The Community Cultural Participation Grant Program provides funds to 36 counties and Oregon's nine federally recognized Indian tribes, collectively called the "County Coalition," for local cultural activities. Each applicant must develop a local cultural plan that identifies priorities specific for building public participation across cultural disciplines and organizations. Each member must also identify annual benchmarks and involve local leadership and governance for grant fund management and plans must be broadly disseminated within each county or tribe. The members of the statewide coalitions are all volunteer driven and disburse grants in their communities, often in fiscal sponsorship with their county government or mission-aligned cultural nonprofit.

The Core Partner Agencies program enables state agencies to carry out their missions and mandates, serve more grantees, encourage new cultural undertakings, and research and investigate ways in which culture and related cultural policy will impact the state in the future. The core partner agencies are the Oregon Arts Commission, Oregon Humanities, the State Historic Preservation Office, the Oregon Heritage Commission, and the Oregon Historical Society. The partners also decide on disbursement of Cooperative Partner Projects, which have included statewide projects such as Oregon's Poet Laureate Program, The Confluence Project, the Oregon Folklife Network and the newly, much needed Organizational and Professional Development Grants for cultural organizations across the state of Oregon.

Of particular note in fiscal year 2024, the Trust received $454,583 in grants, bequests and matching gifts that were given without the tax credit. The Trust received three bequests totaling $370,645. Also, we received 136 gifts above the tax credit limit. This is a testament to Oregonians' generous support of the work we are doing for culture in Oregon.

Because of this amazing support, the Trust will be granting a record $3,960,976 in fiscal year 2025 grants.

Historically the Trust has given out 2,568 grants totaling $42,778,938.

## 1.443 PERSONAL EXEMPTION

**Oregon Statute:** 316.085
**Sunset Date:** None
**Year Enacted:** 1985

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $1,260,000,000 | $1,260,000,000 |
| 2025-27 | Not Applicable | $1,270,000,000 | $1,270,000,000 |

### DESCRIPTION

Oregon personal income taxpayers receive a personal exemption credit for each taxpayer and dependent represented on the return. Individuals who can be claimed as a dependent on another's return cannot claim a credit on their own return. The amount of the credit is indexed to inflation and is $249 in 2024. The amount of the credit is prorated for nonresidents and part-year residents.

Taxpayers whose filing status is married filing jointly, surviving spouse, or head of household may not claim this credit if their adjusted gross income is above $200,000, and single filers or married taxpayers filing separate returns may not claim this credit if their adjusted gross income is above $100,000. The adjusted gross income limits are not adjusted for inflation.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to provide a minimum level of tax-free income that increases with family size for all Oregon personal income taxpayers below a certain income level.

## WHO BENEFITS

Oregon personal income taxpayers, except those who are claimed on another taxpayer's return. The table below shows usage of this credit for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 298,130 | $160 | $48.1 | 8% |
| $19,400 - $40,400 | 366,460 | $320 | $117.4 | 20% |
| $40,400 - $67,700 | 374,950 | $360 | $135.9 | 23% |
| $67,700 - $117,800 | 345,470 | $470 | $161.3 | 28% |
| Above $117,800 | 189,800 | $610 | $116.1 | 20% |
| All Full-Year Filers | 1,574,810 | $370 | $578.8 | 100% |
| Part-Year and Nonresident Filers | 239,510 | $180 | $43.8 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

Not evaluated.

# 1.444 OREGON VETERANS' HOME PHYSICIANS

**Oregon Statute:** 315.624
**Sunset Date:** 12-31-2027
**Year Enacted:** 2007

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Less than $100,000 | Less than $100,000 |
| 2025-27 | Not Applicable | Less than $100,000 | Less than $100,000 |

## DESCRIPTION

A credit against personal income tax is allowed for physicians who provide medical care to residents of an Oregon Veterans' Home. The credit is $1,000 for every eight residents to whom the physician provides care, with a maximum of $5,000 per year. To qualify for the credit, a physician cannot miss more than 5 percent of scheduled visits with residents, as verified by a letter from an Oregon Veterans' Home. The letter must be submitted with the corresponding tax return. Nonresidents and part-year residents must prorate their credit amount in the same manner they would prorate their standard deduction under ORS 316.117.

A qualifying taxpayer may claim both this credit and the rural medical practitioner credit (see 1.408, Rural Medical Practice).

Legislation in 2021 extended the scheduled sunset of the provision from December 31, 2021 to December 31, 2027.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2433 (2021), the purpose of this credit is "…to increase the number of health care professionals providing long-term care to Oregon veterans, thereby increasing the number of veterans receiving such care."

### WHO BENEFITS
Physicians providing care to residents of an Oregon Veterans' Home. Oregon has two Oregon Veterans' Homes, one in The Dalles and one in Lebanon. Very few personal income taxpayers claimed this credit.

### EVALUATION
*Provided by the Oregon Department of Veterans' Affairs*

This tax credit is having the desired effect of encouraging physicians to provide care to residents of an Oregon Veterans' Home. The tax credit is important because Oregon Veterans' Homes are in rural locations and at times have experienced challenges finding physicians to provide care to residents.

## 1.445 CERTAIN RETIREMENT INCOME

**Oregon Statute:** 316.157
**Sunset Date:** 12-31-2025
**Year Enacted:** 1991

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $900,000 | $900,000 |
| 2025-27 | Not Applicable | $400,000 | $400,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION
Low-income taxpayers who are 62 or older and receiving taxable retirement income are allowed a credit against personal income taxes of up to 9 percent of their net pension income. Net pension income is all retirement income included in federal taxable income, except federal pensions excluded from Oregon taxable income (see 1.325, Federal Pension Income) and Social Security benefits, which are not taxed by Oregon. Thus, net pension income consists of private, state, local, and some federal government pensions and distributions from deferred compensation plans, IRAs, SEPs, and Keoghs.

To qualify for the credit, the taxpayer must meet all of the following conditions:

- Household income of $22,500 or less ($45,000 or less if married filing jointly)
- No more than $7,500 ($15,000 if married filing jointly) in Social Security and/or Tier 1 Railroad Retirement Board benefits
- Household income plus Social Security and Tier 1 Railroad Retirement Board benefits of $22,500 or less ($45,000 if married filing jointly).

Legislation in 2019 extended the scheduled sunset of the provision from December 31, 2019 to December 31, 2025.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose of this credit is "To provide tax relief to low-income individuals with pension income."

## WHO BENEFITS

Low-income retirees benefit from this credit. The table below shows usage of this credit for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 2,650 | $80 | $0.2 | 34% |
| $19,400 - $40,400 | 1,360 | $270 | $0.4 | 61% |
| $40,400 - $67,700 | 180 | $180 | $0.0 | 5% |
| $67,700 - $117,800 | 0 | $0 | $0.0 | 0% |
| Above $117,800 | 0 | $0 | $0.0 | 0% |
| All Full-Year Filers | 4,190 | $150 | $0.6 | 100% |
| Part-Year and Nonresident Filers | 130 | $100 | $0.0 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Oregon Department of Human Services*

This tax expenditure appears to achieve its purpose. It provides added financial security to those eligible and contributes to their ability to remain self-sufficient. By encouraging financial independence, this provision reduces demand for other state funded services and saves the state money. This tax expenditure will become increasingly important as the population distribution changes. Current forecasts indicate that current retirement savings are not nearly sufficient to support future retirees in their accustomed lifestyles.

# 1.501 PUBLIC WAREHOUSE SALES THROWBACK EXEMPTION

**Oregon Statute:** 314.665
**Sunset Date:** None
**Year Enacted:** 2005

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Not Applicable | Less than $100,000 |
| 2025-27 | Less than $100,000 | Not Applicable | Less than $100,000 |

## DESCRIPTION

For the purposes of taxation, income of corporations doing business in more than one state is apportioned based on Oregon sales relative to sales in all other states. Sales outside the state that originate in Oregon can be taxed in Oregon, known as a throwback, if the sales are to the federal government or are made in another state where the company is not subject to tax (does not have nexus).

This measure exempts certain corporations from throwing back sales. To qualify for the exemption, the corporation's sole activity in Oregon must be the storage of goods in a public warehouse or storing goods in a public warehouse and with employees in the state whose sole purpose is to solicit sales.

Public warehouse means:

- A warehouse owned or operated by a person who does not own the goods stored in the warehouse
- Does not include a warehouse that is owned by a person who is related to the person who owns goods that are stored in the warehouse, or an affiliate of the person who owns goods that are stored in the warehouse.

The Department of Revenue may determine if a corporation's activities fit this definition of a public warehouse.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage development and expansion of public warehouses in Oregon.

## WHO BENEFITS

Corporate taxpayer with a public warehouse. No known taxpayer benefits from this provision.

## EVALUATION

Not evaluated.

# 1.502 TAX RATES FOR CERTAIN PASS-THROUGH INCOME

**Oregon Statute:** 316.043(2)
**Sunset Date:** None
**Year Enacted:** 2013

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $242,000,000 | $242,000,000 |
| 2025-27 | Not Applicable | $253,000,000 | $253,000,000 |

## DESCRIPTION

Taxpayers with qualifying nonpassive income attributable to a business entity which is a partnership, S corporation, or a sole proprietorship may make an irrevocable election on the original return for that year's qualifying income to be taxed at the following marginal rates (brackets are not adjusted for inflation):

| Net Qualifying Income | Tax Rate |
|---|---|
| $1 to $500,000 | 7.0% |
| $500,001 - $1,000,000 | 7.5% |
| $100,001 - $2,500,000 | 8.0% |
| $2,500,001 to $5,000,000 | 9.0% |
| More than $5,000,000 | 9.9% |

The ordinary business income at the business entity level cannot be in excess of $5 million for the tax year for the taxpayer to be able to use these tax rates. Generally, taxable personal income at or below $250,000 would be taxed at marginal rates from 4.75 to 8.75 percent, and income over $250,000 ($125,000 for single or married filing separately) would be taxed at a marginal rate of 9.9 percent.

Nonpassive taxable income is reduced by nonpassive losses. Nonpassive income and loss are income and loss other than from passive activity as determined under section 469 of the Internal Revenue Code. Nonpassive income does not include wages, interest, dividends, or capital gains.

The taxpayer must materially participate in the trade or business and must meet an employment requirement. Legislation passed in 2014 (SB 1534) clarified the definition of the term “material participation” to match the definition in section 469 of the federal Internal Revenue Code.

A requisite employee may not be an owner, member, or limited partner of the partnership, S corporation, or sole proprietorship. Employees who meet this requirement must work, in the aggregate, at least 1,200 hours in Oregon by the close of the tax year; however, only the hours worked by such an employee in a week in which the employee works at least thirty hours may be considered in determining whether this requirement is met.

The partnership or S corporation must meet either the employee ratio or the income distribution requirement based on the amount of ordinary business income (OBI) as follows. The employee requirements are:

| OBI at Least | But not More Than | Employees Required | Aggregate Hours Worked by Employees |
|---|---|---|---|
| $0 | $250,000 | One | 1,200 |
| $250,001 | $500,000 | One per owner | 1,200 |
| $500,001 | $1,000,000 | Two per owner | 2,400 |
| $1,000,001 | $2,500,000 | Four per owner | 4,800 |
| $2,500,001 | $5,000,000 | Ten per owner | 12,000 |

If the employee ratio requirements are not met, then the distributions of income of a partnership or S corporation, as a percentage of ordinary business income, may not exceed 25 percent. The percentage is computed based on total distributions and total OBI for the current and most recent two tax years.

The only addition or subtraction allowed in the calculation of qualifying income is any depreciation adjustment directly related to the partnership, S corporation, or sole proprietorship.

Nonresident taxpayers who elect to use these rates may not join in the filing of a composite return under ORS 314.778.

A nonresident may apply reduced rates only to qualifying income earned in Oregon. Part-year residents calculate the tax due on the qualifying income based upon the proportion of qualifying income in Oregon to their qualifying income from all sources.

In 2018, the Legislature met in a special session to allow sole proprietors meeting the same nonpassive income and employment requirements as partnerships and S corporations to apply these preferential tax rates to qualifying business income (HB 4301). Legislation in 2021 (SB 139) modified the tax rates on qualifying income and created additional requirements for partnerships and S corporations related to total business income and employee requirements.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 3601 (2013), the purpose of allowing this preferential tax rate election "is to encourage small business growth and investment."

### WHO BENEFITS
Taxpayers who have qualifying income attributable to a partnership, S corporation, or sole proprietorship and who elect to be taxed at preferential rates. For tax year 2022, 25,200 personal income taxpayers saved an average of $5,060 in Oregon tax using these reduced tax rates. The table below shows personal income tax usage of these tax rates for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Tax Rates | Average Revenue Impact | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 30 | $60 | <$0.1 | <1% |
| $19,400 - $40,400 | 280 | $110 | <$0.1 | <1% |
| $40,400 - $67,700 | 910 | $250 | $0.2 | <1% |
| $67,700 - $117,800 | 2,780 | $500 | $1.4 | 1% |
| Above $117,800 | 19,410 | $5,990 | $116.3 | 99% |
| All Full-Year Filers | 23,400 | $5,040 | $117.9 | 100% |
| Part-Year and Nonresident Filers | 1,800 | $5,310 | $9.6 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

### EVALUATION
*Provided by the Oregon Business Development Department*

This tax expenditure may contribute to the strength of the Oregon economy by encouraging greater activity by certain smaller-sized companies with potential for high growth in employment and income generation. The department, however, lacks the data or direct experience to address it further.

## 1.503 INCOME AVERAGING FOR FARMERS

**Oregon Statute:** 314.297
**Sunset Date:** None
**Year Enacted:** 2001

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $1,300,000 | $1,300,000 |
| 2025-27 | Not Applicable | $1,300,000 | $1,300,000 |

### DESCRIPTION
Personal income taxpayers may elect to average all or some of their current tax year's farm income by shifting that farm income to the three prior years, when calculating their Oregon tax liability.

For the current year, the taxpayer subtracts their elected farm income from their total taxable income. The tax is then computed on that new value of taxable income using the current tax year's tax rates. To that tax is added the cumulative increase in the tax that would result from adding one-third of the elected farm income to the taxable income for each of the three prior years.

The elected farm income can include gain on the sale of farm assets, with the exception of gain on the sale of land.

If the taxpayer has current tax year farm income higher than their taxable income for one or more of the three prior years, because of Oregon's progressive tax rate structure, it is possible that the taxpayer's tax liability computed by the farm income averaging method can be less than the tax liability computed by the normal method.

Even though the Oregon statute allowing income averaging for farmers does not have an explicit connection to the federal tax code for farm income averaging, the method in Oregon's statute follows that in the federal tax code.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to allow personal income taxpayers to compute their Oregon personal income taxes on farm income following the federal farm income averaging method. According to the Congressional Research Service, the purpose of the federal provision is to mitigate the adverse tax consequences of fluctuating incomes under a progressive tax structure. By allowing farmers to smooth out income over several years, the provision aims to reduce the tax burden during years of high income, thereby providing more financial stability.

### WHO BENEFITS

Taxpayers whose main source of income is agricultural production. In each year from 2018 to 2022 an average of about 600 individuals saved about $1,100 of Oregon tax using this provision.

### EVALUATION

*Provided by the Oregon Department of Agriculture*

The Income Averaging for Farmers provision may offer a valuable tool for mitigating the effects of income volatility that many farmers experience due to factors like fluctuating commodity prices and unpredictable weather conditions. By allowing farmers to average their income over three years, this provision may help stabilize their tax liabilities, making financial planning more manageable. This approach is consistent with federal tax policies, providing a streamlined method for farmers to align their state and federal tax strategies.

However, the benefits of income averaging may be limited to those farmers who experience significant income spikes, potentially excluding smaller operations or those with more stable income patterns. The provision may be particularly useful for long-established farmers who have the necessary income history to take full advantage of averaging. Eliminating this provision could lead to increased tax burdens in high-income years, potentially straining farmers' finances during periods of economic uncertainty.

## 1.504 CAPITAL GAINS FROM FARM PROPERTY

**Oregon Statute:** 316.045, 317.063, and 318.020
**Sunset Date:** None
**Year Enacted:** 2001

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Less than $100,000 | $4,700,000 | $4,700,000 |
| 2025-27 | Less than $100,000 | $5,200,000 | $5,200,000 |

### DESCRIPTION

If a taxpayer sells or exchanges capital assets used in qualified farming activities, a reduced tax rate of 5 percent is available on the realized capital gain. The sale or exchange must represent termination of all the taxpayer's ownership interests in a farming business, or a termination of all the taxpayer's ownership interests in property that is used in a farming business.

The sale of ownership interests in a farming corporation, partnership, or other entity qualifies for the special tax rate. A personal income taxpayer must have at least a ten percent ownership interest in the entity before the sale or exchange.

### PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to lower the tax burden on farmers liquidating their farming businesses, allowing transition farmland to continue in farm use, and the owners to retain capital they have accumulated over years of investment in an operation.

### WHO BENEFITS

Property owners who terminate a farming business benefit by realizing more of their capitalized equity. For tax year 2022, approximately 240 individuals saved an average of about $8,800 of Oregon tax using this provision. Very few corporations benefit from this credit.

### EVALUATION

*Provided by the Oregon Department of Agriculture*

Agricultural landowners build equity in their operations over time through ownership (debts, collateral), appreciation, and improvements. Years of work are capitalized into the land, buildings, and equipment used to operate a viable farm business, which represents the retirement savings for the farm family. Capital gains taxes can substantially reduce the retirement "savings" which can discourage and delay transitioning or selling farmland to the next generation. Many retired farmers lease or rent out their land because of the high cost to transition land including a capital gains penalty from selling. This behavior shifts the tax burden upon the owner's death to the next generation of farmers and ranchers. Reducing the cost of land transfers provides stability and opportunity for Oregon's farming and ranching families.

The average age of farmers in Oregon is 60 years (up from 55 years in 2002). A study jointly completed by Oregon State University, Portland State University and Rogue Farm Corps, states that as older (Oregon) farmers retire over the next two decades, over 10 million acres, or 64 percent of Oregon's agricultural land, will pass to new owners. Lower capital gains rates for agriculture landowners achieves the purpose of an orderly transfer of ownership with a more secured retirement for older farmers. Lower capital gains taxes also support Goal 3 (to preserve and maintain agricultural lands) in Oregon's Statewide Planning Goals and Guidelines for Land Use by keeping farmland in agricultural use. To maximize the effectiveness of this provision, it may be beneficial to consider additional measures that encourage the sale of farmland specifically to other agricultural producers or to entities committed to maintaining the land in agricultural use.

## 1.505 NONRESIDENT DISASTER RELATED INCOME

**Oregon Statute:** 401.690
**Sunset Date:** None
**Year Enacted:** 2015

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Available | Not Available | Not Available |
| 2025-27 | Not Available | Not Available | Not Available |

### DESCRIPTION

An out-of-state emergency service provider, whether a business or an individual, is exempt from corporate or personal income tax when operating solely for the purpose of performing disaster or emergency-related work on critical infrastructure in Oregon. For purposes of this exemption, a disaster must have been declared to exist within this state by the President of the United States or the Governor of Oregon.

This tax expenditure generally grants these benefits for disaster or emergency-related work conducted by an out-of-state business:

- The activity may not be used as the sole basis for determining that a corporation is doing business in Oregon.
- The business income from the activity is not considered for apportionment of corporate income to Oregon.
- Income from the activity cannot be the sole basis of imposition of corporate income and excise taxes on the business.

For individuals, an out-of-state employee who performs disaster or emergency-related work during a declared emergency is not taxed as a resident, nonresident, or part-year resident, is not considered to have established domicile or residence in this state, and is not subject to withholding.

Businesses and individuals exempt under this provision are still required to pay appropriate transaction taxes and fees, such as the lodging tax, except as otherwise exempted by law.

Legislation in 2019 (HB 2127) removed any sunset under ORS 315.037 for this tax expenditure.

### PURPOSE
"To ensure that businesses may focus on quick response to the needs of this state and its residents during a declared disaster or emergency, it is appropriate for the Legislative Assembly to deem that this activity for a reasonable period of time before, during and after the disaster or emergency for repairing and restoration of the often devastating damage to critical infrastructure in this state as defined in section 3 of this 2015 Act does not establish presence, residency, doing business in this state or any other criteria for purposes of state and local taxes or licensing and regulatory requirements." (ORS 401.680(5))

### WHO BENEFITS
Out-of-state companies and employees providing disaster or emergency related services in Oregon.

### EVALUATION
*Provided by the Oregon Department of Emergency Management*

To date Oregon has not suffered from a catastrophic disaster which would require a massive influx of individuals or companies to come in and assist the State in recovery operations. The end goal of the legislation is to ease the barriers of entry for private industry in order to encourage support and investment to help expedite Oregon's recovery from catastrophic disasters.

## 1.506 APPORTIONMENT FOR UTILITY AND TELECOMMUNICATION COMPANIES

**Oregon Statute:** 314.280
**Sunset Date:** None
**Year Enacted:** 2001

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $800,000 | Not Applicable | $800,000 |
| 2025-27 | $800,000 | Not Applicable | $800,000 |

### DESCRIPTION
Corporate taxpayers primarily engaged in the business of utilities or telecommunications may elect to apportion their business income to Oregon using an apportionment formula based on the double-weighted sales factor instead of the apportionment formula currently in place. Currently, the apportionment formula is based purely on Oregon sales relative to sales in all states. The double-weighted sales factor is calculated as 50 percent of the sales factor plus 25 percent of the property factor and 25 percent of the payroll factor.

Utilities and telecommunications firms may elect to use this alternative apportionment formula until they decide to revoke it. Election and revocation are done according to rules established by the Department of Revenue. An election applies to the tax year for which the election is made and for each subsequent tax year until a revocation. A revocation applies to the tax year following the year in which the revocation is made and to all subsequent tax years. Because corporate taxpayers presumably use the method that results in the lowest tax liability, tax revenue from these corporations will be lower at least for the first year of using the alternative apportionment formula than it would be if either apportionment formula applied to all corporations.

### PURPOSE
"…so as fairly and accurately to reflect the net income of the business done within the state…" (ORS 314.280).

### WHO BENEFITS
Utility and telecommunication firms benefit by being able to choose between double-weighted sales and the current apportionment formulas for telecommunication and utility firms established by ORS 314.280. On average, fewer than 20 corporate taxpayers benefit from this alternative apportionment formula each year.

### EVALUATION
*Provided by the Oregon Public Utility Commission*

The state has deemed that allowing utilities and telecommunications companies to use the alternative apportionment formula provides a "fair and equitable" allocation of a corporate taxpayer's business income to Oregon. Firms that choose the alternative formula lower their Oregon tax liability and retain the benefit.

## 1.507 NONRESIDENT ARMED FORCES

**Federal Code:** 50 U.S.C. § 4001
**Sunset Date:** None
**Year Enacted:** 1942

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $11,100,000 | $11,100,000 |
| 2025-27 | Not Applicable | $11,800,000 | $11,800,000 |

### DESCRIPTION
Compensation paid by the United States for service in the Armed Forces of the United States performed in Oregon by a nonresident does not constitute income derived from sources within the state.

For tax purposes, a servicemember and their spouse may elect to use

- the residence or domicile of the servicemember,
- the residence or domicile of the spouse, or
- the permanent duty station of the servicemember.

See 1.329, Military Active Duty and Related Pay for the Oregon subtraction from taxable income for certain military-related income.

### PURPOSE
The statute that allows this tax expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2171 (2015), the purpose of this subtraction "… is to provide tax relief to service members … in consideration of their work and sacrifices for their state and country."

### WHO BENEFITS
Nonresident Armed Forces workers who perform service in Oregon.

### EVALUATION
*Provided by the Oregon Military Department*

This tax expenditure achieves its purpose and is a valuable benefit to members of the National Guard, as well as other military personnel assigned to the State of Oregon in an active duty status. This benefit ensures that personnel assigned to an installation within the borders of this state, but who retain residence in another state are not subject to Oregon income tax. This is a valuable benefit to military personnel who may choose to leave their families in another state as they fulfill their active duty mission in Oregon. This alleviates an additional tax burden on these families who are already sacrificing by having their family member(s) serving in another state. The number of personnel impacted by this expenditure is limited as there is a very small active duty presence within Oregon.

# 1.508 NONRESIDENT SPOUSE OF NONRESIDENT SERVICEMEMBER SERVING IN OREGON

**Federal Code:** 50 U.S.C. § 4001
**Sunset Date:** None
**Year Enacted:** 2009

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Not Available | Not Available |
| 2025-27 | Not Applicable | Not Available | Not Available |

## DESCRIPTION

Under federal law—the Military Spouses Residency Relief Act—enacted in 2009, the spouse of a servicemember shall not be considered a resident of a state if they are in the state solely to be with the servicemember while the servicemember is stationed in the state.

For tax purposes, a servicemember and their spouse may elect to use

- the residence or domicile of the servicemember,
- the residence or domicile of the spouse, or
- the permanent duty station of the servicemember.

Income for services performed by the spouse of a servicemember shall not be deemed to be income for services performed or from sources within Oregon if the spouse is not considered a resident of the state.

Federal law was amended in 2018—the Servicemembers Civil Relief Act—to allow a spouse of a servicemember to elect to use the same residence for the purposes of taxation as the servicemember elects.

In effect, these laws exclude from taxable income earnings of spouses of servicemembers who are relocated to Oregon from out-of-state if the spouse does not elect to be an Oregon resident for tax purposes.

## PURPOSE

To comply with federal law.

## WHO BENEFITS

Nonresident spouses of nonresident servicemembers living and working in Oregon.

## EVALUATION

*Provided by the Department of Revenue*

This expenditure complies with federal law and also relieves the specified taxpayers of the difficulty of determining the portion of income earned in Oregon while working in the state.

# CHAPTER 2. PROPERTY TAX

The property tax is Oregon's second largest source of revenue, providing most of the revenue for nonschool local governments and roughly one quarter of the revenue for school districts. Total property taxes imposed, including taxes for urban renewal agencies, are forecast to total $18.7 billion in the 2023–25 biennium and $20.4 billion in the 2025–27 biennium.

The major features of Oregon's property tax system are largely defined by two voter-approved ballot measures: Measure 5 in 1990 and Measure 50 in 1997. Measure 5 placed constitutional limits on the amount of tax that could be levied on a property for most purposes. Measure 50 cut property taxes and made three fundamental changes to the structure of the property tax system: first, it replaced most tax levies with limited permanent tax rates; second, it rolled back the assessed value of every property in the state to 90 percent of its 1995–96 assessed value; and third, it limited the future growth in each property's maximum assessed value to 3 percent per year.

The Department of Revenue also publishes an annual report that provides detailed statistics on Oregon's property tax system. The most recent edition of *Oregon Property Tax Statistics* can be found at www.oregon.gov/DOR/Stats.

**Property Tax Expenditures**

The base for taxation for property taxes is generally all real property and all tangible personal property in Oregon and is set by ORS 307.030. Tax expenditures occur when certain property is excluded from some or all taxation, or has reduced taxable value. There are three primary types of property tax expenditures: full exemption, partial exemption, and special assessment.

With a full exemption, a property's entire value is exempt from all property taxes.

Partial exemptions reduce, but do not eliminate, the taxes on a property, and they exist in several different forms. For example, an exemption program may exempt only improvement value, but the land value continues to be taxed. Other properties may be exempt from the taxes imposed by the local city but still pay property taxes for schools and other districts. Some exemptions apply only to taxing districts that have opted in, or have not opted out, of the tax exemption program.

The final primary type of property tax expenditure is known as a special assessment. Specially assessed properties are assigned a property value using an assessment technique that results in a lower taxable value than would be the case if the usual assessment practice were used.

A property receiving an exemption (or special assessment) has its maximum assessed value reset at the end of the exemption by multiplying the real market value of the property by the changed property ratio, generally a ratio of the average maximum assessed value for similar properties in the county divided by the average real market value of similar properties in the county. This makes the property tax unique, in that a property that stops receiving an exemption may have a higher tax than it would have had if it never received the exemption in the first place. In some circumstances, a taxpayer would be better off not to ever receive the exemption. It also means that a property that stops receiving an exemption may still benefit after the exemption is over.

**Revenue Loss and Shift**

The revenue impact for property tax expenditures consists of two components: revenue loss and shift. Most property taxes levied in Oregon are through fixed tax rates. With these levies if a property is exempt from taxation then the taxing district simply raises less money than if the property were taxable. This direct loss of tax revenue is the much larger impact of property tax exemptions and special assessments and is reported here as the "loss."

Some levies, mostly bond levies to repay debt, do not have a fixed tax rate and instead calculate the tax rate each year by dividing the amount of tax revenue needed that year across the value of all taxable properties. In these cases, if a property is exempt from tax the effect is to raise the overall tax rate on the remaining taxable properties. Therefore, the final amount of tax raised for the district will remain the same because the tax burden is shifted to the other properties. The amount of tax that would have been paid by the exempt properties that is instead paid by the remaining taxable properties is reported here as the "shift." More than 80 percent of all property taxes are from fixed tax rates, so the revenue losses due to property tax exemptions are much larger than the shifts.

Property tax expenditures also interact with other parts of the public finance system, especially school funding. Approximately 40 percent of all property taxes are imposed to pay for K-12 schools. Because the state General Fund

also provides funding for schools using a statewide funding formula, some of the property tax revenue lost to school districts from tax expenditures is replaced by state funding. Therefore, property tax exemptions have an indirect effect on the state General Fund. This replacement component is not included in the revenue impacts reported here. For all property tax expenditures, the detailed descriptions report both the revenue loss and shift separately, while the Index of Tax Expenditures at the beginning of this report includes only the loss.

Whenever possible, the exempt assessed value is obtained from county or DOR property tax reporting. For some expenditures, the assessed value of the exempt properties is estimated using other data sources.

# 2.001 ACADEMIES, DAY CARE, AND STUDENT HOUSING

**Oregon Statute:** 307.145
**Sunset Date:** None
**Year Enacted:** 1957
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $2.5 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $78,800,000 | $19,300,000 |
| 2025-27 | $85,500,000 | $20,900,000 |

## DESCRIPTION

Property owned by a charitable or religious organization that is used for childcare facilities, schools, academies, or student housing is exempt from property taxation under this provision. Childcare facilities must be regulated by the Office of Child Care at the Department of Early Learning and Care unless exempted by rule. Prior to the passage of HB 3073 (2021), the facilities were regulated by the Office of Child Care in the Early Learning Division at the Department of Education. To qualify, the property must be used for educational purposes. The organization must file an application with the county assessor to claim the exemption.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to maintain tax treatment for certain school and childcare properties that is comparable to the treatment provided to similar organizations under 2.085, Charitable, Literary, and Scientific Organizations.

## WHO BENEFITS

Approximately 840 schools and day care properties were exempt in fiscal year 2023–24.

## EVALUATION

*Provided by the Department of Early Learning and Care*

This tax expenditure is used by organizations that qualify through preschool programs administered through the Oregon Department of Education's Early Learning Division – Oregon Prekindergarten and Preschool Promise. It reduces costs of these programs, which helps lay the groundwork for a child's intellectual, emotional, social, and physical development. It also helps children get a good start in life by supporting strong parenting, appropriate education, and adequate nutrition and health care. The Oregon Prekindergarten and Preschool Promise programs serve children who are below the federal poverty level. Studies have shown that participation in a quality preschool program increases the chances of a child successfully completing school and holding a job while decreasing the chances of dropping out of school and needing public assistance. Money invested in our youth through this program means less money will be required later for more costly programs. It is a fiscally effective method of achieving its purpose.

# 2.002 STUDENT HOUSING FURNISHINGS

**Oregon Statute:** 307.195
**Sunset Date:** None
**Year Enacted:** 1957
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.5 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
All personal property, furniture, goods, and furnishings in a student housing cooperative, fraternity, or sorority are exempt from property taxation so long as the housing is not rented out for profit.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to reduce the costs associated with college housing. In conjunction with 2.095, this expenditure provides equitable treatment with those students living on campus in publicly owned dormitories; see 2.003, for more information.

### WHO BENEFITS
Nonprofit organizations that rent furnished units to college students, which in turn benefits students by reducing rental rates.

### EVALUATION
*Provided by the Higher Education Coordinating Commission*

This tax expenditure achieves its purpose. As with real property taxes, the tax exemption on personal property for not-for-profit student housing is a valuable provision in minimizing housing costs for students. It is a fiscally effective means of achieving its purpose, as housing expenses typically carry some of the highest financial burden on postsecondary students.

## 2.003 LEASED STUDENT HOUSING PUBLICLY OWNED

**Oregon Statute:** 307.110(3)(a)
**Sunset Date:** None
**Year Enacted:** 1947
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.2 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $37,200,000 | $8,900,000 |
| 2025-27 | $41,800,000 | $10,000,000 |

### DESCRIPTION
Generally, state-owned housing that is rented is taxable. However, publicly owned property that is rented or leased for housing purposes to students attending a school or college is exempt from property tax. This provision applies to all student housing, such as residence halls and student family housing, owned by public universities and leased to students. Residence halls owned by private colleges generally fall under tax expenditure 2.001. This provision is an exception to the general rule that public property is taxable when held under contract of sale or leased to a private individual or business.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to reduce the costs associated with college housing.

### WHO BENEFITS
Approximately 15,300 students who lease rooms or apartments from eight public university campuses.

### EVALUATION
*Provided by the Higher Education Coordinating Commission*

This tax expenditure achieves its purpose and is critical to minimizing the cost of student housing. Housing costs are, on average, the highest expense for students, particularly at a time when their income generation is limited and generally committed to education expenses. More than one-third of students who apply for financial aid (possibly more, as data are limited) cannot afford the cost of postsecondary education and training, even with expected financial aid grants,

institutional grants, their own expected earnings, and expected family contributions. Exempting these properties from taxes contributes to lower housing costs and greater access to higher education.

## 2.004 HIGHER EDUCATION PARKING SPACE

**Oregon Statute:** 307.110(3)(f)
**Sunset Date:** None
**Year Enacted:** 1989
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.078, State and Local Property

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.078 | Included in 2.078 |
| 2025-27 | Included in 2.078 | Included in 2.078 |

### DESCRIPTION

State-owned property rented for public parking is generally taxable. However, state property owned by public universities and rented to employees, students, or visitors for parking use is exempt from property tax. University spaces are taxable when rented to members of the general public who are not employees, students, or visitors.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to reduce the costs associated with attending, visiting, or working at a public university.

### WHO BENEFITS

All eight higher education campuses rent parking spaces to students, employees, and visitors. Some are paved lots and others are parking structures built with bond revenue.

### EVALUATION

*Provided by the Higher Education Coordinating Commission*

This tax expenditure achieves its purpose and is an additional element in providing access to higher education. Reducing the cost of parking for students, who generally have a severely limited income, is another means of lowering the cost of attending colleges and universities. Applying this exemption to all parking eliminates the administrative costs of separately tracking student and employee parking.

## 2.005 PRIVATE LIBRARIES FOR PUBLIC USE

**Oregon Statute:** 307.160
**Sunset Date:** None
**Year Enacted:** 1854
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $2.5 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

Private property used as a library open to the public is exempt from property taxation. The exemption includes the real property, books, and furnishings dedicated to library use. Privately owned libraries open to the general public use the exemption while publicly owned libraries are exempt under tax expenditure 2.078, State and Local Property. The owner must file an application with the county assessor to claim the exemption. (ORS 307.162)

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to broaden the application of tax expenditure 2.085, Charitable, Literary, and Scientific Organizations exemption, to public or private libraries, acknowledging the public contribution of these efforts as activities and services that relieves government from having to provide the same.

### WHO BENEFITS
Ten libraries use this exemption within Benton, Lane, Multnomah, and Tillamook counties.

### EVALUATION
Not evaluated.

## 2.006 LEASED RURAL HEALTH CARE PROPERTY

**Oregon Statute:** 307.110(3)(i)
**Sunset Date:** None
**Year Enacted:** 1999
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $13 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $400,000 | Less than $100,000 |
| 2025-27 | $500,000 | Less than $100,000 |

### DESCRIPTION
In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. This tax expenditure exempts the property of a health district if the property is leased or rented for purposes of providing facilities for health care practitioners. The health district must reside in a frontier rural practice county, as defined by the Office of Rural Health. In 2024, ten counties were included in this category: Baker, Gilliam, Grant, Harney, Lake, Malheur, Morrow, Sherman, Wallowa, and Wheeler.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage medical practitioners to practice in rural areas by extending the public health district property tax exemption to property leased by health districts to private taxable entities.

### WHO BENEFITS
In 2023-24, there were seven accounts receiving this exemption across two counties.

### EVALUATION
*Provided by the Office of Rural Health*

This modest benefit costs local governments less than $500,000 per biennium and affects only ten Oregon counties. It allows very fragile rural hospitals that are located in “frontier” communities to use a portion of their property to provide office space for physicians, without incurring a tax liability on those properties. Provision of adequate and convenient office space is often a critical factor in the recruitment and retention of rural physicians. Passage of this law has allowed Harney District Hospital to complete new office suites for its physicians and played a significant role in Wallowa Memorial Hospital in Enterprise building a badly needed new facility.

## 2.007 SENIOR SERVICES CENTERS

**Oregon Statute:** 307.147
**Sunset Date:** None
**Year Enacted:** 1993
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $16 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $400,000 | Less than $100,000 |
| 2025-27 | $500,000 | $100,000 |

### DESCRIPTION

Property that is owned by a nonprofit organization and used for senior services and qualified activities is exempt from property tax. To qualify, the property must be primarily used to provide services and activities to people over age 50. Eligible services and qualified activities include food service programs, exercise and health screening, estate planning, crafts workshops, and dances or celebrations. If the property is used primarily for fund raising or as living quarters, then the exemption is not allowed. The nonprofit organization must file an application with the county assessor to claim the exemption.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage organizations to provide services to senior citizens.

### WHO BENEFITS

Thirty-six property tax accounts received this exemption in tax year 2023-24.

### EVALUATION

*Provided by the Oregon Department of Human Services*

While this tax does exempt properties that do not meet the requirements of tax expenditure 2.085, Charitable, Literary, and Scientific Organizations, one concern is the restriction placed on fundraising. This condition often translates into a choice for senior service centers between fundraising and this property tax exemption. It is not likely that many centers will opt for the exemption over the fundraising, so questions of applicability and efficiency of this tax expenditure arise.

## 2.008 LAND OWNED BY NONPROFIT FOR PURPOSE OF BUILDING LOW-INCOME HOUSING

**Oregon Statute:** 307.513
**Sunset Date:** 06-30-2029
**Year Enacted:** 2015
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $3.6 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $100,000 | Less than $100,000 |
| 2025-27 | $100,000 | Less than $100,000 |

### DESCRIPTION

Land acquired and held by a nonprofit corporation for the purpose of building residences to be sold to certain individuals is exempt from property tax. This exemption only applies to the land on which the residences are to be built.

To qualify for this exemption the residences must be sold to individuals whose income is not greater than 80 percent of area median income, adjusted for family size. In addition, the nonprofit corporation must have sold at least one residence to a qualifying person in the 10 years prior to claiming this exemption. The exemption can last for up to 7

years, or 10 years if a request for an extension is filed timely. The exemption expires before the 7- or 10-year limit when the corporation transfers title to the residence(s) or the land.

This exemption has the potential for additional taxes to be due if the property is disqualified from exemption or the property is sold to a non-qualifying individual.

Legislation in 2019 (HB 2130) extended the scheduled sunset of this exemption to June 30, 2029.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2690 (2015): "The policy purpose of this measure is to provide tax relief to land owning nonprofit corporations building residences to be sold to lower income individuals thus encouraging the development and availability of low income housing."

### WHO BENEFITS

Land-owning nonprofit corporations building residences to be sold to lower income individuals. Counties reported 37 property tax accounts receiving this exemption in tax year 2023-24.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose of supporting affordable housing providers and developers. By allowing a property tax exemption to nonprofit corporations, the cost of holding land and therefore the cost of development is decreased. This modest savings allows nonprofit corporations to acquire land for eventual development without incurring recurring tax costs. In addition the tax savings allows for homes to be built with fewer subsidies, which then better enables the nonprofit corporations to set purchase prices so that they are affordable to households earning at or below 80 percent area median income.

## 2.009 AGRICULTURAL HOUSING AND DAY CARE FACILITIES

**Oregon Statute:** 307.485
**Sunset Date:** None
**Year Enacted:** 1973
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $36 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $800,000 | $200,000 |
| 2025-27 | $900,000 | $200,000 |

### DESCRIPTION

Eligible agricultural workforce housing and farm labor camps for farm laborers, as well as eligible day care facilities operating in conjunction with those housing facilities, are exempt from property tax. All property eligible for this exemption must be owned or operated by a nonprofit corporation. Community-based eligible agricultural workforce housing provides occupancy to active, retired, or disabled agricultural workers and their families. To be eligible, the housing must comply with applicable building codes. An eligible farm labor camp is a place where housing, sleeping places, or campgrounds provide occupancy in compliance with applicable safety and health standards for agricultural labor housing. Eligible child care facilities must be in compliance with the Department of Early Learning and Care and operated in conjunction with eligible farm labor housing.

An exemption claim with supporting documentation must be made each year with the county assessor.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2610 (2015), the purpose of this exemption "… is to expand the availability of low cost housing

and child care facilities for agricultural workers and their families, so long as the property meets applicable safety and health standards."

### WHO BENEFITS

Nonprofit owners and operators of agricultural workforce housing, farm labor camps and associated day care facilities. In tax year 2023-24, counties reported 22 exempt tax accounts in six counties; most are located in Umatilla, Morrow, or Marion counties.

### IN LIEU

In lieu of real and personal property taxes, the nonprofit corporation owning or operating the exempt agricultural workforce or farm labor housing must make annual payments to the county treasurer equal to 10 percent of net rental income from the previous year.

Nonprofit corporations operating agricultural workforce or farm labor housing do not usually have a net rental income after depreciation, and generally make no in lieu of tax payments. When payments are made, they are usually small. Any funds collected are distributed to taxing districts where the exempt property is located.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose of supporting housing and service providers. Without the tax exemption, the associated day care facilities and agricultural housing may not be built or rehabilitated at all. Assuming that the difference between (a) the amount of property taxes that would be owed without this statute and (b) the amount of the payment in lieu of taxes that in fact is paid under the statute is passed along to the residents, then the benefit of the tax expenditure is easily calculated by the amount of the reduced rent or day care cost.

While an administrative improvement would be to eliminate the requirement that an application be filed every year, it is probably the trigger mechanism needed for the annual health and safety inspections.

## 2.010 FAIRGROUND LEASED STORAGE SPACE

**Oregon Statute:** 307.110(3)(d) and (e)
**Sunset Date:** None
**Year Enacted:** 1987
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. This tax expenditure provides an exception to that general rule. County or state fairground land or buildings are exempt from property tax if they are used for certain purposes in addition to county fair use. Usage described in ORS 565.230(2), such as, exhibitions, shows, carnivals, circuses, dances, entertainment, or public gatherings qualifies. Storage of recreational vehicles or farm machinery and equipment and use of horse stalls also qualify.

While leasing storage space for livestock and equipment at fairgrounds is common, the duration of the leases are short enough and the sizes of space being leased small enough to make the revenue impact minimal.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to promote fairs by allowing fair boards to earn more revenue throughout the off-season to support fairs. Boards can receive higher rent because the renter pays no property taxes.

### WHO BENEFITS
All 36 counties in Oregon hold county fairs; 34 counties have fairgrounds and most are able to benefit from this exemption. The Oregon State Fair and Exposition Center has minimal leased property that is exempt under this statute.

### EVALUATION
Not evaluated.

## 2.011 COMMERCIAL BUILDINGS UNDER CONSTRUCTION

**Oregon Statute:** 307.330
**Sunset Date:** None
**Year Enacted:** 1959
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $2.5 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $77,000,000 | $18,700,000 |
| 2025-27 | $84,500,000 | $20,500,000 |

### DESCRIPTION
Certain commercial and industrial buildings are exempt from property taxation while they are under construction. A new structure or an addition is exempt from property taxation if meeting the following criteria on the January 1 assessment date:

- The property is under construction, including additions to an existing structure.
- No part of the new structure or improvement has been or is in service for any commercial use or occupancy.
- The property is being built for the purpose of earning income.
- The property is not to be occupied for at least one year after construction began in the case of any non-manufacturing facility.
- The property is not centrally assessed by the Department of Revenue.

The exemption cannot be claimed for more than two consecutive years. Machinery and equipment at the building site also qualifies if it will be installed as real property in the structure. The property is listed on the county property tax assessment roll, but the assessment is canceled if proof that the property meets the above requirements is furnished to the assessor by April 1 of each assessment year.

The revenue impact estimates include those from the related tax expenditure 2.012, Construction in Process in an Enterprise Zone.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage business investment in plant and equipment by delaying property taxes until a facility can generate cash revenue. Manufacturing firms do not commonly experience immediate cash flow.

### WHO BENEFITS
In fiscal year 2023–24, 68 properties were exempt under this expenditure or under 2.012, Construction in Process in an Enterprise Zone. The use of this provision is driven by construction projects and fluctuates significantly. The majority of the exempt value is in Multnomah and Washington counties.

### EVALUATION
*Provided by the Oregon Business Development Department*

This expenditure achieves its purpose by allowing new traded-sector investments to delay paying property taxes until they are much more likely to be able to earn revenue. Economic consequences are also relevant. New construction and

investments might be significantly deterred by the additional up-front cost of paying property taxes on partially finished but still unproductive property.

This expenditure is administratively effective and efficient. Alternatives to this expenditure would be to refund such taxes through direct payments or credits on other taxes. The administrative burdens and complexity of such alternatives suggest that the current exemption is preferable.

This program might be underutilized, probably because it is not widely known outside Portland and other metropolitan areas (as noted above, aside from utilization with enterprise zones and the sister expenditure of 2.012, Construction in Process in an Enterprise Zone, Construction in Process in an Enterprise Zone); administrative technicalities may also limit accessibility. Otherwise, although manufacturing operations are favored, this expenditure has been available to any industry sector consistent with its purpose for more than 50 years.

## 2.012 CONSTRUCTION IN PROCESS IN AN ENTERPRISE ZONE

**Oregon Statute:** 285C.170
**Sunset Date:** None (enterprise zone program sunsets 06-30-2032, except for reservation enterprise and reservation partnership zones)
**Year Enacted:** 2003
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.011, Commercial Buildings Under Construction

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.011 | Included in 2.011 |
| 2025-27 | Included in 2.011 | Included in 2.011 |

### DESCRIPTION

Property undergoing construction, addition, modification, or installation is exempt from property taxation for up to two consecutive years provided that the property satisfies all the following requirements:

- Located in a current enterprise zone.
- Owned or leased by a business firm authorized by the local zone sponsor and county assessor to receive the standard enterprise zone exemption on qualified property – expenditure 2.013, Enterprise Zone Businesses.
- Will be qualified property upon completion, in that there is no known reason to conclude that the property or firm will not satisfy the requirements for 2.013, Enterprise Zone Businesses.
- Has not been exempt under 2.011, Commercial Buildings Under Construction.
- Not centrally assessed.
- Will not be operated as a hotel, motel, or destination resort.

This exemption is effectively an extension of expenditure 2.011, Commercial Buildings Under Construction, specifically to properties that are expected to qualify for a standard enterprise zone exemption (2.013, Enterprise Zone Businesses) when they are completed. If a property is exempt under 2.011, Commercial Buildings Under Construction in a subsequent year, the combined duration of the exemptions cannot exceed two consecutive years. Recent legislation (HB 2009, 2023) extended the sunset date for the enterprise zone program to June 30, 2032.

### PURPOSE

"To stimulate and protect economic success … throughout all regions of the state, but especially in those communities at the center of or outside major metropolitan areas for which geography may act as an economic hindrance … by providing tax incentives for employment, business, industry and commerce and by providing adequate levels of complementary assistance to community strategies for such interrelated goals as environmental protection, growth management and efficient infrastructure" (ORS 285C.055).

### WHO BENEFITS
See 2.011, Commercial Buildings Under Construction.

### EVALUATION
*Provided by the Oregon Business Development Department*

This program has achieved its purpose in allowing for a more straightforward message about the new property that is exempt in an enterprise zone – both before (under this expenditure) and after that property is placed in service (under 2.013, Enterprise Zone Businesses). Most such standard enterprise zone projects, if they still have property in the process of construction/installation on January 1, will be able to avail themselves of this exemption. Consequently, this tax expenditure has contributed to the ability of Oregon's enterprise zone system to attract and spur development, and new employment, in especially interested and economically distressed parts of Oregon. It will also smooth out administration of property subject to exemption over the course of taxpayer's investment

In the absence of this tax expenditure, most affected property could otherwise be exempt under the rather longstanding tax expenditure 2.011, Commercial Buildings Under Construction. At times, however, that exemption will cover less property. Additional coverage under this provision compared to 2.011, Commercial Buildings Under Construction includes:

- A project of an authorized business firm with no new construction or additions to a building or structure, but rather only modifications to or installations of qualified property that were incomplete but still had an appreciable effect on valuations as of a given January 1 assessment date
- Property items that once fully installed will remain personal property
- Real property machinery and equipment installed directly on land and not inside a building or otherwise affixed to a structure
- Nonmanufacturing facility (*e.g.*, a distribution center) necessitating less than 12 months to build
- Property that is still in the process of construction, reconstruction, modification or installation in a year after another part of the same facility or building has already been placed in service—property is effectively severable with this program in contrast to 2.011, Commercial Buildings Under Construction.

Data do not exist in order to isolate and analyze usage of this tax expenditure independent of 2.011, Commercial Buildings Under Construction, because they are essentially interchangeable and operate through parallel filing systems (for which there is not specific data collection in any case). The differences between the expenditures are transitory and tend to involve factors that would only modestly affect total market value. Though in certain cases, the last two bullets above could entail substantial property tax abatement in a given year.

## 2.013 ENTERPRISE ZONE BUSINESSES

**Oregon Statute:** 285C.175
**Sunset Date:** None (enterprise zone program sunsets 06-30-2032, except for reservation enterprise and reservation partnership zones)
**Year Enacted:** 1985
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $3.6 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $98,100,000 | $22,100,000 |
| 2025-27 | $190,000,000 | $46,000,000 |

### DESCRIPTION
Qualified real and personal property owned or leased and newly placed into service by a qualified business firm in an enterprise zone is exempt from property tax for three to five consecutive years. A new or expanding business can qualify for this exemption if the business meets all the conditions outlined in ORS 285C.135 and 285C.200, such as

applying locally for authorization prior to construction, engaging in eligible business operations, entering into a first source hiring agreement with local publicly funded job training providers, and increasing the number of jobs in the enterprise zone by the greater of one additional job or 10 percent. By resolution, the local zone sponsor may waive the requisite increase in jobs under special circumstances. Recent legislation (HB 2009, 2023) extended the sunset date of the enterprise zone program to June 30, 2032.

To be exempt, the property owned or leased by the business must satisfy timing, location, minimum cost, and other requirements described in ORS 285C.180. Property is disqualified if used for an ineligible activity, such as retail operations, or if the business firm substantially curtails operations or closes during the exemption period. When property becomes disqualified, previously abated amounts must be repaid.

The default length of the exemption period is three years, but for many of the larger projects and nearly all projects in the Portland metropolitan region, the length of the exemption is five years. The additional two years of exemption depend on a written agreement executed prior to local authorization between the business firm and the local zone sponsor, which may stipulate additional requirements for the firm. New jobs of the firm (except in the Portland and Salem area urban zones) need to also satisfy special criteria for employee pay, which the Legislature modified in 2017. HB 2009 (2023) added a requirement that in the fourth and fifth years of the exemption period, the business pays a fee to the local school for the support of the statewide school system. The zone sponsor and school district must have previously established the rate for the fee between 15 and 30 percent of each year's total tax savings, as also applies to latter years of 2.014, Long Term Rural Enterprise Zone (Property Tax).

Any urban enterprise zone may also impose additional conditions related to employment opportunities on any authorized business firm regardless of the exemption period.

Enterprise zones are sponsored, designated, and amended by city, port or county governments, subject to determination by the Oregon Business Development Department (OBDD) of compliance with economic criteria, local taxing district consultations and other statutory requirements.

In addition, nine federally recognized Indian Tribes can each have OBDD designate one reservation enterprise zone comprising any of their tribal lands, or they may create any number of contiguous reservation partnership zones with a local government. These tribal zones are otherwise enterprise zones, but they may continue after 2025, and this expenditure does not sunset for purposes of tribally based designations. Businesses in a tribal zone, even ones not eligible for this exemption, might be able to claim a state income tax credit, see expenditure 1.419, Reservation Enterprise Zone (Income Tax).

As of August 2024, Oregon had 73 enterprise zones, of which 55 are categorized as rural, and 18, as urban. They are spread throughout the state in 34 of the 36 counties and sponsored by 119 cities, 15 ports, 29 counties, and 2 Indian Tribes. In addition, 20 cities, 7 ports and 3 other counties formally consent to zones within their territory that are sponsored by other jurisdictions.

All enterprise zones terminate after 10 to 11 years. A qualified business receiving this exemption when the zone terminates may continue to receive the exemption for the number of years for which it qualified.

The relationship and comparison of this tax expenditure to others in this report are summarized as follows:

- Property of an authorized business under construction or in the process of being installed in the enterprise zone is generally allowed an exemption upon annual filing for 2.012, Construction in Process in an Enterprise Zone of up to two consecutive years.
- Up to 15 enterprise zones may also be designated as an Electronic Commerce Enterprise Zone. In addition to the expenditure here—but with some expanded eligibility for business activities and lower cost minimum for many types of personal property items—this overlay designation formerly allowed businesses qualifying for this tax expenditure to also claim an Electronic Commerce Enterprise Zone Income Tax Credit on certain capital expenses incurred prior to the business's 2018 income tax year.
- Facilities specially approved by the zone sponsor in most rural enterprise zones may alternatively use 2.014, Long Term Rural Enterprise Zone (Property Tax). Its 7 to 15-year tax abatement differs from the standard exemption here in terms of its approval process, length of exemption period, the treatment of property under construction, necessary county location, required minimum investment and employment criteria.

Projects in a Rural Renewable Energy Development (RRED) Zone as described in 2.018, Rural Renewable Energy Development Zone may receive the same standard enterprise zone exemption as this expenditure, but the RRED Zone program differs in four ways: 1) only certain types of renewable energy projects are eligible; 2) the zone areas are more expansive, generally countywide; 3) there is a locally determined limit of up to no more than $250 million for all exemptions with a given RRED Zone designation; and 4) the exemption does not sunset for purposes of RRED Zones.

## PURPOSE

"To stimulate and protect economic success … throughout all regions of the state, but especially in those communities at the center of or outside major metropolitan areas for which geography may act as an economic hindrance … by providing tax incentives for employment, business, industry and commerce and by providing adequate levels of complementary assistance to community strategies for such interrelated goals as environmental protection, growth management and efficient infrastructure" (ORS 285C.055).

## WHO BENEFITS

Eligible businesses operating in an enterprise zone (or engaged in e-commerce operations in an electronic commerce city). Many of these businesses are manufacturers, across a wide array of subsectors, but they also include financial/ service centers, headquarters, data centers, distribution facilities, hotels in some zones by local choice, and various other traded-sector business types.

## IN LIEU

Businesses may make payments imposed by or agreed to with the zone sponsor under special cases provided in statute for reasonable additional local requirements. If a business is not satisfying certain program requirements, a one-time payment of that year's tax savings (PiLoD) may be made to the zone sponsor to avoid fully retroactive disqualification. Some applications or property tax filings also entail administrative fees.

## EVALUATION

*Provided by the Oregon Business Development Department*

This tax expenditure achieves its purpose. The program continues to be associated with numerous job-creating investments (mostly by in-state companies), located in more economically challenged areas of Oregon. The jobs should help improve the material quality of life for many existing residents through employment opportunities and in indirect ways. Although a few zones have been unable to foster new re/investment, most have had at least some activity.

The following data for outcomes come from the latest reports annually prepared for the Department of Revenue (DOR) by county assessor's offices, and they are subject to diligent follow-up and quality checking annually by OBDD, which receives copies of the reports. The data again show a program that has expanded substantially over the years in terms of business investment and employment.

In the 2022–23 tax year, these county reports showed 408 standard exemptions. These exemptions affected $60.6 million in taxes extended (as directly reported by the counties). Another 84 exemptions of 3 to 5 years are expected to begin in 2024 on investments completed in 2023 and costing $1.7 billion. For those exemptions ongoing in 2022–23, approximately $5.6 billion in private investment was made by business from 2018 to 2022.

All told, these exemptions (including new ones in 2024) encompass 305 distinct projects by about 265 different business firms; both figures are smaller by 46 and 45 compared to two years ago. Sixty-eight percent of the companies were already operating inside the enterprise zone. The firms' total number of employees working in full-time, year-round jobs totaled 34,913 in 2023 or by early 2024, of which 15,508 were jobs newly created with the exemption, as reported by the companies in claiming exemptions on DOR forms filed with the county assessor.

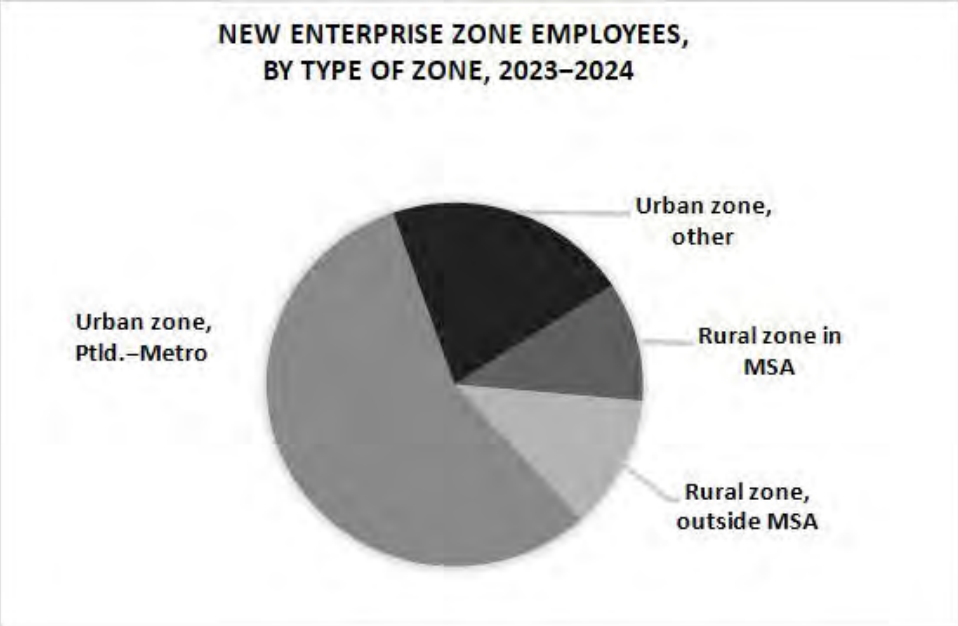
Dividing estimated property taxes abated over several years by those new direct jobs is about $13,500 in property taxes per employee with some variation depending on the method used. This sort of measure can vary wildly by project, from less than $100 per job to greater than $100,000, skewing the average, such that property taxes per job would drop dramatically if excluding but a few of the most capital-intensive projects.

Consistent, straightforward employment criteria (which local governments can waive in certain situations) control a qualified business firm's receipt of the standard enterprise zone exemption. The respective tax benefit depends simply on how much qualified property the business firm owns or leases at the time. This is how exempting property from taxation works, but the effect as an inducement can be rather blunt from a policy perspective. Given the nonlinear

nature of capital investment, it has long been the case that a handful of enterprise zone businesses (10 or less) overwhelmingly account for most exempt property and thus taxes forgone each year.

Undoubtedly, some enterprise zone investments would have been made even without this tax inducement, but they would tend to be among the many smaller projects comprising relatively little exempt property value overall. As investment size grows, the present-value benefit of avoiding taxes during a project's early years becomes increasingly significant for a firm's cash-flow analysis, not only in encouraging, attracting, and retaining sizeable capital investments and associated traded-sector jobs in Oregon, but also in terms of expediting or expanding the actual business operations. In addition, this program can militate private investment toward places with underutilized economic resources.

Most of program activity and job creation occur in the urbanized Portland region. The following chart distributes new jobs among zones in the METRO urban growth boundary, other urban enterprise zones, rural zones inside the 13 Oregon counties that are part of a metropolitan statistical area (MSA), and all other rural designations:



The *Property Tax Incentives Impact Study*, by Applied Economics (Business Oregon, Salem, February 2022) compiled data from the Oregon Employment Department on the change in payrolls related to business projects that were still actively using the expenditure during the 2019-21 biennium. The data were modeled to estimate indirect and induced employment effects in Oregon, and the overall return on investment (ROI) was found to be especially robust for this expenditure relative to estimated net property taxes lost while the projects were exempt, including the offset of In Lieu revenue. The study also addressed various quantitative and qualitative matters, including other local and state costs and benefits.

More immediately in terms of post-exemption properties, $652 million in assessed value of formerly exempt property was added to the 2023 rolls, rendering additional taxes of $18.3 million in the second half of the current biennium, for which Multnomah County does not report, and which does not include disqualified exemptions or special payments (see In Lieu above). Some of this added value would have occurred eventually, of course, possibly with a very different facility by another business, but not necessarily for a long time, as indicated anecdotally with the effect of newly designated enterprise zones on sites that had long gone undeveloped. Much of the once-exempt machinery and equipment is also not retired or removed for many years, or it may give rise to related/replacement investments that do not qualify for subsequent exemption.

Looking ahead—based on local applications for authorization copied by zone sponsors to OBDD by the beginning of July 2024—77 additional projects are proposed to begin exemptions in 2025 or later years, with a conservative number of 1,659 proposed new hires in addition to approximately 8,000 existing enterprise zone employees of the authorized business firms. These new projects would entail nearly $6.7 billion of further investment, consisting mostly of high-technology or data-processing operations in the Hillsboro Enterprise Zone. This represents an extraordinary amount of

anticipated capital expense by enterprise zone businesses, which explains the much higher revenue impact projection for the 2025–27 biennium.

Enterprise zones are relatively common across Oregon; their benefits are the same throughout the state, and the zone typically covers all relevant land or sites for trade-sector development within a defined area. These characteristics allow a wide spectrum of traded-sector businesses to participate while adhering to uniformity and other strictures for taxation in the State Constitution.

This expenditure is also fiscally effective. Administration while highly decentralized is manageable, inexpensive, and minimizes the possibility of abuse. The short time frame of the exemption, three to five years, will tend to moderate revenue impacts. One alternative would be an income tax credit, but that could present greater challenges to administer and enforce, and any anticipated lack of immediate state income tax liability would substantially lessen its attractiveness to businesses. This type of expenditure also affords economic-administrative advantages and efficiencies compared to a directly funded grant to influence business development decisions about where and when to locate or expand.

Diverse enterprise zone programs are still found in most other states, many of which also offer high-impact, statewide incentives that Oregon does not. Oregon's enterprise zone system continues to stand out for its rural basis, local control, and reliance on property tax relief.

Finally, on a broad, statewide level, Oregon enterprise zones are one of, if not the state's premier tool for stimulating increased business investment across many traded-sector industries, including in competition with places outside of Oregon for retaining existing operations in Oregon. While many of the projects indicated above would also involve other local and state attributes, efforts, or programs, the standard exemption from property taxes is oftentimes the only significant inducement that the locality and Oregon can bring to bear.

## 2.014 LONG TERM RURAL ENTERPRISE ZONE (PROPERTY TAX)

**Oregon Statute:** 285C.409
**Sunset Date:** 06-30-2032 (local certification)
**Year Enacted:** 1997
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $12 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $356,000,000 | $28,000,000 |
| 2025-27 | $389,000,000 | $30,600,000 |

### DESCRIPTION

The value of all new property and improvements at qualifying facilities in a rural enterprise zone can be exempt from property tax for 7 to 15 years as determined by an agreement between the business operating the facility and the local zone sponsor (city, port, or county). This new property can also be exempt while under construction for an unlimited number of years. To receive these exemptions, the business must also have approval by resolution of the city and county in which the proposed facility is located. Unlike business operations receiving a three- to five-year exemption under ORS 285C.175 (see 2.013, Enterprise Zone Businesses), any type of business activity is eligible for this tax expenditure. Recent legislation HB 2009 (2023) extended the sunset date for the long-term rural enterprise zone program to June 30, 2032.

In addition to being in a rural enterprise zone at the time of the agreement, the facility also needs to be inside one of presently 25 eligible counties (currently containing 37 of Oregon's 55 rural zones) that:

- Meets statutorily prescribed criteria for net out-migration or chronically low per capita income or high unemployment, or
- Is a qualified rural county (QRC), defined as a county outside a federal metropolitan statistical area (MSA) with a general countywide property tax rate of at least 1.3 percent.

The locally certified business must then meet specific requirements for minimum investment costs, new full-time hires, and average annual employee wages and compensation at the facility, as shown in the table below for facilities that begin their exemption in or after 2018. If a qualified business fails to meet those requirements, previously abated taxes must be repaid.

| Minimum qualifications: Long-term rural enterprise zone facility | |
|---|---|
| **Criteria** | **Minimums** |
| Investment ($) by end of year when operations begin (including existing, nonexempt property) | 1% of total county real market value (RMV) up to $25 million - or 0.5% of county RMV up to $12.5 million if facility is 10 miles or more from Interstate 5 (I-5) |
| Full-time hires by business at facility | 75 by end of 6th year - or if 10 miles or more from I-5: 50, 35 (if county population 40,000 or less), or 10 (if county population 10,000 or less or investment is greater than $200 million) by end of 4th year |
| Average annual employee compensation (including benefits) | At least 150% (130% if in QRC) of county average annual wage by end of 6th year and thereafter maintain at that level |
| Average annual employee wage | At least 100% of county wage in every year after meeting compensation criterion |

HB 2009 (2023) added a requirement that in the sixth and later years of the exemption period, the business pays a fee to the local school for the support of the statewide school system. The zone sponsor and school district must have previously established the rate for the fee between 15 and 30 percent of each year's total tax savings, as also applies to extended abatements of 2.013, Enterprise Zone Businesses.

A business locally certified before July 1, 2018 may also claim a corporate excise tax credit if formally allowed by the Governor. See 1.418, Long Term Rural Enterprise Zone Facilities (Income Tax).

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose for this expenditure. Presumably, it expands on the purpose of enterprise zones generally: "To stimulate and protect economic success … throughout all regions of the state, but especially … outside major metropolitan areas for which geography may act as an economic hindrance … by providing tax incentives for employment, business, industry and commerce and by providing adequate levels of complementary assistance to community strategies for such interrelated goals as environmental protection, growth management and efficient infrastructure" (ORS 285C.055).

## WHO BENEFITS

Businesses operating certain specially certified facilities in rural communities. As of 2024, a total of 17 facilities of 9 distinct companies were receiving a long-term rural enterprise zone facility (post-construction) exemption.

## IN LIEU

The agreement between the business and the sponsor of the rural enterprise zone may include additional requirements requested by the sponsor, including but not limited to contributions for local services or public infrastructure benefiting the facility. Agreements typically have stipulated a schedule of other local payments during the exemption period, which benefit sponsoring governments and the local community.

## EVALUATION

*Provided by the Oregon Business Development Department*

Besides two lumber manufacturers in Douglas and Klamath counties, this program currently consists of facilities that process either data or food, including massive, follow-on investments by Amazon, Apple, Facebook and Google in the counties of Crook, Morrow, Umatilla and Wasco, in which the original exemption for Google expired in 2022. Other certified facilities yet to begin a 7 to 15-year exemption include additional Amazon data centers in Morrow and Umatilla counties and two food-processing facilities in Deschutes and Morrow counties. The Big Beam/Fort George Brewery facility in Clatsop County demonstrates that new facility investments can be far from the massive amounts seen in other cases, in order for a business to utilize this program.

From 2021 to 2023, the exempt value with the 17 facilities receiving (in all but one case) 15-year property tax abatements under this expenditure grew from $8.8 to $12.8 billion. The exempt value of these facilities ranges from several million to a couple billion dollars. In 2023, the total property tax effect of the exemptions was $187.5 million.

It is possible, and perhaps likely, that if Oregon did not have this program, these major investments in rural areas would not have happened there, and other prospective investors would not be looking so seriously at rural Oregon, which faces considerable economic challenges compared to metropolitan areas. In addition, they are rather extraordinary projects, for which there is strong probability that nowhere near that amount of taxable property would otherwise exist at those locations or elsewhere in the state. That Oregon offers other advantages for these investments—for example, cost of electricity, climate, and absence of any sales and use tax in the case of data centers—does not overturn that assessment. Businesses considering major investments will typically have comparably profitable options, such that property tax relief might still be indispensable for such rural development opportunities.

For purposes of the distribution of state revenue in association with the (former) state tax credit noted above, counties provide a limited report to Department of Revenue on the property taxes currently being forgone under this tax expenditure at the end of each calendar year. Program administration and compliance are entirely a local, *ad hoc* matter, with nothing by way of statutory provisions. The Oregon Business Development Department (OBDD), however, has created administrative tools to assist in monitoring hiring and other criteria by local entities

## 2.015 BROWNFIELD DEVELOPMENT

**Oregon Law:** Ore. Laws 2016 c.96 and 2019 c.492
**Sunset Date:** 01-01-2027
**Year Enacted:** 2016
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

NOTE: The revenue impact estimate includes the effect of the sunset

### DESCRIPTION

This provision allows a local governing body of a city, county, or port to adopt an ordinance or resolution providing for a program that offers property tax incentives for any land that constitutes a brownfield located within the jurisdiction of the city, county, or port. The property tax program as specified in the local ordinance may contain either or both of the following:

- Special assessment of the brownfield land
- Exemption or partial exemption of improvements and personal property on the brownfield land

The following properties are not eligible for a local brownfield development property tax incentive program:

- Properties centrally assessed under ORS 308.505 to 308.681 by the Department of Revenue
- Industrial properties assessed by the Department of Revenue
- Superfund sites

The local ordinance does not become effective unless the taxing districts representing at least 75 percent of the property taxes within that location agree to the property tax incentive program.

Other elements of this program include:

- The owner of the property must obtain, as applicable, a site evaluation by a state registered geologist or professional engineer. If the evaluation shows that the site needs remedial action due to the presence of

hazardous substances, then such remediation must be conducted under a process authorized by the Department of Environmental Quality.

- The period for which the property tax incentive program benefits may be granted, not to exceed ten years, must be specified by the local ordinance. However, the ordinance may allow for an additional period, not to exceed five years.
- For ordinances that contain a provision for a special assessment, the special assessment is based on the real market value of the property if the property were not a brownfield minus the eligible costs required to clean up and contain the brownfield. Eligible costs include costs associated with site evaluations and remedial action, demolishing existing improvements as needed to complete remedial action, treating and disposing of hazardous waste and materials that contain hazardous waste, and constructing or modifying existing improvements to contain or abate hazardous substances. Eligible costs are reduced by government grants, tax credits, insurance proceeds or legal settlement funds received to offset remediation costs.
- For an ordinance that contains an exemption or partial exemption of improvements and personal property on a brownfield, the ordinance must state the percentage of the exemption to be applied to the real market value of the improvements and personal property.
- A local government may adopt other provisions, so long as they do not conflict with the statutory requirements.
- Property receiving a benefit under this program will continue to do so until the earlier of: the benefit period expiring, the date on which the dollar amount of the benefit equals the eligible costs for the property, or discovery that the owner of the brownfield failed to comply with the agreement. If the land is specially assessed, the owner must report annually the eligible costs incurred, for purposes of verification against the benefit limit.
- Upon disqualification, the taxes that would have been due for all prior years, if not for the benefit, are added to the next tax roll.

If a local governing body adopts both a special assessment and an exemption or partial exemption program, the two tax benefits must be granted concurrently for any property.

Applications are made to and approved by the local jurisdiction and may require an application fee. Property approved for the benefits may also be charged a fee by the county assessor. Legislation in 2016 (HB 4084) enacted this provision and scheduled it for repeal in 2027. The last day a local governing body can adopt an ordinance as specified by this provision is January 1, 2027. Despite such a repeal of the state law, property that has been granted a benefit under this provision will continue to receive the benefit for the specified term, provided that all other conditions are met. At any time, a local governing body may amend or repeal its program for property tax incentives related to brownfields. However, property that is receiving a benefit at the time the local program is amended or repealed will continue to receive the tax benefit under the conditions that were in place when the tax benefit was initially granted.

Originally, property was ineligible for this brownfield tax incentive if the property was granted any other special assessment, exemption, or partial exemption for the same tax year. Legislation in 2019 (HB 2699) enabled property benefiting from this brownfield tax incentive to be granted any other special assessment, exemption, or partial exemption for the same property tax year, provided that the total property tax liability of the property is not reduced below zero.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to allow the governing body of a city, state, or county, or port to provide a tax incentive program to encourage owners of brownfield land to take remedial action on the land, so that it is possible the land can be developed.

## WHO BENEFITS

Owners of brownfield land who take remedial action on that land. In tax year 2023-24, counties reported three accounts that benefited from this exemption.

## EVALUATION

*Provided by the Department of Environmental Quality*

DEQ recommends maintaining Oregon Laws 2016, Chapter 96 because it is a valuable tool for local governments to increase brownfield cleanups and redevelopment throughout Oregon. Implementation of brownfield tax incentives will contribute to creating a market for the brownfields properties, help in allowing for the cleanup and mitigation of these properties, and help to address the high costs of brownfield remediation that often hinder redevelopment opportunities throughout our communities in Oregon. Brownfield investigations and remediation costs (if necessary) create additional barriers to community based organizations, including those representing environmental justice communities. Cleanup and redevelopment of brownfields will result in reduced human health and environmental risk from exposure to contaminated sites, as well as provide public benefits including affordable housing, and community amenities such as parks, access to healthy food, and services not currently available. Brownfield cleanup and redevelopments also create job opportunities via cleanup implementation, site development, and site reuse.

Since Oregon Laws 2016, Chapter 96 was enacted in 2016, local governments have been considering how to implement this law in their jurisdictions. It takes communities some time to learn how to implement new legislation in their communities and draft legally sound ordinances/resolutions. In June 2018, Marion County became the first local government to implement Oregon Laws 2016, Chapter 96 by adopting Ordinance 1390.

The Oregon Brownfield Coalition fully supports Oregon Laws 2016, Chapter 96. The coalition is a group of more than 50 public, private, and nonprofit organizations dedicated to finding solutions to the statewide problem of brownfield contamination. Coalition members have expressed that the tax incentive authority is absolutely needed by local governments. The Oregon Brownfield Coalition has not convened since late 2020.

# 2.016 NEW INDUSTRIAL PROPERTY IN RURAL AREAS

**Oregon Law:** Ore. Laws 2016 c.112, 2018 c.111 §15, and 2019 c.575
**Sunset Date:** 01-01-2030
**Year Enacted:** 2016
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $3.7 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

## DESCRIPTION

This provision allows a governing body of a city or county to adopt an ordinance or resolution granting a limited-duration property tax exemption or tax deferral for industrial property located within the boundaries of that city or county. The local ordinance does not become effective unless the taxing districts representing at least 75 percent of the applicable property taxes agree to the property tax incentive program.

The following criteria must be met according to the local governing body's ordinance or resolution for the property to receive an exemption or tax deferral:

- The industrial property must be newly constructed or installed in a rural area, whether or not the location has formerly been used for industrial purposes. "Rural area" for the purpose of this provision is defined as an area located in unincorporated territory, or in a city with a population of less than 40,000, that is located entirely outside of urban growth boundaries of any city with a population of 40,000 or more.
- The property must be newly constructed or installed industrial property and must have a cost of initial investment of at least $1 million and not more than $25 million.
- The applicant must meet employment or other conditions per agreement with the city or county.

- Unless the city or county specifies otherwise, the exemption is granted at 100 percent of the real market value of the qualified property for any three out of five consecutive property tax years.
- The county or city may specify in the ordinance or resolution:

A minimum cost of initial investment greater than $1 million,

- Number of years not greater than five for which exemption is granted,
- The percentage of real market value of the qualified property granted exemption each year, and
- Different schedules in each property tax year for the number of exempt years and percentage of real market value exempt, depending on the minimum cost of initial investment.

Instead of an exemption, a city or county may adopt an ordinance that defers the payment of tax that otherwise would be exempt as described above for qualified property. Interest does not accrue while the taxes are deferred. As with an exemption, the deferral cannot be granted for more than five tax years. The first year of deferred taxes are billed and due in the first tax year after the deferral ends. The second year of deferred taxes are billed and due in the second tax year after the deferral ends. This pattern continues for each deferred tax year, year by year, until all deferred taxes are billed.

At any time, a city or county may amend or terminate their ordinance for exemption or deferral on qualified industrial property. However, a property that is receiving an exemption or deferral at the time that the ordinance is amended or terminated will continue to receive the exemption or deferral that was in place when the exemption was initially granted.

Property cannot receive both this exemption or deferral and any other exemption or special assessment (excluding 2.011, Commercial Buildings Under Construction).

If exempt property is not used in the manner or location for which it had been approved, or employment or other agreement terms are not met, the property may be disqualified from exemption and previously exempted tax would be charged on the next tax roll.

Legislation in 2018 (HB 2048) made some technical modifications to the definition of the “eligible location” for the industrial property to qualify for the property tax exemption. Legislation in 2019 (HB 2053) made a change to the due date for meeting employment requirements. Recent legislation in 2023 (HB 2080) extended the last day a local governing body can adopt an ordinance specified by this provision to January 1, 2030.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2080 (2023), “The policy purpose of this measure is to allow cities and counties the ability to provide temporary property tax relief to industrial owners newly constructing or installing qualified industrial improvements in rural area, thereby encouraging business investment in such property and contributing to overall economic development.”

## WHO BENEFITS

Owners of industrial property in rural areas who construct or install new industrial property improvements.

## EVALUATION

*Provided by the Oregon Business Development Department*

This tax expenditure might contribute to economic development in Oregon by offering rural city/county jurisdiction an alternative to enterprise zones (see 2.013, Enterprise Zone Businesses) in a few cases, especially unincorporated areas with economic conditions that would not allow for zone designation. The department, nevertheless, lacks the data or direct experience to address it further, except to observe that the promulgation of the necessary ordinance, local district concurrence, and development of program apparatus at the local level necessitates a great deal of time and special efforts, as undertaken in Marion County, where this tax expenditure is currently being used.

# 2.017 INDUSTRY APPRENTICESHIP/TRAINING TRUST

**Oregon Statute:** 307.580
**Sunset Date:** None
**Year Enacted:** 1983
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $47 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $1,500,000 | $400,000 |
| 2025-27 | $1,600,000 | $400,000 |

## DESCRIPTION

All real and personal property owned, held under contract of sale, or leased by an industry apprenticeship or training trust is exempt from property taxation if the industry apprenticeship or training trust meets all of the following conditions:

- The trust is organized only for assisting or implementing training programs according to ORS Chapter 660, Apprenticeship and Training
- The property is used exclusively and actively in training
- The trust is exempt from federal income taxes
- The trust does not discriminate based on age, race, religion, sex, or national origin.

The organization must file an application with the county assessor to claim the exemption. Industries and occupations likely to benefit from this exemption may include carpentry, electrical, masonry, plumbing, sheet metal, painting, mechanical, and machinist trades.

Legislation in 2023 (HB 2507) allowed the exemption to be kept if the property is used by a nonprofit corporation organized under section 501(c) of the Internal Revenue Code for a period of no more than seven consecutive days or a total on 30 cumulative days during any property tax year.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to provide equity between training trusts and other private schools. Trusts cannot qualify for an exemption under other statutes because they are not incorporated and are prevented from doing so by federal regulation. Many skilled labor occupations require an apprenticeship period to obtain a license in Oregon, and apprenticeship trusts provide training often unavailable at traditional schools.

## WHO BENEFITS

The exemption lowers the cost of operation to the apprenticeship trusts. Seven counties reported 36 accounts for this exemption in tax year 2023-24.

## EVALUATION

Not evaluated.

# 2.018 RURAL RENEWABLE ENERGY DEVELOPMENT ZONE

**Oregon Statute:** 285C.362
**Sunset Date:** None
**Year Enacted:** 2003
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $190 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $5,300,000 | $400,000 |
| 2025-27 | $10,700,000 | $900,000 |

## DESCRIPTION

Qualified property is exempt from property tax in a Rural Renewable Energy Development (RRED) Zone if used for the generation of electricity from a "renewable energy resource" or for the manufacture, storage, or distribution of biodiesel, ethanol or similar fuels made from applicable inputs, subject to certain criteria. The exemption can last up to five years.

Counties, cities in rural counties, or a combination of contiguous rural counties can request the Oregon Business Development Department to designate them as a RRED Zone, encompassing all rural territory of the jurisdiction(s), which is defined as any area outside the urban growth boundary of cities with a population of 30,000 or more. From 2006 to mid-2024, 18 counties and one city have been designated as RRED Zones, and some have been re-designated either after terminating by operation of law or to refresh the $250-million cap discussed below. Currently, there are 13 counties and the City of Pilot Rock designated as RRED Zones.

RRED Zones are indistinguishable from an enterprise zone in terms of the standard property tax exemption that it provides (see 2.013, Enterprise Zone Businesses), except that the zone sponsor (typically, the county government) may waive the requirement to increase employment for projects with investment costs of $5 million or more. The geography, however, for a RRED Zone is quite different. The entire (rural) territory of the applicant zone sponsor is designated as a zone, which may be is helpful in accommodating physically expansive developments, such as solar or wind farms. Biofuel projects could just as easily use an existing enterprise zone.

The overall amount of exempt property allowed over time within the zone is set by a local resolution with the zone's designation, and by default, it cannot exceed $250 million (increased from $100 million in 2007) in terms of the real market value of property at the outset of the exemption period.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose for this expenditure. Presumably, it is to further renewable energy business development.

## WHO BENEFITS

Firms involved in the production of biofuels or electricity from renewable energy resources in rural communities. In fiscal year 2023–24, four solar energy projects in Crook and Jefferson counties received this exemption.

## EVALUATION

*Provided by the Oregon Business Development Department*

This expenditure has contributed to its purpose. Several businesses have placed projects into service, including biofuel production, community-size wind farms, geothermal power generation, and utility solar installations in rural areas, motivated in part, it seems, by this incentive. Current exempt projects employed at least a handful of people full time. (RRED Zone tax and other data are sometimes included as part of the annual county assessor reports required for standard enterprise zone exemptions, 2.013, Enterprise Zone Businesses)

Wind farms were the originally intended use of this expenditure, but the huge increase during the mid- to late 2000s in their sheer size meant that they turned to a program more appropriate for such increasingly massive capital investments—see 2.100, Strategic Investment Program. After 2010, the RRED Zone program saw a number of different types of projects, but use later subsided.

Subsequently, greater solar energy development arose and applied for authorization in the RRED Zones, but for a time, some of them and other solar farms instead used another tax expenditure—see 2.047, Solar Projects. Then, for several years, solar developers found greater favor with RRED Zones, and interest for re /designations of such zones grew as a result (and because of possibilities with harnessing wave or tidal energy). Investments in utility scale solar energy were often approved in RRED zones using the $5 million waiver noted above, absolving them of necessarily maintaining one or more employees inside the zone (typically the entire county). The relative attractiveness of 2.047, Solar Projects was more recently improved by 2021 legislation (SB 154).

Nevertheless, the RRED Zone statutes offer a clearer basis for counties to negotiate side issues with energy developers, including possibly additional 'in lieu of like' payments. This expenditure may also represent a better deal for other local taxing districts that depend more on property tax revenues.

## 2.019 HOUSING AUTHORITY RENTAL PROPERTIES

**Oregon Statute:** 307.092
**Sunset Date:** None
**Year Enacted:** 1937
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.2 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $39,100,000 | $9,400,000 |
| 2025-27 | $44,300,000 | $10,700,000 |

### DESCRIPTION

Property that is owned or leased by housing authorities is considered to be public property and is exempt from all state and local taxes and special assessments. This exemption does not apply to commercial property of the housing authority which is leased to a taxable entity.

Property held in a partnership with private partners is also exempt so long as the housing authority is the general partner or manager of the property, and the property is used for housing low-income persons.

Housing authorities are public corporations at the city or county level created under ORS 456.055. They provide affordable housing services to low-income individuals and families.

### PURPOSE

The exemption recognizes housing authority property as "public property used for essential public and governmental purposes" (ORS 307.092) and gives it the same exempt status as other public property. Presumably, the exemption also facilitates authorities providing lower rents to low-income renters.

### WHO BENEFITS

In tax year 2023-24, approximately 1,312 property accounts in 24 counties around the state received this exemption.

### IN LIEU

A housing authority can agree to make payments in lieu of tax payments for improvements, services, and facilities furnished by local governments, such as streets, lighting, water, and sewer.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose of supporting housing authorities. Based on research, this statute was required with the federal Housing Act of 1937 that created housing authorities. Since then, the exemption has proven to be a critical component of their ability to provide more units of housing and homes at more affordable rates to very low-income Oregonians.

The exemption achieves affordable rents in the following two ways. First, approximately 50 percent of housing authority tenants pay a rent of 30 percent of their income. That is the maximum they can pay under federal law in

public housing—that is, federally subsidized, housing authority owned housing. The balance of their rent is paid by the federal government through the housing authority. Tenant rent cannot be increased if the cost of their housing unit is increased. The benefit of the property tax exemption in these units is that the housing authorities can make more homes available to a larger number of tenants than if there were no exemption.

Second, approximately 50 percent of the tenants live in housing owned by housing authorities but not subsidized by the old federal public housing subsidies. Instead, this housing has been financed through a mix of commercial loans and "off market" financing sources including federal Low Income Housing Tax Credits, the Oregon Housing Fund, and the property tax exemption. In these housing developments, rent is not restricted to 30 percent of income. Even though the tenants are low income, their rents are directly related to construction and operating costs. The property tax exemption is a substantial part of making these units affordable to low-income households.

Many of the people who benefit from this expenditure are the most vulnerable in the local community. This exemption successfully achieves its purpose. The process for providing the exemption is very straightforward and easily administered; upon demonstration of a housing authority's qualifying relationship to a given piece of property, the exemption is granted. It is unlikely that local jurisdictions would prefer to collect taxes and use them in a direct spending program to achieve the low-income housing development that this exemption makes possible. The exemption is also the most fiscally effective means of achieving its purpose.

## 2.020 LOCAL GOVERNMENT OWNED LOW-INCOME HOUSING

**Oregon Statute:** 307.110(3)(h)
**Sunset Date:** None
**Year Enacted:** 2013
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $130 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $3,900,000 | $700,000 |
| 2025-27 | $4,300,000 | $800,000 |

### DESCRIPTION

In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. However, property of any county or city, town or other municipal corporation or political subdivision of Oregon that is used for affordable housing or is leased or rented to persons of lower income is exempt from property taxation. A person of lower income is a person whose income is not greater than 80 percent of the area median income, adjusted for family size, as determined by the Oregon Housing and Community Services Department using United States Department of Housing and Urban Development information.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 3112 (2013), the purpose of this provision "…is to provide cities and local governments with the ability to acquire property to build and maintain adequate low-income housing."

### WHO BENEFITS

In 2023-24, counties reported that there were 65 accounts receiving this exemption across two counties.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose. By allowing city and county affordable housing projects to be exempt from property taxation, the operating costs of the project are reduced. While not all cities and counties have the organizational and budget capacity to own and operate affordable housing, for those that do have the capacity, this reduction to operating costs serves as an incentive to acquire, build, and maintain affordable housing rental resources for low-income households.

## 2.021 FEDERAL LAND UNDER SUMMER HOMES

**Oregon Statute:** 307.183 to 307.184
**Sunset Date:** None
**Year Enacted:** 1975
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Not Available

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Available | Not Available |
| 2025-27 | Not Available | Not Available |

### DESCRIPTION

In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. However, the land under summer homes that is owned by the Forest Service or Bureau of Land Management and used by permit or lease is exempt from property tax. The summer home, other buildings or structures, and improvements to the land (water or septic systems, electric service, and landscaping) are all taxable to the lessee.

### PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to avoid the administrative difficulty of valuing federal property that has restrictions on land use.

### WHO BENEFITS

Owners of summer homes on federal land with special use permits for residential purposes.

### EVALUATION

Not evaluated.

## 2.022 FEDERAL LAND UNDER RECREATION FACILITY

**Oregon Statute:** 307.182
**Sunset Date:** 06-30-2030
**Year Enacted:** 1975
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $5.3 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $100,000 | Less than $100,000 |
| 2025-27 | $100,000 | Less than $100,000 |

### DESCRIPTION

In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. This provision ensures that federal government land remains exempt from property tax when occupied and used by a commercial recreation facilities operator under a permit. Examples are ski resorts and lake marinas on federal land. Only the land is exempt. All real and personal property improvements are taxable to the taxpayer having possession of the property.

This exemption applies only to recreation facility land held under permit. Some recreation facility land is held only by lease and is thus taxable.

This property tax exemption was allowed to sunset on June 30, 2012; however, legislation in 2013 (SB 549) reinstated this exemption retroactive to tax year 2012–13 and set a sunset date of June 30, 2024. Recent legislation in 2023 (HB 2080) extended the sunset date to June 30, 2030.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2080 (2023), the purpose of this credit is "to acknowledge the fees paid by permit holders to the Forest Service, 25 percent of which is returned to counties. It is also to avoid the administrative difficulty of valuing federal land with restrictions on land use."

### WHO BENEFITS
Operators of recreational facilities that operate under permit on federal land benefit from this exemption.

### IN LIEU
Recreational facilities pay for permits to use the land. Twenty-five percent of the fees paid to the Forest Service are shared with counties.

### EVALUATION
*Provided by the Oregon Business Development Department*

This expenditure achieves its purpose. Recreation areas that benefit from this legislation are on Forest Service land via a Special Use Permit. This permit, while long term, is very restrictive and not at all like a typical, private landlord–tenant arrangement. These restrictions make it very difficult to establish a value on the property. In addition, removal of the property tax exemption for recreation facilities on federal lands would subject these areas to some level of double taxation unless other adjustments were also made. Moreover, exceptional legal complexities might attend efforts to assess taxes on land effectively still under federal ownership and control. Finally, this tax expenditure would help sustain and control costs at recreational opportunities, including as attractions for spending by out of state tourists that could benefit the state as well as local economies.

## 2.023 NONPROFIT ELDERLY HOUSING STATE FUNDED

**Oregon Statute:** 307.242
**Sunset Date:** None
**Year Enacted:** 1977
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $110 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $3,400,000 | $800,000 |
| 2025-27 | $3,600,000 | $900,000 |

### DESCRIPTION
Group homes for the elderly built or acquired after January 1, 1977 by private nonprofit corporations (defined in ORS 307.375) that receive subsidies under certain federal and state housing programs are exempt from property taxation. Only the land and improvement value, not personal property, may be exempted. The corporation may not charge more than one month's rent as a "move in" fee or deposit, and rents must reflect the property tax savings. The occupants do not qualify for the veteran's exemption or homestead tax relief. If the corporation receives a state subsidy, any property added after January 1, 1990 is not eligible for exemption.

### PURPOSE
To "assist private nonprofit corporations to provide permanent housing, recreational and social facilities, and care to elderly persons" (ORS 307.241).

### WHO BENEFITS
Residents of exempted homes who pay lower rent as a result of the home not paying property tax. In tax year 2023-24, 13 counties had 43 homes receiving this exemption.

### IN LIEU

An annual claim must be filed with the county assessor to receive the exemption. If approved, an amount equal to what the exempt taxes would have been is billed to the Department of Revenue instead of the property owner. Funds to pay these amounts are appropriated by the legislature from the General Fund. If the General Fund appropriation is not sufficient to pay the liabilities in full, then all of the amounts paid are prorated to no more than the appropriation amount. In the event that this proration is necessary, it will result in a revenue loss to the taxing districts. For 2023-24, proration was needed, and the payments made by the state totaled approximately $1.82 million, about $241 thousand less that the total tax liability of $2.061 million.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

Generally, this expenditure appears to achieve its purpose. The effect of the state funded tax relief is to reduce housing project operating expenses, thereby reducing the rents to project occupants. Tenants otherwise would have to support the property taxes through the monthly rent they pay. The average monthly rent reduction is about $40 per unit. For seniors on fixed incomes, any rent reduction can be significant.

Because eligible project sponsorship or ownership is limited to nonprofit corporations, it is assumed the full benefit of the tax relief is passed on to the project tenants. As OHCS does not income verify residents, it is also assumed that the elderly households that reside in eligible housing projects have limited incomes that warrant the benefit of this rent reduction.

The current annual application process is very time consuming and involves a minimum of six separate steps each year. The administrative steps for county government include: 1) mail applications to each qualifying nonprofit, 2) verify information received from each applicant, 3) provide a copy of the information to the Department of Revenue, 4) notify applicant of approval/denial, 5) send tax statements and certification letter to the Department of Revenue for payment, and 6) notify applicant that the taxes have been paid. An alternative to the annual application could be a statement of compliance from the qualifying nonprofit if verification is required.

An alternate means to provide an equal benefit to the project residents would be a rent subsidy program. However, administration of a rent subsidy program would be more administratively burdensome than the existing subsidy.

A direct property tax exemption may be a more efficient means to provide a like benefit to the project tenants. However, local taxing districts (such as cities and schools) would not receive compensating income if a direct property tax exemption were implemented in lieu of the tax relief program. This revenue loss would be relatively small when considered in the context of the overall scope of exemptions and special assessments. However, property taxes are direct expenses that affect the operating costs of rental housing. Without this exemption, seniors would likely experience corresponding increases in rent payments.

## 2.024 INVENTORY

**Oregon Statute:** 307.400
**Sunset Date:** None
**Year Enacted:** 1969
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $29 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $925,000,000 | $222,000,000 |
| 2025-27 | $981,000,000 | $235,000,000 |

### DESCRIPTION

Inventory is exempt from property taxation. In general, inventory is tangible personal property that is or will become part of the stock held for sale in the ordinary course of a taxpayer's business. This includes materials, supplies, containers, goods in process, finished goods, and "for sale" inventory, but not machinery and equipment used to

produce these goods. The revenue impact of this tax expenditure includes the revenue impact of 2.028, Ship Repair Facility Materials.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to eliminate the tax compliance burden of enumerating inventory and to eliminate behavior specifically aimed at reducing inventories on the date of assessment.

### WHO BENEFITS
Manufacturing, wholesale, and retail trade businesses are the primary beneficiaries of this exemption.

### EVALUATION
Not evaluated.

## 2.025 BUSINESS PERSONAL PROPERTY AND RESIDENTIAL FLOATING STRUCTURES

**Oregon Statute:** 308.250(2)(a)
**Sunset Date:** None
**Year Enacted:** 1979
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $390 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $10,500,000 | $2,000,000 |
| 2025-27 | $11,400,000 | $2,100,000 |

### DESCRIPTION
Business personal property required to be reported under ORS 308.290 and existing, unmodified residential floating structures are exempt from property tax if the total assessed value of such personal property of a taxpayer in a year is less than the specified maximum. The maximum threshold is $22,500 for the tax year beginning July 1, 2024. It is indexed annually to inflation.

To receive an exemption from property tax for business personal property where one did not exist in the previous tax year, the taxpayer must file a business personal property return with the county assessor. After receiving an initial exemption of property tax on this property, in order to maintain the exemption for future years, the taxpayer may file an annual statement declaring that the value continues to be less than the threshold. If the taxpayer has added or deleted personal property since the prior assessment year, the taxpayer is required to submit to the county assessor a signed business personal property return with an updated asset detail list on or before March 15. Business personal property can include items such as office furniture, industrial machinery, commercial floating structures, and equipment.

In 2017, the Legislature (HB 2573) changed this expenditure from a cancellation of property tax to an exemption from taxation. In 2022, the Legislature (SB 1559) added residential floating structures to the statute exempting business personal property below the threshold.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to reduce filing burdens for small businesses and owners of residential floating structures, as well as to reduce administrative costs related to the processing and collections of small business personal property or residential floating structure tax accounts.

### WHO BENEFITS
Counties reported that approximately 70,000 property tax accounts benefited in tax year 2023-24.

### EVALUATION
Not evaluated.

## 2.026 CARGO CONTAINERS

**Oregon Statute:** 307.835
**Sunset Date:** 06-30-2026
**Year Enacted:** 1979
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $5.3 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $200,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION
All cargo containers principally used for the transportation of cargo by vessels in trade and ocean commerce are exempt from property tax. Cargo containers must be designed for carriage of goods by vessels, be strong enough for repeated use, and be fitted with handling devices. In 2019 (HB 2130), the Legislature extended the sunset date to June 30, 2026.

This statutory exemption applies to containers owned by both domestic and foreign (international) companies. However, the containers owned by foreign companies would be exempt even in the absence of this statute based upon interpretation of commerce law in the U.S. Constitution, as clarified under the rulings of the following court cases: *Japan Line Ltd., v. County of Los Angeles,* 441 US 434 (1979) and *Itel Containers International Corp. v. Huddleston, Comm'r of Revenue of Tennessee,* 507 US 60 (1993) (explaining the scope of the holding in *Japan Line*).

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2130 (2019), "the policy purpose is to assist Oregon shipping companies in competing in a global market."

### WHO BENEFITS
Owners of ocean-going cargo containers. The Port of Portland reported handling 116,063 containers associated with ocean-going vessels at its marine terminals in 2023.

### EVALUATION
*Provided by the Oregon Business Development Department*

The Port of Portland and Oregon's shipping interests face a very competitive environment among West Coast ports in their efforts to reestablish container shipping services for Oregon businesses. Because of that, both the Port and the Columbia River Steamship Operators Association have traditionally supported retention of the cargo container exemption in the interest of regaining and maintaining the state's access to international container shipping service. The exemption also benefits agricultural shippers and others seeking to move containerized cargo through the upriver ports of Morrow and Umatilla to Terminal 6 at the Port of Portland, as well as the Oregon International Port of Coos Bay in the future as it is developing a multimodal container facility. Besides helping maintain competitive access to international container shipping service that is important to many Oregon industries, this property tax expenditure is also intended to moderate shipping costs for those industries.

# 2.027 LEASED DOCKS AND AIRPORTS

**Oregon Statute:** 307.120
**Sunset Date:** None
**Year Enacted:** 1947
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $410 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $12,800,000 | $3,600,000 |
| 2025-27 | $13,900,000 | $3,800,000 |

## DESCRIPTION

In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. This tax expenditure provides exceptions to this rule as it relates to leased dock and airport property.

Public dock property is exempt from property tax if it is leased, subleased, rented, or preferentially assigned and used for:

- Berthing ships or barges
- Handling, loading, and unloading cargo from ships
- Cleaning or decontaminating agricultural cargo, if the property does not further alter or process an agricultural commodity.

By December 31 preceding a year in which the property is leased, or within 30 days of entering into the lease, whichever is later, the private lessee must file a request for the county assessor to compute a required in-lieu payment.

The requirements above do not apply to property held under lease or rental agreement executed for any purpose prior to July 5, 1947, which is exempt and does not require the in-lieu payment. In this case, the exemption continues only during the term of the lease or rental agreement in effect on July 5, 1947.

For a city-owned airport or port district serving a population of fewer than 300,000, airport property that is leased and used by private individuals remains exempt if the rent proceeds are used for airport operations and maintenance. An in-lieu payment is not required.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to support the operation of docks and small airports, regardless of the type of entity operating them.

## WHO BENEFITS

Entities leasing eligible dock or airport properties. In tax year 2023–24, there were approximately 350 exempt properties in eleven counties.

## IN LIEU

For qualifying dock properties, an in-lieu payment of one-quarter of one percent of real market value is assessed annually and distributed to school districts. Airport properties are not subject to the in-lieu requirement.

## EVALUATION

*Provided by the Oregon Business Development Department*

Besides reducing revenue available for other public service, this exemption shifts a portion of the local property tax burden from owners and users of dock and airport property to owners of other properties. Increased economic activity due to this exemption may compensate for these tax effects by increasing other local and state tax collections, in addition to public benefits arising from the upkeep and use of port infrastructure and of local airports in smaller communities. Public ports, which support retaining this exemption, use it in various ways across Oregon, including as

an essential way to generate revenue to maintain properties and attract tenants at their airport facilities, as well as working productively with dock operators or cargo handlers for maritime shipping.

## 2.028 SHIP REPAIR FACILITY MATERIALS

**Oregon Statute:** 308.256(7)
**Sunset Date:** None
**Year Enacted:** 1957
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.024, Inventory

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.024 | Included in 2.024 |
| 2025-27 | Included in 2.024 | Included in 2.024 |

### DESCRIPTION

Materials and parts held by shipyards and ship repair facilities as of January 1 are exempt from property tax if, by April 1, the parts and materials are physically attached to or part of watercraft undergoing major remodeling, renovation, conversion, or repair. The parts and materials are initially assessed, but assessors must cancel the assessment if documentary proof of qualification for exemption is provided before April 1.

The value of watercraft under construction or undergoing major remodeling is also exempt, as described in tax expenditure 2.139, Watercraft Locally Assessed.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to help Oregon shipyards compete with shipyards in other states.

### WHO BENEFITS

This exemption predates tax expenditure 2.024, Inventory. Most—if not all—of the material exempted by this statute would likely be considered inventory.

### EVALUATION

Not evaluated.

## 2.029 RAILROAD CARS BEING REPAIRED

**Oregon Statute:** 308.665
**Sunset Date:** None
**Year Enacted:** 1973
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $30 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $900,000 | $200,000 |
| 2025-27 | $1,000,000 | $200,000 |

### DESCRIPTION

Railroad cars owned by private companies and undergoing major work are exempt from property taxation. Major work includes remodeling, renovation, conversion, or repairs, if the total labor exceeds 10 hours. A railroad car is exempt starting from the time it awaits transportation to a repair facility and ending with the time it has returned from a repair facility. Documentation proving qualification for the exemption must be furnished to the Department of Revenue.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid taxing transportation equipment that is temporarily unable to be used for its intended purpose.

### WHO BENEFITS
Approximately 80 companies benefited from this exemption in tax year 2023–24.

### EVALUATION
Not evaluated.

## 2.030 LOW-INCOME HOUSING OWNED BY RELIGIOUS ORGANIZATION

**Oregon Statute:** 307.140(4)
**Sunset Date:** None
**Year Enacted:** 2021
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.087, Religious Organizations

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.087 | Included in 2.087 |
| 2025-27 | Included in 2.087 | Included in 2.087 |

### DESCRIPTION
Land and buildings on the land owned by a religious organization and held or used solely to provide affordable housing to low-income individuals is exempt from taxation. Legislation explicitly excluded this exemption from the automatic six-year sunset under ORS 315.037.

### PURPOSE
The law that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2008 (2021), the purpose of this provision is "to increase the supply of affordable housing in the state."

### WHO BENEFITS
Religious organizations who own land that is rented by low-income individuals, and those low-income individuals.

### EVALUATION
*Provided by the Oregon Housing and Community Services Department*

To increase the supply of affordable housing for Oregonians we need the participation of as many sectors as possible, including the faith-based and religious organizations. Allowing the tax exemption on the land and buildings for low-income housing purpose will reduce the operating expenses as well as keeping the rents low for tenants.

## 2.031 NEW ADU OR NEWLY CONVERTED MULTIPLEX

**Oregon Law:** Ore. Laws 2023 c.583
**Sunset Date:** None
**Year Enacted:** 2023 (SB 919)
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $0

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $200,000 | Less than $100,000 |
| 2025-27 | $400,000 | Less than $100,000 |

### DESCRIPTION

A city or county may grant a property tax exemption for up to 5 years for a newly constructed accessory dwelling unit (ADU), or a newly converted duplex, triplex, or quadplex that is occupied as a primary residence. A newly constructed ADU must be occupied as a primary residence to be exempt. The main dwelling unit does not need to be occupied as a primary residence because it is not eligible for exemption. If any exempt unit is no longer occupied as a primary residence, the entire property becomes ineligible for exemption. Legislation explicitly excluded this exemption from the automatic six-year sunset under ORS 315.037.

For a property to receive the exemption, the owner must file an application and local taxing districts representing at least 51 percent of the taxes on the property must agree to the exemption, after which the exemption applies to the taxes of all districts. To continue receiving the exemption each year after receiving initial approval, the owner must file a new application.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for SB 919 (2023), "the purpose of the exemption is to expand housing supply, utilizing existing residential land and infrastructure."

### WHO BENEFITS

Owners of a newly constructed accessory dwelling unit, or a newly converted duplex, triplex, or quadplex who occupy it as a primary residence.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

Due to the recent approval of this tax exemption, OHCS has not yet had an opportunity to evaluate the use or usefulness of this opportunity.

## 2.032 FOOD PROCESSING EQUIPMENT

**Oregon Statute:** 307.455
**Sunset Date:** 06-30-2030
**Year Enacted:** 2005
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $330 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $13,600,000 | $3,000,000 |
| 2025-27 | $18,500,000 | $4,100,000 |

### DESCRIPTION

Upon application, qualified real or personal property machinery and equipment that is newly acquired by a food processing business is exempt from property taxation for five years. The machinery or equipment may be new or used, as long as it is newly acquired by the food processor. Food processing businesses are those that freeze, can, dehydrate, concentrate, preserve, process, or repack fruit, vegetables, nuts, legumes, or seafood in any procedure that generally occurs before the first sale by the processor. Producers of alcoholic beverages are ineligible.

Legislation in 2015 (HB 3125) expanded the exemption to include machinery and equipment used to process grains, bakery products, dairy products, and eggs, and prohibited anyone engaged in the business of producing marijuana or any product containing marijuana or a marijuana extract from qualifying for the exemption. The legislation also required qualified machinery and equipment used to process grains and bakery products to have real market value of at least $100,000 when placed in service. However, the 2016 Legislature modified this provision to require the total cost of initial equipment investment by the food processor to be at least $100,000 to qualify for the exemption.

Qualified machinery is certified by the Oregon Department of Agriculture. Machinery and equipment is exempt for five years following certification.

Legislation in 2019 (HB 2164) allows a city or county to adopt a lower exemption amount or opt out of the exemption. Legislation in 2023 (HB 2080) included meat and wild game processing under this exemption. HB 2080 also extended the sunset date from June 30, 2025 to June 30, 2030; any equipment that has already received the exemption by that date will continue to receive the exemption for the full five years.

### PURPOSE

"The Legislative Assembly declares that a property tax exemption for qualified real property machinery and equipment encourages continued operation and expansion of the food processing industry in this state" (ORS 307.453).

### WHO BENEFITS

Food processors that acquire machinery and equipment.

### EVALUATION

*Provided by the Oregon Department of Agriculture*

Not only must Oregon's food and beverage processors be competitive with their national competitors, they must also be competitive in the global marketplace. Opportunities to make capital investments that provide gains in efficiencies and expand product lines is one strategy for businesses to remain competitive.

This tax exemption encourages food-processing companies to replace aging equipment with more efficient and modern equipment. The exemption also supports food processors make the needed investments for new product lines. Investments made by local businesses are an investment in local jobs and healthy communities. Because processors try to be located near the source of their ingredients (ex. Oregon agricultural commodities), these capital investments also positively support rural communities.

The exemption also allows for Oregon to be more competitive when recruiting food processors for direct investment. The exemption also encourages opportunities for agricultural producers to invest and create value-added products. These both aid rural and urban economic development.

This exemption is narrowly targeted, and serves its purpose of creating investment, retaining and expanding jobs, and creating additional markets for Oregon growers. There has been interest in expansion of this credit to include other commodities and food products.

## 2.033 FARM MACHINERY AND EQUIPMENT

**Oregon Statute:** 307.394
**Sunset Date:** None
**Year Enacted:** 1973
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $4.7 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $109,000,000 | $19,200,000 |
| 2025-27 | $115,000,000 | $20,400,000 |

### DESCRIPTION

Machinery and equipment classified as personal property or real property and used in farm operations involving crops, livestock, poultry, fur bearing animals, bees, dairying, animal husbandry, or other agricultural or horticultural products are exempt from property tax.

Added by HB 2904 (2009), machinery and equipment used primarily to implement a plan certified by an agent of the Oregon State University Extension Service to remediate or mitigate severe adverse conditions on farmland is exempt while the plan is in process.

The revenue impacts of the following tax expenditures are included here:

- 2.034, Mobile Field Incinerators

- 2.041, Center Pivot Irrigation Equipment
- 2.042, Other Farm/Aquaculture/Egg Equipment
- 2.043, Field Burning Smoke Management Equipment

Legislation in 2024 (HB 4111) expanded the exemption to include machinery and equipment classified as real property beginning tax years starting on or after July 1, 2025. Before this legislation, only machinery and equipment classified as personal property, held for use in qualifying farm operations was eligible for this exemption.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to improve the financial viability of farming by reducing the operational costs associated with purchasing and maintaining essential farm machinery and equipment, and ease tax administration.

### WHO BENEFITS
Farmers and agricultural producers who own and use qualifying machinery and equipment benefit directly from this exemption. By reducing the property tax burden, the exemption helps farmers manage their operational costs more effectively, which may be particularly beneficial for small and beginning farmers.

### EVALUATION
*Provided by the Oregon Department of Agriculture*

This expenditure assists agriculture producers in modernizing machinery and equipment classified as personal property. Agricultural machinery and equipment are extremely expensive, and farmers spend more on machinery per worker than any other industry. Agricultural producers do not set prices and as commodity prices fluctuate dramatically tax planning and cost recovery is limited. This tax exemption assists small and beginning producers by reducing the compounding operational costs on critical machinery and equipment. Reducing tax liability allows agricultural producers who benefit to adopt new technologies and increase efficiencies.

The current tax exemption appears a more appropriate treatment of this particular situation than direct spending.

## 2.034 MOBILE FIELD INCINERATORS

**Oregon Statute:** 307.390
**Sunset Date:** None
**Year Enacted:** 1971
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.033, Farm Machinery and Equipment

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.033 | Included in 2.033 |
| 2025-27 | Included in 2.033 | Included in 2.033 |

### DESCRIPTION
Mobile field incinerators owned by farmers and used exclusively for sanitizing grass seed fields by means other than open field burning are exempt from property tax. Incinerators must be purchased within five years after they are certified by the Department of Environmental Quality. If these incinerators are used at the field site in preparing the soil for farm purposes, these would be exempted under tax expenditure 2.033, Farm Machinery and Equipment.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage pollution control by the use of mobile field incinerators in place of open field burning of grass straw.

### WHO BENEFITS
Farmers with mobile field incinerators would receive the benefit. However, these incinerators are not commonly used.

### EVALUATION

*Provided by the Oregon Department of Agriculture*

This expenditure is not achieving the purpose for which it was intended. The current technology of mobile field incinerators is too expensive to be viable and farmers have adopted other means to sanitize grass seed fields. Barring a major technological advance that reduces its cost, the use of mobile field incinerators is not likely to become a viable technology for farmers.

## 2.035 CROPS, PLANTS, AND FRUIT TREES

**Oregon Statute:** 307.320
**Sunset Date:** None
**Year Enacted:** 1957
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $710 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $16,600,000 | $2,900,000 |
| 2025-27 | $18,100,000 | $3,200,000 |

### DESCRIPTION

Deciduous trees, shrubs, plants, crops, cultured Christmas trees, and cultivated hardwood trees growing on agricultural land are exempt from local property taxation. When crops and plants are harvested and unsold as of the assessment date, they are treated as inventory subject to the exemption described in tax expenditure 2.024, Inventory. Agricultural products held for use in farming operations are exempt as described in tax expenditure 2.036, Agricultural Products Held by the Farmer.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purposes are to improve the financial viability of agriculture by reducing the property tax burden and to ease administration by eliminating the filing of personal property tax returns for farmers.

### WHO BENEFITS

Owners of deciduous trees, shrubs, plants, crops, cultured Christmas trees, and cultivated hardwood trees growing on agricultural land. Oregon has about three and half million acres of harvested agricultural land.

### EVALUATION

*Provided by the Oregon Department of Agriculture*

This exemption is accomplishing its purpose. This exemption helps maintain the financial viability of farming operations by excluding these assets from property taxation while they are still in the growing phase, allowing farmers to focus resources on production rather than on tax liabilities. This support may be particularly valuable in mitigating the financial impacts of unpredictable factors such as weather conditions and market fluctuations, which can significantly affect agricultural income.

It is our view that this expenditure is the most fiscally effective means of achieving its purpose, also placing this inventory on par with the exemption of inventory tax on all businesses in Oregon.

## 2.036 AGRICULTURAL PRODUCTS HELD BY THE FARMER

**Oregon Statute:** 307.325
**Sunset Date:** None
**Year Enacted:** 1965
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $5.0 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $100,000 | Less than $100,000 |
| 2025-27 | $100,000 | Less than $100,000 |

### DESCRIPTION

Agricultural products in the possession of the farmer who produced them or acquired them for consumption or use in the farm operation are exempt from property tax. These products are grain, seed, hay, fruit, vegetables, nuts, hops, wool, fish, livestock, fur bearing animals, bees, poultry, butter, cheese, milk (evaporated, condensed or concentrated), mint, bivalve mollusks, and vermiculture supplies and products.

Most products held by farmers are considered inventories because they are being held for ultimate sale and are exempt under tax expenditure 2.024, Inventory. This provision exempts those products not covered by the inventory exemption if they are held for use on the farm rather than for ultimate sale.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to eliminate the burden of enumerating livestock and crop inventories and to improve the financial viability of farming.

### WHO BENEFITS

Most of the exempt value for this expenditure is for cattle and calves used in farm operations. It also benefits other farmers who hold products for their own use, such as those who raise hay and other feed for their own animals.

### EVALUATION

Not evaluated.

## 2.037 NURSERY STOCK

**Oregon Statute:** 307.315
**Sunset Date:** None
**Year Enacted:** 1971
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $200 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $4,700,000 | $800,000 |
| 2025-27 | $5,100,000 | $900,000 |

### DESCRIPTION

This exemption applies to nursery stock held by growers or wholesalers, and exempts them from local property taxation. Nursery stock includes plants, trees, and shrubs that are either bare-root, balled, in containers, or in the ground, and are grown or kept for propagation or sale.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to improve the financial viability of the nursery industry by reducing the property tax burden.

### WHO BENEFITS

Most nursery stock is grown in Western Oregon, concentrated in the Willamette Valley.

## EVALUATION

*Provided by the Oregon Department of Agriculture*

This tax expenditure is accomplishing its purpose. The exemption of nursery stock is consistent with the exemption provided for other farm commodities described in tax expenditure 2.035, Crops, Plants, and Fruit Trees, and with the exemption of inventories in nonagricultural industries described in tax expenditure 2.024, Inventory. This exemption helps ensure that nursery businesses can remain competitive by allowing them to allocate more resources toward production, innovation, and market expansion rather than tax liabilities. Given that Oregon's nursery industry is a major player in both national and international markets, maintaining this exemption is likely important for sustaining its growth and competitiveness.

Any change, such as the elimination of this exemption, resulting in an increase in market price would reduce the competitiveness of Oregon-grown nursery stock in the national and international marketplaces. The current tax expenditure is the most effective means of achieving this purpose and places this inventory on par with all other business inventory in Oregon as tax exempt.

# 2.038 LEASED STATE AND LOCAL FARMING AND GRAZING LAND

**Oregon Statute:** 307.110(3)(b)
**Sunset Date:** None
**Year Enacted:** 1971
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.078, State and Local Property

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.078 | Included in 2.078 |
| 2025-27 | Included in 2.078 | Included in 2.078 |

## DESCRIPTION

In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. However, land owned by the state or a local government that is leased or rented for agricultural or grazing use by persons who do not pay rent in cash or as a share of the crop is exempt from property taxes. In some cases, the lessee performs a service in return for farming or grazing rights. For example, a farmer might use public land for agricultural purposes, and in return, agree to keep other state or locally owned land mowed.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to provide property tax relief to farmers and livestock owners, and to avoid the administrative difficulty of valuing these state and local government properties that have restrictions on land use.

## WHO BENEFITS

Farmers and ranchers who lease state and local land. The expenditure also benefits state and local governments, who in exchange receive land maintenance, which may be more valuable than the potential rent due to management costs associated with small, isolated parcels.

## EVALUATION

*Provided by the Oregon Department of Agriculture*

This expenditure effectively achieves its purpose. It produces benefits to local communities through the increased economic activities associated with the livestock industry. The increased economic activities provide additional tax resources for Eastern Oregon counties, and the state or local government is provided a service of land management, weed control, reduced fire danger or other value in exchange for pasture feed.

Without this expenditure, it is likely that costs to governments would exceed benefits due to the substantial expenses needed to administer the lands in comparison to the returns to the state.

## 2.039 LEASED FEDERAL GRAZING LAND

**Oregon Statute:** 307.060
**Sunset Date:** None
**Year Enacted:** 1961
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.093, Federal Property

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.093 | Included in 2.093 |
| 2025-27 | Included in 2.093 | Included in 2.093 |

### DESCRIPTION
In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. However, federal land leased primarily for agricultural purposes from a federal wildlife conservation agency or used primarily for livestock grazing is exempt from local property taxation.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purposes are to improve the financial viability of agriculture by reducing the property tax burden and to avoid the administrative difficulty of valuing federal property that has restrictions on land use.

### WHO BENEFITS
Farmers and ranchers who lease federal land for grazing.

### IN LIEU
The Bureau of Land Management and the Forest Service establish grazing fees based on animal unit months (AUM) rather than acres. An animal unit month is defined as the amount of forage needed to sustain one cow for one month. Part of the fee income paid to the federal government is shared with local governments.

### EVALUATION
*Provided by the Oregon Department of Agriculture*

The treatment of federal land under this exemption is consistent with the treatment of state and local land (2.039). Further, federal lands are not subject to property taxation by local jurisdiction regardless of use.

## 2.040 SHELLFISH GROWING ON STATE LAND

**Oregon Statute:** 622.290
**Sunset Date:** None
**Year Enacted:** 1969
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $3.5 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. However, state land being used for the private cultivation of oysters, clams, and mussels under permit from the Department of Agriculture is exempt from local property taxation. Annual cultivation fees and use taxes are paid in lieu of property taxes and lease fees.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage shellfish production and to avoid the administrative difficulty of valuing state property that has restrictions on land use.

### WHO BENEFITS
Shellfish growers using state owned land. State land is leased for growing in Coos, Douglas, Lincoln, and Tillamook counties. Commercial lease holders range from individuals with only a few acres under lease to large companies with several thousand acres.

### IN LIEU
The Department of Agriculture collected $66,409 in fees in 2023 for shellfish lease and production. The fees support the department's oversight of the shellfish leasing program.

### EVALUATION
Not evaluated.

## 2.041 CENTER PIVOT IRRIGATION EQUIPMENT

**Oregon Statute:** 307.398
**Sunset Date:** None
**Year Enacted:** 1973
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.033, Farm Machinery and Equipment

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.033 | Included in 2.033 |
| 2025-27 | Included in 2.033 | Included in 2.033 |

### DESCRIPTION
Center pivot irrigation equipment used in farm operations is exempt from property taxation. The revenue impact for this tax expenditure is contained in 2.033, Farm Machinery and Equipment.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to improve the financial viability of farming and ease tax administration.

### WHO BENEFITS
Farmers who own center pivot irrigation equipment receive benefits from this provision.

### EVALUATION
*Provided by the Oregon Department of Agriculture*

See evaluation for 2.033, Farm Machinery and Equipment.

## 2.042 OTHER FARM/AQUACULTURE/EGG EQUIPMENT

**Oregon Statute:** 307.397
**Sunset Date:** None
**Year Enacted:** 1973
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.033, Farm Machinery and Equipment

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.033 | Included in 2.033 |
| 2025-27 | Included in 2.033 | Included in 2.033 |

### DESCRIPTION
Certain machinery and equipment used in farm operations is exempt from property taxation. Under this section of statute, the following are exempt:

- Frost control systems
- Trellises for hops and other agricultural purposes
- Hop harvesting equipment
- In-water racks and other equipment for raising bivalve mollusks
- Equipment used in production and preparation of eggs for market
- Greenhouses that do not have a permanent heat source other than radiant heating provided by direct sunlight.

The revenue impact for this provision is included under 2.033, Farm Machinery and Equipment.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to improve the financial viability of farming and ease tax administration.

### WHO BENEFITS
Farmers who own the specified equipment receive benefits from this provision.

### EVALUATION
*Provided by the Oregon Department of Agriculture*

See evaluation for 2.033, Farm Machinery and Equipment.

## 2.043 FIELD BURNING SMOKE MANAGEMENT EQUIPMENT

**Oregon Statute:** 307.391
**Sunset Date:** None
**Year Enacted:** 1973
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.033, Farm Machinery and Equipment

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.033 | Included in 2.033 |
| 2025-27 | Included in 2.033 | Included in 2.033 |

### DESCRIPTION
Radio communications equipment, meteorological equipment, or other tangible personal property used in connection with the operation of the field burning smoke management program (administered by the Oregon Department of Agriculture) is exempt from property taxation.

The goal of the smoke management program is to offer maximum opportunities for open field burning, propane flaming, and stack burning with minimal smoke impacts on the public. At a minimum, farmers are required to have a radio to receive information regarding field burning. The field burning equipment itself would be exempt under tax expenditure 2.033, Farm Machinery and Equipment, as long as the burning was conducted for the purpose of soil maintenance for farming use.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to reduce the cost of ownership of equipment used in conjunction with the field burning smoke management program.

### WHO BENEFITS
All farmers who own the specified equipment receive benefits from this provision. Approximately 30 growers burn fields each year.

### EVALUATION
*Provided by the Oregon Department of Agriculture*

With the restrictions on field burning put in place by the 2009 Legislature, the number of farmers using field burning has decreased. In some parts of the state, based on the type of grass seed produced, field burning is the only available management technique, subsequently the practice is still used.

## 2.044 CRAB POTS

**Oregon Statute:** 508.270
**Sunset Date:** None
**Year Enacted:** 1969
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $15 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $400,000 | Less than $100,000 |
| 2025-27 | $500,000 | $100,000 |

### DESCRIPTION
Crab pots used by an owner with a commercial fishing license used with a commercially licensed boat are exempt from property tax if proof of required licensing is furnished to the assessor by August 1 of the assessment year.

Crab pots are considered personal property and would be fully taxable without this exemption. Because crab pots can be stored on land and then moved to the sea, they are not considered part of the vessel. This is unlike other types of fishing, where fishing gear (nets, hooks, lines, etc.) is considered part of the ship and its value is included when the vessel is assessed (see 2.139, Watercraft Locally Assessed).

Approximately 149,300 crab pots were expected to be used for the 2023 crab fishing season, which is at the maximum limit set by the Oregon Fish and Wildlife Commission. Depending on the vessel, the limit of crab pots per vessel can be 200, 300 or 500. These limits have been in effect since the 2006–07 crab season. Each crab pot requires a buoy tag, costing $1.15 each, for each fishing season. Buoy tag receipts are used exclusively to purchase the buoy tags for the following year.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to make the treatment of crab fishing operations more consistent with those of other types of fishing.

### WHO BENEFITS
Owners or operators of commercial crab fishing vessels. For the 2023 crab fishing season, owners/operators of over 420 vessels had crab permits.

### IN LIEU
In 2023 the fees for a crab permit per vessel were $202 resident, and $252 non-resident. In 2023 the Oregon Department of Fish and Wildlife collected over $60,880 from resident and over $34,882 from non-resident crab fishers in crab permits. Those funds are used by ODFW for commercial fishery management. In addition, owners of vessels used for crab fishing are required to obtain the proper commercial boat and crew member licenses.

### EVALUATION
*Provided by the Oregon Department of Fish and Wildlife*

This expenditure has effectively achieved its purpose. It provides tax relief to crab fishing operations, and it makes the property tax treatment of crabbing operations consistent with that of other types of fishing.

## 2.045 LAND LEASED FROM STATE LAND BOARD

**Oregon Statute:** 307.168
**Sunset Date:** None
**Year Enacted:** 1982
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $110 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $2,600,000 | $500,000 |
| 2025-27 | $2,700,000 | $500,000 |

### DESCRIPTION

In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. However, the following land leased from the State Land Board or Department of State Lands is exempt from property taxation: submerged, submersible, and grazing land. The exemption does not apply to any buildings, improvements, mines, minerals, or quarries on the land, but does include any water rights appertaining to the land.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to provide property tax relief to livestock owners and to avoid administrative difficulty of valuing state property with its restrictions on land use.

### WHO BENEFITS

Lessees benefit through reduced costs.

### EVALUATION

*Provided by the Department of State Lands*

This exemption is effective in achieving its purpose. As trustee of the Common School Fund, the state manages lands owned by the Fund in order to maximize revenue, consistent with long term resource stewardship. Exempting leased Common School lands from taxation can help increase lease income, and therefore furthers the primary trust obligation.

## 2.046 NATURAL GAS PIPELINE EXTENSION

**Oregon Statute:** 307.107
**Sunset Date:** None
**Year Enacted:** 2007
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.4 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. However, all property (real, personal, tangible, and intangible) used for a natural gas pipeline extension project is exempt from property taxation if:

- Project is partially financed by Oregon Unified International Trade Fund
- Length of pipeline does not exceed 115 miles
- Owner of the property is a local government.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to clarify that under certain conditions government-owned pipeline is exempt if leased.

### WHO BENEFITS
The only known natural gas pipeline that qualifies is approximately 76 miles of pipeline owned by Coos County and leased to NW Natural.

### EVALUATION
Not evaluated.

## 2.047 SOLAR PROJECTS

**Oregon Law:** Ore. Laws 2015 c.571, 2019 c.628, and 2021 c.571
**Sunset Date:** 01-01-2028 (for new agreements)
**Year Enacted:** 2015
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $320 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $7,500,000 | $1,300,000 |
| 2025-27 | $8,200,000 | $1,500,000 |

### DESCRIPTION
Property constituting a solar project located in an unincorporated county area is exempt from property taxes when an agreement has been made between the governing body of the county and the owner of the solar project. A portion of the solar project may be located within the boundaries of an incorporated city, however in that case, the governing body of the city must also be a party to the agreement. A fee in lieu of property taxes is required as part of the agreement.

The agreement is limited to 20 consecutive years. The last day an agreement can be made is January 1, 2028.

If the owner of the solar project fails to pay the fee in lieu of property taxes by the prescribed date, the property does not receive an exemption the following property tax year. If the owner pays the delinquent fee plus interest within a year, the property can resume the exemption for the subsequent property tax year. However, if the owner fails to pay the fee in lieu of property taxes for more than one year, the property is disqualified from receiving this exemption from property taxes.

Legislation in 2021 (SB 154) changed the terms of the fee and extended the sunset from January 1, 2022, to January 1, 2028.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 3492 (2015), “The policy purpose of this measure is to provide tax relief and tax stability to utility scale solar production property owners and developers, which subsequently encourages the development of utility scale solar production.”

### WHO BENEFITS
Owners of solar projects who have made an agreement with a county to receive a property tax exemption for that property. For property tax year 2023-24, a total of 31 solar projects had an agreement to receive this property tax exemption. These projects are presently located in the counties of Deschutes, Harney, Jackson, Klamath, Lake, Polk, and Sherman. For 2024-25, the number of projects with an agreement for this property tax exemption are projected to increase to 36.

### IN LIEU
The fee in lieu of property taxes amount is computed at a rate not less than $5,500, and not more than $7,000, per megawatt of nameplate capacity of the solar project for each property tax year. Based on their capacity, participating projects have total fees in lieu of property taxes in the amount of about $1,900,000 for 2023-24.

### EVALUATION
*Provided by the Oregon Business Development Department*

This tax expenditure should contribute to the development of utility scale solar energy projects in Oregon by offering rural jurisdictions and the developers another way to reduce property tax payments. The main existing option is the three to five year exemption in a Rural Renewable Energy Development Zone (RRED Zone – see expenditure 2.018, Rural Renewable Energy Development Zone). To stimulate solar energy development in Oregon, the Legislature has also provided special utility policies and funds, including the Solar Development Incentive grant program.

The department lacks data or direct experience with this expenditure, but there have been projects previously proposed in a RRED Zone, for which the county government and project owners later agreed to use this expenditure instead. In other cases, the decision was made for solar projects to stay with or opt for the RRED Zone exemption.

The net tax effect of using this expenditure versus a RRED Zone is difficult to generalize about and depends on situational factors and project characteristics. The predictable long term cash flows with this tax expenditure are evidently much better suited to the business models of solar project developers. There might also be an advantage for local governments, compared to the short term property taxes forgone in a RRED Zone followed by longer term but harder to predict tax receipts.

## 2.048 COOPERATIVE PROVIDING HEAT BY COMBUSTION OF BIOMASS

**Oregon Statute:** 308.521
**Sunset Date:** 06-30-2025
**Year Enacted:** 2019
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Not Available*

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Available* | Not Available* |
| 2025-27 | Not Available* | Not Available* |

** In certain cases, to conform with taxpayer privacy disclosure laws, revenue impact numbers are not provided for tax expenditures that may affect at most a few taxpayers. This includes tax expenditures that do not currently affect any Oregon taxpayer but could at a later date.*

### DESCRIPTION
Property that is owned or used by a predominately public-owned cooperative for the purpose of providing steam or hot water heat by combustion of biomass is exempt from property tax for property tax years beginning on or after July 1, 2019. The cooperative corporation must meet the Oregon statutory definition of cooperative and be subject to central assessment by the Department of Revenue. At least 50 percent of the interest in the cooperative must be owned by public entities that are themselves exempt from property tax. Biomass is defined in ORS 315.141.

Because the legislation enacting this statute did not expressly provide a period of applicability for this tax expenditure, ORS 315.037(3) establishes that this tax expenditure shall apply for a maximum of six years beginning with the initial applicable tax year. In this case, the last applicable tax year is 2024–25.

### PURPOSE
The statute that allows this exemption does not explicitly state a purpose. The legislative staff revenue impact statement provided for HB 2458 (2019) says “the intent of this measure is to encourage cooperatives to invest in the production of biomass fueled energy that primarily serves public and tax-exempt entities.”

### WHO BENEFITS
Predominantly publicly-owned cooperatives established for the purpose of providing steam or hot water heat by combustion of biomass.

### EVALUATION
*Provided by the Oregon Department of Energy*

It is difficult to measure the impact the tax exemption has made on the number of cooperatives installing equipment that combusts biomass to generate steam or hot water heat. The ODOE Energy Incentives Program (EIP) issued tax credits to two projects involving the use of biomass under its Energy Conservation Projects income tax credit program and two biogas projects received Renewable Energy Development grants in the EIP Program as well. That tax credit program sunset in 2017. The exemption may encourage cooperatives to invest in biomass systems.

## 2.049 NONPROFIT SEWAGE TREATMENT FACILITIES

**Oregon Statute:** 307.118
**Sunset Date:** None
**Year Enacted:** 1997
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
An exemption from property taxes is allowed for wastewater treatment, sewage treatment, and related property owned by a nonprofit corporation engaged solely in wastewater treatment and sewage treatment facility applications. The nonprofit corporation must have been in existence as of January 1, 1997, and the facilities must have been constructed and in operation on January 1, 1997. The exemption was created for the Mapleton Commercial Area Owners' Association in Lane County, and it is unlikely any other facilities could qualify for the exemption.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to assist nonprofit sewage treatment facilities.

### WHO BENEFITS
There is one entity in the state that qualifies for this exemption, the Mapleton Commercial Area Owners' Association in Lane County. The beneficiaries of this legislation are the owners of the homes and businesses that are members of the Mapleton Commercial Area Owners' Association.

### EVALUATION
Not evaluated.

# 2.050 RIPARIAN HABITAT LAND

**Oregon Statute:** 308A.362
**Sunset Date:** None
**Year Enacted:** 1981
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $16 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $400,000 | Less than $100,000 |
| 2025-27 | $400,000 | Less than $100,000 |

## DESCRIPTION

Land designated as riparian land by the Oregon Department of Fish and Wildlife (ODFW) is exempt from property taxation. Designated riparian land must be privately-owned stream beds and the land under adjacent vegetation influenced by the proximity to water, but which does not extend more than 100 feet from the stream bank.

The following types of designated riparian land qualify for the exemption:

- Lands located outside urban growth boundaries (UGB) and zoned as forest or agricultural (including range land) in compliance with statewide planning goals.
- Lands that were outside a UGB and zoned as forest or agricultural (including range land) as of July 1, 1997, but are no longer outside a UGB or so zoned, qualify. The landowner must apply for riparian designation within five years of the change.
- Lands within city and urban growth boundaries may qualify if the city and county authorize the exemption (ORS 308A.360).

ODFW can designate land as riparian habitat land if the owner has developed and implemented a plan for continued protection of the land using approved rehabilitation techniques. For lands within city and urban growth boundaries, ODFW can approve up to 50 applications per year.

The exemption continues until withdrawn by the owner or use is incompatible with riparian use. Upon withdrawal or disqualification, an additional tax equal to the sum of the tax benefit for each year exempt (up to five years) is due.

If the land is specially assessed as farm, forest, or open space before riparian designation, any additional tax for a change in designation to riparian is abated.

## PURPOSE

To "maintain, preserve, conserve and rehabilitate riparian lands to assure the protection of the soil, water, fish and wildlife resources of the state for the economic and social well-being of the state and its citizens...to prevent the forced conversion of riparian environments to more intensive uses as a result of economic pressures caused by the assessment of those lands...at values incompatible with their protection as riparian lands and that tax exemption must be granted to permit the continued availability of riparian environments..." (ORS 308A.353).

## WHO BENEFITS

Owners of land that has been designated by the Department of Fish and Wildlife as riparian land.

There are 148 landowners enrolled in the Riparian Lands Tax Incentive Program across 21 counties.

## EVALUATION

*Provided by the Oregon Department of Fish and Wildlife*

The Riparian Lands Tax Incentive Program (RLTIP) offers a property tax incentive to property owners for improving or maintaining qualifying riparian lands which can include up to 100 feet from a waterway. Under this program, property owners file a Riparian Management Plan with the Oregon Department of Fish and Wildlife and County to receive a complete property tax exemption for the qualifying riparian lands on their property, provided measures are implemented to protect, conserve, and restore the riparian land.

The main limitation for enrollment in the RLTIP is the small tax benefit of enrolling a polygon that is less than 200 feet wide. The landowners are currently taxed at either a farm or forest rate, and a tax emption for enrolling a polygon within this area is often not worth the effort.

## 2.051 ENVIRONMENTALLY SENSITIVE LOGGING EQUIPMENT

**Oregon Statute:** 307.827
**Sunset Date:** None
**Year Enacted:** 1999
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $310 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $6,900,000 | $700,000 |
| 2025-27 | $7,400,000 | $800,000 |

### DESCRIPTION

Environmentally sensitive logging equipment, defined as logging equipment manufactured after 1992, is exempt from property taxes. Machinery and equipment exempt under this provision is:

- Used or held for use in logging or forest management operations; and
- Specifically designed for activities related to water quality or fish and wildlife habitat protection in the forest; or
- An excavator used or held for use in logging road construction, maintenance, reconstruction, or improvements, including the closing or obliterating of existing forest roads.

### PURPOSE

"…to facilitate the transition of older logging equipment to newer equipment designed and manufactured to be as environmentally sensitive as current technology can provide, consistent with the need to match the equipment to the specifics of the site being harvested" (ORS 307.824).

### WHO BENEFITS

Owners of logging equipment manufactured after 1992 benefit from this exemption. From the most recent data available from 2021-22, there were over 850 exempt accounts located in 20 counties.

### EVALUATION

*Provided by the Oregon Department of Fish and Wildlife*

The effectiveness of this exemption has not been evaluated because its potential benefits to fish habitat are indirect. Yet log suspension in riparian zones, less ground and soil compaction and less sedimentation provide immediate improvements to aquatic habitat that fish depend on. The level of habitat improvement is expected to increase in proportion to the extent that the use of environmentally sensitive equipment replaces the use of less sensitive methods.

## 2.052 SKYLINE AND SWING YARDERS

**Oregon Statute:** 307.831
**Sunset Date:** None
**Year Enacted:** 1999
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.051, Environmentally Sensitive Logging Equipment

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.051 | Included in 2.051 |
| 2025-27 | Included in 2.051 | Included in 2.051 |

### DESCRIPTION
Skyline and swing yarders capable of full log suspension are exempt from property taxation. Such logging equipment is used to lift logs by use of cables from the forest to a central location, usually near a logging road, especially when the terrain is steep and the use of traditional wheeled equipment is not feasible.

### PURPOSE
"…to facilitate the transition of older logging equipment to newer equipment designed and manufactured to be as environmentally sensitive as current technology can provide, consistent with the need to match the equipment to the specifics of the site being harvested" (ORS 307.824).

### WHO BENEFITS
See 2.051, Environmentally Sensitive Logging Equipment.

### EVALUATION
*Provided by the Oregon Department of Fish and Wildlife*

See 2.051, Environmentally Sensitive Logging Equipment.

## 2.053 FOREST FIRE PROTECTION ASSOCIATION

**Oregon Statute:** 307.125
**Sunset Date:** None
**Year Enacted:** 1957
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $13 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $300,000 | Less than $100,000 |
| 2025-27 | $400,000 | Less than $100,000 |

### DESCRIPTION
All personal and real property of forest protection districts, organizations, associations, and agencies is exempt from property taxation if the property is used exclusively for forest protection and fire suppression under ORS Chapter 477. A forest protective association is defined as an association, group, or agency composed of owners of forestlands, organized for the purpose of protecting such forestlands from fire. Examples of property held by associations may include trucks, radios, fire engines, trailers, and utility vehicles.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to help keep the cost of protecting timber assets low.

### WHO BENEFITS
Forest protection organizations. Most of the property of forest protection entities has been handed over to the Department of Forestry, and the associations work under contract or cooperative agreement with the department. Currently, there are 12 forest protection districts in the state, with nine of them managed by one agency, the Department of Forestry, and the other three managed by three separate forest protective associations. The three largest associations operate in Douglas County, Coos and Curry counties, and northern Klamath County.

### EVALUATION
*Provided by the Oregon Department of Forestry*

This provision is effective in achieving its purpose. The costs of providing forest fire prevention and suppression varies among districts due to the fuel and weather conditions that prevail on the lands protected and the risks and hazards that exist. It appears that this tax treatment provides the equity desired, as the purely administrative costs do not appear to be different among the various districts, whether association or state operated. Because the expenses of these associations are largely borne by the forest landowner, the associations would likely raise the assessments to landowners if this property were not exempt.

## 2.054 FEDERAL STANDING TIMBER UNDER CONTRACT

**Oregon Statute:** 307.050
**Sunset Date:** None
**Year Enacted:** 1965
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $78 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $1,800,000 | $300,000 |
| 2025-27 | $1,900,000 | $300,000 |

### DESCRIPTION
In general, when public property is held under contract of sale to a private individual or business, it is considered taxable. However, federal standing timber is exempt from property tax even if held under a contract of sale. Many timber contracts allow three years from the time of sale to the time of harvest. Federal standing timber not under contract of sale is included in 2.093, Federal Property.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to improve the financial viability of the timber industry by reducing the property tax burden on timber sold by the federal government to the industry.

### WHO BENEFITS
Companies buying federal standing timber for harvest. This includes both large and small companies that either do not have private timber supplies or who supplement their own supplies with federal timber. The volume of federal timber under contract was approximately 710 million board feet in 2023 and sold on average at about $190 per thousand board feet.

### EVALUATION
*Provided by the Oregon Department of Forestry*

This expenditure is effective in achieving its purpose. It makes the treatment of federal timber under contract consistent with that of other standing timber.

## 2.055 STATE AND LOCAL STANDING TIMBER UNDER CONTRACT

**Oregon Statute:** 307.100
**Sunset Date:** None
**Year Enacted:** 1965
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $64 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $1,500,000 | $300,000 |
| 2025-27 | $1,600,000 | $300,000 |

### DESCRIPTION
In general, when public property is held under contract of sale to a private individual or business, it is considered taxable. However, state or local government standing timber is exempt from property taxation even if held under a contract of sale.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to treat timber under contract like other private standing timber in Oregon, which under current law is treated as a crop, not as real property.

### WHO BENEFITS
Companies buying state or local standing timber for harvest. This includes both large and small companies that either do not have private timber supplies or who supplement their own supplies. The volume of state timber under contract was about 210 million board feet in fiscal year 2023 and sold on average at about $510 per thousand board feet. The volume of local timber under contract is unknown but is thought to be small.

### EVALUATION
*Provided by the Oregon Department of Forestry*

This expenditure is effective in achieving its purpose. It makes the treatment of state and local timber under contract consistent with that of other standing timber.

## 2.056 WESTERN PRIVATE STANDING TIMBER

**Oregon Statute:** 321.272
**Sunset Date:** None
**Year Enacted:** 1977
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $20 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $455,000,000 | $80,600,000 |
| 2025-27 | $489,000,000 | $86,600,000 |

### DESCRIPTION
Privately owned standing timber in western Oregon is exempt from local property taxes. Western Oregon includes Benton, Clackamas, Clatsop, Columbia, Coos, Curry, Douglas, Hood River, Jackson, Josephine, Lane, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Washington, and Yamhill counties.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to improve the financial viability of timber production by eliminating the property tax burden and to lessen the incentive to prematurely liquidate immature timber by decreasing the holding costs of keeping the timber on the stump and growing.

### WHO BENEFITS
Private timber owners in western Oregon. In fiscal year 2023–24 there were about 6 million acres of private land classified as forestland for property taxation purposes located in western Oregon.

### EVALUATION
*Provided by the Oregon Department of Forestry*

Before 1977, both land and timber were taxed as property. In some cases this led to premature harvesting to lower property tax burden. To encourage holding timber to longer rotation ages, the property tax on the value of the timber was eliminated, but a yield tax on timber harvest was retained. In 1993, in recognition of the agricultural crop nature of growing timber and the substantial investment it requires, the tax on the crop (privilege tax) was eliminated.

There are indications that timber harvests average approximately 50 years, and that the total private timber harvest, while declining since the late 1950s, has been essentially at sustainable levels through the past decade.

Information is lacking on the effectiveness of other methods of discouraging premature timber harvests. Regulatory methods would likely be exceedingly expensive to administer, and variable tax rates would require nearly confiscatory levels for young timber in order to be effective.

## 2.057 EASTERN PRIVATE STANDING TIMBER

**Oregon Statute:** 321.829
**Sunset Date:** None
**Year Enacted:** 1961
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.4 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $32,500,000 | $5,800,000 |
| 2025-27 | $34,900,000 | $6,200,000 |

### DESCRIPTION
Privately owned standing timber in eastern Oregon is exempt from local property taxation. Eastern Oregon includes Baker, Crook, Deschutes, Gilliam, Grant, Harney, Jefferson, Klamath, Lake, Malheur, Morrow, Sherman, Umatilla, Union, Wallowa, Wasco, and Wheeler counties.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to improve the financial viability of timber production by eliminating the property tax burden and to lessen the incentive to prematurely liquidate immature timber by decreasing the holding costs of keeping the timber on the stump and growing.

### WHO BENEFITS
Private timber owners in eastern Oregon. In fiscal year 2023-24 there were about 2 million acres of private land classified as forestland for property taxation purposes located in eastern Oregon.

### EVALUATION
*Provided by the Oregon Department of Forestry*

Before 1977 in Western Oregon and 1961 in Eastern Oregon, both land and timber were taxed as property. In some cases this led to premature harvesting to lower property tax burden. To encourage holding timber to longer rotation ages, the property tax on the value of the timber was eliminated, but a yield tax on timber harvests was retained. In 1993, in recognition of the agricultural crop nature of growing timber and the substantial investment it requires, the tax on the crop (privilege tax) was eliminated.

## 2.058 PRIVATE FARM AND LOGGING ROADS

**Oregon Statute:** 308.236
**Sunset Date:** None
**Year Enacted:** 1963
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.9 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $45,300,000 | $8,000,000 |
| 2025-27 | $49,000,000 | $8,700,000 |

### DESCRIPTION

Farm, grazing, and logging roads on private land are exempt from local property taxation. Exempt property also includes the culverts, drains, fill, surfacing, and bridges associated with these roads. The land under the roads is taxable. The exemption does not apply to principal exterior timber access roads, which are two-lane improved roads that are continuously maintained and connect a timber conversion center or public highway to a principal forest area. Many logging roads are built specifically to allow timber to be harvested. Once the harvest is finished, the roads have little or no value. Some logging roads, however, are used for forest management and fire suppression on an ongoing basis, so they maintain value long after they are built.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid the administrative difficulty of valuing these roads, most of which are logging roads.

### WHO BENEFITS

Owners of farm and timberland where roads have been built. Most of the value exempt under this provision is logging roads. Logging roads are expensive to build because they must accommodate heavy logging equipment and are usually built in hilly or mountainous terrain. Farm roads are generally on flat land and involve little cost to build. Oregon Department of Forestry estimates that there are approximately 85,000 miles of logging roads on private lands.

### EVALUATION

Not evaluated.

## 2.059 NONPROFIT PUBLIC PARK USE LAND

**Oregon Statute:** 307.115
**Sunset Date:** None
**Year Enacted:** 1971
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $9.7 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $300,000 | Less than $100,000 |
| 2025-27 | $400,000 | Less than $100,000 |

### DESCRIPTION

Nonprofit corporation property used for public park or recreation purposes is exempt from property taxation if the following conditions are met:

- The purpose of the corporation is to acquire park or recreation property or maintain and operate a public park and recreation facility.
- The property is used for public park or public recreation purposes and cannot be used to produce income.
- Any net earnings of the corporation must not benefit any private individual.

- Upon dissolution, any remaining assets must revert to the state or a local government.
- The granting authority (either a city or a county governing body depending on which has jurisdiction) approves the application for exemption.

The nonprofit corporation must file an application with the county assessor to claim the exemption. The city or county governing body having jurisdiction will act on the application. This exemption is for 10 years and is renewable by reapplication.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage development of parks by private nonprofit corporations.

### WHO BENEFITS
Nonprofit corporations with property used for public park or recreation purposes. Counties report 19 property tax accounts received this exemption in tax year 2023-24.

### EVALUATION
*Provided by the Oregon Parks and Recreation Department*

This exemption appears to be effective in achieving its implied purpose by encouraging the preservation of open space and park land. Little information or resources exist to allow an in-depth evaluation of this program, but as a matter of public policy, it contributes to Oregon's quality of life and helps meet the needs of Oregon's growing population for parks, open spaces, greenways, natural settings, and recreational facilities. The program supplements what the government can provide by encouraging land protection and management decisions by nongovernment entities that also contribute to the public good. Studies show that parks and recreational facilities do contribute to local economies.

## 2.060 INACTIVE MINERAL INTERESTS

**Oregon Statute:** 308.115
**Sunset Date:** None
**Year Enacted:** 1997
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
Mineral interests owned separately from surface interests are exempt from local property tax if the property is not being mined.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to eliminate the administrative expense of assessing this property.

### WHO BENEFITS
Owners of mineral interests who are not actively mining those interests.

### EVALUATION
Not evaluated.

## 2.061 MINING CLAIMS ON FEDERAL LAND

**Oregon Statute:** 307.080
**Sunset Date:** None
**Year Enacted:** 1898
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $25 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $600,000 | $100,000 |
| 2025-27 | $600,000 | $100,000 |

### DESCRIPTION
Unpatented mining claims on federal property are exempt from local property taxation. Any improvements or equipment on the claim are taxable. Unpatented mining claims are private claims to public land without the federal government having conveyed title.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to reduce the administrative expense associated with assigning value to mining claims which are intangible in nature.

### WHO BENEFITS
As of June 2024, there were about 12,600 active mining claims in Oregon. Claims range in size depending in part upon their type.

### IN LIEU
Claimants generally pay annual maintenance fees to continue to hold their claims.

### EVALUATION
Not evaluated.

## 2.062 SMALL WATERCRAFT

**Oregon Statute:** 830.790(3)
**Sunset Date:** None
**Year Enacted:** 1959
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $2.3 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $66,300,000 | $14,700,000 |
| 2025-27 | $67,700,000 | $15,000,000 |

### DESCRIPTION
Sailboats over twelve feet, all motorboats, and amphibious vehicles requiring registration from the State Marine Board are exempt from property tax. Boats of water transportation companies that are centrally assessed are not eligible for the exemption.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid administrative difficulties associated with valuing mobile property.

### WHO BENEFITS
In 2023, there were approximately 139,000 boats registered in Oregon.

### IN LIEU
Fees for registration and title were $8.3 million in 2023, and are in lieu of any other tax or license fees. Registration fees are paid every two years and are based on a flat fee of $5.95 per foot of watercraft length for sailboats 12 feet or more and all motorboats. In addition, a $5.00 Aquatic Invasive Species Surcharge is due with each of these registrations. Registration fees for amphibious vehicles are $6.

No fee is required for boats owned by eleemosynary organizations which are operated primarily as a part of organized activities for the purpose of teaching youths scout craft, camping, seamanship, self-reliance, patriotism, courage, and kindred virtues. Boating programs are funded entirely by user fees.

### EVALUATION
*Provided by the Oregon State Marine Board*

The exemption achieves its purpose. Fees for registration and title fund key programs that benefit small watercraft owners, such as Law Enforcement, Facilities and Aquatic Invasive Species Prevention. This exemption is an extension of the personal property for personal use exemption, which is analogous to personal use motor vehicles, recreational vehicles, all-terrain vehicles, and personal aircraft (all of which are exempt). The exemption eases the administrative problems that are inherent in assessing property taxes on mobile personal property that tends to decrease in value over time.

## 2.063 MOTOR VEHICLES AND TRAILERS

**Oregon Statute:** 803.585
**Sunset Date:** None
**Year Enacted:** 1921
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $53 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $1,510,000,000 | $336,000,000 |
| 2025-27 | $1,570,000,000 | $350,000,000 |

### DESCRIPTION
Most vehicles are exempt from property taxation. The exemption covers virtually all vehicles that transport people or goods over public roads including cars, trucks, buses, most travel trailers, campers, and motorcycles.

Travel trailers include park trailers less than 8½ feet wide. Although travel trailers are normally exempt from property taxation, an owner may have one assessed for property taxation if the trailer is used as a permanent home or for purposes other than recreation (ORS 308.880). No registration as a vehicle is needed in this case.

Fixed-load vehicles that are not used primarily to transport people or property over public roads are generally taxable.

Owners of exempt vehicles are required to pay registration fees in lieu of property taxes.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid taxing property that is subject to registration fees.

### WHO BENEFITS
In 2023, there were about 3.47 million registered passenger vehicles and about 897,000 other registered vehicles and trailers in Oregon.

### IN LIEU
The two-year registration fee for passenger vehicles is based on fuel economy. For vehicles with miles-per-gallon (MPG) of 0-19 the fee is $126. The fee is $136 for vehicles with MPG of 20-39. The fee is $156 for vehicles with MPG of 40 or higher. The fee for electric vehicles is $316 unless the vehicle is enrolled in the OReGO program. Fees for motorcycles and mopeds are $88. The four-year new car registration fees are higher. The fee for large trucks and buses varies by

registered weight. Other on- and off-road vehicles have different fees for various time periods. The registration fees are forecasted to be $604.5 million in 2023–25 and $623.7 million in 2025–27.

### EVALUATION

*Provided by the Oregon Department of Transportation*

The vehicle registration fees support the costs to administer the Driver and Motor Vehicle Division. Revenue net of these costs is shared between ODOT and Oregon's counties and cities. In addition, registration fees have been raised through legislation to support the debt service on bonds for large transportation improvement programs.

Removal of this exemption would allow for the imposition of ad valorem taxes on vehicles, increasing both highway dedicated revenue and administrative costs.

## 2.064 ODOT LAND UNDER USE PERMIT

**Oregon Statute:** 307.110(3)(c)
**Sunset Date:** None
**Year Enacted:** 1981
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $0

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $0 | $0 |
| 2025-27 | $0 | $0 |

### DESCRIPTION

In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. However, Oregon Department of Transportation (ODOT) real property used by a person under a land use permit is exempt from property taxation. The exemption applies to real property with use restrictions such that only an administrative processing fee can be charged. These are generally small parcels abutting highways used for pasture or landscaping. Other real property leased for more than an administrative fee, such as for parking or commercial displays, is taxable.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to lower the cost for taxpayers using ODOT property under a use permit, and to avoid the administrative difficulty of valuing this property.

### WHO BENEFITS

People using property with use restrictions under permit.

### IN LIEU

As of 2023, ODOT has 182 active permits that provide approximately $9,000 in annual administrative fees. By permitting this use, ODOT saves maintenance and weed control costs.

### EVALUATION

Not evaluated.

## 2.065 TOLLWAYS AND RELATED FACILITIES

**Oregon Statute:** 383.017(1)
**Sunset Date:** None
**Year Enacted:** 1995
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $0

| Revenue Impact | | |
|---|---|---|
| | Loss | Shift |
| 2023-25 | $0 | $0 |
| 2025-27 | $0 | $0 |

### DESCRIPTION

Tollways—and any related facilities that would normally be purchased, constructed, or installed by the Oregon Department of Transportation (ODOT) if the tollway were a conventional highway that was constructed and operated by ODOT—are exempt from property taxation. Without this exemption, private property used for tollways or public property that is transferred to private use for tollways might otherwise be taxable.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. However, a statute related to tollways (ORS 383.001) states "because public funding sources are not providing the state with sufficient funds to meet all of its transportation needs, private funding should be encouraged as an additional source of funding for transportation projects and facilities." This exemption presumably encourages the construction of transportation infrastructure by treating privately-owned tollways the same as publicly-owned tollways from a property taxation perspective. Privately-owned tollways would presumably serve the same public purpose as public tollways.

### WHO BENEFITS

No taxpayer is using this provision. Potential beneficiaries include private investors in tollways, presumably as part of public-private partnerships.

### EVALUATION

Not evaluated.

## 2.066 FOREIGN-OWNED AIRCRAFT AND AIRCRAFT NOT OWNED BY AIR TRANSPORTATION COMPANIES

**Oregon Statute:** 308.558(4) and (5)
**Sunset Date:** None
**Year Enacted:** 1987
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.1 billion

| Revenue Impact | | |
|---|---|---|
| | Loss | Shift |
| 2023-25 | $30,500,000 | $6,800,000 |
| 2025-27 | $31,100,000 | $6,900,000 |

### DESCRIPTION

Generally, aircraft not owned by air transportation companies are exempt from property taxation but pay registration fees to the Department of Aviation. Aircraft owned or used by a foreign (international) carrier are exempt from property taxation.

Aircraft owned by air transportation companies are described in 2.119, Aircraft Under 75,000 Pounds Owned by Air Transportation Companies.

### PURPOSE
The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to avoid taxing property that is generally subject to registration fees.

### WHO BENEFITS
The Department of Aviation annually registers approximately 3,400 aircraft that are exempt from property tax. In addition, foreign or international carriers benefit from this exemption.

### IN LIEU
The annual registration fee for aircraft not owned by a foreign carrier varies from $700 for a turbojet to $25 for a UAS (drone) under 55 pounds. The Department of Aviation received approximately $389,000 in registration fees for aircraft registered in 2023.

### EVALUATION
*Provided by the Department of Aviation*

The direct recipients of the tax expenditure are the aircraft owners of aircraft that are not owned by air transportation companies as well as foreign owned aircraft. These aircraft range from large turbojets to small Unmanned Aircraft Systems (UAS). The large turbojets are generally owned by large private companies and the UAS are often owned by individuals. The benefits also flow through to aircraft dealers in Oregon, businesses in Oregon that own aircraft as well as aviation businesses in Oregon that may have more business due to this tax expenditure.

The measurable benefits to the aircraft owner would be a substantial tax savings. The immeasurable benefits may be more aircraft that are based in Oregon as opposed to neighboring states that charge aircraft property tax. For example, California charges a 1-1.2% property tax annually on aircraft based on the assessed value. Yet many aircraft owners would base their aircraft in Oregon even if there were aircraft property taxes.

If this tax expenditure were eliminated, aircraft owners of aircraft not owned by air transportation companies would pay property tax for these aircraft. There could be approximately $10 million per year available for aviation programs in Oregon. While the statute does not explicitly state a purpose for this tax expenditure, if the purpose were to benefit aviation in Oregon then this tax expenditure could be restructured to limit those that are exempt from paying the property tax and allow the tax revenues to be used for aviation programs in Oregon.

## 2.067 NONPROFIT WATER ASSOCIATIONS

**Oregon Statute:** 307.210
**Sunset Date:** None
**Year Enacted:** 1937
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $13 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $300,000 | Less than $100,000 |
| 2025-27 | $300,000 | Less than $100,000 |

### DESCRIPTION
Property of a mutual or cooperative water association is exempt from taxation if:

- The association is nonprofit
- The property is used primarily to store, convey, and distribute water to association members for domestic use or irrigation

- No more than 15 percent of the association's members are commercial establishments using the water for commercial purposes
- No more than 25 percent of the total annual volume of water furnished by the association is used by commercial establishments or for commercial purposes.

Property exempt under this provision includes land, improvements, fixtures, equipment, supplies, dams, and dikes.

An association seeking to claim this exemption must file an application with the county assessor. Associations do not need to reapply each year as long as the ownership and use of the property remain unchanged from the previous tax year.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage the distribution of water in areas not supplied by publicly owned water systems.

### WHO BENEFITS
For tax year 2023–24, counties reported that approximately 200 property tax accounts were exempt under this provision.

### EVALUATION
*Provided by the Oregon Public Utility Commission*

The Public Utility Commission of Oregon (Commission) currently regulates eleven nonprofit water associations that meet the definition stated above. Based on ORS 757.063, this number could potentially increase if members of nonprofit water associations petition the Commission for regulation. Commission policy has been to not assign a rate of return on rate base. As such, the associations do not earn net income (profit) maintaining their nonprofit status. As a result, the tax exemption theoretically encourages the distribution of water in areas not supplied by publicly owned water systems by allowing rates to be lower than if a profit and tax expense (income and property) were included in rates.

## 2.068 NONPROFIT ELECTRICAL DISTRIBUTION ASSOCIATIONS

**Oregon Statute:** 308.805
**Sunset Date:** None
**Year Enacted:** 1943
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.2 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $27,700,000 | $4,900,000 |
| 2025-27 | $32,500,000 | $5,700,000 |

### DESCRIPTION
The transmission and distribution lines of a mutual or cooperative electrical association are exempt from local property taxation if:

- The association is nonprofit
- The principal purpose of the association is to distribute electricity to its members.

The exemption for transmission and distribution lines includes all property that is energized or energizable and all property supporting or integrated with energized or energizable property. This includes but is not limited to substations, poles, conductors, transformers, services, meters, streetlights, easements, generators, communication equipment, lines leased to government agencies, tools, supplies, and office furniture and equipment.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid the difficulty of assessing electrical lines and to encourage the distribution of electricity in areas not supplied by for-profit companies because of the distribution cost.

### WHO BENEFITS
Nineteen cooperatives are exempt under this provision.

### IN LIEU
All exempt associations must pay an electric cooperative tax in lieu of the property tax, calculated as the lesser of four percent on gross revenue minus power costs or a tax at the Measure 5 limits plus any applicable county bond rate. Gross revenue includes all revenue from the operation of electric distribution systems except line lease payments from government agencies. For more information, see Electric Cooperative Tax on page 349.

Proceeds from the gross revenue based payments are distributed to the counties in proportion to each association's wire miles in each county. Within each county, 66.7 percent goes to the county and 33.3 percent to the county school fund. Proceeds from the other method are distributed according to ORS 311.390.

For tax years 2023–24 and 2024–25, the electric cooperative tax paid by these 19 cooperatives was $11.4 million and $12.4 million, respectively. That tax was based on gross revenues for 15 out of the 19 cooperatives in both years. See Chapter 10 for more information.

### EVALUATION
*Provided by the Oregon Public Utility Commission*

This provision appears to be effective in achieving its purpose, but an in-depth evaluation of the program is not possible because these cooperatives are not regulated. All 19 electric cooperatives in the state qualify for the exemption and are charged the in lieu tax. As a result, their distribution lines need not be assessed for property tax purposes, resulting in savings for both the utilities' ratepayers and taxpayers.

## 2.069 PROPERTY USED FOR DISASTER OR EMERGENCY RELATED WORK

**Oregon Statute:** 401.690(1)(d)
**Sunset Date:** None
**Year Enacted:** 2015
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Not Available

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Available | Not Available |
| 2025-27 | Not Available | Not Available |

### DESCRIPTION
Property brought into Oregon solely for use during a disaster response period to repair critical infrastructure and subsequently removed is not subject to taxation.

See 1.505, Nonresident Disaster Related Income for a similar expenditure for corporate and personal income taxes.

Legislation in 2019 (HB 2127) explicitly excluded this exemption from the automatic six-year sunset under ORS 315.037.

### PURPOSE
"To ensure that businesses may focus on quick response to the needs of this state and its residents during a declared disaster or emergency, it is appropriate for the Legislative Assembly to deem that this activity for a reasonable period of time before, during and after the disaster or emergency for repairing and restoration of the often devastating damage to critical infrastructure in this state as defined in section 3 of this 2015 Act does not establish presence, residency,

doing business in this state or any other criteria for purposes of state and local taxes or licensing and regulatory requirements." (ORS 401.680(5))

### WHO BENEFITS
Out-of-state companies providing disaster or emergency related services in Oregon.

### EVALUATION
*Provided by the Oregon Department of Emergency Management*

To date Oregon has not suffered from a catastrophic disaster which would require a massive influx of individuals or companies to come in and assist the State in recovery operations. The end goal of the legislation is to ease the barriers of entry for private industry in order to encourage support and investment to help expedite Oregon's recovery from catastrophic disasters.

## 2.070 BEVERAGE CONTAINERS REQUIRING DEPOSIT

**Oregon Statute:** 307.402
**Sunset Date:** None
**Year Enacted:** 1983
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $2.3 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
All beverage containers that have a refund value (requiring a deposit), as specified in the Bottle Bill (ORS 459A.700–459A.744), are exempt from property tax. These containers are not considered inventory if owned by the distributor. The containers are not "sold" with the contents but are intended to be returned for a refund. Distributors must pay redemption centers the refund value for each container returned for recycling. Distributors keep the deposits on the containers that are not returned for the refund. Deposit containers for carbonated soft drinks, soda water, mineral waters, and beer or other malt beverages may be glass, metal, or plastic.

The 2007 Legislature expanded the Bottle Bill to include a refundable deposit for all bottled water and flavored water containers under three liters effective January 1, 2009. The 2011 Legislature expanded the Bottle Bill to include additional beverage containers under specified circumstances and authorized an increase of the redemption value if beverage container return rates fell below 80 percent. In August 2016, the Oregon Liquor and Cannabis Commission determined that redemption rates for containers were below 80 percent, so the deposit amount increased from 5 cents per container to 10 cents starting in April 2017. The additional beverage container types are now included in the deposit and refund process as of January 1, 2018. The 2019 Legislature added kombucha and hard seltzer beverage containers to the Bottle Bill. SB 1520 (2022) added canned wine to the list of containers that require a deposit starting July 1, 2025.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to eliminate the tax compliance burden of enumerating the containers returned.

### WHO BENEFITS
The beneficiaries of this exemption are bottlers, distributors, and retail stores that temporarily hold beverage containers requiring a deposit.

### EVALUATION
Not evaluated.

# 2.071 MANUFACTURED STRUCTURE IN HIGH-POPULATION COUNTY

**Oregon Statute:** 308.250(2)(b) and (3)
**Sunset Date:** None
**Year Enacted:** 2010
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $230 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $7,600,000 | $2,300,000 |
| 2025-27 | $7,700,000 | $2,400,000 |

## DESCRIPTION

Personal property manufactured structures in some counties are exempt from property taxes if the value of the property is below certain amounts. A manufactured structure is personal property if the structure is owned separately from the land it is situated on.

In counties with a population between 340,000 and 570,000, if the total assessed value of all personal property manufactured structures owned by a taxpayer is less than $22,500, these manufactured structures are exempt from taxation. Currently, Clackamas, Lane, and Marion Counties have a population between 340,000 and 570,000. The $22,500 threshold applies for tax year 2024-25 and is adjusted annually.

In counties with a population of more than 570,000, there are three possible exemptions allowed:

- A full exemption of $45,000 (for tax year 2024-25, adjusted annually for inflation)
- A full exemption of greater than $45,000 if adopted by the county
- A partial exemption of any dollar amount if adopted by the county

For all counties with a population of more than 340,000 that opt to use one of the first two full exemptions listed above, if the total assessed value of all personal property manufactured structures owned by a taxpayer are a single dollar above the limit, the entire property is taxable. For counties with population above 570,000 that opt to use the partial exemption, all taxpayers with personal property manufactured structures will have their properties' taxable value reduced by the dollar amount adopted by the county.

Legislation in 2019 created the second and third options in the list above. At the time of publication, only Multnomah and Washington Counties have populations above 570,000. Washington County uses the full exemption of $45,000 at the time of publication. Multnomah County adopted a resolution creating a partial exemption of $50,000 starting in tax year 2022-23. The maximum property value amounts are adjusted annually for inflation.

This exemption does not apply to any properties in counties with fewer than 340,000 people.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2676 (2013), the purpose of this provision "…is to reduce administrative costs associated with processing personal property accounts with low value. It is also to provide tax relief to low-income homeowners living in inexpensive structures."

## WHO BENEFITS

For the 2024-25 property tax year, five counties reported that more than 31,000 properties benefited from this exemption.

## EVALUATION

Not evaluated.

## 2.072 PERSONAL PROPERTY FOR PERSONAL USE

**Oregon Statute:** 307.190
**Sunset Date:** None
**Year Enacted:** 1854
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $72 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $2,080,000,000 | $463,000,000 |
| 2025-27 | $2,230,000,000 | $496,000,000 |

### DESCRIPTION

Tangible personal property held by the owner for personal use is exempt from property tax. Examples of personal property for personal use are household goods, furniture, appliances, personal effects, clothing, recreational goods, and entertainment equipment.

The exemption does not apply, although different tax exemptions might, to any property that is:

- Wholly or partially used in the ordinary course of a trade or business
- Used for the production of income or solely for investment
- Required to be licensed or registered
- A floating home, boathouse, or manufactured structure

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to reduce the administrative expense associated with assigning value to various personal property items that were not intended to be taxed as property.

### WHO BENEFITS

The exemption benefits all households.

### EVALUATION

Not evaluated.

## 2.073 HEAVY EQUIPMENT RENTAL

**Oregon Statute:** 307.872
**Sunset Date:** None
**Year Enacted:** 2018
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $420 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $13,100,000 | $3,100,000 |
| 2025-27 | $13,900,000 | $3,300,000 |

### DESCRIPTION

Qualified heavy equipment held primarily for rental is exempt from property taxation. Qualified heavy equipment means any construction, mining, earthmoving or industrial equipment, together with attachments and other equipment and tools, including, but not limited to, towable trailers and fixed load vehicles. Equipment must be mobile, held primarily for rental, and owned by a qualified heavy equipment provider engaged in the business of renting heavy equipment without an operator.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to ease the burden on taxpayers in determining equipment values and locations for highly mobile rental equipment.

### WHO BENEFITS
Qualified rental facilities primarily engaged in the business of renting heavy equipment without an operator. Approximately 150 properties in 29 counties received this exemption in tax year 2023-24.

### IN LIEU
Taxpayers that are exempt from property taxation on their rental equipment instead pay a 2 percent tax based on the rental price of qualified heavy equipment that is collected from the renter of the equipment.

The heavy equipment rental tax (HERT) rate was designed to raise the same amount of revenue as property taxes on the affected properties. In order to achieve this outcome, for the first two tax years of the program, 2019-20 and 2020-21, the Department of Revenue estimated the amount of property taxes that would have been paid on this equipment in the absence of an exemption. The difference between what is paid for the HERT and what would have been paid under the property tax system was then billed or refunded to the taxpayer.

In July 2022, DOR submitted a report to the Legislature comparing revenues from the 2 percent tax on the rental price of heavy rental equipment to revenues that would have been raised under the property tax system, and discussion of issues administering this program.

### EVALUATION
Not evaluated.

## 2.074 BEACH LANDS

**Oregon Statute:** 307.450
**Sunset Date:** None
**Year Enacted:** 1969
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Not Available

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Available | Not Available |
| 2025-27 | Not Available | Not Available |

### DESCRIPTION
Beach lands are exempt from property taxation. However, improvements are not exempt. Generally, beach lands are those along the Pacific Ocean between the extreme low tide and the vegetation line. While much of this land is publicly owned, some is privately owned, but in most cases, it has severe restrictions on development (ORS 390.605 to 390.729). While this tax expenditure covers all beach land, regardless of ownership, the publicly owned portion of beach land would be exempt under tax expenditure 2.078, State and Local Property, if this provision did not exist.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to preserve public access to ocean beaches and to clarify that ocean beaches, even if privately owned, are exempt from property taxation.

### WHO BENEFITS
Owners of beach front property and others who use Oregon beaches.

### EVALUATION
Not evaluated.

## 2.075 PROPERTY OF INDIANS AND ON TRIBAL TRUST LAND

**Oregon Statute:** 307.180, 307.181(1), and 307.181(2)
**Sunset Date:** None
**Year Enacted:** 1854
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Not Available

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Available | Not Available |
| 2025-27 | Not Available | Not Available |

### DESCRIPTION

Real property owned by an Indian tribe or tribal member and located on an Indian reservation or tribal trust land is generally exempt from property tax. Exempt property must be real property of Indians residing upon reservations who have not severed their tribal relations or taken land in severalty. Land acquired by an Indian tribe is exempt from property taxation if the land is within ancient tribal boundaries and is held in or in the process of being placed in a U.S. trust for the tribe.

Legislation in 2015 (HB 2148) exempted from state and local property taxes and fees permanent improvements (regardless of ownership) located on land that is held in trust for a federally recognized tribe or individual member, unless the property is centrally assessed.

### PURPOSE

The statutes that allow this exemption do not explicitly state a purpose. Presumably, the purpose is to replicate the status of Indians under federal law before statehood.

### WHO BENEFITS

Nine federally recognized tribal governments exist in Oregon. Reservation and land in trust acreage totals approximately 900,000 acres in Oregon. Other beneficiaries include people who own permanent improvements located on land that is held in trust for a tribe or tribal member.

### EVALUATION

Not evaluated.

## 2.076 EQUIPMENT FOR MARITIME EMERGENCY RESPONSE

**Oregon Statute:** 307.197
**Sunset Date:** None
**Year Enacted:** 2010
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

Communications equipment, emergency response equipment and other tangible personal property is exempt from ad valorem property taxation if the equipment or property meets all three of these criteria:

- It is acquired or used primarily for the purposes of responding to and maintaining the capability to respond to shipboard fires or oil spills in navigable waters

- It is owned by a nonprofit corporation under ORS chapter 65 that operates as a maritime fire and safety association, and
- It is made available by the nonprofit corporation for use by a federal, state, or local emergency response agency pursuant to a mutual aid compact.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage nonprofit maritime fire and safety associations to own communications equipment used for maritime emergency response and to provide access for public agencies to use this specialized equipment in emergency situations.

### WHO BENEFITS
Maritime fire and safety associations which own communications and emergency response equipment used primarily for the purposes of responding to shipboard fires or oil spills. Federal, state and/or local emergency response agencies may also benefit by having the ability to use the equipment.

### EVALUATION
Not evaluated.

## 2.077 INTERSTATE BRIDGES OF LOCAL GOVERNMENTS

**Oregon Statute:** 381.310(10)(a)
**Sunset Date:** None
**Year Enacted:** 2017
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $0

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $0 | $0 |
| 2025-27 | $0 | $0 |

### DESCRIPTION
A bridge project to cross the Columbia River under agreement with the Port of Hood River and meeting the provisions of ORS 381.205 through ORS 381.314 is exempt from property taxes. Public property generally becomes taxable when held under contract of sale or leased to a private individual or business. This provision extends the exemption provided by 2.078, State and Local Property, to include bridge projects commissioned by local jurisdictions, even if the property is transferred to private ownership. The legislation that created this provision in 2017 (HB 2750) specified that it would apply to all tax years beginning on or after January 1, 2018, regardless of any sunset under ORS 315.037.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage development of a replacement bridge across the Columbia River in the vicinity of Hood River.

### WHO BENEFITS
The owners of bridges that are constructed under the terms of this legislation. As of publication of this report in 2024, no bridges have yet been constructed that qualify for this exemption.

### EVALUATION
Not evaluated.

# 2.078 STATE AND LOCAL PROPERTY

**Oregon Statute:** 307.090
**Sunset Date:** None
**Year Enacted:** 1854
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $110 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $3,350,000,000 | $802,000,000 |
| 2025-27 | $3,620,000,000 | $868,000,000 |

## DESCRIPTION

State and local government property is exempt from property taxation. This includes property related to administration of state and local government, such as a city hall or state-owned building, and land owned by the state and local governments, such as public parks and forests.

Generally, if property owned by state or local government is held under contract of sale or lease by a private party, then it becomes taxable. For example, office buildings owned by the State of Oregon and used for public purposes are exempt, but space in those same buildings, if leased to a private company, is taxable. Certain nonprofit entities created by the Oregon Health and Science University are considered public corporations and thus their property can be exempt from property taxation under this provision.

The Oregon Legislature specifically exempted some types of leasehold interests that otherwise would be taxable state and local property. Revenue impacts from the following tax expenditures are included in the revenue impact for this tax expenditure.

- 2.004, Higher Education Parking Space
- 2.038, Leased State and Local Farming and Grazing Land
- 2.079, Corporations for Irrigation, Drainage, Water Supply or Flood Control

Revenue impacts from the following tax expenditures have been subtracted from the revenue impact for this tax expenditure to avoid duplication.

- 2.003, Leased Student Housing Publicly Owned
- 2.006, Leased Rural Health Care Property
- 2.010, Fairground Leased Storage Space
- 2.027, Leased Docks and Airports
- 2.040, Shellfish Growing on State Land
- 2.045, Land Leased From State Land Board
- 2.046, Natural Gas Pipeline Extension
- 2.055, State and Local Standing Timber Under Contract
- 2.064, ODOT Land Under Use Permit

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid reciprocal taxation among public entities; to avoid taxing public services that are funded through the tax.

## WHO BENEFITS

State and local governments in Oregon. County assessors reported approximately 55,000 state and local government properties throughout Oregon in tax year 2023-24.

### IN LIEU
The following types of property make in lieu payments to local taxing districts:

- City Property Used to Produce Energy (ORS 307.090(2))
- Fish and Wildlife Commission Lands (ORS 496.340)
- State Timber Land (Board of Forestry) (ORS 530.110–530.115)
- Common School Fund Lands (ORS 327.410–327.420).

### EVALUATION
Not evaluated.

## 2.079 CORPORATIONS FOR IRRIGATION, DRAINAGE, WATER SUPPLY OR FLOOD CONTROL

**Oregon Statute:** 554.320
**Sunset Date:** None
**Year Enacted:** 1937
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.078, State and Local Property

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.078 | Included in 2.078 |
| 2025-27 | Included in 2.078 | Included in 2.078 |

### DESCRIPTION
Nonprofit corporations organized for use or control of water are exempt from property taxation. The corporation must be organized as a nonprofit and all revenues and incomes of the corporation must be exclusively used for improvements or maintenance of lands subject to the corporation's rates, tolls, charges, fees, fines, or assessments.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to treat nonprofit corporations organized for use or control of water similar to local taxing districts which are exempt from property taxation under 2.078, State and Local Property.

### WHO BENEFITS
Nonprofit corporations organized for use or control of water and members of the nonprofit corporations receiving services at presumably lower costs.

### EVALUATION
Not evaluated.

## 2.080 LOCAL GOVERNMENT PUBLIC WAYS

**Oregon Statute:** 307.200
**Sunset Date:** None
**Year Enacted:** 1895
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Not Available

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Available | Not Available |
| 2025-27 | Not Available | Not Available |

### DESCRIPTION
Privately held land that is subject to a designated public right-of-way is exempt from taxation. Affected land is land "within the boundary of any county road, and all dedicated streets and alleys in any incorporated or unincorporated city or town…" The property owners do not have exclusive private use of the land. The land is not assessed and is not tracked on the assessment or tax roll.

Land subject to this exemption has economic value, but it is unclear if it carries direct value in the context of how property is valued in the property tax system. The value of the right-of-way may be captured in the increased value of adjoining lands and properties.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to compensate owners for the loss of private use of the land and to recognize the difficulty associated with placing a value on the land.

### WHO BENEFITS
Owners of designated public right-of-way land.

### EVALUATION
Not evaluated.

## 2.081 INTERSTATE BRIDGES OF OTHER STATES OR SUBDIVISIONS

**Oregon Statute:** 381.824
**Sunset Date:** None
**Year Enacted:** 2014
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $0

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $0 | $0 |
| 2025-27 | $0 | $0 |

### DESCRIPTION
Bridges that pass over a river or body of water forming a boundary between Oregon and another state, and that are operated by another state or by a subdivision of that state are exempt from property taxation for the portion of the bridge in Oregon. This exemption is conditional on the other state similarly exempting bridges in the other state that are owned by the state of Oregon or its subdivisions from property taxation.

This property tax exemption was removed by legislation in 2007 (SB 1022); legislation in 2014 (SB 1534) reinstated this exemption and made it retroactive to January 1, 2008. In 2017 (HB 2750), the exemption was specifically expanded to include bridges owned by ports.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the exemption serves several purposes: to receive reciprocal treatment for Oregon bridges that cross into other states, to avoid the administrative difficulty of separating the value of a bridge from the likely already exempt highway, and to avoid taxing property that might be jointly owned by already exempt entities.

### WHO BENEFITS
The owners of bridges that cross into Oregon that are operated by another state or any subdivision of that state. Currently no bridges qualify for this exemption, however the existence of this exemption enables two bridges owned by subdivisions of Oregon that cross into the State of Washington to be exempt from tax in that state under the agreement for reciprocal treatment.

### EVALUATION
Not evaluated.

# 2.082 PROPERTY USED EXCLUSIVELY FOR TRIBAL GOVERNMENT SERVICES

**Oregon Statute:** 307.181(3)
**Sunset Date:** None
**Year Enacted:** 2012
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Not Available

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Available | Not Available |
| 2025-27 | Not Available | Not Available |

## DESCRIPTION

Property owned exclusively by an eligible Indian tribe or by an entity wholly owned by an eligible tribe and used exclusively for certain government services is exempt from property taxation. This exemption is applicable to Indian tribal government service properties that otherwise would be taxable, usually because the property is not located on land held in trust for a tribe by the federal government. Tribe-owned properties that provide tribal government services located on Indian Reservations and that are exempt under federal law are also exempt from taxation under 2.075, Property of Indians and on Tribal Trust Land.

Eligible government services are specified and include tribal administration, elementary, secondary, or higher education, utility, cemeteries, and health, fire, or police services.

Certain housing properties leased or rented to low-income persons by an eligible tribe or a partnership, nonprofit corporation, or limited liability company of which an eligible Indian tribe is a general partner, limited partner, director, member, manager, or general manager, are also exempt. All agreements necessary for the construction and operation of such low-income rental housing must have been executed on or before June 30, 2017. All properties where agreements were executed on or before the June 30, 2017 deadline remain exempt, however, properties that did not meet the deadline do not receive the exemption.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 4041 (2012), “the purpose of this tax expenditure is to extend property tax benefits to Indian tribal governments for providing government services equivalent to those provided by other governmental entities. Additionally, the expenditure encourages the provision of housing to low-income individuals while achieving consistency in the administration of property tax exemptions.”

## WHO BENEFITS

Eligible tribal nations with property used for government services.

## EVALUATION

Not evaluated.

# 2.083 FEDERALLY LEASED HIGH-VOLTAGE ELECTRICITY TRANSMISSION PROPERTY

**Oregon Statute:** 307.040(3)
**Sunset Date:** None
**Year Enacted:** 2013
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $85 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $2,000,000 | $500,000 |
| 2025-27 | $2,100,000 | $600,000 |

## DESCRIPTION

In general, property that is owned by a non-governmental entity is taxable, even if it is leased to the United States. This provision ensures that property that is leased to the United States under a lease or lease-purchase agreement from a non-governmental entity is exempt from property tax if:

- The property is operated or used in furtherance of a statutory responsibility of the United States with respect to a high-voltage electricity transmission system that the United States owns and operates within the Pacific Northwest.
- The property is constructed on or affixed to real property interests of the United States and,
- Upon expiration of the lease or lease-purchase agreement, the United States has an option to purchase the property for a nominal price, if the debt incurred by the entity to acquire the property has been paid.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for SB 261 (2013), "The purpose of this tax expenditure is to treat leased property as property of the United States government if it is used for electricity transmission by a federal agency. The purpose is also to expand energy transmission in Oregon."

## WHO BENEFITS

Third parties that finance equipment and facilities for the Bonneville Power Administration (BPA), as they would not be required to pay property tax on the equipment and facilities they own. This would ultimately reduce the cost for the BPA, as their lease payments would be reduced.

## EVALUATION

*Provided by the Oregon Public Utility Commission*

This provision could be effective in achieving its purpose, but an in-depth evaluation of the program is not possible because the third parties that finance equipment and facilities for Bonneville Power Administration are not necessarily regulated by the Public Utility Commission. The Public Utility Commission does not have any financial or other information about these companies.

However, in general tax costs incurred by a utility are allowed into rates within limits. Therefore, an increase in taxes that the utility is obligated to pay could result in a rate increase for its customers. Conversely, a tax cost that is avoided by the utility could represent a savings for customers.

## 2.084 SOLAR IMPROVEMENT ON TRIBAL LAND

**Oregon Statute:** 307.181(2)(c)
**Sunset Date:** None
**Year Enacted:** 2024 (SB 1526)
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $0

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $0 | $0 |
| 2025-27 | $6,100,000 | $900,000 |

### DESCRIPTION

The first solar energy system that would otherwise be centrally assessed that is completed after June 6, 2024 is exempt from taxation provided that it is:

- located on land within Jefferson and Wasco Counties owned by the United States and held in trust for a federally recognized Indian tribe
- subject to a property tax imposed by a federally recognized Indian tribe in Oregon

The legislation that enacted this tax expenditure, SB 1526 (2024), specified that any sunset under ORS 315.037 does not apply.

### PURPOSE

The statute that allows this tax expenditure does not explicitly state a purpose. The legislative staff revenue impact statement for SB 1526 (2024) states "the policy purpose of this measure is to recognize[…] that Tribes largely have discretion over property taxation within Tribal boundaries."

### WHO BENEFITS

The owners of the qualifying solar energy system.

### EVALUATION

Not evaluated.

## 2.085 CHARITABLE, LITERARY, AND SCIENTIFIC ORGANIZATIONS

**Oregon Statute:** 307.130
**Sunset Date:** None (The low-income housing exemption sunsets 06-30-2028.)
**Year Enacted:** 1854
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $9.6 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $281,000,000 | $63,900,000 |
| 2025-27 | $306,000,000 | $69,800,000 |

### DESCRIPTION

Property owned or being purchased by literary, benevolent, and charitable organizations or scientific institutions is exempt from property taxation. To qualify, the organization or institution must:

- Be a nonprofit corporation
- Provide a charitable service to the public without expectation of payment
- Occupy and use the property in a manner that furthers the organization’s charitable purpose.

The organization or institution must file an application with the county assessor to claim the exemption (ORS 307.162).Shelter workshops and retail stores selling donated or consigned goods to support a welfare program or not-for-profit housing program are exempt from property taxation. Parking lots are also covered by the exemption as long as there is no charge for at least 355 days each year.

Real and personal property of retail stores owned by nonprofit entities is exempt from property taxation if the retail stores deal exclusively in donated inventory and the proceeds from the stores' sales are used to financially support a not-for-profit housing program.

Real and personal property of a retail store owned by a nonprofit corporation is exempt from property taxation if the store deals exclusively in donated inventory, operates with substantial support from volunteers, and all net proceeds of the retail store sales are donated to one or more of the following:

- A nonprofit corporation that provides animal rescue services
- A manufacturer or provider of goods or services in return for an equivalent value of goods or services from the manufacturer or provider
- To an entity that provides spaying and neutering services for pets of individuals residing in households with an annual household income at or below 80 percent of the area median income
- For the purpose of aiding domesticated animals, regardless of whether the animals are in the custody of the county shelter, in furtherance of the purpose for which the nonprofit corporation was organized.

Real or personal property of a nonprofit corporation that was offered, occupied, or used as low-income housing and granted exemption by the county as of the property tax year beginning July 1, 2012 is exempt from property taxation. Legislation in 2021 (HB 2446) extended the sunset of the low-income housing part of the exemption to June 30, 2028.

Over the years, legislation expanded and clarified the exemption, addressing retail stores (HB 3537, 2007; HB 3459, 2017), and low-income housing (HB 4039, 2014).

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to recognize the social benefits of some nonprofit organizations.

### WHO BENEFITS

This exemption applies to many nonprofit organizations. Examples are some hospitals, social service organizations, museums, youth and athletic groups, summer camps, and conservation groups. In tax year 2023-24, approximately 7,400 property tax accounts in 29 counties were exempt, but the number of organizations is unknown because the same organization may have property in more than one county.

### EVALUATION

Not evaluated.

## 2.086 FRATERNAL ORGANIZATIONS

**Oregon Statute:** 307.136
**Sunset Date:** None
**Year Enacted:** 1961
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $690 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $18,500,000 | $2,700,000 |
| 2025-27 | $22,000,000 | $3,200,000 |

### DESCRIPTION
Property used for fraternal or lodge work, entertainment, or recreational purposes by a fraternal organization (as defined in ORS 307.134) is exempt from property taxation. Fraternal organization property remains exempt even while being rented or leased to other persons so long as the rent does not exceed expenses for heat, lights, water, janitorial services, and supplies. Parking lots are exempt as long as there is no charge for at least 355 days each year. The fraternal organization must file an application with the county assessor to claim the exemption.

To qualify, a fraternal organization must:

- Be organized as a nonprofit
- Regularly provide financial support for a charitable activity with the purpose of doing good to others rather than for the convenience of its members
- Be established under the lodge system with ritualistic form of work and representative form of government
- Not distribute any income to its officers, members, or employees except for reasonable compensation for services
- Not be a college fraternity or sorority.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to recognize the social benefits of fraternal organizations.

### WHO BENEFITS
In tax year 2023-24, approximately 1,100 property tax accounts were exempt. Qualifying organizations may include the State Grange, American Legion, Veterans of Foreign Wars, Eagles, Elks, Masons, Moose, Odd Fellows, Knights of Pythias, Knights of Columbus, Lions Clubs, Soroptimists, Rotary, and Kiwanis.

### EVALUATION
Not evaluated.

## 2.087 RELIGIOUS ORGANIZATIONS

**Oregon Statute:** 307.140
**Sunset Date:** None
**Year Enacted:** 1854
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $5.3 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $152,000,000 | $33,900,000 |
| 2025-27 | $165,000,000 | $36,900,000 |

### DESCRIPTION
Houses of public worship and other buildings or property used solely for administration, education, literary, benevolent, charitable, entertainment and recreational purposes by religious organizations, and cemeteries are exempt from property tax. Parking lots are exempt as long as there is no charge for at least 355 days each tax year. The religious organization must file an application with the county assessor to claim the exemption.

Legislation in 2021 (HB 2008) permitted religious organizations to file applications without paying a filing fee.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to recognize the social benefits of religious organizations.

### WHO BENEFITS
In tax year 2023-24, counties reported that nearly 7,700 property tax accounts were exempt.

### EVALUATION
Not evaluated.

## 2.088 CEMETERIES, BURIAL GROUNDS, AND MAUSOLEUMS

**Oregon Statute:** 307.150
**Sunset Date:** None
**Year Enacted:** 1854
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $230 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $6,700,000 | $1,600,000 |
| 2025-27 | $6,900,000 | $1,600,000 |

### DESCRIPTION
Burial grounds, tombs and rights of burial, and lands and buildings on the land, not exceeding 30 acres, used for the sole purpose of a crematory or alternative disposition facility and for burial of incinerated or reduced human remains are exempt from property taxation. Lands used exclusively for cemetery purposes, not exceeding 600 acres, are exempt. Buildings to store maintenance equipment are included in the exemption. To qualify, a claim must be filed with the county assessor.

This statute exempts both nonprofit and for-profit cemetery and crematory associations, as well as family burial grounds. The property tax exemption for cemeteries and crematory properties is granted regardless of the organizational structure or state in which an association is organized.

Cemeteries owned by cities, counties, or cemetery districts are exempt by tax expenditure 2.078, State and Local Property. Cemeteries owned and maintained by religious organizations are exempt by tax expenditure 2.087, Religious Organizations.

Legislation in 2021 (HB 2574) broadened the exemption, operative beginning on July 1, 2022, to include lands used for the purpose of alternative disposition facilities and for burial of reduced remains.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is implementation of traditional public policy to not tax cemeteries.

### WHO BENEFITS
In tax year 2023-24, about 1,120 properties were exempt. About a third of the exempt value is located in Multnomah County.

### EVALUATION
Not evaluated.

## 2.089 CITY OWNED SPORTS FACILITY

**Oregon Statute:** 307.171
**Sunset Date:** None
**Year Enacted:** 2001
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $85 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $3,500,000 | $700,000 |
| 2025-27 | $3,800,000 | $800,000 |

### DESCRIPTION
In general, when public property is held under contract of sale or is leased to a private individual or business, it is considered taxable. However, this provision exempts any sports facility owned by a city with a population of at least 500,000 from taxation, even if leased to or operated by a taxable entity. Portland is the only city in Oregon with a population that qualifies.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage the use of the specific qualifying facility as a private sports venue.

### WHO BENEFITS
The only facilities in Portland currently affected by this statute are Providence Park and the Veterans Memorial Coliseum. As of the writing of this report, the City of Portland has approved the purchase of the Moda Center but the purchase is not yet complete. It is expected that the Moda Center will also qualify for this exemption.

### EVALUATION
Not evaluated.

## 2.090 EXEMPT LEASE FROM TAXABLE OWNER

**Oregon Statute:** 307.112
**Sunset Date:** None
**Year Enacted:** 1977
**2023-24 Estimated Reduction in the Taxable Assessed Value:** *

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | * | * |
| 2025-27 | * | * |

** Included in property tax exemption expenditures listed below.*

### DESCRIPTION
Property that is held under lease, sublease, or lease-purchase agreement by an entity that qualifies for a property tax exemption (under ORS Chapter 307) is exempt from property taxation. Eligible entities are institutions, organizations, and public bodies (other than the State of Oregon or an Oregon public university). The property must be used for a qualifying purpose, and the county assessor must be satisfied that the tax savings resulting from the exemption will inure solely to the benefit of the lessee. The lessee must file an application with the county assessor to receive this exemption.

Leased properties that qualify for this exemption are reported under one of the following expenditures:

- 2.001, Academies, Day Care, and Student Housing
- 2.007, Senior Services Centers

- 2.078, State and Local Property
- 2.082, Property Used Exclusively for Tribal Government Services
- 2.085, Charitable, Literary, and Scientific Organizations
- 2.086, Fraternal Organizations
- 2.087, Religious Organizations

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to extend equal treatment to exempt organizations whether they rent, lease, or sublease property.

### WHO BENEFITS
Exempt organizations and local governments.

### EVALUATION
Not evaluated.

## 2.091 EXEMPT LEASE FROM EXEMPT OWNER

**Oregon Statute:** 307.166
**Sunset Date:** None
**Year Enacted:** 1973
**2023-24 Estimated Reduction in the Taxable Assessed Value:** *

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | * | * |
| 2025-27 | * | * |

** Included in other ORS Chapter 307 property exemption tax expenditures.*

### DESCRIPTION
Property that is leased or rented to an entity that qualifies for a property tax exemption (under ORS Chapter 307) from an owner who also qualifies for an exemption is exempt from property tax. Eligible entities are institutions, organizations, and public bodies. The property must be used for a qualifying purpose and the tax savings resulting from the exemption must inure solely to the benefit of the lessee. The lessee must file an application with the county assessor to claim the exemption, or a federal, state, or local government leasing property to another governmental entity only needs to provide the assessor with basic information about the nature of the lease and the exempt entities.

Leased properties that qualify for this exemption may be reported under one of the following expenditures:

- 2.001, Academies, Day Care, and Student Housing
- 2.007, Senior Services Centers
- 2.078, State and Local Property
- 2.085, Charitable, Literary, and Scientific Organizations
- 2.086, Fraternal Organizations
- 2.087, Religious Organizations
- 2.093, Federal Property

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to extend equal treatment to exempt organizations whether they rent, lease, or sublease property.

### WHO BENEFITS
Exempt organizations and governments.

### EVALUATION
Not evaluated.

## 2.092 PROPERTY OF LLC OWNED BY NONPROFIT CORPORATION

**Oregon Statute:** 307.022
**Sunset Date:** None
**Year Enacted:** 2005
**2023-24 Estimated Reduction in the Taxable Assessed Value:** *

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | * | * |
| 2025-27 | * | * |

** Included in other ORS Chapter 307 property exemption tax expenditures.*

### DESCRIPTION
A Limited Liability Company (LLC) that is wholly owned by a nonprofit corporation qualifies for a special assessment or property tax exemption if the nonprofit corporation would qualify. The LLC's property qualifies for special assessment or exemption if it is exclusively using the property consistent with the nonprofit corporation's purposes.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to allow nonprofit owners of property to structure their property ownership in a way that provides the limited liability protection of an LLC while still providing the owner a property tax benefit.

### WHO BENEFITS
Nonprofit corporations that would qualify for a property tax exemption or special assessment that own property through wholly owned LLCs.

### EVALUATION
Not evaluated.

## 2.093 FEDERAL PROPERTY

**Oregon Statute:** 307.040
**Sunset Date:** None
**Year Enacted:** 1854
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $39 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $1,120,000,000 | $250,000,000 |
| 2025-27 | $1,170,000,000 | $260,000,000 |

### DESCRIPTION
Property of the United States and its agencies is exempt from property tax when taxation is prohibited by federal law. Federal property held under contract of sale or lease by a private party is generally taxable.

The Oregon Legislature exempted some leasehold interests of federal land that otherwise would be taxable.

The revenue impact for this tax expenditure includes the impact of 2.039, Leased Federal Grazing Land.

Revenue impacts from the following tax expenditures are not included in the estimate for this tax expenditure to avoid duplication.

- 2.021, Federal Land Under Summer Homes
- 2.022, Federal Land Under Recreation Facility
- 2.054, Federal Standing Timber Under Contract
- 2.061, Mining Claims on Federal Land

### PURPOSE
To comply with federal law.

### WHO BENEFITS
The United States government owns about 32 million acres in Oregon, or 53 percent of the land.

### IN LIEU
The federal government makes payments in lieu of property taxes to local governments for certain types of federal land, for example:

- Federal forest land
- Land subject to the Payments in Lieu of Taxes Act of 1976
- Coos Bay Wagon Road lands
- Public land resource sales
- Bureau of Land Management grazing lands
- U.S. mineral leases

### EVALUATION
*Provided by the Department of Revenue*

This expenditure achieves its purpose of compliance with federal law.

## 2.094 AMTRAK PASSENGER RAILROAD

**Oregon Statute:** 308.515(3)(d)
**Sunset Date:** None
**Year Enacted:** 1983
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $140 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $4,100,000 | $900,000 |
| 2025-27 | $4,200,000 | $900,000 |

## DESCRIPTION

National Railroad Passenger Corporation (Amtrak) property is exempt from property tax. Federal law (49 U.S.C. § 24301(k)) exempts the company from paying state or local taxes on personal property and most real property. Amtrak does not own land or structures in Oregon but leases or pays fees for use. If taxed, the value would likely be computed using an allocation formula based on share of passenger miles traveled in Oregon.

## PURPOSE

To comply with federal law.

## WHO BENEFITS

Amtrak benefits by not paying property taxes.

## EVALUATION

*Provided by the Department of Revenue*

This expenditure achieves its purpose of compliance with federal law.

## 2.095 FRATERNITIES, SORORITIES, AND COOPERATIVES

**Oregon Statute:** 307.471
**Sunset Date:** None
**Year Enacted:** 1973
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $15 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $200,000 | Less than $100,000 |
| 2025-27 | $200,000 | Less than $100,000 |

### DESCRIPTION

Certain property owned by a qualified nonprofit corporation, such as a fraternity, sorority, or cooperative housing organization, is exempt from property taxes imposed by schools, educational service districts, and community colleges. The property must be rented exclusively to students who attend an accredited educational institution which offers at least a two-year program acceptable for full credit toward a baccalaureate degree, and student occupancy must be nondiscriminatory with regard to race, creed, color, and national origin.

An application to the county assessor is required to claim the exemption. If an exempt property loses qualified status, the owner is required to notify the assessor. If notification is not provided and the property is disqualified, additional taxes equal to the tax benefit of the exemption for all exempted prior years plus interest and a 20 percent penalty on the tax amount shall be assessed. Tax expenditure 2.003, Leased Student Housing Publicly Owned, covers similar property owned by a public college.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to help keep college housing costs to a minimum and provide equitable treatment with those students living on campus in publicly-owned residence halls.

### WHO BENEFITS

In fiscal year 2023–24, approximately 60 accounts were exempt and located primarily in Benton and Lane counties.

### EVALUATION

*Provided by the Higher Education Coordinating Commission*

This tax expenditure achieves its purpose and contributes to containing the costs of higher education. Housing is typically one of the highest sources of financial burden for postsecondary students, many of whom cannot afford the cost of their education even with expected financial resources. Fraternities, sororities, and cooperatives are not-for-profit organizations that primarily or exclusively serve students. They are also important and traditional components in the housing supply for colleges and universities. These organizations provide the second largest option for campus student housing (residence halls are the first). Consequently, this exemption is valuable in supporting higher education. It is a fiscally effective means of achieving its purpose.

## 2.096 NEW RURAL HEALTH CARE FACILITIES

**Oregon Statute:** 307.804(2)
**Sunset Date:** None
**Year Enacted:** 2001
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
Real and personal property of a rural health care facility may be exempt from property taxation if the property constitutes new construction, new additions, new modifications, or new installations of property as of the first assessment date for which the facility is in service. Land and other existing property are not exempt.

The exemption lasts three years, but the taxpayer must file its intention to take the exemption each year. The exemption is available only in a county where the county governing body has passed a resolution authorizing the exemption and then only from the taxes of taxing districts that elect to participate by also passing a resolution or ordinance.

A rural health care facility is one that is located in a rural health service area with an average travel time of more than 30 minutes from a population center of 30,000 or more, as determined by the Office of Rural Health, and is used exclusively to provide medical care.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to promote health care in rural areas.

### WHO BENEFITS
No taxpayers received this exemption in 2023-24.

### EVALUATION
Not evaluated.

## 2.097 LONG TERM CARE FACILITIES

**Oregon Statute:** 307.811
**Sunset Date:** None
**Year Enacted:** 1999
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $7.3 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $200,000 | Less than $100,000 |
| 2025-27 | $200,000 | Less than $100,000 |

### DESCRIPTION
A property tax exemption is allowed for real and personal property that is used solely in the operation of a long term care facility that has been certified for the tax year as an essential community provider long term care facility. Qualifying long term care facilities are nursing facilities, assisted living facilities, residential care facilities, and adult foster homes. The owner of the facility must file with the county assessor a copy of a certificate issued by the Aging and People with Disabilities Division of the Oregon Department of Human Services. Adult foster homes must have an average residency rate of at least 60 percent of residents eligible for Medicaid, whereas all other qualifying facilities must have a residency rate of 50 percent (ORS 443.888). The facility will only receive a property tax exemption from those taxing districts granting the exemption.

### PURPOSE
The statutory policy is to recognize that "…owners of long term care facilities that devote substantial proportions of those facilities to providing long term care to residents eligible for medical services under Medicaid provide an essential community service. The Legislative Assembly declares that a property tax exemption will enable these essential community provider long term care facilities to increase the quality of care provided to facility residents." (ORS 307.808)

### WHO BENEFITS
In tax year 2023-24, counties reported that six property tax accounts received this exemption.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This exemption is helpful to the few facilities that have applied. However, utilization is low likely due to the low number of facilities that serve more than 50% Medicaid consumers. It is also likely that smaller programs are unaware that the exemption is available. Additionally, the language excludes facilities serving individuals with intellectual or developmental disabilities licensed by ODHS, Office of Developmental Disabilities Services and facilities serving individuals with behavioral health needs licensed by the Oregon Health Authority.

## 2.098 FACILITIES WITH PREPAYMENT AGREEMENT

**Oregon Statute:** 311.865
**Sunset Date:** None
**Year Enacted:** 1975
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $2.4 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

Certain facilities that have pre-paid property taxes while under construction are partially exempt from property tax for a period of years upon completion of the construction of the facility. To qualify for this exemption, a facility must be a thermal power plant, a hydroelectric power project or any building or improvement that is suitable for use for industrial, commercial, or warehousing purposes.

To qualify there must be an agreement between the taxing unit/local government and the property owner which specifies some restrictions, such as that the exemption should not exceed 10 years from the date of the completion of the construction of the facility.

### PURPOSE

"…to provide a method for prepaying ad valorem property taxes during the period of planning and construction of the facility, in order that units of local government may provide the services, buildings or other resources necessitated without imposing an undue burden upon other properties subject to taxation within the unit, and to provide for repayment of the amounts prepaid" (ORS 311.850).

### WHO BENEFITS

Facilities that previously pre-paid property taxes under one of these specified agreements. In tax year 2023-24 only one county reported using this exemption: Clackamas County reported 11 exempt accounts.

### IN LIEU

Facilities under construction enter an agreement to pre-pay property taxes for the facility that is under planning and construction to local government. The amounts pre-paid are considered a budget source for local governments. The amounts pre-paid are the basis for the amounts that are exempt under this provision.

### EVALUATION

*Provided by the Oregon Business Development Department*

This tax expenditure can serve to facilitate eligible developments, for which obstacles arise in relation to special costs for local public services affected by or required during construction or related activities. The pre-paid amounts would offset these impacts on local governments allowing construction to proceed. Later, when the new facility's real market value is reduced for up to 10 years, a tax expenditure is in effect. The taxpayer's savings, however, are not to exceed the amount previously paid to local governments plus interest, so that over time, there is not necessarily a net loss of public revenues. Though certain local taxing districts, which are not much affected by construction and do not receive prepayments, might experience a net loss.

# 2.099 CERTAIN COMMUNICATION RELATED PROPERTY

**Oregon Statute:** 308.671
**Sunset Date:** None
**Year Enacted:** 2001
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $2.2 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $63,000,000 | $14,000,000 |
| 2025-27 | $67,800,000 | $15,100,000 |

## DESCRIPTION

A communication company may choose one of the following types of property to be exempt from property taxation:

- Licenses granted by the Federal Communication Commission.
- If the company is in the business of communication, franchises.
- Satellites that are used by the company to provide communication services directly to retail customers or that are being constructed for such use and Federal Communications Commission licenses related to the use of the satellites to provide the communication services.

Legislation in 2015 (SB 611) added the exemptions for franchises and satellites.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for SB 611 (2015), which modified this provision, "The policy purpose of this measure is to provide tax relief for centrally assessed companies, primarily those with high levels of intangible value and to create a tax environment that incentivizes investment by centrally assessed communication companies in Oregon."

## WHO BENEFITS

Communication companies that have FCC licenses, franchises, or satellites. In fiscal year 2023-24, 34 companies received this exemption. Twenty-three of these companies received the exemption on their FCC licenses, and the remaining 11 received the exemption on their franchises or their satellites.

## EVALUATION

*Provided by the Oregon Public Utility Commission*

The statute appears to provide tax relief for centrally assessed communications companies and creates a tax environment more friendly towards centrally assessed communication companies in Oregon. However, the PUC does not have information on which companies have received tax relief under this option. Presumably, this option would remove one potential barrier for national, regional, or Oregon-only telecommunications companies looking to invest in Oregon. This may provide benefits to new market entrants who could provide alternatives to legacy telecommunications service and infrastructure. Expanding upon the exemption might incentivize existing or new market entrants making investments to replace aging infrastructure capable of providing modern telecommunications services. Not all of the potential market entrants have FCC licenses or franchises from Oregon public bodies. Such an expansion could be time-limited to encourage faster facility build out.

# 2.100 STRATEGIC INVESTMENT PROGRAM

**Oregon Statute:** 307.123
**Sunset Date:** None
**Year Enacted:** 1993
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $24 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $681,000,000 | $131,000,000 |
| 2025-27 | $654,000,000 | $124,000,000 |

## DESCRIPTION

This expenditure (abbreviated as SIP) allows for part of a new business project with a large capital investment to be exempt from property taxes over a 15-year period. The property tax exemption is on the amount of the eligible project's real market value that exceeds a certain threshold amount. The project's real market value up to the threshold amount is fully taxable at that property's assessed value. This taxable portion's threshold increases 3 percent each year during the 15-year exemption period.

For SIP projects in urban areas, the initial taxable amount is $100 million, which is indexed for price inflation in 2026 and later under House Bill 2009 in 2023. So, for example, a new project with a total investment cost of $175 million, $75 million would be exempt from property taxation and $100 million would be fully taxable in the first year of the exemption.

For SIP projects in rural areas, if the total investment cost is less than or equal to $500 million, the taxable amount is initially $40 million. If the total investment cost is more than $500 million but not more than $1 billion, then the taxable portion is $75 million. If the cost is more than $1 billion, then the taxable portion is $150 million. These threshold amounts for rural areas reflect increases by HB 2009, but they are not inflation-indexed going forward. A rural area is defined here as an area located outside current urban growth boundaries (UGBs) surrounding any city of 40,000 or more in population.

The new investment must be in a traded-sector industry—i.e., sells goods or services in markets with national or international competition, including but not limited to manufacturing. The business making the investment and operating the project needs to conduct a job fair (added by HB 2009) and to enter into a first source hiring agreement with local publicly funded job training providers.

Approval of a SIP project requires a county public hearing, written agreement between the business and the county—and the city if locating inside city limits and, under HB 2009, the port if anywhere inside the port district—and finally, formal action (vote) by the county governing body. The Oregon Business Development Commission (OBDC) makes a final determination of project eligibility for it to receive SIP tax treatment, including that investment costs will be at least $40 million in a rural area or $150 million, if urban, as increased from $25 and $100 million, and to be adjusted for price inflation after 2025, under HB 2009.

In applying to the state for this exemption, businesses must pay fees equal to $10,000 ($5,000 in rural areas). An additional $50,000 ($10,000 in rural areas) is due with the OBDC's determination of eligibility, from which the Department of Revenue receives 50 percent for administrative purposes. The remaining funds are deposited in the Oregon Business, Innovation and Trade Fund.

A business using this property tax exemption must also pay the county an annual fee in support of community services (see In Lieu below), in addition to other requirements under the agreement with the county (and any applicable city/port) which typically prescribes further payments to local governments. In 2017, the Legislature (SB 936, 2017) not only increased the taxable portion of property for rural projects of $0.5 billion or more (see above), but the yearly cap on community service fees was also raised from $500,000 and $2 million in rural and urban areas, respectively, to $2.5 million for any new project. For future projects, HB 2009 increased the fee's maximum to $3 million annually as indexed to price inflation starting in 2025 (including during the exemption period).

Starting in 2011, the 2007 Legislature provided for local "gain share" of annual personal income tax revenue from state tax collections attributable to new and retained employment at SIP projects first exempt in or after 2008. A percentage

of the estimated amount of state revenue is transferred to the county for local distribution under the same formula as the community service fee (see In Lieu below). In 2015, the Legislature (SB 129):

- Extended gain-share provisions through 2024. (SB 1524 (2023) extended this date an extra year to 2025, which HB 2009 extended until 2030).
- Capped the total that any one county could receive at $16 million per year (currently affecting only Washington County).

Reduced from 50 percent to 20 percent, the portion of estimated tax revenue from retained jobs subject to transfer (still 50 percent for new-job revenue).

## PURPOSE

"…to improve employment in areas where eligible projects are to be located and [the Legislative Assembly] urges business firms that will benefit from an eligible project to hire employees from the region in which the eligible project is to be located whenever practicable" (ORS 285C.603).

## WHO BENEFITS

By tax year 2023–24, 20 SIP projects were receiving this property tax exemption, 8 of which will complete their exemption during the 2023–2025 biennium; 10 others had been formerly exempt. The Intel Corporation is the program's only urban user at present and has dominated program activity with large investments in high-technology semiconductor commercialization and fabrication in Hillsboro and Aloha since 1994, in addition to data centers, wood/paper-related products, and power generation (mostly wind) in rural areas. Over the next four years, 11 approved projects are expected to begin exemptions.

## IN LIEU

Businesses that have exempt property value under SIP pay a community service fee each year equal to 25 percent of the property taxes that would have otherwise been imposed. In 2023, businesses in the Strategic Investment Program paid $10.2 million in statutory community services fees in addition to more than $111 million in other locally negotiated payments primarily made to county governments, as well as $19 million in property taxes on the taxable portion of SIP projects. Community service fees are generally divided up among the county, city (if any), and (non-school) taxing districts in the project's property tax code area under a special intergovernmental agreement or otherwise by OBDC action.

## EVALUATION

*Provided by the Oregon Business Development Department*

The program appears to achieve its purposes by giving local governments an option in pursuing well-structured arrangements for extraordinarily large, highly capital-intensive investments, such that companies are paying more reasonable taxes relative to direct public service impacts in communities that particularly value those companies' construction spending, employment impacts, negotiated concessions, franchise taxes and other benefits. As such, local officials have thoughtfully approved 41 SIP projects.

Anecdotal evidence, at least, suggests that these mutually beneficial arrangements have been crucial for attracting and maintaining exceptionally large investments and associated operations in Oregon. OBDD does not have sufficient data to determine that participating businesses do not simply realize lower taxes on property that might have existed any way, or that local/regional economies are sustainably better off than they would otherwise be.

The 2003 Legislature may not have expected the lower threshold for rural projects to be a panacea for all of Oregon's struggling rural economies (business investments even approaching the former rural threshold $25 million are still rather unusual). Nevertheless, that policy change has had an impact with operating projects in Clackamas, Clatsop, Columbia, Gilliam, Lincoln, Morrow, Sherman and Umatilla counties, as well as recently approved projects in Coos, Douglas, Klamath, Lake, Wasco and Yamhill counties. Many rural projects comprise major energy investments, for which parts of Oregon offer distinct advantages, even if some amount of negotiated property tax relief might have still been critical relative to other locations. The number of other of industries involved in the program statewide has been expanding, especially lumber manufacturing.

In 2022–23, businesses in the program enjoyed net savings of $280.5 million in property taxes, before subtracting $121.8 million of nontax fees or other payments under local SIP agreements, so that the net revenue foregone by local governments (after also adjusting for levy shifts and typical tax payment discounts by county) was approximately $168.9 million.

The taxable portions of these SIP projects generated as much as $19 million in property taxes, aside from the taxes on former project property, other property of these businesses, and the property of their suppliers, contractors and so forth. Also, worth considering might be how these amounts compare to the taxes levied on commercial or other developments relative to demands on public services.

With respect to outcomes, as reported under the gain-share provisions discussed above, there are 15,040 full-time equivalent jobs created or retained directly with these current projects (overwhelmingly at Intel) with average annual incomes of about $181,894. These payrolls generated an estimated $125 million in state personal income taxes in 2023, of which $17.5 million was paid out by the state in gain-share distributions to county governments. Gain-share funds are distributed consistent with business's community service fees among cities and special service districts.

## 2.101 CAP ON CENTRAL ASSESSMENT FOR CERTAIN COMPANIES

**Oregon Statute:** 308.674
**Sunset Date:** 06-30-2030
**Year Enacted:** 2015
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $140 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $4,000,000 | $900,000 |
| 2025-27 | $4,400,000 | $1,000,000 |

### DESCRIPTION

A company that is centrally assessed (under ORS 308.515(1)) will receive an exemption on any value above 130 percent of the historical or original cost of the company's real property and tangible personal property included in the unit subject to central assessment. The exemption is calculated so as to not double count any exemption elected under 2.099, Certain Communication Related Property. In addition, the amount of this exemption may not exceed an amount equal to 95 percent of the real market value of the company's real property and tangible and intangible personal property included in the unit subject to central assessment.

The property of a company that is granted this exemption for a property tax year is not eligible to receive any other property tax exemption except as provided by 2.099, Certain Communication Related Property. In addition, a company's status as having been granted this exemption for a property tax year has no effect on the benefits that the property of the company or the company may be granted under Chapter 285C (Enterprise Zone tax expenditures) or 2.100, Strategic Investment Program for the property tax year.

Legislation in 2023 (HB 2080) extended the sunset to June 30, 2030.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2080 (2023), "the policy purpose of this measure is to provide tax relief for centrally assessed companies, primarily those with high levels of intangible value and to create a tax environment that incentivizes investment by centrally assessed communication companies in Oregon."

### WHO BENEFITS

In fiscal year 2023-24, 60 companies received this exemption. The assessed value of property exempted for these companies was $140 million.

### EVALUATION

*Provided by the Oregon Business Development Department*

This tax expenditure should improve the competitiveness of telecommunication investments in Oregon in comparison to the alternative of fully applying unitary methods of valuation that incorporate the intangible assets of nationwide telecommunication companies in assessing taxable value. The relative size of such assets might be extraordinarily high for such businesses, and other states do not appear to commonly employ methods that effectively tax most such intangible value of the telecommunication industry. The department, however, lacks the data or direct experience to address this expenditure further.

## 2.102 VERTICAL HOUSING DEVELOPMENT ZONE

**Oregon Statute:** 307.864
**Sunset Date:** 12-31-2025 (for new certifications)
**Year Enacted:** 2001
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $390 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $11,800,000 | $2,700,000 |
| 2025-27 | $12,900,000 | $2,900,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION

A partial property tax exemption is available for 10 consecutive years for qualified residential housing combined with nonresidential uses in a vertical housing development zone. Vertical housing development zones are designated by a city or county, but the city or county must consider the potential impact of displacement on existing residents before designating the zone.

The qualified project must consist of a multiple story building or group of buildings, including at least one multiple story building containing nonresidential and residential space in any proportion. The partial property tax exemption depends on the portion of the property dedicated to residential housing. If any of the residential floors are converted to commercial space, the project may receive a reduced exemption or be disqualified.

A project may be new construction or a rehabilitation of an existing building. The land on which a project is located may be included in the partial exemption if the project restricts participation of at least a portion of the residential units to low-income persons or families, defined as having income 80 percent or less of area median income, adjusted for family size, as determined by the Oregon Housing and Community Services Department.

The taxpayer must apply with the city or county for the exemption but the vertical housing development project partial exemption does not apply to the taxes of any local taxing district or special district that elects not to participate.

Legislation in 2015 extended the sunset for new certifications through 2025, added a definition for “nonresidential use,” and allowed any local taxing districts to opt out of the exemption and thus tax these properties at their full assessed value. Legislation in 2017 removed Oregon Housing and Community Services Department from the process of designating and certifying a zone and added a requirement that cities and counties consider the potential for displacement on residents before designating a new zone.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage investment in and rehabilitation of properties in targeted areas of a city or community, to augment the availability of appropriate housing, and to revitalize communities.

### WHO BENEFITS

Taxpayers of approved projects receive partial property tax exemptions. In tax year 2023-24, four counties reported that there were 23 accounts receiving this exemption.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose. The program is relatively efficient to administer in comparison with other types of housing funding. The exemption offers an incentive to encourage the construction or rehabilitation of properties in targeted areas of communities in order to augment the availability of appropriate housing and to revitalize such communities.

Although it is assumed that the placement of these projects benefits the communities and an increased tax base, the program is not structured to get feedback from the communities to verify this.

## 2.103 CERTAIN SINGLE-UNIT HOUSING

**Oregon Statute:** 307.664
**Sunset Date:** 12-31-2029 (last day to approve applications)
**Year Enacted:** 1989
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $110 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $3,900,000 | $1,300,000 |
| 2025-27 | $4,200,000 | $1,400,000 |

### DESCRIPTION

A city may grant a property tax exemption for up to 10 successive years for rehabilitated, newly constructed, or newly purchased single-unit housing. Condominiums and single-family homes can qualify for this exemption. A manufactured structure is eligible depending on the jurisdiction. Only the value of the dwelling is exempt; the land remains taxable.

Qualified dwelling unit has a market value for the land and improvements of no more than 120 percent, or a lesser percentage as adopted by the city or county by resolution, of the median sales price of dwelling units located within the city. Each dwelling unit is intended to be purchased and lived in by one person or one family.

Approved property is generally exempt only from city or county taxes. However, if local taxing districts representing at least 51 percent of the taxes on the property pass resolutions supporting the exemption, then the exemption applies to the taxes of all districts.

If a city has more than 40 percent of the total tax rate of all taxing districts with jurisdiction over the property, a county resolution or ordinance is required for the exemption to apply.

To qualify for the exemption, the property must meet certain criteria such as type of the property, value of the property, and, for new construction, the date it was constructed.

A change of use will disqualify the property from the program. Upon disqualification, an additional tax is generally due based on the number of years of exemption.

Legislation in 2017 (HB 2964) allows cities to extend the exemption to newly purchased or newly rehabilitated housing.

Legislation in 2023 (HB 2080) extends the sunset for cities to approve new applications to December 31, 2029.

Legislation in 2024 (HB 4063) allows a city to approve or terminate the exemption. Also, it requires a city to provide the county assessor with certain information about the approved application by the April 1 filing deadline for the tax exemption.

### PURPOSE

"(1) The Legislative Assembly finds it to be in the public interest to encourage homeownership among low- and moderate-income families. (2) The Legislative Assembly further finds and declares that the cities of this state should be able to establish and design programs to stimulate the purchase, rehabilitation and construction of single-unit housing for homeownership by low- and moderate-income families by means of a limited property tax exemption, as provided under ORS 307.651 to 307.687." (ORS 307.654)

### WHO BENEFITS
Homeowners who qualify for the reduced taxes. Most of the exempted homes are in the Portland area.

### EVALUATION
*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose. The program is relatively efficient to administer in comparison with other types of housing funding. There is no need to channel funding through different layers of government and minimal need to establish larger bureaucratic mechanisms to develop program guidelines or to review for program eligibility. The exemption is intended to provide an incentive for builders to build housing that they would not otherwise build by providing to the purchaser of a qualifying home a full property tax exemption on the building for 10 years. Whether any given home would or would not have been built without the benefit of the exemption is difficult to determine. The popularity of the program with builders suggests that the exemption functions well.

A major advantage of tax exemptions over a direct expenditure is the ability to tie the exemption to the specific project with little risk to the city. If the project is not constructed, the assistance is not tied up pending the fate of the project in the way a direct budgeted funding commitment would be. In other words, there is no lost opportunity of funds committed to a project that is not constructed; nor is there any lost revenue.

Additionally, the program provides an additional incentive that helps to design housing in ways consistent with local policy.

The program is available to both for profit and nonprofit housing developers. Local programs can be designed with a variety of monitoring and evaluative controls.

## 2.104 REHABILITATED HOUSING

**Oregon Statute:** 308.459
**Sunset Date:** 12-31-2016 (last day to complete rehabilitation)
**Year Enacted:** 1975
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
A city or county could grant an exemption from property tax for any value that is attributed to the rehabilitation of housing or conversion of buildings for housing (single or multi-family) for up to 10 years. If the housing was at least 25 years old at the time of application, it may have qualified if it underwent rehabilitation on or after September 12, 1975, and before January 1, 2017. The rehabilitation must have cost at least 5 percent of the assessed value of the property before rehabilitation. Regardless of the age of the housing, it could have qualified if it underwent rehabilitations that cost at least 50 percent of the assessed value of the property before rehabilitation, and the rehabilitations were done after October 3, 1989, and before January 1, 2017. There was a procedure allowing for a 12-month extension of the deadline for completion of a rehabilitation. Applications for this partial exemption must have been filed with the city or county prior to January 1, 2015.

To receive the exemption, the property must have met several requirements. Before rehabilitation, it must have failed to comply with one or more standards of applicable building or housing codes. The property must have consisted of residential units, of which at least 50 percent were for nontransient occupants. If the property was owner-occupied, the property must have been in a distressed area as designated by the city or county. Finally, the property must have been approved for exemption by the city or county before rehabilitation.

The assessed value of exempt property was frozen for ten years at its assessed value before rehabilitation. However, if the owners of the property entered into a low-income rental assistance contract with a government agency during this

time, and if the contract expires after the ten-year period, the property value will remain frozen through the term of the contract.

Qualified property was generally exempt only from city or county taxes. However, if local taxing districts representing at least 51 percent of the taxes on the property passed resolutions supporting the exemption, then the exemption applied to the taxes of all districts.

### PURPOSE

To "encourage the rehabilitation of existing units in substandard condition and the conversion of transient accommodation to permanent residential units and the conversion of nonresidential structures to permanent residential units in order to make these units sound additions to the housing stock of the state" (ORS 308.453).

### WHO BENEFITS

Single or multi-family housing owners who rehabilitated their property. Counties reported that no taxpayers received this exemption in 2023-24.

### EVALUATION

Not evaluated.

## 2.105 MULTI-UNIT RENTAL HOUSING IN DESIGNATED AREAS

**Oregon Statute:** 307.612
**Sunset Date:** 01-01-2032
**Year Enacted:** 1975
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $610 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $21,100,000 | $6,300,000 |
| 2025-27 | $24,600,000 | $7,300,000 |

### DESCRIPTION

A city or county may grant a property tax exemption for multiple unit rental housing (excluding land) in areas designated as core areas, light rail station areas, and transit-oriented areas for up to 10 successive years. Housing that can qualify for this exemption includes newly constructed housing and property converted to housing use.

Core, light rail station, and transit-oriented areas are locations designated by the city or county granting the property tax exemption. Cities may designate any of these types of areas, while counties may designate light rail station areas or transit-oriented areas, but not core areas.

Approved property is generally exempt only from city or county taxes. However, if local taxing districts representing at least 51 percent of the taxes on the property pass resolutions supporting the exemption, then the exemption applies to the taxes of all districts.

The exemption does not include the land or any improvements not part of the multiple unit housing with these exceptions:

- Parking constructed as part of the multiple unit housing construction, addition, or conversion
- Commercial property to the extend that the commercial property is a required design or public benefit element of a multiple-unit housing construction, addition, or conversion approved by an authorizing city or county
- In the case of a structure to which stories or other improvements are added or a structure that is converted in whole or in part from other use to dwelling units, the entire multiple-unit housing including the additions to the structure and converted structures may be exempt from taxation.

Any county over 300,000 in population, and any city, may include urban renewal land and land near the central business district within its eligible core area. Construction is to be completed by January 1, 2032, but an extension is possible.

Legislation in 2011 (SB 322) included commercial property as eligible for this exemption if the commercial property is a required design or public benefit element of a multiple-unit housing construction, addition or conversion approved by an authorizing city or county. Legislation in 2019 (SB 262) extended the last date for completion of construction to January 1, 2032. Legislation in 2023 (HB 2080) required the city or county to send notice of approval to the owner and provide the county assessor documents listing the owner, property details and approval conditions.

For additional provisions associated with this exemption see 2.106, Low Income Multi-Unit Rental Housing.

### PURPOSE

To "stimulate the construction of rental housing in the core areas of Oregon's urban centers to improve the balance between the residential and commercial nature of those areas..." and to have city programs emphasizing the "development of vacant or underused sites in the core areas..." with "rental rates accessible to a broad range of the general public" (ORS 307.600).

### WHO BENEFITS

For tax year 2023–24, four counties reported 111 property tax accounts which benefited from this exemption or 2.106, Low Income Multi-Unit Rental Housing. Most are in Lane and Multnomah counties.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose. This is a relatively older tax exemption program that offers a long track record to judge its success. The exemption offers an incentive for developers to construct or convert to rental housing developments they would not otherwise construct or convert in city downtown core areas. The burden of proof falls on the developers as to whether any given development would have been built without the benefit of the exemption. This point must be demonstrated through a series of public hearings. The exemption is popular, but the process for either seeking or receiving qualification for the exemption is expensive and time consuming.

The Portland Bureau of Housing ensures the exempted property provides such public benefits as: reduction of rents, a limited rate of return on investment to the developer and the subsequent owner of only 10–12 percent per year, and public art, landscaping, child care, or set-asides of land for public parks. Although developments need only 10 units or more to qualify for the exemption, the complexity of the process makes it impractical for all but large developments. Therefore, the exemption tends to exclude smaller projects and less sophisticated housing developers.

The exemption seems to perform a solid public purpose, but is subject to a locally designed approval process.

## 2.106 LOW INCOME MULTI-UNIT RENTAL HOUSING

**Oregon Statute:** 307.612
**Sunset Date:** 01-01-2032
**Year Enacted:** 1999
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Included in 2.105, Multi-Unit Rental Housing in Designated Areas

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Included in 2.105 | Included in 2.105 |
| 2025-27 | Included in 2.105 | Included in 2.105 |

### DESCRIPTION

This tax expenditure is related to tax expenditure 2.105. A city or county may exempt from property tax any building operated as low-income rental housing under a low-income assistance contract with the state or federal government. The duration of exemption may run no more than 10 successive years unless extended by the city or county to run

through the tax year in which the contract terminates. The property is not required to be in a core, light rail station, or transit-oriented area.

Qualified property is generally exempt only from city or county taxes. However, if local taxing districts representing at least 51 percent of the taxes on the property pass resolutions supporting the exemption, then the exemption applies to the taxes of all districts.

An exemption is allowed only when the city or county has designated an area in which exemptions may be granted and has approved the exemption application. The exemption may not include the land or any improvements not associated with the multi-unit housing but may include parking constructed as part of it or the commercial property that is a required design or public benefit element of a multiple-unit housing construction, addition or conversion approved by an authorizing city or county. To qualify for this exemption, applications must be received before January 1, 2032. Legislation in 2019 (SB 262) extended the date for applications.

Legislation in 2023 (HB 2080) expanded the property tax exemption for multiple-unit housing to include the entire multiple-unit housing, including the additions to the structure and converted structures, in the case of a structure to which stories or other improvements are added or a structure that is converted in whole or in part from other use to dwelling units.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to provide an incentive to maintain or expand the supply of affordable rental housing.

### WHO BENEFITS
Owners of low income rental housing complexes; the properties exempt under this provision are included in the properties described in 2.105, Multi-Unit Rental Housing in Designated Areas.

### EVALUATION
*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose. The exemption encourages the development of affordable housing and essentially lowers the operational costs of the property helping offset the reduced revenue that occurs when entering into an affordability agreement. Affordable housing is a scarce resource and tenants of subsidized housing are of low income. These families would have very limited opportunities in finding replacement housing at the same affordable rent level without this program.

## 2.107 PROPERTY FOR LOW-INCOME RENTAL

**Oregon Statute:** 307.517 and 307.518
**Sunset Date:** 06-30-2030 (application deadline)
**Year Enacted:** 1989
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $140 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $4,500,000 | $700,000 |
| 2025-27 | $5,100,000 | $800,000 |

### DESCRIPTION
Newly constructed rental housing occupied by low-income persons or property held for a period of time set by the city or county for future development as low-income rental housing is exempt from property taxes for 20 years if the property meets certain criteria such as the location, year it was built, renters' income, and the amount it is rented for.

The sunset date is June 30, 2030. Applications for exemption must be filed with the city or county by that date. The property must be owned by either a for-profit business or nonprofit 501(c)3 entity. In addition, low-income rental residences owned by a nonprofit public benefit or religious corporation could be exempt if they meet certain criteria.

Generally, exemption applies only to city or county property taxes. However, if districts representing at least 51 percent of the taxes on the property pass resolutions supporting the exemption, then the exemption applies to the property tax levies of all districts.

Legislation in 2015 (HB 2130) amended the law to allow cities or counties to establish reasonable maximum holding times for land designated for low-income housing development. The legislation also permitted cities or counties to elect additional qualifying criteria before granting the exemption.

Legislation in 2023 (HB 2080) expanded this low-income rental housing property tax exemption to include housing owned by limited equity cooperative corporations.

## PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2130 (2019), "the policy purpose of this measure is to assist in providing housing equity throughout the state and reduce homelessness."

## WHO BENEFITS

For tax year 2023–24, five counties reported around 121 property tax accounts were exempt, most located within Lane County

## EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure is critical to the viability of many low-income housing developments; it achieves its stated purpose. The exemption reduces the operating expenses for the provider of low-income housing, thereby resulting in lower rents. Without this assistance in lowering rents, some Oregonians could not afford decent housing; in some cases, this housing would not be built.

Where a taxing jurisdiction has adopted the authorizing provisions, the process by which it grants the exemption is quite straightforward; if a development meets the criteria, it receives the benefit of the exemption. It is relatively easy to administer once in place.

The taxing entity typically requires an annual report of tenant income levels and the rental rates being charged in exempted developments. This helps ensure fulfillment of the requirement that the project rental rates reflect the full property tax reduction and prevents possible abuse of the exemption by developers or development owners.

After the 20-year exemption, the entire property comes onto the tax rolls at its full assessed value. Tenants, property owners, and local governments benefit in the long term.

Since Measure 50 took effect in 1997, property tax exemptions have caused actual revenue losses to local governments. Before Measure 50, exemptions did not decrease local tax revenues because other property tax payers paid at a higher tax rate to compensate. Despite the loss to local governments caused by Measure 50, local governments have elected to increase the exempted value significantly since Measure 50.

This exemption enables local governments to contribute to providing affordable housing in their communities without raising additional revenue and spending it on affordable housing. The administrative costs of this exemption are likely less than would be incurred through a direct program developed to achieve this objective. This exemption fits well with other direct and indirect spending programs for affordable housing assistance. The exemption is both fiscally effective and an efficient means of achieving its public goal.

# 2.108 NONPROFIT LOW-INCOME RENTAL HOUSING

**Oregon Statute:** 307.541
**Sunset Date:** 06-30-2027
**Year Enacted:** 1985
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.1 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $39,000,000 | $12,400,000 |
| 2025-27 | $45,400,000 | $14,500,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

## DESCRIPTION

A city or county may exempt from property tax certain property owned or being purchased by a nonprofit corporation if the property is intended for the purpose of low-income housing. The property must currently be in use as housing or may be land being held for that purpose. Qualifying nonprofit corporations must be exempt from federal income tax and upon liquidation distribute remaining assets to other tax-exempt charitable organizations or the state of Oregon.

Approved property is generally exempt only from city or county taxes. However, if local taxing districts representing at least 51 percent of the taxes on the property pass resolutions supporting the exemption, then the exemption applies to the taxes of all districts.

When applying for the exemption, the nonprofit corporation must certify that the income level of each renter is at or below 60 percent of area median income which is determined by the State Housing Stability Council based on information from the U.S. Department of Housing and Urban Development. In addition, the nonprofit corporation must describe how the exemption will benefit project residents, and, for projects after October 5, 2015, must meet any additional criteria established by the city or county prior to the application.

Each year the nonprofit corporation must file an application with the appropriate city or county to claim the exemption. The exemption is only allowed for tax years beginning on or after January 1, 1985, and before July 1, 2027.

This expenditure is similar to 2.107, Property for Low-Income Rental. The qualifications are not identical, but for a nonprofit organization, it could be possible that it would qualify under either requirement.

Legislation in 2015 (HB 2130) amended the law to allow cities or counties to establish reasonable maximum holding times for land designated for low-income housing development and permits cities or counties to elect additional qualifying criteria before granting the exemption. HB 3082 in 2015 amended the law to allow alternative definitions of low-income, up to 80 percent of area median income, for the purpose of renewing an existing application.

Legislation in 2021 (HB 2456) allowed for a city or county to define “low income” using three different options that would potentially increase the income level of eligible tenants: a) at or below 60 percent of the area median income; b) at or below 60 percent of the area median income for the initial year and at or below 80 percent of the area median income for subsequent years; or c) for property awarded tax credits through the federal Low-Income Housing Tax Credit Program, at or below 80 percent of the area median income if the average of all units on the property is at or below 60 percent of the area median income.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage nonprofit organizations to help fill the need for low-income housing.

## WHO BENEFITS

Nonprofit organizations benefit directly. The tenants of the housing benefit to the extent that below-market rate rental housing is available. For tax year 2023-24, counties reported 872 property tax accounts. Most are located in Multnomah County.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose. The exemption is intended to enable community development corporations and other qualifying local nonprofit organizations to provide affordable rental housing for low income households they would otherwise be unable to provide. To qualify for this popular program, the nonprofit submits an application each year for a one-year exemption, renewable indefinitely before the exemption's sunset date as long as the organization, tenants, and property continue to meet the qualifying criteria. The exemption is simple to administer because the criteria are clear: the benefiting organization must be a qualified nonprofit, the benefiting tenants must have qualifying income levels, and the property must consist of qualifying rental housing. Having met these requirements, a nonprofit will receive its exemption.

The tax expenditure appears to be both a fiscally effective and efficient means of achieving its goal. These exemptions can be counted as matching funds by the state and other local participating jurisdictions to enable the expenditure of HUD Home Investment Partnerships funds.

## 2.109 NEW OR REHABILITATED MULTI-UNIT RENTAL HOUSING

**Oregon Law:** Ore. Laws 2017 c.624
**Sunset Date:** 01-02-2027
**Year Enacted:** 2017
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.3 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION

This provision allows a governing body of a city or county to adopt an ordinance or resolution granting a newly rehabilitated or constructed multi-unit rental housing an exemption from property taxes. The ordinance must publish one of two schedules:

1. The number of years the exemption will be granted for must increase directly with the percentage of units that are rented at affordable rates to households with income at or below 120 percent of the area median income (AMI). Up to a maximum of 10 years can be granted for exemption.
2. Legislation in 2023 (HB 2080), authorizes a city or county to establish a schedule in which, for 10 years, the percentage of property tax exemption granted to an affordable multiunit rental housing complex increases directly with the percentage of units rented to households with an annual income at or below 120 percent of the area median income.

The ordinance or resolution must also include definitions for AMI and affordable for purposes of qualifying for the exemption.

For the ordinance or resolution to take effect, districts representing at least 51 percent of the taxes on the property must pass resolutions supporting the exemption. The exemption applies to the property tax levies of all taxing districts in which the property is located.

A property must file an application to receive this exemption for each year in which the property remains eligible to receive the exemption.

The laws authorizing this exemption are repealed on January 2, 2027. However, any properties granted exemption under an ordinance or resolution authorized by this program continue to receive the exemption through the remainder of the terms of that ordinance or resolution.

### PURPOSE
The statutes that allow this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2377 (2017), "The policy purpose of this measure is to provide county and city governing bodies the ability to implement a targeted property tax exemption that encourages development of multiunit rental property that is rented to households with annual income at or below 120 percent of the area median thereby increasing the development, rehabilitation and, ultimately, the supply of workforce and low income housing units."

### WHO BENEFITS
Owners of multifamily housing projects benefit directly from reduction in taxes. The tenants of the housing benefit to the extent that below-market rate rental housing is available as a result.

### EVALUATION
*Provided by the Oregon Housing and Community Services Department*

The ability for local jurisdictions to provide incentives to develop housing affordable to income below 120% AMI is critical as the demand far outstrips supply in that income range. OHCS does not administer this program and therefore cannot speak to the utilization rate or ultimate success.

## 2.110 HOME SHARE PROGRAM LOW-INCOME HOUSING

**Oregon Law:** Ore. Laws 2019 c.566
**Sunset Date:** 01-01-2029 (new properties)
**Year Enacted:** 2019
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
A city or county may adopt an ordinance granting a property tax exemption to qualified properties renting rooms to tenants in home share programs. No more than 500 properties statewide may be granted the exemption in any property tax year. The available exemptions are divided among jurisdictions that have adopted a related ordinance proportionate to population.

In order to qualify an individual homeowner must rent space in their home to at least one tenant through a home share program. Qualifying tenants must have income that is no more than 60 percent of the area median income, or a lesser percentage determined by the city or county implementing the program. Home share programs are operated by cities, counties, nonprofits, and housing authorities.

Qualified properties continue to receive the exemption for the period established when the exemption is granted regardless of prospective changes to city or county ordinances.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for SB 1045 (2019): "This program is intended as a tool in assisting individuals to stay in their homes, and provide homes for the underhoused."

### WHO BENEFITS
Owners of individual residences renting a portion of their residence to low-income individuals.

### EVALUATION
*Provided by the Oregon Housing and Community Services Department*

If there is a lack of interest on the part of homeowners to taking on roommates through home share programs, then this seems like it could be an effective inducement to encourage participation. The overall impact to taxing jurisdictions

that rely on property taxes to supply their budgets seems relatively limited and, spread out over the entire state as it is, no one county or city would be disproportionately affected.

## 2.111 DISABLED VETERANS OR SURVIVING SPOUSES OF VETERANS

**Oregon Statute:** 307.250
**Sunset Date:** None
**Year Enacted:** 1921
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.2 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $32,300,000 | $5,800,000 |
| 2025-27 | $35,000,000 | $6,300,000 |

### DESCRIPTION

Eligible veterans or surviving spouses may have a portion of their homestead or personal property's assessed value exempt from property taxes. To qualify as a disabled veteran, one must have disabilities of 40 percent or more as certified by the United States Department of Veterans Affairs or any branch of the United States Armed Forces. Alternatively, a veteran can be certified as having disabilities of 40 percent or more by a private licensed physician, however the veteran must have total gross income of not more than 185 percent of federal poverty guidelines.

A veteran's surviving spouse who has not remarried also qualifies for this exemption, even if the veteran had not been disabled.

For the initial year of the exemption, claims must be filed by April 1 or within 30 days of acquiring property between March 1 and June 30. Generally, for subsequent years where the ownership and use of the property have not changed, a new claim is not required.

For tax year 2024-25, the exemption amount is $25,537. For disabled veterans who have service-connected disabilities, the exemption amount increases to $30,646. These amounts increase by 3 percent each year.

The surviving spouse of a veteran who died due to service-connected injury or illness or qualified for the higher exemption amount for at least one year also qualifies for the higher exemption amount if they do not remarry.

Qualified nonprofit homes for the elderly as defined in a related expenditure, 2.112, Veterans in Nonprofit Elderly Housing, can claim this exemption for their eligible residents if they pass the tax benefit through to these residents in the form of lower rents. The revenue impacts reported here include those real property exemptions for eligible veterans or surviving spouses who live in these qualified nonprofit homes for the elderly.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to recognize the service and sacrifices made by veterans for the country and to compensate veterans and their spouses for reductions in civilian earning capacity due to disabilities.

### WHO BENEFITS

For tax year 2023-24, counties reported that approximately 37,000 property tax accounts associated with eligible veterans or surviving spouses claimed this exemption.

### EVALUATION

*Provided by the Oregon Department of Veterans' Affairs*

This tax expenditure achieves its purpose by providing an additional income benefit to disabled veterans and surviving spouses of veterans. In many cases, if it were not for this benefit, the veteran or spouse may lose their home or become dependent on social assistance programs. This additional spendable income also helps the local economy.

The expenditure is fiscally effective. It allows disabled veterans and surviving spouses to remain independent and reduces their use of other social programs.

# 2.112 VETERANS IN NONPROFIT ELDERLY HOUSING

**Oregon Statute:** 307.370
**Sunset Date:** None
**Year Enacted:** 1969
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $10 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $300,000 | Less than $100,000 |
| 2025-27 | $300,000 | Less than $100,000 |

## DESCRIPTION

Personal property used in the operation of nonprofit homes for the elderly and attributable to veterans or their surviving spouses is exempt from property taxation. A claim for this exemption must be filed with the county assessor.

To qualify for this exemption:

- The home must be exclusively occupied and used in the operation of a nonprofit home for elderly persons.
- The home must receive at least 95 percent of its operating revenue (excluding investment income) from residents for living, medical, recreational, and social service costs.
- The home cannot allow any of its net earnings to benefit any private individual.
- The nonprofit corporation provides in its articles that, if the corporation is dissolved, any remaining assets revert to the state or to an exempt, religious, charitable, scientific, literary, or educational organization.

There are two related tax expenditures. An exemption for real property is included in expenditure 2.111, Disabled Veterans or Surviving Spouses of Veterans. Expenditure 2.127, Nonprofit Housing for the Elderly, allows these nonprofit homes the option of using a special assessment that generally results in lower assessed values and taxes on these properties.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to extend veteran property tax exemption benefits to those not owning a home, but who are living in a nonprofit home for elderly persons. In addition, the personal property exemption is to encourage housing for the elderly.

## WHO BENEFITS

In tax year 2023-24, five counties reported 14 property tax accounts associated with nonprofit homes for the elderly claimed this exemption for their personal property.

## EVALUATION

*Provided by the Oregon Department of Veterans' Affairs*

This tax expenditure achieves its purpose by allowing disabled veterans and spouses who are living in nonprofit homes for the elderly to receive a rent reduction equivalent to the tax reduction for those who own their homes, as described in 2.111, Disabled Veterans or Surviving Spouses of Veterans. This benefit may allow disabled veterans and surviving spouses to remain independent and reduce their use of other social programs.

According to statute, each nonprofit corporation must provide information to the county assessor to show that the appropriate rent credit was given to each applicable resident.

## 2.113 WORKFORCE HOUSING

**Oregon Law:** Ore. Laws 2021 c.527
**Sunset Date:** 06-30-2032 (new exemptions)
**Year Enacted:** 2021
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

A county with a population less than 15,000 may exempt from property tax a limited number of newly constructed single-family homes if the owner has an annual adjusted gross income below limits that are adjusted for inflation. For 2024, the income limit was $84,480 for single filers and $162,960 for joint filers. A county must pass a workforce housing exemption law that sets the percentage of real market value to be exempt and determines for how long exemptions will be approved. The exemption can apply for three to five years. Each year, the county may approve up to five new eligible properties to receive this exemption. Properties that were approved in a previous year do not count against this limit.

For a property to receive the exemption, the owner must file an application and local taxing districts representing at least 51 percent of the taxes on the property must agree to the exemption, after which the exemption applies to the taxes of all districts. To continue receiving the exemption each year after receiving initial approval, the owner must file an application annually. If the initial application was approved before the sunset date, then the applicant can continue receiving the exemption for the duration of the period.

### PURPOSE

The law that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2438 (2021), the purpose of this provision is "...to encourage skilled labor migration to rural Oregon."

### WHO BENEFITS

Property owners who have new single family homes constructed in counties with a population less than 15,000. There are currently eight counties that could pass a workforce housing exemption law and use this exemption: Gilliam, Grant, Harney, Lake, Morrow, Sherman, Wallowa, and Wheeler.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

The property tax exemption on single-family homes as established in the bill provides incentives for qualified builders and owners to invest and create housing opportunities for people that need to work in these counties. The availability of homes or lack of, can attract and keep teachers, health professionals, and other workers in these communities.

## 2.114 AFFORDABLE HOUSING COVENANT

**Oregon Statute:** 307.555
**Sunset Date:** None
**Year Enacted:** 2021
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $7.8 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $200,000 | Less than $100,000 |
| 2025-27 | $300,000 | Less than $100,000 |

### DESCRIPTION

Land burdened by an affordable housing covenant requiring long-term affordability and owned by an eligible covenant holder is exempt from taxation if the improvements on the land are owner-occupied housing, or if owner-occupied housing is going to be built on the land in the next 10 years.

For owner-occupied condominium units burdened with an affordable housing covenant, 27 percent of the assessed value is exempt from taxation.

An eligible covenant holder must be an agency of the United States government, a public benefit corporation or religious corporation, a consumer housing cooperative, a manufactured dwelling park nonprofit cooperative, or a federally recognized Indian tribe. An affordable housing covenant requires the land to be occupied by low- or moderate-income households. Long-term is defined as a term of no fewer than 99 years.

The legislation that enacted this tax expenditure specified that any sunset under ORS 315.037 does not apply.

### PURPOSE

The law that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 3275 (2021), the purpose of this provision is "...to increase the supply of affordable housing in Oregon."

### WHO BENEFITS

Eligible covenant holders and the low- and moderate- income households who live on properties burdened with affordable housing covenants.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

The partial exemption of tax liability ensures that the land is held for a long time to provide affordable housing opportunities for people. The long-term affordability ensures that the land is not converted to a different use such as commercial or industrial.

## 2.115 AFFORDABLE HOUSING PROJECTS RECEIVING GRANT

**Oregon Law:** Ore. Laws 2024 c.110
**Sunset Date:** 06-30-2031
**Year Enacted:** 2024 (SB 1537)
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $0

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Yet Available | Not Yet Available |
| 2025-27 | Not Yet Available | Not Yet Available |

### DESCRIPTION

A partial property tax exemption is available to eligible moderate income housing projects (120 percent of the area median income or less) receiving grant money through a city or county that receives a loan from the Housing Project Revolving Loan Fund program administered by Oregon Housing and Community Services (OHCS). Grant money can be used to cover eligible costs, including infrastructure and system development charges, predevelopment costs, construction costs, and land write-downs. The housing developed through this program must be available to households that meet the income requirement.

Because the legislation enacting this statute did not explicitly provide a period of applicability for this tax expenditure, ORS 315.037(3) established that this exemption shall apply for a maximum of six years beginning with the initial applicable tax year. In this case, the last applicable tax year is 2030-31.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for SB 1537 (2024), the purpose of this exemption "…is to reduce barriers to affordable housing production."

### WHO BENEFITS
Developers of moderate income housing projects receiving the funding. The program includes both muti-family development and homeownership.

### IN LIEU
Owners of these developments pay a fee in lieu of taxes to the sponsoring jurisdiction to repay the OHCS loan.

### EVALUATION
*Provided by the Oregon Housing and Community Services Department*

This resource has not yet been made available, so we are not yet able to evaluate its impact.

## 2.116 ALTERNATIVE ENERGY SYSTEMS

**Oregon Statute:** 307.175
**Sunset Date:** 07-01-2029
**Year Enacted:** 1975
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $440 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $13,500,000 | $3,100,000 |
| 2025-27 | $14,700,000 | $3,400,000 |

### DESCRIPTION
Solar, geothermal, wind, water, fuel cell, or methane gas energy systems used for heating, cooling, or generating electricity are exempt from property tax. To qualify, the system must be a net metering facility or a system primarily designed to offset onsite electricity use. The proportion of a community solar project that is owned by residential customers or leased by residential subscribers is also exempt from property tax. Additional value added to the underlying property because of the existence of the alternative energy system is exempt. No application is required.

Legislation in 2022 (SB 1519) broadened the exemption to include a proportion of community solar projects and extended the sunset to July 1, 2029. Legislation in 2023 (HB 2080) removes references to proportion of community solar project owned and leased by residential subscribers.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage the use of alternative sources of energy. The revenue impact statement prepared for SB 1519 in 2022 stated that the policy purpose of the additional exemption on community solar projects was "to encourage the development of renewable energy for residential customers that do not have access to individual rooftop solar."

### WHO BENEFITS
For property tax year 2023-24, counties reported that approximately 11,300 properties received this exemption.

### EVALUATION
*Provided by the Oregon Department of Energy*

It is difficult to measure the impact the tax exemption has made on the number of households and businesses installing equipment that uses solar, wind, hydro, or geothermal energy. In prior years the predominant incentives that have encouraged such installations have been the tax credits for 1.434, Alternative Energy Devices (Residential) available under the income tax, which sunset after tax year 2017, and 1.436, Energy Conservation Projects within the Energy Incentive Program, which was a grant program funded by tax credit auctions that ended in 2017; these credits were

also applicable to income taxes. The remaining incentives with outstanding income tax credits are 1.436, Energy Conservation Projects, sunset 2017, and 1.433, Transportation Projects, sunset 2017. The property tax exemption may work in tandem with the Rooftop Solar & Storage Rebate Program authorized by the legislature in HB 2618 in the 2019 session and expanded in 2021 by HB 5006, in 2022 by HB 5202, and in 2023 by SB 5506. Without the exemption, homeowners and businesses might hesitate to invest in a system that would increase their assessed valuation.

## 2.117 POLLUTION CONTROL FACILITIES

**Oregon Statute:** 307.405
**Sunset Date:** 12-31-2007 (for new certifications)
**Year Enacted:** 1967
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

A pollution control facility owned or leased by a cooperative or nonprofit corporation and used in connection with its trade or business was eligible for a property tax exemption. The last day that a pollution control facility could be certified to receive this exemption was December 31, 2007, however this exemption lasts up to 20 years from the date of certification. The Environmental Quality Commission certified the facility cost and the exemption percentage

A pollution control facility was any land, structure, machinery, equipment, or device that prevented, controlled, or reduced air, water, noise, or nonpoint source pollution, solid or hazardous waste, or recycled or disposed of used oil. In most cases, the percentage allocable to pollution control depended on whether the owner earned any income from the facility. Thus, if a pollution control facility, in addition to reducing pollution, had some useful end product, then only a portion of the construction of the facility might be allocated to pollution control.

The program provided an incentive to cooperatives and nonprofits for installing pollution control facilities not required under current law, defined as “sole purpose facilities.” The program also compensated cooperatives and nonprofits for installing facilities required by the Department of Environmental Quality or by the U.S. Environmental Protection Agency, defined as “principal purpose facilities.”

This exemption was a companion to the Pollution Control income tax credit. For-profit companies were eligible for the income tax credit, while nonprofits and cooperatives were eligible for the property tax exemption.

### PURPOSE

To “assist in the prevention, control and reduction of air, water and noise pollution and solid waste, hazardous wastes and used oil in this state by providing tax relief...” (ORS 468.160).

### WHO BENEFITS

In 2023-24, Tillamook County reported a single property tax account using this exemption.

### EVALUATION

Not evaluated.

# 2.118 WATERCRAFT CENTRALLY ASSESSED

**Oregon Statute:** 308.515(3)(a-c)
**Sunset Date:** None
**Year Enacted:** 1925
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Not Available*

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Available* | Not Available* |
| 2025-27 | Not Available* | Not Available* |

** In certain cases, to conform with taxpayer privacy disclosure laws, revenue numbers are not provided for tax expenditures that may affect at most a few taxpayers. This includes tax expenditures that do not currently affect any Oregon taxpayer, but could at a later date.*

## DESCRIPTION

Certain types of watercraft that would otherwise be centrally assessed are excluded from such assessment and are therefore exempt from taxation. The Department of Revenue is responsible for making a central assessment of designated types of companies and utilities for property tax purposes. Watercraft (such as barges, tugboats, and excursion boats) of water transportation companies involved in transportation of people or goods on inland waters, including border rivers and coastal bays, are centrally assessed for property taxation by the Department of Revenue. Also, the department assesses watercraft of centrally assessed utilities.

Properties exempt from central assessment and taxation include:

- Watercraft of water transportation companies used on the high seas or outside Oregon. Trips between inland ports and high seas are treated as high seas use.
- Property used by or for water transportation companies exclusively for hire by other persons for booming and rafting, dredging, log or marine salvage, ship berthing, maintenance, sludge removal, cleaning or repair, marine or water-based construction, or guide service.
- Interstate ferries.

A related provision, 2.139, Watercraft Locally Assessed, allows for the exemption or special assessment of some other types of commercial watercraft.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to apportion to Oregon the taxable value of watercraft based on their use in Oregon.

## WHO BENEFITS

Few water transportation companies have property that qualifies for the exemption.

## EVALUATION

Not evaluated.

## 2.119 AIRCRAFT UNDER 75,000 POUNDS OWNED BY AIR TRANSPORTATION COMPANIES

**Oregon Statute:** 308.565(5)
**Sunset Date:** None
**Year Enacted:** 1987
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $7.5 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $200,000 | Less than $100,000 |
| 2025-27 | $200,000 | Less than $100,000 |

### DESCRIPTION

Aircraft that weigh less than 75,000 pounds and are owned by air transportation companies are taxed on only 60 percent of the value which would have otherwise been assigned for property taxation. Transportation company aircraft weighing 75,000 pounds or more are fully taxable and are centrally assessed by the Department of Revenue in proportion to the company's business in Oregon.

Aircraft not owned by air transportation companies are described in 2.066, Foreign-Owned Aircraft and Aircraft Not Owned by Air Transportation Companies.

### PURPOSE

The statute that allows this expenditure do not explicitly state a purpose. Presumably, the purpose is to provide a favorable business climate for air transportation companies that own relatively light-weight aircraft.

### WHO BENEFITS

For the 2023–24 property tax year, few air transportation companies owned aircraft under 75,000 pounds and benefited from this exemption.

### EVALUATION

Not evaluated.

## 2.120 HOMESTEAD EXEMPTION FOR ACTIVE DUTY MILITARY

**Oregon Statute:** 307.286
**Sunset Date:** None
**Year Enacted:** 2005
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $3.0 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $100,000 | Less than $100,000 |
| 2025-27 | $100,000 | Less than $100,000 |

### DESCRIPTION

Oregon residents who are serving in the Oregon National Guard, military reserve forces, or organized militia of any other state may apply for an Oregon property tax exemption on their homestead up to a specified amount of assessed value if:

- The resident serves on active duty under Title 10 of the United States Code or is deployed under the Emergency Management Assistance Compact for at least one day of the tax year (July 1 through June 30) claimed.

- The resident serves at least 178 consecutive days on active duty, regardless of the location of service, and
- Application is made to the county assessor by August 1 following the end of the tax year for which the exemption is claimed.

In tax year 2024-25, the maximum exemption is $108,367. The allowable amount of exemption increases by three percent per year.

If the qualified service member dies while performing the service, the person occupying the service member's home may file for the exemption, even if the service member died before completing the minimum number of service days.

When a property is disqualified or stops receiving an exemption, the property's maximum assessed value is reset as required by the Oregon Constitution. While this is true for all property tax exemptions and special assessments, this can have a particularly noticeable impact for recipients of this exemption, which may last only a single year. In some cases, a taxpayer's taxes the year after receiving this exemption may be higher than they would have been if they did not receive this exemption.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to assist Oregon households where a member has been called away from home to active military service during the year.

### WHO BENEFITS
Members of the Oregon National Guard, Armed Forces Reserves, or organized militia who are homeowners and who spend extended periods on federal active duty service during the tax year. Members of their households may also benefit from this expenditure.

### EVALUATION
*Provided by the Oregon Military Department*

This tax expenditure alleviates property tax burdens for members of the Oregon National Guard and Reserve members of the United States Armed Forces who are deployed on federal active duty for 178 days or more. The direct recipients are the service members and their families, who often are impacted financially and emotionally during long deployments. It serves as valuable acknowledgement of the sacrifices service members and their families make in honored service to the nation.

## 2.121 SURVIVING SPOUSE OF PUBLIC SAFETY OFFICER

**Oregon Statute:** 307.295
**Sunset Date:** 06-30-2032
**Year Enacted:** 2016
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.4 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
Oregon counties may, by ordinance or resolution, allow an exemption of up to $250,000 of assessed value of the homestead of a surviving spouse of a fire service professional, police officer, or reserve officer killed in the line of duty. A homestead is defined as the owner-occupied principal dwelling, either real or personal property, owned by a surviving spouse and the tax lot upon which the dwelling is located. A surviving spouse seeking the exemption must file an application with the county assessor on or before April 1 preceding the property tax year for which the exemption is sought. To qualify for the exemption, the surviving spouse must not remarry.

Legislation in 2023 (HB 2080) extended the scheduled sunset of the provision from June 30, 2025 to June 30, 2032.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2080 (2023), "… the purpose of this measure is to allow counties to extend tax exemption for police, firefighters, and their families and to extend similar support to first responders."

### WHO BENEFITS
The surviving spouses of fire service professionals, police officers, or reserve officers killed in the line of duty. Roughly ten people benefit from this exemption.

### EVALUATION
*Provided by the Oregon Military Department*

This tax expenditure may impact wildland firefighting personnel employed by the Oregon Military Department. The Oregon Military Department employs multiple full time and seasonal Wildland Fire Fighters to support fire suppression missions at our training sites across the state, and who provide support to the Department of Forestry in their wildland firefighting mission. On an as needed basis we also activate several hundred members of the Oregon National Guard into a State Active Duty Status, making them temporary state employees, to support the Department of Forestry in their wildland firefighting mission. These personnel act as Type 2 Wildland Firefighters and are trained by the Department of Public Safety Standards and Training. This expenditure serves as valuable acknowledgement of the sacrifices firefighters and their families make in service to the state.

## 2.122 SEISMIC UPGRADES

**Oregon Law:** Ore. Laws 2017 c.537
**Sunset Date:** 12-31-2027 (for new certifications)
**Year Enacted:** 2017
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
A city or county may adopt an ordinance or resolution providing full or partial exemption from property tax for eligible property that will be seismically retrofitted. The ordinance or resolution adopted must specify the period, not to exceed 15 years, for which the exemption may be granted. The local ordinance does not become effective unless the districts representing at least 75 percent of the property taxes within the territory of the city or county agree to the property tax incentive program.

Eligible property is improvements built before January 1, 1993 that constitute a commercial, industrial, or multifamily building. Eligible costs include but are not limited to all costs directly related to structural seismic retrofitting, including the necessary costs of demolition and restoration of similar architectural finishes, electrical systems, plumbing and mechanical systems. Also eligible are costs for architectural and engineering fees and fees for testing, insurance and project management related to the seismic retrofitting. Eligible costs are reduced by amounts of local, state, and federal financial incentives received for the seismic retrofitting, exclusive of this property tax exemption.

Property subject to central assessment under ORS 308.505 to 308.674 and state-appraised industrial property under 306.126 are not eligible for the exemption. Costs that are not eligible include, but are not limited to, costs associated with refurbishing or remodeling that are intended to enhance the aesthetics, functionality or marketability of the improvements but do not extend the seismic life safety of the improvements. Also not eligible are costs for abatement of hazardous materials, including but not limited to asbestos, or for relocation or loss of rent during the seismic retrofitting.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to legislative staff revenue impact statement for SB 311 (2017), the purpose of this provision "is to provide authority to cities and counties to design and implement property tax exemption programs intended to partially or fully offset the costs related to seismically retrofitting commercial, industrial, or multifamily buildings, thereby mitigating potential loses to life and property resulting from a Great Cascadia Subduction Zone earthquake."

### WHO BENEFITS
Owners of properties that are seismically upgraded. Counties report that very few properties have received this exemption since its inception.

### EVALUATION
*Provided by the Oregon Department of Emergency Management*

Due to the high likelihood that a Cascadia Subduction Zone earthquake would result in building structural failures on a massive scale along the western side of the state, the Department of Emergency Management is supportive of implementation and continuation of a property tax incentive that enables businesses and property owners to seismically retrofit commercial, industrial or multifamily buildings.

## 2.123 RAILROAD RIGHT OF WAY IN WATER DISTRICT

**Oregon Statute:** 264.110
**Sunset Date:** None
**Year Enacted:** 1943
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $22 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
Railroad rights of way, improvements, and rolling stock are exempt from property tax imposed by any water supply district that was formed after June 9, 1943.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid taxing a property that would not significantly benefit from a water district's services.

### WHO BENEFITS
Railroad companies that might otherwise be considered to have property located within the boundaries of water supply districts.

### EVALUATION
Not evaluated.

## 2.124 RAILROAD RIGHT OF WAY IN HIGHWAY LIGHTING DISTRICT

**Oregon Statute:** 372.190
**Sunset Date:** None
**Year Enacted:** 1947
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.0 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
Railroad rights of way are exempt from property tax imposed by a highway lighting district unless the right of way is at a grade crossing. A highway is defined as any road or way open to public travel.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid taxing a property that would not significantly benefit from a lighting district's services.

### WHO BENEFITS
Railroad companies that have property in highway lighting districts. Highway lighting districts collect a very small amount of tax.

### EVALUATION
Not evaluated.

## 2.125 RAILROAD RIGHT OF WAY IN RURAL FIRE DISTRICT

**Oregon Statute:** 478.010(2)(d)
**Sunset Date:** None
**Year Enacted:** 1969
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.0 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $3,800,000 | $200,000 |
| 2025-27 | $4,100,000 | $200,000 |

### DESCRIPTION
Railroad rights of way, improvements, and rolling stock are exempt from property tax imposed by a rural fire protection district unless the railroad consents to be taxed.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid taxing a property that would not significantly benefit from a rural fire district.

### WHO BENEFITS
Railroad companies that might otherwise be considered to have property in fire districts.

### EVALUATION
Not evaluated.

# 2.126 USE-RESTRICTED MULTI-UNIT RENTAL HOUSING

**Oregon Statute:** 308.704
**Sunset Date:** None
**Year Enacted:** 2001
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $150 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $4,500,000 | $600,000 |
| 2025-27 | $5,000,000 | $700,000 |

## DESCRIPTION

Owners of multi-unit rental housing property that is limited by government restrictions on use may apply for special assessment of the property. The property must be residential, consist of four or more units, and not be an assisted living facility. The restrictions on use include restricting rents and qualifying tenants based on income which thereby allows the owner to take advantage of government incentive programs such as a federal low-income housing tax credit, a low interest or government guaranteed loan, or rent subsidies.

A property granted this special assessment may have the taxable special assessed value of the property calculated by using either of:

- An annual net operating income approach and a capitalization rate, or
- An adjustment of market value based on the ratio of the average rent of restricted income rental units to the average rent of similar units that do not have tenant income qualifications and limited rents.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to establish common appraisal methods and tax treatment for multi-unit low-income rental housing complexes in a way that provides tax relief to compensate for the government-imposed restrictions on use of such properties.

## WHO BENEFITS

For property tax year 2023–24, almost all counties reported at least one property using this special assessment; statewide there are 636 property tax accounts receiving this special assessment.

## EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose. The community of affordable housing developers, consisting of both for-profit and nonprofit organizations, were experiencing economic hardships with the valuation of properties based on the cost of development. The restricted rental incomes of the affordable housing developments throughout the state did not generate enough cash flow to cover property taxes based on valuations related to cost of development. Owners of some newly created developments were forced to access operating reserves as a short-term gap to meet the additional property tax expenses. Without the relief offered through this special assessment, affordable housing developments were at risk of technical or actual default with their primary lenders. Without the relief, these same lenders would be less willing to underwrite new loans without additional subsidies from government entities thereby reducing the number of new affordable units that could be deployed.

The amount of loss identified assumes that the properties should have been assessed by other methods. Rather, OHCS believes that the more accurate evaluation may be the net income approach.

## 2.127 NONPROFIT HOUSING FOR THE ELDERLY

**Oregon Statute:** 308.490
**Sunset Date:** None
**Year Enacted:** 1969
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Less than $1 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

The assessed value of a home for the elderly operated by a nonprofit corporation may only be calculated using certain appraisal methods. These methods should not take into account considerations of replacement cost, but rather consider:

- The amount of money for which the property may be exchanged in a reasonable period of time under conditions in which both parties to the exchange are able, willing, and reasonably well informed
- The gross income that reasonably could be expected from the property if leased or rented to the public generally, less annual operating expenses, reserves for replacements and insurance, depreciation, and taxes
- The relative supply and demand for similar properties
- The relative value of the location of the property.

Use of these considerations rather than replacement cost generally results in lower assessed values and taxes on these properties.

The nonprofit corporation must be organized and operated to provide permanent residential, recreational, and social facilities primarily for the elderly and receive 95 percent of its gross operating revenue from payments for housing, medical, and recreation services received in its facilities.

### PURPOSE

The statutory policy is to recognize "… benefits inherent in operation of these homes, especially in the housing and care furnished to elderly persons for whom this state and its political subdivisions otherwise might be responsible" (ORS 308.490(1))

### WHO BENEFITS

In tax year 2023–24, four counties reported that 18 property tax accounts benefitted from this special assessment.

### EVALUATION

Not evaluated.

## 2.128 HOMES REBUILT AFTER 2020 WILDFIRES

**Oregon Law:** Ore. Laws 2024 c.94
**Sunset Date:** None
**Year Enacted:** 2024 (SB 1545)
**2023-24 Estimated Reduction in the Taxable Assessed Value:** Not Available

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | Not Available | Not Available |
| 2025-27 | Not Available | Not Available |

### DESCRIPTION

Oregon counties may elect to allow homesteads rebuilt to replace a homestead destroyed by a wildfire in September 2020 to be specially assessed if:

- The homestead is in a county that was covered by a state of emergency declared in response to the wildfire, and
- It is constructed on the same lot by the same owner as the destroyed homestead.

The special assessment only applies to the new property to the extent that the square footage of the new homestead is not larger than the destroyed homestead. Any portion of the new homestead that exceeds the square footage of the destroyed homestead is assessed and taxed normally.

For the first year of special assessment, the taxable value of the eligible property is the real market value of the property from tax year 2020-21—prior to the wildfires—multiplied by the maximum assessed value the property would have had if not eligible for the exemption in the applicable property tax year divided by the real market value of the property in the applicable property tax year after rebuilding. The owner must file a claim by December 31, 2025 if the initial year of the special assessment is before the 2025-26 tax year, or otherwise between January 1 and April 1 to initially receive this special assessment for the following tax year. In subsequent years, the owner must attest that they will continue to occupy the homestead for the following year to continue receiving the special assessment.

The property continues to receive this special assessment until:

- The owner no longer occupies the homestead, except when required to be absent by reason of health or active military service,
- The homestead is rented to another person for any duration, or
- The homestead is transferred to new ownership.

The legislation that enacted this tax expenditure specified that any sunset under ORS 315.037 does not apply.

### PURPOSE

The legislation creating this special assessment does not explicitly state a policy purpose. According to the legislative staff revenue impact statement for SB 1545 (2024), the purpose of this special assessment is "to provide property tax relief to those that had their homesteads destroyed in the September 2020 wildfires and have rebuilt the homestead on the same lot."

### WHO BENEFITS

Homeowners whose homes were destroyed by wildfires in September 2020.

### EVALUATION

Not evaluated.

## 2.129 FARMLAND

**Oregon Statute:** 308A.062, 308A.068, and 308A.128
**Sunset Date:** None
**Year Enacted:** 1967
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $18 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $411,000,000 | $60,000,000 |
| 2025-27 | $448,000,000 | $65,300,000 |

## DESCRIPTION

Land used exclusively for farming may be specially assessed at its value for farm use instead of its highest and best use value.

Farm use value is determined using the income approach. Under this approach, farmland value is based on the farmland's potential ability to generate farm income. Farmland is categorized into one of seven classifications related to soil quality. Farmland value is then established on a per acre basis for each class of land. Similarly classified farmland can be valued differently depending on the value zone (based on such variables as rainfall, expected frost days, and distance to market) the farmland resides within. This value is converted to present value using the local property tax rate plus the five-year average interest rate charged by the Federal Farm Credit Bank on loans for Oregon farm properties.

Farm activity must involve the use of the land for crops, livestock, poultry, fur bearing animals, honeybees, dairies, animal husbandry, aquatic species, or cultured Christmas trees. Farm use land may also include a woodlot of 20 acres or less, wasteland, land under farm buildings, and ponds. In 2009, the Oregon Legislature expanded the definition of farm use and farmland to include land subject to or in the process of implementing a remediation plan. Remediation plans are certified by the Oregon State University Extension Service and are plans to remediate or mitigate severe adverse conditions on farmland. The farmer must intend to make a profit, with an exception for donations to food banks or schools, using accepted farming practices.

There are two farm use special assessment categories: farmland inside an exclusive farm use (EFU) zone and farmland in a nonexclusive (non-EFU) zone. The farm use value of EFU and non-EFU farmland is determined the same way. However, the eligibility and disqualification procedures are different.

Special assessment of EFU farmland does not require an application if the land is in a qualifying farm use. EFU farmland is disqualified if it is not being farmed in a qualifying farm use, the land is approved for nonfarm dwelling under ORS Chapter 215, or the land is rezoned to a non-EFU zone.

An application must be filed for special assessment of non-EFU zoned farmland. There are two tests for qualification in a non-EFU zone, farm use and gross income. Farm use must have occurred in the current year and the two years prior. Gross income from farm use is required in three of the last five non-flood, non-drought, or non-farmer illness calendar years. For farms of 6.5 acres or less, the minimum gross income is $650; for farms of more than 6.5 acres, but less than 30 acres, the minimum income required is at least equal to the product of $100 times the number of acres; and for farms of 30 acres or more, the income requirement is $3,000. When land is disqualified, it may be assessed at current market value and an additional tax may be imposed.

Additionally, Oregon statute (ORS 308A.128) exempts land that is qualified for special assessment as EFU farmland from the assessments and property taxes of certain sanitary and water supply districts or authorities.

## PURPOSE

"The Legislative Assembly recognizes that agriculture and related land uses contribute significantly to Oregon's character and economy. The Legislative Assembly finds that providing the means for agriculture to continue and prosper is in the interest of all citizens of this state, who benefit directly or indirectly from agriculture production and stewardship of farmlands and ranchlands. Valuation of farm properties based upon the market data from sales for investment or other purposes not connected with bona fide farm use encourages the conversion of agriculture land to other uses. The identification of agricultural land for farm use, as provided by law, substantially limits alternative use of such land and justifies the valuation of that land based on its agricultural production capability. Therefore, it is the declared intent of the Legislative Assembly that bona fide farm properties be assessed for ad valorem property tax purposes at a value that is exclusive of values attributable to urban influences of speculative purposes" (ORS 308A.050).

## WHO BENEFITS

Owners of farmland benefit directly. In tax year 2023–24, approximately 15.4 million acres of land were assessed at farm use value as reported by counties. Fifteen percent of the acreage is in Western Oregon and 85 percent is in Eastern Oregon.

### EVALUATION

*Provided by the Department of Land Conservation and Development*

Special farm use assessment is a key component of farm financial stability. Special assessment provides an essential incentive that helps preserve the maximum amount of farmland in large blocks in accordance with Oregon's Agricultural Land Use Policy (see ORS 215.243). Zoning limits development opportunities in exclusive farm use zones so the incentives provided by special assessment are critical to preventing conversion of farmland to other uses.

The effective protection of agricultural land requires well-coordinated special assessment and land use programs.

Special assessment shifts the burden of funding public services onto other community residents and businesses that do not have special assessments. However, farm use provides a variety of benefits to the entire state including a supply of locally grown food, employment opportunities, financial opportunities for agricultural processors and other value-added businesses, carbon sequestration, and protection of habitat and scenic values.

The special farm use assessment program can conflict with other aspects of Oregon's land use programs. Inside urban growth boundaries (UGBs) it can discourage timely development by lowering an owner's holding costs and tying up land that is otherwise planned for urban development. This can put pressure on cities to expand their UGBs onto rural EFU lands when existing farmland inside the UGB is withheld from development.

## 2.130 FARM HOMESITES

**Oregon Statute:** 308A.253
**Sunset Date:** None
**Year Enacted:** 1987
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.1 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $26,300,000 | $4,800,000 |
| 2025-27 | $29,300,000 | $5,300,000 |

### DESCRIPTION

A farm homesite being used in conjunction with specially assessed farmland has a special assessed property value. "Homesite" means land including all tangible improvements to the land under and adjacent to a dwelling and other structures, customarily provided in conjunction with the dwelling. It does not include the value of dwellings or structures built on the land.

Farm homesites in nonexclusive farm use (non-EFU) zones qualify for special assessment only if the farmland was operated as a part of a farm unit that produced more than one-half of the adjusted gross income of the owner or owners in the year prior to application and each subsequent year the special assessment is desired. Farm homesites in exclusive farm use zones are not subject to the aforementioned income requirements. Because of the non-EFU income requirements, few specially assessed homesites are in these areas.

The homesite specially assessed value is calculated as the average per acre real market value, as defined in ORS 308.205, for the contiguous bare farmland under the same ownership plus up to $4,000 for land improvements. Land improvements would include a well and septic system necessary for a homesite. If disqualified, no additional tax is imposed unless the homesite is established as a nonfarm dwelling under ORS 215.236.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to extend the benefit of specially assessed farmland to farm homesites. See purpose for 2.129, Farmland.

### WHO BENEFITS

For tax year 2023-24, 31 counties reported approximately 39,000 property tax accounts.

### EVALUATION

*Provided by the Department of Land Conservation and Development*

Farm homesites are required to be used in conjunction with a farm operation. From a land use perspective, within exclusive farm use zones, farm homesites allowable when used to house people who are primarily engaged in farm operations on the property**.** Extending special farm assessments to farm homesites reinforces the effects of special assessment for 2.129, Farmland.

## 2.131 HISTORIC PROPERTY

**Oregon Statute:** 358.505
**Sunset Date:** 06-30-2024 (application deadline)
**Year Enacted:** 1975
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $110 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $3,300,000 | $1,000,000 |
| 2025-27 | $2,400,000 | $700,000 |

### DESCRIPTION

Historic properties can be specially assessed for 10 years. The last date that new properties could be accepted for the Special Assessment Property Tax Program for Historic Properties was June 30, 2024. For qualifying properties, the assessed value cannot exceed the real market value at the time of application; increased value from improvements is exempt for 10 years. In the first year of the special assessment the assessed value is generally similar to the assessed value at the time of the application. Applications for special assessment must be reviewed by the State Historic Preservation Officer. Applicants must pay a fee and file a plan for proposed rehabilitation and maintenance. Legislation in 2022 (HB 4054) extended the sunset for applications to June 30, 2024. As of the date of publication of this report, there has been no legislation to extend the sunset for applications beyond June 30, 2024.

Prior to the 2022 legislative changes, the assessed value of properties specially assessed under this statute was limited to the assessed value at the time of application, and the assessed value in the initial years of the special assessment was typically significantly lower than the assessed value at the time of application.

Property is removed from this special assessment at the end of the 10-year period but can qualify for a second 10-year period if reapplication is approved and the local government (city, or county if not located in a city) does not prohibit it (by resolution). Approval of reapplication requires plans for significant investment in seismic upgrades, energy conservation, or disability access. Following the second 10-year period, the property can no longer qualify.

If, during a special assessment term, the historic property is disqualified, either at the owner's request or from failure to meet the requirements, the tax savings from having a low value must be repaid. The additional tax and interest are equal to the sum of the tax benefit received for each year of special assessment as historic property. In addition, a penalty of 15 percent of the back taxes and interest owed is levied upon the disqualified property owner. However, if the property is destroyed or substantially altered by acts of nature or other events for which the owner is not responsible, or transferred to a tax-exempt owner, or transferred to a new owner who expressly assents to and continues to implement the preservation plan in effect, no additional tax or penalty is charged.

### PURPOSE

To "…maintain, preserve and rehabilitate properties of Oregon historical significance…" (ORS 358.475).

### WHO BENEFITS

In the tax year beginning July 1, 2024 there were 11 new and 147 total historic properties participating in the program. Of the 11 new participating properties, 6 were located within Multnomah County. Participating properties are in almost every county in the state, but they are concentrated along the Interstate 5 corridor. Properties in Multnomah County represent most of the total assessed value of all participating properties.

### EVALUATION
Not evaluated.

## 2.132 WILDLIFE HABITAT

**Oregon Statute:** 308A.415
**Sunset Date:** None
**Year Enacted:** 2003
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $87 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $2,000,000 | $300,000 |
| 2025-27 | $2,100,000 | $400,000 |

### DESCRIPTION
Owners of property that is clearly identifiable as containing significant wildlife habitat property or zoned as exclusive farm use, mixed farm and forest use, or forest use may apply to participate in a wildlife habitat conservation management plan. Application is made to the Department of Fish and Wildlife. By entering such a plan, the property owner receives the benefit of having the property valued as the farm or forest land special assessment without being required to meet all the farm or forest land special assessment qualifications. See 2.129, Farmland; 2.136, Western Private Forestland; or 2.137, Eastern Private Forestland, for information about these programs.

Wildlife habitat special assessment is only available in counties or cities that have requested to be in the program. Management plans must be developed in conjunction with a cooperating agency such as the Department of Fish and Wildlife, Soil and Water Conservation Districts, the Oregon State University Extension Service, or other natural resource agency or professional. The plans must be approved by the Department of Fish and Wildlife. Once approved, the land is assessed at either the farm use or forestland value. If land becomes disqualified, an additional tax may be imposed.

Once property is assessed under wildlife habitat special assessment, the property may roll back into the original farm or forest use special assessment without penalty if certain conditions are met. Likewise, farm or forest use specially assessed property may roll into the wildlife habitat special assessment without penalty for leaving the farm or forest use.

### PURPOSE
To encourage “the protection and preservation of wildlife resources ... by recognizing wildlife habitat conservation and management as a legitimate land use” (ORS 308A.403).

### WHO BENEFITS
The direct beneficiaries are landowners who voluntarily enter into a Wildlife Habitat Conservation and Management Program (WHCMP) approved by the Department of Fish and Wildlife. As of 2024, there are 385 landowners enrolled in the WHCMP program. Properties of these landowners are located in 15 counties.

### EVALUATION
*Provided by the Oregon Department of Fish and Wildlife*

In general, the department believes the program is a useful, voluntary conservation tool to help protect wildlife habitat. Private lands play an essential role in conservation of fish, wildlife, and habitat and there is broad interest among landowners to participate in conservation. The program helps to conserve important habitats such as oak woodland, streamside riparian areas, wetlands, among others. The program has historically seen a lot of interest from landowners and support from partners, such as the Soil and Water Conservation Districts. Counties and choose to opt in to the program. Counties that choose to opt out of the program cite reasons such as low interest from landowners, low suitability of available lands, and revenue constraints. Landowners found not in compliance with their approved Wildlife Habitat and Conservation Management Plan may be unenrolled from the program, and the department then notifies the county assessor. Counties can then either permit the property to roll back into a farm or forest use special assessment without penalty if certain conditions are met, or an additional tax may be imposed.

The program has been a useful tool for voluntary conservation, however the agency workload associated with administering the program has at times been unwieldy. When the WHCMP program was created, the language was prescriptive in obligating the department to review, monitor, and ensure compliance with the program but did not provide dedicated resources to the agency for the work. These prescriptive requirements and limited department capacity created barriers to implementation of the program and led to a pause in the program certain ODFW Watershed Districts. Given the high level of interest in the WHCMP program among conservation partners, in 2022 the department worked closely with partners and legislative sponsors to amend ORS 308A in a manner that would allow the WHCMP to re-open in paused areas and improve the functionality of the program overall. Included in the amended statute were the following updates:

- A better focus on conservation priorities by allowing ODFW to set enrollment criteria
- Removing barriers to program sustainability by changing the compliance burden on the agency's monitoring from 'shall' to 'may'
- Adding a landowner attestation of compliance when enrolling
- Moving to a complaint-based compliance framework rather than a monitoring-based framework, which we believe is more consistent with other deferral programs
- Provide more flexibly to partner with SWCDs and others on implementing elements of the program

In addition to the statutory changes, the department is also taking steps to streamline the simplify the landowner application process and expand the technical resources available to landowners to help them maintain compliance with the program. The department is currently undergoing rulemaking to revise OAR 635-430 to be in alignment with the revised statute (anticipated Fish and Wildlife Commission decision on August 9, 2024), and the department plans to re-open paused areas in a pilot-test approach beginning in early 2025.

There are several elements crucial to the success of the WHCMP program:

- Good communication between the department and counties,
- Strong participation from conservation organizations and cooperating agencies to ease the administrative burden for the department and assist landowners with their implementation responsibilities, and
- Commitment from enrolled landowners to implement their plans and good communication with the Department, the counties, and subsequent landowners who may inherit enrollment in the program.

## 2.133 CONSERVATION EASEMENTS

**Oregon Statute:** 308A.456
**Sunset Date:** None
**Year Enacted:** 2007
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $32 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $700,000 | $100,000 |
| 2025-27 | $700,000 | $100,000 |

### DESCRIPTION

Qualifying property owners can execute an easement on all or a portion of their property. The owner executes and records an easement on their property that exclusively commits that property for a designated conservation purpose. The easement is placed in the control of a qualifying public entity or other qualifying holder who is responsible for ensuring the property is managed consistent with the easement. Following certification to the county assessor, the property that is the subject of the easement is specially assessed depending on which special assessment it might

qualify for, either as forestland (2.136, Western Private Forestland or 2.137, Eastern Private Forestland) or as farmland (2.129, Farmland).

Failure to manage the land in accordance with the terms of the conservation easement can result in disqualification by the assessor. In the event of disqualification, an additional tax may be imposed.

### PURPOSE

"…retaining or protecting natural, scenic, or open space values of real property, ensuring its availability for agricultural, forest, recreational, or open space use, protecting natural resources, maintaining or enhancing air or water quality, or preserving the historical, architectural, archaeological, or cultural aspects of real property" (ORS 271.715).

### WHO BENEFITS

Landowners who set aside land for conservation and those already enrolled in other special assessment programs who wish to transfer land to this program without penalty. Counties reported that just over 300 property tax accounts in 14 counties received this special assessment in tax year 2023-24.

### EVALUATION

*Provided by the Oregon Department of Fish and Wildlife*

This program offers another advantage to holding land in conservation easements for landowners as they can get special assessments as farm or forest land and the accompanying tax benefits. As such, wildlife and fish benefit from the existence of more habitat on these private lands. The people of Oregon and visitors enjoy the experience of hunting, fishing, and viewing wildlife that is enhanced through the existence of more lands set aside for conservation. In areas where habitat is degraded, nearby conservation lands can be critical in maintaining species integrity.

## 2.134 OPEN SPACE LAND

**Oregon Statute:** 308A.315
**Sunset Date:** None
**Year Enacted:** 1971
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $48 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $1,100,000 | $200,000 |
| 2025-27 | $1,200,000 | $200,000 |

### DESCRIPTION

Open space land is specially assessed for property tax as though its current highest and best use is open space use rather than an alternative use. While the land benefits from the special assessment, improvements on open space land do not receive the special assessment and are valued normally.

Open space land is any land designated as open space in an official comprehensive land use plan or any land that, if preserved in its present use, would accomplish one of the following:

- Conserve and enhance natural or scenic resources
- Protect air, streams, or water supply
- Promote conservation of soils, wetlands, beaches, or tidal marshes
- Conserve landscaped areas, such as golf courses
- Enhance the value of neighboring parks, forests, wildlife preserves, or other open space
- Enhance recreation opportunities
- Preserve historic sites

- Promote orderly urban or suburban development
- Retain land in its natural state under conditions required by the legislative body granting the open space classification.

Open space land may be changed from one open space use to another without paying the additional tax. However, if land is withdrawn from open space classification, any tax benefits received from open space classification in previous years must be paid back plus 8 percent annual interest. The amount of the payback is based on the difference between the assessed value in an alternative use and open space value in the year of withdrawal and each year the land was specially assessed.

### PURPOSE

"The Legislative Assembly declares that it is in the best interest of this state to maintain, preserve, conserve and otherwise continue in existence adequate open space lands and their vegetation to assure continued public health by counteracting pollutants and to assure the use and enjoyment of natural resources and scenic beauty for the economic and social well-being of this state and its people. The Legislative Assembly further declares that it is in the public interest to prevent the forced conversion of open space lands to more intensive uses as the result of economic pressures caused by the assessment of those lands for purposes of property taxation at values incompatible with their preservation as open space lands, that assessment practices must be designed to permit the continued availability of open space lands for these purposes and that it is the intent of ORS 308A.300 to 308A.330 to so provide." (ORS 308A.303).

### WHO BENEFITS

County assessors reported that approximately 370 properties in 17 counties benefitted from this tax expenditure in tax year 2023-24.

### EVALUATION

*Provided by the Oregon Parks and Recreation Department*

This exemption appears to achieve its stated purpose by encouraging the preservation of open space and park land. Little information or resources exist to allow an in-depth quantitative evaluation of this program, but as a matter of public policy, it contributes to Oregon's quality of life and helps meet the needs of Oregon's growing population for open spaces, greenways, natural settings, and recreational facilities. In addition, the ecosystem services provided by open space in terms of flood protection, water filtration, groundwater recharge, carbon sequestration, protection of biodiversity, air quality enhancement, recreation opportunities and other services essential to the health and well-being of society represent a significant economic and social benefit to Oregonians. Many of these services are particularly important as Oregonians adapt to impacts of climate change. Similarly, the social and recreation benefits during the global COVID-19 pandemic, which allow Oregonians a diversity of opportunities to safely experience nature and outdoor activities unavailable in more developed urban and suburban areas, is significant. Finally, the program leverages public investment by encouraging land protection and management in partnership with nongovernment entities that also contribute to the public good.

## 2.135 FOREST HOMESITES

**Oregon Statute:** 308A.253
**Sunset Date:** None
**Year Enacted:** 1989
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $390 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $9,000,000 | $1,400,000 |
| 2025-27 | $9,700,000 | $1,500,000 |

### DESCRIPTION

A forest homesite used in conjunction with specially assessed forestland or highest and best use forestland may have a specially assessed property value. The homesites are adjacent to forestland under the same ownership, most of which is participating in one of the following special assessments: 2.136, Western Private Forestland, 2.137, Eastern Private Forestland, or 2.138, Small Tract Forestland Option. "Homesite" means land including all tangible improvements to the land under and adjacent to a dwelling and other structures, customarily provided in conjunction with the dwelling. It does not include the value of the home built on the land which is assessed the same as any other house.

A forest homesite used in conjunction with growing and harvesting trees must be on a parcel of more than 10 acres of highest and best use or designated forestland. The homesite specially assessed value is the value of one acre, calculated as the average real market value for all contiguous bare forestland (on a per acre basis) under the same ownership, plus up to $4,000 for land improvements. Land improvements include a well and septic system necessary for a homesite.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage growing and harvesting trees on forestland.

### WHO BENEFITS

For 2023–24, counties reported approximately 12,570 property tax accounts with forest homesites.

### EVALUATION

*Provided by the Oregon Department of Forestry*

Extending special forest assessments to forest homesites reinforces the effects of special assessments for forestland.

## 2.136 WESTERN PRIVATE FORESTLAND

**Oregon Statute:** 321.354
**Sunset Date:** None
**Year Enacted:** 1977
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $5.9 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $134,000,000 | $23,600,000 |
| 2025-27 | $144,000,000 | $25,400,000 |

### DESCRIPTION

Forestland is considered either: 1) highest and best use forestland or 2) designated forestland which is specially assessed. Value is determined for these specially assessed properties by the potential of the land to grow timber. Each acre of land is assigned one of eight productivity classes based on the rate of growth of standing timber or the potential to grow timber. Western Oregon includes Benton, Clackamas, Clatsop, Columbia, Coos, Curry, Douglas, Hood River, Jackson, Josephine, Lane, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Washington, and Yamhill counties.

Counties identify the highest and best use forestland within their county. Highest and best use forestland is defined as land whose best, most economically productive use is to grow timber and other forest products. For these lands, the special assessment value equals the real market value. Therefore, there is no tax expenditure associated with them.

Designated forestland properties have a highest and best use as something other than forest use but are valued as if the land's highest and best use was forestland. The owners of these properties have applied to the county for special designation as forestland. The application contains a signed statement that the owner intends to use this property for the primary purpose of growing and harvesting trees. Lands that do not continue to meet the requirements of this program will be disqualified and be required to repay up to five years' worth of tax based on the difference between the tax calculated at the property's specially assessed value and what would have been calculated using the property's highest and best use value.

Small forestland owners (those who own 10 to 4,999 acres of forestland) have the option of participating in the program described in 2.138, Small Tract Forestland Option.

### PURPOSE
According to ORS 321.262, the stated purposes of this expenditure are encouraging the growing and harvesting of timber, promoting the continuous production of forest products from private forestlands, and encouraging forestry and the restocking of forestlands to provide present and future benefits by enhancing the water supply, preventing erosion, providing habitat for wildlife, providing scenic and recreational opportunities, and providing for needed products.

### WHO BENEFITS
Owners of designated forestland property. There are approximately 2.6 million acres of designated private forestland (specially assessed) in Western Oregon.

### EVALUATION
*Provided by the Oregon Department of Forestry*

The program encourages retention of forestland for forest use. Owners must meet stocking standards of the Forest Practices Act or have a management plan to meet requirements. Owners pay assessment based on 100 percent of the value of land as forestland, so no severance tax is due at harvest.

Forestland owners delay timber harvests for an indeterminate period. During this period, noncommercial values that accrue to the public are maintained and increased, notably wildlife habitat, clean air, clean water, carbon sequestration, visual quality, etc.

## 2.137 EASTERN PRIVATE FORESTLAND

**Oregon Statute:** 321.833
**Sunset Date:** None
**Year Enacted:** 1971
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $620 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $14,700,000 | $1,300,000 |
| 2025-27 | $15,900,000 | $1,400,000 |

### DESCRIPTION
Forestland is considered either: 1) highest and best use forestland or 2) designated forestland which is specially assessed. Value is determined for these specially assessed properties by the potential of the land to grow timber. Each acre of land in the state is assigned one of eight productivity classes based on the rate of growth of standing timber or the potential to grow timber; by statute forestland in eastern Oregon is assigned the lowest productivity class. Eastern Oregon includes Baker, Crook, Deschutes, Gilliam, Grant, Harney, Jefferson, Klamath, Lake, Malheur, Morrow, Sherman, Umatilla, Union, Wallowa, Wasco, and Wheeler counties.

Counties identify the highest and best use forestland within their county. Highest and best use forestland is defined as land whose best, most economically productive use is to grow timber and other forest products. For these lands, the special assessment value equals the real market value. Therefore, there is no tax expenditure associated with them.

Designated forestland properties have a highest and best use as something other than forest use but are valued as if the land's highest and best use was forestland. The owners of these properties have applied to the county for special designation as forestland. The application contains a signed statement that the owner intends to use this property for the primary purpose of growing and harvesting trees. Lands that do not continue to meet the requirements of this program will be disqualified and be required to repay up to five years worth of tax based on the difference between the tax calculated at the property's specially assessed value and what would have been calculated using the property's highest and best use value.

Small forestland owners (those who own 10 to 4,999 acres of forestland) have the option of participating in the program described in 2.138, Small Tract Forestland Option.

### PURPOSE
According to ORS 321.262, the stated purposes of this expenditure are encouraging the growing and harvesting of timber, promoting the continuous production of forest products from private forestlands, and encouraging forestry and the restocking of forestlands to provide present and future benefits by enhancing the water supply, preventing erosion, providing habitat for wildlife, providing scenic and recreational opportunities, and providing for needed products.

### WHO BENEFITS
Owners of designated forestland property. There are approximately 1.2 million acres of designated private forestland (specially assessed) in Eastern Oregon.

### EVALUATION
*Provided by the Oregon Department of Forestry*

The program encourages retention of forestland for forest use. Owners must meet stocking standards of the Forest Practices Act or have a management plan to meet requirements. Owners pay assessments based on 100 percent of the value of land as forestland, so no severance tax is due at harvest.

Forestland owners delay timber harvests for an indeterminate period. During this period, noncommercial values, which accrue to the public, are maintained and increased, notably wildlife habitat, clean air, clean water, carbon sequestration, visual quality, etc.

## 2.138 SMALL TRACT FORESTLAND OPTION

**Oregon Statute:** 321.722
**Sunset Date:** None
**Year Enacted:** 2003
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $1.3 billion

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $29,900,000 | $5,900,000 |
| 2025-27 | $36,700,000 | $6,900,000 |

### DESCRIPTION
Owners of 10 to 4,999 acres of Oregon forestland are provided the option of:

- Having their land specially assessed under 2.136, Western Private Forestland, or 2.137, Eastern Private Forestland, or
- Participating in the Small Tract Forestland Program. Under this program, forestland receives a specially assessed value equal to 20 percent of the specially assessed forestland value that designated forestland receives. When the timber is harvested, participants pay a severance tax.

This expenditure relates to the special assessment of the Small Tract Forestland Program.

### PURPOSE
"The Legislative Assembly declares the purposes of the small tract forestland tax option program established under ORS 321.700 to 321.754 are to:

(a) Impose property taxes on forestland values that are annually determined and adjusted as described in ORS 321.201 to 321.222 and then specially assessed; and

(b) Impose a severance tax on the harvesting of timber from small tract forestland in order to:

(A) Recognize the long-term nature of the forest crop and foster the public policy of this state to encourage the growing and harvesting of timber;

(B) Protect the public welfare by ensuring that the citizens of this state and future generations will have the benefits to be derived from the continuous production of forest products from privately held small tract forestland;

(C) Promote the public policy of this state to encourage forestry and the restocking of forestlands in order to provide present and future benefits, including but not limited to water supply enhancement, erosion prevention, wildlife habitat, scenic and recreational opportunities and needed forest products;

(D) Produce revenues for local taxing districts;

(E) Match the incidence of taxation with the realization of the economic benefits of harvest; and

(F) Encourage the establishment of new forests on denuded, nonstocked or underproducing forestland" (ORS 321.703).

## WHO BENEFITS

Owners of small tracts of timberland who select this optional tax treatment. In 2023–24 there were approximately 610,000 acres assessed as small tract forestland and roughly 14,000 accounts.

## IN LIEU

Participants in the Small Tract Forestland Program are subject to a severance tax paid when timber is harvested from the subject forestland. The tax raised approximately $1.2 million in the 2021-23 biennium. The severance tax is designed to partially offset the expenditure impact caused by valuing the forestland at 20 percent of specially assessed forestland value. The severance tax rates are indexed annually in proportion to annual changes in small tract forestland assessed value. Revenues from the severance tax are distributed to the State School Fund, county General Funds, and the Community College Support Fund. Revenues are also used to reimburse the state's General Fund for expenses incurred in the collection of small tract forestland taxes.

## EVALUATION

*Provided by the Oregon Department of Forestry*

Similar to a predecessor land and privilege tax system, under the current approach, land is assessed at 20 percent of its specially assessed value as forestland, and the remainder of the tax is collected at harvest when the landowner has cash flow. The severance tax differs from the old privilege tax in that it is based on volume harvested not the value of the trees.

According to the Department of Revenue, the primary purpose of the Small Tract Forestland Program (STF) is to provide a cash flow protection mechanism for small woodland owners who are unable to manage their harvest rotation to match the cash flow between tax payments and harvest receipts on specially assessed forestland. Sixty percent of the STF program participants in Eastern Oregon individually own less than 100 acres. If this majority of program participants were not in this program they would pay approximately $.38 more per acre per year in property tax and they would owe no severance tax at the point in which they harvested their timber. Based on the high percentage of small acreage accounts participating, and the subsequent low tax burden, the program appears to be used by a significant number of forestland owners for whom cash flow is not an issue. For the small acreage accounts, this tax expenditure does not meet its stated purpose.

The costs of this program, driven by the program requirements, is high relative to the population served consistent with the program purpose. Data of eligible taxpayers electing to use this program indicate that the program requirements could be greatly reduced and more narrowly targeted to meet just the needs of the target population. There are substantial administrative expenses for this program relative to the revenue generated by the severance tax.

# 2.139 WATERCRAFT LOCALLY ASSESSED

**Oregon Statute:** 308.256
**Sunset Date:** None
**Year Enacted:** 1925
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $190 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $5,300,000 | $1,200,000 |
| 2025-27 | $5,300,000 | $1,200,000 |

## DESCRIPTION

Oregon statute provides special property tax treatment for a variety of types of watercraft. This tax expenditure includes multiple types of watercraft and ownership situations for watercraft that are not centrally assessed or licensed by ODOT.

Fully exempt watercraft include:

- Watercraft customarily engaged in the transportation of persons or property entirely outside of Oregon.
- Watercraft under construction or undergoing major remodeling. Major remodeling exists if the cost exceeds 10 percent of the value of the watercraft before remodeling.

Specially assessed watercraft include:

- Ships and vessels used on inland waters are specially assessed at 40 percent of assessed value.
- Ships and vessels used on the high seas or between the high seas and inland ports (coastal fishing boats, for example) are specially assessed at 4 percent of assessed value.
- Offshore self-propelled oil drilling rigs are also specially assessed at 4 percent of assessed value.

Some types of commercial watercraft are not exempt and are taxed at 100 percent of assessed value. These watercraft include dredges, museum ships, restaurant ships, and any vessel used for deep-sea fish reduction or processing (but not canning).

Small watercraft are included in 2.062, Small Watercraft. Centrally assessed watercraft are included in 2.118, Watercraft Centrally Assessed

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to provide tax relief to Oregon's commercial fishing industry.

## WHO BENEFITS

In 2023, the Oregon Department of Fish and Wildlife issued 946 resident and 455 non-resident commercial fishing boat licenses.

## EVALUATION

*Provided by the Oregon Department of Fish and Wildlife*

This expenditure has achieved its purpose, although the exact proportion of fish landed outside Oregon waters is unknown. Many fishing vessels operate in distant water fisheries, but return to Oregon in the off-season.

# 2.140 DESTROYED OR DAMAGED PROPERTY

**Oregon Statute:** 308.146 and 308.425
**Sunset Date:** None
**Year Enacted:** 1971
**2023-24 Estimated Reduction in the Taxable Assessed Value:** $15 million

| Revenue Impact | | |
|---|---|---|
| | **Loss** | **Shift** |
| 2023-25 | $400,000 | Less than $100,000 |
| 2025-27 | $400,000 | Less than $100,000 |

## DESCRIPTION

Property that is destroyed or damaged may be eligible for special tax treatment. Under ORS 308.146, if property is destroyed or damaged between January 1 through June 30 by fire or an "act of God," the owner may apply to have the property assessed on the value of the property as of July 1. Normally, property is assessed on the value as of January 1. Taxpayers claiming this special treatment must file with the assessor before the later of August 1 that year or 60 days after the property was damaged or destroyed. Taxpayers can file late within the same assessment year by paying a late fee.

ORS 308.146 also calls for a property's maximum assessed value to be reduced when destruction or damage reduces the property's real market value. This treatment is not applicable to centrally assessed property nor damage to minor construction that had no impact on the property's maximum assessed value when added to the assessment roll.

If property is destroyed or damaged by fire or natural causes, then, under ORS 308.425, the property tax for the current tax year may be prorated on a monthly basis. Generally, the property owner must apply to receive the proration. Application for proration under this provision must be made by the end of the tax year or within 60 days after the property is damaged or destroyed, whichever is later. Legislation passed in 2021 (HB 2341) allows county tax collectors to provide this relief to properties affected by declared disasters without taxpayers having to apply, for tax years beginning on or after July 1, 2020.

If the property is destroyed or damaged, the monthly tax is 1/12 of the total tax for each month before damage and a percentage of the monthly tax for each month in the tax year that the property remains destroyed or damaged. The percentage used is the ratio of the value after damage to the value before damage.

According to ORS 308.440, none of the above benefits may be given to any person who is convicted of arson with regard to the property for which relief is sought.

## PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to provide tax relief to those with a total or partial loss of use of the property due to fire or natural causes.

## WHO BENEFITS

Property owners whose property is destroyed or damaged by fire or natural causes during the tax year.

## EVALUATION

Not evaluated.

# CHAPTER 3. GAS, USE, AND JET FUEL TAXES

Fuels used in motor vehicles (gasoline and use fuels) and airplanes (aviation gasoline and jet fuel) are taxed in Oregon. Use fuels are fuels other than gasoline or jet fuel used in motor vehicles, such as diesel, propane, and natural gas. Gasoline, use, and jet fuel taxes are among the transportation taxes in Oregon, in addition to the Weight-Mile Tax on page 323, Vehicle Use Tax on page 377, and others. In general, ongoing vehicle operation is subject to either fuel taxes or the weight-mile tax, but not both. Total revenue from the gasoline, use, and jet fuel taxes, accounted for by the Department of Transportation, is forecast to be $1.39 billion in the 2023-24 biennium and $1.38 billion in the 2025–27 biennium.

Most of this tax revenue is dedicated to the construction and maintenance of roads in Oregon. Aviation gasoline and jet fuel tax revenue is used to fund aviation programs.

**Gasoline Tax**

In 1919, Oregon became the first state to institute a user tax on gasoline. Effective January 1, 2024, the state of Oregon and the federal government impose taxes of 40 cents and 18.4 cents per gallon respectively, for a total tax rate of 58.4 cents per gallon. During the 2017 Session the Legislature passed HB 2017, increasing the state tax rate to 34 cents per gallon and establishing three additional two cent increases in 2020, 2022, and 2024 if certain conditions are met. The Department met the conditions for each of the two cent increases, occurring January 2020, January 2022, and January 2024. In addition to the state and federal taxes, two Oregon counties and several cities also assess local gasoline taxes, ranging from 1 to 10 cents per gallon. Oregon administers tax collection for 17 cities and two counties, while the gasoline taxes imposed by ten cities are administered by the local government. The state tax is paid to the Oregon Department of Transportation (ODOT) by the approximately 160 licensed wholesale fuel dealers in the state. The tax is then passed on to the consumer in the price paid at the pump. Depending on the use of the fuel, these taxes may be refunded to the consumer (see refunds section below for more information).

**Use Fuel Tax**

In 1943, Oregon imposed a tax on fuels other than gasoline used in motor vehicles. Diesel is the primary fuel, but other fuels used in motor vehicles such as biodiesel, propane, and natural gas are also taxed. At the time of publication, the state of Oregon and the federal government imposed taxes of 40 cents and 24.4 cents per gallon, respectively, on diesel and biodiesel for a total tax rate of 64.4 cents per gallon. As with gasoline, HB 2017 increased the rate to 34 cents per gallon and included the same three two-cent conditional increases. There are approximately 600 licensed retailers in the state who submit payments to ODOT for taxes collected from consumers of use fuels. In addition, there are another 1,000 users operating more than 3,700 vehicles that have obtained ODOT Use Fuel user licenses and pay the tax directly to the state rather than paying at the pump. The use fuel tax does not apply to trucks subject to weight-mile taxes. Some consumers of use fuels are exempted from the use fuel tax and may claim refunds for the tax paid. See refunds discussion below.

**Gasoline and Other Fuel Tax Refunds**

The state gasoline and use fuel taxes are intended to assess users of public roadways for a fair share of the related construction and maintenance costs for roads. State law allows an exception from these taxes in cases where the user does not benefit from the facilities or services funded by the imposed tax, or where an alternate method of payment has been established in lieu of the tax. Examples include gasoline used in or for: cleaning or dyeing, power take-off equipment, stationary gasoline engines, uses that do not propel vehicles on public highways, or gasoline or other fuels used on private property. Refunds may be claimed for taxes paid on gasoline or other fuels used in these ways. In some cases, consumers of gasoline or other fuels for highway transportation use may claim refunds when specifically allowed in statute. These highway use refunds are considered tax expenditures and are described in the following pages. Additional information about refunds is available from ODOT at www.oregon.gov/ODOT/CS/FTG/Pages/ftr.aspx.

**Aviation Fuel Tax**

This tax is assessed in the same manner as the gasoline tax. The current rate is eleven cents per gallon, last increased two cents during the 2015 Legislative Session. A lower rate of three cents per gallon applies to jet fuel. As with the aviation fuel tax, this rate was increased two cents per gallon during the 2015 Legislative Session. When consumers purchase gasoline for use as aircraft fuel, they may be required to pay the full Oregon gasoline tax rate of 40 cents per

gallon at the time of purchase. In such cases, statute allows consumers to claim a refund of the extra 29 cents per gallon of tax paid.

# 3.001 FOREST PRODUCTS: GASOLINE

**Oregon Statute:** 319.320(1)(b) and (d)
**Sunset Date:** None
**Year Enacted:** 1945

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $0 |
| 2025-27 | $0 |

## DESCRIPTION

A refund is allowed for tax paid on gasoline when used for the removal of forest products on certain public roads or for construction or maintenance of the roads used for such forest products removal. Only roads that are not state highways or city streets or are county roads approved by the county may be considered when calculating the fuel tax eligible for refund. An agreement with the Oregon Board of Forestry, the State Forester, the county, or an agency of the United States must authorize the use of the road. To qualify for refunds of tax on fuels used for county road use, the user is required to have the same authorization to use the road as above and is required to pay for construction or maintenance of the county road.

In some cases, construction of a specific roadway is necessary for the removal of forest products. This provision allows counties to contract with the users of a roadway for the maintenance and improvement of that specific section of roadway.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose for this expenditure is that, in most cases, the fuel and weight-mile taxes pay for the general use of the transportation system where tracking user damage to identifiable areas is difficult. In this case, however, the section of roadway over which heavy loads are moved is easily identified, and cost to the user can be more directly allocated to a specific section of roadway.

## WHO BENEFITS

This provision does not appear to have been used in over 12 years. Potential beneficiaries include businesses that transport forest products to the extent that any required road maintenance costs are surpassed by the amount of refunds.

## EVALUATION

*Provided by the Oregon Department of Transportation*

This expenditure is ineffective in achieving its purpose as the costs of construction or maintenance of a typical county road are higher than that of fuels taxes paid. Removal of forest products are typically performed on roads other than state highways, county roads, or city streets, and a tax refund is allowed for fuels used for this purpose under ORS 319.831(c). Two additional points are important for understanding why this exemption is not used. First, over time the equipment used to construct and maintain roads and to remove forest products have shifted to diesel as the motive power. Since the point of taxation of diesel is at the end use, this fuel can be purchased without having to pay the fuels tax. Second, the vehicles used to transport forest products will almost exclusively be subject to the weight-mile tax, which is the in lieu of tax for heavy vehicles.

Furthermore, contacts with the public works department of counties with major timber operations, the Forest Service, and timber industry representatives indicate that this provision is not well known.

# 3.002 FOREST PRODUCTS: OTHER THAN GASOLINE

**Oregon Statute:** 319.831(1)(c) and (g)
**Sunset Date:** None
**Year Enacted:** 1965

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $0 |
| 2025-27 | $0 |

## DESCRIPTION

A refund is allowed for tax paid on fuels other than gasoline (such as diesel) when used for the removal of forest products on certain public roads or for construction or maintenance of the roads used for such forest products removal. Only roads that are not state highways or city streets or are county roads approved by the county may be considered when calculating the fuel tax eligible for refund. An agreement with the Oregon Board of Forestry, the State Forester, the county, or an agency of the United States must authorize the use of the road. To qualify for refunds of tax on fuels used for county road use, the user is required to have the same authorization to use the road as above and is required to pay for construction or maintenance of the county road.

In some cases, construction of a specific roadway is necessary for the removal of forest products. This provision allows counties to contract with the users of a roadway for the maintenance and improvement of that specific section of roadway.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose for this expenditure is that, in most cases, the fuel and weight-mile taxes pay for the general use of the transportation system where tracking user damage to identifiable areas is difficult. In this case, however, the section of roadway over which heavy loads are moved is easily identified, and cost to the user can be more directly allocated to a specific section of roadway.

## WHO BENEFITS

This provision does not appear to have been used in over 12 years. Potential beneficiaries include businesses that transport forest products to the extent that any required road maintenance costs are surpassed by the amount of refunds.

## EVALUATION

*Provided by the Oregon Department of Transportation*

This expenditure is ineffective in achieving its purpose as the costs of construction or maintenance of a typical county road are higher than that of fuels taxes paid. Removal of forest products are typically performed on roads other than state highways, county roads, or city streets, and a tax refund is allowed for fuels used for this purpose under ORS 319.831(c). Two additional points are important for understanding why this exemption is not used. First, over time the equipment used to construct and maintain roads and to remove forest products have shifted to diesel as the motive power. Since the point of taxation of diesel is at the end use, this fuel can be purchased without having to pay the fuels tax. Second, the vehicles used to transport forest products will almost exclusively be subject to the weight-mile tax, which is the in lieu of tax for heavy vehicles.

Furthermore, contacts with the public works department of counties with major timber operations, the Forest Service, and timber industry representatives indicate that this provision is not well known.

## 3.003 VEHICLE USED FOR TESTING EMISSIONS (GAS AND USE FUEL TAXES)

**Oregon Statute:** 825.475
**Sunset Date:** 12-31-2025
**Year Enacted:** 2015

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $0 |
| 2025-27 | $0 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION

A person operating a vehicle for the purpose of emissions research and development is exempt from the fuel taxes for that use. To qualify for the exemption, the person operating the vehicle must not be operating the vehicle as a for-hire carrier and the US Environmental Protection Agency must have provided an exemption with federal requirements for the same testing being conducted.

Currently, the only vehicles performing qualifying emissions testing are heavy trucks. These vehicles would not be subject to the fuel tax and would instead be subject to the weight-mile tax. See 4.003, Vehicle Used for Testing Emissions (Weight-Mile Tax) for the same exemption for vehicles performing emissions testing applying to the weight-mile tax.

Legislation in 2019 (HB 2164) set a sunset date of December 31, 2025 for this provision.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose is "to avoid taxing research and compliance work."

### WHO BENEFITS

Owners of motor vehicles being used to do emissions research and development.

### EVALUATION

*Provided by the Oregon Department of Transportation*

The exemption from Gas and Use Fuel taxes for vehicles being used to test emissions is currently not being used by any light vehicles normally subject to this tax. The vehicles used for testing emissions are heavy trucks only, which are covered by 4.003, Vehicle Used for Testing Emissions (Weight-Mile Tax).

## 3.004 FUEL FOR AIRCRAFT DEPARTING U.S.

**Oregon Statute:** 319.330(2)
**Sunset Date:** None
**Year Enacted:** 1953

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Less than $100,000 |
| 2025-27 | Less than $100,000 |

### DESCRIPTION

A refund is allowed for tax paid on fuel used by international air carriers. Refund requests are presented to the Oregon Department of Transportation for tax collected on aircraft fuel used solely for aircraft operations from a point within the state of Oregon directly to a point not within any state of the United States.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to promote international airline travel to and from Oregon, and to make it financially attractive for airlines with international flights to operate from Oregon airports.

### WHO BENEFITS
According to the Oregon Department of Transportation, few taxpayers use this provision.

### EVALUATION
Not evaluated.

## 3.005 PUBLIC SERVICES

**Oregon Statute:** 319.831(1)(d-f), (h-k)
**Sunset Date:** None
**Year Enacted:** 1961

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $2,100,000 |
| 2025-27 | $2,100,000 |

### DESCRIPTION
A refund is allowed for any tax paid on fuels other than gasoline when the fuels are used in the performance of a public service. State agencies, counties, incorporated cities and towns, rural fire protection districts, road assessment districts, and special districts (as defined in ORS 198) are allowed refunds for any use. Agencies of the United States are exempt under federal law. School and education service districts or their contractors may also claim refunds for fuels used in transporting students.

Vehicles exempt under this tax expenditure are not also exempt under the weight-mile tax expenditures 4.004, Elementary and Secondary School Vehicles or 4.006, Government Owned or Operated Vehicles. Vehicles are subject to either the fuels tax or the weight-mile tax, but not both.

### PURPOSE
The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to avoid use fuel taxation among public entities and to avoid taxing public services that are funded through the tax.

### WHO BENEFITS
Beneficiaries include state government, over 240 incorporated cities and towns, 36 counties, almost 200 school districts, 19 educational service districts, over 250 rural fire protection districts, and various other local districts and federal agencies.

### EVALUATION
*Provided by the Oregon Department of Transportation*

This expenditure achieves its purpose. Cities, counties, and the State use diesel fuel substantially in conjunction with the construction and maintenance of roads. Revenues generated through the tax on such fuels are dedicated for this purpose and this provision reduces the processing of funds before returning them to public agencies to be used for this purpose. This is an effective continuation of established policies that avoid reciprocal taxation among public entities.

# 3.006 PUBLIC TRANSPORTATION

**Oregon Statute:** 267.570(2)
**Sunset Date:** None
**Year Enacted:** 1974

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $1,000,000 |
| 2025-27 | $1,000,000 |

## DESCRIPTION

A refund is allowed for any tax paid on fuels other than gasoline when used in the operation of mass transit and transportation districts. Transit and transportation districts are treated the same as municipalities for purposes of claiming this exemption.

## PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to lower the cost of providing public transportation services.

## WHO BENEFITS

Three mass transit districts, seven transportation districts, and one county service district in the state provide public transportation service.

## EVALUATION

*Provided by the Oregon Department of Transportation*

This expenditure achieves its purpose. Without this exemption, fares could be higher, which would decrease ridership, particularly by those from lower income groups and/or those with limited mobility.

# CHAPTER 4. WEIGHT-MILE TAX

The weight-mile tax is one of the taxes that provide for the maintenance, operation, construction, and reconstruction of public highways in Oregon. Other taxes for that purpose include the Gas, Use, and Jet Fuel Taxes on page 315 and the Vehicle Use Tax on page 377. In general, ongoing vehicle operation is subject to either fuel taxes or the weight-mile tax, but not both. Heavy vehicles that are generally subject to the weight-mile tax are not subject to the use fuel tax. Revenue from the weight-mile tax is forecast to be $932.2 million in the 2023–25 biennium and $977.3 million in the 2025–27 biennium. This tax revenue is dedicated to the construction and maintenance of roads in Oregon.

This tax is imposed on heavy vehicles according to a combination of the number of axles and/or combined weight of the vehicle and the number of miles driven. Studies show that, although fuel consumption increases with vehicle size and weight, it does not increase proportionately with cost responsibility. Above 26,000 pounds registered weight, the overall weight and axle loads become important factors in determining requirements for the strength of pavements, bridges, and other structures. Therefore, a diesel fuel tax would not be an accurate measure of cost responsibility for heavy vehicles.

The tax rate schedule changes as the weight of the vehicle increases from 26,001 pounds to 105,500 pounds, and as the number of axles increases. Within each weight or axle group, a truck pays the stated amount multiplied by the number of miles the truck travels each year on Oregon public roads. The weight-mile tax schedules are based on results of cost responsibility studies that determine the fair share that heavy vehicles should pay for the maintenance, operation, and improvement of the state's highway system.

The tax rates consist of separate schedules for vehicles with declared weights between 26,001-80,000 pounds (Tax Table A) and those operated under special permit with registered weights between 80,001-105,500 pounds (Tax Table B). The tax tables and additional information are posted at https://www.oregon.gov/odot/Forms/Motcarr/9928-2024.pdf.

Since 1947, the weight-mile tax schedules have been adjusted as the result of updated cost responsibility studies and revenue measures passed by the Legislature. The Office of Economic Analysis is responsible for producing the Highway Cost Allocation Study each biennium. The most recent edition of this study is available at www.oregon.gov/das/OEA/Pages/hcas.aspx.

# 4.001 FARMING OPERATIONS

**Oregon Statute:** 825.017(4) and 825.024
**Sunset Date:** None
**Year Enacted:** 1983

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $13,400,000 |
| 2025-27 | $13,600,000 |

## DESCRIPTION

Vehicles used in conjunction with farming operations are exempt from the payment of weight-mile taxes if they meet certain conditions. This includes implements of husbandry and farm-related equipment as referenced in the two Oregon statutes cited.

Implements of husbandry are those vehicles and trailers used exclusively in agricultural operations. The definition for farm related equipment is more inclusive and identifies uses incidental to farming operations such as transportation of supplies and equipment, as well as the personal use of vehicles by the farmer and the farmer's family or employees.

Vehicles registered as farm equipment are used primarily off the road system, and in most cases, the transportation of such vehicles on the road is incidental to their use. Over 60 percent of the vehicles operated in conjunction with farming weigh fewer than 26,000 pounds and are not subject to weight-mile taxation. This provision applies only to those farm vehicles that exceed 26,000 pounds.

It should be noted that farm vehicles are subject to fuel taxes unless they are operated off the road system, in which case a refund is allowed under ORS 319.320(3). Because farm vehicles over 26,000 pounds pay fuel tax, they are not subject to weight-mile tax.

## PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to relieve farmers of the recordkeeping necessary to comply with the weight-mile tax and to recognize the partial or seasonal use of the transportation system by these users.

## WHO BENEFITS

Per information from the U.S. Department of Agriculture and the ODOT Driver and Motor Vehicle Services Division, there were approximately 35,500 farming operations in the state and about 15,700 registered farm vehicles in 2022.

## EVALUATION

*Provided by the Oregon Department of Transportation*

This expenditure appears to achieve its purpose. However, the benefit per farm is very small and probably does not provide a competitive edge for farming in Oregon. Of course, larger farming operations benefit according to the amount of equipment in operation.

# 4.002 FOREST PRODUCTS ON COUNTY ROADS

**Oregon Statute:** 825.017(8)
**Sunset Date:** None
**Year Enacted:** 1977

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Less than $100,000 |
| 2025-27 | Less than $100,000 |

### DESCRIPTION
Vehicles used for the removal of forest products on a public road are exempt from the payment of weight-mile taxes. An agreement with the Oregon Board of Forestry, the State Forester, or an agency of the United States must authorize the use of the road and require the user to pay for or perform the construction or maintenance of the county road. In some cases, construction of a specific roadway is necessary for the removal of forest products. This provision allows counties to contract with the users of a roadway for the maintenance and improvement of the specific section of roadway used.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the rationale for this expenditure is that, in most cases, fuels and weight-mile taxes pay for the general use of the transportation system where tracking user damage to identifiable areas is difficult. In this case, however, the section of roadway over which heavy loads are moved is easily identified, and the cost imposed by the user can be more directly allocated to a specific section of roadway.

### WHO BENEFITS
Potential beneficiaries include businesses that transport forest products to the extent that any required road maintenance costs are surpassed by the amount exempt.

### EVALUATION
*Provided by the Oregon Department of Transportation*

This expenditure is ineffective in achieving its purpose as the costs of construction or maintenance of a typical county road would be higher than that of the weight-mile taxes paid.

Furthermore, contacts with the public works department of counties with major timber operations, the U.S. Forest Service, and timber industry representatives indicate that this provision is not well known.

## 4.003 VEHICLE USED FOR TESTING EMISSIONS (WEIGHT-MILE TAX)

**Oregon Statute:** 825.475
**Sunset Date:** 12-31-2025
**Year Enacted:** 2015

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $700,000 |
| 2025-27 | $200,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION
A person operating a vehicle for the purpose of emissions research and development is exempt from the weight-mile tax for that use. To qualify for the exemption, the person must not be operating the vehicle as a for-hire carrier and the US Environmental Protection Agency must have provided an exemption with federal requirements for the same testing.

See 3.003, Vehicle Used for Testing Emissions (Gas and Use Fuel Taxes) for the same exemption applying to the fuel taxes.

Legislation in 2019 (HB 2164) set a sunset date of December 31, 2025 for this provision.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose is "to avoid taxing research and compliance work."

### WHO BENEFITS
Owners of motor vehicles being used to do emissions research and development.

### EVALUATION

*Provided by the Oregon Department of Transportation*

This tax expenditure provides a continuation of an exemption from fuel tax and weight mile tax that was granted by the Oregon Department of Environmental Quality (DEQ) to test new heavy truck technology. The current exemption granted by DEQ could not be continued and the Department of Justice determined that there was no mechanism that allowed ODOT to provide a similar tax exemption. The provisions in HB 2465 (2015) provide the statutory means to continue testing heavy vehicle emissions in Oregon without paying fuel tax or weight-mile tax. In 2023, there were 23 trucks in this testing program operating about 1.56 million miles in Oregon per year.

## 4.004 ELEMENTARY AND SECONDARY SCHOOL VEHICLES

**Oregon Statute:** 825.017(1)
**Sunset Date:** None
**Year Enacted:** Pre-1953

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $2,900,000 |
| 2025-27 | $3,000,000 |

### DESCRIPTION

Vehicles used by, or under contract with, any elementary or secondary school district are exempt from the payment of weight-mile taxes when engaged exclusively in transporting students to or from school or authorized school activities or those activities sponsored by a public university.

Vehicles exempt under this tax expenditure are not also exempt under the fuels tax expenditure 3.005, Public Services. Vehicles are subject to either the fuels tax or the weight-mile tax but not both.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the rationale is that weight-mile taxation is generally applied to for-hire commercial vehicles. School buses are either owned by a school district or a contractor supplying services to a school district and are therefore not for-hire vehicles. This provision reduces the record keeping and audit cost of the refund application process.

### WHO BENEFITS

There are about 200 school districts operating more than 1,200 elementary and secondary schools. This provision applies only to school buses that exceed 26,000 pounds, the threshold weight for the weight-mile tax. Approximately 41 percent of the miles traveled by school buses are in weight classes equal to or less than 26,000 pounds.

### EVALUATION

*Provided by the Oregon Department of Transportation*

This expenditure achieves its purpose. It reduces the cost of public education in Oregon by reducing the cost to school districts that would be necessitated by paying the weight-mile tax as well as complying with the record keeping and other compliance costs of the tax.

## 4.005 FIRE PROTECTION

**Oregon Statute:** 825.017(16)
**Sunset Date:** None
**Year Enacted:** 1977

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Less than $100,000 |
| 2025-27 | Less than $100,000 |

### DESCRIPTION

Fire trucks and rescue vehicles designated as emergency vehicles by the Department of Transportation are exempt from the weight-mile tax when involved in emergency and related operations. This exemption also applies to the vehicles being moved to or from the work area.

Many fire protection vehicles are owned by units of government and are exempt from weight-mile taxes under 4.006, Government Owned or Operated Vehicles, however this exemption also applies to privately owned fire protection vehicles.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to lower the cost of providing fire protection services normally provided through public services, and to station additional water supply trucks near logging operations when deemed necessary by forestry officials.

### WHO BENEFITS

Nongovernment owners of fire protection vehicles. Few are using this exemption.

### EVALUATION

*Provided by the Oregon Department of Transportation*

This expenditure appears to achieve its purpose. These fire protection vehicles are very few in number and operate primarily off the highway system; they would not be subject to taxation, with the exception of the provision that allows movement to and from the work area. This provision is effective, as the cost associated with record keeping and weight-mile audit would likely exceed any revenue generated. This is a minimal investment in supporting activities to protect Oregon's forest resources.

## 4.006 GOVERNMENT OWNED OR OPERATED VEHICLES

**Oregon Statute:** 825.017(10)
**Sunset Date:** None
**Year Enacted:** 1947

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $800,000 |
| 2025-27 | $800,000 |

### DESCRIPTION

Vehicles being used in the performance of public services are exempt from weight-mile taxes. Exempt vehicles include those owned or operated by the United States, the state of Oregon, or any county, city, town, or municipality in this state when owned or operated:

- as a carrier of property for hire
- by a transportation district

- by a county service district, or
- by an intergovernmental body that provides public transportation

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid reciprocal taxation among public entities when the tax revenue would be used largely for the same purpose as the activity being taxed (road construction and maintenance). For federal vehicles, the purpose is to comply with the U.S. Constitution, which prohibits states from taxing the federal government.

### WHO BENEFITS
Beneficiaries include federal and state government, 241 incorporated cities and towns, 36 counties, and the U.S. Postal Service.

### EVALUATION
*Provided by the Oregon Department of Transportation*

This expenditure achieves its purpose. Cities and counties, the major beneficiaries of this provision, operate equipment subject to this tax largely in conjunction with the construction and maintenance of roads. Revenue generated through this tax is dedicated for this purpose, and this provision reduces the processing of funds before returning them to public agencies to be used for this purpose. This is an effective continuation of established policies that avoid the reciprocal taxation of governing agencies.

## 4.007 PUBLIC MASS TRANSIT VEHICLES

**Oregon Statute:** 825.017(11)
**Sunset Date:** None
**Year Enacted:** 1977

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $8,100,000 |
| 2025-27 | $8,300,000 |

### DESCRIPTION
Vehicles owned or operated by a mass transit district are exempt from weight-mile taxes.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to lower the cost of providing public transportation services.

### WHO BENEFITS
Three mass transit districts, seven transportation districts, and one county service district in the state provide public transportation service.

### EVALUATION
*Provided by the Oregon Department of Transportation*

This expenditure achieves its purpose. Without this exemption, fares could be higher, which would decrease ridership, particularly by those from lower income groups and/or those with limited mobility.

# 4.008 CHARITABLE ORGANIZATIONS

**Oregon Statute:** 825.017(13)
**Sunset Date:** None
**Year Enacted:** 1977

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $200,000 |
| 2025-27 | $200,000 |

## DESCRIPTION

Vehicles owned or under contract with a charitable organization are exempt from payment of weight-mile taxes when engaged exclusively in performing transportation necessary to the operation of the charitable organization.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to help support services provided by charitable organizations.

## WHO BENEFITS

Charitable organizations operating vehicles that are registered by weight. Few are using this exemption.

## EVALUATION

*Provided by the Oregon Department of Transportation*

Although the benefit in this case is relatively small, this provision is believed to be effective in achieving its purpose. There are relatively few vehicles being operated by charitable organizations that exceed the 26,000 pound lower limit of the weight-mile tax rate schedules.

Charitable organizations are excluded from all provisions of Chapter 825 of the ORS, which include operating authority and regulatory requirements before deregulation. At the time this exemption was passed, the exclusion from the provisions of Chapter 825 would have granted such organizations greater operating freedom and may have been the original incentive to provide this exemption.

# CHAPTER 5. CIGARETTE TAX

Cigarette distributors are required to pay a tax for the distribution of each cigarette in Oregon. The tax is imposed on the initial distribution and no additional tax is imposed for subsequent distributions.

The Oregon cigarette tax began in 1966. Generally, the tax is paid through the use of tax stamps that are purchased by the 29 Oregon licensed cigarette distributors (as of July 2024). Distributors may pay the tax at the time they purchase the stamps or defer the payment until the 20th of the month following the purchase.

In November 2020, Oregon voters passed Ballot Measure 108, increasing the Oregon tax per pack of 20 cigarettes from $1.33 to $3.33.

Cigarette tax net revenue for the 2023–25 and 2025–27 biennia are forecast to be $602 million and $591 million, respectively.

Following the payment of administrative, enforcement, and refund expenses, tax receipts are distributed as follows:

**Tax Distribution Percentages**

| Destination | Percentage |
|---|---|
| Oregon Health Authority | 85.8% |
| General Fund | 6.6% |
| Mental Health | 4.5% |
| Tobacco Use Reduction Account | 1.0% |
| Cities | 0.7% |
| Counties | 0.7% |
| Transportation | 0.7% |

## 5.001 SMALL QUANTITY BY CONSUMERS

**Oregon Statute:** 323.060
**Sunset Date:** None
**Year Enacted:** 1965

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $400,000 |
| 2025-27 | $400,000 |

### DESCRIPTION
The use or consumption of untaxed cigarettes transported into Oregon as a single lot or shipment of no more than 199 cigarettes is not taxed. This exemption also applies to cigarettes obtained at exempted federal installations when the quantity obtained is no more than 199 cigarettes at one time.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid the administrative and compliance costs of taxing these small quantities.

### WHO BENEFITS
Individuals who transport small quantities of untaxed cigarettes into Oregon or obtain them at federal installations in Oregon.

### EVALUATION
Not evaluated.

## 5.002 FEDERAL AND VETERANS INSTITUTIONS (CIGARETTE)

**Oregon Statute:** 323.055
**Sunset Date:** None
**Year Enacted:** 1965

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $500,000 |
| 2025-27 | $500,000 |

### DESCRIPTION
Oregon cigarette taxes are not imposed on the sale of cigarettes at these locations:

- United States Army, Air Force, Navy, Marine Corps, or Coast Guard exchanges and commissaries
- Navy or Coast Guard ships' stores
- Ships' stores maintained under federal bond
- The U.S. Department of Veterans Affairs
- Exchanges and commissaries run by the National Oceanic and Atmospheric Administration (NOAA) or the Public Health Service (PHS) of the U.S. Department of Health and Human Services.

Also, the sale or gift of federally tax-free cigarettes delivered directly from the manufacturer to a veterans' home, hospital, or domiciliary care facility are not taxed.

### PURPOSE
To comply with federal law.

## WHO BENEFITS

People eligible to purchase cigarettes at the above locations, such as members, retirees, and certain veterans of the U.S. Armed Forces, authorized family members, members of NOAA or PHS, and certain civilian employees.

## EVALUATION

*Provided by the Department of Revenue*

This expenditure achieves its purpose of compliance with federal law.

# CHAPTER 6. OTHER TOBACCO PRODUCTS TAX

An "other tobacco products" tax is imposed on the sale, storage, use, consumption, handling, or distribution of tobacco products other than cigarettes. Examples of other tobacco products are cigars, tobacco for chewing or smoking in a pipe, e-cigarettes, and other nicotine inhalant systems. The tax is imposed on the distributor at the time the distributor imports, produces, or ships the tobacco products into Oregon. As of July 2024, there were 335 licensed distributors of other tobacco products.

In November 2020, Oregon voters passed Measure 108, which raised the maximum tax per cigar from 50 cents to one dollar and added e-cigarettes and other nicotine inhalant systems to products taxed under the other tobacco products tax. In 2021, the Legislature passed Senate Bill 587, which prohibits the unlicensed sale of tobacco products and inhalant delivery systems and requires the Department of Revenue to issue licenses to qualified retailers of such items.

**Other Tobacco Products Tax Rates**

| Product | Rate | Min/Max |
|---|---|---|
| Moist Snuff | $1.86 per ounce | Min: $2.24 per retail container |
| All Other Products | 65% of wholesale sales price | Max: $1.00 per cigar |

Other tobacco products tax net revenue for the 2023–25 and 2025–27 biennia are forecast to be $166 and $165 million, respectively. Distributions for 2025–27 are forecast to be:

- General Fund: $56.1 million
- Oregon Health Plan: $43.3 million
- Oregon Health Authority: $55.0 million
- Tobacco Use Reduction Account: $10.9 million

# 6.001 FEDERAL AND VETERANS INSTITUTIONS (OTHER TOBACCO PRODUCTS)

**Oregon Statute:** 323.515
**Sunset Date:** None
**Year Enacted:** 1985

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Less than $100,000 |
| 2025-27 | Less than $100,000 |

## DESCRIPTION

The other tobacco products tax does not apply to tobacco products that are sold at United States Army, Air Force, Navy, Marine Corps, Coast Guard, National Oceanic and Atmospheric Administration (NOAA), or Public Health Service (PHS) of the United States Department of Health and Human Services exchanges and commissaries; Navy or Coast Guard ships' stores; U.S. Department of Veterans Affairs; or ships' stores maintained under federal bond.

## PURPOSE

To comply with federal law.

## WHO BENEFITS

Members and veterans of the U.S. Armed Forces, and members of NOAA or PHS who purchase other tobacco products at federal institutions.

## EVALUATION

*Provided by the Department of Revenue*

This expenditure achieves its purpose of compliance with federal law.

# CHAPTER 7. BEER AND WINE TAXES

A tax is imposed upon the privilege of engaging in business as a manufacturer or as an importing distributor of malt beverages or wines. The Oregon Liquor and Cannabis Commission (OLCC) collects the tax. The tax rate for manufacturing or importing malt beverages is $2.60 per barrel of 31 gallons. The tax rate for manufacturing or importing wine is 65 cents per gallon on wines with 16 percent or less alcohol by volume, and an additional 10 cents per gallon on wines with more than 16 percent alcohol by volume. There is an additional two cents per gallon wine tax imposed on selling and delivering of wines, which goes directly to the Oregon Wine Board. Fifty percent of the remaining beer and wine taxes go to the Mental Health Alcoholism and Drug Services Account, and the other 50 percent into the OLCC Account and distributed as described below.

Beverages with more than 21 percent alcohol are exclusively distributed and sold by the state of Oregon. Amounts generated by the imposition of a $0.50 per bottle surcharge are dedicated directly to the General Fund. The remaining net revenue from the sale of these beverages and from the portion of the wine and malt beverage tax that goes into the OLCC account are distributed as follows:

General Fund: 56%

Cities (by population): 20%

Cities (by formula): 14%

Counties (by population): 10%

Beer and wine tax revenue is forecast to be $36.6 million for the 2023–25 biennium and $36.6 million for the 2025–27 biennium.

A separate tax is imposed on the sale or use of all agricultural products used in a winery for making wine. The OLCC collects the tax. The tax rate for vinifera varieties (true or hybrid) is $25 per ton. Revenue from the tax on grapes is forecast to be approximately $3.4 million for the 2023–25 biennium. The tax rate for all other agricultural products used to make wine over 8.5 percent alcohol is $0.021 per gallon.

# 7.001 SMALL WINERIES

**Oregon Statute:** 473.050(5)
**Sunset Date:** None
**Year Enacted:** 1977

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $3,700,000 |
| 2025-27 | $4,000,000 |

## DESCRIPTION

This provision allows all U.S. wine manufacturers producing fewer than 100,000 gallons annually to exempt the first 40,000 gallons sold each year in Oregon from the wine privilege tax.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage the development of small wineries that produce fewer than 100,000 gallons annually.

## WHO BENEFITS

Small wineries benefit in that they are able to sell their product more competitively. It is estimated that 5.5 million gallons will be claimed as tax exempt during the 2023–25 biennium. This is expected to increase to 6.0 million gallons exempted in the 2025–27 biennium.

## EVALUATION

*Provided by the Oregon Liquor and Cannabis Commission*

This tax exemption achieves its purpose. It was enacted to help small Oregon wineries get established and allows these wineries enough profit to stay in business until they become large enough to compete with the established, high-volume wineries. In 1977, when the exemption was enacted, there were approximately 10 licensed wineries. Today, there are over 900 wineries in the state, and the industry is still growing. Nearly all of Oregon's wineries are small enough to qualify for the full tax exemption. Oregon wines have continued to show overall growth.

Oregon has gained the reputation of a quality wine producing state, which has added to the image and livability of the state and promotes tourism and hospitality. The growth of the Oregon wine industry has also caused growth in secondary markets such as vineyards, label design, bottling, and marketing.

Because of the exemption, the industry decided to dedicate some of the tax savings to establish and maintain the Oregon Wine Board. The board divides its resources between research and development and industry promotion. If this were not the case, the industry would be asking the Legislature for funding from General Fund dollars.

# 7.002 WINE MARKETING ACTIVITIES

**Oregon Statute:** 473.047
**Sunset Date:** None
**Year Enacted:** 2001

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Less than $100,000 |
| 2025-27 | Less than $100,000 |

## DESCRIPTION

This provision allows a credit against the wine privilege tax for certain marketing activities as defined by the Oregon Wine Board. The marketing activities must not promote any specific brand or winery and must be approved by the Oregon Wine Board. The total credit is limited by an amount equal to 28 percent of the sum of: a) one hundred percent of the cost of qualified marketing activities to the extent the cost does not exceed the amount of tax owed for

manufacturing or importing fewer than 40,000 gallons of wine, and b) 25 percent of the tax owed for manufacturing or importing greater than 40,000 gallons of wine. The total credit may not exceed the tax liability of the manufacturer or importing distributor of wine. Small wineries (wineries producing fewer than 100,000 gallons a year) that sell fewer than 40,000 gallons a year do not pay privilege tax because they are already exempt by 7.001, Small Wineries.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage marketing of the Oregon wine industry.

### WHO BENEFITS
Large wineries, some small wineries (wineries selling more than 40,000 gallons of wine, but producing fewer than 100,000 gallons a year) and the Oregon wine industry could benefit.

### EVALUATION
*Provided by the Oregon Liquor and Cannabis Commission*

No winery has claimed the credit through June 30, 2024.

## 7.003 OREGON GRAPES FOR WINE WITHOUT OREGON DESIGNATION OR AVA

**Oregon Statute:** 473.046
**Sunset Date:** 06-30-2027 (see description)
**Year Enacted:** 2019

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Less than $100,000 |
| 2025-27 | Less than $100,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION
Wineries purchasing grape products harvested in Oregon and used for wine produced within a federally approved American Viticultural Area (AVA) located partially within Oregon that does not use Oregon designations or use an American Viticultural Area located wholly within Oregon on its label or packaging, or in its advertising or marketing are exempt from the tax on sale or use of agricultural products by wineries.

This exemption applies to taxes on grape purchases made on or after July 1, 2021.

Because the legislation enacting this provision did not expressly provide a period of applicability for this tax expenditure, ORS 315.037(3) establishes that this tax expenditure shall apply for a maximum of six years beginning with the initial applicable tax year. In this case, the last applicable tax year must begin before June 30, 2027.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid taxing grape growers operating partially in Oregon that are subject to similar taxes in other states and are not benefiting or marketing their grapes as from Oregon.

### WHO BENEFITS
Wineries making wine in certain American Viticultural Areas partially in Oregon that do not label the wine with an Oregon designation.

### EVALUATION
*Provided by the Oregon Liquor and Cannabis Commission*

No information available.

# CHAPTER 8. EMERGENCY AND CRISIS SERVICES TAXES

The 911 emergency communications tax was enacted in 1981 to help local governments pay for establishing, operating, or improving a 911 emergency reporting system. Originally, the tax was 3 percent of the monthly rate charged for basic exchange access services. In 1991, that rate was increased to 5 percent. From October 1, 1995 through December 31, 2019, the rate was 75 cents per line per month and applied to all forms of wired and wireless telecommunications services. HB 4055 (2014) amended the tax to enhance the administration and enforcement of existing law governing Voice over Internet Protocol (VoIP) and wireless prepaid phones with access to 911. After an initial transition period for the first part of 2015, fixed line VoIP subscribers paid 75 cents per line per month, and each retail transaction for a wireless prepaid phone (such as adding minutes) was taxed at a rate of 75 cents per transaction. Starting on January 1, 2020, the rate increased to $1.00 per month or transaction, and then increased to $1.25 per month or transaction on January 1, 2021. These rates are the result of HB 2449, enacted in 2019.

The tax for subscribers is paid quarterly by the telecommunication utilities and service providers, who collect the tax from subscribers on their monthly billings. The tax for prepaid phones is collected by retail sellers. The 911 emergency communications tax has been extended seven times since inception and under current law will sunset at the end of 2029.

The 911 emergency communications tax revenue for the 2023–25 and 2025–27 biennia is forecast to be $160.5 million and $165.7 million, respectively. Net revenue from the tax is distributed to cities and counties on a per capita basis to be used for their 911 emergency communications systems.

House Bill 2757, passed in 2023, established the 988 trust fund to improve the statewide coordinated crisis system which includes maintaining and improving the 988 suicide prevention and behavioral health crisis hotline. Beginning January 1, 2024, in addition to the 911 emergency communications tax, this bill imposes a 988 coordinated crisis services tax at the rate of 40 cents tax per line per month or transaction to all forms of wired and wireless telecommunications services. The 988 coordinated crisis services tax is scheduled to sunset at the end of 2029.

The 988 coordinated crisis services tax revenue for the 2025–27 biennium is forecast to be $54.1 million. Net revenue from the tax is distributed to the Oregon Health Authority to be used for the improvement of the statewide coordinated crisis system.

# 8.001 STATE AND LOCAL SUBSCRIBERS

**Oregon Statute:** 403.205(1)
**Sunset Date:** None (The emergency and crisis services taxes sunset 12-31-2029.)
**Year Enacted:** 1981

| Revenue Impact | | | |
|---|---|---|---|
| | 911 | 988 | Total |
| 2023-25 | $8,700,000 | $2,800,000 | $11,500,000 |
| 2025-27 | $8,800,000 | $2,800,000 | $11,600,000 |

## DESCRIPTION

State and local governments are exempt from the emergency communications tax and the coordinated crisis services tax. These governments include regional housing authorities exempt from state taxes under ORS 307.092.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid reciprocal taxation among public entities; to avoid taxing public services that are funded through the tax.

## WHO BENEFITS

State and local governments. There are approximately 280,000 employees in state and local government.

## EVALUATION

Not evaluated.

# 8.002 OREGON TELEPHONE ASSISTANCE PROGRAM

**Oregon Statute:** 403.205(2)
**Sunset Date:** None (The crisis services tax sunsets 12-31-2029.)
**Year Enacted:** 2023 (HB 2757)

| Revenue Impact | | | |
|---|---|---|---|
| | 911 | 988 | Total |
| 2023-25 | Not Applicable | $100,000 | $100,000 |
| 2025-27 | Not Applicable | $100,000 | $100,000 |

## DESCRIPTION

Recipients of the Oregon Telephone Assistance Program (OTAP) benefit are exempt from the coordinated crisis services tax. To qualify for the OTAP, households must either have an income that is at or below 135 percent of the Federal Poverty Guidelines or participate in one of several qualifying assistance programs including but not limited to the Supplemental Nutrition Assistance Program, Medicaid, or Supplemental Security Income.

## PURPOSE

The legislation creating this expenditure did not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2757 (2023), the policy purpose is "to support access to phone service for households that qualify for the Oregon [Telephone Assistance] Program."

## WHO BENEFITS

Recipients of OTAP benefits.

## EVALUATION

*Provided by the Oregon Public Utility Commission*

The statute provides tax relief for qualifying households with low incomes that participate in the OTAP. The tax expenditure reinforces the policy of the state that adequate, affordable residential telecommunication service is

available to all Oregonians. The effectiveness of the 988-tax expenditure is contingent upon OTAP participating service provider compliance.

## 8.003 FEDERAL SUBSCRIBERS

**Oregon Statute:** 403.205(1)
**Sunset Date:** None (The emergency and crisis services taxes sunset 12-31-2029.)
**Year Enacted:** 1981

| Revenue Impact | | | |
|---|---|---|---|
| | 911 | 988 | Total |
| 2023-25 | $900,000 | $200,000 | $1,100,000 |
| 2025-27 | $900,000 | $300,000 | $1,200,000 |

### DESCRIPTION
The federal government is exempt from the emergency communications tax and the coordinated crisis services tax. Exempt entities include foreign government offices that are exempt from taxation by treaty provisions with the federal government, as well as certain federally chartered corporations (e.g. U.S. Postal Service, Amtrak, Federal Reserve Bank) specifically exempt from state income taxes by federal law.

### PURPOSE
To comply with federal law.

### WHO BENEFITS
The federal government as well as foreign government offices and exempt federally chartered corporations. There are about 28,000 federal employees in Oregon.

### EVALUATION
*Provided by the Department of Revenue*

This tax expenditure meets its purpose of compliance with federal law.

## 8.004 INDIAN RESERVATION SUBSCRIBERS

**Oregon Statute:** 403.205(1)
**Sunset Date:** None (The emergency and crisis services taxes sunset 12-31-2029.)
**Year Enacted:** 1981

| Revenue Impact | | | |
|---|---|---|---|
| | 911 | 988 | Total |
| 2023-25 | $800,000 | $200,000 | $1,000,000 |
| 2025-27 | $800,000 | $300,000 | $1,100,000 |

### DESCRIPTION
Tribal members on federally recognized reservations in Oregon are exempt from the emergency communications tax and the coordinated crisis services tax. They must be enrolled members of the tribe located on the reservation.

### PURPOSE
To comply with federal law.

### WHO BENEFITS
Tribal members on federally recognized reservations in Oregon.

## EVALUATION

*Provided by the Department of Revenue*

This tax expenditure meets its purpose of compliance with federal law.

# CHAPTER 9. CORPORATE ACTIVITY TAX

On May 16, 2019, Governor Kate Brown signed House Bill 3427 into law. The legislation established a "Fund for Student Success" funded by a new Corporate Activity Tax (CAT) imposed on all types of business entities.

The CAT is in addition to the state's current corporate and personal income taxes. Revenue from the CAT is transferred to the Fund for Student Success and used for education spending. Receipts are forecasted to be $2.80 billion in the 2023–25 biennium and $3.15 billion in the 2025–27 biennium.

Starting on January 1, 2020, the tax is imposed for the privilege of doing business in the state. The CAT is measured on a business's commercial activity: the total amount a business realizes from transactions and activity in Oregon. Certain items are excluded from the definition of commercial activity and, therefore, are not subject to the CAT. In addition, there is a 35 percent subtraction for certain business expenses. The CAT is applied to Oregon taxable commercial activity in excess of $1 million. The tax is computed as $250 plus 0.57 percent of Oregon taxable commercial activity of more than $1 million.

# 9.001 SALES OF PRESCRIPTION DRUGS BY ELIGIBLE PHARMACIES

**Oregon Statute:** 317A.123
**Sunset Date:** 12-31-2025
**Year Enacted:** 2022

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $9,000,000 |
| 2025-27 | $4,600,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

## DESCRIPTION

Prescription drug sales from eligible pharmacies which have nine or fewer locations under common ownership in this state (excepting pharmacies that cater primarily to veterinary customers) are exempt from the corporate activity tax for tax years beginning on or after January 1, 2022, and before January 1, 2026.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact for SB 1524 (2022), the "policy purpose of the eligible pharmacy exclusion is to prevent the closure of community pharmacies due to the corporate activity tax."

## WHO BENEFITS

The eligible pharmacies described above.

## EVALUATION

Not evaluated.

# 9.002 SUBCONTRACTOR LABOR PAYMENTS FOR RESIDENTIAL CONSTRUCTION

**Oregon Statute:** 317A.122
**Sunset Date:** 12-31-2025
**Year Enacted:** 2019

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $1,700,000 |
| 2025-27 | $900,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

## DESCRIPTION

Certain payments for labor costs made from a general contractor to a subcontractor for single-family residential construction in Oregon are excluded from the corporate activity tax. The exclusion is for 15 percent of the labor costs paid to subcontractors by the general contractor.

Payments made from general contractors to subcontractors for materials, land, or permits are not excluded from taxation. Payments between subcontractors are also not excluded from taxation.

Single-family housing is defined in administrative rule as single-family detached or semidetached houses and townhouses or row houses that do not share utilities, heating, or air-conditioning across housing units, have no housing units constructed above or below, and are separated from any adjacent units by a ground-to-roof wall.

Legislation in 2019 (HB 2164) established that this exclusion applies to tax years beginning before January 1, 2026.

### PURPOSE
The statute that allows this tax expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose of this credit is “to encourage the employment of subcontractors within the residential construction sector.”

### WHO BENEFITS
General contractors on single-family residential construction who pay subcontractors. In tax year 2021, approximately 300 taxpayers benefitted from this exclusion.

### EVALUATION
*Provided by the Oregon Housing and Community Services Department*

OHCS does not have any data to evaluate the effectiveness of the program.

## 9.003 PRECIOUS METALS

**Oregon Statute:** 317A.100(1)(b)(WW)
**Sunset Date:** None
**Year Enacted:** 2023 (HB 2073)

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $100,000 |
| 2025-27 | $200,000 |

### DESCRIPTION
For purposes of the corporate activity tax, commercial activity does not include the cost paid by a dealer for items of precious metal. The difference between the amount received for the sale and the cost of precious metals continues to be included in commercial activity. An “item of precious metal” means an item of gold, silver, platinum, rhodium or palladium that has been put through a process of smelting or refining and that is in a state or condition such that its value depends on its contents and not its form.

The legislation that enacted this tax expenditure specified that any sunset under ORS 315.037 does not apply.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2073 (2023), "the policy purpose of the precious metals exemption is to create more equitable tax treatment between precious metals purchased as investments or used as a medium of exchange and similar assets such as stocks, bonds, and cash."

### WHO BENEFITS
Dealers of precious metals.

### EVALUATION
Not evaluated.

# 9.004 INSURERS SUBJECT TO RETALIATORY TAX

**Oregon Statute:** 317A.100(4)(h)
**Sunset Date:** 12-31-2026 (see description)
**Year Enacted:** 2021

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Not Available |
| 2025-27 | Not Available |

## DESCRIPTION

Foreign or alien insurance companies (those formed under the laws of a state other than Oregon or a country other than the United States, respectively) are exempt from the corporate activity tax to the extent that they are subject to Oregon's retaliatory tax under ORS 731.854 and 731.859.

Because the legislation enacting this provision did not expressly provide a period of applicability for this tax expenditure, ORS 315.037(3) establishes that this tax expenditure shall apply for a maximum of six years beginning with the initial applicable tax year. In this case, the last applicable tax year is 2026.

## PURPOSE

The statute that allows this tax expenditure does not explicitly state a purpose. Presumably, the purpose is to support Oregon-domiciled insurance companies by lowering the overall Oregon tax burden on non-Oregon insurance companies, since a high Oregon burden could trigger retaliatory taxes in other states.

## WHO BENEFITS

Oregon-domiciled insurance companies paying taxes in lower-tax states that impose retaliatory taxes to equal what their domiciled companies would face in Oregon; foreign or alien insurance companies from lower-tax domiciles below the threshold for Oregon's retaliatory tax.

## EVALUATION

*Provided by the Department of Consumer and Business Services*

Beginning with the first applicable tax year, 2021, this exemption from Oregon's corporate activity tax allows Oregon domiciled carriers to avoid increased retaliatory taxes levied by other states due to the decreased Oregon tax burden. Within certain thresholds, there should be no net reduction in Oregon's General Fund tax receipts because the corporate activity tax exemption on non-Oregon-domiciled carriers is offset to a significant degree by the increased retaliatory tax.

# CHAPTER 10. ELECTRIC COOPERATIVE TAX

Mutual and cooperative electrical associations are subject to a tax on gross earnings that is in lieu of all other taxes on transmission and distribution lines. The associations must be nonprofit, and the principal purpose must be to distribute electricity to their members. (See 2.068, Nonprofit Electrical Distribution Associations for the related property tax expenditure.)

Per ORS 308.807, associations must pay the lesser of:

- Four percent of all gross revenue derived from the use or operation of transmission and distribution lines (exclusive of revenues from the leasing of lines to governmental agencies) minus the cost of power to the association, or
- The result of the following calculation, where RMV stands for real market value:

  *((RMV of the transmission & distribution lines)×(max school rate allowed under ORS 310.150))*

  *+ ((RMV of transmission & distribution lines)×($10 per $1,000 of RMV))*

  *+ ((RMV of transmission & distribution lines)×(bond tax rates per ORS 310.140))*

For the 2024–2025 tax year, 15 associations paid an amount based on gross earnings and four paid the amount described in the second calculation.

The distribution of proceeds depends on which calculation method is used. If the first method is used, proceeds from the tax are distributed to counties in proportion to the association's wire miles in each county. These payments are distributed one-third to the county school fund and two-thirds to the county general fund. If the second calculation method is used, payments are deposited in the unsegregated tax collections account and distributed according to the percentage distribution schedule in ORS 311.390.

Electric cooperative tax revenue is forecast to be $23.1 million for the 2023–25 biennium and $24.6 million for the 2025–27 biennium.

# 10.001 REVENUE FROM GOVERNMENT LEASED LINES

**Oregon Statute:** 308.805 and 308.807(1)
**Sunset Date:** None
**Year Enacted:** 1969

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $200,000 |
| 2025-27 | $200,000 |

## DESCRIPTION

Revenue received by nonprofit mutual and cooperative electric distribution associations for leasing lines to the government is exempt from the total revenue when calculating the tax on gross earnings for the electric cooperative tax.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purposes are to encourage the leasing of lines to governmental agencies and reduce electric leasing costs to the government.

## WHO BENEFITS

There are 19 cooperatives in Oregon subject to the tax; four of them received this exemption in tax year 2023–24.

## EVALUATION

Not evaluated.

# CHAPTER 11. OIL AND GAS PRIVILEGE TAX

A privilege tax is levied on the total volume of petroleum, crude oil, mineral oil, casinghead gas, and natural gas produced, or extracted, from a well within Oregon. The privilege tax is 6 percent of the gross value, or prevailing cash price, at the well for oil or gas produced. Net revenue derived from this tax is paid into the Common School Fund. To conform with taxpayer privacy disclosure laws, revenue numbers are not provided for tax programs that may affect at most a few taxpayers.

## 11.001 STATE AND LOCAL INTERESTS

**Oregon Statute:** 324.090(1)
**Sunset Date:** None
**Year Enacted:** 1981

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Not Available* |
| 2025-27 | Not Available* |

** In certain cases, to conform with taxpayer privacy disclosure laws, revenue numbers are not provided for tax expenditures that may affect at most a few taxpayers. This includes tax expenditures that do not currently affect any Oregon taxpayer, but could at a later date.*

### DESCRIPTION

Any royalty or other interest in oil or gas owned by the state or a local government is exempt from the oil and gas privilege tax.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to adhere to the principle that governments typically do not tax themselves.

### WHO BENEFITS

State and local governments.

### EVALUATION

Not evaluated.

## 11.002 CREDIT FOR PROPERTY TAXES PAID

**Oregon Statute:** 324.090(2)
**Sunset Date:** None
**Year Enacted:** 1981

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Not Available* |
| 2025-27 | Not Available* |

** In certain cases, to conform with taxpayer privacy disclosure laws, revenue numbers are not provided for tax expenditures that may affect at most a few taxpayers. This includes tax expenditures that do not currently affect any Oregon taxpayer, but could at a later date.*

### DESCRIPTION

A credit is allowed against the oil and gas privilege tax for property taxes paid. This includes taxes on any property rights attached to the right to produce oil and gas, producing oil and gas leases, and machinery and equipment used in the operation of the well.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid double taxation of the value of oil and gas extracted.

### WHO BENEFITS

Producers of natural gas in Oregon. As of August 2024, there are a total of 75 permitted wells in Columbia and Coos Counties. Not all permitted natural gas wells produce gas, and there are no actively producing oil wells in Oregon.

## EVALUATION

*Provided by the Department of Geology and Mineral Industries*

This credit effectively avoids the double taxation of oil and gas resources that would occur if mining companies paid both property taxes and privilege taxes. If the companies were taxed through both the property tax and the privilege tax, the companies would pay tax twice on the same property.

# CHAPTER 12. MEDICAL PROVIDER TAXES

The 2003 Legislature created the hospital assessment, long term care facility tax, and Medicaid managed care assessment, collectively referred to here as the Medical Provider Taxes. These taxes are used to finance Medicaid services and leverage additional federal funds. Only the hospital and long term care facility taxes are discussed here because they are the only ones with tax expenditures.

**Hospital assessment**

The assessment on each hospital subject to this assessment is imposed at a rate determined by the director of the Oregon Health Authority (OHA) and is revised as needed. The assessment rate used is the best estimate of the rate needed to fund identified services and costs. Currently, the assessment rate is 6.0 percent of net patient revenues for Type A and Type B hospitals and 6.0 percent of net patient revenues for other hospitals but has been as low as 0.15 percent.

The assessment applies to net revenues earned by hospitals before the earlier of September 30, 2025, or the date the assessment no longer qualifies for federal matching funds. Net proceeds from this assessment are deposited in the Hospital Quality Assurance Fund. These revenues are to be used to partially fund the Oregon Health Plan in the OHA budget. The OHA 2023-25 Legislatively Adopted Budget includes $1.68 billion in hospital revenue in the Health Systems budget to partially fund the Oregon Health Plan. Hospital assessment receipts are forecast to be $1.669 billion for the 2023-25 biennium and $221.8 million for the 2025-27 biennium. The large decrease is because of the scheduled expiration of the assessments after one quarter of the 2025-27 biennium.

**Hospital Assessment Rate History**

| Period Beginning | Assessment Rate |
|---|---|
| July 1, 2004 | 0.95 percent |
| January 1, 2005 | 0.68 percent |
| July 1, 2006 | 0.82 percent |
| January 1, 2008 | 0.63 percent |
| July 1, 2009 | 0.15 percent |
| October 1, 2009 | 2.80 percent |
| July 1, 2010 | 2.32 percent |
| July 1, 2011 | 5.25 percent |
| October 1, 2011 | 5.08 percent |
| January 1, 2012 | 4.32 percent |
| April 1, 2013 | 5.30 percent |
| October 1, 2014 | 5.80 percent |
| April 1, 2016 | 5.30 percent |
| July 1, 2017 | 6.00 percent |
| October 5, 2017 | 5.30 percent |
| January 1, 2018 | 6.00 percent |

**Type A/B Hospital Assessment Rate History**

| Period Beginning | Assessment Rate |
|---|---|
| January 1, 2018 | 4.00 percent |
| July 1, 2018 | 4.75 percent |
| July 1, 2019 | 4.20 percent |
| December 1, 2019 | 2.69 percent |
| January 1, 2020 | 5.50 percent |
| October 1, 2020 | 6.00 percent |

**Long term care facility tax**

The assessment for this tax equals the rate times the number of patient days at the long term care facility for a calendar quarter. The Oregon Department of Human Services director typically establishes an annual assessment rate that applies for a 12-month period beginning July 1. The rate was initially $8.25 and has increased to $37.68 as of July 2024.

Net proceeds from this tax are deposited in the Long Term Care Facility Quality Assurance Fund. These revenues are intended to increase nursing facility Medicaid reimbursement rates and improve the financial stability of the nursing home industry. Long term care facility tax receipts are forecast to be $154.4 million for the 2023-25 biennium and $173.8 million for the 2025-27 biennium.

**Long Term Care Facility Tax Rate History**

| Period Beginning | Tax Rate |
|---|---|
| July 1, 2003 | $8.25 |
| July 1, 2004 | $10.87 |
| July 1, 2005 | $12.23 |
| July 1, 2006 | $13.73 |
| July 1, 2007 | $15.00 |
| July 1, 2008 | $14.85 |
| December 1, 2008 | $13.75 |
| July 1, 2009 | $15.38 |
| July 1, 2010 | $16.21 |
| July 1, 2011 | $17.51 |
| July 1, 2012 | $18.35 |
| July 1, 2013 | $20.79 |
| January 1, 2014 | $20.46 |
| July 1, 2014 | $19.37 |
| July 1, 2015 | $22.56 |
| July 1, 2016 | $22.99 |
| July 1, 2017 | $23.68 |
| July 1, 2018 | $24.46 |
| July 1, 2019 | $25.44 |
| July 1, 2020 | $25.92 |
| July 1, 2021 | $27.44 |
| July 1, 2022 | $32.91 |
| July 1, 2023 | $34.02 |
| July 1, 2024 | $37.68 |

# 12.001 EXCLUDED HOSPITALS

**Oregon Statute:** 414.853(3)(b)
**Sunset Date:** None (The tax sunsets 09-30-2025 or at the cessation of federal matching funds.)
**Year Enacted:** 2003

| Revenue Impact | |
|---|---|
| | **Shift*** |
| 2023-25 | $382,000,000 |
| 2025-27 | $74,300,000 |

** There is no loss in revenue because the Oregon Health Authority sets the tax rate to achieve specific funding goals. However, the assessment liability of exempt hospitals is shifted to nonexempt hospitals.*

## DESCRIPTION

Hospitals that provide only psychiatric care, special inpatient care facilities, pediatric specialty hospitals providing care to children at no charge, public hospitals other than hospitals created by health districts, and hospitals operated by the United States Department of Veterans Affairs are exempted from paying the hospital assessment. HB 2010 in 2019 extended the period of applicability of the hospital assessment and this tax expenditure through September 30, 2025.

## PURPOSE

The purpose of exempting hospitals operated by the US Department of Veterans Affairs is to comply with federal law, as federal entities are not subject to state taxation. The statute that allows this expenditure does not explicitly state a purpose for exempting the other facilities. Presumably, one purpose is to avoid taxing hospitals receiving little or no reimbursement from Medicaid. Such hospitals include pediatric specialty hospitals providing care to children at no charge, hospitals providing only psychiatric care, and special inpatient care hospitals. In the case of Oregon Health and Science University (OHSU), the Oregon Health Authority determined that the OHSU hospital could generate revenue in a different way while implementing a federally approved program.

## WHO BENEFITS

Three US Department of Veterans Affairs hospitals, the Oregon State Hospital (provides only psychiatric care), Vibra Specialty Hospital (special inpatient facility providing long term acute care), and OHSU (public hospital not created by a health district).

## EVALUATION

*Provided by the Oregon Health Authority*

If OHSU were not excluded from the hospital assessment, it would have paid an estimated $292 million dollars for the 2023–25 biennium, and $38 million for the 2025–27 biennium. The reduced amount in 2025-27 is due to the expiration of DRG [Diagnostic Related Group] hospital taxes on September 30, 2025. If the tax was ongoing throughout 2025-27 OHSU would pay $323 million if not exempt. Beginning January 1, 2018, the OHA implemented a new program with OHSU that provides even greater benefit to the agency to meet its ongoing revenue targets.

If the Oregon State Hospital were not excluded from the hospital assessment, it would have paid an estimated $1.2 million for the 2023–25 biennium and $0.1 million for the 2025–27 biennium. If not for the expiration of tax programs on September 30, 2025 and Oregon State Hospital's exemption they would be required to pay $0.9 million in 2025-27.

While Vibra and hospitals operated by Veterans Affairs do not report revenue information to OHA, and it cannot estimate the revenue impact for these hospitals, high level estimates are provided and included in the total impact by the Department of Revenue based on historical data.

Although OHSU is excluded from the assessment, OHA is now receiving funds from OHSU at even greater amounts than it paid under the assessment through an intergovernmental agreement. The funding from OHSU is used to meet OHA budget targets for the Oregon Health Plan and for the state share of federally-approved quality and access payments—which are eligible for Medicaid matching funds—to OHSU. As a result, both OHA and OHSU received increased benefit from excluding OHSU from the hospital assessment.

## 12.002 OREGON VETERANS' HOME

**Oregon Statute:** 409.803
**Sunset Date:** None (The tax sunsets 06-30-2026.)
**Year Enacted:** 2003

| Revenue Impact | |
|---|---|
| | **Shift*** |
| 2023-25 | $6,600,000 |
| 2025-27 | $3,700,000 |

** There is no loss in revenue because the Oregon Department of Human Services sets the tax rate to achieve specific funding goals. However, the tax liability of exempt long term care facilities is shifted to nonexempt long term care facilities.*

### DESCRIPTION

The two Oregon Veterans' Homes providing long term skilled nursing care in The Dalles and Lebanon, Oregon are exempt from the long term care facility tax. They are state owned and privately managed. HB 4162 in 2018 extended the period of applicability of the long term care facility assessment and this tax expenditure through June 30, 2026.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid taxing a public entity

### WHO BENEFITS

The Oregon Veterans' Homes and their residents and the spouses of residents.

### EVALUATION

Not evaluated.

## 12.003 TYPE A AND B HOSPITALS

**Oregon Statute:** 414.855(3)(c)
**Sunset Date:** None (The tax sunsets 09-30-2025 or at the cessation of federal matching funds.)
**Year Enacted:** 2017

| Revenue Impact | |
|---|---|
| | **Shift*** |
| 2023-25 | $0 |
| 2025-27 | $0 |

** There is no loss in revenue because the Oregon Health Authority sets the assessment rate to achieve specific funding goals. However, the assessment liability of exempt hospitals is shifted to nonexempt hospitals.*

### DESCRIPTION

Prior to the passage of HB 2391 in 2017, Type A and B hospitals in Oregon were exempted from paying the hospital assessment. Now, they must pay the hospital assessment, but the director of the Oregon Health Authority (OHA) may impose a lower rate of assessment on them to take into account the hospitals' financial position. Type A hospitals have fewer than 50 beds and are more than 30 miles from another hospital. Type B hospitals have fewer than 50 beds and are fewer than 30 miles from another hospital. Type A and B hospitals are paid on a cost to charge ratio for Medicaid clients. HB 2010 in 2019 extended the period of applicability of the hospital assessment and this tax expenditure through September 30, 2025.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. During the development of the 2017–19 Legislatively Adopted Budget, OHA staff working with hospital representatives determined that Type A and B hospitals could be added to the hospital assessment, generating additional revenue to help meet the state's funding needs for the Oregon Health Plan and, under a new federally-approved program, OHA would make quality and access pool

payments to Type A and B hospitals to offset their cost of the assessment in aggregate. To meet a revenue target established during legislative budget negotiations, OHA calculated that a lower assessment rate on Type A and B hospitals would achieve the needed funding amount. Therefore, the Legislature approved HB 2391, giving the OHA Director the authority to impose a lower rate on Type A and B hospitals.

## WHO BENEFITS

There are 12 Type A and 20 Type B hospitals, though none benefit from this tax expenditure since their assessment rate is the same as the regular hospital assessment rate.

## EVALUATION

*Provided by the Oregon Health Authority*

Type A and B hospitals are projected to pay $332 million for the 2023–25 biennium and $40 million for the 2025– 27 biennium. The reduction is due to the expiration of the tax program on September 30, 2025. If the tax did not expire A and B hospitals would be projected to pay $324 million in the 2025-27 biennium.

Type A and B hospitals are currently paying 6.0% hospital tax rate, matching the rate assessed to DRG hospitals

Type A and B hospitals, in the aggregate, do not benefit and are not harmed by any specific assessment rate. OHA will adjust quality and access pool payments to Type A and B hospitals, in the aggregate, to be equal to amount of assessment revenue paid by Type A and B hospitals in the aggregate. The assessment rate is set by the director to meet the Oregon Health Plan funding target established in the 2023–25 Legislatively Adopted Budget and for making quality and access pool payments—which are eligible for Medicaid matching funds—to Type A and B hospitals to offset their cost of the assessment.

# CHAPTER 13. LODGING TAX

The Oregon Legislature approved House Bill 2267 in 2003, which created the Oregon state transient lodging tax. The tax applies to the fee charged to a customer for overnight lodging. The tax rate was one percent from January 1, 2004 through June 30, 2016. From July 1, 2016 through June 30, 2020, the rate was 1.8 percent. Effective July 1, 2020, the rate is 1.5 percent. The revenue from this tax funds the Oregon Tourism Commission and its programs.

House Bill 2197, passed in 2005, expanded the definition of transient lodging, and expanded the list of those who must pay the tax. House Bill 2656, passed in 2013, enhanced the administration and enforcement of existing law governing transient lodging taxes. Legislative changes required transient lodging providers and transient lodging intermediaries to collect and remit taxes computed on the retail price paid by the customer for occupancy of transient lodging. These legislative changes became effective on October 7, 2013. House Bill 4146, passed in 2016, changed the tax rates and distribution of revenue. During the 2018 Legislative Session, House Bill 4120 expanded the definition of a transient lodging intermediary.

The lodging tax was designed to be a tourism and travel related tax, with a tax base that encompassed tourism and travel related transient lodging. The statutory implementation of the lodging tax encompasses a wider base of transient lodging, and then excludes certain non-travel and non-tourism lodging. For example, overnight stays in hospitals and other medical facilities could be subject to the tax if the statutory exemption did not exist. Lodging tax receipts are forecast to be $89.7 million and $99.1 million for the 2023–25 and the 2025–27 biennia, respectively.

# 13.001 EXEMPT DWELLING UNITS

**Oregon Statute:** 320.308
**Sunset Date:** None
**Year Enacted:** 2005

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Not Available |
| 2025-27 | Not Available |

## DESCRIPTION

Certain facilities and dwelling units used for temporary lodging are exempt from state lodging taxation. Exempt facilities/units include:

- Health care or residential facilities licensed, registered, or certified by the Oregon Department of Human Services or the Oregon Health Authority
- Mental health and substance abuse treatment facilities
- Units used for temporary occupancy by the general public for fewer than 30 days per year, unless rented out using a platform of any kind provided by a transient lodging intermediary
- Emergency shelters funded through a government agency
- Nonprofit facilities
- Units occupied by the same person for 30 or more consecutive days.
- Generally, any barracks, quarters, or other facilities or space located on installations owned or managed by the Oregon Military Department that are used for temporary human occupancy by military-affiliated personnel.

The lodging tax was enacted with the intent for the tax base to comprise tourism and travel related transient lodging providers. Its statutory implementation included all transient lodging, and then subsequently excluded non-tourism and non-travel related lodging from the tax. This exclusion was probably included for statute writing simplicity reasons in defining the tax base.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to implement a tourism and travel related lodging tax program that does not apply to the exempted facilities.

## WHO BENEFITS

Individuals who make use of exempt lodging facilities and the organizations that operate such facilities.

## EVALUATION

Not evaluated.

# 13.002 LODGING PAID FOR BY THE FEDERAL GOVERNMENT

**Federal Constitution:** U.S. Constitution, Article VI, Clause 2
**Sunset Date:** None
**Year Enacted:** 2003 (tax enacted)

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $800,000 |
| 2025-27 | $800,000 |

## DESCRIPTION

As a result of the supremacy clause in the U.S. Constitution, federal employees on official business are exempt from the state lodging tax when payment for lodging is made by a federal agency. Employees of federal instrumentalities are also exempt when on official business and when payment for lodging is made by the federal instrumentality or federal government. A federal instrumentality is an organization that assists in the performance of a government function, receives funding from the federal government, and is exempt from taxation. Examples of federal instrumentalities include federal credit unions and the American Red Cross.

## PURPOSE

To comply with the U.S. Constitution, which prohibits states from taxing the federal government.

## WHO BENEFITS

The federal government and federal instrumentalities.

## EVALUATION

*Provided by the Department of Revenue*

This tax expenditure meets its purpose of compliance with federal law.

# CHAPTER 14. LOCAL CONSTRUCTION TAX

In 2007, the Oregon Legislature passed into law Senate Bill 1036, allowing school districts to impose a tax on new construction based on the square footage of the new construction. The bill also allowed certain other local districts to impose a construction tax if the tax was in effect or was the subject of a public hearing before May 1, 2007. Senate Bill 1036 also restricted all other local construction taxes until January 2018, but this restriction was amended by the legislature in 2016.

The tax rate limitation and maximum tax are adjusted annually based on an average construction cost index. For fiscal year 2024–25, the tax rates are limited to $1.63 per square foot for residential construction and 82 cents per square foot for other construction, with a maximum of $40,800 per structure.

School districts may use construction tax proceeds only for capital improvements. After entering into intergovernmental agreements with the school district imposing the tax, the tax is collected by state or local governments responsible for issuing building permits. Up to four percent of tax revenues can be used to reimburse the state or local government's administrative fees associated with collecting the tax.

In 2016, the legislature passed Senate Bill 1533, which allowed cities and counties to impose construction taxes. Such taxes imposed on residential property may not exceed one percent of the permit value for residential construction permits. The revenue is devoted to developer incentives and affordable housing.

# 14.001 EXEMPT CONSTRUCTION

**Oregon Statute:** 320.173
**Sunset Date:** None
**Year Enacted:** 2007

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Not Available |
| 2025-27 | Not Available |

## DESCRIPTION

Certain types of construction may not be subjected to local construction taxes. Exempt construction includes:

- Private school improvements
- Public improvements defined by ORS 279A.010
- Affordable housing meeting certain criteria
- Public or private hospital improvements
- Improvements to religious facilities primarily used for worship or education associated with worship
- Agricultural buildings as defined by ORS 455.315 (2)(a)
- Facilities that are operated by a not-for-profit corporation and that are long term care facilities (defined in ORS 442.015) or residential care facilities (defined in ORS 443.400)
- Continuing care retirement communities (defined in ORS 101.020).
- Residential housing being constructed on a lot or parcel of land to replace residential housing on the lot or parcel of land that was destroyed or damaged by wildfire or another declared state of emergency.

Legislation in 2021 (HB 2607) added residential housing being constructed to replace destroyed and damaged housing after a disaster to the list of exempt property types.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to avoid taxing construction activities that could be funded by the tax being imposed, and to encourage other types of preferred or protected construction activities.

## WHO BENEFITS

Purchasers, owners, or developers of exempted building types.

## EVALUATION

Not evaluated.

# CHAPTER 15. ESTATE TRANSFER TAX

Oregon places a tax on the transfer of wealth to heirs and beneficiaries. For deaths on or after January 1, 2012, the Oregon estate transfer tax return must be filed if the gross estate is $1,000,000 or more at the date of death. This filing threshold is not inflation adjusted. The Oregon estate transfer tax is tied to the federal estate tax as the federal tax existed on December 31, 2010.

For much of recent history Oregon had an inheritance tax that was tied directly to the federal estate tax in a form referred to as a "pick up tax." That is, Oregon's inheritance tax was equal to the maximum state inheritance tax credit allowed against the federal estate tax. In 2012, the Legislature changed the Oregon inheritance tax to the Oregon estate transfer tax that exists today.

Receipts for this tax are very volatile, depending on the circumstances of a small number of taxpayers. Generally, a few thousand returns are filed each year, though the majority of the total revenue comes from a small number of larger estates. There has been revenue growth in recent years reflecting, in part, Oregon's population growth as well as growth in the value of assets comprising estates. Receipts from the estate tax are expected to be $606.4 million in 2023–25 and $598.5 million in 2025–27.

## 15.001 CONSERVATION EASEMENT

**Oregon Statute:** 118.010(3)
**Sunset Date:** None
**Year Enacted:** 2011

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Less than $100,000 |
| 2025-27 | Less than $100,000 |

### DESCRIPTION

The value of land subject to a conservation easement can be excluded from the taxable estate, up to $500,000.

For land to qualify, it must

- be located in the United States,
- be owned by the decedent or family member for the three years preceding the decedent's death,
- be associated with a conservation easement that is not solely for the purposes of historic preservation, and
- only allow minimal commercial use.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage the use of conservation easements which allow private landowners to conserve land and prevent its development while retaining ownership.

### WHO BENEFITS

Beneficiaries of an estate that includes land subject to a conservation easement. Few taxpayers use this exclusion.

### EVALUATION

Not evaluated.

## 15.002 MARITAL DEDUCTION

**Oregon Statute:** 118.010(3) and (8)
**Sunset Date:** None
**Year Enacted:** 2011

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $399,000,000 |
| 2025-27 | $399,000,000 |

### DESCRIPTION

A deduction is available for the value of property passed from the decedent to a surviving spouse. The value of this property would then be taxed when the surviving spouse dies.

There are two different deductions available related to property passed to a surviving spouse.

Under 26 U.S. Code §2056, a marital deduction is allowed for the value of any interest in property which passes from the decedent to a surviving spouse if that interest is included in the value of the gross estate. To qualify, all income must be payable to the surviving spouse during their lifetime, and no one other than the surviving spouse can have any rights to income or principal during the lifetime of the surviving spouse. The Oregon Estate Transfer Tax borrows federal definitions for the federal taxable estate, thus this deduction is available for Oregon taxpayers. Oregon taxpayers may make a separate election for the marital deduction than that used for the federal estate tax.

In addition to the marital deduction, taxpayers may elect to qualify a trust or other property interest as Oregon special marital property (OSMP), which is treated similarly to the marital deduction. To qualify as OSMP, the principal or income must be accumulated or distributed to the surviving spouse during their lifetime, and no part of the trust or other property interest may be transferred to another person during the lifetime of the spouse. In the case that a trust or other property interest would otherwise qualify, but it allows principal or income distributions to those other than the surviving spouse, the executor may elect to set aside a share of the trust or property interest as a separate trust or property interest. The permissible distributees must consent to the election of the portion of the property as OSMP and must release any rights to the OSMP during the life of the surviving spouse. This election is irrevocable.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to treat a married couple as a single unit.

### WHO BENEFITS
The surviving spouse of a decedent. In 2022, there were over 1,000 estate tax returns that used the spousal exclusion.

### EVALUATION
Not evaluated.

## 15.003 NATURAL RESOURCE AND FISHING PROPERTY (DEDUCTION)

**Oregon Statute:** 118.145
**Sunset Date:** 12-31-2028 (see description)
**Year Enacted:** 2023 (SB 498)

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $23,400,000 |
| 2025-27 | $31,300,000 |

### DESCRIPTION
An exemption from the value of a taxable estate is allowed for some estates with natural resource or commercial fishing properties located in Oregon. The maximum exemption allowed is $15 million.

To qualify for this exemption, the decedent or any family member of the decedent must materially participate in farm business, forestry business or fishing business for at least 75 percent of the days of each of the five calendar years before and after death. The property must be transferred to one or more family member after the death and family members inheriting the property must also materially participate. A family member is a person within the third degree of relation to the decedent, by blood, marriage, adoption, civil union or domestic partnership.

Farm use property, forest use property, and farm or forest homesites qualify as natural resource property. Property used in commercial fishing operations or in the processing and marketing of those operations also qualifies. An estate claiming this exemption may not claim the credit allowed under 15.005, Natural Resource and Fishing Property (Credit).

Additional tax may be imposed if during the 5 years following the decedent's death, the natural resource property for which an exemption is allowed is sold or transferred to a person other than a family member of the decedent, or if requirements for material participation are not met.

Because the legislation enacting this provision did not expressly provide a period of applicability for this tax expenditure, ORS 315.037(3) establishes that this tax expenditure shall apply for a maximum of six years beginning with the initial applicable tax year. In this case, the last applicable tax year is 2028.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the revenue impact statement describing SB 498 (2023), "The policy purpose of this measure is to alleviate the need for estates with natural resource property to sell assets to pay estate tax, facilitating the passage of property ownership to family members. "

### WHO BENEFITS
Family members of decedents who owned natural resource property at the time of death.

### EVALUATION
Not evaluated.

## 15.004 CHARITABLE BEQUESTS

**Oregon Statute:** 118.010(3)
**Sunset Date:** None
**Year Enacted:** 2011

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $109,000,000 |
| 2025-27 | $109,000,000 |

### DESCRIPTION
An unlimited deduction is allowed for estates that bequeath assets to charitable or religious organizations; federal, state, or local governments; or certain other nonprofit organizations. Such bequests must have been made during the decedent's lifetime or by will.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage contributions to charitable organizations.

### WHO BENEFITS
Beneficiaries of an estate that bequeaths assets to qualifying entities.

### EVALUATION
Not evaluated.

## 15.005 NATURAL RESOURCE AND FISHING PROPERTY (CREDIT)

**Oregon Statute:** 118.140
**Sunset Date:** None
**Year Enacted:** 2007

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Less than $100,000 |
| 2025-27 | Less than $100,000 |

### DESCRIPTION
A credit against estate taxes is allowed for some estates with natural resource or commercial fishing properties located in Oregon. The credit amount is determined by the value of the estate's natural resources property in Oregon. The maximum value of natural resource property on which the credit is calculated is $7.5 million. The maximum adjusted estate value allowed for the credit is $15 million. The natural resource property must comprise at least 50 percent of the total estate value to be eligible. This provision requires the decedent to have owned the property and its use to have been devoted to farm or forest purposes or commercial fishing businesses for five out of eight years immediately preceding the decedent's death. The property must be transferred to or held in trust by a family member under the same classification for five out of eight years immediately following the decedent's death, failing to meet this requirement results in repayment of the credit by the taxpayer in whole or part.

Farm use property, forest use property, and farm or forest homesites qualify as natural resource property. Property used in commercial fishing operations or in the processing and marketing of those operations also qualifies.

The credit amount is calculated as the tax that would have otherwise been due multiplied by the fraction of the natural resource property's value, up to $7.5 million, out of the total value of the adjusted gross estate, up to $15 million, provided that the fraction is at least one half. Zero credit is allowed if the total adjusted gross estate exceeds $15 million.

SB 498 (2023) restricts this credit only to estates that do not claim an exemption under 15.003, Natural Resource and Fishing Property (Deduction).

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff measure summary describing HB 3618 (2008), "the policy goal is to preserve small natural resource based businesses by allowing family owners to pass businesses onto future generations."

### WHO BENEFITS
Family members of decedents who owned natural resource property at the time of death. For the most recent tax year available, 2022, a total of about 60 estate tax returns claimed this credit. The total amount of the credit claimed in this year was $9.3 million.

### EVALUATION
*Provided by the Oregon Department of Agriculture*

The Natural Resource and Fishing Property credit may be crucial in preserving Oregon's natural resource-based businesses, particularly those that are family-owned. By offering relief from estate taxes, this provision may prevent the forced sale or fragmentation of agricultural, forestry, and fishing properties, which are often the primary assets of these businesses. This helps ensure that these properties remain in productive use, supporting the long-term sustainability of Oregon's natural resource economy.

However, the credit's limitations, particularly the $7.5 million cap on eligible property value and the $15 million estate value threshold, may present significant challenges for some families. As land values and the cost of maintaining natural resource businesses have risen, especially in regions with high real estate demand, the credit may not be sufficient to fully mitigate the estate tax burden for larger or more valuable properties. This could force heirs to sell portions of their land or other assets to cover tax liabilities, leading to the fragmentation of the property and potentially disrupting the continuity of the business.

## 15.006 SMALL FOREST OWNER FOREST CONSERVATION (ESTATE TRANSFER TAX)

**Oregon Statute:** 315.124
**Sunset Date:** None
**Year Enacted:** 2022

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Not Available |
| 2025-27 | Not Available |

### DESCRIPTION
A credit for estate taxes is allowed for estates where the decedent held a certification for a credit under 1.429, Small Forest Owner Forest Conservation (Income Tax) for qualifying timber harvests on land owned by the decedent. The qualifications for this credit follow the requirements of the personal income tax credit.

The credit amount that can be used by the estate is any amount of the credit that was certified, but not used to offset personal income taxes. The credit cannot be used in excess of the estate tax liability, but any remaining amount may be used by the heirs or devisees for their use on personal or corporate income taxes.

If the property used to claim this credit is subsequently harvested or otherwise violates the conservation restrictions required to be certified for the credit, then additional tax, interest, and penalties may apply.

The legislation that enacted this tax expenditure specified that any sunset under ORS 315.037 does not apply.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. The legislative staff revenue impact statement for SB 1502 (2022) states “the policy purpose of this credit is to provide small forestland owners with financial encouragement to adopt standard practice harvest restrictions.”

### WHO BENEFITS
Estates of individuals who owned fewer than 5000 acres of forestland in the state and harvest fewer than 2 million board feet annually in accordance with the specific restrictions and avoid harvesting trees within riparian areas.

### EVALUATION
Not evaluated.

## 15.007 SPECIAL VALUATION

**Oregon Statute:** 118.010(3)
**Sunset Date:** None
**Year Enacted:** 2011

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Not Available |
| 2025-27 | Not Available |

### DESCRIPTION
In general, property is valued according to its "highest and best use". If an estate's property is being used for farming purposes or in a trade or business other than farming it may be valued according to its actual use. To qualify, all of the following conditions must be met:

- Fifty percent or more of the value of the estate consists of real or personal property which was being used for farming or business by the decedent or a family member and was passed from the decedent to a family member.
- Twenty five percent or more of the value of the estate consists of real property which was being used for farming or business by the decedent or a family member and was passed from the decedent to a family member.
- For at least five out of the eight years preceding the decedent's death, the real property must have been owned by the decedent or a family member, used for farming or business and there must have been material participation by the decedent or a family member in the operation of the farm or business.

The executor of the estate must elect to use special use valuation on the return, and enter into a written agreement with any person who has an interest in the property consenting to the election. For calendar year 2024, the maximum allowed decrease in the value of qualified real property from electing to use special use valuation is $1,390,000.

Additional tax is imposed if, within 10 years after the decedent's death, the qualified heir disposes of the qualified property or ceases to use it for its qualified use. The qualified heir is personally liable for the additional tax imposed.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to preserve small businesses by allowing family owners to pass businesses onto future generations.

## WHO BENEFITS

Family members of a decedent with a qualifying estate.

## EVALUATION

Not evaluated.

# CHAPTER 16. MARIJUANA TAX

Oregon's marijuana tax is a 17 percent state tax combined with up to a 3 percent local tax, both applied to the retail price at the point of sale. The Department of Revenue collects the state tax and, for cities or counties that have requested it, the local tax.

Oregon voters approved Measure 91 in a statewide general election on November 4, 2014. The measure legalized the production, processing, delivery, possession, and sale of marijuana among adults for recreational purposes. A system for legalized medical marijuana in Oregon had been created previously with the approval of Measure 67 in 1998. The tax structure outlined in Measure 91 would have applied to marijuana producers, but in 2015 the Oregon Legislative Assembly replaced that structure with a tax applied at the point of retail sale.

Sales of recreational marijuana may only be made by recreational retailers licensed by the Oregon Liquor and Cannabis Commission (OLCC). The tax rate of 17 percent (up to 20 percent with a possible local option) has applied since January 2017 or the retailer's first licensed date, whichever was earlier.

Marijuana tax receipts are forecasted to be $313 million for the 2023–25 biennium and $339 million for the 2025–27 biennium.

Net marijuana tax revenue exceeding $11.25 million per quarter (adjusted annually for inflation beginning 2023) is directed to drug treatment and recovery services, according to Measure 110, approved by voters in November 2020. The first $11.25 million in net revenue each quarter ($45 million per year) is distributed by statutory formula to recipients such as the State School Fund, Oregon State Police, Oregon Health Authority, and participating cities and counties. The annual adjustment of the $11.25 million quarterly threshold is due to House Bill 4056 (2022).

# 16.001 MARIJUANA PURCHASED FOR MEDICAL USE

**Oregon Statute:** 475C.678
**Sunset Date:** 12-31-2027
**Year Enacted:** 2016

| Revenue Impact | | | |
|---|---|---|---|
| | State | Local | Total |
| 2023-25 | $16,100,000 | $2,800,000 | $18,900,000 |
| 2025-27 | $16,300,000 | $2,900,000 | $19,200,000 |

## DESCRIPTION

Retail sales of usable marijuana or marijuana items are not subject to the marijuana tax when made to people who hold a valid medical marijuana patient or caregiver card issued by the Oregon Health Authority. This tax exemption applies to both state and local marijuana taxes. Although the law exempting medical marijuana only became effective in 2016, medical marijuana was not taxed before that time either. The introduction of taxed recreational marijuana sales in 2016 led to an opportunity to distinguish between taxed and untaxed marijuana sales.

Legislation in 2021 (HB 2433) specified that this provision applies to sales of marijuana items occurring on or after January 1, 2016, and before January 1, 2028.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the revenue impact statement prepared by legislative staff for HB 2433 (2021), the "policy purpose of this exemption is to preserve access to medical marijuana in a similar manner as it was available prior to the legalization of recreational marijuana."

## WHO BENEFITS

Medical marijuana cardholders who make retail purchases of usable marijuana or marijuana items and who have been authorized by the Oregon Health Authority to use marijuana in the treatment of a debilitating medical condition. Close to 15,000 people held a medical marijuana patient card as of May 2024, and nearly 6,000 people held a caregiver card.

## IN LIEU

Medical marijuana cardholders must pay an annual fee for a medical marijuana card. Card fees for patients total approximately $1.5 million annually. Approximately 38 percent of patients pay full price for the annual fee.

## EVALUATION

*Provided by the Oregon Health Authority*

Registered medical marijuana patients pay an annual registration fee of $200 or a reduced fee, between $20-$60, depending on their qualifying status. The fees paid by the patient support the administration of the medical marijuana program which includes registration of patients and regulatory oversight of medical marijuana grow sites and facilities. The patient fees supplant the need for a tax on medical marijuana products sold at retail locations since the fees pay for the administration of the program. The tax exemption from sales of medical marijuana to registered patients would alleviate the financial burden on patients with a medical necessity who already pay a fee to access medical marijuana.

# CHAPTER 17. VEHICLE USE TAX

The vehicle use tax was created in 2017 by the Oregon Legislative Assembly (HB 2017) and imposed beginning January 1, 2018. It imposes a tax on vehicle purchasers who intend to use a motor vehicle in Oregon. The tax is 0.5 percent of the retail price of certain vehicles purchased. In general, vehicles covered by the tax are those never before registered in Oregon and with 7,500 or fewer miles on their odometer (if they have one). The tax does not apply to vehicles with a gross vehicle weight rating over 26,000 pounds.

Vehicles potentially subject to the tax include passenger vehicles, motorcycles, campers, buses, trucks, trailers (if required to be registered in Oregon), and commercial motor vehicles. The use tax is reduced by amounts paid for the Vehicle Privilege Tax on page 381.

Gross receipts are forecasted by the Oregon Department of Transportation to be $22.7 million and $24.4 million for the 2023–25 and 2025–27 biennia, respectively. Net revenue from the vehicle use tax is distributed to the State Highway Fund.

# 17.001 CERTAIN VEHICLE MODIFICATIONS (VEHICLE USE TAX)

**Oregon Statute:** 320.400(2)(b)
**Sunset Date:** None
**Year Enacted:** 2018

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | Not Available |
| 2025-27 | Not Available |

## DESCRIPTION

This provision states the retail value of the following modifications are not included in the retail sales price used in calculation, under ORS 320.410(2), of the tax on the storage, use, or other consumption in Oregon of motor vehicles purchased at retail:

- Modifications to a taxable vehicle that are necessary for a person with a disability to enter or drive or to otherwise operate or use the vehicle.
- Customized industrial modifications to the chassis of a taxable vehicle (typically a medium-duty truck) that has a gross vehicle weight rating (GVWR) of at least 10,000 pounds and not more than 26,000 pounds.

The legislative intent of the vehicle use tax was not to include the retail value of these modifications in the definition of "retail sale price" of which the tax is based. Presumably, it was simpler to make a general definition of retail sales price and then state what it does not include.

Legislation in 2019 (HB 2592) removed any sunset under ORS 315.037 for all tax expenditures related to the transportation project taxes enacted in 2017.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to not include the retail value of these modifications in the retail sales prices used in calculation of the tax on the storage, use, or other consumption in Oregon of motor vehicles purchased at retail.

## WHO BENEFITS

Persons who purchase a taxable vehicle with adaptive modifications and businesses who purchase taxable vehicles with customized industrial modifications.

## EVALUATION

Not evaluated.

# 17.002 VEHICLES PURCHASED BY THE FEDERAL GOVERNMENT OR TRIBES

**Federal Constitution:** U.S. Constitution, Article VI, Clause 2
**Sunset Date:** None
**Year Enacted:** 2017 (tax enacted)

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $200,000 |
| 2025-27 | $200,000 |

## DESCRIPTION

The State of Oregon is prohibited by the U.S. Constitution from taxing the federal government or tribal governments. Oregon cannot require the federal government or tribal governments to pay the vehicle use tax.

## PURPOSE
To comply with federal law.

## WHO BENEFITS
The federal government and tribal governments.

## EVALUATION
*Provided by the Department of Revenue*

This tax expenditure achieves its purpose of compliance with federal law.

# CHAPTER 18. VEHICLE PRIVILEGE TAX

The vehicle privilege tax was created in 2017 by the Oregon Legislative Assembly (HB 2017) and imposed beginning January 1, 2018. It imposes a tax on motor vehicle dealers for the privilege of selling vehicles in Oregon, where a dealer is defined as someone who is or would be required to obtain a vehicle dealer certificate in Oregon. The tax is 0.5 percent of the retail price of certain vehicles sold. In general, vehicles covered by the tax are those never before registered in Oregon and with 7,500 or fewer miles on their odometer (if they have one). The tax does not apply to vehicles with a gross vehicle weight rating over 26,000 pounds, nor to those with a resale certificate.

Vehicles potentially subject to the tax include passenger vehicles, motorcycles, campers, buses, trucks, trailers (if required to be registered in Oregon), and commercial motor vehicles. If the privilege tax is not paid for a vehicle intended to be used in Oregon, the Vehicle Use Tax on page 377 applies.

Gross receipts of the vehicle privilege tax are forecasted by the Oregon Department of Transportation to be $78.8 million and $83.6 million for the 2023–25 and 2025–27 biennia, respectively. Net revenue from the vehicle privilege tax is distributed to the Zero-Emission Incentive Fund and to the Connect Oregon Fund. Effective January 1, 2023, the greater of $12 million per year or 45 percent of annual gross tax receipts is transferred to the Zero-Emission Incentive Fund and remaining revenue is transferred to the Connect Oregon Fund.

# 18.001 CERTAIN VEHICLE MODIFICATIONS (VEHICLE PRIVILEGE TAX)

**Oregon Statute:** 320.400(2)(b)
**Sunset Date:** None
**Year Enacted:** 2018

| Revenue Impact | |
|---|---|
| | **Total** |

| 2025-27 | Not Available |

## DESCRIPTION

This provision states the retail value of the following modifications are not included in the retail sales price used in calculation under ORS 320.405(2) of the tax imposed on each vehicle dealer for the privilege of engaging in the business selling taxable motor vehicles at retail in Oregon:

- Modifications to a taxable vehicle that are necessary for a person with a disability to enter or drive or to otherwise operate or use the vehicle.
- Customized industrial modifications to the chassis of a taxable vehicle (typically a medium-duty truck) that has a gross vehicle weight rating (GVWR) of at least 10,000 pounds and not more than 26,000 pounds.

The legislative intent of the vehicle privilege tax was not to include the retail value of these modifications in the definition of "retail sales price" of which the tax is based. Presumably, it was simpler to make a general definition of retail sales price and then state what it does not include.

Legislation in 2019 (HB 2592) removed any sunset under ORS 315.037 for all tax expenditures related to the transportation project taxes enacted in 2017.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to not include the retail value of these modifications in the retail sales prices used in calculation of the tax imposed on each vehicle dealer for the privilege of engaging in the business selling taxable motor vehicles at retail in Oregon.

## WHO BENEFITS

Persons who purchase a taxable vehicle with adaptive modifications and businesses who purchase taxable vehicles with customized industrial modifications.

## EVALUATION

Not evaluated.

# 18.002 VEHICLES SOLD AT AUCTION

**Oregon Statute:** 320.425(2)
**Sunset Date:** None
**Year Enacted:** 2017

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $100,000 |
| 2025-27 | $100,000 |

## DESCRIPTION

A seller of otherwise taxable motor vehicles is not liable for the vehicle privilege tax with respect to vehicles sold at an event that lasts less than seven consecutive days, for which the public is charged admission and at which otherwise taxable motor vehicles are sold at auction.

Legislation in 2019 (HB 2592) removed any sunset under ORS 315.037 for all tax expenditures related to the transportation project taxes enacted in 2017.

### PURPOSE

The statute that allows this tax expenditure does not explicitly state a purpose. Presumably, the purpose is to not tax vehicles sold at auction the same as vehicles sold at retail.

### WHO BENEFITS

Dealers selling taxable motor vehicles at auctions. Presumably, examples of vehicles sold at auction could include collector/classic vehicles, repossessed vehicles, and damaged vehicles that have never been registered in Oregon.

### EVALUATION

Not evaluated.

## 18.003 VEHICLES SOLD FOR OUT OF STATE USE

**Oregon Statute:** 320.425(1)
**Sunset Date:** None
**Year Enacted:** 2017

| Revenue Impact | |
|---|---|
| | **Total** |
| 2023-25 | $12,700,000 |
| 2025-27 | $14,300,000 |

### DESCRIPTION

A seller of otherwise taxable motor vehicles is not liable for the vehicle privilege tax for vehicles sold to non-Oregon residents. Sales of otherwise taxable motor vehicles to a business for use primarily outside of Oregon are also exempt.

Legislation in 2019 (HB 2592) removed any sunset under ORS 315.037 for all tax expenditures related to the transportation project taxes enacted in 2017.

### PURPOSE

The statute that allows this tax expenditure does not explicitly state a purpose. Presumably, the purpose is to not disadvantage Oregon dealers selling taxable motor vehicles to non-residents or businesses located out-of-state.

### WHO BENEFITS

Dealers selling taxable motor vehicles for out-of-state use. On average, 250 dealers each quarter since the tax program's inception reported selling vehicles to nonresidents and 50 dealers per quarter reported selling vehicles to a business for use primarily outside of Oregon.

### EVALUATION

*Provided by the Oregon Department of Transportation*

This tax expenditure appears to be successful. Similar to out-of-state dealers selling to Oregon residents, Oregon dealers would likely want to sell a vehicle at the most competitive total cost, and not assessing the Privilege Tax would reduce this total cost. The purchaser would then report the sale to their home jurisdiction and the appropriate tax would get paid at that time.

# APPENDIX A: OREGON STATUTE REQUIRING TAX EXPENDITURE REPORT

Oregon Laws 1995, Chapter 746, known as the Budget Accountability Act, established the requirement for the Tax Expenditure Report. That law was incorporated into the Oregon Revised Statutes, and subsequently modified. Below is the 2023 edition of the ORS requiring the Tax Expenditure Report.

**291.190 Short title.** ORS 291.195, 291.201 and 291.203 may be cited as the Budget Accountability Act.

**291.195 Policy for financial expenditure planning.** (1) The Legislative Assembly hereby declares that the ability to make fiscally sound and effective spending decisions has been enhanced by requiring agencies and programs to develop performance measures and to evaluate all General Fund, State Lottery Fund and other expenditures in accordance with these performance measures. Fiscal pressure on this state requires even greater accountability and necessitates a review of the fairness and efficiency of all tax deductions, tax exclusions, tax subtractions, tax exemptions, tax deferrals, preferential tax rates and tax credits. These types of tax expenditures are similar to direct government expenditures because they provide special benefits to favored individuals or businesses, and thus result in higher tax rates for all individuals.

(2) The Legislative Assembly further finds that 76 percent of property in this state is exempt from property taxation and that income tax expenditures total billions of dollars per biennium. An accurate and accountable state budget should reflect the true costs of tax expenditures and should fund only those tax expenditures that are effective and efficient uses of limited tax dollars.

(3) The Legislative Assembly declares that it is in the best interest of this state to have prepared a biennial report of tax expenditures that will allow the public and policy makers to identify and analyze tax expenditures and to periodically make criteria-based decisions on whether the expenditures should be continued. The tax expenditure report will allow tax expenditures to be debated in conjunction with online budgets and will result in the elimination of inefficient and inappropriate tax expenditures, resulting in greater accountability by state government and a lowering of the tax burden on all taxpayers.

**291.201 "Tax expenditure" defined for ORS 291.201 to 291.222.** As used in ORS 291.201 to 291.222, "tax expenditure" means any law of the federal government or this state that exempts, in whole or in part, certain persons, income, goods, services or property from the impact of established taxes, including but not limited to tax deductions, tax exclusions, tax subtractions, tax exemptions, tax deferrals, preferential tax rates and tax credits.

**291.202 Budget and tax expenditure report of Governor; department to assist in preparation.** (1) Except as otherwise provided in ORS 291.222, the Governor shall prepare in each even-numbered year for the biennium beginning July 1 of the following year:

(a) A Governor's budget; and

(b) A tax expenditure report.

(2) The Oregon Department of Administrative Services shall advise and assist the Governor in the preparation of the Governor's budget and the tax expenditure report and shall perform any duties connected to the budget or report as the Governor requires.

(3) The Department of Revenue shall advise and assist the Governor in the preparation of the tax expenditure report.

**291.203 Tax expenditure report by Governor.** (1) Not later than November 10 of each even-numbered year, the Governor shall cause the tax expenditure report to be compiled and prepared for printing.

(2) In the tax expenditure report, the Governor shall:

(a) List each tax expenditure;

(b) Identify the statutory authority for each tax expenditure;

(c) Describe the purpose of each tax expenditure;

(d) Estimate the amount of revenue loss caused by each tax expenditure for the coming biennium;

(e) List the actual amount of revenue loss in the preceding biennium for each tax expenditure or an estimate if the actual amount cannot be determined;

(f) Determine whether each tax expenditure has successfully achieved the purpose for which the tax expenditure was enacted and currently serves, including an analysis of the persons that are benefited by the expenditure; and

(g) Categorize each tax expenditure according to the programs or functions each tax expenditure supports.

**291.214 Governor to prepare recommendations regarding certain tax expenditures.** (1) The Governor, during the preparation of the Governor's budget and before its submission to the Legislative Assembly, shall identify each tax expenditure that has a full or partial sunset that, if allowed to take effect, will have a fiscal impact on the state or on school districts for the next biennium, and shall prepare a recommendation as to each tax expenditure identified under this paragraph that indicates the Governor's opinion on whether the full or partial sunset of the tax expenditure should be allowed to take effect as scheduled or should be revised to a different date.

(2) As used in this section:

(a) "Full sunset" means any provision that completely eliminates an existing tax expenditure on a specified date.

(b) "Partial sunset" means any provision that reduces the amount of an existing tax expenditure or that alters the eligibility requirements for the expenditure as of a specified date.

**291.216 Governor's budget; when due; content.** (1) The Governor's budget shall include a budget message prepared by the Governor, including recommendations of the Governor with reference to the fiscal policy of the state government for the coming biennium, describing the important features of the budget, embracing a general budget summary setting forth the aggregate figures of the budget so as to show a balanced relation between the total proposed expenditures and the total anticipated income, with the basis and factors on which the estimates are made, the amount to be borrowed, and other means of financing the estimated expenditures for the ensuing biennium, compared with the corresponding figures for at least the last completed biennium and the current biennium.

(2) The Governor's budget shall be supported by explanatory schedules or statements, classifying the expenditures reported in the budget, both past and proposed, by organization units, objects and funds, and the income by organization units, sources and funds, and the proposed amount of new borrowing as well as proposed new tax or revenue sources, including a single comprehensive list of all proposed increases in fees, licenses and assessments assumed in the budget.

(3) The Governor's budget shall be submitted for all dedicated funds, as well as the state General Fund, and shall include the estimated amounts of federal and other aids or grants to state agencies or activities provided for any purpose whatever, together with estimated expenditures therefrom.

(4) The Governor's budget shall embrace the detailed estimates of expenditures and revenues. It shall include:

(a) Statements of the bonded indebtedness of the state government, showing the actual amount of the debt service for at least the past biennium, and the estimated amount for the current biennium and the ensuing biennium, the debt authorized and unissued, the condition of the sinking funds and the borrowing capacity.

(b) The Governor's recommendations concerning tax expenditures identified under ORS 291.214.

(c) Any statements relative to the financial plan which the Governor may consider desirable or which may be required by the Legislative Assembly.

(5) The Governor's budget shall use the estimated revenues under ORS 291.342 for the fiscal year in which the budget is submitted as the basis for total anticipated income under subsection (1) of this section, subject to adjustment as may be necessary to reflect accurately projections for the next biennium.

(6)(a) The Governor's budget shall present information regarding the expenses of the state in the following categories:

(A) Personnel expenses, including compensation and benefits for state employees, but excluding costs of services contracted out and temporary service costs.

(B) Supplies, equipment and the costs of services contracted out.

(C) Special payments.

(D) Capital construction.

(E) Capital outlay.

(F) Debt service.

(b) For each category described in paragraph (a) of this subsection, the budget shall show actual expenditures for the prior biennium and estimated expenditures for the current biennium.

(c) As supplemental information to the budget, the Governor shall include an estimate of the projected costs of continuing currently authorized programs in the next biennium. The estimate shall include, but is not limited to the projected costs of:

(A) Removing one-time expenditures;

(B) Program phase-ins and phase-outs;

(C) Personnel expenses compared to existing compensation plan agreements, including position vacancy experience calculations;

(D) Inflation for services, supplies and medical costs;

(E) Transfers between state funds or accounts;

(F) Mandated caseload changes; and

(G) Debt service for previously issued debt.

(d) The budget shall show the total increase in the cost of salaries and benefits for all state positions.

(7) The Governor's budget shall include:

(a) The total number of positions and full-time equivalent positions included in the budget.

(b) The average vacancy rate in the present biennium.

(c) The number of permanent, full-time equivalent vacancies as of July 1 of even-numbered years.

(8) The Governor's budget shall include computations showing budget figures as a percentage of the total General Fund, federal fund, fee or other source category, as may be appropriate.

(9) The Governor's budget shall include, in a format that provides side-by-side comparison with the State Debt Policy Advisory Commission report of net debt capacity, a six-year forecast, by debt type and repayment source, of:

(a) That portion of the capital construction program required to be reported by ORS 291.224 that will be financed by debt issuance.

(b) The acquisition of equipment or technology in excess of $500,000 that will be financed by debt issuance.

(c) Other state agency debt issuance for grant or loan purposes.

(10) The Governor's budget shall include the outcomes-based budgeting information required by ORS 291.217 (2) and (3).

(11) The Governor's budget shall include recommendations regarding available funds that could be used to make lump sum payments to the Public Employees Retirement System under ORS 238.229.

(12) The Governor's budget shall include a narrative summarizing the racial impact statements required under ORS 291.206.

**291.218 Printing Governor's budget and tax expenditure report; transmitting to members of legislature; distribution.** Except when the Governor under whose supervision the Governor's budget and the tax expenditure report have been prepared will be succeeded in office in January next following:

(1) The Oregon Department of Administrative Services shall have as many copies of the Governor's budget and the tax expenditure report printed as the Governor directs.

(2) Not later than December 1 of each even-numbered year, the Governor shall transmit a copy of the Governor's budget and the tax expenditure report to each member of the Legislative Assembly who is to serve during the next regular session of the Legislative Assembly.

(3) Upon request, the Governor shall distribute copies of the Governor's budget and the tax expenditure report free of charge to public libraries, schools and state officials. The Governor shall make copies available to the general public at a reasonable charge for each copy.

**291.220 Furnishing information and assistance to legislature.** (1) The Governor, upon request, shall furnish the Legislative Assembly any further information required concerning the Governor's budget and the tax expenditure report.

(2) The Oregon Department of Administrative Services, upon request, shall furnish a representative to assist the Legislative Assembly, the Joint Committee on Ways and Means and the Legislative Revenue Officer in the consideration of the budget, the tax expenditure report and any accompanying measures.

**291.222 Furnishing information and assistance to Governor-elect; revision of budget and tax expenditure report.** If the Governor under whose supervision the Governor's budget and tax expenditure report have been prepared will be succeeded in office in January next following:

(1) The Oregon Department of Administrative Services shall make available to the Governor-elect so much as the Governor-elect requests of the information upon which the Governor's budget and tax expenditure report are based, and upon completion of the budget and tax expenditure report, shall supply the Governor-elect with a copy of the budget and report, but may not print or distribute the budget or report. The department shall also make available to the Governor-elect all facilities of the department reasonably necessary to permit the Governor-elect to review and become familiar with the budget or tax expenditure report.

(2) After a review of the Governor's budget and tax expenditure report, the Governor-elect may prepare revisions and additions to the budget or report. The Oregon Department of Administrative Services and the Department of Revenue shall assist, upon request, in the preparation of any revisions or additions.

(3) The Oregon Department of Administrative Services shall have printed as many copies of the revised Governor's budget and revised tax expenditure report as the Governor-elect requests.

(4) Not later than February 1 of each odd-numbered year, the Oregon Department of Administrative Services shall transmit a copy of the revised Governor's budget and revised tax expenditure report to each member of the Legislative Assembly.

(5) Upon request, the department shall distribute copies of the revised Governor's budget and revised tax expenditure report free of charge, under any rules the department may adopt, to public libraries, schools and state officials. The department shall make copies of the revised budget and revised tax expenditure report available to the general public at a reasonable charge for each copy.

# APPENDIX B: CONTRIBUTORS

The report was developed by the following members of the Department of Revenue Research Section, with assistance from numerous Department of Revenue and other state agency personnel:

# APPENDIX C: NEW, MODIFIED, OR REMOVED TAX EXPENDITURES

This appendix contains a list of tax expenditures that have been created, modified, or removed since the publication of the *2023-25 Tax Expenditure Report*. Although many of the tax expenditures reflected here were created or changed during Oregon's 2023 or 2024 Legislative sessions, several are on this list because the Department has changed its interpretation of whether certain provisions represent tax expenditures or because they were included or excluded from the previous publication in error. The *2023-25 Tax Expenditure Report* provides descriptions of the removed items listed below.

The listing of modified tax expenditures below does not include modifications of tax expenditures that resulted from changes in federal law for income taxes that impact Oregon's income taxes.

| | Tax Expenditure | Type | Oregon Legislation Creating or Modifying Tax Expenditure |
|---|---|---|---|
| **NEW TAX EXPENDITURES** | | | |
| *Personal & Corporate Income Taxes* | | | |
| 1.054 | Deferral of Certain Advance Payments | Exclusion | ORS 316.048 & 317.013 |
| 1.317 | Personal Casualty Loss | Subtraction | HB 2812 (2023) |
| 1.318 | Wildfire Judgment or Settlement and Legal Fees | Subtraction | SB 1520 (2024) |
| 1.412 | Oregon Kids Credit | Credit | HB 3235 (2023) |
| 1.426 | Qualified Research Expenses for Semiconductor Companies | Credit | HB 2009 (2023) |
| 1.427 | Publicly Supported Housing Seller's Credit | Credit | HB 2071 (2023) & SB 1526 (2024) |
| *Property Tax* | | | |
| 2.031 | New ADU or Newly Converted Multiplex | Full | SB 919 (2023) |
| 2.084 | Solar Improvement on Tribal Land | Full | SB 1526 (2024) |
| 2.115 | Affordable Housing Projects Receiving Grant | Partial | SB 1537 (2024) |
| 2.128 | Homes Rebuilt After 2020 Wildfires | Special | SB 1545 (2024) |
| *Emergency and Crisis Services Taxes* | | | |
| 8.002 | Oregon Telephone Assistance Program | Exclusion | HB 2757 (2023) |
| *Corporate Activity Tax* | | | |
| 9.003 | Precious Metals | Exclusion | HB 2073 (2023) |
| *Estate Transfer Tax* | | | |
| 15.001 | Conservation Easement | Exclusion | ORS 118.010(3) |
| 15.002 | Marital Deduction | Deduction | ORS 118.010(3) |
| 15.003 | Natural Resource and Fishing Property (Deduction) | Deduction | SB 498 (2023) |
| 15.004 | Charitable Bequests | Deduction | ORS 118.010(3) |
| 15.007 | Special Valuation | Other | ORS 118.010(3) |

| | Tax Expenditure | Type | Oregon Legislation Creating or Modifying Tax Expenditure |

# APPENDIX D: PERSONAL AND CORPORATE INCOME TAX EXPENDITURES

Of Oregon's 167 income tax expenditures, some apply exclusively to individuals, some apply exclusively to corporations, and some may be claimed by both individuals and corporations. The table below provides a summary of the income tax expenditures and their revenue impacts, and categorizes them by whether they apply exclusively to personal income taxes, exclusively to corporate income taxes, or to both.

**INCOME TAX EXPENDITURE ESTIMATES BY TYPE OF TAXPAYER FOR 2025-27 ($MILLIONS)**

| | Individuals Only | | Corporations Only | | Both Individuals and Corporations | | |
|---|---|---|---|---|---|---|---|
| Expenditure Type | Number | Revenue Impact* | Number | Revenue Impact* | Number | Revenue Impact* (Individuals) | Revenue Impact* (Corporations) |
| Exclusions | 40 | $9,012 | 3 | $48 | 11 | $278 | $130 |
| Adjustments | 7 | $520 | 0 | $0 | 0 | $0 | $0 |
| Deductions | 6 | $1,983 | 2 | $110 | 15 | $622 | $81 |
| Subtractions | 22 | $3,333 | 1 | $3 | 7 | $2 | $19 |
| Credits | 15 | $1,489 | 2 | $1 | 28 | $73 | $82 |
| Other | 4 | $266 | 2 | $1 | 2 | $5 | $0 |

*For reasons explained in Revenue Impacts on page 3, there are difficulties with summing tax expenditures. This table is intended only to provide rough orders of magnitudes for large groups of tax expenditures and caution should be exercised when adding revenue impacts.

The table on the following pages lists all income tax expenditures and their revenue impacts, categorized into those that apply to personal income taxes and those that apply to corporate income taxes.

## PERSONAL INCOME TAX EXPENDITURES

| | Tax Expenditure | Program or Function | Year Enacted | Oregon Statute | Revenue Impact ($ Thousands) 2023-25 | 2025-27 |
|---|---|---|---|---|---|---|
| *Federal Exclusions* | | | | | | |
| 1.001 | Scholarship and Fellowship Income | Education | 1954 | 316.048 | 34,000 | 38,000 |
| 1.002 | Qualified Education Savings (Federal) | Education | 1996 | 316.048 | 41,000 | 43,000 |
| 1.003 | Exclusion of Employer-Provided Tuition Reduction | Education | 1984 | 316.048 | 2,000 | 2,500 |
| 1.004 | Certain Foster Care Payments | Human Services | 1982 | 316.048 | 4,000 | 4,000 |
| 1.005 | Employee Adoption Benefits | Human Services | 1996 | 316.048 | Less than 500 | Less than 500 |
| 1.006 | Compensatory Damages | Human Services | 1918 | 316.048 | 16,000 | 15,000 |
| 1.007 | Employer Paid Medical and Cafeteria Plan Benefits | Human Services | 1918 and 1978 | 316.048 | 1,800,000 | 1,800,000 |
| 1.008 | Pension Contributions and Earnings | Human Services | 1921 | 316.048 | 3,100,000 | 3,900,000 |
| 1.009 | Social Security Benefits (Federal) | Human Services | 1938 | 316.048 | 898,000 | 972,000 |

Commonwealth of Pennsylvania

Governor's Executive Budget

# TAX EXPENDITURES

Tax credits, deductions, exemptions, and exclusions provided by law result in a significant reduction in revenues that would otherwise be received at current tax rates. These reductions are referred to as tax expenditures. Proposed changes to current law tax expenditures are shown in Section C.

6215/8585

# Tax Expenditure Analysis

The 2026-27 Governor's Executive Budget presents a summary of the Department of Revenue's 2026-27 Tax Expenditure Analysis. This more detailed document, published concurrently with the Governor's Executive Budget, contains the details required by Article VI of the Administrative Code of 1929.

The traditional budget process involves estimating Commonwealth revenues and appropriating these funds for numerous programs. This process undergoes intense scrutiny from interests inside and outside government. Constrained by available revenues, programs are initiated, expanded, limited, or deleted based on merit. To augment the traditional budget process, this budget summarizes an analysis of indirect expenditures that occur through special treatment within the tax structure. Various tax credits, deductions, exemptions, and exclusions are provided, resulting in reductions in revenue that would otherwise be received by the Commonwealth at current tax rates. Cumulatively, these are referred to in this budget as "tax expenditures."

The Commonwealth's tax structure contains many tax expenditures, ranging from the sales and use tax exemption for firewood to the S corporation exemption in the corporate net income tax. In general, they confer special treatment on specific taxpayers, activities, or goods and services. The tax expenditures listed in this budget result from the accumulation of many prior legislative sessions, and the original intent of certain tax expenditures may no longer align with current policies. A comprehensive tax expenditure analysis permits an on-going evaluation of each tax expenditure.

Act 180 of 1992 revised the tax expenditure analysis requirements. This act stipulated that tax expenditure data be revised and updated every two years. Consistent with this provision, tax expenditures summarized in this and subsequent budget documents will be updated and revised biennially. Exceptions include tax expenditures initiated, deleted, or amended by statute, expenditures where improved data allow significant revisions, or items of significant policy interest.

For the purposes of this document, a "tax expenditure" is defined as a reduction in revenue that would otherwise be collected by the Commonwealth due to an exemption, reduction, deduction, limitation, exclusion, tax deferral, discount, refund, commission, credit, special rate, or special treatment. This definition provides a general framework for determining whether to classify certain items as tax expenditures. To facilitate this classification process, six specific criteria have been adopted to augment the general definition of a tax expenditure:

(1) Reduces state revenues,
(2) Confers special treatment,
(3) Is included in the defined tax base,
(4) Is not subjected to equivalent alternative taxation,
(5) Can be altered by a change in state law, and
(6) Is not an appropriation.

There are three primary limitations on tax expenditure estimates. First, estimated revenue foregone due to a tax expenditure should not be construed as the revenue that could be gained if the tax expenditure provision were rescinded in legislation. The impact of any particular piece of legislation will vary depending on how the bill is drafted, how its terms are defined, when it becomes effective, and how it relates to other parts of the tax law. In contrast, tax expenditure estimates are often based on concepts defined by the way that government statistics on the subject are made available to the department. Furthermore, no attempt has been made to account for changes in taxpayer behavior that may occur because of tax law changes. For example, if the sales and use tax exemptions were rescinded for equipment and utilities directly used in manufacturing, it is possible that capital investment in manufacturing would be reduced and that these sales and use tax receipts would be less than the tax expenditure estimate.

A second limitation is that individual estimates are not additive. It is not always possible to estimate each tax expenditure with regard to interactions with other provisions of that tax or other taxes. For example, certain exempt items qualify under multiple tax expenditures. If gasoline were to be included in the sales and use tax base, agricultural, political subdivision, and manufacturing/processing use would continue to be exempt under other provisions. Therefore, no bottom line can be presented similar to that shown for total revenues or expenditures in the current Governor's Executive Budget.

Third, these estimates are, in many cases, necessarily derived from data completely independent of taxpayer returns. Minor differences in data collection techniques among the various data sources used could introduce a small element of error into the estimates. These estimates are intended to represent the magnitude of each tax expenditure, not to provide pinpoint accuracy.

All estimates appear in millions of dollars. The word "nominal" is used when the estimated impact is less than $100,000. Estimates of revenue loss or beneficiary count and description that are not available are represented by "N/A."

# Expenditure Introduction

**ADMINISTRATIVE COSTS:**

Costs incurred to administer the multiple tax expenditures cannot be separately identified. Tax expenditures are a significant factor associated with the need for more compliance audits and the increased complexity of compliance audits. These audits contribute significantly to the volume of appeals processed by the Department of Revenue.

**ADMINISTRATIVE COST ESTIMATES:**

(Dollar Amounts in Millions)

| General Fund | 2024-25 | 2025-26 | 2026-27 | 2027-28 | 2028-29 | 2029-30 | 2030-31 |
|---|---|---|---|---|---|---|---|
| Corporate Taxes | $ 8.1 | $ 8.4 | $ 8.6 | $ 8.9 | $ 9.1 | $ 9.4 | $ 9.7 |
| Consumption Taxes | 15.6 | 15.8 | 16.0 | 16.3 | 16.5 | 16.8 | 17.0 |
| Other Taxes | 1.7 | 1.8 | 1.8 | 1.9 | 1.9 | 2.0 | 2.1 |

| Motor License Fund | 2024-25 | 2025-26 | 2026-27 | 2027-28 | 2028-29 | 2029-30 | 2030-31 |
|---|---|---|---|---|---|---|---|
| Oil Company Franchise Tax | $ 0.4 | $ 0.4 | $ 0.4 | $ 0.4 | $ 0.4 | $ 0.4 | $ 0.4 |
| Motor Carriers Road Tax/IFTA | 1.4 | 1.4 | 1.5 | 1.5 | 1.5 | 1.5 | 1.6 |
| Motor Vehicle Code | 0.1 | 0.1 | 0.1 | 0.1 | 0.1 | 0.1 | 0.1 |

Administrative costs for the following special funds are nominal: Public Transportation Assistance Fund, Unemployment Compensation Insurance Tax, and State Gaming Fund.

**Corporate Taxes included in figures above:**

Corporate net income tax, gross receipts tax, public utility realty tax, insurance premiums tax, and bank and trust company shares.

**Consumption taxes included in figures above:**

Sales and use tax and cigarette tax.

**Other taxes included in figures above:**

Personal income tax, inheritance tax, realty transfer tax, and table game taxes.

**BENEFICIARIES:**

Information provided under the “Beneficiaries” headings represents an actual or estimated number and description of Pennsylvania residents, households, or businesses benefiting from that specific tax expenditure. An unreported number of non-Pennsylvania entities may also benefit from the tax expenditure.

# Tax Credit Programs

## Introduction

**GENERAL INFORMATION:** Tax credit programs incentivize the growth and development of certain industries and activities within the Commonwealth. Eligible taxpayers and tax types vary by credit, along with timelines for usage, and rules for sale, assignment, or pass through.

**BENEFICIARIES:** Estimates of numbers of businesses, individuals, and other entities benefiting from various tax credits are approximate.

**ADMINISTRATIVE COSTS:** Administrative costs are borne by multiple departments, depending on the particular program. Costs for 2024-25 are estimated at $3.3 million.

**AUTHORIZING LEGISLATION:** Most of the tax credit programs are authorized in two codes:

- Tax Reform Code of 1971 (P.L. 6, No. 2), as amended (TRC).
- Public School Code of 1949 (P.L. 30, No. 14), as amended (PSC).

The remaining programs have their specific legislation noted.

[a] This budget proposes to reallocate caps within the Education Improvement tax credit to provide more tax credits to Educational Improvement Organizations. The overall cap for the EITC program is proposed to remain unchanged.

[b] Tax credit expenditure amounts are shown at current law levels. Changes affecting these credits are proposed. Details are shown in Section C.

| | Beneficiaries | | | |
|---|---|---|---|---|
| | COMPANIES | INDIVIDUALS | ORGANIZATIONS | OTHER |
| Neighborhood Assistance | 310 | 280 | - | - |
| New Jobs | 25 | - | - | - |
| Research and Development | 1,000 | - | - | - |
| Keystone Opportunity Zones | 480 | - | - | - |
| Educational Improvement | 1,400 | 10,800 | 1,370 | - |

# Acknowledgements

The *2024 Tax Expenditures Report* was prepared at the request of Matthew McCabe, Chief of the Office of Revenue Analysis, in accordance with Rhode Island General Laws Chapter 44-48.1. Bethany Scanlon, Principal Economic and Policy Analyst, and Stephanie Hume, Senior Economic and Policy Analyst, in the Office of Revenue Analysis were the project leaders for the production and writing of this report, under the guidance of Mr. McCabe. They were assisted by Madiha Zaffou, Deputy Chief; Anoushka Mohnot, Senior Economic and Policy Analyst; and Maddox Godwin, intern, in the Office of Revenue Analysis and by Brian Shreck, Data Analyst III, in the Office of Management and Budget.

Much of the information needed to derive the estimates was provided by the Rhode Island Division of Taxation, under the direction of Neena Sinha Savage, State Tax Administrator. The compilation of the data that was provided to the Office of Revenue Analysis was due to the tremendous efforts of Tracy Wunder, Data Analyst III in the Division of Taxation. Tracy was assisted in this task by Rahul Sarathy, Chief of Tax Analytics & Strategy; Donna Dube, Assistant Tax Section Chief, Forms, Credits & Incentives; Theriza Salib-Iafrate, Assistant Tax Section Chief, Excise & Estate Tax; Susanna Coburn, Chief of Audit & Investigation Services; Carlita Annicelli, Assistant Tax Section Chief, Personal & Corporate Income Tax; and their staffs.

In addition, Maureen McDaniel, DMV Project Manager, in the Division of Motor Vehicles; and her staff was instrumental in the providing specific information pertaining to motor vehicle tax expenditures.

Finally, Bradford Booth, Esq., Head of Legal Services for the Department of Revenue assisted by providing statutory interpretations on several expenditure items.

The Office of Revenue Analysis is appreciative of the efforts made by the Division of Taxation, Division of Motor Vehicles, and Legal Services to provide us with the best information available at the time this report was written.

# I. Executive Summary

Tax expenditures are legal mandates that provide preferential tax treatment to taxpayers that meet the requirements of the mandates. The *2024 Tax Expenditures Report* contains information on 227 tax expenditure items enacted in the Rhode Island General Laws as of January 1, 2023, however not all items were in effect for the years reported. For tax expenditure items that did have reliable data from which to estimate revenue forgone, the estimated total revenue forgone was $2.56 billion in 2020 and $2.83 billion in 2021.

The *2024 Tax Expenditures Report* continues to use the reliability index that was developed in the *2010 Tax Expenditures Report*. The Index of Reliability is shown below:

| Index of Reliability | Interpretation |
|---|---|
| Level One (1) | Estimate is from actual Rhode Island tax return data |
| Level Two (2) | Estimate is extrapolated from Rhode Island source data |
| Level Three (3) | Estimate is from Rhode Island tax simulation model |
| Level Four (4) | Estimate is federal/national data scaled for Rhode Island |
| Level Five (5) | No reliable data exists from which to derive an estimate |

The following table shows the number of tax expenditure items by tax expenditure category, the revenue forgone by tax expenditure category, and the average reliability index level by tax expenditure category for 2020:

**Summary Table by Tax Expenditure Category for 2020**

| Tax Expenditure Category | Number of Items in Each Category | Tax Year 2020 Revenue Forgone[1] | Average Reliability Index Level |
|---|---|---|---|
| Credits | 30 | $ 317,570,864 | 1.1 |
| Deductions | 22 | 252,171,097 | 2.6 |
| Exclusions | 23 | 349,853,590 | 4.0 |
| Exemptions | 106 | 1,575,192,087 | 3.2 |
| Modifications | 27 | 45,831,656 | 1.6 |
| Other Items | 6 | --- | 5.0 |
| Preferential Tax Rates | 2 | 19,503,866 | 3.0 |

[1] Revenue forgone amounts are a mix of fiscal year and tax year periodicities depending on the tax expenditure category in question.

| Summary Table by Tax Expenditure Category for 2020 | | | |
|---|---|---|---|
| **Tax Expenditure Category** | **Number of Items in Each Category** | **Tax Year 2020 Revenue Forgone**[1] | **Average Reliability Index Level** |
| Tax Abatements | 3 | 1,705,798 | 2.3 |
| Tax Deferrals | 2 | 0 | 3.0 |
| **2020 TOTAL** | **221** | **$ 2,561,828,958** | **2.8** |

The tax expenditure category with the highest number of tax expenditure items in 2020 was Exemptions with 106. Exemptions also had the highest number of items for which no reliable data exists from which to estimate revenue forgone with 35 or 33.0% of all Exemptions. Finally, Exemptions are also the tax expenditure category with the largest amount of revenue forgone at $1.57 billion or 61.5% of the estimated total revenue forgone for 2020.

The revenue forgone for each of the tax expenditure items is assigned a reliability index level on a scale of one to five, with one meaning the calculated revenue forgone is the most reliable possible and five meaning that it is not possible to calculate the revenue forgone for the tax expenditure item. A total of 86 or 38.9% of all 2020 tax expenditure items received a reliability index level score of one, while 67 or 30.3% of the 221 tax expenditure items were assigned a reliability index score of five. The remaining 68 tax expenditure items were assigned a reliability index level score of two, three, or four.

The following table shows the number of tax expenditure items by tax expenditure category, the revenue forgone by tax expenditure category, and the average reliability index level by tax expenditure category for 2021:

| Summary Table by Tax Expenditure Category for 2021 | | | |
|---|---|---|---|
| **Tax Expenditure Category** | **Number of Items in Each Category** | **Tax Year 2021 Revenue Forgone**[2] | **Average Reliability Index Level** |
| Credits | 30 | $ 335,988,517 | 1.1 |
| Deductions | 21 | 253,043,503 | 3.4 |
| Exclusions | 24 | 499,296,919 | 3.8 |
| Exemptions | 106 | 1,682,838,721 | 3.2 |
| Modifications | 27 | 45,913,467 | 1.6 |
| Other Items | 6 | --- | 5.0 |
| Preferential Tax Rates | 2 | 14,409,731 | 3.0 |

[2] Revenue forgone amounts are a mix of fiscal year and tax year periodicities depending on the tax expenditure category in question.

| Summary Table by Tax Expenditure Category for 2021 | | | |
|---|---|---|---|
| **Tax Expenditure Category** | **Number of Items in Each Category** | **Tax Year 2021 Revenue Forgone[2]** | **Average Reliability Index Level** |
| Tax Abatements | 3 | 1,950,239 | 2.3 |
| Tax Deferrals | 2 | 0 | 3.0 |
| **2021 TOTAL** | **221** | **$ 2,833,441,097** | **2.9** |

The tax expenditure category with the highest number of tax expenditure items in 2021 was Exemptions with 106. Exemptions also had the highest number of items for which no reliable data exists from which to estimate revenue forgone with 35, or 33.0% of all Exemptions. Finally, Exemptions are also the tax expenditure category with the largest amount of revenue forgone at $1.68 billion or 59.4% of the estimated total revenue forgone for 2021.

A total of 87 or 39.4% of all tax expenditure items in 2021 received a reliability index level score of one, while 72 or 32.6% of the 221 tax expenditure items were assigned a reliability index score of five. The remaining 62 tax expenditure items were assigned a reliability index level score of two, three or four.

The following table shows the number of tax expenditure items grouped by tax type, the revenue forgone grouped by tax type, and the average reliability index level grouped by tax type for 2020:

| Summary Table by Tax Type for 2020 | | | |
|---|---|---|---|
| **Tax Type** | **Number of Items *** | **Tax Year 2020 Revenue Forgone[3]** | **Average Reliability Index Level** |
| Alcoholic Beverage Tax | 4 | $ 271,758 | 3.0 |
| Bank Deposits Tax | 4 | 0 | 2.0 |

| Sales and Use Tax | 87 | 1,449,541,133 | 3.3 |
| Shared Responsibility Payment Penalty Tax | 4 | 1,555,840 | 3.5 |
| **2020 TOTAL** | **292** | **$ 2,561,828,958** | **2.5** |

* The number of items by tax type will exceed the number of items by tax expenditure category due to individual tax expenditure items spanning more than one tax type.

The tax type with the highest number of tax expenditure items in 2020 was the Sales and Use Tax with 87. The tax type with the largest amount of revenue forgone in 2020 was also the Sales and Use Tax at $1.45 billion or 56.6% of the estimated total revenue forgone. Finally, the tax type with the highest number of tax expenditure items for which no reliable data existed was again the Sales and Use Tax at 26 items, or 29.9% of all tax expenditure items in this tax type. Several tax types had the smallest amount of revenue forgone at $0 for tax expenditure items for which revenue forgone could be determined.

The individual tax expenditure with the largest amount of revenue forgone is the sales and use tax exemption for purchases used for manufacturing purposes at nearly $384.5 million or 15% of the estimated total revenue forgone. This tax expenditure item was assigned a reliability index level of two. There were 70 individual tax expenditure items which had the smallest possible revenue forgone of $0 and all were assigned a reliability index level of one.

The following table shows the number of tax expenditure items grouped by tax type, the revenue forgone grouped by tax type, and the average reliability index level grouped by tax type for 2021:

| Summary Table by Tax Type for 2021 | | | |
|---|---|---|---|
| **Tax Type** | **Number of Items *** | **Tax Year 2021 Revenue Forgone[4]** | **Average Reliability Index Level** |
| Alcoholic Beverage Tax | 4 | $ 236,729 | 3.0 |
| Bank Deposits Tax | 4 | 0 | 2.0 |
| Bank Tax | 21 | 19,909,295 | 1.4 |
| Beverage Containers Tax | 2 | 341,851 | 3.5 |
| Business Corporation Tax | 50 | 106,677,554 | 2.8 |
| Cigarettes Tax | 4 | 7,861,163 | 2.3 |
| Estate and Transfer Tax | 3 | 12,201,478 | 2.3 |
| Hotel Tax | 1 | 3,701,787 | 1.0 |
| Ins Co Gross Premiums Tax | 21 | 12,452,328 | 1.5 |
| Motor Carrier Fuel Use Tax | 1 | 4,407,456 | 1.0 |
| Motor Fuel Tax | 3 | 397,608,367 | 1.3 |
| Non-Profit Refund | 1 | 0 | 1.0 |
| Personal Income Tax | 57 | 702,049,978 | 2.0 |
| Public Service Corporation Tax | 22 | 1,406,773 | 2.3 |
| Real Estate Conveyance Tax | 5 | 0 | 4.2 |
| Refund Option | 3 | 4,196,013 | 1.0 |
| Rental Vehicle Surcharge | 1 | 3,510,364 | 1.0 |

| Shared Responsibility Payment Penalty Tax | 4 | 1,228,862 | 3.5 |
| **2021 TOTAL** | **294** | **$ 2,833,441,097** | **2.5** |

* The number of items by tax type will exceed the number of items by tax expenditure category due to individual tax expenditure items spanning more than one tax type.

The tax type with the largest number of 2021 tax expenditure items for which no reliable data existed was the Sales and Use tax at 26 items or 29.9% of all tax expenditure items in this tax type. The tax type with the largest amount of revenue forgone was the Sales and Use Tax at $1.56 billion or 54.9% of the estimated total revenue forgone. Several tax types had the smallest amount of revenue forgone at $0 for tax expenditure items for which revenue forgone could be determined.

[4] Revenue forgone amounts are a mix of fiscal year and tax year periodicities depending on the tax type in question.

The largest amount of calculated revenue forgone for an individual tax expenditure item for 2021 is the sales and use tax exemption for purchases used for manufacturing purposes at nearly $413.2 million or 14.6% of the total calculated revenue forgone. This tax expenditure item was assigned a reliability index level of two.

# II. Foreword

The *2024 Tax Expenditures Report* generally uses data for 2020 as its base year and includes estimates of forgone revenue for 2020 through 2025. The year reference can be either calendar year or fiscal year and is dependent on the tax expenditure item. For example, the tax expenditure amount for the exclusion of the biodiesel portion of a blended gallon of diesel fuel is reported on a fiscal year basis while the tax expenditure amount for the tax credit received for the provision of accommodations under Americans with Disabilities Act is reported on a calendar year basis. The Office of Revenue Analysis (ORA) has tried to make it clear throughout the report when a tax expenditure amount is for a fiscal year versus a calendar year, and when a summary tax expenditure amount is provided by tax expenditure category or by tax type, a note is provided that breaks out the tax expenditure amount by fiscal and calendar year.

Whenever more recent data was available for subsequent years, the latest data was included in the report rather than an estimate. It should be noted that more recent data may have become available for some tax expenditure items during the preparation of this report but is not reflected in this report.

The *2022 Tax Expenditures Report* included information on tax expenditure items for Tax Years 2018 through 2023, with Tax Year 2018 as its base tax year. Technically, the *2024 Tax Expenditures Report* is mandated to provide information on all tax expenditure items in effect on January 1, 2023, as well as an estimate of forgone revenue for 2024 and 2025. For a complete and more accurate picture for 2020 through 2021 forgone revenue to be provided, ORA reported current data or an updated estimate of forgone revenue as appropriate.

As always, constructive comments are welcome and any errors or omissions in the report are the responsibility of the Chief of the Office of Revenue Analysis.

Matthew McCabe
Chief, Office of Revenue Analysis
Rhode Island Department of Revenue

6246/8585

# III. Introduction

## Purpose of the Tax Expenditures Report

The purpose of the *Tax Expenditures Report* is to provide information on the cost of tax preference items that are mandated under Rhode Island law, federal law, or other legal mandates. Tax expenditure items are not subject to the same public scrutiny as spending appropriations that are made through the budget process. Oftentimes, the estimated cost of a tax expenditure item is made only once — at the time it is passed into law. The *Tax Expenditures Report* provides for an accounting of the cost of tax expenditure items on an ongoing basis. By providing this cost information, the *Tax Expenditures Report* allows these expenditures to be assessed on par with appropriated expenditures. Absent a *Tax Expenditures Report*, it would be extremely difficult to assess the cost effectiveness of a tax expenditure vis-à-vis an appropriated expenditure. As the Center on Budget and Policy Priorities notes, tax expenditures are simply "spending by another name."[5]

## Current Rhode Island Law on Tax Expenditures Reporting

*R.I. Gen. Laws Ch. 44-48.1 – Tax Expenditure Reporting*[6]

R.I. Gen. Laws § 44-48.1-1(a) mandates that the Chief of the Office of Revenue Analysis deliver to the General Assembly by the second Tuesday in January of each even numbered year a tax expenditure report. The tax expenditure report must include the minimum information for 100% of the tax expenditures in place on January 1 of the odd numbered year preceding the report's publication. Thus, the *2024 Tax Expenditures Report* covers the tax expenditures that were in place on January 1, 2023.

R.I. Gen. Laws § 44-48.1-1(b) defines a tax expenditure as "any tax credit, deduction, exemption, exclusion, credit preferential tax rate, tax abatement, and tax deferral that provides preferential treatment to selected taxpayers." The term "credit preferential tax rate" is not defined in the statute. The Chief of the Office of Revenue Analysis has chosen to interpret this item to mean a "modification" or "preferential tax rate" and reports on each of these tax expenditure items separately. The Office of Revenue Analysis has determined that, as of January 1, 2024, there were 231 tax expenditure items in effect in 2023[7] either directly through Rhode Island General Laws, constitutional provisions, or indirectly through adoption of other tax codes.

R.I. Gen. Laws § 44-48.1-1(c) delineates the information on each tax expenditure item that must be included in the report. This information includes: (1) the legal reference of the tax expenditure items, "including whether the tax expenditure is the result of a federal or state constitutional, judicial, or statutory mandate;" (2) the actual amount of revenue forgone or an estimate for the calendar year in which the report is published and the year following the report's publication, and an index of the reliability of each estimate that ranges in value from one to five, with level one

[5] Levitis, Jason, Nicholas Johnson, and Jeremy Koulish, *Promoting State Budget Accountability Through Tax Expenditure Reporting.* Center on Budget and Policy Priorities: Washington, D.C., April 2009, page 5.
[6] A full copy of the statute governing tax expenditure reporting is contained in Appendix A.
[3.] This includes any new tax expenditures contained within the report for which there may not be revenue forgone yet.

6247/8585

being the most reliable; (3) the identification of the beneficiaries of the tax expenditure by "number, income, class and industry;" (4) a comparison of the Rhode Island tax expenditure items to tax expenditure items of the other New England states, but particularly Connecticut and Massachusetts; (5) "the data source(s) and analysis methodology" for each tax expenditure item estimate; and (6) "identification of similar taxpayers or industries" that do not benefit from the tax expenditure item. To the greatest extent possible, the Office of Revenue Analysis has tried to comply with each of these informational mandates.

R.I. Gen. Laws § 44-48.1-1(d) requires that each report contain a section comprised of recommendations to improve the effectiveness of the tax expenditures report as a tax policy tool. The recommendations are to be accompanied with an identification of the resources needed to implement the recommendations and an estimate of the costs associated with the recommendations.

*R.I. Gen. Laws Ch. 44-48.2 – Rhode Island Economic Development Tax Incentives Evaluation Act of 2013*[8]

On July 11, 2013, R.I. Gen. Laws Ch. 44-48.2 entitled the "Rhode Island Economic Development Tax Incentives Evaluation Act of 2013" was enacted into law. R.I. Gen. Laws § 44-48.2-4(a) states that the Tax Expenditure Report produced pursuant to § 44-48.1-1 "shall include an additional analysis component… produced in consultation with the chief executive officer of the commerce corporation, the director of the office of management and budget, and the director of the department of labor and training." A total of 21 tax expenditure economic development incentives are to be analyzed "at least once between July 1, 2014, and June 30, 2017, and no less than once every three (3) years thereafter" while the analysis of any tax expenditure economic development incentives enacted into law after July 1, 2013 "shall be completed within five (5) years of taking effect and no less than once every three (3) years thereafter". The statutory references for the 21 economic development tax incentives are listed in § 44-48.2-3(a)(1). The additional analysis component that must be included in the tax expenditure report for these tax expenditure economic development incentives is detailed in § 44-48.2-5(a).

The Office of Revenue Analysis produced the first round of tax incentive evaluation reports containing the analysis required in R.I. Gen. Laws § 44-48.2-5(a) for all 21 of the tax expenditure economic development incentives listed in § 44-48.2-3(a)(1) between March 2018 and July 2018. The second round of tax incentive evaluation reports was produced between June 2020 and May 2022. The Office of Revenue Analysis is currently working on the third round and has completed tax incentive evaluation reports for the Stay Invested in RI Wavemaker Fellowship (Ch. 42-64.26, published on April 14, 2023), Jobs Development Act (Ch. 42-64.5, published on September 28, 2023), the Investment Tax Credit (Chs. 44-31-1, 44-31-1.1, and 44-31-2, published on September 29, 2023) and the New Qualified Jobs Incentive Act of 2015 (Ch. 44-48.3, published on October 30, 2023).

[8] A full copy of the statute governing tax incentive evaluation is contained in Appendix B.

## History of Rhode Island Law on Tax Expenditures Reporting

Rhode Island's governing statute for tax expenditure reporting was passed into law without the Governor's signature on August 9, 1996 (see Rhode Island Public Laws 1996, Ch. 327, § 1 and Ch. 394, § 1). This initial statute required the state tax administrator to submit annually to the General Assembly beginning in 1998, on or before the second Tuesday in January, "to the extent possible within the appropriations provided for the purpose," a tax expenditures report. The tax expenditures report for 1998 was to provide the "minimum information" for 25% of existing tax expenditures. The report for 1999 would cover an additional 25% of the tax expenditures, so that 50% of tax expenditures will have been reported. Similar 25% increments were required for 2000 and 2001, such that by January 2001, 100% of tax expenditures will have been reported. Beginning in January 2002, the cycle repeated itself so that no report on a tax expenditure item was more than four years old.

The definition of tax expenditure was the same as it is in current law, as was the requirement for providing the legal reference of each tax expenditure, identifying the beneficiaries of each tax expenditure as well as similar taxpayers or industries that did not benefit from the tax expenditure, and comparing Rhode Island's tax expenditure items to those of other New England states, particularly Connecticut and Massachusetts. The original statute also required that the report include the legislative history of each tax expenditure, the determination of the beneficiary's state tax burden and a cost/benefit analysis of each tax expenditure item including the direct revenue loss from the tax expenditure as well as the economic and tax revenue gains occurring through the economic activity resulting from the tax expenditure. On June 25, 1997 (see Rhode Island Public Laws 1997, Ch. 30, § 1), the original statute was amended to delete the requirement of the inclusion of a cost/benefit analysis for each tax expenditure item in the tax expenditure report.

On July 10, 2003, the statute was amended again to change the periodicity of the report from annually to biannually beginning in 2004. In addition, the rolling renewal of 25% of existing tax expenditures was changed to require that "the minimum information on 100% of tax expenditures in effect on January 1" of the prior calendar year be reported. The requirement that the legislative history of a tax expenditure item be reported was eliminated leaving only the requirement that the legal reference for each tax expenditure item be reported. Further, the original statute was modified to require that an estimate of the revenue forgone that results from each tax expenditure item be reported if the actual amount cannot be determined and that such estimates be made for the calendar year preceding and following the year in which the report is published as well as the report's publication year. Additionally, the requirement that the beneficiary of tax expenditure item's state tax burden be determined was deleted and replaced with the requirement that the data sources and analysis methodology underlying each estimate of revenue forgone be provided. Also, the amendment to the statute required each report to include "a section containing recommendations for improving the effectiveness of the report as a tax policy tool" including the resources required and an estimate of the costs associated with these recommendations. Finally, the revision to the statute required the state tax administrator to "make available to the General Assembly a plan to improve Rhode Island's tax expenditure reporting effort" by the second Tuesday in January 2004.

On June 30, 2006, R.I. Gen. Laws Ch. 44-48.1 was amended to shift the responsibility for the delivery of the tax expenditure report from "the state tax administrator, to the extent possible within the appropriations provided for the purpose" to the Chief of the Office of Revenue Analysis. There have been no further amendments to R.I. Gen. Laws Ch. 44-48.1 since 2006.

# IV. Interpreting the Report

## The Index of Reliability

R.I. Gen. Laws § 44-48.1-1(c)(2)[9] requires the Chief of the Office of Revenue Analysis to develop an index of the reliability of each estimate of revenue forgone. By statute, the reliability index is based on a scale of one to five, with level one being most reliable. The statute further specifies that estimates of revenue forgone that are derived from actual tax returns should be assigned reliability level one, while those estimates of revenue forgone for which no reliable data exists should be assigned reliability level five. The *2010 Tax Expenditures Report* was the first report to provide such an index.

The *2024 Tax Expenditures Report* continues to use the reliability index that was developed in the *2010 Tax Expenditures Report*. The reliability index of is shown below:

| Reliability Index | Interpretation |
|---|---|
| Level 1 | Estimate is from actual Rhode Island tax return data |
| Level 2 | Estimate is extrapolated from Rhode Island source data |
| Level 3 | Estimate is from Rhode Island tax simulation model |
| Level 4 | Estimate is federal/national data scaled for Rhode Island |
| Level 5 | No reliable data exists from which to derive an estimate |

The end points of the reliability index (i.e., level 1 and level 5) are consistent with their statutory mandates. An estimate of revenue forgone for a tax expenditure item that is assigned a reliability index of level 1 will be based on actual Rhode Island tax return data. Given the fact that reliability index of 5 indicates that no reliable data exists from which to derive an estimate, tax expenditure items assigned this level will not have an estimate of revenue forgone presented.

The reliability index levels 2 - 4 requires some further explanation. An estimate of revenue forgone with reliability index of 2 is based on data that can be directly sourced to Rhode Island or an update of a previously derived estimate of the tax expenditure item. Some examples of data that can be directly sourced to Rhode Island include data provided by the U.S. Census Bureau, the U.S. Bureau of Labor Statistics, and the U.S. Bureau of Economic Analysis. In addition, state government agencies, quasi-public agencies, and non-governmental organizations can provide reliable Rhode Island-specific data from which to estimate the revenue forgone of a tax expenditure item. In the case of updating a previously derived estimate, the original estimate may be from a previously published tax expenditures report, a fiscal note that was completed for a particular piece of legislation during a session of the General Assembly, or an estimate that was derived by the Office of Management and Budget, the Division of Taxation, the Office of Revenue Analysis, or some other state agency for a purpose other than that of the tax expenditures report. When a reliability index of 2 is assigned to the revenue forgone estimate of a tax expenditure item, the source of the Rhode Island data will be specified.

[9] A full copy of the statute governing tax expenditure reporting is contained in Appendix A.

An estimate of revenue forgone for a tax expenditure item with a reliability index of 3 is derived from a micro simulation model of a particular tax that has been developed and provided by a third-party vendor. In some cases, a micro simulation model will generate estimates based on underlying Rhode Island economic data rather than actual tax data. The main example of this type of micro simulation model is the *Rhode Island Interactive Sales and Use Tax Simulation Model* that was purchased by the General Assembly in 2008 and made available to the Office of Revenue Analysis for the purpose of estimating the revenue impacts from changing sales tax rates, sales tax exemptions, and/or the sales tax base. This model is used extensively to estimate the revenue forgone from the numerous transactions that are exempt from the State's sales and use tax.

Finally, an estimate of revenue forgone for a tax expenditure item with a reliability index of 4 is based on federal / national data that is scaled to Rhode Island. Alternatively, the estimate may be based on federal data that is then adjusted by a factor that allows for the extrapolation of the federal data to Rhode Island. When a reliability index of 4 is assigned to the revenue forgone estimate of a tax expenditure item, the date on which the original estimate was derived will be stated if it is known as will the method used to update the original estimate. In the case of an estimate that is based on federal data that is scaled to Rhode Island, the base federal data will be identified as will the scaling factor.

## Structure of the Report

Beginning with the *2010 Tax Expenditures Report*, the Office of Revenue Analysis adopted a revised presentation format for this report. Rather than list the tax expenditure items by the tax type to which they apply, the *2010 Tax Expenditures Report* used the category of tax expenditure item as the organizing key. That is, each category of tax expenditure items listed each individual tax expenditure item and the tax types to which the individual tax expenditure item applies. For example, the Motion Picture Production Tax Credit would be categorized under "Credits" with the business corporation tax, bank excise tax, insurance company gross premiums tax, and the personal income tax as the relevant tax types. The *2024 Tax Expenditures Report* follows the same approach as was adopted for the *2010 Tax Expenditures Report*.

To assist readers in the use of the *2024 Tax Expenditures Report*, two sets of summary tables are included. The first set of summary tables lists the value of tax expenditures by tax expenditure item. Thus, for example, under the category "Credits" the total value of each individual tax expenditure credit item, without regard to the tax type under which it was used, will be shown. The second set of summary tables lists the value of tax expenditures by tax type. Thus, for example, under the tax type "Personal Income" the total value of each individual tax expenditure item that is used under the personal income tax will be displayed.

## Definition of Terms

The following definitions will be used when referring to the different types of tax expenditure items included in this report.

Credit: The direct dollar-for-dollar reduction of an individual's tax liability. The value of a tax credit is invariant to a taxpayer's tax bracket.

Deduction: An amount subtracted from adjusted gross income when calculating taxable income. The value of a tax deduction is proportional to a taxpayer's tax bracket.

Exclusion: An amount or proportion that can be legally excluded from the taxable base prior to the assessment of tax.

Exemption: A taxable expenditure, income, or investment on which no tax is levied. A tax exemption may be of limited or permanent duration.

Modification: An amount added to or subtracted from gross income to arrive at adjusted gross income. Usually, adjusted gross income is the basis from which taxable income is derived.

Preferential Tax Rate: A tax rate made available to certain taxpayers that is less than the statutory tax rate. Typically, the preferential tax rate is made available to taxpayers that meet specified criteria.

Tax Abatement: Rebate given in levies or taxes under special circumstances or as an offset to the performance of particular actions.

Tax Deferral: Paying taxes in the future for income earned in the current year.

## Categorization of Tax Expenditure Items

The tables on the following pages show the categorization of tax expenditure items and to which taxes each tax expenditure item applies. The individual tax expenditure items are listed alphabetically and those tax expenditure items that originate in the federal Internal Revenue Code are so indicated.

# V. Laws Changes that Impact Tax Expenditures

There were several law changes enacted during the 2022 and 2023 sessions by the General Assembly that impact tax expenditures. Law changes that impacted tax expenditures enacted in the 2020 and 2021 sessions of the General Assembly were included in the *2022 Tax Expenditures Report*. The following list of revised, added, and deleted tax expenditure items is in alphabetical order by tax expenditure category. In the case of a sunset that has been extended in more than one session, only the last enacted change is listed.

## CREDITS

- **Contributions to Scholarship Organizations**

  Statutory Reference: R.I. Gen. Laws Chapter 44-62 / R.I. Pub. Laws 2023, Ch. 79, Art. 4, § 8

  Year Enacted / Last Year Amended: 2006 / 2023

  Description of Change: The enacted change increases the cap on the total tax credit allowed from $1.5 million to $1.6 million.

  Sunset: N/A

  Effective Date: January 1, 2024

  Tax Expenditures Impacted: The enacted change may increase the tax expenditures associated with business corporation tax, public service corporation tax, bank excise tax, bank deposits tax, insurance company gross premiums tax, and personal income tax.

  Purpose: No explicit purpose provided in the statute for the enacted change.

- **Earned Income (Federal)**

  Statutory Reference: R.I. Gen. Laws § 44-30-2.6(c)(2)(N) / R.I. Pub. Laws 2023, Ch. 79, Art. 4, § 2

  Year Enacted / Last Year Amended: 2001 / 2023

  Description of Change: The Rhode Island earned income tax credit uses the federal earned income tax credit amount as the basis for the calculation of the state earned income tax credit. The enacted change increases the state earned income tax credit from 15% of the federal earned income tax credit amount to 16% for tax years beginning on or after January 1, 2024. This credit is fully refundable.

  Sunset: N/A

  Effective Date: June 6, 2023

Tax Expenditures Impacted: The enacted change will increase the tax expenditures associated with personal income taxes.

Purpose: No explicit purpose provided in the statute for the enacted change.

- **Historic Preservation 2013**

Statutory Reference: R.I. Gen. Laws Ch. 44-33.6 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 18 / R.I. Pub. Laws 2022, Ch. 271 and 272 / R.I. Pub. Laws 2023, Ch. 339, § 1

Year Enacted / Last Year Amended: 1996 / 2023

Description of Change: The 2023 General Assembly extended the sunset after which Historic Preservation Tax Credits can no longer be reserved to June 30, 2024. Additionally, constructions projects over $10 million are subject to prevailing wage requirements and must receive certification of compliance with these requirements in order to receive tax credits under this program.

Sunset: No credits shall be reserved on or after June 30, 2024 or upon the exhaustion of the maximum aggregate credits, whichever comes first.

Effective Date: July 1, 2022 / June 24, 2023

Tax Expenditures Impacted: The extension of the sunset day may increase the tax expenditures associated with the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax. The addition of the prevailing wage requirements may decrease the tax expenditures related with the noted taxes.

Purpose: No explicit purpose provided in the statute for the enacted change.

- **Low-Income Housing**

Statutory Reference: R.I. Gen. Laws Ch. 44-71 / R.I. Pub. Laws 2023, Ch. 79, Art. 6, § 5

Year Enacted / Last Year Amended: 2023 / N/A

Description of Change: The new law creates a low-income housing tax credit program for taxpayers who own an interest in an eligible Rhode Island low-income housing project. Eligibility is based on the federal definition of a qualified low-income housing project as defined in the Internal Revenue Code and is certified by the Department of Housing. Total credits in a given fiscal year cannot exceed $30 million.

The tax credit will be issued as five annual increments. If any portion of the tax credit for a given year exceeds the total tax liability for the taxpayer, the excess credit can be carried

forward for the four succeeding years. Unused tax credits can be transferred, sold, or assigned to other taxpayers eligible under this chapter to receive credits.

If any portion of the federal low-income housing tax credits taken on a low-income project is required to be recaptured, the state low-income house tax credit will also be recaptured equal to the tax credits previously claimed multiplied by a fraction, the numerator of which is the amount of federal credits recaptured and the denominator of which is the amount of federal credits previously claimed.

Sunset: No credits shall be issued for tax years beginning on or after June 30, 2028.

Effective Date: June 16, 2023

Tax Expenditures Impacted: The new tax credit may be taken against the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and the personal income tax.

Purpose: The purpose of the Rhode Island low-income housing tax credit to increase the development and availability of affordable housing in Rhode Island.

- **Motion Picture Production Tax Credit**

Statutory Reference: R.I. Gen. Laws § 44-31.2-5 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 16

Year Enacted / Last Year Amended: 2005 / 2022

Description of Change: The aggregate annual cap for total motion picture production tax credits and/or musical and theatrical tax production credits was increased to $40 million for TY 2023 and TY 2024 only. Previous legislation had increased the cap from $15 million to $20 million starting in TY 2020, and a separate bill increased the cap to $30 million just for TY 2022. After TY 2024, the cap will revert to $20 million.

Sunset: No credits shall be issued on or after July 1, 2027 unless the production has received initial certification prior to July 1, 2027.

Effective Date: July 1, 2022

Tax Expenditures Impacted: The enacted changes may increase the tax expenditures for the business corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax.

Purpose: No explicit purpose provided in the statute for the enacted changes.

- **Musical and Theatrical Production Tax Credit**

  Statutory Reference: R.I. Gen. Laws § 44-31.3-2 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 16 / R.I. Pub. Laws 2023, Chs. 239 and 240

  Year Enacted / Last Year Amended: 2012 / 2022

  Description of Change: In the 2022 General Assembly session, the aggregate annual cap for total motion picture production tax credits and/or musical and theatrical tax production credits was increased from $20 million to $40 million for TY 2023 and TY 2024 only. In the 2023 session, the type of productions eligible for the musical and theatrical tax production credits was expanded to include national touring productions. Additionally, the sunset was extended from July 1, 2024 to July 1, 2027.

  Sunset: No credits shall be issued on or after July 1, 2027 unless the production has received initial certification prior to July 1, 2027.

  Effective Date: July 1, 2022 / June 23, 2023

  Tax Expenditures Impacted: The enacted changes may increase the tax expenditures for the business corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax.

  Purpose: No explicit purpose provided in the statute for the enacted changes.

- **New Qualified Jobs Incentive Act**

  Statutory Reference: R.I. Gen. Laws Ch. 44-48.3 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 19 / R.I. Pub. Laws 2023, Ch. 79, Art. 7, § 15

  Year Enacted / Last Year Amended: 2015 / 2023

  Description of Change: The New Qualified Jobs Incentive Act sunset was extended to December 31, 2024 in the 2023 session.

  Sunset: No credits can be authorized to be reserved after December 31, 2024.

  Effective Date: July 1, 2022 / June 16, 2023

  Tax Expenditures Impacted: The enacted changes may increase the tax expenditures for the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax.

  Purpose: No explicit purpose provided in the statute for the extension of this tax credit.

- **Property Tax Relief**

  Statutory Reference: R.I. Gen. Laws Ch. 44-33 / R.I. Pub. Laws 2022, Ch. 231, Art. 6, § 11

  Year Enacted / Last Year Amended: 1977 / 2022

  Description of Change: The maximum qualifying income amount was increased from $30,000 to $35,000 and the maximum credit amount was set at $600 for TY 2022. The qualifying income ranges and maximum credit amount were tied to inflation based on the Consumer Price Index for all Urban Consumers (CPI-U) beginning on or after January 1, 2023.

  Sunset: N/A

  Effective Date: July 1, 2022

  Tax Expenditures Impacted: These enacted changes increase the tax expenditure for the personal income tax.

  Purpose: No explicit purpose provided in the statute for enacted changes.

- **Rebuild Rhode Island Tax Credit**

  Statutory Reference: R.I. Gen. Laws Ch. 42-64.20 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 4 / R.I. Pub. Laws 2022, Ch. 272 / R.I. Pub. Laws 2023, Ch. 79, Art. 7, § 4

  Year Enacted / Last Year Amended: 2015 / 2023

  Description of Change: In the 2022 session, construction projects over $10 million were made subject to prevailing wage requirements and must receive certification of compliance with these requirements in order to receive tax credits under this program. In the 2023 session, the sunset was extended to December 31, 2024 and the cap on maximum aggregate credits was increased from $210 million to $225 million.

  Sunset: No credits can be authorized to be reserved after December 31, 2024.

  Effective Date: July 1, 2022 / June 16, 2023

  Tax Expenditures Impacted: The extension of the sunset and the increase in the cap will increase the tax expenditures for the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax. The addition of the prevailing wage requirements may decrease the tax expenditures related with the noted taxes.

  Purpose: No explicit purpose provided in the statute for these enacted changes.

- **Stay Invested in RI Wavemaker Fellowship**

  Statutory Reference: R.I. Gen. Laws Ch. 42-64.26 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 10 / R.I. Pub. Laws 2023, Ch. 79, Art. 7, § 10

  Year Enacted / Last Year Amended: 2015 / 2023

  Description of Change: The 2022 session expanded the Wavemaker Fellowship Program to include health care professionals, including high-demand healthcare practitioners or mental health professionals, clinical social workers, and mental health counselors licensed by the Department of Health. In the 2023 session, the program was expanded to include teachers in elementary and secondary education. Additionally, the program's sunset was extended to December 31, 2024 in the 2023 session.

  Sunset: No credits can be authorized to be reserved after December 31, 2024.

  Effective Date: July 1, 2022 / June 16, 2023

  Tax Expenditures Impacted: This enacted change will increase the tax expenditure for personal income tax.

  Purpose: No explicit purpose provided in the statute for the expansion of this tax credit.

## EXEMPTIONS

- **Breast Pump Collection and Storage Supplies:**

  Statutory Reference: R.I. Gen. Laws § 44-18-30(67) / R.I. Pub. Laws 2022, Ch. 231, Art. 6, § 8

  Year Enacted / Last Year Amended: 2022 / N/A

  Description of Change: Creates an exemption from the sales and use tax for breast pumps and breast pump collection and storage supplies. The new exemption applies to the purchase of these items that are used in connection with a breast pump, including breast shields and breast shield connectors, breast pump tubes and tubing adapters, breast pump valves and membranes, backflow protectors and backflow protector adapters, bottles and bottle caps specific to the operation of the breast pump, breast milk storage bags, and related items sold as part of a breast pump kit pre-packaged by a breast pump manufacturer.

  Effective Date: October 1, 2022

  Tax Expenditures Impacted: The enacted change creates a new tax expenditure for the sales and use tax.

  Purpose: No explicit purpose provided in the statute.

- **Cannabis Sold in Rolling Papers:**

  Statutory Reference: R.I. Gen. Laws § 44-20-59 / R.I. Pub. Laws 2023, Chs. 136 and 137

  Year Enacted / Last Year Amended: 2023 / N/A

  Description of Change: Creates an exemption from the cigarette and other tobacco products taxes for adult-use cannabis sold in rolling papers.

  Effective Date: June 22, 2023

  Tax Expenditures Impacted: The enacted change creates a new tax expenditure for the cigarettes and other tobacco products taxes.

  Purpose: No explicit purpose provided in the statute.

- **Coffins, Caskets, Urns, Shrouds, and Burial Garments:**

  Statutory Reference: R.I. Gen. Laws § 44-18-30(12) / R.I. Pub. Laws 2022, Ch. 231, Art. 6, § 8

  Year Enacted / Last Year Amended: 1952 / 2022

  Description of Change: The sales and use tax exemption that includes coffins, caskets, urns, shrouds, and burial garments was expanded to include burial containers, urn liners, urn vaults, grave liners, grave vaults, burial tent setups, and prayer cards.

  Effective Date: October 1, 2022

  Tax Expenditures Impacted: The enacted change increases the tax expenditures for the sales and use tax.

  Purpose: No explicit purpose provided in the statute.

- **Medicaid Exemption:**

  Statutory Reference: R.I. Gen. Laws § 44-30-101(e)(6) / R.I. Pub. Laws 2023, Ch. 79, Art. 4, § 4

  Year Enacted / Last Year Amended: 2023 / N/A

  Description of Change: Rhode Island's health insurance mandate requires Rhode Islanders to have minimum essential coverage for healthcare otherwise a tax is imposed on an individual for failing to maintain minimum health insurance coverage throughout the calendar year.

During the 2023 session, a new exemption was enacted to exempt any applicable individual who was enrolled in the Medicaid program through December 31, 2023.

Effective Date: June 16, 2023

Tax Expenditures Impacted: The enacted change creates a new tax expenditure for the shared responsibility payment penalty tax.

Purpose: No explicit purpose provided in the statute.

- **Rebuild Rhode Island Sales and Use Tax Exemption**

Statutory Reference: R.I. Gen. Laws Ch. 42-64.20-5(q) / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 4 / R.I. Pub. Laws 2022, Ch. 272, § 1 / R.I. Pub. Laws 2023, Ch. 79, Art. 7, § 4

Year Enacted / Last Year Amended: 2015 / 2023

Description of Change:
In the 2022 session, construction projects over $10 million were made subject to prevailing wage requirements and must receive certification of compliance with these requirements in order to receive tax credits under this program. In the 2023 session, the sunset was extended to December 31, 2024 and the cap on maximum aggregate credits was increased from $210 million to $225 million. The Commerce Corporation is authorized to provide sales and use tax exemptions as part of Rebuild Rhode Island awards.

Sunset: No credits can be authorized to be reserved after December 31, 2024.

Effective Date: July 1, 2022 / June 16, 2023

Tax Expenditures Impacted: The extension of the sunset and the increase in the cap will increase the tax expenditures for the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax. The addition of the prevailing wage requirements may decrease the tax expenditures related with the noted taxes.

Purpose: No explicit purpose provided in the statute for these enacted changes.

- **Stay Invested in RI Wavemaker Fellowship Awards**

Statutory Reference: R.I. Gen. Laws Ch. 42-64.26-8 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 10 / R.I. Pub. Laws 2023, Ch. 79, Art. 7, § 10

Year Enacted / Last Year Amended: 2015 / 2023

Description of Change: The 2022 session expanded the Wavemaker Fellowship Program to include health care professionals, including high-demand healthcare practitioners or mental

health professionals, clinical social workers, and mental health counselors licensed by the Department of Health. In the 2023 session, the program was expanded to include teachers in elementary and secondary education. Additionally, the program's sunset was extended to December 31, 2024 in the 2023 session. All awards under this program are exempt from personal income tax.

Sunset: No credits can be authorized to be reserved after December 31, 2023.
July 1, 2022 / June 16, 2023

Tax Expenditures Impacted: This program will increase the tax expenditure for the personal income tax.

Purpose: No explicit purpose provided in the statute for the expansion of this tax credit.

- **Trade-In Value of Motorcycles:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(68) / R.I. Pub. Laws 2022, Ch. 231, Art. 6, § 8

Year Enacted / Last Year Amended: 2022 / N/A

Description of Change: Creates an exemption against the sales and use tax for the trade-in value of new or used motorcycles. The exemption does not apply to motorcycles used for hire or other types of motor vehicles.

Effective Date: October 1, 2022

Tax Expenditures Impacted: The enacted change creates a new tax expenditure for the sales and use tax.

Purpose: No explicit purpose provided in the statute.

## EXCLUSIONS

- **Medical Cannabis:**

Statutory Reference: R.I. Gen. Laws §§ 21-28.11-3 and 21-28.11-13 / R.I. Pub. Laws 2022, Ch. 32

Year Enacted / Last Year Amended: 2022 / N/A

Description of Change: The state cannabis excise tax (10%) and the local cannabis excise tax (3%) is imposed on adult-use cannabis, which is defined as cannabis which may be legally possessed and consumed for non-medical purposes by a person who is at least 21 years of age. Medical cannabis is exempt from these excise taxes, but subject to the 4% compassion center surcharge. Both adult-use and medical cannabis are subject to the sales and use tax.

Effective Date: December 1, 2022

Tax Expenditures Impacted: The enacted change creates a tax expenditure for the state cannabis excise tax.

Purpose: No explicit purpose provided in the statute.

## Modifications

- **Taxable Military Service Pension Income:**

  Statutory Reference: R.I. Gen. § 44-30-12(c)(11) / R.I. Pub. Laws 2022, Ch. 231, Art. 6, § 9

  Year Enacted / Last Year Amended: 2022 / N/A

  Description of Change: A modification reducing federal adjusted gross income (AGI) for taxable military service benefits included in federal AGI is beginning on or after January 1, 2023. The modification, alone or in combination with the taxable pension and annuities modification, may not exceed the amount of the military service pension received in the tax year for which the modification is claimed.

  Effective Date: January 1, 2023

  Tax Expenditures Impacted: The enacted change adds a new tax expenditure to be taken against the personal income tax.

  Purpose: No explicit purpose provided in the statute.

- **Taxable Pension Plan and/or Annuity Income:**

  Statutory Reference: R.I. Gen. § 44-30-12(c)(9) / R.I. Pub. Laws 2022, Ch. 231, Art. 6, § 9

  Year Enacted / Last Year Amended: 2016 / 2022

  Description of Change: The maximum modification amount was increased from $15,000 to $20,000.

  Effective Date: January 1, 2023

  Tax Expenditures Impacted: The enacted change increases the tax expenditure taken against the personal income tax.

  Purpose: No explicit purpose provided in the statute.

## Tax Abatements

- **Child Tax Rebate:**

  Statutory Reference: R.I. Gen. § 44-30-103 / R.I. Pub. Laws 2022, Ch. 231, Art. 6, § 10

  Year Enacted / Last Year Amended: 2022 / N/A

  Description of Change: A one-time child tax rebate of $250 per child 18 years and younger, up to a maximum of three children, was distributed to qualifying Rhode Island resident taxpayers based on the taxpayer's TY 2021 Rhode Island personal income tax return. The federal adjusted gross income of each taxpayer must be below the income threshold of $100,000 for single, head of household, married filing separately, and qualifying widow(er) filers or $200,000 for joint filers. Child Tax Rebate payments will not be considered income for the purposes of state personal income tax for tax year 2022.

  Effective Date: July 1, 2022

  Tax Expenditures Impacted: The enacted change adds a new tax expenditure to be taken against the personal income tax.

  Purpose: No explicit purpose provided in the statute.

- **Temporary Relief from Gross Earnings Tax on Electricity and Gas:**

  Statutory Reference: R.I. Gen. § 44-13-37 / R.I. Pub. Laws 2023, Ch. 79, Art. 4, § 2

  Year Enacted / Last Year Amended: 2023 / N/A

  Description of Change: For the months of December 2023 through March 2024, electric and natural gas utility companies will not be allowed to charge the public service corporation tax but are still required to pay the amount of tax to the state. These utility companies may apply to the Division of Taxation for a rebate payment for the amount of public service corporation tax that would otherwise have been charged to customers for the given months.

  Effective Date: June 6, 2023

  Tax Expenditures Impacted: The enacted change adds a new tax expenditure to be taken against the public service corporation tax.

  Purpose: No explicit purpose provided in the statute.

# VI. Summary Results by Tax Expenditure Item

Forgone revenue in any given year can be either on a calendar year or a fiscal year basis. Unless otherwise marked, tax expenditures items are reported for FY 2020 and FY 2021. Tax expenditure items marked with a † indicate forgone revenue is on a calendar year basis. Additionally, tax expenditure items marked with a ^ indicate that FY 2021 and FY 2022 are reported. Finally, tax expenditure items marked with a * indicate forgone revenue is included with another tax expenditure item.

# VII. Summary Results by Tax Type

Forgone revenue in any given year can be either on a calendar year or a fiscal year basis. Unless otherwise marked, tax expenditures items are reported for FY 2020 and 2021. Tax expenditure items marked with a † indicate forgone revenue is on a calendar year basis. Additionally, tax expenditure items marked with a ^ indicate that FY 2021 and FY 2022 are reported. Finally, tax expenditure items marked with a * indicate forgone revenue is included with another tax expenditure item.

# VIII. Detail of Tax Expenditure Items

# CREDITS

## 1. Accommodations under the Americans with Disabilities Act (ADA):

Statutory Reference: R.I. Gen. Laws § 44-54-1

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1997 / 2010

Description: A small business taxpayer that pays for or incurs expenses to provide access to persons with disabilities to comply with federal or state laws is allowed a credit against the business corporation tax and the public service corporation tax equal to 10% of the total amount expended. The credit cannot exceed $1,000 each tax year.

Data Source: Rhode Island Division of Taxation.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Business Corporation Tax | $0 | 0 |
| 2020 Public Service Corporation Tax | $0 | 0 |
| **2020 Total** | **$0** | **0** |
| 2021 Business Corporation Tax | $0 | 0 |
| 2021 Public Service Corporation Tax | $0 | 0 |
| **2021 Total** | **$0** | **0** |

Projection Methodology: Amount of credit and number of taxpayers held constant with TY 2021.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Business Corporation Tax | $0 | 0 |
| 2022 Public Service Corporation Tax | $0 | 0 |
| **2022 Projected Total** | **$0** | **0** |
| 2023 Business Corporation Tax | $0 | 0 |
| 2023 Public Service Corporation Tax | $0 | 0 |
| **2023 Projected Total** | **$0** | **0** |

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Business Corporation Tax | $0 | 0 |
| 2024 Public Service Corporation Tax | $0 | 0 |
| **2024 Projected Total** | **$0** | **0** |
| 2025 Business Corporation Tax | $0 | 0 |
| 2025 Public Service Corporation Tax | $0 | 0 |
| **2025 Projected Total** | **$0** | **0** |

Law Comparison: Massachusetts has a similar provision.

Massachusetts: Massachusetts allows taxpayers to deduct up to $15,000 of the costs of removing architectural or transportation barriers to the handicapped in the year these costs are incurred. The immediate deduction of these expenditures, which would otherwise have to be capitalized and depreciated over a longer period, results in a deferral of tax or an interest-free loan.

Massachusetts Statute: 26 U.S.C. § 190

**2. Adult and Child Daycare:**

Statutory Reference: R.I. Gen. Laws §§ 44-47-1 and 44-47-3

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1987 / 1994

Description: A credit is allowed against the business corporation tax, public service corporation tax (except the taxation of certain tangible property), bank excise tax, and insurance company gross premiums tax for 30% of the total amount expended in the state by a taxpayer (a) for day care services purchased to provide care for the dependent children or dependent adult family members of the taxpayer's employees or employees of commercial tenants of the taxpayer during the employees' hours of employment; (b) in the establishment and/or operation of a day care facility used primarily by the dependent children of the taxpayer's employees or employees of commercial tenants of the taxpayer during the employees' hours of employment; (c) in conjunction with one or more other taxpayers for the establishment and/or operation of a day care facility used primarily by the dependent children of the taxpayer's employees or employees of commercial tenants of the taxpayer during the employees' hours of employment; or (d) the total amount forgone in rent or lease payments related to the dedication of rental or lease space to child day care services.

The maximum credit allowed is $30,000 and cannot be used to reduce the tax due in any given tax year to less than $100 or the minimum tax for each tax type established in law. The credit may be carried forward for the next five consecutive tax years, if the credit has been earned under

conditions (b), (c) or (d) above, but no carry forward provision is available for credits earned under condition (a).

Law Comparison: Connecticut and Maine have similar provisions.

Connecticut: Connecticut allows a corporation subject to the corporation business tax to claim a credit for expenditures made as a human capital investment. Eligible expenditures include planning, site preparation, construction, renovation, or acquisition of facilities for the purpose of establishing a day care facility in Connecticut to be used primarily by the children of employees who are employed in the state, as well as subsidies to employees who are employed in the state for childcare to be provided in the state. The tax credit is equal to 5% of the amount paid or incurred by the corporation for a human capital investment. Corporation business tax credits cannot, in general, exceed 50% of corporation business tax liability, and unused amounts may be carried forward for up to five succeeding income years.

Beginning in TY 2024, the credit increases to 10% for most eligible investments and 25% for currently eligible childcare-related investments. It also makes additional childcare-related investments eligible for the 25% credit. Taxpayers eligible for the 25% credit may use the credit to reduce their corporate business tax liability up to 70%.

Connecticut Statute: Conn. Gen. Stat. § 12-217x

Maine: Eligible taxpayers can claim a credit up to 25% of adult dependent care expenses paid for adult day care, hospice services, and respite care provided these expenses were not used in calculating the federal child and dependent care credit. Eligible expenses are capped at $3,000 for one qualifying individual or $6,000 for two or more qualifying individuals. The credit is refundable up to $500.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5218-A

### 3. Adult Education:

Statutory Reference: R.I. Gen. Laws §§ 44-46-1, 44-46-3, and 44-46-7

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1985 / 1999

Description: An employer is allowed a credit against the business corporation tax, public service corporation tax, bank excise tax, bank deposits tax, and the insurance company gross premiums tax for 50% of the costs incurred solely and directly for non-worksite or worksite-based adult education programs. The employees for whom the employer claims an adult education tax credit must remain in the employ of the business for a minimum period of 13 consecutive weeks and a minimum of 455 hours of paid employment before an employer is eligible for the credit.

The maximum credit per employee is $300 and the maximum credit per calendar year per employer is $5,000. This credit cannot reduce the business corporation tax liability to less than $100 or the minimum tax for each tax type established in law. The credit is not refundable, and any amount of the credit that is not used in the taxable year in which the employer becomes eligible for the credit cannot be carried forward to the following year.

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Connecticut allows a corporation subject to the corporation business tax to claim a credit for expenditures made as a human capital investment. Eligible expenditures include job training, work education programs in locations such as high schools and work education-diversified occupation programs, and worker training and education provided by institutions of higher education in Connecticut. The tax credit is equal to 5% of the amount paid or incurred by the corporation for a human capital investment. Corporation business tax credits cannot, in general, exceed 50% of corporation business tax liability, and unused amounts may be carried forward for up to five succeeding income years.

Beginning in TY 2024, the credit increases to 10% for most eligible investments and 25% for currently eligible childcare-related investments. It also makes additional childcare-related investments eligible for the 25% credit. Taxpayers eligible for the 25% credit may use the credit to reduce their corporate business tax liability up to 70%.

Connecticut Statute: Conn. Gen. Stat. § 12-217x

**4. Apprenticeship:**

Statutory Reference: R.I. Gen. Laws § 44-11-41

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1996 / N/A

Description: Any taxpayer who employs a machine tool, metal trade, or plastic process technician apprentice duly enrolled and registered under the terms of a qualified program is eligible for a credit against the business corporation tax imposed by R.I. Gen. Laws Chapter 44-11. The amount of the credit is equal to 50% of the actual wages paid to each qualifying apprentice or $4,800, whichever is less. The number of apprenticeships for which a tax credit is allowed must exceed the average number of apprenticeships begun during the five preceding years.

The credit is not refundable and or able to be carried forward to succeeding tax years.

Data Source: Rhode Island Division of Taxation.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |

| 2023 Business Corporation Tax | $0 | 0 |
| 2024 Business Corporation Tax | $0 | 0 |
| 2025 Business Corporation Tax | $0 | 0 |

Law Comparison: Only Connecticut and Massachusetts have similar provisions.

Connecticut: A credit may be applied against the Connecticut corporation business tax by corporations that employ apprentices who are receiving training in the manufacturing, plastics and plastics-related, or construction trades. Wages of pre-apprentices are not eligible for this tax credit.

The tax credit allowed per apprentice in the manufacturing trades and plastics and plastics-related trades is the lesser of $6 per hour multiplied by the total number of hours worked during the income year by apprentices in the first half of a two-year term of apprenticeship or the first three-quarters of a four-year term of apprenticeship. The amount of credit allowed is $7,500 or 50% of actual wages paid in the first half of a two-year term of apprenticeship or in the first three-quarters of a four-year term of apprenticeship, whichever is less. The tax credit allowed per apprentice in construction trades shall be the lesser of: (1) $2 per hour multiplied by the total number of hours completed by the apprentice during a four-year qualifying apprenticeship training program; (2) 50% of the total wages paid to the apprentice during a four-year qualifying apprenticeship training program; or (3) $4,000. The credit is transferable but is not refundable or able to be carried forward.

Connecticut Statute: Conn. Gen. Stat. § 12-217g

Massachusetts: Massachusetts allows a refundable credit awarded to employers who are apprenticeship-program sponsors and who have entered into an apprentice agreement with each apprentice for whom the credit is claimed. The credit is equal to $4,800 or 50% of the wages paid to the apprentice for each apprentice. The total amount of credits authorized annually is $2.5

million. The credit is refundable, nontransferable, and can be taken against personal income tax and corporate excise tax.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6(v)

**5. Biotechnology Investment:**

Statutory Reference: R.I. Gen. Laws § 44-31-1.1

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2006 / N/A

Description: Any company primarily engaged in commercial biological research and development or manufacturing and sale of biotechnology products or active pharmaceutical ingredients shall be allowed a credit of 10% of the cost or other basis for federal tax purposes of tangible personal property, excluding vehicles and furniture, and other tangible property with situs in Rhode Island and principally used in the production of biotechnology products. This credit can be used against the business corporation tax, and unused credit amounts can be carried forward for up to 15 succeeding tax years.

To qualify for the tax credit, a company must pay its employees that work a minimum of 30 hours per week within the state a median annual wage equal to or greater than 125% of the average annual wage paid by all employers in Rhode Island to employees that work a minimum of 30 hours per week. The company must also provide benefits typical to the biotechnology industry.

Data Source: No reliable data exists for this expenditure item.

Reliability Index: 5 (This credit is included in the Investment Tax Credit.)

Projection Methodology: No separate projection is made due to lack of reliable data. Projected impact of the Biotechnology Investment Tax Credit is included in the projections of the Investment Tax Credit.

Law Comparison: Connecticut and Massachusetts have similar provisions.

Connecticut: Connecticut has a modification reducing taxable income for general partners of a qualified venture capital fund that invest in a Connecticut bioscience business.

Connecticut Statute: Conn. Gen. Stat. § 12-704g

Massachusetts: Massachusetts provides for an incentive payment to a biotechnology or medical device manufacturing company that creates 10 or more eligible jobs in the commonwealth during a single calendar year. The jobs incentive payment is equal to 50% of the salary paid to the persons who perform the newly created eligible jobs multiplied by the applicable Massachusetts income tax rate.

Massachusetts also has a life sciences refundable investment tax credit equal to 10% of the cost of qualifying property acquired, constructed, or erected during the tax year.

Massachusetts Statute: Mass. Gen. Laws ch. 62C, § 67D(b) and ch 63 §38U

### 6. Child and Dependent Care (Federal):

Statutory Reference: R.I. Gen. Laws § 44-30-2.6(c)(3)(F)(I)(g) / 26 U.S. Code § 21

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: A taxpayer entitled to the federal child and dependent care credit is entitled to a credit against the Rhode Island personal income tax. In general, if a taxpayer can claim the federal credit for expenses paid for someone to care for a dependent that is under age 13 or to care for a spouse or dependent who is unable to care for themselves, then the taxpayer can claim a credit for the same expenses against the personal income tax. The child and/or dependent care expenses must be paid in order for the taxpayer to work or look for work. The amount of the credit is equal to 25% of the federal credit that is claimed.

*The American Rescue Plan Act of 2021 (ARPA), signed into law on March 11, 2021, made several changes for the purposes of calculating the child and dependent care tax credit for TY 2021 only. The maximum allowable expenses will increase from $3,000 to $8,000 for one qualifying child or adult dependent and from $6,000 to $16,000 for two or more qualifying children or adult dependents. The maximum credit rate is increased to 50% of allowable expenses up from 35% of allowable expenses. The TY 2021 federal child and dependent care credit phases out for federal returns with a federal adjusted gross income (AGI) over $125,000 until AGI reaches $183,000. For returns with a federal AGI of over $183,000 up to $400,000, the credit percentage is 20%. There is a further phaseout for returns with a federal AGI of over $400,000 that phase out until the credit percentage reaches 0% for returns with a federal AGI of over $438,000. Finally, for TY 2021, the ARPA also increases the maximum amount that you can contribute to an employer-sponsored dependent care flexible spending account (FSA) from $5,000 to $10,500, which would increase the allowable expenses for the child and dependent care credit for taxpayers who choose this option ($2,500 to $5,000 for eligible married filing separate taxpayers).*

Data Source: Office of Revenue Analysis (ORA) calculations based on TY 2020 and TY 2021 personal income tax data.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $2,536,226 | 19,128 |
| 2021 Personal Income Tax | $9,970,987 | 21,261 |

Projection Methodology: The number of taxpayers is held constant with TY 2021. The average credit amount per taxpayer for TY 2018 – TY 2020 was applied to the projected number of taxpayers to project revenue forgone for TY 2022 – TY 2025. (TY 2021 was excluded from the projection average due to the temporary federal policy changes.)

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2022 Personal Income Tax | $2,955,055 | 21,261 |
| 2023 Personal Income Tax | $2,955,055 | 21,261 |
| 2024 Personal Income Tax | $2,955,055 | 21,261 |
| 2025 Personal Income Tax | $2,955,055 | 21,261 |

Law Comparison: Maine, Massachusetts, and Vermont have similar provisions.

Maine: Taxpayers are allowed a credit against the tax otherwise due in the amount of 25% of the federal tax credit allowable for child and dependent care expenses in the same tax year.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5218

Massachusetts: Massachusetts' provisions provide for a deduction in taxes due by any federal credit allowable on the resident's federal income tax return through TY 2020. If a taxpayer claims this deduction on their form, they are ineligible to claim the dependent member of household deduction.

Effective beginning on or after January 1, 2021, Massachusetts repealed the child and dependent care expenses deduction and replaced it with a refundable child and dependent care credit for employment-related expenses. The maximum credit is $240 for one qualifying individual and $480 for two or more qualifying individuals. Through legislation adopted at the end of 2023, the state eliminated the two-dependent cap and increased the credit to $310 for TY 2023 and to $440 on a permanent basis.

Massachusetts Statute: Mass. Gen. Laws ch. 62, §§ 3(B)(a)(7) and 6(x)

Vermont: Prior to TY 2022, a taxpayer was entitled to a nonrefundable credit against the personal income tax of 24% of the federal childcare and dependent care credit for a given taxable year. Vermont also previously had a low-income child and dependent credit for taxpayers with federal AGI under $30,000, if filing individually, or $40,000, if married filing jointly. The credit was equal to 50% of the federal child and dependent care credit for child and dependent care services procured in Vermont at a certified facility. Taxpayers could not take both credits.

The separate low-income child and dependent care credit was repealed in 2022. The Vermont child and dependent care credit was increased to 72% of the federal credit and made refundable.

Beginning in TY 2023, Vermont switched to a simple apportionment ratio for part-year residents claiming the credit.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 5822(d) and 5828c

### 7. Contributions to Scholarship Organizations:

Statutory Reference: R.I. Gen. Laws Chapter 44-62

Stated Purpose: The credit is offered to enhance the educational opportunities available to all students in the state.

Year Enacted / Last Year Amended: 2006 / 2014

Description: Taxpayers that make voluntary cash contributions to certified scholarship organizations are entitled to receive a credit against the business corporation tax, public service corporation tax, bank excise tax, bank deposits tax, insurance company gross premiums tax, and personal income tax. The maximum credit allowed a business entity is no greater than $100,000 in any tax year. The total aggregate amount of all tax credits for contributions to scholarship organizations approved by the Division of Taxation in a fiscal year cannot exceed $1.5 million. This cap was increased to $1.6 million, effective January 1, 2024.

There are two methods by which the tax credit can be earned, a two-year contribution plan and a one-time contribution plan. Under the two-year contribution plan, the taxpayer commits to making the same amount of contribution for two consecutive tax years. In this case, the yearly tax credit earned is equal to 90% of the total voluntary contribution made by the business entity. Under the one-time contribution plan, the business entity receives a credit equal to 75% of the total voluntary contribution that is made.

The tax credit must be used in the tax year the contribution was made. The tax credit is not refundable, assignable, transferable, or able to be carried forward.

*****_Indicates data that is not disclosed by Taxation due to taxpayer's confidentiality_

Law Comparison: Only New Hampshire has a similar provision.

New Hampshire: A tax credit is allowed for business organizations and business enterprises that contribute to scholarship organizations which award scholarships to be used by students to defray educational expenses. For each contribution made to a scholarship organization, a business may claim a credit equal to 85% of the contribution against the business profits tax, the business enterprise tax, or the tax on interest and dividends. Credits cannot exceed the maximum education tax credit allowed, and no business organization or business enterprise shall receive more than 10% of the aggregate amount of tax credits permitted. The credit may be carried forward five years

but cannot exceed $1 million in any given year. The aggregate of tax credits issued is capped at $5,100,000.

New Hampshire Statute: N.H. Rev. Stat. Ann., Ch. 77-G(3) and 77-G(4)

## 8. Earned Income (Federal):

Statutory Reference: R.I. Gen. Laws § 44-30-2.6(c)(2)(N) and (3)(F)(I)(a) / R.I. Pub. Laws 2023, Ch. 79, Art. 4, § 2

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2023

Description: A taxpayer entitled to a federal earned income credit is allowed a Rhode Island earned income credit equal to 15% of the federal earned income credit through TY 2023. For tax years beginning on or after January 1, 2024, the allowable percentage increases to 16%. The Rhode Island credit amount is fully refundable.

In general, a taxpayer can claim the federal credit if he/she is employed and meets certain income criteria and rules including those having to do with children living in the home.

*The Taxpayer Certainty and Disaster Tax Relief Act of 2020 signed into law on December 27, 2020 as part of the Consolidated Appropriations Act, 2021 allows for taxpayers to choose to use their 2019 income for the purposes of calculating the federal earned income tax credit for TY 2020 if the taxpayer's 2020 income is less than their income in 2019.*

*The American Rescue Plan Act of 2021 (ARPA), signed into law on March 11, 2021, made several changes for the purposes of calculating the federal earned income tax credit for TY 2021 only. The minimum eligible age to receive the credit decreased from 25 years old to 19 years old, except for students whose minimum age is 24 years old and for former foster youth or qualified homeless youth whose minimum age is 18 years old. The maximum age of 64 years old is eliminated for TY 2021. Additionally, the credit and phaseout percentages increase from 7.65% to 15.3%. Finally, there is an increase in the earned income and phaseout amounts from $4,220 and $5,280 to $9,820 and $11,610, respectively.*

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $22,917,692 | 76,926 |
| 2021 Personal Income Tax | $26,462,253 | 101,468 |

Projection Methodology: TY 2022 revenue forgone amount and the number of taxpayers figures are as provided at the November 2023 REC. The Office of Revenue Analysis (ORA) applied the growth rates in Rhode Island personal income provided by S&P Global at the November 2023 Revenue Estimating Conference to project the TY 2023-TY 2025 revenue forgone. Additionally, the estimated revenue impact from increasing the EITC rate to 16% as calculated by ORA were added to the base revenue forgone projections. The number of taxpayers is held constant for TY 2023-TY 2025.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $26,339,816 | 72,289 |
| 2023 Personal Income Tax | $31,682,097 | 80,282 |
| 2024 Personal Income Tax | $31,012,210 | 80,282 |
| 2025 Personal Income Tax | $32,395,044 | 80,282 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut allows for a refundable earned income tax credit equal to 23% of the federal earned income tax credit to resident taxpayers who work and earn incomes below certain levels. Beginning in TY 2021, the percentage increased from 23% to 30.5%. In the FY 2024 budget, the percentage was further increased to 40%, effective January 1, 2024.

Connecticut Statute: Conn. Gen. Stat. § 12-704e

Maine: Prior to TY 2021, the Maine earned income tax credit amount was 12% of the federal earned income tax credit amount for eligible taxpayers with qualifying children and 25% of the federal earned income tax credit amount for eligible taxpayers without qualifying children. Effective for tax years beginning on January 1, 2021, the amount of Maine credit is equal to 20% of the federal earned income tax credit for all eligible resident, non-resident, and part-year resident individuals. Effective for tax years beginning on or after January 1, 2022, the amount of Maine earned income credit increases to 25% of the federal earned income tax credit amount for eligible taxpayers with qualifying children and to 50% of the federal earned income tax credit amount for eligible taxpayers without qualifying children. In addition, taxpayers aged 18 to 24 years without qualifying children are eligible for the Maine earned income tax credit calculated as if they were eligible for the federal earned income tax credit. The credit is fully refundable (prorated for part-year residents).

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5219-S

Massachusetts: Massachusetts' provisions include a credit against the taxes imposed if the taxpayer qualified for and claimed the federal earned income credit. The refundable credit is 30% of the federal credit through TY 2023 and increases to 40% beginning with TY 2024. If the taxpayer claims and receives other state income tax credits, this credit must be applied last. Taxpayers who are victims of domestic abuse that file a Massachusetts personal income tax return

as married filing separately may be eligible for the credit, despite not being eligible for the federal earned income tax credit if they meet certain criteria.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6(h)

Vermont: The refundable credit is 36% of the individual's federal earned income tax credit multiplied by the percentage of the individual's earned income earned or received while a Vermont resident to the individual's total earned income prior to TY 2022 and 38% thereafter. If the taxpayer's earnings come from periods of part-year residency, then the credit is prorated. Beginning in TY 2023, Vermont switched to a simple apportionment ratio for part-year residents claiming the credit.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5828b

### 9. Educational Assistance and Development:

Statutory Reference: R.I. Gen. Laws §§ 44-42-2 and 44-42-5

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1985 / N/A

Description: An 8% credit is allowed against the business corporation tax, public service corporation tax (except the taxation of certain tangible personal property), bank excise tax, and insurance company gross premiums tax for contributions in excess of $10,000 made to an institution of higher education in Rhode Island (a) for the establishment or maintenance of a faculty chair, department, or program for scientific research or education; (b) for a work fellowship program that is providing training connected with scientific research or education for the students of the institution; or (c) for tangible personal property contributed for use in an educational, training, or research program for scientific research or education, excluding sale discounts and sale-gift or similar arrangements for the purchase of equipment.

The credit cannot reduce the tax due below $100 in a given tax year or the minimum tax for each tax type established in law. Any amount of credit not used may be carried forward for five succeeding years.

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut allows a corporation subject to the corporation business tax to claim a credit for expenditures made as a human capital investment. Eligible expenditures include donations or capital contributions to institutions of higher education in Connecticut for improvements or advancements of technology, including physical plant improvements. The tax credit is equal to 5% of the amount paid or incurred by the corporation for a human capital investment. A credit cannot exceed the amount of corporation business tax otherwise payable, although unused amounts can be carried forward for up to five succeeding income years. Beginning in TY 2024, the credit increases to 10% for most eligible investments and 25% for currently eligible childcare-related investments. It also makes additional childcare-related investments eligible for the 25% credit. Taxpayers eligible for the 25% credit may use the credit to reduce their corporate business tax liability up to 70%.

Connecticut also has a credit for land donated without any financial consideration or sold at a discounted price to a municipality of the state for educational use. The credit is 50% of the difference between the fair market value and the amount received for the donated land. The credit sunset on January 1, 2013, but unused credits may be carried forward for 15 years.

Connecticut Statute: Conn. Gen. Stat. §§ 12-217x and 12-217ff

Massachusetts: Corporations can deduct charitable donations as defined by § 170 of the Internal Revenue Code up to 10% of taxable income. Included under the federal definition of charitable contributions are contributions to an educational organization which normally maintains a regular faculty and curriculum. Excess contributions can be carried forward up to five succeeding tax years.

Massachusetts Statute: 26 U.S.C. § 170

New Hampshire: New Hampshire allows for a tax credit against the business profits tax for qualifying charitable donations to career and technical education centers. Credits may only be used in the tax year the donation was made, up to 25% of the taxpayer's tax liability before credits. Total credits in a given fiscal year are capped at $500,000.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 188-E:9-a

Vermont: Gifts are eligible for Vermont's charitable contribution tax credit, which is a 5% credit of the first $20,000 in eligible charitable contributions made during the taxable year regardless of whether taxpayers itemize on their federal returns. The tax credit is nonrefundable. Vermont follows federal law 26 U.S.C. § 170 as amended by the TCJA and other relevant regulations. Included under the federal definition of charitable contributions are contributions to an educational organization which normally maintains a regular faculty and curriculum.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5822(c)(3)

**10. Employment − Welfare Bonus Program:**

Statutory Reference: R.I. Gen. Laws §§ 44-39.1-1, 44-39.1-2, and 40-6.3-4

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1985 / 1986

Description: Any employer participating in the Bonus Program under R.I. Gen. Laws Ch. 40-6.3 is entitled to apply for the employment tax credit. This credit is awarded to employers that hire individuals who had previously received Aid to Families with Dependent Children (AFDC) for 30 consecutive months prior to the law's enactment and employ such individuals for at least 24 consecutive months prior to application for the credit. The credit is equal to $250 per eligible employee and can be applied against the business corporation tax, public service corporation tax, bank excise tax, bank deposits tax, and insurance company gross premiums tax.

The credit cannot be applied until all other credits for which the taxpayer is eligible to use have been applied, and it cannot reduce the tax due below $100 in a given tax year or the minimum tax for each tax type established in law. The credit is not refundable, and any unused credit amounts cannot be carried forward to succeeding tax years.

Law Comparison: No similar provisions found in the other New England states.

## 11. Historic Homeownership Assistance:

Statutory Reference: R.I. Gen. Laws Chapter 44-33.1

Stated Purpose: "The purpose of this chapter is to encourage maintenance and rehabilitation of residential properties that have historic merit by providing income tax credit for the maintenance or rehabilitation of historic residences."

Year Enacted / Last Year Amended: 1989 / 2017

Description: The historic homeownership tax credit is equal to up to 20% of the certified costs of maintenance or rehabilitation in the year in which the work is completed for a taxpayer who owns and lives in a Rhode Island historical residence. It was eliminated as part of the reform of the personal income tax system that was enacted in June 2010. At that time, taxpayers with unused amounts of credits were denied the opportunity to use these carryforward amounts in tax years beginning after December 31, 2010. In the 2017 session, the General Assembly amended the law to allow the use of these unused amounts of historic homeownership tax credits against personal income tax liabilities effective for tax years beginning after December 31, 2016.

| 2024 Personal Income Tax | $7,338 | < 10 |
| 2025 Personal Income Tax | $7,338 | < 10 |

Law Comparison: Connecticut and Vermont have similar provisions.

Connecticut: An owner of an historic home who incurs qualified rehabilitation expenditures exceeding $15,000 shall be eligible for a tax credit in an amount equal to 30% of the qualified rehabilitation expenditures not to exceed $30,000 per dwelling. The owner must occupy the home as a primary residence for at least five years after completion of the rehabilitation work. Unused credit may be carried forward for four years. Of the $3 million of total credits reserved for this credit, 70% must be for owners rehabilitating historic homes located in a regional center as designated in the state plan of conservation and development adopted by the General Assembly.

Conn. Gen. Stat. § 10-416

Vermont: Under the Vermont Downtown and Village Center Tax Credit program, a qualified applicant of a qualified historic rehabilitation project may claim against his or her individual income tax liability a nonrefundable historic rehabilitation tax credit of 10% of the qualified rehabilitation expenditures. To qualify for this tax credit, expenditures for the qualified project must exceed $5,000. The total credit program (along with three other credits under this program umbrella) is capped at $3,000,000 annually. Unused credits can be carried forward for nine years.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5930bb(b), 5930cc(a), and 5930ee(1)

## 12. Historic Preservation:

Statutory Reference: R.I. Gen. Laws Chapter 44-33.6 / R.I. Pub. Laws 2022, Ch. 272 / R.I. Pub. Laws 2023, Ch. 339

Stated Purpose: "The purpose of this chapter is to create economic incentives for the purpose of stimulating the redevelopment and reuse of Rhode Island's historic structures, as well as to generate the positive economic and employment activities that will result from such redevelopment and reuse."

Year Enacted / Last Year Amended: 2013 / 2023

Description: A taxpayer that incurs qualified rehabilitation expenditures for the substantial rehabilitation of a certified historic structure, provided the taxpayer is not a social club, is entitled to a credit against the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax. The credit is equal to 20% of the qualified rehabilitation expenditures for any certified historic structure or 25% of the qualified rehabilitation expenditures, provided that either (i) at least 25% of the total rentable area of the certified historic structure is available for a trade or business or (ii) the entire rentable area located on the first floor of the certified historic structure is available for a trade or business.

Tax credits are allowed for the tax year in which the structure or an identifiable portion of the structure is placed into service and unused amounts can be carried forward for up to ten years from the first tax year the credits were utilized. The maximum credit per project cannot exceed $5 million for all phases of any certified rehabilitation project, and the maximum total credits authorized cannot exceed the sum of the estimated credits available in the historic preservation tax credit trust fund. No credits shall be authorized to be reserved under this tax credit program on or after June 30, 2024 or upon the exhaustion of the maximum aggregate credits, whichever comes first. Credits may be allocated to partners, members, or owners that are exempt from taxation under § 501(c)(4) or § 501(c)(6) and are listed as non-profit refund under tax type.

Additionally, constructions projects over $10 million are subject to prevailing wage requirements and must receive certification of compliance with these requirements in order to receive tax credits under this program.

| **2025 Projected Total** | **$701,719** | **19** |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: A tax credit is available to individuals, limited liability companies, non-profit and for-profit corporations, or other business entities for expenses associated with rehabilitating certain historic properties. The credit is equal to 25% of the actual rehabilitation expenditures, or 30% of the actual qualified rehabilitation expenditures for projects including affordable housing. The per-project cap is $4.5 million, and the annual limit for all taxpayers is $31.7 million. Unused credits may be carried forward for 5 years. Beginning on or after January 1, 2024, nonprofit corporations will be able to claim the credits against the unrelated business income tax and all other taxpayers may claim it against the personal income tax. Nonprofits may also carry forward unused credits for four years.

Connecticut Statute: Conn. Gen. Stat. § 10-416c

Maine: Taxpayers are allowed historic rehabilitation credits for the certified qualified rehabilitation expenditures incurred. A refundable rehabilitation credit is allowed against the income tax in an amount equal to 25% of the taxpayer's certified qualified rehabilitation expenditures for which a tax credit is claimed under the Internal Revenue Code § 47 for a certified historic structure located in Maine. There is an enhanced credit for a certified affordable housing project (34% in 2020). In the 2022 session, Maine elected to extend the credit sunset date from December 31, 2025 to December 31, 2030.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5219-BB

Massachusetts: Massachusetts' provisions include a 20% credit of qualified rehabilitation expenditures incurred in the rehabilitation of a certified historic structure. The credit is not refundable, but a carryforward is allowed for five tax years. Credits may be authorized annually until December 31, 2027 in an aggregate amount up to $55 million per year.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6J and ch. 63, § 38R

Vermont: Under the Vermont Downtown and Village Center Tax Credit program, a qualified applicant of a qualified historic rehabilitation project may claim against his or her individual income tax liability a nonrefundable historic rehabilitation tax credit of 10% of the qualified rehabilitation expenditures. To qualify for this tax credit, expenditures for the qualified project must exceed $5,000. The total credit program (along with three other credits under this program umbrella) is capped at $3,000,000 annually. Unused credits can be carried forward for nine years.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5930bb(b), 5930cc(a), and 5930ee(1)

## 13. Historic Structures:

Statutory Reference: R.I. Gen. Laws Chapter 44-33.2

Stated Purpose: "The purpose of this chapter is to create economic incentives for the purpose of stimulating the redevelopment and reuse of Rhode Island's historic structures."

Year Enacted / Last Year Amended: 2001 / 2008

Description: A credit equal to 30% of the qualified rehabilitation expenditures (QREs) incurred to rehabilitate the historic structure is allowed against the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax for the redevelopment and reuse of Rhode Island's historic structures. The structure must have been certified as historic by the Rhode Island Historical Preservation and Heritage Commission and placed into service prior to January 1, 2008. The credit processing fee for these projects is 2.25% of the QREs. Projects that are in progress as of January 1, 2008 but not yet placed into service are eligible to receive a credit equal to either 27% of the QREs incurred with a credit processing fee of 5%, 26% of the QREs incurred with a credit processing fee of 4%, or 25% of the QREs incurred with a credit processing fee of 3%.

Historic structures tax credits are transferrable and unused amounts of the credit may be carried forward to a maximum of 10 succeeding tax years. Proceeds from the sale of historic structures tax credits are exempt from Rhode Island taxes.

**Indicates data that is not disclosed by Taxation due to taxpayer's confidentiality*

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: A tax credit is available to individuals, limited liability companies, non-profit and for-profit corporations, or other business entities for expenses associated with rehabilitating certain historic properties. The credit is equal to 25% of the actual rehabilitation expenditures, or 30% of the actual qualified rehabilitation expenditures for projects including affordable housing. The per-

project cap is $4.5 million, and the annual limit for all taxpayers is $31.7 million. Unused credits may be carried forward for 5 years. Beginning on or after January 1, 2024, nonprofit corporations will be able to claim the credits against the unrelated business income tax and all other taxpayers may claim it against the personal income tax. Nonprofits may also carry forward unused credits for four years.

Connecticut Statute: Conn. Gen. Stat. § 10-416c

Maine: Taxpayers are allowed historic rehabilitation credits for the certified qualified rehabilitation expenditures incurred. A refundable rehabilitation credit is allowed against the income tax in an amount equal to 25% of the taxpayer's certified qualified rehabilitation expenditures for which a tax credit is claimed under the Internal Revenue Code § 47 for a certified historic structure located in Maine. There is an enhanced credit for a certified affordable housing project (34% in 2020). In the 2022 session, Maine elected to extend the credit sunset date from December 31, 2025 to December 31, 2030.

Maine Statute: Me. Rev. Stat. Ann. Tit. 36, § 5219-BB

Massachusetts: Massachusetts' provisions include a 20% credit of qualified rehabilitation expenditures incurred in the rehabilitation of a certified historic structure. The credit is not refundable, but a carryforward is allowed for five tax years. Credits may be authorized annually until December 31, 2027 in an aggregate amount up to $55 million per year.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6J and ch. 63, § 38R

Vermont: Under the Vermont Downtown and Village Center Tax Credit program, a qualified applicant of a qualified historic rehabilitation project may claim against his or her individual income tax liability a nonrefundable historic rehabilitation tax credit of 10% of the qualified rehabilitation expenditures. To qualify for this tax credit, expenditures for the qualified project must exceed $5,000. The total credit program (along with three other credits under this program umbrella) is capped at $3,000,000 annually. Unused credits can be carried forward for nine years.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5930bb(b), 5930cc(a), and 5930ee(1)

## 14. Hydroelectric Power:

Statutory Reference: R.I. Gen. Laws §§ 44-30-20, 44-30-22, and 44-30-23

Stated Purpose: "It is the policy of this state to support and foster the development of hydropower generating facilities by the establishment of tax incentives for those owners of existing dams who install hydroelectric power generation equipment."

Year Enacted / Last Year Amended: 1980 / N/A

Description: A hydroelectric power developer will be allowed a non-refundable state income tax credit in the amount of 10% of the installation costs of a small hydroelectric power production

facility at an existing dam site in Rhode Island. The credit can be used against the business corporation tax. This credit is limited to $500,000 in costs to develop a small hydroelectric power production facility for a maximum credit of $50,000. Unused portions of the credit may be carried forward up to five succeeding tax years.

Law Comparison: No similar provisions found in the other New England states.

**15. Investment:**

Statutory Reference: R.I. Gen. Laws § 44-31-1

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1974 / 2002

Description: A credit is allowed against the business corporation tax, bank excise tax, and insurance company gross premiums tax for the cost of realty and tangible property in Rhode Island, which are principally used by the taxpayer in the production of goods by manufacturing, processing or assembling. General manufacturers are provided with a credit of 4% of the cost or qualified amounts for leased assets of tangible personal property, buildings, and structural components of buildings provided that the assets have a useful life of at least four years. A credit equal to 10% of the cost or qualified amounts for leased assets of tangible personal property, excluding motor vehicles and furniture, provided that the assets have a useful life of at least four years is granted to manufacturers that are classified in major groups 20 through 39, 50 and 51, 60 through 67, 73, 76, 80 through 82, 87, and 89 in the Standard Industrial Classification manual (SIC

Codes). A 10% credit of the cost or qualified amounts for leased assets of buildings and structural components is also provided to high performance manufacturers, which are defined as businesses described in major groups 28, 30, 34 to 36, and 38 of the SIC Codes. For leased buildings and structural components, the lease must have a term of at least 20 years. High performance manufacturers must also meet certain wage requirements to qualify. The above noted credit percentages also apply to computers, software, and telecommunications hardware even if these assets have useful lives of less than four years.

The 4% credit can reduce the tax due to the amount of the corporate minimum tax, as set forth in R.I. Gen. Laws § 44-11-2(e). The 10% credit can only reduce a tax liability by 50% unless it has been applied by a high-performance manufacturer to the acquisition of buildings by purchase or by a lease of 20 years or more, in which case the tax liability can be reduced to the amount of the corporate minimum tax. Credits are non-refundable, and unused amounts of the credits can be carried forward up to seven succeeding tax years.

Data Source: Rhode Island Division of Taxation testimony from the November 2023 Revenue Estimating Conference.

| **2025 Projected Total** | **$7,703,547** | **41** |

**Indicates data that is not disclosed by Taxation due to taxpayer's confidentiality*

Law Comparison: All of the New England states have similar provisions.

Connecticut: Connecticut allows a credit against corporation business tax equal to 5% of the amount paid or incurred by a corporation for any new fixed capital investments. Any credit not used during the income year in which the acquisition was made may be carried forward to the next five succeeding income years.

Connecticut Statute: Conn. Gen. Stat. § 12-217w

Maine: Maine's seed capital investment credit is eligible to an investment in a new business that: a) is located in Maine; b) has gross sales of $3 million or less per year; c) is the full-time, professional activity of at least one of the principal owners; d) that has been determined by the authority to be a manufacturer or a value-added natural resource enterprise; and e) is a manufacturer, value-added natural resource enterprise, or a product or service provider with 60% of sales derived from outside the state or to out-of-state residents, engaged in developing or applying advanced technologies or is a certified visual media production company. The credit rate is 50% for investors prior to April 1, 2020 and 40% after that date. Beginning with the tax year the investment was made, 25% of the authorized credit may be used for each tax year, limited to 50%

of tax liability. Only investments made by venture capital funds are fully refundable. Otherwise, unused credits can be carried forward for 15 years. Effective March 2021, improvement property placed in service after December 31, 2017 and before January 1, 2020 may not be included for purposes of calculating the credit. For tax years 2021 and 2022, the annual aggregate credits issued under this program was reduced from $15 million to $13.5 million.

Maine also had two similar credits that have been repealed – the jobs and investment tax credit and the high-technology investment tax credit, both of which can still be taken via carry forwards through TY 2022 and TY 2026, respectively.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 5215, 5216-B, and 5219-M and tit. 10, § 1100-T

Massachusetts: Massachusetts provisions include manufacturers, corporations engaged primarily in research and development, and corporations engaged primarily in agriculture or commercial fishing. The credit is 3% of the cost or other basis of the property, including buildings and leased tangible property, and has a three-year carry forward of unused credit. The credit may not exceed 50% of the corporate excise tax liability.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 31A(i), (j)

New Hampshire: An investment tax credit equal to 75% of the contribution made to the Community Development Finance Authority during the contributor's tax year is allowed against the business profits tax, the insurance taxes, or the business enterprise tax, individually or in combination. The credit or any unused portion of the credit may be carried forward for five succeeding years but may not exceed $1 million in any given tax year. Contributors may only take the credit after the contributions are received by the authority.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 162-L:10

Vermont: Vermont entitles taxpayers to a credit against the tax imposed of 24% of the federal investment tax credit allowed for the taxable year attributable to the Vermont-property portion of the investment in the following activities: rehabilitation, energy, advanced coal products, and gasification products. Only solar energy investment may be carried forward for up to five years.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5822(d)

**16. Juvenile Restitution:**

Statutory Reference: R.I. Gen. Laws § 14-1-32.1(c)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1980 / 1989

Description: An employer of a juvenile hired under the juvenile victim restitution program of the Family Court is entitled to receive a credit of 10% of the wages paid to the juvenile annually. The

credit cannot exceed $3,000 annually and may be taken against the business corporation tax imposed by R.I. Gen. Laws Chapter 44-11.

Data Source: Rhode Island Division of Taxation.

Law Comparison: No similar provisions found in the other New England states.

**17. Lead Paint Abatement:**

Statutory Reference: R.I. Gen. Laws §§ 44-30.3-1 and 44-30.3-2

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2004 / N/A

Description: A property owner or lessee who resides in Rhode Island is entitled to tax relief for residential lead removal or lead hazard reduction when they obtain a Housing Resources Commission regulated certification or obtain a Department of Health regulated lead safe certification, and fulfill all requirements, including certain income requirements as provided by this law. The tax relief can be used against the personal income tax.

The tax relief shall be equal to the amount actually paid for the required lead abatement or lead hazard mitigation up to a maximum of $1,500 per dwelling unit for mitigation and up to $5,000 per dwelling unit for abatement. The credit can be earned on a maximum of three dwelling units per claimant. The tax credit is refundable for the amounts of the credit claimed in excess of the taxpayer's liability.

The maximum credit amount that can be claimed in a given fiscal year is $250,000. For tax year 2020, claimants with household incomes of $47,500 or less shall receive priority in receiving tax credit certificates. For tax years 2021 and 2022, this amount is $48,150 and $51,000, respectively.

Data Source: Office of Revenue Analysis (ORA) calculations based on TY 2020 and TY 2021 personal income tax data.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $165,773 | 31 |
| 2021 Personal Income Tax | $183,245 | 37 |

Projection Methodology: Revenue forgone amounts and the number of taxpayers are the average of TY 2020 and TY 2021.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $174,509 | 34 |
| 2023 Personal Income Tax | $174,509 | 34 |
| 2024 Personal Income Tax | $174,509 | 34 |
| 2025 Personal Income Tax | $174,509 | 34 |

Law Comparison: Only Massachusetts has a similar provision.

Massachusetts: Massachusetts' provisions allow a credit to an owner of a residence who pays for the containment or abatement of any paint, plaster, or other accessible structural materials containing dangerous levels of lead or who pays for the replacement of one or more window units in a dwelling constructed before 1978 in order to bring the dwelling into full compliance with the provisions of Mass. Gen. Laws ch. 111, § 197 (concerning materials containing dangerous levels of lead). The taxpayer may claim a credit for the lesser of the cost of the removal, containment, or replacement or $1,500 per dwelling. The credit is not transferable or refundable but may be carried forward for seven years. This credit was increased to $3,000 for full abatement and $1,000 for a partial abatement, retroactive to January 1, 2023.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6(e)

## 18. Low-Income Housing:

Statutory Reference: R.I. Gen. Laws Ch. 44-71 / R.I. Pub. Laws 2023, Ch. 79, Art. 6, § 5

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2023 / N/A

Description: The low-income housing tax credit program is for taxpayers who own an interest in an eligible Rhode Island low-income housing project. Eligibility is based on the federal definition of a qualified low-income housing project as defined in the Internal Revenue Code and is certified by the Department of Housing. Total credits authorized in a given fiscal year cannot exceed $30 million. The tax credit will be issued as five annual increments after the completion of the qualified housing project. If any portion of the tax credit for a given year exceeds the total tax liability for the taxpayer, the excess credit can be carried forward for the four succeeding years. Unused tax credits can be transferred, sold, or assigned to other taxpayers eligible under this chapter to receive credits. Finally, the credit recipient may also request a refund of their credits in whole or in part for 90% of the credit amount.

If any portion of the federal low-income housing tax credits taken on a low-income project is required to be recaptured, the state low-income house tax credit will also be recaptured equal to the tax credits previously claimed multiplied by a fraction, the numerator of which is the amount of federal credits recaptured and the denominator of which is the amount of federal credits previously claimed.

The tax credit may be taken against the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and the personal income tax and sunsets on June 30, 2028.

Projection Methodology: Estimated revenue forgone amounts for FY 2023 – FY 2025 are as included in the FY 2024 enacted budget. It is estimated the first year of revenue forgone from this credit will not be until FY 2026 as credits will not be given until the qualified housing project is completed.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |

| 2025 Personal Income Tax | $0 | 0 |
| **2025 Projected Total** | **$0** | **0** |

Law Comparison: Maine, Massachusetts, and Vermont have similar provisions.

Massachusetts: Massachusetts' provisions allow a nonrefundable credit to personal income tax and corporate excise tax for the construction or development of low-income housing. There is an annual cap of $100 million through 2020 and $50 million for every year thereafter. The credits are transferable and may be carried forward five years.

Massachusetts also allows a nonrefundable low-income housing tax credit for corporate excise and personal income taxpayers that donate real or personal property to certain nonprofit organizations for use in purchasing, constructing, or rehabilitating a qualified low-income housing project in the state. This credit is generally limited to 50% of the amount of donation but may be taken up to 65% if authorized. Credits under for low-income housing donations are not able to be carried forward. For tax years 2021 – 2022, the annual cap is $40 million. Effective for TY 2023 and thereafter, the annual cap is increased to $60 million.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6I(a) and ch. 63 § 31H

Maine: Maine has a refundable tax credit for taxpayers who receive a certificate for an affordable housing project for calendar years 2021-2028. The total cap per calendar year is, in general, $10,000,000. The credit is equal to either (1) the total federal low-income housing tax credit using the entire federal credit period for all buildings in a qualified Maine project or (2) an amount equal to the lesser of $500,000 or 50% of the qualified basis of an affordable housing project that incurs at least $100,000 includible in eligible basis in the construction or rehabilitation of an affordable housing project for which a federal low-income housing tax credit is not claimed for those

expenditures. This credit is subject to recapture if the property does not remain credit-qualified for a certain period.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 5219-WW

Vermont: A nonrefundable credit is provided for approved affordable rental housing projects or owner-occupied affordable housing units. The amount of credit is based on the taxpayer's eligible cash contribution and the issuing agency's allocation plan. Total tax credits available to the taxpayer are the amount of the first-year allocation plus the succeeding four years' deemed allocation and can only be taken against the bank franchise and insurance premiums taxes.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5930u

**19. Motion Picture Production:**

Statutory Reference: R.I. Gen. Laws § 44-31.2-5 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 16

Stated Purpose: "The primary objective of this chapter is to encourage development in Rhode Island of a strong capital base for motion picture film, videotape, and television program productions, in order to achieve a more independent, self-supporting industry. This objective is divided into immediate and long-term objectives as follows:

1. Immediate objectives are to:
    i. Attract private investment for the production of motion pictures, videotape productions, and television programs, which contain substantial Rhode Island content as defined herein.
    ii. Develop a tax infrastructure, which encourages private investment. This infrastructure will provide for state participation in the form of tax credits to encourage investment in state-certified productions.
    iii. Develop a tax infrastructure utilizing tax credits, which encourage investments in multiple state-certified production projects.
2. Long-term objectives are to:
    i. Encourage increased employment opportunities within this sector and increased competition with other states in fully developing economic development options within the film and video industry.
    ii. Encourage new education curricula in order to provide a labor force trained in all aspects of film production."

Year Enacted / Last Year Amended: 2005 / 2022

Description: A 30% tax credit based on the amount of state-certified production costs directly attributable to activities within the state may be awarded to a motion picture production company, provided that the primary locations are within the state. The credit can be used against the business corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax. To qualify, the minimum total production budget must be at least $100,000 and the maximum credit allowed is $7 million per production. The tax administrator is granted authority to waive

that cap for feature-length films or TV series. The credit can be transferred or sold to another Rhode Island taxpayer, and unused amounts of the credit can be carried forward for up to three succeeding tax years.

No more than $20 million in total credits may be issued for any tax year for motion picture production tax credits and/or musical and theatrical production tax credits. No specific amount shall be set aside for either type of production. For TY 2022, the aggregate annual cap was increased from $20 million to $30 million for total motion picture production tax credits and/or musical and theatrical production tax credits. For TY 2023 and TY 2024, the aggregate annual cap was increased from $20 million to $40 million for total motion picture production tax credits and/or musical and theatrical production tax credits. No credits shall be issued on or after July 1, 2027, unless the production has received initial certification prior to July 1, 2027.

Reliability Index: 1

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Business Corporation Tax | $4,956,521 | < 10 |
| 2020 Bank Tax | $0 | 0 |
| 2020 Ins Co Gross Premiums Tax | $519,885 | < 10 |
| 2020 Personal Income Tax | $656,223 | 17 |
| **2020 Total** | **$6,132,629** | **Not Available*** |
| 2021 Business Corporation Tax | $7,616,056 | < 10 |
| 2021 Bank Tax | $0 | 0 |
| 2021 Ins Co Gross Premiums Tax | $4,241,832 | 16 |
| 2021 Personal Income Tax | $1,689,149 | 40 |
| **2021 Total** | **$13,547,037** | **Not Available*** |

**Indicates data that is not disclosed by Taxation due to taxpayer's confidentiality*

Projection Methodology: The projection for CY 2023-CY 2025 motion picture production tax credits is based on estimates prepared by the Office of Revenue Analysis for the November 2023 Revenue Estimating Conference for FY 2021-FY 2024 for motion picture production projects that qualify under R.I. Gen. Laws Ch. 44-31.2. This analysis assumes that the full $40 million of motion picture production and/or musical and theatrical production tax credits will be utilized in CY 2024, while CY 2025 and CY 2026 assume a $20 million maximum allowance and CY 2027 a $10,000,000 maximum allowance. The allocation of the total amount of motion picture production tax credits to CY 2023-CY 2025 was executed using the percentages derived for the allocation of motion picture production tax credits and the Office of Revenue Analysis applying these percentages to the estimates for FY 2023-FY 2026 for the included motion picture productions. Each fiscal year estimate was assumed be equally split into each calendar year within that fiscal

year (e.g. FY 2024 includes CY 2023 and CY 2024). The amount of motion picture production tax credits allocated to each tax type is based on that tax type's three-year average percentage of total motion picture production tax credits redeemed. For personal income tax, the percentage is 24.8%; for business corporation tax the percentage is 60.1%; for bank (financial institutions) tax the percentage is 0.0%; and for insurance company gross premiums tax the percentage is 15.1%. No company has ever used a motion picture production tax credit against the tax owed under the public service corporation tax.

Law Comparison: Connecticut, Maine, and Massachusetts have similar provisions.

Connecticut: Production companies incurring production expenses or costs between $100,000 and $500,000 may be eligible for a credit equal to 10% of production expenses or costs, between

$500,000 and $1 million may be eligible for a credit equal to 15% of production expenses or costs, and more than $1 million may be eligible for a credit equal to 30% of production expenses or costs. To qualify for the credit, production companies must conduct at least 50% of the principal photography days within the state, expend at least 50% of post-production costs within the state, or expend at least $1 million of post-production costs within the state. No expenses or costs incurred outside the state and used within the state are eligible for the credit. No credit may be sold, assigned, or otherwise transferred, in whole or in part, more than three times. Issued credits can be carried forward for five income years. For income tax years commencing on or after January 1, 2019, for credits that are sold, assigned, or otherwise transferred, the taxpayer may only claim 92% to 95% of the credit value determined by the relationship between the buyer and the seller of the credit. Beginning in TY 2022, eligible production companies or other taxpayers claiming the credit (i.e., transferees) may only claim 78% of the credit's value when using it against the sales and use tax, and transferees may claim the credit against the tax only if there is at least 50% common ownership between the transferee and eligible production company that transferred the credit. The limitation on the amount of credit that can be claimed against sales and use tax increases from 78% to 92% for TY 2024 and TY 2025.

Connecticut Statute: Conn. Gen. Stat. § 12-217jj

Maine: A visual media production company is allowed a nonrefundable income tax credit in an amount equal to 5% of the nonwage visual media production expenses if such expenses are $75,000 or greater. In addition, a certified visual media production company is allowed a reimbursement equal to 12% of certified production wages paid to employees who are residents of Maine and 10% of certified production wages paid to other employees.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 5219-Y and 6902(1)

Massachusetts: A taxpayer engaged in the making of a motion picture is allowed a credit equal to 25% of the total aggregate payroll paid by a motion picture production company and constitutes Massachusetts source income (excluding any employee whose salary is equal to or greater than $1 million) if total in-state production costs are at least $50,000. In addition, a taxpayer whose in-state production expenses exceed 50% of the total production expenses for a motion picture or who shoots at least 50% of the total principal photography days of the film in Massachusetts is entitled to an additional credit equal to 25% of all Massachusetts production expenses, excluding the payroll expenses. They are also allowed a credit equal to 25% of the total aggregate payroll paid by a motion picture production company that constitutes Massachusetts source income. Effective January 1, 2022, a taxpayer must have 75% of production expenses attributable to Massachusetts to be eligible for the additional credit. These tax credits are refundable, may be carried forward up to five subsequent taxable years, and have been made permanent.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6(l) and ch. 63, §38(X)

**20. Motor Carrier Fuel Use Taxes Paid to Rhode Island:**

Statutory Reference: R.I. Gen. Laws § 31-36.1-15

Stated Purpose: "The purpose of this chapter is to assure the payment of tax on fuel consumed by motor carriers in propelling qualified motor vehicles on the public highways in Rhode Island."

Year Enacted / Last Year Amended: 1981 / 2006

Description: All motor carriers are entitled to a credit against the motor carrier fuel use tax imposed on motor fuel purchased within the state but used outside of the state for its operations, provided that the tax imposed by the laws of the State of Rhode Island has been paid by the motor carrier on said fuel. The credit is equal to the tax rate per gallon of motor fuel in effect when the fuel was purchased. The tax rate per gallon of motor fuel was $0.34 in CY 2020 – the first half of CY 2023. The rate increased to $0.37 per gallon as of July 1, 2023.

The tax credit is refundable to the extent that the credit, to which any motor carrier is entitled for any quarter, exceeds the amount of the motor fuel tax for which the motor carrier is liable. The motor carrier is also allowed to use the credit excess towards any of the eight succeeding quarters.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. The number of taxpayers is the number of licensed International Fuel Tax Agreement (IFTA) carriers in Rhode Island.

Reliability Index: 1

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Motor Carrier Fuel Use Tax | $5,979,435 | 938 |
| 2021 Motor Carrier Fuel Use Tax | $4,407,456 | 1,099 |
| 2022 Motor Carrier Fuel Use Tax | $3,250,114 | 1,114 |

Projection Methodology: The number of taxpayers for CY 2023 is the number of IFTA carriers as provided by Taxation as of December 2023. The projected revenue forgone for CY 2023 is the average amount of revenue forgone for each taxpayer in CY 2022 multiplied by the number of IFTA carriers for CY 2023. CY 2024 and CY 2025 revenue forgone amounts and number of taxpayers are held constant with CY 2023.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Motor Carrier Fuel Use Tax | $2,859,166 | 980 |
| 2024 Motor Carrier Fuel Use Tax | $2,859,166 | 980 |
| 2025 Motor Carrier Fuel Use Tax | $2,859,166 | 980 |

Law Comparison: All of the five New England states are also signatories of the International Fuel Tax Agreement and, therefore, all have similar provisions.

## 21. Musical and Theatrical Production:

Statutory Reference: R.I. Gen. Laws § 44-31.3-2 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 16

Stated Purpose: "The purpose of this chapter is to create economic incentives for the purpose of stimulating the local economy and reducing unemployment in Rhode Island."

Year Enacted / Last Year Amended: 2012 / 2022

Description: This credit is equal to 30% of the production and performance expenditures and transportation expenditures directly attributable to activities in the state for a live stage production in a qualified production facility. The credit is allowed against the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and the personal income tax. To qualify, the minimum production budget must be $100,000, and the maximum credit allowed is $5 million per production.

No more than $20 million may be issued for any tax year for the total combined motion picture production tax credits and musical and theatrical production tax credits with a maximum of $15 million available for musical and theatrical productions. For TY 2022, the aggregate annual cap was increased from $20 million to $30 million for total motion picture production tax credits and/or musical and theatrical production tax credits. For TY 2023 and TY 2024, the aggregate annual cap was increased from $20 million to $40 million for total motion picture production tax credits and/or musical and theatrical production tax credits. In the 2023 session, the type of productions eligible for the musical and theatrical tax production credits was expanded to include national touring productions. No credits shall be issued on or after July 1, 2027, unless the production has received initial certification prior to July 1, 2027.

Data Source: Rhode Island Division of Taxation. Data is current as of November 2023.

Reliability Index: 1

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Business Corporation Tax | $0 | 0 |
| 2020 Public Service Corporation Tax | $0 | 0 |
| 2020 Bank Tax | $0 | 0 |

| 2021 Personal Income Tax | $1,002,882 | 29 |
| **2021 Total** | **$1,002,882** | **29** |

Projection Methodology: The projection for CY 2022-2025 musical and theatrical production tax credits is based on estimates prepared by the Office of Revenue Analysis. For CY 2022 ORA took estimated unused credit amounts as well as credit assigned for CY 2022 reported at the 2023 November Revenue Estimating Conference by the Rhode Island Film and Television Office. Credit usage per year was allocated in the same manner that was observed from previously assigned credit usage in CY 2012-2021. ORA estimates that 34% of the credit issued is used in the year of issuance; 30% of the credit issued is used in the year immediately following issuance; 33% of the credit issued is used in the second year immediately following issuance; and 2% of the credit issued is used in the third year immediately following issuance. A similar method was used for CY 2023, CY 2024 and CY 2025 however, ORA estimated the amount of credit assigned by taking the average amount of credit assigned from CY 2019-2023. Finally, the amount of projected credit was allocated to tax type by utilizing the average credit usage per tax type from CY 2016-2021.

| **2025 Projected Total** | **$352,383** | ***No estimate possible*** |

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Beginning on or after January 1, 2024, Connecticut will issue tax credits for production companies of eligible pre- and post-Broadway productions and live theatrical tours performed at qualified facilities in the state. The credit equals 30% of the production's eligible expenditures. The annual fiscal year cap is $2.5 million.

Connecticut Statutes: Conn. P.A. 23-204 § 372

**22. New Qualified Jobs Incentive Act:**

Statutory Reference: R.I. Gen. Laws Chapter 44-48.3

Stated Purpose: "Through the establishment of a jobs incentive program, Rhode Island can take steps to stimulate business expansion and attraction, create well-paying jobs for its residents, and generate revenues for necessary state and local governmental services."

Year Enacted / Last Year Amended: 2015 / 2022

Description: A qualifying business may receive a tax credit of at least $2,500 a year for each new full-time job created where the employee works at least 35 hours a week and whose wages are subject to withholding. The credit amount can increase if the business meets certain criteria. For each application approved after July 1, 2019, the tax credit is capped at 75% of the reasonable withholding received by the state for each new full-time job created or $7,500, whichever is greater.

Administered by CommerceRI, the program may provide tax credits to eligible businesses for a period of up to 10 years. An eligible business under the program is allowed a credit against the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax. The tax can be carried forward for the succeeding four years. In addition, the tax credit can be redeemed for cash in whole or in part for 90% of the value of the tax credit (reported below as refund option). The new qualified jobs incentive tax credit sunset is December 31, 2024.

**Indicates data that is not disclosed by Taxation due to taxpayer's confidentiality*

Projection Methodology: TY 2022 is as provided by the Division of Taxation, with data as of December 2023. The projection for CY 2023-CY 2025 is based on information provided by CommerceRI in their testimony at the November 2023 Revenue Estimating Conferences. CommerceRI reported future credit activity in fiscal years. ORA calculated a CY amount by taking half of each fiscal year the calendar year spanned. The distribution between tax types of projected revenue forgone was calculated based on data from TY 2018-TY 2022 (TY 2018 and TY 2019 figures were reported in the *2022 Tax Expenditures Report*). ORA assumed no tax type would have more than 10 taxpayers in any given calendar year.

Law Comparison: Connecticut, Massachusetts, New Hampshire, and Vermont have similar provisions.

Connecticut: Under the Jobs CT tax rebate program, effective January 1, 2023, qualified businesses that create jobs in the state may be allowed a tax rebate, which may be treated as a credit against the corporation business tax or pass-through entity tax or an offset of the insurance companies tax on premiums, for reaching certain job creation targets. The rebate is based on the number of new FTEs created and maintained, the FTE's average wage, and the state income tax that would be paid on this average wage for a single filer. A maximum of $40 million in credits may be issued in a given fiscal year.

Connecticut Statutes: Conn. Gen. Stat. §§ 32-7t

Maine: Qualified businesses are eligible for a reimbursement for qualified employees equal to a percentage of withholding taxes during the first five calendar years. The percentage of reimbursement is equal to a percentage dependent upon the labor market unemployment rate compared to the State's unemployment rate. Percentages can be 30%, 50%, or 75%. The percentage for reimbursement for the 6th to 10th years of the employment tax increment financing development program is established upon the labor market unemployment rate at the beginning of the 6$^{th}$ year. The program is capped at a total annual amount of $20 million in 1996 dollars adjusted by CPI.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 6754

Massachusetts: The Economic Development Incentive Program credit provisions include certified job creation projects, with a credit up to $5,000 per job created. Criteria such as job creation or capital investment used to certify credit eligible projects are dependent upon the type of project. Credits are not transferable but may be refundable only for certain designated projects. Credits are subject to a yearly cap of $30 million per year, with a max maximum of $5 million per year in refundable credits.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6(g) and ch. 63, § 38N, see also TIR 16-15

New Hampshire: New Hampshire provides for a tax credit to businesses who hire new, full-time, year-round employees in Coos County for work directly in one or more business activities. To qualify, an employee must be paid actual wages equal to or greater than 150% of the current state minimum wage. A qualified tax credit employee does not include an employee who is: (a) shifted to a new position because of a merger, acquisition, or restructuring; (b) laid-off and rehired within 270 days to the same or a similar position; or (c) not on the employer's payroll for at least 90 days prior to the date on which the employer claims the credit for the first tax period. The tax credit is renewable for four consecutive additional tax years and can be carried forward for up to five years. No credits may be granted after December 31, 2027.

New Hampshire Statute: N.H. Rev. Stat. §§77-E:3-c and 162-Q

Vermont: Vermont does not include a credit but does provide a cash incentive to authorized companies, paid in installments and based on new, qualified job and payroll creation in Vermont. The incentive amount is earned over a period of up to five years and paid out over a period of up to nine years, provided the company maintains or increases base payroll and meets the necessary targets.

Vermont also provides a performance-based employment growth incentive to be taken against a business' withholding tax due upon approval. The value of the incentives is dependent upon the net fiscal benefit resulting from projected qualifying payroll and qualifying capital investment. An incentive ratio is applied to the net fiscal benefit generated by a cost-benefit model in order to determine the maximum award for each application it approves. An incentive percentage for each approved application is calculated by dividing the authorized award amount by the five-year sum of all payroll targets. The council may authorize incentives in excess of net fiscal benefit multiplied by the incentive ratio not to exceed an annual authorization established by law.

To the extent a business authorized to earn employment growth incentives experiences a 90% or greater drop below application base jobs or, in the case of a business with no jobs at the time its application is approved a 90% or greater drop below its cumulative job target during the utilization period, all authority to earn and claim incentives is revoked and such business will be subject to recapture of all incentives previously claimed, together with interest and penalty.

Vermont Statute: Vt. Stat. Ann. tit. 32 § 3325-3342

### 23. Property Tax Relief:

Statutory Reference: R.I. Gen. Laws Chapter 44-33

Stated Purpose: "The purpose of this chapter is to provide relief, through a system of tax credits and refunds and appropriations from the general fund, to elderly and/or disabled persons who own or rent their homes."

Year Enacted / Last Year Amended: 1977 / 2006

Description: Rhode Island full-year residents with total annual household income of $30,000 or less are entitled to a refundable credit against the personal income tax equal to the amount by which the property taxes accrued or rent constituting property taxes accrued upon the claimant's homestead for the taxable year exceeds a certain percentage of the claimant's total household income. The percentage is based upon income level and household size. This credit is available only to those taxpayers who were over the age of 65 and/or disabled. The credit is computed based on the following table:

| Income Range | 1 Person | 2 or More Persons |
|---|---|---|
| Less than $6,000 | 3% | 3% |
| $6,001 to $9,000 | 4% | 4% |
| $9,001 to $12,000 | 5% | 5% |
| $12,001 to $15,000 | 6% | 5% |
| $15,001 to $30,000 | 6% | 6% |

Prior to TY 2022, the maximum credit was increased by increments of five dollars from the maximum of $300 in 2006 based on income derived from video lottery games. The credit maximum in TY 2020 equaled $400, while in TY 2021 the credit maximum was $415.

For TY 2022, the maximum qualifying income amount was increased from $30,000 to $35,000, and the maximum credit amount was set at $600. The qualifying income ranges and maximum credit amount were tied to inflation beginning on or after January 1, 2023.

Data Source: Division of Taxation, November 2023 Revenue Estimate Conference (REC) testimony.

Reliability Index: 1

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $3,390,353 | 12,023 |
| 2021 Personal Income Tax | $3,238,106 | 10,712 |

Projection Methodology: TY 2022 is as reported at the November 2023 REC. Revenue forgone for TY 2023-TY 2025 is grown by S&P Global's CPI-U forecast as adopted at the November 2023 REC. The number of taxpayers is held constant.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $5,273,323 | 10,495 |
| 2023 Personal Income Tax | $5,397,820 | 10,495 |
| 2024 Personal Income Tax | $5,510,085 | 10,495 |
| 2025 Personal Income Tax | $5,642,714 | 10,495 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: The tax credit is a maximum of $200 with a phase out income schedule based on filing status through TY 2021. Beginning in TY 2022, the credit maximum is $300 for TY 2022. For the tax years 2017-2021, eligibility for the credit is limited to taxpayers who are 65 years of age or older or validly claim at least one dependent on their federal income tax return for that year.

Connecticut Statute: Conn. Gen. Stat. § 12-704c

Maine: A refundable tax credit is available for property taxes paid on a resident's homestead above 5% of income for TY 2020 and TY 2021 and above 4% for TY 2022 and thereafter. The credit is limited to $750 for resident individuals under 65 years of age or $1,200 for resident taxpayers 65 years and older for TY 2020 and increased to $1,000 and $1,500, respectively, starting in TY 2021. Rent constituting property tax equals 15% of rent. There is a benefit base limit (i.e., maximum amount of property taxes paid) to qualify a taxpayer for this credit. In TY 2022, this cap is $2,200 for single filers, $2,800 for joint filers without dependents, and $3,450 for joint filers with dependents or head of household filers.

For tax years beginning on or after January 1, 2023, resident individuals who are veterans and 100% permanently and totally disabled are allowed an additional income tax credit equal to the amount of the property tax fairness credit the individual qualifies for, effectively doubling the property tax fairness credit. The total credit may not exceed the property taxes paid and rent constituting property taxes paid by the individual during the tax year.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5219-KK

Massachusetts: Massachusetts' provisions include a credit available only to taxpayers 65 and older who rent or own a residential property located in Massachusetts (owners must reside in the property as a principal residence). The credit is equal to the amount by which the real estate tax payment, or 25% of the rent constituting the real estate tax payment, exceeds 10% of the taxpayer's total income, not to exceed a certain threshold ($1,170 for TY 2021). There are income limits based on filing status, as well as a property value limitation. All threshold figures are subject to inflation. For TY 2021, income limits are: $62,000 for single filers, $78,000 for head of household filers, and $93,000 for joint filers. The assessed valuation of the residence cannot exceed $884,000. This credit was increased to $2,400 and indexed to inflation, retroactive to January 1, 2023.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6(k)

Vermont: Vermont's provisions include a credit on property taxes for residents below a certain income threshold and that meet certain other requirements. Taxpayers must be domiciled in Vermont for a full year, the property must qualify as a homestead as of April 1 (taxpayers must file a homestead declaration), and not be claimed as a dependent of another taxpayer.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 6066

**24. Rebuild Rhode Island:**

Statutory Reference: R.I. Gen. Laws Chapter 42-64.20

Stated Purpose: "Through the establishment of a rebuild Rhode Island tax credit program, Rhode Island can take steps to stimulate business development; retain and attract new business and industry to the state; create good-paying jobs for its residents; assist with business, commercial, and industrial real estate development; and generate revenues for necessary state and local governmental services."

Year Enacted / Last Year Amended: 2015 / 2023

Description: In general, this program offers tax credits against the business corporation tax, public service corporation tax, bank excise tax, insurance company gross premiums tax, and personal income tax for certain commercial developments that have a financing gap. The project cost must be at least $5 million. The maximum credit is the lesser of 30% of the total project cost, or the amount needed to close a project financing gap. The credit is capped at $15 million for any qualified development project, including projects completed in phases or in multiple projects and the amounts awarded for any sales and use tax exemptions. However, projects that would develop land or buildings on the I-195 land as a separate qualified development project may be exempt from the maximum credit allowed of 30% of the total project cost if it is less than the amount needed to close a project funding gap. The maximum aggregate tax credit amount is set at $210 million, excluding credits issued for projects on the I-195 land, but was increased to $225 million in the 2023 session. The project cap for a project on I-195 land is set at $25 million, also inclusive of any sales and use tax exemptions.

The credit allowed cannot reduce the tax due for any taxable year by more than 50% of the tax liability that would be payable and, for corporations, to no less than the corporate minimum tax as set in R.I. Gen. Laws § 44-11-2(e). The amount that exceeds the taxpayer's tax liability may be carried forward for up to four years, and credits may also be assigned or sold. The program is administered by CommerceRI. At the discretion of CommerceRI, projects eligible for the tax credit may be exempt from sales and use tax on certain items used in the project. Finally, the credit recipient may also request a refund of their credits in whole or in part for 90% of the credit amount.

Effective July 1, 2022, construction projects over $10 million are subject to prevailing wage requirements and must receive certification of compliance with these requirements to receive tax credits under this program. The sunset date was extended to December 31, 2024.

**Indicates data that is not disclosed by Taxation due to taxpayer's confidentiality*

Projection Methodology: TY 2022 projected revenue forgone amounts and the number of taxpayers were reported by the Division of Taxation and are accurate as of December 2023. For TY 2023-TY 2025 projections of revenue forgone, ORA applied the three-year average of growth of anticipated Rebuild tax credits as reported by CommerceRI to TY 2022 amounts. For the projected number of taxpayers for all tax types except the refund option, ORA applied the three-year average of growth of the number of certified Rebuild projects as reported by CommerceRI to TY 2022 number of taxpayers. As the actual figure for the refund option is unavailable, ORA held the number of taxpayers constant with TY 2022.

Law Comparison: Connecticut, Maine, and Massachusetts have similar provisions.

Connecticut: A tax credit is available for investments in eligible industrial site investment projects or eligible urban reinvestment projects. The tax credit is redeemable at an amount equal to a percentage of the approved investments in accordance with a set schedule over ten years. The per project cap is $100,000,00, and the total program cap is $950,000,000. A carryforward is allowed for up to five years, and credits are transferable.

Connecticut Statute: Conn. Gen. Stat. § 32-9t

Maine: A taxpayer making a qualified equity investment in a low-income community business is allowed a refundable credit equal to 39% of the investment. The credit is taken over seven years, with 0% allowed in the first two years, 7% allowed in year three, and 8% allowed in remaining years. The credit may be carried forward for up to 20 years. Certain recapture provisions apply.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5219-HH

Massachusetts: Massachusetts has a refundable credit that provides a tax credit equal to 50% of the total qualified investments against state tax liability for those who invest in a community development corporation's community investment plan, which invest in economic opportunities for low- and moderate-income households. Qualified investment must be at least $1,000. The total value of the tax credits authorized are limited to $8,000,000 in TY 2022, $10 million in TY 2021 and TY 2022, and $12 million in TY 2023-TY 2025. The credit can be carried forward up to 5 years.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 38EE

## 25. Research and Development Expense:

Statutory Reference: R.I. Gen. Laws § 44-32-3

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1994 / 1999

Description: A taxpayer is allowed a credit against the business corporation tax and insurance company gross premiums tax for the excess, if any, of the qualified research expenses for the taxable year over the base period research expenses, where qualified and base period research expenses are as defined in 26 U.S.C. § 41. The amount of credit is equal to 22.5% of expenses for the first $25,000 worth of credit taken and 16.9% of expenses for any amount of applicable credit above $25,000.

The credit allowed cannot reduce the tax due for any taxable year by more than 50% of the tax liability that would be payable and, for corporations, to no less than the corporate minimum tax as set in R.I. Gen. Laws § 44-11-2(e). Unused amounts of the credit earned in a taxable year may be carried forward up to seven succeeding tax years.

| **2025 Projected Total** | **$4,323,751** | **75** |

**Indicates data that is not disclosed by Taxation due to taxpayer's confidentiality*

Law Comparison: All of the New England states have similar provisions.

Connecticut: A corporation may receive a credit against its corporation business tax equal to 20% of the amount by which research and experimental expenditures, as defined in § 174 of the Internal Revenue Code, in the current income year exceed expenditures in the preceding year. Unused credits may be carried forward for 15 years.

Connecticut also allows a credit against corporation business taxes for research and development expenditures incurred in the state. The credit is 1% of expenditures up to $50 million, $500,000 plus 2% of the excess of expenses over $50 million and up to $100 million, $1.5 million plus 4% of the excess of expenses over $100 million and up to $200 million, and 6% of expenditures over $200 million. Unused credits may be carried forward until fully taken. Beginning in TY 2021, the carry forward period is capped at 15 years. Current law caps the total value of credits corporations may claim at 50.01% of their annual tax liability. The credits for research and development expenditures can reduce up to 60% of their liability for the 2021 income year and 70% of their liability for the 2022 income year and for each income year after that.

Companies with less than $70 million in gross sales that cannot take either research and development credit because they do not have a tax liability are permitted to sell unused credits back to the state at 65% of their value. The maximum annual refund is $1.5 million per company.

Connecticut Statute: Conn. Gen. Stat. §§ 12-217j, 12-217n, 12-217ee, 12-217zz(a)(4)

Maine: Maine's provisions include a credit of 5% of the excess, if any, of the qualified research expenses for the tax year over the average spent on research expenses over the last 3 years, and 7.5% of the basic research payments. The credit is limited to 100% of the corporation's first $25,000 of tax and 75% of the tax over $25,000. There is a 15-year carry forward.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5219-K

Massachusetts: A credit is allowed for domestic or foreign corporations against its excise tax. There are two calculation methods allowed. The first credit calculation is equal to 10% of the excess, if any, of the qualified research expenses for the taxable year over a base amount plus 15% of the basic research payments determined under § 41(e)(1)(A) of the Internal Revenue Code. The second method is based on the federal simplified method. The credit amount is equal to a percentage of the difference between the taxpayer's qualified research expenses for the current tax year and 50% of the taxpayer's average qualified research expenses for the preceding three tax years. The percentage used to calculate the credit under the second method was phased in. The rate was 7.5% for CY 2020 and 10% for CY 2021 and thereafter.

The amount of research credit that can be used in a taxable year is limited to 100% of a corporation's first $25,000 of excise tax, plus 75% of the corporation's excise tax in excess of $25,000. A single $25,000 amount applies to affiliated groups of corporations. Credits can be carried forward for 15 years, in general, but in certain instances the credit can be carried forward indefinitely. The research credit is not transferable and generally is not refundable. However, a certified Life Science Company may apply to the Massachusetts Life Science Center for a refund of a portion of its available excess research credits in lieu of carrying such credits forward for use in later years.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 38M

New Hampshire: There is a research and development tax credit for qualified manufacturing research and development expenditures made or incurred during the fiscal year. The aggregate of tax credits is capped at $7,000,000 for any fiscal year. Credit can be carried forward for the subsequent five tax years. The amount of the credit is lesser of: (A) 10% of the excess of the qualified manufacturing research and development expenses for the taxable year over the base amount; (B) the proportional share of the maximum aggregate credit amount; and (C) $50,000.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:5(XIII)

Vermont: A taxpayer is eligible for a credit against the income tax imposed in an amount equal to 27% of the amount of the federal tax credit allowed in the taxable year for eligible research and development expenditures under 26 U.S.C. § 41(a) and which are made in Vermont. Any unused credit may be carried forward for up to 10 years.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5930ii

## 26. Research and Development Property:

Statutory Reference: R.I. Gen. Laws § 44-32-2

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1994 / 1999

Description: A taxpayer is allowed a credit against the business corporation tax and insurance company gross premiums tax for tangible personal property and other tangible property, including buildings and structural components of buildings. The property must be depreciable or a recovery property as determined under 26 U.S.C. § 167 and § 168, have a useful life of at least three years, have a situs in the state, and be used principally for purposes of research and development in the experimental or laboratory sense. The amount of credit is equal to 10% of the cost or other basis for federal income tax purposes of the property.

The credit allowed cannot reduce the tax due for corporations to less than the corporate minimum tax as set in R.I. Gen. Laws § 44-11-2(e). Unused amounts of the credit earned in a taxable year may be carried forward up to seven succeeding tax years.

| 2025 Ins Co Gross Premiums Tax | $52,235 | 2 |
| **2025 Projected Total** | **$149,683** | **5** |

Law Comparison: Only Maine has a similar provision.

Maine: Maine has a capital investment credit based on the amount of federal bonus depreciation for eligible property. For individual taxpayers, the credit percentage is 7% for tax years beginning after 2014 and before 2020 and 1.2% for tax years beginning in 2020 and later. For corporate taxpayers, the credit percentage is 9% for tax years beginning after 2014 and before 2020 and 1.2% for tax years beginning in 2020 and later. For credits for investments in TY 2020 and thereafter, taxpayers can recapture the disallowed federal depreciation that represents the credit base in future tax years. The credit is not refundable, but any unused portions may be carried forward for a period not to exceed 20 years. The credit is not limited to research and development property.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 5219-NN

**27. Residential Renewable Energy System:**

Statutory Reference: R.I. Gen. Laws Chapter 44-57

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2000 / 2009

Description: An eligible person who pays all or part of the cost of an eligible renewable energy system is allowed a credit of 25% of the cost of the system against the business corporation tax. The eligible renewable energy systems and their respective maximum costs are: $15,000 for a photovoltaic system, $7,000 for a solar domestic hot water system, $15,000 for an active solar

heating system, $7,000 for a geothermal system, and $15,000 for a wind-energy system. Renewable energy systems with cost in excess of these maximums will receive a credit of 25% of the maximum allowable system cost. The tax credit cannot lower the claimant's tax liability to below the corporate minimum, and unused amounts of the credit cannot be carried forward.

Law Comparison: Only Massachusetts has a similar provision.

Massachusetts: Massachusetts provides a credit equal to the lesser of 15% of the net expenditure for renewable energy source property or $1,000. Massachusetts allows a carry-over of any excess amount for three years.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6(d)

**28. Rhode Island Small Business Development Fund:**

Statutory Reference: R.I. Gen. Laws § 42-64.33-3

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2019 / N/A

Description: Under the Rhode Island Small Business Development Fund tax credit program, a small business fund investor upon making a capital investment is eligible for a nonrefundable tax credit against the insurance company gross premiums tax. An eligible business is defined as a

business that at the time of initial qualified investment had less than 250 employees, had its principal business operations in the state, had $15 million or less in net income from the preceding tax year, and was engaged in industries listed in R.I. Gen. Laws §42-64.33-2(6)(iv). Any unused amount of credit may be carried forward for a period of seven years. Credits earned by or allocated to a partnership, limited liability company, or S corporation may be allocated to the partners, members, or shareholders of the entity for their direct use against state tax liability.

This tax credit program allows the State to recapture tax credit amounts if the small business fund investor fails to meet some or all requirements of the program.

Law Comparison: Maine has a similar provision.

Maine: Maine's seed capital investment credit is eligible to an investment in a new business that: a) is located in Maine; b) has gross sales of $3 million or less per year; c) is the full-time, professional activity of at least one of the principal owners; d) that has been determined by the authority to be a manufacturer or a value-added natural resource enterprise; and e) is a manufacturer, value-added natural resource enterprise, or a product or service provider with 60% of sales derived from outside the state or to out-of-state residents, engaged in developing or applying advanced technologies or is a certified visual media production company. The credit rate is 50% for investors prior to April 1, 2020 and 40% after that date. Beginning with the tax year the investment was made, 25% of the authorized credit may be used for each tax year, limited to 50% of tax liability. Only investments made by venture capital funds are fully refundable. Otherwise, unused credits can be carried forward for 15 years. Effective March 2021, improvement property

placed in service after December 31, 2017 and before January 1, 2020 may not be included for purposes of calculating the credit. For tax years 2021 and 2022, the annual aggregate credits issued under this program was reduced from $15 million to $13.5 million.

Maine also had two similar credits that have been repealed – the jobs and investment tax credit and the high-technology investment tax credit, both of which can still be taken via carry forwards through TY 2022 and TY 2026, respectively.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 5215, 5216-B, and 5219-M and tit. 10, § 1100-T

**29. Stay Invested in RI Wavemaker Fellowship:**

Statutory Reference: R.I. Gen. Laws Chapter 42-64.26

Stated Purpose: "The purpose of the fund is to expand employment opportunities in the state and to retain talented individuals in the state by providing tax credits in relation to education loan repayment expenses to applicants who meet the eligibility requirements under this chapter."

Year Enacted / Last Year Amended: 2015 / 2021

Description: The Stay Invested in RI Wavemaker Fellowship (Wavemaker) program provides a tax credit that can be claimed by an applicant who graduated from an accredited post-secondary institution of higher learning with an associate's, bachelor's, graduate, or post-graduate degree and at which the applicant incurred education loan repayment expenses. The taxpayer must be a full-time employee with a Rhode Island-based employer located in the State for a term of up to four consecutive 12-month periods and work in one or more of the following covered fields: life, natural or environmental sciences; computer, information or software technology; advanced mathematics or finance; engineering; industrial design or other commercially related design field; or medicine or medical device technology. Effective July 2022, the program was expanded to include health care professionals including healthcare practitioners or mental health professionals, clinical social workers, and mental health counselors licensed by the Department of Health. Effective June 2023, the program was expanded to include teachers in elementary and secondary education.

The maximum amount of credit that can be granted by CommerceRI to an applicant is $1,000 for an associate degree holder, $4,000 for a bachelor's degree holder, and $6,000 for a graduate or post-graduate degree holder. Credit amounts may not exceed the education loan repayment expenses incurred by such applicant during each 12-month period.

The credit is allowed against the personal income tax. The fellowship recipient may also request a refund of their credits, in whole or in part, for 100% of the credit amount. The Stay Invested in RI Wavemaker Fellowship tax credit sunset was extended to December 31, 2024.

Projection Methodology: TY 2022 revenue forgone amounts and number of taxpayers are as provided by the Division of Taxation. For TY 2023-TY 2025, revenue forgone and number of taxpayers use the TY 2020 – TY 2023 average amount of revenue forgone and count of taxpayers. In addition, ORA added revenue forgone amounts according to additional appropriations made to the Stay Invested in RI Wavemaker Fellowship Fund, compared to FY 2022, of $1,600,000 for FY 2023 and $2,400,000 for FY 2024. FY 2025 and FY 2026 are assumed to also be $2,400,000. These additional appropriations are assumed to be entirely due to the expansion of the program to new taxpayers. For the FY 2023 additional amount, half was assumed to be taken in TY 2023 and was added to the base projection. For FY 2024, half was assumed to be taken in TY 2023 and the other half in TY 2024. ORA followed the same methodology to calculate the additional revenue forgone amounts based on the FY 2025 and FY 2026 figures. These figures were then allocated to personal income tax and the refund option by applying the average three-year revenue forgone figures for each tax type. To estimate the additional number of taxpayers impacted by this expansion, ORA calculated the three-year revenue forgone amount for each taxpayer who had a tax benefit from the Wavemaker program and divided the additional revenue forgone totals by this figure.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $50,111 | < 10 |
| 2022 Refund Option | $1,396,808 | 158 |
| **2022 Total** | **$1,446,919** | **Not Available*** |
| 2023 Personal Income Tax | $133,484 | 33 |
| 2023 Refund Option | $2,835,140 | 812 |
| **2023 Projected Total** | **$2,968,624** | **844** |
| 2024 Personal Income Tax | $151,633 | 57 |
| 2024 Refund Option | $5,508,097 | 921 |
| **2024 Projected Total** | **$3,368,624** | **978** |

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2025 Personal Income Tax | $151,633 | 57 |
| 2025 Refund Option | $5,508,097 | 921 |
| **2025 Projected Total** | **$3,368,624** | **978** |

**Indicates data that is not disclosed by Taxation due to taxpayer's confidentiality*

Law Comparison: Only Connecticut, Maine, and Vermont have similar provisions.

Connecticut: Connecticut offers a tax credit for employers making certain student loan payments, effective January 1, 2022. Connecticut employers who employ residents on a full-time basis may claim a credit of up to 50% of student loan payments made directly by the business on behalf of their employees. The tax credit is refundable only for small businesses (who are defined as having gross receipts of less than $5 million).

Connecticut Statute: Conn. Gen. Stat. § 12-217qq

Maine: A credit was previously available for certain educational loan payments for Maine resident individuals who earned an associate or bachelor's degree from a Maine or non-Maine community college, college or university or a graduate degree from an accredited Maine college or university and who subsequently lived in Maine, worked for an employer located in Maine, and paid taxes in Maine. The credit was available to eligible graduates and employers making loan payments on behalf of qualifying employees. For tax years beginning in 2020, Maine residents who were employed in Maine prior to, or during, the COVID-19 pandemic and who became unemployed as a result of COVID-19 may have been eligible for the educational opportunity tax credit to the extent otherwise qualified.

For tax years beginning on or after January 1, 2022, qualified individuals may claim the refundable student loan repayment tax credit (SLRTC), which replaces the repealed educational opportunity tax credit (EOTC). The new SLRTC is equal to the amount of eligible student loan payments made directly by the taxpayer to a relevant lender during the tax year, plus the amount of unused EOTC amounts carried forward from prior tax years, up to $2,500. However, up to $3,500 may be claimed for either tax year 2022 or tax year 2023, whichever year is elected, by qualified individuals who received an EOTC during any tax year beginning in 2019-2021 that was based on loans acquired to obtain a bachelor's degree or associate degree in science, technology, engineering, or mathematics. A $25,000 lifetime cap applies to the SLRTC for each qualified individual.

Maine Statute: 36 Me. Rev. Stat. Ann tit. 36, § 5217-D and 5217-E

Vermont: Vermont does not have a credit but does allow for a personal income tax deduction for the interest paid on qualified education loans. There is an income limit of $120,000 for single taxpayers and $200,000 for married taxpayers.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)(B)(vi)

## 30. Tax on Net Estate of Decedent:

Statutory Reference: R.I. Gen. Laws § 44-22-1.1

Year Enacted / Last Year Amended: 1985 / 2014

Description: Provides a credit against the estate and transfer taxes owed under R.I. Gen. Laws Chapter 44-22 for decedents whose net estate is over a specific threshold. The Rhode Island credit amount and threshold amounts are adjusted for inflation. See below for the inflation figures for the credit amount and new estate threshold:

| *Year of Death of Decedent* | *Credit Amount* | *Threshold Amount* |
|---|---|---|
| 2020 | $69,515 | $1,579,922 |
| 2021 | $70,490 | $1,595,156 |
| 2022 | $74,300 | $1,648,611 |
| 2023 | $80,395 | $1,733,264 |

Data Source: Rhode Island Division of Taxation

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Estate and Transfer Tax | $8,762,508 | 132 |
| 2021 Estate and Transfer Tax | $12,201,478 | 177 |

Projection Methodology: Projected revenue forgone amounts and number are taxpayers were grown by the S&P Global forecast of the consumer price index – for all urban consumers (CPI-U) and Rhode Island population 65+, respectively, provided for the November 2023 Revenue Estimating Conference.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Estate and Transfer Tax | $13,076,069 | 182 |
| 2023 Estate and Transfer Tax | $13,895,381 | 187 |
| 2024 Estate and Transfer Tax | $14,293,284 | 191 |
| 2025 Estate and Transfer Tax | $14,632,260 | 195 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: For decedents dying on or after January 1, 2020, if the taxable estate is not over $5.1 million than there is no estate tax owed. For anything over $5.1 million, Connecticut taxes the amount in a graduated rate schedule from 10% to 12% on the excess over $10.1 million. Through tax year 2022, the estate tax threshold will increase annually until it matches the federal threshold ($12.92 million for TY 2023 and is indexed to inflation). The Connecticut threshold will be $7.1 million in TY 2021 and $9.1 million in TY 2022. Connecticut is scheduled to match the federal exemption in TY 2023.

Connecticut Statute: Conn. Gen. Stat. § 12-402

Maine: The annual Maine exclusion amount is $5.6 million. Maine has a 3-tier tax rate system of 8%, 10%, and 12% based on the amount of the value of the estate. ORA calculates that the Rhode Island credit equivalent of Maine's $5.6 million exception would be $462,800.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 4102

Massachusetts: Massachusetts has an exclusion amount of $1.0 million. ORA calculates the Rhode Island credit equivalent of such an exemption would be $33,200. For estates in which the death occurred after January 1, 2023, the exclusion amount is increased to $2.0 million. This exclusion is effectuated through a new tax credit, capped at $99,600, that is available to all estate tax filers.

Massachusetts Statute: Mass. Gen. Laws ch. 65C, § 3

Vermont: Vermont has an independent estate tax rate schedule and exemption amount. Estates have an exemption amount of $5 million and are taxed at 16% for any value over that.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 7442a

### 31. Taxes Paid to Other States:

Statutory Reference: R.I. Gen. Laws § 44-30-18

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1971 / 1972

Description: A resident shall be allowed a credit against the personal income tax for the aggregate of net income taxes imposed for the taxable year by other states and the District of Columbia, provided that such taxes are imposed irrespective of the residence of the taxpayer. The credit shall not exceed the proportion of the taxpayer's Rhode Island personal income tax derived from Rhode Island income and taxed by the other state in the same taxable year.

Data Source: Office of Revenue Analysis (ORA) calculations based on TY 2020 and TY 2021 personal income tax data.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $236,639,111 | 96,160 |
| 2021 Personal Income Tax | $235,583,468 | 99,739 |

Projection Methodology: The average 3-year growth rate for revenue forgone and the number of taxpayers was applied to TY 2021 amounts to project TY 2022 – TY 2025.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $246,504,686 | 102,784 |
| 2023 Personal Income Tax | $257,932,191 | 105,923 |
| 2024 Personal Income Tax | $269,889,454 | 109,157 |
| 2025 Personal Income Tax | $282,401,034 | 112,490 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut allows a credit against personal income taxes in the amount of any income tax imposed on any resident or part-year resident for the taxable year by another state.

Connecticut Statute: Conn. Gen. Stat. § 12-704

Maine: Maine's provisions also include the income taxes of any state, political subdivision thereof, the District of Columbia, or any political subdivision of a foreign country that is analogous to a state of the United States. However, the other taxing jurisdiction must allow a reciprocal reduction of its tax. For tax years beginning in 2020 and 2021, a Maine resident who began teleworking in Maine due to the COVID-19 pandemic and who was performing the same services from a location outside of Maine immediately prior to the COVID-19 state of emergency declared by the Governor, is allowed to claim the tax credit for income tax paid to another jurisdiction to the extent that the other jurisdiction is asserting the income is sourced to that jurisdiction and the employee does not qualify for an income tax credit in that jurisdiction for Maine income taxes paid as a result of the compensation.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5217-A; L.D. 220; P.L. 2021, c. 1, Pt. I, § 1; L.D. 1216; P.L. 2021, c. 181, Pt. D, § 4.

Massachusetts: Massachusetts' provisions also include a credit for the income taxes due in all states, territories, possessions of the United States, as well as in the Canadian provinces.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6(a)

Vermont: Vermont's provisions also include credit for the income taxes of all territories or possessions of the United States, the District of Columbia, and a limited credit for the income taxes of the Canadian provinces.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5825

# DEDUCTIONS

## 1. Accelerated Amortization for Certain Manufacturers:

Statutory Reference: R.I. Gen. Laws § 44-11-11.3

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1994 / N/A

Description: Any business corporation taxpayer engaged in manufacturing activities in Rhode Island that has on average over the five previous years annually produced goods at facilities located in Rhode Island that generated net sales of at least $10 million and where at least 80% of that production has been for eventual sale to a branch of the United States armed services may, if it represents that it anticipates the need to reduce its reliance on such sales, elect to amortize the unrecovered basis of all or a portion of its depreciable assets over a 60 month period in equal monthly installments. After said election, the company must maintain an average of 1,000 employees or lose 20% of the tax benefit derived from the election for each decrease of 100 full-time employees below 1,000.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

## 2. Alimony Paid (Federal):

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / U.S. Public Law 115–97

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2017

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI includes a deduction for alimony paid under divorce or separate maintenance decrees or written separation agreements between the taxpayer and the taxpayer's spouse or former spouse that were entered into prior to January 1, 2019. The Tax Cuts and Jobs Act of 2017 eliminated the federal deduction for alimony paid effective for divorce or separation agreements entered into in tax years beginning after December 31, 2018. The passage of this act effectively eliminated the

deduction of alimony paid for Rhode Island personal income tax purposes for these same divorce and separation agreements.

Data Source: TY 2020 and TY 2021 Statistics of Income Bulletin, Internal Revenue Service. The federal deduction data is scaled for Rhode Island by using the ratio of total Rhode Island adjusted gross income to total federal AGI for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island AGI to total federal AGI for TY 2021. Forgone revenue is determined by multiplying the calculated Rhode Island value of the deduction by an effective tax rate of 3.132% for TY 2020 and 3.243% for TY 2021. Federal number of taxpayers' data is scaled for Rhode Island by using the ratio of total Rhode Island tax filers to total federal tax filers for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island tax filers to total federal tax filers for TY 2021. As the publication of this report, the IRS has not published the TY 2021 Statistics of Income with state-level data.

Reliability Index: 4

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $1,097,801 | 1,473 |
| 2021 Personal Income Tax | $1,030,721 | 1,325 |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA took the average of TY 2020 and 2021.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2022 Personal Income Tax | $1,064,261 | 1,399 |
| 2023 Personal Income Tax | $1,064,261 | 1,399 |
| 2024 Personal Income Tax | $1,064,261 | 1,399 |
| 2025 Personal Income Tax | $1,064,261 | 1,399 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item because it is part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for alimony paid.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' provisions include a deduction for amounts paid to former spouses for alimony or separate maintenance under court order as stated on the federal tax return.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(d)(1)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of alimony or separate maintenance payments is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

### 3. Amortization of Air or Water Pollution Prevention and Treatment Facilities:

Statutory Reference: R.I. Gen. Laws § 44-11-11.1

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1966 / 2000

Description: A business corporation taxpayer may elect to take a deduction for the amortization of the adjusted basis for determining gain of any certified air or water pollution treatment or prevention facility over a period of 60 months. The amortization deduction requires that the federal depreciation or amortization, if any, must be added back before the Rhode Island calculation is made. The treatment or prevention facility must be certified by the Director of the Department of Environmental Management.

Data Source: Rhode Island Division of Taxation and Office of Revenue Analysis calculations. The amount of forgone revenue is derived by multiplying the deduction by the business corporation tax rate of 7%.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Business Corporation Tax | $552 | < 10 |
| 2021 Business Corporation Tax | $6 | < 10 |

Projection Methodology: TY 2022-TY 2025 forgone revenue amounts and number of taxpayers is the average forgone revenue and number of taxpayers from TY 2020-TY 2021.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Business Corporation Tax | $279 | < 10 |
| 2023 Business Corporation Tax | $279 | < 10 |
| 2024 Business Corporation Tax | $279 | < 10 |
| 2025 Business Corporation Tax | $279 | < 10 |

Law Comparison: Only Massachusetts has a similar provision.

Massachusetts: Massachusetts' provisions include a deduction for 100% of the costs associated with the construction, reconstruction, erection, or improvement of the facility of an approved industrial air pollution control facility or industrial waste treatment facility during the taxable year.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 38D

**4. Certain Business Expenses of Reservists, etc. (Federal):**

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C. §§ 62(a)(2)(B-C) and (E) and § 162

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI includes a deduction for certain business expenses of Armed Forces reservists, qualified performing artists, fee-basis state and local government officials, and employees with impairment-related work expenses. These expenses are ordinary and necessary unreimbursed expenses attributable to an individual's job including vehicle expenses, expenses related to travel that is not overnight (parking fees, tolls, transportation by train, bus, etc.), expenses related to overnight travel (lodging, airfare, etc.), other business expenses, and meals.

Data Source: TY 2020 and TY 2021 Statistics of Income Bulletin, Internal Revenue Service. The federal deduction data is scaled for Rhode Island by using the ratio of total Rhode Island adjusted gross income to total federal AGI for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island AGI to total federal AGI for TY 2021. Forgone revenue is determined by multiplying the calculated Rhode Island value of the deduction by an effective tax rate of 3.132% for TY 2020 and 3.243% for TY 2021. Federal number of taxpayers' data is scaled for Rhode Island by using the ratio of total Rhode Island tax filers to total federal tax filers for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island tax filers to total

federal tax filers for TY 2021. As the publication of this report, the IRS has not published the TY 2021 Statistics of Income with state-level data.

Reliability Index: 4

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $259,989 | 1,108 |
| 2021 Personal Income Tax | $220,336 | 958 |

Projection Methodology: For TY 2022 - 2025, the forgone revenue amounts and the number of taxpayers are the average of TY 2020 and TY 2021.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $240,163 | 1,033 |
| 2023 Personal Income Tax | $240,163 | 1,033 |
| 2024 Personal Income Tax | $240,163 | 1,033 |
| 2025 Personal Income Tax | $240,163 | 1,033 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item because it is part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for certain business expenses of Armed Forces reservists, qualified performance artists, and fee-based government officials.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' provisions include a deduction for certain business expenses of Armed Forces reservists, qualified performing artists, and fee-based government officials as stated on the taxpayer's federal income tax return.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(d)(1)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of certain business expenses of Armed Forces reservists, qualified performance artists, and fee-based government officials is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

**5. Connecting Fees, Switching, and Carrier Access Charges:**

Statutory Reference: R.I. Gen. Laws § 44-13-1(b)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1942 / 1985

Description: All amounts paid by a telecommunications corporation subject to the public services corporation tax to another corporation for connecting fees, switching charges, and carrier access charges can be deducted from the gross earnings of the paying corporation.

Data Source: Rhode Island Division of Taxation and Office of Revenue Analysis (ORA) calculations. The amount of forgone revenue is derived by multiplying the amount of deduction by the public service corporation tax rate for telecommunications corporations of 5%. This item includes an unknown amount of uncollectable bad debt.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Public Service Corporation Tax | $1,443,336 | 33 |
| 2021 Public Service Corporation Tax | $1,406,773 | 37 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Public Service Corporation Tax | $1,196,178 | 34 |
| 2023 Public Service Corporation Tax | $1,196,178 | 34 |
| 2024 Public Service Corporation Tax | $1,196,178 | 34 |
| 2025 Public Service Corporation Tax | $1,196,178 | 34 |

Law Comparison: Maine and New Hampshire have similar provisions.

Maine: Sales of services to another service provider for resale, including access services, are exempt from the service provider tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 2557(30)

New Hampshire: Communication services for purposes of the calculation of the New Hampshire communications tax does not include purchases of communications services by a communications services provider for use as a component part of the service provided by the taxpayer to the ultimate retail consumer who originates or terminates the taxable end-to-end communications, including carrier access charges, right of access charges, charges for use of inter-company facilities, and all communications services resold in the subsequent provision of, used as a component of, or integrated into end-to-end communications services.

New Hampshire Statute: N.H. Rev. Stat. Ann. §§ 82-A:2, III(b)

### 6. Educator Expenses (Federal):

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C. § 62(a)(2)(D) and § 162 / U.S. Public Law No. 116-260

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2020

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI allows a qualified educator to deduct unreimbursed expenses incurred for books, supplies, computer equipment, other equipment, and supplementary materials used in a classroom. Supplies used for the prevention of COVID-19 in a classroom and purchased after March 12, 2020 are also eligible for this deduction. The maximum allowable deduction was $250 per eligible educator through TY 2021 and was increased to $300 for TY 2022.

Data Source: TY 2020, Internal Revenue Service, Statistics of Income (SOI), Table 2: Individual Income and Tax Data, by State and Size of Adjusted Gross Income. TY 2020 data is for Rhode Island resident returns only. Forgone revenue is determined by multiplying the reported amount of the deduction by the Rhode Island resident effective personal income tax rate for each reported federal AGI category and then summing the forgone revenue amounts across all federal AGI categories. For TY 2020, these Rhode Island resident effective tax rates range from 0.0644% for the federal AGI category of under $25,000 to 4.8242% for the federal AGI category of $1,000,000 or more. The number of taxpayers is the total number reported in the IRS' SOI report. As the publication of this report, the IRS has not published the TY 2021 Statistics of Income with state-level data.

Reliability Index: *TY 2020*: 2; *TY 2021*: 5

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $92,278 | 14,230 |
| 2021 Personal Income Tax | *No estimate possible* | *No estimate possible* |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA held constant with TY 2020.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $92,278 | 14,230 |
| 2023 Personal Income Tax | $92,278 | 14,230 |
| 2024 Personal Income Tax | $92,278 | 14,230 |
| 2025 Personal Income Tax | $92,278 | 14,230 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item because it is part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for educator expenses.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' provisions include a deduction for educator expenses as stated on the taxpayer's federal income tax return.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(d)(1)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of educator expenses is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

### 7. Electricity for Resale:

Statutory Reference: R.I. Gen. Laws § 44-13-4(2)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1942 / 2008

Description: The transmission or sale of electricity to other public utility corporations, non-regulated power producers, or municipal utilities for resale, whether within the state or not, can be deducted from gross earnings prior to the calculation of the public service corporation tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only Connecticut has a similar provision.

Connecticut: A deduction is allowed from all sales for resale of water, steam, gas, and electricity to any public service corporation or municipal utilities.

Connecticut Statute: Conn. Gen. Stat. § 12-265(b)(1)(A)

## 8. Health Savings Account (Federal):

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C. §§ 62(a)(19) and 223

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI allows for the deduction of contributions to a qualified health savings account (HSA). For contributions to an HSA to be deductible, the taxpayer must be enrolled in a high-deductible health insurance plan and not be covered by another type of health insurance. The high deductible health insurance plan must satisfy certain criteria. The maximum deductible HSA contributions for tax years 2020 through 2024 are listed below:

| *Tax Year* | *Single Coverage* | *Family Coverage* |
|---|---|---|
| 2020 | $3,550 | $7,100 |
| 2021 | $3,600 | $7,200 |
| 2022 | $3,650 | $7,300 |
| 2023 | $3,850 | $7,750 |
| 2024 | $4,150 | $8,300 |

Data Source: TY 2020 and TY 2021 Statistics of Income Bulletin, Internal Revenue Service. The federal deduction data is scaled for Rhode Island by using the ratio of total Rhode Island adjusted gross income to total federal AGI for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island AGI to total federal AGI for TY 2021. Forgone revenue is determined by multiplying the calculated Rhode Island value of the deduction by an effective tax rate of 3.132% for TY 2020 and 3.243% for TY 2021. Federal number of taxpayers' data is scaled for Rhode Island by using the ratio of total Rhode Island tax filers to total federal tax filers for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island tax filers to total federal tax filers for TY 2021. As the publication of this report, the IRS has not published the TY 2021 Statistics of Income with state-level data.

Reliability Index: 4

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $610,520 | 7,040 |
| 2021 Personal Income Tax | $622,932 | 6,781 |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA took the average of TY 2020 and 2021.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $616,726 | 6,911 |
| 2023 Personal Income Tax | $616,726 | 6,911 |
| 2024 Personal Income Tax | $616,726 | 6,911 |
| 2025 Personal Income Tax | $616,726 | 6,911 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item as it is part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for contributions to an HSA.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' provisions include a deduction from total income for contributions to an HSA as stated on the taxpayer's federal income tax return.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(d)(1)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of HSA contributions is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

**9. Individual Retirement Arrangement (IRA) Contributions (Federal):**

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C. §§ 62(a)(7) and 219

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI includes a deduction for contributions to traditional individual retirement arrangements. For TY 2020-2022, contributions were subject to a maximum amount of $6,000 for taxpayers less than 50 years old and $7,000 for taxpayers 50 years old or more. For tax year 2023, the comparable figures are $6,500 and $7,500, respectively.

This deduction is subject to a phase-out at the federal level based on the taxpayer's modified AGI. The table below lists the phase-out ranges for single and head of household filers who are covered by a workplace retirement plan, the income phase-out ranges for married couples filing jointly where the spouse making the IRA contribution is covered by a workplace retirement plan, and the phase-out ranges for married couples filing jointly where the IRA contributor is not covered by a workplace retirement plan but is married to someone who is covered for tax years 2020 through 2024. For married individuals filing separately who lived apart, the deduction thresholds are the same as single filers. For married individuals filing separately and living together for at least part of the year that are covered by a retirement plan at work or have a spouse that is covered by a workplace plan, the phase-out range for tax years 2020 - 2024 includes any modified AGI below $10,000.

| *Tax Year* | *Single / Heads of Household / Married Filing Separately and Living Apart* | *Married Filing Jointly Contributor Covered by Workplace Plan* | *Married Filing Jointly Contributor Not Covered by Workplace Plan but Spouse is Covered* |
|---|---|---|---|
| 2020 | $65,000 - $75,000 | $104,000 - $124,000 | $196,000 - $206,000 |
| 2021 | $66,000 - $76,000 | $105,000 - $125,000 | $198,000 - $208,000 |
| 2022 | $68,000 - $78,000 | $109,000 - $129,000 | $204,000 - $214,000 |
| 2023 | $73,000 - $83,000 | $116,000 - $136,000 | $218,000 - $228,000 |
| 2024 | $77,000 - $87,000 | $123,000 - $143,000 | $230,000 - $240,000 |

Data Source: TY 2020, Internal Revenue Service, Statistics of Income (SOI), Table 2: Individual Income and Tax Data, by State and Size of Adjusted Gross Income. TY 2020 data is for Rhode Island resident returns only. Forgone revenue is determined by multiplying the reported amount of the deduction by the Rhode Island resident effective personal income tax rate for each reported federal AGI category and then summing the forgone revenue amounts across all federal AGI categories. For TY 2020, these Rhode Island resident effective tax rates range from 0.0644% for the federal AGI category of under $25,000 to 4.8242% for the federal AGI category of $1,000,000 or more. The number of taxpayers is the total number reported in the IRS' SOI report. As the publication of this report, the IRS has not published the TY 2021 SOI with state-level data.

Reliability Index: *TY 2020*: 2; *TY 2021*: 5

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $1,105,194 | 8,900 |
| 2021 Personal Income Tax | *No estimate possible* | *No estimate possible* |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA held constant with TY 2020.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $1,013,240 | 8,770 |
| 2023 Personal Income Tax | $1,013,240 | 8,770 |
| 2024 Personal Income Tax | $1,013,240 | 8,770 |
| 2025 Personal Income Tax | $1,013,240 | 8,770 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item as part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for contributions to an IRA.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' provisions include a deduction from total gross income for contributions to an IRA as stated on the taxpayer's federal income tax return.

Massachusetts Statute: Mass. Gen. Laws ch. 62, §§ 2(a)(2)(F) and 5(b)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of contributions to IRAs is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

**10. Keogh Plan and Simplified Employee Pension Plan Contributions (Federal):**

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C. §§ 62(a)(7) and 219

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI includes a deduction for contributions to a Keogh plan and a Simplified Employee Pension (SEP) plan. The deduction is limited to the lesser of total contributions made to the business' defined-contribution Keogh or SEP plan, including any excess contributions carryover, or 25% of compensation paid to employees participating in the plan. The contributions an employer can make to an employee's defined-contribution Keogh or SEP plan are limited to 25% of the employee's compensation or a specific maximum deduction, whichever is less. The allowable compensation to be included in the calculation of the 25% is also limited to a specific dollar amount. The table below lists the maximum amounts of allowable compensation to be considered for the deduction and the maximum deductible contribution to an eligible employee's plan.

| *Tax Year* | *Maximum Allowable Compensation* | *Maximum Contribution to an Eligible Employee's Plan* |
|---|---|---|
| 2018 | $275,000 | $55,000 |
| 2019 | $280,000 | $56,000 |
| 2020 | $285,000 | $57,000 |
| 2021 | $290,000 | $58,000 |
| 2022 | $305,000 | $61,000 |
| 2023 | $330,000 | $66,000 |

Data Source: TY 2020, Internal Revenue Service, Statistics of Income (SOI), Table 2: Individual Income and Tax Data, by State and Size of Adjusted Gross Income. TY 2020 data is for Rhode Island resident returns only. Forgone revenue is determined by multiplying the reported amount of the deduction by the Rhode Island resident effective personal income tax rate for each reported federal AGI category and then summing the forgone revenue amounts across all federal AGI categories. For TY 2020, these Rhode Island resident effective tax rates range from 0.0644% for the federal AGI category of under $25,000 to 4.8242% for the federal AGI category of $1,000,000 or more. The number of taxpayers is the total number reported in the IRS' SOI report. As the publication of this report, the IRS has not published the TY 2021 SOI with state-level data.

Reliability Index: *TY 2020*: 2; *TY 2021*: 5

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $3,622,833 | 4,080 |
| 2021 Personal Income Tax | *No estimate possible* | *No estimate possible* |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA held constant with TY 2020.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $3,622,833 | 4,080 |
| 2023 Personal Income Tax | $3,622,833 | 4,080 |
| 2024 Personal Income Tax | $3,622,833 | 4,080 |
| 2025 Personal Income Tax | $3,622,833 | 4,080 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item as part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for contributions to Keogh and SEP plans equal to 25% of their income.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' provisions include a deduction for contributions to Keogh and SEP plans as stated on the taxpayer's federal income tax return. However, the deduction for contributions on behalf of employees as defined in Internal Revenue Code § 401(c)(1) (e.g., partners and owners of sole proprietorships) is specifically disallowed.

Massachusetts Statute: Mass. Gen. Laws ch. 62, §§ 2(a)(2)(F) and 2(d)(1)(D)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of deductions for contributions to Keogh and SEP plans is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

## 11. Merchandise Sold:

Statutory Reference: R.I. Gen. Laws § 44-13-5(a)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1942 / 2003

Description: Corporations with a principal line of business in manufacturing, selling, and distributing to the public electric or heating gas and in the case of every public service cable corporation may deduct from the gross earnings reported on the corporations' gross earnings tax return the net invoice price plus the transportation cost of any merchandise sales.

Data Source: Rhode Island Division of Taxation

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Public Service Corporation Tax | $0 | 0 |
| 2021 Public Service Corporation Tax | $0 | 0 |

Projection Methodology: The forgone revenue amounts and the number of taxpayers for tax years 2022 - 2025 are held constant with TY 2021.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Public Service Corporation Tax | $0 | 0 |
| 2023 Public Service Corporation Tax | $0 | 0 |
| 2024 Public Service Corporation Tax | $0 | 0 |
| 2025 Public Service Corporation Tax | $0 | 0 |

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Connecticut's provisions allow a deduction from the utility companies tax for sales of appliances, which use water, steam, gas, or electricity. The deduction is the net invoice price plus transportation costs of such appliances.

Connecticut Statute: Conn. Gen. Stat. § 12-265(b)(1)(C)

**12. Moving Expenses (Federal):**

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C. §§ 62(a)(15), 132, and 217

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI includes a deduction for moving expenses provided that the expenses are incurred within one year from the date that the taxpayer has reported to work in the new location, the new main job location is at least 50 miles farther from the taxpayer's former home than the prior job location, and the taxpayer works full-time for 39 weeks in the first 12 months after arrival in the area of the new job location (self-employed taxpayers must also work 78 weeks in the first 24 months after arrival in the area of the new job location).

The federal Tax Cuts and Jobs Act of 2017 eliminated the federal deduction for moving expenses, except for members of the Armed Forces, effective for tax years beginning after December 31, 2017 and prior to January 1, 2026.

Data Source: TY 2020 and TY 2021 Statistics of Income Bulletin, Internal Revenue Service. The federal deduction data is scaled for Rhode Island by using the ratio of total Rhode Island adjusted gross income to total federal AGI for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island AGI to total federal AGI for TY 2021. Forgone revenue is determined

6388/8585

by multiplying the calculated Rhode Island value of the deduction by an effective tax rate of 3.132% for TY 2020 and 3.243% for TY 2021. Federal number of taxpayers' data is scaled for Rhode Island by using the ratio of total Rhode Island tax filers to total federal tax filers for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island tax filers to total federal tax filers for TY 2021. As the publication of this report, the IRS has not published the TY 2021 Statistics of Income with state-level data.

Reliability Index: 4

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $21,371 | 284 |
| 2021 Personal Income Tax | $28,450 | 330 |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA took the average of TY 2020 and 2021.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $24,911 | 307 |
| 2023 Personal Income Tax | $24,911 | 307 |
| 2024 Personal Income Tax | $24,911 | 307 |
| 2025 Personal Income Tax | $24,911 | 307 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item as part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for moving expenses.

Maine Statute: Me. Rev. Stat. Ann. Tit. 36, § 5121

Massachusetts: Massachusetts' provisions include a deduction for moving expenses as stated on the taxpayer's federal income tax return for tax years beginning before December 31, 2017. Massachusetts did not conform to the elimination of this federal deduction as Massachusetts follows the Internal Revenue Code in effect as of January 1, 2005 regarding this issue. Thus, this deduction is still allowed in the calculation of Massachusetts taxable income.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(d)(1)

Vermont: Vermont uses an individual's federal taxable income as the starting point for calculating Vermont income tax liability, and thus the federal treatment of deductions for moving expenses is adopted.

Vermont Statute: Vt. Stat. Ann. Tit. 32, § 5811(21)

**13. Net Operating Losses:**

Statutory Reference: R.I. Gen. Laws § 44-11-11(b) / 26 U.S.C. § 172

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 2007

Description: A taxpayer subject to the business corporation tax is allowed a net operating loss deduction that is the same as that allowed under 26 U.S.C. § 172, subject to the specific determinative criteria outlined in R.I. Gen. Laws § 44-11-11. This section also allows the taxpayer to carry the net operating loss forward for five succeeding tax years and disallows the carryback of a net operating loss. Prior to the Tax Cuts and Jobs Act of 2017, federal tax law allowed a two-year carryback of a net operating loss and a 20-year carry-forward of a net operating loss. For tax years beginning after December 31, 2017, federal tax law disallows the carryback of a net operating loss but provides for an indefinite carryforward period.

Data Source: Rhode Island Division of Taxation and Office of Revenue Analysis (ORA) calculations. This deduction includes amounts that are not necessarily specific to Rhode Island-based activity. The amount of forgone revenue is derived by multiplying the apportioned deduction by the business corporation tax rate of 7%. The number of taxpayers includes C-corporations that had a deduction decreasing federal taxable income.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Business Corporation Tax | $14,046,351 | 1,909 |
| 2021 Business Corporation Tax | $23,819,042 | 2,190 |

Projection Methodology: TY 2022 forgone revenue amounts and number of taxpayers is the 4-year average of the revenue forgone amounts and number of taxpayers from TY 2018 - TY 2021. TYs 2023 - TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Business Corporation Tax | $18,881,237 | 2,054 |
| 2023 Business Corporation Tax | $18,881,237 | 2,054 |
| 2024 Business Corporation Tax | $18,881,237 | 2,054 |
| 2025 Business Corporation Tax | $18,881,237 | 2,054 |

Law Comparison: All New England states have net operating loss deduction provisions.

Connecticut: Connecticut allows a net operating loss carryover deduction that is deductible for 20 years following the loss year, subject to apportionment. For losses occurring in tax years beginning on or after January 1, 2015, carryforwards are limited to 50% of net income. Taxpayers with net operating losses greater than $6 billion from pre-2013 years and a tax liability greater than $2.5 million may elect to use net operating loss carryforwards earlier than otherwise allowed. Net operating losses may not be carried back.

Connecticut Statute: Conn. Gen. Stat. § 12-217(a)(4)(A)

Maine: Passed in the 2021 session, and retroactively applicable to tax years beginning on or after January 1, 2018, Maine law is changed to conform to the federal tax treatment of net operating loss (NOL) carryforward deductions allowed under Internal Revenue Code, § 172(a)(2). Under that provision, the NOL carryforward deduction for tax years beginning on or after January 1, 2021, with respect to NOLs arising in tax years beginning after December 31, 2017, is limited to 80% of federal taxable income. The 80% limitation does not apply to NOL deductions claimed for tax years beginning in 2018-2020 nor does it apply to NOL deductions that are claimed for tax years beginning after 2020 if the deduction is associated with an NOL arising in tax years beginning prior to January 1, 2018.

Maine Statute: Me. Rev. Stat. Ann. Tit. 36, §§ 5122(1)(MM) and (2)(UU), 5200-A(1)(N) and (2)(M)

Massachusetts: Corporations are allowed a deduction for net operating losses computed under Massachusetts' law, which can be carried forward for 20 taxable years. Net operating losses cannot be carried back, and capital losses cannot be carried forward or back.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 30(5)(b)(4)

New Hampshire: New Hampshire allows a deduction for the amount of net operating loss carryover determined under 26 U.S.C. § 172 in effect as of a given date except for the limitation to a carryforward for 10 years following the loss year. The law does not allow for the carryback of losses in any instance. A net operating loss is apportioned in the year incurred. For taxable years ending on or after January 1, 2013, the amount of net operating loss generated in a tax year that may be carried forward may not exceed $10,000,000.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:4, XIII

Vermont: Vermont's statutes include a net operating loss deduction in place of the federal net operating loss deduction. Vermont net operating loss is defined as any negative income after allocation and apportionment of Vermont net income. The net operating loss deduction is allowed as a carryforward in the 10 years following the loss year.

Vermont Statute: Vt. Stat. Ann. Tit. 32, §§ 5811(25), 5832, and 5888(4)(B)

**14. One-Half of Self-Employment Tax (Federal):**

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32 / 26 U.S.C § 164(f)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI includes a deduction for one-half of the amount of self-employment tax paid by self-employed taxpayers. Self-employed individuals, those taxpayers who are sole proprietors, independent contractors, partners in a partnership, and members in a single member LLC, must pay a tax on net earnings from self-employment for Social Security and Medicare. Because taxpayers that are employees are responsible for only one-half of the Social Security and Medicare taxes assessed, the other half being paid by the employer, self-employed taxpayers can deduct one-half of the self-employment tax paid to Social Security and Medicare.

Data Source: TY 2020 and TY 2021 Statistics of Income Bulletin, Internal Revenue Service. The federal deduction data is scaled for Rhode Island by using the ratio of total Rhode Island adjusted gross income to total federal AGI for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island AGI to total federal AGI for TY 2021. Forgone revenue is determined by multiplying the calculated Rhode Island value of the deduction by an effective tax rate of 3.132% for TY 2020 and 3.243% for TY 2021. Federal number of taxpayers' data is scaled for Rhode Island by using the ratio of total Rhode Island tax filers to total federal tax filers for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island tax filers to total federal tax filers for TY 2021. As the publication of this report, the IRS has not published the TY 2021 Statistics of Income with state-level data.

Reliability Index: 4

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $3,416,786 | 71,332 |
| 2021 Personal Income Tax | $4,082,713 | 75,830 |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA took the average of TY 2020 and 2021.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $3,749,750 | 73,581 |
| 2023 Personal Income Tax | $3,749,750 | 73,581 |
| 2024 Personal Income Tax | $3,749,750 | 73,581 |
| 2025 Personal Income Tax | $3,749,750 | 73,581 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item as part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for one-half of the self-employment tax paid.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' deduction is based on the full amount of self-employment tax paid but limited to $2,000.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 3B(a)(3)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of deductions for one-half of the self- employment tax is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

### 15. Penalty for Early Withdrawal of Savings (Federal):

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C §§ 62(a)(9) and 165

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI allows a deduction for the penalty paid for the withdrawal of monies from a certificate of deposit (CD) or other time deposit savings account prior to the maturation of the time deposit savings account.

Data Source: TY 2020 and TY 2021 Statistics of Income Bulletin, Internal Revenue Service. The federal deduction data is scaled for Rhode Island by using the ratio of total Rhode Island adjusted gross income to total federal AGI for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island AGI to total federal AGI for TY 2021. Forgone revenue is determined by multiplying the calculated Rhode Island value of the deduction by an effective tax rate of 3.132% for TY 2020 and 3.243% for TY 2021. Federal number of taxpayers' data is scaled for Rhode Island by using the ratio of total Rhode Island tax filers to total federal tax filers for TY 2020 and the three-year (TY 2018-TY 2020) average ratio of total Rhode Island tax filers to total federal tax filers for TY 2021. As the publication of this report, the IRS has not published the TY 2021 Statistics of Income with state-level data.

Reliability Index: 4

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $21,398 | 1,330 |
| 2021 Personal Income Tax | $13,104 | 1,075 |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA took the average of TY 2020 and 2021.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2022 Personal Income Tax | $17,251 | 1,203 |
| 2023 Personal Income Tax | $17,251 | 1,203 |
| 2024 Personal Income Tax | $17,251 | 1,203 |
| 2025 Personal Income Tax | $17,251 | 1,203 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item because it is part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for the penalty on the early withdrawal of monies from time deposit savings accounts.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' provisions include a deduction for the penalty on the early withdrawal of monies from time deposit savings accounts as stated on the taxpayer's federal income tax return.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(d)(1)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of the penalty on the early withdrawal of monies from time deposit savings accounts is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

### 16. Qualified Charitable Contribution for Non-Itemized Returns (Federal):

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C. § 62(a)(22) / U.S. Public Law No. 116-136

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2020

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

The federal Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020 created a federal deduction for TY 2020 of up to $300 for charitable contributions for eligible taxpayers who do not elect to itemize deductions for federal tax purposes. This deduction reduced the taxpayer's federal adjusted gross income (AGI) and, as a result, reduced Rhode Island tax liability for eligible taxpayers. The American Rescue Plan Act of 2021 reinstated the qualified charitable contribution for non-itemized returns at $300 for individual filers and $600 for joint filers for TY 2021. However, this deduction was placed on the federal tax return after the calculation of federal AGI. Thus, there is no TY 2021 impact for Rhode Island personal income tax purposes.

Data Source: TY 2020, Internal Revenue Service, Statistics of Income (SOI), Table 2: Individual Income and Tax Data, by State and Size of Adjusted Gross Income. TY 2020 data is for Rhode Island resident returns only. Forgone revenue is determined by multiplying the reported amount of the deduction by the Rhode Island resident effective personal income tax rate for each reported federal AGI category and then summing the forgone revenue amounts across all federal AGI categories. For TY 2020, these Rhode Island resident effective tax rates range from 0.0644% for the federal AGI category of under $25,000 to 4.8242% for the federal AGI category of $100,000 to $200,000. The number of taxpayers is the total number reported in the IRS' SOI report.

Reliability Index: 2

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $849,263 | 161,330 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item because it is part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allowed for a deduction of up to $300 for charitable contributions for eligible taxpayers who do not elect to itemize deductions for federal tax purposes for TY 2020.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts did not conform to the above-the-line deduction for charitable contributions for non-itemized returns. However, for tax years beginning on or after January 1, 2023, Massachusetts separately allows a deduction for charitable contributions with no itemization requirement, limited to 10% of the taxpayer's federal taxable income.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 3B(a)(13)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of qualified charitable contribution for non-itemized returns is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

### 17. Qualifying Investment in a Certified Venture Capital Partnership:

Statutory Reference: R.I. Gen. Laws § 44-43-2

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1987 / N/A

Description: A deduction reducing net income or net worth, gross earnings, or gross premiums for making a qualifying investment in a certified venture capital partnership is allowed equal to the qualifying investment in the year in which the taxpayer first makes such an investment prior to computing the tax owed under the business corporation tax, public service corporation tax, bank excise tax, and insurance gross premiums tax. A modification reducing federal adjusted gross income (AGI) shall be allowed prior to computing the tax owed under the personal income tax and is included in the modifications section of this report.

Data Source: *Business Corporation Tax:* Rhode Island Division of Taxation and Office of Revenue Analysis (ORA) calculations. The amount of forgone revenue is derived by multiplying the deduction by the business corporation tax rate of 7%. The number of taxpayers includes C-corporations that had a deduction decreasing federal taxable income.

*Public Service Corporation Tax:* Rhode Island Division of Taxation and ORA calculations. The amount of forgone revenue is derived by multiplying the deduction amount by a weighted average public service corporation gross earnings tax rate of 4.03% for TY 2020 and TY 2021.

*Bank Tax*: Rhode Island Division of Taxation.

*Insurance Company Gross Premiums Tax*: Rhode Island Division of Taxation and ORA calculations. The amount of forgone revenue is derived by multiplying the deduction amount by the insurance company gross premiums tax rate of 2%.

Reliability Index: 1

Law Comparison: No similar provisions found in the other New England states.

**18. Return or Unabsorbed Premiums or Premiums for Reinsurance Assumed:**

Statutory Reference: R.I. Gen. Laws § 44-17-2

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1896 / 2007

Description: Taxpayers subject to the insurance company gross premiums tax can deduct from gross premiums the amount of return premiums on contracts covering property and risks, the amount of premiums for reinsurance assumed of the property and risks, and, for mutual insurance companies, the amount of dividends or unused or unabsorbed portion of the premiums applied as a partial payment of the premiums or returned to policyholders in cash or credited to policyholders.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Law Comparison: All New England states have similar provisions.

Connecticut: Connecticut levies a tax on net direct premiums on domestic and nonresident and foreign insurance companies. Net direct premiums specifically exclude premiums received for reinsurances assumed from other insurance companies and returned or canceled premiums and dividends paid to policyholders on direct business.

Connecticut Statute: Conn. Gen. Stat. §§ 12-201(7), (8)

Maine: The Maine insurance premiums tax is measured by the full amount of gross insurance premiums, reduced by all direct return premiums on the gross direct premiums, and all dividends paid to policy holders on direct premiums. Except when direct return premiums are returned in the same tax year that the premium was paid, the deduction allowed may be taken only if the tax has been paid.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 2515

Massachusetts: In determining the tax payable by insurance companies, all premiums on policies written but not taken or canceled through default of payment and all premiums returned or credited to policyholders during the tax year may be deducted, provided that all premiums for which the deduction is claimed have been included as premium receipts on the tax return. This deduction does not include premiums returned or credited on reinsurance assumed.

Massachusetts Statute: Mass. Gen. Laws ch. 63, §§ 20 and 24

New Hampshire: The premium tax on authorized and formerly authorized insurers is calculated based on the total of gross direct premiums received during the previous calendar year for policies insuring property, subjects, or risks for residents located in the state or to be performed in the state, minus premiums or dividends returned or credited to policyholders. Title insurers may also deduct the portion of the premiums chargeable to title search and examination services. The tax on premiums for surplus lines is also calculated based on the amount of gross premiums less the amount of return premiums.

New Hampshire Statute: N.H. Rev. Stat. Ann. §§ 400-A:31(I) and 405:29(I)

Vermont: Vermont has a deduction for all sums paid for return premiums on canceled policies located in the state and dividends actually paid or allowed to policyholders residing in the state.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 8554

**19. Self-Employed Health Insurance (Federal):**

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C. § 162(l)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI includes a deduction for the premiums paid for medical, dental, and qualified long-term care insurance for the taxpayer, the taxpayer's spouse, the taxpayer's dependents, and the taxpayer's child who is not a dependent but less than 27 years of age if the taxpayer is a self-employed individual with a net profit, a partner with net earnings from self-employment, or a shareholder owning more than 2% of the outstanding stock of an S corporation with wages from the corporation. The insurance plan must be established under the business. The premium deduction for qualified long-term care insurance is subject to a maximum allowable amount.

Data Source: TY 2020, Internal Revenue Service, Statistics of Income (SOI), Table 2: Individual Income and Tax Data, by State and Size of Adjusted Gross Income. TY 2020 data is for Rhode Island resident returns only. Revenue forgone is determined by multiplying the reported amount of the deduction by the Rhode Island resident effective personal income tax rate for each reported federal AGI category and then summing the forgone revenue amounts across all federal AGI categories. For TY 2020, these Rhode Island resident effective tax rates range from 0.0644% for the federal AGI category of under $25,000 to 4.8242% for the federal AGI category of $1,000,000 or more. The number of taxpayers is the total number reported in the IRS' SOI report. As the publication of this report, the IRS has not published the TY 2021 SOI with state-level data.

Reliability Index: *TY 2020*: 2; *TY 2021*: 5

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $3,454,982 | 12,870 |
| 2021 Personal Income Tax | *No estimate possible* | *No estimate possible* |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA held constant with TY 2020.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $3,454,982 | 12,870 |
| 2023 Personal Income Tax | $3,454,982 | 12,870 |
| 2024 Personal Income Tax | $3,454,982 | 12,870 |
| 2025 Personal Income Tax | $3,454,982 | 12,870 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item because it is part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for payments for health insurance by the self-employed.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' provisions include a deduction for payments for health insurance by the self-employed as stated on the taxpayer's federal income tax return.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(d)(1)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of deductions for payments for health insurance by the self-employed is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

**20. Standard Deduction:**

Statutory Reference: R.I. Gen. Laws § 44-30-2.6(c)(3)(B)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island allows a basic standard deduction from modified adjusted gross income (AGI), the amounts for which are adjusted for inflation.

The table below lists the standard deduction for single, married filing separately, head of household, married filing jointly, and qualifying widow(er) personal income tax filers. For taxpayers with a modified federal AGI greater than a specified amount in each tax year, regardless

of filing status, there is a phase-out in the deduction amount allowed to be taken. For example, for each $5,950 increase, or part thereof, in modified AGI, a reduction of 20% in the allowable standard deduction amount was imposed in TY 2020. Once a taxpayer's modified AGI exceeds the phase-out limit, the allowable standard deduction amount is zero.

| *Tax Year* | *Single / Married Filing Separately* | *Head of Household* | *Married Filing Jointly / Widow(er)* | *Phase-Out Range* |
|---|---|---|---|---|
| 2018 | $8,525 | $12,800 | $17,050 | $199,000 - $221,800 |
| 2019 | $8,750 | $13,100 | $17,500 | $203,850 - $227,050 |
| 2020 | $8,900 | $13,350 | $17,800 | $207,700 - $231,500 |
| 2021 | $9,050 | $13,550 | $18,100 | $210,750 - $234,750 |
| 2022 | $9,300 | $13,950 | $18,600 | $217,050 - $241,850 |
| 2023 | $10,000/$10,025 | $15,050 | $20,050 | $233,750 - $260,550 |

Data Source: Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 laws and the Rhode Island tax liability for each taxpayer without the applicable standard deduction for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference the two tax liability calculations. Number of taxpayers includes all taxpayers that had a non-zero tax difference between the two calculations above. It should be noted that the forgone revenue amounts and the number of taxpayers exclude taxpayers who may have claimed the standard deduction on their tax form but had a Rhode Island modified AGI of $0 or less. These taxpayers received no positive benefit from the standard deduction and thus there was no forgone revenue from these returns for this expenditure item.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $218,741,263 | 550,385 |
| 2021 Personal Income Tax | $221,767,280 | 556,027 |

Projection Methodology: The projected forgone revenue was calculated for TY 2022 – TY 2025 by applying the growth in the United States consumer price index for all urban consumers from the November 2023 S&P Global forecast. The projected number of taxpayers for TY 2022 – TY 2022 is calculated using the three-year average growth rate in the number of filers for Rhode Island resident and non-resident returns of 0.34%.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $239,478,684 | 557,940 |
| 2023 Personal Income Tax | $249,267,953 | 559,859 |
| 2024 Personal Income Tax | $255,255,898 | 561,785 |
| 2025 Personal Income Tax | $260,974,354 | 563,718 |

Law Comparison: Maine and Vermont have similar provisions.

Maine: Maine's standard deduction is equal to the federal standard deduction, including the additional standard deduction amount for age and blindness, and is subject to a phase-out.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5124-C

Vermont: Vermont has a state-defined standard deduction of $6,250 for single filers or married filing separately, $9,400 for head of household filers, and $12,500 for married filing jointly or qualifying widow(er) for TY 2020. There is an additional deduction of $1,050 for taxpayers who are 65 years and older and/or blind and who qualified and received the deduction at the federal level. All deduction amounts are subject to inflation on an annual basis. The TY 2021 figures for the standard deduction are $6,350 for single filers or married filing separately, $9,500 for head of household filers, and $12,700 for married filing jointly or qualifying widow(er), with an additional $1,050 for individuals 65 and older and/or blind. For TY 2022, the comparable standard deduction figures are $6,500, $9,800, and $13,050, with an additional $1,050 for individuals 65 and older and/or blind.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)(C)(ii) and (iii)

**21. Student Loan Interest (Federal):**

Statutory Reference: R.I. Gen. Laws §§ 44-30-2.6(c)(3) and 44-30-32(a)(1) / 26 U.S.C. §§ 62(a)(17) and 221

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2010

Description: Rhode Island's income tax system for a resident individual starts with the individual's federal adjusted gross income (AGI). The Rhode Island income of a non-resident individual includes the net amount of income and deductions included in federal adjusted gross income that are derived from or connected with Rhode Island sources.

Federal AGI allows a deduction for the interest paid on a qualified student loan. A qualified student loan is a loan that was taken out solely to pay qualified education expenses. For TY 2020-TY 2024,

the maximum deduction amount for student loan interest is $2,500 per return, subject to a phase out for taxpayers with a modified federal AGI over a certain amount. Taxpayers who are married filing separately or who can be claimed as a dependent are ineligible for this deduction.

| | ***Single / Head of Household/ Widow(er)*** | | ***Married Filing Jointly*** | |
|---|---|---|---|---|
| ***Tax Year*** | ***Deduction Maximum*** | ***Phase-Out Range*** | ***Deduction Maximum*** | ***Phase-Out Range*** |
| 2020 | $2,500 | $70,000 - $85,000 | $2,500 | $140,000 - $170,000 |
| 2021 | $2,500 | $70,000 - $85,000 | $2,500 | $140,000 - $170,000 |
| 2022 | $2,500 | $70,000 - $85,000 | $2,500 | $145,000 - $175,000 |
| 2023 | $2,500 | $75,000 - $90,000 | $2,500 | $155,000 - $185,000 |
| 2024 | $2,500 | $80,000 - $95,000 | $2,500 | $165,000 - $195,000 |

Data Source: TY 2020, Internal Revenue Service, Statistics of Income (SOI), Table 2: Individual Income and Tax Data, by State and Size of Adjusted Gross Income. TY 2020 data is for Rhode Island resident returns only. Forgone revenue is determined by multiplying the reported amount of the deduction by the Rhode Island resident effective personal income tax rate for each reported federal AGI category, excluding married filing separately and dependent returns as these filers do not qualify for the federal student loan interest deduction, and then summing the forgone revenue amounts across all federal AGI categories. For TY 2020, these Rhode Island resident effective tax rates range from -0.0933% for the federal AGI category of under $25,000 to 2.8598% for the federal AGI category of $100,000 to $200,000. The number of taxpayers is the total number reported in the IRS' SOI report. As the publication of this report, the IRS has not published the TY 2021 SOI with state-level data.

Reliability Index: *TY 2020*: 2; *TY 2021*: 5

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $626,874 | 42,750 |
| 2021 Personal Income Tax | *No estimate possible* | *No estimate possible* |

Projection Methodology: For projected forgone revenue and projected number of taxpayers for TY 2022-2025, ORA held constant with TY 2020.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2022 Personal Income Tax | $626,874 | 42,750 |
| 2023 Personal Income Tax | $626,874 | 42,750 |
| 2024 Personal Income Tax | $626,874 | 42,750 |
| 2025 Personal Income Tax | $626,874 | 42,750 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal AGI and, therefore, allow this item because it is part of the determination of the taxpayer's federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, which by application allows a deduction for interest paid on a student loan up to $2,500.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts' provisions follow the federal deduction for interest paid by the taxpayer for a qualified education loan for graduate or undergraduate education, subject to taxpayer income limitations. Massachusetts also allows for a separate student loan deduction for interest from undergraduate loans. Taxpayers are not allowed to take both federal and state level deductions.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(d)(1) and 3B(a)(12)

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont income tax liability, the federal treatment of interest paid on a student loan is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)

**22. Tax Incentives for Employers:**

Statutory Reference: R.I. Gen. Laws § 44-55-4.1

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1997 / N/A

Description: Businesses that employ and retain in the state employees who have been previously unemployed for at least 26 consecutive calendar weeks and have been domiciled residents of Rhode Island for at least 52 consecutive calendar weeks or have been a recipient of Rhode Island's Aid to Families with Dependent Children program for at least one year preceding the date of hire receive a deduction from the business corporation tax, public service corporation tax, bank excise tax, bank deposits tax, and insurance company gross premiums tax. The deduction is equal to 40% of the eligible employee's first year wages, up to a maximum $2,400 per eligible employee. A modification reducing income subject to the personal income tax is provided to eligible businesses and is listed in the modification section of this report.

Data Source: *Business Corporation:* Rhode Island Division of Taxation and Office of Revenue Analysis (ORA) calculations. The amount of forgone revenue is derived by multiplying the

apportioned deduction by the business corporation tax rate of 7%. The number of taxpayers includes C-corporations that had a deduction decreasing federal taxable income.

*Bank Tax:* Rhode Island Division of Taxation and Office of Revenue Analysis (ORA) calculations. The amount of forgone revenue is derived by multiplying the apportioned deduction by the bank excise tax rate of 9%.

*Bank Deposits Tax*: No reliable data exists for this tax expenditure item.

*Insurance Company Gross Premiums Tax,* Rhode Island Division of Taxation and ORA calculations. The amount of forgone revenue is derived by multiplying the deduction by the insurance company gross premiums tax of 2%.

*Public Service Corporation Tax*: No reliable data exists for this tax expenditure item.

Reliability Index: *Business Corporation, Bank, and Insurance Company Gross Premiums Taxes,* 1*; Public Service Corporation, Bank Deposits Taxes,* 5

Law Comparison: No similar provisions found in the other New England states.

# EXCLUSIONS

## 1. Biodiesel Portion of Blended Gallon of Diesel Fuel:

Statutory Reference: R.I. Gen. Laws § 31-36-1(6)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1925 / 2009

Description: The manufactured biodiesel portion of any gallon of blended biodiesel and petroleum diesel fuel is excluded from the state's motor fuel tax provided that the manufactured biodiesel consists of "[m]ono-alkyl esters of long chain fatty acids derived from vegetable oils or animal fats which conform to ASTM D6751 specifications for use in diesel engines" and the production of which "results in employment at a fixed location at a manufacturing facility for biodiesel fuel."

Data Source: Excise Tax Section, Rhode Island Division of Taxation. Total biodiesel gallons are summed and multiplied by the motor fuel tax rate of $0.34 per gallon for FY 2020 - 2022. The number of taxpayers is as reported by Biodiesel Magazine.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Motor Fuel Tax | $2,596,954 | 1 |
| 2021 Motor Fuel Tax | $2,244,196 | 1 |
| 2022 Motor Fuel Tax | $1,546,350 | 1 |
| 2023 Motor Fuel Tax | $0 | 0 |

Projection Methodology: The FY 2024 and FY 2025 forgone revenue amounts and the number of taxpayers are held constant with FY 2023.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Motor Fuel Tax | $0 | 0 |
| 2025 Motor Fuel Tax | $0 | 0 |

Law Comparison: Only Massachusetts has a similar provision.

Massachusetts: For fuel consisting of eligible cellulosic biofuel or of a blend of gasoline and eligible cellulosic biofuel, the tax per gallon is reduced in proportion to the percentage of the fuel content consisting of eligible cellulosic biofuel, measured by available energy content, as determined by the department of energy resources.

Massachusetts Statute: Mass. Gen. Laws ch. 64A, § 1A

## 2. Conveyance of Mobile/Manufactured Homes for Consideration of $100 or Less:

Statutory Reference: R.I. Gen. Laws § 31-44-20

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1996 / N/A

Description: The mobile home conveyance tax, as included under the real estate conveyance tax, applies only to mobile and manufactured homes that are conveyed for a consideration of more than $100. If no consideration is paid for the conveyance of a mobile/manufactured home, no documentary stamps are required on the instrument of conveyance.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Massachusetts, and New Hampshire have similar provisions.

Connecticut: Connecticut taxes resales of mobile manufactured, modular, or prefabricated homes are taxed under the real estate conveyance tax. Connecticut's provisions include exclusion for conveyance of property when the consideration is less than $2,000.

Connecticut Statute: Conn. Gen. Stat. §§ 12-412c and 12-498(a)(10)

Massachusetts: Mobile homes that acquire characteristics of a conventional home are deemed to be real estate and are taxed as such. Massachusetts' provisions include an exclusion for conveyance where the consideration is not more than $100.

Massachusetts Statute: Mass. Gen. Laws ch. 64D, § 1

New Hampshire: New Hampshire's provisions include exclusion for conveyance where the consideration is $4,000 or less. In such cases, there is a minimum fee of $20. Manufactured housing is deemed real estate for the purposes of the tax on the transfer of real property when it is placed on a site and connected to required utilities.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78-B:1, I(b) and IV

Vermont: If a mobile home is affixed to the land or is financed as real estate, the transfer of ownership of a mobile home is treated as real property and is subject to the property transfer tax. Vermont's provisions include an exclusion of the first $110,000 in value of the property transferred if the purchaser obtains a purchase money mortgage funded in part with a homeland grant through the Vermont Housing and Conservation Trust Fund or which the Vermont Housing and Finance

Agency or U.S. Department of Agriculture and Rural Development has committed to make or purchase. A tax at the rate of 1.25% is imposed on the value of that property in excess of $110,000. All other property transferred has a lower tax rate (0.5% vs 1.25%) for the first $100,000 of value.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9602(1)

### 3. Conveyance of Real Estate for Consideration of $100 or Less:

Statutory Reference: R.I. Gen. Laws §§ 44-25-1(a) and (c)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1968 / 2004

Description: The real estate conveyance tax applies only to lands, tenements, or other realty that are conveyed for a consideration of more than $100. When no consideration is paid for the conveyance of the lands, tenements, or other realty, no documentary stamps are required on the instrument of conveyance.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Massachusetts, New Hampshire, and Vermont have similar provisions.

Connecticut: Connecticut's provisions include an exclusion for conveyance of property when the consideration is less than $2,000.

Connecticut Statute: Conn. Gen. Stat. § 12-498(a)(10)

Massachusetts: Massachusetts' provisions include an exclusion for conveyance where the consideration is not more than $100.

Massachusetts Statute: Mass. Gen. Laws ch. 64D, § 1

New Hampshire: New Hampshire's provisions include exclusion for conveyance where the consideration is $4,000 or less. In such cases, there is a minimum fee of $20.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78-B:1, I(b)

Vermont: Vermont's provisions include an exclusion of the first $110,000 in value of the property transferred if the purchaser obtains a purchase money mortgage funded in part with a homeland grant through the Vermont Housing and Conservation Trust Fund or which the Vermont Housing

and Finance Agency or U.S. Department of Agriculture and Rural Development has committed to make or purchase. A tax at the rate of 1.25% is imposed on the value of that property in excess of $110,000. All other property transferred has a lower tax rate (0.5% vs 1.25%) for the first $100,000 of value.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9602(1)

**4. Conveyance of Real Estate Relating to the Capitol Center Project:**

Statutory Reference: R.I. Gen. Laws § 44-25-2(c)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1984 / N/A

Description: The real estate conveyance tax does not apply to any deed, instrument, or writing that relates to the Capitol Center Project in the City of Providence.

Data Source: Rhode Island Department of Revenue.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Real Estate Conveyance Tax | $0 | 0 |
| 2021 Real Estate Conveyance Tax | $0 | 0 |
| 2022 Real Estate Conveyance Tax | $0 | 0 |
| 2023 Real Estate Conveyance Tax | $0 | 0 |

Projection Methodology: Amount of exclusion and number of taxpayers held constant with FY 2023.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Real Estate Conveyance Tax | $0 | 0 |
| 2025 Real Estate Conveyance Tax | $0 | 0 |

Law Comparison: Connecticut has a similar provision.

Connecticut: Connecticut's provisions include an exclusion for conveyance of property for the Adriaen's Landing site or the Rentschler Field facility site.

Connecticut Statute: Conn. Gen. Stat. §§ 12-498(a)(15) and 32-650

## 5. Corporations Exempt from Taxation by Charter:

Statutory Reference: R.I. Gen. Laws § 44-11-1(4)(vi)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 1994

Description: Any corporation expressly exempt from taxation by charter is excluded from the base of taxpayers subject to the business corporation tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found in the other New England states.

## 6. Corporations Not Doing Business for Profit:

Statutory Reference: R.I. Gen. Laws § 44-11-1(4)(iv)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 1994

Description: Corporations specified in the Rhode Island Nonprofit Corporation Act, incorporated hospitals, schools, colleges, and other institutions of learning not organized for business purposes, not doing business for profit, and for which no part of the net earnings benefits any private stockholder or individual are excluded from the base of taxpayers subject to the business corporation tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: All of the New England states have similar provisions.

Connecticut: Connecticut's provisions include exclusion for companies exempt by the federal corporation net income tax law or under any other section of the Internal Revenue Code; however, such organizations are likewise taxed on their unrelated business income.

Connecticut Statute: Conn. Gen. Stat. § 12-214(a)(2)(B)

Maine: Maine's provisions include a general exclusion from the Maine corporate income tax for a corporation exempt from federal income tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5102(6)

Massachusetts: Massachusetts' provisions include exclusion for corporations, which are tax exempt for federal income tax purposes under § 501 of the Internal Revenue Code.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 30(3)

New Hampshire: New Hampshire's provisions provide an exclusion from the business profits tax for organizations exempt from federal tax under § 501(c)(3) of the Internal Revenue Code.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:1, I

Vermont: Vermont's corporate income tax starts with federal taxable income, which excludes organizations exempt under § 501(c)(3) of the Internal Revenue Code.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(18)

### 7. Corporations that Maintain and Manage Intangible Investments:

Statutory Reference: R.I. Gen. Laws § 44-11-1(4)(vii)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 1994

Description: Corporations, including all corporations under direct or indirect common ownership, that employ not less than five full-time equivalent employees in the state, that maintain an office in the state, and whose activities within the state are confined to the maintenance and management of their intangible investments, the collection and distribution of the income from those investments, or from tangible property physically located outside the state are excluded from the base of taxpayers subject to the business corporation tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Massachusetts, and New Hampshire have similar provisions.

Connecticut: Passive investment companies are exempt from the corporation business tax. In addition, dividends received, directly or indirectly, from such companies do not constitute gross income for corporation business tax purposes.

Connecticut Statute: Conn. Gen. Stat. § 12-213(a)(9)(D)

Massachusetts: Corporate regulated investment companies are exempt from the corporate excise tax.

Massachusetts Statute: Mass. Gen. Laws ch. 63, §§ 30(4) and 38B(b-c)

New Hampshire: New Hampshire's provisions provide an exclusion from the business profits tax for qualified investment companies.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:1, I and XXI

## 8. Dividends Received From Shares of Stock:

Statutory Reference: R.I. Gen. Laws §§ 44-11-12 and 44-14-15

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 1989

Description: Dividends received from the shares of stock of any business entity subject to the business corporation tax, public service corporation tax, or bank excise tax are excluded from a taxpayer's net income.

Data Source: *Business Corporation Tax*: Rhode Island Division of Taxation. The amount of exempt interest and dividends was multiplied by the taxpayer's apportionment factor in each tax year for any taxpayer that took this exclusion. The amount of revenue forgone is derived by multiplying the apportioned dividends received by the business corporation tax rate of 7% for TY 2020 and TY 2021.

*Bank Tax*: Rhode Island Division of Taxation. The amount of exempt interest and dividends was multiplied by the taxpayer's apportionment factor in each tax year for any taxpayer that took this exclusion. The amount of revenue forgone is derived by multiplying the apportioned dividends received by the banking institution excise tax rate of 9% for TY 2020 and TY 2021.

*Public Service Corporation Tax*: No reliable data exists for this tax expenditure item.

Reliability Index: *Business Corporation Tax, Bank Tax:* 1; Public Service Corporation Tax: 5

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Business Corporation Tax | $59,238,627 | 2,000 |
| 2020 Public Service Corporation Tax | *No estimate possible* | *No estimate possible* |
| 2020 Bank Tax | $1,697,246 | 30 |

| 2024 Bank Tax | $1,571,256 | 28 |
| **2024 Projected Total** | **$36,113,794** | **1,861** |
| 2025 Business Corporation Tax | $34,542,538 | 1,833 |
| 2025 Public Service Corporation Tax | *No estimate possible* | *No estimate possible* |
| 2025 Bank Tax | $1,571,256 | 28 |
| **2025 Projected Total** | **$36,113,794** | **1,861** |

Law Comparison: Connecticut, Maine, and Massachusetts have similar provisions.

Connecticut: Connecticut allows a deduction for all dividends not otherwise deducted from gross income other than 30% of dividends received from a domestic corporation in which the taxpayer owns less than 20% of the total voting power and value of the stock of such corporation.

Connecticut Statute: Conn. Gen. Stat. § 12-217(a)(1)(D)

Maine: The federal taxable income of the taxpayer is decreased by 50% of the apportionable dividend income received during the taxable year from an affiliated corporation that is not included with the taxpayer in a Maine combined report.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5200-A(2)(G)

Massachusetts: In determining taxable net income, 95% of dividends, exclusive of distributions in liquidation, are deducted from net income except for dividends from or on account of the ownership of any class of stock, if the corporation owns less than 15% of the voting stock of the corporation paying such dividend.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 38(a)(1)

**9. Financial Institutions:**

Statutory Reference: R.I. Gen. Laws § 44-11-1(4)(i)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 1994

Description: State banks, mutual savings banks, federal savings banks, trust companies, national banking associations, building and loan associations, credit unions, and loan and investment companies are excluded from the base of taxpayers that are subject to business corporation tax. These financial institutions are taxable under the bank excise tax and/or the bank deposits tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Maine, Massachusetts, and Vermont have similar provisions.

Maine: Financial corporations subject to the Maine financial institutions franchise tax under Me. Rev. Stat. Ann. tit. 36, § 5206 are not subject to the Maine corporate income tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5102(6)(B)

Massachusetts: In lieu of the corporate excise tax, every financial institution engaged in business in Massachusetts is subject to an excise tax for financial institutions measured by taxable net income.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 2(a)

Vermont: Banking corporations and loan associations are exempt from the corporation income tax. Instead, they are subject to a franchise tax on the privilege of doing business in Vermont. The tax is imposed on every corporation that is a bank, savings bank, savings institution, trust company, savings and loan association, and building and loan association located in Vermont.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5836(g)

**10. Fraternal Benefit Societies:**

Statutory Reference: R.I. Gen. Laws § 44-11-1(4)(v) / R.I. Gen. Laws § 44-17-1(a)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1896 / 2010

Description: Fraternal benefit societies, as defined in R.I. Gen. Laws § 27-25-1, are excluded from the base of taxpayers subject to the business corporation tax and the insurance company gross premiums tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: All the other New England states have similar provisions.

Connecticut: Fraternal benefit societies that are operated under the lodge system and designed to provide benefits to members and their dependents and other domestic fraternal societies operated under the lodge system, which devote their net earnings to charitable purposes are exempt from federal income tax under Internal Revenue Code §§ 501(c)(8) and 501(c)(10) and, therefore, are exempt from the Connecticut corporation business, dues, and insurance tax. However, entities exempt from federal income tax under Internal Revenue Code § 501 may be subject to the Connecticut tax on unrelated business income, under appropriate circumstances.

Connecticut Statute: Conn. Gen. Stat. §§ 12-201(4), 12-214(a)(2)(B) and 12-543(b)(3)

Maine: Every society organized or licensed as a fraternal benefit society is defined as a charitable and benevolent institution, and all its funds are exempt from state, county, district, municipal, and school tax other than taxes on real estate and office equipment.

Maine Statute: Me. Rev. Stat. Ann. tit. 24-A, § 4140

Massachusetts: Every society organized or licensed as a fraternal benefit society is a charitable and benevolent institution under Massachusetts law, and all its funds are exempt from state, county, district, municipal, and school taxes other than taxes on real estate and office equipment.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 30(3) and ch. 176, § 49

New Hampshire: Fraternal benefit societies are excluded from the insurance premium tax.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 400-A:39, X

Vermont: Every society organized or licensed as a fraternal benefit society is defined as a charitable and benevolent institution, and all its funds shall be exempt from state, county, district, municipal, and school taxes other than taxes on real estate and office equipment.

Vermont Statute: Vt. Stat. Ann. tit. 8, § 4500

### 11. Gain or Loss on Sale of Any Property Other Than Securities:

Statutory Reference: R.I. Gen. Laws § 44-14-11

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1942 / 1956

Description: Taxpayers subject to the bank excise tax exclude gains from the sale or other disposition of any property other than securities from gross income. Losses from the sale or other disposition of any property other than securities are not to be deducted from gross income.

Data Source: Rhode Island Division of Taxation. The gains and losses reported were multiplied by the taxpayer's apportionment factor in each tax year for any taxpayer that took this exclusion. ORA then subtracted the losses from the gains. The amount of revenue forgone is derived by multiplying the result by the banking institution excise tax rate of 9% for TY 2021. For TY 2020, the total amount of losses from the sale or other disposition of any property other than securities were more than the total amount of gains from the sale or other disposition of any property other than securities and thus there was no tax expenditure for that tax year. The number of taxpayers includes only taxpayers who reported gains from the sale or other disposition of any property other than securities.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Bank Tax | $0 | < 10 |
| 2021 Bank Tax | $184,870 | 10 |

Projection Methodology: TY 2022-TY 2025 is the average number of taxpayers and revenue forgone from TY 2018-TY 2021.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Bank Tax | $54,526 | < 10 |
| 2023 Bank Tax | $54,526 | < 10 |
| 2024 Bank Tax | $54,526 | < 10 |
| 2025 Bank Tax | $54,526 | < 10 |

Law Comparison: No similar provisions were found in the other New England states.

**12. Income from Sale of International Investment Management Services:**

Statutory Reference: R.I. Gen. Laws § 44-11-14.5 / Rhode Island Regulation 280-RICR-20-25-9.11(G)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1997 / N/A

Description: A taxpayer located in Rhode Island that employs, separately or as part of a consolidated tax return, an average of not less than 500 full-time equivalent employees in the state excludes from its net income subject to the business corporation tax any income derived from the sale of international investment management services to non-U.S. persons or non-U.S. investment funds.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Earnings from international banking facilities are allowed to be deducted under the net income base.

Connecticut Statute: Conn. Gen. Stat. § 12-217(a)(1)(C)

**13. Insurance and Surety Companies:**

Statutory Reference: R.I. Gen. Laws § 44-11-1(4)(iii)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 1994

Description: Insurance and surety companies are excluded from the base of taxpayers that are subject to the business corporation tax. These companies are subject to the insurance company gross premiums tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: All the other New England states have similar provisions.

Connecticut: Connecticut's provisions include exclusion from the corporation business tax for domestic insurance companies or those organized or incorporated under the laws of any other state or foreign government.

Connecticut Statute: Conn. Gen. Stat. § 12-214(2)(A)

Maine: Maine's provisions include an exclusion from the Maine corporate income tax for insurance companies by definition.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5102(6)

Massachusetts: Massachusetts' provisions include exclusion for insurance companies from the corporate excise tax but provide that such companies are subject to a tax on premiums.

Massachusetts Statute: Mass. Gen. Laws ch. 63, §§ 20, 22, and 23

New Hampshire: While not excluded from the business profits tax base, taxpayers are eligible for a tax credit for taxes paid to the insurance premium tax.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:5, III

Vermont: Insurance companies are excluded from the corporate income tax in Vermont.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(3)(A)

**14. Interest Received from Debt Instruments Issued by Public Service Corporations:**

Statutory Reference: R.I. Gen. Laws § 44-11-12(2)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 1989

Description: Interest received from the debt instruments or the distributive share of the taxable income of any company subject to the public service corporation tax are excluded from a taxpayer's net income that is subject to the business corporation tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found in the other New England states.

**15. Long-Term Gain from Capital Investment in Small Business:**

Statutory Reference: R.I. Gen. Laws §§ 44-43-1 and 44-43-5

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1987 / N/A

Description: A long-term capital gain realized from the sale or exchange of an interest in any qualifying business entity is excluded from the determination of income that is subject to the business corporation tax, public service corporation tax, bank excise tax, and personal income tax.

A qualifying business entity is a business entity that has average annual gross revenue less than $2.5 million; has been in business for less than four years; expends money to establish, expand, or increase its operations at a regular place of business in Rhode Island; and has received certification from the Rhode Island Commerce Corporation.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only Vermont has a similar provision.

Vermont: An exclusion from taxable income for the first $5,000 of adjusted net capital gains or 40% of the income from adjusted net capital gains held for more than three years.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)(B)(ii)

**16. Lubricating Oils, Marine Diesel Fuel, Aviation Fuel, and Heating Oil:**

Statutory Reference: R.I. Gen. Laws § 31-36-1(4)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1925 / 2009

Description: Lubricating oils, marine diesel fuel, aviation fuel, and heating oil are excluded from the list of fuels that are suitable to use in the operation and propulsion of motor vehicles with internal combustion engines that are subject to the motor fuel tax.

Data Source: Annual Energy Outlook, Independent Statistics and Analysis, U.S. Energy Information Administration; U.S. Department of Energy, FY 2020 - 2023. Other non-taxable distribution (gallons), jet fuel, and marine diesel fuel, Excise Tax Section, Rhode Island Division of Taxation. New England quadrillion btu of residential fuel oil was converted to gallons and apportioned to RI and other non-taxable fuel are summed and multiplied by the motor fuel tax rate of $0.34 per gallon in FY 2020 – FY 2022 and $0.37 per gallon for FY 2023 to arrive at the revenue forgone. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 2

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Motor Fuel Tax | $276,627,413 | *No estimate possible* |
| 2021 Motor Fuel Tax | $392,508,124 | *No estimate possible* |
| 2022 Motor Fuel Tax | $471,659,310 | *No estimate possible* |
| 2023 Motor Fuel Tax | $569,565,382 | *No estimate possible* |

Projection Methodology: Amount of revenue forgone for FY 2024 is the average of revenue forgone for FY 2022 and FY 2023. The exclusion amount for FY 2025 is held constant with FY 2024. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2024 Motor Fuel Tax | $520,612,346 | *No estimate possible* |
| 2025 Motor Fuel Tax | $520,612,346 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, New Hampshire, and Vermont have similar provisions.

Connecticut: Connecticut's motor vehicle fuels tax excludes lubricating oils from the definition of fuels.

Connecticut Statute: Conn. Gen. Stat. § 12-455a

Maine: Maine's provisions exclude lubricating oils from the definition of internal combustion engine fuel. Aircraft users are entitled to a reimbursement in the amount of the motor fuel tax paid less 4 cents per gallon.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 2902 and 2910

Massachusetts: Massachusetts' provisions exclude lubricating oils from the definition of fuel for purposes of the taxation of gasoline.

Massachusetts Statute: Mass. Gen. Laws ch. 64A, § 1

New Hampshire: Motor fuel is defined as all products used in an internal combustion engine for the generation of power to propel motor vehicles or mechanical contrivances on or over the ways of the state. Thus, lubricating oils are excluded from the tax on the sale of motor fuels. Motor fuel used for the propulsion of aircraft is subject to a lower tax rate.

New Hampshire Statute: N.H. Rev. Stat. Ann. §§ 259:58 and 422:34

Vermont: Vermont's law excludes lubricating oils from the gasoline tax definition. Gasoline or other motor fuel is defined to mean any type of fuel used in an internal combustion engine to generate power to propel a motor vehicle upon a highway.

Vermont Statute: Vt. Stat. Ann. tit. 23, § 3173

**17. Maximum Tax of $0.50 per Cigar:**

Statutory Reference: R.I. Gen. Laws §§ 44-20-13.2(a)(1) and (a)(2)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1992 / 2009

Description: The other tobacco products tax, as included in the cigarettes tax, is placed on all smokeless tobacco, cigars, and pipe tobacco products sold or held for sale in the state by any person. The tax is imposed at a rate of 80% of the wholesale cost of cigars, pipe tobacco products and smokeless tobacco other than snuff. The tax on cigars is a maximum of $0.50 for each cigar.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. *Patterns of Premium and Nonpremium Cigar Use in the United States: Findings from Wave 6 (2021) of the Population Assessment of Tobacco and Health Study,* Edwards et al., Nicotine & Tobacco Research, 2023. The total number of individual cigars with a wholesale cost greater than $0.63 was 2,400,197 in FY 2020, 3,793,758 in FY 2021, 4,212,513 in FY 2022, and 3,717,544 in FY 2023. Based on cigar consumption and price data reported by Edwards et al. in 2023, 17.4% of cigars reported smoked by study participants in the most recent 30 days were premiums cigars, 23.6% of cigars smoked in the most recent 30 days were nonpremium cigars, and 59.0% of cigars smoked in the most recent 30 days were cigarillos. This same study reported the median retail price of premium cigars was $8.67, the median retail price of nonpremium cigars was $3.09, and the median retail price of cigarillos was $1.34. Premium cigars, nonpremium cigars, and cigarillos were categorized based on the tobacco blends, components, manufacturing process and other characteristics associated with the usual brand smoked by current cigar smokers surveyed.

ORA used this data to estimate the number of cigars with a wholesale cost of greater than $0.63 in Rhode Island that were premium, nonpremium, and cigarillos. Accounting for the state 7% sales and use tax and the wholesale markup fees, cartage fees, and retail markup fees, ORA calculated median wholesale costs of $7.44, $2.65, and $1.15 for premium cigars, nonpremium cigars, and cigarillos, respectively. Using this price data, ORA then calculated the total wholesale cost for cigars sold in Rhode Island with a wholesale cost of greater than $0.63. Revenue forgone for these cigars is based on the difference between taxes estimated using 80% of the estimated total wholesale costs, computed using the price data and estimated number of cigars for premium and nonpremium cigars and actual taxes collected each year. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 2

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Cigarette Tax | $3,790,765 | *No estimate possible* |
| 2021 Cigarette Tax | $5,991,694 | *No estimate possible* |
| 2022 Cigarette Tax | $6,653,058 | *No estimate possible* |
| 2023 Cigarette Tax | $5,871,326 | *No estimate possible* |

Projection Methodology: Amount of exclusion is the average of revenue forgone from FY 2021 through FY 2023. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2024 Cigarette Tax | $6,172,026 | *No estimate possible* |
| 2025 Cigarette Tax | $6,172,026 | *No estimate possible* |

Law Comparison: Connecticut and Vermont have similar provisions.

Connecticut: The tax on all tobacco products of 50% of the wholesale price may not exceed $0.50 per cigar.

Connecticut Statute: Conn. Gen. Stat. §§ 12-330c(a)(1-2)

Vermont: The tax on cigars is 92% of the wholesale price for cigars with a wholesale price less than or equal to $2.17, $2.00 per cigar with a wholesale price of greater than $2.17 and less than $10.00, and $4.00 per cigar with a wholesale price of $10.00 or more per cigar.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 7811(a)

**18. Medical Cannabis:**

Statutory Reference: R.I. Gen. Laws § 21-28.11-3(2) / R.I. Pub. Laws 2022, Ch. 32

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2022 / N/A

Description: The 10% state cannabis excise tax is imposed on adult use cannabis as of December 1, 2023, which is defined as cannabis which may be legally possessed and consumed for non-medical purposes by a person who is at least 21 years of age. Medical cannabis is exempt from this excise tax but is subject to a 4% compassion center surcharge. Both adult use and medical cannabis are subject to the 7% sales and use tax. Adult use cannabis is also subject to a 3% local tax, which is outside the scope of this report.

Data Source: Rhode Island Office of Accounts and Controls, monthly *Comparative Revenue Report,* January 2023 – June 2023. Rhode Island Department of Business Regulation, *Industry Overview '23 Thru Sept.* Revenue forgone is the difference between what was collected under the 4% compassion center surcharge for January 2023 through June 2023 and what would have been collected under the 10% state cannabis excise tax for that same period. The number of taxpayers is the average of the active patient count as reported by the Department of Business Regulation for December 2022 through June 2023.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2023 Cannabis Excise Tax | $1,182,993 | 13,631 |

Projection Methodology: Revenue forgone is projected taking the difference of the 4% compassion center surcharge estimate for FY 2024 as calculated by the Rhode Island Office of Management and Budget and those same figures scaled to the 10% state cannabis tax. The number

of taxpayers for FY 2024 is the average active patient count for the first quarter of FY 2024 as reported by the Department of Business Regulation. FY 2025 is held constant with FY 2024.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 State Cannabis Excise Tax | $2,063,561 | 11,234 |
| 2025 State Cannabis Excise Tax | $2,063,561 | 11,234 |

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: The cannabis tax does not apply to the sale of cannabis for palliative use.

Connecticut Statute: Conn. Gen. Stat. §§ 12-330ll(b)(2)(B)

Massachusetts: Massachusetts provides an exemption from the state marijuana excise tax and local tax option for the sale of marijuana and marijuana products by a medical marijuana treatment center, registered personal caregiver to a qualifying patient, or personal caregiver.

Massachusetts Statute: Mass. Gen. Laws ch. 64N, § 4

Maine: Maine charges a 10% sales and use tax on adult use cannabis products if sold to a person who is not a qualifying patient. Cannabis purchases by medical cannabis patients are charged the standard 5.5% sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1811(1)(D)(5)

Vermont: Cannabis sales made by medical cannabis dispensaries to registered qualifying patients or through their registered caregivers are exempt from the cannabis excise tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 7902(d)(2)

**19. Paycheck Protection Program Loan Forgiveness:**

Statutory Reference: R.I. Gen. Laws §§ 44-11-11(a)(1)(iv), 44-14-11, and 44-30-12 / R.I. Pub. Laws 2021, Ch. 162, Art. 6, §§ 11-13 / U.S. Pub. Law No. 116-136

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2021 / N/A

Description: Any amount of a Paycheck Protection Program (PPP) loan that is forgiven for federal income tax purposes under the Coronavirus Aid, Relief, and Economic Security Act of 2020 as part of the Consolidated Appropriations Act of 2021 and/or any other subsequent federal stimulus relief packages enacted by law must be included in net income for the calculation of business corporation tax, gross income for the calculation of the bank excise tax, or Rhode Island adjusted

gross income for the calculation of the personal income tax only to the extent that the amount of the loan forgiven exceeds $250,000. This enacted change was retroactive to January 1, 2020. Based on data from the United States Small Business Administration (SBA) on PPP loan forgiveness dates and amount, only FY 2021 and FY 2022 are expected to be impacted by this tax expenditure item.

Data Source: Rhode Island Division of Taxation. Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. ORA calculated the Rhode Island tax liability for each personal income taxpayer who had an increasing modification for PPP loans greater than $250,000 under TY 2021 laws and the Rhode Island tax liability for each taxpayer as if they paid personal income tax on the first $250,000 of forgiven PPP loans for the same tax year and then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference the two tax liability calculations. Number of taxpayers for personal income tax includes all taxpayers that had a non-zero tax difference between the two calculations above.

Business corporation tax revenue forgone was calculated by applying to $250,000 the apportionment percentage for each return with PPP loans greater than $250,000 as reported on the business corporation tax form and then summing across all such returns. To calculate forgone revenue, the 7% business corporations tax rate was applied to this sum. The number of taxpayers only includes the number of business corporation taxpayers who paid tax on PPP loans greater than $250,000.

No taxpayers reported loans greater than $250,000 on the bank excise tax in any tax year.

It was not possible to determine the revenue forgone based on PPP loan data from the SBA for taxpayers whose PPP loan amounts were less than $250,000 because each loan would not necessarily be connected to one tax return (e.g., a forgiven PPP loan taken out by a pass-through entity could be reflected on multiple tax returns based on an individual's distribute share of that loan, each return having different effective tax rates).

Reliability Index: 1

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2021 Business Corporation Tax | $16,185,602 | 2,078 |
| 2021 Bank Tax | $0 | 0 |
| 2021 Personal Income Tax | $22,278,149 | 1,987 |
| **2021 Total** | **$38,463,751** | **4,065** |

Projection Methodology: Projected revenue forgone for personal income tax is estimated by ORA using loan forgiveness data provided by the SBA for CY 2021 and CY 2022. ORA applied the percentage decrease in the number of loans forgiven and the amount of the loans forgiven to the CY 2021 revenue forgone amount and number of taxpayers to calculate the comparable figures for CY 2022. Projected revenue forgone and number of taxpayers for CY 2022 business corporation tax are as provided by Taxation, which include only returns processed as of December 2023. As

of October 3, 2023, the SBA reported no loans by Rhode Island borrowers greater than $250,000 with a loan forgiveness date in TY 2023, and thus ORA projects no revenue forgone beyond TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Business Corporation Tax | $2,283,060 | 238 |
| 2022 Bank Tax | $0 | 0 |
| 2022 Personal Income Tax | $3,195,125 | 328 |
| **2022 Projected Total** | **$5,478,185** | **566** |

Law Comparison: All the other New England states have similar provisions.

Connecticut: Connecticut's income base provisions begin with federal definitions of adjusted gross income (personal income tax) and taxable income (corporate income tax) and, therefore, PPP loan forgiveness is excluded from taxation in Connecticut because PPP loan forgiveness is not included in the determination of the taxpayer's federal definitions of adjusted gross income or taxable income.

Connecticut Statute: Conn. Gen. Stat. §§ 12-213(a)(9) and 12-701(a)(19)

Maine: Maine's personal income tax base is federal AGI, as defined by federal law, and, therefore, PPP loan forgiveness is excluded from taxation in Maine because PPP loan forgiveness is not included in the determination of the taxpayer's federal definitions of AGI or taxable income.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5121

Massachusetts: Massachusetts enacted legislation to exclude from the personal income tax any loan forgiveness allowed under the federal CARES Act for TY 2020. For purposes of the corporate excise tax, Massachusetts follows the Internal Revenue Code as currently in effect. Therefore, any amount forgiven for a corporate borrower would be excluded from Massachusetts gross income.

Massachusetts also allows personal income taxpayers to deduct from their Massachusetts gross income the amount of cancelation of debt income related to Paycheck Protection Program beginning on or after January 1, 2021.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(a); "An Act Financing a Program for Improvements to the Unemployment Insurance Trust Fund and Providing Relief to Employers and Workers in the Commonwealth," § 12; "An Act relative to immediate COVID-19 recovery needs," § 77; Mass. Gen. Laws ch. 63, § 1

New Hampshire: No amount of loans forgiven under the federal PPP loan program is required to be included in the gross business income of the taxpayer for purposes of calculating the business profits tax.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:3-c; N.H. Technical Information Release 2021-003

Vermont: Because Vermont uses federal AGI as the starting point for calculating Vermont personal income tax liability and taxable income as the starting point for calculating Vermont corporate income tax liability, the federal treatment of PPP loan forgiveness is adopted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(18) and (21)

**20. Possession of Ten Packs of Cigarettes with Out-of-State Tax Stamps:**

Statutory Reference: R.I. Gen. Laws § 44-20-16

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1948 / 1991

Description: Neither the tax imposed on unstamped cigarettes nor the use tax on cigarettes apply to the use or storage of cigarettes up to a maximum of 10 packs that have been brought into the state on a person.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Maine, and Vermont have similar provisions.

Connecticut: Connecticut's provisions allow an individual the use or storage of cigarettes in an amount not exceeding 200 cigarettes which have been brought into this state on the person or in accompanying baggage.

Connecticut Statute: Conn. Gen. Stat. §12-320

Maine: Maine's provisions allow an unlicensed individual to transport cigarettes for personal use not to exceed two cartons.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 4366-B(2)

Vermont: Products purchased outside of Vermont by an individual in quantities of 400 or less of cigarettes, little cigars, and 0.0325-ounce units of roll-your-own tobacco and brought into the state for that individual's own use or consumption is exempt from the cigarettes and tobacco products taxes.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 7771(c)(1)(C)

**21. Public Service Corporations:**

Statutory Reference: R.I. Gen. Laws § 44-11-1(4)(ii)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 1994

Description: Public service corporations, except for those public service corporations provided for in R.I. Gen. Laws § 44-13-2.2, are excluded from the base of taxpayers subject to the business corporation tax. These companies are instead subject to the public service corporation tax imposed under R.I. Gen. Laws Ch. 44-13.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut and Vermont have similar provisions.

Connecticut: Connecticut's provisions specifically state that the taxation provided for public service companies tax upon gross earnings in any year is in lieu of all other taxes.

Connecticut Statute: Conn. Gen. Stat. § 12-268j

Vermont: Railroad companies are exempt from the corporate income tax. Instead, such companies pay a separate railroad tax, which is calculated based on appraisal value.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 5811(3) and 8211

**22. Taxed Gross Earnings and Associated Costs of Non-Public Service Corporations:**

Statutory Reference: R.I. Gen. Laws § 44-13-2.2

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1997 / N/A

Description: R.I. Gen. Laws § 44-13-2.2 requires that a corporation or public service company whose principal business in Rhode Island is not an activity specified in R.I. Gen. Laws § 44-13-4 is subject to the business corporation tax or the personal income tax. The gross earnings subject to the public service corporation tax and the direct and indirect costs associated with these gross

earnings are excluded from the calculation of net income upon which the business corporation and personal income taxes are assessed.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found in the other New England states.

**23. Taxes Legally Imposed on Consumer but Separately Stated on Invoice:**

Statutory Reference: R.I. Gen. Laws § 44-18-12(b)(iv)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 2006

Description: Taxes legally imposed directly on the consumer that are separately stated on the invoice, bill of sale, or similar document provided to the purchaser are not included in the sale price upon which the sales tax is assessed.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: The sale price does not include the amount of any tax, not including manufacturers or importer's excise tax, imposed by the United States upon or with respect to retail sales.

Connecticut Statute: Conn. Gen. Stat. § 12-407(a)(8)(B)(iii)

Maine: The sale price does not include the amount of any tax imposed by the United States on or with respect to retail sales.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1752 (14)(B)

Massachusetts: In computing the tax due, the vendor excludes the tax reimbursement paid by the purchaser to the vendor and the federal manufacturers' excise tax levied on motor vehicles (trucks) under the Internal Revenue Code.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, §§ 1 and 3(a)

Vermont: The term sales price, which is the tax base for the sales and use tax, does not include any taxes legally imposed directly on the consumer that are separately stated on the invoice, bill of sale, or similar document given to the purchaser.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9701(4)(B)(iii)

**24. Value-Added Non-Voice Services That Use Computer Processing Applications:**

Statutory Reference: R.I. Gen. Laws § 44-13-4(4)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1942 / 2008

Description: Value-added non-voice services in which computer processing applications are used to act on the form, content, code, and protocol of the information to be transmitted are excluded from the definition of telecommunication service and thus are not subject to the public service corporation tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only New Hampshire has a similar provision.

New Hampshire: Value-added services in which computer processing applications are used to act on the form, content, code, and protocol of the information for purposes other than transmission are excluded from the definition of communication services for the purposes of calculating the communication services tax.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 82-A:2, III(a)

Vermont: Value-added non-voice data service is excluded from the imposition of sales and use tax on telecommunication services.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9771(5)

**25. Veterinary and Testing Laboratories Services:**

Statutory Reference: R.I. Gen. Laws § 44-18-7.3(b)(3)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2012 / N/A

Description: Sales and use tax is imposed on pet care services except for veterinary and testing laboratories services.

Data Source: FY 2021 and FY 2022 Rhode Island Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| FY 2021 Sales and Use Tax | $5,902,585 | *No estimate possible* |
| FY 2022 Sales and Use Tax | $6,339,200 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, recreation services from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $6,651,220 | *No estimate possible* |
| 2024 Sales and Use Tax | $6,982,134 | *No estimate possible* |
| 2025 Sales and Use Tax | $7,484,707 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Pet grooming, pet obedience services, and pet boarding, unless provided as an integral part of professional veterinary services, are taxable. Veterinary services are not identified as taxable services and are exempt from tax.

Connecticut Statute: Conn. Gen. Stat. § 12-407(a)(37)(KK)

Maine: Services such as surgery, grooming, lab testing, and boarding sold by veterinarians are not subject to Maine sales tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1752 (17-B)

Massachusetts: The only services subject to the Massachusetts sales and use tax are telecommunications services.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 1

Vermont: Sales of services are exempt from sales and use tax unless specifically designated as taxable. Veterinary services are not specifically designated as a taxable service.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9771

# EXEMPTIONS

## 1. Affordable Housing Development:

Statutory Reference: R.I. Gen. Laws § 44-25-2(f) / R.I. Pub. Laws 2021, Ch. 162, Art.14, § 7

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2021 / N/A

Description: Exempt from the realty transfer tax, effective July 6, 2021, are real estate transactions or transfers of acquired real estate companies that were either financed by federal low-income housing tax credits or were completed by non-profit entities or entities owned by a non-profit entity exempt from tax under § 501(c)(3) of the Internal Revenue Code and whose transaction falls under a qualifying affordable housing program.

Projection Methodology: Revenue forgone is the estimate included in the FY 2022 enacted budget. ORA assumes no growth for FY 2023 – FY 2025.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2022 Real Estate Conveyance Tax | $30,194 | *No estimate possible* |
| 2023 Real Estate Conveyance Tax | $30,194 | *No estimate possible* |
| 2024 Real Estate Conveyance Tax | $30,194 | *No estimate possible* |
| 2025 Real Estate Conveyance Tax | $30,194 | *No estimate possible* |

Law Comparison: New Hampshire and Vermont have similar provisions.

New Hampshire: New Hampshire provides an exemption from the tax on the transfer of real property for an otherwise taxable transfer between a land trust, incorporated under RSA 292 and established to provide affordable housing to low-income people, and a housing cooperative if the transfer tax is paid by the trust on the initial purchase of the property. Provided the tax was paid by the buyer or seller when the real property title was acquired, New Hampshire also exempts the direct or indirect transfer of an interest in real property in connection with: (1) "a federal low-income housing tax credit project as defined in Section 42 of the Internal Revenue Code of 1986…", (2) "a project funded with federal grants made to states for low-income housing projects in lieu of low-income housing tax credits under Section 1602 of the American Recovery and Reinvestment Act of 2009…", (3) "a Rental Assistance Demonstration (RAD) public housing conversion under the federal Consolidated and Further Continuing Appropriations Act of 2012…", or (4) or other federal, state, or local financing program requiring that the real estate remains subject to land use restriction and rental housing affordability covenants which limit allowable rents charged to individuals and families…"

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78-B:2, XV and XXIII

Vermont: Transfers made to organizations qualifying under 26 U.S.C. § 501(c)(3) or to a wholly owned subsidiary corporation of such an organization are exempt from the property transfer tax provided one of the stated purposes of the transferee to acquire property in order to preserve housing for low-income families. Vermont also exempts transfers "made to a corporation qualifying as a limited equity cooperative under the Cooperative Housing Ownership Act, provided the property in the hands of the transferee will be used to provide housing for persons or households of low or moderate income." Finally, Vermont exempts "transfers of leasehold or fee interests made to individuals with low income by organizations qualifying under 26 U.S.C. § 501(c)(3) and having as its primary purpose the provision of housing to individuals with low income, or from a wholly owned subsidiary of the organization, when the transfer is made concurrently with the transfer of an improvement located on the leasehold or fee property, or is a renewal of a lease where the purpose of the lease is to provide affordable housing or to ensure the continued affordability of the housing, or both."

Vermont Statute: 32 V.S.A. § 9603(20)(A), (21), and (23)

**2. Agricultural Products for Human Consumption:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(61)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2007 / N/A

Description: The sale, storage, use, or consumption of livestock and poultry of the kinds of products which ordinarily constitute food for human consumption and of livestock of the kind the products of which ordinarily constitute fibers for human use is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2021 Sales and Use Tax | $5,583,084 | *No estimate possible* |
| 2022 Sales and Use Tax | $6,191,552 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures for food and beverages purchased for off-premises consumption from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $6,442,600 | *No estimate possible* |
| 2024 Sales and Use Tax | $6,535,427 | *No estimate possible* |
| 2025 Sales and Use Tax | $6,620,878 | *No estimate possible* |

Law Comparison: Massachusetts and Vermont have similar provisions.

Massachusetts: Sales of livestock and poultry of a kind which ordinarily constitute food for human consumption, as well as the feed for such livestock and poultry, are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(p)

Vermont: Agriculture feeds, seed, plants, baler twine, silage bags, agricultural wrap, sheets of plastic for bunker covers, liming materials, breeding and other livestock, semen breeding fees, baby chicks, turkey poults, agriculture chemicals other than pesticides, veterinary supplies, and bedding; and fertilizers and pesticides for use and consumption directly in the production for sale of tangible personal property on farms, including stock, dairy, poultry, fruit and truck farms, orchards, nurseries, or in greenhouses or other similar structures used primarily for the raising of agricultural or horticultural commodities for sale are exempt from the sales and use tax in Vermont.

Effective July 1, 2019, the veterinary supplies category was removed from this exemption. Prescription drugs, durable medical equipment, and veterinary supplies intended for animal use remain exempt. Over-the-counter medicine intended for animal use is taxable.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(3)

**3. Air and Water Pollution Control Facilities:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(15)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1966 / 1980

Description: The sale, storage, use, or consumption of tangible personal property or supplies acquired for use in the operation of air and/or water pollution control facilities and which have been certified as approved for that purpose by the Director of the Rhode Island Department of Environmental Management is exempt from the sales and use tax.

Data Source: Rhode Island Department of Environmental Management (DEM) reported the number of sales tax exemptions issued each year. No reliable data exists from which to estimate the revenue forgone.

Reliability Index: 5

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | *No estimate possible* | 2 |
| 2022 Sales and Use Tax | *No estimate possible* | 1 |

Projection Methodology: No projection of the revenue forgone is possible due to a lack of reliable data. The projected number of taxpayers is the 5-year average of the sales tax exemptions issued by R.I. DEM.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | *No estimate possible* | 1 |
| 2024 Sales and Use Tax | *No estimate possible* | 1 |
| 2025 Sales and Use Tax | *No estimate possible* | 1 |

Law Comparison: Connecticut and Maine have similar provisions.

Connecticut: Connecticut's provisions include the sale, use, or other consumption of tangible personal property incorporated into or consumed in waste treatment facilities or in air pollution control facilities.

Connecticut Statute: Conn. Gen. Stat. §§ 12-412(21) and 12-412(22)

Maine: Maine's provisions include sales of water pollution control and air pollution control facilities certified as such by the Commissioner of Environmental Protection, any part or accessories thereof, or any materials for the construction or maintenance of a facility.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(29) and 1760(30)

**4. Aircraft and Aircraft Parts:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(56)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2004 / N/A

Description: The sale, storage, use, or consumption of any new or used aircraft or aircraft parts is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $5,606,033 | *No estimate possible* |
| 2022 Sales and Use Tax | $6,180,163 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures for recreational goods and vehicles from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $6,371,844 | *No estimate possible* |
| 2024 Sales and Use Tax | $6,583,262 | *No estimate possible* |
| 2025 Sales and Use Tax | $6,711,492 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: The sale, storage, use, or other consumption of aircraft is exempt from tax. Aircraft repair or replacement parts and repair services are also exempt.

Connecticut Statute: Conn. Gen. Stat. §§ 12-412(20), 12-412(76), and 12-412(77)

Maine: A sales and use tax exemption applies to sales or leases of aircraft that weigh over 6,000 pounds, that are propelled by one or more turbine engines, or that are in use by a small commercial air carrier such as a commuter airline or air taxi. An exemption also applies to the sale or use in Maine of replacement or repair parts of an aircraft. An exemption applies for "sales, use, or leases of aircraft and sales of repair and replacement parts exclusively for use in aircraft or in the significant overhauling or rebuilding of aircraft or aircraft parts or components from July 1, 2011 to June 20, 2033." This time-limited exemption is not subject to the same aircraft size, type, and use restrictions that apply to the permanent exemption in §§ 1760(88).

Maine Statute: Me. Rev. Stat. Ann. Tit. 36, §§ 1760(76), 1760(88), and 1760(88-A)

Massachusetts: The sale of aircraft and repair or replacement parts exclusively for use in aircraft or in the significant overhauling or rebuilding of aircraft, aircraft parts, or components on a factory basis is exempt from sales and use taxes.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, §§ 6(uu) and 6(vv)

Vermont: There is an exemption for aircraft sold to a person engaging in air commerce for use primarily in the carrying of persons or property for compensation or hire and for parts, machinery, and equipment to be installed in any aircraft. The sales of drones, and parts, machinery, and equipment to be installed in drones are no longer exempted from sales and use tax.

Vermont Statute: Vt. Stat. Ann. Tit. 32, § 9741(29)

**5. Banks and Regulated Investment Companies Interstate Toll Free Calls:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(49)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1996 / 1999

Description: The sales and use tax does not apply to the furnishing of interstate and international, toll-free, terminating telecommunication service that is used directly and exclusively by or for the benefit of an eligible company. An eligible company is a company that employs "on average during the calendar year" at least 500 full-time equivalent employees and is a regulated investment company, as defined in 26 U.S.C. § 851, or a corporation providing service, directly or indirectly, to or on behalf of a regulated investment company, an employee benefit plan, a retirement plan or a pension plan or a state-chartered bank.

Data Source: Number of toll-free numbers reported managed by Somos. Revenue forgone is calculated by applying the sales and use tax rate to the number of toll-free calls made by an investment company in Rhode Island. The revenue forgone estimate assumes 4 hours of toll-free calls per day, 5 days a week, 52 weeks a year, at a cost of 6.4 cents per minute. The product is multiplied by the total number of toll-free calls made in the United States, which is then scaled to U.S. investment firms using the ratio of U.S. investment firms to total U.S. firms. The result is then scaled to Rhode Island using the ratio of Rhode Island investment firms to U.S. investment firms. The estimate of revenue forgone is determined by multiplying this figure by 7%. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 4

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Sales and Use Tax | $596,561 | *No estimate possible* |
| 2021 Sales and Use Tax | $685,501 | *No estimate possible* |

Projection Methodology: For FY 2022, ORA applied the FY 2022 growth rate in Rhode Island sales and use tax revenues to FY 2021 forgone revenue. FY 2023-FY 2025 assume no additional growth. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Sales and Use Tax | $685,501 | *No estimate possible* |
| 2023 Sales and Use Tax | $685,501 | *No estimate possible* |
| 2024 Sales and Use Tax | $685,501 | *No estimate possible* |
| 2025 Sales and Use Tax | $685,501 | *No estimate possible* |

Law Comparison: Only Maine has a similar provision.

Maine: Sales of international and interstate telecommunications service are exempt from the service provider tax for all purchasers.

Maine Statute: Me. Rev. Stat. Ann. Tit. 36, §§ 2557(33) and 2557(34)

**6. Beverage Containers, Hard-to-Dispose Material, and Litter Control Participation Permittee:**

Statutory Reference: R.I. Gen. Laws §§ 44-44-2 and 44-44-3 / R.I. Pub. Laws 2019, Ch. 88, Art. 5, § 15

Stated Purpose: This chapter is enacted to provide funding for the litter reduction and recycling program and the hard-to-dispose material – control and recycling program.

Year Enacted / Last Year Amended: 1984 / 2019

Description: The definition of beverage includes all non-alcoholic drinks for human consumption, except milk, but including beer and other malt beverages and subjects these beverages to the tax on beverage containers. Milk sales are exempt from the beverage container tax per case. The case fee $0.08.

Data Source: Annual Estimates of Population for the United States (2020 - 2022), United States Census Bureau. Per Capita Consumption of Dairy, USDA National Agricultural Statistics Service. Excise Tax Section, Rhode Island Division of Taxation. Revenue forgone is based on beverage sales in Rhode Island that are not subject to the tax on beverage containers, which includes milk sales. Number of taxpayers was provided by the Division of Taxation.

Forgone revenue from milk sales is based on the number of cases of milk sold in Rhode Island annually multiplied by $0.08 per case. Rhode Island milk sales are based on the per capita consumption of milk (in gallons) divided by four to determine the per capita consumption of milk (cases) and the result is multiplied by the population of Rhode Island to determine the number of cases of milk consumed in Rhode Island.

Reliability Index: 2

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Tax on Beverage Containers | $359,838 | 33 |
| 2021 Tax on Beverage Containers | $341,851 | 30 |
| 2022 Tax on Beverage Containers | $330,664 | 31 |

Projection Methodology: CY 2023 - CY 2025 assume no additional growth in revenue forgone or the number of taxpayers.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Tax on Beverage Containers | $330,664 | 31 |
| 2024 Tax on Beverage Containers | $330,664 | 31 |
| 2025 Tax on Beverage Containers | $330,664 | 31 |

Comparison: No similar provisions found in the other New England states.

**7. Boats or Vessels Brought in Exclusively for Winter Storage Maintenance, Repair or Sale:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(46)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1991 / N/A

Description: There is an exemption against the use tax for the use of any boat or vessel within Rhode Island exclusively for purposes of delivery of a vessel to a facility in this state for storage, including dry storage and storage in water by means of apparatus preventing ice damage to the hull, maintenance, or repair; the actual process of storage, maintenance, or repair of the boat or vessel; or storage for the purpose of selling the boat or vessel. This exemption is specifically for the period between October 1 – April 30.

Data Source: *No reliable data exists for this tax expenditure item. (The forgone revenue from this exemption is included in the "Boats or Vessels Generally" exemption.)

Reliability Index: 5

Projection Methodology: *No reliable data exists for this tax expenditure item. (The forgone revenue from this exemption is included in the "Boats or Vessels Generally" exemption.)

Law Comparison: Connecticut and Maine have similar provisions.

Connecticut: Connecticut's provisions include an exemption from use tax for vessels brought into the state exclusively for storage, maintenance, or repair between October 1 – May 31.

Connecticut Statute: Conn. Gen. Stat. § 12-413a

Maine: The purchase of a watercraft outside of Maine is exempt if the watercraft is registered outside the state by the purchaser and used outside the state by the purchaser and the watercraft is present in Maine not more than 30 days, not including any time spent in Maine for temporary storage, during the 12 months following its purchase.

Maine Statute: Me. Rev. Stat. Ann. Tit. 36, § 1760(25)(B)

**8. Boats or Vessels Generally:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(48)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1993 / N/A

Description: The sale, storage, use, or other consumption of any new or used boat is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $8,300,416 | *No estimate possible* |
| 2022 Sales and Use Tax | $9,755,095 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, recreational goods and vehicles from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $10,057,654 | *No estimate possible* |
| 2024 Sales and Use Tax | $10,391,367 | *No estimate possible* |
| 2025 Sales and Use Tax | $10,593,772 | *No estimate possible* |

Law Comparison: Connecticut has a similar provision.

Connecticut: Connecticut's provisions include an exemption from sales tax provided such vessel is docked in the state for sixty or fewer days in a calendar year. Boats, boat engines, and boat trailers are charged a reduced rate for the sales and use tax of 2.99% compared to the standard Connecticut sales and use tax rate of 6.35%.

Connecticut Statute: Conn. Gen. Stat. § 12-408(1)(E)(ii)

**9. Boats Sold to Non-Residents:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(30)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1982 / N/A

Description: The sale of a boat or vessel to a bona fide non-resident who does not register the boat or vessel in Rhode Island or document the boat or vessel with the United States government at a home port within the state, whether the sale or delivery of the boat or vessel is made within this state or elsewhere is exempt from the sales and use tax. The non-resident must transport the boat outside the state for use solely outside of Rhode Island within 30 days after delivery by the seller.

Data Source: *No reliable data exists for this tax expenditure item. (The forgone revenue from this exemption is included in the "Boats or Vessels Generally" exemption.)

Reliability Index: 5

Projection Methodology: *No reliable data exists for this tax expenditure item. (The forgone revenue from this exemption is included in the "Boats or Vessels Generally" exemption.)

Law Comparison: Connecticut and Maine have similar provisions.

Connecticut: A vessel sold to a non-resident is exempt from tax if the non-resident does not maintain a permanent place of abode in Connecticut, the vessel is not registered or required to be registered with the Connecticut Department of Motor Vehicles, and the non-resident provides the retailer with CERT-139 (Sales and Use Tax Exemption for a Vessel Purchased by a Non-Resident of Connecticut).

Connecticut Statute: Conn. Gen. Stat. § 12-412(60)

Maine: Sales of watercraft to a person that is not a resident of Maine, when the watercraft is intended to be sailed or transported outside the state within 30 days of delivery by the seller; sales to a person that is not a resident of the state, under contracts for the construction of a watercraft intended to be sailed or transported outside the state within 30 days of delivery by the seller, of

materials to be incorporated in the watercraft; and sales to a person that is not a resident of Maine for the repair, alteration, refitting, reconstruction, overhaul, or restoration of a watercraft intended to be sailed or transported outside the state within 30 days of delivery by the seller, of materials to be incorporated in the watercraft are exempt from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(25)

**10. Breast Pumps Collection and Storage Supplies:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(67)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2022 / N/A

Description: Exempt from the sales and use tax, effective October 1, 2022, are breast pump collection and storage supplies defined as tangible personal property used in conjunction with a breast pump to collect milk expressed from a human breast and to store collected milk until it is ready for consumption. Breast pump collection and storage supplies include, but are not limited to, breast shields and breast shield connectors; breast pump tubes and tubing adapters; breast pump valves and membranes; backflow protectors and backflow protector adaptors; bottles and bottle caps specific to the operation of the breast pump; breast milk storage bags; and related items sold as part of a breast pump kit pre-packaged by the breast pump manufacturer.

Projection Methodology: Revenue forgone is the estimate included in the FY 2023 enacted budget. FY 2024 is a full year impact of the FY 2023 estimate. FY 2025 is set to FY 2024. ORA assumes no growth for FY 2023 – FY 2025.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $58,328 | *No estimate possible* |
| 2024 Sales and Use Tax | $79,359 | *No estimate possible* |
| 2025 Sales and Use Tax | $79,359 | *No estimate possible* |

Law Comparison: Connecticut and Massachusetts have similar provisions.

Connecticut: The sale, storage, use, or consumption of breast pumps, breast pump collection and storage supplies, and breast pump kits are exempt from the sales and use tax when sold to an individual for home use. Also exempt are repair or replacement parts and repair services rendered to breast pumps. If a breast pump kit includes other taxable items, the kit is subject to the tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(125)

Massachusetts: The rental, sale, and repair of "physician-prescribed, medically necessary breast pumps" are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(l)

**11. Building Materials Used to Rebuild After Disaster:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(51)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1998 / N/A

Description: The sale, storage, use, or other consumption of lumber, hardware, and other building materials used in the reconstruction of a manufacturing business facility that suffers the destruction of 60% or more of the facility is exempt from the sales and use tax. The exemption does not apply to the cost of the reconstruction materials reimbursed by insurance.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions found in the other New England states.

**12. Buses, Trucks, or Trailers Used in Interstate Commerce:**

Statutory Reference: R.I. Gen. Laws § 44-18-40

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1992 / 2012

Description: The purchase, rental, or lease of a bus, truck, or trailer by a bus or trucking company is not subject to the sales and use tax provided that the bus, truck, and/or trailer is utilized exclusively in interstate commerce. Buses operated by a bus company are allowed the sales and use tax exemption for the purchase or rental/lease of a bus that transports passengers for hire, provided that the bus is used no less than 80% of the time in interstate commerce.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $3,702,800 | *No estimate possible* |
| 2022 Sales and Use Tax | $3,767,300 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, motor vehicles and parts from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $4,253,970 | *No estimate possible* |
| 2024 Sales and Use Tax | $4,162,009 | *No estimate possible* |
| 2025 Sales and Use Tax | $3,977,661 | *No estimate possible* |

Law Comparison: Connecticut, Maine, and Massachusetts have similar provisions.

Connecticut: Each purchaser of a commercial truck, truck, tractor, truck tractor, or semi-trailer or vehicle used in combination is exempt from tax on such vehicles with a gross vehicle weight of greater than 26,000 lbs. Purchasers must present of a certificate/permit issued by the Interstate Commerce Commission at purchase of the vehicle.

Connecticut Statute: Conn. Gen. Stat. § 12-412(70)

Maine: The sale of a vehicle, railroad rolling stock, aircraft, or watercraft that is placed in use for interstate or foreign commerce within 30 days after that sale and that is used by the purchaser not less than 80% of the time for the next two years for interstate or foreign commerce is exempt from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(41-A)

Massachusetts: Sales of new and used motor buses used to provide scheduled, intracity local service are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(aa)

**13. Camps:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(16)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1967 / N/A

Description: The rental charged for living quarters, sleeping, or housekeeping accommodations at camps or retreat houses operated by religious, charitable, educational, or other nonprofit organizations as listed in R.I. Gen. Laws § 44-18-30(5) or privately owned and operated summer camps for children are exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2021 Sales and Use Tax | $1,046,617 | *No estimate possible* |
| 2022 Sales and Use Tax | $1,140,498 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures for recreation services from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $1,196,634 | *No estimate possible* |
| 2024 Sales and Use Tax | $1,256,169 | *No estimate possible* |
| 2025 Sales and Use Tax | $1,346,588 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Privately owned and operated summer camps for children, as well as those operated by religious or charitable organizations, are exempt from tax on lodging accommodations.

Connecticut Statute: Conn. Gen. Stat. § 12-407(17)

Maine: Maine's provisions include an exemption for rental charged for living quarters, sleeping, or housekeeping accommodations at camps, which are also entitled to a corresponding property tax exemption.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(17)

Massachusetts: An exemption from both the sales tax on meals and the room occupancy excise tax is provided for summer camps for children age 18 and under or for developmentally disabled

individuals. Camps that satisfy the above criteria but offer their facilities during the off-season to individuals 60 years of age or over for 30 days or less in any calendar year will not lose their exemption.

Massachusetts Statute: Mass. Gen. Laws ch. 64G, § 2 and 64H, § 6(cc)

Vermont: Overnight accommodations and meals at camps serving children are not subject to the rooms or meals tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9202(6) and 9202(10)(D)(ii)(VI)

**14. Cannabis Sold in Rolling Papers:**

Statutory Reference: R.I. Gen. Laws § 44-20-59 / R.I. Pub. Laws 2023, Chs. 136 and 137

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2023 / N/A

Description: Cannabis sold in rolling papers is exempt from cigarette and other tobacco products taxes.

Projection Methodology: FY 2024 revenue forgone is as included in the FY 2024 Enacted Budget. FY 2025 revenue forgone is from the fiscal note for 2023-S-0707. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2024 Cigarette Tax | $445,701 | *No estimate possible* |
| 2025 Cigarette Tax | $560,964 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Cigarettes and tobacco products must include tobacco, at least in part, in order to be taxed under the cigarette and tobacco products taxes.

Connecticut Statute: Conn. Gen. Stat. §§ 12-285(b)(1) and 12-330a(2)

Maine: Maine's provisions include an exemption for other tobacco products containing cannabis or for cannabis products sold as medical marijuana.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 4403-A(2)

Massachusetts: The definitions of cigarettes, little cigars, and smokeless tobacco include only products made of tobacco, excluding cannabis products from the cigarettes tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64C, § 1

Vermont: Vermont specifically excludes cannabis products from the tobacco products tax. Additionally, the definition of a cigarette specifies that the product must be made of tobacco.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 7702 and 7811(b)

**15. Casual Sales:**

Statutory Reference: R.I. Gen. Laws § 44-18-20(d-g)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1995

Description: Casual sales are sales made by a person other than a retailer, provided that in the case of a sale of a motor vehicle the term means a sale made by a person other than a licensed motor vehicle dealer or an auctioneer at an auction sale and are exempt from the sales and use tax. Casual sales include sales of tangible personal property not held or used by the seller in the course of the activities for which the seller is required to hold a seller's permit. Casual sales are limited to no more than five in any twelve-month period and include sales made at bazaars. Casual sales also include fairs, picnics, or similar events by nonprofit organizations and are limited to a total of two events that do not exceed six days in duration.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. Data is for the casual sale of motor vehicles only.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $6,464 | 162 |
| 2021 Sales and Use Tax | $6,735 | 155 |
| 2022 Sales and Use Tax | $7,023 | 138 |
| 2023 Sales and Use Tax | $5,942 | 94 |

Projection Methodology: Revenue forgone and number of taxpayers for FY 2024 and FY 2025 use a 3-year average based on data from 2021 - 2023.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $6,567 | 129 |
| 2025 Sales and Use Tax | $6,567 | 129 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Casual or isolated sales are exempt from tax. These are sales whose number, scope, and character are insufficient to make it necessary for the seller to have a seller's permit. Only retailers must charge the sales tax, and a person making casual or isolated sales would not meet the definition of retailer contained in Connecticut law.

Connecticut Statute: Conn. Gen. Stat. §§ 12-407(a)(12), 12-408(1)(A), and 12-431

Maine: Casual sales, in general, are not subject to Maine's sales and use taxes. These taxes are imposed on sales at retail, and casual sales are specifically excluded from the definition of retail sales. In most cases of casual sales involving the sale of trailers, truck campers, motor vehicles, special mobile equipment except farm tractors and lumber harvesting vehicles or loaders, watercraft or aircraft, the sales and use tax must be imposed.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1752(11)(B)(1) and 1764

Massachusetts: Casual and isolated sales by a vendor not regularly engaged in the business of making sales at retail are exempt from the sales and use tax except for the casual or isolated sale of a motor vehicle, trailer, boat, or airplane.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(c)

Vermont: Sale of tangible property as a casual sale is exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(4)

**16. Charitable, Education, or Religious Organizations:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(5)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1961 / 1988

Description: The sale, storage, use, and other consumption of tangible personal property by nonprofit hospitals; educational institutions not operated for a profit; churches; orphanages; other institutions or organizations operated exclusively for religious or charitable purposes; interest-free loan associations not operated for profit; nonprofit organized sporting leagues, associations, and bands for boys and girls under the age of 19; state chapters of national vocational students

organizations; organized nonprofit golden age and senior citizens clubs for men and women; and parent teacher associations are exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $108,038,086 | *No estimate possible* |
| 2022 Sales and Use Tax | $117,140,871 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island final consumption expenditures of nonprofit institutions serving households from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $126,200,177 | *No estimate possible* |
| 2024 Sales and Use Tax | $131,873,513 | *No estimate possible* |
| 2025 Sales and Use Tax | $139,848,956 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut exempts from the sales and use tax sales to any organization exempt from federal income tax under various Internal Revenue Code § 501 provisions, as well as nonprofit charitable hospitals, nursing homes, rest homes, and residential care homes.

Connecticut Statute: Conn. Gen. Stat. §§ 12-412(5) and 12-412(8)

Maine: Maine exempts from the sales and use tax various non-profit, educational, religious, and tribal organizations.

Maine Statute: Me. Rev. Stat. Ann. Tit. 36, §§ 1760(16), 1760(18-A), 1760(28), 1760(42-44), 1760(47-A), 1760(49-51), 1760(55-56), 1760(60), 1760(62-67), 1760(69-70), 1760(72), 1760(77), 1760(100-106), 1760(108-110), 1760(112-114)

Massachusetts: The sales and use tax exemption includes sales to any corporation, foundation, organization, or institution exempt from taxation under the federal Internal Revenue Code § 501(c)(3), provided that the tangible personal property or services sold is used in the conduct of religious, charitable, educational, or scientific enterprise and the corporation, foundation,

organization or institution has obtained a certification from the commissioner stating that it is entitled to such an exemption.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(e)

Vermont: Organizations that qualify for exempt status under the provisions of 26 U.S.C. § 501(c)(3), as well as agricultural organizations similarly qualified under 26 U.S.C. § 501(c)(5) when presenting agricultural fairs, field days, or festivals, are not subject to the sales and use tax. Organizations which qualify for exempt status under the provisions of 26 U.S.C. § 501(c)(4)-(13) and (19) and political organizations, as defined in 26 U.S.C. § 527(e), are exempt from the sales and use tax upon entertainment charges for up to than four special events (not including usual or continuing activities of the organization) held in any calendar year, and which, in the aggregate, are not held on more than four days in such year and are open to the general public.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9743(3) and 9743(5)

### 17. Clothing and Footwear:

Statutory Reference: R.I. Gen. Laws § 44-18-30(27)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1977 / 2012

Description: The sales of articles of clothing and footwear suitable for general use to be worn or carried on or about the human body are exempt from the sales and use tax. This exemption does not apply to clothing for athletic activity, protective use, or the sale of clothing or footwear with a retail sales price exceeding $250 per item. The sales and use tax is imposed on the portion of the retail price of an individual item of clothing or footwear that exceeds $250.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $45,297,370 | *No estimate possible* |
| 2022 Sales and Use Tax | $48,928,598 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, clothing and footwear from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $50,650,133 | *No estimate possible* |
| 2024 Sales and Use Tax | $51,601,303 | *No estimate possible* |
| 2025 Sales and Use Tax | $53,809,501 | *No estimate possible* |

Law Comparison: Connecticut previously had similar provisions that have since been repealed. Massachusetts, and Vermont have similar provisions.

Connecticut: Prior to January 1, 2020, Connecticut exempted safety apparel only, which was defined as any item of clothing or protective equipment worn by an employee for protection during the course of the employee's employment.

Connecticut Statute: Conn. Gen. Stat. § 12-412(91)

Massachusetts: Massachusetts' exemption provisions are limited to clothing, including footwear, that is intended to be worn or carried on the human body up to $175 of the sales price per item. The exemption does not apply to special clothing or footwear designed for athletic activity or protective use and is not normally worn except for the athletic or protective use. Sales of wearing materials or any cloth made up of natural or synthetic fibers and used for clothing purposes are also exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, §§ 6(k) and 6(v)

Vermont: The sales and use tax exemption applies to all clothing in Vermont, but clothing does not include clothing accessories or equipment, protective equipment, or sport or recreational equipment.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(45)

**18. Coffins, Caskets, Urns, Shrouds, and Burial Garments:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(12) / R.I. Pub. Laws 2022, Ch. 231, Article 6, § 8

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1952 / 2022

Description: The sale, storage, use, or other consumption of coffins, caskets, shrouds and other burial garments ordinarily sold by a funeral director as part of the business of funeral directing are exempt from the sales and use tax.

Effective October 1, 2019, this exemption was expanded to include the sale, storage, use, or other consumption of urns sold by a funeral director as part of the business of funeral directing. Effective October 1, 2022, this exemption was further expanded to include burial containers, urn liners, urn vaults, grave liners, grave vaults, burial tent setups, and prayer cards.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $1,513,562 | *No estimate possible* |
| 2022 Sales and Use Tax | $1,508,163 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis added the adopted FY 2023 budget estimate for the exemption expansion to FY 2022 estimated revenue forgone and then applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, other services from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $1,735,855 | *No estimate possible* |
| 2024 Sales and Use Tax | $1,801,348 | *No estimate possible* |
| 2025 Sales and Use Tax | $1,903,872 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut exempts sales of tangible personal property by any funeral establishment performing the primary services in preparation for and the conduct of burial or cremation, provided any such property must be used directly in the performance of such services and the total amount of such exempt sales with respect to any single funeral may not exceed $2,500. Sales of caskets used for burial or cremation are also exempt.

Connecticut Statute: Conn. Gen. Stat. § 12-412(55)

Maine: Sales of funeral services are exempt from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(24)

Massachusetts: Sales of coffins, caskets, burial garments, or other materials ordinarily sold by a funeral director as part of the business of funeral directing are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(n)

Vermont: Funeral charges, including sales of tangible personal property such as caskets, vaults, boxes, clothing, crematory urns, and other such funeral furnishings necessary for a funeral are exempt from the sales and use tax. The exemption does not include the sale of flowers and other items sold as an accommodation rather than as an integral part of the funeral service or preparation.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(22)

**19. Coins:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(43)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1988 / N/A

Description: The sale and other consumption of coins having numismatic or investment value are exempt from the sales and use tax.

Data Source: 2019 - 2022 Annual Reports, United States Mint. Annual Estimates of Population for the United States (2019 - 2022), United States Census Bureau. Revenue forgone is based on the annual numismatic and bullion coin sales in Rhode Island. Annual U.S. numismatic and bullion coin sales are scaled for Rhode Island using the ratio of Rhode Island's population to the total U.S. population. Revenue forgone is determined by multiplying this amount by 7%. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 4

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Sales and Use Tax | $401,255 | *No estimate possible* |
| 2021 Sales and Use Tax | $792,109 | *No estimate possible* |
| 2022 Sales and Use Tax | $1,001,923 | *No estimate possible* |

Projection Methodology: Revenue forgone amounts for FY 2022 and FY 2023 assume no additional growth. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $1,001,923 | *No estimate possible* |
| 2024 Sales and Use Tax | $1,001,923 | *No estimate possible* |
| 2025 Sales and Use Tax | $1,001,923 | *No estimate possible* |

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's provisions include exemptions for legal tender of any nation, rare and antique coins, and coins traded according to value as a precious metal. The exemption is limited to transactions in which the total value of the sale is less than $1,000.

Connecticut Statute: Conn. Gen. Stat. § 12-412(45)

Massachusetts: Massachusetts' exemption includes sales of $1,000 or more of items traded or sold according to their value as precious metals such as rare coins of numismatic value, gold or silver bullion or coins, and gold or silver tender of any nation.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(ll)

Vermont: Coins and other numismatic items when purchased as a medium of exchange are not considered tangible personal property and are exempt from the sales and use tax.

Vermont Statute: 10-066 Code Vt. R. 10-060-033-X § 1.9701(7)-1(B)(3)

**20. Commercial Fishing Vessels in Excess of Five Net Tons:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(26)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1976 / 2002

Description: The sale, use, storage, or other consumption of vessels and other watercraft of more than five net tons and used exclusively for commercial fishing is exempt from the sales and use tax. The exemption also applies to fishing equipment used in connection with the commercial fishing done by the vessel, as well as material for the maintenance and/or repair of the vessels.

Data Source: Annual estimates of number of boats, Annual vessel permit data listed by home port, National Oceanic and Atmospheric Administration, Greater Atlantic Region. Pricing data obtained from an online marine broker where boat weight was available. The average price per length was calculated for boats with lengths of under 32', 31.99'-41', 39.99'-56', 54.99'-66', and over 65'. Revenue forgone is determined by multiplying the average price calculated by the number of boats in each range based on length that weigh greater than five tons and have a home port listed as

Rhode Island and then multiplying by the sales and use tax rate of 7%. Number of taxpayers are the number of new permits for fishing vessels listed for that year. Estimate is for the sale of vessels only and does not include additional revenue forgone for fishing equipment used in connection with the commercial fishing done by the vessel or materials for the maintenance and/or repair of the vessels.

Reliability Index: 4

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $375,433 | 14 |
| 2021 Sales and Use Tax | $433,540 | 7 |
| 2022 Sales and Use Tax | $1,159,274 | 24 |
| 2023 Sales and Use Tax | $642,219 | 12 |

Projection Methodology: The projected revenue forgone and the number of taxpayers for FY 2024 were calculated based on a four-year average using FY 2020 – FY 2023. FY 2025 revenue forgone amounts and number of taxpayers were held constant with FY 2024.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $652,617 | 14 |
| 2025 Sales and Use Tax | $652,617 | 14 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Commercial fishing vessels and machinery or equipment for use on such vessels are exempt from the sales and use tax. A commercial fishing vessel includes any vessel with a certificate of documentation issued by the United States Coast Guard for coastwise fishery.

Connecticut Statute: Conn. Gen. Stat. § 12-412(40)

Maine: Maine does not include an exemption, but a refund and an alternative exemption card procedure exist for certain depreciable machinery and equipment used in commercial fishing. This includes new or used watercraft, nets, traps, cables, tackle and related equipment necessary to and used directly and primarily in the operation of a commercial fishing venture.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 2013 and Code Me. R. 18-125 Ch. 323

Massachusetts: Massachusetts' provisions include an exemption for sales of vessels used directly and exclusively in commercial fishing, including machinery, equipment, and replacement parts. Also, vessels used exclusively to provide scheduled commuter passenger service, including repair and replacement parts, are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(o) & 6(pp)

Vermont: Ferryboats, including depreciable parts, machinery, and equipment to be installed as a capital asset in such ferryboat, for use primarily in the carriage of persons or property for compensation or hire are exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(31)

**21. Commercial Vessels of 50 Tons Burden or More:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(25)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1976 / N/A

Description: Sales made to commercial ships, barges, or other vessels of 50 tons burden or more primarily engaged in interstate or foreign commerce are exempt from the sales and use tax. Provisions, supplies, and material purchased for maintenance and repairs of such commercial vessels are also exempt.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Maine and Massachusetts have similar provisions.

Maine: Sales of cabin, deck, engine supplies, and bunkering oil to ships engaged in transporting cargo or passengers for hire in interstate or foreign commerce are exempt from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(4)

Massachusetts: Sales of barges or vessels of 50 tons burden or over are exempt from the sales and use tax when constructed in Massachusetts and sold by their builders. Also exempt are sales of fuel or fuel substitutes for vessels engaged in interstate or foreign commerce or used directly and exclusively in commercial fishing along with the machinery, equipment, and replacement parts.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(o)

**22. Compressed Air:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(33)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1984 / N/A

Description: The sale, storage, consumption, or other use of compressed air is exempt from the sales and use tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found in the other New England states.

**23. Containers:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(4) / Rhode Island Public Laws 2018, Chapter 47, Article 4, § 10

Stated Purpose: No stated purpose given in law.

Year Enacted / Year Amended: 1947 / 2018

Description: The sale, storage, use, or other consumption of non-returnable containers, when sold without the contents to people who place the contents in the container and sell the contents with the container are exempt from the sales and use tax. Non-returnable containers include boxes, paper bags, and wrapping materials that are biodegradable and all bags and wrapping materials utilized in the medical and healing arts. Returnable containers are exempt when sold with the contents in connection with the retail sale of the contents and when sold for refilling. Kegs and barrel containers, returnable and non-returnable, that are sold to alcoholic beverage producers who place the alcoholic beverages in the containers are also exempt from sales and use tax.

Data Source: FY 2020 and FY 2021 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2021 Sales and Use Tax | $13,731,281 | *No estimate possible* |
| 2022 Sales and Use Tax | $14,934,828 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the United States producer price index for finished goods from the November 2023 S&P Global

forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $15,985,031 | *No estimate possible* |
| 2024 Sales and Use Tax | $16,184,794 | *No estimate possible* |
| 2025 Sales and Use Tax | $16,430,745 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's provisions are similar to Rhode Island's and include an exemption for returnable dairy product containers when sold without the contents.

Connecticut Statute: Conn. Gen. Stat. § 12-412(14)

Maine: Maine's provisions include returnable containers sold with the contents or resold for refilling. Additionally, packaging materials when sold for packing or shipping tangible personal property or for packing or shipping tangible personal property sold by the purchaser of the packaging materials are exempt from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(12) and 1760(12-A)

Massachusetts: Massachusetts' exempts most containers, including sales of empty returnable and non-returnable containers to be filled and resold, containers whose contents are exempt from the sales tax, and returnable containers when sold with the contents or resold for refilling.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(q)

Vermont: Materials, containers, labels, sacks, cans, boxes, drums or bags and other packing, packaging or shipping materials for use in packing, packaging, or shipping tangible personal property by a manufacturer or distributor are exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(16)

**24. Deed, Instrument, or Writing where Grantor is U.S. Government or State of Rhode Island:**

Statutory Reference: R.I. Gen. Laws § 44-25-2(b)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1968 / 2000

Description: Any deed, instrument, or writing where the United States, the State of Rhode Island, or one the State's political subdivisions is the grantor is exempt from the real estate conveyance tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: All of the New England states have similar provisions.

Connecticut: Connecticut's provisions include an exemption from the real estate conveyance tax for those deeds for which Connecticut is prohibited from taxing under the United States Constitution or related laws, as well as deeds to which the state or any of its political subdivisions is a party.

Connecticut Statute: Conn. Gen. Stat. § 12-498(a)(1) and (3)

Maine: Deeds to property transferred to or by the United States, the State of Maine, or any of their instrumentalities, agencies or subdivisions are exempt from the real estate transfer tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 4641-C(1)

Massachusetts: The excise tax on deeds, instruments, and writings does not apply to any deed, instrument or writing to which the commonwealth, a city or town of the commonwealth, or the United States or any of their agencies are a party.

Massachusetts Statute: Mass. Gen. Laws ch. 64d, § 1

New Hampshire: Transfers to the state, a state agency, a county, a city, a town, a school district, or a village district are exempt from the tax on the transfer of real property. Also exempt are transfers to the United States or any agency or instrumentality thereof.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78-B:2, I and II

Vermont: Transfers of property to the United States of America, the State of Vermont, or any of their instrumentalities, agencies, or subdivisions are exempt from the property transfer tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9603(2)

**25. Diesel Emission Control Technology:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(62)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2010 / N/A

Description: The sale and use of diesel retrofit technology that is required by the Diesel Emissions Reduction Act (R.I. Gen. Laws § 31-47.3-4) is exempt from the sales and use tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

**26. Dietary Supplements:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(59)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2006 / N/A

Description: The sale, storage, use or other consumption of dietary supplements, as defined in R.I. Gen. Laws § 44-18-7.1(l)(v), sold on prescription are exempt from the sale and use tax. A dietary supplement is any product, other than tobacco, that contains one or more of the following: vitamin; mineral; herb or other botanical; amino acid; dietary substance for use by humans that increases the total dietary intake; or concentrate, metabolite, constituent, extract, or combination of any ingredient described previously.

Data Source: 2020 and 2021 Supplemental Business Report, Nutrition Business Journal. Annual Estimates of Population for the United States and Rhode Island (2020 and 2021), United States Census Bureau. Revenue forgone is based on the annual sales of dietary supplements by prescription in Rhode Island. The U.S. sales of dietary supplements are scaled to Rhode Island using the ratio of Rhode Island's population to the total U.S. population. It is assumed that 25% of Rhode Island sales of dietary supplements are by prescription. Revenue forgone is determined by multiplying this amount by 7%. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 4

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $3,230,148 | *No estimate possible* |
| 2021 Sales and Use Tax | $3,463,269 | *No estimate possible* |
| 2022 Sales and Use Tax | $3,505,352 | *No estimate possible* |

Projection Methodology: Revenue forgone for FY 2023 – FY 2025 was held constant. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $3,505,352 | *No estimate possible* |
| 2024 Sales and Use Tax | $3,505,352 | *No estimate possible* |
| 2025 Sales and Use Tax | $3,505,352 | *No estimate possible* |

Law Comparison: Connecticut, Maine, and Vermont have similar provisions.

Connecticut: Connecticut's exemption for nonprescription drugs or medicines includes vitamin or mineral concentrates, dietary supplements, and natural or herbal drugs or medicines.

Connecticut Statute: Conn. Gen. Stat. § 12-412(120)

Maine: Medicines, tonics, vitamins and preparations in liquid, powdered, granular, tablet, lozenge or pill form, sold as dietary supplements or adjuncts, when sold on the prescription of a physician are exempt.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(3) and 1752(3-B)

Vermont: Sales of food and food ingredients sold for human consumption off the premises where sold, as well as eligible foods purchased with food stamps are exempt. Non-prescription vitamins and dietary supplements are considered to be food.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(13), Code of Vt. Rules § 1.9741(2)(B)

**27. Educational Institutions Rental Charges:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(18)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1967 / N/A

Description: The rent charged by any nonprofit educational institution for living quarters, sleeping, housekeeping accommodations, or other rooms or accommodations to any student or teacher necessitated by attendance at an educational institution is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $7,021,563 | *No estimate possible* |
| 2022 Sales and Use Tax | $7,512,185 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, food services and accommodations from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $8,136,053 | *No estimate possible* |
| 2024 Sales and Use Tax | $8,550,418 | *No estimate possible* |
| 2025 Sales and Use Tax | $8,994,256 | *No estimate possible* |

Law Comparison: Connecticut and Maine have similar sales and use tax provisions. Massachusetts, New Hampshire, and Vermont provide similar exemptions under the room occupancy excise, rooms, and rooms and meals taxes, respectively.

Connecticut: Connecticut's provisions include the exemption of lodging accommodations at educational institutions.

Connecticut Statute: Conn. Gen. Stat. § 12-407(a)(17)

Maine: Maine's provisions include the exemption of rental charges for living quarters, sleeping, or housekeeping accommodations to any student necessitated by attendance at a school.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(19)

Massachusetts: Massachusetts provisions include the exemption of lodging accommodations, including dormitories, at religious, charitable, educational, and philanthropic institutions; provided, however, that this exemption shall not apply to accommodations provided by any such institution at a hotel or motel operated by the institution.

Massachusetts Statute: Mass. Gen. Laws ch. 64G, § 2(ii)

New Hampshire: New Hampshire excludes from the definition of occupancy any occupancy at a facility or establishment owned or leased related to a long-term agreement by an organization operated for educational purposes that is exempt from federal income taxation under § 501(c)(3)

of the Internal Revenue Code (IRC), but only if occupancy at such facility or establishment is provided: (A) To students regularly attending the organization; (B) To employees, faculty members or administrative officials of the organization for occupancy at such facility or establishment provided in connection with responsibilities performed for the organization; (C) To volunteers providing services in connection with the organization; or (D) To any person whose occupancy at such facility or establishment is provided for an activity which is related to educational purposes and the sponsor of such activity is an organization exempt from federal income taxation under § 501(c) of the IRC or is provided by the federal government, state government, or an instrumentality thereof. The exemption provided does not apply if occupancy at the facility or establishment is offered to the general public on a regular and continuous basis without regard to an activity which is related to educational purposes.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78-A:6-d, VI

Vermont: The rental charges for living quarters, sleeping, or household accommodations to students attending a school are not subject to the rooms tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9202(8)

### 28. Electricity and Gas:

Statutory Reference: R.I. Gen. Laws § 44-18-30(21)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1972 / 2015

Description: The sale, use, storage, or other consumption of electricity or gas, regardless of use, is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. Annual Energy Outlook, Independent Statistics and Analysis, U.S. Energy Information Administration; U.S. Department of Energy. Revenue forgone is based on electricity, gas and distillate fuel oil consumption and price in New England. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $83,257,450 | *No estimate possible* |
| 2022 Sales and Use Tax | $90,692,348 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, housing and utilities services from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue

forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $99,149,536 | *No estimate possible* |
| 2024 Sales and Use Tax | $103,472,779 | *No estimate possible* |
| 2025 Sales and Use Tax | $107,190,155 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's provisions exempt from the sales and use tax the sale, furnishing, or service of gas, including bottled gas, and electricity when delivered to consumers through mains, lines, pipes, or bottles for use in any residential dwelling or directly in agricultural production or in the fabrication of a finished product to be sold or an industrial manufacturing plant provided that not less than 75% of the gas or electricity is used for the purpose of production, fabrication, or manufacturing.

Connecticut Statute: Conn. Gen. Stat. § 12-412(3)

Maine: Maine exempts coal, oil, wood, and all other fuels, including the first 750 kilowatt hours of residential electricity per month and gas when purchased for cooking and heating in buildings designed and used for both human habitation and sleeping. Maine also exempts 95% of the sale price of all fuel and electricity purchased for use at a manufacturing facility. Fuel purchased for use in commercial agriculture, commercial fishing, or commercial wood harvesting is eligible for refund. Effective January 1, 2023 this exemption was amended to include all residential electricity consumed by eligible customers enrolled in either a low-income assistance program or an arrearage management program administered by the Public Utilities Commission.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(9), 1760(9-B), 1760(9-C), 1760(9-D), and 2013(2)

Massachusetts: Massachusetts exempts the sales, furnishing, or service of water, gas, steam, or electricity used for residential purposes as well as gas, steam, or electricity consumed and used directly in an industrial plant in the actual manufacture of tangible personal property at which at least 75% of fuel consumed is used for purpose of such manufacturing or heating. Massachusetts also exempts sales of gas, steam, electricity, and heating fuel used by any business that has five or fewer employees and had gross income of less than $1.0 million for the preceding calendar year.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(i) and 6(qq)

Vermont: Vermont exempts sales of electricity, oil, gas, and other fuels used in a residence for all domestic use, including heating. Sales of electricity, oil, gas, and other fuels used directly and

exclusively for farming purposes are also exempt, as well as those fuels used directly or indirectly in manufacturing processes.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(26), 9741(27), and 9741(34)

**29. Equipment for Research and Development:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(42)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1987 / 1996

Description: The sale, use, storage, or other consumption of equipment that is used for research and development purposes by a qualifying company is exempt from the sales and use tax. A qualifying company is a business for which the use of research and development equipment is an integral part of its operation. Equipment means scientific equipment, computers, software, and related items.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2021 Sales and Use Tax | $7,805,300 | *No estimate possible* |
| 2022 Sales and Use Tax | $8,111,800 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the United States producer price index for machinery and equipment from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $8,804,017 | *No estimate possible* |
| 2024 Sales and Use Tax | $8,975,372 | *No estimate possible* |
| 2025 Sales and Use Tax | $8,949,865 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Property used in research and development in the manufacturing industry qualifies for the exemption given to manufacturing materials. Research and development services are not among the list of taxable services and, therefore, are not subject to tax. Also, a sales and use tax exemption for the sale of and the storage, use, or other consumption of machinery, equipment, tools, materials, supplies, and fuel used directly in the biotechnology industry is available.

Connecticut Statute: Conn. Gen. Stat. §§ 12-407(a)(37), 12-412(89), and 12-412i(a)(2)

Maine: Maine's exemption provisions include sales of machinery and equipment for use by the purchaser directly and exclusively in research and development in the experimental and laboratory sense or primarily biotechnology applications.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(32)

Massachusetts: Sales of materials, tools, fuels, machinery, and replacement parts, used in research and development by a manufacturing or research and development corporation are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, §§ 6(r) and 6(s)

Vermont: Vermont's provisions exempt sales of tangible personal property purchased for use or consumption directly and exclusively, except for isolated or occasional uses, in commercial industrial, or agricultural research and development.

Vermont's Statute: Vt. Stat. Ann. tit. 32, § 9741(24)

**30. Estates of Persons Declared Missing in Action by U.S. Armed Forces:**

Statutory Reference: R.I. Gen. Laws § 44-22-2

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1977 / 1990

Description: The estate of a serviceman or servicewoman who has been classified by the armed forces of the United States as missing in action is exempt from the estate and transfer tax.

Data Source: Estate Tax Section, Rhode Island Division of Taxation.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Estate and Transfer Tax | $0 | 0 |
| 2021 Estate and Transfer Tax | $0 | 0 |
| 2022 Estate and Transfer Tax | $0 | 0 |

Projection Methodology: Projected revenue forgone and number of taxpayers for FY 2023 through FY 2025 is held constant with FY 2022.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Estate and Transfer Tax | $0 | 0 |
| 2024 Estate and Transfer Tax | $0 | 0 |
| 2025 Estate and Transfer Tax | $0 | 0 |

Law Comparison: No similar provisions were found for the other New England states.

**31. Farm Equipment:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(32)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1984 / 2004

Description: The sale, storage, use, or other consumption of machinery and equipment used directly for commercial farming and agricultural production is exempt from the sales and use tax. The exemption includes replacement parts, as well as tools and supplies used in the repair and maintenance of farming equipment. Commercial farming is defined as the keeping or boarding of five or more horses or the production within this state of agricultural products, including, but not limited to, field or orchard crops, livestock, dairy, and poultry, or their products, where the keeping, boarding, or production provides at least $2,500 in annual gross sales to the operator.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. Number of taxpayers are from 2021 update of county business patterns published by the United States Census Bureau. Includes all firms classified under the North American Industry Classification System (NAICS) of agriculture, forestry, fishing, and hunting.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $725,400 | 38 |
| 2022 Sales and Use Tax | $725,400 | 38 |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the United States producer price index for machinery and equipment from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. The number of taxpayers for FY 2023-2025 was held constant with FY 2022.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $787,302 | 38 |
| 2024 Sales and Use Tax | $802,625 | 38 |
| 2025 Sales and Use Tax | $800,344 | 38 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's provisions include any items sold exclusively for use in agricultural production by a farmer engaged in such production as a business as evidenced by the Farmer's Tax Exemption Permit issued by the Connecticut Department of Revenue Services.

Connecticut Statute: Conn. Gen. Stat. § 12-412(63)

Maine: Maine tax law does not include a similar exemption but does provide a refund procedure for certain depreciable machinery and equipment used in commercial agricultural production, commercial fishing, or commercial aquacultural production. The refund procedure is also applicable to purchases of electricity used for such purposes.

Maine Statute: Me. Rev. Stat. Ann. Tit. 36, § 2013 and Code Me. R. 18-125 Ch. 323

Massachusetts: Massachusetts' provisions include sales of machinery or replacement parts used directly and exclusively in agricultural production. Farmers (including persons who raise poultry and livestock) and fishermen pay no tax on materials, tools, and fuel they buy that is used or consumed directly and exclusively in agricultural production and commercial fishing.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, §§ 6(r) and 6(s)

Vermont: Sales of agricultural machinery and equipment used predominately to produce or grow tangible personal property for sale at farms (including stock, dairy, poultry, fruit, and truck farms) orchards, nurseries, or in greenhouses or other similar structures used primarily for the raising of agricultural or horticultural items for sale are exempt from sales and use tax. Predominately means 75% of the time the equipment is in use.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(25)

**32. Farm Structure Construction Materials:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(44)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1988 / N/A

Description: Lumber, hardware, and other materials used in the new construction of farm structures, including production facilities and any other structures used in connection with commercial farming, are exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $511,186 | *No estimate possible* |
| 2022 Sales and Use Tax | $575,042 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the United States chained price index for farm and miscellaneous nonresidential construction from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $595,339 | *No estimate possible* |
| 2024 Sales and Use Tax | $589,241 | *No estimate possible* |
| 2025 Sales and Use Tax | $663,787 | *No estimate possible* |

Law Comparison: Maine and Massachusetts have similar provisions.

Maine: Any materials for the construction, repair or maintenance of an animal waste storage facility are exempt. An animal waste storage facility means a structure or pit constructed and used solely for storing manure, animal bedding waste, or other wastes generated by animal production.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(81)

Massachusetts: "Sales of building materials and supplies to be used in the construction, reconstruction, alteration, remodeling or repair of… (4) any building or structure located in a Marine Industrial Park… provided, however, that said building or structure is exclusively used for agricultural production or seafood processing or as a seafood storage facility…"

Massachusetts Statute: Mass. Gen. Laws Ch. 64H §§ 6(f)

### 33. Feed for Certain Animals Used in Commercial Farming:

Statutory Reference: R.I. Gen. Laws § 44-18-30(63)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2012 / N/A

Description: The feed for livestock and poultry of the kinds of products of which ordinarily constitute food for human consumption and of livestock of the kind the products of which ordinarily constitute fibers for human use is exempted from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model and Office of Revenue Analysis calculations. Number of taxpayers are from 2021 update of county business patterns published by the United States Census Bureau. Includes all firms classified under the North American Industry Classification System (NAICS) of agriculture, forestry, fishing, and hunting.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $121,715 | 38 |
| 2022 Sales and Use Tax | $137,004 | 38 |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the Unites States producer price index for processed foods and feeds from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. The number of taxpayers for FY 2023-2025 was held constant with FY 2022.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $146,107 | 38 |
| 2024 Sales and Use Tax | $144,232 | 38 |
| 2025 Sales and Use Tax | $144,581 | 38 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's provisions include any items sold exclusively for use in agricultural production by a farmer engaged in such production as a business as evidenced by the Farmer's Tax Exemption Permit issued by the Connecticut Department of Revenue Services. This includes the raising, feeding, caring for, shearing, training, or management of livestock including horses, bees, poultry, fur-bearing animals, or wildlife.

Connecticut Statute: Conn. Gen. Stat. § 12-412(63)

Maine: Maine's provisions include products used in aquaculture production, including bait, and products used in animal agriculture, including feed. Maine also exempts farm animal bedding and hay from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(7-A), 1760(7-C), and 1760(78)

Massachusetts: Massachusetts exempts from sales tax the sales of feed, including the bags in which the feed is customarily contained, for livestock and poultry, which ordinarily constitute food for human consumption, are sold in the regular course of business, or are animals produced for research, testing, or other purposes relating to the promotion or maintenance of the health, safety or well-being of human beings or animals.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(p)(2)

Vermont: Agriculture feeds, seeds, plants, baler twine, silage bags, agricultural wrap, sheets of plastic for bunker covers, liming materials, breeding and other livestock, semen breeding fees, baby chicks, turkey poults, agriculture chemicals other than pesticides, veterinary supplies, and bedding; and fertilizers and pesticides for use and consumption directly in the production for sale of tangible personal property on farms, including stock, dairy, poultry, fruit and truck farms, orchards, nurseries, or in greenhouses or other similar structures used primarily for the raising of agricultural or horticultural commodities for sale are exempt for the sales and use tax in Vermont.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(3)

### 34. Feminine Hygiene Products:

Statutory Reference: R.I. Gen. Laws § 44-18-30(66) / R.I. Pub. Laws 2019, Ch. 88, Art. 5, § 9

Stated Purpose: No explicit purpose provided in the statute.

Year Enacted / Last Year Amended: 2019 / N/A

Description: Beginning October 1, 2019, the sale, storage, use, or other consumption of tampons, panty liners, menstrual cups, sanitary napkins, and similar products for which the principal use is feminine hygiene in connection with the menstrual cycle is exempt from the sales and use tax.

Data Source: Statista Market Insights, Tissue Hygiene Paper, 2023 Report. 2020 Annual estimates of the resident population by single year of age and sex for the United States for 2020 and population estimates by age and sex for Rhode Island for 2018 - 2019, United States Census Bureau. Rhode Island Population Estimates Aged 10-54 and United States Population Estimates Aged 16+ for 2021-2026, S&P Global. ORA utilized total sales of sanitary napkins/tampons in the United States and assumed sanitary napkins and tampons were 81.2% of the total feminine hygiene products category for all years based on data from a 2018 Statista report. The total was then divided by the total number of women in the United States ages 12-51 years old, as the average menstrual age range for women is 12-51 years, to calculate the average annual cost for feminine hygiene products for women in this age group. United States Census data was used to estimate the number of Rhode Island women aged 12-51 years. Additionally, ORA assumed 10% of such women would be pregnant or breastfeeding at any given time. Revenue forgone was calculated by multiplying the average annual cost of feminine hygiene products and the estimated number of Rhode Island women 12-51 years old. The number of taxpayers is the estimated number of females in Rhode Island 12-51 years old that are not pregnant or breastfeeding.

Reliability Index: 4

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Sales and Use Tax | $1,114,575 | 284,587 |
| 2021 Sales and Use Tax | $1,159,385 | 283,354 |
| 2022 Sales and Use Tax | $1,176,006 | 281,564 |

Projection Methodology: Revenue forgone for FY 2023 – FY 2025 is grown using forecast data for sales of feminine hygiene products provided by Statista's Market Insight, and the number of taxpayers is grown using forecast data for the population of Rhode Island for ages 10 - 54 years as provided by S&P Global for the November 2023 Revenue Estimating Conference.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $1,200,369 | 279,204 |
| 2024 Sales and Use Tax | $1,249,887 | 277,156 |
| 2025 Sales and Use Tax | $1,292,997 | 276,045 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Sales of menstrual products are exempt from the sales and use tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(122)

Maine: Menstrual products are exempt from the sales and use tax effective October 1, 2021.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §1760(107)

Massachusetts: Health care items are exempt from the sales and use tax, and the state classifies sanitary napkins and belts and tampons as health care items.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(l)

Vermont: Feminine hygiene products used in connection with the human menstrual cycle are exempt from the Vermont sales and use tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(56)

### 35. First 50,000 Gallons of Distilled Spirits of a Distiller in Continuous Operation for 12 Months:

Statutory Reference: R.I. Gen. Laws § 3-10-1(d)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2016 / NA

Description: The first 50,000 gallons of distilled spirits produced and distributed in Rhode Island in any calendar year is exempt from the alcoholic beverage excise tax, provided that the distiller has actively and directly owned, managed, and operated a distillery in the state for at least 12 consecutive months.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. Based on gallonage filings with the Excise Tax Section. ORA took the estimate for the number of gallons distributed in Rhode Island for CY 2020 – CY 2022 and multiplied by the per gallonage excise tax rate of $5.40. Number of taxpayers is the number of distilleries as identified by the Rhode Island Department of Business Regulation.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Alcoholic Beverage Tax | $129,600 | 6 |
| 2021 Alcoholic Beverage Tax | $32,400 | 6 |
| 2022 Alcoholic Beverage Tax | $37,800 | 7 |

Projection Methodology: The revenue forgone amounts for CY 2023 – CY 2025 are the average revenue forgone amounts per distillery from CY 2020 – CY 2023 multiplied by the projected number of taxpayers. The number of taxpayers for CY 2023 are as reported in public data by the

Department of Business Regulation as of November 2023. The number of taxpayers for CY 2024 – CY 2025 were held constant with CY 2023.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Alcoholic Beverage Tax | $97,200 | 9 |
| 2024 Alcoholic Beverage Tax | $97,200 | 9 |
| 2025 Alcoholic Beverage Tax | $97,200 | 9 |

Law Comparison: No similar provisions were found for the other New England states.

**36. First 100,000 Barrels of Beer of a Brewer in Continuous Operation for 12 Months:**

Statutory Reference: R.I. Gen. Laws § 3-10-1(c)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1933 / 2013

Description: The first 100,000 barrels of beer produced and distributed in Rhode Island in any calendar year is exempt from the alcoholic beverage excise tax, provided that the brewer has actively and directly owned, managed, and operated a brewery in the state for at least 12 consecutive months. A barrel of beer is defined as 31 gallons.

Data Source: Data for FY 2020 - FY 2022 is from the Excise Tax Section, Rhode Island Division of Taxation. The Excise Tax Section reports that a brewer is not required to file barrels of beer brewed until they brew more than 100,000 barrels. The revenue forgone estimates are determined by taking reported gallons sold in Rhode Island only and calculating barrels sold in Rhode Island (31 gallons per barrel) multiplied by the tax rate of $3.30 per barrel. Revenue forgone does not include estimates from smaller brewers and brewpubs who have not filed with the Division of Taxation. Number of taxpayers is from the Rhode Island Department of Business Regulation (DBR).

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Alcoholic Beverage Tax | $142,158 | 34 |
| 2021 Alcoholic Beverage Tax | $204,329 | 34 |
| 2022 Alcoholic Beverage Tax | $180,836 | 40 |

Projection Methodology: Revenue forgone for FY 2023 and FY 2024 is calculated taking the amount of revenue forgone divided by the number of breweries and brewpubs for FY 2020 – FY

2022 and then calculating the average of the results. The average was then applied to the number of breweries and brewpubs for FY 2023 – FY 2025 to estimate revenue forgone for those fiscal years. Number of taxpayers for FY 2023 – FY 2025 is from DBR's website as of October 2023.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Alcoholic Beverage Tax | $207,737 | 42 |
| 2024 Alcoholic Beverage Tax | $207,737 | 42 |
| 2025 Alcoholic Beverage Tax | $207,737 | 42 |

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Connecticut exempts from the alcoholic beverages tax the first 15 barrels of beer each year, provided it is consumed on the brewery premises.

Connecticut Statute: Conn. Gen. Stat. § 12-435

**37. Flags:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(34)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1984 / 1992

Description: The sale, use, storage, or other consumption of United States, Rhode Island, or POW-MIA flags is exempt from the sales and use tax.

Data Source: Interview with Flag Manufacturers Association of America board member, Detroit News. Annual Estimates of Population for the United States (2019 through 2021), United States Census Bureau. Revenue forgone is based on the annual sales of U.S. flags in Rhode Island. Nationally, the sale of U.S. flags is consistent year to year; therefore, no growth in U.S. sales is estimated. National sales are scaled for Rhode Island using the ratio of Rhode Island's population to the total United States population. Revenue forgone is determined by multiplying this amount by 7%. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 4

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $68,652 | *No estimate possible* |
| 2021 Sales and Use Tax | $69,454 | *No estimate possible* |
| 2022 Sales and Use Tax | $69,148 | *No estimate possible* |

Projection Methodology: FY 2022 - FY 2025 assume no additional growth. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $69,148 | *No estimate possible* |
| 2024 Sales and Use Tax | $69,148 | *No estimate possible* |
| 2025 Sales and Use Tax | $69,148 | *No estimate possible* |

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: Flags of the United States and the State of Connecticut are exempt from the sales and use tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(23)

Massachusetts: Flags of the United States are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(w)

Vermont: Flags of the United States sold to and by veterans' organizations exempted under § 501(c)(19) of the Internal Revenue Code are exempt from the sales and use tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(33)

**38. Food and Food Ingredients:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(9)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1948 / 2006

Description: The sale, storage, use, or other consumption of food and food ingredients sold for ingestion or chewing by humans for their taste or nutritional value is exempt from the sales and use tax. For the purposes of this exemption, food and food ingredients does not include candy, soft

drinks, dietary supplements, alcoholic beverages, tobacco, food sold through vending machines, or prepared foods generally.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. The exemption amount for food items paid for under the Supplemental Nutrition Assistance Program (SNAP) under R.I. Gen. Laws § 44-18-30(39), as determined from information provided by the Rhode Island Department of Human Services (DHS), was subtracted from this estimate. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3 (Figures below include any amounts attributable to the "Seeds and Plants used for Food and Food Ingredients" exemption).

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2021 Sales and Use Tax | $197,406,134 | *No estimate possible* |
| 2022 Sales and Use Tax | $208,699,808 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, food and beverages purchases for off-premises consumption from the November 2023 S&P Global forecast to FY 2021 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $215,026,676 | *No estimate possible* |
| 2024 Sales and Use Tax | $218,124,847 | *No estimate possible* |
| 2025 Sales and Use Tax | $220,976,829 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Sales of food products for human consumption are exempt from the sales and use tax. Food products include cereals and cereal products, milk and milk products, oleomargarine, meat and meat products, fish and fish products, eggs and egg products, vegetables and vegetable products, fruit and fruit products, spices and salt, sugar and sugar products other than candy and confectionery, coffee and coffee substitutes, tea, cocoa and cocoa products other than candy and confectionery.

Connecticut Statute: Conn. Gen. Stat. § 12-412(13)

Maine: Sales of grocery staples are exempt from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(3) and 1752(3-B)

Massachusetts: Sales of food products for human consumption which includes cereals and cereal products, flour and flour products, milk and milk products, including ice cream, oleomargarine, meat and meat products, fish and fish products, eggs and egg products, vegetables and vegetable products, fruit and fruit products, soft drinks, herbs, spices and salt, sugar and sugar products, candy and confectionery; coffee and coffee substitutes, tea, cocoa and cocoa products; and ice when used for household consumption are exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(h)

Vermont: Sales of food and food ingredients sold for human consumption off the premises where sold, as well as eligible foods purchased through the SNAP program are exempt. Food and food ingredients are defined as substances, whether in liquid, concentrated, solid, frozen, dried, or dehydrated form, that are sold for ingestion or chewing by humans and are consumed for their taste or nutritional value. Food and food ingredients do not include alcoholic beverages, tobacco, or soft drinks.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9741(13) and 9701(31)

### 39. Food Items Paid for by Food Stamps:

Statutory Reference: R.I. Gen. Laws § 44-18-30(39)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1986 / N/A

Description: The sale, storage, use, or other consumption of eligible food items paid for with U.S. government food stamps is exempt from the sales and use tax.

Data Source: Revenue forgone is based on Supplemental Nutrition Assistance Program (SNAP) benefits information supplied by the Department of Human Services and the Department of Administration's Office of Management and Budget. An assumed leakage factor of 10% was applied for out-of-state use. The balance is then multiplied by the sales and use tax rate of 7%. Number of taxpayers represents the average number of SNAP recipients during each fiscal year.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $14,951,921 | 147,822 |
| 2021 Sales and Use Tax | $15,569,325 | 142,385 |
| 2022 Sales and Use Tax | $17,451,164 | 139,254 |
| 2023 Sales and Use Tax | $20,294,008 | 142,270 |

Projection Methodology: FY 2024 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from FY 2019 - FY 2023 to FY 2023. FY 2025 is set equal to FY 2024.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $21,319,849 | 139,193 |
| 2025 Sales and Use Tax | $21,319,849 | 139,193 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Sales of any items purchased with SNAP benefits are exempt from the Connecticut sales and use tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(57)

Maine: Sales of items purchased with food instruments distributed by the Department of Health and Human Services pursuant to SNAP or the Women, Infants, and Children (WIC) Special Supplemental Food Program are exempt from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(54)

Massachusetts: Tangible personal property purchased with federal food stamps is exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(kk)

Vermont: Sales of food and food ingredients sold for human consumption off the premises where sold and sales of eligible foods that are purchased with benefits under SNAP are exempt, including a limited list of restaurant meals.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9202(10)(D)(ii)(X) and 9741(13)

**40. Gasoline:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(6)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1996

Description: The sale, storage, use, or other consumption of gasoline and other products taxed under the motor fuel tax and the sale, storage, use, or other consumption of aviation fuel are exempt from the sales and use tax.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. Gasoline and diesel price data collected from Moody's Analytics. Revenue forgone is based on taxable sales of motor fuel, gasoline, and diesel in Rhode Island. The Office of Revenue Analysis calculated Rhode Island taxable sales by multiplying the annual taxable gallons of gasoline and diesel by the average monthly price per gallon, including state and federal taxes, of self-serve unleaded gasoline and low sulfur diesel fuels. Revenue forgone is determined by multiplying this figure by 7%. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 2

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Sales and Use Tax | $71,376,998 | *No estimate possible* |
| 2021 Sales and Use Tax | $71,058,451 | *No estimate possible* |
| 2022 Sales and Use Tax | $112,796,550 | *No estimate possible* |
| 2023 Sales and Use Tax | $117,513,242 | *No estimate possible* |

Projection Methodology: FY 2024 is the 2-year average of revenue forgone from FY 2022 and FY 2023. FY 2025 assume no additional growth. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2024 Sales and Use Tax | $115,154,896 | *No estimate possible* |
| 2025 Sales and Use Tax | $115,154,896 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: The sale, storage, use, or other consumption of motor fuel is exempt. Dyed diesel sold to marine fuel docks for marine purposes is exempt from the motor vehicle fuels tax but is subject to sales tax at a reduced rate of 2.99%.

Connecticut Statute: Conn. Gen. Stat. §§ 12-412(15) and 12-408(1)(E)(iii)

Maine: Certain motor fuels upon which a motor fuel tax has been paid are exempt from the sales and use tax. Internal combustion engine fuel bought and used for the purpose of propelling jet engine aircraft is also exempt. Sales tax paid on fuel purchased for use in commercial agriculture, commercial fishing, or commercial wood harvesting is eligible for refund.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(8)(A), 1760(8)(B), and 2013(2)

Massachusetts: Gasoline and special motor carrier fuels that are subject to the provisions of Chapters 64A (Taxation of Sales of Gasoline), 64E (Taxation of Special Fuels in the Propulsion

of Motor Vehicles), or 64F (Taxation of Fuel and Special Fuels Acquired Outside and Used within the Commonwealth) of the Massachusetts General Laws are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(g)

Vermont: Motor fuels that are taxed under the state's gasoline tax, and dyed diesel used to power forestry machinery or to propel a vehicle off the highways of the State are exempt from the sales and use tax. Jet fuel and natural gas are taxable for sales and use tax purposes.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(7)(A)

**41. Hardship:**

Statutory Reference: R.I. Gen. Laws § 44-30-101(e)(2)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2019 / N/A

Description: Beginning in 2020, Rhode Island residents are required to maintain health insurance or be subject to a tax known as the "Shared Responsibility Payment Penalty." A taxpayer may claim a coverage exemption if they or a member of their household experienced a hardship that prevented them from obtaining minimum essential coverage. Hardship exemptions can include, but are not limited to, homelessness, eviction or foreclosure, death of a close family member, domestic violence, fire, flood, or other damage to your home or filing for bankruptcy. Individuals must be approved through Healthsource RI to receive the exemption.

Data Source: Rhode Island Division of Taxation. The number of taxpayers is a count of how many returns had this exemption claimed. It is possible that a return could represent more than one filer, such as in a joint return, which would be undercounted as reported here. It is also possible that the exemption was claimed for less than a full year. To calculate revenue forgone, Taxation provided an unaudited, taxpayer provided individual mandate penalty assessed, for all returns in that tax year that were assessed a penalty. Average assessed penalty per return was $680 in TY 2020, $769 in TY 2021 and $786 in preliminary TY 2022. ORA multiplied the average assessed penalty by the number of returns claiming that exemption in each tax year.

Reliability Index: 2 (This exemption includes the Religious Conscience exemption from the Shared Responsibility Payment Penalty).

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Shared Responsibility Payment Penalty Tax | $8,840 | 13 |
| 2021 Shared Responsibility Payment Penalty Tax | $18,456 | 24 |
| 2022 Shared Responsibility Payment Penalty Tax | $11,790 | 15 |

Projection Methodology: Revenue forgone amounts and number of taxpayers for TY 2023 are calculated using a three-year average based on data from TY 2020 – TY 2022. TYs 2024 and 2025 is set equal to TY 2023.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Shared Responsibility Payment Penalty Tax | $13,029 | 17 |
| 2024 Shared Responsibility Payment Penalty Tax | $13,029 | 17 |
| 2025 Shared Responsibility Payment Penalty Tax | $13,029 | 17 |

Law Comparison: A similar provision was found in Massachusetts.

Massachusetts: An individual may file an appeal on the imposition of the penalty claiming a hardship prevented them from purchasing health insurance.

Massachusetts Statute: Mass. Regulation 830 CMR 111M.2.1

**42. Heating Fuels:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(20)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1972 / 2015

Description: The sale, storage, use, or other consumption of every type of heating fuel, regardless of use, is exempt from the sales and use tax.

Data Source: Annual Energy Outlook, Independent Statistics and Analysis, U.S. Energy Information Administration; U.S. Department of Energy. Revenue forgone is based on energy consumption and price in Rhode Island. For FY 2020 - FY 2025, Rhode Island sales of distillate

fuel oil and propane included residential, commercial, and industrial consumption of New England quadrillion btu of distillate fuel oil and propane consumed. Revenue forgone is determined by multiplying New England total consumption in quadrillion btu by the average yearly price per btu, scaling the figure to Rhode Island by Rhode Island's percent of New England's residential quadrillion btu, and multiplying by 7%. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 4

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Sales and Use Tax | $25,024,115 | *No estimate possible* |
| 2021 Sales and Use Tax | $23,636,849 | *No estimate possible* |
| 2022 Sales and Use Tax | $34,383,062 | *No estimate possible* |
| 2023 Sales and Use Tax | $43,950,997 | *No estimate possible* |

Projection Methodology: FY 2024 and FY 2025 revenue forgone amounts were calculated using the previous methodology based on EIA projections for energy consumption and price. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2024 Sales and Use Tax | $41,163,432 | *No estimate possible* |
| 2025 Sales and Use Tax | $37,378,435 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: All fuels used for heating purposes for residential use are exempt from the sales and use tax, along with any building or premise used directly in agricultural production or in the fabrication of a finished product to be sold or an industrial manufacturing plant provided that not less than 75% of the gas or electricity is used for the purpose of production, fabrication, or manufacturing.

Connecticut Statute: Conn. Gen. Stat. § 12-412(16)

Maine: Coal, oil, wood and all other fuels, except gas and electricity, when bought for cooking and heating in buildings designed and used for both human habitation and sleeping are exempt. Additionally, 95% of the sale price of all fuel and electricity purchased for use at a manufacturing facility is exempt.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(9) and 1760(9-D)

Massachusetts: The sales of fuel used for residential heating purposes are exempt, as well as fuel used for heating purposes in an industrial plant where not less than 75% is used in the actual manufacture of tangible personal property to be sold. Massachusetts also exempts heating fuels used by any business that has five or fewer employees and had gross income of less than $1.0 million for the preceding calendar year.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, §§ 6(j) and 6(qq)

Vermont: Vermont exempts sales of electricity, oil, gas, and other fuels used in a residence for all domestic use, including heating. Sales of electricity, oil, gas, and other fuels used directly and exclusively for farming purposes are also exempt, as well as those fuels used directly or indirectly in manufacturing.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(26), 9741(27), and 9741(34)

### 43. Horse Food Products:

Statutory Reference: R.I. Gen. Laws § 44-18-30(53)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2000 / N/A

Description: The sale, use, storage, or other consumption of horse food products purchased by a person engaged in the business of boarding horses is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers. This estimate was scaled to horses by multiplying the estimate by the ratio of "total horses and ponies on Rhode Island farms" to the "total number of livestock on Rhode Island farms" derived from the 2017 Census of Agriculture, Rhode Island state profile. The calculated percentage was 2.5187%.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $69,210 | *No estimate possible* |
| 2022 Sales and Use Tax | $69,419 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the Unites States producer price index for processed foods and feeds from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $74,032 | *No estimate possible* |
| 2024 Sales and Use Tax | $73,082 | *No estimate possible* |
| 2025 Sales and Use Tax | $73,259 | *No estimate possible* |

Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's exemption for agricultural production includes the raising, feeding, caring for, shearing, training, or management of livestock, including horses.

Connecticut Statute: Conn. Gen. Stat. § 12-412(63)(C)

Maine: Sales of breeding stock, semen, embryos, feed, hormones, antibiotics, medicine, pesticides, and litter for use in animal agricultural production and sales of antiseptics and cleaning agents used in commercial animal agricultural production. Animal agricultural production includes the raising and keeping of equines. Farm animal bedding and hay are also exempt from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(7-C) and 1760(78)

Massachusetts: Sales of feed, including the bags in which the feed is customarily contained for livestock and poultry of a kind, which ordinarily constitute food for human consumption or are to be sold in the regular course of business are exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(p)

Vermont: Vermont exempts agricultural feeds broadly from the sales and use tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(3)

**44. Human Blood:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(60)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2007 / N/A

Description: The sale, use, storage, or other consumption of human blood is exempt from the sales and use tax.

Data Source: The 2019 and 2021 National Blood Collection and Utilization Survey Report (conducted by the Association for the Advancement of Blood and Biotherapies), United States

Department of Health and Human Services. Annual Estimates of Population for the United States (2019-2022) and 2020 Decennial Census of Population, United States Census Bureau. Revenue forgone is based on the sale of whole blood, red blood cell units, and apheresis-derived platelet units to hospitals located in Rhode Island. The total value of units of blood collected in the U.S. is scaled for Rhode Island using the ratio of Rhode Island's population to the total U.S. population. Revenue forgone is determined by multiplying this amount by 7%. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 4

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Sales and Use Tax | $804,040 | *No estimate possible* |
| 2021 Sales and Use Tax | $847,677 | *No estimate possible* |
| 2022 Sales and Use Tax | $906,676 | *No estimate possible* |

Projection Methodology: FY 2023 - FY 2025 revenue forgone amounts assume no additional growth. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $906,676 | *No estimate possible* |
| 2024 Sales and Use Tax | $906,676 | *No estimate possible* |
| 2025 Sales and Use Tax | $906,676 | *No estimate possible* |

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: Blood or blood plasma, when sold for medical use in humans or animals, is exempt from the sales and use tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(19)

Massachusetts: Medical items, including blood and blood plasma, are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(l)

Vermont: Blood or blood plasma used in treatment intended to alleviate human suffering or to correct, in whole or in part, human physical disabilities is exempt from the sales and use tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(2)

## 45. Installation Labor Charges When Separately Stated:

Statutory Reference: R.I. Gen. Laws § 44-18-12(b)(ii)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 2006

Description: The amount charged for labor or services rendered in installing or applying the property sold is exempt from the sales and use tax, provided that the charges for such labor or services rendered are separately stated by the retailer to the purchaser.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $42,031,200 | *No estimate possible* |
| 2022 Sales and Use Tax | $44,944,700 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures on services for household consumption expenditures from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $48,194,667 | *No estimate possible* |
| 2024 Sales and Use Tax | $50,521,943 | *No estimate possible* |
| 2025 Sales and Use Tax | $52,580,440 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Charges for labor rendered in installing or applying the property sold, provided such charge is separately stated, are exempt.

Connecticut Statute: Conn. Gen. Stat. § 12-407(8)(B)(iv)

Maine: The price received for labor or services used in installing or applying or repairing the property sold or fabricated, if separately charged or stated, is excluded from the taxable sales price.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1752(14)(B)(4)

Massachusetts: The amount charged for labor or services rendered in installing or applying the property sold is exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 1

Vermont: Installation charges are exempt from the sales and use tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9701(4)(B)(iv)

**46. Jewelry Display Product:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(47)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1993 / N/A

Description: The sale, use, storage, or other consumption of tangible personal property used to display any jewelry product is exempt from the sales and use tax as long as the title to the jewelry display product is transferred by the jewelry manufacturer or seller, shipped out of state for use solely outside the state, and is not returned to the manufacturer or seller.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

**47. Lottery Prizes:**

Statutory Reference: R.I. Gen. Laws § 42-61-17

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1974 / 1989

Description: The prizes received from the Division of Lottery are exempt from the state sales or use tax. Prizes are still subject to any taxes applicable to personal income tax.

Data Source: Division of Lottery, Department of Revenue

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $0 | 0 |
| 2021 Sales and Use Tax | $0 | 0 |

Projection Methodology: Revenue forgone and number of taxpayers for FY 2022 – FY 2025 are held constant with FY 2021.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Sales and Use Tax | $0 | 0 |
| 2023 Sales and Use Tax | $0 | 0 |
| 2024 Sales and Use Tax | $0 | 0 |
| 2025 Sales and Use Tax | $0 | 0 |

Law Comparison: No similar provisions were found for the other New England states.

**48. Manufacturers' Machinery and Equipment:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(22)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1974 / 1998

Description: The sale, storage, use, or other consumption of tools, dies, molds, machinery and equipment, including replacement parts, and related items to the extent used in connection with the actual manufacture, conversion, or processing of tangible personal property or computer software is exempt from the sales and use tax. The exemption is allowed whether the machinery and/or equipment is to be sold or used in the furnishing of power to an individual manufacturing plant. Machinery and equipment used in administration or distribution operations is not exempt.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. Number of taxpayers are from 2021 update of county business patterns published by the United States Census Bureau. Includes all firms classified under the North American Industry Classification System (NAICS) of manufacturing.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $38,531,955 | 1,189 |
| 2022 Sales and Use Tax | $39,691,599 | 1,189 |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the United States producer price index for machinery and equipment from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. FY 2023 – FY 2025 number of taxpayers held constant with FY 2022.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $43,078,665 | 1,189 |
| 2024 Sales and Use Tax | $43,917,118 | 1,189 |
| 2025 Sales and Use Tax | $43,792,309 | 1,189 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Machinery used directly in a manufacturing production process is exempt from the sales and use tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(34)

Maine: Machinery and equipment for use by the purchaser directly and primarily in either the production of tangible personal property intended to be sold or leased ultimately for final use or consumption or in the production of tangible personal property are exempt.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(31)

Massachusetts: Machinery or its replacement parts used directly and exclusively in an industrial plant in the actual manufacture of tangible personal property that is to be sold is exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(s)

Vermont: Machinery and equipment used in or consumed as an integral or essential part of an integrated production operation by a manufacturing or processing plant or facility engaged in the manufacture of tangible personal property for sale or in the manufacture of other machinery or equipment, parts, or supplies for use in the manufacturing process are exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(14)

**49. Medicaid:**

Statutory Reference: R.I. Gen. Laws § 44-30-101(e)(6) / R.I. Pub. Laws 2023, Ch. 79, Art. 4, § 4

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2023 / N/A

Description: Rhode Island's health insurance mandate requires Rhode Islanders to have minimum essential coverage for healthcare. During the 2023 session, a new exemption was enacted to exempt any applicable individual who was enrolled in the Medicaid program through December 31, 2023.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

**50. Medicines, Drugs, and Durable Medical Equipment:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(10)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1948 / 2011

Description: The sale, use, storage, or other consumption of drugs sold on prescription, medical oxygen, insulin whether it is sold on prescription or not, durable medical equipment for home use only, and supplies and related ancillary dressings used to dispense or administer prescription drugs is exempt from the sales and use tax. The exemption for over-the-counter drugs was eliminated in the FY 2012 budget.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $158,208,681 | *No estimate possible* |
| 2022 Sales and Use Tax | $176,557,862 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, nondurable goods from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $185,199,536 | *No estimate possible* |
| 2024 Sales and Use Tax | $192,389,102 | *No estimate possible* |
| 2025 Sales and Use Tax | $195,463,935 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Oxygen, blood plasma, prostheses, walkers and wheelchairs, medical devices and machines, prescription medicines, over-the-counter drugs and medicines, needles, and syringes are exempt from the state's sales and use tax.

Connecticut Statute: Conn. Gen. Stat. §§ 12-412(4), 12-412(19), and 12-412(120)

Maine: Sales of medicines for human beings sold by prescription are exempt from Maine sales tax. Sales of over-the-counter drugs and medical marijuana are not exempt from Maine sales tax. All equipment and supplies, whether medical or otherwise, used in the diagnosis or treatment of human diabetes is exempt. Maine's provisions also exclude the sale of positive airway pressure equipment and supplies and oxygen delivery equipment for rental for personal use to a person engaged in the business of renting positive airway pressure equipment and oxygen delivery equipment from sales tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(5), 1760(33), and 1760(94)

Massachusetts: Sales of medicine, insulin needles and insulin syringes on prescriptions of registered physicians; sales of artificial devices individually designed, constructed. or altered solely for the use of a particular crippled person so as to become a brace, support, supplement, correction or substitute for the bodily structure; sales of artificial limbs, artificial eyes, hearing aids and other equipment worn as a correction or substitute for any functioning portion of the body; sales of artificial teeth by a dentist and the materials used by a dentist in dental treatment; sales of prescription eyeglasses; sales of crutches and wheel chairs for the use of disabled persons; sales of baby oil; the rental, sales, and repairs of kidney dialysis machines, enteral and parenteral feedings, and feeding devices, suction machines, physician-prescribed, medically necessary breast pumps, oxygen concentrators, oxygen regulators, oxygen humidifiers, oxygen masks, oxygen cannulas, ultrasonic nebulizers, life sustaining resuscitators, incubators, heart pacemakers, canes, all types of hospital beds for home use, tripod quad canes, breast prosthesis, alternating pressure pad units and patient lifts, when prescribed by a physician are exempt from the sales and use tax. All medical

implements, pads, pouches, and solutions used as a result of a person undergoing a colostomy or ileostomy are also exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, §§ 6(l) and 6(z)

Vermont: Drugs intended for human use, durable medical equipment, mobility enhancing equipment, and prosthetic devices and supplies, including blood, blood plasma, insulin, and medical oxygen, used in treatment intended to alleviate human suffering or to correct, in whole or in part, human physical disabilities are exempt from the sales and use tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(2)

**51. Mobile and Manufactured Homes Generally:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(50)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1996 / N/A

Description: The sale, use, storage, or other consumption of mobile and/or manufactured homes that are subject to the mobile home conveyance tax is exempt from the sales and use tax.

Data Source: Rhode Island Division of Taxation. Revenue forgone is calculated from mobile home conveyance tax receipts. The Office of Revenue Analysis used the current mobile home conveyance tax rate of $1.40 for each $500 or fractional part thereof which is paid for the purchase of the home to estimate gross sales. Revenue forgone is determined by multiplying this figure by 7%. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $667,125 | *No estimate possible* |
| 2021 Sales and Use Tax | $387,900 | *No estimate possible* |
| 2022 Sales and Use Tax | $328,450 | *No estimate possible* |
| 2023 Sales and Use Tax | $598,616 | *No estimate possible* |

Projection Methodology: FY 2024 and FY 2025 assume no additional growth. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $598,616 | *No estimate possible* |
| 2025 Sales and Use Tax | $598,616 | *No estimate possible* |

Law Comparison: Connecticut, Maine, and Vermont have similar provisions.

Connecticut: Sale of a new modular or prefabricated home from a manufacturer shall be subject to sales and use taxes except that the sales price of a new mobile manufactured home or new modular or prefabricated home shall be deemed to be 70% of the manufacturer's sales price for the calculation of the sales and use tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412c(a)

Maine: Sales of new manufactured housing, except for the costs of materials, are exempt from the sales and use tax up to a maximum of 50% of the sale price. Sales of used manufactured houses are fully exempt.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(40)

Vermont: Vermont's provisions include exclusion from the sales and use tax for 40% of the receipts from the sale of mobile homes and modular housing when they are sold as tangible personal property.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(32)

**52. Motor Vehicle and Adaptive Equipment for Amputee Veterans:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(35)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1985 / 1989

Description: The sale of a motor vehicle and adaptive equipment to and for the use of a veteran with a service-connected loss of or loss of use of a leg, foot, hand or arm or any veteran who is a double amputee, whether service-connected or not, is exempt from the sales and use tax. The motor vehicle must be purchased by and especially equipped for use by the qualifying veteran.

Data Source: *No reliable data exists for this tax expenditure item. (The forgone revenue from this exemption is included in the "Motor Vehicles and Adaptive Equipment for Persons with Disabilities" exemption.)

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Maine and Massachusetts have similar provisions.

Maine: Sales of motor vehicles to amputee veterans who have been granted free registration of such vehicles by the Secretary of State are exempt.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(22)

Massachusetts: Sales of motor vehicles purchased by or for the use of a veteran who has been determined to be permanently disabled by the medical advisory board and has been issued a disabled veteran number plate are exempt. The exemption applies only to a single motor vehicle that must be purchased by and registered for the personal, noncommercial use of the disabled veteran.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(u)

**53. Motor Vehicles and Adaptive Equipment for Persons with Disabilities:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(19)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1969 / 2000

Description: The sale of special adaptations, the component parts of special adaptations, or a specially adapted motor vehicle is exempt from the sales and use tax, provided that the owner supplies the tax administrator with an affidavit of a licensed physician indicating that the specially adapted motor vehicle is necessary to transport a disabled family member, including the owner.

Data Source: Division of Motor Vehicles, Rhode Island Department of Revenue.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $3,705 | 16 |
| 2021 Sales and Use Tax | $3,125 | < 10 |
| 2022 Sales and Use Tax | $3,341 | < 10 |
| 2023 Sales and Use Tax | $6,055 | 12 |

Projection Methodology: Revenue forgone amounts and number of taxpayers for FY 2024 are calculated using a three-year average based on data from FY 2021 – FY 2023. FY 2025 is set equal to FY 2024.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $4,174 | < 10 |
| 2025 Sales and Use Tax | $4,174 | < 10 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Sales and the storage, use, or other consumption of special equipment installed in a motor vehicle for the exclusive use of a person with physical disabilities and repair or replacement parts for such equipment, whether such repair or replacement parts are purchased separately or in conjunction with such equipment, and whether such parts continue the original function or enhance the functionality of such equipment are exempt.

Connecticut Statute: Conn. Gen. Stat. § 12-412(80)

Maine: A person with a disability is granted a sales tax exemption for adaptive equipment for installation in or on a motor vehicle to make that vehicle operable or accessible by a person with a disability who is issued a disability plate or placard by the Secretary of State.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(95)

Massachusetts: Sales of a motor vehicles purchased by and for the use of a person who has suffered loss, or permanent loss of use of at least one leg or arm are exempt from the sales and use tax. This exemption applies to one motor vehicle only that is owned and registered for the personal, noncommercial use of such person.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(u)

Vermont: There is an exemption from the motor vehicle purchase and use tax for one motor vehicle owned or leased and operated by a person with a permanent physical disability for whom the vehicle controls have been altered to enable the person to drive. A motor vehicle owned or leased by a parent or guardian of a person with a permanent disability for whom a mechanical lifting device has been installed to allow for entry and exit of the vehicle, provided that the person with a disability has been certified exempt from the tax by the Commissioner of Motor Vehicles under the provisions of § 8901 of this title, is also exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 8911(12)

**54. Narragansett Pier Railroad Company:**

Statutory Reference: R.I. Gen. Laws § 44-13-1(a)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1942 / 1985

Description: The Narragansett Pier Railroad Company is exempt from the public service corporation tax in any year that net receipts of the railroad from dividends or other form of distribution of corporate earnings do not total at least 4% of the aggregate value of the property of the railroad.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

**55. Newspapers:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(2)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / N/A

Description: The sale, storage, use, or other consumption of newspapers is exempt from the sales and use tax. In this context, newspapers are defined as unbound publications printed on newsprint containing news, editorial comments, opinions, features, advertising, and other matters of public interest. Newspapers do not include magazines, handbills, circulars, flyers, sales catalogs, or similar items unless the item is printed for and distributed as a part of a newspaper.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2021 Sales and Use Tax | $2,632,253 | *No estimate possible* |
| 2022 Sales and Use Tax | $3,312,034 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, other nondurable goods from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $3,285,332 | *No estimate possible* |
| 2024 Sales and Use Tax | $3,412,871 | *No estimate possible* |
| 2025 Sales and Use Tax | $3,467,417 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's provisions exempt newspapers by subscription, magazines, regardless of frequency, and publications by subscription that only contain puzzles.

Connecticut Statute: Conn. Gen. Stat. § 12-412(114)

Maine: Maine's provisions exempt sales of any publication regularly issued at average intervals not exceeding three months. Maine also exempts free publications and components of publications.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(14) and 1760(14-A)

Massachusetts: Massachusetts' provisions exempt sales of newspapers and magazines, regardless of frequency, from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(m)

Vermont: Vermont's provision exempts newspapers and tangible personal property that becomes part of a newspaper, even if the newspaper is distributed without charge, from the sales and use tax. On average for the tax year, at least 10% of a newspaper's printed material must consist of news of general or community interest, community notices, editorial comment, or articles by different authors.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(15)

**56. Ocean Marine Insurance:**

Statutory Reference: R.I. Gen. Laws § 44-17-1(a)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1896 / N/A

Description: The premiums received from contracts of ocean marine insurance are exempt from the insurance gross premiums tax. In this context, ocean marine insurance is defined as contracts of insurance written by an insurance company transacting the business of marine insurance upon hulls, freights, disbursements, goods, wares, merchandise, and all other personal property and interests in the course of importation/exportation to or from any country or transportation

coastwise in connection with any and all risks or perils of navigation, transit, while being prepared for and while awaiting shipment, and during any delays, storage, or reshipment, including war risks and marine builders risks.

Data Source: National Association of Insurance Commissioners (NAIC), State Insurance Regulation in Rhode Island: Key Facts and Market Trends for 2020. Insurance Information Institute, Net Premiums Written By Line, Property/Casualty Insurance, 2018-2020. Rhode Island Division of Taxation. For FY 2020, Rhode Island insurance premium data for ocean marine insurance premiums was estimated by applying the percentage of United States ocean marine insurance premiums of the total United States ocean and inland marine insurance premiums to the total amount of reported Rhode Island ocean and inland marine insurance premiums. ORA used the 2021 growth rate in U.S. ocean marine insurance premiums to calculate the 2021 ocean marine premiums. Revenue forgone is determined by multiplying the ocean marine insurance premiums amounts by 2%. Number of taxpayers are the number of property/casualty insurance companies who included ocean marine and federal exempt premiums on the Rhode Island insurance tax form. ORA calculated a percentage of ocean marine insurance premiums from this using the NAIC data to exclude federal flood and farm insurance companies from the number of taxpayers.

Reliability Index: 4

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Ins Co Gross Premiums Tax | $459,467 | 46 |
| 2021 Ins Co Gross Premiums Tax | $520,862 | 45 |

Projection Methodology: The CY 2022 projection used data provided by NAIC and the Division of Taxation with ORA calculations using the same methodology to that of CY 2020. Taxation data on the number of taxpayers is as of December 2023 and is subject to revision. Revenue forgone for CY 2023 – CY 2025 was grown using the S&P Global forecast for gross state product, finance and insurance as provided for the November 2023 Revenue Estimating Conference. The number of projected taxpayers is held constant with CY 2021

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Ins Co Gross Premiums Tax | $526,577 | 45 |
| 2023 Ins Co Gross Premiums Tax | $515,337 | 45 |
| 2024 Ins Co Gross Premiums Tax | $564,541 | 45 |
| 2025 Ins Co Gross Premiums Tax | $611,198 | 45 |

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Ocean marine insurance companies are excluded from the tax on net direct insurance premiums of nonresident and foreign companies.

Connecticut Statute: Conn. Gen. Stat. § 12-210(b)

**57. Out-of-State Shipments of Rhode Island Alcoholic Beverage Manufacturers:**

Statutory Reference: R.I. Gen. Laws § 3-10-2

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1933 / 1956

Description: Rhode Island-based manufacturers of alcoholic beverages ship any beverage out-of-state with the intention that the consumption of that beverage will be outside of the state's borders may receive an exemption from the alcoholic beverage excise tax. The exemption from the tax is granted by the Department of Business Regulation.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: No tax is imposed on manufacturers of alcoholic beverages for sales to licensed distributors or on sales for export.

Connecticut Statute: Conn. Gen. Stat. § 12-435

Massachusetts: Alcoholic beverages made in Massachusetts or imported into Massachusetts and then exported from the state are exempt from the alcohol beverage excise tax.

Massachusetts Statute: Mass. Gen. Laws ch. 138, § 21(g)

Vermont: Vermont states the alcoholic beverage taxes are only due on sales in the State.

Vermont Statute: Vt. Stat. Ann. tit. 7, §§ 421(a) and 422(a)

**58. Personal and Dependent:**

Statutory Reference: R.I. Gen. Laws § 44-30-2.6(c)(3)(C)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / 2018

Description: Resident and non-resident taxpayers are allowed a personal and/or dependent exemption against the personal income tax. A personal exemption is granted to the taxpayer and spouse, if jointly filing a tax return, and the dependent exemption is granted to the dependents that are claimed by the taxpayer on their federal income tax return. The term exemption amount means the same as it did in the 26 U.S.C. §§ 151 and 152 as of December 22, 2017. The exemption amount is adjusted for inflation. If the taxpayer identification number (TIN) is not listed on the federal income tax form for any individual, the TIN must be listed on the Rhode Island personal income tax form for the exemption to be claimed.

| *Tax Year* | *Personal and Dependent Exemption Amount* | *Phase-Out Range* |
|---|---|---|
| 2020 | $4,150 | $207,700 - $231,500 |
| 2021 | $4,250 | $210,750 - $234,750 |
| 2022 | $4,350 | $217,050 - $241,850 |
| 2023 | $4,250 | $233,750 - $260,550 |

Data Source: Division of Taxation, Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the personal and dependent exemptions for the same tax years, then summed the results for both calculations across all taxpayers. Revenue forgone is determined by taking the difference between the two tax liability calculations. Number of taxpayers includes all taxpayers that claimed an exemption to reduce their personal tax liability.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $123,452,894 | 589,041 |
| 2021 Personal Income Tax | $124,613,086 | 584,166 |

Projection Methodology: The projected forgone revenue was calculated for TY 2022 – TY 2025 by applying the growth in the United States consumer price index for all urban consumers from the November 2023 S&P Global forecast. The projected number of taxpayers for TY 2022 – TY 2025 is calculated using the three-year average growth rate in the number of filers for Rhode Island resident and non-resident returns that took the personal exemption.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $134,565,288 | 590,379 |
| 2023 Personal Income Tax | $140,065,968 | 596,658 |
| 2024 Personal Income Tax | $143,430,650 | 603,004 |
| 2025 Personal Income Tax | $146,643,903 | 609,417 |

Law Comparison: Connecticut, Massachusetts, Maine, and Vermont have similar provisions.

Connecticut: A personal exemption of $15,000 is allowed in the calculation of the personal income tax. In the case of any such taxpayer whose Connecticut adjusted gross income (AGI) for the taxable year exceeds $30,000, the exemption amount shall be reduced by $1,000 for each $1,000, or fraction thereof, by which the taxpayer's Connecticut AGI exceeds said amount. The exemption amount for a head of household filer is $19,000 and the phaseout threshold is $38,000. The comparable figures for married individuals filing a joint return or any person who files a return for such taxable year as a surviving spouse is entitled to a single personal exemption of $24,000 in determining Connecticut taxable income for purposes of this chapter with a phaseout threshold of $48,000.

Connecticut Statute: Conn. Gen. Stat. § 12-702

Massachusetts: Massachusetts' provisions include personal exemptions as a deduction to income. For TY 2022, the exemption amounts are as follows: A personal exemption amount is allowed for the single or married filing separately filer, which shall not exceed $4,400; married filing jointly filers are allowed an exemption amount up to $8,800; head of household filers are allowed an exemption up to $6,800. There are additional exemptions provided for qualifying dependents of $1,000 each. Blindness for the primary filer and spouse is allowed an additional exemption of $2,200 each. An exemption of $700 for each spouse who attained the age of 65 before the close of the taxable year is also allowed.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 3(A)(b), 3(B)(a)(8)

Maine: A resident individual is allowed a personal exemption deduction of $4,150 unless the taxpayer is claimed as a dependent on another return. A resident individual is allowed an additional personal exemption deduction equal to $4,150 if the individual is married filing a joint return, unless the individual's spouse may be claimed as a dependent on another return. The deduction allowed is subject to phase-out. The personal exemption deduction and phaseout threshold amounts are adjusted for inflation. For tax years beginning on or after January 1, 2020, a taxpayer who is married filing separate may claim a personal exemption for their spouse if they have no gross income during the tax year and would otherwise qualify for a federal personal exemption, notwithstanding the federal suspension of the personal exemption through 2025.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5126-A

Vermont: Vermont allows a personal exemption for each taxpayer, spouse or deceased spouse of the taxpayer whose filing status is married filing a joint return or surviving spouse, and individual qualifying as a dependent of the taxpayer under 26 U.S.C. § 152, provided that no exemption may be claimed for an individual who is a dependent of another taxpayer is allowed. The exemption amounts were $4,350 for TY 2020 and TY 2021 and $4,500 for TY 2022.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)(C)(i)

## 59. Personal Holding Company, Regulated Investment Company, or Real Estate Investment Trust:

Statutory Reference: R.I. Gen. Laws § 44-11-2(c)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1956 / 2004

Description: A personal holding company, a regulated investment company, or a real estate investment trust is exempt from the business corporation tax. Instead, such companies must pay annually to the state a tax equal to $0.10 for each $100 of gross income or a tax of $100, whichever tax is greater. Gross income is as defined in federal income tax law plus any interest not included in federal gross income, less interest precluded from taxation by Rhode Island, and less 50% of the excess capital gains over capital losses realized in the taxable year.

Data Source: Rhode Island Division of Taxation

Reliability Index: Revenue Forgone: 5, Number of Taxpayers: 1

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Business Corporation Tax | *No estimate possible* | 64 |
| 2021 Business Corporation Tax | *No estimate possible* | 52 |

Projection Methodology: TY 2022 projected number of taxpayers is the 4-year average count of taxpayers from TY 2018-TY 2021. TY 2023 – TY 2025 are set equal to TY 2022.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2022 Business Corporation Tax | *No estimate possible* | 60 |
| 2023 Business Corporation Tax | *No estimate possible* | 60 |
| 2024 Business Corporation Tax | *No estimate possible* | 60 |
| 2025 Business Corporation Tax | *No estimate possible* | 60 |

Law Comparison: Connecticut, Massachusetts and New Hampshire have similar provisions.

Connecticut: These entities are exempt from the net income base of the tax and from the capital base and the minimum tax. Regulated investment company (RIC) means a regulated investment company as defined in I.R.C. § 851. Distributions paid by RICs to the company that are exempt-interest dividends, as defined in 26 U.S.C. § 852(b)(5), and capital gain dividends, as defined in 26 U.S.C. § 852(b)(3)(C), are not dividends as defined in the federal income tax law because federal law transforms their character from dividend income to exempt-interest income and capital

gain income, respectively. Therefore, exempt-interest dividends and capital gain dividends may not be deducted under Connecticut business taxes. Distributions paid by the regulated investment company to the company that are not exempt-interest dividends or capital gain dividends may be deducted, provided that such distributions are dividends as defined in 26 U.S.C. § 316 and no provision of federal income tax law expressly transforms their dividend character, and provided that the regulated investment company is a domestic corporation.

Connecticut Statute: Conn. Gen. Stat. §§ 12-217(a)(1)(B), 12-217(a)(3), and 12-219(c)

Massachusetts: Regulated investment companies are exempt from the corporate excise tax.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 30

New Hampshire: An enterprise shall not be characterized as a business organization and is excluded from taxation at the entity level if it elects to be treated as a qualified investment company. A qualified investment company is defined as (1) A regulated investment company as defined in § 851 of the United States Internal Revenue Code (IRC) of 1986 in effect on December 31, 2016 (for TY 2018); (2) An organization that is an investment company under the Investment Company Act of 1940 as amended; (3) An organization that would be an investment company under the Investment Company Act of 1940, as amended, but for the exception from investment company status provided by § 3(c)(1) or 3(c)(7) of said Investment Company Act; or (4) A qualified community development entity as defined in § 45D of the IRC, which entity is owned, controlled, or managed, directly or indirectly, by the business finance authority of the State of New Hampshire.

New Hampshire Statute: N.H. Rev. Stat. Ann. §§ 77-A:1, I and XXI

**60. Precious Metal Bullion:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(24)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1975 / N/A

Description: The sale, storage, use, or other consumption of precious metal bullion is exempt from the sales and use tax. Precious metal bullion is defined as any elementary precious metal which has been put through a process of smelting or refining and which is in a state or condition that its value depends upon its content not upon its form. Precious metal bullion does not include fabricated precious metal that has been manufactured for one or more customary industrial, professional, or artistic uses.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut and Massachusetts have similar provisions.

Connecticut: Connecticut's provisions include gold or silver bullion. The sales and use tax exemption is limited to transactions in which the total value of the sale is less than $1,000.

Connecticut Statute: Conn. Gen. Stat. § 12-412(45)

Massachusetts: Massachusetts' provisions exempt sales of $1,000 or more of rare coins of numismatic value, gold or silver bullion or coins, or gold or silver tender traded and sold according to value as precious metal.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(ll)

**61. Promotional and Product Literature of Boat Manufacturers:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(38)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1984 / N/A

Description: The sale, storage, use, or other consumption of boat manufacturers' promotional and product literature is exempt from the sales and use tax, provided that the literature is shipped to points outside of Rhode Island and either accompanies the product which is sold, is shipped in bulk to out-of-state dealers for use in the sale of the product, or is mailed directly to customers at no charge.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $27,200 | *No estimate possible* |
| 2022 Sales and Use Tax | $29,600 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, other nondurable goods from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $31,049 | *No estimate possible* |
| 2024 Sales and Use Tax | $32,254 | *No estimate possible* |
| 2025 Sales and Use Tax | $32,770 | *No estimate possible* |

Law Comparison: Maine and Massachusetts have similar provisions.

Maine: Maine's exemption includes all advertising or promotional materials printed on paper and purchased for the purpose of subsequently transporting such materials out of the state.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(83)

Massachusetts: Sales of printed material manufactured by special order in Massachusetts are exempt from the sales and use tax to the extent the material is delivered to an interstate carrier, a mailing house, or a United States Post Office for delivery or mailing to a purchaser located outside the state or a purchasers designee located outside the state, including sales of direct and cooperative direct mail promotional advertising materials manufactured both inside and outside of Massachusetts and which are distributed to residents of the state from any location. For the purpose of this exemption, direct and cooperative direct mail promotional advertising materials do not include mail order catalogs, department store catalogs, telephone directories, or similar printed advertising books, booklets, or circulars greater than six pages in total length.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(ff)

**62. Property Otherwise Exempted:**

Statutory Reference: R.I. Gen. Laws § 44-18-36(3)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1989

Description: Property purchased at retail, the sale of which would be exempt by express specification from the sales tax imposed by R.I. Gen. Laws Chapter 44-18, is also exempted from the use tax imposed under R.I. Gen. Laws § 44-18-20 had the sale been otherwise subject to the sales tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Items exempt from use tax are those that are exempt if the storage, acceptance, consumption or other use is not otherwise taxable under the sales tax.

Connecticut Statute: Conn. Gen. Stat. § 12-413

Maine: A use tax is imposed on the storage, use, or other consumption in Maine of tangible personal property or a service only if the sale of such item or service would be subject to the sales tax as a retail or casual sale. Thus, sales that would be exempt from the sales tax are also exempt from the use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1861

Massachusetts: Sales exempt from the taxes imposed under the sales tax, except for the purchase of any motor vehicle or trailer, boat, airplane, are exempt from the use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64I, § 7(b)

Vermont: Unless property has already been or will be subject to the sales tax, there is imposed on every person a use tax at the rate of 6% for the use within the state, except as otherwise exempted.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9773

### 63. Property Purchased from Federal Government:

Statutory Reference: R.I. Gen. Laws § 44-18-35

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1956

Description: The storage, use, or other consumption of property purchased from the United States, its agencies and instrumentalities, is exempt from the sales and use tax only to the extent that the taxation in this state would violate the provisions of the Constitution of the United States.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $9,517,136 | *No estimate possible* |
| 2022 Sales and Use Tax | $10,270,477 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the United States chained price index for federal gross investment in structures from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $11,186,996 | *No estimate possible* |
| 2024 Sales and Use Tax | $11,452,427 | *No estimate possible* |
| 2025 Sales and Use Tax | $11,887,568 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Sales of tangible personal property or services, which the state is prohibited from taxing under the Constitution or laws of the United States, are exempt.

Connecticut Statute: Conn. Gen. Stat. § 12-413(2)

Maine: No tax is imposed on the sales, storage or use on or in connection with sales made directly to the State of Maine, any political subdivision of Maine, to the federal government, or to any unincorporated agency or instrumentality of Maine or the federal government, including agencies and instrumentalities that are wholly owned.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(2)

Massachusetts: Sales prohibited from taxation under the Constitution or laws of the United States are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(a)

Vermont: Sales not within the taxing power of the state under the Constitution of the United States are exempt from the Vermont sales and use tax. The United States of America, any of its instrumentalities, are explicitly exempt from sales and use taxes when it is the purchaser, user, or consumer, or when it sells services or property of a kind not ordinarily sold by private persons.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9471(1) and 9743(2)

**64. Property Purchased Outside of State by Non-Resident and Brought into State:**

Statutory Reference: R.I. Gen. Laws § 44-18-36(2)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1989

Description: The storage, use, or other consumption of property purchased by the user while a non-resident, used outside of Rhode Island while a non-resident, and then brought into Rhode Island for the user's personal use is exempt from the use tax imposed by R.I. Gen. Laws Chapter 44-18. The term used outside of Rhode Island does not include the mere removal of the property from the state of purchase to Rhode Island.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Maine, Massachusetts, and Vermont have similar provisions.

Maine: Sales of property purchased and used by the present owner outside the State for more than 12 months prior to the property's use in Maine are exempt. The exemption also applies to automobiles if, at the time of purchase, the purchaser was a resident of another state. The exemption also applies in certain scenarios to snowmobiles, ATVs, and aircraft.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(45)(B)

Massachusetts: Sales which the purchaser has paid a tax or made reimbursement to a vendor or retailer under the laws of any state or territory of the United States are exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64I, § 7(c)

Vermont: Property purchased and used by the user while a non-resident of Vermont, except in the case of tangible personal property which the user, in the performance of a contract, incorporates into real property located in the state is exempt from the state's sales and use tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9744(a)(2)

**65. Property Returned Within 120 Days from the Date of Delivery:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(58)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2006 / N/A

Description: The amount charged for property returned by customers within 120 days from the date of delivery when the entire amount, exclusive of handling charges, paid for the property is refunded in either cash or credit is exempt from the sales and use tax.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. Data is for the returns of motor vehicles only.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $74,641 | 60 |
| 2021 Sales and Use Tax | $63,578 | 66 |
| 2022 Sales and Use Tax | $106,991 | 90 |
| 2023 Sales and Use Tax | $72,935 | 46 |

Projection Methodology: Projected revenue forgone and the number of taxpayers for FY 2023 is the three-year average from FY 2021 – FY 2023. FY 2024 figures are held constant.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $81,168 | 67 |
| 2025 Sales and Use Tax | $81,168 | 67 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's provisions include a general provision for refunds of sales tax paid if the item is returned within 90 days from the date of purchase.

Connecticut Statute: Conn. Gen. Stat. § 12-407(a)(8)(B)(ii)

Maine: The sale price excludes the price of property returned by customers when the full price is refunded either in cash or by credit.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1752(14)(B)(3)

Massachusetts: Massachusetts' law includes a general provision for refund of the sales tax paid if the items are returned within 90 days from date of sale.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 1

Vermont: The commissioner may provide by regulation for the exclusion from taxable receipts property that has been returned on the receipt or charge for which a refund or credit of the tax has been made.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9780

## 66. Prosthetic Devices and Mobility Enhancing Equipment:

Statutory Reference: R.I. Gen. Laws § 44-18-30(11)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1948 / 2006

Description: The sale, storage, use, or other consumption of prosthetic devices sold on prescription including, but not limited to, artificial limbs; dentures; spectacles, eyeglasses, and artificial eyes; artificial hearing devices and hearing aids, whether or not sold on prescription; and mobility enhancing equipment is exempt from the sales and use tax. Mobility enhancing equipment includes wheelchairs, crutches, and canes.

Data Source: FY 2020 and FY 2021 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $15,485,604 | *No estimate possible* |
| 2022 Sales and Use Tax | $17,095,066 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures for other durable goods from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $17,309,334 | *No estimate possible* |
| 2024 Sales and Use Tax | $17,603,404 | *No estimate possible* |
| 2025 Sales and Use Tax | $18,099,935 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's exemption includes oxygen, blood plasma, prostheses, custom-made wigs or hairpieces, hearing and vision aids, canes, crutches, walkers and wheelchairs, vital life support equipment, apnea monitors, support hose, related repair or replacement parts, and repair services.

Connecticut Statute: Conn. Gen. Stat. § 12-412(19)

Maine: The exemption for prosthetic devises applies to sales of prosthetic or orthotic devices sold by prescription. The purchase of crutches and wheelchairs for the use of sick, injured, or disabled persons are also exempt from the sales and use tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(5-A)

Massachusetts: Massachusetts' exemption includes sales of artificial devices individually designed, constructed or altered solely for a handicap person so as to become a brace, support, supplement, correction or substitute for the bodily structure, including the extremities of the individual. Sales of artificial limbs, artificial eyes, hearing aids, and other equipment worn as a correction or substitute for any functioning portion of the body are also exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(l)

Vermont: Vermont's exemptions include durable medical equipment, mobility enhancing equipment, and prosthetic devices and supplies, including blood, blood plasma, insulin, and medical oxygen, used in treatment intended to alleviate human suffering or to correct, in whole or in part, human physical disabilities.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(2)

**67. Purchases Used for Manufacturing Purposes:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(7)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1996

Description: The sale, storage, use, or other consumption of computer software, tangible personal property, electricity, natural gas, artificial gas, steam, refrigeration, and water is exempt from the sales and use tax when the property or service is purchased for the purpose of being manufactured into a finished product for resale and becomes an ingredient, component, or integral part of the manufactured, compounded, processed, assembled, or prepared product or if the property or service is consumed in the process of manufacturing for resale computer software, tangible personal property, electricity, natural gas, artificial gas, steam, refrigeration, or water.

Data Source: TY 2020 and TY 2021 Census, Annual Survey of Manufacturers. Office of Revenue Analysis used reported total cost of materials by all RI manufacturers. Forgone revenue is found by multiplying this figure by 7%. Number of taxpayers are from 2020 and 2021 update of county business patterns published by the United States Census Bureau. Includes all firms classified under the North American Industry Classification System (NAICS) of manufacturing. Note that this tax expenditure estimate overlaps with the "Electricity and Gas" sales and use tax exemption estimate, which is derived from a different data source.

Reliability Index: 2

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $384,518,750 | 1,228 |
| 2021 Sales and Use Tax | $413,153,020 | 1,189 |

Projection Methodology: The Office of Revenue Analysis applied the CY 2021 growth rate in the United States producer price index for all commodities from the November 2023 S&P Global forecast to CY 2021 revenue forgone to project CY 2022 revenue forgone. A similar process was followed for CY 2023 – CY 2025. CY 2022 – CY 2025 number of taxpayers held constant with CY 2021.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Sales and Use Tax | $480,579,805 | 1,189 |
| 2023 Sales and Use Tax | $462,179,977 | 1,189 |
| 2024 Sales and Use Tax | $446,045,612 | 1,189 |
| 2025 Sales and Use Tax | $453,290,295 | 1,189 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Sales of and the storage or use of materials, rope, fishing nets, tools, fuel, or any substitute of such products, which become an ingredient or component part of tangible personal property to be sold or which are used directly in the fishing industry or in an industrial plant in the actual fabrication of the finished product to be sold, are exempt from the sales and use tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(18)

Maine: In Maine, 95% of the sale price of all fuel and electricity purchased for use at a manufacturing facility is exempt from the sales and use tax. Additionally, fuel oil or coal where the by-products from the burning of which become an ingredient or component part of tangible personal property for later sale are also exempt. Maine's provisions also include tangible personal property that becomes an ingredient or component part of tangible personal property produced for later sale or lease or produced pursuant to a contract with the federal government as well as tangible personal property, except for fuel or electricity, that is consumed, destroyed, or loses its identity directly and primarily in the production of tangible personal property for later sale inside or outside of the state, for lease outside of the state, or produced pursuant to a contract with the federal government or an agency of the federal government.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(9-D), 1760(9-G), 1760(74)

Massachusetts: Sales of materials, tools, fuel, or any substitute, which become an ingredient or component part of tangible personal property to be sold or which are consumed and used directly and exclusively in an industrial plant in the actual manufacture of tangible personal property to be sold are exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(r)

Vermont: Tangible personal property, which becomes an ingredient or component part of, or is consumed or destroyed or loses its identity in the manufacture of tangible personal property for sale, is exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(14)

**68. Qualified Sales of Manufactured and Mobile Home Parks:**

Statutory Reference: R.I. Gen. Laws § 31-44-3.3

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2012 / N/A

Description: The qualified sale of a mobile or manufactured home community to a resident-owned organization is exempt from the real estate conveyance tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

**69. Rebuild Rhode Island Sales and Use Tax:**

Statutory Reference: R.I. Gen. Laws § 42-64.20-5(q)

Stated Purpose: "Through the establishment of a rebuild Rhode Island tax credit program, Rhode Island can take steps to stimulate business development; retain and attract new business and industry to the state; create good-paying jobs for its residents; assist with business, commercial, and industrial real estate development; and generate revenues for necessary state and local governmental services."

Year Enacted / Last Year Amended: 2015 / 2022

Description: At the discretion of the Rhode Island Commerce Corporation (CommerceRI), projects which have been deemed eligible to receive Rebuild Rhode Island Tax Credits may be

exempt from sales and use taxes imposed on furniture, fixtures and equipment, except automobiles, and materials including construction materials and supplies to the extent they are utilized directly and exclusively on the project in question and are essential to the project. The Rebuild Rhode Island Tax Credit qualified per project cap of $15 million, or $25 million cap in the case of a qualified development project on "I-195 land", includes any amounts awarded for sales and use tax exemptions. Effective January 1, 2023, constructions projects over $10 million are subject to prevailing wage requirements and must receive certification of compliance with these requirements in order to receive tax credits under this program. The sunset date was extended to December 31, 2024 by the 2023 General Assembly.

Data Source: Rhode Island Division of Taxation testimony at the November 2023 Revenue Estimating Conference (REC). Number of taxpayers from Rhode Island Commerce's testimony at same conference. (Projected revenue forgone for the Rebuild Rhode Island tax credit is included in the credits section.)

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $2,411,964 | 4 |
| 2021 Sales and Use Tax | $3,133,732 | 9 |
| 2022 Sales and Use Tax | $3,854,370 | 4 |
| 2023 Sales and Use Tax | $4,527,161 | 3 |

Projection Methodology: FY 2024 projected revenue forgone is year-to-date as of 10/30/2023 as reported by the Division of Taxation. The FY 2024 number of taxpayers reported is from CommerceRI's November 2023 testimony. FY 2025 is based on projected amounts reported at November 2023 Revenue Estimating Conference by CommerceRI.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $295,366 | 3 |
| 2025 Sales and Use Tax | $5,520,691 | 5 |

Law Comparison: No similar provisions were found for the other New England states.

**70. Refillable and Reusable Beverage Containers:**

Statutory Reference: R.I. Gen. Laws § 44-44-3

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1984 / 1998

Description: Reusable and refillable beverage containers are exempt from the tax on beverage containers. R.I. Gen. Laws Chapter 44-44 imposes a tax of $0.04 on each case of beverage containers sold by a wholesaler to a retailer or consumer.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

**71. Religious Conscience:**

Statutory Reference: R.I. Gen. Laws § 44-30-101(e)(3)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2019 / N/A

Description: Beginning in 2020, Rhode Island residents are required to maintain health insurance or be subject to a tax known as the "Shared Responsibility Payment Penalty." An individual may claim a coverage exemption for members of recognized religious sects.

Data Source: *No reliable data exists for this tax expenditure item. (This exemption is included in the Hardship exemption.)

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: A similar provision was found in Massachusetts.

Massachusetts: An individual is exempt from penalty if they file a sworn affidavit with their personal income tax return that their sincerely held religious beliefs are the basis of the refusal to obtain and maintain credible coverage during the taxable year for which the return was filed.

Massachusetts Statute: Mass. Gen. Laws ch. 111M, § 3

**72. Renewable Energy Products:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(57)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2005 / N/A

Description: The sale, storage, use, or other consumption of solar photovoltaic modules or panels or any module or panel that generates electricity from light; solar thermal collectors; geothermal heat pumps; wind turbines; towers used to mount wind turbines if specified or sold by a wind turbine manufacturer; DC to AC inverters that interconnect with utility power lines; manufactured mounting racks and ballast pans for solar collector, module, or panel installation, monitoring, and control equipment if specified or supplied by a manufacturer of solar thermal, solar photovoltaic, geothermal or wind energy systems; and solar storage tanks that are part of a solar domestic hot water system or a solar space heating system are exempt from the sales and use tax.

Data Source: Rhode Island Office of Energy Resources (OER) and Office of Revenue Analysis (ORA) calculations. The count of taxpayers includes all interconnected solar and wind projects. Forgone revenue is based on the number of energy systems installed during the calendar year as well as an average cost assumption by ORA of $11,311 on solar panels per installation in Rhode Island, as found on www.solarreviews.com for 2023. The average cost was adjusted by the consumer price index (CPI) for previous years. The Office of Revenue Analysis used this data to estimate sales of renewable energy products in Rhode Island for TY 2020 – TY 2023 and multiplied it by 7% to estimate revenue forgone. TY 2023 data is for installations through 12/8/2023.

Reliability Index: 2

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Sales and Use Tax | $6,580,287 | 9,348 |
| 2021 Sales and Use Tax | $2,160,774 | 3,034 |
| 2022 Sales and Use Tax | $3,317,067 | 4,395 |
| 2023 Sales and Use Tax | $4,406,992 | 5,566 |

Projection Methodology: TY 2024 forgone revenue amounts and number of taxpayers are equal to the 4-year average (TY 2020-2023) amount of revenue forgone and count of taxpayers. TY 2025 is set equal to TY 2024.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2024 Sales and Use Tax | $4,116,280 | 5,586 |
| 2025 Sales and Use Tax | $4,116,280 | 5,586 |

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: Sales and use of solar energy electricity generating systems, passive or active solar water or space heating systems, geothermal resource systems, including related equipment and sales of installation services, are exempt from sales tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(117)

Massachusetts: Sales of equipment directly related to a solar, wind-powered, or heat pump system that serves as the primary or auxiliary power system for the purpose of heating or otherwise supplying the energy needs for the taxpayer's principal residence are exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(dd)

Vermont: Vermont's provisions exempt hot water systems that convert solar energy into thermal energy used to heat water but limited to the property directly used to capture, convert, or store solar energy for this purpose. In addition, a net metering system that employs a renewable energy source is also exempt.

Vermont Statute: Vt. Stat. Ann. Tit. 32, § 9741(46)

**73. Rental Charged for Living or Sleeping Quarters in a Hospital or Nursing Home:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(17)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1967 / N/A

Description: The rental charged for living or sleeping quarters in an institution licensed by the state for the hospitalization, custodial, or nursing care of human beings is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. The estimate from the sales and use tax model includes nonprofit and propriety hospitals and nonprofit and propriety nursing homes. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $42,731,578 | *No estimate possible* |
| 2022 Sales and Use Tax | $47,049,655 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, health care services from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar

process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $49,688,544 | *No estimate possible* |
| 2024 Sales and Use Tax | $51,881,963 | *No estimate possible* |
| 2025 Sales and Use Tax | $53,767,967 | *No estimate possible* |

Law Comparison: Connecticut and Maine have similar provisions. Massachusetts, New Hampshire, and Vermont provide similar exemptions under their Room Occupancy Excise, Rooms, or Rooms and Meals taxes, respectively.

Connecticut: Connecticut's provisions include an exemption for rentals in nonprofit charitable hospitals, nursing homes, rest homes and homes for the aged.

Connecticut Statute: Conn. Gen. Stat. §§ 12-407(a)(17)(A), 12-407(a)(17)(B), and 12-407(a)(17)(F)

Maine: Maine's provisions include an exemption on rental charged for living or sleeping quarters in an institution licensed by the state for the hospitalization or nursing care of human beings is exempt from tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(18)

Massachusetts: Massachusetts exempts from the room occupancy tax dormitories or lodging accommodations at religious, charitable, educational, and philanthropic institutions. The exemption does not apply to accommodations provided by any such institution at a hotel or motel operated by the institution.

Massachusetts Statute: Mass. Gen. Laws ch. 64G, § 2

New Hampshire: New Hampshire excludes from the definition of hotel a hospital licensed under New Hampshire law (§ 151) or a sanitarium, convalescent home, nursing home, or home for the aged.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78-A:6-d, I

Vermont: The room charges to occupy a hospital or other institution providing health care such as a nursing home are not subject to the rooms and meals tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9202(3)(A)

## 74. Rhode Island Industrial Facilities Corporation Lessees:

Statutory Reference: R.I. Gen. Laws §§ 45-37.1-9 and 45-37.1-9.1

Stated Purpose: The exercise of the powers granted by R.I. Gen. Laws Chapter 45-37.1 titled "Rhode Island Industrial Facilities Corporation" will be in all respects for the benefit of the people of Rhode Island; the increase of their commerce, welfare, and prosperity; for the improvement of their health and living conditions; and will constitute the performance of an essential government.

Year Enacted / Last Year Amended: 1967 / 2011

Description: The Rhode Island Industrial Facilities Corporation (RIIFC) is not required to pay any taxes or assessments upon or in respect of a project or any property or moneys of the corporation. In the case of any person, partnership, corporation, or concern leasing a project from RIIFC, any such person, partnership, corporation or concern is exempt from payment of state sales tax on materials used in construction of such a facility only to the extent that the costs of such materials do not exceed the amount financed through the corporation. The sales tax benefits granted only apply to materials used in the construction, reconstruction, or rehabilitation of the project and to the acquisition of furniture, fixtures, and equipment, except automobiles, trucks or other motor vehicles, or materials that otherwise are depreciable and have a useful life of one year or more.

Effective June 30, 2011, this exemption was repealed and will only apply to projects previously approved and those projects for which long-term agreements were entered.

Data Source: Rhode Island Division of Taxation testimony at the November 2023 Revenue Estimating Conference.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $0 | 0 |
| 2021 Sales and Use Tax | $33,843 | 1 |
| 2022 Sales and Use Tax | $0 | 0 |
| 2023 Sales and Use Tax | $0 | 0 |

Projection Methodology: This exemption was repealed effective July 1, 2011 for projects not approved on or before June 30, 2011. Only projects approved prior to June 30, 2011 can take the exemption. FY 2024 and FY 2025 was set equal to FY 2023.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $0 | 0 |
| 2025 Sales and Use Tax | $0 | 0 |

Law Comparison: No similar provisions were found for the other New England states.

**75. Sacramental Wines Sold Directly to Member of Clergy:**

Statutory Reference: R.I. Gen. Laws § 3-10-1(b)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1933 / 1997

Description: Sacramental wines sold directly to a member of the clergy for use by the purchaser or his or her congregation for sacramental or other religious purposes is exempt from the alcoholic beverage excise tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only Massachusetts has a similar provision.

Massachusetts: Sacramental wines are exempt from the excise tax on alcoholic beverages.

Massachusetts Statute: Mass. Gen. Laws ch. 138, § 21

**76. Sales and Use Taxes Paid to Other Jurisdictions:**

Statutory Reference: R.I. Gen. Laws § 44-18-30A(a)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1965 / 1986

Description: The use tax provisions of R.I. Gen. Laws Chapter 44-18 do not apply to the use, storage, or other consumption in Rhode Island of tangible personal property purchased at retail outside the state where the purchaser has paid a sales or use tax equal to or greater than the Rhode Island sales and use tax in another taxing jurisdiction. If the purchaser has paid a sales or use tax in an amount less than the amount imposed by the Rhode Island sales and use tax in another taxing jurisdiction, then the purchaser must pay to the tax administrator the difference in the amount paid

to the other taxing jurisdiction and the amount that would be imposed by the Rhode Island sales and use tax.

Data Source: Data from Rhode Island Department of Revenue, Division of Motor Vehicles (DMV) and Division of Taxation, Office of Revenue Analysis (ORA) calculation. Estimate includes motor vehicles purchased in Massachusetts but registered in Rhode Island and sales taxes paid in other states claimed on personal income tax (PIT) forms. ORA assumed that sales taxes claimed on a PIT tax form belong to the following fiscal year.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $15,759,268 | 12,986 |
| 2021 Sales and Use Tax | $21,376,384 | 15,870 |
| 2022 Sales and Use Tax | $22,523,367 | 14,394 |

Projection Methodology: FY 2023 revenue forgone and number of taxpayers is for motor vehicles purchased in Massachusetts but registered in RI only. The projected revenue forgone for FY 2024 as well as the projected number of taxpayers is determined by the average of the values from FY 2021 – FY 2023. FY 2025 is set equal to FY 2024.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $25,656,796 | 16,026 |
| 2024 Sales and Use Tax | $23,185,516 | 15,430 |
| 2025 Sales and Use Tax | $23,185,516 | 15,430 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: If any taxable property or services have already been subjected to sales or use tax in another state or one of its political subdivisions, Connecticut tax is due only on the difference between the applicable Connecticut rate and the rate on which the other jurisdiction's tax was computed. If the other jurisdiction's rate was higher than Connecticut's, no further tax is due.

Connecticut Statute: Conn. Gen. Stat. § 12-430(5)

Maine: Maine's use tax provisions do not apply to the use, storage, or consumption in Maine of purchases made outside the state if the purchaser paid the other jurisdiction a sales or use tax equal or greater to the amount of tax imposed by Maine. However, if the amount of tax paid to the other jurisdiction is less than the amount imposed by Maine, the purchaser must pay tax in an amount representing the difference between the tax paid in the other jurisdiction and the total amount of tax that otherwise would be due to Maine.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1862

Massachusetts: A credit is allowed against Massachusetts use tax for sales tax paid to another state or territory on purchases of items for use, storage, or other consumption in Massachusetts. The credit is allowed if (1) the other state allows a corresponding credit on sales or use tax paid to Massachusetts on property brought into the other state, (2) a sales or similar tax was actually paid to the other reciprocal state, and (3) the tax paid to the other state was legally due without any right to a refund or credit. If the Massachusetts tax rate is higher than the rate of the other state's tax, the use tax is payable to the extent of the rate difference.

Massachusetts Statute: Mass. Gen. Laws ch. 64I, § 7(c)

Vermont: Property or services are exempt from the sales and use tax to the extent that a retail sales or use tax was legally due and paid, without any right to a refund or credit, to any other state or jurisdiction within any other state, providing the other state or jurisdiction allows a corresponding exemption with respect to the sale or use of tangible personal property or services upon which such a sales tax or compensating use tax was paid to Vermont. To the extent that the Vermont sales tax is a higher rate than the rate of tax in the first taxing jurisdiction, the use tax must be paid based on the difference in the rates. Vermont's provisions also apply specifically to motor vehicles. Motor vehicles on which the state sales or use tax has been paid by the person applying for registration in Vermont or paid by a person who, at the time of the tax payment to another state, was the spouse of the person now applying for registration, are exempt. If the tax paid in another state is less than the Vermont tax, the tax due is the difference between the two rates.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9744(3) and 8911(9)

**77. Sales Beyond Constitutional Power of State:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(1)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / N/A

Description: The gross receipts from the sale, storage, use, or other consumption of tangible personal property of which Rhode Island is prohibited from taxing under the Constitution of the United States or under the Constitution of Rhode Island are exempt from the sales and use tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Sales of tangible personal property or services prohibited from taxation under the Constitution or laws of the United States are exempt.

Connecticut Statute: Conn. Gen. Stat. § 12-412(2)

Maine: Sales the state is prohibited from taxing under the Constitution or laws of the United States or under the Constitution of Maine are exempt.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(1)

Massachusetts: Sales which Massachusetts is prohibited from taxing under the constitution or laws of the United States are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(a)

Vermont: Sales not within the taxing power of this state under the Constitution of the United States are exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(1)

**78. Sales by Writers, Composers, Artists:**

Statutory Reference: R.I. Gen. Laws § 44-18-30B

Stated Purpose: "The general assembly makes the following findings of facts: (1) The arts and culture are a significant asset for Rhode Island, one which generates revenue through increased tourism and economic activity, creates jobs and economic opportunities, revitalizes communities adding to quality of life and property values, and fosters creativity, innovation, and entrepreneurship. (2) Since 1998, the establishment of arts districts where "one-of-a-kind limited production" works of art may be sold exempt from state sales tax has resulted in an increased presence for the arts in designated cities and towns, with benefits to those communities and to the state. (3) Since the establishment of arts districts, many communities have sought legislation to expand the program to their city or town. (4) There is value in expanding the arts district program statewide, providing incentives for the sale and purchase of art. This is a unique opportunity for Rhode Island to shape history, and gain an advantage over other states, by becoming the first-and-only state in the country to declare a statewide sales tax exemption on art. This will strengthen Rhode Island's identity as an arts-friendly destination and "State of the Arts"."

Year Enacted / Last Year Amended: 1996 / 2014

Description: Individuals who meet the necessary requirements are entitled to a sales tax exemption for the sale of a work or works sold from the individual's business located in the State of Rhode Island. The work must be an original and creative work, whether written, composed, or executed for one-of-a-kind limited production and which falls into one of the following categories: book or other writing; play or the performance of said play; musical composition or the performance of

said composition; painting, print, photograph, or other like picture; sculpture; traditional and fine crafts; creation of a film or the acting within the film; creation of a dance or the performance of the dance.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. Revenue forgone is based on eligible sales of artistic works in Rhode Island as reported by artists as part of the annual sales tax reconciliation conducted by the Division of Taxation and multiplied by 7%. The number of taxpayers represents the number of returns that had values associated with this exemption.

Reliability Index: 2

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $970,077 | 793 |
| 2021 Sales and Use Tax | $1,488,819 | 879 |
| 2022 Sales and Use Tax | $1,262,488 | 818 |

Projection Methodology: The Office of Revenue Analysis calculated the CY 2020-2022 average in revenue forgone and the number of taxpayers to project CY 2023 forgone revenue and number of taxpayers. CY 2024 and CY 2025 assume no additional growth.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $1,240,461 | 830 |
| 2024 Sales and Use Tax | $1,240,461 | 830 |
| 2025 Sales and Use Tax | $1,240,461 | 830 |

Law Comparison: No similar provisions were found for the other New England states.

**79. Sales in Municipal Economic Development Zones:**

Statutory Reference: R.I. Gen. Laws § 44-18-30C

Stated Purpose: The General Assembly makes the following findings of fact: (1) Various sections of several towns in the state, including, but not limited to, the town of West Warwick, are deteriorated, blighted areas which have created very difficult challenges to economic development; (2) Several areas of the state are in a distressed financial condition as defined by R.I. Gen. Laws § 45-13-12(b) and cannot finance economic development projects on its own without the participation of private enterprise; (3) The General Assembly has found that it is nearly impossible for private enterprise alone to meet these challenges; (4) In certain sections of financially distressed communities, the serious challenges of economic development and/or redevelopment have not been met by private enterprise alone and the impact is being felt throughout the community; (5) Legislation enacted to encourage redevelopment of the deteriorated, blighted areas through the

formation of local redevelopment agencies has had very limited success; (6) Various states, such as New Jersey, Pennsylvania, and Michigan, have had a great deal of success in generating economic development by exercising the authority to exempt and/or stabilize taxes; (7) The State of Rhode Island has generated economic growth by redirecting and/or exempting certain commercial and retail activity from the imposition of sales and use and income taxes with recent examples being the Providence Place Mall, the Arts Districts in the cities of Providence, Pawtucket, and Westerly, and financial services and aquaculture industries; (8) Most recently, municipalities in our state have had great success in attracting large commercial development, including financial services, manufacturing, and major energy facilities, due in large part to the authority to exempt and/or stabilize property, tangible and/or inventory taxes; (9) Attracting large non-residential developments or encouraging expansion of existing commercial entities can be extremely important to municipalities, where the quality of public education is largely dependent on the local tax base, thereby expanding the commercial tax base and reducing reliance upon the residential tax base; (10) The ability to attract this development and increase the non-residential tax base, in turn, improves municipalities' ability to finance school systems, municipal services and infrastructure, thereby improving the quality of life; (11) In addition to increasing the local non-residential tax base, this development creates construction jobs, permanent jobs, and spurs additional investment by private enterprises; and (12) Providing authority to offer tax exemptions from, or to stabilize, the imposition of sales and use taxes will attract and assist in expanding, revitalizing and redeveloping the tax base in our municipalities, thereby providing long-term economic benefits and development.

Year Enacted / Last Year Amended: 2002 / 2005

Description: All businesses engaging in qualifying sales and located in new construction in a Municipal Economic Development (MED) Zone are exempt from the requirement to charge and collect 50% of the current sales and use tax pursuant to R.I. Gen. Laws §§ 44-18-18 and 44-18-20 for a period of 10 years. Sales and use taxes collected in a MED Zone are returned to the municipality in which the MED Zone is located in accordance with the provisions of R.I. Gen. Laws § 44-18-30C(b). Qualifying sales do not include gambling activities or the retail sales of motor vehicles, furniture, home furnishings, including mattresses and oriental rugs, tobacco products, or packaged alcoholic beverages. In addition, qualifying sales must originate and have the point of delivery within the same MED Zone.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. As of October 2023, no business has applied for status as an eligible business engaging in qualifying sales in a MED Zone.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $0 | 0 |
| 2021 Sales and Use Tax | $0 | 0 |
| 2022 Sales and Use Tax | $0 | 0 |
| 2023 Sales and Use Tax | $0 | 0 |

Projection Methodology: FY 2024 and FY 2025 revenue forgone amounts and number of taxpayers are held constant with FY 2023.

.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $0 | 0 |
| 2025 Sales and Use Tax | $0 | 0 |

Law Comparison: Only Vermont has a similar provision.

Vermont: Receipts from the sales tax on sales of construction materials used in qualified projects are allocated and paid to the municipality in which the project is located as follows: (1) In a municipality in which the population is 7,500 residents or less, all receipts from sales in excess of $100,000 of construction materials used in each separate qualified project located in that municipality; (2) In a municipality in which the population is greater than 7,500 residents but fewer than 30,000 residents, all receipts from sales in excess of $200,000 of construction materials used in each separate qualified project located in that municipality; or (3) In a municipality in which the population is more than 30,000 residents, all receipts from sales in excess of $1.0 million of construction materials used in each separate qualified project located in that municipality.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9819(a)

**80. Sales in Public Buildings by Blind People:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(14)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1965 / 1988

Description: The sale, storage, use or other consumption of all products or wares offered for purchase in all public buildings from a person licensed under R.I. Gen. Laws § 40-9-11.1 titled "Authorization to Establish Vending Facilities for the Blind on State Property" is exempt from the sales and use tax.

Data Source: Rhode Island Business Enterprise Program Data, Office of Rehabilitation Services, Rhode Island Department of Human Services. Revenue forgone is based on sales generated through the Business Enterprises Program multiplied by 7%. Number of taxpayers reflects the number of licensed blind vendors.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $50,701 | 12 |
| 2021 Sales and Use Tax | $23,568 | 12 |
| 2022 Sales and Use Tax | $37,801 | 12 |

Projection Methodology: For FY 2023 – FY 2025, the amount of exemption was calculated using forecast data provided by S&P Global for the November 2023 Revenue Estimating Conference for personal consumption expenditures, food services and accommodations. The number of taxpayers was held constant with FY 2022.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $39,334 | 12 |
| 2024 Sales and Use Tax | $39,901 | 12 |
| 2025 Sales and Use Tax | $40,422 | 12 |

Law Comparison: No similar provisions were found for the other New England states.

**81. Sales of Motor Vehicles to Non-Residents:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(13)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1958 / 1990

Description: The sale of a motor vehicle to a bona fide non-resident who does not register the motor vehicle in Rhode Island regardless of where the sale or delivery of the motor vehicle took place is exempt from the sales and use tax. If a motor vehicle is sold to a bona fide non-resident whose state of residence does not allow a like exemption to its non-residents, then a sales tax is imposed at a rate equal to the rate that would have been imposed in the bona fide non-resident's home state not to exceed the use tax rate that is imposed under R.I. Gen. Laws § 44-18-20. When computing the tax, the licensed Rhode Island motor vehicle dealer takes into consideration the law in the bona fide non-resident's state of residence as it pertains to the trade-in of motor vehicles. The sales tax collected by the Rhode Island-licensed motor vehicle dealer is remitted to the tax administrator.

It should be noted that Massachusetts is a non-reciprocal state to Rhode Island when it comes to the assessment of a sales tax on the sale of motor vehicles to bona fide non-residents. Thus, sales by Rhode Island motor vehicle dealers to residents of Massachusetts are subject to Rhode Island sales tax up to the Massachusetts sales tax rate. The sales taxes collected from Massachusetts residents are remitted to the Rhode Island Department of Revenue.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. ORA used actual FY 2020 sales data and grew it by the growth realized in RI registry receipts for FY 2021 to arrive at FY 2021 revenue forgone. FY 2020 number of taxpayers is as reflected in the actual data whereas FY 2021 number of taxpayers is the three-year average of taxpayers found from fiscal years 2020, 2017, and 2015 (years for which data is available).

Reliability Index: 2

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $1,081,068 | 694 |
| 2021 Sales and Use Tax | $1,457,127 | 1,370 |

Projection Methodology: The FY 2022 and FY 2023 growth rates in Rhode Island registry sales tax receipts were applied sequentially to the FY 2021 revenue forgone to estimate FY 2022 and FY 2023 forgone revenues. The same process was used to project the number of taxpayers for FY 2022 and FY 2023. FY 2024 and FY 2025 assume no additional growth and number of taxpayers was held constant.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Sales and Use Tax | $1,521,705 | 1,431 |
| 2023 Sales and Use Tax | $1,585,584 | 1,491 |
| 2024 Sales and Use Tax | $1,585,584 | 1,491 |
| 2025 Sales and Use Tax | $1,585,584 | 1,491 |

Law Comparison: Connecticut, Maine, and Vermont have similar provisions.

Connecticut: Connecticut's provision allows an exemption from the sales tax for non-residents who do not register the vehicle in Connecticut.

Connecticut Statute: Conn. Gen. Stat. § 12-412(60)

Maine: Maine's provisions exempt the sales of motor vehicles, semitrailers, aircraft, and camper trailers purchased by a non-resident or a resident business and intended to be driven or transported outside the state immediately upon delivery by the seller.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(23-C) and 1760(23-D)

Vermont: The motor vehicle purchase and use tax is defined as imposed upon the purchase in Vermont of a motor vehicle by a resident.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 8903(a)(1)

**82. Sales of Non-Motorized Recreational Vehicles Sold to Non-Residents:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(54)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2003 / N/A

Description: The sale of a non-motorized recreational vehicle to a bona fide non-resident who does not register the non-motorized recreational vehicle in Rhode Island regardless of where the sale or delivery of the non-motorized recreational vehicle took place is exempt from the sales and use tax. If a non-motorized recreational vehicle is sold to a bona fide non-resident whose state of residence does not allow a like exemption to its non-residents, then a sales tax is imposed at a rate equal to the rate that would have been imposed in the bona fide non-resident's home state not to exceed the use tax rate that is imposed under R.I. Gen. Laws § 44-18-20. When computing the tax, the licensed Rhode Island non-motorized recreational vehicle dealer shall take into consideration the law in the bona fide non-resident's state of residence as it pertains to the trade-in of non-motorized recreational vehicles. The sales tax collected by the Rhode Island-licensed non-motorized recreational vehicle dealer is remitted to the tax administrator.

A non-motorized recreational vehicle is any portable dwelling designed and constructed to be used as a temporary dwelling for travel, camping, recreational and vacation use that is eligible to be registered for highway use.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only Maine has a similar provision.

Maine: Maine's provisions generally exempt sales of camper trailers, including truck campers, purchased by a non-resident and intended to be driven or transported outside the state immediately upon delivery by the seller.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(23-C)

**83. Sales of Trailers Ordinarily Used for Residential Purposes:**

Statutory Reference: R.I. Gen. Laws § 44-18-20(d)(3)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1995

Description: The sale or transfer of a trailer, other than a camping trailer, of the type ordinarily used for residential purposes and commonly known as a house trailer or a mobile home is exempt from the use tax.

Data Source: No reliable data exists for this tax expenditure item. (The forgone revenue from this exemption is included in the "Mobile and Manufactured Homes Generally" exemption.)

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Maine, and Vermont have similar provisions.

Connecticut: Connecticut's provisions include an exemption for mobile manufactured homes if such dwelling is permitted as a non-conforming use.

Connecticut Statute: Conn. Gen. Stat. § 12-412c(b)

Maine: Maine's exemptions include the sales of used manufactured housing and up to 50% of the sale price of new manufactured housing, except for the cost of materials.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(40)

Vermont: Vermont's provisions include an exemption of 40% of the receipts from the sales of mobile homes when sold as tangible personal property.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9741(32)

**84. Sales to Common Carriers for Use Outside of the State:**

Statutory Reference: R.I. Gen. Laws § 44-18-33

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / N/A

Description: The gross receipts from sales of tangible personal property to a common carrier when shipped by the seller via the purchasing carrier under a bill of lading to a point outside of Rhode Island for use by the carrier in the conduct of its business as a common carrier are exempt from the sales and use tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

**85. Sales to Federal Government:**

Statutory Reference: R.I. Gen. Laws § 44-18-31

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / N/A

Description: The gross receipts from the sale of any tangible personal property to the United States government, its agencies and instrumentalities, are exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $4,791,200 | *No estimate possible* |
| 2022 Sales and Use Tax | $4,778,300 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the United States chained price index for federal purchases from the November 2023 S&P Global forecast to FY 2021 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $5,021,002 | *No estimate possible* |
| 2024 Sales and Use Tax | $5,139,687 | *No estimate possible* |
| 2025 Sales and Use Tax | $5,243,943 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Sales of tangible personal property or services to the United States or respective agencies are exempt from the sales and use tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(1)

Maine: Maine does not impose a tax on sales, storage, or use on or in connection with sales made directly to the federal government or to any unincorporated agency or instrumentality of the federal government, including agencies and instrumentalities that are wholly owned.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(2)

Massachusetts: Sales made to the United States, Massachusetts, or their political subdivisions or agencies are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(d)

Vermont: Any sale, service, or admission to a place of entertainment charged by or to the United States of America, any of its agencies and instrumentalities, to the extent it is immune from taxation when it is the purchaser, user, or consumer or when it sells services or property of a kind not ordinarily sold by private persons is exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9743(2)

**86. Sales to the State or its Political Subdivisions:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(8)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / N/A

Description: The sale to and the storage, use, or other consumption by the State of Rhode Island, any city, town, district, or other political subdivision of the State is exempt from the sales and use tax. Every redevelopment agency created pursuant R.I. Gen. Laws Chapter 45-31 is deemed to be a subdivision of the municipality in which it is located.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. Number of taxpayers is a sum of the state agencies/departments, cities and towns, quasi-public agencies, and fire districts in Rhode Island.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $44,022,200 | 136 |
| 2022 Sales and Use Tax | $44,619,000 | 138 |

Projection Methodology: The Office of Revenue Analysis applied the growth rate in projected FY 2023 Rhode Island state expenditures over those audited FY 2022 state estimates to calculate FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025 using the enacted

FY 2024 state expenditures and projected FY 2025 state expenditures as reported publicly by the Rhode Island House Fiscal Office for the enacted FY 2024 budget. The number of taxpayers for FY 2023-FY 2025 is held constant with FY 2022.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $44,059,269 | 138 |
| 2024 Sales and Use Tax | $46,195,997 | 138 |
| 2025 Sales and Use Tax | $48,436,349 | 138 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: The sales of tangible personal property or services to the state of Connecticut or any of its political subdivisions or are exempt from the sales and use tax. In addition, sales of goods and services to The University of Connecticut Educational Properties Incorporated, the Connecticut Materials Innovation and Recycling Authority for the operation of projects, and any tourism district in the state are also exempt.

Connecticut Statute: Conn. Gen. Stat. §§ 12-412(1), 12-412(84), 12-412(92) and 12-412(93)

Maine: Sales to the state or any political subdivision or to any unincorporated agency or instrumentality of either of them or to any incorporated agency or instrumentality of them wholly owned by them are exempt. In addition, sales to nonprofit fire departments, nonprofit ambulance services, regional planning commissions and councils of government, community action organizations, and nonprofit volunteer search and rescue organizations are also exempt.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(2), 1760(26), 1760(37), 1760(49), and 1760(53)

Massachusetts: Sales to Massachusetts or any political subdivision or respective agency of the state are exempt from the sales and use tax. In addition, sales of fire trucks to any volunteer, nonprofit fire company or similar organization furnishing public fire protection and sales of ambulances to any volunteer, nonprofit organization furnishing a public ambulance service are exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, §§ 6(d) and 6(x)

Vermont: The state of Vermont, its agencies, instrumentalities, public authorities, public corporations, and political subdivisions are not subject to sales and use tax when it is a purchaser, user, or consumer; it is a vendor of services or property of a kind not ordinarily sold by private persons; or it charges for admission to any amusement. In addition, a school or municipality is not subject to the sales and use tax. Finally, sales of equipment, supplies, and building materials made directly to volunteer fire departments, volunteer ambulance companies, or volunteer rescue squads for official use by the volunteer organizations are exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9743(1), 9743(6), and 9741(21)

**87. Sales to U.S. Government and Operators of Railroad Transportation Equipment:**

Statutory Reference: R.I. Gen. Laws § 31-36-13

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1925 / 1977

Description: Any fuel sold by a distributor to the United States government or to a person, firm, or corporation that will use the fuel solely for the operation of railroad transportation equipment on fixed rails or tracks is exempt from the motor fuel tax.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. Revenue forgone is based on motor fuel consumption by exempt distributors.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Motor Fuel Tax | $1,655,501 | 6 |
| 2021 Motor Fuel Tax | $2,856,047 | 6 |
| 2022 Motor Fuel Tax | $2,157,351 | 6 |
| 2023 Motor Fuel Tax | $2,991,836 | 6 |

Projection Methodology: The amount of exemption for FY 2024 and FY 2025 is the three-year average of the amount of revenue forgone for FY 2021 – FY 2023, and the number of taxpayers is held constant with FY 2023.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Motor Fuel Tax | $2,668,411 | 6 |
| 2025 Motor Fuel Tax | $2,668,411 | 6 |

Law Comparison: Maine, Massachusetts, and Vermont have similar provisions.

Maine: The gasoline tax is not imposed if the imposition of the tax is precluded by federal law or regulation.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 2903(4)(F)

Massachusetts: Sales of fuel used in the operation of railroads are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(j)(3)

Vermont: Railroad rolling stock, including depreciable parts, machinery and equipment to be installed as a capital asset in such rolling stock, sold for use primarily in the carriage of persons or property are exempt. Railroad rolling stock includes locomotives, cabooses, boxcars, tank cars, flatbed cars, maintenance of way equipment and all other wheeled vehicles used on rails or tracks. Railroads are also exempt in purchasing diesel fuels.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9741(30) and 9741(7)(B)

**88. School Meals:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(3)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1989

Description: The sale, storage, use, or other consumption of meals served by public, private, or parochial schools, school districts, colleges, universities, student organizations, parent teacher associations to the students or teachers of a school, college, or university whether the meals are served by the educational institutions or by a food service or management entity under contract to the educational institutions is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $2,737,095 | *No estimate possible* |
| 2022 Sales and Use Tax | $2,887,235 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures, food services and accommodations from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $3,127,013 | *No estimate possible* |
| 2024 Sales and Use Tax | $3,286,269 | *No estimate possible* |
| 2025 Sales and Use Tax | $3,456,854 | *No estimate possible* |

Law Comparison: Connecticut's, Maine's and Massachusetts' exemptions are under the Sales and Use Tax. New Hampshire's and Vermont's exemptions are under the Meals and Rooms tax.

Connecticut: Sales of meals and food products to students and teachers by schools, colleges, and universities and to patients by hospitals, homes for the aged and convalescent homes, nursing homes, and rest homes are exempt.

Connecticut Statute: Conn. Gen. Stat. § 12-412(9)

Maine: Meals served to students and teachers by schools, colleges, universities, student organizations, and parent-teacher associations to the students or teachers of a school are exempt. Sales to employees of colleges are also exempt if purchased using a school-issued debit card.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 1760(6)(A) and 1760(6)(E)

Massachusetts: Meals served to students at schools, colleges, and universities and meals served by camps for children eighteen years of age or under or for developmentally disabled individuals are exempt.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(cc)

New Hampshire: Meals served or furnished by an organization operated for educational purposes exempt from federal income taxation under § 501(c)(3) of the Internal Revenue Code (IRC), either directly through facilities owned and operated by such organization or indirectly through a catering or food service enterprise under contract with such organization if such meals are served or furnished: (A) To students regularly attending the organization; (B) To employees, faculty members or administrative officers of the organization; (C) To volunteers providing services in connection with the organization; or (D) To other persons if the meals are served or furnished for an activity related to educational purposes and the sponsor of such activity is an organization exempt from federal income taxation under § 501(c)(3) of the IRC or the federal government, state government, or an instrumentality thereof.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78-A:6-c, II

Vermont: Schools may sell meals on their own ground without collecting the meals tax. Contractors, restaurants, and caterers may sell meals to school students and staff under this exemption if the meals provided are for the benefit of the school or are otherwise sponsored by the

school. Restaurants and caterers providing meals for private events on school grounds must collect the meals tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9202(10)(D)(ii)(II), Vermont Technical Bulletin 48

**89. Securities from Taxation:**

Statutory Reference: R.I. Gen. Laws § 44-13-14

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1942 / 1985

Description: The owners of shares of stock, bonds, debentures, and other evidences of indebtedness of any corporation liable to the public service corporation tax and of any corporation the property of which is operated in Rhode Island by any corporation shall be exempt from taxation.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

**90. Seeds and Plants used to Grow Food and Food Ingredients:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(65)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 2017

Description: The sale, storage, use, or other consumption of seeds and plants used to grow food and food ingredients is exempt from the sales and use tax. The exemption does not apply to marijuana seeds or plants.

Data Source: *No reliable data exists for this tax expenditure item. (The forgone revenue from this exemption is included in the "Food and Food Ingredients" exemption.)

Reliability Index: 5

Projection Methodology: *No reliable data exists for this tax expenditure item. (The forgone revenue from this exemption is included in the "Food and Food Ingredients" exemption.)

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Vegetable seeds suitable for planting to produce food for human consumption are exempt from Connecticut's sales tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(96)

Maine: Products, including seeds, used in commercial agricultural production are exempt from the state sales and use tax. Vegetable seeds and seedlings used in home gardens are taxable.

Maine Statute: Me. Rev. Stat. Ann. tit., 36 § 1760(7-B)

Massachusetts: Sales of plants, including parts of plants, suitable for planting to produce food for human consumption or when such plants or plant parts are sold in the regular course of business are exempt from sales and use tax in Massachusetts.

Massachusetts Statute: Massachusetts Gen. Laws Ch. 64H § 6(p)(4)

Vermont: Vermont's provisions include a sales and use tax exemption for agricultural inputs, which include seed and plants used for agricultural purposes.

Vermont Statute: Vt. Stat. Ann. tit., 32 § 9741(3)

**91. Special Adaptations for Wheelchair Accessible Taxicabs:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(19)(iii)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2007 / N/A

Description: The sale of special adaptations or the component parts of the special adaptations for a wheelchair accessible taxicab and/or a wheelchair accessible public motor vehicle as defined in R.I. Gen. Laws §§ 39-14-1 and 39-14.1-1, respectively, are exempt from the sales and use tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

## 92. Stay Invested in RI Wavemaker Fellowship Awards:

Statutory Reference: R.I. Gen. Laws Ch. 42-64.26-8 / R.I. Pub. Laws 2022, Ch. 231, Art. 9, § 10 / R.I. Pub. Laws 2023, Ch. 79, Art. 7, § 10

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2015 / 2023

Description: The Stay Invested in RI Wavemaker Fellowship program offers qualifying individuals a refundable tax credit worth the value of their annual student loan burden. Awards can be issued as a personal income tax credit and/or as a refund at any point in the calendar year. Prior to January 1, 2021, only the tax credit allowed under this chapter was exempt from the personal income tax imposed by R.I. Gen. Laws Ch. 44-30. For tax years beginning on or after January 1, 2021, all awards issued under this program are eligible for this exemption.

The Stay Invested in RI Wavemaker Fellowship program was expanded to include health care professionals, including high-demand healthcare practitioners or mental health professionals, clinical social workers, and mental health counselors licensed by the Department of Health effective July 1, 2022. No credits can be authorized to be reserved after December 31, 2024.

Data Source: Rhode Island Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Forgone revenue was determined by applying the effective tax rates from Rhode Island personal income tax returns for TY 2020 and TY 2021 of 2.91% and 3.08%, respectively, to the amount of personal income tax credit for TY 2020 and tax credit and refund option taken in TY 2021. This estimate is conservative in that not all tax credit awarded will subsequently be converted to a refund by the taxpayer.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $1,745 | 24 |
| 2021 Personal Income Tax | $27,598 | 270 |

Projection Methodology: Projected forgone revenue for TY 2022 was determined by applying the average of the effective tax rates from Rhode Island personal income tax returns for TY 2020 and TY 2021 of 3.00% to the amount of personal income tax credit and refund amount in TY 2022. TY 2023 forgone revenue is equal to the TY 2021 – TY 2022 average amount of revenue forgone. The number of taxpayers is equal to the TY 2021 – TY 2022 average number of taxpayers. TY 2024 and TY 2025 are set equal to TY 2023.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $16,003 | 163 |
| 2023 Personal Income Tax | $21,800 | 217 |
| 2024 Personal Income Tax | $21,800 | 217 |
| 2025 Personal Income Tax | $21,800 | 217 |

Law Comparison: No similar provisions were found for the other New England states.

**93. Supplies Used in On-Site Hazardous Waste Recycling, Reuse, or Treatment:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(37)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1988 / N/A

Description: The sale, storage, use, or other consumption of tangible personal property or supplies used or consumed in the operation of equipment used solely for the recycling, reuse, or recovery of materials (other than precious metals) from the treatment of hazardous wastes as defined in R.I. Gen. Laws § 23-19.1-4 is exempt from the sales and use tax. The hazardous wastes must be generated in Rhode Island solely by the same taxpayer and where the personal property is located at, in, or adjacent to a generating facility of the taxpayer in Rhode Island.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Connecticut's provision includes an exemption from the sales and use tax for personal property for incorporation into or used in waste treatment facilities.

Connecticut Statute: Conn. Gen. Stat. § 12-412(21)

**94. Supplies Used in Preparing Floral Products and/or Arrangements:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(52)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2000 / N/A

Description: The sale, storage, use, or other consumption of tangible personal property or supplies purchased by florists, garden centers, or other like producers or vendors of flowers, plants, floral products, and natural and artificial floral arrangements sold with flowers, plants, floral products, and natural and artificial floral arrangements or are otherwise used in the decoration, fabrication, creation, processing, or preparation of flowers, plants, floral products, or natural and artificial floral arrangements is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2021 Sales and Use Tax | $355,555 | *No estimate possible* |
| 2022 Sales and Use Tax | $381,029 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in the United States producer price index for intermediate materials from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $395,955 | *No estimate possible* |
| 2024 Sales and Use Tax | $371,435 | *No estimate possible* |
| 2025 Sales and Use Tax | $362,480 | *No estimate possible* |

Law Comparison: Only Vermont has a similar provision.

Vermont: Sales of fresh cut flowers only by a qualified § 501(c)(3) organization during a single, annual sales event not to exceed seven days are exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9743(3)(D)

**95. Taxpayers with Income Below Filing Threshold:**

Statutory Reference: R.I. Gen. Laws § 44-30-101(e)(4)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2019 / N/A

Description: Beginning in 2020, Rhode Island residents are required to maintain health insurance or be subject to a tax known as the "Shared Responsibility Payment Penalty." If an individual's gross income or the income of their household is less than the minimum threshold required for filing a tax return, then the taxpayer is exempt from the shared responsibility payment penalty tax.

Data Source: Rhode Island Division of Taxation. The number of taxpayers is a count of how many returns had this exemption claimed. It is possible that a return could represent more than one filer, such as in a joint return, which would be undercounted as reported here. It is also possible that the exemption was claimed for less than a full year. To calculate revenue forgone, Taxation provided an unaudited, taxpayer provided individual mandate penalty assessed for all returns in that tax year that were assessed a penalty. Average assessed penalty per return was $680 in TY 2020, $769 in TY 2021 and $786 in preliminary TY 2022. ORA multiplied the average assessed penalty by the number of returns claiming that exemption in each tax year.

Reliability Index: 2

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Shared Responsibility Payment Penalty Tax | $1,547,000 | 2,275 |
| 2021 Shared Responsibility Payment Penalty Tax | $1,210,406 | 1,574 |
| 2022 Shared Responsibility Payment Penalty Tax | $1,230,876 | 1,566 |

Projection Methodology: Revenue forgone amounts and number of taxpayers for TY 2023 are calculated using a three-year average based on data from TY 2020 – TY 2022. TYs 2024 and 2025 is set equal to TY 2023.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Shared Responsibility Payment Penalty Tax | $1,329,427 | 1,805 |
| 2024 Shared Responsibility Payment Penalty Tax | $1,329,427 | 1,805 |
| 2025 Shared Responsibility Payment Penalty Tax | $1,329,427 | 1,805 |

Law Comparison: A similar provision was found in Massachusetts.

Massachusetts: Individuals at or below 150% of the Federal Poverty Level (FPL) are not subject to a penalty for failure to purchase health insurance.

Massachusetts Statute: Mass. TIR 22-17

**96. Telecommunications Carrier Access Services:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(45)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1989 / 2007

Description: Carrier access service or telecommunications service purchased by a telecommunications company from another telecommunications company to facilitate the provision of telecommunications service is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $12,804,900 | *No estimate possible* |
| 2022 Sales and Use Tax | $13,536,000 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island gross domestic state product for utilities from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $15,331,959 | *No estimate possible* |
| 2024 Sales and Use Tax | $15,330,918 | *No estimate possible* |
| 2025 Sales and Use Tax | $15,906,273 | *No estimate possible* |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut's provision includes an exemption from the sales and use tax for access or interconnection service purchased by a provider of telecommunications service from another provider of such service for purposes of rendering such service.

Connecticut Statute: Conn. Gen. Stat. § 12-412(26)(A)(iv)

Maine: Sales of international and interstate telecommunications services are exempt from the service provider tax for all purchasers.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 2557(33) and 2557(34)

Massachusetts: Retail sales are defined as the sale of services, tangible personal property, or both for any purpose other than resale in the regular course of business. Thus, the tax on sales of telecommunications does not apply to sales for resale.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 1

Vermont: Charges for wholesale transactions between telecommunications service providers where the service is a component part of a service provided to an end user are exempt from the sales and use tax. This exemption includes, but is not limited to, network access charges and interconnection charges paid to a local exchange carrier. In addition, the sale of telecommunications service to an affiliate of the telecommunications provider is not a taxable transaction under Vermont law.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9741(41) and 9742(10)

**97. Textbooks:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(36)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1985 / 2007

Description: The sale, storage, use, or other consumption of textbooks by an educational institution, as defined in R.I. Gen. Laws § 44-18-30(18) or § 16-63-9(a)(4), or the sale, storage, use, or other consumption of used textbooks by any source is exempt from the sales and use tax.

Data Source: FY 2021 and FY 2022 Rhode Island Interactive Sales and Use Tax Simulation Model. No reliable data exists from which to determine the number of taxpayers.

Reliability Index: 3

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Sales and Use Tax | $2,103,592 | *No estimate possible* |
| 2022 Sales and Use Tax | $2,306,924 | *No estimate possible* |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in Rhode Island personal consumption expenditures for other durable goods from the November 2023 S&P Global forecast to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar

process was followed for FY 2024 and FY 2025. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $2,335,839 | *No estimate possible* |
| 2024 Sales and Use Tax | $2,375,523 | *No estimate possible* |
| 2025 Sales and Use Tax | $2,442,528 | *No estimate possible* |

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut exempts sales of college textbooks both new and used to full and part-time students enrolled at institutions of higher education or private occupational schools.

Connecticut Statute: Conn. Gen. Stat. § 12-412(109)

Massachusetts: Sales of books required for instructional purposes in educational institutions are exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(m)

Vermont: Textbooks are exempt if sold by an organization that qualifies for exempt status under the provisions of 26 U.S.C. § 501(c)(3) and whose gross sales of tangible personal property and services, which would be otherwise subject to the sales and use tax under, did not exceed $20,000 in the prior year.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9743(3)(C)

**98. Total Loss or Destruction of Motor Vehicle within 120 Days of Tax Payment:**

Statutory Reference: R.I. Gen. Laws § 44-18-21(c)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1977

Description: In the case of a motor vehicle that has been destroyed or been deemed a total loss within 120 days of its purchase, the amount of the use tax paid on the vehicle under R.I. Gen. Laws § 44-18-20 constitutes an overpayment. The overpayment may be credited against the amount of use tax on any replacement vehicle the owner acquires or may be refunded in whole or in part.

Data Source: Excise Tax Section, Rhode Island Division of Taxation.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $74,641 | 60 |
| 2021 Sales and Use Tax | $63,578 | 66 |
| 2022 Sales and Use Tax | $72,448 | 65 |
| 2023 Sales and Use Tax | $26,024 | 16 |

Projection Methodology: FY 2024 and FY 2025 are the three-year averages for data reported for FY 2021 – FY 2023.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $54,017 | 49 |
| 2025 Sales and Use Tax | $54,017 | 49 |

Law Comparison: Connecticut and Vermont have similar provisions.

Connecticut: No use tax shall be payable in cases of purchase when a motor vehicle which has been declared a total loss is rebuilt for sale or use, provided the purchaser was subjected to the sales and use tax for the last taxable sale of the vehicle.

Connecticut Statute: Conn. Gen. Stat. § 12-431(a)(2)(D)

Vermont: Vermont's provisions include a partial or complete refund of taxes paid if an insurer makes a payment on account of the total loss or destruction of a vehicle from an accident occurring within three months of the purchase.

Vermont's Statute: Vt. Stat. Ann. tit. 32, § 8902(5)(D)(ii)

**99. Trade-In Value of Boats:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(41)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1987 / N/A

Description: The sale, storage, use, or other consumption of the portion of the purchase price paid for a new or used boat that is allocated for a trade-in allowance from the boat of the buyer traded in to the seller or of the proceeds received from an insurance claim as a result of a stolen or damaged boat and used towards the purchase of a new or used boat by the buyer is exempt from the sales and use tax. R.I. Gen. Laws § 44-18-30(48), adopted in 1993, exempted the sale of new

or used boats from the sales and use tax. This effectively rendered the exemption of the trade-in value of boats moot.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Where a trade-in of any vessel is received by a retailer of such vessels upon the sale of another such vessel to a consumer, the tax is only on the difference between the sale price of such vessel purchased and the amount allowed for the trade-in on such vessel.

Connecticut Statute: Conn. Gen. Stat. § 12-430(4)

Maine: When one or more watercraft are traded in toward the sale price of another watercraft, the tax imposed must be levied only upon the difference between the sale price of the watercraft and the trade-in allowance of the watercraft taken in trade.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1765(3)

Massachusetts: Where a trade-in of a boat is received by a boat dealer upon the sale of another boat to a consumer or user, the tax is imposed only on the difference between the sale price of the boat purchased and the amount allowed on the boat traded in on such purchase.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 27A

Vermont: Sales price does not include credit for any trade-in where trade-in means an allowance made for like-kind property given to a vendor.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9701(4)(B)(v) and 9701(10)

**100. Trade-In Value of Motorcycles:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(68) / R.I. Pub. Laws 2022, Ch. 231, Article 6, § 8

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2022 / N/A

Description: Effective October 1, 2022, the sale, storage, use, or other consumption of the portion of the purchase price paid for a new or used motorcycle that is allocated for a trade-in allowance from the motorcycle of the buyer traded in to the seller or of the proceeds received from the manufacturer of motorcycles for the repurchase of the motorcycle, whether the repurchase was voluntary or not, towards the purchase of a new or used motorcycle by the buyer is exempt from the sales and use tax. The term motorcycle means a motorcycle not used for hire and does not refer to any other motor vehicle.

Data Source: Division of Motor Vehicles, Rhode Island Department of Revenue.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2023 Sales and Use Tax | $117,037 | 181 |

Projection Methodology: FY 2024 and FY 2025 were grown using forecast data from S&P Global for personal consumption expenditures, durable goods, motor vehicles and parts. The number of taxpayers for FY 2024 and FY 2025 were held constant with FY 2023.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $114,507 | 181 |
| 2025 Sales and Use Tax | $109,435 | 181 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Where a trade-in of a motor vehicle is received by a motor vehicle dealer upon the sale of another motor vehicle to a consumer, the tax is only on the difference between the sale price of the motor vehicle and the amount allowed for the trade-in on such motor vehicle. Connecticut defines motorcycles as a motor vehicle with or without a side car.

Connecticut Statute: Conn. Gen. Stat. § 12-430(4)

Maine: When one or more motor vehicles are traded in toward the sale price of another motor vehicle, the tax imposed must be levied only upon the difference between the sale price of the motor vehicle and the trade-in allowance of the motor vehicle taken in trade. A motor vehicle is defined as any self-propelled vehicle designed for the conveyance of passengers on the public highways.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1765(1)

Massachusetts: Where a trade-in of a motor vehicle is received by a dealer upon the sale of another motor vehicle to a consumer or user, the tax shall be imposed only on the difference between the sales price of the motor vehicle purchased and the amount allowed on the motor vehicle traded in

on such purchase. A motor vehicle is defined as a self-propelled vehicle designed for use and used primarily on the highway.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 26

Vermont: For any purchaser who has paid tax on the purchase or use of a motor vehicle that was sold or traded by the purchaser, the taxable cost of the replacement motor vehicle shall exclude the value allowed by the seller on any motor vehicle accepted by him as part of the consideration of the motor vehicle, provided the motor vehicle accepted by the seller is owned and previously or currently registered by the purchaser with no change of ownership since registration. Vermont defines a motorcycle as a type of motor vehicle.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 8902(5)(A)

**101. Trade-In Value of Private Passenger Automobiles:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(23)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1975 / 2011

Description: The sale, storage, use, or other consumption of the portion of the purchase price paid for a new or used automobile that is allocated for a trade-in allowance from the automobile of the buyer traded in to the seller or of the proceeds received from the manufacturer of automobiles for the repurchase of the automobile, whether the repurchase was voluntary or not, towards the purchase of a new or used automobile by the buyer is exempt from the sales and use tax. The term automobile means a private passenger automobile not used for hire and does not refer to any other motor vehicle.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 26

Vermont: For any purchaser who has paid tax on the purchase or use of a motor vehicle that was sold or traded by the purchaser, the taxable cost of the replacement motor vehicle shall exclude the value allowed by the seller on any motor vehicle accepted by him as part of the consideration of the motor vehicle, provided the motor vehicle accepted by the seller is owned and previously or currently registered by the purchaser with no change of ownership since registration.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 8902(5)(A)

**102. Transfers or Sales Made to Immediate Family Members:**

Statutory Reference: R.I. Gen. Laws § 44-18-20(d)(1)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1995

Description: The sale or transfer of tangible personal property that is otherwise subject to the sales and use tax is exempt from said tax when the transferee or purchaser is the spouse, mother, father, brother, sister, or child of the transferor or seller.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: No use tax shall be payable in cases of purchase of motor vehicles, vessels, snowmobiles, and aircraft when the purchaser is the spouse, mother, father, brother, sister, or child of the seller.

Connecticut Statute: Conn. Gen. Stat. § 12-431(a)(2)(A)

Massachusetts: Massachusetts' provisions include an exemption for family members including a spouse, mother, father, brother, sister, or child of the seller in the purchase of motor vehicles, trailers, boats, and airplanes.

Massachusetts Statute: Mass. Gen. Laws ch. 64I, § 7(b)

Vermont: Motor vehicles transferred to the spouse, mother, father, child, grandparent, or grandchild of the donor are exempt from tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 8911(8)

**103. Transfers or Sales Related to Business Dissolution or Partial Liquidation:**

Statutory Reference: R.I. Gen. Laws § 44-18-20(d)(2)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 1995

Description: The sale or transfer of tangible personal property that is otherwise subject to the sales and use tax is exempt from said tax when the transfer or sale is made in connection with the organization, reorganization, dissolution, or partial liquidation of a business entity provided that: the last taxable sale, transfer, or use of the article being sold was subject to the sales and use tax; the transferee is the business entity referred to or is a stockholder, owner, member, or partner; and any gain or loss to the transferor is not recognized as income for federal income tax purposes.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: No use tax shall be payable in cases of purchase when a motor vehicle or vessel is sold in connection with the organization, reorganization or liquidation of an incorporated business, provided the last taxable sale or use of the motor vehicle or vessel was subjected to the sales or use tax and the purchaser is the incorporated business or a stockholder.

Connecticut Statute: Conn. Gen. Stat. § 12-431(a)(2)(B)

Maine: A retail sale that is subject to the sales and use tax includes the sale or liquidation of a business or the sale of substantially all of the assets of a business, to the extent that the seller purchased the assets of the business for resale, lease, or rental in the ordinary course of business, except when the sale is to an affiliated entity and the transferee purchases the assets for resale, lease, or rental in the ordinary course of business or the sale is to a person that purchases the assets for resale, lease, or rental in the ordinary course of business or that purchases the assets for transfer to an affiliate for resale, lease, or rental by the affiliate in the ordinary course of business.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1752(11)(A)(4)

Massachusetts: The sale or transfer of a motor vehicle, trailer, or other vehicle to or from a business entity is exempt from tax as follows, provided that the transferor previously paid the sales or use tax on the vehicle: (a) the sale or transfer must be pursuant to a transaction which qualifies as a reorganization; (b) the sale or transfer must be pursuant to the formation of a partnership or corporate trust, or pursuant to the organization of a corporation, solely in exchange for an ownership interest in the enterprise; or (c) the sale or transfer must be to an owner of a business entity solely in exchange for the owner's interest on the complete dissolution of a partnership or corporate trust, or the complete liquidation of a corporation.

Massachusetts Regulation: 830 CMR 64H.25.1 Motor Vehicles

Vermont: The transfer of tangible personal property to a corporation in a reorganization, a merger or consolidation is exempt from the sales and use tax. The distribution of property by a corporation or partnership in liquidation is also exempt.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 9742(2) through 9742(6)

**104. Transportation Charges of Motor Carriers to Haul Goods:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(40)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1987 / N/A

Description: The sale or hiring of motor carriers, as defined in R.I. Gen. Laws § 39-12-2(l), to haul goods when the contract or hiring cost is charged by a motor freight tariff filed with the Rhode Island Public Utilities Commission based on the number of miles driven or by the number of hours spent on the job is exempt from the sales and use tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions were found for the other New England states.

**105. Vacation Homes Rented in Entirety:**

Statutory Reference: R.I. Gen. Laws § 44-18-36.1(a)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1986 / 2015

Description: A house, condominium, or other resident dwelling rented in its entirety is exempt from the state hotel tax administered and collected by the Division of Taxation or the City of Newport. The state hotel tax is a 5% tax upon the total consideration charged for occupancy of any space furnished by any hotel, travel packages, or room reseller.

Data Source: Rhode Island Division of Taxation, monthly hotel tax data, Office of Revenue Analysis (ORA) calculations.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Hotel Tax | $3,796,496 | *No estimate possible* |
| 2021 Hotel Tax | $3,701,787 | *No estimate possible* |
| 2022 Hotel Tax | $3,760,897 | *No estimate possible* |
| 2023 Hotel Tax | $4,113,258 | *No estimate possible* |

Projection Methodology: ORA projections of the hotel tax amounts for FY 2024 - FY 2025 are as forecasted for the FY 2025 Governor's Recommended budget. No projection of the number of taxpayers is possible due to a lack of reliable data.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Sales and Use Tax | $4,810,492 | *No estimate possible* |
| 2025 Sales and Use Tax | $4,919,762 | *No estimate possible* |

Law Comparison: No similar provisions were found in the other New England states.

**106. Vehicles Purchased by Non-Resident Military Personnel Subject to Sales Tax Elsewhere:**

Statutory Reference: R.I. Gen. Laws § 44-18-30A(b)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1965 / 1986

Description: The use, storage, or other consumption of a motor vehicle purchased in Rhode Island where the buyer is an active-duty member of the United States Armed Forces stationed outside of Rhode Island and where the buyer has paid a sales or use tax greater than or equal to the amount imposed by the Rhode Island sales and use tax is exempt from the use tax imposed by R.I. Gen. Laws § 44-18-20. If the buyer has paid a sales or use tax in an amount less than the Rhode Island sales tax rate, then the buyer must pay the difference between the amount of the tax paid and the amount of the Rhode Island sales and use tax to the tax administrator.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut has a similar provision.

Connecticut: Sales of motor vehicles to non-resident members of the armed forces on full-time active duty in Connecticut or their spouses are taxed at a reduced 4.5% rate, provided that the retailer requires and obtains documentation including a declaration under penalty of false statement confirming the purchaser's military status and state of residency.

Connecticut Statute: Conn. Gen. Stat. § 12-408(1)(C)

**107. Video Lottery Terminal, Table Games, and Sports Wagering Prizes:**

Statutory Reference: R.I. Gen. Laws § 42-61.2-10

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1992 / 2018

Description: The prizes from video lottery terminals, table games, and sports betting, including payoffs, received from the Division of Lottery are exempt from the state sales or use tax. Prizes are still subject to the personal income tax.

Data Source: Division of Lottery, Department of Revenue

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $0 | 0 |
| 2021 Sales and Use Tax | $0 | 0 |

Projection Methodology: Revenue forgone and number of taxpayers for FY 2022 – FY 2024 are held constant with FY 2021.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Sales and Use Tax | $0 | 0 |
| 2023 Sales and Use Tax | $0 | 0 |
| 2024 Sales and Use Tax | $0 | 0 |
| 2025 Sales and Use Tax | $0 | 0 |

Law Comparison: No similar provisions were found for the other New England states.

**108. Water for Residential Use:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(28)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1977 / N/A

Description: The sale, storage, use, or other consumption of water provided for domestic use by occupants of residential premises is exempt from the sales and use tax.

Data Source: Rhode Island Public Utilities Commission, Rhode Island regulated water suppliers' water rates. Estimate is based on usage of 60,000 gallons per household at an average cost of $496.53 for FY 2020 and $499.52 for FY 2021. From the physical housing characteristics for occupied housing units reported by the US Census Bureau, American Community Survey (ACS), it is estimated that there were number of households in Rhode Island were 441,274 households in CY 2020 and 440,170 in CY 2021. Revenue forgone was determined by multiplying the total

yearly sales by 7% and summing one half of each calendar year to arrive at a fiscal year total. Fiscal year number of taxpayers was determined by summing one-half of each calendar year.

Reliability Index: 2

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Sales and Use Tax | $14,608,737 | 424,224 |
| 2021 Sales and Use Tax | $15,364,364 | 440,722 |

Projection Methodology: FY 2022 revenue forgone amounts and number of taxpayers were forecasted using the same methodology as noted above. ORA applied the growth rates from the S&P Global forecast provided for the November 2023 Revenue Estimating Conference (REC) for total Rhode Island family and non-family households to project FY 2023 – FY 2025 revenue forgone and number of taxpayers.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Sales and Use Tax | $15,607,121 | 447,685 |
| 2023 Sales and Use Tax | $15,639,461 | 448,613 |
| 2024 Sales and Use Tax | $15,651,042 | 448,945 |
| 2025 Sales and Use Tax | $15,682,482 | 449,847 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut exempts the sales of water, steam, and telegraph services, when delivered to consumers through mains, lines, pipes, or bottles from the sales and use tax.

Connecticut Statute: Conn. Gen. Stat. § 12-412(3)(C)

Maine: Sales of water purchased for use in buildings designed and used for both human habitation and sleeping, with the exception of hotels, are exempt.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(39)

Massachusetts: The sale, furnishing, and service of water is exempt from the sales and use tax.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(i)

Vermont: Water is excluded from taxable public utility services.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9771(3)

## 109. Wine and Spirits:

Statutory Reference: R.I. Gen. Laws § 44-18-30(64)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1947 / 2013 / 2015

Description: The sale, storage, use, or other consumption of wine and spirits by a Class A Licensee of alcoholic beverages is exempt from the sales and use tax.

Data Source: Tax Administrator's Reports *Sales and Taxation of Alcoholic Beverages in Rhode Island* published May 2022 and May 2023. United States Census Data, 2020 Decennial Census and the 2021 and 2022 American Community Survey 1-Year Estimates. United States Centers for Disease Control and Prevention, Behavioral Risk Factor Surveillance System Data, 2020-2022. ORA utilized the five-year average percent of alcohol excise taxes remitted from January – June as well as July – December to extract fiscal year sales from the Taxation report to calculate revenue forgone. To estimate the number of taxpayers, ORA utilized CDC survey data on the percentage of adults who said that had had at least one drink of alcohol within the past 30 days and applied that percentage to the number of Rhode Island adults as reported by the Census Bureau.

Reliability Index: 1 (Revenue Forgone); 2 (Number of Taxpayers)

| ***Fiscal Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Sales and Use Tax | $19,135,601 | 518,355 |
| 2021 Sales and Use Tax | $21,302,210 | 520,839 |
| 2022 Sales and Use Tax | $21,079,637 | 512,088 |

Projection Methodology: The Office of Revenue Analysis applied the FY 2023 growth rate in personal consumption expenditures, food and beverages purchased for off-premises consumption from the S&P Global forecast provided for the November 2023 Revenue Estimating Conference to FY 2022 revenue forgone to project FY 2023 revenue forgone. A similar process was followed for FY 2024 and FY 2025. The projected number of taxpayers is the average of FY 2020 – 2022.

| ***Fiscal Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2023 Sales and Use Tax | $21,934,350 | 517,094 |
| 2024 Sales and Use Tax | $22,250,387 | 517,094 |
| 2025 Sales and Use Tax | $22,541,310 | 517,094 |

Law Comparison: Only Massachusetts has a similar provision.

Massachusetts: The sales of all alcoholic beverages taxed under the excise taxes listed in Mass. Gen. Laws ch. 138 are exempt from sales and use taxes.

Massachusetts Statute: Mass. Gen. Laws ch. 64H, § 6(g)

**110. Youth Activities Equipment Sold for $20 or Less:**

Statutory Reference: R.I. Gen. Laws § 44-18-30(31)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1984 / 1995

Description: The sale, storage, use, or other consumption of items $20 or less by nonprofit charitable organizations for youth activities that the organization is formed to sponsor and support or by accredited elementary and secondary schools for the purposes of the schools or organized activities of enrolled students is exempt from the sales and use tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: A sales and use tax exemption is provided for sales of items for $20 or less made by eleemosynary organizations when the sales are made for purposes of supporting youth activities. Examples of such organizations include: Boy Scouts, Girl Scouts, Parent-Teacher Organizations, Boys' and Girls' Clubs, Little League, Pee Wee Football, 4-H Clubs, Camp Fire Girls and Junior Achievement.

Connecticut Statute: Conn. Gen. Stat. § 12-412(26)

Massachusetts: Sales of tangible personal property by a nonprofit organization for fundraising purposes are exempt from sales tax as casual and isolated sales if the organization does not make sales in the regular course of business of the same type of property and amounts derived from such casual and isolated sales are used to further the organization's exempt purpose.

Massachusetts Regulation: 830 CMR § 64H.6.1(4)(a) Casual and Isolated Sales

Maine: Sales of tangible personal property and taxable services by elementary and secondary schools and by student organizations sponsored by those schools, including booster clubs and student or parent-teacher organizations, as long as the profits from the sales are used to benefit those schools or student organizations or are used for a charitable purpose.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 1760(64)

Vermont: Sales by qualified § 501(c)(3) organizations are exempt from the sales and use tax if the organization's gross sales of tangible personal property and services, which would be subject to the sales and use tax but for this exemption, did not exceed $20,000 in the prior year.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 9743(3)(C)

# MODIFICATIONS

## 1. Bonus Depreciation Provided by JCWAA of 2002 and JGTRRA of 2003:

Statutory Reference: R.I. Gen. Laws § 44-61-1 / 26 U.S. Code § 168(k)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2002 / 2008

Description: For purposes of depreciating assets under the business corporation tax, bank excise tax, and personal income tax, the bonus depreciation provided by the federal Job Creation and Workers Assistance Act (JCWAA) of 2002 and the federal Jobs Growth Tax Relief Reconciliation Act (JGTRRA) of 2003, or any subsequent enactment for federal tax purposes, is not allowed for Rhode Island tax purposes. In the year those assets are placed in service and in all subsequent years, depreciation for Rhode Island tax purposes is allowed as it would have been computed prior to the enactment of the JCWAA of 2002.

The JCWAA of 2002 allowed a special 30% bonus depreciation deduction in the first year for qualifying property purchased after September 10, 2001, and before September 11, 2004, for purposes of computing federal net income. In addition, the JCWAA of 2002 modified Internal Revenue Code (IRC) § 168(k) to allow taxpayers to claim an additional first-year bonus depreciation allowance on any new Modified Accelerated Cost Recovery System (MACRS) property when the recovery period is 20 years or less. The additional depreciation allowance is equal to 30% of the adjusted cost basis of the property after any IRC §179 expense deductions are taken. The JGTRRA of 2003 increased the bonus depreciation deduction from 30% to 50% for assets purchased after May 5, 2003, but before January 1, 2005. The American Jobs Creation Act of 2004 extended some bonus depreciation rules for certain aircraft as well as other items. The Economic Stimulus Act of 2008 reintroduced bonus depreciation of 50% for qualifying property placed in service in TY 2008. The American Recovery and Reinvestment Act of 2009 extended the 50% bonus depreciation for qualifying property placed in service in TY 2009. The Small Business Jobs Act of 2010 increased the bonus depreciation from 50% to 100% for qualifying property acquired and placed in service after September 8, 2010, but before January 1, 2012. Qualifying property acquired on or before September 8, 2010 was eligible for the 50% bonus depreciation, if that property was placed in service prior to January 1, 2013. The American Taxpayer Relief Act of 2012 extends the 50% bonus depreciation for qualifying property placed in service in TY 2013. The Protecting Americans from Tax Hikes (PATH) Act of 2015 extended bonus depreciation to property acquired and placed in service before 2020 while retaining the 50% bonus depreciation in 2017 and providing for lesser bonus depreciation percentages of 40% for TY 2018 and 30% for TY 2019. The Tax Cuts and Jobs Act (TCJA) of 2017 retained the 50% bonus depreciation for property placed in service on or before September 27, 2017 and increased the bonus depreciation to 100% for property placed in service after September 27, 2017 but before January 1, 2023. Beginning on January 1, 2023, the allowable bonus depreciation decreases by 20 percentage points in each subsequent year until it reaches 0% on January 1, 2027.

Rhode Island's disallowance of bonus depreciation is a timing issue. In the year that an asset is put in service and is eligible for the federal bonus depreciation, a Rhode Island taxpayer must take as a modification increasing federal adjusted gross income (AGI) the difference in the bonus

depreciation amount allowed on the federal tax return and the depreciation amount allowed for Rhode Island tax purposes. In subsequent years, a Rhode Island taxpayer may take as a modification decreasing federal AGI the difference in the depreciation amount allowed for Rhode Island tax purposes and the depreciation amount allowed on the federal tax return. At the end of the asset's "useful" life, the same amount of depreciation will be realized by the taxpayer on both the federal and the Rhode Island tax returns. Thus, over the life of the asset, there is no net impact on Rhode Island tax collections.

The Division of Taxation allows corporate tax filers to report bonus depreciation and expensing as set forth in the IRC § 179 on the same line as a total. As a result, depending on the tax year, the reported amounts on Rhode Island business corporation tax returns include both bonus depreciation and § 179 expensing. However, after tax year 2018, it is presumed that § 179 expensing deductions will be minimal due to conformity with federal tax law on § 179 expensing.

Data Source: *Business Corporation Tax*: Rhode Island Division of Taxation and Office of Revenue Analysis (ORA) calculations. For TYs 2020 and 2021, this deduction includes combined bonus depreciation, and any § 179 expensing reported for C-corporations only, and the amounts are not necessarily specific to Rhode Island-based activity. For TY 2020 and TY 2021, the total net modification resulted in an increase to federal taxable income and thus, no revenue was forgone for these taxpayers. The number of taxpayers includes C-corporations, S-corporations and partnerships that had a deduction increasing or decreasing federal taxable income and can include a taxpayer in both categories, provided the taxpayer simultaneously had a modification increasing and decreasing federal taxable income.

*Bank Tax*: Rhode Island Division of Taxation and ORA calculations. This deduction includes combined bonus depreciation and enhanced § 179 expensing and the amounts are not necessarily specific to Rhode Island-based activity. For TYs 2020 and 2021, the total net deduction amount was positive; therefore, there is no revenue forgone from this deduction. The number of taxpayers includes those taxpayers with a deduction that increased or decreased their federal taxable income.

*Personal Income Tax*: Office of Revenue Analysis (ORA) calculations. Modifications include adjustments that either increase or decrease federal AGI. For TY 2020 and TY 2021, the total net modification by resident and non-resident taxpayers increased federal AGI; therefore, there is no revenue forgone from this modification in TY 2020 or TY 2021. The number of taxpayers includes those resident and non-resident taxpayers with a modification that either increased or decreased federal AGI.

Reliability Index: 1

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Business Corporation Tax | $0 | 29,959 |
| 2020 Bank Tax | $0 | 53 |
| 2020 Personal Income Tax | $0 | 30,830 |
| **2020 Total** | **$0** | **60,842** |

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2021 Business Corporation Tax | $0 | 29,193 |

**Indicates data that is not disclosed by Taxation due to taxpayer's confidentiality*

Law Comparison: Connecticut, Maine, and Vermont have similar provisions.
Connecticut: Effective for tax year 2017 and going forward, Connecticut decoupled from the federal bonus depreciation deduction. Taxpayers who report a subtraction modification on their federal return must report a bonus depreciation addition modification on the Connecticut return. The taxpayer may then report 25% of such additional allowance for depreciation in each of the four succeeding taxable years.

Connecticut corporation tax law states that for purposes of determining net income subject to tax, the deduction allowed for depreciation shall be determined as provided under the IRC, provided that in making such determination the provisions of § 168(k) of the IRC do not apply.

Connecticut Statute: Conn. Gen. Stat. §§ 12-701(a)(20)(A)(ix), 12-701(a)(20)(B)(v), and 12-217(b)(1)

Maine: For tax years beginning on or after January 1, 2015, federal AGI is increased by an amount equal to the net increase attributable to the depreciation deduction claimed by the taxpayer under § 168(k) for which a Maine credit is claimed under § 5219-NN for that tax year; and an amount equal to the net increase attributable to the depreciation deduction claimed by the taxpayer under § 168(k) with respect to property for which a Maine credit is not claimed under § 5219-NN.

The addition modifications are recaptured in future years through a series of subtraction modifications. Federal AGI or federal net income is reduced by a fraction of any amount previously added back by the taxpayer. For tax years beginning on or after January 1, 2016, an amount equal to the net increase in the depreciation deduction allowable under §§ 167 and 168 of the IRC that would have been applicable to that property had the depreciation deduction under § 168(k) of the IRC not been claimed with respect to such property placed in service during the taxable year for which an addition was required. For property placed in service on or after January 1, 2020, an affected property is eligible to take both a bonus depreciation addition modification and the Maine capital investment credit.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, ch. 805, §§ 5122(1)(KK), 5122(2)(NN), and 5122(2)(RR) and ch. 817, §§ 5200-A(1)(CC), and 5200-A(2)(AA)

Vermont: Vermont defines net income for any corporate taxpayer as the taxable income of the taxpayer for that taxable year under the laws of the United States, without regard to 26 U.S.C. § 168(k) of the Internal Revenue Code (IRC), and excluding income which under the laws of the

United States is exempt from taxation by the states. For the individual income tax and for that of estates or trusts, Vermont includes provisions that taxable income is determined based on federal AGI or taxable income, respectively, without regard to § 168(k) of the IRC.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 5811(18)(A), (21), and (28)

**2. Companies Engaged in Buying, Selling, Dealing in, or Holding Securities on Own Behalf:**

Statutory Reference: R.I. Gen. Laws § 44-11-2(b)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1938 / 2004

Description: Corporations that buy, sell, deal in or hold securities on their own behalf and "not as a broker, underwriter, or distributor" and whose gross receipts derived from these actions amount to at least 90% of its total gross receipts derived from all activities in a taxable year can take as a modification reducing net income 50% of excess capital gains over capital losses for the taxable year prior to computing the business corporation tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only Massachusetts has a similar provision.

Massachusetts: Every financial institution or business corporation which is engaged exclusively in buying, selling, dealing in, or holding securities on its own behalf and not as a broker and is not a bank holding company under the Internal Revenue Code, as amended and in effect for the taxable year shall pay, on account of each taxable year, an excise equal to 0.132% of the gross income received by such corporation during the taxable year, or $456, whichever is greater. For every financial institution or business corporation that is engaged in buying, selling, dealing or holding securities on its own behalf and not as a broker and is a bank holding company, the respective rate is 0.33% of the gross income, or $456, whichever is greater. Such companies are exempt from the corporate excise tax.

Massachusetts Statute: Mass. Gen. Laws ch. 63, §§ 38B, 68C

**3. Contribution to Medical Savings Accounts by Scituate Residents:**

Statutory Reference: R.I. Gen. Laws § 44-30-25.1(d)(1)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2002 / N/A

Description: A resident individual of the town of Scituate who establishes a medical savings account is allowed a modification decreasing federal adjusted gross income (AGI) prior to computing the personal income tax for contributions made to said medical savings account to the extent such a contribution is deemed taxable under the Internal Revenue Code. The income, including gains and losses on a medical savings account, is exempt from taxation.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Revenue forgone is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $503 | < 10 |
| 2021 Personal Income Tax | $353 | < 10 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers is the 4-year average number of taxpayers reported for TYs 2018-2021. TY 2023 – TY 2025 are set equal to TY 2022.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2022 Personal Income Tax | $507 | < 10 |
| 2023 Personal Income Tax | $507 | < 10 |
| 2024 Personal Income Tax | $507 | < 10 |
| 2025 Personal Income Tax | $507 | < 10 |

Law Comparison: Massachusetts has a similar provision.

Massachusetts: Massachusetts allows a deduction for contributions to Archer Medical Savings Accounts (MSA) for all individuals who qualify for the federal deduction.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(d)(1)

## 4. Contributions to an Account under Tuition Savings Program:

Statutory Reference: R.I. Gen. Laws § 44-30-12(c)(4)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2002 / NA

Description: Contributions made to an account under the Rhode Island tuition savings program, including the "contributions carryover," if any, can be taken as a modification decreasing federal adjusted gross income (AGI) prior to computing the personal income tax subject to the limitation that the aggregate subtraction for any taxable year of the taxpayer shall not exceed $500 or $1,000 if a joint return. The subtraction shall not reduce the taxpayer's federal AGI to less than zero.

The following shall not be considered contributions to an account under the tuition savings program: (1) Contributions made by any person to an account who is not a participant of the account at the time the contribution is made; (2) Transfers or rollovers to an account from any other tuition savings program account or from any other "qualified tuition program" under § 529 of the Internal Revenue Code; or (3) A change of the beneficiary of the account.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Revenue forgone is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1 (This modification includes the Federally Taxable Qualified Withdrawals from Tuition Savings Program Account modification).

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $169,111 | 4,255 |
| 2021 Personal Income Tax | $187,939 | 4,438 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $199,286 | 4,673 |
| 2023 Personal Income Tax | $199,286 | 4,673 |
| 2024 Personal Income Tax | $199,286 | 4,673 |
| 2025 Personal Income Tax | $199,286 | 4,673 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Connecticut taxpayers may deduct contributions to accounts established pursuant to any qualified state tuition program, as defined in § 529(b) of the Internal Revenue Code, established and maintained by the state or any official, agency, or instrumentality of the state, but may not exceed $5,000 for each individual taxpayer or $10,000 for taxpayers filing a joint return. Any amount of a contribution that is not subtracted by the taxpayer in that year for which the contribution is made may be carried forward as a subtraction from income for the succeeding five years, provided the amount subtracted does not exceed the maximum allowed in each subsequent taxable year.

Connecticut Statute: Conn. Gen. Stat. §§ 12-701(a)(20)(B)(xiii) and 12-701a

Maine: For tax years beginning on or after January 1, 2023, the income subtraction modification for contributions to a qualified tuition program established under Section 529 of the Internal Revenue Code is reinstated. The deduction, equal to contributions made to a qualified tuition plan up to $1,000 for each designated beneficiary, may not be claimed by taxpayers whose federal adjusted gross income exceeds $100,000 if filing single or married filing separately, or $200,000 if married filing jointly or head of household.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5122(2)YY

Massachusetts: There is a deduction equal to either the purchases of or contributions made in a taxable year to an account in a pre-paid tuition program or a college savings program established by Massachusetts or an instrumentality or authority of Massachusetts. The deduction is capped at $1,000 for single, married filing separately, or head of household filers and $2,000 for a married couple filing jointly.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 3(B)(a)(19)

Vermont: The Vermont Higher Education Investment Plan (VHEIP) tax credit entitles a taxpayer, including each spouse filing a joint return, a nonrefundable credit of 10% of the first $2,500 contributed for each beneficiary to a Vermont higher education investment plan account. A taxpayer who has received this credit must repay to the state 10% of any non-qualified distribution from a VHEIP account, up to a maximum of the total credits received by the taxpayer. Distributions may be used for qualified postsecondary school expenses, qualified expenses for registered apprenticeships, and for qualified higher education loan repayments.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5825a

**5. Enterprise Zone Business Owner with Domiciliary in Enterprise Zone:**

Statutory Reference: R.I. Gen. Laws § 42-64.3-7

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1982 / 1997

Description: A domiciliary of an enterprise zone who owns and operates a qualified business facility in that zone and which business is not required to file a business corporation tax, public service corporation tax, bank excise tax, or insurance company gross premiums tax return may take as a modification decreasing federal adjusted gross income (AGI) prior to computing the personal income tax, an amount of $50,000 during the first three years after certification and operations in the zone and may deduct $25,000 in the fourth and fifth year. In the case of multiple business owners, the modification shall be apportioned according to the ownership interests of the qualified business.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Revenue forgone is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $32,344 | 119 |
| 2021 Personal Income Tax | $84,837 | 55 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers is the 4-year average of total taxpayers that have taken the modification and estimated revenue forgone. TYs 2023 – 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $40,373 | 83 |
| 2023 Personal Income Tax | $40,373 | 83 |
| 2024 Personal Income Tax | $40,373 | 83 |
| 2025 Personal Income Tax | $40,373 | 83 |

Law Comparison: Only Maine has a similar provision.

Maine: Maine allows as a modification decreasing the taxable income of the taxpayer under the laws of the United States in the case of a corporation, or federal AGI in the case of an individual, an amount equal to the reduction in salary and wage expenses for federal income tax purposes associated with the taxpayer's federal empowerment zone employment credit as determined under § 1396 of the Internal Revenue Code.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, §§ 5122(2)(B) and 5200-A(2)(C)

**6. Federally Taxable Qualified Withdrawals from Tuition Savings Program Account:**

Statutory Reference: R.I. Gen. Laws § 44-30-12(c)(3)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2001 / N/A

Description: The amount of any withdrawal or distribution from the tuition savings program referenced in R.I. Gen. Laws § 16-57-6.1 which is included in federal adjusted gross income (AGI) other than a withdrawal or distribution or portion thereof that is deemed nonqualified is a modification that decreases federal AGI for purposes of the personal income tax.

Under federal income tax law, the taxable portion of a qualified withdrawal or distribution is the earnings portion of the withdrawal or transfer that exceeds the adjusted qualified education expenses. Adjusted qualified education expenses is the total qualified education expenses reduced by any tax-free educational assistance. Tax-free educational assistance includes: the tax-free portion of scholarships and fellowships, veterans' educational assistance, Pell grants, employer-provided educational assistance and any other nontaxable (tax-free) payments (other than gifts or inheritances) received as educational assistance.

Data Source: *No reliable data exists for this tax expenditure item. (This modification is included in the Contributions to an Account under Tuition Savings Program.)

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut and Maine have similar provisions.

Connecticut: To the extent included in the federal AGI of a designated beneficiary, any distribution to such beneficiary from any qualified state tuition program, as defined in § 529(b) of the Internal Revenue Code, established and maintained by the state or any official, agency, or instrumentality of the state can be taken as a modification decreasing federal AGI for Connecticut income tax purposes.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(20)(B)(xii)

Maine: To the extent included in federal AGI, any amount that is a qualified distribution from an account established under the Maine College Savings Program and used for paying higher education expenses of the designated beneficiary of that account is subtracted from federal AGI in calculating Maine taxable income.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5122(2)(J)

**7. Gain from Stock Options in Qualifying Corporations:**

Statutory Reference: R.I. Gen. Laws § 44-39.3-1

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1997 / N/A

Description: "The income, gain, or preference items resulting from the sale, transfer, or exercise of qualified and nonqualified stock options, the stock issued or transferred on the exercise of any option and warrants issued with respect to options and/or stock of a qualifying corporation" can be taken by a qualifying taxpayer as a modification reducing federal adjusted gross income (AGI) for the purposes of computing the personal income tax.

A qualifying taxpayer is a resident of Rhode Island who has been employed at a location in Rhode Island for at least three consecutive months as a full-time employee of a qualifying corporation and the estate, heirs, and successors of that taxpayer. A qualifying corporation is any corporation that (1) annually elects to be a qualifying corporation; (2) has at least 10 full-time employees in Rhode Island; and (3) is engaged principally in at least one business activity described in Standard Industrial Classification (SIC) codes 7371, Computer Programming Services; 7372, Prepackaged Software; or 7373, Computer Integrated Systems Design.

Data Source: *No reliable data exists for this tax expenditure item. (This modification is included in the Income or Gain from a Qualifying Employee's Ownership of a Qualifying Corporation modification.)

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Massachusetts has a similar provision.

Massachusetts: Massachusetts gives a preferential tax rate of 3% for gains derived from the sale of investments. Investments must have been made within five years of the corporation's date of incorporation and must be in stock that generally satisfies the definition of qualified small business stock under the Internal Revenue Code (IRC) § 1202(c), except for the requirement the stock be of a C-corporation. The stock must have been held for a minimum of three years and the investments must be made in a corporation domiciled in Massachusetts, incorporated on or after January 1, 2011, has less than $50 million in assets at the time of investment, and complies with certain active business requirements under the IRC § 1202.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 4(c)

**8. Income Earned on Rhode Island Family Education Accounts:**

Statutory Reference: R.I. Gen. Laws §§ 44-30-12(c)(2) and 44-30-25(f)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1988 / 2005

Description: The income earned on the assets held in family education accounts can be taken as a modification decreasing federal adjusted gross income (AGI) prior to the computation of the personal income tax. A family education account is an account created by an individual taxpayer for the purpose of providing qualified educational benefits to a qualified beneficiary provided that the account is created by a written governing instrument as prescribed by the Tax Administrator that designates the account as a Rhode Island Family Education Account.

Data Source: Division of Taxation, Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $12,320 | 219 |
| 2021 Personal Income Tax | $21,485 | 225 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017 - TY 2021 to TY 2021. TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $22,908 | 214 |
| 2023 Personal Income Tax | $22,908 | 214 |
| 2024 Personal Income Tax | $22,908 | 214 |
| 2025 Personal Income Tax | $22,908 | 214 |

Law Comparison: Connecticut, Maine, and Massachusetts have similar provisions.

Connecticut: To the extent includable in the federal AGI of a designated beneficiary, any distribution to such beneficiary from any qualified state tuition program, as defined in § 529(b) of the Internal Revenue Code, established and maintained by the state or any official, agency, or instrumentality of the state can be taken as a modification decreasing federal AGI for Connecticut income tax purposes.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(20)(B)(xii)

Maine: To the extent included in federal AGI, any amount constituting a qualified distribution from an account established under Maine law and used for paying higher education expenses of the designated beneficiary of that account can be claimed as a modification decreasing federal AGI in determining Maine taxable income.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5122(2)(J)

Massachusetts: Plan earnings are tax-free when used to pay for qualified higher education expenses. Income may be taxable if the distribution is made for a reason other than qualified expenses, beneficiary's death, or receipt of a scholarship.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 3(B)(a)(19)

### 9. Income from the Assignment or Transfer of Historic Preservation Tax Credits:

Statutory Reference: R.I. Gen. Laws § 44-33.6-3(f)

Year Enacted / Last Year Amended: 2013 / 2016

Stated Purpose: The purpose of this chapter is to create economic incentives for the purpose of stimulating the redevelopment and reuse of Rhode Island's historic structures, as well as to generate the positive economic and employment activities that will result from such redevelopment and reuse.

Description: Any assignment or sales proceeds received by the taxpayer for its assignment or sale of the historic preservation tax credits are taken as a modification decreasing federal (AGI) prior to the calculation of the taxes.

If a tax credit is subsequently recaptured, revoked or adjusted, the seller's tax calculation for the year of revocation, recapture, or adjustment shall be increased by the total amount of the sales proceeds, without proration, as a modification increasing federal AGI under the personal income tax.

In the event that the seller is not a natural person, the seller's tax calculation under the business corporation tax, public service corporation tax (except the taxation of certain tangible personal property), bank excise tax, insurance company gross premiums tax, and personal income tax, as applicable, for the year of revocation, recapture, or adjustment, shall be increased by including the total amount of the sales proceeds without proration. As such, assignment or sales of tax credits under above mentioned tax types increase taxable income to the seller. The Office of Revenue Analysis (ORA) will report on the required increasing and decreasing modifications to federal AGI under the personal income tax.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations.

The raw data for this modification includes the modification amounts for income for the assignment or transfer of historic preservation, historic structures, motion picture, and musical or theatrical production tax credits. The amount of revenue forgone allocated to each tax credit type is a projection based on TY 2020 and TY 2021 tax credit redemption. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 2

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $2,427 | 132 |
| 2021 Personal Income Tax | $2,548 | 16 |

Projection Methodology: Projected amount of modification and number of taxpayers for TY 2022 is the 4-year average of revenue forgone and number of taxpayers from TY 2018-TY 2021. TYs 2023-2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $8,941 | 59 |
| 2023 Personal Income Tax | $8,941 | 59 |
| 2024 Personal Income Tax | $8,941 | 59 |
| 2025 Personal Income Tax | $8,941 | 59 |

Law Comparison: No similar provisions found in the other New England states.

**10. Income from the Assignment or Transfer of Historic Structures Tax Credits:**

Statutory Reference: R.I. Gen. Laws § 44-33.2-3(e)(2)

Year Enacted / Last Year Amended: 2001 / 2008

Stated Purpose: The purpose of this chapter is to create economic incentives for the purpose of stimulating the redevelopment and reuse of Rhode Island's historic structures.

Description: Any assignment or sales proceeds received by the taxpayer for its assignment or sale of the historic structures tax credits shall be taken as a modification decreasing federal adjusted gross income (AGI) prior to the calculation of the taxes.

If a tax credit is subsequently recaptured, revoked or adjusted, the seller's tax calculation for the year of revocation, recapture, or adjustment shall be increased by the total amount of the sales proceeds, without proration, as a modification increasing federal AGI under the personal income tax.

In the event that the seller is not a natural person, the seller's tax calculation under the business corporation tax, public service corporation tax (except the taxation of certain tangible personal property), bank excise tax, insurance company gross premiums tax, and personal income tax, as applicable, for the year of revocation, recapture, or adjustment, shall be increased by including the total amount of the sales proceeds without proration. As such, assignment or sales of tax credits under above mentioned tax types increase taxable income to the seller. The Office of Revenue Analysis (ORA) will report on the required increasing and decreasing modifications to federal AGI under the personal income tax.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations.

The raw data for this modification includes the modification amounts for income for the assignment or transfer of historic preservation, historic structures, motion picture, and musical or theatrical production tax credits. The amount of revenue forgone allocated to each tax credit type is a projection based on TY 2020 and TY 2021 tax credit redemption. | 2024 Personal Income Tax | $13,332 | 31 |
| 2025 Personal Income Tax | $13,332 | 31 |

Law Comparison: No similar provisions found in the other New England states.

**11. Income from the Assignment or Transfer of Motion Picture Production Credits:**

Statutory Reference: R.I. Gen. Laws § 44-31.2-9

Year Enacted / Last Year Amended: 2005 / 2006

Stated Purpose: "The primary objective of this chapter is to encourage development in Rhode Island of a strong capital base for motion picture film, videotape, and television program productions, in order to achieve a more independent, self-supporting industry. This objective is divided into immediate and long-term objectives as follows:

1. Immediate objectives are to:
    i. Attract private investment for the production of motion pictures, videotape productions, and television programs, which contain substantial Rhode Island content as defined herein.
    ii. Develop a tax infrastructure, which encourages private investment. This infrastructure will provide for state participation in the form of tax credits to encourage investment in state-certified productions.

iii. Develop a tax infrastructure utilizing tax credits, which encourage investments in multiple state-certified production projects.

2. Long-term objectives are to:
   i. Encourage increased employment opportunities within this sector and increased competition with other states in fully developing economic development options within the film and video industry.
   ii. Encourage new education curricula in order to provide a labor force trained in all aspects of film production."

Description: Any motion picture production tax credit certificate which has been issued to a motion picture production company, or passed through to partners, members, owners, shareholders, etc in accordance with R.I. Gen. Laws § 44-31.2-5(d), to the extent not previously claimed against the tax of the motion picture production company or of the owner of the certificate, may be transferred or sold by such company to another Rhode Island taxpayer, subject to certain procedures and conditions. Any assignment or sales proceeds received by the motion picture production company for its assignment or sale of the motion picture production tax credit is taken as a modification decreasing federal taxable income prior to the calculation of taxes.

Failure to comply with transfer requirements set forth in R.I. Gen. Laws § 44-31.2-9 will result in the disallowance of the tax credit until the taxpayers are in full compliance. Disallowance of the motion picture production tax credit that was previously claimed is recaptured and added back as a modification increasing federal adjusted gross income (AGI).

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations.

The raw data for this modification includes the modification amounts for income for the assignment or transfer of historic preservation, historic structures, motion picture, and musical or theatrical production tax credits. The amount of revenue forgone allocated to each tax credit type is a projection based on TY 2020 and TY 2021 tax credit redemption. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 2

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $13,135 | 46 |
| 2021 Personal Income Tax | $69,729 | 35 |

Projection Methodology: Projected amount of modification and number of taxpayers for TY 2022 is the 4-year average of revenue forgone and number of taxpayers from TY 2018-TY 2021. TYs 2023-2025 are set equal to TY 2022.

Law Comparison: No similar provisions found in the other New England states.

**12. Income from the Assignment or Transfer of Musical and Theatrical Production Tax Credits:**

Statutory Reference: R.I. Gen. Laws § 44-31.3-2(b)(6)

Stated Purpose: The purpose of this tax expenditure is to create economic incentives for the purpose of stimulating the local economy and reducing unemployment in Rhode Island.

Year Enacted / Last Year Amended: 2012 / 2014

Description: Any musical and theatrical production tax credit, to the extent not previously claimed against the tax of the taxpayer, may be transferred or sold to another Rhode Island taxpayer, subject to certain procedures and conditions. The assignee of the tax credits may use acquired credits to offset up to 100% of the tax liabilities against the business corporation tax, public service corporation tax (except the taxation of certain tangible personal property), bank excise tax, insurance company gross premiums tax, and personal income tax. The assignee may apply the tax credit against taxes imposed on the assignee for not more than three succeeding tax years. Any assignment or sales proceeds received for its assignment or sale shall be taken as a modification decreasing federal taxable income prior to the calculation of taxes imposed by the State of Rhode Island.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal adjusted gross income (AGI). ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations.

The raw data for this modification includes the modification amounts for income for the assignment or transfer of historic preservation, historic structures, motion picture, and musical or

theatrical production tax credits. The amount of revenue forgone allocated to each tax credit type is a projection based on TY 2020 and TY 2021 tax credit redemption. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 2

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $1,311 | 73 |
| 2021 Personal Income Tax | $5,162 | 17 |

Projection Methodology: Projected amount of modification and number of taxpayers for TY 2022 is the 4-year average of revenue forgone and number of taxpayers from TY 2018-TY 2021. TYs 2023-2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $1,450 | 25 |
| 2023 Personal Income Tax | $1,450 | 25 |
| 2024 Personal Income Tax | $1,450 | 25 |
| 2025 Personal Income Tax | $1,450 | 25 |

Law Comparison: No similar provisions found in the other New England states.

**13. Income or Gain from a Qualifying Employee's Ownership of a Qualifying Corporation:**

Statutory Reference: R.I. Gen. Laws § 44-43-8

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1993 / 1995

Description: Any income, gain or preference items resulting from the transfer of employer securities from a qualified retirement plan, the sale, transfer, or exercise of stock, warrants, options, bonds, notes, or other interests of any corporation can be taken as a modification decreasing federal adjusted gross income (AGI) for the purpose of computing the personal income tax provided that at the time of the sale, transfer, or exercise the corporation is a qualifying corporation. A qualifying corporation is headquartered or has a principal office located in Rhode Island and has at least 100 or 50% of its full-time employees based in Rhode Island. Further corporation qualifications are defined in R.I. Gen. Laws § 44-43-8(c).

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated

the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1 (This modification includes the Gain from Stock Options in Qualifying Corporations modification.)

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $171,745 | 28 |
| 2021 Personal Income Tax | $12,032 | 16 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers is the 3-year average number of taxpayers reported for TYs 2017, 2019, and 2021, excluding two outlier years of data from TY 2018 and TY 2020. TYs 2023-2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $24,393 | 23 |
| 2023 Personal Income Tax | $24,393 | 23 |
| 2024 Personal Income Tax | $24,393 | 23 |
| 2025 Personal Income Tax | $24,393 | 23 |

Law Comparison: No similar provisions found in the other New England states.

**14. Interest on Obligations of the United States and its Possessions:**

Statutory Reference: R.I. Gen. Laws §§ 44-30-12(c)(1) and 44-11-11(a)(1)(v)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1971 / N/A

Description: Any interest income on obligations of the United States and its possessions to the extent includible in gross income for federal income tax purposes, and any interest or dividend income on obligations, or securities of any authority, commission, or instrumentality of the United States to the extent includible in gross income for federal income tax purposes but exempt from state income taxes under the laws of the United States; provided that the amount to be subtracted shall in any case be reduced by any interest on indebtedness incurred or continued to purchase or carry obligations or securities the income of which is exempt from Rhode Island personal income

tax, to the extent the interest has been deducted in determining federal adjusted gross income (AGI) or taxable income shall be subtracted from federal AGI prior to computing the personal income tax.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| ***Calendar Year / Tax Type*** | ***Revenue Forgone*** | ***Number of Taxpayers*** |
|---|---|---|
| 2020 Personal Income Tax | $2,371,998 | 19,491 |
| 2021 Personal Income Tax | $2,083,053 | 14,762 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. TY 2023 – TY 2025 are set equal to TY 2022.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2022 Personal Income Tax | $2,133,695 | 14,646 |
| 2023 Personal Income Tax | $2,133,695 | 14,646 |
| 2024 Personal Income Tax | $2,133,695 | 14,646 |
| 2025 Personal Income Tax | $2,133,695 | 14,646 |

Law Comparison: All of the New England states have similar provisions.

Connecticut: In determining Connecticut personal income tax, any income with respect to which taxation by any state is prohibited by federal law is deducted from federal AGI to the extent the amount is includable in federal AGI.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(20)(B)(i)

Maine: Federal AGI is reduced by interest or dividends on obligations of the United States and its territories and possessions or of any authority, commission, or instrumentality of the United States to the extent that interest or those dividends are included in federal AGI but exempt from state

income taxes under the laws of the United States. A similar provision exists under Maine's corporate income tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5122(2)(A) and 5200-A(2)(A)

Massachusetts: Interest on obligations of the United States are exempt from state income taxation to the extent included in federal AGI, and dividends received from a regulated investment company qualified under § 851 of the IRC to the extent such dividends are attributable to interest on obligations of the United States that are exempt from state income taxation and are so identified in a written notice mailed to the shareholders of such regulated investment company not later than 60 days after the close of its tax year can be deducted from federal AGI.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(a)(2)(A)

New Hampshire: Income derived from interest on notes, bonds or other securities of the United States is deducted from gross business profits before calculating tax.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:4(II)

Vermont: Taxable income begins with federal AGI, without regard to 26 U.S.C § 165(k) and is decreased by income from United States government obligations.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5811(21)(B)(i)

**15. Military Pay of Non-Resident Individuals:**

Statutory Reference: R.I. Gen. Laws § 44-30-32(d)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1971 / N/A

Description: Compensation paid by the United States for service in the armed forces of the United States, performed by an individual not domiciled in Rhode Island can be taken as a modification decreasing federal adjusted gross income (AGI) for the purposes of computing the personal income tax.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $799,283 | 1,054 |
| 2021 Personal Income Tax | $992,262 | 730 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $1,118,862 | 710 |
| 2023 Personal Income Tax | $1,118,862 | 710 |
| 2024 Personal Income Tax | $1,118,862 | 710 |
| 2025 Personal Income Tax | $1,118,862 | 710 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: Compensation paid by the United States for active service in the armed forces of the United States that is performed by an individual not domiciled in Connecticut is not considered to be Connecticut income derived from sources within Connecticut.

Connecticut Statute: Conn. Gen. Stat. § 12-711(d)

Maine: A member of the armed services who is a legal resident of another state but is stationed in Maine by military orders is not subject to Maine income tax on his or her service pay.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5142(7)

Massachusetts: The compensation paid by the United States to its uniformed military personnel assigned to duty at military posts, bases, or stations within the state for services rendered by said personnel while on active duty are not considered to be from Massachusetts sources.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 5A(c)

Vermont: For any taxable year, the Vermont income of a resident individual is the federal AGI of the individual for that taxable year less military pay for full-time active duty with the armed services earned outside Vermont and less the first $2,000 of military pay for unit training in Vermont to National Guard and United States Reserve personnel that have certified that all of his or her unit training was completed during the calendar year and who have a federal AGI of less than $50,000.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5823(a)(2)

**16. New Research and Development Facilities:**

Statutory Reference: R.I. Gen. Laws § 44-32-1

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1974 / 1975

Description: A deduction for all expenditures paid or incurred for the construction, reconstruction, erection, or acquisition of any new tangible property that is depreciable under 26 U.S.C. § 167, was acquired by purchase as defined in 26 U.S.C. § 179(d), is located in the State, and is used in the taxpayer's trade or business for purposes of research and development in the experimental or laboratory sense shall be allowed against the portion of its entire net income allocated to Rhode Island during the taxable year. The deduction can be taken against the business corporation or personal income taxes and is in lieu of depreciation or an investment tax credit. The deduction is not refundable and may be carried over for up to three years.

Data Source: *Business Corporation Tax*: Rhode Island Division of Taxation and Office of Revenue Analysis (ORA) calculations. Amount of allowed deduction was summed and then multiplied by the business corporation tax rate of 7% for TY 2020 and TY 2021 to determine forgone revenue. The number of taxpayers includes those taxpayers with a deduction that decreased federal AGI.

*Personal Income Tax*: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal adjusted gross income (AGI). ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: *Business Corporation Tax*, *Personal Income Tax*, 1

Law Comparison: No similar provisions found in the other New England states.

## 17. Organ Transplantation:

Statutory Reference: R.I. Gen. Laws § 44-30-12(c)(7)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2009 / N/A

Description: An individual may subtract up to $10,000 from federal adjusted gross income (AGI) if he or she, while living, donates one or more of his or her human organs to another human being for human organ transplantation. An individual can claim this decreasing modification once and for unreimbursed expenses that are incurred by the claimant and related to the claimant's organ donation in travel expenses, lodging expenses and lost wages. This modification may be claimed by residents of Rhode Island only.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $4,024 | 48 |
| 2021 Personal Income Tax | $5,078 | 25 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $5,303 | 28 |
| 2023 Personal Income Tax | $5,303 | 28 |
| 2024 Personal Income Tax | $5,303 | 28 |
| 2025 Personal Income Tax | $5,303 | 28 |

Law Comparison: Connecticut and Massachusetts have similar provisions.

Connecticut: Taxpayers may subtract up to $10,000 from Connecticut AGI for certain expenses (lost wages, medical, travel and housing expenses) related to organ donation.

Connecticut Statute: Conn. Gen. Stat. § 12-701(B)(xxii)

Massachusetts: A deduction is allowed for any individual who donates an organ to another person for human organ transplantation. The individual may claim travel expenses, lodging expenses, and lost wages not to exceed $10,000 that are incurred by the individual and related to the individual's organ donation. This deduction is only available to Massachusetts residents.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 3(B)(a)(16)

**18. Performance-Based Income of Eligible Employees via the Jobs Growth Act:**

Statutory Reference: R.I. Gen. Laws § 42-64.11-4

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2005 / N/A

Description: An eligible employee of a certified company shall be allowed a modification decreasing adjusted gross income by up to 50% of the performance-based income (commonly known as bonuses) realized by the eligible employee prior to computing their personal income tax during any calendar year for which an eligible company is certified. A certified company must apply to the Rhode Island Commerce Corporation and employ 100 or more new workers and have new payroll of at least $10 million. In general, eligible employees make more than 125% of the state's average wage.

In any taxable year, a certified company or its affiliates pays a tax equal to 5% of the aggregate performance-based compensation paid to its eligible employees.

Data Source: Rhode Island Division of Taxation and Office of Revenue Analysis Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI. These results are subject to change as they may or may not have been verified by Taxation as of publication.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $1,039 | < 10 |
| 2021 Personal Income Tax | $5,593 | < 10 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers is the four-year average from TY 2018 – TY 2021 of revenue forgone and number of taxpayers. TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |

| 2025 Personal Income Tax | $4,618 | < 10 |

Law Comparison: No similar provisions found in the other New England states.

**19. Profits or Gains from Sales of Work by Artists, Writers, and Composers:**

Statutory Reference: R.I. Gen. Laws § 44-30-1.1(c)(1)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1996 / 2005

Description: An eligible individual is entitled to have the profits or gains arising from the publication, production, or sale of a work or works be taken as a modification reducing federal adjusted gross income (AGI) for the purposes of computing the personal income tax. The modification is available only to artists, writers and composers that reside within designated economic development zones in Providence, Pawtucket, Woonsocket, Warwick, East Providence, Westerly, or Warren or within Newport, Tiverton, Little Compton.

A work is defined in R.I. Gen. Laws § 44-30-1.1(a) as "an original and creative work whether written, composed, created or executed" that falls into one of the following categories: (1) a book or other writing; (2) a play or the performance of said play; (3) a musical composition or the performance of said composition; (4) a painting or other like picture; (5) a sculpture; (6) traditional and fine crafts; (7) the creation of a film or the acting of said film; or (8) the creation of a dance or the performance of said dance.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated

the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $13,652 | 79 |
| 2021 Personal Income Tax | $14,981 | 90 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. Forgone revenues for TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $15,092 | 93 |
| 2023 Personal Income Tax | $15,092 | 93 |
| 2024 Personal Income Tax | $15,092 | 93 |
| 2025 Personal Income Tax | $15,092 | 93 |

Law Comparison: No similar provisions found in the other New England states.

**20. Provision of Insurance Benefit to Dependent or Domestic Partner:**

Statutory Reference: R.I. Gen. Laws § 44-30-12(c)(6)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2006 / N/A

Description: Any amount of insurance benefits or other coverage plan paid for or provided to a dependent, including a domestic partner, that is included in adjusted gross income (AGI) for federal income tax purposes shall be taken as a modification reducing federal AGI prior to the computation of the personal income tax.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated

the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Revenue forgone is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $49,783 | 379 |
| 2021 Personal Income Tax | $50,217 | 302 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. Forgone revenues for TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $51,261 | 295 |
| 2023 Personal Income Tax | $51,261 | 295 |
| 2024 Personal Income Tax | $51,261 | 295 |
| 2025 Personal Income Tax | $51,261 | 295 |

Law Comparison: Massachusetts has a similar provision.

Massachusetts: If an employee participates in an employer-provided health insurance plan, any amount which would be included in gross income of the employee by reason of coverage under the plan of any person other than the employee, to the extent such coverage is mandated by law, may be deducted from federal AGI for purposes of calculating Massachusetts personal income tax.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(a)(2)(Q)

**21. Qualifying Investment in a Certified Venture Capital Partnership:**

Statutory Reference: R.I. Gen. Laws § 44-43-2(5)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1987 / N/A

Description: A modification reducing federal adjusted gross income (AGI) for making a qualifying investment in a certified venture capital partnership shall be allowed in the amount of the qualifying investment in the year in which the taxpayer first makes such an investment prior to computing the personal income tax. (A deduction against the business corporation tax, public service corporation tax, bank excise tax, and insurance company gross premiums tax is allowed and included in the *Deductions* section)

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal AGI. ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| 2021 Personal Income Tax | $208,471 | 264 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. Forgone revenues for TY 2023 – TY 2025 are set equal to TY 2022.

| ***Calendar Year / Tax Type*** | ***Projected Revenue Forgone*** | ***Projected Number of Taxpayers*** |
|---|---|---|
| 2022 Personal Income Tax | $210,585 | 261 |
| 2023 Personal Income Tax | $210,585 | 261 |
| 2024 Personal Income Tax | $210,585 | 261 |
| 2025 Personal Income Tax | $210,585 | 261 |

Law Comparison: While every state is subject to federal law, Connecticut, Maine, Massachusetts, and Vermont have explicit provisions in their statutes.

Connecticut: In computing Connecticut AGI, there shall be subtracted from federal AGI, to the extent properly includable in gross income for federal income tax purpose, any tier 1 railroad retirement benefits.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(20)(B)(iv)

Maine: In determining income subject to the Maine personal income tax, federal AGI is reduced by railroad retirement benefits paid by the United States to the extent included in federal AGI.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5122(2)(C)

Massachusetts: Massachusetts provides a deduction for Social Security benefits included in federal AGI under § 86 of the Internal Revenue Code. The term Social Security benefits in § 86 includes Tier 1 railroad retirement benefits.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(a)(2)(H)

Vermont: Vermont's provisions exclude Tier I and II railroad retirement benefits from the calculation of the personal income tax.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 5811(21)(B)(iv)

**23. Rental Vehicle Surcharge Retained by Rental Car Companies:**

Statutory Reference: R.I. Gen. Laws § 31-34.1-2(b)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1994 / 2014

Description: The rental vehicle surcharge rate is 8% of gross receipts per vehicle on all rentals for each of the first 30 consecutive days. Of the revenue collected from the imposition of the rental vehicle surcharge, 60% is retained by the rental car company and 40% of the surcharge is remitted to the state for deposit in the Rhode Island highway maintenance account. The 60% of retained revenue is used by the rental car companies to reimburse themselves for motor vehicle licensing fees, title fees, registration fees and transfer fees paid to the state and excise taxes paid to municipalities. If that 60% of retained revenue exceeds those fees and taxes, the companies remit that balance to the state for deposit in the Rhode Island highway maintenance account.

Data Source: Excise Tax Section, Rhode Island Division of Taxation

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Rental Vehicle Surcharge | $4,778,672 | 64 |
| 2021 Rental Vehicle Surcharge | $3,510,364 | 51 |
| 2022 Rental Vehicle Surcharge | $5,878,876 | 66 |
| 2023 Rental Vehicle Surcharge | $1,866,196 | 65 |

Projection Methodology: The number of taxpayers and projected revenue forgone projected for FY 2024 is the 3-year average number of taxpayers and revenue forgone from FY 2021 – FY 2023. FY 2025 is held constant with FY 2024.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Rental Vehicle Surcharge | $3,751,812 | 61 |
| 2025 Rental Vehicle Surcharge | $3,751,812 | 61 |

Law Comparison: Connecticut and New Hampshire have similar provisions.

Connecticut: The rental surcharge is equal to 3% of the total rental charge and is included in the sales tax base. It applies only if the rental company owns a fleet of at least five passenger motor vehicles used for rentals, and the vehicle is leased for less than 31 days. The total surcharge collected is retained by the rental company up to the amount of personal property tax paid to any Connecticut municipality as well as any registration and titling fees paid during the year to the DMV on the vehicles. Any excess is remitted to the state.

Connecticut Statute: Conn. Gen. Stat. § 12-692(b)

New Hampshire: New Hampshire assess an 8.5% tax on motor vehicle rentals. Operators are permitted to take a commission equal to 3% if they keep the prescribed records, file the return timely, pay the tax due timely, and follow the appropriate method of filing.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78-A:7(III)

**24. Rhode Island Fiduciary Adjustment:**

Statutory Reference: R.I. Gen. Laws § 44-30-12(d)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1971 / 2002

Description: The taxpayer's share, as beneficiary of an estate or trust, of the Rhode Island fiduciary adjustment determined under R.I. Gen. Laws § 44-30-17 shall be taken as a modification either decreasing or increasing federal adjusted gross income (AGI) as the case may be prior to the computation of the personal income tax liability.

The Rhode Island fiduciary adjustment is the net amount of the personal income tax modifications provided for in R.I. Gen. Laws § 44-30-12 exclusive of subdivisions (b)(4), (c)(3), and (c)(4), which relate to items of income or deduction of an estate or trust. This includes the modification for the Rhode Island fiduciary adjustment, subdivision (d) of R.I. Gen. Laws § 44-30-17, if the estate or trust is a beneficiary of another estate or trust. The respective shares of an estate or trust and its beneficiaries, including solely for the purpose of this allocation, non-resident beneficiaries,

in the fiduciary adjustment are in proportion to their respective share of federal distributable net income of the estate or trust.

Data Source: Office of Revenue Analysis (ORA) calculations. Modifications include adjustments that either increase or decrease federal AGI. For TY 2020, the total net modification by resident and non-resident taxpayers increased federal AGI; therefore, there is no revenue forgone from this modification. For TY 2021, the total net modification by resident and non-resident taxpayers decreased federal AGI and the revenue forgone is reported. The number of taxpayers includes those resident and non-resident taxpayers with a modification that either increased or decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $0 | 1,604 |
| 2021 Personal Income Tax | $352,236 | 1,272 |

Projection Methodology: TY 2022 projected amount of forgone revenue is the 5-year average reported for TYs 2017- 2021. TY 2022 number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. Forgone revenues and number of taxpayers for TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $70,447 | 1,253 |
| 2023 Personal Income Tax | $70,447 | 1,253 |
| 2024 Personal Income Tax | $70,447 | 1,253 |
| 2025 Personal Income Tax | $70,447 | 1,253 |

Law Comparison: Connecticut, Maine, and Massachusetts have similar provisions.

Connecticut: With respect to a person who is the beneficiary of a trust or estate, there shall be added or subtracted from federal AGI such person's share, as determined under § 12-714, in the Connecticut fiduciary adjustment.

Connecticut Statute: Conn. Gen. Stat. § 12-701(a)(20)(C)

Maine: There shall be added to or subtracted from federal AGI the taxpayer's share of the fiduciary adjustment determined under § 5164, Computation of Taxable Income of Resident Estates and Trusts.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5122(3)

Massachusetts: Massachusetts gross income includes modification for the income received from any trustee or other fiduciary, which income is taxable under the personal income tax to the trustee or other fiduciary.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(a)(2)(C)

**25. Tax Incentives for Employers:**

Statutory Reference: R.I. Gen. Laws § 44-55-4.1

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1997 / N/A

Description: Businesses that employ and retain in the State employees who have been previously unemployed for at least 26 consecutive calendar weeks and have been employed for at least 52 consecutive calendar weeks shall receive a modification from the income, gross earnings, deposits, or gross premiums subject to the personal income tax. The modification is equal to 40% of the eligible employee's first year wages, up to a maximum $2,400 per eligible employee. (Eligible businesses receive a deduction from the income, gross earnings, deposits, or gross premiums subject to the business corporation tax, public service corporation tax, bank excise tax, bank deposits tax, and insurance company gross premiums tax.)

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal adjusted gross income (AGI). ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $51,716 | 20 |
| 2021 Personal Income Tax | $12,264 | 24 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. Forgone revenues for TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $18,986 | 26 |
| 2023 Personal Income Tax | $18,986 | 26 |
| 2024 Personal Income Tax | $18,986 | 26 |
| 2025 Personal Income Tax | $18,986 | 26 |

Law Comparison: No similar provisions found in the other New England states.

**26. Taxable Military Service Pension Income:**

Statutory Reference: R.I. Gen. Laws § 44-30-12(c)(11) / R.I. Pub. Laws 2022, Ch. 231, Article 6, § 9

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2022 / N/A

Description: A modification reducing federal adjusted gross income (AGI) for taxable military service benefits included in federal AGI is beginning on or after January 1, 2023. The modification, alone or in combination with the taxable pension and annuities modification, may not exceed the amount of the military service pension received in the tax year for which the modification is claimed.

Projection Methodology: Estimates were prepared by ORA at the request of the Senate Fiscal Office during the 2022 session. ORA utilized information reported by the United States Department of Defense, Office of the Actuary on total military retirees and military survivors living in Rhode Island during federal fiscal year 2020. The number of taxpayers is the estimated Rhode Island residents and does not include any non-residents that may take the modification.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2023 Personal Income Tax | $6,147,815 | 3,594 |
| 2024 Personal Income Tax | $6,449,650 | 3,594 |
| 2025 Personal Income Tax | $6,739,867 | 3,594 |

Law Comparison: Connecticut, Maine, and Massachusetts have similar provisions.

Connecticut: To the extent properly includable in gross income for federal income tax purposes, any income received from the United States government as retirement pay for a retired member of

the Armed Forces or the National Guard is deducted from federal AGI for Connecticut personal income tax purposes.

Connecticut Statute: Conn. Gen. Stat. § 12-701(20)(B)(xvii)

Maine: Benefits received under a military retirement plan, including survivor benefits are fully exempt from Maine income tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5122(2)(M-2)

Massachusetts: Massachusetts personal income tax provisions include a modification reducing federal AGI for income from any contributory annuity, pension, endowment, or retirement fund of the United States government, Massachusetts, or any political subdivision thereof, including the optional retirement system established by § 40 of Chapter 15A to which the employee has contributed or any income received from the United States government as retirement pay for a retired member of the Uniformed Services of the United States, including survivorship benefits.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(a)(2)(E)

Vermont: Taxpayers with U.S. military retirement income may subtract the first $10,000 of income. The federal AGI threshold for eligible filers is $50,000 for single, married filing separately and head of household filers which a phase-out for incomes greater than $50,000 but less than $60,000.

**27. Taxable Pension Plan and/or Annuity Income:**

Statutory Reference: R.I. Gen. Laws § 44-30-12(c)(9)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2016 / 2022

Description: A modification reducing federal adjusted gross income (AGI) for up to $15,000 of taxable pension and/or annuity income included in federal AGI is allowed for individual filers with federal AGI of $80,000 or less and joint filers with federal AGI of $100,000 or less who also have reached "full retirement age" based on Social Security Administration rules for tax years beginning on or after January 1, 2017. For tax years beginning in 2023, a modification up to $20,000 is allowed. The federal AGI dollar amounts will be adjusted for inflation on a going-forward basis. For the tax year beginning on January 1, 2020, the federal AGI thresholds increased to $84,700 and $105,850, respectively. For the tax year beginning on January 1, 2021, the federal AGI thresholds increased to $87,200 and $109,050, respectively.

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal adjusted gross income (AGI). ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each

taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $13,984,777 | 48,153 |
| 2021 Personal Income Tax | $13,961,295 | 34,737 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017 - TY 2021 to TY 2021. Projected number of taxpayers for TY 2023 – TY 2025 are set equal to TY 2022. Beginning in 2023, the modification is set to increase to $20,000. ORA took the projected amount of forgone revenue in TY 2022 and added estimates that were prepared by ORA at the request of the Senate Fiscal Office during the 2022 session estimating the projected increase in revenue forgone for this modification due to the increase of the allowed modification.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $14,515,147 | 34,338 |
| 2023 Personal Income Tax | $17,645,712 | 34,338 |
| 2024 Personal Income Tax | $17,799,411 | 34,338 |
| 2025 Personal Income Tax | $17,947,194 | 34,338 |

Law Comparison: Connecticut, Maine, and Massachusetts have similar provisions.

Connecticut: Connecticut has an exemption for pension and annuity income for filers below a certain threshold. The threshold is $75,000 for single, married filing separately and head of household filers, and $100,000 for joint filers. This exemption was phased in and was 28% of pension and annuity income for TY 2020 and 42% for TY 2021. The phase-in was accelerated in the 2022 Session to 100% of pension and annuity income for TY 2022 and thereafter. Beginning in tax year 2024, Connecticut increased the income threshold limits to $100,000 for single, married people filing separately, and heads of households and $150,000 for joint filers. However, for those taxpayers whose income exceeds the current eligibility thresholds the amount of pension, annuity, and IRA income taxpayers may deduct is gradually reduced by a set phase-in percentage table.

Connecticut has an additional exemption for taxable income received from the state teachers' retirement system. To the extent includable in federal AGI, for TY 2020, 25% of the income received from the state teachers' retirement system, and for TY 2021 and each tax year thereafter,

50% of the income received from the state teachers' retirement system is deducted from federal AGI in determining Connecticut AGI subject to the personal income tax.

Connecticut Statute: Conn. Gen. Stat. § 12-701(20)(B)(xx), (xxi)

Maine: For each individual who is a primary recipient of pension benefits under an employee retirement plan, federal AGI is reduced by an amount that is the lesser of: (1) the individual maximum amount, reduced by the individual's Social Security and railroad retirement benefits paid by the United States, but not less than $0 or (2) the aggregate of retirement plan benefits under employee retirement plans and taxable distributions from individual retirement accounts included in the individual's federal AGI. The individual maximum deduction is $10,000 in tax year 2021; $25,000 for tax years beginning in 2022; $30,000 for tax years beginning in 2023; and $35,000 for tax years beginning on or after January 1, 2024.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5122(2)(M-2)

Massachusetts: Massachusetts personal income tax provisions include a modification reducing federal AGI for income from annuity, stock bonus, pension, profit-sharing, annuity or deferred-payment plans, contracts described in §§ 403(b) and 404 of the Code or for individual retirement accounts (IRAs), individual retirement annuities, or retirement bonds described in §§ 408 and 409 of the Code. This modification does not apply to income from the optional retirement system established by Mass. Gen. Laws, ch. 15A, § 40.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(a)(2)(F)

Vermont: Taxpayers with income from the Civil Service Retirement System or from a contributory annuity, pension, endowment, or retirement system of the U.S. government, the state of Vermont or another state or a political subdivision of the U.S., Vermont or other states may subtract the first $10,000 of income. The federal AGI threshold for eligible filers is $50,000 for single, married filing separately and head of household filers with a phase-out for incomes greater than $50,000 but less than $60,000, and an eligible income threshold of $65,000 for joint filers with a modification phase-out for incomes greater than $65,000 and less than $75,000. A taxpayer is allowed only one modification for all types of retirement income per year.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 5830e

**28. Taxable Social Security Income:**

Statutory Reference: R.I. Gen. Laws § 44-30-12(c)(8)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2015 / N/A

Description: A modification reducing federal adjusted gross income (AGI) of taxable Social Security income included in federal AGI is allowed for individual filers with federal AGI of

$80,000 or less and joint filers with federal AGI of $100,000 or less who also have reached "full retirement age" based on Social Security Administration rules. The federal AGI dollar amounts are annually adjusted for inflation and are listed below:

| *Tax Year* | *Single/Head of Household* | *Married Filing Separately* | *Married Filing Jointly/Qualifying Widow(er)* |
|---|---|---|---|
| 2020 | $86,350 | $86,375 | $107,950 |
| 2021 | $88,950 | $88,975 | $111,200 |
| 2022 | $95,800 | $95,800 | $199,750 |
| 2023 | $101,000 | $101,025 | $126,250 |

Data Source: Division of Taxation and Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model. Modification includes adjustments that decreased federal adjusted gross income (AGI). ORA calculated the Rhode Island tax liability for each taxpayer under TY 2020 and TY 2021 Rhode Island personal income tax laws and the Rhode Island tax liability for each taxpayer without the modification for the same tax years, then summed the results for both calculations across all taxpayers. Forgone revenue is determined by taking the difference between the two tax liability calculations. The number of taxpayers includes those resident and non-resident taxpayers with a modification that decreased federal AGI.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $23,093,416 | 52,965 |
| 2021 Personal Income Tax | $23,809,356 | 42,914 |

Projection Methodology: TY 2022 projected amount of forgone revenue and number of taxpayers was calculated by applying the average annual growth realized from TY 2017- TY 2021 to TY 2021. Forgone revenues for TY 2023 – TY 2025 are set equal to TY 2022.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $25,661,238 | 44,033 |
| 2023 Personal Income Tax | $25,661,238 | 44,033 |
| 2024 Personal Income Tax | $25,661,238 | 44,033 |
| 2025 Personal Income Tax | $25,661,238 | 44,033 |

Law Comparison: Connecticut, Maine, Massachusetts, and Vermont have similar provisions.

Connecticut: There is a modification from federal AGI for an amount equal to the Social Security benefits for single filers and married individuals filing separately whose federal AGI for such taxable year is less than $75,000, and for married individuals filing jointly and heads of households whose federal AGI for such taxable year is less than $100,000. Taxpayers with AGIs equal to or greater than these thresholds qualify for a partial exemption through which no more than 25% of their total Social Security benefits received is subject to tax.

Connecticut Statute: Conn. Gen. Stat. § 12-701(20)(B)(x)

Maine: Federal AGI is reduced by Social Security benefits and railroad retirement benefits paid by the United States for Maine income tax purposes, to the extent these benefits are included in federal AGI.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5122(2)(C)

Massachusetts: Social Security benefits includable in federal AGI may be subtracted from federal AGI for the calculation of Massachusetts personal income tax.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 2(a)(2)(H)

Vermont: Social Security beneficiaries meeting certain income requirements can claim an exemption for the taxable portion of their Social Security benefits. For single, married filing separately, head of household, and qualifying widow(er) filers, taxpayers with a federal AGI of less than $50,000 may exclude all of their federally taxable Social Security benefits while taxpayers with a federal AGI between $50,000 and $60,000 maybe exclude some portion of the federally taxable Social Security. For married filing jointly filers, the maximum federal AGI is $75,000, with a phaseout range of $65,000 to $75,000. A taxpayer is allowed only one modification for all types of retirement income per year.

Vermont Statute: Vt. Stat. Ann. tit. 32, §§ 5811(21)(B)(iv), 5830e

# OTHER ITEMS

## 1. Allocation and Apportionment of Airlines:

Statutory Reference: R.I. Gen. Laws § 44-11-15 / R.I. Code of Regulations 280-20-25-9.11(C)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2004 / 2015

Description: According to the Rhode Island Code of Regulations (RICR) 280-20-25-9, Apportionment of Net Income, Part 9.11 specifies that certain categories of taxpayers are eligible to apportion income according to modified formulas. Airlines are specifically listed as a type of taxpayer eligible for a special apportionment formula. Passenger revenue and freight revenue are allocated to Rhode Island based on the ratio of departures of flight aircraft, by type, from locations in Rhode Island compared to departures everywhere, multiplied by total passenger revenue everywhere to determine the share of net income attributable to Rhode Island for an airline. All other receipts attributable to Rhode Island are included in the numerator. The apportioned net income is then subject to the tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Massachusetts, and New Hampshire have similar provisions.

Connecticut: Connecticut's tax on air carriers allocated to Connecticut by the average of the following three ratios (a) The ratio aircraft arrivals and departures within Connecticut by such air carrier during the income year to total aircraft arrivals and departures by carrier on its entire system during the same periodnonscheduled operations; (b) the ratio revenue tons handled by such air carrier at airports within Connecticut during the income year to the total revenue tons handled by carrier at all airports on its entire system during the same period; (c) the ratio air carrier's originating revenue within Connecticut for the income year to the total originating revenue of such carrier from its entire system for the same period. If the formula provided subjects a taxpayer to a portion of taxes larger or smaller than is reasonably attributable to Connecticut, then the provisions of Conn. Gen. Stat. 12-221a shall apply.

Connecticut Statute: Conn. Gen. Stat. § 12-244

Massachusetts: Airlines use a modified three-factor apportionment percentage formula in Massachusetts. The numerator of the property factor is the sum of the average value of the real and tangible personal property of the airline, other than aircraft ready for flight, situated in Massachusetts and the average value of the aircraft ready for flight owned or rented and used by the airline in Massachusetts. The denominator of the property factor is the average value of all of the airline's real and tangible personal property owned, rented, or leased, and used during the taxable year. The numerator of the payroll factor is the sum of the compensation paid in

Massachusetts to non-flight personnel during the taxable year. The denominator of the payroll factor is the total compensation paid by the airline during the taxable year. The sales factor is a fraction whose numerator is total sales of the taxpayer in Massachusetts during the taxable year and whose denominator is total sales of the taxpayer everywhere during the taxable year. In general, a taxpayer's total sales are its gross receipts.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 38(j), Mass. Regulations 830 CMR 63.38.2: Apportionment of Income of Airlines

New Hampshire: New Hampshire uses a three-factor apportionment formula based on payroll, property, and a double-weighted sales factor for the calculation of the business profits tax. Airlines use a modified version of this apportionment formula. The property factor is the sum of average New Hampshire mobile property and non-mobile property divided by the sum of average mobile property everywhere. The payroll factor is the sum of New Hampshire mobile payroll divided by the sum of mobile payroll everywhere. The sales factor is the sum of New Hampshire transportation sales divided by the sum of transportation sales everywhere.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:3, II(a); NH Admin Rules Rev 304.07

**2. Allocation and Apportionment of Brokerage Services:**

Statutory Reference: R.I. Gen. Laws § 44-11-14.2(b) / R.I. Code of Regulations 280-20-25-9.11(D)(2)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1995 / N/A

Description: Any taxpayer located in Rhode Island that provides securities brokerage services may choose to allocate its net income as follows: all net income derived directly or indirectly from the sale of security brokerage services shall be apportioned to Rhode Island only to the extent that securities brokerage customers are domiciled in Rhode Island. The apportionment factor is defined as the ratio of the brokerage commissions and total margin interest paid on accounts owned by Rhode Island domiciled customers to the brokerage commissions and total margin interest paid on accounts owned by all of the taxpayer's customers. The apportioned net income is then subject to the tax. If the taxpayer chooses to use this apportionment method, then the taxpayer must use this apportionment method for the five succeeding tax years after the tax year of election.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Each taxpayer that provides securities brokerage service apportions its net income derived, directly or indirectly, from rendering securities brokerage services as follows: the numerator of the apportionment fraction consists of the brokerage commissions and total margin interest paid on behalf of brokerage accounts owned by the taxpayer's customers who are domiciled in Connecticut during such taxpayer's income year, computed according to the method of accounting used in the computation of net income. The denominator of the apportionment fraction consists of brokerage commissions and total margin interest paid on behalf of brokerage accounts owned by all of the taxpayer's customers domiciled during such taxpayer's income year, computed according to the method of accounting used in the computation of net income.

Connecticut Statute: Conn. Gen. Stat. §§ 12-218(f)

**3. Allocation and Apportionment of Credit Card Banks:**

Statutory Reference: R.I. Gen. Laws § 44-11-14.3 / R.I. Code of Regulations 280-20-25-9.11(E)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1996 / N/A

Description: Any banking institution whose business activities are taxable within and outside of Rhode Island and whose activities are limited to those described in § 2(c)(2)(F) of the federal Bank Holding Company Act (12 U.S.C. § 1841(c)(2)(F)) may choose to allocate its net income based on a special apportionment formula. All net income derived directly or indirectly from the banking institution shall be apportioned to Rhode Island only to the extent that the banking institution's customers are domiciled in Rhode Island. The apportionment factor is defined as the ratio of the income derived from accounts owned by customers domiciled in Rhode Island to the income derived from accounts owned by all of the banking institution's customers. The apportioned net income is then subject to the tax. If the taxpayer chooses to use this apportionment method, then the taxpayer must use this apportionment method for the five succeeding tax years after the tax year of election.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut and New Hampshire have similar provisions.

Connecticut: Any financial service company that has net income derived from credit card activities apportions its net income derived from credit card activities using a special formula. The numerator of the apportionment fraction is Connecticut receipts. The denominator of the apportionment fraction consists of the total amount of interest and fees or penalties in the nature of interest from credit card receivables; receipts from fees charged to all card holders, including, but not limited

to, annual fees; net gains from the sale of credit card receivables for all card holders; and all credit card issuer's reimbursement fees.

Connecticut receipts are the sum of interest and fees or penalties in the nature of interest from credit card receivables and receipts from fees charged to card holders, including, but not limited to, annual fees, for card holders in Connecticut and the product of the sum of net gains from the sale of credit card receivables and all credit card issuer's reimbursement fees multiplied by a fraction. The numerator of this fraction is interest and fees or penalties in the nature of interest from credit card receivables and receipts from fees charged to card holders, including, but not limited to, annual fees, from card holders in Connecticut, and the denominator is the total amount of interest and fees or penalties in the nature of interest from credit card receivables and receipts from fees charged to card holders, including, but not limited to, annual fees, for all card holders. Income derived by such taxpayer from sources other than credit card activities are apportioned using Connecticut's standard apportionment formula.

Connecticut Statute: Conn. Gen. Stat. § 12-218(i)

New Hampshire: New Hampshire uses a three-factor apportionment formula based on payroll, property, and a double-weighted sales factor for the calculation of the business profits tax. Financial institutions, including credit card companies, use a modified version of this apportionment formula. The property factor shall be the sum of the value of the real and tangible property and the intangible property components. The real and tangible property component shall be calculated using the standard formula for all businesses. The intangible property component shall include the average value of the business organization's loans and credit card receivables and be determined to be located in New Hampshire when it is properly assigned to a regular place of business within New Hampshire based upon the preponderance of substantive contacts relating to the loans having occurred in New Hampshire. The payroll factor is calculated in the same as the standard apportionment formula for New Hampshire, which is the total compensation consisting of wages, salaries, commissions and other forms of renumeration paid during the taxable period to employees for personal services, excluding benefits. The sales factor is a fraction with the numerator being the sum of the receipts from the lease, sublease, rental or sub-rental of real property located in New Hampshire and the lease or rental of tangible personal property, other than transportation equipment, located in New Hampshire when it is first placed in service by the lessee owned by the business organization in New Hampshire during the taxable year and the denominator being the receipts of the business organization within and without New Hampshire during the taxable period.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:3, II(a); NH Admin Rules Rev 304.10

**4. Allocation and Apportionment of Motor Carriers:**

Statutory Reference: R.I. Gen. Laws § 44-11-15 / R.I. Code of Regulations 280-20-25-9.11(B)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2004 / 2015

Description: According to the Rhode Island Code of Regulations (RICR) 280-20-25-9.11 Apportionment of Net Income, only certain, specified categories of taxpayers are eligible to apportion income according to modified formulas. Motor carriers are specifically listed as a type of taxpayer eligible for a special apportionment formula.

For tax years beginning on or after January 1, 2015, to arrive at a determination of the share of net income attributable to Rhode Island the motor carrier's net income is multiplied by the motor carrier's apportionment percentage. The apportionment percentage is a ratio of the motor carrier's total Rhode Island sales and the motor carrier's total worldwide sales. A motor carrier's Rhode Island sales consist of the average of the inbound/outbound Rhode Island receipts plus all other receipts attributable to Rhode Island.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Massachusetts, New Hampshire have similar provisions.

Connecticut: Any motor carrier which transports property for hire and which is taxable both within and without Connecticut apportions its net income derived from carrying of property for hire using an apportionment fraction, the numerator of which is the total number of miles operated within Connecticut and the denominator of which is the total number of miles operated everywhere. Income derived by motor carriers from sources other than the carrying of property for hire use Connecticut's standard apportionment formula to calculate the net income attributable to the state.

Connecticut Statute: Conn. Gen. Stat. § 12-218(d)

Massachusetts: Motor carrier companies use a modified three-factor apportionment percentage formula in Massachusetts. The numerator of the property factor is the sum of the value of the real and tangible personal property of the motor carrier, other than mobile property, situated in Massachusetts and the value of the mobile property owned, rented, or leased and used by the motor carrier in Massachusetts. The denominator of the property factor is the average value of all the motor carrier's real and tangible personal property owned, rented, or leased, and used during the taxable year. The value of the mobile property owned, rented, or leased, and used by the motor carrier in Massachusetts is the total value of the motor carrier's mobile property, multiplied by the percentage of miles traveled by the motor carrier's mobile property in Massachusetts.

The numerator of the payroll factor is the sum of the compensation paid in Massachusetts to personnel other than operating personnel and the compensation paid in Massachusetts to operating personnel. The compensation paid in Massachusetts to operating personnel is computed by multiplying the motor carrier's total payroll for operating personnel by the percentage of miles traveled by the motor carrier's mobile property in Massachusetts. The denominator of the payroll factor is the total compensation paid by the motor carrier during the taxable year.

The sales factor is calculated in the same manner as that of the standard Massachusetts apportionment formula and is a fraction whose numerator is total sales of the taxpayer in Massachusetts during the taxable year and whose denominator is total sales of the taxpayer everywhere during the taxable year. In general, a taxpayer's total sales are its gross receipts.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 38(j), Mass. Regulations 830 CMR 63.38.3: Apportionment of Income of Motor Carriers

New Hampshire: New Hampshire uses a three-factor apportionment formula based on payroll, property, and a double-weighted sales factor for the calculation of the business profits tax. Transportation industries other than airlines, communication, and energy companies use a modified version of this apportionment formula. The property factor's components shall be calculated utilizing the following provisions: the property factor is the sum of average New Hampshire mobile property and average New Hampshire non-mobile property, divided by the sum of average mobile property everywhere and average non-mobile property everywhere. The payroll factor is the sum of New Hampshire mobile payroll and New Hampshire non-mobile payroll divided by the sum of mobile payroll everywhere and non-mobile payroll everywhere. The sales factor is the sum of New Hampshire transportation income and New Hampshire non-transportation income divided by the sum of transportation income everywhere and non-transportation income everywhere.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 77-A:3, II(a); NH Admin Rules Rev 304.07

**5. Allocation and Apportionment of Regulated Investment Companies:**

Statutory Reference: R.I. Gen. Laws § 44-11-14.2(a) / R.I. Code of Regulations 280-20-25-9.11(D)(1)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1995 / N/A

Description: Any taxpayer located in Rhode Island that sells management, distribution or administration services to or on behalf of a regulated investment company, as defined by federal law, may choose to allocate its net income as follows: all net income derived directly or indirectly from the sale of management, distribution, or administration services to or on behalf of regulated investment companies, including net income received directly or indirectly from trustees, and sponsors or participants of employee benefit plans that have accounts in a regulated investment company, shall be apportioned to Rhode Island only to the extent that shareholders of the regulated investment company are domiciled in Rhode Island. The apportionment factor is defined as the ratio of the taxpayer's Rhode Island receipts from the services it provides to the taxpayer's receipts everywhere from the services it provides. Rhode Island receipts are determined by multiplying total receipts for the taxable year from each separate regulated investment company for which the services are performed by a fraction: the numerator being the average of the number of shares owned by the regulated investment company's shareholders domiciled in this state at the beginning

of and at the end of the company's taxable year and the denominator being the average of the number of the shares owned by the regulated investment company's shareholders everywhere at the beginning and the end of the company's taxable year.

The apportioned net income is then subject to the tax. If the taxpayer chooses to use this apportionment method, then the taxpayer must use this apportionment method for the five succeeding tax years after the tax year of election.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut and Massachusetts have similar provisions.

Connecticut: Each taxpayer that provides management, distribution or administrative services to or on behalf of a regulated investment company apportions by a fraction its net income derived directly or indirectly from providing management, distribution, or administrative services to or on behalf of a regulated investment company, including net income received directly or indirectly from trustees and sponsors or participants of employee benefit plans which have accounts in a regulated investment company. The numerator of the apportionment fraction is the sum of Connecticut receipts from the sale of management, distribution or administrative services to or on behalf of all the regulated investment companies, while the denominator of the apportionment fraction is total receipts from the sale of management, distribution or administrative services to or on behalf of all the regulated investment companies.

Connecticut receipts are determined by multiplying receipts from the rendering of management, distribution or administrative services to or on behalf of each separate regulated investment company by a fraction. The numerator of this fraction is the average of the number of shares on the first day of such regulated investment company's taxable year that are owned by shareholders of such regulated investment company domiciled in Connecticut and the number of shares on the last day of such regulated investment company's taxable year that are owned by shareholders of such regulated investment company domiciled in Connecticut. The denominator of this fraction is the average of the number of shares that are owned by shareholders of such regulated investment company on such dates.

Connecticut Statute: Conn. Gen. Stat. § 12-218(e)

Maine: Maine has a special apportionment formula for mutual fund service providers. A mutual fund service provider may elect to apportion its net income as follows: net income is multiplied by a fraction, the numerator of which is the Maine receipts during the taxable year and the denominator of which is the total receipts everywhere for the same taxable year. Maine receipts from the direct or indirect provision of management, distribution or administration services to or on behalf of a regulated investment company or from trustees, sponsors and participants of employee benefit plans that have accounts in a regulated investment company are determined by

multiplying total receipts for the taxable year from each separate regulated investment company for which the mutual fund service provider performs management, distribution or administration services by a fraction. The numerator of the fraction is the average of the number of shares owned by the regulated investment company's shareholders domiciled in Maine at the beginning of and at the end of the regulated investment company's taxable year, and the denominator of the fraction is the average of the number of the shares owned by the regulated investment company's shareholders everywhere at the beginning of and at the end of the regulated investment company's taxable year. If the taxpayer chooses to use this apportionment method, then the taxpayer must use this apportionment method for the five succeeding tax years after the tax year of election.

*This special apportionment was repealed in the Maine 2019 legislative session.*

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 5212(2), ME Pub. Law Ch. 401, Pt. C, § 10

Massachusetts: A mutual fund service corporation is defined as any corporation doing business in Massachusetts that derives more than 50% of its gross income from directly or indirectly providing management, distribution, or administration services to or on behalf of a regulated investment company and from trustees, sponsors and participants of employee benefit plans that have accounts in a regulated investment company. Any mutual fund service corporation whose employment level in the current taxable year is equal to or greater than its jobs commitment level for a taxable year or any mutual fund service corporation for which the jobs commitment level requirement no longer applies apportions its net income by multiplying it by 100% of the sales factor. A mutual fund service corporation that fails to achieve its jobs commitment level may still use 100% of the sales factor in apportioning net income if the failure to achieve the jobs commitment level for any taxable year is demonstrated by the mutual fund service corporation to be a direct result of adverse economic conditions in that taxable year.

Any taxable net income received by mutual fund sales that is not derived from mutual fund sales must be apportioned using the standard Massachusetts three-factor apportionment. A mutual fund service corporation that has taxable net income from mutual fund sales as well as taxable net income from non-mutual fund sales in the same tax year will have two income apportionment percentages for that year. If a mutual fund service corporation is subject to the non-income measure of the corporate excise tax, the mutual fund service corporation must use a weighted average of the two apportionment percentages to calculate the non-income measure of its excise due for that tax year. To determine the weighted average percentage, a mutual fund service corporation must calculate the ratio of its taxable net income from mutual fund sales to its taxable net income from non-mutual fund sales.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 38(m), 830 CMR 63.38.7 Apportionment of Income of Mutual Fund Service Corporations

### 6. Allocation and Apportionment of Retirement and Pension Plans:

Statutory Reference: R.I. Gen. Laws § 44-11-14.4 / Rhode Island Code of Regulations 280-20-25-9.11(F)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1996 / N/A

Description: Any taxpayer located in Rhode Island that sells management, distribution, or administration services, including without limitations, transfer agent, fund accounting, custody and other similar related services to or on behalf of an employee retirement or pension plan may choose to apportion to Rhode Island all net income derived directly and indirectly from the sale of the management, distribution, or administration services to or on behalf of a retirement or pension plan to the extent that the beneficiaries or participants of a retirement or pension plan are domiciled in Rhode Island. The apportionment factor is defined as the ratio of Rhode Island receipts from the services to the total receipts everywhere from the services for the same taxable year. Rhode Island receipts are determined by multiplying total taxable year receipts from a retirement or pension plan for which the services are performed by a fraction, the numerator of which is the average of the number of total beneficiaries or participants of each retirement or pension plan domiciled in Rhode Island at the beginning of and at the end of the taxable year of the taxpayer and the denominator of which is the average of the number of total beneficiaries or participants of the retirement or pension plan located everywhere at the beginning of and at the end of the taxable year of the taxpayer. The apportioned net income is then subject to the tax. If the taxpayer chooses to use this apportionment method, then the taxpayer must use this apportionment method for the five succeeding tax years after the tax year of election.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Connecticut uses a special apportionment formula for financial service companies, including those that provide management, distribution and administrative services performed on behalf of a pension fund or retirement account. The numerator of the receipts factor includes receipts received for management, distribution and administrative services performed on behalf of a pension fund or retirement account equal to the product of such receipts for the income year multiplied by a fraction, the numerator of which is the average of the number of participants with an interest in the pension fund or retirement account on the first day of the pension fund or retirement account taxable year and whose billing address is in Connecticut and the number of participants with an interest in the pension fund or retirement account on the last day of the pension fund or retirement account taxable year and whose billing address is in Connecticut.

The denominator of the fraction is the total number of participants with an interest in the pension fund or retirement account on such dates. In lieu of using the billing addresses of the participants with an interest in the pension fund or retirement account, the taxpayer may elect to determine receipts based upon the average of the fair market value of funds under management in each taxable year allocated to the commercial domicile of the sponsor of the pension fund or retirement

account and, where there is no sponsor for a particular pension fund or retirement account, the billing address of the participant. The election, if made by the taxpayer must be used five successive years and shall be applicable to all receipts from the rendering of management, distribution or administrative services performed for any pension fund or retirement account.

Connecticut Statute: Conn. Gen. Stat. § 12-218b(j)(2)

# PREFERENTIAL TAX RATES

## 1. Jobs Development Act:

Statutory Reference: R.I. Gen. Laws § 42-64.5-3 / R.I. Gen. Laws § 44-48.3-12

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1994 / 2015

Description: The rate of tax payable by an eligible company, or each of its eligible subsidiaries, on its net income taxed under the business corporation tax, bank excise tax, and insurance company gross premiums tax or on its gross earnings taxed the public service corporation tax shall be reduced by the amount specified in the Jobs Development Act (R.I. Gen. Laws § 42-64.5-4). The amount of rate reduction for any eligible company that is not a telecommunications company shall be based on the aggregate amounts of new units of employment for each taxable year over the base employment. A unit of employment consists of 10 new full-time equivalent employees for companies with base employment levels of 100 or fewer full-time employees or 50 new full-time equivalent employees for companies with base employment of more than 100 full-time employees.

Under the original terms of the Jobs Development Act, a qualifying company received a 0.25 percentage point reduction in the statutory tax rate for each unit of employment added up to a maximum reduction of six percentage points. These parameters applied to all tax types other than the tax on the gross earnings of public service corporations for which the maximum tax rate reduction is one percentage point. Following the implementation of mandatory combined reporting for business corporation tax filers, which included a reduction of the business corporation tax rate from 9% to 7% effective January 1, 2015, the amount of the JDA tax rate reduction for business corporation taxpayers was adjusted from 0.25 to 0.2 percentage points per unit of employment and the maximum reduction adjusted from six to four percentage points. (Bank excise tax filers retain the original reduction schedule because the bank excise tax remains 9%.)
Any eligible company that fails to maintain for any taxable year the number of units of new employment it reported for its 1997 tax year or the third taxable year following the base employment period election set forth in R.I. Gen. Laws § 42-64.5-5, as applicable, the rate reduction provided shall expire permanently.

Effective July 1, 2015, the Jobs Development Act tax rate reduction was discontinued unless a company had qualified for the tax rate reduction prior to July 1, 2015.

Data Source: Rhode Island Division of Taxation

Reliability Index: 1 (This preferential tax rate includes the Life Sciences Rate Reduction preferential tax rate to the extent that preferential tax rate has been used by any taxpayers).

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |

| **2025 Projected Total** | **$19,096,953** | **6** |

Law Comparison: No similar provisions found in the other New England states.

**2. Life Science Rate Reduction:**

Statutory Reference: R.I. Gen. Laws §§ 42-64.14-10 and 42-64.14-11

Stated Purpose: The purpose of the I-195 Redevelopment Act of 2011 is to create a state-local-private sector partnership to plan, implement, administer, and oversee the redevelopment of the surplus I-195 properties and to authorize, provide for, and facilitate the consolidated exercise of development and redevelopment powers existing at the state and local levels. There is no stated purpose provided in the statute for life sciences rate reduction included in the I-195 Redevelopment Act.

Year Enacted / Last Year Amended: 2011 / 2014

Description: The rate of tax for an eligible life science company and each of its subsidiaries applicable against its net income subject to taxation under the business corporation tax is reduced by the amount specified in R.I. Gen. Laws § 42-64.14-11. The amount of rate reduction is based on the aggregate amount of new employment for each taxable year over the base employment and is equal to 0.2 percentage points for each unit of new employment. The total amount of the rate reduction cannot exceed four percentage points for any taxable year. Should any eligible company fail to maintain the number of units of new employment it reported above its base employment, the rate reduction will expire permanently.

Data Source: No reliable data exists for this tax expenditure item. (*This preferential tax rate is included in the Jobs Development Act preferential tax rate to the extent that preferential tax rate has been used by any taxpayers.)

Reliability Index: 5

Projection Methodology: * Projections for this modification / deduction are included in the Jobs Development Act preferential tax rate.

Law Comparison: Massachusetts has a similar provision.

Massachusetts: A taxpayer, to the extent authorized by the life sciences tax incentive program, may be allowed a refundable jobs credit against the Massachusetts corporate income tax in an amount determined by the Massachusetts Life Sciences Center in consultation with the Massachusetts Department of Revenue. A taxpayer taking said credit shall commit to the creation of a minimum of 50 net new permanent full-time positions in Massachusetts. The amount of the jobs credit issued that exceeds the taxpayer's liability under the Massachusetts corporate income tax shall be refunded to the taxpayer at a rate of 90% of the amount of excess credit. The Department of Revenue shall issue the refundable portion of the jobs credit in accordance with the cumulative amount, including the current year costs of incentives allowed in previous years, which shall not exceed $30.0 million annually.

Massachusetts Statute: Mass. Gen. Laws ch. 63, § 38CC

# TAX ABATEMENTS

## 1. Child Tax Rebate:

Statutory Reference: R.I. Gen. Laws § 44-30-103 / R.I. Pub. Laws 2022, Ch. 231, Article 6, § 10

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2022 / N/A

Description: A one-time child tax rebate of $250 per child 18 years and younger, up to a maximum of three children, was distributed to qualifying Rhode Island resident taxpayers based on the taxpayer's TY 2021 Rhode Island personal income tax return. The federal adjusted gross income of each taxpayer must be below the income threshold of $100,000 for single, head of household, married filing separately, and qualifying widow(er) filers or $200,000 for joint filers. Child Tax Rebate payments were not considered taxable income for the purposes of state and federal personal income tax for tax year 2022.

Data Source: Rhode Island Division of Taxation.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $1,869,469 | 18 |

Law Comparison: Only Connecticut has a similar provision.

Connecticut: Connecticut authorized a child tax rebate of up to a maximum of $750 ($250 per child up to three children) in CY 2022 for Connecticut residents who claimed at least one a dependent of 18 years or younger on their TY 2021 federal income tax return and meet the income threshold requirements. The income threshold is $100,000 for single or married filing separate filers, $160,000 for head of household filers, or $200,000 for joint or qualifying widow(er) filers.

Connecticut Statute: Public Act No. 22-118, Section 411

## 2. Cigarette Tax Stamping Discount:

Statutory Reference: R.I. Gen. Laws § 44-20-19

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1939 / 2007

Description: Cigarette distributors have a right to purchase cigarette excise tax stamps at a discount from the stamp's face value. The cigarette distributor pays to the Tax Administrator 98.75% of the face value of the cigarette excise tax stamps that are purchased. This yields a discount of 1.25% for the distributor. This equates to a savings of $0.053125 against the cigarette

excise tax of $4.25 per pack of 20 cigarettes. Distributors may also be allowed to pay for the cigarette excise tax stamps purchased up to 30 days after the actual receipt of the tax stamps.

Data Source: Excise Tax Section, Rhode Island Division of Taxation. The number of taxpayers is set to the number of Rhode Island registered cigarette distributors for that fiscal year.

Reliability Index: 1

| *Fiscal Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Cigarette Tax | $1,621,163 | 18 |
| 2021 Cigarette Tax | $1,869,469 | 18 |
| 2022 Cigarette Tax | $1,715,513 | 22 |
| 2023 Cigarette Tax | $1,548,169 | 20 |

Projection Methodology: FY 2024 revenue forgone was calculated by applying the growth projected for cigarettes from FY 2023 preliminary revenues to FY 2024 projected revenues for cigarettes of -6.0%. FY 2025 is grown based on the growth rate of -8.5% calculated using the projected revenue amounts for cigarettes for FY 2025. Projected revenues were based on the revenue estimates adopted at the November 2023 Revenue Estimating Conference. The projected number of taxpayers is equal to the Rhode Island registered cigarette distributors published for FY 2023.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Cigarette Tax | $1,455,901 | 20 |
| 2025 Cigarette Tax | $1,331,871 | 20 |

Law Comparison: All of the New England states have similar provisions.

Connecticut: Connecticut's provisions include a discount of 1% of the face value of the cigarette excise tax stamps if purchased by a distributor. This equates to a savings of $0.0435 against the Connecticut cigarette excise tax of $4.35 per pack of 20 cigarettes. No discount applies if the cigarette excise tax stamps are purchased by a dealer. The Commissioner of Revenue may permit a licensed distributor or licensed dealer to pay for such stamps within 30 days after the date of purchase, provided a bond or other security satisfactory to the Commissioner in an amount not less than the sale price of such stamps has been filed with the Commissioner conditioned upon payment for such stamps.

Connecticut Statute: Conn. Gen. Stat. § 12-298

Maine: Maine's provisions include a discount rate of 1.15% for stamps, or a savings of $0.023 against the Maine cigarette excise tax of $2.00 per pack of 20 cigarettes. The State Tax Assessor

may permit a licensed distributor to pay for the stamps within 30 days after the date of purchase, if a bond satisfactory to the assessor in an amount not less than 50% of the sale price of the stamps has been filed with the assessor conditioned upon payment for the stamps.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, ch. 703, § 4366-A(2)(D)

Massachusetts: A stamper may withhold and retain from each payment for cigarette excise tax stamps as compensation for service rendered in stamping packs of cigarettes the following amounts: for encrypted stamps purchased and not returned for an abatement, $12 per roll of 1,200 stamps ($0.01 per excise stamp); in each fiscal year, $600 per roll of 30,000 encrypted stamps for the first 50 rolls purchased ($0.02 per excise stamp) and $200 per each additional roll of 30,000 encrypted stamps purchased ($0.0067 additional excise stamp); and in the case of non-encrypted adhesive stamps purchased and not returned for an abatement, $1.85 for each 600 stamps purchased ($0.003083 per excise stamp) and a proportionate amount for any fraction thereof. No such compensation shall be allowed on any sale of less than $100. The commissioner, in his discretion, may, permit a stamper to pay for such stamps within 30 days after the date of purchase; provided that the stamper furnishes a bond.

Massachusetts Statute: Mass. Gen. Laws ch. 64C, § 30

New Hampshire: New Hampshire does not provide a discount to stampers, however, the Commissioner of Revenue may permit a licensed wholesaler to pay for cigarette excise tax stamps within 30 days after the date of purchase, provided a bond satisfactory to the Commissioner in an amount not less than the sale price of such stamps shall have been filed with the Commissioner, conditioned upon the payment of such stamps.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78:10, II

Vermont: Cigarette excise tax stamps are sold to licensed wholesale dealers at a discount of 2.3% of their face value for payment at time of sale. This equates to a savings of $0.07084 against the Connecticut cigarette excise tax of $3.08 per pack of 20 cigarettes. At the purchaser's request, the Commissioner of Taxes may sell cigarette excise tax stamps to licensed wholesale dealers for payment within 10 days at a discount of 1.5% of their face value if timely paid (i.e., $0.0462 per pack of 20 cigarettes).

Vermont Statute: Vt. Stat. Ann. tit. 32, § 7772

### 3. Political Check-Off:

Statutory Reference: R.I. Gen. Laws § 44-30-2(d)(1)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1971 / 1997

Description: There is allowed as a credit against the personal income tax a contribution of $5.00, or $10.00 if married filing a joint return, for the public financing of the electoral system. The first $2.00, $4.00 if married filing a joint return, goes to a political party or a non-partisan account if indicated by the taxpayer up to a maximum of $200,000 in total for all political parties and the non-partisan account. The remainder of the credit is general revenue to the State.

Data Source: Division of Taxation, Office of Revenue Analysis (ORA) Personal Income Tax Simulation Model.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Personal Income Tax | $84,635 | 12,329 |
| 2021 Personal Income Tax | $80,770 | 11,734 |

Political Party Contributions:

| *POLITICAL PARTY* | *2020 CONTRIBUTIONS* | *2021 CONTRIBUTIONS* |
|---|---|---|
| Democratic Party | $11,436 | $10,444 |
| Green Party | $14 | $16 |
| Moderate Party | $532 | $440 |
| Non-Partisan | $5,014 | $4,814 |
| Republican Party | $2,202 | $2,308 |

Projection Methodology: Projected revenue forgone for TY 2022 - TY 2025 is the average of TY 2020 and TY 2021 revenue forgone. The projected number of taxpayers electing for TY 2022 - TY 2025 is the average TY 2020 and TY 2021 number of taxpayers.

| *Calendar Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2022 Personal Income Tax | $82,703 | 12,032 |
| 2023 Personal Income Tax | $82,703 | 12,032 |
| 2024 Personal Income Tax | $82,703 | 12,032 |
| 2025 Personal Income Tax | $82,703 | 12,032 |

Law Comparison: Maine and Massachusetts have similar provisions.

Maine: Resident taxpayers may designate on the income tax form that $3, or $6 if filing a joint return, of their taxes be deposited in the Maine Clean Election Fund.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, ch. 831, § 5286

Massachusetts: Massachusetts provides for a $1.00 credit for a resident individual filer and a $2.00 credit for a resident jointly filed return against the Massachusetts individual income tax to be paid over to the State Election Campaign Fund.

Massachusetts Statute: Mass. Gen. Laws ch. 62, § 6C

**4. Temporary Relief from Gross Earnings Tax on Electricity and Gas:**

Statutory Reference: R.I. Gen. § 44-13-37 / R.I. Pub. Laws 2023, Ch. 79, Art. 4, § 2

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 2023 / N/A

Description: For the months of December 2023 through March 2024, electric and natural gas utility companies will not be allowed to charge the public service corporation tax but are still required to pay the amount of tax to the state. These utility companies may apply to the Division of Taxation for a rebate payment for the amount of public service corporation tax that would otherwise have been charged to customers for the given months.

Projection Methodology: Estimates were prepared by ORA at the request of the Senate Fiscal Office during the 2022 session. Number of taxpayers includes the estimate of residential and commercial gas customers, assuming the same customers also have electricity. Estimate does not include electricity only customers.

| *Fiscal Year / Tax Type* | *Projected Revenue Forgone* | *Projected Number of Taxpayers* |
|---|---|---|
| 2024 Public Service Corporation Tax | $35,639,477 | 272,719 |

Law Comparison: Maine has a similar provision.

Maine: Resident qualified taxpayers were sent a one-time $450 Winter Energy Relief Payment between January – March 2023 with the goal of providing relief from increased energy costs. Based on TY 2021 tax returns, eligible residents had federal AGI of less than $100,000 if single or married separate, or $200,000 if filing jointly.

Maine Statute: Maine 131st Legislature, Session Laws Chapter 1

## 5. Value of Farmland Included in Estate:

Statutory Reference: R.I. Gen. Laws § 44-23-5(b)

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1916 / 2013

Description: All farmland included as part of an estate and utilized by the executor, administrator, heir-at-law, beneficiary, or trustee as farmland is appraised at its use value and not at fair market value for purposes of calculating the estate and transfer tax.

Data Source: No reliable data exists for this tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: Connecticut, Massachusetts, and Vermont have similar provisions.

Connecticut: In determining the tax due, the value of any farmland transferred by a donor by gift to a donee who is a lineal descendant or spouse of the donor is determined based upon its current use without regard to neighborhood land use of a more intensive nature. This present value shall be deemed by assessors and boards of assessment appeals to be the fair market value and not its value at an auction sale.

Connecticut Statute: Conn. Gen. Stat. §12-646a

Maine: When determining value for an estate or property that is included in an estate for purposes of calculating the Maine estate tax, the value is as determined by the assessor in accordance with the Internal Revenue Code, which under § 2032A allows an alternative method for valuing certain real property used as a farm to reflect the (lower) value of the property in its current use.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, ch. 577, § 4102

Massachusetts: For decedents who died prior to January 1, 2019, if the gross estate of a decedent includes real property devoted to use as a farm for farming purposes, the estate may elect to value such property in accordance with § 2032A of the Internal Revenue Code, which allows for an alternative method for valuing certain real property used as a farm to reflect the (lower) value of the property in its current use.

If the gross estate of a decedent dying on or after January 1, 2019 includes real property that is qualifying agricultural land, associated land, or qualifying noncommitted land, the estate may elect to value such property, or any portion thereof, as closely held agricultural land pursuant to the valuation set by the Farmland Valuation Advisory Commission for the fiscal year of the most

recent growing season. The value of closely held agricultural land as determined for such election is only for computing the Massachusetts estate tax.

Massachusetts Statute: Mass. Gen. Laws ch. 65C, § 5(c), (d)(2)

Vermont: For Vermont estate tax purposes, all values are determined for federal estate tax purposes. Section 2032A of the IRC allows an alternative method for valuing certain real property used as a farm to reflect the (lower) value of the property in its current use.

Vermont Statute: Vt. Stat. Ann. Title 32, § 7442a

# TAX DEFERRALS

## 1. Holding Period for Unstamped Cigarettes:

Statutory Reference: R.I. Gen. Laws § 44-20-14

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1948 / 2007

Description: Any consumer possessing any cigarettes with respect to the storage or use of which is subject to the tax on unstamped cigarettes imposed by R.I. Gen. Laws § 44-20-13 must, within 24 hours after coming into possession of the cigarettes in Rhode Island, file a return with the State. The return must be accompanied by a payment for the amount of tax due.

Data Source: No reliable data exists for this tax expenditure item. The nature of the tax expenditure item is such that the tax deferral is for a very short duration, 24 hours, and thus realistically no revenue is forgone from the tax expenditure item provided that consumers comply with the law.

Reliability Index: 1

| *Calendar Year / Tax Type* | *Revenue Forgone* | *Number of Taxpayers* |
|---|---|---|
| 2020 Cigarette Tax | $0 | *Unknown* |
| 2021 Cigarette Tax | $0 | *Unknown* |

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: All of the New England states have similar provisions.

Connecticut: Connecticut allows a 24-hour holding period before unstamped cigarettes must have tax stamps affixed by dealers.

Connecticut Statute: Conn. Gen. Stat. § 12-303

Maine: Any person, who is not a licensed distributor, who imports, receives or otherwise acquires more than two cartons in any one month of unstamped cigarettes for use or consumption in Maine must file a return, on or before the last day of the month following the month in which unstamped cigarettes were acquired, together with payment of the tax.

Maine Statute: Me. Rev. Stat. Ann. tit. 36, § 4384

Massachusetts: Stamps must be affixed to every cigarette package no later than 72 hours after receipt of the cigarettes.

Massachusetts Statute: Mass Gen. Laws ch. 64C, §30

New Hampshire: Wholesalers shall affix the stamps before it transfers possession of the cigarettes or little cigars to a retailer in this state within 90 days.

New Hampshire Statute: N.H. Rev. Stat. Ann. § 78:11

Vermont: Vermont allows a 24-hour holding period before unstamped cigarettes must have tax stamps affixed by retailers.

Vermont Statute: Vt. Stat. Ann. tit. 32, § 7775

**2. Write-Downs or Reserves for Security Losses:**

Statutory Reference: R.I. Gen. Laws § 44-14-14

Stated Purpose: No stated purpose given in law.

Year Enacted / Last Year Amended: 1942 / 1956

Description: A financial institution that is subject to the bank excise tax may elect to treat the amount of the write down of the value of any of its securities or the establishment of reserves for the decrease in values of its securities that have been required by regulators with supervisory authority over the financial institution as deductions in the year in which such write downs or reserves are recorded on its books. The write-downs or reserves specifically allocated to any security shall be used to adjust the basis of the security and the adjusted basis shall be used in determining gains or losses when the security is sold or disposed.

Data Source: No reliable data exists for tax expenditure item.

Reliability Index: 5

Projection Methodology: No projection is made due to lack of reliable data.

Law Comparison: No similar provisions found in the other New England states.

# IX. Recommendations for Improving the Report

The Tax Expenditures Report's effectiveness as a tax policy tool is dependent on the report users' background, knowledge of state tax law, and ability to understand the process by which estimates have been derived by the Office of Revenue Analysis (ORA). Although 39.4% of the tax expenditure items for which reliable data existed in TY 2021 were assigned a reliability level index of 1, meaning the source of the derived estimate was actual tax returns, ideally 100% of the derived estimates for tax expenditure items for which reliable data exists should have as a source the actual tax return from which the estimate is derived.

The primary tax type for which actual tax return data does not exist, and thus estimates of forgone revenue must be derived via less reliable methods, is the sales and use tax. Given that the sales and use tax is the second largest source of state general revenue and that it also is the tax type for which the greatest amount of forgone revenue was estimated at $1,555,651,099 in FY 2021, ORA finds that the quality and quantity of data collected for the sales and use tax needs to be improved for there to be an increase in the reliability of the forgone revenue estimates for the sales and use tax. To this end, the Division of Taxation now requires, starting on January 1, 2023, larger business registrants to file taxes electronically. The ability to analyze these electronic tax returns, including by industry sector, should improve sales and use tax data going forward.

In addition, the quantity and quality of data for the business corporation tax is lacking. The business corporation tax, commonly referred to as the corporate income tax, is the tax type with the fourth largest amount of estimated forgone revenue due to tax expenditure items at $106,677,554 in TY 2021 but has one of the largest percentages of tax expenditures items at 44.0% for which no reliable data exists from which to derive estimates of forgone revenue. This compares to 15.8% of tax expenditure items for which no reliable data exists for the personal income tax and 29.9% for the sales and use tax. ORA finds that the quality and quantity of data collected for the business corporation tax needs to be improved for there to be an increase in the reliability of the forgone revenue estimates for the business corporation tax. Unfortunately, most of the data that would improve the reporting of business corporation tax expenditure items is not reported on the taxpayers' tax returns, and the crux of the issue in this regard is that these are calculations that are done at the firm level before arriving at taxable income, which is where the Rhode Island return begins.

To this end, ORA is recommending updating the report's interpretation of tax expenditure. Under current law, a tax expenditure is defined as any tax credit, deduction, exemption, exclusion, credit preferential tax rate, tax abatement, and tax deferral that provides preferential treatment to selected taxpayers, whether directly through Rhode Island general laws or constitutional provisions or indirectly through adoption of other tax codes. Other states' tax expenditures reports, such as Connecticut and Minnesota, include criteria that a tax expenditure provision must meet before a tax expenditure item is included in the tax expenditures report. In preparing their respective tax expenditure reports, these states do not include every exemption, deduction, credit, or lower tax rate. A provision must meet all the criteria in order to be a tax expenditure. Such criteria include: if a provision has an impact on a tax that is applied statewide; confers preferential treatment; results in reduced tax revenue in the applicable fiscal years; is not included as an expenditure item in the state budget; is included in the defined tax base for that tax; is not subject to an alternative tax; and

can be amended or repealed by a change in state law. In addition, some states do not generate an estimate of a tax expenditure if it falls below a de minimis threshold.

Of interest to the ORA in this recommendation is the criteria of whether the provision is an exception to the tax base. The exclusion of certain income is currently reported in the *2024 Tax Expenditures Report*, however, ORA is recommending removing such items from the report. For example, currently included in the report, is an exclusion set forth in R.I. Gen. Laws § 44-43-5 that excludes any long-term gains from capital investments in small businesses from the determination of income that is subject to the tax imposed by the business corporation tax, public service corporation tax, bank excise tax, and the personal income tax. This type of income is excluded from taxable income and not reported on taxpayers' returns but instead is calculated at the firm level before arriving at taxable income.

Finally, the criteria regarding provisions subject to more than one tax would be useful in eliminating some expenditure items where no estimate can be derived nor expected to be calculated. In some instances, one tax may be imposed in place of another tax, and it would not be reasonable for a taxpayer or activity to be subject to both taxes. The exemption from one tax type when another is imposed is currently reported in the *2024 Tax Expenditures Report*, however ORA is recommending removing these items from the report. For example, currently included in the report, is an exclusion set forth in R.I. Gen. Laws § 44-11-1(4)(ii) for public service corporations from the business corporation tax imposed by R.I. Gen. Laws Chapter 44-11. These taxpayers are excluded from paying under the business corporation tax and required to pay under another tax type, the public service corporation tax. It is not clear if this exclusion is a tax expenditure if the inclusion generates more revenue than the exclusion precludes.

6637/8585

# Appendix A: Current Statute on Tax Expenditure Reporting

## TITLE 44
## Taxation
### CHAPTER 44-48.1
### Tax Expenditure Reporting

### R.I. Gen. Laws § 44-48.1-1

**§ 44-48.1-1 Tax expenditure reporting.**

(a) On or before the second Tuesday in January of each even numbered year beginning in 2004, the chief of the office of revenue analysis, shall deliver a tax expenditure report to the general assembly. Each report will provide the minimum information for one hundred percent (100%) of tax expenditures in effect on January 1 of the calendar year preceding the report's publication.

(b) For the purposes of this section, a "tax expenditure" is any tax credit, deduction, exemption, exclusion, credit preferential tax rate, tax abatement, and tax deferral that provides preferential treatment to selected taxpayers, whether directly through Rhode Island general laws or constitutional provisions or indirectly through adoption of other tax codes.

(c) The information included for each tax expenditure shall include, but shall not be limited to:

(1) The legal reference of the expenditures, including information whether the expenditure is required as a result of federal or state constitutional, judicial, or statutory mandate.

(2) Amount of revenues forgone or an estimate, if the actual amount cannot be determined, for the calendar year immediately preceding the publication of the report. The report shall also include an estimate of revenue forgone for the calendar year in which the report is published and the year following the report's publication. The tax administrator shall develop an index of the reliability of each estimate using five (5) levels with level one being most reliable. Where actual tax returns are the source of the estimate, the estimate should be assigned reliability level one. Where no reliable data exists for the estimate, the estimate should be assigned reliability level five (5). The reliability level shall be reported for the estimate of the revenues forgone.

(3) To the extent allowable by law, identification of the beneficiaries of the exemption by number, income, class and industry.

(4) A comparison of the tax expenditure to the tax systems of the other New England states, with emphasis on Massachusetts and Connecticut.

(5) The data source(s) and analysis methodology.

(6) To the extent allowable by law, identification of similar taxpayers or industries that do not enjoy the exemption.

(d) Each report shall include a section containing recommendations for improving the effectiveness of the report as a tax policy tool. This section shall identify the resources required to implement these recommendations and shall also contain an estimate of the costs associated with such recommendations.

(e) On or before the second Tuesday in January 2004, the chief of the office of revenue analysis shall make available to the general assembly a plan to improve Rhode Island's tax expenditure reporting effort. The plan shall include measurable criteria to evaluate improvements in the reliability of tax expenditure item estimates and the identification of beneficiaries of each tax expenditure item by number, income, class and industry. The plan shall also include cost estimates of additional resources necessary to implement the plan, and may include any other information that the tax administrator deems appropriate for inclusion in said plan.

History of Section.
(P.L. 1996, ch. 327, § 1; P.L. 1996, ch. 394, § 1; P.L. 1997, ch. 30, art. 38, § 1; P.L. 2003, ch. 142, § 1; P.L. 2003, ch. 146, § 1; P.L. 2006, ch. 246, art. 38, § 16.)

# Appendix B: Current Statute on Tax Incentives Evaluation

## TITLE 44
## Taxation
### CHAPTER 44-48.2
### Rhode Island Economic Development Tax Incentives Evaluation Act of 2013

**R.I. Gen. Laws § 44-48.2-1**

**§ 44-48.2-1 Short title. –** This chapter shall be known and may be cited as the "Economic Development Tax Incentives Evaluation Act of 2013."

History of Section.
(P.L. 2013, ch. 155, § 5; P.L. 2013, ch. 209, § 5.)

**R.I. Gen. Laws § 44-48.2-2**

**§ 44-48.2-2 Legislative findings and purpose. –** The general assembly finds and declares that:

(1) The state of Rhode Island relies on a number of tax incentives, including credits, exemptions, and deductions, to encourage businesses to locate, hire employees, expand, invest, and/or remain in the state;

(2) These various tax incentives are intended as a tool for economic development, promoting new jobs and business growth in Rhode Island;

(3) The state needs a systematic approach for evaluating whether incentives are fulfilling their intended purposes in a cost-effective manner;

(4) In order to improve state government's effectiveness in serving the residents of this state, the legislature finds it necessary to provide for the systematic and comprehensive analysis of economic development tax incentives and for those analyses to be incorporated into the budget and policymaking processes.

History of Section.
(P.L. 2013, ch. 155, § 5; P.L. 2013, ch. 209, § 5; P.L. 2014, ch. 528, § 65.)

**R.I. Gen. Laws § 44-48.2-3**

**§ 44-48.2-3 Economic development tax incentive defined. –** (a) As used in this section, the term "economic development tax incentive" shall include:

(1) Those tax credits, deductions, exemptions, exclusions, and other preferential tax benefits associated with §§ 42-64.3-6, 42-64.3-7, 42-64.5-3, 42-64.6-4, 42-64.11-4, 44-30-1.1, 44-31-1, 44-31-1.1, 44-31-2, 44-31.2-5, 44-32-1, 44-32-2, 44-32-3, 44-39.1-1, 44-43-2, 44-

43-3, and 44-63-2, and chapters 64.20, 64.21, 64.26, 64.30 of title 42 and chapter 48.3 of title 44;

(2) Any future incentives enacted after the effective date of this section for the purpose of recruitment or retention of businesses in the state of Rhode Island.

(b) In determining whether a future tax incentive is enacted for "the purpose of recruitment or retention of businesses", the office of revenue analysis shall consider legislative intent, including legislative statements of purpose and goals, and may also consider whether the tax incentive is promoted as a business incentive by the state's economic development agency or other relevant state agency.

History of Section.
(P.L. 2013, ch. 155, § 5; P.L. 2013, ch. 209, § 5; P.L. 2014, ch. 528, § 65; P.L. 2015, ch. 141, art. 19, § 14.)

**R.I. Gen. Laws § 44-48.2-4**

**§ 44-48.2-4 Economic Development Tax Incentive Evaluations, Schedule. –** (a) In accordance with the following schedule, the tax expenditure report produced by the chief of the office of revenue analysis pursuant to § 44-48.1-1 shall include an additional analysis component, consistent with § 44-48.2-5 and produced in consultation with the chief executive officer of the commerce corporation, the director of the office of management and budget, and the director of the department of labor and training:

(1) Analyses of economic development tax incentives as listed in subdivision 44-48.2-3(1) shall be completed at least once between July 1, 2014, and June 30, 2017, and no less than once every three (3) years thereafter;

(2) Analyses of any economic development tax incentives created after July 1, 2013, shall be completed within five (5) years of taking effect and no less than once every three (3) years thereafter;

(b) No later than the tenth (10th) of January each year, beginning in 2014, the office of revenue analysis will submit to the chairs of the senate and house finance committees a three-year (3) plan for evaluating economic development tax incentives.

History of Section.
(P.L. 2013, ch. 155, § 5; P.L. 2013, ch. 209, § 5; P.L. 2014, ch. 528, § 65.)

**R.I. Gen. Laws § 44-48.2-5**

**§ 44-48.2-5 Economic Development Tax Incentive Evaluations, Analysis. –** (a) The additional analysis as required by § 44-48.2-4 shall include, but not be limited to:

(1) A baseline assessment of the tax incentive, including, if applicable, the number of aggregate jobs associated with the taxpayers receiving such tax incentive and the aggregate annual revenue that such taxpayers generate for the state through the direct taxes applied to them and through taxes applied to their employees;

(2) The statutory and programmatic goals and intent of the tax incentive, if said goals and intentions are included in the incentive's enabling statute or legislation;

(3) The number of taxpayers granted the tax incentive during the previous twelve-month (12) period;

(4) The value of the tax incentive granted, and ultimately claimed, listed by the North American Industrial Classification System (NAICS) Code associated with the taxpayers receiving such benefit, if such NAICS Code is available;

(5) An assessment and five-year (5) projection of the potential impact on the state's revenue stream from carry forwards allowed under such tax incentive;

(6) An estimate of the economic impact of the tax incentive including, but not limited to:

(i) A cost-benefit comparison of the revenue foregone by allowing the tax incentive compared to tax revenue generated by the taxpayer receiving the credit, including direct taxes applied to them and taxes applied to their employees; and

(ii) An estimate of the number of jobs that were the direct result of the incentive;

(7) The estimated cost to the state to administer the tax incentive if such information is available;

(8) An estimate of the extent to which benefits of the tax incentive remained in state or flowed outside the state, if such information is available;

(9) In the case of economic development tax incentives where measuring the economic impact is significantly limited due to data constraints, whether any changes in statute would facilitate data collection in a way that would allow for better analysis;

(10) Whether the effectiveness of the tax incentive could be determined more definitively if the general assembly were to clarify or modify the tax incentive's goals and intended purpose;

(11) A recommendation as to whether the tax incentive should be continued, modified, or terminated; the basis for such recommendation; and the expected impact of such recommendation on the state's economy;

(12) The methodology and assumptions used in carrying out the assessments, projections and analyses required pursuant to subdivisions (1) through (8) of this section.

(b) All departments, offices, boards, and agencies of the state shall cooperate with the chief of the office of revenue analysis and shall provide to the office of revenue analysis any records, information (documentary and otherwise), data, and data analysis as may be necessary to complete the report required pursuant to this section.

History of Section.
(P.L. 2013, ch. 155, § 5; P.L. 2013, ch. 209, § 5; P.L. 2014, ch. 528, § 65. P.L. 2023, ch. 294, § 7, effective June 22, 2023; P.L. 2023, ch. 295, § 7, effective June 22, 2023.)

**R.I. Gen. Laws § 44-48.2-6**

**§ 44-48.2-6 Consideration by the governor. –** The governor's budget submission as required under chapter 35-3 shall identify each economic development tax incentive for which an evaluation was completed in accordance with this chapter in the period since the governor's previous budget submission. For each evaluated tax incentive, the governor's budget submission shall include a recommendation as to whether the tax incentive should be continued, modified, or terminated.

History of Section.
(P.L. 2013, ch. 155, § 5; P.L. 2013, ch. 209, § 5.)

# Appendix C: Defunct Tax Expenditure Items Found in Rhode Island Law

Due to various law changes, there are tax expenditure items found listed in the Rhode Island General Laws that are unable to be taken against one or more tax types. In the 2010 Session, the Rhode Island Legislature enacted a personal income tax reform that explicitly stated which credits may be used against the personal income tax. Credits not listed in Rhode Island General Laws Section 44-30-2.6(c)(2)(F) are not able to be taken. Credits that are no longer able to be taken against the personal income tax may still be able to be taken against another tax type. Additionally, in the 2014 Session, the legislature enacted a change to the business corporation tax requiring the use of combined reporting, single sales factor apportionment of net income, and market-based sourcing of sales for tax years beginning on or after January 1, 2015, which rendered several tax expenditure items associated with the business corporation tax moot. Also, in the 2014 Session, the legislature repealed the franchise tax (Rhode Island General Laws Chapter 44-12) for tax years beginning on or after January 1, 2015, which eliminated any tax expenditure item established against taxes imposed by the franchise tax. Finally, there are tax expenditure items that have been allowed to expire through a sunset provision or other enacted legislation. ORA has included a list of these items that were eliminated due to legislation enacted in or after the 2008 Session.

### *Disallowed Tax Expenditure Items*

The following is a list, by tax type, of various tax expenditure items that can no longer be used against the tax type cited. The Rhode Island General Laws citation is contained in the parentheses immediately following the tax expenditure item.

**Bank Tax:**

Credits:

- Specialized Mill Building Investment (§ 44-31-2)

**Business Corporation Tax:**

Credits:

- Specialized Mill Building Investment (§ 44-31-2)

Exclusions:

- Special Apportionment of U.S. Federal Drug Administration Facilities (§ 44-11-14.1)

Modifications:

- Domestic International Sales Corporations (DISCs) (§ 44-11-11(c))
- Foreign Sales Corporations (FSCs) (§ 44-11-11(d))

Other Items:

- Allocation and Apportionment of Manufacturers (§ 44-11-14.6)
- Allocation and Apportionment of Specialty Receipts (§ 44-11-15)

**Generation Skipping Transfer Tax**

Credits:

- Real or Personal Property Taxed in Another State (§ 44-40-3(b))

**Insurance Company Gross Premiums Tax**

Credits:

- Specialized Mill Building Investment (§ 44-31-2)

**Personal Income Tax:**

Credits:

- Adoption* (§ 44-30-2.6(c)(2)(L))
- Adult and Child Daycare (Chapter 44-47)
- Adult Education Credit (Chapter 44-46)
- Art Exhibition Credit (§ 44-30-24)
- Biotechnology Investment (§ 44-31-1.1)
- Elderly or Disabled* (§ 44-30-2.6(c)(2)(K))
- Employment – Welfare Bonus Program (Chapter 44-39.1)
- Empowerment Zone Employment Credit* (§ 44-30-2.6(c)(2)(K))
- Farm to School Income (§ 44-30-27)
- General Business* (§ 44-30-2.6(c)(2)(K))
- Historic Homeownership Assistance [10] (Chapter 44-33.1)
- Hydroelectric Power (§ 44-30-22)
- Interest for Loans to Mill Building Owners (§ 42-64.9-9)
- Investment Credit (§ 44-31-1)
- Juvenile Restitution (§ 14-1-32.1(c))
- Mortgage Interest Credit* (§ 44-30-2.6(c)(2)(K))
- Non-Resident Trust Beneficiary for Accumulating Distribution (§ 44-30-37)
- Prior Year Minimum Tax* (§ 44-33-5)
- Qualified Electric Vehicle Credit* (§ 44-30-2.6(c)(2)(K))
- Qualifying Widow(er) (§ 44-30-26)
- Research and Development Expense (§ 44-32-3)
- Research and Development Property (§ 44-32-2)
- Resident Trust Beneficiary for Accumulating Distribution (§ 44-30-19)
- Residential Renewable Energy System (§ 44-57-1)
- Specialized Mill Building Investment (Chapter 44-31-2)
- Wage credit – Tax Incentives for Capital Investment in Small Businesses (§ 44-43-3)

[10] No new credits may be issued under the Historic Homeownership Assistance Act. Please see Historic Homeownership Assistance in Section VIII: Credits for an explanation on the allowance of previously issued carryforwards.

- Wages Paid by Employers in Mill Buildings (§ 42-64.9-8)

* For tax years beginning on or before December 31, 2010, Rhode Island taxpayers were able to receive a Rhode Island credit of 25 percent of certain allowable federal credits.

Deductions:

- Amortization of Air or Water Pollution Control Facilities (§ 44-30-7)

Preferential Tax Rate:

- Alternative Personal Income Tax (§ 44-30-2.10)

**Sales and Use Tax:**

Exemptions

- Bibles (§ 44-18-30(29))
- Distressed Essential Community Hospital (§ 23-17.25-2) (as of July 1, 2019)

**Franchise Tax:**

The repeal of the franchise tax for tax years beginning on or after January 1, 2015, under Rhode Island Public Laws 2014, Chapter 145, Article 12, Section 20, eliminated any tax expenditure item established against taxes imposed by Rhode Island General Laws Chapter 44-12. The following is a list of tax expenditure items impacted by this law change, along with their statutory reference in parentheses:

Credits:

- Historic Preservation (Chapter 44-33.6)
- Historic Structures (Chapter 44-33.2)
- Incentives for Innovation and Growth (Chapter 44-63)
- Musical and Theatrical Production (Chapter 44-31.3)

Exclusions:

- Corporations Taxed Under the Business Corporation Tax (§ 44-12-1(b))

Exemptions:

- Hospitals and Other Specific Corporations (§ 44-12-11)

Modifications:

- Income from the Assignment or Transfer of Historic Preservation Tax Credits (§ 44-33.6-3(f))
- Income from the Assignment or Transfer of Historic Structures Tax Credits (§ 44-33.2-3(2))
- Income from the Assignment or Transfer of Motion Picture Production Tax Credits (§ 44-31.2-9(c))
- Income from the Assignment or Transfer of Musical and Theatrical Production Tax Credits (§ 44-31.3-2(b)(6))

### *Expired Tax Expenditure Items*

The following is a list, by tax type, of various tax expenditure items that have expired, along with the expiration date. It should be noted that some tax expenditure items may still be taken if the taxpayer was approved for the tax expenditure item prior to the expiration date. The Rhode Island General Laws citation is contained in the parentheses immediately following the tax expenditure item.

**Bank Tax:**

Credits:

- Interest for Loans to Mill Building Owners, August 8, 2009 (§42-64.9-9)

**Business Corporation Tax:**

Credits:

- Anchor Institution, December 31, 2018 (Chapter 42-64.30)
- Enterprise Zone Wage, June 30, 2015 (Chapter 42-64.3)
- Incentives for Innovation and Growth, December 31, 2016 (§ 44-63-2)
- Interest for Loans to Mill Building Owners, August 8, 2009 (§42-64.9-9)
- Jobs Training, December 31, 2017 (§ 42-64.6-4)
- Mill Building and Economic Revitalization Act, August 8, 2009 (Chapter 42-64.7)
- Taxes Paid to Foreign Governments, January 1, 2008 (§ 44-30-2.6)
- Wages Paid by Employers in Mill Buildings, August 8, 2009 (§42-64.9-8)

Exemptions:

- Rhode Island Economic Development Corporation (now the Rhode Island Commerce Corporation) Project Status Designees, June 30, 2011 (§ 42-64-20)

Other Items:

- Passive Investment Treatment, December 31, 2014 (§ 44-11-43)
- Returns of Affiliated Groups of Corporations, December 31, 2014 (§ 44-11-4)

Preferential Tax Rates

- Capital Gains as Ordinary Income, December 31, 2009 (§§ 44-30- 2.6, 44-30-2.7)

**Insurance Company Gross Premiums Tax**

Credits:

- Interest for Loans to Mill Building Owners, August 8, 2009 (§42-64.9-9)

Exclusions:

- Programs of Insurance Administered Under Title XIX of the Social Security Act, 42 U.S.C.

Exemptions:

- Nonprofit Dental Service Corporations, January 1, 2009 (§ 27-20.1-2(f))
- Premiums Received from Insurance for Medical Malpractice, January 1, 2011 (§ 42-14.1-1)

Preferential Tax Rates

- Nonprofit Hospital Service Corporations, Nonprofit Medical Service Corporations, Nonprofit Dental Corporations, and Health Maintenance Organizations, January 1, 2009 (§ 44-17-1)

**Public Service Corporation Tax:**

Credits:

- Interest for Loans to Mill Building Owners, August 8, 2009 (§42-64.9-9)

**Sales and Use Tax**

Exemptions

- Distressed Essential Community Hospital, June 30, 2019 (§ 23-17.25-2)
- Electricity, Steam and Thermal Energy from Rhode Island Economic Development Corporation (now the Rhode Island Commerce Corporation), central heating plant at Quonset Development Park was closed in 2002 (§ 44-18-40.1)
- Prewritten Computer Software Delivered Electronically, June 30, 2011 (§ 44-15-30(61))
- Rhode Island Economic Development Corporation Project Status Designees, June 30, 2011 (§ 42-64-20)

# TAX EXPENDITURE REPORT

## FY 2023-24 to FY 2025-26

Prepared Pursuant to

S.C. Code of Laws, Section 11-9-830(7)

South Carolina Revenue and Fiscal Affairs Office

January 21, 2025

## Introduction

Act 83 of 2019 requires the Revenue and Fiscal Affairs Office (RFA) to annually submit a tax expenditure report to the General Assembly of South Carolina. As directed in Sections 11-9-805(3) and 11-9-830(7), this report itemizes the estimated loss of General Fund revenue from a special exclusion, exemption, or deduction from gross income, which provides a special credit, preferential rate of tax, or deferral of tax liability, or distributes state funds pursuant to an incentive program or fund. Thus, tax expenditures include any reductions in income tax liabilities resulting from provisions that provide benefits, special incentive programs, or funds to particular taxpayers. For completeness, any items that add to income tax, which may offset other provisions, are included as negative tax expenditures.

This report provides an estimate of the amount by which state revenue is reduced due to the tax expenditure. The estimate for each tax expenditure item was made in isolation. Therefore, interactions between tax provisions are not included in the estimates. Over counting or under counting may occur in some situations, such as when one tax is a deduction or credit in determining another tax. In some cases, the estimated loss in revenue is the same amount as would be gained should the tax expenditure be removed, but it cannot be automatically assumed. The estimates are based on historical tax data provided by the Department of Revenue and the Department of Insurance and projections by RFA. The estimates for the current and upcoming fiscal years are subject to change as more data become available.

***The estimates are based on current economic activity and tax law provisions. Please be aware that these estimates may not represent the fiscal impact estimate for the removal of the tax expenditure. Estimating the removal of a tax expenditure will involve more analysis such as updated economic conditions, interaction with other tax provisions, and behavioral impacts. Consequently, RFA reserves the right to modify or change these calculations in performing its duty to provide fiscal estimates of proposed legislation under Section 2-7-71 of the Code of Laws of South Carolina.***

In this report, all revenue losses are estimated and rounded to the nearest $1,000. While the requirements in Section 11-9-830 specify items in excess of $100,000, items with a tax expenditure of less than $100,000 are noted for completeness. Any tax credits administered by the Department of Revenue with fewer than 5 returns claiming the credit or that are not disclosed in the most recent annual report published by the Department of Revenue are not disclosed in this report. If there is not enough information available to make an estimate or if the provision expires within the forecasted timeframe, a label of "No Estimate" is given. Summations of the amounts are given by tax category. However, if these categories include items for which estimates

are not available, the un-estimated items may result in tax categories being understated as to the true total impact of these tax expenditures.

Please see the appendix for data sources, tax rates, and other related information.

# SUMMARY OF TAX EXPENDITURES BY TAX CATEGORY

## Total Tax Credits, Deductions, or Rebates Claimed by Tax Category

| Tax Category | FY 2023-24 | FY 2024-25 | FY 2025-26 |
|---|---|---|---|
| Individual Income Tax Credits | $739,382,000 | $788,536,000 | $814,019,000 |
| Individual Income Tax Deductions | $2,309,905,000 | $2,272,170,000 | $2,352,548,000 |
| Corporate Income or License Tax Credits | $251,460,000 | $267,406,000 | $277,444,000 |
| Bank Tax Credits | $3,904,000 | $3,911,000 | $3,932,000 |
| Insurance Tax Credits | $51,720,000 | $54,993,000 | $54,284,000 |
| Job Development and Retraining Credits | $69,769,000 | $71,453,000 | $70,986,000 |
| Electric Power Excise Tax Disposition | $28,570,000 | $28,680,000 | $28,791,000 |
| Motion Picture Film Rebates | $22,225,000 | $21,695,000 | $22,124,000 |
| **Total** | $3,476,935,000 | $3,508,844,000 | $3,624,128,000 |

*Notes: These values represent the forecasted amounts for the total tax credits, deductions, or rebates claimed by taxpayers. These values do not include any forecast less than $100,000 or items that are not estimated/disclosed. The un-estimated items may result in totals being understated as to the true total impact of these tax expenditures. The estimate for each tax expenditure item was made in isolation. Therefore, interactions between tax provisions are not included in the estimates.*

## Individual Income Tax Credits

| Code Section | Tax Credit | FY 2023-24 | FY 2024-25 | FY 2025-26 |
|---|---|---|---|---|
| 11-44-40 | Angel Investor | $5,127,000 | $5,202,000 | $5,346,000 |
| 11-45-55 | Venture Capital Investment | ** | ** | ** |
| 12-6-590 | Shareholder of S Corp Banks | $659,000 | $665,000 | $671,000 |
| 12-6-3330 | Two Wage Earner | $82,287,000 | $84,262,000 | $86,284,000 |

# Appendix

## Data Notes

- Projections for individual income tax credits and deductions are based upon individual income tax data provided by the Department of Revenue.
- Projections for Job Development and Retraining credits are calculated using historical tax data from the Department of Revenue's Annual Report.
- Projections for corporate income tax credits, bank tax credits, and savings and loan association tax credits are based on data provided by the Department of Revenue.
- Projections for insurance tax credits are based on data provided by the Department of Insurance.
- Electric power tax disposition and Motion Picture Film Rebate forecasts are based on Board of Economic Advisors (BEA) revenue data and projections.
- Any tax credits administered by the Department of Revenue with fewer than 5 returns claiming the credit or that are not disclosed in the most recent annual report published by the Department of Revenue are not disclosed in this report.

## Definitions

**12-13-20. "Net Income" Defined.** - The term "net income", as used in this chapter, means taxable income as determined for a regular corporation in Chapter 6 of this title after deducting all earnings accrued, paid, credited, or set aside for the benefit of holders of savings or investment accounts, any additions to reserves which are required by law, regulation, or direction of appropriate supervisory agencies, and a bad debt deduction. The bad debt deduction allowable for South Carolina income tax purposes is the amount determined under the Internal Revenue Code as defined in Section 12-6-40. No deductions from income are allowed for any additions to undivided profits or surplus accounts other than herein required, and for the purposes of this chapter, a state-organized association is allowed the same deductions for bad debt reserves as those allowed to federally organized associations. Associations shall maintain the bad debt reserves allowed as a deduction pursuant to this section in accordance with the provisions of the Internal Revenue Code as defined in Section 12-6-40 and shall keep a permanent record. These provisions are controlling notwithstanding any other provision of law.

## Income Tax Rates – Individual

**12-6-510. Tax Rates for Individuals, Estates, and Trusts for Taxable Years After 1994** – (A) Subject to the provisions of subsection (B), for taxable years beginning after 1994, a tax is imposed on the South Carolina taxable income of individuals, estates, and trusts and any other entity except those taxed or exempted from taxation under Sections 12-6-530 through 12-6-550 computed at the following rates with the income brackets indexed

in accordance with Section 12-6-520:

| | |
|---|---|
| Not over $2,220 | 2.5 percent of taxable income |
| Over $2,220 but not over $4,440 | $56 plus 3 percent of the excess over $2,220 |
| Over $4,440 but not over $6,660 | $123 plus 4 percent of the excess over $4,440 |
| Over $6,660 but not over $8,880 | $212 plus 5 percent of the excess of $6,660 |
| Over $8,880 but not over $11,100 | $323 plus 6 percent of the excess over $8,880 |
| Over $11,100 | $456 plus 7 percent of the excess over $11,100 |

(B)(1) Notwithstanding subsection (A), for taxable years beginning after 2021, a tax is imposed on the South Carolina taxable income of individuals, estates, and trusts and any other entity except those taxed or exempted from taxation under Sections 12-6-530 through 12-6-550 computed at the following rates with the income brackets indexed in accordance with Section 12-6-520:

| At least | But less than | Compute the tax as follows |
|---|---|---|
| $0 | $3,200 | 0% times the amount |
| $3,200 | $16,040 | 3% times the amount minus $96 |
| $16,040 | or more | 6% times the amount minus $577 |

(2) Notwithstanding the provisions of item (1), the reduction in the top marginal rate contained in this item, as compared to the same in subsection (A), must be phased-in as provided in item (3). Until the top marginal rate is fully phased-in, the bracket to which this reduced top marginal rate applies must be the same as the bracket for the top marginal rate provided in subsection (A). All reductions are permanent and cumulative. During the phase-in and after, the department shall continue to adjust the brackets as provided in Section 12-6-520. Other than the top marginal rate, no other component of this item is phased-in.

(3) For Tax Year 2022, the top marginal rate shall equal 6.5%. Beginning with Tax Year 2023, and each year thereafter until the top marginal rate equals 6%, the top marginal rate must decrease by one-tenth of one percent if general fund revenues are projected to increase by at least five percent in the fiscal year that begins during the tax year. For purposes of this subsection, beginning with the initial forecast required pursuant to Section 11-9-1130, the general fund revenues projection must be determined by the Revenue and Fiscal Affairs Office by comparing the current fiscal year's recurring general fund expenditure base with the Board of Economic Advisors' most recent projection of recurring general fund revenue for the upcoming fiscal year. Upon the issuance of the initial forecast, the Executive Director of the Revenue and Fiscal Affairs Office, or his designee, shall notify the Department of Revenue of the projected percentage adjustment. The executive director, or his designee, shall provide similar notice if subsequent modifications to the forecast change the projected percentage adjustment. However, the forecast in effect on February fifteenth of the current fiscal

year is the final forecast for which the percentage adjustment is determined, and no subsequent forecast modifications may have any effect on that determination. For purposes of this section, "recurring general fund revenue" and "recurring general fund expenditure base" have the same meaning as provided in Section 6-27-30.

(C) The department may prescribe tax tables consistent with the rates set pursuant to this section.

**12-6-545(B). Income Tax Rates for Pass-through Trade and Business Income; Determination of Income Related to Personal Services**
(B)(1) Notwithstanding Section 12-6-510, a taxpayer may elect annually to have the income tax at the rate provided in item (2) of this subsection imposed annually on the active trade or business income received by the owner of a pass-through business. For joint returns, the election is effective for both spouses. The amount subject to tax pursuant to this section is not subject to tax pursuant to Section 12-6-510.
(2) The rate of the income tax imposed pursuant to this subsection is 3 percent.

## Income Tax Rates – Corporate

**12-6-530. Corporate income tax -** An income tax is imposed annually at the rate of five percent on the South Carolina taxable income of every corporation, other than those described in Sections 12-6-540 and 12-6-550, and any other entity taxed using the rates of a corporation for federal income tax purposes, transacting, conducting, or doing business within this State or having income within this State, regardless of whether these activities are carried on in intrastate, interstate, or foreign commerce. The terms "transacting", "conducting", and "doing business" include transacting or engaging in any activity for the purpose of financial profit or gain.

## Bank Tax Rate

**12-11-20. Tax on Income of Banks; Rate**. - A tax is imposed upon every bank engaged in business in the State which shall be levied, collected and paid annually with respect to the entire net income of the taxpayer doing a banking business within this State or from the sales or rentals of property within this State, computed at the rate of four and one half per cent of the entire net income of such bank or taxpayer.

**12-11-30. Income Tax to be Instead of Other Taxes; Exceptions.** - The income tax provided for in this chapter is instead of all other taxes on banks, except the use tax, the deed recording fee, and taxes on real property. The real property of a bank is taxed in the place where it is located.

## Insurance Tax Rate

**38-7-20. Insurance Premium Taxes; Allocation** - (A)(1) In addition to all license fees and taxes otherwise provided by law, there is levied upon each insurance company licensed by the director or his designee an insurance premium tax based upon total premiums, other than workers' compensation insurance premiums, and annuity considerations, written by the company in the State during each calendar year ending on the thirty-first day of December. For life insurance, the insurance premium tax levied herein is equal to three-fourths of one percent of the total premiums written. For all other types of insurance, the insurance premium tax levied in this section is equal to one and one-fourth percent of the total premiums written.

## Electric Power Excise Tax Rate

**12-23-10. Imposition of Tax; Rate** - In addition to all other taxes of every kind imposed by law:
(1) every person, except the State, a county, a municipality, or an agency or political subdivision of it, engaged in the business of selling electric power for resale within the State is subject to the payment of an excise, license, or privilege tax of five-tenths of one mill upon each kilowatt hour of electric power sold for resale within the State, except upon such electric power purchased from a vendor, however remote, previously taxed under this subsection. Sales for resale of an electric cooperative to a customer whose sales are taxed under subsection (2) must not be taxed under this subsection; and
(2) except a municipality, every public utility and electric cooperative engaged in the business of selling electric power within the State to the ultimate user of the power is subject to the payment of an excise, license, or privilege tax of five-tenths of one mill upon each kilowatt hour sold within the State to the ultimate user, except such electric power purchased from vendors, however remote, taxed under subsection (1).

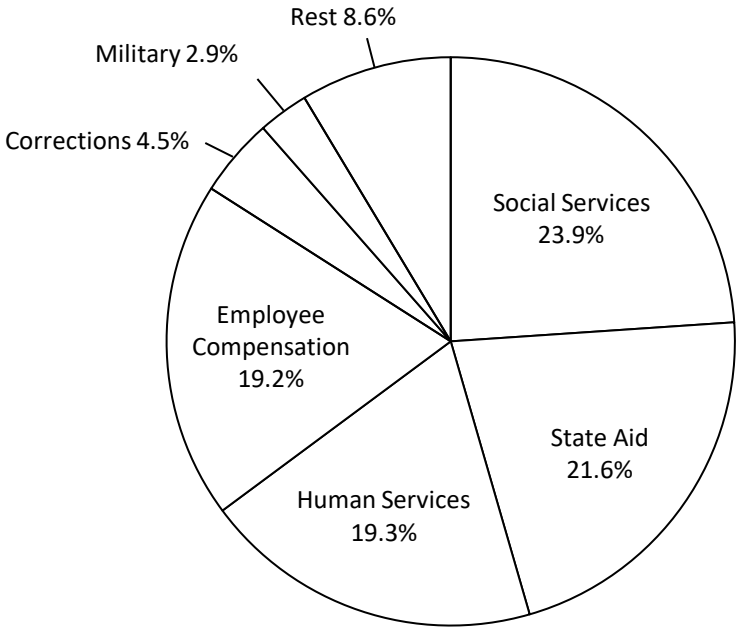
# *SUMMARY OVERVIEW*

Governor Noem is recommending a budget (including special and continuing appropriations) for FY2025 of $7,294,296,619 in total funds and 14,058.6 FTE. For FY2025, the Governor is proposing a general fund budget of $2,399,203,422, which is an increase of $115,558,320 over the adopted FY2024 budget, which includes an increase of $826,848 in continuing appropriations. The proposed FY2025 general fund budget is distributed as follows:

- $940.4 million, or 39.2%, for Health, Human, and Social Services
- $756.2 million, or 31.5%, for State Aid to Education
- $303.8 million, or 12.7%, for Higher Education
- $147.1 million, or 6.1%, for Corrections
- $104.9 million, or 4.4%, for the Legislature, Unified Judicial System, Public Utilities Commission, and Elected Officials
- $26.9 million, or 1.1%, for Agriculture and Natural Resources, and Game, Fish, and Parks
- $119.9 million, or 5.0%, for the Remainder of State Government

The table below depicts the FY2025 recommended general fund increases, excluding special and continuing appropriations.

## FY2025 General Fund Increases



**TOTAL INCREASE: $114,731,472**

| | |
|---|---|
| Social Services | $27.5M |
| State Aid | $24.8M |
| Human Services | $22.2M |
| Employee Compensation | $22.0M |
| Corrections | $5.1M |
| Military | $3.3M |
| Rest of State Government | $9.9M |

# UNITED STATES AND SOUTH DAKOTA ECONOMIC FORECASTS

## UNITED STATES ECONOMY

### *RECENT ECONOMIC ACTIVITY*

After two consecutive quarters of real GDP decline in the first and second quarters of 2022, the United States has now seen five consecutive quarters of GDP growth through the third quarter of 2023. In 2022, GDP declined 2.0% and 0.6% in the first and second quarters, respectively, before growing 2.6% in the third quarter and 2.5% in the fourth quarter. In 2023, GDP grew 2.2% and 2.1% in the first and second quarters, respectively, followed by strong growth of 4.9% in the third quarter.

The economy continues to add jobs at a steady pace. The average monthly gain in 2023 for United States payroll employment has been 239,000 jobs through October. However, there are signs of easing in the labor market. Nonfarm employment rose 150,000 jobs in October and prior months' payroll gains were revised materially lower recently, which signals that the labor market is easing. The unemployment rate has also increased to 3.9% in October. While this is still a low unemployment rate for the United States historically, it is 0.4% higher than the 2023 average through July (3.5%).

In June, Congress suspended the debt ceiling through 2024 under the Fiscal Responsibility Act of 2023. In September, Congress avoided a government shutdown by passing a continuing resolution to fund the government through November. In November, they passed a second continuing resolution to fund federal agencies to January 2024.

The Federal Reserve (Fed) responded to the COVID-19 pandemic with unprecedented actions. The most recognizable response by the Fed was to lower the target federal funds rate to a range of 0% – 0.25% for the first time since the financial crisis in 2008. In March 2022, the Federal Open Market Committee began increasing the federal funds rate in an effort to reduce inflation. In less than a year and a half, the federal fund target rate went from its effective lower bound of 0% – 0.25% to the current federal funds target rate of 5.25% – 5.50%. The Fed also unleashed numerous programs and lending facilities to ensure that credit markets continued to operate properly as well as to stimulate the economy. The steps taken by the Fed to stabilize the financial system and economy increased its balance sheet from $4.2 trillion before the pandemic to nearly $9 trillion in April 2022. As of November 2023, the Federal Reserve balance sheet is approximately $7.8 trillion.

The following are recent key national economic statistics:

- Estimates indicate real GDP grew 4.9% at an annualized pace in the third quarter of 2023, which followed an increase of 2.1% in the second quarter.
- The unemployment rate was 3.9% in October. The current rate is 0.2% higher than October 2022, but 0.6% lower than October 2021.
- The labor force participation rate was 62.7% in October. This is 0.5% higher than October 2022 and 0.9% higher than October 2021.
- United States personal income increased at an annual rate of 4.2% in the second quarter of 2023. Personal income grew 6.9% in 2020, 9.1% in 2021, and 2.0% in 2022.
- Real personal consumption expenditures increased 4.0% in the third quarter of 2023, up from 0.8% in the second quarter.

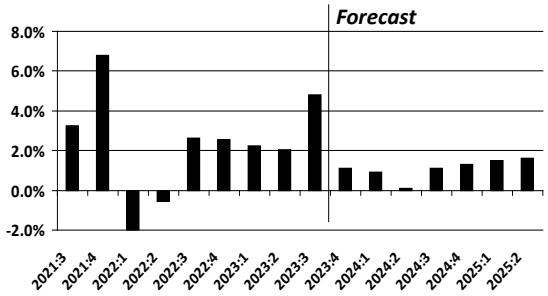
## *NATIONAL FORECAST HIGHLIGHTS*

*This section summarizes S&P Global Market Intelligence's forecast as of November 2023 for various categories of the United States economy. S&P Global Market Intelligence is a leader in providing analytics and expertise to businesses and governments worldwide.*

**GROSS DOMESTIC PRODUCT (GDP):** GDP recovery from the COVID-19 pandemic began in the third quarter of 2020. GDP gains continued in the fourth quarter of 2020 and all of 2021 before receding in the first and second quarters of 2022. Since that time, GDP has grown at or above trend for five consecutive quarters – most recently at 4.9% in the third quarter of 2023. Growth is expected to slow sharply in the fourth quarter of 2023 and into 2024.

In the first three quarters of this year, real GDP change was 2.2%, 2.1%, and 4.9%, respectively, and is expected to be 1.1% in the fourth quarter. In the four quarters in 2024, S&P Global is projecting GDP change of 0.9%, 0.1%, 1.1%, and 1.3%. In 2025, GDP is forecast to increase 1.5% and 1.6% in the first two quarters.

**S&P Global Market Intelligence's Baseline Forecast of Quarterly GDP**



On an annual basis, GDP grew 3.0% in 2018 and 2.5% in 2019. It declined 2.2% in 2020 before growing 5.8% in 2021 and 1.9% in 2022. S&P Global Market Intelligence's latest baseline forecast projects real GDP at 2.4% in 2023, 1.4% in 2024, and 1.4% in 2025.

S&P Global is currently assigning a higher probability of negative (30%) versus positive (15%) risks in the United States economic outlook. The largest risks to the forecast are tightening lending standards leading to a decline in business investment and consumer spending, and worsening conflicts in Ukraine and the Middle East. The optimistic scenario assumes stronger growth of consumer spending and stronger productivity.

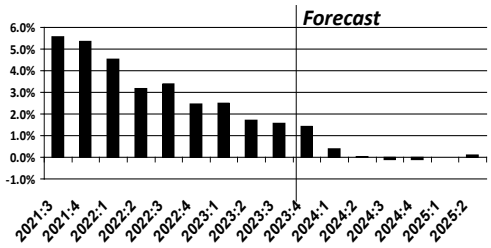
**CONSUMERS:** Consumer spending is a key component contributing to economic growth, as consumption accounts for over two-thirds of economic activity as measured by GDP. Growth of 4.0% in the third quarter of 2023 was up substantially from growth of 0.8% in the second quarter. This growth is fueled by rising wages and a tight labor market. Consumer spending is expected to slow in the fourth quarter and into 2024. Real personal consumption expenditures declined 2.5% in 2020, before increasing 8.4% in 2021 and 2.5% in 2022. The forecast projects real personal consumption expenditures at 2.3% in 2023, 1.9% in 2024, and 1.5% in 2025. Consumer confidence fell recently due to concerns over business conditions and inflation expectations in the long run. The University of Michigan's Index of Consumer Sentiment fell 2.5 points in November, registering at 61.3. This was the fourth consecutive month of decline.

The personal savings rate (as a percentage of disposable income) declined to 3.8% in the third quarter of 2023, well below the pre-pandemic level of approximately 7%. The personal saving rate declined rapidly in 2022 after peaks of 32.0% in April 2020 and 26.1% in March 2021. Households accumulated approximately $2.3 trillion in excess savings in 2020 and 2021 due to higher disposable income and reduced discretionary spending. The accumulated savings has supported a higher level of spending and lower savings rate. As of the first quarter of 2023, households still had estimated excess savings of $1.0 trillion. The S&P Global Market Intelligence baseline forecast calls for the savings rate to increase to approximately 4.4% in 2024 and 5.9% in 2025.

**EMPLOYMENT:** The latest United States payroll employment report indicated total nonfarm employment grew by 150,000 jobs in October. Labor markets remain tight, but employment reports in recent months have shown signs of easing. The expectation is for employment to peak midway through 2024 before declining in the third quarter of 2024. Employment is expected to grow at 1.4% in the fourth quarter of 2023. For 2024, employment is projected at 0.4%, 0.0%, (0.1%), and (0.1%) for each quarter. The labor force participation rate was 62.7% in October. After being driven down during the pandemic, the participation rate has slowly moved upward for much of 2022 and 2023. The labor force participation rate is expected to decline slightly in both 2024 and 2025.

The unemployment rate in October was 3.9%, up from 3.8% in September and August, and 3.5% in July. The unemployment rate is expected to continue trending upward. On an annual basis, the unemployment rate was 3.7% in 2019, 8.1% in 2020, 5.4% in 2021, and 3.6% in 2022. It is forecast to be 3.6% in 2023, 4.3% in 2024, and 4.7% in 2025.

**S&P Global Market Intelligence's Baseline Forecast of Employment Growth**



**HOUSING:** Rising interest rates and decreasing affordability have led to mixed housing statistics. Homebuilder sentiment is low, as evidenced by the National Association of Home Builders Index at 34 in November. This is the lowest monthly level of the index in 2023 and approximately 50 points lower than it was for most of 2021 and early 2022. Existing home sales in the third quarter were at a 4.02 million unit annual rate. Housing starts in the third quarter were at a rate of 1.36 million units. Housing prices are elevated, with the Federal Housing Finance Agency House Price Index increasing by 4.5% from the second quarter of 2022 to the second quarter of 2023. However, the rate of house price growth is decelerating.

Total housing starts are projected to be 1.40 million units in 2023, 1.33 million units in 2024, and 1.37 million units in 2025. In 2020, 2021, and 2022, total housing starts were 1.40 million, 1.61 million, and 1.55 million units, respectively.

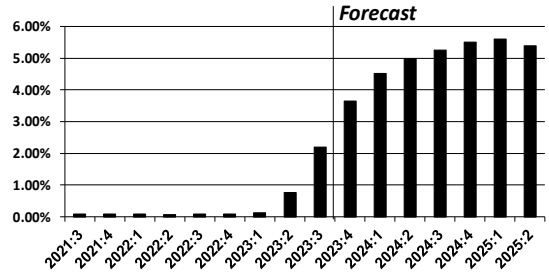
**INFLATION:** Inflation is easing but remains elevated. The Consumer Price Index (CPI) was at 3.2% in October year-over-year, on a seasonally adjusted basis. CPI has mostly fallen since it peaked at 8.9% in June 2022. It is anticipated that annual inflation measures will decline through 2025.

The CPI increased 1.3% in 2020, 4.7% in 2021, and 8.0% in 2022. The CPI is forecast to grow 4.1% in 2023, 2.7% in 2024, and 2.0% in 2025. The Producer Price Index for Finished Goods decreased 1.3% in 2020, before increasing 8.9% in 2021 and 13.4% in 2022. The current forecast calls for increases of 2.1% in 2023, 2.4% in 2024, and 0.8% in 2025.

**MONETARY AND FISCAL POLICY:** Monetary and fiscal policies were extremely aggressive in response to the COVID-19 pandemic. The Federal Reserve utilized traditional easing programs to support financial markets and the economy. The steps taken by the Fed to stabilize the financial system and economy increased its balance sheet from $4.2 trillion before the pandemic to nearly $9 trillion in April 2022. As of November 2023, the Federal Reserve balance sheet is approximately $7.8 trillion.

In March 2022, the Federal Open Market Committee began increasing the federal funds rate in an effort to reduce inflation. In less than a year and a half, the federal fund target rate went from its effective lower bound of 0% – 0.25% to the current federal funds target rate of 5.25% – 5.50%. The current forecast is for the target rate to be increased 25 basis points by the Federal Reserve to a range of 5.50% – 5.75% in December 2023; however, the tightening cycle may be over.

**S&P Global Market Intelligence's Baseline Forecast of the Federal Funds Rate**



The economic forecast assumes a federal fiscal year (FFY) 2024 budget is passed to avoid a government shutdown. Pandemic relief payments have shrunk to near zero in 2023.

The unified federal deficit for FFY2022 was $1.4 trillion, which is approximately $1.2 trillion less than the FFY2021 deficit. S&P Global forecasts deficits of $1.7 trillion for FFY2023, $1.5 trillion for FFY2024, and $1.7 trillion for FFY2025.

**INTERNATIONAL:** Real foreign GDP is projected to slow from 3.4% in 2022 to 2.0% in 2023 and 2024 before rebounding to 2.5% in 2025. The forecast includes the tariffs enacted in 2017 by the United States and China. The price of Brent crude oil is projected to ease to approximately $85/barrel in 2024 and $76/barrel in 2025.

***RISKS TO THE FORECAST***

Economic risks to the baseline forecast are reflected in alternate scenarios. There are upside risks as the result of successfully managed recent turmoil in the banking sector, stronger growth of consumer spending, and a quicker end to the conflicts in Ukraine and the Middle East. The downside risks stem from tightening lending standards, a decline in consumer spending, and worsening conflicts in Ukraine and the Middle East. S&P Global Market Intelligence assigns a greater probability to the negative risks versus the positive risks at this time.

A 15% probability exists for United States economic growth being stronger than the baseline forecast. In S&P Global Market Intelligence's optimistic scenario, GDP is projected to increase by 2.5% in 2023, 2.2% in 2024, and 1.9% in 2025. The optimistic scenario assumes stronger growth in consumer spending and elevated business fixed investment due to strong demand and elevated cashflows.

The pessimistic scenario assumes a shallow recession due to restrained spending and production. S&P Global assigns a 30% probability to this scenario. Tightening lending standards lead to a decline in consumer spending and cause businesses to scale back investment plans. The price of Brent oil rises much higher than the baseline under this scenario. Unemployment rates under this scenario would also be higher than the baseline.

# *SOUTH DAKOTA ECONOMY*

### *RECENT ECONOMIC ACTIVITY*

*This section briefly summarizes recent economic activity in South Dakota. An important indicator of a state's economic health is the growth rate of nonfarm employment, as it is considered by many economists as the most timely and comprehensive measure of the performance of a state's economy.*

South Dakota's economy continues to grow. Total nonfarm employment increased 2.1% in the second quarter of 2023 and grew 1.9% in the third quarter. Real Gross State Product (GSP) is projected to finish the year 2.6% higher than 2022. Additionally, South Dakota has been second in the nation in per capita personal income growth since 2019.

The following are some recent key South Dakota economic statistics:

- South Dakota nonfarm employment grew at 2.8% in 2022 and is projected to finish 2023 at 2.2%. Nonfarm employment growth in 2024 is forecast at 0.9%.
- The unemployment rate in South Dakota in October of 2023 was 2.0%. This was 1.9% below the national rate of 3.9%.
- Housing starts surged in 2020 through 2022 due to high demand and low mortgage rates. Housing starts will remain elevated in 2023 before a projected decline to normal levels in 2024 and 2025.

### *COUNCIL OF ECONOMIC ADVISORS*

*The Council of Economic Advisors, which has been in existence since 1991, consists of twelve members that encompass business and economic experts from around South Dakota. The purpose of the council is to assist in the development of the best possible forecast of South Dakota's economy. This section summarizes the council's view of South Dakota's economy.*

**TOURISM:** The tourism sector is an integral part of the South Dakota economy. The estimated economic impact to GDP in South Dakota from tourism totaled $3.3 billion in 2022. The number of estimated visitors in South Dakota totaled approximately 14.4 million, spending an estimated $4.7 billion statewide, an increase of approximately 8% from 2021.

Tourism activity has remained strong in 2023. Through September, visitor spending is estimated to be up nearly 6% year-over-year. Year to date, estimated visitors in South Dakota are up 0.5% over 2022, while airport arrivals are up 7%.

**AGRICULTURE:** In 2022, the agricultural economy in South Dakota produced cash receipts of $14.3 billion, which was an increase of $2.5 billion from 2021 cash receipts. Crops generated $8.5 billion, and animals and products generated $5.8 billion in 2022. Cash receipts from crops increased $1.6 billion, while cash receipts from animals and products increased by $0.9 billion.

Overall, crop production levels are expected to be strong in 2023. According to the National Agricultural Statistics Service (NASS), as of November 1st, corn production is projected to be 850 million bushels, up 28% from 2022 production. Corn acres harvested is estimated at 5.59 million acres, which is up 12% from a year ago. The corn yield is estimated to be 152 bushels per acre, up 20 bushels from last year. Soybean production is expected to be 222 million bushels, up 15% from a year ago, with a yield of 44 bushels per acre, an increase of 6 bushels from the 2022 yield. Soybean acres harvested is estimated at 5.05 million, down slightly from last year. Sorghum for grain production is forecast to be 20.4 million bushels, up 71% from 2022 with 255,000 acres for harvest estimated, which is up 46% from last year.

South Dakota feedlots with capacities of 1,000 or more head contained 220,000 cattle on feed as of November 1st, which is up 5% from last year. Placements during October totaled 69,000 head, which is down 4% from last year. Fed cattle marketings were at 33,000 head, down 27% from last year. The inventory of all hogs and pigs as of September 1st was

up 4% from a year ago but unchanged from June. The June to August pig crop total was 1.84 million head, up 1% from a year ago.

Weather conditions in 2023 were adequate. In mid-June, NASS estimated that more than 60% of topsoil and subsoil moisture supplies were short or very short. However, soil moisture levels improved through the summer and fall. As of late-November, 27% of topsoil supplies are rated short or very short and 35% of subsoil supplies are rated short or very short. The council is specifically concerned with commodity prices, high input prices, and the global economy.

**CONSTRUCTION:** So far in fiscal year 2024, construction activity continues to be strong. Contractor's Excise Tax, which is a good indicator of overall construction activity, is up 14.3% through the first four months of the fiscal year compared to the prior year. Housing construction remains strong but is slowing from its peak in 2021 and 2022. The council expects housing construction to slow in 2024 and 2025 due to high prices and mortgage rates; however, housing starts are still expected to be near the average levels for the previous decade.

***SOUTH DAKOTA FORECAST HIGHLIGHTS***

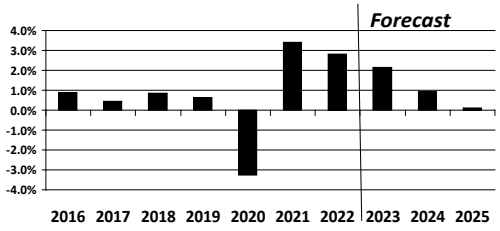
*S&P Global Market Intelligence's forecast of the national and state economy and the input of the Council of Economic Advisors were incorporated into the forecast of South Dakota's economy. This section summarizes various categories of the latest forecast for the South Dakota economy.*

Overall, South Dakota's economy is expected to continue to grow at a modest pace in 2024 and 2025, similar to the national economy.

**EMPLOYMENT:** South Dakota has several advantages over other states to grow employment. Some of these advantages include a pro-business environment, a central geographic location, a low cost of doing business, and a high quality of life. A challenge the state continues to face now and over the long-term is the size of a qualified labor force to fill current and future jobs.

South Dakota has seen consistent employment gains since mid-2020, indicating continued economic growth for the state. Prior to 2020, South Dakota's employment situation had been stable for about a decade. From 2011 through 2019, nonfarm employment growth averaged 1% per year. Nonfarm employment declined 3.3% in South Dakota in 2020 but rebounded strongly. Employment grew 3.4% in 2021, 2.8% in 2022, and is projected to finish 2023 at 2.2%. For 2024 and 2025, nonfarm employment is projected at 0.9% and 0.1%, respectively.

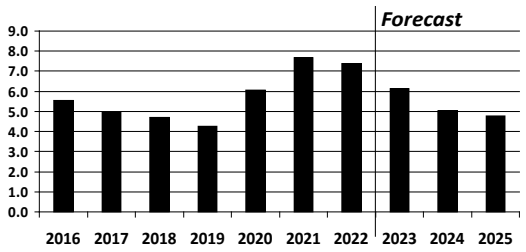
**Growth in Nonfarm Employment**



**HOUSING/CONSTRUCTION:** In 2016, South Dakota experienced a surge in housing starts at approximately 5,500 units. Housing starts declined from 2017 to 2019 but rebounded significantly in 2020 through 2022 on the strength of low mortgage rates and high demand.

The housing market is anticipated to remain strong in 2023 before leveling to more normal levels in 2024 and 2025. Higher prices and elevated interest rates are expected to cause slowing in the housing sector. Housing starts were 7,400 in 2022 and are projected to be 6,120 in 2023, 5,030 in 2024, and 4,770 in 2025.

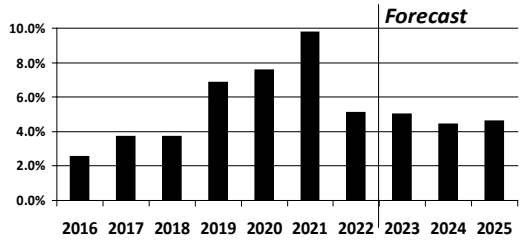
## Housing Starts



**INCOME:** From 2011 to 2019, South Dakota's total personal income growth averaged approximately 4% per year. Growth rates have been much higher in recent years. In 2020, 2021, and 2022, personal income grew by 9.9%, 11.1%, and 5.8%, respectively. Personal income is forecast to grow 3.8% in 2023, 3.9% in 2024, and 5.4% in 2025.

From 2011 to 2019, nonfarm personal income also averaged 4% per year. Nonfarm income grew 7.6% in 2020, 9.8% in 2021, and 5.1% in 2022. Nonfarm income in South Dakota is forecast to grow 5.0% in 2023, 4.4% in 2024, and 4.6% in 2025.

## Growth in Nonfarm Personal Income



South Dakota's per capita personal income for the second quarter of 2023 is at an annual rate of $69,574, which is 1.9% greater than the United States average of $68,279. Since 2019, South Dakota is second in the nation in per capita personal income growth, trailing only North Dakota.

### *RISKS TO THE FORECAST*

The Council of Economic Advisors sees some risks to the current forecast. These risks include elevated interest rates and their effect on South Dakota's economy. There is also concern for continued inflation, and its effect on consumers. In addition, workforce continues to be a concern. With low unemployment levels, workforce shortages pose a threat to future growth.

Positive developments potentially improving the economic outlook in South Dakota include continued population growth and infrastructure investments.

# *REVENUE ESTIMATE SUMMARY*

General fund receipts for FY2024 are forecast at $2,459.8 million. Ongoing receipts comprise $2,345.1 million of the total. One-time revenues comprise $114.7 million of the total, which includes $1.8 million in bank franchise tax prior year revenue, $9.7 million in one-time sales and use tax, $6.4 million in unexpended carryovers and specials, and $96.8 million of obligated cash carried forward from FY2023. The ongoing estimate for FY2024 includes an increase of $46.9 million from actual FY2023 ongoing receipts. Categories forecasted to show major increases in FY2024 over FY2023 actuals include investment income and interest (+$35.2M), unclaimed property receipts (+$31.9M), and contractor's excise tax (+$18.6M). The category forecast for the biggest decrease from FY2023 actual receipts is sales and use tax (-$45.4M), which is due to the state sales tax rate decreasing from 4.5% to 4.2%.

The revised ongoing estimate for FY2024 is $60.9 million higher than the ongoing estimate adopted during the 2023 legislative session. Major positive adjustments for the revised FY2024 estimate compared to the adopted FY2024 estimate are for unclaimed property receipts (+$49.7M), investment income and interest (+$28.8M), contractor's excise tax (+$13.0M), and insurance company tax (+$6.0M). The most significant negative revisions compared to the adopted FY2024 estimate are for sales and use tax (-$22.6M) and lottery (-$8.0M).

General fund receipts for FY2025 are projected to be $2,399.2 million, of which all receipts are considered ongoing. The forecast for ongoing receipts in FY2025 is an increase of $54.1 million from the revised FY2024 projection. The most significant sources of growth are from sales and use tax (+$59.5M), investment income and interest ($25.8M), insurance company tax (+$6.1M), and contractor's excise tax (+$4.0M). The category with the most significant projected decrease in FY2025 is unclaimed property receipts (-$46.8M).

**CURRENT REVENUE FORECAST**
**(Dollars in Millions)**

| | FY2024 | FY2025 |
|---|---|---|
| Sales and Use Tax | 1,435.2 | 1,494.6 |
| Lottery | 177.8 | 180.0 |
| Contractor's Excise Tax | 208.0 | 212.0 |
| Insurance Company Tax | 120.4 | 126.5 |
| Unclaimed Property | 106.9 | 60.1 |
| Tobacco Taxes | 44.3 | 43.2 |
| Other Ongoing Revenues | 252.6 | 282.7 |
| One-Time Receipts | 17.9 | 0.0 |
| Obligated Cash Carried Forward | 96.8 | 0.0 |
| **Total Revenue** | **2,459.8** | **2,399.2** |

### *SALES AND USE TAX*

The sales and use tax is the single largest revenue source for the state's general fund and accounts for approximately 61.2% of ongoing general fund revenue. Between FY2000 and FY2023, the sales and use tax grew from $432.1 million to $1,480.6 million, which was an average annual increase of 5.6%. Since FY2010, growth rates of the sales tax have varied from year to year. In FY2010, growth was negative (-1.2%) due to a severe national recession causing declines in employment. In FY2011, growth was robust (8.9%) due to a strong agriculture sector combined with a recovering nonfarm economy. In FY2012 and FY2013, growth was slightly below average (4.8% and 4.3%), reflecting lower inflation and a moderate economic recovery. FY2014 realized a 6.1% growth due to large audit collections and strong agriculture income. In FY2015 and FY2016, the growth was soft (1.6% and 2.9%) due to lower farm income, low inflation, and cautious consumer spending. In FY2017, growth was 10.5%, which reflects the 0.5% sales and use tax rate increase. Excluding the rate increase in FY2017, sales tax would have had a negative growth (-1.6%), reflecting lower farm income, low inflation, and slower economic growth. In FY2018, FY2019, and FY2020, growth rebounded (4.0%, 3.7%, and 4.6%) due to improved consumer spending. In FY2021 and FY2022, sales tax grew by historic amounts (14.0% and 13.3%) due to increased consumer spending driven by strong personal income growth, federal government

stimulus, and inflation. FY2022 collections included $28.3 million in one-time sales and use tax due to a large audit. In FY2023, ongoing sales and use tax grew by 9.1% due to continued strong personal income growth and inflation. Total sales and use tax collections grew by 6.9% in FY2023.

Net collections from the sales and use tax in FY2023 were $1,480.6 million, which was an increase of $95.4 million compared to FY2022. Through the first four months of FY2024, sales and use tax collections to the general fund were $522.5 million, which is a decrease of 3.6% from the first four months of FY2023. For the revised FY2024 estimate, the sales and use tax is forecast at $1,435.2 million, which is a decrease of $45.4 million, or 3.1%, compared to the FY2023 ongoing collections due to the reduction of the state sales tax rate from 4.5% to 4.2%. For FY2025, the sales and use tax is forecast at $1,494.6 million, which is an increase of $59.5 million, or 4.1%, over the revised FY2024 estimate.

### *LOTTERY*

Collections from lottery activities account for approximately 7.6% of ongoing general fund revenues. In FY2024, lottery collections are anticipated at $177.8 million, which includes the general fund's share of instant lottery ticket sales of $10.9 million, 70% or $6.5 million from the online lottery net income, and $160.3 million in video lottery receipts. In FY2025, lottery receipts are projected at $180.0 million, which includes $11.5 million from instant lottery income, 70% or $6.5 million from online lottery net income, and $161.9 million from the state's share of video lottery receipts. In FY2022 and FY2023, video lottery receipts were $161.0 million and $162.6 million, respectively. So far in FY2024, video lottery receipts are down 0.6% through the first four months compared to the prior year.

### *CONTRACTOR'S EXCISE TAX*

The collection of contractor's excise tax accounts for approximately 8.9% of ongoing general fund revenues. Construction activity has a direct impact on the growth in the contractor's excise tax collections. Expansion in this activity has contributed to the increase in contractor's excise tax collections from $47.6 million in FY2000 to $189.4 million in FY2023, representing an average annual increase of 6.6%. In FY2023, net collections to the general fund from the contractor's excise tax grew $33.6 million, or 21.6%, from FY2022. Through the first four months of FY2024, net contractor's excise tax collections were $83.8 million, an increase of 14.3% compared to the first four months of FY2023. Contractor's excise tax collections for FY2024 are forecast to be $208.0 million, an increase of $18.6 million, or 9.8%, compared to FY2023 collections. FY2025 collections are forecast at $212.0 million, an increase of $4.0 million, or 1.9%, compared to the revised FY2024 estimate.

### *INSURANCE COMPANY TAX*

Collections from the insurance company tax account for approximately 5.1% of ongoing general fund revenues. From FY2000 to FY2023, insurance company tax collections grew from $39.5 million to $112.1 million, which was an average annual increase of 4.7%. In FY2023, insurance company tax collections increased by $8.1 million, or 7.8%, compared to FY2022. For FY2024, insurance company tax collections are forecast at $120.4 million, which is an increase of $8.2 million, or 7.3%, over FY2023 collections. For FY2025, insurance company tax collections are forecast to be $126.5 million, which is an increase of $6.1 million, or 5.1%, over the revised FY2024 estimate.

### *UNCLAIMED PROPERTY*

Historically, collections from unclaimed property have been relatively small but have grown in recent years. Unclaimed property has been remitted to the State since the 1980's. From FY1997 to FY2010, collections to the general fund ranged from $0.4 million to $8.0 million. In FY2011 through FY2013, ongoing collections increased to $12.9 million, $13.9 million, and $13.9 million, respectively, due to mergers within the banking industry. Continued consolidation, combined with the migration of home office locations to South Dakota, led to an increase in ongoing collections in FY2014. From FY2014 to FY2020, collections fell from $59.8 million to $47.3 million, net of property

claims. In FY2021, FY2022, and FY2023, unclaimed property collections increased to $62.8 million, $65.1 million, and $85.5 million, respectively, due to increased remittances and reduced property claims. For FY2024, unclaimed property revenue is forecast at $106.9 million due to increased remittances. The forecast for FY2025 is $60.1 million.

### *TOBACCO TAXES*

The tobacco taxes include the cigarette excise tax of $1.53 per pack of cigarettes and the tax on other tobacco products, which is assessed at 35.0% of the wholesale price. In FY2023, cigarette taxes totaled $40.3 million, while the other tobacco products tax totaled $11.8 million. The first $30.0 million collected in tobacco taxes is allocated to the general fund, and the next $5.0 million is allocated to the tobacco prevention and reduction trust fund. Any collections in excess of $35.0 million are deposited directly into the general fund in the tobacco tax category. The general fund's portion totaled $47.1 million in FY2023. General fund receipts from tobacco taxes are projected at $44.3 million in FY2024 and $43.2 million in FY2025.

### *OTHER ONGOING REVENUES*

Receipts included in this category come from licenses, permits, and fees; trust funds; net transfers in; alcohol beverage tax; bank franchise tax; alcohol beverage 2.0% wholesale tax; charges for goods and services; telecommunications tax; severance tax; and investment income and interest. For FY2024, collections from other ongoing revenues are projected to be $252.6 million, approximately 10.8% of total ongoing general fund revenues. In FY2025, collections from other ongoing revenues are projected at $282.7 million.

### *ONE-TIME RECEIPTS*

In FY2024, collections from one-time receipts are projected to be $17.9 million. These one-time receipts include $9.7 million in one-time sales and use tax, $6.4 million in unexpended carryovers and specials, and $1.8 million in bank franchise tax prior year revenue.

### *OBLIGATED CASH CARRIED FORWARD*

Obligated cash is the amount of prior year cash carried forward to meet obligations existing at the end of the previous year. For FY2024, the total amount of obligated cash carried forward was $96.8 million. This was obligated to the General Revenue Replacement Fund and the Budget Reserve Fund from the budget surplus at the end of FY2023.

# BUDGET RESERVE & GENERAL REVENUE REPLACEMENT FUNDS

During the 1991 Legislative Session, the Budget Reserve Fund was created to place resources into a reserve which would be used to address unforeseen expenditure obligations or revenue shortfalls. At the end of FY2022 and FY2023, unobligated general fund cash in the amounts of $7.2 million and $25.2 million, respectively, was obligated to the Budget Reserve Fund. These funds were transferred from the general fund into the reserve in FY2023 and FY2024, respectively. In FY2024, the Governor is recommending a transfer of $95.7 million from the Budget Reserve Fund to the Incarceration Construction Fund to be used for a men's prison. This will leave a projected ending balance of $106.2 million.

During the 2015 Legislative Session, the General Revenue Replacement Fund was established to replace the Property Tax Reduction Fund to assist in balancing the annual budget in the event of an unforeseen revenue shortfall. At the end of FY2021, FY2022, and FY2023, unobligated general fund cash in the amounts of $91.2 million, $108.3 million, and $71.6 million, respectively, was obligated to the General Revenue Replacement Fund. These funds were transferred from the general fund into the reserve in FY2022, FY2023, and FY2024, respectively. In FY2023, $183.7 million was transferred from the General Revenue Replacement Fund to the Incarceration Construction Fund to be used for a men's prison. The projected ending balance for FY2024 is $133.7 million.

The total estimated reserve balance of $239.9 million is 10.0% of proposed FY2025 appropriations.

## BUDGET RESERVE FUND & GENERAL REVENUE REPLACEMENT FUND CONDITION STATEMENT

# TAX EXPENDITURES

| Sales and Use Tax Exemptions | Annual Est. General Fund Revenue Loss |
|---|---|
| **Agriculture Group** | |
| 10-45-18, 10-45-18.2, 10-46-16, 10-46-16.2: Livestock, live poultry, ostriches, emus, or rheas, if such sales are part of a series of transactions incident to producing a finished product intended to be offered for an ultimate retail sale. Also includes live cattle, buffalo, sheep, goats, swine, poultry, and horses. | $194,233,713 |
| 10-45-18.3: Feed for cattle, buffalo, sheep, goats, swine, poultry, ostriches, emus, rheas, and domesticated fur-bearing animals defined in chapter 40-35, if such feed is used by farmers or ranchers who are regularly engaged in the business of raising and feeding such animals, or producing milk for sale for human consumption, and horses and other animals with the family equidae. Poultry does not include any fowl other than domestic fowl kept and raised for the market or the production of eggs for human consumption. | $55,333,043 |
| 10-45-16: Commercial fertilizer, either liquid or solid, when sold in quantities of five hundred pounds or more in a single sale to be used exclusively for agricultural purposes. | $39,914,723 |
| 10-45-15: Seed legumes, seed grasses, and seed grains sold in quantities of 25 pounds or more in a single sale to be used exclusively for agricultural purposes. | $43,770,539 |
| 10-45-3.4: (1)Parts or repairs on machinery or equipment which are clearly identifiable as used primarily for agricultural purposes, including irrigation equipment, if the part replaces a farm machinery or irrigation equipment part assigned a specific or generic part number by the manufacturer of the farm machinery or irrigation equipment; and (2) Maintenance items and maintenance services used on machinery or equipment which are clearly identifiable as used primarily for agricultural purposes, including irrigation equipment. | $25,407,152 |
| 10-45-16.1, 10-46-17.5: Pesticides (including insecticides, herbicides, pesticides, rodenticides, and fumigants) and products or substances used in conjunction with application of the pesticides used exclusively for agricultural purposes. (Sales tax applies to endoparasiticides and ectoparasiticides) | $27,333,723 |
| 10-45-19, 10-46-17: Motor fuel, including kerosene, tractor fuel, liquefied petroleum gas, natural and artificial gas, diesel fuels, and distillate, when used for agricultural purposes. Agricultural purposes includes hay grinding but does not include the lighting or heating of any farm residence. | $18,257,759 |
| 10-45-12.1: Farm Product Warehousing & Storage | $262,758 |
| 10-45-12.1: Agricultural Services, except: Veterinary Services and Animal Specialty Services. | $9,078,689 |
| 10-45-93: Sale of agricultural and industrial production equipment in international commerce where physical delivery of the goods takes place in South Dakota if the property is to be shipped to a point outside the United States not to be returned to a point within the United States. (also 10-46E) | $397,526 |
| 10-45-12.1: Forestry Services | $174,520 |
| 10-45-18.6, 10-46-16.6: The sale of swine or cattle semen used for agricultural purposes. | $238,516 |
| 10-45-16.2, 10-45-16.3: Rental of devices primarily used to apply fertilizers, pesticides, herbicides, and insecticides for agricultural purposes if sales or use tax was paid on the original purchase of the device. | ** |
| 10-45-18.4, 10-46-16.4: Live nondomestic animal regulated by the animal industry board pursuant to 40-3-26 if the animal is to be used by a farmer or rancher who is regularly engaged in the breeding and raising of such animals. | $31,802 |
| 10-45-19.1, 10-46-17.2: Electricity used to power irrigation pumps and horsepower charge on electric motors powering irrigation pumps when the purchase is exclusively for agricultural purposes. | $316,211 |
| 10-45-18.5, 10-46-16.5: Feed for nondomestic animals exempted in 10-45-18.4 | $6,116 |

# *RECOMMENDED EXPENDITURES*

Governor Noem's FY2025 ongoing budget recommendation maintains a structurally balanced budget while making investments in key areas that focus on ensuring a safer, stronger, and healthier South Dakota for our kids and grandkids.

State Aid to Education, the Department of Education, the Board of Regents, and the Technical Colleges are responsible for educating our kids to ensure they have skills that lead to a fulfilling career after graduation. These general fund budgets account for $26.8 million of the $114.7 million in ongoing increases, or 45.2% of the ongoing general fund budget. Approximately 27.4% of the total ongoing budget, which amounts to over $2.0 billion, is invested in our students to ensure the next generation of our workforce is filled with skilled professionals.

The Governor is recommending an increase of $24.8 million in general funds for State Aid to Education due to growth in the number of student enrollments, as well as a 4.0% inflationary increase on the target teacher salary. Governor Noem is also recommending an increase of $0.5 million in general funds to support the Dual Credit program, which has seen increases in the number of students participating and in the cost per credit hour.

The budget recommendation for the Board of Regents includes a reduction of $0.4 million in general funds. This recommendation contains an increase of $2.1 million in general funds to fund maintenance and repair at 1.75% of replacement value for academic buildings and a decrease of $2.6 million in general funds to transfer the tuition reimbursement program for National Guard members from the Board of Regents to the Department of Military. Additionally, Governor Noem is recommending increases of 10.0 FTE, $10.0 million in federal fund expenditure authority, and $6.3 million in other fund expenditure authority to align budget with anticipated expenditures.

Governor Noem is recommending an ongoing increase of $1.8 million in general funds for the Technical Colleges. This recommendation includes increases of $1.9 million for 4.0% inflation on the per-student allocation and $0.1 million to fund maintenance and repair at 1.75% of replacement value for state-owned buildings. A decrease of $0.3 million in general funds is also recommended to transfer the tuition reimbursement program for National Guard members from the Technical Colleges to the Department of Military.

The Departments of Social Services, Human Services, and Health are responsible for the majority of the programs that help those who cannot take care of themselves, including the very young, the very old, and the disabled. These general fund budgets account for $49.7 million of the $114.7 million in ongoing increases, or 39.4% of the ongoing general fund budget. Approximately 37.3% of the total ongoing budget, which amounts to nearly $2.7 billion, is dedicated to assist those in need.

Governor Noem is recommending an ongoing increase of $27.5 million in general funds for the Department of Social Services. This includes an increase of $18.3 million in general funds to plan ahead for the full cost of Medicaid Expansion in FY2026. The Governor is also recommending

increases of $14.0 million in general funds and $24.1 million in federal fund expenditure authority for discretionary provider inflation of 4.0%. Additionally, increases of $10.5 million in general funds and $7.2 million in federal fund expenditure authority are recommended for federally required inflation in programs such as Medicare and certain federally qualified health centers. Due to a change in the FMAP rate, the Governor is recommending an increase of $13.9 million in general funds and a corresponding decrease in federal fund expenditure authority. Governor Noem is also recommending increases of $1.9 million in general funds and $0.7 million in federal fund expenditure authority for additional subsidized adoptions and guardianships.

The budget recommendation the Department of Human Services includes an increase of $22.2 million in general funds. This Governor's recommendation contains increases of $11.1 million in general funds and $14.6 million in federal fund expenditure authority for discretionary provider inflation of 4.0%. Due to a change in the FMAP rate, the Governor is recommending increases of $11.1 million in general funds $0.4 million in other fund expenditure authority and a corresponding decrease in federal fund expenditure authority.

The Governor is recommending an increase of $0.1 million in general funds for the Department of Health. This increase includes funding for health protection inspections as well as increases for discretionary provider inflation of 4.0% and FMAP changes within the Rural Residency Program.

To ensure the safety of our citizens, South Dakota has a progressive criminal justice system is in place. Governor Noem is recommending an ongoing general fund increase of $5.1 million. This recommendation includes increases of $2.7 million for food services and Correctional Healthcare costs. The Governor is recommending an increase of $1.0 million in general funds to increase the reimbursement provided to counties for juvenile diversion programs. The Governor is also recommending $0.6 million for changes in placement of juveniles in the custody of the Department of Corrections and $0.5 million in general funds for discretionary provider inflation of 4.0%.

Governor Noem is recommending increases of $20.6 million in general funds, $8.8 million in federal fund expenditure authority, and $21.8 million in other fund expenditure authority for 4.0% market adjustment for state employees. The Governor is also recommending increases of $1.4 million in general funds and decreases of $1.0 million in federal fund expenditure authority and $0.4 million in other fund expenditure authority for changes to the employee health insurance plan.

# *SUMMARY OF RECOMMENDED BUDGET ADJUSTMENTS*

## State Aid, Technical Colleges, Higher Education, and Education

**NOTE:** FY2024 general bill amendments are changes made to the FY2024 General Appropriations Act and are included in the FY2024 column of the General Fund Condition Statement.

The Governor is recommending total general bill amendments of (2.0) FTE, ($111,216,112) in general funds, ($270,637,849) in federal fund expenditure authority, and $23,674,752 in other fund expenditure authority. The following paragraphs highlight the recommended changes to the FY2024 General Bill.

- ***Technical Colleges Equipment:*** The Governor is recommending an increase of $4,818,836 in general funds for equipment at the technical colleges.
- ***Hughes County Jail Contract:*** The Governor is recommending an increase of $4,521,240 in general funds to house 72 female offenders at the Hughes County Jail to address overcrowding at the Women's Prison in Pierre until the new facility is completed in Rapid City.
- ***Bureau Billings:*** The Governor is recommending increases of $2,121,992 in general funds, $1,989,002 in federal fund expenditure authority, and $5,857,923 in other fund expenditure authority to be distributed to state agencies for increases in BIT billing rates.
- ***Food Services:*** The Governor is recommending an increase of $1,777,457 in general funds due to meal rate and population changes at the adult correctional facilities and the Human Services Center.
- ***Coronavirus Relief Funds (CRF) Health Insurance Adjustment:*** The Governor is recommending an increase of $1,004,235 in general funds, a decrease of $1,133,332 in federal fund expenditure authority, and an increase of $36,197 in other fund expenditure authority for a health insurance adjustment.
- ***State Veterans' Home Contract Medical Staff:*** The Governor is recommending an increase of $847,420 in general funds and a decrease of $847,420 in other fund expenditure authority to assist with nurse staffing shortages at the State Veterans' Home.
- ***Technical Colleges Formula:*** The Governor is recommending an increase of $777,739 in general funds due to changes in the number of full-time equivalent students.
- ***Juvenile Community Corrections Placements:*** The Governor is recommending an increase of $582,666 in general funds and a decrease of $342,064 in federal fund expenditure authority for changes in the placement mix for youth adjudicated to the Department of Corrections.
- ***Digital Investigations:*** The Governor is recommending an increase of $275,000 in general funds for training opportunities and software to assist agents with digital investigations.
- ***Bureau of Information and Telecommunications Critical System Support:*** The Governor is recommending an increase of $210,000 in general funds, $5,573,063 in federal fund expenditure authority, and $375,442 in other fund expenditure authority to make upgrades to the state radio system.
- ***Department of Labor and Regulation Rent:*** The Governor is recommending an increase of $109,470 in general funds for rent at Job Service field
- ***Health Protection Inspections:*** The Governor is recommending an increase of $55,131 in general funds to cover expenses associated with health protection inspections.

- ***County and Tribal Veterans' Service Officer Salary Support:*** The Governor is recommending an increase of $7,437 in general funds to align the budget with estimated local participation for the county and tribal veterans' service officer salary supplement program.
- ***Legislator Salaries:*** The Governor is recommending a decrease of $151,802 in general funds to reflect the legislative salary decrease for the 2023 session.
- ***Various Statewide Utilities:*** The Governor is recommending decreases of $516,213 in general funds, $280,175 in federal fund expenditure authority, and $1,812 in other fund expenditure authority for adjustments in utilities based on projected usage and utility costs.
- ***Correctional Healthcare Reduction (SFRF):*** The Governor is recommending a decrease of $10,000,000 in general funds and an increase of $10,000,000 in federal fund expenditure authority due to coding allowable government services to State Fiscal Recovery Funds.
- ***Enhanced FMAP - COVID-19 PHE Unwinding:*** The Governor is recommending a decrease of $13,544,785 in general funds, an increase of $13,359,614 in federal fund expenditure authority, and a decrease of $106,205 in other fund expenditure authority due to the COVID-19 Public Health Emergency (PHE) unwinding.
- ***State Aid to General Education Revision:*** The Governor is recommending a decrease of $15,223,350 in general funds due to lower than projected student numbers and higher than projected property tax valuations in FY2024.
- ***Department of Human Services Utilization:*** The Governor is recommending decreases of $19,109,570 in general funds and $31,196,591 in federal fund expenditure authority to align budget with anticipated number of eligibles and expenses.
- ***Change in Medicaid and CHIP Eligibles:*** The Governor is recommending decreases of $20,844,290 in general funds and $30,503,083 in federal fund expenditure authority to align the traditional Medicaid budget with current enrollments and projected utilization.
- ***Change in Medicaid Expansion Utilization:*** The Governor is recommending decreases of $48,934,725 in general funds and $337,812,528 in federal fund expenditure authority to align the Medicaid Expansion budget with current enrollments and projected utilization.
- ***COVID-19 Federal Grant Expenditure Authority:*** The Governor is recommending an increase of $104,247,232 in federal fund expenditure authority to align the budgets of various state agencies with anticipated COVID-19 grant awards.
- ***Board of Regents Expenditure Authority Adjustment:*** The Governor is recommending increases of 8.0 FTE, $10,000,000 in federal fund expenditure authority, and $3,010,769 in other fund expenditure authority to align budget with anticipated expenditures.
- ***Department of Education Federal Fund Expenditure Authority:*** The Governor is recommending an increase of $4,518,492 in federal fund expenditure authority for supply chain assistance for meal programs, Farm to School grants, and data systems development.
- ***Attorney General Federal Fund Expenditure Authority:*** The Governor is recommending an increase of $1,005,332 in federal fund expenditure authority to align the budget with anticipated federal grant funding.
- ***Department of Labor and Regulation Quest Dislocated Worker Grant:*** The Governor is recommending an increase of 2.0 FTE and $718,906 in federal fund expenditure authority to increase the number of services that are provided for individuals with barriers to employment.
- ***Department of Labor and Regulation Reduction in Federally Funded FTE:*** The Governor is recommending decreases of 19.0 FTE and $1,829,717 in federal fund expenditure authority to align the budget with federal grant awards.
- ***Broadband Program Expenditure Authority Adjustment:*** The Governor is recommending a decrease of $18,952,000 in federal fund expenditure authority to align the budget with anticipated expenditures due to delays in IIJA funding.
- ***Risk Management Claims and Premiums:*** The Governor is recommending an increase of $8,850,000 in other fund expenditure authority to align the budget with anticipated expenditures for the Office of Risk Management.
- ***Department of Labor and Regulation Apprenticeship Grant:*** The Governor is recommending an increase of 7.0 FTE and $2,510,553 in other fund expenditure authority for the State Registered Apprenticeship grant.
- ***Department of Health Informational Boards:*** The Governor is recommending an increase of $2,400,000 in other fund expenditure authority for various changes throughout the department's boards and commissions.
- ***Department of Education Certification and PRF Systems:*** The Governor is recommending an increase of $1,251,220 in other fund expenditure authority for the Teacher Certification and Personal Record Form (PRF) systems.
- ***Division of Banking Operating Expenses:*** The Governor is recommending an increase of $260,053 in other fund expenditure authority for operational increases in the Banking Division.
- ***Highway Patrol - Computer Lease:*** The Governor is recommending an increase of $78,032 in other fund expenditure authority for necessary hardware for Highway Patrol Officers.

| FY2024 EXPENDITURE TRANSFERS | FTE | GENERAL FUNDS | FEDERAL FUNDS | OTHER FUNDS | TOTAL FUNDS |

# Tax Expenditures

Recommended Budget, Fiscal Year 2026-2027

Tennessee Code Annotated (TCA) 9-4-5106(a)(1)(B) requires the Budget Document to include a schedule of exemptions from state taxes. This section is intended to fulfill that statutory obligation.

Under the law, the Budget Document is required to identify all exemptions from state taxes, to the extent that it is practicable, and estimate the amount of revenue that would have been collected by the state in the ensuing fiscal year, if the exemptions were not to exist. No format or reporting period is specified.

## Tax Exemptions

It is not possible to estimate the amount of revenue lost for each of the tax exemptions found in the Tennessee code. For example, since 1947, the list of nonprofit institutions that are exempt from the sales tax has grown dramatically. Such institutions are allowed to buy tangible goods and certain services tax free. Retailers and sellers require proof of exemption and keep records of exempt sales; but tax returns filed with the Department of Revenue do not show detailed statistics on exempt sales by type of exempt entity. Such data is only available in the records of the thousands of individual retailers and vendors who sell directly to the public. Therefore, the tax exemptions listed in the present report consist only of those that can be estimated with a reasonable degree of accuracy.

The fiscal impact of Tennessee's major tax exemptions is presented in tabular form in Tables 1-A and 1-B. Estimates of revenue loss are provided for fiscal year 2026-2027. Table 1-A presents revenue foregone on services not currently taxed. These services represent activities that were not included in the original tax base. Table 1-B presents revenue foregone due to specific exemptions in the existing sales tax law. For each item in this table, the exemption is briefly described and the specific authorization of the Tennessee code is cited.

It is difficult to estimate the true cost of tax exemptions for two reasons. First, each exemption is considered separately, without regard to how it overlaps with other provisions of the tax code. Summing tax exemptions may result in double-counting in cases where exemptions overlap. Second, the estimates of revenue loss provided in the tables do not generally take into account the impact of a change in a particular tax provision on taxpayer behavior that impacts other taxes (the estimates do not reflect secondary or feedback effects).

## Items Not in Sales Tax Base
### Currently Untaxed Services: Table 1-A

| Service/Product Area Exempted | FY 2026-2027 Estimated Loss State | Local * |
|---|---|---|
| **Administrative and Support Services** | **$ 805,200,000** | **$ 287,600,000** |

# TAX EXEMPTIONS *and* TAX INCIDENCE

*A Report to the Governor and the 89TH Legislature • January 2025*

6723/8585

**Glenn Hegar** Texas Comptroller of Public Accounts

January 17, 2025

The Honorable Greg Abbott, Governor
The Honorable Dan Patrick, Lieutenant Governor
The Honorable Dustin Burrows, Speaker of the House
Members of the 89th Legislature

Ladies and Gentlemen:

As required by Texas Government Code Section 403.014, the Tax Exemptions & Tax Incidence Report estimates the value of each exemption, exclusion, discount, deduction, special accounting method, credit, refund and special appraisal available to payers of Texas' sales, motor vehicle sales, franchise and oil production taxes, as well as property taxes levied by Texas school districts. The estimates in this report are based on revenue projections derived from the *2024-25 Certification Revenue Estimate* (October 2023).

For fiscal 2025, aggregate exemptions, exclusions and other deductions for the revenue sources included in this report will total an estimated $98.14 billion. Of this amount, the exemptions related to state taxes will account for $71.22 billion; school property tax exemptions will account for the remaining $26.92 billion.

I would note, however, that a significant share of total exemptions — $27.11 billion of the estimated fiscal 2025 amounts — is accounted for by exemptions to the sales tax for items that are taxable under other law. Included among the items taxed under other law are insurance premiums, motor vehicle sales and motor fuels; their consequent exemptions from the sales tax are estimated to be worth $14.95 billion, $6.35 billion and $4.54 billion, respectively.

Other exemptions from the sales tax include $9.68 billion in raw materials used in manufacturing, $4.3 billion in food for home consumption (i.e., groceries) and $1.08 billion worth of over-the-counter drugs and prescription medicine and devices.

This report also presents the results of the analysis prepared in accordance with Texas Government Code Section 403.0141, which directs the Comptroller of Public Accounts to report on the incidence of certain taxes and exemptions.

The material in this report is provided for informational purposes only. This report makes no recommendations for retaining, eliminating or amending any provisions of the law.

Sincerely,

Glenn Hegar

# Overview

In state fiscal year 2025 — from Sept. 1, 2024, to Aug. 31, 2025 — exemptions[1] from the sales, franchise, motor vehicle sales and oil production taxes will amount to an estimated $71.22 billion.

Sales tax exemptions will total $66.79 billion, franchise tax exemptions will total $4.15 billion, motor vehicle sales tax exemptions will total $229 million, and oil production tax exemptions will total $46 million. Exemptions or special appraisals for local school district property taxes will amount to an estimated $26.92 billion in tax year 2025.

The above amounts include exemptions and exclusions from the tax base as well as special rates, deductions and discounts.

In fiscal 2024, combined state revenues — accruing to all funds excluding trust — from the sales, franchise, motor vehicle sales and oil production taxes totaled $66.59 billion, accounting for 81 percent of the state's total tax revenue. School property taxes generated an estimated $39.5 billion in tax year 2023, which was 48.5 percent of the total property taxes levied in 2023.

## About the Estimates

The exemption estimates are unadjusted amounts, meaning that elimination or repeal of a specific exemption would not necessarily produce the dollar amounts cited in this report. Actual receipts would depend on enforcement, taxpayer compliance, effective dates of legislation repealing the exemption, taxpayer discounts and the exact wording of any legislation.

Each estimate is based on the best information available from public and private sources, including Comptroller's office tax records. No recommendations related to the estimated exemptions have been formulated.

This report briefly and generally describes state tax exemptions. These descriptions do not grant rights or impose obligations; the Tax Code and administrative rules determine actual taxability.

There are numerous exemptions, especially from sales tax and school property tax, the value of which are not estimated. Meaningful and reliable estimates are often unfeasible due to the nature and limitations of available data.

In 2023, the reported gross sales of businesses required to file sales tax reports was approximately $3.5 trillion, while their reported amount subject to sales tax was $827 billion — approximately 24 percent of reported sales were subject to sales tax. **Table 2** of this report enumerates specific sections of the Tax Code, many with distinct subsections that provide for exemptions from sales tax. Additionally, there are items not taxed — exclusions — that do not require explicit exemption, because transactions in the items are simply beyond the scope of the tax. Transactions in real property, intangible personal property and most services are not taxed, but do not require explicit exemption, because they are outside the scope of a tax that is imposed on tangible personal property and only specifically enumerated services.

[1] The term "exemptions" as used in this overview includes exemptions, exclusions, discounts, deductions, special accounting methods, credits, refunds and special appraisals.

6729/8585

It would be exceptionally burdensome on taxpayers to require detailed reporting of transactions corresponding to each of the exemption sections and subsections and to a schedule of excluded transactions. No such detailed reporting is imposed by statute or administrative rule. Consequently, tax reports do not contain data sufficient to estimate the value of all exemptions and exclusions.

Estimation requires identification of pertinent, useful data available from external sources. Estimates depend on data obtained from sources such as the U.S. Census Bureau, the U.S. Energy Information Administration, the U.S. Department of Agriculture, the Federal Highway Administration, the Texas Health and Human Services Commission, trade associations, academic papers and often proprietary industry analyses by private consulting firms. When exemptions identified in tables have not been estimated, it is because requisite data do not exist or have not been identified and acquired from an external source.

In the case of property tax, estimates of the value of exemptions or other provisions that limit property tax liabilities are based on information provided by county appraisal districts and on school district property tax rates. No estimate is made if the necessary information regarding property value subject to an exemption or limitation is not included in the reports filed by appraisal districts with the Comptroller's Property Tax Assistance Division — whether because the property in question is never appraised (e.g., churches, cemeteries, military bases) or because the information is not required for compliance with the laws governing appraisal districts and their constituent taxing authorities. ✪

# Limited Sales and Use Tax

The sales and use tax is the largest source of tax revenue for Texas state government, bringing in 58 cents of every state tax dollar in fiscal 2024. The sales tax is a levy on transactions. In general, it is imposed on final sales, rentals and leases of tangible personal property — physical goods — and on sales of certain services such as amusement, telecommunications services and the repair of tangible personal property.

While sales and use tax collections totaled $47.07 billion in fiscal 2024, the tax is limited in scope when compared with the total number and kind of transactions in the economy because of various exemptions and exclusions. For simplicity, this tax is referred to as the "sales tax" throughout the remainder of this discussion.

## Classifying Sales Tax Exemptions

Liability for the sales tax is limited by three statutory mechanisms: exemptions, exclusions and discounts. Estimates of their values — that is, the cost to the state government in lower sales tax revenue collections — are provided in **Table 1**.

*Exemptions* protect items that would be taxable except for specific provisions in the law. For example, because the Texas sales tax law taxes all sales of tangible personal property, groceries would be taxable if they were not specifically exempted.

*Exclusions* are transactions not taxed because they fall outside the legal definition of a taxable sale. Exclusions include sales of intangibles, such as stocks and bonds, and sales and rentals of real property, as well as sales of most services. Currently, only certain specified services are subject to the sales tax.

*Discounts* are handling fees that Texas law allows tax permit holders to retain in exchange for collecting sales taxes and sending them to the state on time. The "timely filer" discount is 0.5 percent of the amount of sales tax collected. An additional 1.25 percent "pre-payment" discount is available to those who pay their estimated taxes in advance.

Exemptions are provided for certain basic necessities such as groceries, residential gas and electric utilities, and prescription and over-the-counter drugs. Other sales are exempted when made to certain groups. For example, governmental bodies and religious and nonprofit educational groups buy items for their own use tax free.

Other exemptions apply because the tax would be impractical to collect. For example, those who make only occasional sales (one or two sales of taxable items per year) do not collect sales tax; purchasers with sales tax permits, however, are responsible for remitting the tax.

Most other exemptions and exclusions prevent multiple taxation of the same items or reduce business costs.

### Sales Tax: **Exemptions**

Specific sections of the Texas Tax Code exempt particular items from the sales tax. The following discussion outlines these exemptions and includes references to the appropriate sections of the Tax Code covering those items.

**Table 2** summarizes the estimated value of these exemptions for fiscal 2025 and the following five fiscal years. Exemptions for which the value cannot be estimated due to insufficient data are marked "cbe."

**Table 1**

### Value of Sales Tax Exemptions, Exclusions and Discounts

Fiscal 2025 to 2030 – In millions of dollars

| Item | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|
| Exemptions | $51,160.4 | $52,226.6 | $54,481.8 | $56,506.3 | $59,044.5 | $61,742.3 |
| Exclusions | 15,229.9 | 15,991.9 | 16,787.8 | 17,618.8 | 18,470.4 | 19,336.8 |
| Discounts | 398.3 | 419.2 | 439.5 | 460.6 | 481.6 | 496.1 |
| **Total** | **$66,788.6** | **$68,637.7** | **$71,709.1** | **$74,585.7** | **$77,996.6** | **$81,575.2** |

*Note: Totals may not sum due to rounding.*

Section 151.302.
### Sales for Resale

The sale of a taxable item (tangible personal property or a taxable service) to a purchaser who will resell the item is exempted. For example, when a wholesaler sells books to a bookstore, tax is not due on the sale because the retailer will resell the books. The Tax Code has exempted such sales since the sales tax was imposed in 1961. One reason for the sales-for-resale exemption is to keep the sales tax from pyramiding or cascading on every transaction.

Section 151.3021.
### Packaging Supplies and Wrapping

Internal and external wrapping and packaging supplies are exempt if sold to a dry cleaner for use in the packaging of items laundered by the dry cleaner. This section was added in 2001.

Section 151.303.
### Previously Taxed Items: Use Tax Exemption or Credit

This section provides that the storage or use of an item is not subject to use tax if the sale of the item was subject to sales tax. It also entitles a taxpayer to credit against the Texas use tax for any similar tax the taxpayer paid to another state.

Section 151.304.
### Occasional Sales

An occasional sale of a taxable item is exempted. "Occasional sales" include events such as the sale of the entire operating assets of a business or of an identifiable segment of a business, or one or two sales of taxable items during a 12-month period by a person who is not in the business of selling taxable items. The sales tax law has exempted such sales since the tax was imposed in 1961. The exemption also applies to up to $3,000 per year of sales by an individual of items that were originally purchased for personal use by the individual or a family member. The exemption does not apply to the sale of a taxable item by a marketplace seller through a marketplace.

Section 151.305.
### Coin-operated Machine Sales

This provision exempts food (but not beverages), candy, chewing gum and children's toys that are sold through a "bulk vending machine" (e.g., gumball machines) for 50 cents or less. This exemption was added in 1989.

Section 151.3051.
### Sales Through Certain Vending Machines

This provision exempts sales through vending machines owned by a nonprofit organization and maintained by individuals with special needs as part of a program operated by a nonprofit. This exemption was added in 2015.

Section 151.306.
### Transfers of Common Interests in Property

This provision exempts the sale of an interest in tangible personal property if it is sold to another person, who before or after the sale owns a joint or undivided interest in the property with the seller and if the sales tax has previously been paid on the tangible personal property. The law has exempted such sales since the tax was imposed in 1961.

Section 151.307.
### Exemptions Required by Prevailing Law

This section exempts items that the state is prohibited from taxing by the U.S. or Texas constitutions or by federal law. For example, federal law prohibits states from taxing sales to federal credit unions. This provision also lists the documentation required when an exemption is claimed because an item has been exported to a foreign country.

Section 151.3071.
### Installation of Certain Equipment for Export

Electronic audio equipment purchased in Texas for use outside the U.S. is exempt from Texas sales tax, even if the equipment is installed (e.g., in a motor vehicle) in Texas. This section was added in 1993.

Section 151.308.
### Items Taxed by Other Law

This provision exempts from sales tax items taxed under other Texas tax laws, including oil taxed under the oil production tax, fuels covered by motor fuels taxes, cement taxed under the cement production tax, motor vehicles covered by the motor vehicle sales tax, alcoholic beverages taxed under the mixed beverage taxes, oil well services taxed under the oil well service tax and insurance premiums subject to insurance premium taxes. The sales tax law has contained such provisions since 1961.

There is no cost to exempt crude oil from the sales tax under this section because these items would qualify for exemption as materials used in manufacturing, as would most of cement.

The amounts for the other exemptions in this section would be in addition to the revenues collected for those items under taxes authorized elsewhere in the Tax Code.

If motor fuels were taxed under the sales tax, the resulting revenue would be dedicated (for transportation and education spending) according to the Texas Constitution.

Motor vehicles are currently taxed under a separate sales tax at the same rate as the state sales tax; however, there is no local motor vehicle sales tax.

It is assumed that if the sales tax were applied to insurance, buyers would pay sales tax on the purchase of insurance policies, with the revenue collected and remitted by insurance companies.

Section 151.309.
### Governmental Entities

This section exempts items sold, leased, or rented to, or stored, used, or consumed by governmental entities, including the U.S., an agency or instrumentality of the U.S., the state of Texas or a county, city, special district or other political subdivision of this state. The sales tax law has contained such provisions since 1961.

Section 151.310.
### Religious, Educational and Public Service Organizations

This section exempts items sold, leased, or rented to, or stored, used, or consumed by religious, educational or charitable organizations; organizations exempted from federal income taxes under Sections 501(c)(3), (4), (8), (10) or (19) of the Internal Revenue Code (IRC); nonprofit youth athletic organizations; volunteer fire departments; chambers of commerce; and convention and tourist promotional agencies. The section references certain guidelines that nonprofit hospitals, exempted under this section, must meet in providing charity care and community benefits. The sales tax law has contained several of these exemptions since 1961; others were added or expanded since then.

The provision also allows religious, educational and charitable organizations and Sections 501(c)(3), (4), (8), (10) or (19) organizations to hold two one-day-long, tax-free sales or auctions during a calendar year. This provision was added in 1977 and subsequently expanded.

Section 151.3101.
### Amusement Services

Amusement services are exempted if they are exclusively provided by certain organizations, including this state, a municipality, county, school district, special district or other political subdivision of Texas or the U.S.; educational, religious or charitable organizations; law enforcement associations; and other nonprofit organizations, or if the services are provided in a place designated as a historic landmark. For example, this section exempts sales of tickets to high school and college football games. This exemption was added in 1984 when amusement services became taxable.

Section 151.3102.
### Sale by Nonprofit Organization at County Fair

This section exempts sales made at a county fair to an attendee of the county fair by an organization that is exempt from the payment of federal income taxes under Section 501(a) of the IRC of 1986 by being listed as an exempt organization under Section 501(c)(3). The county fair must be operated by a county fair association on property owned by the county in order to qualify for the exemption.

Section 151.3105.
### Bingo Equipment Purchased by Certain Organizations

This section exempts bingo equipment purchased by an organization licensed to conduct bingo under Chapter 2001, Occupations Code, that is exempt from the payment of federal income taxes under Section 501(a) of the IRC of 1986 (as amended) by being listed as an exempt organization under Sections 501(c)(3), (4), (8), (10) or (19) of the IRC of 1986. This section was added in 2003.

Section 151.311.
### Taxable Items Incorporated Into or Used for Improvement of Realty of an Exempt Entity

This provision exempts certain items used in performing a contract to improve real property for a governmental entity or an organization exempt under Section 151.310. For example, a contractor building a new public school can purchase the building materials tax free. The contractor can also purchase tax free certain consumable supplies and certain taxable services performed at the job site, such as surveying or landscaping services. This provision was added in 1969 and has been amended several times since.

Section 151.3111.
### Services on Certain Exempted Personal Property

This section extends the exemption available for certain tangible personal property to services performed on that tangible personal property. For example, repair services performed on agricultural equipment (e.g., tractors, combines) are exempted from tax by this section. This exemption was added in 1984, when certain services became taxable.

Section 151.312.
### Periodicals and Writings of Religious, Philanthropic, Charitable, Historical, Scientific and Similar Organizations

This section exempts periodicals and writings that are published and distributed by a nonprofit religious, philanthropic, charitable, historical, scientific or other similar organization (but not an educational organization). The provision was added in 1989 to replace the previous exemption for religious periodicals, which the courts found unconstitutional.

Section 151.313.
### Health Care Supplies

This provision exempts sales of prescription and nonprescription drugs; corrective lenses and therapeutic devices prescribed by a doctor; insulin; hospital beds; hypodermic syringes or needles; braces; hearing aids; orthopedic, dental or prosthetic devices; blood glucose monitoring test strips; and certain devices used by people who are blind or deaf. Several of these items have been exempt since 1961, but the exemption has been expanded over the years.

6735/8585

Section 151.3131.
### Firearm Safety Equipment

This section exempts items defined as "firearm safety equipment" such as a gun lock box, a gun safe, a barrel lock, a trigger lock, a firearm safety training manual or electronic publication, or another item designed to ensure the safe handling or storage of a firearm from the sales and use tax. This provision was added in 2021.

Section 151.3132.
### Feminine Hygiene Products

This provision exempts feminine hygiene products, defined as a tampon, sanitary napkin, menstrual cup, menstrual sponge, menstrual pad, or other similar tangible personal property sold for the principal purpose of feminine hygiene in connection with the menstrual cycle or postpartum care.

Section 151.3133.
### Maternity Clothing

This provision exempts maternity clothing, defined as clothing labeled for a woman to wear during pregnancy that is designed to accommodate the changes in body size and shape that occur as a result of a pregnancy or to facilitate breastfeeding. The term includes a nursing bra or nursing pad.

Section. 151.3134.
### Breast Milk Pumping Products

This provision exempts breast milk pumping products. Exempted items include a breast pump, a breast milk storage bag or other container designed to store pumped breast milk, or a pumping bra.

Section 151.3135.
### Baby Bottles

This provision exempts baby bottles, defined as a bottle fitted with a nipple for giving milk and other drinks to a young child.

Section 151.314.
### Food and Food Products

This section exempts food products for human consumption, like cereals, milk, meat, poultry, fish, eggs, vegetables, fruit, snack items, spices, salt, sugar, coffee and tea. It does not exempt meals sold in restaurants, vitamins, over-the-counter medicines (see Section 151.313), soft drinks, ice and candy.

Meals, soft drinks and candy are exempted if sold by certain organizations, like elementary or secondary public or private schools, student or parent-teacher organizations, churches, hospitals, retirement facilities or nonprofit youth athletic organizations. The sales tax law has exempted food products since it was enacted in 1961.

Section 151.3141.
### Food Stamp Purchases

This section exempts items purchased with food stamps. Federal law prohibits states from participating in the food stamp program without such an exemption, which Texas added in 1987.

Section 151.315.
### Water

This provision, which has been in the law since 1961, exempts sales of water. It does not include the disposal of wastewater, which is a nontaxable service.

Section 151.316.
### Agricultural Items

This section exempts certain agricultural items including horses, mules and work animals; animals that ordinarily constitute food (e.g., cattle, poultry); feed for farm and ranch animals and for animals held for sale; certain seeds and annual plants; chemicals used on a farm or ranch in production; and machinery and equipment used on a farm or ranch to build roads or water facilities. The section also exempts items used to produce agricultural products for sale or to process, pack or market agricultural products; underground irrigation equipment; and ice used by commercial fishing boats. Several of these items have been exempt since 1961. As of Jan. 1, 2012, persons wishing to claim the agriculture exemption must be registered with the Comptroller's office.

Section 151.3162.
### Timber Items

This provision, added in 1999, exempts seedlings, certain chemicals, machinery and equipment and irrigation systems used in the production of timber. The exemption, phased in over several years, was created as a credit or refund of sales taxes paid on these items beginning on Oct. 1, 2001, and became fully effective Jan. 1, 2008. As of Jan. 1, 2012, persons wishing to claim the timber exemption must be registered with the Comptroller's office.

Section 151.317.
### Gas and Electricity

This section exempts certain sales of gas and electricity, including when used in processing a product for sale; in exploring for or producing and transporting a material extracted from the earth; in agricultural operations; by an electric utility; in residences including apartments, nursing homes and dormitories; and in timber operations.

Section 151.3171.
### Sulphur

This section exempts the sale of sulphur. The provision was added in 2015 when Tax Code Chapter 203, Sulphur Production Tax, was repealed.

Section 151.318.
### Property Used in Manufacturing

This section exempts several types of items used in manufacturing products for sale, including materials that become part of the manufactured product. It also exempts tangible personal property necessary or essential to the manufacturing operation if it causes a physical or chemical change in the product being manufactured. The section exempts services performed directly on the manufactured product; certain chemicals used during the manufacturing operation; wrapping and packaging materials used as part of the completion of the manufacturing process; certain equipment used to reduce water use and to reuse and recycle wastewater streams in the manufacturing process; pollution control equipment; and cleanroom equipment.

It also exempts certain purchases by a person overhauling or repairing jet turbine aircraft engines; publishers of newspapers that are distributed free of charge; and purchases of semiconductor fabrication cleanrooms and equipment.

The section specifically excludes from exemption certain items, including equipment rented for less than a year, hand tools, office supplies and equipment and supplies used in maintenance and janitorial activities. The section also excludes from exemption items relating to sales or distribution activities, storage and maintenance, research and development and transportation.

Section 151.3182.
### Certain Property Used in Research and Development (R&D) Activities

This section exempts depreciable tangible personal property when directly used in "qualified research" as defined by IRC Section 41, so long as the taxpayer claiming this exemption does not also take the franchise tax credit for taxable entities engaged in qualified research. This exemption was added in 2013. This section expires Dec. 31, 2026. National Science Foundation data indicate business R&D spending in Texas was $31.4 billion, and R&D employment was 125,000.

Section 151.3185.
### Property Used in the Production of Motion Pictures or Video or Audio Recordings and Broadcasts

Equipment is exempt when the item is necessary or essential and used directly in the production of motion pictures, video or audio recordings. This equipment exemption had previously been included under Section 151.318. This section was added in 1999. This section also exempts items used in digital TV and radio broadcasting.

Section 151.3186.
### Property Used in Cable Television, Internet Access or Telecommunications Services

This section allows providers of cable television, internet access or telecommunications services a refund of sales and use taxes they pay on most items they use to provide their services. The maximum amount that can be refunded in the aggregate under this section is $50 million per year. This exemption was added in 2013.

Section 151.319.
### Newspapers and Property Used in Newspaper Publication

This section exempts sales of newspapers. It also exempts advertising supplements printed to the special order of a customer, distributed as a part of the newspaper and delivered to the person who is responsible for the distribution of the newspaper in which the item is distributed (i.e., not delivered to the customer).

Section 151.320.
### Magazines

Sales of subscriptions to magazines that are sold for a semiannual or longer period and sent as second-class mail are exempt from tax.

Section 151.321.
### University and College Student Organizations

This section exempts sales by certain qualified student organizations at fundraising events, if the event lasts only one day, only one sale is held each month and the sales price of the item is $5,000 or less. This exemption was added in 1995.

Section 151.322.
### Containers

This provision exempts sales of certain containers, including a container sold with its contents if the sales price of the contents is not taxed; a non-returnable container sold without contents to a person who fills the container and sells the contents and the container together; and a returnable container sold with its contents or resold for refilling.

Section 151.323.
### Certain Telecommunications Services

This section exempts several different types of transactions involving the sale of telecommunications services. They include the resale of telecommunications services, long distance services that are neither originated from nor billed to a number or address in Texas and broadcasts (other than cable TV) by radio or TV stations licensed by the Federal Communications Commission (FCC).

6737/8585

Section 151.324.
### Equipment Used Elsewhere for Mineral Exploration or Production

This section exempts tangible personal property (e.g., drill pipe, casing or tubing) used for the exploration for or production of oil, natural gas, Sulphur or other minerals offshore not in this state. The exemption was added in 1967.

Section 151.325.
### Basic Fee for Internet Access Service

This section, added in 1999, exempts the first $25 of a monthly charge for internet access. The exemption applies without regard to whether the access service is bundled with another service or to the billing period used by the internet access service provider. Amounts paid for access service in excess of $25 (on a monthly basis) are subject to taxation. This exemption is of no consequence as of June 30, 2020, as federal law prohibits state sales taxation of internet access service.

Section 151.326.
### Clothing and Footwear for a Limited Period

This section exempts items of clothing and footwear. The exemption is limited to items costing less than $100. The items are exempt from tax only during a three-day period consisting of a Friday, Saturday and Sunday of each August in advance of the start of school. The exemption does not apply to special or protective clothing or footwear, nor does it apply to accessories such as jewelry, handbags or luggage. The rental of clothing is not exempt. This section was added in 1999.

Section 151.327.
### School Supplies and School Backpacks Before Start of School

This section exempts the sale of school supplies and backpacks costing less than $100 and purchased for use by students in public or private elementary or secondary schools. The items are exempt from sales tax only during a three-day period consisting of a Friday, Saturday and Sunday of each August in advance of the start of school. Backpacks were exempted in 2007; school supplies were added in 2009.

Section 151.328.
### Aircraft

This provision exempts aircraft 1) sold to a person using the aircraft as a certificated or licensed carrier of persons or property; 2) sold to a person using the aircraft for training or instructing pilots in a licensed course of instruction; 3) sold to a foreign government; 4) sold to a person for use and registration in another state or nation; or 5) sold to a person for agricultural use.

In addition, the repair, remodeling and maintenance services performed on aircraft operated by carriers or flight schools, and the machinery and equipment used in performing such repair services, are exempt.

Sales of tangible personal property permanently affixed or attached as a component part of an aircraft operated by a carrier or flight school are also exempt.

Section 151.329.
### Certain Ships and Ship Equipment

This section exempts sales of 1) component parts of a vessel of eight or more tons displacement and used in a commercial enterprise or used commercially for pleasure fishing by individuals as paying passengers on the vessel; 2) a commercial vessel of eight or more tons displacement sold by the vessel's builder; 3) materials and labor used in repairing or converting a commercial vessel of eight or more tons displacement; 4) materials and supplies for a vessel operating exclusively in foreign or interstate coastal commerce used in the maintenance and operation of the vessel or that become component parts of the vessel; and 5) certain materials and supplies purchased by a provider of stevedoring services for a qualifying vessel.

Section 151.3291.
### Boats and Boat Motors

This provision exempts the sale, but not the lease or rental, of a boat or boat motor taxable under the boat and boat motor sales and use tax (Chapter 160). This section was added in 1991, when the boat and boat motor sales and use tax was enacted.

Section 151.330.
### Interstate Shipments, Common Carriers and Services Across State Lines

This section exempts the sale of tangible personal property shipped outside Texas by the seller or delivered by the seller to a carrier or a forwarding agent for shipment outside the state.

The section also exempts tangible personal property acquired outside this state stored in Texas temporarily and used solely outside this state or physically attached to other tangible personal property used solely outside this state.

Services performed for use outside the state are exempt.

The section also exempts tangible personal property sold to a common carrier if the carrier ships the property outside this state using its own facilities and uses the property in its business as a common carrier outside this state. Repair or replacement parts acquired outside this state for a self-propelled vehicle used as a licensed and certificated common carrier are also exempt.

Section 151.331.
### Rolling Stock, Train Fuel and Supplies

Rolling stock, locomotives, fuel and supplies essential to the operation of trains are exempt, as are electricity and certain fuels used in the repair or maintenance of rolling stock.

Section 151.332.
### Certain Sales by Senior Citizen Organizations

This provision exempts sales of items produced by a person 65 years of age or older if sold at a qualified fundraising sale sponsored by a nonprofit organization that provides assistance to elderly persons. The exemption was added in 1981.

Section 151.333.
### Energy-Efficient Products

This section exempts sales of certain energy-efficient products that have been designated as an Energy STAR qualified product. The exemption is limited to 1) air conditioners not exceeding $6,000; 2) clothes washers; 3) ceiling fans; 4) dehumidifiers; 5) dishwashers; 6) incandescent or fluorescent light bulbs; 7) programmable thermostats; and 8) refrigerators not to exceed $2,000. The items are exempt from tax only during a three-day period beginning on the Saturday preceding the last Monday in May and ending on the last Monday in May. This section was added in 2007.

Section 151.3335.
### Water-Efficient Products

This section provides for an exemption of certain water-conserving products used on residential property when purchased during a three-day period beginning on the Saturday preceding the last Monday in May. Eligible items include a soaker or drip irrigation system, rain collection system, mulch and certified WaterSense products. This exemption was added in 2015.

Section 151.334.
### Components of Tangible Personal Property Used in Connection with Sequestration of Carbon Dioxide

This section exempts components of tangible personal property used in connection with an advanced clean energy project that are installed to capture, transport, inject or prepare for transportation or injection of carbon dioxide from an anthropogenic emission source if the carbon dioxide is sequestered in Texas as part of an enhanced oil recovery project under conditions that create a reasonable expectation that at least 99 percent of the carbon dioxide will remain sequestered from the atmosphere for at least 1,000 years. This exemption was added in 2009.

Section 151.336.
### Certain Coins and Precious Metals

The sale of gold, silver or numismatic coins, or of platinum, gold or silver bullion, is exempt. This section was added in 1989 and amended in 2013 to remove a $1,000 threshold for the exemption.

Section 151.337.
### Sales by or to Indian Tribes

This section exempts items sold to a tribal council or a business owned by a tribal council of the Alabama-Coushatta Indian Tribe of Texas, Tigua Indian Tribe of Texas or Texas Band of Kickapoo Indians.

The section also exempts an item sold by a tribal council, or a business owned by a tribal council, if the item is a cultural artifact made by a tribe member and sold within the boundaries of either the reservation or trust land held by the tribe. This exemption was added in 1983.

Section 151.338.
### Environment and Conservation Services

This provision exempts services to repair, remodel, maintain or restore tangible personal property if the service is required by statute, order or rule of any commission, agency, court or political, governmental or quasi-governmental entity to protect the environment or to conserve energy. The exemption was added in 1984.

Section 151.340.
### Official State Coin

This section exempts the sales of official state coins produced under Section 11.05, State Purchasing and General Services Act (Article 601b, Vernon's Texas Civil Statutes). The exemption was added in 1987.

Section 151.341.
### Items Sold to or Used by Development Corporations

This provision exempts items sold to a nonprofit corporation formed under the Development Corporation Act of 1979 (Article 5190.6, Vernon's Texas Civil Statutes), if the item is for the exclusive use and benefit of the nonprofit corporation.

Section 151.3415.
### Items Sold to or Used to Construct, Maintain, Expand, Improve, Equip or Renovate Media Production Facilities at Media Production Locations

This section exempts the sale of tangible personal property used 1) for the construction, maintenance, expansion, improvement or renovation of a media production facility at a qualified media production location; 2) to equip a media production facility at a qualified media production location; or 3) for the renovation of a building or facility at a qualified media production location that is to be used exclusively as a media production facility. This exemption was added in 2009.

Section 151.342.
### Agribusiness Items

This section exempts sales of bins used as containers in transporting fruit, vegetables or poultry from the farm to a location where the items are processed, packaged or marketed. Also exempt are poultry cages used in transportation to a location for processing, packaging or marketing. The exemption was added in 1983 and expanded in 1995.

6739/8585

Section 151.343.
### Animals Sold by Nonprofit Animal Shelters or Nonprofit Animal Welfare Organizations

The sale, including an adoption fee, of an animal by a nonprofit animal shelter or nonprofit animal welfare organization is exempt. This section was added in 1999 and expanded in 2021.

Section 151.344.
### Post Exchanges on State Military Property

Taxable items sold, leased or rented to or stored, used or consumed by post exchanges on state military property are exempt from sales and use tax. In addition, taxable items sold, leased or rented by these exchanges are exempt.

Section 151.346.
### Intercorporate Services

This provision exempts certain services provided among affiliated entities, at least one of which is a corporation that reports its income to the Internal Revenue Service on a single consolidated return for the tax year in which the transaction occurs. The exemption was added in 1987.

Section 151.347.
### Certain Lawn and Yard Services

This section exempts lawn mowing and other yard maintenance services performed by individuals who are younger than 18 years of age, or who are 65 years of age or older, and whose total receipts in the most recent four calendar quarters do not exceed $5,000. Additionally, there are no taxes due on services performed by self-employed individuals whose total receipts in the most recent four calendar quarters do not exceed $5,000. The exemption was added in 1987 and amended in 1989 and 1995.

Section 151.348.
### Cooperative Research and Development Ventures

This provision exempts qualifying items sold in connection with a joint research and development venture as defined by 15 U.S.C. Section 4301 to an entity participating in the venture, if the items are created or substantially modified by or for the joint research and development venture. It also exempts purchases by a joint research and development venture, notice of whose establishment and participants was first published in the Federal Register on Jan. 17, 1985, and later on May 19, 1988. The section was added in 1987 and expanded in 1989.

Section 151.350.
### Labor to Restore Certain Property

This section exempts charges for labor to restore real or tangible personal property damaged within a disaster area by the condition that caused the area to be declared a disaster area by the governor or the president. It was added in 1993 and amended in 1995 and 1999.

Section 151.3501.
### Labor to Restore, Repair or Remodel Historic Sites

This section exempts the labor to restore, repair or remodel an improvement to real property if it is performed on property listed in the National Register of Historic Places. This section was added in 2003.

Section 151.351.
### Information Services and Data Processing Services

Twenty percent of the value of information services and data processing services are exempt. This section was added in 1999.

Section 151.353.
### Court Reporting Services

Court reporting services relating to the preparation of a document in a civil or criminal suit are exempt when sold to a participant in the suit. This includes depositions, discovery documents, testimony transcripts and statements of facts. It also applies to such records on audio or video tape or provided by a video photographer. This section was added in 1995.

Section 151.354.
### Services by Employees of Property Management Companies

Otherwise taxable, services provided by permanently assigned, on-site employees of property management companies are not subject to the sales tax. The exemption does not apply to services performed by an employee for properties other than the one to which the employee is permanently assigned. This section was added in 1999.

Section 151.355.
### Water-Related Exemptions

This section exempts equipment, services and supplies used for rainwater harvesting, desalination of surface water or groundwater; brush control to enhance water availability precipitation enhancement; the construction or operation of certain water supply or wastewater systems; and for certain items used to process, reuse and recycle wastewater that will be used in fracturing work at an oil or natural gas well. The exemption does not apply to consumer appliances or fixtures (e.g., washing machines, dishwashers, toilets) that are designed to limit water usage. This section was added in 2001 and amended in 2003 and 2007.

Section 151.356.
### Offshore Spill Response Containment Property

This section exempts certain tangible personal property and services related to an offshore spill response containment property as defined by Section 11.271. This exemption was added in 2013.

Section 151.3565.
### Emergency Preparation Supplies for a Limited Period

This section provides for an exemption of certain items including portable generators priced less than $3,000; certain storm protection devices and rescue ladders priced less than $300; and numerous other items priced less than $75 including portable light sources, batteries, fire extinguishers, waterproof sheeting and hatchets, among others, during a three-day period beginning on the Saturday preceding the last Monday in April and ending on the last Monday in April. This exemption was added in 2015.

Section 151.359.
### Property Used in Certain Data Centers; Temporary Exemption

This section exempts certain items necessary to the operation of qualifying data centers. A qualifying data center is one that a taxpayer builds or occupies after Sept. 1, 2013, that is at least 100,000 square feet; that creates at least 20 qualifying jobs; for which the minimum investment over a five-year period is $200 million; and that is not subject to an agreement to limit the appraised value of the property under Tax Code Chapter 313. This exemption was added in 2013.

Section 151.3595.
### Property Used in Certain Large Data Center Projects; Temporary Exemption

This section exempts certain items necessary to the operation of qualifying large data centers. A qualifying data center is one that a taxpayer builds or occupies after May 1, 2015, that is at least 250,000 square feet; that entails at least 20 megawatts transmission capacity; that creates at least 40 qualifying jobs; for which the minimum investment is $500 million over a five-year period; and that is not subject to an agreement to limit the appraised value of the property under Tax Code Chapter 313. This exemption was added in 2015.

Section 151.429.
### Enterprise Projects (Refunds)

This section makes enterprise projects eligible for a refund of sales taxes paid on all taxable items for use at a qualified business site related to the project. The refund amounts are subject to annual limits and vary as a function of the amount of capital investment and the number of jobs created or retained.

Otherwise, eligible refund amounts above the annual limits may be carried forward to subsequent years.

This section also entitles the owner of a qualified hotel project to a refund of the sales and hotel occupancy taxes paid or collected by the project or by businesses located in the hotel project during the first 10 years after the hotel project is open for occupancy. This section was added in 1987 and has been expanded several times since then.

Section 151.4291.
### Defense Readjustment Projects (Refunds)

In 1997, tax refunds for defense readjustment projects were authorized for certain equipment, machinery, building materials, labor, electricity and natural gas used in remodeling or constructing structures in a readjustment zone.

Section 151.4292.
### Pilot Program for Certain Persons Who Employ Apprentices (Refunds)

This section allows a person who is certified by the Texas Workforce Commission to provide a qualified apprenticeship to claim a refund of up to $2,500 for sales and use taxes paid by the person in a calendar year, provided they employ at least one apprentice and certain conditions are met. An eligible person could employ up to six apprentices under certain circumstances. This provision was implemented in 2021 and is set to expire Dec. 31, 2026.

Section 151.431.
### Job Retention in Enterprise Zones (Refunds)

A qualified business operating in an enterprise zone is entitled to a one-time refund of sales taxes paid on purchases of machinery or equipment used in an enterprise zone if the business has retained 10 or more jobs held by qualified employees during the year. The business must be certified as eligible for a refund by the governing body of the enterprise zone. The total amount of the one-time refund to a qualified business may not exceed $500 for each qualified employee retained, up to a limit of $5,000 for each qualified business. This section was added in 1989.

## Sales Tax: Exclusions

At its inception in 1961, the sales tax was not imposed on sales of services. Beginning in the mid-1980s, certain services have become subject to the sales tax.

In 1984, the sales tax was imposed on laundry and dry cleaning, amusement admissions, cable television service, auto parking, most non-automotive repair services and certain personal services.

The following year, the tax was extended to intrastate long-distance telephone service.

In 1987, a number of other services were added to the sales tax base, including local and interstate telephone service, repair and remodeling of nonresidential real property, data processing, landscaping and lawn maintenance, janitorial and extermination services, security services, garbage removal, credit reporting and debt collection, information services, certain surveying services and insurance services.

Many services remain excluded from the tax, some of which are profiled in **Table 3**. The value of the exclusions shown in **Table 3** is expected to be $15.2 billion in fiscal 2025 approximately 30.9 percent of total expected sales tax collections.

6741/8585

Of the services excluded by the Tax Code, the largest group is Business and Professional services. These include medical, dental and other health care; legal services; accounting and audit services; engineering and architectural services; real estate brokerages; financial securities brokerages; and veterinary services.

Another large exclusion is for labor charges by contractors on new residential and nonresidential construction jobs. Labor for residential repair and remodeling also remains tax free. The materials used in construction jobs, however, are subject to sales tax.

## Sales Tax: **Discounts**

Texas' sales tax law allows two kinds of discounts, as shown in **Table 4**.

Taxpayers who report and remit on time may retain 0.5 percent of the taxes they collect as compensation for collecting those taxes. In fiscal 2025, the value of this discount will be an estimated $213 million.

As an incentive for early payment, taxpayers who prepay their taxes based on a reasonable estimate of their tax liability are allowed to retain an additional 1.25 percent. The value of this prepayment discount will be about $185 million in fiscal 2025. ✪

**Table 3**

## Value of Selected Service Exclusions from the Sales Tax

Fiscal 2025 to 2030 – In millions of dollars

### Construction Labor

| Service Exclusion | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|
| New residential construction | $261.83 | $273.37 | $285.60 | $298.96 | $312.91 | $327.10 |
| New nonresidential construction | 791.7 | 826.6 | 863.5 | 903.9 | 946.1 | 989.0 |
| Residential repair and remodeling | 182.2 | 186.1 | 194.3 | 203.5 | 210.6 | 220.2 |

### Personal Services

| Service Exclusion | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|
| Hair, nail and skin care services | $133.59 | $141.55 | $149.64 | $157.64 | $165.70 | $173.84 |
| Death care services | 95.9 | 101.6 | 107.4 | 113.2 | 119.0 | 124.8 |
| Child day care | 261.8 | 277.4 | 293.3 | 309.0 | 324.8 | 340.7 |
| Coin-operated amusement and personal services | 64.1 | 67.9 | 71.6 | 75.4 | 79.1 | 82.9 |
| Miscellaneous personal services | 90.6 | 96.0 | 101.5 | 106.9 | 112.4 | 117.9 |

### Business and Professional Services

| Service Exclusion | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|
| Physician services | $1,913.4 | $2,027.4 | $2,143.4 | $2,258.0 | $2,373.3 | $2,490.0 |
| Dental services | 789.4 | 836.5 | 884.3 | 931.6 | 979.2 | 1,027.3 |
| Other health care | 1,284.5 | 1,361.0 | 1,438.9 | 1,515.8 | 1,593.2 | 1,671.6 |
| Legal services | 845.7 | 883.0 | 922.5 | 965.6 | 1,010.7 | 1,056.5 |
| Accounting and audit services | 558.0 | 582.6 | 608.7 | 637.1 | 666.9 | 697.1 |
| Architectural and engineering services | 719.0 | 750.7 | 784.3 | 820.9 | 859.3 | 898.2 |
| Specialized design services | 27.8 | 29.5 | 31.2 | 32.8 | 34.5 | 36.2 |
| Management consulting and public relations | 723.1 | 754.9 | 788.7 | 825.6 | 864.1 | 903.3 |
| Computer systems design and custom programming | 1,234.2 | 1,288.6 | 1,346.3 | 1,409.2 | 1,475.0 | 1,541.9 |
| Research and development services | 431.5 | 450.5 | 470.6 | 492.6 | 515.6 | 539.0 |
| Marketing research and public opinion polling | 56.3 | 58.8 | 61.5 | 64.3 | 67.3 | 70.4 |
| Testing labs | 193.8 | 202.4 | 211.4 | 221.3 | 231.6 | 242.1 |
| Outdoor display advertising | 39.7 | 41.5 | 43.3 | 45.3 | 47.5 | 49.6 |
| Employment agency services | 134.4 | 140.4 | 146.7 | 153.5 | 160.7 | 168.0 |
| Temporary labor supply | 834.3 | 871.1 | 910.1 | 952.6 | 997.1 | 1,042.3 |
| Financial securities brokerage | 383.2 | 400.1 | 418.0 | 437.5 | 457.9 | 478.7 |
| Other financial services | 526.2 | 549.4 | 573.9 | 600.8 | 628.8 | 657.3 |
| Real estate brokerage and agency | 592.5 | 618.6 | 646.2 | 676.5 | 708.0 | 740.1 |
| Freight hauling (intrastate) | 494.5 | 516.3 | 539.4 | 564.6 | 591.0 | 617.8 |
| Other transportation (except scheduled passenger) | 110.4 | 115.2 | 120.4 | 126.0 | 131.9 | 137.9 |
| Veterinary services | 191.4 | 202.9 | 214.5 | 225.9 | 237.5 | 249.1 |

### Other Services

| Service Exclusion | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|
| Automotive maintenance and repair | $992.86 | $1,052.03 | $1,112.19 | $1,171.64 | $1,231.49 | $1,292.03 |
| Car washes | 75.8 | 80.3 | 84.9 | 89.4 | 94.0 | 98.6 |
| Private vocational education | 102.3 | 108.4 | 114.6 | 120.7 | 126.9 | 133.1 |
| Other educational services | 93.8 | 99.4 | 105.1 | 110.7 | 116.4 | 122.1 |

| Total | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|
| **Total Value of Selected Service Exclusions** | **$15,229.9** | **$15,991.9** | **$16,787.8** | **$17,618.8** | **$18,470.4** | **$19,336.8** |

## Sales Tax Discounts

Fiscal 2025 to 2030 – In millions of dollars

| Discount | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|
| Timely Filer Discount | $213.3 | $224.5 | $235.4 | $246.7 | $257.9 | $265.6 |
| Prepayment Discount | $185.0 | $194.7 | $204.2 | $214.0 | $223.7 | $230.4 |
| **Total** | **$398.3** | **$419.2** | **$439.5** | **$460.6** | **$481.6** | **$496.1** |

*Note: Totals may not sum due to rounding.*

# Franchise Tax

The franchise tax serves as Texas' primary business tax. Adopted in its modern-day form in 1907, the franchise tax is one of Texas' oldest revenue sources. Originally levied as a tax on corporate assets, the tax changed little but for the rate until 1991. That year, in answer to revenue shortfalls related to legal challenges to the method of tax computation and to long-standing equity concerns, the Legislature reformulated the tax. The franchise tax from 1992 to 2007 was computed on a dual tax base of capital (net worth) and earned surplus (modified federal taxable income).

Prior to the Third Called Session of the 79th Legislature, a commission appointed by Gov. Rick Perry proposed a major rewrite of the franchise tax to provide some of the revenue needed for reducing the maintenance and operation component of local school district property tax rates. These changes included broadening the tax base to include the many entities that had reorganized as partnerships to avoid paying the old franchise tax and basing the tax on a business's taxable margin rather than capital or earned surplus. In May 2006, the 79th Legislature, Third Called Session, adopted this major restructuring of the tax in House Bill (HB) 3, with those changes becoming effective for tax due in 2008.

The changes affected many aspects of the franchise tax. Legal forms of business subject to the tax were expanded to include partnerships, trusts and other business forms. Sole proprietorships and general partnerships consisting solely of natural persons are still excluded from the tax.

## How the Franchise Tax is Computed

The computation of the franchise tax completely changed with the revisions effective in 2008. The old tax was based on a corporation's capital (net worth) and earned surplus (modified federal taxable income). The base for the new franchise tax is margin, to be determined using one of four methods.

Each method begins with a business's total revenue. Total revenue is closely related to a business's federal reportable income with some additions and subtractions. From total revenue, a business may subtract one of four amounts to arrive at its margin:

- $1 million,
- Cost of goods sold,
- Compensation, or
- 30 percent of total revenue.

Businesses apportion margin to Texas according to the share of their total business done in the state, as measured by their gross receipts. Entities primarily engaged in wholesale or retail trade (including food service) use the 0.375 percent rate, while other entities must use the 0.75 percent rate.

An additional method for calculating tax may be used by businesses with total revenue of $20 million or less, known as the E-Z calculation. A taxable entity electing the E-Z method may apply only the applicable exclusions from the tax provided by Section 171.1011. Under this method, a business determines total revenue and the apportionment factor, and then multiplies apportioned revenue by a rate of 0.331 percent to determine the tax due.

Tax payments and tax reports are due annually to the Comptroller's office on May 15 and cover the taxable entity's previous fiscal year. A report extension to Aug. 15 and Nov. 15 can be requested. Taxable entities whose annualized total revenue is $2.47 million or less do not owe any tax and are not required to file a franchise tax report. These entities, however, must still file a Public Information Report or Ownership Information Report.

## Origin of Franchise Tax Exemptions

While many aspects of the franchise tax were changed for 2008 and beyond, the provisions in the law related to tax exempt entities were left the same.

Some exemptions under the franchise tax arise due to federal law. For example, federally chartered credit unions and federal financial agencies — such as the Federal National Mortgage Association (Fannie Mae), the Federal Home Loan Mortgage Corporation (Freddie Mac), the Federal Reserve Banks — are outside the bounds of the federal and state tax systems. These organizations are exempt not only from the franchise tax, but also from the registration requirements of the Secretary of State and the Comptroller's office. For this reason, data on these organizations are not provided in this report.

The Tax Code also recognizes federal exemptions for nonprofit organizations exempt under IRC Sections 501(c)(3), (4), (5), (6), (7), (8), (10) and (19). In addition, the Tax Code

follows federal tax exemptions for profit-making organizations under IRC Sections 501(c)(2), (16) and (25). Exemptions for these organizations are discussed in Tax Code Section 171.063.

A third group of organizations is franchise tax-exempt due to specific state exemptions. These exemptions are found in Tax Code Sections 171.051 through 171.062 and 171.064 through 171.087. In some cases, the state exemption overlaps with a federal exemption, and an organization may qualify under either. For example, a church might qualify for exemption under its federal 501(c)(3) exemption (Tax Code 171.063(a)(1)) or under a state exemption for religious organizations (Tax Code 171.058).

The changes in the franchise tax beginning in 2008 included the expansion of the types of entities subject to tax beyond corporations. The Legislature also added Tax Code Section 171.088, which provides exemptions to non-corporate entities that would qualify under the exemption provisions if the entity had been organized as a corporation. Any reference in the following discussion to corporations should be read to include other types of business entities now subject to the franchise tax. The estimates in **Tables 5** through **7** include all taxable entities subject to the franchise tax.

## Nonprofit vs. Exempted

A nonprofit entity is not automatically exempt from the franchise tax. For many of the exemptions, nonprofit status is only one of several requirements for exemption. Common requirements are that the organization be engaged in serving a particular type of client, be engaged in a particular line of work, or be organized for, and involved in, a specified type of pursuit.

## Classifying Franchise Tax Exemptions

Four broad categories of franchise tax relief exist:

- Statutory exemptions,
- Deductions and exclusions,
- Special accounting methods, and
- Credits and refunds.

### *Statutory Exemptions*

A statutory exemption is used to grant certain types of entities a full waiver from all franchise tax liability and reporting. For example, insurance companies are granted a full exemption because they are required to pay a separate tax on their gross premiums.

To become exempt, a nonprofit organization or company is generally required to prove itself eligible for the exemption (see **Table 6**).

### *Deductions and Exclusions*

A tax deduction or exclusion grants a taxable entity a subtraction from its tax base or from its apportionment computation. Generally, all other franchise tax regulations must be followed. A deduction can lower an entity's overall tax bill but usually not by the full amount of the deduction.

A deduction is applied to the entity's tax base or apportionment formula before the application of a tax rate. Because the tax rate is applied after the deduction is taken, the reduction in tax liability is generally less than the deduction amount. If the deduction is taken against the tax base, the resulting reduction in tax liability will usually equal the deduction (in dollars) multiplied by the apportionment factor (in percent) and then by the tax rate (in percent). If the deduction is taken from the apportionment computation, the reduction in tax liability is not readily apparent without actual computation.

One reason for granting special deductions or exclusions is to promote certain activities or behavior. For example, to encourage the development of solar energy sources, the Legislature has permitted entities to exclude from their tax base their purchases of qualifying solar energy devices.

Some deductions or exclusions may be granted to prevent the taxation of items exempt from taxation under federal law, such as interest income on U.S. government obligations. Other deductions or exclusions grant tax relief to small entities (see **Table 7**).

**Table 5**

## Value of Franchise Tax Exemptions, Deductions, Special Accounting Methods, and Credits and Refunds

Fiscal 2025 to 2030 – In millions of dollars

| Item | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|
| Exemptions: For-Profit Entities | $543.0 | $569.7 | $593.8 | $623.6 | $653.3 | $674.2 |
| Exemptions: Nonprofit Entities | 500.9 | 526.2 | 552.7 | 585.3 | 620.6 | 640.8 |
| Deductions | 1021.9 | 1079.5 | 1113.2 | 1162.7 | 1210.6 | 1269.9 |
| Special Accounting Methods | 1486.6 | 1540.5 | 1594.7 | 1664.1 | 1738.5 | 1824.0 |
| Credits and Refunds | 602.1 | 627.9 | 476.0 | 262.4 | 193.1 | 147.0 |
| **Total** | **$4,154.5** | **$4,343.9** | **$4,330.4** | **$4,298.1** | **$4,416.1** | **$4,555.9** |

*Note: Totals may not sum due to rounding.*

**Table 6**

## Value of Franchise Tax Exemptions

Fiscal 2025 to 2030 – In millions of dollars

| Tax Code Section | Exemption | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|---|
| 171.001(d) | Five-year exemption for veteran-owned businesses | $0.8 | $0.8 | $0.9 | $0.6 | $0.3 | $0.0 |

### *Special Accounting Rules*

A special accounting rule allows a qualifying entity to use an accounting or computation method not available to all other franchise taxable entities. The special accounting rule may be designed to relieve small entities of certain accounting burdens. Also, in the same manner as a deduction or exclusion, a special accounting rule may be used to encourage certain activities or to treat otherwise similar businesses in a consistent manner. For example, regulated investment management service companies benefit from a special apportionment rule because the Legislature sought to encourage these entities to locate in Texas. Likewise, certain entities that rent goods are treated as retailers because they directly compete with entities that are in retail trade.

### *Credits and Refunds*

A credit allows a taxable entity a subtraction directly from tax owed. For this reason, a tax credit provides greater financial relief to taxable entities than a deduction of the same dollar amount.

Tax credits come in two types, distinguished by their frequency. One-time credits are available for a single tax period (or until they are used up). In contrast, continuing credits are available for use year after year. Each type may be used for a variety of public policy purposes (e.g., to influence taxpayer behavior, to grant tax relief or to smooth the flow of state and local tax receipts).

Refunds operate much like credits, with one important difference. With credits, taxable entities receive a reduction in their tax liability. With refunds, taxable entities receive a payment from the state.

Refunds are typically established for the same policy purposes as tax credits.

| **Total** | **Credits and Refunds** | **$602.1** | **$627.9** | **$476.0** | **$262.4** | **$193.1** | **$147.0** |

** Amount is negligible.*
*** Amount is reduced by amounts listed for other definitions of retail.*
**** Subchapter M expires Dec. 31, 2026. However, taxable entities that established a research and development credit prior to its expiration are allowed to carryforward the unused credit until the earlier of when those credits would have expired under the terms of Subchapter M or Dec. 31, 2046. The amounts shown for fiscal 2027 and after are for the carryforward.*
***** Subchapter O was repealed Jan. 1, 2008, and applied to reports originally due prior to that date; however, taxable entities that established a research and development credit prior to its repeal are allowed to carryforward the unused credit until the earlier of when those credits would have expired under the terms of Subchapter O or Dec. 31, 2027.*
*Note: Totals may not sum because of rounding.*

## Franchise Tax: **Exemptions**

Section 171.001(d).

### Exemption for a Qualified Veteran-Owned Business

A taxable entity that is a qualified veteran-owned business as defined under Section 171.0005 that began doing business in Texas on or after Jan. 1, 2016, and before Jan. 1, 2020, owes no franchise tax on business conducted before the fifth anniversary of the date the entity began doing business. This provision expired on Jan. 1, 2020.

In the 87th Legislature, Regular Session, Senate Bill (SB) 938 reinstated the new veteran-owned business provision effective Jan. 1, 2022. Under the reinstated provision, a qualifying new veteran-owned business must be formed on or after Jan. 1, 2022, and before Jan. 1, 2026. A new veteran-owned business formed between Jan. 1, 2020, and Dec. 31, 2021 (the period during which the previous provision was expired), does not qualify.

Section 171.051(d).

### Franchise Tax Exemptions Granted Before Sept. 1, 1975

Corporations that received exemptions before Sept. 1, 1975, retain their exemptions, which may be of any type and include schools, churches, water supply corporations and foundations. Before this date, the Secretary of State administered these exemptions.

Sections 171.052 and 171.0525.

### Certain Corporations and Certain Insurance Companies

An insurance organization, title insurance company or title insurance agent that is authorized to engage in insurance business in Texas and required to pay an annual premium tax levied under the Insurance Code is exempt from franchise tax. A non-admitted insurance organization that is subject to an occupation tax or any other tax that is imposed for the privilege of doing business in another state or a foreign jurisdiction, including a tax on gross premium receipts, is exempt from the franchise tax. Farm mutuals, local mutual aid associations and burial associations also are not subject to the franchise tax. An entity is subject to the franchise tax for a tax year in any portion of which the entity is in violation of an order issued by the Texas Department of Insurance under Section 2254.003(b), Insurance Code, that is final after appeal or that is no longer subject to appeal.

Section 171.053.

### Railway Terminal Corporation

A railway terminal corporation organized under Texas' railroad statutes, subject to regulation by the Railroad Commission of Texas and that has no annual net income from its business, is exempt.

Section 171.055.
### Open-End Investment Company

An open-end investment company, as defined by the Federal Investment Company Act of 1940 and registered under the Texas Securities Act, is exempt. An open-end investment company is one that offers for sale, or has outstanding, any redeemable security of which it is the issuer. A mutual fund is an example of an open-end investment company.

Section 171.056.
### Corporation with Business Interest in Solar Energy Devices

A corporation engaged exclusively in the business of manufacturing, selling or installing solar energy devices is exempt.

Section 171.057.
### Nonprofit Corporation Organized to Promote a County, City or Another Area of the State

A nonprofit corporation organized solely to promote the public interest of a county, city, town or another area in the state is exempt. Examples include chambers of commerce, civic league organizations, local youth programs and volunteer fire departments.

Section 171.058.
### Nonprofit Corporation Organized for Religious Purposes

A nonprofit corporation organized for the purpose of religious worship is exempt.

Section 171.059.
### Nonprofit Corporation Organized to Provide Burial Places

A nonprofit corporation that provides plots for the burial of human remains is exempt.

Section 171.060.
### Nonprofit Corporation Organized for Agricultural Purposes

A nonprofit corporation organized to hold agricultural fairs and encourage agricultural pursuits is exempt. An example is a county fair association.

Section 171.061.
### Nonprofit Corporation Organized for Educational Purposes

A nonprofit corporation seeking exemption under this provision must show that 1) its activities are devoted exclusively to systematic instruction, particularly in the commonly accepted arts, sciences and vocations; 2) it has a regularly scheduled curriculum, using commonly accepted methods of teaching; 3) it has a faculty of qualified instructors; and 4) it has an enrolled student body or students in attendance at a place where the educational activities are regularly conducted. Private primary and secondary schools are examples.

Section 171.062.
### Nonprofit Corporation Organized for Public Charity

A nonprofit corporation is exempt that is organized for purely public charity that devotes all or substantially all its efforts to the alleviation of poverty, disease, pain and suffering by providing food, clothing, drugs, treatment, shelter or psychological counseling directly to indigent or similarly deserving members of society and deriving its funds primarily from sources other than fees or charges for its services.

Section 171.063.
### Nonprofit Corporation Exempt from Federal Income Tax

A nonprofit corporation that is exempt from federal income tax under IRC Sections 501(c)(3), (4), (5), (6), (7), (8), (10) and (19) is exempt from the franchise tax. Additionally, a corporation that is exempt from federal income tax under IRC Sections 501(c)(2), (16) and (25) is exempt from the franchise tax.

Section 501(c)(3) exempts religious, educational, charitable, scientific and literary organizations. This group includes organizations that test for public safety, societies to foster national or international amateur sports competition and societies for the prevention of cruelty to children or animals. Examples include churches, private schools, museums, theaters, evangelistic associations, YMCAs, YWCAs and humane societies.

Section 501(c)(4) exempts civic leagues, social welfare organizations and local associations of employees. Examples include Lions Clubs, Rotary Clubs, associations of retired persons, volunteer fire departments and employees' clubs.

Section 501(c)(5) exempts labor, agricultural and horticultural organizations. In general, the organizations are educational or instructive for the purpose of improving conditions of work and for improving products and efficiency. Examples include flower societies, police unions, bovine breeder associations and irrigation councils.

Section 501(c)(6) exempts business leagues, chambers of commerce, real estate boards and other similar organizations. These organizations typically concern themselves with the improvement of business conditions of one or more lines of business.

Section 501(c)(7) exempts organizations of a social and recreational nature. The activities of these organizations primarily relate to pleasure, recreation and social activities. Examples are college and university social sororities and fraternities, country clubs and adult athletic associations.

Section 501(c)(8) exempts fraternal beneficiary societies and associations. These organizations include lodges providing payments of life, sickness, accident or other benefits to members. Examples are the Independent Order of Odd Fellows and the Benevolent and Protective Order of Elks.

Section 501(c)(10) exempts domestic fraternal societies and associations. Generally, these are lodge organizations that

devote their net earnings to charitable, fraternal and other specified purposes. These organizations do not provide life, sickness or accident benefits to members. Examples are the Scottish Rite and the Fraternal Order of Eagles.

Section 501(c)(19) exempts organizations of past or present members of the armed forces. Examples are Veterans of Foreign Wars (VFW) Posts and their auxiliary organizations.

Sections 501(c)(2) and (25) exempt a particular type of for-profit corporation. These corporations hold the title to the property of another affiliated exempt organization and pass funds to the other exempt organization.

Section 501(c)(16) exempts cooperative organizations that finance crop operations, generally in connection with activities of a marketing or purchasing association. An example is a livestock credit corporation.

Section 171.064.
### Nonprofit Corporation Organized for Conservation Purposes

A nonprofit corporation organized solely to educate the public about the protection and conservation of fish, game, other wildlife, grasslands or forests is exempt. Examples are a wetland habitat preservation alliance and a society to preserve a particular forest.

Section 171.065.
### Nonprofit Corporation Organized to Provide Water Supply or Sewer Services

A nonprofit water supply or sewer service corporation organized under Chapter 67, Water Code, is exempt. These special corporations may serve cities, towns and political subdivisions, but not municipal utility districts.

Section 171.066.
### Nonprofit Corporation Involved with City Natural Gas Facility

A nonprofit corporation organized to construct, acquire, own, lease or operate a natural gas facility on behalf of and for the benefit of a city or residents of a city is exempt.

Section 171.067.
### Nonprofit Corporation Organized to Provide Convalescent Homes for Elderly

A nonprofit corporation organized to provide convalescent housing for persons at least 62 years old or who are handicapped or disabled is exempt, whether or not the corporation is organized for purely public charity.

Section 171.068.
### Nonprofit Corporation Organized to Provide Cooperative Housing

A nonprofit corporation engaged solely in the business of owning residential property for the purpose of providing cooperative housing for individuals is exempt.

Section 171.069.
### Agricultural Marketing Association

A marketing association incorporated under Chapter 52, Agricultural Code, is exempt. A marketing association generally provides a means or vehicle for selling the agricultural products produced by its collective members.

Section 171.070.
### Lodges

A lodge incorporated under Article 1399 et seq., Revised Civil Statutes of Texas, 1925, is exempt. Examples of lodges qualifying for this exemption are the Masons and Elks.

Section 171.071.
### Farmers' Cooperative Society

A farmers' cooperative society incorporated under Chapter 51, Agricultural Code, or a cooperative whose single member is a farmers' cooperative described in IRC Section 521(b)(1) that has at least 500 farmer-fruit grower members, is exempt. A farmers' cooperative may provide its members with an economical and effective means of purchasing farming supplies and materials such as tractor fuel and fertilizer.

Section 171.072.
### Housing Finance Corporation

A housing finance corporation incorporated under Chapter 394, Local Government Code, is exempt. A housing finance corporation is a financing vehicle used by local governments to provide safe and sanitary housing at affordable prices for its residents.

Section 171.073.
### Hospital Laundry Cooperative Association

A hospital laundry cooperative association incorporated under Subchapter A, Chapter 301, Health and Safety Code, is exempt. The eligible institutions include: a municipality; a political subdivision of the state; a state-supported, health-related institution, including the Texas A&M University System, the University of Texas System and Texas Woman's University; a nonprofit health-related institution; and a cooperative association created under Subchapter B, Chapter 301, Health and Safety Code, a unit of which is located in a county with a population of more than 3.3 million.

Section 171.074.
### Development Corporation

A nonprofit corporation organized under the Development Corporation Act (Subtitle C1, Title 12, Local Government Code) is exempt. The purpose of a development corporation is to provide communities in Texas with a means for financing private industrial and manufacturing enterprises that will benefit the economic development of the community.

Section 171.075.
### Cooperative Association

A cooperative association incorporated under Subchapter B, Chapter 301, Health and Safety Code, or under the Cooperative Association Act (Article 1396-50.01, Vernon's Texas Civil Statutes), is exempt. Qualified associations may be formed by institutions exempt under Section 171.073.

The cooperative may provide services to its members, including central heating and cooling services, steam and chilled water supply, and childcare services for the children of employees, consultants, students and volunteers of cooperative association members, as well as temporary child care services for the children of patients and customers of those members.

Another category includes cooperatives with commercial activities. These organizations are typically classified along functional lines: consumer cooperatives, purchasing cooperatives, marketing cooperatives, workers' productive cooperatives, farmers' cooperatives, insurance companies and financial cooperatives.

Section 171.076.
### Cooperative Credit Association

A cooperative credit association incorporated under Chapter 55, Agriculture Code; an organization established under 12 U.S.C. Section 2071; or an agricultural credit association regulated by the Farm Credit Administration is exempt. A cooperative credit association's purpose is to provide a financing source for its members. A cooperative credit association may be formed only by persons who are Texas residents and who are engaged in the production, or production and marketing, of staple agricultural products or in the raising, breeding, feeding, fattening or marketing of livestock.

Section 171.077.
### Credit Union

A credit union incorporated under the Texas Credit Union Act (Subtitle D, Title 3, Finance Code) is exempt. State-chartered credit unions exempt under this section are not required to register with the Comptroller.

Section 171.079.
### Electric Cooperative Corporation

An electric cooperative incorporated under the Electric Cooperative Corporation Act (Chapter 161, Utilities Code) that is not a participant in a joint powers agency is exempt. The purpose of electric cooperatives is to provide electricity to rural areas.

Section 171.080.
### Telephone Cooperative Corporation

A telephone cooperative corporation incorporated under the Telephone Cooperative Act (Chapter 162, Utilities Code) is exempt. The purpose of a telephone cooperative is to provide telephone service to rural areas.

Section 171.081.
### Corporation Exempt by Another Law

This section provides that a corporation that is exempt from the franchise tax under another federal or state statute is not affected by a lack of a specific exemption provision in Chapter 171 of the Tax Code. An example is a health facilities development corporation created under Chapter 221 of the Health and Safety Code, in which Section 221.033 exempts such a corporation from all state taxes. Accordingly, even though there is no provision in Chapter 171 exempting the corporation, it is exempt from franchise tax.

Section 171.082.
### Certain Homeowners' Associations

A nonprofit corporation is exempt if the corporation is organized and operated primarily to obtain, manage, construct and maintain the common property in or of a residential condominium or residential real estate development and the collective individual resident owners control at least 51 percent of the votes of the corporation. A project or development is considered residential if the project or development is legally restricted for residential use.

Section 171.083.
### Emergency Medical Service Corporation

A nonprofit corporation organized solely to provide emergency medical services, including rescue and ambulance service, is exempt.

Section 171.084.
### Certain Trade Show Participants

This provision exempts a foreign corporation from the franchise tax for certain solicitation of orders for personal property by its representatives, as would typically be found in a trade show. The solicitation must be limited to five periods during a specified time span, and a solicitation period may not exceed 120 consecutive hours.

Section 171.085.
### Sludge Recycling Operation

A corporation engaged solely in the business of recycling sludge, as defined by Section 361.003, Solid Waste Disposal Act (Chapter 361, Health and Safety Code), is exempt.

Section 171.086.
### Political Subdivisions

Political subdivision corporations formed under Section 304.001, Local Government Code, are exempted from the franchise tax.

Section 171.087.
### Nonprofit Corporation Organized for Student Loan Funds or Student Scholarship Purposes

A nonprofit corporation organized solely to provide a student loan fund or student scholarships is exempt.

6753/8585

## Deductions, Discounts, Exclusions, Special Accounting Methods, and Credits and Refunds

For many of the allowable deductions, exclusions or special accounting methods, taxable entities are not required to alert the Comptroller when employing the deduction or accounting method. For this reason, the number of taxable entities taking advantage of some of these forms of tax relief is not precisely known. The fiscal impacts of these tax benefits are estimated using a variety of computation methods, including comparison with federal tax information, if appropriate.

Other deductions or special accounting methods require entering data on the franchise tax report in a way that identifies each taxable entity using that deduction or method. Tax credits and discounts can also be identified on a taxable entity-specific basis.

### Franchise Tax: **Deductions and Exclusions**

Section 171.002(d).
#### Small Business Exception

Entities with a tax liability of less than $1,000 are not required to remit the tax. Entities with total revenue from their entire business of not more than $2.47 million, adjusted per Section 171.006, are not required to remit the tax. However, the entities must file public information reports. Senate Bill 3, 88th Legislature, Second Called Session, doubled the No Tax Due limit to $2.47 million and eliminated No Tax Due reports.

Section 171.006.
#### Adjustment of Eligibility for No Tax Due and Compensation Deduction

The threshold on total revenue for the small business exception (Section 171.002(d)) is adjusted at the beginning of each even-numbered year by a percentage equal to the percentage increase or decrease in the Consumer Price Index for All Urban Consumers (CPI-U) during the preceding state fiscal biennium rounded to the nearest $10,000. A similar adjustment is made to the maximum allowable subtraction for a single employee's compensation found in Section 171.1013(c). The first adjustment became effective on Jan. 1, 2010; additional adjustments became effective Jan. 1 in each subsequent even-numbered year.

Section 171.101(a)(1)(B)(i).
#### Optional Subtraction of $1 Million from Total Revenue for Determination of Taxable Margin

A taxable entity may elect to subtract $1 million from its total revenue to determine taxable margin in lieu of subtracting cost of goods sold, compensation or the standard deduction of 30 percent of total revenue.

Sections 171.101 (e) and (f).
#### Deduction of Additional Aerospace Cost by Certain Taxable Entities in the Aerospace Industry

A taxable entity within the aerospace industry may elect to subtract certain aerospace costs incurred in relation to contracts with the federal government, and not already subtracted under an election to subtract cost of goods sold or compensation, from its total revenue to determine taxable margin. The taxable entity may add 20 percent of the additional aerospace costs starting on reports due on or after Jan. 1, 2020; 40 percent of the additional aerospace costs starting on reports due on or after Jan. 1, 2021; 60 percent of the additional aerospace costs starting on reports due on or after Jan. 1, 2022; 80 percent of the additional aerospace costs starting on reports due on or after Jan. 1, 2023; and 100 percent of the additional aerospace costs starting on reports due on or after Jan. 1, 2024.

Section 171.1011(e).
#### Exclusion from Total Revenue for Interest in a Passive Entity

A taxable entity that owns an interest in a passive entity may exclude from total revenue the taxable entity's share of the net income of the passive entity, but only to the extent the net income of the passive entity was generated by the margin of any other taxable entity.

Section 171.1011(f).
#### Exclusion from Total Revenue for Flow-through Funds Mandated by Law or Fiduciary Duty

A taxable entity may exclude from total revenue flow-through funds mandated by law or fiduciary duty to be distributed to other entities, including taxes collected from a third party by the taxable entity and remitted by the taxable entity to a taxing authority.

Section 171.1011(g).
#### Exclusion from Total Revenue for Flow-through Funds Mandated by Contract or Subcontract

A taxable entity may exclude from total revenue flow-through funds mandated by contract or subcontract to be distributed to other entities: 1) sales commissions to nonemployees, including split-fee real estate commissions; 2) the tax basis as determined under the IRC of securities underwritten; and 3) subcontracting payments made under a contract or subcontract entered into by the taxable entity to provide services, labor or materials in connection with the actual or proposed design, construction, remodeling, remediation or repair of improvements on real property or the location of the boundaries of real property.

Section 171.1011(g-1).
### Exclusion from Total Revenue for Lending Institutions

A taxable entity that is a lending institution may exclude from total revenue the proceeds from the principal repayment of loans.

Section 171.1011(g-2).
### Exclusion from Total Revenue for Tax Basis of Securities

A taxable entity may exclude from total revenue the tax basis as determined under the IRC of securities and loans sold.

Section 171.1011(g-3).
### Exclusion from Total Revenue for Entities Providing Legal Services

Taxable entities that provide legal services may exclude from total revenue the flow-through funds that are mandated by law, contract or fiduciary duty to be distributed to the claimant by the claimant's attorney or to other entities on behalf of a claimant by the claimant's attorney: damages due the claimant; funds subject to a lien or other contractual obligation arising out of the representation, other than fees owed to the attorney; funds subject to a subrogation interest or other third-party contractual claim; and fees paid an attorney in the matter who is not a member, partner, shareholder or employee of the taxable entity. These taxable entities may exclude reimbursement of the taxable entity's expenses incurred in prosecuting a claimant's matter that are specific to the matter and that are not general operating expenses. These entities may exclude $500 per pro bono services case handled by the attorney, but only if the attorney maintains records of the pro bono services for auditing purposes in accordance with the manner in which those services are reported to the State Bar of Texas.

Section 171.1011(g-4).
### Exclusion from Total Revenue of Certain Flow-through Funds and Reimbursements for Pharmacy Cooperatives and Pharmacy Network Providers

A taxable entity that is a pharmacy cooperative may exclude from total revenue the rebates from pharmacy wholesalers distributed to the pharmacy cooperative's shareholders. A taxable entity that provides a pharmacy network may exclude reimbursements, pursuant to contractual agreements, for payments to pharmacies in the pharmacy network.

Section 171.1011(g-5).
### Exclusion from Total Revenue of Payments Made to Artists by a Qualified Live Event Promotion Company

A taxable entity that is a qualified live event promotion company may exclude from total revenue the payments made to an artist in connection with the provision of a live entertainment event.

Section 171.1011(g-6).
### Exclusion from Total Revenue of Certain Payments Made by Qualified Destination Management Companies

A taxable entity that is a qualified destination management company may exclude from total revenue the payments made to other persons to provide services, labor or materials in connection with the provision of destination management services as defined by law.

Section 171.1011(g-7).
### Exclusion from Total Revenue of Certain Payments Made by Qualified Courier and Logistics Companies

A taxable entity that is a qualified courier and logistics company may exclude from total revenue the subcontracting payments made to nonemployee agents for the performance of delivery services on behalf of the taxable entity.

Section 171.1011(g-8).
### Exclusion from Total Revenue of Certain Payments Made by Aggregate Transporters

A taxable entity that is primarily engaged in the business of transporting aggregates may exclude from total revenue the subcontracting payments made to independent contractors for delivery services on behalf of the taxable entity.

Section 171.1011(g-10).
### Exclusion from Total Revenue of Certain Payments Made by Barite Transporters

A taxable entity that is primarily engaged in the business of transporting barite may exclude from total revenue the subcontracting payments made to independent contractors for delivery services on behalf of the taxable entity.

Section 171.1011(g-11).
### Exclusion from Total Revenue of Certain Payments Made by an Entity Performing Landman Services

A taxable entity that is primarily engaged in the business of providing landman services may exclude from total revenue the subcontracting payments made to nonemployees for performance of landman services on behalf of the taxable entity.

Section 171.1011(g-12).
### Exclusion from Total Revenue of Certain Payments Made to Public Performance Rights Holders and Copyright Owners

A taxable entity that is a performing rights society that licenses the public performance of nondramatic musical works on behalf of a copyright owner may exclude from total revenue the payments made to the public performance rights holder and the copyright owner for whom the taxable entity licenses the public performance.

6755/8585

Section 171.1011(k).
### Exclusion from Total Revenue of Certain Payments Received by a Professional Employer Organization

A taxable entity that is a professional employer organization may exclude from total revenue the payments received from a client for wages, payroll taxes on those wages, employee benefits and workers' compensation benefits for the covered employees of the client.

Section 171.1011(m).
### Exclusion from Total Revenue of Dividends and Interest Received from Federal Obligations

Taxpayers may exclude from total revenue the dividends and interest received from federal obligations.

Section 171.1011(m-1).
### Exclusion from Total Revenue of Certain Reimbursements Received by Management Companies

A taxable entity that is a management company may exclude from total revenue the reimbursements of specified costs incurred in its conduct of the active trade or business of a managed entity, including wages and cash compensation.

Sections 171.1011(n) and (o).
### Exclusion from Total Revenue by Health Care Providers of Payments Received from Certain Health Care Program Payers and for Costs of Uncompensated Care

Payments received from the Medicaid program, Medicare program, Indigent Health Care, Children's Health Insurance Program or for professional services provided in relation to a workers' compensation claim or to a beneficiary rendered under the TRICARE military health system are excluded from the total revenue of a health care provider. The health care provider may also exclude from total revenue the actual cost of uncompensated care. The amount of exclusion of the listed payments and costs is 50 percent for a health care provider that is a health care institution (Section 171.1011(o)) and 100 percent for other health care providers (Section 171.1011(n)).

Section 171.1011(q).
### Exclusion from Total Revenue for Revenue Derived from the Operation of a Facility Located on Property Owned or Leased by Federal Government

A taxable entity may exclude from total revenue all revenue received that is directly derived from the operation of a facility that is located on property owned or leased by the federal government and managed or operated primarily to house members of the armed forces of the United States.

Section 171.1011(r).
### Exclusion from Total Revenue for Revenue Received from Oil or Gas Produced from Certain Wells

A taxable entity may exclude from total revenue the revenue received from oil or gas produced, during the dates certified by the Comptroller for which average monthly oil price is below $40 per barrel or average monthly natural gas price is below $5 per MMBtu, from an oil well designated by the Railroad Commission of Texas or similar authority of another state whose production averages less than 10 barrels a day over a 90-day period and a gas well designated by the Railroad Commission of Texas or similar authority of another state whose production averages less than 250 Mcf (one thousand cubic feet) a day over a 90-day period.

Section 171.1011(u).
### Exclusion from Total Revenue for the Cost of a Vaccine

A taxable entity shall exclude from total revenue the actual cost paid for a vaccine.

Section 171.1011(v).
### Exclusion from Total Revenue of Certain Costs Incurred by Certain Taxable Entities Engaged in the Transportation of Goods by Waterways

A taxable entity that is primarily engaged in transporting goods by waterways that does not subtract cost of goods sold in computing taxable margin shall exclude from total revenue the direct costs of providing transportation services to the same extent that a taxable entity that sells in the ordinary course of business real or tangible property would be authorized to subtract those costs as cost of goods sold in computing its taxable margin.

Section 171.1011(w-1).
### Exclusion from Total Revenue of Certain Costs Incurred by Taxable Entities that Provide Agricultural Aircraft Operation Services

A taxable entity primarily engaged in the business of providing services as an agricultural aircraft operation as defined in federal regulations may exclude from its total revenue the cost of labor, equipment, fuel and materials used in providing those services.

Section 171.1011(x).
### Exclusion from Total Revenue of Certain Flow-through Revenue Received by Taxable Entities Registered as Motor Carriers

A taxable entity registered as a motor carrier under Chapter 643, Transportation Code, may exclude from its total revenue the flow-through revenue derived from taxes and fees.

Section 171.1012(k).
### Cost of Goods Sold Subtraction for Lending Institutions

For a taxable entity that is a lending institution that offers loans to the public and elects to subtract cost of goods sold, the entity, other than an entity primarily engaged in selling used merchandise, may subtract as a cost of goods sold an amount equal to interest expense. An entity engaged in lending to unrelated parties solely for agricultural production is considered to offer loans to the public.

Section 171.1012(k-1).
### Cost of Goods Sold Subtraction for Certain Rental Companies

A taxable entity that is a motor vehicle rental or leasing company that remits a tax on gross receipts imposed under Section 152.026, a heavy construction equipment rental or leasing company, or a railcar rolling stock rental or leasing company may subtract as a cost of goods sold the costs otherwise allowed by this section in relation to tangible personal property that the entity rents or leases in the ordinary course of business of the entity.

Section 171.1012(k-2).
### Cost of Goods Sold Subtraction for Certain Pipeline Entities

A taxable entity that provides pipeline transportation services for others, and only for that portion of the product to which the entity does not own title, may subtract as a cost of goods sold its depreciation, operations and maintenance costs allowed by law.

Section 171.1012(o).
### Additional Cost of Goods Sold Subtraction for Film or Television Production or Broadcasting Companies

If a taxable entity whose principal business activity is film or television production or broadcasting or the distribution of tangible personal property described by Section 171.1012(a)(3)(A)(ii), or any combination of these activities, elects to subtract cost of goods sold, the cost of goods sold for the taxable entity shall be the costs described in this section in relation to the property and include depreciation, amortization and other expenses directly related to the acquisition, production or use of the property, including expenses for the right to broadcast or use the property.

Section 171.1012(t).
### Additional Cost of Goods Sold Subtraction for Movie Theaters

If a taxable entity that is a movie theater elects to subtract cost of goods sold, the cost of goods sold for the taxable entity shall be the costs related to the acquisition, production, exhibition, or use of a film or motion picture, including the expenses for the right to use the film or motion picture.

Section 171.1013(b-1).
### Additional Subtraction of Newly Provided Health Benefit Costs for Certain Small Employers

This provision applies to a small employer as defined by the Insurance Code that has not provided health care benefits to any of its employees in the calendar year preceding the beginning date of the reporting period and that elects to subtract compensation for calculating taxable margin. If a qualified employer provides health benefits to all employees during the reporting period, the employer may subtract an additional amount equal to 50 percent of the cost of providing health benefits in the first 12-month period on which margin is based and an amount equal to 25 percent of the cost during the second 12-month period.

Section 171.10132.
### Provisions Related to Certain Grants Received for Broadband Deployment in Texas

This provision applies to a "qualifying broadband grant" as defined under Section 171.10132(a). A taxable entity may exclude from its total revenue the qualifying broadband grant proceeds for the purpose of broadband deployment in this state. A taxable entity may include as a cost of goods sold or as compensation any expense paid using qualifying broadband grant proceeds if the expense is otherwise includable as a cost of goods sold or as compensation.

Section 171.107.
### Deduction of Cost of Solar Energy Device from Margin Apportioned to this State

A taxable entity may deduct 10 percent of the amortized cost of solar energy equipment installed from the taxable margin base. A taxable entity must provide the Comptroller with an amortization schedule showing the period in which a deduction is to be made.

Section 171.108.
### Deduction of Cost of Clean Coal Project from Margin Apportioned to this State

A taxable entity may deduct 10 percent of the amortized cost of equipment used in a clean coal project from the taxable margin base. A taxable entity must provide the Comptroller with an amortization schedule showing the period in which a deduction is to be made.

Section 171.109.
### Deduction of Relocation Costs by Certain Taxable Entities from Margin Apportioned to this State

A taxable entity that relocates its main office or principal place of business to this state from another state and that did not do business in this state before the relocation and is not a member of an affiliated group engaged in a unitary business

6757/8585

where another member of the group is doing business in this state on the date the taxable entity relocates, may take a one-time deduction from margin apportioned to this state for relocation expenses. This deduction is only allowed on a taxable entity's initial franchise report.

## Franchise Tax: **Special Accounting Methods**

Sections 171.0001(12)(B), (D), (E) and (F).
### Definition of Retail Includes Certain Rental Activities

Taxable entities that are primarily engaged in renting of apparel; rental-purchase agreement activities; renting or leasing of tools, party and event supplies and furniture; or renting or leasing of heavy construction equipment are defined to be engaged in retail trade.

Section 171.0001(12)(C).
### Definition of Retail Includes Automotive Repair Services

Taxable entities that are primarily engaged in providing automotive repair services are defined to be engaged in retail trade.

Section 171.002(b).
### Reduced Tax Rate for Certain Retail and Wholesale Entities

A taxable entity primarily engaged in the retail or wholesale trades as defined by Sections 171.0001(12), (18) and 171.002(c) is subject to a reduced tax rate of 0.00375.

Section 171.1016.
### E-Z Computation and Rate

A taxable entity with not more than $20 million in total revenue from its entire business may elect to pay the franchise tax using the E-Z computation and rate. Tax is calculated by multiplying the taxable entity's total revenue by the taxable entity's apportionment factor and then multiplying the result by a tax rate of 0.00331. A taxable entity electing the E-Z method may apply applicable deductions from the tax provided by Section 171.1011. A taxable entity electing the E-Z method may not take other credits, deductions or adjustments.

Sections 171.106(b) and (c).
### Apportionment for Certain Investment Management Companies

Most entities that provide services (as opposed to tangible goods) are required to source their receipts to the location where the service was performed. Section 171.106(b) sources receipts from regulated investment company services to the domicile of the owners of the investment funds. Section 171.106(c) sources receipts from employee retirement plan managers to the state where the plan's beneficiaries reside.

Section 171.106(d).
### Apportionment of Proceeds from Interest Earned on Federal Funds

A banking corporation shall exclude from the numerator of the bank's apportionment factor interest earned on federal funds and interest earned on securities sold under an agreement to repurchase that are held in this state in a correspondent bank that is domiciled in this state.

Section 171.106(e).
### Apportionment of Receipts from a Defense Readjustment Project

Receipts from services that a defense readjustment project performs in a defense economic readjustment zone are not receipts from business done in this state.

Sections 171.106(f) and (f-1).
### Apportionment of Proceeds from the Sale of Certain Loans and Securities

Section 171.1055 requires a taxable entity to exclude from gross receipts for apportionment any receipts that were excluded from total revenue. For taxpayers who sell loans or securities treated as inventory or financial institutions that sell loans or securities categorized as "Securities Available for Sale" or "Trading Securities" under Financial Accounting Standard 115, gross receipts for apportionment include the gross proceeds from the sale, not just the net gain that is included in total revenue.

Section 171.106(g).
### Apportionment for Internet Hosting

For most services, receipts are sourced to the location where the services are performed. A receipt for internet hosting is a receipt for business done in this state only if the customer to whom the services are provided is located in this state.

Section 171.106(h).
### Apportionment for Broadcasters

For most services, receipts are sourced to the location where the services are performed. A taxable entity that is a broadcaster shall include in the numerator of the broadcaster's apportionment factor the receipts arising from broadcasting or otherwise distributing film programming by any means only if the legal domicile of the broadcaster's customer is in this state.

Rule 3.591(e)(33).
### Apportionment for Transportation Services

Gross receipts from the transportation of goods or passengers are sourced to Texas by including gross receipts from the transportation of goods or passengers that both originates and terminates in Texas or the multiplication of total transportation receipts by the ratio of total compensated mileage in the transportation of goods and passengers in Texas to total compensated mileage.

6758/8585

Rule 3.591(e)(30).

### Apportionment for Telephone Services

Gross receipts from telephone calls that both originate and terminate in Texas are sourced to Texas. Gross receipts from telephone calls that originate in Texas but terminate outside of Texas or that originate outside of Texas but terminate in Texas are not sourced to Texas.

## Franchise Tax: Credits

Section 171.111.

### Temporary Credit on Taxable Margin

A taxable entity that has properly notified the Comptroller in writing may apply a tax credit against the franchise tax owed calculated on margin. The credit is based on the amount of business loss carryforwards of the taxable entity on tax reports due before Jan. 1, 2008, that were not exhausted on a report due before that date. The credit is calculated for reports due after Jan. 1, 2008, and before Jan. 1, 2018, as 2.25 percent of the unexhausted business loss carryforwards amount times 4.5 percent. For periods after Jan. 1, 2018, and before Sept. 1, 2027, the credit equals 7.75 percent of the unexhausted business loss carryforward amount times 4.5 percent.

Section 171.551.
Subchapter K.

### Tax Credit for Certain Housing Developments

A taxable entity that owns a direct or indirect interest in a qualified development eligible for a federal low-income housing credit under Section 42, Internal Revenue Code is eligible for a franchise tax credit.

Section 171.602.
Subchapter L.

### Tax Credit for a Clean Energy Project

A taxable entity operating a certified clean energy project may receive a franchise tax credit equal to the lesser of 10 percent of the capital costs of the project or $100 million. The Comptroller may not issue a credit before the later of the expiration of an agreement under former B or C, Chapter 313, Tax Code, regarding the clean energy project for which the credit is issued or the expiration of an agreement under Subchapter T, Chapter 403, Government Code, regarding the clean energy project for which the credit is issued.

Sections 171.651-171.665.
Subchapter M.

### Tax Credit for Certain Research and Development Activities

A taxable entity may earn a franchise tax credit for qualified research expenses incurred in this state that exceed the amount of such expenses incurred during a base period. The credit is equal to 5 percent of the increased expenses or 6.25 percent of the increased expenses if the taxable entity contracts with an institution of higher education for the performance of qualified research. The maximum amount of credit taken on a report may not exceed 50 percent of the amount of franchise tax due for the report. An entity may carry unused credits forward for not more than 20 consecutive reports. This subchapter expires Dec. 31, 2026. However, the expiration of this subchapter does not affect the carryforward of the credit. The carryforward credit can be taken until Dec. 31, 2046. Section 171.663 requires the Comptroller to provide certain information regarding the credits for Research and Development Activities. For activity shown on 2023 franchise tax reports, 2,509 taxable entities applied credits, the amount of credits applied was $407 million and the amount of unused credit carried forward was $1.74 billion.

Section 171.725.
Subchapter O.

### Tax Credit for Certain Research and Development Activities Carryforward

A taxable entity may carryforward the unused credit that was eligible under Subchapter O prior to Jan. 1, 2008. A taxable entity may carryforward the unused credit until the earlier of 20 consecutive reports or Dec. 31, 2027. The maximum amount of credit taken on a report may not exceed 50 percent of the amount of franchise tax due for the report.

Sections 172.101-172.110.
Subchapter S.

### Tax Credit for Certified Rehabilitation of Certified Historic Structures

An entity may earn a franchise tax credit for expenses incurred for the rehabilitation of a certified historic structure in which the entity has an ownership interest in the year during which the structure is placed in service after the rehabilitation and the certified cost and expenses incurred exceed $5,000. To establish a credit, the entity must obtain a certificate of eligibility from the Texas Historical Commission. The amount of credit is limited to 25 percent of the total eligible cost and expenses incurred. The amount of credit claimed on a report may not exceed the amount of franchise tax due on that report. An entity may carry unused credits forward for not more than five years. An entity that has established a credit may assign or sell the credit to another entity. Expenditures by an entity described by Subsection (b) to rehabilitate a structure that is leased to a tax-exempt entity in a disqualified lease, as those terms are defined by IRC Section 168(h), are not eligible costs and expenses.

6759/8585

Franchise Tax: **Refunds**

Section 171.501.

## Refund for Job Creation in Enterprise Zone

Taxpayers located in an enterprise zone that create at least 10 new jobs can qualify for a franchise tax refund. Qualifying entities must be certified by the Texas Economic Development Bank. The refund is the lesser of $5,000 or 25 percent of the amount of franchise tax due for the period. ✪

# Motor Vehicle Sales and Use Tax

The motor vehicle sales tax is a transaction tax paid on each purchase of a qualifying motor vehicle. There is also a use tax component for a vehicle purchased out of state and then brought into Texas. Motor vehicle sales tax collections in fiscal 2024 totaled $6.4 billion.

## Motor Vehicle Sales and Use Tax: **Exemptions**

Motor vehicle sales tax exemptions are based on either the status of the purchaser or the intended use of the motor vehicle. **Table 8** summarizes the estimated values of these exemptions for fiscal 2025 to 2030.

### Section 152.081.
### Driver Training Motor Vehicles

Motor vehicles used by a public school in an approved standard driver training course are exempt when they are owned by a dealer, purchased in Texas and loaned free of charge by the dealer to a public school.

### Section 152.082.
### Sale of Motor Vehicle To or Use of Motor Vehicle by Public Agency

Motor vehicles purchased or used by public agencies, including commercial transportation companies who contract with schools to provide transportation services, are exempt. These vehicles must be operated with exempt license plates.

### Section 152.086.
### Motor Vehicles Driven by Handicapped Persons

The tax does not apply to the sale or use of motor vehicles that have been modified before the second anniversary of the date of purchase and primarily are for operation by, or for the transportation of, an orthopedically handicapped person.

### Section 152.087.
### Fire Trucks and Emergency Medical Services Vehicles

The tax does not apply to the purchase, rental or use of a fire truck, emergency medical services vehicle or other motor vehicle used exclusively for firefighting purposes or for emergency medical services. The vehicle must be purchased by a volunteer fire department; a nonprofit emergency medical service provider that receives a federal tax exemption under Section 501(c)(3), IRC; or by certain emergency medical service providers to which Section 502.456, Transportation Code, applies.

**Table 8**

## Value of Motor Vehicle Sales Tax Exemptions

Fiscal 2025 to 2030 – In millions of dollars

| Tax Code Section | Exemption | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|---|
| 152.081 | Driver training motor vehicles | * | * | * | * | * | * |
| 152.082 | Sales to or use by a public agency | $80.3 | $80.7 | $81.1 | $81.5 | $81.9 | $82.3 |
| 152.086 | Driven by handicapped persons | 4.9 | 5.0 | 5.1 | 5.2 | 5.3 | 5.4 |
| 152.087 | Fire trucks and ambulances | 2.4 | 2.5 | 2.5 | 2.6 | 2.6 | 2.7 |
| 182.088 | Used for religious purposes | 1.9 | 2.0 | 2.0 | 2.1 | 2.1 | 2.1 |
| 152.089 | Exempt vehicles | 97.5 | 102.4 | 107.5 | 112.9 | 118.5 | 124.4 |
| 152.09 | Certain hydrogen-powered motor vehicles | cbe | cbe | cbe | cbe | cbe | cbe |
| 152.091 | Farm or timber use | 42.0 | 42.2 | 42.4 | 42.6 | 42.8 | 43.0 |
| 152.092 | Vehicles transported out of state | cbe | cbe | cbe | cbe | cbe | cbe |
| 152.093 | Certain licensed child-care facilities | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 |
| **Total** | | **$229.1** | **$234.7** | **$240.7** | **$246.8** | **$253.3** | **$260.0** |

** Amount is negligible.*
*cbe: Cannot be estimated.*
*Note: Totals may not sum due to rounding.*

Section 152.088.
### Motor Vehicles Used for Religious Purposes

The tax does not apply to the sale or use of, or the receipts for the rental of, a motor vehicle that is used for religious purposes.

Section 152.089.
### Exempt Vehicles

The tax does not apply to interstate motor vehicles, trailers and semitrailers, unless they cease to be used for interstate commerce within one year of the date the vehicles were purchased in Texas, or the date the vehicles were first brought into Texas. When a leased vehicle is no longer used for interstate commerce, the owner owes tax on the vehicle's book value.

An "interstate motor vehicle" means a motor vehicle operated in this state and another state or country, and for which registration fees could be apportioned if the motor vehicle were registered in a state or province of a country that is a member of the International Registration Plan (IRP). This definition includes a bus used in transportation of chartered parties if it meets all standards required of other motor vehicles for apportioned registration fees. This definition does not include a vehicle leased for fewer than 181 days or a vehicle that has Texas license plates and does not operate under the IRP.

Section 152.090.
### Certain Hydrogen-Powered Motor Vehicles

The tax does not apply to vehicles meeting the definition of a "hydrogen-powered" motor vehicle that is hydrogen power capable with a fuel economy of at least 45 miles per gallon or meets the definition and is fully hydrogen powered.

Section 152.091.
### Farm or Timber Use

The tax does not apply to the sale, purchase, use or rental of a machine, trailer or semi-trailer for use primarily for farming, ranching or timber operations.

Section 152.092.
### Motor Vehicles Transported Out of State

Motor vehicles that are transported out of state, prior to use in this state (other than removal) and for exclusive use outside of this state, are not subject to the tax. The purchaser must sign an exemption certificate provided by the Comptroller's office that authorizes the Comptroller's office to provide a copy of the exemption certificate to the state of intended use and registration.

Section 152.093.
### Motor Vehicles Sold to Certain Licensed Child Care Facilities

The tax does not apply to a motor vehicle purchased, used or rented by a qualified residential childcare facility for the primary purpose of transporting the children residing in the facility. The facility must be licensed by the state to provide 24-hour care to both emotionally disturbed children and to children who do not require specialized services. The facility must be licensed for both groups of children who live together in a single residential group. ✪

# Oil Production Tax

The oil production tax is an occupation tax on the business of producing crude oil within the state, the Texas constitution directs one-quarter of the state's occupation tax revenue to be set aside annually for the benefit of public schools and therefore a quarter of the oil production tax is set aside and the remainder is deposited to the General Revenue Fund.

The tax rate is the greater of 4.6 percent of the oil's taxable market value or 4.6 cents for each barrel of oil produced in the state. In determining the taxable market value, the gross market value of the produced oil at the wellhead is reduced by the non-taxable value of royalties paid to governmental entities and the transportation costs to move the oil from well to market. Total oil production tax collections in fiscal 2024 were $6.30 billion – a 6.3 percent increase from fiscal 2023 collections of $5.93 billion.

## Oil Production Tax: **Exemptions**

Chapter 202 of the Tax Code includes six types of exemptions from the oil production tax. The estimated value of these exemptions is provided in **Table 9**.

### Section 202.054.
### Qualification of Oil from New or Expanded Enhanced Recovery Project for Special Tax Rate

The Enhanced Oil Recovery (EOR) program was created by the 71st Legislature (1989) to provide a 10-year tax incentive for oil produced by processes other than the primary recovery method and with a qualifying time limit. The incentive was made permanent by the 78th Legislature (2003).

### Section 202.0545.
### Enhanced Recovery Projects Using Anthropogenic Carbon Dioxide

The tax incentive was created by the 80th Legislature (2007) to provide additional tax relief for oil produced from EOR projects using anthropogenic carbon dioxide for 30 years.

### Section 202.056.
### Oil and Gas Wells Previously Inactive

The inactive well exemption was amended by the 86th Legislature (2019) to provide a five-year severance tax exemption for certain wells that were previously inactive for two years as certified by the Railroad Commission of Texas.

**Table 9**

## Value of Oil Production Tax Exemptions

Fiscal 2025 to 2030 – In millions of dollars

| Tax Code Section | Exemption | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |
|---|---|---|---|---|---|---|---|
| 202.054 | Qualification of oil from new or expanded enhanced recovery project for special tax rate | $41.3 | $37.4 | $33.7 | $30.1 | $27.4 | $26.0 |
| 202.0545 | Enhanced recovery projects using anthropogenic carbon dioxide | 0.6 | 0.5 | 0.4 | 0.4 | 0.3 | 0.3 |
| 202.056 | Oil and gas from wells previously inactive | 4.2 | 3.7 | 3.0 | 2.5 | 2.0 | 1.7 |
| 202.058 | Qualifying low-producing oil leases | * | * | * | * | * | * |
| 202.060 | Oil and gas from reactivated orphaned wells | * | * | * | * | * | * |
| 202.063 | Oil incidentally produced in association with the production of geothermal energy | * | * | * | * | * | * |
| **Total** | | **$46.1** | **$41.6** | **$37.2** | **$33.0** | **$29.7** | **$27.9** |

** Amount is either zero or negligible.*
*Note: Totals may not sum due to rounding.*

6763/8585

Section 202.058.

## Qualifying Low-Producing Oil Leases

This tax incentive program was created by the 79th Legislature (2005) to provide tax credits to qualifying low-producing oil leases based on the preceding three-month average production and the average taxable oil price adjusted to 2005 dollars. The tax credits were made permanent by the 80th Legislature (2007). The tax incentive has three levels of tax credits with price triggers: for oil prices averaging $22 or less during the previous three months, the tax credit is 100 percent; for oil prices averaging between $22 and $25, the tax credit is 50 percent; and for oil prices averaging between $25 and $30, the tax credit is 25 percent. As oil prices are expected to remain above $30, the price triggers necessary to claim this tax credit are not expected to occur over the projected timeline.

Section 202.060.

## Oil and Gas from Reactivated Orphaned Wells

The tax incentive was created by the 79th Legislature (2005) to provide a tax exemption for oil produced from certified orphaned wells, as defined in Section 89.047(a)(3), Natural Resources Code. The exemption is not transferable from the original certified operator of the well to the well's new operator.

Section 202.063.

## Oil Incidentally Produced in Association with the Production of Geothermal Energy

The exemption of oil incidentally produced in association with the production of geothermal energy was created by the 81st Legislature (2009). This exemption has never been used. ✪

# School Property Tax

The Texas Constitution authorizes local governments to levy property taxes. Such taxes are levied by counties, cities, school districts and special purpose districts such as junior colleges, hospitals and flood control districts.

In tax year 2023, school property tax collections totaled $39.5 billion, which was 48.5 percent of the total property taxes levied in 2023.

There is no state property tax; nevertheless, property taxes levied by school districts are important to the state because they help determine how much state money is spent to support public education.

There are two types of school property tax levies: one to cover maintenance and operating costs (M&O) and another to pay interest and sinking fund (I&S) debt service for financing building programs. In tax year 2023, the statewide weighted average M&O tax rate was $0.731 per $100 valuation, the statewide weighted average I&S tax rate was $0.282 per $100 valuation and the combined statewide weighted average school tax rate was $1.013 per $100 valuation.

All real and tangible personal property, unless required or permitted to be exempt by the Texas Constitution, must be taxed in proportion to its value. Under Tax Code Section 11.02, most intangible personal property is not taxable. To receive property tax exemptions or special appraisals, in most cases a property owner must file an application with the appraisal district of the county in which the property is located.

The total estimated cost of local school district property tax exemptions or special appraisals is $26.9 billion in tax year 2025. This amount is projected to increase to $36.6 billion by 2030. Estimates for tax year 2025 to 2030, reflecting anticipated school property tax rates and exempt value growth, are itemized in **Table 10**. The exemptions and special appraisals are explained below.

**Table 10**

## Cost of School Property Tax Exemptions or Special Appraisals

Tax Year 2025 to 2030 – In millions of dollars

| Tax Code Section | Item | 2025 | 2026 | 2027 | 2028 | 2029 | 2030 |

*"Tax Year" is equivalent to calendar year.*
*cbe: Cannot be estimated because of unavailable appraisal data.*
*Note: Totals may not sum due to rounding.*
** Negligible values*
*[1] These exemptions require local approval and have a state impact when categorized as totally exempt property. The total local values of these exemptions are reflected in the table.*
*[2] These exemptions are optional, require local approval and only partially impact state costs through tax ceiling calculations. The total local values of these exemptions are reflected in the table.*
*[3] This exemption is optional and requires local approval, and a portion carries state costs through tax ceiling calculations and operation of school funding formulas. The total local values of these exemptions are reflected in the table.*

Section 11.02.
## Intangible Personal Property

Most intangible personal property is not subject to property tax; this includes stocks, bonds, notes or accounts receivable, franchises, licenses or permits, demand or time deposits, certificates of deposit, share accounts, share certificate accounts, share deposit accounts, insurance policies, annuities, pensions, causes of action, contracts and goodwill.

Section 11.11.
## Public Property

Property owned by the state or a political subdivision of the state and used for a public purpose is exempt from taxation. Included within this exemption are all oil, natural gas or other minerals owned by an institution of higher education. Several other specific types of public property also are exempt from property taxes.

- ***Institution of Higher Education Public Property Held in Trust***

  Property dedicated or held for the support, maintenance or benefit of a public institution of higher education is exempt or partially exempt under certain circumstances.
- ***Alumni Association Property on State-owned Land***

  Property owned by an alumni association or a higher education development foundation and located on land owned by a public institution of higher education is exempt if certain conditions are met.
- ***Prison Property Leased to the State***

  An improvement leased and used by the Texas Department of Criminal Justice (TDCJ) that is located on land owned by TDCJ may be exempt. The improvement must be subject to a lease-purchase agreement that stipulates legal title to the improvement passes to TDCJ at the end of the lease period.
- ***Personal Property Subject to Certain Lease-Purchase Agreements***

  If a lease-purchase agreement entitles the state or a political subdivision of the state to compel delivery of the legal title of tangible personal property at the end of the lease, the property is exempt.
- ***Certain Property of a Nonprofit Corporation***

  A nonprofit corporation engaged primarily in providing chilled water and steam to an eligible institution is entitled to an exemption of certain property.
- ***Texas Department of Transportation Property Leased to a Private Entity***

  Rail or highway property is exempt that is owned by the Texas Department of Transportation and licensed or leased to a private entity under the Transportation Code and not used for a commercial purpose.

Section 11.111.
## Public Property Used to Provide Transitional Housing for Indigent Persons[2]

The governing body of a taxing unit may exempt from property taxation residential property owned by an agency of the U.S. government. The property must be used to provide transitional housing for the indigent under certain types of programs operated or directed by the U.S. Department of Housing and Urban Development.

Section 11.12.
## Federal Exemptions

Property exempt from ad valorem taxation by federal law is exempt. In general, federal property is exempt from property taxation. Examples include U.S. post office buildings, military bases, federal courthouses and property located in a foreign trade zone.

Secstions 11.13 and 11.135.
## Residence Homestead

Residence homesteads receive exemptions that apply to a portion of the appraised value of the home. If a residential property owner has an exemption under Section 11.13, and the residence is rendered uninhabitable or unusable by casualty, wind or water damage, the owner under Section 11.135 may continue to receive the exemption for up to two years, or five years if in a governor-declared disaster area and rendered uninhabitable or unusable by the disaster, while constructing a replacement residence. If the owner sells the property before completing the replacement residence, additional taxes and interest may be imposed.

Residence homestead exemptions are separated into those that are mandated by the state and those that are optional, subject to adoption by local taxing units.

- ***State Mandated, Sections 11.13(b) and (c)***

  1) A school district must grant an exemption of $100,000 from the appraised value of all qualified residence homesteads in the district.

  2) A school district also must grant an additional exemption of $10,000 from the appraised value of a residence homestead for adults who are disabled or 65 years of age or older.
- ***Optional, Sections 11.13(d)[3] and (n)[4]***

  1) The governing body of a local taxing unit, or a majority of the qualified voters of a school district at a properly called election by petition, may grant an additional exemption of at least $3,000 of the

[2] This exemption requires local approval and has a state impact when categorized as totally exempt property.
[3] This exemption is optional, requires local approval and only partially impacts state costs through tax ceiling calculations.
[4] This exemption is optional and requires local approval, and a portion carries state costs through tax ceiling calculations and operation of school funding formulas.

6767/8585

appraised value of a residence homestead for adults who are disabled or 65 years of age or older. There is no maximum amount for this exemption.

2) The governing body of a local taxing unit may grant an additional exemption of up to 20 percent of the appraised value of a residence homestead. The exemption must be at least $5,000 when applied to a residence homestead.

Section 11.131.
### Residence Homestead of 100 Percent or Totally Disabled Veteran

Veterans awarded 100 percent disability compensation from the U.S. Department of Veterans Affairs and having either a 100 percent disability rating or individual unemployability, as determined by the U.S. Department of Veterans Affairs, are entitled to a total homestead exemption. The disabled veteran's surviving spouse may also qualify for the exemption.

Section 11.132.
### Donated Residence Homestead of Partially Disabled Veteran

A disabled veteran is entitled to a percentage exemption equal to the veteran's disability rating, if less than 100 percent, on the veteran's homestead if the home was donated by a charitable organization to the veteran at no or some cost to the veteran that is not more than 50 percent of the good faith estimate of the market value of the residence homestead. The disabled veteran's surviving spouse may also qualify for the exemption.

Section 11.133.
### Residence Homestead of Surviving Spouse of Member of the Armed Services Killed in Line of Duty

The surviving spouse of a member of the armed services killed or fatally injured in the line of duty is entitled to exemption of the total appraised value of his or her residence, so long as the surviving spouse has not remarried.

Section 11.134.
### Residence Homestead of Surviving Spouse of First Responder Killed in Line of Duty

An eligible surviving spouse of a first responder killed in the line of duty is entitled to exemption of the total appraised value of his or her residence, so long as the surviving spouse has not remarried. The exemption applies regardless of the date of the first responder's death if the surviving spouse otherwise meets the qualifications.

Section 11.14.
### Tangible Personal Property Not Producing Income

Tangible personal property not used to produce income is exempt unless the taxing entity elects to tax the property. Manufactured homes as defined and certain other residential structures are not included in this exemption.

Section 11.141.
### Precious Metal in Texas Depository

Precious metal held in a Texas precious metal depository location is exempt, regardless of whether the precious metal is held or used by the person for the production of income.

Section 11.145.
### Income-Producing Tangible Personal Property Having Value of Less Than $2,500

A person is entitled to an exemption on tangible personal property that is held or used to produce income and valued at less than $2,500. The exemption applies to each separate taxing unit in which a person uses the property to produce income. All property in each taxing unit is aggregated to determine taxable value.

Section 11.146.
### Mineral Interest Having Value of Less than $500

A person is entitled to an exemption on a mineral interest the person owns if the taxable value is less than $500. This exemption applies to each separate taxing unit in which a person owns a mineral interest. All mineral interests in each taxing unit are aggregated to determine taxable value.

Section 11.15.
### Family Supplies

Family supplies — food, clothing and other consumables — for home or farm use are exempt.

Section 11.16.
### Farm Products

Farm products in the hands of the producer are exempt from property taxation. Farm products include livestock, poultry, eggs, timber and nursery products in a growing state.

Section 11.161.
### Implements of Husbandry

All machinery and equipment used to produce farm or ranch products or timber, regardless of their primary design, are considered to be implements of husbandry, including nursery stock weather protection units, and are exempt from property taxation.

Section 11.17.
## Cemeteries

Property is exempt from taxation if it is used exclusively for human burial and is not held for profit.

Sections 11.18-11.185.
## Charitable Organizations

Property owned by qualified charitable organizations may be exempt by statute. The following types of charitable organizations receive specific authorization in the Property Tax Code and are exempt from property taxes if they meet certain qualifications:

- Charitable organizations performing enumerated functions (Sections 11.18, 11.1801);
- Charitable organizations improving property for low-income housing with volunteer labor (Section 11.181);
- Community housing development organizations improving property for low-income and moderate-income housing prior to 2004 (Section 11.182);
- Organizations constructing or rehabilitating low-income housing not previously exempt including new construction completed on or after Jan. 1, 2004 (Section 11.1825);
- Community land trusts if the exemption is adopted by the governing body of the taxing unit on or after Jan. 1, 2012 (Section 11.1827);[5]
- Associations providing assistance to ambulatory health care centers (Section 11.183);
- Organizations engaged primarily in performing charitable functions (Section 11.184); and
- Organizations developing model colonia subdivisions (Section 11.185).

Section 11.19.
## Youth Spiritual, Mental and Physical Development Associations

Property owned and used exclusively by qualified associations promoting youth spiritual, mental and physical development is exempt.

Section 11.20.
## Religious Organizations

Property owned by a qualified religious organization and used as specified, such as a place of worship or clergy residence, is exempt.

Section 11.21.
## Schools

Property owned and used by a nonprofit school may be exempt from taxation.

Section 11.211.
## Real Property Leased to Certain Schools

Real property leased to an independent school district, community college district or open-enrollment charter school may be exempt from taxation. A constitutional amendment authorizing this exemption was not proposed or put before the voters.

Section 11.22.
## Disabled Veterans

Property owned and designated by a disabled veteran or surviving spouse, or children may qualify for a partial exemption. The exemption applies to one property owned and designated by the veteran or surviving spouse or child. The property does not have to be a residence.

Property owned by a surviving spouse or child of a person who dies while on active duty in the U.S. armed services may qualify for a partial exemption of $5,000 of the value of a property designated by the surviving spouse or child.

Section 11.23.
## Miscellaneous Exemptions

Some specific property, and property owned by specific organizations, is exempt under this section.

- ***Veterans Organizations***

  A nonprofit organization composed primarily of members or former members of the U.S. armed forces or its allies and chartered or incorporated by Congress may apply for exemption from taxation.

- ***Federation of Women's Clubs***

  The tangible property owned by the Texas Federation of Women's Clubs is exempt if the property is not held for profit or gain.

- ***Nature Conservancy of Texas***

  The Nature Conservancy of Texas was entitled to an exemption from taxation of the tangible property it owns if the property is not held for gain. Although this exemption is still in the Tax Code, an attorney general opinion has called the constitutionality of this exemption into question.

- ***Congress of Parents and Teachers***

  The Texas Congress of Parents and Teachers state headquarters buildings are exempt from state and county taxes, along with the land that is reasonably necessary for use of, access to and ornamentation of the buildings.

- ***Private Enterprise Demonstration Associations***

  Tangible property that is owned and used exclusively by a qualified private enterprise demonstration association and that is reasonably necessary for the organization's operations is exempt.

[5] This exemption is optional, requires local approval and only impacts the local taxing units that adopt them.

6769/8585

- ***Bison, Buffalo and Cattalo***

  Bison, buffalo and cattalo are exempt if the animals are not held for profit and are used in experimental breeding to produce an improved strain or kept in parks to preserve the species.

- ***Theater Schools***

  Property owned by a qualified school devoted to teaching and study of the dramatic arts and used in the school's operation is exempt from taxation.

- ***County Fair Associations***

  A qualified county fair association organized to hold agricultural fairs and encourage agricultural pursuits is entitled to an exemption from taxation of the land and buildings that it owns and uses to hold agricultural fairs.

- ***Community Service Clubs***

  Tangible property owned by a qualified community service club and not used for profit or held for private gain is exempt.

- ***Medical Center Development***

  Real and personal property used in developing or operating a medical center area may be exempt from property taxation. The property must be owned by a qualified nonprofit corporation. Additional requirements apply.

- ***Scientific Research Corporations***

  Property owned and used by a qualified nonprofit scientific research corporation for scientific research and educational activities for the benefit of one or more colleges or universities is exempt.

- ***National Hispanic Institute***

  Property owned by the National Hispanic Institute is exempt as long as the organization is exempt from federal income taxation as a nonprofit organization.

Section 11.231.
### Nonprofit Community Business Organization Providing Economic Development Services to Local Community

The exemption applies to buildings and tangible personal property owned and used exclusively by qualified nonprofit community business organizations to provide economic development services to a local community.

Section 11.24.
### Historic Sites[6]

Property that has been legally designated an archaeological or historic site may be exempted by the governing body of a taxing unit.

Section 11.25.
### Marine Cargo Containers Used Exclusively in International Commerce

Marine cargo containers and associated equipment used exclusively in international commerce are exempt from property tax. The property must be owned by a citizen or entity organized under the laws of a foreign country.

Sections 11.251 and 11.437.
### Tangible Personal Property (Freeport) and Cotton Stored in a Warehouse

Tangible personal property that qualifies as "freeport goods" and is used for manufacturing, processing, fabricating, storing or assembling and transported out of Texas within 175 days may be exempt. On official action of a taxing entity, the 175-day period may be extended to 730 days for aircraft parts. This exemption also applies to all cotton stored in a warehouse for transportation outside of this state. Provisions for local taxation under certain circumstances exist in law.

Section 11.252.
### Motor Vehicles Leased for Use Other than Production of Income

The owner of a leased vehicle is entitled to a tax exemption from property tax imposed on the vehicle if the lessee does not hold or use the vehicle primarily to produce income.

Section 11.253.
### Tangible Personal Property in Transit (Goods-in-transit)

Tangible personal property may be exempt from taxation if it is acquired in, or imported into, this state to be forwarded to another location in this state or outside of this state within 175 days and is stored under a contract for bailment by a public warehouse operator. A taxing unit in a declared disaster area may extend the number of days from 175 to 270 by official action. After holding a public hearing, a taxing entity may elect to tax goods-in-transit.

Section 11.254.
### Motor Vehicle Used for Production of Income and for Personal Activities

A person is entitled to an exemption from taxation of one personally owned motor vehicle used for both business and personal activities.

Section 11.26.
### Limitation of School Tax on Homesteads of Elderly or Disabled

The school tax limitation (tax ceiling or tax freeze) is provided to homeowners receiving the mandatory disabled or 65 years of age or older $10,000 homestead exemption for school taxes. The tax ceiling is not an exemption, but it is triggered by an exemption.

6 This exemption is optional, requires local approval and only partially impacts state costs through tax ceiling calculations.

The tax ceiling provides that school taxes on a residence homestead will not increase above the amount of tax imposed in the first year the individual qualified for the "disabled or 65 years of age or older" exemption on that homestead. If the homeowner who qualified for the exemption remains in that home and does not change the homestead, the school taxes on the homestead will not increase above the amount levied in the first year the individual qualified. The tax ceiling is adjusted downward for increases in the residence homestead exemption and for school district tax rate compression.

Homeowners can transfer their tax ceiling to a different home. The school tax ceiling on the new home is calculated to give the homeowner the same percentage of tax paid as the original home's tax ceiling.

Section 11.27.
### Solar and Wind-Powered Energy Devices

Value attributable to the installation or construction of solar or wind-powered energy devices may be exempt. The devices must be used primarily for on-site production and distribution of energy.

Section 11.271.
### Offshore Drilling Equipment Not in Use

Certain equipment used in offshore drilling for oil or natural gas, or that is part of offshore spill response containment systems, may be exempt if stored in counties bordering the Gulf of Mexico or other bodies of water immediately adjacent to the Gulf of Mexico.

Section 11.29.
### Intracoastal Waterway Dredge Disposal Site

Land dedicated by a recorded donated easement as a disposal site for depositing and discharging materials dredged from the main channel of the Gulf Intracoastal Waterway by or under the direction of the state or federal government is exempt. An exemption terminates when the land ceases to be used as an active dredge material disposal site and is no longer dedicated for that purpose. Although this exemption is still in the Tax Code, an attorney general opinion has called the constitutionality of this exemption into question insofar as it would apply to property required to be taxed by Texas Constitution, Article 8, Section 1(b), which requires all property held by private persons or corporations to be taxed unless there is constitutional authorization.

Section 11.30.
### Nonprofit Water Supply or Wastewater Service Corporation

Property owned by a qualified corporation that provides in its bylaws that on dissolution the corporation's assets transfer to an entity that provides a water supply or wastewater service and is exempt from property taxation may be exempt. To be considered exempt, the property must be reasonably necessary for and used to acquire, treat, store, transport, sell or distribute water or to provide wastewater service.

Section 11.31.
### Pollution Control Property

All or part of real and personal property owned and used wholly or partly as a facility, device or method for the control of air, water or land pollution, as designated by the Texas Commission on Environmental Quality, is exempt.

Section 11.311.
### Landfill-Generated Gas Conversion Facilities[7]

A person is entitled to an exemption on certain property located on or near a landfill and used to collect, compress and transport, process and deliver gas generated by the landfill.

Section 11.315.
### Energy Storage System in Nonattainment Area[8]

Under specific circumstances, a property owner is entitled to an exemption on energy storage systems meeting certain criteria if the exemption is adopted by the governing bodies of taxing entities.

Section 11.32.
### Certain Water Conservation Initiatives[9]

The governing body of a taxing unit may exempt all or part of the value of property on which approved water conservation initiatives, desalination projects or brush control initiatives have been implemented.

Section 11.33.
### Raw Cocoa and Green Coffee Held in Harris County

Raw cocoa and green coffee held in Harris County are exempt.

Section 11.34.
### Limitation of Taxes on Real Property in Designated Areas of Certain Municipalities[10]

Cities with a population of less than 10,000 may call elections to enter into agreements with owners of property located in, or adjacent to, areas operated with certain funding from the Texas Department of Agriculture to limit property

[7] This exemption is state mandated; however, it has no cost to the state through the operation of the school funding formulas because this exemption is not deducted in the Comptroller's Property Value Study (Government Code Section 403.302(d)(9)).

[8] This exemption is optional, requires local approval and only impacts the local taxing units that adopt it.

[9] This exemption is optional, requires local approval and only impacts the local taxing units that adopt it.

[10] This exemption requires local approval and has a state impact when categorized as totally exempt property.

6771/8585

taxes levied on those owners' property by all taxing units for five years.

Section 11.35.
### Temporary Exemption for Disaster Area

A qualified property that is at least 15 percent physically damaged by a disaster in a governor-declared disaster area is eligible for a temporary exemption of a portion of the appraised value of the property.

Section 11.36.
### Child Care Facilities

The governing body of a county or municipality may exempt from property taxation a percentage of the appraised value of owned or leased real property used to operate a childcare facility. The percentage specified may not be less than 50 percent.

Section 11.36.
### Medical or Biomedical Property

Certain medical or biomedical property located in a medical of biomedical manufacturing facility that a person owns or leases is exempt from property taxation. Tax Code Section 11.36, specifies the type of tangible personal property that qualifies and provides the conditions under which the section applies.

Sections 21.02 and 21.04.
### Railroad Rolling Stock Taxable Only by Counties

Railroad rolling stock is not taxable by school districts, as Tax Code Section 21.04 specifies that each county in which a railroad operates may tax a portion of the total market value of railroad rolling stock, eliminating taxation by school districts by negative implication. The general personal property situs statute, Tax Code Section 21.01, specifically provides the conditions under which any taxing unit may tax tangible personal property but makes clear that Tax Code Section 21.04 provides an exception to the general statute.

Section 23.23.
### Limitation on Appraised Value of Residence Homestead

The appraised value of a residence homestead for a tax year is limited to the lesser of the market value of the property or the sum of 110 percent of the appraised value for the preceding tax year plus the market value of all new improvements.

Section 23.231.
### Circuit Breaker Limitation on Appraised Value of Real Property Other Than Residence Homestead

The appraised value of real property, other than a residence homestead or property subject to special appraisal under Tax Code Chapter 23, with a value of not more than $5 million in the first tax year the property qualifies for the circuit breaker limitation is limited to the lesser of the market value of the property or the sum of 120 percent of the appraised value for the preceding tax year plus the market value of all new improvements. Tax Code Section 23.231 specifically provides the conditions under which a real property qualifies for the limitation and provides for the annual adjustment of the maximum appraised value by the consumer price index (CPI). This section expires Dec. 31, 2026.

Sections 23.41, 23.52, 23.73 and 23.9803.
### Special Appraisal for Agricultural and Timberland

Certain land devoted to agricultural production, wildlife management or timber production is appraised at productivity value — a value based on the land's capacity to produce agricultural or timber products.

Sections 23.48 and 23.60.
### Reappraisal of Land Subject to Temporary Quarantine for Ticks

An owner of qualified agricultural or open-space land may request a reappraisal of land subject to a temporary quarantine of at least 90 days in the current tax year. The reappraised value may not exceed the lesser of the market value or one-half of the original appraised value for the current tax year.

Sections 26.11, 26.111 and 26.113.
### Prorations and Other Partial Exemptions

Properties may qualify for certain exemptions for only part of the year, including when the government or a charitable or nonprofit organization acquires property after Jan. 1. Usually, these total exemptions are effective immediately on qualification, and the taxes are prorated to account for the applicable part of the year that the exemption is effective. This does not include residence homesteads with prorated taxes. Prorations for residence homesteads are reported under the applicable homestead exemption.

Sections 33.06 and 33.065.
### Deferred Taxes

For residence homestead taxes, the person who owns and occupies a residence homestead may defer the collection of taxes, abate a suit to collect a delinquent tax or, in certain cases, abate a sale to foreclose a tax lien if the individual:

1. is 65 years or older;
2. is disabled;
3. is qualified for certain disabled veteran exemptions; or
4. receives an appraised value that exceeds 105 percent of the preceding year's appraised value and the market value of any new improvements.

Chapter 311.
### Tax Increment Financing Act

Tax Increment Reinvestment Zones (TIRZs) are designated by a city or county. The tax increments generated by the increase of the property value inside the TIRZ are used to finance development costs of improvements and

infrastructure to promote and attract new developments within the area. The tax increment financing (TIF) levy loss in Table 10 is mostly for zones in which school districts participated before Sept. 1, 1999. A school district entering into an agreement after this date is generally not held harmless by the state for losses in revenue as a result of the agreement.

Chapter 313.

### Texas Economic Development Act

Property used in connection with manufacturing; research and development; a clean coal project as defined by Section 5.001, Water Code; an advanced clean energy project as defined by Section 382.003, Health and Safety Code; renewable energy electric generation; electric power generation using integrated gasification combined cycle technology; nuclear electric power generation; certain computer centers; or a Texas priority project may be eligible for value limitation agreements. These agreements are entered into by school districts and property owners, under which the property owner will make a certain level of investment and create jobs. The agreements limit the taxable value of qualifying investments for school district property tax maintenance and operations purposes. Property taxes levied for the repayment of debt are not affected. The program expired Dec. 31, 2022; however, projects approved before the expiration will continue until the end of their value limitation agreement.

Government Code
Chapters 403.601-403.623.

### Texas Jobs, Energy, Technology, and Innovation Act

Property used in connection with manufacturing facilities, dispatchable electric generation facilities, natural resource development facilities, research, development or manufacturing facilities for high-tech infrastructure equipment or technology, and the construction or expansion of critical infrastructure may be eligible for value limitation agreements. These agreements are entered into by the governor's office, school districts and property owners, under which the property owner will make a certain level of investment and create high-paying jobs. The agreements limit the taxable value of eligible property for school district property tax maintenance and operations purposes and provide for an additional limitation if the project is located in qualified Opportunity Zones. This program expires on Dec. 31, 2033. ✪

6773/8585

# The Nature of Tax Incidence

The final incidence of a tax often cannot be directly observed nor even estimated with absolute objectivity. The subjective selection of economic and behavioral assumptions exerts a heavy influence on the calculated incidence, and myriad assumptions are possible.

Economic analysis, at heart, involves the study of how a change in one segment of the economy is diffused throughout the rest of the economy. Public finance experts have long recognized that the person from whom a given tax is collected is not necessarily the one who ultimately pays the tax.

Any tax levied directly on a business will ultimately be paid by real, live people — if not consumers via higher prices, then business owners via reduced profits or employees via reduced wages. In the first instance, the tax is considered to be shifted "forward," and in the second and third instances it is considered to be shifted "backward" to the factors of production. (Taxes also may be exported out of state, thereby relieving the burden in state. Of course, other states' taxes may end up being imported into Texas as well.) In any case, or in any combination where the tax burden is borne jointly, the old cliché is true: "Only people pay taxes."

Governments levy taxes, for the most part, to cover the costs of their expenditures. A tax will inherently have two direct economic effects. First, it will alter the relative prices of goods and services, affecting what is produced and how. Second, to the extent that virtually every tax takes more income from some groups than from others, it will alter the distribution of income.

## Incidence Analysis

Incidence analysis attempts to identify who bears the ultimate burden of a given tax. The analysis can be conducted on two levels: measurement of the initial direct "impact" of the tax in terms of the shares borne by consumers and/or different business sectors; and measurement of the ultimate "incidence," frequently represented by translating the initial impacts in terms of their effects on different household income groups.

The analysis is complicated because it is difficult, if not impossible, to isolate a change in one tax without taking into account the effect on other taxes or expenditures. For example, eliminating an exemption in one tax would imply either an equal decrease in another tax (to compensate for the increased revenues) or an equal increase in spending — either of which would have its own incidence implications above and beyond the incidence of the exemption being repealed.

Competing policy goals also make it difficult to study tax incidence. That is, while some taxes are justified on the basis of fairness or equity (the "ability to pay" principle), others are justified as user fees (the "benefits received" principle). The former is best exemplified by the federal income tax; the latter by federal and state motor fuel taxes, which are earmarked for highway construction and maintenance and other public transportation.

A tax is considered "regressive" when the tax burden as a share of income increases as income decreases; "proportional" when the share of tax burden relative to income remains constant for all income groups; and "progressive" when the share of tax burden relative to income grows larger as income increases. As such, taxes on alcohol and tobacco are considered regressive (because consumption levels remain relatively flat as income rises); a "flat" single-rate income tax (without any deductions or exemptions) is considered proportional; and the current federal income tax, with its schedule of increasing marginal tax rates, is considered progressive. Note that under either a proportional tax or a progressive tax, the ability to pay principle may be satisfied, because people with higher incomes pay more under either tax.

For practical purposes, most empirical incidence analyses are reduced to measuring the effects of a single tax in isolation from all others, without taking into account the effects of other taxes or any government expenditures or transfers. Even here, however, economists must confront the problem of accurate income measurement. That is, the results can vary depending upon whether income is measured at the individual or household level, in terms of "current" or "lifetime" income, and whether it is "gross," "adjusted gross" or "taxable" income. This problem becomes particularly difficult at the lower end of the income scale, where transfers — which are not always susceptible to accurate quantification — make up a significant portion of the income stream.

In addition, and equally complicated, is the problem of determining the proper "shifting" assumptions — what portion of the tax is shifted to consumers, what portion is shifted to labor, what portion is shifted to capital and what portion is exported out of state.

The shifting effects will depend on many things, including how producers and consumers respond to price changes

and whether a particular market is competitive or monopolistic. In general, most tax burdens are believed to be borne jointly by producers and consumers — raising the price paid by consumers and reducing the revenue received by producers, with the share of the burden depending upon the level of competition and the price elasticity of demand for the item being taxed. The more inelastic the demand, the greater the burden shifted to the consumer. (Consider the tax on cigarettes.) The more elastic the demand, the greater the burden borne by the producer. (Consider a tax on milk in glass milk bottles but not on milk in paper cartons, each a close substitute for the other in the eyes of most consumers.)

Similarly, when producers enjoy a near monopoly over the good being taxed – consider a tax on local natural gas utility service – there's a greater ability to shift the tax forward onto consumers by raising prices. However, when the individual producer has no ability to set prices – consider the world oil market – the ability to shift the tax burden is reduced.

## Tax Burden

Finally, determining who bears the tax burden varies depending upon whether the analysis focuses on the short term or the long term. For example, increasing the fee for a liquor license or an annual occupation tax would not be expected to be shifted forward in higher prices in the short term, because the fee would be considered part of the firm's fixed costs, whereas prices are determined by marginal costs (the cost of producing one incremental unit of the item sold). In this instance, the fee would be borne entirely by the producer.

In the long run, however, when all costs are taken into account, resources would shift and prices would adjust to take the tax into account in determining price, and as such the producer would be able to shift at least a portion of the burden forward onto consumers.

Recognizing the impracticality of developing an incidence model that satisfies all the demands of pure economic theory, the tables in the following section reflect the necessity of making certain basic assumptions, which are described in the beginning of that section. Perhaps key among these assumptions is that consumers will bear the ultimate burden of any taxes levied directly upon them.

While the following tables may be of great interest for policymakers, it's important to recognize that the results depend not upon hard science but upon subjective assumptions — and that the only thing that can be said with certainty is that no one really knows how taxes (particularly those levied on property and business) are shifted. ✪

# Texas Tax Incidence

The taxes discussed in the report's tax incidence section include the sales and use tax, the motor vehicle sales and use tax, the franchise tax, the oil production tax and the school property tax – the same taxes discussed in the preceding tax exemption sections. Under the Government Code's tax incidence reporting requirements, this section also presents incidence tables for the natural gas production tax, the gasoline tax and the insurance premium tax.

This incidence analysis includes certain assumptions about measuring income and how tax burdens shift. As discussed previously in the section concerning the nature of tax incidence, the outcome of any incidence study depends significantly on the initial assumptions relating to income, shifting and the relative demographic cohort and time period.

## Household Income

For the purposes of this study, the relative demographic cohort is the household rather than the individual, and the relative time periods are short term (for the study of initial distributions or burdens) and intermediate term (for the final incidences). In the intermediate term, it is assumed that any tax changes affecting businesses will be shifted until the final incidence is absorbed by households — whether by consumers, workers or owners. However, in the case of taxable purchases for household consumption, it is assumed that the household will bear the initial as well as final tax burdens. In contrast, a long-term, full equilibrium analysis would allow for backward shifting brought about by consumer reactions to the tax change and then another round of shifting by business until the final incidence was redistributed. **Exhibit A** shows the various types of income included within this report's definition of household income.

## Summary Tables

For each of the taxes covered in this section, the incidence analysis begins with a summary table that lays out the initial distribution and the final incidence of that tax. Where applicable, each summary table is followed by a series of tables that shows the incidence effects of each statutory exemption or exclusion that reduces revenues from the tax by more than 1 percent.

The tables in this section describe final incidence by household income groups referred to as "quintiles." It is forecast that there will be approximately 11,729,470 households in Texas in fiscal 2027. Each quintile includes approximately 2,345,894 households, representing one-fifth of the households in the state, ordered by total income. Quintile 1 represents the 2,345,894 households with incomes less than $41,105; Quintile 2 represents the households with incomes from $41,105 to $72,978; and so forth, up to Quintile 5,

**Exhibit A**

### Components of Household Income

| Components | Definition |
|---|---|
| Components | Definition |
| Federal Adjusted Gross Income | The total income from all taxable sources less certain expenses incurred in earning that income. Other sources of cash income are excluded by statute from the federal income tax. These are called statutory adjustments. * |
| Nontaxable Interest Income | Interest income that is not taxed by the federal government. |
| Nontaxable Pension Income ** | Pension income that is not taxed by the federal government. |
| Nontaxable Social Security Benefits | Not all Social Security benefits are taxable by the federal government. |
| Nonfiler Income (from Census) | Income received by persons whose annual income is below that of the income required to file a tax return. *** |

** Statutory adjustments are the deductions listed on page 1 of the 1040 form.*
*** Capital gains and pension benefits are included when realized, not as they accrue.*
**** This income includes public assistance, workers' compensation, Social Security benefits and unemployment compensation.*
*Note: Adjustments were made to total income for the lowest quintiles due to lack of sufficient data.*

which represents the 2,345,894 households in Texas with incomes of $195,292 or higher.

Each of the eight total tax summary tables has five displays. The two displays at the top of each table relate to initial distribution and show, first, how the initial burden is distributed among various industry sectors and consumers, and second, how the initial burden is distributed by type of business organization. The two displays in the middle relate to final incidence and show, first, how final incidence is either exported or distributed by family income quintile, and second, how the final incidence is either exported or distributed between renters and homeowners.

The final display, at the bottom left of each tax summary table, involves a calculation of the overall equity of the tax — that is, its degree of progressivity or regressivity. This calculation, known as the "Suits Index," ranges from +1.0 to -1.0, with a 0.0 indicating that the tax burden is perfectly proportional to income at all quintiles. At the extremes, a +1.0 would indicate an extremely progressive tax, and a -1.0 would indicate an extremely regressive tax (i.e., with the entire incidence borne entirely by the lowest quintile).

The total tax summary tables for the limited sales and use tax, the motor vehicle sales and use tax, the franchise tax and the school property tax are each followed by a series of smaller tables, each with two displays. These tables relate to Tax Code provisions that reduce overall collections for each particular tax by more than 1 percent. The first display shows how the initial impact is distributed among consumers and various industry groups, and the second shows how the final incidence is exported or borne by households, categorized by income quintile.

## Acknowledgments

Finally, for contributions to the incidence material contained in this report, the Comptroller's office would like to acknowledge the Minnesota Department of Revenue's "Minnesota Tax Incidence Study" (several editions), data providers (both public and private) and Texas Legislative Budget Board staff. ✪
