## Georgia individual income tax expenditures for which an estimate is not currently available

| Expenditure | Statute | Summary |
|---|---|---|
| 1.5.002 | §48-7-27 | Deduction of qualified insurance premiums for former firefighters |

## 1.6 Georgia Credits

**1.6.001** Rural Physician Credit

| | |
|---|---|
| Statute | §48-7-29 |
| Year Enacted | 1995 |
| Year Effective | Taxable years beginning on or after January 1, 1996 |
| Data Source | DOR Tax Credit data as of 2023 |
| Estimate Reliability | Class A |
| Data Reliability | Class A |
| Note | |

**Description:** This credit is for certain physicians practicing in rural counties. The value of the credit is equal to the lessor of $5,000 or the taxpayer's income tax liability and may be claimed for five years. For tax years 2024 and after, this credit is available for physicians and dentists practicing in rural counties. The annual credit remains at $5,000 and cannot be carried forward. The credit is capped at $2 million annually.

| | State Fiscal Years ($ in Millions) | | |

(m) Denotes a value of less than $1 million

**1.6.011** Credit for Community-Based Faculty Preceptors

| | |
|---|---|
| Statute | §48-7-29.22 |
| Year Enacted | 2019 |
| Year Effective | 2019 |
| Data Source | DOR Tax Credit data as of 2023 and fiscal note for HB 287 LC 43 1215 (2019) |
| Estimate Reliability | Class A |
| Data Reliability | Class A |
| Note | Effective for tax years beginning on or after January 1, 2019, the deduction under O.C.G.A. 48-7-27 was replaced by a tax credit and definition of the physician that qualifies changed from community based faculty physicians to community based faculty preceptors. |

**Description:** Tax credits are earned by community-based faculty preceptors that are physicians, as defined by O.C.G.A.§43-34-21, in the amount of $500 for their first, second, and third preceptor rotations and $1,000 for each of their fourth through tenth preceptorship rotations. Tax credits for community-based faculty preceptors that are advanced practice registered nurses or physician assistants, as defined by O.C.G.A.§43-34-21, are $375 for their first through third preceptor rotations and $750 for their fourth through tenth preceptor rotations. This credit expires December 31, 2026.

| | State Fiscal Years ($ in Millions) | | |

| | 2025 | 2026 | 2027 |
| State Tax Expenditure | 3 | 3 | 3 |

(m) Denotes a value of less than $1 million

**1.6.012** Georgia Job Tax Credit

| | |
|---|---|
| Statute | §48-7-40 and §48-7-40.1 |
| Year Enacted | §48-7-40: 1989; §48-7-40.1: 1993 |
| Year Effective | §48-7-40: Taxable years beginning on or after January 1, 1990; §48-7-40.1: Taxable years beginning on or after January 1, 1994 |
| Data Source | DOR data as of TY 2023 and Office of Insurance and Safety Fire Commissioner |
| Estimate Reliability | Class A |
| Data Reliability | Class A |
| Note | The same estimate is provided in the corporate income tax and insurance premium tax sections, see 2.6.001 and 5.00200. In 2018, the qualifying areas were expanded to include counties |

with military bases and industrial parks that are owned and operated by a government entity.

**Description:** The credit provides a statewide job tax credit to any business or headquarters engaged in manufacturing, warehousing and distribution, processing, telecommunications, broadcasting, tourism, or research and development. Retail establishments are only allowed the credit if located in one of the 40 least-developed counties of the state. Average wages must be greater than the average wage of the county in the state with the lowest average wage. To be eligible, employers must offer health insurance to all new employees. It also provides a tax credit for businesses enterprises designated as operating in less-developed areas. These include areas with ten or more contiguous census tracts with higher than 15 percent poverty and counties with both a military base and a government owned and operated industrial park.

(m) Denotes a value of less than $1 million. Numbers may not sum due to rounding

**1.6.013** Quality Jobs Tax Credit

| | |
|---|---|
| Statute | §48-7-40.17 |
| Year Enacted | 2009 |
| Year Effective | Taxable years beginning on or after January 1, 2009 |
| Data Source | DOR data as of TY 2022 |
| Estimate Reliability | Class A |
| Data Reliability | Class A |
| Note | This provision was modified to allow consideration of jobs in disregarded entities for purposes of qualifying for the credit. This statute was modified in 2017 allowing taxpayers to establish subsequent job creation periods for a qualified project. The same estimate is provided in the corporate income tax section, see 2.6.002. |

**Description:** This credit is for employers creating new high-wage jobs or relocating high-wage jobs into the state. A quality job or high-wage job has 30 hours a week of regular work; is not already located in Georgia; and pays at or above 110 percent of the average wage of the county in which it is located.

| Estimate Reliability | NA |
| Data Reliability | NA |
| Note | Utilization of this credit resulting from known or anticipated projects is expected to be material, but not within the time horizon of this report; see fiscal note.<br>The same estimate is provided in the corporate income tax section, see 2.6.004. |

**Description:** This is an incentive for a manufacturer who has operated a manufacturing facility in this state for at least 3 years and who spends $800 million on a new manufacturing facility in this state, subject to a job requirement of 1,800 full-time employees. The credit equal to 6 percent of the cost of all qualified investment property purchased or acquired, up to $50 million with respect to any one project. For qualified high-impact aerospace defense projects certified on or after July 1, 2021, the maximum credit for any one project is increased to $100 million and the taxpayer may begin claiming credits once investment and job thresholds of $500 million and 1,000, respectively, are reached. For tax years on or after January 1, 2025, carryforwards are limited from fifteen to ten years.

(m) Denotes a value of less than $1 million. Numbers may not sum due to rounding

**1.6.020** Film Tax Credit

| | |
|---|---|
| Statute | §48-7-40.26 |
| Year Enacted | 2005 |
| Year Effective | Taxable years beginning on or after January 1, 2005 |
| Data Source | DOR data for TY 2020 |
| Estimate Reliability | Class B |
| Data Reliability | Class A |
| Note | The same estimate is provided in the corporate income tax section, see 2.6.009. Tax credit provisions applicable to qualified interactive entertainment production companies were modified in 2015. |

**Description:** Production companies which have at least $500,000 of qualified expenditures in a state-certified production may claim this credit. Certification must be approved through the Georgia Department of Economic Development. There are special provisions relating to the tax credits awarded to interactive entertainment companies. Under the 2017 modifications to this statute, the 2019 sunset for the qualified interactive entertainment production company tax credit has been eliminated. For tax years on or after January 1, 2025, carryforwards are limited from five to three years.

| Estimate Reliability | Class B |
| Data Reliability | Class A |
| Note | The same estimate is provided in the corporate income tax, see section 2.6.040. |

**Description:** Provides for a credit for casualty losses incurred on commercial timberland due to damage attributed to Hurricane Helene in the fall of 2024, subject to replanting requirements as described below. The amount of the credit is equal to 100 percent of the casualty loss deduction reported on the taxpayer's federal return, provided that the credit amount does not exceed $550 per acre. Taxpayers must seek preapproval for the credit on or before December 31, 2025. Taxpayers are eligible to claim the credit in the taxable year in which the taxpayer replants 90 percent of the timber lost in the hurricane. Credits claimed are nonrefundable, but can be carried forward for up to 10 years. The total amount of credits preapproved may not exceed $200 million.

**1.6.052** Qualified Post-Production Expenditures Credit

| | |
|---|---|
| Statute | §48-7-40.26A |
| Year Enacted | 2017 |
| Year Effective | 2018 |
| Data Source | DOR data as of TY 2023 |
| Estimate Reliability | Class A |
| Data Reliability | Class A |
| Note | The same estimate is provided in the corporate income tax, see section 2.6.041. |

**Description:** Postproduction companies with at least $500,000 in qualified postproduction expenditures per year will be eligible for a credit equal to 20 percent of the qualified postproduction expenditures. An additional 10

percent credit is allowed if the qualified production expenditures were incurred in the state. An additional 5 percent credit is allowed if the qualified production expenditures were incurred in a tier 1 or tier 2 county. The value of credits awarded is limited to a maximum of $10 million for 2018 through 2022. If in any year the aggregate amount of credits allowable is not awarded, the remaining credits will be rolled in the allowable credits for the following year. Postproduction companies with expenditures between $100,000 and $500,000 per year are eligible for a separate credit equal to 20 percent of the qualified postproduction expenditures. Aggregate annual claims on this credit are limited to $1 million. The $1 million small company credit limit does not count against the credit limit for the large company credit discussed above. No credits shall be earned in years after 2022. HB 129 resumes postproduction expenditure tax credit beginning January 1, 2026 and before January 1, 2031.

## Individual Income tax expenditures for which an estimate is not currently available

| Expenditure | Statute | Summary |
|---|---|---|
| 1.6.038 | §48-7-40.29 | Energy-efficient or water-efficient equipment credit |

## 2. Corporate Income Tax

Similar to the individual tax, the corporate income tax was first levied in Georgia in 1929 at a rate equal to one-third of the federal corporate tax rate. While the corporate tax rates have changed since its introduction, the tax has always remained a flat rate tax, with a single rate applying to all Georgia taxable income of the corporation. During the 2024 session of the General Assembly, legislation was enacted that would tie the corporate tax rate to statutory personal income tax rate. This reduced the rate from 5.75 percent to 5.39 percent on July 1, 2024. The corporate tax rate was reduced to 5.19 percent effective January 1, 2025 and is subject to the same scheduled reductions that would be applied to personal income tax, up to 4.99 percent.

The starting point for the construction of the tax base is federal taxable income of a corporation. Several adjustments are made in order to determine Georgia business income. For example, although corporations are allowed certain special depreciation deductions at the federal level, some of these deductions are not allowed at the state level. Firms taking these deductions on their federal return must add these deductions back to their tax base when determining their state taxable income. In addition, firms operating in multiple states must apportion their corporate income to each of the states in which they have a legal obligation to pay the tax. Since 2008, firms with multistate income determine the portion of their total income associated with Georgia by computing their total Georgia receipts relative to their total receipts. Prior to 2008, Georgia firms were required to use a three-factor apportionment formula.

It is important to keep in mind that tax expenditure estimates may differ from revenue estimates presented in fiscal notes. Estimates included in fiscal notes incorporate behavioral effects that are not considered when estimating tax expenditure provisions. The purpose of a tax expenditure estimate is to convey the cost that would be necessary if the item were offered as a direct budgetary expenditure instead of a reduction in the tax liability. A second caveat concerns the estimates associated with the state corporate credit provisions. Forecasting the value of the revenue loss stemming from the use of these credits is problematic due to the presence of extensive carry forwards in the case of some credits. Because of past credit carry forwards, firms may claim credits on current or future year tax returns that were created in prior years. In some cases, the credit may have expired such that taxpayers are no longer able to create new credits, but the revenue loss to the state continues for several years until all carryforward liabilities have been exhausted. Therefore, the estimates provided in this report should be interpreted as the expected revenue loss stemming from the use of currently created or previously created credits and not an estimate of the value of credits created in a given year.

The tax is administered by the Georgia DOR. Corporate tax collections for FY 2024 were $3.5 billion or 10.6 percent of total state tax revenues. Approximately 369 thousand corporate returns were processed in CY 2024. All revenue collected from this tax is deposited into the State General Fund..

## 2.1 Federal Corporate Exclusions

**2.1.001** Permanent exemption from imputed interest rules

Federal Statute IRC Sections 163(e), 483, 1274, and 1274(A)

**Description:** Debt instruments for amounts not exceeding an inflation adjusted maximum, given in exchange for real property, may not have imputed to them an interest rate greater than 9 percent.

**2.3.005** Cash accounting, for certain businesses

Federal Statute IRC Sections 446 and 448

**Description:** The cash method of accounting may be used by any business taxpayer that is not a tax shelter and falls into at least one of three specified categories. These are farming businesses, qualified personal service corporations, and entities that meet a gross receipts test.

| | State Fiscal Years ($ in Millions) | | |
|---|---|---|---|
| | 2025 | 2026 | 2027 |
| State Tax Expenditure | 4 | 4 | 4 |

(m) Denotes a value of less than $1 million

**2.3.006** Deferral of gain on non-dealer installment sales

Federal Statute IRC Sections 453 and 453A(b)

**Description:** Some taxpayers are allowed to report some sales using the installment method of accounting in which the gross profit from the sale is prorated over the years during which the payments are received.

| | State Fiscal Years ($ in Millions) | | |
|---|---|---|---|
| | 2025 | 2026 | 2027 |
| State Tax Expenditure | 24 | 26 | 27 |

(m) Denotes a value of less than $1 million

**2.3.007** Completed contract rules

Federal Statute IRC Section 460

**Description:** Some taxpayers with construction or manufacturing contracts extending for more than one tax year are allowed to report some or all of the profit on the contracts under special accounting rules rather than the normal rules of tax accounting.

| | State Fiscal Years ($ in Millions) | | |
|---|---|---|---|
| | 2025 | 2026 | 2027 |

(m) Denotes a value of less than $1 million

**2.3.008** Special treatment of employee stock ownership plans (ESOPs) (includes deferral of tax on certain employee stock plans)

Federal Statute IRC Sections 401(a)(28), 404(a)(9), 404(k), 415(c)(6), 512(e), 1042, 497(e)(7), 4975(d)(3), 4978, 4979A

**Description:** ESOPs are provided special tax treatment. Employer contributions may be deducted as a business expense. In addition, some contributions are subject to less restrictive limits than contributions to other employee benefit plans. Tax on qualified employee stock purchase plans are not taxed when granted or excised. Tax is deferred until stock is sold.

**2.3.010** Qualified Opportunity Zones

Federal Statute PL 115-97; IRS 1400Z-1

**Description:** A qualified opportunity fund is an investment vehicle organized as a corporation or a partnership for the purpose of investing in qualified opportunity zone property that holds at least 90 percent of its assets in qualified opportunity zone property. Qualified opportunity zone property includes any qualified opportunity zone stock, any qualified opportunity zone partnership interest, and any qualified opportunity zone business property. Certain low-income community population census tracts may be designated as qualified opportunity zones by the chief executive officer of the State (which includes the District of Columbia).

**2.3.012** Special rules for interest-charge domestic international sales corporations (IC-DISC)

Federal Statute IRC Sections 991-997

**Description:** Shareholders of Interest-Charge Domestic International Sales Corporation are taxed only once. IC-DISC shareholders may defer up to $10 million annually that is attributable to qualified export sales. An interest charge is imposed on shareholders based on the distribution that would have occurred had deferral not been elected.

## 2.4 Corporate Apportionment

Discussed below are three issues relating to corporate apportionment that can be considered tax expenditures because they are deviations from the traditional formula of corporate apportionment and result in a benefit to some taxpayers. No estimate of the value of these expenditures is available at this time.

### 2.4.001 Single-Factor Apportionment

The traditional apportionment formula calculates corporate income tax liability of multi-state corporations based on the ratio of company property, payroll, and gross receipts in Georgia to all other states. This three-factor formula applies an equal weight of 33.33 percent to each ratio and was used in Georgia until the mid-2000s. Beginning in 2008, Georgia transitioned to a single-factor apportionment formula wherein firms determine state tax liability based solely on the ratio of Georgia receipts to total receipts. Products that are shipped or delivered to customers in Georgia are subject to the Georgia corporate tax, while sales negotiated or delivered to customers outside of Georgia are excluded. The only exception is for airline companies that ship passengers and cargo across state lines. Instead of using the single factor approach, income generated through these businesses is taxed by a three-factor formula as a ratio of Georgia activity to total activity. The formula weighs revenue air miles traveled at 25 percent, tons handled by aircraft at 25 percent, and originating passenger and cargo revenue at 50 percent. The single-factor formula benefits firms that have manufacturing presence in one state but significant sales outside of the state. Firms that are located and operate in a single state are not affected by the apportionment formula.

### 2.4.002 Throwback Rule

Under a throwback rule, out-of-state sales from a corporation are taxed by the state of origin if the corporation has no nexus in the destination state. Twenty states, including Washington D.C., have a throwback rule. Georgia, Alabama, North Carolina, Florida, Tennessee, South Carolina, and Virginia do not, but Mississippi does. An alternative rule is the “throw-out rule,” which eliminates sales to non-nexus states from both the numerator and denominator of the corporate apportionment formula. Only three states—Louisiana, Kentucky, and Maine—have a throw-out rule.

### 2.4.003 Corporate Receipts Sourcing

Georgia is among 34 states, including Washington D.C., that use the single sales factor method (i.e., a 100-percent sales factor). This creates a destination-based corporate income tax system. Under this approach, corporations pay taxes based on the state in which their products are sold, not where production takes place. This rule applies to the sale of tangible property. When considering apportionment for services provided across state lines, Georgia employs a market-based sourcing rule. At the present, there is no consensus between the states on how to define a

"market" for the purpose of implementing this rule but, in general, it means that services will be taxed based on the state in which the customer receives the benefit. The rule is meant to apply a consistent destination-based treatment to services when compared to tangible goods.

## Corporate apportionment expenditures for which an estimate is not currently available

| Expenditure | Statute | Summary |
|---|---|---|
| 2.4.001 | N/A | Single-factor Apportionment |
| 2.4.002 | N/A | Throwback Rule |
| 2.4.003 | N/A | Corporate Receipts Sourcing |

## 2.5 Georgia Deductions and Exclusions

**2.5.003** Exclusion of global intangible low-taxed income (GILTI)

| | |
|---|---|
| Statute | §48-7-21 |
| Year Enacted | 2018 |
| Year Effective | 2018 |
| Data Source | Estimates of Federal Tax Expenditures for Fiscal Years 2025-2029, Joint Committee on Taxation, U.S. Congress |
| Estimate Reliability | Class B |
| Data Reliability | Class B |
| Note | |

**Description:** Global intangible low-taxed income is defined for the purpose of Federal taxation in Section 951A of the Internal Revenue Code of 1986 as excess returns realized by U.S. shareholders from controlled foreign corporations in low-tax areas outside of the United States. GILTI is includable in federal taxable income net of a 50 percent deduction in tax years 2018-25 and a 37.5 percent deduction thereafter. Georgia does not tax any portion of GILTI.

| | State Fiscal Years ($ in Millions) | | |
|---|---|---|---|
| | 2025 | 2026 | 2027 |

(m) Denotes a value of less than $1 million

## Corporate income tax expenditures for which an estimate is not currently available

| Expenditure | Statute | Summary |
|---|---|---|
| 2.5.001 | §48-7-21 | Interest on obligations of United States |
| 2.5.002 | §48-7-21 | Exception to intangible expenses and related interest cost |

## 2.6 Georgia Credits

**2.6.001** Georgia Job Tax Credit

| | |
|---|---|
| Statute | §48-7-40 and §48-7-40.1 |
| Year Enacted | §48-7-40: 1989; §48-7-40.1: 1993 |
| Year Effective | §48-7-40: Taxable years beginning on or after January 1, 1990; §48-7-40.1: Taxable years beginning on or after January 1, 1994. |
| Data Source | DOR data as of 2021 and Office of Insurance and Safety Fire Commissioner |
| Estimate Reliability | Class A |
| Data Reliability | Class A |
| Note | The same estimate is provided in the personal income tax and insurance premium tax sections, see 1.6.012 and 5.00200. In 2018, the qualifying areas were expanded to include counties with military bases and industrial parks that are owned and operated by a government entity. |

**Description:** The credit provides a statewide job tax credit to any business or headquarters engaged in manufacturing, warehousing and distribution, processing, telecommunications, broadcasting, tourism, or research and development. Retail establishments are only allowed the credit if located in one of the 40 least-developed counties of the state. Average wages must be greater than the average wage of the county in the state with the lowest average wage. To be eligible, employers must offer health insurance to all new employees. It also provides a tax credit for business enterprises designated as operating in less-developed areas. These include areas with ten or more contiguous census tracts with higher than 15 percent poverty and counties with both a military base and a government owned and operated industrial park.

| | State Fiscal Years ($ in Millions) | | |
|---|---|---|---|
| | 2025 | 2026 | 2027 |

| Insurance Premium Tax Expenditure | 3 | 3 | 3 |
| State Tax Expenditure | 197 | 200 | 203 |

(m) Denotes a value of less than $1 million. Numbers may not sum due to rounding

**2.6.002** Quality Jobs Tax Credit

| | |
|---|---|
| Statute | §48-7-40.17 |
| Year Enacted | 2009 |
| Year Effective | Taxable years beginning on or after January 1, 2009 |
| Data Source | DOR data as of TY 2022 |
| Estimate Reliability | Class A |
| Data Reliability | Class A |
| Note | This statute was modified in 2017 allowing taxpayers to establish subsequent job creation periods for a qualified project. The same estimate is provided in the personal income tax section, see 1.6.013. Estimate of this provision is higher than in previous reports because new data are available. |

**Description:** This credit is for employers creating new high-wage jobs or relocating

high-wage jobs into the state. A quality job or high-wage job has 30 hours a week of regular work; a job that is not already located in Georgia; and pays at or above 110 percent of the average wage of the county in which it is located.

| | State Fiscal Years ($ in Millions) | | |
|---|---|---|---|
| | 2025 | 2026 | 2027 |
| Income Tax Expenditure | 1 | 1 | 1 |
| Corporate Income Tax Expenditure | 127 | 139 | 142 |
| Insurance Premium Tax Expenditure | 0 | 0 | 0 |
| State Tax Expenditure | 128 | 140 | 143 |

(m) Denotes a value of less than $1 million. Numbers may not sum due to rounding

**2.6.003** New Facilities Jobs Credit

| | |
|---|---|
| Statute | §48-7-40.24 |
| Year Enacted | 2003 |
| Year Effective | Latest modifications are effective for taxable years beginning on or after July 1, 2021 |
| Data Source | Fiscal note for HB 587 LC 43 2010S for 2021 |
| Estimate Reliability | NA |
| Data Reliability | NA |
| Note | The same estimate is provided in the personal income tax section, see 1.6.014. |

**Description:** This provision provides for a credit of $5,250 per year per qualified new job for up to five years, subject to recapture based on job and payroll maintenance requirements, and until July 1, 2021, limited to 4,500 such new jobs for any one qualified project. For business enterprises that first qualify in a taxable year beginning on or after January 1, 2009, the business enterprise must meet the job creation requirement of 1,800 eligible new full-time employees and either the qualified investment requirement of $450 million in qualified investment property, or the payroll requirement of $150 million in total annual Georgia W-2 reported payroll within the six-year period, subject to extension under certain conditions.

(m) Denotes a value of less than $1 million.

**2.6.004** New Manufacturing Facilities Property Credit

| | |
|---|---|
| Statute | §48-7-40.24 |
| Year Enacted | 2003 |
| Year Effective | Latest modifications are effective for taxable years beginning on or after July 1, 2021 |
| Data Source | Fiscal note for HB 587 LC 43 2010S for 2021 |
| Estimate Reliability | NA |
| Data Reliability | NA |
| Note | Utilization of this credit resulting from known or anticipated projects is expected to be material, but not within the time horizon of this report; see fiscal note.<br>The same estimate is provided in the personal income tax section, see 1.6.015. |

**Description:** This is an incentive for a manufacturer who has operated a manufacturing

facility in this state for at least 3 years and who spends $800 million on a new manufacturing facility in this state, subject to a job requirement of 1,800 full-time employees. The credit equal to 6 percent of the cost of all qualified investment property purchased or acquired, up to $50 million with respect to any one project. For qualified high-impact aerospace defense projects certified on or after July 1, 2021, the maximum credit for any one project is increased to $100 million and the taxpayer may begin claiming credits once investment and job thresholds of $500 million and 1,000, respectively, are reached. For tax years on or after January 1, 2025, carryforwards are limited from fifteen to ten years.

(m) Denotes a value of less than $1 million. Numbers may not sum due to rounding

**2.6.018** Historic Rehabilitation Credit

| | |
|---|---|
| Statute | §48-7-29.8 |
| Year Enacted | 2002 |
| Year Effective | Taxable years beginning on or after January 1, 2004 |
| Data Source | DOR data as of TY 2024 and Fiscal Note for HB 469 LC 43 2035S (2021) |
| Estimate Reliability | Class B |
| Data Reliability | Class B |
| Note | The same estimate is provided in the personal income tax section, see 1.6.029. This provision expires December 31, 2030. |

**Description:** A credit is provided based on expenses related to the certified rehabilitation of a certified structure or historic home. Standards set by the Department of Community Affairs must be met. A $25 million per calendar year aggregate cap applies to projects earning more than $300,000 in credits. The credit was modified in 2015 to allow unused credits to be assigned or sold to other taxpayers. Further modifications in 2021 applied a $5 million per calendar year cap on smaller projects and added a sunset date for the credit of December 31, 2030.

**2.6.021** Land Conservation Credit

| | |
|---|---|
| Statute | §48-7-29.12 |
| Year Enacted | 2006 |
| Year Effective | Taxable years beginning on or after January 1, 2006 |
| Data Source | DOR data as of TY 2023 |
| Estimate Reliability | Class B |
| Data Reliability | Class A |
| Note | The same estimate is provided in the personal income tax section, see 1.6.032. |

**Description:** This provides for an income tax credit for the qualified donation of real property that qualifies as conservation land pursuant to Chapter 22 of O.C.G.A. Title 36. This credit was modified in 2015 such that the aggregate value of credits awarded under this provision cannot exceed $30 million per year and no new credit applications will be accepted after December 31, 2026. For taxable years beginning on or after 2025, any credits generated but not used may be carried forward for five years. Now new applications accepted after December 31, 2026.

**2.6.035** Revitalization Zone Tax Credit

| | |
|---|---|
| Statute | §48-7-40.32 |
| Year Enacted | 2017 |
| Year Effective | Taxable years beginning on or after January 1, 2018. |
| Data Source | DOR data for 2021 |
| Estimate Reliability | Class B |
| Data Reliability | Class A |
| Note | The same estimate is provided in the personal income section, see 1.6.046. |

**Description:** This income tax credit is to promote the revitalization of vacant rural Georgia downtowns. The statute includes three credits. The first allows certified entities to claim an annual tax credit for five consecutive years of $2,000 per qualified employee but not to exceed $40,000 per taxable year for any taxpayer. The second provides for a credit equal to 25 percent of the purchase price of qualified property up to an amount equal to $125,000 per project. The third provides for a tax credit of 30 percent of qualified rehabilitation expenses but not to exceed $150,000 per project. For tax years beginning on or after January 1, 2024 carry forwards are limited from five to three years. For tax years beginning on or after January 1, 2024 carry forwards are limited from five to three years.

**2.6.040** Reforestation credit for losses incurred on commercial timberland due to hurricane damage

| | |
|---|---|
| Statute | §48-7-40.36 |
| Year Enacted | 2018 |
| Year Effective | 2018 |
| Data Source | Fiscal Note for HB 223S LC 50 1215-ECS (2025) and DOR data as of TY 2023 |
| Estimate Reliability | Class B |
| Data Reliability | Class A |
| Note | The same estimate is provided in the personal income tax, see section 1.6.051. |

**Description:** Provides for a credit for casualty losses incurred on commercial timberland due to damage attributed to Hurricane Helene in the fall of 2024, subject to replanting requirements as described below. The amount of the credit is equal to 100 percent of the casualty loss deduction reported on the taxpayer's federal return, provided that the credit amount does not exceed $550 per acre. Taxpayers must seek preapproval for the credit on or before December 31, 2025. Taxpayers are eligible to claim the credit in the taxable year in which the taxpayer replants 90 percent of the timber lost in the hurricane. All tax credits must be claimed by December 31, 2024. Credits

can be sold once prior to January 1, 2024. Credits claimed are nonrefundable, but can be carried forward for up to 10 years. The total amount of credits preapproved may not exceed $200 million.

**2.6.041** Qualified Post-Production Expenditures Credit

| | |
|---|---|
| Statute | 48-7-40.26A |
| Year Enacted | 2017 |
| Year Effective | 2018 |
| Data Source | DOR data as of TY 2023 |
| Estimate Reliability | Class A |
| Data Reliability | Class A |
| Note | The same estimate is provided in the personal income tax, see section 1.6.052. |

**Description:** Postproduction companies with at least $500,000 in qualified postproduction expenditures per year will be eligible for a credit equal to 20 percent of the qualified postproduction expenditures. An additional 10 percent credit is allowed if the qualified production expenditures were incurred in the state. An additional 5 percent credit is allowed if the qualified production expenditures were incurred in a tier 1 or tier 2 county. The value of credits awarded is limited to a maximum of $10 million for 2018 through 2022. If in any year the aggregate amount of credits allowable is not awarded, the remaining credits will be rolled in the allowable credits for the following year. Postproduction companies with expenditures between $100,000 and $500,000 per year are eligible for a separate credit equal to 20 percent of the qualified postproduction expenditures. Aggregate annual claims on this credit are limited to $1 million. The $1 million small company credit limit does not count against the credit limit for the large company credit discussed above. No credits shall be earned in years after 2022. HB 129 resumes postproduction expenditure tax credit beginning January 1, 2026 and before January 1, 2031.

## Corporate income tax expenditures for which an estimate is not currently available

| Expenditure | Statute | Summary |
|---|---|---|
| 2.6.027 | §48-7-40.29 | Energy-efficient or water-efficient equipment credit |

## 3. Corporate Net Worth Tax

Georgia imposes a tax on the net worth of corporations doing business or owning property in the state. The net worth of foreign corporations subject to the Georgia tax is based upon the ratio of assets in Georgia and gross receipts in Georgia to total assets and gross receipts. The tax is graduated based upon the corporation's taxable net worth. Corporations with less than $100,000 of net worth are not subject to the tax.

The tax is administered by the Georgia DOR. Revenues from this tax totaled $68.9 million in FY 2024. All revenues from this tax are deposited into the State General Fund.

**3.003** Exemption for corporations with net worth of $100,000 or less

(m) Denotes a value of less than $1 million

## Corporate net worth tax expenditures for which an estimate is not currently available

| Expenditure | Statute | Summary |
|---|---|---|
| 3.001 | §48-13-72 | Exemption for nonprofit corporations |
| 3.002 | §48-13-72 | Exemption for insurance companies separately taxed |

## 4. Sales and Use Tax

The sales and use tax was first enacted in Georgia in 1951 at a rate of 3 percent. The rate was increased to its current rate of 4 percent in 1989. The sales tax base consists of retail sales, leases, rentals, use or consumption of tangible personal property. Under legislation enacted in 2023 and effective July 1, 2023, the tax base now includes the purchase of certain digital products.

In addition to the state sales tax, local governments are authorized to impose an assortment of local option sales taxes. In most counties, the local sales taxes imposed consist of a combination of a Local Option Sales Tax (LOST), Special Purpose Local Option Sales Tax (SPLOST) and/or an Educational Special Purpose Local Option Sales Tax (E-SPLOST) with tax rates of 1 percent for each. Starting July 1, 2023, qualified consolidated governments were authorized to impose a dedicated C-SPLOST to fund coliseum projects. The following table summarizes the local options sales taxes, their rates and areas that have them currently enacted.

| Description of Local Lax | Covered Areas | Tax Rate Imposed |
|---|---|---|
| Local Option Sales Tax (LOST) | 155 Counties | 1 percent |
| Special Purpose Local Option Sales Tax (SPLOST) | 155 Counties | 1 percent |
| Educational Special Purpose Local Option Sales Tax (E-SPLOST) | 158 Counties | 1 percent |

| Coliseum Special Purpose Local Option sales Tax (C-SPLOST) | Augusta | 0.5 percent |

In general, the local tax base is consistent with the state sales tax base, which is defined to include mainly tangible personal property. The major exception is food for home consumption, which is included in the local sales tax base, but is exempted from the state tax. Services, with a few exceptions, are generally excluded from both the state and the local tax base. This report provides estimates of some services that are implicitly exempt from the sales tax by virtue of not being tangible personal property. Lastly, this report categorizes each sales tax expenditure by type to allow the reader to distinguish between tax expenditures, such as those for business inputs, that are provided for reasons of reducing economic distortions from those provided on the basis of more societal reasons.

The tax is administered by the Georgia DOR. The sales tax is remitted to the Georgia DOR by the retailer and the use tax is remitted by the consumer in cases where the retailer does not collect and remit sales tax. In FY 2024, the state sales and use tax generated $9.0 billion in state

revenues and accounted for approximately 27.2 percent of total state tax revenues. All proceeds from the state sales and use tax, net of vendor compensation, are deposited into the State General Fund.

## 4.0-4.3 Sales and Use Tax Exemptions

**4.00400** Sales of transportation furnished by a county or municipal public transit system or public transit authorities

| | |
|---|---|
| Statute | §48-8-3(4) |
| Year Enacted | 1968 |
| Year Effective | 1968 |
| Data Source | National Transit Database |
| Estimate Reliability | Class B |
| Data Reliability | Class A |
| Note | Estimate combined with 4.00500 |

**Description:** Sales by counties and municipalities arising out of their operation of any public transit facility and sales by public transit authorities or charges by counties, municipalities, or public transit authorities for the transportation of passengers upon their conveyances.

## Sales and Use Tax expenditures for which an estimate is not currently available

| Expenditure | Expenditure | Expenditure |
|---|---|---|
| 4.00100 | §48-8-3(1) | Sales to Federal Government, State of Georgia or a county or municipality in Georgia or any agency of such governments |
| 4.00200 | §48-8-3(2) | Tangible personal property furnished by the Federal Government or any county or municipality used by a contractor in the installation, repair, or extension of any public water, gas, or sewer system |
| 4.00300 | §48-8-3(3) | Federal retailer's excise tax if separately itemized to the consumer and Georgia motor fuel tax imposed on the sale of motor fuel |
| 4.01800 | §48-8-3(18) | Charges for transportation of tangible personal property made in connection with interstate or intrastate transportation |
| 4.01900 | §48-8-3(19) | All tangible personal property purchased outside this state by a nonresident when the property is brought into Georgia upon the nonresident becoming a resident |
| 4.02100 | §48-8-3(21) | Sales, transfers or exchanges of tangible personal property resulting from business reorganization when the owners, partners, or stockholders maintain the same proportionate interest or share in the newly formed business |
| 4.03100 | §48-8-3(31) | Sale of tangible personal property manufactured or assembled in Georgia for export when delivery is taken outside of Georgia |
| 4.03200 | §48-8-3(32) | Aircraft, watercraft, motor vehicles, and other transportation equipment manufactured or assembled in this State for exclusive use outside Georgia |
| 4.03300 | §48-8-3(33) | The sale of aircraft, watercraft, railroad locomotives and rolling stock, motor vehicles which will be used principally to cross the state line to transport persons or cargo when purchased by common or common and contract carriers |
| 4.03410 | §48-8-3(34.1) | Machinery and equipment used to handle, move, or store tangible personal property in certain distribution facilities |
| 4.03610 | §48-8-3(36.1) | Machinery and equipment used for water conservation and incorporated into a qualified water conservation facility |
| 4.03910 | §48-8-3(39.1) | Cargo containers and related chassis used for storage or shipping by persons engaged in international shipment of tangible personal property |
| 4.04200 | §48-8-3(42) | Use or lease of tangible personal property when the lessor and lessee are under 100 percent common ownership and where the person who furnishes, leases, or rents the property has paid sales or use tax on the property |
| 4.04400 | §48-8-3(44) | Sale of motor vehicles to nonresident purchasers when vehicles are immediately removed from Georgia and titled in another state |

## Sales and Use Tax expenditures for which an estimate is not currently available

| Expenditure | Expenditure | Expenditure |
|---|---|---|
| 4.04500 | §48-8-3(45) | The sale or use of paper stock when used to print catalogs for distribution outside Georgia |
| 4.06100 | §48-8-3(61) | Advertising inserts that are used in newspapers for resale |
| 4.09100 | §48-8-3(91) | The sale of prewritten software which has been delivered to the purchaser electronically or by means of load and leave |
| 4.3.6 | §36-88-3(8.1) | Exemption for sales within an enterprise zone |

## 5. Insurance Premium Tax

The premium tax is imposed upon gross direct premiums received by insurers doing business in the state to insure persons, property, or risks in Georgia. The state tax rate is imposed at a rate of 2.25 percent of gross direct premiums, though the rate is reduced to 1.25 percent for insurers holding at least 25 percent of their total assets, exclusive of direct obligations of the United States, in specified classes of Georgia assets. For insurers holding 75 percent of such total assets in Georgia, the rate is reduced further to 0.5 percent.

Counties levy a tax at 1 percent on gross direct premiums of life insurance companies for policies covering persons residing in unincorporated areas of the county, except that the county tax shall not apply to life insurers that qualify for the abatement of the state tax for firms with 75 percent Georgia assets. Municipalities may levy a tax of up to 1 percent on life policies covering persons residing in the given municipality. Counties and municipalities may levy rates of up to 2.5 percent on gross direct premiums for policies other than life insurance policies.

This tax is administered by the State Insurance Commissioner. In FY 2024, state revenues from this tax equaled $768 million and local revenues equaled $842 million. The state proceeds from the tax are deposited into the State General Fund.

**5.00100** Deduction of retaliatory taxes paid to other states

| | |
|---|---|
| Statute | §33-8-7 |
| Year Enacted | 1960 |

**5.00200** Georgia Job Tax Credit

| | |
|---|---|
| Statute | §33-8-4.1 |
| Year Enacted | 1960 |
| Year Effective | 2000 |
| Data Source | DOR data as of 2021 and Office of Insurance and Safety Fire Commissioner |
| Estimate Reliability | Class A |
| Data Reliability | Class A |
| Note | The same estimate is provided in the corporate and personal Income tax sections, see 1.6.012 and 2.6.001. In 2018, the qualifying areas were expanded to include counties with |

military bases and industrial parks that are owned and operated by a government entity.

**Description:** The credit provides a statewide job tax credit to any business or headquarters engaged in manufacturing, warehousing and distribution, processing, telecommunications, broadcasting, tourism, or research and development. Retail establishments are only allowed the credit if located in one of the 40 least-developed counties of the state. Average wages must be greater than the average wage of the county in the state with the lowest average wage. To be eligible, employers must offer health insurance to all new employees. It also provides a tax credit for businesses enterprises designated as operating in less-developed areas. These include areas with ten or more contiguous census tracts with higher than 15 percent poverty and counties with both a military base and a government owned and operated industrial park.

## 6. Motor Fuel Tax

The tax on motor fuels was substantially modified in 2015. Under the new law, tax rates are adjusted annually for inflation and for the change in average fuel economy of new vehicles registered in the state in the prior year from the year before. The base of the motor fuel tax is imposed on any source of energy that can be used for propulsion of a motor vehicle on the public highways, including, but not limited to gasoline, fuel oils, compressed petroleum gas, and special fuels. The rates as of January 1, 2025 are as follows:

| Description | Tax Rate |
|---|---|
| Motor Fuels, other than diesel and aviation gasoline | 33.1 cents per gallon |
| Diesel fuel | 37.1 cents per gallon |
| Aviation gasoline | 1 cent per gallon |

Legislation passed in 2023 added electricity and hydrogen to taxable motor fuels. The gallon equivalent for electricity was set at not more than 11 kilowatt-hours and for hydrogen not less than 2.2 pounds.

The tax is administered by the Georgia DOR and revenues generated from this tax are allocated by the state constitution to the Georgia Department of Transportation for highway purposes. State motor fuel tax revenues for FY 2024 totaled $1.76 billion.

## 7. Alcoholic Beverage Tax

This state and local tax is imposed on alcoholic beverages including malt beverages, wine, and distilled spirits. The following tables outline the state and local rates applied to various alcoholic beverages.

**State Tax Rates**

| Description of Tax | Tax Rate * |
|---|---|
| Malt beverages sold in bulk | $10 per container up to 31 gallons |
| Bottled and canned malt beverages | 4 ½ cents per 12 ounces |
| Table wines produced in Georgia | 11 cents per liter |
| Table wines produced outside of Georgia and imported into the state | 11 cents per liter and an additional state import tax of 29 cents per liter |
| Distilled spirits produced in Georgia | 50 cents per liter |
| Distilled spirits produced outside of Georgia and imported into the state | 50 cents per liter and an additional state import tax of 50 center per liter |
| Alcohol produced in Georgia ** | 70 cents per liter |
| Alcohol produced outside of Georgia and imported into the state ** | 70 cents per liter and an additional state import tax of 70 cents per liter |

*Proportionate tax is applied on fractional parts in excess of the volumes noted.
**Alcohol is defined to mean ethyl alcohol greater than 190 proof intended for use as a beverage, including grain alcohol and spirits of wine.

**Local Tax Rates**

| Description of Tax | Tax Rate * |
|---|---|
| Bottled and canned malt beverages | 5 cents per 12 ounces |
| Tap or draft malt beverages | $6 per containers up to 15 ½ gallons |
| Wine | An excise tax not to exceed 22 cents per liter may be levied |
| Distilled spirits | An excise tax not to exceed 22 cents per liter may be levied |
| Mixed drinks | An excise tax not to exceed 3 percent of the price charged for mixed drinks may be levied |

*Proportionate tax is applied on fractional parts in excess of the volumes noted, where applicable.

The state portion of the tax is administered by the Georgia DOR. Proceeds from the state tax are deposited into the State General Fund. In FY 2024, state collections equaled $223 million. Local collections for FY 2022[3] equaled $182 million.

## 8. Tobacco Products Excise Tax

This tax is levied upon the sale, receipt, purchase, possession, consumption, handling, distribution, or use of tobacco, cigars, and cigarettes in Georgia. The tax is imposed at a rate of 37 cents per pack of 20 cigarettes and a like rate, pro rata, for other sized packages. Little cigars, weighing not more than three pounds per thousand are taxed at a rate of 2.5 mills each ($2.50 per 1000). All other cigars are taxed at 23 percent of the wholesale cost price, exclusive of any trade, cash, of other discounts or any promotion, advertising, display or other similar allowances. Loose or smokeless tobacco is taxed at a rate of 10 percent of the wholesale cost price.

Under legislation enacted in 2020, excise taxes are also levied on consumable vapor products beginning January 1, 2021. The tax is imposed at a rate of 5 cents per fluid milliliter for consumable vapor products in a closed system and 7 percent of the wholesale cost price for other consumable vapor products and devices.

The tax is administered by the Georgia DOR. In FY 2024, the tax totaled $223 million. The proceeds of the tax are deposited into the State General Fund.

| 8.00400 | §48-11-3 | Certain cigars and cigarettes held by licensed dealers |

## 9. Financial Institutions Special State Occupation Tax

This is a special state occupation tax imposed on the adjusted gross receipts of each depository financial institution that does business or owns property in the state. The state tax rate is levied at a rate of 0.25 percent. In addition to the state tax, counties and municipalities may levy a rate not to exceed 0.25 percent of gross receipts. Any amount paid under the special state occupation tax by a financial institution reduces the institution's state income tax liability by an equal amount.

The tax is administered by the Georgia DOR. The revenues from this tax in FY 2024 equaled $38 million. The proceeds of the tax are deposited into the State General Fund.

| 9.00200 | §48-6-95 | Deduction for income from authorized activities of a domestic international banking facility |
| 9.00300 | §48-6-95 | Deduction for income from banking business with persons or entities outside the U.S. |

## 10. Special Assessment of Forest Land Conservation Use Property

Real property devoted to qualified conservation use is assessed at 40 percent of its current use value. This tax treatment is designed to reduce the property tax burden on landowners in an effort to discourage the conversion of land to residential or commercial use. The property must be maintained in a qualifying conservation use for a period of 10 years. Because the state offsets the loss of local government property tax revenue stemming from this exemption, this exemption represents a reduction in state tax revenues.

**10.00000** Special assessment of forest land conservation use property

## 11. Alternative Ad Valorem Tax on Motor Vehicles

As of March 1, 2013, motor vehicles titled in Georgia are subject to a title ad valorem tax, referred to as the TAVT or Motor Vehicle Title Fee. This legislation was passed in the 2012 session of the General Assembly and was substantially amended in the 2013 session. As part of the legislation, sales and use tax on the sale of motor vehicles was eliminated for purchases or leases occurring on or after March 1, 2013.

The tax base is the fair market value, at the time of titling, of new and used motor vehicles registered and titled in the state, including casual sales, dealer sales, leased vehicles, rental and salvage vehicles, and vehicles being brought into the state by people relocating to Georgia. For dealer sales, the tax base is reduced by the value of the purchaser's trade-in vehicle, if any. For dealer sales of new vehicles, the tax base is also reduced by the amounts of dealer rebates and cash discounts, if any. For most transactions occurring on or after January 1, 2020, the fair market value is equal to the retail selling price.

The statutory TAVT rate from January 1, 2020, through June 30, 2023, was 6.6 percent. The current statutory rate is 7.0 percent. The revenue from the tax is shared between the state and local governments as specified by law; beginning July 1, 2019, the state and local shares are 35 percent and 65 percent, respectively.

The tax is administered by the Georgia DOR but collected at the local level. All proceeds from the state portion of the TAVT are deposited into the State General Fund. The TAVT generated $827 million in state receipts for FY 2024 and $1.525 billion for local governments.

**11.001** Reduced rate for related family transfers

## Title ad valorem tax expenditures for which an estimate is not currently available

| Expenditure | Statute | Summary |
|---|---|---|
| 11.013 | §48-5C-1 | Exemption for leased vehicles qualifying for Manufacturing Headquarters |

## 12. Special Excise Tax on Consumer Fireworks

An excise tax of 5 percent is levied on gross receipts from the retail sale of fireworks, in addition to any state and local taxes otherwise imposed by law. This tax was enacted in 2015, effective for sales on or after July 1, 2015. The tax is administered by the Georgia DOR and the proceeds from this excise tax are deposited into the State General Fund. The consumer fireworks tax generated $2.68 million in state receipts for FY 2024.

## 13. State Hotel-Motel Tax

An excise tax of $5.00 per day is levied on each room rented or leased. This tax was enacted in 2015 and became effective on July 1, 2015. The tax is administered by the Georgia DOR. Although collections from this tax are deposited into the State General Fund, they must be appropriated exclusively for transportation purposes. The state hotel-motel tax generated $204 million in state receipts for FY 2024.

## 14. For-Hire Ground Transport Excise Tax

An excise tax is imposed on for hire ground transport trips (50 cents per trip) and shared for hire ground transport trips (25 cents per trip). The per-trip amount of the tax is to be adjusted annually for inflation using the Consumer Price Index for All Urban Consumers rate published by the U.S. Bureau of Labor Statistics. The tax was enacted in 2020 and produced $38 million in state receipts for FY 2024.

| 4.3.6 | Exemption for sales within an enterprise zone | Estimate not available at this time | | |
| 4.70000 | Compensation of dealers for reporting and paying tax | 138 | 144 | 147 |

[9] Sales tax exemptions which are specifically defined by the seller.

**Tables 3-9: Distributional Tables of Selected Provisions**

Tables 3 through 9 provide information on the distribution across Georgia AGI for selected exemptions and deductions from the state personal income tax. The data used to produce the tables are from the state personal income tax files for 2022. It has not been adjusted for inflation, nor does it reflect any legislative changes that may have occurred since 202. Column 1 of each table provides the categories of Georgia AGI. Column 2 (Number of Returns) provides the number of returns for each AGI category. Column 3 (Average Value) gives the average value of the tax exemption or deduction taken by filers in each AGI category. Column 4 (Total) provides the total value of the deduction or exemption associated with each AGI category and column 5 (Percent of Total) provides the percent of the total value of the deduction or exemption that falls into that AGI category.

**Table 3: Total Personal Exemptions**

| | Number of Returns | Average Value | Total | Percent of Total Dollars |
|---|---|---|---|---|
| GA AGI ≤ 0 | $385,854 | $4,811 | $1,856,510,600 | 7% |
| 0 <GA AGI ≤$25,000 | 1,261,630 | 4,838 | 6,103,854,900 | 22% |
| $25,000 <GA AGI ≤$50,000 | $1,015,125 | $5,630 | $5,715,277,200 | 21% |
| $50,000 <GA AGI ≤$100,000 | $924,062 | $6,407 | $5,920,349,000 | 22% |
| $100,000 <GA AGI ≤$500,000 | $812,990 | $9,056 | $7,362,139,000 | 27% |
| $500,000 <GA AGI ≤$1,000,000 | $37,194 | $10,326 | $384,078,200 | 1% |
| GA AGI >$1,000,000 | $14,075 | $9,930 | $139,766,300 | 1% |
| Total | $4,450,930 | $6,174 | $27,481,975,200 | |

The percent of total column may not sum to 100 percent due to rounding.

**Table 4: Retirement Income Exclusion**

| | Number of Returns | Average Value | Total | Percent of Total Dollars |
|---|---|---|---|---|
| GA AGI ≤ 0 | $322,633 | $25,372 | $8,185,991,726 | 35% |
| 0 <GA AGI ≤$25,000 | 202,712 | 25,310 | 5,130,542,138 | 22% |

## APPENDIX B – TAX CREDIT HISTORY

TABLE

B-1 Outline of Tax Credit History by Year of Enactment....57

# 1. INTRODUCTION

This study examines tax credits that may be applied to reduce taxpayer's tax liability including Hawai'i's net income taxes, the tax on insurance premiums, or the tax on public utilities. Tax credits are subtracted directly from the tax liability, so they reduce the amount of taxes dollar-for-dollar. This makes them more valuable to taxpayers than ordinary deductions, which reduce the amount of income against which tax is applied. Tax credits may be refundable or nonrefundable. If a tax credit is nonrefundable, it can provide a tax benefit only to the extent that the taxpayer has a tax liability.[1] In contrast, the taxpayer is ensured of receiving the full amount of a refundable tax credit in the year it is claimed. If the tax credit exceeds the tax liability, the taxpayer is compensated for the difference.

The study reports the value of tax credits that either reduced a tax liability or that were refunded to taxpayers in tax year 2023. The study does not include the value of tax credits that were claimed if the tax credits were denied or carried over to a future year.

The tax returns examined for this study were those filed for tax year 2023 and processed by March 31, 2025. The tax year is the same as the calendar year for most taxpayers, but for taxpayers that have a fiscal year that differs from the calendar year, tax year 2023 is the fiscal year ending in calendar year 2023.

Hawai'i's first tax credit was established in 1957 to avoid double taxation of income. Since then, numerous tax credits have been enacted. Most of them are designed to promote social welfare or to encourage certain industries or economic activities. There are a total of 22 active tax credits in 2023.[2] There were also 7 expired tax credits for which excess credits from prior years could be carried over into tax year 2023.[3]

The Department of Taxation ("Department") has prepared studies on tax credits for tax years 1965, 1970, 1977 through 2005, and 2011 through 2023 (the present study).[4] The studies on tax credits produced for tax years before 1986 included only tax credits claimed by individuals. The studies for tax years after 1986 were expanded to include tax credits claimed by businesses, fiduciaries (trusts and estates), and exempt organizations, as well as the lifeline telephone service tax credit. The present study examines the following active and expired tax credits:

---

[1] For most nonrefundable tax credits, the unused credits can be carried forward to future years, so the full value of the tax credit is usually realized eventually.

[2] The study does not include the tax credit from a regulated investment company or the credit for taxes withheld on the sale of Hawai'i real property. These are not proper tax credits but are instead deductions from income tax that account for Hawai'i income taxes already paid, similar to the deduction for taxes that were withheld on wages.

[3] The count of expired tax credits does not include the renewable energy technologies income tax credit for systems installed prior to July 1, 2009.

[4] Work on the studies was discontinued in 2009 owing to budgetary cutbacks. The study on tax credits for tax year 2011 was the first one produced since December 2007, when the study for tax year 2005 was published.

**Active Tax Credits**

*Tax Credits to Promote Social Welfare*

- Refundable Food/Excise Tax Credit
- Tax Credit for Low-Income Household Renters
- Tax Credit for Child and Dependent Care Expenses
- Tax Credit for Child Passenger Restraint Systems
- Tax Credit for Employment of Vocational Rehabilitation Referrals
- Low-Income Housing Tax Credit
- Tax Credit for School Repair and Maintenance
- Earned Income Tax Credit
- Lifeline Telephone Service Tax Credit

*Tax Credits to Encourage Certain Industries or Economic Activities*

- Fuel Tax Credit for Commercial Fishers
- Motion Picture, Digital Media, and Film Production Income Tax Credit
- Renewable Energy Technologies Income Tax Credit
- Enterprise Zone Tax Credit
- Important Agricultural Land Qualified Agricultural Cost Tax Credit
- Tax Credit for Research Activities
- Renewable Fuels Production Tax Credit
- Healthcare Preceptor Income Tax Credit
- Historic Preservation Income Tax Credit

*Tax Credits to Avoid Double Taxation or Pyramiding of Taxes*

- Capital Goods Excise Tax Credit
- Income Tax Paid to Another State or Foreign Country
- Pass-Through Entity (PTE) Tax Credit

**Expired Tax Credits**

*Tax Credits to Encourage Certain Industries or Economic Activities*

- High Technology Business Investment Tax Credit
- Energy Conservation Tax Credit
- Hotel Construction and Remodeling Tax Credit
- Technology Infrastructure Renovation Tax Credit
- Residential Construction and Remodeling Tax Credit
- Capital Infrastructure Tax Credit
- Cesspool Upgrade, Conversion or Connection Income Tax Credit
- Organic Foods Production Tax Credit

## 2. DATA SOURCE AND METHODOLOGY

The primary data source for the study is the GenTax program of the Department's Tax System Modernization (TSM). The data are from individual income tax returns (Forms N-11 and N-15), corporate income tax returns (Form N-30), fiduciary (estates and trusts) income tax returns (Form N-40), and exempt organization income tax returns (Form N-70NP). In addition, data from franchise tax returns (Form F-1) that are filed by banks and other financial corporations, including building and loan associations, financial services and loan companies, and small investment companies are utilized. The data include all tax returns that were filed for tax year 2023 and processed by March 31, 2025, with a query run in April 2025. Some tax credits are reported directly on the tax returns, but most are reported on Schedules CR, "Schedule of Tax Credits." The tax credits reported on Schedules CR are summed and only the total is reported on the income tax returns. Therefore, the data on tax credits were obtained from tax returns in conjunction with Schedules CR, wherever applicable. The data on tax credits are before any adjustments by subsequent audits but they include the automatic adjustments the Department made when processing the tax returns.

Data on the lifeline telephone tax credit were obtained from the Public Utilities Commission, and data on tax credits claimed by insurance companies were provided by the Insurance Division of the Department of Commerce and Consumer Affairs, which administers the tax on insurance premiums. The tax forms used for the study and their instructions are available on the Department's website at *tax.hawaii.gov*.

To maintain taxpayer confidentiality, the Department does not disclose tabulations containing data for 5 or fewer returns at the state level, 10 or fewer returns below the state level, and when an individual return represents a large percentage in a tabulation.

The data for the study come from 794,350 tax returns that were filed for tax year 2023. Table 1 shows the total number of each type of tax return examined for the study. Resident individual taxpayers filed the largest number of returns with 644,374. The second largest number is for nonresident individuals with 110,164, followed by nonfinancial corporations (20,021) and fiduciaries (17,620).

**Table 1**
**Number of Tax Returns by Type of Taxpayer**
**for Tax Year 2023**

| Type of Taxpayer | Tax Form | Number of Returns |
|---|---|---|
| Individual - Resident | Form N-11 | 644,374 |
| Individual - Nonresident / Part-Year Resident | Form N-15 | 110,164 |
| Nonfinancial Corporation | Form N-30 | 20,021 |
| Financial Corporation | Form F-1 | 273 |
| Fiduciary | Form N-40 | 17,620 |
| Exempt Organization | Form N-70NP | 797 |
| Insurance Underwriter* | Form 314 | 1,101 |
| TOTAL | | 794,350 |

* Data supplied by the Insurance Division of the Department of Commerce and Consumer Affairs.

Table 2 shows the number of returns by income class and by taxation district for individual income tax returns (Forms N-11 and N-15).[5] The State has four taxation districts: District 1 is the City and County of Honolulu (Oʻahu), District 2 consists of Maui County, District 3 is Hawaiʻi County and District 4 is Kauaʻi County. The table also shows the number of individual income tax returns by income class. For residents (who file Form N-11), the income class is determined by the Hawaiʻi Adjusted Gross Income (Hawaiʻi AGI). For part-year residents and nonresidents (who file Form N-15), the income class is determined by total AGI, which is the taxpayer's global adjusted gross income as it would be defined if the taxpayer had been a Hawaiʻi resident for the full tax year.

[5] District breakdowns for tax returns from businesses should be interpreted with caution because the location is determined by the taxpayer's mailing address. Many businesses with operations throughout the State are headquartered on Oʻahu and use an Oʻahu mailing address. Moreover, nonresident businesses with out-of-state addresses are attributed to Oʻahu. Therefore, county breakdowns for business tax returns are not shown.

## Table 2
## Total Number of Individual Income Tax Returns for Tax Year 2023 by Income Class and by Tax District

**By Income Class***

| Hawai‘i AGI* | Forms N – 11 | Forms N - 15 | All Individual Returns |
|---|---|---|---|
| Less than $10,000 | 123,887 | 12,838 | 136,725 |
| $10,000 to $29,999 | 120,079 | 15,007 | 135,086 |
| $30,000 to $59,999 | 158,587 | 16,663 | 175,250 |
| $60,000 to $99,999 | 109,027 | 14,263 | 123,290 |
| $100,000 to $199,999 | 95,897 | 18,309 | 114,206 |
| $200,000 or more | 36,897 | 33,084 | 69,981 |
| Total | 644,374 | 110,164 | 754,538 |

**By Tax District****

| Tax District | Forms N – 11 | Forms N - 15 | All Individual Returns |
|---|---|---|---|
| O‘ahu (District 1) | 444,412 | 105,157 | 549,569 |
| Maui (District 2) | 76,644 | 1,816 | 78,460 |
| Hawai‘i (District 3) | 88,858 | 2,377 | 91,235 |
| Kaua‘i (District 4 | 34,460 | 814 | 35,274 |
| Total | 644,374 | 110,164 | 754,538 |

* For Form N-15, the income is the taxpayer's global adjusted gross income as defined for Hawai‘i income tax purposes.

** Returns that have an out-of-state address are allocated to O‘ahu.

## 3. OVERVIEW AND SUMMARY OF RESULTS

In tax year 2023, a total of $621.3 million was claimed in tax credits, up from $443.9 million claimed for tax year 2022, a 40% increase mainly driven by the introduction of the pass-through entity (PTE) tax credit and the expansion of EITC, child/ dependent care expenses and food/exercise tax credit (see Act 50 and Act 163, SLH 2023 in Appendix Table B-1).

Figure 1 shows the breakdown by type of taxpayer for tax credits claimed in tax year 2023. The largest dollar value of tax credits was claimed against individual income tax liabilities. Such claims added up to $429.7 million, or 69.2% of the total claims for tax credits, up 75.1% from $245.3 million claimed for tax year 2022. Claims against income tax liabilities of nonfinancial corporations were the second largest category, amounting to $117.5 million, or 18.9% of the total claims for tax credits, down 13.8% from $136.3 million claimed for tax year 2022. The third largest tax credit claims were from Insurance Underwriters, which totaled $32.8 million, or 5.3% of the total claims, up 9% from $30.0 million claimed for tax year 2022.

**Figure 1**
**Distribution of Tax Credit Amounts by Taxpayer Type in Tax Year 2023 (Dollar amounts are in $ millions)**

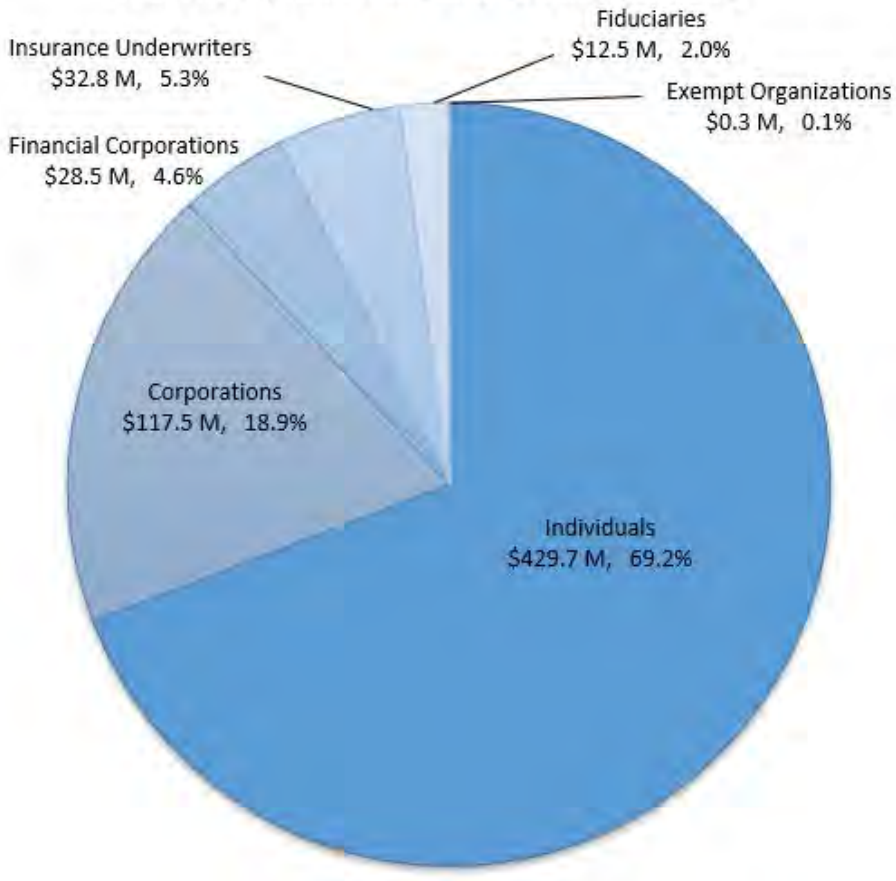

Figure 2 shows the amount of tax credits as a proportion of total tax liability by taxpayer type in tax year 2023.[6] Financial Corporations had the largest percentage of tax credits against their tax liability, with 47.5% of their tax liability written off by tax credit claims, up from 40.6% in 2022. The second largest percentage reduction of tax liability was Corporations with 40.3% of their tax liability reduced by tax credit claims, down from 44.3% for tax year 2022. Individuals had the smallest percentage tax reduction due to tax credits (13.3% of their tax liability), followed by Insurance Underwriters with 13.4% of their tax liability reduced by tax credit claims.

**Figure 2**
**Amount of Tax Credits as a Proportion of Total Tax Liability by Taxpayer Type in Tax Year 2023**

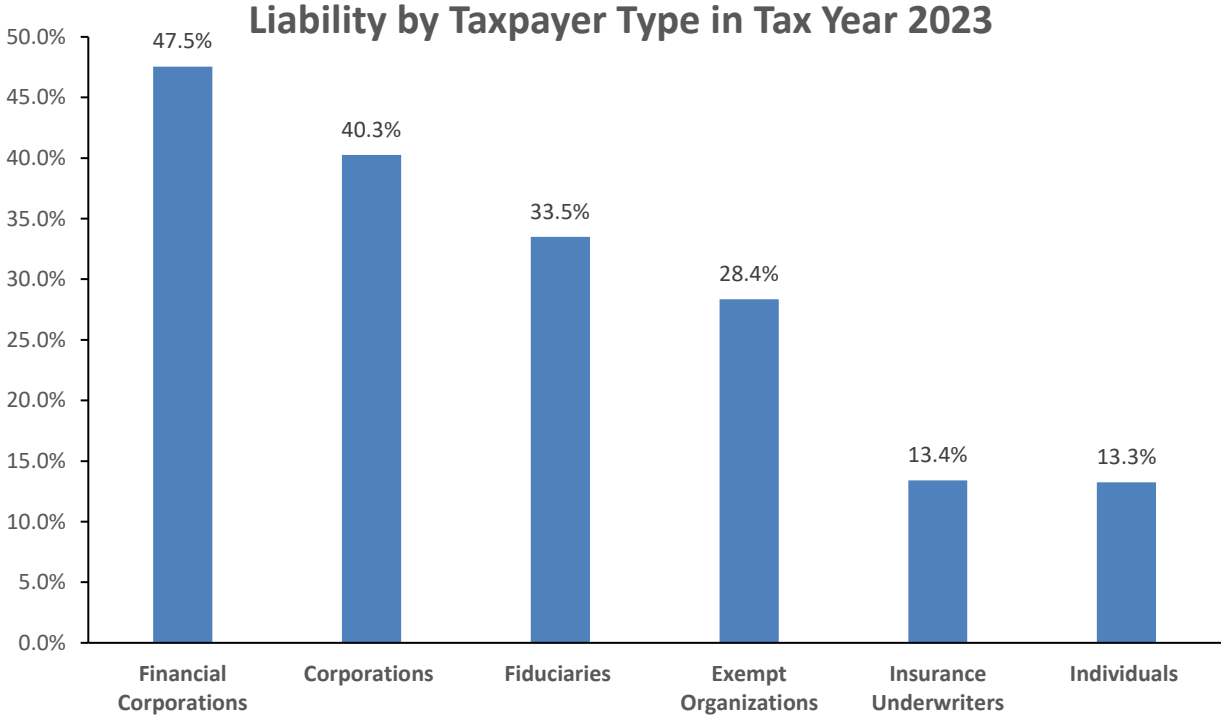

Figure 3 shows the amount of tax credits claimed by individuals as a proportion of their total tax liability by income class in tax year 2023. The amount of tax credits claimed by individual taxpayers with Hawai'i AGI of less than $10,000 was 844.6% of their aggregate tax liability before tax credits in 2023, up from 269.8% for tax year 2022. Taxpayers with Hawai'i AGI of $10,000 to $29,999 claimed 96.9% of tax credits against their tax liability, while taxpayers with Hawai'i AGI of $60,000 to $99,999 claimed the smallest (2.3%).

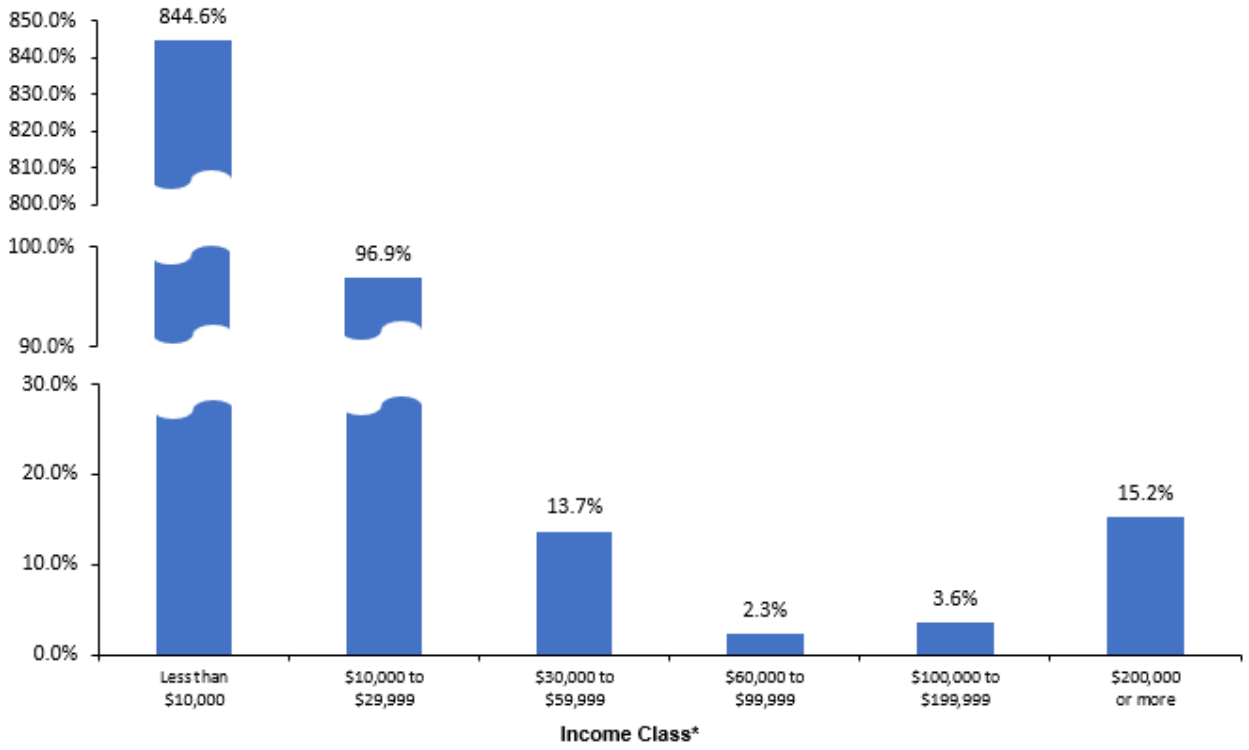
[6] The total tax liability for insurance underwriters also includes surplus lines tax, foreign risk retention group tax and workers compensation special compensation fund levy.

Figure 3 Amount of Tax Credits Claimed by Individuals as a Proportion of Their Total Tax Liability by Income Class in Tax Year 2023



* Income class is measured using Hawaii AGI for Form N-11 and total AGI for Form N-15.

Table 3 presents the number and proportion of taxpayers who claimed tax credits by taxpayer type. The resident individual taxpayers were the largest group, with 44.5% of them claiming tax credits, while fiduciary, exempt organizations, and insurance underwriters were the smallest, with only 1.4% to 2.6 % of them making tax credit claims. In tax year 2023, tax credit claims were filed by 8.6% of nonresident or part-year resident taxpayers and 3.7% of nonfinancial corporations, ranking second and third, respectively.

Figure 4 summarizes the amount of tax credits by purpose of the tax credit in tax year 2023. The largest amount claimed was for tax credits to avoid double taxation or pyramiding of taxes ($242.8 million or 39.1% of total credits claimed), followed by tax credits to promote social welfare ($215.6 million, or 35.2%) and tax credits encouraging certain industries or economic activities ($160.0 million, or 25.8%).

**Table 3**
**Number and Proportion of Taxpayers Claiming Tax Credits**
**by Taxpayer Type for Tax Year 2023**

| Type of Taxpayer | # of Taxpayers | # of Taxpayers with Claims | % of Taxpayers with Claims |
|---|---|---|---|
| Individual - Resident | 644,374 | 286,455 | 44.5% |
| Individual - Nonresident / Part-Year Resident | 110,164 | 9,507 | 8.6% |
| Nonfinancial Corporation | 20,021 | 736 | 3.7% |
| Financial Corporation | 273 | 9 | 3.3% |
| Fiduciary | 17,620 | 419 | 2.4% |

| Cesspool Upgrade, Conversion or Connection Income Tax Credit | $35 | 0.01 |
| Organic Foods Production Tax Credit | *d* | *d* |

* The data for the Earned Income Tax Credit in this report was extracted at a later date than the data from the 2023 Earned Income Tax Credit Report. The different dates of data extraction account for the difference in the numbers between the two reports.

** Data for the energy conservation tax credit are included with the renewable energy technologies tax credit.

Note: "*d*" denotes that the data were suppressed to avoid potential disclosure of confidential taxpayer information.

Table 4 provides a summary distribution of tax credits claimed by the type of tax credit. The largest tax credit by dollar value was the pass-through entity (PTE) tax credit, which amounted to $133.8 million, or 21.5% of the total tax credits claimed in 2023. The second largest tax credit was the renewable energy technologies income tax credit, which amounted to $100.1 million, or 16.1% of the total.

Table 5 compares selected tax credits by selected taxpayer type for tax years 2022 and 2023. For individuals, total tax credits claimed increased by $184.3 million (or 75.1%) from 2022 to 2023. The biggest shifts came from the introduction of the new pass-through entity tax credit ($124.1 million increase) and the increase in Earned Income Tax Credit, which was doubled from 20% to 40% of the federal EITC level by Act 163 SLH 2023 ($57.3 million or 289.4% increase). For nonfinancial corporations, the total tax credit amount claimed decreased by 13.8% (or $18.8 million) from 2022 to 2023. The main reason for the change is the decrease in claims for renewable energy technologies income tax credit ($10.3 million or 21.0% decrease). Financial corporations had claims in only four tax credit categories: low-income housing tax credit, renewable energy technologies income tax credit, capital goods excise tax credit, and high technology business investment tax credit totaling $28.5 million in 2023, an increase of $0.6 million or 2.1%.

Figure 5 shows per capita amounts of selected social welfare tax credits claimed by individuals in various Hawai‘i AGI brackets.[7] The amounts were generated by dividing the dollar amount of each type of tax credit by the number of individuals within each AGI bracket. The number of individuals was calculated by adding the number of exemptions for taxpayers, spouses, and dependents claimed on all tax returns in each respective AGI bracket. In addition, minor children who received more than half their support from public agencies, such as the State Department of Human Services, are also included in the total. Their children cannot be claimed as dependents, but they are included as qualified exemptions for the purpose of the refundable food/excise tax credit.

The refundable food/excise tax credit drops as AGI increases and recipients are phased out of the credit (the credit is generally not available for taxpayers with AGI over $50,000), whereas the low-income household renter’s tax credit was distributed fairly evenly among the different eligible AGI groups (those with AGI below $30,000) in tax year 2023. Per capita claims for the child and dependent care tax credit were greater in the higher AGI groups. The claims for earned income tax credit per capita went up as AGI increased up to the $25,000 to $30,000 bracket, then declined as AGI increased after the $30,000 to $40,000 bracket.

[7] For Form N-15, the income is the taxpayer's global adjusted gross income as defined for Hawai‘i income tax purposes.

**Table 5**
**Comparison of Selected Tax Credits and Taxpayer Type**
**Tax Year 2022 and 2023 (in $1,000)**

| Taxpayer Type and Credit | 2023 | 2022 | Difference | |

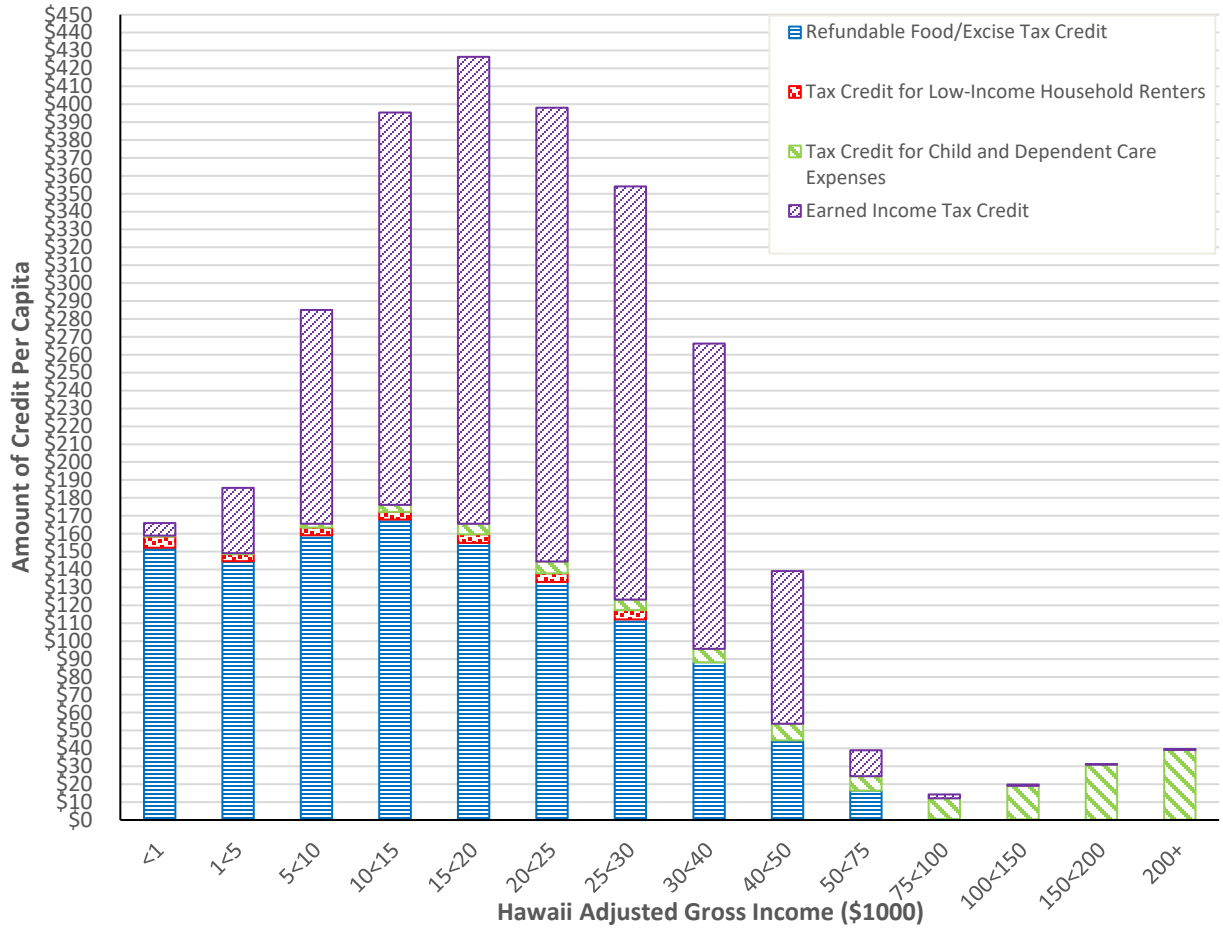
Note: "*d*" denotes that the data were suppressed to avoid potential disclosure of confidential taxpayer information.
"*na*" denotes "not applicable."

The tables in Appendix A show further details on the tax credits claimed. Appendix B provides a history of Hawai'i's tax credits. The table in Appendix B-1 provides an outline showing the historical development of the tax credits and the year in which each tax credit was enacted.

## Figure 5
## Average Per Capita Amounts of Selected Credits Claimed by Individuals in Tax Year 2023



# 4. DESCRIPTIONS AND ANALYSES OF THE TAX CREDITS

This section describes the tax credits available for tax year 2023, including expired tax credits for which unused credits could be carried forward and applied against tax liabilities in tax year 2023. It also compares the amount of each tax credit that was claimed with the previous two years. Appendix Table A-13 shows the dollar amounts and number of claims made for each tax credit in tax years 2021, 2022 and 2023. For most tax credits, the amount and number of claims starting from 2000 or their inception year to 2023 are also presented in Figures 6 through 20.

## 4.1. ACTIVE TAX CREDITS

### *4.1.1. Tax Credits to Promote Social Welfare*

1. Refundable Food/Excise Tax Credit (HRS §235-55.85)

The refundable food/excise tax credit was introduced for tax year 2008 by Act 211, Session Laws of Hawai'i (SLH) 2007, to replace the low-income refundable tax credit. Later, Act 223, SLH 2015 amended this tax credit for taxable years 2016 to 2017 to increase the tax credit amount and remove the residency requirement, made permanent by Act 107, SLH 2017. Relevant to the current report, Act 163, SLH 2023 amended this tax credit by doubling the amount of the credit per qualified exemption and increasing the adjusted gross income limits by $10,000 in all income brackets for taxable years 2023 to 2027. To claim the tax credit, the taxpayer must have a federal adjusted gross income as defined by the Internal Revenue Code of less than $60,000 if filing status is Married Filing Jointly, Married Filing Separately, Head of Household, or Qualifying Surviving Spouse, and less than $40,000 if filing status is Single.

The tax credit is computed by multiplying an allowable tax credit amount by the number of qualified exemptions. The qualified exemptions are personal exemptions permitted under Hawai'i law, excluding the additional exemptions for being age 65 or older or for having a disability. A person for whom the tax credit is claimed must have been present in Hawai'i for more than nine months of the taxable year and cannot have been confined in jail, prison, or a youth correctional facility for the entire taxable year. Married persons filing separate tax returns can claim only the tax credit to which they would have been entitled had they filed a joint return. The allowable amount of the tax credit per qualified exemption is based on the taxpayer's income, but parents or guardians of minor children who cannot be claimed as dependents because they receive more than half their support

from public agencies (such as the State Department of Human Services) are eligible for the maximum amount of the tax credit ($220) regardless of their income.

The allowable amounts for tax year 2023 are shown below:

**If filing status is Married Filing Jointly, Married Filing Separately, Head of Household, or Qualifying Surviving Spouse:**

| Federal Adjusted Gross Income | Tax Credit per Qualified Exemption |
|---|---|
| Under $15,000 | $220 |
| $15,000 and over but under $20,000 | $200 |
| $20,000 and over but under $25,000 | $170 |
| $25,000 and over but under $30,000 | $140 |
| $30,000 and over but under $40,000 | $110 |
| $40,000 and over but under $50,000 | $90 |
| $50,000 and over but under $60,000 | $70 |
| $60,000 and over | $0 |

**If filing status is Single:**

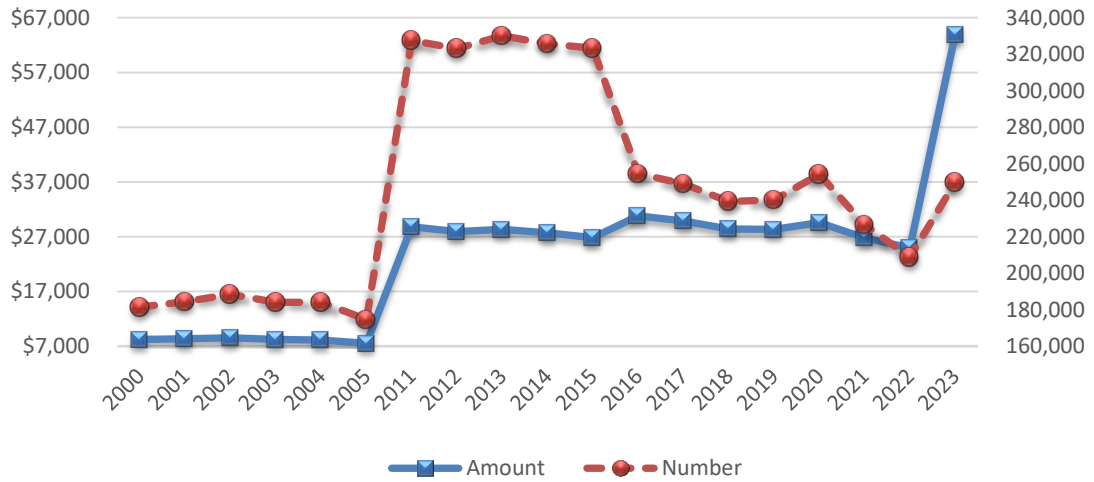
| Federal Adjusted Gross Income | Tax Credit per Qualified Exemption |
|---|---|
| Under $15,000 | $220 |
| $15,000 and over but under $20,000 | $200 |
| $20,000 and over but under $25,000 | $170 |
| $25,000 and over but under $30,000 | $140 |
| $30,000 and over but under $40,000 | $110 |
| $40,000 and over | $0 |

The refundable food/excise tax credit was the most commonly claimed tax credit in tax year 2023. The tax credit appeared on 249,806 individual income tax returns, or 33.1% of the total number of such returns filed for the tax year. Claims for the tax credit totaled $64.0 million for tax year 2023, up from $25.0 million claimed in 2022 and $26.8 million in 2021.

Figure 6 shows the amount and number of claims for the tax credit from 2000 to 2023. The jump in both amount and number of claims from 2005 to 2011 is due to the increase in credit per exemption and expansion of the eligible maximum federal AGI from $20,000 to $50,000 introduced by Act 211, SLH 2007, starting in tax year 2008. The drop in number of claims from 2015 to 2016 is due to the reduction in the eligible maximum federal AGI for taxpayers filing a single return from $50,000 to $30,000 enacted by Act 223, SLH 2015. The increase in the total credit amount from 2015 to 2016 occurred

because the rise in the credit amount per exemption more than offset the decline in the number of eligible taxpayers resulting from Act 223, SLH 2015. Claims for the refundable food/excise tax credit declined steadily after 2016, with a temporary increase observed in 2020 (presumably due to the adverse economic impact of the COVID-19 pandemic). The sharp increase in both the amount and number of claims from tax year 2022 to 2023 is caused by Act 163, SLH 2023, which doubled the amount of credit per qualified exemption and increased the adjusted gross income limits by $10,000 in all income brackets.

**Figure 6. The Amount (in $1,000) and Number of Refundable Food/Excise Tax Credit Claims by Year**



Note: The tax credit was called low-income tax credit before 2008

## 2. Tax Credit for Low-Income Household Renters (HRS §235-55.7)

Taxpayers who rented residential real property during the taxable year may qualify for the refundable tax credit for low-income household renters. To claim the tax credit, the taxpayer must be a Hawai‘i resident with Hawai‘i AGI of less than $30,000 who is not claimed or eligible to be claimed as a dependent by another taxpayer. Furthermore, the taxpayer must have paid more than $1,000 in annual rent for real property in Hawai‘i that was the taxpayer's residence (or the residence of the taxpayer's immediate family) and that was not wholly or partially exempt from the real property tax. Married persons filing separate tax returns must combine their Hawai‘i AGI to determine their eligibility for the tax credit. If a rental unit is shared with another person, the individual's portion of the rent is used to determine eligibility.

The tax credit is computed by multiplying $50 by the number of personal exemptions permitted under Hawai‘i law, including the additional exemption for being age 65 or older.

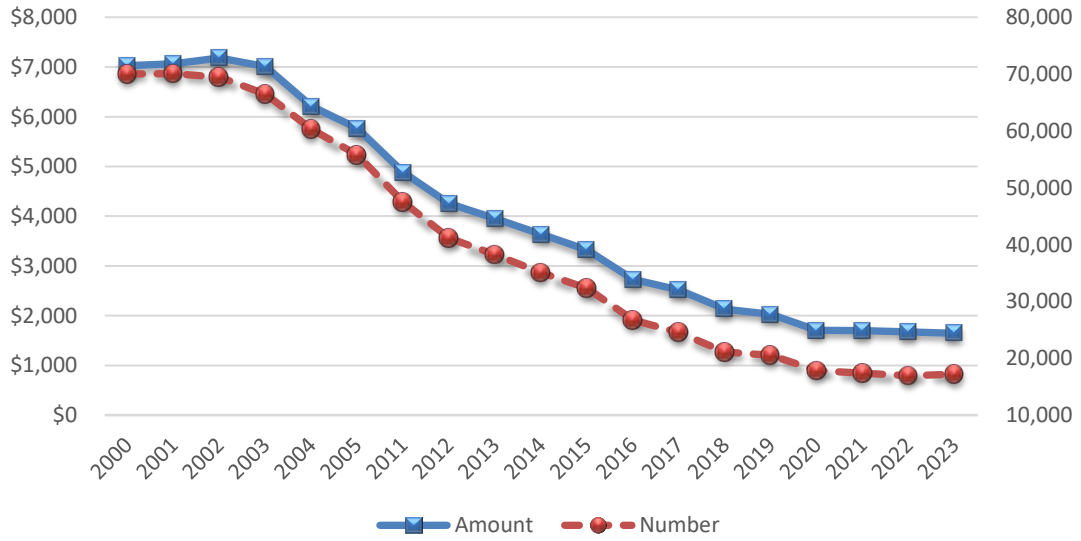
A person for whom the tax credit is claimed must have physically resided in Hawai‘i for more than nine months of the taxable year.

The $30,000 income limitation has not been changed since 1989, when it was raised from $20,000. The amount of the tax credit per exemption was raised from $20 to $50 in 1981, but has remained unchanged since then, despite substantial rises in the cost of housing.

The low-income household renter's tax credit was claimed on 17,205 individual income tax returns for tax year 2023. It was the third most claimed tax credit. The amount claimed for tax year 2023 totaled $1.65 million, down from $1.68 million claimed in 2022 and $1.70 million in 2021.

Figure 7 presents the amount and number of claims for the tax credit from 2000 to 2023. An overall downward trend was observed in both the total amount and the number of claims for the low-income household renter’s tax credit.

**Figure 7. The Amount (in $1,000) and Number of Low-Income Household Renters Tax Credit Claims by Year**



3. Tax Credit for Child and Dependent Care Expenses (HRS §235-55.6)

A resident taxpayer who is gainfully employed and who pays for the care of a child under 13 years of age or for a spouse or dependent incapable of self-care qualifies for the child and dependent care tax credit. The tax credit can be taken for care expenses up to $10,000 for one qualified individual and up to $20,000 for two or more qualified individuals, as amended by Act 163, SLH 2023. Allowable expenses may not exceed the taxpayer’s earned income. For joint tax returns, the amount may not exceed the income of the spouse with the lower earned income.

The tax credit is refundable and the amount ranges from 15% to 25% of qualified care expenses, with the rate declining as Hawai'i AGI increases. The percentages and adjusted gross income ranges for calculating the credit has been the same since tax year 2016 when they were last amended (Act 235, SLH 2016).

The percentages and adjusted gross income ranges for calculating the tax credit for child and dependent care expenses for tax year 2023 is shown below:

| Hawai'i Adjusted Gross Income | Percent of Allowable Expenses |
|---|---|
| Under $25,001 | 25% |
| $25,001 - $30,000 | 24% |
| $30,001 - $35,000 | 23% |
| $35,001 - $40,000 | 22% |
| $40,001 - $45,000 | 21% |
| $45,001 - $50,000 | 20% |
| $50,001 and over | 15% |

For tax year 2023, the dependent care tax credit was the third most claimed tax credit and was reported on 18,119 individual income tax returns. The amount claimed totaled $14.8 million, up from $6.5 million claimed in 2022 and $5.6 million in 2021.

Figure 8. The Amount (in $1,000) and Number of Child and Dependent Care Expenses Tax Credit Claims by Year

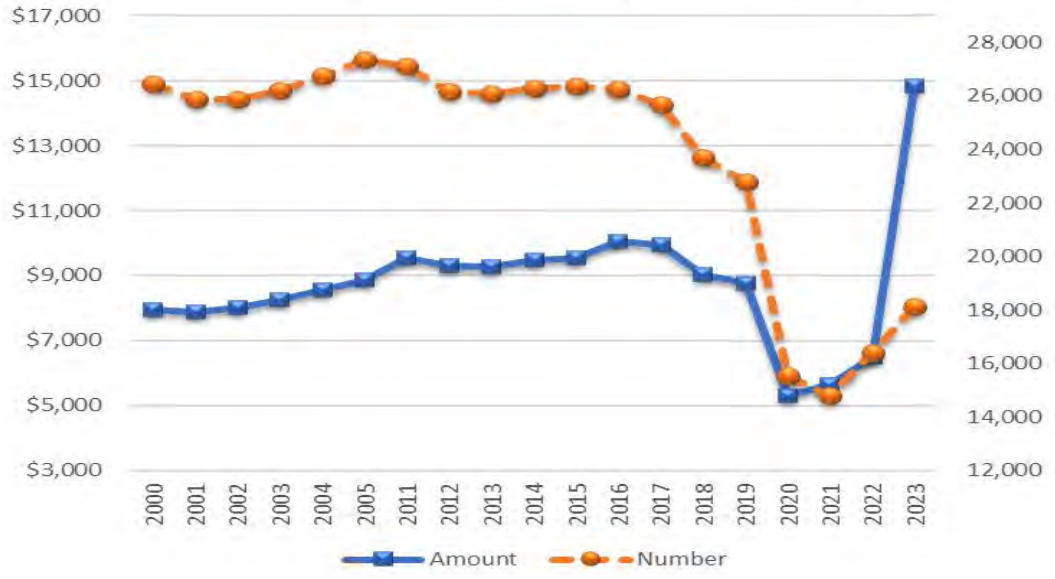


Figure 8 shows the amount and number of claims for the tax credit since 2000. The previous increase observed in 2016 reflects policy changes that raised the applicable percentages for certain lower-income taxpayers beginning with tax year 2016.Claims for the dependent care tax credit have declined since 2016. A significant drop occurred at the onset of the COVID-19 pandemic in 2020, when many individuals began working from home, reducing the need for dependent care. The sharp increase in the dollar amount from 2022 to 2023 is mainly driven by Act 163, SLH 2023, which increased the cap on employment-related expenses that may be used to claim the credit from $2,400 to $10,000 for one qualifying individual and from $4,800 to $20,000 for two or more qualifying individuals.

4. Tax Credit for Child Passenger Restraint Systems (HRS §235-15)

An individual taxpayer who buys a new child passenger restraint system that complies with the federal motor vehicle safety standards in effect at the time of purchase may claim a tax credit of $25 for the tax year, regardless of the cost of the restraint system or the number of restraint systems bought during the year. The tax credit, which is refundable, was enacted in 1982 to encourage people to buy child restraint systems, but the systems became mandatory the following year. For tax year 2023, the tax credit was claimed on 2,108 individual income tax returns, totaling $53,000, down from $54,000 claimed in 2022 and up from $52,000 claimed in 2021.

Figure 9. The Amount (in $1,000) and Number of Child Passenger Restraint Systems Tax Credit Claims by Year

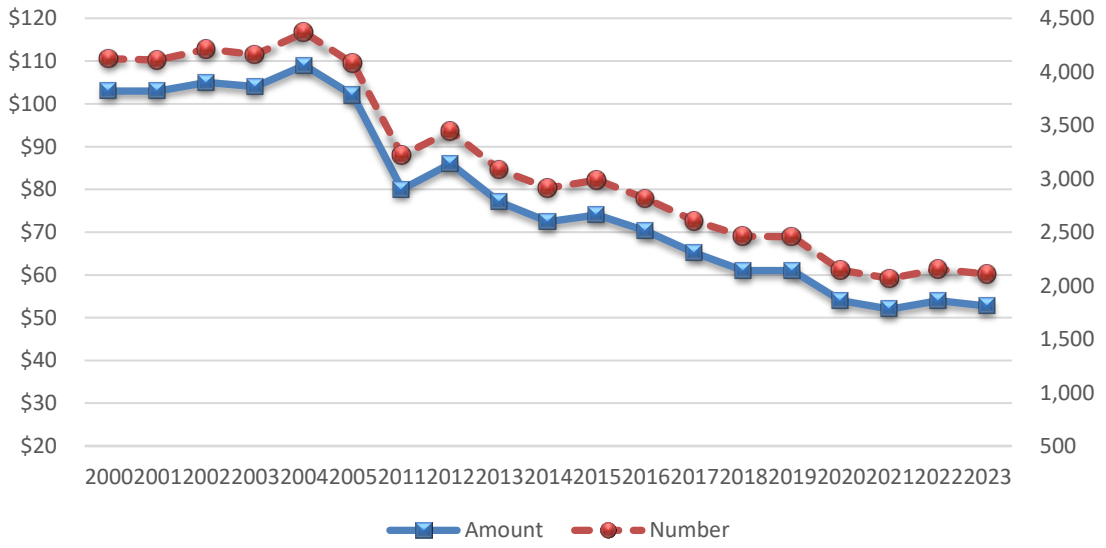

Figure 9 shows the trend for the tax credit from 2000 to 2023. Overall, claims have shown a declining trend since 2004.

5. Tax Credit for Employment of Vocational Rehabilitation Referrals (HRS §235-55.91)

A taxpayer who employs an individual who is certified by the Vocational Rehabilitation and Services for the Blind Division of the Department of Human Services, in consultation with the Hawai‘i State Employment Service of the Department of Labor and Industrial Relations, as having a physical or mental disability that results in a substantial handicap to employment, or who has been referred upon completion of certain rehabilitation plans, may qualify for a tax credit. The tax credit is equal to 20% of the qualifying first-year wages for the taxable year, up to $6,000, and is nonrefundable. There were no claims for this credit reported in 2023.

6. Low-Income Housing Tax Credit (HRS §235-110.8 and §241-4.7, §431:7-208)

Owners of residential buildings who provide low-income housing may claim the low-income housing tax credit. This nonrefundable tax credit is equal to a percentage of the "applicable percentage" of qualified basis, where the applicable percentage is calculated as provided under section 42 of the Internal Revenue Code. The percentage is 30% for buildings placed in service prior to July 1, 2005, and 50% for buildings placed in service after June 30, 2005. Act 158, SLH 2011 allowed the taxpayer to elect to receive a low-income housing loan in lieu of the tax credit after July 1, 2011. Act 129, SLH 2016 created an additional incentive to encourage investment in buildings that are intended for low-income individuals and families by shortening the time over which the State tax credit is taken from ten years to five years and set a sunset date of December 31, 2021. Act 226, SLH 2021 relaxed the rules on allocating the Low-Income Housing Tax Credit (LIHTC), allowing the taxpayers to allocate the credit freely among their partners or members, and also relaxed the installment method, at-risk, and passive activity loss rules applicable to the LIHTC and allowed the credit to be claimed in the initial year even if federal Form 8609 had not been received by the taxpayer. However, Act 226, SLH 2021 also prohibited the deductions and expenses claimed by all Hawai‘i taxpayers to exceed the deductions and expenses claimed by all taxpayers on federal returns. The Act applied to taxable years beginning after December 31, 2020, and extended the sunset date to December 31, 2027. The tax credit was claimed on 55 tax returns for tax year 2023, totaling $60.9 million, up from $58.1 million in 2022 and $53.1 million in 2021.

Figure 10. The Amount (in $1,000) and Number of Low-Income Housing Tax Credit Claims by Year

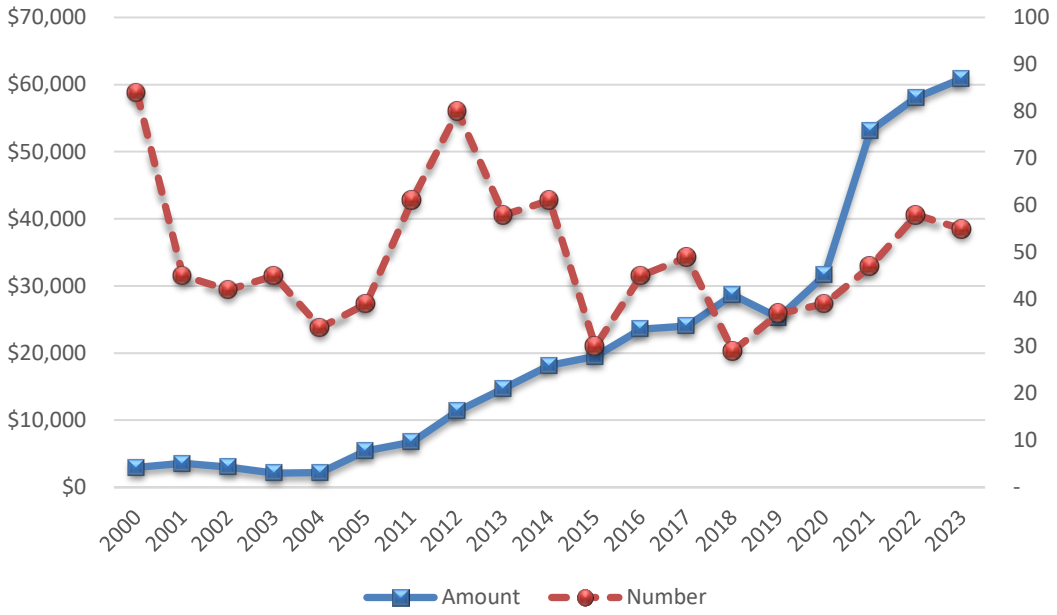

Figure 10 presents the amount and number of claims for the tax credit since 2000. While the number of claims fluctuated over time, the amount of the tax credit claims has been increasing since 2004, with a significant jump since 2021 due to the relaxed rules under Act 226, SLH 2021.

7. Tax Credit for School Repair and Maintenance (HRS §235-110.2)

Act 309, SLH 2001, allows licensed contractors to claim a 10% nonrefundable tax credit, up to $4,000, on the fair market value of repair and maintenance services provided at no cost to public schools. There have been no claims of the tax credit since 2020.

8. Earned Income Tax Credit (HRS §235-55.75)

Act 107, SLH 2017, established a state nonrefundable earned income tax credit (EITC) equal to 20% of the federal EITC allowed and properly claimed under section 32, IRC, and reported on the taxpayer's federal income tax return. The state EITC was to apply to taxable years beginning after December 31, 2017, and sunset after December 31, 2022. Act 114, SLH 2022 made the state EITC refundable and permanent beginning with the 2023 tax year. Finally, Act 163, SLH 2023 amended the refundable earned income tax credit by increasing the amount of the credit from 20% to 40% of the federal earned income tax credit allowed and properly claimed under IRC section 32.

For tax year 2023, the earned income tax credit was the second most claimed tax credit and was reported on 84,470 tax returns. The amount claimed for tax year 2023 totaled $77.1 million, up from claims of $19.8 million in 2022 and $21.8 million in 2021. [8]

Figure 11. The Amount (in $1,000) and Number of Earned Income Tax Credit Claims by Year

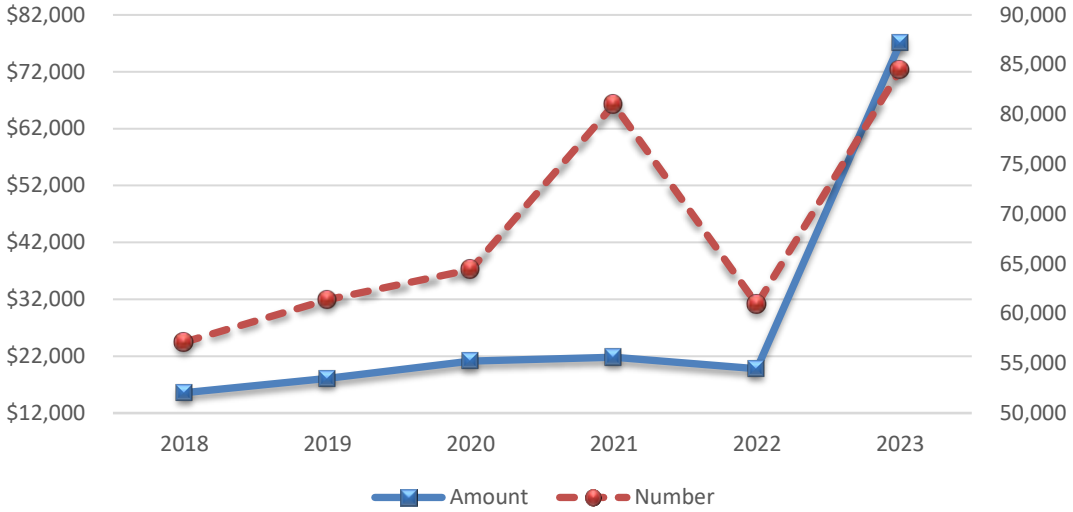

Figure 11 shows the amount and number of claims for the tax credit since its inception in 2018. Both the number and the amount of tax credit claims steadily increased through 2020. There was a sharp rise in the number of claims in 2021 which temporarily reversed in 2022. The dramatic increase in the state EITC amount claimed in 2023 was primarily driven by the rise in the state match rate for the federal EITC, which doubled from 20% to 40% per Act 163, SLH 2023. In 2023, the number of claims also bounced back and surpassed their peak in 2021.

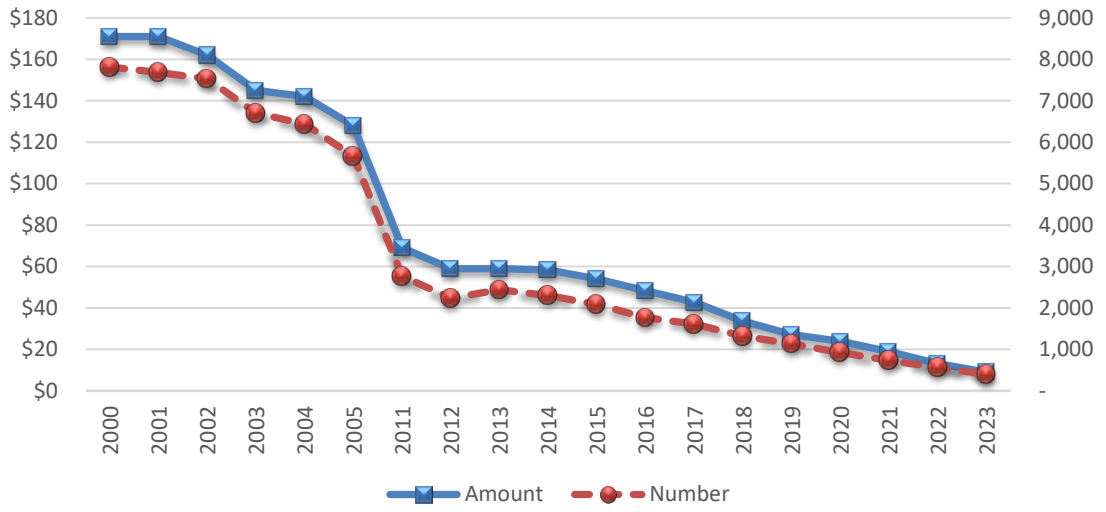
9. Lifeline Telephone Service Tax Credit (HRS §239-6.5)

Lifeline telephone service is available to elderly and disabled residential telephone subscribers who have an annual income less than $10,000. The Public Utilities Commission determines and certifies the lifeline service costs. The telephone public utility may claim a nonrefundable tax credit equal to the sum of foregone revenues and the administrative costs of providing the telephone service to the eligible individuals.

The tax credit was claimed on behalf of 396 subscribers as of the end of calendar year 2023 and the amount claimed by the public utility was $9,000, down from $13,000 in 2022 and $19,000 in 2021. The tax credit has been declining since 2000 (Figure 12).

[8] The data for the Earned Income Tax Credit in this report was extracted at a later date than the data from the 2023 Earned Income Tax Credit Report. The different dates of data extraction account for the difference in the numbers between the two reports.

Figure 12. The Amount (in $1,000) and Number of Lifeline Telephone Service Tax Credit Claims by Year



### *4.1.2. Tax Credits to Encourage Certain Industries or Economic Activities*

10. Fuel Tax Credit for Commercial Fishers (HRS §235-110.6)

The principal operator of a commercial fishing vessel may claim a refundable tax credit for certain fuel taxes paid during the taxable year. The amount of the tax credit is equal to the fuel taxes imposed under section 243-4(a), HRS. The tax credit was claimed on 124 returns in 2023, totaling $603,000, up from $347,000 in 2022 and $381,000 in 2021.

Figure 13. The Amount (in $,1000) and Number of Fuel Tax Credit for Commercial Fishers Claims by Year

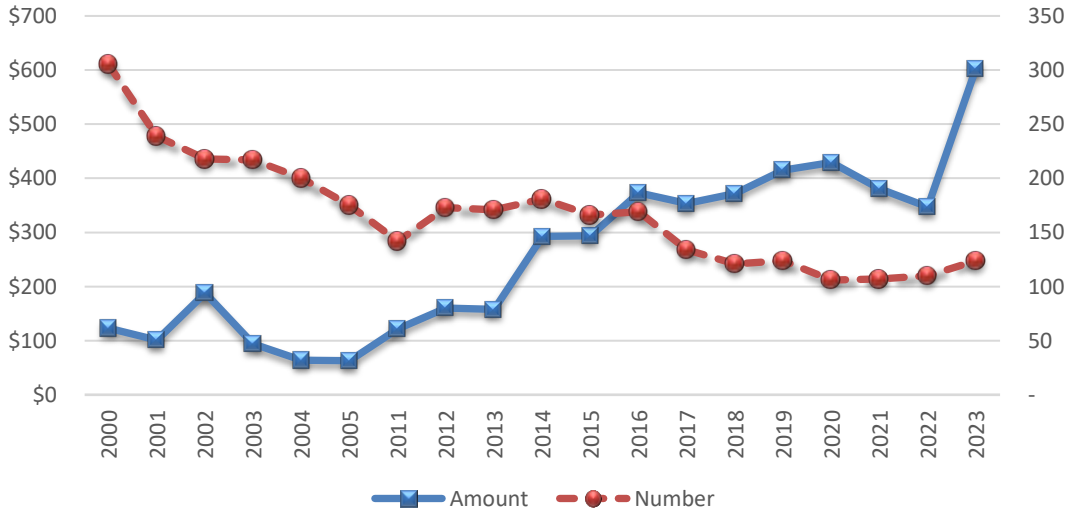


Figure 13 shows the amount and number of claims for the tax credit from 2000 to 2023.

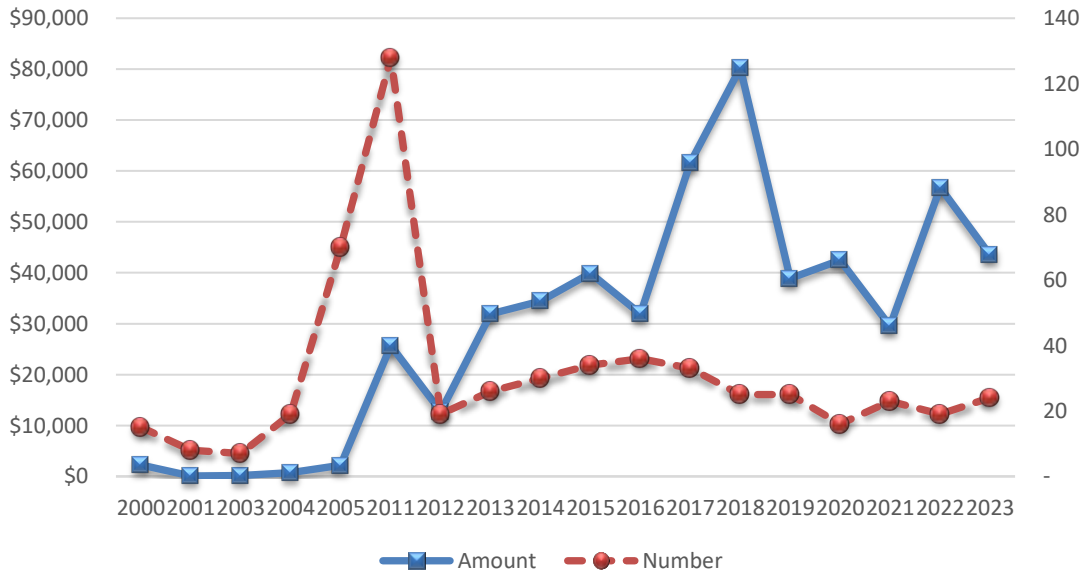
11. Motion Picture, Digital Media, and Film Production Income Tax Credit (HRS §235-17)

Taxpayers may claim a refundable tax credit equal to 22% of the qualified production costs incurred in the City and County of Honolulu and 27% of the qualified production costs incurred in the Kaua'i, Maui, or Hawai'i counties before January 1, 2033.

Effective January 1, 2019, Act 143, Session Laws of Hawaii (SLH) 2017, established an annual aggregate limit of $35 million for the motion picture, digital media, and film production income tax credit. This limit operates as a rolling ceiling, allowing tax credit claims that exceed the annual threshold to be carried forward and applied against the cap in subsequent years—except in the final year of the program, 2026, when no carryforward is permitted. Subsequently, Act 275, SLH 2019, increased the annual aggregate limit from $35 million to $50 million in 2019. Finally, Act 217, SLH 2022, introduced several key amendments to the tax credit program: (a) Increased the credit rate by 2 percentage points across all categories of qualified production costs; (b) Reduced the minimum qualified production expenditure threshold from $200,000 to $100,000; (c) Eliminated the requirement for a verification review by a certified public accountant as part of the application process; (d) Raised the per-production credit limit from $15 million to $17 million; and (e) Extended the period for claiming excess tax credits from December 31, 2025, to December 31, 2032. The tax credit was claimed on 24 tax returns in 2023, totaling $43.5 million, down from $56.8 million in 2022 and up from $29.6 million in 2021.

Figure 14 shows the amount and number of claims for the tax credit since 2000. The variation in the amounts claimed reflect the changes in the qualified credit amounts, individual credit ceilings, and annual aggregate limits over the years.

**Figure 14. The Amount (in $1,000) and Number of Motion Picture, Digital Media, and Film Production Income Tax Credit Claims by Year**



12. Renewable Energy Technologies Income Tax Credit (HRS §235-12.5 and §241-4.6)

Taxpayers who installed a renewable energy technology system (solar thermal energy system, wind powered energy system, or photovoltaic energy system) and placed it in service after June 30, 2003, may claim the renewable energy technologies income tax credit. The tax credit applies to the actual cost of the system, including the cost of accessories and installation.

For systems installed and placed in service after July 1, 2006, the tax credit was 35% of the cost for solar thermal systems and photovoltaic systems, and 20% of the cost for wind powered systems. For single-family residential properties, the amount of the tax credit was capped at $2,250 for solar thermal systems, $5,000 for photovoltaic systems, and $1,500 for wind powered systems. For commercial properties, the tax credit was capped at $500,000 for wind powered systems and for photovoltaic systems, and at $250,000 for solar thermal systems. For multifamily residential properties, the tax credit per residential unit was capped at $350 for solar thermal systems and photovoltaic systems, and at $200 for wind powered systems. Act 154, SLH 2009 made the tax credit refundable for certain low-income taxpayers and gave other taxpayers the option to claim the tax credit as refundable by accepting a 30% reduction in the amount of the tax credit. The Act was effective for systems installed and placed in service on or after July 1, 2009.

According to the new Administrative Rules that came into effect during tax year 2013, to gain tax credit for a system classified under "other solar energy system" such as a photovoltaic system, each system was required to have a total output capacity of at least 5 kilowatts for single-family residential properties, or 0.360 kilowatts per unit per system for multi-family residential properties, or 1,000 kilowatts for commercial properties unless an exception applies, such as only one credit being claimed or only one system does not meet the requirement.

Act 61, SLH 2020 disallows the Renewable Energy Technologies Income Tax Credit for commercial projects of 5 megawatts of total output capacity or greater. The Act also provides multiple exceptions, including for systems subject to a power purchase agreement which receives Public Utilities Commission (PUC) approval or was pending approval before December 31, 2019, and for certain systems integrated with a pumped hydroelectric energy storage system where the requisite approval filings are submitted to the PUC by December 31, 2021.

Table 6 shows the number of returns, and the amount of the tax credit claimed for the renewable energy technologies income tax credit, and also for carryovers of the energy conservation tax credit that expired on June 30, 2003.

The first part of the table shows carryovers of tax credits for the renewable energy systems that were installed and placed in service prior to July 1, 2009, along with carryovers of the energy conservation tax credit and carryovers of the renewable energy

technologies income tax credit for which the date of installation could not be determined. Carryovers of these tax credits were reported on 141 tax returns in 2023, totaling $0.42 million, up from $0.31 in 2022 and down from $0.52 in 2021.

## Table 6
## Claims for the Renewable Energy Technologies Income Tax Credit and the Energy Conservation Tax Credit in Tax Year 2023

**Carryover of the tax credit for systems installed and placed in service before July 1, 2009 1/**

| Number of returns | | | Credit amount (in $1,000) 3/ | | |
|---|---|---|---|---|---|
| All | Individuals | Corporations and others 2/ | All | Individuals | Corporations and others 2/ |
| 141 | *d* | *d* | $418 | *d* | *d* |

**Refundable tax credits for systems installed and placed in service on or after July 1, 2009**

| | Number of returns | | | Credit amount (in $1,000) 3/ | | |
|---|---|---|---|---|---|---|
| | All | Individuals | Corporations and others 2/ | All | Individuals | Corporations and others 2/ |
| Solar only | 1,800 | *d* | *d* | $50,562 | *d* | *d* |
| Wind only or Breakdown Unknown | 21 | *d* | *d* | $171 | *d* | *d* |
| Total | 1,821 | 1,801 | 20 | $50,733 | $13,396 | $37,337 |

**Nonrefundable tax credits for systems installed and placed in service on or after July 1, 2009**

| | Number of returns | | | Credit amount (in $1,000) 3/ | | |
|---|---|---|---|---|---|---|
| | All | Individuals | Corporations and others 2/ | All | Individuals | Corporations and others 2/ |
| Solar only | 7,786 | 7,757 | 29 | $44,427 | $40,484 | $3,943 |
| Wind only | 29 | 29 | - | $53 | $53 | - |
| Breakdown unknown | 1,014 | 994 | 20 | $4,358 | $3,944 | $414 |
| Total | 8,829 | 8,780 | 49 | $48,838 | $44,481 | $4,357 |

1/ Includes carryovers of the energy conservation tax credit given by section 235-12, HRS, and carryovers of the renewable energy technologies tax credit for which the date of installation could not be determined.

2/ Includes nonfinancial corporations, fiduciaries, nonprofit organizations and financial corporations.

3/ Details may not add to totals due to rounding.

The second and third parts of Table 6 show the renewable energy tax credit for systems that were installed on or after July 1, 2009, by type of system, by type of taxpayer, and by whether the claim was for a refundable or nonrefundable tax credit. Because unused

tax credits can be carried over, and extensions of existing systems made in later years are also eligible for the tax credit, the number of returns claiming the credit in a year may be larger than the number of new systems installed that year. The tax credit for systems installed and placed in service on or after July 1, 2009, was claimed on 10,650 returns in 2023 totaling $99,571 million. This is down from $105.7 million in 2022 and up from $67.3 million in 2021.

Claims for all systems, including carryovers of the energy conservation tax credit, totaled $100.0 million for tax year 2023. This was the second-largest tax credit.

**Figure 15. The Amount (in $,1000) and Number of Renewable Energy Technologies Income Tax Credit Claims by Year**

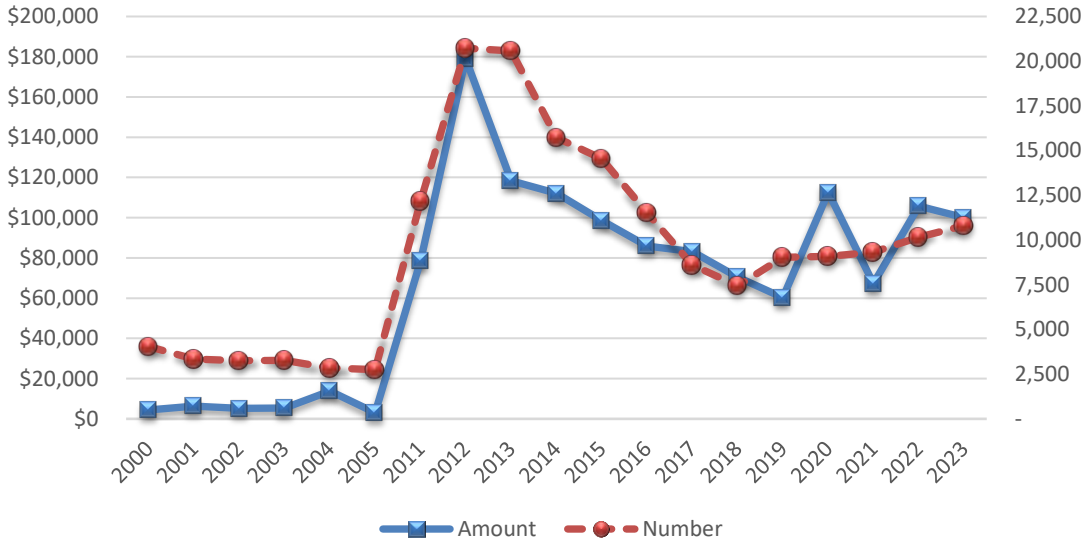


Figure 15 shows the amount and number of claims for the tax credit since tax year 2000. The dramatic increase from 2005 to 2011 and 2012 was likely due to Act 240, SLH 2006 (effective July 1, 2006) and Act 154, SLH 2009 (effective July 1, 2009), which increased the credit limits and made it refundable. The reduction of the tax credit claimed in 2014 was in part due to the imposition of Administrative Rules 18-235-12.5-01 through 18-235-12.5-06 that altered the definition of a solar energy system. The continued decline of the claims for the tax credit after 2014 up to 2018 is likely the result of the termination of the Net Energy Metering (NEM) program to new participants by the Public Utilities Commission in October 2015, which would reduce the cost-benefit of installing a rooftop photovoltaic system for single-family residential property owners. Since 2018, the total number of claims has increased steadily, primarily reflecting sustained growth in individual claims. However, the aggregate value of credits has been more volatile, with year-to-year swings largely attributable to refundable credit claims by corporations.

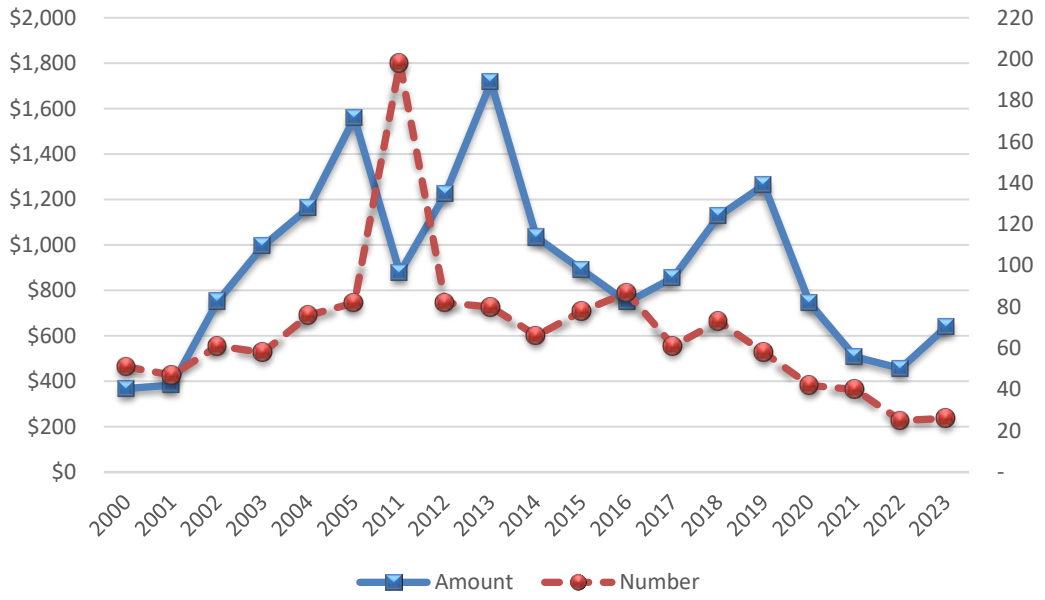
13. Enterprise Zone Tax Credit (HRS §209E-10, §209E-11)

A qualified business located in a designated enterprise zone may claim a tax credit equal to a percentage of its net income tax liability and of the unemployment insurance premiums it paid for employees located in the enterprise zone. In the first year, the tax credit is 80% of the qualified amounts. The percentage decreases by 10 points each year until it reaches 20% in the seventh year, after which the business is no longer eligible for the tax credit. The tax credit is nonrefundable, and any unused tax credit may not be carried forward. The tax credit was claimed on 26 tax returns for tax year 2023, totaling $0.64 million This is up from $0.46 million in 2022 and $0.5 million in 2021.

Figure 16 displays the amount and number of claims since tax year 2000.

Figure 16. The Amount (in $1,000) and Number of Enterprise Zone Tax Credit Claims by Year



14. Important Agricultural Land Qualified Agricultural Cost Tax Credit (HRS §235-110.93)

The important agricultural land tax credit is awarded for qualified agricultural costs incurred after July 1, 2008, and it is refundable. In the first year, the tax credit per taxpayer is the lesser of 25% of the qualified agricultural costs or $625,000. In the second year, the tax credit is the lesser of 15% of the qualified costs or $250,000, and in the third year the tax credit is the lesser of 10% of the qualified costs or $125,000. More than 50% of the land used by the agricultural business must be deemed “important agricultural land.” Tax credits must be certified by the Department of Agriculture and the aggregate amount of credits claimed cannot exceed $7.5 million in any tax year. Act 139, SLH 2021 extended the tax credit through tax year 2030. Data on the tax credit was suppressed in 2022 and

2023 to prevent the potential disclosure of confidential taxpayer information. There were no claims for the credit in 2021 and 2020.

15. Tax Credit for Research Activities (HRS §235-110.91)

The tax credit for research activities was reinstated by Act 270, SLH 2013. This refundable tax credit became available for tax years beginning after December 31, 2012. Each qualified high technology business subject to Hawai'i's income tax can claim an income tax credit for qualified research activities equal to the federal credit for increasing research activities provided by Internal Revenue Code (IRC) section 41, provided that the qualified high technology business also claims a federal tax credit for the same qualified research activities under IRC section 41. Qualified research expenses cannot include research expenses incurred outside Hawai'i and must be certified by the Department of Taxation. Act 261, SLH 2019 amended the tax credit such that references to the base amount contained in section 41 of the IRC do not apply, and credit may be taken based upon all qualified research expenses incurred in Hawai'i without regard to the amount of expenses for previous years. The Act became effective for taxable years beginning after December 31, 2019, and extended the credit through December 31, 2024, establishing an annual aggregate cap of $5.0 million.

The tax credit was claimed on 27 tax returns for tax year 2023, totaling $7.0 million, up from $4.1 million in 2022 but down from $3.4 million in 2021.

Figure 17. The Amount (in $1,000) and Number of Research Activities Tax Credit Claims by Year

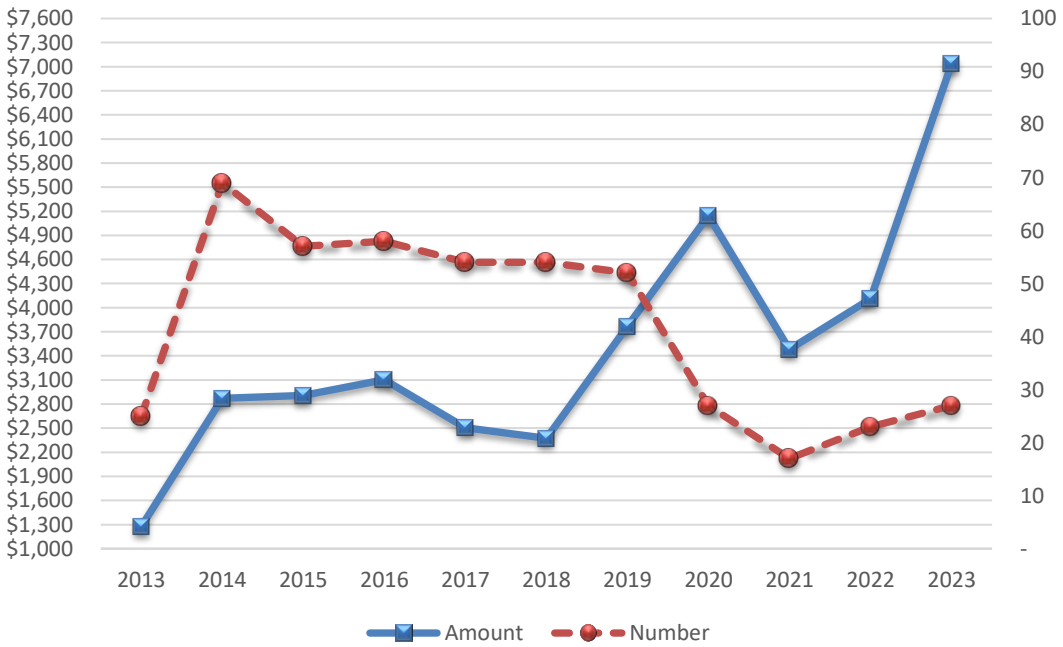


Figure 17 shows the amount and number of tax credits for research activities claimed by year. The divergence between the number of tax credits claimed (decreased) and the total amount claimed (increased) from 2019 to 2020 is likely the result of Act 261, SLH 2019, which increased the eligible amount of the credit for each taxpayer by rendering section 41 of the IRC not appliable but meanwhile, capped the annual aggregate amount. The net effect is that fewer taxpayers can claim the tax credit from 2020 and beyond if the cap is kept unchanged.

16. Renewable Fuels Production Tax Credit (HRS §235-110.31)

Act 202, SLH 2016, provided that each taxpayer producing renewable fuels may claim a nonrefundable renewable fuels production tax credit for taxable years beginning after December 31, 2016, and before December 31, 2021. Act 142, SLH 2017 changed the certification process. The tax credit is the lesser of 20 cents per 76,000 British thermal units of renewable fuels using the lower heating value sold for distribution in Hawai‘i or $3 million per taxable year. The taxpayer's production of renewable fuels cannot be less than 15 billion British thermal units of renewable fuels per year. The total amount of the tax credit is capped at $3 million per year and certified by the Department of Business, Economic Development, and Tourism (DBEDT). Act 143, SLH 2018 lowered the production threshold for eligibility for the credit from 15 billion British thermal units of renewable fuels per calendar year to 2.5 billion British thermal units per calendar year and added logs, wood chips, wood pellets, wood bark, and other renewable organic material to the definition of "Renewable feedstocks" which qualify for the credit. Act 216 SLH 2022 reinstated the Renewable Fuels Production Tax Credit and allowed it to be refunded under certain conditions. The tax credit was claimed on 13 tax returns in 2023, totaling $69,000. In 2022 and 2021, the amount claimed was $416,000 and $522,000 respectively.

17. Healthcare Preceptor Income Tax Credit (HRS §235-110.25)

Act 43, SLH 2018, established a nonrefundable income tax credit for advanced practice registered nurses, pharmacists, and physicians who supervise volunteer-based supervised clinical training rotations. The credit is equal to $1,000 per rotation supervised by the taxpayer, up to a maximum of $5,000 per taxpayer per year. The credit can be carried forward to future years until exhausted. Additionally, the credit is subject to an aggregate cap of $1.5 million per year and applies to taxable years beginning after December 31, 2028. The tax credit was claimed on 234 returns for tax year 2023, totaling $516,000. This is up from $509,000 in 2022 and $455,000 in 2021.

18. Historic Preservation Income Tax Credit (HRS §235-110.97)

Act 267, SLH 2019, established a nonrefundable income tax credit for taxpayers who rehabilitate historic structures pursuant to a rehabilitation plan certified by the Department of Land and Natural Resources' State Historic Preservation Division. The credit is equal to 30% of the qualified expenses incurred as part of the certified rehabilitation plan. In addition, the credit is subject to an aggregate cap of $1,000,000 per year and is subject to recapture if the projected expenditures do not materialize, or the rehabilitation does not proceed in a timely manner or in accordance with the approved plan. The Act applies to qualified rehabilitation expenditure incurred in taxable years beginning after December 31, 2019, and is repealed on December 31, 2024. There were no such tax credit claims in tax year 2020. Data on the tax credit for 2021, 2022 and 2023 have been suppressed to prevent potential disclosure of confidential taxpayer information.

### *4.1.3. Tax Credits to Avoid Double Taxation or Pyramiding of Hawai'i Taxes*

19. Capital Goods Excise Tax Credit (HRS §235-110.7, §241-4.5)

Businesses may claim the capital goods excise tax credit for the purchase of eligible depreciable tangible personal property used in a trade or business in Hawai'i. The tax credit is refundable and is equal to 4% of the qualifying cost of the eligible property, which excludes costs deducted under Internal Revenue Code Section 179. The tax credit serves to reduce pyramiding of the General Excise Tax (GET) by rebating the GET on business-to-business purchases that consist of eligible capital equipment. The cost of such capital equipment ultimately must be recaptured in the price of goods or services it is used to help produce, so without the rebate, the price of the produced goods or services would include the tax on the capital equipment. The tax credit was claimed on 3,932 tax returns for tax year 2023 and the amounts claimed totaled $34.6 million, up from $32.1 million in 2022 and $29.3 million in 2021.

Figure 18. The Amount (in $1,000) and Number of Capital Goods Excise Tax Credit Claims by Year

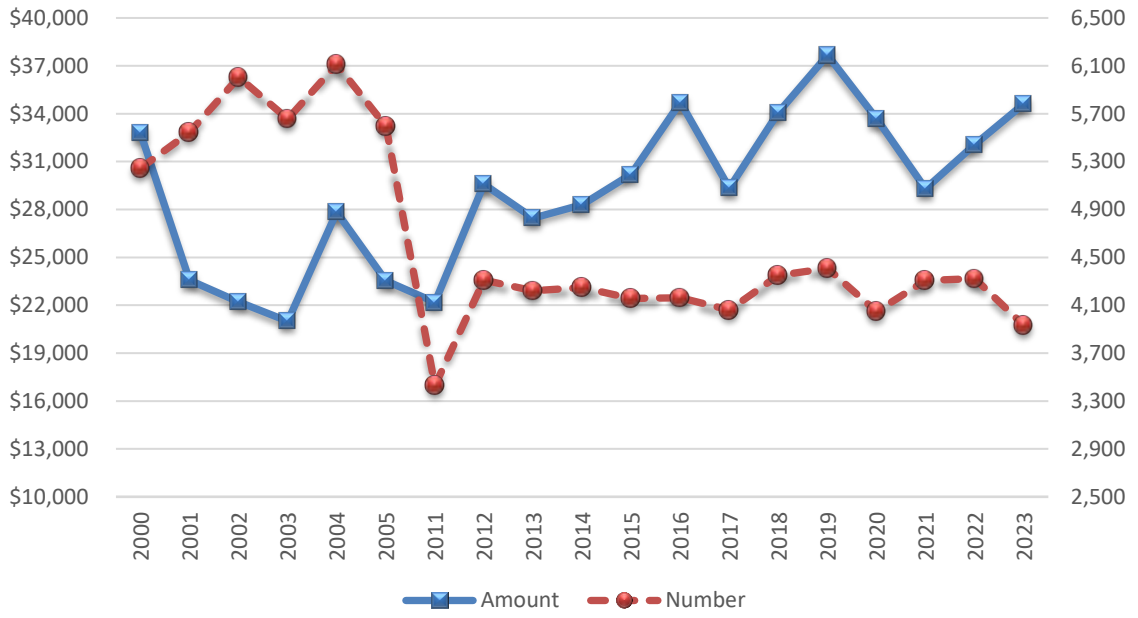

Figure 18 displays the amount and number of credits claimed from tax year 2000 up to 2023.

20. Income Tax Paid to Another State or Foreign Country (HRS §235-55)

A Hawai‘i resident individual or other person may claim a credit for income taxes paid to another state or to a foreign country if the income was earned in the other state or country and is not exempt from Hawai‘i or federal income tax, and if certain other requirements are met. This nonrefundable tax credit was claimed on 10,885 tax returns for tax year 2023, totaling $74.4 million. This is down from $124.6 million in 2022 and $180.5 million in 2021.

Figure 19. The Amount (in $1,000) and Number of Income Tax Paid to Another State or Foreign Country Tax Credit Claims by Year

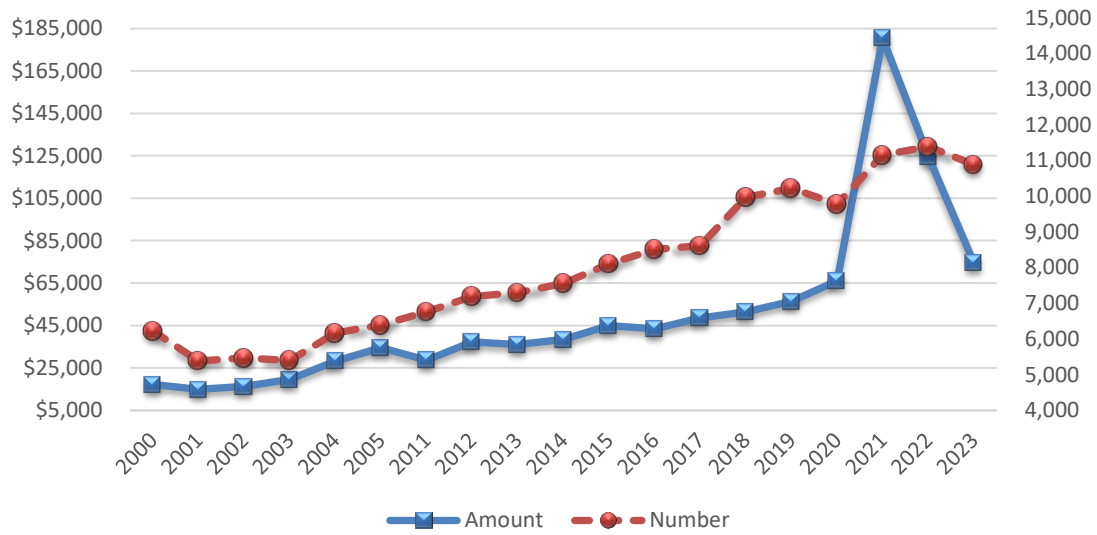

Figure 19 displays the amount and number of credits claimed from tax year 2000 up to 2023.

21. Passthrough Entity Tax Credit (HRS §235-51)

In 2023, Act 50 amended chapter 235, Hawai‘i Revised Statues (HRS) to allow partnerships and S corporations to annually elect to pay Hawai‘i income taxes at the entity level. An electing pass-through entity (PTE) is liable for Hawai‘i income tax on the sum of all eligible members' distributive shares and guaranteed payments of Hawai‘i taxable income, multiplied by the highest rate of tax applicable to the individual under section 235-51, HRS. Eligible members of an electing PTE may claim a nonrefundable income tax credit for their pro rata share of PTE taxes paid by the entity. Additionally, residents and part-year residents are entitled to a nonrefundable credit for their share of taxes paid to another state or to the District of Columbia on income of any partnership or S corporation, so long as the taxes paid to the other state are found to be substantially similar to the taxes imposed by Act 50. Act 50 was effective on January 1, 2024, and applied to taxable years beginning after December 31, 2022, and hence, it was the applicable law for this report covering tax year 2023. In 2024 and 2025, amendments were made to the PTE tax that do not apply to this report.

Effective tax year 2024, Act 50, SLH 2024 made several amendments to the PTE tax under HRS Section §235-51.5. Act 50 SLH 2024 modified the definition of qualified members, which is defined as all members of an electing PTE that are individuals, trusts, or estates. It also amended the PTE tax rate to 9 percent from 11 percent and allowed for a nonrefundable carry forward of unused PTE credits to subsequent years.

When a pass-through entity pays Hawai'i state income tax at the entity level, that tax is fully deductible as a business expense on the entity's federal return. This may reduce the federal taxable income passed through to the owners, effectively bypassing the federal SALT (State and Local Tax) deduction cap.

Act 58, SLH 2025 further amended HRS Section §235-51.5(e). For taxable years beginning after December 31, 2024, any qualified member of an electing pass-through entity (PTE) who claims the PTE tax credit is required to add back to their taxable income their pro rata share of the taxes paid by the electing PTE (the "tax add-back" rule). The original Act 50, SLH 2023 was meant to be revenue neutral but in practice, there was an additional benefit to electing in tax years 2023 and 2024. Act 58, SLH 2025 eliminated this double benefit of the PTE tax.

Nevertheless, the tax credit was claimed on 2,369 tax returns for tax year 2023, totaling $133.8 million, which was the largest tax credit claim in 2023.

## 4.2. EXPIRED TAX CREDITS

### *4.2.1. Tax Credits to Encourage Certain Industries or Economic Activities*

1. High Technology Business Investment Tax Credit (HRS §235-110.9, §241-4.8, §431:7-209)

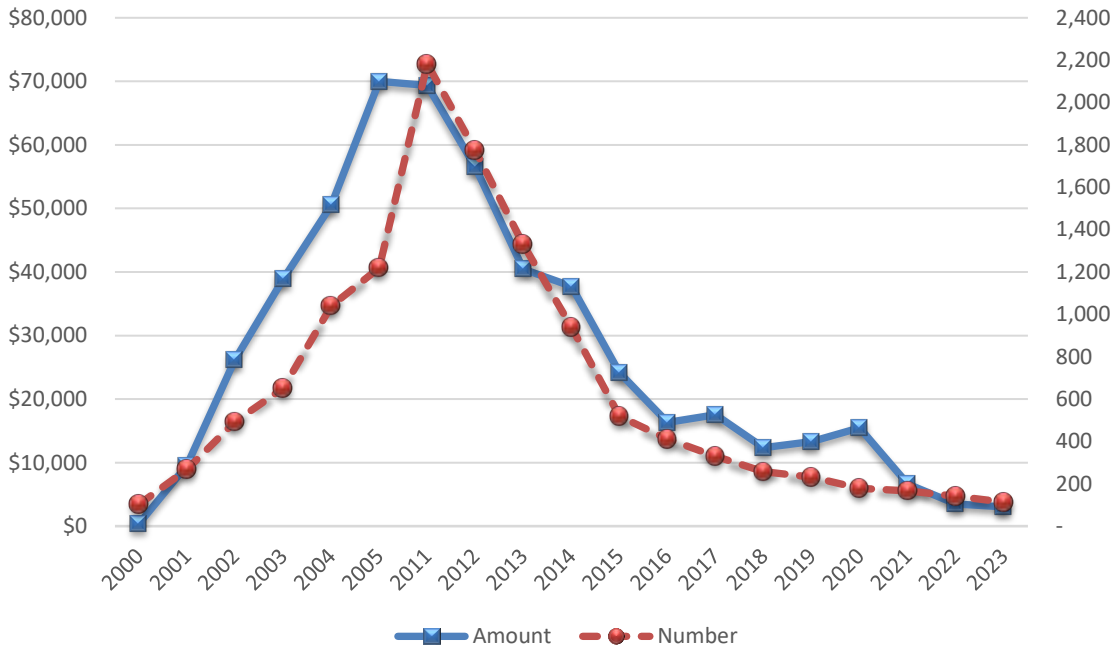
Taxpayers were allowed to claim the high technology business investment tax credit for tax years beginning after December 31, 1998. As originally enacted, the tax credit was nonrefundable and equal to 10% of investments made on or after July 1, 1999, in a qualified high technology business, up to a maximum credit amount of $500,000. Act 221, SLH 2001, expanded the tax credit to 100% of the qualified investment, up to a maximum of $2 million per investment.

The tax credit was claimed over five years as follows:

| | Tax Credit Percentage | Tax Credit Limitation |
|---|---|---|
| Year of investment | 35% | $700,000 |
| Year 2 | 25% | $500,000 |
| Year 3 | 20% | $400,000 |
| Year 4 | 10% | $200,000 |
| Year 5 | 10% | $200,000 |

Taxpayers who had previously claimed the 10% investment tax credit for tax years 1999 or 2000 were able to claim the tax credit for tax years 2001 and later as applicable under the amended law. For investments made after May 1, 2009, and for taxable years beginning on or after January 1, 2009, and ending before January 1, 2011, no claim for the tax credit could exceed 80% of the taxpayer's tax liability. The tax credit expired for taxable years beginning after December 31, 2010, but claims for the tax credit can be made for four years after the year of the investment. Carry-overs of the tax credit can continue indefinitely. The tax credit was claimed on 114 tax returns for tax year 2023, totaling $3.0 million, down from $3.5 million in 2022 and $6.6 million in 2021.

**Figure 20. The Amount (in $1,000) and Number of High Technology Business Investment Tax Credit Claims by Year**



Before its expiration in 2011, claims for the tax credit grew year over year. The claims have been declining after 2011, indicating the gradual exhaustion of the remaining carryover credits (Figure 20).

2. Energy Conservation Tax Credit (HRS §235-12)

Taxpayers who installed an energy conservation device prior to July 1, 2003, could claim the energy conservation tax credit, which was nonrefundable. The tax credit applied only to the actual cost of the systems, including accessories and installation, but not the cost of repairs to existing systems.

The tax credit was equal to 35% of the cost of solar systems, 20% of the cost of wind energy systems and heat pumps, and 50% of the cost of ice storage systems. The eligible cost was reduced by any consumer incentive premiums offered with the system. For

single-family residential buildings, the tax credit was limited to $1,750 for solar systems and $400 for heat pumps. For multiunit residential buildings, the tax credit was limited to $350 per unit for solar systems and $200 per unit for heat pumps. There were no limits for hotels, commercial buildings, industrial facilities, wind energy systems, or ice storage systems. The tax credit expired on June 30, 2003, but unused tax credits may be carried over to subsequent years until exhausted. Data on carryovers of the tax credit are included with those for the renewable energy technologies income tax credit.

3. Hotel Construction and Remodeling Tax Credit (HRS §235-110.4, repealed)

The hotel construction and remodeling tax credit was repealed by Act 9, SLH 2007, but unused credits from claims made prior to the expiration date may be carried forward and applied against tax. Although the tax credit was not repealed until 2007, it was not available for costs incurred in taxable years beginning after December 31, 2005. Data on the tax credit have been suppressed to prevent potential disclosure of confidential taxpayer information from 2020 to 2023.

4. Technology Infrastructure Renovation Tax Credit (HRS §235-110.51)

The technology infrastructure renovation tax credit was nonrefundable and was equal to 4% of costs incurred after December 31, 2000, for planning, designing, installing, constructing, or purchasing equipment to provide a commercial building with technology infrastructure. The tax credit was not available for taxable years beginning after December 31, 2010, but amounts claimed for the tax credit prior to its expiration can be carried forward and applied against tax liability in later years until exhausted. For costs incurred after May 1, 2009, and for taxable years beginning on or after January 1, 2009, and ending before January 1, 2011, no claim for the tax credit could exceed 80% of the taxpayer's tax liability. Data for tax year 2021 to 2023 have been suppressed to prevent potential disclosure of confidential taxpayer information. The tax credit amounted to $75,000 in 2020.

5. Residential Construction and Remodeling Tax Credit (HRS §235-110.45, repealed)

Act 10, SLH 2001, Third Special Session, provided a nonrefundable tax credit equal to 4% of home construction or renovation costs incurred after December 31, 2000, up to a maximum of $250,000. The tax credit expired on June 30, 2003, but any unused tax credit may be carried over to subsequent years until exhausted. Carryovers of the tax credit were claimed on 12 tax returns in 2023, totaling $549,000. This is up from $448,000 in 2022 and $240,000 in 2021.

6. Capital Infrastructure Tax Credit (HRS §235-17.5, §241-4.4)

Act 200, SLH 2014, established the capital infrastructure tax credit for tenants who were relocated due to the Kapalama container terminal modernization project and Act 213,

SLH 2017 expanded it and raised the cap from $1.25 million to $2.5 million. The tax credit is equal to 50% of the capital infrastructure costs incurred by the qualified infrastructure tenant during the taxable year, up to a maximum of $2.5 million. The tax credit is nonrefundable and available for taxable years beginning after December 31, 2013, but not for taxable years beginning after December 31, 2019. Act 260, SLH 2019, repealed the tax credit entirely. Thus, 2019 was the last year when this credit could be claimed. However, unused tax credits claimed before tax year 2020 can be carried over to future years until exhausted. The tax credit was claimed on 24 tax returns for tax year 2023, totaling $417,000. This is down from $643,000 in 2022 and $1.3 million in 2021.

7. Cesspool Upgrade, Conversion or Connection Income Tax Credit (HRS §235-16.5)

Act 200, SLH 2014, established the credit for the costs to upgrade or convert a qualified cesspool into a septic system or an aerobic treatment unit system, or to connect a qualified cesspool to a sewer system, effective for taxable years beginning after December 31, 2015, but expires after December 31, 2020. Act 125, SLH 2017 expanded the definition of qualified cesspool. Act 133, SLH 2018 eliminated the provision preventing certification of more than two residential large-capacity cesspools as qualified cesspools. This nonrefundable tax credit is equal to the qualified expenses of the taxpayer, up to a maximum of $10,000 per cesspool or $10,000 per residential dwelling connected to a residential large-capacity cesspool. The taxpayer must obtain a certificate by the Department of Health verifying the qualified expenses and the credit amount for the taxable year and file this certificate with their tax return. The annual amount of certified credits is capped at $5 million. Any remaining applications for certification above the cap for that taxable year may be carried forward to the subsequent year for certification in that taxable year. The tax credit expired in 2021, but the carryover was claimed on 15 tax returns in 2023, totaling $35,000, up from $29,000 in 2022 but down from $133,000 in 2021.

8. Organic Foods Production Tax Credit (HRS §235-110.94)

Act 258, SLH 2016, provides that a qualified taxpayer incurring qualified expenses associated with the production or handling of organic foods may claim a nonrefundable organic foods production tax credit for taxable years beginning after December 31, 2016, and before December 31, 2021. The tax credit is 100% of qualified expenses up to a maximum of $50,000 per qualified taxpayer. The amount of tax credits certified, by the Department of Agriculture, in any given tax year cannot exceed $2 million. The tax credit expired in 2022, but the carryover was claimed on 9 tax returns in 2023, totaling $51,000. This is down from $55,000 in 2022 and $96,000 in 2021.

# APPENDIX B

# TAX CREDIT HISTORY

(This page is intentionally left blank)

## Table B-1
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 1965 | 155 | Consumer-type | Range established at $18 to $0.45 per qualified exemption based on modified adjusted gross income (MAGI). |
| | 155 | Education credit | Set at $50 to $2 for higher education, $20 to $2 for K12, based on modified adjusted gross income (MAGI). |
| 1967 | 229 | Credit against individual income tax | Formerly named the consumer-type credit; limited to residents with MAGI under $7,000; credit range changed to $20 to $1 per qualified exemption. |
| | 229 | Education credit | Limited to residents with adjusted gross income (AGI) under $7,000. |
| 1969 | 60 | Credit against individual income tax | Expands upper income limit to MAGI under $10,000, raises maximum credit per qualified exemption to $21. |
| 1970 | 180 | Drug and medical expense credit | Credit range established at 4% to 1% of expenses, based on MAGI under $14,000. |
| | 180 | Rent credit | Credit range of 2% to 1% of rent paid, inversely graduated to AGI under $15,000. |
| 1971 | 59 | Drug and medical expense credit | Person aged 65 or older allowed two exemptions beginning with 1972 tax year. |
| 1974 | 221 | Excise credit | Replaces four previous credits: credit against individual income tax, education, drug and medical expense, and rent credits; set at $30 to $6 per qualified exemption based on AGI under $15,000. |
| 1976 | 189 | Energy device credit | Set at 10% of cost of solar device installed after 12/31/74 but before 12/31/81. |
| | 208 | Excise credit | Raises maximum credit to $40 per qualified exemption; raised AGI ceiling to under $20,000; person aged 65 or over allowed two exemptions. |
| 1977 | 15 | Rent credit | Set at $20 per qualified exemption; AGI must be less than $20,000 and annual rent must be greater than $1,000; age 65 or over allowed two exemptions. |
| | 196 | Child and dependent care credit | Set at 5% of care expenses; maximum credit $100 for one and $200 for two or more qualified dependents. |
| 1978 | 19 | Hot water insulation credit | Up to $30 for cost of materials; expired 12/31/84. |
| 1980 | 228 | Excise Credit | Increases credit per qualified exemption; new range $48 to $8. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 1981 | 230 | Rent credit | Raised to $50 per qualified exemption. |
| | 231 | General income credit | Set at $100 per qualified exemption. |
| | 233 | Energy device credit | Expanded to include home heat pumps and wind energy devices; extended expiration date to 12/30/85. |
| | 234 | Child and dependent care credit | Raised to 10% of expenses; maximum credit raised to $200 for one and $400 for two or more qualified decedents. |
| 1982 | 25 | Child and dependent care credit | Changed to graduated credit ranging from 15% to 10% of expenses, based on AGI; maximum credit raised to $360 for one and $720 for two or more qualified dependents. |
| | 134 | Child passenger restraint credit | Set at $25 per return for purchase of qualified care seat. |
| | 265 | General income credit | Reduced to $25 per qualified exemption. |
| 1983 | 67 | Energy device credit | Eligibility extended to heat pumps for commercial use. |
| | 97 | General income credit | Reduced to $1 per qualified exemption. |
| 1984 | 55 | General income credit | $1 per qualified exemption. |
| 1985 | 81 | General income credit | $1 per qualified exemption. |
| | 232 | Energy device credit | Extended expiration date to 12/30/92; increases to 15% if federal energy credit not extended beyond 12/31/85. |
| 1986 | 49 | General income credit | $1 per qualified exemption. |
| | 66 | Energy device credit | Raised to 15% if federal energy credit not retroactively extended or reenacted. |
| | 70 | Energy device credit | Expanded to include ice storage systems with credit set at 10% of cost. |
| 1987 | 41 | General income credit | $1 per qualified exemption. |
| | 239 | Food credit | Set at $45 per qualified exemption; to expire 12/31/90. |
| | 239 | Capital goods excise credit | Set at 3% of cost of qualified tangible business property for tax year 1988 and 4% of cost for 1989 and thereafter. |
| 1988 | 11 | Excise credit | Credit range changed to $55 to $10 per qualified exemption; AGI ceiling raised to $30,000. |
| | 185 | General income credit | $1 per qualified exemption. |
| | 216 | Low-income housing credit | 30% credit on the qualified basis of each low-income building located in Hawai'i as provided in IRC section 43(b). |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 1989 | 307 | Energy device credit | Raised to 20% of cost if placed in service after 12/31/89. |
| | 321 | Medical services excise credit | Set at 4% of qualified medical expenses; maximum credit $200 for most residents, $400 if 65 or older, and $600 if both joint taxpayers 65 years or older. |
| | 321 | Rent credit | AGI ceiling raised to $30,000. |
| | 321 | Child and dependent care credit | Credit made refundable if it exceeds tax liability; AGI ceiling for maximum 15% rate raised from $10,000 to $22,000. |
| | 322 | Child and dependent care credit | Raises rate to 25% to 15% of qualified expenses effective after 12/31/89. |
| | 323 | General income credit | $125 per qualified exemption. |
| 1990 | 98 | Renter's credit | Allows residents with no taxable income to claim the credit. |
| | 186 | General income credit | Reduced to $60 per qualified exemption. |
| | 187 | Food/excise credit | Repeals excise credit and created a permanent food/excise credit; food credit increased from $45 to $55 per qualified exemption; no change in excise credit rates. |
| | 319 | Energy device credit | Extends expiration date to 12/31/98; credit ceilings set according to device and type of dwelling: solar device--lesser of 35% of cost or $1,750 if placed in single-family dwelling or $350 if placed in multi-family dwelling, no cap for hotel, commercial, or industrial installation; heat pump--lesser of 20% of cost or $400 if installed in single-family unit or $200 if placed in multi-family unit; no cap for hotel, commercial, or industrial installations; wind energy device--rate increased from 15% to 20% of cost; ice storage systems--rate increased to 50% of cost if installed and placed in service after 12/31/90. |
| 1991 | 137 | Job credit | 20% of wage up to $1,200 per vocational rehabilitation employee. |
| | 179 | General income credit | $1 per qualified exemption. |
| | 217 | Medical services excise credit | Extends the medical service excise credit to 12/31/96. |
| 1992 | 128 | General income credit | $1 per qualified exemption. |
| 1993 | 184 | General income credit | $1 per qualified exemption. |
| | 315 | Medical services excise credit | 6% of nursing facility expenses. |
| 1994 | 85 | General income credit | $1 per qualified exemption. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 1995 | 23 | Medical services excise credit | Repeals the 4% portion of the tax credit and retains 6% of the nursing facility tax portion. |
| | 93 | General income credit | $1 per qualified exemption. |
| | 134 | Medical services excise credit | Repeals the medical service tax credit and the nursing facilities tax credit. |
| | 134 | Food/excise credit | Reduces the food portion of the food/excise tax credit from $55 to $27 per qualified exemption, and repeals the excise portion of the food/excise tax credit. |
| 1996 | 286 | Enterprise zone credit | Exempts general excise taxes on the gross proceeds from manufacture of tangible personal property, the wholesale of tangible personal property, or the engaging in a service business by qualified businesses in the enterprise zone. |
| 1997 | 107 | Motion picture credit | Provides an income tax credit of up to 4% of costs incurred, and of up to 6% of transient accommodations costs incurred in the production of motion picture or television films in the state. |
| | 108 | Hotel remodeling credit | Provides an income tax credit equal to 4% of the renovation costs for each qualified hotel facility located in Hawai‘i, with tax credit cap of 10% of the transient accommodations tax paid by the taxpayer in the preceding tax year. |
| 1998 | 156 | Motion picture credit | Increases credit from 6% to 7.25% of transient accommodations costs incurred. |
| | 157 | Food tax credit | Repeals food tax credit beginning tax year 1999. |
| | 157 | Low-income credit | Establishes refundable graduated low-income credit beginning tax year 1999. |
| | 163 | Energy device credit | Extends sunset date for energy device credits to July 1, 2003. |
| 1999 | 24 | Low-income housing credit | Expands to include insurance companies. |
| | 160 | IDA credit | IDA tax credit up to 50% of contribution to an individual development account (IDA). |
| | 178 | High technology credit | 10% of the investment made by the taxpayer in each qualified high technology business, up to a maximum allowed credit of $500,000, effective tax years 1999 to 2005. |
| | 178 | Research activity credit | Adopts federal income tax credit for increasing research activities, effective tax years 2000 to 2005. |
| | 306 | Qualified improvement credit | Qualified improvement tax credit for capitalized costs of construction and equipment of a permanent nature with respect to resort and hotel properties. Unspecified percent of credit may be applied against GET, income, PSC or TAT. |
| 2000 | 148 | Low-income housing credit | Allows partnerships to claim low-income housing credit. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 2000 | 184 | Individual development account | 5% of amount contributed to an IDA up to $1 million, between January 01, 2000, and December 31, 2004. |
| | 174 | Research activity credit | Retains credit for increasing research activities, even if federal credit is repealed. |
| | 289 | Ethanol investment credit | 16 step investment tax credits for ethanol production facility based on gallons produced, capped at lesser of 30% of investment of specified dollar amount per step. Effective after December 31, 2001. |
| | 297 | Research activity credit | Makes the credit refundable. |
| | 297 | High technology credit | Eases requirements to qualify for credit. |
| 2001 | 36 | General income credit | $1 per qualified exemption. |
| | 221 | Research activities credit | Removes requirement for increasing research. |
| | 221 | High technology business investment credit | Increases maximum credit to $2 million and credit percentage to 100%. |
| | 221 | Technology infrastructure renovation income tax credit | Provides a nonrefundable technology infrastructure renovation income tax credit equal to 4% of the "renovation costs" for each commercial building located in Hawai'i. The credit is available for tax years 2001 through 2005. |
| | 293 | Drought mitigation credit | 4% of cost of construction or repair of qualified water storage facility for farmers and ranchers. |
| | 309 | School repair and maintenance credit | 10% of fair-market value of repair and maintenance of public schools by licensed contractors. |
| 2001 (3rd SS) | 10 | Hotel construction and remodeling credit | Increases credit to 10% of costs and makes it nonrefundable until June 30, 2003. |
| | 10 | Residential construction and remodeling credit | 4% of cost of new residential construction or remodeling. |
| 2002 | 63 | General income credit | $1 per qualified exemption. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 2002 | 174 | Residential construction and remodeling credit | Extends the credit to costs incurred before July 1, 2003. |
| 2003 | 207 | Renewable energy technologies credit (Energy device credit) | Energy technology installed and placed in service after 6/30/03. Credit ceilings set according to device and type of dwelling: solar-device-lesser of 35% of cost or $1,750 if placed in single family dwelling, $350 for multi-family dwelling, $250,000 for commercial properties; wind powered system-lesser of 20% of cost or $1,500 if installed in single family unit, $200 if placed in multi-family unit, or $250,000 if placed in a commercial property; photovoltaic energy systems-lesser of 35% of cost or $1,750 if installed in single family unit, $350 if installed in multi-family unit, $250,000 if installed in a commercial property. |
| | 100 | Ko Olina resort and marina attractions and educational facilities tax credit | Establishes a nonrefundable, carry-forward tax credit for qualified costs incurred for the development of attractions and educational facilities at the Ko Olina resorts and marina, or for the development of a training and educational facility at the Makaha Resort. It takes effect on May 29, 2003, and is available for tax year 2005. |
| 2004 | 97 | Renewable energy technologies credit (Energy device credit) | Clarifies that the tax credit is nonrefundable, and that unused credit may be claimed in subsequent years until exhausted. Allows financial institutions to claim the credit for taxable years beginning after 12/30/02, provided that the system was installed after 6/30/03. |
| | 140 | Ethanol Facility tax credit | Clarifies that the tax credit is equal to 30% of the ethanol production facility's nameplate capacity if greater than 500,000 but less than 15 million gallons. Tax credit is limited to 100% of the total of all investments made by the taxpayer during the 8-year tax credit period. Requires that the facility be operating at a level of production of at least 75%. Facility must be in production before 1/1/12. Effective 7/01/04 and applied to taxable years beginning after 12/21/03. |
| | 215 | Technology infrastructure renovation tax credit, high technology tax credit and tax credit for research activities | Extends the technology infrastructure renovation tax credit, the high technology business investment tax credit, and the tax credit for research activities for another five years. |
| 2005 | 196 | Low-income housing tax credit | Provides incentives for developers to build affordable housing projects by increasing the low-income housing tax credit from 30 to 50 percent of the applicable percentage of the qualified basis of each building located in Hawai‘i. Effective 7/01/05. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 2006 | 88 | Motion Picture and Film Production Income Tax Credit | Increases the Motion Picture and Film Production income tax credit to 15% or 20% of qualified production costs, depending on locale of production. Effective for production occurring after June 30, 2006. |
| | 110 | Tax Credit for Flood Victims | Establishes the one-time Tax Credit for Flood Victims, for non-reimbursable costs stemming from the Manoa flooding of October 30, 2004, and the statewide flooding during the first quarter of 2006. |
| | 240 | Renewable energy | Increases the limits on the Renewable Energy Technologies credit for single-family residential systems to $2,250 (for solar thermal systems) or $5000 (for photovoltaic systems). Increases the limits for commercial systems to $500,000 per system. Higher limits effective for systems installed after June 30, 2006. |
| 2007 | 128 | Ethanol Facility tax credit | Extended the date for which a qualified ethanol production facility must be in production for purposes of qualifying for the Ethanol Production Facility tax credit by five years, to 1/1/2017. |
| | 151 | Renewable Energy | Requires that all renewable energy technology systems be in the State in order to qualify for the Renewable Energy Technologies tax credit. Applies to taxable years beginning after 12/31/2006. |
| | 210 | General income credit | The credit is refundable and declines as federal AGI increases. The maximum credit is $160 (for married filing jointly with federal AGI under $5,000). |
| | 211 | Food/Excise tax credit | Changes the name of the Low-Income Refundable tax credit to the Refundable Food/Excise tax credit. Amends the credit payout schedule and the adjusted gross incomes. The highest payout is $85 for federal AGI under $5,000 per exemption. Effective for taxable years beginning after 12/31/2007. |
| 2008 | 58 | General income credit | Provides a refundable credit of $1 per exemption (not including extra exemptions for age or disability). |
| | 204 | Renewable energy | Requires single family residences with building permits issued after 1/1/2010 to include a solar hot water heating system and disallows the Renewable energy credit for the required systems. For solar, wind or photovoltaic systems placed in service after 12/21/2008, residential home developers are ineligible to claim the credit. |
| | 143 | Enterprise Zone tax credit | Extends Enterprise Zone benefits to certain qualifying agricultural businesses, including processing of agricultural products. Effective 7/1/2008. |
| | 233 | Important Agricultural Lands tax credit | Provides a refundable tax credit for certain costs benefiting property designated as "Important Agricultural Land," effective 7/1/2008. |
| 2009 | 84 | General income credit | Provides a refundable credit of $1 per exemption, excluding multiple exemptions for age or disability. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 2009 | 154 | Renewable Energy | Combines solar and photovoltaic systems into the single category "solar." The caps per system are unchanged, however, as solar systems used to heat water are still subject to the lower cap of $2,250 per system. An election is granted to make the credit refundable for systems placed in service on or after 7/1/2009. |
| | 155 | Renewable Energy | Amends the requirement that a building permit not be issued for new single-family dwellings that to not include a solar water heating system on or after 1/1/2010. |
| | 174 | Enterprise Zone tax credit | Amends the definitions of eligible business. Allows agricultural producers, manufacturers and wholesalers to renew eligibility in the program for an additional three years. Effective 7/1/2009. |
| | 178 | High technology credit and the technology infrastructure renovation tax credit | For investment made, or renovations costs incurred, on or after May 1, 2009, provides that beginning after January 1, 2009, and ending before January 1, 2011, no claim for qualified high technology business investment tax credits or technology infrastructure renovation tax credits under income tax, taxation of banks and other financial corporations, and insurance shall exceed 80 percent of a taxpayer's tax liability, and no credit carryover is allowed. |
| 2010 | 21 | All tax credits | Requires refundable credits to be claimed first, followed by nonrefundable credits after 1/1/2010. |
| 2011 | 158 | Low-income housing tax credit | Grants low-income housing tax credit loans in lieu of low-income housing tax credits and provides a tax credit for certain awards under the American Recovery and Reinvestment Act of 2009. Applies to qualified buildings placed in service after 12/31/2011. |
| 2013 | 89 | Motion Picture and Film Production Income Tax Credit | Extends the Motion Picture and Film Production income tax credit to January 1, 2019, increases the credit ceiling amount from $8 million to $15 million per qualified production, and increases the credit amount from 15% to 20% of qualified production costs in a county with a population of over 700 thousand and increases the credit amount from 20% to 25% in a county with a population of 700 thousand or less. Effective for production occurring after June 30, 2013. |
| | 270 | Tax Credit for Research Activities | Reenacts the State tax credit for research activities. The State credit is equal to 20% of qualified research expenses incurred in Hawai'i. The new credit is effective for tax years beginning after December 31, 2012. The Act sunsets December 31, 2019. |
| 2014 | 101 | Important Agricultural Lands Tax Credit | Clarifies that the tax credit amount is 25% of qualified agricultural costs or $625,000 in the first year, the lesser of 15% of qualified costs or $250,000 in the second year, and the lesser of 10% of qualified costs or $125,000 in the third year. |
| | 200 | Capital Infrastructure Tax Credit | Establishes a capital infrastructure tax credit for tenants who are relocated due to the Kapalama container terminal modernization project. The tax credit is the lesser of 50% of the capital infrastructure costs paid or incurred by the qualified infrastructure tenant during the taxable year or $1,250,000. The tax credit is available for taxable years beginning after December 31, 2013, but not for taxable years beginning after December 31, 2019. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 2015 | 120 | Cesspool Upgrade, Conversion or Connection Tax Credit | Creates a temporary, nonrefundable income tax credit for the costs incurred in converting a qualified cesspool to a septic system or to an aerobic treatment unit system, or for the cost of connecting a cesspool to a sewer system. The Department of Health must certify all credit claims, and the credit amount is 100% of qualified costs up to a maximum of $10,000 per taxpayer. The amount of tax credits certified in any given tax year cannot exceed $5 million. The Tax credit is available for taxable years ending after December 31, 2015, but not for taxable years ending after December 31, 2020. |
| | 223 | Refundable Food/Excise Tax Credit | Amends the Refundable Food/Excise Tax Credit in several ways. First, removes the requirement that the individual claiming the credit must have resided in the State for nine months during the taxable year and replaces it with a requirement that the individual must have been physically present in the state for nine months during the taxable year. Second, adjusts the maximum adjusted gross income an unmarried individual taxpayer may have in order to be eligible to claim the credit. Third, adjusts the amount of credit per qualified exemption available to eligible taxpayers. Applies to taxable year beginning after December 31, 2015, but is repealed December 31, 2017, and the law as it read prior to this Act's amendments will be reenacted. |
| 2016 | 129 | Low-Income Housing Tax Credit | The tax credit is amended by shortening the time over which the credit is taken from ten years to five years for qualified low income buildings awarded credits for taxable years 2017 to 2021. |
| | 182 | Cesspool Upgrade, Conversion or Connection Tax Credit | Amends the Income Tax Credit for Converting Cesspools by correcting an oversight made when section 235-16.5, HRS, was enacted last session, and permits large capacity cesspools to qualify for the credit, with each tax map key parcel associated with the large capacity cesspool eligible for the credit of up to $10,000. |
| | 202 | Ethanol Facility Tax Credit | Repeals the Ethanol Facility Tax Credit is for taxable years beginning after December 31, 2016. |
| | 202 | Renewable Fuels Production Tax Credit | Act 202 also creates a new nonrefundable tax credit for the production of renewable fuels for taxable years 2017 to 2021. The credit is available for five consecutive years beginning with the first taxable year in which the taxpayer claiming the credit begins producing at least 15 billion British thermal units of renewable fuel per year. |
| | 235 | Credit for Child and Dependent Care Expenses | Amends the credit for taxable years beginning after December 31, 2015, by increasing the credit amount that certain taxpayers may claim for expenses for household and dependent care services necessary for gainful employment. It modifies the phase-down of percentage of expenses on which the credit can be claimed at various AGI thresholds. |
| | 258 | Organic Foods Production Tax Credit | Creates a nonrefundable tax credit for expenses incurred to produce organic agricultural products and to obtain organic certification for taxable years 2017 to 2021. The Department of Agriculture is responsible for certifying all credit claims. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 2017 | 107 | Refundable Food/Excise Tax Credit | Repeals the sunset date for the amendments made to the tax credit by Act 223, SLH 2015, rendering them permanent. |
| | 107 | Earned Income Tax Credit | Establishes a state nonrefundable earned income tax credit (EITC) equal to 20 percent of the federal EITC allowed and properly claimed under section 32, IRC, and reported on the taxpayer's federal income tax return. The state EITC applies to taxable years beginning after December 31, 2017, but shall not apply to taxable years beginning after December 31, 2022. |
| | 125 | Cesspool Upgrade, Conversion or Connection Tax Credit | Expands the class of cesspools which are eligible to claim the credit to include: (1) A cesspool within 500 feet (increased from the current 200 feet) of a shoreline, perennial stream, or wetland; (2) A cesspool shown to impact drinking water supplies or recreational waters; or (3) A cesspool certified by a county or private sewer company to be appropriate for connection to its existing sewer system. |
| | 142 | Renewable Fuels Production Tax Credit | Changes the certification process for the tax credit. Taxpayers claiming a credit must file a third-party-certified statement with the Department of Business, Economic Development, and Tourism (DBEDT) within 30 days after the close of the calendar year with information on the type and amount of qualified fuel, type of feedstock used, amount of the credit, number and residency of employees of the facility, and number and location of all renewable fuel production facilities. DBEDT will thereafter issue a certificate to the taxpayer with the amount of renewable fuels produced and sold, amount of credit the taxpayer is entitled to claim for the previous calendar year, and the cumulative amount of the credit during the period. |
| | 143 | Motion Picture and Film Production Income Tax Credit | For taxable years beginning after December 31, 2018, several amendments are made to the tax credit including provisions to (1) extend the repeal date from January 1, 2019, to January 1, 2026, (2) limit the total credit to $35 million per year, and (3) amend the qualifications a production must meet in order to claim the credit. |
| | 213 | Capital Infrastructure Tax Credit | Makes several amendments to the tax credit including provisions to (1) double the amount of credit per taxable year from $1.25 million to $2.5 million, and (2) include structures, machinery, equipment, and capital assets in the definition of “capital infrastructure costs”. |
| 2018 | 43 | Healthcare Preceptor Tax Credit | Establishes an income tax credit for advanced practice registered nurses, pharmacists, and physicians who supervise volunteer-based supervised clinical training rotations. The credit is equal to $1,000 per rotation supervised by the taxpayer, up to a maximum of $5,000 per taxpayer per year. Additionally, the credit is subject to an aggregate cap of $1,500,000 per year. It also establishes the Preceptor Credit Assurance Committee. The Committee certifies all claims for the credit and issues taxpayers a certificate verifying the number of rotations supervised. The Department is authorized to require taxpayers to furnish this certificate to claim the credit. The Committee is also tasked with ceasing certifications if total claims for certification reach the aggregate cap during any year. Act 43 applies to taxable years beginning after December 31, 2018. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 2018 | 87 | Important Agricultural Land Qualified Agricultural Cost Tax Credit | Extends the Important Agricultural Land Qualified Agricultural Cost Tax Credit through taxable year 2021. |
| | 133 | Cesspool Upgrade, Conversion or Connection Tax Credit | Eliminates the provision preventing certification of more than two residential large capacity cesspools as qualified cesspools. The Act applies to taxable years beginning after December 31, 2017. |
| | 143 | Renewable Fuels Production Tax Credit | Amends the renewable fuels production tax credit (RFPTC), as follows:<br>• Lowers the production threshold for eligibility for the credit from 15 billion British thermal units of renewable fuels per calendar year to 2.5 billion British thermal units per calendar year; and<br>• Adds logs, wood chips, wood pellets, wood bark, and other renewable organic material to the definition of "Renewable feedstocks" which qualify for the credit.<br>It applies to taxable years beginning after December 31, 2017. |
| 2019 | 261 | Tax Credit for Research Activities | Amends the Tax Credit for Research Activities (TCRA) such that references to the base amount contained in section 41 of the IRC do not apply, and credit may be taken based upon all qualified research expenses incurred in Hawai'i without regard to the amount of expenses for previous years. The Act provides that the Department of Business, Economic Development, and Tourism must certify all claims for the tax credit and establishes an annual aggregate cap of $5,000,000. Taxpayers must still claim the federal research credit under IRC section 41 to claim the TCRA. Act 261 is effective for taxable years beginning after December 31, 2019, and extends the TCRA through December 31, 2024. |
| | 267 | Historic Preservation Income Tax Credit | Establishes a new, nonrefundable income tax credit for taxpayers who rehabilitate historic structures pursuant to a rehabilitation plan certified by the Department of Land and Natural Resources' State Historic Preservation Division (SHPD). The credit is equal to 30% of the qualified expenses incurred as part of the certified rehabilitation plan. In addition, the credit is subject to an aggregate cap of $1,000,000 per year and is subject to recapture if the projected expenditures do not materialize, or the rehabilitation does not proceed in a timely manner or in accordance with the approved plan. The Act is effective July 1, 2019, and applies to qualified rehabilitation expenditures incurred in taxable years beginning after December 31, 2019 and is repealed on December 31, 2024. |
| | 260 | Ship Repair Industry Tax Credit | Establishes a new Ship Repair Industry Tax Credit which is intended to offset costs incurred in constructing and placing into service a purpose-built floating drydock at Pearl Harbor for use by the United States Navy, provided that no credit is allowed after December 31, 2026. The Act is effective on January 1, 2020, and applies to taxable years beginning after December 31, 2021. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 2019 | 260 | Capital Infrastructure Tax Credit | Repeals the Capital Infrastructure Tax Credit under section 235-17.5, HRS. |
| | 275 | Motion Picture, Digital Media, and Film Production Tax Credit | Amends motion picture, digital media, and film production income tax credit (film credit) by increasing the film credit annual aggregate cap from $35 million to $50 million. The Act is effective July 10, 2019, and applies to taxable years beginning after December 31, 2018. |
| 2020 | 61 | Renewable Energy Technologies Income Tax Credit | Disallows the Renewable Energy Technologies Income Tax Credit for commercial projects of 5 megawatts of total output capacity or greater. The Act also provides multiple exceptions, including for systems subject to a power purchase agreement which receives Public Utilities Commission (PUC) approval or was pending approval before December 31, 2019, and for certain systems integrated with a pumped hydroelectric energy storage system where the requisite approval filings are submitted to the PUC by December 31, 2021. The Act is effective December 31, 2019. |
| 2021 | 226 | Low-Income Housing Tax Credit | Relaxes the rules on allocating the Low-Income Housing Tax Credit (LIHTC), allowing taxpayers to allocate the credit freely among their partners or members. Act 226 also relaxes the installment method, at-risk, and passive activity loss rules applicable to the LIHTC and allows the Hawai'i LIHTC to be claimed in the initial year even if federal Form 8609 has not been received by the taxpayer. However, Act 226 expressly prohibits the deductions and expenses claimed by all Hawai'i taxpayers to exceed the deductions and expenses claimed by all taxpayers on federal returns.<br><br>Finally, Act 226 extends the shortened credit period provided by Act 129, Session Laws of Hawai'i 2016 (Act 129), to apply through December 31, 2027. This extension is not repealed when section 235-110.8, HRS, is repealed and reenacted on December 31, 2027. |
| 2022 | 114 | Earned Income Tax Credit | Act 113 makes the State earned income tax credit permanent. It makes the credit refundable beginning with the 2023 tax year. All carryforwards of nonrefundable EITC expire at the end of the 2024 tax year. |
| | 139 | Important Agricultural Land Qualified Agricultural Cost Tax Credit | Extends the period during which the important agricultural land qualified agricultural cost tax credit is available through tax year 2030. |
| | 216 | Renewable Fuels Production Credit | Act 216 (Senate Bill 2478, S.D. 2, H.D. 2, C.D. 1) reinstates the Renewable Fuels Production Tax Credit (RFPTC), which was previously codified at section 235-110.31, HRS, before its duly scheduled repeal on December 31, 2021. Act 216 also allows the RFPTC to be refunded under certain conditions. Act 216 became effective on June 27, 2022, and applies to taxable years beginning after December 31, 2021. |

## Table B-1 (Cont.)
## Outline of Tax Credit History by Year of Enactment

| Year | Act | Type of Tax Credit | Description of the Tax Credit or Its Modification |
|---|---|---|---|
| 2023 | 50 | Passthrough Entity Tax Credit | Act 50 (Senate Bill 1437, S.D. 1, H.D.2, C.D. 1) amends chapter 235, Hawai‘i Revised Statutes (HRS), to allow partnerships and S corporations to annually elect to pay Hawai’i income taxes at the entity level. Act 50 is effective on January 1, 2024, and applied to taxable years beginning after December 31, 2022. |
| | 163 | Household and Dependent Care Expenses Credit | Act 163 (House Bill 954, H.D. 2, S.D. 2, D.D. 1) amends the household and dependent care services credit in section 235-55.6, HRS, by increasing the cap on employment-related expenses that may be used to claim the credit from $2,400 to $10,000 for one qualifying individual and from $4,800 to $20,000 for two or more qualifying individuals. Act 163 became effective on June 30, 2023, applies to taxable years beginning after December 31, 2022, and will be repealed on December 31, 2027. |
| | 163 | Refundable Earned Income Tax Credit | Act 163 also amends the refundable earned income tax credit in section 235-55.75, HRS, by increasing the amount of the credit from 20% to 40% of the federal earned income tax credit allowed and properly claimed under IRC section 32. Act 163 became effective on June 30, 2023, applies to taxable years beginning after December 31, 2022, and will be repealed on December 31, 2027. |
| | 163 | Refundable Food/Excise Tax Credit | Act 163 amends the refundable food/excise tax credit in section 235-55.85, HRS, by doubling the amount of credit per qualified exemption and increasing the adjusted gross income limits by $10,000 in all income brackets. Act 163 became effective on June 30, 2023, applies to taxable years beginning after December 31, 2022, and will be repealed on December 31, 2027. |

# Introduction

**This publication's basis.** This is a culminating product of several forecasting steps. The first is a national economic forecast, for which DFM is a consumer. For the present publication this is the December 2024 baseline edition of the Moody's forecast for the US economy. On that, DFM bases its *Idaho Economic Forecast*, part of which is included here. That forecast uses similar structure to how the US bureaus of Labor Statistics and Economic Analysis categorize the US economy by job sectors and income types. Upon that forecast, DFM produces both the revenue forecast as well as the tax expenditures forecast.

**Uncertainty in forecasting.** Although the revenue model is specified in precise quantitative terms, several levels of uncertainty exist. Every statistical process relies upon probabilities. Most of these are conditional: the probability of one thing occurring given other events or measurements. Almost always, those probabilities are strictly between 0 and 100%, meaning that there are no guarantees, only likelihoods. As an example, a probability distribution relates wage growth to job growth.

Since most of Idaho's revenue sectors depend heavily on Idaho total personal income level, the revenue forecast is particularly sensitive to those factors that influence Idaho's personal income.

**Economic forecast.** The latest economic forecast can be accessed via

https://dfm.idaho.gov/publication/economicpublications/

and obtaining the latest *Idaho Economic Forecast*. Summary tables within that as well as graphs give an indication of baseline forecast. Numeric details are provided via xlsx link within the introduction of that publication.

# Idaho General Fund Revenue

**Classifications.** Individual income, sales, and corporate income taxes account for about 95 percent of Idaho's General Fund revenue. Historically, individual income tax has been the largest contributor to the General Fund. Sales tax collections have, on net, been greater for several years, but the portion directed to the General Fund has been less than accrued receipts from individual income taxes. Corporate tax receipts have historically been well under half of the value of the other two main streams of income for the General Fund, but that changed in 2022 with corporate tax receipts approaching half of the value of one of those other two main streams of income. In this year, Idaho fiscal 2025, there are again new diversions in the sales tax stream before any sales tax revenue hits the general fund.

Product taxes and miscellaneous revenue sources are the remaining sources of General Fund revenue.

**Method.** All these revenue sources are forecast using a combination of econometric methods. The main econometric method employed is multiple regression, using variables contained in the *Idaho Economic Forecast*. History informs the take-off and trajectories for the forecast, with manual overrides for impending law changes. In particular, the forecasts use all available recent collections history, i.e., receipts to date, meaning receipts through November 2024.

The tables in this text show both history (thus far, and this includes preliminary December data) for Idaho fiscal year 2025 as well as the forecast total for all of Idaho fiscal year 2025.

Within the miscellaneous and product taxes, some components are projected by experts in various Idaho government departments. For example, the insurance premium tax reported in this document has historically been prepared by the staff of the Department of Insurance. This year, we adjusted for expected population growth and inflation going forward.

## Individual Income Tax

Idaho taxable income is derived from federal taxable income. For Idaho residents, income from all sources is taxable in Idaho, with credit provided for taxes paid to other states. For non-residents, only income earned in Idaho is subjected to Idaho income tax. For part-year residents, income from all sources is taxable during the period of Idaho residency, while only income earned in Idaho is subject to Idaho income tax during the period of non-residency.

Although Idaho conforms to most of the federal income tax provisions for determining taxable income, a few differences exist. Idaho's definition of taxable income excludes 100% of social security income, 60% of certain capital gains, and 100% of interest earned on US government securities. Idaho also provides some credits that are not included in the federal tax code. For a complete delineation of Idaho's income tax structure, please refer to the Tax Structure section of this publication.

Idaho income derived from wages and salaries is subject to payroll withholding. Idaho does not require estimated payments for individual income tax, so tax payments derived from business income and most investment income are paid when the tax return is due (typically April 15 following the end of the tax year; notable exceptions to that date have occurred in 2020 and 2021, when the dates were June 15 and May 15).

Most net revenue from income tax is distributed to the General Fund. A notable exception is withholding collections on Idaho lottery winnings: those collections are distributed to public schools and counties. An amount equal to 20% of the individual income taxes collected by the Idaho State Tax Commission is required to be deposited in the State Refund Fund. Any balance exceeding $5 million in this fund at the end of the fiscal year is transferred to the General Fund on June 30. That last amount was set in 63–3067 as part of HB1 from the 2022 special legislative session.

A separate filing tax of $10 per income tax return has been assessed since 1959. Proceeds of the filing tax went to the General Fund until 1961, when their distribution was changed to the Permanent Building Fund. The income tax return form includes a variety of other checkoffs that can be used by the taxpayer to donate various amounts (usually from refunds) to special funds, such as non-game wildlife and veterans' support.

## Sales tax

Idaho's 6% sales tax applies to the sale, rental, or lease of tangible personal property and some services. Sales tax receipts are distributed in the following manner. Revenue sharing receives 11.5% of the gross sales tax collections less refunds and both multistate compact revenues and online sales tax collections headed for the Tax Relief Fund before Idaho fiscal year 2026. The Transportation Expansion and Congestion Mitigation (TECM) Fund is allocated 3.5% of the amount remaining after the revenue sharing distribution, and simultaneously 1% goes towards the local distribution formula for highways. Beginning in fiscal year 2024 4.5% of the money remaining after the TECM distribution was split between the homeowner property tax relief fund and school facilities funds. In fiscal year 2025 and beyond the amount due to the school

facilities fund increased to 3.25%. Beginning in fiscal year 2024 the state directs $410m to fund public education and in-demand careers. The Permanent Building Fund receives $5,000,000. The Water Pollution Control Fund gets $4,800,000. Another $8,487,103 funds the Agricultural Equipment Property Tax Exemption and approximately $20 million is currently dedicated to Personal Property Tax Relief. Other distributions are made to fund the Demonstration Pilot Project and Election Consolidation. All remaining revenue accrues to the General Fund.

## Corporate income tax

Idaho requires corporations to file quarterly payments of estimated taxes. Since its enactment in 1931, all net revenues associated with the corporate income tax have been distributed to the General Fund. An amount equal to 20% of the corporate income taxes is deposited in the State Refund Fund. An additional filing tax of $10 per tax return has been assessed since 1959. That value is now $20.

## Cigarette tax

Idaho's cigarette tax rate is 57 cents per pack of 20 cigarettes. Each year the net amount collected is distributed as follows. The Public School Income Fund and Department of Juvenile Corrections each receive $3,315,000. The Permanent Building Fund receives $5,000,000. The Central Tumor Registry Fund receives $360,000. The Cancer Control Fund receives $300,000. All remaining revenues are distributed as follows. The first $4,700,000 is deposited in the Grant Anticipation Revenue Vehicle (GARVEE) Debt Service Fund. The next $5,000,000 is dedicated to the Secondary Aquifer Planning, Management, and Implementation Fund. All remaining revenue is deposited into the Transportation Expansion and Congestion Mitigation Fund.

Historically, the General Fund received an amount needed to fund the School Bond Levy Equalization Program, but the general fund portion of cigarette taxes was often overriden by session laws.[1] Currently no cigarette tax money is directed to the general fund.

## Tobacco tax

Idaho levies a 35% tax on the wholesale price of tobacco products, except cigarettes provided the tax does not exceed $0.50 per cigar. This amount, net of refunds, is remitted to the General Fund. An additional 5% of the wholesale price is also collected. Half of this additional amount is earmarked for the Public School Income Fund, with $200,000 appropriated to Idaho State Police and $80,000 to the Commission on Hispanic Affairs. The other half of the 5% collected is distributed to the Department of Juvenile Corrections for county juvenile probation services.

## Beer tax

A tax of $4.65 on each 31-gallon barrel of beer is levied if the beer is $< 5\%$ ABV (alcohol by volume). Otherwise the rate is $13.95 per 31-gallon barrel. For the $< 5\%$ ABV beer, the amount collected after refunds is distributed: 20% to the Substance Abuse Treatment Fund (SATF),

[1] For an example, volume 2 can be searched. Press ctrl+f and search for 63-2520(b)(4).

33% to the Permanent Building Fund (PBF), and the remainder to the general fund. For the $\geq$ 5% ABV beer, the distribution phases in, with the stable distribution beginning in Idaho fiscal year 2024, when: 12% goes to the SATF, 5% goes to the Idaho hop grower's commission fund, and the remainder goes to the general fund.

### Wine tax

A tax of $0.45 per gallon is levied on wine.[2] The amount collected after refunds is distributed in a stable maner beginning in Idaho fiscal year 2024; prior to that was a phase-in period. The distribution is: 12% goes to the SATF, 5% of out-of-state wine goes to the Idaho grape growers and wine producers' account while 88% of Idaho wine goes to the Idaho grap growers and wine producers' account, the remainder goes to the general fund.

### Kilowatt-hour tax

Idaho levies a one-half mill ($0.0005) per kilowatt-hour tax on locally produced hydro-generated electricity. However, electricity used by industrial consumers and for irrigation is exempt from this tax. All collections accrue to the General Fund. This tax was enacted on July 1, 1931.

### Mine license tax

Revenue is derived from a 1% "profit" tax on Idaho mining operations. It was initially set at 3% in 1935. It was lowered to 2% in 1972 and lowered again to 1% in 2002. For mining operations without a cyanidation facility, 66% of the net tax collected accrues to the General Fund and the remaining 34% goes to the Abandoned Mine Reclamation Fund. The distribution for the mine license tax collected from mining operations with cyanidation facilities is slightly different. Thirty-three percent of the net tax collected from operations with a cyanidation facility is distributed to the General Fund, 33% goes to the Cyanidation Facility Closure Fund, and the remaining 34% goes to the Abandoned Mine Reclamation Fund.

### Liquor fund

The Idaho Liquor Dispensary distributes income from its operations to several state funds. Two percent of net income is dedicated to the Drug Court, Mental Health Court, and Family Court Services Fund. Half of the amount remaining is distributed to cities and counties. The other half is distributed as follows: the Substance Abuse Treatment Fund receives $2.08 million; the Community College Fund receives $0.8 million; the Public School Income Fund receives $1.2 million; the Cooperative Welfare Fund receives $0.65 million; the Drug Court, Mental Health Court and Family Court Services Fund receives $0.68 million; the Drug and Mental Health Court Supervision Fund receives $0.44 million; and the General Fund receives the remainder.

The forecast is prepared by the Idaho State Liquor Division.

[2] $\$0.45 \times 31$ gallons = $13.95, in case you compare this with the beer tax on 31-gallon barrels of beer.

### Interest earnings

The State Treasurer's interest income is derived from investments of idle state funds. Investments are made in securities permitted per Idaho Code. All net interest earnings, except those derived from the trust and agency funds, accrue to the General Fund.

### Court fees and fines

Revenues are derived from court fees and from 8.6% of all fines and forfeitures collected pursuant to the judgment of any court of the state. In the case of Fish and Game law violations, 2.5% goes to the General Fund. In addition to the previous two items, 80% of the court surcharge fees are distributed to the General Fund.

### Insurance premium tax

Idaho assesses a 1.5% tax on insurance premiums for policies written in Idaho. Premium taxes are collected on a quarterly prepayment basis based upon a percentage of the previous year's business and current year's tax rate. Prepayment percentages are 60% in June, 20% in September, and 15% in December. The balance is paid in March. Up to 20% of the tax collections may be directed to the Insurance Refund Fund. However, the amount in the Insurance Refund Fund that exceeds $40,000 at the end of the fiscal year is transferred to the General Fund. In addition to the refund fund, distributions are made to the Fireman's Retirement and Insolvency Administration funds. Twenty-five percent of the net tax collected in excess of $45 million is paid to the Idaho High Risk Individual Reinsurance Pool and the remainder is deposited into the General Fund.

The insurance premium tax estimate is prepared by the Deparment of Insurance.

### Unclaimed property

The State Treasurer forecasts revenue from unclaimed property from bank accounts, safe deposit boxes, travelers' checks, life insurance policies, utility deposits, and other intangible property that accrue to the state after five years. The state serves as the custodian of these unclaimed properties until they are claimed by their owners. Unclaimed Property Fund balances exceeding $250,000 are transferred to the General Fund by the end of each fiscal year.

### UCC filings

The principal source of revenue from the Secretary of State is derived from the filings of articles of incorporation. The Secretary of State also collects other miscellaneous fees, such as Uniform Commercial Code filing fees and notary fees.

The forecast is provided by the Secretary of State.

### Other departments and transfers

The miscellaneous revenue category includes receipts from other sources, such as the Idaho Historical Society.

# Tax Structure

**Introduction.** This is a guide to the structure of Idaho's primary General Fund revenue sources. It provides an examination of the various departures from the broadly defined base of the income and sales taxes. These two taxes typically supply over 90 percent of the revenue that goes to the General Fund.

We define these departures from the tax base as tax preferences – noting that they derive from the Idaho legislature. The most common forms they take in the codification of taxes are exemptions, credits, exclusions, and deductions. The result is always the same: a tax that is defined based on a broad economic concept (income, consumption, wealth, etc.) is not applied uniformly against the broad base of the tax.

Herein, a tax preference is any provision of Idaho law that excludes some portion of the tax base on a selective basis. Two illustrative examples are the sales tax exemption for prescription drugs and the income tax exclusion for interest earned on certain government-issued securities. In the first case a specific type of good (prescription drugs) is excused from the sales and use tax. In the second case a specific source of income (interest from government issued securities) is excused from the income tax. This report ignores tax expenditures that originate in federal tax law. It does, however, look at Idaho departures from the federal tax structure and treats them as Idaho-specific tax expenditures.

To serve the goals of the legislature and other stakeholders this report now only lists estimates of tax preferences for the most significant or most reliably estimated items.[3] These tax preferences can be thought of as foregone revenue the state could be collecting if the expenditure is repealed or thought of as tax relief currently provided to Idaho consumers and businesses.

The estimates listed in the table in this section could be treated as upper bounds since they are computed by taking tax rates and applying them to existing sales and income figures. An effective increase in tax rates on economic activity would generally cause less of that activity and result in less taxable revenue – hence the belief that these are upper bounds. Tax preference estimates are also likely to be upper bounds because they presume complete compliance and collection of new tax revenues.

For a concrete example, if the legislature repeals the Idaho small lottery winnings exclusion pursuant to Idaho Code 69–7439 our estimates do not account for Idahoans buying fewer lottery tickets. How many fewer lottery tickets would be purchased is not estimated because it would require assumptions about consumer preferences for goods that are beyond the scope of this report.

In previous versions of this publication, an effort was made to provide an estimate of as many tax preferences as possible even when there was little underlying data supporting the estimates. This has led to an unrealistic picture about what data exist for the purposes of estimating tax preferences. In addition to using higher quality and verifiable data this report also includes improved forecasts with an emphasis on using as much Idaho, rather than national, information as possible. These changes are in part a response to an April 2021 report by the Office of

[3]This generally includes preferences estimated to be worth more than a million dollars.

Performance of Evaluation. In addition to adopting the language of the report regarding tax preferences we also reviewed all of the items flagged by the report as significant underestimates and most of the preferences we now omit estimates for were found to be out of date or lack sufficient data for estimation.

While this report will no longer include estimates of tax preferences with insufficient, it will continue to list descriptions of tax preferences in the history section to provide a catalog of past tax preferences. Our department will also perform regular reviews to take advantage of new data that may become available.

Lastly, it is important to stress that the estimates reported are estimates. Even historical values listed in the General Fund Revenue Book should not be taken as actual values when it comes to tax preferences. Some estimates are based upon periodically available values, such as every five years, and the intervening "history" are interpolated historical values. In contrast, income tax credits, deductions, and exclusions are updated with actual historic data provided by the Idaho Tax Commission.

We have removed five previously reported on items including the Reimbursement and Incentive Tax Credit, Indigenous Earnings on Reservations Exclusion, First-time Homebuyer Deduction, Idaho Lottery Winnings Exclusion, and the sales tax exemption on interstate trucks. The items were removed once they were re-estimated and found be below the $1m threshold or found to have insufficient supporting data.

The remaining three sections of this report include estimates of the most significant and reliably estimated tax preferences along with a catalog of previously reported tax preferences. The first section includes estimates of income tax preferences. The second section includes estimates of sales tax preferences. The last section includes a catalog of all tax preferences, including repealed ones and ones for which we no longer report an estimate.

**Individual Income and Business Tax.** The Idaho income tax is a tax levied on individuals and corporations based on their income during a 12– month tax period. In the case of businesses (proprietorships, partnerships, and corporations) the concept of income is not gross receipts, but rather is associated with the economic concept of profit.

This tax has been reduced four times in the last four years with the most recent rates for 2024 being a flat 5.695% on corporate income and individual income beyond a certain threshold.

A special note concerning tax expenditure definitions is relevant in the case of the income tax. Since Idaho income tax is federal taxable income, there are some federal tax expenditures that are adopted in Idaho almost by default. These federal tax expenditures could technically be considered Idaho tax expenditures, since Idaho adopts them by law. However, this report takes the approach that federal tax expenditures related to the definition of taxable income are not Idaho tax expenditures. Idaho's exclusion of social security income from the income tax base is treated as an Idaho tax expenditure only to the extent that it exceeds the partial federal exclusion for social security income.

**The principal Idaho income tax credits are:**

- Grocery Credit
- Elderly Dependent Credit
- Other States Tax Credit
- Schools, Libraries, and Museums Credit
- Investment Tax Credit
- Youth and Rehabilitation Credit
- Research Activity Credit
- Broadband Investment Credit
- Child Income Tax Credit
- Reimbursement Incentive Credit

**The principal Idaho income tax deductions and exclusions are:**

- Social Security Exclusion
- Retirement Benefit Exclusion
- Energy Efficiency Upgrades Deduction
- Alternative Energy Device Deduction
- Child Care Deduction
- Capital Gains Exclusion
- Medical Savings Account Deduction
- Government Interest Exclusion
- College Savings Deduction
- Health Insurance Deduction
- Long–Term Care Insurance Deduction
- Indigenous Earnings on Reservation Exclusion
- First–time Homebuyer Deduction
- Idaho Lottery Winnings Exclusion

The tables (after page 18) present estimates of the fifty-seven largest tax preferences. The table groups these preferences by category and provides sub-totals. All sub-category totals increase with time, which mirrors our expectations of continued growth in the state. These values include our updated estimates for prior years.

Income tax credit preferences are expected to be worth no more than $538 million in calendar year 2024 or $556 million in 2025. The largest contributors are the grocery tax credit and other states tax credit. The grocery tax credit increased $20 per person in tax year 2023 which explains the large jump. The investment tax credit and child income tax credit are both significant and expected to continue growing.

Income tax deductions and exclusions are expected to be worth no more than $291 million in 2024 or $294 million in 2025. Deductions and exclusions may have a smaller impact because they reduce taxable income rather refund actual taxes. Many of the deductions are expected to stall

or slow down in 2023 because of the tax cuts passed in HB1 of the 2022 special session. Social security remains the largest exclusion although capital gains may be competitive if corporate profits and stock prices grow quickly enough.

Sales tax preferences relating to specific uses and entities are expected to be worth no more than $1.53 billion in 2024 or $1.57b in 2025. The overwhelming bulk of these sales tax exemptions are for equipment and supplies used in industry, mining, agriculture, and irrigation. Sales tax preferences relating to goods and services are expected to be worth no more than $3.4 billion in 2024 or $3.5 billion in 2025, the majority coming from services rather than goods. Health care and professional services are expected to make up half of this amount.

Together these preferences are expected to be worth no more than $5.78 billion in 2024 or $5.94 billion in 2025. We believe the value increased around 10% between 2021 and 2020 and has since slowed down, only showing 5.8% growth between 2022 and 2023 and 2.6% growth in 2023 and 2024 before growth accelerates in 2026 and beyond. This mirrors Moody's opinion on the near and medium term performance of the overall US economy.

**Idaho Tax Preferences (Thousands)**

| Code | Income Tax Credits | 2021 | 2022 | 2023 | 2024 | 2025 | 2026 | 2027 |
|---|---|---|---|---|---|---|---|---|
| 63-3024A | Grocery Credit | $162,597 | $164,444 | $183,235 | $186,070 | $189,098 | $191,888 | $194,726 |

# Tax Structure Detail

Specific Idaho tax expenditures are detailed in the sections below. Each section contains the relevant Idaho Code reference, a brief description of the expenditure, and some significant legislative and judicial history.

**Individual and Corporate Income Tax.** Income tax expenditures fall into one of three categories: exclusions, deductions, or credits. Exclusions are sources of income that are wholly, or partly, exempt from taxation. Deductions are uses of income (either actual spending or proxies for actual spending) that are wholly, or partly, exempt from taxation. Credits are reductions from the tax that are expressed either as a percentage of some qualifying amount or as a lump sum. Some credits are refundable, meaning that they can exceed the taxpayer's tax liability and lead to a refund. Other credits are nonrefundable: they are only usable if there is a tax liability to offset.

In general, deductions and exclusions must be used in the year they are incurred, except for business net operating loss (NOL) carry forwards. Credits may be carried forward for limited time periods in certain cases where specifically authorized in the law. For example, the state's investment tax credit from a qualified purchase can be carried forward for up to 14 years.

*Income Tax Credits.*

**Corporate Headquarters Investment Credit:** **63–2903**

Description: This credit is contingent on a taxpayer qualifying under the "Idaho Corporate Headquarters Incentive Act of 2005". It provides an income tax credit of 6% of the purchase price of new equipment installed anywhere in Idaho. Qualifying equipment is the same as equipment that qualifies under Idaho's 3% investment tax credit (see 63–3029B). This credit is in lieu of the investment tax credit, is limited to no more than $5 million in any one tax year and is not subject to the 50% limit specified in 63–3029B. This credit can be generated for eligible equipment purchases which occurred through December 31, 2009. Unused credits can be carried forward for up to 14 years. General qualification criteria are specified in 63–2902, and can be summed up as making an investment of at least $50 million in new corporate headquarters facilities and adding at least 500 new jobs that either a) each pay over $50,000 per year, or b) that average $65,000 per year.

History: Enacted in 2005. Repealed July 1, 2008.

**Corporate Headquarters Real Property Investment Credit:** **63–2904**

Description: This credit is contingent on a taxpayer qualifying under the "Idaho Corporate Headquarters Incentive Act of 2005". It provides an income tax credit of 10% of the purchase price of new plant (buildings and structural components of buildings) within the project site as specified in 63–2902. This credit is limited to no more than $500,000 in any one tax year and is not subject to the 50% limit specified in 63–3029B. This credit can be generated for plant purchases which occurred through December 31, 2009.

Unused credits can be carried forward for up to 14 years. General qualification criteria are specified in 63–2902, and can be summed up as making an investment of at least $50 million in new corporate headquarters facilities and adding at least 500 new jobs that either a) each pay over $50,000 per year, or b) that average $65,000 per year.

HISTORY: Enacted in 2005. Repealed July 1, 2008.

**Corporate Headquarters New Jobs Credit:** **63–2905**

DESCRIPTION: This credit is contingent on a taxpayer qualifying under the "Idaho Corporate Headquarters Incentive Act of 2005". It provides an income tax credit ranging from $1,500 to $3,000 for each eligible new job created through December 31, 2009. This credit is not subject to the 50% limit specified in 63–3029B. Unused credits can be carried forward for up to ten years. General qualification criteria are specified in 63–2902, and can be summed up as making an investment of at least $50 million in new corporate headquarters facilities and adding at least 500 new jobs that either a) each pay over $50,000 per year, or b) that average $65,000 per year.

HISTORY: Enacted in 2005. Repealed July 1, 2008.

**Grocery Credit:** **63–3024A**

DESCRIPTION: Idaho grants a $120 grocery tax credit for each taxpayer and their dependents. All Idahoans who are at least 65 years of age receive an additional $20 credit. The grocery tax credit is prorated for SNAP participants, incarcerated persons, and partyear residents.

HISTORY: The grocery credit was originally enacted in 1965 at a level of $10. It was amended in 1972 to make the credit refundable to residents at least 65 years of age. It was amended in 1973 to increase the amount of the credit to $15. It was amended in 1975 to make the credit refundable to all resident taxpayers who meet the filing requirement and to increase the credit amount to $20 for taxpayers at least 65 years of age. In 1978 the credit for resident seniors (at least 65 years of age) was increased to $30. In 2001 the credit was increased to $35 for resident seniors and to $20 for residents under 65 years of age. In 2008, Idaho households with no more than $1,000 of taxable income received a $50 grocery tax credit for each taxpayer and each dependent. After that year, the credit increased by $10 per year until it reached $100. The grocery tax credit for households with more than $1,000 of taxable income started at $30 in 2008 and increased by $10 annually until it reached $100. The credit is set to be increased to $120 starting in 2023.

**Riparian Land Improvements Credit:** **63–3024B**

DESCRIPTION: This is a 50% credit for expenditures related to improving the habitat for threatened/endangered species or riparian habitat. The credit is limited to no more than $2,000 per person per year, and no more than $250,000 for all such credits allowed in a single tax year.

HISTORY: Effective January 1, 1998. Sunset December 31, 2002.

**Elderly Dependent Credit:** **63–3025D**

DESCRIPTION: This is a refundable credit provided to a resident taxpayer who maintains a household for a family member(s), where that family member is over 65 years of age or developmentally disabled and the taxpayer provides over one-half of the family member's support. The amount of credit is $100 for each eligible family member, with no more than $300 available to the taxpayer in any single year. This credit is allowed in lieu of the elderly and developmental disability deduction allowed under , Section 63-3022E.

HISTORY: Enacted in 1981. Amended in 1994 to add developmentally disabled persons to the credit.

**Other States Tax Credit:** **63–3029**

DESCRIPTION: The credit for taxes paid to other states is available to Idaho resident and part-year resident taxpayers who must pay income tax to another state or territory (or political subdivision thereof) on income that is also taxed by Idaho. The amount of credit is the lesser of the actual tax paid to the other state or territory, or the portion of Idaho tax attributed to the double–taxed income. The Idaho credit is not allowed if the other state or territory provides a credit for taxes paid to Idaho.

HISTORY: Initially enacted in 1939 along with the Idaho Income Tax Act. Amended in 1996 to add corporate income, franchise, or excise taxes paid by a subchapter S corporation. Amended in 2007 to include a limitation that requires a recalculation of the adjusted income earned by the Idaho resident in the other state using Idaho's rules for the calculation of that income. Amended in 2008 to include part-year residents. Amended in 2009 to include estates and trusts.

**Schools, Libraries, and Museums Credit:** **63–3029A**

DESCRIPTION: A credit is allowed for qualifying charitable monetary contributions to Idaho public and private nonprofit schools (elementary, secondary, and higher education), their foundations, trusts, or associations; to Idaho Public Libraries and Library Districts, or their foundations; to Idaho Education Public Broadcast foundations; to the Idaho State Historical Society or its foundation; to the Idaho commission for libraries; to nonprofit public or private museums located within Idaho; to the Idaho Commission on Hispanic Affairs; to the Idaho Commission for the Blind and Visually Impaired; to the Idaho Council on Developmental Disabilities; to the Idaho State Independent Living Council; to the Idaho Council for the Deaf and Hard of Hearing; to the Idaho STEM action center; or to Idaho-based, accredited medical education residency programs or their nonprofit support organizations. The credit is 50% of the qualified contribution. In the case of individuals, it is limited to 50% of the taxpayer's income tax liability or $500 ($1,000 on a jointly filed return), whichever is less. In the case of corporations, the credit is limited to 10% of the income tax liability or $5,000, whichever is less. Credits for donations to certain educational foundations, trusts, or associations are not allowed after December 31, 2019.

HISTORY: Originally enacted in 1976, this credit applied only to private nonprofit secondary or higher education institutions. Elementary schools were added in 1977. Public institutions of higher education were added in 1978. All public schools and public libraries were added in 1984. The Idaho Public Broadcast System was added in 1986. Foundations of the qualifying institutions were added in 1987. The Idaho Historical Society was added in 1992. Nonprofit museums were added in 1994. The Idaho State Library (now Idaho Commission for Libraries) was added in 1998. University–related research parks were added in 1999. Amended in 2016 to include donations to the Idaho STEM action center. Medical residency contributions were added in 2018.

**Investment Tax Credit:** **63–3029B**

DESCRIPTION: Idaho's investment tax credit (ITC) is provided to businesses (proprietorships, partnerships, and corporations) that purchase qualifying property for use in their business. The credit amount is 3% of the qualified investment in depreciable property and is not refundable. The credit taken in a given tax year is limited to no more than 50% of the taxpayer's tax liability as calculated before considering the credit. Credits not used may be carried forward up to 14 years from the year of qualifying property purchase. The definition of qualified investment is tied to the old federal ITC (repealed in the Tax Reform Act of 1986), with the exceptions that: a) the equipment must have Idaho situs; and b) motor vehicles under 8,000 pounds do not qualify. Mobile property that is only partially used in Idaho is allowed ITC in proportion to its use in Idaho.

HISTORY: Idaho's ITC was enacted in 1982. It was amended in 1987 to prevent its automatic repeal by the federal repeal of ITC in 1986. It was amended in 1992 in response to an Idaho Supreme Court case that changed the interpretation of how the credit is applied to equipment that is used both inside and outside Idaho. It was amended in 1994 to make technical changes relating to unitary corporations. It was amended in 1995 to extend the carryover period from five to seven years, reduced the portion of tax liability that could be offset from 50% to 45%, and eliminated a restriction on replacement property. It was amended in 2000 to increase the portion of tax liability that could be offset from 45% to 50%, and to extend the carryover period from seven to fourteen years. It was amended in 2003 to provide an option to take a property tax exemption instead of the ITC.

**Youth and Rehabilitation Credit:** **63–3029C**

DESCRIPTION: This is a credit provided to taxpayers who make charitable contributions to the Anchor House; North Idaho Children's Home; Idaho Youth Ranch; Children's Home Society of Idaho, Inc.; Kinderhaven; Women's and Children's Alliance; Children's Village; Gem Youth Services; Hope House; nonprofit centers for independent living located within Idaho; Idaho Drug Free Youth, Inc.; Shepherd's Home, Inc.; Project Safe Place; Learning Lab, Inc.; Project P.A.T.C.H. (Planned Assistance for Troubled Children); or to nonprofit rehabilitation facilities located in Idaho and accredited by the Commission

on Accreditation of Rehabilitation Facilities or their foundations. The credit is calculated as 50% of the contribution. For individual taxpayers, the credit is limited to the lesser of $100 or 20% of the taxpayer's income tax liability. For corporations, the credit is limited to the lesser of $500 or 10% of the taxpayer's income tax liability. There is no carryover provision.

HISTORY: The credit was enacted in 1982. Numerous entities have been added over the years.

**Recycling Equipment Credit:** **63–3029D**

DESCRIPTION: This nonrefundable credit is for 20% of the cost of manufacturing equipment used to produce goods from postconsumer waste. The credit is limited to no more than $30,000 in a single tax year, but unused portions may be carried forward up to seven years.

HISTORY: This credit was enacted in 1994.

**Right Income Adjustment Credit:** **63–3029F**

DESCRIPTION: A refundable credit for the difference between the Idaho state income tax liability for the year income was included in taxable income and the Idaho state income tax that would have been paid had the income not been included in taxable under the claim of right doctrine. Applies in situations where a taxpayer does not receive a benefit from the deduction thereby effectively paying tax on income they had fully repaid.

HISTORY: Enacted in 2015.

**Research Activity Credit:** **63–3029G**

DESCRIPTION: This is a 5% credit for expenditures related to qualified research as defined in section 41 of the Internal Revenue Code. The research must be conducted in Idaho. The credit is limited to no more than the taxpayer's liability after all other credits in a single tax year and can be carried forward up to 14 years.

HISTORY: Enacted in 2001.

**Broadband Investment Credit:** **63–3029I**

DESCRIPTION: This is a 3% credit for expenditures in qualified broadband equipment in Idaho. This credit is in addition to the 3% investment tax credit (see 63–3029B), for a total credit of 6% on broadband investments. The 3% credit is limited to no more than $750,000 per taxpayer per year and no more than the taxpayer's liability after all other credits in a single tax year. It can be carried forward for up to 14 years. This credit is transferable to other taxpayers.

HISTORY: Effective January 1, 2001.

**County Incentive Investment Tax Credit:** **63–3029J**

DESCRIPTION: This is a variable rate credit for expenditures that qualify for Idaho's investment tax credit (see 63–3029B). Its rate is the greater of one-half of the amount by which the average three–year unemployment rate in the county in which the property is located exceeds 6%, or one-tenth of one percentage point for each full percentage point the three–year average per-capita income level in the county in which the property is

located is below 90% of the statewide average per-capita income level. The credit is limited to no more than $500,000 per taxpayer, and no more than the taxpayer's liability after all other credits in a single tax year. It can be carried forward for up to 14 years. This credit may be transferred to other taxpayers.

HISTORY: Enacted in 2001. Repealed in 2018.

**Live Organ Donation Expenses Credit:** **63–3029K**

DESCRIPTION: This credit is for a donor's expenses associated with a live organ donation. Only the portion of direct expenses that are not reimbursed is eligible. The total credit is limited to the lower of the actual expenses or $5,000. This credit can be carried forward up to five years.

HISTORY: Effective January 1, 2007.

**Child Income Tax Credit:** **63–3029L**

DESCRIPTION: The state provides a nonrefundable $205 individual income tax credit per qualifying child of the taxpayer.

HISTORY: Effective from January 1, 2018 to December 31, 2025.

**Employer College Credit:** **63–3029M**

DESCRIPTION: The state provides employers an income tax credit for contributions to employees' Ideal 529 College accounts. The credit is 20% of the contribution up to $500 annually per employee.

HISTORY: Enacted in 2020.

**Special Job Credit:** **63–3029EE**

DESCRIPTION: For the period prior to April 14, 2011, a $1,000 credit is granted for each new employee who was paid an average of $15.50 per hour during the calendar year and was eligible to receive employer-provided accident or health insurance. A $500 credit is available for each new employee in a business involved in manufacturing or processing any natural resource product. Businesses must choose between credits, since only one type of credit per new job can be used. The amount of credit that can be claimed in any one tax year is limited (along with most other credits) to 50% of the tax otherwise imposed and may not exceed 3.25% of the taxpayer's net income. Unused credits may be carried forward up to three years.

HISTORY: Effective January 1, 2011 to December 31, 2016.

**Promoter Sponsored Events Credit:** **63–3620C(3)(b)**

DESCRIPTION: This provides a refundable income tax credit in the amount of $1.00 for each temporary sales tax permit a sponsor or promoter of "promoter sponsored events" issues. Promoter sponsored events may include swap meets, flea markets, gun shows, fairs, and other similar events.

HISTORY: Enacted in 1999.

**Small Employer Capital Investment Credit:** **63–4403**

DESCRIPTION: This credit is contingent on a taxpayer qualifying under the "Idaho Small Employer Incentive Act of 2005". It provides an income tax credit of 3.75% of the purchase price of new equipment installed anywhere in Idaho. Qualifying equipment is the same as equipment that qualifies under Idaho's 3% investment tax credit (see 63–3029B). This credit is in lieu of the investment tax credit, is limited to no more than $750,000 in any one tax year, and is subject to a 62.5% limit instead of the 50% limit specified in 63–3029B. This credit can be generated for eligible equipment purchases occurring from January 1, 2006 through December 31, 2030. Unused credits can be carried forward for up to 14 years. General qualification criteria are specified in 63–4402 and can be summed up as making an investment of at least $500,000 in new facilities and adding at least ten new jobs paying at least $19.23 per hour. The average wage for each additional job above the initial ten must be at least $15.50 per hour, not including employees earning more than $48.08 per hour.

HISTORY: Enacted in 2005. Amended in 2006. Average wage calculation amended in 2008. Amended in 2020 to extend this credit through 2030.

**Small Employer Real Property Improvement Credit: 63–4404**

DESCRIPTION: This credit is contingent on a taxpayer qualifying under the "Idaho Small Employer Incentive Act of 2005". It provides an income tax credit of 2.5% of the purchase price of new plant (buildings and structural components of buildings) within the project site as specified in 63–2902. This credit is limited to no more than $125,000 in any one tax year. This credit can be generated for plant purchases occurring from January 1, 2006 through December 31, 2030. Unused credits can be carried forward for up to 14 years. General qualification criteria are specified in 63–4402 and can be summed up as making an investment of at least $500,000 in new facilities and adding at least ten new jobs paying at least $19.23 per hour. The average wage for each additional job above the initial ten must be at least $15.50 per hour, not including employees earning more than $48.08 per hour.

HISTORY: Enacted in 2005. Amended in 2006. Average wage calculation amended in 2008. Amended in 2009 to extend this credit through 2020. Amended in 2020 to extend this credit through 2030.

**Small Employer New Jobs Credit: 63–4405**

DESCRIPTION: This credit is contingent on a taxpayer qualifying under the "Idaho Small Employer Incentive Act of 2005". It provides an income tax credit ranging from $1,500 to $3,000 for each eligible new job created from January 1, 2006 through December 31, 2030. This credit is limited to 62.5% of the taxpayer's tax liability in any given year. Unused credits can be carried forward for up to ten years. General qualification criteria are specified in 63-4402 and can be summed up as making an investment of at least $500,000 in new facilities and adding at least ten new jobs paying at least $19.23 per hour. The average wage for each additional job above the initial ten must be at least $15.50 per hour, not including employees earning more than $48.08 per hour.

History: Enacted in 2005. Amended in 2006. Average wage calculation amended in 2008. Amended in 2009 to extend this credit through 2020. Amended in 2020 to extend this credit through 2030.

**Reimbursement Incentive Credit:** **67–4737**

Description: A refundable income tax credit of up to 30% for up to 15 years on new corporate business income tax (from corporations, pass through entities and proprietorships), sales and use tax, and individual income tax withheld from employees paid as a result of a qualifying project. The actual tax credit percentage and project term is negotiated by the Director of the Idaho Department of Commerce and subject to the approval of the Idaho Economic Advisory Council based upon the quality of jobs created, regional economic impact, and return on investment for Idaho. The Governor may suspend the issuance of new credits if a holdback is issued. However, all credits set prior to any holdback will be honored by the state.

History: Effective July 1, 2014.

*Income Tax Deductions and Exclusions.*

**Social Security Exclusion:** **63–3022(l)**

Description: This exclusion is for social security income that is included in arriving at federal adjusted gross income. No social security income is subject to Idaho's income tax.

History: This exclusion was enacted in 1984 in response to federal taxation of a portion of social security income.

**Railroad Retirement Exclusion:** **63–3022(l)**

Description: This exclusion is for railroad retirement benefits paid by the Railroad Retirement Board that are included in federal adjusted gross income. Railroad retirement is the equivalent of social security for railroad employees.

History: Enacted in 1984.

**Workers' Compensation Premium Deduction:** **63–3022(m)**

Description: This deduction is available to self–employed individuals for the cost of workers' compensation insurance that has not already been deducted in arriving at taxable income.

History: Enacted in 1990.

**College Savings Deduction:** **63–3022(n)**

Description: A deduction is allowed for amounts contributed to a college savings program defined in Chapter 54, Title 33, . The amount of the deduction is limited to a maximum of $6,000 per tax year or $12,000 per tax year for married couples filing a joint return.

History: Enacted in 2000. Amended in 2017 to increase maximum for single filers from $4,000 to $6,000 and joint filers from $8,000 to $12,000.

**Retirement Benefit Exclusion:** **63–3022A**

DESCRIPTION: This exclusion is for retirement benefits paid by any of the following: a) US civil service retirement system; b) fireman's retirement fund of Idaho; c) policeman's retirement fund of a city within Idaho; and d) US Military. The exclusion is available to either retirees or un-remarried widows of retirees who are 65 years of age or older, or are disabled and 62 years of age or older. The exclusion is limited to the actual retirement payment or the maximum amount of social security benefits available, whichever is less. Expanded in 2015 to include benefits of the Foreign Service Retirement and Disability System.

HISTORY: This exclusion was enacted in 1973. It is revised annually by the Idaho Tax Commission to adjust the maximum exclusion amount.

**Energy Efficiency Upgrades Deduction:** **63–3022B**

DESCRIPTION: This deduction is for the cost of insulation installed in Idaho residences that existed as of January 1, 2002 and served as the taxpayer's primary residence. A building existed if it was already built, under construction, or subject to an outstanding building permit.

HISTORY: Enacted in 1976 for buildings existing as of January 1, 1976. Amended in 2012 to include residences existing as of January 1, 2002. Amended in 2013 to include only primary residences.

**Alternative Energy Device Deduction:** **63–3022C**

DESCRIPTION: This deduction is for the cost of acquiring, constructing, and/or installing wood, pellet, solar, wind, geothermal energy, or natural gas/propane devices to replace residential wood stoves that do not meet environmental protection agency certification requirements. The deduction is limited to 40% of the cost in the first year and 20% of the cost in each of the next three years. No single year's deduction may exceed $5,000. A taxpayer who buys a residence may claim any unused deduction associated with that residence subject to the restrictions noted above.

HISTORY: Enacted in 1976. Amended in 1994 to add natural gas and propane heating units, and to require that replaced wood burning stoves be surrendered to the Idaho Department of Environmental Quality.

**Child Care Deduction:** **63–3022D**

DESCRIPTION: The Child Care Deduction allows individual taxpayers to deduct childcare expenses that qualify for purposes of computing the federal child care credit. The maximum deduction allowed is $3,000 for one qualifying child and $6,000 for two or more qualifying children.

HISTORY: This deduction was enacted in 1977.

**Elderly and Developmental Disability Deduction:** **63–3022E**

DESCRIPTION: This is a deduction from taxable income of $1,000 for each eligible member of a household that is maintained by the taxpayer. The eligible members must be at least

65 years old or developmentally disabled. The maximum amount of the deduction that the taxpayer can claim in any one tax year is$3,000.

History: This deduction was enacted in 1981. Amended in 1984 to add developmentally disabled persons to the qualifying dependents. Amended in 1994 to allow the deduction on the developmentally disabled person's own return.

**World War II Reparations Exclusion** **63–3022G**

Description: Amounts paid to individuals from the US Civil Liberties Public Education Fund.

History: Enacted in 1989.

**Capital Gains Exclusion:** **63–3022H**

Description: This exclusion is allowed for 60% of the gain from the sale of certain property. To qualify for this exclusion the property must have had an Idaho situs at the time of sale and is limited to real property held for at least 12 months. These properties include: tangible personal property that was used in a revenue-producing enterprise and held for 12 months or longer; certain cattle or horses held for 24 months or longer; other breeding livestock held 12 months or longer; or timber held for over 24 months or longer. Certain partnership interest held at least 12 months.

History: Enacted in 1987. Amended in 1995 to add various restrictions, including a requirement that qualifying timber must be grown in Idaho and livestock gain claimants must derive at least half of their gross income from farming or ranching operations in Idaho. Amended in 1998 to reduce the holding period for real estate from five years to 18 months. Amended in 2005 to reduce the holding period for real estate from 18 months to 12 months. Amended in 2008 to clarify pass-through entity holding periods. Amended in 2015 to allow exclusion to owners for income from pass-through entities that derive at least half their gross income from farming or ranching. Amended in 2015 to include qualified conservation easements, certain grazing permits and leases, and any 1250 property as defined in the Internal Revenue Code.

**Adoption Expense Deduction:** **63–3022I**

Description: This deduction is for up to $10,000 of actual legal fees and medical costs incurred in an adoption.

History: This deduction was enacted in 1994 with a ceiling of $3,000. The ceiling was raised to $10,000 in 2018.

**Technological Equipment Deduction:** **63–3022J**

Description: A deduction from taxable income is allowed to individuals and corporations for the fair–market value of computers, scientific equipment, and computer software that are donated to Idaho elementary and secondary schools, public libraries, or public and nonprofit private colleges and universities. The equipment may not be over five years old at the time of donation and the recipient must issue a written statement accepting

the donation. The deduction cannot exceed the taxpayer's cost of the technological equipment or reduce taxable income to less than zero.

HISTORY: This deduction was enacted for schools in 1984 as 63–3025B. Libraries were added in 1985. Colleges and universities were added in 1995. The section was moved to 63–3022J in 1995. Private elementary and secondary schools were added in 2009.

**Medical Savings Account Deduction:** **63–3022K**

DESCRIPTION: This is a deduction for contributions to medical savings accounts. It is limited to a maximum of $10,000 per taxpayer each year. The limit for married couples filing joint returns is $20,000.

HISTORY: This deduction was enacted in 1994 as Title 41, Chapter 53. It was amended in 1995 to eliminate a restriction to high–deductible insurance policies, to eliminate administrative responsibilities from the depository institution, and to allow taxpayer funded accounts to qualify. It was moved to 63–3022K in 1995. The maximum deduction was raised to $10,000 per taxpayer in 2014. The previous cap was $2,000 per taxpayer.

**Government Interest Exclusion:** **63–3022M**

DESCRIPTION: This exclusion is for interest earned on securities issued by the State of Idaho and/or local governments and the interest earned on federal government securities. The interest exclusion must be reduced by an amount that is calculated by multiplying the taxpayer's total deductible interest expense, times the ratio of the taxpayer's interest income from the tax-exempt obligations to the taxpayer's total income.

HISTORY: This exclusion has been in effect since enactment of the income tax. The offset calculation was modified and moved to 63–3022M in 1998 and modified in 1999 to correct the calculation of deductible interest expense.

**Marriage Penalty Deduction:** **63–3022N**

DESCRIPTION: Idaho joint income tax returns are given an additional standard deduction amount equal to double the single standard deduction less the joint deduction. This deduction is not available to returns that claim itemized deductions. Since 2003 the federal standard deduction for joint filers has been twice the standard deduction for single filers.

HISTORY: Enacted in 1999 at a level of $150. Amended in 2000 to make it the difference between the joint standard deduction and two times the single standard deduction.

**Health Insurance Deduction:** **63–3022P**

DESCRIPTION: A deduction is allowed for payments for health insurance, so long as those payments were not otherwise deductible from taxable income.

HISTORY: Enacted in 2000 for self–employed persons. Expanded to all persons in 2001.

**Long–Term Care Insurance Deduction:** **63–3022Q**

DESCRIPTION: This deduction from Idaho taxable income is for 100% of premiums for long–term care insurance not already deducted or accounted for in arriving at taxable income.

HISTORY: Enacted in 2001. The original deduction applied to half of premiums. Amended in 2004 to cover all long-term care insurance premiums.

**Certain Loss Recoveries Deduction:** **63–3022R**

DESCRIPTION: A deduction is allowed in the amount equal to the amount of the loss recovery if no deduction for the loss was claimed on a prior return.

HISTORY: Enacted in 2013.

**Indian Earnings on Reservation Exclusion** **63–3022S**

DESCRIPTION: Income earned on an Indian reservation by enrolled tribal members residing on a reservation.

HISTORY: This exclusion is the result of various treaties and case law. Codified in 2014 and is retroactive to January 1, 2013.

**Certain Charitable Contributions Deduction:** **63–3022U**

DESCRIPTION: This deduction is allowed when a net operating loss occurs in the same tax period as a charitable contribution and causes the taxpayer to lose part of the charitable contribution deduction. This allows an additional deduction in the amount of the charitable contribution deduction that was lost.

HISTORY: Effective July 1, 2014.

**First-Time Homebuyer Deduction** **63–3022V**

DESCRIPTION: Idaho allows an income tax deduction for contributions into a First-Time Homebuyer Savings Account. The maximum deduction is $15,000 per year for an individual and $30,000 per year for a married couple.

HISTORY: Enacted in 2020.

**Nonresident Guaranteed Partnership Income Exclusion:** **63–3026A(3)(a)(i)**

DESCRIPTION: Guaranteed payments to nonresident, retired partners that are sourced to the taxpayers' domiciles are excluded from Idaho taxable income. Up to $250,000 of the guaranteed payments made to each nonresident partner are sourced as compensation for services. The amount of the guaranteed payment more than $250,000 is sourced to Idaho based upon the partnership's apportionment factor. The $250,000 threshold is adjusted annually for inflation.

HISTORY: Enacted in 2013.

**Idaho Lottery Winnings Exclusion:** **67–7439**

DESCRIPTION: Excludes Idaho Lottery prizes of less than $600 from taxable income.

HISTORY: Originally enacted in 1988 as 100% exclusion. Amended in 1997 to limit the income exclusion to prizes of less than $600 starting on January 1, 1998. Amended in 1998 to restrict the exclusion to Idaho State Lottery winnings.

**Sales and Use Tax Detail.** The following sales tax expenditures can be divided into two broad categories: sales tax relating to specific uses or entities and sales tax for goods and services. Previously our report separately estimated some services based on data from Economic Censuses and classification following the NAICS system. We now list all services at the two digit NAICS level to provide more detailed estimate of the value of services in the state.

While we generally try to assign one piece of Idaho code to one preference for sales tax preferences there are cases where multiple portions of Idaho code are assigned to the same sales tax exemption. Often this is because the exempt goods are similar.

For example, in prior reports we listed the production exemption described by 63-3622D separately for agriculture, mining, and industry. Now we have grouped the mining and industry components together and combined the agriculture component with the exemption for irrigation equipment described by 63-3622W. The decision was data driven as the agricultural Census formed the basis of our new estimate for agricultural equipment and the Census did not separately provide an estimate for irrigation equipment.

**Corporate Headquarters Construction:** **63–2908**

DESCRIPTION: This rebate is contingent on a taxpayer qualifying under the "Idaho Corporate Headquarters Incentive Act of 2005". It provides a rebate for all sales and use taxes paid on property constructed, located, or installed in the "project site" (as specified in 63–2902) through December 31, 2009. General qualification criteria are specified in 63–2902, and can be summed up as making an investment of at least $50 million in new corporate headquarters facilities and adding at least 500 new jobs that either a) each pay over$50,000 per year, or b) that average $65,000 per year.

HISTORY: Enacted in 2005. Repealed July 1, 2008.

**Incidental Sales of Tangible Personal Property:** **63–3609**

DESCRIPTION: Exempts goods sold incidentally when selling real property, such as an appliance included with a home purchase.

HISTORY: Enacted in 1985.

**Construction:** **63–3609**

DESCRIPTION: Sales tax is paid on the cost of materials that are used in construction projects, but the labor component is generally not taxed. Taxable revenue is half of Idaho's share of construction revenue NAICS 23 from US Economic Census.

HISTORY: The original language of the sales tax defined a "sale" as any transaction involving the exchange of tangible personal property for a consideration under 63–3612. In 63–3609(a) of the Sales Tax Act defining a retail sale it is stated that "all persons engaged in constructing, altering, repairing or improving real estate are consumers of the material used by them; all sales to or use by such persons of tangible personal property are taxable whether or not such persons intend resale of the improved property".

**Lodging, Eating, and Drinking Places:** **63–3612**

DESCRIPTION: Allows these industries an exemption for nondepreciable goods that are consumed by customers, such as guest hand soap provided in a motel room.

HISTORY: Enacted in 1988.

**Trade-in Allowance:** **63–3613(b)2**

DESCRIPTION: Excludes from the taxable sales price any amounts allowed for merchandise traded in on other like goods. Specific exclusions for this allowance exist for new manufactured homes, new park model recreational vehicles, and modular buildings.

HISTORY: Enacted in 1965. Amended in 1976 to exclude a trade in allowance on the purchase of a new mobile home. Amended in 1986 to change mobile home to manufactured home and added modular buildings, excluding trade-in allowances on the purchase of new manufactured homes and modular buildings. Amended in 1990 to extend allowance to trade-downs. Amended in 2017 to exclude a trade-in allowance on the sale of a park model recreational vehicle.

**Repairs:** **63–3613(b)4**

DESCRIPTION: Taxable Revenue is 60% of NAICS codes 811 revenue.

HISTORY: Not subject to sales and use taxes.

**Federal Excise Tax Imposed at Retail Level:** **63–3613(b)5**

DESCRIPTION: Excludes retail level federal excise taxes from the taxable sales price. 85

HISTORY: Originally enacted in 1965.

**Transportation Services:** **63–3613(b)7**

DESCRIPTION: Taxable revenue is 20% of Idaho's share of revenue for NAICS 48-49 from US Economic Census.

HISTORY: Transportation services have generally been exempted since the enactment of the sales tax in 1965. The exclusion for transportation of manufactured homes was added in 1986. Air charter transportation of freight and passengers was made taxable in 1988.

**Auto Manufacturer Rebates:** **63–3613(b)8**

DESCRIPTION: Allows dealers to deduct the amount of a rebate given to the buyer, by the motor vehicle manufacturer, from the taxable sales price of the vehicle.

HISTORY: Enacted in 1990.

**Sales by Outfitters and Guides:** **63–3613(b)9**

DESCRIPTION: Allows outfitters to exclude from the taxable amount charged to their customers the federal fees imposed on outfitters for the right to use recreational sites.

HISTORY: Enacted in 1990. Amended in 1994 to eliminate the provision that the federal fees must be for the purpose of managing the land or water upon which the outfitting occurs.

**Telecommunications Equipment:** **63–3613(b)10; 63-3621(a)**

DESCRIPTION: Exempts from taxation the amount of discount or price reduction that is offered as an inducement to commence or continue telecommunications service.

HISTORY: Enacted in 1996.

**New Manufactured Homes or Modular Buildings:** **63–3613(c)**

DESCRIPTION: Excludes 45% of the sales price of new manufactured homes and modular buildings from the taxable sales price.

HISTORY: Originally exempted 60% of the sales price of mobile homes when enacted in 1965. It was amended in 1976 to exempt 45% and add modular buildings (which were previously treated as real property improvements and taxed on materials as built).

**Sales Through Vending Machines:** **63–3613(e)**

DESCRIPTION: Allows retailers selling products through vending machines for $1.00 or less to pay tax on 117% of their acquisition cost of the products rather than on the retail sales price.

HISTORY: Enacted in 1977.

**Gratuities for Meals:** **63–3613(f)**

DESCRIPTION: Exempts mandatory and voluntary gratuities for meals from the Idaho sales tax.

HISTORY: Enacted in 2011.

**Remotely-Accessed Computer Software:** **63–3616(b)**

DESCRIPTION: Certain computer software are not tangible personal property by definition and therefore not subject to the Idaho sales tax. They are: custom computer programs; computer software that is delivered electronically; remotely-accessed computer software; and computer software that are delivered by the load-and-leave method. Digital music, digital books, digital videos, and digital games are not tangible personal property subject to the sales tax if purchaser does not have permanent rights to the product.

HISTORY: Enacted in 2013. Amended in 2014 to exclude computer software delivered electronically or by the load-and-leave method. Amended in 2015 to specify that digital music, digital books, digital videos, and digital games are not tangible personal property subject to the sales tax if purchaser does not have permanent rights to the product.

**Motor Vehicles of Nonresident Students:** **63–3621(k)**

DESCRIPTION: Exempts full-time, nonresident post-secondary students' vehicles from the use tax.

HISTORY: Enacted in 2011.

**Personal Property of Military Personnel:** **63–3621(l)**

DESCRIPTION: Exempts personal items, including vehicles, brought into the state by military personnel temporarily assigned to Idaho and their spouses from the use tax.

HISTORY: Enacted in 2011.

**Donations of Real Property to Idaho Government:** **63–3621(m)**

DESCRIPTION: Allows an exemption from use tax for goods that are donated to the State of Idaho, its political subdivisions, or a nonprofit listed in 63–3622O, where the donated goods are incorporated into real property.

HISTORY: Enacted in 1991.

**Beverage and Food Samples:** **63–3621(n)**

DESCRIPTION: Exempts beverages including, wine and beer, and food if given as a free tasting to a potential customer.

HISTORY: Enacted in 2012. Expanded in 2013 to exempt food samples offered to shoppers.

**Beverage and Food Donations:** **63–3621(o)**

DESCRIPTION: Exempts beverages and food donated to individuals or nonprofit organizations.

HISTORY: Enacted in 2014.

**Prepared Beverage and Food Given to Employees:** **63–3621(p)**

DESCRIPTION: Exempts food or beverages provided free of charge to their employees by food and beverage retailers.

HISTORY: Enacted in 2015.

**Federal Constitutional Prohibitions:** **63–3622A**

DESCRIPTION: State cannot tax goods when prohibited by the US Constitution.

HISTORY: Originally enacted in 1965 as 63–3622(a).

**Other Federal and State Statutory Prohibitions:** **63–3622A**

DESCRIPTION: Exemptions granted from state sales tax by other state statutes and by federal statutes, such as the American Red Cross, Amtrak, credit unions, Emergency 911, Federal Intermediate Credit Banks, Federal Land Banks, foreign diplomats, Idaho Health Facility Authority, Idaho Housing Authority, Idaho Life and Health Insurance Guaranty Association, Idaho Onion Commission, Idaho Potato Commission, Idaho Turnpike Authority, Idaho Wheat Commission, Junior College Dormitory Housing Authority, Production Credit Association, Regional Airport Authority, aircraft flights, and navigable water-based transportation.

HISTORY: Varies by statute.

**Out-of-State Contracts:** **63–3622B**

DESCRIPTION: Exempts goods purchased by contractors to install into real property in non-taxing states.

HISTORY: Originally enacted in 1965 as 63–3622(b), it was amended in 1993 to extend to non-Idaho contractors.

**Motor Fuels:** **63–3622C**

DESCRIPTION: Exempts on-road use of motor fuels subject to motor fuels tax and exempts off-road fuels loaded in Idaho and used outside Idaho.

HISTORY: Originally enacted in 1965 as 63–3622(c). Exempted on-road use of motor fuels; amended in 1986 to exempt locomotive fuels unless loaded and burned off in Idaho.

**Production Exemption – Equipment and Supplies:** **63–3622D**

DESCRIPTION: This feature of the production exemption exempts equipment and supplies used to produce a taxable product for retail sale. Production activities covered by

this exemption are limited to manufacturing, processing, fabricating, logging, farming, mining, and fishing and hunting operations. The equipment must be primarily and directly used in the production activity to qualify. Also, the claiming entity must be primarily engaged in a qualifying activity for its equipment to qualify. Certain specific exclusions from the production exemption exist. They include: equipment that is used in activities other than the actual production activity; equipment used in transportation, including motor vehicles and aircraft that are required to be licensed by any state; equipment used to make repairs; any tangible personal property that is or is intended to become a component of real property; recreational vehicles; and equipment used to produce exempted gas, electricity, water, or literature.

HISTORY: This exemption was originally enacted in 1965 as 63–3622D. In 1987, custom farmers were added to the exemption by amending 63-3603, the definition of farming. In 1989, 63–3605A was added to include contract loggers in the production exemption. In 1990, logging was moved to a separate section and expanded to include persons who are not primarily engaged in logging. It was amended in 1991 in response to the Haener decision (Idaho Supreme Court) by adopting the integrated plant doctrine, exempting equipment used to fabricate or install production equipment, and adding safety equipment. Amended in 2006 to include equipment used to manufacture heating materials. Amended in 2008 to include equipment used to process certain materials to produce energy. Amended in 2015 to remove the exclusion for hand tools with a unit purchase price of $100 or less and to include in the exemption fishing and hunting operations. Amended in 2016 to extend the end of the production process for farming operations from "initial storage" to removal from initial storage. This amendment exempts equipment and supplies used to remove produce from initial storage. The logging exemption (63–3622JJ) was amended in 2016 to remove the exclusion for hand tools with a unit purchase price of $100.00 or less.

**Containers:** **63–3622E**

DESCRIPTION: Exempts containers that are part of goods for sale, including returnable containers.

HISTORY: Originally enacted in 1965 as 63–3622(e).

**Utility Sales:** **63–3622F**

DESCRIPTION: Exempts sales of natural gas, electricity, and water delivered to consumers by means of wires, pipes, mains, or similar systems.

HISTORY: Originally enacted in 1965 as 63–3622(f).

**Heating Materials:** **63–3622G**

DESCRIPTION: Exempts any material burned to heat buildings or homes.

HISTORY: Originally enacted in 1965 as 63–3622(g).

**Nonprofit Literature:** **63–3622I**

DESCRIPTION: Exempts literature published and sold by 501(c)(3) nonprofit organizations.

HISTORY: Originally enacted in 1965 as 63–3622(j), exempting only religious literature. Amended in 1989 to include literature of all 501(c)(3) nonprofit organizations. Amended in 1999 to include alternative forms, including audio-visual, magnetic, optical, and other machine-readable media.

**Sales of Meals by Churches to Members:** **63–3622J**

DESCRIPTION: Exempts meals sold at church functions to members of the congregation.

HISTORY: Originally enacted as 63–3622(k) in 1965.

**School Lunches and Senior Citizen Meals:** **63–3622J**

DESCRIPTION: Exempts federal meals programs for youth and elderly.

HISTORY: School lunch programs were exempted in 1965 as 63–3622(k). Amended in 1974 to add sales of meals to aging persons under the Older Americans Act.

**Sales by Nonretailers (Yard and Occasional Sales):** **63–3622K(b)(1,6,8)**

DESCRIPTION: Exempts sales of items by individuals who are not retailers and who are not behaving as retailers. Covers transactions such as occasional yard sales, occasional classified ad sales, etc. Motor vehicle sales are specifically excluded from this exemption.

HISTORY: Originally enacted as 63–3622(l) in 1965. Yard sales added as 63–3622H in 1984 and moved to 63–3622K(b)(8) in 1997.

**Sale or Lease of Businesses or Business Assets:** **63–3622K(b)(2-5)**

DESCRIPTION: Exempts sales of otherwise taxable merchandise, equipment, and supplies in cases where the entire business operation is undergoing transfer of ownership and the business itself will continue its operations. It also exempts sales of businesses that amount to a change in the form of business ownership. It also exempts sales and leases of capital assets between closely related businesses, but only if the sales tax has previously been paid on the capital asset.

HISTORY: Originally enacted as 63–3622(l), it was amended in 1967 to add bulk sales and change in form of doing business by adopting a new definition (Section 63–3612A). Section 63–3612A was repealed and moved to 63–3622K in 1988 and was amended to exclude aircraft, boats, snowmobiles, off-highway motorbikes, and recreational vehicles from the occasional sale exemptions. Amended in 1989 to limit the exclusion to subsections (b)(1), (b)(4), (b)(6) or (b)(8). Amended in 1990 to add related business transfers and capital asset sales. Amended in 1996 to exempt leases between related parties as described in subsection (b)(4). Also provided that subsequent sales of the same assets would be exempt between related parties if the initial purchaser paid the sales tax.

**Sales by 4–H and FFA Clubs at Fairs:** **63–3622K(b)7**

DESCRIPTION: Exempts sales of animals by 4-H or FFA clubs held in conjunction with a fair or the Western Idaho Spring Lamb Sale.

HISTORY: Enacted in 1979 by amending 63–3612A. Moved to 63–3622K in 1988.

**Motor Vehicle Purchases by Family Members:** **63–3622K(c)(1)**

DESCRIPTION: Exempts sales of motor vehicles between family members related within the second degree of consanguinity.

HISTORY: Section 63–3612A was amended in 1980 to add the sale of motor vehicles to family members. It was repealed and moved to 63–3622K(c)(1) in 1988.

**Prescriptions and Durable Medical Equipment:** **63–3622N**

DESCRIPTION: Exempts most prescription medical items.

HISTORY: This exemption was originally enacted as 63–3622(o) in 1967 to exempt prescription drugs. It was amended in 1971 to add prescription oxygen and amended in 1976 to add prosthetics, artificial limbs, wheelchairs, hearing aids, and crutches. It was amended in 1990 to add durable medical equipment and numerous other prescription items. Amended in 1998 to exempt dental prostheses and other orthodontic appliances, except fillings. Amended in 2008 to include dental fillings and qualified items prescribed by physician assistants. Amended in 2015 to include eyeglasses and contact lenses in 2016.

**Educational Institution Purchases:** **63–3622O(1)(a); 33–5204**

DESCRIPTION: Exempts all purchases by nonprofit colleges, universities, and primary and secondary schools. Excludes from exemption schools that primarily teach business, dancing, gymnastics, dramatics, music, cosmetology, writing, exercise, and "other special accomplishments".

HISTORY: This exemption was originally enacted as 63–3622(s) in 1967 and amended in 1990 to add nonresident schools with Idaho facilities. It was amended in 1993 to add all nonresident schools not otherwise excluded. In 1999, 33–5204 was added to explicitly include charter schools to this exemption. Amended in 2008 to include the Idaho Digital Learning Academy.

**Hospital Purchases:** **63–3622O(1)(a)**

DESCRIPTION: Exempts all purchases by nonprofit hospitals that are licensed by the state for the care of ill persons. Excludes from exemption nursing homes or similar institutions.

HISTORY: Originally enacted as 63–3622(s) in 1967.

**Health Entity Purchases:** **63–3622O(1)(a)**

DESCRIPTION: Exempts all purchases by certain specified "health-related entities". The list consists of the following: Idaho Cystic Fibrosis Foundation, Idaho Epilepsy League, Idaho Lung Association, March of Dimes, American Cancer Society, Camp Rainbow Gold, Mental Health Association, The ARC, The Children's Home Society of Idaho, American Heart Association, Idaho Ronald McDonald House, United Cerebral Palsy, Arthritis Foundation, Muscular Dystrophy Foundation, National Multiple Sclerosis Society, Rocky Mountain Kidney Association, American Diabetes Association, Easter Seals, Idaho Community Action Agencies, Idaho Primary Care Association and its community

health care centers, Idaho Diabetes Youth Program, Idaho Women's and Children's Alliance, Special Olympics Idaho and the Idaho Association of Free and Charitable Clinics. It also includes the local or regional chapters or divisions of these entities.

HISTORY: Amended in 1980 to add a first list of health-related entities. Amended several times to expand the list of eligible entities.

**Canal Company Purchases:** **63–3622O(1)(a)**

DESCRIPTION: Exempts all purchases by canal companies. Canal companies are defined as nonprofit corporations whose sole purpose is operating and maintaining dams, reservoirs, canals, lateral and drainage ditches, pumps, and pumping plants.

HISTORY: Originally enacted in 1967 as 63–3622(s).

**Forest Protective Association Purchases:** **63–3622O(1)(a)**

DESCRIPTION: Exempts all purchases by forest protective associations. Forest protective associations are associations that detect, prevent, and suppress forest or range fires. They include only those associations that contract with the State of Idaho under the Idaho Forestry Act.

HISTORY: Enacted in 1979.

**Food Bank Purchases:** **63–3622O(1)(b,c)**

DESCRIPTION: Exempts all purchases by food banks or soup kitchens. Includes the Idaho Food Bank Warehouse, Inc. by specific reference and other nonprofit corporations or associations that furnish food to others without charge.

HISTORY: Enacted in 1991.

**Nonsale Clothier Purchases:** **63–3622O(1)(d)**

DESCRIPTION: Exempts donations or sales of clothes to nonsale clothiers. Nonsale clothiers are defined nonprofit corporations or associations that provide clothes to others without charge.

HISTORY: Enacted in 1992.

**Centers for Independent Living:** **63–3622O(1)(e)**

DESCRIPTION: Exempts sales to or purchases by centers for independent living. Centers for independent living are defined as private, nonprofit, nonresidential organizations where at least 51% of the governing boards are individuals with disabilities.

HISTORY: Enacted in 1997.

**State of Idaho and Local Government Purchases:** **63–3622O(1)(f)**

DESCRIPTION: Exempts Idaho governmental agencies from paying sales tax on purchases.

HISTORY: Enacted in 1997; exemption was done by Tax Commission regulation from enactment of the sales tax to 1997.

**Volunteer Fire Departments and Emergency Medical Service Agencies:** **63–3622O(1)(g)**

DESCRIPTION: Exempts purchases by volunteer fire departments and emergency medical service agencies.

HISTORY: Enacted in 2002.

**Senior Citizens Centers:** **63–3622O(1)(h)**

DESCRIPTION: Exempts purchases by senior citizen centers.

HISTORY: Enacted in 2002.

**Blind Services Foundation, Inc:** **63–3622O(1)(i)**

DESCRIPTION: Exempts purchases by Blind Services Foundation, Inc.

HISTORY: Enacted in 2004.

**Advocates for Survivors of Domestic Violence and Sexual Assault:** **63–3622O(1)(j)**

DESCRIPTION: Exempts purchases by Advocates for Survivors of Domestic Violence and Sexual Assault.

HISTORY: Enacted in 2006.

**Free Dental Clinics:** **63–3622O(1)(k)**

DESCRIPTION: Exempts purchases by dental clinics providing free dental services to children.

HISTORY: Enacted in 2006.

**Museums:** **63–3622O(1)(l)**

DESCRIPTION: Exempts purchases by and admissions to nonprofit museums.

HISTORY: Enacted in 2006.

**Ronald McDonald House Rooms:** **63–3622O(5)**

DESCRIPTION: This exempts the renting of a place to sleep by the Ronald McDonald House.

HISTORY: Enacted in 1997.

**Common Carrier Purchases and Out-of-State Sales:** **63–3622Q; 63–3622P**

DESCRIPTION: Exempts goods delivered to buyers outside Idaho (63–3622Q) and in-state purchases by common carriers for use outside Idaho (63–3622P) if transported out of Idaho under a bill of lading.

HISTORY: Originally enacted as 63–3622(p) and 63–3622(o) in 1965.

**Vehicles and Vessels Sold to Nonresidents:** **63–3622R(a)**

DESCRIPTION: Exempts from the sales tax certain vehicles and vessels sold to nonresidents for use outside the state.

HISTORY: Originally enacted as 63–3622(v) in 1965, it exempted motor vehicles and trailers sold in Idaho for use out-of-state. Amended in 2001 to extend the exemption to vessels with attached motor, snowmobiles, ATVs, and utility trailers. Amended in 2002 to provide a definition for vessel and ATV, remove the requirement that the vessel be sold with an attached motor, limit the exemption to sales to nonresidents only, and extend the exemption to sales of off–road motorcycles. Amended in 2015 to exempt utility type vehicles and specialty off–highway vehicles. Amended in 2017 to increase the amount of

time the nonresident can use a vehicle or vessel exempted by this subjection in Idaho from 60 days to 90 days.

**Used Manufactured Homes:** **63–3622R(b)**

DESCRIPTION: Exempts sales of used manufactured homes from the sales tax.

HISTORY: Original 63–3622(u) amended in 1976 to exempt sales of used manufactured homes.

**Interstate Trucks:** **63–3622R(c)**

DESCRIPTION: Exempts the sale or lease of trucks with maximum gross registered weight over twenty-six thousand (26,000) when immediately registered in the international registration plan and used 10% or more outside of Idaho, as well as their trailers.

HISTORY: Enacted in 1989. Amended in 2003 and 2012 to change the measurement period for the 10% requirement.

**Glider Kit Vehicles:** **63–3622R(d)**

DESCRIPTION: Glider kit vehicles, as defined in 49–123(f), are exempted from the Idaho sales tax.

HISTORY: Enacted in 2006.

**Drivers Education Automobiles:** **63–3622R(e)**

DESCRIPTION: Exempts the value of motor vehicles that are temporarily donated to drivers education programs.

HISTORY: Enacted in 1995. Designation changed from Idaho Code 63–3622R(d) to Idaho Code 63–3622R(e) in 2006.

**Broadcast Equipment and Supplies:** **63–3622S**

DESCRIPTION: Provides an exemption for equipment and supplies used to produce and broadcast radio and television programs.

HISTORY: It was originally enacted in 1975 as 63–3622(w). Amended in 2016 to remove the exclusion for hand tools with a unit purchase price of $100 or less.

**Publishing Equipment and Supplies:** **63–3622T**

DESCRIPTION: Provides an exemption for equipment and supplies used to publish advertising type newspapers that are sold or given away to the public, as long as the paper contains at least 10% editorial comment and advertising revenue is the publisher's primary source of income.

HISTORY: This exemption was originally enacted in 1979 as 63–3622(x). Amended in 2016 to remove the exclusion for hand tools with a unit purchase price of $100 or less.

**Funeral Caskets:** **63–3622U**

DESCRIPTION: Exempts goods sold in conjunction with a funeral.

HISTORY: Originally enacted in 1977 as 63–3622(y).

**Precious Metal Bullion:** **63–3622V**

DESCRIPTION: Exempts sales of precious metal bullion and coins.

HISTORY: Originally enacted in 1982 as 63–3622(z).

**Irrigation Equipment and Supplies:** **63–3622W**

DESCRIPTION: Exempts agricultural irrigation equipment and supplies, including those attached to real property and regardless if purchased by a contractor for an agricultural irrigation project.

HISTORY: Originally enacted in 1975 as 63–3622(f). Amended in 2016 to remove the exclusion for hand tools with a unit purchase price of $100 or less.

**Pollution Control Equipment:** **63–3622X**

DESCRIPTION: Exempts equipment required by regulatory agencies for air or water pollution control.

HISTORY: Originally enacted in 1977 as 63–3622(e). Amended in 1997 to add certain drycleaning equipment. Amended in 2006 to include liners and reagents mandated by state or federal governments to meet water quality standards. Amended in 2007 to include personal property that is primarily used for meeting air or water quality standards that becomes a component, fixture, or improvement to real property.

**Ski Lifts and Snowgrooming Equipment:** **63–3622Y**

DESCRIPTION: Exempts the lifts, snowgroomers, and snowmaking equipment used by the owner of a ski area.

HISTORY: Enacted in 1995.

**Sales by Indian Tribes on Reservations:** **63–3622Z**

DESCRIPTION: Exempts sales made by Idaho Indian tribal businesses on an Indian reservation from sales and use taxes. This exemption includes a detailed definition of a reservation.

HISTORY: Originally enacted as 63–3622(aa) in 1984; exempted sales of tangible personal property by tribes within reservation boundaries; amended in 1987 to include sales of services and to define a reservation.

**Official Documents:** **63–3622AA**

DESCRIPTION: Exempts sales of documents when the fee for the document is set by and sale, purchase, or use of public records requested pursuant to 74–102.

HISTORY: Originally enacted in 1984. Amended in 2019 to exempt the sale, purchase, or use of public records requested pursuant to 74–102.

**INL Research and Development Purchases:** **63–3622BB**

DESCRIPTION: Exempts goods used for research and development at the Idaho National Laboratory (INL).

HISTORY: It was originally enacted in 1967 and exempted all federal research and development and nuclear fuel reprocessing under 63–3615. It was amended in 1969 to limit to INL only. It was recodified in 1985 as 63–3622BB and removed nuclear fuel reprocessing from the exemption.

**Railroad Rolling Stock and Remanufacturing:** **63–3622CC; 63–3622DD**

DESCRIPTION: Provides an exemption for railroad rolling stock and for parts, equipment, and supplies used in the process of remanufacturing railroad rolling stock, whether or not the rolling stock is for resale. Rolling stock must have been used in interstate commerce at least three months prior to rebuild to qualify.

HISTORY: Enacted in 1986.

**SNAP/WIC:** **63–3622EE; 63–3622FF**

DESCRIPTION: Exempts from the sales tax items purchased under the federal WIC and SNAP programs.

HISTORY: Mandated in 1987 by the federal government.

**Commercial Aircraft:** **63–3622GG**

DESCRIPTION: Exempts aircraft purchased for commercial transport of passengers or freight and parts used in nonresident, private aircraft.

HISTORY: Enacted in 1988. Amended in 1994 to add any aircraft that are for use outside Idaho. Amended in 2001 to exempt repair parts for aircraft primarily used to transport passengers or freight for hire. Amended in 2009 to limit the aircraft exemption to those aircraft that are used as allowed by law to provide passenger or freight services for hire to the public from one point on land or water to another. Amended in 2012 to include parts used in nonresident privately owned aircraft at FAA approved Idaho repair stations. This includes parts installed in warranty repairs. Amended in 2016 to exempt from tax the sale, lease, purchase or use of a fixed-wing aircraft primarily used as an air tactical group supervisor platform under contract with a governmental entity for wildfire activity. Amended in 2020 to include aircraft primarily used for agricultural production or forest and wildlife conservation purposes.

**Vending Machines and Amusement Devices:** **63–3622II**

DESCRIPTION: Exempts money-operated machines that vend a taxable product or service.

HISTORY: Enacted in 1990.

**Incidental Sales by Churches:** **63–3622KK**

DESCRIPTION: Exempts sales by churches that do not regularly compete with private enterprise.

HISTORY: Enacted in 1990.

**Media Measurement Services:** **63–3622LL**

DESCRIPTION: Exempts the sale and purchase of any television, radio, newspaper, or other media measurement service.

HISTORY: Enacted in 1997.

**Clean Rooms:** **63–3622NN**

DESCRIPTION: Exempts any tangible personal property that is used in or becomes a part of a clean room used to manufacture semiconductors. Also includes property that is used to maintain a clean room.

HISTORY: Enacted in 1999. Extended to include clean rooms used for research and development in 2005.

**Dealer Labor for New Vehicle Accessories:** **63–3622OO**

DESCRIPTION: Exempts a motor vehicle dealer's labor or service charge to add an accessory to a new, factory delivered motor vehicle when the dealer sells the accessory with the motor vehicle.

HISTORY: Enacted in 2019.

**Idaho Commemorative Silver Medallions:** **63–3622PP**

DESCRIPTION: Exempts sales of Idaho commemorative silver medallions.

HISTORY: Originally enacted in 2003.

**Alternative Electricity–Producing Equipment:** **63–3622QQ**

DESCRIPTION: Provides a refund of sales tax paid for machinery and equipment used in alternative types of electricity production. To qualify, the facility must have a capacity of at least 25 kilowatts. The alternative methods that qualify for this exemption are fuel cells, low-impact hydro, wind, geothermal, cogeneration, solar, landfill gases, and biomass.

HISTORY: Enacted in 2005. Sunset on June 30, 2011.

**Research and Development Equipment:** **63–3622RR**

DESCRIPTION: Exempts tangible personal property used in research and development activities.

HISTORY: Enacted in 2005.

**Nonprofit Shooting Range Fees:** **63–3622SS**

DESCRIPTION: Exempts fees and memberships of nonprofit shooting and hunting organizations from the Idaho sales tax.

HISTORY: Enacted in 2006.

**Custom Meat Processing:** **63–3622TT**

DESCRIPTION: This bill exempts custom meat processing from the sales tax for customer-provided carcasses when the meat will not be resold.

HISTORY: Enacted in 2020.

**Personal Property Tax on Rentals:** **63–3622UU**

DESCRIPTION: Exempts from taxation the amount of property tax included in a rent payment for tangible personal property. To be eligible the property must initially be leased for at least a year.

HISTORY: Enacted in 2008.

**Information Technology Equipment:** **63–3622VV**

DESCRIPTION: This bill exempts from sales tax all materials going towards data centers which cost at least $250 million and creates at least 30 new full-time jobs that pay at least the average county wage rate.

HISTORY: Enacted in 2020.

**State Tax Anticipation Revenue:** **63–3641**

DESCRIPTION: Rebates sales tax paid to developer for costs of building or improving qualified freeway exchanges. The developer must spend at least $4 million on a retail commercial complex and at least $6 million on a freeway interchange or interchange improvements. The maximum any developer could be reimbursed for a given freeway project is $35 million.

HISTORY: Enacted in 2007. Amended in 2009 to lower minimum freeway interchange project threshold from $8 million to $6 million.

**Small Employer Headquarters Construction:** **63–4408**

DESCRIPTION: This rebate is contingent on a taxpayer qualifying under the "Idaho Small Employer Incentive Act of 2005". It provides a rebate for 25% of sales and use taxes paid on property constructed, located, or installed in the "project site" (as specified in 63-4402) from January 1, 2006 through December 31, 2030. General qualification criteria are specified in 63-4402, and can be summed up as making an investment of at least $500,000 in new facilities and adding at least ten new jobs paying at least $19.23 per hour. The average wage for each additional job above the initial ten must be at least $15.50 per hour.

HISTORY: Enacted in 2005. Amended in 2006. Average wage calculation amended in 2008. Amended in 2009 to extend this exemption through December 31, 2020. Amended in 2020 to extend this exemption through December 31, 2030.

**Lottery Tickets and Pari-Mutuel Betting:** **67–7439**

DESCRIPTION: Exempts the sale and purchase of lottery tickets and pari-mutuel betting from the sales tax. Also exempts from sales tax any equipment used in lottery operations.

HISTORY: Enacted in 1988.

**Agricultural Services**

DESCRIPTION: Includes the value of contract work included in the revenue portion of the Census of Agriculture.

HISTORY: Not subject to sales and use taxes.

**Industrial and Mining Services**

DESCRIPTION: Taxable revenue is the sum of 2.5% of Idaho's share of NAICS 21 revenue and 3.75% of Idaho's share of NAICS 31-33 revenue.

HISTORY: Not subject to sales and use taxes.

**Trade and Retail Services**

DESCRIPTION: Taxable revenue is the sum of 10% of Idaho's share of NAICS 42 revenue and 2.5% of Idaho's share of NAICS 44-45 revenue subtracting 4411,4412,4413,444,44719 which are included in repair services.

HISTORY: Not subject to sales and use taxes.

**Information Services**

DESCRIPTION: Taxable revenue is 100% of Idaho's share of NAICS 51 revenue.
HISTORY: Not subject to sales and use taxes.

**Financial and Real Estate Services**

DESCRIPTION: Taxable revenue is the sum of 75% of Idaho's share of NAICS 52 revenue and 75% of Idaho's share of NAICS 53 revenue.
HISTORY: Not subject to sales and use taxes.

**Professional, Management, Administrative Services Services**

DESCRIPTION: Taxable revenue is 100% of Idaho's share of NAICS 54,55,56 revenue.
HISTORY: Not subject to sales and use taxes.

**Education Services**

DESCRIPTION: Taxable revenue is 100% of Idaho's share of NAICS 61 revenue.
HISTORY: Not subject to sales and use taxes.

**Health Care Services**

DESCRIPTION: Taxable revenue is 100% of Idaho's share of NAICS 62 revenue.
HISTORY: Not subject to sales and use taxes.

**All Other Services**

DESCRIPTION: Taxable revenue is 66% of Idaho's share of NAICS 81 revenue subtracting the revenue from NAICS 8111,8112,8113, and 8114 included in repair services.
HISTORY: Not subject to sales and use taxes.

# INTRODUCTION

## Tax Expenditures and Their Impact

Illinois law states that a tax expenditure *"is any tax incentive authorized by law that by exemption, exclusion, deduction, allowance, credit, preferential tax rate, abatement, or other device reduces the amount of tax revenues that would otherwise accrue to the State."* Hundreds of expenditures approved by legislators and governors have been implemented over the years to assist individuals, taxpayers, and businesses.

Tax expenditures have been used since the early 1930s. However, the 1980s saw a surge in the number of expenditures, when 75 of the existing tax expenditures were enacted. Of these, at least 29 were related to economic development efforts, including various tax expenditures related to enterprise zones, foreign trade zones, and high-impact business investments.

In fiscal year 2024, 58 agencies identified 207 tax expenditures: 89 associated with taxes and 118 associated with licenses or fees.

The computations of the costs of tax expenditures for the *individual income tax* are derived from tax year 2023 returns. The Department of Revenue waits an additional year to obtain more complete tax information for computing tax expenditures for the *corporate income tax*, so computations of tax expenditures for the corporate income tax in this report are derived from tax year 2022 returns. The fiscal year 2024 *Tax Expenditure Report* includes corporate income tax computations that reflect the corporate income tax rate of 7%, and the individual income tax rate of 4.95%.

The total impact of tax expenditures in Illinois in fiscal year 2024, as reported by state agencies, was $12.457 billion from 48 revenue sources; however, $12.090 billion, or 97.1%, came from just five tax sources: the Individual Income Tax, the Corporate Income Tax, the Sales and Use Tax, the Retaliatory Tax, and the Hospital Provider Assessment.

Tax expenditures against the Individual Income Tax totaled $6.039 billion, or 48.5% of total tax expenditures. This represents an increase of about $5 million, or 0.1%, from fiscal year 2023. Individual Income Tax expenditures represent 20.0% of the total $30.136 billion in appropriated funds revenues generated by the Individual Income Tax in fiscal year 2024.

Tax expenditures against the Sales and Use Tax of $5.134 billion made up 41.2% of total expenditures, an increase of $257 million, or 5.3%, from fiscal year 2023. Against revenues of $12.481 billion reported by the Department of Revenue, fiscal year Sales and Use Tax expenditures represent 41.1% of appropriated funds Sales and Use Tax revenues.

Corporate income tax expenditures of $613 million comprised 4.9% of total expenditures and reflected a decrease of $119 million (16.3%) from fiscal year 2023. Tax expenditures from the Retaliatory Tax, imposed on out-of-state insurance companies if the company would pay a higher tax in its state of incorporation than in Illinois, totaled $170 million, a decrease of $32 million (15.8%) from fiscal year 2023. Hospital Provider Assessment expenditures of $135 million represent 1.1% of the total expenditures and reflect a decrease of $10 million from the assessment's fiscal year 2023 expenditures.

## What's New in Tax Expenditures

### *Tax Expenditures of $12.457 Billion in Fiscal Year 2024*

Reported tax expenditures of $12.457 billion in fiscal year 2024 reflect an increase of 0.9% compared to reported tax expenditures of $12.343 billion in fiscal year 2023.

Sales tax expenditures of $5.134 billion reflect an increase of 5.3% from the fiscal year 2023 amount of $4.878 billion. The reported cost of the highest tax expenditure – the Food, Drugs and Medical Appliances Rate Reduction – of $2.764 billion reflects an increase of $349 million, or 14.5%, from fiscal year 2023.

Individual income tax expenditures increased by more than $5 million, or 0.09%, from $6.033 billion in fiscal year 2023 to $6.039 billion in fiscal year 2024. The three highest *individual income tax expenditures* were the Federally Taxed Retirement and Social Security Subtraction at $3.336 billion, the Standard Exemption for Taxpayers and Dependents at $1.246 billion, and the Tax Credit for Residential Real Property Taxes at $565 million. Federally Taxed Retirement and Social Security Subtractions increased by $44 million from fiscal year 2023. The reported cost of the Standard Exemption increased by $37 million, from $1.209 billion in fiscal year 2023. The Tax Credit for Residential Real Property Taxes increased by more than $8 million compared to fiscal year 2023.

The cost of corporate income tax expenditures decreased in fiscal year 2024 by 16.3%, from $732 million to $613 million. The Economic Development for a Growing Economy Tax Credit (EDGE) and the Film Production Services Credit both declined in fiscal year 2024 – the EDGE credit by 8.1% and the Film Production Services Credit by 31.2%. Research and Development Credit tax expenditures increased by 8.1%, from $105 million to $114 million, and was extended to January 1, 2032, under Public Act 103-0595, a business development omnibus package. Net Operating Loss Deduction tax expenditures increased by almost 2.1%, from $62 million in fiscal year 2023 to $63 million in fiscal year 2024.

Public Act 103-0592, the fiscal year 2025 budget revenue bill, limited the Net Operating Loss Deduction to $500,000 for tax years of 2024-2027. The law also amended the Illinois Income Tax Act to rename the Wages Paid to Ex-Felons Credit to the Credit for Wages Paid to Returning Citizens starting in 2025. Additional credits under this law will take effect after fiscal year 2025.

Also included in the fiscal year 2025 budget package under public Act 103-0592 was the Illinois Child Tax Credit, a refundable credit that can be claimed by taxpayers in tax years 2024 and 2025 who qualify for the Earned Income Tax Credit (EITC) and have at least one qualifying child under the age of 12 on the last day of the taxable year. Tax year 2024 allows for a credit equal to 20% of the EITC the taxpayer is allowed to claim. For tax year 2025, the credit allowance increases to 40% of the EITC. If the amount of the credit exceeds the income tax liability, the taxpayer will be refunded the excess credit. In 2024, the Department of Revenue reported Illinois EITC expenditures of $370 million, a 2.1% decrease from the prior year. In addition to the Illinois Child Tax Credit, Public Act 103-0592 also extended the Adoption Credit for individual taxpayers and the Student-Assistance Contribution Tax Credit through December 31, 2029.

The Secretary of State continued updating and streamlining tax expenditures to better reflect the statutes governing the associated fees. The No Cost ($0.00) and Reduced ($5.00) Corrected and Duplicate Identification Card Fees expenditure was added to the Corrected and Duplicate Identification Card Fee Exemption. Under the Motor Vehicle Registration (1st Division), the agency eliminated the Charitable Organization Vehicle Exemption, the Disabled Veteran Vehicle Registration Exemption, the Driver's Education Vehicles Exemption, the Municipality Owned Passenger Vehicle Exemption, and the Senior Citizen Plate Renewal Reduction. The Charitable Organization and Driver's Education Vehicle Exemptions, the Municipality Owned and Sheriff Vehicle Exemptions, the Senior Citizen (Benefit Access) Vehicle Exemption, and the Congressional Medal of Honor Recipient, Disabled Veteran, Ex-Prisoner of War, Purple Heart Recipient, Gold Star, I Served, and Ambulance Vehicle Exemptions replaced the prior expenditures.

## Tax Expenditures of $100 Million or More

Eighteen tax expenditures each produced reported costs of at least $100 million in fiscal year 2024. Nine of these tax expenditures were from the Sales and Use Tax, five from the Individual Income Tax, three from Corporate Income Tax, and one from the Hospital Provider Assessment.

The top three tax expenditures – the Federally Taxed Retirement Income and Social Security Subtraction, the Food, Drugs and Medical Appliances Rate Reduction, and the Standard Exemption for Taxpayers and Dependents – totaled $7.346 billion, an increase of $430 million, or 6.2%, from fiscal year 2023. These three expenditures accounted for 59.0% of the total reported expenditures in fiscal year 2024.

At $3.336 billion, the Federally Taxed Retirement and Social Security Subtraction represented 26.8% of tax expenditures' total reported impact. The Food, Drugs, and Medical Appliances Rate Reduction expenditure accounted for $2.764 billion, or 22.2%, of the total impact, and the Standard Exemption for Individual Income Tax accounted for $1.246 billion, or 10.0%, of the total impact.

The 18 largest tax expenditures totaled $11.238 billion, or 90.2% of the total impact of all tax expenditures.

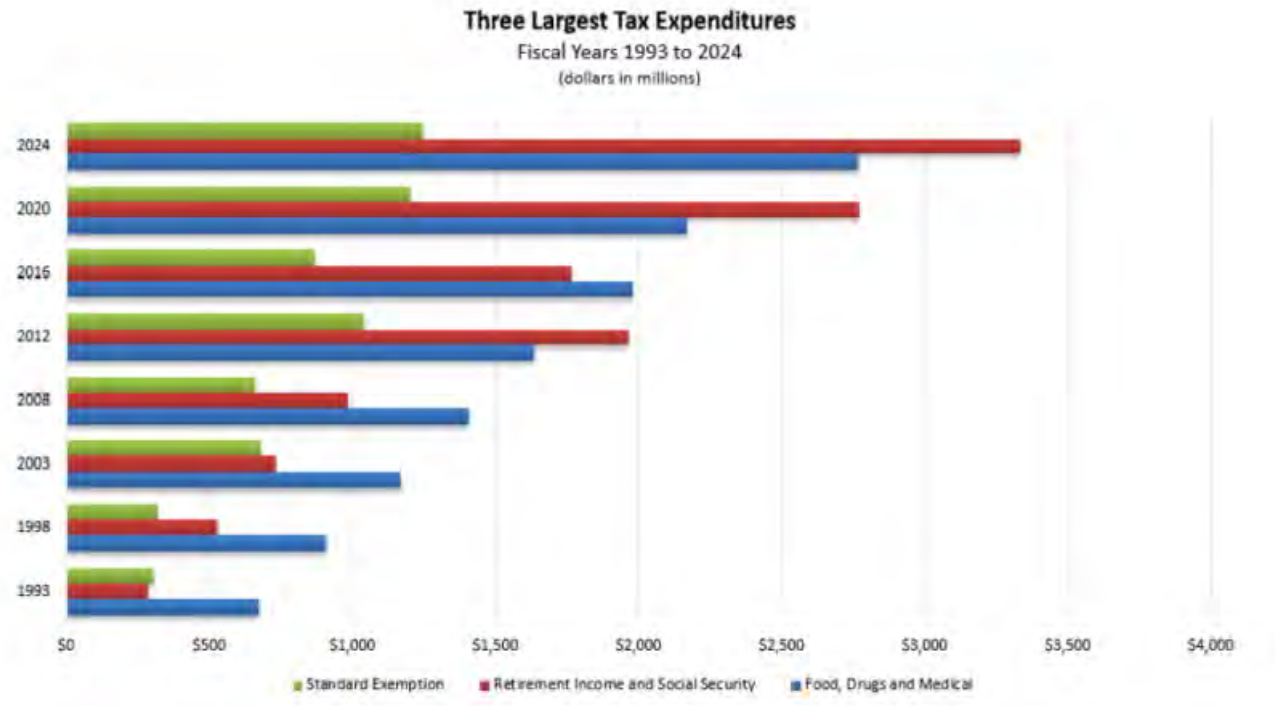
## Three Largest Tax Expenditures: Fiscal Years 1993 to 2024

Reported tax expenditures in fiscal year 1993, the first year the *Tax Expenditure Report* was issued, totaled $3.062 billion. In fiscal year 2024, reported tax expenditures totaled $12.457 billion, an increase of $9.395 billion since fiscal year 1993, or 306.8%, and an increase of $114 million over fiscal year 2023, or nearly 1.0%.

The three largest expenditures in fiscal year 2024 accounted for 59.0% of the total reported cost of all tax expenditures for the year. The largest tax expenditure is the Federally Taxed Retirement Income and Social Security Subtraction under the Individual Income Tax. Retirement subtractions from the Illinois individual income tax apply to all retirement income, including Individual Retirement Accounts, disability, Social Security, and Railroad Retirement income that are subject to the federal income tax. The reported $3.336 billion cost of this tax expenditure in fiscal year 2024 is $44 million more compared to fiscal year 2023.

The second-largest tax expenditure is the Food, Drugs and Medical Appliances Rate Reduction, making up 22.2% of total reported expenditures. Between fiscal year 2023 and fiscal year 2024, its cost increased by $349 million, from $2.415 billion to $2.764 billion, or 14.5%.

The third-largest tax expenditure, the Standard Exemption for Taxpayers and Dependents, had been one of the slowest growing tax expenditures, increasing from $306 million to $320 million between fiscal years 1993 and 1998, an increase of 4.6%. But between fiscal years 1998 and 2003, the expenditure grew from $320 million to $680 million, a 112.5% increase. This increase was due in part to the phase-in of a greater exemption amount, from $1,300 per taxpayer in tax year 1998 to $2,000 in tax year 2000, a



53.8% increase. Between fiscal years 2012 and 2024, the expenditure grew from $1.036 billion to $1.246 billion, an increase of 83.2%.

Between tax years 2000 and 2011, the standard exemption was $2,000 per taxpayer. Then a law enacted in 2012 created annual cost-of-living increases in the exemption tied to the Consumer Price Index for Urban Consumers (CPI-U) beginning in tax year 2013. Between tax years 2012 and 2022, the exemption increased from $2,050 to $2,425.

The increase in the expenditure has grown alongside the increase in the exemption, which in tax year 2024 was $2,775. The reason for the one-year $350 increase was the reinstatement of the cost-of-living adjustment, which was paused for tax year 2023. In fiscal year 2024, the expenditure reported $1.246 billion, an increase of 3.1% from fiscal year 2023.

## Who Received Tax Expenditures?

Tax expenditures in fiscal year 2024 totaled $8.140 billion for all individual expenditure categories, making up 65.9% of the total cost for the fiscal year.

Tax expenditures for all business categories totaled $1.957 billion, or 15.7% of the total cost. Expenditures for charities decreased between fiscal years 2023 and 2024, from $850 million to $805 million. Sales to Exempt Organizations made up $780 million of the $805 million in tax expenditures for charities, a decrease of $39 million, or 4.8% from fiscal year 2023. The expenditure made up 96.9% of the total charitable expenditures.

Of the $1.126 billion in Other tax expenditures, the largest was the Traded-In Property Exemption from sales tax with $268 million. Four additional expenditures in this category exceeded $100 million: $234 million from Individual Income Tax Other Subtractions, $188 million from Sales of Motor Vehicles to Non-Residents Exemption, $170 million from Retaliatory Tax offsets and credits, and $135 million from the Hospital Provider Assessment.

Individuals received $4.997 billion in broad-based tax expenditures, which are small individual exemptions applied to a large amount of taxes. The three largest were the Food, Drugs and Medical Appliances Rate Reduction at $2.764 billion, the Standard Exemption for Taxpayers and Dependents at $1.246 billion, and the Tax Credit for Residential Real Property Taxes at $565 million.

Other broad-based tax expenditures include the Earned Income Tax Credit at $370 million and the Education Expense Credit at $52 million. Tax expenditures for the elderly and persons with disabilities totaled $3.431 billion, with the Federally Taxed Retirement and Social Security Subtraction making up 97.2% of that amount at $3.336 billion. Other expenditures for individuals totaled $140 million, a decrease of 3.6% from fiscal year 2023. The Military Pay Subtraction credit decreased by 2.1% in fiscal year 2024, from $71 million to $70 million.

The impact of general business tax expenditures totaled $1.268 billion, while agricultural tax expenditures totaled $689 million for a combined $1.957 billion in business tax expenditures, a decrease of $165 million, or 7.8%, from fiscal year 2023. The Manufacturing and Assembling Machinery and Equipment Exemption with $191 million, the Sales and Use Tax Rolling Stock Exemption with $128 million, and the

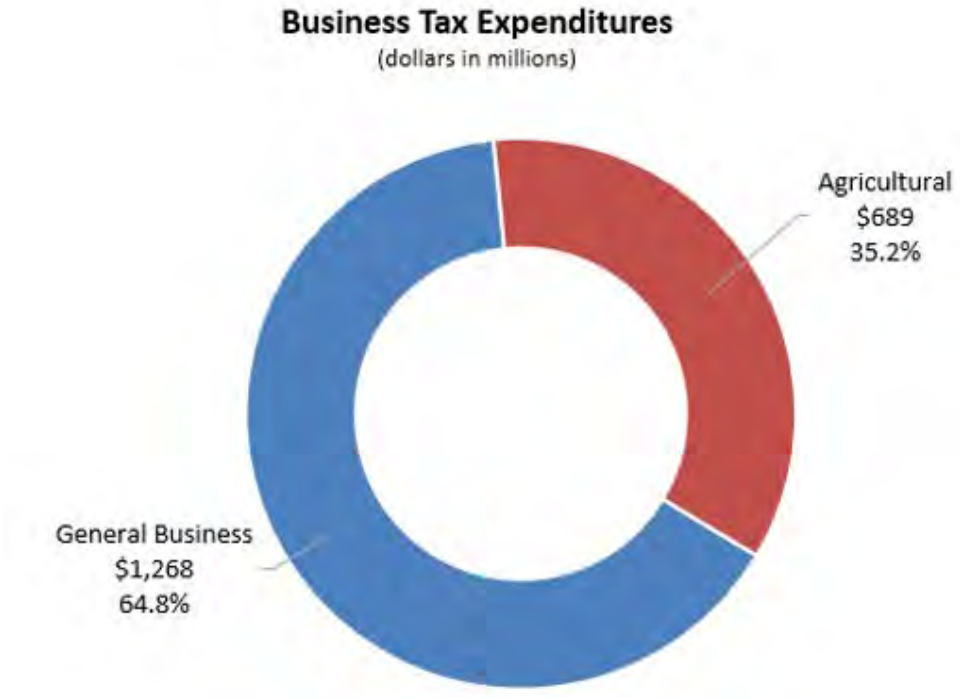
Individual Tax Expenditures
(dollars in millions)
Elderly and Disabled $3,431 40.0%
Broad-Based $4,998 58.3%
Other $140 1.6%



Business Tax Expenditures
(dollars in millions)
Agricultural $689 35.2%
General Business $1,268 64.8%

Economic Development for a Growing Economy Tax Credit with $129 million were the largest general business tax expenditures. Other notable expenditures include the Research and Development Credit at $114 million, and the Film Production Services Credit at $108 million.

Sales tax made up nearly 100% of the reported total of agricultural tax expenditures, with the largest expenditure being the Farm Chemicals Exemption at $274 million, followed by the Biodiesel Discount and Exemption with $205 million and the Farm Machinery and Equipment Exemption of $204 million.

## Economic Development Tax Incentives

Tax expenditures can be received by businesses in the form of tax credits, sales tax exemptions, exemptions for manufacturing equipment, tax incentives for investments in enterprise zones, and tax credits for research and development and filming movies and television series in the state.

These tax expenditures totaled $789 million in fiscal year 2024, a $121 million decrease from fiscal year 2023. The largest, at $191 million, was the Manufacturing and Assembling Machinery and Equipment Exemption, a credit that gives manufacturers a sales tax exemption for purchases of machinery and equipment used in manufacturing or assembling. Five other tax expenditures exceeded $70 million each: the Economic Development for a Growing Economy Tax Credit, the Research and Development Credit, the Film Production Services Credit, the Building Materials within Special Zones Exemption, and Income Tax Credits. The High Impact Business Building Materials Exemption and the Enterprise Zone Investment Credit each had expenditures exceeding $20 million.

The Economic Development for a Growing Economy Tax Credit Program, widely known as EDGE, decreased in fiscal year 2024, from $140 million down to $129 million, a decrease of 8.1%. The EDGE program provides annual corporate tax credits to qualifying businesses that support job creation, capital investment, and improve the standard of living for all Illinois residents. The credits are non-refundable and are equal to 50% of the income tax withholdings of new jobs created in the state, or 75% if the project is in an underserved area. The credit also provides 10% of eligible training costs for new hires in full-time positions.

The Research and Development Credit is a non-refundable tax credit geared toward supporting job growth in Illinois. Businesses can claim a 6.5% credit on increases in Research and Development spending that occurs within the state for a qualified purpose with research relying on hard sciences. The expenditure increased from $106 million in fiscal year 2023 to $114 million in fiscal year 2024, an increase of 8.1%.

The Film Production Services Credit reported $108 million in tax expenditures in fiscal year 2024. This credit incentivizes film production in Illinois by giving companies 30% tax credits on qualified Illinois production costs and salaries up to $500,000 per worker. Additionally, the credit includes a 15% credit

on the salaries of individuals who make at least $1,000 and live in economically disadvantaged areas and areas with high unemployment (150% of the state's annual average). This credit is geared toward increasing the use of Illinois vendors and residents in films and television shows and can be carried forward for five tax years from the year of issuance.

The Building Materials within Special Zones Exemption is the sales of qualified building materials by a retailer to be incorporated by remodeling, rehabilitation, or new construction into real estate located in an enterprise zone, river edge redevelopment zone, or intermodal terminal facility redevelopment project area. The retailer's place of business must be located within the county or municipality which has established the enterprise zone areas exempt. The expenditure reported $84 million for fiscal year 2024, an increase of $12 million over fiscal year 2023.

| Other Income Tax Credits[2] | 11,754 | 7,584 |
| **Total Impact** | $ 6,033,213 | $ 6,038,694 |

**Revenue Source:** Sales and Use Tax

| Expenditure: | FY 2023 | FY 2024 |
|---|---|---|
| Food, Drugs, and Medical Appliances Rate Reduction | $ 2,415,239 | $ 2,764,471 |
| Sales to Exempt Organizations | 818,920 | 779,647 |
| Farm Chemicals (Includes Feed and Seed) Exemption | 282,641 | 274,343 |
| Traded-In Property Exemption[3] | 292,983 | 268,449 |
| Biodiesel Discount and Exemption | 244,840 | 204,992 |
| Farm Machinery and Equipment Exemption | 185,747 | 204,239 |
| Manufacturing and Assembling Machinery and Equipment Exemption | 185,523 | 191,288 |
| Sales of Motor Vehicles to Non-Residents Exemption[4] | 196,055 | 187,940 |
| Rolling Stock Exemption | 125,529 | 127,708 |
| Building Materials Within Enterprise Zone, River Edge Redevelopment Zone, or Intermodal Terminal Facility Redevelopment Project Exemption | 72,577 | 84,395 |
| High Impact Business Building Materials Exemption | 19,419 | 22,404 |
| Designated Tangible Personal Property within Enterprise Zone Exemption | 14,727 | 12,319 |
| High Impact Business Designated Tangible Personal Property Exemption | 13,960 | 4,933 |
| All Other[5] | 9,765 | 7,249 |
| **Total Impact** | $ 4,877,925 | $ 5,134,377 |

1 Includes subtractions for a variety of items, many of which (interest expenses, job training contributions, acceleration of life insurance benefits for a terminal illness, Persian Gulf War bonuses, medical care savings accounts, college savings accounts, self-employed health insurance, Roth IRA conversions, compensation of Nazi victims, non-salary ride sharing compensation, and amounts awarded for wrongful imprisonment) are tax expenditures.

2 Includes the Affordable Housing Donations Credit; Adoption Credit; Enterprise Zone and River Edge Redevelopment Zone Investment Credit; Enterprise Zone Dividends Subtraction; Student-Assistance Contribution Credit; TECH-PREP Youth Vocational Programs; Ex-Felons Jobs Credit; Apprenticeship Education Expense Tax Credit; Dependent Care Assistance Program Tax Credit; and the High Impact Business Investment Credit.

3 Beginning in fiscal year 2013, this expenditure applies only to motor vehicles. The Department of Revenue no longer has data to estimate the non-motor vehicle share.

4 This exemption is given only to buyers whose home state extends the same exemption to Illinois residents. Thus, Illinois taxes the full amount of out-of-state sales when an Illinois resident brings a vehicle back to register. In that way, Illinois receives some compensation for this tax expenditure in a way that it does not for others.

5 Includes the Back-to-School State Sales Tax Holiday, Majority Blended Ethanol Exemption, and the Sales of Vehicles to Automobile Rentors Exemption.

# TAX EXPENDITURES BY TOTAL IMPACT OF REVENUE SOURCE (dollars in thousands)

[8] This exemption is given only to buyers whose home state extends the same exemption to Illinois residents. Thus, Illinois taxes the full amount of out-of-state sales when an Illinois resident brings a vehicle back to register. In that way, Illinois receives some compensation for this tax expenditure in a way that it does not for others.

[9] Sales to government bodies, organizations operated exclusively for charitable, religious, or educational purposes, not-for-profit organizations for the recreation of persons 55 or older, county fair associations, teacher-sponsored student organizations, not-for-profit artistic organizations, meals for the Nutrition Programs for the Elderly, nursing home food and drugs, public service corporations for municipal convention halls, and community water supply construction items.

[10] Beginning in fiscal year 2013, this expenditure applies only to motor vehicles. The Department of Revenue no longer has data to estimate the non-motor vehicle share.

# TECHNICAL APPENDIX

**Tax Expenditures Included in This Report**

The Illinois Office of Comptroller has limited required-agency reporting to tax expenditures that are:

1) State-levied taxes accruing to the state (excluding tax expenditures related to locally levied taxes that are collected by the state, and tax expenditures for state-levied taxes such as the personal property replacement tax and local share of state sales taxes that are automatically distributed to local governments).

2) Authorized directly by state law (tax expenditures arising from the adoption of federal income tax provisions as the starting point for state income tax computations need not be reported). This includes statutorily mandated exemptions to fees.

3) In excess of $1 million in fiscal year 2024 (however, some agencies reported smaller tax expenditures, and the receipting agencies were asked to list any tax expenditures for which detailed cost estimates were not provided, either because the tax expenditures were less than $1 million or were not calculable).

**Limitations on Using Tax Expenditure Data**

Unlike other data released by the Illinois Office of Comptroller, the costs of many reported tax expenditures are estimates, and their accuracy may be affected by the limitations of the data used to construct each estimate. The measurement of a tax expenditure may require assumptions about the tax base that are subjective and may differ if made by another analyst.

Revenues realized by eliminating a tax expenditure may vary from the figures presented in this report, as the elimination of a tax expenditure may result in changes in taxpayer behavior and revenues generated by the state. Further, adding the impacts of the various tax expenditures may overstate the total cost of the tax expenditures, as some transactions may be exempt under multiple tax expenditures.

Transactions that are not taxed because they fall outside the Illinois tax base are not tax expenditures. For example, the Illinois sales tax is a tax on the transfer of tangible personal property for final use. In most cases, services are taxed only to the extent tangible personal property is transferred as part of the service agreement. Thus, auto repair services are only taxed on the parts used in the repairs. Not fully taxing service purchases is not a tax expenditure, as services lie outside the state tax base.

# TECHNICAL APPENDIX

## State Versus Federal Law

In some cases, federal tax law serves as the basis for starting state tax computations. For example, computation of the Illinois personal income tax begins with adjusted gross income (AGI) as determined on federal tax returns. Thus, some federal tax expenditures are implicitly extended to Illinois' personal income taxpayers.

For this report, such indirect tax expenditures are not considered to be authorized by state law. Illinois statutes may set AGI as the starting point for Illinois personal income tax computations, but the actual authorization of the tax expenditure is determined by federal law and can be modified by amending federal law. The portion of the tax expenditure statute asking for the "citation of the legal authority for the tax expenditure, the year it was enacted, and the fiscal year in which it first took effect" is interpreted to apply only to state statutes.

However, the state may require specific federal tax expenditures to be added to the state tax base. An example is the municipal bond interest deductions, which are added to taxable income when computing the Illinois personal income tax base.

Tax expenditures based on the U.S. Constitution are also excluded from this report. An example would be items exempt from state taxation under the federal Commerce Clause.

## Overlapping Taxes

In some cases, transactions or income are exempted from one state tax because they are subject to another state tax. For example, transactions subject to the state sales tax are exempt from the state use tax. Exemptions included in the statutes to prevent double taxation are not considered tax expenditures for purposes of this report. Similarly, credits for taxes paid to other states prevent double-taxation and are not tax expenditures.

**For More Detailed Information**

Agency *Tax Expenditure Report* submissions are available on the Comptroller's website. To access the detailed submissions:

- Go to illinoiscomptroller.gov.
- Click "Financial Reports & Data" in the navigation bar, then hover over "Find A Report," and click on "Find a Report" in the pop-up menu on the right.
- In the dropdown menu under the "Find a Report" heading, choose "Tax Expenditure Report" and click the "Search" button. Within the Tax Expenditure Report section, select the "here" hyperlink at the top of the page.
- Use the dropdown menu to select the agency of interest. Then select the appropriate fiscal year and click "Select Agency."
- Reports may be created for all receipts from an agency or for a selected group of receipts. If "Select Tax Receipts" is chosen, use the dropdown menus to choose the first and last of the desired group of receipts.
- Three standardized reports may be created: "Tax Expenditure Detail" contains the detailed agency submissions, "Tax Expenditures by Fund" provides cost estimates by fund, and "Total Tax Expenditure Cost" lists total cost estimates.
- The reports described above may be printed as HTML files.

If you have questions about the *Tax Expenditure Report*, please contact Jennifer Kovats at TaxExp@illinoiscomptroller.gov or Jennifer.Kovats@illinoiscomptroller.gov.

# PREFACE

IC 2-5-3.2-2 requires the Legislative Services Agency (LSA) to prepare and publish a tax expenditure report before November 1 in even-numbered years for use in the preparation and consideration of the state biennial budget.

The report must include at least the following:

- A listing and explanation of each tax expenditure.
- The history of each tax expenditure.
- An estimate for each state fiscal year of the next biennial budget of the cost of each tax expenditure.
- A discussion of the criteria used to determine whether a tax provision is a tax expenditure.

This biennial tax expenditure report is conducted by the Office of Fiscal and Management Analysis of LSA. The report must be submitted to the Interim Study Committee on Fiscal Policy, the Legislative Council, and the chairpersons and ranking minority members of the House Committee on Ways and Means and the Senate Committee on Appropriations.

LSA would like to thank the Department of State Revenue and the Indiana Economic Development Corporation for providing much of the data used to prepare this report.

# INTRODUCTION

## DEFINING TAX EXPENDITURES

IC 2-5-3.2-2 defines a tax expenditure as a tax exemption, tax deduction, tax credit, preferential tax rate, or tax provision that reduces a person's state tax liability.

A tax expenditure is broadly defined as a tax provision that reduces the amount of revenue that would otherwise be generated from the "normal" tax base. Therefore, defining the "normal" tax base is a crucial step in identifying and measuring tax expenditures. Because there is not one single definition of the norm, the determination of a tax provision as a tax expenditure may differ from state to state. This report uses a reference law baseline model for classifying tax provisions as part of the normal tax base or as tax expenditures. This approach identifies exemptions, deductions, credits, and other statutory provisions as tax expenditures, while recognizing that some revenue reducing provisions are part of the baseline structure of the tax.[1]

Generally, the following criteria are

[1]Mikesell, J. L. (2002). Tax expenditure budgets, budget policy, and tax policy: Confusion in the states. *Public Budgeting & Finance,* 22(4), 34-51.

used to determine whether a provision constitutes a tax expenditure:

1. The provision reduces the state's General Fund revenue.
2. The item would have been part of the defined tax base.
3. The item is not subject to an alternative tax.
4. The provision is subject to change by state legislative action.

Below are descriptions of the basic structure of Indiana's individual income tax, corporate income tax, and sales and use tax and the criteria LSA used in deciding whether to classify a tax provision as an expenditure.

## Individual Income Tax

Individual income taxation begins with gross income, which consists primarily of wages, salaries, taxable interest, business income, realized net capital gains, rents, royalties, taxable pension and annuity income, and alimony received. Federal law provides several adjustments to an individual's or entity's gross income to arrive at federal adjusted gross income (AGI) as defined by Section 62 of the Internal Revenue Code. These adjustments are commonly referred to as being "above the line" because they are adjustments to income before the computation of federal AGI. "Above the line" also has another meaning for Indiana taxation purposes. Taxpayers are required to carry over their federal AGI from their federal return to their Indiana return. Those "above the line" adjustments are made before the first line of Indiana's income tax filings, and those adjustments do not appear on Indiana's income tax return.

Indiana statute requires certain "above the line" adjustments to be added back to the taxpayer's federal AGI. Most of the adjustments are related to federal tax provisions that Indiana does not recognize, like the bonus depreciation deduction. Pursuant to IC 2-5-3.2-2, a tax expenditure is a provision that reduces a person's state tax liability. Therefore, for the purposes of this tax expenditure report, the tax base is equal to federal AGI, plus Indiana add-backs.

After adding back certain amounts to federal AGI, deductions, such as the homeowner's property tax deduction and exemptions for each qualifying family member, are subtracted. The resulting amount equals Indiana AGI. The state AGI tax is computed by multiplying Indiana AGI by the appropriate tax rate, which is 3.05% for tax year 2024 and 3.00% for tax year 2025. The tax rate will continue to decrease annually until tax year 2027. See Table 1.

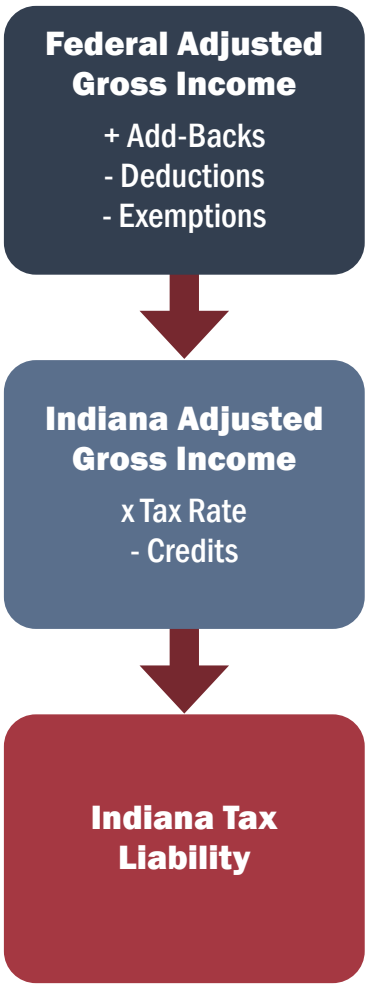
**TABLE 1.**
INDIANA INDIVIDUAL INCOME TAX RATE

| Tax Year | Tax Rate |
|---|---|
| 2023 | 3.15% |
| 2024 | 3.05% |
| 2025 | 3.00% |
| 2026 | 2.95% |
| 2027 and after | 2.90% |

**SOURCE:** IC 6-3-2-1

Credits, such as the earned income tax credit, venture capital investment credit, and certain credits for charitable donations, are subtracted from this tax amount. The resulting amount is the Indiana individual income tax liability. For purposes of this report, Indiana

deductions and exemptions subtracted from federal AGI and credits subtracted from the state tax amount are considered tax expenditures.

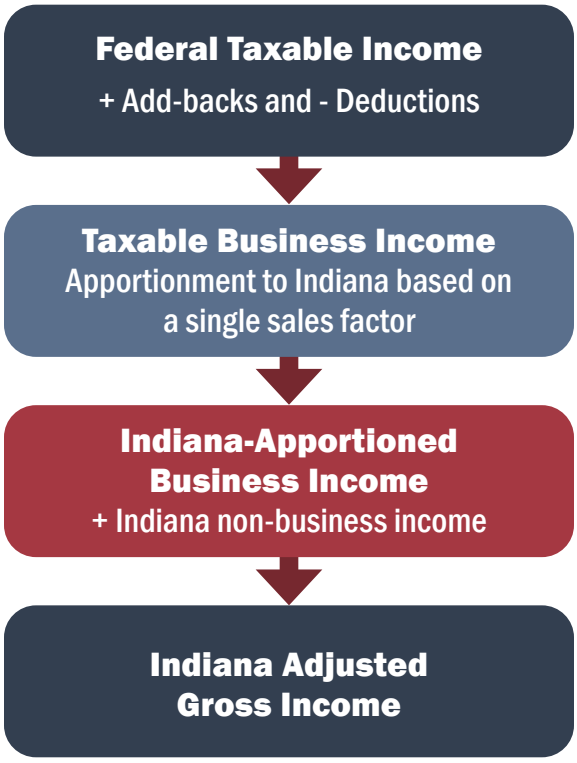


## Corporate Income Tax

Indiana corporate income taxation begins with federal "taxable income before federal net operating loss (NOL) and special deductions" (e.g., net qualifying dividends deduction). NOL at the federal level refers to losses from all subsidiaries of a corporation, including those outside of Indiana. NOL in this form is not considered for Indiana taxation purposes.

Any additional adjustment to income that occurs after the calculation of "taxable income before NOL and special deductions" on Federal Form 1120 is not considered a tax expenditure for the purposes of this report.

Federal taxable income is then modified by add-backs and deductions to arrive at taxable business income. Corporate taxpayers must apportion their taxable business income to Indiana using a single sales factor, by which a corporation's tax is based on the percentage of its sales in Indiana. Finally, Indiana-apportioned business income is modified by non-business income (e.g., sale of property) to arrive at Indiana AGI. Any available Indiana NOL is then deducted from Indiana AGI to arrive at taxable Indiana AGI. A taxpayer's liability is computed by multiplying taxable AGI by the appropriate tax rate, which is currently 4.9%.[2]



[2] The tax rate was 5.5% in FY 2020 and 5.25% in FY 2021.

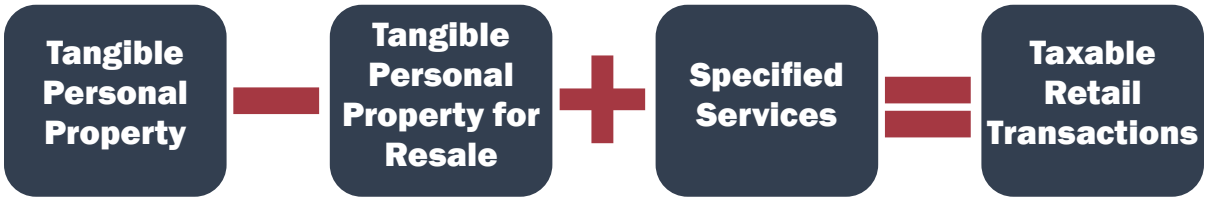
## Sales and Use Tax

Indiana imposes a gross retail tax, also known as the sales tax, on retail transactions made in Indiana. A complementary tax, known as the use tax, is imposed on the storage, use, or consumption of tangible personal property in Indiana if the property was acquired in a retail transaction, regardless of the location of the transaction or the retail merchant. The tax rate is 7% of the gross retail income received by a retail merchant. Gross retail income includes cash, credit, property, and services and excludes the value of tangible personal property received in a like-kind exchange, interest, finance charges, insurance premiums, discounts, taxes, installation charges, or postage. Sales tax is paid by the purchaser and collected by the seller at the time of the transaction. Use tax is paid and remitted by the purchaser.

Taxable retail transactions include the sale, lease, and rental of tangible personal property, which is defined as personal property that can be seen, weighed, measured, felt, or touched, or is in any other manner perceptible to the senses. Electricity, water, gas, steam, and prewritten computer software are defined as tangible personal property. In addition, certain services specified in statute, such as water softening and conditioning and the rental of rooms and other accommodations for less than 30 days, are subject to sales tax. Because services are not generally included in the definition of taxable retail transactions, the exclusion of most services from the tax base is not considered a tax expenditure.

Transactions involving tangible personal property are exempt from sales and use tax if the person acquiring the property acquires it for resale without changing the form of the property [IC 6-2.5-5-8(b)]. This provision defines the tax base by preventing an item from being taxed multiple times before it is sold to the consumer. Therefore, the resale exemption is not considered a tax expenditure.

To summarize, the normal sales and use tax base for the purposes of this report consists of transactions involving tangible personal property and specified services. It excludes most services and tangible personal property acquired for resale. Any exemptions from this base are considered tax expenditures in this report.



## Data Sources and Methods

This report provides estimates of the cost of each tax expenditure for each year of the next biennial budget (FY 2026 and FY 2027), as well as the previous and current biennia (FY 2022 through FY 2025). It is important to note that these are estimates of the financial benefit received by taxpayers, or the revenue forgone by state government. They do not represent the estimated revenue that would be gained if the provisions were repealed. In addition, the estimates do not adjust for taxpayer behavior or economic impacts that would be caused by the repeal of a tax expenditure.

Tax expenditure estimates were derived using various data sources as described below. Individual and corporate income tax expenditure estimates are based on tax return data. Tax return data are not available for most sales and use tax expenditures, so these estimates were calculated using various other data sources.

### *Individual and Corporate Income Tax*

Tax return data for individual and corporate income taxes are obtained by LSA from the Department of State Revenue (DOR). The data are transferred to LSA approximately 20 months after the end of the taxable year. The most recent year for which we have data is tax year 2022. However, the database may not contain returns that were suspended or in audit at the time of the data transfer.

The income tax expenditure forecast estimates are largely based on historical claim information. Many expenditures have established trends and are not subject to extreme annual fluctuations. However, because the available tax data are lagged by two years, LSA consulted secondary information sources for certain expenditures. For example, LSA reviewed credit agreements posted on the Indiana Economic Development Corporation's (IEDC) transparency portal. These information sources assist in determining whether the historical trends are still valid, and they provide insight in estimating future expenditure claims. The estimates for recently enacted tax expenditures were taken directly from the appropriate fiscal note published by LSA.

### *Sales and Use Tax*

Sales and use tax expenditures were estimated using various data sources, including federal government agencies and IMPLAN Group, LLC. Following are brief descriptions of the data sources that were primarily used to estimate sales tax expenditures when data from DOR were not available.

#### Bureau of Economic Analysis: Detailed Data for Fixed Assets and Consumer Durable Goods

The U.S. Bureau of Economic Analysis (BEA) publishes estimates for investments in private nonresidential fixed assets by industry and asset type. This data source provides national totals, so a portion of the BEA's estimates was allocated to Indiana based on Indiana's estimated share of each industry relative to the national total.

#### Bureau of Economic Analysis: Personal Consumption Expenditures

The BEA provides monthly, quarterly, and annual estimates of household expenditures by type of product. The national personal consumption

expenditures (PCE) data provide detailed spending information, and state-specific expenditure estimates are provided at a more aggregate level. The PCE estimates are based on information from the Census Bureau, Center for Medicare and Medicaid Services, and Bureau of Labor Statistics. This data source was primarily used to estimate sales tax exemptions for purchases that are typically made by private households, such as food and prescription drugs.

### Bureau of Labor Statistics: Consumer Expenditure Surveys

The U.S. Bureau of Labor Statistics conducts nationwide household surveys, known as the Consumer Expenditure Surveys. This program provides data on expenditures, income, and demographic characteristics of consumers in the United States. LSA used detailed expenditure data from the Consumer Expenditure Surveys, along with PCE data, to estimate sales tax exemptions for household purchases.

### Bureau of Transportation Statistics: National Transportation Statistics

The National Transportation Statistics publication reports data on all aspects of the U.S. transportation system. LSA used data on sales and leases of new and used passenger vehicles to estimate certain tax expenditures.

### Census Bureau: Economic Census

The Economic Census covers all U.S. business locations and industries and provides operational and performance data for these businesses. The Census Bureau also provides state-level business and industry data. The Census Bureau conducts the Economic Census every five years. The most recently published state data are from the 2017 Economic Census.

### Census Bureau: Manufactured Housing Survey

The Manufactured Housing Survey provides data on shipments, prices, and characteristics of new manufactured housing, including shipment and price data by state.

### IMPLAN Input-Output Model

Input-output data provide estimates of products and services purchased by industries. The input-output model provided by IMPLAN Group LLC aims to account for all monetary transactions between industries for a specific period. The data used for this report provide a detailed representation of the state's industrial structure in CY 2022.

### National Science Foundation

The National Science Foundation conducts the Business Enterprise Research and Development Survey. This is an annual survey on research and development performed or funded by businesses within the United States. The survey provides research and development costs by industry and by state. This data source was used to estimate the sales tax exemption for research and development property.

### State Lottery Commission of Indiana

State Lottery Commission Annual Reports, which include the amount of revenue from lottery ticket sales, are used to estimate the sales tax exemption for lottery tickets.

Sales tax expenditures were forecasted based on projected growth in certain economic variables. Like the estimates for income taxes, the estimates for recently enacted sales tax exemptions were taken directly from the appropriate fiscal note published by LSA.

# LEGISLATIVE CHANGES

Several tax expenditures were added or amended due to legislation enacted in 2023. No legislative changes to tax expenditures passed during the 2024 legislative session.

This section provides a summary of legislation that either resulted in additional tax expenditures or caused significant changes in the estimated cost of a tax expenditure compared to the 2022 Tax Expenditure Review. However, this is not a comprehensive list of all changes that were made to tax provisions. The estimated state fiscal impact is listed for each provision for which data is available.

| 529/ABLE Account Contribution Dates | |
|---|---|
| **Code:** | IC 6-3-3-12; IC 6-3-3-12.1 |
| **Enrolled Act:** | HEA 1454-2023, sec. 65-66 |
| **Effective Date:** | January 1, 2024 |
| **Description:** | For purposes of the 529 college contribution credit and the 529 ABLE account contribution credit, HEA 1454-2023 allows taxpayers to allocate all or part of a contribution made after the end of a taxable year, and not later than the due date of the taxpayer's income tax return for the taxable year, to the taxable year preceding the contribution. |
| **Estimate:** | The provision could reduce General Fund revenue from individual income taxes by an indeterminable amount starting in FY 2025. |
| **Attainable Homeownership Tax Credit** | |
| **Code:** | IC 6-3.1-40.9 |
| **Enrolled Act:** | HEA 1001-2023, sec. 104 |
| **Effective Date:** | January 1, 2024 |
| **Description:** | HEA 1001-2023 establishes a nonrefundable tax credit for contributions made by a taxpayer to an affordable housing organization. The amount of the tax credit is equal to 50% of the actual amount donated up to $20,000. |
| **Estimate:** | The tax credit is effective in tax year 2024 through 2029, and the provision may decrease revenue deposited into the General Fund by up to $4 M annually beginning in FY 2025 depending on the amount donated to eligible organizations. |
| **Broadband Expansion Grants Taxation Deduction** | |
| **Code:** | IC 6-3-1-3.5(b)(20) |
| **Enrolled Act:** | SEA 419-2023, sec. 7 |
| **Effective Date:** | January 1, 2023 |

| Broadband Expansion Grants Taxation Deduction (Continued) | |
|---|---|
| **Description:** | SEA 419-2023 provides for a corporate income tax deduction for: (1) federal, state, or local grants received by the taxpayer; and (2) discharged federal, state, or local indebtedness incurred by the taxpayer; for purposes of providing or expanding access to broadband services in Indiana. This would reduce the corporate income tax for taxpayers that receive broadband related grants or discharged debt. |
| **Estimate:** | Since recent federal legislation, including the Infrastructure Investment and Jobs Act (IIJA 2021) and the American Rescue Plan (ARP 2021), provides for a substantial amount of federal grants towards expanding broadband, the deduction could have significant but indeterminable fiscal impact on corporate tax revenues deposited in the state General Fund. Since the provision is retroactively effective January 1, 2023, the fiscal impact could begin in FY 2023. The full year impact from the provision will begin in FY 2024. |
| **Career Scholarship Account (CSA) Grant Deduction** | |
| **Code:** | IC 6-3-1-3.5(a)(37) |
| **Enrolled Act:** | HEA 1002-2023, sec. 7 |
| **Effective Date:** | July 1, 2023 |
| **Description:** | SEA 1002-2023 establishes an AGI Tax deduction equal to the amount of a CSA annual grant amount distributed to a taxpayer's CSA and used toward qualified expenses. |
| **Estimate:** | The deduction may reduce state General Fund revenue and local income tax by an indeterminable amount to the extent that any portion of the grant would be included in the taxpayer's federal adjusted gross income. |
| **Deduction for Health Care Sharing** | |
| **Code:** | IC 6-3-2-28 |
| **Enrolled Act:** | SEA 419-2023, sec. 17 |
| **Effective Date:** | January 1, 2024 |
| **Description:** | SEA 419-2023 establishes an Individual AGI Tax deduction for certain individual taxpayers who paid qualified health care sharing expenses. The deduction is effective beginning in tax year 2024. |
| **Estimate:** | The deduction could reduce state General Fund revenue by an estimated $1.5 M per year beginning in FY 2025. The fiscal impact could change as membership numbers and health care costs fluctuate. |

| Dependent Exemption | |
|---|---|
| **Code:** | IC 6-3-1-3.5(a)(5) |
| **Enrolled Act:** | HEA 1001-2023, sec. 94 |
| **Effective Date:** | January 1, 2023 |
| **Description:** | HEA 1001-2023 allows a taxpayer to receive a $3,000 exemption in the first year in which the taxpayer is able to claim an exemption for that child rather than a $1,500 exemption. |
| **Estimate:** | Increasing the exemption for newly claimed children would reduce state General Fund revenues by an estimated $3.8 M in FY 2024 and FY 2025. |
| **Earned Income Tax Credit** | |
| **Code:** | IC 6-3.1-21-6 |
| **Enrolled Act:** | HEA 1001-2023, sec. 100 |
| **Effective Date:** | January 1, 2023 |
| **Description:** | HEA 1001-2023 recouples with the federal EITC as in effect on January 1, 2023, at 10% of the federal EITC amount. |
| **Estimate:** | The provision would reduce state General Fund revenue by an estimated $14.7 M to $20.2 M annually beginning in FY 2024. |
| **Employer Child Care Expenditure Credit** | |
| **Code:** | IC 6-3.1-39.5 |
| **Enrolled Act:** | HEA 1001-2023, sec. 103 |
| **Effective Date:** | January 1, 2024 |
| **Description:** | HEA 1001-2023 creates a new nonrefundable tax credit for employers with 100 or fewer employees for capital expenses related to establishing childcare facilities for their employees. The tax credit is available for qualified expenditures between January 1, 2024, and July 1, 2025. |
| **Estimate:** | The credit will reduce General Fund revenue beginning in FY 2025 by an indeterminate amount, but likely less than the $2.5 M annual maximum credits allowable. |
| **Employment of Individuals with Disability** | |
| **Code:** | IC 6-3.1-38.3 |
| **Enrolled Act:** | HB 1454-2023, sec. 68 |
| **Effective Date:** | January 1, 2024 |
| **Description:** | HB 1454-2023 establishes a new nonrefundable state tax credit for employers who employ individuals with a disability. The tax credit is available in tax years 2024 through 2028. |
| **Estimate:** | The credit could reduce state General Fund revenues by approximately $3.4 M in FY 2025. The revenue impact would increase in future years since employers receive a credit for all eligible employees hired after December 30, 2023, and receive a larger percentage of eligible employee's salaries if they are employed for over a year. |

| Foster Care Support Tax Credit | |
|---|---|
| **Code:** | IC 6-3.1-35.8 |
| **Enrolled Act:** | SEA 151-2023, sec. 1-7 |
| **Effective Date:** | July 1, 2023 |
| **Description:** | SEA 151-2023 extends the nonrefundable Foster Care Support Tax Credit through December 31, 2027, rather than allowing it to sunset on June 30, 2025. It allows donations to the Insuring Foster Youth Trust Fund to be eligible for the tax credit. |
| **Estimate:** | The provision may reduce General Fund revenue in FY 2024 and FY 2025 by an indeterminable amount. The annual cap on credit claimed remains at $2 M. Extension of the credit to December 31, 2027, will reduce General Fund revenue by an indeterminable amount up to $2 M in FY 2026 through FY 2028. |
| **Health Reimbursement Tax Credit** | |
| **Code:** | IC 6-3.1-38 |
| **Enrolled Act:** | HEA 1004-2023, sec. 2 |
| **Effective Date:** | January 1, 2024 |
| **Description:** | HEA 1004-23 established a new nonrefundable tax credit for employers who adopt health reimbursement arrangements instead of traditional employer health insurance plans. |
| **Estimate:** | The provision will reduce General Fund revenue up to $10 M per year beginning in FY 2025. |
| **Historic Rehabilitation Tax Credit** | |
| **Code:** | IC 6-3.1-17.1 |
| **Enrolled Act:** | HEA 1454-2023, sec. 67 |
| **Effective Date:** | January 1, 2024 |
| **Description:** | HEA 1454-2023 established a new nonrefundable tax credit for the rehabilitation of qualified historic structures. The total amount of credits allowed is capped at $10 M per fiscal year. |
| **Estimate:** | The credit is available in tax years 2024 through 2029 and could reduce General Fund revenues by approximately $10 M beginning in FY 2025. The actual revenue loss will depend on the amount of tax credits awarded by the IEDC and on the number of qualifying projects and expenditures. |
| **Income Tax Exemption for Military Pay** | |
| **Code:** | IC 6-3-1-34 |
| **Enrolled Act:** | HEA 1034-2023 |
| **Effective Date:** | July 1, 2023 |

| Income Tax Exemption for Military Pay (Continued) | |
|---|---|
| **Description:** | HEA 1034-2023 exempts military pay from the individual income tax. The provision increases the military income tax deduction for active duty servicemembers, members of the reserve components of the armed forces, and members of the National Guard from a maximum of $5,000 to a full exemption beginning in tax year 2024. Military pay earned by members of the National Guard and in reserve components was already exempt from individual income tax if the servicemember was serving on active duty. Combat pay is already excluded from both federal gross income tax and state individual income tax. |
| **Estimate:** | The state General Fund revenue loss for the increase in the military income tax deduction for active-duty military to a full exemption is estimated to be $20 M in FY 2025. The revenue loss could potentially grow by 3% to 5% annually thereafter.<br><br>Fully exempting income earned by National Guard members and reserve components is estimated to cause a significant but indeterminable reduction in state individual income tax revenues which could potentially grow by 3% to 5% annually. This provision is effective July 1, 2023, and would impact income tax revenue collections beginning in FY 2024. |
| **Income Tax Exemption for Nonresidents** | |
| **Code:** | IC 6-3-2-27.5 |
| **Enrolled Act:** | SEA 419-2023, sec. 16 |
| **Effective Date:** | January 1, 2024 |
| **Description:** | SEA 419-2023 exempts nonresidents who work in the state for less than 30 days from Indiana state income taxes. |
| **Estimate:** | The provision could reduce income tax revenue by an indeterminable amount beginning in FY 2025. |
| **Indiana Economic Development Corporation Tax Credit Limit** | |
| **Code:** | IC 5-28-6-9 |
| **Enrolled Act:** | HEA 1001-2023, sec. 85 |
| **Effective Date:** | July 1, 2023 |
| **Description:** | HEA 1001-2023 changes certain administrative guidelines related to IEDC from mandatory to discretionary. It reduces the annual cap from $300 M to $250 M for awarding IEDC certified tax credits and allows the IEDC to certify a tax credit above the cap if the IEDC determines that a tax credit should be certified. The certification above the cap is subject to review by the Budget Committee. |
| **Estimate:** | This would have an indeterminable impact on the state General Fund in FY 2024 and after. |

| Mine Reclamation Tax Credit | |
|---|---|
| **Code:** | IC 6-3.1-37.2 |
| **Enrolled Act:** | HEA 1106-2023 |
| **Effective Date:** | January 1, 2023 |
| **Description:** | HEA 1106-2023 established a Mine Reclamation Tax Credit for qualified investment for development of property located on reclaimed coal mining land. The credit is available in tax years 2023 through 2027. The amount of the credit is equal to 30% of the amount of the qualified investment made by the taxpayer during the taxable year up to a maximum tax credit of $5 M for a project. |
| **Estimate:** | The amount of the tax credit that will be awarded in a particular year is indeterminable and is capped at $5 M. The combined total of tax credits awarded in 2023-2027 cannot exceed $25 M. The credit may decrease Individual Income Tax, Corporate Income Tax, Insurance Premiums Tax, and Financial Institutions Tax revenue deposited in the state General Fund beginning in FY 2024. |
| **Net Operating Loss (NOL)** | |
| **Code:** | IC 6-3-2-2.6 |
| **Enrolled Act:** | SEA 419-2023, sec. 13 |
| **Effective Date:** | January 1, 2023 |
| **Description:** | SEA 419-2023 makes changes to the calculation of the Indiana NOL deduction. Although most of these changes are clarifications of existing treatment of NOL, certain changes in the methods of calculations would change or limit a taxpayer's annual NOL that offsets the taxpayer's business income or nonbusiness income. |
| **Estimate:** | The fiscal impact from changes in the method of calculating NOL is indeterminable. |
| **Nonprofit Organization Sales Tax Exemption Threshold** | |
| **Code:** | IC 6-2.5-5-26 |
| **Enrolled Act:** | SEA 417-2023, sec. 1, 4 |
| **Effective Date:** | July 1, 2023 |
| **Description:** | SEA 417-2023 increased the sales threshold after which nonprofit organizations are required to collect sales tax. It also eliminated the threshold for churches, monasteries, convents, public schools, parochial schools, and youth organizations focused on agriculture. |
| **Estimate:** | The provision would reduce sales tax revenue by an indeterminable amount beginning in FY 2024. |
| **Physician Practice Ownership Tax Credit** | |
| **Code:** | IC 6-3.1-40 |
| **Enrolled Act:** | HEA 1004-2023, sec. 3 |
| **Effective Date:** | July 1, 2023 |

| Physician Practice Ownership Tax Credit (Continued) | |
|---|---|
| **Description:** | HEA 1004-23 established a new nonrefundable tax credit for physicians who have ownership in a medical practice. The first tax year the credit could be claimed is in tax year 2024. Physicians would be eligible for a credit of up to $20,000 for a tax year for up to three years. |
| **Estimate:** | The provision would reduce General Fund revenue by an indeterminate amount beginning in FY 2025. |
| **Sales Tax Exemption for Agricultural Machinery, Tools, or Equipment** | |
| **Code:** | IC 6-2.5-5-2 |
| **Enrolled Act:** | SEA 419-2023, sec. 1 |
| **Effective Date:** | July 1, 2023 |
| **Description:** | SEA 419-2023 provided that agricultural machinery, tools, and equipment that are predominantly used for exempt purposes will receive a 100% exemption, regardless of the percentage of time that an item is used for an exempt purpose. If the item is not used predominantly for exempt purposes, the amount of sales tax paid on the purchase is prorated based on the purchaser's non-exempt use. [Before SEA 419-2023 took effect, the exemption only applied to the extent that the item was used for an exempt purpose.] |
| **Estimate:** | The provision will reduce sales tax revenue by an indeterminable amount beginning in FY 2024. |
| **Sales Tax Exemption for Solar or Wind Energy** | |
| **Code:** | IC 6-2.5-5-10.7 |
| **Enrolled Act:** | SEA 419-2023, sec. 3 |
| **Effective Date:** | July 1, 2023 |
| **Description:** | SEA 419-2023 added a sales tax exemption for certain components of a solar or wind energy system. |
| **Estimate:** | The fiscal impact is indeterminable but will likely result in a significant reduction in sales tax revenue beginning in FY 2024. |
| **School Scholarship Tax Credit** | |
| **Code:** | IC 6-3.1-30.5-13 |
| **Enrolled Act:** | HEA 1001-2023, sec. 101 |
| **Effective Date:** | July 1, 2023 |
| **Description:** | HEA 1001-2023 increases the total amount of School Scholarship Tax Credits that may be awarded from $16.5 M to $18.5 M for FY 2024 and after. |
| **Estimate:** | Increasing the credit cap will reduce state General Fund revenues if the amount of School Scholarship Tax Credits awarded annually increases above $16.5 M and credit claims increase. In tax year 2021, taxpayers claimed $13.0 M in credits. |

| Specified Research or Experimental Expenditures | |
|---|---|
| **Code:** | IC 6-3-1-3.5; IC 6-3-2-29; IC 6-5.5-1-2 |
| **Enrolled Act:** | SEA 419-2023, sec. 7, 18, 25 |
| **Effective Date:** | January 1, 2022 |
| **Description:** | SEA 419-2023, retroactively beginning tax year 2022, decouples with that provision of the Tax Cuts and Jobs Act of 2017 and allows the taxpayer to deduct all "specified research or experimental expenditures" in the current year. This could expedite the deduction and lower the taxable income of businesses that incur qualified expenses during a taxable year. |
| **Estimate:** | The impact will reduce Corporate AGI Tax and Individual AGI Tax. It will have a significant but indeterminable impact on the state General Fund. |

# TAX EXPENDITURE DESCRIPTIONS
## INCOME TAX

### Indiana Income Tax Deductions

**IT1. Broadband Expansion Grants Taxation Deduction (IC 6-3-1-3.5(b)(20))**

**Year Enacted:** 2023

**Description:** Corporate taxpayers may deduct: (1) federal, state, or local grants received by the taxpayer; and (2) discharged federal, state, or local indebtedness incurred by the taxpayer; for purposes of providing or expanding access to broadband services in Indiana.

**IT2. Career Scholarship Account (CSA) Grant Deduction (IC 6-3-1-3.5(a)(36))**

**Year Enacted:** 2023

**Description:** Individual taxpayers may deduct the amount of a CSA annual grant amount distributed to a taxpayer's career scholarship account to the extent the distribution used for the CSA qualified expense is included in the taxpayer's federal adjusted gross income.

**IT3. Civil Service Annuity Income Deduction (IC 6-3-2-3.7)**

**Year Enacted:** 1977

**Description:** Individual taxpayers ages 62 and older may deduct a portion of their federal civil service annuity income from adjusted gross income (AGI). The deduction equals the difference of:

(1) the lesser of the amount of taxable civil service annuity income or $16,000; and
(2) the total amount of social security and railroad retirement benefits received by the taxpayer.

An individual's surviving spouse is also eligible to claim the deduction.

### IT4. COVID-related Employee Retention Credit Disallowed Expenses Deduction (IC 6-3-1-3.5(a)(31))

**Year Enacted:** 2021

**Description:** Individual taxpayers can deduct certain expenses for which a deduction is not permitted for federal income tax purposes because an employer claimed a COVID-related employee retention credit.

### IT5. Disability Retirement Income Deduction (IC 6-3-2-9)

**Year Enacted:** 1985

**Description:** Individual taxpayers who are retired on disability before the end of the taxable year and are permanently and totally disabled at the time of retirement are eligible to deduct their disability retirement income from AGI. The deduction is limited to a maximum of $5,200 per qualifying individual.

### IT6. Education Scholarship Account Deduction (IC 6-3-1-3.5(a)(32))

**Year Enacted:** 2021

**Description:** Individual taxpayers may deduct the amount of an annual grant distributed to the taxpayer's education scholarship account that is used to pay for qualified expenses if the grant was included in the taxpayer's federal adjusted income.

### IT7. Employer Student Loan Payment Interest Deduction (IC 6-3-1-3.5(a)(27))

**Year Enacted:** 2021

**Description:** Individual taxpayers required to add back employer-paid student loan payments may deduct from their AGI the amount of student loan interest that was paid by their employer and which they would have been permitted to deduct if federal law did not disallow that deduction.

### IT8. Enrichment Scholarship Account Deduction (IC 6-3-1-3.5(a)(32))

**Year Enacted:** 2022

**Description:** Individual taxpayers may deduct the amount of an annual grant distributed to the taxpayer's Indiana enrichment scholarship account that is used to pay for qualified expenses if the grant was included in the taxpayer's federal adjusted income.

### IT9. Foreign Source Dividends Deduction (IC 6-3-1-3.5; IC 6-3-2-12)

**Year Enacted:** 1987

**Description:** Corporate taxpayers may deduct certain foreign source dividends (dividends from corporations organized outside the U. S.). Global intangible low-taxed income also qualifies for the deduction as of January 1, 2018. The deduction is made from total AGI before apportionment to Indiana. The deduction amount is determined by the percentage of voting stock the taxpayer owns in the foreign corporation computed as follows:

(1) 100% of the foreign source dividends included in AGI if the taxpayer owns at least 80% of the total combined voting power of all classes of stock of the foreign corporation from which the dividend is derived;
(2) 85% of the foreign source dividends included in AGI if the taxpayer owns at least 50% but less than 80% of the total combined voting power of all classes of stock of the foreign corporation from which the dividend is derived; or
(3) 50% of the foreign source dividends included in AGI if the taxpayer owns less than 50% of the total combined voting power of all classes of stock of the foreign corporation from which the dividend is derived.

### IT10. Government or Civic Group Capital Contribution Deduction (IC 6-3-1-3.5)

**Year Enacted:** 2018

**Description:** Taxpayers can deduct the amount included in federal taxable income that are capital contributions from a government or civic group and not excluded under IRC Section 118.

### IT11. Health Care Sharing Deduction (IC 6-3-2-28)

**Year Enacted:** 2023

**Description:** Beginning in tax year 2024, individual taxpayers who are members of a health care sharing ministry may deduct the total amount of qualified health care sharing expenses they paid during the tax year.

### IT12. Homeowner's Property Taxes Deduction (IC 6-3-1-3.5(a)(13))

**Year Enacted:** 1979

**Description:** Individual taxpayers may deduct up to $2,500 of property taxes paid on their principal place of residence in Indiana.

### IT13. Human Services Recipients Deduction (IC 6-3-1-3.5(a)(10))

**Year Enacted:** 1989

**Description:** Individual taxpayers who are Medicaid recipients and live in

a hospital, skilled nursing facility, intermediate care facility, licensed county home, licensed boarding or residential home, or a certified Christian Science Facility are allowed the Human Services Deduction. The deduction equals an amount sufficient to eliminate the individual's tax liability.

### IT14. Income Earned by Enterprise Zone Employees Deduction (IC 6-3-2-8)

**Year Enacted:** 1983

**Description:** Individual taxpayers who are qualified employees in an enterprise zone may deduct half of the AGI earned as a qualified employee during the year up to a maximum deduction of $7,500. A qualified employee is an individual who lives and is employed within an enterprise zone.

### IT15. Indiana Partnership Long-Term Care Insurance Premiums Deduction (IC 6-3-1-3.5(a)(12))

**Year Enacted:** 1999

**Description:** Individual taxpayers may deduct from AGI the amount of premiums paid during the year on a qualifying long term care policy for the taxpayer and/or spouse. The policy must qualify under the Indiana Long-Term Care program for Medicaid Asset Protection to be eligible for the deduction.

### IT16. Military Service Income, Retirement Income, Survivor's Benefits Deduction (IC 6-3-1-3.5(a)(18); IC 6-3-1-34; IC 6-3-2-4)

**Year Enacted:** 1977; 2007

**Description:** Individual taxpayers may deduct military service income from their AGI. Beginning in tax year 2024, all military service income is exempt from state income tax for active duty servicemembers, members of the Indiana National Guard, and members of a reserve unit of the armed forces. Combat pay is not eligible for a deduction because it is not taxed at the federal or state level.

Taxpayers may deduct 100% of military retirement income or survivor's benefits.

Through tax year 2023, military personnel on active duty or in the active reserves could deduct up to $5,000 of their military pay.

Through tax year 2023, individual taxpayers who are members of the Indiana National Guard or a reserve unit of the armed forces may deduct qualified military income received while on full-time involuntary orders, while mobilized and deployed for full-time service, or when an Indiana National Guard unit is federalized.

### IT17. Net Operating Loss Deduction (IC 6-3-2-2.5; IC 6-3-2-2.6)

**Year Enacted:** 1987

**Description:** Individual and corporate taxpayers may deduct the Indiana portion of federal net operating loss from their AGI. Net operating loss is defined as the excess of allowable deductions over gross income (with required adjustments). Unused net operating loss deductions may be carried forward up to 20 years.

### IT18. Olympic/Paralympic Medal Winners Deduction (IC 6-3-2-24)

**Year Enacted:** 2014

**Description:** Individuals who won a gold, silver, or bronze medal from participating in the Olympic/Paralympic games may deduct the income attributable to winning the medal. The deduction equals the value of the medal(s) won plus the amount of income received during the taxable year from the United States Olympic Committee as prize money.

### IT19. Patent-Derived Income Deduction (IC 6-3-2-21.7)

**Year Enacted:** 2007

**Description:** Individual and corporate taxpayers may deduct from AGI certain income derived from patents. The deduction for patent derived income applies to income derived by an individual or corporate taxpayer from utility patents or plant patents issued after December 31, 2007. The income can be from the following:

(1) Licensing fees or other income received for the use of a patent.
(2) Royalties received for the infringement of a patent.
(3) Receipts from the sale of a patent.
(4) Certain income from the taxpayer's own use of the qualified patent to produce the claimed invention.

A taxpayer may claim the exemption for 10 years with respect to a particular patent. During the first five taxable years, the exemption is equal to 50% of the income derived from a patent, with the exemption percentage declining by 10 percentage points per year during the sixth through tenth year of the exemption. The total exemption amount that a taxpayer may claim in a taxable year is $5 million.

### IT20. Private School/Homeschool Expenses Deduction (IC 6-3-2-22)

**Year Enacted:** 2011

**Description:** Individual taxpayers may claim a deduction based on education expenditures paid for each dependent child who is enrolled in

a private primary or secondary school or is homeschooled. The deduction equals $1,000 per dependent for whom the taxpayer made qualifying education expenditures in the taxable year.

**IT21. Railroad Retirement Income Deduction (IC 6-3-1-3.5(a)(7))**

**Year Enacted:** 1978

**Description:** Individual taxpayers may deduct from their AGI benefits issued by the U.S. Railroad Retirement Board not excluded from their federal income tax.

**IT22. Railroad Unemployment and Sickness Benefits Deduction (IC 6-3-1-3.5(a)(1))**

**Year Enacted:** 1971

**Description:** Individual taxpayers may deduct unemployment or sick pay benefits issued by the U.S. Railroad Retirement Board if they were included as taxable income for federal tax purposes and not already deducted under the railroad retirement income deduction.

**IT23. Regional Development Authority Infrastructure Fund Contribution Deduction (IC 6-3-2-26)**

**Year Enacted:** 2017

**Description:** A taxpayer is eligible to deduct contributions or gifts to an infrastructure fund established by a regional development authority up to the amount of the allowable federal charitable income tax deduction.

**IT24. Rent on Principal Residence Deduction (IC 6-3-2-6)**

**Year Enacted:** 1979

**Description:** Individual taxpayers who rent a dwelling that is their principal place of residence and the rented place is subject to Indiana property tax may deduct rent paid up to $3,000 from their AGI.

**IT25. Small Business Insurance Premium Deduction (IC 6-3-1-3.5(a)(34))**

**Year Enacted:** 2022

**Description:** Small businesses are eligible to deduct amounts paid for employee health insurance premiums beginning in tax year 2023.

**IT26. Social Security Benefits Deduction (IC 6-3-1-3.5(a)(8))**

**Year Enacted:** 1978

**Description:** Individual taxpayers may deduct from their AGI Social Security benefits not excluded from federal income tax.

### IT27. Specified Research or Experimental Expenses Deduction (IC 6-3-1-3.5; IC 6-3-2-29; IC 6-5.5-1-2)

**Year Enacted:** 2023

**Description:** Taxpayers may deduct the amount of specified research or experimental expenditures paid or incurred by the taxpayer during the taxable year from their AGI if they claim a federal income tax deduction for specified research and experimental expenses which is required to be amortized under IRC section 174.

### IT28. Unemployment Compensation Deduction (IC 6-3-2-10)

**Year Enacted:** 1987

**Description:** Individual taxpayers receiving unemployment compensation may deduct some portion of this compensation from their AGI. The deduction is equal to the difference between the taxpayer's unemployment compensation and one-half of the amount by which the taxpayer's federal AGI exceeds a specified base amount ($12,000 for single filers and $18,000 for joint filers).

## Indiana Income Tax Exemptions

### IT29. Adopted Child Exemption (IC 6-3-1-3.5(a)(5)(D))

**Year Enacted:** 2022

**Description:** Beginning in tax year 2022, individual taxpayers may claim an exemption of $3,000 for each adopted child younger than 19 years old or younger than 24 years old if a full-time student.

### IT30. Dependent Child Exemption (IC 6-3-1-3.5(a)(5)(A), (B))

**Year Enacted:** 1997

**Description:** Individual taxpayers may claim an AGI exemption of $1,500 for each of the taxpayer's qualifying dependent children younger than 19 years old, or for full-time students younger than 24 years old. Beginning in tax year 2023, a taxpayer may claim a $3,000 exemption in the first year in which the taxpayer is able to claim the exemption for that child rather than a $1,500 exemption.

### IT31. Dependent Exemption (IC 6-3-1-3.5(a)(4)(A))

**Year Enacted:** 1963

**Description:** A taxpayer may claim an exemption of $1,000 for each of the taxpayer's dependents for which they would be eligible to claim an exemption on their federal tax return. A dependent can be a child, grandchild, or relative of the taxpayer or other person residing with the taxpayer who meets certain dependency requirements.

### IT32. Elderly or Blind Exemption (IC 6-3-1-3.5(a)(4)(B))

**Year Enacted:** 1963

**Description:** Individual taxpayers may claim an AGI exemption of $1,000 if the taxpayer is at least 65 years old, $1,000 if the taxpayer is legally blind, or $2,000 if the taxpayer is both. The exemption can also be claimed if the taxpayer's spouse is at least 65 years old, legally blind, or both.

### IT33. Low Income and Elderly Exemption (IC 6-3-1-3.5(a)(5)(C))

**Year Enacted:** 1999

**Description:** Individual taxpayers may claim an AGI exemption of $500 if the taxpayer or taxpayer's spouse is at least 65 years old and their AGI is less than $40,000. If the taxpayer and taxpayer's spouse are both at least 65 years old, the exemption is $1,000.

### IT34. Nonresident Tax Exemption (IC 6-3-2-27.5)

**Year Enacted:** 2023

**Description:** Compensation received by an individual—other than a professional athlete or performer—who: (1) is not a resident of Indiana; and (2) receives compensation for employment duties performed in Indiana for 30 days or less during the calendar year; is exempt from the adjusted gross income tax.

### IT35. Personal Exemption (IC 6-3-1-3.5(a)(3))

**Year Enacted:** 1963

**Description:** Individual taxpayers may claim an AGI exemption of $1,000 for himself or herself, plus an additional exemption of $1,000 for his or her spouse if the taxpayer files a joint return.

## Indiana Income Tax Credits

### IT36. ABLE Account Contribution Credit (IC 6-3-3-12.1)

**Year Enacted:** 2022

**Description:** Beginning in tax year 2024, taxpayers can receive a tax credit equal to 20% of taxpayer contributions to Indiana ABLE accounts up to a maximum credit of $500. ABLE accounts are tax-advantaged savings accounts for individuals with disabilities.

### IT37. Adoption Credit (IC 6-3-3-13)

**Year Enacted:** 2014

**Description:** The credit was created to help families offset the cost of adopting a child. Taxpayers eligible to claim the federal adoption tax credit may be eligible to claim the Indiana adoption tax credit.

Through tax year 2021, the credit was nonrefundable and equaled the lesser of 10% of the qualifying federal adoption credit the taxpayer claimed for the taxable year, or $1,000 per eligible child. Beginning in tax year 2022, the credit equals 20% of the qualifying federal adoption credit up to $2,500. The credit is refundable, is capped at $2,500 per adoption, and must be used in the same year as the qualifying federal adoption credit.

### IT38. Affordable and Workforce Housing Credit (IC 6-3.1-35)

**Year Enacted:** 2022

**Description:** The Indiana Housing and Community Development Authority (IHCDA) may award total credits up to $30 million in fiscal years 2024 through 2028. The credit is nonrefundable. Taxpayers apply to the IHCDA to receive the credit. The IHCDA may award up to 100% of a taxpayer's total federal low-income housing tax credit. The credit may be allocated for five taxable years beginning with the taxable year in which a building in a qualified project is placed into service.

### IT39. Attainable Homeownership Credit (IC 6-3.1-40.9)

**Year Enacted:** 2023

**Description:** The attainable homeownership tax credit provides a nonrefundable tax credit for taxpayers who donate to an affordable housing organization. The amount of the credit is equal to 50% of the amount donated. Credit awards are capped at $10,000 per taxpayer per year. Up to $4 million in tax credits may be awarded in each fiscal year. The tax credit is effective in tax years 2024 through 2029 and may be carried forward for up to five years. The credit may be used to reduce the taxpayer's tax liability under the individual or corporate AGI tax or the financial institutions tax.

### IT40. Coal Gasification Technology Investment Credit (IC 6-3.1-29)

**Year Enacted:** 2005

**Description:** The coal gasification technology investment tax credit was established to encourage the use of Indiana coal to produce synthesis gas to generate electricity and for the production of synthesis gas to be used as a substitute for natural gas. The credit is equal to 10% of the first $500 million in qualified investment in an integrated coal gasification power plant, and 5% of the qualified investment that exceeds $500 million. The credit for fluidized bed combustion technology is equal to 7% of the qualified investment for the first $500 million invested,

and 3% of the amount of the qualified investment that exceeds $500 million. Credits are approved by the IEDC Board.

The credit must be taken in 10 annual installments. The annual amount of the credit is equal to the lesser of the total amount of the credit awarded divided by 10, or the greater of the taxpayer's liability for the utility receipts tax (before its repeal as of July 1, 2022), or 25% of the taxpayer's total state tax liability (AGI tax, financial institutions tax, and insurance premiums tax), multiplied by the percentage of Indiana coal used by the taxpayer in the power plant for the taxable year of the installment.

Taxpayers may assign part or all of the credit to one or more utilities by entering into a contract approved by the Indiana Utility Regulatory Commission. A taxpayer who makes a qualified investment in an integrated coal gasification power plant and enters into a contract to sell substitute natural gas to the Indiana Finance Authority may choose to claim the credit as a refundable tax credit for a period of 20 years.

### IT41. Community Revitalization Enhancement District Credit (IC 6-3.1-19)

**Year Enacted:** 1998

**Description:** This tax credit is for taxpayers who make qualified investments for the redevelopment or rehabilitation of property located within a community revitalization enhancement district. The credit equals 25% of the qualified investment. The credit is nonrefundable, but unused credits may be carried forward to subsequent years. Unused credits may not be carried back. The taxpayer awarded the credit may transfer any unused credits to a lessee of the property where the qualifying investment is made. The credit may be used to reduce the taxpayer's tax liability under the individual or corporate AGI tax, local income taxes, the financial institutions tax, nonprofit agricultural organization health coverage tax, or the insurance premiums tax. Starting in CY 2020, taxpayers may claim the credit for qualified investments made after a district has expired if the taxpayer satisfies certain conditions.

### IT42. Earned Income Tax Credit (IC 6-3.1-21)

**Year Enacted:** 1999

**Description:** An individual AGI taxpayer is eligible for the Indiana earned income tax credit if they are eligible for the federal Earned Income Tax Credit under Section 32 of the Internal Revenue Code as in effect on January 1, 2023. The credit amount is equal to 10% of the federal EITC amount. The credit is refundable.

### IT43. Economic Development for a Growing Economy (EDGE) Credit (IC 6-3.1-13)

**Year Enacted:** 1994

**Description:** The EDGE credit is for businesses that create new jobs in Indiana or undertake projects to retain existing jobs in Indiana. Credit amounts are determined by the IEDC, but they may not exceed the incremental income tax withholdings of new or retained employees. EDGE credits are awarded for up to 20 years, during which time the credit amounts may be used. (Credits were awarded for up to 10 years prior to July 1, 2022.) The IEDC is authorized to make EDGE credits refundable. EDGE credits may be taken against a taxpayer's individual or corporate AGI tax, insurance premiums tax, nonprofit agricultural organization health coverage tax, or financial institutions tax liabilities.

There is no cap on the total amount of EDGE credits that can be awarded; however, total tax credits awarded by the IEDC cannot exceed $250 million annually.

### IT44. Employer Child Care Expenditure Credit (IC 6-3.1-39.5)

**Year Enacted:** 2023

**Description:** This tax credit may be claimed by employers with 100 or fewer employees for capital expenses related to establishing childcare facilities for their employees. The credit amount is the lesser or capital expenditures or $100,000. The tax credit is available for qualified expenditures between January 1, 2024 and July 1, 2025. The credit is nonrefundable and may be carried forward for three years. The credit may be applied against individual or corporate AGI tax, financial institutions tax, nonprofit agricultural organization health coverage tax, or insurance premiums tax liabilities.

### IT45. Employment of Individuals with Disability Credit (IC 6-3.1-38.3)

**Year Enacted:** 2023

**Description:** This tax credit may be claimed by employers with 500 or fewer workers who hire an individual with a disability through a referral to the employer from the Vocational Rehabilitation Services Program. The credit is available beginning in tax year 2024 and sunsets in 2028. The credit is nonrefundable and may be carried forward for up to five years. The credit may be applied against individual or corporate AGI tax, financial institutions tax, nonprofit agricultural organization health coverage tax, or insurance premiums tax liabilities.

### IT46. Enterprise Zone Employment Expense Credit (IC 6-3-3-10)

**Year Enacted:** 1983

**Description:** This tax credit is for employers that hire qualified employees that live and work half of the time in an enterprise zone. The credit is equal to the lesser of 10% multiplied by the qualified increased employment expenditures of the taxpayer for the taxable year, or $1,500 multiplied by the number of qualified employees employed by the taxpayer during the taxable year. The credit is nonrefundable, but unused credits may be carried forward for up to 10 years or carried back for up to three years. The credit may be applied against individual or corporate AGI tax, financial institutions tax, nonprofit agricultural organization health coverage tax, or insurance premiums tax liabilities.

### IT47. Enterprise Zone Investment Cost Credit (IC 6-3.1-10)

**Year Enacted:** 1986

**Description:** The enterprise zone investment cost credit is based on qualified investments made within Indiana enterprise zones. It can equal up to a maximum of 30% of the investment depending on the number of employees, the type of business, and the amount of investment in an enterprise zone. The credit is not available to corporate taxpayers or pass-through entities. However, a pass-through entity that invests in the Vigo County enterprise zone may be eligible to claim the credit. The credit is nonrefundable, but unused credits may be carried forward. Unused credits may not be carried back. This credit may be applied against individual or corporate AGI tax liability. Taxpayers are entitled to receive a credit for a qualified investment made before January 1, 2018. However, a taxpayer may receive a credit for qualified investments made in 2018 through 2027 if the IEDC approves the investment before January 1, 2018.

### IT48. Enterprise Zone Loan Interest Credit (IC 6-3.1-7)

**Year Enacted:** 1984

**Description:** The enterprise zone loan interest credit can be up to 5% of the interest received from all qualified loans made during a tax year for use in an Indiana enterprise zone. The credit is nonrefundable, but unused credits may be carried forward for up to ten years after the date on which the qualified loan was made.

Unused credits may not be carried back. This credit may

be applied against the individual or corporate AGI tax, the financial institutions tax, the nonprofit agricultural organization health coverage tax, and the insurance premiums tax. Taxpayers may not receive a credit for interest received on a loan made after December 31, 2017.

### IT49. Film and Media Production Credit (IC 6-3.1-36)

**Year Enacted:** 2022

**Description:** The tax credit is available to taxpayers who make qualified media production expenditures in Indiana between July 1, 2022, and July 1, 2027. The IEDC will determine the amount of credit to award to an applicant, but the credit may not exceed 30% of the taxpayer's qualified production expenses. The credit is nonrefundable, and unused credits may be carried forward for up to nine years. The tax credit may be applied to individual or corporate AGI tax or the financial institutions tax.

### IT50. Foster Care Support Credit (IC 6-3.1-35.8)

**Year Enacted:** 2021

**Description:** The nonrefundable tax credit is for taxpayers who make an eligible contribution to a qualifying foster care organization during the taxable year. The credit is effective beginning on July 1, 2022, and sunsets on December 31, 2027. The credit is equal to 50% of the amount of the contribution made to the foster care organization, up to $10,000. The annual state revenue loss cannot exceed $2 million per fiscal year.

### IT51. Headquarters Relocation Credit (IC 6-3.1-30)

**Year Enacted:** 2005

**Description:** The headquarters relocation credit was created as an incentive for businesses to relocate their corporate headquarters, a division or subdivision principal office, or research center to Indiana. An eligible business meets either of the following requirements:

(1) It had at least $50 million in worldwide revenues in the year prior to applying for the credit, has a qualifying facility located outside Indiana, and has not previously maintained a qualifying facility in Indiana.

(2) It received at least $4 million in venture capital in the six months immediately preceding the business's application for a tax credit or closes on at least $4 million in venture capital not later than six months

after submitting the business's application. It must also commit contractually to relocating its corporate headquarters to Indiana or to move a number of jobs that is equal to 80% of the total payroll to Indiana.

An eligible business that completes a qualifying project and incurs relocation costs is entitled to a credit against the taxpayer's state tax liability for the year in which the relocation costs are incurred. The amount of the credit equals up to 50% of the amount of the relocation costs incurred in the taxable year. However, the amount claimed may not result in an Indiana tax liability that is lower than the Indiana tax liability in the taxable year immediately preceding the taxable year in which the taxpayer first incurred the relocation costs. The credit is nonrefundable, but unused credits may be carried forward for up to nine succeeding taxable years. Unused credits may not be carried back. The tax credit may be applied to individual or corporate AGI tax, financial institutions tax, or insurance premiums tax liabilities.

### IT52. Health Reimbursement Credit (IC 6-3.1-38)

**Year Enacted:** 2023

**Description:** The nonrefundable tax credit is for employers who adopt health reimbursement arrangements instead of traditional employer health insurance plans. Employers with fewer than 50 employees are eligible for the credit for two years. The credit amount is equal to $400 per covered employee in a health reimbursement arrangement in the first year and $200 per covered employee in the second year. The amount of tax credits granted may not exceed $10 million in a taxable year. The tax credit may be applied to individual or corporate AGI tax, financial institutions tax, insurance premiums tax, or nonprofit agricultural organization health coverage tax liabilities.

### IT53. Historic Rehabilitation Credit (IC 6-3.1-17.1)

**Year Enacted:** 2023

**Description:** The nonrefundable tax credit is for taxpayers who rehabilitate qualified historic structures. The credit amount is 25% of rehabilitation expenses of $5,000 or more. It increases to 30% of qualified expenses for nonprofit historic structures. The tax credit may be applied to individual or corporate AGI tax liabilities. The amount of tax credits granted may not exceed $10 million in a fiscal year. The credit is also subject to the

annual $250 million aggregate limitation on applicable tax credits managed by the IEDC under IC 5-28-6-9. The credit may be transferred to another taxpayer or carried forward for up to 10 years.

### IT54. Hoosier Business Investment (HBI) Credit (IC 6-3.1-26)

**Year Enacted:** 2003

**Description:** The HBI credit is for qualified investments that the IEDC determines will foster job creation and higher wages in Indiana. The credit is calculated differently depending on the type of investment (i.e. logistics, non-logistics, and digital manufacturing equipment). The credit equals up to 10% of qualifying non-logistics investments. For logistics investments, the credit equals up to 25% of the difference of the logistics investments made in the taxable year and 105% of the average logistics investments made in the prior two years. For tax years 2019 through 2029, the credit equals 15% of the amount of investments in digital manufacturing equipment. The credit is nonrefundable, but unused credits may be carried forward for a number of years determined by the IEDC up to a maximum of nine years. Unused credits may not be carried back. The credit may be applied against individual or corporate AGI tax, financial institutions tax, nonprofit agricultural organization health coverage tax, and insurance premiums tax liabilities.

There is no cap on the amount of HBI credits that can be awarded annually; however, total credits awarded by the IEDC cannot exceed $250 million annually.[1]

### IT55. Indiana 529 College Savings Account Contribution Credit (IC 6-3-3-12)

**Year Enacted:** 2006

**Description:** This tax credit may be claimed by individual taxpayers who made contributions to an Indiana CollegeChoice 529 Education Savings Plan. The credit is equal to 20% of the taxpayer's annual contributions to an Indiana CollegeChoice 529 Education Savings Plan for qualified higher education or K-12 expenses, up to a maximum credit of $1,500. The credit is nonrefundable and unused credits may not be carried forward or carried back.

[1] The $250 million limit on the total amount of credits that the IEDC may award applies to the HBI tax credit, EDGE tax credit, headquarters relocation tax credit, CRED tax credit, redevelopment tax credit, historic rehabilitation tax credit, mine reclamation tax credit, and film and media production tax credit.

### IT56. Indiana Colleges and Universities Contribution Credit (IC 6-3-3-5)

**Year Enacted:** 1967

**Description:** The tax credit is for contributions by individual and corporate AGI taxpayers to Indiana colleges and universities. The amount of an individual taxpayer's credit is 50% of the total amount contributed by the taxpayer during a taxable year up to a maximum credit of $100 for a single return or $200 for a joint return. The amount of a corporate taxpayer's credit is equal to 50% of the total amount contributed during a taxable year. However, the credit may not exceed the lesser of 10% of the corporation's AGI tax liability or $1,000. The credit is nonrefundable and unused credits may not be carried forward or carried back.

### IT57. Indiana Insurance Guaranty Association Assessment Credit (IC 27-6-8-15)

**Year Enacted:** 1971

**Description:** This tax credit is for insurers that pay assessments to the Indiana Insurance Guaranty Association. The credit may be applied to the AGI tax or insurance premiums tax liabilities. This credit is limited to 20% of the assessments paid by an insurance company. The credit is nonrefundable, and unused credits may not be carried forward or carried back.

### IT58. Individual Development Account Credit (IC 6-3.1-18)

**Year Enacted:** 1997

**Description:** The individual development account credit is for contributions made to community development corporations that participate in Individual Development Account programs. Individual Development Account programs assist qualifying low-income residents in accumulating savings and building personal finance skills. The credit is equal to 50% of the amount contributed, which must not be less than $100 and not more than $50,000. The tax credit is nonrefundable and may only be used for the taxable year when the contribution is made. No more than $200,000 in tax credits may be claimed in any state fiscal year. This tax credit may be applied to individual or corporate AGI tax or financial institutions tax liabilities.

### IT59. Industrial Recovery (Dinosaur) Credit (IC 6-3.1-11)

**Year Enacted:** 1987

**Description:** The industrial recovery credit is based on a taxpayer's qualified investment in a qualified industrial recovery site. An industrial recovery site is land where a vacant facility having

at least 100,000 square feet of floor space exists or land where a plant existed within five years before application is filed. The IEDC must approve applications and plans for rehabilitation in order to receive this tax credit. The amount of the credit is equal to the qualified investment made during the taxable year, multiplied by one of the applicable percentages below:

(1) 15% for a facility located on an industrial recovery site that was placed in service 15 to 30 years ago;
(2) 20% for a facility located on an industrial recovery site that was placed in service 30 to 40 years ago; or
(3) 25% for a facility located on an industrial recovery site that was placed in service at least 40 years ago.

The tax credit is nonrefundable, but unused credits may be carried forward. Unused credits may not be carried back. Effective July 1, 2020, unused credits may be assigned to any taxpayer. The tax credit may be applied against individual or corporate AGI tax, financial institutions tax, and insurance premiums tax liabilities. A taxpayer may not receive an industrial recovery tax credit for a qualified investment made after December 31, 2019.

### IT60. Lake County Homeowner's Property Tax Credit (IC 6-3.1-20)

**Year Enacted:** 2001

**Description:** The Lake County homeowner's property tax credit is for property taxes paid by an individual taxpayer on a home the taxpayer owns and resides within Lake County. The credit is refundable. To qualify for the property tax credit the taxpayer's Indiana AGI must be less than $18,600, and the taxpayer may not claim the income tax deduction for property taxes paid on the home. If the taxpayer's Indiana AGI is $18,000 or less, the credit is equal to the lesser of $300 or the amount of property taxes paid on the taxpayer's home. The tax credit phases out for taxpayers with Indiana AGI exceeding $18,000. Under the phase-out, for every dollar of Indiana AGI exceeding $18,000, the tax credit is reduced by $0.50 until the credit is $0 for taxpayers with an Indiana AGI of at least $18,600. The entire cost of this credit is reimbursed to the state General Fund from riverboat admission tax revenue distributed to Lake County (50%), East Chicago (16.67%), Gary (16.67%), and Hammond (16.67%).

### IT61. Mine Reclamation Credit (IC 6-3.1-37.2)

**Year Enacted:** 2023

**Description:** The mine reclamation credit is available to taxpayers who make a qualified investment for the development of property located on reclaimed coal mining land. The credit is available in tax years 2023 through 2027. The amount of the credit is equal to 30% of the investment amount up to a maximum tax credit of $5 million for a project.

The credit is nonrefundable. The credit can be applied against individual or corporate AGI tax, insurance premiums tax, or financial institutions tax liabilities. Unused credits may be carried forward for ten years and may be assigned to other taxpayers. The credit is subject to the $250 million aggregate limit on tax credits managed by the IEDC.

### IT62. Neighborhood Assistance Credit (IC 6-3.1-9)

**Year Enacted:** 1984

**Description:** The neighborhood assistance credit is available to taxpayers that contribute to qualifying nonprofit organizations for approved projects that assist people living in economically disadvantaged areas. This credit is equal to 50% of the amount contributed up to a maximum credit of $25,000 in any taxable year. The credit is nonrefundable, and unused credits may not be carried forward or carried back. The credit can be applied against individual or corporate AGI tax or financial institutions tax liabilities. The total amount of neighborhood assistance credit allowed to all taxpayers in any state fiscal year is limited to $2.5 million.

### IT63. Physician Practice Ownership Credit (IC 6-3.1-40)

**Year Enacted:** 2023

**Description:** The credit may be claimed by physicians who have ownership in a medical practice beginning in tax year 2024. Taxpayers may claim a credit up to $20,000 in the year the medical practice opens and the two immediately following tax years. The credit is nonrefundable and may be carried forward for up to ten years.

### IT64. Redevelopment Credit (IC 6-3.1-34)

**Year Enacted:** 2019

**Description:** The redevelopment credit is available beginning January 1, 2020, to taxpayers for investment in qualifying redevelopment sites. The credit is awarded to taxpayers who redevelop or rehabilitate real property located within qualified

redevelopment areas that are approved by the IEDC. The credit percentage is determined by the IEDC but may not exceed 30% of a qualified investment. The maximum credit percentage is 35% if the qualified redevelopment site is in a federally designated qualified opportunity zone or the project qualifies for the federal New Markets Tax Credit.

Unused credits may be carried forward for up to nine years. Credits are nonrefundable and may not be carried back. The credit is assignable. The credit can be applied against individual or corporate AGI tax, financial institutions tax, or insurance premiums tax liabilities. The total amount of redevelopment credit is not capped, though total credits certified by the IEDC cannot exceed $250 million annually.

### IT65. Research Expense Credit (IC 6-3.1-4)

**Year Enacted:** 1984

**Description:** The research expense credit is available for taxpayers who have increased research activities conducted in Indiana. The credit is calculated based on the difference between the qualified research expenses for the taxable year and the base amount. If the difference is less than $1 million, multiply the difference by 15%. If the difference is greater than $1 million, multiply the amount exceeding $1 million by 10% and add $150,000. The credit is nonrefundable, but unused credits may be carried forward for up to 10 years. Unused credits may not be carried back.

A taxpayer may elect an alternative method to calculate the research expense tax credit for Indiana qualified research expenses incurred after December 31, 2009. The alternative calculation of the credit is equal to 10% of the difference between: (1) the taxpayer's current year Indiana qualified research expenses; and (2) 50% of the taxpayer's average Indiana qualified research expenses for the three preceding taxable years. If the taxpayer did not have Indiana qualified research expenses in any one of the three preceding taxable years, then the amount of the credit is equal to 5% of the taxpayer's Indiana qualified research expenses for the taxable year. The alternative calculation method is similar to an alternative calculation method allowed for the federal income tax credit for increasing research activities.

### IT66. Residential Historic Rehabilitation Credit (IC 6-3.1-22)

**Year Enacted:** 2001

**Description:** The residential historic rehabilitation credit for individual taxpayers equals 20% of qualified expenditures as approved by the Office of Community and Rural Affairs for the preservation or rehabilitation of a historic building that is the taxpayer's principal residence. Qualified expenditures for the historic property must exceed $10,000. The credit is nonrefundable, but unused credits may be carried forward for up to 15 years. Unused credits may not be carried back. The maximum statewide credit may not exceed $250,000 in a state fiscal year. The tax credit may be claimed against individual AGI tax liabilities.

### IT67. School Scholarship Contribution Credit (IC 6-3.1-30.5)

**Year Enacted:** 2009

**Description:** The school scholarship contribution credit is equal to 50% of the contributions made by an individual or corporate taxpayer to a nonprofit K-12 school scholarship-generating organization. The tax credit is nonrefundable and unused credits may be carried forward for up to nine years. Unused credits may not be carried back. Total credits allowed may not exceed $18.5 million in FY 2023 and in following years. The tax credit may be applied to individual or corporate AGI tax, financial institutions tax, or insurance premiums tax liabilities.

### IT68. Teacher Classroom Supplies Credit (IC 6-3-3-14.5)

**Year Enacted:** 2015

**Description:** A teacher in Indiana can claim a nonrefundable individual AGI tax credit for purchasing classroom supplies. For purposes of the tax credit, the definition of classroom supplies is based on the federal educator expense deduction. The amount of the tax credit is the lesser of $100 or the total cost of the classroom supplies purchased by the teacher. The tax credit cannot be carried forward or carried back.

### IT69. Unified Tax Credit for Elderly (IC 6-3-3-9)

**Year Enacted:** 1982

**Description:** An individual AGI taxpayer is eligible for the unified tax credit for the elderly if they meet all the following requirements: (1) the taxpayer and/or spouse must be at least 65 years old by the end of the taxable year; (2) their federal AGI must be less than $10,000; and (3) the qualifying taxpayer and/or spouse must have been a resident of Indiana at least six

months during the taxable year. The credit is refundable.

The amount of the credit is based upon income and marital status. If the taxpayer is filing a single return and is age 65 or older, or if the taxpayer is filing a joint return and only the taxpayer or spouse is over 65, then the credit will be calculated as follows:

| Income Amount | Credit Amount |
|---|---|
| Less than $1,000 | $100 |
| Between $1,000 and $2,999 | $50 |
| Between $3,000 and $9,999 | $40 |

If the taxpayer and spouse are filing a joint return and both are 65 or older, then the credit will be calculated as follows:

| Income Amount | Credit Amount |
|---|---|
| Less than $1,000 | $140 |
| Between $1,000 and $2,999 | $90 |
| Between $3,000 and $9,999 | $80 |

### IT70. Venture Capital Investment Credit (IC 6-3.1-24)

**Year Enacted:** 2002

**Description:** The venture capital investment credit is equal to 25% of annual qualified venture capital investment up to $1 million. For a minority business enterprise or a women's business enterprise, the credit is 30% of qualified investment up to $1.5 million. For qualified investment capital to certain qualified Indiana investment funds, the credit is equal to the lesser of 20% of investment in a qualified fund or $5 million.

The IEDC certifies businesses to receive creditable venture capital investment. Total new credits awarded may not exceed $20 million, provided that not more than $7.5 million is awarded for proposed investments in a qualified fund. The credit is nonrefundable, but unused credits may be carried forward for up to five years. Unused credits may not be carried back. Taxpayers may assign all or part of a venture capital investment credit for investments made after June 30, 2020. The credit may be applied to individual or corporate AGI tax, financial institutions tax, insurance premiums tax, nonprofit agricultural organization health coverage tax, or sales tax liabilities.

## Sales Tax

### ST1. Agricultural Machinery, Tools, and Equipment (IC 6-2.5-5-2)

**Year Enacted:** 1963

**Description:** Agricultural machinery, tools, and equipment used directly in the direct production, extraction, harvesting, or processing of agricultural commodities are exempt from sales and use tax. Agricultural machinery and equipment are exempt only if they are acquired for use in conjunction with the production of food and food ingredients or commodities for sale; the purchaser is occupationally engaged in the production of food or commodities; and the machinery or equipment is designed for use in gathering, moving, or spreading animal waste. This exemption includes material handling equipment purchased for the purpose of transporting materials into the production process from an onsite location.

Machinery and equipment acquired for direct use in the direct application of fertilizers, pesticides, fungicides, seeds, and other tangible personal property or the direct extraction, harvesting, or processing of agricultural commodities are also exempt. The purchaser must be occupationally engaged in providing these services on property that is (1) owned or rented by another person occupationally engaged in agricultural production and (2) used for agricultural production.

If the machinery, tool, or equipment is used predominantly for exempt purposes and is included on a business tangible personal property tax return, the entire amount of the transaction is exempt. Otherwise, the exemption is prorated based on the purchaser's nonexempt use.

### ST2. Aircraft Acquired for Rental or Leasing (IC 6-2.5-5-8.2)

**Year Enacted:** 2007

**Description:** An aircraft acquired for renting or leasing in the ordinary course of the person's business is exempt if the person establishes under guidelines adopted by the DOR that the annual gross lease revenue derived from renting or leasing of the aircraft is equal to or greater than 7.5% of the book value of the aircraft (as published in the VREF Aircraft Value Reference guide) or the net acquisition price of the aircraft. An aircraft acquired for renting or leasing to another person for predominant use in public transportation is also exempt, regardless of whether the revenue threshold listed above is met.

### ST3. Aircraft Based Outside of Indiana (IC 6-2.5-5-42)

**Year Enacted:** 2005

**Description:** Transactions involving aircraft, including completion work, are exempt if the aircraft is transported outside Indiana within 30 days and is titled, registered, or based in another state or country.

### ST4. Aircraft Repair, Maintenance, Refurbishment, Remodeling, and Remanufacturing (IC 6-2.5-5-46)

**Year Enacted:** 2012

**Description:** Tangible personal property used, consumed, or installed in the repair, maintenance, refurbishment, remodeling, or remanufacturing of an aircraft or avionics system of an aircraft is exempt from sales and use tax. The exemption applies to a transaction only if (1) the retail merchant possesses a valid repair station certificate issued by the Federal Aviation Administration (FAA) or (2) the retail merchant has leased a facility at a public use airport and meets the airport's minimum standards for an aircraft maintenance facility, and the work is performed by a mechanic who is certified by the FAA.

### ST5. Blood Glucose Monitoring Supplies and Drug Samples (IC 6-2.5-5-19.5)

**Year Enacted:** 1997

**Description:** Drug samples, the packaging and literature for a drug sample, blood glucose monitoring supplies, and the packaging and literature for a blood glucose monitoring supply, as well as the tangible personal property that will be processed, manufactured, or incorporated into any of these items are exempt from sales and use tax. Blood glucose meters and the packaging and literature for a blood glucose meter furnished without charge by a diabetic supply distributor are also exempt from sales tax.

### ST6. Change of Motor Vehicle Title (IC 6-2.5-5-15.5)

**Year Enacted:** 1993

**Description:** Transactions consisting of changing a motor vehicle title to add or delete an individual are sales tax-exempt if the individual being added or deleted is the spouse, child, grandparent, parent, or sibling of the owner.

### ST7. Children's Diapers (IC 6-2.5-5-57)

**Year Enacted:** 2022

**Description:** Sales of children's diapers are exempt from sales and use tax beginning in August 2022.

### ST8. Cigarette and Tobacco Tax Meter Machines (IC 6-2.5-5-45)

**Year Enacted:** 2012

**Description:** Tangible personal property acquired to comply with cigarette and other tobacco taxes, including cigarette and tobacco tax meter machines and related accessories, are exempt from sales and use tax.

### ST9. Coins, Bullion, and Legal Tender (IC 6-2.5-5-47)

**Year Enacted:** 2016

**Description:** Transactions involving coins, bullion, or legal tender are exempt from sales and use tax. To qualify for the exemption, coins and bullion must be permitted investments by an individual retirement account or by an individually directed retirement account.

### ST10. Commercial Printing (IC 6-2.5-5-36)

**Year Enacted:** 1993

**Description:** Tangible personal property acquired by a person who has contracted with a commercial printer is exempt if the property is acquired for use at the commercial printer's premises and the commercial printer could have acquired the property exempt from sales and use tax.

### ST11. Components of Solar and Wind Energy Systems (IC 6-2.5-5-10.7)

**Year Enacted:** 2023

**Description:** Components of a solar or wind energy system are exempt if the purchaser is a public utility; power subsidiary; or business that furnishes or sells electrical energy to a public utility, a power subsidiary, or a renewable energy grade solar electricity or wind facility.

### ST12. Data Center Equipment (IC 6-2.5-15)

**Yeat Enacted:** 2019

**Description:** The sale of qualified data center equipment for use in a qualified data center is exempt from sales tax. Data center equipment is defined as computer equipment or software purchased or leased for the processing, storage, retrieval, or communication of data that is preapproved by the IEDC. The IEDC must approve a data center for the exemption and issue a specific transaction award certificate. A qualified data center must create a minimum qualified investment in the first five years after the issuance of a specific transaction award certificate of at least the following:

(1) $150 million if it is located in a county with a population greater than 100,000;
(2) $100 million if it is located in a county with a population between 50,000 and 100,000; or
(3) $25 million if it is located in a county with a population of not more than 50,000.

### ST13. Drainage Water Management Systems (IC 6-2.5-5-48)

**Year Enacted:** 2018

**Description:** Components of a drainage water management system are exempt from sales and use tax if the person acquiring the component is engaged in the business of agriculture. For the purposes of this exemption, a drainage water management system is a subsurface system of drainage tubing, drainage tiles, water flow gates, control valves, and related control systems designed to facilitate controlled water drainage from agricultural land used for crop production.

### ST14. Environmental Quality Compliance (IC 6-2.5-5-30)

**Year Enacted:** 1980

**Description:** Tangible personal property purchased for the purpose of complying with state, local, or federal environmental quality statutes, regulations, or standards is exempt from sales and use tax. The property must be purchased by a person engaged in the business of manufacturing, processing, refining, mining, agriculture, or recycling.

### ST15. Exchange of Owned Vehicle for Like-Kind Vehicle (IC 6-2.5-5-38.2)

**Year Enacted:** 1997

**Description:** The value of an owned vehicle is exempt in a vehicle lease transaction if the owned vehicle is exchanged for a like-kind vehicle.

### ST16. Food and Food Ingredients for Human Consumption (IC 6-2.5-5-20)

**Year Enacted:** 1973

**Description:** Food and food ingredients for human consumption are exempt from sales tax. For purposes of this exemption, food and food ingredients for human consumption includes the following items if sold without eating utensils provided by the seller: food sold by a seller whose primary NAICS classification is food manufacturing in sector 311, food sold in an unheated state by weight or volume as a single item, and bakery items. Several items, such as candy and soft drinks, are not exempt from sales tax. A provision that excluded food sold through a vending machine from this exemption was removed effective July 1, 2019.

**ST17. Food Sold by Certain Not-for-Profit Organizations (IC 6-2.5-5-21)**

**Year Enacted:** 1974

**Description:** Sales of food and food ingredients by certain not-for-profit organizations are exempt if the food is delivered to a person confined to his or her home or to a hospitalized person and if the delivery is prescribed as medically necessary by a physician.

**ST18. Free Distribution Newspapers (IC 6-2.5-5-31)**

**Year Enacted:** 1981

**Description:** Manufacturing machinery, tools, equipment, and other tangible personal property acquired for direct use in the direct production or publication of a free distribution newspaper or for incorporation as a material part of a free distribution newspaper are exempt from sales and use tax. Sales of a free distribution newspaper or printing services performed in publishing a free distribution newspaper are also exempt.

**ST19. Intrastate Telecommunication Service, Video and Internet Access, and VOIP Services (IC 6-2.5-5-13)**

**Year Enacted:** 1963

**Description:** Tangible personal property that is used to furnish or sell intrastate telecommunication service or to furnish video, Internet access, or VOIP services is exempt from sales and use tax. The following classifications of property are exempt: (1) central office equipment, station equipment or apparatus, station connection wiring, or large private branch exchanges; (2) mobile telecommunications switching office equipment, radio or microwave transmitting or receiving equipment; or (3) property that is part of a national, regional, or local headend or similar facility operated by a person furnishing video services, cable radio services, satellite television or radio services, or internet access services.

**ST20. Lottery Tickets (IC 6-2.5-5-34)**

**Year Enacted:** 1989

**Description:** Sales of Indiana state lottery tickets are exempt from sales tax.

**ST21. Manufactured Homes and Industrialized Residential Structures (IC 6-2.5-5-29)**

**Year Enacted:** 1979

**Description:** Manufactured homes and industrialized residential structures are exempt to the extent that the gross retail income from the sale is not attributable to the cost of materials used in

manufacturing the home or structure. The cost of materials is presumed to be 35% of the gross retail income. Sales of pre-owned manufactured homes are also exempt.

**ST22. Manufacturing Machinery, Tools, and Equipment (IC 6-2.5-5-3)**

**Year Enacted:** 1963

**Description:** Manufacturing machinery, tools, and equipment acquired for direct use in the direct production, manufacture, fabrication, assembly, extraction, mining, processing, refining, or finishing of other tangible personal property are exempt from sales and use tax. For purposes of the exemption, tire retreading, tree felling, and commercial printing are treated as the production and manufacture of tangible personal property. The exemption includes material handling equipment purchased for the purpose of transporting materials into the production process from an onsite location. Industrial processors may claim the exemption, but public electric utilities may not claim the exemption for distribution equipment or transmission equipment.

**ST23. Material or Integral Part of Public Street or Public Utility (IC 6-2.5-5-7)**

**Year Enacted:** 1978

**Description:** Tangible personal property is exempt if the person acquiring the property is in the construction business and acquires the property for incorporation as a material or integral part of a public street or a public water, sewage, or other utility service.

**ST24. Motion Picture Film, Audio or Video Tape for Broadcast (IC 6-2.5-4-10(c))**

**Year Enacted:** 1967

**Description:** A person who rents or leases motion picture film, audio tape, or video tape to another person is not required to collect sales tax if the person who pays to rent or lease the film (1) charges admission to those who view it or (2) broadcasts the film or tape for home viewing or listening.

**ST25. Motor Vehicles Transported Outside Indiana (IC 6-2.5-2-3)**

**Year Enacted:** 2014

**Description:** Motor vehicles transported outside Indiana within 30 days after delivery and titled or registered in another state or country are taxed at the rate of the destination state or country.

**ST26. Newspapers (IC 6-2.5-5-17)**

**Year Enacted:** 1963

**Description:** Sales of newspapers are exempt from sales tax.

### ST27. Nonreusable Property (IC 6-2.5-5-35)

**Year Enacted:** 1992

**Description:** Tangible personal property that is used, consumed, or removed in the service or consumption of taxable food and is made unusable after its first use is exempt from sales and use tax. In addition, tangible personal property that is consumed by a guest in a hotel or motel or rendered nonreusable by the property's first use by a guest is exempt. The exemption does not apply to electricity, water, gas, or steam.

### ST28. Prescription Drugs and Medical Equipment, Supplies, and Devices (IC 6-2.5-5-18)

**Year Enacted:** 1967

**Description:** The following items are exempt if acquired upon a prescription or drug order: durable medical equipment, mobility enhancing equipment, prosthetic devices, other medical supplies or devices that are used exclusively for medical treatment of a medically diagnosed condition, hearing aids, legend drugs, nonlegend drugs (if the user is confined to a hospital or health care facility), and food and dietary supplements sold by a licensed practitioner or pharmacist.

The following items are exempt from sales and use tax regardless of whether the person has a prescription or drug order: hearing aids that are fitted or dispensed by a person licensed or registered for that purpose; prosthetic devices that are fitted or dispensed by a person licensed or registered for that purpose; colostomy bags and ileostomy bags; devices and equipment used to administer insulin; and insulin, oxygen, blood, and blood plasma purchased for medical purposes.

### ST29. Production of Food and Food Ingredients (IC 6-2.5-5-1(a))

**Year Enacted:** 1963

**Description:** Animals, feed, seed, plants, fertilizer, pesticides, fungicides, and other tangible personal property used directly in the direct production of food and food ingredients or commodities are exempt from sales and use tax. The purchaser must be occupationally engaged in the production of food and food ingredients or commodities which the person sells for human or animal consumption or uses for further food and food ingredient or commodity production.

**ST30. Production of Machinery, Tools, and Equipment (IC 6-2.5-5-4)**

**Year Enacted:** 1963

**Description:** Property acquired for direct use in the direct production of agricultural or manufacturing machinery, tools, or equipment is exempt from sales and use tax. The exemption includes material handling equipment purchased for the purpose of transporting materials into the production process from an onsite location.

**ST31. Production of Tangible Personal Property (IC 6-2.5-5-5.1); Material Part of Tangible Personal Property (IC 6-2.5-5-6)**

**Year Enacted:** 1981; 1965

**Description:** Tangible personal property (including electricity, gas, water, and steam) acquired for direct consumption as a material to be consumed in the direct production of other tangible personal property is exempt from sales and use tax. This exemption includes purchases made by industrial processors and agricultural service providers.

Tangible personal property acquired for incorporation as a material part of other tangible personal property is exempt from sales and use tax. The purchaser must be in the business of manufacturing, assembling, refining, or processing. The exemption includes tangible personal property used in commercial printing.

**ST32. Production Plant and Power Production Expenses of Electrical Energy, Steam, and Steam Heat Utilities (IC 6-2.5-5-10)**

**Year Enacted:** 1963

**Description:** Property that is classified as production plant or power production expenses according to the uniform system of accounts adopted by the Indiana Utility Regulatory Commission is exempt from sales and use tax if the purchaser is a public utility or power subsidiary that furnishes or sells electrical energy, steam, or steam heat.

**ST33. Production Plant, Storage Plant, Production Expenses, and Underground Storage Expenses of Natural and Artificial Gas Utilities (IC 6-2.5-5-11)**

**Year Enacted:** 1963

**Description:** Property that is classified as production plant or power production expenses according to the uniform system of accounts adopted by the Indiana Utility Regulatory Commission is exempt from sales and use tax if the purchaser is a public utility or power subsidiary that furnishes or sells electrical energy, steam, or steam heat.

**ST34. Professional Motor Racing (IC 6-2.5-5-37)**

**Year Enacted:** 1994

**Description:** Tangible personal property that comprises any part of a professional motor racing vehicle, excluding tires and accessories, that is leased, owned, or operated by a professional racing team is exempt from sales and use tax. In addition, tangible personal property that comprises any part of a two-seater Indianapolis 500 style race car, excluding tires and accessories, is exempt if it is leased, owned, or operated by a company that is engaged in offering a competitive racing experience during a competitive racing event.

**ST35. Property Acquired by Certain Not-for-Profit Organizations (IC 6-2.5-5-25)**

**Year Enacted:** 1963

**Description:** Tangible personal property, accommodations, and services acquired by certain not-for-profit organizations are exempt if the property, accommodations, or service is used to carry on or to raise money to carry on the organization's not-for-profit purpose.

**ST36. Property Added to Certain Structures (IC 6-2.5-4-9(c))**

**Year Enacted:** 1965

**Description:** In general, tangible personal property that will be added to a structure or facility and will become part of the real estate on which the structure or facility is located is subject to sales and use tax. However, this tangible personal property is not subject to the tax if the ultimate purchaser or recipient would be able to purchase the property from the supplier exempt from tax.

**ST37. Property Incorporated into a Transportation Facility (IC 6-2.5-5-56)**

**Year Enacted:** 2022

**Description:** Tangible personal property is exempt if it is acquired for incorporation into a transportation facility under a public-private agreement or development agreement executed in accordance with IC 5-23-8-1. For purposes of this exemption, transportation facility means any new or existing road, highway, toll highway, bridge, tunnel, railroad, or intermodal facility, located in the jurisdiction of a governmental body. The exemption applies to agreements entered into beginning January 1, 2023.

**ST38. Property Used by Manufacturers of Hot Mix Asphalt (IC 6-2.5-5-52)**

**Year Enacted:** 2018

**Description:** Certain purchases by operators of hot mix asphalt plants are

exempt from sales and use tax. Items that are exempt under this provision include the following: (1) trucks that are used to transport hot mix asphalt from the plant to a job site, (2) pavers that are used to spread hot mix asphalt, (3) plant equipment directly used to directly produce hot mix asphalt, (4) fuel used to operate exempt trucks, pavers, or equipment, and (5) repair parts installed on exempt trucks, pavers, or equipment.

### ST39. Property Used in Providing Public Transportation (IC 6-2.5-5-27)

**Year Enacted:** 1963

**Description:** Property and services directly used in providing public transportation of persons or property are exempt from sales and use tax. Natural gas purchased after December 31, 2013, and before January 1, 2017, for public transportation of property was not exempt.

### ST40. Public Safety Equipment and Materials (IC 6-2.5-5-55)

**Year Enacted:** 2021

**Description:** Public safety equipment and materials are exempt from sales tax if they are predominantly used by the purchaser to protect the general public and workers during the performance of public works construction or maintenance. Examples of exempt items include concrete or metal barriers, temporary pavement markings, cones, and static and electronic signage and signals. However, hard hats, safety glasses, safety vests, pest control, and other personal protective equipment are not exempt.

### ST41. Purchases by Licensed Practitioners and Health Care Facilities (IC 6-2.5-5-19)

**Year Enacted:** 1969

**Description:** Drugs, insulin, oxygen, blood, and blood plasma are exempt from sales and use tax if purchased by a licensed practitioner or a health care facility for direct consumption in treating patients or for resale to a patient.

### ST42. Purchases by State and Local Government Agencies (IC 6-2.5-5-16)

**Year Enacted:** 1963

**Description:** Tangible personal property, accommodations, public utility commodities, and public utility services acquired by the state of Indiana, an agency or instrumentality of the state, a political subdivision of the state, or an agency or instrumentality of a political subdivision are exempt if the property, accommodations, commodities, or services are predominantly used to perform governmental functions.

**ST43. Purchases by Utilities (IC 6-2.5-5-14)**

**Year Enacted:** 1978

**Description:** Purchases made by a municipally owned utility, a utility owned or operated by a special district, or a public utility owned or operated by a not-for-profit corporation are exempt from sales and use tax.

**ST44. Qualified Computer Equipment (IC 6-2.5-5-38.1)**

**Year Enacted:** 1997

**Description:** Qualified computer equipment sold by an educational service center or school to the parent or guardian of a student is exempt from sales tax. Qualified computer equipment includes hardware and software.

**ST45. Recreational Vehicles and Cargo Trailers (IC 6-2.5-5-39; IC 6-2.5-2-5)**

**Year Enacted:** 2005

**Description:** Cargo trailers and recreational vehicles that are transported out of Indiana within 30 days and registered for use outside Indiana are exempt from sales tax if the trailer or vehicle will be registered in a state that provides a reciprocal exemption for Indiana residents. In 2017, a provision was added to allow a person purchasing a cargo trailer or recreational vehicle that is not exempt to pay the sales tax rate of the state in which it will be registered. This provision expired on June 30, 2019, but was reinstated effective July 1, 2020.

**ST46. Recycling Materials (IC 6-2.5-5-45.8)**

**Year Enacted:** 2012

**Description:** Recycling materials, recycling carts, and other tangible personal property acquired for direct use in the processing of recycling materials are exempt from sales and use tax if the purchaser is occupationally engaged in the business of recycling.

**ST47. Remotely Accessed Prewritten Computer Software (IC 6-2.5-4-16.7)**

**Year Enacted:** 2018

**Description:** A transaction in which an end user purchases, rents, leases, or licenses the right to remotely access prewritten computer software over the internet, over private or public networks, or through wireless media is not subject to sales and use tax.

**ST48. Rental of a Residence for Fewer than 15 Days (IC 6-2.5-5-53)**

**Year Enacted:** 2019

**Description:** The rental or furnishing of rooms, lodging, or other

accommodations in a house, condominium, or apartment is exempt from sales tax if (1) the owner maintains the house, condominium, or apartment as their primary personal residence; (2) the residence is rented for fewer than 15 days in a calendar year; (3) no payments were made through a marketplace facilitator; and (4) the rental qualifies for the special rule for certain use under Section 280A(g) of the Internal Revenue Code.

### ST49. Rental of Booth or Display Space (IC 6-2.5-4-4(e))

**Year Enacted:** 1987

**Description:** A promoter that rents a booth or display space to an exhibitor is not required to collect sales tax if (1) the booth or display space is located in a hotel, motel, inn, tourist camp, tourist cabin, gymnasium, hall, coliseum, or other place where rooms, lodgings, or accommodations are regularly furnished for consideration and (2) the facility is operated by a political subdivision or the State Fair Commission. However, this provision does not exempt the renting of accommodations by a political subdivision or the State Fair Commission to a promoter or an exhibitor.

### ST50. Required Product Labels (IC 6-2.5-5-50)

**Year Enacted:** 2015

**Description:** Labels are exempt from sales and use tax if (1) they are affixed to other tangible personal property being sold by a retail merchant and (2) they are required to be affixed to the tangible personal property in order to comply with any state or federal statute or regulation.

### ST51. Research and Development Property (IC 6-2.5-5-40)

**Year Enacted:** 2005

**Description:** Research and development property is exempt from sales and use tax. For purposes of this exemption, research and development property is defined as tangible personal property that has not been previously used in Indiana for any purpose and is devoted to experimental or laboratory research and development for new products, new uses of existing products, or improving or testing existing products.

### ST52. Returnable Containers and Wrapping Materials (IC 6-2.5-5-9)

**Year Enacted:** 1963

**Description:** The following items are exempt: (1) returnable containers, the contents of which were sold in a retail transaction; (2) returnable containers that are transferred empty for the

purpose of refilling; and (3) wrapping materials and empty containers acquired for use as nonreturnable packages for selling the contents or shipping or delivering tangible personal property that is owned by another person in certain circumstances.

### ST53. Rolling Stock (IC 6-2.5-5-27.5)

**Year Enacted:** 1997

**Description:** Rolling stock, as well as all spare, replacement, and rebuilding parts, accessories, components, materials, and supplies for rolling stock are exempt from sales and use tax. For purposes of this exemption, rolling stock means rail transportation equipment, locomotives, box cars, flatbed cars, hopper cars, tank cars, and freight cars.

### ST54. Sales by Certain Not-for-Profit Organizations (IC 6-2.5-5-26)

**Year Enacted:** 1963

**Description:** Sales by certain not-for-profit organizations are exempt if the organization does not make more than $100,000 in sales in a calendar year. Once sales exceed $100,000, the organization is required to collect sales tax for the remainder of the calendar year. Churches, monasteries, convents, schools that are part of the Indiana public school system, and parochial schools regularly maintained by a recognized religious denomination are not required to collect sales tax regardless of the dollar amount of sales in a year. Sales by certain not-for-profit organizations are also exempt if the property sold is designated for the organization's educational, cultural, or religious purpose or for improvement of the work skills or professional qualifications of the organization's members. [The sales threshold was increased from $20,000 to $100,000, and the organizations excepted from this threshold were added beginning in FY 2024.]

### ST55. Sales by Public Libraries (IC 6-2.5-5-26(c))

**Year Enacted:** 2018

**Description:** Sales of items in a public library's circulated and publicly available collections are exempt from sales tax. Also exempt are items that would typically be included in the library's collections that are donated by individuals or organizations. Exempt sales may be made by a public library or a charitable organization formed to support a public library.

**ST56. Sales of Race Horses in Claiming Races (IC 6-2.5-5-1(b))**

**Year Enacted:** 2017

**Description:** A transaction involving the sale of a race horse in a claiming race is exempt.

**ST57. Sales to City or Town for Municipal Golf Course (IC 6-2.5-5-44)**

**Year Enacted:** 2010

**Description:** Sales of tangible personal property to a city or town for use in the operation of a municipal golf course are exempt from sales and use tax.

**ST58. School Building Materials (IC 6-2.5-5-23)**

**Year Enacted:** 1965

**Description:** Tangible personal property acquired for incorporation into a school building that is being constructed by a lessor corporation (private or public holding company) is exempt from sales and use tax.

**ST59. School Meals (IC 6-2.5-5-22)**

**Year Enacted:** 1963

**Description:** Meals sold by schools, not-for-profit colleges and universities, fraternities, sororities, and student cooperative housing organizations are sales tax exempt.

**ST60. Sharing of a Passenger Motor Vehicle for Fewer than 15 Days (IC 6-2.5-5-54)**

**Year Enacted:** 2019

**Description:** Transactions involving the sharing of a passenger motor vehicle are exempt from sales tax if (1) the owner shares the vehicle for fewer than 15 days in a calendar year and (2) no payments were made through a marketplace facilitator, including a peer-to-peer vehicle sharing program.

**ST61. Supply, Pumping, and Water Treatment Plant and Expenses (IC 6-2.5-5-12); Collection, Disposal, and System Pumping Plant and Expenses (IC 6-2.5-5-12.5)**

**Year Enacted:** 1963; 2007

**Description:** Property that is classified as source of supply plant and expenses, the pumping plant and expenses, or water treatment plant and expenses according to the uniform system of accounts adopted by the Indiana Utility Regulatory Commission is exempt from sales and use tax if the purchaser is a public utility that furnishes or sells water.

In addition, property that is classified as collection plant and expenses, treatment and disposal plant and expenses, or system pumping plant and expenses is exempt from sales and use tax if the person acquiring the property is a public utility that collects, treats, or processes wastewater.

### ST62. Utilities Purchased by Business in Inactive or Closed Military Base (IC 6-2.5-5-8.5)

**Year Enacted:** 2004

**Description:** Utility services or commodities are exempt when purchased by a business that relocates or expands all or part of its operations in a facility located in a military base that is inactive, closed, or scheduled for closing; a military base reuse area; or a qualified military base enhancement area. The exemption applies only during the first five years after the new operations commence.

### ST63. Utility Scale Battery Energy Storage Systems (IC 6-2.5-5-10.5)

**Year Enacted:** 2021

**Description:** Property classified as a utility scale battery energy storage system is exempt from sales tax if the person acquiring the property (1) is a public utility that furnishes or sells electrical energy or a power subsidiary that furnishes or sells electrical energy to a public utility and (2) uses the property to store electrical energy in front of the customer's meter. Utility scale battery energy storage system is defined as a system capable of storing and releasing greater than 1 MW of electrical energy for a minimum of 1 hour utilizing an AC inverter and DC storage or equipment which receives, stores, and delivers energy using batteries, compressed air, pumped hydropower, hydrogen storage (including hydrolysis), thermal energy storage, regenerative fuel cells, flywheels, capacitors, and superconducting magnets.

# Executive Summary

The 2020 Iowa Tax Expenditure Study provides information on the impact of tax credits, deductions, exemptions, and income exclusions on the revenue-raising capacity of the State's three major General Fund taxes. The taxes considered in the report with an effect on the General Fund are the individual income tax, the corporate income tax, and the sales and use tax. In most years these three taxes account for at least 90 percent of net General Fund tax receipts. In addition, property tax expenditures are considered, but they do not affect the General Fund, as funds are distributed to local governments.

Most tax expenditures provided in this report are estimated for calendar year 2020, and are based on the most recent year for which complete tax information is available, which in most cases is 2018. For individual income tax and corporate income tax expenditures, calendar year corresponds to tax year. For sales and use tax expenditures, tax year (TY) normally corresponds to fiscal year (FY). For this study, however, sales and use tax expenditure estimates have been adjusted to a calendar year basis. Property tax expenditures, on the other hand, are based on taxes due in fiscal year 2020, and were estimated based on property assessments as of January 1, 2018. For this reason, for property tax revenue and expenditures cited in this study, tax year is equivalent to fiscal year, and will be hereafter referred to as "tax year."

For tax year 2020 Iowa collected $4,071.3 million in individual income taxes, $693.7 million in corporate income taxes, and $3,193.1 million in sales and use taxes. Other taxes, totaling $286.0 million, include inheritance, insurance, franchise, and miscellaneous tax types. Property tax generated $6,002.5 million for local governments.

**Net Tax Revenue by Tax Type, Tax Year 2020**

| Tax Type Payable to General Fund and Local Governments | Net Revenue ($ Millions) |
|---|---|
| Individual Income Tax | $ 4,071.3 |
| Corporate Income Tax | $ 693.7 |
| Sales and Use Tax | $ 3,193.1 |
| Other Tax | $ 286.0 |
| Total Revenue Payable to General Fund | $ 8,244.1 |
| Property Tax Revenue Payable to Local Governments | $ 6,002.5 |

Sources: State of Iowa Tax Receipts and Refunds (General Fund) and Property Taxes by Class of Property (Local Governments)

In preparing this report, 357 separate tax law provisions were identified as meeting the definition of tax expenditures for tax year 2020, as applicable to the General Fund. The report quantifies the impact of 246 of these provisions, including 31 where the impact was determined to be minimal (under $100,000) or the impact could not be estimated separately and was incorporated under another provision. For 111 General Fund expenditures, the impact could not be determined due to the lack of adequate or timely

data. All provisions for which estimates are provided had an estimated General Fund impact of -$15,966.7 million in tax year 2020 (see table, below). Estimated expenditures for each tax type are detailed in the attached tables (see Tables 3 through 6). Expenditures that were not estimated are listed in Table 8, attached.

An additional 56 provisions were quantified in terms of the impact on property taxes, which impact local government tax revenue. Property tax expenditure estimates are included in the attached tables in Table 7. The total impact of property tax expenditures is estimated to be -$9,377.4 million for tax year 2020, affecting local government funds (see table, below). Seven property tax expenditures were not able to be estimated and are included in Table 8, attached.

The impacts by tax type are as follows:

**Estimated Tax Expenditures by Tax Type, Tax Year 2020**

| Expenditure Tax Type | Expenditure Count | Impact ($ Millions) |
|---|---|---|
| Individual Income Tax | 58 | $ (4,068.7) |
| Corporate Income Tax | 8 | $ (69.3) |
| Tax Credits (Multiple tax types) | 42 | $ (437.2) |
| Sales and Use Tax | 138 | $ (11,391.5) |
| Total Impact to General Fund | 246 | $ (15,966.7) |
| Property Tax (Impact to Local Governments) | 56 | $ (9,377.4) |

Source: Iowa Department of Revenue (IDR) estimated expenditures by tax type, derived from internal models, federal data, and historical IDR data.

# Introduction

The 2020 Iowa Tax Expenditure Study provides information on the revenue impact of tax credits, exemptions, deductions, nontaxable transactions, or other deviations from the operation or collection of a tax in Iowa. This release presents tax expenditures related to corporation income tax, individual income tax, the State's sales and use tax, and property tax levied at the local level. (To the extent other tax types, such as insurance premium, and moneys and credit, are affected, their impact is usually minimal and is combined with the predominant tax type impacted by the expenditure being measured.) The Department has completed similar studies for 2000, 2005, 2010, and 2015.

This Study is designed to provide expenditure information in a manner that is consistent with the definitions used in Iowa Code Section 2.48 (2021).[1] In preparing this report, 420 separate types of transactions impacting either the General Fund or local government were identified as tax expenditures for 2020. This release quantifies the impact of 302 of these tax expenditures. The estimated amounts are attached in Tables 3 through 7. For 118 other tax expenditures, lack of timely data precluded estimation. These are listed in Table 8, attached. Note that not all items that are defined as tax expenditures under Iowa Code Section 2.48 are considered tax expenditures under a normal tax structure. For example, items purchased for resale and many business inputs are exempt from sales tax consistent with the generally accepted principle that sales tax should apply only to final purchases by consumers. Nevertheless, these items are included in this study as tax expenditures.

## Purpose of the Tax Expenditure Study

Government programs funded through direct appropriations are subject to periodic review as part of the state budget process. Programs funded through special features or omissions of the tax code, such as nontaxable events, tax exemptions, tax credits, tax deductions, and income tax exclusions, generally escape such examination. Therefore, this study is intended to provide more information about these features of the Iowa tax statutes and to improve government accountability.

The estimates presented in this study are for taxable events occurring in calendar year 2020 and are based upon the most recent data available, adjusted to reflect the levels of activity in 2020, if necessary. For income tax and sales and use tax, the estimates are based only upon the impact on receipts of the State of Iowa and only upon receipts going into the General Fund. Impacts on local option income surtaxes or local option sales taxes are not estimated.

## Definition of Tax Expenditure

[1] From Iowa Code Section 2.48 (2021): "For purposes of this section, "tax expenditure" means an exclusion from the operation or collection of a tax imposed in this state. Tax expenditures include tax credits, exemptions, deductions, and rebates. Tax expenditures also include sales tax refunds issued pursuant to section 423.3 or section 423.4."

A tax expenditure is any exemption, credit, deduction, or exclusion from the tax base that is tied to a specific provision in tax law (with the exception of certain sales and use tax expenditures which are considered exempt by omission from taxation under Iowa Code).[2] A tax expenditure is generally understood to be a preferential provision in the tax law that produces a reduction in tax from that which would be imposed without the provision. In addition, tax expenditures are generally targeted to a limited group of taxpayers. The basis of this study is to identify provisions in Iowa law and estimate the impact to the General Fund of each of the provisions that satisfy the definition of a tax expenditure.

Tax expenditures are, in general, not appropriations, but can be viewed as an alternative to direct government appropriations. However, some property tax expenditures are directly funded by State of Iowa appropriations. The funding may be distributed to local governments or to individuals. Although tax expenditures allocate resources for specific public purposes like appropriations, they achieve policy goals indirectly by changing the cost of a particular action.

In general, tax changes that alter the timing of when revenues or expenses are realized for tax purposes, such as depreciation and amortization of assets, are not treated as tax expenditures in this study (see Appendix I). Additionally, new tax expenditures that took effect with legislation passed in the 2020-2021 Iowa legislative session are not included in this study. In particular, exclusions, exemptions, and tax credits related to Covid-19 pandemic relief are not included as separate expenditures, but may impact other expenditures to the extent they decrease taxable income or other sources of revenue (see Appendix II).

**How the Tax Expenditures Have Been Estimated**

Two primary assumptions have been used for the Iowa tax expenditure study that are generally consistent with the assumptions used for calculating tax expenditures in other states and by the federal government. The first of these assumptions is that economic behavior is not altered. By definition, tax expenditures are sometimes created in order to bring about an expected result or to encourage a particular behavior. Estimates in this study are done assuming that the elimination of the tax expenditure will not otherwise change behavior. This assumption avoids the necessity for making subjective assumptions about behavior and the possibility of inconsistency in methods and outcomes. Such analysis is beyond the scope of this study.

The second assumption used in this study is that tax expenditures are independent of other tax provisions. In practice, however, the fiscal impact of one tax provision can affect the fiscal impact of another tax provision. For example, under the individual income tax, eliminating a nonrefundable credit such as the personal credit could result in taxpayers being able to utilize more of other nonrefundable credits; but for purposes of this study,

[2] Examples of sales and use tax expenditures that are not tied to specific provisions in tax law are dental services and self-pay washer/dryer use.

the estimate of the tax expenditure value for each credit assumes all other credits are unaffected.

Another important issue to note is that tax expenditure estimates are not the same as budgetary fiscal estimates. Although the provided estimates of tax expenditures indicate the magnitude of the revenue impact from the application of specific provisions, actual budgetary fiscal impacts of legislative changes may produce different results. The primary reason for this variance is the use of different basic economic assumptions or time periods when compiling the estimates. Another reason for possible differences is the assumption of independence when calculating tax expenditures, as contrasted with budgetary fiscal estimates that are often considered in the context of other changes.

In calculating each tax expenditure, preference was given to internal data when available. If unavailable, the 2017 Economic Census published by the US Census Bureau was frequently used. Other data sources include industry data identified on the internet or gathered through phone calls and emails, the Agricultural Census published by the US Department of Agriculture, other federal data, or comparable data from other states. Although data sources often are consistent across studies, large changes in estimates over time may reflect a change in data source. See References table at the end of this document.

The General Fund estimates for sales and use tax in this study relate to expenditures estimated for the 2020 calendar year. For corporate and individual income tax, the estimates are based on 2020 tax year where available, and 2020 fiscal year if not. For property tax, the estimates relate to property valuations or assessments for calendar year 2018 that would correspond to tax bills payable in fiscal year 2020. Note, property tax expenditures do not affect the General Fund since funds are distributed to local governments. Also, property tax expenditures are estimated in two ways: (1) reductions in collectible property tax revenue (through credits and exemptions, for example), and (2) reductions in property assessment values for purposes of taxation. For some tax items, only one or the other method is practicable to use for estimation. In other cases, both methods can be used. The method applied will be indicated in the property tax expenditure tables.

**Data Presentation**

This study is a comprehensive tax expenditure study by the Iowa Department of Revenue for 2020. The total estimated expenditures by expenditure category (described below) are presented in Tables 1a and 1b (below and attached). Table 2 (below and attached) lists the top five expenditures by tax type. This is provided to give a quick overview of how each tax type is impacted by tax expenditures, and is followed by a description of historical rates and other information about the tax types covered in this study.

Full details of expenditures by tax type are found in Tables 3 through 7, attached. In the individual and corporate income tax types (Tables 3 and 4), the Iowa Code Citation column may include an “IRC” citation. This designation means that the tax expenditure is tied to federal law under the Internal Revenue Code (IRC). The total impact of federal

conformity cannot always be quantified, however, and the federal citation is not meant to imply capture of all revenue impacts that result from conformity with the IRC. For purposes of this study the impact of federal conformity is not addressed.

A description of the fields presented in Tables 3 through 8 (see attached) is provided below and is reproduced for reference in the attached tables as well.

Tax Expenditure Tables Data Fields

**Expenditure name (and tax type):** Name of the tax expenditure. If multiple tax types are involved, the applicable tax base is cited. This pertains to the Tax Credit expenditures table (Table 5).

**Expenditure Category:** Broad group of expenditure purpose. See full list, below.

**Expenditure Type:** Means by which the tax expenditure is applied against the estimated item: Exclusion, Exemption, Partial Exemption, Credit, Deduction, Indexation, and Refund.

**Iowa Code Citation:** Chapter and section from Iowa Code containing the expenditure. Iowa Code citations are from the 2021 Code, unless otherwise specified. If IRS conformity is a factor in the expenditure, then the Internal Revenue Code (IRC) chapter is also listed.[3]

**Iowa Administrative Code Citation:** Chapter and section from Iowa Administrative Code containing the rules used to administer the expenditure. Iowa Administrative Code citations are from the 2021 Code, unless otherwise specified.

**Description:** Details about the expenditure, as taken from Iowa Code.

**Data Source**: Primary source of data for estimating the expenditure. Sources cited include “Internal,” meaning the estimates are based on Iowa Department of Revenue (IDR) data; “Model,” meaning estimates are based on a combination of IDR data and other sources such as Federal data or industry data; and “JCT Tax Expenditure,” where estimates are based on data from the Joint Committee on Taxation, a legislative body of the US Congress. Other sources may be “Industry Data,” “Comparative State Data,” and federal data such as the economic census from the US Census Bureau, and data from the US Department of Agriculture (USDA). In cases where the expenditure could not be separately estimated and is included in the estimate for another expenditure, that is indicated in the source column as “See Description.”

**Tax Expenditure Value:** Estimated reduction in General Fund (or local government, in the case of property taxes) tax revenue as a result of the exemption, credit, or deduction; rounded to the nearest one hundred thousand. Entry is listed as “Minimal” if significantly under $100,000.

[3] IRC references are shown for information only. The impact of conformity with the IRC is not factored into the tax expenditure estimates.

**Reduction in Taxable Property Value** (For Property Tax Only): Estimated change in the assessment of property values as a result of an exemption or credit, rounded to the nearest $100,000.

Categories of Tax Expenditures

The tax expenditure report categorizes each expenditure by the intent of the provision. Some exemptions are in place for an administrative purpose, such as to avoid double taxation, while others reflect conscious policy decisions to pursue a certain social, economic, or environmental goal.

The estimated expenditure total for each of these tax expense categories is found in the explanation of each expenditure category below, and is summarized in Table 1a for General Fund impact and in Table 1b for local governments impact, below and attached. The highest expenditure in each category is also discussed below, and is displayed in Tables 1a and 1b.

**Administrative:** This category contains expenditures that are nontaxable or exempt because taxability would result in double taxation or the taxation of an incidental transfer. They are generally not implemented to pursue policy goals. Examples include the exemption for interstate sales or prepaid merchandise cards as well as the nontaxable status of property transferred in corporate mergers. Total administrative tax expenditures are $5,703.2 million. The single highest expenditure in this category is the tax exemption on resale of tangible personal property under the sales and use tax type, at $3,342.4 million. (See Table 1a.)

**Agricultural Input:** This category exempts most personal property used by farmers to produce, or an input which becomes food or fuel including items that are depleted in the creation of food or fuel. Examples include grain dryers, commercial fertilizer and lime, and agricultural feed. Total expenditures under this category are $560.8 million. Exemptions in this category apply mostly to sales and use tax, with the highest impact attributable to sales of agricultural feed, which are exempt from sales tax totaling $241.3 million. (See Table 1a.)

**Agriculture Support:** This category applies to expenditures made by farmers in the course of operation. Examples include agricultural assets transfer, acquisition of breeding stock, aerial spraying of fields, capital gains on agricultural assets, and laboratory tests on animals. Exemptions and deductions in this category apply to corporate and personal income tax, and to sales and use tax, with the latter having the largest impact to the General Fund. It also makes up the majority of expenditures in property tax, with the impact going against local government revenue. Total expenditures in this category going against the General Fund are $39.5 million, with the highest impact attributable to sales of agricultural drainage tile (see Table 1a). The highest impact in property tax expenditures attributable to agriculture support is due to the reduced assessment of agricultural real estate, which is based on productivity rather than market value. The total impact is estimated at $4,025 million in foregone property tax revenue due to this

expenditure (see Table 1b).

**Business - inputs for Manufacturing:** This category exempts items used in a business's production process to avoid levying taxes at each link in a supply chain. Examples include inert gases used in manufacturing, and packaging containers. The main tax type applicable to this category is sales and use, with the highest expenditure at $253 million for exempt sales tax on products used in processing. Total expenditures in this category are $1,229.1 million. (See Table 1a).

**Business Incentive:** This category provides benefits to businesses in the interest of facilitating economic and/or employment growth. Examples include the reduced tax rate on construction equipment, the High Quality Job Program Sales Tax Refund, and the Workforce Housing Tax Incentive Sales Tax Refund. There are multiple tax types that are applicable to exemptions and deductions in this category, including corporate income, property tax, withholding, and sales and use tax. Sales and use tax make up the majority of the estimated expenditures, with the highest single expenditure due to sales tax exemption on gambling boat games and admissions, at $574.0 million. Total expenditures in this category are $1,596.3 million. (See Table 1a.)

**Charitable Organization Support:** This category exempts certain items sold by or sold to certain nonprofits generally engaging in activities in the public interest, or for items sold to support educational, religious, or charitable activities. Examples include exemptions for sales to nonprofit hospice facilities, Community Action Agencies, or private art centers. The main tax advantages in this category apply to individual income, property, and sales and use taxes, with the majority of expenditures attributable to sales and use tax exemptions. Total General Fund expenditures in this category are $369.6 million, with the highest item being the exemption of sales tax to non-profit hospitals at $152.4 million (see Table 1a). The highest local government expenditure in this category is due to property tax exemptions on religious, literary, and charitable societies' property, totaling $356.3 million (see Table 1b).

**Community Development Support:** This category exempts taxes for qualified expenses associated with economic or cultural development in a community. Examples include speculative shell buildings, historic preservation, cultural and entertainment district development. It applies to multiple tax types in the form of tax credits. Total expenditures are $24.5 million. The highest expenditure associated with this category is the historic preservation tax credit, estimated at $24.5 million. (See Table 1a.)

**Consumer Benefit:** This category exempts taxes or reduces the tax rate for items commonly purchased by consumers, often items considered necessities. Examples include food sales for human consumption, medical services, and residential utilities. Expenditures in this category mainly apply to sales and use taxes. Total General Fund expenditures are $3,631.7 million (see Table 1a), and local government expenditures are $2,723.4 million (see Table 1b). The highest General Fund expenditure in this category is attributable to the sales tax exemption on medical services, at $693.3 million (see Table 1a), while the top local government expenditure is $2,493.9 million for residential classification valuation rollback (see Table 1b).

**Education Support:** This category exempts, or provides an income deduction or exclusion of, certain expenses associated with education. Examples include educator expense, contributions to a 529 plan, employee assistance for education expense, and early childhood development expenses. Individual income tax is the main focus for this category. Expenditures in this category total $41.0 million. The largest expenditure in this category is the tuition and textbook tax credit, which is applied against individual income tax, and is estimated at $14.8 million in tax year 2020. (See Table 1a).

**Environmental Support:** This category exempts, or provides an income deduction or exclusion of, certain expenses associated with environmental benefit. Examples include solar, geothermal, and wind energy systems, and property used for pollution control and recycling. General Fund expenditures total $1.6 million, with the largest item in this category being the geothermal heat pump income tax credit at $1.1 million (see Table 1a). Local government expenditures in this category total $116.3 million, with the largest expenditure attributable to a partial property tax exemption for wind energy conversion property, estimated at $103.2 million (see Table 1b).

**Family Support:** This category exempts taxation of items or income benefits associated with family care. Examples include the Earned Income Tax Credit, child and dependent care, dependent income tax exemption, employee child care benefit, and public assistance payments. Individual income tax is the focus for this category. The largest expenditure in this category is the Earned Income Tax Credit, which is applied against individual income tax. The estimate for this credit is $72.3 million. Total expenditures in this category are estimated at $111.8 million. (See Table 1a.)

**Government:** This category exempts items or property sold to, sold by, or owned by any level of local, state, or the federal government. Examples include sales by the Legislative Services Agency or the Department of Cultural Affairs as well as refunds for materials used in the construction of government buildings. These expenditures can be applied to various tax types, including corporate and individual income tax, property tax, and sales and use tax, with the latter contributing most of the expenditures total. The largest General Fund estimated expenditure in this category is a sales tax exemption on sales to tax levying or certifying bodies in Iowa, at $311.8 million (see Table 1a). Tax expenditures total $438.5 million for General Fund (see Table 1a) and $255.8 million for local governments (see Table 1b). The largest expenditure item impacting local governments is municipal and military property at $210.5 million (see Table 1b).

**Individual Benefit:** This category exempts taxation on certain expenses incurred by, or benefits accruing to, individuals. Examples include victim compensation awards, unskilled in-home health care service, standard income deduction, and life insurance death benefits. Individual income taxes are the most affected tax type by expenditures in this category. The largest item in this category is an itemized deduction for interest paid on qualifying items. The deduction is applied against individual income, and is estimated at $128 million in tax year 2020. Total General Fund expenditures are estimated at $718.1 million. (See Table 1a.)

**Inputs for Transportation:** This category exempts sales and use taxation on items used

for inputs to transportation, such as aircraft repair and replacement parts, ships and barges, and railroad rolling stock. The largest expenditure in this category is $5.4 million in sales tax exemption for sales associated with railroad rolling stock. Total expenditures are estimated at $6.7 million. (See Table 1a.)

**Low-Income Support**: This category exempts taxation on income in support of low-income persons. No expenditures were estimated in this category for tax year 2020.

**Military/Veterans' Support**: This category exempts taxation on income accruing to military veterans or active duty military. Examples include military active duty pay and benefits, veterans education benefits, military disability pensions, and Veterans Trust fund distributions. Individual income taxes are the most affected tax type. The highest expenditure in this category is $23.2 million for exclusion of military disability pensions from individual taxable income (see Table 1a). Total expenditures in the category are $51.5 million for General Fund (see Table 1a) and $1.8 million for local governments (see Table 1b). The highest expenditure item for the latter is a property tax exemption and credit for Military Service (see Table 1b).

**Natural Resources Support:** This category exempts or reduces the tax rate for sales or property that promotes the health of wildlife, reduces pollution, or facilitates the transition to renewable energy. Examples include the sales and property tax exemption for solar energy equipment, the exemption of pollution control and recycling property, and the property tax exemption for native prairie and wetlands. The main tax type affected by these expenditures is property tax, impacting local government revenue. The top expenditure in this category is $22.2 million in property tax exemption for forest and fruit-tree reservations, which is applied against local government revenue (see Table 1b). Total expenditures in the category are $0.6 million for General Fund (see Table 1a) and $23.8 million for local governments (see Table 1b). The highest expenditure item for the latter is the Charitable Conservation Contribution Tax Credit at $0.6 million (see Table 1a).

**Retirement Support:** This category exempts certain income and benefits paid to retired individuals. Examples include: IRA and 401k contributions, and social security and pension distributions. Individual income taxes are the most effected tax type. The highest expenditure in this category is the exclusion from taxable income of pension contributions and earnings in 401(k) plans. The estimate for this expenditure is $649.4 million. Total estimated expenditures for retirement support is $1,442.2 million (see Table 1a), and impacts General Fund revenue only.

## Table 1a. Tax Expenditure Estimates by Category
## General Fund Impact Only*

| Tax Expenditures Category | Expenditure Estimate ($ millions) | Ranking | Top Tax Expenditure Item** | Expenditure Estimate ($ millions) |
|---|---|---|---|---|
| Administrative | $5,703.2 | 1 | Resale of Tangible Personal Property[1] | $3,342.4 |
| Agricultural Input | $560.8 | 7 | Agricultural Feed[1] | $241.3 |
| Agriculture Support | $39.5 | 13 | Agricultural Drainage Tile[1] | $9.3 |
| Business - Inputs for Manufacturing | $1,229.1 | 5 | Products Used in Processing[1] | $253.0 |
| Business Incentive | $1,596.3 | 3 | Gambling Boat Games and Admissions [1] | $574.0 |
| Charitable Organization Support | $369.6 | 9 | Nonprofit Hospitals[1] | $152.4 |
| Community Development Support | $24.5 | 14 | Historic Preservation Tax Credit[2] | $24.5 |
| Consumer Benefit | $3,631.7 | 2 | Medical Services[1] | $693.3 |
| Education Support | $41.0 | 12 | Tuition and Textbook Tax Credit[2] | $14.8 |
| Environmental Support | $1.6 | 16 | Geothermal Heat Pump Tax Credit[2] | $1.1 |
| Family Support | $111.8 | 10 | Earned Income Tax Credit[2] | $72.3 |
| Government | $438.5 | 8 | Tax Levying or Certifying Bodies In Iowa[1] | $311.8 |
| Individual Benefit | $718.1 | 6 | Itemized Deduction for Interest Paid[2] | $128.0 |
| Inputs for Transportation | $6.7 | 15 | Railroad Rolling Stock[1] | $5.4 |
| Low-Income Support | $0.0 | 18 | --- | $0.0 |
| Military/Veterans' Support | $51.5 | 11 | Military Disability Pensions[2] | $23.2 |
| Natural Resources Support | $0.6 | 17 | Charitable Conservation Contribution Tax Credit[3] | $0.6 |
| Retirement Support | $1,442.2 | 4 | Pension Contributions and Earnings in Employer Plans[2] | $525.4 |
| Total | $15,966.7 | | Total | $6,372.8 |

* General Fund estimates generally pertain to tax year 2020.
**Tax type:
1 Sales and Use
2 Individual Income Tax
3 Individual and Corporate Income Tax

## Table 1b. Tax Expenditure Estimates by Category
## Local Governments Impact Only*

| Tax Expenditures Category | Expenditure Estimate ($ millions) | Ranking | Top Tax Expenditure Item** | Expenditure Estimate ($ millions) |
|---|---|---|---|---|
| Agriculture Support | $5,196.1 | 1 | Agricultural Classification Valuation | $4,025.0 |
| Business Incentive | $671.7 | 3 | Commercial and Industrial Property Tax Rollback | $187.7 |
| Charitable Organization Support | $388.5 | 4 | Religious, Literary, and Charitable Societies' Property | $356.3 |
| Consumer Benefit | $2,723.4 | 2 | Residential Classification Valuation Rollback | $2,493.9 |
| Environmental Support | $116.3 | 6 | Wind Energy Conversion Property | $103.2 |
| Government | $255.8 | 5 | Municipal and Military Property | $210.5 |
| Military/Veterans' Support | $1.8 | 8 | Military Service Exemption and Credit | $1.8 |
| Natural Resources Support | $23.8 | 7 | Forest and Fruit-Tree Reservations | $22.2 |
| Total | $9,377.4 | | Total | $7,400.6 |

*Local government estimates pertain to 2018 property assessments, with expenditures realized in fiscal year 2020.
**Tax type is property tax.

## Top Five Tax Expenditures by Tax Type

Table 2 presents the top five expenditures by tax type. This is provided to give a quick overview of how each tax type is impacted by tax expenditures, relative to other tax types. The top expenditure category estimate will be covered briefly in the discussion of each tax type below.

## Table 2. Top Five Tax Expenditures by Tax Type*

| Expenditure Name | Expenditure Category | Estimated Amount ($ Millions) |
|---|---|---|
| **Individual Income Tax** | | |
| Federal Deductibility | Administrative | $821.6 |
| Pension Contributions and Earnings in 401(k) Plans | Retirement Support | $649.4 |
| Indexation of the Tax Brackets | Administrative | $565.0 |
| Pension Contributions and Earnings in Employer Plans | Retirement Support | $525.4 |
| Capital Gain-Home Sales Exclusion | Individual Benefit | $145.2 |
| | | $2,706.6 |
| **Corporate Income Tax** | | |
| Fifty Percent Deduction of Federal Tax | Administrative | $38.0 |
| Foreign Dividends | Administrative | $27.7 |
| Tax Free Like-Kind of Exchanges | Business Incentive | $2.2 |
| Alternative Minimum Tax Exemption | Administrative | $0.6 |
| Corporate Charitable Contributions | Charitable Organization Support | $0.5 |
| | | $69.0 |
| **Tax Credits** | | |
| Research Activities Tax Credit | Business Incentive | $77.4 |
| Earned Income Tax Credit | Family Support | $72.3 |
| S-Corporation Apportionment Tax Credit | Administrative | $50.9 |
| Historic Preservation and Cultural and Entertainment District Tax Credit | Community Development Support | $24.5 |
| Iowa Industrial New Jobs (260E) Withholding Tax Credit | Business Incentive | $23.9 |
| | | $249.0 |
| **Sales and Use Taxes** | | |
| Resale of Tangible Personal Property | Administrative | $3,342.4 |
| Medical Services | Consumer Benefit | $693.3 |
| Gambling Boat Games and Admissions | Business Incentive | $574.0 |
| Construction Services | Business Incentive | $492.2 |
| Food Sales for Human Consumption | Consumer Benefit | $477.3 |
| | | $5,579.2 |
| **Property Taxes** | | |
| Agricultural Classification Valuation | Agriculture Support | $4,025.0 |
| Residential Classification Valuation Rollback | Consumer Benefit | $2,493.9 |
| Agricultural Classification Valuation Rollback | Agriculture Support | $680.4 |
| Agricultural Produce | Agriculture Support | $461.6 |
| Religious, Literary, and Charitable Societies' Property | Charitable Organization Support | $356.3 |
| | | $8,017.2 |

* Estimates generally pertain to tax year 2020. Tax Credits may be applicable to more than one tax type.

# Tax Base Descriptions and History

A general description of the current tax base and rates and a short history are provided below. These descriptions cover the taxes considered in this study. Detailed tax expenditure estimates for each tax type are found in Tables 3 through 7 (attached).

**Individual Income Tax**

The Iowa individual income tax was enacted in 1934 and is imposed on Iowa net income of individuals, estates, and trusts. Individuals may also be subject to a minimum tax and a tax on lump-sum distributions from qualified retirement plans.

For the Iowa individual income tax, adjusted gross income is calculated in much the same way as for federal income tax purposes. This means that Iowa net income generally conforms to federal definitions of sources included in income as well as adjustments to gross income. The history of individual income tax rates and tax brackets is presented in the table below.

## History of Iowa Individual Income Tax Rates and Brackets

| Tax Year | Rates and Income Tax Bracket |
|---|---|
| 1934 | Graduated rates imposed ranging from 1.0% to 5.0% over 5 taxable income brackets with a top bracket of $4,000 |
| 1953 | Rates lowered to range from 0.75% to 3.75% over 5 taxable income brackets with top bracket raised to $5,000 |
| 1955 | Rates increased to range from 0.8% to 4.0% over 5 taxable income brackets with the top bracket lowered to $4,000 |
| 1957 | Rates lowered to range from 0.75% to 3.75% over the same taxable income brackets |
| 1965 | Rate changed to range from 0.75% to 4.5% over 6 taxable income brackets with the top bracket of $9,000 |
| 1967 | Additional bracket and new top 5.25% rate introduced. |
| 1971 | Rates increased on all brackets except lowest two, rates ranging from 0.75% to 7.0% |
| 1975 | Rates ranging from 0.5% to 13.0% over 13 taxable income brackets with the top bracket of $75,000 |
| 1979 | One-time indexation of brackets, raising top bracket to $76,725 |

| Tax Year | Rates and Income Tax Bracket |
|---|---|
| 1987 | Rates changed to 0.4% to 9.98% over 9 taxable income brackets with the top bracket of $45,000 |
| 1996 | Annual indexation of brackets instituted |
| 1999 | All tax rates cut 10% with a range of 0.36% through 8.98% over 9 taxable income brackets with the top bracket of $51,660 |
| 2019 | All tax rates cut with a range of 0.33% through 8.53% over 9 taxable income brackets with a top bracket of $73,710 (indexed annually) |

Features that distinguish Iowa's individual income tax from federal individual income tax include:

- The ability of married taxpayers to file separately on the same return, which eliminates the "marriage penalty" that would otherwise be encountered by many married taxpayers;

- Personal and dependent credits, where the impact on tax liability is equal regardless of taxpayers' income, instead of personal exemptions, where the impact on tax liability varies with the taxpayers' marginal tax rate;

- For Iowa residents, only single individuals with Iowa net income over $9,000, and other filers with Iowa net income over $13,500, are required to file tax returns. For nonresidents, Iowa returns only have to be filed by those with over $1,000 Iowa net income. For single taxpayers aged 65 or older, the filing threshold is $24,000 and for married taxpayers with one spouse aged 65 or older, the filing threshold is $32,000;

- A 100 percent deduction for federal income tax payments, reduced by federal refunds of prior federal payments received during the tax year.

Individual Income Tax Results

In tax year 2019, the latest year for which most returns are available, 1.64 million Iowa individual income tax returns were filed. The total tax liability reported on returns was $3.63 billion, with nearly 94 percent attributable to residents.[4]

Estimated tax expenditures for individual income in tax year 2020 are found in Table 3. Total estimated individual income tax expenditures are $4,068.7 million. This includes $318 million in tax credits claimed on a separate line on the IA 1040. (Tax credits that are

[4] 2019 Individual Income Tax Statistical Report, Table 4.

claimed in the IA 148 form are accounted for separately in the "Tax Credits" section of this report and in Table 5, attached.) The largest individual income tax expenditure was deductibility of federal income tax, estimated at $821.6 million. This is considered an administrative expenditure.

**Corporation Income Tax**

The Iowa corporation income tax was enacted in 1934 and generally uses federal definitions of business income and deductions. The history of corporate income tax rates and tax brackets is presented in the table below.

**History of Iowa Corporation Income Tax Rates and Brackets**

| Tax Year | Rate and Income Tax Bracket |
|---|---|
| 1934 | Flat rate of 2.0% |
| 1955 | Rate increased to 3.0% |
| 1957 | Rate lowered to 2.0% |
| 1959 | Rate increased to 3.0% |
| 1965 | Rate increased to 4.0% |
| 1967 | Additional rates increased with 3 taxable income brackets:<br>Up to $25,000 – 4.0%<br>$25,000 to $100,000 – 6.0%<br>Over $100,000 – 8.0% |
| 1971 | Up to $25,000 – 6.0%<br>$25,000 to $100,000 – 8.0%<br>Over $100,000 – 10.0% |
| 1981 - 2020 | Up to $25,000 – 6.0%<br>$25,000 to $100,000 – 8.0%<br>$100,000 to $250,000 – 10.0%<br>Over $250,000 – 12.0% |

The starting point for the determination of tax liability for Iowa corporate income tax is net income from the federal return. Corporations that have sales both within Iowa and outside the State only owe tax on a portion of income based on the ratio of sales within Iowa to total sales nationally. Basing Iowa's apportionment formula exclusively on sales is believed to provide a competitive advantage in attracting new business to the state, particularly manufacturers.

Other significant features of Iowa's corporation income tax include:

- No nationwide combined reporting,
- A deduction for 50 percent of federal tax payments less refunds received,
- Allowing operating losses to be carried forward 20 years, and
- Excluding foreign dividends from taxable income.

Corporate Income Tax Results

In tax year 2018, the latest year for which these data are available, 20,410 C-corporations filed Iowa corporation tax returns; 13,616 (66.7%) of these corporations were domiciled within Iowa, and accounted for $135.1 million of total tax liability, or about 28 percent. The remaining 6,794 corporate filers were domiciled outside the state, and accounted for $351.3 million of the tax liability. The total tax liability of C-corporations for tax year 2018 was estimated at $486.3 million.[5]

Estimated tax expenditures for corporate income are found in Table 4, attached. Total estimated corporate income tax expenditures for tax year 2020 are $69.3 million. The largest expenditure was for the fifty percent deduction of federal tax, estimated at $38.0 million, an administrative expenditure. Three of the top five corporate income tax expenditures are administrative in nature.

**Tax Credits**

A tax credit is an amount deducted from a taxpayer's liability to decrease the amount of tax owed to the State. Iowa has two types of tax credits, nonrefundable and refundable. If a nonrefundable tax credit exceeds a taxpayer's tax liability, the amount of tax allowed is limited to tax liability and the balance of the credit either expires or can be carried forward to the next tax year. Refundable tax credits can be claimed for the full amount regardless of tax liability; any amount that exceeds tax liability will be paid to the taxpayer as a refund. Tax credits may be applied towards individual income, corporate income, insurance premium, fiduciary, franchise, sales & use, replacement, moneys & credits, and withholding taxes depending on the tax credit type.

[5] Source: IDR Corporation Income Tax Report 2018, Table 4.

Only the Iowa Legislature can enact or repeal tax credits, although some credits have established sunset dates upon enactment. The very first tax credit was the Motor Vehicle Fuel Tax Credit which was enacted in 1973. Since then there have been many tax credits that have been enacted, although some of those tax credits have subsequently been repealed. In tax year 2006, there were 26 nonrefundable and refundable tax credits that could be claimed on the IA 148. That increased to 30 tax credits in tax year 2010, and to at least 42 credits in tax year 2020. (Some credits have been repealed, but are available on a carry-forward basis from prior years' claims.)

The Tax Credit Award, Claim, and Transfer Tracking System (CACTAS) was established in 2005. Prior to the establishment of CACTAS, the Department of Revenue (IDR) did not track the specific tax credits claimed on tax returns. Starting in tax year 2006, IDR required the IA 148 Tax Credits Schedule to be filed by all taxpayers claiming "other nonrefundable" and/or "other refundable" tax credits on their returns. This allows IDR to verify tax credit claims and to accurately report claim information. Every tax credit claim reported on the IA 148 is examined and corrections are made when errors are identified.

Tax Credits Results

The tax credits represented in this study include all credits that were eligible to be claimed during the 2020 tax year using the IA 148 Tax Credits Schedule or on the quarterly withholding return. Estimated tax expenditures for these tax credits are found in Table 5, attached. Total tax expenditures estimated for tax credits claimed in TY 2020 is $437.2 million. The largest expenditure due to tax credits was for the research activities tax credit, estimated at $77.4 million. This credit can be applied to either individual or corporate income, and is a business incentive expenditure. Tax credit expenditures items are detailed in Table 5, attached.

**Sales and Use Taxes**

Both the Iowa sales tax and the use tax were enacted in 1934. Sales tax is imposed on the gross receipts from the sale of tangible personal property sold at retail and of enumerated services. The use tax is meant to complement the Iowa sales tax. The general rule is that a transaction is subject to Iowa use tax when it is completed outside the State but involves tangible personal property sold for use in Iowa. The principle also applies to the sale of taxable services purchased outside of Iowa for use in Iowa. Any transaction where sales tax has been paid, at a rate equal to or higher than the Iowa sales tax rate, is exempt from use tax.

Whereas tangible personal property is considered subject to sales tax unless otherwise exempted, all services are considered nontaxable unless explicitly listed as taxable in the Iowa Code. Iowa taxes more services than some states, but many business services, such as accounting, engineering, and legal services, remain nontaxable.

The sales and use tax rate in 2020 equaled six percent and was applied to most purchases of goods and a select group of services. One percentage point of the Iowa sales and use tax is appropriated to school infrastructure and property tax relief.

Additionally, a local option sales tax may apply with a maximum rate of one percent for a maximum State and local sales tax rate of seven percent. The local option sales tax is a local government tax and is not taken into consideration in the estimates presented. The history of the Iowa sales and use tax rate is presented in the table below.

**History of Iowa Sales and Use Tax Rates**

| Date of Change | Tax Rate |
|---|---|
| April 1, 1934 | 2.00% |
| July 1, 1955 | 2.50% |
| July 1, 1957 | 2.00% |
| October 1, 1967 | 3.00% |
| March 1, 1983 | 4.00% |
| July 1, 1992 | 5.00% |
| July 1, 2008 | 6.00% |

Sales and Use Tax Results

During FY 2020, sales tax, retailers use tax, and consumers use tax receipts reported through tax returns totaled $3,142.6 million.[6] In comparison, total sales and use tax expenditures estimated for FY 2020 are $11,391.5 million, which include exemptions attributable to sales that are not required to be included on tax returns. The largest expenditure attributable to sales and use tax in TY 2020 was $3,342.4 million, for the exemption of taxes on the resale of tangible personal property, an administrative tax expenditure. All estimated sales and use tax expenditures are presented in Table 6, attached.

## Property Tax

In Iowa, the property tax is used only by local government entities that are permitted by State statute to impose the tax. The property tax is levied on the taxable value of real property. The consolidated tax rate differs in each locality and is a composite of county, city, school district, and special levy authorities. Some estimates in this study are presented only in terms of the reduction in taxable property values due to tax exemptions or other special treatment. Other estimates are presented as the estimated change in tax revenue as a result of the exempted values or tax credits. Where feasible, both estimates are presented.

Assessment

Real property is placed in one of five classes: agricultural, residential, multiresidential, commercial, or industrial. Commercial property formerly included buildings containing three or more separate residences, except condominiums, multiple housing cooperatives, and certain non-profit housing. Effective assessment year 2015, however, multiresidential was introduced as a fifth property class, and included some property formerly classified

[6] For Sales and Use tax revenue details, see IDR FY 2020 Annual Report

as commercial. Multiresidential is classified as property that is a mobile home park, manufactured home community, land-leased community, assisted living facility, or that is property primarily used or intended for human habitation containing three or more separate dwelling units.[7] Effective assessment year 2021, the multiresidential property class has been eliminated, and was reclassified as residential. Because this study pertains to valuations for assessment year 2018, however, tax expenditures related to the multiresidential property class will be estimated separately, apart from either commercial or residential.

Most real property is assessed locally by either the county or city assessor. The assessment year starts on January 1 of each calendar year. Every two years in the odd-numbered year, local assessors are required to revalue all real property in their jurisdictions. Also, every two years in the odd-numbered years, the Department of Revenue issues equalization orders. In this process, the Department of Revenue reviews the level of assessment of property within each class of property, excluding industrial. If the aggregate assessed valuation of that class of property is at least five percent above or below the actual valuation of that class of property as determined by the Director as set out in the abstract of assessment, the Department of Revenue orders the equalization of the levels of assessment of that class of property.

Tax base assessment for taxable real property is one hundred percent of market value, except for agricultural property where the tax base is productivity value rather than market value. This difference in valuation is used as one of the measures to estimate the tax expenditure attributable to the agricultural classification valuation method.

Central Assessment

All lands, buildings, machinery, and equipment belonging to electric companies (including rural cooperatives), gas companies (including pipelines), railway companies, and telephone/telegraph companies are assessed by the Department of Revenue and subject to property taxation by local governments.

For assessment years beginning January 1, 1999 and after, central assessment of entities involved in the production, delivery, and transmission of electricity and natural gas was replaced with an excise tax on their production, delivery, and transmission. The excise tax rates vary annually by service area. An annual statewide property tax is also imposed, at a rate of three cents per $1,000 of assessed value, on all property subject to the excise tax.

Equalization

In order to prevent wide variations between assessments statewide of real property in any one class, the equalization process takes place in each odd-numbered year. As the first step of the process, which is carried out in its entirety by the Department of Revenue, the Department conducts a statewide review of the level of assessment of property within each class, except industrial, for every jurisdiction. If the aggregate assessed valuation

[7] Iowa Code section 441.21, subsection 13

of a class of property within a jurisdiction is at least five percent above or below the market value of that class of property as established through statistical analysis and abstract of assessment submissions, equalization of that class of property is required. Equalization is accomplished by increasing or decreasing the aggregate valuations of certain classes of property within jurisdictions by a percentage necessary to adjust the level of assessment to actual value. Equalization orders are restricted to equalizing the aggregate valuations of entire classes of property and may not adjust the valuations of individual properties. Equalization is not considered a tax expenditure but rather an establishment of a tax base.

Rollback

The taxable value of property may be a percentage of the assessed value as a result of statewide limitations on annual growth in assessed value. The statewide limitation on growth is three percent annually (eight percent annually for utilities). Increases in the assessment of residential and agricultural property are tied to each other. The annual increase in each class of property is limited to the smaller of the two increases in either class of property. In November of each year, the Director of Revenue certifies the limitation percentages to county auditors. The rollback percentage is multiplied by the assessed value to obtain the taxable value of the property less any exemptions or partial exemptions. The reduction in taxable value of the property due to the annual rollback is used to estimate the value of certain tax expenditures in Table 7, and the rollback rates are presented below.

Tax Base and Rates

Tax levy rates are expressed in dollars and cents per $1,000 of assessed valuation. The property tax due and payable in a fiscal year is determined by multiplying the consolidated levy rate by the taxable value of the property. The assessed value of the property is that determined as of January 1 of the year preceding the year in which the fiscal year begins, i.e., 18 months prior, adjusted by the applicable rollback. The consolidated levy rate is the total levy rates of all levy-authority jurisdictions in which the property is located.

The levy rates and rollback rates applicable to Assessment Year 2018 are listed below. The total rates are based on the average of all property classifications' rollback percentage and tax levy per $1,000 of taxable valuation.

**Assessment Year 2018 Property Tax Rollback Percentage and Tax Levy per $1000**

| Property Classification | Rollback % | 2018 tax levy per $1000 |
|---|---|---|
| Agricultural Land And Structures | 56.1324% | $24.97030 |
| Ag Dwelling Realty | 56.9180% | $34.45441 |
| Residential Realty | 56.9180% | $34.45441 |
| Commercial Realty | 90.0000% | $37.23209 |
| Industrial Realty | 90.0000% | $31.28531 |
| Multiresidential Realty | 75.0000% | $37.90968 |
| | 63.1389% | $32.15060 |

Property Tax Expenditures Results

Estimated tax expenditures for property due to exemptions and assessment rollbacks are found in Table 7, attached. Total property tax expenditures for TY 2020 are estimated at $9,377.4 million. The largest expenditure was agricultural classification valuation, estimated at $4,025 million. In all, three of the top five property tax expenditures are in the agriculture support category.

Table 7 also displays the estimated changes in property assessment value due to the application of lower assessment rates, compared to other property in the same (or similar) classification. Estimated differences in property valuation totaled $291.5 billion in TY 2020. The largest difference in valuation as a result of applying a lower valuation rate was attributable to agricultural classification valuation, which was $160.7 billion, or over half of the total $291.5 billion in valuation reduction.

# Conclusion

The impact of tax expenditures on General Fund revenue varies by tax type and expenditure category. In terms of tax expenditures categories, the highest amount of expenditures is attributable to administrative tax expenditures, at $5,703.2 million, followed by consumer benefit tax expenditures at $3,631.7 million (see Table 1a).

As shown in Table 2, the tax type with the highest impact to the General Fund is sales and use taxes, with the top five expenditures in excess of $5,579.2 million, most of which is attributable to the exemption of sales tax from the resale of tangible personal property, with a total of $3,342.4 million. The next highest impact to the General Fund is attributable to individual income tax expenditures, with federal tax deductibility constituting the single highest expenditure at $821.6 million. Results for all individual income tax expenditures are displayed in Table 3, while corporate income, tax credits, and sales and use tax expenditures are enumerated in Tables 4, 5, and 6, respectively.

Also shown in Table 2 is the property tax top five tax expenditures total of $8,017.2 million, where the impact is to local governments rather than the General Fund. The single highest property tax expenditure is agricultural classification valuation at $4,025 million. This is due to the tax rate being assessed on the productivity value of farmland rather than the market value. Residential classification valuation rollback is next highest at $2,493.9 million. Results for all property tax expenditures are found in Table 7.

In all, the impact to the General Fund was estimated at $15,966.7 million, and impact to local governments was estimated at $9,377.4 million for tax year 2020.

## Tax Features that Alter the Timing of When Revenues or Expenses Are Realized

**(Not Treated as Tax Expenditures in this Study)**

Firms are allowed to deduct the costs of doing business when determining taxable income. These business expenses often include the purchase of long-lived assets such as buildings or machinery. Because these assets have value to the firm in more than one tax period, tax law requires that the costs of these assets be deducted over the life of the asset. For certain types of assets, tax policies are often changed to speed the deduction of expenses, therefore redistributing taxes, across periods. For example, allowing certain assets to be expensed in the year of purchase creates a large deduction in the first year, but higher taxes are paid in subsequent years because no further deduction is available. Such policies theoretically do not reduce lifetime tax receipts related to the firm's purchase of an asset; rather, they only reduce revenues to the State through the opportunity cost of when those tax revenues are received. These policies are not treated as tax expenditures for this study.

Examples of policies that alter the timing of when expenses are deducted from taxable income and thus move tax receipts across tax periods are:

- 50% bonus depreciation
- amortization of start-up costs
- corporate farm exceptions to accrual
- accelerated depreciation on buildings
- accelerated depreciation on machinery and equipment
- expensing of certain agricultural capital outlays
- expensing of multi-year agricultural costs
- expensing of multi-year timber costs
- expensing of small capital investments
- expensing of soil and water conservation
- increased Section 179 expensing
- rapid amortization for reforestation
- speculative shell building depreciation.

Likewise, tax policies that alter the timing of when revenues are realized as income are also not treated as tax expenditures. Examples of such policies are:

- corporate farm exceptions to accrual
- installment sales income deferral.

# Appendix II

## 2020-2021 Legislative Updates Excluded from Tax Expenditures Estimates

Several laws pertaining to tax expenditures were enacted in the 2020-2021 Iowa legislative session that were made retroactive to income or expenses relating to tax year 2020 or earlier. Such expenditures were not included in this study.

Examples include:

- Iowa COVID-19 Grant Income Tax Exclusion (retroactive to tax year 2019 and 2020 returns). Includes 24 Qualifying COVID-19 Grant Programs.

- Payroll Protection Program (PPP) (retroactive to 2019).

- Broadband Grant Exemption. The Act took effect June 29, 2020, and applies retroactively to tax years beginning on or after January 1, 2019.

- Iowa Income Exclusion — Stimulus Checks (tax years beginning in the 2020 calendar year).

# *TAX EXPENDITURE REPORT*

*Calendar Year 2024*

Prepared by
Kansas Department of Revenue
Mark A. Burghart, Secretary of Revenue

# Introduction

The Kansas Department of Revenue has compiled this report to indicate the fiscal impact of exemptions, credits, deductions, modifications, and exclusions relating to the following taxes and programs:

- Individual, Fiduciary and Corporate Income, Privilege Taxes;
- Retailers' Sales Tax Exemptions;
- Mineral Taxes;
- Motor Fuel Taxes;
- Homestead;
- Food Sales Tax Refund; and
- Kansas IMPACT.

This report shall be a working document. It is our hope and intention that this report will continue to develop and provide information to the Governor, Kansas Legislature and the citizens of the state of Kansas to allow for the making of informative analysis and decisions.

This report covers expenditures for the calendar year of 2024.

# SUMMARY

| PROGRAM | TAX EXPENDITURE |
|---|---|
| Kansas Addition/Subtraction Modifications (PY 2024-Income & Privilege) | $94,623,363 |
| Kansas Tax Deductions (PY 2024-Income & Privilege) | ($902,440,651) |
| Kansas Tax Credits (PY 2024 Income & Privilege) | ($792,774,112) |
| Kansas Sales Tax Exemptions (FY 2025) | ($9,000,660,000) |
| Mineral Tax (FY 2025) | ($61,593,839) |
| Motor Fuel Tax (CY 2024-Diesel, Gas, Gasohol) | ($616,540,994) |
| Homestead Refund, Safe Senior, SVR Programs (TY 2023) | ($27,444,300) |
| Food Sales Tax Credit Program (TY 2023) | ($6,577,467) |
| IMPACT (FY 2025) | ($20,000,000) |
| | **($11,333,408,000)** |

A positive number in the tax expenditure column represents enhanced state tax revenues. A negative number in the tax expenditure column represents foregone revenue.

**Year Enacted:** 1933
**Statutory Citation:** K.S.A. Chapter 79, Article 32

A Kansas resident is required to file an individual income tax return if:

- They are required to file a federal income tax return, or
- Their Kansas adjusted gross income is more than the total of their Kansas standard deduction and exemption allowance.

The Kansas income tax is imposed on the entire income of every resident individual. Nonresidents of Kansas are taxed on income derived from Kansas sources.

Kansas begins its individual income tax calculation with federal adjusted gross income. This connection to the federal tax code adopts many of the tax expenditures that exist at the federal level. Any special provisions allowed by the federal government that reduce adjusted gross income will flow through to the Kansas tax return, thereby resulting in lower Kansas tax collections. The majority of these special provisions at the federal level are not specifically enumerated in this report. This report will provide the cost of several addition/subtraction modifications to federal adjusted gross income.

Kansas law allows a taxpayer to claim a standard deduction or itemized deductions and allows for a personal exemption deduction.

For tax years 2018 through 2023, married individuals filing joint returns with taxable income of $5,000 or less, and all other individuals with taxable income of $2,500 or less, shall have a tax liability of zero.

For process year 2024, tax year 2023, Kansas income tax was imposed as follows:

Schedule I-Married Filing Joint

| If Kansas taxable income is: | The Tax is: |
|---|---|
| Not over $30,000 | 3.1% of Kansas taxable income |
| Over $30,000 but not over $60,000 | $930 + 5.25% of excess over $30,000 |
| Over $60,000 | $2,505.50 + 5.7% of excess over $60,000 |

Schedule II-Single, Head of Household, or Married Filing Separate

| If Kansas taxable income is: | The Tax is: |
|---|---|
| Not over $15,000 | 3.1% of Kansas taxable income |
| Over $15,000 but not over $30,000 | $465 + 5.25% of excess over $15,000 |
| Over $30,000 | $1,252.50 + $5.7% of excess over $30,000 |

Modifications and deductions have been separately stated according to resident filers and nonresident filers. Nonresident filers of Kansas in many cases have a small percentage of income from Kansas

sources. As a nonresident, a taxpayer must apply a nonresident percentage to come up with an actual Kansas tax liability. The tax expenditures presented for nonresident filers apply this percentage in order to provide the reader with truer cost of expenditures associated with these filers.

## FIDUCIARY INCOME TAX

The fiduciary of a resident estate or trust must file a Kansas fiduciary income tax return if the estate or trust had any taxable income and/or there is withholding tax due for the nonresident beneficiaries. The fiduciary of a nonresident estate must file a Kansas fiduciary income tax return if the estate or trust had taxable income or gain derived from Kansas source.

Kansas begins its fiduciary income tax calculation with federal taxable income and allows for several addition/subtraction modifications.

For process year 2024, tax year 2023, Kansas fiduciary income tax was imposed as follows:

| If Kansas taxable income is: | The Tax is: |
|---|---|
| Not over $15,000 | 3.1% of Kansas taxable income |
| Over $15,000 but not over $30,000 | $465 + 5.25% of excess over $15,000 |
| Over $30,000 | $1,252.50 + $5.7% of excess over $30,000 |

# CORPORATE INCOME TAX

**Year Enacted:** 1933
**Statutory Citation:** K.S.A. Chapter 79, Article 32

All corporations doing business within or deriving income from sources within Kansas that are required to file a federal income tax return, shall also be required to file a Kansas corporate income tax return

Kansas begins its corporate income tax calculation with federal taxable income. This connection to the federal tax code adopts many of the tax expenditures that exist at the federal level. Any special provisions allowed by the federal government that reduce taxable income will flow through to the Kansas tax return, thereby resulting in lower Kansas tax collections. The majority of these special provisions at the federal level are not specifically enumerated in this report. This report will provide the cost of several addition/subtraction modifications to federal taxable income. Kansas law allows certain deductions in arriving at Kansas taxable income.

Corporations not based in Kansas in many cases have a small percentage of income from Kansas sources and use a three-factor formula of payroll, sales and property to determine the amount of income apportioned to Kansas. The tax expenditures presented for corporations not based in Kansas have had the apportionment percentage applied in order to provide the reader with truer cost of expenditures associated with these filers.

For process year 2024, tax year 2023, the normal tax for Kansas corporate income tax is imposed at the rate of 4% and a surtax at the rate of 3% is imposed on those corporations where the Kansas taxable income is in excess of $50,000.

**Year Enacted:** 1963
**Statutory Citation:** K.S.A. Chapter 79, Article 11

Every national banking association, bank, trust company, federally chartered savings bank, and savings and loan association located or doing business within the state shall be required to file a privilege tax return and pay a tax according to or measured by its net income for the next preceding taxable year.

Kansas begins its privilege tax calculation with federal taxable income. This connection to the federal tax code adopts many of the tax expenditures that exist at the federal level. Any special provisions allowed by the federal government that reduce taxable income will flow through to the Kansas tax return, thereby resulting in lower Kansas tax collections. Most of these special provisions at the federal level are not specifically enumerated in this report. This report will provide the cost of several addition/subtraction modifications to federal taxable income. Kansas law allows certain deductions in arriving at Kansas taxable income.

For process year 2024, tax year 2023, a tax consisting of a normal tax and a surtax shall be imposed for privilege tax filers. The normal tax shall be an amount equal to 2.25% of Kansas taxable income and a surtax in an amount equal to 2.125% of Kansas taxable income that is in excess of $25,000 for banks and 2.25% of Kansas taxable income that is in excess of $25,000 for savings & loans and trust companies.

*CONFIDENTIAL-This information is confidential as there are less than 5 filers. This information is not included in the total.

A positive number in the tax expenditure column represents enhanced state tax revenues. A negative number in the tax expenditure column represents foregone revenue.

# KANSAS RETAILERS' SALES TAX

**Year Enacted:** 1937
**Statutory Citation:** K.S.A. Chapter 79, Article 36

Kansas imposes a state retailers' sales tax of 6.50% (effective July 1, 2015), plus local sales taxes on the following:

- Retail sale, rental or lease of tangible personal property;
- Labor services to install, apply, repair, service, alter, or maintain tangible personal property; and
- Admissions to places providing entertainment, amusement, or recreation in Kansas.

Kansas law allows many exemptions from the imposition of sales tax.

| | Legal Exemptions | |
|---|---|---|
| **Statute** | **Description of Exemption or Exclusion** | **FY 2025 ($ in Millions)** |
| 3606 (e) | Property or services purchases by federal government, its agencies or instrumentalities | $ 65.43 |
| 3606 (f) | Property purchased by railroad or public utility for use in the movement of interstate commerce | $ 32.01 |

# KANSAS MINERAL TAX

**Year Enacted:** 1983
**Statutory Citation:** K.S.A. Chapter 79, Article 42

Gas and oil are taxed on the gross value at the time of removal from the earth or water. The tax rate is 8% less property tax credits equal to 3.67%, making the tax rate 4.33% after the credit.

Tax exemptions for oil are based on the average price per barrel, average daily productions, depth of the well, new pools and inactive wells.

Tax exemptions for gas wells are for wells with an average daily production valued at $87 or less, as used for domestic or agricultural purposes on the production unit, and gas from any new pool.

The state general fund receives 93% of the total collection and counties receive the remaining 7%.

Fiscal Year 2025 Mineral Tax Expenditures

| Description | Number of Filers | *Tax Expenditure |
|---|---|---|
| Oil | 33 | ($4,250,552) |
| Gas | 106 | ($6,935,139) |
| Special Co. Mineral Production Fund | -- | ($2,699,881) |
| Mineral Production Education Fund | -- | ($9,376,020) |
| Property Tax Credit | -- | ($38,332,247) |

*Tax expenditure computed using a rate of 4.33%

**Year Enacted:** 1925 – gasoline tax
1941 – special fuels tax
1959 – LP gas tax
1979 – gasohol tax

**Statutory Citation:** K.S.A. Chapter 79, Article 34

A tax is imposed on the use, sale or delivery of all motor vehicle fuels or special fuels that are used, sold or delivered in this state. Distributors are allowed to deduct a 2.5 percent handling allowance on gasoline and special fuels received. No allowances are made on gasoline and special fuels exported from the state or sold to the federal government or its agencies; nor are allowances made on gasoline or special fuels sold or disposed of to consumers in tank cars, transport, or pipeline lots.

Kansas law provides that, unless specifically exempt from sales tax, sale of motor fuels will be subject to the Kansas sales tax if no Kansas excise tax has been imposed. No motor fuel tax is imposed on gasoline or special fuel for the following transactions in Calendar Year 2024:

- export from the state to any other state or territory;

| Fuel Type | Gallons | Tax Rate | Tax Expenditure |
|---|---|---|---|
| CY24 Gasoline/Gasohol | 1,345,857,623 | $0.24 | ($323,005,830) |
| CY24 Diesel | 569,975,943 | $0.26 | ($148,193,745) |
| CY24 E85 | 2,464,928 | $0.17 | ($419,038) |

- sale to the federal government or its agencies (combined below);
- sale to a contractor who performs work for the federal government or its agencies;

| Fuel Type | Gallons | Tax Rate | Tax Expenditure |
|---|---|---|---|
| CY24 Gasoline/Gasohol | 1,819,932 | $0.24 | ($436,784) |
| CY24 Diesel | 534,459 | $0.26 | ($138,959) |
| CY24 E85 | 51,057 | $0.17 | ($8,680) |

- sale which is aviation fuel;

| Fuel Type | Gallons | Tax Rate | Tax Expenditure |
|---|---|---|---|
| CY24 Gasoline/Gasohol | 6,314,550 | $0.24 | ($1,515,492) |
| CY24 Diesel | 51,228,425 | $0.26 | ($13,319,391) |

- first sale or delivery to a duly licensed distributor who resells to another duly licensed distributor, (No numbers available. This exemption merely ensures that double taxation does not occur.);

- sale of indelibly dyed special fuel to be used for non-highway purposes, and

| Fuel Type | Gallons | Tax Rate | Tax Expenditure |
|---|---|---|---|
| CY24 Dyed Diesel | 455,043,089 | $0.26 | ($118,311,203) |

- shrinkage allowance @ 2.5%.

| Fuel Type | Gallons | Tax Rate | Tax Expenditure |
|---|---|---|---|
| CY24 Gasoline/Gasohol | 33,155,887 | $0.24 | ($7,957,413) |
| CY24 Diesel | 12,367,858 | $0.26 | ($3,215,643) |
| CY24 E85 | 110,681 | $0.17 | ($18,816) |

## KANSAS HOMESTEAD REFUND PROGRAM

**Year Enacted:** 1970
**Statutory Citation:** K.S.A. Chapter 79, Article 45

The homestead refund program is a rebate of a portion of the property taxes paid on a Kansas resident's homestead. (Effective January 1, 2013, renters no longer qualify and may not claim a Homestead Property Tax Refund.) If an individual owns their home, the refund is a percentage of the general property tax. In tax years 2023 and 2024, the maximum refund was $700. As a Kansas resident the entire year, an individual is eligible if the total household income is $40,500 or less in tax year 2023; $42,600 or less in tax year 2024, and the individual:

- is 55 years of age or older, OR
- was blind or totally and permanently disabled in calendar year of claim, OR
- had a dependent child under 18 who lived with you all year whom you claim as a personal exemption

A claimant may receive either a Homestead or a SAFE SENIOR refund, but not both. The refund percentage is based on the total household income. In tax year 2023, the Kansas Department of Revenue issued $10,070,318 in homestead refunds to 46,398 homeowners.

## SELECTIVE ASSISTANCE FOR EFFECTIVE SENIOR RELIEF (SAFE SENIOR)

**Year Enacted:** 2008
**Statutory Citation:** K.S.A. Chapter 79, Article 45

Safe Senior is a property tax refund program administered under the provisions of the Kansas Homestead Act (property tax refund). For tax year 2011 and all tax years thereafter, the refund is 75% of the general property tax paid or to be paid. As a Kansas resident the entire year, an individual is eligible if the total household income is $23,700 or less in tax year 2023; $24,500 or less in tax year 2024 and the individual:

- is 65 years of age or older for all of calendar year
- owned a home in Kansas during calendar year

A claimant may receive either a Homestead or a SAFE SENIOR refund, but not both.

During the last reported tax year, the Kansas Department of Revenue issued $9,674,582 in SAFE SENIOR refunds to 7,012 homeowners. This is reported as a part of the total homestead refunds issued.

## HOMESTEAD SENIORS AND DISABLED VETERANS (HOMESTEAD SVR)

**Year Enacted:** 2022
**Statutory Citation:** K.S.A. Chapter 79, Article 45

In 2022, the legislature created a new Homestead SVR program for seniors and disabled veterans, for refund claims to be paid to claimants for the amount by which the claimant's residential property tax exceeds the amount of the claimant's property tax in the claimant's base year. In Tax Year 2023, the maximum household income was $53,600. In Tax Year 2024, the maximum household income was $56,450. During the last reported tax year, the Kansas Department of Revenue issued $7,699,400 in Homestead SVR refunds to 18,561 homeowners.

# KANSAS FOOD SALES TAX CREDIT PROGRAM

**Year Enacted:** 2013
**Statutory Citation:** K.S.A. Chapter 79, Article 32

The food sales tax credit program offers a nonrefundable income tax credit of the sales tax paid on food. To qualify for the program an individual must have lived in Kansas for the entire year and:

- be 55 years of age or older, OR
- was blind or totally and permanently disabled in calendar year of claim, OR
- had a dependent child under 18 who lived with you all year whom you claim as a personal exemption

During the 2022 legislative session, House Bill 2106 was signed into law. It reduced the state sales and compensating use tax rate on food and food ingredients. The bill also sunsets the Food Sales Income Tax Credit at the end of Tax Year 2024.

The food sales tax refund is computed as follows:

| If the qualifying income is: | The refund is: |
|---|---|
| $0 to $30,615 | $125 per number of qualified federal exemptions and must be applied to Kansas tax liability after all other credits. |

In tax year 2023, the Kansas Department of Revenue issued $6,577,467 in food sales tax credits to 48,432 eligible filers.

# KANSAS IMPACT PROGRAM

**Year Enacted:** 1991
**Statutory Citation:** K.S.A. Chapter 74, Article 50

The IMPACT act provides for major project investment to provide financial assistance to defray business costs. IMPACT also provides financial assistance for new job training.

Commencing on July 1, 2021, and on the first day of each month thereafter during fiscal year 2025, fiscal year 2026 and fiscal year 2027, the secretary of revenue shall apply a rate of 2% to that portion of moneys withheld from the wages of individuals and collected under the Kansas withholding and declaration of estimated tax act, K.S.A. 79-3294 et seq., and amendments thereto. The amount so determined shall be credited on a monthly basis as follows: (1) An amount necessary to meet obligations of the debt services for the IMPACT program repayment fund; (2) an amount to the IMPACT program services fund as needed for program administration; and (3) any remaining amounts to the job creation program fund created pursuant to K.S.A. 74-50,224, and amendments thereto. During fiscal year 2025, fiscal year 2026 and fiscal year 2027, the aggregate amount that is credited to the job creation program fund pursuant to this subsection shall not exceed $20,000,000 for each such fiscal year.

In fiscal year 2025, the Kansas IMPACT program expended $20,000,000.

# Executive Summary

The Office of State Budget Director is presenting this Tax Expenditure Report as required by House Bill 6 of the 2024 Regular Session of the General Assembly. This report, which will be delivered to each branch of government, includes detailed estimates of General Fund and Road Fund revenue losses attributable tax expenditures for the current fiscal year (FY26) and next two fiscal years (FY27 and FY28).

House Bill 6 defines "tax expenditure" as: an exemption, exclusion, or deduction from the base of a tax, a credit against the tax, a deferral of a tax, or a preferential tax rate.

This report includes estimates of the amount of revenue loss for each tax expenditure, a citation of the legal authority for the tax expenditure, and a categorization of the data source associated with the estimated amount of the tax expenditure.

A grand total of all tax expenditures, including Tourism credits/subsidies and Tax Increment Financing projects, is as follows:

**FY26: $9,267.7 million**
**FY27: $9,636.6 million**
**FY28: $9,909.3 million**

The purpose of a Tax Expenditure Analysis is to quantify and catalog specific tax reductions that have been established by statute. An item is determined to be a tax expenditure if state tax revenues are reduced because of a specific statute enacted by the Kentucky General Assembly.

Direct budgetary expenditures, or appropriations, are made by distributing funds actually collected by the Commonwealth. Tax expenditures are made by authorizing preferential tax treatment that allows the targeted recipient to retain money or receive refunds that would otherwise be received by the Commonwealth as tax receipts.

Direct expenditures are evaluated during each budget cycle and are approved, adjusted, or rejected during the budget process. State tax expenditures, however, are evaluated and approved primarily at the time of adoption and implementation, unless

the enabling legislation expires, or "sunsets" at some future date. There is no formal process to systematically review or periodically re-evaluate tax expenditures in subsequent years, except through this Tax Expenditure Analysis. While the use of sunsets has increased at the state level in recent years, sunset provisions are much more common at the federal level, thereby forcing Congress to re-examine the efficacy of programs before renewal.

Tax expenditures come in many forms. Tax relief may be granted to specific recipients or perhaps to specific goods or types of transactions. For example, sales tax exemptions usually result in an exemption of a type of taxable property or a type of transaction from taxation. A common example is textbooks in Kentucky. Textbooks are exempt from taxation as a class of tangible personal property regardless of the nature of the transaction. A common example of a transactional expenditure is the gross receipts from the sale of sewer services, water, and fuel to Kentucky residents for use in heating, water heating, cooking, lighting, and other residential uses. In general, Kentucky imposes tax on the sale of electricity, but not if it is used for residential purposes at the owner's primary residence. Regardless of whether the tax expenditure is for exempt property or exempt transactions, these exemptions result in lower revenues to the Commonwealth.

An individual income tax exemption will usually result in lower amounts of tax withheld from employees (or a refund) and a correspondingly lower amount retained by the Commonwealth. Corporate tax expenditures usually result in lower direct tax payments from businesses. Tax expenditures cover these and many more taxes. Whatever the expenditure may be and whatever the tax type involved, tax revenues are directly reduced because of the provisions in statute.

This report itemizes tax expenditures using multiple displays and assists in an annual review of the expenditures. The report briefly explains each tax containing tax expenditures and quantifies the estimated amount of potential tax revenue that is foregone because of the statutory implementation of these expenditures.

The following list describes each major tax type containing tax expenditures, with a brief description of the tax and an estimate of the amount of potential tax revenue not collected because of each tax expenditure.

## Summary of Tax Expenditures for the Major Taxes

- ***Sales and Use Tax*** – The sales and use tax was first levied in its current form in 1960. The tax is collected on retail sales of tangible personal property, digital property, and certain services within the state, at a rate of six percent of the gross receipts. The use tax is imposed on the storage, use or other consumption of tangible property, digital property, or selected services at a rate of six percent of the sales price. For FY25, the sales and use taxes generated $5,821.3 million. Tax expenditures are estimated at $4,020.5 million for FY26.

- ***Individual Income Tax –*** First imposed in 1936, this tax became the most productive revenue source in Kentucky from FY87 through FY24. For tax years beginning on or after January 1, 2019, Kentucky has adopted a flat rate of five percent for net income minus allowable tax credits. The rate was reduced to 4.5 percent for tax year 2023 and was reduced to four percent effective in tax year 2024. The rate is scheduled to be further reduced effective on January 1, 2026, to 3.5 percent. For FY25, this tax generated $5,319.2 million. Tax expenditures for the individual income tax are estimated at $2,405.9 million for FY26.

- ***Property Taxes*** – Kentucky has levied a property tax since becoming a Commonwealth on June 1, 1792. Property is constitutionally assessed at its fair market value with rates that vary depending upon the type of property. For FY25, property taxes generated $839.3 million. Tax expenditures are estimated at $1,310.2 million for FY26.

- ***Multiple Tax Incentive Programs*** – Kentucky has numerous business incentives and credit programs that allow taxpayers to take credits against multiple taxes. In previous versions of this report, these programs were included within the respective tax chapters. This report aggregates these tax expenditures into a single chapter to provide a concise description and estimation of the impact of these programs. Tax expenditures for these programs and incentives are estimated at $581.5 million for FY26.

- ***Corporation Income Tax and Limited Liability Entity Tax*** – The corporate income tax was first assessed in 1936 against the net income attributable to Kentucky. The Limited Liability Entity Tax (LLET) was enacted during the 2006 Extraordinary Session of the General Assembly. The tax base for the

LLET is gross receipts or gross profits, and it applies to all entities that are provided limited liability to owners. The LLET is assessed for the privilege of doing business in Kentucky. The tax applies to taxable periods beginning on or after January 1, 2007. For FY25, the corporation income tax and LLET generated $1,834.5 million. Tax expenditures for these taxes are estimated at $297.3 million for FY26.

- ***Motor Vehicle Usage Tax*** – First assessed in 1936, the motor vehicle usage tax is assessed at rate of six percent of the retail price of motor vehicles. Many people think of this tax as a "sales" tax since the rates are identical, but the usage tax is assessed for the privilege of using a motor vehicle on the public highways of the Commonwealth. As such, the proceeds are deposited in the Road Fund. For FY25, this tax generated $719.5 million. Tax expenditures are estimated at $209.0 million for FY26.

- ***Earmarked Funds*** – These items are included for informational purposes only. Funds collected are not available for the General Fund but are technically not a tax expenditure because the tax is still collected from the taxpayer. Identified earmarked funds that are not deposited into the General Fund are estimated at $184.1 million for FY26.

- ***Inheritance Tax*** – First adopted in 1906, the inheritance tax is assessed against the value transferred to surviving beneficiaries of deceased Kentuckians. The tax rate and the amount subject to tax are based on the "class" of the beneficiary. For FY25, the inheritance tax generated $77.7 million. Tax expenditures for this tax are estimated at $81.0 million for FY26.

- ***Gasoline, Liquefied Petroleum, and Special Fuels Tax*** – First levied in 1920, these taxes are assessed on gallons of gasoline sold in Kentucky. The liquefied petroleum tax was implemented in 1960 as a "companion" to the gasoline tax, and the tax is assessed on gallons sold. The special fuels tax includes fuels other than gasoline that are used in motor vehicles. The floor of the variable gasoline, liquefied petroleum and special fuels rate is 19.6 cents per gallon; if the weighted wholesale price of gasoline rises above $2.177, the variable tax rate rises above the floor. For FY25, these taxes generated $836.4 million. Tax expenditures for these taxes are estimated at $73.3 million for FY26.

- ***Coal and Natural Resources Severance and Processing Tax*** – Assessed on the severance (removal) and processing of coal, the coal severance tax was first imposed in 1972. The tax is assessed at the rate of 4.5 percent of the gross value of the coal, with a minimum of fifty cents per ton. The tax is assessed against the entity severing or processing the coal. Natural Resources severance taxes were first assessed in 1980. These taxes are levied against the gross value of all minerals severed or processed in Kentucky, excluding coal, natural gas, and oil which are taxed separately. For FY25, the combination of all severance taxes generated $88.4 million. Tax expenditures for this tax type are estimated at $27.1 million for FY26.

- ***Alcoholic Beverage Taxes*** – Various excise and gross receipts taxes are assessed on all types of alcoholic beverages. First assessed in 1936, rates vary significantly based on the type of beverage and the percent of alcohol the beverage contains. The tax is paid at the wholesaler or distributor level of the product. For FY25, alcoholic beverage taxes generated $178.7 million in Kentucky. Tax expenditures within these tax types are estimated at $13.0 million for FY26.

- ***Insurance Premiums Tax*** - First adopted in 1942, this tax is assessed on the receipts of premiums collected by insurance companies in the Commonwealth. The rate of taxation varies according to type of insurer, with different rates for life insurers, insurers other than life, and captive insurers (licensed insurers owned by a business entity and offering insurance only to their owners). For FY25, the insurance premiums tax generated $239.2 million. Tax expenditures for these taxes are estimated to total $2.2 million in FY26.

- ***Tobacco Taxes*** – The cigarette tax is a tax on each pack of cigarettes and was first assessed in 1936. The per-pack rate currently equals $1.10 and is composed of the original excise tax of three cents ($0.03), a surtax of $1.06, and a cancer research surtax of one cent ($0.01). The tobacco products tax includes taxes on loose tobacco, cigars, dry snuff, and various smokeless tobacco products. Moist snuff is taxed at the rate of nineteen cents ($0.19) per tin. Chewing tobacco is taxed at nineteen cents ($0.19) per single unit sold, $0.40 per each half pound, or $0.65 per each pound sold. All remaining tobacco products are taxed at 15 percent of the actual distributor price. The taxation of vaping products began in 2019. Closed vapor cartridges are taxed at a rate of $1.50 per cartridge. Open vapor systems are taxed at 15% of the actual distributor sales price. The distributor, wholesaler, or stamping agent pays all tobacco taxes except the final retail sales tax. For FY25, tobacco and vaping taxes generated $281.9 million. The tax expenditures associated with these taxes are estimated at $3.3 million for FY26.

- ***Pari-Mutuel Wagering Taxes*** – First assessed in 1948, pari-mutuel wagering taxes are imposed on live racing, historical horse racing, telephone account wagering, intertrack wagering, simulcasts and interstate wagering under the jurisdiction of the Kentucky Horse Racing Commission. For FY25, pari-mutuel taxes generated $74.2 million. Tax expenditures are estimated to be Minimal for FY26.

- ***Tax Increment Financing and Tourism Development Act*** – The funding mechanism for Tax Increment Financing (TIF) projects typically involves the individual income tax, sales and use tax, and property taxes; the pledge of these aforementioned revenue sources may be in amounts equal to the cost of public infrastructure created by the new development.

  In addition to the certification of TIF projects, the Office of State Budget Director and the Cabinet for Finance and Administration are required to perform similar due diligence regarding the Tourism Development Act (TDA). The funding mechanism for TDA projects is limited to recovery through the sales tax collected at the tourism destination, not to exceed 25 percent of the certified approved cost of construction, as determined by the Tourism Arts, and Heritage Cabinet.

# Introduction

House Bill 6 from the 2024 Regular Session of the General Assembly directs the Office of State Budget Director to prepare estimates of the state tax expenditure.

> ***Tax Expenditure Revenue Loss Estimates:*** *The Office of State Budget Director shall provide to each branch of government detailed estimates for the General Fund and Road Fund for the current and next two fiscal years of the revenue loss resulting from tax expenditures. The Department of Revenue shall provide assistance and furnish data which is not restricted by KRS 131.190. "Tax expenditure" as used in this section means an exemption, exclusion, or deduction from the base of a tax, a credit against the tax, a deferral of a tax, or a preferential tax rate. The estimates shall include for each tax expenditure the amount of revenue loss, a citation of the legal authority for the tax expenditure, the year in which it was enacted, and the tax year in which it became effective.*

The reporting of tax expenditures was incorporated into the federal budget process through the enactment of the *Congressional Budget and Impoundment Act* in 1974. This Act requires the President to report on tax expenditures in the budget and requires Congressional committees to provide tax expenditure estimates for each tax bill they report. Through the process, legislators may recognize the costs associated with tax expenditures and analyze such measures under comparable scrutiny to traditional budget expenditures.

The Commonwealth of Kentucky began tracking tax expenditures in 1988, when the Finance and Administration Cabinet and the Revenue Cabinet produced the inaugural edition of the Tax Expenditure Report. As stated in the introduction of that report, the purpose of a state tax expenditure analysis is to provide legislators, business groups, government officials and other interested persons, information about the various tax expenditures existing in the Kentucky Revised Statutes. This information was collected to permit the review and evaluation of the numerous tax expenditures in much the same manner as that used for the review of direct outlays of government funds during the normal budgetary process.

Tax expenditures differ from normal budget expenditures in that normal budget expenditures are explicitly appropriated on an annual or biennial basis as part of the budgetary process. Tax expenditures are approved by the legislature and then become a permanent part of a state's tax laws until modified by future sessions of the General Assembly. As a result, tax expenditures have a tendency to become an increasingly larger part of state government expenditures without the need for explicit approval by succeeding legislatures. That is, once a tax expenditure has been adopted, future balance sheets of legislative sessions do not explicitly account for these revenue losses.

***What are tax expenditures***

Tax expenditures are provisions such as special exemptions, exclusions, deductions, credits, deferrals, and preferential rates in tax law that result in a loss of tax revenue. House Bill 6, enacted by the General Assembly during the 2024 Regular Session, defines the term "tax expenditure" to mean an exemption, exclusion, or deduction from the base of a tax, a credit against the tax, a deferral of a tax, or a preferential tax rate.

Not all deductions and exemptions allowed pursuant to the revised statutes are classified as tax expenditures. Tax expenditures could be thought of as deviations from the "normal" or "appropriate" tax structure. For example, a business income tax is normally levied on net income, after reducing gross income by the customary expenses incurred to produce that income. Consequently, many business expenses are not tax expenditures. Similarly, sales tax is usually levied on retail sales of tangible property. Therefore, the failure to tax sales for resale, wholesale sales, or sales of certain services do not create a tax expenditure because these classes of transactions are incongruous with the philosophical underpinnings of a retail sales tax. However, actual income that is exempted because of special circumstances, such as retirement income, would be considered a tax expenditure because all types of individual income, in general, are subject to taxation.

***The importance of tracking tax expenditures***

Tax expenditures are increasingly used to encourage certain legislatively-desired outcomes or to provide financial benefit to taxpayers in certain circumstances. The unintended side effect is an increase in the complexity of the tax laws. Individual taxpayers, as well as tax experts, have found it difficult to keep informed of these numerous changes. In many cases, the decision to enact tax expenditures leads to less similarity between state and federal laws and ultimately to even more complexity. When tax expenditures are enacted, the resulting tax loss reduces the revenue available to fund other programs through the budget process. Tax expenditures narrow the base of taxation, so unless tax rates are raised or new taxes are enacted, funds available for appropriation are reduced.

Unlike direct appropriations, which must be continuously reviewed and approved by the General Assembly to remain in effect, state tax expenditures are usually not included in this review process. As a result, programs funded through tax expenditures receive priority funding over all other programs because they are automatically deducted from the revenue projections used to formulate the biennial budget. In all probability, some "tax expenditure" programs would not receive the same priority if they had to compete on equal footing during the biennial appropriation process.

A comprehensive review of tax expenditures has value in its own right. Without thorough, long-term reviews, tax policy often becomes overly focused on immediate, short-term problems. In such an environment, more fundamental goals of government may fall by the wayside. For example, day-to-day tax policy issues often involve the analysis of a single tax expenditure designed to address a particular perceived need. When viewed in isolation, a tax expenditure may have considerable merit and be motivated by the best of intentions. However, insular preferences incrementally add to the complexity of the tax code and may threaten its fairness, distort decision-making, and gradually erode the tax base. Before long, the fundamental objectives of a tax system – equity, efficiency, simplicity and adequacy – may be compromised.

Periodic review is necessary because time can dramatically alter the complexion of tax expenditures. Tax breaks for a select and small group of people can quickly grow into expensive entitlements as demographic conditions or economic incentives induce change. Conversely, tax preferences can lose their usefulness as the income or business conditions that undergird the tax expenditure evolve.

Tax expenditure reports are useful tools in the budget process. They offer insight into foregone revenue that could be recovered, allowing budget shortfalls to be closed without resorting to tax rate increases or direct expenditure cuts. Incorporating tax expenditure reports directly into the budget process would enhance the visibility of these fiscal options.

A tax expenditure analysis can be used to evaluate the cost to state government of the many programs funded through tax expenditures. This analysis identifies and explains many of the Kentucky tax expenditures. Estimates of the costs of the tax expenditures were developed from numerous sources and each tax expenditure is labeled to identify the data source used in the calculation.

The data sources are grouped, as follows:

**Kentucky Taxpayer Data** – Kentucky Taxpayer Data includes tax expenditures measured directly from data on a tax form, or other information submitted by taxpayers to the Department of Revenue. Examples would include specific line items from Kentucky tax form 720 or other tax schedules.

**Kentucky Agency Data** – Kentucky Agency Data includes tax expenditures measured using aggregate data obtained from Kentucky governmental agencies. Examples would include Cabinet for Economic Development databases, Department of Revenue reports, etc.

**Kentucky Agency Estimate** – Kentucky agency estimates are produced by an agency within Kentucky government. They typically include tax expenditures estimated using internal, non-public data, agency data, publicly-available data, or other research.

**Federal Agency Data** – Federal Agency data estimates are estimated indirectly using data obtained from Federal agency estimates of economic activity. Examples would include, U.S. Census Bureau Data, U.S. Census Bureau County Business Patterns reports, US Department of Agriculture data, etc.

**Federal Apportioned Estimates** – Federal apportioned estimates are calculated using tax expenditures reported by the Federal government or other entities. These amounts are apportioned to Kentucky based on population, income, or other relevant factors. Examples include information from the Federal Joint Committee on Taxation, the Federal Office of Management and Budget, etc.

***Caveats and interpretations***

Whenever possible, an estimate of the expected value or cost of a tax expenditure that exceeds one hundred thousand dollars ($0.1 million) is included in this report. There are some tax expenditures that cannot be reliably quantified, because of conflicting data or lack of data. Whenever this situation occurs, the value of the expenditure is reported as:

- "Substantial" if its value is expected to be above $25 million. Every attempt was made to use the "Substantial" category very sparingly.
- "Limited" if its value is below $100,000
- "Minimal" if its value is below $10,000

Furthermore, the estimates for each tax expenditure contained in this analysis were made independently, with the assumption that all other provisions of the tax laws remained unchanged and that taxpayer behavior remained constant. This was done because the analysis attempts to measure the costs of the expenditures and not what would happen if one or more were repealed. This analysis should not be viewed as an estimate of the impact of repealing one or more tax expenditures because the estimated cost of the expenditure(s) may not necessarily equal the increased revenue resulting from repeal. Similarly, the costs of two or more expenditures cannot be added together to produce the impact of simultaneous repeal because each was computed without regard to the others. Due to a variety of factors, the combined impact may be more or less than the sum of the individual tax expenditure amounts.

Additionally, while the Commonwealth's income tax statutes specify certain exemptions, exclusions, or deductions from the base of the income tax, Kentucky's income tax computations begin with Federal adjusted gross income (AGI). Consequently, many of the Commonwealth's income tax expenditures are the same as the tax expenditures imbedded in Federal tax law.

***How to read this report***

This report catalogs and aggregates the various tax expenditures by tax type to provide a more concise listing for quicker reference and comparison.

This report also contains the traditional method of identifying each expenditure by statute(s), with an estimate of the impact of that particular item, whether deduction, credit, exemption, rate reduction, or other means utilized to alter or reduce a taxpayer's liability. Each identified tax type includes the following sections:

- ***Current rate structure*** - how the tax is assessed and in what amount;
- ***Tax base*** – what items are taxed in a particular tax category;
- ***Tax due*** - how, when, and where the tax is paid; and
- ***Background*** - a brief history of the tax.

Readers of this report may be inclined to compare current estimates of tax expenditures in this report with estimates in previous editions of the report. Estimates in the previous edition represent a two-year forecast while the current estimates are based on the most up-to-date information available. Several tax expenditure estimates have materially changed since 2023 due to the availability of more detailed and current data. In many instances, the experience of taxpayer behavior regarding the use of deductions, credits, or other benefits can significantly influence the estimates.

Some taxes are allocated to a particular fund or purpose. These items are not listed as tax expenditures. Rather, these allocations are listed under the heading "Earmarked Funds" and can be found in a dedicated chapter of this publication.

The Office of State Budget Director welcomes your comments and any questions you may have about this report. We wish to extend our deepest appreciation to Tom Miller, Commissioner of the Department of Revenue, and to the many members of his staff who participated in the data collection process of this project also other departments within State Government. Without their assistance, this publication would not have been possible:

# Sales and Use Tax

**Current Rate Structure:**
Sales and use taxes are imposed at the rate of 6 percent of gross receipts or purchase price.

**Since our Last Report:**

Enacted legislation in 2025 has added two new tax expenditures. In addition, one item was added that was enacted in 2023 but with an effective date beyond prior reports. Finally, the investment threshold and county population was reduced to allow qualified data centers to be built all around the Commonwealth.

- The first new tax expenditure is a sales tax refund program for certain facility operators and sponsoring entities of entertainment events, with an effective date of July 1, 2025. (HB 775 2025 Regular Session).
- The second new tax expenditure is a sales tax exemption for the sale, use, storage, or other consumption of currency or bullion currency, with an effective date of August 1, 2024. {2025 Regular Session HB 2 (KRS 139.480 (37)}.
- From HB 5 in 2023: Materials and equipment used in the construction of new bourbon warehouses for spending over $20.0 million (2023, HB 5), with the fiscal impact beginning in FY27.
- Expansion of the data centers tax expenditure that reduces the county population and investment thresholds for a qualified data center. (HB 775 2025 Regular Session).

**Tax Base:**
The tax base for the sales tax is gross receipts derived from retail sales of tangible personal property or digital property and sales of statutorily enumerated services. Retail sales are defined as any sale, lease, or rental for any purpose other than resale, sublease, or subrent. The lease and rental of tangible personal property or digital property transferred electronically for a consideration is considered a sale or purchase, the receipts of which are subject to the sales and use tax.

The tax base for the use tax is the purchase price of tangible personal property, digital property, extended warranty services, and other enumerated services purchased for storage, use, or other consumption in Kentucky. The use tax is a “back stop” for sales tax and generally applies to tangible personal property, digital property,

extended warranty services, and other enumerated services purchased outside the state for storage, use, or consumption within the state. The purchaser's liability for the use tax is not completed until the tax has been paid to the state, either by the purchaser or by the retailer from whom the property was purchased. However, the purchaser will not be held liable for the tax provided a receipt is obtained from a retailer engaged in business in this state, or from a retailer authorized to collect Kentucky use tax, showing that the tax was collected by the retailer as a separately stated charge and the receipt is maintained in the purchaser's files.

**Tax Unit:**
The sales tax levied under KRS 139.200 is imposed on gross receipts from the retail sale, lease, or rental price of tangible personal property, digital property, and certain enumerated services in Kentucky. The use tax is an excise tax imposed on the storage, use, or other consumption of tangible personal property, digital property, extended warranty services, and other enumerated services in Kentucky, measured by the purchase price. Every person storing, using, or otherwise consuming in this state tangible personal property, digital property, or an extended warranty service purchased from a retailer is liable for the use tax levied under KRS 139.310.

**Tax Due:**
The tax must normally be reported and remitted on a monthly basis. In some cases, the taxpayer may be permitted to file on a quarterly or annual basis. For most taxpayers, the tax return and payment of the tax liability are due on the twentieth day of the month following the close of the tax period. Large taxpayers must file monthly returns and include an estimate of the first fifteen days of the following calendar month. The return for accelerated filers is due on the twenty-fifth day following the close of the calendar period. The Department of Revenue notifies taxpayers when they have an obligation to file an accelerated return.

**Background:**
Kentucky's first entry into the sales tax field occurred in 1934 when the General Assembly enacted a tax of 3 percent on general retail gross receipts. The tax was subsequently repealed by the 1936 General Assembly.

Kentucky again enacted a sales and use tax effective on July 1, 1960, at the same rate of 3 percent on general retail gross receipts. That rate stood until 1968 when the rate was raised to 5 percent. The rate was subsequently changed in 1990 to 6 percent, where it stands today.

The sales tax is imposed upon all retailers for the privilege of making retail sales of tangible personal property, digital property, and selected services in Kentucky. Except in very rare cases, the retailer must pass the tax along to the consumer as a separate charge and not be absorbed by the retailer. The use tax is imposed on the storage, use, or other consumption of tangible personal property, digital property, extended warranty services, and other enumerated services in Kentucky. Tangible personal property, digital property, and services subject to Kentucky sales tax are not subject to the use tax.

From its inception in 1960 until 1986, the sales and use tax was the most productive tax in the General Fund. In 1986, it was surpassed by the individual income tax until FY24, when the sales and use tax surpassed the individual income tax to become the most productive General Fund revenue source once again in terms of nominal dollars. Reductions to the individual income tax rate, and expansions of the sales tax base to include more enumerated services, both contributed to the sales tax regaining its place as the highest grossing tax in Kentucky. Receipts for FY25 totaled $5,821.3 million. The sales and use tax represented 37.1 percent of total General Fund revenues in FY25.

Recent legislative actions related to the sales and use taxes have been enacted to broaden the base, in particular, additional services and online transactions have been added to the base in growing recognition of the change in consumer consumption patterns. Remote retailers became subject to the sales tax in July 2018. Marketplace providers were brought into the sales tax base in July 2019. The receipts from these categories totaled $265.9 million in FY 2022, $321.7 million in FY 2023, and $352.2 million in FY24. The Marketplace Providers alone show receipts of $174.7 million in FY 2022, $215.5 million in FY 2023, 245.1 million in FY24, and $266.5 million in FY25.

**The total sales and use tax expenditures do not include the cost of excluding services from the sales tax.** Historically, these sales were never included in the tax base in Kentucky, are generally not part of most states' sales tax base and therefore do not meet the technical qualifications of a tax expenditure. However, due to the enactment HB 487 in 2018, HB 354 in 2019, and HB 8 in 2022, more services have been added to the sales tax base. The current list of taxable services includes:

- Accommodation rentals for periods of less than 30 days;
- Sewer services;
- Admissions, except:

1. Admissions to racetracks taxed under KRS 138.480;
2. Admissions to historical sites exempt under KRS 139.482;
3. Admissions to entertainment events taxed under KRS 229.031;
4. Admissions that are charged by nonprofit educational, charitable, or religious institutions and for which an exemption is provided under KRS 139.495; and
5. Admissions that are charged by nonprofit civic, governmental, or other nonprofit organizations and for which an exemption is provided under KRS 139.498;

- Prepaid calling service and prepaid wireless calling services;
- Intrastate, interstate, and international communications services, except pay telephone service; and
- Natural gas distribution, transmission, and transportation services;
- Landscaping services, including but not limited to: lawn care and maintenance services; tree trimming, pruning, or removal services; landscape design and installation services; landscape care and maintenance services; and snow plowing or removal services;
- Janitorial services, including but not limited to residential and commercial cleaning services, and carpet, upholstery, and window-cleaning services;
- Small animal veterinary services, excluding veterinary services for equine, cattle, swine, sheep, goats, llamas, alpacas, flightless birds, buffalo, and hoofed animals like deer;
- Pet care services, including but not limited to grooming and boarding services, pet-sitting services, and pet obedience training services;
- Fitness and recreational sports centers;
- Golf courses and country clubs;
- Overnight trailer campgrounds;
- Bowling centers;
- Industrial laundry services, including but not limited to industrial uniform supply services, protective apparel supply services, and industrial mat and rug supply services;
- Non-coin-operated laundry and dry cleaning services;
- Linen supply services, including but not limited to table and bed linen supply services and non-industrial uniform supply services;
- Indoor skin tanning services, including but not limited to tanning booth or tanning bed services and spray-tanning services;
- Non-medical diet and weight-reducing services;
- Labor and services for certain repair, installation and maintenance of personal property, such as cars;

- Extended warranty services;
- Extended warranty services (Real Property);
- Photography and photo finishing services;
- Photographic services;
- Telemarketing services;
- Public opinion and research polling services;
- Lobbying services;
- Executive employee recruitment services;
- Website design and development services;
- Website hosting services;
- Facsimile transmission services;
- Private mailroom services including:
    1. Presorting mail and packages by postal code;
    2. Address barcoding;
    3. Tracking;
    4. Delivery to postal service; and
    5. Private mailbox rentals;
- Bodyguard services;
- Residential and nonresidential security system monitoring services;
- Private investigation services;
- Process server services;
- Repossession of tangible personal property services;
- Personal background check services;
- Parking services including:
    1. Valet services ; and
    2. The use of parking lots and parking structures;
- Road and travel services by auto clubs as defined in KRS 281.010;
- Condominium time-share exchange services;
- Meeting space for conventions, short-term business uses, entertainment events, weddings, banquets, parties, and other short-term social events;
- Social event planning and coordination services;
- Leisure, recreational, and athletic instructional services;
- Recreational camp tuition and fees;
- Personal fitness training services;
- Massage services, except when medically necessary;
- Cosmetic surgery services;
- Body modification services including tattooing, piercing, scarification, branding, tongue splitting, transdermal and subdermal implants, ear pointing,

teeth pointing, and any other modifications that are not necessary for medical or dental health;
- Laboratory testing services, except testing for medical or veterinary reasons, or testing required for federal, state, or other government-related requirements;
- Interior decorating and design services;
- Household moving services;
- Specialized design services including the design of clothing, costumes, fashion, furs, jewelry, shoes, textiles, and lighting;
- Lapidary services, including cutting, polishing, engraving precious stones;
- Labor and services to repair or maintain commercial refrigeration equipment and systems when no tangible personal property is sold in that transaction including service calls and trip charges;
- Labor to repair or alter apparel, footwear, watches, or jewelry when no tangible personal property is sold in that transaction; and
- Prewritten computer software access services.

Finally, it should be noted that not every exempt transaction or exempt tangible property constitutes a tax expenditure. KRS 139.470 contains exempt transactions that are not included in this report. The same treatment holds for exempt property in KRS 139.480.

**Table 1. Total Sales and Use Tax Expenditures**

| | |
|---|---|
| **FY 2026** | $4,021.4 million |
| **FY 2027** | $4,135.9 million |
| **FY 2028** | $4,242.6 million |

# Tax Expenditures

## 1. Prescription Medicine, Prosthetic Devices and Physical Aids

*Kentucky Revised Statutes 139.472, effective 1971*
Data Source: Kentucky Taxpayer Data

Prescription drug, over-the-counter drugs with a prescription, medical oxygen and oxygen delivery equipment purchased for use in the home, insulin, diabetic supplies, colostomy, urostomy or ileostomy supplies, prosthetic devices, and mobility enhancing equipment, and durable medical equipment are exempt from sales and use tax. Prosthetic devices include artificial limbs, artificial eyes, hearing aids, crutches, and wheelchairs.

**FY 2026** $979.6 million
**FY 2027** $1,022.3 million
**FY 2028** $1,068.3 million

## 2. Food Items

*Kentucky Revised Statutes 139.480(21)*
*First effective 1972, revised 1986, Kentucky Revised Statutes 139.480(22)*
Data Source: Kentucky Taxpayer Information

Food and food ingredients for human consumption are exempt from sales and use tax. This exemption includes all purchases made with food stamps and the exemption for baked goods which became effective July 1, 2004**.** The food items exemption does **not** apply to food sold through vending machines or nonmechanical vending systems, or to prepared food served in restaurants.

**FY 2026** $721.9 million
**FY 2027** $737.0 million
**FY 2028** $751.7 million

### 3. State, Cities, Counties and Special Districts

*Kentucky Revised Statutes 139.470(6), effective 1960 and revised 1976*
Data Source: Kentucky Taxpayer Data

Sales of tangible personal property, digital property, or services to any cabinet, department, bureau, commission, board, or other statutory or constitutional agency of the state, and to cities, counties, and special districts defined in KRS 65.005 are exempt if the property or service is used solely in the governmental function.

**FY 2026** $513.5 million
**FY 2027** $526.4 million
**FY 2028** $537.4 million

### 4. Non-Profit Educational, Qualified Non-Profit Organizations, Charitable and Religious Institutions

*Kentucky Revised Statutes 139.495, effective 1976*
Data Source: Kentucky Taxpayer Data

Sales to resident, nonprofit educational, charitable, and religious institutions qualified for exemption from federal income taxation pursuant to Section 501(c)(3) of the Internal Revenue Code, for use solely within their exempt function, are exempt.

**FY 2026** $442.6 million
**FY 2027** $453.8 million
**FY 2028** $463.3 million

### 5. Residential Utilities

*Kentucky Revised Statutes 139.470(7), effective 1979*
Data Source: Kentucky Agency Data

Sales of electricity, sewer services, water, and fuel to Kentucky residents for use in heating, cooling, lighting, and other residential uses are exempt from sales and use tax.

**FY 2026** $362.4 million
**FY 2027** $362.5 million
**FY 2028** $361.4 million

### 6. Machinery for New and Expanded Industry

*Kentucky Revised Statutes 139.480(10), effective 1960*
*Data Source: Kentucky Agency Data*

Machinery for new and expanded industry that is used directly in manufacturing or processing and is incorporated for the first time into plant facilities in this state, and does not replace machinery in such plant, is exempt.

**FY 2026** $140.0 million
**FY 2027** $146.1 million
**FY 2028** $152.7 million

### 7. Industrial Supply Exemption expanded to include repair, replacement, or spare parts

*Expansion of Kentucky Revised Statutes 139.470(9), effective 2023*
Data Source: Kentucky Agency Estimate

The Kentucky Supreme Court's judgment in Century Aluminum of Kentucky, GP v. Department of Revenue, 664 S.W.3d 546 (Dec. 15, 2022) effectively expanded KRS 139.470(9) by altering the supply exemption from sales and use tax for gross receipts derived from the sale of tangible personal property to a manufacturer or industrial processor. If the property is to be directly used in the manufacturing or the act of industrial processing, then the property is exempt in certain cases -- changing and expanding the Department of Revenue's longstanding administrative treatment.

As a result of the judgment, tangible personal property that qualifies as an exempt supply but for the "repair, replacement, or spare part" exclusion will still qualify as an exempt supply. If all the other criteria for the exemption are met as provided under KRS 139.470(9), the items being consumed in the manufacturing process are exempt even if performing a maintenance function. Examples include lubricating and compounding oils, grease, machine waste, abrasives, chemicals, solvents, fluxes, anodes, filtering materials, fire brick, catalysts, dyes, refrigerants, explosives, and other like items having a useful life of less than one year that are used directly in the manufacturing or industrial processing process. The Department of Revenue will continue to make determinations as to whether the exemption is applicable on a case-by-case basis based upon this expanded interpretation.

**FY 2026** $75.2 million
**FY 2027** $79.6 million
**FY 2028** $82.0 million

### 8. Energy and Energy Producing Fuels

*Kentucky Revised Statutes 139.480(3)(c), effective 1960*
*Data Source: Kentucky Taxpayer Data*

Energy and energy producing fuels used in manufacturing, processing, mining, or refining, to the extent that the cost of the energy or energy-producing fuels used exceeds 3 percent of the cost of production, are exempt. For plant facilities that begin tolling operations after July 1, 2018, the costs of tangible property shall be excluded from the toller's cost of production at a plant facility with tolling operations in place as of July 1, 2018.

**FY 2026** $61.0 million
**FY 2027** $63.2 million
**FY 2028** $65.9 million

### 9. Coal Used in the Manufacture of Electricity

*Kentucky Revised Statutes 139.480(2), effective 1960*
Data Source: Kentucky Agency Estimate

Coal used in the manufacturing of electricity is exempt.

**FY 2026** $55.4 million
**FY 2027** $34.2 million
**FY 2028** $31.7 million

### 10. Admissions to Nonprofit Civic, Governmental, or Other Nonprofit Organizations and Fundraising Event Sales

*Kentucky Revised Statutes 139.495(2)(a)6., effective 2019*
Data Source: Kentucky Agency Estimate

For resident nonprofit, educational, charitable, or religious institutions which have qualified for an exemption from income taxation under Section 501 (c) (3) of the internal revenue code, except as described in KRS 139.497, the sales tax does not apply to:

1. Ongoing retail operations;
2. The sale of admissions; or
3. a. Fundraising event sales.
   b. For the purposes of this category, "fundraising event sales" does not include sales related to the operation of a retail business, including but not limited to thrift stores, bookstores, surplus property auctions, recycle and reuse stores, or any ongoing operations in competition with for-profit retailers.

**FY 2026** $28.3 million
**FY 2027** $29.4 million
**FY 2028** $30.5 million

### 11. Jet Fuel

*Kentucky Revised Statutes 144.132(2), effective 2005*
Data Source: Kentucky Taxpayer Data

Any certificated air carrier which is engaged in the air transportation of persons or property for hire shall be entitled to a credit against the Kentucky sales and use tax paid on aircraft fuel, including jet fuel. Certificated air carriers shall pay the first $1,000,000 in Kentucky sales and use tax due on the purchase of aircraft fuel, including jet fuel. The sales and use tax credit shall be an amount equal to the Kentucky sales and use tax otherwise applicable to the purchase of aircraft fuel, including jet fuel, purchased by the certificated air carrier during each fiscal year, in excess of one $1,000,000.

**FY 2026** $22.7 million
**FY 2027** $23.2 million
**FY 2028** $23.7 million

### 12. Interstate Cargo and Passenger Aircraft, Parts and Supplies

*Kentucky Revised Statutes 139.480(18), effective 1982*
Data Source: Kentucky Agency Estimate

Aircraft and repair and replacement parts therefor, and supplies except fuel, for the direct operation of aircraft in interstate commerce and used exclusively for the conveyance of property or passengers for hire, are exempt.

**FY 2026** $20.9 million
**FY 2027** $21.8 million
**FY 2028** $22.8 million

## 13. Reimbursement of Seller's Collection Costs

*Kentucky Revised Statutes 139.570, effective 1960, amended 2013*
Data Source: Kentucky Taxpayer Data

As reimbursement for the cost of collecting and remitting tax, the taxpayer shall deduct 1.75 percent of the first $1,000 of tax due and 1.5 percent of the tax due in excess of $1,000 if the amount due is not delinquent at the time of payment. The total reimbursement allowed for each seller in any reporting period shall not exceed $50.

**FY 2026** $17.8 million
**FY 2027** $18.2 million
**FY 2028** $18.6 million

## 14. Federal Taxes Imposed on Sales of Tangible Personal Property

*Kentucky Revised Statutes 139.470(18)*
*First effective 1960 Kentucky Revised Statutes 139.470(20)*
Data Source: Federal Agency Data

Manufacturer's excise and import duties imposed by the United States upon or with respect to retail sales are exempt.

**FY 2026** $14.6 million
**FY 2027** $15.0 million
**FY 2028** $15.3 million

## 15. Locomotives and Rolling Stock

*Kentucky Revised Statutes 139.480(1), effective 1960*
Data Source: Kentucky Agency Estimate

Locomotives or rolling stock, including materials for their construction, repair, or modification, or fuel and supplies for the direct operation of locomotives and trains used in interstate commerce are exempt.

**FY 2026** $11.2 million
**FY 2027** $11.3 million
**FY 2028** $11.5 million

### 16. Tombstones and Other Memorial Grave Markers

*Kentucky Revised Statutes 139.480(12), effective 1976*
Data Source: Kentucky Agency Estimate

Tombstones and other memorial grave markers for humans are exempt.

**FY 2026** $8.9 million
**FY 2027** $9.1 million
**FY 2028** $9.5 million

### 17. Building Materials, Fixtures, and Supplies for Sewer and Water Projects

*Kentucky Revised Statutes 139.480(34), effective 2023*
Data Source: Kentucky Agency Estimate

A new exemption was created in 2023 for the purchase of building materials, fixtures, or supplies by a construction contractor if those purchases are for use in fulfilling a construction contract for a governmental sewer or water project. To meet the requirements for exemption, the building materials and fixtures must be permanently incorporated into a structure or improvement to real property. In addition, the eligible supplies purchased must be completely consumed in fulfillment of the water or sewer contract.

**FY 2026** $8.2 million
**FY 2027** $7.5 million
**FY 2028** $6.9 million

### 18. Occasional Sales

*Kentucky Revised Statutes 139.470(3) and 139.010(24), effective 1960*
Data Source: Kentucky Agency Estimate

Casual or isolated sales of property not held or used by a seller in the course of an activity for which the seller is required to hold a seller's permit are exempt. This tax expenditure for occasional sales is related to the tax expenditure for garage and yard sales, but occasional sales do not have the $1,000 transaction value limit that is present for garage and yard sales.

**FY 2026** $8.2 million
**FY 2027** $8.5 million
**FY 2028** $8.7 million

### 19. Semi-Trailers and Trailers

*Kentucky Revised Statutes 139.470(20), effective 2008*
Data Source: Kentucky Agency Estimate

The sales of semi-trailers and trailers as defined by KRS 189.010(12) and KRS 189.010(17) are exempt.

**FY 2026** $8.0 million
**FY 2027** $8.2 million
**FY 2028** $8.4 million

### 20. Medicinal Cannabis

*Kentucky Revised Statutes 139.480(38), effective 2025*
Data Source: Kentucky Agency Estimate

Sales of medicinal cannabis are exempt from sales tax when sold, used, stored, or consumed in accordance with KRS Chapter 218B.

**FY 2026** $7.5 million
**FY 2027** $15.0 million
**FY 2028** $15.2 million

### 21. Sales by Elementary and Secondary Nonprofit, School-Sponsored Clubs and Organizations

*Kentucky Revised Statutes 139.497(1), effective 1984*
Data Source: Kentucky Agency Estimate

Sales made by elementary and secondary schools, nonprofit elementary or secondary school-sponsored clubs and organizations and nonprofit elementary or secondary school affiliated groups such as parent-teacher organizations and booster clubs, 4-H programs and sales made by FFA at their annual convention are exempt.

**FY 2026** $7.3 million
**FY 2027** $7.5 million
**FY 2028** $7.6 million

## 22. De Minimis Standard for Services

*Kentucky Revised Statutes 139.470 (24)*
*First effective June 27, 2019. Amended in HB 8, 2024 Regular Session Effective January 1, 2025*
Data Source: Kentucky Agency Estimate

For persons that first begin making sales of services included in KRS 139.200(2)(g) to (ax) on or after January 1, 2025, gross receipts derived from the sale of those services if the gross receipts are less than $12,000 within the first calendar year of operation. When gross receipts from these services exceed $12,000 in a calendar year:

1. All gross receipts over twelve thousand dollars ($12,000) are taxable in that calendar year; and
2. All gross receipts are subject to tax in subsequent calendar years.

**FY 2026** $7.2 million
**FY 2027** $7.9 million
**FY 2028** $8.5 million

## 23. Procurement, Processing, or Distribution of Blood or Human Tissue

*Kentucky Revised Statutes 139.125, effective 1968*
Data Source: Kentucky Agency Estimate

Whole blood, plasma, blood products, and tissues such as corneas, bones, or organs for the purpose of injecting, transfusing, or transplanting any of them into the human body are exempt.

**FY 2026** $6.8 million
**FY 2027** $7.0 million
**FY 2028** $7.3 million

## 24. Vessels and Maritime Supplies

*Kentucky Revised Statutes 139.483, effective 1966*
Data Source: Kentucky Agency Estimate

Ships and vessels, including their repair and construction, supplies, and fuel used in their operation and supplies consumed by crew members aboard such ships and vessels, used principally in transporting property for hire are exempt.

**FY 2026** $6.0 million
**FY 2027** $6.2 million
**FY 2028** $6.3 million

## 25. Data Center Equipment

*Kentucky Revised Statutes 139.499*
*First effective July 15, 2024, revised effective June 27, 2025*
Data Source: Kentucky Agency Estimate

A data center project meeting the requirements of KRS154.20-220 and is an approved or preliminarily approved company, a certificate of exemption may be issued. Upon receipt of the certificate of exemption, the sales and use taxes shall not apply to the sale, purchase, use, storage, consumption, installation, repair, and replacement of data center equipment.

**FY 2026** $5.0 million
**FY 2027** $15.0 million
**FY 2028** $15.0 million

## 26. Lodgings of Thirty Days or More

*Kentucky Revised Statutes 139.200(2)(a), effective 2009*
Data Source: Kentucky Taxpayer Data

Rooms, lodging or accommodations supplied for a continuous period of 30 days or more to an individual are exempt. Prior to 1992 lodging of 90 days or more were exempt.

**FY 2026** $4.8 million
**FY 2027** $5.0 million
**FY 2028** $5.3 million

## 27. Recycling Machinery and Equipment

*Kentucky Revised Statutes 139.480(22), effective 1991*
Data Source: Kentucky Agency Data

Replacement machinery that will increase the consumption of recycled materials by not less than 10 percent and machinery and equipment purchased or leased by a business, industry or organization in order to collect, source separate, compress, bale, shred or otherwise handle waste materials, if that machinery or equipment is primarily used for recycling purposes, are exempt.

**FY 2026** $4.8 million
**FY 2027** $4.8 million
**FY 2028** $4.8 million

## 28. Textbooks

*Kentucky Revised Statutes 139.480(16), effective 1978*
Data Source: Kentucky Agency Estimate

Textbooks, related workbooks, and other course material purchased for use in a course of study conducted by an institution qualified as a non-profit educational institution are exempt. The term "course materials" means only those items specifically required of all students for a particular course but shall not include notebooks, paper, pencils, calculators, tape recorders, or similar student aids.

**FY 2026** $4.7 million
**FY 2027** $4.8 million
**FY 2028** $4.9 million

## 29. Kentucky Enterprise Initiative

*Kentucky Revised Statutes 154.20-200(6), effective 2005*
Data Source: Kentucky Taxpayer Data

A new statewide tax incentive program replaced the Enterprise Zone program as the enterprise zones expired. It extended to eligible companies the opportunity to receive refunds of sales and use tax paid on the purchase of building materials and research and development materials for tourist attractions, services, technology, manufacturing and company headquarters for any industry. The program gives preference to companies in previous enterprise zones. The minimum investment is $100,000 for companies within the enterprise zone boundaries, $500,000 elsewhere. It also created a statewide cap in each year of $20 million for building materials and $5 million for equipment used in research and development.

**FY 2026** $3.9 million
**FY 2027** $4.0 million
**FY 2028** $4.1 million

### 30. Entertainment Events with Qualifying Attractions

*Kentucky Revised Statutes 139.5325(2), effective 2025*
Data Source: Kentucky Agency Estimate

A sponsoring entity and facility operator shall be granted a sales tax incentive totaling 50% of the Kentucky sales tax generated by the sale of admissions to a qualifying attraction held at a venue, and the sales of tangible personal property and services at the qualifying attraction, including but not limited to the sale of food and beverage concessions, souvenirs, camping, and parking

**FY 2026** $3.8 million
**FY 2027** $4.1 million
**FY 2028** $4.3 million

### 31. Garage or Yard Sales

*Kentucky Revised Statutes 139.496*
*First effective 1976, revised 1990*
Data Source: Kentucky Agency Estimate

Sales and use tax does not apply to the first $1,000 of sales of household items made in any calendar year by an individual not engaged in the business of selling. Prior to July 1, 1990, the exemption applied to the first $500 of sales made in any calendar year.

**FY 2026** $3.8 million
**FY 2027** $4.0 million
**FY 2028** $4.2 million

### 32. Repair or Replacement Parts for Large Trucks

*Kentucky Revised Statutes 139.480(31)(a), effective 2006*
Data Source: Kentucky Taxpayer Data

Repair parts for those trucks and their towed units over 44,001 pounds that are used exclusively in interstate commerce and repair or replacement parts for direct operation and maintenance of charter buses are exempt from sales tax.

**FY 2026** $2.1 million
**FY 2027** $2.2 million
**FY 2028** $2.2 million

## 33. Currency or Bullion

*Kentucky Revised Statutes 139.480(37), effective 2024*
Data Source: Kentucky Agency Estimate

Currency or Bullion are exempt from sales tax. "Bullion" means bars, ingots, or coins, which are made of gold, silver, platinum, palladium, or a combination of these metals; valued based on the content of the metal and not its form; and used, or have been used, as a medium of exchange, security, or commodity by any state, the United States government, or a foreign nation

**FY 2026** $2.0 million
**FY 2027** $1.8 million
**FY 2028** $2.1 million

## 34. Purchases by Historical Sites

*Kentucky Revised Statutes 139.482, effective 1976*
Data Source: Kentucky Agency Estimate

Certain purchases made by an historical site operated by a nonprofit corporation, society, or organization and listed by the United States Department of Interior in the National Register of Historic Places are exempt.

**FY 2026** $1.0 million
**FY 2027** $1.0 million
**FY 2028** $1.0 million

## 35. Donated Goods

*Kentucky Revised Statutes 139.495(3)*
*First effective August 1, 2005, Kentucky Revised Statutes 139.495(5)*
Data Source: Kentucky Taxpayer Data

A sales tax refund equal to 25 percent (up to $1 million) of the tax collected on sales of donated goods by resident, nonprofit, educational, charitable or religious institutions is allowed, if the entity uses the refund exclusively as reimbursement for capital construction costs of additional retail locations in this state.

**FY 2026** $0.9 million
**FY 2027** $0.9 million
**FY 2028** $0.9 million

## 36. Refund on Building Materials Used for Disaster Recovery

*Kentucky Revised Statutes 139.519, effective 2012*
Data Source: Kentucky Taxpayer Data

A legal owner of a building located in a disaster area and damaged, in whole or in part, as a result of a disaster may qualify for a refund of the sales and use tax paid on the purchase of building materials to: (1) repair that building; (2) construct a new building in a disaster area to replace the building damaged or destroyed by the disaster. The refund allowed shall be to the lesser of: 100 percent of the Kentucky sales and use tax actually paid, reduced by the amount of vendor compensation allowed under KRS 139.570: or six thousand dollars ($6,000) for each building in the disaster area which is damaged or destroyed by the disaster regardless of the number of legal owners.

**FY 2026** $0.3 million
**FY 2027** $0.4 million
**FY 2028** $0.9 million

## 37. Sales by Nonprofit Higher Educational School-Sponsored Clubs and Organizations

*Kentucky Revised Statutes 139.495(2)(a)(4), effective 1980*
Data Source: Kentucky Agency Estimate

Sales made by nonprofit school-sponsored clubs and organizations of higher education institutions are exempt provided such sales do not include tickets for athletic events.

**FY 2026** $0.3 million
**FY 2027** $0.4 million
**FY 2028** $0.4 million

### 38. Water Withdrawal Fees Paid to Kentucky River Authority

*Kentucky Revised Statutes 139.470(10), effective 2005*
Data Source: Kentucky Agency Estimate

Any water use fee paid or passed through to the Kentucky River Authority by facilities using water from the Kentucky River basin to the Kentucky River Authority in accordance with KRS 151.700 to 151.730 and administrative regulations promulgated by the Authority shall be excluded.

**FY 2026** $0.3 million
**FY 2027** $0.3 million
**FY 2028** $0.4 million

### 39. Rebate on Sales of Admission and Tangible Personal Property at Governmental Facility

*Kentucky Revised Statutes 139.533(2)(a)&(c), effective 2010*
Data Source: Kentucky Taxpayer Data

A governmental entity may be granted a sales tax rebate of up to 100 percent of the Kentucky sales tax generated by the sale of admissions to the public facility and the sale of tangible personal property at the public facility. The tax rebate shall be reduced by the vendor compensation allowed under KRS 139.570 on or after July 1, 2010. The total tax rebate for each public facility shall not exceed two hundred fifty thousand dollars ($250,000) in each calendar year.

**FY 2026** $0.2 million
**FY 2027** $0.2 million
**FY 2028** $0.2 million

### 40. Charter Bus Repair and Replacement Parts

*Kentucky Revised Statutes 139.480(31)(b)&(c), effective June 27, 2019*
*First effective August 1, 2005, Kentucky Revised Statutes 139.480(32)(b)*
Data Source: Kentucky Taxpayer Data

Repair and replacement parts for directly operating and maintaining a charter bus certified by the Transportation Cabinet are exempt.

**FY 2026** $0.1 million
**FY 2027** $0.1 million
**FY 2028** $0.1 million

### 41. Admissions to Fishing Tournaments and Boat Ramp Fees

*Kentucky Revised Statutes 139.010(1)(b), effective 2019*
Data Source: Kentucky Taxpayer Data

Taxable "Admissions" do not include:

1. Any fee paid to enter or participate in a fishing tournament; or
2. Any fee paid for the use of a boat ramp for the purpose of allowing boats to be launched into or hauled out from the water.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

### 42. Sales to Motion Picture Companies

*Kentucky Revised Statutes 139.538, effective 1986*
Data Source: Kentucky Agency Estimate

Motion picture production companies filming or producing motion pictures in Kentucky are exempt from the tax. The exemption is accomplished by granting a refundable credit of taxes paid on purchases made in Kentucky in connection with the filming or producing of a motion picture in this state.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

### 43. 4-H Sales

*Kentucky Revised Statutes 139.497(2)*
*First effective 1988, revised 1990, revised 2014*
Data Source: Kentucky Agency Estimate

Sales made by nonprofit educational youth programs affiliated with a land grant university cooperative extension service are exempt if the net proceeds from the sales are used solely for the benefit of the affiliated programs.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

## 44. Coin-Operating Bulk Vending Machines

*Kentucky Revised Statutes 139.470(5)*
*First effective 1966, revised 1998*
Data Source: Kentucky Agency Estimate

Bulk vending machine sales of fifty cents or less are exempt from tax. From 1966 to 1986 the exempt sale was one cent. From 1986 until the 1998 legislative change, the amount exempt was twenty-five cents or less.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 45. Construction Expenses for Alternative Fuel or Gasification Facility

*Kentucky Revised Statutes 139.517 and KRS 154.27-070, effective 2007*
Data Source: Kentucky Taxpayer Data

Sales taxes paid on tangible personal property used in the process of constructing retrofitting, or upgrading an alternative fuel, gasification facility, or renewable energy facility, may be refunded at the end of the calendar year. This tax expenditure has only been utilized once since its inception. Due to its underutilization up to the present time, it is not expected to be employed further within the biennium.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 46. Construction Expenses for Near-Zero Emission Power Plants

*Kentucky Revised Statutes 139.537, effective 2009*
Data Source: Kentucky Taxpayer Data

Tangible personal property used to construct, repair, renovate or upgrade a coal-based near-zero emission power plant is exempt from sales tax, including repair and replacement parts.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 47. Interstate Business Communication Service

*Kentucky Revised Statutes 139.505, effective 2005*
Data Source: Kentucky Taxpayer Data

Any business whose interstate communications service, subject to the sales tax imposed under KRS Chapter 139 and deducted for federal income tax purposes, exceeds 5 percent of the business's Kentucky gross receipts during the preceding calendar year is entitled to a refundable credit if the business annual Kentucky gross receipts are equal to or more than $1 million and the majority of the interstate communications service billed to a Kentucky service address for the annual period is for communication service originating outside of this state and terminating in this state.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 48. Marketing Services

*Kentucky Revised Statutes 139.200 and 139.310 (Marketing services were removed from these two spots)*
*First effective January 1, 2023*
Data Source: Kentucky Agency Estimate

Effective 01/01/2023, KRS 139.200 and 139.310 were amended to remove marketing services from the list of enumerated services subject to Kentucky sales and use tax. Therefore, marketing services are no longer subject to tax.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 49. New and Replacement Machinery or Equipment for Energy Efficient Projects

*Kentucky Revised Statutes 139.518(3), effective 2008*
Data Source: Kentucky Taxpayer Data

A manufacturer who purchases machinery or equipment that reduces energy consumption at its facility by 15 percent or more is eligible for a refund of the sales tax on the purchase.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 50. Pay Phones

*Kentucky Revised Statutes 139.200(2)(e), effective 2006*
Data Source: Kentucky Agency Estimate

Communication services furnished via a pay telephone are exempt from sales tax.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 51. Property Certified as a Fluidized Bed Energy Production Facility

*Kentucky Revised Statutes 139.480(19), effective 1986*
Data Source: Kentucky Taxpayer Data

Any sale, use, storage or consumption of tangible property that has been certified as a fluidized bed energy production facility, as defined in KRS 211.390, is exempt.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 52. Sales of Extended Warranty Services, Small Telephone Utilities and CMRS Providers of Communication Services or Broadband

*Kentucky Revised Statutes 139.010(15)(b), effective 2019*
Data Source: Kentucky Agency Estimate

Extended warranty services do not include the sale of a service contract agreement for tangible personal property to be used by a small telephone utility as defined in KRS 278.516 or a Tier III CMRS provider as defined in KRS 65.7621 to deliver communications services or broadband as defined in KRS 278.5461.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## Sales Tax Exemptions for Farmers

### Table 1. Subtotal for Farming Tax Expenditures

**FY 2026** $448.2 million
**FY 2027** $466.0 million
**FY 2028** $476.6 million

The following tax expenditures pertain to the farming industry.

### 1. Livestock, Poultry, Ratite Birds, Llama, Alpaca, Aquatic Organisms, Buffalo, Cervids, Embryos and Semen, Farm Work Stock and Feed, Seeds and Fertilizers

*Kentucky Revised Statutes 139.480(4),(5),(6),(7),(9),(23),(24),(25),(28),(29),(30), effective 1960*
Data Source: Federal Agency Data

Livestock that ordinarily constitutes food for human consumption, provided the sales are made for breeding or dairy purposes and by or to a person regularly engaged in the business of farming; poultry for use in breeding or egg production; embryos and semen used in the reproduction of livestock; and farm work stock for use in farming operations are exempt from the tax. Seeds, feed, and fertilizer, the products of which ordinarily constitute food for human consumption or which are to be sold in the regular courses of business are exempt. Llamas, alpacas, aquatic organisms, buffalo and cervids are also exempt.

**FY 2026** $244.6 million
**FY 2027** $256.3 million
**FY 2028** $259.8 million

### 2. Farm Machinery, Attachments and Replacements, On-Farm Grain Storage Facilities, and On-Farm Facilities for Raising Chickens, Livestock, Ratite Birds, Llamas and Alpacas, and Buffalo

*Kentucky Revised Statutes 139.480(11), effective 1968*
Data Source: Federal Agency Data

Farm machinery and repair and replacement parts for the operation of farm machinery are exempt.

*Kentucky Revised Statutes 139.480(13), effective 1978*
Data Source: Federal Agency Data

On-farm facilities used exclusively for grain or soybean storing, drying, processing or handling, including all construction, renovation, or repair materials, parts, and equipment, are exempt.

*Kentucky Revised Statutes 139.480(14)(23)(25)(28) (29) and (30), effective 1990, 1994, and 1996*
Data Source: Federal Agency Data

On-farm facilities used exclusively for raising livestock, and poultry, the products of which ordinarily constitute food for human consumption, ratite birds, llamas, alpacas, buffalo, aquatic organisms, or cervids including equipment, machinery, attachments, repair and replacement parts, and any materials incorporated into the construction, renovation, or repair of the facility are exempt.

**FY 2026** $66.5 million
**FY 2027** $68.2 million
**FY 2028** $70.7 million

### 3. Farm Chemicals

*Effective 1960 by Administration Regulation, codified Kentucky Revised Statutes 139.480(8),(23),(25),(28),(29),(30), effective 1992*
Data Source: Federal Agency Data

Insecticides, fungicides, herbicides, rodenticides, and other farm chemicals used in the production of crops as a business, or in the raising and feeding of ratite birds, llamas and alpacas, livestock and poultry, buffalo, aquatic organism, or cervids -- the products of which ordinarily constitute food for human consumption are exempt.

**FY 2026** $56.5 million
**FY 2027** $57.4 million
**FY 2028** $58.5 million

### 4. Water Used for Farm Purposes

*Kentucky Revised Statutes 139.480(27), effective 1998*
Data Source: Federal Agency Data

Water sold to persons regularly engaged in the business of farming and used in the production of crops, milk for sale, or raising and feeding livestock, poultry, ratites, llamas, alpacas, buffalo, cervids or aquatic organisms is exempt.

**FY 2026** $19.8 million
**FY 2027** $20.3 million
**FY 2028** $20.7 million

### 5. Fuel Used for Farm Purposes

*Kentucky Revised Statutes 139.480(15), effective 1978*
Data Source: Federal Agency Data

Gasoline, special fuels, liquefied petroleum gas and natural gas used to operate farm machinery, on-farm grain, poultry, livestock, ratite, llama, alpaca, or dairy facilities are exempt.

**FY 2026** $19.3 million
**FY 2027** $20.0 million
**FY 2028** $20.5 million

### 6. Horses Purchased for Breeding

*Kentucky Revised Statutes 139.531(2)(a), effective 1976*
Data Source: Federal Agency Data

The sales and use tax does not apply to horses, interests in horses, or shares in horses, provided the purchase or use is made for breeding purposes only.

**FY 2026** $15.7 million
**FY 2027** $16.4 million
**FY 2028** $17.0 million

### 7. Horses Less Than Two Years of Age

*Kentucky Revised Statutes 139.531(2)(d), effective 1976*
Data Source: Kentucky Agency Estimate

Sales of horses less than two years of age at the time of sale, provided the sale is made to a nonresident of Kentucky, and the horse is transported out of state, either immediately following the sale or immediately following training within the state are exempt**.**

**FY 2026** $12.3 million
**FY 2027** $13.2 million
**FY 2028** $14.6 million

### 8. Farm Drugs and Over-the-Counter Drugs used in the Treatment of Livestock

*Kentucky Revised Statutes 139.480(33), effective 2023*
Data Source: Kentucky Agency Estimate

Drugs and over-the counter drugs, as defined in KRS 139.472, that are purchased by a person regularly engaged in the business of farming and used in the treatment of cattle, sheep, goats, swine, poultry, ratite birds, llamas, alpacas, buffalo, aquatic organisms, or cervids.

**FY 2026** $9.3 million
**FY 2027** $9.8 million
**FY 2028** $10.2 million

### 9. Equine Water

*Kentucky Revised Statutes 139.470(12), effective 1998*
Data Source: Federal Agency Data

Gross receipts from the sale of water used in the raising of equine as a business.

**FY 2026** $2.9 million
**FY 2027** $3.0 million
**FY 2028** $3.1 million

## 10. Aquaculture

*Kentucky Revised Statutes 139.480(29), effective 1998*
Data Source: Federal Agency Data

Aquatic organisms, feed, feed additives, chemicals, on-farm facilities, machinery repairs and replacement parts sold directly to a person regularly engaged in the business of producing products of aquaculture for sale and items necessary for the production of aquatic organisms are exempt.

**FY 2026** $0.8 million
**FY 2027** $0.9 million
**FY 2028** $1.0 million

## 11. Twine and Wire

*Kentucky Revised Statutes 139.480(26), effective 1998*
Data Source: Kentucky Agency Estimate

Baling twine and baling wire used for the purpose of baling hay and straw are exempt, including net wrapping for roll-baled hay.

**FY 2026** $0.5 million
**FY 2027** $0.5 million
**FY 2028** $0.5 million

# Individual Income Tax

Tax liability for the individual income tax is computed based on taxable income. The starting point for Kentucky taxable income is federal adjusted gross income. There are several additions, subtractions, deductions, exclusions, and tax credits that alter federal adjusted gross income. Those alterations to gross income are detailed in this section of the tax expenditure report.

**Calculation Outline:**
Gross Income ➡ Adjusted Gross Income ➡ Net Income ➡ Tax ➡ Tax Liability

Gross Income is the sum of income sources, including salaries, wages, tips, taxable interest, and taxable dividends. All of these income sources are taxed with no allocation or apportionment for out-of-state income. However, there is an allowable credit for taxes paid to other states on that income which is taxed in Kentucky under KRS 141.070. Non-residents are taxed on income from sources within Kentucky, from business occurring within Kentucky. This includes income from business conducted through partnerships, S corporations and limited liability companies.

Adjusted Gross Income is the reduction in Gross Income by allowable exclusions and adjustments. Specifically, Gross Income is converted to Adjusted Gross Income by subtracting the deductions allowed by Section 62 of the IRC, as modified by KRS 141.019 (1) (a) through (p).

Net Income is Adjusted Gross Income less allowable deductions. Allowable deductions are detailed in Chapter 1 of the IRC, KRS 141.0101, and the modifications included in KRS 141.019 (2) (a) through (i). One such deduction is the Standard Deduction. Adjusted Gross Income is reduced by the standard deduction ($3,270 for tax year 2025) or at the option of the taxpayer by itemized deductions. In an attempt to broaden the base of the income tax, the number of itemized deductions in Kentucky was reduced significantly by the enactment of HB 487 during the 2018 Regular Session of the General Assembly and modified by HB 354 in the 2019 Regular Session.

A flax tax rate is applied to Net Income. Tax Liability is equal to the calculated tax less allowable tax credits. Some credits can be applied to corporate, LLET or individual income tax. Taxpayers must use the same accounting period as is used for federal purposes. Taxpayers with income from sources not subject to withholding

must, in most cases, file tax liability declarations and pay estimated tax. Declarations payments are due on April 15th, June 15th, September 15th, and January 15th.

The tax return and payment of any remaining tax liability are due on the fifteenth day of the fourth month following the close of the taxable period, which is April 15 for calendar-year taxpayers. A six-month extension for filing the return is permitted by filing Kentucky tax form 740EXT.

Each individual is taxed on his or her separate income. Married couples may choose to file a joint return. The fiduciary income of estates, trusts, and receivers, which has not been disbursed as a distribution payment, is subject to the same provisions as other individual income.

**Background:**
The individual income tax was first imposed in Kentucky in 1936. From 1943 to 1960, it was the most productive General Fund revenue source. From 1960 through 1986, it was second only to the sales and use tax. From FY87 through FY24, the individual income tax became the largest revenue source for the Commonwealth. In FY25, the sales and use tax once again overtook the individual income tax due to the recent rate reductions that have occurred for the individual income tax. In FY88, the individual income tax became Kentucky's first billion-dollar tax. Collections from the tax totaled $5,319.2 million in FY25. The individual income tax made up 33.9 percent of total General Fund revenues in FY25.

In 1954, Kentucky became the fourth state to adopt a general withholding system. Previously, the law provided for withholding on nonresidents only. The 1954 law also adopted the federal definition of net income, using the Internal Revenue Code as a base, with minor exceptions.

Prior to 1954, Kentucky's income tax was different from the federal tax in many ways. The first adoption of the federal code provided uniformity in determining income and itemized deductions. For example, nothing existed in Kentucky statutes about medical expenses, most business expenses, and qualifications for dependents. Such items are included by reference to the federal code.

In tax year 2018, Kentucky moved from a progressive tax rate structure to a flat tax structure. In 2018, the flat tax rate was 5.0 percent.

In the 2022 Regular Session (HB 8), Kentucky reduced the flat tax rate from 5.0 percent to 4.5 percent on net income less allowable credits for tax years beginning after January 1, 2023. In the 2023 Regular Session (HB 1), Kentucky reduced the flat tax rate from 4.5 percent to 4.0 percent on net income less allowable credits for tax years beginning after January 1, 2024. In the 2024 Regular Session, Kentucky reduced the rate from 4.0 percent to 3.5 percent for tax years beginning after January 1, 2026.

The Kentucky General Assembly periodically adopts many changes in the federal Internal Revenue Code as a basis for generating Kentucky Adjusted Gross Income. Kentucky currently references the Internal Revenue Code in effect on December 31, 2023 for most provisions.

The individual income tax return is filed by individuals, including sole proprietors, shareholders in an S corporation, partners in a partnership, and individual members of a limited liability company.

**Table 2. Total Individual Income Tax Expenditures**

**FY 2026** $2,405.9 million
**FY 2027** $2,558.1 million
**FY 2028** $2,654.1 million

## Individual Income Tax - Exclusions

### 1. Employer Contributions for Medical Insurance and Medical Care

*IRC Section 106, effective 1982*
Data Source: Federal Apportioned Estimates

Gross income does not include employer-provided coverage under a health plan.

**FY 2026** $631.3 million
**FY 2027** $701.1 million
**FY 2028** $740.6 million

### 2. Pension Plans, Retirement Income, and Individual Retirement Accounts

*Kentucky Revised Statutes 141.019(1)(g)(1)(b), effective 2006, modified 2018*
Data Source: Kentucky Taxpayer Data

Up to $31,110 in benefits received by the taxpayer from pension plans, annuity contracts, profit sharing plans, retirement plans, or employee savings plans. Individual Retirement Accounts (IRAs), and Roth IRAs is exempted from income. The exemption changed from $41,110 to $31,110 effective January 1, 2018. "Pension plans, profit sharing plans, retirement plans, or employee savings plans" means any trust or other entity created or organized under a written retirement plan and forming part of a stock bonus, pension, or profit sharing plan of a public or private employer for the exclusive benefit of employees, and includes plans qualified or unqualified under Section 401 of the IRC and IRAs as defined in Section 408 of the IRC.

| **FY 2026** | $378.5 million |
| **FY 2027** | $387.0 million |
| **FY 2028** | $394.8 million |

### 3. Gain on the Sale of a Principal Residence

*IRC Section 121, effective 1964 with various amendments*
Data Source: Federal Apportioned Estimates

A homeowner can exclude from tax up to $250,000 for individuals (or $500,000 for a joint return) of the capital gains from the sale of a principal residence. The exclusion may not be used more than once every two years.

| | |
|---|---|
| **FY 2026** | $145.5 million |
| **FY 2027** | $155.7 million |
| **FY 2028** | $161.8million |

### 4. Pension, Profit-Sharing, and Annuity Plans of Self-Employed Individuals

*IRC Section 404(a)(8), effective 1954*
Data Source: Federal Apportioned Estimates

In the case of an individual who is an employee within the meaning of IRC Section 401(c)(1), pensions, profit-sharing, and annuity plans are deducted from federal gross income.

**FY 2026** $119.6 million
**FY 2027** $125.0 million
**FY 2028** $130.9 million

### 5. Capital Gains - Property Transferred at Death

*IRC Section 1014, effective 1954*
Data Source: Federal Apportioned Estimates

No tax is imposed on capital gains resulting from the transfer of appreciated property at death. The appreciation that accrued during the lifetime of the decedent is never taxed as income.

**FY 2026** $84.8 million
**FY 2027** $95.9 million
**FY 2028** $105.0 million

### 6. Social Security Benefits for Retired Workers, Disabled Workers, Dependents, and Survivors

*Kentucky Revised Statutes 141.019 (1)(e), effective 2010*
Data Source: Kentucky Taxpayer Data

Social Security and railroad retirement benefits that are subject to the federal income tax and restrictions are excluded from Kentucky adjusted gross income.

**FY 2026** $80.0 million
**FY 2027** $92.8 million
**FY 2028** $96.1 million

### 7. Armed Forces Personnel Benefits and Allowances

*IRC Section 134, effective 1986*
Data Source: Federal Apportioned Estimates

Any qualified military benefit such as any allowance or in-kind benefit (other than personal use of a vehicle) is excluded from gross income. These exclusions include housing, meals, housing vouchers and combat service pay.

**FY 2026** $41.7 million
**FY 2027** $38.9 million
**FY 2028** $39.5 million

### 8. Interest on Life Insurance Savings

*IRC Section 101(a)(1) and (a)(2), effective 2006*
Data Source: Federal Apportioned Estimates

Favorable tax treatment is provided for investment income within qualified life insurance and annuity contracts. Investment income earned on qualified life insurance contracts held until death is permanently exempt from income tax. Investment income distributed prior to the death of the insured is tax-deferred, if not tax-exempt. Investment income earned on annuities is treated less favorably than income earned on life insurance contracts, but it benefits from tax deferral without annual contribution or income limits generally applicable to other tax-favored retirement income plans.

**FY 2026** $40.4 million
**FY 2027** $42.6 million
**FY 2028** $43.3 million

### 9. Veteran's Pension, Death and Disability Compensation

*IRC Section 104(a)(4) and (5), effective 1960*
Data Source: Federal Apportioned Estimates

All compensation due to pension payments, death or disability paid by the Veterans Administration is excluded from taxable income.

**FY 2026** $35.8 million
**FY 2027** $40.9 million
**FY 2028** $42.6 million

## 10. Miscellaneous Fringe Benefits

*IRC Section 132, effective 1986*
Data Source: Federal Apportioned Estimates

Any fringe benefit that qualifies as a no-additional-cost service, qualified employee discount, working condition fringe, de minimis fringe, qualified transportation fringe, qualified moving expense reimbursement, qualified retirement planning services, or qualified military base realignment and closure fringe are excluded from gross income.

**FY 2026** $24.6 million
**FY 2027** $25.6 million
**FY 2028** $26.5 million

## 11. Worker's Compensation Benefits

*IRC Section 104(a)(1), effective 1960*
Data Source: Federal Apportioned Estimates

Workers' compensation benefits, paid to disabled employees or their survivors for employment-related injuries or diseases, are not taxed.

**FY 2026** $20.6 million
**FY 2027** $20.6 million
**FY 2028** $20.6 million

## 12. Employer-Provided Meals and Lodging

*IRC Section 119, effective 1978*
Data Source: Federal Apportioned Estimates

Employer-provided meals and lodging are excluded from an employee's gross income.

**FY 2026** $18.9 million
**FY 2027** $20.7 million
**FY 2028** $21.4 million

## 13. Active Duty Military Pay

*Kentucky Revised Statutes 141.019 (1)(l), effective 2010*
Data Source: Federal Agency Estimate

For taxable years beginning on or after January 1, 2010, exclude all non-combat military pay received by active duty members of the Armed Forces of the United States, members of reserve components of the Armed Forces of the United States, and members of the National Guard, including compensation for state active duty as described in KRS 38.205.

**FY 2026** $14.9 million
**FY 2027** $15.3 million
**FY 2028** $15.6 million

## 14. Income Earned Abroad by U.S. Citizens

*IRC Section 911 and 912, effective 1954 and 1981, respectively*
Data Source: Federal Apportioned Estimates

U.S. citizens who lived abroad, worked in the private sector, and satisfied a foreign residency requirement may be entitled to a foreign earned income exclusion that reduces taxable income. In addition, if these taxpayers receive an allowance for foreign housing from their employers, they may also exclude the value of that allowance. Federal civilian employees and Peace Corps members who work outside the continental United States are allowed to exclude from U.S. taxable income allowances they receive to compensate them for the relatively high costs associated with living overseas. The allowances supplement wage income and cover expenses like rent, education, and the cost of travel to and from the United States.

**FY 2026** $13.6 million
**FY 2027** $13.9 million
**FY 2028** $14.3 million

### 15. Passive Loss Rules Exception

*IRC Section 469(i), effective 1993*
Data Source: Federal Apportioned Estimates

In general, the passive activity loss or the passive activity credits may not offset income from other sources. Losses up to $25,000 attributable to certain rental real estate activity are exempt under this rule.

**FY 2026** $13.6 million
**FY 2027** $13.0 million
**FY 2028** $12.3 million

### 16. Basis of Property Acquired by Gifts and Transfers in Trust

*IRC Section 1015, effective 1959*
Data Source: Federal Apportioned Estimates

When a gift is made, the donor's basis in the transferred property (the cost that was incurred when the transferred property was first acquired) carries over to the recipient. The carryover of the donor's basis allows a continued deferral of unrealized capital gains. This exclusion only applies to property acquired as a gift after December 31, 1920.

**FY 2026** $13.3 million
**FY 2027** $16.0 million
**FY 2028** $15.9 million

### 17. Employer-Provided Benefits of Premiums on Group Term Life, Accident and Disability Insurance

*IRC Section 79(a) and 106, effective 1936*
Data Source: Federal Apportioned Estimates

Gross income does not include employer-provided coverage under an accident or insurance plan. Employer payment of employee group term life insurance premiums for coverage up to $50,000 per employee is excluded from an employee's gross income.

**FY 2026** $13.2 million
**FY 2027** $14.0 million
**FY 2028** $14.4 million

## 18. Scholarship and Fellowship Income

*IRC Section 117, effective 1961*
Data Source: Federal Apportioned Estimates

Scholarships and fellowships are excluded from taxable income to the extent they pay for tuition and course-related expenses of the grantee. Similarly, tuition reductions for employees of educational institutions and their families are not included in taxable income.

**FY 2026** $12.6 million
**FY 2027** $14.4 million
**FY 2028** $15.2 million

## 19. Installment Sales

*IRC Section 453, effective 1960*
Data Source: Federal Apportioned Estimates

The general rule for installment sales is that the income is taxed when each installment is received and not in the year of the sale. The exception to this general rule is that a "dealer" cannot defer the tax on the sale, i.e., they must report the entire sales price on an installment sale regardless of when the income is received. The tax expenditure occurs since the Federal Government permits an irrevocable election, approved by the IRS commissioner, to opt out of the exception, thereby allowing the deferral of income and making the general rule apply to the dealer once again. The delay in taxation of future installments is the basis for the tax expenditure. Kentucky automatically honors the irrevocable election by virtue of our code update that synchronized the Kentucky statutes to federal tax code.

**FY 2026** $4.3 million
**FY 2027** $4.5 million
**FY 2028** $4.7 million

## 20. Employer-Provided Educational Assistance

*IRC Section 127, effective 1986*
Data Source: Federal Apportioned Estimates

Employer-provided educational assistance is excluded from an employee's gross income.

**FY 2026** $3.9 million
**FY 2027** $3.6 million
**FY 2028** $3.8 million

## 21. GI Bill Benefits

*IRC Section 134, effective 1944*
Data Source: Federal Apportioned Estimates

GI bill benefits paid by the Veterans Administration are excluded from gross income.

**FY 2026** $3.8 million
**FY 2027** $4.3 million
**FY 2028** $4.4 million

## 22. Assistance for Adopted Foster Children and Foster Care Payments

*IRC Section 137, effective 1996*
Data Source: Federal Apportioned Estimates

Taxpayers who adopt eligible children from the public foster care system can receive monthly payments for the children's significant and varied needs and a reimbursement of up to $2,000 for nonrecurring adoption expenses. These payments are excluded from gross income. This federal provision will sunset for some taxpayers for taxable years beginning after December 31, 2009. Additionally, gross income does not include amounts received by a foster care provider. There is a $13,170 exclusion for adoption of a child with special needs regardless of expenses.

**FY 2026** $2.4 million
**FY 2027** $2.6 million
**FY 2028** $2.7 million

## 23. Public Assistance Benefits

*IRC Section 42, effective 1999*
Data Source: Federal Apportioned Estimates

Public assistance or welfare benefits are not taxed. These include Temporary Assistance for Needy Families (TANF) and Supplemental Security Income (SSI) benefits.

**FY 2026** $1.8 million
**FY 2027** $1.9 million
**FY 2028** $1.9 million

## 24. Alimony Payments

*IRC Section 215, effective 1984, TCJA 2018*
Data Source: Kentucky Taxpayer Data

For alimony agreements which began before January 1, 2019, the payer of alimony shall be eligible to receive an exemption from income equal to the amount of alimony payments made. Alimony payments based on an alimony agreement which began after January 1, 2019, are not eligible to receive an income exemption. This tax expenditure is associated with Kentucky's conformity with Federal tax law.

**FY 2026** $1.1 million
**FY 2027** $1.1 million
**FY 2028** $1.2 million

## 25. Cancellation of Indebtedness

*IRC Section 108, effective 1980*
Data Source: Federal Apportioned Estimates

Individuals are not required to report the cancellation of certain indebtedness as current income. If the canceled debt is not reported as current income, the basis of the underlying property must be reduced by the amount canceled. Discharge of mortgage debt, business debt and student loan debt are the biggest categories of cancellation.

**FY 2026** $0.6 million
**FY 2027** $0.6 million
**FY 2028** $0.6 million

## 26. Railroad and Supplemental Railroad Retirement System Benefits

*45 USCA Section 231M, KRS 141.010(10)(b) and KRS 141.019(1)(b), effective 2010*
Data Source: Federal Apportioned Estimates

All Railroad Retirement Board benefits and supplemental railroad retirement benefits are not taxed.

**FY 2026** $0.6 million
**FY 2027** $0.6 million
**FY 2028** $0.6 million

## 27. Employee Stock Ownership Plan Provisions

*IRC Section 409, effective 1981, amended 2004*
Data Source: Federal Apportioned Estimates

Employer-paid contributions to ESOPs are not included in the employee's gross income for tax purposes until they are paid out as benefits.

**FY 2026** $0.5 million
**FY 2027** $0.6 million
**FY 2028** $0.6 million

## 28. Income Averaging for Farmers

*IRC Section 1301, effective 1986 with various amendments*
Data Source: Federal Apportioned Estimates

A taxpayer may lower his or her tax liability by averaging, over the prior three-year period, the taxable income from farming and fishing.

**FY 2026** $0.5 million
**FY 2027** $0.5 million
**FY 2028** $0.5 million

## 29. Disaster Workers

*Kentucky Revised Statutes 141.020, effective 2021*
Data Source: Kentucky Agency Estimate

Disaster response income for disaster response employees and disaster response businesses receive an individual income tax exemption on that income. This statute has a sunset date of January 1, 2025.

**FY 2026** $0.4 million
**FY 2027** $0.4 million
**FY 2028** $0.4 million

## 30. Disabled Coal Miners

*IRC Section 104(a)(2), effective 1960*
Data Source: Federal Apportioned Estimates

Disability payments to former coal miners which come from the Black Lung Trust Fund are not subject to the income tax.

**FY 2026** $0.2 million
**FY 2027** $0.1 million
**FY 2028** $0.1 million

## 31. Precinct Workers

*Kentucky Revised Statutes 141.019(1)(i), effective 1997*
Data Source: Kentucky Agency Estimate

Income received by precinct workers for election training or work at election booths in state, county, and local primaries or regular or special elections is excluded from income.

**FY 2026** $0.2 million
**FY 2027** $0.2 million
**FY 2028** $0.2 million

## 32. Community Property Trust Act

*Kentucky Revised Statutes 141.019, effective 2020*
Data Source: Kentucky Agency Estimate

If a spouse dies, then the surviving spouse can ignore the change in cost basis of the property owned by a Kentucky community property trust. So this only has a tax liability effect if the spouse chooses to sell the property following the death of their spouse.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

## 33. Employer-Provided Child Care

*IRC Section 129, effective 1981*
Data Source: Federal Apportioned Estimates

Up to $5,000 of employer-provided childcare is excluded from an employee's gross income.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

## 34. Capital Gains - Eminent Domain

*Kentucky Revised Statutes 141.019(1)(j), effective 2010*
Data Source: Kentucky Agency Estimate

Capital gains on property taken by eminent domain are exempt from individual income tax. When incoming tax receipts from past deferrals are greater than deferred receipts from new activity, the cash-basis tax expenditure estimate can be negative despite the fact that in present-value terms, current deferrals have a positive cost to the government.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## Individual Income Tax - Deductions

### 35. Standard Deduction

*Kentucky Revised Statutes 141.019(2)(i) and KRS 141.081(2), effective 1946, with various amendments*
Data Source: Kentucky Taxpayer Data

A taxpayer who does not itemize deductions is permitted a deduction of a predetermined amount referred to as the "standard deduction". The amount of the deduction has been amended several times; under current law it increases based on inflation. For tax year 2025 the standard deduction is $3,270 per taxpayer.

**FY 2026** $166.2 million
**FY 2027** $169.9 million
**FY 2028** $173.4 million

### 36. Individual Retirement Account Contributions

*IRC Section 219, effective 1977*
Data Source: Federal Apportioned Estimates

Individual taxpayers can take advantage of several different IRAs: deductible IRAs, non-deductible IRAs, and Roth IRAs. The annual contributions limit applies to the total of a taxpayer's deductible, non-deductible, and Roth IRAs contributions. The IRA contribution limit is $5,500 in 2017 and shall be increased by such dollar amount, multiplied by the cost of living adjustment thereafter. The tax on investment income earned by 401(k) plans, non-deductible IRAs, and deductible IRAs is deferred until the money is withdrawn.

**FY 2026** $96.4 million
**FY 2027** $102.1 million
**FY 2028** $107.3 million

## 37. Home Mortgage Interest

*IRC Section 163(a), effective 1962*
Data Source: Kentucky Taxpayer Data

An itemized deduction is allowed for all interest paid or accrued on owner-occupied homes during the taxable year. The overall deductibility of mortgage interest may be impacted by the total amount of the mortgage and the date of the mortgage.

**FY 2026** $93.6 million
**FY 2027** $95.7 million
**FY 2028** $97.6 million

## 38. Charitable Contributions

*IRC Section 170(a)(1), effective 1956*
Data Source: Kentucky Taxpayer Data

The deduction ceiling for most charitable contributions is 50 percent of Adjusted Gross Income, computed without regard to any net operating loss deduction. If the aggregate amount of contributions exceeds the limitation, it can be carried over 15 succeeding years in order of time. Gifts to private nonprofit organizations are to 20 percent of AGI. Some capital gain property is to 30 percent of AGI.

**FY 2026** $75.2 million
**FY 2027** $76.9 million
**FY 2028** $78.5 million

## 39. Health Savings Accounts

*IRC Section 223, effective 2006*
Data Source: Federal Apportioned Estimates

Employee contributions to a Health Savings Account are deductible within the same limitations provided for federal purposes.

**FY 2026** $37.8 million
**FY 2027** $41.1 million
**FY 2028** $42.4 million

## 40. Net Operating Loss

*Kentucky Revised Statutes 141.011, effective 2018*
Data Source: Kentucky Taxpayer Data

The Kentucky net operating loss deduction is permitted in computing Adjusted Gross Income. Beginning in 2005, taxpayers are no longer allowed to carry back a net operating loss but may continue to carry forward any net operating losses. For taxable years beginning on or after January 1, 2005, but prior to January 1, 2019, the portion of a net operating loss that is not used to offset income is up to 50 percent. For net operating losses generated on or after January 1, 2018, the limitation is 80 percent.

**FY 2026** $14.4 million
**FY 2027** $14.7 million
**FY 2028** $15.0 million

## 41. Gambling Losses

*IRC Section 165(d), KRS 141.019(2)(b), effective 2019*
Data Source: Kentucky Taxpayer Data

In 2018, deductions pursuant to 26 U.S.C. sec. 165 for losses were eliminated. In 2019, there was an exception created for wagering losses allowed under Section 165(d) of the Internal Revenue Code.

**FY 2026** $7.4 million
**FY 2027** $7.6 million
**FY 2028** $7.7 million

## 42. Interest on Educational Loans

*IRC Section 221, effective 1998*
Data Source: Federal Apportioned Estimates

Up to $2,500 of interest paid on qualified educational loans is deductible from gross income.

**FY 2026** $6.3 million
**FY 2027** $7.2 million
**FY 2028** $7.3 million

## 43. Investment Interest

*IRC Section 163(d), effective 1970*
Data Source: Kentucky Taxpayer Data

In 2018, deductions pursuant to 26 U.S.C. sec. 163 for investment interest were eliminated. In 2019, the deduction for investment allowed under Section 163 of the IRC was reinstated in Kentucky.

**FY 2026** $5.0 million
**FY 2027** $5.1 million
**FY 2028** $5.2 million

## 44. Excess of Percentage over Cost Depletion

*IRC Section 613, effective 1963*
Data Source: Federal Apportioned Estimates

In the case of mines, wells, and other natural deposits, an allowance (a deduction) is given, which is the larger of the value of property being expensed by cost or by percentage of depletion.

**FY 2026** $4.4 million
**FY 2027** $4.4 million
**FY 2028** $4.6 million

## 45. Parsonage Allowances

*IRC Section 107, effective 1954*
Data Source: Federal Apportioned Estimates

The value of a minister's housing allowance and the rental value of parsonages are not included in a minister's taxable income.

**FY 2026** $2.6 million
**FY 2027** $2.7 million
**FY 2028** $2.9 million

## 46. Interest on U.S. Savings Bonds

*IRC Section 149, effective 1959*
Data Source: Federal Apportioned Estimates

Taxpayers may defer paying tax on interest earned on registered U.S. savings bonds until the bonds are redeemed.

**FY 2026** $1.9 million
**FY 2027** $1.8 million
**FY 2028** $1.8 million

## 47. Keogh Plan Contributions

*IRC Section 404(a)(8), effective 1963*
Data Source: Federal Agency, Kentucky Estimate

A self-employed individual may make deductible contributions to his or her own retirement (Keogh) plan equal to 25 percent of his or her income, up to an indexed maximum amount of income. Total plan contributions are to 25 percent of a firm's total wages. The tax on the investment income earned by Keogh plans is deferred until withdrawn.

**FY 2026** $1.0 million
**FY 2027** $1.0 million
**FY 2028** $1.0 million

## Individual Income Tax - Credits

All credits are non-refundable, unless explicitly stated otherwise.

### 48. Family Size Tax Credit

*Kentucky Revised Statutes 141.066, effective 2005*
Data Source: Kentucky Taxpayer Data

Kentucky residents are allowed a low-income tax credit based on modified Adjusted Gross Income (MGI) that is equal to federal Adjusted Gross Income plus any interest income from other states' municipal bonds and pension income from a qualifying lump-sum distribution. Single individuals whose MGI and married couples whose combined MGI is at or below federal poverty level for their family size will receive a 100 percent tax credit. The amounts are indexed for inflation each year. The 2024 threshold amounts for a family of one is $15,060, $20,440 for a family of two, $25,820 for a family of three, and $31,200 for a family of four or more.

**FY 2026** $130.0 million
**FY 2027** $133.0 million
**FY 2028** $135.7 million

### 49. Blind, Over 65, and National Guard

*Kentucky Revised Statutes 141.020(3), effective 2013*
Data Source: Kentucky Agency Data

Personal exemption credits are allowable as follows: $40 for 65 years old or older; $40 if taxpayer is blind, and $20 for members of the Kentucky National Guard.

**FY 2026** $19.6 million
**FY 2027** $20.0 million
**FY 2028** $20.4 million

## 50. Postsecondary Education Tuition

*Kentucky Revised Statutes 141.069, effective 2005*
Data Source: Kentucky Taxpayer Data

A credit equal to 25 percent of the amount of the federal Hope Scholarship and the lifetime learning credit is available. The credit shall not be allowed for expenses for graduate level course study. Any unused credit may be carried forward for five years.

**FY 2026** $14.3 million
**FY 2027** $14.6 million
**FY 2028** $14.9 million

## 51. Child and Dependent Care

*Kentucky Revised Statutes 141.067, effective 1990*
Data Source: Kentucky Taxpayer Data

A resident individual may deduct from the tax computed under the provisions of KRS 141.020 a credit for household and dependent care services necessary for gainful employment. A credit equal to 20 percent of the federal credit amount is allowed under Section 21 of the Internal Revenue Code. The American Rescue Plan of 2021 altered the childcare and dependent care credit in 2021 at the federal level. In January 2023, Kentucky conformed to the IRC containing these changes, which made the credit refundable, increased the percentages of employment-related expenses for qualifying care, and modified the phase-out of the credit for higher income earners.

**FY 2026** $5.7 million
**FY 2027** $5.9 million
**FY 2028** $6.0 million

## 52. Kentucky Angel Investment Act

*Kentucky Revised Statutes 154.20 – 232 effective 2014 and 154.20 – 236, effective 2018*
*Kentucky Revised Statutes 141.396, effective 2018*
Data Source: Kentucky Taxpayer Data

A credit is allowed for certain investments in small businesses located in the Commonwealth, operating in the fields of knowledge-based, high-tech, and research and development, and showing a potential for rapid growth. The total amount of tax credit to all qualified investors shall be no more than ($3,000,000) and for any individual qualified investor shall be no more than ($200,000). The total amount of tax credit shall be no more than ($40,000,000) in total for all years.

**FY 2026** $0.6 million
**FY 2027** Minimal
**FY 2028** Minimal

### 53. High School Equivalency Diploma Program

*Kentucky Revised Statutes 151B.402 and 141.0205(1)(k), effective 2006*
Data Source: Kentucky Taxpayer Data

An employer who assists an individual to complete their learning contract under the provisions of this program shall receive a tax credit.

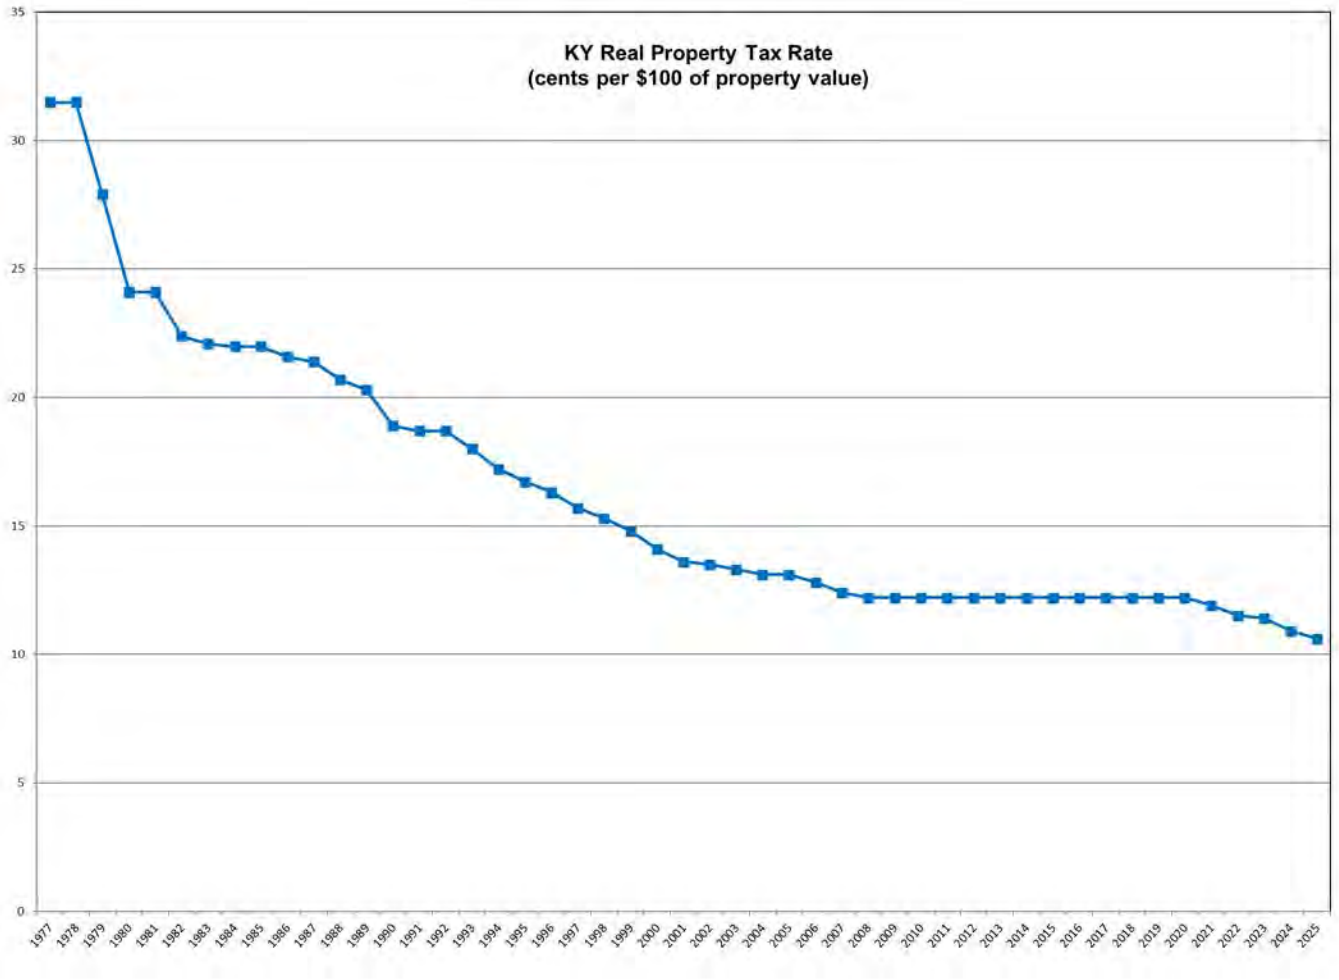
**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

# Property Taxes

**Current Rate Structure:**
The state tax rate for real property may be adjusted annually to comply with the provisions of House Bill 44. For tax year 2025, the rate was set at 10.9 cents per $100 of assessed value. The rate in effect prior to House Bill 44 was 31.5 cents per $100 of assessed value. It must be noted that an increase in the tax base may necessitate a corresponding decrease in the rate. Consequently, any estimates of the cost of exemptions in the real property area are based on the assumption that House Bill 44 would not affect the outcome.

The normal state rate applicable to tangible personal property is forty-five cents per $100 of assessed value. The General Assembly has reduced the rates for some classes of tangible and intangible personal property over the years. These reduced rates give rise to many of the expenditures detailed later.

**Figure 5.**



**Tax Base:**
The property tax is levied on the fair cash value of all real, tangible, or intangible property unless a specific exemption exists in the Kentucky Constitution or, in the case of personal property, has been granted by the General Assembly. Taxpayers who are 65 years of age or older, or are classified as totally disabled, qualify for a Homestead Exemption. This exemption, applied against the assessed value of a qualifying single-unit residential property, is adjusted every two years in accordance with the cost-of-living index. The 2025-2026 exemption is $49,100.

In general, property is assessed at its fair cash value as of January 1 of each year. Real property must be listed for assessment with the Property Valuation Administrator (PVA) between January 1 and March 1. Tangible personal property is listed with the PVA by May 15.

**Tax Due:**
When the Department of Revenue certifies the assessments and all local tax rates have been set, the county clerk prepares tax bills for delivery to the sheriff of the county, not later than September 15. The sheriff mails a notice to each taxpayer reflecting the total tax, date due, any discount, and the discount period. The tax becomes delinquent if not paid before the following January 1.

An exception to the usual method of paying property taxes involves motor vehicles. The appropriate property tax is due and payable to the county clerk on or before the last day of the month in which registration renewal is required for the vehicle.

**Background:**
Kentucky has had a tax on property since becoming a state on June 1, 1792. The original method of taxation began with a set levy for each item of tangible property owned in the state. It was not until 1814 that the standard for establishing the tax liability was changed to the ad valorem or fair value approach, which taxes property at its fair market value. This approach remains the standard today.

In 1793, property tax collections represented over 86 percent of all state government receipts. That percentage has declined dramatically over the past 200-plus years. Much of the recent decline can be attributed to legislation passed during the 1979 Special Session of the General Assembly. House Bill 44, enacted during that session, limited growth from the tax levied on real property to 4 percent per year. The high rate of inflation was causing property values, and the resulting tax, to rise dramatically. To compensate for rapidly growing values, the tax rate is adjusted annually to ensure that the growth in tax receipts does not exceed legal limits. This

restriction remains in effect at the present time. House Bill 272, passed by the 2005 General Assembly, altered the rate setting mechanism by excluding new property and property subject to tax increment financing when the 4 percent growth limit is calculated.

Voters amended section 172 of the Kentucky Constitution in 1998 to give the General Assembly the authority to exempt any class of personal property. Personal property includes both tangible and intangible property. Real property, not specifically exempted by the constitution or Kentucky statutes, must be assessed for taxation at its fair cash value and taxed accordingly.

Legislation enacted in 2005 repealed the intangible property tax.

In 2019, the definition of business inventory was broadened to include “qualified heavy equipment” by a ***"heavy equipment rental company"***.

In 2022, prefabricated homes held in inventory by retailers and wholesalers were exempted from property tax. Additionally, the valuation method for motor vehicles was changed from the “rough” or “clean” value to the “average” trade-in value.

In 2023, legislation was enacted which exempted from state and local taxation tangible property valued at 1/10 of a cent per $100 of assessed value.

Figure 6. Allocation of Property Tax Receipts for FY25

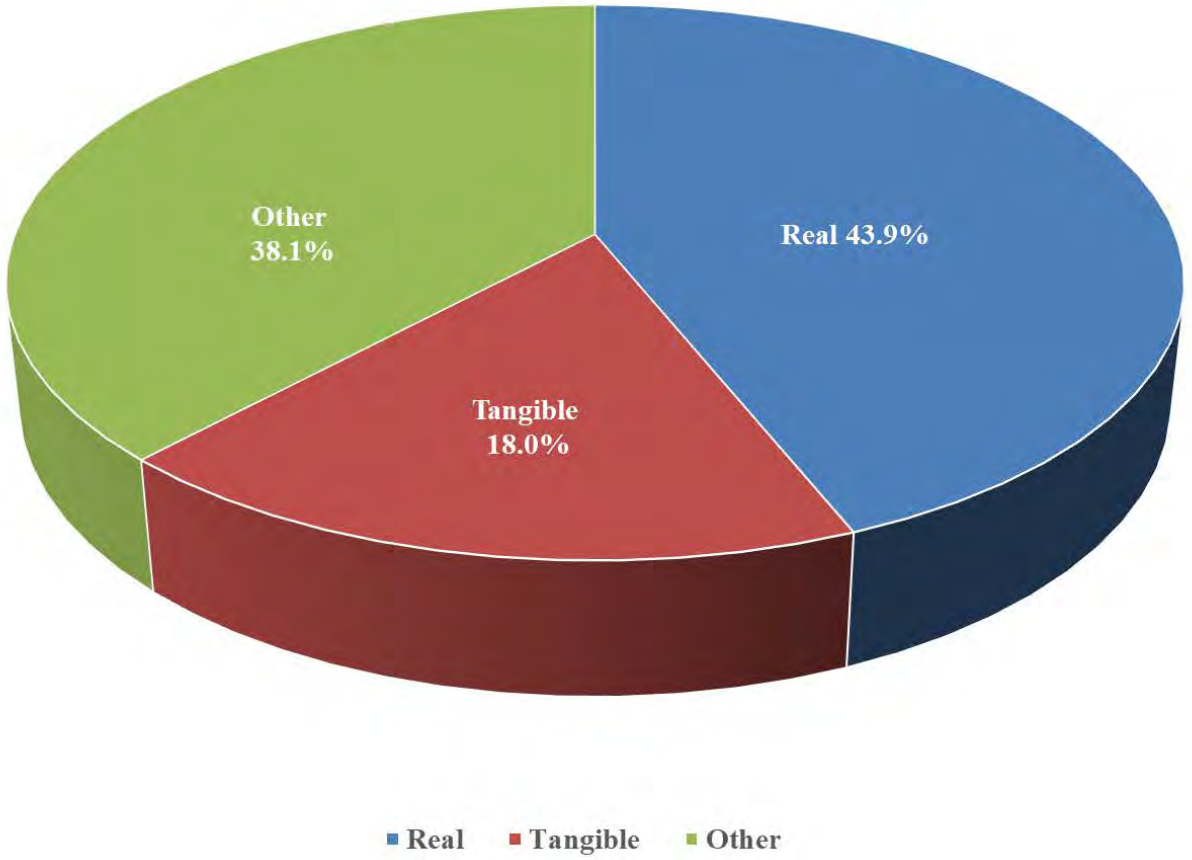


**Table 3. Total Property Tax Expenditures**

| | |
|---|---|
| **FY 2026** | $1,310.2 million |
| **FY 2027** | $1,361.2 million |
| **FY 2028** | $1,410.5 million |

The property tax expenditures have been categorized between real property and tangible personal property.

## Real Property Tax Expenditures

Real property is defined as land, improvements, and all rights inherent in real estate.

### 1. State Real Property Tax Yearly Revenue Ceiling

*Kentucky Revised Statutes 132.020(2), effective 1979*
Data Source: Kentucky Agency Estimate

Prior to the passage of House Bill 44 in 1979, the real property tax rate was 31.5 cents per $100 of assessed value. The adjusted tax rate has decreased for the fifth year in a row to 10.6 cents in 2025.

**FY 2026** $768.4 million
**FY 2027** $811.6 million
**FY 2028** $855.1 million

### 2. Real Property Owned by Exempt Entities

*Section 170 of the Kentucky Constitution, effective 1891*
Data Source: Kentucky Taxpayer Data

Real property owned and occupied by institutions of religion, government owned properties, cemeteries not held for private or corporate profit, public libraries, institutions of purely public charity, and institutions of education are exempted from taxation by the Kentucky Constitution.

**FY 2026** $70.0 million
**FY 2027** $72.0 million
**FY 2028** $73.0 million

### 3. Agriculture Value of Real Property

*Kentucky Revised Statutes 132.450, effective 1942*
Data Source: Kentucky Taxpayer Data

A special procedure is provided for assessing real property at its agricultural or horticultural assessed value.

**FY 2026** $60.9 million
**FY 2027** $64.3 million
**FY 2028** $67.8 million

### 4. Homestead Exemption

*Sections 170 of the Kentucky Constitution, effective 1970*
*Kentucky Revised Statutes 132.810, effective 1972*
Data Source: Kentucky Taxpayer Data

Taxpayers 65 years of age or older, or totally and permanently disabled, are allowed an exemption against the assessed value of a single-unit residence. The maximum homestead exemption is $49,100 for the 2025 and 2026 tax periods. The exemption reflects a $2,750 increase over the 2023-2024 amount. The amount of the homestead exemption is recalculated every two years to adjust for inflation.

**FY 2026** $27.8 million
**FY 2027** $28.9 million
**FY 2028** $29.9 million

### 5. Leasehold Interests in Buildings Financed with Industrial Revenue Bonds

*Kentucky Revised Statutes 132.020(1)(f)(1), effective 1978*
Data Source: Kentucky Taxpayer Data

Leasehold interests privately held in industrial buildings owned and financed by tax-exempt governmental units are taxed at a reduced rate of one and one-half cents per $100 of value. Note: This is the real estate portion only.

**FY 2026** $6.6 million
**FY 2027** $6.8 million
**FY 2028** $6.9 million

### 6. Intrastate Railroads and Railway Companies

*Kentucky Revised Statutes 132.020(1)(d), effective 1990*
Data Source: Kentucky Taxpayer Data

Railroads or railway companies operating solely within the Commonwealth are taxed at a reduced rate of ten cents per each $100 of value on their operating real property.

**FY 2026** $0.3 million
**FY 2027** $0.3 million
**FY 2028** $0.3 million

### 7. Agricultural and Horticultural Land Assessment Protection

*Kentucky Revised Statutes 132.450(2)(c), effective 1992*
Data Source: Kentucky Agency Estimate

This land will not lose its agricultural or horticultural assessment if it fails to meet the minimum acreage requirement due to the fact a portion of the land has been acquired for public purposes.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 8. Alcohol Production and Fluidized Bed Energy Production Facilities

*Kentucky Revised Statutes 132.096(4)&(5), effective 2023*
Data Source: Kentucky Taxpayer Data

Alcohol production and fluidized bed energy production facilities are exempt from state and local taxation. Alcohol production facilities are defined in KRS 247.910 as facilities whose primary purpose is producing ethanol. Fluidized bed energy production facilities are defined in KRS 211.390.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 9. Distilled Spirits Stored or Aging in Barrels in a Revenue Bond-Financed Warehouse

*Kentucky Revised Statutes 132.140(2)(a)(1)(b)(1)) and 132.140(3), effective 2025*
Data Source: Kentucky Agency Estimate

Distilled spirits stored or aging in barrels in a revenue bond-financed warehouse shall be exempt from the portion of the assessed value that is subject to state and local ad valorem taxes assessed after January 1, 2043. For tax assessments made on January 1, 2026 until January 1, 2043, a portion of the assessed value shall be exempted on a gradually reducing basis.

Tax assessments made on January 1, 2026, 96 percent of the assessed value shall be subject to taxation. An annual reduction of four percentage points will be applied to assessments made on January 1, 2027 through January 1, 2033. For assessments made on January 1, 2034, 61 percent of the assessed value shall be subject to taxation, a seven percent reduction from the previous year's assessment.

The annual reduction fluctuates until January 1, 2042, after which distilled spirits stored or aging in barrels located in a bonded warehouse or premises shall be exempt from state and local ad valorem taxes for tax assessments made on or after January 1, 2043.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 10. Environmental Remediation Property

*Kentucky Revised Statutes 132.020(1)(f)(2), effective 2005*
Data Source: Kentucky Taxpayer Data

Owners of qualifying voluntary environmental remediation properties pay tax at the rate of one and one-half cents upon each one hundred dollars of value for this property.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 11. Property of Local Governments in Neighboring States – Repealed by 2023 Ky. Acts Ch. 92, § 52

*Kentucky Revised Statutes 132.096(10), effective 2005*
Data Source: Kentucky Agency Estimate

All real property owned by another state or a political subdivision of another state that is used exclusively for public purposes is exempt from taxation if a comparable exemption is provided in that state or political subdivision for property owned by the Commonwealth or its political subdivisions.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## Tangible Property Tax Expenditures

The normal tangible rate is forty-five cents per $100 of assessed value.

### 1. Business Inventories

*Kentucky Revised Statutes 132.020(1)(e), effective 1990*
*Kentucky Revised Statutes, 132.200(20), effective 2023*
Data Source: Kentucky Taxpayer Data

Business inventories are taxed at a reduced rate of five cents per $100 of value of goods held for sale in the regular course of business. This category includes (1) machinery and equipment held in a retailer's inventory for sale or lease and originating under a floor plan financing arrangement; (2) motor vehicles whether are held for sale in the inventory of a licensed motor vehicle dealer, or that are in the possession of a licensed motor vehicle dealer; (3) raw materials; (4) in-process materials, which includes distilled spirits and distilled spirits inventory, held for incorporation in finished goods held for sale in the regular course of business; and (5) qualified heavy equipment, as defined in KRS 131.010(28) through (30). Additionally, prefabricated homes, which include manufactured, mobile and modular homes; which are held in inventory by retailers and wholesalers are exempt from the business inventory tax.

**FY 2026** $130.0 million
**FY 2027** $129.0 million
**FY 2028** $128.0 million

### 2. Manufacturing Machinery; Pollution Control Equipment; and Radio and Television Equipment

*Kentucky Revised Statutes 132.020(1)(c), effective 1977*
Data Source: Kentucky Taxpayer Data

Manufacturing machinery, tangible pollution control equipment, and commercial radio and television equipment are all taxed at a reduced rate of fifteen cents per $100 of valuation.

**FY 2026** $111.0 million
**FY 2027** $111.0 million
**FY 2028** $110.0 million

### 3. In-Transit Goods

*Kentucky Revised Statutes 132.097, effective 2000*
Data Source: Kentucky Taxpayer Data

Goods shipped into Kentucky and placed in a warehouse or distribution center with the purpose of continued shipment outside of Kentucky within six months are exempt from property tax at the state level.

**FY 2026** $83.0 million
**FY 2027** $84.0 million
**FY 2028** $85.0 million

### 4. Foreign Trade Zone

*Kentucky Revised Statutes 132.096(3), effective 2023*
Data Source: Kentucky Taxpayer Data

Property located in an activated foreign trade zone established pursuant to 19 U.S.C. secs. 81a to 81u is exempt from state and local taxation.

**FY 2026** $35.0 million
**FY 2027** $36.0 million
**FY 2028** $37.0 million

### 5. Machinery Used in Farming, Livestock, and Domestic Fowl

*Kentucky Revised Statutes 132.096(1)&(2), effective 2023*
Data Source: Kentucky Taxpayer Data

Farm implements and machinery used in farming, as well as livestock, ratite birds, and domestic fowl are exempt from state and local taxation.

**FY 2026** $6.4 million
**FY 2027** $6.4 million
**FY 2028** $6.4 million

### 6. Agricultural Products

*Kentucky Revised Statutes 132.020(1)(f)(4), effective 1950*
Data Source: Kentucky Taxpayer Data

Unmanufactured agricultural products are taxed at a reduced rate of one and one-half cents per $100 of assessed value.

**FY 2026** $2.9 million
**FY 2027** $2.9 million
**FY 2028** $2.9 million

### 7. Leasehold Interests

*Kentucky Revised Statutes 132.020(1)(f)(1), effective 1990*
Data Source: Kentucky Taxpayer Data

Leasehold interests privately held in industrial buildings owned and financed by tax-exempt governmental units are taxed at a reduced rate of one and one-half cents per $100 of assessed value.

**FY 2026** $2.9 million
**FY 2027** $2.8 million
**FY 2028** $2.7 million

### 8. Noncommercial Aircraft

*Kentucky Revised Statutes 132.020(1)(f)(5), effective 1999*
Data Source: Kentucky Taxpayer Data

Aircraft not used in the business of transporting persons or property for compensation or hire, are taxed at the reduced state rate of one and one-half cents per $100 of assessed value.

**FY 2026** $2.5 million
**FY 2027** $2.6 million
**FY 2028** $2.7 million

### 9. Car Lines

*Kentucky Revised Statutes 136.120(1)(a)(17), effective 1990*
Data Source: Kentucky Taxpayer Data

Any company, other than a railroad company, which owns, uses, furnishes, leases, rents, or operates to, from, through, in, or across this state or any part thereof, any kind of railroad car is taxed at a reduced rate. The rate is computed annually. The state rate on affected tangible property is 22.06 cents per $100 of valuation. The aggregate state and local rate is 71.14 cents per $100 of assessed value. For railroad car lines and apportioned vehicles, the aggregate rate is applied since the state and local taxes are collected together at the state level.

**FY 2026** $1.5 million
**FY 2027** $1.6 million
**FY 2028** $1.7 million

### 10. Federally Documented Vessels

*Kentucky Revised Statutes 132.020(1)(f)(6), effective 1999*
Data Source: Kentucky Taxpayer Data

Federally documented vessels not used in the business of transporting persons or property for compensation or hire or any other commercial purposes, are taxed at a reduced rate of one and one-half cents per $100 of assessed value.

**FY 2026** $0.5 million
**FY 2027** $0.5 million
**FY 2028** $0.5 million

### 11. Intrastate Railroads and Railway Companies

*Kentucky Revised Statutes 132.020(1)(d), effective 1990*
Data Source: Kentucky Taxpayer Data

Railroads or railway companies operating solely within the Commonwealth are taxed at a reduced rate of ten cents per $100 on their operating tangible property.

**FY 2026** $0.3 million
**FY 2027** $0.3 million
**FY 2028** $0.4 million

## 12. Historic Vehicles

*Kentucky Revised Statutes 132.020(1)(b), effective 1984*
Data Source: Kentucky Taxpayer Data

Motor vehicles qualifying for permanent registration as historic motor vehicles under KRS 186.043 are taxed at a reduced rate of twenty-five cents per $100 of assessed value.

**FY 2026** $0.2 million
**FY 2027** $0.2 million
**FY 2028** $0.2 million

## 13. Micro-Business Personal Property Tax Return Filing

*Kentucky Revised Statutes 132.220(1)(b)(2)(b), effective 2020*
Data Source: Kentucky Taxpayer Data

Effective January 1, 2020, micro-businesses and those participating in the "gig" economy are not required to file a tangible personal property tax return if the sum of the fair cash value of all tangible property is less than $1,000.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 14. Motor Vehicles with a Salvage Title

*Kentucky Revised Statutes 134.810(6)(c), effective 1999*
Data Source: Kentucky Taxpayer Data

Motor vehicles with a salvage title held by an insurance company on January 1 are taxed at a reduced rate of five cents per $100 of assessed value. Under the provisions of KRS 132.020(1)(e) and 132.220, salvage vehicles held by an insurance company are to be taxed in the same manner as motor vehicle dealers' inventory.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 15. Personal Property Used in Vending Stands Operated by the Blind

*Kentucky Revised Statutes 132.193(1), effective 1998*
Data Source: Kentucky Taxpayer Data

Personal property used in vending stands leased and operated by blind persons under the auspices of the Office for the Blind is exempt from taxation.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 16. Veteran Service Organizations

*Kentucky Revised Statutes 132.212, effective 2021*
Data Source: Kentucky Taxpayer Data

Veteran service organizations with over 50 percent of its annual net income expended on behalf of military veterans and other charitable causes are exempt from taxation.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

# Multi-Tax Incentive Programs

Due to the many types of businesses or individual taxpayers that qualify for tax incentives, several of the tax incentives that have been enacted can be claimed against multiple taxes. For instance, many of these tax credits can be used against KRS 141.020 (Individual Income Taxes), KRS 141.040 (Corporation Income Taxes), and KRS 140.0401 (The Limited Liability Entity Tax). This has been especially true since 2006 when the Limited Liability Entity Tax (LLET) was enacted. Payment of the LLET creates a credit that can be used to offset liabilities of the individual and corporation income taxes. Thus, the Office of State Budget Director decided it would be more concise and helpful to have these tax expenditures aggregated and placed into a chapter where the reader could centrally go to find all of the fiscal impacts associated with tax incentives that apply to multiple taxes.

The main data source for the estimation of these tax expenditure is actual taxpayer data queried by the Department of Revenue. In those instances, OSBD gathered information from each tax type and aggregate them on the tables below.

## 1. Expensing Capital Purchases (Section 179 Expensing)

*Kentucky Revised Statutes 141.0101(16), effective 2019*
Data Source: Kentucky Agency Estimate and Kentucky Taxpayer Data

For property placed in service on or after January 1, 2020, a business may expense a larger portion of the assets placed in service during a taxable year. If the business elects to expense any property under IRC §179, the business must reduce the amount on which depreciation or amortization is calculated. The IRC §179 limit is reduced in any taxable year by the amount by which the cost of IRC § 179 property placed in service during the tax year exceeds $400,000. Section 179 expensing speeds up the deductibility of capital expenditures, transitioning from the practice of longer-term depreciation schedules in favor of the ability to claim the deduction in the year the expense was made.

| | Corporate | Individual | Total |
|---|---|---|---|
| **FY 2026** | Substantial | $17.9 million | Substantial |
| **FY 2027** | Substantial | $17.9 million | Substantial |
| **FY 2028** | Substantial | $17.9 million | Substantial |

## 2. Limited Liability Entity Tax

*Kentucky Revised Statutes 141.0401(2), effective 2006*
Data Source: Kentucky Taxpayer Data

For taxable years beginning on or after January 1, 2007, an annual limited liability entity tax (LLET) shall be paid by every corporation and every limited liability pass-through entity doing business in Kentucky on all Kentucky gross receipts or Kentucky gross profits. A nonrefundable credit shall be allowed against the tax imposed by KRS 141.020 or 141.040 equal to the amount of LLET taxes paid.

| | Corporate | Individual | Total |
|---|---|---|---|
| **FY 2026** | $230.0 million | $33.1 million | $263.1 million |
| **FY 2027** | $235.0 million | $33.9 million | $268.9 million |
| **FY 2028** | $240.0 million | $34.6 million | $274.6 million |

## 3. Kentucky Historic Preservation Tax Credit

*Kentucky Revised Statutes 141.382, effective 2009*
Data Source: Kentucky Taxpayer Data

The 2005 Kentucky General Assembly created the Kentucky Historic Preservation Credit. The credit applies to tax imposed by KRS 141.020, KRS 141.040, or KRS 141.0401. For all applications for a preliminary approval received prior to April 30, 2010, the credit may be an amount equal to 30 percent of the qualified rehabilitation expenses, in the case of owner-occupied residential property, and 20 percent of the qualified rehabilitation expenses, in the case of all other property. For all applications for a preliminary approval received on or after April 30, 2010, the credit shall be refundable or transferable if the taxpayer makes an irrevocable election under (2)(b) in KRS 171.397. The maximum credit that may be claimed with regard to owner-occupied residential property is $120,000. The maximum credit which may be claimed with regard to all other property that is not owner-occupied residential shall be $10 million. The total amount of credit approved for calendar years before 2010 was $3.0 million. After calendar year 2010, the annual cap was raised to $5.0 million. Following the 2021 Regular Session, the certified rehabilitation credit cap is $100 million annually for applications received on or after April 30, 2022, with 25 percent of the cap awarded to owner-occupied residential property and 75 percent awarded to property other than owner-occupied resident property.

| | Corporate | LLET | Individual | Total |
|---|---|---|---|---|
| **FY 2026** | $40.0 million | $15.0 million | $20.0 million | $75.0 million |
| **FY 2027** | $40.0 million | $15.0 million | $20.0 million | $75.0 million |
| **FY 2028** | $40.0 million | $15.0 million | $20.0 million | $75.0 million |

### 4. Kentucky Entertainment Incentive (KEI) Program

*Kentucky Revised Statutes 141.383, effective 2009*
Data Source: Kentucky Agency Data

Approved companies may recover up to 30 percent of qualifying expenditures for a motion picture or entertainment production filmed or produced in whole or in part in any Kentucky county other than in an enhanced incentive county and 35 percent for work in an enhanced incentive county. Qualifying expenditures include expenditures made in Kentucky that are directly used in or for a motion picture or entertainment production. Incentives were capped at $5.0 million for FY11 and $7.5 million for FY12. The cap was repealed in FY12 but re-imposed in 2018 at a level of $100 million and then subsequently lowered to $75 million in 2021 but made refundable again.

Beginning January 1, 2022, to qualify for the film industry tax credit, all applicants shall begin production within 6 months of filing an application with the Kentucky Economic Development Finance Authority and complete production within 2 years of the production start date. Prior to this date, film industry tax credits were approved and administered by the Kentucky Film Office and the Kentucky Film Commission which operated in the Tourism, Arts, and Heritage Cabinet.

Beginning with calendar year 2024, $25 million of the $75 million total tax credit limit shall be held until July 1 of each calendar year pending applications from approved companies with a continuous film production. On the first day of April 2025, and on April 1 of each calendar year thereafter, any unused balance allocated for continuous film productions shall be made available for all approved companies.

The following chart details the history for the film industry tax credit, detailing when the credit was refundable or nonrefundable and how the total tax credit cap has been modified over time.

| Year Enacted | Refundability | Description | Tax Credit Cap |
|---|---|---|---|
| 2009 SS | Refundable only if the refund is issued on or after July 1, 2010 | Tax incentive agreements executed prior to January 1, 2015, the original sunset date for the tax credit | Caps in Budget FY 2011-$5 M FY 2012-$7.5 M |
| 2014 RS | | The sunset date of 1/1/15 was removed | |
| 2018 RS | Nonrefundable Nontransferable | Applications approved on or after April 27, 2018, but before January 1, 2022 | $100 M for each calendar year |
| 2021 RS | Refundable | Applications approved on or after January 1, 2022 | $75 M |

| | Corporate | LLET | Individual | Total |
|---|---|---|---|---|
| **FY 2026** | Minimal | $45.0 million | $10.0 million | $55.5 million |
| **FY 2027** | Minimal | $47.0 million | $10.2 million | $57.2 million |
| **FY 2028** | Minimal | $49.0 million | $10.4 million | $59.4 million |

## 5. Kentucky Jobs Retention Act Tax Credit (KJRA)

*Kentucky Revised Statutes 154.25-030 (2)(b)(1), effective 2007*
Data Source: Kentucky Taxpayer Data

Jobs retention project means the acquisition, construction, and installation of new equipment to facilities necessary to house the acquisition, construction, and installation of new equipment to improve the economic and operational situation of an approved company to allow the approved company to reinvest in its operations and retain a significant number of existing jobs within the Commonwealth. 100 percent of the KJRA tax credit is applied against KRS 141.020 (individual income tax), 141.040 (corporation income tax) and 141.0401 (limited liability entity tax). The balance of unused approved costs from a previously existing economic development tax incentive project may be available to be transferred to KJRA project.

| | Corporate | LLET | Individual | Total |
|---|---|---|---|---|
| **FY 2026** | $26.0 million | Minimal | $28.9 million | $54.9 million |
| **FY 2027** | $26.0 million | Minimal | $29.5 million | $55.5 million |
| **FY 2028** | $26.0 million | Minimal | $30.1 million | $56.1 million |

## 6. Kentucky Business Investment Credit (KBI)

*Kentucky Revised Statutes 154.32-020, effective 2009*
Data Source: Kentucky Taxpayer Data

Tax incentives are available for the approved company for up to 15 years in enhanced incentive counties or up to 10 years in other counties via:

- Tax Credits up to 100 percent of corporate income or limited liability entity tax liability arising from the project.

- Wage Assessment incentives up to 100 percent of gross wages of each employee in enhanced incentive counties or up to 4 percent (including up to 1 percent required local participation) of gross wages of each employee in other counties. The employee receives credits for the fees against state income taxes and local occupational taxes so there is no impact on the employee. If the local community does not have a local occupational fee, then an alternative form of participation may be required. Local jurisdictions that impose a local occupational license fee may request to waive the local occupational fee requirement if the local jurisdiction offers alternative inducements of similar value satisfactory to KEDFA. Any credit not used in the year in which it was first available may be carried forward to subsequent years, provided that no credit may be carried forward beyond the term of the tax incentive agreement.

The amount of incentives allowed in any year shall not exceed the lesser of the tax liability of the approved company related to the economic development project for that year or the annual maximum approved costs set forth in the tax incentive agreement. The incentives shall be allowed for each fiscal year of the approved company during the term of the tax incentive agreement for which a tax return is filed by the approved company.

| | Corporate | LLET | Individual | Total |
|---|---|---|---|---|
| **FY 2026** | $3.5 million | Minimal | $42.2 million | $45.7 million |
| **FY 2027** | $3.5 million | Minimal | $43.2 million | $46.7 million |
| **FY 2028** | $3.5 million | Minimal | $44.0 million | $47.5 million |

## 7. Inventory Tax Credit

*Kentucky Revised Statutes 141.408, effective 2018*
Data Source: Kentucky Taxpayer Data

The inventory tax credit is a nonrefundable and nontransferable credit for the amount of timely paid tangible property tax on business inventories. The amount of the tax credit equals the property tax payments made to both local governments and the state. The credit may be taken against the tax imposed by KRS 141.020 (individual income tax), KRS 141.040 (corporation income tax), and KRS 141.0401 (limited liability entity tax). Unused credit amounts cannot be carried forward to later tax years. (Note: the bourbon distillers are now allowed to utilize the unused credits from past year per HB 5 2023 Regular Session)

The non-refundable and nontransferable credit to each taxpayer paying the ad valorem tax on inventory on a timely basis was phased in as follows:

1. 25 percent of the ad valorem taxes timely paid for taxable years beginning on or after January 1, 2018, and before January 1, 2019;
2. 50 percent of the ad valorem taxes timely paid for taxable years beginning on or after January 1, 2019, and before January 1, 2020;
3. 75 percent of the ad valorem taxes timely paid for taxable years beginning on or after January 1, 2020, and before January 1, 2021; and
4. 100 percent of the ad valorem taxes timely paid, for taxable years beginning on or after January 1, 2021.

## 8. Biodiesel Tax Credit

*Kentucky Revised Statutes 141.423, effective 2007*
Data Source: Kentucky Taxpayer Data

A credit of up to $1 per gallon may be taken for producing or blending biodiesel and renewable diesel fuels. The total amount that may be taken is capped each fiscal year. The annual biodiesel, renewable diesel, and renewable chemical production tax credit cap for calendar years beginning on or after January 1, 2021, is $10.0 million. The amounts shown below are equal to the tax credit cap for each year. The nonrefundable tax credit may be applied against the taxes imposed by KRS 141.020, 141.040 and 141.0401. Any unused credit may not be carried forward to subsequent tax years.

## 9. Ethanol Tax Credit

*Kentucky Revised Statutes 141.4242, effective 2007*
Data Source: Kentucky Taxpayer Data

A producer of ethanol is allowed a credit equal to $1 per gallon, capped at a total of $5 million in credits authorized per year for all producers. For taxable years beginning after December 31, 2017, the non-refundable credit shall be applied both to the income tax imposed under KRS 141.020 or 141.040 and to the limited liability entity tax imposed under KRS 141.0401. The ethanol tax credit provided shall not be carried forward to a return for any other period. Unused portions of the annual cellulosic ethanol tax credit cap maybe transferred to the ethanol tax credit program on an annual basis.

## 10. New Markets Development Program Tax Credit

*Kentucky Revised Statutes 141.434, effective 2010*
Data Source: Kentucky Taxpayer Data

This credit was created to encourage taxpayer investment in low-income communities via a nonrefundable credit against the taxes imposed by KRS141.020, 141.040, 141.0401, 136.320, 136.330, 136.340, 136.350, 136.370, 136.390, or 304.3-270. The maximum amount of tax credit is capped at $10 million in each fiscal year. The amount of the credit shall be equal to 39 percent of the purchase price of the qualified equity investment made by the person or entity claiming the credit. The qualified community development entity must invest at least 85 percent of the funds received via a qualified equity investment in qualified active low-income community businesses located in the Commonwealth of Kentucky within 24 months after the issuance of the investment for years prior to 2014. For years beginning in 2014 the qualified community development entity must invest 100 percent of the funds received via a qualified equity investment in qualified active low-income community businesses located in the Commonwealth of Kentucky within 12 months after the issuance of the investment.

## 11. Decontamination Property Credit

*Kentucky Revised Statutes 141.419, effective 2022*
Data Source: Kentucky Taxpayer Data

A taxpayer may take a refundable credit for making a qualifying expenditure at a qualifying decontamination property to encourage investment and decontamination or remediation of qualifying decontamination property. The credit is equal to the qualifying expenditures. This credit cannot be taken in combination with credits under KRS 141.418.

## 13. Kentucky Rural Economic Development Act Credit (KREDA)

*Kentucky Revised Statutes 154.22-050(8)(a), effective 1988*
Data Source: Kentucky Taxpayer Data

A 100 percent credit is allowed against the income tax and the limited liability entity tax of an approved company imposed under KRS 141.020 or KRS 141.040 and KRS 141.0401 generated by or arising out of the economic development project. The credit can be carried forward for up to fifteen years but cannot exceed the authorized cumulative approved costs under the respective financing agreement.

In 2009, the General Assembly consolidated all economic credits into one program. No new applications for KREDA are being accepted, preliminary or final approval in accordance with KRS154.22 on or before June 26, 2009, determine the credit allowed. Kentucky continues to pay out credits that were previously approved.

## 14. Metropolitan College Program Tax Credit

*Kentucky Revised Statutes 141.381, effective 2009*
Data Source: Kentucky Taxpayer Data

To be eligible for the tax credit provided by this section, a qualified taxpayer must be a partner in Metropolitan College. A qualified taxpayer is allowed a nonrefundable credit against the tax imposed by KRS 141.020 or 141.040, and KRS 141.0401. Parties to the Metropolitan College Consortium Agreement may qualify for a 50 percent tax credit of the actual costs incurred by the qualified taxpayer for tuition paid to an educational institution and other educational expenses paid on behalf of a student participating in the metropolitan college. The credit shall expire on April 15, 2027, unless extended by the General Assembly.

## 15. Endow Kentucky

*Kentucky Revised Statutes 141.438, effective 2010*
Data Source: Kentucky Taxpayer Data

For taxable years beginning on or after January 1, 2011, the Endow Kentucky tax credit shall be equal to 20 percent of the value of the endowment gift provided by the taxpayer, not to exceed $10,000.

The credit shall be nonrefundable tax under KRS 141.020, KRS 141.040, or KRS 141.0401 but any amount of credit that a taxpayer is not able to utilize during a particular taxable year may be carried forward for use in a subsequent taxable year, for a period not to exceed 5 years.

The total amount of tax credit that may be awarded under this section shall be limited to: (a) $500,000 in each fiscal year beginning on or before July 1, 2015; and (b) $1.0 million in each fiscal year beginning on or after July 1, 2016.

## 16. Recycling and/or Composting Equipment Credit

*Kentucky Revised Statutes 141.390, effective 1991*
Data Source: Kentucky Taxpayer Data

A credit of 50 percent of the installed cost of recycling or composting equipment, used exclusively in this state, for post-consumer waste is allowed against KRS 141.020 or 141.040 and 141.0401. This credit can be taken until the amount of credit awarded has been completely utilized.

The credit shall be limited to a period of ten years commencing with the approval of the recycling credit application. The recycling credit was updated by HB 354 of the 2019 Regular Session of the General Assembly. For major recycling projects investing more than $500 million, 25 percent of the cost of the installed cost of the recycling or composting equipment may be deducted over thirty years against up to 75 percent of the tax liability.

## 17. Kentucky Industrial Revitalization Act Credit (KIRA)

*Kentucky Revised Statutes 141.403 and 154.26-090, effective 1992*
Data Source: Kentucky Taxpayer Data

Tax incentives are available for the approved company for up to 10 years via:

- Tax Credits up to 100 percent of corporate income or limited liability entity tax liability arising from the project.

- Wage Assessment incentives up to 5 percent (including up to 1 percent required local participation) of gross wages of each employee. The employee receives credits for the fees against state income taxes and local occupational taxes.

The tax incentives remain in place until the authorized incentive amount is realized or for the term of the tax incentive agreement, whichever occurs first. Unused credits that have been authorized for the project may be carried forward for the term of the tax incentive agreement; however, unused credits expire at the maturity of the agreement.

### 18. Kentucky Industrial Development Act Credit (KIDA)

*Kentucky Revised Statutes 141.400, effective 1992*
*Kentucky Revised Statutes 154.28-090, effective 1992*
Data Source: Kentucky Taxpayer Data

A 100 percent credit is allowed against the income of an approved company under KRS 141.020, 141.040 and 141.0401 generated by or arising out of the economic development project. The credit can be carried forward for up to ten years from the activation date, but cannot exceed, in any fiscal year, the authorized cumulative approved costs paid in the three-year period commencing with the date of final approval of the economic development project. In 2009, the General Assembly consolidated all economic credits into one program. No new applications are being accepted. Kentucky continues to pay out credits that were approved before the repealed date of the statute.

## 22. Distilled Spirits Credit

*Kentucky Revised Statutes 141.389, effective 2014*
Data Source: Kentucky Taxpayer Data

There shall be allowed a nonrefundable and nontransferable credit to each taxpayer paying the distilled spirits ad valorem tax on a timely basis as follows:

1. For taxable years beginning on or after January 1, 2015, and before December 31, 2015, the credit shall be equal to 20 percent of the tax;
2. For taxable years beginning on or after January 1, 2016, and before December 31, 2016, the credit shall be equal to 40 percent of the tax;
3. For taxable years beginning on or after January 1, 2017, and before December 31, 2017, the credit shall be equal to 60 percent of the tax;
4. For taxable years beginning on or after January 1, 2018, and before December 31, 2018, the credit shall be equal to 80 percent of the tax;
5. For taxable years beginning on or after January 1, 2019, the credit shall be equal to 100 percent of the tax.

The credit may be taken against the tax imposed by KRS 141.020 (individual income tax), KRS 141.040 (corporation tax), and KRS 141.0401 (limited liability entity tax). The amount of distilled spirits tax credit allowed is only for capital improvements at the premises of the licensed distiller. Unused credit amounts cannot be carried forward to later tax years. However, the distilled spirits tax credit may be accumulated for multiple taxable years. The amount of the credit cannot exceed the amount of distilled spirits ad valorem tax paid during the period the capital improvements were made and completed.

## 23. Kentucky Small Business Tax Credit (KSBTC) / Selling Farmers Tax Credit

*Kentucky Revised Statutes 141.384, 154.60-020, effective 2009*
*Kentucky Revised Statutes 141.3841, effective 2020*
Data Source: Kentucky Taxpayer Data

A small business under the provisions of 154.60-020 may be eligible for a non-refundable credit of up to 100 percent of the tax imposed pursuant to KRS 141.020 or 141.040 and KRS 141.0401. The maximum amount of credits that may be committed in each fiscal year by the Kentucky Economic Development Finance Authority is capped at $3 million. The maximum amount of credit for each small business for each year cannot exceed $25,000. Unused credits may be carried forward for up to five years. In the 2019 Regular Session of the General Assembly, the program eligibility requirements were expanded to assist farmers selling active agricultural land and assets to beginning farmers.

A tax credit equal to 5 percent of the selling price of qualifying agricultural assets is available for selling farmers. There is a $25,000 cap for each taxable year for each farmer. And a $100,000 lifetime cap for each farmer. The Selling Farmers tax credit and the Small Business tax credit are together capped at $3 million.

## 26. Cryptocurrency Incentives

*Kentucky Revised Statute 154.27-080, effective 2021*
*Kentucky Revised Statute 139.516(2), effective 2021*
Data Source: Kentucky Agency Estimate, Fiscal Impact from the 2021 Session

The cryptocurrency incentives include a sales tax incentive that exempts all electricity sold or purchased on or after the effective date of application and before July 1, 2030. Also included are all of the incentives offered under the previously named Energy Independence Act, now called the "Incentives for Energy-related Business Act." These incentives from the Incentives for Energy-Related Business Act include:

(a) An advance disbursement of post-construction incentives for which an approved company has been approved, the maximum amount of which is based upon the estimated labor component of the total capital investment of the eligible project, and the utilization of Kentucky residents during the construction period as set forth in KRS 154.27-090;

(b) Sales and use tax incentives of up to 100 percent of the taxes paid on purchases of tangible personal property made to construct, retrofit, or upgrade the cryptocurrency mining equipment at a facility, as set forth in KRS 139.517 and 154.27-070;

(c) Up to 80 percent of the severance taxes paid on the purchase or severance of: 1. Coal that is subject to the tax imposed under KRS 143.020 and that is specifically used by a cryptocurrency mining project as feedstock for an eligible project, as set forth in KRS 143.024 and 154.27-060;

(d) Up to 100 percent of the Kentucky income tax imposed under KRS 141.040 or 141.020, and the limited liability entity tax imposed under KRS 141.0401 on the income, Kentucky gross profits, or Kentucky gross receipts of the approved company generated by or arising from the eligible project; and

(e) Authorization for the approved company to impose a wage assessment of up to 4 percent of the gross wages of each employee subject to the Kentucky income tax.

The maximum recovery from all incentives shall not exceed 50 percent of the capital investment in the eligible project.

## 30. Kentucky Investment Fund Act Credit (KIFA)

*Kentucky Revised Statutes 154.20-258, effective 2002*
Data Source: Kentucky Taxpayer Data

For investments approved before January 1, 2023, an investor making a cash contribution to a qualified investment fund is allowed a credit equal to 40 percent of the ownership share of all qualified investments made by its fund. For investments approved after January 1, 2023, the tax credit shall not exceed 25 percent. The credit may be carried forward up to 15 years, but cannot exceed 50 percent of the initial aggregate credit amount approved for the investment fund, which would be proportionally available to investors. The credit may be applied against KRS 141.020, 141.040 and 141.0401. The credit may also be applied against Bank Franchise and Insurance Premiums taxes. The total amount of tax credits available to any single investment fund awarded tax credits shall not exceed, in aggregate, $8 million for all investors and all taxable years.

## 31. Voluntary Environmental Remediation Credit

Kentucky Revised Statutes 141.418, effective 2005
Data Source: Kentucky Taxpayer Data

There shall be allowed a nonrefundable credit against the tax imposed under KRS 141.020 or KRS 141.040 for taxable years beginning after December 31, 2004. There shall be allowed a nonrefundable credit against the tax imposed under KRS 141.0401 for taxable years beginning after December 31, 2006. The credit is based on expenditures made at a qualifying voluntary environmental remediation property in order to correct the effect of release of hazardous substances, pollutants, contaminants, petroleum, or petroleum products on the property consistent with a corrective action plan approved by the Energy and Environment Cabinet. The maximum total credit for each taxpayer shall not exceed $150,000. The amount of the allowable credit for any taxable year shall be 25 percent of the maximum credit approved. The credit may be carried forward for a maximum of 10 successive taxable years.

# Corporation Income and Limited Liability Entity Taxes

**Corporation Income Tax Rates:**
For taxable years beginning on or after January 1, 2018, the corporate income tax rate is a flat rate of 5 percent of taxable net income.

For those entities covered by the limited liability entity tax, the tax is the lesser of two computations, based on either Kentucky gross receipts or Kentucky gross profits.

When computing the tax using the gross receipts method, the tax rate is nine and one-half cents ($0.095) per one hundred dollars ($100) of gross receipts. When computing the tax using the gross profits method, the tax rate is seventy-five cents ($0.75) per one hundred dollars ($100) of gross profits. If gross receipts or gross profits are less than $3.0 million, the LLET tax shall be $175. For taxpayers with gross receipts or gross profits between $3.0 million and $6.0 million, a partial exemption is given.

**Tax Base:**
The tax base for the corporation income tax is taxable net income. Taxable net income is essentially gross income minus allowable deductions, with apportionment and allocation provisions for multistate corporations.

Corporations apportion income to Kentucky using a single-factor apportionment fraction based on receipts. Additionally, receipts are now sourced to Kentucky if the taxpayer's market for that sale is in this state. Prior to this change, receipts from the sale of a service and sales other than tangible personal property were sourced based on the greater cost of performance for that sale.

A provider of communications service, cable service, or internet access continues to apportion taxable income to Kentucky using the three-factor formula based on property, payroll, and receipts.

For taxable years beginning on or after January 1, 2021, every corporation doing business in Kentucky shall, for each taxable year, file a combined report if the corporation is a member of a unitary business group; a Federal consolidated return, by making an election to file, for a period of 48 consecutive calendar months, with

all members of the affiliated group that file for federal income tax purposes; or a separate return, if not required to file a combined report.

For taxable years beginning on or after January 1, 2021, financial institutions will be subject to the corporation income tax and the limited liability entity tax.

Every corporation doing business in this state must pay an annual tax. The term "doing business" is defined to include, but is not limited to:

- Being organized under the laws of this state;
- Having a commercial domicile in this state;
- Owning or leasing property in this state;
- Having one or more individuals performing services in this state;
- Maintaining an interest in a pass-through entity doing business in this state;
- Deriving income from or attributable to sources within this state, including deriving income directly or indirectly from a trust or disregarded single-member limited liability company that is doing business in this state; or
- Directing activities at Kentucky customers for the purpose of selling them goods or services.

For tax years beginning on or after January 1, 2021, the following corporations are specifically exempted from the corporation income tax:

(a) Insurance companies, including farmers' or other mutual hail, cyclone, windstorm, or fire insurance companies, insurers, and reciprocal underwriters;

(b) Corporations or other entities exempt under Section 501 of the IRC;

(c) Religious, educational, charitable, or like corporations not organized or conducted for pecuniary profit; and

(d) Corporations whose only owned or leased property located in this state is located at the premises of a printer with which it has contracted for printing, provided that: (1) the property consists of the final printed product, or copy from which the printed product is produced; and (2) the corporation has no employee receiving compensation in this state as provided in KRS 141.120(8)(b).

The taxable period for income tax is one year (or less in limited circumstances). Corporations must use the same accounting period as is used for federal income tax purposes. Corporations with an anticipated liability in excess of $5,000 for the year must file declarations of estimated tax and make estimated tax payments. For tax years beginning on or after January 1, 2019, 25 percent declaration payments are due on the 15th day of the fourth month, sixth month, ninth month, and twelfth month of the tax year.

**Tax Due:**
The tax return and payment of any corporate or limited liability entity tax liability are due on the fifteenth day of the fourth month following the close of the taxable period, April 15th for calendar-year corporations.

Extensions of time within which to file the return are available. To avoid penalty, the entire amount of tax due must be paid by the original due date of the return.

**Background:**
The corporation income tax was first levied in 1936. The rate was 4.0 percent of net income attributable to Kentucky after the deduction of federal income tax. In 1972, the deduction of federal income tax was repealed. Several rate changes have occurred, including increasing the top rate of the graduated scale to 7.25 percent and 8.25 percent in 1985 and 1990, respectively.

The 2005 General Assembly made significant changes to the corporation income statutes by:

- including limited liability entities within the definition of corporation;
- providing an alternative minimum calculation with two optional calculations;
- reducing the top rate of the graduated scale to 7 percent for taxable years beginning on or after January 1, 2005 and prior to January 1, 2007 and 6 percent for taxable years beginning on or after January 1, 2007; and
- closing multiple loopholes in order to provide a broader base on which to assess the lower rates.

During the 2006 Special Session of the General Assembly, the inclusion of limited liability entities and the alternative minimum calculation were repealed. Effective for taxable periods beginning on or after January 1, 2007, only formally incorporated entities file the corporation income tax return. The treatment of pass-through income from limited liability pass-through entities conforms to the federal treatment. The

alternative minimum calculation was eliminated, and a new limited liability entity tax (LLET) was enacted.

Effective for taxable years beginning on or after January 1, 2007, the LLET is imposed on corporations and other entities which afford limited liability to their owners, including limited liability companies, limited liability partnerships, limited partnerships, and S corporations.

During the 2018 Regular Session of the General Assembly, substantial changes to the Kentucky tax code were enacted. Effective for taxable periods beginning on or after January 1, 2018, the corporate tax rate is a flat tax rate of 5 percent for all corporations. Additionally, Kentucky replaced the three-factor apportionment with a single receipts factor formula. The single factor sales apportionment applies to apportionable income rather than business income. Kentucky also adopted market-based sourcing which requires corporations to assign certain receipts to the apportionment formula based on the destination of the sales. In general, if the market for a corporation's sales is in Kentucky, the receipts must be assigned to Kentucky in the numerator of the sales factor for apportionment.

Finally, a nonrefundable and nontransferable credit for state and local property taxes paid on certain business inventory was created. The credit, which is now completely phased in, increased from 25 percent to 100 percent from the 2018 to 2021 tax years. The credit may be applied against the limited liability entity tax, the corporate income tax, and the personal income tax.

A new Decontamination Tax Credit was created in the 2022 Regular Session of the General Assembly. The tax credit is refundable and transferable against the corporate income tax and the LLET for 100 percent of qualifying expenses at a qualifying decontamination property.

Additionally, legislation enacted in 2022 raised the maximum credit available for the Historic Rehabilitation Tax Credit as well as allowing taxpayers to claim the Kentucky Investment Fund Tax Credit (KIFA) in the same tax year that the investment was made.

The 2024 Regular Session of the General Assembly enacted House Bill 8 GA which affected the corporation income and LLET taxes. One provision delayed the date that taxpayers can take the tax deferred tax deduction from January 1, 2024 to January 1, 2026.

Additionally, the bill created a tax credit for taxable years January 1, 2025, to January 1, 2029, equal to 50 percent of the sales and use tax paid on a qualified broadband investment in Kentucky, limited to a total of $5 million for all tax credits in each year.

**Table 5. Total Corporation Income and LLET Tax Expenditures**

| | Corporate | LLET | Total |
|---|---|---|---|
| **FY 2026** | $261.2 million | $36.1 million | $297.3 million |
| **FY 2027** | $261.2 million | $80.6 million | $341.8 million |
| **FY 2028** | $305.7 million | $36.4 million | $342.1 million |

## Exemptions

### 1. Dividend Income

*Kentucky Revised Statutes 141.039(1)(b), effective 1969*
Data Source: Kentucky Taxpayer Data

Dividend income (domestic and foreign) is excluded from gross income. As part of the Tax Cuts and Jobs Act of 2017, Global Intangible Low-Taxed Income ("GILTI") provisions were enacted to require a U.S. shareholder of a controlled foreign corporation to include in its gross income GILTI in manner similar to Subpart F income. KRS 141.039(1)(b) excludes dividend income in calculating the gross income for Kentucky income tax purposes. Kentucky treats Subpart F income as dividend income and, therefore, GILTI is considered nontaxable for Kentucky corporate income tax purposes.

This tax expenditure is associated with Kentucky's conformity with Federal tax law.

| | Corporate |
|---|---|
| **FY 2026** | $213.0 million |
| **FY 2027** | $213.0 million |
| **FY 2028** | $213.0 million |

## 2. Alternative Apportionment and Retained Three-Factor Apportionment

*Kentucky Revised Statutes 141.121(3), effective 2018*
Data Source: Kentucky Agency Estimate

Single sales factor apportionment is not required for certain communications services, cable services, and Internet access providers.

| | Corporate |
|---|---|
| **FY 2026** | $40.0 million |
| **FY 2027** | $40.0 million |
| **FY 2028** | $40.0 million |

## 3. Costs of Goods Sold, Bulk Delivery Charges, and Indirect Labor

*Kentucky Revised Statutes 141.0401(1)(d-g), effective 2007*
Data Source: Kentucky Taxpayer Data

When computing the LLET using the gross profits method, Kentucky gross receipts are reduced by the amount of costs of goods sold (COGS) as defined in KRS 141.0401(1)(d) attributable to Kentucky gross receipts. For manufacturing, producing, reselling, retailing, or wholesaling activities, COGS only includes costs directly incurred in the acquiring or producing the tangible product. For any activity other than manufacturing, producing, reselling, retailing, or wholesaling activities, no costs shall be included in a COGS reduction to gross profits.

| | LLET |
|---|---|
| **FY 2026** | $25.0 million |
| **FY 2027** | $25.0 million |
| **FY 2028** | $25.0 million |

### 4. Small Business Relief from the Limited Liability Entity Tax

*Kentucky Revised Statutes 141.0401(2)(b), effective 2008*
Data Source: Kentucky Taxpayer Data

To provide relief for small businesses, all entities with Kentucky gross profits or receipts less than $3 million are subject to the $175 minimum Limited Liability Entity Tax. Additionally, entities with Kentucky gross receipts or gross profits of $3 million to $6 million receive a proportional reduction based upon a prescribed calculation. Those entities with Kentucky gross receipts or profits over $6 million pay the full LLET.

| | **LLET** |
|---|---|
| **FY 2026** | $5.4 million |
| **FY 2027** | $5.4 million |
| **FY 2028** | $5.4 million |

### 5. Publicly Traded Partnerships

*Kentucky Revised Statutes 141.0401(6)(b)(14), effective 2007*
Data Source: Kentucky Agency Data

The LLET tax does not apply to a publicly traded partnership as defined by Section 7704(b) of the Internal Revenue Code that is treated as a partnership for federal tax purposes pursuant to Section 7704(c) of the Internal Revenue Code, or their publicly traded partnership affiliate.

This tax expenditure is associated with Kentucky's conformity with Federal tax law.

| | **LLET** |
|---|---|
| **FY 2026** | $2.0 million |
| **FY 2027** | $2.0 million |
| **FY 2028** | $2.2 million |

### 6. Real Estate Investment Trust

*Kentucky Revised Statutes 141.0401(6)(b)(9), effective* 1998
Data Source: Kentucky Taxpayer Data

The LLET tax does not apply to a real estate investment trust as defined in Section 856 of the Internal Revenue Code. For a corporation that meets the requirements established under Section 856 of the Internal Revenue Code to be a real estate investment trust, means "real estate investment trust taxable income" as defined in Section 857(b)(2) of the Internal Revenue Code, except that a captive real estate investment trust shall not be allowed any deduction for dividends paid, as defined by KRS 141.010(28)(d).

| | **LLET** |
|---|---|
| **FY 2026** | $1.2 million |
| **FY 2027** | $1.2 million |
| **FY 2028** | $1.3 million |

### 7. Personal Service Corporations

*Kentucky Revised Statutes 141.0401(6)(b)(12), effective 2007*
Data Source: Kentucky Taxpayer Data

The LLET tax does not apply to a personal service corporation as defined in Section 269A(b)(1) of the Internal Revenue Code.

| | **LLET** |
|---|---|
| **FY 2026** | $1.0 million |
| **FY 2027** | $1.0 million |
| **FY 2028** | $1.0 million |

## 8. Cooperatives, Cooperatives and Their Patrons, Homeowners Associations, Political Organizations

*Kentucky Revised Statutes 141.0401(6)(b)(13), effective 1998*
*Data Source: Kentucky Taxpayer Data*

LLET taxes do not apply to cooperatives described in Sections 521 and 1381 of the Internal Revenue Code. These include farmers' agricultural and other cooperatives organized or recognized under KRS Chapter 272, advertising cooperatives, purchasing cooperatives, homeowners associations, including those described in Section 528 of the Internal Revenue Code, political organizations as defined in Section 527 of the Internal Revenue Code, and rural electric and rural telephone cooperatives.

This tax expenditure is associated with Kentucky's conformity with Federal tax law.

| | **LLET** |
|---|---|
| **FY 2026** | $0.6 million |
| **FY 2027** | $0.6 million |
| **FY 2028** | $0.6 million |

## 9. Limited Liability Entity Tax Exemptions

*Kentucky Revised Statutes 141.0401(6)(a), effective 2007*
Data Source: Kentucky Taxpayer Data

For taxable years beginning prior to January 1, 2021, the LLET shall not apply to the following:

- Financial institutions, as defined in KRS 136.500, except banker's banks organized under KRS 287.135 or 286.3-135;
- Savings and loan associations organized under the laws of this state and under the laws of the United States and making loans to members only;
- Banks for cooperatives;
- Production credit associations;
- Insurance companies, including farmers' or other mutual hail, cyclone, windstorm, or fire insurance companies, insurers, and reciprocal underwriters;
- Corporations or other entities exempt under Section 501 of the Internal Revenue Code;
- Religious, educational, charitable, or like corporations not organized or conducted for pecuniary profit;

- Corporations whose only owned or leased property located in this state is located at the premises of a printer with which it has contracted for printing, provided that:
    a. The property consists of the final printed product, or copy from which the printed product is produced; and
    b. The corporation has no individuals receiving compensation in this state as provided in KRS 141.901;
- Public service corporations subject to tax under KRS 136.120;
- Open-end registered investment companies organized under the laws of this state and registered under the Investment Company Act of 1940;
- Any property or facility which has been certified as a fluidized bed energy production facility as defined in KRS 211.390;
- An alcohol production facility as defined in KRS 247.910;
- Real estate investment trusts as defined in Section 856 of the Internal Revenue Code;
- Regulated investment companies as defined in Section 851 of the Internal Revenue Code;
- Real estate mortgage investment conduits as defined in Section 860D of the Internal Revenue Code;
- Personal service corporations as defined in Section 269A(b)(1) of the Internal Revenue Code;
- Cooperatives described in Sections 521 and 1381 of the Internal Revenue Code, including farmers' agricultural and other cooperatives organized or recognized under KRS Chapter 272, advertising cooperatives, purchasing cooperatives, homeowners associations including those described in Section 528 of the Internal Revenue Code, political organizations as defined in Section 527 of the Internal Revenue Code, and rural electric and rural telephone cooperatives; or
- Publicly traded partnerships as defined by Section 7704(b) of the Internal Revenue Code that are treated as partnerships for federal tax purposes under Section 7704(c) of the Internal Revenue Code, or their publicly traded partnership affiliates. "Publicly traded partnership affiliates" shall include any limited liability company or limited partnership for which at least 80 percent of the limited liability company member interests or limited partner interests are owned directly or indirectly by the publicly traded partnership.

For taxable years beginning on or after January 1, 2021:

- Insurance companies, including farmers' or other mutual hail, cyclone, windstorm, or fire insurance companies, insurers, and reciprocal underwriters;
- Corporations or other entities exempt under Section 501 of the Internal Revenue Code;
- Religious, educational, charitable, or like corporations not organized or conducted for pecuniary profit;
- Corporations whose only owned or leased property located in this state is located at the premises of a printer with which it has contracted for printing, provided that:
    a. The property consists of the final printed product, or copy from which the printed product is produced; and
    b. The corporation has no individuals receiving compensation in this state as provided in KRS 141.901;
- Public service corporations subject to tax under KRS 136.120;
- Open-end registered investment companies organized under the laws of this state and registered under the Investment Company Act of 1940;
- Any property or facility which has been certified as a fluidized bed energy production facility as defined in KRS 211.390;
- An alcohol production facility as defined in KRS 247.910;
- Real estate investment trusts as defined in Section 856 of the Internal Revenue Code;
- Regulated investment companies as defined in Section 851 of the Internal Revenue Code;
- Real estate mortgage investment conduits as defined in Section 860D of the Internal Revenue Code;
- Personal service corporations as defined in Section 269A(b)(1) of the Internal Revenue Code;
- Cooperatives described in Sections 521 and 1381 of the Internal Revenue Code, including farmers' agricultural and other cooperatives organized or recognized under KRS Chapter 272, advertising cooperatives, purchasing cooperatives, homeowners associations including those described in Section 528 of the Internal Revenue Code, political organizations as defined in Section 527 of the Internal Revenue Code, and rural electric and rural telephone cooperatives; or
- Publicly traded partnerships as defined by Section 7704(b) of the Internal Revenue Code that are treated as partnerships for federal tax purposes under Section 7704(c) of the Internal Revenue Code, or their publicly traded

partnership affiliates. "Publicly traded partnership affiliates" shall include any limited liability company or limited partnership for which at least 80 percent of the limited liability company member interests or limited partner interests are owned directly or indirectly by the publicly traded partnership.

# Deductions from Income

## 1. Net Operating Loss Deduction

*Kentucky Revised Statutes 141.011, effective 1980*
*Kentucky Revised Statutes 141.200 (11), effective 2019*
Data Source: Kentucky Agency Estimate

In calculating Kentucky taxable income, a corporation may carry forward a net operating loss for twenty years, in order to reduce taxable income in profitable years. The net operating loss carry back deduction is not allowed for losses incurred in taxable years beginning on or after January 1, 2005. For taxable years beginning on or after January 1, 2005, but prior to January 1, 2019, mandatory nexus consolidated return filers shall not deduct an amount that exceeds, in the aggregate, 50 percent of the income realized by the remaining includible corporations that did not realize a net operating loss. For net operating losses generated on or after January 1, 2018, the limitation is 80 percent of the taxable net income as allowed by Section 172 of the Internal Revenue Code.

For taxable years beginning on or after January 1, 2019, the sharing of net operating loss among members of a unitary group is permitted, but when utilizing shared NOL limited to offsetting up to 50 percent of the taxable income. The sharing of tax credits among members of a unitary group is not permitted.

This tax expenditure is associated with Kentucky's conformity with Federal tax law.

| | **Corporate** |
|---|---|
| **FY 2026** | Substantial |

| **FY 2028** | $1.0 million | Minimal | $1.0 million |

### 3. Coal Conversion Credit

*Kentucky Revised Statutes 141.041, effective 1984*
Data Source: Kentucky Taxpayer Data

There shall be allowed a nonrefundable credit against the tax imposed on any corporation in which, on or after July 1, 1984, installs, modifies and utilizes facilities located in Kentucky for generating steam or hot water for space-heating or materials processing or for providing direct heat for industrial processes. The amount of the allowable credit shall be equal to 4.5 percent of the purchase price of the coal subject to taxation, consumed or substituted in each eligible heating facility minus any transporting costs included in the purchase price. The credit can be carried forward for 10 consecutive years. This credit shall be applied against the tax imposed by KRS 141.040 or KRS 141.0401.

# Motor Vehicle Usage Tax

**Current Rate Structure:**
The motor vehicle usage tax is levied on the retail price of the vehicle at the rate of 6 percent. A credit against the tax is allowed for substantially identical taxes paid to another state or foreign country on vehicles previously registered in such state or country, provided that the other state or country grants a similar credit for taxes paid in Kentucky.

**Tax Base:**
The retail price is defined as the total consideration given, reduced by the trade-in value of a motor vehicle presented by the buyer. The total consideration paid must be disclosed in a notarized affidavit signed by both buyer and seller. If an affidavit is not submitted, 90 percent of the Manufacturer's Suggested Retail Price (MSRP), including all standard and optional equipment and transportation charges is used. In the case of trucks with gross weight in excess of 10,000 pounds, the tax base is 81 percent of MSRP.

A person holding a certificate to operate as a U-Drive-It lessee may elect to pay the motor vehicle usage tax based on gross rental or lease charges instead of the retail price of the vehicle(s). Gross rental charges include only time and mileage charges.

**Taxable Unit:**
The tax is for the privilege of using a motor vehicle on the public highways of Kentucky and levied on the vehicle's retail price.

**Tax Due:**
The tax is paid to the county clerk when the vehicle is titled or registered for the first time in the state or upon the transfer of a previously registered vehicle.

**Background**:
Motor vehicles were originally taxed under the 3 percent gross receipts tax which was repealed in 1936. After the repeal of that tax, a special 3 percent tax on motor vehicles was enacted. The rate was increased to 5 percent in 1968 and to 6 percent in 1990.

Since 1936, the tax has been paid to the county clerk when a vehicle is first registered in the owner's name. In 2005, the General Assembly changed the incidence of taxation to the time when the vehicle is titled instead of when it is registered. The proceeds derived from the tax are deposited in the Road Fund to be used in the construction and maintenance of Kentucky's roads.

In 2009, a temporary trade-in allowance on new car purchases was introduced. For the period September 1, 2009 to August 31 2010, the purchase price of a new car was reduced by the value of the trade-in vehicle. The trade-in credit was available for one year or until a cap of $25 million was reached. In 2013, the General Assembly modified the temporary allowance for new vehicle trade-in credit, making the credit permanent for sales on or after July 1, 2014. Prior to 2009, there was a trade-in credit on used car purchases but not for new car transactions.

**Table 6. Total Motor Vehicle Usage Tax Expenditures**

| | |
|---|---|
| **FY 2026** | $209.0 million |
| **FY 2027** | $207.1 million |
| **FY 2028** | $205.7 million |

## Tax Expenditures

### 1. Trade-In Allowance on New and Used Motor Vehicle Purchases

*Kentucky Revised Statutes 138.4603, effective 2015*
Data Source: Kentucky Taxpayer Data

The retail price of a motor vehicle is reduced by the amount of total consideration given by the trade-in allowance of any motor vehicle traded in by the buyer.

| | |
|---|---|
| **FY 2026** | $156.0 million |
| **FY 2027** | $155.0 million |
| **FY 2028** | $154.0 million |

### 2. Large Truck Exclusion

*Kentucky Revised Statutes 138.470(16), effective 2003*
Data Source: Kentucky Taxpayer Data

Motor vehicles and farm trucks registered with a gross weight of 44,001 pounds or greater are not subject to the motor vehicle usage tax.

**FY 2026** $25.0 million
**FY 2027** $24.0 million
**FY 2028** $23.5 million

### 3. Sales to the United States, Commonwealth of Kentucky or any of its Political Subdivisions

*Kentucky Revised Statutes 138.470(1)(a), effective1942*
Data Source: Kentucky Taxpayer Data

Motor vehicle sales to the United States, Commonwealth of Kentucky or any of its political subdivisions are exempt from the motor vehicle usage tax.

**FY 2026** $17.1 million
**FY 2027** $17.2 million
**FY 2028** $17.3 million

### 4. Educational and Charitable Organizations

*Kentucky Revised Statutes 138.470(2), effective 2006*
Data Source: Kentucky Taxpayer Data

Motor vehicles sold to institutions of purely public charity and institutions of education not used or employed for gain by any person or corporation are exempt from the motor vehicle usage tax.

**FY 2026** $3.0 million
**FY 2027** $3.0 million
**FY 2028** $3.0 million

### 5. Immediate Family Member

*Kentucky Revised Statutes 138.470(6), effective 1976*
Data Source: Kentucky Taxpayer Data

Motor vehicles previously registered in Kentucky on or after July 1, 2005, or previously registered in Kentucky, transferred between husband and wife, parent and child, stepparent and stepchild, or grandparent and grandchild are exempt from the motor vehicle usage tax.

**FY 2026** $3.0 million
**FY 2027** $3.0 million
**FY 2028** $3.2 million

### 6. Military Exemption

*Kentucky Revised Statutes 138.470(4), effective 1968*
Data Source: Kentucky Taxpayer Data

Motor vehicles (both new and used) sold by or transferred from Kentucky dealers to resident and nonresident members of the Armed Forces on duty in this state are exempt from the motor vehicle usage tax.

House Bill 378 enacted in the 2015 General Assembly expanded KRS 138.470 to exempt resident military service members who are on duty in Kentucky from the usage tax on motor vehicles purchased from a Kentucky dealer. This is effective for vehicles purchased on or after June 28, 2015.

**FY 2026** $3.0 million
**FY 2027** $3.0 million
**FY 2028** $2.8 million

### 7. Transfers by Will or Court Order

*Kentucky Revised Statutes 138.470(9), effective 1970*
Data Source: Kentucky Taxpayer Data

Motor vehicles transferred by will, court order, or under the statutes covering descent and distribution of property are exempt if the vehicles were titled in Kentucky on or after July 1, 2005, or previously registered in Kentucky.

**FY 2026** $0.6 million
**FY 2027** $0.7 million
**FY 2028** $0.8 million

### 8. Repossessed Exemption

*Kentucky Revised Statutes 138.470(13), effective 1972*
Data Source: Kentucky Taxpayer Data

Motor vehicles that are repossessed by a secured party who has a security interest in effect at the time of repossession and a repossession affidavit are exempt provided that the repossessor has acted in accordance with all statutory requirements and the vehicle is held for resale only.

**FY 2026** $0.5 million
**FY 2027** $0.4 million
**FY 2028** $0.3 million

### 9. Insurance Company Transfers

*Kentucky Revised Statutes 138.470(14), effective 1976*
Data Source: Kentucky Taxpayer Data

Motor vehicles transferred to an insurance company to settle a claim are exempt. Such vehicles must be junked or held for resale only.

**FY 2026** $0.3 million
**FY 2027** $0.3 million
**FY 2028** $0.3 million

### 10. Transfers Between a Limited Liability Company and its Members

*Kentucky Revised Statutes 138.470(11), effective 1998*
Data Source: Kentucky Taxpayer Data

Motor vehicles transferred between a limited liability company and any of its members when there is no consideration, nominal consideration, or in sole consideration of the cancellation or surrender of stock are exempt.

**FY 2026** $0.2 million
**FY 2027** $0.2 million
**FY 2028** $0.2 million

### 11. Change in Business Structure

*Kentucky Revised Statutes 138.470(8), effective 1980*
Data Source: Kentucky Agency Estimate

Motor vehicles transferred to a corporation from a proprietorship or limited liability company, to a limited liability company from a corporation or proprietorship, or from a corporation or limited liability company to a proprietorship, within six months from the time that the business is incorporated, organized, or dissolved are exempt.

**FY 2026** $0.1 million
**FY 2027** $0.1 million
**FY 2028** $0.1 million

### 12. Rentals or Leases to the United States, Commonwealth of Kentucky or any of its Political Subdivisions

*Kentucky Revised Statutes 138.470(1)(b), effective 2021*
Data Source: Agency Estimate

Gross rental or lease charges are exempt from the motor vehicle usage tax for the lease or rental of motor vehicles to the United States, Commonwealth of Kentucky or any of its political subdivisions.

**FY 2026** $0.1 million
**FY 2027** $0.1 million
**FY 2028** $0.1 million

### 13. Transfers Between a Subsidiary and a Parent Corporation

*Kentucky Revised Statutes 138.470(10), effective 1970*
Data Source: Kentucky Taxpayer Data

Motor vehicles transferred between a subsidiary corporation and its parent when there is no consideration, nominal consideration, or in sole consideration of the cancellation or surrender of stock are exempt.

**FY 2026** $0.1 million
**FY 2027** $0.1 million
**FY 2028** $0.1 million

## 14. Adaptive Equipment for Physically Handicapped Persons

*Kentucky Revised Statutes 138.4603(1)(b), effective 1992, amended 2006*
Data Source: Kentucky Taxpayer Data

Retail price does not include that portion of the price of a vehicle attributable to equipment or adaptive devices necessary to facilitate or accommodate an operator or passenger with physical disabilities.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 15. Charter Bus Exemption

*Kentucky Revised Statutes 138.470(15), effective 2005*
Data Source: Kentucky Agency Estimate

Motor carriers operating under a charter bus certificate issued by the Transportation Cabinet pursuant to KRS Chapter 281 are not subject to the motor vehicle usage tax.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 16. Commercial Motor Vehicle Exemption

*Kentucky Revised Statutes 138.470(5), effective 1968*
Data Source: Kentucky Taxpayer Data

An exemption is provided for commercial motor vehicles, excluding passenger vehicles having a seating capacity of nine persons or less, owned by nonresidents, used primarily in interstate commerce, and based in another state, which are required to be registered in Kentucky by reason of operational requirements or fleet proration agreements, and which are registered pursuant to the forced registration provisions.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 17. Partnership Interests

*Kentucky Revised Statutes 138.470(12), effective 1970*
Data Source: Kentucky Taxpayer Data

The motor vehicle usage tax is not applied to the value of a transferred interest in a vehicle when a partner in a motor vehicle transfers his or her ownership to another partner.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

# Earmarked Funds

Earmarked funds are dedicated taxes or user fees, from which the proceeds must be spent on the legislatively authorized programs. Although not considered a tax expenditure, earmarked funds are included in the Tax Expenditure Analysis to account for the impact the dedicated funds have on the General Fund and the Road Fund Revenue.

**Table 7. Total Earmarked Funds**

| | |
|---|---|
| **FY 2026** | $184.1 million |
| **FY 2027** | $190.2 million |
| **FY 2028** | $196.5 million |

## 1. Kentucky Thoroughbred Development Fund

*Kentucky Revised Statutes 138.510 (1)(d)(1)(b) and 138.510 (2)(d)(1)(a), effective 1990*
*Kentucky Revised Statutes 230.400 (1)(b)(1), effective 2024*
*Kentucky Revised Statutes 230.400 (1)(b)(2)(a)(b), effective 2025*
Data Source: Kentucky Taxpayer Data

An amount equal to 0.75 percent of all money wagered on live races and historical horse races at the track for Thoroughbred racing shall be deposited in the Kentucky Thoroughbred development fund established in KRS 230.400 until $45.0 million has been deposited during a fiscal year, at which point the amount deposited in the fund shall decrease to 0.4 percent of all money wagered on live and historical horse races at the track for Thoroughbred racing for the remainder of the fiscal year to promote, enhance, improve, and encourage the further and continued development of the Thoroughbred breeding industry in Kentucky.

$100,000 per each fiscal year shall be transferred to the Kentucky Problem Gambling Assistance account established in KRS 230.826, any remaining moneys to the Kentucky Horse Racing and Gaming Corporation shall be divided, at least ninety percent shall be allocated to each licensed association and up to ten percent shall be allocated for administration and operation of the corporation.

| | |
|---|---|
| **FY 2026** | $58.0 million |
| **FY 2027** | $59.0 million |
| **FY 2028** | $60.0 million |

## 2. Sports Wagering Administration Fund - Excise Tax

*Kentucky Revised Statutes 230.817, effective 2023*
Data Source: Kentucky Taxpayer Data, Fiscal Impact 2023 Regular Session

Moneys deposited in the fund include the fees paid by licensees and the new excise tax imposed. Moneys are to be used for administrative expenses relating to or associated with the purposes of sports wagering which shall be disbursed by the Finance and Administration Cabinet upon the warrant of the Public Protection Cabinet, with 2.5 percent of the moneys transferred to the Kentucky Problem Gambling Assistance account. The remaining moneys are to be deposited in the Kentucky Permanent Pension Fund established in KRS 42.205.

**FY 2026** $38.2 million
**FY 2027** $39.7 million
**FY 2028** $41.3 million

## 3. Kentucky Aviation Economic Development Fund - Sales Tax

*Kentucky Revised Statutes 183.525, effective 2000*
Data Source: Kentucky Taxpayer Data

All receipts from sales and use tax collected on aviation jet fuel is dedicated to the development fund. Moneys deposited finance the development, rehabilitation, and maintenance of publicly owned or operated aviation facilities and other aviation programs within the Commonwealth that will benefit publicly owned or operated aviation facilities.

**FY 2026** $21.1 million
**FY 2027** $21.9 million
**FY 2028** $22.6 million

## 4. Equine Breeders Incentive Funds - Sales Tax

*Kentucky Revised Statutes 230.800, 230.802 and 230.804, effective 2005*
Data Source: Kentucky Taxpayer Data

At least ninety percent of all receipts collected under KRS 139.531(1)(a) from the sales and use tax on the fees paid for breeding a stallion to a mare in Kentucky are dedicated to the breeders incentive funds on a percentage basis. Up to ten percent may be allocated for administration and operation purposes. The Kentucky Horse Racing and Gaming Corporation administers the funds and incentivizes breeders of horses bred and foaled in Kentucky, as well as provides incentive for breeders or owners of Kentucky-bred Standardbred horses.

Eighty percent of all receipts collected are dedicated to the Kentucky Thoroughbred Breeders Incentive Fund.

**FY 2026** $20.1 million
**FY 2027** $22.0 million
**FY 2028** $23.9 million

Thirteen percent of all receipts collected are dedicated to the Kentucky Standardbred Breeders Incentive Fund.

**FY 2026** $3.3 million
**FY 2027** $3.6 million
**FY 2028** $3.9 million

Seven percent of all receipts collected are dedicated to the Kentucky Horse Breeders Incentive Fund.

**FY 2026** $1.8 million
**FY 2027** $1.9 million
**FY 2028** $2.1 million

## 5. Kentucky Standardbred Development Fund

*Kentucky Revised Statutes 138.510 (1)(d)(2)(a)(b) and 138.510 (2)(d)(1)(b), effective 1990*
*Kentucky Revised Statutes 230.770 (1)(c)(1), effective 2024*
*Kentucky Revised Statutes 230.770 (1)(c)(2)(a)(b), effective 2025*
Data Source: Kentucky Taxpayer Data

An amount equal to 1.0 percent of all money wagered on live races and historical horse races at the track for harness racing shall be deposited in the Kentucky standardbred development fund until a total of $20.0 million has been deposited during a fiscal year from this subparagraph, at which point the amount deposited shall decrease to 0.4 percent of all money wagered for the remainder of the fiscal year. The Kentucky Horse Racing and Gaming Corporation shall use this fund, established by KRS 230.770 to promote races and provide purses for Kentucky-bred Standardbred horses.

$75,000 per each fiscal year shall be transferred to the Kentucky Problem Gambling Assistance account established in KRS 230.826, any remaining moneys to the Kentucky Horse Racing and Gaming Corporation shall be divided, at least ninety percent shall be allocated to each licensed association and up to ten percent shall be allocated for administration and operation of the corporation.

**FY 2026** $20.0 million
**FY 2027** $21.0 million
**FY 2028** $22.0 million

## 6. TVA Payments in lieu of Taxes

*Kentucky Revised Statute 96.895(5)(a)(b), effective 2021*
Data Source: Kentucky Taxpayer Data

For fiscal years beginning on or after July 1, 2020, a portion of the total fiscal year payment received by the Commonwealth from the Tennessee Valley Authority (TVA) that is allocated to the general fund shall be transferred from the general fund to the Regional Development Agency Assistance Program Fund. The portion shall be equal to $6.0 million and disbursed equally amongst each fund-eligible county.

**FY 2026** $6.0 million
**FY 2027** $6.0 million
**FY 2028** $6.0 million

## 7. Resident Advanced Deposit Wagering

*Kentucky Revised Statues 138.530(3)(e)(2)(a), effective 2014*
Data Source: Kentucky Taxpayer Data

Eighty-five percent of the revenues received from all amounts wagered by Kentucky residents through advanced deposit wagering licensees, imposed by KRS 138.513 is allocated equally between the recognized host track and the association that conducted the race.

**FY 2026** $4.6 million
**FY 2027** $4.3 million
**FY 2028** $4.1 million

## 8. Kentucky Quarter Horse, Paint Horse, Appaloosa, and Arabian Development Fund - Pari-Mutuel Tax

*Kentucky Revised Statutes 138.510(1)(d)(3) and 138.510(2)(d)(1)(c), effective 1990*
*Kentucky Revised Statutes 230.445(1)(c)(1), effective 2024*
*Kentucky Revised Statutes 230.445(1)(c)(2)(a)(b), effective 2025*
Data Source: Kentucky Taxpayer Data

One percent of all money wagered on live races and historical horse races at the track for quarter horse, paint horse, Appaloosa, and Arabian horse racing shall be deposited in the Kentucky quarter horse, paint horse, Appaloosa, and Arabian development fund established by KRS 230.445 to promote races and provide purses for races for horses bred and foaled in the Commonwealth.

$25,000 per each fiscal year shall be transferred to the Kentucky Problem Gambling Assistance account established in KRS 230.826, any remaining moneys to the Kentucky Horse Racing and Gaming Corporation shall be divided, at least ninety percent shall be allocated to each licensed association and up to ten percent shall be allocated for administration and operation of the corporation.

**FY 2026** $3.7 million
**FY 2027** $3.9 million
**FY 2028** $4.0 million

## 9. Cancer Research Fund - Cigarette Tax

*Kentucky Revised Statute 138.140(1)(c), effective 2005*
Data Source: Kentucky Taxpayer Data

A surtax on the sale of cigarettes at a proportionate rate of one cent on each twenty cigarettes sold is dedicated to the cancer research institutions matching fund, created in KRS 164.043. The surtax is in addition to the tax levied on the sale of cigarettes within the state at a proportionate rate of three cents and one dollar and six cents on each twenty cigarettes.

**FY 2026** $2.3 million
**FY 2027** $2.1 million
**FY 2028** $2.0 million

## 10. Equine Industry Program Trust and Revolving Fund - Pari-Mutuel Tax

*Kentucky Revised Statutes 138.510(1)(4)(a)(b)(c)(d) and 138.510(2)(d)(2), effective 2022*
*Kentucky Revised Statutes 138.510(1)(d)(4)(d)(i)(ii), effective 2024*
Data Source: Kentucky Taxpayer Data

An amount equal to 0.2 percent of the total amount wagered on live races and historical horse races at the track is earmarked to support the Equine Industry Programs at the University of Louisville, the University of Kentucky, and Bluegrass Community and Technical College. Any amount remaining from historical horse races is earmarked for the Kentucky Horse Racing and Gaming Corporation for the benefit of Thoroughbred, standardbred, and American quarter horse aftercare facilities in Kentucky, in an amount not to exceed $250,000 and the Kentucky equine management internship program for equine management training, in an amount not to exceed $250,000.

An amount equal to 0.025 percent of the amount wagered on all tracks conducting telephone account wagering, participating as receiving tracks in intertrack wagering and receiving tracks displaying simulcasts are earmarked to support the Equine Industry Program at the University of Louisville.

**FY 2026** $2.2 million
**FY 2027** $2.1 million
**FY 2028** $2.0 million

## 11. Tobacco Research Trust Fund - Cigarette Tax

*Kentucky Revised Statutes 248.540, effective 1970*
Data Source: Kentucky Taxpayer Data

The tax revenues received from the additional one-half cent tax levied by Chapter 255 of the Acts of 1970 are dedicated to the tobacco research-trust fund. The funds are used to finance research projects and programs authorized under the provisions of KRS 248.510 to 248.570.

**FY 2026** $1.2 million
**FY 2027** $1.1 million
**FY 2028** $1.0 million

## 12. Malt Beverage Educational Fund – Beer Wholesale and Excise Tax

*Kentucky Revised Statutes 211.285(1), effective 1998*
Data Source: Kentucky Taxpayer Data

One percent of the wholesale tax collected from distributors of malt beverages and microbreweries under KRS 243.884, and 1.0 percent of the excise tax collected from the sale and distribution of malt beverages under KRS 243.720 are dedicated to the malt beverage educational fund. In partnership with the Malt Beverage Educational Corporation, moneys are matched to fund educational materials aiming to deter or eliminate underage drinking.

**FY 2026** $0.8 million
**FY 2027** $0.8 million
**FY 2028** $0.8 million

## 13. Equine Drug Research - Pari-Mutuel Tax

*Kentucky Revised Statutes 138.510(l)(d)(6), effective 1982*
Data Source: Kentucky Taxpayer Data

An amount equal to 0.1 percent of the total amount wagered on live races and historical horse races is earmarked for the corporation to support equine drug testing as provided in KRS 230.265(3). The amount derived from money wagered on historical horse races in any fiscal year shall not exceed $320,000.

**FY 2026** $0.4 million
**FY 2027** $0.4 million
**FY 2028** $0.4 million

### 14. Higher Education Equine Trust and Revolving Fund - Pari-Mutuel Tax

*Kentucky Revised Statutes 138.510(1)(d)(5)(a), effective 1992*
Data Source: Kentucky Taxpayer Data

An amount equal to 0.1 percent of the total amount wagered on live races and historical horse races at the track is dedicated to fund construction, expansion, or renovation of facilities or the purchase of equipment for equine programs at state universities and the Bluegrass Community and Technical College. The amount derived from money wagered on historical horse races in any fiscal year shall not exceed $320,000.

**FY 2026** $0.4 million
**FY 2027** $0.4 million
**FY 2028** $0.4 million

### 15. County Clerk Share for Collection - Sales Tax

*Kentucky Revised Statutes 139.778(4), effective 2007*
Data Source: Kentucky Agency Estimate

County clerks retain a fee of 3 percent to compensate for services provided in the collection of sales and use tax on tangible personal property purchased out of state for titling or initial registration. The remaining tax balance is remitted to the Department of Revenue as provided in KRS 138.464.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

### 16. Department of Energy Development and Independence – Ad Valorem Tax

*Kentucky Revised Statutes 132.020(5), effective 1994*
Data Source: Kentucky Taxpayer Data

An annual amount of $400,000 of state property tax revenue is credited to the Office of Energy Policy for the purpose of public education regarding coal-related issues.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

### 17. Kentucky Heritage Land Conservation Fund – Ad Valorem Tax

*Kentucky Revised Statutes 132.020(2) and (5), effective 1994*
Data Source: Kentucky Taxpayer Data

All real property tax derived from unmined coal property is devoted to the Kentucky Heritage Land Conservation Fund, with exception to $400,000 that is paid annually to the State Treasury and credited to the Office of Energy Policy for the purpose of public education of coal-related issues. The calculated real property tax rate is established through provisions of subsection (2) and (5) of KRS 132.020.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

### 18. Kentucky Transportation Center - Motor Fuels Tax

*Kentucky Revised Statutes 177.320(4), effective 1986*
Data Source: Kentucky Taxpayer Data

An amount equal to 0.1 percent of all revenues arising from the imposition of taxes on gasoline and special fuels provided by KRS 138.220(1) and (2), 138.660 and liquefied petroleum gas provided by KRS 234.320 are dedicated to the Kentucky Transportation Center to finance construction, reconstruction, and maintenance of secondary and rural roads. The amount deposited to the center in any fiscal year shall not exceed $190,000.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

### 19. Tobacco Enforcement Program - Cigarette Tax

*Kentucky Revised Statutes 438.335 effective 1996*
Data Source: Kentucky Taxpayer Data

One-twentieth of one cent of the three-cent per pack revenue collected from state excise tax on the sale of cigarettes as imposed by KRS 138.140 is earmarked for the Department of Agriculture to offset the cost of enforcement aimed to educate the public and sellers of tobacco products, alternative nicotine products, or vapor products about provisions and penalties of KRS 438.305 to 438.350.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

# Inheritance & Estate Tax

**Tax Base:**
The tax base for the inheritance tax is the fair cash value of a Kentucky domiciled decedent's property. For decedents domiciled outside Kentucky, the base is the fair cash value of real property located in Kentucky, tangible personal property that has acquired a situs in Kentucky and is not taxed elsewhere, and intangible personal property with a business situs in Kentucky.

Transfers giving rise to an inheritance or estate tax liability include transfers by testate (a will), intestate succession (no will), and terms of the instrument (a deed, a trust, beneficiary of an annuity, payable on death accounts, a grant, a bargain, a sale or a gift made in contemplation of death or intended to take effect in possession or enjoyment at or after the death of the grantor or donor, survivorship, etc.) The tax is based on the net amount transferred to the beneficiaries, heirs, or donees which is the value of the distributive shares reduced by administration expenses, funeral expenses, debts, mortgages and liens, federal estate taxes, and the personal exemption.

**Taxable Unit:**
The inheritance tax is an excise tax on a beneficiary's privilege of receiving property from a decedent by reason of death. Beneficiaries are divided into three classes, with Class A beneficiaries being totally exempt:

- **(a)** Class A includes surviving spouse, parent, child (adult or infant) – child by blood, stepchild, child adopted during infancy, or a child adopted during adulthood who was reared by decedent during infancy, grandchild – issue of child by blood, stepchild, child adopted during infancy, or of a child adopted during adulthood who was reared by decedent during infancy, and, as of July 1, 1995, brother, sister, half-brother, and half-sister;
- **(b)** Class B includes nephew, niece, half-nephew and half-niece, daughter-in-law, son-in-law, aunt, uncle, and great-grandchild who is a grandchild of child by blood, stepchild, or child adopted during infancy (Note: Nephews and nieces by marriage and great nephews and nieces are Class C beneficiaries.); and,
- **(c)** Class C includes all persons not included in Classes A or B and educational, religious, or other institution, societies or associations, or public institutions not exempted by KRS 140.060.

**Current Rate Structure:**
The inheritance tax is imposed at graduated rates from four percent to 16 percent for Class B beneficiaries, and six percent to 16 percent for Class C beneficiaries. The statutory exemptions are charges against the lowest brackets in applying the rates to the base.

The estate tax has no fixed rate structure. It is dependent on the amount of Kentucky's share of the state death tax credit for federal purposes and the amount of the Kentucky inheritance tax. When all the taxable property is not located in Kentucky, the state tax credit is prorated based on the net estate in Kentucky subject to federal estate tax over the total net estate subject to federal estate tax.

**Tax Due:**
The inheritance and estate taxes are levied at the decedent's death, with payment of the taxes due eighteen months thereafter. If the inheritance tax is paid within nine months after the death, a five percent discount is allowed. No discount is allowed on estate tax.

**Background:**
Inheritance and estate taxes are two separate taxes that are often referred to as death taxes because both are occasioned by the death of a property owner. The amount due from each tax is determined by the value of property transferred, but is imposed on different aspects of the transfer.

The inheritance tax is a tax on a beneficiary's right to receive property from a decedent's estate; both the tax and exemptions are based on the relationship of the beneficiary to the decedent. A five percent discount is allowed if the tax is paid within nine months of the date of death. The estate tax or "pick up tax" is a tax on the estate equal to the amount by which the credit for state death taxes allowable under the Federal estate tax law exceeds the Kentucky inheritance tax. The Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) repealed the credit with a deduction. It was made permanent by the American Taxpayer Relief Act, which was signed into law on January 2, 2013. Since state death taxes are no longer treated as a credit for federal estate taxes, there has been no Kentucky estate tax since January 2005.

The Kentucky inheritance tax was adopted in 1906, making it the second oldest General Fund tax. The estate tax was enacted in 1936. The tax has seen several significant changes through the years.

The most recent change occurred in 1995, when the Class A beneficiary classification was changed to include brother, sister, half-brother, and half-sister. This year also began a phase-out of tax for all Class A beneficiaries beginning with dates of death that occurred on or after July 1, 1995. The exemption increased by 25 percent each year until complete on June 30, 1998.

The 2001 Federal Economic Growth and Tax Relief Reconciliation Act (EGTRRA) increased the exemption from federal estate tax allowed to an estate. From $1.0 million in 2002, the exemption increased to $3.5 million in 2009, with a complete repeal of the tax in 2010. Additionally, the highest rate dropped to 50 percent in 2002 and decreased to 45 percent by 2007 before the repeal of the tax in 2010.

The 2010 Federal Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act (2010 Tax Relief Act) retroactively reinstates the estate tax for estates of decedents dying in 2010 and provides for an applicable exclusion amount of $5.0 million and a maximum tax rate of 35 percent for the year 2010. This amount may be adjusted for inflation for 2011 and 2012. The 2010 Tax Relief Act also repeals the new basis rules pursuant to Section 1022 of the Internal Revenue Code enacted pursuant to EGTRRA that are applicable to estates of decedents dying in 2010. However, the 2010 Tax Relief Act provides that an executor of a decedent's estate who died in 2010 may elect out of the estate tax and instead have the new basis rules pursuant to Section 1022 apply to the property acquired from the decedent.

The exclusion amount remained at $5.0 million for 2011 and was adjusted for inflation to $5.12 million for 2012.

Before the provisions of the 2010 Tax Relief Act was set to expire on December 31, 2012, President Obama signed into law on January 2, 2013 the American Taxpayer Relief Act of 2012. It permanently provides for a maximum federal estate tax rate of 40 percent with an annually inflation-adjusted $5.0 million exclusion for estates of decedents dying after December 31, 2012.

The Tax Cut and Jobs Act (TCJA) was signed into law by President Trump on December 22, 2017. The tax reform legislation raised the estate tax exemption to $11.18 million for estates of decedents dying after December 31, 2017, and is adjusted annually for inflation. If congress does not make this exemption permanent by the end of 2025, the exemption amounts will revert to previous levels, adjusted for inflation. The estate exemption for 2023 was $12.92 million. The estate exemption for 2024 is 13.61 million. The estate exemption amount is adjusted for inflation each year.

The American Taxpayer Relief Act makes permanent "portability" between spouses. Prior to the permanent extension, portability was only available to the estates of decedents dying after December 31, 2010 and before January 1, 2013. Since the American Taxpayer Relief Act extended the deduction for state estate taxes, there will not be a Kentucky estate tax under current state law.

During FY25, the inheritance tax produced $77.7 million in General Fund revenues. This was an increase of 2.7 percent over the prior year and accounted for less than one percent of total General Fund tax receipts.

**Table 9. Total Inheritance and Estate Tax Expenditures**

**FY 2026** $81.0 million
**FY 2027** $83.0 million
**FY 2028** $85.0 million

## Tax Expenditures

### 1. Class A Beneficiaries

*Kentucky Revised Statutes 140.080(1)(b) and (c), effective 2005*
Data Source: Kentucky Agency Data

For dates of death on or after July 1, 1998, Class A beneficiaries are totally exempt.

**FY 2026** $81.0 million
**FY 2027** $83.0 million
**FY 2028** $85.0 million

## 2. Annuities Under Qualified Retirement Plans

*Kentucky Revised Statutes 140.063(1) and (2), effective 1982*
Data Source: Kentucky Agency Estimate

The decedent's gross estate does not include the value of an annuity or other payment to the extent attributable to the employer's contribution receivable by any beneficiary other than the executor or equivalent.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 3. Assessment of Land at its Agricultural or Horticultural Value

*Kentucky Revised Statutes 140.310, effective 1978,*
*Kentucky Revised Statutes 140.360, effective 1978*
Data Source: Kentucky Agency Estimate

In lieu of the fair cash value, agricultural or horticultural land that is qualified real estate and passes to qualified heirs may be reported in a decedent's estate at its agricultural or horticultural value. The assessed value for ad valorem purposes is presumed to be its value for inheritance tax purposes.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 4. Benefits Paid to a Beneficiary of Military Personnel Under Certain Retirement Plans

*Kentucky Revised Statutes 140.015(2), effective 1980*
Data Source: Kentucky Agency Estimate

Payments to a beneficiary of the Retired Serviceman's Family Protection Plan or Survivor Benefit Plan are not considered taxable transfers.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 5. Benefits Paid by the Federal Government Due to Service in Time of War

*Kentucky Revised Statutes 140.015(1), effective 1980*
Data Source: Kentucky Agency Estimate

Any benefit paid by the federal government to the surviving spouse or heirs of any person by reason or arising out of service in the armed forces of the United States in time of war is not considered a taxable transfer.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 6. Certificates of Deposit Exempt from the Contemplation of Death Rule

*Kentucky Revised Statutes 140.020(3), effective 1982*
*Kentucky Revised Statutes 140.050, effective 1942*
Data Source: Kentucky Agency Estimate

All certificates of deposit jointly owned are exempt from the possibility of inclusion at 100 percent of their value regardless of when placed in joint names.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

### 7. Class B Beneficiaries

*Kentucky Revised Statutes 140.080(1)(d), effective 2005*
*Kentucky Revised Statutes 140.070(2), effective 1995*
Data Source: Kentucky Agency Estimate

Class B beneficiaries receive an exemption of $1,000.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

## 8. Class C Beneficiaries

*Kentucky Revised Statutes 140.080(1)(e), effective 2005*
*Kentucky Revised Statutes 140.070(3), effective 1995*
Data Source: Kentucky Agency Estimate

Class C beneficiaries are granted a $500 exemption.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

# Gasoline, Liquefied Petroleum, and Special Fuels Tax

**Current Rate Structure:**
The gasoline and special fuels taxes are comprised of a variable component and two fixed parts. The variable portion of the tax is 9 percent of the average wholesale price (AWP) of gasoline. The fixed parts are the supplemental highway user tax which is assessed at five cents per gallon of gasoline and at two cents per gallon of special fuels, and the petroleum storage tank environmental assurance fee which is assessed at 1.4 cents per gallon of gasoline or special fuels.

The liquefied petroleum tax rate also has a variable component and a fixed part. The variable portion of the tax is 9 percent of the average wholesale price (AWP) of gasoline. The fixed part is the supplemental highway user tax which is assessed at five cents per gallon.

A weighted average wholesale price of gasoline is calculated on a quarterly basis by the Department of Revenue based on grade and formulation of the motor fuel. The AWP is calculated in the first month of each fiscal quarter (July, October, January, and April) and the average quarterly AWP sets the variable portion of the tax rate for the following year. The AWP cannot increase by more than 10 percent over the AWP in effect at the close of the previous fiscal year and is limited to a decline of 10 percent.

The current AWP floor is $2.177 per gallon of gasoline, liquefied petroleum, and special fuels. Therefore, the variable portion of the gasoline, liquefied petroleum, and special fuels tax cannot be less than 19.6 cents per gallon. Adding the fixed components of the tax brings the minimum gasoline tax to twenty-six cents per gallon of gasoline and liquefied petroleum and twenty-three cents per gallon of special fuels.

**Tax Base:**
The gasoline and special fuels tax becomes a per gallon liability of the dealer when the fuel is received or enters the dealer's storage facility. In reporting and paying the tax, the dealer is allowed a deduction of 2.25 percent to cover evaporation, shrinkage, unaccountable losses, collection costs, bad debts, and handling and reporting the tax. An exemption is allowed for sales to the federal government, transfers to other licensed dealers, and for amounts exported out of state or lost

through accountable losses. Refunds or exemptions are allowed for amounts used in agriculture, aircraft, motorboats, city and suburban buses and taxicabs, senior citizen transportation programs, and nonprofit buses.

Unlike the gasoline and special fuels tax, the tax is applicable to liquefied petroleum gas when use is determined. If the fuel is used to propel motor vehicles on the public highways, the tax applies, but if used for non-highway purposes, the fuel is not subject to tax. The dealer is allowed a deduction to cover unaccountable losses, bad debts, and handling and reporting the tax.

**Taxable Unit:**
The unit for levying the gasoline, liquefied petroleum, and special fuels tax is a "per gallon" basis.

**Tax Due:**
Returns and payments of the tax are due monthly and are to be submitted by the twenty-fifth day of the following month.

**Background:**
For Kentucky taxation purposes, gasoline means all liquid fuels ordinarily, practically, or commercially used in internal combustion engines meeting the requirements for gasoline fuel established by the American Society for Testing and Material. The term "special fuels" is defined to include all combustible gases and liquids capable of being used in motor vehicles, except gasoline, as defined in KRS 138.210, and liquefied petroleum gas, as defined in KRS 234.100. The term "liquefied petroleum gas" includes any material that is composed predominantly of any of the following hydrocarbons, or mixtures of them, whether in the liquid or gaseous states, and are used to propel vehicles of any kind upon the public highways: propane, propylene, butane (normal butane and isobutane), and butylene.

In 1920, Kentucky levied a tax at the rate of one cent per gallon of gasoline. It was the fifth state to implement such a tax. A tax on special fuels was first enacted in 1952, and the tax on liquefied petroleum gas was first levied in 1960.

In 1980, because the price of gasoline had increased so rapidly and was projected to continue to increase, the legislature changed the tax base to the average wholesale price per gallon and the rate to 9 percent of the average wholesale price per gallon. As designed, if the price of gasoline increased, the tax increased proportionally. At the same time, a minimum wholesale price of $1.00 per gallon was established, thus

creating a “floor”, or minimum tax, of nine cents per gallon. The base for the special fuels and liquefied petroleum taxes were also adjusted accordingly.

In 1982, the minimum wholesale price was increased to $1.11 per gallon, increasing the “floor” to ten cents per gallon. In 1986, the “supplemental highway user tax” was enacted and applied to all three fuel taxes at the rate of five cents per gallon. This raised the minimum tax to fifteen cents per gallon.

In 1988, the General Assembly made a major change in the special fuels law. The law now requires that the tax be levied on the dealer at the point of receipt of the fuels (as is the case for gasoline) instead of the point of sale by the dealer. Generally, special fuels used for off-highway purposes are subject to a refund of the tax, provided proper applications are filed and other procedures are followed.

Over the years, the minimum wholesale price has been changed several times by the Kentucky Legislature. In 2009, the minimum wholesale price was increased to $1.786. Effective April 1, 2015, the wholesale floor price was increased to $2.177 per gallon.

In 2015, the way in which the variable portion of the gasoline tax is calculated was changed. The quarterly tax rate adjustment method was replaced with an annual rate. For FY16, the AWP was set as the floor and for FY17 and beyond, the tax rate is calculated as the average of the four quarters from the previous fiscal year. Moreover, in addition to a 10 percent limit on an annual increase in the AWP, there is a 10 percent limit on how far the AWP can decline in a given year.

Pursuant to the provisions of Section 230 of the Kentucky Constitution, the receipts generated by the fuel taxes are deposited in the Road Fund to be used for the construction and maintenance of Kentucky’s roads.

**Table 8. Total Gasoline, Liquefied Petroleum, and Special Fuels Tax Expenditures**

| | Gasoline | Liquefied Petroleum | Special Fuels | Total |
|---|---|---|---|---|
| **FY 2025** | $16.4 million | Minimal | $56.9 million | $73.3 million |
| **FY 2026** | $15.9 million | Minimal | $57.5 million | $73.4 million |
| **FY 2027** | $15.4 million | Minimal | $57.9 million | $73.3 million |

## Tax Expenditures

### 1. Railroad Companies

*Kentucky Revised Statutes 138.240(2)(f), effective 1988*
Data Source: Kentucky Taxpayer Data

Special fuels delivered to railroad companies principally engaged in the business of transporting property for others as a common carrier or in the conveyance of persons for hire are exempt.

| | Special Fuels |
|---|---|
| **FY 2026** | $22.0 million |
| **FY 2027** | $22.0 million |
| **FY 2028** | $22.0 million |

### 2. Non-Highway Use

*Kentucky Revised Statutes 138.344(1), effective 1946*
Data Source: Kentucky Taxpayer Data

Special fuels used exclusively for non-highway use by qualified purchasers are exempt sales.

| | Special Fuels |
|---|---|
| **FY 2026** | $21.0 million |
| **FY 2027** | $21.5 million |
| **FY 2028** | $22.0 million |

### 3. Dealer's Monthly Reporting Allowance

*Kentucky Revised Statutes 138.270(1)(b), effective 1942,*
*Kentucky Revised Statutes 234.320(1), effective 1960*
Data Source: Kentucky Taxpayer Data

An allowance of 2.25 percent of the net tax due is allowed a dealer of gasoline or special fuels and 1 percent for a dealer of liquefied petroleum on a timely filed and paid monthly return. This allowance is given to offset the costs of evaporation, shrinkage, unaccountable losses, collection costs, bad debts, and handling and reporting the tax.

| | Gasoline | Liquefied Petroleum | Special Fuels | Total |
|---|---|---|---|---|
| **FY 2026** | $14.5 million | Minimal | $4.0 million | $18.5 million |
| **FY 2027** | $14.0 million | Minimal | $4.0 million | $18.0 million |
| **FY 2028** | $13.5 million | Minimal | $4.0 million | $17.5 million |

### 4. Agricultural Exemption

*Kentucky Revised Statutes 138.344(1), effective 1946*
*Kentucky Revised Statutes 138.358(2), effective 1988*
Data Source: Kentucky Taxpayer Data

Gasoline and special fuels are sold tax-free if the fuel is used exclusively in tractors or stationary engines for agricultural. Taxes paid on gasoline or special fuels shall be reimbursed if the refund is requested.

| | Gasoline | Special Fuels | Total |
|---|---|---|---|
| **FY 2026** | $0.2 million | $8.5 million | $8.7 million |
| **FY 2027** | $0.2 million | $8.5 million | $8.7 million |
| **FY 2028** | $0.2 million | $8.5 million | $8.7 million |

### 5. Bus, Taxicab and Certain Senior Citizens' Programs Refund

*Kentucky Revised Statutes 138.446, effective 1960*
Data Source: Kentucky Taxpayer Data

Seven-ninths of the tax paid is refunded if the gasoline is used in regularly scheduled operations of city and suburban buses or taxicabs. Senior citizen transportation programs that utilize Title III funds of the Older Americans Act are also entitled to the refund.

| | Gasoline | Special Fuels | Total |
|---|---|---|---|
| **FY 2026** | $0.6 million | $0.5 million | $1.1 million |
| **FY 2027** | $0.6 million | $0.6 million | $1.2 million |
| **FY 2028** | $0.6 million | $0.6 million | $1.2 million |

### 6. Watercraft Refund

*Kentucky Revised Statutes 138.445, effective 1960*
Data Source: Kentucky Taxpayer Data

The entire tax paid is refunded to qualified boat dock operators if the gasoline or special fuel is used to operate or propel watercraft.

| | Gasoline | Special Fuels | Total |
|---|---|---|---|
| **FY 2026** | $0.8 million | Limited | $0.8 million |
| **FY 2027** | $0.8 million | Limited | $0.8 million |
| **FY 2028** | $0.8 million | Limited | $0.8 million |

### 7. State and Local Government Use

*Kentucky Revised Statutes 138.358(3), effective 1988*
Data Source: Kentucky Taxpayer Data

An exemption is allowed for sales to qualifying state and local government agencies.

| | Special Fuels |
|---|---|
| **FY 2026** | $0.6 million |
| **FY 2027** | $0.6 million |
| **FY 2028** | $0.5 million |

### 8. Aircraft Refund

*Kentucky Revised Statutes 138.341(1), effective 1942*
Data Source: Kentucky Taxpayer Data

100 percent of the tax paid is refunded to qualified purchasers if the gasoline is used in aircraft engaged in the transportation of persons or property.

| | Gasoline |
|---|---|
| **FY 2026** | $0.3 million |
| **FY 2027** | $0.3 million |
| **FY 2028** | $0.3 million |

### 9. Residential Heating

*Kentucky Revised Statutes 138.358(1), effective 1988*
Data Source: Kentucky Taxpayer Data

An exemption is allowed for special fuels used exclusively for heating personal residences.

| | Special Fuels |
|---|---|
| **FY 2026** | $0.3 million |
| **FY 2027** | $0.3 million |
| **FY 2028** | $0.3 million |

### 10. Religious, Charitable or Educational Use

*Kentucky Revised Statutes 138.358(3), effective 1988*
Data Source: Kentucky Taxpayer Data

An exemption is allowed for sales to qualifying non-profit religious, charitable, or educational organizations.

| | Special Fuels |
|---|---|
| **FY 2026** | Limited |
| **FY 2027** | Limited |
| **FY 2028** | Limited |

### 11. Approved Carburetion Systems

*Kentucky Revised Statutes 234.321, effective 1972*
Data Source: Kentucky Taxpayer Data

The tax is not collected when motor vehicles using liquefied petroleum gas are equipped with carburetion systems approved by the Energy and Environment Cabinet.

| **FY 2028** | Minimal |

# Coal Severance & Natural Resources Severance Taxes

**Coal Severance Tax**
The severance and processing tax rate is 4.5 percent of gross value with a minimum tax of fifty cents per ton *(KRS 143.020).* The minimum tax does not apply to taxpayers who only process coal. The tax on coal used for burning solid waste is limited to the lesser of 4 percent of the selling price or fifty cents per ton or 4 percent of the selling price per ton whichever is less. *(KRS 143.023).*

The tax is levied on the gross value of coal. Gross value is the amount received for the coal, or market value if the coal is consumed and not sold, less transportation expense. In instances where coal is purchased for processing, the gross value is reduced by the amount paid or payable to the registered taxpayer that severed the coal and transportation expense. The tax return and payment is due on the twentieth day of the month following the close of the taxable period.

**Background:**
The coal severance tax was enacted in 1972. The 1974 session of the General Assembly provided for a portion of the severance tax to be returned to the counties in which the coal was severed. The Governor's Office for Local Development administers the local program. The tax base was broadened in 1978 to tax both the severance and processing of coal in Kentucky. During FY25, the coal severance tax produced $56.1 million in tax revenue, which accounted for less than one percent of total General Fund receipts.

**Natural Resources Severance Taxes**
The natural resources severance and processing tax rate is 4.5 percent of the gross value *(KRS 143A.020)*.

Effective in 1991, the tax on severing clay was limited to twelve cents per ton *(KRS 143A.037)*. The tax on limestone used in manufacture of cement shall be limited to fourteen cents per ton of limestone mined in Kentucky *(KRS 143A.036)*. Taxpayers who sever or process clay within the state, which is sold to and used as a component of landfill construction by an approved waste management or waste disposal facility in Kentucky, are entitled to a credit equal to the tax paid.

The base for this tax is gross value, the amount received or receivable from the sale of the mineral after it is processed and loaded for shipment. The base for natural gas and natural gas liquids is the sales price or market value in the immediate vicinity of the well. The amount of transportation expense incurred in transporting the natural resource to the customer is deductible in arriving at gross value.

When resources are purchased for processing, gross value is the amount received or receivable reduced by the amount paid for the natural resource and the transportation expense. The tax is levied on taxpayers engaged in the business of severing or processing natural resources in Kentucky, except that no tax is levied on the processing of ball clay. The tax must normally be reported and remitted on a monthly basis. The Revenue Cabinet may permit or require returns or tax payments for periods other than monthly. The tax return and payment are due on the last day of the month following the close of the tax period.

**Background:**
Effective June 1, 1980, the General Assembly levied a 4.5 percent tax on the gross value of all minerals severed in Kentucky, including natural gas and natural gas liquids. Coal and oil were specifically excluded due to taxation under other statutes. The legislation imposed no minimum rate of tax per unit as is the case with the coal severance tax.

In 1984, the General Assembly exempted fluorspar, lead, zinc, barite, and tar sands from the tax. In addition, taxpayers who sever or process limestone through the rip-rap, construction aggregate, or agricultural limestone stages, and who sell at least 60 percent of such stone in interstate commerce, are entitled to a tax credit.

KRS 42.450(2) and 42.470(2) require that one-half of the taxes collected on the sale of minerals, other than coal, be distributed among the mineral producing counties. In FY25, the natural gas severance tax, the minerals severance tax, and oil production tax revenues totaled $ 37.5 million, which represents less than one percent of total General Fund tax receipts.

**Table 10. Total Coal Severance and Natural Resources Severance Tax Expenditures**

| | |
|---|---|
| **FY 2026** | $27.1 million |
| **FY 2027** | $11.2 million |
| **FY 2028** | $10.9 million |

## Tax Expenditures

### 1. Exported Coal Refund

*Kentucky Revised Statutes 143.022, effective 2022*
Data Source: Kentucky Agency Estimate

Taxpayers who have paid their coal severance tax may apply for a refund on coal which is transported directly to a market outside of North America. This tax credit sunsets on July 1, 2026.

**FY 2026** $15.0 million
**FY 2027** Minimal
**FY 2028** Minimal

### 2. Coal Transportation Expense

*Kentucky Revised Statutes 143.010(6)(h), effective 2013*
Data Source: Kentucky Agency Estimate

Transportation expense incurred in transporting coal shall not be considered as gross income from the property and are therefore not taxable.

**FY 2026** $3.5 million
**FY 2027** $3.0 million
**FY 2028** $2.8 million

### 3. Natural Resource Transportation Expense

*Kentucky Revised Statutes 143A.010(5)(h), effective 2013*
Data Source: Kentucky Agency Estimate

Expenses incurred in transporting minerals are excluded from gross value and are therefore not taxable.

**FY 2026** $3.4 million
**FY 2027** $3.0 million
**FY 2028** $2.9 million

### 4. Limestone Sold in Interstate Commerce

*Kentucky Revised Statutes 143A.035, effective 1984*
Data Source: Kentucky Agency Estimate

A credit is allowed equal to the tax on the gross value of limestone sold in interstate commerce. The credit extends only to those taxpayers who sever or process

limestone through the rip-rap, construction aggregate, or agricultural limestone stages, and who sell at least 60 percent of such stone in interstate commerce.

**FY 2026** $3.0 million
**FY 2027** $3.0 million
**FY 2028** $3.0 million

### 5. Thin Seam Coal Tax Credit

*Kentucky Revised Statutes 143.021, effective 2000*
Data Source: Kentucky Taxpayer Data

A nonrefundable tax credit is allowed for mining coal from thin seams or from areas with a high mining ratio. The credit is on a sliding scale from 2.25 percent to 3.75 percent of the gross value of the severed coal, based on the thickness of the seam and whether the coal is mined from an above-drainage seam or a below-drainage seam.

**FY 2026** $2.2 million
**FY 2027** $2.2 million
**FY 2028** $2.2 million

### 6. Inactive Crude Oil and Natural Gas Wells

*Kentucky Revised Statutes 143A.033, effective 2010*
Data Source: Kentucky Agency Estimate

A credit equal to 4.5 percent of the total tax is allowed for natural gas and oil produced from recovered inactive wells.

# Alcoholic Beverage Taxes

**Current Rate Structure**:

Total alcoholic beverage taxes were $178.8 million in FY25, which represents 1.2 percent of total General Fund revenue.

- Distilled Spirits Excise Tax: $1.92 a gallon but not less than $0.12 per half-pint retail container *(KRS 243.720)*
- Distilled Spirits of 6 percent or less alcohol of the total volume: $0.25 per gallon *(KRS 243.720)*
- Distilled Spirits Case Sales Tax: $0.05 per case *(KRS 243.710)*
- Beer/Malt Beverages Excise Tax: $2.50 per barrel of 31 gallons *(KRS 243.720)*
- Wine Excise Tax: $0.50 a gallon but not less than $0.04 per any retail container *(KRS 243.720)*
- Wholesale Sales Tax: 10 percent of gross receipts *(KRS 243.884)*

**Tax Base:**

- For excise and consumption taxes, the tax base is volume
- For the wholesale taxes, the tax base is wholesale sales price

**Tax Due:**

The consumption tax is a gallonage tax and becomes the liability of the distilled spirits and wine wholesaler when these beverages are sold to retailers or consumers within the state. The gallonage tax on beer is paid by the distributor or microbrewer selling in this state. The wholesale sales tax is based on gross receipts derived at the wholesale level.

Wholesalers of distilled spirits and wine, distributors of malt beverages, and direct shippers licensees, shall pay and report the wholesale sales tax and excise tax on or before the 20th day of the calendar month next succeeding the month in which possession or title of the distilled spirits, wine or malt beverages is transferred from the wholesaler or distributor to retailers, or by microbreweries, distillers, or direct shipper licensees to consumers in Kentucky.

Effective for tax periods beginning April 1, 2021 forward, direct shippers of alcohol will file and remit the excise tax and wholesale sales tax to the Department of Revenue (DOR) by the 20th of each month following the reporting period. Monthly reports are due even if there are no direct shipments to report that month. In addition,

direct shippers will file one or both of the detailed reports of direct shipments to Kentucky consumers, depending on alcohol type whether distilled spirits/wine or malt beverages. These forms are due by the 20th of the month following the end of each quarter.

Effective January 1, 2022, Kentucky distillers, rectifiers, and bottlers will file and remit the excise tax and wholesale sales tax to the Department of Revenue (DOR) by the 20th of each month following the month of the transactions and report all product sold at retail. Quantities shall not exceed an aggregate of four and one-half liters per purchaser per day for sales prior to January 1, 2021, and in quantities not to exceed an aggregate of nine liters per purchaser per day on and after January 1, 2021. *(KRS 243.0305(3)(b), (8) and (9))*.

**Exemptions:**

- Wine manufactured, sold, given away, or distributed and used solely for sacramental purposes *(KRS 243.720 (4)(a))*.
- Distilled spirits and wine purchased by holders of special licenses provided for in KRS 243.320 and used as non-beverage alcohol, e.g. medicinal alcohol, antiseptic alcohol, flavoring extracts, syrups, etc.
- Sales to federal agencies and instrumentalities *(103 KAR 40:035)*.
- Sales for shipment outside Kentucky for sales through retail outlets and consumption outside Kentucky *(KRS 243.790).*

**Background:**
Alcoholic beverage excise taxes on distilled spirits, beer, and wine became effective in 1936 at the following rates: distilled spirits - $1.04 a gallon; beer - $1.50 a barrel; and wine - $0.25 a gallon.

In 1940, the excise tax rate for distilled spirits was raised to $1.20. In 1948, it was raised to $1.28. In 1970, the rate for excise taxes on distilled spirits was raised to $1.92 a gallon where it remains today. In 1986, the tax rate was lowered to $0.25 per gallon on distilled spirits placed in containers for sale at retail, where the distilled spirits represent 6 percent or less of the total volume of contents of such containers.

In 1954, the rate on wine excise was raised to $0.50 a gallon, and the rate on beer excise was increased to $2.50 a barrel ($0.081/gallon). Effective August 1, 1992, the liability for the excise tax on beer was shifted from the brewer to the distributor or retailer.

In 1982, a wholesale sales tax was imposed at the rate of 9 percent of the gross receipts derived from "sales at wholesale" or "wholesale sales of distilled spirits, wine, and beer". The 2005 General Assembly raised the wholesale sales tax to 11 percent. In 2014, the General Assembly voted to lower the wholesale sales tax by .25 percent each year beginning July 1, 2015 until June 1, 2018. Effective June 1, 2018 the wholesale sale tax for wine and beer wholesalers is 10 percent. The wholesale rate on distilled spirits remains at 11 percent.
Although insignificant from a revenue standpoint, each wholesaler pays a five cents-per-case tax on each case of distilled spirits sold within the state.

Effective April 13, 2018, KY licensed distilleries, small farm wineries and wineries were permitted to ship alcoholic beverages directly to Kentucky consumers with certain limitations for wine size and distilled spirits size. Distillers, small farm wineries, and wineries are responsible for the KY excise and wholesale sales tax due. Effective July 14, 2018 microbreweries making wholesale sales were required to file and remit the KY excise tax and wholesale sales tax.

**Table 11. Total Alcoholic Beverage Tax Expenditures**

| | |

| **FY 2028** | $13.8 million |

## Tax Expenditures

### 1. Wholesale Sales Tax Imposed Rate on Beer

*Kentucky Revised Statutes 243.884(1)(c)(2) and 243.884(1)(d)(2), effective 2015*
Data Source: Kentucky Agency Data

Effective July 1, 2015 the gross receipts of any such wholesalers or distributors derived from "sales at wholesale' or "wholesale sales" for beer made within the Commonwealth have been reduced from the rate of 11 percent to 10.75 percent for wholesale sales or sales at wholesale made on or after July 1, 2015 and before June 1, 2016; 10.5 percent for wholesale sales or sales at wholesale made on or after July 1, 2016 and before June 1, 2017; 10.25 percent for wholesale sales or sales at wholesale made on or after July 1, 2017 and before June 1, 2018; 10 percent for wholesales or sales at wholesale made on or after June 1, 2018; 10 percent for wholesale sales or sales at wholesale made on or after March 12, 2021 for direct shipper sales.

**FY 2026** $7.0 million
**FY 2027** $7.1 million
**FY 2028** $7.2 million

### 2. Wholesale Sales Tax Imposed Rate on Wine

*Kentucky Revised Statutes 243.884(1)(c)(2) and 243.884(1)(d)(2), effective 2015*
Data Source: Kentucky Agency Data

Effective July 1, 2015 the wholesale sales tax imposed upon all wholesalers of wine have been reduced from the rate of 11 percent to 10.75 percent for wholesale sales or sales at wholesale made on or after July 1, 2015 and before June 1, 2016; 10.5 percent for wholesale sales or sales at wholesale made on or after July 1, 2016 and before June 1, 2017; 10.25 percent for wholesale sales or sales at wholesale made on or after July 1, 2017 and before June 1, 2018; 10 percent for wholesales or sales at wholesale made on or after June 1, 2018 ; 10 percent for wholesale sales or sales at wholesale made on or after March 12, 2021 for direct shipper sales.

**FY 2026** $2.1 million
**FY 2027** $2.2 million
**FY 2028** $2.3 million

### 3. Low Volume Distilled Spirits Taxed at Reduced Rate

*Kentucky Revised Statutes 243.720(1)(b), effective 1986*
Data Source: Kentucky Agency Data

Distilled spirits in containers where the distilled spirits represent 6 percent or less of the total volume of the contents of such containers are taxed for purposes of the distilled spirits excise tax at the reduced rate of twenty-five cents per gallon.

**FY 2026** $1.8 million
**FY 2027** $2.0 million
**FY 2028** $2.0 million

### 4. Allowance for Collecting and Reporting

*Kentucky Revised Statutes 243.886, effective 1982*
Data Source: Kentucky Agency Data

As compensation, each wholesaler required to pay and report the wholesale sales tax, other than a microbrewery or a distiller, shall deduct on each report 1 percent of the tax due, provided the amount due is not delinquent at the time of payment. A microbrewery or distiller that reports and pays the wholesale sales tax levied by KRS 243.884, in accordance with KRS 243.0305 or KRS 243.157 as applicable, shall not be entitled to deduct 1 percent of the tax due.

**FY 2026** $1.7 million
**FY 2027** $1.8 million
**FY 2028** $1.9 million

### 5. Small Farm Winery Exemption

*Kentucky Revised Statutes 243.884(3)(b)(1)(2), effective 2016*
Data Source: Kentucky Agency Data

Gross receipts from sales at wholesale or wholesale does not include sales from the first 50,000 gallons of wine produced by a small farm winery in a calendar year made by the small farm winery or a wholesaler of that wine produced by the small farm winery.

**FY 2026** $0.4 million
**FY 2027** $0.4 million
**FY 2028** $0.4 million

## 6. Malt Beverage Excise Tax at Reduced Rate

*Kentucky Revised Statutes 243.720(3)(b), effective 1986*
Data Source: Kentucky Agency Data

Each brewer producing malt beverages in Kentucky shall be entitled to a credit of 50 percent of the tax levied on each barrel of malt beverages sold in Kentucky, up to 300,000 barrels per annum.

**FY 2026** Limited
**FY 2027** Limited
**FY 2028** Limited

# Insurance Premiums Tax

**Current Rate Structure:**

The first insurance premiums taxes were enacted in 1892 and have been modified several times since then.

- Life insurance companies *(KRS 136.330):* $1.50 per $100 of premium receipts.
- Stock insurance companies other than life *(KRS 136.340, KRS 136.370 and KRS 136.390)*: $2.00 per $100 of premium receipts.
- Mutual insurance companies and Lloyds insurers other than life *(KRS 136.350)*: 2 percent of premiums or other receipts.
- Domestic fire insurance companies or cooperative and assessment fire insurance *(KRS 299.530)*: $2.00 per $100 of premium receipts.
- Domestic mutual companies as unauthorized reinsurance *(KRS 304.4-030)*: 2 percent of premiums or other receipts.
- Every stock insurer other than life doing business in Kentucky shall pay 0.75 percent of all amounts paid to such insurance company or its representative for fire insurance and that portion allocable to insurance against the hazard of fire included in other coverage than life and disability insurances *(KRS 136.360).*
- Retaliatory tax and fees on insurers *(KRS 304.3-270 and KRS 304.4-010)*: The companies must calculate what their tax liability would have been using the premium receipts from Kentucky based on their home state's tax rates. If their tax liability is higher in their home state verses what they paid to Kentucky, then they must pay Kentucky the difference.
- Captive insurance: Direct premiums *(KRS 304.49-220(1))*:

  0.4% on the first $20.0 million
  0.3% on the next $20.0 million
  0.2% on the next $20.0 million
  0.075% on each dollar thereafter

  Reinsurance premiums *(KRS 304.49-220(2)*

  0.225% on the first $20.0 million
  0.150% on the next $20.0 million
  0.050% on the next $20.0 million
  0.025% on each dollar thereafter

**Tax Base:**
The minimum tax payment remitted by a captive insurer is $5,000 regardless of calculated tax liability.

The tax is levied on premium receipts of insurance companies doing business in Kentucky. Premium receipts include single premiums, annuity premiums, premiums received for original insurance, premiums received for renewal, revival or reinstatement of the policies, annual and periodical premiums, dividends applied for premiums and additions, and all other premium payments received on policies that have been written in Kentucky, or elsewhere on business done in this state, less returned premiums. No deduction is made for dividends on life insurance or annuity policies, but dividends on accident and health insurance policies may be deducted. Premium receipts beginning in calendar year 2000 do not include annuity premiums or annuity dividends.

**Tax Due:**
Any company whose tax was $5,000 or more in the previous year must file a declaration of estimated tax by June 1. The tax must be paid in three equal installments, on June 1, October 1, and March 1 of the following year.
Insurance premium taxes generated $239.2 million in FY25.

**Background:**
Insurance premiums taxes include several taxes levied on the receipts of insurance premiums collected by insurers in the Commonwealth. All life insurance companies, all stock and mutual insurance companies other than life and captive insurers except fraternal assessment life insurance companies doing business in Kentucky must pay a tax on the gross premiums collected from policyholders. The rate of tax varies by type of insurance company. Life insurance companies are assessed at a rate of $1.50 per $100 of premium receipts. Stock and mutual insurance companies other than life are assessed $2 per $100 of receipts. Lastly, all stock insurers other than life, every mutual insurance company, and Lloyd's insurer must pay 0.75 percent of premiums paid for fire insurance and for that portion allocable to fire insurance included in other coverage. A captive insurer (defined as an insurance company owned by one or more business entities that are licensed insurance producers and that only insure risks on policies placed through their owners) must pay a minimum of $5,000 and/or a tax calculated on a sliding scale as a percentage of receipts.

## Table 12. Total Insurance Premiums Tax Expenditures

**FY 2026** $2.2 million
**FY 2027** $2.2 million
**FY 2028** $2.2 million

### 1. Hospital, Medical or Dental Service Companies Exempt From Premiums Tax

*Kentucky Revised Statutes 136.395, effective 1972*
Data Source: Kentucky Agency Data

No tax shall be imposed upon or measured by the premiums paid to or received by a hospital service corporation, a medical service plan corporation, a dental service plan corporation, or a domestic mutual insurer against the risk or cost of medical and/or surgical care organized under KRS 304.24-010 to 304.24-440 and KRS 304.32-010 to 304.32-270.

**FY 2026** $2.2 million
**FY 2027** $2.2 million
**FY 2028** $2.2 million

### 2. Life and Health Guaranty Fund Assessment Credit

*Kentucky Revised Statutes 304.42-130(1), effective 1978*
Data Source: Kentucky Taxpayer Data

A member insurer, other than a nonprofit hospital, medical, surgical, dental, or health service corporation, may offset its tax liability under KRS 136.320(3) and (4), 136.330, 136.340, or 136.350, whichever may be applicable, against the amount of the assessment. The offset may be taken in the amount of 20 percent of the assessment for each of the five calendar years following the year in which the assessment was paid.

**FY 2026** Minimal
**FY 2027** Minimal
**FY 2028** Minimal

# Tobacco Taxes

**Current Tax Rate:**
The tax rate on cigarettes, including both the cigarette excise tax and the cigarette surtaxes, is $1.10 (60) cents per package of twenty cigarettes. The other tobacco products are taxed at 15 percent of wholesale gross receipts. The tax on snuff and moist chewing tobacco is nineteen cents per each single unit purchased. Similar rates apply for larger volumes of moist chewing tobacco.

- Forty cents per each half-pound unit (net weight of at least 4 ounces but not more than 8 ounces) sold. For retail distributors, the tax is levied on purchases of untaxed chewing tobacco at the same rate.

- Sixty-five cents per each pound unit (net weight of more than 8 ounces but not more than 16 ounces) sold. For retail distributors the tax is levied on purchases of untaxed chewing tobacco at the same rate.

- If the container, pouch, or package on which the tax is levied contains more than 16 ounces by net weight, the rate that shall be applied to the unit shall equal the sum of sixty-five cents plus nineteen cents for each increment of 4 ounces or portion thereof exceeding 16 ounces sold. For retail distributors the tax is levied on purchase of untaxed chewing tobacco at the same rate.

House Bill (HB) 351 was enacted in 2019 and established a tax on vapor products. Effective August 1, 2020, the vapor products tax rate on closed vaping systems is $1.50 per cartridge and the rate on open vaping systems is 15 percent of the actual price at which the distributor sells the product (i.e., wholesale sales tax). Taxable items include both nicotine and non-nicotine products.

House Bill (HB) 659 was enacted in 2022 and amended KRS 138.146 to increase the compensation rate for licensed wholesalers for the purchase of cigarette tax stamps to one and one-half cents per pack of 20 cigarettes equal to $450 on a roll of 30,000 stamps, effective August 1, 2022.

Both the cigarette excise tax and the cigarette surtax are paid through the purchase of stamps or meter units from the Department of Revenue. These stamps must be affixed on each package of cigarettes as evidence that the tax has been paid. For affixing the tax evidence, the wholesaler is generally allowed the equivalent of a .01364 percent discount against the cigarette tax when the evidence is purchased.

**Tax Base:**

The tax base for tobacco products, other than cigarettes, moist snuff, and chewing tobacco is 15 percent of the wholesale sales price. Moist snuff is taxed at the current rate of nineteen cents per each 1.5 ounces or portion thereof by net weight. Moist chewing tobacco is also taxed at nineteen cents per each single unit. For Vaping products, the tax base is a "cartridge" for closed vaping systems and the actual wholesale value for open vaping systems.

**Tax Due:**

The wholesaler pays the cigarette tax at the time the tax stamps or meter units are purchased from the Department of Revenue. A monthly report is required by the twentieth of each month reflecting purchases and trafficking of cigarettes for the preceding month. A monthly report of tobacco products and excise tax payment is due by the twentieth day of the succeeding month within which the transaction occurred.

For FY25, tobacco tax collections deposited to the General Fund were $281.8 million and represented 1.9 percent of total General Fund tax revenues. The aforementioned total for FY25 includes the portion of the excise tax that goes to the General Fund, the cigarette surtax, the floor stocks tax, and the taxes on all other tobacco products (including moist snuff, chewing tobacco, and other tobacco products).

**Background:**

Kentucky was the twentieth state to enact a tax on cigarettes, which became effective in 1936. The original cigarette excise tax rate was one cent per ten cents of the sales price. Over time, the "two-cents-per-package" tax gradually became a three-cent levy as more and more retailers began to charge above twenty cents per pack of cigarettes.

On July 1, 1960, a proportionate rate of two and one-half cents on each twenty cigarettes sold within the Commonwealth was assessed.

The 1970 General Assembly created the Tobacco Research Trust Fund. The legislation increased the cigarette excise tax by one-half cent per pack, to three cents per pack. The revenue generated by this tax increase was earmarked for the Tobacco Research Trust Fund.

In 1982, the General Assembly provided for a cigarette enforcement fee, in an amount calculated annually by the Department of Revenue, to recover applicable costs of enforcing the fair-trade law and administering the cigarette tax law. The present rate is one-tenth of one cent per package of twenty cigarettes.

In 1994, the General Assembly enacted the Teen Tobacco Education Fund and provided that one-twentieth of one cent of the three-cent-per-pack revenue be used to offset the cost of the education efforts.

In 2000, the General Assembly enacted the Teen Tobacco Enforcement Fund and provided that one-twentieth of one cent of the three-cent-per-pack revenue be deposited in a trust and agency account to offset the costs of enforcement.

In 2005, the General Assembly enacted a cigarette surtax of a proportionate rate of twenty-six cents on each twenty cigarettes. An additional one cent was enacted and dedicated to the Cancer Research Matching Fund. The two additional surtaxes brought Kentucky's total tax on a pack of twenty cigarettes to thirty cents. Additionally, a 7.5 percent gross receipts tax was imposed on other tobacco products and a tax on snuff was imposed at nine and one-half cents per unit.

In 2006, the General Assembly clarified the taxation of other tobacco products by making a distinction between moist snuff and dry snuff. Dry snuff was taxed at 7.5 percent as another tobacco product (OTP). Moist snuff was taxed as snuff. Additionally, a new wholesale cigarette paper excise tax was created. The tax was twenty-five cents per package of 32 sheets of paper.

In 2009, the General Assembly added an additional thirty cents for the cigarette surtax and doubled the rates on both other tobacco products and snuff. Also, moist chewing tobacco was pulled out of the "other tobacco products" and was taxed by the pouch in excise form.

In 2018, the General Assembly added an additional fifty cents to the cigarette surtax. The tax on "other tobacco products" was not changed at that time. In 2019 the General Assembly added a tax on "vapor" products, or so-called "e-cigarettes". Effective August 1, 2020, the vapor products tax rate on closed vaping systems is $1.50 per cartridge and the rate on open vaping systems is 15 percent of the actual price at which the distributor sells the product (i.e., wholesale sales tax). Taxable items include both nicotine and non-nicotine products.

**Table 13. Total Tobacco Tax Expenditures**

| **FY 2028** | $2.8 million |

# Pari-Mutuel Wagering Taxes

**Tax Base:**
The Department of Revenue administers the horse racing taxes imposed on all tracks conducting pari-mutuel wagering under the jurisdiction of the Kentucky Horse Racing and Gaming Corporation on live racing, telephone account wagering, inter-track wagering, simulcasts and interstate wagering.

Effective August 1, 2022, the pari-mutuel excise tax for live wagering, simulcast wagering, and advanced deposit wagers (ADW) is set at 1.5 percent due to the passage of HB 607 in the 2022 Regular Session.

Instant racing is taxed at 1.5 percent of the amount wagered on historical horse races.

Before August 1, 2022, wagers placed on live races, the base is the live handle and the rate is the two-tiered system of 3.5 percent for large tracks with an average daily handle of $1.2 million or more and 1.5 percent for track with an average daily handle of less than $1.2 million.

Beginning August 1, 2022, the excise tax imposed on all tracks conducting pari-mutuel wagering on live racing is set at 1.5 percent of all money wagered on live races at the track during the fiscal year *(KRS 138.510 (1)(a)&(b)).*

Before August 1, 2022, wagers at Receiving Tracks or Telephone Account Wagers or Whole Card Simulcast shall be 3 percent of all money wagered if total anticipated annual live racing handle is more than $250,000.

Beginning August 1, 2022, all money wagered at Receiving Tracks or Telephone Account Wagers or Whole Card Simulcast shall be 1.5 percent of all money wagered if total anticipated annual live racing handle is more than $250,000 *(KRS 138.510 (2)(a) & (b)).*

Effective July 14, 2022, the admissions tax imposed under KRS 138.480 – 138.490 is repealed. Before July 14, 2022, racetracks were required to collect from each person entering the racetrack on paid or free admissions for all race meetings except county fairs conducting harness racing. (Excluded: employees of the racetrack, owners or trainers of horses, jockeys, or their employees). The rate of the admissions tax was fifteen cents for each admission *(KRS 138.480-138.490).*

Beginning August 1, 2014, but before August 1, 2022, an excise tax of 0.5 percent was set on all advance deposit wagering amounts wagered through the licensee by Kentucky residents. Beginning August 1, 2022, an excise tax of 1.5 percent is set on all advance deposit account wagering licensees licensed under KRS 230.260 *(KRS138.513 (1)(a)&(b)).*

Racetracks conducting live horse races must report and pay a license tax for each day of racing based on the average daily handle of the preceding race year *(KRS 137.170-137.190)*.

| **Average Daily Live Handle** | **License Tax** |
|---|---|
| $0 - $25,000 | $ 0 |
| $25,001 - $250,000 | $ 175 |
| $250,001 - $450,000 | $ 500 |
| $450,001 - $700,000 | $ 1,000 |
| $700,001 - $800,000 | $ 1,500 |
| $800,001 - $900,000 | $ 2,000 |
| $900,001 and above | $ 2,500 |

**See Comment**

**Background:**
Pari-mutuel wagering taxes were adopted in 1948 and have been modified several times to arrive at the current statutory language *(KRS 138.510)*.

In 1948, all pari-mutuel races were taxed identically with an excise tax equal to 3 percent of the total amount of all money deposited in the pari-mutuel pool. None of the wagering handle went to any association or corporation that operates a running or trotting horse racetrack.

In 1954, the statute started differentiating the rate of the pari-mutuel taxes depending on the amount wagered at each track. The pari-mutuel excise tax was raised to 4 percent of the first $18 million wagered during the year and 6 percent of all wagered amounts in excess of that amount.

In the seventies, the pari-mutuel excise tax increased again to four and three-fourths percent of the amount wagered. Later a new section of KRS chapter 230 was created

and a trust and revolving fund for the Kentucky Harness Racing Commission was designated as the Kentucky Standardbred development fund and then as the Kentucky thoroughbred development fund.

In 1988, the pari-mutuel taxes started including all money used to place telephone account wagers tracks.

Starting in 1990, the rate on the amount wagered was adjusted to 3.5 percent if the average daily handle was equal to or greater than $1.2 million. If the daily average handled was less than $1.2 million, the rate was reduced to 1.5 percent.

Effective January 1, 2001, a one day international horse racing events that distributes in excess of a total of $10 million in purses was exempt from the pari-mutuel wagering tax on live racing conducted that day at the race track. That exemption remained in effect for any succeeding one day international horse racing event as long as the event returned within three years of the previously held event. Later, the amounts wagered at the track on live races conducted at the track during the expanded two day international horse racing event was not included in calculating the daily average live handle for the period starting 2015 through the end of 2017.

In 2003, licensed quarter horse racetracks were allowed to receive simulcasts and conduct interstate wagering on certain quarter horse races.

The issue of Advanced Deposit Wagering (ADW) firms was addressed during the 2009 Regular Session of the General Assembly. The prior years had seen significant growth in wagers made through ADW firms, which allow a patron to wager through a pre-funded account by telephone or through an internet enabled device. House Bill 472, which defined ADW firms, gave the Kentucky Horse Racing Authority jurisdiction over ADW firms and required a $10,000 license fee. During the 2011 Regular Session, HB 387 was passed which required additional reporting requirements on the amount of ADW wagers placed on Kentucky races and the amounts wagered by Kentucky residents through ADW firms. Beginning August 1, 2014, an excise tax was imposed on all advance deposit account wagering licensees licensed under KRS 230.260 at a rate of 0.5 percent of all amounts wagered through the licensee by Kentucky residents.

In 2010, the Kentucky Horse Race Commission (KHRC) determined that historical racing (or instant racing) was a permissible form of pari-mutuel wagering. The promulgated regulations require the machines to be located at the tracks or track-owned facilities. Previously run races rather than the outcome of a live horse race determine outcomes on this type of pari-mutuel wagering.

# Tax Increment Financing and Tourism Development Act

Recent acts of the Kentucky General Assembly have significantly broadened the state's arsenal of financing mechanisms for economic development and tourism. Incremental state revenues resulting from the development of certain areas of the Commonwealth may be pledged to pay for public infrastructure and certain other costs necessary to make development feasible.

Several amendments to the TIF statutes have been adopted since the original HB 549 in 2007. For the purposes of quantifying tax expenditures, the most significant change deals with Senate Bill 129, passed in the 2025 regular session, which revised the Mixed Use and Signature TIF programs specifically to exclude the independent consultant report required in KRS 154.30-030(2)(a)3.b and the net positive economic impact certification required by KRS 154.30-030(6)(b) for projects with a residential use comprising at least 50 percent of the total finished square footage of the proposed project. For projects not meeting the residential requirement, the independent consultant report is still required.

The funding mechanism for TIF projects typically involves the withholding component of the individual income tax from the project footprint, the sales and use tax, and state real property taxes. Historically, the pledge of these aforementioned revenue sources for most TIF projects is limited by the actual amount of approved public infrastructure costs created by the new development.

For TIF projects approved prior to January 1, 2023, any state tax revenue received by the Commonwealth from individual income tax shall be computed using modified new revenues for income tax. The purpose of the modifier is to ensure that the state revenues related to individual income tax remain whole as the individual income tax rate is reduced over time. The modifier is the result of dividing five percent by the individual income tax rate for the calendar year in which the new revenues for income tax are being computed. Senate Bill 129, passed in the 2024 regular session, allow modified new revenues for individual income tax until January 1, 2027.

In addition to the certification of select TIF projects, OSBD and the Cabinet for Finance and Administration are required to due similar diligence regarding the Tourism Development Act (TDA). In particular, TDA projects are subjected to the

same finding of net positive economic impact as defined in KRS 148.855. The funding mechanism for TDA projects is limited to recovery through the sales tax collected at the tourism destination, not to exceed twenty five percent of the certified approved cost of construction, with exception to a tourism attraction project located in an enhanced incentive county with a population equal to or less than 20,000 based on the most recent decennial census at the time the eligible company becomes an approved company as provided in KRS 148.857(6) and specialized lodging facility projects as provided in KRS 148.851 (15)(b) which shall not exceed fifty percent of approved project costs as certified by the Tourism Arts, and Heritage Cabinet. For both the TIF and TDA programs, the operational conveyance of the presence of a positive fiscal analysis is a letter co-signed by the State Budget Director and Secretary of Finance and Administration.

## West End Opportunity Partnership

*Kentucky Revised Statues 65.029, effective 2021*
Data Source: Kentucky Agency Estimate

House Bill 321, passed in the 2021 regular session, creates a new economic development area that is very similar to a TIF program. The West End Opportunity Partnership aims to foster transformational change in the West End of Louisville by encouraging investment in the established development area through the implementation of state and local Tax Increment Financing or TIF incentives. Eighty percent of incremental revenues from the development area are pledged for twenty years by the consolidated local government and the Commonwealth. Local tax revenues include real property ad valorem taxes and occupational license taxes. State tax revenues include state real property ad valorem taxes, individual income tax required to be withheld by an employer, and sales taxes. State tax revenues do not include revenues that have been pledged to support other TIF and economic development projects within the development area.

In conjunction with the West End TIF Project, HB 321 created a refundable and nontransferable tax credit to be used against individual income tax. The new refundable income tax credit is created for residential property owners within the development area who maintain the property as their principal residence. Heirs to that property within the development area as of January 1, 2021 are also eligible. The income tax credit is equal to the amount in which the timely paid property tax on the residential property in any taxable year exceeds the amount of property tax assessed on that residential property on January 1, 2021.

The following bullet points are unique characteristics of the West End Opportunity Partnership incentives:

- HB 321 does not provide a specific year for the base year "old revenues" calculation.
- The bill allows for increments to be calculated after the required $20 million in private investment threshold is reached. The investment threshold is provided in another bill that passed in the 2021 Regular Session, House Bill 556.
- The base year can be the calendar year prior to the year in which the $20 million threshold is reached. In theory, this could be 2021.
- If 2021 is the base year for "old revenues", then increments could be requested for calendar year 2022 and applied for in 2023.

# Introduction
## Part 1

# Introduction

Louisiana's state government relies on tax revenues to fund valuable services for its citizens. Ensuring that the system of taxation is fair, equitable, and efficient is vital to our economic success and quality of life. In setting tax policies, we must consider the taxpayer's ability to pay, the impact of those policies on economic development, and the interaction of tax policies with other policy goals.

Tax exemptions are an important component of Louisiana's tax policies. According to Revised Statute 47:1517(E), tax exemptions refer to "those revenue losses attributable to provisions of the state tax statutes or rules promulgated pursuant to such statutes, which allow a special exclusion, exemption, or deduction from gross income or sales or which provide a special credit, a preferential rate of tax, or a deferral of tax liability." Granting a tax exemption can be a powerful tool for providing economic development incentives or for mitigating the regressive qualities of certain tax types. However, tax exemptions always come with a cost. Exemptions reduce revenues otherwise available for programs or for tax relief for taxpayers who do not benefit from the exemptions. Therefore, it is critical that policy makers understand both the cost of exemptions and their effectiveness at achieving their intended goals.

Recognizing the need for this information, the legislature mandated in Section 1517 of Title 47 of the Louisiana Revised Statutes ("R.S.") that the Louisiana Department of Revenue ("Department of Revenue") prepare and submit to the governor and the legislature an annual tax exemption budget. In addition, the House Committee on Ways and Means and the Senate Committee on Revenue and Fiscal Affairs are required to conduct hearings on the tax exemption budget every odd-numbered year. These committees analyze and consider tax exemptions which have caused revenue loss to the state of $10 million or more in any one of the last three fiscal years. These committees may also report to the legislature findings or recommendations developed as a result of the hearings.

## Statutory Requirements

According to R.S. 47:1517(B) the Tax Exemption Budget must include the following information pertaining to the state's tax exemptions:

1. Listing of each tax exemption
2. Statutory citation
3. Purpose
4. Revenue loss to the state for the three preceding years
5. Estimate of revenue loss to the state for the current fiscal year
6. Estimate of revenue loss to the state for the ensuing fiscal year
7. Estimated cost of administering and implementing each tax exemption for the three preceding fiscal years, the current fiscal year, and the ensuing fiscal year
8. Number of businesses that receive each tax exemption
9. Parish or location of each business that receives a tax exemption
10. Number of taxpayers in each industry group by North American Industry Classification System sector that receives a tax exemption
11. Total tax burden by industry group for each tax before the exemption, total value to each industry group for each exemption, and total tax value by each industry group for each tax after the exemption
12. Schedule listing all tax exemptions by categories

In addition, R.S. 47:1517(C) requires that the annual Tax Exemption Budget include an assessment of each tax exemption based on the following criteria:

1. Whether or not each tax exemption has been successful in meeting the purpose for which it was enacted, in particular, whether each tax exemption benefits those originally intended to be benefited, and if not, those who do benefit
2. Whether each tax exemption is the most fiscally effective means of achieving its purpose
3. Unintended or inadvertent effects, benefits, or harm caused by each tax exemption, including whether each tax exemption conflicts with other state laws or regulations
4. Whether each tax exemption simplifies or complicates the state tax statutes

# Introduction

## Contents of the Report

Part 1, the Introduction, provides a general description of the statutory requirements for the Department of Revenue to prepare an annual Tax Exemption Budget.

Part 2, the Overview, provides further explanation of the purpose of the Tax Exemption Budget, methodology for measuring the fiscal effect of tax exemptions, reliability and source data of estimates, and terminology used to describe the fiscal effect of a tax exemption.

Part 3, the Executive Summary, provides graphical representations of revenue losses related to Fiscal Year 2024-2025, by major tax type.

Part 4, the Five-Year Estimate of Revenue Loss, is a listing of each tax exemption by major tax type and the revenue losses for the three preceding years, and estimated losses for the current year, and the ensuing year. The number of each tax exemption corresponds to its placement in the Listing of Exemptions. The category into which each exemption fits is also noted.

Part 5, the Listing of Exemptions, is arranged alphabetically by major tax type and provides general information regarding each tax exemption. Each section contains a discussion of the major tax type, the legal citations, the tax base, the tax rate, and any significant changes to the imposition or administration of the tax exemption enacted during the prior year. In addition, an index of each tax exemption, the legal citation, and the page number is provided to aid the reader.

Part 6, Appendix, provides a copy of Louisiana Revised Statute 47:1517.

Part 7, Glossary, provides definitions for terms used in the Tax Exemption Budget.

## Data Limitations of the Tax Exemption Budget

The Department of Revenue is able to provide all of the required information for the annual Tax Exemption Budget except for the following:

1. The cost of administering and implementing each tax exemption
2. A determination of whether each tax exemption has been successful in meeting the purpose for which it was enacted and whether it benefits those originally intended to be benefited
3. A determination of whether each tax exemption is the most fiscally effective means of achieving its purpose
4. A determination of unintended or inadvertent effects, benefits, or harm caused by each tax exemption
5. A determination of whether each tax exemption simplifies or complicates the state tax statutes
6. Number of businesses that receive each tax exemption
7. Parish or location of each business that receives a tax exemption
8. Number of taxpayers in each North American Industry Classification System (NAICS) sector that receives a tax exemption
9. Total tax burden by industry group for each tax before the exemption, total value to each industry group for each exemption, and total tax value by each industry group for each tax after the exemption

Currently, the Department of Revenue does not capture the data required to offer an opinion on the information listed in items 1 through 5 above. The lack of historical data for specific exemptions, both financial and statistical in nature, limits the Department of Revenue's ability to make a determination with any significant confidence about its degree of accuracy. Additionally, because many exemptions are either reported within a consolidated group or by the seller/vendor, the parish and NAICS information available to the Department does not accurately reflect the location or industry group of the business receiving the tax exemption.

# Overview
## Part 2

# Overview

## The Purpose of the Tax Exemption Budget

Louisiana's governmental policy objectives are achieved through direct spending programs and through tax exemptions which reduce actual tax collection revenues. Similar to direct spending programs, tax exemptions are designed to encourage certain activities or to provide financial assistance to persons, businesses, or groups in particular situations. The purpose of this report is to provide information to facilitate a regular, comprehensive legislative review of state tax exemptions.

## Measurements of Tax Exemptions

The fiscal impacts of tax exemptions are often difficult to measure and estimates of the effect of tax exemptions are subject to limitations and require that assumptions be made. Generally, in calculating the revenue loss related to a tax exemption, it is assumed that only the provision in question is changed and that all other aspects of the tax system remain the same.

Consistent with accepted revenue estimating practices, the estimates also assume that economic variables, taxpayer behavior and other factors would be unaffected by the repeal of a tax exemption. As a result, the calculations do not consider any side effects that could result from the removal of any other tax exemption.

In addition, the estimates are limited to the accuracy and completeness of the source data. In some cases, little data is available, and estimates were made using external sources or indirect information. Specifically, the following three scenarios are highlighted as areas of potential understatement or overstatement of estimates in the Tax Exemption Budget:

- Revenue losses associated with nonrefundable individual income tax, corporation income tax, fiduciary income tax, and corporation franchise tax credits, including nonrefundable credits reported in the tax incentive and exemption contracts section have been limited to the tax liability reported.
- Revenue losses associated with transferable tax credits, such as the Motion Picture Investor Tax Credit and the credit for the Rehabilitation of Historic Structures used as payments for outstanding liabilities are only reported if the tax credit is in the Tax Credit Registry under R.S. 47:1524.
- Revenue losses are reported based on all tax returns filed during the fiscal year. If returns for prior periods are filed in the current fiscal year, the revenue losses attributable to those prior tax periods are reflected in the data reported. As a result, revenue losses may continue to be reported in a given fiscal year even after a provision has been repealed or has sunset.

## Reliability of Data Sources

The precision of the fiscal effect of the tax exemptions reported in this document varies with the source of the data and the applicability of the data to the specific tax exemption provision. Regardless of the data source, the reliability of estimates for the current and ensuing years is of distinctly lower quality than that of the historical numbers.

Whenever possible, data from actual tax returns is used to estimate the fiscal effect of a tax exemption. Other sources of data include informational reports filed with the Department of Revenue, the Department of Revenue's Summary of Refunds and Rebates Issued Report, and information gathered from the Office of Motor Vehicles, Louisiana Economic Development, Department of Education and Department of Culture, Recreation & Tourism.

For purposes of this report, the following terminology is used to describe the fiscal effect for tax exemptions with the following situations:

*Negligible* – revenue loss is reported or estimated at $10,000 or less

*No data* – historical data was not available to report or estimate the revenue loss

*Unable to anticipate* – source data was not available to predict the future revenue loss

*** – tax exemption was not in effect for tax periods that would be filed during the fiscal year

*NRR* – source data was not available because there is no reporting requirement for the data

*See number (x)* – used in the sales tax and individual income tax listings to indicate that the fiscal effect for a tax exemption is included with the fiscal effect of the referenced exemption. Generally, this applies to those tax exemptions that have been superseded by another form of exemption or grouped with a like item.

## Reliability of Sales Tax Return Reporting

There is a risk that taxpayers have erroneously classified exempt transactions. Consequently, classification errors for sales tax revenue losses may be undetected and amounts erroneously reported in the Tax Exemption Budget document.

## Explanation of Certain Reporting Disclosures in the Five-Year Revenue Loss Schedule

*State Exemptions and Federal Exemptions* – There are several statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements. Because of these additional prohibitions, repeal of the statutory exemption would not yield the fiscal effect indicated. For this reason, these exemptions are separately grouped at the end of each major tax listing.

## Explanation of Certain Reporting Disclosures in the Five-Year Revenue Loss Schedule – Sales Tax

Act 1 of the 2018 Third Extraordinary Legislative Session amended R.S. 47:321.1 to reduce the additional state sales tax imposed by Act 26 of the 2016 First Extraordinary Legislative Session from 1% to 0.45%. This reduced the overall state sales tax rate from 5% to 4.45%. Only those exclusions and exemptions listed in Act 1 remained in effect with respect to the impositions in R.S. 47:302, 321, 321.1 and 331. Act 1 also provided that business utilities, which include the sale or use of steam, water, electric power or energy, natural gas, or energy sources as provided in R.S. 47:305(D)(1)(b), (c), (d), (g), and (h), are subject to a 2% state sales tax pursuant to R.S. 47:302. The state sales tax rate of 4.45% was in effect from July 1, 2018, until December 31, 2024.

Act 11 of the 2024 Third Extraordinary Session amended the levies in R.S. 47:321.1 (to 1%) and 331 (to 1%), resulting in an overall state sales tax rate of 5% beginning January 1, 2025. The levy in R.S. 51:1286 was repealed and replaced with an equivalent dedication of the collections received from R.S. 47:331. Act 11 also repealed many of the exclusions and exemptions that had previously been suspended.

The Louisiana Sales and Use Tax Commission for Remote Sellers serves as the tax collecting entity for state and local taxing jurisdictions collecting sales taxes due from remote sales. State and local sales and use taxes have been collected by this commission since July 1, 2020. State sales tax exemptions and exclusions associated with remote sales transactions are included in the TEB Five-Year Revenue Loss.

Due to the potential of taxpayer reporting errors on Form R-1029, *Louisiana Department of Revenue Sales Tax Return*, there is a risk of classification errors for sales tax revenue losses reported in the Tax Exemption Budget document.

**Footnotes for Sales Tax**

1. Pertinent transactions were subject to 2% out of 4.45% state sales tax rate until December 31, 2024. Beginning January 1, 2025, pertinent transactions are fully exempt from the 5% state sales tax rate. The revenue losses for return periods prior to January 1, 2025, are included in number 30 in this Section.
2. The revenue losses for return periods before January 1, 2025, are included in manufacturing machinery and equipment. See number 82 in this Section.

Due to the potential of taxpayer reporting errors on Form R-1029, *Louisiana Department of Revenue Sales Tax Return*, there is a risk of classification errors for sales tax revenue losses reported in the Tax Exemption Budget document.

**Footnotes for Sales Tax**

1. The total revenue loss includes purchases by state and local governments, as well as sales to the U.S. government. See number 98 in this Section.
2. Pertinent transactions are fully exempt from 5% state sales tax effective January 1, 2025.
3. The revenue loss refers to the decline in revenue from the sale of materials and services that were subject to a 4.45% state sales tax before January 1, 2025. This calculation does not include the revenue loss from transportation charges, which were exempt from state sales tax prior to that date.
4. See Revenue Information Bulletin No. 06-022 issued May 5, 2006.

**Footnotes for Income & Franchise Tax**

1. The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.
2. The fiscal effect assumes no restrictions on eliminating this deduction. Assuming that to reduce this deduction below the levels in effect January 1, 1974, would require a constitutional amendment, 58 percent of the fiscal effect should be considered protected. This estimated revenue loss increased significantly due to tax reform changes as provided by Acts 2024, 3rd Ex. Sess., No. 11.

## Part 5

# Consumable Hemp Products Tax Exemptions

# Consumable Hemp Products Tax

## { Introduction }

Act 247 of the 2019 Regular Session levied an excise tax on industrial hemp-derived CBD products at the rate of 3% of the retail sales price. Act 336 of the 2021 Regular Session expanded the tax to apply to all consumable hemp products and changed the name to the Consumable Hemp Products Tax. The tax is paid by the retailer on a monthly basis and is in addition to any other state and local sales tax due on the retail sale. Collections from this tax are dedicated to the Early Childhood Education Fund. The tax applies to industrial-hemp derived CBD products for the period January 1, 2020 – July 31, 2021, and to all consumable hemp products as of August 1, 2021.

### Legal Citations
R.S. 47:1693

### Tax Base
January 1, 2020 - July 31, 2021: Retail sales price of industrial hemp-derived CBD products

Beginning August 1, 2021: Retail sales price of consumable hemp products

### Tax Rate
3% of retail sales price

### Type of Tax Exemptions
Consumable hemp products tax exemptions are in the form of exemptions from the tax. Exemptions are included in the tax base but specifically exempted by statute.

### Significant Changes
There were no changes to the consumable hemp products tax laws during the past year.

# Hazardous Waste Disposal Tax Exemption

# Hazardous Waste Disposal Tax

## { Introduction }

Act 8 of the 1984 First Extraordinary Session levied a one-time tax on the existing hazardous waste content of the land. The tax rate was $2 per ton of waste disposed of or stored in the land during 1981, 1982, 1983, and the first six months of 1984. The tax was administered by the Department of Environmental Quality and collected by the Department of Revenue.

Act 8 also levied the hazardous waste disposal tax for both disposal and certain storage of hazardous waste in Louisiana. Disposal tax rates were set as follows: (1) $5 per dry-weight ton of waste disposed at the same site where produced or generated, and (2) $10 per dry-weight ton for waste disposed of or stored at a site other than where produced or generated. The tax is collectible from the generator if the generator disposed of their own hazardous waste, or from the disposer, who is responsible for collecting the tax from the generator at the time the waste is received. All generators and disposers are required to register with the Department of Environmental Quality.

Act 655 of the 1988 Regular Session increased the disposal tax rates to $10 per dry-weight ton for on-site disposal and $20 per dry-weight ton for disposal at another site. The Act provided for an annual increase of $1 per year until 1998. Act 655 also imposed a tax of $25 per dry-weight ton on extremely hazardous waste disposed of in Louisiana and extended taxation to waste imported into Louisiana for disposal or storage.

Act 391 of the 1990 Regular Session further increased the rates to $30, $60, and $100 per dry-weight ton for on-site disposal, off-site disposal, and extremely hazardous waste, respectively. Additionally, a tax of $25 per gross-weight ton was levied on the transportation of hazardous or extremely hazardous waste within Louisiana for disposal or storage.

Act 526 of the 1992 Regular Session reduced the off-site disposal tax from $60 to $40 per dry-weight ton and repealed the tax on transporting hazardous or extremely hazardous waste.

### Legal Citations
R.S. 47:821 through 832

### Tax Base
Dry-weight ton, or fraction thereof, of hazardous or extremely hazardous wastes disposed in Louisiana and hazardous waste stored in Louisiana for over 90 days

### Tax Rate
- $30 per ton for hazardous waste disposed of at the site where it was produced
- $40 per ton for hazardous waste disposed of at a site other than where produced
- $100 per ton of extremely hazardous waste disposed of

Imported hazardous waste produced out-of-state and disposed of in Louisiana is taxed at the higher of either the current Louisiana tax rate or at the rate that would be applied in the state where the waste was generated.

### Types of Tax Exemptions
For hazardous waste disposal tax purposes, the tax exemption is provided in the form of a credit. A credit is generally defined as a reduction in the amount of tax due.

### Significant Changes
There were no changes to the hazardous waste disposal tax laws during the past year.

# Income and Corporation Franchise Tax Exemptions

*Corporation Income, Corporation Franchise, Individual and Fiduciary*

# Income and Corporation Franchise Tax

*Corporation Income, Corporation Franchise, Individual and Fiduciary*

{ Introduction }

### Corporation Income

The Louisiana corporation income tax was authorized by the 1921 state constitution. The first tax was levied in 1934 at the rate of 4% of corporate earnings exceeding $3,000. In 1977, Louisiana raised the income tax rate from a flat rate of 4% to a five-tier tax rate schedule that ranged from 4% of the first $25,000 of taxable income to a maximum of 8% of the taxable income exceeding $200,000. In 2021, Louisiana reduced the income tax rate to a three-tier tax rate schedule that ranged from 3.5% of the first $50,000 of taxable income to a maximum of 7.5% of the taxable income exceeding $150,000. In 2025, Louisiana reduced the income tax rate to a flat rate of 5.5%.

Until 2022, Louisiana allowed a deduction for 100% of the federal income taxes paid on income taxable to Louisiana, which reduced the effective corporation income tax rate. This deduction was repealed for taxable periods beginning on or after January 1, 2022.

Like many other states that impose a corporation income tax, Louisiana closely follows the federal system. The state employs the federal definition of income and deductions with certain modifications. Act 16 of the First Extraordinary Session of 1986 enacted R.S. 47:287.2 through 287.785 relative to corporation income tax and provided for the conformance to the federal tax system.

For multi-state corporations, Louisiana net income is generally determined through formula apportionment. Under the formula apportionment method, total net income is generally apportioned to Louisiana based on the average of three factors: property, revenue, and wages.

Domestic corporations and other entities taxed as corporations for federal income tax purposes that organized under the laws of Louisiana, unless specifically exempted, must file an income tax return each year. Foreign corporations and other entities taxed as corporations for federal income tax purposes, organized under the laws of other states, who derive income from Louisiana sources, regardless of whether or not they have net income, must file an income tax return unless specifically exempted.

The income tax return is due by the fifteenth day of the fifth month following the close of an accounting period.

### Legal Citations

R.S. 47:21 through 285, R.S. 47:287.2 through 287.785

### Tax Base

Taxable income earned within or derived from sources within Louisiana after adjustments.

### Tax Rate

Corporations pay tax on net income computed at the following rates:

| Effective for Tax Years beginning prior to January 1, 2022 | Effective for Tax Years 2022 - 2024 | Effective for Tax Years beginning on January 1, 2025 and after |
|---|---|---|
| 4% on the first $25,000 | 3.5% on the first $25,000 | **5.5%** |
| 5% on the next $25,000 | 5.5% on the next $50,000 | |
| 6% on the next $50,000 | 7.5% on net income above $150,000 | |
| 7% on the next $100,000 | | |
| 8% on net income above $200,000 | | |

### Types of Tax Exemptions

Corporation income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. An exemption/exclusion generally means that a corporation is statutorily exempt from the imposition of the corporation income tax because of the nature of the corporation's business or a specific item of income that is not taxed. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to corporation income tax are contained in this report.

The federal income tax deduction, although a statutory deduction, was required by the state constitution. For this reason, this deduction has been separated from the other exemptions and appears at the end of this section. The federal income tax deduction was removed from the constitution and is repealed for taxable periods beginning on or after January 1, 2022.

## Significant Changes

### 2024 Third Extraordinary Session

**Act 376**

Act 376 establishes the Work-Based Learning Tax Credit. R.S. 47:6003 authorizes a nonrefundable credit for the employment of an "apprentice," "youth worker," or "intern," as defined therein, for a minimum of 100 hours per taxable period, equal to $2.50 per hour of employment up to $2,500 per taxable period. Unused credits can be carried forward for up to five (5) years. Beginning January 1, 2027, taxpayers must apply for the credit during the annual application period following the year the credit is earned. The credit has an initial cap of $1 million, with an annual increase of $1 million, up to a maximum of $7.5 million, if 80% of the credit cap amount authorized for the previous calendar year is utilized, as determined by the LDR. The credit cannot be combined with any other incentive received for the hiring of an eligible apprentice, youth worker, or intern and sunsets on December 31, 2031. Act 376 is applicable to taxable periods beginning on or after January 1, 2026.

**Act 382**

Act 382 repeals the treatment and taxation of an S corporation as a C corporation. For taxable periods beginning on or after January 1, 2026, S corporations will be recognized as a pass-through entity for state income tax purposes consistent with federal treatment. Act 382 repeals the optional election of a qualified Subchapter S subsidiary to be treated and taxed as a separate entity in favor of treatment and taxation of such entity as a disregarded entity. S corporations must file an annual informational return, electronically, which includes the income attributable to Louisiana as well as the income not attributable to Louisiana, of each shareholder. If a shareholder fails to timely pay its taxes due with respect to its share of income of the S corporation the LDR can collect payment directly from the S corporation.

**Act 423**

Act 423 authorizes a nonrefundable income tax credit for a donation to a public school receiving a "D" or "F" letter grade for the most recent school year pursuant to the Louisiana School and District Accountability System. The credit is earned in the year of the donation and is equal to 90% of the amount donated. Donated amounts must be used by the public school for qualifying purposes, as provided in the statute. The governing authority of the public school must submit a public report prepared by a certified public accountant which contains all required identifying information. The report is due no later than the last day of February of each year and must be submitted to the LDR and the Department of Education. The credit is capped at $1 million per calendar year. Taxpayers must apply for the credit, electronically, during an annual application period following the year in which the credit is earned. The credit will be granted on a first-come, first-serve basis, with any requests received in excess of the credit cap being treated as received on the first day of the subsequent calendar year. The credit sunsets on December 31, 2027. Act 423 is applicable to taxable periods beginning on or after January 1, 2026.

**Act 454**

Act 454 amends the amount of the School Readiness Tax Credit for business-supported childcare and makes several key changes. Specifically, the credit amounts for centers rated three stars or higher were increased from 10%, 15% and 20%, to 30%, 40%, and 50%, respectively, while qualifying centers rated two stars or below are no longer eligible for the credit. Additionally, Act 454 outlines the expanded limits on eligible business childcare expenses. Beginning January 1, 2027, taxpayers must apply for the credit during the annual application period following the year the credit is earned. Finally, Act 454 renames the credit the "Work Force Childcare Tax Credit" and authorizes an initial annual credit cap of $1 million, with an annual increase of $1 million, when 80% of the credit cap amount authorized for the previous calendar year is utilized, as determined by the LDR up to a maximum of $5 million. The credit is applicable to taxable periods beginning on or after January 1, 2026.

# Income and Corporation Franchise Tax

*Corporation Income, Corporation Franchise, Individual and Fiduciary*

{ Introduction }

### Corporation Franchise

The Louisiana corporation franchise tax was enacted in 1932. The tax was imposed on every domestic corporation and every foreign corporation authorized or doing business in the state or using any part of its capital, plant, or any other property in the state. As originally enacted, the tax levied was due and payable for the privilege of carrying on or doing business, the exercising of its charter, or the continuance of its charter within the state.

An initial tax return covering the period beginning with the date the corporation first becomes liable for filing a return and ending with the close of the accounting period must be filed on or before the fifteenth day of the fourth month after the corporation first becomes liable. Thereafter, an annual return is due by the fifteenth day of the fifth month after the close of an accounting period. The tax is due on the first day of the calendar year or the taxpayer's fiscal year.

The law has been amended many times since 1932. However, an amendment in 1970 to replace the privilege of doing business language in the original act with the statement that the tax levied is due and payable on any one or all of the incidents referred to in the law was one of the more important amendments. For taxable periods beginning after December 31, 2005, the amount of borrowed capital included in taxable capital was reduced until fully phased out for the 2011 franchise tax year.

For taxable periods beginning before January 1, 2017, a limited liability company (LLC) is not considered to be a corporation for franchise tax purposes and therefore is not subject to franchise tax. For taxable periods beginning on or after January 1, 2017, the imposition of the franchise tax was extended to any entity taxed as a corporation for federal income tax purposes if it meets any of the criteria for franchise tax, with two exceptions: (1) Any LLC qualified and eligible to make an election to be taxed as an S Corporation on the first day of the franchise tax period and (2) Any other entity that was acquired during the period January 1, 2012, to December 31, 2013, by an entity that was taxed as an S Corporation for federal purposes.

The franchise tax is repealed for taxable periods beginning on or after January 1, 2026.

### Legal Citations

R.S. 47:601 through 618

### Tax Base

Capital stock, surplus, and undivided profits

### Tax Rate

For taxable periods beginning prior to January 1, 2023, the tax was assessed on the taxable base at the rate of $1.50 per $1,000 on the first $300,000 and $3.00 per $1,000 over $300,000. For taxable periods beginning on or after January 1, 2023, through December 31, 2025, the tax was assessed on the taxable base at the rate of $2.75 for each $1,000 in excess of $300,000. The tax is based on the larger of the assessed value of all real and personal property in the state or the amount of issued and outstanding capital stock, surplus, and undivided profits attributable to Louisiana.

### Types of Tax Exemptions

Corporation franchise tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally refer to organizations or corporations that are statutorily exempt from the imposition of the corporation franchise tax due to the nature of their operation. Deductions are generally defined as a reduction to the taxable base. Credits are generally defined as a reduction to the amount of tax due.

# Income and Corporation Franchise Tax

*Corporation Income, Corporation Franchise, Individual and Fiduciary*

{ Introduction }

### Individual Income

Louisiana's individual income tax was first imposed in 1934. The tax is assessed on a resident individual's income derived from all sources and a nonresident individual's income derived from Louisiana sources. Resident individuals are allowed a credit for income tax paid to other states on income that is also taxed by Louisiana.

Like other states that impose an individual income tax, Louisiana closely follows the federal system utilizing the federal definition of income and deductions with certain modifications. Louisiana tax-table income is a modified federal adjusted gross income less federal income taxes paid for taxable periods beginning before January 1, 2022, and a modified federal adjusted gross income for taxable periods beginning on or after January 1, 2022.

For taxable periods before January 1, 2025, the income tax base was partially diminished by a combined personal exemption/standard deduction of $4,500 for single filers and married taxpayers filing separately or $9,000 for married taxpayers filing jointly, head-of-household filers, and qualifying surviving spouses. Additional $1,000 deductions were given for each dependent and each taxpayer who is blind or 65 years of age or older.

For taxable periods on or after January 1, 2025, the combined personal exemption/standard deduction is eliminated in favor of a standard deduction of $12,500 for single filers and married taxpayers filing separately or 200% of the amount provided for single filers for taxpayers with filing status married filing joint, head-of-household, and qualified surviving spouse. Beginning January 1, 2026, the standard deduction amount is adjusted annually for inflation.

Any resident, nonresident, or part-year resident required to file a tax return must do so by the fifteenth day of the fifth month after the close of their taxable year. For taxable periods on or after January 1, 2022, all individual income tax filers receive an automatic filing extension of six months.

### Legal Citations

R.S. 47:21 through 285, R.S. 47:290 through 299

### Tax Base

For taxable periods beginning before January 1, 2022, the tax base is comprised of federal adjusted gross income less federal income tax and the portion of federal itemized deductions that were in excess of the federal standard deduction with adjustments for other modifications to federal adjusted gross income.

For taxable periods beginning on or after January 1, 2022, the tax base is comprised of federal adjusted gross income less the portion of federal itemized deductions for medical expenses that were in excess of the federal standard deduction with adjustments for other modifications to federal adjusted gross income.

For taxable periods beginning on or after January 1, 2025, the tax base is comprised of federal adjusted gross income less the Louisiana standard deduction and the portion of federal itemized deductions for medical expenses that were in excess of the federal standard deduction with adjustments for other modifications to federal adjusted gross income.

### Tax Rate

| Filing Status | Taxable Income | Effective for Tax Years 2009-2021 | Effective for Tax Years 2022-2024 | Effective for Tax Years beginning on January 1, 2025 and after |
|---|---|---|---|---|
| **Single, married filing separately, or head of household** | $0 - $12,500 | 2.00% | 1.85% | **3%** |
| | $12,501 - $50,000 | 4.00% | 3.50% | **3%** |
| | $50,001 and over | 6.00% | 4.25% | **3%** |
| **Married filing jointly or qualified surviving spouse** | $0 - $25,000 | 2.00% | 1.85% | **3%** |
| | $25,001-$100,000 | 4.00% | 3.50% | **3%** |
| | $100,001 and over | 6.00% | 4.25% | **3%** |

### Types of Tax Exemptions

Individual income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally mean a specific item of income that is not included in taxable income. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to individual income tax are contained in this report.

## Significant Changes

### 2025 Regular Session

**Act 32**

Act 32 exempts grants received from the Louisiana Fortify Homes Program pursuant to R.S. 22:1483.1, from tax table income for purposes of individual income tax. This exemption is applicable to grant amounts received on or after January 1, 2025.

**Act 110**

Act 110 authorizes a Louisiana individual income tax exclusion for deposits made into Achieving a Better Life Experience Account Program (ABLE) accounts beginning January 1, 2026. Account owners may exclude up to $2,400 per beneficiary, per tax year if filing a single return, and up to $4,800 per beneficiary if filing a joint return. Unused exclusion amounts may be carried forward to subsequent years. Interest earned is also excluded, but amounts withdrawn for non-qualified expenses must be added back to tax table income. The LA Tuition Trust Authority is required to submit an annual report no later than January 31st each year to the LDR listing all deposits made by account owners during the prior calendar year. The exclusion is applicable to taxable periods beginning on or after January 1, 2026.

**Act 251**

Act 251 authorizes an individual income tax deduction for hardship distributions from retirement accounts when the withdrawal results from a serious and immediate financial need, as determined by the retirement plan. To qualify, the taxpayer, or in the case of married joint filers, the taxpayer's spouse, must be diagnosed with a terminal illness by a licensed physician. Act 251 applies to taxable periods beginning on or after January 1, 2026.

**Act 376**

Act 376 establishes the Work-Based Learning Tax Credit. R.S. 47:6003 authorizes a nonrefundable credit for the employment of an "apprentice," "youth worker," or "intern," as defined therein, for a minimum of 100 hours per taxable period, equal to $2.50 per hour of employment up to $2,500 per taxable period. Unused credits can be carried forward for up to five (5) years. Beginning January 1, 2027, taxpayers must apply for the credit during the annual application period following the year the credit is earned. The credit has an initial cap of $1 million, with an annual increase of $1 million, up to a maximum of $7.5 million, if 80% of the credit cap amount authorized for the previous calendar year is utilized, as determined by the LDR. The credit cannot be combined with any other incentive received for the hiring of an eligible apprentice, youth worker or intern and sunsets on December 31, 2031. Act 376 is applicable to taxable periods beginning on or after January 1, 2026.

**Act 404**

Act 404 establishes a nonrefundable individual income tax credit for Louisiana resident taxpayers who install a fortified roof on their primary residence, as certified by the Insurance Institute for Business and Home Safety. The credit is equal to the full amount of qualified installation costs, up to $10,000 per residence. The credit applies only to owner-occupied homes with a homestead exemption. New construction, condominiums, and mobile homes do not qualify. The credit is capped at $10 million per fiscal year, allocated on a first-come, first-served basis, with proration required if the amount of requests received exceeds the available amount. Credits may be carried forward for up to three years but cannot be claimed in combination with other state tax benefits or fortified roof grant funds received pursuant to La. R.S. 22:1483.1. LDR is required to promulgate rules to establish policies relative to administration of the eligibility criteria or any other matter deemed necessary to implement the credit. The credit applies to qualifying expenses incurred on or after July 1, 2025, and may not be earned after December 31, 2031.

**Act 423**

Act 423 authorizes a nonrefundable income tax credit for a donation to a public school receiving a "D" or "F" letter grade for the most recent school year pursuant to the Louisiana School and District Accountability System. The credit is earned in the year of the donation and is equal to 90% of the amount donated. Donated amounts must be used by the public school for qualifying purposes, as provided in the statute. The governing authority of the public school must submit a public report prepared by a certified public accountant which contains all required identifying information. The report is due no later than the last day of February of each year and must be submitted to the LDR and the Department of Education. The credit is capped at $1 million per calendar year. Taxpayers must apply for the credit, electronically, during an annual application period following the year in which the credit is earned. The credit will be granted on a first-come, first-serve basis, with any requests

received in excess of the credit cap being treated as received on the first day of the subsequent calendar year. The credit sunsets on December 31, 2027. Act 423 is applicable to taxable periods beginning on or after January 1, 2026.

**Act 454**

Act 454 amends the amount of the School Readiness Tax Credit for business-supported childcare and makes several key changes. Specifically, the credit amounts are increased for centers rated three stars or higher from 10%, 15% and 20%, to 30%, 40%, and 50%, respectively, while qualifying centers rated two stars or below are ineligible for the credit. Additionally, Act 454 outlines the expanded limits on eligible business childcare expenses. Beginning January 1, 2027, taxpayers must apply for the credit during the annual application period following the year the credit is earned. Finally, Act 454 renames the credit the "Work Force Childcare Tax Credit" and authorizes an initial annual credit cap of $1 million, with an annual increase of $1 million, when 80% of the credit cap amount authorized for the previous calendar year is utilized, as determined by the LDR up to a maximum of $5 million. Act 454 is applicable to taxable periods beginning on or after January 1, 2026.

# Income and Corporation Franchise Tax

*Corporation Income, Corporation Franchise, Individual and Fiduciary*

{ Introduction }

### Fiduciary

Louisiana's fiduciary income tax was first imposed in 1934. In 1996, the Louisiana Legislature enacted legislation to conform Louisiana income tax laws on estates and trusts to the Internal Revenue Code for purposes of simplifying preparation and filing of returns as well as to improve enforcement and aid in the interpretation of the income tax law. Resident estates and trusts with income from whatever source derived must file a fiduciary income tax return in Louisiana. Nonresident estates and trusts must file a fiduciary income tax return in Louisiana if they have income earned within or derived from sources within the state.

Like other states that impose a fiduciary income tax, Louisiana closely follows the federal system utilizing the federal definition of income and deductions with certain modifications. Before January 1, 2022, Louisiana taxable income was a modified federal taxable income less federal income taxes paid . For taxable periods beginning on or after January 1, 2022, the deduction for federal income taxes paid is no longer available.

Any resident or nonresident estate or trust required to file a tax return must do so by the fifteenth day of the fifth month after the close of their taxable year. Beginning in tax year 2022, resident and nonresident estates and trusts are allowed an automatic filing extension of six months.

## Legal Citations

R.S. 47:181 through 188, R.S. 47:300.1 through 300.11

## Tax Base

For taxable periods beginning before January 1, 2022, the tax base is comprised of federal taxable income less federal income taxes paid with adjustments for other modifications to federal taxable income. For taxable periods beginning on or after January 1, 2022, the tax base is comprised of federal taxable income with adjustments for other modifications to federal taxable income.

## Tax Rate

Tax is computed at the following rates:

| Effective for Tax Years beginning prior to January 1, 2022 | Effective Tax Years 2022-2024 | Effective for Tax Years beginning January 1, 2025 and after |
|---|---|---|
| 2% on the first $10,000 | 1.85% on the first $10,000 | **3%** |
| 4% on the next $40,000 | 3.5% on the next $40,000 | |
| 6% on taxable income above $50,000 | 4.25% on taxable income above $50,000 | |

## Types of Tax Exemptions

Fiduciary income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally mean a specific item of income that is not included in taxable income. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to fiduciary income tax are contained in this report.

Until 2022, the federal income tax deduction, although a statutory deduction, was also required by the state constitution. For this reason, this deduction has been separated from the other exemptions and appears at the end of this section. The deduction was repealed for taxable periods beginning on or after January 1, 2022.

### 1. Credit Unions

Credit unions, including all their accumulated assets, are exempt from all taxes except for those on immovable property they own. Shares in a credit union are not subject to stock transfer taxes, whether issued by the credit union or transferred between members. Additionally, credit unions are not subject to the fees, taxes, or capital stock requirements that apply to regular corporations under general law. This exemption is intended to reduce the tax burden on these nonprofit organizations.

This exemption is applicable against corporation income and franchise tax.

#### Legal Citation
R.S. 6:662

#### Origin
Acts 1924, No. 40

#### Effective Date
Taxable periods beginning on or after July 1, 1924

#### Beneficiaries
Individuals who are a member of a state or federal chartered credit union

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no reporting requirement for this data.

### 2. Certain Foreign Corporations

Foreign corporations operating as mutual savings banks, mutual savings fund societies, real estate investment trusts (REITs), state banks or trust companies, insurance companies, corporations serving as REIT advisors, group insurance and annuity companies, and nonprofit or non-trading corporations are exempt from Louisiana corporation income and franchise taxes if their activities in the state are limited to certain loan-related services, such as making, acquiring, or participating in loans. This exemption is intended to support access to financing for Louisiana businesses and individuals.

This exemption is applicable against corporation income and franchise tax.

#### Legal Citation
R.S. 12:302(K) and (L)

#### Origin
Acts 1968, No. 105, amended by Acts 1972, No. 751

#### Effective Date
Taxable periods beginning on or after January 1, 1968

#### Beneficiaries
Certain foreign corporations referred to in the law

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no reporting requirements for this data.

### 3. Electric Cooperatives

Electric cooperatives are exempt from all individual income, corporation income, franchise, and excise taxes, except for a fee of $10 for every 100 people (or part thereof) they provide electricity to within the state. This exemption is intended to reduce the tax burden on these nonprofit electric cooperatives.

This exemption is applicable to individual and corporation income tax and corporation franchise tax.

#### Legal Citation
R.S. 12:425

#### Beneficiaries
Individuals and companies purchasing electricity from electric cooperatives

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no reporting requirement for this data.

### 4. State Banking Corporations and Shareholders

State banking corporations and their shareholders are taxed the same as national banking corporations, which are exempt from corporation income tax. This exemption is intended to give state banks and their shareholders the same tax benefits available to national banking corporations and their shareholders.

This exemption is applicable to corporation income tax.

The Department is unable to estimate the fiscal effect; there is no reporting requirement for this data.

### 5. Annual Retirement Income

An exclusion is allowed for certain retirement income of taxpayers 65 years or older. The exclusion is intended to reduce the tax burden for seniors in Louisiana.

For taxable periods beginning before January 1, 2025, individuals aged 65 or older may exclude up to $6,000 of annual retirement income from their taxable income.

For taxable periods beginning on or after January 1, 2025, individuals aged 65 or older may exclude up to $12,000 of annual retirement income from their taxable income. This amount will be adjusted annually for inflation.

This exclusion is applicable to individual income tax.

#### Legal Citation

### 6. Disability Income

Individuals receiving annual disability income for a permanent total disability, as defined in R.S. 23:1221(2), may exclude up to $6,000 of that income from taxation. This exclusion is intended to reduce the tax liability for individuals with a permanent total disability.

For taxable periods beginning before January 1, 2025, an individual who claims the exemption under R.S. 47:79(A)(2) for blindness, loss of limbs, mental incapacity, or deafness is not eligible to claim this exclusion.

This exclusion is applicable to individual income tax.

#### Legal Citation

### 11. Governmental Subsidies for Operating Public Transportation Systems

Funds received by a corporation from a government entity to support the operation and maintenance of public transportation systems are excluded from gross income. This exclusion aims to provide financial aid to public transportation services.

For returns filed after July 1, 2018, the exclusion is equal to 100% of the funds received. For returns filed from July 1, 2015, through June 30, 2018, and for taxable periods beginning during calendar years 2015, 2016, and 2017, regardless of the return filing date, the exclusion is limited to 72% of the funds received.

If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exclusion was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

This exclusion is applicable to corporation income tax.

#### Legal Citations

#### Effective Date

Taxable periods beginning on or after January 1, 1979

#### Beneficiaries

Certain public-service corporations

#### Estimated Fiscal Effect

The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

### 12. Compensation for Disaster Services

A nonresident business entity providing services at the request of a registered Louisiana business or a state or local government during a declared disaster or emergency period may exclude all income earned from disaster or emergency-related work performed within Louisiana during that period. Similarly, out-of-state employees conducting disaster or emergency-related work in Louisiana during the declared period may also exclude all income received for such work from Louisiana taxable income. The purpose of this exclusion is to provide tax relief during emergencies and natural disasters.

This exclusion is applicable to individual and corporation income tax.

#### Legal Citation

R.S. 47:53.5, R.S. 47:242(1)(h), R.S. 47:287.71(B)(8) - *Corporation Income*

#### Effective Date

Taxable periods beginning on or after January 1, 2018

#### Beneficiaries

Nonresident businesses and nonresident individuals that perform disaster or emergency-related work within the state during a disaster period

#### Estimated Fiscal Effect

The Department is unable to estimate the fiscal effect; there is no data on this exclusion.

### 13. Certain Exempt Entities

Organizations classified under Internal Revenue Code sections 401(a) or 501 are exempt from Louisiana corporation income tax to the extent they are exempt from federal income taxation. This exemption is intended to offer financial support to certain nonprofit organizations. The following is a list of entities eligible for this exemption:

A. Labor, agricultural, and horticultural organizations that are educational or instructive and are established to promote the development of agricultural and horticultural products. To qualify, all income generated by these organizations must be used solely to cover the necessary expenses related to their upkeep and operation.

B. Mutual savings banks, national banking corporations, and banking corporations organized under Louisiana law, provided they either pay a tax on behalf of their shareholders or their shareholders are taxed on their stock under other Louisiana laws. This exemption also applies to building and loan associations.

C. Fraternal beneficiary societies, orders, or associations operating under the lodge system, or established exclusively for the benefit of members of a fraternity that operates under such a system. To qualify, these organizations must provide life, sickness, accident, or similar benefits to their members or their dependents.

D. Nonprofit cemetery companies owned and operated exclusively for the benefit of their members.

E. Any corporation, community chest, or fund that is organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals.

F. Business leagues, chambers of commerce, real estate boards, and boards of trade that operate on a nonprofit basis, with no portion of their net earnings benefiting private shareholders or individuals.

G. Nonprofit civic leagues or organizations that operate exclusively for charitable, educational, or recreational purposes.

H. Clubs organized and operated exclusively for pleasure, recreation, or other nonprofit purposes.

I. Benevolent life insurance associations of a purely local nature, mutual ditch or irrigation companies, mutual or cooperative telephone companies, and similar organizations, provided at least 85% of their income is derived from amounts collected from members for farmers' or other mutual hail, cyclone, casualty, or fire insurance companies or associations, including interinsurers and reciprocal underwriters. The income must be used or held exclusively to cover losses and expenses related to these insurance purposes.

### 13. Certain Exempt Entities (continued)

J. Farmers' or other mutual hail, cyclone, casualty, or fire insurance companies or associations, including interinsurers and reciprocal underwriters, only if their income is used or held exclusively to pay losses or related expenses.

K. Certain farmers', fruit growers', or similar associations that are organized and operated on a cooperative basis for the purpose of marketing products or purchasing supplies and equipment.

L. Corporations organized by exempt farmers' cooperatives to finance crop operations of members.

M. Corporations organized exclusively to hold title to property, collect income from that property, and remit the entire amount—after deducting expenses—to organizations that operate solely for religious, charitable, scientific, literary, or educational purposes. To qualify, no part of the corporation's net earnings may benefit any private stockholder.

N. Voluntary employees' beneficiary associations that provide life, sickness, accident, or other benefits to their members or their dependents.

O. Teachers' retirement fund associations of a purely local nature, provided that no part of their net earnings—other than through the payment of retirement benefits—benefits any private shareholder or individual. To qualify, the association's income must be derived solely from public tax revenues, assessments on members' teaching salaries, and investment income.

This exemption is applicable to individual and corporation income tax.

#### Legal Citation

#### Effective Date
Taxable periods beginning on or after January 1, 1934

#### Beneficiaries
Members and shareholders of these exempt corporations

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no reporting requirement for this data.

### 14. Mobile Workforce

Income earned by a nonresident employee for performing work in Louisiana for 30 days or less is exempt from state income tax. However, if the employee works in Louisiana for more than 30 days within a taxable year, they become subject to state taxation on all income earned in the state, including income from the first 30 days.

To qualify for this exemption, the employee must perform duties in multiple states, and the wages cannot be for work as a professional athlete, staff member of a professional athletic team, professional entertainer, public figure, or qualified production employee. Additionally, the exemption does not apply if the nonresident has other income sourced from Louisiana during the taxable year.

For taxable periods prior to January 1, 2026, the exemption applies to employment duties performed for the first 25 days.

The purpose of this exemption is to relieve certain remote workers from having to file and pay Louisiana income tax.

This exemption is applicable to individual income tax.

#### Legal Citation

#### Beneficiaries
Nonresident employees who work less than 30 days in Louisiana

#### Estimated Fiscal Effect
See number 6 in this Section.

### 15. Dividends from National Banking Corporations and State Banking Corporations

Dividends received from national and state banking corporations are excluded from the gross income of corporations for Louisiana corporation income tax purposes. When Louisiana's income tax statutes were enacted, federal law prohibited states from taxing dividends of national banking corporations. Although this federal restriction has since been lifted, Louisiana has chosen not to amend its statutes to tax these dividends. This exclusion reflects compliance with the federal laws in place at the time of the statutes' enactment.

This exclusion is applicable to corporation income tax.

#### Legal Citation
R.S. 47:287.71(B)(6)

#### Origin
Acts 1934, No. 21; Acts 1986, 1st Ex. Sess., No. 16, amended by Acts 2015, No. 123; Acts 2016, 1st Ex. Sess., No. 1; Acts 2017, No. 352

#### Effective Date
Taxable periods beginning on or after January 1, 1935

#### Related Provision
R.S. 47:287.738(F)

#### Beneficiaries
Individual and corporate shareholders of national banking corporations

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no reporting requirement for the data.

### 16. Subchapter S Corporation

An S corporation is a corporation that elects to be taxed under Subchapter S of the Internal Revenue Code. Unlike a traditional C corporation, an S corporation is generally treated as a pass-through entity for federal income tax purposes. This means the corporation itself does not pay income tax. Instead, its income, loss, deductions, and credits pass through to its shareholders, who report those amounts on their individual income tax returns.

For taxable periods prior to January 1, 2026, S corporations are treated as C corporations for Louisiana state income tax purposes. As a result, S corporations are required to file a Louisiana corporation income tax return and are subject to entity-level tax. However, the corporation can exclude a portion of its Louisiana net income based on the percentage of issued and outstanding shares owned by Louisiana resident individuals on the last day of the tax year. A shareholder's ownership can be counted toward this exclusion only if the shareholder filed a Louisiana income tax return reporting their share of the S corporation's income.

This exclusion is intended to prevent the same income from being taxed twice — once at the corporate level and again at the shareholder level. For reporting purposes, the exclusion is measured as a gross revenue loss on corporate returns without reducing that amount by the taxes paid by shareholders on their individual returns.

Beginning January 1, 2026, S corporations are treated as pass-through entities for Louisiana state income tax purposes aligning with federal treatment. All items of income, loss, deduction, and credit of the S corporation must be reported on the shareholders' Louisiana income tax returns. In addition, a Qualified Subchapter S Subsidiary (QSub) will be treated as a disregarded entity, meaning its income, loss, deductions, and credits are reported on the return of its S corporation parent rather than on a separate return. This exclusion is eliminated as unnecessary effective January 1, 2026.

This exclusion is applicable to corporation income tax.

### 17. COVID-19 Relief Benefits

Louisiana provides an exemption from income tax for all state and federal COVID-19 relief benefits received by a taxpayer. These benefits include any gratuitous grants, loans, rebates, tax credits, advance refunds, or other qualified disaster relief payments, whether provided directly or indirectly by the state or federal government. The purpose of this exemption is to ensure that relief benefits provided to taxpayers are not treated as taxable income.

Covered programs include, but are not limited to, the Coronavirus Aid, Relief, and Economic Security (CARES) Act, the Taxpayer Certainty and Disaster Relief Act, the COVID-Related Tax Relief Act, the Consolidated Appropriations Act of 2021, the State Coronavirus Relief Program, the Coronavirus Local Recovery Allocation Program, the Louisiana Main Street Recovery Program, and the Critical Infrastructure Worker's Hazard Pay Rebate, as well as any similar current or future relief legislation. However, this exemption does not apply to unemployment compensation benefits received by the taxpayer.

This exemption is applicable to individual and corporation income tax.

**Legal Citation**

|---|---|
| $273,000 | $41,000 |

### 18. Digital Nomad

Individuals who meet the criteria of a digital nomad may exclude 50% of their gross wages, up to a maximum of $150,000, from Louisiana income tax. This exclusion applies exclusively to gross wages earned by a digital nomad through remote work and may be claimed for up to two taxable years during 2022, 2023, 2024, and 2025. The exclusion is limited to a total of 500 eligible taxpayers.

To qualify, an individual must establish residency in Louisiana after December 31, 2021, and must be considered a covered person with major medical health insurance. The individual must work remotely on a full-time basis for a nonresident business, as defined by rule, and must file a Louisiana resident or part-year resident individual income tax return for the year in which the exclusion is claimed.

Additionally, the individual must not have established residency or domicile in Louisiana, nor been required to file a resident or part-year resident tax return, in any of the three years immediately preceding the establishment of residency after December 31, 2021. The majority of employment duties must be performed within the state, either remotely or at a co-working space. The purpose of this exclusion is to encourage remote workers to relocate to Louisiana and contribute to the state's economic development.

This exclusion is applicable to individual income tax.

Taxable periods beginning on or after January 1, 2022

#### Sunset Date
December 31, 2025

#### Beneficiaries
Taxpayers who qualify as digital nomads

#### Estimated Fiscal Effect
The estimated revenue loss is $10,000 for FYE 6-26; the estimated revenue loss for FYE 6-27 is negligible.

### 19. Military Pay

For taxable periods beginning after December 31, 2002, and before January 1, 2022, the first $30,000 of compensation paid to a member of the United States Armed Forces for military services performed outside Louisiana is excluded from state income tax. For tax years beginning on or after January 1, 2022, the exemption increases to the first $50,000 of compensation. To qualify, the service member must be on active duty, and the duty must be continuous and uninterrupted for at least 120 days. The purpose of this exemption is to recognize and offset the unique burdens of military service.

This exclusion is applicable to individual income tax.

Act 2000, No. 34, amended by Acts 2006, 1st Ex. Sess. No. 25; Acts 2007, No. 160; Acts 2021, No. 161

#### Effective Date
Taxable periods beginning on or after January 1, 2003

#### Beneficiaries
Military personnel deriving military income outside Louisiana

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $9,288,000 | $9,474,000 |

### 20. Pass-Through Entity Tax Election Exclusion

A resident or nonresident estate, trust, or individual who is a shareholder, partner, or member of a pass-through entity that elects to pay Louisiana income tax at the entity level under R.S. 47:287.732.2 is permitted to exclude from their own taxable income any net income or loss received from that entity. However, this exclusion does not apply to any portion of income that is not taxed at the entity level. The purpose of this exclusion is to prevent double taxation.

This exclusion is applicable to individual and fiduciary income tax.

|---|---|
| $72,889,000 | $74,347,000 |

### 21. S Bank Income

An S Bank shareholder may exclude from Louisiana income an amount equal to their share of the S Bank's nontaxable income. This nontaxable income refers to the portion of income reported on Form 1120S Schedule K-1, or an equivalent document, that is attributable to the net earnings used in calculating the S Bank's shares tax under R.S. 47:1967. The purpose of this exclusion is to prevent double taxation.

This exclusion is applicable to individual and fiduciary income tax.

|---|---|
| $6,730,000 | $6,596,000 |

{Exemptions and Exclusions}

### 22. Resident Estates and Trusts Exemption

Resident estates and trusts are allowed to exempt up to $2,500 of their federal taxable income when calculating their Louisiana taxable income. The $2,500 exemption includes any exemption allowed under IRC section 642(b). The purpose of this exemption is to provide relief to estates and trusts because of their tax treatment at the federal level.

This exemption is applicable to fiduciary income tax.

{ Deductions }

### 23. START Savings Program Contribution

Under the Student Tuition Assistance and Revenue Trust (START) Program, account owners may deduct from their taxable income the amount of money they deposit into an education savings account, up to $2,400 per beneficiary per taxable year for single filers, and up to $4,800 per beneficiary per taxable year for joint filers. Taxpayers may also elect to have any portion of their income tax refund deposited into the fund.

Withdrawals from the account used for expenses other than qualified higher education costs, as defined by law, must be included in taxable income. An amendment made in 2001 allows any unused portion of the $2,400/$4,800 annual deposit limit to be carried forward to future years if the maximum was not reached. The purpose of this deduction is to encourage contributions to the START Savings Program.

This deduction is applicable to individual income tax.

### 25. Entity-Level Income Tax Paid to Other States

A deduction is permitted for individual partners, members, or shareholders for their proportionate share of an entity-level tax paid to another state, provided the tax is based solely on net income included in the entity's federal taxable income and does not include any capital component. This deduction applies to taxes paid during the tax year and is limited to the extent that the related income is or was subject to taxation by Louisiana. It serves as a substitute for, and not an addition to, the credit for taxes paid to other states.

This deduction is applicable to individual and fiduciary income tax.

#### Legal Citation

| $1,104,000 | $1,126,000 |

### 26. Adaptive Home Improvements for Disabled Individuals

Individuals with a permanent disability, as defined by R.S. 51:2232(3), may deduct up to $5,000 from their taxable income for expenses related to necessary adaptations made to their homes. To qualify, the individual's gross family income must not exceed $50,000. This deduction aims to provide financial assistance to low-income individuals modifying their homes to accommodate disabilities.

This deduction is applicable to individual income tax.

#### Legal Citation

#### Origin
Acts 1994, No. 11, amended by Acts 1997, No. 658; Acts 2001, No. 1032

#### Effective Date
For expenses incurred on or after June 7, 1994

#### Beneficiaries
Individuals with disabilities who incur qualified home adaptation expenses

#### Estimated Fiscal Effect
See number 6 in this Section.

### 27. Dependent/Blind/Aged Exemption/ Deduction

Until January 1, 2025, a $1,000 income tax deduction from the lowest tax bracket was permitted for each dependent, as well as for taxpayers who are blind or aged 65 or older. This deduction was designed to alleviate the tax burden for individuals with dependents and those who are blind or seniors.

This deduction is applicable to individual income tax.

| $3,474,000 | $1,737,000 |

### 28. Percentage Depletion

Louisiana permits a depletion deduction for oil and gas wells equal to the greater of the federal cost depletion or Louisiana's own percentage depletion. This deduction aims to encourage oil and gas exploration and production.

For corporation income tax returns filed before July 1, 2015, the Louisiana depletion was calculated as 22% of each property's gross income minus 100% of rents or royalties paid, limited to 50% of the property's net income.

For returns filed from July 1, 2015, through June 30, 2018, and for taxable periods beginning in calendar years 2015, 2016, and 2017, Louisiana depletion was adjusted to 15.8% of gross income minus 72% of rents or royalties, limited to 36% of net income. If a filing extension was granted before July 1, 2015, with the return filed by the extended due date, the exemption amount was reduced; however, one-third of the reduced exemption could be claimed in each of the taxable years beginning in 2017, 2018, and 2019.

This deduction applies to fiduciary and corporation income tax.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $228,000 | $223,000 |

### 29. Net Louisiana Operating Loss

The Net Operating Loss (NOL) deduction permits a corporation to apply losses incurred in one tax year against income earned in other tax years. The purpose of the deduction is to provide flexibility in measuring taxable income by allowing losses to offset income across different years.

For losses arising in tax years beginning on or after January 1, 2001, the applicable carryforward period depends on the date the return is filed.

For returns filed on or after July 1, 2015, and before January 1, 2022, NOLs may be carried forward for up to 20 years, regardless of the tax year in which the loss was incurred. During this period, the deduction is limited to 72% of both the available net operating loss and the corporation's net income for the year.

For returns filed on or after January 1, 2022, NOLs attributable to tax years beginning on or after January 1, 2001, may be carried forward indefinitely until fully utilized. The indefinite carryforward provision supersedes the prior twenty-year limitation for such returns.

Prior to July 1, 2015, corporations were permitted to carry NOLs back three years and forward 15 years, and there was no limitation on the amount of the deduction. If an extension was granted prior to July 1, 2015, and the return was timely filed by the extended due date, the deduction is reduced; however, one-third of the reduced amount may be claimed in each of the 2017, 2018, and 2019 taxable years.

With respect to ordering rules, NOLs were originally required to be applied beginning with the earliest loss year. Beginning with the 2017 tax year, corporations were required to apply losses starting with the most recent loss year. This change was reversed for the 2020 tax year, restoring the requirement that NOLs be applied beginning with the earliest loss year.

| $341,006,000 | $334,186,000 |

### 30. Corporation Standard Deduction

Taxpayers subject to the corporation income tax under R.S. 47:287.11 are allowed a standard deduction of $20,000 from their federal gross income tax. The purpose of this deduction is to shelter a portion of income from state income tax. The amount of the deduction is limited to a taxpayer's taxable income.

This deduction is applicable to corporation income tax.

**Legal Citation**
R.S. 47:287.71(9)

**Origin**
Acts 2024, 3rd Ex. Sess., No. 5

**Effective Date**
Taxable periods beginning on or after January 1, 2025

**Beneficiaries**
All taxpayers who file a corporation income tax return

**Estimated Fiscal Effect**
The Department is unable to estimate the fiscal effect. The effective date for this deduction is January 1, 2025, and there is currently insufficient data to assess its impact.

### 31. I.R.C. Section 280E Expense

A deduction is permitted for expenses disallowed under Internal Revenue Code Section 280E. While federal law prohibits claiming expenses related to businesses trafficking controlled substances, this deduction allows Louisiana taxpayers to reduce their federal taxable income by the amount of expenses disallowed federally that are associated with the production or dispensing of therapeutic marijuana. This deduction is limited to taxpayers licensed under Louisiana law, specifically Part X-E, Chapter 4, Title 40 of the Louisiana Revised Statutes.

This deduction is applicable to corporation income tax.

#### Legal Citation
R.S. 47:287.73(C)(1)

#### Origin
Acts 2019, No. 331

#### Effective Date
Expenses incurred on or after July 1, 2019

#### Beneficiaries
Corporations who are licensed through the state of Louisiana to produce or dispense therapeutic marijuana

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no data on this deduction.

### 32. I.R.C. Section 280C Expense

Until January 1, 2025, an income tax deduction was allowed for expenses disallowed under Internal Revenue Code Section 280C, which prohibits taxpayers from both claiming certain federal tax credits and deducting the related expenses. Section 280C requires a reduction in the federal deduction equal to the amount of the credit claimed. Louisiana allowed taxpayers to deduct the amount of those disallowed expenses for state income tax purposes, thereby reducing their federal taxable income.

For returns filed on or after July 1, 2015, but before June 30, 2018—regardless of the applicable tax year—and for tax periods beginning in calendar years 2015, 2016, and 2017, the deduction was limited to 72% of the expenses disallowed under Section 280C. If an extension was granted prior to July 1, 2015, and the return was filed by the extended due date, the deduction was reduced. However, one-third of the reduced portion could be claimed in each of the tax years beginning in 2017, 2018, and 2019.

This deduction is applicable to corporation income tax.

The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,209,000 | $121,000 |

### 33. Interest Income and Dividend Income

A deduction from gross income is allowed for corporations for the full amount of interest and dividend income included on the taxpayer's federal income tax return. This provision is intended to prevent double taxation of investment income at both the federal and state levels.

For returns filed on or after July 1, 2015, but before June 30, 2018—regardless of the tax year involved—and for tax periods beginning in calendar years 2015, 2016, and 2017, the deduction for dividend income was limited to 72% of the amount that would otherwise be included in gross income.

If an extension was granted prior to July 1, 2015, and the return was filed by the extended due date, the deduction was reduced. However, one-third of the reduced portion could be claimed in each of the tax years beginning in 2017, 2018, and 2019.

This deduction is applicable to corporation income tax.

#### Legal Citation
R.S. 47:287.738(F)

#### Origin
Acts 2005, No. 401, amended by Acts 2015, No. 123; Acts 2018, 2nd Ex. Sess., No. 4

#### Effective Date
Taxable periods beginning on or after January 1, 2006

#### Beneficiaries
Taxpayers who have received interest income or dividend income that was included on their federal income tax return

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no data on this deduction.

### 34. Hurricane Recovery Entity Benefits

Individuals and corporations that receive funds from designated hurricane recovery entities and were required to report those funds on their federal tax returns are allowed a corresponding deduction for state income tax purposes. This deduction applies to recovery benefits provided by the Road Home Corporation, the Louisiana Recovery Authority, the Louisiana Family Recovery Corps, the Disaster Recovery Unit, and the Restore Louisiana program, specifically for recovery efforts related to the Great Flood of 2016. The purpose of this deduction is to shelter recovery benefits from income tax.

For corporation income tax returns filed from July 1, 2015, through June 30, 2018, and for taxable periods beginning during calendar years 2015, 2016, and 2017, regardless of the return filing date, the deduction was limited to 72% of the funds received. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the deduction was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

This deduction is applicable to individual and corporation income tax.

#### Legal Citation
R.S. 47:287.738(G) – *Corporation Income*

R.S. 47:293(5) – *Individual Income*

#### Origin
Acts 2007, No. 247, amended by Acts 2011, No. 401; Acts 2015, No. 123; Acts 2018, 2nd Ex. Sess., No. 4

#### Effective Date
All hurricane recovery benefits received, without regard to receipt date, including those received before, on, or after July 6, 2007.

#### Beneficiaries
Taxpayers who have received hurricane recovery benefits that were included on their federal income tax return

#### Estimated Fiscal Effect
The revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 35. Bonus Depreciation and Amortization

Taxpayers can immediately deduct 100% of the cost of certain qualified property, qualified improvement property, and certain research and experimental expenditures in lieu of recovering those costs over time through standard depreciation or amortization. For purposes of the deduction, "qualified improvement property," "qualified property," and "research and experimental expenditures," have the same meanings as defined in Internal Revenue Code Sections 168(e)(6), 168(k), and 174, respectively. The deduction can be taken in the year the property is placed in service. The purpose of this deduction is to encourage businesses to invest in equipment, machinery, and other capital assets in Louisiana.

This deduction is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation

#### Origin

Acts 2024, 3rd Ex. Sess., No. 5

#### Effective Date

Taxable periods beginning on or after January 1, 2025

#### Beneficiaries

Capital-intensive businesses, startups, and other taxpayers who purchase qualifying property and place it in service in Louisiana

#### Estimated Fiscal Effect

The Department is unable to estimate the fiscal effect. The effective date for this deduction is January 1, 2025, and there is currently insufficient data to assess its impact.

### 36. Construction Code Retrofitting

Louisiana allows an income tax deduction for homeowners who claim the homestead exemption and voluntarily retrofit their homes to meet or exceed the State Uniform Construction Code or the Fortified Home Standard of the Insurance Institute for Business and Home Safety. Voluntary retrofitting means the work is not required for new construction or to repair damage.

The deduction equals 50% of qualified costs, reduced by any other government incentives, and is limited to $10,000 per home for taxable periods beginning on or after January 1, 2026. The deduction must be claimed in the year in which the work is completed, and homeowners who claim it may also qualify for grant funds through the Louisiana Fortify Home Program.

For taxable periods on or after January 1, 2007, but before January 1, 2026, the deduction is 50% of qualified costs, reduced by any other government incentives, and is limited to $5,000 per home.

The purpose of this deduction is to encourage homeowners to meet or exceed construction standards provided by the State Uniform Construction Code or the Fortified Home Standard of the Insurance Institute for Business and Home Safety.

This deduction is applicable to individual income tax.

#### Legal Citation

#### Effective Date

Taxable periods beginning on or after January 1, 2008

#### Beneficiaries

Individual taxpayers who voluntarily make improvements to their primary residence to meet or exceed the State Uniform Construction Code or Fortified Home Standards

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $35,000 | $70,000 |

### 37. Excess Federal Itemized Deductions

Taxpayers are allowed an income tax deduction equal to 100% of their federal itemized deductions that exceed the federal standard deduction for tax periods beginning on and after January 1, 2009, but before January 1, 2022.

For tax periods beginning on or after January 1, 2022, Louisiana taxpayers are allowed an income tax deduction for federal itemized deductions which are medical expenses that exceed the amount of the federal standard deduction. The purpose of this deduction is to reduce a taxpayer's state individual income tax liability by allowing certain federally disallowed deductions to be recognized at the state level.

This deduction is applicable to individual income tax.

#### Legal Citation
R.S. 47:293(3)

#### Origin
Acts 1980, No. 316, amended by Acts 2000, No. 38; Acts 2002, No. 24; Acts 2002, No. 51; Acts 2007, No. 399; Acts 2021, No. 395

#### Effective Date
Reestablished August 15, 2007, for taxable periods beginning on or after January 1, 2007

#### Beneficiaries
Individual taxpayers who itemize their federal deductions

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $14,720,000 | $14,426,000 |

### 38. Net Capital Gains

Until January 1, 2025, taxpayers could deduct from income an amount equal to the amount of net capital gains that arise from the sale or exchange of an equity interest in, or substantially all of the assets of, a nonpublicly traded business entity commercially domiciled in Louisiana. This deduction was only available for gains that are recognized and treated as capital gains for federal income tax purposes. The purpose of this deduction is to encourage businesses to be domiciled in Louisiana.

For sales or exchanges occurring before June 28, 2016, the full amount of the gain included in federal adjusted gross income qualified for the deduction. For transactions occurring on or after June 28, 2016, and before January 1, 2025, the deduction is available only if the business was both held and commercially domiciled in Louisiana for at least five (5) years immediately prior to the sale or exchange. The amount of the deduction is determined by the length of commercial domicile, as shown below.

This deduction is applicable to individual income tax. Although repealed, gains from installment sales which closed prior to January 1, 2025, can still be deducted.

| Length of Commercial Domicile Deduction | Amount of Deduction |
|---|---|
| At least 5 years but less than 10 years | 50% |
| At least 10 years but less than 15 years | 60% |
| At least 15 years but less than 20 years | 70% |
| At least 20 years but less than 25 years | 80% |
| At least 25 years but less than 30 years | 90% |
| 30 or more years | 100% |

#### Legal Citation
R.S. 47:293(9)(a)(xvii) and 293.2

#### Origin
Acts 2009, No. 457, amended by Acts 2016, 2nd Ex. Sess., No. 11; Acts 2023, No. 242

#### Effective Date
Taxable periods beginning on or after January 1, 2010

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Investors in non-publicly traded companies domiciled in Louisiana

### 38. Net Capital Gains *(continued)*

#### Estimated Fiscal Effect

The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $42,101,000 | $4,210,000 |

### 39. Louisiana Fortify Homes Program Grants

Grant amounts received from the Louisiana Fortify Homes Program pursuant to R.S. 22:1483.1, are excluded from tax table income for purposes of individual income tax. This exemption is applicable to grant amounts received on or after January 1, 2025. The purpose of this deduction is to encourage installation of a fortified roof and provide relief to those participating in the program.

This exemption is applicable to individual income tax.

#### Legal Citation

R.S. 22:1483.1(F); R.S. 47:293(9)(a)(xxvii)

#### Origin

Acts 2025, No. 32

#### Effective Date

Taxable periods beginning on or after January 1, 2025

#### Beneficiaries

Recipients of the Louisiana Fortify Homes Program Grants

#### Estimated Fiscal Effect

The Department is unable to estimate the fiscal effect; the effective date for this deduction is January 1, 2025, and there is insufficient data currently available to fully assess the impact.

### 40. Deposits to ABLE Accounts

Achieving a Better Life Experience Account Program ("ABLE") account owners may exclude up to $2,400 of qualifying contributions per beneficiary, per tax year if filing a single return, and up to $4,800 of qualifying contributions per beneficiary if filing a joint return. Unused exclusion amounts may be carried forward to subsequent years. Interest earned is also excluded, but amounts withdrawn for non-qualified expenses must be added back to tax table income. The purpose of the exclusion is to encourage savings for individuals with a qualifying disability.

The exclusion is applicable to individual income tax.

#### Legal Citation
R.S. 17:3088; R.S. 47:293(9)(a)(xxvii)

#### Origin
Acts 2025, No. 110

#### Effective Date
Taxable periods beginning on or after January 1, 2026

#### Beneficiaries
Account owners of ABLE accounts

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect. The effective date for this deduction is January 1, 2026, and there is currently insufficient data to assess its impact.

### 41. Personal Exemption-Standard Deduction

Louisiana permits a personal, standard deduction. The primary purpose of this provision is to provide tax relief by exempting a baseline amount of income from taxation.

For taxable periods prior to January 1, 2025, a combined personal exemption/standard deduction of $4,500 is allowed for individuals filing single or married separate and $9,000 for individuals filing joint returns, as a qualified surviving spouse, or as head of household. This deduction is applied against the lowest tax bracket.

For taxable periods on or after January 1, 2025, taxpayers are entitled to an income tax deduction from tax table income in the form of a standard deduction of $12,500 for single and married-separate filers, and for twice that amount for those filing jointly, as a qualifying surviving spouse, or as head of household. Beginning January 1, 2026, these amounts are adjusted annually for inflation.

This deduction is applicable to individual income tax.

#### Legal Citation
R.S. 47:294(A)

#### Origin
Acts 1934, No. 21, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after January 1, 1934

#### Beneficiaries
All individual taxpayers who file a tax return

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $326,251,000 | $407,814,000 |

The fiscal effect assumes no restrictions on eliminating this deduction. Assuming that to reduce this deduction below the levels in effect January 1, 1974, would require a constitutional amendment, 58% of the fiscal effect should be considered constitutionally protected.

### 42. Recreation Volunteer

Individuals who volunteer with a recreation department for at least 30 hours within a calendar year are eligible for a $500 individual income tax deduction. To qualify, the volunteer must obtain written certification from the recreation department verifying completion of the required service hours. This deduction is intended to recognize and encourage volunteer service within local recreational programs.

This deduction is applicable to individual income tax.

#### Legal Citation
R.S. 47:293(7)(a)

#### Origin
Acts 2007, No. 458

#### Effective Date
Taxable periods beginning on or after January 1, 2007

#### Beneficiaries
Communities where individuals volunteer with their recreation departments

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $28,000 | $29,000 |

### 43. Volunteer Firefighter

A $500 income tax deduction is available to individual taxpayers who serve as volunteer firefighters, provided they meet specific criteria. To qualify, the individual must complete at least 24 hours of continuing education within the calendar year and must either be an active member of the Louisiana State Fireman's Association or be listed on the personnel roster for the State Fire Marshal's Volunteer Fireman's Insurance Program. This deduction is designed to support and incentivize the service and ongoing training of volunteer firefighters in Louisiana.

This deduction is applicable to individual income tax.

#### Legal Citation

#### Origin
Acts 2007, No. 458

#### Effective Date
Taxable periods beginning on or after January 1, 2007

#### Beneficiaries
Volunteer firefighters

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $39,000 | $38,000 |

### 44. Elementary & Secondary School Tuition

Resident individuals with dependents who attend qualifying schools are allowed an income tax deduction for certain educational expenses. Eligible institutions include nonpublic elementary or secondary schools that meet the requirements set forth in *Brumfield, et al. v. Dodd*, et al. 425 F. Supp. 528 and Section 501(c)(3) of the Internal Revenue Code, as well as public elementary or secondary laboratory schools operated by a public college or university.

The deduction applies to tuition, fees, uniforms, textbooks, and other school-required supplies purchased on or after January 1, 2009. The student must be claimed as a dependent on the taxpayer's current or prior year return. This provision is intended to ease the financial burden on families who incur out-of-pocket educational expenses for their dependents.

For taxable periods on or after January 1, 2008, but before January 1, 2011, the deduction is equal to 50% of the tuition and fees per dependent.

For taxable periods on or after January 1, 2011, the deduction is equal to the full amount paid, up to $5,000 per dependent. The per dependent cap increased to $6,000 beginning January 1, 2024.

This deduction is applicable to individual income tax.

#### Legal Citation
R.S. 47:297.10

#### Origin
Acts 2008, 2nd Ex. Sess., No. 8, amended by Acts 2009, Nos. 460 and 451; Acts 2011, No. 121; Acts 2023, No. 423

#### Effective Date
Expenses paid on or after January 1, 2009

#### Beneficiaries
Taxpayers with dependents attending a qualifying elementary or secondary school

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $18,631,000 | $19,004,000 |

### 45. Educational Expenses for Home-schooled Children

Resident individuals in Louisiana with dependents who are home-schooled are allowed an income tax deduction for certain educational expenses. This provision is intended to ease the financial burden on families who homeschool their children and incur educational expenses.

The deduction applies to textbooks and curricula necessary for home-schooling purchased on or after January 1, 2009. To qualify, the student must be claimed as a dependent on the taxpayer's current or prior year tax return.

The deduction is equal to 50% of the qualified educational expenses for each dependent, limited to $5,000. Beginning with the 2024 tax year, the deduction limit increases to $6,000.

This deduction is applicable to individual income tax.

#### Legal Citation
R.S. 47:297.11

#### Origin
Acts 2008, 2nd Ex. Sess., No. 8, amended by Acts 2009, Nos. 451 and 460; Acts 2023, No. 423

#### Effective Date
Expenses paid on or after January 1, 2009

#### Beneficiaries
Taxpayers who are home-schooling their dependents

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $449,000 | $458,000 |

### 46. Fees and Other Educational Expenses for a Quality Public Education

Resident individuals in Louisiana with dependents attending a public elementary or secondary school are allowed an income tax deduction for certain educational fees or expenses. This provision is intended to ease the financial burden on families that incur educational expenses.

The deduction applies to uniforms, textbooks, and other supplies required by the school for the dependent purchased on or after January 1, 2009. To qualify, the student must be claimed as a dependent on the taxpayer's current or prior year tax return.

The deduction is equal to 50% of the qualified educational expenses for each dependent, limited to $5,000. Beginning with the 2024 tax year, the deduction limit increases to $6,000.

This deduction is applicable to individual income tax.

#### Legal Citation
R.S. 47:297.12

#### Origin
Acts 2008, 2nd Ex. Sess., No. 8, amended by Acts 2009, Nos. 451 and 460; Acts 2023, No. 423

#### Effective Date
Expenses paid on or after January 1, 2009

#### Beneficiaries
Taxpayers with dependents attending a public elementary or secondary school

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $2,827,000 | $2,884,000 |

### 47. Employment of Qualified Disabled Individuals

A deduction from income is allowed for each taxpayer who provides continuous employment to a qualified disabled individual within Louisiana. The purpose of this deduction is to encourage the employment of certain disabled individuals.

To be eligible, the taxpayer must have employed the qualified individual with a disability for at least four continuous months, working no less than an average of 20 hours per week, at a rate comparable to and in the same setting as other employees performing the same or similar tasks.

This deduction is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation
R.S. 47:297.13

#### Origin
Acts 2015, No. 117

#### Effective date
Individuals employed on or after June 19, 2015

#### Beneficiaries
Taxpayers that employ qualified disabled individuals within Louisiana

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 48. COVID-19 Educational Expenses

Resident individuals with dependents attending a public elementary or secondary school, a nonpublic elementary or secondary school that meets the criteria set forth in *Brumfield, et al. v. Dodd*, et al. 425 F. Supp. 528 and Section 501(c)(3) of the Internal Revenue Code, or any public elementary or secondary laboratory school operated by a public college or university, were allowed an income tax deduction for educational coaching services for an in-person facilitator of virtual education paid or incurred between March 13, 2020, and December 31, 2020, due to the COVID-19 pandemic.

This deduction applied to a child claimed as a dependent on the current or prior year's tax return and equaled the actual amount paid, limited to $5,000 per child.

An "in-person facilitator of virtual education" is someone who provided in-person instruction or assistance to one or more elementary or secondary school students. The facilitator must have been at least 18 years old at the time of service or, if younger than 18, must have graduated from high school. The facilitator could not be the taxpayer, the taxpayer's spouse, the taxpayer's child, the spouse of the taxpayer's child, the taxpayer's siblings or their spouses, the taxpayer's parents, or the parents of the taxpayer's spouse.

Expenses claimed for this deduction could not also be claimed for the Elementary and Secondary School Tuition Deduction, Educational Expenses for Home-schooled Children Deduction, Educational Expenses for a Quality Public Education Deduction, or the Child Care Credit. The purpose of this deduction was to provide relief for extra expenses incurred by families during the COVID-19 pandemic.

This deduction is applicable to individual income tax.

#### Legal Citation
R.S. 47:297.15

#### Origin
Acts 2020, 2nd Ex. Sess., No. 13

#### Effective date
Expenses paid or incurred between March 13, 2020, and December 31, 2020

#### Beneficiaries
Taxpayers who paid for educational coaching services during COVID-19 pandemic

#### Estimated Fiscal Effect
The estimated revenue loss is negligible for FYE 6-26; the estimated revenue loss for FYE 6-27 is $0. The exemption was effective for tax year 2020 only.

### 49. Private Adoption of Certain Infants

An individual taxpayer is allowed a $5,000 income tax deduction for adopting an unrelated infant under one year of age through a private agency, as defined in Children's Code Article 1169(1), or through an attorney. The infant's age is determined at the time of adoption placement.

This deduction is claimed in the year the adoption becomes final and is in lieu of the $1,000 dependency deduction authorized under R.S. 47:294. The purpose of this deduction is to encourage private adoptions in Louisiana.

This deduction is applicable to individual income tax.

#### Legal Citation
R.S. 47:297.21

#### Origin
Acts 2021, No. 378

#### Effective date
Taxable periods beginning on or after January 1, 2022

#### Beneficiaries
Taxpayers who adopt certain infants from an attorney or private agency

#### Estimated Fiscal Effect
See number 57 in this Section.

### 50. Hardship Retirement Distribution

A tax deduction is allowed for hardship withdrawals from retirement accounts when the distribution is due to a serious and urgent financial need, as defined by the retirement plan. To qualify, the taxpayer—or the taxpayer's spouse, if filing jointly—must be diagnosed with a terminal illness by a licensed physician. The purpose of this deduction is to provide financial relief to taxpayers forced to make a hardship withdrawal.

This deduction is applicable to individual income tax.

#### Legal Citation
R.S. 47:293(9)(a)(xxvii) and 293.26

#### Origin
Acts 2025, No. 251

#### Effective date
Taxable periods beginning on or after January 1, 2026

#### Beneficiaries
Taxpayers receiving an eligible hardship distribution from their retirement account in the event of terminal illness

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect. The effective date for this deduction is January 1, 2026, and there is currently insufficient data to assess its impact.

### 51. Bank-Holding Corporations

Bank-holding corporations are allowed a deduction from their franchise taxable base for the portion of their assets used to finance the operation of their subsidiary banks. To qualify, the investments in and advances to the subsidiaries must be included in the taxable capital of the holding corporation. This deduction aims to prevent double taxation of these assets—first by the holding company and then by the subsidiary bank.

This deduction is applicable to corporation franchise tax.

#### Legal Citation
R.S. 47:602(B)

#### Origin
Acts 1970, No. 385

#### Effective date
Taxable periods beginning on or after January 1, 1971

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2026, by Acts 2024, 3rd Ex. Sess., No. 6

#### Beneficiaries
Bank holding corporations and shareholders

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no data on this deduction.

### 52. Public-Utility Holding Corporations

A regulated public-utility holding corporation may deduct from its franchise taxable base the portion of its assets used to finance its subsidiaries' operations. This deduction is calculated by multiplying the total investments in and advances to its subsidiary corporations by the corporation's Louisiana franchise tax apportionment percentage. To qualify, these investments and advances must be included in the taxable capital of the holding corporation. However, public-utility holding companies are subject to a minimum annual corporation franchise tax of $100,000. The purpose of this deduction is to encourage corporations to relocate their principal office to Louisiana.

This deduction is applicable to corporation franchise tax.

#### Legal Citation
R.S. 47:602(C)

#### Origin
Acts 1973, No. 119, amended by Acts 1994, No. 40

#### Effective date
Investments and advances made on or after June 19, 1973

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2026, by Acts 2024, 3rd Ex. Sess., No. 6

#### Related Provision
R.S. 47:602(G)(4)

#### Beneficiaries
Public-utility holding companies who own subsidiary corporations and who locate their home office in Louisiana and their shareholders

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no data on this deduction.

### 53. Public Water Utility Companies

Corporations that have one or more subsidiary public water utility corporations are allowed to deduct the amounts of their investments in and advances to these subsidiaries from their taxable capital for franchise tax purposes. To qualify for this deduction, the investments and advances must be included in the taxable capital of the holding corporation. The purpose of this deduction is to ensure that these assets are taxed only at the subsidiary corporation level, preventing double taxation.

This deduction is applicable to corporation franchise tax.

#### Legal Citation
R.S. 47:602(D)

#### Origin
Acts 1990, No. 385

#### Effective Date
Taxable periods beginning on or after January 1, 1991

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2026, by Acts 2024, 3rd Ex. Sess., No. 6 §3

#### Beneficiaries
Public utility water corporations with investments in and advances to subsidiary corporations and shareholders of public utility water corporations

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no data on this deduction.

### 54. Members of Controlled Groups that Include a Telephone Corporation

For corporation franchise tax purposes, any corporation that is part of a controlled group which includes a telephone corporation regulated by the Louisiana Public Service Commission is allowed to deduct, from its taxable capital, its investment in and advances to any member of the controlled group, provided these amounts are included in its taxable capital. The purpose of this deduction is to eliminate double taxation on investments in and advances to affiliated corporations within the controlled group that includes a telephone company.

This deduction is applicable to corporation franchise tax.

#### Legal Citation
R.S. 47:602(E)

#### Origin
Acts 1994, No. 134

#### Effective Date
Taxable periods beginning on or after January 1, 1994

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2026, by Acts 2024, 3rd Ex. Sess., No. 6 §3

#### Beneficiaries
Corporations in a controlled group having as a member of such group a telephone corporation regulated by the Louisiana Public Service Commission

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no data on this deduction.

### 55. Holding Company

Corporations with one or more subsidiaries are allowed to deduct from their taxable capital the amounts of their investment in and advances to these subsidiary corporations. To qualify for this deduction, the investments in and advances to subsidiaries must be included in the taxable capital of the holding corporation. The purpose of this deduction is to ensure these assets are taxed only at the subsidiary corporation level. A subsidiary, for this deduction, is defined as any corporation subject to franchise tax in which at least 80% of the voting and nonvoting power of all classes of stock, membership, partnership, or other ownership interests are owned, directly or indirectly, by a corporation subject to the franchise tax under R.S. 47:601(A).

This deduction is applicable to corporation franchise tax.

#### Legal Citation
R.S. 47:602(G)

#### Origin

#### Effective Date
Taxable periods beginning on or after January 1, 2017

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2026, by Acts 2024, 3rd Ex. Sess., No. 6

#### Beneficiaries
Corporations whose subsidiary corporations are subject to franchise tax

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no data on this deduction.

### 56. Regulated Utility Companies

Certain regulated public utility companies are allowed to deduct from surplus those accounts representing assets for which no money, service, or thing of value was paid by the utility companies, except for the regulated service or product. The purpose of this deduction is to ensure equal tax treatment between regulated and non-regulated utility companies.

This deduction is applicable to corporation franchise tax.

**Legal Citation**
R.S. 47:605(C), R.S. 47:606(E)

**Origin**
Acts 1992, No. 156, amended by Acts 2008, 2nd Ex. Sess., No. 10

**Effective Date**
Taxable periods beginning on or after January 1, 1993

**Repealed**
Repealed for taxable periods beginning on or after January 1, 2026, by Acts 2024, 3rd Ex. Sess., No. 6 §3

**Beneficiaries**
Public utility companies that are required by their regulatory authority to increase assets and surplus by amounts meeting the statutes' criteria

**Estimated Fiscal Effect**
The Department is unable to estimate the fiscal effect; there is no data on this deduction.

### 57. Adoption from Foster Care

An individual taxpayer who adopts a child in foster care, as defined in Children's Code Article 603, or adopts a youth receiving extended foster care services under the Extended Foster Care Program Act, may claim a $5,000 deduction from taxable income. This deduction is in lieu of the standard $1,000 dependency deduction provided for under R.S. 47:294 that was available for taxable periods beginning before January 1, 2025. The deduction is applied in the year the adoption is finalized. The purpose is to encourage adoption of children in foster care.

This deduction is applicable to individual income tax.

**Legal Citation**
R.S. 47:297.20

**Origin**
Acts 2021, No. 378, amended by Acts 2025, No. 349

**Beneficiaries**
Taxpayers who adopt youth or children from foster care

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $27,000 | $28,000 |

*Note:* This amount includes the total revenue loss for the deduction for private adoption of certain infants. See number 49 in this Section.

## { Deductions }

### 58. Military Family Assistance Fund

Activated military personnel or family members of activated military personnel who receive payments or awards from the Louisiana Military Family Assistance Fund are allowed an income tax deduction equal to the amount of the payments received from the fund. The purpose of this deduction is to provide financial relief for military personnel or family members of activated military personnel receiving payments or awards from the Louisiana Military Family Assistance Fund.

This deduction is applicable to individual income tax.

**Legal Citations**

**Effective Date**
Payments or awards received on or after June 28, 2005

**Beneficiaries**
Activated military personnel and family members of activated military personnel receiving benefits from the Military Family Assistance Fund

**Estimated Fiscal Effect**
See number 6 in this Section.

## { Preferential Tax Rate }

### 59. Franchise Tax Suspension for Certain Businesses

The corporation franchise tax levied at a rate of $1.50 for each $1,000, or major fraction thereof, on the first $300,000 of taxable capital will not apply to small business corporations for franchise tax periods beginning between July 1, 2020, and June 30, 2021. A small corporation is defined as a business that is exercising its charter, qualified to do business, or actually doing business in the state, or owning or using any part of its capital, plant, or other property in this state, which is subject to the corporation franchise tax and has taxable capital of one million dollars or less.

Acts 2021, No. 389 extended the suspension through franchise tax periods beginning before July 1, 2023. With the passage of Constitutional Amendment No. 2 in November 2021, the $1.50 rate does not apply to taxable periods beginning on or after January 1, 2023. The purpose of the suspension was to provide relief to small businesses following the hardships of the COVID-19 pandemic.

This exemption is applicable to corporation franchise tax.

**Legal Citation**
R.S. 47:601.1

**Origin**
Acts 2020 1st Ex. Sess., No. 15, amended by Acts 2021, No. 389; Acts 2024, 3rd Ex. Sess., No. 11

**Effective date**
Taxable periods between July 1, 2020, and July 1, 2023

**Repealed**
Repealed for taxable periods beginning on or after January 1, 2026, by Acts 2024, 3rd Ex. Sess., No. 6 §3

**Related Provision**
HCR 66 of the 2020 Regular Session

**Beneficiaries**
Corporations that have taxable capital of one million dollars or less

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

{ Preferential Tax Rate }

### 60. Pass-Through Entity Tax Election

S corporations and other flow-through entities are allowed to elect to file and pay Louisiana income tax on Louisiana-sourced income as if they were C corporations. These electing entities will pay income tax at individual income tax rates. For taxable periods beginning prior to January 1, 2022, the election also allows S corporations and pass-through entities to claim a federal income tax deduction equal to the income tax that the pass-through entity would have paid on its Louisiana income if it had been taxed as a C corporation for federal income tax purposes. All corporation income tax provisions apply to any entity making this election. The purpose of this preferential tax rate is to allow the electing entity to pay the same tax rate that would have been applied to its shareholders, partners, and members had the entity not made the election.

This preferential tax rate is applicable to corporation income tax.

| $97,360,000 | $99,307,000 |

{ Credits }

### 61. Net Income Taxes Paid to Other States

A nonrefundable income tax credit is allowed for net income taxes paid to other states by Louisiana resident individuals. The purpose of the credit is to prevent double taxation.

For returns filed on or after July 1, 2015, regardless of the taxable year involved, the credit is limited to the amount of Louisiana income tax that would have been due had the income earned in the other state been earned in Louisiana. The credit was also denied for income taxes paid to a state that allowed nonresidents a credit for taxes paid to their state of residence. Although the credit was conditioned on reciprocity, the Louisiana Supreme Court invalidated this limitation in 2018.

If an extension to file was granted prior to July 1, 2015, and the return was filed after that date, one-third of the disallowed portion of the credit could be claimed in each of the taxable years beginning in calendar years 2017, 2018, and 2019.

For taxable periods beginning on or after January 1, 2018, the credit is also limited to the amount computed by multiplying the taxpayer's Louisiana income tax liability by a ratio. The numerator of the ratio is the Louisiana tax table income attributable to other states on which tax has been paid, and the denominator is the taxpayer's total Louisiana tax table income. A taxpayer may not claim both the credit and the deduction afforded by R.S. 47:33(6) for the same net income taxes paid to other states.

This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:33

#### Origin
Acts 1946, No. 203, amended by Acts 2015, No. 109; Acts 2018, 2nd Ex. Sess., No. 6; Acts 2023, No. 413

#### Effective Date
Taxable periods beginning on or after January 1, 1946

#### Beneficiaries
Louisiana resident individuals who derive taxable income from other states

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $114,505,000 | $112,214,000 |

### 62. New Jobs

A nonrefundable tax credit is allowed against income tax for each employee hired into a newly created job. The credit amount depends on whether the new employee is classified as economically disadvantaged or is a resident of a neighborhood with an unemployment rate of 10% or more. Any unused credit can be carried forward for five (5) years. The purpose of this credit is to encourage job creation within Louisiana.

For returns filed prior to July 1, 2015, the total credit is limited to 50% of the corporation's income tax liability.

For returns filed on or after July 1, 2015, regardless of the tax year to which the return applies, the credit is limited to 36% of the tax liability. If a filing extension was granted prior to July 1, 2015, and the return was filed after that date, one-third of the reduced portion of the credit may be claimed on the taxpayer's return for each of the taxable years beginning in calendar years 2017, 2018, and 2019. This credit sunset on December 31, 2019.

This credit is applicable to corporation income tax.

#### Legal Citation
R.S. 47:34, R.S. 47:287.749

#### Origin
Acts 1978, No. 596, amended by Acts 1986, No. 16; Acts 2015, No. 125; Acts 2017, Nos. 400 and 403

#### Effective Date
Taxable periods beginning on or after January 1, 1978

#### Sunset Date
December 31, 2019

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Corporations creating new jobs

#### Estimated Fiscal Effect
This provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 63. Neighborhood Assistance

A nonrefundable credit is allowed against income tax for businesses that provide neighborhood assistance, job training for individuals, community service, or crime prevention programs designed to upgrade impoverished areas. However, the credit can only be granted with the approval of the Commissioner of Administration. Any unused credit can be carried forward for five (5) years. The total amount of tax credits granted for all approved programs may not exceed 1% of the total state corporation income tax collected in the prior fiscal year. The purpose of this credit is to encourage businesses to support efforts that assist impoverished areas.

For returns filed prior to July 1, 2015, the Commissioner of Administration could approve a credit equal to up to 70% of the actual amount contributed to approved programs. The maximum credit that any corporation could claim annually was $250,000.

For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the Commissioner may allow a credit equal to up to 50% of the actual amount contributed, with the credit limited to $180,000 per corporation per year. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

#### Legal Citation
R.S. 47:35, R.S. 47:287.753

#### Origin
Acts 1982, No. 653, amended by Acts 2015, No. 125; Acts 2017, No. 400

#### Effective date
Services rendered on or after July 22, 1982

#### Beneficiaries
Residents of impoverished areas of the state

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

### 64. Contribution of Tangible Property of a Sophisticated and Technological Nature to Educational Institutions

A nonrefundable tax credit is allowed for contributions of tangible personal property of a sophisticated and technological nature to educational institutions in Louisiana. The purpose of this credit is to incentivize corporations, individuals, estates, and trusts to donate or sell, at a discount, technologically advanced equipment or materials to educational institutions in Louisiana, thereby enhancing educational resources and opportunities.

For returns filed prior to July 1, 2015, the credit is equal to 40% of the property's value. In cases where the property is sold below cost, the credit is equal to 40% of the difference between the price received and the property's value, subject to statutory limitations.

For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is reduced to 29% of the value or the difference in value for below-cost sales, again subject to statutory limitations. If a filing extension was granted prior to July 1, 2015, and the return was filed after that date, one-third of the reduced portion of the credit may be claimed on the taxpayer's return for each of the taxable years beginning in calendar years 2017, 2018, and 2019. The credit sunset on December 31, 2019.

This credit is applicable to individual and corporation income tax.

#### Origin
Acts 1983, No. 667, and Acts 1986, 1st Ex. Sess., No. 16, amended by Acts 1997, No. 658; Acts 2015, No. 125; Acts 2017, Nos. 400 and 403; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after January 1, 1984

#### Sunset Date
December 31, 2019

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Educational institutions, students, teachers, the state as a whole, and donors who make a contribution of equipment

#### Estimated Fiscal Effect
The estimated revenue loss is negligible for FYE 6-26; there is no estimated revenue loss for FYE 6-27. The credit sunset on December 31, 2019.

### 65. Insurance Company Premium Tax

A nonrefundable income tax credit is allowed against Louisiana income tax for any premium taxes paid by an insurance company to the Insurance Commissioner of the state of Louisiana. The credit is equal to 100% of the amount of premium taxes paid during the preceding 12 months. The purpose of this credit is to offset the burden of premium taxes paid by insurance companies.

For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the amount of the credit was limited to 72% of the premium taxes paid. If a filing extension was granted prior to July 1, 2015, and the return was filed after that date, one-third of the reduced portion of the credit could be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

The 72% reduction was later repealed by Acts 2017, No. 403, which became effective on June 26, 2017, thereby restoring the credit to 100% of premium taxes paid from that point forward.

This credit is applicable to corporation income tax.

Acts 1934, Nos. 21 and 61, amended by Acts 2015, No. 125; Acts 2017, Nos. 400 and 403

#### Effective Date
Taxable periods beginning on or after January 1, 1934

#### Beneficiaries
Insurance companies that pay premium taxes

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $71,201,000 | $69,777,000 |

### 66. Certain Refunds Issued by Utilities

Refunds made by utility companies due to the denial of rate increases may be credited against gross income for income tax purposes. If deducting the refund from gross income would result in a net loss, the utility company has the option to instead elect a nonrefundable income tax credit, subject to specific limitations. The purpose of this credit is to ensure that utility companies' gross income is accurately reflected after rate refunds.

For returns filed on or after July 1, 2015, regardless of the tax year to which the return relates, the credit is limited to a maximum of 72% of the income tax increase caused by the rate refund. If a filing extension was granted prior to July 1, 2015, and the return was filed after that date, one-third of the reduced portion of the credit could be claimed on the utility company's return for each of the tax years beginning in calendar years 2017, 2018, and 2019.

This credit is applicable to corporation income tax.

#### Legal Citation
R.S. 47:265, R.S. 47:287.664

#### Origin
Acts 1960, Nos. 1 and 210, amended by Acts 2015, No. 125; Acts 2017, No. 400

#### Effective Date
Taxable periods beginning on or after January 1, 1960

#### Beneficiaries
Utility companies making refunds under these circumstances

#### Estimated Fiscal Effect
The effects of this credit have been replaced by the provisions of the net operating loss statute. (See R.S. 47:287.86) Therefore, as long as §287.86 is valid, there should be no revenue loss.

### 67. Louisiana Work Opportunity

A nonrefundable income tax credit is allowed for businesses that hire an eligible re-entrant. An "eligible re-entrant" is defined as an inmate or former inmate who is eligible to participate and actively participates in a work release program as provided in R.S. 15:711, 1111, 1199.9, or 1199.10, and meets all criteria outlined in R.S. 15:1199.7. The credit equals 5% of the total wages paid to the eligible re-entrant in an eligible job for 12 consecutive months following their release from imprisonment. This credit is limited to $2,500 per eligible re-entrant and is earned upon certification from the Department of Public Safety and Corrections or the applicable sheriff. Only one credit may be earned per eligible re-entrant, and the credit can be carried forward for up to five (5) years. The purpose of this credit is to encourage businesses to hire certain individuals that were previously incarcerated.

This credit is applicable to individual and corporation income tax.

#### Legal Citation
R.S. 47:287.750

#### Origin
Acts 2021, No. 453, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Individuals employed with a release date occurring on or after January 1, 2021

#### Sunset Date
No certifications to receive tax credits will be approved for requests received after June 30, 2025. However, any unused credit may be carried forward for the applicable carryforward period.

#### Beneficiaries
Businesses employing one or more eligible re-entrants

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 68. Certain Disabilities

A nonrefundable individual income tax credit was allowed for individual taxpayers, spouses, or dependents who are blind, deaf, mentally incapacitated, or have lost the use of a limb. The purpose of this credit is to reduce the tax burden for persons with certain disabilities.

For returns filed prior to July 1, 2015, the credit amount was $100.

For returns filed on or after July 1, 2015, regardless of the tax year, the credit amount is $72. If a filing extension was granted prior to July 1, 2015, and the return was filed after that date, one-third of the reduced portion of the credit could be claimed on the taxpayer's return for each taxable year beginning during the calendar years 2017, 2018, and 2019. This credit sunset on December 31, 2019.

This credit is applicable to individual income tax

#### Legal Citation

#### Origin
Acts 1980, No. 316, amended by Acts 2015, No. 125; Acts 2017, No. 400

#### Effective Date
Taxable periods beginning on or after January 1, 1980

#### Sunset Date
December 31, 2019

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Individual taxpayers with certain disabilities

#### Estimated Fiscal Effect
The estimated revenue loss is negligible for FYE 6-26; there is no estimated revenue loss for FYE 6-27. This credit sunset on December 31, 2019.

### 69. Special Allowable Credits

A nonrefundable credit was allowed for a percentage of certain federal income tax credits. The purpose of this credit was to allow some of the federal credits to also be applied against the state tax liability.

Beginning in 1975, the use of federal tax as an entry into state tax tables gave taxpayers the benefit of the following credits:

- credit for contributions to candidates for public office
- credit for the elderly
- investment credit
- foreign tax credit
- work incentive credit
- jobs credit
- residential energy credit

In 1980, the method was changed to use federal adjusted gross income to calculate the amount of tax due. Because the change eliminated federal tax credits, this provision was enacted.

Beginning in 1986, the credit was equal to 10% of certain federal income tax credits, limited to $25.

For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit was equal to 7.2% of the federal income tax credit, limited to $18. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

For taxable periods beginning on or after January 1, 2017, the credit was equal to 7% of the federal income tax credit, limited to $18.

The purpose of this credit was to allow a portion of certain federal credits to also be applied against state tax liability.

This credit was applicable to individual income tax.

#### Effective Date
Taxable periods beginning on or after January 1, 1980

#### Sunset Date
December 31, 2019

### 69. Special Allowable Credits *(continued)*

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Individual taxpayers who are entitled to certain federal credits

#### Estimated Fiscal Effect
The estimated revenue loss is negligible for FYE 6-26. There is no estimated revenue loss for FYE 6-27. This credit sunset on December 31, 2019.

### 70. Education

A nonrefundable credit is allowed for each qualified dependent child who was in school, kindergarten through 12th grade, at least part of the year. This credit, enacted in 1980, was suspended beginning with the tax year 1986 through tax year 1995. It was again suspended for tax years 2000 through 2005.

For taxable periods beginning on or after January 1, 2015, the credit was limited to Louisiana residents for dependents attending school in Louisiana who did not claim the elementary and secondary school tuition deduction. For returns filed before July 1, 2015, the credit was equal to $25 per qualified dependent child. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is equal to $18. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

The credit has sunset and is no longer available for taxable periods beginning on or after January 1, 2017.

This credit is applicable to individual income tax.

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Individual taxpayers with school age dependent children

#### Estimated Fiscal Effect
The estimated revenue loss is negligible for FYE 6-26; there is no estimated revenue loss for FYE 6-27. This credit sunset on December 31, 2016.

### 71. Small-Town Health Professional

A nonrefundable credit was allowed for qualified doctors, primary nurse practitioners, and dentists who relocated their primary office to certain locations. For any claim for a credit filed on or after July 1, 2015, the credit was equal to the lesser of the tax due or a reduced amount of $3,600 from the previous $5,000 per taxable year for up to a maximum of five (5) years. The purpose of this credit is to encourage eligible medical professionals to locate to small towns.

If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

For taxable periods beginning on or after January 1, 2019, Act 338 of the 2019 Regular Session expanded eligibility of the credit to include qualified physician assistants and optometrists. The amount of credit certified by the Department of Health and granted by the Department of Revenue was capped at $1.5 million per calendar year.

This credit is applicable to individual income tax.

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Eligible medical professionals who are located in small towns and the hospitals, residents, and patients of that area

#### Estimated Fiscal Effect
There is no estimated revenue loss for FYE 6-26 or FYE 6-27. There were no claims issued in FYE 6-25. This credit sunset on December 31, 2020.

### 72. Purchase of Bulletproof Vest

A nonrefundable credit was allowed for the purchase of a bulletproof vest by qualified law enforcement officers and certain employees of the Department of Public Safety and Corrections.

For returns filed prior to July 1, 2015, the credit was for the purchase price of the vest or $100, whichever was less.

For returns filed on or after July 1, 2015, regardless of the tax year, the credit allowed was equal to 72% of the purchase price or $72, whichever was less. Only one credit is allowed within a five (5) year period starting from the vest purchase date. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:297(L)

#### Origin
Acts 1998, No. 20, amended by Acts 2015, No. 125; Acts 2017, Nos. 400 and 403

#### Effective Date
Taxable periods beginning on or after January 1, 1998

#### Sunset Date
December 31, 2019

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Law enforcement officers and certain employees of the Department of Public Safety and Corrections

#### Estimated Fiscal Effect
There is no estimated revenue loss for FYE 6-26 or FYE 6-27. There were no claims issued in FYE 6-25. This credit sunset on December 31, 2019.

### 73. Living Organ Donation

A nonrefundable credit was allowed for expenses incurred by a taxpayer related to the taxpayer's or the taxpayer spouse's travel or absence from work due to a living organ donation.

For returns filed prior to July 1, 2015, the credit amount could not exceed $10,000 per organ donation.

For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit was equal to 72% of the qualifying expenses, limited to $7,200 per organ donation. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019. Any unused credit amount can be carried forward for up to ten (10) years.

This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:297(N)

#### Origin
Acts 2005, No. 277, amended by Acts 2015, No. 125; Acts 2017, Nos. 400 and 403

#### Effective Date
Donations occurring during taxable periods beginning on or after January 1, 2005

#### Sunset Date
December 31, 2019; however, taxpayers have ten years to utilize the credit

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Taxpayers making a living organ donation

#### Estimated Fiscal Effect
There is no estimated revenue loss for FYE 6-26 or FYE 6-27. This credit sunset December 31, 2019.

### 74. Accessible and Barrier-Free Constructed Home

A nonrefundable credit was allowed for taxpayers who include accessible and barrier-free design elements in the construction of a new one- or two-family dwelling. To qualify, the taxpayer must own the dwelling, claim the homestead exemption on it, and the credit must be taken in the year construction of the dwelling is completed. Only one tax credit could be granted per dwelling.

For tax years beginning before 2018, the credit was the lesser of 72% of the tax due or $720.

Beginning with the 2018 tax year, the credit amount was $5,000 or the actual cost of constructing a new dwelling or renovating an existing dwelling, whichever was less. The taxpayer must still own the dwelling and qualify for the homestead exemption. Additionally, the credit was available in cases where the taxpayer enters into a valid lease contract with an individual who has a physical disability requiring accessible features, and that individual resides in the home under the lease terms. Any unused credit can be carried forward for up to five (5) years.

The total amount of credits granted under this provision could not exceed $500,000 in any calendar year.

This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:297(P)

#### Origin

#### Effective date
Taxable periods beginning on or after January 1, 2012

#### Sunset Date
December 31, 2019; however, any unused credits can be carried forward for five (5) years.

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Taxpayers who include accessible and barrier-free design elements in either the construction of a new home or renovation of an existing dwelling

#### Estimated Fiscal Effect
There is no estimated revenue loss for FYE 6-26 or FYE 6-27. There were no claims issued in FYE 6-25. This credit sunset on December 31, 2019.

### 75. Employment-Related Expense for Maintaining Household for Certain Disabled Dependents

A nonrefundable credit was allowed for individuals who maintain a household that includes dependents who are physically or mentally disabled. The credit amount was equal to the applicable percentage of employment-related expenses allowed under Section 21 of the Internal Revenue Code. If the credit exceeded the taxpayer's liability, the unused portion could be carried forward to the next tax year. The purpose of this credit is to offer financial relief to taxpayers who bear the cost of caring for dependents with disabilities.

This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:297.2

#### Origin
Acts 1996, No. 27, amended by Acts 2017, No. 403

#### Effective Date
Taxable periods beginning on or after January 1, 1997

#### Sunset Date
December 31, 2019

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Families with disabled dependents benefit from this credit

#### Estimated Fiscal Effect
There is no estimated revenue loss for FYE 6-26 or FYE 6-27. There were no claims issued in FYE 6-25. This credit sunset on December 31, 2019.

### 76. Certain Child Care Expenses

Taxpayers are allowed a credit equal to a percentage of the federal child and dependent care credit that is claimed on a resident's federal income tax return as shown in the chart below. For taxpayers whose federal adjusted gross income is $25,000 or less the credit is refundable and is allowed even if no federal credit was claimed.

For taxpayers whose federal adjusted gross income exceeds $25,000, the credit is only available if the federal credit was actually taken. If the federal credit was not claimed—such as when a taxpayer is subject to the alternative minimum tax—then the Louisiana credit is not allowed, because it is directly based on the amount claimed on the federal return. For these taxpayers, the credit is nonrefundable but can be carried forward for five (5) years.

| *Federal Adjusted Gross Income* | *Percent of Federal Credit* |
|---|---|
| $25,000 or less | 50% |
| $25,001 to $35,000 | 30% |
| $35,001 to $60,000 | 10% |
| Over $60,000 | Lesser of $25 or 10% |

This provision ensures that lower income taxpayers receive state-level relief even if they do not qualify for or do not claim the federal child and dependent care credit. This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:297.4

#### Origin
Acts 2002, No. 25, amended by Acts 2005, No. 495

#### Effective Date
Taxable periods beginning on or after January 1, 2003

#### Beneficiaries
Individual taxpayers who are claiming a child and dependent care credit on their federal income tax return

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $10,425,000 | $10,216,00 |

### 77. Rehabilitation of an Owner Occupied Residential or Mixed-Use Property

This provision allowed a refundable credit for part of the cost of rehabilitating an owner-occupied residential or mixed-use property. To qualify, the property must be located in a National Register historic district, a local historic district, a main street district, a cultural products district, or a downtown development district. Properties could also qualify if it was eligible for listing on the National Register or certified by the State Historic Preservation Office. The credit was paid out over five years, with one equal portion claimed each year beginning when the property is first placed in service.

For returns filed before July 1, 2015, the credit was limited to $25,000 per structure. The amount of expenses eligible for the credit depended on the taxpayer's income. Total credits granted could not exceed $10 million statewide in any calendar year.

For returns filed on or after July 1, 2015, regardless of the tax year to which the return relates, the credit was limited to $18,600 per structure, with the percentage of allowable expenses still varying by income level. The statewide cap for total credits granted was reduced to $7.2 million per calendar year. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

This credit is applicable to individual income tax.

#### Origin
Acts 2005, No. 479, amended by Acts 2007, Nos. 188 and 298; Acts 2015, No. 125; Acts 2017, No. 400

#### Effective Date
Taxable periods beginning on or after January 1, 2006

#### Sunset Date
December 31, 2017

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Individuals rehabilitating qualified property

#### Estimated Fiscal Effect
The estimated revenue loss is negligible for FYE 6-26; there is no estimated revenue loss for FYE 6-27. The credit sunset December 31, 2017.

### 78. Earned Income Tax Credit

A refundable credit is allowed for residents of Louisiana who are eligible for the federal earned income tax credit. For taxable periods beginning before January 1, 2019, the Louisiana credit is equal to 3.5% of the federal earned income tax credit taken on the resident's federal income tax return.

For taxable periods beginning on or after January 1, 2019, and through December 31, 2030, the credit increases to 5% of the federal earned income tax credit taken on the resident's federal return.

This credit is applicable to individual income tax.

|---|---|
| $80,288,000 | $81,894,000 |

### 79. Amounts Paid by Certain Military Servicemembers for Obtaining Louisiana Hunting & Fishing Licenses

For returns filed prior to July 1, 2015, a refundable credit was allowed for amounts paid by an active or reserve military servicemember, their spouse, or their dependent for obtaining a Louisiana noncommercial hunting or fishing license. The license must be valid only during the time the servicemember is on active duty. This credit does not apply to the purchase of lifetime licenses.

For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit was equal to 72% of the amounts paid. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019. This credit sunset on December 31, 2019.

This credit is applicable to individual income tax.

#### Legal Citation

#### Effective Date
Amounts paid on or after July 1, 2007

#### Sunset Date
December 31, 2019

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Military personnel obtaining Louisiana hunting and fishing licenses

#### Estimated Fiscal Effect
The estimated revenue loss is negligible for FYE 6-26; there is no estimated revenue loss for FYE 6-27. This credit sunset on December 31, 2019.

### 80. Stillborn Child

A refundable credit of $2,000 is allowed for individual taxpayers who have undergone the delivery of a stillborn child. A "stillborn child" is defined according to the requirements outlined in R.S. 47:297.19(B). To be eligible for the credit, the taxpayer must be a Louisiana resident and must claim the credit on the return for the taxable year in which the stillbirth occurred.

This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:297.19

#### Origin
Acts 2021, No. 467

#### Effective Date
Taxable periods beginning on or after January 1, 2022

#### Beneficiaries
Any taxpayer who delivers a stillborn child

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $74,000 | $73,000 |

### 81. Adoption of Unrelated Infant

A refundable credit of $5,000 is allowed for individual taxpayers who adopt a child unrelated to the taxpayer and under three years old at the time of placement. This credit cannot be claimed for children adopted from foster care. Taxpayers who claim this credit are not eligible to claim the deduction provided in R.S. 47:297.21. The credit is claimed in the year the adoption becomes final.

This credit is applicable to individual income tax.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $311,000 | $317,000 |

### 82. Pregnancy Related Death

A refundable income tax credit is allowed for the reasonable funeral and burial expenses associated with a pregnancy-related death of a Louisiana resident. The credit may be claimed by the estate of the deceased. If the estate does not claim it, the individual who actually paid the funeral and burial expenses may do so. The credit amount is equal to the actual reasonable expenses paid or $5,000, whichever is less, and must be claimed for the taxable year in which the death occurred.

To qualify for the credit, the death must have occurred while the individual was pregnant, during labor and delivery, or within one year after childbirth due to a pregnancy complication, a chain of events initiated by the pregnancy, or the aggravation of an unrelated condition caused by the normal effects of pregnancy.

This credit is applicable to individual income tax.

| $11,000 | $11,000 |

### 83. Firearm Safety Device

A nonrefundable credit is allowed for the purchase of one or more firearm safety devices in an eligible transaction. The credit is equal to the amount of the purchase price limited to $500. The transaction must be a Louisiana sale conducted by a dealer who is required to collect sales and use tax on the sale of the firearm safety device. Eligible items include safes, gun safes, gun cases, lock boxes, or other devices designed to be or that can be used to store a firearm and which can only be unlocked by a key, combination or other similar means.

The credit may not be claimed for more than one transaction, but multiple qualifying items can be purchased in the single transaction. The amount of credits granted by the Department of Revenue is capped at $500,000 per calendar year and will be granted on a first-come, first-serve basis. Unused credits may be carried forward five (5) years.

This credit is applicable to individual income tax.

#### Sunset Date
December 31, 2027

#### Beneficiaries
Taxpayers who purchase eligible firearm safety device

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $199,000 | $203,000 |

### 84. Work-Based Learning Tax Credit

Authorizes a nonrefundable tax credit for businesses employing an "eligible apprentice," "intern," or "youth worker" as defined therein, for at least 100 hours per taxable period. The credit equals the lesser of $2.50 per hour worked or $2,500 per taxable period. Unused credits can be carried forward for up to five (5) years.

Starting January 1, 2027, taxpayers must apply for the credit during the annual application period following the year the credit is earned. The credit has an initial $1 million cap, which can increase by $1 million each year—up to a maximum of $7.5 million—if at least 80% of the previous year's cap is used, as determined by the Louisiana Department of Revenue.

The credit cannot be combined with any other incentive for hiring an eligible apprentice, youth worker, or intern.

This credit is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation

#### Beneficiaries
Employers who hire an eligible apprentice, youth worker, or intern.

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect. The effective date for this credit is January 1, 2026, and there is currently insufficient data to assess its impact.

### 85. Purchase of Qualified Recycling Equipment

A nonrefundable credit was allowed for the purchase of new recycling manufacturing or process equipment and/or qualified service contracts. If the equipment was sold before the total credit was claimed, the credit that would have otherwise been allowable could be claimed in the tax year of the sale, but any remaining unused credit is canceled for future periods.

For returns filed prior to July 1, 2015, the credit was calculated as 20% of the cost of the equipment, less any other tax credits received for the purchase, and could not exceed 50% of the taxpayer's liability before the credit. The total amount of credits certified by the Secretary of the Department of Environmental Quality in any calendar year is limited to $5 million for calendar years prior to July 1, 2015, and $3.6 million for calendar years on or after July 1, 2015.

For returns filed on or after July 1, 2015, for periods prior to January 1, 2017, the credit was equal to 14.4% of the qualifying purchase or contract. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

For tax years beginning on or after January 1, 2017, the credit is 14%. The total credits certified in any calendar year are limited to $3.6 million.

This credit is applicable to individual income tax.

|---|---|
| $28,000 | $17,000 |

### 86. Inventory Tax/Ad Valorem Tax

An income tax credit is allowed for ad valorem property taxes paid to political subdivisions on inventory held by certain manufacturers, distributors, and retailers. The credit was expanded to include certain property held by persons engaged in the short-term rental of such items for periods beginning on or after January 1, 2016.

The credit is nonrefundable for taxes paid on inventory by any manufacturer who claimed the property tax exemption under the Industrial Tax Exemption Program (ITEP) during the same year the inventory taxes were paid, and for taxes paid by any company related to such manufacturer on inventory that is related to the business of such manufacturer.

The credit was fully refundable for returns filed prior to July 1, 2015. For returns filed on or after July 1, 2015, but before July 1, 2016, regardless of the tax year to which it relates, the refundable portion was equal to 100% of the ad valorem taxes paid if the amount paid was less than $10,000. If the ad valorem taxes paid are $10,000 or more, only 75% of the excess credit could be refunded with the remaining 25% carried forward for five (5) years.

For returns filed on or after July 1, 2016, if the total amount eligible for the credit is less than or equal to $500,000, 100% of any excess credit is refundable, and for total eligible amounts above $500,000, 75% of any excess credit up to a maximum of $750,000 is refundable. Groups of affiliated companies are required to be treated as one taxpayer for purposes of the limitations on refundability. For returns filed on or after July 1, 2017, only taxpayers that are included on the same consolidated federal income tax return are required to combine their inventory taxes paid in order to determine the amount of the excess credit that is refundable.

For new business entities formed or first registered to do business in Louisiana after April 15, 2016, if the total amount eligible for the credit is less than $10,000, 100% of any excess credit is refundable, and for total eligible amounts $10,000 or more, 75% of any excess credit up to a maximum of $750,000 is refundable.

Taxpayers who paid ad valorem taxes after December 31, 2020, and before April 16, 2021, could elect to treat these payments as having been made on December 31, 2020, for purposes of the credit. For the 2020 tax year only, taxpayers, including members included in a consolidated federal tax return that are treated as one taxpayer, who employed a minimum of 100 full-time employees at each location in the state for whom withholding tax was remitted to LDR

### 86. Inventory Tax/Ad Valorem Tax *(continued)*

for at least one month within each of the first three quarters of calendar year 2020 and the total amount eligible for the credit is less than or equal to $1 million, 100% of any excess credit was refundable. This election did not apply to any manufacturer who claimed the property tax exemption under the ITEP during the same year the inventory taxes were paid.

For taxable years ending after December 31, 2020, the carryover period for the nonrefundable portion has increased from five (5) years to 10 years.

Entities taxed as a C corporation for federal income tax purposes and estates and trusts subject to the tax provided for in R.S. 47:300.1 are prohibited from earning the credit for payments of ad valorem tax made on or after July 1, 2026. Cooperatives that are permitted to claim a federal income tax deduction for patronage dividends paid or allocated to their members may continue to earn the credit even though they are taxed as a C corporation for federal tax purposes. Any entity subject to the prohibition is granted an additional 10 years of carryforward for any credit which did not expire prior to January 1, 2025. All entities may continue to claim the credit relative to any carryforward amounts available for credit previously earned.

This credit is applicable to individual, fiduciary, and corporation income tax.

| $425,727,000 | $196,655,000 |

### 87. Ad Valorem Tax on Natural Gas

An income tax credit is allowed for ad valorem property taxes paid to political subdivisions on natural gas held, used or consumed in providing natural gas storage services or operating natural gas storage facilities.

The credit was fully refundable for returns filed prior to July 1, 2015. For returns filed on or after July 1, 2015, but before July 1, 2016, regardless of the tax year to which it relates, the refundable portion was equal to 100% of the ad valorem taxes paid if the amount paid was less than $10,000. If the ad valorem taxes paid are $10,000 or more, only 75% of the excess credit could be refunded with the remaining 25% carried forward for five (5) years.

For returns filed on or after July 1, 2016, if the total amount eligible for the credit is less than or equal to $500,000, 100% of any excess credit is refundable, and for total eligible amounts above $500,000, 75% of any excess credit up to a maximum of $750,000 is refundable. Groups of affiliated companies are required to be treated as one taxpayer for purposes of the limitations on refundability. For returns filed on or after July 1, 2017, only taxpayers that are included on the same consolidated federal income tax return are required to combine their inventory taxes paid in order to determine the amount of the excess credit that is refundable.

For new business entities formed or first registered to do business in Louisiana after April 15, 2016, if the total amount eligible for the credit is less than $10,000, 100% of any excess credit is refundable, and for total eligible amounts $10,000 or more, 75% of any excess credit up to a maximum of $750,000 is refundable.

Taxpayers who paid ad valorem taxes after December 31, 2020, and before April 16, 2021, could elect to treat these payments as having been made on December 31, 2020, for purposes of the credit. For the 2020 tax year only, taxpayers, including members included in a consolidated federal tax return that are treated as one taxpayer, who employed a minimum of 100 full-time employees at each location in the state for whom withholding tax was remitted to LDR for at least one month within each of the first three quarters of calendar year 2020 and the total amount eligible for the credit is less than or equal to $1 million, 100% of any excess credit was refundable. This election did not apply to any manufacturer who claimed the property tax exemption under the ITEP during the same year the inventory taxes were paid.

For taxable years ending after December 31, 2020, the carryover period for the nonrefundable portion has increased from five (5) years to 10 years.

### 87. Ad Valorem Tax on Natural Gas *(continued)*

Entities taxed as a C corporation for federal income tax purposes and estates and trusts subject to the tax provided for in R.S. 47:300.1 are prohibited from earning the credit for payments of ad valorem tax made on or after July 1, 2026. Cooperatives that are permitted to claim a federal income tax deduction for patronage dividends paid or allocated to their members may continue to earn the credit even though they are taxed as a C corporation for federal tax purposes. Any entity subject to the prohibition is granted an additional 10 years of carryforward for any credit which did not expire prior to January 1, 2025. All entities may continue to claim the credit relative to any carryforward amounts available for credit previously earned.

### 88. Ad Valorem Tax on Offshore Vessels

A refundable credit is available for ad valorem taxes paid on vessels primarily operating in Outer Continental Shelf Lands Act waters. To qualify, taxpayers must certify to the assessor that the vessel primarily operated in these waters during the calendar year preceding the tax assessment year, and the tax must have been paid without protest to the political subdivision. However, for taxable periods beginning on or after January 1, 2018, if the tax is paid under protest, the taxpayer must notify the Department of Revenue within five (5) business days of filing the lawsuit. The credit equals 100% of the taxes paid.

Additionally, taxpayers who paid ad valorem taxes between January 1, 2021, and April 16, 2021, may elect to treat these payments as if made on December 31, 2020, for credit purposes.

This credit is applicable to individual, fiduciary, and corporation income tax.

| $26,930,000 | $20,743,000 |

### 89. Donations to Assist Qualified Playgrounds

A nonrefundable tax credit is available for donations made to qualified playgrounds located in certain economically disadvantaged areas. Donations can be in cash, equipment, goods, or services. The credit aims to encourage contributions to these qualifying playgrounds.

For tax returns filed before July 1, 2015, the credit equaled the lesser of $1,000 or 50% of the donation's value.

For returns filed on or after July 1, 2015, regardless of the tax year, the credit is the lesser of $720 or 36% of the donation's value. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption is reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

This credit is applicable to individual, fiduciary, and corporation income and franchise tax.

#### Legal Citation
R.S. 47:6008

#### Origin
Acts 1992, No. 898, amended by Acts 1997, No. 658; Acts 2002, No. 11; Acts 2015, No. 125; Acts 2016, 1st Ex. Sess., No. 29; Acts 2017, No. 400

#### Effective Date
Taxable periods beginning on or after January 1, 1993

#### Beneficiaries
Economically depressed areas benefit from this credit, which should help to improve the quality of life of the residents

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect. There were no credits claimed in FYE 6-25.

### 90. Donations to Public Elementary or Secondary Schools

A nonrefundable tax credit is available for qualified donations made to public elementary or secondary schools.

For returns filed before July 1, 2015, the credit equaled 40% of the appraised value of the donation.

For returns filed on or after July 1, 2015, and for tax years prior to January 1, 2017, the credit was 29% of the appraised value. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

For tax years beginning on or after January 1, 2017, the credit was 28% of the appraised value.

This credit is applicable to corporation income tax. The credit applied to corporation franchise tax until January 1, 2026.

#### Legal Citation
R.S. 47:6013

#### Origin
Acts 1998, No. 51, amended by Acts 2015, Nos. 125 and 357; Acts 2016, 1st Ex. Sess., No. 29; Acts 2017, No. 400; Acts 2024, 3rd Ex. Sess., Nos. 5 and 6

#### Effective date
Donations made on or after July 1, 1998

#### Beneficiaries
Corporations that make such donations and public schools in the state

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

### 91. Ad Valorem Tax Paid by Certain Telephone Companies

A refundable tax credit is available to telephone companies for 40% of the total ad valorem taxes they pay to Louisiana political subdivisions on public service properties. These properties must be assessed by the Louisiana Tax Commission at 25% of fair market value, as outlined in R.S. 47:1854.

For purposes of the credit, taxpayers who paid ad valorem taxes between January 1, 2021, and April 15, 2021, could elect to treat those payments as if they were made on December 31, 2020.

This credit is applicable to individual, fiduciary, and corporation income tax. The credit applied to corporation franchise tax until January 1, 2026.

|---|---|
| $6,755,000 | $5,282,000 |

### 92. Debt Issuance Costs

Economic development corporations may claim a nonrefundable tax credit for the filing fee paid to the Louisiana Bond Commission for the preparation and issuance of bonds. The credit must be claimed in the taxable period during which the expense was incurred by the taxpayer.

For returns filed before July 1, 2015, the credit equaled 100% of the filing fee. For returns filed on or after July 1, 2015, regardless of the applicable tax year, the credit is limited to 72% of the filing fee. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

This credit is applicable to individual, fiduciary, and corporation income tax. The credit applied to corporation franchise tax until January 1, 2026.

#### Origin
Acts 2002, No. 78, amended by Acts 2015, No. 125; Acts 2016, 1st Ex. Sess., No. 29; Acts 2017, No. 400; Acts 2025, 3rd Ex. Sess., No. 5

#### Effective Date
Fees paid on or after June 25, 2002

#### Beneficiaries
Economic development corporations

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

## 93. Rehabilitation of Historic Structures

A nonrefundable tax credit is available for eligible costs and expenses incurred in the rehabilitation of historic structures that are located within designated downtown development or cultural districts, or that contribute to the National Register of Historic Places. Eligible properties must be nonresidential real property or residential rental property.

Taxpayers, including any affiliated entities, are limited to claiming no more than $5 million in credits annually for all rehabilitation projects within a single downtown development or cultural district. The credit is earned in the taxable year during which the rehabilitated property is placed into service and is allowed against income tax for the period in which the credit is earned. Any unused credit can be carried forward for five (5) years.

For expenses incurred on or after January 1, 2018, and before January 1, 2023, the credit is equal to 20% of eligible costs. For expenses incurred on or after January 1, 2023, the credit increases to 25%. If the qualifying property is located in a rural area, the credit rises to 35% for eligible costs incurred on or after January 1, 2023.

In addition, for Part 2 applications submitted to the Department of Culture, Recreation, and Tourism (CRT) between January 1, 2021, and December 31, 2024, no more than $125 million in credits may be certified each calendar year. For applications received on or after January 1, 2025, no more than $85 million in credits may be certified each calendar year.

This credit is applicable to individual, fiduciary, and corporation income tax. The credit applied to corporation franchise tax until January 1, 2026.

### Origin
Acts 2002, No. 60, amended by Acts 2004, 1st Ex. Sess., No. 12; Acts 2005, No. 439; Acts 2007, No. 182 and 298; Acts 2009, No. 444; Acts 2011, No. 409; Acts 2013, Nos. 263 and 418; Acts 2015, No. 108; Acts 2017, No. 403; Acts 2020, 1st Ex. Sess., No. 25; Acts 2023, No. 426, Acts 2024, 3rd Ex. Sess., Nos. 5, 6, and 11

### Effective Date
Costs and expenses incurred on or after July 1, 2002, and taxable periods beginning on or after January 1, 2008, for a cultural district

### Sunset Date
December 31, 2028; however, taxpayers have five (5) years to utilize the credit.

## 93. Rehabilitation of Historic Structures *(continued)*

### Beneficiaries
Individuals or businesses rehabilitating a qualified historic structure

### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $100,000,000 | $77,658,000 |

### 94. LA Citizens Property Insurance Corporation Assessment

A refundable tax credit is available for surcharges, market equalization charges, or assessments paid under the Louisiana Citizens Property Insurance Corporation related to Hurricanes Katrina and Rita. This credit applies to taxpayers who paid these assessments as part of their property insurance premium.

For returns filed before July 1, 2015, the credit equaled 100% of the amount paid. For returns filed on or after July 1, 2015, the credit was reduced to 72%. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

For taxable periods beginning on or after January 1, 2016, the credit further decreased to 25%. This credit is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation

#### Origin
Acts 2006, 2nd Ex. Sess., No. 4, amended by Acts 2007, No. 382; Acts 2015, No. 125; Acts 2016, 2nd Ex. Sess., No. 9; Acts 2017, Nos. 400 and 403

#### Effective Date
Taxable periods beginning on or after January 1, 2006

#### Sunset Date
December 31, 2019

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Taxpayers who have paid the assessments levied by the LA Citizens Property Insurance Corporation

#### Estimated Fiscal Effect
The estimated revenue loss is negligible for FYE 6-26; there is no estimated revenue loss for FYE 6-27. This credit sunset on December 31, 2019.

### 95. Youth Jobs

A nonrefundable credit is allowed for a business that hires one or more eligible youths on or after July 1, 2021. "Eligible youths" means an individual who is at least 16 but under 24 years of age, is unemployed prior to being hired by a business applying for the credit, will be working full-time or part-time earning wages that are equivalent to the wages paid for similar jobs, with adjustments for experience or training, and meets at least one of the other enumerated criteria.

The credit is equal to $1,250 for each eligible youth hired in a full-time position and $750 for each eligible youth hired in a part-time position. The credit is capped at $5 million per calendar year.

This credit is applicable to individual, fiduciary, and corporation income tax. The credit applied to corporation franchise tax until January 1, 2026.

#### Effective Date
Individuals employed on or after June 23, 2021

#### Beneficiaries
Businesses hiring one or more eligible youths

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $41,000 | $42,000 |

### 96. Milk Producers

A refundable tax credit is available to resident taxpayers engaged in the business of producing milk for sale. This credit may be claimed when the USDA Uniform Price under Federal Order No. 7 falls below the production price set by the Louisiana Department of Agriculture and Forestry at any point during the calendar year. Eligible producers may receive a credit based on the volume of milk sold at prices below the announced production price during that year.

Eligibility is determined by the Louisiana Department of Health, which must certify those qualifying milk producers to the Department of Revenue by January 31 of the following year. Producers who are not certified by the Department of Health are not eligible for the credit.

For returns filed before July 1, 2015, the maximum credit per producer was $30,000 per calendar year, with a statewide cap of $2.5 million annually. For returns filed on or after July 1, 2015, regardless of the tax year involved, the maximum credit per producer is reduced to $21,600, and the statewide limit is reduced to $1.8 million per year. If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

This credit is applicable to individual, fiduciary, and corporation income tax. The credit applied to corporation franchise tax until January 1, 2026.

#### Legal Citation

#### Beneficiaries
Resident taxpayers engaged in the business of producing milk for sale

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $514,000 | $503,000 |

### 97. Apprenticeship (2007)

Employers may claim a nonrefundable tax credit for hiring eligible apprentices. The credit equals one dollar for each hour the apprentice works, up to a maximum of 1,000 hours per apprentice. An eligible apprentice is a person who has a written agreement in a registered apprenticeship program or is enrolled in a training program accredited by the National Center for Construction Education and Research that includes at least four levels of training and a minimum of 500 hours of instruction.

This credit is applicable to individual, fiduciary, and corporation income and franchise tax.

#### Legal Citation
R.S. 47:6033

#### Origin
Acts 2007, No. 472, amended by Acts 2011, No. 126

#### Effective Date
Taxable periods beginning on or after January 1, 2008

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2015, by Acts 2015, No. 357. However, taxpayers have 10 years to utilize credit.

#### Beneficiaries
Employers of eligible apprentices

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and 6-27 is negligible.

### 98. Apprenticeship (2022)

Employers may claim a nonrefundable tax credit for hiring eligible apprentices. An eligible apprentice is a person who either has a written apprenticeship agreement under a registered apprenticeship program as provided in Chapter 4 of Title 23 of the Louisiana Revised Statutes of 1950, or is enrolled in a training program accredited by the National Center for Construction Education and Research that includes at least four levels of training and a minimum of 500 hours of instruction. For each eligible apprentice employed for at least 250 hours, the credit equals $1.25 per hour of employment, up to a maximum of $1,250 per apprentice. Any unused credit may be carried forward for up to five (5) years, and the total credit allowed statewide is capped at $2 million per calendar year.

This credit is applicable to individual, fiduciary, and corporation income tax. The credit applied to corporation franchise tax until January 1, 2026.

#### Legal Citation

#### Sunset Date
December 31, 2025

#### Beneficiaries
Businesses employing one or more eligible apprentices

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $427,000 | $326,000 |

### 99. Conversion of Vehicles to Alternative Fuel

A refundable tax credit was available for the cost of qualified clean-burning motor vehicle fuel property purchased and installed during the taxable period, provided the vehicle was registered in Louisiana. This credit is intended to encourage individuals and businesses to invest in alternative fuel technologies.

For purchases made on or after January 1, 2018, the credit was nonrefundable.

For returns filed prior to July 1, 2015, the credit equaled 50% of the cost of the qualified property. If a taxpayer purchased a new motor vehicle already equipped with qualified clean-burning fuel technology and chose not to—or could not—determine the exact cost attributable to the clean-fuel components, the credit could be claimed as 10% of the vehicle's cost or $3,000, whichever was less.

For purchases made between July 1, 2015, and June 21, 2017, the credit was reduced to 36% of the qualified property cost. In cases where the specific cost of the clean-fuel components was not determined, the credit was 7.2% of the vehicle's cost or $1,500, whichever was less.

If an extension was granted before July 1, 2015, and the return was filed by the extended due date, the exemption was reduced and one-third of the reduced amount could be claimed for each of the taxable periods beginning during calendar years 2017, 2018, and 2019.

For conversions or fueling station installations completed after June 21, 2017, the credit was 30% of the cost. For new vehicles purchased between June 22 and June 25, 2017, the credit reverted to 7.2% of the cost or $1,500, whichever was less. For new vehicles purchased on or after June 26, 2017, the credit was equal to 10% of the vehicle's cost or $2,500, whichever was less.

This credit is applicable to individual and corporation income tax.

#### Legal Citation
R.S. 47:6035

#### Origin
Acts 2009, No. 469, amended by Acts 2015, No. 125; Acts 2017, Nos. 325, 400, and 403; Acts 2021, No. 385

#### Effective Date
Taxable periods beginning on or after January 1, 2009

#### Sunset Date
July 1, 2021, for new purchases and conversions; December 31, 2021, for property that is directly related to the delivery of an alternative fuel into the fuel tank of a motor vehicle propelled by an alternative fuel

### 99. Conversion of Vehicles to Alternative Fuel *(continued)*

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Owners purchasing qualified clean burning motor vehicle fuel property

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 100. COVID-19 Pandemic ATC License

A refundable tax credit was available to businesses licensed by Alcohol and Tobacco Control (ATC) to sell or serve alcoholic beverages for on premises consumption, such as bars, that were required to temporarily suspend operations in 2020 due to statewide COVID-19 emergency orders.

The credit equaled the portion of the 2020 annual state license and permit fees paid to ATC that corresponds to any calendar month—or portion of a month—during which the business was unable to operate under its ATC permit as a result of Proclamation Number 30 JBE 2020 or any subsequent proclamation issued in response to the COVID-19 public health emergency. Eligibility was based on the inability to use the ATC permit to conduct alcohol sales during the affected months.

This credit is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation
R.S. 47:6041

#### Origin
Acts 2020 2nd Ex. Sess., No. 60

#### Effective Date
Taxable periods beginning on January 1, 2020

#### Sunset Date
December 31, 2020

#### Repealed
Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Owners or operators of establishments licensed to sell or serve alcoholic beverages for consumption on their premises by paying customers that were required to temporarily close operations due to COVID-19

#### Estimated Fiscal Effect
There is no estimated revenue loss for FYE 6-26 or FYE 6-27. This credit sunset on December 31, 2020.

### 101. Donations to Qualified Foster Care Organizations

A nonrefundable tax credit is available to taxpayers who make donations during the taxable year to a qualified foster care organization. The credit amount is equal to the portion of the donation actually used by the organization to provide services to qualified individuals, or $50,000, whichever is less.

A "qualified foster care charitable organization" is an organization licensed by the Department of Children and Family Services (DCFS) as a child placing agency to provide adoption and foster care services. DCFS must submit an annual report of all such qualified organizations to the Department of Revenue by January 31st of each year for the prior calendar year.

The total amount of credits that may be issued statewide in any calendar year is capped at $500,000. This credit may be claimed in addition to any federal tax credit or deduction earned for the same donation. Any unused credit may be carried forward for up to five (5) years.

This credit is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation
R.S. 47:6042

#### Origin
Acts 2021, No. 378

#### Effective Date
Taxable periods beginning on or after January 1, 2022

#### Beneficiaries
Taxpayers who donate funds to qualified foster care organizations

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $199,000 | $203,000 |

### 102. Restaurant Recycling of Oyster Shells

A refundable tax credit is available to restaurants that donate oyster shells for environmental restoration purposes. The credit equals $1 for every 50 pounds of oyster shells donated, up to a maximum of $2,000 per taxpayer.

To qualify, donations must be made to the Oyster Shell Recycling Program operated by the Coalition to Restore Coastal Louisiana or to another program or activity designated as an approved oyster shell recycling initiative. The total amount of credits issued by the Department of Revenue is limited to $100,000 per calendar year and is awarded on a first-come, first-served basis.

This credit is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation
R.S. 47:6043

#### Origin
Acts 2023, No. 404

#### Effective Date
Taxable periods beginning on or after January 1, 2024

#### Sunset Date
December 31, 2028

#### Beneficiaries
Restaurants that donate oyster shells as well as Louisiana citizens who benefit from an improved environment

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 103. Louisiana Fortified Roof Tax Credit

A nonrefundable income tax credit is allowed for Louisiana resident taxpayers who install a fortified roof on their primary residence, as certified by the Insurance Institute for Business and Home Safety. The credit is equal to the full amount of qualified installation costs, up to $10,000 per residence. The credit applies only to owner-occupied homes with a homestead exemption. New construction, condominiums, and mobile homes do not qualify. The credit is capped at $10 million per fiscal year, allocated on a first-come, first-served basis, with proration required if the amount of requests received exceeds the available amount.

Credits may be carried forward for up to three years but cannot be claimed in combination with other state tax benefits or fortified roof grant funds received pursuant to R.S. 22:1483.1. The credit applies to qualifying expenses incurred on or after July 1, 2025, and may not be earned after December 31, 2031.

This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:6044

#### Origin
Acts 2025, No. 404

#### Effective Date
Expenses paid on or after July 1, 2025

#### Beneficiaries
Individual taxpayers who install a fortified roof on their primary residence according to Insurance Institute for Business and Home Safety guidelines.

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; the effective date for this credit is July 1, 2025, and there is insufficient data currently available to fully assess the impact.

### 104. Workforce Child Care

The Workforce Child Care Tax Credits, were formerly known as the School Readiness Credits.

A credit against individual income tax is allowed for certain childcare expenses identified in R.S. 47:297.4. In addition to the requirements provided for in R.S. 47:297.4, the expenses must be paid for a child that is five or younger and who has attended a quality-rated childcare facility as designated by the Department of Education. The amount of the credit is based upon the type of expense and the quality rating of the childcare facility.

| Quality Rating of Childcare Facility | Percentage of the credit in R.S. 47:297.4 |
|---|---|
| Five star | 200% |
| Four star | 150% |
| Three star | 100% |
| Two star | 50% |
| One star or nonparticipating facility | 0% |

This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:6104

#### Origin
Acts 2007, No. 394, amended by Acts 2025, No. 454

#### Effective Date
Taxable periods beginning on or after January 1, 2008

#### Beneficiaries
Individual taxpayers who have a child under the age of six enrolled in an eligible childcare facility participating in the Quality Start program that is designed to increase the quality of childcare and early learning for all children throughout Louisiana

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,095,000 | $1,073,000 |

### 105. Workforce Child Care Provider

The Workforce Child Care Tax Credits, were formerly known as the School Readiness Credits.

Childcare providers who participate in Quality Start are eligible for a refundable tax credit. The credit is calculated by multiplying the average monthly number of children enrolled—specifically, those participating in the Louisiana Child Care Assistance Program or foster children in the custody of the Department of Children and Family Services—by a dollar amount determined by the facility's quality rating under the Quality Start system.

| Quality Rating of Childcare Facility | Credit per eligible child |
|---|---|
| Five star | $1,500 |
| Four star | $1,250 |
| Three star | $1,000 |
| Two star | $750 |
| One star or nonparticipating | 0% |

This credit is applicable to individual, fiduciary and corporation income tax.

#### Legal Citation
R.S. 47:6105

#### Origin
Acts 2007, No. 394, amended by Acts 2025, No. 454

#### Effective Date
Taxable periods beginning on or after January 1, 2008

#### Beneficiaries
Childcare providers participating in Quality Start

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $12,047,000 | $11,169,000 |

### 106. Workforce Child Care Directors and Staff

The Workforce Child Care Tax Credits, were formerly known as the School Readiness Credits.

Childcare teachers and directors are eligible for a refundable tax credit based on their educational attainment. To qualify, individuals must work at a center that is actively participating in Quality Start, meaning the center has attained at least a one-star rating. In addition to meeting all relevant educational requirements, teachers and directors must have been employed at the same childcare center for a minimum of six months during the calendar year.

The credit amount is adjusted annually based on the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U), as determined by the U.S. Bureau of Labor Statistics and certified by the Louisiana Department of Revenue by December 1 of the prior year.

This credit is applicable to individual income tax.

#### Legal Citation
R.S. 47:6106

#### Origin
Acts 2007, No. 394; amended by Acts 2025, No. 454

#### Effective Date
Taxable periods beginning on or after January 1, 2008

#### Beneficiaries
Eligible teachers and directors of licensed childcare centers participating in the Quality Start program

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $20,075,000 | $20,476,000 |

### 107. Workforce Business-Supported Child Care

The Workforce Child Care Tax Credits, were formerly known as the School Readiness Credits.

A refundable credit is allowed for a business that incurs certain business-supported childcare expenses. The amount of the credit depends on the quality rating of the childcare facility where the expenses are related or the quality rating of the childcare facility the child attends. Eligible businesses-supported expenses include expenses to construct, renovate, or expand a childcare center, purchase equipment for a center, maintain or operate a center, or subsidize childcare for their employees.

This credit is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation
R.S. 47:6107(A)(1)

#### Origin
Acts 2007, No. 394, amended by Acts 2025, No. 454

#### Effective Date
Taxable periods beginning on or after January 1, 2008

#### Beneficiaries
Businesses that support childcare centers participating in Quality Start

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $563,000 | $548,000 |

### 108. Workforce Fees and Grants to Resource and Referral Agencies

The Workforce Child Care Tax Credits, were formerly known as the School Readiness Credits.

A refundable tax credit is available to businesses that financially support childcare resource and referral agencies. These agencies are private entities contracted by the Louisiana Department of Education to deliver essential services and information to both families and childcare providers.

The credit is equal to the amount paid in fees or grants to such agencies, up to a maximum of $5,000 per tax year.

This credit is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation
R.S. 47:6107(A)(2)

#### Origin
Acts 2007, No. 394, amended by Acts 2025, No. 454

#### Effective Date
Taxable periods beginning on or after January 1, 2008

#### Beneficiaries
Businesses that support childcare resource and referral agencies

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $2,292,000 | $2,224,000 |

### 109. Donations to Eligible Maternal Wellness Centers

A nonrefundable tax credit is available to taxpayers who make donations to eligible wellness centers, as defined in R.S. 47:6112(1). The credit equals 50% of the donation amount and cannot exceed 50% of the taxpayer's total Louisiana income tax liability for the year.

The Department of Revenue may grant up to $5 million in credits per calendar year, and these are allocated on a first-come, first-serve basis. Additionally, no more than 20% of the total available credits may be allocated to any one maternal wellness center.

This credit is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation
R.S. 47:6113

#### Origin
Acts 2023, No. 437

#### Effective Date
Taxable periods beginning on or after January 1, 2025

#### Sunset Date
December 31, 2030

#### Beneficiaries
Taxpayers who donate funds to an eligible maternal wellness center

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect. The effective date for this credit is January 1, 2025, and there is currently insufficient data to assess its impact.

### 110. Donations to School Tuition Organization

A nonrefundable credit is available for taxpayers who donate to certain school tuition organizations (STO). The credit is equal to the amount of the donation used by the STO to fund a scholarship, not including any administrative costs paid by the donation. The credit is earned when the donation is made. This credit is applicable to donations to qualified schools, which includes any public elementary or lab school operated by a public college or university for the purposes of participation in the credit program.

This credit is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation
R.S. 47:6301

#### Origin
Acts 2017, No. 377, amended by Acts 2025, No. 282

#### Effective Date

#### Beneficiaries
Taxpayers that make such donations and low-income students that receive such scholarships

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to assess their data.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $29,434,000 | $26,012,000 |

## { Credits }

### 111. Donation to Public Schools

A nonrefundable income tax credit for a donation to a public school receiving a "D" or "F" letter grade for the most recent school year pursuant to the Louisiana School and District Accountability System is allowed. The credit is earned in the year of the donation and is equal to 90% of the amount donated. Donated amounts must be used by the public school for certain qualifying purposes. The credit is capped at $1 million per calendar year.

Taxpayers must apply for the credit, electronically, during an annual application period following the year in which the credit is earned. The credit will be granted on a first-come, first-serve basis, with any requests received in excess of the credit cap being treated as received on the first day of the subsequent calendar year.

This credit is applicable to individual, fiduciary, and corporation income tax.

**Beneficiaries**
Individual taxpayers who donate to qualifying public schools

**Estimated Fiscal Effect**
The Department is unable to estimate the fiscal effect; the effective date for this credit is January 1, 2026, and there is insufficient data currently available to fully assess the impact.

## { Exemptions Required by the State Constitution or Federal Law }

### 112. Federal Income Tax Deduction

Louisiana previously allowed a deduction for federal income taxes paid on income also subject to Louisiana income tax. This deduction served to exclude from state taxation the portion of income used to pay federal income taxes.

However, with the passage of Constitutional Amendment No. 2 on November 13, 2021, the deduction was reclassified from a mandatory to a permissive provision, making it subject to legislative control. As a result, Acts 2021, No. 395 formally repealed the deduction for all tax periods beginning on or after January 1, 2022.

This deduction is applicable to individual, fiduciary, and corporation income tax.

### 113. Interest on United States Government Obligations

Under R.S. 47:293 and federal law (31 U.S.C. § 3124(a)), interest and dividends earned from obligations issued directly by the U.S. government—such as Treasury bills, U.S. savings bonds, and U.S. agency obligations—are exempt from Louisiana state income tax.

This exemption is applicable to individual, fiduciary, and corporation income tax.

#### Legal Citation

31 U.S.C. Section 3124(a), R.S. 47:300.6(B)(2)(a), R.S. 47:300.7(C)(2)(a)

#### Beneficiaries

The U.S. government and the individuals and entities that invest in their obligations

#### Estimated Fiscal Effect

The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to assess their impact.

|---|---|
| $13,674,000 | $13,948,000 |

### 114. Native American Income

Income earned or received by an enrolled member of a federally recognized Indian tribe is exempt from Louisiana individual income tax if it is derived from sources within the tribal reservation and the individual resides on that reservation.

This exemption is applicable to individual income tax.

#### Legal Citation

18 U.S.C. Section 1162, R.S. 47:293(9)(a)(iii)

#### Beneficiaries

Native Americans living and working on their tribe's reservation

#### Estimated Fiscal Effect

| $253,000 | $248,000 |

# Liquors-Alcoholic Beverage Tax Exemptions

# Liquors-Alcoholic Beverage Tax

## { Introduction }

Two categories of alcoholic beverages are subject to tax: (a) beverages of low-alcoholic content, defined as containing not more than 6% alcohol by volume, and (b) beverages of high-alcoholic content, defined as containing more than 6% alcohol by volume.

An alcoholic beverage tax of $1 per 31-gallon barrel on beer, porter, ale, fruit juices, and wine was first imposed by Act 2 of the 1933 First Extraordinary Session.

Act 15 of 1934 imposed a tax on liquor at 50¢ per wine gallon; sparkling wines at 50¢ per wine gallon; still wines not more than 14% alcohol by volume at 5¢ per wine gallon; still wines between 14% and 24% alcohol by volume at 10¢ per wine gallon; still wines over 24% alcohol by volume at 50¢ per wine gallon; and beer at $1.50 per 31-gallon barrel.

Initially, tax stamps were used to evidence payment of applicable taxes. Dealers purchasing tax stamps in lots of $100 or more were allowed a discount equal to 5% of the face value of the stamps. In 1964, the provisions relating to tax stamps and the purchase discount were repealed and replaced with a 6% discount for timely filing and remittance of tax on beverages of high alcohol content. This discount was reduced to 3.33% in 1972, and a 2% discount was enacted for beverages of low alcohol content.

Act 441 of the 1978 Regular Session changed the measurement of liquor and wine from gallons to liters for tax purposes. The effective rates remained unchanged, as the per-gallon rates were converted to equivalent per-liter rates.

Act 71 of the 1998 Regular Session authorized manufacturers and retailers domiciled outside Louisiana to sell and ship sparkling and still wines directly to consumers in Louisiana. Such shipments are permitted only if all applicable taxes are paid in full, the consumer is at least 21 years of age, and the wine is purchased for the consumer's personal consumption.

Act 808 of the 2006 Regular Session repealed the Native Wine Law (previously enacted by Acts 1990, No. 736), and established definitions and permit procedures for wine producers. Under certain conditions, the Act permits wine producers to ship product directly to consumers.

Act 7 of the 2016 First Extraordinary Session reduced the discount for accurately reporting and remitting taxes to 1.5% for beverages of low alcoholic content (beer) and 2.5% for beverages of high alcoholic content.

Since 1934, the tax rates on alcoholic beverages have undergone numerous revisions, as reflected below.

### Low Alcohol and Malt Beverages

| | | |
|---|---|---|
| 1934 | $1.50 | per 31-gallon barrel |
| 1948 | $10.00 | per 31-gallon barrel |
| 2016 | $12.50 | per 31-gallon barrel |

### Liquor

| | | |
|---|---|---|
| 1934 | $0.50 | per wine gallon |
| 1935 | $0.60 | per wine gallon |
| 1938 | $1.00 | per wine gallon |
| 1940 | $1.50 | per wine gallon |
| 1956 | $1.68 | per wine gallon |
| 1970 | $2.50 | per wine gallon |
| 1978 | $0.66 | per liter |
| 2016 | $0.80 | per liter |

### Sparkling Wines and Still Wines over 24% alcohol by volume

| | | |
|---|---|---|
| 1934 | $0.50 | per wine gallon |
| 1935 | $0.60 | per wine gallon |
| 1938 | $1.00 | per wine gallon |
| 1940 | $1.50 | per wine gallon |
| 1956 | $1.58 | per wine gallon |
| 1978 | $0.42 | per liter |
| 2016 | $0.55 | per liter |

### Still Wines not over 14% alcohol by volume

| | | |
|---|---|---|
| 1934 | $0.05 | per wine gallon |
| 1940 | $0.15 | per wine gallon |
| 1942 | $0.10 | per wine gallon |

| | | |
|---|---|---|
| 1956 | $0.11 | per wine gallon |
| 1978 | $0.03 | per liter |
| 2016 | $0.20 | per liter |

**Still Wines between 14% and 24% alcohol by volume**

| | | |
|---|---|---|
| 1934 | $0.10 | per wine gallon |
| 1940 | $0.30 | per wine gallon |
| 1942 | $0.20 | per wine gallon |
| 1956 | $0.21 | per wine gallon |
| 1978 | $0.06 | per liter |
| 2016 | $0.35 | per liter |

The alcoholic beverage taxes are collected from the first handlers in Louisiana, usually bonded wholesale dealers. The bond required of manufacturers or wholesalers of alcoholic beverages is a minimum of $10,000 for each type of permit held.

### Legal Citations
R.S. 26:341 through 423

### Tax Base
Quantity of beverage handled

### Tax Rate
1. Liquors: $0.80 per liter
2. Sparkling wines: $0.55 per liter
3. Still wines:
   a. Alcohol content not over 14% – $0.20 per liter
   b. Alcohol content 14% to 24% – $0.35 per liter
   c. Alcohol content over 24% – $0.55 per liter
4. Low alcohol 6% and under, malt beverages: $12.50 per barrel

### Types of Tax Exemptions
For alcoholic beverage taxes, there are three types of relief: exemptions, refunds or credits, and discounts.

- Exemptions remove certain items from the tax base.
- Refunds or credits allow taxpayers to recover taxes that were initially paid.
- Discounts reduce the tax owed by a set percentage.

Beer exemptions are listed separately from those for liquor and wine.

Some exemptions are also prohibited by federal law. Because of these federal restrictions, simply repealing the exemption would not produce the expected fiscal effect. These exemptions are therefore grouped separately at the end of this section.

### Significant Changes
### 2025 Regular Session

**Act 498**

Act 498 provides that out-of-state wholesalers and manufacturers of alcohol are no longer required to mail a notice to the Louisiana Department of Revenue on the date of shipment. Notice must now be submitted in a manner prescribed by the Department by the 20th day of the month following the shipment date. See LAC:I.203 for more information.

# Liquors-Alcoholic Beverage Tax

## { Low Alcohol Tax Discount }

### 1. Timely Filing and Payment

A discount of 1.5 % of the tax due is allowed for accurately reporting and timely remitting of the taxes owed. This discount is intended to compensate dealers for the administrative costs of accounting for the tax.

**Legal Citation**
R.S. 26:345

**Origin**
Acts 1972, No. 537, amended by Acts 2002, No. 14; Acts 2016, 1st Ex. Sess., No. 7

**Effective Date**
For taxable periods beginning on or after July 26, 1972

**Beneficiaries**
Registered wholesalers who properly report and remit taxes on time

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $507,000 | $486,000 |

## { Low Alcohol, Liquor, and Wine Tax Refund/Credit }

### 2. Products Returned to Manufacturer or Destroyed by a Dealer

A tax refund or credit is allowed for alcoholic beverages that are returned to a manufacturer or destroyed by the dealer due to damage or product being unfit for sale. This provision ensures that dealers receive credit for taxes paid on products that cannot be sold.

**Legal Citation**
R.S. 26:347

**Origin**

|---|---|
| $924,000 | $906,000 |

## { Federally Imposed Exemptions-Low Alcohol Tax }

### 5. Interstate Shipments

Low alcohol and malt beverages that are exported outside Louisiana are exempt from excise taxes. This exemption ensures compliance with the U.S. Constitution's restrictions on taxation of exports.

**Legal Citation**
R.S. 26:366(B)

**Origin**
Acts 1933 Ex. Sess., No. 2

**Effective Date**
Taxable periods beginning on or after April 13, 1933

**Beneficiaries**
Dealers who export products in interstate commerce

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,129,000 | $1,118,000 |

### 6. Sales to the Federal Government and Its Agencies

Sales of alcoholic beverages to the U.S. government or its agencies are exempt from excise taxes. This exemption ensures compliance with the U.S. Constitution's prohibition on taxing government transactions.

**Legal Citation**
R.S. 26:422

**Origin**
Acts 1933 Ex. Sess., No. 2

**Effective Date**
Taxable periods beginning or after April 13, 1933

**Beneficiaries**
The U.S. Government and its agencies

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $155,000 | $158,000 |

## { Federally Imposed Exemptions-Low Alcohol Tax }

### 7. Sales to Ships Engaged in Interstate or Foreign Commerce

Sales of alcoholic beverages to ships bound for destinations outside Louisiana are exempt from excise taxes. This exemption ensures compliance with the U.S. Constitution's prohibition on taxing exports.

**Legal Citation**
R.S. 26:366(B)

**Origin**
Acts 1933 Ex. Sess., No. 2

**Effective Date**
Taxable periods beginning on or after April 13, 1933

**Beneficiaries**
Dealers who sell alcoholic beverages for export in interstate commerce

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

## { Federally Imposed Exemptions-Liquor and Wine Tax }

### 8. Interstate Shipments of Alcoholic Beverages

Alcoholic beverages exported outside Louisiana are exempt from excise taxes. This exemption ensures compliance with the U.S. Constitution's prohibition on taxing exports.

**Legal Citation**

# Natural Resources-Severance Tax Exemptions

# Natural Resources - Severance Tax

## { Introduction }

Severance tax applies to all natural resources extracted from soil or water, including timber, minerals (oil, gas, natural gasoline, condensate, sulphur, salt, coal, ores), marble, stone, sand, gravel, shells, and brine. Oil and gas generate nearly 95% of severance tax revenues, so this section focuses on their taxation; other resources have only one minor exemption.

The first oil and gas severance tax was imposed in 1910 as an occupational license tax—2/5¢ per barrel of oil and 1/5¢ per 10,000 cubic feet or 10 MCF of gas. Act 140 of 1922 implemented the 1921 constitutional authority for severance taxation. Since 1910, rates have changed frequently, alternating between volumetric and value-based methods, as outlined chronologically below.

*1910* *Oil 2/5¢ per barrel; gas 1/5¢ per 10 MCF*

*1912* *Oil and gas; 0.5% of gross value less royalty interest*

*1920* *Oil and gas; 2% of gross value*

*1922* *Oil and gas; 3% of gross market value*

*1928* *Oil 4-11¢ per barrel depending on gravity; gas 1/5¢ per MCF*

*1936* *Gas 3/10¢ per MCF*

*1940* *Oil 6-11¢ per barrel depending on gravity; condensate 11¢ per barrel*

*1948* *Oil 18-26¢ per barrel depending on gravity; condensate 20¢ per barrel*

*1958* *Gas 2.3¢ per MCF*

*1972* *Gas 3.3¢ per MCF*

*1974* *Oil and condensate 12.5% of value; gas 7¢ per MCF*

*7/90* *Gas 10¢ per MCF, indexed annually*

*7/91* *Gas 9¢ per MCF*

*7/92* *Gas 7¢ per MCF*

*7/93* *Gas 7.5¢ per MCF*

*7/94* *Gas 8.7¢ per MCF*

*7/95* *Gas 7¢ per MCF*

*7/96* *Gas 7.7¢ per MCF*

*7/97* *Gas 10.1¢ per MCF*

*7/98* *Gas 9.3¢ per MCF*

*7/99* *Gas 7.8¢ per MCF*

*7/00* *Gas 9.7¢ per MCF*

*7/01* *Gas 19.9¢ per MCF*

*7/02* *Gas 12.2¢ per MCF*

*7/03* *Gas 17.1¢ per MCF*

*7/04* *Gas 20.8¢ per MCF*

*7/05* *Gas 25.2¢ per MCF*

*7/06* *Gas 37.3¢ per MCF*

*7/07* *Gas 26.9¢ per MCF*

*7/08* *Gas 28.8¢ per MCF*

*7/09* *Gas 33.1¢ per MCF*

*7/10* *Gas 16.4¢ per MCF*

*7/11* *Gas 16.4¢ per MCF*

*7/12* *Gas 14.8¢ per MCF*

*7/13* *Gas 11.8¢ per MCF*

*7/14* *Gas 16.3¢ per MCF*

*7/15* *Gas 15.8¢ per MCF*

*7/16* *Gas 9.8¢ per MCF*

*7/17* *Gas 11.1¢ per MCF*

*7/18* *Gas 12.2¢ per MCF*

*7/19* *Gas 12.5¢ per MCF*

*7/20* *Gas 9.34¢ per MCF*

*7/21* *Gas 9.1¢ per MCF*

*7/22* *Gas 17.7¢ per MCF*

*7/23* *Gas 25.1¢ per MCF*

*7/24* *Gas 9.8¢ per MCF*

*7/25* *Gas 10.52¢ per MCF*

# Natural Resources - Severance Tax

## { Introduction }

### Tax Base

Severance tax is imposed upon the severance (removal) of the oil and gas from the soil or water and is owed by the natural resource owners. The state of Louisiana has over 30,000 producing oil and gas wells.

### Tax Rate

The capable or full tax rate for oil and condensate is 12.5% of value for wells drilled before July 1, 2025, and 6.25% for wells drilled on or after July 1, 2025. Full rate production accounts for over 94% of the oil and condensate tax collections. There are reduced rates for low-producing oil wells. The capable or full rate for natural gas, presently 10.52¢ per MCF, is responsible for over 81% of total gas tax collections. There are reduced tax rates for low-pressure and low producing gas wells. The current severance tax rates are:

| Type | Rate |
|---|---|
| **Oil severance tax** | |
| *Capable tax rate* | *12.5% of value for wells completed before July 1, 2025* |
| *R.S. 47:633(A)(3)* | *6.5% of value for wells completed on or after July 1, 2025* |
| *Incapable tax rate* | *6.25% of value* |
| *R.S. 47:633(A)(3)* | |
| *Stripper tax rate* | *3.125% of value* |
| *R.S. 47:633(A)(3)(c)(i)(aa)* | |
| *Inactive reduced tax rate* | *3.125% of value* |
| *R.S. 47:633(A)(3)(c)(iii)* | |
| *Orphan reduced tax rate* | *1.5625% of value for oil production commencing prior to October 2028* |
| *R.S. 47:633(A)(3)(c)(iii)* | |
| *Condensate severance tax rate* | *12.5% of value R.S.* |
| *R.S. 47:633(4)* | |
| *Horizontal Well tax rate* | *20% of full rate* |
| *R.S. 47:633(A)(3)(d)* | *2.5% of value for wells completed before July 1, 2025* |
| | *1.3% of value for wells completed on or after July 1, 2025* |
| **Gas severance tax** | |
| *Capable tax rate* | *10.52¢ per MCF* |
| *R.S. 47:633(A)(5)(a)(i)* | |
| *R.S. 47:633(A)(5)(d)(i)* | |
| *Low pressure oil-well gas tax rate* | *3¢ per MCF* |
| *R.S. 47:633(A)(5)(b)* | |
| *Incapable gas-well gas tax rate* | *1.3¢ per MCF* |
| *R.S. 47:633(A)(5)(c)* | |
| *Inactive reduced tax rate* | *2.63¢ per MCF* |
| *R.S. 47:633(A)(3)(c)(iii)* | |
| *Orphan reduced tax rate* | *1.315¢ per MCF* |
| *R.S. 47:633(A)(3)(c)(iii)* | |
| *Horizontal Well tax rate* | *0.00 per MCF* |
| *R.S. 47:633(A)(3)(d)* | |

### Types of Tax Exemptions

Severance tax exemptions for oil, gas, and minerals take the form of exclusions, exemptions, special rates, deductions, and suspensions. Exclusions, set by statute, exempt specific categories of natural gas from taxation. Exemptions and suspensions, also statutory, apply to oil or gas from wells meeting certain criteria. Special rates reduce the tax for qualifying wells, while deductions provide a credit or reduce the taxable base. Two exemptions are based on federal prohibitions. Because these federal

restrictions remain, repealing the exemptions alone would not produce the projected fiscal impact. For this reason, they are listed separately at the end of the section.

### Significant Changes

### 2025 Regular Session

**Act 284**

Act 284 reduces the exemption period for gas produced from a horizontal well completed on or after July 1, 2025, to 18 months or until payout of the well cost is achieved, whichever comes first. For horizontal wells completed before July 1, 2025, the exemption period remains 24 months or until payout of the well cost is achieved, whichever comes first.

**Act 295**

Act 295 reduces the severance tax rate on oil from 12.5% to 6.5% for wells completed on or after July 1, 2025. The rate applicable to oil produced from a well completed prior to July 1, 2025, remains at 12.5%.

The reduced rate on oil produced from incapable oil wells is set at a rate of 6.25%, rather than 50% of the full rate. Similarly, the reduced rate on oil produced from stripper oil wells is set at 3.125%, rather than 25% of the full rate. These rates apply to all production regardless of the well completion date.

The reduced rates for inactive and orphan oil wells changed from a percentage of the full rate to set rates. For oil production that commences prior to October 1, 2028, the reduced rate on oil produced from inactive oil wells is 3.125% and from orphan oil wells is 1.565%. For oil production that commences after October 1, 2028, the reduced rate for inactive oil wells is 6.25% and for orphan oil wells is 3.125%. The reduced rates applicable to gas production remain unchanged. For production commencing prior to October 1, 2028, the inactive well rate remains 25% of the full rate and the orphan rate is 12.5% of the full rate. For production commencing after October 1, 2028, the inactive gas well rate is 50% of the full rate and the orphan gas well rate is 25% of the full rate.

**Act 373**

Act 373 made technical changes to the requirements for the well-cost statement submitted to the Department of Energy and Natural Resources for horizontal wells. The well cost statement must now be issued by a qualified CPA who is independent from the operator and must be performed in accordance with attestation standards established by the AICPA.

## { Natural Gas Exclusions }

### 1. Injection

Gas injected into producing reservoirs to maintain pressure and enhance hydrocarbon recovery is excluded from severance tax. If the injected gas is later reproduced and sold, it may become taxable. The exclusion's purpose is to encourage secondary recovery and repressurization efforts.

**Legal Citation**
R.S. 47:633(A)(5)(e)(i)(aa), as of August 1, 2025; previously R.S. 47:633(9)(e)(i)

**Origin**
Acts 1940, No. 145

**Effective Date**
Taxable periods beginning January 1, 1940

**Beneficiaries**
Anyone in industry undertaking a repressurization or secondary recovery project

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $21,000 | $22,000 |

### 2. Produced Outside the State of Louisiana

Gas produced outside Louisiana and transported into the state for injection into producing reservoirs to maintain pressure or otherwise enhance recovery of oil or other hydrocarbons is excluded from severance tax. This clarifies that natural gas severed outside Louisiana is not subject to Louisiana severance tax even when it is injected and later recovered.

**Legal Citation**
R.S. 47:633(A)(5)(e)(i)(bb), as of August 1, 2025; previously R.S. 47:633(9)(e)(ii)

**Origin**
Acts 1960, No. 2

**Effective Date**
Taxable periods beginning January 1, 1960

**Beneficiaries**
Taxpayers who inject imported gas

**Estimated Fiscal Effect**
The estimated revenue loss is $11,000 for FYE 6-26; the estimated revenue loss for FYE 6-27 is negligible.

{ Natural Gas Exclusions }

### 3. Flared or Vented

Gas flared or vented into the atmosphere is excluded, provided the gas is not otherwise sold. This typically occurs during testing, while awaiting a sales line, or when produced in noncommercial quantities. The exclusion provides financial relief to natural and casinghead gas producers.

**Legal Citations**
R.S. 47:633(A)(5)(e)(i)(cc) and (ff), as of August 1, 2025; previously R.S. 47:633(9)(e)(iii) and (vi)

**Origin**
Acts 1935, No. 24

**Effective Date**
Taxable periods beginning on or after January 1, 1935

**Beneficiaries**
Gas producers that vent or flare gas

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $155,000 | $143,000 |

### 4. Consumed in Field Operations

An exclusion is allowed for gas used or consumed for fuel in maintaining the operation of the field where the gas is produced. This includes gas used for heating, separating, producing, dehydrating, compressing, and pumping oil and gas in the field where produced, provided the gas is not otherwise sold. The exclusion provides financial assistance to qualifying users.

**Legal Citation**
R.S. 47:633(A)(5)(e)(i)(dd), as of August 1, 2025; previously R.S. 47:633(9)(e)(iv)

**Origin**
Acts 1958, No. 2

**Effective Date**
Taxable periods beginning on or after January 1, 1958

**Beneficiaries**
Producers using severed gas as fuel in field operations

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,924,000 | $2,155,000 |

## { Natural Gas Exclusions }

### 5. Consumed in the Production of Natural Resources in the State of Louisiana

Gas used in producing natural resources other than oil and gas in Louisiana is excluded from severance tax. This provides financial assistance to qualifying producers.

**Legal Citation**
R.S. 47:633(A)(5)(e)(i)(ee), as of August 1, 2025; previously R.S. 47:633(9)(e)(v)

**Origin**
Acts 1974, No. 5

**Effective Date**
Taxable periods beginning January 1, 1974

**Beneficiaries**
Producers who use natural gas in the production of natural resources, other than oil or gas

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

### 6. Used in the Manufacture of Carbon Black

Gas used in carbon black production is excluded from severance tax. Both the gas producer and seller receive an exclusion, reducing the sales price. This provides financial assistance to carbon black manufacturers.

**Legal Citation**
R.S. 47:633(A)(5)(e)(i)(gg), as of August 1, 2025; previously R.S. 47:633(9)(e)(vii)

**Origin**
Acts 1958 Ex. Sess., No. 2

**Effective Date**
Taxable periods beginning January 1, 1958

**Beneficiaries**
Carbon-black companies operating in Louisiana

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $10,000 | $11,000 |

## { Natural Gas Exemptions }

### 7. Horizontal Wells

Any horizontal well completed before July 1, 2025, is exempt from severance tax for 24 months or until payout of the well cost is achieved, whichever comes first. Any horizontal well completed on or after July 1, 2025, is exempt for 18 months or until payout of the well cost is achieved, whichever comes first.

Payout of well cost is the cost of completing the well to the commencement of production as reflected in the well cost statement submitted to the Department of Conservation and Energy. The amount of the exemption is dependent on the average gas price determined by the secretary on July 1st of each year for the ensuing 12-month period. The purpose of this exemption is to encourage the drilling of horizontal wells.

For eligible wells from which production commenced between July 31, 1994, to June 30, 2015, the tax was suspended for 24 months or until well payout without regard to the price of gas.

#### Legal Citation
R.S. 47:633(A)(3)(d), as of August 1, 2025; previously R.S. 47:633(7)(c)(iii) and (d)

#### Origin
Acts 1994, No. 2, amended by Acts 2015, No. 120; Acts 2025, No. 284

#### Effective Date
Taxable periods beginning on or after August 1, 1994

#### Beneficiaries
Any producer who successfully completes or recompletes a horizontal well

#### Estimated Fiscal Effect
In accordance with R.S. 47:633(A)(3)(d)(iii) (formerly R.S. 47:633(7)(d)(ii)), the secretary determined the price of natural gas to be $2.98 per million BTU for purposes of the FY 25-26 exemption amount. Therefore, since the price of gas is below $4.50 per million BTU, the FY 25-26 exemption amount is 100%.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $223,123,000 | $223,123,000 |

## { Natural Gas Suspensions }

### 8. Deep Wells

Production from gas wells drilled deeper than 15,000 feet is exempt from tax for 24 months or until payout of the well cost, whichever occurs first. The exemption applies to wells commencing production after July 31, 1994. This exemption encourages investment in deep well drilling.

#### Legal Citation
R.S. 47:633(A)(5)(d)(v), as of August 1, 2025; previously R.S. 47:633(9)(d)(v)

#### Origin
Acts 1994, No. 2

#### Effective Date
Taxable periods beginning August 1, 1994

#### Beneficiaries
Gas producers that successfully drill to a depth greater than 15,000 feet

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,636,000 | $1,636,000 |

## { Natural Gas Special Rates }

### 9. Incapable Oil-Well Gas

Gas produced from oil wells with 50 psi or less wellhead pressure, or produced via artificial methods, gas lift, or pumping, qualifies for a reduced tax rate of 3¢ per MCF. Qualification for this reduced rate is determined by the secretary. This rate encourages continued production from low-pressure wells.

#### Legal Citation
R.S. 47:633(A)(5)(b), as of August 1, 2025; previously R.S. 47:633(9)(b)

#### Origin
Acts 1958 Ex. Sess., No. 2

#### Effective Date
Taxable periods beginning January 1, 1958

#### Beneficiaries
Small independent operators and major oil companies continuing production on low-producing wells

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $361,000 | $451,000 |

### 10. Incapable Gas-Well Gas

Gas produced from gas wells that average less than 250,000 cubic feet of production per day during a month qualifies for a reduced tax rate of 1.3¢ per MCF. This lower rate encourages continued production from low-producing gas wells.

#### Legal Citation
R.S. 47:633(A)(5)(c), as of August 1, 2025; previously R.S. 47:633(9)(c)

#### Origin
Acts 1958 Ex. Sess., No. 2

#### Effective Date
Taxable periods beginning January 1, 1958

#### Beneficiaries
Small independent operators and major oil companies maintaining production from low-producing gas wells

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $8,495,000 | $9,344,000 |

## { Natural Gas Special Rates }

### 11. Orphan Wells

Production from a gas well designated by the Department of Conservation and Energy as being an orphan well for longer than 60 months is subject to a reduced severance tax rate equal to 25% of the full rate for a period of ten years. The gas production must be produced from the same perforated producing interval or from 100 feet above and 100 feet below the perforated producing interval for lease wells, and within the correlative defined interval for unitized reservoirs, that the formerly orphaned well produced from before being designated as an orphan well. The purpose of this special rate is to encourage production from orphaned wells. An application for certification must be submitted to the Department of Conservation and Energy between July 1, 2018, and June 30, 2028.

Effective October 1, 2024, if production commences prior to October 1, 2028, the reduced rate is equal to 12.5% of the full rate for a period of 10 years. If production commences on or after October 1, 2028, the reduced rate is 25% of the full rate for a period of 10 years.

The reduced rate applies only to gas produced from the same perforated interval (or within 100 feet above or below it for lease wells) or within the correlative interval for unitized reservoirs from which the well produced before being orphaned. The purpose of this special rate is to encourage production from orphaned wells.

#### Legal Citation
R.S. 47:633(A)(3)(c)(iii), as of August 1, 2025; previously R.S. 47:633(7)(c)(iv)

#### Origin
Acts 2017, No. 421, amended by Acts 2024, No. 695; Acts 2025, No. 295

#### Effective Date
Taxable periods beginning August 1, 2017

#### Beneficiaries
Gas producers with previously orphaned wells

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

### 12. Inactive Wells

Production from a gas well designated by the Department of Conservation and Energy as being either inactive for two or more years or having 30 days or less production for the past two years is eligible for a reduced severance tax rate equal to 50% of the full rate for a period of 10 years. Eligible wells may apply for certification from July 1, 2018, through June 30, 2028. The gas production must be produced from the same perforated producing interval or from 100 feet above and 100 feet below the perforated producing interval for lease wells, and within the correlative defined interval for unitized reservoirs, that the formerly inactive well produced from before being designated as an inactive well. The purpose of this special rate is to encourage production from previously inactive wells.

Effective October 1, 2024, if production commences prior to October 1, 2028, the reduced rate is equal to 25% of the full rate for a period of 10 years. If production commences on or after October 1, 2028, the reduced rate is equal to 50% of the full rate for a period of 10 years.

#### Legal Citation
R.S. 47:633(A)(3)(c)(iii), as of August 1, 2025; previously R.S. 47:633(7)(c)(iv)

#### Origin
Acts 2017, No. 421, amended by Acts 2024, No. 695; Acts 2025, No. 295

#### Effective Date
Taxable periods beginning on or after August 1, 2017

#### Beneficiaries
Gas producers who invest to restore inactive wells to production

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $37,000 | $21,000 |

## { Natural Gas Incentive }

### 13. Produced Water Injection - Gas Wells

A 20% severance tax reduction applies to gas produced from wells that inject produced water into the reservoir to enhance recovery. The incentive encourages producers to reduce water discharge by reinjecting produced water to increase gas recovery.

**Legal Citation**
R.S. 47:633.5(C)(2)

**Origin**
Acts 1991, No. 625

**Effective Date**
Taxable periods beginning on or after July 17, 1991

**Beneficiaries**
Gas producers that inject produced water into a reservoir to enhance gas recovery

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

## { Oil Deduction }

### 14. Trucking, Barging, and Pipeline Fees

Oil and condensate are taxed at the higher of the gross receipts (less charges for trucking, barging, and pipeline fees) or the posted field price. Under LAC 61:I.2903, the deduction for producers using their own transportation is 25¢ per barrel; those using third-party transportation may deduct 25¢ per barrel or the actual charge.

**Legal Citation**
R.S. 47:633(A)(3)(a), as of August 1, 2025; previously R.S. 47:633(7)(a)

**Origin**
Acts 1973 Ex. Sess., No. 6

**Effective Date**
Taxable periods beginning on or after January 1, 1974

**Beneficiaries**
All of industry

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $415,000 | $410,000 |

{ Oil Exemptions }

### 15. Horizontal Wells

Horizontal wells from which production begins on or after July 1, 2015, qualify for a severance tax exemption for 24 months or until well payout, whichever occurs first. Payout is the cost of completing the well to first production, as certified by the Department of Conservation and Energy. The exemption amount is based on the average oil price set each July 1st for the following 12-month period. The exemption is intended to encourage horizontal drilling.

For horizontal wells that began production between August 1, 1994, and June 30, 2015, the tax was suspended for twenty-four months or until payout, regardless of oil price.

#### Legal Citation
R.S. 47:633(A)(3)(d), as of August 1, 2025; previously R.S. 47:633(7)(c)(iii) and (d)

#### Origin
Acts 1994, No. 2, amended by Acts 2015, No. 120

#### Effective Date
Taxable periods beginning on or after August 1, 1994

#### Beneficiaries
Any producer who successfully completes or recompletes a well horizontally

#### Estimated Fiscal Effect
In accordance with R.S. 47:633(A)(3)(d)(ii) (previously R.S. 47:633(7)(d)(i)), the secretary determined the price of oil to be $70.85 per barrel for purposes of the FY 25-26 exemption amount. Therefore, since the price of oil is above $70 and below $80 per barrel, the FY 25-26 exemption amount is 80%.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $618,000 | $618,000 |

### 16. Orphan Well Rework Program

An exemption applies to oil produced from an oil well that: (1) was previously designated as orphaned by the Department of Conservation and Energy (DC&E), (2) has had no production for at least 12 months, and (3) has undergone or is undergoing enhancements requiring a DC&E permit. To qualify, production must begin between October 1, 2021, and June 30, 2031. Once certified, no severance tax is due for the first 3 months of production. After that, the operator pays an amount equal to the severance tax, which is deposited into a site-specific trust account established for that well under R.S. 30:88.2.

#### Legal Citation
R.S. 47:633(A)(3)(c)(iii)(ff), as of August 1, 2025; previously R.S. 47:633(7)(c)(iv)(cc)

#### Origin
Acts 2021, No. 391

#### Effective Date
Taxable periods beginning on or after June 16, 2021

#### Beneficiaries
Operators who complete permitted enhancements to oil wells previously designated as orphaned for at least 12 months and begin production between October 1, 2021, and June 30, 2031

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

## { Oil Suspensions }

### 17. Deep Wells

Severance tax on production from oil wells drilled deeper than 15,000 feet is suspended for 24 months or until payout of the well costs, whichever comes first. The exemption is available for wells that begin production after July 31, 1994. This suspension encourages investment in deep well drilling.

#### Legal Citation
R.S. 47:633(A)(5)(d)(v), as of August 1, 2025; previously R.S. 47:633(9)(d)(v)

#### Origin
Acts 1994, No. 2

#### Effective Date
Taxable periods beginning on or after August 1, 1994

#### Beneficiaries
Oil producers that successfully drill to a depth greater than 15,000 feet

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $5,266,000 | $5,266,000 |

### 18. Tertiary Recovery

Enacted in 1983, this suspends severance tax on crude oil from qualified tertiary projects approved by the Department of Conservation and Energy until the project payout. The payout amount is determined at a public hearing held by the office of conservation and includes recovery of investment costs, expenses specific to the project and interest at commercial rates. This suspension supports large-scale carbon dioxide injection projects, though low oil prices have limited their development.

#### Legal Citation
R.S. 47:633.4(B)(2)

#### Origin
Acts 1983 Ex. Sess., No. 643, amended by Acts 2009, No. 450

#### Effective Date
Taxable periods beginning on or after July 20, 1983

#### Beneficiaries
Producers undertaking large-scale carbon dioxide injection projects

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $8,761,000 | $7,710,000 |

{ Oil Special Rates }

### 19. Incapable Oil Wells

An oil well that averages no more than 25 barrels per producing day during the month, produces at least 50% salt water, and has no other capable (full rate) well on the lease qualifies for a reduced severance tax rate of 6.25% of value. These wells are referred to as incapable wells. The purpose of this reduced rate is to encourage continued production from low-producing wells.

#### Legal Citation
R.S. 47:633(A)(3)(b), as of August 1, 2025; previously R.S. 47:633(7)(b)

#### Origin
Acts 1948, No. 10

#### Effective Date
Taxable periods beginning on or after January 1, 1948

#### Beneficiaries
Oil producers in Louisiana with wells producing in the 10-25 barrel per day range

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $5,112,000 | $4,550,000 |

### 20. Stripper Oil Wells

Oil produced from wells averaging no more than 10 barrels per producing day during the month qualifies for a reduced severance tax rate of 3.125% of value. These wells are referred to as stripper wells and the reduced rate is meant to encourage continued production from these wells.

#### Legal Citation
R.S. 47:633(A)(3)(c)(i)(aa), as of August 1, 2025; previously R.S. 47:633(7)(c)(i)(aa)

#### Origin
Acts 1973 Ex. Sess., No.5

#### Effective Date
Taxable periods beginning on or after January 1, 1974

#### Beneficiaries
Oil producers in Louisiana operating stripper wells

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $17,910,000 | $16,656,000 |

## { Oil Special Rates }

### 21. Stripper Oil Wells - Value Less than $20 per Barrel

Oil produced from certified stripper wells (no more than 10 barrels per day average during the month) is exempt from severance tax in months when the average taxable value is less than $20 per barrel. The value used to calculate severance tax also is used to determine the exemption. This exemption encourages continued operation of low-producing wells, when the value of oil is low.

#### Legal Citation
R.S. 47:633(A)(3)(c)(i)(bb), as of August 1, 2025; previously R.S. 47:633(7)(c)(i)(bb)

#### Origin
Acts 1994, No. 2

#### Effective Date
Taxable periods beginning on or after June 1, 1994

#### Beneficiaries
Producers with oil wells certified as a stripper well

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

### 22. Orphan Wells

Oil produced from wells previously designated by the Department of Conservation and Energy as an orphan well for more than 60 months is eligible for a reduced tax rate equal to 25% of the full severance rate for 10 years. Production must come from the original perforated producing interval or from 100 feet above and 100 feet below the original perforated producing interval for lease wells, and within the correlative defined interval for unitized reservoirs. To qualify for this reduced rate, the well must be certified by the Department of Conservation and Energy between July 1, 2018, and June 30, 2028. This rate encourages investment to restore orphan wells to active status.

Effective October 1, 2024, the rate for wells that begin production before October 1, 2028, was reduced to 12.5% of the full rate for 10 years. The rate reverts to 25% of the full rate for wells that begin production on or after October 1, 2028.

|---|---|
| $872,000 | $872,000 |

{ Oil Special Rates }

### 23. Inactive Wells

Oil produced from wells designated by the Department of Conservation and Energy as being either inactive for two or more years or having 30 days or less production in the past two years is eligible for a reduced tax rate equal to 50% of the full severance rate for 10 years. Eligible wells must apply for certification from the Department of Conservation and Energy between July 1, 2018, and June 30, 2028. Production must come from the same perforated producing interval or from 100 feet above and 100 feet below the perforated producing interval for lease wells, and within the correlative defined interval for unitized reservoirs. This rate encourages production from inactive wells.

Effective October 1, 2024, the rate for wells beginning production before October 1, 2028, was reduced to 25% of the full rate for 10 years. The rate returns to 50% of the full rate for wells that begin production on or after October 1, 2028.

#### Legal Citation

#### Origin
Acts 2017, No. 421, amended by Acts 2024, No. 695

#### Effective Date
Taxable periods beginning on or after July 1, 2018

#### Beneficiaries
Oil producers with older mature fields containing many inactive wells

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,187,000 | $997,000 |

### 24. Salvage Oil

Salvage oil reclaimed by class-one reclamation facilities permitted by the office of conservation is taxed at a reduced rate of 3.125% of value. This rate supports class-one salvage oil operators. Operators or their affiliates engaged in actual severance of oil, gas, or other natural resources are prohibited from participating in the reduced rate program.

#### Legal Citation
R.S. 47:648.21

#### Origin
Acts 1986, No. 673

#### Effective Date
Taxable periods beginning on or after July 1, 1986

#### Beneficiaries
Class-one salvage oil operators

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

## { Oil Special Rates }

### 25. Horizontal Mining and Drilling Projects

The working-interest owners of horizontal- mining and drilling projects approved by the office of conservation are taxed at the special reduced rate of 3.125% of value until the cumulative value of hydrocarbon production from the project equals 2.33 times the private investment invested by the working-interest owners. The purpose of this special rate is to promote innovation in horizontal-mining and drilling technologies. One project was planned; however, it was abandoned and no projects are planned for the near future.

**Legal Citation**
R.S. 47:633(A)(3)(c)(ii), as of August 1, 2025; previously R.S. 47:633(7)(c)(ii)(aa) and (cc)

Acts 1990, No. 551

**Effective Date**
Taxable periods beginning on or after

**Beneficiaries**
Companies who undertake horizontal-mining and drilling projects

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

## { Mineral Exemption }

### 26. Produced Water Injection – Oil Wells

Oil from wells where produced water is reinjected into the reservoir for enhanced recovery qualifies for a 20% severance tax reduction. This incentive encourages reducing produced water discharge while boosting oil recovery.

**Legal Citation**
R.S. 47:633.5(C)(1)

**Origin**
Acts 1991, No. 625

**Effective Date**
Projects started after July 17, 1991

**Beneficiaries**
Oil producers who inject produced water into reservoirs to enhance oil recovery

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

## { Mineral Exemption }

### 27. Owned and Severed by Political Subdivisions

Enacted in 1988, this exemption applies to any state political subdivision that severs natural resources for its own use. Originally intended to aid police jurors in harvesting gravel, the exemption now covers all natural resources. However, the tax on gravel has since been repealed.

**Legal Citation**
R.S. 47:632(B)

**Origin**
Acts 1988, No. 594

**Effective Date**
Taxable periods beginning on or after January 1, 1988

**Beneficiaries**
The political subdivisions that own and sever natural resources for their own use

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

## { Federally Imposed Tax Exemptions }

### 28. U.S. Government Royalty - Gas Wells

Natural gas from privately owned wells with federal mineral royalty interests is exempt from severance tax, in compliance with U.S. Constitution tax prohibitions.

# Oil Spill Contingency Fee Exemptions

# Oil Spill Contingency Fee

## { Introduction }

Act 7 of the 1991 First Extraordinary Session imposed a 2¢ per barrel fee on crude oil owners when oil is transferred at a Louisiana marine terminal. The marine terminal operator collects and remits the fee quarterly. Initially, the application of the fee was dependent on the balance in the Oil Spill Contingency Fund. The fee was imposed until the fund balance reached $15 million, then ceased until the balance fell below $8 million. Once the balance fell below $8 million, collection of the 2¢ per barrel fee resumed. Additionally, a 4¢ per barrel fee could be triggered if the Louisiana oil spill coordinator certified that the fund balance was below $8 million, an oil spill over 100,000 gallons occurred in the past 30 days, and the projected expenditures would deplete more than 50% of the fund.

Act 740 of 1995 lowered the fund balance ceiling from $15 million to $10 million for the 2¢ fee and clarified that if the 4¢ fee was triggered, it should continue until the fund reached $10 million.

Act 1082 of 2003 further reduced the thresholds: the 2¢ fee applied until the fund reached $7 million and resumes if it falls below $5 million; the 4¢ fee applies under the same conditions as before but with the $5 million threshold.

Act 384 of 2013 revised the structure and collection of the oil spill contingency fee. As of July 1, 2014, the fee is owed by the last owner of crude oil before delivery to a refinery or storage facility, with the refinery collecting and remitting the collected fees quarterly. From July 1, 2014, to December 31, 2015, the fee was ½¢ per barrel. Beginning January 1, 2016, the standard fee is ¼¢ per barrel. The fee increases to ½¢ per barrel if the oil spill coordinator certifies that the fund balance is below $5 million and (1) a spill of more than 100,000 gallons has occurred in the past 12 months or (2) due to authorized expenditures. The increased fee continues until the fund reaches $7 million, at which time it returns to the standard fee of ¼¢ per barrel.

### Legal Citation
R.S. 30:2485

### Fee Base
Barrels of crude oil received by a refinery for storage or processing

### Fee Rate
2¢ per barrel (effective July 1, 1991 through April 30, 1999)

Suspended (effective May 1, 1999 through October 31, 2001)

2¢ per barrel (effective November 1, 2001 through April 30, 2003)

Suspended (effective May 1, 2003 through April 30, 2007)

2¢ per barrel (effective May 1, 2007 through December 31, 2007)

Suspended (effective January 1, 2008 through June 30, 2010)

2¢ per barrel (effective July 1, 2010 through June 30, 2014)

½ ¢ per barrel (effective July 1, 2014 through December 31, 2015)

¼ ¢ per barrel (effective January 1, 2016 to present)

### Type of Exemption
The Oil Spill Contingency Fee exemption is in the form of a credit. Credits are generally defined as a reduction to the amount of tax due.

### Significant Changes
There were no changes to the oil spill contingency fee laws during the past year.

# Petroleum Products Tax Exemptions

# Petroleum Products Tax

## { Introduction }

A tax on gasoline and motor fuels was first levied in the 1921 Louisiana Constitution at a rate of 1¢ per gallon. Special fuels were first taxed under a Use Fuel Tax at a rate of 7¢ per gallon, imposed by Act 244 of 1940. This act also required fuel permits. Various amendments over the years have established the following rates:

*1921 Gasoline tax first levied at 1¢ per gallon*

*1924 Gasoline at 2¢ per gallon*

*1928 Gasoline at 4¢ per gallon*

*1930 Gasoline at 5¢ per gallon*

*1936 Gasoline at 7¢ per gallon*

*1940 Special fuels tax first levied at 7¢ per gallon*

*1948 Gasoline and special fuels at 9¢ per gallon*

*1952 Gasoline and special fuels at 7¢ per gallon*

*1968 Gasoline and special fuels at 8¢ per gallon*

*1984 Gasoline and special fuels at 16¢ per gallon*

*1990 Gasoline and special fuels at combined rate of 20¢ per gallon*

*2016 Special fuels (CNG and LNG) at 20¢ per gallon, LPG at 14.6¢ per gallon*

Act 16 of the First Extraordinary Session of 1989 increased the total tax on gasoline, motor fuels, and special fuels to 20¢ per gallon. This increase was not achieved by raising the existing 16¢ per gallon tax under R.S. 47:711 and R.S. 47:802, but by imposing an additional 4¢ per gallon under a new program titled the Transportation Infrastructure Model for Economic Development (TIMED). The revenue generated by this additional levy, effective January 1, 1990, was specifically dedicated for transportation purposes. The same legislation also established the Transportation Trust Fund, into which the collections from the original 16¢ per gallon tax are deposited.

### Gasoline and Diesel Fuels Tax

The gasoline tax was originally collected from the dealer who first handled, sold, distributed, used, or consumed gasoline and motor fuels in Louisiana. However, Act 252 of the 2005 Regular Session (enacting R.S. 47:818.1 et seq.) shifted the point of collection for motor fuel taxes to the terminal rack. Under this system, clear diesel fuel, is taxed when it leaves the terminal via the rack. Subsequent sales of the product are therefore considered taxed fuel, and any clear diesel ultimately used for a nontaxable purpose may be eligible for a refund of the fuel tax paid.

Act 252 also revised the discounts allowed to dealers and marketers. Previously, gasoline dealers were allowed a 3% discount on the first 1¢ of tax; gasoline jobbers were allowed 3% on the first 4¢ of tax; and special fuel suppliers were allowed 3% of net taxable gallons.

As of Act 252 provided suppliers (refiners) a 1.5% discount on the tax if they timely filed and remitted the taxes, provided they passed a 1% discount on to distributors (marketers). Under Act 147 of the 2015 Regular Session, the supplier discount was reduced to 0.5% of the tax, and the discount for a licensed distributor or importer was set at 0.03%

### Special Fuels Tax

Special fuels are defined as any gas or liquid, other than gasoline or diesel fuel, that is used or suitable for use as motor fuel in an internal combustion engine or motor to propel any type of vehicle, machine, or mechanical device. Special fuels include compressed natural gas (CNG), liquefied natural gas (LNG), and liquefied petroleum gas (LPG).

The tax on special fuels was originally paid by any person operating a motor vehicle on Louisiana highways that uses, or can use, LPG or CNG. From July 1, 2006, to December 31, 2015, this tax was reported and paid via an annual return using either a flat annual rate or a usage-based rate, depending on the weight of the vehicle. Compliance was evidenced by a decal issued to the owner or operator of the vehicle. The tax was collected by the purchase of a decal at an annual flat rate of $150, or a variable rate of 16¢ per gallon, not to exceed $150, for each vehicle operating on one of these fuels.

# Petroleum Products Tax

## { Introduction }

Effective January 1, 2016, Act 147 of the 2015 Regular Session repealed R.S. 47:818.101 through 104 and enacted R.S. 47:818.111 through 132, changing the method of collecting the fuel tax on CNG, LNG, and LPG used to power motor vehicles. The tax is added to the price of the fuel dispensed at the pump or from the storage container and is paid by the retail dealer selling the fuel for motor fuel purposes, or by the special fuel fleet dealer when used in fleet operations.

### Fee for Inspection

To cover the costs of inspecting, testing, and analyzing petroleum products in Louisiana, an inspection fee of 4/32 of one cent per gallon is collected on all gasoline and diesel that is distributed, sold, offered for sale, used, or consumed in the state. The fee must be paid by the first person handling the fuel, and it must be remitted before delivery to agents, dealers, or consumers.

The inspection fee is not collected on special fuels, bulk sales, and exports out of the state are exempt. Additionally, no fee is due on fuels eligible for tax refunds under R.S. 47:818.15(A)(5) or on fuels sold for use in or distributed to seagoing vessels, as defined in R.S. 3:4602.

### Legal Citations

R.S. 47:818.6, enacted by Acts 2005, No. 252, provides that R.S. 47:818.1 et. seq. supersede the provisions of R.S. 47:711-727, 771-788, and 801-815.1 to the extent that they are inconsistent or in conflict. The provisions of R.S. 47:711-727, 771-788, and 801-815.1 that are not inconsistent or in conflict with R.S. 47:818.1 et. seq. remain in effect.

### Tax Base

Gasoline and diesel fuel sold, used, or consumed in Louisiana for domestic consumption, and all special fuels sold, used, or consumed in Louisiana for operating motor vehicles that are licensed or required to be licensed for highway use.

### Fee Base

All gasoline and diesel distributed, sold, or offered for sale, use or consumption in Louisiana.

### Tax Rate

*Gasoline and diesel fuels.....20¢ per gallon*

*Special fuels (CNG and LNG).....20¢ per gallon*

*Special fuels (LPG) .....14.6¢ per gallon*

*Fee for inspection.....4/32 of 1¢ per gallon*

### Types of Tax Exemptions

Petroleum product tax relief takes the form of exemptions, refunds, and discounts. Exemptions apply to items that are included in the tax base but are specifically excluded by statute. Refunds provide restitution for taxes already paid. Discounts are proportionate reductions from the amounts reported.

Two statutory tax exemptions are also prohibited from taxation under federal law. Because of these additional restrictions, repealing the exemption alone would not produce the anticipated fiscal effect. For this reason, these exemptions are grouped separately at the end of the section.

### Significant Changes

There were no changes to the petroleum products tax laws in the past year.

## { Gasoline Tax Exemptions }

### 1. Casinghead Gasoline

Casinghead and absorption gasoline sold for blending or compounding with other less volatile liquids in the manufacture of commercial gasoline or motor fuel are exempt from gasoline tax. This exemption is intended to encourage the blending of these products in the production of gasoline or motor fuels.

**Legal Citation**
R.S. 47:713

**Origin**
Acts 1928 Ex. Sess., No. 6

**Effective Date**
Taxable periods beginning on or after January 4, 1929

**Beneficiaries**
None

**Estimated Fiscal Effect**
The Department is unable to estimate the fiscal effect; there is no reporting requirement for this data.

### 2. Aviation Gasoline

Aviation fuel used to propel aircraft, including aircraft operated in interstate or foreign commerce under a certificate or permit issued by the Civil Aeronautics Board of the United States (or any successor or federal governmental board or agency having similar authority), is exempt from gasoline tax. This provision ensures that gasoline sold for aviation use is not subject to the tax.

**Legal Citation**

| $227,000 | $234,000 |

{ Gasoline Tax Refunds }

### 3. School Bus Drivers

Contract drivers of privately owned school buses transporting Louisiana students may qualify for a refund of three-fourths of the gasoline tax. This refund does not apply to commercial buses that transport students only incidentally as a part of the operator's regular business. The purpose of this refund is to provide financial assistance to contract drivers of privately owned school buses.

#### Legal Citation
R.S. 47:818.15(A)(1); superseded R.S. 47:715.1

#### Origin
Acts 1984, No. 927, superseded by Acts 2005, No. 252

#### Effective Date
Taxable periods beginning on or after September 3, 1984

#### Beneficiaries
Contract drivers of privately owned school buses

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0.

### 4. Farmers, Fishermen, and Aircraft

Tax paid on gasoline fuel used for the following purposes may be refunded, provided the requirements of R.S. 47:1681 et seq. are met:

- Operating or propelling aircraft;
- Operating or propelling any commercial fishing boat or any vehicle used by a licensed fisherman in the administration of business associated with commercial fishing;
- Operating any boat used to transport children to or from school; and
- Operating any farm tractor or any farm machinery, including any stationary motor, used in the actual tilling of the soil and production of crops.

The purpose of this refund is to provide financial assistance to those using gasoline for these specified purposes.

#### Legal Citation
R.S. 47:818.15(A)(2)

#### Origin
Acts 1950, No. 371 and Acts 2005, No. 252.

#### Effective Date
Taxable periods beginning on or after September 1, 1950

#### Beneficiaries
Farmers, fishermen, and operators of gasoline-powered aircraft

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

## { Gasoline Tax Discount }

### 5. Timely Filing and Payment by Suppliers/ Permissive Suppliers

Suppliers and permissive suppliers who timely file a return and remit payment are allowed an administrative discount of 0.5% of the tax due on gasoline fuels. The discount is permitted only if the supplier passes a 0.33% deduction to purchasers with a valid distributor or importer license. Prior to July 1, 2015, the discount for suppliers was 1.5%, and the deduction for licensed distributors or importers was 1.0%.

**Legal Citation**
R.S. 47:818.22(A)

**Origin**
Acts 2005, No. 252, amended by Acts 2015, No. 147

**Effective Date**
Taxable periods beginning on or after July 1, 2006

**Beneficiaries**
Suppliers and permissive suppliers who file and pay timely and pass on a portion of its savings

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $2,250,000 | $2,250,000 |

## { Diesel Fuels Tax Exemption }

### 6. Dyed Diesel and Dyed Kerosene Gallons Removed for Non-Highway Purposes

Dyed diesel and dyed kerosene fuel are intended for sale and use only for non-highway purposes and off-road vehicles. These fuels are not subject to the fuel tax but are subject to the inspection fee. The purpose of this exemption is to avoid imposing excise taxes on diesel fuels sold for non-highway use and to clearly identify fuel not used for highway purposes.

**Legal Citation**
R.S. 47:818.14(B)

**Origin**
Acts 2005, No. 252

**Effective Date**
For taxable periods beginning on or after July 1, 2006

**Beneficiaries**
End users who purchase dyed diesel and dyed kerosene fuels

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $150,372,000 | $144,357,000 |

## { Diesel Fuels Tax Refunds }

### 7. School Bus Drivers

Contract drivers of privately-owned school buses transporting Louisiana students, whether such students are in private or public schools, are eligible for a refund of three-fourths of the diesel fuels tax. This refund is intended to provide financial assistance to these contract drivers.

#### Legal Citation
R.S. 47:818.15(A)(1); superseded R.S. 47:715.1

#### Origin
Acts 1984, No. 927

#### Effective Date
Taxable periods beginning on or after September 3, 1984

#### Beneficiaries
Contract drivers of privately owned school buses

#### Estimated Fiscal Effect

|---|---|
| $120,000 | $120,000 |

### 8. Diesel Fuels Used in Licensed Vehicles by Commercial Fishermen

Licensed commercial fishermen are eligible for a refund of diesel fuels taxes paid on fuel used in operating licensed motor vehicles when performing commercial fishing-related business. This refund provides financial assistance to commercial fishermen.

#### Legal Citation
R.S. 47:818.15(A)(5); superseded R.S. 47:802.2

#### Origin
Acts 1982, No. 820, superseded by Acts 2005, No. 252

#### Effective Date
Taxable periods beginning on or after January 1, 1983

#### Beneficiaries
Licensed commercial fishermen

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no claims are being filed for this refund.

## { Diesel Fuels Tax Refunds }

### 9. Undyed Diesel Fuels Used for Nontaxable Purposes

Tax paid on undyed diesel fuel used for nontaxable purposes, when dyed diesel fuel is unavailable, may be eligible for a refund. This refund ensures that diesel fuel used for certain purposes is tax-free and provides financial assistance to eligible users.

**Legal Citation**
R.S. 47:818.15(A)(4)

**Origin**
Acts 1984, No. 927

**Effective Date**
Taxable periods beginning on or after September 1984

**Beneficiaries**
End users who purchase diesel fuel on which tax has been paid

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $462,000 | $439,000 |

## { Diesel Fuels Tax Discount }

### 10. Timely Filing and Payment by Suppliers/ Permissive Suppliers

Suppliers and permissive suppliers who timely file a return and remit payment are allowed an administrative discount of 0.5% of the tax due on diesel fuels. The discount is permitted only if the supplier passes a 0.33% deduction to purchasers with valid distributor or importer licenses. For taxable periods beginning before July 1, 2015, the discount for suppliers was 1.5%, and the deduction for licensed distributors or importers was 1.0%.

**Legal Citation**
R.S. 47:818.22(A)

**Origin**
Acts 2005, No. 252, amended by Acts 2015, No. 147

**Effective Date**
Taxable periods beginning on or after July 1, 2006

**Beneficiaries**
Suppliers and permissive suppliers who timely file and pay and pass on a portion of the savings

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $789,000 | $757,000 |

## { Special Fuels Tax Refunds }

### 11. School Bus Owners

Owners of school buses, including those owned by school boards, used to transport Louisiana students and powered by an internal combustion engine capable of using liquefied natural gas, liquefied petroleum gas, or compressed natural gas are eligible for a credit equal to 50% of the special fuel tax paid. This credit does not apply to commercial buses that transport students only incidentally as a part of the operator's regular business. The credit must be claimed annually by August 1 of each year for taxes paid during the previous academic year and is recognized in the form of a refund. The purpose of this credit is to provide financial assistance to owners of school buses transporting Louisiana students.

**Legal Citation**
R.S. 47:818.120(A)

**Origin**
Acts 2015, No. 147

**Effective Date**
For taxable periods beginning on or after January 1, 2016

**Beneficiaries**
Owners of school buses capable of using liquefied natural gas, liquefied petroleum gas, or compressed natural gas

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no claims are being filed for this refund.

## { Special Fuels Tax Discount }

### 12. Timely Filing and Payment by Dealers

Licensed dealers who file a return and remit payment by the due date are allowed an administrative discount of one-third of one percent (0.33%) of the tax due on special fuels.

**Legal Citation**
R.S. 47:818.119(A)

**Origin**
Acts 2015, No. 147

**Effective Date**
Taxable periods beginning on or after January 1, 2016

**Beneficiaries**
Licensed dealers that comply with the discount requirements

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

## { Inspection Fee Exemptions }

### 13. Gasoline and Undyed Diesel Brought into Louisiana in Fuel Supply Tanks of Interstate Motor Fuel Users

The inspection fee does not apply to gasoline or undyed diesel fuels brought into Louisiana in the fuel supply tanks of interstate motor fuel users. Most of these users participate in the International Fuel Tax Agreement (IFTA) and report their Louisiana miles and associated excise tax liability to their base jurisdiction.

**Legal Citation**
R.S. 47:818.13(F), R.S. 3:4684

**Origin**
Acts 1976, No. 555

**Effective Date**
Taxable periods beginning on or after January 1, 1977

**Beneficiaries**
Interstate motor fuel users who travel into and through Louisiana

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $61,000 | $61,000 |

### 14. Undyed Diesel Fuel Used by Commercial Fishermen

The inspection fee does not apply to taxed undyed diesel fuel purchased and used in vehicles operated by licensed commercial fishermen for activities related to their commercial fishing business, provided the fuel is eligible for a tax refund under R.S. 47:818.15(A)(5).

**Legal Citation**
R.S. 3:4684

**Origin**
Acts 2003, No. 139

**Effective Date**
Taxable periods beginning on or after September 1, 2003

**Beneficiaries**
Licensed commercial fishermen

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no reports are being filed claiming this exemption.

## { Inspection Fee Exemptions }

### 15. Diesel Fuels Used in or Distributed to Seagoing Vessels

The inspection fee does not apply to fuels sold for use in, or distributed to, seagoing vessels as defined at R.S. 3:4602. To qualify for the exemption, these vessels must hold an exemption certificate issued under R.S.47:305.1.

**Legal Citation**
R.S. 3:4684

**Origin**
Acts 2003, No. 139

**Effective Date**
Taxable periods beginning on or after September 1, 2003

**Beneficiaries**
Purchasers of diesel fuel to be used in seagoing vessels

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $640,000 | $366,000 |

### 16. Exports of Gasoline or Diesel Fuels

The inspection fee does not apply to gasoline or diesel fuels exported from Louisiana.

**Legal Citation**
R.S. 3:4684

**Origin**
Acts 2003, No. 139

**Effective Date**
Taxable periods beginning on or after September 1, 2003

**Beneficiaries**
Exporters of products in interstate commerce

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $917,000 | $703,000 |

## { Federally Imposed Exemptions }

### 17. Gasoline and Diesel Sales to the Federal Government and Its Agencies

Bulk sales of gasoline and diesel fuel of 6,000 gallons or more per transaction to the U.S. Government for its own use, as well as gasoline sold to the U.S. Armed Forces for propelling Navy or Coast Guard ships or for aviation purposes, are exempt from taxes on gasoline and diesel. The purpose of this provision is to provide an exemption for bulk sales and for fuel used for specific government purposes and not for resale at retail.

#### Legal Citation
R.S. 47:818.14(A)(1) and (2); superseded R.S. 47:715

#### Origin
Acts 1944, No. 131

#### Effective Date
Taxable periods beginning on or after July 6, 1944

#### Beneficiaries
The U.S. Government

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $5,171,000 | $4,903,000 |

### 18. Interstate Gasoline and Diesel Shipments/Exports

Gasoline or undyed diesel fuel exported to another U.S. state is exempt from Louisiana tax only if the tax of the destination state is remitted to the supplier for that state. This exemption does not apply to gasoline or undyed diesel fuel transported and delivered outside Louisiana in the fuel supply tank of a highway vehicle.

In addition, gasoline or undyed diesel fuel exported to a foreign country is exempt from the tax if the bill of lading indicates the foreign destination.

These exemptions are intended to comply with the taxation prohibitions of the U.S. Constitution.

# Public Utilities and Carriers Taxes Exemptions

# Public Utilities and Carriers Taxes
# Inspection and Supervision Fee

{ Introduction }

Act 108 of the 1921 First Extraordinary Session, first imposed the Inspection and Supervision Fee. The act required each common carrier and public utility doing business in Louisiana and subject to the control and jurisdiction of the Public Service Commission to pay an annual fee for the inspection, control, and supervision of their business, service, and rates. The fee was set on a graduated scale, with a minimum annual fee of $10 and a maximum of $500, due at the end of December. Subsequent changes to the fee and rate schedules occurred in 1928, 1935, 1962, 1970, and again in 1972, when the minimum annual fee increased to $35 and the statutory maximum was eliminated.

Act 182 of the 1985 Regular Session changed the due date for payment from December 31 to April 1st. Act 561 of that same session implemented a supplemental fee of 20% of the inspection and supervision fee payment on each gas, electric, and telephone public utility.

Act 700 of the 1986 Regular Session changed the reporting period from annually to quarterly, adjusted the rates, and established a minimum quarterly payment of $12.50, or $50 annually.

Act 301 of the 1995 Regular Session removed certain motor carriers from the jurisdiction of the Louisiana Public Service Commission following the 1994 enactment of Section 601 of the Federal Aviation Administration Act, thereby excluding these carriers from the Inspection and Supervision Fee.

Act 234 of the 2007 Regular Session further adjusted the rates, repealed the supplemental fee, and increased the minimum quarterly fee to $20, or $80 annually.

### Legal Citations
R.S. 45:1177 through 1179

### Tax Base
Gross receipts from Louisiana intrastate business from each common carrier, contract carrier, and public utility

### Tax Rate
- $5.01 per $1,000 for the first $100,000 or less of such gross receipts;
- $4.23 per $1,000 of such gross receipts in excess of $100,000 and not more than $250,000;
- $3.45 per $1,000 of such gross receipts in excess of $250,000 and not more than $500,000;
- $2.68 per $1,000 of such gross receipts in excess of $500,000 and not more than $750,000;
- $2.29 per $1,000 of such gross receipts in excess of $750,000 and not more than $1,000,000;
- $1.90 per $1,000 of such gross receipts in excess of $1,000,000 and not more than $2,000,000;
- $1.51 per $1,000 of such gross receipts in excess of $2,000,000 and not more than $5,000,000;
- $1.13 per $1,000 of such gross receipts in excess of $5,000,000 and not more than $10,000,000;
- $0.97 per $1,000 of such gross receipts in excess of $10,000,000 and not more than $25,000,000
- $0.82 per $1,000 of such gross receipts in excess of $25,000,000 and not more than $100,000,000;
- $0.71 per $1,000 of such gross receipts in excess of $100,000,000

In no case shall the fee be less than $80 annually.

### Types of Tax Exemptions
For this fee, the tax exemptions are in the form of exclusions. Exclusions are items specifically not included in the tax base.

### Significant Changes
There were no changes to the inspection and supervision fee laws during the past year.

# Public Utilities and Carriers Taxes
# Transportation and Communication Utilities Tax

{ Introduction }

Act 13 of the 1934 Regular Session imposed a transportation and communication utilities tax on every person owning or operating any public utility in Louisiana. The term "public utility" has been defined to include railroads and railways, sleeping cars, motor bus lines, motor freight lines, express companies, boat or packet lines, and pipelines. The law has remained largely unchanged over the years, with most modifications affecting how the various utilities are defined and how gross receipts are calculated for each utility.

Act 388 of the 1990 Regular Session repealed the transportation and communication utilities tax as it applied to telephone companies. At the same time, the telephone services became subject to sales and use tax.

### Legal Citations
R.S. 47:1001 through 1010

### Tax Base
Gross receipts, as defined, from the utility's intrastate business

### Tax Rate
Two percent of gross receipts as defined

### Types of Tax Exemptions
The only tax exemption provided for is in the form of an exclusion. An exclusion is an item specifically not included in the tax base.

### Significant Changes
There were no changes to the transportation and communication utilities tax laws during the past year.

# Sales Tax Exemptions

# Sales Tax

## { Introduction }

### History of the Louisiana State Sales Tax

Louisiana first imposed a sales tax in 1936, originally enacted as a 2% luxury sales tax. This tax was replaced in 1938 with a 1% general sales tax, which remained in effect through 1940. In 1942, the legislature enacted a 1% war emergency tax for a two-year period.

The first permanent sales tax was enacted in 1944 at a rate of 1% (R.S. 47:302). The rate was subsequently increased over time through changes to the existing levy and the addition of new levies:

- 2% in 1948 (R.S. 47:302),
- 3% in 1970 (added R.S. 47:321),
- 4% in 1984 (added R.S. 47:331), and
- 5% in April 2016 (added R.S. 47:321.1).

During the 2018 Third Extraordinary Session, the tax levied under R.S. 47:321.1 was reduced to 0.45%, lowering the overall state sales tax rate to 4.45%.

In 2025, the overall state sales tax rate increased again to 5% as a result of changes to R.S. 47:321.1, R.S. 47:331, and R.S. 51:1286, with an automatic reduction to 4.75% scheduled to occur on January 1, 2030.

### Recovery District and Tourism Promotion District Taxes

The general sales tax rate remained at 4% from 1984 until June 30, 1988. In 1988, the legislature created the Louisiana Recovery District and authorized it to issue bonds secured by a sales tax. As part of this structure, the 1% general sales tax imposed under R.S. 47:321 was repealed and replaced by a 1% Recovery District tax. Because of bonding requirements, the Recovery District tax was not affected by later changes in tax law. The combined rate of a 3% general sales tax and a 1% Recovery District tax remained in effect from July 1, 1988, through September 30, 1990.

In 1990, the legislature created the Louisiana Tourism Promotion District and authorized it to levy a sales tax. Effective October 1, 1990, the District imposed a 0.03% sales tax, while the general sales tax rate under R.S. 47:331 was reduced from 1% to 0.97%, maintaining the same overall rate. The Tourism Promotion District tax shared the same tax base as the general sales tax.

On September 30, 1996, the Recovery District bonds were retired, and the District ceased to exist. The Recovery District tax was replaced with a 1% general sales tax levy under R.S. 47:321.

Effective January 1, 2025, the Tourism Promotion District no longer levies a separate 0.03% sales tax under R.S. 51:1286. Instead, the levy under R.S. 47:331 was increased from 0.97% to 1%, with an amount equivalent to the former 0.03% dedicated to the Tourism Promotion District.

## Exemptions, Exclusions, and Suspensions

Sales tax exclusions and exemptions have existed since the inception of the tax and have expanded over time. Until 1986, exemptions applied against the full sales tax base. During the 1986 Regular Session, House Concurrent Resolution 55 temporarily suspended exemptions under R.S. 47:331, subjecting traditionally exempt items to a 1% tax from July 1, 1986, through June 30, 1987. This suspension was extended and modified multiple times through June 30, 1997, with suspension rates ranging from 1% to 3%.

From July 1, 1993, through September 30, 1996, exemptions from the 1% Recovery District tax were also suspended, resulting in a combined 4% suspension rate during that period.

Beginning in the late 1980s and 1990s, the legislature increasingly used statutory exclusions under R.S. 47:301 rather than exemptions under R.S. 47:305 to provide tax relief. In 1998, duplicative exemptions were repealed, leaving exclusions as the controlling authority.

From July 1, 1997, through June 30, 2009, exemption suspensions continued at varying rates, including special suspended rates for nonresidential utilities, such as electricity, natural gas, steam, and water.

In 2009, the legislature allowed the suspension of exemptions to expire. As a result, exemptions under R.S. 47:305 again applied to three of the four percent general sales tax but remained subject to the permanent 1% levy under R.S. 47:321. Effective January 1, 2009, the advance sales tax was repealed, and sales for resale became excluded from tax, leaving only the final sale to the consumer subject to tax.

# Sales Tax

## { Introduction }

### Recent Changes and Modernization

Beginning April 1, 2016, Acts 25 and 26 of the 2016 First Extraordinary Session temporarily suspended most sales tax exemptions and exclusions. This partial suspension remained in effect until June 30, 2018.

Effective July 1, 2018, Act 1 of the 2018 Third Extraordinary Session established identical, exclusive lists of exclusions and exemptions for all state sales tax impositions, except R.S. 47:302. Because R.S. 47:302 did not exclude business utilities, purchases of nonresidential utilities became subject to a 2% state sales tax. These exclusive lists were scheduled to sunset on June 30, 2025.

During the 2024 Third Extraordinary Session, the legislature enacted a comprehensive reorganization of the sales tax laws, increased the state sales tax rate to 5%, and eliminated many exclusions and exemptions and moved many of the remaining exclusions out of R.S. 47:301 into various exemption sections. Effective January 1, 2025, the levy under R.S. 47:321.1 increased from 0.45% to 1%, and the levy under R.S. 47:331 increased from 0.97% to 1%. Food for home consumption, prescription drugs, and residential utilities remain fully exempt from state sales tax, while business utilities continue to be taxed at 2%. The exclusive exemption lists were repealed.

The 2024 Third Extraordinary Session also expanded the sales tax base to include digital products, prewritten computer software access services, and information services.

{ Introduction }

### Types of Tax Exemptions

Louisiana sales tax exemptions take several forms, including exclusions, exemptions, alternate reporting methods, statutorily prescribed methods, credits, rebates, and refunds.

- Exclusions are items specifically removed from the tax base by definition.
- Exemptions are items that are included in the tax base but have been specifically exempted by statute.
- Alternate reporting methods allow taxpayers to report and remit taxes differently from the standard procedure.
- Statutorily prescribed methods of taxation apply to items for which the law provides a specific method for calculating tax.
- Credits allow taxpayers to deduct a specified amount from the tax due, paying only the net tax.
- Rebates are monetary incentives issued to taxpayers to encourage or reward specific behavior and do not require a claim on a tax return.
- Refunds occur when taxes have been initially paid but the taxpayer is later reimbursed.

This report includes all tax exemptions arising from Louisiana tax statutes. Some statutory exemptions are also protected from taxation by the state constitution, federal law, or existing reciprocal agreements. Because these additional protections prevent a repeal of the exemption from producing the intended fiscal effect, such exemptions are separately grouped at the end of this section.

## Significant Changes

## 2025 Regular Session

**Act 82**
Act 82 classifies accommodations intermediaries as marketplace facilitators and allows them to file and remit sales and use taxes to the Remote Sellers Commission for taxable periods beginning on or after July 1, 2025. Beginning January 1, 2026, these intermediaries must also remit hotel and motel occupancy taxes to the Commission.

**Act 215**
Act 215 prohibits the legislature from creating new sales and use tax exemptions, exclusions, credits, or rebates unless they apply uniformly to taxes levied by all taxing authorities. Act 215 is applicable to exemptions, exclusions, credits, or rebates enacted on or after January 1, 2026.

**Act 339**
Act 339 clarifies that sales of prescription drugs to individuals enrolled in Louisiana Medicaid or Louisiana Children's Health Insurance Program ("CHIP") are exempt from state and local sales and use taxes. Act 339 is effective June 11, 2025.

**Act 384**
Act 384 reinstates several exemptions, including repairs to property returned out-of-state, vehicle leases and rentals under warranty agreements, nonprofit fundraising events, sales to sickle cell organizations, Habitat for Humanity affiliates, and qualifying radiation therapy centers. These provisions are retroactive to January 1, 2025, for state tax purposes and will apply beginning July 1, 2025, for local tax purposes.

The Act exempts purchases by the Edward Via College of Osteopathic Medicine, and expands ship and vessel exemptions to include digital products and services for ship operation and maintenance; and extends state and local exemptions to general contractors and subcontractors for qualifying public construction projects, subject to certification requirements. Additionally, it caps the combined state and local sales and use tax on Louisiana-registered boats at $20,000, provided the boat is registered within 90 days of purchase or importation. These provisions apply to taxable periods beginning on or after July 1, 2025.

Lastly, Act 384 lists cable, satellite, and video services as a separate enumerated category of services rather than as a type of information service; and clarifies prior revisions from the 2024 Third Extraordinary Session relating to admissions, dealer definitions, feminine hygiene and diaper products, educational materials, and sewerage and wastewater construction exemptions. The Act further establishes sourcing rules for multiple-listing service purchases by real estate professionals. These provisions apply to taxable periods beginning on or after January 1, 2025.

**Act 433**
Act 433 classifies rental car facilitators as marketplace facilitators, updates the Remote Sellers Commission provisions to include digital products, modernizes statutory references, removes obsolete language, reinstates vendor compensation for local taxes, and clarifies that the marketplace facilitator economic nexus threshold is $100,000 in Louisiana sales. Act 433 is applicable to taxable periods beginning on or after July 1, 2025.

## { Exemptions and Exclusions }

### 1. Purchases by Pari-Mutuel Horse Racetracks

Racetracks licensed by the Racing Commission may purchase goods, digital products, services, and rentals without paying sales or use tax. Instead, they pay specific license fees, commissions, and state-imposed taxes that replace the standard sales tax.

This exclusion was partially or fully suspended from April 1, 2016, through December 31, 2024.

**Legal Citation**
R.S. 4:168

**Origin**
Acts 1968, No. 554

**Effective Date**
Taxable periods beginning on or after July 1968

**Beneficiaries**
Horse racing tracks licensed by the Louisiana State Racing Commission

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 2. Purchases by Off-Track Wagering Facilities

Off-track wagering facilities licensed by the Racing Commission may purchase goods, digital products, services, and rentals without paying sales or use tax. Instead, they pay specific license fees, commissions, and taxes. This approach effectively replaces the standard sales tax with targeted taxes, extending to off-track facilities the same benefit currently available to racetracks.

This exclusion was partially or fully suspended from April 1, 2016, through December 31, 2024.

**Legal Citation**
R.S. 4:227

**Origin**
Acts 1990, No. 1013

**Effective Date**
Taxable periods beginning on or after July 1990

**Beneficiaries**
Off-track wagering facilities licensed by the Louisiana State Racing Commission

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 3. Purchases by Nonprofit Electric Cooperatives

Nonprofit electric cooperatives may purchase tangible property, digital products, services, and rentals exempt from taxation. This exemption helps them provide electricity in rural areas by giving them an advantage not available to investor-owned utilities.

This exemption was partially suspended from April 1, 2016, through June 30, 2018.

**Legal Citation**
R.S. 12:425

**Origin**
Acts 1940, No. 266, amended by Acts 1968, No. 105

**Effective Date**
Taxable periods beginning on or after July 1940

**Beneficiaries**
Rural electric cooperatives

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,208,000 | $1,232,000 |

### 4. Purchases by a Public Trust

Public trusts may purchase materials, supplies, vehicles, and equipment in bulk exempt from taxation, provided the purchases are for the trust's use. This exemption is intended to support public entities.

This exemption was partially suspended from April 1, 2016, through June 30, 2018, and fully suspended from July 1, 2018, through December 31, 2024.

**Effective Date**
Taxable periods beginning on or after July 1989

**Beneficiaries**
Public trusts

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $56,000 | $58,000 |

{ Exemptions and Exclusions }

### 5. Sales by State-Owned Domed Stadiums and Baseball Facilities

Approved large stadiums and professional baseball sites may sell souvenirs, refreshments, parking, and guided tours without charging the sales tax. This exemption does not apply to the sales of goods or digital products at trade shows. The purpose of this exemption is to provide financial support to qualifying stadiums.

#### Legal Citation
R.S. 39:467

#### Origin
Acts 1985, No. 2, amended by Acts 2005, No. 391; Acts 2009, No. 464; Acts 2016, 2nd Ex. Sess., No. 13

#### Effective Date
Taxable periods beginning on or after May 1985

#### Beneficiaries
Certain state-owned domed stadiums and baseball sites and their on-site vendors

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6.27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $48,000 | $49,000 |

### 6. Sales by Certain Publicly-Owned Facilities

Approved publicly-owned facilities may sell souvenirs, refreshments, parking, and guided tours without charging state sales tax, provided local authorities offer a matching local sales tax exemption. This exemption does not apply to goods or digital products sold at trade shows. The purpose of the exemption is to provide financial support to qualifying facilities.

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11. See also R.S. 47:301(3)(a).

#### Beneficiaries
Certain publicly-owned facilities and the vendors operating within them

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,264,000 | $1,289,000 |

### 7. Installation Charges on Tangible Personal Property

This exclusion allows separately stated installation charges associated with the sale of tangible personal property or digital products to be tax-free.

#### Legal Citations
R.S. 47:301(3)(a) and (13)(a)

#### Origin
Acts 1948, No. 9, amended by Acts 2024, 3rd Ex. Sess., No. 5

#### Effective Date
Taxable periods beginning on or after June 1948

#### Beneficiaries
Individuals and businesses purchasing taxable items that include a separately stated installation charge

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $80,880,000 | $82,498,000 |

### 8. Installation of Board Roads to Oilfield Operators

This exclusion allows installers of board roads, when working with oilfield operators, to separately itemize the installation charges associated with the board road and exclude these charges from sales tax. The purpose of this exclusion is to eliminate sales tax on installation charges paid by oilfield contractors.

#### Legal Citations
R.S. 47:301(3)(c)

#### Origin
Acts 1983, No. 446

#### Effective Date
Taxable periods beginning on or after July 1983

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11. See R.S. 47:301(3)(a) for the general exclusion of separately stated installation charges.

#### Beneficiaries
Oilfield contractors

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 9. Manufacturers Rebates on New Motor Vehicles

This exclusion allows the taxable amount of a new vehicle to be reduced by the amount of any manufacturer's rebate allocated directly to the consumer. The purpose of this exclusion is to relieve the new-car buyer from paying tax on the rebate, which reflects a reduction in the sales price.

#### Legal Citation
R.S. 47:301(3)(b) and (13)(b), as of January 1, 2025; previously R.S. 47:301(3)(e) and (13)(b)

#### Origin
Acts 1991, No. 350, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after September 1991

#### Beneficiaries
The general public purchasing new motor vehicles when manufacturers' discounts or rebates reduce the sales price

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $13,424,000 | $13,693,000 |

### 10. Room Rentals at Camp and Retreat Facilities

This provision exempts from sales tax certain room rentals at camp and retreat facilities owned and operated by nonprofit organizations that are tax-exempt under Section 501(a) of the Internal Revenue Code as described in Section 501(c)(3). To qualify, the room rentals must be associated with attendance at a function devoted to the nonprofit organization's purposes. Room rentals to individuals simply purchasing lodging for personal use do not qualify.

#### Legal Citation
R.S. 47:301(6)(b)

#### Origin
Acts 1998, No. 40, amended by Acts 2005, No. 377

#### Repealed
R.S. 47:301(14)(b)(iv)

#### Beneficiaries
Qualifying camp and retreat facilities

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

{ Exemptions and Exclusions }

### 11. Admissions to Places of Amusement at Camp and Retreat Facilities

This provision exempts from sales tax certain charges for admission to facilities at property owned and operated by nonprofit organizations that are tax-exempt under Section 501(a) of the Internal Revenue Code as described in Section 501(c)(3). To qualify, the revenue from the facility rentals must be devoted entirely to the nonprofit organization's purposes.

**Legal Citation**
R.S. 47:301(14)(b)(iv)

**Origin**
Acts 1998, No. 40, amended by Acts 2005, No. 377

**Effective Date**
Taxable periods beginning on or after August 1998

**Repealed**
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

**Related Exclusion**
R.S. 47:301(6)(b)

**Beneficiaries**
Qualifying camp and retreat facilities

**Estimated Fiscal Effect**
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 12. Rentals or Leases of Certain Oilfield Property to be Re-Leased or Re-Rented

This exclusion allows oilfield equipment rental dealers to rent or lease certain oilfield equipment from other dealers for the purpose of re-renting or re-leasing, without paying tax on these intermediate rentals. Sales tax is collected only on the rental to the final consumer. The purpose of this exclusion is to relieve dealers from maintaining a large inventory of rental equipment and to avoid tax pyramiding.

**Legal Citation**
R.S. 47:301(7)(b)

**Origin**
Acts 1966, No. 124

**Effective Date**
Taxable periods beginning on or after July - 1966

**Beneficiaries**
Oilfield equipment rental dealers

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $3,751,000 | $3,826,000 |

{ Exemptions and Exclusions }

### 13. Leases or Rentals by Short-Term Equipment Rental Dealers for Re-Lease or Re-Rental

This provision creates a sales tax exclusion for tangible personal property leased or rented by qualifying short-term equipment rental dealers for the purpose of re-rental or re-lease. The exclusion applies only to dealers whose primary business is classified under NAICS code 532412 or 532310 and is primarily derived from renting property for periods of less than 365 days, for an undefined period, or under an open-ended agreement.

#### Legal Citation
R.S. 47:301(7)(c)(i), as of January 1, 2025; previously, R.S. 47:301(7)(m)

#### Origin
Acts 2021, No. 7

#### Effective Date
Taxable periods beginning on or after October 1, 2021

#### Beneficiaries
Qualifying short-term equipment rental dealers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $321,000 | $327,000 |

### 14. Sales and Rentals to Boys State of Louisiana, Inc. and Girls State of Louisiana, Inc.

This exclusion allows Boys State of Louisiana, Inc., and Girls State of Louisiana, Inc., to purchase, lease, or rent tangible personal property without paying sales tax when the property is used for their educational and public service programs for youth. The purpose of this exclusion is to provide financial support to these organizations.

#### Legal Citation
R.S. 47:301(7)(g), (10)(r), and (18)(f)

#### Origin
Acts 1996, No. 20

#### Effective Date
Taxable periods beginning on or after July 1, 1996

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Boys State of Louisiana, Inc. and Girls State of Louisiana, Inc.

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 15. Digital Products Consumed Where the Digital Product Becomes an Ingredient or Component of the New Product or Service

This exclusion exempts digital products from sales tax when they are used as an ingredient or component in producing a new product or taxable service for sale. The purpose of this exclusion is to encourage business production and innovation by ensuring that digital products used in creating taxable goods or services are not subject to sales tax.

#### Legal Citation
R.S. 47:301(10)(b)

#### Origin
Acts 2024, 3rd Ex. Sess., No. 10

#### Effective Date
Taxable periods beginning on or after January 1, 2025

#### Beneficiaries
Businesses or individuals who use digital products as components or ingredients to create new products or services for sale

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 is $961,000. The Department is unable to estimate the revenue loss for FYE 6-27.

### 16. Purchases by a Private Postsecondary Academic Degree-Granting Institution

This provision excludes from the definitions of 'retail sale' and 'use' the purchase, importation, storage, distribution, or use of textbooks and course-related software by a qualifying private, degree-granting postsecondary institution that is accredited, licensed by the Board of Regents, headquartered in this state, and offers only online instruction. The exclusion applies when textbooks or software are purchased from an out-of-state vendor, are located outside the state at the time of purchase, are first used by students outside the state, and are provided to students at no charge.

#### Legal Citations
R.S. 47:301(10)(cc), R.S. 47:301(18)(n)

#### Origin
Acts 2005, No. 457

#### Effective Date
Taxation periods beginning on or after July 2005

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Students attending a private postsecondary academic institution which offers only online instruction

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

{ Exemptions and Exclusions }

### 17. Purchases of New or Used School Buses

This exclusion allows the sales tax-free purchase of a new or used school bus that is less than five (5) years old, provided the bus is used exclusively by public elementary or secondary schools, public laboratory schools operated by a public college or university, or nonpublic elementary or secondary schools approved by the Louisiana Board of Elementary and Secondary Education. The bus must meet all required safety standards, be painted national school bus yellow, and be purchased from a licensed motor vehicle dealer.

**Legal Citations**
R.S. 47:301(10)(i)

**Origin**
Act 1990, No. 724, amended by Acts 2021, No. 166

**Effective Date**
Taxable periods beginning on or after July 1, 2021

**Repealed**
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

**Beneficiaries**
Purchasers of school buses used exclusively by approved elementary and secondary schools

**Estimated Fiscal Effect**
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 18. Certain Aircraft Assembled in Louisiana

Aircraft manufactured or assembled in Louisiana can be sold tax free, if certain criteria are met. Prior to June 19, 2015, the exemption applied to aircraft with a capacity of more than 50 passengers. For sales on or after June 19, 2015, the exemption applies to aircraft with a maximum capacity of eight passengers. The purpose of the exemption is to encourage aircraft companies to establish manufacturing or assembly facilities in Louisiana.

**Repealed**
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

**Beneficiaries**
Aircraft manufacturing companies located in Louisiana

**Estimated Fiscal Effect**
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

{ Exemptions and Exclusions }

### 19. Admissions Charges to Athletic or Entertainment Events of Colleges and Universities

Colleges and universities are permitted to sell tickets for athletic or entertainment events without charging state sales tax. The purpose of this exemption was to relieve these institutions from collecting and remitting the tax.

This exemption was suspended April 1, 2016, through December 31, 2024, and is now repealed. However, tickets to some events may still be exempt under R.S. 39:467 and 468. See Nos. 5 and 6 in this Section.

#### Legal Citations

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Colleges, universities, and patrons of their events

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 20. Sales of Platinum, Gold, and Silver Bullion and Numismatic Coins at Certain Trade Shows

This exclusion allows sales of platinum, gold, and silver bullion to be exempt from sales tax when valued based on their precious metal content, whether in coin or ingot form. Additionally, numismatic coins priced under $1,000 or sold at national, statewide, or multi-parish coin trade shows are also exempt from sales tax. The purpose of this exclusion is to provide tax-free treatment for monetized bullion and numismatic coins.

#### Legal Citation
R.S. 47:301(16)(b)(ii)

#### Origin
Acts 1991, No. 292, amended by Acts 2013, No. 396; Acts 2017, No. 340

#### Effective Date
Taxable periods beginning on or after July 1, 1991

#### Beneficiaries
Dealers and purchasers of numismatic coins and bullion

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $5,341,000 | $5,448,000 |

{ Exemptions and Exclusions }

### 21. Certain Geophysical Survey Information and Data Analyses

This exclusion allows geophysical information and data provided under a restricted-use agreement to be exempt from sales tax. These transactions are not considered the sale of tangible personal property and therefore are not subject to tax. The purpose of this exclusion is to clarify that geophysical surveys are not taxable.

#### Legal Citation
R.S. 47:301(16)(b)(iii)

#### Origin
Acts 1988, No. 355

#### Effective Date
Taxable periods beginning on or after July 1988

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Oil exploration and geophysical survey companies

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 22. Work Products of Certain Professionals

This provision excludes the work products of licensed or regulated professionals under Title 37 from sales tax. Work products, whether written on paper, stored on magnetic or optical media, or transmitted electronically (such as tax returns and wills) created in the normal course of business are not considered tangible personal property. This exclusion does not apply to work involving the creation, modification, updating, or licensing of computer software. The purpose is to prevent governmental entities from taxing the work products of Title 37 professionals.

#### Legal Citation
R.S. 47:301.1(B)(2)(a)-(d), as of January 1, 2025; previously R.S. 47:301(16)(e)

#### Origin
Acts 1998, No. 46, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 1998

#### Beneficiaries
Professionals licensed or regulated under Title 37

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,043,000 | $1,063,000 |

{ Exemptions and Exclusions }

### 23. Other Constructions Permanently Attached to the Ground

For state and local sales and use tax purposes only, this exclusion modifies the Louisiana Civil Code classification of 'other constructions' as movable property when ownership of the construction and the land is not unified. Effective March 25, 2004, 'other constructions' permanently attached to the land are treated as immovable property, regardless of land ownership. Individuals or entities constructing, selling, leasing, renting, or repairing such permanently attached structures must treat them like other immovable property, with sales or use tax applying only to the cost of materials acquired for construction or repairs.

#### Legal Citation
R.S. 47:301(16)(e), as of January 1, 2025; previously R.S. 47:301(16)(l)

#### Origin
Acts 2004, 1st Ex. Sess., No. 6, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after March 2004

#### Beneficiaries
Owners of 'other constructions' who do not own the land on which the structures are located

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $38,747,000 | $39,522,000 |

### 24. Miscellaneous Telecommunications Services

Telecommunications services sold for resale, excise and franchise fees and taxes collected by the seller from the purchaser of telecommunications services, telecommunications services among affiliated companies as defined by 26 U.S.C. 1504, and non-telecommunication property or services that are separately stated are excluded from the taxable price of telecommunications services. Prior to January 1, 2025, separately stated ancillary charges were also exempt.

#### Legal Citation
R.S. 47:301.1(B)(2)(a)-(d), as of January 1, 2025; previously R.S. 47:301.1(B)(2)(a), (c), (e) and (f)

#### Origin
Acts 1990, No. 388, amended by Acts 1998, No. 58; Acts 2001, No. 1175; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after August 1, 1990

#### Beneficiaries
All persons or companies using telecommunication services

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The Department is unable to estimate the fiscal effect; there is no reporting requirement for the data.

{ Exemptions and Exclusions }

### 25. Isolated or Occasional Sales of Tangible Personal Property

This exclusion allows isolated or occasional sales—excluding motor vehicles—that are not part of the regular business activity of the seller to be made tax-free. Both businesses and individuals may claim this exclusion. Its purpose is to permit tax-free sales between individuals not engaged in retail and by businesses for sales outside their normal operations.

#### Legal Citation
R.S. 47:305(A), as of January 1, 2025; previously R.S. 47:301(1) and (10)(c)(ii)(bb)

#### Origin
Acts 1948, No. 9, amended by Acts 2024, 3rd Ex. Sess., No 11

#### Effective Date
Taxable periods beginning on or after June 1948

#### Beneficiaries
Individuals not engaged in retail sales and businesses that sell items outside of their regular business activities

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $2,765,000 | $2,820,000 |

### 26. Articles Traded in on Tangible Personal Property

Credit given to a purchaser for the trade-in of like-kind property is exempt from taxation. These credits are excluded from the definition of sales price. The purpose of this exclusion is to reduce the taxable sales price for consumers.

#### Legal Citation
R.S. 47:301(13)(a)

#### Origin
Acts 1989, 2nd Ex. Sess., No. 14

#### Effective Date
Taxable periods beginning on or after August 1, 1989

#### Beneficiaries
Any persons or businesses that purchase taxable property utilizing trade-ins

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $674,000 | $687,000 |

### 27. Steam Used in Processing of Raw Agricultural Product

This exemption allows manufacturers to purchase steam tax-free when it is produced from a raw agricultural product and used predominantly and directly in a facility engaged in processing agricultural products. Eligible manufacturers are those classified under NAICS Sector 11 (agriculture, forestry, fishing, and hunting).

#### Legal Citation
R.S. 47:305(D)(1)(b), 302(BB)(107), 321(P)(107), 321.1(P)(107), and 331(V)(107)

#### Origin
Act 2018, 3rd Ex. Sess., No. 1

#### Effective Date
Taxable periods beginning on or after July 1, 2018

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11. However, see R.S. 47:305(C)(3) for the partial exemption for general business utilities.

#### Beneficiaries
Manufacturers assigned a NAICS Sector code of 11

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 28. Sale and Purchase of Electricity for Use in Production Activity of Stripper Wells

This exemption allows the tax-free sale and purchase of electricity, as provided in R.S. 47:305(D)(1)(d), when used in oil production activity from a stripper well that is subject to state severance tax pursuant to R.S. 47:633(3)(c)(i) and (ii).

#### Legal Citation
R.S. 47:305(D)(1)(d), 302(BB)(102), 321(P)(102), 321.1(P)(102) and 331(V)(102)

#### Origin
Act 2018, 3rd Ex. Sess., No. 1

#### Effective Date
Taxable periods beginning on or after July 1, 2018

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11. However, see R.S. 47:305(C)(3) for the partial exemption for business utilities.

#### Beneficiaries
Producers of oil from stripper wells

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 29. Sales of Steam - Nonresidential

This exemption allows the tax-free sale of steam for nonresidential purposes. Effective January 1, 2018, these transactions are exempt only from the sales taxes imposed under R.S. 47:321, 321.1, and 331, but remain subject to the 2% sales tax under R.S. 47:302.

#### Legal Citations
R.S. 47:305(C)(3), as of January 1, 2025; previously R.S. 47:305(D)(1)(b)

#### Origin
Acts 1948, No. 9, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 1948

#### Beneficiaries
Industrial users of steam

#### Estimated Fiscal Effect
Pertinent transactions are subject to a 2% state sales tax rate for FYE 6-26 and FYE 6-27.

See number 31 in this Section.

### 30. Sales of Electric Power or Energy, Natural Gas, and Energy Sources Used as Boiler Fuel, Except Refinery Gas - Nonresidential

Electric power and energy, materials or energy sources used to fuel the generation of electric power for resale or used by an industrial manufacturing plant for self-consumption or cogeneration, and energy sources used for boiler fuel except refinery gas are exempt from tax.

Effective January 1, 2018, these transactions are only exempt from the sales tax levied in R.S. 47:321, 321.1, and 331. They are subject to the 2% sales tax levied by R.S. 47:302.

#### Legal Citation
R.S. 47:305(C)(3), as of January 1, 2025; previously R.S. 47:305(D)(1)(d) and (h)

Acts 1948, No. 9, amended by Acts 1980, No. 159; Acts 1984, No. 183; Acts 1985, No. 258; Acts 1990, Act 476; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 1948

#### Beneficiaries
Commercial users of electric power and energy; and commercial consumers purchasing utilities for power generation, cogeneration, and boiler fuel

#### Estimated Fiscal Effect
Pertinent transactions are subject to a 2% state sales tax rate for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $226,355,000 | $230,882,000 |

{ Exemptions and Exclusions }

### 31. Sales of Water - Nonresidential

This exemption allows the tax-free sale of water sold in bulk (not in containers) to nonresidential users of water utility services.

Effective January 1, 2018, these sales are exempt only from the taxes imposed under R.S. 47:321, 321.1, and 331, but remain subject to the 2% sales tax under R.S. 47:302.

#### Legal Citation
R.S. 47:305(C)(3), as of January 1, 2025; previously R.S. 47:305(D)(1)(c)

#### Origin
Acts 1948, No. 9, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 1948

#### Beneficiaries
Nonresidential users of water utility services

#### Estimated Fiscal Effect
Pertinent transactions are subject to a 2% state sales tax rate for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $8,318,000 | $8,485,000 |

### 32. Tangible Personal Property Sold or Donated to Food Banks

Food banks, as defined in R.S. 9:2799, are permitted to buy tangible personal property, including food, free from taxation. The purpose is to increase the purchasing power of qualifying food banks.

#### Legal Citation
R.S. 47:305(D)(1)(c), as of January 1, 2025; previously R.S. 47:301(10)(j) and (18)(a)(i)

#### Origin
Acts 1990, No. 817, amended by Acts 1992, No. 514; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after September 1990

#### Beneficiaries
Qualifying food banks

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $15,000 | $15,000 |

### 33. Sales of Food Items by Youth Organizations

Youth organizations chartered by Congress, such as the Boy Scouts and Girl Scouts, are permitted to sell food tax free. The purpose is to exempt these sales from taxation.

#### Legal Citation
R.S. 47:305(D)(1)(d), as of January 1, 2025; previously R.S. 47:301(10)(h)

#### Origin
Acts 1989 2nd Ex. Sess., No. 10, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after September 1989

#### Beneficiaries
Qualifying youth groups

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 34. Trucks, Automobiles, and New Aircraft Removed from Inventory for Use as Demonstrators

This exemption allows factory-authorized dealers to use new trucks, automobiles, aircraft, and motorcycles withdrawn from stock or held in inventory as demonstrators, as well as used trucks and automobiles from inventory, without paying sales tax. To qualify, demonstrator units must remain on the dealer's premises during regular business hours. The purpose of this exemption is to allow the use of demonstrators for marketing purposes without subjecting them to use tax prior to the sale at retail.

#### Legal Citation
R.S. 47:305(D)(1)(e) and (G)(2), as of January 1, 2025; previously R.S. 47:305(D)(1)(i)

#### Origin
Acts 1962, No. 182, amended by Acts 1974, No. 186; Acts 1987, No. 847; Acts 2019, No. 102; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after August 1, 1962

#### Beneficiaries
Truck, automobile, and aircraft dealers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 35. Boats, Vessels, and Other Watercraft as Demonstrators

New and used boat dealers are permitted to use boats, vessels, or other watercraft for demonstrations tax-free. To qualify for this exemption, the craft must be registered to the dealer and used no more than six consecutive days or 12 days in a month. The purpose of this exemption is to allow boat dealers to demonstrate their products to potential buyers without subjecting them to use tax.

This exemption was partially or fully suspended for taxable periods beginning July 1, 2016, through July 1, 2019, and is repealed as of January 1, 2025.

#### Legal Citation
R.S. 47:305(D)(1)(i)

#### Origin
Acts 2009, No. 442, amended by Acts 2019, No. 102

#### Effective Date
Taxable periods beginning on or after July 1, 2009

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Boat and other watercraft dealers

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 36. Sales of Food by Certain Institutions

Meals sold to students, faculty, and staff of educational institutions—including kindergartens—are exempt when the meals are eaten on the premises where they are purchased, or when they are bought in advance under a school-sponsored meal plan or another prepayment arrangement.

Meals furnished to the staff and patients of hospitals; the staff and residents of nursing homes, adult residential care providers, and continuing care retirement communities; the staff, inmates, and patients of mental institutions; and boarders of rooming houses are also exempt, but only when the meals are consumed on the premises where they are purchased.

In addition, the exemption covers occasional meals furnished to the public in the facilities of educational, religious, or medical organizations, again limited to meals consumed on the premises. Except for the broader rule applicable to educational institutions, the general condition for this exemption is that the meals must be eaten at the location where they are sold.

#### Legal Citation
R.S. 47:305(D)(2)

#### Origin
Acts 1973 Ex. Sess., No. 13, amended by Acts 2009, No. 473; Acts 2013, No. 271

#### Effective Date
Taxable periods beginning on or after January 1, 1974

#### Beneficiaries
Certain institutions

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $612,000 | $624,000 |

### 37. Room Rentals at Certain Homeless Shelters

This provision excludes certain homeless shelters from the definition of 'hotel,' creating a sales tax exemption for lodging charges at these facilities. To qualify, facilities must be operated by a nonprofit organization exempt under Internal Revenue Code Section 501(c)(3) and provide temporary housing exclusively for homeless transient individuals for no more than 30 days, with lodging charges not exceeding $20 per day.

#### Legal Citation
R.S. 47:305(E)(1), as of January 1, 2025; previously R.S. 47:301(6)(c)

#### Origin
Acts 2009, No. 456, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 2009

#### Beneficiaries
Homeless transient persons

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 38. Membership Fees or Dues of Nonprofit or Civic Organizations

This exemption allows nonprofit civic organizations—such as the YMCA, YWCA, and Catholic Youth Organization (CYO)—to collect membership dues tax-free for access to their facilities. The purpose of this exclusion is to provide financial support to qualifying organizations.

#### Legal Citation
R.S. 47:305(E)(2), as of January 1, 2025; previously R.S. 47:301(14)(b)(i)(bb)

#### Origin
Acts 1948, No. 9, amended by Acts 1976, No. 481; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 1948

#### Beneficiaries
Certain nonprofit organizations

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $110,000 | $113,000 |

### 39. Surface Preparation, Coating, and Painting of Certain Aircraft

Louisiana dealers are allowed to perform surface preparation, coating, and painting on fixed rotary-wing military aircraft or certain certified transport aircraft free from taxation, provided the aircraft's FAA registration is outside of Louisiana. The purpose of this exemption is to help Louisiana dealers remain competitive with neighboring states.

#### Legal Citation
R.S. 47:305(E)(3), as of January 1, 2025; previously R.S. 47:301(14)(g)(iv)

#### Origin
Acts 2017, No. 279, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 2017

#### Beneficiaries
Louisiana dealers who repair airplanes

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $262,000 | $267,000 |

### 40. Repair Services Performed in Louisiana When the Repaired Property is Exported

Louisiana dealers are permitted to repair out-of-state tangible personal property tax-free, provided the property is returned to the other state. The purpose of this exemption is to help Louisiana dealers stay competitive with neighboring states.

This exemption was partially suspended between April 1, 2026, and June 30, 2018. Additionally, it was repealed effective January 1, 2025, and then retroactively reenacted back to January 1, 2025.

#### Legal Citation
R.S. 47:305(E)(4)(a), as of January 1, 2025; previously R.S. 47:301(14)(g)(i)(bb)(I)

#### Origin

#### Effective Date
Taxable periods beginning on or after July 1, 1978

#### Beneficiaries
Louisiana repair shops located near the boundaries of the neighboring states

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $3,639,000 | $3,712,000 |

{ Exemptions and Exclusions }

### 41. Property Purchased for Exclusive Use Outside the State

This exemption allows tangible personal property or digital products purchased within or imported into Louisiana for first use exclusively outside of Louisiana to be exempt from the sales tax. If the property is later brought back to Louisiana for a taxable purpose, Louisiana use tax applies at that time. 'Use for a taxable purpose' does not include transportation beyond the state, repairs, modifications, fabrication, or storage for first offshore use. Charges for repairs in Louisiana for property used offshore are taxable, except as provided in R.S. 47:305(H).

#### Legal Citation
R.S. 47:305.10

#### Origin
Acts 1964, No. 172, amended by Acts 2005, No. 457

#### Effective Date
Taxable periods beginning on or after July 1964

#### Beneficiaries
Businesses that purchase tangible personal property and digital products within Louisiana for first use outside of Louisiana

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $112,477,000 | $114,726,000 |

### 42. Repairs, Renovations, or Conversions of Drilling Rigs

This exclusion allows drilling rigs used exclusively for mineral exploration or development in outer continental shelf waters, outside Louisiana's territorial limits, to be repaired, renovated, or converted tax-free.

#### Legal Citation
R.S. 47:305(H), as of January 1, 2025; previously R.S.47:301(14)(g)(iii) and R.S. 47:305(I)

#### Origin
Acts 2007, No. 173, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 2007

#### Beneficiaries
Oilfield companies using drilling rigs exclusively for the exploration or development of minerals outside the territorial limits of the state in the outer continental shelf waters

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $23,214,000 | $23,678,000 |

{ Exemptions and Exclusions }

### 43. Advertising Services

This exemption recognizes advertising services provided by an advertising agency as exempt from state and local sales and use tax. It applies to advertising services and to tangible personal property when advertising services make up a major part of the property produced. It does not apply to mass-produced advertising items with minimal services. Pure advertising services have never been taxable. Effective January 1, 2025, this exclusion also applies to digital products, unless mass-produced.

The purpose of this exemption is to clarify that advertising services and the related tangible or digital products produced primarily for advertising purposes are not subject to state or local sales and use tax, while ensuring that mass-produced items with minimal services remain taxable.

#### Legal Citation
R.S. 47:305(I), as of January 1, 2025; previously R.S. 47:302(D)

#### Origin
Acts 1987, No. 869, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after January 1, 1982

#### Beneficiaries
Advertising agencies and their customers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $5,793,000 | $5,909,000 |

### 44. Used Manufactured Homes and 54 Percent of Cost of New Manufactured Homes

This exemption allows used manufactured homes and 54% of the cost of new factory-built homes to be purchased exempt from sales tax. Factory-built homes include manufactured homes, modular homes, mobile homes, or residential mobile homes, with or without a permanent foundation, and including plumbing, heating, and electrical systems. The purpose is to treat factory-built homes similar to immovable property residences by imposing sales tax on that portion of a new factory-built home associated with building materials.

#### Legal Citation
R.S. 47:305(J), as of January 1, 2025; previously R.S. 47:301(16)(g)

#### Effective Date
Taxable periods beginning on or after July 1, 2001

#### Beneficiaries
Individuals that purchase new and used manufactured homes

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $23,090,000 | $23,552,000 |

{ Exemptions and Exclusions }

### 45. Purchases or Leases of Motor Vehicles for Re-Lease or Re-Rent by Qualified Lessors

Purchases of motor vehicles, trailers, and semi-trailers to be used exclusively for leases or rentals are exempt from sales tax. The leases must be at reasonable market rates in an arms-length transaction.

#### Legal Citation

#### Effective Date
Taxable periods beginning on or after September 1982

#### Beneficiaries
Louisiana rental dealers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $34,000 | $35,000 |

### 46. Purchases of Tangible Personal Property for Lease or Rental

Rental companies can purchase tangible personal property tax-free when it is intended for use as rental property. The purpose is to provide financial relief to dealers and make them more competitive with dealers in neighboring states that offer similar exemptions.

#### Legal Citation

{ Exemptions and Exclusions }

### 47. Purchases of Automobiles for Lease or Rental

Rental companies are permitted to buy automobiles free from taxation when the vehicles are used solely for rental purposes. The goal is to provide financial relief to dealers and keep them competitive with those in neighboring states with similar exemptions.

#### Legal Citation
R.S. 47:305(K) and 305.36, as of January 1, 2025; previously R.S. 47:301(10)(a)(i) and 305.36

#### Origin
Acts 1990, Nos. 140 and 1030, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 1990

#### Duplicate Provision
R.S. 47:305.36 (limited to motor vehicles, trailers, and semi-trailers)

#### Beneficiaries
Louisiana rental dealers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $98,090,000 | $100,052,000 |

### 48. Vehicle Rentals for Re-Rent to Warranty Customers

This provision allows licensed motor vehicle dealers to lease or rent motor vehicles without paying the tax when the vehicles are provided to customers at no charge under the terms of a warranty agreement associated with the purchase of a motor vehicle. The provision also applies when a warranty has expired, provided the rental vehicle is still furnished at no charge. The purpose of this exemption is to provide financial assistance to motor vehicle dealers.

This exemption was repealed effective January 1, 2025, and then retroactively reenacted back to January 1, 2025.

#### Legal Citation
R.S. 47:305(L), as of January 1, 2025; previously R.S. 47:301(7)(h)

#### Origin
Acts 1998, No. 49, amended by Acts 2025, 3rd Ex. Sess., No. 11; Acts 2025, No. 384

#### Effective Date
Taxable periods beginning on or after August 1, 1998

#### Beneficiaries
Motor vehicle dealers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| $55,000 | $56,000 |

{ Exemptions and Exclusions }

### 49. Sales of 50-Ton Vessels and New Component Parts and Sales of Certain Materials, Software, and Services to Vessels Operating in Interstate Commerce (updated effective July 1, 2025)

This exemption allows the tax-free purchase of materials, equipment, and machinery that become component parts of vessels with a load displacement of 50 tons or more, built in Louisiana. The sale of these vessels is also exempt.

Additionally, vessels operating exclusively in foreign or interstate coastwise commerce may purchase materials, supplies, software, repair services (including component materials and software), and laundry services without paying sales tax. The exemption also extends to qualifying digital products, prewritten computer software access services, and information services used in the maintenance or operation of a vessel, including those required for navigation, commercial operation, or to obtain certifications or approvals from the U.S. Coast Guard or other regulatory or classification authorities. The exemption does not apply to digital products or services used for routine business operations unrelated to vessel operations or for entertainment or recreational purposes.

For purposes of the exemptions in this provision, vessels include ships, vessels, barges, commercial fishing vessels, drilling ships and drilling barges.

#### Legal Citation
R.S. 47:305.1

#### Origin
Acts 1959, No. 51, amended by Acts 2002, Nos. 40 and 41; Acts 2006 1st Ex. Sess., No. 34; Acts 2025, No. 384

#### Effective Date
Taxable periods beginning on or after June 1959; expansion to digital products and services used in the maintenance and operation of the ship or vessel effective July 1, 2025

#### Beneficiaries
Purchasers and owners of qualifying ships, vessels, and barges

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $14,939,000 | $15,238,000 |

### 50. Ostomy, Colostomy, Ileostomy, and Other Appliance Devices

This exemption allows tax-free sales of ostomy, ileostomy, and colostomy devices, as well as catheters and other related appliances required as a result of a surgical procedure that creates an artificial opening in the human body for the elimination of natural waste. The purpose of this exemption is to provide financial assistance to individuals who require these devices.

#### Legal Citation

#### Origin
Acts 1979, No. 145, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after January 1, 1986

#### Beneficiaries
Individuals requiring ostomy, colostomy, ileostomy, or other similar medical devices

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $135,000 | $138,000 |

### 51. Medical Devices Used by Patients Under the Supervision of a Physician

This exemption allows tax-free sales of medical devices used exclusively by the patient for the treatment of various diseases. It also includes medical devices administered exclusively to the patient by a physician, nurse, or other health care professional or health care facility, when provided under the supervision of and prescribed by a licensed physician. The purpose of this exemption is to provide financial relief to individuals requiring medical treatment of various diseases.

#### Legal Citation

#### Origin
Acts 1998, No. 38, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 1998

#### Beneficiaries
Individuals requiring medical treatment of various diseases

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $52,394,000 | $53,442,000 |

### 52. Adaptive Driving Equipment and Motor Vehicle Modification

This provision allows the tax-free purchase of adaptive driving equipment and modifications to motor vehicles when prescribed by a physician, licensed chiropractor, or driver rehabilitation specialist licensed by the state. The purpose of this exemption is to provide financial assistance to individuals requiring special driving equipment.

#### Legal Citation
R.S. 305.2(A)(4), as of January 1, 2025; previously R.S. 47:305(D)(1)(u)

#### Origin
Acts 1998, No. 37, amended by Acts 2024, 3rd Ex. Sess., No. 1

#### Effective Date
Taxable periods beginning on or after June 1998

#### Beneficiaries
Individuals requiring specialized driving equipment

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $12,000 | $12,000 |

### 53. Sales of Insulin Without a Prescription

This exemption permits the sale of nonprescription insulin without the tax imposed by R.S. 47:302(A) and 321 when used by consumers. Nonprescription insulin remains subject to sales tax imposed by R.S. 47:321.1 and 331. Insulin prescribed by a physician is already exempt from tax under Article VII, Section 2.2 of the Louisiana Constitution. The purpose of this exemption is to provide financial assistance to individuals who require insulin.

This exemption was partially or completely suspended from April 1, 2016, through December 31, 2024.

#### Legal Citation
R.S. 47:305.2(A)(5)

#### Origin
Acts 1974, No. 183, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after January 1, 1975

#### Beneficiaries
Individuals who purchase nonprescription insulin

#### Estimated Fiscal Effect
Pertinent transactions are subject to a 2% state sales tax rate for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 54. Purchases, Leases, and Sales of Services by Free Hospitals

This exemption allows hospitals that provide free care to all patients to purchase, lease, or rent tangible personal property, or obtain services, without paying sales tax. The purpose of this exclusion is to provide financial relief to hospitals offering free services.

#### Legal Citation
R.S. 47:305.2(B)(10), as of January 1, 2025; previously R.S. 47:301(7)(e), (10)(p) and (18)(c)

#### Origin
Acts 1994, No. 6, amended by Acts 1996, No. 43, Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 1994

#### Beneficiaries
Hospitals that provide free care to all patients

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $3,384,000 | $3,452,000 |

### 55. Sales of Marijuana for Therapeutic Use

This exclusion allows marijuana recommended for therapeutic use by patients clinically diagnosed with a debilitating medical condition, as defined in R.S. 40:1046, to be purchased without paying sales tax. The purpose of this exclusion is to provide financial assistance to individuals using marijuana to treat such conditions.

#### Legal Citation
R.S. 40:1046 and R.S. 47:305.2(B)(11), as of January 1, 2025; previously R.S. 40:1046 and R.S. 47:301(10)(ii)

#### Origin
Acts 2019, No. 331, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 2019

#### Beneficiaries
Individuals using marijuana to treat debilitating medical conditions

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use tax for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $6,568,000 | $6,699,000 |

### 56. Materials Used Directly in the Collection of Blood

Nonprofit blood banks and blood collection centers are permitted to purchase materials used directly in the collection, separation, treatment, testing, and storage of blood free from taxation. The purpose of this exemption is to provide financial relief to nonprofit blood collection organizations.

#### Legal Citation
R.S. 47:305.2(B)(12), as of January 1, 2025; previously R.S. 47:301(16)(j)

#### Origin
Acts 2002, No. 70, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 2002

#### Beneficiaries
Nonprofit blood banks and blood collection centers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $21,000 | $22,000 |

### 57. Apheresis Kits and Leuko Reduction Filters

The exemption allows nonprofit blood banks and blood collection centers to purchase apheresis kits and leuko reduction filters tax-free. The purpose of this exemption is to provide financial assistance to nonprofit blood banks and blood collection centers.

This exemption was suspended from April 1, 2016, through June 30, 2016, and repealed as of December 31, 2025.

#### Legal Citation
R.S. 47:305.2(B)(12), as of January 1, 2025; previously R.S. 47:301(16)(k)

#### Origin
Acts 2002, No. 71

#### Effective Date
Taxable periods beginning on or after July 1, 2002

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11; However, see R.S. 47:305.2(B)(12), under which apheresis kits and leuko reduction may be exempt as materials used in the collection, separation, or treatment of blood.

#### Beneficiaries
Nonprofit blood banks and blood collection centers

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 58. Orthotic and Prosthetic Devices

This exemption allows tax-free sales of orthotic devices, including prescription eyeglasses, contact lenses, hearing aids, prosthetics, wheelchairs and wheelchair lifts when prescribed by physicians, optometrists or licensed chiropractors for personal consumption or use. The purpose of this exemption is to provide financial assistance to individuals who require these devices.

#### Legal Citation
R.S. 47:305.2(B)(2), as of January 1, 2025; previously R.S. 47:305(D)(1)(k)(i)

#### Effective Date
Taxable periods beginning on or after January 1, 1974

#### Beneficiaries
Persons requiring orthotic and prosthetic devices, eyeglasses, contact lenses and wheelchairs

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $14,953,000 | $15,252,000 |

### 59. Restorative Materials Used by Dentists

This exemption allows tax-free sales of restorative materials used by or prescribed by dentists in the treatment of dental or health related conditions. It includes all orthotic devices, prosthetic devices, prostheses and all dental devices used exclusively by the patient or administered exclusively to the patient by a dentist or dental hygienist in connection with dental or health care treatment. The purpose of this exemption is to provide financial relief to individuals requiring dental treatment for various conditions.

#### Legal Citation
R.S. 47:305.2(B)(3), as of January 1, 2025; previously R.S. 47:305(D)(1)(t)

#### Origin

#### Effective Date
Taxable periods beginning on or after January 1, 1992

#### Beneficiaries
Individuals requiring dental treatment

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $792,000 | $808,000 |

### 60. Kidney Dialysis Machines, Parts, and Supplies for Home Use When Prescribed by a Physician

This exemption allows the tax-free purchase or rental of kidney dialysis machines, parts, and supplies prescribed by a physician for home use. The purpose of this exemption is to provide financial assistance to individuals requiring the use of a kidney dialysis machine.

#### Legal Citation
R.S. 47:305.2(B)(6), as of January 1, 2025; previously R.S. 47:305(G)

#### Origin
Act 1975, No. 200, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after September 1975

#### Beneficiaries
Individuals requiring kidney dialysis machines, parts, and supplies prescribed by a physician

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $499,000 | $509,000 |

{ Exemptions and Exclusions }

### 61. Pharmaceutical Samples Distributed in Louisiana

This exemption allows pharmaceutical samples to be exempt from sales and use tax when distributed free of charge to physicians, dentists, clinics, and hospitals. The purpose of this exemption is to provide financial assistance to drug manufacturers.

#### Legal Citation
R.S. 47:305.2(B)(7), as of January 1, 2025; previously R.S. 47:305.47

#### Origin
Acts 1989, No. 383, amended by Acts 2025, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 1989

#### Beneficiaries
Drug manufacturers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $638,000 | $651,000 |

### 62. Sales of Human-Tissue Transplants

This exemption allows the tax-free sale of human tissue intended for transplant from one individual to another. Human-tissue transplants include all human organs, bones, skin, corneas, blood, and blood products. The purpose of this exemption is to ensure that human tissue used in transplants is exempt from sales tax.

#### Legal Citation

#### Beneficiaries
Transplant recipients

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $3,640,000 | $3,712,000 |

{ Exemptions and Exclusions }

### 63. Sales of Raw Agricultural Commodities

This exemption allows the sale of raw agricultural products intended for the production of crops or livestock for market to be exempt from general sales tax. This includes feed, seed, and fertilizer. Raw agricultural products are treated as resale items under R.S. 47:301(10), with sales tax collected only on the sale of the finished product. The purpose of this exemption is to clarify that raw agricultural commodities are not subject to sales tax.

#### Legal Citation
R.S. 47:305.3, as of January 1, 2025; previously R.S. 47:301(10)(c)(i)(aa)(II) and (ii)(II), 301(10)(e), and 305(A)(4)(b)(i) and (iii)

#### Origin
Acts 1988, No. 307, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1988

#### Beneficiaries
Producers of crops and livestock

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $6,170,000 | $6,293,000 |

### 64. Sales of Agricultural Fencing Materials to Commercial Farmers

This exemption provides a state and local sales and use tax exemption for purchases of agricultural fencing by commercial farmers.

From August 1, 2023, until December 31, 2024, these purchases were partially exempt, subject to a 2% state sales tax rate. Effective January 1, 2025, purchases, by commercial farmers, of agricultural fencing are entirely exempt from state and local sales and use tax.

#### Legal Citation
R.S. 47:305.3, as of January 1, 2025; previously R.S. 47:305.79

#### Origin
Acts 2023, No. 425, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after August 1, 2023

#### Beneficiaries
Commercial Farmers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $120,000 | $123,000 |

### 65. Sales of Seeds for Planting Crops

This exemption allows commercial farmers to purchase seeds without paying sales tax. Commercial farmers include those who grow crops for sale as well as those who grow crops for livestock, poultry, fish, or dairy animals. The purpose of this exemption is to provide financial assistance to commercial farmers.

#### Legal Citation
R.S. 47:305.3(B)(2)(a), as of January 1, 2025; previously R.S. 47:305.3 and 301(10)(e)

#### Origin

#### Beneficiaries
Livestock farmers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $221,000 | $225,000 |

{ Exemptions and Exclusions }

### 67. Sales of Certain Fuels Used for Farm Purposes

This exemption allows the tax-free purchase of diesel fuel, butane, propane, and other liquefied petroleum gases for farm use. The purpose of this exemption is to provide financial assistance to commercial farmers.

#### Legal Citation
R.S. 47:305.3(B)(2)(f), as of January 1, 2025; previously R.S. 47:305.37

#### Origin
Acts 1982, No. 820, amended by Acts 1985, Nos. 511 and 621; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after January 1, 1983

#### Beneficiaries
Commercial farmers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $3,256,0000 | $3,321,000 |

### 68. First $150,000 of the Sales Price of Certain Farm Equipment and Attachments ($50,000 prior to January 1, 2025)

This provision exempts the first $150,000 of the sale price of qualifying farm equipment, including rubber-tired farm tractors, cane harvesters, combines, cane loaders, and poly-roll tubing for commercial farm irrigation. The purpose of this exemption is to provide financial support to agricultural producers and reduce the cost of essential farm equipment. Prior to January 1, 2025, the exemption was limited to the first $50,000 of the sale price.

#### Legal Citation

#### Beneficiaries
Farmers and their families

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $15,762,000 | $16,077,000 |

{ Exemptions and Exclusions }

### 77. Sales of Utilities to Commercial Farmers for On-Farm Storage

This exemption allows a commercial farmer to purchase utilities such as water, electricity and steam, free of state sales tax, when used for on-farm storage. The storage must be separately metered and contain raw agricultural commodities for the production of crops or animals prior to the first point of sale. The purpose of this exemption is to provide financial relief to farmers by reducing the cost of storing raw agricultural products.

#### Legal Citation
R.S. 47:305.3(A), (B)(2) and (5)(g), as of January 1, 2025; previously R.S. 47:305.4

#### Origin
Acts 2021, No. 53, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 2021

#### Beneficiaries
Commercial Farmers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $28,000 | $28,000 |

### 78. Sales of Pesticides for Agricultural Purposes

This exemption allows the tax-free sale of pesticides for agricultural purposes. This exemption covers any preparation-insecticide, herbicide, fungicide- used in the control of insects, plant life, fungus, or any pest detrimental to agricultural crops, including the control of animal pests or diseases. The purpose of this exemption is to provide financial assistance to producers of agricultural products.

#### Legal Citation

#### Origin
Acts 1964, No. 79, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1964

#### Beneficiaries
Producers of agricultural products

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,011,000 | $1,032,000 |

### 79. Certain Purchases by Student Farmers

This exemption allows student farmers to purchase feed and feed additives for the purpose of sustaining livestock, along with seeds or plants to produce food used for human or livestock consumption. Student farmers may also purchase fertilizer to be used to produce food for consumption by humans or livestock without payment of the sales tax. A student farmer is an individual under age 23 who is enrolled in a Future Farmers of America chapter or program established by the National Future Farmers of America organization, or a 4-H Club or program established by 4-H, or any student agriculture program similar to the previously listed organizations and under the direction of an agricultural educator, advisor, or club leader. The purpose of this exemption is to encourage student farming and agricultural education.

#### Legal Citation
R.S. 47:305.3(A), (B)(2) and (5)(i), as of January 1, 2025; previously R.S. 47:305.24

#### Origin
Acts 2019, No.199, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after January 1, 2020

#### Beneficiaries
Student farmers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use tax for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 80. Sales of Fertilizers and Containers to Farmers

The sale of fertilizers and containers for farm products to commercial farmers are exempt from sales and use taxes. These items are treated as sales for resale. The purpose of this exemption is to clarify that fertilizers and containers used in agricultural production are not subject to taxation as raw materials.

#### Legal Citation
R.S. 47:305.3(A), (B)(2)(a) and (5)(j), as of January 1, 2025; previously R.S. 47:305(D)(1)(f)

Acts 1948, No. 9, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 1948

#### Beneficiaries
Commercial farmers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

See number 65 in this Section.

{ Exemptions and Exclusions }

## 81. Natural Gas Used in the Production of Iron

Purchases of natural gas used in the manufacture of iron through the direct reduced iron process are exempt from state and local sales and use taxes, as the gas is considered a material for further processing. The purpose of this exemption is to encourage companies and industries to establish operations in Louisiana.

This exemption was partially or fully suspended from April 1, 2016, through December 31, 2024.

### Legal Citation
R.S. 47:305.4(B), as of January 1, 2025; previously R.S. 47:301(10)(c)(i)(bb)

### Origin
Acts 1995, No. 284, amended by Acts 2024, 3rd Ex. Sess., No. 11

### Effective Date
Taxable periods beginning on or after July 1, 1995

### Beneficiaries
Iron manufacturers using the "direct reduced iron process"

### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The department is unable to estimate the revenue loss for FYE 6-26 and FYE 6-27.

## 82. Purchases of Manufacturing Machinery and Equipment

Eligible manufacturers may purchase manufacturing machinery and equipment free of state sales, use, lease, or rental taxes. A "manufacturer" is defined as a business whose primary activity is manufacturing, classified under NAICS Sector 11 (agriculture, forestry, fishing, and hunting) or Sectors 31–33 (manufacturing). Machinery and equipment used in industrial plants to generate electricity for internal use or cogeneration also qualify. To be eligible, the machinery and equipment must be used mainly and directly in the manufacturing process at a plant facility. Certain recyclable material merchant wholesalers are also included under this exemption.

The purpose of this exemption is to reduce the cost of capital equipment and support the growth and competitiveness of Louisiana's manufacturing sector.

### Legal Citation
R.S. 47:305.5, as of January 1, 2025; previously R.S. 47:301(3)(i), (13)(k) and (28)(a)

### Origin
Acts 2004, 1st Ex. Sess., No. 1, amended by Acts 2005, No. 471; Acts 2007, No. 429; Acts 2024, 3rd Ex. Sess., No. 11

### Effective Date
Taxable periods beginning on or after July 1, 2004

### Beneficiaries
Manufacturers that have a NAICS Sector code of 31-33 or Sector 11 and certain recyclable material merchant wholesalers

### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $92,838,000 | $94,695,000 |

{ Exemptions and Exclusions }

### 83. Purchases of Machinery and Equipment by Certain Utilities

Electric power generation companies certified under NAICS Sector 22111 may purchase machinery and equipment used in the generation of electricity free of state and local sales and use taxes. This exemption does not extend to transmission or distribution of electricity. The purpose of this exemption is to reduce capital costs and support the efficient generation and delivery of electricity in Louisiana.

#### Legal Citation
R.S. 47:305.5(B)(2), as of January 1, 2025; previously R.S. 47:301(16)(o)(i) and (ii)

#### Origin
Acts 2007, No. 427, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 2008

#### Beneficiaries
Certain utilities assigned NAICS Sector 22111

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

See number 82 in this Section.

### 84. Electricity for Chlor-Alkali Manufacturing Process

Chlor-alkali manufacturers are permitted to buy electricity tax-free when it is used in the chlor-alkali process. Manufacturers must report their electricity usage to the utility company. The purpose is to exempt these manufacturers from paying the sales tax on electricity.

#### Legal Citation
R.S. 305.5(B)(3), as of January 1, 2025; previously R.S. 47:301(10)(c)(ii)(aa)

#### Origin
Acts 1987, No. 199, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 1987

#### Beneficiaries
Chlor-alkali manufacturers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from the state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $17,314,000 | $17,660,000 |

### 85. Purchases of Consumables by Paper and Wood Manufacturers and Loggers

This provision exempts tangible personal property and digital products purchased by paper and wood manufacturers that are consumed in the manufacturing process such as fuses, belts, wires, conveyor belts, lubricants, and motor oils, as well as repairs and maintenance of manufacturing machinery and equipment. The exemption is only available to manufacturers with a North American Industry Classification Code (2007) industry group designation of 3211 through 3222 or 11310. Prior to January 1, 2025, this provision only applied to tangible personal property.

#### Legal Citation
R.S. 47:305.5(C), as of January 1, 2025; previously R.S. 47:301(3)(k)

#### Origin
Acts 2009, No. 466

#### Effective Date
Taxable periods beginning on or after August 15, 2009

#### Beneficiaries
Paper and wood manufacturers and loggers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $11,560,000 | $11,792,000 |

### 86. Sales of Admission Tickets by Little Theater Organizations

This exemption allowed Little Theater organizations to sell tickets free of state and local sales taxes. The purpose of this exemption was to provide financial support to qualifying nonprofit theater organizations.

#### Legal Citation
R.S. 47:305.6

#### Origin
Acts 1962, No. 226

#### Effective Date
Taxable periods beginning on or after August 1, 1962

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Little Theater organizations

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 87. Certain Educational Materials and Equipment Used for Classroom Instruction

Approved parochial and private K–12 schools that comply with the Dodd Brumfield court order and hold 501(c)(3) status may purchase, lease, or rent classroom materials and equipment—such as books, computers, software, films, videos, and audio tapes—without paying state or local sales taxes, provided the items are used solely for classroom instruction. Sales of tangible property by the school are also exempt from taxation if the proceeds are used exclusively to support the school. This exemption does not apply to transactions conducted by students, families, or outside sellers using the school's name or facilities. The purpose of this exemption is to provide financial relief for classroom resources and to support school fundraising efforts.

#### Legal Citation
R.S. 47:305.6(1) and (2), as of January 1, 2025; previously R.S. 47:301(7)(f), (10)(q), and (18)(e)

#### Origin
Acts 1996, No. 15, amended by Acts 1998, No. 47; Acts 2000, No 33; Acts 2003, No 141; Acts 2005, No. 357; Acts 2009, No. 206; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 1997

#### Beneficiaries
Qualifying parochial and private elementary and secondary schools

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $967,000 | $986,000 |

### 88. Purchases of Food Items for School Lunch or Breakfast Programs by Nonpublic Elementary or Secondary Schools

Nonpublic elementary and secondary schools, as well as nonprofit organizations serving students, may purchase food for the National School Lunch and School Breakfast Programs free of sales and use taxes. The purpose of this exemption is to reduce the cost of providing nutritious meals to students and support the effective operation of federal school nutrition programs.

#### Legal Citation
R.S. 47:305.6(3), as of January 1, 2025; previously R.S. 47:301(10)(dd)

#### Origin
Acts 2007, No. 430, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after October 1, 2007

#### Beneficiaries
Nonpublic elementary or secondary schools that participate in the National School Lunch and School Breakfast Programs and nonprofit corporations that participate in the national program

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales taxes for FYE 6-26 and FYE 6-27.

See number 36 in this Section.

{ Exemptions and Exclusions }

### 89. Donations to Certain Schools

Retailers are permitted to donate inventory to eligible colleges or universities tax-free. The purpose is to encourage donations to higher education institutions.

#### Legal Citation

#### Effective Date
Taxable periods beginning on or after June 1948

#### Beneficiaries
Elementary and secondary schools

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $295,000 | $301,000 |

{ Exemptions and Exclusions }

### 91. Purchases by Regionally Accredited Independent Educational Institutions or by the Edward Via College of Osteopathic Medicine (updated July 1, 2025)

Qualifying educational institutions may purchase, lease, or rent tangible property and obtain services free of state and local sales and use taxes. This exemption does not apply to sales made by the institutions. Effective January 1, 2025, digital products are also exempt. The purpose of this exemption is to provide financial relief and reduce operational costs for educational institutions.

#### Legal Citation
R.S. 47:305.6(6), as of January 1, 2025; previously R.S. 47:301(8)(b)

#### Origin
Acts 1990, No. 1064, amended by Acts 2024, 3rd Ex. Sess., No. 11; Acts 2025, No. 384

#### Effective Date
Taxable periods beginning on or after July 1, 1990 - *Regionally Accredited Independent Educational Institutions*

Taxable periods beginning on or after July 1, 2025 - *Edward Via College of Osteopathic Medicine*

#### Beneficiaries
Independent educational institutions and the Edward Via College of Osteopathic Medicine

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,166,000 | $1,189,000 |

### 92. Purchases by State and Local Governments

Louisiana state and local government boards, agencies, and commissions may purchase, lease, or rent tangible property and obtain services free of state and local sales and use taxes. This is allowed because such entities are excluded from the definition of "person" under Louisiana law. Effective January 1, 2025, digital products are also exempt. The purpose of this exemption is to relieve government entities from tax obligations and reduce costs in the provision of public services.

#### Legal Citation
R.S. 47:305.7(A)(1)(a), as of January 1, 2025; previously R.S. 47:301(8)(c)

#### Origin
Acts 1991, No. 1029, amended by Acts 2007, No. 162; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after September 1991

#### Beneficiaries
All Louisiana state and local governmental authorities

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $610,202,000 | $622,407,000 |

*Note:* This amount includes the total revenue loss for purchases by state and local government and sales to the U.S. Government.

See number 92 in this Section.

### 93. Purchases Made by General Contractors/ Subcontractors for Work Performed Under Public Projects Construction Contracts

The exemption from sales and use taxes granted to the state, parish, municipality, other political subdivisions and instrumentalities of the state or its political subdivisions is extended to purchases made by general contractors and subcontractors for work performed pursuant to construction contracts for public projects. The purpose of this exemption is to prevent state and local government entities from incurring sales and use taxes on materials used in public construction projects.

#### Legal Citation
R.S. 47:305.7(A)(1)(b)

#### Origin
Acts 2025, No. 384

#### Effective Date
Taxable periods beginning on or after July 1, 2025

#### Beneficiaries
State and local government entities undertaking public construction projects

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $841,000 | $858,000 |

### 94. Purchases, Services, and Rentals by a Private Company Working for Local Authority on Construction or Operation of Sewerage or Wastewater Treatment Facilities

Private companies contracted to construct or operate sewer or wastewater treatment facilities on behalf of a local government are granted the same sales and use tax exclusions and exemptions as the contracting government. Under R.S. 47:305.7(A)(1), local governments are exempt from sales tax on purchases, digital products, services, and equipment rentals, and this exemption extends to qualifying contractors. The purpose of this exemption is to reduce contract costs and help local governments achieve savings on essential public infrastructure projects.

This exemption was partially or fully suspended from April 1, 2016, through December 31, 2024. The exemption was also added in the Title 47 sales tax provisions at R.S. 47:305.7(A)(2) effective January 1, 2025.

#### Legal Citation
R.S. 33:4169(D); R.S. 47:305.7(A)(2) effective January 1, 2025

#### Origin
Acts 1982, No. 795; Acts 2024 3rd Ex. Sess., No. 11; Acts 2025, No. 384

#### Related Exclusion
R.S.47:305.7(A)(1)

#### Effective Date
Taxable periods beginning on or after September 1982

#### Beneficiaries
Private companies and local governments

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $20,000 | $20,000 |

{ Exemptions and Exclusions }

### 95. Sales of Tangible Personal Property by the Louisiana Military Department

Sales of tangible personal property by the Louisiana Military Department on its installations or property, including thrift shops, are exempt from state and local sales taxes. Effective January 1, 2025, the exemption also applies to purchases of digital products. The purpose of this exemption is to support the operations and mission of the Louisiana Military Department by reducing administrative and tax-related costs.

#### Legal Citations
R.S. 47:305.7(B)(1), as of January 1, 2025; previously R.S. 47:301(10)(ff)

#### Origin
Acts 2009, No. 443, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxation periods beginning on or after July 1, 2009

#### Beneficiaries
Taxpayers who purchase tangible personal property or digital products from the Louisiana Military Department

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $12,000 | $12,000 |

### 96. Sales by Thrift Shops on Military Installations

Sales made by thrift shops located on military installations to are exempt from state and local sales taxes. The purpose of this exemption is to reduce costs for military personnel and others who shop at on-base thrift stores, thereby providing financial support to the military community.

#### Legal Citation
R.S. 47:305.7(B)(1), as of January 1, 2025; previously R.S. 47:305.14(A)(4)

#### Origin

#### Effective Date
Taxable periods beginning on or after June 1994

#### Beneficiaries
Customers of thrift shops located on military installations

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

See number 95 in this Section.

### 97. Certain Transactions Involving the Construction or Overhaul of U.S. Navy Vessels

Rentals, leases, and services used in the construction or overhaul of United States Navy vessels are exempt from state and local sales taxes. The exemption applies to contractors performing work on these vessels. The purpose of this exemption is to maintain the competitiveness of Louisiana shipyards with those in other states.

#### Legal Citation
R.S. 47:305.7(B)(2) and (3), as of January 1, 2025; previously R.S. 47:301(7)(c) and (14)(h)

#### Origin
Acts 1989, No. 833, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after September 1989

#### Beneficiaries
Shipyards and providers of repair services to U.S. Navy vessels

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $5,383,000 | $5,491,000 |

### 98. Sales to the United States Government and Its Agencies

Sales made directly to the U.S. government or its agencies are exempt from taxation, as required by the U.S. Constitution. The exemption also applies when a private company acts as an agent and title to the property passes directly to the federal government. The purpose of this exemption is to ensure compliance with constitutional requirements.

#### Legal Citation
R.S. 47:305.7(B)(4), as of January 1, 2025; previously R.S. 47:301(10)(g)

#### Origin
Acts 1989, No. 833

#### Effective Date
Taxable periods beginning on or after September 1989

#### Beneficiaries
United States government and its agencies

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

See number 92 in this Section.

{ Exemptions and Exclusions }

### 99. Purchases of Equipment by Bona Fide Volunteer and Public Fire Departments

Volunteer and public fire departments are permitted to purchase firefighting equipment free of state and local sales taxes. Public fire departments are already exempt from tax on all purchases under the governmental exclusion, and many departments classified as "volunteer" but operating as fire protection districts also qualify for the same exemption. The purpose of this exemption is to reduce equipment costs and support the essential public safety services provided by fire departments.

#### Legal Citation
R.S. 47:305.7(B)(5), as of January 1, 2025; previously R.S. 47:301(10)(o)

#### Origin
Acts 1992, No. 926, amended by Acts 1998, No. 37; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 1992

#### Beneficiaries
Bona fide volunteer and public fire departments

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,966,000 | $2,005,000 |

### 100. Tickets to Musical Performances by Nonprofit Musical Organizations

Louisiana-domiciled symphony organizations can sell tickets for musical performances free of state and local sales taxes. It does not apply to out-of-state symphony organizations or performances intended to generate a profit for the promoter. The purpose of this exemption is to provide financial support to Louisiana nonprofit symphony organizations.

#### Legal Citation
R.S. 47:305.7

#### Origin
Acts 1963, No. 124

#### Effective Date
Taxable periods beginning on or after July 1, 1963

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Louisiana nonprofit symphony organizations

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

{ Exemptions and Exclusions }

### 101. Rentals of Motion Picture Film to Commercial Theaters

Commercial theaters rent motion picture films free from sales tax. However, most theaters now obtain films through joint ventures, which do not qualify for the exemption. The purpose of this exemption is to provide financial support to commercial theaters.

The exemption was suspended from April 1, 2016, through December 31, 2024.

#### Legal Citation
R.S. 47:305.9

#### Origin
Acts 1964, No. 27

#### Effective Date
Taxable periods beginning on or after July 1964

#### Beneficiaries
Commercial theaters

#### Estimated Fiscal Effect
Effective January 1, 2025, pertinent transactions are entirely exempt from the state sales and use tax.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 102. Additional Tax Levy on Contracts Entered Into Prior to and Within 90 Days of Tax Levy

This exemption allows lump-sum, unit price, fixed-fee, and guaranteed maximum price contracts entered into within 90 days before a new tax levy to be exempt from that levy. It also applies to contracts entered into within 90 days after a new tax levy if they involve obligations undertaken prior to the levy's effective date. The purpose of this exemption is to provide financial protection to contractors entering into agreements based on existing tax conditions.

The exemption was partially or fully suspended from April 1, 2016, through December 31, 2024.

#### Legal Citation
R.S. 47:305.11

#### Origin
Acts 1970, No. 7, amended by Acts 2017, No. 209

#### Effective Date
Taxable periods beginning on or after July 1970

#### Beneficiaries
Lump-sum, unit price, fixed fee, and guaranteed maximum price contractors

#### Estimated Fiscal Effect
Pertinent transactions related to contracts approved for the exemption from new and additional sales taxes levied as a result of Act 11 of the 2024 Third Extraordinary Session in the amount of .55% of 5% state sales tax and the 5% state sales tax on transportation charges previously excluded from the definition of sales price for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $893,000 | $911,000 |

### 103. Purchases of Software and Digital Products for a Business, Banking, or Healthcare Use

Certain software, digital products, prewritten computer software, software access services, and information services (collectively digital tools) are exempt from state and local sales and use taxes when used for specific business, financial, or healthcare purposes. This includes commercially licensed digital tools used directly in producing taxable goods or services that are sold, digital tools created for a business's internal use, digital tools used by FDIC-insured financial institutions and their affiliates for processing or managing customer and account information, and digital tools used by licensed healthcare providers for storing, transmitting, or using healthcare information in diagnosis or treatment.

#### Legal Citation
R.S. 47:305.12

#### Origin
Acts 2024, 3rd Ex. Sess., No. 10; Acts 2025, No. 384

#### Effective Date
Taxable periods beginning on or after January 1, 2025

#### Beneficiaries
Commercial entities using digital tools for the production of goods and services, FDIC-insured institutions and licensed healthcare facilities and providers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $6,124,000 | $6,246,000 |

### 104. Admissions to Entertainment by Domestic Nonprofit Charitable, Educational, and Religious Organizations

Admissions to events sponsored by domestic nonprofit charitable, educational, and religious organizations are exempt from state and local sales taxes. All proceeds, except for necessary expenses, must be used for the purposes for which the event was organized. The purpose of this exemption is to provide financial support to qualifying nonprofit organizations.

#### Legal Citation
R.S. 47:305.13

#### Origin
Acts 1971, No. 125

#### Effective Date
Taxable periods beginning on or after June 1971

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Domestic nonprofit groups

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 105. Purchases of Certain Bibles, Songbooks, or Literature by Certain Religious Institutions for Instructional Classes

Churches and synagogues with 501(c)(3) status were previously exempt from being considered a "dealer" when purchasing Bibles, songbooks, or literature for religious instruction classes. However, this exclusion was ruled unconstitutional by the U.S. District Court for the Eastern District in March 2002 and is no longer recognized.

The exemption was suspended from April 1, 2016, through December 31, 2024. Although this exemption was reenacted effective January 1, 2025, it remains unenforceable based on the unconstitutional ruling by the U.S. District Court for the Eastern District in March 2002.

#### Legal Citation
R.S. 47:305.13, as of January 1, 2025; previously R.S. 47:301(8)(d)

#### Origin
Acts 1996, No. 28; amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 1996

#### Beneficiaries
Qualifying churches and synagogues

#### Estimated Fiscal Effect
Pertinent transactions are subject to the full 5% state sales tax rate; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 106. Sales of Tangible Personal Property at or Admissions to Events Sponsored by Certain Nonprofit Groups

Sales of tangible personal property, event admissions, and parking fees at events sponsored by nonprofit domestic, civic, educational, charitable, fraternal, or religious organizations are exempt from state and local sales taxes. All proceeds, except for necessary expenses, must be used for educational, charitable, religious, or historical restoration purposes. The purpose of this exemption is to provide financial support to qualifying nonprofit organizations.

The exemption was repealed effective January 1, 2025, and reenacted effective June 20, 2025, with retroactive application to January 1, 2025.

#### Legal Citation
R.S. 47:305.14(A)(1)

#### Origin
Acts 1973, No. 89, amended by Acts 1991, Nos. 533 and 930, repealed by Acts 2024, 3rd Ex. Sess., No. 11, reenacted by Acts 2025, No. 384

#### Effective Date
Taxable periods beginning on or after July 1973

#### Repealed and Reenacted
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11 and then reenacted effective June 20, 2025, with retroactive application back to January 1, 2025.

#### Beneficiaries
Qualifying nonprofit organizations

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $2,752,000 | $2,807,000 |

{ Exemptions and Exclusions }

### 107. Sales or Purchases by Blind Persons Operating Small Businesses

Sales or purchases of tangible personal property in the operation of a small business by individuals who are blind are exempt from state and local sales taxes. Effective January 1, 2025, the exemption also applies to digital products. The purpose of this exemption is to reduce the administrative and financial burden of collecting and remitting sales taxes for blind business owners.

#### Legal Citations
R.S. 47:305.15(A)

#### Origin
Acts 1973, No. 61

#### Effective Date
Taxable periods beginning on or after July 1973

#### Beneficiaries
Blind persons operating a business

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

See number 108 in this Section.

### 108. Purchases by Certain Organizations that Promote Training for the Blind

Organizations that provide training for the blind—and receive at least 75% of their funding from public sources are allowed to purchase goods and services free of state and local sales taxes. The purpose of this exemption is to reduce operating costs and provide financial support to organizations dedicated to assisting individuals who are blind.

#### Legal Citation
R.S. 47:305.15(B)

#### Origin
Acts 1994, No. 26

#### Effective Date
Taxable periods beginning on or after August 1994

#### Beneficiaries
Qualifying organizations for the blind

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $17,000 | $17,000 |

### 109. Cable Television Installation and Repair Services

Charges for the installation and repair of cable television hardware are exempt from state and local sales taxes. While largely unnecessary—since cable installation is already a nontaxable service and repairs on immovable equipment are not taxable—the exemption clarifies that these services are not subject to sales tax. The purpose of this exemption is to ensure certainty for providers and customers regarding the tax treatment of cable installation and repair services.

This exemption was partially or fully suspended with respect to cable television repairs from April 1, 2016, through December 31, 2024.

#### Legal Citation
R.S. 47:305.16

#### Origin
Acts 1974, No. 593

#### Effective Date
Taxable periods beginning on or after July 31, 1974

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Television cable companies and their subscribers, if these charges were subject to tax

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 110. Purchases by Nonprofit Entities that Sell Donated Goods

Nonprofit organizations are exempt from state and local sales and use taxes on purchases if they sell donated goods and use at least 75% of their revenue to employ or train individuals with disabilities or other workplace disadvantages. Eligible nonprofits must apply annually for a one-year exclusion certificate. The purpose of this exemption is to support employment and workforce development opportunities for individuals facing barriers to employment while promoting the charitable mission of participating organizations.

#### Legal Citation
R.S. 47:305.16, as of January 1, 2025; previously R.S. 47:301(8)(f)

#### Beneficiaries
Qualifying nonprofit entities

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $5,396,000 | $5,504,000 |

{ Exemptions and Exclusions }

### 111. Receipts from Coin-Operated Washing and Drying Machines in Commercial Laundromats

Receipts from coin-operated washing and drying machines are exempt from state and local sales taxes when the machines are located in a commercial laundromat. The purpose of this exemption is to provide financial relief to laundromats that could not pass sales tax rate increases on to their customers. In 1996, the courts ruled that revenue from coin-operated machines does not constitute a taxable cleaning service.

#### Legal Citation
R.S. 47:305.17

#### Origin
Acts 1975, No. 423

#### Effective Date
Taxable periods beginning on or after September 1975

#### Beneficiaries
Commercial coin-operated laundromats

#### Estimated Fiscal Effect
Courts have ruled that these receipts are not taxable. Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $921,000 | $940,000 |

### 112. Outside Gate Admissions and Parking Fees at Fairs, Festivals, and Expositions Sponsored by Nonprofit Organizations

Gate admissions and parking fees at fairs, festivals, and expositions sponsored by Louisiana-chartered nonprofit organizations are exempt from state and local sales taxes. The exemption does not apply to events intended to generate a profit for the promoter or any contracted service or equipment provider. The purpose of this exemption is to reduce operating costs and provide financial support to qualifying nonprofit organizations.

#### Legal Citation
R.S. 47:305.18

#### Origin
Acts 1975, No. 824

#### Effective Date
Taxable periods beginning on or after September 1975

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No.11

#### Beneficiaries
Nonprofit organization

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 113. Lease or Rental of Certain Vessels in Mineral Production

Vessels leased or rented for offshore use beyond Louisiana's territorial waters for the production of oil, gas, sulfur, and other minerals are exempt from state and local sales taxes. The exemption applies to both production companies and their service providers. The purpose of this exemption is to reduce operating costs and support the growth and competitiveness of Louisiana's mineral production industry.

**Legal Citation**
R.S. 47:305.19

**Origin**
Acts 1975, No. 818

**Effective Date**
Taxable periods beginning on or after September 1975

**Beneficiaries**
Production companies and the company providing services to them

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $2,476,000 | $2,525,000 |

### 114. Purchases of Supplies, Fuels, and Repair Services for Boats Used by Commercial Fishermen

Commercial fishermen are allowed to purchase, free of state and local sales and use tax, materials, supplies, repair services, and fuel used in the maintenance or operation of fishing vessels. Eligible fishermen must apply for and obtain a license from the Department of Revenue. The purpose of this exemption is to reduce operating costs, support the commercial fishing industry, and promote the continued viability of Louisiana's seafood economy.

**Legal Citation**
R.S. 47:305.20(A)

**Origin**
Acts 1975, No. 811; Acts 2009, No. 446

**Effective Date**
Taxable periods beginning on or after September 1975

**Beneficiaries**
Licensed commercial fishermen

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $551,000 | $562,000 |

### 115. Sickle Cell Disease Organizations

This exemption provides a state and local sales tax exemption for nonprofit organizations established prior to 1975 that conduct comprehensive sickle cell disease programs. Eligible programs include, but are not limited to, free education, testing, counseling, prescription assistance, transportation, and food packages for sickle cell patients. Qualifying organizations are required to obtain exemption certificates from the Department of Revenue.

This exemption was partially or fully suspended from July 1, 2015, through December 31, 2024.

It was repealed effective January 1, 2025, and subsequently reenacted effective June 20, 2025, with retroactive application to January 1, 2025.

#### Legal Citation
R.S. 47:305.21, as of January 1, 2025; previously R.S. 47:305.33

#### Origin
Acts 2005, No. 278, repealed by Acts 2024, 3rd Ex. Sess., No. 11, reenacted by Acts 2025, No. 384

#### Effective Date
Tax periods beginning on or after July 1, 2005

#### Repealed and Reenacted
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess. No. 11 and then reenacted effective June 20, 2025, with retroactive application back to January 1, 2025.

#### Beneficiaries
Sickle cell disease organizations and their customers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 116. Sales of Construction Materials to Habitat for Humanity Affiliates (effective January 1, 2025)

Construction materials sold to Habitat for Humanity affiliates are not subject to sales or use tax if the materials are used to build new homes in this state.

#### Legal Citation
R.S. 47:305.22

#### Origin
Acts 2025, No. 384

#### Effective Date
Taxable periods beginning on or after January 1, 2025

#### Beneficiaries
Affiliates of Habitat for Humanity

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

{ Exemptions and Exclusions }

### 117. $20,000 State and Local Sales and Use Tax Cap on Boats Registered in Louisiana (state loss only)

For boats registered in Louisiana, the combined state and local sales and use tax is capped at $20,000 on purchases made on or after July 1, 2025. To qualify for the cap, the boat must be registered in Louisiana within ninety (90) days of the purchase in or importation into Louisiana. The purpose of this exemption is to limit the sales and use tax burden on boat purchases registered in Louisiana and promote boat ownership and registration within the state.

**Legal Citation**
R.S. 47:305.23

**Origin**
Acts 2025, No. 384

**Effective Date**
Taxable periods beginning on or after July 1, 2025

**Beneficiaries**
Purchasers of boats

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from any portion of state and local sales tax that exceeds the $20,000 cap for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $24,000 | $24,000 |

### 118. Purchases by Certain Child Advocacy Centers

The Louisiana Alliance of Children's Advocacy Centers and qualifying nonprofit child advocacy centers are exempt from paying sales and use tax on certain purchases. Eligible organizations must operate in compliance with the Louisiana Children's Code, be governed by a child advocacy board of directors, and satisfy all applicable statutory requirements. Qualifying organizations are required to apply annually for a one-year exemption certificate. The purpose of this exemption is to reduce the tax burden on qualifying nonprofit child advocacy organizations so more resources can be directed to serving children.

**Legal Citation**
R.S. 47:305.24

**Origin**
Acts 2025, No. 494

**Effective Date**
Tax periods beginning on or after July 1, 2025

**Beneficiaries**
Child advocacy organizations

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 119. Sale of Certain Antique Motor Vehicles

This exemption allows the purchase of qualifying antique motor vehicles without payment of state or local sales and use taxes. To qualify, an antique motor vehicle must have been manufactured at least 30 years ago, not be used for commercial purposes, and have a value exceeding $10,000. Qualifying vehicles are subject to a $1,000 fee for issuance of an antique license plate, as provided in R.S. 47:463.8(B). The purpose of this exemption is to provide financial assistance to individuals purchasing antique motor vehicles.

This exemption was repealed effective January 1, 2025, and subsequently reenacted effective June 20, 2025, with retroactive application to January 1, 2025.

Prior to January 1, 2025, to qualify for the exemption, the motor vehicle had to be manufactured at least 25 years prior to the purchase.

#### Legal Citation
R.S. 47:305.25, as of January 1, 2025; previously R.S. 47:6040, R.S. 47:463.8(B)

#### Origin
Acts 2019, No. 364, repealed by Acts 2024, 3rd Ex. Sess., No. 11; reenacted by Acts 2025, No. 506

#### Effective Date
Taxable periods beginning on or after July 1, 2019

#### Repealed and Reenacted
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11 and then reenacted effective June 20, 2025, with retroactive application back to January 1, 2025.

#### Beneficiaries
Collectors of antique motor vehicles

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from the state sales and use tax for FYE 6-26 and FYE 6-27.

The Department is unable to estimate the fiscal effect for FYE 6-26 and FYE 6-27, as no data on these transactions could be provided by the Office of Motor Vehicles.

### 120. Qualifying Events Providing Louisiana Heritage, Culture, Crafts, Art, Food, and Music Sponsored by a Domestic Nonprofit Organization

Sales of tangible personal property, event admissions, and parking fees at nonprofit-sponsored events that celebrate Louisiana heritage, culture, crafts, art, food, and music are exempt from taxation. To qualify, events must run for 7 to 12 days and have an average attendance of at least 300,000 over the preceding five (5) years. Effective January 1, 2025, sales of digital products are also exempt. This exemption is intended to provide financial support to eligible nonprofit organizations.

The exemption was partially or fully suspended from April 1, 2016, through June 30, 2018.

#### Legal Citation
R.S. 47:305.33, as of January 1, 2025; previously R.S. 47:301(10)(hh) and (14)(k) and 305.14(A)(1)(b)

#### Origin
Acts 2011, No. 372, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after October 1, 2011

#### Beneficiaries
New Orleans Jazz and Heritage Festival

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 121. Sales or Purchases by Certain Sheltered Workshops or Supported Employment Providers

Certain sheltered workshops for individuals with intellectual disabilities, as well as supported employment providers are allowed to make sales and purchases tax-free. Sheltered workshops must function as day developmental training centers and be licensed by the Department of Children and Family Services. A supported employment provider is a nonprofit organization that provides gainful, competitive, integrated employment, training, and rehabilitation services for individuals with disabilities in compliance with a central nonprofit agency for disabled individuals. The purpose of this exemption is to support organizations that provide training, employment, and rehabilitation services for individuals with disabilities by relieving them of sales tax burdens.

For Fiscal Years 2019–2020 and 2020–2021, any sheltered workshop transitioning to a model providing gainful, competitive, integrated employment, training, and rehabilitation services for individuals with disabilities is considered a supported employment provider.

#### Legal Citation
R.S. 47:305.38; R.S. 39:1604.4

#### Origin
Acts 1982, No. 242, Amended by Acts 2019, No. 312

#### Effective Date
Taxable periods beginning on or after September 1982

#### Beneficiaries
Qualifying sheltered workshops and supported employment providers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $57,000 | $58,000 |

### 122. Piggy-Back Trailers or Containers and Rolling Stock

This exemption allows the tax-free sale or lease of piggyback trailers, containers, and rail rolling stock. Per diem or car-hire charges are also exempt. Railroad companies and other operators of qualifying equipment are eligible for the exemption. Rail car leases are subject to the taxation methods prescribed in R.S. 47:301(4)(j). A similar exemption for rail rolling stock is provided under R.S. 47:305.50. The purpose of this exemption is to provide financial relief to railroads, other rail-car operators, and operators of piggyback trailers.

#### Legal Citation
R.S. 47:305.45

#### Origin
Acts 1986, No. 476

#### Effective Date
Taxable periods beginning on or after July 1, 1986

#### Beneficiaries
Railroad companies and other operators of railroad transportation equipment

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

See number 124 in this Section.

### 123. Certain Trucks and Trailers Used 80 Percent in Interstate Commerce

This exemption allows for the tax-free purchase of trucks with a gross weight of 26,000 pounds or more, and trailers, provided they are used at least 80% of the time in interstate commerce and operate under the jurisdiction of the United States Department of Transportation. For purposes of this exemption, the terms "trucks" and "trailers" include truck, trailer, road tractor, semi-trailer, tandem truck, tractor, and truck-tractor as defined in R.S. 47:451. The purpose of this exemption is to provide financial relief to owners of trucks operating in interstate commerce.

#### Legal Citation
R.S. 47:305.50(A)(1)

#### Origin
Acts 1996, No. 8, amended by Acts 1998, No. 41; Acts 2000, No. 27; Acts 2002, No. 2; Acts 2007, No. 209

#### Effective Date
Taxable periods beginning on or after July 1, 1996

#### Beneficiaries
Purchasers of large trucks and trailers used 80% in interstate commerce

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $31,899,000 | $32,537,000 |

### 124. Rail Rolling Stock Sold or Leased in Louisiana

Rail rolling stock sold or leased in Louisiana is exempt from state and local sales and use tax. A similar exemption is also provided under R.S. 47:305.45. The purpose of this exemption is to reduce the cost of acquiring or leasing rail rolling stock and support the rail industry in Louisiana.

#### Legal Citation
R.S. 47:305.50(C)(1), as of January 1, 2025; previously R.S. 47:305.50(E)(1)

#### Origin
Acts 1996, No. 36, amended by Acts 1998, No. 41; Acts 2005, No. 397; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 1996

#### Sunset Date
June 30, 1998

#### Reestablished
July 1, 2005

#### Beneficiaries
Taxpayers who sell or lease rail rolling stock in Louisiana and their customers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 125. Rail Rolling Stock Repaired or Fabricated in Louisiana

This provision provides a state sales and use tax exemption for parts or services used in the fabrication, modification, or repair of rail rolling stock. Political subdivisions may, by ordinance, extend the exemption to sales and use taxes they impose on such parts or services. The purpose of this exemption is to reduce the cost of fabricating, modifying, or repairing rail rolling stock and support the rail industry.

#### Legal Citation
R.S. 47:305.50(C)(2), as of January 1, 2025; previously R.S. 47:305.50(E)(2)

#### Origin
Acts 1996, No. 36, amended by Acts 1998, No. 41; Acts 2005, No. 397; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 1996

#### Sunset Date
June 30, 1998

#### Reestablished
July 1, 2005

#### Beneficiaries
Taxpayers who sell or lease rail rolling stock in Louisiana and their customers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $2,512,000 | $2,562,000 |

### 126. Sales of Railroad Ties to Railroads for Use in Other States

This provision establishes a sales tax exemption for railroad ties purchased by a railroad before undergoing long-term preservative treatment, provided the ties are installed in the railroad's track system outside the state's jurisdiction. The purpose of this exemption is to reduce the cost of materials for railroads installing track infrastructure outside Louisiana.

#### Legal Citation
R.S. 47:305.50(D), as of January 1, 2025; previously R.S. 47:305.50(F)

#### Origin
Acts 2009, No. 442, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1, 2009

#### Beneficiaries
Railroads

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 127. Utilities Used by Steelworks and Blast Furnaces

Utilities, including electricity, used by steelworks and blast furnaces are exempt from sales tax. To qualify, the facility must employ more than 125 full-time workers and be classified under NAICS code 331111. The purpose of this exemption is to provide an economic incentive for steel mills to locate in Louisiana.

The exemption was partially or fully suspended from July 1, 2015, through December 31, 2024.

#### Legal Citation
R.S. 47:305.51

#### Origin
Acts 1998, No. 28, amended by Acts 2001, 1st Ex. Sess., No. 5; Acts 2002, No. 49; Acts 2004, 1st Ex. Sess., No. 5; Acts 2009, No. 443

#### Effective Date
Taxable periods beginning on or after March 2001

#### Beneficiaries
Any steel mill meeting the minimum requirements

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use tax for FYE 6-26 and FYE 6-27.

See number 30 in this Section.

### 128. Sales of Construction Materials to Habitat for Humanity, Fuller Center for Housing, and Make it Right Foundation

Habitat for Humanity affiliates, Fuller Center for Housing covenant partners and the Make it Right Foundation were allowed to purchase construction supplies without the payment of sales or use tax when the materials are intended for use in constructing new residential dwellings in this state.

This exemption was fully or partially suspended from April 1, 2016, through December 31, 2024. This exemption was repealed effective January 1, 2025, but see number 116 in this Section for reinstatement of the exemption for Habitat for Humanity affiliates.

#### Legal Citation
R.S. 47:305.59(A)

#### Origin
Acts 2007, No. 430, amended by Acts 2009, No. 464; Acts 2011, No. 385; Acts 2021, No. 299; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after October 1, 2007, for purchases by Habitat for Humanity; taxable periods beginning on or after July 1, 2009, for purchases by Fuller Center for Housing; and taxable periods beginning on or after July 1, 2012, for purchases by Make it Right Foundation.

#### Repealed and Reinstated
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Habitat for Humanity affiliates, Fuller Center for Housing and Make it Right Foundation

#### Estimated Fiscal Effect
The provisions for Fuller Center for Housing and Make it Right Foundation have been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

For Habitat for Humanity, see number 116 in this Section.

{ Exemptions and Exclusions }

### 129. Sales of Construction Materials to Animal Shelters for the Construction of New Animal Shelters in Louisiana

Animal shelters in Louisiana are allowed to purchase construction materials exempt from sales tax when the materials are used to construct new shelters. Eligible construction must begin between July 1, 2021, and June 30, 2025.

The purpose of this exemption is to reduce construction costs and support the development of new animal shelters in Louisiana.

**Legal Citation**
R.S. 47: 305.59(B)

**Origin**
Acts 2021, No. 299

**Effective Date**
Taxable periods beginning on or after July 1, 2021

**Repealed**
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

**Beneficiaries**
Animal shelters constructing new animal shelters in Louisiana

**Estimated Fiscal Effect**
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 130. Second Amendment Sales Tax Holiday

There is a three-day sales tax holiday on consumer purchases of firearms, ammunition, and hunting supplies, observed from the first consecutive Friday through Sunday of September. The exemption applies to both state and local sales taxes. The purpose of this exemption is to encourage hunting-related purchases and provide temporary tax relief to consumers on firearms, ammunition, and hunting supplies.

This sales tax holiday was suspended from July 1, 2018, through June 30, 2023.

**Legal Citation**
R.S. 47:305.62

**Origin**
Acts 2009, No. 453, amended by Acts 2023, No. 288

**Effective Date**
Taxable periods beginning on or after July 2009

**Beneficiaries**
Individuals purchasing firearms, ammunition and hunting supplies

**Estimated Fiscal Effect**
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $860,000 | $877,000 |

### 131. Purchase, Lease, or Repair of Certain Capital Equipment, and Computer Software by Qualifying Radiation Therapy Treatment Centers

The purchase, lease, or repair of capital equipment and software used to operate such equipment at qualifying radiation therapy centers are exempt from state and local sales tax. The purpose of this exemption is to reduce the cost of capital equipment and software for qualifying radiation therapy centers, supporting their ability to provide critical medical services.

The exemption was suspended from April 1, 2016, through July 1, 2017. It was repealed effective January 1, 2025, and subsequently reenacted effective June 20, 2025, with retroactive application to January 1, 2025.

#### Legal Citation
R.S. 47:305.64

#### Origin
Acts 2009, No. 450, amended by Acts 2011, No. 296; Acts 2017, No. 424, repealed by Acts 2024, 3rd Ex. Sess., No. 11, reenacted by Acts 2025, No. 384

#### Effective Date
Taxable periods beginning on or after July 1, 2009

#### Beneficiaries
Qualifying radiation therapy centers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 132. Parish Councils on Aging

The 64 nonprofit parish Councils on Aging located throughout the state that are supervised by the Office of Elderly Affairs within the Governor's Office are exempt from state sales and use tax. These organizations provide state-approved services directly to senior citizens. The purpose of this exemption is to support the delivery of essential services to senior citizens by reducing operating costs for parish Councils on Aging.

#### Legal Citation
R.S. 47:305.66

#### Origin
Acts 2011, No. 53

#### Effective Date
Taxable periods beginning on or after October 2011

#### Beneficiaries

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss is $57,000 for FYE 6-26; the estimated revenue loss for FYE 6-27 is negligible.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $31,000 | $32,000 |

{ Exemptions and Exclusions }

### 133. Purchases of Breastfeeding Items

The purchase of breast pumps and related accessories, including replacement parts, storage bags, and nursing bras are exempt from state sales and use tax. The purpose of this exemption is to reduce the cost of breastfeeding supplies and support maternal and infant health.

This exemption was partially or fully suspended from April 1, 2016, through December 31, 2024.

#### Legal Citation
R.S. 47:305.67

#### Origin
Acts 2011, No. 331

#### Effective Date
Taxable periods beginning on or after October 2011

#### Beneficiaries
Purchasers of breastfeeding items

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss for FYE 6-26 and FYE 6-27 is negligible.

### 134. Donation of Toys

Nonprofit organizations recognized under Section 501(c)(3) of the Internal Revenue Code are exempt from state and local sales tax on the purchase of toys when the toys are purchased solely for donation to children. To qualify, the organization must obtain an exemption certificate from the Department of Revenue or the applicable local tax collector. The purpose of this exemption is to support charitable organizations in providing toys to children by reducing the cost of donated goods.

#### Legal Citation
R.S. 47:305.70, as of January 1, 2025; previously R.S. 47:301(10)(aa)(i) and(18)(m)

#### Origin

#### Effective Date
Taxable periods beginning on or after July 2005

#### Beneficiaries
Nonprofit organizations that purchase toys to donate to children

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

The estimated revenue loss is $57,000 for FYE 6-26; the estimated revenue loss for FYE 6-27 is negligible.

{ Exemptions and Exclusions }

### 135. Hurricane Laura, Hurricane Delta, and COVID-19 Pandemic Sales Tax Holiday

There was a one-time state sales tax holiday on the first $2,500 of the sales price of consumer purchases of tangible personal property made on Friday, November 20, 2020, and Saturday, November 21, 2020. The holiday was enacted to provide tax relief to citizens recovering from Hurricane Laura, Hurricane Delta, and the COVID-19 pandemic.

The exemption did not apply to motor vehicle purchases, meals consumed on or off the premises, rentals or leases of tangible personal property, or the taxable sales of services enumerated in former R.S. 47:301(14). Additionally, the sales tax holiday did not apply to local sales and use taxes or to business or commercial purchases of tangible personal property.

#### Legal Citation
R.S. 47:305.74

#### Origin
Acts 2020, 2nd Ex. Sess., No. 16

#### Effective Date
October 28, 2020

#### Repealed
Repealed effective January 1, 2025, by Acts 2025, 3rd Ex. Sess., No. 11

#### Beneficiaries
Consumer purchasers of tangible personal property on November 20, 2020, and November 21, 2020

#### Estimated Fiscal Effect
The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 136. Purchases of Feminine Hygiene Products, Diapers, or Both for Individual Personal Use

Purchases of feminine hygiene products, as well as adult and child diapers, when purchased for individual use are exempt from state and local sales tax. The purpose of this exemption is to reduce the cost of essential personal hygiene products for individuals and families.

#### Legal Citation
R.S. 47:305.75

#### Origin
Acts 2021, No. 449, amended by Acts 2024, 3rd Ex. Sess., No. 11; Acts 2025, No. 384

#### Effective Date
Taxable periods beginning on or after July 1, 2022

#### Beneficiaries
Purchasers of feminine products and diapers

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,235,000 | $1,260,000 |

{ Alternate-Reporting Methods }

### 137. Helicopters Leased for Use in the Extraction, Production, or Exploration for Oil, Gas, or Other Minerals

There is an alternate-reporting method that allows the lease or rental of certain helicopters used in the extraction, production, or exploration of oil, gas, or other minerals to be treated as a sale of tangible personal property, with an extended period for remitting any taxes due.

Helicopters acquired through a lease, rental, lease-purchase, or similar arrangement by a qualifying company, or used by a company providing services to a qualifying company, are eligible for this method. Qualifying companies do not pay sales tax on lease or rental payments upfront; instead, they remit the tax on the sales price in equal installments over the term of the lease, rental, or lease-purchase contract.

The purpose of this method is to provide qualifying companies with an extended period to remit sales tax on helicopters used in oil, gas, and mineral operations.

#### Legal Citation
R.S. 47:302.1

#### Origin
Acts 1984, No. 353

#### Effective Date
Taxable periods beginning on or after July 1984

#### Beneficiaries
Companies involved in the extraction, production, or exploration for oil, gas, or other minerals

#### Estimated Fiscal Effect
This is an alternate reporting method, not an exemption, and will likely result in timing differences on taxes remitted.

The estimated fiscal effect of this provision is $0.

### 138. Cash-Basis Sales Tax Reporting and Remitting for Health and Fitness Club Membership Contracts

Health clubs must report and remit sales taxes on a cash basis, reflecting receipts net of any imputed interest or collection fees. The purpose of this alternate-reporting method is to relieve clubs from paying taxes on unpaid membership contracts.

#### Legal Citation
R.S. 47:303(F)

#### Origin
Acts 1985, No. 661, amended by Acts 1987, No. 379

#### Effective Date
Taxable periods beginning on or after September 1985

#### Beneficiaries
Health and fitness clubs

#### Estimated Fiscal Effect
This is an alternate reporting method, not an exemption, and will likely result in timing differences on taxes remitted.

The estimated fiscal effect of this provision is $0.

{ Alternate Reporting Methods }

### 139. Cash-Basis Reporting Procedure for Rental and Lease Transactions

Lessors of tangible personal property may report and remit sales tax only after payment is collected, rather than in the period when the rental or lease occurred. The purpose of this alternate-reporting method is to relieve lessors from paying sales taxes on unpaid rental fees and to prevent the loss of taxes remitted on transactions that become bad debts.

#### Legal Citation
R.S. 47:306(A)(2)

#### Origin
Acts 1985, No. 867

#### Effective Date
Taxable periods beginning on or after July 1985

#### Beneficiaries
Lessors of property

#### Estimated Fiscal Effect
This is an alternate reporting method, not an exemption, and will likely result in timing differences on taxes remitted.

The estimated fiscal effect of this provision is $0.

### 140. Collection from Interstate and Foreign Transportation Dealers

Transportation companies engaged in interstate or foreign transport of passengers or property are allowed to remit taxes based on the proportion of Louisiana miles to total miles traveled. Under R.S. 47:306.2(B)(2), "Louisiana mileage" does not include mileage within the state that is part of a route between a point in Louisiana and a point offshore beyond the territorial limits of any state. R.S. 47:306.2(B)(1) further allows the use of a transportation unit of measurement other than mileage if appropriate based on industry custom and the type of transportation.

Transportation dealers registered under R.S. 47:306.1 as of June 22, 2005, who provide transport between points in Louisiana and offshore points outside any state's territorial limits during the prior reporting period, are deemed to have elected to report under these statutes. They must begin reporting in accordance with these provisions instead of R.S. 47:306.1, unless they notify the secretary otherwise.

The purpose of this provision is to allow transportation companies to calculate and remit Louisiana sales and use taxes based on the proportion of in-state travel, simplifying compliance for interstate and offshore operations.

#### Legal Citation
R.S. 47:306.1, R.S. 47:306.2

#### Origin
Acts 1956, No. 438, amended by Acts 2005, No. 126

#### Effective Date
Taxable periods beginning on or after August 1956

#### Beneficiaries
Interstate and foreign transportation dealers

#### Estimated Fiscal Effect
This is an alternate reporting method, not an exemption, and will likely result in timing differences on taxes remitted.

The estimated fiscal effect of this provision is $0.

{ Statutorily Prescribed Methods of Taxation }

### 141. Extended Time to Register Mobile Homes

This provision allows purchasers of factory-built homes (mobile homes), as defined in R.S. 9:1149.2(4), an extended period to apply for a certificate of title from five days after delivery to the 20th day of the month following delivery, providing approximately 20 to 50 days to apply. If a factory-built home was immobilized prior to registration, it was not subject to sales tax. The purpose of this provision was to give purchasers additional time to immobilize their homes. However, effective January 1, 2010, legislation eliminated the ability to avoid sales tax through immobilization.

#### Legal Citation
R.S. 32:707(A)

#### Origin
Acts 1997, No. 272, amended by Acts 2009, No. 500

#### Effective Date
Taxable periods beginning on or after July 1997

#### Beneficiaries
Purchasers of factory-built homes that immobilize them at the time of purchase

#### Estimated Fiscal Effect
This statute was amended to eliminate the ability of factory-built home purchasers to avoid paying tax through an act of immobilization. This is a statutorily prescribed method of taxation, not an exemption, and will likely result in timing differences on taxes remitted.

The estimated fiscal effect of this provision is $0.

### 142. "Sales or Cost Price" of Refinery Gas

These exclusions establish the valuation of refinery gas, excluding feedstock, whether sold or produced, for each calendar year. Sales of such gas are subject to tax under R.S. 47:301(13)(c), and its use by the producer is subject to tax under R.S. 47:301(3)(c). The price of refinery gas is calculated as the greater of 52¢ per MCF multiplied by a fraction, the numerator of which is the posted price for a barrel of West Texas Intermediate Crude Oil on December 1 of the preceding year, and the denominator of which is $29. This valuation applies to both state and local taxes. The valuations for calendar years 2023, 2024, and 2025 are $1.453, $1.322, and $1.225 per MCF, respectively.

#### Legal Citation
R.S. 47:301(3)(c) and (13)(c), as of January 1, 2025; previously R.S. 47:301(3)(f) and (13)(d)

#### Origin
Acts 1996, No. 29, amended by Acts 2004, No. 49; Acts 2005, No. 458; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after July 1996

#### Beneficiaries
Refineries producing refinery gas

#### Estimated Fiscal Effect
This is a valuation formula only.

The estimated fiscal effect of this provision is $0.

## { Statutorily Prescribed Methods of Taxation }

### 143. Leases or Rentals of Railroad Rolling Stock and Leases or Rentals by Railway Companies and Railroad Corporations

This alternate reporting method relieves lessors of railroad rolling stock from the requirement to collect lease or rental tax from their lessees. Under this method, lessees or rentees—except for railway companies or railroad corporations—are still required to self-assess and remit the lease or rental tax directly to the state. The purpose of this method is to reduce the administrative burden on lessors of railroad rolling stock and to provide tax relief to railway companies and railroad corporations.

#### Legal Citation
R.S. 47:301(4)(j), as of January 1, 2025; previously R.S. 47:301(4)(k)

#### Origin
Acts 1990, No. 444, amended by Acts 2024, 3rd, Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after September 1990

#### Beneficiaries
Louisiana lessors of rail rolling stock and railway companies

#### Estimated Fiscal Effect
This is a statutorily prescribed method of taxation, not an exemption, and will likely result in timing differences on taxes remitted.

The estimated fiscal effect of this provision is $0.

## { Credits }

### 144. Vendor's Compensation

This credit compensates dealers for the accounting and remittance of sales taxes. Each dealer may deduct 1.05% from the tax due, provided that reports are submitted and payment is made to the Department of Revenue on a timely basis. Sales tax imposed under R.S. 47:321.1 is not eligible for vendor compensation.

The effective vendor compensation rate is 0.84%, which reflects 4% of the total 5% state sales tax based on the 1.05% rate.

Effective January 1, 2025, the maximum allowable deduction was reduced from $1,500 to $750 per calendar month per taxpayer, for all business locations operating in Louisiana.

The purpose of this credit is to compensate dealers for the administrative effort involved in accounting for and remitting sales taxes.

#### Legal Citation
R.S. 47:306(A)(3)(a)

#### Origin
Acts 1948, No. 9, amended by Acts 1986, No. 916; Acts 1991, No. 709; Acts 1995, No. 1186; Acts 1996, 1st Ex. Sess., No. 32; Acts 1998, 1st Ex. Sess., No. 50; Acts 2001, No. 7; Acts 2013, No. 425; Acts 2016, 1st Ex. Sess., No. 15 Acts 2018, 3rd Ex. Sess., No. 1; Acts 2020, 1st Ex. Sess., No. 27; Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after June 1948

#### Beneficiaries
Dealers who report and remit taxes on a timely basis

#### Estimated Fiscal Effect
The credit applies to 4 out of 5 cents in state sales tax for eligible transactions remitted on time.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $40,408,000 | $41,216,000 |

{ Refunds }

### 145. Sales Tax Remitted on Bad Debts from Credit Sales

This refund provision provides financial relief to vendors who remit sales taxes to the state but are subsequently unable to collect those taxes from their customers. The bad-debt recovery provision does not apply to rentals or leases. The purpose of this refund is to allow taxpayers to recover sales taxes that were remitted to the Department but not collected from their customers.

#### Legal Citation
R.S. 47:315

#### Origin
Acts 1976, No. 153, amended by Acts 1985, No. 516

#### Effective Date
Taxable periods beginning on or after July 1976

#### Beneficiaries
Vendors who remitted the tax on credit sales of tangible personal property and digital products that were uncollectible from their customers.

#### Estimated Fiscal Effect
During fiscal year 2024-2025, $661,708 in sales tax refunds were issued for bad debts on credit sales.

The Department is unable to estimate the future fiscal effect of this refund since it fluctuates from year to year.

### 146. State Sales Tax Paid on Property Destroyed in a Natural Disaster

Prior to January 1, 2025, sales tax paid on destroyed property may be refunded upon submission of a proper claim, based on the taxes originally paid by the owner. This refund provision provided financial assistance to individuals who suffered uninsured losses due to natural disasters.

#### Legal Citation
R.S. 47:315.1

#### Origin
Acts 1970, No. 592, amended by Acts 1972, No. 592; Acts 1973, No. 60; Acts 2001, No. 1032

#### Effective Date
Taxable periods beginning on or after August 1969

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No.11

#### Beneficiaries
Owners of property destroyed by a natural disaster in an area determined by the President of the United States to need federal assistance.

#### Estimated Fiscal Effect
During fiscal year 2024-2025, no sales tax refunds were issued for state sales tax paid on property destroyed in a natural disaster.

The provision has been repealed; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

{ Refunds }

### 147. Sales, Leases, or Rentals of Durable Medical Equipment Paid by or Under Provisions of Medicare

This exemption allows for the tax-free purchase or rental of durable medical equipment when paid by, or under the provisions of, Medicare. While most qualifying purchases were already exempt from state sales tax under R.S. 47:305.2 (medical exemptions), leases of such equipment were not covered by that provision.

Previously, a refund was available for these transactions, but it was repealed effective January 1, 2025. The current exemption was enacted and applies to taxable periods beginning on or after January 1, 2025.

#### Legal Citation
R.S. 47:305.2(B)(8), as of January 1, 2025; previously R.S. 47:315.3

#### Origin
Acts 1994, No. 25

#### Effective Date
Taxable periods beginning on or after August 1994 for the refund; taxable periods beginning on or after January 1, 2025, for the exemption.

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
Purchasers and lessees of qualifying durable medical equipment

#### Estimated Fiscal Effect
The Department is unable to estimate the future fiscal effect of this refund since it fluctuates from year to year.

### 148. Louisiana Tax-Free Shopping Program

This program allows international tourists to receive refunds of state and local sales taxes on certain purchases, with the goal of promoting tourism in Louisiana. Merchants who pay an annual $100 fee are included in a listing of tax-free stores distributed to international tourists. The purpose of this provision is to encourage tourists to shop in Louisiana, thereby benefiting local retailers.

#### Legal Citation
R.S. 51:1301

#### Origin
Acts 1988, No. 535, amended by Acts 2001, 1st Ex. Sess., No. 7; Acts 2004 1st Ex. Sess., No. 14; Acts 2006, No. 76; Acts 2008, No. 232; Acts 2012, No. 435

#### Effective Date
Taxable periods beginning July 1988, through December 31, 2024

#### Repealed
Repealed effective January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries
International tourists who travel and make purchases in Louisiana and the merchants who participate in the program

#### Estimated Fiscal Effect
The Louisiana Tax-Free Shopping Program and the exemption sunset on June 30, 2024; and has been repealed. Purchases made on or after July 1, 2024, do not qualify for refund; therefore, there is no estimated revenue loss for FYE 6-26 or FYE 6-27.

{ Rebate }

### 149. Motor Vehicles Used by Those with Orthopedic Disabilities

This rebate provides financial relief to individuals—or entities acting on their behalf—purchasing vehicles for use by persons with orthopedic disabilities. Vehicle modifications must be made in accordance with a prescription or written recommendation from a physician, licensed chiropractor, or driver rehabilitation specialist. An individual is considered orthopedically disabled if they have permanent limitations in the movement of body extremities or loss of physical function, necessitating a specially modified vehicle for transportation. After the required modifications are completed, the purchaser may apply for a rebate of the state sales tax paid. The purpose of this rebate is to allow taxpayers to recover state sales tax paid on vehicles purchased for the transport of individuals with orthopedic disabilities.

#### Legal Citation
R.S. 47:305.72

#### Origin
Acts 2019, No. 419

#### Effective Date
Taxable periods beginning on or after July 1, 2019

#### Beneficiaries
Purchasers of vehicles for those with orthopedic disabilities

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $10,000 | $11,000 |

### 150. Fiber-Optic Cable Equipment Rebate and Data Center Equipment Rebate/ Exemption

As originally enacted, this provision authorized a rebate of state and local sales and use taxes paid by the winning bidder on fiber-optic cable equipment used for broadband networks in unserved areas in Louisiana. The rebate was available to a winning bidder that was awarded a census block in the Rural Digital Opportunity Fund Auction. The rebates amount to 50% of the sales and use tax paid by the winning bidder on fiber-optic cable equipment. Qualifying "Fiber-Optic Equipment" includes: (1) Telecommunications fiber; (2) Wires; (3) Poles; (4) Supports; (5) Lashing Cable; (6) Conduit; (7) Communication Handholes; and (8) Customer Premise Equipment.

Effective July 1, 2024, the provision was expanded to certain data center facility equipment. A data center facility certified by Louisiana Economic Development is eligible for a rebate of sales and use taxes paid on the purchase of certain data center equipment, as well as sales tax paid for development, acquisition, construction, lease, repair, refurbishment, expansion and renovation of a qualified data center.

Act 11 of the 2024 Third Extraordinary Session converted the data center rebate to an exemption and repealed the rebate for fiber-optic cable equipment.

Effective January 1, 2025, this provision exempts the purchase or lease of specific data center facility equipment from state and local sales and use taxes. The equipment purchases must be made by a data center facility that has been approved by Louisiana Economic Development and is in compliance with R.S. 47:305.73.

#### Legal Citation

### 150. Fiber-Optic Cable Equipment Rebate and Data Center Equipment Rebate/ Exemption *(continued)*

expenditures qualified for a rebate of the entire 4.45% state sales tax. Effective January 1, 2025, qualified purchases of data center facility equipment and expenditures are entirely exempt from the 5% state sales tax rate.

The Department is unable to estimate the future fiscal effect.

## { State Exemptions with Prohibitions on Taxation }

### 151. Credit for Sales and Use Taxes Paid to Other States on Property Imported into Louisiana

This credit allows a person or business to reduce any Louisiana use tax owed by the amount of sales tax lawfully paid to another qualified state. To qualify, the other state must provide a similar credit for Louisiana taxes, and the tax charged must be comparable in nature. Louisiana has entered into agreements with other states to provide such reciprocal credits for its residents. The purpose of this provision is to ensure reciprocity with other states that offer similar tax credits.

#### Legal Citation
R.S. 47:303(A)(3)(a)

#### Origin
Acts 1964, No. 171, amended by Acts 2005, No. 394

#### Effective Date
Taxable periods beginning on or after July 1964

#### Beneficiaries
Persons and companies importing property into this state

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect; there is no reporting requirement for the data.

{ State Exemptions With Prohibitions On Taxation }

### 152. Credit for Use Tax Paid on Automobiles Imported by Certain Members of the Armed Services

This provision allows Louisiana residents who have served in the armed services for two years or more to receive a credit for sales taxes paid on automobiles. The credit applies to both state and local sales taxes paid to any other state. The purpose of this credit is to provide financial assistance to members of the armed services.

#### Legal Citation
R.S. 47:303(A)(3)(a)

#### Origin
Acts 1965, No. 122, amended by Acts 2005, No. 394

#### Effective Date
Taxable periods beginning on or after July 1965

#### Beneficiaries
Louisiana residents who serve in the armed services

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect, as the Office of Motor Vehicles could not provide data on these transactions.

### 153. Use of Vehicles in Louisiana by Active Military Personnel

This exemption permits active-duty military personnel to transfer motor vehicles into Louisiana free from sales tax, provided the following conditions are met:

- the individual is on active duty in Louisiana;
- sales tax was paid in the state where the vehicle was purchased; and
- the purchaser was either a resident of, or stationed on military duty in, the state where the vehicle was purchased.

The vehicle becomes subject to Louisiana sales tax upon the individual's separation from active military service. A credit is allowed for sales taxes paid to other states pursuant to R.S. 47:303(A).

This statute is consistent with provisions of the federal Soldiers' and Sailors' Civil Relief Act of 1940 (50 U.S.C. § 574). Because of the federal protections provided under this Act, the credit for taxes paid to other states is not expected to result in additional revenue losses. The purpose of this provision is to provide reciprocity for similar tax credits allowed by other states.

#### Legal Citation
R.S. 47:305.48

#### Origin

#### Estimated Fiscal Effect
The Department is unable to estimate the fiscal effect, as the Office of Motor Vehicles could not provide data on these transactions.

## { State Exemptions With Prohibitions On Taxation }

### 154. Purchases Made with Food Stamps and WIC Vouchers

This exemption allows tax-free purchases of eligible food items when purchased using benefits from the USDA Supplemental Nutrition Assistance Program (SNAP) or the Women, Infants, and Children (WIC) program. The federal government provides SNAP and WIC benefits to eligible participants for the purchase of qualifying food items.

As a condition of receiving federal funding for SNAP and WIC, states are prohibited from taxing these purchases. Repeal of this exemption would result in the loss of federal funding. The purpose of this exemption is to ensure compliance with federal requirements.

#### Legal Citation
R.S. 47:305.7(C)(1) and (2), as of January 1, 2025; previously R.S. 47:305.46

#### Origin
Acts 1986, No. 1028, amended by Acts 2024, 3rd Ex. Sess., No. 11

#### Effective Date
Taxable periods beginning on or after October 1, 1987

#### Beneficiaries
Purchasers using SNAP and WIC benefits

#### Estimated Fiscal Effect
Food items eligible to be purchased with SNAP and WIC benefits would also fall under the constitutional exclusion as food for home consumption.

Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $74,745,000 | $76,240,000 |

### 155. Sales of Water to the Consumer for Residential Use

The Louisiana Constitution prohibits the imposition of sales tax on natural gas, electricity, and water sold directly to the consumer for residential use. The constitutional amendment was approved by voters on November 5, 2002, with the full exclusion taking effect July 1, 2003. The purpose of the exclusion is to provide financial relief to residential consumers of water utility services.

#### Legal Citation

See number 156 in this Section.

{ State Exemptions With Prohibitions On Taxation }

### 158. Drugs Prescribed by Physicians or Dentists

This exemption allows prescription drugs to be purchased free from sales tax when prescribed by a physician or dentist, as well as drugs dispensed to patients by hospitals pursuant to a physician's order. Drugs include all pharmaceuticals and medical devices which are prescribed for use in the treatment of any medical disease. On November 5, 2002, voters approved a constitutional amendment that prohibits the taxation of prescription drugs. The purpose of this prohibition is to provide financial assistance to consumers.

**Legal Citation**

Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $575,245,000 | $586,750,000 |

### 159. Sales of Food for Preparation and Consumption in the Home

The Louisiana Constitution prohibits the taxation of food sold for preparation and consumption in the home. The constitutional amendment was approved by voters on November 5, 2002, with the full exclusion taking effect on July 1, 2003. Sales of prepared foods by grocery stores, department stores, variety stores, drug stores, delicatessens, convenience stores, meat markets, seafood markets, and similar businesses do not qualify for the exclusion and remain subject to state sales tax. The purpose of this prohibition is to provide financial relief to the general public on food purchases.

**Legal Citation**

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $428,000 | $437,000 |

{ State Exemptions With Prohibitions On Taxation }

### 162. Sales of Gasoline, Gasohol, and Diesel

The Louisiana Constitution prohibits the imposition of sales tax on fuel that is subject to the road-use excise tax. As a result, most fuel sales are excluded from sales taxation, since the majority of gasoline, gasohol, and diesel fuel is subject to the road-use tax.

Gasoline that is not subject to the road-use excise tax is exempt from sales tax pursuant to R.S. 47:305(D)(1)(a). Gasohol that is not subject to the road-use excise tax was exempt from sales tax under R.S. 47:305.28 prior to January 1, 2025, provided it was produced, fermented, and distilled in Louisiana.

The fiscal impact of this constitutional exclusion is reflected in this section. The intent of the prohibition is to provide a tax benefit to consumers.

#### Legal Citation
La. Const. art. VII, §27

#### Origin
Constitutional Amendment

#### Effective Date
Taxable periods beginning on or after January 1, 1990

#### Beneficiaries
Consumers of road use gasoline and gasohol

#### Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-26 and FYE 6-27.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $575,662,000 | $552,286,000 |

# Tax Incentives and Exemption Contracts

# Tax Incentives and Exemption Contracts

## { Introduction }

Louisiana Economic Development (LED) administers various tax exemptions and incentive programs for the benefit of qualifying businesses. The State Board of Commerce and Industry is responsible for reviewing and approving or disapproving applications for many of the tax incentive programs administered by LED.

Depending on the legislative intent, businesses must meet specific criteria to be eligible for the various tax exemptions and incentives and once approved, must continue to comply with the program guidelines to maintain eligibility. The purpose of these tax exemption and incentive contracts is to encourage specific economic development.

### Types of Tax Exemptions

Tax exemptions can be in the form of sales and use tax rebates and exemptions, rebates and credits for income taxes, corporation franchise tax, and other taxes imposed by the state.

### Significant Changes
### 2025 Regular Session

**Act 44**

Act 44 sunsets the current motion picture production tax credit program for applications received after June 30, 2025, and authorizes a tax credit of up to 40% for projects approved on or after July 1, 2025. The new program will be established through rules promulgated by Louisiana Economic Development which must be approved by both the House Committee on Ways and Means and the Senate Committee on Revenue and Fiscal Affairs before becoming effective. Effective July 1, 2025.

## 1. Motion Picture Investor Tax Credit

The purpose of the tax credit is to encourage development in Louisiana of a strong capital base for motion picture production in order to achieve an independent, self- supporting industry. For applications received before July 1, 2025, the credit is governed by the regulations contained in Subchapter A of Part I of Title 61. For applications received on or after July 1, 2025, the credit is governed by the regulations contained in Subchapter B of Part I of Title 61.

- For applications received prior to July 1, 2025
  - State certified productions meeting certain criteria are eligible for a tax credit of up to 40% for qualified expenditures.
  - Qualified Entertainment Companies (QEC) meeting certain criteria are eligible for, a payroll tax credit of up to 20%.
- For applications received on or after July 1, 2025:
  - State certified productions with a base investment equal to $150,000 are eligible for a tax credit of up to 40%.
  - Qualified Entertainment Companies, at the invitation of the secretary, are eligible for a tax credit on terms and conditions, as negotiated and approved by the secretary.

### Limitation of the Credit

- LED program issuance cap – for applications received on or after July 1, 2017, and before July 1, 2025 LED shall issue no more than $150 million per fiscal year. For applications received on or after January 1, 2025, LED shall issue no more than $125 million per fiscal year.
- LDR taxpayer claim cap – beginning July 1, 2017, through June 30, 2025, tax credit claims and transfers to the state could not exceed $180 million per fiscal year and any unused cap amounts rolled over to the next year. Beginning July 1, 2025, tax credit claims and transfers to the state shall not exceed $125 million per fiscal year. Any unused cap amount is lost.
- For applications received on or after July 1, 2017, credits cannot be transferred or sold to another taxpayer.
- Effective August 1, 2023, taxpayers are prohibited from earning, transferring, or using a credit if he owes a delinquent federal, state, or local tax obligation. The taxpayer must certify that there is no delinquent federal, state, or local tax obligation.
- For applications received on or after July 1, 2025, the credit is governed by the provisions of LAC 61:I.61, Subchapter B.

## 1. Motion Picture Investor Tax Credit *(continued)*

### Application of Credits

- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members.

### Transferability of the Credit

For application submitted prior to July 1, 2017, any tax credits allocated to a person may be transferred back to the state for 85¢ per $1 or any tax credits allocated to a person and not previously claimed by any taxpayer against his income tax may be transferred or sold to another person for a $200 transfer fee per transferee subject to the following conditions:

- A single transfer or sale may involve one or more transferees.
- Transferors and transferees must submit notification of any transfer or sale of tax credits to LED and LDR within 30 days after the transfer or sale of the tax credits.
- Failure to comply with the transfer requirements will result in the disallowance of the tax credit until the taxpayers are in full compliance.
- The credit transfer or sale does not extend the time in which the credit can be used.
- The transferee must apply the credits in the same manner and against the same taxes as the taxpayer originally awarded the credit.

For applications submitted on or after July 1, 2017, tax credits may be transferred back to the state for ninety cents per dollar, subject to a 2% transfer fee.

### Effective Date
Taxable periods beginning on or after January 1, 1993

### Sunset Date
No new applications allowed on or after July 1, 2031

### Beneficiaries
Investors in state-certified motion picture productions

### Fiscal Effect
An analysis of the type of credits and buybacks for FYE 6-25 is as follows:

| Fiscal Effect | | |
|---|---|---|
| | **FYE 6-25** | **% of Total** |
| Individual Income Tax | $209,780 | 0.21% |
| Corp. Income Tax | $101,819,468 | 99.79% |
| Fiduciary Income Tax | $0 | 0% |
| Total | $102,029,248 | 100.00% |

Revenue loss in the amount of $102,029,248 for buybacks was issued under the cap on the credit for FYE 6-25.

### Estimated Fiscal Effect
The estimated fiscal effect of this credit is limited by the cap placed on the credit by Acts 2024, 3rd Ex. Sess., No.11.

The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $125,000,000 | $125,000,000 |

## 2. Research and Development Tax Credit

The purpose of the research and development (R&D) tax credit is to support and encourage businesses to begin or continue conducting R&D activities in Louisiana. Through the Louisiana Research and Development Program, companies may receive a tax credit of up to 30% on qualified R&D expenses made within the state. To be eligible, a business must meet specific requirements and have conducted qualified R&D activities in Louisiana.

There are three categories of eligible applicants, each with different credit rates and filing requirements: companies with more than 50 employees that have increased their R&D spending in Louisiana; businesses that have received a Small Business Innovation Research (SBIR) or Small Business Technology Transfer (STTR) grant; and companies with fewer than 50 employees.

Some businesses, however, are not eligible for the credit unless they are specifically invited by Louisiana Economic Development (LED). This includes companies that do not have a pending or issued U.S. patent directly related to the R&D for which the credit is being claimed. Specifically, this restriction applies to professional services firms and businesses mainly involved in custom manufacturing or custom fabricating, as defined by state regulations.

### Sale of Unused Tax Credits
For research and development expenditures made between 2003 and 2008, taxpayers whose tax credits exceed their state tax liability for a given year may choose to sell their unused credits to other taxpayers with a Louisiana tax liability, as long as all of the following conditions are met:

1. The unused credits are sold for a minimum of 75% of the value of the tax benefits.
2. The taxpayer seeking to sell the unused credits belongs to one of the traditional or seed clusters as defined by LED.
3. The taxpayer seeking to sell the unused credit employs no more than 225 employees, of which 75% must be Louisiana citizens.
4. The sale of the tax credit must be approved by LED.
5. The purchaser of unused credits must apply the credits in the same manner and against the same taxes as the taxpayer originally awarded the credit.

### Application of Credits
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.

## 2. Research and Development Tax Credit *(continued)*

- Entities not taxed as corporations will claim the credit on the returns of the partners or members.

### Transferability of the Credit

For tax years 2018 and beyond, tax credits certified through participation in the Small Business Technology Transfer Program or the Small Business Innovation Research Grant program that have not yet been claimed by any taxpayer may be transferred or sold to another Louisiana taxpayer. A $200 transfer fee applies for each person receiving the credit. This transfer or sale is allowed only if all of the following conditions are met:

- A single transfer or sale may involve one or more transferees.
- Transferors and transferees must submit notification of any transfer or sale of tax credits to LED and LDR within 30 days after the transfer or sale of the tax credits.
- Failure to comply with the transfer requirements will result in the disallowance of the tax credit until the taxpayers are in full compliance.
- The credit transfer or sale does not extend the time in which the credit can be used.
- The transferee must apply the credits in the same manner and against the same taxes as the taxpayer originally awarded the credit.

### Limitation of the Credit

Beginning July 1, 2025, tax credit claims and transfers to the state shall not exceed $12 million per fiscal year.

### Effective Date

Taxable periods beginning on or after January 1, 2003 – *Income*

Taxable periods beginning on or after January 1, 2004 – *Franchise*

## 2. Research and Development Tax Credit *(continued)*

### Sunset Date

No credit shall be allowed for research expenditures, Small Business Technology Transfer Program funds received, or Small Business Innovation Research Grant funds received after December 31, 2029.

### Beneficiaries

Qualifying taxpayers increasing research activities in Louisiana or taxpayers participating in the Small Business Technology Transfer Program or the Small Business Innovation Research Grant Program

### Fiscal Effect

An analysis of the income and corporation franchise tax credits for FYE 6-25 is as follows:

| Fiscal Effect | | |
|---|---|---|
| | **FYE 6-25** | **% of Total** |
| Corporate Income Tax | $5,276,388 | 31.08% |
| Individual Income Tax | $8,926,257 | 52.58% |
| Fiduciary Income Tax | $419,955 | 2.47% |
| Corp. Franchise Tax | $2,355,341 | 13.87% |
| Total | $16,977,941 | 100.00% |

### Estimated Fiscal Effect

The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $12,000,000 | $12,000,000 |

### 3. Digital Interactive Media and Software Tax Credit

The purpose of this tax credit is to support the growth of a strong capital base for producing digital interactive media, helping to create a more independent and self-sustaining industry in Louisiana. The state offers a Digital Media and Software Tax Credit that provides up to a 25% refundable credit on in-state labor costs, along with up to an 18% refundable credit on eligible production expenses.

- No cap and no minimum requirement.
- The tax credit is available for a refund of 100% of its value claimed on a Louisiana state tax return OR certified applicants can receive 85% of the value earned as a rebate any time during the year.

#### Application of Tax Credits

- All entities taxed as corporations for state tax purposes must claim credit on their corporation income and franchise tax return.
- Individuals must claim credit on their individual income tax return.
- Entities not taxed as corporations must claim credit on the partner's tax returns.

The tax credit can be applied to the taxpayer's income tax owed for the year the credit is earned, as well as for the previous year. If the credit is larger than the taxes owed, the unused portion can be carried forward and used to reduce tax liability for up to ten years. However, the credit applied in any given year cannot be more than the amount of taxes due for that year.

#### Transferability of the Credit

For tax credits earned from expenditures made on or before December 31, 2011, any credits that have been allocated to a person but not yet claimed by any taxpayer may be transferred or sold to another person. This transfer or sale is allowed only if certain conditions are met:

- A single transfer or sale may involve one or more transferees.
- Transferors and transferees must submit notification of any transfer or sale of tax credits to LED and LDR within 30 days after the transfer or sale of the tax credits.
- Failure to comply with the transfer requirements will result in the disallowance of the tax credit until the taxpayers are in full compliance.
- The credit transfer or sale does not extend the time in which the credit can be used.
- The transferee must apply the credits in the same manner and against the same taxes as the taxpayer originally awarded the credit.

| Fiscal Effect | | |
|---|---|---|
| | **FYE 6-25** | **% of Total** |
| Corporate Income Tax | $18,396,157 | 42.11 % |
| Corporate Income Rebates | $24,203,201 | 55.40 % |
| Fiduciary Income Tax | $0 | 0 % |
| Individual Income Tax | $1,089,951 | 2.49 % |
| Corp. Franchise Tax | $0 | 0 % |
| Total | $43,689,309 | 100.00 % |

#### Estimated Fiscal Effect

The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $62,000,000 | $60,760,000 |

## 4. Louisiana Capital Companies Tax Credit Program

The purpose of the Louisiana Capital Companies Tax Credit Program is to support the creation and growth of new businesses that generate jobs in the state. It does this by helping make venture capital financing available to entrepreneurs, managers, inventors, and others involved in developing and running qualified businesses in Louisiana.

### Program Administration

- LED is responsible for maintaining and interpreting program policy.
- The Office of Financial Institutions (OFI) is responsible for performing the program's regulatory and examination functions.

### Certification of a Capital Company

Companies that want to be certified as a Louisiana Capital Company must submit an application to the Commissioner of the Office of Financial Institutions (OFI). To qualify, the company must have at least $200,000 in capitalization. Within 60 days of receiving the application, the OFI Commissioner will either issue the certification—while notifying the Department of Revenue and the Commissioner of Insurance—or deny the certification and provide the applicant with the reasons for the denial. Additionally, the OFI Commissioner is required to provide a quarterly list to the Department of Revenue and the Commissioner of Insurance identifying the individuals or businesses eligible to claim the tax credit.

### Income Tax Credit or Premium Tax Reduction

Any person who invests in the certified capital of a certified Louisiana capital company may claim either a reduction in their insurance premium tax or an income tax credit during the taxable year in which the investment is made.

The income tax credit equals 35% of the amount invested. However, the total income tax credits given to all taxpayers are capped at $2 million per calendar year. If requests for credits go over this limit, the credits will be divided among the certified Louisiana capital company groups.

Insurance premium tax reductions are allowed as follows:

1. For tax reduction credits granted to investors prior to January 1, 2001, the tax reduction will be applied to the premium tax liability not to exceed 10% of the premium tax reduction in any one year until 100% of the premium tax reduction has been claimed by the insurer.

## 4. Louisiana Capital Companies Tax Credit Program *(continued)*

2. For tax reduction credits granted to investors after January 1, 2001, the tax reduction will not be applied to any premium tax liability generated within two years from the date of investment and will be applied to the premium tax liability not to exceed 12% of the premium tax reduction in any one year until one hundred percent of the premium tax reduction has been claimed by the insurer.
3. The tax reduction credits may not exceed the premium tax liability in any taxable year.
4. If a holder of premium tax reduction credits does not use credits that are generated after December 31, 1999, and which are eligible to be used in a given calendar year, those premium tax reduction credits may be carried forward and used in any subsequent year until such credits are exhausted; provided, the reduction in any taxable year shall not exceed the premium tax liability for the taxable year.
5. Tax reduction credits are not allowed for investments made after December 31, 2003.
6. The total insurance premium tax credits granted in any calendar year may not result in an additional reduction of total premium tax revenues greater than $5 million.
7. If the total requests for premium tax credits exceed the $5 million maximum amount, the premium tax credits will be allocated to the certified Louisiana capital company groups.

### Transfer of Tax Credits

- LED will provide for the transfer or sale of premium and income tax credits.
- The transfer or sale of income or premium tax credits will be restricted to transfers or sales between affiliates and sophisticated investors.
- No acquirer of tax credits will be able to use any premium tax credit earned after July 1, 2002, until at least the second anniversary of the investment date of the investment pool from which the premium tax credits were earned.

### 4. Louisiana Capital Companies Tax Credit Program *(continued)*

- Even though a transfer or sale of credits may involve several entities, only one election may be made during any calendar quarter.
- An investor in a certified Louisiana capital company may only transfer or sell credits once during a calendar quarter and the entity that purchases the credit may not transfer credits obtained during the quarter in which the credits are transferred or purchased.
- In any subsequent calendar year, the purchaser of the credits may make one transfer election per calendar quarter.

#### Corporation Income and Franchise Tax Exemption

- Any corporation that is a certified Louisiana capital company will be exempt from the corporation income tax and the corporation franchise tax for five (5) consecutive taxable periods.
- The corporation income tax exemption begins with the taxable period in which the capital company is certified If the corporation is certified before the beginning of its first taxable period, the exemption will begin with the corporation's first taxable period.
- The corporation franchise tax exemption begins with the next taxable period following the taxable period in which capital company is certified. If the corporation is certified before the beginning of its first taxable period, the exemptions will begin with the corporation's second taxable period.

#### Effective Date

Taxable periods beginning on or after January 1, 1986

#### Program Termination

No capital companies may be certified to begin the program after June 30, 2003, and no capital investments may be certified after December 31, 2003.

### 4. Louisiana Capital Companies Tax Credit Program *(continued)*

#### Repealed

Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11.

#### Beneficiaries

Individuals who need venture capital to develop and operate a qualified Louisiana business

#### Estimated Fiscal Effect

The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0; no activity is anticipated.

### 5. New Markets Tax Credit

An income tax credit was allowed for investments in qualified low-income community development entities (CDEs). Before claiming the tax credit, investors were required to apply to the Department of Revenue and the credits were allocated on a first-come, first-served basis. All requests received on the same business day were treated as received at the same time, and if the aggregate amount of the tax credit requests received on a single business day exceeded the total amount of available tax credits, tax credits were approved on a pro rata basis.

Investors were eligible for the tax credit if the CDE made qualified low-income community investments and no more than 25% of their investments in low-income communities were in the form of loans.

Qualified low-income community investments cannot consist of investments secured by any state or federal governmental entity.

Unused credits could be carried forward for ten years.

#### Limitations on Tax Credit

The $50 million cap on the credit for initial investments made July 1, 2007, through March 31, 2007, has been reached.

The $50 million lifetime program cap for investments on or after April 1, 2008, has been reached.

#### Sunset Date

No tax credits are allowed for qualified equity investments made after August 31, 2013

#### Repealed

Repealed for taxable periods beginning on or after January 1, 2025, by Acts 2024, 3rd Ex. Sess., No. 11

#### Beneficiaries

Private sector capital investors investing in certain low-income

#### Fiscal Effect

During Fiscal Year 2024-2025, no credits were claimed.

#### Estimated Fiscal Effect

There is no estimated revenue loss for FYE 6-26 or FYE 6-27.

### 6. Industrial Tax Equalization Program

The purpose of this program is to encourage businesses to establish or keep manufacturing facilities, headquarters, or warehousing and distribution centers in Louisiana. It does this by offering a process that can reduce the total amount of state and local taxes these businesses pay—after all other site-specific tax incentives have been applied—to levels that match those in other competing states.

#### Requirements for Exemption

The Board of Commerce and Industry may enter into a tax equalization contract only if each of the following requirements are met by the manufacturing establishment, headquarters, or warehousing and distribution establishments:

- The establishment must either be located in another state or be located in Louisiana and contemplating relocating to another state that offers equivalent or comparable advantages to the area in Louisiana where the establishment currently is or plans to be.
- The state where the establishment is located or considering relocating must have a total state, parish, and local tax system that provides a greater tax benefit than Louisiana's tax structure.
- The applicant for tax equalization may be any type of business entity.
- The sites being considered in both Louisiana and the competing state must be valid and suitable for the proposed operations.
- The secretary of LED must recommend to the governor that an invitation to apply for tax equalization be extended.
- The applicant must receive an official invitation to apply from the governor.

#### Tax Exemptions

Tax exemptions will be granted to entities in the following priority:

- New or retained manufacturing establishment
  1. Corporation franchise tax.
  2. Corporation income tax.
  3. Sales and use tax on machinery and equipment to be used in manufacturing.
  4. Sales and use taxes on materials and supplies necessary for the manufacture or production of the product of the new manufacturing establishment.
  5. Any other taxes imposed by the state to which like businesses are subject.
- New or retained headquarters
  1. Corporation franchise tax.

### 6. Industrial Tax Equalization Program *(continued)*

2. Corporation income tax.
3. Sales and use tax on purchases and leases of, and repairs to, machinery and equipment that is used in the on-site operation of the new headquarters facility.
4. Sales and use tax on purchases of tangible personal property used in the construction of the new headquarters facility.
5. Any other taxes imposed by the state to which like businesses are subject.

- New or retained warehousing and distribution establishment

1. Corporation franchise tax.
2. Corporation income tax.
3. Sales and use tax on purchases and leases of, and repairs to, machinery and equipment that is used in the on-site operation of the warehousing and distribution establishment.
4. Sales and use tax on purchases of materials and supplies necessary for the on-site operation of the warehousing and distribution establishment.
5. Sales and use tax on purchases of tangible personal property used in the construction of the warehousing and distribution establishment.
6. Any other taxes imposed by the state to which like businesses are subject.

#### Commuter Airline Sales Tax Exclusion
R.S.47:3204(L) provides a state sales tax exclusion for purchases or leases of airplane equipment, airplane parts, and airplanes by any commuter airline domiciled in the state as defined in R.S. 47:305.21.

#### Legal Citation

#### Effective Date
Purchases or leases occuring on or after September 3, 1989

#### Sunset Date
No new contracts or renewals after June 30, 2025

### 6. Industrial Tax Equalization Program *(continued)*

#### Beneficiaries
Companies that locate new manufacturing establishments, new headquarters, and new warehouse and distribution establishments in the state, as well as Louisiana citizens who benefit from new employment, production and income opportunities

#### Fiscal Effect
An analysis of the types of exemptions for FYE 6-25 is as follows:

| Fiscal Effect | | |
|---|---|---|
| | **FYE 6-25** | **% of Total** |
| Sales Tax Exemptions | $0 | 0.00% |
| Corp. Income Tax Exemptions | $1,563,908 | 52.25% |
| Individual Income Tax Exemptions | $0 | 0.00% |
| Corp. Franchise Tax Exemptions | $1,413,579 | 47.48% |
| Fiduciary Income Tax Exemptions | $0 | 0.00% |
| Total | $2,977,487 | 100.00% |

#### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $2,367,000 | $1,184,000 |

## 7. Exemptions for Manufacturing Establishments

The purpose of the exemption for manufacturing establishments program is to promote industrial growth in Louisiana by encouraging the creation of new businesses and supporting the retention and expansion of existing businesses that align with the state's Vision 2020 goals. Applications for this exemption must be submitted to Louisiana Economic Development (LED). At the same time, notices detailing the application and the amount and type of exemption requested must be sent to each member of the state legislature, as well as to the assessor and governing authority of the political subdivisions where the manufacturing establishment is or will be located.

LED reviews the application to determine if it meets the requirements for an exemption contract and decides whether to recommend such exemptions in a contract to the Board of Commerce and Industry. The Board reviews the governor's and LED's recommendations, holds public hearings on exemption applications, and then forwards its recommendations, along with the proposed tax exemption contract and supporting documents, to LED, the governor, the Legislative Budget Committee, the assessor, each legislator, and the local governing authority before the governor takes action.

Once these materials are received, both the governor and the Legislative Budget Committee have 30 days to approve or reject the contract. If approved, the contract is returned to the Board, LED, and the Department of Revenue for implementation. The Board of Commerce and Industry, with the governor's approval, can enter into exemption contracts lasting up to five years. These contracts may be renewed in five-year increments, but the total exemption period generally cannot exceed 15 years unless otherwise provided by law.

### Requirements for Exemption

The secretary of economic development and the Board of Commerce and Industry may consider any of the following factors when deciding whether to grant manufacturing establishment exemptions:

1. The benefits to the state, including ongoing employment opportunities, investments in and modernization of facilities, spending on goods and services, contributions to state and local government revenues, and the creation of new permanent jobs.
2. Competitive conditions in other states or foreign countries.
3. The economic viability of the applicant and how any tax exemptions might affect that viability.

## 7. Exemptions for Manufacturing Establishments *(continued)*

4. The impact of temporary supply and demand conditions on the applicant.
5. The effect of casualties and natural disasters.
6. The influence of United States and foreign trade policies.
7. The impact of federal laws and regulations on the applicant's economic viability within the state.
8. The competitive effect of similar exemptions granted to other applicants.
9. Contract terms that include guarantees of employment, clawback provisions if those guarantees are not met, and other conditions that support the continued operation and staffing of the business.

### Tax Exemptions that May be Granted

1. Corporation franchise tax.
2. Corporation income tax.
3. State sales and use taxes on machinery and equipment to be used by the applicant, on materials and building supplies, whether purchased directly or through a contractor, to be used in repair, reconstruction, modification, or construction of plant and facilities, and on materials and supplies used in the manufacture or production of the applicant's product.
4. State sales and use taxes on any other goods and services used or consumed by the applicant.
5. Any other state taxes imposed directly on the applicant.

### Legal Citation

R.S. 47:4301-4306

### Regulations

LAC 13:I 1701 et seq.

### Origin

### Effective Date

Contracts entered on or after September 10, 1982

### Sunset Date

No new contracts or renewals after June 30, 2025

## 7. Exemptions for Manufacturing Establishments *(continued)*

### Beneficiaries

Companies that establish or expand manufacturing operations in the state, as well as Louisiana citizens who benefit from new employment, production and income opportunities

### Fiscal Effect

The Department is unable to estimate the fiscal impact at this time. No new contracts will be initiated after June 30, 2025.

## 8. Enterprise Zones

Enterprise zones are designated areas characterized by high unemployment, low-income levels, or a large proportion of residents receiving public assistance. The Enterprise Zone (EZ) program is a job incentive initiative that offers Louisiana income and franchise tax credits to new or existing businesses operating within these zones. To qualify, businesses must create permanent net new full-time jobs and hire at least 50% of these new employees from one of four targeted groups.

The benefits under the program include either a one-time job tax credit of $3,500 or $1,000 for each net new job created. Additionally, businesses may receive a rebate of state sales and use taxes paid at the prevailing rate on qualifying purchases such as materials, machinery, furniture, and equipment or they may opt for a 1.5% refundable investment tax credit on the total capital investment, excluding tax-exempt items. The combined state sales tax rebate or 1.5% investment tax credit is capped at $100,000 per net new job created under the contract.

### Eligibility

This program is open to any Louisiana business (new or existing) not engaged in gaming, residential development, a church, retail business, or restaurant with NAICS codes of 44, 45, or 722, and that will:

- Create a minimum of five (5) permanent net new full-time jobs within 24 months of their project start date or increase their current nationwide employment by 10% within the first 12 months.
- Hire 50% or more of the net new jobs created from one or more of the certification requirements from these targeted groups:
  1. Residency—someone living within an enterprise zone within the state;
  2. People receiving an approved form of public assistance;
  3. People lacking basic skills, defined as performing below a ninth-grade proficiency level in reading, writing, or mathematics; or
  4. People unemployable by traditional standards.
- Businesses with NAICS codes beginning with 44, 45, 721, and 722 can participate in the program if the advance notification is filed on or after July 1, 2020, and before December 31, 2021. Retail businesses eligible to participate in the program because of Acts 2020 1st Ex. Sess., No. 28 are not eligible to earn benefits after June 30, 2023.

## 8. Enterprise Zones *(continued)*

### Jobs Tax Credit

- Either a one-time $3,500 or $1,000 jobs tax credit is available for each certified net new job created.
- Effective July 6, 2007, employees must be U.S. citizens and either domiciled in Louisiana or establish domicile in Louisiana within 60 days of their employment.
- The jobs tax credit can be applied against the taxpayer's state income or franchise tax liabilities. Additionally, Limited Liability Companies and Subchapter S corporations may pass the job tax credit to their owners listed on the enterprise zone contract.
- Tax credits may be carried forward for up to 10 years from the year they are earned.

### Sales Tax Rebate

State sales and use tax rebates are provided for materials, furniture, fixtures, machinery, and equipment purchased and used at the enterprise zone site. Items must be delivered during the project or construction period. The rebate period cannot exceed 30 months. For projects with advance notifications filed on or after April 1, 2016, the total rebate amount is capped at $100,000 per net new job created.

### Investment Tax Credit

- Effective July 10, 2007, taxpayers can choose between receiving a state sales and use tax rebate or a refundable investment income tax credit equal to 1.5% of qualified expenditures.
- Qualified expenditures include amounts classified as capital expenditures for federal income tax purposes, along with certain exclusions outlined in Internal Revenue Code Section 263(a)(1)(A) through (L). These exclude the capitalized cost of land, capitalized land leases, capitalized interest, and capitalized costs of manufacturing machinery and equipment to the extent those costs are exempt from sales and use tax under R.S. 47:301(3), as well as the capitalized cost of purchasing an existing building.
- For projects with advance notifications filed on or after April 1, 2016, the investment income tax credit is capped at $100,000 per net new job created.

### Application of Jobs Tax Credits

- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.

## 8. Enterprise Zones *(continued)*

- Entities not taxed as corporations will claim the credit on the returns of the partners or members.

### Effective Date

Advance notices filed on or after September 11, 1981

### Sunset Date

No advanced notices received after June 30, 2025, will be approved to receive tax credits.

### Beneficiaries

Companies who meet the statutory criteria and that locate new business establishments in designated enterprise zones, as well as Louisiana citizens who benefit from new employment, production and income opportunities

### Fiscal Effect

An analysis of the types of exemptions for FYE 6-25 is as follows:

| Fiscal Effect | | |
|---|---|---|
| | **FYE 6-25** | **% of Total** |
| Sales Tax Rebate | $1,341,818 | 6.37% |
| Corp. Income Tax Jobs Credit | $2,098,909 | 9.96% |
| Investment Credit | $15,492,725 | 73.55% |
| Individual Income Tax Jobs Credit | $1,503,801 | 7.14% |
| Fiduciary Income Tax Jobs Credit | $108,842 | 0.51% |
| Corp. Franchise Tax Jobs Credit | $519,318 | 2.47% |
| Total | $21,065,413 | 100.00% |

### 8. Enterprise Zones *(continued)*

#### Estimated Fiscal Effect

The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $28,000,000 | $27,440,000 |

### 9. Sound Recording Investor Tax Credit

The purpose of this tax credit is to promote the growth of a strong capital and infrastructure base for sound recording production in Louisiana, aiming to foster a more independent and self-sustaining music and sound recording industry. For state-certified productions that meet specific criteria, the program offers a tax credit of up to 18% for qualified expenditures. Qualified Music Companies (QMC) that meet certain requirements may receive a payroll tax credit of up to 15%. Additionally, there is a 10% bonus credit added to the base investment credit if the base investment is made by a QMC on a sound recording production of a resident copyright. Once credits are certified, the Louisiana Economic Development (LED) office sends a tax credit certification letter to the Louisiana Department of Revenue (LDR). Upon receiving this letter and any necessary additional information, LDR processes payment to the investor from current tax collections under the relevant tax code.

#### Limitation on Tax Credit

- The total amount of tax credits that can be certified in any calendar year is capped at $2.16 million, with 50% of that amount specifically reserved for Qualified Music Companies (QMCs).
- The maximum credit a QMC can receive per project is $100,000 per year. For applications submitted before July 1, 2021, the credit cannot reduce an investor's income tax liability by more than 50% of their original tax liability. However, for applications submitted on or after July 1, 2021, the credit is refundable.
- Credits are awarded on a first-come, first-served basis.
- If the total amount of requested credits exceeds the $2.16 million cap in a given year, the excess applications will be carried over and treated as if they were submitted on the first day of the next calendar year.

#### Effective Date

Taxable periods beginning on or after January 1, 2006

### 9. Sound Recording Investor Tax Credit *(continued)*

#### Sunset Date
No new applications received after June 30, 2025, will be approved to receive tax credits.

#### Beneficiaries
Investors in state-certified sound recordings projects

#### Estimated Fiscal Effect
During FYE 6-25, $60,460 in rebates were issued.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $22,000 | $22,000 |

### 10. Angel Investor Tax Credit Program

The purpose of the Angel Investor Tax Credit Program is to encourage third parties to invest in early stage wealth creating businesses in the state, expand the state's economy by enlarging its base of wealth creating businesses, and to enlarge the number of quality jobs available to retain the presence of young people educated in the state

#### Qualifications
The Angel Investor Tax Credit Program is administered by LED. Individuals or entities that invest in a Louisiana Entrepreneurial Business that is domiciled in the state, employs 50 or fewer full-time employees, and has gross annual sales of less than $10 million or has a business net worth of less than $2 million may apply for income or corporation franchise tax credits for a period of five tax years. To participate in the program, each Louisiana Entrepreneurial Business must apply to Louisiana Economic Development (LED). Eligible businesses must demonstrate high growth potential, the ability to generate wealth, that more than 50% of their sales occur outside Louisiana, and that they primarily operate in a qualifying sector—such as energy and process logistics, logistics, aerospace and defense, agribusiness, professional services, life sciences, or technology.

No new tax credits may be reserved after June 30, 2026, though LED may issue remaining unused credits accumulated before January 1, 2026, until those funds are depleted. Beginning January 1, 2026, unused credits cannot be carried forward, and the requirement to divide credits equally over two years will end. Investments in qualifying businesses located in parishes with populations under 50,000, based on the latest federal census, remain eligible for the credit.

Applicants must meet the following qualifications:

- The investment in the Louisiana Entrepreneurial Business must be an investment that is at risk and not secured or guaranteed. "At risk" means that the repayment of the investment is entirely dependent on the success of the business.
- The funds invested by the applicant cannot have been raised as a result of other Louisiana tax incentive programs, funds pooled or organized through capital placement agreements for the purpose of equity and venture capital investing unless approved by LED, or as the result of illegal activity.
- Angel investors cannot be the principal owners of the business who are involved in the operation of the business as a full-time professional activity nor can their spouses and relatives within the third degree of consanguinity or affinity A principal owner means one or more persons who own an aggregate of 50% or more of the Louisiana Entrepreneurial Business.

## 10. Angel Investor Tax Credit Program *(continued)*

- The use of proceeds from the investment must be used for capital improvements, plant equipment, research and development, working capital for the business, or other business activity as may be approved by LED. The proceeds cannot be used to pay dividends, repay shareholder loans, redeem shares, or repay debt unless approved by LED.
- The applicant must meet the definition of accredited investor established by LED.
- The investment in the Louisiana Entrepreneurial Business by the applicant must be maintained for three years unless otherwise approved by LED.

A Louisiana Entrepreneurial Business must meet the following requirements:

- The principal business operations of the business are located in Louisiana.
- Before the investment by the taxpayer, the business has received approval as qualified to receive angel investor tax credits by LED.
- The Louisiana Entrepreneurial Business must demonstrate that it will be a wealth-creating business for Louisiana by demonstrating in its business plan that it will have more than 50% of its sales from outside Louisiana.
- The business is not a business engaged primarily in retail sales, real estate, professional services, gaming or gambling, natural resource extraction or exploration, or financial services including venture capital funds.

Tax credit qualifications:

- Credits are issued on a first-come, first-served system.
- Credit is equal to up to 25% of investment and the credit is divided equally over two or three years.
- Credit is useable in the income tax year that occurs 24 months from certification.
- The investment in the Louisiana Entrepreneurial Business may not exceed $720,000 per year per business and $1.44 million total per business.
- The credit will be allowed against the income tax for the taxable period in which the credit is earned and the franchise tax for the taxable period following the period in which the credit is earned.
- The total angel investor tax credits granted by LED in any calendar year may not exceed $3.6 million.

## 10. Angel Investor Tax Credit Program *(continued)*

- There is an enhanced credit equal to 35% of the investment amount made in a Louisiana Entrepreneurial Business located in federal opportunity zones and an additional $3.6 million in cap for the enhanced credit applicants only.

### Transferability of the Credit

Any credits allocated to a taxpayer and not previously claimed by any taxpayer against its tax may be transferred or sold to another taxpayer, subject to the following conditions:

- A single transfer or sale may involve one or more transferees.
- Transferors and transferees must submit notification of any transfer or sale of tax credits to LED and LDR within 30 days after the transfer or sale of the tax credits.
- Failure to comply with the transfer requirements will result in the disallowance of the tax credit until the taxpayers are in full compliance.
- The credit transfer or sale does not extend the time in which the credit can be used.

### Application of Tax Credits

- All entities taxed as corporations for state tax purposes must claim credit on their corporation income and franchise tax return.
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities not taxed as corporations must claim credit on the partner's tax returns.
- Tax credits will expire beginning with the 11th tax year after the tax year in which the credit was originally granted.

## 10. Angel Investor Tax Credit Program *(continued)*

### Sunset Date
No new reservations after June 30, 2026

### Beneficiaries
Qualifying third-party investors in early-stage wealth-creating businesses in the state and the people of the state because of the additional quality jobs available

### Fiscal Effect
An analysis of the types of credits for FYE 6-25 is as follows:

| Fiscal Effect | | |
|---|---|---|
| | FYE 6-25 | % of Total |
| Individual Income Tax | $1,787,520 | 77.56% |
| Fiduciary Income Tax | $74,761 | 3.24% |
| Corp. Income Tax | $442,581 | 19.20% |
| Corp. Franchise Tax | $0 | 0.00% |
| Total | $2,304,862 | 100.00% |

### Estimated Fiscal Effect
The estimated revenue loss for FYE 6-26 and FYE 6-27 may not reflect all tax reform changes due to insufficient data currently available to fully assess their impact.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $1,420,000 | $1,392,000 |

## 11. Musical & Theatrical Productions Tax Credit

The purpose of this tax credit is to position and promote Louisiana as a leading location in the United States for live performances, supporting everything from the creation to the presentation of these productions. For state-certified productions that meet specific criteria, the program offers a tax credit for qualified production expenditures, with additional credits available to cover eligible payroll costs.

### Limitation on Tax Credit:
The tax credit cannot exceed the total base investment made in the production. The total amount of tax credits that Louisiana Economic Development (LED) can grant in any fiscal year is capped at $10 million, with half of that amount specifically reserved for productions by nonprofit organizations.

Credits are awarded on a first-come, first-served basis. If the total amount of credits requested exceeds the $10 million annual cap, the excess applications will be carried over and treated as if they were submitted on the first day of the following fiscal year.

### Application of Jobs Tax Credits
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members.

### Transferability of the Credit
- A company or financier may, on a one-time basis, transfer the credit or any refund of an overpayment to an individual or other entity including without limitation a bank or other lender, provided that the transfer shall not be effective until receipt by the Department of Revenue of written notice of such transfer. Transferors and transferees shall submit to the Department of Revenue, in writing, a notification of any transfer of the tax credit within ten business days after the transfer. The credit shall be allowed for the taxable period in which expenditures eligible for a credit are expended.

#### Fiscal Effect
During FYE 2024-2025, $2,143,446 in corporation income tax credits were claimed

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $5,616,000 | $5,504,000 |

### 12. Retention and Modernization Credit

The purpose of the retention and modernization credit is to encourage businesses to stay in Louisiana rather than relocate to another state, and to support the modernization and improvement of their current operations within the state.

#### Tax Credit
The retention and modernization tax credit allows a business to receive up to 5% of its qualified modernization expenses as a tax credit. This credit is split into equal parts and claimed over five years. It can be used to reduce individual income tax, corporate income tax, or franchise tax. The credit expires and becomes unusable beginning in the eleventh tax year after it was first granted.

#### Qualifications
To qualify for the retention and modernization tax credit, the employer must be a manufacturer whose primary function falls under specific NAICS codes: 113310, 211, 213111, 541360, 311–339, 511–512, or 54171.

"Modernization" refers to a capital investment in technology, machinery, buildings, or equipment that meets at least one of the following criteria:

(1) It increases the facility's maximum capacity or efficiency by more than 10%, or

(2) It is an approved investment from a company with operations in multiple states that has a formal capital project program.

A qualifying project includes the design, development, installation, and construction of technology, machinery, buildings, or equipment that modernizes the employer's product line, unit, or entire operations, and must involve a minimum investment of $5 million. Projects placed in service before July 1, 2011, are not eligible for the credit.

#### Application of Credits
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members.

#### Ineligible Participants
- Retail employers as identified by the NAICS code sections 44 and 45.
- Business associations and professional organizations as defined in NAICS code 8139.
- State and local government enterprises.
- Real estate agents, operators, and lessors.

## 12. Retention and Modernization Credit *(continued)*

- Automotive rental and leasing.
- Local solid waste disposal, local sewage systems, and local water systems businesses.
- Nonprofit organizations.
- Employers engaged in the gaming industry as identified by the NAICS code sections 713210 and 721120.
- Attorneys.
- An employer who has defaulted on or not repaid any loan or other obligation involving public funds or an employer who has declared bankruptcy under which an obligation of the employer to pay or repay public funds or monies was discharged as part of such bankruptcy.
- An employer who is in default on any filing or payment with or to the state or any of its agencies or political subdivisions and in which an assessment or judgment that is final and non-appealable has been rendered, and remains outstanding, in favor of the state, or any of its agencies, or political subdivisions.

### Credit Limitations
The total amount of modernization tax credits granted by the LED in any calendar year cannot exceed $7.2 million.

### Legal Citation
R.S. 51:2399.1 through 2399.6

### Origin
Acts 2009, No. 447, amended by Acts 2015, No. 125; Acts 2017, No. 400; Acts 2024, 3rd Ex. Sess., No. 11

### Effective Date
Expenses incurred on or after August 15, 2009

### Sunset Date
No new applications accepted after June 30, 2025

### Beneficiaries
Owners and employees of businesses needing modernization

### Fiscal Effect
An analysis of the types of credits for FYE 6-25 is as follows:

| Fiscal Effect | | |
|---|---|---|
| | **FYE 6-25** | **% of Total** |
| Corp. Income Tax | $0 | 0.00% |
| Corp. Franchise Tax | $5,640,478 | 100.00% |
| Total | $5,640,478 | 100.00% |

### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $6,000,000 | $3,000,000 |

## 13. Louisiana Quality Jobs Program

The Quality Jobs Program is designed to encourage businesses to establish or expand their operations in Louisiana by providing incentives for creating quality jobs. The program specifically targets businesses involved in industries that align with Louisiana's Vision 2020 plan, focusing on both traditional and seed cluster industries.

### Eligibility
To qualify a business must be in one of the following six industries:

1. Biotechnology, Biomedical, and Medical Industries serving rural hospitals
2. Micro-manufacturing
3. Software, Internet, and Telecommunications
4. Clean Energy Technology
5. Food Technology
6. Advanced Materials;
7. Or be any of the following:
   a. A manufacturer with certain NAICS Codes.
   b. An oil and gas field service business and pay at least $30,000 annually for each new direct job created and business located in Louisiana is the national or regional headquarters of a multi-state business including Louisiana and the Gulf of Mexico.
   c. A business that must or will have sales of at least 50% of its total annual sales to out-of-state customers or buyers, and/or to in-state customers or buyers if the product or service is resold by the purchaser to an out-of-state customer or buyer for ultimate use, or to the federal government.
   d. The employer is located in a parish which is within the lowest 25% of parishes based on per capita income.
   e. The employer is the corporate headquarters of a multi-state business.
   f. The employer is a business that spends 50% or more of its time performing services for its out-of-state parent company.
   g. The employer is in the business of maintenance, repair, and overhaul operations for commercial transport aircraft.

## 13. Louisiana Quality Jobs Program *(continued)*

h. A COVID-19 impacted retail business with a NAICS code beginning with 44, 45, 721 and 722 and has 50 or fewer employees nationwide including affiliates. The advance notification must be filed on or after July 1, 2020, and on or before December 31, 2021. These businesses are not eligible to earn benefits after June 30, 2023.

### Job Requirements

To qualify for the Quality Jobs Program, an employer must create a minimum number of new direct, full-time jobs—defined as positions requiring at least 30 hours of work per week. Employers with 50 or fewer employees must create at least 5 new jobs, while employers with more than 50 employees must create at least 15 new jobs.

The employer must also provide a basic health benefit plan to these employees. This plan must include coverage for basic hospital care, physician services, and general healthcare, and must be equivalent to what is offered to the company's executive, administrative, or professional employees. Coverage must begin no later than the first day of the month following 90 days from the employee's hire date.

The employer's contribution toward the health plan must meet federally mandated healthcare requirements. If no federal requirements apply, the employer must contribute at least $1.25 per hour toward the plan. For companies that are not self-insured, the value is based on the actual cost of individual coverage. For self-insured companies, Louisiana Economic Development (LED) will determine the value. Basic health care benefits do not include dental, vision, or life insurance.

### Minimum Wage and Health Care Requirements

New direct jobs must pay at least $18.00 per hour.

The minimum annual payroll requirement depends on the size of the employer. If the employer had 50 or fewer employees statewide before the contract started, they must create at least 5 new direct jobs with a total annual payroll of at least $225,000. If the employer had more than 50 employees statewide before the contract started, they must create at least 15 new direct jobs with a total annual payroll of at least $675,000.

If, by the employer's third fiscal year, the verified annual payroll does not show at least five new direct jobs and does not reach either $675,000 or $225,000 in total payroll for those jobs (depending on which amount applies), then the employer will be considered ineligible for the program.

## 13. Louisiana Quality Jobs Program *(continued)*

### Payroll Benefit

The benefit rate an employer can receive depends on the wages and health care benefits provided for new direct jobs:

- 4% benefit rate applies to jobs that pay at least $18.00 per hour and include health care benefits.
- 6% benefit rate applies to jobs that pay at least $21.66 per hour and include health care benefits.
- The value of the health care benefits is based on the plan chosen by the employee, as determined by Louisiana Economic Development (LED).

### Sales Tax Rebate

- State sales/use tax rebate on materials for new infrastructure, machinery, and equipment purchased during the construction period and used exclusively on site.
- A portion of the local sales/use tax may be rebated with an Endorsement Resolution from the local governing authority received before the application is approved.
- Local sales tax dedicated to schools or bond indebtedness is not eligible for rebate.

### Project Facility Expense Rebate

- Effective July 10, 2007, taxpayers are given the option between the sales and use tax rebate and a project facility expense rebate equal to 1.5% of qualified expenditures
- Qualified expenditures are defined as amounts classified as capital expenditures for federal income tax purposes plus exclusions from capitalization provided for in Internal Revenue Code Section 263(a)(1)(A) through (L), minus the capitalized cost of land, capitalized leases of land, capitalized interest, capitalized costs of manufacturing machinery and equipment to the extent the capitalized manufacturing machinery and equipment costs are excluded from sales and use tax pursuant to R.S. 47:301(3), and the capitalized cost for the purchase of an existing building

#### Fiscal Effect
During FYE 6-25, $94,041,228 in sales tax rebates were issued.

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $95,922,000 | $97,840,000 |

# Telecommunication Tax for the Deaf Exemptions

# Telecommunication Tax for the Deaf

## { Introduction }

Act 660 of the 1988 Regular Session imposed a tax of five cents per month on each residential and business telephone access line of local exchange companies operating in Louisiana. The purpose of the tax is to provide access to public telecommunication services for persons who are deaf, deaf and blind, hard of hearing, speech impaired, or have similar disabilities or impairments. The tax is collected monthly from customers and remitted quarterly by each telecommunication service company. The proceeds are deposited into a special fund designated as the Telecommunications for the Deaf Fund.

Act 273 of the 2017 Regular Session reduced the tax to four and one-half cents per month and expanded the tax base to include each telephone number associated with a wireless handset for each residential and business customer of a wireless telecommunication service company operating in Louisiana, effective October 1, 2017. The Act also increased the credit telecommunication service companies receive for timely filing returns and remitting payments from 2% to 3%.

### Legal Citation
R.S. 47:1061

### Tax Base
Use of each residential and business customer telephone access line, as well as the telephone number for each wireless handset associated with residential and business customers.

### Tax Rate
5¢ per month per line (effective through September 30, 2017)

4.5¢ per month per line (effective October 1, 2017, through March 25, 2018)

5¢ per month per line (effective March 26, 2018, to present)

### Type of Tax Exemption
Telecommunication taxes for the deaf include both credits and exemptions. A credit is generally defined as an amount that is subtracted from a tax liability. An exemption applies to items that are included in the tax base but are specifically exempted by statute. There is also an exemption based on federal prohibitions.

### Significant Changes
There were no changes to the telecommunication tax for the deaf laws during the past year.

# Telecommunication Tax for the Deaf

## { Credit }

### 1. Timely Payment

A credit of 3% of the tax collected is allowed for the timely remittance of the taxes due. The purpose of this credit is to encourage compliance and to compensate companies for expenses associated with collecting and remitting the tax. Prior to October 1, 2017, the credit was 2%.

**Legal Citation**
R.S. 47:1061(A)(2)

**Origin**
Acts 1988, No. 660, amended by Acts 2017, No. 273

**Effective Date**
Taxable periods beginning on or after September 1, 1988

**Beneficiaries**
The local or wireless telecommunication service companies operating in Louisiana that accurately and timely report and remit the taxes due

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $83,000 | $84,000 |

## { Exemptions }

### 2. Prepaid Wireless Devices and Wireless Devices Used for Data Only

Telephone numbers assigned to prepaid wireless devices, as well as those used exclusively for data purposes, are exempt from this tax.

**Legal Citation**
R.S. 47:1061(A)(1)

**Origin**
Acts 2017, No. 273

**Effective Date**
Taxable periods beginning on or after October 1, 2017

**Beneficiaries**
Wireless telecommunications service companies that provide telephone numbers for prepaid wireless devices or for wireless devices used for data purposes

**Estimated Fiscal Effect**

| FYE 6-26 | FYE 6-27 |
|---|---|
| $42,000 | $14,000 |

{ Exemptions }

### 3. Sales to the Federal Government and Its Agencies

Sales of telephone access lines to the U.S. Government or any of its agencies are exempt from this tax. The purpose of this exemption is to comply with the taxation prohibitions set forth in the U.S. Constitution.

**Legal Citation**
No specific statute

**Origin**
U.S. Constitution

**Effective Date**
Taxable periods beginning on or after September 1, 1988

**Beneficiaries**
U.S. government and its agencies

**Estimated Fiscal Effect**
The estimated revenue loss for FYE 6-26 and FYE 6-27 is $0.

# Tobacco Tax Exemptions

# Tobacco Tax

## { Introduction }

A tobacco tax was first imposed in 1926 by Act 197 for the benefit of public schools. Retail dealers were taxed at a rate of 1¢ per 10¢ of the retail selling price on cigarettes, smoking and chewing tobacco, cigars, cheroots, and snuff. The tax was effective October 1, 1926, for a period of four years.

Act 4 of the 1932 Regular Session levied a new tax on sales of cigars, cigarettes and smoking tobacco, effective September 1, 1932. The cigarette tax was based on the number of cigarettes sold. Cigars were taxed by weight and price per 1,000 units, with rates ranging from 75¢ to $13.50 per 1,000. Smoking tobacco was taxed at 1¢ for each 5¢ of the retail selling price. The tax was evidenced by tax stamps supplied by the state and affixed by tobacco dealers, who were allowed a discount when purchasing stamps in amounts of $100 or more in face value.

The tax rates on cigarettes increased over the years as follows:

*1932 Levied at 1/5¢ per cigarette to 4¢ per 20 pack*

*1942 Increased by 1/20¢ per cigarette to 5¢ per 20 pack*

*1948 Increased to 2/5¢ per cigarette or 8¢ per 20 pack*

*1970 Increased to 11/20¢ per cigarette or 11¢ per 20 pack*

*1984 Increased to 16/20¢ per cigarette or 16¢ per 20 pack*

*1990 Increased to 1¢ per cigarette or 20¢ per 20 pack*

*2000 Increased by 4/20¢ per cigarette to 24¢ per 20 pack*

*2002 Increased by 12/20¢ per cigarette to 36¢ per 20 pack*

*2015 Increased by 50/20¢ per cigarette to 86¢ per 20 pack*

*2016 Increased by 22/20¢ per cigarette to $1.08 per 20 pack*

The tax increase of 4/20 of 1 cent per cigarette enacted in 2000 expired on June 30, 2012. However, an amendment to the Constitution, approved by voters on October 22, 2011, effectively restored this expiring tax, establishing a rate of 4/20 of 1 cent per cigarette in the Louisiana Constitution.

The tax rates on cigars and smoking tobacco were adjusted in 1942 and 1948 and were ultimately set at the current rates by Act 413, effective January 1, 1975. A tax on smokeless tobacco was imposed effective July 1, 2000.

The discount from the face value of the tax stamp also changed over time; from the original 10% in 1932, to 6% in 1942; 7% in 1944; 9% in 1948; 6% in 1972; and 5% in 2016.

The tobacco tax is currently levied on tobacco and vapor products and is collected from the dealer who first sells, uses, consumes, handles, or distributes the products within the state. Tax stamps indicate the payment of tax on cigarettes and may only be purchased from the Department by wholesale tobacco dealers who are required to post a bond.

### Legal Citations

R.S. 47:841 through 47:869

### Tax Base

Cigarettes - per cigarette

Vapor Products - per milliliter

Cigars and other tobacco products - manufacturer's invoice price

### Tax Rate

- Cigarettes – 5.4¢ per cigarette ($1.08 per standard package of 20)
- Cigars
  - –8% if manufacturer's invoice price is $120 per 1,000 or less;
  - –20 % if manufacturer's invoice price is $121 - $2,449 per 1,000;
  - –20% if manufacturer's invoice price is $2,500 or more per $1,000 through December 31, 2025; $0.50 per cigar from January 1, 2026 through December 31, 2027; 20% beginning January 1, 2028

# Tobacco Tax

## { Introduction }

- Smoking tobacco – 33% of the manufacturer's invoice price
- Smokeless tobacco – 20% of the manufacturer's invoice price
- Vapor Products – 15 cents per milliliter of consumable nicotine liquid solution

### Types of Tax Exemptions

Tobacco tax exemptions take the form of discounts, exemptions, and refunds. Discounts represent a proportionate deduction from the gross amount reported. Exemptions apply to items that are included in the tax base but are specifically exempted by statute. Refunds provide restitution for taxes that have been paid.

There are three tax exemptions that are also prohibited from taxation under federal laws. Because of these additional prohibitions exist, repealing the exemption alone would not produce the anticipated fiscal effect. For this reason, these exemptions have been separately grouped at the end of the section.

### Significant Changes

### 2025 Regular Session

**Act 266**

Act 266 of the 2025 Regular Session revised the tobacco excise tax levied on cigars that are invoiced by the manufacturer at or above $2,500 per thousand from 20% of the invoice price to $0.50 per cigar for taxable periods January 1, 2026, through December 31, 2027. Beginning January 1, 2028, the levy on these cigars will revert to 20% of the invoice price. The tax imposed on cigars invoiced at $120 per thousand or less remains unchanged at 8% of invoice price, and the tax on cigars invoiced at $121 - $2,499 per thousand will remain 20% of the invoice price.

## { Discounts }

### 1. Tobacco Stamps

Registered Louisiana tobacco dealers receive a 5% discount on cigarette tax stamps when their total purchases exceed $100. Out-of-state wholesale tobacco dealers that maintain direct purchasing contracts with a manufacturer and supply a network of retail dealers in Louisiana are likewise eligible for a 5% discount on cigarette tax stamps.

This discount serves as a volume incentive and compensates dealers for tax collection costs.

#### Legal Citation
R.S. 47:843(B) and (C)(3)

#### Origin
Acts 1932, No. 4, amended by Acts 2016, 1st Ex. Sess., No. 5

#### Effective Date
Taxable periods beginning on or after September 1, 1932

#### Beneficiaries
Bonded Louisiana tobacco dealers with direct manufacturer contracts who purchase $100 or more in tax stamps

#### Estimated Fiscal Effect

| FYE 6-26 | FYE 6-27 |
|---|---|
| $8,770,000 | $8,068,000 |

### 2. Timely Filing and Payment

A 5% discount is allowed to Louisiana tobacco dealers with direct manufacturer contracts who timely and accurately report purchases, provided that payment of taxes on cigars, vapor products, and other tobacco products is included. The discount encourages compliance and offsets reporting and collection costs.

| FYE 6-26 | FYE 6-27 |
|---|---|
| $45,640,000 | $39,707,000 |

## { Federally Imposed Exemptions }

### 9. Interstate Shipments of Tobacco Products

Cigars and other tobacco products exported outside Louisiana are exempt from tobacco taxes. The purpose of this exemption is to comply with taxation prohibitions of the U.S. Constitution.

**Legal Citation**
R.S. 47:849

**Origin**
Acts 1932, No. 4

**Effective Date**
Taxable periods beginning on or after September 1, 1932

**Beneficiaries**
Licensed tobacco dealers engaged in interstate commerce

**Estimated Fiscal Effect**
The estimated fiscal effect of this exemption is included in the Five–Year Revenue Loss chart in the row labeled "Other Exemptions".

# Appendix
## Part 9

# Revised Statute 47:1517 - Tax Exemption Budget

**Revised Statute 47:1517. Tax Exemption Budget**

A. No later than the first day of March the secretary of the Department of Revenue shall prepare and submit to the governor and the legislature a tax exemption budget in the manner set forth in this Section.

B. (1) The annual tax exemption budget shall be published on the LaTrac website, or any subsequent database that may replace the LaTrac system, and shall include the following:

(a) Each tax exemption, its statutory citation, and its purpose.

(b) The revenue loss to the state caused by each tax exemption for the three preceding years, the estimated revenue loss to the state caused by each tax exemption for the current fiscal year, and the estimated revenue loss to the state caused by each tax exemption for the ensuing fiscal year.

(c) The estimated cost of administering and implementing each tax exemption for the three preceding fiscal years, the current fiscal year, and the ensuing fiscal year.

(d) The tax exemption budget shall also include the following:

(i) The number of businesses which receive each tax exemption, credit, exclusion, refund, preferential tax rate, deferred tax liability, or rebate, hereinafter referred to in this Subsection as the exemption.

(ii) The parish or location of each business which receives a tax exemption; provided, that if fewer than ten businesses receive a particular tax exemption, the tax exemption budget may group such tax exemption with another tax exemption which also has fewer than ten businesses receiving it.

(iii) The information shall be displayed in a manner that identifies:

(aa) The industry group by North American Industry Classification System sector.

(bb) The number of taxpayers by industry.

(cc) The total tax burden by industry group by individual tax before the exemption.

(dd) The total value to each industry group for each exemption.

(ee) The total tax value by each industry group by individual tax of the tax collections after the exemption.

(e) The items contained in Subparagraph (d) of this Paragraph shall be published to the extent that the information is available to the department, on a schedule to be determined by the secretary of the department, beginning with the incentive expenditures, and fully implemented by the date of publication of the Fiscal Year 2018-2019 tax exemption budget on or before March 1, 2020. The secretary shall ensure that the publication shall not include confidential information.

(2) The tax exemptions in the annual tax exemption budget shall also be organized in an additional opening schedule as follows:

(a) Agricultural/Rural: a tax exemption that pertains to a business or person being located in a rural area; or, engaging in an agricultural trade/business.

(b) Business Environment: a tax exemption that encourages competitiveness with other states by impacting the tax burden of business entities that engage in specific activities that include holding or maintaining inventory or property in the state, using or deriving benefit from water, electric power, energy or any other utility type resources, or buying, leasing, renting or selling machines or equipment used for the production, modification, creation or facilitation of tangible personal property in the state, or using consumables in the manufacturing process that does not become a part of the final product, including the following:

(i) Inventory Tax Ad Valorem.

(ii) Business Utilities Sales Tax.

(iii) Manufacturing Machinery and Equipment.

(iv) Direct Inputs and Consumables.

(c) Corporate Income Tax Formula: a tax exemption that is unique or specific to Louisiana and relates to assisting, guiding or aiding a business entity in determining the amount of its income for Louisiana tax purposes.

(d) Dealers and Vendors Compensation and Discounts: a tax exemption that encourages either the timely filing of a return, report, form or document or the timely payment of a tax, fee or other amount due.

(e) Educational Breaks for Educational Institutions: a tax exemption that pertains to an entity that engages in a specified activity that provides or facilitates the act of learning, or, an entity or institution who provides or facilitates learning.

(f) Educational Breaks for Individuals: a tax exemption that pertains to an individual who engages in a specified activity that is beneficial to, or provides or facilitates the act of learning.

(g) Incentives: a tax exemption that encourages a particular or specified economic activity by modifying the tax burden of the economic activity or behavior that is taking place. Categories of incentives include those, that spur the hiring of employees by business, or that are administered by and through a contract with the department of:

(i) Economic Development.

(ii) Culture, Recreation & Tourism.

(iii) Environmental Quality.

(iv) Revenue, including those for Severance Tax (that is not a part of the normal taxing scheme of other states).

(h) Louisiana Constitutional Mandates: a tax exemption outlined in the state constitution that modifies the tax burden.

(i) Non-Itemized Sales and Use Tax Exclusions and Exemptions: a sales tax exemption that is not individually itemized on a Louisiana sales tax return before March 2016 and is therefore not assigned a value in the Tax Exemption Budget.

(j) Normal Tax Structure: an exemption that is commonly used or implemented in other states; enacted to prevent double taxation; or used to prevent the taxation of direct business inputs. The exemption could be mandated by the federal government, the state to ensure a foreign, tribal, local, municipality or state entity addresses taxes owed to the state, the federal or state government to ensure the protections of commerce across state lines, the state government to determine the taxability of businesses when it incurs losses, or the state government on activities that sever the state's natural resources in a manner that is not unique to Louisiana and widely accepted policy among oil producing states, including the following:

(i) Federal Mandatory.

(ii) Intergovernment.

(iii) Interstate Commerce.

(iv) Net Operating Loss.

(v) Normal Severance.

(k) Personal Income Tax Formula: a tax exemption that assists, guides, or aids an individual in determining Louisiana tax table income after determining Louisiana adjusted gross income.

(l) Retirement, Disability, and Military: a tax exemption that modifies the tax owed by individuals who receive money, including but not limited to wages and interest as a result of this special status or position in life that is recognized by statute.

(m) Specialty Sales Tax Exemptions, including the following:

(i) Sales tax holidays.

(ii) Purchase of a specific item.

(iii) Purchase made by a specific taxpayer.

(iv) Activities of a specific group or organization.

(n) Specialty Income Tax Exemptions, including the following:

(i) Performance of a specific activity.

(ii) Purchase of a specific item.

(iii) Purchase made by a specific taxpayer.

(3) No statute, provision, exemption, exclusion, refundable or nonrefundable credit, rebate or deduction listed in the categories outlined above shall be listed in more than one category without a specific notation of doing such.

(4) The secretary may add additional categories to the additional opening schedule as deemed appropriate and necessary.

# Revised Statute 47:1517 - Tax Exemption Budget

C. The annual tax exemption budget shall also include an assessment of each tax exemption based on the following criteria:

(1) Whether or not each tax exemption has been successful in meeting the purpose for which it was enacted, in particular, whether each tax exemption benefits those originally intended to be benefited, and if not, those who do benefit.

(2) Whether each tax exemption is the most fiscally effective means of achieving its purpose.

(3) Unintended or inadvertent effects, benefits, or harm caused by each tax exemption, including whether each tax exemption conflicts with other state laws or regulations.

(4) Whether each tax exemption simplifies or complicates the state tax statutes.

D. The Department of Revenue is authorized to request from any state or local agency or official any information necessary to complete the budget required by this Section. Any such official shall comply with this request.

E. "Tax exemptions" means those revenue losses attributable to provisions of the state tax statutes or rules promulgated pursuant to such statutes, which allow a special exclusion, exemption, or deduction from gross income or sales or which provide a special credit, a preferential rate of tax, or a deferral of tax liability.

F. The House Committee on Ways and Means and the Senate Committee on Revenue and Fiscal Affairs, hereinafter referred to as "committees", shall conduct hearings on the tax exemption budget every odd-numbered year, to be concluded thirty days before the beginning of the regular session of the Louisiana Legislature. The committees shall analyze and consider tax exemptions which have caused revenue loss to the state of ten million dollars or more in any one of the last three fiscal years. From time to time, the committees may report to the legislature findings or recommendations developed as a result of the hearings.

Acts 1989, No. 836, §2, eff. July 1, 1989; Acts 1997, No. 658, §2; Acts 2011, No. 365, §1; Acts 2016, No. 592, §1, eff. July 1, 2016; Acts 2018, No. 667, §2, effective August 1, 2018.

# Glossary
## Part 10

# Glossary

**Actual tax collections** – amount of tax revenue received and available for appropriation

**Beneficiary** – any person or entity who gains an advantage and/or profits from a tax exemption

**Corporation income tax** – a tax paid by all corporations or entities taxed as corporations for federal income tax purposes on income earned in Louisiana

**Credit** – an amount that is subtracted from a tax liability

**Deduction** – an amount which the taxpayer is allowed to subtract when computing the taxable base

**Deferred tax liability** – the legal authorization to delay the obligation to pay a tax to a future period

**Discount** – a proportionate deduction from the gross amount reported

**Effective date** – the date upon which a statute is considered to take effect, which may be a past, present or future date

**Estimated fiscal effect** – the future estimated revenue loss to the state caused by each tax exemption

**Exemption/Exclusion** – the statutory elimination of certain items or transactions from the tax base. An exemption is a mechanism that prevents taxation on an item or class of items that would normally be taxed under the law. An exclusion is the absence of taxation on an item or class of items. However, Louisiana law often conflates the term "exclusion" with "exemption," such that the former may be used to describe a mechanism that might be better characterized as the latter.

**Excise tax** – a tax imposed on a commodity or commodities

**Federal adjusted gross income** – the amount of income earned or received during the year after certain exclusions and adjustments according to federal law

**Franchise tax** – a tax imposed on business corporations for the privilege of conducting business in Louisiana. The tax is levied on either the assessed value of all real and personal property in the state or the amount of issued and outstanding capital stock, surplus, and undivided profits attributable to Louisiana, whichever is larger.

**Individual income tax** – a tax levied on personal income earned by Louisiana residents and on income earned in Louisiana by non-residents

**Itemized deductions** – under federal law, certain deductions that are subtracted from adjusted gross income and are applied in lieu of a standard deduction

**Non-refundable tax credit** – a tax credit that reduces the income tax liability and, if allowed by the statute authorizing the credit, any remaining amount can be carried forward for use in future tax years. If the amount of credit is greater than the taxes owed, the excess will not generate a refund.

**Percentage of tax loss** – the exemption losses by tax divided by the total potential collections

**Petroleum taxes** – a tax on motor fuels such as gasoline, diesel, and special fuels including compressed natural gas, liquefied natural gas, and liquefied petroleum gas

**Preferential tax rate** – a provision which provides a tax rate for certain persons, types of income, transactions, or property that results in reduced tax revenue

**Rebate** – an incentive in the form of money issued to a taxpayer to induce or after having induced specific behavior without having to be claimed on a tax return

**Refundable tax credit** – a tax credit that reduces the income tax liability, with any excess credit amount being refundable to the taxpayer

**Remote sale** – a sale made by a remote seller or a sale facilitated by a marketplace facilitator

**Remote seller** – a seller who sells for sale at retail, use, consumption, distribution, or for storage to be used for consumption or distribution any taxable tangible personal property, products transferred electronically, or services for delivery within Louisiana, but does not have a physical presence in Louisiana

**Sales tax** – a tax imposed on certain consumer purchases of tangible personal property and specified services

**Service** – the performance of an action or activity for others

**Severance tax** – a tax levied on natural resources taken from the ground

# Glossary

**State revenue losses** – state tax revenue not collected due to statutory tax exemptions. This would not include statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements.

**Statutory tax exemption** – an amount that is prohibited from taxation by state statute. This would not include statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements.

**Sunset provision** – a clause in a statute which provides for an automatic repeal of the entire law or a section of a law once a specific date is reached

**Taxable income** – the amount to which the applicable income tax rate is applied

**Taxable base** – the value of a set of assets, investments, transactions, or income streams (depending on the tax type) that are subject to taxation

**Tax exemptions** – tax dollars that are not collected and result in a loss of tax revenues available for appropriation. Tax exemptions result from tax laws which provide an exemption, exclusion, deduction, credit, preferential tax rate, tax rebate or a deferral of tax liability to reduce the amount of the taxpayer's liability to Louisiana. Tax exemptions provide economic incentives or tax relief to particular classes of persons or entities to achieve a public purpose.

**Agriculture/rural** – a tax exemption that pertains to a business or person being located in a rural area; or, engaging in an agricultural trade/business

**Alternative reporting method or statutorily prescribed method of taxation for sales tax** – tax exemption that assists, guides, or aids a business entity in determining the sales tax to remit or the amount subject to sales tax
