ore mines in lieu of property tax. The tax was enacted in 1951 to encourage commercial development of mineral resources in Michigan. The rate is 1.1 percent of the value per gross ton of iron ore pellets, and it is levied only in Marquette County. The iron ore tax yielded $6.5 million in 2023. The state's share of the iron ore specific tax is deposited into the School Aid Fund. The state received $6.2 million in FY 2023.

## Mobile Home Tax

Enacted in 1959, the mobile home tax is levied on mobile homes in lieu of property tax. The tax rate is $3 per month per occupied mobile home located in licensed mobile home parks. Township or city treasurers administer the mobile home tax. Counties and municipalities keep 50 cents each, while the remaining $2 is remitted to the state and deposited into the School Aid Fund. The 2023 state share of this tax totaled $3.4 million indicating $5.1 million in total state and local collections. Exhibit 20 only shows the county share of the tax.

| | FY 2023 Estimate |
|---|---|
| **Mobile Home Tax Expenditure**<br>The tax burden on mobile home occupants ($36 per year) is small compared with the tax burden on homeowners. The reported figure is an estimate of the difference between the amount of property taxes that would be paid on mobile homes if they were not exempt and the amount collected from the mobile home tax. | $77,970,000 |
| **Out-of-State Coaches**<br>Exempts out-of-state coaches when accompanied by an out-of-state auto for an accumulated period of up to 90 days during any 12-month period if the occupants are tourists and not engaged in business in Michigan. | n.a. |

## Essential Services Assessment Tax

Enacted in 2014, the Essential Services Assessment (ESA) is imposed on manufacturing personal property otherwise exempt from the general property tax. The tax is imposed at a declining rate based on increasing age. The Michigan Strategic Fund may exempt property from the regular rate of the ESA and either subject the property to the alternative rate (1/2 of the regular rate) or exempt the property entirely, based on certain conditions. The tax is due by August 15th and is deposited into the General Fund. The ESA yielded $141.7 million in FY 2023.

| | FY 2023 Estimate |
|---|---|
| **Exempt Property**<br>Partial or full exemptions from the ESA may be granted by the Michigan Strategic Fund for personal property that is part of a broader business plan that includes at least $25 million in personal property investment. | n.a. |

## Real Estate Property Transfer Tax

Enacted in 1966, the county real estate property transfer tax is a tax on the transfer of an interest in real property. The tax is levied at a rate of 55 cents per $500 (0.11 percent), or fraction thereof, on the fair market value of the property being transferred. The treasurer of the county in which the transfer takes place collects the tax, and the revenue goes to the county general fund. The estimated statewide revenue yield was approximately $61.5 million in 2021 (see Exhibit 20).

The School Finance Reform Package of 1994 created a state real estate property transfer tax in addition to the county tax. The rate is $3.75 per $500 (0.75 percent), or fraction thereof, on the fair market value of the property being transferred. The tax is collected by the county treasurer and forwarded to the state. Revenue is deposited into the School Aid Fund. The state real estate transfer tax yielded $389.2 million in FY 2023.

Although several exemptions from the state and county transfer tax are permitted, they are designed to define which real estate transfers are subject to the tax. The act does not define real estate transfers explicitly, but by exclusion. Exempt transfers include transfers involving federal, state and local units of governments, certain conveyances between spouses, instruments used to straighten boundary lines when no money is paid, and land contracts in which the title passes to the grantee only when the contract has been paid. Public Act 203 of 2000 added churches and church property to the list of exempt transfers. Transfers of less than $100 are also exempt. There are no estimates regarding these tax expenditures due to an absence of data.

## Accommodations Tax

Under Public Act 263 of 1974, owners of businesses providing rooms to transient guests are subject to the accommodations tax which is collected by the county treasurer. Housing and nursing homes are excluded from the tax. Only counties with a population of less than 600,000 that have a city with a population of at least 40,000 may levy the tax. Counties currently imposing the tax include: Calhoun, Genesee, Ingham, Kalamazoo, Kent, Muskegon, Saginaw, Washtenaw, and Wexford. The tax is levied on the amount transient guests pay for lodging. The maximum rate is 5 percent and is determined by the county. Revenues (less administrative costs) are dedicated to convention facilities and the promotion of conventions and tourism. The tax yielded approximately $28.4 million in 2021 (see Exhibit 20).

## City Income Tax

A city income tax is levied by adoption of a city ordinance subject to voter approval. Income earned and received by city residents, income earned in the city by nonresidents, and corporate income earned in the city are subject to city income taxes. In CY 2022, city income taxes totaled $734.6 million after raising $603.9 million in 2021 (see Exhibit 22). For 2022, 24 cities levied a city income tax. While rates vary, most cities levy a 1.0 percent tax on residents and corporations and a 0.5 percent tax on nonresidents. Revenue collections go to the general fund of the taxing city, and most revenue comes from city residents.

| | FY 2023 Estimate |
|---|---|
| **Federal Deductions**<br>Tax expenditures for city income taxes are similar to those for state and federal income taxes. However, most city income taxes are based on gross income from salaries, bonuses, wages, commissions, interest, and dividends rather than on federal AGI. | n.a. |
| **Net Profits of Financial Institutions**<br>Exempts net profits of financial institutions and insurance companies from the city income tax. No statewide estimate is available. | n.a. |
| **Nonresident Reduced Rate**<br>Nonresidents' income is taxed at half the rate paid by residents. | $265,710,000 |
| **Pensions, Annuities, and Retirement Plans**<br>Exempts proceeds of pensions, annuities, and retirement plans from the city income tax. Although no statewide estimate is available, this tax expenditure is likely to be substantial. | n.a. |
| **Personal Exemption**<br>Exempts a certain amount of income for each person claimed on the federal form. The exemption amounts for the various cities are listed in Exhibit 22. While most cities record the number of personal exemptions provided, some do not. In these cases, personal exemptions are estimated based on the number of tax returns multiplied by a weighted average number of exemptions. | $13,320,000 |
| **Supplemental Unemployment Benefits**<br>Exempts supplemental unemployment benefits from the city income tax. A statewide estimate is not available. | n.a. |

## City Utility Users' Tax

The uniform city utility users' tax is based on the privilege of consuming public telephone, electric, steam, or gas services in a city of 600,000 or more. Currently, Detroit is the only city in Michigan eligible to levy the tax. The maximum rate is 5 percent, which is the current rate in Detroit. Revenues are earmarked for increased law enforcement. Collections totaled $55.6 million in 2022.

DEPARTMENT OF REVENUE

November 1, 2024

**To the Members of the Legislature of the State of Minnesota:**

It is my pleasure to submit to you the 2024 Minnesota Tax Expenditure Budget, as required by Minnesota Statutes, Section 270C.11. The purpose of the report is to facilitate a regular, comprehensive legislative review of state and local tax provisions that provide preferential tax treatment for certain persons, types of income, transactions, or property.

This report contains information that can be used to evaluate Minnesota's current state and local tax system and as a basis for making future tax policy decisions.

Minnesota Statutes, Section 3.197, specifies that a report to the Legislature must include the cost of its preparation. The approximate cost of preparing this report was $165,000.

The report is available on the Department of Revenue website at:
https://www.revenue.state.mn.us/tax-expenditure-reports

Sincerely,

Paul Marquart

Paul Marquart
Commissioner

# Preface

This report is the 19th tax expenditure budget prepared and submitted as required by Minnesota Statutes. It reflects Minnesota law after changes enacted in 2024.

The main purpose of the tax expenditure budget is to provide information on which sound policy decisions can be made. The report is also a useful reference resource because it contains an explanation and history for each provision, as well as the fiscal impact.

Beginning in 2024, this report also includes several new elements as required by law changes enacted in 2021.

The report includes objective statements for each tax expenditure, if available. The objective statements will just either be identified in the enacting legislation or by the Tax Expenditure Review Commission. Additional objective statements will be added to future reports as they are identified by the Tax Expenditure Review Commission.

Also included are the revenue-neutral rates for each provision, which show the tax rate or rates for each tax type which would generate the same revenue if the provision were repealed.

For significant tax expenditures, the report also includes a table showing the incidence of the tax expenditure. Significant tax expenditures include income or sales tax provisions that reduce revenue by at least $10 million per biennium, excluding federal provisions and business tax credits.

An essential starting point for using this report is the main introduction, beginning on page 1. The introduction includes background information on tax expenditure reporting, describes the conceptual basis for determining whether a provision is a tax expenditure, and explains how the fiscal impacts of tax expenditure provisions are measured. The differences between tax expenditure estimates and estimates for law changes are also explained. Following the main introduction is a summary list which contains for each tax expenditure provision the item number, name, year enacted by the state, and fiscal impact for fiscal years 2024 through 2027.

The report is organized into chapters, with one chapter for each tax. Each chapter contains descriptive information on the tax and detailed information on each tax expenditure provision. The provisions within a chapter are grouped by type and are in the order used in the computation of the tax, such as exemptions, then deductions, and then credits. An item number is assigned to each tax expenditure provision.

Beginning in 2024, the report uses a new three-part numbering system. The first number identifies the chapter, the second number identifies the section within each chapter, and the last number is assigned consecutively within that section. The item number is the key used to identify and locate provisions throughout this report. The number for each provision will remain consistent in all future reports. Repealed provisions will be left blank and newly enacted provisions will be added at the end of each section. The new numbering system is intended to make it easier to track provisions by their item number over time.

## Appendix A: Minnesota Statute Requiring the Tax Expenditure Budget

# Introduction to the Tax Expenditure Budget

## *The Tax Expenditure Concept*

"State governmental policy objectives are sought to be achieved both by direct expenditure of governmental funds and by the granting of special and selective tax relief or tax expenditures." (Minnesota Statutes, Section 270C.11, Subd. 1, in part, reprinted in Appendix A.)

Tax expenditures are statutory provisions which reduce the amount of revenue that otherwise would be generated, including exemptions, deductions, credits, and preferential tax rates. These provisions are called "expenditures" because they are similar to direct spending programs. Both tax expenditures and direct expenditures are used for public policy goals, such as funding or encouraging specified activities or providing financial assistance to persons, businesses, or groups in particular situations.

A tax expenditure is different from a direct spending program in two major respects:

- A direct spending program continues only if funds are appropriated for each budget period, but the continuation of a tax expenditure does not require legislative action. Unless a tax expenditure provision has an expiration date, it can continue indefinitely.
- Direct spending programs are itemized on the expenditure side of the budget. Tax expenditures are reflected on the revenue side of the budget and are not itemized. Revenues shown in the state budget are net of tax expenditures.

## *The Purpose of the Tax Expenditure Budget*

The purpose of the tax expenditure budget is to provide information to facilitate a regular, comprehensive legislative review of tax expenditure provisions. Tax expenditure provisions are identified and listed in the report, along with the legal citation, explanation, history, and fiscal impact for each provision.

Minnesota Statutes, Section 270.067, enacted in 1983, required a tax expenditure budget to be submitted as a supplement to the governor's biennial budget. In 1996, the law was changed so that the report is due in each even-numbered year, rather than at the same time as the governor's biennial budget in the odd-numbered years. In 2005, the statute was re-codified as Section 270C.11 (reprinted in Appendix A). In 2021, the law was changed to require additional information to be included in the tax expenditure budget, e.g., the purpose of the expenditure, the incidence of the expenditure, and the revenue-neutral amount if the expenditure was repealed. The law also changed the due date to November 1 of each even numbered year. This report, due on November 1, 2024, is the first report that reflect those changes.

## *Tax Expenditure Criteria*

Not every exemption, deduction, credit, or lower tax rate is a tax expenditure. A conceptual framework governs the identification of tax expenditure provisions. Each provision is evaluated against a list of seven criteria to determine if it is a tax expenditure. Some of the criteria are taken directly from the authorizing statute; some are based on concepts used in the preparation of federal tax expenditure reports; and others are based on what is believed to be a logical application of the tax expenditure concept. A provision must meet all the criteria in order to be a tax expenditure.

Introduction

A provision is a tax expenditure if it:

- has an impact on a tax that is applied statewide;
- confers preferential treatment;
- results in reduced tax revenue in the applicable fiscal years;
- is not included as an expenditure item in the state budget;
- is included in the defined tax base for that tax;
- is not subject to an alternative tax; and
- can be amended or repealed by a change in state law.

The first four criteria are based on the statute requiring the tax expenditure budget.
***Statewide Tax*:** The tax expenditure budget is required by statute to include every state tax and any local tax that is applied statewide. A local tax imposed pursuant to a special law is not included in the report. Only taxes that contain tax expenditure provisions are included in the report.

***Preferential Treatment*:** Preferential treatment is a key concept in determining tax expenditures. The first sentence of the authorizing statute, quoted at the beginning of this introduction, uses the words "special and selective." Also, the statutory definition of a tax expenditure uses the word "certain." Minnesota Statutes, Section 270C.11, Subd. 6(4) (emphasis added):

> "Tax expenditure" means a tax provision which provides a gross income definition, deduction, exemption, credit, or rate for *certain* persons, types of income, transactions, or property that results in reduced tax revenue…

If a provision is not preferential, it is not a tax expenditure. The standard deduction for the individual income tax is not preferential because the deduction amount is the same for each taxpayer of the same filing status and income. Likewise, the graduated rate structure of the individual income tax is not considered a tax expenditure because each taxpayer with the same amount of tax base pays at the same rate.

***Reduction in Revenue*:** In the statute quoted above, a requirement is that the provision "... results in reduced tax revenue." A provision that would otherwise qualify is not considered a tax expenditure if it is not being used or is not likely to be used during fiscal years 2024 through 2027.

The federal law (Congressional Budget Act of 1974, Public Law 93–344) that requires a list of tax expenditures to be included with the federal budget includes in its definition of tax expenditures ". . . provisions of the Federal tax laws which allow . . . a deferral of liability." The Minnesota law does not specifically mention deferral of liability. However, this concept has been adopted in the preparation of the report because a deferral of liability results in reduced tax revenue for a given year.

A deferral of liability involves the time value of money and primarily affects the individual income and corporate franchise taxes. A deferral can result either from postponing the time when income is recognized or from accelerating the deduction of expenses. In either case taxable income is lower in that year than it would be otherwise, and an adjustment is made in a future year. The deferral of liability is similar to an interest-free loan for the taxpayer.

***Not an Expenditure in the State Budget*:** The tax expenditure budget is intended to supplement the regular state budget and therefore does not include provisions that are itemized as expenditures in the state budget. Several state-funded property tax relief provisions are similar to tax expenditures, but they are not included in this report because they are listed separately in the state budget as expenditures.

***Included in the Defined Tax Base*:** The tax base for each tax must be clearly defined so that exceptions to that base can be identified. Some tax provisions help to define the base; others are exceptions to the base. The defined tax base for a tax is the working definition used for this report and is not intended to define the ideal tax base. The defined tax base for each tax is explained in the chapter introduction for the tax. Knowing the tax base is important to understanding how tax expenditures are determined for each tax.

***Not Subject to an Alternative Tax*:** In some instances, one tax may be imposed in place of another tax, and it would not be reasonable for a taxpayer or activity to be subject to both taxes. Therefore, the exemption from one tax is not considered a tax expenditure if the alternative tax is imposed.

The application of the alternative tax concept for this report is limited to these situations:

- The income from taconite and iron mining is subject to the occupation tax in lieu of the corporate franchise tax.
- The purchase of a motor vehicle is subject to the motor vehicle sales tax (Chapter 5) in lieu of the general sales and use tax (Chapter 4).
- Cigarettes are exempt from the general sales and use tax but are subject to a tax in lieu of the sales tax at the wholesale level.
- The solid waste management taxes are imposed in lieu of the general sales tax.
- A number of taxes are imposed in lieu of the general property tax, including the motor vehicle registration tax and the taconite production tax.
- Noncommercial aircraft are taxed under the aircraft registration tax.

***Subject to Legislative Authority*:** The statute requiring the tax expenditure budget specifies that it is to be submitted to the legislature. Therefore, the report contains only provisions in state law that the legislature can repeal or amend. Tax provisions that are contained in the Minnesota Constitution, federal law, or the United States Constitution are not included in the tax expenditure budget.

## *How Tax Expenditures Are Measured*

The fiscal impact of a tax expenditure measures the revenue loss from that one provision under current law. Each provision is estimated in isolation, and all other tax provisions are held constant. The impact of that provision on other tax provisions is not taken into account. Because the estimates measure the impact of the provision as it exists, no change in taxpayer behavior is assumed.

The estimates for provisions that result in the deferral of tax include the net impact for that year. For example, contributions to a traditional individual retirement account (IRA) are deducted in the year that the contribution is made, earnings are not taxed in the year they are earned, and distributions are included in taxable income in the year received. The tax expenditure impact for a given year measures, for all traditional IRAs, the deduction for contributions made that year plus the exclusion of earnings accrued that year less distributions included in taxable income in that year.

The precision of the estimates varies with the source of the data and with the applicability of the data to the tax expenditure provision. Data from Minnesota tax returns were used whenever possible. Other sources included federal tax expenditure estimates, data from federal tax returns, census data, data from various federal and state agencies, and other economic and industry sources of data for Minnesota and the nation.

The methodology used to estimate tax expenditures can produce misleading results if the estimates for two or more provisions are totaled. Depending upon the situation, the combined impact of two or more provisions could be more or less than the total of the provisions estimated separately.

When two tax expenditures overlap, generally the overlap is not included in either estimate. If one exemption were repealed, the other exemption would still apply. For example, the sales tax exemption for hospitals includes purchases that would also qualify under the exemption for drugs and medicine. Neither the estimates for the hospital exemption nor the estimates for the drugs and medicine exemption include drugs and medicine purchased by hospitals. Adding together the two estimates done separately would understate their combined impact.

The graduated rate structure of the individual income tax is another reason that adding together tax expenditure estimates results in misleading information. As income increases, the marginal tax rate increases. The estimate for each exclusion and deduction uses a marginal tax rate appropriate for that provision. If two or more exclusions or deductions were repealed together, the marginal tax rate for the combined impact would be higher than the rate used for each provision. In that case, adding together the estimates done separately would understate their combined impact.

The itemized deductions for the individual income tax present another example of the distortion that can result from adding together tax expenditure estimates. Because other provisions are held constant, the estimate for each itemized deduction compares the total of the remaining itemized deductions to the standard deduction. For taxpayers who would lose the benefit of itemizing by the loss of that one deduction, the tax expenditure estimate measures the incremental benefit over the standard deduction. Adding together the tax expenditure estimates for two or more itemized deductions ignores the fact that the incremental benefit over the standard deduction may be different when estimating them together compared to estimating each one separately and then combining the estimates.

## *How the Measurement of Tax Expenditures Differs from Revenue Estimates for Proposed Law Changes*

The fiscal impact of a tax expenditure provision is not necessarily the same as the revenue that would be gained by repeal of the provision. This distinction is important.

The estimate of a tax expenditure measures the impact of the provision under existing circumstances. The estimate of the proposed repeal of a provision measures what would happen upon repeal. The estimate of repeal would take into account interactions within a tax or between taxes and may include changes in taxpayer behavior. As explained in the previous section, if two or more provisions were repealed at the same time, the combined impact would be estimated and could be larger or smaller than the sum of the provisions estimated separately.

In general, tax expenditures estimates do not take into account: changes in taxpayer behavior; impact on other tax provisions; the combined impact of two or more provisions; or other factors, including collectability. In comparison, estimates of proposed law changes consider all of those factors.

***Note:*** Laws 2021, First Special Session chapter 14, article 11 expanded the requirements and changed the timing of this study. Beginning in 2024, the Tax Expenditure Budget must include objective statements where available, estimated rate changes possible from the repeal of each tax expenditure, and analysis of the income distribution of significant sales and income tax expenditures. Those additional components of the study are described below.

## *Objective Statements*

This report includes objective statements for each tax expenditure, if one is available. The objective may come from one of the two sources: It may be identified in the enacting legislation, or it may be identified by the Tax Expenditure Review Commission. If no objective statement is available from either of those two sources, the objective statement is omitted. More objectives will be added to future reports as they are identified and approved by the Tax Expenditure Review Commission.

## Revenue Neutral Rates

For each tax expenditure, this report shows the rate or rates that would raise approximately the same revenue if the tax expenditure were repealed.

For example, the sales tax exemption on food products reduces sales tax revenue by about $1.404 billion in fiscal year 2024. If the provision were repealed, the sales tax rate could be lowered from 6.875% to 5.896% while raising the same amount of revenue. For taxes with graduated rates such as the individual income tax, each rate is reduced by the same amount. For example, the income tax exemption for employer-provided meals and lodging reduces income tax revenue by about $44 million in fiscal year 2024. If the provision were repealed, the rate in each income tax bracket could be reduced by 0.02 percentage points. The alternative rates would be 5.33%, 6.78%, 7.83%, and 9.83%.

For each tax, the revenue neutral rates are rounded to the same level as the current tax rates or to the nearest tenth of a percent, whichever is more precise. For example, income tax rates are rounded to the nearest hundredth of a percent consistent with the current rates, while the revenue neutral rates for the insurance premiums tax, which has a current rate of 2%, are rounded to the nearest tenth of a percent.

For some smaller provisions, the change in rate is negligible. In those cases, the revenue neutral rate is assumed to be equal to the current rate.

## Incidence of Significant Tax Expenditures

Significant income or sales tax expenditures include a table showing the income distribution of taxpayers who benefit from the provision. As defined in statute, significant tax expenditures are provisions that result in a revenue reduction of $10 million or more per biennium. Federal provisions and business tax credits are excluded.

The incidence analysis is based on the 2021 incidence database and additional information from the Consumer Expenditure Survey. The income ranges for each decile are based on incomes in 2021. Households are assigned to deciles based on total household income, including taxable and nontaxable sources. That definition is different than adjusted gross income, which is used to determine eligibility for some income tax credits and deductions. Some households may have high total income and still be eligible for income-limited tax benefits if their adjusted gross income is below the applicable threshold.

The analysis is based on the revenue loss from each tax expenditure in fiscal year 2024. The incidence tables include the income distribution for each tax expenditure by population decile. For income tax provisions, the number of affected taxpayers is included. However, counts are generally not available for sales tax expenditures.

For some business sales tax provisions, such as the exemption for capital equipment, detailed information on the incidence is not available. The introduction to Chapter 4 includes a table showing the general incidence of the portion of the sales tax that falls on businesses. Most business-related provisions are assumed to follow a similar distribution.

## Tax Expenditure Summary List

| | | Enacted | Fiscal Year Impact | | | |
|---|---|---|---|---|---|---|
| | | | 2024 | 2025 | 2026 | 2027 |
| **INDIVIDUAL INCOME TAX** | | | | | | |

# Chapter 1: Individual Income Tax

## *Collections and History*

Fiscal year 2024 net collections from the individual income tax were $14.9 billion. All revenue from this tax goes into the State General Fund.

The State of Minnesota enacted an income tax for individuals and corporations in 1933. The same graduated rate schedule applied to both taxes, and it was divided into $1,000 increments, with the lowest rate at 1% on the first $1,000 of taxable income and the highest rate at 5% on taxable income over $10,000.

Although many changes were made to the individual income tax over the years, the structure of the tax remained basically the same from 1933 through 1984. In 1985, major changes were made in two areas: the joint income of married couples and the deductibility of the federal income tax.

Prior to 1985, one rate schedule applied to all filers, so that the income of each person was treated the same, regardless of marital status. Two–income married couples usually filed separately, even if they filed a joint federal return. In 1985, a married joint tax rate schedule was added, and married couples were required to use the same filing status as on the federal return. Other provisions were changed so that they were based on the joint income of the couple rather than on the income of each taxpayer.

A deduction for federal income taxes was allowed until 1985, when the deduction was made an option, with a schedule of higher tax rates used if federal tax was deducted. In 1987, the deduction for federal income tax was eliminated as part of another wave of broad changes to the individual income tax.

The 1987 changes to the individual income tax occurred in three major areas: federal conformity and simplification; 1986 federal tax reform; and rate structure.

In 1987, the starting point for computation of the Minnesota income tax was changed from federal adjusted gross income to federal taxable income. The Minnesota standard deduction and personal credits were replaced with the federal standard deduction and personal exemptions. Some of the adjustments to income were repealed. Using federal taxable income continued the trend toward closer conformity to federal itemized deductions.

Minnesota also adopted nearly all of the major changes contained in the federal Tax Reform Act of 1986. The changes broadened the tax base by, among other things, repealing the 60% capital gains exclusion and the dividend exclusion.

Both the number of tax brackets and the range of tax rates were reduced dramatically in 1987. Prior to 1985 there were twelve tax rates, from 1.6% to 16%. From 1988 to 2012 there were three tax rates. The rates were reduced in 1999 and 2000 and were 5.35%, 7.05%, and 7.85% from 2000 to 2012. In 2013, a fourth bracket was added with a tax rate of 9.85%. In 2019, the 2$^{nd}$ rate was reduced from 7.05% to 6.8%.

In 2019, the starting point for computation of the Minnesota income tax was changed from federal taxable income to adjusted gross income. Minnesota enacted its own standard deduction, itemized deductions, and dependent exemption.

### *Tax Base*

In order to be a tax expenditure, a provision must be included in the defined tax base for that tax. For this study, the tax base for the individual income tax is defined as income from all sources less expenses that are reasonable and necessary to generate that income. If an expense is reasonable and necessary to generate income, it is not considered a tax expenditure.

An all-encompassing definition of income would include gifts and bequests. For purposes of this study, gifts and bequests that are voluntary and unconditional are not considered income, and, therefore, their exclusion is not considered a tax expenditure. Payments to which the recipient is entitled due to meeting specified requirements, such as social security, workers compensation, and public assistance, are considered income. Therefore, the exclusions of income from these sources are tax expenditures.

### *Computation of the Tax*

Beginning with tax year 2019, the computation of the Minnesota individual income tax starts with federal adjusted gross income. The definition of adjusted gross income in Minnesota tax law references the Internal Revenue Code as of a specified date. If federal legislation is enacted which affects the computation of federal adjusted gross income, a state law change is required to adopt the federal change. At the time of this report, Minnesota law referenced the Internal Revenue Code as amended through May 1, 2023.

With the switch to adjusted gross income as the starting point for calculating Minnesota income tax, Minnesota taxable income no longer includes the federal standard deduction, itemized deductions, or exemptions (which were temporarily suspended by federal law). Beginning with 2019, Minnesota established its own dependent exemption and standard deduction, which is similar to the federal standard deduction except that it is phased out for higher income taxpayers. Minnesota also created its own set of itemized deductions and a dependent exemption.

The tax expenditure estimates for the itemized deductions take into account the incremental benefit of the deduction over the standard deduction for those taxpayers who would lose the benefit of itemizing by the loss of that one deduction.

Beginning with 2019, all inflation adjustments of income tax provisions are based on the Chained Consumer Price Index, an alternative measure of inflation that generally grows more slowly than the Consumer Price Index, which had been the traditional measure of inflation. The tax brackets are adjusted annually for inflation and for tax year 2024 are as follows:

| Tax Brackets | 5.35% Up To | 6.80% | 7.85% | 9.85% or Over |
|---|---|---|---|---|
| Married Joint | $46,330 | $46,331–$184,040 | $184,041–$321,450 | $321,450 |
| Married Separate | 23,165 | 23,166–92,020 | 92,021–160,725 | 160,725 |
| Head of Household | 39,010 | 39,011–156,760 | 156,761–256,880 | 256,880 |
| Single | 31,690 | 31,691–104,090 | 104,091–193,240 | 193,240 |

An alternative minimum tax (AMT) on tax preference items is imposed to the extent that it exceeds the regular tax computed from the above rate schedule. The Minnesota AMT is similar to the federal AMT and is 6.75% of Minnesota alternative minimum taxable income. The benefits to a taxpayer of a number of the deductions shown as tax expenditures are lower because part or all of these items must be added back in computing alternative minimum taxable income.

The tax expenditures are shown in this report generally in the order in which they occur in the computation of the tax. The Minnesota individual income tax is computed as follows for tax year 2024:

| | |
|---|---|
| | Income from all sources |
| minus: | federal exclusions |
| equals: | federal gross income |
| minus: | federal above-the-line deductions |
| equals: | federal adjusted gross income |
| minus: | Minnesota standard deduction or itemized deductions |
| minus: | Minnesota dependent exemptions |
| plus: | Minnesota additions |
| minus: | Minnesota subtractions |
| equals: | Minnesota taxable income |
| times: | graduated rates of 5.35%, 6.80%, 7.85%, and 9.85% |
| equals: | gross tax |
| plus: | alternative minimum tax at 6.75% rate |
| plus: | tax on lump sum distribution from a pension plan |
| minus: | nonrefundable credits |
| equals: | income tax liability |
| minus: | refundable credits |
| equals: | net tax after refundable credits |

## *Federal Exclusions*

### 1.1.01 Employer-Provided Meals and Lodging

Internal Revenue Code, Sections 119 and 132(e)(2)
Minnesota Statutes, Section 290.01, Subd. 19

Section 119 of the Internal Revenue Code allows an employee to exclude from income the value of meals and lodging furnished by the employer on the business premises for the employer's convenience. For lodging to qualify, it must be required as a condition of employment, such as for a live-in housekeeper or an apartment resident manager. This provision does not cover instances in which an employee is reimbursed by the employer for amounts spent on meals and lodging.

An exclusion from income also applies to the fair market value of meals provided to employees at a subsidized eating facility operated by the employer. The facility must be located on or near the employer's business, and revenue from the facility must equal or exceed the facility's direct operating costs.

These exclusions were first allowed in 1918 by federal regulation. Section 119 was enacted in 1954. The exclusion of meals at employer-provided facilities was enacted in 1984. These provisions were last modified in 1998.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.020 percentage points, to 5.330%, 6.780%, 7.830%, and 9.830%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $44,000,000 | $44,500,000 | $45,100,000 | $45,600,000 |

### 1.1.02 Housing Allowances for Ministers

Internal Revenue Code, Section 107
Minnesota Statutes, Section 290.01, Subd. 19

Section 107 of the Internal Revenue Code provides that the gross income of a minister of the gospel does not include any housing allowance that is part of compensation. The exclusion applies whether it is the rental value of a home furnished to the minister or a cash housing allowance paid as part of compensation. The amount of the cash housing allowance excluded cannot exceed the fair rental value of the home. A minister who owns a home and receives a cash housing allowance may also claim itemized deductions for mortgage interest and real estate taxes.

This exclusion was enacted federally in 1921 and adopted by Minnesota in 1945. This provision was last modified in 2002.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.003 percentage points, to 5.347%, 6.797%, 7.847%, and 9.847%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $6,700,000 | $7,000,000 | $7,400,000 | $7,800,000 |

## 1.1.03 Employer-Provided Dependent Care Assistance

Internal Revenue Code, Section 129
Minnesota Statutes, Section 290.01, Subd. 19

Employer-provided dependent care assistance is excluded from the employee's income if the assistance is provided through a formal, written plan. The amount excluded from an employee's income cannot exceed $5,000 during a tax year. The assistance provided may not discriminate in favor of highly-compensated employees, shareholders, or owners. The amount excluded cannot exceed the employee's earned income; amounts exceeding earned income are taxable.

If the taxpayer makes direct payments for child or dependent care, this exclusion does not apply, but the taxpayer may be eligible for the child and dependent care credit (Item 1.6.06).

This provision was enacted in 1981 and was last modified in 1996. The maximum federal exclusion was increased for 2021 only, but Minnesota has not adopted that change.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.005 percentage points, to 5.345%, 6.795%, 7.845%, and 9.845%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $11,300,000 | $12,100,000 | $15,100,000 | $15,900,000 |

## 1.1.04 Employee Awards

Internal Revenue Code, Sections 74(b, c) and 274(j)
Minnesota Statutes, Section 290.01, Subd. 19

Certain employee awards are excluded from gross income. To qualify, the award must be tangible personal property and must be given for either length of service or safety achievement. The business deduction allowed to the employer determines the size of the award that is excluded. In general, the exclusion is limited to $400. If the employer has an established written plan which does not discriminate in favor of highly-compensated employees, the exclusion for each employee may be up to $1,600.

Employee awards were first specifically excluded by statute in the federal Tax Reform Act of 1986.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.001 percentage points, to 5.349%, 6.799%, 7.849%, and 9.849%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $3,200,000 | $3,400,000 | $3,600,000 | $3,800,000 |

## 1.1.05 Employer Pension Plans

Internal Revenue Code, Sections 401–404, 406-407, 411, 415 and 457
Minnesota Statutes, Section 290.01, Subd. 19

Contributions by an employer to an employee's qualified pension plan are excluded from the employee's income. The current-year earnings derived from such contributions, as well as those from contributions made by the employee, are also excluded. The employee's contribution is also excluded from income for specific types of plans, including 401(k) plans, certain government plans, tax-sheltered annuities, and deferred compensation.

The tax expenditure is actually a deferral of income and not an exclusion because pension income that was not previously taxed must be included in income when disbursements are received. The estimates show the fiscal impact of excluding current-year pension contributions and earnings from taxable income, net of all taxable pension income disbursed in that year.

The federal exclusion was enacted in 1921, and the Minnesota exclusion was enacted in 1933. Various changes were enacted over the years, primarily affecting the requirements for a qualified plan. The last changes were made in 2020.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 1.071 percentage points, to 4.279%, 5.729%, 6.779%, and 8.779%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $2,324,500,000 | $2,724,300,000 | $3,080,900,000 | $3,719,800,000 |

## 1.1.06 Contributions by Employers for Medical Insurance Premiums and Medical Care

Internal Revenue Code, Sections 105 and 106
Minnesota Statutes, Section 290.01, Subd. 19

All employer contributions to health insurance plans which provide compensation for sickness and injury are excluded from the employee's income. Payments from such plans may be excluded to the extent that they are based on the nature of the injury or illness or the cost of medical care and are not based on the period the employee is absent from work.

Employer contributions for medical insurance premiums and medical care have never been subject to taxation. In 1997, this provision was extended to include long-term care insurance.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.761 percentage points, to 4.589%, 6.039%, 7.089%, and 9.089%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,650,900,000 | $1,760,000,000 | $1,818,000,000 | $1,899,300,000 |

## 1.1.07 Employer-Paid Accident and Disability Premiums

Internal Revenue Code, Sections 105 and 106
Minnesota Statutes, Section 290.01, Subd. 19

Premiums paid by an employer to an employee accident and disability insurance plan are excluded from the gross income of the employee.

This provision was enacted in 1954.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.023 percentage points, to 5.327%, 6.777%, 7.827%, and 9.827%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $49,900,000 | $50,700,000 | $57,600,000 | $60,700,000 |

## 1.1.08 Employer-Paid Group Term Life Insurance Premiums

Internal Revenue Code, Section 79
Minnesota Statutes, Section 290.01, Subd. 19

Group term life insurance premiums paid by an employer on behalf of an employee may be excluded from the employee's income. However, this exclusion applies only to premiums paid for insurance coverage of $50,000 or less; premiums for coverage in excess of $50,000 must be included in an employee's gross income. In order for the premiums to qualify for the exclusion, the plan must meet certain requirements including nondiscrimination rules.

In 1920, a federal administrative legal opinion was issued authorizing this exclusion. In 1954, when the Internal Revenue Code was revised, this provision was codified as Section 79 and was last modified in 1996.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.015 percentage points, to 5.335%, 6.785%, 7.835%, and 9.835%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $32,300,000 | $33,800,000 | $36,100,000 | $38,400,000 |

## 1.1.09 Employer-Paid Transportation Benefits

Internal Revenue Code, Section 132(f)
Minnesota Statutes, Section 290.01, Subd. 19 and 19b(21)

Certain employer-provided transportation benefits are excluded from the employee's income. The exclusion applies to transit passes, parking, and transportation in a commuter vehicle between the employee's residence and place of employment. The maximum federal exclusion from an employee's income in 2024, is $315 per month for parking, transit passes and transportation in a commuter vehicle. The maximum amounts are adjusted annually for inflation.

These benefits were first excluded by statute in 1984. This federal provision was last modified in 2015, when the maximum exclusion for transit passes and commuter vehicles was permanently set equal to the maximum parking exclusion. The exclusion does not include bicycle commuting expenses for tax years 2018 through 2025.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.028 percentage points, to 5.322%, 6.772%, 7.822%, and 9.822%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $61,500,000 | $63,000,000 | $65,300,000 | $68,400,000 |

## 1.1.10 Employer-Provided Education Assistance

Internal Revenue Code, Section 127
Minnesota Statutes, Section 290.01, Subd. 19

An employee may exclude from income amounts paid by the employer for education assistance, including tuition, fees, and books. The maximum exclusion is $5,250 per year. The exclusion applies if the employer either pays the expenses, reimburses the employee for expenses, or provides the education directly.

This exclusion was first enacted in 1978 as a temporary provision and was renewed a number of times. In 2001, the exclusion was extended to tax year 2010 and was expanded to include graduate education. In 2011, Minnesota adopted the federal extension of the exclusion to tax years 2011 and 2012. The exclusion was made permanent in 2013. In 2020, the federal exclusion was temporarily expanded to include student loan repayments by the employer through tax year 2025. Minnesota has not adopted that change.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.006 percentage points, to 5.344%, 6.794%, 7.844%, and 9.844%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $12,300,000 | $13,100,000 | $11,500,000 | $10,800,000 |

## 1.1.11 Employer-Provided Adoption Assistance

Internal Revenue Code, Section 137
Minnesota Statutes, Section 290.01, Subd. 19

Amounts paid by an employer to an employee for adoption assistance are excluded from the employee's income. For tax year 2024, the exclusion is allowed up to $16,810 per child and is phased out for adjusted gross income over $252,150. The maximum exclusion and income threshold for the phase-out are indexed annually for inflation.

This exclusion was enacted federally in 1996. In 2001, the exclusion was extended and increased from $5,000 for the adoption of a child ($6,000 for a child with special needs) to $10,000, indexed. The income threshold for phase-out was increased. The 2001 law changes expired after tax year 2010. In 2011, Minnesota adopted the 2010 federal changes which increased the maximum exclusion and extended it to tax years 2011 and 2012. The exclusion was made permanent in 2013.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $300,000 | $300,000 | $300,000 | $400,000 |

## 1.1.12 Employer-Provided Tuition Reduction

Internal Revenue Code, Section 117(d)
Minnesota Statutes, Section 290.01, Subd. 19

A reduction in tuition allowed to an employee of an educational institution is excluded from income if it is not a payment for services. The exclusion also applies to a tuition reduction allowed for the spouse and dependent children of an employee.

This exclusion was enacted in 1984.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.001 percentage points, to 5.349%, 6.799%, 7.849%, and 9.849%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $2,700,000 | $2,900,000 | $3,100,000 | $3,300,000 |

## 1.1.13 Miscellaneous Employee Fringe Benefits

Internal Revenue Code, Sections 117(d) and 132
Minnesota Statutes, Section 290.01, Subd. 19

In addition to Items 1.1.01 through 1.1.12, certain other employee benefits may be excluded from income. The benefits include employee discounts, services provided at no additional cost, and *de minimis* fringe benefits. The benefits may also be for the employee's spouse or dependent.

The status of employee benefits not specifically exempted by statute was uncertain prior to the enactment of Section 132 of the Internal Revenue Code in 1984. Any benefit not specified as exempt by the Internal Revenue Code is now considered taxable compensation. This provision was last modified in 1997.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.034 percentage points, to 5.316%, 6.766%, 7.816%, and 9.816%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $73,000,000 | $78,400,000 | $81,400,000 | $84,500,000 |

## 1.1.14 Income Earned Abroad by U.S. Citizens and Foreign Housing Costs

Internal Revenue Code, Section 911
Minnesota Statutes, Section 290.01, Subd. 7 and 19

A United States citizen or resident whose principal residence is in a foreign country and who is either present overseas for 11 out of 12 consecutive months or is a bona fide resident of a foreign country may exclude the income earned in a foreign country up to a maximum amount ($112,000 for 2022). A separate exclusion applies to federal employees (Item 1.1.15).

The taxpayer may also exclude any employer-paid foreign housing costs above a floor amount equal to 16% of step 1 salary at the GS-14 level. A deduction of an equal amount is allowed if the foreign housing costs are paid by the taxpayer. The combined income and housing exclusion or deduction may not exceed the taxpayer's total foreign earned income for that year. Individuals qualifying under these provisions may be considered nonresidents for Minnesota tax purposes under certain conditions.

Income earned abroad by United States citizens was excluded without limitation from federal gross income in 1926. The deduction for foreign housing costs was enacted in 1979. These provisions were last modified in 2006.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.012 percentage points, to 5.338%, 6.788%, 7.838%, and 9.838%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $26,600,000 | $28,200,000 | $29,800,000 | $31,600,000 |

## 1.1.15 Certain Allowances for Federal Employees Abroad

Internal Revenue Code, Section 912
Minnesota Statutes, Section 290.01, Subd. 19

United States federal civilian employees who work abroad are allowed to exclude from income certain allowances that are generally linked to the cost of living. Federal employees are not eligible for the Section 911 exclusion (Item 1.1.14). The allowances eligible for exclusion include housing, education, and travel, and they are defined by reference to specific federal legislation, including the Foreign Service Act of 1980, the Central Intelligence Act of 1949, the Overseas Differentials and Allowances Act, and the Administrative Expenses Act of 1946. Also excluded are cost-of-living allowances received by federal employees stationed in U.S. possessions, Hawaii, and Alaska, and certain allowances received by members of the Peace Corps.

The federal exclusion was enacted in 1943 and was last amended in 1988.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.003 percentage points, to 5.347%, 6.797%, 7.847%, and 9.847%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $7,200,000 | $7,400,000 | $7,600,000 | $7,800,000 |

## 1.1.16 Benefits and Allowances to Armed Forces Personnel

Internal Revenue Code, Sections 112 and 134, IRS Regulations 1.61-2
Minnesota Statutes, Section 290.01, Subd. 19

Section 112 of the Internal Revenue Code excludes compensation received by military personnel for active service in a designated combat zone. No dollar limit applies to the exclusion for enlisted personnel, but the limit for commissioned officers is equal to the highest rate of basic pay at the highest pay grade applicable to enlisted personnel.

Under Section 134 of the Internal Revenue Code, the value of in-kind benefits provided to military personnel and the cash payments given in lieu of the benefits are excluded from gross income. These benefits include allowances for housing and overseas cost of living, medical and dental benefits, group term life insurance, professional education, and dependent education.

The exclusion of benefits and allowances to Armed Forces personnel was first allowed in 1925. The exclusion of meals, housing, and cash allowances was codified in 1986. These provisions were last modified in 2008.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.014 percentage points, to 5.336%, 6.786%, 7.836%, and 9.836%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $31,100,000 | $31,900,000 | $34,300,000 | $37,600,000 |

## 1.1.17 Medical Care and TriCare Medical Insurance for Military Dependents and Retirees

Internal Revenue Code, Section 134
Minnesota Statutes, Section 290.01, Subd. 19

Dependents of active-duty military personnel, retired military personnel and their dependents, and survivors of deceased members are eligible for medical and dental care similar to active-duty military personnel. The care may be provided in military facilities from military doctors or by civilian health-care providers working under contract with the Department of Defense in the TriCare Program. Medical benefits and medical insurance provided to eligible participants are excluded from income.

The exclusion of such benefits was first allowed in 1925. Section 134 was codified in 1986.

An estimated 70,500 Minnesota taxpayers benefitted from this exemption in 2021.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.010 percentage points, to 5.340%, 6.790%, 7.840%, and 9.840%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $21,900,000 | $22,800,000 | $25,600,000 | $27,700,000 |

## 1.1.18 Veterans' Benefits

38 United States Codes 3101 and 5301; Revenue Ruling 72-605
Minnesota Statutes, Section 290.01, Subd. 19; MN Rules. Part 8001.9000

All benefits administered by the Department of Veterans Affairs are excluded from a taxpayer's federal gross income. Benefits are paid for compensation for service-connected disability, pensions, and educational assistance.

VA benefits have never been taxed, having first been excluded from federal income in 1917.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.044 percentage points, to 5.306%, 6.756%, 7.806%, and 9.806%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Disability Compensation | $88,900,000 | $93,100,000 | $103,300,000 | $112,500,000 |
| Pensions | 600,000 | 600,000 | 600,000 | 700,000 |
| Education and Training | 6,500,000 | 7,100,000 | 7,100,000 | 7,800,000 |
| Total–State General Fund | $96,000,000 | $100,800,000 | $111,000,000 | $121,000,000 |

## 1.1.19 Military Disability Pensions

Internal Revenue Code, Sections 104(a)(4) and 104(b)
Minnesota Statutes, Section 290.01, Subd. 19

Retired military personnel who have at least a 30% disability may receive a pension from the Department of Defense based on either the number of years in service or their percent disability, whichever would produce a larger pension. The amount of pension which is or would be based on percent disability is excluded from federal gross income.

The exclusion is restricted to qualified pensions. For retirees who entered military service on or before September 24, 1975, qualified pensions include pensions awarded for personal injury and illness resulting from active service in the armed forces of any country. For retirees who entered service after September 24, 1975, only pensions awarded for combat-related injuries qualify.

Beginning in 2001, the exclusion also applies to disability income received by any individual (military or civilian) attributable to injuries incurred as a direct result of a terrorist or military action against the United States.

Military disability pensions were fully excluded from income until the exclusion was limited in 1976. This provision was last modified in 2001.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.001 percentage points, to 5.349%, 6.799%, 7.849%, and 9.849%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,500,000 | $1,600,000 | $1,700,000 | $1,800,000 |

## 1.1.20 Workers' Compensation Benefits

Internal Revenue Code, Section 104(a)(1)
Minnesota Statutes, Section 290.01, Subd. 19

All workers' compensation benefits are excluded from income. Workers' compensation benefits include replacement of lost earnings, payments of injury-related medical costs, compensation for permanent disabilities, and certain expenses related to injury or death.

Workers' compensation benefits were first excluded from federal taxation in 1918 and from Minnesota taxation in 1933 when the Minnesota individual income tax was enacted.

In 2021, approximately 76,700 Minnesota workers' compensation claims were paid.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.024 percentage points, to 5.326%, 6.776%, 7.826%, and 9.826%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $52,800,000 | $55,000,000 | $62,800,000 | $67,100,000 |

## 1.1.21 Damages for Physical Injury or Sickness

Internal Revenue Code, Section 104(a)
Minnesota Statutes, Section 290.01, Subd. 19

Damages paid for physical injury or sickness are not included in the income of the recipient. The exclusion applies to damages paid through either a court award or a settlement, whether paid as a lump sum or as periodic payments. The exclusion does not generally apply to punitive damages or to compensation for discrimination or emotional distress.

This exclusion was enacted in 1918. In 1996, this provision was amended to clarify that the exclusion does not apply to punitive damages or to damages related to discrimination or emotional distress. In 2015 the provision was amended to include certain payments received by public safety officers who died as a result of injury sustained in the line of duty.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.007 percentage points, to 5.343%, 6.793%, 7.843%, and 9.843%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $14,900,000 | $15,100,000 | $15,200,000 | $15,400,000 |

## 1.1.22 Social Security Benefits

Internal Revenue Code, Section 86
Minnesota Statutes, Section 290.01, Subd. 19

All or a portion of a recipient's Social Security benefits may be excluded from taxable income. The tax expenditure measures the exclusion of nontaxable Social Security benefits, net of the recovery of previously-taxed employee contributions.

Social Security benefits are not taxable if the recipient's modified adjusted gross income is less than $25,000 for single or $32,000 for married–joint returns. For taxpayers with income between $32,000 and $44,000 for married–joint (between $25,000 and $34,000 for single), up to 50% of Social Security benefits are taxable. Above that income level, up to 85% of benefits are taxable. Modified adjusted gross income is adjusted gross income plus federally tax-exempt interest plus one-half of Social Security benefits.

Prior to 1984, Social Security benefits were not subject to federal or Minnesota income tax. The federal taxation of a portion of Social Security benefits was enacted in 1983. In 1985, Minnesota adopted the federal treatment. The inclusion of a larger portion of benefits in taxable income was enacted federally in 1993 and adopted by Minnesota in 1994.

As of December 2022, approximately 1,100,951 people in Minnesota received Social Security benefits.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.186 percentage points, to 5.164%, 6.614%, 7.664%, and 9.664%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $403,700,000 | $428,600,000 | $454,000,000 | $483,400,000 |

## 1.1.23 Medicare Benefits

Revenue Ruling 70-341
Minnesota Statutes, Section 290.01, Subd. 19
Minnesota Rules, Part 8001.9000

Medicare benefits are excluded from income, including benefits paid under the basic hospital insurance program, the supplementary medical insurance program, and the prescription drug program. The basic Medicare program is financed by a portion of the payroll taxes on employees, employers, and the self-employed. The supplementary program and the prescription drug program are voluntary and financed through individual premiums and federal subsidies. The tax expenditure measures the exclusion of benefits attributable to employer contributions through the payroll tax and federal contributions to the voluntary programs; it does not include the recovery of previously-taxed contributions made by the recipient.

Medicare benefits have never been taxed although the exclusion has not been specified in the statutes. A revenue ruling in 1970 upheld the exclusion of these benefits.

In 2023, approximately 1,118,844 people in Minnesota were enrolled in Medicare.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.363 percentage points, to 4.987%, 6.437%, 7.487%, and 9.487%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Hospital Insurance | $318,700,000 | $337,700,000 | $358,000,000 | $379,100,000 |
| Supplementary Medical Insurance | 376,700,000 | 415,300,000 | 458,200,000 | 493,400,000 |
| Prescription Drug Insurance | 92,200,000 | 100,300,000 | 106,500,000 | 111,100,000 |
| Total–State General Fund | $787,600,000 | $853,300,000 | $922,700,000 | $983,600,000 |

## 1.1.24 Foster Care Payments

Internal Revenue Code, Section 131
Minnesota Statutes, Section 290.01, Subd. 19

Qualified foster care payments are excluded from the income of the foster care provider. The exclusion is limited to payments for no more than five foster care individuals over age 18, but no limitation applies to payments for foster children under age 19.

This provision was enacted in 1982. Prior to 1986, foster care payments that exceeded documented expenses were included as income. In 1986, the exclusion was broadened to include all qualified foster care payments and was extended to foster care payments made for qualifying adults. This provision was last modified in 2002.

Minnesota has 1,162 licensed adult foster care, 3,399 active licensed child foster care providers, and four Department of Corrections child foster care programs in 2024.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.002 percentage points, to 5.348%, 6.798%, 7.848%, and 9.848%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $3,700,000 | $3,900,000 | $4,100,000 | $4,300,000 |

## 1.1.25 Public Assistance

Numerous Revenue Rulings
Minnesota Statutes, Section 290.01, Subd. 19
Minnesota Rules, Part 8001.9000

Public assistance benefits are excluded from federal gross income. The programs through which benefits are paid include the Minnesota Family Investment Program, General Assistance, Minnesota Supplemental Aid, and Supplemental Security Income. Only a portion of the benefits would be subject to the income tax because the income of some recipients would be below the income tax filing requirements.

Although theoretically the tax expenditure includes benefits received both in cash and in kind, such as food stamps, the estimates reflect only cash payments.

During the 1930s, the Internal Revenue Service issued a series of Revenue Rulings on the definition of federal gross income which explicitly excluded these benefits.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.014 percentage points, to 5.336%, 6.786%, 7.836%, and 9.836%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $26,400,000 | $27,300,000 | $28,200,000 | $29,100,000 |

## 1.1.26 Scholarship and Fellowship Income

Internal Revenue Code, Section 117
Minnesota Statutes, Section 290.01, Subd. 19

Section 117 of the Internal Revenue Code excludes from income scholarships, fellowships, and grants that are used for tuition, fees, and related expenses. To qualify, the student must be a candidate for a degree.

This exclusion was first allowed in 1954. Prior to 1986, scholarship money to cover room and board and money paid to non-degree students were also excluded. This provision was last modified in 2015.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.019 percentage points, to 5.331%, 6.781%, 7.831%, and 9.831%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $40,400,000 | $42,100,000 | $43,400,000 | $44,800,000 |

## 1.1.27 Education Savings Accounts

Internal Revenue Code, Section 530
Minnesota Statutes, Section 290.01, Subd. 19

A taxpayer may establish an education savings account for qualified education expenses of a named beneficiary. Qualified expenses include tuition, fees, books, and supplies for elementary, secondary, and higher education. Annual contributions to an account cannot exceed $2,000 and cannot be made after the beneficiary reaches age 18. The maximum contribution is reduced for taxpayers with income over $95,000 ($190,000 for a joint return).

Earnings on funds in the account are not included in income until the funds are distributed. Distributions used for qualified education expenses of the beneficiary are excluded from income.

This provision was enacted in 1997 and expanded in 2001 by increasing the contribution limit from $500 to $2,000, increasing the phase-out threshold for joint returns, and including expenses for elementary and secondary education. The 2001 changes were scheduled to expire after tax year 2010, but in 2010 they were extended through 2012. In 2013, they were made permanent.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.001 percentage points, to 5.349%, 6.799%, 7.849%, and 9.849%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $2,000,000 | $2,000,000 | $2,000,000 | $2,000,000 |

## 1.1.28 Qualified Tuition Plans

Internal Revenue Code, Section 529
Minnesota Statutes, Sec. 290.01, Subd. 19

Under a qualified tuition plan, a taxpayer may make contributions to an account that is established for the sole purpose of meeting qualified higher education expenses of a designated beneficiary. The plan may be either a college savings plan or a prepaid tuition plan. A state may sponsor either type of plan or both types of plans. A prepaid tuition plan may also be established by one or more institutions of higher education.

The earnings on the account are not taxed until they are distributed, and distributions are excluded from income to the extent that they are used for qualified higher education expenses.

The tax status of state tuition plans was clarified at the federal level in 1996 when Section 529 was added to the Internal Revenue Code. Several changes were made to these provisions in 2001, with the changes to expire after 2010. In 2006, the changes were made permanent and in 2008, Minnesota adopted the 2006 federal changes. In 2017, federal law expanded qualified distributions to include K–12 tuition expenses. Minnesota did not adopt that provision and requires any distributions used for K–12 tuition to be added to Minnesota taxable income. In 2020, qualified distributions were expanded to include student loan repayments up to $10,000 and apprenticeship fees and expenses. Minnesota conformed to that expansion in 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.020 percentage points, to 5.330%, 6.780%, 7.830%, and 9.830%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $42,500,000 | $44,000,000 | $48,900,000 | $52,200,000 |

## 1.1.29 Discharge of Certain Student Loan Debt

Internal Revenue Code, Section 108(f)
Minnesota Statutes, Sec. 290.01, Subd. 19

Generally, canceled or forgiven debt, or debt repaid on the borrower's behalf, is included in the debtor's taxable income. Section 108(f) of the Internal Revenue Code specifies conditions under which student loan cancellation and repayment assistance is excluded from income.

The exclusion applies to canceled or forgiven student loan debt if the terms of the loan provided that some or all of it would be canceled for work for a specified period of time, in a certain profession, and for any of a broad class of employers and if the loan was made by specified types of lenders. An exclusion also applies to assistance provided under certain programs for health professionals. The National Health Service Corps Loan Repayment Program and state programs eligible to receive funds under the Public Health Service Act provide payment on a borrower's behalf for educational loans in return for service in a health professional shortage area.

Section 108(f) of the Internal Revenue Code was enacted in 1984. In 2010, the exclusion was extended to state loan repayment and forgiveness programs designed to facilitate the increased availability of health care services in underserved areas. In 2018, it was temporarily extended to include the discharge of qualified student loan debt due to the death or disability of the student. In 2020, the exclusion was temporarily expanded to cover additional types of loans for tax years 2021 through 2025. Minnesota conformed to that change in 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.011 percentage points, to 5.339%, 6.789%, 7.839%, and 9.839%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $24,000,000 | $24,000,000 | $7,600,000 | $8,400,000 |

## 1.1.30 Certain Agricultural Cost-Sharing Payments

Internal Revenue Code, Section 126
Minnesota Statutes, Section 290.01, Subd. 19

Agricultural cost-sharing payments may be excluded in whole or in part from income if three conditions are met: the United States Secretary of Agriculture certifies that the payment serves to conserve soil and water resources, improve forests, or provide a habitat for wildlife; the Internal Revenue Service determines that the improvement does not substantially increase the annual income from the property; and the payment is for a capital expense. No deductions, depreciation, amortization, or depletion may be claimed with respect to any such amount excluded from income.

This exclusion was enacted in 1978 and was last modified in 1980.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $400,000 | $400,000 | $400,000 | $400,000 |

## 1.1.31 Discharge of Indebtedness Income for Certain Farmers

Internal Revenue Code, Sections 108(g) and 1017
Minnesota Statutes, Section 290.01, Subd. 19

Generally, the amount of any debt forgiveness must be included in the debtor's income unless the debt is discharged in a title II bankruptcy case, or the debtor is insolvent. A solvent farmer may be treated as insolvent, and the canceled debt excluded from income if at least 50% of the taxpayer's average annual gross receipts for the previous three years comes from farming. A reduction must be made to the taxpayer's basis in the property and to the taxpayer's tax attributes, including net operating losses, capital losses, and certain credit carryovers. The exclusion cannot exceed the sum of the adjusted basis and the adjusted tax attributes of qualifying property. The net effect is that the income is deferred rather than excluded.

The income exclusion for solvent farmers was enacted in 1986. Prior to that time, a similar provision applied to qualified business indebtedness, not just farming.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $700,000 | $700,000 | $700,000 | $700,000 |

## 1.1.32 Investment Income on Life Insurance and Annuity Contracts

Internal Revenue Code, Sections 72, 101(a), 7702, and 7702(a)
Treasury Regulation 1.451-2
Minnesota Statutes, Section 290.01, Subd. 19
Minnesota Rules, Part 8001.9000

Investment income earned on life insurance and annuity contracts is not included in the recipient's gross income as it accumulates. For a life insurance policy, the exclusion applies to what is commonly referred to as "inside build-up" of investment income. When the premiums paid by the policyholder exceed the cost of insurance, the excess premiums are invested by the company, and investment income is credited to the policy. If the policy is surrendered before the death of the policyholder, the excess of the cash surrender value over the premiums paid is included in income. In this situation, the income is deferred rather than excluded. Policy proceeds paid because of the death of the insured are excluded from the gross income of a beneficiary, and that investment income is never taxed.

An annuity is an investment contract in which the owner makes a deposit in either a lump sum or installment payments in exchange for regular payments for a lifetime or for a specified number of years. The income is not included in the gross income of the owner as it accumulates but is deferred until payments are made to the annuitant.

These exclusions have been in effect since 1933 and were last modified in 2017.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.045 percentage points, to 5.305%, 6.755%, 7.805%, and 9.805%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $97,900,000 | $102,400,000 | $103,300,000 | $107,700,000 |

## 1.1.33 Capital Gains on Home Sales

Internal Revenue Code, Section 121
Minnesota Statutes, Section 290.01, Subd. 19

An exclusion from income is allowed for the capital gain from the sale of a taxpayer's principal residence. The gain is excluded if the taxpayer owned and occupied the residence for at least two of the previous five years. The maximum exclusion is $250,000 ($500,000 for a married joint return). The exclusion cannot be used more than once every two years.

The exclusion in its current form was enacted federally in 1997 and adopted by Minnesota in 1998. It replaced two previous provisions. The deferral of the gain from the sale of the taxpayer's principal residence when the seller bought another home of equal or greater value was enacted in 1951 and repealed in 1997. The one-time exclusion of the gain, up to a specified amount, from the sale of the taxpayer's principal residence for taxpayers aged 65 or older was enacted in 1964, expanded several times, and repealed in 1997. These provisions were last modified in 2013.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.111 percentage points, to 5.239%, 6.689%, 7.739%, and 9.739%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $241,500,000 | $251,600,000 | $265,000,000 | $278,300,000 |

## 1.1.34 Capital Gains at Death

Internal Revenue Code, Sections 1001, 1014, 1040, 1221, and 1222
Minnesota Statutes, Section 290.01, Subd. 19

When property is transferred because of the death of the owner, the heir's basis in the property is the value of the asset at the time of the decedent's death rather than the original cost of the asset. Therefore, the appreciation of the asset occurring during the decedent's lifetime is excluded from gross income. The fiscal impact measures the exclusion against the taxation of the gain at the time of transfer at death.

The exclusion of capital gains at death was enacted federally in 1921. A similar provision was incorporated into the original Minnesota income tax law in 1933.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.134 percentage points, to 5.216%, 6.666%, 7.716%, and 9.716%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $291,600,000 | $303,500,000 | $315,800,000 | $328,600,000 |

## 1.1.35 Gain from Certain Small Business Stock

Internal Revenue Code, Section 1202
Minnesota Statutes, Section 290.01, Subd. 19

An exclusion from income is allowed to non-corporate taxpayers for all or a portion of the capital gain on qualifying small business stock. For qualifying stock issued after August 10, 1993, the exclusion is 50% of the gain. The exclusion was increased to 75% for stock acquired from February 18, 2009, to September 27, 2010, and to 100% for stock acquired after September 28, 2010.

The taxpayer must acquire the stock at its original issue and hold it for at least five years. The gain that a taxpayer can exclude from the same business in a year cannot exceed the greater of $10 million, less any cumulative gain excluded by the taxpayer in previous tax years, or 10 times the taxpayer's adjusted basis in the stock.

Qualifying small business stock must be issued by a C corporation with no more than $50 million in gross assets before and at the time the stock is issued. The corporation must employ at least 80% of its assets in a qualified trade or business during the five-year holding period, including specialized small business investment companies and all lines of business except health care, law, engineering, architecture, food service, lodging, farming, insurance, financing, and mining.

The 50% exclusion was enacted in 1993. The exclusion was increased to 75% in 2009 and to 100% in 2010. The 100% exclusion was extended a number of times and was made permanent in 2015.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.018 percentage points, to 5.332%, 6.782%, 7.832%, and 9.832%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $39,400,000 | $39,100,000 | $38,900,000 | $38,600,000 |

## 1.1.36 Capital Gains on Gifts

Internal Revenue Code, Sections 1001, 1015, 1221, and 1222
Minnesota Statutes, Section 290.01, Subd. 19

When an asset is given as a gift, taxation of the capital gain on the asset is deferred. The recipient's basis in the property is the same as the giver's basis, but the gain is not reported as income until the property is sold by the recipient. The deferral is considered a tax expenditure because a gain is generally recognized when an asset is transferred.

This provision was enacted federally in 1921 and by Minnesota in 1933.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.002 percentage points, to 5.348%, 6.798%, 7.848%, and 9.848%

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $5,000,000 | $28,400,000 | $15,800,000 | $5,900,000 |

## 1.1.37 Interest on Minnesota State and Local Government Bonds

Internal Revenue Code, Sections 103 and 141–150
Minnesota Statutes, Section 290.01, Subd. 19 and 290.0131, Subd. 2

Interest received from state and local government bonds is excluded from federal gross income. For Minnesota income tax purposes, the exclusion is restricted to interest from bonds issued by the State of Minnesota or by Minnesota local government units. Any interest from non-Minnesota state or local governments is added back to determine Minnesota taxable income.

The exclusion applies to all general obligation bonds. It also applies to several types of nonguaranteed bonds, including exempt facility bonds, small-issue bonds, qualified mortgage bonds, qualified student loan bonds, and qualified redevelopment bonds.

Federal law imposes an annual volume limitation by state on the total amount of nonguaranteed bonds that can be issued. The limitation for each state is the greater of $125 per resident or $378,230,000 in calendar year 2024. The limits are increased annually for inflation. Also exempt from taxation, but not subject to the overall volume limitation, are qualified bonds of 501(c)(3) nonprofit organizations and bonds for government-owned airports, docks, wharves, and certain solid waste disposal facilities. Other limitations apply to certain types of bonds including those subject to and exempt from the overall state volume limitation.

Minnesota exempted interest from Minnesota state and local bonds when the income tax was enacted in 1933. When the state began adopting the federal definition of gross income in 1961, the add-back provision was included in the statutes to maintain the intent and effect of the 1933 law. A 1968 federal law restricted the tax-free status given interest of industrial revenue bonds to those issued for specific purposes. A 1984 federal law limits by state the total amount of certain types of state and local bonds which may be issued, and the volume limitations were last modified in 2000. The tax-exempt bond provisions were last modified in 2014. In 2022, certain bonds related to broadband infrastructure and carbon capture were made tax exempt. Minnesota has not adopted that change.

An estimated 92,300 Minnesota taxpayers will claim this exemption in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.025 percentage points, to 5.325%, 6.775%, 7.825%, and 9.825%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $54,900,000 | $65,900,000 | $78,200,000 | $80,000,000 |

## 1.1.38 Energy Conservation Subsidies Provided by Public Utilities

Internal Revenue Code, Section 136
Minnesota Statutes, Section 290.01, Subd. 19

Gross income does not include the value of a subsidy provided by a public utility to a residential customer for the purchase or installation of an energy conservation measure.

Section 136 was enacted as part of the Comprehensive National Energy Policy Act of 1992. A partial exclusion that applied to subsidies for business property was enacted in 1992 and repealed in 1996.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $200,000 | $200,000 | $200,000 | $200,000 |

## 1.1.39 Permanent Exemptions from Imputed Interest Rules

Internal Revenue Code, Sections 483, 1274, 1274A, and 7872
Minnesota Statutes, Section 290.01, Subd. 19

The Internal Revenue Code generally requires that debt instruments bear a market rate of interest at least equal to the average rate on outstanding Treasury securities of comparable maturity. If the instrument does not, a market rate is imputed to it for tax purposes. The imputed interest must be included in the income of the recipient and is deducted by the payer.

Several exceptions exist to the imputed interest rules: debt associated with the sale of property when the total sales price does not exceed $250,000; the sale of farms or small businesses by individuals when the sales price does not exceed $1 million; and the sale of a personal residence. Debt instruments for amounts not exceeding $2.8 million that are given in exchange for real property may not have imputed to them an interest rate exceeding 9%. The $2.8 million maximum is indexed annually for inflation.

Imputed interest rules were enacted in 1984. Permanent exceptions to the rules were enacted in 1986 and were last modified in 1997.

**Revenue Neutral Rate**: If the tax expenditure were repealed, each income tax rate could be reduced by 0.003 percentage points, to 5.347%, 6.797%, 7.847%, and 9.847%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $7,500,000 | $7,900,000 | $8,400,000 | $9,000,000 |

## 1.1.40 Like-Kind Exchanges

Internal Revenue Code, Section 1031
Minnesota Statutes, Section 290.01, Subd. 19

In general, the gain from the sale or exchange of property is recognized as income for tax purposes. However, the gain from a like-kind exchange is not recognized at the time of exchange if both the relinquished and the received property are held for productive use in a trade or business or for investment. The recognition of the gain is deferred until the received property is sold or otherwise disposed. In order for the gain to qualify for deferral, the exchange must be concluded within specified time limits. This provision does not cover stock in trade or other property held primarily for sale, or stock, bonds, notes, or other securities.

Tax-free exchanges of like-kind property were allowed federally in 1921 and by Minnesota in 1933. These provisions were amended in 2008. In 2018, the federal deferral was limited to real property that is not held primarily for sale. Minnesota adopted that change in 2019.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.024% percentage points, to 5.326%, 6.776%, 7.826%, and 9.826%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $52,400,000 | $50,500,000 | $47,400,000 | $46,200,000 |

## *Federal Deductions*

### 1.2.01 Accelerated Depreciation

Internal Revenue Code, Sections 167 and 168
Minnesota Statutes, Sections 290.01 Subd. 19, 290.131 Subd. 9, and 290.132 Subd. 9

A deduction is allowed for the depreciation of machinery, equipment, and structures used in a trade or business or held for the production of income equal to the deduction allowed federally under the modified accelerated cost recovery system (MACRS).

Under MACRS, machinery and equipment can be depreciated over three, five, seven, or 10 years, and the 200% declining balance method is used. The 150% declining balance method applies to 15-year and 20-year property. Straight-line depreciation of 27.5 years is used for residential rental property, and 39 years is used for nonresidential real property.

Conceptually, the tax expenditure is the extent to which depreciation for tax purposes exceeds the actual decline in value of the asset during the applicable tax year. For machinery and equipment, the tax expenditure is measured as the difference between the current law depreciation schedule and straight-line depreciation over the period defined by the midpoint of the asset depreciation range (ADR) system that was in effect from 1971 to 1981. For structures, it is measured as the difference between current law depreciation and straight-line depreciation over 40 years.

For federal tax purposes, bonus depreciation has applied at various times. The amount of the bonus depreciation is subtracted from the basis of the property in computing the depreciation deduction for all years. For Minnesota tax purposes, 80% of the bonus depreciation is added back to taxable income in the first year, with that amount subtracted in equal parts over the next five years.

A depreciation deduction was part of the original Minnesota income tax enacted in 1933. Accelerated depreciation was first allowed through administrative practice by the federal government in 1946. A 30% bonus depreciation option was enacted federally in 2002 and was extended and modified several times. The percentage was increased to 50% and then to 100% in 2017 for property placed in service after September 27, 2017 and before tax year 2023. The percentage will be reduced gradually to zero in tax years 2023 through 2026. Minnesota requires the addition for 80% of the bonus depreciation in the first year and the subtraction of that amount in equal parts over the following five years.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.067 percentage points, to 5.283%, 6.733%, 7.783%, and 9.783%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $134,300,000 | $103,800,000 | $95,300,000 | $90,700,000 |

## 1.2.02 Expensing Depreciable Business Property

Internal Revenue Code, Section 179
Minnesota Statutes, Section 290.01, Subd. 19

A taxpayer may elect to treat the cost of qualifying business property as an expense in the year the property is placed in service. For Minnesota tax purposes, the maximum annual deduction is $25,000. If the taxpayer places more than $200,000 of qualifying property in service during the year, the $25,000 is reduced by one dollar for each dollar that the cost exceeds $200,000.

For federal tax purposes, the maximum annual deduction is $1 million, reduced by one dollar for each dollar of property placed in service over $2.5 million. Those thresholds are adjusted annually for inflation. For Minnesota tax purposes, 80% of the difference between the amount of expensing allowed for federal and state tax purposes was added back to taxable income on the Minnesota return, with that amount subtracted in equal parts over the next five years.

This provision was adopted in 1982. The maximum deduction was increased in 1993 and 1996. In 2003, the amount of allowable expensing was temporarily increased for tax years 2003 through 2005. Minnesota adopted those changes. In 2004, the increase was extended to tax years 2006 and 2007. Minnesota adopted the extension of the increase and, at the same time, enacted the addition equal to 80% of the increase, with that amount subtracted in equal parts over the next five years. This provision has been increased and expanded several times, most recently in 2017. Minnesota conformed to those changes in 2019, retaining the 80% addition and subtractions. In 2020, Minnesota fully conformed to Section 179 expensing. Subtractions will continue through 2024 for property placed in service before 2020.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.029 percentage points, to 5.321%, 6.771%, 7.821%, and 9.821%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $63,400,000 | $49,200,000 | $46,600,000 | $53,900,000 |

## 1.2.03 Excess of Percentage over Cost Depletion

Internal Revenue Code, Sections 291, 611, 612, 613, and 613A
Minnesota Statutes, Section 290.01, Subd. 19

Depletion allowances refer to the way in which investment costs are recovered for mining or other extractive operations and may be taken for almost all exhaustible natural resources. A taxpayer may choose from two forms of depletion: cost depletion or percentage depletion. Cost depletion is based on the taxpayer's basis in the property and is similar to depreciation in its application. Percentage depletion is based on a percentage of the gross income received from the extractive operation and has little relationship to a taxpayer's basis. The excess of percentage depletion over cost depletion is considered a tax expenditure.

A deduction for cost depletion was first allowed in 1913, and percentage depletion was allowed as an option in 1926. A 1986 change denies the use of percentage depletion for lease bonuses, advance royalties, or other payments that are not directly related to actual production from oil, gas, and geothermal properties. This provision was last modified in 2010.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $500,000 | $500,000 | $500,000 | $500,000 |

## 1.2.04 Expensing and Amortization of Business Start-Up Costs

Internal Revenue Code, Sections 195 and 709
Minnesota Statutes, Section 290.01, Subd. 19

A taxpayer may elect to deduct up to $5,000 of start-up expenditures in the taxable year in which the active trade or business begins. The $5,000 is reduced dollar-for-dollar by the amount by which total start-up costs exceed $50,000. Any start-up expenditures not deducted can be amortized over 15 years.

Without these special provisions, these expenditures would be capitalized by adding them to the taxpayer's basis in the business. They would then be treated as non-depreciable intangible assets, with costs not being recoverable until the taxpayer sold their interest in the business.

Section 709 was enacted in 1976, and Section 195 was enacted in 1980. The current provisions were enacted in 2004.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.001 percentage points, to 5.349%, 6.799%, 7.849%, and 9.849%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,400,000 | $1,500,000 | $1,600,000 | $1,700,000 |

## 1.2.05 Expensing for Removal of Barriers to the Disabled and the Elderly

Internal Revenue Code, Section 190
Minnesota Statutes, Section 290.01, Subd. 19

In general, an improvement to a depreciable asset is treated as a capital expenditure, and the cost is recovered using the appropriate depreciation deduction. However, Section 190 allows a taxpayer to expense up to $15,000 of the costs incurred in a single year for removing physical barriers to individuals with a disability or the elderly in qualified facilities or public transportation vehicles. Qualified expenses exceeding $15,000 must be capitalized.

This provision does not apply to construction of a new facility, the purchase of a new vehicle, or a complete renovation of an existing facility. A qualified facility includes any or all portions of a building, structure, equipment, road, walkway, parking lot, or similar property. A vehicle qualifies if it is owned or leased by the taxpayer and provides transportation services to the public.

Section 190 was enacted in 1976 as a temporary provision and was made permanent in 1986. The current maximum amount was enacted in 1990.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 1.2.06 Expensing of Exploration and Development Costs

Internal Revenue Code, Sections 56, 57(2), 263(c), 291, 616, 617, and 1254
Minnesota Statutes, Section 290.01, Subd. 19

Generally, amounts paid for permanent improvements or betterments to income-producing property are not deductible as current year expenses but are capitalized and recovered through depreciation or depletion. However, current-year expensing is allowed for items such as labor, fuel, repairs, and site preparation costs incurred in the exploration and development of oil, gas, other fuel, and non-fuel mineral deposits. Expensing is allowed only for domestic properties.

Expensing of development costs for oil and gas has been allowed federally since 1916. Expensing of development costs for other minerals and of exploration costs for all minerals, including oil and gas, was first allowed in 1951.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

## 1.2.07 Cash Accounting and Expensing for Agriculture

Internal Revenue Code, Sections 162, 175, 180, 446, 447, 448, 461, 464, and 465
Minnesota Statutes, Section 290.01, Subd. 19

Farmers are allowed to use cash accounting rather than the accrual system for income tax purposes. Therefore, costs attributable to goods not yet sold may be deducted in the current year.

A taxpayer engaged in the business of farming may deduct certain expenditures made during the tax year rather than capitalize them. Qualifying expenditures include soil and water conservation expenses, the purchase and application of fertilizer, and costs associated with raising dairy and breeding cattle.

Farmers have been allowed to use the cash accounting system for tax purposes since 1933. Minnesota began allowing the expensing of capital outlays in 1955. In 1986, the expensing provision was eliminated for land clearing and was restricted for soil and water conservation expenditures.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.003 percentage points, to 5.347%, 6.797%, 7.847%, and 9.847%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $5,600,000 | $5,800,000 | $6,100,000 | $6,000,000 |

## 1.2.08 Expensing of Multi-Period Timber Growing Costs

Internal Revenue Code, Section 263A(c)(5)
Minnesota Statutes, Section 290.01, Subd. 19

Timber growers are allowed to deduct, in the current year, costs associated with maintaining a timber stand after it is established. The costs include disease and pest control, brush clearing, and property taxes. This exception to the capitalization rules applies to the costs incurred in raising, growing, or harvesting trees other than trees bearing fruit, nuts, or other crops, or ornamental trees.

These costs have always been allowed to be expensed. When the uniform capitalization rules were adopted as part of the Tax Reform Act of 1986, this exception was allowed for timber.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $200,000 | $200,000 | $200,000 | $200,000 |

## 1.2.09 Amortization and Expensing of Reforestation Expenses

Internal Revenue Code, Section 194
Minnesota Statutes, Section 290.01, Subd. 19

Under uniform capitalization rules, production costs are capitalized (added to basis) and deducted when the product is sold. However, Section 194 allows a taxpayer to deduct up to $10,000 of reforestation expenditures incurred for each qualified timber property in any tax year. Expenditures exceeding $10,000 may be amortized over 84 months. Qualifying expenditures include only direct costs, such as for site preparation, seeds or seedling, and labor and tools.

Section 194 was enacted in 1980 and was last modified in 2005.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.001 percentage points, to 5.349%, 6.799%, 7.849%, and 9.849%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,200,000 | $1,300,000 | $1,300,000 | $1,400,000 |

## 1.2.10 Special Rules for Mining Reclamation Reserves

Internal Revenue Code, Section 468
Minnesota Statutes, Section 290.01, Subd. 19

In general, expenses that will be incurred in the future may not be claimed as a current deduction. An exception is provided for mining and solid waste disposal site reclamation costs which are incurred in order to comply with a federal, state, or local law, as specified. A deduction may be taken in the current year for the estimated future reclamation or closing costs attributable to production or mining activity during the taxable year. A bookkeeping reserve must be maintained for tax purposes so that, when reclamation or closing costs are actually incurred, they can be compared to the deductions taken. Any excess of the reserve, including interest, over actual costs must be included in income at that time.

Section 468 was enacted in 1984 and was last modified in 1990.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

## 1.2.11 Cash Accounting Other Than Agriculture

Internal Revenue Code, Sections 446 and 448
Minnesota Statutes, Section 290.01, Subd. 19

Section 446 of the Internal Revenue Code allows a taxpayer to choose the cash method of accounting instead of the accrual method. The accrual method is considered a better measure of current-year income and expenses because it takes into account the income of receivables. This tax expenditure is the difference in net income measured by accrual accounting and cash accounting. Accrual accounting is required for businesses that maintain inventories.

Cash accounting has been permitted since 1933. The Tax Reform Act of 1986 placed some restrictions on the use of cash accounting by partnerships. In 2018, this provision was expanded to allow taxpayers with average annual gross receipts of less than $25 million to use cash accounting.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.007 percentage points, to 5.343%, 6.793%, 7.843%, and 9.843%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $15,400,000 | $16,100,000 | $17,300,000 | $17,900,000 |

## 1.2.12 Installment Sales

Internal Revenue Code, Sections 453, 453A, and corresponding Treasury Regulations
Minnesota Statutes, Section 290.01, Subd. 19

In general, the gain or loss from the sale of property is recognized in the year of the sale. An exception is the installment method which may be used to report gains if at least one payment is received in a tax year later than the year of sale. The installment method can be used only by taxpayers who do not regularly deal in the property being sold, and gross profit is prorated over the period in which payments are received. The tax expenditure is the difference between what tax liability would be under year-of-sale reporting and installment reporting.

The installment method was first enacted in 1933. In 1986, the installment method was eliminated for revolving credit sales of personal property and sales of property regularly traded on an established market, such as stocks or securities. In 1987, the installment method was repealed for dealer sales of both real and personal property. In 1999, the use of installment sales was restricted, but that restriction was retroactively repealed in 2000. This provision was last modified in 2004, when installment sale treatment was denied for readily tradable debt.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.004 percentage points, to 5.346%, 6.796%, 7.846%, and 9.846%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $8,500,000 | $8,900,000 | $9,400,000 | $9,900,000 |

## 1.2.13 Completed Contract Rules

Internal Revenue Code, Section 460
Minnesota Statutes, Section 290.01, Subd. 19

Some taxpayers with contracts extending for more than one year are allowed to report some or all of the profit on the contracts under special accounting rules. Income from a long-term contract is reported only when the contract is completed, and costs allocable to the contract are deducted at that time. However, many indirect costs may be deducted in the year paid or incurred. Without these special rules, indirect costs could be deducted only when the income is reported.

The completed contract method is allowed for home construction contracts and for other construction contracts if they are no longer than two years in duration and if the taxpayer's average annual gross receipts for the three preceding years do not exceed $25 million.

The completed contract method was first allowed federally in 1918 and by Minnesota in 1933. The rules for long-term contracts were codified in the federal Tax Reform Act of 1986, and restrictions were placed on their use. This provision was last modified in 2018, when the gross receipts limit was increased from $10 million to $25 million.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $900,000 | $900,000 | $900,000 | $1,000,000 |

## 1.2.14 Employee Stock Ownership Plans

Internal Revenue Code, Sections 401(a)(28), 404(a)(9), 415(c), and 1042
Minnesota Statutes, Section 290.01, Subd. 19

An employee stock ownership plan (ESOP) is a qualified stock bonus plan or a combination of a stock bonus and a money purchase pension plan under which a tax-exempt trust holds employer stock for the benefit of the employees. The stock may be acquired through direct employer contributions or with the proceeds of a loan to the trust.

Employees are not taxed on employer contributions to an ESOP or the earnings on invested funds until they are distributed. A stockholder in a closely-held company may defer recognition of the gain from the sale of stock to an ESOP if the ESOP owns at least 30% of the company's stock after the sale and the seller reinvests the proceeds in a U.S. company.

The formation of ESOPs was first authorized in 1974. These provisions were last modified in 2001.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.006 percentage points, to 5.344%, 6.794%, 7.844%, and 9.844%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $12,600,000 | $13,600,000 | $14,600,000 | $15,700,000 |

## 1.2.15 Individual Retirement Accounts

Internal Revenue Code, Sections 219, 408, and 408A
Minnesota Statutes, Section 290.01, Subd. 19

An individual may make a contribution to an individual retirement account (IRA) of up to $6,500 in tax year 2023 or an amount equal to earned income, whichever is less. If the individual has more than one account, the total contribution to all accounts cannot exceed the lesser of $6,500 or earned income. Up to $6,500 can also be contributed for a nonworking spouse if the couple's combined contribution does not exceed their combined earned income. The maximum contribution and all income limits are indexed annually for inflation. For a taxpayer or spouse aged 50 or over, the contribution limit is increased by $1,000.

The contribution may be made to either a deductible IRA or a nondeductible IRA, referred to as a Roth IRA. For both types of IRAs, earnings on the account are excluded from income until the funds are distributed. For a deductible IRA, a deduction is taken when the contribution is made, and the distribution is taxable. If a distribution from a Roth IRA qualifies, the entire distribution is exempt from tax.

For a deductible IRA, if the taxpayer is a participant in an employer plan, the full deduction is allowed if adjusted gross income for tax year 2023 is $73,000 or less for a single person or $116,000 for a married-joint return. The maximum deduction is phased out over a range of $20,000 for married-joint returns and $10,000 for other filers.

The spouse of an active participant in an employer plan may take a deduction for contributions to an IRA, but the deduction is phased out for taxpayers with adjusted gross income between $218,000 and $228,000. If neither the taxpayer nor the spouse is an active participant in an employer plan, no income limit applies.

For a Roth IRA, the maximum contribution is phased out for joint filers with income between $218,000 and $228,000 and between $138,000 and $153,000 for other filers. Distributions are not subject to tax if made more than five years after the IRA has been established and if the distribution qualifies. Distributions qualify if made after age 59½, upon the death or disability of the individual, or for first-time homebuyer expenses.

The tax expenditure estimates for a given year measure the deduction for contributions and the exclusion of earnings, net of distributions included in taxable income that year.

The federal IRA provisions were enacted in 1974. In 1997, the income limits were increased for deductible IRAs, and provisions for nondeductible IRAs were replaced by the Roth IRA. In 2001, the contribution limit was increased and then indexed, with the changes to expire after 2010. In 2006, the increase and indexing of the contribution limit was made permanent, and indexing the income limits was adopted. In 2008, Minnesota adopted the 2006 federal changes. In 2017, special rules were enacted for taxpayers taking an early distribution from a retirement plan due to damages sustained in certain natural disasters. Minnesota conformed to those provisions in 2019.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.115 percentage points, to 5.235%, 6.685%, 7.735%, and 9.735%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $250,100,000 | $268,400,000 | $296,900,000 | $316,100,000 |

## 1.2.16 Self-Employed Retirement Plans

Internal Revenue Code, Sections 401–407 and 410–418E
Minnesota Statutes, Section 290.01, Subd. 19

A self-employed person may take a deduction for contributions made to a self-employed retirement plan (Keogh plan) up to the lesser of 25% of self-employment income (net of any contributions) or $66,000 for tax year 2023. Earnings are not included in the recipient's income until they are withdrawn from the fund. A self-employed plan must also cover any eligible employees. The deduction for contributions made on behalf of employees is considered a normal business expense and not a tax expenditure.

Disbursements from the plan are included in the recipient's income. These provisions are deferrals, measured for a fiscal year as the exclusion of earnings and the deduction for contributions, net of disbursements included in income that year.

This provision was originally enacted in 1962. From 1982 to 1984, the Minnesota deduction was more restrictive than the federal deduction. In 2017, special rules were enacted for taxpayers taking an early distribution from a retirement plan due to damages sustained in certain natural disasters. Minnesota conformed to those provisions in 2019.

Approximately 36,300 Minnesota taxpayers claimed this deduction in tax year 2021.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.019 percentage points, to 5.331%, 6.781%, 7.831%, and 9.831%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $41,900,000 | $43,800,000 | $45,900,000 | $48,000,000 |

## 1.2.17 Self-Employed Health Insurance

Internal Revenue Code, Section 162(l)
Minnesota Statutes, Sections 290.01, Subd. 19

A self-employed individual may deduct the amount paid for health insurance premiums for the taxpayer, spouse, and dependents. The deduction cannot exceed the taxpayer's net earned income from the trade or business. The deduction is not allowed if the taxpayer is eligible to participate in a health plan maintained by the employer of the taxpayer or the taxpayer's spouse.

The federal deduction was enacted in 1986 and was last modified in 1998. Prior to 2003, only a specified percentage of the premiums could be deducted in arriving at federal adjusted gross income, and remaining premiums could be taken as an itemized medical deduction. A Minnesota provision enacted in 1992 allowed the subtraction of any premiums not deducted federally. The Minnesota subtraction was repealed in 2003 when the full deduction was allowed federally.

An estimated 83,200 Minnesota taxpayers will claim this deduction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.026 percentage points, to 5.324%, 6.774%, 7.824%, and 9.824%

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $57,500,000 | $58,600,000 | $60,500,000 | $62,500,000 |

## 1.2.18 Health Savings Accounts

Internal Revenue Code, Section 223
Minnesota Statutes, Section 290.01, Subd. 19

An eligible individual with a high-deductible health plan is allowed to make contributions to a health savings account. An employer may also make contributions to the individual's account. The individual is allowed a deduction from gross income for contributions to the account, the employer contribution is excluded from the employee's income, interest on the account accumulates tax free, and withdrawals are not taxable if they are used for medical expenses.

For calendar year 2022, a health plan qualifies as a high-deductible plan if the annual deductible is at least $1,400 for self-only coverage ($2,800 for family coverage) and the sum of the annual deductible and other out-of-pocket expenses does not exceed $7,050 for self-only coverage ($14,100 for family coverage). The maximum annual deduction is $3,650 for self-only coverage ($7,300 for family coverage). The specified dollar amounts are indexed annually for inflation. For a person aged 55 or older, the maximum deductible contribution is increased by $1,000.

Tax-free health savings accounts were enacted federally in 2003 and adopted by Minnesota in 2005, effective retroactive to tax year 2004. These provisions were modified in 2010.

Approximately 71,000 Minnesota taxpayers claimed this deduction in 2021.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.010 percentage points, to 5.340%, 6.790%, 7.840%, and 9.840%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $21,200,000 | $22,500,000 | $23,900,000 | $25,400,000 |

## 1.2.19 Interest on Student Loans

Internal Revenue Code, Section 221, 62(a)(17)
Internal Revenue Code Rev. Proc. 2014-61
Minnesota Statutes, Section 290.01, Subd. 19

A deduction is allowed for interest paid on qualified loans used to pay higher education expenses for the taxpayer, spouse, or dependents. A person claimed as a dependent on someone else's return cannot take the deduction. The maximum deduction is $2,500. For tax year 2023, the maximum deduction is phased out for income over $75,000 ($155,000 for joint returns) and is completely phased out for taxpayers with income of $90,000 or more ($185,000 or more for joint returns).

This deduction was enacted in 1997. In 2001, the income limits were increased and indexed, and limiting the deduction to the interest paid during the first 60 months of required payments was removed. The 2001 law changes were scheduled to expire after tax year 2010, but in 2010 they were extended through tax year 2012 and in 2013, they were made permanent.

An estimated 125,300 Minnesota taxpayers will claim this deduction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.003 percentage points, to 5.347%, 6.797%, 7.847%, and 9.847%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $7,300,000 | $9,200,000 | $11,500,000 | $14,500,000 |

## 1.2.20 *Per Diem* Allowances Paid to State Legislators

Internal Revenue Code, Section 162(h)
Minnesota Statutes, Sections 290.01, Subd. 19

State legislators who reside more than 50 miles from the state capitol building are allowed a deduction for *per diem* allowances received for days that the Legislature is in session and for committee meetings that the legislator is required to attend.

Minnesota enacted a deduction for all *per diem* allowances for all legislators in 1959, and the full deduction was allowed until this provision was repealed in 1987. The federal deduction became effective in 1976, and the 50 mile restriction was added in 1981. Minnesota has conformed to the federal deduction since 1987.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## *Minnesota Personal Deductions*

### 1.3.01 Additional Standard Deduction for the Elderly and Blind

Minnesota Statutes, Section 290.0123, Subd. 2

A taxpayer or spouse who is aged 65 or over or blind is allowed an additional standard deduction. For tax year 2023, the additional amount for married couples is $1,450 for each person who is elderly or blind ($2,900 if elderly and blind). The additional amount for a single person or head of household is $1,850 for a taxpayer who is elderly or blind ($3,700 if elderly and blind). The amounts are indexed annually for inflation.

The basic standard deduction available to all taxpayers below the phase-out threshold is not considered a tax expenditure because equal amounts are allowed to similarly-situated taxpayers.

From 1951 through 1986, Minnesota allowed to the elderly and the blind an additional personal credit against the tax. Prior to tax year 1987, an additional personal exemption was allowed to the elderly and the blind on the federal return. The additional standard deduction was enacted federally in 1986 and was adopted by Minnesota in 1987. In 2019, Minnesota established its own standard deduction, including an additional deduction for the elderly and blind. The amounts are similar to the federal deduction amounts.

An estimated 416,000 returns will claim this deduction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.025 percentage points, to 5.325%, 6.775%, 7.825%, and 9.825%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $53,800,000 | $58,100,000 | $59,500,000 | $62,400,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $5,007 | 0.0% | 36 |
| $15,545 - $24,961 | -$8,897,060 | $61,250 | 0.1% | 646 |
| $24,962 - $35,168 | $50,299,493 | $818,595 | 1.5% | 9,971 |
| $35,169 - $45,808 | $162,527,171 | $2,902,054 | 5.4% | 31,693 |
| $45,809 - $58,014 | $329,724,240 | $3,862,237 | 7.2% | 38,139 |
| $58,015 - $73,668 | $536,303,127 | $5,764,368 | 10.7% | 52,611 |
| $73,669 - $95,360 | $819,647,313 | $9,406,933 | 17.5% | 72,493 |
| $95,361 - $127,780 | $1,210,630,834 | $10,415,116 | 19.4% | 72,456 |
| $127,781 - $183,475 | $1,954,222,647 | $9,601,294 | 17.8% | 58,096 |
| $183,476 & Over | $8,869,633,832 | $8,299,393 | 15.4% | 49,609 |
| **Nonresident** | $961,801,005 | $2,663,751 | 5.0% | 30,250 |
| **Total** | **$14,873,000,000** | **$53,800,000** | **100%** | **416,000** |

## 1.3.02 Medical Expenses

Minnesota Statutes, Sections 290.0122, Subd. 6 and 290.0132, Subd.19(b)

An itemized deduction is allowed for unreimbursed medical expenses to the extent they exceed 10% of adjusted gross income. Deductible expenses must be for the taxpayer, spouse, or dependent and include health insurance premiums, medical care, dental care, prescription drugs, insulin, necessary transportation, and medical aids, such as eyeglasses, hearing aids, crutches, and wheelchairs.

A deduction for medical expenses has been allowed by Minnesota since 1933. The state adopted these federal provisions in 1981. In 1996, the deduction was expanded to include long-term care insurance premiums and expenses. In 2010, the floor for the deduction was increased from 7.5% to 10% of adjusted gross income. The increase was scheduled to take effect first for taxpayers under 65 and then for all taxpayers in 2017. In 2018, the floor was temporarily lowered to 7.5% for 2017 and 2018 only. In 2019, Minnesota enacted its own medical expense deduction, which is equal to the federal deduction except that the floor percentage is 10% in all years.

An estimated 31,000 returns will claim this deduction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.016 percentage points, to 5.334%, 6.784%, 7.834%, and 9.834%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $34,100,000 | $35,100,000 | $36,800,000 | $38,900,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $26,337 | 0.1% | 78 |
| $15,545 - $24,961 | -$8,897,060 | $4,038 | 0.0% | 37 |
| $24,962 - $35,168 | $50,299,493 | $195,980 | 0.6% | 616 |
| $35,169 - $45,808 | $162,527,171 | $926,789 | 2.7% | 2,668 |
| $45,809 - $58,014 | $329,724,240 | $1,361,018 | 4.0% | 3,685 |
| $58,015 - $73,668 | $536,303,127 | $2,571,464 | 7.5% | 4,760 |
| $73,669 - $95,360 | $819,647,313 | $8,451,087 | 24.8% | 4,686 |
| $95,361 - $127,780 | $1,210,630,834 | $4,659,089 | 13.7% | 4,687 |
| $127,781 - $183,475 | $1,954,222,647 | $5,699,019 | 16.7% | 3,863 |
| $183,476 & Over | $8,869,633,832 | $7,459,990 | 21.9% | 3,481 |
| **Nonresidents** | $961,801,005 | $2,745,188 | 8.1% | 2,439 |
| **All** | **$14,873,000,000** | **$34,100,000** | **100%** | **31,000** |

## 1.3.03 Real Estate Taxes

Minnesota Statutes, Section 290.0122, Subd. 2, 3, and 290.0132, Subd.19(b)

An itemized deduction is allowed for real estate taxes paid on an owner-occupied residence and any other property not used for business. The deduction is reduced by any Minnesota property tax refund received. Special assessments are not considered real estate taxes and cannot be deducted. The sum of all deductions for state and local property taxes and real property taxes is limited to $10,000, or $5,000 for married separate filers. This deduction is one of several deductions subject to the limitation of itemized deductions for higher-income taxpayers.

Minnesota has allowed this deduction since 1933. In 2018, the federal deduction for state and local taxes was limited to $10,000 ($5,000 for married separate filers.) In 2019, Minnesota enacted its own deduction for real estate taxes, which is similar to the federal deduction.

An estimated 124,900 returns will claim this deduction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.017 percentage points, to 5.333%, 6.783%, 7.833%, and 9.833%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $36,600,000 | $40,700,000 | $45,900,000 | $50,400,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence data base.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $36,385 | 0.1% | 115 |
| $15,545 - $24,961 | -$8,897,060 | $14,598 | 0.0% | 138 |
| $24,962 - $35,168 | $50,299,493 | $83,906 | 0.2% | 620 |
| $35,169 - $45,808 | $162,527,171 | $299,557 | 0.8% | 2,553 |
| $45,809 - $58,014 | $329,724,240 | $736,717 | 2.0% | 5,308 |
| $58,015 - $73,668 | $536,303,127 | $1,741,148 | 4.8% | 8,473 |
| $73,669 - $95,360 | $819,647,313 | $2,537,815 | 6.9% | 12,111 |
| $95,361 - $127,780 | $1,210,630,834 | $3,334,680 | 9.1% | 16,157 |
| $127,781 - $183,475 | $1,954,222,647 | $5,453,138 | 14.9% | 18,254 |
| $183,476 & Over | $8,869,633,832 | $20,302,716 | 55.5% | 47,785 |
| **Nonresidents** | $961,801,005 | $2,059,340 | 5.6% | 13,386 |
| **All** | **$14,873,000,000** | **$36,600,000** | **100%** | **124,900** |

## 1.3.04 Other Taxes

Minnesota Statutes, Sections 290.0122, Subd. 2, 3 and 290.0132, Subd.19(b)

In addition to real estate taxes (Item 1.3.03), an itemized deduction is allowed for specified taxes including personal property taxes paid to state and local governments and foreign income taxes. The *ad valorem* portion of the motor vehicle registration tax (Chapter 14) is deductible under these provisions. Also deductible are the personal property taxes paid on an owner-occupied mobile home that is located on a rented lot. This deduction is one of several deductions subject to the limitation of itemized deductions for higher-income taxpayers.

This deduction was enacted in 1933 and was changed in 1983. In 2019, Minnesota enacted its own deduction for other taxes including personal property taxes, which is similar to the federal deduction. Additional limitations were added beginning with tax year 2023.

An estimated 1,800 returns will claim this deduction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 1.3.05 Home Mortgage Interest

Minnesota Statutes, Sections 290.0122, Subd. 2, 5 and 290.0132, Subd.19(b)

A taxpayer may take an itemized deduction for interest paid on debt secured by a principal or second residence. Mortgage interest is deductible on up to $750,000 of debt used to buy, build, or improve a principal or second residence. If the debt is used for any other purpose, the limitation is $100,000 of debt. If more than one home is involved, the limitations apply to the total amount. This deduction is one of several deductions subject to the limitation of itemized deductions for higher-income taxpayers.

Home mortgage interest was deductible without limitation until restrictions were enacted in 1987. In 2018, the federal limitation was temporarily decreased from $1 million to $750,000 in debt. In 2019, Minnesota established its own itemized deduction for home mortgage interest, with a limit of $750,000. Additional limitations were added beginning with tax year 2023.

An estimated 117,700 returns will claim this deduction in tax year 2023.

**Objective Statement:** The objective of the Minnesota Home Mortgage Interest Deduction is to recognize expenses incurred in generating personal income or wealth and encourage home ownership at all levels of income.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.034 percentage points, to 5.316%, 6.766%, 7.816%, and 9.816%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $73,500,000 | $81,200,000 | $85,700,000 | $90,900,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|

## 1.3.06 Charitable Contributions

Internal Revenue Code 63(d) & 642(c)

Minnesota Statutes, Sections 290.0122, Subd. 2, 4, and 290.0132, Subd.19(b)

An itemized deduction is allowed for contributions to organizations that are religious, charitable, educational, scientific, or literary in purpose. The deduction is limited to a maximum of 60% of federal adjusted gross income, although other limitations apply to specific types of contributions. Excess contributions may be carried forward for up to five years. This deduction is one of several deductions subject to the limitation of itemized deductions for higher-income taxpayers.

A deduction for charitable contributions has been allowed since the Minnesota income tax was enacted in 1933. Until 1985, the Minnesota deduction differed from the federal deduction. In 2018, the federal limit was temporarily increased from 50% to 60% of adjusted gross income. In 2019, Minnesota established its own itemized deduction for charitable contributions with a limit of 60% of adjusted gross income. Additional limitations were added beginning with tax year 2023.

An estimated 111,700 returns will claim this deduction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.021 percentage points, to 5.329%, 6.779%, 7.829%, and 9.829%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $44,700,000 | $47,700,000 | $51,600,000 | $55,200,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $2,034 | 0.0% | 245 |
| $15,545 - $24,961 | -$8,897,060 | * | * | * |

## 1.3.07 Casualty and Theft Losses

Minnesota Statutes, Section 290.0122, Subd. 8 and 290.0132, Subd.19(b)

An itemized deduction is allowed for unreimbursed nonbusiness losses caused by theft, vandalism, fire, storm, and car, boat, and other accidents. The deduction is allowed only to the extent that each separate casualty or theft loss exceeds $100 and the total of all net losses during the year exceeds 10% of federal adjusted gross income. If the loss is covered by insurance, a timely insurance claim must be filed.

A deduction for casualty or theft loss was first authorized for the federal income tax in 1913 and for the state tax in 1933. The $100 floor on the deduction was added in 1964, and in 1982 the deduction was restricted to losses exceeding 10% of adjusted gross income. The requirement for filing a timely insurance claim was added in 1986. In 2018, the federal deduction for most casualty and theft losses was temporarily suspended. In 2019, Minnesota established its own itemized deduction for casualty and theft losses similar to the prior federal deduction.

An estimated 200 returns claimed this deduction in tax year 2021.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $800,000 | $800,000 | $800,000 | $800,000 |

## *Minnesota Subtractions*

### 1.4.01 K–12 Education Expenses

Minnesota Statutes, Sections 290.0132, Subd. 4

A subtraction from federal taxable income is allowed for certain education expenses paid for a qualifying child in kindergarten through twelfth grade. The maximum subtraction is $1,625 per child in kindergarten through sixth grade and $2,500 per child in seventh through twelfth grade.

Qualifying expenses include amounts paid to others for tuition, transportation, nonreligious textbooks, and instructional materials and equipment required for regular school classes. Fees or tuition for instruction outside the regular school day and school year also qualify, such as tutoring and educational summer camps. Amounts paid for computer hardware and educational software can be subtracted, subject to a limit of $200 per family. The amount that can be subtracted is reduced by any expenses used to claim the K–12 education credit (Item 1.6.08).

An education deduction was first enacted in 1955. In 1997, the deduction was expanded, beginning with tax year 1998. This provision was last modified in 2001.

An estimated 143,700 returns will claim this subtraction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.006 percentage points, to 5.344%, 6.794%, 7.844%, and 9.844%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $13,800,000 | $13,900,000 | $14,000,000 | $14,100,000 |

## 1.4.02 Charitable Contributions for Non-Itemizers

Minnesota Statutes, Section 290.0132, Subd. 7

A taxpayer who does not itemize deductions on the Minnesota income tax return may subtract from federal adjusted gross income 50% of charitable contributions made in excess of $500. The contributions must meet the requirements for deductible contributions under the Internal Revenue Code.

This subtraction was enacted in 1999.

An estimated 661,700 returns will claim this subtraction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.052 percentage points, to 5.298%, 6.748%, 7.798%, and 9.798%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $113,700,000 | $119,200,000 | $124,600,000 | $130,100,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|

## 1.4.03 Income of the Elderly or Disabled

Minnesota Statutes, Sections 290.0132, Subd. 5 and 290.0802

A subtraction from federal adjusted gross income is allowed for persons who are age 65 or over or totally disabled. The subtraction benefits low-income taxpayers who have more of their income from taxable sources such as pensions and interest than from nontaxable sources such as social security. The subtraction is allowed against any type of taxable income, not just pensions, and is computed as follows for a married couple who both qualify and file a joint return: $12,000 minus nontaxable retirement and nontaxable social security benefits minus one-half of federal adjusted gross income over $18,000. The $12,000 and $18,000 are different for the other filer types.

Public pensions were exempt from the Minnesota income tax from 1933 through 1977. From 1978 through 1986, a subtraction for pension income was allowed, limited to a maximum amount with qualifying offsets. The elderly or disabled subtraction was enacted in 1988, and in 1994 the base amounts and income thresholds were increased by 20%.

An estimated 4,300 returns will claim this subtraction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $600,000 | $500,000 | $500,000 | $400,000 |

## 1.4.04 Social Security Income

Minnesota Statutes, Section 290.0132, Subd. 26

A subtraction from federal adjusted gross income is allowed for a portion of social security income. Beginning with tax year 2023, the subtraction is equal to the greater of:

1. A simplified subtraction equal to 100% of taxable social security income, reduced by 10% for each $4,000 ($2,000 for married separate filers) or fraction thereof of federal adjusted gross income over a phase-out threshold, or
2. An alternate subtraction that follows prior law, using 2023 maximum amounts and thresholds; or

For the simplified subtraction, the phase-out thresholds for tax year 2024 are as follows: $105,380 for married joint filers, $52,690 for married separate filers, and $82,190 for single and head of household filers. The phase-out thresholds are adjusted annually for inflation.

The maximum alternate subtraction is $5,840 for married joint filers, $4,560 for single or head of household filers, and $2,920 for married separate filers. The subtraction is reduced by 20% of provisional income over the phase-out thresholds, which are $88,630 for married couples filing jointly; $69,250 for single or head-of-household; and $44,315 for married couples filing separately. The maximum amounts and thresholds for the alternative subtraction are not adjusted for inflation.

The subtraction was enacted in 2017 and was last revised in 2023.

An estimated 347,200 returns claimed this subtraction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.144 percentage points, to 5.206%, 6.656%, 7.706%, and 9.706%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $312,600,000 | $344,800,000 | $370,900,000 | $391,600,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $4,984 | 0.0% | 79 |

## 1.4.05 Public Pension Subtraction

Minnesota Statutes, Section 290.0132, Subd. 34

Certain government workers who are members of a public pension plan are excluded from Social Security under federal law, provided their pension benefits meet certain requirements. This subtraction allows taxpayers to subtract from their taxable income pension benefits from service for which the beneficiary is not also receiving Social Security benefits beginning with tax year 2023.

The subtraction equals qualified retirement benefits, up to a maximum of $25,000 for married couples filing jointly and $12,500 for all other filers. The subtraction is reduced by 10 percent for each $2,000, or fraction thereof, of adjusted gross income (AGI) above a phase-out threshold specific to a taxpayer's filing status.

Taxpayers with eligible pensions include members of the State Patrol Retirement Plan, members of the legacy Legislators Retirement Fund, certain legacy members of the Public Employee Retirement Association (PERA) General Plan, legacy members of the Minneapolis Employees Retirement Fund, members of the PERA Police & Fire Plan, certain legacy members of the Teacher Retirement Association, certain legacy members of the St. Paul Teachers Retirement Fund Association, and certain legacy members of the PERA Correctional Employees Retirement Fund. The proposal also includes any members of a federal pension plan who are ineligible for Social Security, and members of a pension plan administered by another state whose income tax laws permit a "similar deduction or exemption" for beneficiaries of a Minnesota pension plan.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.002 percentage points, to 5.348%, 6.798%, 7.848%, and 9.848%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $5,300,000 | $9,000,000 | $12,600,000 | $16,200,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

## 1.4.06 Active Duty Military Service

Minnesota Statutes, Section 290.0132, Subd. 12

A subtraction from federal adjusted gross income is allowed for compensation paid for active military duty to Minnesota residents who are members of the armed forces of the United States or United Nations.

This subtraction was enacted in 2005. It replaced a provision enacted in 2001 which allowed a Minnesota resident to be considered a nonresident for the period of time that they are on active military duty stationed outside Minnesota. This provision was last modified in 2011.

An estimated 12,800 returns will claim this subtraction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.011 percentage points, to 5.339%, 6.789%, 7.839%, and 9.839%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $24,000,000 | $25,000,000 | $26,100,000 | $27,400,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

## 1.4.07 National Guard and Reserve Pay

Minnesota Statutes, Section 290.0132, Subd. 11

A subtraction from federal adjusted gross income is allowed to members of the Minnesota National Guard or other reserve components of the United States military for training, drill, and summer camp pay. The subtraction is also allowed for active service performed in Minnesota, which includes natural disaster emergency response, missing person searches, and airport security duty.

This subtraction was enacted in 2008, effective with tax year 2009. In 2014, it was extended to compensation received for services under the Active Guard Reserve program.

An estimated 8,100 returns will claim this subtraction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.004 percentage points, to 5.346%, 6.796%, 7.846%, and 9.846%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $9,200,000 | $9,700,000 | $10,100,000 | $10,600,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | 0 | 0.0% | 0 |
| $15,545 - $24,961 | -$8,897,060 | $1,310 | 0.0% | 71 |

| **Nonresidents** | $961,801,005 | $561,881 | 6.1% | 1,386 |
| **All** | **$14,873,000,000** | **$9,200,000** | **100%** | **8,100** |

## 1.4.08 Military Pension and Retirement Pay

Minnesota Statutes, Section 290.0132, Subd. 21

A subtraction from federal adjusted gross income is allowed for pension payments or other retirement pay from the federal government for military service. The subtraction is limited to taxpayers who do not claim the credit for past military service (Item 1.6.05).

This subtraction was enacted in 2016.

Approximately 17,000 returns will claim this subtraction in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.001 percentage points, to 5.349%, 6.799%, 7.849%, and 9.849%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $26,000,000 | $27,800,000 | $29,800,000 | $31,900,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | * | * | * |
| $15,545 - $24,961 | -$8,897,060 | $125,917 | 0.4% | 308 |

## 1.4.09 Expenses of Living Organ Donors

Minnesota Statutes, Section 290.0132, Subd. 13

A subtraction from federal adjusted gross income is allowed for certain expenses if, while living, the taxpayer, spouse, or a dependent donated a human organ to another person for transplantation. Expenses related to the donation that can be subtracted are for travel, lodging, and lost wages net of sick pay. The maximum subtraction is $10,000. The term "organ" means all or part of an individual's liver, pancreas, kidney, intestine, lung, or bone marrow.

This provision was enacted in 2005.

Each year, approximately 110 returns claim this subtraction.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

## 1.4.10 Disposition of Farm Property

Minnesota Statutes, Sections 290.0132, Subd. 6 and 290.491

A taxpayer is allowed a subtraction from federal adjusted gross income for the amount of income realized on a sale or exchange of farm property if the taxpayer is insolvent at the time of the sale and the proceeds are used solely to discharge indebtedness of the property sold. The amount of the subtraction is limited to the excess of the taxpayer's liabilities over total assets and the amount of any debt forgiveness excluded from income under Section 108 of the Internal Revenue Code.

This provision was enacted in 1985. It was repealed in 1987, but was re-enacted in 1988, retroactive to tax year 1987.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 1.4.11 AmeriCorps National Service Education Awards

Minnesota Statutes, Section 290.0132, Subd. 16

A subtraction from federal adjusted gross income is allowed for the amount of a national service education award received from the National Service Trust for service in the AmeriCorps National Service program. The award can be used to pay college tuition or repay student loans.

This subtraction was enacted in 2008.

Approximately 500 returns claimed this subtraction in tax year 2022.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 1.4.12 Contributions to a Section 529 College Savings Plan

Minnesota Statutes, Section 290.0132, Subd. 23

A subtraction from federal adjusted gross income is allowed for qualified contributions to a Section 529 plan. The maximum subtraction is $3,000 for married joint filers and $1,500 for all other filers. The subtraction is limited to returns that do not claim the Section 529 plan credit (Item 1.6.21).

This subtraction was enacted in 2017.

Approximately 43,500 returns claimed this subtraction in tax year 2022.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.004 percentage points, to 5.346%, 6.796%, 7.846%, and 9.846%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $8,200,000 | $9,200,000 | $10,400,000 | $11,600,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $6,332 | 0.1% | 50 |
| $15,545 - $24,961 | -$8,897,060 | * | * | * |
| $24,962 - $35,168 | $50,299,493 | $10,484 | 0.1% | 63 |

| $183,476 & Over | $8,869,633,832 | $6,915,658 | 84.% | 34,073 |
| **Nonresidents** | $961,801,005 | $313,672 | 3.8% | 1,520 |
| **All** | **$14,873,000,000** | **$8,200,000** | **100%** | **43,500** |

*Fewer than 10 returns. Amounts were combined with an adjacent cell.

## 1.4.13 Discharged Student Loan Debt

Minnesota Statutes, Section 290.0132, Subd. 24

A subtraction from federal adjusted gross income is allowed for individuals with qualified student loan debt that was discharged under Minnesota's teacher shortage loan forgiveness program or certain federal income-driven repayment plans, to the extent that the discharged debt is included in federal adjusted gross income.

This subtraction was enacted in 2017.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

## 1.4.14 Interest on Contributions to a First-Time Homebuyer Account

Minnesota Statutes, Sections 290.0132, Subd. 25 and 462D.01–06

A subtraction from federal adjusted gross income is allowed for interest on contributions to a first-time homebuyer account. The beneficiary of the account must be a Minnesota resident. The account may be used to pay eligible costs related to the purchase of a home, including down payments, eligible closing costs, and the cost of constructing or financing construction of a single-family residence.

A maximum of $14,000 for individuals and $28,000 for married joint filers may be contributed to the account each year. The total lifetime contribution limit is $50,000 for individuals and $100,000 for married joint filers. The maximum amount allowed in an account is $150,000.

This subtraction was enacted in 2017.

Fewer than 50 returns claimed this subtraction in tax year 2022.

**Objective Statement:** The objective of the interest on contributions to a first-time homebuyer account subtraction is to support and encourage first-time homebuyers to save for the purchase of a home.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

## 1.4.15 Volunteer Driver Subtraction

Minnesota Statutes, Section 290.0132, Subd. 30

A subtraction from federal adjusted gross income is allowed for mileage reimbursements paid by a charitable organization to a volunteer driver. The subtraction equals the reimbursement that is over the federally deductible mileage rate for rendering services to a charitable organization (14 cents in tax year 2022) but not over the standard mileage rate for business use (58.5 cents per mile in 2022).

This provision was enacted in 2021.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

## 1.4.16 Sexual Harassment Payment Subtraction

Minnesota Statutes, Section 290.0132, Subd. 30

A Minnesota subtraction is allowed from taxable income for individual income tax purposes for damages received under a sexual harassment or abuse claim that are included in gross income, or severance pay received under a settlement of a sexual harassment or abuse claim that does not include a nondisclosure agreement.

The use of sexual harassment or abuse financial settlements as severance pay or wages regardless of whether there is a nondisclosure agreement is also prohibited.

The subtraction is effective beginning with tax year 2023. The prohibition on the use of settlement payments as wages or severance pay is effective May 25, 2023 (the day following enactment) for settlements entered into on or after that date.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## *Preferential Computation*

### 1.5.01 Five-Year Averaging of Lump Sum Distributions

Internal Revenue Code, Section 402(e)
Minnesota Statutes, Section 290.032

A lump sum distribution from a qualified pension, profit-sharing, or stock bonus plan is eligible for the special five-year averaging provision. A separate tax is computed on the lump sum distribution in isolation of other income. Several restrictions apply to using lump sum averaging, including age and reason for distribution. The Minnesota provisions for lump sum averaging are the same as the federal except that Minnesota does not allow the option of 10-year averaging, and any capital gains are treated as ordinary income.

A 10-year averaging provision was adopted by Minnesota in 1975. In 1987, Minnesota adopted five-year averaging and most of the federal changes enacted in 1986 that placed restrictions on the use of lump sum averaging. In 1997, Minnesota adopted the federal repeal of five-year averaging, beginning with tax year 2000. The transition rules from the Tax Reform Act of 1986 were not repealed. Therefore, taxpayers covered under the transition rules can continue to use the averaging provision.

Approximately 100 returns benefited from this provision in tax year 2021.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

## *Credits*

### 1.6.01 Marriage Credit

Minnesota Statutes, Section 290.0675

A nonrefundable credit is allowed against the individual income tax for a married couple filing a joint return if both spouses have earned income or taxable pension or taxable social security income and their income situation results in a "marriage penalty" due to the size of the state income tax brackets. The credit compensates for the extent to which the income tax is higher due to the tax brackets for a joint return compared to the two spouses filing as single persons.

The credit is based on two variables: the joint taxable income of the couple and the earned income (including taxable pension and social security income) of the lesser-earning spouse. For tax year 2023, the credit does not apply unless taxable income is at least $44,000 and the earned income of the lesser-earning spouse is at least $28,000. The maximum credit for 2023 is $1,710.

This credit was enacted in 1999 and was last modified in 2013.

An estimated 422,200 returns will claim this credit in tax year 2023.

**Objective Statement:** The objective of the Marriage Credit is to reduce marriage penalties resulting from Minnesota income tax rate brackets for qualified two-earner married couples who file a joint return.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.045 percentage points, to 5.305%, 6.755%, 7.805%, and 9.805%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $98,100,000 | $102,800,000 | $107,300,000 | $112,200,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |

## 1.6.02 Credit for Long-Term Care Insurance Premiums

Minnesota Statutes, Section 290.0672

A nonrefundable credit is allowed against the individual income tax for premiums paid for long-term care insurance. A taxpayer may claim a credit for each beneficiary (taxpayer or spouse) equal to 25% of premiums paid to the extent not taken as a federal itemized deduction. The maximum credit is $100 per beneficiary, $200 for married couples filing joint returns if both spouses are beneficiaries. The long-term care insurance policy must meet the requirements under specified sections of the Internal Revenue Code and have a lifetime benefit of at least $100,000.

This credit was enacted in 1997, effective with tax year 1999, and was last modified in 2000.

An estimated 66,000 returns will claim the credit in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.004 percentage points, to 5.346%, 6.796%, 7.846%, and 9.846%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $9,500,000 | $9,700,000 | $9,900,000 | $10,100,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $2,066 | 0.0% | 10 |

## 1.6.03 Research and Development Credit

Minnesota Statutes, Section 290.068

A nonrefundable credit is allowed to a partner in a partnership or shareholder in an S corporation based on qualified expenditures for research and development performed solely within Minnesota. The credit is calculated by the entity and then allocated to the partners or shareholders. Expenditures include wages, cost of supplies, computer costs, 65% of the contract costs paid to others for doing research, and certain contributions to nonprofit organizations engaged in research and development within Minnesota.

The credit is based on the excess of current-year research expenditures over a calculated base amount, but in most cases 50% of current-year research expenditures are eligible for the credit. The credit is 10% of the first $2 million of eligible expenditures and 4% of the excess over $2 million. Any credit that exceeds tax liability can be carried forward up to fifteen 15 years.

This credit was enacted in 2010 as a refundable credit. In 2013, it was changed to a nonrefundable credit. In 2017, the 2nd tier rate was increased from 2.5% to 4%.

**Objective Statement:** The objective of the Research and Development Credit is to create or retain jobs, increase research activity, and attract or retain business in Minnesota.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.015 percentage points, to 5.335%, 6.785%, 7.835%, and 9.835%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $33,500,000 | $34,800,000 | $36,100,000 | $37,500,000 |

## 1.6.04 Employer Transit Pass Credit

Minnesota Statutes, Section 290.06, Subd. 28

A nonrefundable credit is allowed against the individual income tax equal to 30% of the expense incurred by the taxpayer to provide transit passes to the taxpayer's employees. The transit pass must be for use in Minnesota. If the employer purchases the transit passes from the transit system and resells them to the employees, the expenses used for the credit are the difference between the amount the employer paid for passes and the amount charged to employees.

This credit was enacted in 2000.

Approximately 30 returns claimed this credit in tax year 2022.

**Objective Statement:** The objective of the Employer Transit Pass Credit is to incentivize Minnesota employers to subsidize transit passes for their employees to encourage the use of public transit.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 1.6.05 Credit for Past Military Service

Minnesota Statutes, Section 290.0677, Subd. 1a

A nonrefundable credit is allowed against the individual income tax for an individual who is separated from military service and had served in the military for at least 20 years, has a service-related disability rated as 100% total and permanent disability, or is eligible for a military pension. The credit is equal to $750. The $750 is reduced by 10% of adjusted gross income over $30,000, so that no credit is available if adjusted gross income exceeds $37,500.

This credit was enacted in 2008, effective beginning with 2009, and was modified in 2013.

Approximately 1,300 returns claimed this credit in tax year 2022.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $200,000 | $200,000 | $200,000 | $200,000 |

## 1.6.06 Child and Dependent Care Credit

Internal Revenue Code, Section 21
Minnesota Statutes, Section 290.067

The Minnesota child and dependent care credit was significantly revised in 2017 to align with the federal child and dependent care credit.

The federal credit is nonrefundable and is equal to a percentage of unreimbursed employment-related expenses up to $3,000 for one qualifying individual and $6,000 for two or more individuals. For families with incomes of $15,000 or less, the credit is equal to 35% of unreimbursed employment-related dependent care expenses. The credit rate phases down to 20% of unreimbursed employment-related expenses for families with incomes over $43,000. The maximum federal credit is equal to $1,050 for one dependent and $2,100 for two or more dependents.

The Minnesota credit is equal to the federal credit except that it its refundable and the maximum credit is phased out by 5% of adjusted gross income over a certain threshold. The phase-out threshold is indexed for inflation and is $59,210 for tax year 2023.

The credit was enacted in 1977 and was last revised in 2017. The federal dependent care credit was temporarily expanded and made refundable for tax year 2021 only, but Minnesota has not adopted those changes.

An estimated 43,500 returns will claim this credit in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.012 percentage points, to 5.338%, 6.788%, 7.838%, and 9.838%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $26,300,000 | $27,100,000 | $27,900,000 | $28,700,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $476,151 | 1.8% | 563 |

*Fewer than 10 returns. Amounts were combined with an adjacent cell.

## 1.6.07 Child and Working Family Credits

Internal Revenue Code, Section 32
Minnesota Statutes, Section 290.0661 & 290.0671

The Minnesota child tax credit is a refundable credit equal to $1,750 for each qualifying child. The credit amount will be adjusted for inflation beginning in tax year 2026.

In tax year 2024, the working family credit is equal to 4% of the first $9,220 of earned income. Taxpayers with qualifying older children are eligible for an additional amount as follows:

- $970 for one qualifying older child;
- $2,210 for two qualifying older children;
- $2,630 for three or more qualifying older children.

The two credits are phased out jointly. The combined credits are reduced by 12% of earned income or adjusted gross income, whichever is greater, in excess of $36,880 for married joint filers or $31,090 for all other filers. For taxpayers with qualifying older children who do not qualify for the child credit, the phase-out rate is 9%. The maximum earned income, credit amounts, and phase-out thresholds are adjusted annually for inflation.

The working family credit was enacted in 1991 and was equal to 10% of the federal earned income credit. The credit was increased several times, and federal changes were adopted. In 1998, the credit was changed from a percentage of the federal credit to a separate calculation. The 2001 federal changes were adopted, including a higher phase-out range for married–joint returns, which expired after 2010. Minnesota did not adopt the 2009 federal changes which increased the phase-out range for married–joint returns and the amount of the credit for three or more children for 2009 and 2010. In 2011, Minnesota adopted the increased phase-out range for married–joint returns for tax year 2011 only. Minnesota adopted the 2013 federal changes which permanently increase the phase-out range for married–joint returns. In 2014, the Minnesota formulas were changed to increase the credit for nearly all claims. Beginning with the tax year 2017, income earned by tribal members on an American Indian reservation is eligible for the working family credit. Beginning with tax year 2019, taxpayers with no children may qualify for the credit at age 21 rather than 25. In 2019, the credit was increased, primarily benefitting taxpayers with no children and with three or more children. Beginning with 2021, taxpayers with no children qualified for the credit at age 19 rather than 21. In 2023 the credit was replaced by the combined child and working family credits.

An estimated 516,600 returns will claim the credit in tax year 2023.

## 1.6.07 Child and Working Family Credits (cont.)

**Objective Statement:** The objective of the Working Family Credit is to encourage work and help families raise their income above the poverty level guidelines.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.328 percentage points, to 5.022%, 6.472%, 7.522%, and 9.522%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $712,700,000 | $721,300,000 | $730,000,000 | $752,600,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence data base.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $73,511,094 | 10.3% | 106,006 |

## 1.6.08 Credit for K–12 Education Expenses

Minnesota Statutes, Section 290.0674

A refundable credit is allowed equal to 75% of eligible education expenses for a qualifying child in kindergarten through grade 12. The maximum credit of $1,500 times the number of children in kindergarten through grade 12 is allowed to taxpayers with federal adjusted gross income of $73,760 or less. For taxpayers with one or two children, the maximum credit is phased out for household incomes higher than that. For taxpayers with more than two children, the phase-out range for the maximum credit is increased by $2,000 for each additional child.

Eligible expenses include fees or tuition for instruction outside the regular school day or school year, such as tutoring and educational summer camps. Also eligible are costs required for the regular school day for textbooks, instructional materials, and transportation costs paid to others. Private school tuition does not qualify for the credit, although it does qualify for the subtraction (Item 1.4.01). Eligible expenses also include personal computer hardware and educational software, limited to a maximum of $200 per family.

This credit was enacted in 1997, effective beginning with tax year 1998, at a rate of 100% and was allowed for taxpayers with income of $33,500 or less. The phase-out of the maximum credit for income from $33,500 to $37,500 was enacted in 1999. In 2001, the credit was reduced from 100% to 75% of expenses. In 2005, the maximum credit and phase-out range were increased for taxpayers with more than two children. Beginning with tax year 2023, federal adjusted gross income replaced household income in calculating phase-out amounts. The income threshold was also raised to $70,000, indexed for inflation starting with tax year 2024. The maximum credit was increased from $1,000 to $1,500 starting in tax year 2023.

Approximately 43,600 returns claimed this credit in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.007 percentage points, to 5.343%, 6.793%, 7.843%, and 9.843%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $14,500,000 | $14,500,000 | $14,600,000 | $14,600,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | $280,820 | 1.9% | 1,074 |

## 1.6.09 Credit for Military Service in a Combat Zone

Minnesota Statutes, Section 290.0677

A refundable income tax credit is allowed to a Minnesota resident equal to $120 for each month or portion thereof for military service in a designated combat zone or other designated hazardous duty area.

This credit was enacted in 2006 at $59 per month, retroactive to September 12, 2001. In 2008, the credit was increased to $120 per month, beginning with tax year 2009. In 2023, the credit was revised to be claimed at any time during the year rather than with the income tax return.

Approximately 660 returns claimed this credit in tax year 2022.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,000,000 | $800,000 | $800,000 | $800,000 |

## 1.6.10 Enterprise Zone Employer Tax Credits

Minnesota Statutes, Section 469.171, Subd. 1(2) and 6(1)

Two refundable credits against the income tax are available to employers in designated border city enterprise zones. A credit of up to $3,000 annually is allowed for each additional worker employed in a designated enterprise zone, other than workers employed in construction, and a credit of up to $1,500 annually is allowed for each worker employed in the zone who does not qualify for the $3,000 credit.

This provision was enacted in 1983. Zones other than border city zones expired in 1996. In 2017, the number of eligible cities was increased to six.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

## 1.6.11 Angel Investment Credit

Minnesota Statutes, Sections 290.0692 and 116J.8737

A refundable credit is allowed to investors for investments in a small business, provided that the investor or investment fund, the investment, and the small business each meet specified requirements. The credit is equal to 25% of the qualifying investment. The maximum credit for a tax year is $250,000 for a married couple filing a joint return and $125,000 for other filers.

A qualified investor is an individual who invests at least $10,000 in a calendar year. A qualified investment fund is a pass-through entity that invests at least $30,000 in a calendar year. A small business must have its headquarters and at least 51% of its employees and payroll in Minnesota. It must have fewer than 25 employees and be engaged in innovation in high technology or in developing a new proprietary technology. Other requirements are specified.

The total amount of the credit was limited to $11 million for tax year 2010, to $12 million per year for tax years 2011 through 2013, and to $15 million for 2014 through 2016. Credit certificates are approved and issued by the Department of Employment and Economic Development. Any portion of a tax year's credits that is not allocated can be carried forward to a subsequent tax year.

This credit was enacted in 2010, for tax years 2010 through 2014. These provisions were modified in 2013. In 2014, the credit was increased and extended to tax year 2016. In 2019, the credit was extended to tax years 2019 and 2021, with a limit of $10 million each year. In 2021, the credit was extended to tax year 2022 with a limit of $5 million. In 2023, the credit was extended to the end of tax year 2024 with a limit of $5 million per year.

**Objective Statement:** The objective of the Angel Investment Credit is to encourage investment in innovative small businesses in Minnesota.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.002 percentage points, to 5.348%, 6.798%, 7.848%, and 9.848%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $5,000,000 | $5,000,000 | $0 | $0 |

*Less Than $50,000

## 1.6.12 Historic Structure Rehabilitation Credit

Minnesota Statutes, Section 290.0681

A credit is allowed equal to the federal credit for qualifying expenditures to rehabilitate a certified historic structure. The federal credit is a nonrefundable income tax credit equal to 20% of the qualifying expenditures. The state credit is a refundable credit equal to 20% of the qualifying expenditures and may be taken against the corporate franchise tax, individual income tax, or insurance premiums tax. The state credit may be assigned to another taxpayer.

Qualifications for the credit are determined under the provisions of Section 47 of the Internal Revenue Code as follows:

- A historic structure must be either individually registered in the National Register of Historic Places or certified by the Secretary of the Interior as having historic significance and located in a registered historic district.
- The structure must be used in a trade or business or be income-producing property.
- Rehabilitation expenditures must exceed the greater of $5,000 or the adjusted basis of the building. Costs to acquire a building or to enlarge a building do not qualify.
- The developer of the project must apply for the credit to the State Historic Preservation Office of the Department of Administration before rehabilitation begins. The credit is allowed after the application is approved and the project is completed.

A grant equal to 90% of the credit may be issued in lieu of the credit. Grants are not included in the estimates because they are included in the state budget as direct expenditures.

This credit was enacted in 2010 and was scheduled to expire after fiscal year 2017. In 2013, the credit was extended through fiscal year 2021. In 2019, the credit was modified so that it is payable over five years rather than in one lump sum. In 2021, the credit was extended through fiscal year 2022. After expiring, the credit was revived through fiscal year 2030 and applied retroactively to applications submitted after June 30, 2022.

**Objective Statement:** The objective of the Historic Structure Rehabilitation Credit is to encourage the preservation of historic structures in Minnesota and to create and retain jobs related to the rehabilitation of historic structures in the state. The standard against which the effectiveness of the extension of the credit and modification of the effective date is to be measured is the number of jobs created through the rehabilitation of historic structures and the number of historic structures rehabilitated and placed in service. See Minnesota Session Law – 2013, Regular Session, Ch. 143 – H.F. No. 677, Art. 13, Sec. 22, Subd. 5.

### 1.6.13 Film Production Credit

Minnesota Statutes, Sections 290.06, Subd. 39 and 116U.27

A film production credit is allowed equal to 25% of eligible production costs paid in a taxable year.

An eligible project is a film that includes the promotion of Minnesota, for which the taxpayer expends at least $1,000,000 in the taxable year for eligible production costs and employs Minnesota residents to the extent practicable. Films include feature films, television or Internet pilots, programs, series, documentaries, music videos, and television commercials.

The credit is nonrefundable but may be carried forward for up to five years. The credit is assignable to another taxpayer. Total credits are limited to $24.95 million in each tax year. The credit was enacted in 2021 and expires after tax year 2024. The prior limit of $4.95 million was increased to $24.95 million each tax year, and the sunset was extended through tax year 2030.

Up to 10 taxpayers are expected to qualify for the credit in 2024.

**Revenue Neutral Rate:** Located in Item 2.6.05.

### 1.6.14 Housing Contribution Credit

Minnesota Statutes, Sections 290.0683 and 462A.40

A nonrefundable credit is allowed for contributions to a designated account in the Housing Development Fund, administered by the Housing Finance Agency (HFA). The account is to be used for grants and loans for low- and moderate-income housing developments.

The credit is equal to 85% of contributions of at least $1,000 but not more than $2 million. Any unused credit may be carried over for up to 10 years.

Total credits are limited to $9.9 million in each year. The credit was enacted in 2021 and is effective for tax years 2023 through 2028.

**Objective Statement:** The objective of the Minnesota Housing Tax Credit is to increase the development and availability of affordable housing to persons and families of low and moderate incomes in Minnesota.

**Revenue Neutral Rate:** Located in Item 2.6.06.

## 1.6.15 Manufactured Home Park Credit

Internal Revenue Code, Section 1250(a)
Minnesota Statutes, Section 290.0694

A credit against the individual income tax and corporate franchise tax for sales of manufactured home parks to cooperatives was created in 2023. The credit is equal to 5% of the amount of the sale. The credit is nonrefundable but can be carried forward for up to five years.

To qualify, a taxpayer must sell qualified property to a manufactured home cooperative, a nonprofit organization intending to convert the park to a cooperative, or a representative of residents who intend to convert the park to a cooperative.

Qualified property includes a manufactured home park classified as 4c(5)(i) or 4c(5)(iii) property that qualifies as an Internal Revenue Code section 1250 property (in general, real property that is subject to depreciation, including residential and nonresidential real property).

For nonresidents and part-year residents, the credit is apportioned based on the percentage of income that is attributable to Minnesota.

This provision was enacted in 2023, effective beginning in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| State General Fund | * | * | * | * |

## 1.6.16 Short Line Railroad Credit

Internal Revenue Code, Section 45G
Minnesota Statutes, Sections 290.06 Subd 2c, 290.0695, and 297I.20 subd. 6

A federal credit for railroad maintenance was created in 2004. Minnesota created a credit against the individual income tax, corporate franchise tax, and insurance gross premiums tax equal to 50% of qualified costs for maintenance, reconstruction, or replacement of railroad infrastructure in 2023.

Class II (regional and short line railroads with an annual gross operating revenue between $42.4 million and $943.9 million) and Class III (local and switching railroads with an annual gross operating revenue of less than $42.4 million) railroads are eligible for the credit. In the case of a partnership or S corporation, the credit is passed through to each partner or shareholder. The credit cannot exceed $3,000 times the miles of track owned or leased by the railroad in Minnesota.

The credit is nonrefundable but may be carried forward for up to five years. The credit may be transferred under written agreement during the 5-year period.

This provision was enacted in 2023, effective beginning in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| State General Fund | * | * | * | * |

## 1.6.17 Credit for Parents of Stillborn Children

Minnesota Statutes, Section 290.0685

A refundable credit of $2,000 is allowed to a parent of a stillborn child if a certificate of birth resulting in stillbirth has been issued by the Minnesota Department of Health and if the child would have been a dependent of the taxpayer.

The credit was enacted in 2016.

Approximately 200 returns claimed this credit in tax year 2022.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $400,000 | $400,000 | $400,000 | $400,000 |

## 1.6.18 Refundable Credit for Taxes Paid to Wisconsin

Minnesota Statutes, Section 290.06 Subd. 22(l)

A refundable credit is allowed for Minnesota residents who have personal or professional income taxed by Wisconsin. In general, the credit for taxes paid to another state cannot exceed the Minnesota tax on that income. However, the credit for taxes paid to a "qualifying state" i.e., Wisconsin, equals the Wisconsin tax even in cases where it exceeds the Minnesota tax on the same income.

The refundable portion of the credit applies only to personal service income, such as wages. For taxpayers with other types of income sourced to Wisconsin (such as rental income or capital gains income), the refundable portion of the credit is limited based on the ratio of Wisconsin wages and other personal service income to total Wisconsin-sourced income.

The credit applies only in years when no income tax reciprocity agreement with Wisconsin is in effect.

The credit was enacted in 2017.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,000,000 | $1,100,000 | $1,100,000 | $1,200,000 |

## 1.6.19 Student Loan Credit

Minnesota Statutes, Section 290.0682

A nonrefundable credit is allowed for individuals with qualified education loans related to an undergraduate or graduate degree at a public or nonprofit institution. The credit is equal to the least of:

- Eligible education loan payments of principal and interest made during the tax year minus 10% of adjusted gross income over $10,000;
- The earned income of the taxpayer;
- The interest portion of eligible loan payments made during the tax year plus 10% of the original loan amount of all qualified education loans; or
- $500.

A qualified loan is any loan used to pay for higher education expenses including tuition, fees, room and board, and other related expenses for the taxpayer. For married joint filers, each spouse is eligible for the credit, and the credit is phased out base on each spouse's share of the couple's earned income multiplied by adjusted gross income. The credit is allocated to part-year residents based on the percentage of their income that is attributable to Minnesota. Full-year nonresidents are not eligible for the credit.

The credit was enacted in 2017 and was last amended in 2021.

Approximately 27,700 returns claimed this credit in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.006 percentage points, to 5.344%, 6.794%, 7.844%, and 9.844%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $12,700,000 | $16,300,000 | $20,400,000 | $25,700,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | * | * | * |
| $15,545 - $24,961 | -$8,897,060 | $584,912 | 4.6% | 2,069 |
| $24,962 - $35,168 | $50,299,493 | $1,168,073 | 9.2% | 2,743 |
| $35,169 - $45,808 | $162,527,171 | $1,499,508 | 11.8% | 3,622 |
| $45,809 - $58,014 | $329,724,240 | $1,729,910 | 13.6% | 3,957 |
| $58,015 - $73,668 | $536,303,127 | $2,048,842 | 16.1% | 4,606 |
| $73,669 - $95,360 | $819,647,313 | $1,164,022 | 9.2% | 2,633 |
| $95,361 - $127,780 | $1,210,630,834 | $1,520,363 | 12.0% | 3,198 |
| $127,781 - $183,475 | $1,954,222,647 | $1,796,456 | 14.1% | 3,372 |
| $183,476 & Over | $8,869,633,832 | $456,579 | 3.6% | 887 |
| **Nonresidents** | $961,801,005 | $731,335 | 5.8% | 468 |
| **All** | **$14,873,000,000** | **$12,700,000** | **100%** | **27,700** |

*Fewer than 10 returns. Amounts were combined with an adjacent cell.

## 1.6.20 Credit for a Teacher Completing a Master's Degree

Minnesota Statutes, Section 290.0686

A nonrefundable credit is allowed for licensed K–12 teachers who complete a master's degree in a core content area directly related to their licensure field, excluding degrees that include a pedagogy component. To qualify, the teacher must begin the master's degree program after June 30, 2017.

This credit equals the lesser of $2,500 or the amount paid for tuition, fees, books, and instructional materials necessary to complete the degree that are not reimbursed by an employer or by scholarship.

The credit was enacted in 2017.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

## 1.6.21 Section 529 College Savings Plan Credit

Minnesota Statutes, Sections 290.0684 and 290.06, Subd. 24

A nonrefundable credit is allowed for qualified contributions to a Section 529 plan. The credit is equal to 50% of the amount contributed up to a maximum amount. The credit is phased out with income, as described below. The phase-out thresholds are adjusted annually for inflation. The following thresholds apply for tax year 2023.

For filers with adjusted gross income below $88,810, the maximum credit is $500.

For individual filers, the maximum credit is reduced by 2% of adjusted gross income over $88,810. For married joint filers, the credit is phased out as follows:

- The maximum credit is reduced by 1% of adjusted gross income over $88,810 until the maximum credit equals $250.
- For married joint filers with income over $159,860, the $250 maximum credit is reduced by 1% of income over that amount.

The credit was enacted in 2017 and was last revised in 2019.

Approximately 24,400 returns claimed this credit in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.003 percentage points, to 5.347%, 6.797%, 7.847%, and 9.847%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $6,900,000 | $7,100,000 | $7,300,000 | $7,500,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Total Individual Income Tax | Tax Change | Share of Tax Change | Count |
|---|---|---|---|---|
| $15,544 & Under | -$12,885,164 | * | * | * |
| $15,545 - $24,961 | -$8,897,060 | $13,577 | 0.2% | 81 |
| $24,962 - $35,168 | $50,299,493 | $19,628 | 0.3% | 147 |
| $35,169 - $45,808 | $162,527,171 | $62,181 | 0.9% | 295 |
| $45,809 - $58,014 | $329,724,240 | $344,011 | 5.0% | 872 |
| $58,015 - $73,668 | $536,303,127 | $285,305 | 4.1% | 696 |
| $73,669 - $95,360 | $819,647,313 | $1,549,573 | 22.5% | 3,582 |
| $95,361 - $127,780 | $1,210,630,834 | $1,520,026 | 22.0% | 4,801 |
| $127,781 - $183,475 | $1,954,222,647 | $2,797,341 | 40.5% | 12,021 |
| $183,476 & Over | $8,869,633,832 | $255,604 | 3.7% | 1,613 |
| **Nonresidents** | $961,801,005 | $52,755 | 1.8% | 293 |
| **All** | **$14,873,000,000** | **$6,900,000** | **101%** | **24,400** |

*Fewer than 10 returns. Amounts were combined with an adjacent cell.

## 1.6.22 Beginning Farmer Management Credit

Minnesota Statutes, Section 290.06, Subd. 38

A beginning farmer may claim a nonrefundable credit for participating in a financial management program approved and certified by the Minnesota Rural Finance Authority. The credit is equal to the cost of participating in the program, up to $1,500 per year. The credit may be taken for up to three years while the farmer is in the program. Any unused credit may be carried forward for up to three years.

The credit was enacted in 2017 and will expire after 2023.

Approximately 260 returns claimed this credit in tax year 2022.

**Objective Statement:** The objective of the Beginning Farmer Management Credit is to incentivize beginning farmers to participate in a financial management program approved by the Rural Finance Authority to improve the farming operation success rate in the state of Minnesota.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the income tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $500,000 | $500,000 | $500,000 | $500,000 |

## 1.6.23 Credit for Sale of Agricultural Assets

Minnesota Statutes, Sections 290.06, Subd. 37 and 41B.0391

A nonrefundable credit is available to taxpayers who sell or rent agricultural assets to a beginning farmer. The credit equals one of the following:

- 8% of the sale price or market value of the asset, up to $50,000;
- 10% of the gross rental income in each of the first three years of a rental agreement, up to $7,000 per year; or
- 15% of the cash equivalent of the gross rental income in each of the first three years of a rent-share agreement, up to $10,000 per year.

Any unused credit may be carried forward for up to 15 years. The total value of credits is capped at $5 million for 2018 and $6 million in later years.

The credit was enacted in 2017 and was extended in 2023 to sunset after tax year 2030.

Approximately 500 returns claimed this credit in tax year 2020.

**Objective Statement:** The objective of the Beginning Farmer Incentive Credit is to lower the barrier of entry for a beginning farmer and make them more financially competitive.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each income tax rate could be reduced by 0.003 percentage points, to 5.347%, 6.797%, 7.847%, and 9.847%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $6,500,000 | $4,000,000 | $4,000,000 | $4,000,000 |

## 1.6.24 Sustainable Aviation Fuel Credit

Minnesota Statutes, Sections 41A.30

Effective beginning with tax year 2024, individual income and corporate franchise taxpayers can claim a refundable credit equal to $1.50 for each gallon of sustainable aviation fuel (SAF) that is produced or blended with aviation gasoline or jet fuel in Minnesota and sold to a purchaser who certifies that it will be used in an aircraft departing from an airport in Minnesota. A qualifying taxpayer may claim a credit for producing or blending SAF, but not both. If the SAF is blended rather than produced, the credit is allowed only for the portion of SAF that is included in the blended fuel.

The credit program is administered by the Commissioner of Agriculture and credits may only be claimed for SAF sold after June 30, 2024 and before July 1, 2027. Credit certificates are limited by the allocated amounts of $7.4 million in fiscal year 2025 and $2.1 million for fiscal years 2026 and 2027. Any unallocated amounts from fiscal years 2025 and 2026 will be available for allocation in fiscal year 2027.

For a fuel to qualify as SAF, it must meet certain testing specifications, be derived from biomass as defined in Minnesota Statutes 41AS.15 Subd. 2e, can not be derived from palm fatty acid distillates, and must achieve at least a 50% life cycle greenhouse gas emission reduction when compared to petroleum-based gasoline, aviation turbine fuel, or jet fuel.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| State General Fund | Estimate in Item 2.6.09 | Estimate in Item 2.6.09 | Estimate in Item 2.6.09 | Estimate in Item 2.6.09 |

# Chapter 2: Corporate Franchise Tax

## *Collections and History*

For fiscal year 2024, net revenues from the corporate franchise tax were $3.2 billion. The proceeds from the corporate franchise tax go into the State General Fund.

The Minnesota corporate income tax was enacted in 1933, at the same time and at the same rates as the individual income tax. Several changes have been made to the tax rate since 1933. At times it was a flat rate; at others, a graduated rate schedule applied. The bank excise tax was first enacted in 1941 at a rate of 8% and had a rate different from the corporate income tax until 1973. The current rate of 9.8% has been in effect for the corporate franchise tax since 1990.

In 1987 the corporate income and bank excise taxes were replaced by the corporate franchise tax, and a federal definition of income (federal taxable income) was adopted. Although the Minnesota tax base now generally conforms to the federal base, a number of modifications to federal taxable income still exist. In 2017, several federal law changes were enacted that expanded the corporate tax base beginning in 2018. Minnesota conformed to most of those changes in 2019, with the exception of the international provisions.

## *Tax Base*

For purposes of this study, the tax base for the corporate franchise tax is defined to be income from all sources less expenses that are reasonable and necessary to generate that income. Such reasonable and necessary expenses are, therefore, not considered to be tax expenditures.

A tax expenditure is created when a type of income is excluded or when a deduction is allowed for expenses other than those considered reasonable and necessary. For example, when depreciation measures the actual decline in the value of an asset during the tax year, it is a necessary business expense and not a tax expenditure. However, when accelerated depreciation or expensing is allowed for a depreciable asset, the tax benefit from deducting the portion that exceeds actual depreciation is a tax expenditure.

## *Computation of the Tax*

The computation of the corporate franchise tax for tax year 2024 is generally as follows:

Income from all sources
minus: federal exclusions
minus: federal deductions
equals: federal taxable income
plus: Minnesota additions
minus: Minnesota subtractions
equals: net income
times: apportionment based on sales factor
equals: taxable net income
minus: Minnesota deductions
equals: Minnesota taxable income
times: tax rate of 9.8%
equals: gross tax
minus: nonrefundable credits
plus: alternative minimum tax at 5.8% rate
plus: minimum fee
equals: tax liability
minus: refundable credits
equals: net corporate tax payable

Prior to tax year 2014, income for most multistate corporations was apportioned to Minnesota based on a weighted three-factor formula of property, payroll, and sales. Beginning with tax year 2014, income is apportioned to Minnesota based only on sales, using the percentage of Minnesota sales to total sales.

Since 1981, Minnesota has used a domestic unitary method of taxation. A group of corporations is considered to be a unitary business when there is unity of ownership, operation, and use. Only domestic corporations, that is, those organized under United States federal or state law, are included in the unitary group. The Minnesota taxable income of a corporation that is part of a unitary group is determined by applying an apportionment formula to the combined net income of the unitary business.

An alternative minimum tax on tax preference income is imposed to the extent that it exceeds the regular liability. The alternative minimum tax is equal to 5.8% of Minnesota alternative minimum taxable income.

In addition to the regular and alternative minimum tax, a minimum fee is imposed, based on the sum of the corporation's Minnesota property, payroll, and sales. The minimum fee also applies to partnerships and S corporations.

The brackets and minimum fee amounts were increased in 2013 and are indexed annually for inflation beginning in tax year 2014. In 2019, the inflation measure used for indexing was changed from the Consumer Price Index to the Chained Consumer Price Index. The following amounts apply to tax year 2024:

| Total–Minnesota Property, Payroll, and Sales | Minimum Fee |
|---|---|
| Less than $1,220,000 | $0 |
| 1,220,000–2,439,999 | 250 |
| 2,440,000–12,199,999 | 0 |
| 12,200,000–24,389,999 | 2,440 |
| 24,390,000–48,779,999 | 4,890 |
| 48,780,000 or more | 12,200 |

The unrelated business income of exempt organizations is subject to the Minnesota tax. The unrelated business income tax is based on the organization's federal taxable income, without the Minnesota additions to and subtractions from income which are applicable to other corporations.

### *Mining Occupation Tax*

The occupation tax on taconite and iron ore is similar to the corporate franchise tax, with these exceptions: the starting point is the mine value of iron ore or taconite concentrates mined or produced in Minnesota; allowable deductions include only those expenses necessary to convert raw iron ore or taconite concentrates to marketable quality; the unitary principle is not applicable; percentage depletion is allowed; and the alternative minimum tax does not apply. Total occupation tax collections in fiscal year 2021 were $7.4 million. The tax expenditures for the occupation tax are not shown separately; they are included with the corporate franchise tax provisions. Because percentage depletion does not apply to other corporations, the fiscal impact for Item 2.3.05 applies only to occupation tax filers.

## *Exempt Organizations*

### 2.1.01 Credit Unions

Internal Revenue Code, Section 501(c)14(A)
Minnesota Statutes, Section 290.05, Subd. 2

Credit unions organized and operated for mutual purposes and without profit or capital stock are exempt from both state and federal income taxation. The estimates are based on the assumption that credit unions would be taxed the same as similar financial institutions.

Credit unions have never been subject to the federal income tax and have been specifically excluded from state income taxation since 1937. In 1981, Minnesota adopted the language found in Subchapter F of the Internal Revenue Code which exempts numerous organizations, including credit unions.

In 2023, there were roughly 90 credit unions in Minnesota with approximately 2,137,000 members.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.7%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $23,100,000 | $24,700,000 | $27,200,000 | $28,200,000 |

### 2.1.02 Insurance Companies

Minnesota Statutes, Section 290.05, Subd. 1(c)

Insurance companies are exempt from the corporate franchise tax.

The estimates assume that a credit would be allowed for Minnesota premiums tax paid because a premiums tax credit was allowed when the corporate franchise tax was imposed on insurance companies.

An exemption for all insurance companies was enacted in 2001. The broader exemption replaced exemptions enacted in 1989 for insurance companies domiciled in retaliatory states and for smaller mutual property and casualty companies.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.4%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $123,200,000 | $129,000,000 | $130,000,000 | $130,000,000 |

## *Federal Exclusions*

### 2.2.01 Permanent Exemptions from Imputed Interest Rules

Internal Revenue Code, Sections 483, 1274, 1274A, and 7872
Minnesota Statutes, Section 290.01, Subd. 19

The Internal Revenue Code generally requires that debt instruments bear a market rate of interest at least equal to the average rate on outstanding Treasury securities of comparable maturity. If the instrument does not, a market rate is imputed to it for tax purposes. The imputed interest must be included in the income of the recipient and is deducted by the payer.

The exceptions to the imputed interest rules include debt associated with the sale of property when the total sales price does not exceed $250,000. Debt instruments for amounts not exceeding $2.8 million that are given in exchange for real property may not have imputed to them an interest rate exceeding 9%. The $2.8 million maximum is indexed annually for inflation.

Imputed interest rules were enacted in 1984. Permanent exceptions to the rules were enacted in 1986 and were last modified in 1997.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

### 2.2.02 Like-Kind Exchanges

Internal Revenue Code, Section 1031
Minnesota Statutes, Section 290.01, Subd. 19

In general, the gain from the sale or exchange of property is recognized as income for tax purposes. However, the gain from a like-kind exchange is not recognized at the time of exchange if both the relinquished and the received property are held for productive use in a trade or business or for investment. The recognition of the gain is deferred until the received property is sold or otherwise disposed. In order for the gain to qualify for exclusion, the exchange must be concluded within specified time limits. This provision does not cover stock in trade or other property held primarily for sale, or stock, bonds, notes, or other securities.

Tax-free exchanges of like-kind property were allowed federally in 1921 and by Minnesota in 1933. These provisions were amended in 2008. In 2018, the federal deferral was limited to real property that is not held primarily for sale. Minnesota adopted that change in 2019.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $5,800,000 | $5,600,000 | $5,400,000 | $5,100,000 |

*Less Than $50,000

### 2.2.03 Investment Income on Life Insurance and Annuity Contracts

Internal Revenue Code, Sections 72, 101(a), and 7702
Treasury Reg. 1.451-2
MN Rules, Part 8001.9000
Minnesota Statutes, Section 290.01, Subd. 19

Investment income earned on life insurance and annuity contracts is not included in the recipient's gross income as it accumulates. For a life insurance policy, the exclusion applies to what is commonly referred to as "inside build-up" of investment income. When the premiums paid by the policyholder exceed the cost of insurance, the excess premiums are invested by the company, and the investment income is credited to the policy. If the policy is surrendered before the death of the policyholder, the excess of the cash surrender value over the premiums paid is included in income. In this situation, the income is deferred rather than excluded. Policy proceeds paid because of the death of the insured are excluded from the gross income of a beneficiary, and the investment income is never taxed.

An annuity is an investment contract in which the owner makes a deposit in either a lump sum or installment payments in exchange for regular payments for a lifetime or for a specified number of years. The income is not included in the gross income of the owner as it accumulates if the policyholder is a natural person. With certain exceptions, the deferral of investment income does not apply when an annuity is held by a corporation.

These exclusions have been in effect since 1933 and were last modified in 2020.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $8,200,000 | $8,400,000 | $8,600,000 | $8,900,000 |

## *Federal Deductions*

### 2.3.01 Expensing and Amortization of Business Start-Up Costs

Internal Revenue Code, Sections 195 and 248
Minnesota Statutes, Section 290.01, Subd. 19

A taxpayer may elect to deduct up to $5,000 of start-up expenditures in the taxable year in which the active trade or business begins. The $5,000 is reduced dollar-for-dollar by the amount by which total start-up costs exceed $50,000. Any start-up expenditures not deducted can be amortized over 15 years.

Minnesota first adopted the deduction for organizational expenses in 1955, and the deduction for start-up costs was added in 1980. These current provisions were enacted in 2004.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $200,000 | $200,000 | $200,000 | $200,000 |

## 2.3.02 Accelerated Depreciation

Internal Revenue Code, Sections 167 and 168
Minnesota Statutes, Section 290.01, Subd. 19

A corporate taxpayer is allowed a deduction for the depreciation of machinery, equipment, and structures used in a trade or business or held for the production of income equal to the deduction allowed federally under the modified accelerated cost recovery system (MACRS). Under MACRS, machinery and equipment can be depreciated over three, five, seven, or 10 years, and the 200% declining balance method is used. The 150% declining balance method applies to 15-year and 20-year property. Straight-line depreciation of 27.5 years is used for residential rental property, and 39 years is used for nonresidential real property.

Conceptually the tax expenditure is the extent to which depreciation for tax purposes exceeds the actual decline in value of the asset during the applicable tax year. For machinery and equipment, the tax expenditure is measured as the difference between the current law depreciation schedule and straight-line depreciation over the period defined by the midpoint of the asset depreciation range (ADR) system that was in effect from 1971 to 1981. For structures, it is measured as the difference between current law depreciation and straight-line depreciation over 40 years.

For federal tax purposes, bonus depreciation has applied at various times. The amount of the bonus depreciation is subtracted from the basis of the property in computing the depreciation deduction for all years. For Minnesota tax purposes, 80% of the bonus depreciation is added back to taxable income in the first year, with that amount subtracted in equal parts over the next five years.

A depreciation deduction was part of the original Minnesota corporate income tax enacted in 1933. Accelerated depreciation was first allowed through administrative practice by the federal government in 1946 and by law in 1954. Minnesota first enacted an accelerated depreciation provision in 1959. In 1987, Minnesota adopted MACRS that had been enacted as part of the federal Tax Reform Act of 1986. A 30% bonus depreciation option was enacted federally in 2002 and was extended and modified several times. The percentage was increased to 50% and then 100% for property placed in service after September 27, 2017 and before tax year 2023. The percentage will be reduced gradually to zero in tax years 2023 through 2026. Minnesota requires the addition for 80% of the bonus depreciation in the first year and the subtraction of that amount in equal parts over the following five years.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.3%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $159,700,000 | $99,200,000 | $74,800,000 | $98,500,000 |

## 2.3.03 Expensing Depreciable Business Property

Internal Revenue Code, Section 179
Minnesota Statutes, Section 290.01, Subd. 19

A corporation may elect to treat the cost of qualifying business property as an expense in the year the property is placed in service. For Minnesota tax purposes, the maximum annual deduction is $25,000. If the taxpayer places more than $200,000 of qualifying property in service during the year, the $25,000 is reduced by one dollar for each dollar that the cost exceeds $200,000.

For federal tax purposes, the maximum annual deduction is $1 million, reduced by one dollar for each dollar of property placed in service over $2.5 million. Those thresholds are adjusted annually for inflation. For Minnesota tax purposes, 80% of the difference between the amount of expensing allowed for federal and state tax purposes was added back to taxable income on the Minnesota return, with that amount subtracted in equal parts over the next five years.

This provision was adopted in 1982. The maximum deduction was increased in 1993 and 1996. In 2003, the amount of allowable expensing was temporarily increased for tax years 2003 through 2005. Minnesota adopted those changes. In 2004, the increase was extended to tax years 2006 and 2007. Minnesota adopted the extension of the increase and, at the same time, enacted the addition equal to 80% of the increase, with that amount subtracted in equal parts over the next five years. This provision has been increased and expanded several times, most recently in 2018. Minnesota conformed to those changes in 2019, retaining the 80% addition and subtractions. In 2020, Minnesota fully conformed to Section 179 expensing. Subtractions will continue through 2024 for property placed in service before 2020.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.7%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $16,600,000 | $9,000,000 | $4,200,000 | $4,700,000 |

## 2.3.04 Expensing for Removal of Barriers to the Disabled and the Elderly

Internal Revenue Code, Section 190
Minnesota Statutes, Section 290.01, Subd. 19

In general, an improvement to a depreciable asset is treated as a capital expenditure, and the cost is recovered using the appropriate depreciation deduction. However, Section 190 allows a corporation to expense up to $15,000 of the costs incurred in a single year for removing physical barriers to individuals with a disability or the elderly in qualified facilities or public transportation vehicles. Qualified expenses exceeding $15,000 must be capitalized.

This provision does not apply to construction of a new facility or vehicle or to a complete renovation of an existing facility. A qualified facility includes any or all portions of a building structure, equipment, road, walkway, parking lot, or similar property. A vehicle qualifies if it is owned or leased by the taxpayer and provides transportation services to the public.

Section 190 was enacted in 1976 as a temporary provision and was made permanent in 1986. The current maximum amount was enacted in 1990.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 2.3.05 Expensing of Exploration and Development Costs

Internal Revenue Code, Sections 57(2), 263(c), 291, 616, 617, and 1254
Minnesota Statutes, Section 290.01, Subd. 19

Generally, amounts paid for permanent improvements or betterments to income-producing property are not deductible as current year expenses but are capitalized and recovered through depreciation or depletion. However, current-year expensing is allowed for items such as labor, fuel, repairs, and site preparation costs incurred in the exploration and development of oil, gas, other fuel, and non-fuel mineral deposits. Expensing is allowed only for domestic properties.

Expensing of exploration and development costs for all minerals was first allowed by Minnesota in 1967. Prior to 1987, Minnesota allowed this expensing deduction for minerals but not for oil and gas. In 1987, Minnesota conformed to the federal treatment for all the types of deposits mentioned by adopting federal taxable income as the starting point for the tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $400,000 | $400,000 | $400,000 | $400,000 |

## 2.3.06 Excess of Percentage over Cost Depletion (Mining Occupation Tax)

Internal Revenue Code, Sections 291, 611, 612, 613, and 613A
Minnesota Statutes, Section 298.01, Subd. 4c(a)

Depletion allowances refer to the way in which investment costs are recovered for mining or other extractive operations and may be taken for almost all exhaustible natural resources. For the federal income tax, a corporation may choose either percentage depletion or cost depletion, but only cost depletion is allowed for the Minnesota corporate franchise tax. However, percentage depletion is allowed for the mining occupation tax on taconite and iron ore.

Cost depletion is based on the taxpayer's basis in the property and is similar to depreciation in its application. Percentage depletion is based on a percentage of the gross income received from the extractive operation and has little relationship to a taxpayer's basis. The excess of percentage depletion over cost depletion is considered a tax expenditure.

For the federal income tax, a deduction for cost depletion was first allowed in 1913, and percentage depletion was first allowed as an option in 1926. Percentage depletion has never been allowed for the Minnesota corporate franchise tax. In 1989, percentage depletion was enacted for the mining occupation tax and was last modified in 1999.

Five mining companies benefited from the percentage depletion in tax year 2022.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $8,700,000 | $8,500,000 | $8,500,000 | $8,500,000 |

## 2.3.07 Cash Accounting and Expensing for Agriculture

Internal Revenue Code, Sections 162, 175, 447, 461, 464, and 465
Minnesota Statutes, Section 290.01, Subd. 19

Farm corporations are allowed to use cash accounting rather than the accrual system for income tax purposes if their annual gross receipts are $25 million or less. Therefore, costs attributable to goods not yet sold may be deducted in the current year.

A farm corporation may deduct certain expenditures made during the tax year rather than capitalize them. Qualifying expenditures include soil and water conservation expenses, the purchase and application of fertilizer, or costs associated with raising dairy and breeding cattle.

Certain agricultural corporations have been allowed to use the cash accounting system for tax purposes since 1933. Minnesota began allowing the expensing of capital outlays in 1955. In 1987, cash accounting was repealed for farms with annual gross receipts over $25 million.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 2.3.08 Expensing of Multi-Period Timber Growing Costs

Internal Revenue Code, Section 263A(c)(5)
Minnesota Statutes, Section 290.01, Subd. 19

Timber growers are allowed to deduct in the current year costs associated with maintaining a timber stand after it is established. The costs include disease and pest control, brush clearing, and property taxes. This exception to the capitalization rules applies to the costs incurred in raising, growing, or harvesting trees other than trees bearing fruit, nuts, or other crops, or ornamental trees.

These costs have always been allowed to be expensed. When the uniform capitalization rules were adopted as part of the Tax Reform Act of 1986, an exception was allowed for timber.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,700,000 | $1,700,000 | $1,800,000 | $1,800,000 |

## 2.3.09 Amortization and Expensing of Reforestation Expenses

Internal Revenue Code, Section 194
Minnesota Statutes, Section 290.01, Subd. 19

Under uniform capitalization rules, production costs are capitalized (added to basis) and deducted when the product is sold. However, Section 194 allows a corporation to deduct up to $10,000 of reforestation expenditures incurred for each qualified timber property in any tax year. Expenditures exceeding $10,000 may be amortized over 84 months. Qualifying expenditures include only direct costs, such as for site preparation, seed or seedlings, and labor and tools.

Section 194 was enacted in 1980 and was last modified in 2005.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $800,000 | $800,000 | $800,000 | $800,000 |

## 2.3.10 Special Rules for Mining Reclamation Reserves

Internal Revenue Code, Section 468
Minnesota Statutes, Section 290.01, Subd. 19

In general, expenses that will be incurred in the future may not be claimed as a current deduction. An exception is provided for mining and solid waste disposal site reclamation costs which are incurred in order to comply with a federal, state, or local law, as specified. A deduction may be taken in the current year for the estimated future reclamation or closing costs attributable to production or mining activity during the taxable year. A bookkeeping reserve must be maintained for tax purposes so that, when reclamation or closing costs are actually incurred, they can be compared to the deductions taken. Any excess of the reserve, including interest, over actual costs must be included in income at that time.

Section 468 was enacted in 1984 and was last modified in 1986. Minnesota first adopted this provision for corporate tax purposes in 1990.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 2.3.11 Cash Accounting Other Than Agriculture

Internal Revenue Code, Sections 446 and 448
Minnesota Statutes, Section 290.01, Subd. 19

Section 446 of the Internal Revenue Code allows a taxpayer to choose the cash method of accounting instead of the accrual method. The accrual method is considered a better measure of current-year income and expenses because it takes into account the income of receivables. This tax expenditure is the difference in net income measured by accrual accounting and cash accounting.

A corporation may use cash accounting only if it has average annual gross receipts of $25 million (previously $10 million) or less or is a qualified personal service corporation. A qualified personal service corporation is an employee-owned service business in the fields of health, law, engineering, architecture, accounting, actuarial science, performing arts, or consulting.

Cash accounting has been permitted since 1933. Prior to the 1986 federal changes which were adopted by Minnesota in 1987, cash accounting could be used by any corporation that did not maintain an inventory. In 2018, this provision was expanded to allow taxpayers with average annual gross receipts of less than $25 million to use cash accounting.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $2,800,000 | $2,800,000 | $2,800,000 | $2,800,000 |

## 2.3.12 Installment Sales

Internal Revenue Code, Sections 453 and 453A
Minnesota Statutes, Section 290.01, Subd. 19

In general, the gain or loss from the sale of property is recognized in the year of the sale. An exception is the installment method which may be used to report gains if at least one payment is received in a tax year later than the year of sale. The installment method can be used only by taxpayers who do not regularly deal in the property being sold, and gross profit is prorated over the period in which payments are received. The tax expenditure is the difference between what tax liability would be under year-of-sale reporting and installment reporting.

The installment method was first enacted in 1933. In 1986, the installment method was eliminated for revolving credit sales of personal property and sales of property regularly traded on an established market, such as stocks or securities. In 1987, the installment method was repealed for dealer sales of both real and personal property. In 1999, the use of installment sales was restricted, but that restriction was repealed retroactively in 2000. This provision was last modified in 2004, when installment sale treatment was disallowed for readily tradable debt.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.7%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $21,900,000 | $23,300,000 | $24,700,000 | $26,300,000 |

## 2.3.13 Completed Contract Rules

Internal Revenue Code, Section 460
Minnesota Statutes, Section 290.01, Subd. 19

Some taxpayers with contracts extending for more than one year are allowed to report some or all of the profit on the contracts under special accounting rules. Income from a long-term contract is reported only when the contract is completed, and costs allocable to the contract are deducted at that time. However, many indirect costs may be deducted in the year paid or incurred. Without these special rules, indirect costs could be deducted only when the income is reported.

The completed contract method is allowed for home construction contracts and for other construction contracts if they are no longer than two years in duration and if the taxpayer's average annual gross receipts for the three preceding years do not exceed $25 million (previously $10 million).

The completed contract method was first allowed federally in 1918 and by Minnesota in 1933. The rules for long-term contracts were codified in the federal Tax Reform Act of 1986, and restrictions were placed on their use. This provision was last modified in 2018, when the gross receipts limit was increased from $10 million to $25 million.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $3,800,000 | $3,900,000 | $4,000,000 | $4,100,000 |

## 2.3.14 Charitable Contributions

Internal Revenue Code, Sections 170 and 642(c)
Minnesota Statutes, Section 290.01, Subd. 19

A deduction is allowed for contributions made to organizations that are charitable, religious, scientific, literary, artistic, or educational in purpose. A corporation can deduct up to 10% of taxable income, with some adjustments. Excess contributions may be carried forward for up to five years.

In 1933, Minnesota enacted a charitable deduction for contributions to organizations in Minnesota. The amount was subtracted after income was apportioned. In 2001, the Minnesota charitable contribution deduction was repealed, and the federal deduction was adopted. These provisions were last modified in 2018. In 2020, the federal limits on charitable contributions by a corporation were temporarily increased, but Minnesota has not adopted that change.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.7%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $25,200,000 | $26,100,000 | $27,100,000 | $28,100,000 |

## 2.3.15 Employee Stock Ownership Plans

Internal Revenue Code, Sections 401(a), 404(a)(9) and (k), 415(c),1042, and 4978
Minnesota Statutes, Section 290.01, Subd. 19

An employee stock ownership plan (ESOP) is a qualified stock bonus plan or a combination of a stock bonus and a money purchase pension plan under which a tax-exempt trust holds employer stock for the benefit of the employees. The stock may be acquired through direct employer contributions or with the proceeds of a loan to the trust.

Employer contributions to an ESOP are deductible. An employer is allowed to deduct dividends paid to an ESOP and dividends used to make payments on ESOP loans. The recognition of gain from the sale of qualified stock to an employee organization may be deferred if certain conditions are met. After the sale is completed, the ESOP must own at least 30% of the company stock.

These federal provisions were enacted in 1974. These provisions were last modified in 2001.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $13,100,000 | $14,000,000 | $14,900,000 | $15,900,000 |

## 2.3.16 Capital Construction Funds of Shipping Companies

Internal Revenue Code, Section 7518
Minnesota Statutes, Section 290.01, Subd. 19

Tax incentives are provided to shipping companies which own or lease vessels operating in the foreign or domestic commerce of the United States or in United States fisheries. If the taxpayer enters into an agreement with the appropriate federal agency, deposits in a capital construction fund may be deducted from taxable income up to the portion of taxable income attributable to the operation of the vessel covered by the agreement. Earnings on the fund are exempt from taxation. Withdrawals from the fund are not taxable if they are used to acquire, construct, lease, or pay off the indebtedness on a qualifying vessel.

The special tax treatment began with the 1936 Merchant Marine Act and was expanded significantly in 1970. These provisions were modified and codified in the federal Tax Reform Act of 1986. Minnesota first adopted these provisions in 1987.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

## *Apportionment*

### 2.4.01 Sales Factor Apportionment

Minnesota Statutes, Section 290.191

Since tax year 2014, net income is apportioned to Minnesota based on the ratio of Minnesota sales to total sales, referred to as 100% sales apportionment.

The tax expenditure is measured by comparing the tax liability with 100% sales apportionment to the tax liability if income were apportioned by applying equal weights to the Minnesota shares of property, payroll, and sales. With an equal-weight formula, liability would be higher for some corporations and lower for others, but overall liability would increase.

In 1939 manufacturing firms were allowed the option of choosing between the weighted-ratio formula and the average-ratio formula, and the option was extended to all firms in 1953. The average-ratio option was repealed in 1987. The percentages in the weighted formula were 15% property, 15% payroll, and 70% sales until they were changed to 12.5%, 12.5%, and 75% in 1999, effective beginning in 2001. In 2005, the sales factor was increased from 75% to 100%, phased in from 2007 to 2014, with corresponding decreases in the property and payroll factors.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 7.6%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $891,900,000 | $922,600,000 | $929,100,000 | $929,600,000 |

### 2.4.02 Throwback Sales

Minnesota Statutes, Section 290.191, Subd. 5

The sales factor in the apportionment formula is determined by the destination of the sales. If a corporation makes sales from Minnesota to a customer in a state in which it has no nexus, the sales are not attributed anywhere. The Multistate Tax Compact and many states address this issue with a throwback rule which requires that a sale be thrown back to the state of origin if the selling corporation is not taxable in the state of the purchaser. Sales to the federal government are also thrown back to the state of origin.

Minnesota has no throwback rule. Therefore, the apportionment factor is lower for some corporations than would occur under a throwback rule. A corporation with 100% of its property and payroll in Minnesota will not have a nexus in other states. If only 10% of its sales are in Minnesota, its apportionment factor is 10% under current law but would be 100% under the throwback rule.

Prior to 1973, Minnesota used an origin-of-sale basis for corporate apportionment. In 1973, when Minnesota switched to a destination sale basis, throwback was not adopted. Since tax year 2014, apportionment is based on only the sales factor.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.6%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $66,000,000 | $68,300,000 | $68,800,000 | $68,800,000 |

## *Minnesota Subtractions*

### 2.5.01 Dividend Received Deduction

Minnesota Statutes, Section 290.21, Subd. 4, 9, and 10

In computing Minnesota taxable income, a corporation adds back the federal dividend received deduction and determines a Minnesota dividend received deduction which is subtracted after income is apportioned. The deduction is 80% of the dividends received from another corporation if the recipient owns 20% or more of the stock of the paying corporation and 70% if the recipient owns less than 20%. Under certain circumstances the deduction can be 100%. The dividends are deductible only to the extent they are included in income apportioned to Minnesota.

The dividend received deduction is not allowed if the corporate stock is included in the inventory of the taxpayer corporation, if the corporation holds the stock primarily for sale to customers in the ordinary course of business, or if the business of the corporation consists mainly of holding the stocks and collecting income and gains from them.

The dividend received deduction was enacted in 1947. Major changes were made to this provision in 1987 and 1988, and it was last modified in 1989.

In 2017, federal law was changed to allow the deferral of foreign income to be recognized as increased flows of dividend income. Such dividend income is not recognized as income under Minnesota law, and such income is not included in the estimate.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.0%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $275,100,000 | $284,600,000 | $286,600,000 | $286,700,000 |

### 2.5.02 Disposition of Farm Property

Minnesota Statutes, Section 290.491

A taxpayer may subtract from federal taxable income the income realized on a sale or exchange of farm property if the taxpayer is insolvent at the time of the sale and the proceeds are used solely to discharge indebtedness of the property sold. The amount of the subtraction is limited to the excess of the taxpayer's liabilities over total assets and the amount of any debt forgiveness excluded from income under Section 108 of the Internal Revenue Code.

This provision was enacted in 1985. It was repealed in 1987 but was re-enacted in 1988, retroactive to tax year 1987.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

## *Credits*

### 2.6.01 Research and Development Credit

Minnesota Statutes, Section 290.068

A nonrefundable credit is allowed based on qualified expenditures for research and development performed solely within Minnesota. Expenditures include wages, costs of supplies, computer costs, 65% of contract costs paid to others for doing research, and certain contributions to nonprofit organizations engaged in research and development within Minnesota.

The credit is based on the excess of current-year research expenditures over a calculated base amount, but in most cases 50% of current-year research expenditures are eligible for the credit. The credit is 10% of the first $2 million of eligible expenditures and 4% of the excess over $2 million. Any credit that exceeds liability can be carried forward up to 15 years.

The research and development credit was enacted in 1981. In 2010, the credit was changed from a nonrefundable credit to a refundable credit, and the percent of the credit on the first $2 million was increased from 5% to 10%. In 2013, the credit was once again changed to a nonrefundable credit. In 2017, the 2nd tier rate was increased from 2.5% to 4%.

**Objective Statement:** The objective of the Research and Development Credit is to create or retain jobs, increase research activity, and attract or retain business in Minnesota.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.5%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $111,300,000 | $115,200,000 | $116,000,000 | $116,100,000 |

### 2.6.02 Employer Transit Pass Credit

Minnesota Statutes, Section 290.06, Subd. 28

A nonrefundable credit is allowed against the corporate franchise tax equal to 30% of the expense incurred by the taxpayer to provide transit passes to the taxpayer's employees. The transit pass must be for use in Minnesota. If the employer purchases the transit passes from the transit system and resells them to the employees, the expenses used for the credit are the difference between the amount the employer paid for passes and the amount charged to employees.

This credit was enacted in 2000.

**Objective Statement:** The objective of the Employer Transit Pass Credit is to incentivize Minnesota employers to subsidize transit passes for their employees to encourage the use of public transit.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $900,000 | $900,000 | $900,000 | $1,000,000 |

## 2.6.03 Enterprise Zone Employer Tax Credits

Minnesota Statutes, Section 469.171, Subd. 1(a)(2) and 6(1)

Two refundable credits against the corporate franchise tax are available to employers in designated border city enterprise zones. A credit of up to $3,000 annually is allowed for each additional worker employed in a designated enterprise zone, other than workers employed in construction, and a credit of up to $1,500 annually is allowed for each worker employed in the zone who does not qualify for the $3,000 credit.

These credits were enacted in 1983. Zones other than border city zones expired in 1996. In 2017, the number of eligible cities was increased to six.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $600,000 | $600,000 | $600,000 | $600,000 |

## 2.6.04 Historic Structure Rehabilitation Credit

Minnesota Statutes, Section 290.0681

A credit is allowed equal to the federal credit for qualifying expenditures to rehabilitate a certified historic structure. The federal credit is a nonrefundable income tax credit equal to 20% of the qualifying expenditures. The state credit is a refundable credit equal to 20% of the qualifying expenditures and may be taken against the corporate franchise tax, individual income tax, or insurance premiums tax. The state credit may be assigned to another taxpayer.

Qualifications for the credit are determined under the provisions of Section 47 of the Internal Revenue Code as follows:

- A historic structure must be either individually registered in the National Register of Historic Places or certified by the Secretary of the Interior as having historic significance and located in a registered historic district.
- The structure must be used in a trade or business or be income-producing property.
- Rehabilitation expenditures must exceed the greater of $5,000, or the adjusted basis of the building. Costs to acquire a building or to enlarge a building do not qualify.
- The developer of the project must apply for the credit to the State Historic Preservation Office of the Department of Administration before rehabilitation begins. The credit is allowed after the application is approved and the project is completed.

A grant equal to 90% of the credit may be issued in lieu of the credit. Grants are not included in the estimates because they are included in the state budget as direct expenditures.

This credit was enacted in 2010 and was scheduled to expire after fiscal year 2015. In 2013, the credit was extended through fiscal year 2021. In 2019, the credit was modified so that it is payable over five years rather than in one lump sum. In 2021, the credit was extended through fiscal year 2022. After expiring, the credit was revived and reenacted through fiscal year 2030 and applied retroactively to applications for allocation certificates submitted after June 30, 2022.

Note: The estimates shown here are the total projected credits to be claimed against the corporate franchise tax, the individual income tax, and the insurance premiums tax.

**Objective Statement:** The objective of the Historic Structure Rehabilitation Credit is to encourage the preservation of historic structures in Minnesota and to create and retain jobs related to the rehabilitation of historic structures in the state. The standard against which the effectiveness of the extension of the credit and modification of the effective date is to be measured is the number of jobs created through the rehabilitation of historic structures and the number of historic structures rehabilitated and placed in service. See Minnesota Session Law – 2013, Regular Session, Ch. 143 – H.F. No. 677, Art. 13, Sec. 22, Subd. 5.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the corporate franchise tax rate could be reduced to 9.6%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $61,600,000 | $35,200,000 | $38,100,000 | $36,000,000 |

## 2.6.05 Film Production Credit

Minnesota Statutes, Section 290.06, Subd. 39 and 116U.27

A film production credit is allowed equal to 25% of eligible production costs paid in a taxable year.

An eligible project is a film that includes the promotion of Minnesota, for which the taxpayer expends at least $1,000,000 in the taxable year for eligible production costs and employs Minnesota residents to the extent practicable. Films include feature films, television or internet pilots, programs, series, documentaries, music videos, and television commercials.

The credit is nonrefundable but may be carried forward for up to five years. The credit is assignable to another taxpayer. Total credits are limited to $24.95 million in each tax year. The credit was enacted in 2021. Effective Jan. 1, 2023, the limit was increased from $4.95 million to $24.95 million, and the sunset was extended through tax year 2030.

Up to 10 taxpayers are expected to qualify for the credit in 2024.

Note: The estimates shown here are the total projected credits to be claimed against the corporate franchise tax, the individual income tax, and the insurance premiums tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,700,000 | $4,100,000 | $4,900,000 | $5,900,000 |

## 2.6.06 Housing Contribution Credit

Minnesota Statutes, Section 290.0683 and 462A.40

A nonrefundable credit is allowed for contributions to a designated account in the Housing Development Fund administered by the Housing Finance Agency (HFA). The account is to be used for grants and loans for low- and moderate-income housing developments.

The credit is equal to 85% of contributions of at least $1,000 but not more than $2 million. Any unused credit may be carried over for up to 10 years.

Total credits are limited to $9.9 million in each year. The credit was enacted in 2021 and is effective for tax years 2023 through 2028.

Note: The estimates shown here are the total projected credits to be claimed against the corporate franchise tax, the individual income tax, and the insurance premiums tax.

**Objective Statement:** The objective of the Minnesota Housing Tax Credit (M.S. 290.0683) is to increase the development and availability of affordable housing to persons and families of low and moderate incomes in Minnesota.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $2,000,000 | $3,000,000 | $5,000,000 | $9,000,000 |

## 2.6.07 Manufactured Home Park Credit

IRS Code Section 1250
Minnesota Statutes 290.0694

A credit against the individual income tax and corporate franchise tax for sales of manufactured home parks to cooperatives was created in 2023. The credit is equal to 5% of the amount of the sale. The credit is nonrefundable but can be carried forward for up to five years. To qualify, a taxpayer must sell qualified property to a manufactured home cooperative, a nonprofit organization intending to convert the park to a cooperative, or a representative of residents who intend to convert the park to a cooperative.

Qualified property includes a manufactured home park classified as 4c(5)(i) or 4c(5)(iii) property that qualifies as an Internal Revenue Code section 1250 property (in general, real property that is subject to depreciation, including residential and nonresidential real property).

For nonresidents and part-year residents, the credit is apportioned based on the percentage of income that is attributable to Minnesota.

This provision was enacted in 2023, effective beginning in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $400,000 | $400,000 | $400,000 | $400,000 |

## 2.6.08 Short Line Railroad Credit

IRS Code Section 45G
Minnesota Statutes Sections 290.06 subd. 2c; 290.0695, and 297I.20 subd. 6

A federal credit for railroad maintenance was created in 2004. Minnesota created a credit against the individual income tax, corporate franchise tax, and insurance gross premiums tax equal to 50% of qualified costs for maintenance, reconstruction, or replacement of railroad infrastructure in 2023.

Class II (regional and short line railroads with an annual gross operating revenue between $42.4 million and $943.9 million) and Class III (local and switching railroads with an annual gross operating revenue of less than $42.4 million) railroads are eligible for the credit. In the case of a partnership or S corporation, the credit is passed through to each partner or shareholder. The credit cannot exceed $3,000 times the miles of track owned or leased by the railroad in Minnesota. The credit is nonrefundable but may be carried forward for up to five years. The credit may be transferred under written agreement during the 5-year period.

This provision was enacted in 2023, effective beginning in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the corporate franchise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,400,000 | $1,400,000 | $1,400,000 | $1,400,000 |

## 2.6.09 Sustainable Aviation Fuel Credit

Minnesota Statutes 41A.30

Effective beginning with tax year 2024, individual income and corporate franchise taxpayers can claim a refundable credit equal to $1.50 for each gallon of sustainable aviation fuel (SAF) that is produced or blended with aviation gasoline or jet fuel in Minnesota and sold to a purchaser who certifies that it will be used in an aircraft departing from an airport in Minnesota. A qualifying taxpayer may claim a credit for producing or blending SAF, but not both. If the SAF is blended rather than produced, the credit is allowed only for the portion of SAF that is included in the blended fuel.

The credit program is administered by the Commissioner of Agriculture and credits may only be claimed for SAF sold after June 30, 2024 and before July 1, 2027. Credit certificates are limited by the allocated amounts of $7.4 million in fiscal year 2025 and $2.1 million for fiscal years 2026 and 2027. Any unallocated amounts from fiscal years 2025 and 2026 will be available for allocation in fiscal year 2027.

For a fuel to qualify as SAF, it must meet certain testing specifications, be derived from biomass as defined in Minnesota Statutes 41AS.15 Subd. 2e, can not be derived from palm fatty acid distillates, and must achieve at least a 50% life cycle greenhouse gas emission reduction when compared to petroleum-based gasoline, aviation turbine fuel, or jet fuel.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $0 | $7,400,000 | $2,100,000 | $2,100,000 |

# Chapter 3: Estate Tax

## *Collections and History*

Revenues from the Minnesota estate tax were $285.9 million in fiscal year 2024. All revenues from this tax go into the State General Fund.

In 1905, a tax on the estates of decedents was first enacted in Minnesota in the form of an inheritance tax. Minnesota had an inheritance tax until 1979 when it was repealed and an estate tax was adopted. The inheritance tax was imposed on each individual who received property from an estate, and the amount of tax depended upon the amount of property received and the relationship of the recipient to the decedent. The estate tax is imposed on the taxable estate before it is distributed.

Minnesota had a gift tax from 1937 until it was repealed in 1979. A gift tax was once again enacted in 2013, but in 2014 it was repealed retroactively so that it did not take effect. Minnesota does not have a generation-skipping transfer tax.

In 1985, the computation of the Minnesota estate tax was changed to equal the Minnesota portion of the federal tax credit for state death taxes, known as the "pick-up tax." Minnesota did not adopt the federal changes made to the estate tax in 2001. The state tax was equal to the maximum credit for state death taxes allowed under pre–2001 federal law. In 2013, the estate tax was extended to include gifts made within three years of death.

In 2014, the tax was changed from the federal credit for state death taxes to a separate calculation. The exclusion was increased from $1 million to $2 million, phased in over five years. A new rate schedule was established and was phased in over five years.

In 2017, the statute was changed by increasing the exclusion from $2 million to $3 million for tax year 2020 and later. Additionally, the definition of taxable estate was changed by subtracting the exclusion from the amount of the estate.

## *Tax Base*

The tax base for the estate tax is defined for this study as the net estate transferred. It is gross estate less administrative costs and other necessary and reasonable expenses paid before the estate is distributed. Therefore, a tax expenditure is created when a certain component of the estate is exempted or excluded because of its source or when a distribution is deducted from taxable estate because of the identity of the recipient. Preferential valuations are also considered tax expenditures.

## *Computation of the Tax*

An estate tax return must be filed if the decedent's federal gross estate exceeds the exclusion amount, which is $3 million in 2020 and after. The following tax rate schedule applies to estates of decedents dying in 2018 and thereafter.

| Minnesota Taxable Estate | Tax Rate |
|---|---|
| Less than $7,100,001 | 13.0% |
| 7,100,001–8,100,000 | 13.6% |
| 8,100,001–9,100,000 | 14.4% |
| 9,100,001–10,100,000 | 15.2% |
| More than 10,100,000 | 16.0% |

Computation of the estate tax:

Gross estate
minus: federal exclusions
equals: federal gross estate
minus: federal deductions
equals: federal tentative taxable estate
plus: Minnesota additions:
— federal deduction for foreign death taxes
— taxable gifts made within three years of death
— Minnesota QTIP property deducted on previously deceased spouse's estate tax return
minus: Minnesota subtractions:
— Minnesota exclusion amount
— Subtraction for qualified small business and farm property, up to a maximum amount
— Minnesota QTIP property
equals: Minnesota taxable estate
times: graduated rates, 13% to 16%
equals: Minnesota estate tax

## *Preferential Valuation*

### 3.1.01 Special Use Valuation

Internal Revenue Code, Section 2032A
Minnesota Statutes, Section 291.03

Property is generally included in an estate at its fair market value on the date of death. Fair market value is a property's value based on its best possible use. However, real property which is used in a farm or other closely held business may be valued at its farm or business use value, even though it is less than the market value. Specified conditions must be met in order to qualify for this treatment. The decrease in value cannot be more than a specified amount which is indexed for inflation and is $1,390,000 for deaths in 2024. The estimates measure the difference between tax liability using the fair market value and the special use valuation.

Special use valuation was included in Minnesota's estate tax when it was enacted in 1979. In 1985, Minnesota adopted this federal provision. In 2014, Minnesota adopted this provision by changing the calculation of the tax to begin with federal taxable estate.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the estate tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $300,000 | $300,000 | $300,000 | $300,000 |

## *Exclusions*

### 3.2.01 Life Insurance Proceeds

Minnesota Statutes, Section 291.03

In general, life insurance proceeds payable to an estate or to any beneficiaries are included in gross estate. However, the proceeds payable to a beneficiary may be excluded from gross estate if the decedent had forfeited the right to any benefit from or control over the policy. To qualify for the exclusion, the decedent must not have possessed any of the incidents of ownership in the policy at the time of death. The incidents of ownership include the power to change the beneficiary, the power to cancel or surrender the policy, the power to obtain a loan against the policy or to use the policy as collateral, and the right to any of the policy's economic benefits.

The estimates do not include death benefits paid to a spouse because such benefits would also come under the marital deduction (Item 3.3.01).

This provision was enacted in 1951 under the inheritance tax and was carried over to the estate tax in 1979. Minnesota adopted this federal provision in 1985. In 2014, Minnesota adopted this provision by making federal taxable estate the starting point for calculation of the tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each estate tax rate could be reduced by 0.9% per bracket to 12.1%, 12.7%, 13.5%, 14.3%, and 15.1%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $69,500,000 | $75,900,000 | $82,900,000 | $90,600,000 |

### 3.2.02 Social Security Benefits

Minnesota Statutes, Section 291.03
Revenue Rulings 57–87 and 67–277

Social security lump sum death benefits which are paid to surviving spouses and dependents are exempt from the Minnesota estate tax. The amount of the lump sum benefit is fixed at $255.

This exemption was enacted in 1963 under the inheritance tax laws and was carried over to the estate tax without change when the inheritance tax was repealed in 1979. In 1985, Minnesota adopted this provision through the federal pick-up tax. In 2014, Minnesota adopted this provision by changing the calculation of the tax to begin with federal taxable estate.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the estate tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

## *Deductions*

### 3.3.01 Marital Deduction

Internal Revenue Code, Section 2056
Minnesota Statutes, Section 291.03

The net value of all property passing from a decedent to a surviving spouse may be deducted from gross estate. The net value of the property is the gross value reduced by the amount of exemptions and deductions associated with the property being passed to the spouse.

A $10,000 marital deduction for the inheritance tax was enacted in 1911. In 1979, when the inheritance tax was repealed, the marital deduction was continued for estate tax purposes, with a maximum deduction of $250,000 or one-half the adjusted gross estate, whichever was greater. An unlimited marital deduction was enacted in 1981. In 1985, Minnesota adopted this federal provision. In 2014, Minnesota adopted this provision by making federal taxable estate the starting point for the tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each estate tax rate could be reduced by 3.7% to 9.3%, 9.9%, 10.7%, 11.5%, and 12.3%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $300,500,000 | $320,500,000 | $338,100,000 | $355,600,000 |

*Less Than $50,000

## 3.3.02 Charitable Gifts

Internal Revenue Code, Section 2055
Minnesota Statutes, Section 291.03

Charitable gifts to certain organizations may be deducted from gross estate. Qualifying recipients include charitable, scientific, literary, educational, and religious organizations and federal, state, and local governments.

An inheritance tax exemption for charitable gifts was enacted in 1911. In 1985, Minnesota adopted the federal deduction for charitable gifts. In 2014, Minnesota adopted this provision by making federal taxable estate the starting point for calculation of the tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, each estate tax rate could be reduced by 2.2% to 10.8%, 11.4%, 12.2%, 13.0%, and 13.8%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $175,800,000 | $187,500,000 | $197,800,000 | $208,000,000 |

## 3.3.03 Farm and Small Business Property

Minnesota Statutes, Sections 291.005 and 291.03

A deduction from adjusted taxable estate is allowed for the value of qualified farm property and qualified small business property. The deduction cannot exceed $3.4 million for estates of decedents dying in 2016, $3.2 million for 2017, and $3.0 million for 2018 and after.

To qualify, the decedent must have continuously owned the property for the three-year period prior to death, and a family member must use the property in the operation of the trade or business for three years after the death of the decedent. For farm property, the property must have been classified as the decedent's agricultural homestead for property tax purposes. For small business property, the gross annual sales must have been $10 million or less and the decedent or the decedent's spouse must have materially participated in the trade or business in the taxable year that ended before the death of the decedent.

In electing to treat the property under these provisions, the estate and the qualified heir must agree in writing to pay a recapture tax equal to 16% of the deduction if the property is not used by a family member for the three-year period.

These provisions were enacted in 2011 and were last modified in 2017.

**Objective Statement:** The objective of the Farm and Small Business Property Deduction is to provide estate tax reductions to owner-operators of family farms and small businesses to allow retention and continued operation of those farms and businesses by the families. See Minnesota Session Law – 2011, 1st Special Session, Ch. 7 – H.F. No. 20, Art. 10, Sec. 7, Subd. (2).

**Revenue Neutral Rate:** If the tax expenditure were repealed, each estate tax rate could be reduced by 0.2% to 12.8%, 13.4%, 14.2%, 15.0%, and 15.8%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $17,800,000 | $19,000,000 | $20,000,000 | $11,000,000 |

# Chapter 4: General Sales and Use Tax

## *Collections and History*

Revenues from the general sales and use tax totaled $8.5 billion in fiscal year 2024. Revenues from the sales tax on motor vehicle leases are divided between the Highway User Tax Distribution Fund, the Minnesota State Transportation Fund, the County State-Aid Highway Fund and the Greater Minnesota Transit Account. The sales tax on aircraft goes to the State Airports Fund. Remaining revenues from the 6.5% sales and use tax rate go into the State General Fund. Revenues from the 0.375% tax rate go into four funds: 33% to the Outdoor Heritage Fund, 33% to the Clean Water Fund, 14.25% to the Parks and Trails Fund, and 19.75% to the Arts and Cultural Heritage Fund.

The Minnesota general sales and use tax was enacted in 1967 and became effective on August 1, 1967, at a rate of 3%. The rate was increased to 4% on November 1, 1971, 5% on July 1, 1981, 6% on January 1, 1983, and 6.5% on July 1, 1991. In 2008, a constitutional amendment was adopted which increased the rate by 0.375% to 6.875%, effective from July 1, 2009, to June 30, 2034, and dedicated the proceeds to four funds for natural resources and the arts.

Originally, the general sales and use tax applied to motor vehicles, but in 1971 motor vehicles were exempted from the sales tax and made subject to the newly-enacted motor vehicle excise tax, now called the motor vehicle sales tax (Chapter 5). Although the purchase of a motor vehicle is subject to the motor vehicle sales tax, the lease of a motor vehicle comes under the general sales tax.

The tax base for the sales tax has been changed in nearly every legislative session, with exemptions added and others repealed.

## *Tax Base*

For purposes of this study, the tax base for the general sales and use tax is defined as the gross receipts from the sale of tangible personal property or services to the final user.

Items purchased for resale in the regular course of business are not included in the tax base because they are not a sale to the final user. In agricultural and industrial production, the purchases of raw materials, component parts, and products consumed directly in the production process are considered to be for resale, and therefore the exemption of these items is not a tax expenditure. However, for machinery, equipment, and tools used in agricultural or industrial production, the sale to the business is considered the final sale.

The exemption of motor vehicles from the sales tax is not considered a tax expenditure because motor vehicles are subject to an alternative tax, the motor vehicle sales tax (Chapter 5). Likewise, the exemption of cigarettes is not considered a tax expenditure because cigarettes are subject to an in-lieu sales tax at the wholesale level (Chapter 8).

### *Computation of the Tax*

The sales tax is imposed on the gross receipts from taxable sales made by any person in Minnesota. The complementary use tax is imposed on the storage, use, distribution, or consumption in Minnesota of taxable personal property unless the Minnesota sales tax was paid on the sales price. The rate for both the sales tax and the use tax is 6.875%.

Generally, a retail sale is subject to the tax unless it is specifically exempted by law. Taxable sales also include: selling, leasing, or renting tangible personal property; the furnishing of meals or drinks for a consideration; the furnishing for a consideration of lodging for less than 30 days; the admission to places of amusement or athletic events; the furnishing for a consideration of electricity, gas, water, or steam; and telephone service.

The tax is imposed on the sales price of the item, which is defined as the total consideration valued in money, whether paid in money or otherwise. Exclusions from the sales price include property taken in trade for resale, cash discounts, and separately-stated interest, finance, or carrying charges.

The sales tax is paid by the purchaser to the seller; the seller collects and remits the tax to the state. The use tax is paid directly by the purchaser to the state.

**General Sales Tax, Business Portion**

| Population Decile | Sales & Use Tax | Business Portion of Sales & Use Tax | Share of Business Portion |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $108,858,170 | 2.7% |
| $15,545 - $24,961 | $321,365,571 | $119,743,208 | 2.9% |
| $24,962 - $35,168 | $369,752,647 | $139,471,032 | 3.4% |
| $35,169 - $45,808 | $417,394,917 | $159,742,201 | 3.9% |
| $45,809 - $58,014 | $465,046,347 | $178,530,355 | 4.4% |
| $58,015 - $73,668 | $526,644,412 | $201,895,886 | 4.9% |
| $73,669 - $95,360 | $641,957,246 | $248,497,825 | 6.1% |
| $95,361 - $127,780 | $802,412,748 | $311,867,360 | 7.6% |
| $127,781 - $183,475 | $988,123,559 | $386,770,698 | 9.5% |
| $183,476 & Over | $2,041,065,136 | $882,501,822 | 21.6% |
| Nonresidents | $1,605,124,031 | $1,354,771,928 | 33.1% |
| **All** | **$8,454,900,000** | **$4,092,700,000** | **100%** |

## *Exemptions—Particular Goods and Services*

### 4.1.01 Food Products

Minnesota Statutes, Section 297A.67, Subd. 2

Food and food ingredients for human consumption are generally exempt from the sales tax. Included in the exemption are substances, whether in liquid, concentrated, solid, frozen, dried, or dehydrated form, which are consumed for their taste or nutritional value.

The exemption does not include chewing gum, alcoholic beverages, tobacco, or dietary supplements. The exemption does not apply to food and drinks served by a restaurant or prepared food. Prepared food is either food sold in a heated state or heated by the seller, two or more food ingredients mixed or combined by the seller for sale as a single item, or food sold with eating utensils provided by the seller. However, bakery items, ready-to-eat meat and seafood, and foods that require cooking are exempt.

The exemption for food products was included when the sales and use tax was enacted in 1967. Candy and soft drinks were included in the exemption until 1982. This provision was last modified in 2006. Food sold through vending machines was added to the exemption in 2017.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 5.896%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,404,000,000 | $1,450,800,000 | $1,507,700,000 | $1,554,900,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $85,063,851 | 6.1% |
| $15,545 - $24,961 | $321,365,571 | $92,379,230 | 6.6% |
| $24,962 - $35,168 | $369,752,647 | $99,851,569 | 7.1% |

## 4.1.02 Clothing and Wearing Apparel

Minnesota Statutes, Section 297A.67, Subd. 8 and 27

Clothing for general use is exempt from the sales and use tax. The exemption includes inner and outer wear, footwear, headgear, gloves and mittens, neckwear, belts, hosiery, and similar items. Also exempted are fabrics, thread, buttons, zippers, and similar items which are to be directly incorporated into wearing apparel.

The exemption does not apply to jewelry, handbags, billfolds, fur clothing, sports clothing sold for exclusive use in a sporting activity, or work-related safety articles.

The exemption for clothing was included in the sales and use tax statutes enacted in 1967. It was last modified in 2008.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.436%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $577,000,000 | $595,100,000 | $619,100,000 | $638,600,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $16,968,743 | 2.9% |
| $15,545 - $24,961 | $321,365,571 | $21,852,429 | 3.8% |
| $24,962 - $35,168 | $369,752,647 | $26,449,953 | 4.6% |
| $35,169 - $45,808 | $417,394,917 | $30,736,619 | 5.3% |
| $45,809 - $58,014 | $465,046,347 | $35,738,753 | 6.2% |
| $58,015 - $73,668 | $526,644,412 | $41,487,812 | 7.2% |
| $73,669 - $95,360 | $641,957,246 | $52,827,966 | 9.2% |
| $95,361 - $127,780 | $802,412,748 | $70,482,651 | 12.2% |
| $127,781 - $183,475 | $988,123,559 | $93,221,027 | 16.2% |
| $183,476 & Over | $2,041,065,136 | $170,148,857 | 29.5% |
| **Nonresidents** | $1,605,124,031 | $17,085,190 | 3.0% |
| **All** | **$8,454,900,000** | **$577,000,000** | **100%** |

## 4.1.03 Drugs and Medicines

Minnesota Statutes, Section 297A.67, Subd. 7

Drugs and medicine, insulin, and medical oxygen for human use are exempt from the sales and use tax. The exemption includes all prescription and over-the-counter drugs. Prescription drugs represent roughly 79% of the total exemption.

An exemption for all drugs and medicine was part of the original sales and use tax law enacted in 1967. In 1987, the exemption was limited to prescribed drugs and medicine and to insulin. In 1988, certain nonprescription analgesics were again exempted, and in 1997 the exemption was extended to all analgesics. In 2005, the exemption was once again extended to include all over-the-counter drugs.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.453%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $552,600,000 | $571,100,000 | $593,400,000 | $612,000,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $26,679,857 | 4.8% |
| $15,545 - $24,961 | $321,365,571 | $34,585,335 | 6.3% |
| $24,962 - $35,168 | $369,752,647 | $39,773,258 | 7.2% |
| $35,169 - $45,808 | $417,394,917 | $43,441,769 | 7.9% |
| $45,809 - $58,014 | $465,046,347 | $46,011,985 | 8.3% |
| $58,015 - $73,668 | $526,644,412 | $51,702,755 | 9.4% |
| $73,669 - $95,360 | $641,957,246 | $59,604,364 | 10.8% |
| $95,361 - $127,780 | $802,412,748 | $67,241,201 | 12.2% |
| $127,781 - $183,475 | $988,123,559 | $71,438,170 | 12.9% |
| $183,476 & Over | $2,041,065,136 | $95,758,610 | 17.3% |
| **Nonresidents** | $1,605,124,031 | $16,362,697 | 3.0% |
| **All** | **$8,454,900,000** | **$552,600,000** | **100%** |

## 4.1.04 Medical Devices

Minnesota Statutes, Section 297A.67, Subd. 7(a)(2)(4)(5), and (6); 7(b)(1)(2); 7(c)(2)(3) and (6)

An exemption from the sales and use tax is allowed for durable medical equipment for home use, mobility enhancing equipment, and prosthetic devices. The exemption also applies to repair and replacement parts for the devices.

This provision was enacted in 1967 and was last modified in 2014.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.862%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $16,000,000 | $16,600,000 | $17,300,000 | $17,800,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $631,080 | 3.9% |
| $15,545 - $24,961 | $321,365,571 | $761,316 | 4.8% |
| $24,962 - $35,168 | $369,752,647 | $869,532 | 5.4% |
| $35,169 - $45,808 | $417,394,917 | $972,884 | 6.1% |
| $45,809 - $58,014 | $465,046,347 | $1,081,870 | 6.8% |
| $58,015 - $73,668 | $526,644,412 | $1,226,235 | 7.7% |
| $73,669 - $95,360 | $641,957,246 | $1,485,684 | 9.3% |
| $95,361 - $127,780 | $802,412,748 | $1,852,275 | 11.6% |
| $127,781 - $183,475 | $988,123,559 | $2,270,679 | 14.2% |
| $183,476 & Over | $2,041,065,136 | $4,374,679 | 27.3% |
| **Nonresidents** | $1,605,124,031 | $473,766 | 3.0% |
| **All** | **$8,454,900,000** | **$16,000,000** | **100%** |

## 4.1.05 Prescription Eyeglasses

Minnesota Statutes, Section 297A.67, Subd. 7(a)(7)

Prescription eyeglasses and contact lenses are exempt from the sales and use tax.

This provision was enacted in 1967.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.822%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $65,300,000 | $67,500,000 | $70,200,000 | $72,400,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $1,927,504 | 3.0% |
| $15,545 - $24,961 | $321,365,571 | $2,793,306 | 4.3% |
| $24,962 - $35,168 | $369,752,647 | $3,507,672 | 5.4% |
| $35,169 - $45,808 | $417,394,917 | $4,182,940 | 6.4% |
| $45,809 - $58,014 | $465,046,347 | $4,857,979 | 7.4% |
| $58,015 - $73,668 | $526,644,412 | $5,758,539 | 8.8% |
| $73,669 - $95,360 | $641,957,246 | $6,850,795 | 10.5% |
| $95,361 - $127,780 | $802,412,748 | $8,319,030 | 12.7% |
| $127,781 - $183,475 | $988,123,559 | $9,578,265 | 14.7% |
| $183,476 & Over | $2,041,065,136 | $15,590,413 | 23.9% |
| **Nonresidents** | $1,605,124,031 | $1,933,558 | 3.0% |
| **All** | **$8,454,900,000** | **$65,300,000** | **100%** |

## 4.1.06 Baby Products

Minnesota Statutes, Section 297A.67, Subd. 9

Baby bottles and nipples, pacifiers, teething rings, infant syringes, and breast pumps are exempt from the sales and use tax.

This exemption was enacted in 1967 and was last modified in 2008.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,200,000 | $1,300,000 | $1,300,000 | $1,300,000 |

## 4.1.07 Feminine Hygiene Items

Minnesota Statutes, Section 297A.67, Subd. 17

Consumer purchases of feminine hygiene items, including sanitary napkins, tampons, and similar products, are exempt from the sales and use tax.

This exemption was enacted in 1981.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.871%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $4,700,000 | $4,900,000 | $5,200,000 | $5,400,000 |

## 4.1.08 Caskets and Burial Vaults

Minnesota Statutes, Section 297A.67, Subd. 10

Caskets and burial vaults for human burial are exempt from the sales and use tax.

This provision was enacted in 1967.

Approximately 49,200 deaths occurred in Minnesota in 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.872%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $4,300,000 | $4,100,000 | $3,900,000 | $3,600,000 |

## 4.1.09 Publications

Minnesota Statutes, Section 297A.68, Subd. 10

Publications regularly issued at average intervals not exceeding three months are exempt from the sales and use tax. Included in this exemption are newspapers together with any supplements or enclosures, magazines, journals, and also items such as seasonal catalogs, shoppers' guides, advertising circulars, and loose leaf or similar types of service publications. However, magazines and periodicals sold over the counter are taxable.

This provision was enacted in 1967. All magazines were exempt until 1983 when the tax was imposed on magazines sold over the counter.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.847%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $34,400,000 | $33,100,000 | $33,200,000 | $31,300,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $1,108,053 | 3.2% |
| $15,545 - $24,961 | $321,365,571 | $1,626,209 | 4.7% |
| $24,962 - $35,168 | $369,752,647 | $1,972,693 | 5.7% |
| $35,169 - $45,808 | $417,394,917 | $2,241,576 | 6.5% |
| $45,809 - $58,014 | $465,046,347 | $2,457,151 | 7.1% |
| $58,015 - $73,668 | $526,644,412 | $2,904,651 | 8.4% |
| $73,669 - $95,360 | $641,957,246 | $3,436,714 | 10.0% |
| $95,361 - $127,780 | $802,412,748 | $3,905,006 | 11.4% |
| $127,781 - $183,475 | $988,123,559 | $4,134,629 | 12.0% |
| $183,476 & Over | $2,041,065,136 | $9,594,722 | 27.9% |
| **Nonresidents** | $1,605,124,031 | $1,018,597 | 3.0% |
| **All** | **$8,454,900,000** | **$34,400,000** | **100%** |

## 4.1.10 Textbooks Required for School Use

Minnesota Statutes, Section 297A.67, Subd. 13 and 13a

A sales tax exemption is allowed for sales of textbooks and other instructional materials required for a course of study at a public or private school, college, university, business school, or trade school if they are purchased by students enrolled at the institution. Qualifying instructional materials include interactive CDs, tapes, computer software, digital textbooks, digital audio works, and digital audiovisual works.

This provision was enacted in 1973 and was extended to instructional materials in 2002. When the sales tax was extended to digital books in 2013, this exemption was expanded to include digital textbooks. The exemption for qualifying instructional materials was extended to include digital audio works and digital audiovisual works in 2014.

Approximately 378,200 students attended Minnesota post-secondary schools in the 2022–2023 school year.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.869%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $7,300,000 | $7,100,000 | $7,000,000 | $6,900,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $402,948 | 5.5% |
| $15,545 - $24,961 | $321,365,571 | $377,368 | 5.2% |
| $24,962 - $35,168 | $369,752,647 | $410,055 | 5.6% |
| $35,169 - $45,808 | $417,394,917 | $437,067 | 6.0% |
| $45,809 - $58,014 | $465,046,347 | $472,091 | 6.5% |
| $58,015 - $73,668 | $526,644,412 | $502,286 | 6.9% |
| $73,669 - $95,360 | $641,957,246 | $608,388 | 8.3% |
| $95,361 - $127,780 | $802,412,748 | $842,684 | 11.5% |
| $127,781 - $183,475 | $988,123,559 | $1,201,666 | 16.5% |
| $183,476 & Over | $2,041,065,136 | $1,829,291 | 25.1% |
| **Nonresidents** | $1,605,124,031 | $216,156 | 3.0% |
| **All** | **$8,454,900,000** | **$7,300,000** | **100.0%** |

### 4.1.11 Personal Computers Required for School Use

Minnesota Statutes, Section 297A.67, Subd. 14

Personal computers and related software which are sold or leased to students by educational institutions are exempt if the purchase or lease is required as a condition of enrollment. The exemption applies only to sales by the school to its students, including a public or private school, college, university, business school, or trade school.

This exemption was enacted in 1994 and was last modified in 2006.

Approximately 8,000 students benefited from this exemption in the 2022–2023 school year.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $500,000 | $500,000 | $500,000 | $600,000 |

### 4.1.12 *De Minimis* Use Tax Exemption for Individuals

Minnesota Statutes, Section 297A.67, Subd. 21

Purchases that would otherwise be subject to the use tax are exempt if they are made by an individual for personal use, and total purchases subject to use tax do not exceed $770 in the calendar year. If such purchases exceed $770, the entire amount is subject to tax.

A 2018 federal court case resulted in sales tax registration, collection, and remittance requirements being imposed on out-of-state retailers, which reduced use tax liabilities.

This exemption was enacted in 1996.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.868%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $8,800,000 | $9,900,000 | $11,100,000 | $12,600,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $347,094 | 3.9% |
| $15,545 - $24,961 | $321,365,571 | $418,724 | 4.8% |
| $24,962 - $35,168 | $369,752,647 | $478,243 | 5.4% |
| $35,169 - $45,808 | $417,394,917 | $535,086 | 6.1% |
| $45,809 - $58,014 | $465,046,347 | $595,029 | 6.8% |
| $58,015 - $73,668 | $526,644,412 | $674,429 | 7.7% |
| $73,669 - $95,360 | $641,957,246 | $817,126 | 9.3% |
| $95,361 - $127,780 | $802,412,748 | $1,018,752 | 11.6% |
| $127,781 - $183,475 | $988,123,559 | $1,248,874 | 14.2% |
| $183,476 & Over | $2,041,065,136 | $2,406,073 | 27.3% |
| **Nonresidents** | $1,605,124,031 | $260,571 | 3.0% |
| **All** | **$8,454,900,000** | **$8,800,000** | **100%** |

## 4.1.13 Motor Fuels

Minnesota Statutes, Section 297A.68, Subd. 19(1)

Petroleum products taxed under the motor fuels excise taxes in Minnesota Statutes, Chapter 296A, are exempt from the sales and use tax. The exemption applies to gasoline and special fuel for highway, aviation, marine, snowmobile, or all-terrain vehicle use.

This exemption was enacted in 1967 and was last modified in 1987.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.333%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $723,500,000 | $659,300,000 | $624,400,000 | $613,100,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $28,360,619 | 3.9% |
| $15,545 - $24,961 | $321,365,571 | $34,370,932 | 4.8% |
| $24,962 - $35,168 | $369,752,647 | $39,804,128 | 5.5% |

## 4.1.14 Residential Heating Fuels

Minnesota Statutes, Section 297A.67, Subd. 15

An exemption from the sales and use tax applies to all fuel oil, coal, wood, steam, hot water, propane gas, and liquefied petroleum gas sold to residential customers for residential use. Purchases of natural gas by residential customers who use natural gas for their primary source of residential heat are exempt for the six billing months of November through April. Likewise, the purchase of electricity is exempt for six months for customers using electricity as the primary source of residential heat.

This exemption was enacted in 1978 and was expanded in 1984 to include hot water.

**Objective Statement:** The objective of the Heating Fuel and Utility Service tax exemptions is to lessen the effective tax burden of lower-income households and reduce the regressivity of the sales and use tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.726%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $187,900,000 | $189,700,000 | $199,100,000 | $204,600,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $12,230,732 | 6.5% |
| $15,545 - $24,961 | $321,365,571 | $13,482,371 | 7.2% |

## 4.1.15 Residential Water Services

Minnesota Statutes, Section 297A.67, Subd. 16

The furnishing of water for residential use is exempt from the Minnesota sales and use tax.

This provision was enacted in 1979.

**Objective Statement:** The objective of the Heating Fuel and Utility Service tax exemptions is to lessen the effective tax burden of lower-income households and reduce the regressivity of the sales and use tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.854%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $25,500,000 | $27,200,000 | $28,900,000 | $30,700,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $1,564,034 | 6.1% |
| $15,545 - $24,961 | $321,365,571 | $1,725,320 | 6.8% |
| $24,962 - $35,168 | $369,752,647 | $1,870,961 | 7.3% |

| $95,361 - $127,780 | $802,412,748 | $3,157,175 | 12.4% |
| $127,781 - $183,475 | $988,123,559 | $3,602,235 | 14.1% |
| $183,476 & Over | $2,041,065,136 | $4,484,232 | 17.6% |
| **Nonresidents** | $1,605,124,031 | $0 | 0.0% |
| **All** | **$8,454,900,000** | **$25,500,000** | **100%** |

## 4.1.16 Sewer Services

Minnesota Statutes, Section 297A.61, Subd. 3(g)

The furnishing of sewer services is exempt from the Minnesota sales and use tax.

Sewer service has never been subject to the sales and use tax.

**Objective Statement:** The objective of the Heating Fuel and Utility Service tax exemptions is to lessen the effective tax burden of lower-income households and reduce the regressivity of the sales and use tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.789%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $107,300,000 | $111,600,000 | $116,100,000 | $120,800,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $5,339,931 | 5.0% |
| $15,545 - $24,961 | $321,365,571 | $5,883,435 | 5.5% |
| $24,962 - $35,168 | $369,752,647 | $6,582,232 | 6.1% |

| $45,809 - $58,014 | $465,046,347 | $7,899,673 | 7.4% |
| $58,015 - $73,668 | $526,644,412 | $8,761,661 | 8.2% |
| $73,669 - $95,360 | $641,957,246 | $10,419,593 | 9.7% |
| $95,361 - $127,780 | $802,412,748 | $12,715,171 | 11.9% |
| $127,781 - $183,475 | $988,123,559 | $15,157,781 | 14.1% |
| $183,476 & Over | $2,041,065,136 | $27,296,464 | 25.4% |
| **Nonresidents** | $1,605,124,031 | $0 | 0.0% |
| **All** | **$8,454,900,000** | **$107,300,000** | **100%** |

## 4.1.17 Used Manufactured Homes

Minnesota Statutes, Section 297A.67, Subd. 20

The sale of a manufactured home to be used as a residence is exempt from the sales and use tax unless it is the first retail sale of the home in Minnesota.

Generally, the first sale of a manufactured home for residential use in Minnesota is taxed at 65% of the dealer's cost (Item 4.4.01). The estimates measure the difference between the exemption and taxation at 65% of the dealer's cost.

This provision was enacted in 1984.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $900,000 | $900,000 | $1,000,000 | $1,000,000 |

## 4.1.18 Selected Services

Minnesota Statutes, Section 297A.61, Subd. 3

The inclusion of services in the concept of the tax base for the sales tax is subject to debate. Although the primary focus of the sales tax has been tangible personal property, a number of services are taxable, and the sales tax has been extended to additional services since its enactment. The list of services on the next page is not intended to be all-inclusive.

When the sales tax was enacted in 1967, some services were taxable, including local telephone service, gas and electric service, and preparing and serving meals. Over the years the tax was extended to several types of services. In 2013, the tax was imposed on the repair of commercial, industrial, electronic, and precision equipment for businesses effective July 1, 2013, and to certain warehousing and storage services for businesses effective April 1, 2014. The 2013 changes were repealed in 2014, effective April 1, 2014.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 4.360%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $4,878,000,000 | $5,069,000,000 | $5,264,000,000 | $5,453,000,000 |

**Incidence:** The following table shows the incidence of the tax expenditure, based on the 2021 incidence database.

| Resident by Population Decile | Sales & Use Tax | Tax Change | Share of Tax Change |
|---|---|---|---|
| $15,544 & Under | $275,989,456 | $191,779,718 | 3.9% |
| $15,545 - $24,961 | $321,365,571 | $233,762,676 | 4.8% |
| $24,962 - $35,168 | $369,752,647 | $270,056,264 | 5.5% |

## 4.1.19 Capital Equipment

Minnesota Statutes, Sections 297A.68, Subd. 5

Certain capital equipment purchases are exempt from the sales and use tax. The capital equipment must be used in Minnesota by the purchaser or lessee for manufacturing, fabricating, mining, or refining tangible personal property to be sold ultimately at retail. Capital equipment must be essential to the integrated production process, including the operation or control of the production equipment. Repair and replacement parts and accessories are included in the exemption. The exemption also applies to materials used to construct and install the equipment and to construct special purpose buildings used in the production process.

The exemption does not apply to motor vehicles subject to the motor vehicle sales tax, machinery, or equipment used to receive or store raw materials, pollution control equipment, and other equipment used for nonproduction purposes. It also does not apply to machinery or equipment installed by a contractor as part of an improvement to real property.

The exemption for capital equipment in new or expanding industries was enacted in 1989 and replaced the reduced rate of 4% enacted in 1984. The exemption was extended to mining in 1990 and to online data retrieval equipment in 1993. Replacement equipment and repair and replacement parts and accessories were fully taxable until 1994 when a phasedown of the tax rate over four years was enacted. In 1997, the reduced rate was changed to a complete exemption. In 2013, the administration of the exemption was changed from a refund process to an exemption at the time of sale. The effective date of the 2013 change was September 1, 2014, but in 2014 it was delayed to July 1, 2015.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.659%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $274,200,000 | $277,300,000 | $287,400,000 | $298,200,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.1.20 Accessory Tools

Minnesota Statutes, Section 297A.68, Subd. 2(a)(6)

This provision exempts from the sales and use tax accessory tools, equipment, and other items used in the production of personal property intended to be sold ultimately at retail. The exemption applies to detachable units with an ordinary useful life of less than twelve months that are used in producing a direct effect upon the product. Exempt items include drill bits, grinding and abrasive wheels, saw blades, printing plates, dies, jigs, taps, patterns, and molds.

This exemption was enacted in 1973.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.864%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $13,300,000 | $13,400,000 | $13,500,000 | $13,700,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.1.21 Telecommunications Equipment

Minnesota Statutes, Sections 297A.68, Subd. 35a

An exemption from the sales and use tax is allowed for telecommunications, cable television, and direct satellite equipment purchased or leased for use directly by a telecommunications, cable television, or direct satellite service provider in providing telecommunications services that are ultimately sold at retail. The exemption applies regardless of whether purchases are made by the owner, a contractor, or a subcontractor.

The exemption includes machinery, equipment, and fixtures used in receiving, initiating, amplifying, processing, transmitting, retransmitting, recording, switching, or monitoring telecommunications services. It also includes repair and replacement parts and accessories for qualifying equipment. The exemption does not include wire, cable, or poles.

This exemption was enacted in 2001. In 2013, the exemption was repealed, effective July 1, 2013. In 2014, the exemption was reinstated, effective April 1, 2014. The exemption was expanded to include fiber and conduit in 2017.

**Objective Statement:** The tax expenditure objective of the Telecommunications Equipment Exemption is to reduce potential tax pyramiding and promote transparency in the tax system by exempting telecommunications equipment that is used to provide taxable telecommunications services. The tax expenditure objective of the 2017 amendment to the Telecommunications Equipment Exemption that expanded the definition of "telecommunications or pay television machinery and equipment" to include fiber and conduit is to increase the deployment and accessibility of broadband internet.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.825%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $61,400,000 | $63,400,000 | $65,300,000 | $67,300,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax.. (See the table in the Chapter 4 introduction).

## 4.1.22 Special Tooling

Minnesota Statutes, Sections 297A.68, Subd. 6

Special tooling is exempt from the sales and use tax. Special tooling is defined as tools, dies, jigs, patterns, gauges, and other special tools which have value and use only for the buyer and for the use for which they are made. To qualify, items must be produced in accordance with buyer specifications. Items purchased from inventory or ordered from a catalog or other sales literature do not qualify. The estimates exclude items that also qualify for the accessory tools exemption in Item 4.1.20.

In 1994, the exemption for special tooling was enacted and replaced a reduced rate enacted in 1984.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.870%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $6,100,000 | $6,200,000 | $6,300,000 | $6,500,000 |

### 4.1.23 Resource Recovery Equipment

Minnesota Statutes, Section 297A.68, Subd. 24

Equipment used to process solid or hazardous waste at a resource recovery facility is exempt from the sales and use tax. The exemption includes pollution control equipment at a facility that burns refuse-derived fuel or mixed municipal solid waste as its primary fuel.

This provision was enacted in 1984 and last modified in 1996.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $300,000 | $200,000 | $100,000 | $100,000 |

### 4.1.24 Used Motor Oil

Minnesota Statutes, Section 297A.67, Subd. 18

Sales of used motor oil are exempt from the sales and use tax.

This exemption was enacted in 1988.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $200,000 | $200,000 | $200,000 | $200,000 |

### 4.1.25 Mining Production Materials

Minnesota Statutes, Section 297A.68, Subd. 4

Minnesota Rules, Part 8130.9600, Subpart 4

Sales of mill liners, grinding rods, and grinding balls to mining companies are exempt from the sales and use tax. The items must be substantially consumed in the production of taconite or other ores, metals, or minerals. The estimates do not include items that would also qualify as accessory tools (Item 4.1.20).

This exemption was enacted in 1971 for the production of taconite. In 2011, it was extended to include the production of other ores, metals, or minerals.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.870%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $5,800,000 | $6,200,000 | $6,400,000 | $6,400,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.1.26 Wind Energy Conversion Systems

Minnesota Statutes, Sections 297A.68, Subd. 12

Wind energy conversion systems and the materials used to manufacture, install, construct, repair, or replace them are exempt from the sales and use tax if the systems are used as an electric power source. Wind energy conversion systems include any device which converts wind energy to a form of usable energy, such as a wind charger, windmill, or wind turbine. The estimates do not include purchases that would also qualify as capital equipment (Item 4.1.19).

This exemption was first enacted in 1992, and expired June 30, 1996. In 1997, it was re-enacted for one year. The exemption was made permanent in 1998.

**Objective Statement:** The objective of the Wind Energy Conversion general sales and use tax exemption is to incentivize and promote the implementation and utilization of wind energy systems in Minnesota. The exemption is meant to achieve a greater percentage of renewable energy contributions to the state's electricity fuel generation mix.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.866%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $11,300,000 | $11,600,000 | $12,000,000 | $12,500,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.1.27 Solar Energy Systems

Minnesota Statutes, Section 297A.67, Subd. 29

Solar energy systems are exempt from the sales and use tax. A solar energy system is a set of devices whose primary purpose is to collect solar energy and convert and store it for useful purposes including heating and cooling buildings or other energy-using processes, or to produce generated power by means of collecting, transferring, or converting solar-generated energy.

This exemption was enacted in 2005.

**Objective Statement:** The objective of the Solar Energy Systems general sales and use tax exemption is to incentivize and promote the implementation and utilization of solar energy systems in Minnesota. The exemption is meant to achieve a greater percentage of renewable energy contributions to the state's electricity fuel generation mix.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.868%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $9,000,000 | $9,300,000 | $10,000,000 | $10,700,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.1.28 Air Flight Equipment

Minnesota Statutes, Section 297A.82, Subd. 4(d)

The sale of air flight equipment to airline companies is exempt from the sales and use tax. Air flight equipment includes airplanes, parts necessary for the repair and maintenance of such equipment, and flight simulators. The exemption applies to purchases made by companies engaged in the business of air commerce.

This exemption was enacted in 1967 and was last modified in 1996.

This exemption primarily benefits the 34 airline companies subject to the air flight property tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.843%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $39,500,000 | $40,800,000 | $39,500,000 | $37,900,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.1.29 Repair Parts and Equipment for General Aviation Aircraft

Minnesota Statutes, Section 297A.82, Subd. 4(f)

Equipment and parts necessary for repair and maintenance of general aviation aircraft, and equipment and parts for upgrading or improving such aircraft, are exempt from the sales and use tax. A separate exemption applies to purchases by airline companies which are subject to the air flight property tax (Item 4.1.28).

This exemption was enacted in 2013.

**Objective Statement:** The objective of the Repair Parts and Equipment for General Aviation Aircraft Exemption is to encourage the growth of the aviation services industry in the state. See Minnesota Session Law – 2013, Regular Session, Ch. 143 – H.F. No. 677, Art. 13, Sec. 22, Subd. 3.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.872%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $3,600,000 | $3,700,000 | $3,900,000 | $4,000,000 |

## 4.1.30 Large Ships

Minnesota Statutes, Section 297A.68, Subd. 17

Vessels with a gross registered tonnage of at least 3,000 tons are exempt from the sales and use tax.

This exemption was enacted in 1992.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $100,000 | $100,000 | $100,000 | $100,000 |

### 4.1.31 Repair and Replacement Parts for Ships and Vessels

Minnesota Statutes, Section 297A.68, Subd. 17

An exemption from the sales and use tax is allowed for lubricants and repair, replacement, and rebuilding parts and materials for ships and vessels used principally in interstate or foreign commerce.

This exemption was enacted in 1990 and was last modified in 1991.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $100,000 | $100,000 | $100,000 | $100,000 |

### 4.1.32 Petroleum Products Used by Transit Systems

Minnesota Statutes, Section 297A.68, Subd. 19(3)

An exemption from the sales and use tax is allowed for purchases of petroleum products by a transit system receiving financial assistance through the Metropolitan Council or the Public Transit Subsidy Program.

This provision was enacted in 1992.

This exemption applies to 35 transit systems.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.873%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $2,500,000 | $2,400,000 | $2,300,000 | $2,200,000 |

### 4.1.33 Petroleum Products Used by Medical Transportation Providers

Minnesota Statutes, Sec. 256B.0625, Subdivision 17 and Sec. 297A.68, Subd. 19(3), (7), and (8)

An exemption from the sales and use tax applies to gasoline or special fuel purchased by qualifying medical transportation providers. The exemption applies to providers of transportation services that are covered under the Medical Assistance program in Minnesota Statutes, Section 256B.0625, Subd. 17. The exemption also applies to providers of transportation services to recipients of Medical Assistance home and community-based services waivers enrolled in day programs and to providers of medical or dental services by a federally qualified health center with a mobile medical unit.

This exemption was enacted in 2001. In 2012, it was extended to the services provided in connection with day programs and to the services provided with a mobile medical unit.

An estimated 84 providers qualified for this exemption in fiscal year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $600,000 | $600,000 | $600,000 | $600,000 |

### 4.1.34 Petroleum Products Used in Passenger Snowmobiles

Minnesota Statutes, Section 297A.68, Subd. 19(5)

An exemption from the sales and use tax is allowed for petroleum products used in a passenger snowmobile for off-highway business use as part of the operation of a resort. The snowmobile must have an enclosed section seating four to twelve passengers.

This provision was enacted in 1993.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

### 4.1.35 Special Fuel Petroleum Products Used for Off-Highway Business Uses

Minnesota

Minnesota Statutes, Section 297A.68, Subd. 19(9)

An exemption from the sales and use tax is allowed for certain off-highway business uses of special fuels already exempt from the motor fuels excise tax. The fuels exempted are products to:

- Power a refrigeration unit with a separate engine on a licensed motor vehicle;
- Power an unlicensed motor vehicle that is used primarily to move semi-trailers; or
- Operate a power take-off unit or auxiliary engine on a licensed motor vehicle.

This provision was enacted in 2017.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.872%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $4,300,000 | $4,100,000 | $3,800,000 | $3,700,000 |

### 4.1.36 Ski Area Equipment

Minnesota Statutes, Section 297A.68, Subd. 34

An exemption from the sales and use tax is allowed for tangible personal property used or consumed primarily and directly for tramways at ski areas or in snowmaking and snow grooming at ski hills, ski slopes, or ski trails. Included in the exemption are machinery, equipment, fuel, electricity, and water additives used in the production and maintenance of machine-made snow.

This exemption was enacted in 2000.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $500,000 | $500,000 | $600,000 | $600,000 |

## 4.1.37 Snowmobile Trail-Grooming Equipment for Nonprofit Clubs

Minnesota Statutes, Section 297A.70, Subd. 19

An exemption from the sales and use tax is allowed for the sale of tangible personal property to nonprofit snowmobile clubs used primarily for the grooming of state or grant-in-aid snowmobile trails. The exemption applies to grooming machines, attachments, other associated accessories, and repair parts. A nonprofit snowmobile club is eligible for the exemption if it received a state maintenance and grooming grant from the Minnesota Department of Natural Resources in the current year or in the previous three-year period.

This exemption was enacted in 2013.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $500,000 | $500,000 | $500,000 | $500,000 |

## 4.1.38 Logging Equipment

Minnesota Statutes, Section 297A.61, Subd. 37 and Section 297A.69, Subd. 4(2)

Equipment used for commercial logging is exempt from the sales and use tax.

A preferential tax rate for logging equipment was enacted in 1984 at 4% and was reduced to 2% in 1985. In 1991, the rate was increased to 2.5% when the general rate was increased by 0.5%. In 1998, the rate was phased out over two years, with the full exemption effective on July 1, 2000.

This provision was last modified in 2006.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,000,000 | $1,000,000 | $1,000,000 | $1,000,000 |

## 4.1.39 Farm Machinery

Minnesota Statutes, Sections 297A.69, Subd. 4(1)

All farm machinery is exempt from the Minnesota sales and use tax. Qualifying farm machinery includes machinery, equipment, implements, and accessories used directly and principally in the production for sale of agricultural products, including livestock. Irrigation systems also qualify for exemption.

A reduced rate for farm machinery was first enacted in 1981 at 4% when the general rate was 5%. In 1985, the rate was reduced to 2%, and in 1991 it was increased to 2.5% when the general rate was increased by 0.5%. Used farm machinery was exempted in 1994 as a temporary provision, and the exemption was made permanent in 1997. In 1998, the rate on new equipment was phased out over two years, with the full exemption effective on July 1, 2000.

The definition of farm machinery eligible for exemption has been expanded several times and was last modified in 2006.

**Objective Statement:** The objective of the Farm Machinery exemption is to reduce potential tax pyramiding and promote transparency in the tax system by exempting machinery and equipment used directly in the agricultural production of tangible personal property ultimately intended to be sold at retail.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.823%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $64,200,000 | $63,000,000 | $63,700,000 | $65,200,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.1.40 Repair and Replacement Parts for Farm Machinery

Minnesota Statutes, Section 297A.69, Subd. 3

Repair and replacement parts used for maintenance or repair of farm machinery and logging equipment, except tires, are exempt from the sales and use tax. The part must replace a part assigned a specific or generic part number by the manufacturer of the machinery.

This exemption was enacted in 1985 and was last modified in 2003.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.857%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $22,300,000 | $22,100,000 | $22,700,000 | $23,300,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

### 4.1.41 Petroleum Products Used to Improve Agricultural Land

Minnesota Statutes, Section 297A.68, Subd. 19(2)

Petroleum products used to improve agricultural land are exempt from the sales and use tax. Qualifying products are those used in constructing, maintaining, and repairing drainage ditches, tile drainage systems, grass waterways, water impoundment, and other erosion control structures.

This provision was enacted in 1985.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $100,000 | $100,000 | $100,000 | $100,000 |

### 4.1.42 Farm Conservation Programs

Minnesota Statutes, Section 297A.69, Subd. 2(1)

Seeds, trees, fertilizers, and herbicides purchased by farmers for use in a federal or state conservation program are exempt from the sales and use tax. The programs include the federal Conservation Reserve Program and the state Reinvest in Minnesota Program.

This provision was enacted in 1991.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,500,000 | $1,500,000 | $1,600,000 | $1,700,000 |

### 4.1.43 Horses

Minnesota Statutes, Section 297A.69, Subd. 6(a)

Horses are exempt from the sales and use tax.

This exemption was enacted in 1994 and was extended in 1995 to include racehorses. Racehorses had previously been exempt from 1984 to 1987.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,400,000 | $1,400,000 | $1,400,000 | $1,400,000 |

## 4.1.44 Prizes at Carnivals and Fairs

Minnesota Statutes, Section 297A.68, Subd. 29

An exemption from the sales and use tax is allowed for items which will be given as prizes to players in games of skill or chance conducted at events such as community festivals, fairs, and carnivals lasting fewer than six days. The exemption does not apply to property awarded as prizes in connection with the state lottery or lawful gambling (Chapter 11).

This exemption was enacted in 1999.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $300,000 | $300,000 | $300,000 | $300,000 |

## 4.1.45 Coin-Operated Amusement Devices

Minnesota Statutes, Section 297A.68, Subd. 3a

An exemption from the sales and use tax is allowed for coin-operated amusement devices when purchased by retailers for use in a place of amusement. This provision includes items such as pool tables, video games, batting cages, rides, photo booths, and jukeboxes.

This provision was enacted in 2014.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $500,000 | $500,000 | $500,000 | $500,000 |

## 4.1.46 Television Commercials

Minnesota Statutes, Section 297A.68, Subd. 30

An exemption from the sales and use tax applies to tangible personal property primarily used or consumed in the production of a television commercial, including preproduction and postproduction. The exemption includes the rental or lease of equipment used for preproduction or production of a television commercial. The sale of the commercial itself is also exempt, regardless of the medium in which it is transferred.

The exemption was enacted in 1999.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $700,000 | $700,000 | $700,000 | $700,000 |

## 4.1.47 Advertising Materials

Minnesota Statutes, Section 297A.68, Subd. 11
Minnesota Rules, Part 8130.9250, Subpart 11

An exemption from the sales and use tax applies to the sale of advertising and promotional materials which are stored in Minnesota and subsequently shipped out-of-state by the purchaser for use outside Minnesota. Mailing and reply envelopes and cards and other shipping materials used in connection with the advertising and promotional materials are included in the exemption.

This exemption was enacted in 1973 and was last modified in 2008.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.869%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $8,000,000 | $7,800,000 | $7,600,000 | $7,700,000 |

## 4.1.48 Court Reporter Documents

Minnesota Statutes, Section 297A.68, Subd. 22

An exemption from the sales and use tax is allowed for transcripts or copies of transcripts of verbatim testimony produced and sold by court reporters. The exemption applies only to documents sold to parties to the legal proceedings or to the representatives of those parties.

This exemption was enacted in 1997.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,700,000 | $1,900,000 | $2,000,000 | $2,100,000 |

## 4.1.49 Patent, Trademark, and Copyright Drawings

Minnesota Statutes, Section 297A.68, Subd. 33

An exemption from the sales and use tax is allowed for a drawing, diagram, or similar document if produced and sold by a person who prepares illustrative documents required for intellectual property applications. The document must be for use in a patent, trademark, or copyright application to be filed with a government agency, an application to the federal Food and Drug Administration for approval of a medical device, or a judicial or quasi-judicial proceeding relating to the validity of or legal rights under a patent, trademark, or copyright.

This exemption was enacted in 2000.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $300,000 | $300,000 | $300,000 | $300,000 |

## 4.1.50 Packing Materials

Minnesota Statutes, Section 297A.68, Subd. 16

Packing materials used to pack and ship household goods are exempt from the sales and use tax. The ultimate destination of the goods must be outside Minnesota, and the goods must not be returned to Minnesota except in the course of interstate commerce.

This exemption was enacted in 1973.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

## 4.1.51 Property for Business Use Outside Minnesota

Minnesota Statutes, Section 297A.68, Subd. 13

Tangible personal property is exempt from the sales and use tax if it is used in a trade or business and is shipped or transported outside Minnesota by the purchaser without intermediate use in Minnesota. The property either must not be subject to sales tax in the state or country to which it is transported or must be used as part of a maintenance contract.

This provision was enacted in 1967 and was last modified in 1988.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

## 4.1.52 Automatic Fire-Safety Sprinkler Systems

Minnesota Statutes, Section 297A.68, Subd. 23

Automatic fire-safety sprinkler systems are exempt from the sales and use tax if installed in existing buildings, including multifamily residential property containing four or more units, hotels, motels, and lodging houses containing four or more units, and office buildings or mixed-use commercial-residential buildings if at least one story capable of occupancy is at least 75 feet above the ground.

This provision was enacted in 1992 and was last modified in 1993.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $100,000 | $100,000 | $100,000 | $100,000 |

*Less Than $50,000

## 4.1.53 Firefighter Personal Protective Equipment

Minnesota Statutes, Section 297A.70, Subd. 3(a)(5) and (b)

An exemption from the sales and use tax is allowed for firefighter personal protective equipment purchased or authorized by an organized fire department, fire protection district, or fire company. Purchases of this equipment by a local unit of government are included in Item 4.2.02.

This exemption was enacted in 1994 and amended in 1997.

**Objective Statement:** The objective of the Firefighter Personal Protective Equipment Exemption is to provide state assistance for this public safety function of Minnesota local governments. See Minnesota Session Law – 2011, 1st Special Session, Ch. 7 – HF No. 20, Art. 10, Sec. 7, Subd. (8).

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $100,000 | $100,000 | $100,000 | $100,000 |

## 4.1.54 Building Materials for Residences of Disabled Veterans

Minnesota Statutes, Section 297A.71, Subd. 11

Building materials used to construct or remodel the residence of a disabled veteran are exempt from the sales and use tax. The exemption applies if the project is financed in whole or in part by the U.S. Government in accordance with United States Code, Title 38, Sections 2101 to 2105.

This exemption was enacted in 1971.

**Objective Statement:** The objective of the Building Materials exemption for Residences of Disabled Veterans is to provide specific sales and use tax relief to disabled veterans who have been awarded a federal grant for the construction or remodeling of their homes, ensuring that disabled veterans receive the full financial benefit of the federal program.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

## 4.1.55 Chair Lifts, Ramps, and Elevators in Homesteads

Minnesota Statutes, Section 297A.71, Subd. 12

Chair lifts, ramps, and elevators and the building materials used to install or construct them are exempt from the sales and use tax if they are authorized by a physician and installed in or attached to the owner's homestead. Chair lifts are also exempted under the medical devices exemption as mobility enhancing equipment (Item 4.1.04) and are not included in the estimate.

This exemption was enacted in 1989 and was last modified in 2005 to include chair lifts.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

## 4.1.56 Parts and Accessories to Make Motor Vehicles Disabled Accessible

Minnesota Statutes, Section 297A.67, Subd. 12

Parts, accessories, and labor charges used solely to modify a motor vehicle to make it accessible to a person with a disability are exempt from the sales and use tax. This provision applies to modifications made after a vehicle is purchased. A provision in the motor vehicle sales tax (Item 5.2.02) applies to the purchase price of a vehicle with modifications made prior to purchase.

This exemption was enacted in 1993.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,500,000 | $1,600,000 | $1,600,000 | $1,600,000 |

## 4.1.57 Maintenance of Cemetery Grounds

Minnesota Statutes, Section 297A.67, Subd. 25

Lawn care and related services used in the maintenance of cemetery grounds are exempt from the sales and use tax. The estimates do not include purchases for cemeteries owned by churches or other religious organizations because they are covered under the nonprofit exemption (Item 4.2.04). Likewise, purchases for cemeteries owned by local units of government are not included in the estimates because they are covered under the general local government exemption (Item 4.2.02).

This exemption was enacted in 2000.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $100,000 | $100,000 | $100,000 | $100,000 |

## 4.1.58 Trade-In Allowance

Minnesota Statutes, Section 297A.67, Subd. 26

The amount allowed as a credit against the sales price for tangible personal property taken in trade for resale is exempt from the sales tax.

This provision was enacted in 1967 and was last modified in 2001.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.865%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $11,800,000 | $12,400,000 | $13,100,000 | $13,800,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

*Less Than $50,000

## 4.1.59 Bullion

Minnesota Statutes, Section 297A.67, Subd. 34

The sale of precious metal bullion is exempt from the sales and use tax. The exemption applies to bars or rounds that consist of 99.9% or more by weight of either gold, silver, platinum, or palladium and are marked with weight, purity, and content. The exemption does not apply to jewelry, works of art, scrap metal, or coins.

This exemption was enacted in 2017.

**Objective Statement:** The objective of the Bullion Exemption is to eliminate the difference in tax treatment between the sale of precious metal bullion and the sale of stock, bullion ETFs, bonds, and other investment instruments. See Minnesota Statutes Sec. 297A.67, Subd. 34(c).

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.872%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $3,600,000 | $3,600,000 | $3,600,000 | $3,600,000 |

## 4.1.60 Firearm Storage Units

Minnesota Statutes, Section 297A.67, Subd. 40

Sales of firearm storage units are exempt from sales and use tax. A firearm storage unit is defined as a container that is fully enclosed and locked by a padlock, keylock, combination lock, or similar locking device, and is either specifically designed for the safe storage of firearms or sold for that purpose by a federally licensed firearms dealer.

This exemption was enacted in 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $300,000 | $300,000 | $300,000 | $300,000 |

## *Exemptions—Sales to Particular Purchasers*

### 4.2.01 Local Governments

Minnesota Statutes, Sections 297A.70, Subd. 2 and 3

A general sales tax exemption applies to purchases by school districts, cities, counties, townships and special districts. The exemption also applies to public library systems that are not under the jurisdiction of a city or county. The exemption does not apply to goods or services purchased as inputs to goods and services that are generally provided by a private business, such as a golf course or liquor store.

A general exemption for all local governments was part of the original sales tax law enacted in 1967. In 1992, the general exemption was repealed, and exemptions for school districts, hospitals, nursing homes, libraries, and medical supplies for ambulances were enacted. The exemptions were expanded several times. In 2011, all purchases by townships were exempted, and cities and counties were exempted in 2013, effective January 1, 2014. In 2014, special districts and joint powers boards were exempted effective January 1, 2016, but delayed, in 2015, one year to January 1, 2017.

**Objective Statement:** The objective of the Local Governments Exemption is to provide state assistance for the functions of Minnesota townships not exempted under current law. See Minnesota Session Law – 2011, 1st Special Session, Ch. 7 – HF No. 20, Art. 10, Sec. 7, Subd. (7).

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.508%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| School Districts | $176,200,000 | $181,100,000 | $185,600,000 | $191,100,000 |
| Cities | 129,100,000 | 132,700,000 | 135,900,000 | 140,000,000 |
| Counties | 118,400,000 | 121,700,000 | 124,700,000 | 128,500,000 |
| Townships | 4,500,000 | 4,700,000 | 4,800,000 | 4,900,000 |
| Special Districts | 48,900,000 | 50,200,000 | 51,400,000 | 53,000,000 |
| Total–All Funds | $477,100,000 | $490,400,000 | $502,400,000 | $517,500,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

### 4.2.02 Correctional Facilities Construction Materials

Minnesota Statutes, Section 297A.71, Subd. 3

An exemption from the sales and use tax applies to building materials and supplies used for constructing or improving an adult or juvenile correctional facility by a county or a city. The exemption is administered as a refund. The sales tax is paid at the time of purchase, and the local unit of government applies for a refund of tax paid.

This exemption was first enacted in 1995 as a refund of 20% of the sales and use tax paid. An exemption for the full amount of sales tax was enacted in 1997.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.873%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $2,400,000 | $1,200,000 | $800,000 | $400,000 |

## 4.2.03 Nonprofit Organizations

Minnesota Statutes, Section 297A.70, Subd. 4 and 20
Minnesota Rules, Part 8130.6200

The sale of tangible personal property and utility services to charitable, religious, or educational organizations is exempt from the sales and use tax. The property must be used in the performance of the organization's charitable, religious, or educational functions. Nonprofit senior citizens' groups are also included in the exemption.

Nonprofit hospitals and surgical centers are estimated separately in Item 4.2.04, and nonprofit nursing homes and boarding care homes are estimated separately in Item 4.2.05.

This provision was enacted in 1967. In 1983, the exemption was extended to the purchase of utilities. In 1989, the leasing of motor vehicles was excluded from the exemption. This provision was last modified in 2009.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.758%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $145,900,000 | $149,600,000 | $153,200,000 | $157,200,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.2.04 Hospitals and Outpatient Surgical Centers

Minnesota Statutes, Section 297A.70, Subd. 7

An exemption from the sales and use tax is allowed for sales to hospitals and outpatient surgical centers if the purchases are used in providing hospital services or outpatient surgical services. The hospital or outpatient surgical center must be organized and operated for charitable purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code and must be licensed under Minnesota Statutes, Chapter 144.

Hospitals operated by local units of government are included in the estimates for Item 4.2.02.

Hospitals were exempt under these provisions for nonprofit organizations when the sales tax was enacted in 1967. In 1997, a separate exemption for hospitals was enacted, and it was extended to outpatient surgical centers in 1999. In 2013, critical access dental providers were added to the exemption.

There are 99 hospitals and two surgical centers that qualify for this exemption.

**Objective Statement:** The objective of the Hospitals and Outpatient Surgical Centers Exemption is to assist critical access dental providers in defraying the overall cost of the services they provide to underserved communities. See Minnesota Session Law – 2013, Regular Session, Ch. 143 – H.F. No. 677, Art. 13, Sec. 22, Subd. 10.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.706%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $213,500,000 | $225,500,000 | $238,100,000 | $251,400,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.2.05 Nursing Homes and Boarding Care Homes

Minnesota Statutes, Section 297A.70, Subd. 18

An exemption from the sales and use tax is allowed for sales to a licensed nursing home or to a boarding care home certified as a nursing facility under Title 19 of the Social Security Act. The facility must be exempt from federal taxation under Section 501(c)(3) of the Internal Revenue Code. It must also be certified to participate in the medical assistance program under Title 19 of the Social Security Act or it must certify to the Commissioner of Revenue that it does not discharge residents due to inability to pay.

Nonprofit nursing homes were generally exempt under these provisions for nonprofit organizations when the sales tax was enacted in 1967. In 2013, a separate exemption for nursing homes and boarding care homes was enacted.

**Objective Statement:** The objective of the Nursing Homes and Boarding Care Homes Exemption is to clarify that an existing exemption for these facilities is not affected by a recent property tax case related to defining nonprofit organizations engaged in charitable activities. See Minnesota Session Law – 2013, Regular Session, Ch. 143 – H.F. No. 677, Art. 13, Sec. 22, Subd. 11.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.867%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $9,600,000 | $9,500,000 | $9,400,000 | $9,400,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.2.06 Veterans' Organizations

Minnesota Statutes, Section 297A.70, Subd. 5

Sales of tangible personal property or services to an organization of military service veterans or an auxiliary unit are exempt from the sales and use tax. The group must be organized in Minnesota and exempt from federal taxation under Section 501(c)(19) of the Internal Revenue Code. The property or service must be used for charitable, civic, educational, or nonprofit purposes and not for social, recreational, pleasure, or profit purposes.

This provision was enacted in 1980 and amended in 2013 to include services.

Approximately 830 organizations qualify for this exemption.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $600,000 | $600,000 | $600,000 | $600,000 |

## 4.2.07 Construction Materials for Low-Income Housing

Minnesota Statutes, Section 297A.71, Subd. 23

Materials and supplies used or consumed in, and equipment incorporated into, the construction, improvement, or expansion of qualified low-income housing projects are exempt from the sales and use tax. The exemption applies regardless of whether the purchases are made by the owner of the facility or a contractor. The exemption is administered as a refund.

The owner of the project must be a public housing agency, a housing and redevelopment authority of a political subdivision, an entity exercising the powers of a housing and redevelopment authority, a qualifying nonprofit corporation, or an owner entity qualifying under specified federal regulations. The project must qualify under one of the specified state or federal low-income housing programs. If a portion of a project is for other than low-income housing, the exemption applies only for the portion used for low-income housing.

This exemption was enacted in 2001 and was last modified in 2010.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.871%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $4,500,000 | $4,600,000 | $4,700,000 | $4,800,000 |

## 4.2.08 Ambulances Leased to Private Ambulance Services

Minnesota Statutes, Section 297A.70, Subd. 6

The lease of a motor vehicle for use as an ambulance by a licensed ambulance service is exempt from the sales and use tax. The estimates include only leases by private ambulance services because leases by local governments are also exempt under another provision (Item 4.2.02).

This provision was enacted in 1990.

**Objective Statement:** The objective of the Ambulances Leased to Private Ambulance Services Exemption is to provide state assistance to local governments and other organizations that provide emergency response services. See Minnesota Session Law – 2011, 1st Special Session, Ch. 7 – HF No. 20, Art. 10, Sec. 7, Subd. (9).

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $100,000 | $100,000 | $100,000 | $100,000 |

## 4.2.09 Certain Purchases by Private Ambulance Services

Minnesota Statutes, Sections 297A.67, Subd. 28 and 297A.68, Subd. 19(4)

An exemption from the sales and use tax is allowed for purchases by a licensed ambulance service of supplies and equipment used to provide medical care, repair and replacement parts for ambulances and emergency response vehicles, and petroleum products. Because purchases by municipal ambulance services are exempt under another provision (Item 4.2.02), the estimates include only purchases by private ambulance services.

These provisions were enacted in 2001. In 2008, the exemption was extended to include repair and replacement parts for vehicles that are equipped and specifically intended for emergency response.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $300,000 | $300,000 | $300,000 | $300,000 |

## 4.2.10 Enterprise Zone Construction Materials

Minnesota Statutes, Section 469.171, Subd. 1(1)

An exemption from the sales and use tax may be authorized by the Commissioner of Employment and Economic Development for purchases of construction materials or equipment for use in a designated border city enterprise zone. Restrictions apply to the type of facility eligible for the exemption.

This provision was enacted in 1983. Zones other than border city zones expired in 1996. In 2017, the number of eligible cities was increased to six.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

*Less Than $50,000

### 4.2.11 Waste Recovery Facilities

Minnesota Statutes, Section 297A.71, Subd. 34

Materials and supplies used or consumed in, and equipment incorporated into, the construction, improvement, or expansion of a waste-to-energy resource recovery facility are exempt from the sales and use tax. To qualify, the facility must use biomass or mixed municipal solid waste as a primary fuel to generate steam or electricity.

The exemption was enacted in 2005.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $400,000 | $300,000 | $200,000 | $200,000 |

### 4.2.12 Data Center Equipment

Minnesota Statutes, Section 297A.68, Subd. 42

Enterprise information technology equipment and computer software for use in a qualified data center are exempt from the sales and use tax. Electricity used or consumed in the operation of a qualified data center is also exempt.

To qualify, a data center must:

- Be comprised of one or more buildings consisting of at least 25,000 square feet.
- Must have a total cost of construction or refurbishment, investment in enterprise information technology equipment, and computer software of at least $30 million within a 48-month period. For a refurbished data center, the investment must be at least $50 million within a 48-month period.
- The facility that houses the enterprise technology equipment must have uninterruptible power supplies, generator backup power, or both sophisticated fire suppression and prevention systems, and enhanced security, as specified.

The exemption applies to purchases made within 20 years of the first qualifying purchase. The exemption is administered as a refund.

This exemption was enacted in 2011, effective for sales and purchases made from July 1, 2012, through June 30, 2042. The requirements were modified in 2013.

**Objective Statement:** The objective of qualified Data Center Equipment sales and use tax exemptions is to create jobs in the construction and data center industries.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.787%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $109,200,000 | $114,200,000 | $115,200,000 | $116,000,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

### 4.2.13 Construction Materials for Certain City Projects

Minnesota Statutes, Sections 297A.71, Subd. 44 and 297A.9905

Materials and supplies used or consumed in, and equipment incorporated into, the construction or improvement of a capital project of regional significance funded partially or wholly by a city of the first class are exempt. To qualify for this exemption, the project must be the construction, expansion, or renovation of a sports facility or convention or civic center and have a total construction cost of at least $40 million within a 24-month period. Funding must be drawn from the excess revenues generated by imposition of a local tax on retail sales.

This provision was enacted in 2012. The exemption was revised in 2017 to include an exemption of up to $2.5 million for certain purchases by a specific city.

**Objective Statement:** The objective of the sales tax exemption for Construction Materials for Certain City Projects is to provide an indirect means of assistance to local governments for capital projects funded wholly or partly by excess local tax revenues imposed under special law.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,100,000 | $300,000 | $0 | $0 |

### 4.2.14 Destination Medical Center

Minnesota Statutes, Section 297A.71, Subd. 48

An exemption from the sales and use tax is allowed for materials and supplies used in, and equipment incorporated into, the construction and improvement of publicly-owned buildings and infrastructure included in the development plan for the destination medical center under Minnesota Statutes, Section 469.43 and financed with public funds. The City of Rochester established, as required, a destination medical center corporation as a nonprofit corporation to provide the city with expertise in preparing and implementing the development plan to establish the city as a destination medical center.

This exemption was enacted in 2013, effective for sales and purchases made after June 30, 2015, and before July 1, 2049.

**Objective Statement:** The objective of the Destination Medical Center Exemption is to reduce city costs for the Destination Medical Center. See Minnesota Session Law – 2013, Regular Session, Ch. 143 – H.F. No. 677, Art. 13, Sec. 22, Subd. 13.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $500,000 | $400,000 | $600,000 | $300,000 |

## 4.2.15 Greater Minnesota Business Expansions

Minnesota Statutes, Section 297A.68, Subd. 44

A sales and use tax exemption applies to purchases of tangible personal property and taxable services by a business that qualifies under the program for expansion of Greater Minnesota businesses in Minnesota Statutes, Section 116J.8738. The exemption also applies to construction materials and supplies used or consumed in, and equipment incorporated into, the construction of improvements to real property if the improvements are to be used by a qualified business in Greater Minnesota. The construction exemption applies regardless of whether the purchases are made by the business or a contractor.

The Department of Employment and Economic Development must certify that a business meets the requirements under this program. The business must be located in a city outside the seven-county metropolitan area, although an agricultural processing facility need not be located in a city. The business must have operated its trade or business in Greater Minnesota for at least one year before applying. It must also agree to expand its employment in Greater Minnesota by a minimum of the required number of employees specified.

This exemption is administered as a refund. The total amount of refunds that may be paid in a fiscal year cannot exceed $7 million.

These provisions were enacted in 2013, effective for sales and purchases made after June 30, 2014. In 2014, certain types of businesses were excluded, and certification periods and exemption amounts were changed. The certification period and exemption amounts were again revised in 2017.

**Objective Statement:** The objective of the Greater Minnesota Business Expansions Exemption is to induce existing businesses in greater Minnesota to increase investment and expand employment in greater Minnesota. See Minnesota Session Law – 2013, Regular Session, Ch. 143 – H.F. No. 677, Art. 13, Sec. 22, Subd. 7.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.873%.

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $2,500,000 | $2,500,000 | $2,500,000 | $2,500,000 |

### 4.2.16 Jukebox Music

Minnesota Statutes, Section 297A.68, Subd. 45

A sales and use exemption applies to music bought by operators of jukeboxes. The music can be in a tangible form, such as a record or compact disc, or a digital audio work and must be used exclusively in a jukebox.

This exemption was enacted in 2017.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $300,000 | $300,000 | $300,000 | $300,000 |

### 4.2.17 Aquatic Herbicides

Minnesota Statutes, Section 297A.67, Subd, 37

Herbicides authorized for use by an invasive aquatic plant management permit are exempt from the sales and use tax. To qualify, the herbicides must be purchased by a lakeshore property owner, an association of lakeshore property owners, or a contractor on behalf of a local government unit.

This exemption was enacted in 2019.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $200,000 | $200,000 | $200,000 | $200,000 |

## *Exemptions—Sales by Particular Sellers*

### 4.3.01 Isolated or Occasional Sales

Minnesota Statutes, Sections 297A.67, Subd. 23 and 297A.68, Subd. 25

Isolated or occasional sales made by persons not engaged in selling such property in the normal course of business are exempt from the sales and use tax. The isolated or occasional sale exemption does not apply to tangible personal property used in a trade or business unless certain conditions exist.

The isolated or occasional sale of property that was used in a trade or business is taxed unless the sale comes under one of these categories: farm auction sales; sale of substantially all of the assets of a trade or business; and sales not exceeding $1,000 in a 12-month period. Also exempt are sales that occur in transactions covered in several Internal Revenue Code sections, such as contributions to capital, certain liquidations, and involuntary conversions.

An exemption for all isolated and occasional sales was enacted in 1967. In 1991, property used in a trade or business was eliminated from the general exemption, except for transactions covered under specified Internal Revenue Code sections. In 1992, the exemption was reinstated for the exceptions listed above. In 2023, a sales tax exemption for sales between the sole member of a disregarded LLC and the disregarded LLC was enacted.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.815%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $73,900,000 | $75,500,000 | $76,800,000 | $78,200,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.3.02 Institutional Meals

Minnesota Statutes, Section 297A.67, Subd. 4, 5 and 6

Although prepared meals and drinks are generally subject to the sales tax, the following are exempt:

- Meals and drinks served to patients, residents, or inmates of hospitals, nursing homes, sanitariums, senior citizens' homes, and correctional, detention, and detoxification facilities.
- Meals served at public and private elementary, middle, and secondary schools.
- Meals served to students at colleges and universities under a board contract.
- Congregate dining, home delivery of meals, and other qualifying programs which provide meals to senior citizens or to persons with a disability.

These provisions were enacted in 1967. In 2002, the exemption for colleges and universities was limited to meals covered under a board contract, and vending machine sales on school property were excluded from the exemption. These provisions were last modified in 2006.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.839%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $45,000,000 | $45,700,000 | $46,500,000 | $47,300,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.3.03 Fundraising Sales by Nonprofit Organizations

Minnesota Statutes, Section 297A.70, Subd. 13(a)(1), 13(a)(2), and Subd. 14

An exemption from the sales tax applies to fundraising sales made by nonprofit organizations. The exemption applies to:

- The first $20,000 of gross annual receipts of fundraising sales by an organization that is either an educational or social organization for young people aged 18 and under or is a senior citizen group that is exempt from the sales tax.
- Sales at fundraising events sponsored by a nonprofit organization when the entire proceeds, except necessary expenses, go exclusively for charitable, religious, or educational purposes. This exemption does not apply to bingo or other gambling activities. The exemption does not apply if the fundraising events exceed 24 days per year.

These provisions were enacted in 1985. The exemption limit for fundraising sales was increased from $10,000 to $20,000 in 2014.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.864%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $13,600,000 | $14,100,000 | $14,500,000 | $15,000,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.3.04 Admission to Artistic Events

Minnesota Statutes, Section 297A.70, Subd. 10(a)

Tickets or admissions to events sponsored by an organization that provides opportunities for participation in the creation, performance, or appreciation of the arts are exempt from the sales tax if the net proceeds from the event are used for this purpose. The organization must qualify as tax exempt under Section 501(c)(3) of the Internal Revenue Code and at least 5% of its annual revenues must be from voluntary contributions. The exemption also applies to a municipal board which promotes cultural events and to the University of Minnesota and a state or private nonprofit college or university, provided that the event is held at a facility owned by the institution.

This exemption was enacted in 1980, changed several times, and was last modified in 2005.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.872%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $4,300,000 | $4,500,000 | $4,600,000 | $4,700,000 |

## 4.3.05 Admission to School-Sponsored Events

Minnesota Statutes, Section 297A.70, Subd. 11 and 11a

Tickets or admissions to regular season school games, events, and activities of elementary and secondary schools are exempt from the sales tax. The estimates do not include sales that would be exempt as admission to artistic events (Item 4.3.04) or as fundraising (Item 4.3.03).

This exemption was enacted in 1985. In 2006, the exemption was extended to Minnesota State High School League events from July 1, 2006, through June 30, 2011. In 2011, the exemption for Minnesota State High School League events was extended to June 30, 2015, and expired. In 2017, the exemption for Minnesota State High School League events was reinstated until July 1, 2027.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.873%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $2,100,000 | $2,200,000 | $2,200,000 | $2,300,000 |

## 4.3.06 Admission to the Minnesota Zoo

Minnesota Statutes, Section 297A.70, Subd. 10(b)

Admissions or tickets to the Minnesota Zoo are exempt from the sales tax. Also exempt are admissions or tickets to events or performances held on the premises if sponsored and conducted exclusively by the Minnesota Zoological Board or employees of the Minnesota Zoo.

This exemption was enacted in 2001.

There were approximately 515,000 paid admissions to the zoo in fiscal year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $700,000 | $700,000 | $800,000 | $900,000 |

## 4.3.07 Cross Country Ski Passes for Public Trails

Minnesota Statutes, Section 297A.67, Subd. 19

Cross-country ski passes issued by the Minnesota Department of Natural Resources for use of public trails are exempt from the sales and use tax.

This exemption was enacted in 1988.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

*Less than $50,000

## 4.3.08 YMCA, YWCA, and JCC Membership Dues

Minnesota Statutes, Section 297A.70, Subd. 12

An exemption from the sales tax applies to one-time initiation fees and periodic membership dues to the YMCA and YWCA and to the Jewish Community Centers of Greater Minneapolis and of Greater St. Paul. Separate charges for using the sports and athletic facilities are not exempt.

The exemption for the YMCA and YWCA was enacted in 1987 when the sales tax was first imposed on memberships to clubs providing sports and athletic facilities. It was extended to the Jewish Community Centers in 1996.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.870%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $5,700,000 | $6,200,000 | $6,700,000 | $7,200,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.3.09 Admission to Charitable Golf Tournaments

Minnesota Statutes, Section 297A.70, Subd. 13(a)(3)

Tickets or admissions to a golf tournament are exempt if the beneficiary of the tournament's net proceeds is a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code.

This exemption was enacted in 1994.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $100,000 | $100,000 | $100,000 | $100,000 |

*Less than $50,000

## 4.3.10 Preferred Athletic Facility Seating

Minnesota Statutes, Section 297A.67, Subd. 35 and 38, Section 297A.61, Subd. 4(m), and Section 297A.68, Subd. 46

Consideration paid for a license to use a private suite, private skybox, or private box seat is exempt from the sales and use tax, under certain circumstances. The sale of a right to purchase the privilege of admission to a college or university athletic event in a preferred viewing location for a season of a particular athletic event is exempt from the sales and use tax, under certain circumstances.

The suites exemption was enacted in 2017. In 2021, the exemption was expanded to include preferred seating for season tickets at colleges and universities. In 2023, the exemption was modified to remove the need for the price to be separately stated and the privilege of admission does not need to be unbundled.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.867%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $9,300,000 | $8,600,000 | $8,700,000 | $8,800,000 |

**Incidence:** An incidence analysis for this item is not available. The incidence is assumed to be similar to the incidence of the business sales tax (See the table in the Chapter 4 introduction).

## 4.3.11 Candy Sales by Certain Organizations

Minnesota Statutes, Section 297A.70, Subd. 13 (a)(4)

Candy is exempt from the sales tax when sold for fundraising purposes by a nonprofit organization which provides educational and social activities primarily for young people aged 18 and under. The estimates do not include organizations which also qualify for the general fundraising exemption (Item 4.3.03).

This exemption was enacted in 1984 and was last modified in 2006.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

*Less than $50,000

## 4.3.12 Sacramental Wine Sold by Religious Organizations

Minnesota Statutes, Section 297A.70, Subd. 9

Wine used for sacramental purposes in a religious ceremony is exempt from the sales and use tax if it is purchased from a nonprofit religious organization or from a rabbi, priest, or minister of a church or other established religious organization.

This exemption was enacted in 1991.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

## 4.3.13 County Agricultural Society Sales at County Fairs

Minnesota Statutes, Section 297A.70, Subd. 21

Sales by a county agricultural society, including admissions, parking, admissions to separately ticketed events, concessions sales, and other sales made by employees or volunteers of the county agricultural society are exempt from sales tax. The exemption does not apply to sales for events held at a time other than at the time of the regularly scheduled county fair, or events not held on the county fairgrounds.

This exemption was enacted in 2019 and is included in the tax expenditure report for the first time in 2024.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,600,000 | $1,700,000 | $1,700,000 | $1,700,000 |

*Less Than $50,000

## *Reduced Sales Price*

### 4.4.01 New Manufactured Homes

Minnesota Statutes, Section 297A.62, Subd. 3

The sale in Minnesota of a manufactured home used as a residence is taxed at 65% of the dealer's cost. The estimates measure the difference between application of the tax to the full sales price to the final customer compared to 65% of the dealer's cost.

Because an exemption applies to any subsequent sale (Item 4.1.17), this provision applies only to the first sale of a manufactured home in the state.

The base for the tax was changed from the full sales price to 65% of the sales price in 1984 and to 65% of the dealer's cost in 1998. In 2016, for a retail sale of a modular home, the tax was changed from the full sales price to 65% of the sales price.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the general sales and use tax could be reduced to 6.873%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $2,700,000 | $2,800,000 | $3,000,000 | $3,100,000 |

### 4.4.02 Park Trailers

Minnesota Statutes, Section 297A.62, Subd. 3

The sale of a new or used park trailer is taxed at 65% of the sales price. As defined in statute, a park trailer is used as temporary living quarters and has a width exceeding 8 ½ feet in travel mode but is no larger than 400 square feet when the collapsible components are fully extended or at maximum horizontal width.

The tax expenditure measures the difference between the tax on 65% of the sales price compared to the tax on 100% of the sales price.

This provision was enacted in 1995. Park trailers had previously been subject to the motor vehicle sales tax (Chapter 5).

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the general sales and use tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $200,000 | $200,000 | $200,000 | $200,000 |

# Chapter 5: Motor Vehicle Sales Tax

## *Collections and History*

Total revenues from the motor vehicle sales tax were $1.1 billion in fiscal year 2024. Under a constitutional amendment adopted in 2006, the revenues from the tax are allocated 60% to the Highway User Tax Distribution Fund and 40% to the Transit Assistance Fund, beginning in fiscal year 2012. Prior to fiscal year 2012, a portion of the tax went to the General Fund.

Motor vehicles were subject to the 3% general sales tax when it was enacted in 1967. The sales tax on motor vehicles was replaced by the motor vehicle excise tax in 1971. In 1994, the term used for this tax in statute was changed from excise tax to sales tax.

This tax first went into effect on January 1, 1972, at the rate of 4%. The rate was increased to 5% on July 1, 1981, and to 6% on July 1, 1983. The rate remained at 6.5% from July 1, 1991 until July 1, 2023, where the rate increased to 6.875%.

## *Tax Base*

The tax base for the motor vehicle sales tax is the purchase price of a motor vehicle when ownership is transferred and the motor vehicle is required to be registered under the laws of Minnesota. Regardless of the number of times a vehicle is sold, each transfer of ownership is in the tax base. However, the base does not include the transfer of a motor vehicle to a dealer for resale in the regular course of business. For a vehicle transferred by gift or for a nominal or no monetary consideration, the purchase price is deemed to be the average value of similar motor vehicles.

## *Computation of the Tax*

The motor vehicle sales tax is imposed when a motor vehicle required to be registered in Minnesota is purchased or acquired, either in or outside Minnesota. The 6.875% rate is applied to the purchase price, which is defined as the total consideration valued in money, whether paid in money or otherwise. When one motor vehicle is taken in trade on another vehicle, the trade-in value is deducted in arriving at the net purchase price.

This tax is different from the general sales and use tax in Chapter 4 in two respects: isolated and occasional sales are taxable transactions, and a transfer without monetary consideration is subject to tax based on the average value of similar vehicles. Since July 1, 2009, the tax rates for the two taxes are also different.

The tax is paid to the motor vehicle registrar, and it must be paid before registration plates or a certificate of title can be issued.

## *Exemptions*

### 5.1.01 Gifts Between Family Members

Minnesota Statutes, Section 297B.01, Subd. 16(c)(4)

The transfer of a vehicle in the form of a gift between certain family members is exempt from the motor vehicle sales tax. The exemption applies to a transfer by gift between spouses, parents and a child, or grandparents and a grandchild. This exemption is a tax expenditure because, in general, vehicles transferred without monetary consideration are taxed on the basis of the average value of similar vehicles.

An exemption for transfers between certain family members was enacted in 1971. In 2000, the exemption was expanded to include gifts between any individuals. In 2013, the exemption was again restricted to certain family members.

An estimated 51,800 vehicle transfers qualified for this exemption in fiscal year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.605%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $46,200,000 | $46,300,000 | $46,300,000 | $46,300,000 |

### 5.1.02 Vehicles Acquired by Inheritance

Minnesota Statutes, Section 297B.01, Subd. 16(c)(1)

The acquisition of a motor vehicle by inheritance from or by bequest of a decedent who owned it is exempt from the motor vehicle sales tax. Without this exemption, the tax on the transfer of a motor vehicle without monetary consideration would be based on the average value of similar vehicles.

This provision was enacted in 1971.

An estimated 6,500 vehicle transfers qualified for this exemption in fiscal year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.828%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $7,800,000 | $7,800,000 | $7,900,000 | $7,900,000 |

## 5.1.03 Persons Moving into Minnesota

Minnesota Statutes, Sections 297B.03(2) and 297B.06

A motor vehicle owned by a person who moves to Minnesota which was purchased and titled in another state or country more than sixty days prior to the move is exempt from the motor vehicle sales tax.

This provision was enacted in 1971.

Approximately 39,000 vehicles transferred into the state qualify for this exemption annually.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.758%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $19,500,000 | $19,100,000 | $19,500,000 | $19,800,000 |

## 5.1.04 Transfers Between Joint Owners

Minnesota Statutes, Section 297B.01, Subd. 16(c)(2)

The transfer of a motor vehicle is exempt from the motor vehicle sales tax if it was previously registered in the names of two or more joint owners and is subsequently transferred without monetary consideration to one or more of the joint owners.

This provision was enacted in 1971.

An estimated 9,300 vehicle transfers qualified for this exemption during fiscal year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.807%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $11,200,000 | $11,200,000 | $11,200,000 | $11,200,000 |

## 5.1.05 Transfers in Divorce Proceedings

Minnesota Statutes, Section 297B.01, Subd. 16(c)(5)

The transfer of a motor vehicle between spouses in a divorce proceeding is exempt from the motor vehicle sales tax. Because transfers between joint owners are exempt under another provision (Item 5.1.04), the estimates include only vehicles previously registered to one person.

This provision was enacted in 1974.

An estimated 800 vehicle transfers qualified for this exemption in fiscal year 2024.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.868%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,200,000 | $1,200,000 | $1,200,000 | $1,200,000 |

## 5.1.06 Sales to Disabled Veterans

Minnesota Statutes, Sections 297B.03(1) and 297A.67, Subd.11

A motor vehicle purchased by a disabled veteran with funds provided by the Veterans Administration is exempt from the motor vehicle sales tax.

This provision was enacted in 1971. To qualify in 2023, a veteran's disability must be a "total service-connected injury."

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $200,000 | $200,000 | $300,000 | $300,000 |

## 5.1.07 Corporate and Partnership Transfers

Minnesota Statutes, Section 297B.03(4)

The transfer of a vehicle used in a trade or business is exempt from the motor vehicle sales tax for certain business-related transfers provided the vehicle was previously registered in Minnesota.

This provision was enacted in 1975.

An estimated 1,300 vehicle transfers qualified for this exemption in fiscal year 2024.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.854%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $3,500,000 | $3,500,000 | $3,500,000 | $3,500,000 |

## 5.1.08 Transit Vehicles

Minnesota Statutes, Sections 297B.03(12) and 473.448

The purchase of a motor vehicle for use by a transit provider exclusively to provide transit service is exempt from the motor vehicle sales tax if the provider receives financial assistance or reimbursement under Minnesota Statutes, Section 174.24 or 473.384 or operates under Minnesota Statutes, Section 174.29, 473.388, or 473.405. Vehicles purchased by the Metropolitan Council for the Metro Transit System and for Metro Mobility are also exempt.

Purchases of transit vehicles by the Metropolitan Council have never been taxed. The exemption was extended to other transit providers in 2001.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.822%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $8,800,000 | $10,600,000 | $11,200,000 | $11,800,000 |

## 5.1.09 Town Road Maintenance Vehicles

Minnesota Statutes, Section 297B.03(10)

Motor vehicles purchased by a town to be used exclusively for road maintenance are exempt from the motor vehicle sales tax. The exemption includes snowplows and dump trucks but does not apply to automobiles, pickup trucks, or vans.

This exemption was enacted in 1998.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.870%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $900,000 | $900,000 | $1,000,000 | $1,000,000 |

## 5.1.10 Bookmobiles

Minnesota Statutes, Section 297B.03(8)

The purchase of a motor vehicle by or for a public library for use as a bookmobile or a library delivery vehicle is exempt from the motor vehicle sales tax.

This exemption was enacted in 1994.

**Objective Statement:** The objective to exempt Bookmobiles from the motor vehicle sales tax is to reduce costs paid by local government entities for providing access to library services to individuals who have limited accessibility to a library building.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the motor vehicle sales tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

## 5.1.11 Private Ambulance Services

Minnesota Statutes, Section 297B.03(7)

The purchase of an ambulance by a private ambulance service is exempt from the motor vehicle sales tax. Ambulances purchased by local units of government are not required to be registered and therefore are not in the defined tax base for the motor vehicle sales tax.

This provision was enacted in 1990.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.861%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $2,300,000 | $2,300,000 | $2,400,000 | $2,400,000 |

*Less Than $50,000

## 5.1.12 Ready-Mixed Concrete Trucks

Minnesota Statutes, Section 297B.03(9)

The purchase of a ready-mixed concrete truck is exempt from the motor vehicle sales tax.

This exemption was enacted in 1998.

Each year an estimated 180 vehicles qualify for this exemption.

**Objective Statement:** The objective of the Ready-Mixed Concrete Trucks exemption is to treat ready-mixed concrete trucks as capital equipment from the motor vehicle sales tax due to their integral part of the manufacturing process.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.865%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,700,000 | $1,700,000 | $1,700,000 | $1,700,000 |

## 5.1.13 Automotive Training Programs

Minnesota Statutes, Section 297B.03(6)

The purchase or use of a motor vehicle by a public or a private nonprofit educational institution is exempt from the motor vehicle sales tax if the vehicle is used as an instructional aid in an automotive training program operated by the institution. Motor vehicle body and mechanical repair courses qualify for the exemption; driver education programs do not qualify. The vehicles are usually donated to the institution.

This exemption was enacted in 1988, and was last modified in 1993. Prior to 1987, these vehicles were included in the general exemptions for local government units and nonprofit organizations.

An estimated 40 transfers qualified for this exemption in fiscal year 2024.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the motor vehicle sales tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

*Less Than $50,000

### 5.1.14 Donations to Exempt Organizations

Minnesota Statutes, Section 297B.01, Subd. 16(c)(6)

The transfer of a motor vehicle in the form of a gift to an exempt organization is not subject to the motor vehicle sales tax. The organization must be exempt from federal income taxation under Section 501(c)(3) of the Internal Revenue Code, and the motor vehicle must be used exclusively for religious, charitable, or educational purposes.

This exemption was enacted in 1997.

An estimated 400 vehicles qualified for this exemption in fiscal year 2024.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.874%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $200,000 | $200,000 | $200,000 | $200,000 |

### 5.1.15 Trucks, Buses, and Vans Purchased by Charities

Minnesota Statutes, Section 297B.03(11)

An exemption from the motor vehicle sales tax applies to the purchase or use of certain types of vehicles by a corporation, society, association, foundation, or institution organized exclusively for charitable, religious, or educational purposes. A public school, university, or library is not eligible for the exemption. The exemption applies to trucks and buses and also to passenger vehicles designed and used to carry more than nine persons including the driver. The vehicle must be used primarily to transport tangible personal property or individuals, other than employees, to whom the organization provides service.

This exemption was enacted in 2000 and was last modified in 2001.

An estimated 500 vehicles qualified for this exemption in fiscal year 2024.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.869%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,000,000 | $1,000,000 | $1,000,000 | $900,000 |

## *Reduced Purchase Price*

### 5.2.01 Price Reduced by Value of Trade-In

Minnesota Statutes, Section 297B.01, Subd. 14

When a motor vehicle is taken in trade as part payment on another motor vehicle, the selling price is reduced by the amount of trade-in value allowed. The 6.875% motor vehicle sales tax is applied to the reduced price. This provision applies to both dealer sales and sales between individuals.

This provision was enacted in 1971.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 5.542%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $271,500,000 | $271,700,000 | $271,800,000 | $272,000,000 |

### 5.2.02 Disabled-Accessible Modifications

Minnesota Statutes, Sections 297B.01, Subd. 14(b)

The value of modifications necessary to make a motor vehicle accessible to a person with a disability is excluded from the purchase price used for computing the motor vehicle sales tax. An exemption from the general sales tax applies to the parts and accessories used to modify a vehicle after it is purchased (Item 4.1.56).

This provision was enacted in 1992.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle sales tax rate could be adjusted to 6.871%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $700,000 | $700,000 | $700,000 | $700,000 |

## *Preferential Computation*

### 5.3.01 Flat Taxes on Older Cars and Collector Vehicles

Minnesota Statutes, Sections 297B.02, Subd. 2 and 3 and 297B.025

In lieu of the 6.875% motor vehicle sales tax, a flat tax of $10 is imposed on the transfer of a passenger automobile that is in at least its tenth year of vehicle life and has a resale value of less than $3,000.

The transfer of a passenger automobile or fire truck that is registered and licensed as a collector vehicle (pioneer, classic, collector, street rod, or collector military vehicle) is subject to a flat tax of $150 instead of being taxed at 6.875% of the purchase price. In order to be registered as a collector vehicle, several requirements must be met, including the type and age of the vehicle. Also, the vehicle must be owned and operated solely as a collector's item and not used for general transportation purposes.

Compared to a tax of 6.875% of the purchase price, the $10 flat tax is lower for an older car sold for more than $153, and the $150 tax is lower for a collector vehicle sold for more than $2,308.

The $10 flat tax on older cars was enacted in 1985. The flat tax on collector vehicles was enacted in 1988 at $90, and was increased to $150 in 2013.

Approximately 350,000 vehicles are estimated to receive a reduced tax rate in FY 2024.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $34,900,000 | $34,800,000 | $34,800,000 | $34,700,000 |

# Chapter 6: Highway Fuels Excise Taxes

## *Collections and History*

The net revenues from the taxes on highway gasoline and special fuels were $887 million in fiscal year 2024. All revenues from these taxes go into the Highway User Tax Distribution Fund.

Minnesota first imposed an excise tax on highway fuels in 1925 at a rate of 2¢ per gallon. Several rate increases have occurred since then. The rate of 20¢ per gallon was in effect from 1988 to 2008. In 2008, the tax rate was increased to 25¢, and a surcharge was adopted, which is 3.5¢ for fiscal year 2013 and thereafter. The total rate is 28.5¢.

An annual permit fee applied to vehicles using alternative fuels at various times from 1985 to 1995. In 1995, separate rates were enacted for liquefied petroleum gas, liquefied natural gas, and compressed natural gas. The rates for alternative fuels were increased in 2008.

## *Tax Base*

The tax base for the highway fuels excise taxes is motor fuel used in vehicles on Minnesota highways. Therefore, it is not considered a tax expenditure when the tax does not apply to off-road or to out-of-state usage.

## *Computation of the Tax*

The highway fuel tax rate is 28.5¢ per gallon including the 3.5¢ surcharge and is imposed on gasoline and special fuels (diesel) used on Minnesota highways. Other rates apply to alternative fuels. Motor carriers based in states other than Minnesota pay the road tax which is 28.5¢ per gallon for special fuel purchased in another state and used on Minnesota highways. Beginning with the calculation on August 1, 2025, the tax rate will be indexed in conjunction with the Minnesota Highway Construction Cost Index, but it is not to exceed three percent.

## *Exemptions*

### 6.1.01 Transit Systems

Minnesota Statutes, Sections 296A.07, Subd. 4(1) and 296A.08, Subd. 3(1)

The highway fuels excise taxes are not imposed on gasoline or special fuel purchased by a transit system or transit provider that receives financial assistance from the Metropolitan Council or the Public Transit Subsidy Program.

An exemption for transit systems owned by local governments was enacted in 1977. In 1990, the exemption was extended to all systems receiving state financial assistance. This provision was last modified in 1994.

Approximately 50 transit systems benefited from this exemption.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the highway fuels excise tax could be adjusted to $0.284.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $4,100,000 | $4,300,000 | $4,500,000 | $4,500,000 |

### 6.1.02 Medical Transportation Providers

Minnesota Statutes, Sections 296A.07, Subd. 4(1), 4(2), and 4(4) and 296A.08, Subd. 3(1), 3(2), and 3(4)

The highway fuels excise taxes are not imposed on gasoline or special fuel purchased by qualifying medical transportation providers. The exemption applies to providers of transportation services that are covered under the Medical Assistance program in Minnesota Statutes, Section 256B.0625, Subd. 17. The exemption also applies to providers of transportation services, to recipients of Medical Assistance home and community-based services waivers enrolled in day programs and to providers of medical or dental services by a federally qualified health center with a mobile medical unit.

This exemption was enacted in 1994. In 2012, it was extended to the services provided in connection with day programs and to the services provided with a mobile medical unit.

Approximately 90 providers received refunds under these provisions.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the highway fuels excise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $700,000 | $700,000 | $700,000 | $700,000 |

## 6.1.03 Motor Vehicles Not Requiring Registration (Special Fuels)

Minnesota Statutes, Sections 168.012, Subd.1(b) and 296A.16, Subd. 2 and 1(7)

The highway special fuels (diesel) tax is imposed on licensed motor vehicles, which are those requiring registration. Vehicles not requiring registration include municipal fire apparatus, police patrols, and ambulances, the appearance of which is unmistakable. Special fuel used in these vehicles is exempt from the excise tax.

This provision was enacted in 1951.

An estimated 3,400 vehicles qualify for this exemption.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the highway fuels excise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $700,000 | $70,000 | $700,000 | $700,000 |

## 6.1.04 Ambulance Services

Minnesota Statutes, Sections 296A.07, Subd. 4 and 296A.08, Subd. 3

The purchase of gasoline or special fuel by a licensed ambulance service is exempt from the motor fuels excise tax. Purchases of diesel fuel for municipal ambulances are covered by another exemption (Item 6.1.03) and are not included in the estimates for this provision.

This exemption was enacted in 2001.

An estimated 55 ambulances qualify for this exemption in fiscal year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the highway fuels excise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $400,000 | $400,000 | $500,000 | $500,000 |

### 6.1.05 Reciprocal Agreements for Out-of-State Purchases

Minnesota Statutes, Section 168D.02, Subd. 2

In general, all gasoline and special fuels used in vehicles on Minnesota highways are subject to the Minnesota highway fuels excise taxes. Motor carriers based in states other than Minnesota pay the road tax for special fuel purchased in another state and used on Minnesota highways.

This provision authorizes the Commissioner of Public Safety to enter into a reciprocal agreement with officials in another state under which motor carriers based in that state are exempt from paying the Minnesota road tax if the other state exempts Minnesota-based motor carriers from paying that state's road tax.

Currently Minnesota has limited agreements with Iowa, North Dakota, and Wisconsin.

This provision was enacted in 1961, and was last modified in 2002.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the highway fuels excise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | * | * | * | * |

## *Credit*

### 6.2.01 Border Area Credit

Minnesota Statutes, Sections 296A.16, Subd. 5

A credit is allowed for gasoline and diesel fuel delivered to a qualified service station near the state border if the Minnesota fuels excise tax rate is more than 3¢ per gallon higher than the tax rate in the contiguous state. To qualify, the service station must be located within 7.5 miles from a service station in the contiguous state. The credit is equal to: a) the number of gallons sold multiplied by b) the Minnesota tax rate minus the other state's tax rate minus 3¢.

The Minnesota tax rate, including surcharge, on gasoline and diesel fuel is 28.5¢. The current tax rates for gasoline in the other states are: Iowa 30¢, North Dakota 23¢, South Dakota 28¢, and Wisconsin 30.9¢.

This provision was first enacted in 1981 as a rate reduction, and was last modified in 1998 when it was re-codified as a tax credit.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the highway fuels excise tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $400,000 | $400,000 | $400,000 | $400,000 |

*Less Than $50,000

# Chapter 7: Alcoholic Beverage Taxes

## *Collections and History*

In fiscal year 2024, the revenues from the alcoholic beverage taxes were $91.3 million for distilled spirits, $14.0 million for beer, and $7.2 million for wine. All revenues from these taxes are deposited in the State General Fund.

An excise tax was first imposed on alcoholic beverages in Minnesota in 1934. The initial rates were: 60¢ per gallon for distilled spirits; $1 per barrel for 3.2% beer and $2 per barrel for strong beer; and wine rates ranging from 10¢ to 60¢ per gallon. The tax rates were increased (and occasionally decreased) at various times. The current rates have been in effect since 1987, with the exception of the separate rate for cider which was enacted in 1998.

## *Tax Base*

The tax base for the alcoholic beverages taxes is alcoholic beverages for human consumption which are manufactured, imported, sold, or possessed in Minnesota. Therefore, the exemptions for alcohol used for purposes other than human consumption are not tax expenditures, such as the exemption for alcohol used in industrial production.

## *Computation of the Tax*

The tax is paid by the wholesaler, distributor, or manufacturer upon acquisition for sale within Minnesota. The tax is based on volume, not price. For beer with alcohol by weight of 3.2% or less, the rate is $2.40 per barrel (31 gallons). For beer with alcohol by weight more than 3.2%, the rate is $4.60 per barrel (31gallons). For distilled spirits, the rate is $1.33 per liter or $5.03 per gallon. For cider (0.5% to 7% alcohol), the rate is 4¢ per liter or 15¢ per gallon.

The tax rates for wine are:

| Wine: Alcohol by Volume | Tax Per Liter | Tax Per Gallon |
|---|---|---|
| 14% or less | $0.08 | $0.30 |
| 14.01%–21% | 0.25 | 0.95 |
| 21.01%–24% | 0.48 | 1.82 |
| More than 24% | 0.93 | 3.52 |
| Sparkling Wine | 0.48 | 1.82 |

## *Exemptions*

### 7.1.01 Consumer Purchases Made Out-of-State

Minnesota Statutes, Sections 297G.07, Subd. 2

A person entering Minnesota from another state may have in possession one liter of distilled spirits or wine or 288 ounces of beer without paying the alcoholic beverage excise tax. A person entering Minnesota from a foreign country may have in possession four liters of distilled spirits or wine or 320 ounces of beer without paying the Minnesota excise tax. The alcoholic beverage must accompany the person into the state and cannot be sold or used commercially.

This provision was enacted in 1947 and was last modified in 1997.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the alcoholic beverage tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $200,000 | $200,000 | $200,000 | $200,000 |

### 7.1.02 Home Production and Use

Minnesota Statutes, Section 297G.07, Subd. 1(6)

Beer naturally brewed or fruit juices naturally fermented in the home for family use are exempt from the alcoholic beverage excise taxes.

This exemption was first authorized by statute in 1957 and was last modified in 1997.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the alcoholic beverage tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

## 7.1.03 Sales to Food Processors and Pharmaceutical Firms

Minnesota Statutes, Section 297G.07, Subd. 1(8)

Alcoholic beverages sold to an authorized manufacturer of food products or to a pharmaceutical firm are exempt from the alcoholic beverage excise taxes. The alcoholic beverage must be used exclusively in the manufacture of food products or medicines.

This exemption was first codified in 1988 and was last modified in 1997.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the alcoholic beverage tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

## 7.1.04 Consumption on Brewery Premises

Minnesota Statutes, Section 297G.07, Subd. 1(4)

Beer that is served by a brewery at no charge for on-premises consumption or is distributed to brewery employees for on-premises consumption under a labor contract is exempt from the alcoholic beverage excise tax.

This provision was enacted in 1941 and was last modified in 1997.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the alcoholic beverage tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

## 7.1.05 Wine for Sacramental Purposes

Minnesota Statutes, Sections 297G.07, Subd. 1(7) and 340A.316

Sales of wine to a minister, rabbi, or priest of a church or other established religious organization exclusively for sacramental purposes are not subject to the alcoholic beverage excise tax.

This provision was adopted in 1937 and was last modified in 1997.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the alcoholic beverage tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

## 7.1.06 Shipments of Wine for Personal Use

Minnesota Statutes, Sections 297G.07, Subd. 1(5) and 340A.417

An exemption from the alcoholic beverage excise tax is allowed for wine shipped to a Minnesota resident from a winery licensed in Minnesota or another state. The wine must be for personal use, and no more than two cases of wine containing a maximum of nine liters per case can be shipped to any resident in a calendar year.

This exemption was enacted in 1993 and was last modified in 2009.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the following alcoholic beverage taxes could be reduced accordingly:

| Wine | Current Rate (per Liter)◊ | New Rate |
|---|---|---|
| 14% or less | $0.08 | $0.08 |
| 14%-21% | $0.25 | $0.25 |
| 21%-24% | $0.48 | $0.47 |
| 24% or more | $0.93 | $0.92 |
| Sparkling Wine | $0.48 | $0.47 |

◊Rates derived from MN Statute 297G.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## *Credits*

### 7.2.01 Credit for Small Brewers

Minnesota Statutes, Section 297G.04, Subd. 2

A credit is allowed to a brewer who manufactures fewer than 250,000 barrels of beer in the calendar year preceding the year for which the credit is claimed. The credit is $4.60 per barrel on 25,000 barrels sold in a fiscal year, with a maximum credit of the lesser of the brewer's tax liability or $115,000.

The credit was enacted in 1985. In 2013, the number of barrels to qualify as a small brewer was increased from less than 100,000 to less than 250,000. A credit for beer produced and sold in Minnesota had been in effect from 1973 to 1985.

In calendar year 2023, approximately 350 breweries qualified for this credit.

**Objective Statement:** The objective of the Credit for Small Brewers is to promote development and survivorship among small brewers.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the following alcoholic beverage taxes could be reduced accordingly:

| Beer | Current Rate (per Liter) ◊ | New Rate |
|---|---|---|
| Less than 3.2% | $2.40 | $2.14 |
| More than 3.2% | $4.60 | $4.11 |

◊Rates derived from MN Statute 297G.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $1,700,000 | $1,700,000 | $1,700,000 | $1,800,000 |

## 7.2.02 Microdistillery Credit

Minnesota Statutes, Section 297G.03, Subd.5

A microdistillery operating in the state producing fewer than 40,000 proof gallons of premium, distilled spirits is allowed a credit of $1.33 per liter on 100,000 liters sold to consumers at retail per fiscal year. The total credit allowed may not exceed the lesser of the tax liability or $133,000.

This exemption was enacted in 2014.

In calendar year 2023, approximately 50 microdistilleries claimed this credit.

**Objective Statement:** The objective of the Microdistillery Credit is to promote development and survivorship of small producers in the craft distillery market.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the following alcoholic beverage taxes could be reduced accordingly:

| | Current Rate (per Liter) ◊ | New Rate |
|---|---|---|
| Distilled Spirits | $1.33 | $1.32 |

◊Rates derived from MN Statute 297G.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $500,000 | $500,000 | $600,000 | $600,000 |

## 7.2.03 Small Winery Credit

Minnesota Statutes, Section 297G.03, Subd. 6

A credit is allowed to a winery that manufactures fewer than 75,000 gallons of wine and cider in the calendar year immediately preceding the fiscal year for which the credit is claimed. The credit for the fiscal year is the lesser of the tax liability or $136,275.

This provision was enacted in 2017.

In calendar year 2023, approximately 90 wineries claimed this credit.

**Objective Statement:** The objective of the Small Winery Credit is to promote development and survivorship of small wineries.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the following alcoholic beverage taxes could be reduced accordingly:

| Wine | Current Rate (per Liter) ◊ | New Rate |
|---|---|---|
| 14% or less | $0.08 | $0.08 |
| 14%-21% | $0.25 | $0.25 |
| 21%-24% | $0.48 | $0.47 |
| 24% or more | $0.93 | $0.92 |
| Sparkling Wine | $0.48 | $0.47 |

◊Rates derived from MN Statute 297G.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

# Chapter 8: Cigarette and Tobacco Taxes

## *Collections and History*

In fiscal year 2024, cigarette tax revenues were $543.9 million, and tobacco products tax revenues were $156.0 million. The cigarette tax revenues from the excise tax go to the State General Fund, after annual payments of $26,187,000 to the Special Revenue Fund. Revenues from the in-lieu sales tax also go to the State General Fund. Revenues from the tobacco products tax go to the State General Fund.

The cigarette tax was enacted in 1947 at a rate of 3¢ per pack. The tax rate was increased several times and was 48¢ from 1992 to 2013. In 2005, an additional fee of 75¢ per pack was enacted. In 2013, the 75¢ fee was repealed and the tax was increased to $2.83 per pack. The tax of $2.83 per pack was indexed annually from 2015 until 2017 when the index was removed. The current tax rate is $3.04 per pack. Cigarettes were first subject to the general sales tax in 1982. In 2005, cigarettes were exempted from the sales tax and made subject to an in-lieu tax at the wholesale level. The sales tax rate is adjusted annually and is 73.9¢ per pack for calendar year 2024.

The tobacco products tax was enacted in 1955 at a rate of 15% of the wholesale price. The rate was increased to 20% in 1959, to 25% in 1985, and was 35% from 1987 to 2013. In 2005, an additional fee of 35% of the wholesale price was enacted for other tobacco products. In 2013, the 35% fee was repealed, and the tax was increased to 95% of wholesale price and a minimum tax on a container of moist snuff equal to the tax on a pack of 20 cigarettes was enacted. Tobacco products have been subject to the general sales tax since it was enacted in 1967.

## *Tax Base*

The tax base is essentially the same for the cigarette tax and the tobacco products tax. It is the sale of cigarettes or tobacco products in Minnesota. Also included in the tax base is the use or storage in Minnesota of cigarettes or tobacco products if the Minnesota tax was not paid previously. Although the jurisdictional tax base is the same for both cigarettes and tobacco products, the cigarette tax is based on volume, and the tobacco tax is based on wholesale price.

## *Computation of the Tax*

The cigarette tax is $3.04 per pack of twenty cigarettes. The tax is paid by the distributor by purchasing stamps that are affixed to the packages. A total use and storage tax of $3.04 per pack is imposed on cigarettes that are used or stored in Minnesota, on which the tax had not previously been paid (unstamped packages). In addition, the in-lieu sales tax is imposed on each pack, which is adjusted annually and is 73.9¢ per pack for calendar year 2024.

The tobacco products tax is 95% of the wholesale price on all tobacco products, except cigarettes and little cigars, and includes other cigars, smoking tobacco, vapor products, and chewing tobacco. The minimum tax on a container of moist snuff is equal to the tax on a pack of cigarettes, $3.04. A maximum tax of 50¢ applies to each premium cigar. The tax is paid by the distributor. A use and storage tax of 95% of the cost is imposed on tobacco products that are used or stored in Minnesota on which the tax had not previously been paid.

## *Exemption*

### 8.1.01 Consumer Purchases Made Out-of-State

Minnesota Statutes, Sections 297F.06, Subd. 3 and 4

Use and storage taxes equal to the cigarette or tobacco products excise taxes are imposed on consumers in possession of cigarettes or tobacco products if the Minnesota excise taxes were not previously paid. Limited quantities in the possession of a consumer are exempt from the tax if brought into Minnesota by the consumer. The exemption applies to cigarettes if 200 or fewer are in the possession of the consumer. Cigars and other tobacco products in the possession of the consumer are exempt if the aggregate cost in any month is $50 or less.

The exemption for cigarettes was enacted in 1949 and was last revised in 1973. The exemption for tobacco products was enacted in 1957. In 2008, the exempt amount for tobacco products was reduced from $100 to $50 per month.

**Revenue Neutral Rate**: If the tax expenditure were repealed, the cigarette and tobacco tax could be reduced to $2.78.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $49,900,000 | $50,600,000 | $51,200,000 | $51,900,000 |

# Chapter 9: Mortgage Registry Tax

## *Collections and History*

In fiscal year 2024, state revenues from the mortgage registry tax were $97.6 million. The tax is collected by each county. Three percent of the proceeds of the tax are deposited in the County Revenue Fund, and 97% goes to the State General Fund.

Minnesota enacted a mortgage registry tax in 1907 at a rate of 50¢ for each $100 of principal debt secured by a mortgage of real property. In 1945, the rate was changed to 15¢ for each $100 of such debt. Since 1987, the tax has been 23¢ for each $100 of principal debt, although the rate is now restated as 0.23%. In 2001, the liability for the tax was changed from the mortgagee (lender) to the mortgagor (borrower).

## *Tax Base*

The tax base is the amount of principal debt secured by a mortgage of real property within Minnesota. Only registered mortgages are within the tax base. Although similar to a mortgage in some respects, a contract for deed is not a mortgage because the debt is not secured by real property.

## *Computation of the Tax*

The mortgage registry tax is 0.23% of principal debt which is secured by any mortgage of real property within Minnesota and which is recorded or registered. The liability for the tax is on the mortgagor. The tax is paid to the county treasurer at or before the time of filing the mortgage for record or registration.

## *Exemptions*

### 9.1.01 Agricultural Loans

Minnesota Statutes, Section 287.04(9)

An exemption from the mortgage registry tax is allowed for an agricultural mortgage if the proceeds are used to acquire or improve real property that is classified as agricultural for property tax purposes. The estimates exclude mortgages by federal agencies because federal law prohibits taxation by the state.

This exemption was enacted in 2001.

**Objective Statement:** The objective of the mortgage registry tax Agricultural Loan exemption is to increase the competitiveness of Minnesota banks offering agricultural loans with federal lenders whose loans are not subject to the state mortgage registry tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the mortgage registry tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $3,000,000 | $4,400,000 | $4,700,000 | $4,900,000 |

### 9.1.02 Government Housing Programs

Minnesota Statutes, Section 287.04(6)

An exemption from the mortgage registry tax is allowed for a mortgage loan made by a government agency under a low and moderate income housing program or other affordable housing program. The estimates exclude mortgages by federal agencies because federal law prohibits taxation by the state.

This exemption was enacted in 2001. Prior to that time, these mortgages were exempt under a general exemption for loans by government agencies.

**Objective Statement:** The objective of the Government Housing Programs mortgage registry tax exemption is to incentivize and promote affordable housing in the state of Minnesota.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the mortgage registry tax could be reduced to 0.22%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $3,300,000 | $3,300,000 | $3,300,000 | $3,300,000 |

# Chapter 10: Deed Transfer Tax

## *Collections and History*

State revenues from the deed transfer tax were $135.1 million in fiscal year 2024. Each county collects the tax, and 3% of the proceeds is deposited in the County Revenue Fund and 97% in the State General Fund.

Minnesota enacted a deed transfer tax in 1961 at a rate of $1.10 for consideration of $1,000 or less plus 55¢ for each $500 in excess of $1,000. In 1967, the rates were doubled to $2.20 and $1.10. From 1987 to 2019, the rate was $1.65 for consideration of $500 or less plus $1.65 for each additional $500. The tax was restated as 0.33% of consideration in 2001. Beginning in 2020, the minimum tax of $1.65 applies to consideration of $3,000 or less.

## *Tax Base*

The tax base for the deed transfer tax is the granting, assigning, transferring, or otherwise conveying of real estate by deed or instrument.

## *Computation of the Tax*

When the consideration exceeds $3,000, the tax is 0.33% of consideration. The tax is a flat $1.65 in several situations, including transfers made by instruments pursuant to mergers, consolidations, sales, or transfers of substantially all of the assets of entities pursuant to plans of reorganization; transfers made with no consideration; or transfers made with consideration of $3,000 or less.

The person who grants, assigns, transfers, or conveys real estate is liable for the tax. The deed or instrument cannot be recorded or registered unless the tax is paid or the transaction is exempt. The tax is paid to the county at the time the deed or instrument is recorded.

## *Exemptions*

### 10.1.01 Property Partitioned Between Co-Owners

Minnesota Statutes, Section 287.22(9)

A deed to or from a co-owner partitioning undivided interest in the same piece of property is exempt from the deed transfer tax.

This provision was enacted in 1984 and recodified in 1999.

**Objective Statement:** The objective of the Property Partitioned Between Co-Owners deed tax expenditure is to define the tax base for the application of the deed transfer tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the deed transfer tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

### 10.1.02 Distributions by Personal Representatives

Minnesota Statutes, Section 287.22(8)

A deed of distribution by a personal representative is exempt from the deed transfer tax.

This provision was enacted in 1975 and recodified in 1999.

**Objective Statement:** The objective of the Distributions by Personal Representatives deed tax expenditure is to define the tax base for the application of the deed transfer tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the deed transfer tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

### 10.1.03 Cemetery Lots

Minnesota Statutes, Section 287.22(7)

A deed transferring one or more cemetery lots is exempt from the deed transfer tax.

This provision was enacted in 1961 and recodified in 1999.

**Objective Statement:** The objective of the Cemetery Lots deed tax expenditure is to define the tax base for the application of the deed transfer tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the deed transfer tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $100,000 | $100,000 | $100,000 | $100,000 |

*Less Than $50,000

## 10.1.04 Exchange of Permanent School Fund Lands

Minnesota Statutes, Section 287.22(10)

A deed or other instrument issued pursuant to a permanent school fund land exchange is exempt from the deed transfer tax.

This exemption was enacted in 1991 and recodified in 1999.

**Objective Statement:** The objective of the Exchange of Permanent School Fund Lands deed tax expenditure is to help ensure the Permanent School Fund secures maximum financial return consistent with fund goals stated in M.S. 127A.31 and fiduciary responsibilities imposed by Article 11, Section 8 of the Minnesota Constitution.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the deed transfer tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | * | * | * | * |

## 10.1.05 Mortgage or Lien Foreclosure Sales

Minnesota Statutes, Section 287.22(11) and (12)

A referee's or sheriff's certificate of sale in a mortgage or lien foreclosure sale is exempt from the deed transfer tax. Also exempt is a referee's, sheriff's, or certificate holder's certificate of redemption from a mortgage or lien foreclosure sale issued to the redeeming mortgagor or lien holder.

These provisions were enacted in 1993.

**Objective Statement:** The objective of the Mortgage or Lien Foreclosure Sales deed tax expenditure is to define the tax base for the application of the deed transfer tax.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the deed transfer tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $1,100,000 | $1,100,000 | $1,200,000 | $1,200,000 |

## 10.1.06 Decree of Marriage Dissolution

Minnesota Statutes, Section 287.22(14)

The transfer of one spouse's interest in real estate to the other spouse is exempt from the deed transfer tax if the transfer is by decree of marriage dissolution, or if the transfer is by deed or other instrument made pursuant to the decree.

This exemption was enacted in 1997.

**Objective Statement:** The objective of the Decree of Marriage Dissolution deed tax expenditure is to define the tax base for the application of the deed transfer tax and lessen the financial burden on individuals undergoing divorce proceedings.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the deed transfer tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| All Funds | $400,000 | $400,000 | $400,000 | $400,000 |

*Less Than $50,000

# Chapter 11: Lawful Gambling Taxes

## *Collections and History*

In fiscal year 2024, revenues from the lawful gambling taxes were $198.1 million. The proceeds from these taxes are deposited in the State General Fund. Amounts over $36.9 million are appropriated annually to a general reserve account for stadium funding.

The lawful gambling tax was enacted in 1984 and covered bingo, raffles, paddlewheels, pull-tabs, and tip-boards. Initially the tax was 10% of gross receipts less prizes for all types of lawful gambling. That tax now applies only to bingo (other than electronic linked bingo), raffles, and paddlewheels. The rate was reduced to 9.5% in 1998, 9% in 1999, and 8.5% in 2000.

A separate tax on pull-tabs was enacted in 1986, and that tax was extended to tip-boards in 1988. In 1989, an additional tax was imposed on the combined receipts of an organization from pull-tabs and tip-boards. The tax rates for both taxes were reduced in 1998, 1999, and 2000. In 2012, the combined receipts tax was restructured and extended to the newly-authorized electronic games. Previously the tax was based on gross receipts with rates from 1.7% to 5.1%. The tax is now based on net receipts after prizes with rates from 9% to 36%. The separate distributor tax on the face value of pull-tabs and tip-boards was repealed in 2012.

## *Tax Base*

The tax base is lawful gambling authorized by statute.

## *Computation of the Tax*

Lawful gambling is allowed only by qualifying organizations which are licensed by the Gambling Control Board or which are exempt from licensing by statute. The organization must be a fraternal, religious, veterans, or other nonprofit organization. Organizations which are exempt from licensing are also exempt from the tax. The profits from lawful gambling must be used for the purposes specified by statute.

The tax on bingo (other than electronic linked bingo), raffles, and paddlewheels is 8.5% of gross receipts less prizes actually paid out.

Organizations are subject to a tax on their net receipts after prizes from pull-tabs, tip-boards, and electronic linked bingo. The tax is imposed on the fiscal year combined receipts of the organization according to the following graduated rate schedule:

| Fiscal Year Combined Net Receipts | Tax Rate |
|---|---|
| First $87,500 | 9% |
| 87,501–122,500 | 18% |
| 122,501–157,500 | 27% |
| More than 157,500 | 36% |

## *Exemptions*

### 11.1.01 Bingo at Certain Organizations

Minnesota Statutes, Sections 297E.02, Subd. 2 and 349.166, Subd. 1(b)

An exemption from the lawful gambling tax is allowed for bingo conducted within a nursing home or a senior citizen housing project or by a senior citizen organization if certain conditions are met. The prizes for a single bingo game cannot exceed $10, and total prizes awarded at a single bingo occasion cannot exceed $200.

This provision was enacted in 1985 and was last modified in 2015.

**Objective Statement:** The objective of the Bingo at Certain Organizations tax expenditure is to simplify compliance with and enforcement of lawful gambling and reduce administrative burden.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the lawful gambling tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

### 11.1.02 Bingo at Fairs and Civic Celebrations

Minnesota Statutes, Sections 297E.02, Subd. 2 and 349.166, Subd. 1(a)(1)

The lawful gambling tax is not imposed on bingo conducted by an organization in connection with a county fair, the state fair, or a civic celebration. To qualify, the bingo cannot be conducted for more than 12 consecutive days and no more than four applications can be applied for and approved in a calendar year.

This exemption was enacted in 1984 and recodified in 1994.

**Objective Statement:** The objective of the Bingo at Fairs and Civic Celebrations tax expenditure is to simplify compliance with and enforcement of lawful gambling and reduce administrative burden.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the lawful gambling tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less than $50,000

## 11.1.03 Infrequent Bingo Occasions

Minnesota Statutes, Sections 297E.02, Subd. 2 and 349.166, Subd. 1(a)(2)

An exemption from the lawful gambling tax is allowed for bingo conducted by an organization which conducts bingo on four or fewer days in a calendar year. This exemption does not apply if the organization holds a lawful gambling license.

This exemption was enacted in 1984 and last modified in 2006.

**Objective Statement:** The objective of the Infrequent Bingo Occasions tax expenditure is to simplify compliance with and enforcement of lawful gambling and reduce administrative burden.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the lawful gambling tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 11.1.04 Smaller Raffles

Minnesota Statutes, Sections 297E.02, Subd. 2 and 349.166, Subd. 1(c)

If the value of all raffle prizes awarded by an organization in a calendar year does not exceed $1,500, then the raffles of that organization are exempt from the lawful gambling tax. The exemption also applies if the organization qualifies under Section 501(c)(3) of the Internal Revenue Code and the value of all raffle prizes awarded at one event in a calendar year does not exceed $5,000.

This provision was enacted in 1984. In 2003, the prize limit was increased from $750 to $1,500. The exemption limit of $5,000 for 501(c)(3) organizations was enacted in 2013.

An estimated 1,520 organizations are covered by this exemption.

**Objective Statement:** The objective of the Smaller Raffles tax expenditure is to simplify compliance with and enforcement of lawful gambling and reduce administrative burden.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the lawful gambling tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $300,000 | $300,000 | $300,000 | $300,000 |

## 11.1.05 Lawful Gambling Under Certain Conditions

Minnesota Statutes, Sections 297E.02, Subd. 2 and 349.166, Subd. 2

All types of lawful gambling except linked bingo games are exempt from the lawful gambling taxes if certain conditions are met. To qualify, an organization must conduct lawful gambling on no more than five days in a calendar year and cannot award more than $50,000 in prizes for lawful gambling in a calendar year.

This exemption was enacted in 1986.

Approximately 2,300 organizations qualify for this exemption.

**Objective Statement:** The objective of the Lawful Gambling Under Certain Conditions tax expenditure is to simplify compliance with and enforcement of lawful gambling and reduce administrative burden.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the lawful gambling tax could be reduced to 8.4%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $2,900,000 | $2,900,000 | $2,900,000 | $2,900,000 |

## *Credit*

## 11.2.01 Credit for Certain Raffles

Minnesota Statutes, Sections 297E.02, Subd. 2a and 349.12, Subd. 25(a)(2)

An organization may claim a credit against the lawful gambling tax equal to the tax resulting from a raffle if the net proceeds have been used exclusively to relieve the effects of poverty, homelessness, or physical or mental disability for an individual or family.

This credit was enacted in 2000.

In fiscal year 2023, 25 organizations claimed this exemption.

**Objective Statement:** The objective of the Credit for Certain Raffles tax expenditure is to direct a higher amount of net raffle proceeds used exclusively to relieve the effects of poverty, homelessness, or disability that would occur but for the credit.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the lawful gambling tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | * | * | * | * |

*Less Than $50,000

# Chapter 12: Insurance Premiums Taxes

## *Collections and History*

In fiscal year 2024, the revenues from the insurance premiums taxes totaled $709.0 million. The proceeds from the taxes on health maintenance organizations and nonprofit health service plan corporations are deposited in the Health Care Access Fund. The proceeds from the surcharge on fire safety premiums are deposited in the Fire Account in the Special Revenue Fund. The proceeds from the other taxes are deposited in the State General Fund. Aids are paid to local fire and police departments based on the amount of tax from certain types of insurance.

A tax on insurance premiums was first enacted in Minnesota in 1868 at a rate of 2% of the premiums received by foreign (non-Minnesota) insurance companies. In 1872, the tax was extended to domestic (Minnesota) companies. The basic rate remains at 2%. In 2005, the tax rate on life insurance was reduced from 2% to 1.5% over four years.

In 1913, the fire marshal tax was enacted at a rate of 0.375% and was increased to 0.5% in 1937. In 2006, the fire marshal tax was repealed, and a 0.65% surcharge was enacted on homeowner's, commercial fire, and commercial non-liability insurance policies. In 2012, the surcharge rate was reduced from 0.65% to 0.5%. In 1934, a surcharge was enacted at a rate of 2% on fire, lightning, and sprinkler leakage premiums on property located in cities of the first class. The rate remains at 2%, and the surcharge is in addition to other taxes. A tax on surplus lines insurance premiums was enacted in 1963 at a rate of 2% and was increased to the current 3% rate in 1978. In 1992, a 1% premiums tax was imposed on previously-exempt health maintenance organizations and nonprofit health service plan corporations.

## *Tax Base*

For purposes of this study, the tax base is defined as gross premiums less return premiums received by domestic and foreign insurance companies on all direct business in Minnesota.

## *Computation of the Tax*

The 2% premiums tax is imposed on the gross premiums less return premiums received by domestic and foreign insurance companies on all direct business in Minnesota. A domestic company is one which is incorporated in Minnesota, and a foreign company is one which is incorporated in another state or country. The tax rate on life insurance is 1.5%, and lower rates apply to smaller mutual property and casualty insurance companies. Health maintenance organizations and nonprofit health service plan corporations are subject to a 1% tax on their gross premiums less return premiums received.

## *Exemptions*

### 12.1.01 Fraternal Benefit Societies

Minnesota Statutes, Section 297I.15, Subd. 10

Fraternal benefit societies or associations are exempt from the Minnesota gross premiums tax. These societies are nonprofit charitable organizations that provide life, sickness, and/or accident benefits for their members and their beneficiaries.

This exemption was enacted in 1907 and was last modified in 1985.

In 2022, 34 fraternal benefit societies did business in Minnesota.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the insurance premiums tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $6,400,000 | $6,600,000 | $6,800,000 | $7,000,000 |

### 12.1.02 Farmers' Mutual and Township Mutual Fire Insurance Companies (Surcharge on Fire Safety Premiums)

Minnesota Statutes, Section 297I.06, Subd. 2(a)

Farmers' mutual insurance companies and township mutual insurance companies are exempt from the surcharge on fire safety premiums. All other insurance companies doing business in Minnesota are required to pay the surcharge of 0.5% of premiums and assessments for homeowner's insurance policies, commercial fire policies, and commercial non-liability insurance policies.

This exemption was enacted in 2006 when the surcharge on fire safety premiums was enacted. It replaced the exemption from the fire marshal tax which was enacted in 1915. In 2012, the rate for the surcharge was reduced from 0.65% to 0.5%, effective July 1, 2013. In 2023, the fire safety surcharge was increased back to 0.65% from 0.5% effective July 1, 2023.

In 2022, 74 insurance companies qualified for this exemption.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the insurance premiums tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Special Revenue Fund | $600,000 | $600,000 | $600,000 | $700,000 |

## *Reduced Rates*

### 12.2.01 Health Maintenance Organizations and Nonprofit Health Service Plan Corporations

Minnesota Statutes, Section 297I.05, Subd. 5

Several sources of revenue fund Minnesota's health care access program, MinnesotaCare, including a 1% premiums tax imposed on health maintenance organizations and nonprofit health service plan corporations. The tax expenditure measures the difference between the 1% tax and the 2% tax that applies generally to insurance premiums.

Prior to legislation enacted in 1992, these entities were exempt from the premiums tax. A 1% premiums tax was enacted on these entities in 1992, effective January 1, 1996, and was imposed in 1996 and 1997. A series of law changes resulted in the tax not being imposed from 1998 through 2003. This provision was last modified in 2003 when exemptions were eliminated for premiums paid under medical assistance, general assistance medical care, and MinnesotaCare.

In 2022, 13 insurance providers benefited from this reduced rate.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the insurance premiums tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Health Care Access Fund | $127,600,000 | $134,300,000 | $140,700,000 | $147,000,000 |

### 12.2.02 Smaller Mutual Property and Casualty Insurance Companies

Minnesota Statutes, Section 297I.05, Subd. 2, 3, and 4

A tax rate of 1% applies to the premiums of farmers' mutual and township mutual insurance companies and to mutual property and casualty insurance companies with total assets of $5 million or less. A tax rate of 1.26% applies to the premiums of other mutual property and casualty companies with total assets of $1.6 billion or less on December 31, 1989. The tax expenditure measures the difference between these rates and the 2% rate that applies generally to insurance premiums.

From 1905 to 1987, mutual property and casualty insurance companies paid the 2% gross premiums tax on only their fire, lightning, and sprinkler leakage premiums and were exempt from paying the tax on all other types of premiums. In 1987, the exemption was repealed. In 1988, the rate of tax was phased down to 0.5% for 1992 and after. The current rates were adopted in 1995. These provisions were last modified in 2005.

In 2022, 124 mutual insurance companies benefited from this reduced rate.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the insurance premiums tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $13,800,000 | $14,200,000 | $14,700,000 | $15,100,000 |

### 12.2.03 Life Insurance

Minnesota Statutes, Section 297I.05, Subd. 14

The tax rate for life insurance premiums is 1.5%. The tax expenditure measures the difference between 1.5% and the general rate of 2%.

In 2005, the tax rate for life insurance was phased down from 2% to 1.5% over four years.

In tax year 2024, 320 life insurance companies benefited from this reduced rate.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the insurance premiums tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State General Fund | $23,300,000 | $24,100,000 | $24,900,000 | $25,600,000 |

## *Preferential Computation*

### 12.3.01 Smaller Mutual Property and Casualty Insurance Companies (Surcharge on Fire Safety Premiums)

Minnesota Statutes, Section 297I.06, Subd. 2(b)

Mutual property and casualty companies that qualify for a lower tax rate on their premiums (Item 12.2.02) have the option of paying the smaller of the 0.5% surcharge on fire safety premiums or the 0.5% fire marshal tax.

The 0.5% surcharge on fire safety premiums is imposed on gross premiums for homeowners' insurance policies, commercial fire policies, and commercial non-liability insurance policies. The 0.5% fire marshal tax was imposed on gross fire premiums.

In 2006, the 0.5% fire marshal tax was repealed and replaced by the 0.65% surcharge on fire safety premiums. At the same time, smaller mutual property and casualty insurance companies were given the option of paying the smaller of the new surcharge or the equivalent of the fire marshal tax. In 2012, the surcharge was reduced from 0.65% to 0.5%. Effective July 1, 2023, the rate returned to 0.65%. The tax expenditure measures the benefit these companies realize by choosing to pay the equivalent of the fire marshal tax compared to the surcharge.

Approximately 15 companies benefited from this provision in tax year 2022.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the insurance premiums tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Special Revenue Fund | $700,000 | $700,000 | $700,000 | $800,000 |

## *Credits*

### 12.4.01 Historic Structure Rehabilitation Credit

Minnesota Statutes, Section 290.0681

A credit is allowed equal to the federal credit for qualifying expenditures to rehabilitate a certified historic structure. The federal credit is a nonrefundable income tax credit equal to 20% of the qualifying expenditures. The state credit is a refundable credit equal to 20% of the qualifying expenditures and may be taken against the corporate franchise tax, individual income tax, or insurance premiums tax. The state credit may be assigned to another taxpayer.

Qualifications for the credit are determined under the provisions of Section 47 of the Internal Revenue Code as follows:

- A historic structure must be either individually registered in the National Register of Historic Places or certified by the Secretary of the Interior as having historic significance and located in a registered historic district.
- The structure must be used in a trade or business or be income-producing property. Rehabilitation expenditures must exceed the greater of $5,000 or the adjusted basis of the building. Costs to acquire a building or to enlarge a building do not qualify.
- The developer of the project must apply for the credit to the State Historic Preservation Office of the Department of Administration before rehabilitation begins. The credit is allowed after the application is approved and the project is completed.

This credit was enacted in 2010 and was scheduled to expire after fiscal year 2015. In 2013, the credit was extended through fiscal year 2021. In 2019, the credit was modified so that it is payable over five years rather than in one lump sum. In 2021, the credit was extended through fiscal year 2022. After expiring, the credit was revived and reenacted through fiscal year 2030 and applied retroactively to applications for allocation certificates submitted after June 30, 2022.

**Objective Statement:** The objective of the Historic Structure Rehabilitation Credit is to encourage the preservation of historic structures in Minnesota and to create and retain jobs related to the rehabilitation of historic structures in the state. The standard against which the effectiveness of the extension of the credit and modification of the effective date is to be measured is the number of jobs created through the rehabilitation of historic structures and the number of historic structures rehabilitated and placed in service. See Minnesota Session Law – 2013, Regular Session, Ch. 143 – H.F. No. 677, Art. 13, Sec. 22, Subd. 5.

## 12.4.02 Film Production Credit

Minnesota Statutes, Section 297I.20, Subd. 4 and 116U.27

A film production credit is allowed equal to 25% of eligible production costs paid in a taxable year.

An eligible project is a film that includes the promotion of Minnesota, for which the taxpayer expends at least $1,000,000 in the taxable year for eligible production costs and employs Minnesota residents to the extent practicable. Films include feature films, television or Internet pilots, programs, series, documentaries, music videos, and television commercials.

The credit is nonrefundable but may be carried forward for up to five years. The credit is assignable to another taxpayer. Total credits are limited to $24.95 million in each tax year. The credit was enacted in 2021 and expires after tax year 2024. The prior limit of $4.95 million was increased to $24.95 million each tax year, and the sunset was extended through tax year 2030.

Up to 10 taxpayers qualify for this credit in 2024.

**Revenue Neutral Rate:** Located in Item 2.6.05.

## 12.4.03 Housing Contribution Credit

Minnesota Statutes, Section 297I.20, Subd. 5; 290.0683 and 462A.40

A nonrefundable credit is allowed for contributions to a designated account in the Housing Development Fund administered by the Housing Finance Agency (HFA). The account is to be used for grants and loans for low- and moderate- income housing developments.

The credit is equal to 85% of contributions of at least $1,000 but not more than $2 million. Any unused credit may be carried over for up to 10 years.

Total credits are limited to $9.9 million in each year. The credit was enacted in 2021 and is effective for tax years 2023 through 2028.

**Objective Statement:** The objective of the Minnesota Housing Tax Credit (M.S. 290.0683) is to increase the development and availability of affordable housing to persons and families of low and moderate incomes in Minnesota.

**Revenue Neutral Rate:** Located in Item 2.6.06.

## 12.4.04 Short Line Railroad Credit

IRS Code Section 45G
Minnesota Statutes Sections 290.06 subd. 2c; 290.0695, and 297I.20 subd. 6

A federal credit for railroad maintenance was created in 2004. Minnesota created a credit against the individual income tax, corporate franchise tax, and insurance gross premiums tax equal to 50% of qualified costs for maintenance, reconstruction, or replacement of railroad infrastructure in 2023.

Class II (regional and short line railroads with an annual gross operating revenue between $42.4 million and $943.9 million) and Class III (local and switching railroads with an annual gross operating revenue of less than $42.4 million) railroads are eligible for the credit. In the case of a partnership or S corporation, the credit is passed through to each partner or shareholder. The credit cannot exceed $3,000 times the miles of track owned or leased by the railroad in Minnesota.

The credit is nonrefundable but may be carried forward for up to five years. The credit may be transferred under written agreement during the 5-year period.

This provision was enacted in 2023, effective beginning in tax year 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the insurance premiums tax rate would be negligible.

## 12.4.05 Credit for Guaranty Association Assessments

Minnesota Statutes, Section 297I.20, Subd. 1

An insurance company is allowed a credit against the premiums tax based on guaranty association assessments paid in one or more prior years.

When an insurance company becomes insolvent, any amounts that remain unpaid to its policyholders are paid through assessments that are imposed on solvent companies by a guaranty association. One guaranty association is authorized by Minnesota law to make assessments for property and casualty companies and another for life and health companies. When an insurance company pays an assessment to either of these associations, a credit equal to 20% of the assessment is allowed for each of the five subsequent years. If the credit exceeds the company's premiums tax for that year, the excess may be carried forward.

This credit was enacted in 1994.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the insurance premiums tax rate would be negligible.

*Less Than $50,000

# Chapter 13: Property Tax

## *Collections and History*

Net local property tax collections were $12.3 billion for property taxes payable in 2024. The property tax is collected by the counties and is distributed to the local units of government which impose the tax-counties, cities, townships, school districts, and special taxing districts.

In addition to the local tax, a state general property tax is levied on commercial, industrial, and seasonal recreational property. The tax is collected by the counties and remitted to the state. Revenues from the state property tax were $718 million in fiscal year 2024. The revenues go to the State General Fund.

The property tax was already in place when the first book of statutes was compiled for the Territory of Minnesota in 1851. The classification system was enacted in 1913 with four classes of property. In 1933, the number of classes was expanded to provide preferential treatment for homestead property.

In 1967, the state property tax levy was eliminated, and a portion of the revenues from the newly-enacted sales tax was distributed to local units of government. The state-paid homestead credit, the rent credit, and the senior citizen credit also were enacted in 1967.

Changes in the treatment of business personal property began in 1967, when livestock and farm machinery were exempted, and businesses were given the option to have either their inventories or their tools and machinery exempted. In 1971, the exemption for business property was expanded to include all inventories, tools, and machinery. Commercial and industrial equipment attached to and considered as real property, known as attached machinery, was exempted in 1973.

In 1971, levy limitations and local government aids were enacted which were important in determining the amount of the property tax levy. Modifications have been made to both of these programs since that time. Beginning with taxes payable in 1993, the general levy limit for county and city governments was repealed, and a “truth-in-taxation” system of reporting proposed levies to taxpayers and conducting levy hearings was established. Temporary levy limitations for counties and for cities with population over 2,500 were adopted for taxes payable in 2000, 2002 through 2004, 2009 through 2011, and 2014.

In 1988, several provisions were enacted that significantly altered features of the property tax system. Assessed value, calculated by multiplying classification percentages times estimated market value, was replaced by tax capacity. Tax capacities are based on class rates applied to market values, and local tax rates now are expressed as percentages of total tax capacity in a taxing area, rather than as mill rates.

A change enacted in 1991, specified that referendum levies are spread against market value instead of tax capacity, which is referred to as referendum market value. Since that time the market value against which referendum levies are spread has been reduced for certain agricultural and other property.

In 2001, the state-determined general education levy was eliminated, and a state general property tax was enacted and is imposed on only commercial, industrial, and seasonal recreational property.

## *Tax Base*

The tax base for the property tax is the market value of real property. Generally, market value is the estimated selling price of the property. Other approaches to determining market value are considered to be substitutes for selling price and, therefore, are not considered to be tax expenditures.

It should be noted that the impact of a property tax expenditure affects the distribution of the tax rather than the total yield of the tax. The fiscal year impact represents a shift in tax burden rather than a reduction in revenue. An exemption, class rate, or other preferential provision lowers the total tax capacity and results in a higher tax rate applicable to all taxable property. Although the total yield from the tax is not affected, the tax is shifted from preferential to non-preferential property.

## *Computation of the Tax*

The taxable amount (tax capacity, which is market value times the class rate, or referendum market value) is determined by statute. The total yield of the tax is determined by the unit of government which imposes the tax. The governing body of the local unit, such as the school board, the county board, or the city council, determines the amount of the levy and in so doing must take into account many factors, including the level of services provided, mandated programs, debt service, any levy limitations, and other sources of revenue such as local government aids.

The final levy based on tax capacity is divided by the total taxable tax capacity of the taxing district to determine the district's local tax rate. For each parcel, the tax capacity is multiplied by the aggregate local tax rate of the county, city or township, school district, and any special taxing districts to determine the gross tax.

The referendum levy is divided by referendum market value to determine the district's local referendum market value tax rate. For each parcel, the referendum market value is multiplied by the referendum tax rate for the school district and any other district applicable to that property. The referendum and tax capacity taxes are combined to obtain the total gross tax on the parcel.

Net tax is determined by subtracting from gross tax any applicable credits, including disaster credit, power line credit, agricultural preserves credit, enterprise zone credit, disparity reduction credit, conservation tax credit, agricultural market value credits, taconite homestead credit, supplemental homestead credit, and school building bond agricultural credit. Most of these credits are listed on the expenditure side of the budget and therefore are not included in this report.

Additional tax relief is provided to qualifying homeowners and renters through the property tax refund. The property tax refund is a "circuit-breaker" program based on the net homestead tax or 17% of rent paid and on household income, with the amount of refund phasing out as income increases. Another refund is available to homeowners whose net property tax increases by more than 12% from the previous year. These refunds are paid directly to claimants by the state.

## *Exemptions*

### 13.1.01 Exempt Real Property

Minnesota Statutes, Sections 272.02

Property exempted from the property tax by statute is included in the estimates below. The estimates do not include property that is exempt under either the Minnesota Constitution or federal law, including churches, academies, colleges, universities, and American Indian reservations.

Since 1926, county assessors have been required to value exempt real property every six years. The most recent valuation of exempt property took place in 2022. The estimates are based on the 2022 values and apply one of three class rates, as deemed most appropriate: a 2.0% class rate for commercial-industrial property, a 1.25% class rate for apartment property, or a 1% class rate for rural vacant land. Average tax rates by county were computed to arriave at the estimated net property tax figures below In computing the estimates, the tax rates were adjusted to take into account the additional taxable value that would result if the property were not exempt.

The estimates include only real property because most personal property is exempt, including household goods, commercial and industrial personal property (tools, machinery, inventories), farm machinery and livestock, agricultural products, and attached machinery.

Certain types of property have been exempt from taxation since at least 1851, when the first book of statutes was compiled for the Territory of Minnesota. The exempt property provisions were last modified in 2021.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Hospitals | $160,000,000 | $163,200,000 | $166,400,000 | $169,800,000 |
| Public Burial Grounds | 5,700,000 | 5,800,000 | 5,900,000 | 6,100,000 |
| Charitable Institutions | 120,400,000 | 122,800,000 | 125,200,000 | 127,700,000 |
| State and Local Forests, Parks, and Wildlife Refuges | 21,200,000 | 21,600,000 | 22,100,000 | 22,500,000 |
| Public Property Used for Public Purposes | 776,200,000 | 791,700,000 | 807,600,000 | 823,700,000 |
| Other Exempt Property | 2,200,000 | 2,300,000 | 2,300,000 | 2,300,000 |
| Total–Shift in Tax Burden | $1,085,700,000 | $1,107,400,000 | $1,129,500,000 | $1,152,100,000 |

## 13.1.02 Homestead Exclusion for Veterans with a Disability

Minnesota Statutes, Section 273.13, Subd. 34

A homestead owned by a military veteran is allowed an exclusion in determining taxable market value if the veteran has a certified service-connected disability of 70% or more. The exclusion is $300,000 of market value for a veteran with a total and permanent disability, and it is $150,000 for a veteran with a disability rating of 70% or more.

If the spouse continues to live in the homestead after the death of the veteran, the exclusion remains and may be transferred to a different homestead under certain conditions. If the disabled veteran does not own the homestead, the exclusion may be allowed to the primary family caregiver. To qualify, the family caregiver must be approved by the U.S. Department of Veterans Affairs as the primary provider of personal care services for the disabled veteran.

This exclusion was enacted in 2008. It was last modified in 2023.

Approximately 25,900 parcels received this exclusion in 2024.

**Objective Statement:** The objective of the Homestead Exclusion for Veterans with a Disability Property Tax Exclusion is to help ease the burdens of war for those among our state's citizens who bear those burdens most heavily. See Minnesota Statutes Sec. 273.13, Subd. 34(l).

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $50,000,000 | $54,100,000 | $56,800,000 | $59,600,000 |

## 13.1.03 Homestead Market Value Exclusion

Minnesota Statutes, Section 273.13, Subd. 35

An exclusion from market value is allowed for property classified as residential homestead or the portion of an agricultural homestead consisting of the house, garage, and surrounding one acre. The exclusion is 40% of the first $76,000 of market value minus 9% of the market value between $76,000 and $413,800. The exclusion does not apply to a homestead valued at $413,800 or more.

This exclusion was enacted in 2011, effective beginning with property taxes payable in 2012. A homestead market value credit had been in effect for taxes payable in 2002 through 2011.

Beginning with taxes payable 2025, the exclusion calculation will change due to law changes. The exclusion will be 40% of the first $95,000 of market value minus 9% of the market value between $95,000 and $517,200. The exclusion does not apply to a homestead valued at $517,200 or more.

Approximately 1,123,000 homesteads received this exclusion in 2024. The number of homesteads receiving the exclusion is expected to increase to 1,320,000 in 2025 due to the calculation changes.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $94,700,000 | $86,300,000 | $175,600,000 | $170,800,000 |

## *Preferential Computations*

### 13.2.01 Classification System and Alternative Tax Bases

Minnesota Statutes, Sections 273.13

Due to the classification system and alternative tax bases, some types of property are treated preferentially compared to other types of property. The classification system and alternative tax bases are tax expenditures because properties with the same market value are not treated the same.

State and local property tax levies are distributed among property using three different tax bases: net tax capacity, referendum market value, and the state general property tax.

Net tax capacity levies represent 82% of all property taxes statewide. Properties are classified based on the use and ownership of the property. The market value of the property is multiplied by the appropriate class rate(s), yielding the tax capacity for each parcel.

Referendum market value levies represent 12% of all property taxes statewide. These voter-approved property tax levies are distributed among property based on an alternative tax base, referendum market value. This tax base generally mirrors property market value, rather than tax capacity. One exception is that, for property with a classification rate of less than 1%, only a portion of the market value is included in the referendum tax base. A second exception is that agricultural land, rural vacant land, and seasonal recreational property are not subject to most of the referendum levies.

The state general property tax represents 6% of all property taxes statewide. The tax is levied on only two types of property: commercial-industrial and seasonal recreational. The levy amount is $716,990,000 for commercial-industrial property and $41,690,000 for seasonal recreational property.

In the tables on the next two pages, the distribution of each of the three types of property taxes was recalculated using a base of taxable market value and a uniform rate. The distribution of the state general property tax shown here is for illustration only because the tax has never been applied to any property other than commercial-industrial and seasonal recreational. The estimates reflect the difference in tax that would result from uniform treatment. The sum of the increases and decreases does not equal zero due to rounding and differences in the computation of some small credits. Positive dollar amounts are tax expenditures, that is, the tax increases that would occur if one class rate were applied to all types of property. The negative amounts are not tax expenditures but show the other side of the shifts in tax burden.

The property tax classification system was enacted in 1913 and was last modified in 2017. Referendum market value was enacted in 1991 and was last modified in 2011. The state general property tax was enacted in 2001 and was last modified in 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the property tax classification rate could be adjusted to 1.119%.

## 13.2.02 Green Acres Treatment of Agricultural Land

Minnesota Statutes, Section 273.111

The Minnesota Agricultural Property Tax Law, known as "green acres", provides for preferential and deferred assessment of qualifying agricultural land consisting of 10 or more acres. A qualifying parcel is valued according to its agricultural use rather than a higher value that would result from nonagricultural use. When green acres property no longer qualifies as such or is sold, taxes are due equal to the amount by which the preferential valuation has reduced the property tax for the previous three years.

The fiscal impact measures the increase in net property tax that would result from valuing the green acres property at its highest and best use compared to its agricultural use.

This provision was enacted in 1967. Several revisions have been made to the program, the last of which occurred in 2011.

Approximately 3,000,000 acres received "green acres" treatment in 2024.

**Objective Statement:** The objective of the Green Acres Treatment of Agricultural Land Property Tax Preferential Computation is to encourage and preserve farms by mitigating the property tax impact of increasing land values due to non-agricultural economic forces. See Minnesota Statutes Sec. 273.111, Subd. 2a.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $25,000,000 | $25,500,000 | $25,800,000 | $25,800,000 |

## 13.2.03 Open Space Property

Minnesota Statutes, Section 273.112

Private recreational, social, open space, and park land is given preferential valuation and tax deferral as long as it meets certain criteria. For property tax purposes, the property is valued at its current use rather than at a higher value that would reflect its potential use. Qualifying property includes golf courses, ski areas, and archery and firearms ranges. When the open space property no longer qualifies for preferential valuation, taxes are due equal to the amount by which the preferential valuation reduced the tax for the previous seven years.

The Minnesota Open Space Property Tax Law was enacted in 1969. Several changes have been made since enactment, and this provision was last modified in 2005.

Approximately 290 parcels received preferential valuation under this provision in 2024.

**Objective Statement:** The Minnesota Open Space Property tax law is intended to encourage the preservation and development of private outdoor, recreational, open space, and park land which would otherwise not occur or have to be provided by governmental authority.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $15,900,000 | $15,900,000 | $16,800,000 | $17,500,000 |

## 13.2.04 Tax Increment Financing

Minnesota Statutes, Sections 469.174–469.1799

Under tax increment financing, property taxes attributable to the increased value from a development project are used for development costs. The tax expenditure is equal to the levy that goes to the tax increment district rather than the general property tax.

A tax increment financing district can be established by an authorized entity, such as a municipality or a housing and redevelopment authority, to finance economic development, housing, redevelopment, or other types of projects. Bonds may be issued for specified costs of the project. In other cases, the local authority and the developer enter into a pay-as-you-go financing agreement in which the developer initially incurs all or a portion of the development costs, and the authority reimburses the developer over a period of years from the tax increments.

The original value of the property is certified when the district is established. An amount equal to the property tax on the current-year market value is imposed on the property, but only the portion based on its original value is used for the general property tax. The difference is the tax increment which is used to pay debt service on the bonds or to reimburse the developer. The duration of a district is limited, depending upon the type of project. After the project debt is paid or the district expires, the property is subject to the regular tax on its total market value.

The preferential treatment was enacted in 1947 and was last amended in 2023.

In 2024, 340 communities received increment from tax increment financing districts.

**Objective Statement:** The objective of the Tax Increment Financing Preferential Computation is to finance redevelopment, housing, or economic development in municipalities through the use of tax increment generated from the captured net tax capacity in the tax increment financing district. See Minnesota Statutes Sec. 469.174, Subd. 9.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $253,000,000 | $279,000,000 | $276,000,000 | $282,000,000 |

### 13.2.05 Metropolitan Agricultural Preserves Land

Minnesota Statutes, Section 473H.10

Agricultural land in the seven-county metropolitan area is eligible for preferential valuation if it is within an agricultural preserve. To qualify, the owner of land that is in long-term agricultural use must receive approval from the local unit of government and must sign a covenant that the land will remain in agricultural use. Generally, the land must be at least 40 acres and used in the production of agricultural products. Wetlands, pasture, and woodlands accompanying such land also qualify.

Agricultural preserve land is valued solely according to its agricultural use, rather than at a higher value that would reflect its potential use. The preferential valuation continues indefinitely, even if ownership changes. A tax credit is also allowed (Item 13.3.03). The expiration of an agricultural preserve cannot take place until at least eight years after notice is given by either the owner or the local unit of government. Previous tax reductions are not repaid.

The Metropolitan Preserves Act was adopted in 1980 and was last amended in 2023.

Approximately 3,000 parcels covering approximately 190,000 acres received preferential valuation under this provision in 2024.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $2,000,000 | $1,600,000 | $1,700,000 | $1,700,000 |

## *Credits*

### 13.3.01 Taconite Homestead Credit

Minnesota Statutes, Section 273.135

Homestead property within the taconite tax relief area receives a credit against the property tax. Within certain municipalities, the credit is 66% of the net tax, with a maximum credit of $315.10. Elsewhere, it is 57% of the net tax, with a maximum credit of $289.80. Starting with taxes payable in 2025, both the 66% and 57% limit will increase to $515.00.

Taconite mining companies pay the taconite production tax in lieu of the property tax. Most of the proceeds from the production tax are distributed as aid payments to local governments in the taconite tax relief area. This credit is also funded from the proceeds of the production tax.

The taconite homestead credit was enacted in 1969 and was last modified in 2024.

Approximately 38,000 homesteads received this credit in 2024.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $11,300,000 | $14,800,000 | $18,400,000 | $18,400,000 |

## 13.3.02 Power Line Credit

Minnesota Statutes, Sections 273.42 and 273.425

The owner of land that is a homestead, agricultural land, residential rental property, or seasonal residential recreational property receives a property tax credit if the property is crossed by an electric transmission line of 200KV or more which was constructed after July 1, 1974. The credit is limited to 20% of the gross property tax for the parcel. If the parcel exceeds 40 acres, the maximum credit is 20% of a portion of the tax.

The power line credit was enacted in 1979 and was last modified in 2003.

Approximately 4,100 parcels received this credit in 2024.

**Objective Statement:** The objective of the Power Line Credit is to compensate affected landowners for the negative impacts of having qualifying high-voltage transmission lines on their property.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $700,000 | $700,000 | $700,000 | $700,000 |

## 13.3.03 Metropolitan Agricultural Preserves Credit

Minnesota Statutes, Section 473H.10

A credit against the property tax is allowed for agricultural land and nonresidential buildings in the metropolitan agricultural preserves program. The credit is based on the difference in tax computed at the local tax rate and the tax computed at 105% of the previous year's statewide average local tax rate for property in townships. The minimum credit is $1.50 per acre.

Agricultural preserve land is also allowed preferential valuation. See Item 13.2.05, which includes a description of the agricultural preserves program.

The credit was enacted as part of the metropolitan agricultural preserves program in 1980. The $1.50 minimum was enacted in 1993.

Approximately 3,000 parcels across six counties received this credit in 2024.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $400,000 | $500,000 | $500,000 | $500,000 |

## 13.3.04 Conservation Tax Credit

Minnesota Statutes, Chapter 40A and Section 273.119

A credit of $1.50 per acre is allowed against the property tax for land located in an agricultural preserve created under Minnesota Statutes, Chapter 40A. This program is for counties outside the seven-county metropolitan area.

This credit was enacted in 1986 and was last amended in 1990.

Approximately 1,500 parcels covering about 120,000 acres received preferential valuation under this provision in 2024.

**Revenue Neutral Rate:** There is no revenue neutral rate applicable for this tax expenditure.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Shift in Tax Burden | $200,000 | $200,000 | $200,000 | $200,000 |

# Chapter 14: Motor Vehicle Registration Tax

## *Collections and History*

In fiscal year 2024, a total of $948.8 million in motor vehicle registration tax was collected. All the proceeds from this tax are deposited in the Highway User Tax Distribution Fund.

A motor vehicle registration tax was first enacted in 1911 at a rate of $1.50 per vehicle. In 1921, a tax of 2% of value was enacted, with the minimum tax determined by the weight category of the passenger car or truck.

From 1921 to 1949, the tax was based primarily on value. In 1949, a tax based solely on weight was adopted, and for trucks the tax continues to be determined by weight.

For passenger cars, a tax of $10 plus 1.25% of the base value was adopted in 1971. The depreciation schedule for passenger cars was changed significantly in 1989, and in 2000 the tax on passenger cars was limited to a maximum amount based on the renewal period. In 2008, the pre-1989 depreciation schedule was reinstated, and the maximum taxes were eliminated. In 2020, the tax for passenger cars was increased to $10 plus 1.285% of the base value. Effective July 1, 2023, the tax increased to 1.575% and the depreciation schedule for motor vehicles changed.

## *Tax Base*

The tax base for the motor vehicle registration tax is motor vehicles that use the public streets and highways in Minnesota. Therefore, the exemptions for farm machinery and other off-road vehicles are not considered tax expenditures.

The tax on passenger cars is based on value, and the tax on trucks and buses is based on weight. Although arguments could be made for using either the weight system or the value system in the definition of the tax base, for purposes of this study one system is considered to be a replacement for the other.

## *Computation of the Tax*

The tax on passenger cars, pickup trucks, and vans is $10 plus 1.575% of the base value. Base value is the manufacturer's suggested retail price, including destination charges but excluding separately-stated options. The percentage of base value used to compute the tax decreases with the age of the vehicle: 100% in the first year, declining by five percentage points for the second and third year, 10 percentage points for years four through eight, and 15 percentage points for years nine and 10 so that it reaches 10% in the 10$^{th}$ year. The flat tax for vehicles over 10 years old and the minimum tax for all vehicles are both $20.All-electric vehicles are subject to an additional $75 surcharge.

The tax on trucks, tractors, and buses is based on the type, weight, and age of the vehicle. A minimum tax applies, the amount of which is determined by the type of vehicle.

The tax is paid when the vehicle is first registered and annually thereafter upon renewal.

## *Exemptions*

### 14.1.01 Local Government Vehicles

Minnesota Statutes, Section 168.012, Subd. 1, Subd. 6, and Subd. 10

Vehicles owned or leased by a political subdivision of the state are exempt from the motor vehicle registration tax. Exempt vehicles include ambulances, fire trucks, utility fleets, police vehicles, and buses owned by city transit companies. Publicly-owned school buses are estimated separately in Item 14.1.02.

The exemption for government vehicles was enacted in 1921 and was last modified in 1996.

An estimated 48,100 vehicles qualify for this exemption.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle registration tax rate could be reduced to 1.552%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $14,000,000 | $14,100,000 | $14,700,000 | $15,600,000 |

### 14.1.02 School Buses

Minnesota Statutes, Section 168.012, Subd. 1(a)(2) and Subd. 10

Vehicles owned or leased and used by educational institutions for the sole purpose of transporting students to and from those institutions are exempt from the motor vehicle registration tax.

Government owned or leased buses other than school buses are included in the exemption for government vehicles (Item 14.1.01). School buses used exclusively for student transportation under contract with a school district are not exempted from the tax but are subject to a flat tax of $25 instead of the regular tax (Item 14.2.01).

This exemption was enacted in 1933 and was extended to leased vehicles in 1982.

An estimated 5,300 vehicles qualify for this exemption.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle registration tax rate could be reduced to 1.574%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $900,000 | $1,000,000 | $1,100,000 | $1,100,000 |

## 14.1.03 Nonresident Military Personnel

Minnesota Statutes, Section 168.04, Subd. 1

An exemption from the motor vehicle registration tax is allowed for a motor vehicle that is owned by a nonresident who is a member of the Armed Forces stationed in Minnesota if the following four conditions are met: the vehicle is properly registered in another state; the owner is a resident of the state in which the vehicle is registered; the vehicle is used only for the owner's personal transportation; and the vehicle is subject to all other provisions of law applicable to vehicles owned by Minnesota residents.

This provision was enacted in 1967 and was last modified in 1981.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle registration tax rate could be reduced to 1.575%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $300,000 | $300,000 | $400,000 | $400,000 |

## 14.1.04 Medal of Honor Recipients and Former Prisoners of War

Minnesota Statutes, Sections 168.031(b), 168.124 and 168.125

Congressional Medal of Honor recipients may obtain special license plates with "Medal of Honor" on them, and former prisoners of war may obtain special license plates with "EX-POW" on them. In each case, the recipient is issued these plates, as well as all renewals, exempt from the motor vehicle registration tax.

The exemption for medal of honor recipients was enacted in 1983. The exemption for former prisoners of war was enacted in 1993.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the motor vehicle registration tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | * | * | * | * |

## 14.1.05 Disabled Veterans

Minnesota Statutes, Section 168.031(b)

A motor vehicle which has been furnished free, in whole or in part, by the United States government to a disabled war veteran is exempt from the motor vehicle registration tax.

This provision was enacted in 1941,modified in 1971, and expanded in 2023 to all total service-connected disabled veterans.

Approximately 10,200 vehicles qualify for this exemption.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle registration tax rate could be reduced to 1.573%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $1,500,000 | $1,700,000 | $1,900,000 | $2,000,000 |

*Less Than $50,000

## 14.1.06 Transport of Disabled Persons by Nonprofit Charities

Minnesota Statutes, Section 168.012, Subd. 1(a)(4)

An exemption from the motor vehicle registration tax is provided for a motor vehicle owned by a nonprofit charity and used exclusively to transport disabled persons for charitable, religious, or educational purposes.

This exemption was enacted in 1987 and was changed in 2005 to include charitable and religious purposes in addition to educational purposes.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the motor vehicle registration tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $100,000 | $100,000 | $100,000 | $100,000 |

## 14.1.07 Driver Education Programs at Nonpublic High Schools

Minnesota Statutes, Section 168.012, Subd. 1(a)(3)

Vehicles used solely in driver education programs at nonpublic high schools are exempt from the motor vehicle registration tax.

This provision was enacted in 1990.

Four non-public high schools have approved driver education programs.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the motor vehicle registration tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | * | * | * | * |

## 14.1.08 Commercial Driving Schools

Minnesota Statutes, Section 168.012, Subd. 1(a)(7)

A vehicle owned by a licensed commercial driving school, or by an employee of the school, and used exclusively for driver education and training is exempt from the motor vehicle registration tax.

This exemption was enacted in 1999 and was last modified in 2000.

Approximately 150 commercial driving schools in Minnesota qualify for this exemption.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the motor vehicle registration tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $200,000 | $200,000 | $300,000 | $300,000 |

*Less Than $50,000

### 14.1.09 Private Ambulance Services

Minnesota Statutes, Section 168.012, Subd. 1(a)(6)

Ambulances owned by private ambulance services licensed under Minnesota Statutes, Section 144E.10, are exempt from the motor vehicle registration tax. To qualify, the appearance of the ambulance must be unmistakable.

This exemption was enacted in 1990. Ambulances owned by local units of government have been exempt since 1921 and are included in Item 14.1.01.

Approximately 590 ambulances qualify for this exemption.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle registration tax rate could be reduced to 1.572%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $1,800,000 | $1,800,000 | $1,800,000 | $1,800,000 |

## *Preferential Computation*

### 14.2.01 Buses Contracted for Student Transportation

Minnesota Statutes, Section 168.013, Subd. 18

An annual tax of $25 applies to each school bus used exclusively for student transportation under contract with a school district or used for nonprofit educational institutions. The $25 tax is lower than the regular tax on buses which is based on weight.

School buses owned by the educational institutions are exempt from the registration tax and are estimated separately in Item 14.1.02.

This provision was enacted in 1971.

Approximately 7,400 school buses qualified for this provision in 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the motor vehicle registration tax rate could be reduced to 1.574%.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| Highway User Tax Distribution Fund | $400,000 | $400,000 | $400,000 | $400,000 |

# Chapter 15: Aircraft Registration Tax

## *Collections and History*

In fiscal year 2024, revenues from the aircraft registration tax were $3.9 million. All the proceeds from this tax go into the State Airports Fund.

The aircraft registration tax was enacted in 1945, and the basic structure and rate of the tax remained the same until 2013, when the structure of tax was changed.

Until 2014, the tax was 1% of value. The value was the base price of the aircraft, which was the manufacturer's list price, reduced for depreciation. The depreciation allowed was 10% for the second year and 15% for successive years. The value was subject to a minimum tax which was the greater of 25% of the tax computed on the original base price or $50.

## *Tax Base*

The tax base for the aircraft registration tax is the value of noncommercial aircraft which regularly use the airspace over Minnesota and airports in Minnesota. Technically, the base applies to aircraft operating without a certificate of convenience and necessity issued by the United States Department of Transportation.

## *Computation of the Tax*

The aircraft registration tax is imposed upon aircraft which are used privately and which use the airspace over Minnesota and airports in Minnesota.

Since 2014, the tax is determined by a schedule according to the base price of the aircraft. Because depreciation does not apply, the tax is the same amount each year.

| Aircraft Base Price | Annual Tax |
|---:|---:|
| Less than $500,000 | $100 |
| 500,000–999,999 | 200 |
| 1,000,000–2,499,999 | 2,000 |
| 2,500,000–4,999,999 | 4,000 |
| 5,000,000–7,499,999 | 7,500 |
| 7,500,000–9,999,999 | 10,000 |
| 10,000,000–12,499,999 | 12,500 |
| 12,500,000–14,999,999 | 15,000 |
| 15,000,000–17,499,999 | 17,500 |
| 17,500,000–19,999,999 | 20,000 |
| 20,000,000–22,499,999 | 22,500 |
| 22,500,000–29,999,999 | 25,000 |
| 25,000,000–27,499,999 | 27,500 |
| 27,500,000–29,999,999 | 30,000 |
| 30,000,000–39,999,999 | 50,000 |
| 40,000,000 or more | 75,000 |

The tax is paid when the aircraft is first registered and annually thereafter.

## *Exemption*

### 15.1.01 Civil Air Patrol Aircraft

Minnesota Statutes, Section 360.55, Subd. 3 and 360.531, Subd. 2

Aircraft owned and used solely in the transaction of official business by the Civil Air Patrol are exempt from the aircraft registration tax.

This exemption was enacted in 1957.

25 aircraft currently are allowed an exemption under this provision.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the aircraft registration tax rate would be negligible.

| Fiscal Year | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|
| State Airports Fund | * | * | * | * |

## *Preferential Computation*

### 15.2.01 Maximum Tax for Agricultural Aircraft

Minnesota Statutes, Section 360.55, Subd. 8 and Section 360.531, Subd. 2

The aircraft registration tax is a maximum of $500 for aircraft registered with the Federal Aviation Administration as restricted category aircraft used for agricultural purposes. To qualify, the aircraft must be owned and operated solely for agricultural operations and purposes. The fiscal impact measures the difference between the $500 and the tax that would otherwise be imposed.

This provision was enacted in 1999.

Ten aircraft received this tax benefit in fiscal year 2024.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the change in the aircraft registration tax rate would be negligible.

# Chapter 16: Cannabis Gross Receipts Tax

## *Collections and History*

Revenues from the cannabis gross receipts tax totaled $11.6 million in fiscal year 2024. Twenty percent of the revenue from the cannabis gross receipts tax is deposited in the Local Government Cannabis Aid Account within the Special Revenue Fund. Remaining revenues from the cannabis gross receipts tax go into the State General Fund.

The Minnesota cannabis gross receipts tax was enacted in 2023 and became effective on July 1, 2023, at a rate of 10.0%.

## *Tax Base*

For purposes of this study, the tax base for the cannabis gross receipts tax is defined as the gross receipts from the retail sale of cannabis products to the final user.

Items purchased for resale in the regular course of business are not included in the tax base because they are not a sale to the final user. In agricultural and industrial production, the purchases of raw materials, and products consumed directly in the production process are considered to be for resale, and therefore the exemption of these items is not a tax expenditure.

## *Computation of the Tax*

The cannabis gross receipts tax is imposed on the gross receipts from taxable retail sales of cannabis products made by any person in Minnesota. The complementary use tax is imposed on the storage, use, distribution, or consumption in Minnesota of taxable cannabis products unless the Minnesota cannabis gross receipts tax was paid on the sales price. The rate for both the cannabis gross receipts tax and the use tax is 10.0%.

Generally, a retail sale of a cannabis product is subject to the tax unless it is specifically exempted by law. Taxable sales also include: the purchase of a cannabis or THC-infused beverage that is consumed on-site.

The tax is imposed on the sales price of the item, which is defined as the total consideration valued in money, whether paid in money or otherwise. Exclusions from the sales price include property taken in trade for resale, cash discounts, and separately-stated interest, finance, or carrying charges.

If a cannabis product subject to tax is included in a bundled transaction, the entire sales price of the bundled transaction is subject to the cannabis gross receipts tax.

The cannabis gross receipts tax is paid by the purchaser to the seller; the seller collects and remits the tax to the state. The use tax is paid directly by the purchaser to the state.

## *Exemption*

### 16.1.01 Out of State Consumer Purchases

Minnesota Statutes, Section 295.81, Subd. 4(a)

The cannabis gross receipts use tax does not apply to the possession, use, or storage of taxable cannabis products if:

(1) the taxable cannabis products have an aggregate cost in any calendar month to the customer of $100 or less, and

(2) the taxable cannabis products were carried into this state by the customer.

This provision was enacted in 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the cannabis gross receipts tax rate could be reduced to 6.8%.

| Fiscal Year | | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|---|
| State Fund | Cannabis | $5,500,000 | $5,600,000 | $5,700,000 | $5,800,000 |

### 16.1.02 Home Grown Cannabis

Minnesota Statutes, Section 342.09
Minnesota Statutes 2023, Section 295.81

Minnesota Statutes, Section 342.09, establishes the regulatory framework for personal cannabis cultivation. The law permits up to eight cannabis plants per household, with a maximum of four mature plants at any given time. Cultivation must occur in a secure, enclosed space not visible to the public. These regulations aim to balance personal use rights with public safety concerns.

Homegrown cannabis for personal use is exempt from taxation in Minnesota. The state's cannabis tax laws, such as Minnesota Statutes 2023, Section 295.81, focus on commercial sales and retail distribution, applying taxes to gross receipts from these transactions. This distinction ensures that individuals growing cannabis for personal use are not subject to taxation on their plants.

This provision was enacted in 2023.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the cannabis gross receipts tax rate could be reduced to 5.3%.

| Fiscal Year | | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|---|
| State Fund | Cannabis | $10,200,000 | $10,300,000 | $10,400,000 | $10,400,000 |

## 16.1.03 Medical Cannabis

Minnesota Statutes, Section 152.22, Subdivision 6
Minnesota Statutes, Section 152.22

Minnesota's medical cannabis program was established in 2014 and was limited to non-smokable forms for a narrow list of conditions. Significant expansion came in 2021 which broadened the definition of "medical cannabis" to include dried raw cannabis and infused edibles. The program's qualifying conditions have also been expanded.

This provision was most recently modified in 2023 with the legalization of recreational cannabis.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the cannabis gross receipts tax rate could be reduced to 6.0%.

| Fiscal Year | | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|---|
| State Fund | Cannabis | $7,900,000 | $8,700,000 | $9,200,000 | $9,700,000 |

## 16.1.04 Cannabis Sold on Tribal Lands

Minnesota Statutes, Section 295.81, Subd. 4(d)
Minnesota Statutes, Section 297A.67, Subd. 39

In 2014, the state legalized medical cannabis for non-smokable forms, later expanding the program in 2021 to include raw cannabis and edibles. Recreational cannabis was legalized in 2023. Sales of recreational cannabis are subject to the state sales tax and the cannabis gross receipts tax. Medical cannabis is exempt from both the state sales tax and the cannabis gross receipts tax (See Item 16.1.03).

Sales of cannabis made in Indian country (United States Code, title 18, section 1151), by a cannabis business licensed by a Minnesota Tribal government (Minnesota Statutes, Sec. 3.9228, Subd. 1, Paragraph f) are exempt from the cannabis gross receipts tax and the state sales tax.

Any cannabis gross receipts use tax owed on taxable cannabis products purchased on Tribally regulated land from a cannabis business licensed by a Minnesota Tribal government is also exempt.

**Revenue Neutral Rate:** If the tax expenditure were repealed, the cannabis gross receipts tax rate could be reduced to 9.8%.

| Fiscal Year | | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|---|
| State Fund | Cannabis | $200,000 | $1,000,000 | $2,200,000 | $3,200,000 |

# Appendix A: Minnesota Statute Requiring the Tax Expenditure Budget

## *270C.11 Tax Expenditure Budget.*

Subdivision 1.**Statement of purpose.** State governmental policy objectives are sought to be achieved both by direct expenditure of governmental funds and by the granting of special and selective tax relief or tax expenditures. Both direct expenditures of governmental funds and tax expenditures have an effect on the ability of the state and local governments to lower tax rates or to increase expenditures. As a result, tax expenditures should receive a regular and comprehensive review by the legislature as to (1) their total cost, (2) their effectiveness in achieving their objectives, (3) their effect on the fairness and equity of the distribution of the tax burden, and (4) the public and private cost of administering tax expenditure financed programs. This section is intended to facilitate a regular review of the state and local tax expenditure budget by the legislature by providing for the preparation of a regular biennial tax expenditure budget.

Subd. 2.**Preparation; submission.** The commissioner shall prepare a tax expenditure budget for the state. The tax expenditure budget report shall be submitted to the legislature by November 1 of each even-numbered year.

***[See Note.]***

Subd. 3.**Period covered.** The report shall include estimates of annual tax expenditures for, at a minimum, a three-year period including the two-year period covered in the governor's budget submitted in the preceding January pursuant to section 16A.11.

Subd. 4.**Contents.** (a) The report shall detail for each tax expenditure item:

(1) the amount of tax revenue forgone;

(2) a citation of the statutory or other legal authority for the expenditure;

(3) the year in which it was enacted or the tax year in which it became effective;

(4) the purpose of the expenditure, as identified in the enacting legislation in accordance with section 3.192 or by the Tax Expenditure Review Commission;

(5) the incidence of the expenditure, if it is a significant sales or income tax expenditure; and

(6) the revenue-neutral amount by which the relevant tax rate could be reduced if the expenditure were repealed.

(b) The report may contain additional information which the commissioner considers relevant to the legislature's consideration and review of individual tax expenditure items. This may include but is not limited to analysis of whether the expenditure is achieving that objective and the effect of the expenditure on the administration of the tax system.

***[See Note.]***

Subd. 5.**Revenue estimates; legislative bills.** Upon reasonable notice from the chair of the house of representatives or senate tax committee that a bill is scheduled for hearing, the commissioner shall prepare an estimate of the effect on the state's tax revenues which would result from the passage of a legislative bill establishing, extending, or restricting a tax expenditure. These revenue estimates shall contain the same information as provided in subdivision 4 for expenditure items contained in the tax expenditure budget, as appropriate.

Subd. 6.**Definitions.** For purposes of this section, the following terms have the meanings given:

(1) "business tax credit" means:

(i) a credit against the corporate franchise tax claimed by a C corporation; or

(ii) a credit against the individual or fiduciary income tax claimed by a pass-through entity that is allocated to its partners, members, or shareholders;

(2) "pass-through entity" means a partnership, limited liability corporation, or S corporation;

(3) "significant tax expenditure" means a tax expenditure, but excluding any tax expenditure that:

(i) is incorporated into state law by reference to a federal definition of income;

(ii) results in a revenue reduction of less than $10,000,000 per biennium; or

(iii) is a business tax credit;

(4) "tax expenditure" means a tax provision which provides a gross income definition, deduction, exemption, credit, or rate for certain persons, types of income, transactions, or property that results in reduced tax revenue, but excludes provisions used to mitigate tax pyramiding;

(5) "tax" means any tax of statewide application or any tax authorized by state law to be levied by local governments generally. It does not include a special local tax levied pursuant to special law or to a special local tax levied pursuant to general authority that is no longer applicable to local governments generally; and

(6) "tax pyramiding" means imposing sales taxes under chapter 297A on intermediate business-to-business transactions rather than sales to final consumers.

***[See Note.]***

**History:** *2005 c 151 art 1 s 13; 1Sp2021 c 14 art 11 s 14-16*

**NOTE:** The amendments to subdivisions 2, 4, and 6 by Laws 2021, First Special Session chapter 14, article 11, sections 14 to 16, are effective for tax expenditure budgets due on or after November 1, 2023. Laws 2021, First Special Session chapter 14, article 11, sections 14 to 16, the effective dates.

# THE ANNUAL TAX EXPENDITURE REPORT

## INTRODUCTION

The Tax Expenditure Annual Report Act and the Economic Development Reorganization Act require the University Research Center to prepare an annual tax expenditure report. This document is the thirty-sixth of such annual reports.

The Tax Expenditure Annual Report Act defines a tax expenditure as "any statutory provision or state agency regulation which exempts, in whole or in part, any specific class or classes of persons, income, goods, services, or property from the impact of established state taxes, including, but not limited to, those provisions known as tax deductions, tax allowances, tax exclusions, tax credits, and tax exemptions."

The purpose of preparing a tax expenditure report is to show that revenues foregone due to provisions in the tax codes have the same effect as direct budgetary expenditures. Another purpose is to provide a vehicle for annual legislative review of tax expenditures similar to the review that direct expenditures receive through the appropriation process.

For instance, it may be the intent of the governor and the legislature that the state finance a portion of the cost of energy conservation and thereby reduce energy consumption. One approach to achieving this goal would be to appropriate, through the general fund, money to supplement the purchase and installation of home insulating materials. An alternative would be to provide a tax credit, exemption, or deduction for expenditures for home insulation. Both approaches achieve the same general purpose, but there are predictable differences in the distribution of the impact among taxpayers in different income categories. Using the first approach keeps more money in the general fund and prevents tax revenues from declining, while the second approach causes the general fund budget to remain unchanged and tax revenues to decline. Because there is a clear political preference for cutting revenues over raising expenditures, the second approach is more likely to be approved although it has the same net budgetary effect as the first. Furthermore, since most tax expenditures, once enacted, become permanent provisions in the tax code, they are more likely to reoccur year after year. A general fund direct expenditure can only be made in a particular fiscal year after an appropriation of state funds is made. In almost all cases, such appropriations are approved for only one year, and the continuation of an expenditure or a similar expenditure in a subsequent year requires another appropriation.

The primary difficulty in establishing a tax expenditure report is the accurate identification of the relevant tax base that is to be used as a point of departure for tax expenditures. In some cases, the language of the law is clear, and original intent can easily be inferred from the statutes. In other cases, the original intent of the statute can only be surmised, and in these cases there will exist differences of opinions. In fact, a careful examination of the language of the statutes reveals that several tax code provisions generally perceived to be tax expenditure items do not fall within the usual definition.

In this document strict adherence to the language of the statutes is always the basis for developing tax expenditures. However, in keeping with implied legislative intent and in consideration of the intensity of debate concerning certain provisions in the tax laws, provisions in the law other than those which conform to the strictest definition of a tax expenditure have also been included. In each of these cases, the departure from strict interpretation is clearly noted. For instance, the sale of feed, seed, fertilizers, herbicides, and other materials used in farming is exempted in § 27-65-103 of the Mississippi Code of 1972 (Supp.) from the sales tax and as such could be considered a tax expenditure. However, § 27-65-7 of the 1972 Code states that retail sales do not include sales

made to a wholesaler, jobber, manufacturer, or custom processor for resale or for further processing. Section 27-65-7 appears to suggest that inputs into production processes are not items subject to the sales tax; it can be inferred from a practical, if not from a strictly legal, position that sales of feed, seed, fertilizers, herbicides, and other materials when sold to persons who are engaged in the business of producing agricultural products are not, indeed, part of the relevant tax base and that the exemption is not a true tax expenditure.

## Measuring Tax Expenditures

The estimates in this report are based on the following: 2023 income tax returns, statistical information obtained from sales and use tax returns filed with the Mississippi Department of Revenue, information obtained from specific taxpayers, trade organizations, etc.

In accordance with the Tax Expenditure Annual Report Act, an estimate is provided in this report for most of the tax expenditures listed. In some cases where a tax base is established and the tax expenditure involves only a differential tax rate, these estimates are considered fairly reliable. In other cases where there is no existing statutory tax base and no tax experience to draw from, such as in an outright exemption or exclusion, the estimation procedure must be less exact and the estimates are considerably less reliable. In this report, those estimates which are clearly less reliable are in italics. In certain cases there exists no reliable basis for estimation and any attempt to estimate would be at best worthless and could, in fact, be misleading and therefore detrimental. These cases have been noted "Information Not Available."

Regardless of the accuracy of the estimates, it must be noted that any change in taxation normally brings a change in taxpayer behavior in order to avoid or reduce taxes. Resources and economic activity always tend to flow away from heavily taxed sectors and towards untaxed or less heavily taxed sectors. Thus, while the estimates of tax expenditures are unbiased with respect to *current* economic activity receiving preferential treatment, eliminating that preferential treatment would cause some of that activity to disappear and the tax expenditure estimate would overstate actual revenues realized.

There is also an overlap problem in tax expenditures. Some of the tax expenditures related to individual income tax overlap each other. In particular, the standard deduction overlaps part of the sum of all itemized deductions. For example, under Mississippi law, a married taxpayer filing jointly may take the standard deduction of $4,600 or the sum of all itemized deductions, presumably only if they exceed $4,600. If the mortgage interest deduction is $2,000 for a particular taxpayer whose total itemized deductions equal $4,000, the loss of the mortgage interest deduction would generate $600 rather than $2,000 in taxable income taxed at 4% and 5% unless the standard deduction also was eliminated. In fact, the elimination of all itemized deductions would increase taxable income by only $600 in this example. Therefore, in the separate estimates for itemized deductions and the standard deduction, there is an overlap which would exist unless both standard and itemized deductions were eliminated simultaneously.

# CORPORATE INCOME TAX EXPENDITURES

In taxing the earnings of corporations, the state of Mississippi uses a definition of taxable income which corresponds closely to the federal definition of taxable income. Corporations are allowed to deduct from their gross earnings certain operating expenses and other items of expenditure. Corporations are also allowed to credit certain expenses against their state tax liability.

## CORPORATE CREDITS

Credit for Finance Company Privilege Tax Paid for Same Tax Year - Mississippi Code of 1972 (Supp.), § 27-21-3 through § 27-21-9

Those corporations whose business includes lending money secured by mortgages, trust receipts, retained title, or purchase contracts including discounting on motor vehicles, furniture, etc., or any other tangible personal property are levied an annual statewide privilege tax based upon the value of securities held. Mississippi finance companies to which this privilege tax applies are allowed a tax credit on their corporate income tax equal to the amount of privilege tax paid for such calendar year based on income derived exclusively from the business which measures the annual statewide privilege tax levied. However, the credit allowed shall not exceed the amount of income tax due. The apparent purpose of this measure is to eliminate a potential source of double taxation.

**Estimated FY 2026 Tax Expenditure: $1,200,000**

Jobs Tax Credit - Mississippi Code of 1972 (Supp.), § 57-73-21, § 27-7-22.17 and § 27-7-22.19

(1) A credit is allowed for increasing employment levels in certain types of business. For a credit to be allowed, the business must be primarily engaged in manufacturing, processing, warehousing, distribution, wholesaling, or research and development; or designated by the Mississippi Development Authority as air and transportation maintenance facilities, resort hotels having a minimum of 150 rooms, recreational facilities that impact tourism, movie industry studios, telecommunications companies, data or information processing companies, computer software development enterprises, or any technology-intensive facilities. The total of the Jobs Tax Credit, the Headquarters Credit and the R&D Skills Credit, cannot exceed 50% of the total income tax due.

(2) The amount of the credit is determined by the classification of the county in which the qualified job is located. The 82 counties are divided into 3 groups or classifications:

| County Classification | Minimum Number of New Jobs Created | Credit Per Job |
|---|---|---|
| Tier Three (Less Developed) | 10 or more | 10% of payroll |
| Tier Two (Moderately Developed) | 15 or more | 5% of payroll |
| Tier One (Developed) | 20 or more | 2.5% of payroll |

In lieu of those provided for in § 57-73-21, a jobs tax credit is earned by a permanent business enterprise and members of the affiliated group operating certain projects that create at least 3,000 new full-time jobs and to integrated suppliers who create at least twenty full-time jobs located on the project site. The taxpayer can select the date the credit commences, but it cannot be more than five years after commercial production has begun. Permanent business enterprises and members of its affiliated group operating the project are allowed a credit equal to $5,000 annually for each net new full-time employee for a period of twenty years. This credit can offset 100% of the income tax due from the earnings of the project. Integrated suppliers are allowed a credit equal to $1,000 annually for each new net full-time employee for five years and cannot exceed 50% of the total income tax due.

**Estimated FY 2026 Tax Expenditure: $10,100,000**

National Headquarters Credit - Mississippi Code of 1972 (Supp.), § 57-73-21

A credit of $500, $1,000, or $2,000 (dependent upon average annual wage) for each net new full-time employee is authorized for any company establishing or transferring its national or regional headquarters from within or outside the State of Mississippi and creating a minimum of twenty jobs at the headquarters. The minimum increase of twenty jobs must occur within one year.

An additional credit, the Headquarters Relocation Credit, is authorized for any company that transfers or relocates its national or regional headquarters to the State of Mississippi from outside the State of Mississippi in an amount equal to the actual relocation costs paid by the company. A minimum of twenty jobs must be created in order to qualify for the additional credit. The tax credit shall be applied for the taxable year in which the relocation costs are paid. The total of the Jobs Tax Credit, the Headquarters Credit and the R&D Skills Credit cannot exceed 50% of the total income tax due. The credit is limited to 50% of the income tax liability in each year and any credit claimed but not used in any taxable year may be carried forward five years from the close of the tax year in which the relocation costs were paid. A company may not receive a credit for the relocation of an employee more than one time in a twelve-month period for that employee. The maximum cumulative amount of tax credit that may be claimed by all taxpayers in any one fiscal year shall not exceed $1,000,000.

**Estimated FY 2026 Tax Expenditure: $0**

Research and Development Job Skills Credit - Mississippi Code of 1972 (Supp.), § 57-73-21

A credit of $1,000 is authorized for each full-time employee in any new job requiring research and development skills. Specific examples of jobs requiring research and development skills are chemists and engineers. Qualification of other jobs for this credit would require as a minimum a bachelor's degree in a scientific or technical field of study from an accredited four-year college or university, employment in the area of expertise and compensation at a professional level. The total of the Jobs Tax Credit, the Headquarters Credit and the R&D Skills Credit cannot exceed 50% of the total income tax due. The credit can be carried forward for up to five years.

**Estimated FY 2026 Tax Expenditure: $6,400**

Employer Dependent Care Credit - Mississippi Code of 1972 (Supp.), § 57-73-23

An income tax credit is allowed to any employer providing dependent day care (both children and adult) for its employees during the employees' working hours or assisting community-provided day care. The expenses must be incurred in the operation of a program certified by the Mississippi Department of Health and may only be claimed in the tax year in which the expenses are actually paid. An income tax credit is also allowed to any employer who provides a childcare stipend of at least $6,000 to a licensed or registered entity providing dependent child care in the State of Mississippi for an employee's children during the employee's work hours. The credit is equal to 50% of the income tax liability. Any excess credit will not be refunded but can be carried forward for up to five years.

**Estimated FY 2026 Tax Expenditure: $0**

Gambling License Fees Credit - Mississippi Code of 1972 (Supp.), § 75-76-177 and § 75-76-179

Each gambling licensee is subject to a license fee based on the licensee's gross revenue. License fees paid to Mississippi on gross revenues are allowed as a credit against the licensee's Mississippi income tax liability for the same tax year.

**Estimated FY 2026 Tax Expenditure: $14,800,000**

Financial Institution Credit - Mississippi Code of 1972 (Supp.), § 27-7-22.13

A tax credit is allowed to a Mississippi employer which is a financial institution against the income taxes based upon the net gain, if any, in the number of employees of the financial institution where there is a merger, consolidation or purchase of all or substantially all of the assets of another entity that qualifies as a financial institution as defined in Miss. Code Ann. § 27-7-24.1.1. The credit is earned when the transactions are between in-

state and out-of-state financial institutions and is based on the net gain in the number of employees by comparing the employment level in the month the transaction was completed to the employment level for the same month one year following completion of the transaction. The base amount of the credit is $1,500 per employee and may be claimed against the income tax over five years in an amount equal to 100% of the base amount in the tax year the determination was made, 80% in the next year, 60% in the third year, 40% in the fourth year and 20% in the fifth year. The credit allowed shall not exceed the amount of taxes due and shall not be refunded or carried forward to any other taxable year.

**Estimated FY 2026 Tax Expenditure: $0**

Mississippi Business Finance Corporation Revenue Bond Service Credit - (referred to as the RED Program) Mississippi Code of 1972 (Supp.), § 27-7-22.3 and § 57-10-401 through § 57-10-449

An income tax credit is available equal to the total debt service paid on industrial revenue bonds issued by the Mississippi Business Finance Corporation to finance economic development projects to induce the location of manufacturing, telecommunications, data processing, distribution or warehouse facilities within the state. The credit is limited to the lesser of 80% of the total income tax liability or the income tax liability attributable to the income generated by the economic development project as determined by the Mississippi Business Finance Corporation. Any excess credit shall not be refunded and may be carried forward three years.

For any economic development project bonds that were issued prior to July 1, 1997, a job development assessment fee may be levied upon employees whose job was created as a result of the economic project. The assessment fee shall not exceed the following percentages of gross wages of the employee: (a) 2%, if the gross wages are equivalent to $5.00 or more but less than $7.00 per hour; (b) 4%, if the gross wages are equivalent to $7.00 or more but less than $9.00 per hour; and (c) 6% if the gross wages are equivalent to $9.00 or more per hour. An income tax credit is allowed for each employee required to pay the assessment fee in an amount equal to the amount of job assessment fee imposed. Any excess credit shall not be refundable or carried forward to any other taxable year.

**Estimated FY 2026 Tax Expenditure: $9,100,000**

Manufacturing Investment Tax Credit - Mississippi Code of 1972 (Supp.), § 27-7-22.30

An income tax credit is available for a manufacturing enterprise that has operated in Mississippi for two or more years and is equal to 5% of the enterprise's investment in buildings or equipment used in the manufacturing operation. The eligible investment must be at least $1,000,000. The credit can offset up to 50% of the income tax liability in each year reduced by the sum of all other income tax credits. Any excess credit may be carried forward for five years. The maximum credit allowed on any project is $1,000,000.

**Estimated FY 2026 Tax Expenditure: $6,700,000**

Ad Valorem Inventory Tax Credit - Mississippi Code of 1972 (Supp.), § 27-7-22.5

This is an income tax credit for manufacturers, distributors and wholesale or retail merchants for a certain amount of ad valorem taxes paid on commodities, goods, wares and merchandise held for resale. An income tax credit is also for individuals, firms or corporations for ad valorem taxes paid on rental equipment. The tax credit allowed may be claimed for each location where such commodities, raw material, works-in-process, products, goods, wares, merchandise and/or rental equipment are found and upon which the ad valorem taxes have been paid. Any tax credit claimed but not used in any taxable year may be carried forward for five consecutive years from the close of the tax year in which the credit was earned. The credit shall be used as follows: (a) For the 1997 taxable year and each taxable year thereafter through taxable year 2013, the tax credit for each location of the taxpayer shall not exceed the lesser of $5,000 or the amount of income taxes paid attributed to such location; (b) For the 2014 taxable year, the tax credit for each location of the taxpayer shall not exceed the lesser of $10,000 or the amount of income taxes due that are attributable to such location; (c) For the 2015 taxable year, the tax credit for each location of the

taxpayer shall not exceed the lesser of $15,000 or the amount of income taxes due that are attributable to such location; and (d) For the 2016 taxable year and each taxable year thereafter, the tax credit of the taxpayer shall be the lesser of the amount of the ad valorem taxes paid or the amount of income taxes due that are attributable to such location.

The act also provides that any ad valorem taxes paid by a taxpayer that are applied toward the tax credit may not be used as a deduction by the taxpayer for state income tax purposes. Also, if the taxpayer is a partnership or an S corporation, the credit may be applied only to the tax attributable to the partnership or an S corporation income.

**Estimated FY 2026 Tax Expenditure: $50,200,000**

Brownfield Sites Credit - Mississippi Code of 1972 (Supp.), § 27-7-22.16

This is an income tax credit to provide incentives for the cleanup and redevelopment of brownfield sites in the state. An income tax credit is allowed for any party that conducts remediation at a brownfield agreement site and incurs remediation costs for activities under § 49-35-1 through § 49-35-25. The tax credit is equal to 25% of the remediation costs at the site. The annual credit cannot exceed the lesser of $40,000 or the amount of the income tax due. Any unused credit may be carried forward to succeeding tax years with the maximum total credit of $150,000.

**Estimated FY 2026 Tax Expenditure: $0**

Export Charges Credit - Mississippi Code of 1972 (Supp.), § 27-7-22.7

This is an income tax credit that allows taxpayers that utilize the port facilities at state, county, and municipal ports an income tax credit equal to the total export cargo charges paid by the taxpayer for: (a) receiving in the port; (b) handling to a vessel; (c) wharfage. The credit provided shall not exceed 50% of the amount of tax imposed upon the taxpayer for the taxable year reduced by the sum of all other credits. Any unused portion of the credit may be carried forward for the succeeding five years. The maximum cumulative credit that may be claimed by a taxpayer beginning January 1, 1994, and ending December 31, 2005, is limited to $1,200,000. To obtain the credit a taxpayer must provide to the Department of Revenue a statement from the governing authority of the port certifying the amount of charges paid by the taxpayer for which a credit is claimed and any other information required by the Department of Revenue. The repeal date is December 31, 2025.

**Estimated FY 2026 Tax Expenditure: $84,300**

Import Charges Credit - Mississippi Code of 1972 (Supp.), § 27-7-22.23

An income tax credit is allowed for certain taxpayers that utilize the port facilities at state, county and municipal ports equal to certain charges paid by the taxpayer on the import of cargo. In order to be eligible, a taxpayer must locate its United States headquarters in Mississippi on or after July 1, 2004, employ at least five permanent full-time employees who actually work at such headquarters and have a minimum capital investment of $2,000,000 in Mississippi. The amount of the credit allowed shall be the total of the following charges on import of cargo paid by the corporation: [however, it does not apply to the import of forest products] (1) receiving into the port; (2) handling from a vessel; and (3) wharfage. The amount of the credit shall not exceed 50% of the amount of tax imposed upon the taxpayer for the taxable year reduced by the sum of all other credits allowable to such taxpayers, except credit for tax payments made by or on behalf of the taxpayer. Any unused portion of the credit may be carried forward for the succeeding five years. To obtain the credit, a taxpayer must provide to the Department of Revenue a statement from the governing authority of the port certifying the amount of charges paid by the taxpayer for which a credit is claimed and any other information required by the Department of Revenue.

**Estimated FY 2026 Tax Expenditure: $46,100**

Broadband Technology Credit - Mississippi Code of 1972 (Supp.), § 57-87-5

An income tax and franchise tax credit is available for telecommunications enterprises for investments made after June 30, 2003 and before July 1, 2020. The credit is based on a percentage of the cost of equipment used in the deployment of broadband technology. The credit percentage amount is determined on where the equipment is being deployed or placed in service. The percentage amount for each county is 5%, 10% and 15% for Tier 1, Tier 2, and Tier 3 counties, respectively. The annual credit is available beginning in the year the equipment is placed into service and may be taken for that equipment each year for the following nine years. The total amount of credit taken in any one year is only allowed against 50% of the aggregate income and franchise tax liability for that year. The credit is not refundable and any excess credit amount can be carried forward for up to ten consecutive years from the close of the original year in which the excess credit could not be used. The total amount of credits taken over the ten consecutive year period cannot exceed 100% of the original investment in the equipment.

**Estimated FY 2026 Tax Expenditure: $6,900,000 (income only)**

Reforestation Tax Credit - Mississippi Code of 1972 (Supp.), § 27-7-22.15

This credit, based on the costs incurred for certain approved reforestation practices, is an amount equal to the lesser of 50% of the actual cost of approved practices or 50% of the average cost of approved practices as established by the Mississippi Forestry Commission. In any taxable year, the Reforestation Tax Credit (RTC) shall not exceed the lesser of $10,000 or the amount of income tax imposed upon the eligible owner for the taxable year reduced by the sum of all other credits allowable to the eligible owner. The lifetime maximum reforestation tax credit that an eligible owner may utilize is $75,000 in the aggregate. Any unused portion of the RTC may be carried forward to succeeding years. If a taxpayer receives state or federal cost share assistance funds to defray the cost of an approved reforestation practice, the cost of the practice on the same acre or acres of land within the same tax year is not eligible for the credit unless the taxpayer's adjusted gross income is less than the federal earned income credit level. To be eligible for the tax credit, a taxpayer must have a reforestation prescription or plan prepared by a graduate forester of a college, school, or university accredited by the Society of American Foresters or by a registered forester under the Foresters Registration Law of 1977, and the forester must verify in writing that the reforestation practices were completed and the reforestation prescription or plan was followed. The RTC is not available to private corporations which manufacture products or provide public utility services of any type or any subsidiary of such corporations.

**Estimated FY 2026 Tax Expenditure: $16,500**

New Markets Credit - Mississippi Code of 1972 (Supp.), § 57-105-1

An income tax credit and insurance premium tax credit is allowed for taxpayers making investments that qualify for federal income new markets tax credit as defined in § 45D of the Internal Revenue Service Code. The amount of the credit shall be equal to the applicable percentage of the adjusted purchase price paid to the qualified community development entity for the qualified equity investment. The amount of the credit that may be utilized in any one year shall be limited to the total tax liability of the taxpayer for the applicable income, insurance premium, or premium retaliatory tax. The credit shall not be refundable or transferable. Any unused portion of the credit may be carried forward for seven years beyond the credit allowance date on which the credit was earned. The total amount of credit for all taxpayers is capped at $15,000,000 per year.

**Estimated FY 2026 Tax Expenditure: $2,400,000**

Biomass Energy Credit - Mississippi Code of 1972 (Supp.), § 57-105-1

An income investment tax credit is allowed for enterprises owning or operating certain electrical and thermal energy-producing facilities. The credit is equal to 5% of investments made by the enterprise in the initial establishment of an eligible facility. The commencement date shall not be more than two years from the date the eligible facility becomes fully operational. The credit is limited to 50% of the total state income tax liability of the

enterprise for that year that is generated by, or arises out of, the eligible facility. Any credit claimed but not used in any taxable year may be carried forward for five consecutive years.

**Estimated FY 2026 Tax Expenditure: $0**

Historical Structure Rehabilitation Credit - Mississippi Code of 1972 (Supp.), § 27-7-22.31

An income tax credit is allowed for certain costs and expenses in rehabilitating eligible property certified as a historic structure or a structure in a certified historic district that has been determined eligible for the National Register of Historic Places by the Secretary of the United States Department of the Interior and will be listed within thirty months of claiming the credit authorized by this section. The income tax credit is equal to 25% of the total costs and expenses of rehabilitation incurred after January 1, 2006, which shall include, but not be limited to, qualified rehabilitation expenditures as defined under § 47(c)(2)(A) of the IRC. If the amount of the tax credit exceeds the total state income tax liability for the year in which the rehabilitated property is placed in service, the amount that exceeds the total state income tax liability may be carried forward for ten succeeding tax years.

If the amount of the tax credit established by this section exceeds the total state income tax liability, the taxpayer may elect to claim a rebate in the amount of 75% of the amount that would be eligible to claim as a credit. The election must be made in the year in which the rebate is certified. The maximum aggregate amount of historic rehabilitation credit and rebates that may be awarded is $180,000,000.

**Estimated FY 2026 Tax Expenditure: $3,300,000**

Insurance Guaranty Credit - Mississippi Code of 1972 (Supp.), § 83-23-218

A credit is allowed for a member insurer to offset against its premium, franchise, or income tax liability (or liabilities) to the state an assessment as described in § 83-23-217(8) to the extent of 20% of the amount of such assessment, if any, for each year over the next five succeeding years. However, if the offset is less than 20%, any unused balance may be carried over to any succeeding year until such time as the offset provided herein is fully used.

**Estimated FY 2026 Tax Expenditure: $0**

Prekindergarten Credit – Mississippi Code of 1972 (Supp.), § 27-7-22.37

An income tax credit is allowed for qualified prekindergarten program support contributions paid to approved providers, lead partners or collaboratives, not to exceed $1,000,000, by any individual, corporation or other entity having taxable income during calendar year 2013 or during any calendar year thereafter. In order to qualify for the credit, such contributions shall support the local match requirement of approved providers, lead partners, or collaboratives as is necessary to match state-appropriated funds, and any such providers, lead partners, or collaboratives shall be approved by the State Department of Education. Any unused portion of the credit may be carried forward for three years. The maximum amount of donations accepted for year 2014 shall not exceed $8,000,000, in calendar year 2015 shall not exceed $15,000,000, and in calendar year 2016 and calendar years thereafter shall not exceed $32,000,000 or what is appropriated by the Legislature each year.

**Estimated FY 2026 Tax Expenditure: $2,700,000**

Business Contributions to Eligible Charitable Organizations Credit

A business credit is allowed for voluntary cash contributions made to eligible charitable organizations. The credit is limited to 50% of the total tax liability of the taxpayer and any credit claimed but not used in any taxable year may be carried forward for five consecutive years. Credits earned by a partnership, limited liability company, S corporation or other similar pass-through entity shall be allocated among all partners, members or shareholders respectively. The aggregate amount of tax credits that may be allocated during a calendar year shall not exceed $5,000,000.

**Estimated FY 2026 Tax Expenditure: $5,600,000**

Endowment Fund Charitable Credit

An income tax credit is allowed for qualified charitable contributions made to endowment funds held by community foundations in Mississippi. The credit is equal to 25% of qualified contributions made to endowment funds in any one calendar year. The minimum amount of a qualified contribution shall be $1,000 and the maximum amount shall be $500,000. The aggregate amount of tax credits authorized cannot exceed $1,000,000 in any one calendar year.

**Estimated FY 2026 Tax Expenditure: $1,700**

## Corporate Incentives

Redevelopment Project Incentive Fund - Mississippi Code of 1972 (Supp.), § 57-91-9

An incentive program to encourage economic development in areas where environmentally contaminated sites are located. Income and franchise taxes paid by enterprises located on approved sites shall be deposited into the Redevelopment Project Incentive Fund. Incentive payments from this fund shall be made by the Mississippi Development Authority to developers in connection with a redevelopment project. The Mississippi Development Authority shall make the calculations necessary to make the payments provided for in this section. Payments will be made to approved participants on a semiannual basis with payments being made in the months of January and July. These incentive payments differ from a credit because the developer receives these payments from the taxes paid by businesses locating within the approved development site.

**Estimated FY 2026 Tax Expenditure: $111,000 (Income only)**

## Corporate Deductions

Capital Gains Exempt - Mississippi Code of 1972 (Supp.), § 27-7-9

No gain shall be recognized from the sale of authorized shares in financial institutions domiciled in Mississippi and domestic corporations or partnership interests in domestic limited partnerships and domestic limited liability companies that have been held for more than one year; however, any gain that would otherwise be excluded by this provision shall first be applied against, and reduced by, any losses determined from sales or transactions described by this provision if the losses were incurred in the year of the gain or within the two years preceding or subsequent to the gain.

**Estimated FY 2026 Tax Expenditure: Information not available**

General Expenses Associated with the Cost of Doing Business - Mississippi Code of 1972 (Supp.), § 27-7-17

Mississippi statutes allow for deduction from gross corporate income all reasonable expenses associated with operating a taxable business. These provisions are consistent with the concept of taxable income and are not considered to be tax expenditures. They include the following:

- Miscellaneous business expenses
- Interest expense
- Taxes
- Business losses
- Depreciation
- Depletion
- Bad debts

Since each of these business expenses is outside the relevant tax base, no estimated fiscal impact has been generated for this report.

Charitable Contributions - Mississippi Code of 1972 (Supp.), § 27-7-17(h)

Contributions or gifts made by corporations within the taxable year are deductible when made to: corporations, organizations, associations, or institutions, including Community Chest funds, foundations, and trusts created solely and exclusively for religious, charitable, scientific, or educational purposes, or for the prevention of cruelty to children or animals. This deduction is allowed in an amount not to exceed 20% of net income.

**Estimated FY 2026 Tax Expenditure: Information not available**

Reserve Funds - Mississippi Code of 1972 (Supp.), § 27-7-17(l)

In the case of insurance companies, the net additions required by law to be made within the taxable year to reserve funds are deductible when such reserve funds are maintained for the purposes of liquidating policies at maturity.

**Estimated FY 2026 Tax Expenditure: Information not available**

Annuity Income - Mississippi Code of 1972 (Supp.), § 27-7-17(j)

The sums, other than dividends, paid within the taxable year on policy or annuity contracts are deductible when such income has been included in gross income. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: Information not available**

Contributions to Employee Pension Plans - Mississippi Code of 1972 (Supp.), § 27-7-17(k)

Contributions made by an employer to a plan or a trust forming part of a pension plan, stock bonus plan, disability or death-benefit plan, or profit-sharing plan of such employer for the exclusive benefit of some or all employees or beneficiaries, shall be deductible from income only to the extent that, and for the taxable year in which, the contribution is deductible for federal income tax purposes under the IRC of 1986 and any other provisions of similar purport in the Internal Revenue Laws of the United States, and the rules, regulations, rulings, and determinations promulgated thereunder, provided that:

1) The plan or trust be irrevocable.
2) The plan or trust constitute a part of a pension plan, stock bonus plan, disability or death-benefit plan, or profit-sharing plan for the exclusive benefit of some or all of the employer's employees and/or officers, or their beneficiaries, for the purpose of distributing the corpus and income of the plan or trust to such employees and/or officers, or their beneficiaries.
3) No part of the corpus or income of the plan or trust can be used for purposes other than for the exclusive benefit of employees and/or officers, or their beneficiaries.

Contributions to all plans or to all trusts of real or personal property (or real and personal property combined) or to insured plans created under a retirement plan for which provision has been made under the laws of the United States, making such contributions deductible from income for federal income tax purposes, shall be deductible only to the same extent under the income tax laws of the state of Mississippi. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: Information not available**

Net Operating Loss Carryback and Carryover - Mississippi Code of 1972 (Supp.), § 27-7-17(l)

For any taxable years ending after December 31, 2001, net operating losses have a carryback of two periods and a carryforward of twenty periods. The term net operating loss, for the purposes of this paragraph, shall be the excess of the deductions allowed over the gross income; provided, however, the following deductions shall not be allowed in computing same:

1) No net operating loss deduction shall be allowed.
2) No personal exemption deduction shall be allowed.

3) Allowable deductions which are not attributable to taxpayer's trade or business shall be allowed only to the extent of the amount of gross income not derived from such trade or business.

**Estimated FY 2026 Tax Expenditure: Information not available**

Dividend Distributions - Mississippi Code of 1972 (Supp.), § 27-7-17(n)

Real estate investment trust, or REIT, shall have the meaning ascribed to such term in IRC § 856. A REIT is allowed a dividend distributed deduction if the dividend distributions meet the requirements of IRC § 857 or is otherwise deductible under IRC § 858 or § 860. In addition:

- Dividend distributed deductions are only allowed for dividends paid by a publicly traded REIT;
- Restrictions are placed on deduction of certain other dividend distributions.

**Estimated FY 2026 Tax Expenditure: Information not available**

Dividends for Holding Companies - Mississippi Code of 1972 (Supp.), § 27-13-1

Dividends received by a holding corporation from a subsidiary corporation are excluded from income.

**Estimated FY 2026 Tax Expenditure: Information not available**

Growth and Prosperity Area Exemption - Mississippi Code of 1972 (Supp.), § 57-80-3 and § 57-80-5

Income generated by a new or expanded business enterprise in a GAP Area is exempt from income tax for a period of ten years.

**Estimated FY 2026 Tax Expenditure: Information not available**

# CORPORATE FRANCHISE TAX EXPENDITURES

In taxing the capital of corporations, the State of Mississippi uses the basis of valuation of such capital as found in the Mississippi Code of 1972 (Supp.) § 27-13-9. Certain capital employed in this state is exempted from taxation. A fee-in-lieu agreement may be negotiated in certain instances where the taxpayer would normally be subject to franchise tax on the capital employed in Mississippi.

## Exemptions

Growth and Prosperity Area Exemption - Mississippi Code of 1972 (Supp.), § 57-80-3 and § 57-80-5

The value of capital employed by a new or expanded business enterprise in a growth and prosperity area is exempt from franchise tax for a period of ten years.

**Estimated FY 2026 Tax Expenditure: Information not available**

"Fee-In-Lieu" - Mississippi Code of 1972 (Supp.), § 57-75-5

A fee-in-lieu may be negotiated by the Mississippi Development Authority in which the fee will represent the franchise tax to be paid by the entity for capital employed in the state by the project. The fee-in-lieu shall not be less than $25,000 annually.

**Estimated FY 2026 Tax Expenditure: Information not available**

## Credits

Bank Share Tax Credit - Mississippi Code of 1972 (Supp.), § 27-35-35

Any tax assessed and paid by a bank to any county, district, or municipality on the assessed value of its intangibles pursuant to § 27-35-35 through § 27-35-39 shall be a credit against the corporation franchise tax.

**Estimated FY 2026 Tax Expenditure: $751,000**

Broadband Technology Credit - Mississippi Code of 1972 (Supp.), § 57-87-5

An income tax and franchise tax credit is available for telecommunications enterprises for investments made after June 30, 2003, and before July 1, 2020. The credit is based on a percentage of the cost of equipment used in the deployment of broadband technology. The credit percentage amount is determined on where the equipment is being deployed or placed in service. The percentage amount for each county is 5%, 10% and 15% for Tier 1, Tier 2 and Tier 3 counties, respectively. The annual credit is available beginning in the year the equipment is placed into service and may be taken for that equipment each year for the following nine years. The total amount of credit taken in any one year is only allowed against 50% of the aggregate income and franchise tax liability for that year. The credit is not refundable and any excess credit amount can be carried forward for up to ten consecutive years from the close of the original year in which the excess credit could not be used. The total amount of credits taken over the ten consecutive year period cannot exceed 100% of the original investment in the equipment.

**Estimated FY 2026 Tax Expenditure: $4,000,000 (Franchise only)**

Insurance Guaranty Credit - Mississippi Code of 1972, § 83-23-218

A credit is allowed for a member insurer to offset against its premium, franchise, or income tax liability to the state an assessment as described in § 83-23-217(8) to the extent of 20% of the amount of such assessment, if any, for each year over the next five succeeding years. However, if the offset is less than 20%, any unused balance may be carried over to any succeeding year until such time as the offset provided herein is fully used.

**Estimated FY 2026 Tax Expenditure: $0**

Incentives

Redevelopment Project Incentive Fund - Mississippi Code of 1972 (Supp.), § 57-91-9

An incentive program to encourage economic development in areas where environmentally contaminated sites are located. Income and franchise taxes paid by enterprises located on approved sites shall be deposited into the Redevelopment Project Incentive Fund. Incentive payments from this fund shall be made by the Mississippi Development Authority to developers in connection with a redevelopment project. The Mississippi Development Authority shall make the calculations necessary to make the payments provided for in this section. Payments will be made to approved participants on a semiannual basis with payments being made in the months of January and July. These incentive payments differ from a credit because the developer receives these payments from the taxes paid by businesses locating within the approved development site.

Estimated FY 2026 Tax Expenditure: $11,200 (Franchise only)

# WITHHOLDING TAX EXPENDITURES

In Mississippi an employer must withhold income tax from wages paid to an employee. The income tax withheld is shown on an individual's W-2, which is filed with the individual's income tax return after the year-end. The individual may owe additional income taxes or may be due a refund of taxes withheld.

## Incentive Payments

Mississippi Advantage Jobs Incentive Program - Mississippi Code of 1972 (Supp.), § 57-62-9

The Mississippi Advantage Jobs Incentive Program allows new qualified employers to receive incentive payments from the state in amounts not to exceed 4% of the Mississippi taxable wages of qualifying new employees. The incentive payments will be paid out of the employee withholdings that are diverted into a special fund instead of being paid into the general fund. The incentive payments may be made for a period up to ten years. The diversion of an employee's withholding taxes into such fund will have no effect on an employee's filing of income tax returns.

**Estimated FY 2026 Tax Expenditure: $16,375,374**

Existing Industry Withholding Rebate Program - Mississippi Code of 1972 (Supp.), § 57-100-3

The Existing Industry Withholding Rebate Program allows qualified existing employers to receive incentive payments from the state equal to the lesser of 3.5% of the wages and taxable benefits or the actual amount of Mississippi income tax withheld by the employer for the qualified jobs. The incentive payments will be paid out of the employee withholdings that are diverted into a special fund instead of being paid to the general fund. The incentive payments may be made for a period of up to two years. The diversion of an employee's withholding taxes into such fund will have no effect on an employee's filing of income tax returns.

**Estimated FY 2026 Tax Expenditure: $0**

Mississippi Economic Impact Authority (MEIA) Withholding Rebate Program - Mississippi Code of 1972 (Supp.), § 57-99-23

The Mississippi Economic Impact Authority Withholding Rebate Program allows qualified existing employers to receive incentive payments from the state equal to the lesser of 1% of wages and taxable benefits or the actual amount of Mississippi income tax withheld by the employer for the qualified jobs. The incentive payments will be paid out of the employee's withholdings that are diverted into a special fund instead of being paid to the general fund. The diversion of an employee's withholding taxes into such fund will have no effect on an employee's filing of income tax returns. The incentive payments may be made for a period of up to ten years, but cannot exceed $6,000,000 in total rebates. An employer had to apply to MDA by July 1, 2010, to be eligible for this rebate program.

**Estimated FY 2026 Tax Expenditure: $0**

Mississippi Major Economic Impact Authority (MMEIA) Withholding Rebate Program - Mississippi Code of 1972 (Supp.), § 57-99-3

The Mississippi Major Economic Impact Authority Withholding Rebate Program allows qualified companies and their affiliates to receive quarterly incentive payments from the state in an amount equal to the lesser of 3.5% of the wages and taxable benefits or the actual amount of Mississippi income tax withheld by the employer for the qualified jobs. The incentive payments will be paid out of the employee withholdings that are diverted into a special fund instead of being paid to the general fund. The diversion of an employee's withholding taxes into such a fund will have no effect on an employee's filing of income tax returns. The incentive payments may be made for a period of up to twenty-five years.

**Estimated FY 2026 Tax Expenditure: $11,384,461**

Motion Picture Production Rebate Program - Mississippi Code of 1972 (Supp.), § 57-89-7

A rebate is available for a motion picture production company that expends at least $50,000 in base investment, payroll, and/or fringes in the state. The amount of the rebate is 25% of the base investment made. Additionally, payroll and fringes for a Mississippi resident are eligible for a 30% rebate, and payroll and fringes for a non-resident are eligible for a 25% rebate. An additional 5% rebate is available for payroll and fringes of honorably discharged veterans. The total amount of the rebate authorized for a motion picture shall not exceed $10,000,000 for each certified production with the total amount of rebates authorized for any fiscal year shall not exceed $20,000,000.

**Estimated FY 2026 Tax Expenditure: $14,154,344**

# INDIVIDUAL INCOME TAX EXPENDITURES

The income of individuals is taxed based upon the definition of taxable income, which is gross income less certain exemptions, adjustments, and deductions. Mississippi taxpayers are also allowed certain credits against their state tax liability.

## INDIVIDUAL EXEMPTIONS

Personal Exemptions - Mississippi Code of 1972 (Supp.), § 27-7-21(a-d)

In the case of resident individuals, exemptions are listed below and are allowed as deductions in computing taxable income.

| | |
|---|---|
| $6,000 | Single individuals |
| $12,000 | Married, joint return or surviving spouse |
| $6,000 | One-half of additional personal exemptions for married-separate returns |
| $9,500 | Head of household |

Nonresidents and part-year residents are allowed the same personal and additional exemptions as are authorized for resident individuals except exemptions are prorated as to the proportion of net income from sources which the state of Mississippi bears to total or entire net income from all sources. The purpose of this provision is to shift income tax burden away from low-income taxpayers.

**Estimated FY 2026 Tax Expenditure: $554,677,000**

Exemptions for Dependents - Mississippi Code of 1972 (Supp.), § 27-7-21(e-g)

The exemption for an individual having a dependent other than husband or wife is $1,500 for each such dependent. The term dependent means any person or individual who qualifies as a dependent under provisions of § 152, IRC of 1954, as amended.

In the case of any taxpayer or the spouse of the taxpayer who has attained the age of 65 before the close of his taxable year, an additional exemption of $1,500 is allowed.

In the case of any taxpayer or the spouse of any taxpayer who is blind at the close of the taxable year, an additional exemption of $1,500 is allowed. This measure recognizes that the ability to pay taxes declines with increases in the number of dependents.

**Estimated FY 2026 Tax Expenditure: $83,172,000**

Other Exemptions - Mississippi Code of 1972 (Supp.), § 27-7-15(4)

1. Interest under the obligation of the United States or its possessions, or securities issued under the provisions of the Federal Farm Loan Act of July 17, 1916, or bonds issued by the War Finance Corporation, or obligations of the state of Mississippi or political subdivisions thereof.

**Estimated FY 2026 Tax Expenditure: Information not available**

2. Income received by any religious denomination or by any institution or trust for moral or mental improvements, religious, Bible, tract, charitable, benevolent, fraternal, missionary, hospital, infirmary, educational, scientific, literary, library, patriotic, historical, or cemetery purposes or for two or more of such purposes, if such income be used exclusively for carrying out one or more of such purposes.

**Estimated FY 2026 Tax Expenditure: Information not available**

3. Income from dividends that has already borne a tax as dividend income under the provisions of this article, when such dividends may be specifically identified in the possession of the recipient.

**Estimated FY 2026 Tax Expenditure: Information not available**

4. Amounts paid by the United States to a person as added compensation for hazardous duty pay as a member of the Armed Forces of the United States in a combat zone designated by Executive Order of the President of the United States.

Estimated FY 2026 Tax Expenditure: Information not available

5. Amounts received as retirement allowances, pensions, annuities, or optional retirement allowances paid under the Federal Social Security Act, the Railroad Retirement Act, the Federal Civil Service Retirement Act, or any other retirement system of the United States government, retirement allowances paid under the Mississippi Public Employees' Retirement System, Mississippi Highway Safety Patrol Retirement System or any other retirement system of the State of Mississippi or any political subdivision thereof. The exemption shall be available to the spouse or other beneficiary at the death of the primary retiree.

Amounts received as retirement allowances, pensions, annuities, or optional retirement allowances paid by any public or governmental retirement system not designated above or any private retirement system or plan of which the recipient was a member at any time during the period of his employment. Amounts received as a distribution under a ROTH IRA shall be treated in the same manner as provided under the IRC of 1986, as amended. The exemption allowed under this paragraph shall be available to the spouse or other beneficiary at the death of the primary retiree.

Estimated FY 2026 Tax Expenditure: Information not available

6. Compensation not to exceed the aggregate sum of $15,000 for any taxable year received by a member of the National Guard or Reserve Forces of the United States as payment for inactive duty training, active duty training, and state active duty.

Estimated FY 2026 Tax Expenditure: $3,522,000

7. Compensation received for active service as a member below the grade of commissioned officer and so much of the compensation as does not exceed the maximum enlisted amount received for active service as a commissioned officer in the Armed Forces of the United States for any month served in a combat zone or a qualified hazardous duty area as defined by federal law. Maximum enlisted amount has the same meaning as in 26 USC 112.

Estimated FY 2026 Tax Expenditure: Information not available

8. Proceeds received from federal and state forestry incentives programs.

Estimated FY 2026 Tax Expenditure: Information not available

9. The amount representing the difference between the increase of gross income derived from sales for export outside the United States as compared to the preceding tax year wherein gross income from export sales was highest, and the net increase in expenses attributable to such increased exports. In the absence of direct accounting, the ratio of net profits to total sales may be applied to the increase in export sales. This shall only apply to businesses located in this state engaging in the international export of Mississippi goods and services. Such goods or services shall have at least 50% of value added at a location in Mississippi.

Estimated FY 2026 Tax Expenditure: Information not available

10. Interest, dividends, gains, or income of any kind on any account in a qualified tuition program and amounts received as distributions under a qualified tuition program, regardless of where in the United States the original Section 529 plan was established.

Estimated FY 2026 Tax Expenditure: Information not available

11. Amounts received as qualified disaster relief payments are excluded from gross income. These are any amounts paid to or for the benefit of an individual to pay or reimburse reasonable and necessary personal, family, living or funeral expenses as a result of a qualified disaster, amounts for the repair or rehabilitation of a personal residence or contents due to a qualified disaster. These are limited to the amounts not covered by insurance.

**Estimated FY 2026 Tax Expenditure: Information not available**

Medical Savings Accounts - IRC § 71. Mississippi Code of 1972 (Supp.), § 71-9-1 through § 71-9-9

The amount deposited in a medical savings account, and any interest accrued thereon, that is a part of a medical savings account program as specified in the Medical Savings Account Act under § 71-9-1 through § 71-9-9; provided, however, that any amount withdrawn from such account for purposes other than paying eligible medical expense or to procure health coverage, shall be included in gross income.

**Estimated FY 2026 Tax Expenditure: Information not available**

Health Savings Accounts - Mississippi Code of 1972 (Supp.), § 83-62-1 through § 83-62-9

The amount deposited in a health savings account, and any interest accrued thereon, that is a part of a health savings account program as specified in the Health Savings Account Act created in § 83-62-1 through § 83-62-9; provided, however, that any amount withdrawn from such account for purposes other than paying eligible medical expense or to procure health coverage, shall be included in gross income.

**Estimated FY 2026 Tax Expenditure: $1,009,000**

Prisoners of War, Missing in Action - Mississippi Code of 1972 (Supp.), § 27-7-15(5)

a) *Members of the Armed Forces*. Gross income does not include compensation received for active service as a member of the Armed Forces of the United States for any month during any part of which such member is in missing status during the Vietnam Conflict as a result of such conflict.
b) *Civilian employees*. Gross income does not include compensation received for active service as an employee for any month during any part of which such employee is in a missing status during the Vietnam Conflict as a result of such conflict.

**Estimated FY 2026 Tax Expenditure: Information not available**

## Individual Adjustments

Individual Retirement Accounts - IRC § 219 and 408, Mississippi Code of 1972 (Supp.), § 27-7-16

An individual is allowed to deduct from gross income the amount paid to an individual retirement account (IRA) if the individual is not covered by an employer's plan or a self-employed plan. This definition is limited to the smaller of $6,000 or 100% annual compensation or earned income. For married filers, a separate deduction up to $6,000 is allowed for each spouse provided either spouse has sufficient annual compensation or earned income.

Deductions for IRA contributions are reduced or phased out if an individual is covered by an employer-maintained plan. The IRA deduction is reduced or eliminated when adjusted gross income exceeds certain specified amounts as follows:

1) $64,000 for a single individual or head of household
2) $103,000 for a married couple filing a joint return
3) $10,000 for a married individual filing separately
4) Non-active participant with active participant spouse, phase-out begins at $193,000

If adjusted gross income exceeds one of the specified amounts, the maximum IRA deduction is phased out over the next $10,000 of adjusted income. Thus, no IRA deduction is allowed to a single person with adjusted gross income of $66,000 or more, a married couple filing a joint return with $110,000 or more, or a married individual filing

separately with $10,000 or more. The reduction in the maximum IRA deduction is determined by multiplying the maximum IRA deduction by the excess of adjusted gross income over the specified amount and dividing the result by $10,000.

Individuals who turn age 50 before the close of the tax year may increase the maximum permitted annual contribution by $1,000.

Except in the case of death, disability, periodic payments, medical related distributions, higher education expenses, certain first-time homebuyer expenses, post '99 IRS liens or domestic relations orders, the retirement money cannot be withdrawn without a federal penalty tax of 10% until the individual reaches the age of 59½. Amounts withdrawn from an IRA are subject to federal taxation at the time of withdrawal. In addition, taxation of interest or other income of an IRA is deferred until such income is withdrawn from the IRA. At that time, it is subject to federal taxation as ordinary income. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: $3,776,000**

Keogh Plans - IRC § 219, 401-405, and 408-415. Mississippi Code of 1972 (Supp.), § 27-7-16

Self-employed individuals (sole proprietors, partners, etc.) may deduct payments to Self-Employed Retirement Plans, commonly referred to as Keogh or HR 10 Plans. The maximum contribution is the lesser of $56,000 or 25% of earned income (25% for employee). The definition of earned income includes the retirement plan deduction (i.e., earnings from self-employment must be reduced by the retirement plan contribution for purposes of determining the maximum deduction). To simplify, contribution is equal to 25% of earnings subject to $56,000 limitation. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: $5,338,000**

Interest Penalty on Early Withdrawal of Savings - IRC § 62(12). Mississippi Code of 1972 (Supp.), § 27-7-16

Penalties forfeited because of premature withdrawal of funds from time savings accounts or deposits are allowed as an adjustment to gross income. An adjustment is provided for deductions allowed by IRC § 165 for losses incurred in any transaction entered into for profit, though not connected with a trade or business, to the extent that such losses include amounts forfeited to a bank, mutual savings bank, savings and loan association, cooperative bank, or homestead association as a penalty for premature withdrawal of funds from a time savings account, certificate of deposit, or similar class of deposit. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: $213,000**

Unreimbursed Moving Expense - IRC § 62 and 217. Mississippi Code of 1972 (Supp.), § 27-7-18(2)

Individual taxpayers are allowed to deduct unreimbursed moving expenses paid during the tax year as an adjustment to gross income in accordance with provisions of the IRC, and rules, regulations and revenue procedures relating to moving expenses not in direct conflict with provisions of Mississippi income tax law.

**Estimated FY 2026 Tax Expenditure: $62,000**

Contributions or Payments to a Mississippi College Savings Plan (MACS & MPACT) - Mississippi Code of 1972 (Supp.), § 27-7-18 and § 37-155-17

Contributions or payments to a Mississippi Affordable College Savings (MACS) program account and payments made under a prepaid tuition contract entered into under the Mississippi Prepaid Affordable College Tuition (MPACT) program are deductible from gross income.

**Estimated FY 2026 Tax Expenditure: $1,200,000**

Self-Employed Medical Insurance - Mississippi Code of 1972 (Supp.), § 27-7-18

Self-employed individuals may deduct as an adjustment to gross income amounts paid during the tax year for insurance which constitute medical care for the taxpayer, his/her spouse and dependents in accordance with

provisions of the IRC.

**Estimated FY 2026 Tax Expenditure: $9,588,000**

Organ Donation Deduction - Mississippi Code of 1972 (Supp.) § 27-7-18

A one-time deduction not to exceed $10,000 from gross income is allowed for unreimbursed travel expenses, lodging expenses and lost wages an individual incurred as a result of, and related to, the donation, while living, of one or more of his or her organs for human organ transplantation. The term organ means all or a part of a liver, pancreas, kidney, intestine, lung or bone marrow.

**Estimated FY 2026 Tax Expenditure: Information not available**

Catastrophe Savings Account Adjustment - Mississippi Code of 1972 (Supp.) § 27-7-1001 – 27-7-1007

The amount contributed to a catastrophe savings account; interest income earned on the catastrophe savings account; and distributions from a catastrophe savings account are excluded from taxable gross income of the account holder. The catastrophe savings account must be established in accordance with § 27-7-1001(a) and the contributions cannot exceed the limitations established under § 27-7-1003(3). Any contributions in excess of the limitations provided must be withdrawn and included in the taxable gross income in the year of withdrawal. Any distribution from the catastrophe savings account that is not used to pay qualified catastrophe expenses must be included in gross taxable income and an additional tax of 2.5% tax is due on the taxable distribution.

**Estimated FY 2026 Tax Expenditure: $69,000**

Self-Employment Tax Deduction – Mississippi Code of 1972 (Supp.) § 27-7-18(6)

Self-employed individuals are allowed a deduction from gross income in an amount equal to:

1) 17% of the federal self-employment taxes imposed for taxable years ending in calendar year 2017;
2) 34% of the federal self-employment taxes imposed for taxable years ending in calendar year 2018;
3) 50% of the federal self-employment taxes imposed for taxable years ending in calendar year 2019 and thereafter.

**Estimated FY 2026 Tax Expenditure: $12,139,000**

First-time Home Buyer Savings Account Adjustment – Mississippi Code of 1972 (Supp.) § 27-7-15 and 27-7-1101 through 27-7-1103

First-time home buyers are allowed to exclude from gross income amounts deposited into a first-time home buyer savings account and any interest or other income earned attributable to that account for the purpose of paying eligible costs in the purchase of a single-family residence. The amount deducted shall not exceed $2,500 for any single account holder who files an individual return or $5,000 for any married couple who are joint account holders and file a joint return. Any monies or funds withdrawn or distributed from the first-time home buyer savings account for any purpose other than the payment of eligible costs by or on behalf of a qualified beneficiary shall be included in gross income in the year of withdrawal.

**Estimated FY 2026 Tax Expenditure: $25,000**

Achieving a Better Life Experience Act (ABLE) Adjustment – Mississippi Code of 1972 (Supp.) § 27-7-15(4)(ii), 27-7-18(7) and 43-28-13

A deduction up to the maximum annual federal amount is allowed for contributions or payments, interest, dividends, gains or income of any kind on deposit in an ABLE Trust Fund account. Any withdrawals from an account that are not qualified withdrawals shall be included in gross income in the year of the withdrawal.

**Estimated FY 2026 Tax Expenditure: $43,000**

Agricultural Disaster Program Compensation Deduction – Mississippi Code of 1972 (Supp.) § 27-7-15(4)(kk)

Amounts paid by an agricultural disaster program as compensation to an agricultural producer, cattle farmer or cattle rancher who has suffered a loss as the result of a disaster or emergency are excluded from gross income.

**Estimated FY 2026 Tax Expenditure: $138,000**

## Individual Credits

Credit for Income Tax Paid to another State - Mississippi Code of 1972 (Supp.), § 27-7-77

Individual resident taxpayers of Mississippi whose gross income is derived from sources both within and without the state of Mississippi are eligible for a tax credit for income tax paid to another state, territory of the United States, or the District of Columbia against the amount of tax found to be due to the state of Mississippi.

The credit is limited in amount as follows:

1) The tax credit may not exceed the amount of income tax due the state of Mississippi.
2) The tax credit may not exceed the amount of income tax actually paid to other states.
3) The tax credit may not exceed an amount computed by applying the highest Mississippi rates to the net taxable income reported to the other state.

This measure is a recognition of the principle that Mississippi tax laws extend only to the state's boundary as they apply to individuals.

**Estimated FY 2026 Tax Expenditure: $106,103,000**

Long-Term Care Premiums Credit - Mississippi Code of 1972 (Supp.), § 27-7-22.33

An income tax credit is allowed for premiums paid during the taxable year for certain qualified long-term care insurance policies. This credit cannot exceed $500 or the taxpayers' income tax liability, whichever is less, for each qualified long-term care insurance policy. Any unused credit cannot be carried forward to apply to the succeeding tax year's liability.

**Estimated FY 2026 Tax Expenditure: $1,218,000**

Charitable Contribution Credit – Mississippi Code of 1972 (Supp.) § 27-7-22.39

A credit for cash contributions made to a qualifying charitable organization which is the lesser of $400 or the amount of the contribution in any taxable year for a single individual, or the lesser of $800 or the amount of the contribution in any taxable year for a married couple filing a joint return.

**Estimated FY 2026 Tax Expenditure: $365,000**

Foster Care Credit – Mississippi Code of 1972 (Supp.) § 27-7-22.40

A credit for cash contributions made to a qualifying foster care charitable organization which is the lesser of $1,500 or the amount of the contribution in any taxable year for a single individual, or the lesser of $3,000 or the amount of the contribution in any taxable year for a married couple filing a joint return.

**Estimated FY 2026 Tax Expenditure: $406,000**

Other Credits - Mississippi Code of 1972 (Supp.)

Certain credits are allowed on the Mississippi individual income tax return as direct credits or as pass-through credits from partnerships, S Corporations, and LLC's:

1. Gaming Control Act License Fees Credit - § 75-76-179

   License fees paid under the Gaming Control Act are allowed as a credit against income tax. The credit may not exceed the amount of income tax due.

   **Estimated FY 2026 Expenditure: $1,279,000**

2. Mississippi Natural Heritage Program and Mississippi Scenic Streams Stewardship Program - § 27-7-22.21
   A credit is allowed for certain costs associated with donations of land which are conservation sites under the Mississippi Natural Heritage Program or which are along streams nominated to the Mississippi Scenic Streams Stewardship program.
   **Estimated FY 2026 Expenditure: $0**

3. Credit for Certain Qualified Adoption Expenses - § 27-7-22.32
   A credit against Mississippi income tax of the amount of the qualified adoption expenses paid or incurred, not to exceed $10,000, for each dependent child legally adopted by a taxpayer during calendar year 2017 or thereafter.
   **Estimated FY 2026 Expenditure: $362,000**

4. Historical Structure Rehabilitation Credit - § 27-7-22.31
   A credit for costs incurred for the rehabilitation of eligible property which is a certified historic structure or a structure in a certified historic district.
   **Estimated FY 2026 Expenditure: $870,000**

5. Business Ad Valorem Tax Credit - § 27-7-22.5
   Credit allowed to manufacturers, distributors, wholesalers or retail merchants who pay ad valorem taxes in Mississippi imposed on commodities, products, goods, wares, and merchandise held for resale.
   **Estimated FY 2026 Expenditure: $10,439,000**

6. Finance Company Privilege Tax - § 27-21-9
   A credit for the amount of privilege taxes paid is allowed and shall not be greater than the total amount of income tax due.
   **Estimated FY 2026 Expenditure: $167,000**

7. Reforestation Credit - § 27-7-22.15
   A credit for eligible owners who incur costs for approved reforestation practices for eligible tree species on eligible lands, in the amount of 50% of the average cost. The lifetime maximum credit is $75,000.
   **Estimated FY 2026 Expenditure: $337,000**

## Individual Deductions

Standard Deduction - Mississippi Code of 1972 (Supp.), § 27-7-17(2)(b)

For all Mississippi taxpayers who cannot itemize their deductions, there is a standard deduction available. The deduction is as follows:

$4,600 Married individuals - joint return
$4,600 Married - spouse died in tax year
$2,300 Married individuals - separate returns
$3,400 Head of household
$2,300 Single individuals

**Estimated FY 2026 Tax Expenditure: $200,514,000**

## ITEMIZED DEDUCTIONS

Medical and Dental Expenses - IRC § 63(f) and 213. Mississippi Code of 1972 (Supp.), § 27-7-17(2)(a)

Taxpayers are allowed a deduction for expenses incurred for medical treatment, medicines, health care, health insurance, and transportation which are essential to medical care. The deduction is equal to that portion of all qualified medical expenses exceeding 7.5% of taxpayer's federal adjusted gross income. On a joint return, the percentage limitation is based on the total adjusted gross income of both husband and wife. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Expenditure: $37,373,000**

Real Estate Taxes - IRC § 63(f) and 164; Mississippi Code of 1972 (Supp.), § 27-7-17(2)(a)

Real estate taxes paid during the taxable year may be deductible from Mississippi gross income in arriving at Mississippi taxable income. However, special assessments are not considered real estate taxes and, as such, may not be deducted. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: $32,980,000**

Home Mortgage Interest - IRC § 63(f) and 163; Mississippi Code of 1972 (Supp.), § 27-7-17(2)(a)

When computing Mississippi taxable income, a taxpayer may deduct the full amount of all mortgage interest paid on his owner-occupied home but only to the extent that the interest is attributable to loans that do not exceed $750,000 ($350,000 if married filing separately). Home equity debt may be deducted on mortgages totaling $100,000 ($50,000 if married filing separately). Grandfathered debt taken out prior to October 13, 1987, is subject to exceptions. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: Information not available**

Investment Interest - IRC § 63(f) and 163; Mississippi Code of 1972 (Supp.), § 27-7-17(2)(a) and (1)(c)

Investment interest is interest on a debt incurred in the purchase of certain life insurance policies; interest on a debt incurred in the earning of tax-exempt income, such as loans taken to buy government bonds; and interest on debt for which the taxpayer is not legally liable. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: Information not available**

Charitable Contributions - IRC § 63(f) and 170(c); Mississippi Code of 1972 (Supp.), § 27-7-17(1)(h)

Contributions to recognized charities may be deducted from Mississippi adjusted gross income. A recognized charity is any government body or any public or private corporation, trust, or foundation organized and operated principally for charitable, religious, scientific, literary or educational purposes. Contribution deductions are generally limited to 50% of adjusted gross income; however, there is a 20% adjusted gross income limit that applies to gifts of long-term capital gain-appreciated property to private foundations and to charities to which the 30% adjusted gross income limit applies to contributions of other than capital gain property. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: $100,902,000**

Casualty and Theft Losses - IRC § 165(c)(3); Mississippi Code of 1972 (Supp.), § 27-7-17(2)(a)

Casualty and theft losses are only allowable for losses attributable to federally declared disaster areas. A casualty loss includes losses due to fire, storm, shipwreck, theft, or any sudden, unexpected, or unusual event. Casualty losses are deductible, provided that the loss is more than 10% of adjusted gross income decreased by $100 per incident. The amount of loss is the lesser of:

a) The decrease in fair market value of the property as a result of the casualty or theft, or value before minus value after

b) Taxpayer's adjusted basis in the property before the casualty loss or theft.

Losses must be reduced by any insurance reimbursement. The purpose of this provision is to comply with federal tax codes.

**Estimated FY 2026 Tax Expenditure: $141,000**

Employee Expenses and Miscellaneous Deductions Subject to 2% Limitation - IRC § 162 and 212; Mississippi Code of 1972 (Supp.), § 27-7-17(2)(a)

Employee expenses and miscellaneous deductions subject to the 2% limitation are suspended for tax years 2018 through 2025. These expenses include but are not limited to:

a) Unreimbursed Employee Expenses - IRC 162
   1) Expenses for carrying on trade or business of being an employee
   2) Ordinary and necessary business expenses
b) Miscellaneous Deductions - IRC 212

   Expenses incurred to:
   1) Produce or collect income that must be included in gross income
   2) Manage, conserve, or maintain property held for producing income
   3) Determine, contest, pay or claim a refund of any tax

**Estimated FY 2026 Tax Expenditure: $0**

Deductions Not Subject to the 2% Limitation - IRC § 72, 162, 165, 691(c), 1341, and 212; Mississippi Code of 1972 (Supp.) § 27-7-17(2)(a)

Certain other expenses may be claimed as miscellaneous itemized deductions not subject to the 2% federal adjusted gross income limitation.

A. Casualty and theft losses from income-producing property - IRC 165
B. Federal estate tax on income in respect of a decedent - IRC 691(c)
C. Repayments of more than $3,000 under a claim of right - IRC 1341
D. Impairment-related work expenses of persons with disabilities - IRC 162
E. Unrecovered investment in a pension - IRC 72

**Estimated FY 2026 Tax Expenditure: $3,446,000**

# SALES AND USE TAX EXPENDITURES

Section 27-65-17 Mississippi Code of 1972 (Supp.) established a 7% sales tax on gross proceeds of retail sales except as provided elsewhere in the statutes. Likewise, § 27-67-5 of the Code establishes a use tax which corresponds very closely to the sales tax and which is applied to goods purchased out of state and brought into Mississippi. In general, a retail sale is considered a sale of a final good to the final consumer of that good. Gross proceeds from the sale of specifically named services are also subject to the general sales tax. Retail sales typically do not include sales of raw materials or capital equipment to manufacturers, producers, or refiners of goods, although they may be the final consumers of these goods in their recognizable form. Goods which lose their identity, including machinery used in production, are normally not considered retail goods.

Mississippi statutes blur the distinction between wholesale and retail goods. Section 27-65-17 lists several goods which are taxed at rates below the general sales tax rate of 7%, but most of these exceptions refer to sales which should not be considered as retail sales in the strictest sense. These are included in this report for completeness, but the reader is cautioned that although these items are tax expenditures in the letter of the law, they are not considered to be expenditures in the spirit of the law. In each of the items listed below, the estimated fiscal impact is based upon the difference between actual revenues and estimated revenues if a 7% sales or use tax were imposed.

## EXCEPTIONS

Exceptions to the General Sales Tax Rate - Mississippi Code of 1972, (Supp.), § 27- 65-17

The following items are explicit exceptions to the 7% tax on gross proceeds from retail sales. Each of these, with the partial exception of aircraft, autos, trucks, semi-trailers and mobile homes, is a wholesale transaction and as such is not a true tax expenditure. However, according to the letter of the law, each qualifies as a tax expenditure and is included for that reason.

| | Estimated FY 2026 Tax Expenditure |
|---|---|
| Retail sales of farm tractors, farm implements & logging equipment taxed at 1.5% | $59,825,822 |
| Aircraft, trucks, semi-trailers and mobile homes taxed at 3% | $36,660,280 |
| Autos, light trucks: (10,000 lbs. or less) taxed at 5% | $145,714,109 |
| Groceries taxed at 5% | $129,981,684 |
| Manufacturing machinery and certain port facility equipment taxed at 1.5% | $152,672,852 |
| Materials used in railroad tracks taxed at 3% | $1,363,037 |
| Sales to electric power associations taxed at 1% | $23,512,141 |

Discount for Timely Filing - Mississippi Code of 1972 (Supp.), § 27-65-33

Taxpayers are allowed to discount their tax liability by 2% in return for meeting their legal filing deadline.

**Estimated FY 2026 Tax Expenditure: $18,128,726**

## EXEMPTIONS

Sale of utilities to residential consumers - Mississippi Code of 1972 (Supp.), § 27-65-19

The sale of utilities and water to residential consumers is exempt from the sales tax. The reason for this exemption is to eliminate the burden of taxation from low-income taxpayers and from those goods which are considered to be necessities.

**Estimated FY 2026 Tax Expenditure: $170,928,524**

Sale of utilities to manufacturers – Mississippi Code of 1972 (Supp.), § 27-65-107(b)

The sale of utilities to manufacturers is exempt from sales tax. This constitutes a wholesale transaction and should not be considered a true tax expenditure.

**Estimated FY 2026 Tax Expenditure: $55,765,085**

Sale of utilities to nonprofit water associations - Mississippi Code of 1972 (Supp.), § 27-65-107(c)

Sales to nonprofit water associations in which no part of the net earnings inures to the benefit of any private shareholder, group, or individual are exempt from sales tax. Only sales which are ordinary and necessary to the operation of such organizations are exempt from tax.

**Estimated FY 2026 Tax Expenditure: $1,794,708**

Sale of utilities to farmers – Mississippi Code of 1972 (Supp.), § 27-65-107(g)

The sale of utilities to farmers is exempt from sales tax. This constitutes a wholesale transaction and should not be considered a true tax expenditure.

**Estimated FY 2026 Tax Expenditure: $1,724,694**

Sales of home medical equipment and supplies - Mississippi Code of 1972 (Supp.), § 27-65-105(g)

An exemption is allowed for sales of home medical equipment and home medical supplies listed as eligible for payment under Title XVIII of the Social Security Act or under the state plan for medical assistance under Title XIX of the Social Security Act, prosthetics, orthotics, hearing aids, hearing devices, prescription eyeglasses, oxygen and oxygen equipment, when ordered or prescribed by a licensed physician for medical purposes for a patient, and when payment for such equipment or supplies, or both, is made in part or in whole under the provisions of the Medicare and Medicaid program.

Mississippi Code of 1972 (Supp.), § 27-65-111(dd) provides that all sales of durable medical equipment and home medical supplies when ordered or prescribed by a licensed physician for medical purposes of the patient are exempt from sales tax. As used in this paragraph, durable medical equipment means equipment, including repair and replacement parts for the equipment which: can withstand repeated use; is primarily and customarily used to serve a medical purpose; generally is not useful to a person in the absence of illness or injury; and is not worn in or on the body.

**Estimated FY 2026 Tax Expenditure: $28,769,340**

Industrial exemptions - Mississippi Code of 1972 (Supp.), § 27-65-101

Several different categories of sales to manufacturers, refiners, producers, and transporters are exempt from the general sales tax. These are wholesale transactions and should not be considered as true tax expenditures but are included in this report for information purposes only. They are as follows:

| | Estimated FY 2026 Tax Expenditure |
|---|---|
| Sales of boxes, crates, cartons, etc. to manufacturers and wholesalers | $2,837,393 |
| Raw materials used in manufacturing | $169,127,397 |
| Gross proceeds of sales of dry docks, offshore drilling equipment, and large vessels | $2,837,393 |
| Sales to commercial fishermen of specified commercial fishing boats | $2,863,545 |
| Gross income from repairs to vessels engaged in foreign trade or interstate transport | $7,961,816 |
| Rolling stock used in interstate commerce | $4,255,496 |
| Sales of parts used in the repair of aircraft | Not Available |
| Raw materials used in manufacturing rolling stock | Not Available |
| Machinery or parts used in repairing large ships | Not Available |
| Tangible personal property consumed on ships in international commerce | Insignificant |
| Income from storage/handling of perishable goods by public storage warehouses | Not Available |

| Industrial Exemptions – (continued) | Estimated FY 2026 Tax Expenditure |
|---|---|
| Natural gas used in oil production | $3,547,038 |
| Gross collections from self-service commercial laundering, drying, and cleaning equipment | $2,149,143 |
| Economic Development Reform Act incentives | $8,432,131 |
| Growth and Prosperity Act incentives | Not Available |
| Pollution control equipment | Not Available |
| Sales of broadband technology equipment | $11,886,857 |
| Sales of machinery or equipment to nonprofit organizations created by the Oil Pollution Control Act of 1990 | Not Available |
| Sales of component materials and equipment used to repair buildings and equipment damaged or destroyed as a result of a natural disaster | Not Available |
| National and Regional Headquarters | Not Available |
| Clean Energy Initiative Incentives Program | Not Available |
| Aerospace Initiative Incentives Program | Not Available |

NOTE: Numbers in italics should be considered very inexact estimates. No established database exists for determining these values.

Agricultural exemptions - Mississippi Code of 1972 (Supp.), § 27-65-103

Several different categories of sales to farmers are exempt from the general sales tax. These are wholesale transactions and should not be considered as true tax expenditures. They are included in this report for information purposes only. They are as follows:

| | Estimated FY 2026 Tax Expenditure |
|---|---|
| Sales of lint, seed cotton, baled cotton, feed, seed, fertilizers, baling wire, packaging materials, etc. | $75,776,340 |
| Sales of agricultural produce to be further processed | $126,484,484 |
| Retail sales of mules, horses, and other livestock | Not Available |
| Sales of antibiotics, hormones, drugs, medicines, etc. | $1,928,050 |

Governmental exemptions - Mississippi Code of 1972 (Supp.), § 27-65-105

Sales of normally taxable goods are exempt from sales tax when sales are made to the U.S. government, to the state of Mississippi, to public schools, to the Mississippi Band of Choctaw Indians, or to governmental or volunteer fire departments.

| | Estimated FY 2026 Tax Expenditure |
|---|---|
| Sales to U.S. Government or State of Mississippi | $252,968,971 |
| Sales to public schools | *$35,469,193* |
| Sales of school textbooks | *$12,454,324* |
| Sales to the Mississippi Band of Choctaw Indians | $284,094 |
| Sales of firefighting equipment to governmental or volunteer fire departments | $215,153 |

NOTE: Numbers in italics should be considered very inexact estimates. No established database exists for determining these values.

Miscellaneous exemptions - Mississippi Code of 1972 (Supp.), § 27-65-111Specific exemptions which benefit nonprofit organizations or the sale of particular items such as drugs and medicine or alcohol-blended fuels are provided for under this section. The purpose of each of these exemptions is inherent in the particular object of the exemption. They are as follows:

| Miscellaneous Exemptions – (continued) | Estimated FY 2026 Tax Expenditure |
|---|---|
| Sales to nonprofit hospitals and infirmaries | $111,794,706 |
| Sales of newspapers, periodicals, and subscription magazines | $5,000,000 |
| Sales of coffins and caskets | $2,837,393 |
| Sales of goods for immediate export | Insignificant |

| Sales to Pinecrest Weekend Snackpacks for Kids, Corinth MS | Insignificant |
| Hearing aids prescribed by a licensed physician, audiologist, or hearing aid specialist | $10,292,643 |

# SEVERANCE TAX EXPENDITURES

An annual privilege tax is assessed against oil and gas severed from the ground at the rate of 6% of the value of the oil or gas at the point of production. The exceptions are for Enhanced Oil Recovery oil wells which are taxed at 3%, and Horizontally Drilled oil wells which are taxed at 1.3%.

## EXEMPTIONS

Enhanced Recovery - Mississippi Code of 1972 (Supp.), § 27-25-503(b)

Oil produced by an enhanced recovery is taxed at 3% of the value of the oil at the point of production. The purpose of this tax exemption is to encourage continued production in fields which otherwise might become uneconomical.

**Estimated FY 2026 Tax Expenditure: $10,000,000**

Horizontally Drilled – Mississippi Code of 1972 (Supp.), § 27-25-503(c)

Oil produced by qualified horizontally drilled wells is taxed at 1.3%. The purpose of this tax exemption is to encourage companies to invest in oil and gas exploration in the state.

**Estimated FY 2026 Tax Expenditure: $106,800**

# INSURANCE PREMIUM TAX EXPENDITURES

A premium tax is levied and imposed upon each domestic or foreign insurance company doing business in the state at the rate of 3% of the gross amount of premium receipts collected by such companies on insurance policies and contracts written in, or covering risks located in this state. After July 1, 1995, annuities shall be exempt from insurance premium tax. There is an additional levy of 1% on fire insurance covering risks located in this state and an additional 0.5% on fire insurance covering risks located in the city of Jackson. A retaliatory tax is imposed on foreign companies whose state of domicile imposes a greater tax than Mississippi.

EXEMPTIONS - Mississippi Code of 1972 (Supp.), § 27-15-119

Policies and contracts issued to fund a retirement, thrift, or deferred compensation plan qualified under § 401 or § 403 or an individual retirement annuity qualified under § 408 or § 457 of the Federal Tax Code for federal tax exemption, unless the foreign company's principal place of business is in a state which taxes policies issued by companies having their principal place of business in Mississippi; then, they are taxed as a retaliatory tax at the same rate. The insurance carriers selected to furnish service to the state of Mississippi under the State Employees' Life and Health Insurance Plan shall not be required to pay the premium tax on premiums collected for coverage under the plan. From and after July 1, 1995, annuity premiums are exempt from insurance premium tax.

**Estimated FY 2026 Tax Expenditure: Information not available**

CREDITS

Income Taxes Paid - Mississippi Code of 1972 (Supp.), § 27-15-103

Premium taxes shall be reduced by the net amount of income tax paid to this state for the preceding calendar year, provided the credit is to be taken only once. The purpose is to insure that the greater of either the annual insurance premium tax or the income tax shall be paid.

**Estimated FY 2026 Tax Expenditure: $19,300,000**

Retaliatory Tax Deduction - Mississippi Code of 1972 (Supp.), § 27-15-109

Where an additional premium tax is imposed against a domestic company under retaliatory laws of other states in which the domestic company does business, such company may deduct the total of the additional retaliatory tax from the state income tax due by it to the state of Mississippi.

**Estimated FY 2026 Tax Expenditure: $503,000**

Reduction for Qualifying Mississippi Investments - Mississippi Code of 1972 (Supp.), § 27-15-129

Provision is made for the premium tax to be reduced if the company invests in qualifying Mississippi investments.

**Estimated FY 2026 Tax Expenditure: $62,400,000**

Guaranty Association Credit - Mississippi Code of 1972 (Supp.), § 83-23-218

Member insurers may reduce their premium or income tax liability by a percentage of their assessment paid to the Mississippi Life and Health Insurance Guaranty Association.

**Estimated FY 2026 Tax Expenditure: $1,300,000**

Coast Area Credit - Mississippi Code of 1972 (Supp.), § 27-15-133

Premium taxes shall be reduced by 10% of the premium received from new policies written or covering risks for essential property within the coast area. The coastal area includes Hancock, Harrison, Jackson, Stone, Pearl River and George counties. The reduction cannot exceed $100,000.

**Estimated FY 2026 Tax Expenditure: $759,000**

New Markets Credit - Mississippi Code of 1972 (Supp.), § 57-105-1

An income tax credit and insurance premium tax credit is allowed for taxpayers making investments that qualify for federal income new markets tax credit as defined in § 45D of the IRC. The amount of the credit shall be equal to the applicable percentage of the adjusted purchase price paid to the qualified community development entity for the qualified equity investment. The amount of the credit that may be utilized in any one year shall be limited to the total tax liability of the taxpayer for the applicable income, insurance premium, or premium retaliatory tax. The credit shall not be refundable or transferable. Any unused portion of the credit may be carried forward for seven years beyond the credit allowance date on which the credit was earned. The total amount of credit for all taxpayers is capped at $15,000,000 per year.

**Estimated FY 2026 Tax Expenditure: $4,200,000**

Mississippi Small Business Investment Credit – Mississippi Code of 1972 (Supp.), § 57-115-5

This is an insurance premium tax credit for participating investors of an amount equal to 100% of the participating investor's investment of designated capital in a Mississippi small business investment company. A participating investor may claim 20% of the designated capital each year starting on January 1, 2015. The credit claimed each year cannot exceed the investor's total insurance premium tax liability for that year. Any unused credit may be carried forward from the date the credit was first able to be utilized for the succeeding five years.

**Estimated FY 2026 Tax Expenditure: $5,200,000**

# CASUAL AUTO SALES TAX EXPENDITURES

The auto sales tax is levied upon every person, firm, or corporation purchasing other than at wholesale outside the state any motor vehicle required to be registered or licensed with the tax collector of any county in the state from any person, firm, or corporation which is not a licensed dealer engaged in selling motor vehicles. This casual auto sales tax is levied and collected at the rate of 5% of the true value of the motor vehicle as calculated by using the most current official motor vehicle assessment schedule supplied by the Department of Revenue.

EXEMPTIONS - Mississippi Code of 1972 (Supp.), § 27-65-201(7)(a-d)

a) Transfers of legal ownership of motor vehicles currently registered or licensed in the transferor's name between husband and wife, parent and child, or grandparents and grandchildren, unless the transferor is a licensed dealer of motor vehicles and the transfer of the motor vehicle is made in the regular course of business.
b) Transfers of legal ownership of motor vehicles pursuant to a will or pursuant to any law providing for the distribution of the property of one dying intestate.
c) Transfers of legal ownership of motor vehicles ten or more years after the date of the manufacture of such vehicle.
d) Transfers of legal ownership of motor vehicles between siblings unless the transferor is a licensed dealer of motor vehicles and the transfer of the motor vehicle is made in the regular course of business.
e) Transfers of legal ownership of motor vehicles, without actual consideration for the transfer, between a trustee and a beneficiary of a trust, as evidenced by an affidavit prepared by the Department of Revenue and signed by the transferor.
f) Transfers of legal ownership of motor vehicles between a corporation and one of its shareholders in a transaction which qualifies for nonrecognition of gain or loss pursuant to § 351 of the Internal Revenue Code as it exists at the time of the transfer, as evidenced by an affidavit prepared by the Department of Revenue and signed by the transferor.
g) Transfers of legal ownership of motor vehicles between a partnership or limited liability company and one of its partners or owners, as evidenced by an affidavit prepared by the Department of Revenue and signed by the transferor.

**Estimated FY 2026 Tax Expenditure: $3,206,851**

# AUTO PRIVILEGE TAXES AND AUTO TAG FEES TAX EXPENDITURES

Auto privilege taxes and tag fees are levied upon operators as reasonable compensation for the use of the highways. Highway privilege tax is paid annually during the anniversary month of license tag or during month established by the Department of Revenue when tag is issued for a period of less than 12 months. Upon carriers of property, highway privilege taxes may be paid for periods of 3 months, 6 months, and 12 months.

Exemptions - Mississippi Code of 1972 (Supp.), § 27-19-1 *et seq.*

a) Carriers of property duly registered and licensed in another state and being used to transport farm harvesting machinery or equipment to and from a particular county in the state may, upon adoption of a resolution by the board of supervisors of said county where such machinery or equipment is being exclusively used in harvesting farm crops within said county, be exempt from the highway privilege taxes levied when said resolution is filed with the Department of Revenue. However, the exemption shall not exceed a period of forty days for any annual period without a second resolution of approval by the board of supervisors who shall have the authority to extend the exemption not to exceed an additional period of twenty days during any annual period. § 27-19-11.

b) No tax shall be levied upon any trailer or farm tractor solely hauling farm products of the soil from the farm to the gin or market, or transporting fertilizer or feed to the farm, where the gross weight does not exceed 8,000 pounds, and where the title to such products is still in the producer's thereof. § 27-19-17(1).

c) No tax shall be imposed on the wagons or trailers, or tractors drawing same, of circuses, carnivals, fairs and other shows using municipal streets or public highways, when they are shipped into the state of Mississippi by railroad, and use such streets and highways only in the transporting of such trailers or wagons from the railroad to be placed where such circus, carnival, fair, or other show is to be held or staged, and in returning such trailers and wagons from such place to the railroad for reloading. § 27-19-17(4).

d) No privilege tax shall be imposed upon any motor vehicle owned by the U.S. government or any agency or instrumentality thereof, or owned by the State of Mississippi or any county or municipality of the state, or any agency or instrumentality thereof, or upon any motor vehicle owned by any school district, fire protection district, or levee or drainage district in the state. Exemption of motor vehicles owned by a county or municipality or any agency or instrumentality thereof from motor vehicle privilege taxes does not waive payment of the registration fee imposed in § 27-19-43. § 27-19-27.

e) Any tractor, road roller, or road machinery used solely in road building or other highway construction or maintenance work or vehicles permanently equipped with and used exclusively for transporting water well drilling outfits, all of which vehicles are not used upon highways to transport persons or property. § 27-19-29.

f) Antique automobiles, upon payment of $25 permanent fee, shall be exempt from all ad valorem and other taxes. § 27-19-47.

g) Antique motorcycles, upon payment of $25 permanent fee, shall be exempt from all ad valorem and other taxes. § 27-19-47.1.

h) One motor vehicle owned by disabled American veterans who have 100% permanent service-connected disability, or the unremarried surviving spouse, upon payment of $l.00; pertains only to tags or plates for private passenger motor vehicles or pickup trucks; exempt from all ad valorem and privilege taxes. § 27-19-53.

i) One motor vehicle owned by recipients of the Congressional Medal of Honor or former prisoners of war or the unremarried surviving spouse are exempt from all taxes and fees. § 27-19-54. Pertains only to tags for private passenger motor vehicles or pickup trucks.

j) Street rods, upon payment of $50, are exempt from all taxes and fees. § 27-19-56.6.

k) One motor vehicle owned by the unremarried surviving spouse of a member of the Armed Forces of the United States, a reserve component of the Armed Forces or of the National Guard who, while on active duty, is killed or dies in time of war or national emergency or in an area of immediate military hazard upon payment of $1.00 exempt from all taxes. § 27-19-169.

l) One motor vehicle owned by the recipient of the Purple Heart Medal will be exempt from all taxes and fees pertaining to private passenger motor vehicles, pickup trucks or recreational motor vehicles. One motor vehicle owned by the surviving spouse of a deceased person who was issued a Purple Heart Medal distinctive license plate may apply for or retain one such license plate and may continue to renew as long as the spouse remains unmarried. § 27-19-56.5.

m) Motor vehicles that are designed or adapted to be used exclusively in the preparation and loading of chemical or other materials for aerial agriculture application to crops and only incidentally used on public roadways in this state. § 27-19-30.

n) One private carrier of passengers owned by any religious society, ecclesiastical body or any congregation thereof which is used exclusively for such society and not for profit. § 27-19-3.

o) All motor vehicles owned by any such religious society or any educational institution having a seating capacity greater than seven passengers and used exclusively for transporting passengers for religious or educational purposes and not for profit. § 27-19-3.

p) Motor vehicles that are eligible to display an authentic historical license plate. § 27-19-56.11.

q) Antique pickup, upon payment of $25 permanent fee, shall be exempt from all ad valorem and other taxes. § 27-19-47.2.

r) One motor vehicle owned by the mother or the un-remarried spouse of a service member killed in action or died in a combat zone after 09/11/2001. § 27-19-56.162.

# CLASSIFICATION OF TAX EXPENDITURES ACCORDING TO PURPOSE

In order to organize the tax expenditure items documented in the previous pages in a systematic fashion, five categories of tax expenditures have been established for this report. Each of the tax expenditures listed in this report has been placed into one of the five classifications.

## Tax Expenditures Which Redistribute the Tax Burden

All tax expenditure items, the purpose of which is to directly or indirectly shift the burden of taxation from one income class to another.

| | Estimated FY 2026 Tax Expenditure |
|---|---|
| Credit for finance company privilege tax paid for same tax year | $1,200,000 |
| Jobs Tax Credit | $10,100,000 |
| National Headquarters Credit | -0- |
| Research and Development Job Skills Credit | $6,400 |
| Employer Dependent Care Credit | -0- |
| Gambling License Fees Credit | $14,800,000 |
| Financial Institution Credit | -0- |
| Mississippi Business Finance Corporation Revenue Bond Service Credit | $9,100,000 |
| Manufacturing Investment Tax Credit | $6,700,000 |
| Ad Valorem Inventory Credit | $50,200,000 |
| Brownfield Sites Credit | -0- |
| Export Charges Credit | $84,300 |
| Import Charges Credit | $46,100 |
| Broadband Technology Credit (Corporate Income) | $6,900,000 |
| Reforestation Tax Credit (Corporate Income) | $16,500 |
| New Markets Tax Credit | $2,400,000 |
| Bank Share Tax Credit | $751,000 |
| Mississippi Advantage Jobs Incentive Program | $16,375,374 |
| Existing Industry Withholding Rebate Program | -0- |
| Mississippi Economic Impact Authority Withholding Rebate Program (MEIA) | -0- |
| Mississippi Major Economic Impact Authority Withholding Rebate Program (MMEIA) | $11,384,461 |
| Personal exemptions | $554,677,000 |
| Exemption for dependents | $83,172,000 |
| Other individual income tax exemptions | $3,522,000 |
| Prisoners of War, Missing in Action | Not Available |
| Contributions or payments to a Mississippi college savings plan (MACS & MPACT) | $1,200,000 |
| Long-term care premiums tax credit | $1,218,000 |
| Business ad valorem tax credit | $10,439,000 |
| Finance company privilege tax | $167,000 |
| Standard deduction | $200,514,000 |
| Sale of utilities to residential consumers | $170,928,524 |
| Sale of utilities to nonprofit water associations | $1,794,708 |
| Sales to nonprofit hospitals and infirmaries | $111,794,706 |
| Sales of coffins and caskets | $2,837,393 |
| Sales to nonprofit orphanages, old men's or old ladies' homes | Insignificant |
| Gross proceeds of retail sales and the use or consumption of drugs and medicines | $205,362,105 |

NOTE: Numbers in italics should be considered very inexact estimates. No established database exists for determining these values.

| Expenditures Which Redistribute the Tax Burden – (continued) | Estimated FY 2026 Tax Expenditure |
|---|---|
| Sales of food purchased with food stamps or WIC instruments | $77,905,010 |
| Retail sales of specified articles of clothing/footwear and school supplies when purchased during the 'Annual Back to School Sales Tax Holiday' | $5,149,188 |
| Retail sales of specified firearms, ammunition, and hunting supplies when purchased during the 'Mississippi Second Amendment Weekend' sales tax holiday | Not Available |
| Retaliatory tax deduction | $503,000 |

NOTE: Numbers in italics should be considered very inexact estimates. No established database exists for determining these values.

## Tax Expenditures With a Direct Budgetary Objective

The second category of tax expenditures includes those provisions in the statutes which have a direct budgetary objective; i.e., to encourage private expenditure in lieu of public expenditure for particular purposes or to subsidize private expenditures.

| | Estimated FY 2026 Tax Expenditure |
|---|---|
| Biomass Energy Credit | -0- |
| Historical Structure Rehabilitation Credit (Corporate Income) | $3,300,000 |
| Prekindergarten Credit | $2,700,000 |
| Broadband Technology Credit (Corporate Franchise) | $4,000,000 |
| Motion Picture Production Rebate Program | $14,154,344 |
| Mississippi Natural Heritage Program and Scenic Streams Stewardship Program | -0- |
| Credit for certain qualified adoption expenses | $362,000 |
| Historical Structure Rehabilitation Credit (Individual Income) | $870,000 |
| Reforestation Credit (Individual Income) | $337,000 |
| Discount for timely filing | $18,128,726 |
| Sales of home medical equipment and supplies | $28,769,340 |
| Clean Energy Initiative Incentives Program | Not Available |
| Aerospace Initiative Incentives Program | Not Available |
| Sales of newspapers, periodicals, and subscription magazines | $5,000,000 |
| Sales of goods for immediate export | Insignificant |
| Sales to YMCA, YWCA, or Boys or Girls Clubs | $1,999,369 |
| Sales to nonprofit private schools | $14,192,909 |
| Sales to Salvation Army or Muscular Dystrophy Association, Inc. | Insignificant |
| Sales of alcohol-blended fuel using Mississippi distilled alcohol | Insignificant |
| Sales to the Institute for Technology Development | Insignificant |
| Sales of cookies by Girl Scouts of America | Insignificant |
| Gifts or sales to public or private nonprofit museums of art | Insignificant |
| Sales to alumni associations of state-supported colleges and universities | Insignificant |
| Sales to National Association of Junior Auxiliaries, Inc. | Insignificant |
| Sales to domestic violence shelters which qualify for state funding | Insignificant |
| Sales to the Mississippi Chapter of the National Multiple Sclerosis Society | Insignificant |
| Sales to the Mississippi Technology Alliance | Insignificant |
| Gross proceeds of sales made for the sole purpose of raising funds for a school | $7,919,619 |
| Sales to Mississippi Blood Services | Insignificant |
| Sales of non-perishable food to food banks, food pantries, and food lines | Insignificant |
| Sales to the United Way of the Pine Belt Region, Inc. | Insignificant |

NOTE: Numbers in italics should be considered very inexact estimates. No established database exists for determining these values.

| Tax Expenditures a direct budgetary objective – (continued) | Estimated FY 2026 Tax Expenditure |
|---|---|
| Sales to Mississippi Children's Museum | Insignificant |
| Sales to Jackson Zoological Park | Insignificant |
| Sales to Diabetes Foundation of Mississippi/MS Juvenile Diabetes Research Foundation | Insignificant |
| Sales to UMMC Research and Development Foundation | Insignificant |
| Sales to Keep Mississippi Beautiful, Inc. | Insignificant |
| Sales to Friends of Children's Hospital | Insignificant |
| Sales to Pinecrest Weekend Snackpacks for Kids, Corinth, MS | Insignificant |
| Hearing aids prescribed by a licensed physician, audiologist, or hearing specialist | $10,292,643 |
| Enhanced Recovery | $10,000,000 |
| Horizontally Drilled | $106,800 |
| Insurance Premium Tax Credits including the following: | |
| Income taxes paid | $19,300,000 |
| Reduction for qualifying Mississippi investments | $62,400,000 |
| Guaranty Association credit | $1,300,000 |
| Coast Area Credit | $759,000 |
| New Markets Credit | $4,200,000 |
| Mississippi Small Business Investment Credit | $5,200,000 |

NOTE: Numbers in italics should be considered very inexact estimates. No established database exists for determining these values.

## Tax Expenditures Which Are Outside the Relevant Tax Base

The third category of tax expenditures consists of those provisions in the tax code which, although constituting tax expenditures in the strict language of the law, are in fact outside of the relevant tax base according to the implied or stated spirit of the law. These include items such as the levy of the retail sales tax on transactions which are clearly wholesale in nature.

| | Estimated FY 2026 Tax Expenditure |
|---|---|
| Insurance Guaranty Credit (Corporate Income) | -0- |
| General expenses associated with the cost of doing business | Not Available |
| Insurance Guaranty Credit (Corporate Franchise) | -0- |
| Gaming Control Act License Fees Credit | $1,279,000 |
| Retail sales of farm tractors, farm implements & logging equipment | $59,825,822 |
| Aircraft, trucks, semi-trailers and mobile homes | $36,660,280 |
| Autos and light trucks (10,000 lbs. or less) | $145,714,109 |
| Groceries taxed at 5% | $129,981,684 |
| Manufacturing machinery and certain port facility equipment | $152,672,852 |
| Materials used in railroad tracks | $1,363,037 |
| Sales to electric power associations | $23,512,141 |
| Sales of utilities to manufacturers | $55,765,085 |
| Sales of utilities to farmers | $1,724,694 |
| Sales of boxes, crates, cartons, etc. to manufacturers and wholesalers | *$2,837,393* |
| Raw materials used in manufacturing | $169,127,397 |
| Gross proceeds of sales of dry docks, offshore drilling equipment, and large vessels | *$2,837,393* |
| Sales to commercial fishermen of specified commercial fishing boats | $2,863,545 |
| Gross income from repairs to vessels engaged in foreign trade/interstate transport | $7,961,816 |
| Rolling stock used in interstate commerce | $4,255,496 |

NOTE: Numbers in italics should be considered very inexact estimates. No established database exists for determining these values.

| Tax Expenditures which are outside the relevant tax base – (continued) | Estimated FY 2026 Tax Expenditure |
|---|---|
| Raw materials used in manufacturing rolling stock | Not Available |
| Machinery or parts used in repairing large ships | Not Available |
| Tangible personal property consumed on ships in international commerce | Insignificant |
| Income from storage/handling of perishable goods by public storage warehouses | Not Available |
| Natural gas used in oil production | $3,547,038 |
| Gross collections from self-service commercial laundering, drying, and cleaning equipment | $2,149,143 |
| Economic Development Reform Act Incentives | $8,432,131 |
| Sales of lint, seed cotton, baled cotton, feed, seed, fertilizers, baling wire, packaging materials, etc. | $75,776,340 |
| Sales of agricultural produce to be further processed | $126,484,484 |
| Retail sales of mules, horses, and other livestock | Not Available |
| (Agricultural) sales of antibiotics, hormones, drugs, medicines, etc. | $1,928,050 |
| Sales to U.S. Government or State of Mississippi | $252,968,971 |
| Sales to public schools | $35,469,193 |
| Sales of school textbooks | $12,454,324 |
| Sales to Mississippi Band of Choctaw Indians | $284,094 |
| Sales of firefighting equipment to governmental or volunteer fire depts. | $215,153 |
| Retail sales of vehicles and semi-trailers exported within 48 hours | $2,980,035 |
| Sales of food and drink through full-service vending | $6,103,241 |
| Gross proceeds of sales of motor fuel | $516,056,769 |
| Sales of potting soil, mulch and other soil amendments for use in growing ornamental plants when sold to wholesale commercial plant nurseries | Not Available |
| Casual Auto Sales Tax Exemptions | $3,206,851 |

NOTE: Numbers in italics should be considered very inexact estimates. No established database exists for determining these values.

## Tax Expenditures Which Conform With Federal Law

The fourth category of tax expenditures includes those provisions in the Mississippi statutes which conform to federal tax codes.

| | Estimated FY 2026 Tax Expenditure |
|---|---|
| Medical Savings Account | Not Available |
| Health Savings Account | $1,009,000 |
| Individual Retirement Accounts | $3,776,000 |
| Keogh Plans | $5,338,000 |
| Interest penalty on early withdrawal of savings | $213,000 |
| Unreimbursed moving expense | $62,000 |
| Self-employed medical insurance | $9,588,000 |
| Catastrophe Savings Account | $69,000 |
| Credit for income tax paid to another state | $106,103,000 |
| Medical and dental expenses | $37,373,000 |
| Real estate taxes | $32,980,000 |
| Home mortgage interest | Not Available |
| Investment interest | Not Available |
| Charitable contributions (Individual Income) | $100,902,000 |
| Casualty and theft losses | $141,000 |
| Employee expenses and miscellaneous deductions subject to 2% limitation | -0- |

| Tax Expenditures which conform with federal law – (continued) | Estimated FY 2026 Tax Expenditure |
|---|---|
| Miscellaneous deductions not subject to 2% limitation | $3,446,000 |

## Tax Expenditures Which Cannot Be Accurately Measured

The final category of tax expenditures listed in this document includes all of those items which are considered to be legitimate tax expenditures but for which there exists insufficient information to estimate the value.

| | Estimated FY 2026 Tax Expenditure |
|---|---|
| Redevelopment Project Incentive Fund (Corporate Income) | $111,000 |
| Capital Gains Exempt | Not Available |
| Charitable contributions (Corporate Income) | Not Available |
| Reserve funds | Not Available |
| Annuity income | Not Available |
| Contributions to employee pension plans | Not Available |
| Net operating loss carryback and carryover | Not Available |
| Dividend distributions | Not Available |
| Dividends for holding companies | Not Available |
| Growth and Prosperity Area Exemption (Corporate Income) | Not Available |
| Growth and Prosperity Area Exemption (Corporate Franchise) | Not Available |
| "Fee-In-Lieu" | Not Available |
| Redevelopment Project Incentive Fund (Corporate Franchise) | $11,200 |
| Organ donation deduction | Not Available |
| Sales of parts used in the repair of aircraft | Not Available |
| Growth and Prosperity Act Incentives (Sales and Use) | Not Available |
| Pollution control equipment | Not Available |
| Sales of machinery or equipment to nonprofit organizations created by the Oil Pollution Control Act of 1990 | Not Available |
| Sales of component materials and equipment used to repair buildings and equipment damaged or destroyed as a result of a natural disaster | Not Available |
| Sales to nonprofit organizations providing foster care, adoption services and temporary housing for unwed mothers and their children | Not Available |
| Sales to nonprofit organizations that provide residential rehabilitation for persons with alcohol and drug dependencies | Not Available |
| Insurance Premium Tax Exemptions | Not Available |
| Auto privilege taxes and auto tax fee exemptions | Not Available |

# APPENDIX: 2025 LEGISLATION

House Bill 1 – Effective July 1, 2025
Revises various sections of law relating to income tax, sales tax, use tax, fuels excise taxes, and the Public Employees' Retirement System (PERS).

The bill reduces income tax on individuals for taxable income in excess of $10,000 as follows:

- For calendar year 2027, a rate of 3.75%;
- For calendar year 2028, a rate of 3.5%;
- For calendar year 2029, a rate of 3.25%; and
- For calendar year 2030 and all years thereafter, except as otherwise provided below, a rate of 3%.

This bill also provides a method for determining whether the income tax imposed on individuals for income in excess of $10,000 will be reduced below 3%. For the calendar year 2031 and any year thereafter, if the Working Cash-Stabilization Reserve Fund is fully funded, the income tax imposed on all taxable income in excess of $10,000 will be reduced by a percentage as indicated below, depending on the percentage by which the Adjusted General Fund Revenue Collections for a fiscal year (beginning with fiscal year 2029) exceed the Appropriations for the following fiscal year (beginning with fiscal year 2030):

- If the excess is at least 0.85%, but less than 1%, of the cost of a 1% cut, the tax will be reduced by 0.2%;
- If the excess is at least 1%, but less than 1.15%, of the cost of a 1% cut, the tax will be reduced by 0.25%; and
- If the excess is at least 1.15% of the cost of a 1% cut, the tax will be reduced by 0.3%.

The bill further provides definitions for "appropriations" and "cost of a 1% cut" for purposes of determining future income tax rate reductions.

The bill reduces the sales and use tax on groceries to 5% beginning July 1, 2025. The city diversion for the 5% grocery tax is 25.9% instead of the regular 18.5% city diversion. 21% of the 5% use tax on groceries will to the modernization fund to be distributed to cities instead of the regular 15%.

House Bill 961 – Effective July 1, 2025
Reenacts code that provides an income tax credit for taxpayers that use port facilities at state, county and municipal ports for the export of cargo and extends the repealer to 7/1/2028. It also reenacts code that provides an income tax credit for certain taxpayers that use the airport facilities at public airports for certain charges paid by the taxpayer on the export or import of cargo and extends the repeal date to 7/1/2028.

House Bill 970 – Effective July 1, 2025
Amends code to extend the repeal date to July 1, 2028, on the sales tax exemptions for sales of tangible personal property and services to the Mississippi's Toughest Kids Foundation for use in the construction, furnishing and equipping of buildings and related facilities and infrastructure at Camp Kamassa in Copiah County, Mississippi.

House Bill 972 – Effective July 1, 2025
Amends code to extend the repeal date to 1/1/2029, for the income job tax credit for an enterprise primarily engaged in providing inland water transportation of cargo on lakes, rivers, and intracoastal waterways for each full-time employee of the enterprise in a Mississippi full-time position.

House Bill 1201 – Effective July 1, 2025
Requires the DOR to work in conjunction with the Secretary of State's office (SOS) to establish a program to provide tax incentives for taxpayers who develop blighted property in MS for the purpose of placing the property into use either as an owner-occupied dwelling or commercial building.

House Bill 1341 – Effective July 1, 2025
Amends code to extend the repeal date to July 1, 2026, for the sales tax exemption for sales of materials used in the construction of, or addition or improvements to, a health care industry facility and certain sales of machinery and equipment to be used in the facility.

House Bill 1644 – Effective January 1, 2025
Revises the definition of "equipment used in the deployment of broadband technologies" for purposes of the income tax credit and corporation franchise tax credit available to telecommunications enterprises for investments made in such equipment before 7/1/2030, and for purposes of the ad valorem tax exemption for such equipment placed in service. This bill also revises the definition of equipment used in the deployment of broadband technology for purposes of the sales tax exemption.

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | Missouri Examination Fee and Other Fee Credit | | | | |
| **Department:** | Commerce and Insurance | **Contact Name & No.:** | Brenda Horstman 573-751-7223 | **Date:** | 1/17/2025 |
| **Program Category:** | Business Recruitment | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | 148.400 RSMo. | **Applicable Taxes:** | Missouri Insurance Premium Tax | | |
| **Tax Credit Creation Date:** | 1945 | **Year of Last Legislative Change:** | 2001 | | |

**Program Description and Eligibility Requirements:**
The Missouri Examination Fee and Other Fee Credit allows the total cost of an examination paid by an insurance company to be taken as a tax credit against premium tax due, as well as any income taxes, franchise taxes, personal property taxes, valuation fees and/or registration fees paid. Premium tax is split between General Revenue and County Foreign or County Stock funds.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No
Credit is applied against same year premium tax due. If credit exceeds premium tax due, only excess examination fee credit can be carried forward--up to five years. Carry forward credit is taken against General Revenue portion of premium tax only.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ _____ **None** X

**Cap Shared Between Programs** No **Which Program(s)?** n/a

**Explanation of Cap:**

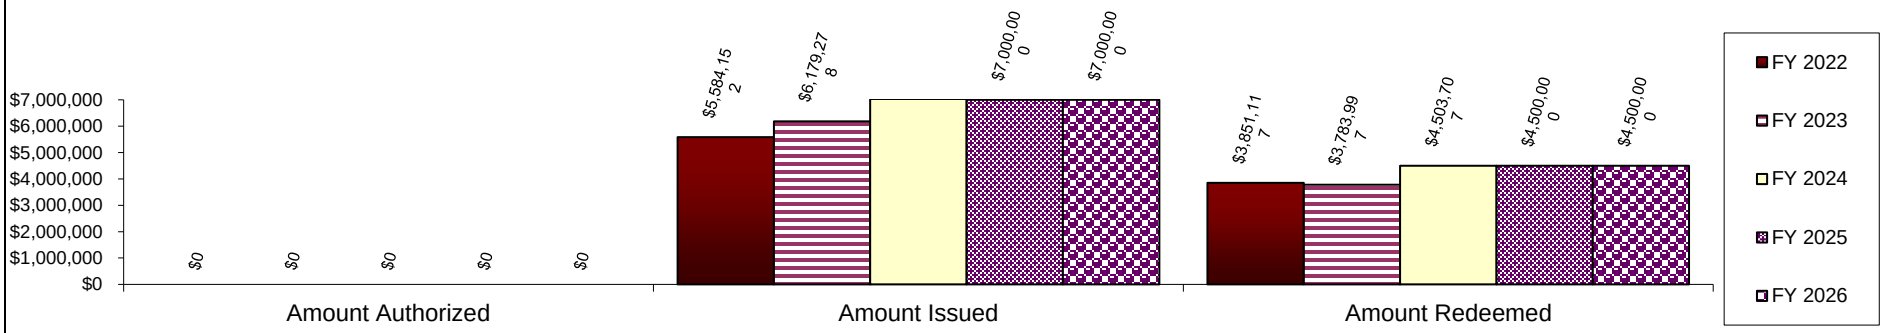
# TAX CREDIT ANALYSIS

**Program Name:** Missouri Examination Fee and Other Fee Credit

## HISTORICAL AND PROJECTED INFORMATION



**Comments on Historical and Projected Information:**
Typically only the companies domiciled in Missouri take this credit as it often results in an increase in retaliatory tax of that amount for foreign (non-Missouri based) insurers. Due to this only about 55% of examination costs are taken each year in tax credits. Consequently, the department believes most carry-over each year will eventually expire.

## BENEFIT: COST ANALYSIS (includes only state revenue impacts)

| | FY 2024 ACTIVITY | Other Fiscal Period (indicated time period) |
|---|---|---|
| **BENEFITS** | | |
| Direct Fiscal Benefits | | |
| Indirect Fiscal Benefits | | |
| **Total** | $0 | $0 |
| **COSTS** | | |
| Direct Fiscal Costs | | |
| Indirect Fiscal Costs | | |
| **Total** | $0 | $0 |
| **BENEFIT: COST** | | |

**Derivation of Benefits:**
The state has not conducted an economic analysis of Insurance Tax Credits, but in the state's 2010 (updated in 2012) Missouri Tax Credit Review Commission Report, this tax credit was considered a feature of Missouri's overall tax structure, rather than a true "tax credit" as that term is used to describe the state's various programs designed to provide an economic incentive or achieve a social outcome. In the report the credit's purpose was described as an attempt to equalize the burden on insurance companies, which, unlike other businesses when calculating income tax liability, cannot deduct certain fees and taxes as operating expenses when calculating their premium tax liability. The report stated that elimination or reduction of this credit would increase taxes on insurance companies above the taxes imposed on otherwise similarly situated industries.

**Other Benefits:**
Under Chapter 148.400, RSMo., insurance companies are permitted a tax credit for the costs of insurance examinations conducted by the department. Examination costs are business expenses that are similar to corporate expenses deducted when calculating income tax. Due to their tax structure, insurers account for operating expenses through a premium tax credit rather than an income tax deduction.

## PERFORMANCE MEASURE(S)

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | Missouri Life and Health Insurance Guaranty Association Credit | | | | |
| **Department:** | Commerce and Insurance | **Contact Name & No.:** | Brenda Horstman 573-751-7223 | **Date:** | 1/17/2025 |
| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | 376.745 RSMo | **Applicable Taxes:** | Missouri Insurance Premium Tax | | |
| **Tax Credit Creation Date:** | 1988 | **Year of Last Legislative Change:** | 1988 | | |

**Program Description and Eligibility Requirements:**
The Missouri Life and Health Insurance Guaranty Association is created in state statute and all insurers issuing life and health insurance in the state are members. The association pays Missouri policyholders for claims against insolvent L&H companies. The association then assesses all members in the state to pay claims of the insolvent insurer. Members are allowed to take these assessments as an offset against premium tax collected by the state.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No
Credits are taken over a five-year period with 20% being taken each year beginning the year after the assessment. No carry forward. Credits are taken against General Revenue, County Foreign and County Stock Funds.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ _____ None X

**2024 Assessment Information**
The Board of Directors of the Missouri Life & Health Insurance Guaranty Association authorized and called a Class B Assessment not to exceed $20,000,000 to fund the Association's liabilities associated with the Colorado Bankers Life Insurance Company and Bankers Life Insurance Company insolvencies.

**2020, 2021, 2022, 2023 Assessment Information**
There were no assessments in 2020 - 2023.

**2019 Assessment Information**
The Board of Directors of the Missouri Life & Health Insurance Guaranty Association determined at the May 30, 2019 Annual Meeting that a Class B assessment of $27,000,000 will be needed for the life account for Lincoln Memorial Life Insurance Company for 2019.

**2018 Assessment Information**
The Board of Directors of the Missouri Life & Health Insurance Guaranty Association determined at the May 24, 2018 Annual Meeting that a Class B assessment of $20,000,000 will be needed for the life account for Lincoln Memorial Life Insurance Company for 2018.

Additional details on assessments: http://mo-iga.org/

**Historical Background:**
In 2008, Lincoln Memorial, along with affiliates Memorial Service Life Insurance Company and National Prearranged Services ("NPS") was placed in liquidation by the state of Texas. NPS was a Missouri domestic corporation and was formerly one of the largest sellers of preneed funeral contracts in the state of Missouri and nationally. Generally, under a preneed contract, the funeral director or preneed seller agrees to provide funeral services at a fixed or guaranteed price when the contract beneficiary passes away. Ideally, this may result in some savings to the purchaser who may be able to "lock-in" current prices even though the death may not occur for some significant time. Once the services are provided, the funeral director/provider is then reimbursed by the preneed seller for the funeral expenses. Historically, this reimbursement has included all or a portion of the interest that may have been earned on the contract. Under Missouri law, NPS was required to place 80% of all funds paid by consumers into a trust account with a financial institution. Frequently, these funds are used to purchase insurance coverage to guaranty payment of the funeral costs. According to information gathered by state regulators, NPS' trust funds were depleted because of improper policy loans, insurance investments and potentially the misappropriation of funds by company representatives/shareholders. To the extent insurance coverage on a particular NPS contract was in place, the various state insurance

**Other Benefits:**

The business of insurance is primarily regulated by the states. Consequently, no federal mechanism exists to guaranty the payment of claims under insurance policies in the event an insurance company becomes insolvent. Instead, the states have taken on this role. Every state in the U.S. has enacted laws creating a life and health insurance guaranty association. In the event that a licensed insurance company becomes insolvent and cannot pay its claims, the various state guaranty associations step in and provide coverage for policy or claim up to prescribed limits. In Missouri, life and health policies are guaranteed between $100,000 and $500,000 depending on the type of coverage.

To get the money to pay claims for an insolvent company, the various guaranty associations are authorized by law to levy assessments against all of the other life and health insurance companies in the state. The

| **Tax Credit Creation Date:** | 1-01-991 | **Year of Last Legislative Change:** | 2013 | | |

**Program Description and Eligibility Requirements:**
The Missouri Health Insurance Pool served Missouri residents who could not purchase insurance in the regular market. Individuals in the pool paid a premium and the difference between premiums paid and actual costs was assessed to all insurers issuing health insurance in the state. The insurers are allowed a tax credit against their tax liability. Credit may be carried forward until exhausted and is taken against the General Revenue portion of premium tax

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No
Credit is applied against premium tax due (sales and use tax for HMOs). If credit exceeds tax due, excess is carried forward until exhausted. Credit is taken against General Revenue portion of premium tax only.

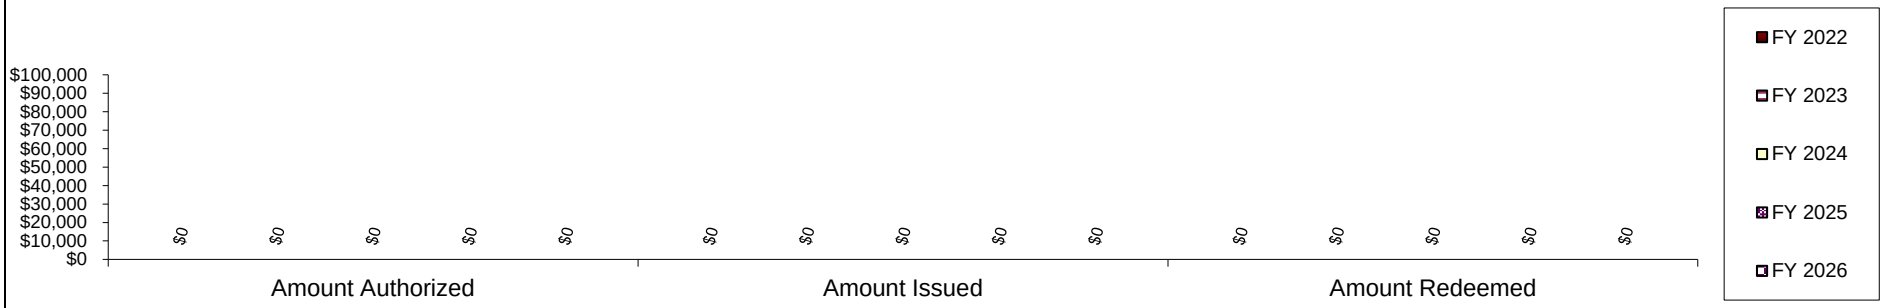
## HISTORICAL AND PROJECTED INFORMATION



**Comments on Historical and Projected Information:**

**CY2024 Assessment Information**

The Board of Directors of the Missouri Property & Casualty Insurance Guaranty Association determined at the July 31, 2024 Interim Board Meeting that a assessment of $9,000,000 to member insurers who wrote automobile coverage was needed for 2024.

**CY2023 Assessment Information**

The Board of Directors of the Missouri Property & Casualty Insurance Guaranty Association determined at the December 15, 2023 Interim Board Meeting that a assessment of $20,000,000 to member insurers who wrote workers compensation was needed for 2023. On January 23, 2025, member insurers were notified that the Board had declared a refund of this entire assessment. Member insurers have the ability to opt out of receiving a refund prior to February 28, 2025. The DCI will not know until that date how many (if any) member insurers have opted out of receiving a refund of their portion of this assessment.

**There were no assessments CY2007 - CY2022.**

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | **Affordable Housing Assistance Tax Credit Program** | | | | |
| **Department:** | Economic Development - Missouri Housing Development Commission | **Contact Name & No.:** | Courtney Bullard (816) 648-0548 | **Date:** | January 2025 |
| **Program Category:** | Housing | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Sections 32.105-32.125, RSMo | **Applicable Taxes:** | Income Tax, Bank Tax, Financial Institutions Tax, Corporate Franchise Tax, Tax on Gross Receipts of Express Companies, Insurance Premium Tax | | |
| **Tax Credit Creation Date:** | 1990 | **Year of Last Legislative Change:** | 2009 | | |

**Program Description and Eligibility Requirements:**
The Affordable Housing Assistance Tax Credit Program (AHAP) is an incentive for businesses and qualified individuals in Missouri to participate in the production of affordable housing for low-income families. The credit can be used by a business or qualified individual as a reduction in their state tax obligation. To receive the AHAP credit, a business or qualified individual must donate cash, professional services, or real or personal property to a non-profit organization whose primary purpose is to provide affordable housing for low-income families.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

The amount of Affordable Housing Assistance Program Tax Credit allocated is equal to 55% of the amount of contribution. Non-profit organizations make application to the Missouri Housing Development Commission (MHDC) for a reservation of AHAP credit. The non-profit organization then solicits contributions from businesses or qualified individuals to assist in the production of a specific affordable housing development. After MHDC receives the necessary documentation of a qualified contribution to the non-profit organization that meets all the criteria set out in the statute and program regulations, a tax credit is issued to the donor in the amount of 55% of the value of the contribution. Applications for production credits are accepted continuously, and applications for the operating credit set-aside are accepted once a year.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 11 million None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
The cap on AHAP is set by statute at $11 million annually of which $10 million is for production credits and $1 million is for operating credits. Once MHDC has made reservations totaling $11 million in AHAP credit in a fiscal year, the application cycle is closed.

**Sunset Provision:** No Date of Sunset _____ Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**
The AHAP program does not have a statutory sunset provision.

**Specific Provisions:** (if applicable)

Carry forward 10 years Carry Back n/a Refundable No Apportioned No Appropriated No

**Derivation of Benefits:**
Investment: (a) $14,877,000 in Residential Investment spending over years 2023-2024. (b) $1,000,000 in Professional Services operations spending over years 2023-2024.
Employment: (a) N/A
Other Assumptions: (a) N/A
Incentives/Credits: (a) $2,769,394 in tax credits over years 2024-2033 with 97.7 percent total redemption of credits anticipated.
Impacts occur Statewide. All Values in Constant Dollars. Assumptions provided by DED. Estimated using REMI.

**Other Benefits:**
The Affordable Housing Assistance Program (AHAP) increases the availability of rental housing and for sale housing that is affordable to low-income families. Other benefits include the removal of blight in communities and increased local tax revenues such as property taxes. The AHAP credit increases the capacity of non-profit housing organizations to build or renovate affordable housing for low-income families. The AHAP credit increases the amount of disposable income for low-income families by providing housing that is affordable to them. This improves the overall quality of their lives by providing additional income for other basic necessities such as food, clothing, healthcare and education. Lastly, the operating AHAP credit helps organizations attract donations to support operating funds, without which the agencies may not be able to administer their affordable housing programs.

**In FY-2024, every dollar of auth. Program tax credits returns**

| | | |
|---|---|---|
| $13.39 | in new personal income totaling | $5.56 million |
| $22.16 | in new value-added/GSP totaling | $9.20 million |
| $39.12 | in new economic output totaling | $16.25 million |

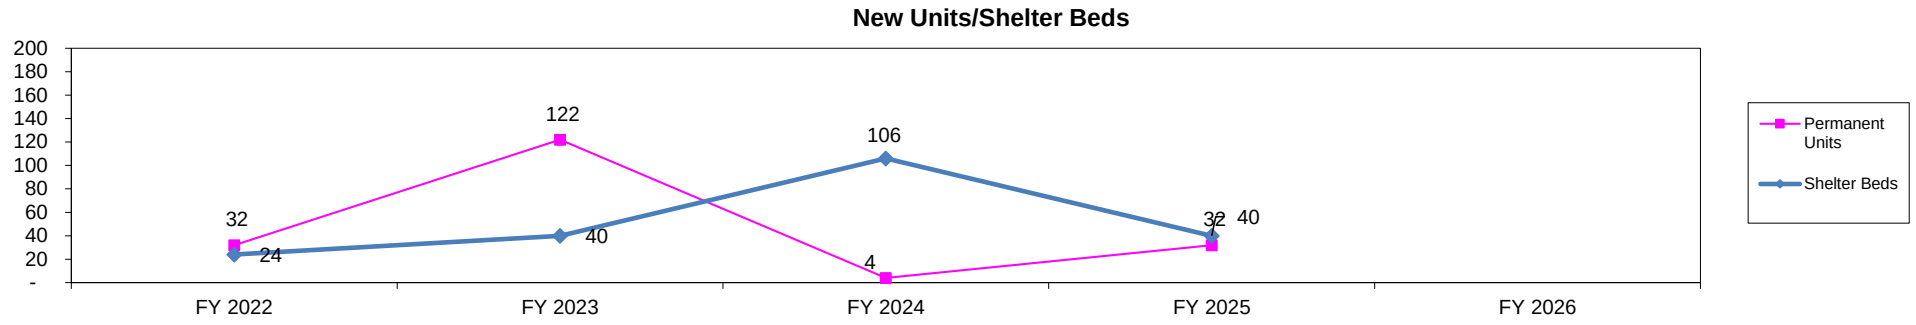
**Over 12 YEARS, every dollar of auth. Program tax credits returns**

| | | |
|---|---|---|
| $1.25 | in new personal income totaling | $3.27 million |
| $1.12 | in new value-added/GSP totaling | $2.94 million |
| $1.96 | in new economic output totaling | $5.13 million |

# TAX CREDIT ANALYSIS

**Program Name:** **Affordable Housing Assistance Tax Credit Program**

**PERFORMANCE MEASURE(S)**



**Comments on Performance Measure:**
The number of housing units produced is based on what is reported to MHDC by the non-profit sponsor of the development. Projects awarded AHAP credits may be awarded additional credits in succeeding years; however, these projects receiving AHAP credits are not counted as "new units". In this circumstance, MHDC places a new Land Use Restrictive Agreement (LURA) on the units, extending the affordability period.

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | **Amateur Sporting Ticket Sales Tax Credit** | | | | |
| **Department:** | Economic Development | **Contact Name & No.:** | Brooklyn Wasser (573) 522-8006 | **Date:** | January 2025 |
| **Program Category:** | Business Recruitment | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Section 67.3000, RSMo | **Applicable Taxes:** | Income Tax, Bank Tax, Insurance Premium Tax, Other Financial Institutions Tax | | |
| **Tax Credit Creation Date:** | 2013 | **Year of Last Legislative Change:** | 2018 | | |

**Program Description and Eligibility Requirements:**
This program provides a tax credit that is designed to encourage the location of competitively bid amateur sporting events in Missouri. The program is available to: "certified sponsors" active in the National Association of Sports Commissions, "endorsing counties", "endorsing municipalities", and "local organizing committees".

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes
Eligible applicants can be awarded up to the lesser of $5 per event ticket, or 100% of eligible costs. Eligible costs include: 1) costs necessary for conducting the sporting event, 2) costs relating to the preparations necessary to hold the sporting event, and 3) the applicant's pledged obligations to the organization responsible for selecting the site of the event as evidenced by the support contract.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 3 million None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
No more than $3 million dollars in tax credits can be issued in a given fiscal year. Applicants in Jackson County, St. Louis City, and St. Louis County may only receive up to $2.7 million of the $3 million cap.

**Sunset Provision:** Yes Date of Sunset 8/28/2025 Date of Last Sunset Extension 8/28/2018

**Explanation of Expiration of Authority:**
The Amateur Sporting Ticket Sales Tax Credit sunsets August 28, 2025.

**Specific Provisions:** (if applicable)
Carry forward n/a Carry Back n/a Refundable Yes Apportioned No Appropriated No
Sellable/Assignable Yes Organizations Remit an Offset No Additional Federal Deductions/Credits Available No

| **Tax Credit Creation Date:** | 1980 | **Year of Last Legislative Change:** | 2022 | | |

**Program Description and Eligibility Requirements:**
Tax incentives to facilitate the expansion of new or existing businesses in Missouri. "Headquarters" that commence operations and "headquarters" of certain "employee-owned" businesses that commence or expand operations on or before December 31, 2024 may be eligible for the program. The facility must maintain an average of at least 500 new business facility employees and the facility must create at least 25 new jobs and make $1,000,000 in new investment, as compared to the base year, and maintain an average of at least $20,000,000 in business facility investment.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

The Missouri company qualifying as a new "headquarters" facility may receive the greater of: $400 for each new business facility employee and 4% of new business facility investment; or, $500 for each new business facility employee and $500 of each $100,000 of new business facility investment.

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | **Business Use Incentives for Large-Scale Development (BUILD)** | | | | |
| **Department:** | Economic Development - Missouri Development Finance Board (MDFB) | **Contact Name & No.:** | Mark Stombaugh (573) 751-8579 | **Date:** | January 2025 |
| **Program Category:** | Business Recruitment | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Sections 100.700-100.850, RSMo | **Applicable Taxes:** | Income Tax, Bank Tax, Insurance Premium Tax, Other Financial Institution Tax | | |
| **Tax Credit Creation Date:** | 1996 | **Year of Last Legislative Change:** | 2018 | | |

**Program Description and Eligibility Requirements:**

The incentives offered by the BUILD Missouri Program are designed to offset infrastructure and other capital costs of certain large projects by making the cost of investing in Missouri more competitive. The costs are financed through the issuance by the Board of certificates (bonds or notes) the principal and interest on which will be repaid by the business. Businesses are then reimbursed for these repayments through the issuance by the Board of Missouri State income tax credits. The businesses may use these credits against taxes, which would otherwise be due, or to obtain a refund if the business has no Missouri income tax liability. All businesses that manufacture, process (including agricultural processing) or assemble products are eligible. Businesses that conduct research and development or provide services in interstate commerce are also eligible. Certain office industries are also eligible. A manufacturing business must invest a minimum of $15 million and 100 new jobs. An office business must invest a minimum of $10 million and 500 jobs. There are other discretionary factors.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

The award is computed based on principal, interest and fees annually and limited to be no more that 5% of gross wages of each eligible employee whose job was created as a result of the project.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 25 million None _____

| **Department:** | Economic Development | **Contact Name & No.:** | Brooklyn Wasser (573) 522-8006 | **Date:** | January 2025 |
| **Program Category:** | Redevelopment | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Sections 253.545-253.561, RSMo | **Applicable Taxes:** | Income Tax, Bank Tax, Insurance Premium Tax, Other Financial Institutions Tax | | |
| **Tax Credit Creation Date:** | 1997 | **Year of Last Legislative Change:** | 2024 | | |

**Program Description and Eligibility Requirements:**
This program provides an incentive designed to encourage the redevelopment of commercial and residential historic structures in Missouri. Individuals, organizations, businesses, and not-for-profits are eligible to apply.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No
The applicable percentage of tax credits for a project is: 25% of the qualified rehabilitation expenditures, or 35% of the qualified rehabilitation expenditures incurred on or after July 1, 2024, if the property is located outside Kansas City and St. Louis City and does not receive or intend to receive Missouri Low-Income Housing Tax Credits.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 134.4 million None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
The program has an annual cap on projects in the statute, but some types of projects are excluded from the cap. There is also a set-aside for projects in Qualified Census Tracts (QCT). Both amounts are calculated based on the State Fiscal Year. The Statewide Tax Credit Cap is $104.4 million ($90 million plus $14.4 million added in based on the Consumer Price Index as of June 2022). The QCT Tax Credit Cap is $30 million. Properties in a QCT are not limited by the amount in this set-aside, but QCT projects will be authorized tax credits from the QCT Tax Credit Cap before being authorized from the Statewide Tax Credit Cap.

| **Tax Credit Creation Date:** | 1989 | **Year of Last Legislative Change:** | 1997 | | |

**Program Description and Eligibility Requirements:**

The Tax Credit Bond Enhancement Program provides a tax credit enhancement on behalf of Public Entities for certain bonds. This program uses the Board's bond tax credits as collateral. Credits are **only** **redeemed** in the event of a default. Currently $8,390,000 of the total is collateral for MDFB garage debt.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

They are provided as additional security for the bonds. Tax credits are computed based on inability to meet debt service on bonds after all other resources are utilized and all compliance requirements are met on an annual basis. The credit is issued for the shortfall in an annual debt service payment.

**Program Cap:** Cumulative $ 50 Million (remainder of cumulative cap) $ 48,812,870 Annual $ _____ None _____

| **Tax Credit Creation Date:** | 1985 | **Year of Last Legislative Change:** | 2009 | | |

**Program Description and Eligibility Requirements:**
Through this program, the Missouri Development Finance Board (MDFB) is authorized to grant tax credits equal to fifty percent of contributions. Contributions are used to pay the cost of infrastructure construction.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes
Tax Credit is 50% of contribution received from taxpayer for specific approved project.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ (See Below) None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
MDFB can authorize a maximum of $10 million in tax credits during any calendar year. The statutory limit can be increased an additional $15 million with the consent of the Directors of Department of Economic Development, Department of Revenue, and the Commissioner of Administration. Maximum authorization not to exceed $25 million. During the last three calendar years the authorized tax credits were 2021-$4.8 million, 2022-$10 million, and 2023-$10 million.

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | **Manufacturing Jobs Act** | | | | |
| **Department:** | Economic Development | **Contact Name & No.:** | Olivia Bartens (573) 526-0308 | **Date:** | January 2025 |
| **Program Category:** | Business Recruitment | **Type:** | Other (specify) | Other: Retention of withholding taxes | |
| **Statutory Authority:** | Section 620.1910, RSMo | **Applicable Taxes:** | Withholding Tax | | |
| **Tax Credit Creation Date:** | 2010 | **Year of Last Legislative Change:** | 2013 | | |

**Program Description and Eligibility Requirements:**
A business with NAICS code of 33611 may retain withholding taxes in the amount of 100% for retained full time employees for the creation of a new product line for 10 years or retain 50% of the withholding taxes for the modification or expansion to an existing product for 7 years. A qualified supplier of an eligible manufacturer may retain 100% of withholding taxes for new jobs (creation of 5 new jobs threshold to qualify) for a period of 3 years or, if wages are in excess of 120% of county average, for 5 years.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No
The eligible manufacturer commits to make a capital investment of at least $75,000 per retained job, or in the case of a modified/expansion of an existing product, commits to make a capital investment of at least $50,000 within no more than two years of the date the company begins to retain withholdings. For the eligible supplier, the company must derive more than 10% of the total annual sales from the qualified manufacturer and add five or more new jobs.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 15 million None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
Maximum amount of withholding tax that can be retained by any one qualified manufacturing company shall not exceed $10 million per calendar year and the aggregate amount for all qualified manufacturing companies shall not exceed $15 million per calendar year. There are no annual limits for qualified suppliers.

**Sunset Provision:** Yes Date of Sunset 10/12/2016 Date of Last Sunset Extension _____

|---|---|---|---|---|---|
| **Program Name:** | **Missouri One Start Community College Training Program** | | | | |
| **Department:** | Economic Development | **Contact Name & No.:** | Kristie Davis (573) 522-4019 | **Date:** | January 2025 |
| **Program Category:** | Training and Educational | **Type:** | Other (specify) | Other: Appropriation based on employer withholding | |
| **Statutory Authority:** | Sections 620.800-620.809, RSMo | **Applicable Taxes:** | N/A; This is an appropriation of funds, not a credit. | | |
| **Tax Credit Creation Date:** | 2004 | **Year of Last Legislative Change:** | 2022 | | |

**Program Description and Eligibility Requirements:**
Combines funds for two training programs: New Jobs Training Program (NJTP) and Job Retention Training Program (JRTP). The NJTP provides assistance to eligible companies to train workers in newly created jobs and is suited for large attraction and expansion projects. The JRTP is suited for large retention projects and provides training to upskill existing workers. Eligible companies participating in JRTP must be making a large capital investment or be determined to represent a substantial risk of relocation. Both programs are administered locally through the community colleges and funds for these programs are generated by deferring a portion of the state employer withholding tax - approximately 2% - on the newly created or retained jobs in the project.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes
A formula using the number of jobs to be created or retained and the average annual salary of workers in the new or retained jobs calculates the amount that can be generated by diverting a portion of the employer withholding tax (approximately 2%). Discretionary measures such as review of types of industry, occupations, and wage rates are considered before approving a project.

**Program Cap:** Annual Appropriation $27 million (remainder of annual appropriation) $15,213,943 Total Active Projects $39,725,867 (remainder of outstanding Active Projects) $12,177,938

**Cap Shared Between Programs** No **Which Program(s)?**

**Explanation of Cap:**
There is a statewide annual budget appropriation of $27 million on the amount of outstanding debt there can be at any given time in the fiscal year. These figures change monthly as debt is retired on existing projects and new projects are issued.

**Sunset Provision:** Yes Date of Sunset 7/1/2030 Date of Last Sunset Extension 8/28/2018

| **Program Name:** | **Missouri Quality Jobs** | | | | |
| **Department:** | Economic Development | **Contact Name & No.:** | Olivia Bartens (573) 526-0308 | **Date:** | January 2025 |
| **Program Category:** | Business Recruitment | **Type:** | Tax Credit | Other: Retention of state withholding tax of the new jobs. | |
| **Statutory Authority:** | Sections 620.1875-620.1890, RSMo | **Applicable Taxes:** | Income Tax, Bank Tax, Insurance Premium Tax, Other financial institutions tax | | |
| **Tax Credit Creation Date:** | 2005 | **Year of Last Legislative Change:** | 2013 | | |

**Program Description and Eligibility Requirements:**

For-profit and non-profit businesses except for gambling, retail trade, food and drinking places, public utilities, educational services, religious organizations, public administration, companies that are delinquent in non-protested taxes or other payments, or any company that has filed for or has publicly announced its intention to file for bankruptcy are eligible provided the average wage of the new jobs equals or exceeds the county average wage and the company offers health insurance and pays at least 50% of the premium. To qualify, the company must create a minimum number of new jobs at the project facility within 2 years.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

The benefits of the program are the retention of 100% of the state withholding tax of the new jobs for 3 or 5 years for small/expanding businesses (20+ new jobs in rural areas and 40+ new jobs in non-rural areas); or a combination of the retention of 100% of the state withholding tax of the new jobs and state tax credits for 5 years for technology businesses (10+ new jobs) and high impact businesses (100+ new jobs), based on a percentage (from 3 to 7%, depending on the average wage of the new jobs and the amount of local incentives) of the payroll of the new jobs.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 80 Million None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

The cap increased from $40 million to $60 million in tax credits beginning Aug. 2008. The cap increased to $80 million beginning June 4, 2009. Up to $3 million of the cap may be used for job retention projects approved by the Quality Jobs Advisory Task Force, with no tax credits issued after August 30, 2013. Up to $500,000 of the cap may be used for small business job retention and flood relief projects, with no tax credits approved after August 30, 2010. The tax credit maximums applying to technology and high impact business projects were removed for newly approved projects as of June 4, 2009. There is no limit on the retention of withholding taxes.

**Sunset Provision:** Yes Date of Sunset 8/27/2013 Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**

No tax credits shall be issued for job retention projects approved after August 30, 2013. No tax credits shall be issued for small business job retention and flood relief projects approved after August 30, 2010. No new projects may be proposed after August 27, 2013.

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | **Missouri Works - Business Incentives** | | | | |
| **Department:** | Economic Development | **Contact Name & No.:** | Olivia Bartens (573) 526-0308 | **Date:** | January 2025 |
| **Program Category:** | Business Recruitment | **Type:** | Other (specify) | Other: Retention of state withholding tax of the new jobs. | |
| **Statutory Authority:** | Sections 620.2000-620.2020, RSMo | **Applicable Taxes:** | Income Tax, Bank Tax, Insurance Premium Tax, Other Financial Institutions Tax | | |
| **Tax Credit Creation Date:** | 2013 | **Year of Last Legislative Change:** | 2022 | | |

**Program Description and Eligibility Requirements:**
To qualify, a company must create or retain a minimum number of new jobs at the project facility, meet average wage requirements, and must offer and pay at least 50% of the health insurance premiums. For-profit and non-profit businesses except for gambling, store front consumer-based retail trade establishments, food and drinking places, public utilities, educational services, religious organizations, public administration, ethanol distillation or production, biodiesel production, healthcare and social services, companies that are delinquent in payment of any nonprotested taxes or other payments, and businesses that have filed or have publicly announced their intention to file for bankruptcy, unless certain requirements are met.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** Yes

Zone Works (2 new jobs, 80% of county average wage, $100,000 investment, located in Enhanced Enterprise Zone) and Rural Works (2 new jobs, 90% of county average wage, $100,000 investment located in a rural county) provide benefits of retention of 100% of the withholdings of the new jobs for 5-6 years. Statewide Works (10 new jobs, 90% of county average wage) provides benefits of retention of withholdings or a combination of retention of withholdings and tax credits for up 9% of payroll on the new jobs. Mega Works 120 and 140 (100 new jobs, 120% and 140% of county average wage, respectively) provide benefits of a combination of retention of withholdings and tax credits totaling from 6% to 7%, respectively, to up to 9% of payroll of the new jobs. Retention Works provides benefits of the retention of withholding tax for up to 100% of the withholdings of the new jobs for up to 10 years. Retention Works-Auto Manufacturing ($500M in investment) provides a benefit of tax credits. Qualified Military Projects (10 new jobs, 90% of county average wage, investment as agreed to in proposal) provides tax credits in the amount of withholding taxes. Deal Closing Fund (10 new jobs, 100% of county average wage) provides benefits for a tax credit within 1 year.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 201 million None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
The tax credit cap is $126 million ($10 million for auto manufacturing, $10 million for infrastructure, $6 million for retention, and $100 million for other projects). The withholdings cap depends on the size of the base for the project. For projects with a base of more than 50, the retained withholdings cap is $75 million. There is no cap on the retained withholdings for new job creation projects that have a base of 50 or less.

**Sunset Provision:** Yes Date of Sunset 8/28/2030 Date of Last Sunset Extension 8/28/2018

**Explanation of Expiration of Authority:**
Missouri Works sunsets August 28, 2030.

# TAX CREDIT ANALYSIS

**Program Name:** **Missouri Works - Business Incentives**

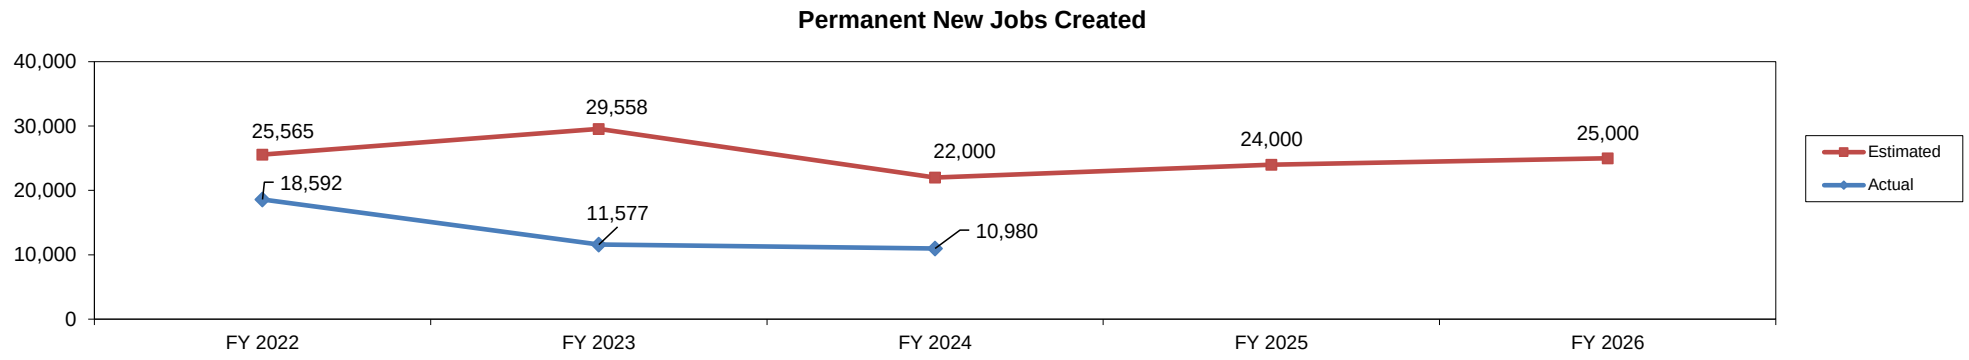
**PERFORMANCE MEASURE(S)**



**Comments on Performance Measure:**

The estimated number of jobs is the total projected for all projects for which DED issued benefits during FY2022, FY2023, and FY2024. The actual number is the actual number of jobs reported by those projects issued benefits during FY2023, FY2024, and FY2025. Companies have 2 years after authorization to create the statutory threshold number of jobs and ramp up over time. Many of the jobs estimated will be reported as actual in later years. The actual jobs numbers are totals for the projects to date. They are not net new for the year. These numbers do not include retained projects in the Retention category of the program.

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | **Missouri Low Income Housing Tax Credit Program** | | | | |
| **Department:** | Economic Development - Missouri Housing Development Commission | **Contact Name & No.:** | Courtney Bullard (816) 648-0548 | **Date:** | January 2025 |
| **Program Category:** | Housing | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Sections 135.350-135.363, RSMo | **Applicable Taxes:** | Income Tax, Corporate Franchise Tax, Insurance Company Annual Tax on Gross Premium Receipts, Other Financial Institutions Tax, Express Company Annual Tax on Gross Premium Receipts | | |
| **Tax Credit Creation Date:** | 1990 | **Year of Last Legislative Change:** | 2009 | | |

**Program Description and Eligibility Requirements:**

The Missouri Low Income Housing Tax Credit (MOLIHTC) is a ten-year state tax credit available to qualified owners of affordable rental housing. The MOLIHTC generates equity investments from the private sector for the development of new or rehabilitated rental housing which enables owners to lower rents to affordable levels for low-income families. A qualified development is one that (i) rents at least 20% of its units to families earning 50% of the area median income (AMI), (ii) rents at least 40% of its units to families earning 60% of AMI, or (iii) rents at least 40% of its units to families whose income does not exceed the income limitation designated for the respective unit, where the average of the income-designated units may not exceed 60% of AMI. The development must (a) meet a demonstrated need for affordable rental housing in the community, (b) be economically feasible, (c) leverage tax credits with other financing, and (d) provide affordable rental housing for qualified low-income Missourians for a minimum of 15 years.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

The amount of the MOLIHTC allocated to a given housing development is directly related to the percentage of low-income housing units made available to qualified low-income families and the acquisition, construction or rehabilitation expenditures necessary to create the development, less land and non-depreciable costs. There are two types of MOLIHTCs: 9% and 4%. Developments compete annually for the 9% MOLIHTC. Developments receiving an allocation of tax-exempt bond-financing from the Department of Economic Development may apply to receive the 4% MOLIHTC. The statutory maximum amount of MOLIHTC that can be issued for any development is 100% of the federal LIHTC issued for the development.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 100% of Federal LIHTC for 9% and $6 million for 4% None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

The 9% MOLIHTC issued through the competitive application cycle is statutorily capped at 100% of the federal LIHTC. No more than six million dollars in tax credits shall be authorized each fiscal year for projects financed through tax-exempt bond issuance (4% MOLIHTC-RSMo 135.352). The MOLIHTC is redeemable annually over a ten year period. There are five year carry forward and three year back provisions.

**Sunset Provision:** No Date of Sunset _____ Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**

The MOLIHTC program does not have a statutory sunset provision.

**Specific Provisions:** (if applicable)

Carry forward 5 years | Carry Back 3 years | Refundable No | Apportioned No | Appropriated No

Sellable/Assignable No | Organizations Remit an Offset No | Additional Federal Deductions/Credits Available Yes

**Comments on Specific Provisions:**

**Legislative / General Assembly Action(s) During Prior Five Years:**

| | FY 2022 ACTUAL | FY 2023 ACTUAL | FY 2024 ACTUAL | FY 2025 (year to date) | FY 2025 (Full Year) | FY 2026 (Budget Year) |
|---|---|---|---|---|---|---|
| Certificates Issued (#) | 5 | 14 | 253 | 362 | 417 | 299 |
| Projects/Participants (#) | 2 | 2 | 20 | 18 | 54 | 38 |
| Amount Authorized | $160,208,980 | $138,721,620 | $160,135,110 | $189,433,890 | $189,433,890 | $192,198,537 |
| Amount Issued | $4,688,220 | $8,596,000 | $84,117,150 | $71,878,250 | $186,390,589 | $187,398,940 |
| Amount Redeemed | $113,246,477 | $134,029,248 | $98,929,754 | $48,124,553 | $115,401,826 | $115,401,826 |

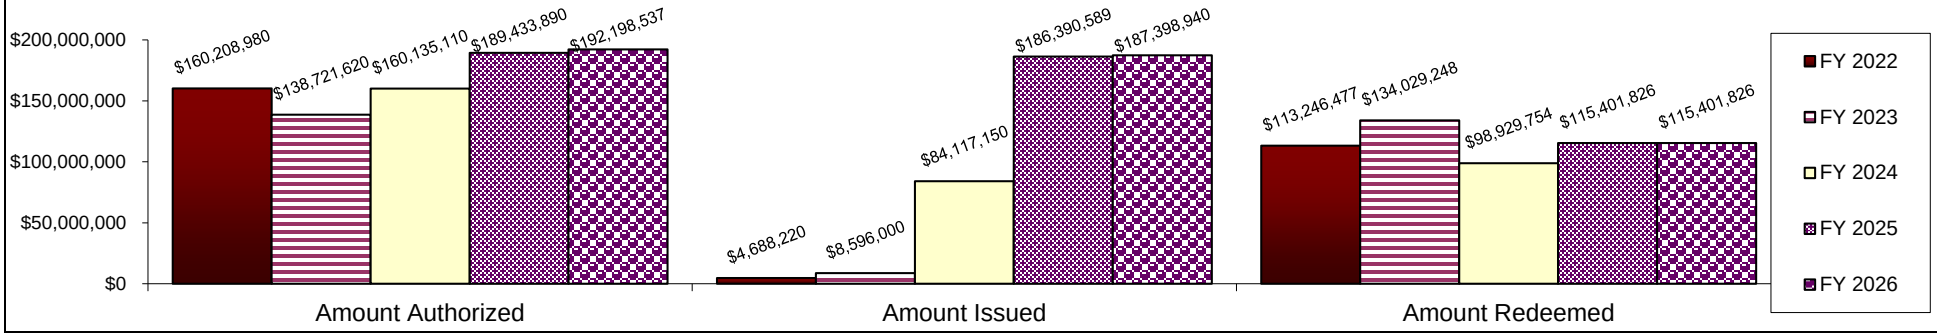
| | | | |
|---|---|---|---|
| FY 2024 EST. Amount Outstanding | $415,522,858 | FY 2024 EST. Amount Authorized but Unissued | $627,105,330 |

Notes: (1) The Amount Authorized and Amount Issued represent the total 10 year stream. The Department of Revenue is responsible for all redemption data. The EST. Amount Outstanding represents the cumulative amount of MOLIHTC issued, minus the cumulative amount of MOLIHTC redeemed, less expired/withdrawn/ suspended credits; EST Amount Outstanding reflects only those tax credits eligible to be redeemed.
(2) The EST. Amount Authorized but Unissued represents developments that have received approval but have not completed construction or have not completed MHDC's process to receive their credits by an issuance of the Eligibility Statement. In order to determine the total maximum liability for MOLIHTC you may add the EST. Amount Outstanding and the EST. Amount Authorized but Unissued.

# TAX CREDIT ANALYSIS

**Program Name:** **Missouri Low Income Housing Tax Credit Program**

**HISTORICAL AND PROJECTED INFORMATION**



**Comments on Historical and Projected Information:**

FY2022-FY2025 Authorized numbers reflect a 9% MOLIHTC up to 70% of the federal LIHTC allocation and a cap of $3M Authorized annually for the 4% MOLIHTC. Issued projections include MOLIHTC that has been Authorized for developments which have not yet completed construction; the majority of credits are issued in years 2 and 3 after Authorization. Redemption projections cannot precisely account for carry forward and carry back provisions nor the individual credit holder's decision on when to claim a particular credit.

**BENEFIT: COST ANALYSIS (includes only state revenue impacts)**

| | FY 2024 ACTIVITY | Other Fiscal Period (15 years) |
|---|---|---|
| **BENEFITS** | | |
| Direct Fiscal Benefits | $3,234,229 | $7,588,182 |
| Indirect Fiscal Benefits | $1,213,281 | $2,846,613 |
| **Total** | $4,447,510 | $10,434,795 |
| **COSTS** | | |
| Direct Fiscal Costs | $0 | $142,200,217 |
| Indirect Fiscal Costs | $0 | $0 |
| **Total** | $0 | $142,200,217 |
| **BENEFIT: COST** | **N/A** | **0.07** |

**Derivation of Benefits:**

Investment: (a) $79,091,145 in Residential Investment spending over years 2024-2025.
Employment: (a) 25 FTE employees in Rental/Leasing and Repair/Maintenance services in 2024-2038; (b) $286,072 in annual maintenance contracting between in 2024-2038.
Other Assumptions: (a) 624 low income households with total increased disposable income spending of $2,935,680 annually due to yearly rental savings of $4,705 as compared to market rent.
Incentives/Credits: (a) $160,135,110 in LIHTC tax credits over years 2024-2035.
Impacts occur Statewide. All Values in Constant Dollars. Assumptions provided by DED. Estimated using REMI.
There were no other program incentives in FY 24. The multi-year fiscal Benefit-Cost Ratio is 0.05 if it is assumed that 40 percent of low income housing would be developed without the state LIHTC.

**Other Benefits:**

The MOLIHTC program delivers rental housing that is affordable to low-income families, veterans, special needs tenants, and seniors. It reduces blight and improves communities through new construction and rehabilitation of affordable rental housing in Missouri. The reduced rents brought about by the MOLIHTC program increases households' disposable income and allows low-income families, veterans, special needs tenants, and seniors to meet more of their other basic necessities such as food, clothing, education and health care. The subsidy provided by the MOLIHTC program makes it economically feasible to develop new or rehabilitated affordable rental housing in many very low-income rural communities in Missouri. Finally, the equity raised from the MOLIHTC helps preserve affordable rental housing that is in danger of being lost from existing stock.

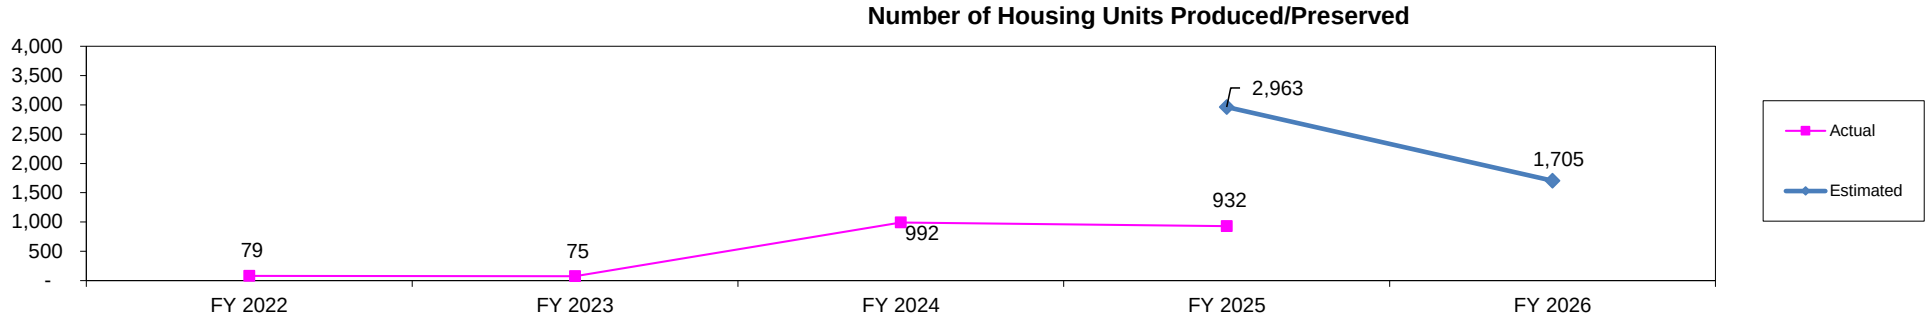
# TAX CREDIT ANALYSIS

**Program Name:** **Missouri Low Income Housing Tax Credit Program**

**PERFORMANCE MEASURE(S)**



**Comments on Performance Measure:**

This performance measure reflects the total number of LIHTC housing units placed in service, or credits issued each year. Total number of units placed in service, or credits issued, each year varies - dependent on the applications received for consideration, the actual number of projects approved, and the type of projects approved (preservation or new construction). Authorized developments typically take 24 months to complete construction and submit cost certification documentation to MHDC; after which they are issued LIHTCs. No LIHTCs are issued by MHDC or eligible to be redeemed by a development owner until a development is completed to MHDC requirements and ready for leasing.

|---|---|---|---|---|---|
| **Program Name:** | **Qualified Research Expense Tax Credit Program (QRE)** | | | | |
| **Department:** | Economic Development | **Contact Name & No.:** | Olivia Bartens (573) 526-0308 | **Date:** | January 2025 |
| **Program Category:** | Entrepreneurial | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Section 620.1039, RSMo | **Applicable Taxes:** | Individual, Corporate, Financial Institutions Tax | | |
| **Tax Credit Creation Date:** | August 28, 2022 | **Year of Last Legislative Change:** | 2022 | | |

**Program Description and Eligibility Requirements:**
Any individual, partnership, corporation, or charitable organization conducting qualified research in the state is eligible. The incentive is available to an eligible taxpayer who has additional qualified research expenses in Missouri in a tax year, as compared to the average of such expenses in three immediately preceding tax years.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Applicants may receive the greater of: (a) 15% of the taxpayer's additional qualified research expenses; or (b) 20% of the taxpayer's additional qualified research expenses if such qualified research was conducted in conjunction with a Missouri public or private college or university. No tax credit shall be allowed for any portion of qualified research expenses that exceed 200% of the taxpayer's average qualified research expenses incurred during the three immediately preceding tax years. Each taxpayer is limited to a $300,000 benefit per year.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 10 million None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
$5 million of the $10 million cap shall be reserved for minority business enterprises, women's business enterprises, and small businesses. If on November 1 of each year, there are unused amounts from the $5 million reserved, the unused amount will be transferred to the overall program cap. If there are applications for the program's tax credits that exceed the amount available, eligible applicants in the general cap will be issued credits on a pro-rata basis, with businesses less than five years old being issued full tax credits first.

**Sunset Provision:** Yes Date of Sunset 12/31/2028 Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**
The provisions of the program authorized under this section shall automatically sunset December 31, 2028, 6 years after the effective date.

**Specific Provisions:** (if applicable)

Carry forward 12 years Carry Back n/a Refundable No Apportioned No Appropriated No

Sellable/Assignable Yes Organizations Remit an Offset No Additional Federal Deductions/Credits Available No

**Comments on Specific Provisions:**
Carry forward is 12 years.

| **Program Name:** | **Rebuilding Communities (ROC)** | | | | |
| **Department:** | Economic Development | **Contact Name & No.:** | Olivia Bartens (573) 526-0308 | **Date:** | January 2025 |
| **Program Category:** | Business Recruitment | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Section 135.535, RSMo | **Applicable Taxes:** | Income Tax, Corporate Franchise Tax, Bank Tax, Insurance Premium Tax, Other Financial Institutions Tax | | |
| **Tax Credit Creation Date:** | 1997 | **Year of Last Legislative Change:** | 2013 | | |

**Program Description and Eligibility Requirements:**
Provides a tax credit for eligible businesses locating, relocating or expanding within a distressed community. A business must have fewer than 100 full-time employees, 75% of which must be located in the distressed community, and be primarily engaged in manufacturing, biomedical, medical devices, scientific research, animal research, computer software design or development, computer programming, including Internet, web hosting, and other information technology, wireless or wired or other telecommunications or a professional firm.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No
The tax credit is equal to either 40% or 25% of eligible equipment purchases, depending on whether the business is new or existing, or 40% of state income taxes due. A 1.5% employee tax credit is also available to businesses who receive one of the 40% credits and is based on an employee's gross salary. The 40% income tax credit is limited to $125,000 per year for three years. The 40% and 25% equipment credits are limited to $75,000 per year for four years.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 8 Million None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
Total credits issued under this program may not exceed $8 million per year. The 25% equipment credits are further limited to $750,000 per year. (Note that 620.1881, RSMo - the Missouri Quality Jobs Act - reduced the cap from $10 million to $8 million).

**Sunset Provision:** Yes Date of Sunset 8/27/2013 Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**
No new projects may be proposed after August 27, 2013.

**Specific Provisions:** (if applicable)
Carry forward 5 years Carry Back 3 years Refundable No Apportioned No Appropriated No
Sellable/Assignable Yes Organizations Remit an Offset No Additional Federal Deductions/Credits Available No

**Comments on Specific Provisions:**
The 1.5% employee credits are sellable/assignable only.

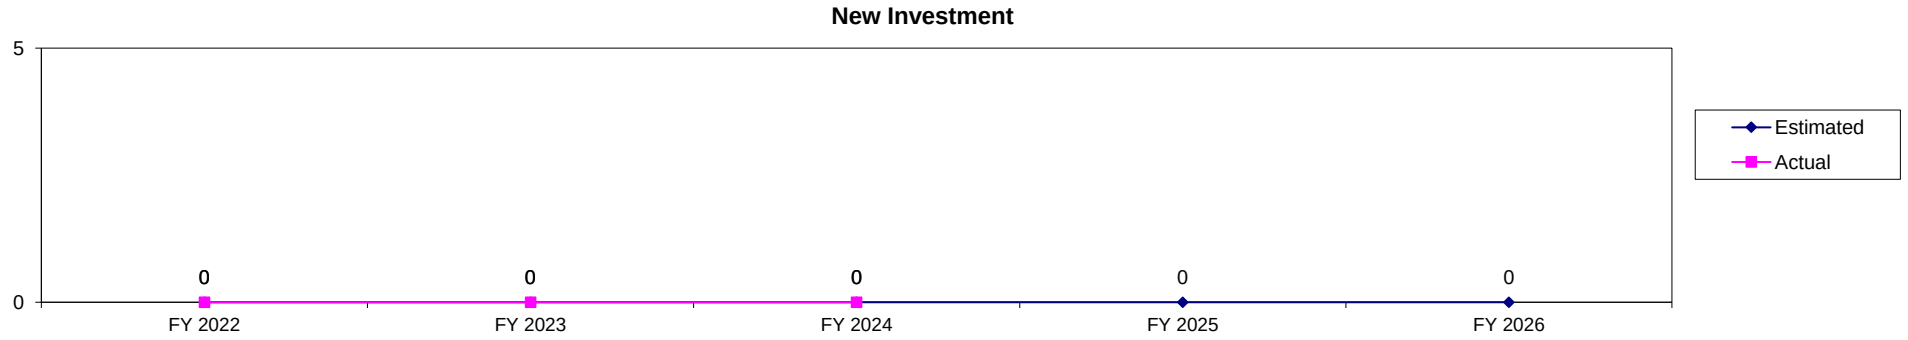
## PERFORMANCE MEASURE(S)



**Comments on Performance Measure:**
The tax credit did not exist in previous fiscal years and the program has not existed for any period of time to determine if any permanent new jobs will be created. It is unlikely that this tax credit will directly create any permanent new jobs, although it may incentivize physicians to serve as community-based faculty preceptors, which in turn could improve training for medical students, which would result in an overall benefit to the state's healthcare workforce.

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | Shared Care Tax Credit | | | | |
| **Department:** | Health and Senior Services | **Contact Name & No.:** | Shyra Doughtery (573) 522-9037 | **Date:** | January 2025 |
| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Sections 192.2005, 192.2010 and 192.2015 | **Applicable Taxes:** | Individual Income | | |
| **Tax Credit Creation Date:** | 1-Jan-00 | **Year of Last Legislative Change:** | | | |

**Program Description and Eligibility Requirements:**

Shared Care is a program in which eligible families who provide care to an elderly family member in their home may request a tax credit. Caregivers who meet requirements within the program are eligible for a Shared Care tax credit in an amount not to exceed $500 to defray the cost of caring for an elderly person. In order to be eligible for a Shared Care tax credit, a registered caregiver shall:

(1) Care for an elderly person age 60 or older who is physically or mentally incapable of living alone, who requires assistance to avoid placement in a long-term care facility, is not able or allowed to operate a motor vehicle, and does not receive funding or services through Medicaid or Social Service Block Grant funding;

(2) Live in the same residence as the elderly person to give protective oversight for an aggregate of more than six months per tax year;

(3) Not receive monetary compensation for providing care; and

(4) File necessary Shared Care tax credit forms with the caregiver's Missouri individual income tax return.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Each qualifying caregiver is limited to no more than $500 of the tax credit amount of their tax liability.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ _____ None x

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

Each qualifying caregiver is limited to no more than $500 of the tax credit amount of their tax liability.

**Sunset Provision:** No Date of Sunset _____ Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**

While there is no program cap, the eligibility requirements for the program self-limit the amount of the tax credits provided. Each qualifying caregiver is limited to no more than $500 of tax credit, or no more than their tax liability, whichever is lower.

**Specific Provisions:** (if applicable)

Carry forward n/a Carry Back n/a Refundable No Apportioned No Appropriated No

Sellable/Assignable No Organizations Remit an Offset No Additional Federal Deductions/Credits Available No

**Comments on Specific Provisions:**

Certificates issued equal the number of Shared Care registered caregivers (potential tax credit claimants). The amount authorized is equal to the caregivers multiplied by the maximum per person credit amount of $500. The amount redeemed is the total tax credit claimed.

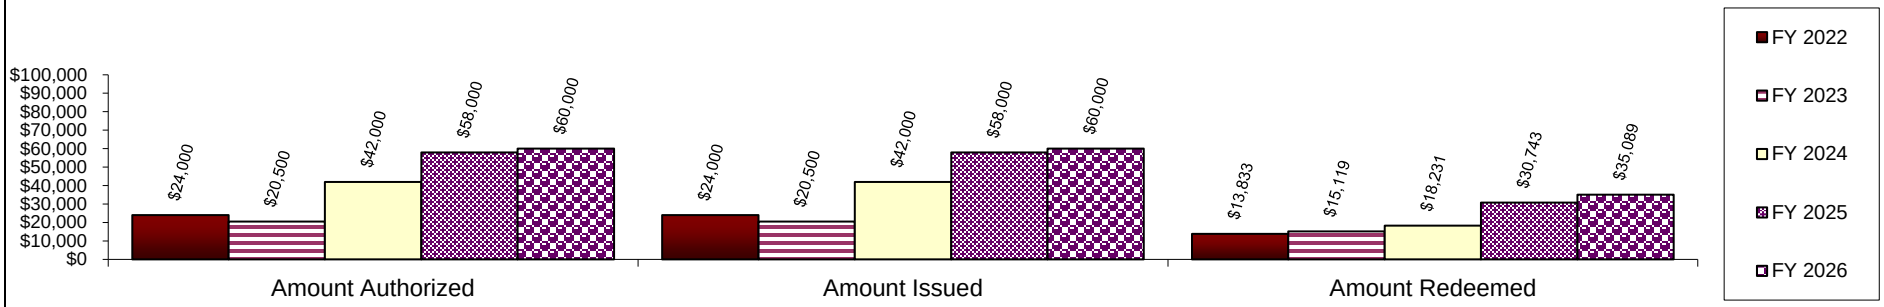
**Program Name:** Shared Care Tax Credit

## HISTORICAL AND PROJECTED INFORMATION



**Comments on Historical and Projected Information:**

## BENEFIT: COST ANALYSIS (includes only state revenue impacts)

| | FY 2024 ACTIVITY | Other Fiscal Period (indicated time period) |
|---|---|---|
| **BENEFITS** | | |
| Direct Fiscal Benefits | Not Applicable | Not Applicable |
| Indirect Fiscal Benefits | $104,185 | Not Applicable |
| **Total** | $104,185 | $0 |
| **COSTS** | | |
| Direct Fiscal Costs | $25,181 | Not Applicable |
| Indirect Fiscal Costs | Not Applicable | Not Applicable |
| **Total** | $25,181 | $0 |
| **BENEFIT: COST** | **79,004** | |

**Derivation of Benefits:**
Individuals claiming this tax credit are providing care for elderly persons who are not receiving state funded services. Without this private caregiver support, these elderly persons may need services such as personal care, homemaker, and respite care funded in part through Medicaid, Social Service Block Grant, or General Revenue. The indirect fiscal benefits are calculated based on the estimated number of elderly persons claiming the credit who are potentially Medicaid eligible, multiplied by the average cost of care for elderly persons receiving care through DHSS (84 total claimants x 21.49 [percent of persons over age 60 in Missouri] X $5,771.51 [FY 2024 GR average cost of care] = $104,185).

Direct Costs Footnote: Direct costs include the dollar value of tax credits redeemed ($18,231) as well as the General Revenue cost for personnel ($6,950) who respond to inquiries and register/confirm individuals within the program ($18,231 + $6,950 = $25,181).

**Other Benefits:**

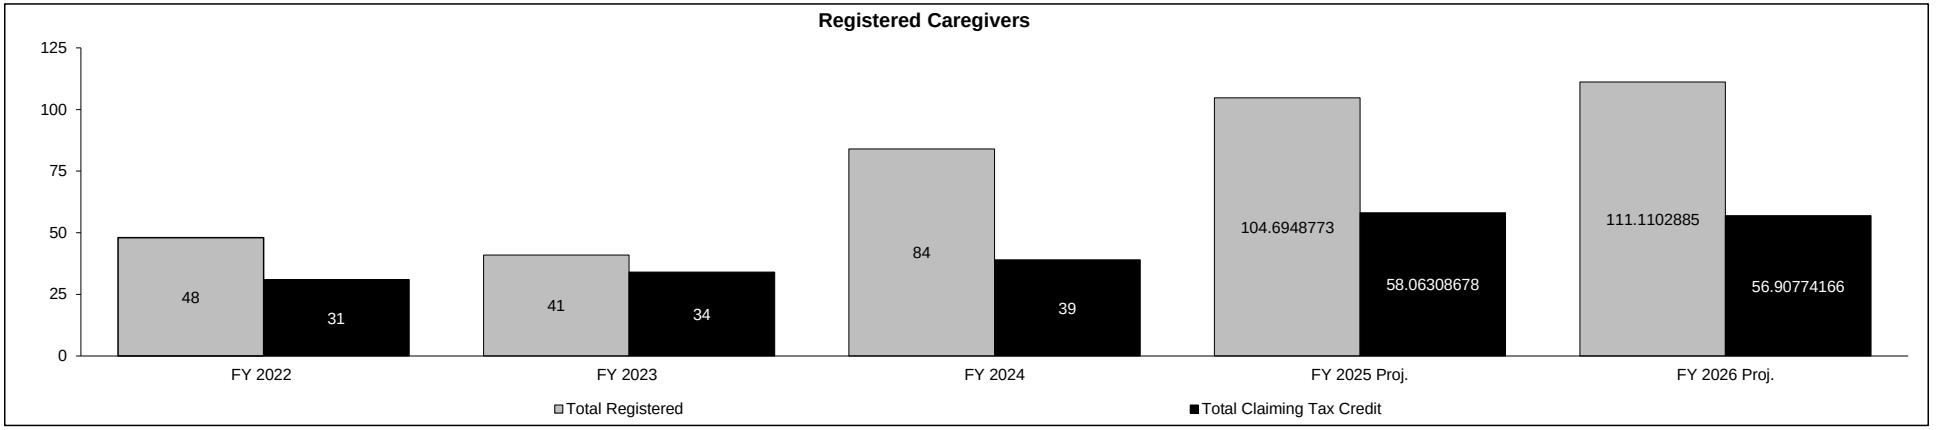
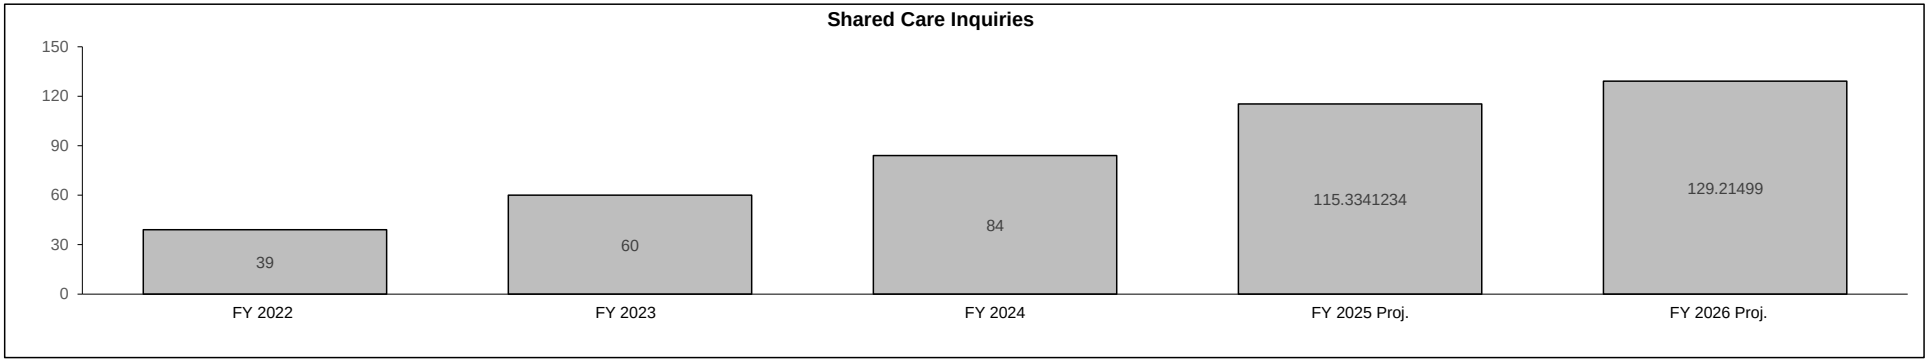
**Program Name:** Shared Care Tax Credit

**PERFORMANCE MEASURE(S)**





**Comments on Performance Measure:**
The FY 2024 increase of certificates issued is due to the increased awareness of the tax credit opportunity.
YTD (year-to-date) is as of August 20, 2024.

# TAX CREDIT ANALYSIS

**Program Name:** Wood Energy

**Department:** Natural Resources | **Contact Name & No.:** Nora Maxwell (573) 526-0851 | **Date:** January 2025

**Program Category:** Environmental | **Type:** Tax Credit | Other: N/A

**Statutory Authority:** 135.300-135.311 | **Applicable Taxes:** Tax credit on taxes otherwise due under Chapter 143 RSMo, except Sections 143.191 to 143.261 (withholding of tax).

**Tax Credit Creation Date:** 1985 | **Year of Last Legislative Change:** 2022

**Program Description and Eligibility Requirements:**

A Missouri wood energy producer (any person, firm or corporation that engages in the business of producing processed wood pro ducts from Missouri forest industry residue to be used as an energy source) is eligible for a tax credit on taxes otherwise due. Reenacted in 1996 by the 88th General Assembly, the credit applied to all tax periods beginning on or af ter January 1, 1997 and before June 30, 2013. SB 729 (2014 legislative session) extended this credit through June 30, 2020 with an annual cap of $6 million, subject to appropriations. Statutory au thority for the authorization of credits was reinstated and extended to June 30, 2028 (HB 3, First Extraordinary Session, 2022). The credit can only be used against the income tax otherwise due and is not available for use against withholding tax liabilities.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

Credit of $5/ton for wood products from processed wood residue.
Credit of $5/ton for wood used in charcoal production. Wood usage is inferred at 4 tons of wood residue used per ton of wood char produced.

**Program Cap:** Cumulative $0 (remainder of cumulative cap) $0 Annual $6,000,000 None ____

**Cap Shared Between Programs** No **Which Program(s)?** not applicable

**Explanation of cap:** Effective August 28, 2014, there is an annual cap of $6 million, subject to appropriations.

**Sunset Provision:** Yes Date of Sunset June, 2028 Date of Last Sunset Extension 2022

**Explanation of Expiration of Authority:** HB 3 from the First Extraordinary Session (2022) extended the sunset of the Wood Energy Tax Credit from June 30, 2020**,** to June 30, 2028.

|---|---|---|---|---|---|
| **Program Name:** | Special Needs Adoption Tax Credit (Refundable Adoption Tax Credit - Credits authorized for tax years 2024 and after) | | | | |
| **Department:** Revenue | | **Contact Name & No.:** | Josh Shewmaker (751-2723) | **Date:** | January 2025 |
| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Section 135.325 - 135.339, RSMo | **Applicable Taxes:** | Chapter 143 RSMo | | |
| **Tax Credit Creation Date:** | 1997 | **Year of Last Legislative Change:** | 2023 | | |

**Program Description and Eligibility Requirements:**

From March 20, 2013, through January 1, 2022, the tax credits shall only be allocated for the adoption of special needs children who are residents or wards of this state at the time the adoption is initiated. Any business entity providing funds to an employee to enable that employee to proceed in good faith with the adoption of a special needs child shall be eligible to receive a tax credit for nonrecurring adoption expenses for each child, except that only one credit is available for each special needs child adopted.

Any person residing in this state who proceeds in good faith with the adoption of a child on or after January 1, 2022, regardless of whether such child is a special needs child, shall be eligible to receive a tax credit for nonrecurring adoption expenses for each child that may be applied to taxes due under chapter 143. The tax credit shall be allowed regardless of whether the child adopted is a resident or ward of a resident of this state at the time the adoption is initiated; however, for all fiscal years ending on or before June 30, 2024, priority shall be given to applications to claim the tax credit for special needs children who are residents or wards of residents of this state at the time the adoption is initiated. Any business entity providing funds to an employee to enable that employee to proceed in good faith with the adoption of a child shall be eligible to receive a tax credit for nonrecurring adoption expenses for each child that may be applied to taxes due under such business entity's state tax liability; except that, only one credit shall be available for each child who is adopted.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Individuals and businesses may claim a tax credit for the total nonrecurring adoption expense in each fiscal year that expenses are incurred. A claim for 50 percent of the credit is allowed when the child is placed in the home. A claim for the remaining 50 percent is allowed when the adoption is final. The total of the credits shall not exceed $10,000 per child. Beginning on or after January 1, 2024, the total tax credits allowed per child shall be adjusted annually for increases in cost-of-living, if any, based on the preceding July over the level of July of the immediately preceding year of the Consumer Price Index for All Urban Consumers.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 6,000,000 None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

The cumulative amount of tax credits that may be claimed by taxpayers claiming the credit for nonrecurring adoption expenses shall not exceed $6,000,000 in any fiscal year beginning on July 1, 2021 and ending June 30, 2024. For all fiscal years beginning on or after July 1, 2024, there shall be no limit imposed on the cumulative amount of tax credits that may be claimed by taxpayers claiming the credit for nonrecurring adoption expenses.

**Sunset Provision:** No Date of Sunset None Date of Last Sunset Extension None

**Explanation of Expiration of Authority:**

Sections 135.325-135.339, RSMo, does not enact the provisions of the Missouri Sunset Act

**Specific Provisions:** (if applicable)

Carry forward 4 years Carry Back n/a Refundable No Apportioned No Appropriated No

Sellable/Assignable Yes Organizations Remit an Offset No Additional Federal Deductions/Credits Available Yes

**Comments on Specific Provisions:**

For tax years beginning on or before December 31, 2023, any amount of tax credit which exceeds the tax due may be carried forward to any subsequent tax years, not to exceed a total of 5 years for which the credit may be taken. For all tax years beginning on or after January 1, 2024, any amount of tax credit that is issued and which exceeds the tax due shall be refunded to the taxpayer; however, any tax credits carried forward from tax years beginning on or before December 31, 2023, shall not be refundable.

# TAX CREDIT ANALYSIS

**Program Name:** Special Needs Adoption Tax Credit (Refundable Adoption Tax Credit - Credits authorized for tax years 2024 and after)

**Legislative / General Assembly Action(s) During Prior Five Years:**

A.L. 2021 H.B. 429 (merged with H.B. 430); Section 135.326 RSMo, definitions were modified to define child, replace "handicap" with "disabled", modify the definition of "special needs child". Section 135.327, 3. RSMo, regardless of if the child is special needs, a person who is a resident of this state and proceeds in good faith with the adoption of a child on or after January 1, 2022 may receive a tax credit for nonrecurring adoption expenses. However, priority is to be given to applications to claim the tax credit for special needs children who are a resident or ward of residents in this state at the time the adoption was initiated. Section 135.327, 4. RSMo, as of July 1, 2021, the fiscal year cap was increased from $2 million to $6 million.

A.L. 2023 S.B. 24; Legislation ended the need for prioritization for fiscal years ending on or before June 30, 2024 (Section 135.327, 3., RSMo), as the fiscal year cap was removed for all fiscal years beginning on or after July 1, 2024 (Section 135.327,4., RSMo). For all tax years beginning on or after January 1, 2024, the total tax credit allowed per child of $10,000, is to be adjusted annually for increases in cost-of-living, based on the Consumer Price Index for All Urban Consumers, as of the preceding July over the level of the July of the immediately preceding year (Section 135.327, 4., RSMo). For all tax years beginning on or after January 1, 2024, any amount of the credit that exceeds the tax due may be refunded; however, any tax credit carried forward from tax years beginning on or before December 31, 2023 shall not be refunded, but may be carried forward, not to exceed a total of 5 years for which the credit may be taken.

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | Refundable Adoption Tax Credit (Credits authorized for tax years 2024 and after) | | | | |
| **Department:** | Revenue | **Contact Name & No.:** | Josh Shewmaker (751-2723) | **Date:** | January 2025 |
| **Program Category:** | Domestic and Social | **Type:** | Choose | Other: | |
| **Statutory Authority:** | Section 135.325 - 135.339, RSMo | **Applicable Taxes:** | Chapter 143 RSMo | | |
| **Tax Credit Creation Date:** | 1997 | **Year of Last Legislative Change:** | 2023 | | |

**Program Description and Eligibility Requirements:**

Any person residing in this state who proceeds in good faith with the adoption of a child, regardless of whether such child is a special needs child, shall be eligible to receive a tax credit for nonrecurring adoption expenses for each child that may be applied to taxes due under chapter 143. The tax credit shall be allowed regardless of whether the child adopted is a resident or ward of a resident of this state at the time the adoption is initiated. Any business entity providing funds to an employee to enable that employee to proceed in good faith with the adoption of a child shall be eligible to receive a tax credit for nonrecurring adoption expenses for each child that may be applied to taxes due under such business entity's state tax liability; except that, only one credit shall be available for each child who is adopted.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Individuals and businesses may claim a tax credit for the total nonrecurring adoption expense in each year that expenses are incurred. A claim for 50 percent of the credit is allowed when the child is placed in the home. A claim for the remaining 50 percent is allowed when the adoption is final. The total of the credits shall not exceed $10,000 per child. Beginning on or after January 1, 2024, the total tax credits allowed per child shall be adjusted annually for increases in cost-of-living, if any, based on the preceding July over the level of July of the immediately preceding year of the Consumer Price Index for All Urban.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ _____ None X

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

For all fiscal years beginning on or after July 1, 2024, there shall be no limit imposed on the cumulative amount of tax credits that may be claimed by taxpayers claiming the credit for nonrecurring adoption expenses.

**Sunset Provision:** No Date of Sunset None Date of Last Sunset Extension None

**Explanation of Expiration of Authority:**

Sections 135.325-135.339, RSMo, does not enact the provisions of the Missouri Sunset Act

**Specific Provisions:** (if applicable)

Carry forward n/a Carry Back n/a Refundable Yes Apportioned No Appropriated No

Sellable/Assignable Yes Organizations Remit an Offset No Additional Federal Deductions/Credits Available Yes

**Comments on Specific Provisions:**

For all tax years beginning on or after January 1, 2024, any amount of tax credit that is issued and which exceeds the tax due shall be refunded to the taxpayer; however, any tax credits carried forward from tax years beginning on or before December 31, 2023, shall not be refundable.

**Legislative / General Assembly Action(s) During Prior Five Years:**

A.L. 2023 S.B. 24; Legislation ended the need for prioritization for fiscal years ending on or before June 30, 2024 (Section 135.327, 3., RSMo), as the fiscal year cap was removed for all fiscal years beginning on or after July 1, 2024 (Section 135.327,4., RSMo). For all tax years beginning on or after January 1, 2024, the total tax credit allowed per child of $10,000, is to be adjusted annually for increases in cost-of-living, based on the Consumer Price Index for All Urban Consumers, as of the preceding July over the level of the July of the immediately preceding year (Section 135.327, 4., RSMo). For all tax years beginning on or after January 1, 2024, any amount of the credit that exceeds the tax due may be refunded; however, any tax credit carried forward from tax years beginning on or before December 31, 2023 shall not be refunded, but may be carried forward, not to exceed a total of 5 years for which the credit may be taken.

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | Bank Franchise Tax | | | | |
| **Department:** | Revenue | **Contact Name & No.:** | Josh Shewmaker (526-2723) | **Date:** | January 2025 |
| **Program Category:** | Financial and Insurance | **Type:** | Tax Credit | Other: N/A | |
| **Statutory Authority:** | Section 148.064. RSMo | **Applicable Taxes:** | Chapter 143 and 148 RSMo | | |
| **Tax Credit Creation Date:** | 2001 | **Year of Last Legislative Change:** | 2019 | | |

**Program Description and Eligibility Requirements:**
A banking institution shall be entitled to an annual tax credit equal to 1/60th of 1 percent of its outstanding shares and surplus employed in this state if the outstanding shares and surplus exceed $1 million, as determined in Section 147.010 RSMo. For all tax years beginning on or after January 1, 2020, no tax credit shall be authorized under this subsection.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

This tax credit is taken as a dollar-for-dollar credit against the bank tax provided for in Section 148.030.2(2), RSMo, if such tax was already reduced to zero by other credits, than the remaining credit may be taken against the corporation income tax provided for in Chapter 143, RSMo. Section 148.030.2(2), RSMo, indicates how the tax credit shall be taken: "The amount determined under this subdivision shall be 7 percent of the taxpayer's net income for the income period from which product shall be subtracted the sum of the amount determined under subdivision 1 of this section and the credits allowable under subsection 3 of this section. However, the amount determined under this subdivision shall not be less than zero."

| **Statutory Authority:** | Section 143.471, RSMo | **Applicable Taxes:** | Section 148 Financial Institutions | | |
| **Tax Credit Creation Date:** | 1999 | **Year of Last Legislative Change:** | 2018 | | |

**Program Description and Eligibility Requirements:**
The credit authorized in Section 143.471, RSMo, is given only to shareholders that qualify as S corporation shareholders, if the stock at all times during the taxable period qualifies as S corporation stock as defined in 26 U.S.C. Section 1361, and such stock is held by the stockholder during the taxable period. A pro rata share of the tax credit for the tax payable pursuant to Chapter 148, RSMo, shall be allowed against each corporation shareholder's state income tax, if the bank otherwise complies with Section 148.112, RSMo.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No
The credit allowed by Section 143.471 RSMo, shall be equal to the bank tax calculated pursuant to Chapter 148, RSMo, based on bank income in 1999 and after, on a bank that makes an election pursuant to 26 U.S.C. Section 1362, and such credit shall be allocated to the qualifying shareholder according to the stock ownership, determined by multiplying a fraction where the numerator is the shareholder's stock and the denominator is the total stock issued by such bank or bank holding company

| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Section 135.341, RSMo | **Applicable Taxes:** | Chapter 143, excluding Sections 143.191-143.265, RSMo | | |
| **Tax Credit Creation Date:** | 2013 | **Year of Last Legislative Change:** | 2018 | | |

**Program Description and Eligibility Requirements:**

For all tax years beginning on or after January 1, 2013, a tax credit may be claimed in an amount equal to 50 percent of a verified contribution to a qualified organization as approved by Missouri Department of Social Services. The minimum amount of any tax credit applied for shall not be less than $50 and shall be applied to taxes due under Chapter 143, excluding Sections 143.191 to 143.265, RSMo. A contribution verification (Form MO-CFC) shall be issued to the taxpayer by the agency receiving the contribution.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

A tax credit may be claimed in an amount equal to 50 percent of a verified contribution to a qualified organization. The minimum amount of any tax credit issued shall not be less than $50. The tax credit shall be initially filed for the year in which the contribution is made

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 1,500,000 None _____

**Cap Shared Between Programs** No **Which Program(s)?** None

**Explanation of Cap:**

The cumulative amount of the tax credits redeemed shall not exceed $1 million for all fiscal years ending on June 30, 2019 and $1.5 million for all fiscal years beginning on or after July 1, 2019.

**Sunset Provision:** Yes Date of Sunset 31-Dec-25 Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**

Section 135.341, RSMo, enacts the provisions of the Missouri Sunset Act. This tax credit is scheduled to expire on December 31, 2025 and terminate September 1, 2026.

**Specific Provisions:** (if applicable)

Carry forward 4 years Carry Back n/a Refundable No Apportioned Yes Appropriated No

Sellable/Assignable No Organizations Remit an Offset No Additional Federal Deductions/Credits Available No

**Comments on Specific Provisions:**

The amount available is equally divided among the three qualified agencies: CASA, child advocacy centers, or crisis care centers. In the event tax credits claimed under one agency do not total the allocated amount, the unused portion for that agency will be made available to the remaining agencies equally. In the event the total amount of tax credits claimed for any one agency exceeds the amount available for that agency, the amount redeemed shall and will be apportioned equally to all eligible taxpayers claiming the credit under that agency.

**Legislative / General Assembly Action(s) During Prior Five Years:**

A.L. 2018 H.B. 1288; The annual fiscal year cap was increased from $1 million to $1.5 million. The tax credit was changed to remove the ability to assign, transfer, or sell. The expiration date of the tax credit was changed from December 31, 2019 to December 31, 2025.

| **Department:** | Revenue | **Contact Name & No.:** | Josh Shewmaker (526-2723) | **Date:** | January 2025 |
| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Section 135.647, RSMo | **Applicable Taxes:** | Chapter 143, excluding Sections 143.191-143.265, RSMo | | |
| **Tax Credit Creation Date:** | 2007 | **Year of Last Legislative Change:** | 2018 | | |

**Program Description and Eligibility Requirements:**
Any donation of cash or food made to a local soup kitchen or local homeless shelter on or after January 1, 2018, unless such food is donated after the food's expiration date, shall be eligible for a tax credit as provided under section 135.647. The credit shall be equal to 50 percent of the donation, not exceed $2,500 per taxpayer. `

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Any taxpayer who donates cash or food to any local food pantry, local homeless shelter, or local soup kitchen shall be allowed a credit against the tax due under Chapter 143, RSMo, excluding withholding tax, in an amount equal to 50 percent of the value of the donations made. Any donation of food shall be valued at fair market value or wholesale value if the taxpayer making the donation is a retail grocery store, food broker, wholesaler, or restaurant and shall be verified on an affidavit completed by the food pantry, local homeless shelter, or local soup kitchen receiving the donation. The amount of credit claimed shall not exceed the amount of the taxpayer's state tax liability for the year the credit is claimed and shall not exceed $2,500 per taxpayer. The cumulative amount of tax credits allocated to all taxpayers in any one fiscal year shall not exceed $1,750,000. The Director of Revenue shall establish procedures where the credit is apportioned among all taxpayers claiming the credit by April 15th if the cap is reached.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ $1,750,000 None _____

**Cap Shared Between Programs** No **Which Program(s)?** None

**Explanation of Cap:**
The cumulative amount of tax credits allocated to all taxpayers in any one fiscal year shall not exceed $1,750,000. The Director of Revenue has establish procedures where the credit is apportioned among all taxpayers claiming the credit by April 15th if the cap is reached. A 5 year review of the food pantry tax credit indicates the cumulative claims for the food pantry tax credits has exceeded the statutory cap, resulting in apportionment of the credit during fiscal years 2021, 2022, 2023 and 2024.

**Sunset Provision:** Yes Date of Sunset 31-Dec-26 Date of Last Sunset Extension 2018

**Explanation of Expiration of Authority:**
Pursuant to Section 23.253, RSMo, of the Missouri Sunset Act, the food pantry tax credit shall sunset December 31, 2026 with a termination date of September 1, 2027. (Last updated during A.L. 2018 by H.B 1288)

**Specific Provisions:** (if applicable)

Carry forward 3 years Carry Back n/a Refundable No Apportioned Yes Appropriated No

Sellable/Assignable No Organizations Remit an Offset No Additional Federal Deductions/Credits Available Yes

**Comments on Specific Provisions:**

The amount of credit claimed shall not exceed the amount of the taxpayer's state tax liability, but may be carried forward to any of the taxpayer's three subsequent tax years. The amounts that have been subtracted from the taxpayer's federal adjusted gross income within the federal itemized deduction shall be added back onto such taxpayer's Missouri return to determine the taxpayer's Missouri adjusted gross income.

**Legislative / General Assembly Action(s) During Prior Five Years:**

A.L. 2018, H.B. 1132 - Originally, only donations to a Local food pantry qualified for the credit, this legislation expanded the qualifying organizations to include local homeless shelter and local soup kitchen. Extended the sunset date from 2019 to 2026.
A.L 2014, H.B. 1132 - The fiscal year cap was increased from $1,250,000 To $1,750,000.

| **Program Category:** | Domestic and Social | **Type:** | Tax Deduction | Other: | |
| **Statutory Authority:** | Section 135.096, RSMo | **Applicable Taxes:** | Chapter 143 RSMo | | |
| **Tax Credit Creation Date:** | 1999 | **Year of Last Legislative Change:** | | | |

**Program Description and Eligibility Requirements:**
In order to promote personal financial responsibility for long-term health care in this state, for all taxable years beginning after December 31, 1999, a resident individual may deduct from such individual's Missouri taxable income, nonreimbursed qualified long-term care insurance premiums paid by such individual to the extent such amounts are not included in the individual's itemized deductions.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Tax Year beginning after December 31, 1999 through tax years ending on or before December 31, 2006, the deduction is limited to 50% of all nonreimmbursed qualified long term care insurance premiums to the extent included in the individuals itemized deduction.
For all taxable years beginning after December 31, 2006, such deduction was increased to 100 percent of all nonreimbursed amounts paid by such individual for qualified long-term care insurance premiums to the extent such amounts are not included in the individual's itemized deductions. Qualified long-term care insurance means any policy that meets or exceeds the provision of Section 376.1100 to 376.1118, RSMo.

# TAX CREDIT ANALYSIS

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | **Rolling Stock Tax Credit** | | | | |
| **Department:** | State Tax Commission | **Contact Name & No.:** | Stacey Jacobs 573-751-1716 | **Date:** | January 2025 |
| **Program Category:** | Business Recruitment | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Section 137.1018 | **Applicable Taxes:** | Property Taxes | | |
| **Tax Credit Creation Date:** | 2008 / Beginning January 1, 2009 | **Year of Last Legislative Change:** | 2023 | | |

**Program Description and Eligibility Requirements:**

For tax year beginning January 1, 2009, a freight line company shall, subject to appropriation, be allowed a credit against the tax levied for the applicable year. The tax credit amount shall be equal to the amount of eligible expenses incurred during the calendar year immediately preceding the tax year for which the credit under this section is claimed. The amount of the tax credit issued shall not exceed the freight line company's liability for the tax levied under this section for the tax year for which the credit is claimed.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Private car ad valorem tax is assessed to the freight line companies by the following formula: The State Tax Commission determines the assessed value for freight line companies. The Tax Commission determines an average tax rate based on the actual taxes collected from the previous tax year paid by the operating railroads in Missouri. The tax rate is applied by the Tax Commission's calculated assessed value. This produces the "tax levied." This is returned to the Department of Revenue for central collection by October 1st and is due and payable by December 31st. For all taxable years beginning on or after January 1, 2009, a freight line company shall, subject to appropriation, be allowed a credit against the tax levied. The tax credit amount is equal to the amount of eligible expenses (eligible expenses are those incurred in this state to manufacture, maintain, or improve a freight line company's rolling stock) and are incurred during the calendar year immediately preceding the tax year for which the credit is claimed. The amount of the tax credit issued shall not exceed the freight line company's liability for the tax levied for which the credit is claimed. If the appropriation is not totally funded, each company would receive a pro-rata share (based on their claim to total claims).

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ Appropriated None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:** The amount of the tax credit issued shall not exceed the freightline company's liability for the tax levied under Section 137.1018 for the tax year for which the credit is claimed.

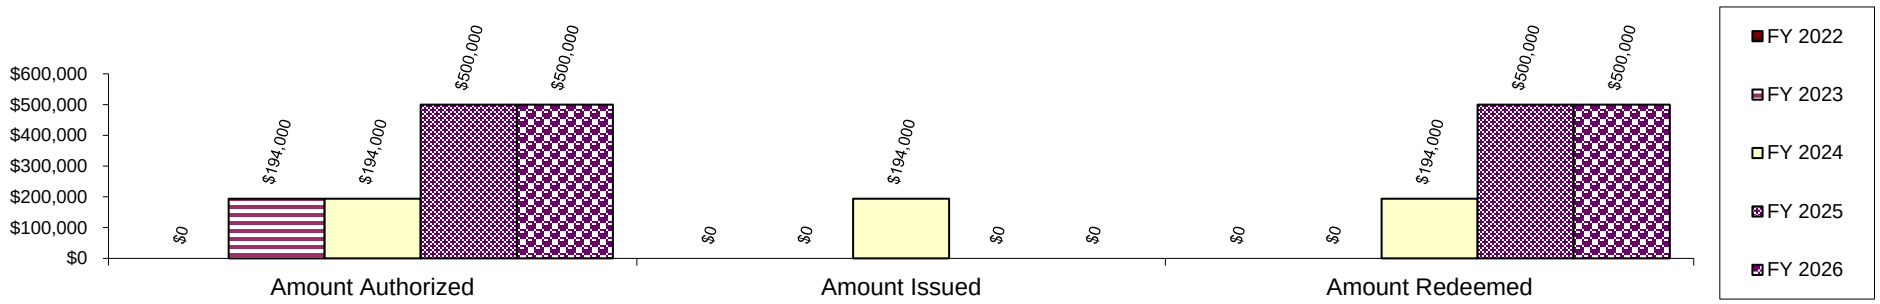
## HISTORICAL AND PROJECTED INFORMATION



**Comments on Historical and Projected Information:**

The Private Car Ad Valorem tax credit was appropriated by the General Assembly through the budget process for FY-2010 in the amount of $4,000,000 and again in FY-2015 in the amount of 2,000,000; however, the Governor line item vetoed the appropriation both times. In FY-2016, the General Assembly appropriated $300,000 and in FY-2017, the General Assembly appropriated $600,000 and the Governor restricted $300,000 leaving $300,000. In FY-2018 and FY-2019 the General Assembly and Governor did not appropriate the tax credit. In FY-2020 the General Assembly and Governor appropriated $194,000. Total taxes due for calendar year 2020 are $3,986,446. The program expired on August 28, 2020; however, the sunset was reenacted beginning August 28, 2022 through August 28, 2028. Funds were appropriated for FY-2023; however, the new sunset was not enacted until August 28, 2022 and the data to issue the tax credit was not collected or submitted by the companies for their January 1, 2022 submission.
Historical data reflects the following for private car taxes due:
2024 - $4,343,891; 2023 - $4,112,293; 2022 - $3,979,982; 2021 - $3,835,050; 2020 - $4,398,020; 2019 - $4,868,136; 2018 - $4,682,786; 2017 - $4,327,285; 2016 - $4,673,143; 2015 - 4,502,636; 2014 - $4,041,661; 2013 - $3,900,392;2012; 2012 - $3,740,856; 2011 - $3,452,968; 2010 - $3,423,831; 2009 - $3,757,140; 2008 - $3,901,082; 2007 - $4,152,737; 2006 - $3,551,652; 2005 - $3,005,374

| **Tax Credit Creation Date:** | 2007 | **Year of Last Legislative Change:** | 2022 | | |

**Program Description and Eligibility Requirements:**

A self-employed taxpayer, as such term is used in the federal Internal Revenue Code (IRC) who is ineligible for the federal income tax health insurance deduction under Section 162 of the federal IRC shall be entitled to a credit against the tax otherwise due under this chapter, excluding withholding tax imposed by Sections 143.191 to 143.265, in an amount equal to the portion of such taxpayer's federal tax liability incurred due to such taxpayer's inclusion of such payments in federal adjusted gross income. For all tax periods ending on or after August 28, 2022, to be eligible for a credit under this section, the self-employed taxpayer shall have a Missouri income tax liability, before any other tax credits, of less than three thousand dollars.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

A self-employed taxpayer may claim a credit in an amount equal to the portion of the taxpayer's federal tax liability due to the taxpayer's inclusion of the federal income tax health insurance payment in their federal adjusted gross income. For all tax periods ending on or after August 28, 2022, to be eligible for a credit under this section, the self-employed taxpayer shall have a Missouri income tax liability, before any other tax credits, of less than three thousand dollars.

| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | Section 143.177 RSMo | **Applicable Taxes:** | Chapter 143 RSMo | | |
| **Tax Credit Creation Date:** | 2021 | **Year of Last Legislative Change:** | 2021 | | |

**Program Description and Eligibility Requirements:**
Beginning January 1, 2023, the Missouri Working Family Tax Credit can be claimed by a resident individual with a filing status of single, head of household, widowed, or married filing combined who is subject to the tax imposed under chapter 143, excluding withholding tax imposed under sections 143.191 to 143.265, and who is allowed a federal earned income tax credit (EIC) under 26 U.S.C. Section 32, as amended. The credit will be equal to ten percent of the federal EIC, pursuant to Section 143.177, (1), RSMo, and may increase to twenty percent subject to the provisions in Section 143.177, (3) RSMo. Any increase in the percentage shall take effect on January first of a calendar year and shall continue in effect until the next percentage increase occurs. An increase shall only apply to tax years that begin on or after the increase takes effect.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No
The percentage of the federal EIC to be allowed as a tax credit shall be ten percent, which may be increased to twenty percent; if the amount of net general revenue collected in the previous fiscal year exceeds the highest amount of net general revenue collected in any of the three fiscal years prior to such fiscal year by at least one hundred fifty million dollars. This credit is to be applied to the tax liability after reduction for all other credits. The maximum percentage that may be claimed as a tax credit is twenty percent of the federal earned income tax credit.
Beginning January 1, 2023, the Working Family Tax Credit is equal to 10% of the allowable federal EITC as of January 2021. Beginning January 1, 2024, and beyond, the Working Family Tax Credit will be equal to 20% of the allowable federal EIC as of January 2021.

## TAX CREDIT ANALYSIS, FY 2026 BUDGET SUBMISSION

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | Developmental Disability Care Provider | | | | |
| **Department:** | Social Services | **Contact Name & No.:** | Patrick Luebbering (573) 751-7533 | **Date:** | January 2025 |
| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | 135.1180 RSMo | **Applicable Taxes:** | Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance | | |
| **Tax Credit Creation Date:** | Aug. 28, 2012 | **Year of Last Legislative Change:** | Aug. 28, 2015 | | |

**Program Description and Eligibility Requirements:**

A qualified developmental disability care provider may apply for tax credits on behalf of taxpayers who make eligible donations to the provider. Those who donate to qualifying providers are eligible to receive a tax credit up to fifty percent of their donation. Qualified developmental disability care providers that accept these donations are required to remit payment equivalent to the amount of the tax credit to the Department of Social Services. The program was authorized in HB 1172 (2012) and went into effect August 28, 2012.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Developmental Disability Care Provider is a contributory program. Taxpayers are eligible for a tax credit equivalent to up to fifty percent of an eligible donation to a qualified developmental disability care provider. The developmental disability care provider accepting the qualified donation must remit payment to the DSS equivalent to fifty percent of the donation received (the amount of the tax credit to be issued). The amount of the tax credit claimed may not exceed the amount of the taxpayer's state tax liability in the tax year that the credit is being claimed. Any tax credit that cannot be claimed in the taxable year during which the contribution is made will not be refunded but allowed to be carried forward and used against the taxpayer's state tax liability for four (4) subsequent years. The tax credit issued to taxpayer(s) may be applied to state liability taxes in the amount not to exceed fifty percent of an eligible donation made to a qualifying developmental disability care provider. Qualifying developmental disability care providers must have a current contract with the Children's Division or the Department of Mental Health, or be accredited by the Council on Accreditation, the Joint Commission on Accreditation of Healthcare Organizations, or the Commission on Accreditation of Rehabilitation Facilities.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ _____ None x

## BENEFIT: COST ANALYSIS (includes only state revenue impacts)

| | FY 2024 ACTIVITY | Other Fiscal Period (indicated time period) |
|---|---|---|
| **BENEFITS** | | |
| Direct Fiscal Benefits | | |
| Indirect Fiscal Benefits | $13,662 | |
| **Total** | $13,662 | $0 |
| **COSTS** | | |
| Direct Fiscal Costs | $6,323 | |
| Indirect Fiscal Costs | | |
| **Total** | $6,323 | $0 |
| **BENEFIT: COST** | **2.16** | **#DIV/0!** |

**Derivation of Benefits:**
Indirect fiscal benefits are the total amount of donations received by qualifying agencies that contributed toward the cost of assisting their clients who may have, otherwise, accessed state assistance. (Credits issued reflect 50% of total donations received)

Direct costs are the amount of credits that redeemed in FY 24 ($4,642) plus the cost for salary and fringe to administer the tax credit ($1,681).

**Other Benefits:**
Allows agencies to generate donations to be used toward the care of people with developmental disabilities without causing a burden on the state. Even though the state has a reduction in revenue when these tax credits are redeemed, the payment of half of the donation amount received by the provider offsets this cost.

| **Statutory Authority:** | 135.600 RSMo | **Applicable Taxes:** | Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance | | |
| **Tax Credit Creation Date:** | Aug. 28, 1997 | **Year of Last Legislative Change:** | Aug. 28, 2021 | | |

**Program Description and Eligibility Requirements:**

The Maternity Homes tax credit program provides a tax credit against a taxpayer's state tax liability equal to seventy percent of contributions to Maternity Homes. Those eligible for the tax credit include a person, firm, partner in a firm, etc., doing business in Missouri or a charitable firm who contributes to a maternity home. The amount of tax credit issued may be equivalent to up to seventy percent of the contribution to the agency. Credits shall not be less than fifty dollars and cannot exceed fifty thousand dollars to an individual taxpayer in a fiscal year.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Beginning FY 2023, the amount of tax credits that can be issued increases to seventy percent (70%) of the amount such taxpayer contributes to a maternity home. The taxpayer shall not be allowed to claim a tax credit unless the total amount of such taxpayer's contribution to the centers is at least one hundred dollars ($100) in value. The amount of the tax credit claimed must not be in excess of the taxpayer's state tax liability for the tax year that the credit is claimed and shall not exceed fifty thousand ($50,000) dollars per tax year. Prior to FY23, A taxpayer was allowed to claim a tax credit in the amount equal to fifty percent (50%). Shelters must submit an application annually to be classified as a qualifying agency to receive donations eligible for the Maternity Home Tax Credit.

## TAX CREDIT ANALYSIS, FY 2026 BUDGET SUBMISSION

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | Pregnancy Resource Center | | | | |
| **Department:** | Social Services | **Contact Name & No.:** | Patrick Luebbering (573) 751-7533 | **Date:** | January 2025 |
| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | 135.630 RSMo | **Applicable Taxes:** | Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance | | |
| **Tax Credit Creation Date:** | Aug. 28, 2006 | **Year of Last Legislative Change:** | Aug. 28, 2019 | | |

**Program Description and Eligibility Requirements:**

A qualified pregnancy resource center may apply for tax credits on behalf of taxpayers who make contributions to the agency. The amount of tax credit issued may be equivalent to up to seventy percent of the contribution to the agency. Credits shall not be less than fifty dollars ($50) and can not exceed fifty thousand dollars ($50,000) to an individual taxpayer in a fiscal year. Pregnancy resource centers must submit an application to the Department to be certified to received donations eligible for the Pregnancy Resource Center Tax Credit. An agency must be a non-residential facility located in this state which is exempt from income taxation under the United States Internal Revenue Code and is established for the purpose of providing assistance to women with unplanned or crisis pregnancies, or similar services to encourage and assist women in carrying their pregnancies to term. These facilities do not perform childbirths nor do they perform, induce or refer for abortion. All services are provided in accordance with Missouri statute at no cost to clients.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

The Pregnancy Resource Center Tax Credit program became effective January 1, 2007. A taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability, in an amount equal to seventy percent (70%) of the amount such taxpayer contributed to a pregnancy resource center. The taxpayer shall not be allowed to claim a tax credit unless the total amount of such taxpayer's contribution to the centers is at least one hundred dollars ($100) in value. The amount of the tax credit claimed must not be in excess of the taxpayer's state tax liability for the taxable year that the credit is claimed and shall not exceed fifty thousand ($50,000) dollars per taxable year.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ N/A None x

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

Effective FY 2021, there is no cap to the amount of credits that can be claimed for those qualifying pregnancy resource centers that have submitted an application and supporting documentation to the Department of Social Services. Prior to this date, annual allocation could not exceed $3.5 million.

**Sunset Provision:** No Date of Sunset _____ Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**

In the 2019 legislative session, the sunset was removed from the Pregnancy Resource Center tax credit (HB 126).

**Specific Provisions:** (if applicable)

Carry forward 1 year Carry Back n/a Refundable No Apportioned No Appropriated No

Sellable/Assignable No Organizations Remit an Offset No Additional Federal Deductions/Credits Available No

**Comments on Specific Provisions:**

The four year carryover ended August 28, 2018. After that date, the carryover is for one year.

**Legislative / General Assembly Action(s) During Prior Five Years:**

Beginning January 1, 2021, the percentage of credit was increased from 50% to 70% during the the 2019 legislative session. The annual cap of $3.5 million was removed beginning July 1, 2021.

## TAX CREDIT ANALYSIS, FY 2026 BUDGET SUBMISSION

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | Residential Treatment Agency | | | | |
| **Department:** | Social Services | **Contact Name & No.:** | Patrick Luebbering (573) 751-7533 | **Date:** | January 2025 |
| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | 135.1150 RSMo | **Applicable Taxes:** | Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance | | |
| **Tax Credit Creation Date:** | Aug. 28, 2006 | **Year of Last Legislative Change:** | Aug. 28, 2015 | | |

**Program Description and Eligibility Requirements:**

A qualified residential treatment agency may apply for tax credits on behalf of taxpayers who make eligible donations to the agency. The amount of total credits available to any qualified residential treatment agency can not exceed the total funds received from the Department of Social Services (DSS) in the preceding twelve months. Those who donate to qualifying providers are eligible to receive a tax credit up to fifty percent of their donation. Qualified residential treatment agencies that accept these donations are required to remit payment equivalent to the amount of the tax credit to the Department of Social Services.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Residential Treatment is a contributory program. Taxpayers are eligible for a tax credit equivalent to up to fifty percent of an eligible donation to a qualified residential treatment agency. The residential treatment agency accepting the qualified donation must remit payment to the DSS equivalent to fifty percent of the donation received (the amount of the tax credit to be issued). Since January 1, 2007, any taxpayer is allowed to claim a credit against their state tax liability equivalent to fifty percent (50%) of the eligible donation the taxpayer made to a qualified residential treatment agency. The amount of the tax credit claimed may not exceed the amount of the taxpayer's state tax liability in the tax year that the credit is being claimed. Any tax credit that cannot be claimed in the taxable year during which the contribution is made will not be refunded, but is allowed to be carried forward and used against the taxpayer's state tax liability for four (4) subsequent years. The tax credit issued to taxpayer(s) may be applied to state liability taxes in the amount not to exceed fifty percent of an eligible donation made to a qualifying residential treatment agency. Qualifying residential treatment agencies must have a current contract with the Children's Division. Total credits issued can not exceed the total payments made by DSS to the Residential Treatment Agency during the twelve months preceding the month the application was received by DSS.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ _____ None x

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

Qualifying residential treatment agencies must submit payment equivalent to the amount of tax credit issued. As a result, no cap is applied to this tax credit.

**Sunset Provision:** No Date of Sunset _____ Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**

Senate Bill 463 (2015) removed the sunset.

**Specific Provisions:** (if applicable)

Carry forward 4 years Carry Back n/a Refundable No Apportioned No Appropriated No

Sellable/Assignable Yes Organizations Remit an Offset Yes Additional Federal Deductions/Credits Available No

**Comments on Specific Provisions:**

**Legislative / General Assembly Action(s) During Prior Five Years:**

No legislative or General Assembly actions have taken place in the last five years.

## TAX CREDIT ANALYSIS, FY 2026 BUDGET SUBMISSION

| | | | | | |
|---|---|---|---|---|---|
| **Program Name:** | Shelter for Victims of Domestic Violence and Rape Crisis Centers | | | | |
| **Department:** | Social Services | **Contact Name & No.:** | Patrick Luebbering (573) 751-7533 | **Date:** | January 2025 |
| **Program Category:** | Domestic and Social | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | 135.550 RSMo | **Applicable Taxes:** | Corporate Income, Fiduciary, Financial, Corporate Franchise, Individual and Insurance | | |
| **Tax Credit Creation Date:** | Aug. 28, 1997 | **Year of Last Legislative Change:** | Aug. 28, 2021 | | |

**Program Description and Eligibility Requirements:**
Allows a tax credit for taxpayers to apply to their state liability taxes in an amount not to exceed seventy percent of a contribution made to a qualifying domestic violence shelter. Contributions can include cash, stocks, bonds or other marketable securities, or real property, with a value of one hundred dollars ($100) or more.

**Explanation of How Award is Computed:** **Entitlement** Yes **Discretionary** No

Beginning FY 2023, the amount of tax credits that can be issued increases to seventy percent (70%) of an eligible contribution to a qualified domestic violence shelter and rape crisis center. Contributions must have a value of at least $100 and can not exceed $100,000 per taxpayer during any fiscal year. Eligible tax credits can not exceed the taxpayers state income tax liability for the year the credit is claimed. Prior to FY23, taxpayers were eligible for a tax credit equivalent to up to fifty percent (50%).

Shelters must submit an application annually to be classified as a qualifying agency to receive donations eligible for the Domestic Violence Shelter Tax Credit.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ _____ None x

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**
Beginning FY 2023, there will be no cap on the amount of credits that can be claimed. Prior to FY23 there was $2 million annually allocated to those qualifying domestic violence shelters that have submitted an application and supporting documentation to the Department of Social Services.

**Sunset Provision:** No Date of Sunset _____ Date of Last Sunset Extension _____

**Explanation of Expiration of Authority:**
There was no sunset established for this program when it was created in 1997.

**Specific Provisions:** (if applicable)

Carry forward 4 years Carry Back n/a Refundable No Apportioned No Appropriated No

Sellable/Assignable No Organizations Remit an Offset No Additional Federal Deductions/Credits Available No

**Comments on Specific Provisions:**

**Legislative / General Assembly Action(s) During Prior Five Years:**

During the 2021 legislative session, the credit percentage increased from 50% to 70%. During the 2021 legislative session, the annual credit limit of $2 million was removed.

| **Tax Credit Creation Date:** | July 2, 1999 1999 H.B. 888 | **Year of Last Legislative Change:** | FY 2022 Special Session | | |

**Program Description and Eligibility Requirements:**
A contributor who contributes funds to the Missouri Agricultural and Small Business Development Authority may receive a tax credit in an amount up to one hundred percent of such contribution. A contributor can be an individual, partnership, corporation, trust, limited liability company, entity or person that contributes cash funds to the authority. The funds derived from contributions shall be used for financial assistance or technical assistance in the form of value-added grants to rural agricultural business concepts. The authority may also provide or facilitate loans, equity investments, or guaranteed loans for rural agricultural business concepts.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes
A contributor who contributes funds to the Missouri Agricultural and Small Business Development Authority may receive a tax credit in an amount up to one hundred percent of such contribution. The awarding of the credit is based on the least amount of credits necessary to provide incentive for the contributions. All contributors submit an application which must be approved by the MASBDA Commission prior to issuance.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 6,000,000 None _____

**Cap Shared Between Programs** Yes **Which Program(s)?** **New Generation Cooperative Incentive Tax Credit Program**

**Explanation of Cap:**
The aggregate of tax credits issued per fiscal year pursuant to sections 348.430 and 348.432 shall not exceed six million dollars. If on May 1st of each year the Missouri Agricultural and Small Business Development Authority determines that any of the $6,000,000 will not be utilized as New Generation Cooperative Incentive Tax Credits then the unused credits may be sold as Agricultural Product Utilization Contributor Tax Credits. Credits not issued as New Generation Cooperative Incentive Tax Credits or sold as Agricultural Product Utilization Contributor Tax Credits lapse June 30th of each year.

**Sunset Provision:** Yes Date of Sunset 31-Dec-28 Date of Last Sunset Extension FY 2022 Special Session

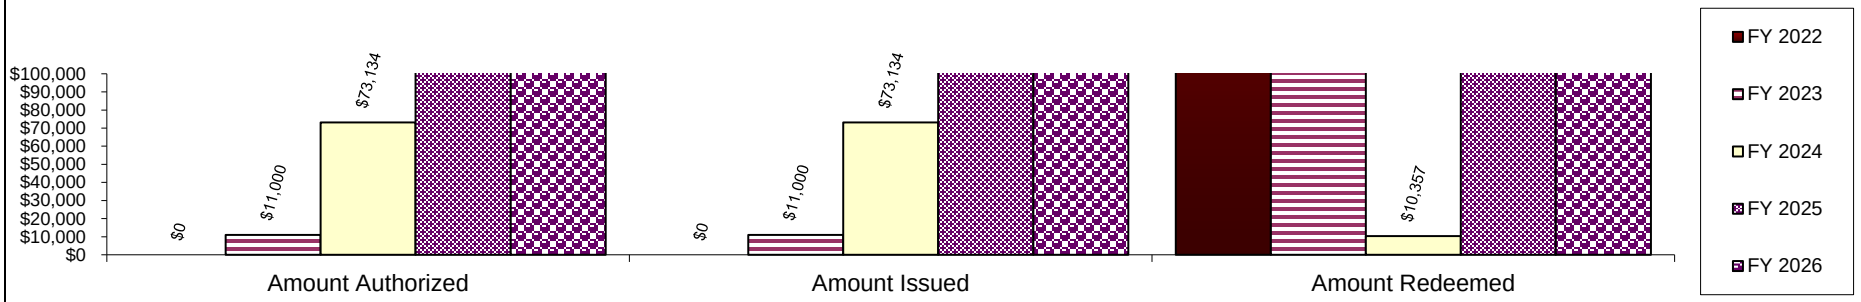
**Program Name:** Agricultural Product Utilization Contributor Tax Credit Program

## HISTORICAL AND PROJECTED INFORMATION



**Comments on Historical and Projected Information:**
Agricultural Product Utilization Contributor Tax Credits was extended during FY 22 1st Special Session on H.B. 3 which updated the expiration date to December 31, 2028.

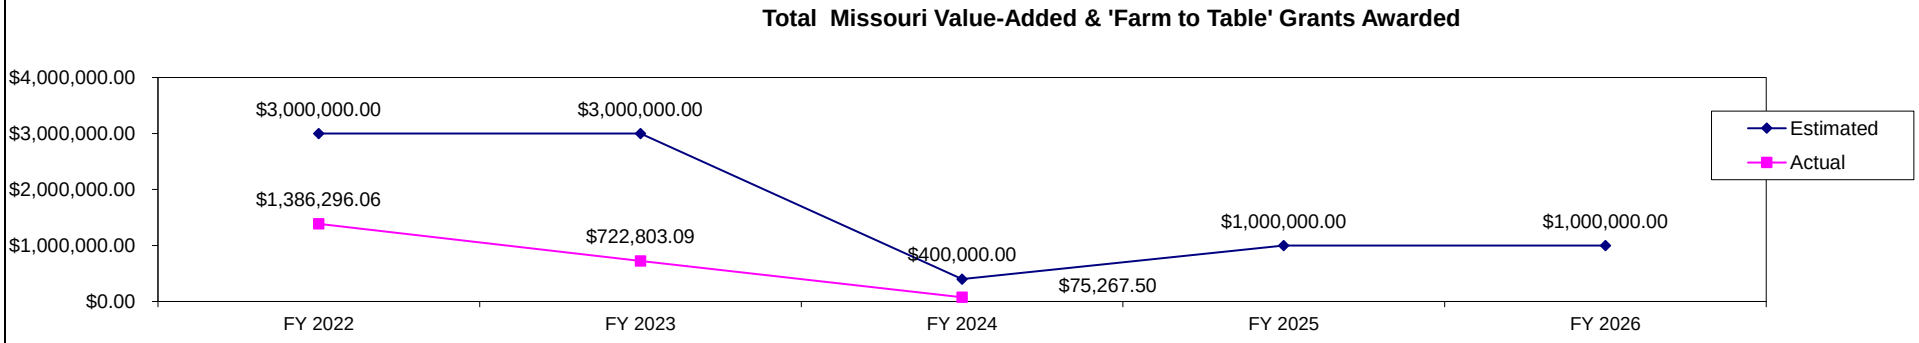
## BENEFIT: COST ANALYSIS (includes only state revenue impacts)

| | FY 2024 ACTIVITY | Other Fiscal Period (FY00-FY23) |
|---|---|---|
| **BENEFITS** | | |
| Direct Fiscal Benefits | $186,028 | $25,585,514 |
| Indirect Fiscal Benefits | $178,200 | $40,252,341 |
| **Total** | $364,228 | $65,837,855 |
| **COSTS** | | |
| Direct Fiscal Costs | $15,497 | $28,916,177 |
| Indirect Fiscal Costs | | |
| **Total** | $15,497 | $28,916,177 |
| **BENEFIT: COST** | **23.50** | **2.28** |

**Derivation of Benefits:**
Benefits are based on grant dollars actually paid. Payments are broken into NAICS Codes. Total value-added (direct and indirect fiscal benefits) to the state of Missouri are estimated by IMPLAN. Value-Added Grants are awarded for pre-business start-up costs such as feasibility studies, marketing studies, business planning, etc. and 'Farm to Table' Value-Added Grants. Biofuel Infrastructure Program grants were added to the benefits calculation in FY 22. This program grants are awarded for the entities who were awarded an USDA HBIIP grant and the BIP grants cover up to 25% of the entities required cash match, not to exceed $200,000 per entity.

**Other Benefits:**

## PERFORMANCE MEASURE(S)



**Comments on Performance Measure:**
In fiscal year 2024, only statewide grants will be funded. If a funded study demonstrates the potential for a project, then the cost of the study becomes one small part of the actual cost of the project. If the project is successful, it generates a good benefit cost ratio. If the study finds that the project is not feasible, the benefits of the project are the savings of investments that would have been lost. In which case the benefit cost ratio is very high. However, this analysis includes only actual grant dollars and does not take into account whether or not a project is feasible. If a project becomes operational and receives New Generation Cooperative Incentive Tax Credits then those benefits are accounted for in the New Generation Cooperative Incentive Tax Credit Program's tax credit analysis.

| **Program Name:** | **Family Farm Breeding Livestock Loan Program** | | | | |
| **Department:** | Agriculture | **Contact Name & No.:** | Jill S. Wood (573) 751-5624 | **Date:** | 12/31/2024 |
| **Program Category:** | Agricultural | **Type:** | Tax Credit | Other: | |
| **Statutory Authority:** | 348.500, 348.505 RSMo Effective August 2006 | **Applicable Taxes:** | Income (143 RSMo), Franchise (147 RSMo), and Financial Institution (148 RSMo) | | |
| **Tax Credit Creation Date:** | August 28, 2006 2006 S.B. 1017 | **Year of Last Legislative Change:** | FY 2022 Special Session | | |

**Program Description and Eligibility Requirements:**

This program provides Missouri Tax Credits to lenders in lieu of the first year of interest being paid on breeding livestock loans made to "small farmers" who are Missouri residents and who have less than $500,000 in gross sales per year. Maximum eligible loan cannot exceed 90% of the cost of purchasing breeding livestock. Small Farmers are not limited on the amount of times they use the program or the type of livestock. The maximum amount of loan for each type of livestock is: Beef or Dairy cattle $150,000; Sheep or Goats $60,000; Swine $70,000.

**Explanation of How Award is Computed:** **Entitlement** No **Discretionary** Yes

A lender can request a tax credit for the first year's interest waived on a loan to a "Small Missouri Farmer" that makes a loan for the purchase of breeding livestock. Each request shall include a true copy of the loan documents. All participants must submit an application which must be approved by the MASBDA Commission prior to tax credit issuance.

**Program Cap:** Cumulative $ _____ (remainder of cumulative cap) $ _____ Annual $ 300,000 None _____

**Cap Shared Between Programs** No **Which Program(s)?** _____

**Explanation of Cap:**

Fiscal year limits are set in 348.505.1 RSMo as are individual loan limits. Beef and dairy = $150,000, swine = $70,000, sheep and goats = $60,000.
