**Brief Description:** Receipts from the sale of vision and hearing aids or from fitting and dispensing of these types of aids are deductible from gross receipts.

Definitions:

(1) "vision aids" are defined as closed circuit television systems, monoculars, magnification systems, speech output devices or other systems specifically designed for use by persons with low vision or visual impairment and not normally used by a person who does not have low vision or visual impairment;

(2) "visual impairment" is defined as a central visual acuity of 20/200 or less in the better eye with use of a correcting lens, or a limitation in the fields of vision so the widest diameter of visual field subtends an angle of 20 degrees or less; and

(3) "hearing aids" are defined as small electronic prescription devices that amplify sound and are usually worn in or behind the ear of a person with impaired hearing.

**Statutory Basis:** 7-9-111 NMSA 1978

**Intended Purpose:** To benefit people who, due to medical conditions, need hearing and vision aids. The deduction reduces the tax burden imposed by GRT.

**History:** Originally enacted in 2007.

**Evaluation:** The U.S. Centers for Disease Control and Prevention reports that half of adults who are 75 and older report some hearing loss. This is a population that is primarily covered by Medicare, but Medicare does not reimburse for hearing aids or the exams needed for fitting aids. Those who served in the US military can have hearing aids covered through the Department of Veterans Affairs. The cost of one hearing aid can be between $1,000 and $4,000 making it cost prohibitive for many people to purchase one aid let alone two. Access to affordable vision and hearing aids improves quality of life.

**Recommendations:** None.

**Reliability Factor:** 4 – Data from the RP-80, NAICS codes Optical Goods Stores and All Other Health and Personal Care Stores, were used to estimate the expenditure. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost. A recent NAICS code revision by the federal Office of Management & Budget is reflected in FY25 estimates.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Hearing and Vision Aids GRT Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **State General Fund Expenditure (thousands)** | $912 | $880 | $180 |
| | **Local Government Expenditure (thousands)** | $583 | $587 | $120 |

# HIGH-WAGE JOBS
# CREDIT AGAINST MODIFIED COMBINED TAX

**Category:** Economic Development

**Brief Description:** Eligible employers that create high-wage jobs in New Mexico may apply for a tax credit against State GRT compensating tax, withholding tax, the interstate telecommunications GRT, E911 surcharge and telecommunications relay service surcharge. The credit does not apply against local option GRT. The deadline for creating a new high-wage job is July 1, 2026. An "eligible employer" is an employer that is eligible for the Job Training Incentive Program (JTIP) administered by EDD.

The amount of the credit is 8.5% of the qualifying wages and benefits of an eligible job up to $12,750 per qualifying period for each new job. If an eligible employer meets the requirements, there is no upward limit on the potential number of total credits claimed. The credit is refundable.

**Statutory Basis:** 7-9G-1 NMSA 1978

**Intended Purpose:** To provide an incentive for businesses to create and fill new high-wage jobs in New Mexico.

**History:** Originally enacted in 2004 and amended in 2007, 2008, 2013, 2016, 2019, 2021, and 2025.

The 2013 amendment clarified the application of the high-wage jobs tax credit; defined benefits and wages; added the purpose section; clarified the $12,000 limitation applied per job per qualifying period; limited the time for which a taxpayer can apply for approval of the credit to no later than 12 months following the end of the calendar year in which the taxpayer's final qualifying period closes; closed a loophole with respect to mergers, acquisitions, and reorganizations; changed the population threshold for rural/urban distinction from 40,000 to 60,000; clarified that the goods or services sold must be produced in New Mexico; added a requirement that the taxpayer be certified by EDD as an "eligible employer" for development training program assistance ; clarified that a "new high-wage economic-based job" must be a new job and must be in New Mexico; extended the deadline to hire to July 1, 2020; and increased the wages that must be paid to qualify after July 1, 2015 (from $40,000 to $60,000 in urban communities and from $28,000 to $40,000 in rural communities).

The 2016 amendment changed the eligibility requirements to qualify for the credit and required annual filing; closed gaps that allowed unintended recipients to receive the credit; and removed employee benefits from the calculation of the credit value.

The 2019 amendment removed the requirement of "economic based" from the high wage job classification; reduced the reimbursement rate from 10%

of wages to 8.5%; increased the eligible benefit per job from $12,000 to $12,750; reduced the qualifying period for a "new high-wage job" and "threshold job" from 48 weeks to 44 weeks; and extended the end date for the credit based on the creation of a "new high-wage job" from July 1, 2020 to July 1, 2026.

The 2025 amendment changed the definition of "threshold job" to refer to the first 52 weeks of employment instead of the previous calendar year.

For a recent analysis on the impact of the high-wage jobs credit, see the Tax-E "High-Wage Job Tax Credit," provided by the Legislative Finance Committee, see the Tax Expenditure Assessments at: https://www.nmlegis.gov/Entity/LFC/Revenue_Economic_Reports_and_Tax_Policy.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **High-Wage Jobs Credit against Modified Combined Tax** | **Tax Year** | 2022 | 2023 | 2024 |

# HOME FIRE RECOVERY INCOME TAX CREDIT AGAINST PIT

**Category:** Citizen Benefits

**Brief Description:** A taxpayer who is not dependent of another taxpayer and incurs qualified home expenditures for a home in New Mexico to replace a prior home that was destroyed by a wildfire in calendar years 2021 through 2023 may claim a credit against the taxpayer's income tax liability.

The credit equals the qualified home expenditures incurred by the taxpayer not to exceed $50,000 per home and must receive certification from the Construction Industries Division of the Regulations and Licensing Department (RLD). The taxpayer must apply for the credit no later than 12 months after the calendar year in which the construction of the home is completed. The aggregate annual cap of credits that may be certified is $5 million, with applications considered in the order received. The credit is non-refundable and may be carried forward for three consecutive tax years. The credit is effective for taxable years 2024 through December 31, 2029.

Select definitions:

(1) “home” means a dwelling designed for long-term habitation in which the taxpayer resides for a majority of the year and is:

   a. Constructed permanently on a taxpayer's property with a foundation and that cannot be moved; or

   b. A manufactured home or modular home that is a single-family dwelling with a heated area of at least thirty-six by twenty-four feet and at least eight hundred sixty-four square feet and constructed and installed to meet federal and New Mexico standards.

(2) "qualified home expenditures" means gross expenditures for the construction or manufacture of a home on the same property in New Mexico that a taxpayer's prior home was destroyed by a wildfire in calendar years 2021 through 2023, less any compensation related to home construction, manufacture or repair costs received pursuant to the federal Hermit's Peak/Calf Canyon Fire Assistance Act or from insurance or other source of compensation.

**Statutory Basis:** 7-2-18.35 NMSA 1978

**Intended Purpose:** To mitigate the cost to a taxpayer for the reconstruction of a home destroyed in a wildfire by reducing the taxpayer’s personal income tax liability.

**History:** Originally enacted in 2024 and amended in 2025.

**Evaluation:** None.

**Recommendation:** As this credit has not been claimed, RLD or the New Mexico Department of Homeland Security and Emergency Management (DHSEM) may need to conduct outreach to taxpayers who may qualify for the credit.

**Reliability Factor:** 1 – This credit is separately reported.

**Fiscal Impact:** No taxpayer has claimed this credit.

# HOSTING WORLD WIDE WEB SITES
# GRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from internet connected facilities that store data are deductible from gross receipts. Despite the title, the statute indicates it is not limited to facilities that provide web-hosting. Any facility storing data and connected to the internet qualifies for this deduction.

**Statutory Basis:** 7-9-56.2 NMSA 1978

**Intended Purpose:** Presumably to incentivize data centers to relocate to New Mexico.

**History:** Originally enacted in 1998.

**Evaluation:** According to Data Center Map (datacentermap.com), there are currently 22 colocation data centers operating in the state; 17 of them are located in Albuquerque, 1 in Taos, 1 in Clovis, 2 in Santa Teresa, and 1 in Santa Fe. The majority of these companies started operations in New Mexico after the deduction became effective. However, the statute is written broadly enough that any facility storing data and connected to the internet qualifies.

**Recommendations:** None.

**Reliability Factor:**  2 – The GRT deduction taken by all the companies filing under a NAICS code indicating a primary business of Data Processing, Hosting, and Related Services was summed. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Hosting World Wide Web Sites GRT Deduction** | **State General Fund Expenditure (thousands)** | $1,290 | $1,480 | $1,518 |
| | **Local Government Expenditure (thousands)** | $830 | $970 | $995 |

# INCOME TAX REBATE 2020 TAX YEAR FILING

**Category:** Citizen Benefits

**Brief Description:** Resident taxpayers who were not dependents, who received the working families tax credit against their tax year 2020 income tax liability, and who met income eligibility criteria received a one-time tax rebate of $600. Single filers with AGI not exceeding $31,200 and heads of household, surviving spouses and married individuals filing joint returns with AGI not exceeding $39,000 were eligible for this rebate. The rebate was not allowable after June 30, 2022.

**Statutory Basis:** 7-2-7.4 NMSA 1978

**Intended Purpose:** To provide temporary economic relief to low-income workers from the COVID-19 pandemic and aid in a quick economic recovery of the state. Targeted to benefit low-income essential workers in industries such as food services and retail.

**History:** Originally enacted in 2021.

**Evaluation:** This rebate targeted working taxpayers more susceptible to the impacts of the COVID-19 induced recession. This included low-wage individuals working in the service industry who faced temporary furloughs and lay-offs. Federal and state relief are cited as contributing to the recovery in consumer spending as the loss of wages to a significant portion of the labor force was supplemented with the rebate.

**Recommendation:** Repeal is recommended as this rebate can no longer be claimed, and the return amendment period has passed.

**Reliability Factor:** 1 – This rebate is separately reported, and no estimation is required.

**Fiscal Impact:** Note: reporting more than three years to maintain history of non-recurring rebate data. Data in FY2025 is negative due to return amendments and reversal of some rebates.

| | | | | | | |
|---|---|---|---|---|---|---|
| **2020 income tax rebate** | **Tax Year (Calendar)** | 2020 | 2021 | 2022 | 2023 | 2024 |
| | **Claims** | 171,445 | NA | NA | NA | NA |
| | **Expenditure (thousands)** | $102,547 | | | | |
| | | | | | | |
| | **Fiscal Year** | 2021 | 2022 | 2023 | 2024 | 2025 |

| | **Expenditure (thousands)** | $97,663 | $4,521 | $399 | $53 | ($89) |

# INCOME TAX REBATE 2021 TAX YEAR FILING

**Category:** Citizen Benefits

**Brief Description:** Resident taxpayers who were not dependents and who meet income eligibility criteria are eligible for an income tax rebate when filing their tax year 2021 personal income tax return. Single filers and married individuals filing separate returns, with AGI not exceeding $75,000, were eligible for a $250 rebate. Heads of household, surviving spouses and married individuals filing joint returns with AGI not exceeding $150,000 were eligible for a $500 rebate. The rebate was not allowable after June 30, 2023.

**Statutory Basis:** 7-2-7.6 NMSA 1978

**Intended Purpose:** To provide temporary economic relief to low-income New Mexico residents during inflationary price increases.

**History:** Originally enacted in 2022.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 1 – This rebate is separately issued, and no estimation is required.

**Fiscal Impact:** Note: reporting more than three years to maintain history of non-recurring rebate data.

| | | | | | |
|---|---|---|---|---|---|
| **2021 income tax rebate** | **Tax Year (Calendar)** | 2021 | 2022 | 2023 | 2024 |
| | **Claims** | 838,132 | NA | NA | NA |
| | **Expenditure (thousands)** | $302,305 | | | |
| | | | | | |
| | **Fiscal Year** | 2022 | 2023 | 2024 | 2025 |

| | **Expenditure (thousands)** | $277,008 | $23,704 | $1,331 | $245 |

# INVESTMENT CREDIT AGAINST GRT, COMPENSATING TAX, OR WITHHOLDING TAX

**Category:** Economic Development

**Brief Description:** The investment credit is for equipment owned and introduced into New Mexico for use by a taxpayer in a new or expanded manufacturing operation.

To be eligible for the credit, prior to June 30, 2030, the taxpayer must employ one full-time equivalent ("FTE") for every $750,000 of qualified equipment claimed (up to $30 million) and one FTE for every $1 million of qualified equipment claimed (over $30 million).

The credit may be applied against a maximum of 85% of a taxpayer's state and local option gross receipts (GRT), compensating (CMP) tax, and withholding tax (WH) liability, but first must be applied to gross receipts and compensating tax liability before being claimed against withholding tax liability.

The credit is refundable up to $250,000 if the taxpayer's available credit is less than $500,000 and the sum of the taxpayer's gross receipts, compensating, and withholding tax due for the previous calendar year was less than 35% of the taxpayer's available credit but more than $10,000. Otherwise, the credit is carried forward for an unlimited time.

**Statutory Basis:** 7-9A-1 *et seq.* NMSA 1978

**Intended Purpose:** To provide a favorable tax climate for manufacturing businesses and to promote increased employment in New Mexico.

**History:** Originally enacted in 1979 and amended in 1983, 1986, 1990, 1991, 2001, 2002, 2003, 2009, 2020 and 2025. The 2020 amendment: set a sunset date of July 1, 2030 for the valuation of equipment and employment to apply for the credit; includes a calculation for the investment credit if the sale of qualified equipment for which the credit is allowed is subject to GRT and if the qualified equipment is not subject to GRT or the compensating tax; changes the employment requirement amounts and extends these amounts until July 1, 2030; and provides that the investment credit will be claimed against a taxpayer's state and local tax liabilities. The 2025 amendment ties the credit amount to the current state gross receipts tax rate rather than a fixed 5.125%, which was the state rate prior to the rate reduction enacted in 2022.

**Evaluation:** EDD reports that, due to this incentive, the state has attracted manufacturing businesses from industries such as breweries and wineries.

**Recommendations:** Require the credit to be claimed in consecutive months once the taxpayer starts claiming the credit. Establish a limit to how many consecutive years the credit may be carried forward. It is recommended that GRT tax expenditures be

structured as deductions for ease of administration and taxpayer compliance, as credits are more complicated to administer than deductions.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Investment Credit against GRT, CMP, or WH** | **Tax Year** | 2022 | 2023 | 2024 |
| | **WH Claims** | 42 | 25 | 3 |
| | **WH Expenditure (thousands)** | $4,035 | $3,403 | $119 |
| | **GRT and CMP Claims** | 65 | 29 | 14 |
| | **GRT and CMP Local Government Expenditure (thousands)** | $228 | $200 | $56 |
| | **GRT and CMP State General Fund Expenditure (thousands)** | $352 | $305 | $86 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **WH Claims** | 50 | 61 | 36 |
| | **WH Expenditure (thousands)** | $8,040 | $3,067 | $2,548 |
| | **GRT and CMP Claims** | 74 | 69 | 29 |
| | **GRT and CMP Local Government Expenditure (thousands)** | $175 | $255 | $163 |
| | **GRT and CMP State General Fund Expenditure (thousands)** | $271 | $388 | $248 |

# INVESTMENT MANAGEMENT OR ADVISORY SERVICES GRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from fees received for performing management or investment advisory services for a mutual fund, hedge fund, or real estate investment trust are deductible from gross receipts.

**Statutory Basis:** 7-9-108 NMSA 1978

**Intended Purpose:** To incentivize fund managers to locate in New Mexico, thereby increasing income tax revenues and disposable income that will circulate through the State's economy.

**History:** Originally enacted in 2007.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 3 – Tax & Rev does not have any direct data to estimate this deduction. Tax & Rev reports with aggregated data were used. Gross receipts for taxpayers classified in certain financial activities are aggregated to establish a bound for this deduction. This estimate represents the general magnitude of the deduction. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Investment Management or Advisory Services GRT Deduction** | **State General Fund Expenditure (thousands)** | $700 | $700 | $1,600 |
| | **Local Government Expenditure (thousands)** | $400 | $400 | $1,000 |

# JET FUEL FORTY PERCENT GRT AND COMPENSATING TAX DEDUCTION

**Category:** Economic Development

**Brief Description:** From July 1, 2003, through June 30, 2017, 55% of the receipts from the sale of fuel specially prepared and sold for use in turboprop or jet-type engines, as determined by Tax & Rev, were deductible from gross receipts.

From July 1, 2003, through June 30, 2017, 55% of the value of the fuel specially prepared and sold for use in turboprop or jet-type engines as determined by Tax & Rev, was deductible in computing compensating tax.

After June 30, 2017, the amount of the deductions is reduced to 40% of the receipts from the sale or value of the fuel.

**Statutory Basis:** 7-9-83 and 7-9-84 NMSA 1978

**Intended Purpose:** Presumably to incentivize routing of air traffic through New Mexico by reducing the effective cost of refueling in New Mexico.

**History:** Originally enacted in 1993 and amended in 2003, 2006, and 2011, when the deduction was extended through 2017 and reduced from 55% to 40% of the receipts attributable to the sale of jet fuel. The 2025 amendment revised reporting requirements and removed certain obsolete language.

**Evaluation:** None.

**Recommendations:** Consider requiring this deduction be separately reported. Tax & Rev distributes funds to the State Aviation Fund from the taxable sales of jet fuel in the state. Separately-reporting the deduction would help ensure that distributions are based on taxable sales after the deduction has been taken.

**Reliability Factor:** 2 – Tax & Rev asks taxpayers who claim this deduction to report it separately, but there is no statutory requirement to do so. The reliability factor for this deduction is 2, indicating that some taxpayers may be claiming this deduction in error. Tax & Rev will be further analyzing this data and taxpayer reporting of GRT deductions. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

No compensating tax was estimated for fiscal years 2023 and 2024. Starting in fiscal year 2025, taxpayers were required to report their GRT and compensating tax deductions separately.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Jet Fuel Forty Percent GRT Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Taxpayers** | 17 | 17 | 20 |
| | **State General Fund GRT Expenditure (thousands)** | $1,531 | $1,347 | $1,101 |
| | **Local Government GRT Expenditure (thousands)** | $979 | $898 | $734 |
| | **Compensating Tax (thousands)** | Unknown | Unknown | - |

TABLE NOTE: "-" Means data is redacted due to fewer than 3 taxpayers.

# JOB MENTORSHIP
# CREDIT AGAINST PIT AND CIT

**Category:** Citizen Benefits

**Brief Description:** Businesses hiring qualified students in a school-sanctioned, career-preparation education program may claim a credit against PIT and CIT. Qualifying businesses must employ students attending an accredited New Mexico secondary school full-time.

Credits are equal to 50% of the gross wages paid, subject to limitations and may be carried forward for three years. A taxpayer may not claim a credit of more than $12,000 in any taxable year.

**Statutory Basis:** 7-2-18.11 and 7-2A-17.1 NMSA 1978

**Intended Purpose:** To encourage New Mexico businesses to hire youth participating in a career preparation education program.

**History:** Originally enacted in 2003. Repealed in 2025 with an effective date of July 1, 2025.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:** This credit is repealed effective July 1, 2025. This will be the last time this credit is reported on in the annual Tax Expenditure Report.

| | | | | |
|---|---|---|---|---|
| **Job Mentorship Credit against PIT and CIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 0 | 0 | 0 |
| | **Expenditure (thousands)** | $0 | $0 | $0 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 0 | 0 | 0 |
| | **Expenditure (thousands)** | $0 | $0 | $0 |

# LABORATORY PARTNERSHIP WITH SMALL BUSINESS CREDIT AGAINST GRT

**Category:** Economic Development

**Brief Description:** A national laboratory that offers certain types of eligible assistance to individual small businesses in New Mexico, and incurs expenses for doing so, may claim a credit against the state portion of GRT of up to $20,000 per business ($40,000 per business in a rural area). The tax credits claimed by an individual national laboratory shall not exceed $2,400,000 in a given calendar year.

**Statutory Basis:** 7-9E-1 *et seq.* NMSA 1978

**Intended Purpose:** To bring the technology and expertise of the national laboratories to small businesses in New Mexico and to promote economic development in the state, with an emphasis on rural areas.

**History:** Originally enacted in 2000, amended in 2007 and 2019.

The 2019 amendment increased the maximum amount that may be claimed for businesses in urban areas from $10,000 to $20,000 and increased from $20,000 to $40,000 for businesses located in rural areas.

**Evaluation:** According to the New Mexico Small Business Assistance ("NMSBA") annual report, since inception through 2000, the program has assisted 3,135 small businesses with 9,710 jobs created and retained.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required. The fiscal impact is against the state portion only of GRT, with no impact to local government distributions.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Laboratory Partnership with Small Business Credit against GRT** | **Tax Year** | 2022 | 2023 | 2024 |
| | **State General Fund Expenditure (thousands)** | $4,550 | $4,490 | $4,661 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **State General Fund Expenditure (thousands)** | $4,550 | $2,300 | $6,851 |

NOTE: Tax & Rev is not required to redact this information even though it relates to fewer than three taxpayers because the data is published independently by both taxpayers.

# LEGAL SERVICES FOR WILDFIRE COMPENSATION RECOVERY GRT CREDIT

**Category:** Citizen Benefits

**Brief Description:** A taxpayer who provides legal services to a person eligible to receive compensation pursuant to the federal Hermit's Peak/Calf Canyon Fire Assistance Act may claim a tax credit against gross receipts taxes, provided that:

(1) the legal services are directly related to recovering the compensation;

(2) the taxpayer did not pass the amount of gross receipts tax on to the person eligible to receive the federal compensation; and

(3) the legal services were sold to a person who confirms to the department the conditions above under (1) and (2).

The credit has an annual aggregate cap of $5 million that may be claimed. The credit is not refundable but may be carried forward for thirty-six consecutive taxable periods.

**Statutory Basis:** 7-9-121 NMSA 1978

**Intended Purpose:** To aid claimants of compensation under the federal Hermit's Peak/Calf Canyon Fire Assistance Act, who are responsible for paying their attorney fees and expenses.

**History:** Originally enacted in 2024.

**Evaluation:** None.

**Recommendation:** It is recommended that GRT tax expenditures be structured as deductions for ease of administration and taxpayer compliance, as credits are more complicated to administer than deductions. Taxpayer burden may be a reason this credit has not been more frequently claimed.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:** Data cannot be disclosed due to the number of taxpayers being fewer than three.

# LIQUOR LICENSE HOLDERS DEDUCTION FROM GRT

**Category:** Highly Specialized Industries

**Brief Description:** Taxpayers who are a liquor license holder and who held the license on June 30, 2021, are eligible for a deduction from GRT liability. For each dispenser's license for which sales of alcoholic beverages for consumption off premises are less than 50% of total alcoholic beverage sales, up to $50,000 of receipts from the sale of alcoholic beverages may be deducted from gross receipts. The deduction is available for taxable years 2022 through 2025.

Select definitions:

(1) "alcoholic beverage" means alcoholic beverage as defined in the Liquor Control Act;

(2) "dispenser's license" is defined as a license issued pursuant to the Liquor Control Act and allows the licensee to sell, offer for sale or have the intent to sell alcoholic beverages both for consumption on the licensed premises and for consumption, not for resale, off the licensed premises;

(3) liquor license holder" is defined as a person that holds a retailer's license or one of two dispenser's licenses issued pursuant to the Liquor Control Act and the license was issued prior to July 1, 2021.

**Statutory Basis:** 7-9-119 NMSA 1978

**Intended Purpose:** Supporting business owners with long-held liquor licenses impacted by COVID-19, business closures and those impacted by changes to the liquor license structure.

**History:** Originally enacted in 2021 and amended in 2025.

**Evaluation:** None.

**Recommendation:** This deduction may be repealed in the future once the taxpayer statute of limitations to amend returns and the timeline for audit adjustments have passed.

**Reliability Factor:** 3 – This deduction is separately reported. Despite being a separately reported deduction, the reliability factor for this deduction is a 3 to reflect that some taxpayers may be claiming this deduction in error and others may not be reporting under the correct deduction code. Review of the number of taxpayers in FY2025 shows a marked decline in taxpayers claiming this deduction reflecting an effort to improve taxpayer compliance in claiming this deduction. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Liquor License Holders Deduction from GRT** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 319 | 1,340 | 389 |
| | **State General Fund Expenditure (thousands)** | $279 | $3,676 | $210 |
| | **Local Government Expenditure (thousands)** | $181 | $2,432 | $138 |

# LIQUOR LICENSE LESSOR DEDUCTION FROM PIT AND CIT

**Category:** Highly Specialized Industries

**Brief Description:** Taxpayers who are a liquor license lessor and who held the license on June 30, 2021, are eligible for a deduction from PIT or CIT liability. The deduction amount is equal to the gross receipts from sales of alcoholic beverages made by each liquor license lessee, not to exceed $50,000 per year for each of four taxable years ending with tax year 2025. In the case of a dispenser's license, sales of alcoholic beverages for consumption off premises must be less than 50% of total alcoholic beverage sales.

Select definitions:

(1) "Liquor license lessor" is defined as a person that leases a liquor license to a third party;

(2) "Liquor license lessee" is defined as a person that leases a liquor license from a liquor license lessor;

(3) "dispenser's license" is defined as a license issued pursuant to the Liquor Control Act and allows the licensee to sell, offer for sale or have the intent to sell alcoholic beverages both for consumption on the licensed premises and for consumption, not for resale, off the licensed premises.

**Statutory Basis:** 7-2-40 and 7-2A-31 NMSA 1978

**Intended Purpose:** Supporting business owners with long-held liquor licenses impacted by COVID-19, business closures and those impacted by changes to the liquor license structure.

**History:** Originally enacted in 2021 and amended in 2025.

**Evaluation:** None.

**Recommendation:** This deduction may be repealed in the future once the taxpayer statute of limitations to amend returns and the timeline for audit adjustments have passed.

**Reliability Factor:** 1 – This deduction is separately reported.

**Fiscal Impact:**

# LOAN-RELATED COSTS
# GRT DEDUCTION

**Category:** Citizen Benefits

**Brief Description:** Receipts from charges made in connection with the origination, making, or assumption of a loan or from charges made for handling loan payments are deductible from gross receipts.

**Statutory Basis:** 7-9-61.1 NMSA 1978

**Intended Purpose:** Presumably to reduce the costs of borrowing, thereby increasing access to capital in New Mexico.

**History:** Originally enacted in 1981.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** This deduction has no reporting requirement and Tax & Rev does not have any direct data to estimate it.

**Fiscal Impact:** Unknown.

# LOCOMOTIVE ENGINE FUEL
# GRT AND COMPENSATING TAX DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Receipts from the sale of fuel to a common carrier to be loaded or used in a locomotive engine are deductible from gross receipts and compensating tax (CMP).

The value of fuel to be loaded or used by a common carrier in a locomotive engine in a locomotive engine is deductible when computing the compensating tax due.

**Statutory Basis:** 7-9-110.1, 7-9-110.2 and 7-9-110.3 NMSA 1978

**Intended Purpose:** To encourage the construction, renovation, maintenance and operation of railroad locomotive refueling facilities and other railroad capital investments in New Mexico.

**History:** Originally enacted in 2011. Section 7-9-110.3 NMSA 1978 was amended in 2013 and 2025. The 2025 amendment revised reporting requirements.

**Evaluation:** According to Union Pacific's (UP) annual report for FY2025, the company has directly provided 447 jobs, of which 278 are UP's employees and 169 are contractors. The company reports that the average salary of 278 employees is $118,548. This represents an increase of 4.8% over the FY2024 average salary. Furthermore, 53 of the employees are subject to Withholding Tax.

Burlington Northern Santa Fe (BNSF) reports 976 jobs for FY2025. These are new and previously existing jobs. BNSF reported operating revenue for 2024 at $1.95 billion, an increase of $471 million since 2013.

**Recommendations:** None.

**Reliability Factor:** 2 - Gross purchases and deduction amounts are separately reported directly by taxpayers to EDD. Some estimation is required by Tax & Rev.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Locomotive Engine Fuel GRT and Compensating Tax Deduction** | **State General Fund Comp Expenditure (thousands)** | $13,558 | $12,010 | $11,409 |
| | **Local Government Comp Expenditure (thousands)** | $8,668 | $8,006 | $7,606 |
| | **State General Fund GRT Expenditure (thousands)** | $7,936 | $5,190 | $5,268 |
| | **Local Government GRT Expenditure (thousands)** | $5,074 | $3,460 | $3,512 |

# LOTTERY RETAILER RECEIPTS GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Receipts of a lottery game retailer from selling lottery tickets pursuant to the New Mexico Lottery Act may be deducted from gross receipts.

**Statutory Basis:** 7-9-87 NMSA 1978

**Intended Purpose:** To reduce the cost of lottery tickets, to increase lottery ticket sales, a portion of which goes to the Lottery Scholarship Program.

**History:** Originally enacted in 1995.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 2 – The cost of this deduction was estimated using ticket sales published in New Mexico Lottery annual reports multiplied by the statewide average GRT rate for each fiscal year. Since there is a year lag in the reports, the expenditure for the fiscal year 2025 was estimated using the average of the five previous fiscal years.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Lottery Retailer Receipts GRT Deduction** | **State General Fund Expenditure (thousands)** | $7,245 | $7,137 | $6,352 |
| | **Local Government Expenditure (thousands)** | $4,632 | $4,677 | $4,163 |

# LOW-INCOME COMPREHENSIVE TAX REBATE AND SIXTY-FIVE OR OLDER ADDITIONAL REBATE

**Category:** Citizen Benefits

**Brief Description:** The low-income comprehensive tax rebate ("LICTR") represents a partial offset for state and local consumption taxes paid by low-income taxpayers. It may be claimed by taxpayers with a modified gross income of less than $36,000. The rebate amount is dependent upon modified gross income as well as the number of personal exemptions claimed, defined as the sum of the taxpayer, spouse and dependents reported on the taxpayer's federal return, and varies between $15 and $730[39].

An individual who is 65 years or older or blind may claim additional exemptions for the low-income comprehensive tax rebate and so qualify for a higher rebate.

**Statutory Basis:** 7-2-14 NMSA 1978

**Intended Purpose:** To ease the consumption tax burden for low-income taxpayers and to reduce the financial burden on older, disabled taxpayers.

**History:** LICTR was originally enacted in 1972 and amended in 1973, 1974, 1975, 1977, 1978, 1981, 1986, 1987, 1990, 1992, 1994, 1998 and 2021. The 2021 amendment increased the income eligibility threshold for the rebate from $22,000 to $36,000 and the maximum rebate amount from $450 to $730. For taxable year 2022 and each subsequent taxable year, the rebate amount shall be adjusted for inflation based on the consumer price index. The additional exemptions provided to 65 years or older, or blind taxpayers was originally enacted in 1987.

**Evaluation:** It is important to combine different strategies to support successful transition out of poverty and evaluate them together. LICTR provides a valuable offset to New Mexico's regressive GRT, which is relatively high compared to gross receipts and sales taxes in other states. LICTR phases out as income rises, ensuring a smooth tapering off this support to low-income taxpayers. The 2021 amendment provides that LICTR will be adjusted for inflation in future years, ensuring the support offered by LICTR is not diluted over time. In the last three fiscal years, on average 331,000 taxpayers benefitted from LICTR and about 60,000 taxpayers benefitted from the additional exemptions for blind or 65 years or older taxpayers.

Given that the savings rate among lower income taxpayers is relatively low, there is a high likelihood that this money is recirculating throughout the New

[39] Prior to June 18, 2021, the rebate ranged from $10 to $450.

Mexico economy to increase consumption and economic activity in New Mexico.

**Recommendations:** None.

**Reliability Factor:** 1 - These rebates are separately reported. No estimation is required.

**Fiscal Impact:**

# LOW-INCOME
# PROPERTY TAX REBATE AGAINST PIT

**Category:** Citizen Benefits

**Brief Description:** The low-income property tax rebate is a partial offset for property taxes paid by low-income residents. It may be claimed by individuals with:

(1) a principal place of residence in a county that has enacted an ordinance authorizing the rebate, and

(2) modified gross income of less than $24,000.

The rebate is calculated as a percentage of the taxpayer's property tax liability and based on the taxpayer's modified gross income. The rebate cannot exceed $350, or $175 if married filing separately.

The state is reimbursed annually by the authorizing county for any low-income property tax rebates granted under this section.

**Statutory Basis:** 7-2-14.3 NMSA 1978

**Intended Purpose:** To offset property taxes for those whose income is insufficient to cover their property taxes to prevent the individuals from being forced out of their homes.

**History:** The low-income property tax rebate was originally enacted in 1994 and amended in 1997 and 2003. Santa Fe County passed an ordinance in 2009 to instate the rebate starting in tax year 2009 and subsequent tax years until repealed. Los Alamos County passed ordinances in 2021 and in 2025 to instate the rebate for tax years 2021 through 2028. Doña Ana County passed an ordinances 2023 and 2025 instating the rebate for tax years 2023 through 2026. Bernalillo County passed an ordinance in 2025 instating the rebate starting in tax year 2025 and subsequent tax years until repealed.

**Evaluation:** The low-income property tax rebate has only been adopted by four counties at this time – Santa Fe, Los Alamos, Doña Ana, and Bernalillo. Because counties bear the cost of this tax expenditure, the cost of the rebate may be prohibitive for some counties. Counties with high rates of poverty coupled with high rates of property value growth, which may make retaining property ownership more difficult, are encouraged to consider adopting the program.

The impact of new residents from Doña Ana claiming this rebate began in tax year 2023 and fiscal year 2024, resulting in a 76% increase in expenditures of this rebate from 2023 to 2025. The impact of new residents in Bernalillo County claiming this rebate will appear beginning in tax year 2025.

Given that the savings rate among lower income taxpayers is relatively low, there is a high likelihood that this money is recirculating throughout the New

Mexico economy to increase consumption and economic activity in New Mexico.

**Recommendations:** None.

**Reliability Factor:** 1 - The rebate is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Rebate, Low Income Property Tax (local government – authorizing counties)** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |

# LOW- AND MIDDLE-INCOME TAXPAYERS EXEMPTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** An individual may claim an exemption equal to the number of personal exemptions, defined as the sum of the taxpayer, spouse and dependents reported on the taxpayer's federal return, multiplied by a maximum of $2,500. The amount of the exemption is income- and filing status- dependent and is deducted from the individual's net income.

(1) For married filing separate returns,
   a. if adjusted gross income is not over $15,000, 2,500 for each federal exemption;
   b. if adjusted gross income is over $15,000 but not over $27,500, $2,500 less 20% of the amount obtained by subtracting $15,000 from adjusted gross income.

(2) For single returns,
   a. if adjusted gross income is not over $20,000, $2,500 for each federal exemption;
   b. if adjusted gross income is over $20,000 but not over $36,667, $2,500 less 15% of the amount obtained by subtracting $20,000 from adjusted gross income.

(3) For married filing joint, surviving spouses or head of household returns,
   a. if adjusted gross income is not over $30,000, $2,500 for each federal exemption;
   b. if adjusted gross income is over $30,000 but not over $55,000, $2,500 less 10% of the amount obtained by subtracting $30,000 from adjusted gross income.

**Statutory Basis:** 7-2-5.8 NMSA 1978

**Intended Purpose:** The exemption reduces the tax liability of households with less than a specified threshold of adjusted gross income. This results in lower income households retaining more of their income.

**History:** Originally enacted in 2005 and amended in 2007. The 2007 amendment increased the adjusted gross income threshold amounts for taxpayers eligible for the exemption.

**Evaluation:** This exemption excludes more than $1.7 billion of income from the PIT base each year. On average, about 530,000 New Mexico taxpayers receive this exemption each fiscal year. The exemption amount phases out as adjusted gross income rises. Given that the savings rate among lower income taxpayers is relatively low, there is a high likelihood that this money is recirculating throughout the New Mexico economy to increase consumption and economic activity in New Mexico.

**Recommendations:** Although the number of eligible households claiming the exemption is significant, the income thresholds are currently defined by filing status and do not adjust for inflation. Consider updating statutory thresholds to account for inflation.

**Reliability Factor:** 2 – This exemption is separately reported. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Exemption, Low-Middle Income** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |

| | **Expenditure (thousands)** | $16,841 | $14,753 | $13,038 |

# MEDICAL AND HEALTH CARE SERVICES
# GRT DEDUCTION

**Category:** Health Care

**Brief Description:** Receipts from payments by the U.S. government or any agency thereof for Medicare services (Medicare) received by certain medical practitioners and medical-related facilities, receipts of medical doctors and osteopathic physicians from payments by a third-party administrator of the federal TRICARE program (Tricare), receipts of a medical doctor or osteopathic physician from payments by or on behalf of the Indian Health Service (Indian) of the U.S. Department of Health and Human Services for the provision of medical and other health services to covered beneficiaries, receipts of a hospice or nursing home (Hospice) from payments by the United States government, or any agency thereof, or from a Medicare administrative contractor for medical and other health and palliative services provided by the hospice or nursing home to Medicare beneficiaries, receipts of a clinical laboratory (Clinical) from payments by the United States government, or any agency thereof, or from a Medicare administrative contractor for medical services provided by the clinical laboratory to Medicare beneficiaries, receipts of a home health agency (Home) from payments by the United States government, or any agency thereof, or from a Medicare administrative contractor for medical, other health and palliative services provided by the home health agency to Medicare beneficiaries, and receipts of a dialysis facility (Dialysis) from payments by the United States government, or any agency thereof, or from a Medicare administrative contractor for medical and other health services provided by the dialysis facility to Medicare beneficiaries are deductible from gross receipts.

**Statutory Basis:** 7-9-77.1 NMSA 1978

**Intended Purpose:** To recruit and retain healthcare practitioners in the state. According to DOH and the Indian Affairs Department, the deduction makes it more profitable for medical providers to serve Native American populations in New Mexico as these communities face difficulties in recruiting health care practitioners due to below-average salaries.

**History:** Originally enacted in 1998, amended in 2000, 2003, 2005, 2007, 2014, 2016, 2021, 2022 and 2025. The 2025 amendment revised reporting requirements.

The 2021 amendment clarifies that physician practice groups are eligible to claim the GRT deduction, aligning the statute with regulations. An additional amendment updates qualifications of osteopathic physicians.

The 2022 amendment made several changes, including adding Medicare administrative contractors' gross receipts as eligible for the deduction and clarifying that the gross receipts associated with hospices and nursing homes are eligible if associated with the approved service providers.

**Evaluation:** Because medical services of this type are typically reimbursed based on pre-established rate schedules, health care providers would likely not be able to recoup the GRT, even if their services were subject to GRT.

Likewise, the out-of-pocket portion of the payment is also predetermined, leaving the provider unable to pass the burden of the tax on to the consumer.

The expenditure is determined to be effective due to the extensive utilization of the deduction.

**Recommendations:** None.

**Reliability Factor:** 2 – This deduction is separately reported. Despite being a separately reported deduction, the reliability factor for this deduction is a 2 to reflect that some taxpayers may be claiming this deduction in error. Tax & Rev will further analyze this data and taxpayer reporting of GRT deductions. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost. The figures for FY22 and FY23 have been adjusted to incorporate deduction categories not included in previous reports.

**Fiscal Impact:**

| | | | | | |
|---|---|---|---|---|---|
| **Medical and Health Care Services GRT Deduction** | **Fiscal Year** | | 2023 | 2024 | 2025 |

# MEDICAL CARE SAVINGS ACCOUNT EXEMPTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** The interest earned on medical care savings accounts and money reimbursed to an employee for eligible medical expenses from those accounts or money advanced to the employee by the employer for eligible medical expenses are exempt from PIT.

**Statutory Basis:** 7-2-5.6 NMSA 1978

**Intended Purpose:** To encourage investment in medical care savings accounts.

**History:** Originally enacted in 1995.

**Evaluation:** This exemption incentivizes individuals to save for future medical expenses, which increases the likelihood that New Mexicans will be able to afford medical care and may lead to a healthier population. In the last three fiscal years the number of claims has averaged 1,230, with an annual average expenditure of around $119 thousand.

**Recommendations:** None.

**Reliability Factor:** 2 – This exemption is separately reported. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Medical Care Savings Account Exemption from PIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |

| | **Expenditure (thousands)** | $98 | $141 | $118 |

# MICROBREWER BEER, SMALL WINERIES, AND CRAFT DISTILLERS RATE DIFFERENTIAL FROM LIQUOR EXCISE TAX

**Category:** Highly Specialized Industry

**Brief Description:** The first 60,000 gallons of beer manufactured or produced by a microbrewer and sold in New Mexico is taxed at a preferential rate: a rate of $0.08 per gallon is imposed on the first 30,000 gallons sold and $0.28 per gallon on all gallons sold more than 30,000 gallons but fewer than 60,000 gallons. For all gallons sold above 60,000 gallons, the tax rate is $0.41 per gallon, equal to the non-microbrew beer tax rate.

Wine manufactured or produced by a small winegrower and sold in New Mexico is taxed at a rate of $0.10 per liter on the first 80,000 liters sold, $0.20 per liter on all liters sold over 80,000 liters but not over 950,000 liters, and $0.30 per liter on each liter sold over 950,000 liters but not over 1.5 million liters. For all liters sold above 1.5 million liters, the tax rate is $0.45 per liter, equal to the regular wine tax rate.

Cider manufactured or produced by a small winegrower and sold in New Mexico is taxed at a rate of $0.08 per gallon on the first 30,000 barrels sold, $0.28 per gallon on all gallons sold more than 30,000 gallons but fewer than 60,000 gallons. For all gallons sold above 60,000 gallons, the tax rate is $0.41 per gallon, equal to the regular cider tax rate.

Spirituous liquors manufactured or produced by a craft distiller, on products up to 10% alcohol by volume, the tax rate is $0.08 per liter on the first 250,000 liters sold, and $0.28 per liter for the next 250,000 liters sold. On products over 10% alcohol by volume, the tax rate is $0.32 per liter for the first 175,000 liters sold, and $0.65 per liter for the next 200,000 liters sold. Liters sold above the thresholds are taxed at a rate of $1.60 per liter, equal to the regular spirituous liquor tax rate.

**Statutory Basis:** 7-17-5A(5), 7-17-5A(6), 7-17-5A(8), 7-17-5A(9) NMSA 1978

**Intended Purpose:** To stimulate the microbrewery, small winery, and craft distillery industries in New Mexico by reducing their tax expense.

**History:** Originally enacted in 1993 and amended in 1994, 1995, 1996, 1997, 2000, 2000 (2nd Special Session), 2008, 2013, and 2019.

The 2013 amendment changed the tax rates for beer manufactured or produced by a microbrewer and the tax rates on wine produced by a small winegrower.

The 2019 amendment introduced new tax rates on cider manufactured or produced by a small winegrower and spirituous liquors manufactured or produced by a craft distiller, with rates dependent on the number of barrels

or liters sold. The amendment also revised the tax rates for beer manufactured or produced by a microbrewer.

**Evaluation:** Preliminary indicators, with respect to microbreweries and small wineries, suggest that this preferential tax rate structure has been effective. According to information presented to the Legislature by the New Mexico Microbrewers Guild, the number of microbreweries in New Mexico has increased from 23 in 2013 to 96 locations in 2018. The New Mexico True website currently shows 40 wineries, vineyards and tasting rooms in the state.

**Recommendations:** None.

**Reliability Factor:** 1 - Qualifying beer, wine, cider and spiritous liquor production is separately reported. No estimation is required.

**Fiscal Impact:** Note: Reporting in previous tax expenditure reports included only the fiscal impact from microbrewer beer and wine from small wineries.

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Microbrewer Beer, Small Wineries, and Craft Distiller Rate Differential from Liquor Excise Tax** | **Microbrewery - Beer Expenditure (thousands)** | $1,221 | $1,141 | $1,033 |

| | **Small Winery – Cider Expenditure (thousands)** | $82 | $76 | $44 |
| | **Craft Distiller – Spirituous Liquors Expenditure (thousands)** | $628 | $760 | $637 |
| | **Total Expenditure (thousands)** | $2,548 | $2,557 | $2,297 |

# MILITARY TRANSFORMATIONAL ACQUISITION PROGRAMS GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Receipts from military transformational acquisition programs performing research and development, test, and evaluation services at New Mexico major range and test facility bases are deductible from gross receipts.

**Statutory Basis:** 7-9-94 NMSA 1978

**Intended Purpose:** To incentivize the location of military transformational acquisition programs at U.S. Air Force bases in New Mexico.

**History:** Originally enacted in 2005 with an expiration date of June 30, 2008. Amended in 2006 to extend the expiration date to June 30, 2016. Amended in 2015 to extend the expiration date to June 30, 2025. The 2025 amendment revised reporting requirements.

**Evaluation:** The expenditure is determined to be effective due to the utilization of the deduction in recent years.

**Recommendations:** None.

**Reliability Factor:** 2 – This deduction is separately reported. Despite being a separately reported deduction, the reliability factor for this deduction is a 2 to reflect that some taxpayers may be claiming this deduction in error and others may not be reporting under this deduction code. Tax & Rev will be further analyzing this data and taxpayer reporting of GRT deductions. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:** This is the last year this expenditure is reported.

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Military Transformational Acquisition Program GRT Deduction** | **Taxpayers** | 15 | 65 | 61 |
| | **State General Fund Expenditure (thousands)** | $590 | $3,049 | $3,156 |
| | **Local Government Expenditure (thousands)** | $378 | $1,950 | $2,018 |

# MOLYBDENUM RATE DIFFERENTIAL FROM RESOURCES TAX AND PROCESSORS TAX

**Category:** Highly Specialized Industry

**Brief Description:** A severer and processor of molybdenum in New Mexico is required to pay a Resource Tax of 0.125% and a Processors Tax of 0.125% on the taxable value of the molybdenum.

This is in contrast to the base Resources Tax and Processors Tax rates of 0.75%.

**Statutory Basis:** 7-25-4A(3) and 7-25-5A(4) NMSA 1978

**Intended Purpose:** Presumably to incentivize the mining and processing of molybdenum.

**History:** 7-25-4A(3) NMSA 1978 was originally enacted in 1966 and amended in 1970, 1973, and 1999. 7-25-5A(4) NMSA 1978 was originally enacted in 1985 and amended in 1999.

**Evaluation:** There was no reported molybdenum production in the state during the time period analyzed. As such, there were no expenditures for the Resources Tax. Processing of molybdenum has been limited to fewer than three taxpayers.

**Recommendation:** None.

**Reliability Factor:** 1 –Gross value, taxable value, and taxes due are directly reported by taxpayers by type of mineral. The difference is estimated from the taxes paid and the statutory tax base of 0.75%. No further estimation is required.

**Fiscal Impact:** No taxpayers have reported production of molybdenum. The mine in Questa, New Mexico ceased operations in 2014, as such, there is no fiscal impact applicable to the Resources Tax. Additionally, while fewer than three taxpayers have reported processing of molybdenum, the data may be reported as is allowed pursuant under Section 7-1-8 NMSA 1978, more specifically, Section 7-1-8.3(B) NMSA 1978.

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Molybdenum Rate Differential from Resources and Processors Tax** | **Resources Tax Taxpayers** | 0 | 0 | 0 |
| | **Resources Tax Expenditure (thousands)** | $0 | $0 | $0 |
| | **Processors Tax Taxpayers** | 1 | 1 | 1 |
| | **Processors Tax Expenditure (thousands)** | $310 | $262 | $460 |

# NATURAL GAS
# EXEMPTION FROM OIL AND GAS SEVERANCE TAX

**Category:** Highly Specialized Industry

**Brief Description:** Exempts natural gas from a production restoration project for the first 10 years after the restoration of production when the annual average price of WTI crude oil was less than $24 per barrel. The statute specifies a non-standard calendar of June through May when calculating the average annual WTI price. The qualification criteria for production restoration projects is set in Natural Gas and Crude Oil Production Incentives Act, Section 7-29B-6(A) NMSA 1978.

**Statutory Basis:** 7-29-4(B)(1) , and 7-29B-6(A) NMSA 1978

**Intended Purpose:** To incentivize the development of natural gas from a production restoration project when oil prices are low.

**History:** 7-29-4(B)(1) NMSA 1978 was originally enacted in 1980 and amended in 1987, 1989, 1992, 1995, 1999, and 2005. 7-29B-6(A) NMSA 1978 was originally enacted in 1995 and amended in 1999.

**Evaluation:** No wells have qualified for this incentive in many years due to the price of WTI crude oil exceeding $24 per barrel (exemption threshold). While it is unknown whether the price of WTI crude oil will drop below $24 per barrel, the production and market for natural gas has changed significantly during the history of this exemption. Enhanced extraction techniques have increased production and improved cost efficiencies. Natural gas exceeded coal since 2016 as the majority fuel for electricity generation in the United States. Other non-tax factors such as infrastructure to transport natural gas to markets may be stronger determinants of production.

**Recommendations:** A review of this and other extraction tax expenditures should be initiated to reevaluate intended purpose and relevance in current market climate.

**Reliability Factor:** 1 –There have been no expenditures resulting from this exemption.

**Fiscal Impact:** None.

# NATURAL GAS RATE DIFFERENTIAL FROM OIL AND GAS EMERGENCY SCHOOL TAX

**Category:** Highly Specialized Industry

**Brief Description:** The emergency school tax rate on natural gas is 4%, unless the product is taxed pursuant to a different rate as provided in statute.

When the average annual taxable value of natural gas is equal to or less than $1.15 per thousand cubic feet (MCF) in the previous calendar year, the tax rate on natural gas from a stripper well property is 2%.

When the average annual taxable value of natural gas is greater than $1.15 per MCF but not more than $1.35 per MCF in the previous calendar year, the tax rate on natural gas from a stripper well property is 3%.

**Statutory Basis:** 7-31-4(A)(6) and 7-31-4(A)(7) NMSA 1978

**Intended Purpose:** To incentivize high-cost, low-yield production when natural gas prices are low.

**History:** The section was originally enacted in 1959 and amended in 1999 to enact subsections (A)(6) and (A)(7). An amendment in 2025 to subsection A, defined the imposition of the tax on all products severed to standardize language across various taxes. Previous language imposed the tax on all products severed.

**Evaluation:** Data reported in GenTax was used to determine the average taxable value per MCF of natural gas. No wells qualified for this rate differential due to value exceeding $1.35 per MCF. While it is unknown whether the price of natural gas will drop below $1.35 per MCF, the production and market for natural gas has changed significantly during the history of this rate differential. Enhanced extraction techniques have increased production and improved cost efficiencies. Natural gas exceeded coal since 2016 as the majority fuel for electricity generation in the United States. Other non-tax factors such as infrastructure to transport natural gas to markets may be stronger determinants of production.

**Recommendations:** A review of this and other extraction tax expenditures should be initiated to determine intended purpose and relevance in current market climate.

**Reliability Factor:** 1 - There have been no expenditures resulting from this rate differential.

**Fiscal Impact:** None.

# NATURAL GAS
# RATE DIFFERENTIAL FROM OIL AND GAS SEVERANCE TAX

**Category:** Highly Specialized Industry

**Brief Description:** The oil and gas severance tax rate on natural gas is 3.75% unless the product is taxed pursuant to a different rate as provided in statute.

When the average annual price of WTI crude oil is less than $24 per barrel in the previous year, the tax rate on natural gas from a well workover project is 2.45%. The statute specifies a non-standard calendar of June through May when calculating this average annual WTI price.

When the average annual taxable value of natural gas is equal to or less than $1.15 per thousand cubic feet (MCF) in the previous calendar year, the tax rate on natural gas from a stripper well property is 1.875%.

When the average annual taxable value of natural gas is greater than $1.15 per MCF but not more than $1.35 per MCF in the previous calendar year, the tax rate on natural gas from a stripper well property is 2.8175%.

**Statutory Basis:** 7-29-4(A)(4), 7-29-4(A)(6), and 7-29-4(A)(7) NMSA 1978

**Intended Purpose:** To incentivize high-cost, low-yield production when prices are low.

**History:** The section was originally enacted in 1980 and through amendments in 1995 and 1999, subsections (A)(4), (A)(6) and (A)(7) were enacted.

**Evaluation:** No wells have qualified for this incentive for the time periods covered by this report due to the price of WTI crude oil exceeding $24 per barrel. Also, the taxable value of natural gas (as reported in GenTax) has exceeded $1.35 per MCF. While it is unknown whether the price of natural gas will drop below $1.35 per MCF or if WTI crude oil prices will drop below $24 per barrel, the production and market for natural gas has changed significantly during the history of this rate differential. Enhanced extraction techniques have increased production and improved cost efficiencies. Since 2016, natural gas exceeded coal as the major fuel source for electricity generation in the United States. Other non-tax factors such as infrastructure to transport natural gas to markets may be stronger determinants of production.

**Recommendations:** A review of this and other extraction tax expenditures should be initiated to determine intended purpose and relevance in current market climate.

**Reliability Factor:** 1 - There were no expenditures resulting from this rate differential.

**Fiscal Impact:** None.

# NEW MEXICO NATIONAL GUARD MEMBER PREMIUMS PAID FOR GROUP LIFE INSURANCE EXEMPTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** Payments for a service members' group life insurance premium from the National Guard Service Member's Life Insurance Reimbursement Fund are exempt from PIT.

**Statutory Basis:** 7-2-5.10 NMSA 1978

**Intended Purpose:** The enactment of 2005 legislation creating a reimbursement for life insurance premiums for National Guard members resulted in the unintended consequence of treating those reimbursements as taxable income. This exemption was enacted in the 2006 legislative session to exclude these reimbursements from PIT.

**History:** Originally enacted in 2006.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 2 – This exemption is separately reported. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **NM National Guard Member Life Insurance Premiums Exemption from PIT** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 431 | 402 | 381 |
| | **Expenditure (thousands)** | $13 | $16 | $20 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 441 | 410 | 406 |
| | **Expenditure (thousands)** | $16 | $15 | $22 |

# NEWSPAPER SALES GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Receipts from selling newspapers, except from selling advertising space, are deductible from gross receipts.

**Statutory Basis:** 7-9-64 NMSA 1978

**Intended Purpose:** To reduce operating costs of newspapers and decrease the consumer cost of purchasing newspapers.

**History:** Originally enacted in 1969.

**Evaluation:** With the proliferation of digital mobile devices, this deduction may not be enough to counter the market shift from print to electronic media. It is expected that newspapers will seek profitability from other sources, including consolidation of printing operations, new advertising revenue streams, and electronic subscriptions.

**Recommendations:** None.

**Reliability Factor:** 3 - Data from the RP-80, NAICS codes Newspaper Publishers, were used to estimate the expenditure. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Newspaper Sales GRT Deduction** | **State General Fund Expenditure (thousands)** | $189 | $57 | $74 |
| | **Local Government Expenditure (thousands)** | $123 | $38 | $48 |

# NONATHLETIC SPECIAL EVENT AT NEW MEXICO STATE UNIVERSITY GRT OR GGRT DEDUCTION

**Category:** Citizen Benefits

**Brief Description:** Receipts from admissions to nonathletic special events held at the Pan American Center at New Mexico State University ("NMSU") are deductible from gross receipts or governmental gross receipts.

**Statutory Basis:** 7-9-104 NMSA 1978

**Intended Purpose:** To bring nonathletic events such as concerts to NMSU rather than having the events occur in El Paso, Texas.

**History:** Originally enacted in 2007 with an expiration of June 30, 2012. Amended in 2012 to extend the expiration to June 30, 2017. Amended in 2017 to extend the expiration to June 30, 2022. Amended in 2022 to extend the expiration to July 1, 2027.

**Evaluation:** According to NMSU, the vast majority of nonathletic events held at the Pan American Center would otherwise be held in various venues located in El Paso if it was not for the incentive generated by this deduction.

**Recommendations:** None.

**Reliability Factor:** 3 – Gross ticket sale figures provided by Oakview Group, which manages the Pan Am Center, were used to estimate the cost of this deduction. The deduction amount is multiplied by the Las Cruces GRT rate for each year to estimate the cost. The estimated impact amount includes both state and local revenue. Tax & Rev estimates that the fiscal impact of this deduction concerns event promoters, who would otherwise report GRT liabilities derived from ticket sales.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | **Claims** | 15 | 11 | 24 |
| **Nonathletic Special Event at NMSU GRT Deduction** | **State General Fund Expenditure (thousands)** | $78 | $57 | $80 |
| | **Local Government Expenditure (thousands)** | $50 | $38 | $53 |

# NONPROFIT ORGANIZATIONS
# EXEMPTION FROM GRT

**Category:** Citizen Benefits

**Brief Description:** Purchases and receipts of an organization that was granted a tax exemption under Section 501(c)(3) or Section 501(c)(6) of the U.S. Internal Revenue Code are exempt from GRT. Section 501(c)(3) organizations comprise the most commonly understood type of nonprofit entities: health care services, charities, churches, universities, scientific organizations, animal shelters, and others. 501(c)(6) organizations consist of business leagues and associations, chambers of commerce, boards of trade, and other similar organizations. With respect to both types of entities, a benefit or profit cannot pass to any member, owner, director, or officer.

The exemption excludes receipts derived from an unrelated trade or business as defined in Section 513 of the Internal Revenue Code, receipts of a prime contractor for either a national laboratory or a research facility in New Mexico owned by the state and the receipts of a hospital licensed by the New Mexico DOH; the receipts of non-profit DOH-licensed hospitals are taxable with a 60% deduction.

**Statutory Basis:** 7-9-29 NMSA 1978

**Intended Purpose:** To eliminate the tax burden on organizations that contribute to the overall social and economic welfare of their communities.

**History:** The GRT exemption was originally enacted in 1970 and amended in 1983, 1988, 1990 and 2019. The 2019 amendment provided exceptions to the exemptions for prime contractors operating federal laboratories or state-owned research facilities, and for hospitals licensed by the New Mexico DOH.

**Evaluation:** Non-profit organizations contribute to the overall social and economic welfare in New Mexico, and this exemption increases their ability to deliver services to a broader population at a lower cost. However, by exempting this large sector of the economy from the GRT base, this exemption leads to higher tax rates being necessary on other economic activity that is subject to the GRT to achieve the same revenue collection.

**Recommendations:** None.

**Reliability Factor:** 4 - There are no direct data to estimate this exemption. National Center for Charitable Statistics (NCCS) data provided by the Urban Institute on income for these organizations is used in the estimate. Tax & Rev assumed that 50% of the receipts would otherwise be taxable gross receipts, based on aggregate data at the national level published by the IRS. The total estimated deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost. The analysis is based on the most recent income reported by these organizations to the IRS. However, this data has a high degree of

volatility from one year to another and is contributing to the higher estimate for FY2024.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Nonprofit Organizations Exemption from GRT** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **State General Fund Expenditure (thousands)** | $17,750 | $41,760 | $9,550 |
| | **Local Government Expenditure (thousands)** | $11,350 | $27,840 | $6,370 |

# NONPROFIT ORGANIZATIONS FUNDRAISERS GRT DEDUCTION

**Category:** Citizen Benefits

**Brief Description:** Organizations exempt from federal income tax under Section 501(c) of the Internal Revenue Code (IRC) may deduct the receipts from two fund-raising events each calendar year. This deduction does not apply to 501(c)(3) organizations, as their receipts are exempt under Section 7-9-29 NMSA 1978. It does apply to other 501(c) organizations listed in the IRC, such as civic leagues (501(c)(4)), labor, agricultural and horticultural organizations (501(c)(5)), social, and recreational clubs (501(c)(7)), and fraternal associations (501(c)(8)). It should be noted that contributions these organizations receive are not gross receipts. This deduction applies to fundraising events, in which these organizations provide a good or service to generate funding for their missions.

**Statutory Basis:** 7-9-85 NMSA 1978

**Intended Purpose:** To allow organizations to conduct fundraising events to support their missions without incurring GRT obligations.

**History:** Originally enacted in 1994.

**Evaluation:** None.

**Recommendations:** Clarify the law by excluding 501(c)(6) organizations that carry on chamber of commerce, visitor bureau, and convention bureau functions of the organization as their receipts are exempt under Section 7-9-29 NMSA 1978. This deduction specifically excludes 501(c)(3) organizations because their receipts are already exempt under Section 7-9-29 NMSA 1978.

**Reliability Factor:** 4 - The National Center for Charitable Statistics (NCCS) has assembled IRS Form 990 data to report aggregate statistics by state for nonprofits organizations. At the time of writing, NCCS had not released data for the fiscal years 2023 and 2025, so the estimate is based on data from the IRS. Calculating the national estimates of revenue from fundraising events as a percentage of total revenues, these estimates were applied to state level total revenue for 501(c) organizations listed in statute. The total estimated deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Nonprofit Organizations Fundraisers GRT Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **State General Fund Expenditure (thousands)** | $40 | $190 | $120 |
| | **Local Government Expenditure (thousands)** | $20 | $130 | $80 |

# NURSES CREDIT AGAINST PIT 2022 TAX YEAR FILING

**Category:** Citizen Benefits

**Brief Description:** Taxpayers who were not dependents and were employed full time as a nurse at a hospital in New Mexico during tax year 2022 were eligible for a $1,000 income tax credit. The hospitals must be licensed by the DOH. If the amount of credit due to a taxpayer exceeds the taxpayer's PIT liability, the excess is refunded.

**Statutory Basis:** 7-2-18.33 NMSA 1978

**Intended Purpose:** To provide temporary economic relief to healthcare workers who were on the front line of combatting the COVID-19 pandemic.

**History:** Originally enacted in 2022.

**Evaluation:** Many hospitals contract for nurses through third-parties. This was especially prevalent during the COVID-19 pandemic as nurses, already in short supply, were in demand to support hospitals during surging patient loads. Contract nurses were not eligible for the credit as they were not employed full time directly by the hospital, but rather by a third-party. It is unknown if this was the intent of the legislation. The fiscal impact of the credit has been smaller than estimated at the time it was enacted.

**Recommendation:** None.

**Reliability Factor:** 1 – This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Nurses Credit, Tax Year 2022** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 7,247 | NA | NA |
| | **Expenditure (thousands)** | $7,377 | | |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 6,748 | 465 | 34 |
| | **Expenditure (thousands)** | $6,872 | $471 | $34 |

# OFFICIATING AT NEW MEXICO ACTIVITIES ASSOCIATION EVENTS EXEMPTION FROM GRT

**Category:** Citizen Benefits

**Brief Description:** Receipts from refereeing, umpiring, scoring, or other officiating at school events sanctioned by the New Mexico Activities Association are exempt from GRT.

**Statutory Basis:** 7-9-41.4 NMSA 1978

**Intended Purpose:** To reduce the cost of public education institution events that provide athletic opportunities for their students.

**History:** Originally enacted in 2009.

**Evaluation:** This exemption reduces the reporting and financial burden on taxpayers as officials would otherwise be required to register and file GRT for a relatively small amount of receipts.

**Recommendations:** None.

**Reliability Factor:** 4 - Officials' fees published annually by the New Mexico Activities Association are used to estimate the impact of this exemption. Given the number of high school teams and games or matches in an academic year, an estimate of receipts was aggregated and multiplied by the statewide average GRT rate.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Officiating at New Mexico Activities Association Events Exemption from GRT** | **State General Fund Expenditure (thousands)** | $82 | $87 | $96 |
| | **Local Government Expenditure (thousands)** | $55 | $58 | $64 |

# OIL AND OTHER LIQUID HYDROCARBONS
# EXEMPTION FROM OIL AND GAS SEVERANCE TAX

**Category:** Highly Specialized Industry

**Brief Description:** Exempts oil and other liquid hydrocarbons that come from a production restoration project for the first 10 years after the restoration of production when the annual average price of WTI crude oil was less than $24 per barrel. The statute specifies a non-standard calendar of June through May when calculating the average annual WTI price. The qualification criteria for production restoration projects is set in Natural Gas and Crude Oil Production Incentives Act, Section 7-29B-6 NMSA 1978.

**Statutory Basis:** 7-29-4(B)(2) and 7-29B-6(A) NMSA 1978

**Intended Purpose:** To incentivize the development of oil and other liquid hydrocarbon from a production restoration project when prices are low.

**History:** Section 7-29-4 NMSA 1978 was originally enacted in 1980. Through an amendment in 1995, subsection (B)(2) was enacted. Section 7-29B-6(A) NMSA 1978 was originally enacted in 1995 and amended in 1999.

**Evaluation:** This exemption provides incentive for well restoration activity. No wells have qualified for this incentive for the time periods covered by this report due to the price of WTI crude oil exceeding $24 per barrel. While it is unknown whether the price of WTI crude oil will drop below $24 per barrel, the production of oil has changed significantly during the history of this exemption. As oil reserves have become more difficult to extract, enhanced extraction techniques have increased production and improved cost efficiencies.

**Recommendations:** A review of this and other extraction tax expenditures should be initiated to determine intended purpose and relevance in current market climate.

**Reliability Factor:** 1 - There are no expenditures resulting from this exemption.

**Fiscal Impact:** None.

# OIL AND OTHER LIQUID HYDROCARBONS RATE DIFFERENTIAL FROM OIL AND GAS EMERGENCY SCHOOL TAX

**Category:** Highly Specialized Industry

**Brief Description:** The emergency school tax on oil and other liquid hydrocarbons is 3.15% unless the product is taxed pursuant to a different rate as provided in statute.

When the average annual taxable value of oil is equal to or less than $15 per barrel in the calendar year preceding July 1 of the fiscal year in which the tax rate is imposed, the tax rate on oil and other liquid hydrocarbons that are removed from a stripper well is 1.58%. The qualification criteria for receiving the stripper well incentive tax rate is set in Natural Gas and Crude Oil Production Incentives Act, Section 7-29B-6 NMSA 1978.

When the average annual taxable value of oil in the previous calendar year was greater than $15 per barrel but not greater than $18 per barrel, the tax rate on oil and other liquid hydrocarbons that are removed from a stripper well is 2.36%. The qualification criteria for receiving the stripper well incentive tax rate is set in Natural Gas and Crude Oil Production Incentives Act, Section 7-29B-6 NMSA 1978.

**Statutory Basis:** 7-31-4(A)(4), 7-31-4(A)(5) , and 7-29B-6 NMSA 1978

**Intended Purpose:** To incentivize the removal of oil and other liquid hydrocarbon from a stripper well when prices are low.

**History:** 7-31-4 NMSA 1978 was originally enacted in 1959 and through an amendment in 1999, subsections (A)(4)-(5) were enacted. An amendment in 2025 to subsection A defined the imposition of the tax on all products severed to standardize language across all severance taxes. Previous language imposed the tax on all products severed. 7-29B-6 NMSA 1978 was originally enacted in 1995 and amended in 1999 to include stripper wells.

**Evaluation:** This exemption provides an incentive for well restoration activity. No wells have qualified for this incentive for the time periods covered by this report due to the average annual taxable value of oil exceeding $18 per barrel. While it is unknown whether the average annual taxable value of oil will drop below $18 per barrel, the production of oil has changed significantly during the history of this exemption. As oil reserves have become more difficult to extract, enhanced extraction techniques have increased production and improved cost efficiencies.

**Recommendations:** A review of this and other extraction tax expenditures should be initiated to determine intended purpose and relevance in current market climate.

**Reliability Factor:** 1 - There are no expenditures resulting from this rate differential provision.

**Fiscal Impact:** None.

# OIL AND OTHER LIQUID HYDROCARBONS
# RATE DIFFERENTIAL FROM OIL AND GAS SEVERANCE TAX RATE

**Category:** Highly Specialized Industry

**Brief Description:** The oil and gas severance tax rate on oil and other liquid hydrocarbons is 3.75% unless the product is taxed pursuant to a different rate as provided in statute.

When the average annual price of WTI crude oil is less than $28 per barrel in the previous year, the tax rate on oil and other liquid hydrocarbons from a qualified enhanced recovery project is 1.875%. The statute specifies a non-standard calendar of June through May when calculating the average WTI price. The qualification criteria for enhanced recovery projects is set in Section 7-29A NMSA 1978.

When the average annual price of WTI crude oil is less than $24 per barrel in the previous year, the tax rate on oil and other liquid hydrocarbons from a well workover project is 2.45%. Note the statute specifies a non-standard calendar of June through May when calculating the average WTI price. The qualification criteria for receiving the well workover project incentive tax rate is set in Natural Gas and Crude Oil Production Incentives Act, Section 7-29B-6 NMSA 1978.

When the average annual taxable value of oil is equal to or less than $15 per barrel in the previous calendar year, the tax rate on oil and other liquid hydrocarbons from a stripper well property is 1.875%. The qualification criteria for stripper well projects to receive the incentive rate is set in Section 7-29B-6 NMSA 1978.

When the average annual taxable value of oil was greater than $15 per barrel but not more than $18 per barrel in the previous calendar year, the tax rate on oil and other liquid hydrocarbons from a stripper well property is 2.8125%. The qualification criteria for stripper well projects to receive the incentive rate is set in Section 7-29B-6 NMSA 1978.

**Statutory Basis:** 7-29-4(A)(3), 7-29-4(A)(5), 7-29-4(A)(8), 7-29-4(A)(9), 7-29A, and 7-29B-6 NMSA 1978

**Intended Purpose:** To incentivize continued oil production when oil prices are low.

**History:** Section 7-29-4(A) NMSA 1978 was originally enacted in 1980 and amendments in 1992, 1995, and 1999 enacted and amended subsections (3), (5), (8) and (9). Section 7-29A NMSA 1978 was originally enacted in 1992 and amended in 1993. Section 7-29B-6 NMSA 1978 was originally enacted in 1995 and amended in 1999 to include stripper wells. Section 7-29A NMSA 1978 was originally enacted in 1992 and amended in 1993.

**Evaluation:** No wells have qualified for this incentive for the time periods covered by this report due to the price of WTI crude oil exceeding $28 per barrel and the average annual taxable value of oil exceeding $15 per barrel (rate differential thresholds). While it is unknown whether the average annual taxable value of oil will drop below $18 per barrel or WTI average annual prices will be less than $28 per barrel, the production of oil has changed significantly during the history of this exemption. As oil reserves have become more difficult to extract, enhanced extraction techniques have increased production and improved cost efficiencies.

**Recommendations:** A review of this and other extraction tax expenditures should be initiated to determine intended purpose and relevance in current market climate.

**Reliability Factor:** 1 - There are no expenditures resulting from this rate differential provision.

**Fiscal Impact:** None.

# ORGAN DONATION
# DEDUCTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** A taxpayer may claim a deduction from net income in an amount not to exceed $10,000 for organ donation-related expenses, including lost wages, lodging expenses, and travel expenses, incurred during the taxable year by the taxpayer or the taxpayer's dependent as a result of the taxpayer's or dependent's donation of a human organ to another person for transfer of that human organ to the body of another person.

**Statutory Basis:** 7-2-36 NMSA 1978

**Intended Purpose:** To help remove obstacles that prevent people from making living organ donations by reducing the associated financial losses.

**History:** Originally enacted in 2005.

**Evaluation:** While factors like blood type serve as an unchangeable barrier to donating organs, for those who are matches, this credit helps to offset related expenses. In the last three fiscal years, on average 113 taxpayers have claimed this deduction with an average annual cost of $10,000.

**Recommendations:** The deduction saved claimants an average of $84.90 in tax year 2024. Assuming an effective tax rate of 2.8%, these individuals had organ donation-related expenses of about $3,032 per taxpayer. **T**he deduction may not be impactful in encouraging organ donation. Additional tax relief could be delivered to individuals who donate an organ through a credit rather than a deduction.

**Reliability Factor:** 2 – This exemption is separately reported. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Organ Donation Deduction** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 120 | 97 | 106 |
| | **Expenditure (thousands)** | $11 | $9 | $9 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 122 | 101 | 116 |
| | **Expenditure (thousands)** | $11 | $9 | $9 |

# PERSONS ONE HUNDRED AND OLDER EXEMPTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** The income of an individual who is (1) a natural person, (2) one hundred years of age or older, and (3) not a dependent of another individual is exempt from PIT.

**Statutory Basis:** 7-2-5.7 NMSA 1978

**Intended Purpose:** To eliminate the income of aged persons from the tax base and reduce the reporting and financial burden on this aging population.

**History:** Originally enacted in 2002.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 2 – The exemption is separately reported. Unmarried centenarians are not required to file a return unless they wish to claim other rebates and credits. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Over 100 Income Exemption** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 177 | 183 | 166 |
| | **Expenditure (thousands)** | $335 | $357 | $463 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 176 | 182 | 194 |
| | **Expenditure (thousands)** | $344 | $353 | $507 |

# PERSONS SIXTY-FIVE AND OLDER OR BLIND EXEMPTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** An individual who is 65 years or older or who is blind may claim an exemption from PIT based on a sliding scale, not to exceed $8,000.

**Statutory Basis:** 7-2-5.2 NMSA 1978

**Intended Purpose:** To reduce the financial burden on older or blind taxpayers.

**History:** This PIT exemption was originally enacted in 1985 and amended in 1987.

**Evaluation:** This exemption excludes more than $965 million of income from the PIT base each year. On average, about 109,000 taxpayers benefit from this exemption each year. Over the last three fiscal years, the number of claims has decreased slightly, while the amount of the expenditure has decreased due to the sliding scale amount of the exemption remaining the same despite inflation. However, both the number of claims and the amount of expenditure may increase in keeping with demographic trends toward an older population.

The social security income exemption from personal income tax (7-2-5.14 NMSA 1978) was enacted in 2022. As a result, taxpayers 65 and older or blind exempted more income under the social security exemption, shifting state expenditure from this exemption to the social security exemption. Expenditures for this exemption fell by 30% from FY2023 to FY2024 and 24% from FY2024 to FY2025.

**Recommendations:** To ensure that inflation does not erode the value of this benefit to older, disabled taxpayers, income thresholds could be adjusted for inflation annually.

**Reliability Factor:** 2 -Information is reported separately for the exemption. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **65 and older or blind Exemption** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 110,070 | 105,813 | 97,011 |
| | **Expenditure (thousands)** | $814 | $573 | $398 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 113,329 | 108,560 | 105,391 |
| | **Expenditure (thousands)** | $890 | $621 | $471 |

# POTASH RATE DIFFERENTIAL FROM RESOURCES TAX AND PROCESSORS TAX

**Category:** Highly Specialized Industry

**Brief Description:** Potash is taxed at reduced rates through two specific excise taxes:

Resources Tax: 0.5% of taxable value

Processors Tax: 0.125% of taxable value

This contrasts with the base Resource Tax and Processors Tax rates of 0.75%.

**Statutory Basis:** 7-25-4A(2) and 7-25-5A(3) NMSA 1978

**Intended Purpose:** Presumably to incentivize the mining and processing of potash.

**History:** Section 7-25-4 NMSA was originally enacted in 1966 and amended in 1970, 1973, and 1999. Section 7-25-5 NMSA 1978 was originally enacted in 1985 and amended in 1999.

**Evaluation:** There was no reported potash production in the state during the time period analyzed. As such, there were no expenditures for the Resources Tax. The rate differential for the Processors Tax has remained consistent over the years.

**Recommendation:** None.

**Reliability Factor:** 1 – This expenditure is calculated directly using taxpayer data. No estimation is required. No taxpayers have reported production of potash, as such, there is no fiscal impact on the Resources Tax.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Potash Rate Differential from Resources and Processors Tax** | **Resources Tax Taxpayers** | 0 | 0 | 0 |
| | **Resources Tax Expenditure (thousands)** | $0 | $0 | $0 |
| | **Processors Tax Taxpayers** | 3 | 3 | 3 |
| | **Processors Tax Expenditure (thousands)** | $1,877 | $1,285 | $1,445 |

# PRESCRIPTION DRUGS, OXYGEN, AND MEDICAL CANNABIS GRT AND GGRT DEDUCTION

**Category:** Health Care

**Brief Description:** Receipts from the sale of prescription drugs, oxygen, and oxygen services provided by a licensed Medicare durable medical equipment provider are deductible from gross receipts and governmental gross receipts. Receipts from the sale of medical cannabis products sold in accordance with the Lynn and Erin Compassionate Use Act are deductible from gross receipts and governmental gross receipts. Beginning June 20, 2025, receipts from the sale of psilocybin products sold in accordance with the Medical Psilocybin Act are deductible from gross receipts and governmental gross receipts.

**Statutory Basis:** 7-9-73.2 NMSA 1978

**Intended Purpose:** To reduce the effective cost of prescription drugs, oxygen, medical cannabis, and medical psilocybin as a public welfare mechanism.

**History:** Originally enacted in 1998 and amended in 2003, 2007, 2021, and 2025. The 2021 amendment expanded the deduction to include medical cannabis. Two separate amendments occurred in 2025. The first amendment requires a taxpayer to separately report the deduction. The second amendment expands the deduction to include receipts from the sale of psilocybin products and medical care sold in accordance with the Medical Psilocybin Act.

**Evaluation:** This deduction removes the gross receipts tax burden from sellers who would otherwise pass it on to consumers of these products that are approved for use.

**Recommendations:** None.

**Reliability Factor:** 3 - Data published by the Centers for Medicare and Medicaid Services for 2023 on oxygen and oxygen services provided to Medicare beneficiaries was used to calculate the oxygen portion of this deduction. The medical cannabis deduction is calculated using data from the New Mexico Regulation and Licensing Department on medical cannabis sales. The prescription drugs deduction amount is calculated using state-specific data published by the Kaiser Family Foundation on total retail sales of prescription drugs for 2019. These data were updated to 2023 using the annual percent change of retail prescription drug expenditures for the US, retrieved from The National Health Expenditure Accounts. The annual percentage growth in spending in health care published by S&P Global was used to estimate the costs of prescription drugs and oxygen in 2024-2025. The total deduction amount was multiplied by the statewide average GRT rate for each year to estimate the cost. The estimated impact amount includes both state and local revenue. A methodological revision led to a reduction in the fiscal impact of this expenditure compared to previous reports. Starting in FY2026, this deduction will be separately reported, which will improve the reliability factor.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Prescription Drugs, Oxygen and Medical Cannabis GRT and GGRT Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **State General Fund Expenditure (thousands)** | $151,000 | $154,400 | $164,800 |
| | **Local Government Expenditure (thousands)** | $96,600 | $102,900 | $109,900 |

# PRESERVATION OF CULTURAL PROPERTY CREDIT AGAINST PIT AND CIT

**Category:** Citizen Benefits

**Brief Description:** Taxpayers may claim a credit on a PIT or CIT return of 50% of the cost of restoring, rehabilitating, or preserving properties listed on the New Mexico Register of Cultural Properties.

The credit may not exceed $25,000 unless the property is located within a designated arts and cultural district. The credit may not exceed $50,000 for properties located within an arts and cultural district.

The credit is not refundable but may be carried forward up to four years.

**Statutory Basis:** 7-2-18.2 and 7-2A-8.6 NMSA 1978

**Intended Purpose:** To encourage the restoration, rehabilitation and preservation of cultural properties.

**History:** The PIT credit was originally enacted in 1984 and amended in 2007. The CIT credit was originally enacted in 1984 and amended in 1986 and 2007.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Preservation of Cultural Property Credit** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 60 | 63 | 60 |
| | **Expenditure (thousands)** | $182 | $197 | $226 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 62 | 59 | 75 |
| | **Expenditure (thousands)** | $235 | $174 | $278 |

# PRODUCTION OR STAGING OF PROFESSIONAL CONTESTS GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Receipts from producing or staging professional boxing, wrestling, or martial arts contests that occur in New Mexico, including receipts from ticket sales and broadcasting, are deductible from gross receipts.

**Statutory Basis:** 7-9-107 NMSA 1978

**Intended Purpose:** To incentivize professional boxing, wrestling, and martial arts contests to take place in New Mexico.

**History:** Originally enacted in 2007.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 3 - The New Mexico Regulations and Licensing Department (RLD) provides annual data on the number of sanctioned events and associated fees. A calculation of associated gross receipts and foregone revenue is computed based on RLD data for FY2023 and FY2024. Given the lack of data, for FY2025, the average of the two previous fiscal years was used to calculate the fiscal impact. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Production or Staging of Professional Contests GRT Deduction** | **State General Fund Expenditure (thousands)** | $103 | $94 | $97 |
| | **Local Government Expenditure (thousands)** | $65 | $62 | $64 |

# PROPERTY VALUATION LIMITATION FOR LOW-INCOME SENIOR OR DISABLED HOME OWNERS UNDER PROPERTY TAX

**Category:** Citizen Benefits

**Brief Description:** The valuation of a single-family, owner-occupied residence, whose owner is at least 65 years of age or older or disabled, and who has a modified gross income for the prior year not exceeding $35,000 or the published annual inflation-adjusted modified gross income, may not be greater than the prior year valuation or the valuation for the year the owner reaches age 65 or qualifies as disabled.

Taxpayers must apply for the limitation with their county assessor. An owner who has claimed and been granted the property valuation limitation for three consecutive years is not required to apply for the limitation and it will be automatically applied by the county assessor. Any change in status that would deem the owner ineligible must be reported to the county assessor by the last day of February of the tax year immediately following the year the eligibility was lost.

Select definitions:

(1) "Disabled" means a person who has been determined to be blind or permanently disabled pursuant to the federal Social Security Act or to the New Mexico Workers Compensation Act;

(2) "modified gross income" is defined the Income Tax Act (7-2 NMSA 1978), and it includes all income, undiminished by losses, and from whatever source, for the taxpayer and the taxpayer's spouse and dependents.

**Statutory Basis:** 7-36-21.3 NMSA 1978

**Intended Purpose:** To ease the tax burden and reduce the financial burden on low-income seniors or disabled property owners.

**History:** Originally enacted in 2000 and amended in 2001, 2003, 2008, 2013, 2019 and 2020. The 2019 amendment increased the income limit for eligibility and made other technical language clarity changes. The 2020 amendment clarified the limitation language on valuation.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** Insufficient data to estimate the fiscal impact.

**Fiscal Impact:** Unknown currently. The number of taxpayers granted the limitation is reported by counties. Individual valuations of properties or other statistics such as the average value are currently unknown to calculate a fiscal impact.

# PUBLICATION SALES
# GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Receipts from publishing newspapers or magazines are deductible from gross receipts.

**Statutory Basis:** 7-9-63 NMSA 1978

**Intended Purpose:** To support operations of publishing companies in the state and decrease the consumer cost of purchasing publications.

**History:** Originally enacted in 1969.

**Evaluation:** With the proliferation of digital mobile devices, this expenditure may not be enough to counter the market shift from print to electronic media. It is expected that publishers will seek profitability from other sources, including consolidation of printing operations, new advertising revenue streams, and electronic subscriptions.

**Recommendations:** None.

**Reliability Factor:** 3 - Taxpayer reported deductions filed by publishing-related NAICS sectors were used to estimate the cost of this deduction. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost. The selection of NAICS codes was refined for this year's edition.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Publication Sales GRT Deduction** | **State General Fund Expenditure (thousands)** | $128 | $30 | $66 |
| | **Local Government Expenditure (thousands)** | $82 | $20 | $44 |

# PURSES AND JOCKEY RENUMERATION AT NEW MEXICO RACETRACKS EXEMPTION FROM GRT

**Category:** Highly Specialized Industry

**Brief Description:** The receipts of horsemen, jockeys, and trainers from race purses at New Mexico horse racetracks subject to the jurisdiction of the state racing commission are exempt from GRT.

**Statutory Basis:** 7-9-40(A) NMSA 1978

**Intended Purpose:** To reduce the tax burden of horsemen, jockeys, and trainers.

**History:** Originally enacted in 1970 and amended in 1971, 1985, and 1989.

**Evaluation:** Although horse racing attendance and the total number of horse racing events are down statewide and nationwide, annual purses have not decreased in New Mexico.

**Recommendations:** None.

**Reliability Factor:** 3 – Yearly data on races and purse sizes from the Jockey Club's annual New Mexico Fact Book was combined with an industry standard rate of 10% of purses going each to jockeys and trainers. The 2025 New Mexico Fact Book has data through 2024 that is used in the estimations below. The FY2025 cost was estimated based on the average purse amounts from 2019-2024, excluding 2020 and 2021. The exemption amount is multiplied by the statewide average GRT rate for each year to estimate the cost. The estimated impact amount includes both state and local revenue.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Purses and Jockey Remuneration at NM Racetracks Exemption from GRT** | **State General Fund Expenditure (thousands)** | $118 | $101 | $111 |
| | **Local Government Expenditure (thousands)** | $77 | $66 | $73 |

# RAILROAD EQUIPMENT, AIRCRAFT, AND SPACE VEHICLES EXEMPTION FROM COMPENSATING TAX

**Category:** Highly Specialized Industry

**Brief Description:** The use of railroad locomotives, trailers, containers, tenders or cars procured or bought for use in railroad transportation; the use of commercial aircraft bought or leased primarily for use in the transportation of passengers or property for hire in interstate commerce; and the use of space vehicles for transportation of persons or property in, to, or from space are exempt from compensating tax.

**Statutory Basis:** 7-9-30 NMSA 1978

**Intended Purpose:** To reduce the cost of railroad transportation, aircraft transportation, and space transportation; potentially to comply with the federal preemption doctrine.

**History:** Originally enacted in 1969 and amended in 1988 and 2003.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** No data is available to estimate the fiscal impact.

**Fiscal Impact:** Unknown.

# REAL ESTATE TRANSACTIONS
# GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Receipts from real estate commissions on the sale of real property, which is subject to the GRT (new construction under Section 7-9-53(A) NMSA 1978), are deductible from gross receipts. Typically, brokerage commissions are deductible from gross receipts when the underlying sales are not subject to tax. With respect to new construction, the part of the sale that reflects the value of the newly constructed improvements is taxable, but the value of the underlying real estate is deductible.

**Statutory Basis:** 7-9-66.1 NMSA 1978

**Intended Purpose:** To incentivize real estate construction in New Mexico.

**History:** Originally enacted in 1984 and amended in 1990.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 3 - Yearly valuations of new residential construction by county is tracked by DFA. This sum is multiplied by the national ratio of the number of properties that are built to be sold ("on spec") determined from US Census data. It is assumed that little to no commercial real estate is constructed and then sold in such a way. A commission rate of 6% was assumed and a yearly statewide average GRT rate applied to that. Data from the U.S. Federal Housing Authority on home prices is used for more current years when data is not available from DFA. Changes in the DFA reporting system led to revisions in the figures reported in previous versions of this report.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Real Estate Transactions GRT Deduction** | **State General Fund Expenditure (thousands)** | $2,033 | $1,496 | $3,264 |
| | **Local Government Expenditure (thousands)** | $1,300 | $997 | $2,176 |

# RENEWABLE ENERGY PRODUCTION CREDIT AGAINST PIT AND CIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Taxpayers are allowed a credit against PIT and CIT for producing electricity using solar light or heat, wind, or biomass. The credit only applies to taxpayers that hold title to a facility that generates electricity for sale to third parties or to taxpayers who lease a qualified energy generator under an industrial revenue bond agreement if the electricity was first produced on or before January 1, 2018. Taxpayers must receive certification for a credit from EMNRD.

The amount of the credit is $0.01 per kilowatt-hour (kWh) up to 400,000 megawatt-hours (MWh) annually per taxpayer for wind- or biomass-derived electricity. The aggregate cap for all wind projects is set at 2 million MWh.

The amount of the credit ranges from $0.015 to $0.04 per kWh up to 200,000 MWh annually per taxpayer for solar-light-derived or solar-heat-derived electricity, depending on the consecutive taxable year for which the credit is being claimed. The aggregate cap for all solar projects is set at 500,000 MWh.

The wind aggregate cap, maximized at 2 million MWh, represents total annual credit payments of $20 million. The solar credit varies by year, on average the yearly credit is $0.0275 per kWh. The solar credit ranges from $0.015 in the first year of production to $0.04 in the sixth year of production, down to $0.02 in the tenth year. If the 500,000 MWh are used, the average total annual credit is $13.75 million.

A qualified taxpayer is eligible for the renewable energy production tax credit for a maximum of ten consecutive years, beginning on the date the qualified energy generator begins producing electricity. The 2021 PIT and CIT legislative amendments clarified the ten-year timespan as the previous law read as technically only nine and a half years.

For production beginning before October 1, 2007, the credit is not refundable, but may be carried forward for five years. For qualified electricity produced after October 1, 2007, the credit is refundable.

**Statutory Basis:** 7-2-18.18 and 7-2A-19 NMSA 1978

**Intended Purpose:** To encourage the development of renewable energy generating facilities in New Mexico. If the renewable facilities replace coal or natural gas-fired facilities, the increased use will assist the state in reducing emissions associated with its electricity supply, including carbon dioxide and other pollutants regulated by the EPA.

**History:** The PIT credit was originally enacted in 2007 and amended in 2021. The CIT credit was originally enacted in 2002 and amended in 2003, 2005, 2007, and 2021.

**Evaluation:** The mechanics of implementation limit the number of taxpayers eligible to claim this credit. There is a queue of taxpayers seeking to claim this credit, but due to production limits are not fully qualified to claim the credit.

The taxpayer that holds title to a renewable energy production facility is eligible to claim the credit. Consequently, this credit is frequently used to engage in "tax credit financing" of renewable energy production facilities. The credit may be allocated without regard to proportional ownership interest. Thus, many renewable energy production facilities are structured as pass-through entities so that this credit can be passed-through to a financing owner.

**Recommendations:** The state should attempt to determine the cost-effectiveness of this credit before the expiration date is reached. Generation costs of renewable facilities have fallen sharply in recent years. According to a 2017 survey by Scientific American, many wind-powered facilities now produce wind for as little as 2 cents per kWh, making the current credit rate equal to 100% of the value of the power. This is an unusually high rate of subsidy when compared with other incentives offered by the State. If wind power is sufficiently competitive with other power sources, it may not need a subsidy at this level to continue to increase its share of the State's electricity generation market.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required. The eligibility period for this credit is limited to facilities that first generated electricity on or before January 1, 2018. Given the ten-year period for claiming credits, tax liabilities will be reduced under this program through fiscal year 2027.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Renewable Energy Production Credit** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 32 | 22 | 0 |
| | **Expenditure (thousands)** | $28,770 | $28,639 | $0 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 101 | 39 | 30 |
| | **Expenditure (thousands)** | $43,890 | $24,305 | $33,485 |

# RESTAURANT AND BAR TEMPORARY GRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from the sale of prepared food and beverages at a restaurant or bar were deductible from March 1, 2021, through July 1, 2021. The deduction was accompanied by a hold harmless provision for local governments for their portion of the deduction from the State General Fund.

**Statutory Basis:** 7-9-118 NMSA 1978

**Intended Purpose:** To provide temporary economic relief to restaurants and bars that were impacted by public health orders and lower customer traffic because of the COVID-19 pandemic.

**History:** Enacted in the 2021 Regular Legislative Session. Repealed in 2025 with an effective date of July 1, 2025.

**Evaluation:** The targeted relief in the bill allowed for a concentrated benefit to the restaurant and bar industry, which experienced difficulties during the COVID-19 pandemic. It was intended that restaurants and bars generally collect the typical amount of tax on their sales but retain the tax to improve their profitability during the COVID-19 pandemic. Restaurants and bars alternatively could have passed along the benefit to consumers through lower prices.

Although the deduction provided $51.1 million of targeted tax relief, claims were less than anticipated when enacted ($90.3 million). That is due to lower restaurant and bar receipts during the four-month period, as well as some eligible taxpayers not claiming the deduction.

**Recommendations:** None.

**Reliability Factor:**
1 – The deduction was separately reported by the taxpayer. While this deduction was only available for the period of March 1, 2021, through July 1, 2021, the fiscal impact extends into fiscal year 2022 and 2023 due to new and amended returns for that period of time.

**Fiscal Impact:** More than three years are reported to maintain history of non-recurring GRT data. Data in FY2024 and FY2025 is negative due to return amendments and reversal of some deductions.

This deduction is repealed effective July 1, 2025. This will be the last time this deduction is reported on in the annual Tax Expenditure Report.

| | | | | | | |
|---|---|---|---|---|---|---|
| **Restaurant and Bar Temporary GRT Deduction** | **Fiscal Year** | 2021 | 2022 | 2023 | 2024 | 2025 |
| | **Claims** | 3,753 | 289 | 13 | NA | NA |
| | **State General Fund Expenditure from deduction (thousands)** | $34,140 | $2,241 | $251 | ($9) | ($20) |
| | **State General Fund Expenditure from Hold Harmless (thousands)** | $16,618 | $1,681 | $143 | ($5) | ($23) |

# RURAL HEALTH CARE PRACTITIONER CREDIT AGAINST PIT

**Category:** Health Care

**Brief Description:** Licensed doctors, osteopathic physicians, dentists, clinical psychologists, podiatrists, and optometrists who provide health care services in New Mexico in a rural health care, underserved area in a taxable year may claim a credit of up to $5,000 against PIT.

Licensed dental hygienists, physician assistants, certified nurse midwives, certified registered nurse anesthetists, certified nurse practitioners, and clinical nurse specialists who provide health care services in New Mexico in a rural health care, underserved area in a taxable year may claim a credit of up to $3,000 against PIT.

For tax years 2023 and prior, to qualify for the full credit, a practitioner must have provided health care for 2,080 hours at a practice site in an approved area. If the practitioner provided health care for at least 1,040 hours, the practitioner was eligible for 50% of the credit. For tax years 2024 and after, the hours are reduced to 1,584 to receive the full credit and 792 hours for half credit. Taxpayers receive certification for a credit from DOH. The credit can be carried forward for three consecutive years.

**Statutory Basis:** 7-2-18.22 NMSA 1978

**Intended Purpose:** To improve access to health care in rural or underserved areas of the state by providing a tax benefit to health care practitioners who work in those areas.

**History:** Originally enacted in 2007 and amended in 2024 and 2025. The 2024 amendment modified and added occupations of health care practitioners and the amendment also reduced the required number of hours worked to be eligible for the credit. In addition, the definition of "rural" now corresponds to the federal definition as determined by the health resources and services administration of the United States Department of Health and Human Services.

**Evaluation:** About one-third of New Mexico's residents reside in rural areas, according to the New Mexico Health Care Workforce Committee's 2023 Annual Report. These areas tend to have lower densities of health professionals. While retention of health care practitioners in rural areas has been a challenge, COVID-19 has affected health care providers' decision of where and how to practice. The report notes that there is a growing interest among physicians to transition to small-town or rural practice. This tax credit may be useful in further attract13ing and retaining health care practitioners to underserved, rural areas.

To the extent the purpose of this credit is to improve access to health care in rural and underserved areas, an evaluation of the full scope of health care needed for these areas of the state should be considered. The expansion of

telemedicine has benefitted rural health care access in rural areas. Enhanced access to broadband in rural areas may complement telemedicine.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Credit, Rural Healthcare Practitioner** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 2,035 | 1,958 | 4,193 |
| | **Expenditure (thousands)** | $7,075 | $6,851 | $12,504 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 2,092 | 2,044 | 4,592 |
| | **Expenditure (thousands)** | $7,246 | $7,172 | $13,964 |

# RURAL JOB CREDIT
# AGAINST MODIFIED COMBINED TAX, PIT, AND CIT

**Category:** Economic Development

**Brief Description:** Eligible employers may earn the rural job tax credit for each qualifying job created after July 1, 2000, applying it to State GRT, compensating tax, withholding tax, PIT, or CIT.

An eligible employer is one that EDD has approved for Job Training Incentive Program assistance. A qualifying job is a job filled by an eligible employee for 48 weeks in a 12-month qualifying period.

The credit is 25% of the first $16,000 of wages paid if the job is performed or based in a Tier 1 Area and 12.5% of the first $16,000 of wages paid if the job is performed or based in a Tier 2 Area. The credit is taken in annual increments: 6.25% of the first $16,000 in wages paid over four qualifying periods (years) if the job is performed at a location in a Tier 1 Area; 6.25% of the first $16,000 in wages paid over two qualifying periods if the job is performed at a location in a Tier 2 Area. This credit may be carried forward for three years and is transferable.

**Statutory Basis:** 7-2E-1.1 NMSA 1978

**Intended Purpose:** To encourage businesses to expand into rural areas of the state.

**History:** Originally enacted in 2007, the credit was amended in 2013 to tighten the definition of qualifying jobs and to clarify the definition of wages. Amended in 2021 to expand the intended purpose, revise certain employer certifications with respect to each qualifying job for which an eligible employer seeks the rural job tax credit, add time limits in which to apply for the rural job tax credit, define "new job", revise the definition of "qualifying job", and requiring taxpayers to timely apply. Amended in 2025 for minor clean-up.

**Evaluation:** The number of claims and the amount claimed have shown a downward trend over the years. There is a possibility that awareness of this credit has dwindled over time. The amount of the credit has not been adjusted for inflation since the credit was enacted, which might also be causing its attractiveness to drop among employers.

For a recent analysis on the impact of the rural job credit, see the Tax-E "Rural Job Tax Credit," provided by the Legislative Finance Committee, see the Tax Expenditure Assessments at:

https://www.nmlegis.gov/Entity/LFC/Revenue_Economic_Reports_and_Tax_Policy.

**Recommendations:** Consider benchmarking the credit amount to an index that is adjusted annually for inflation.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Rural Jobs Credit** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 39 | 6 | 8 |
| | **Expenditure (thousands)** | $593 | $189 | $177 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |

| | **Expenditure (thousands)** | $832 | $637 | $822 |

# SALE AND USE OF AGRICULTURAL IMPLEMENTS, FARM TRACTORS, AIRCRAFT, AND MOTOR VEHICLES THAT DO NOT HAVE TO BE REGISTERED GRT AND COMPENSATING TAX DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** (A) 50% of the receipts from selling, or of the value of farm tractors and agricultural implements when used by persons engaged in the business of farming or ranching, are deductible from gross receipts and from the total value before computing compensating tax.

50% of the receipts from selling, or of the value of vehicles not required to be registered under the Motor Vehicle Code are deductible from gross receipts and from the total value before computing compensating tax.

50% of the receipts from selling, or of the value of, aircraft not bought or leased primarily for use in the transportation of passengers or property for hire in interstate commerce are deductible from gross receipts and from the total value before computing compensating tax.

(B) Receipts of an aircraft manufacturer or affiliate from selling aircraft, or from selling aircraft flight support, pilot training or maintenance training services are deductible from gross receipts.

(C) Receipts from selling aircraft parts or maintenance services for aircraft or aircraft parts are deductible from GRT.

**Statutory Basis:** 7-9-62 and 7-9-77 NMSA 1978

**Intended Purpose:** To incentivize the purchase of agricultural implements and farm tractors to reduce the effective costs of agricultural activities to encourage development of the aircraft industry in New Mexico by reducing related costs of selling and using aircraft for other than transportation of passengers or property for hire in intrastate commerce.

**History:** The GRT deduction was originally enacted in 1969 and amended in 1975, 1998, 2000, 2007, 2014, and 2025. The 2014 amendment expanded the deduction to allow any entity selling aircraft parts or maintenance services for aircraft or aircraft parts to take the deduction starting July 1, 2015. The 2025 amendment revised reporting requirements and removed certain obsolete language.

The compensating tax deduction was originally enacted in 1966 and was amended in 1969, 1975, 1988, and 1998.

**Evaluation:** To the extent agricultural implements and aircraft are used in the production of agricultural goods intended for sale, this deduction could be viewed as reducing the effects of pyramiding.

Since FY2015, this GRT deduction has been separately reported. However, compensating tax deductions are not separately reported.

**Recommendations:** None.

**Reliability Factor:**
2 - This deduction is separately reported. Despite being separately reported, the reliability factor for this deduction is a 2 to reflect that some taxpayers may be claiming this deduction in error and others may not be reporting under this deduction code. Tax & Rev will be further analyzing this data and taxpayer reporting of GRT deductions. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

No compensating tax was estimated for fiscal years 2023 and 2024. Starting in fiscal year 2025, taxpayers are required to report GRT and compensating tax deductions separately.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | **Taxpayers** | 57 | 94 | 70 |
| **Sale and Use of Agricultural Implements, Farm Tractors, Aircraft, and Motor Vehicles that Don't Have to be Registered - GRT and Compensating Tax Deduction** | **State General Fund Expenditure (thousands)** | $2,981 | $3,763 | $3,650 |
| | **Local Government Expenditure (thousands)** | $1,906 | $2,509 | $2,434 |
| | **Compensating Tax (thousands)** | Unknown | Unknown | $0 |

# SALE OF AEROSPACE SERVICES FOR THE U.S. AIR FORCE GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Receipts from performing or selling aerospace research and development for resale to an organization or for resale to the U.S., other than a national laboratory, are deductible from gross receipts.

**Statutory Basis:** 7-9-54.1 NMSA 1978

**Intended Purpose:** To incentivize the U.S. Air Force to relocate the Space Systems Division to New Mexico.

**History:** Originally enacted in 1992 and amended in 1993, 1994, 1995, and 2021.

The 2021 amendment clarified that in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction and removed obsolete language.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:**

4 – The cost of this deduction was estimated using reports of defense spending by state and fiscal year from the U.S. Department of Defense Office of Local Defense Community Cooperation multiplied by the statewide average GRT rate for each year. Since there is a year lag in the reports, the expenditure for the fiscal year 2024 was estimated using the average of the three previous fiscal years. Tax & Rev used the proportion of the spending on Research and Development in the state and applied it to the Air Force's total expenditures in New Mexico. Because of the federal government shutdown, there was no reporting for the fiscal year 2024, so the impact of this deduction for the fiscal year 2025 was proxied by the average of the previous three fiscal years.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Sale of Aerospace Services for the U.S. Air Force GRT Deduction** | **State General Fund Expenditure (thousands)** | $11,624 | $11,164 | $11,517 |
| | **Local Government Expenditure (thousands)** | $7,431 | $7,443 | $7,678 |

# SALES OF CERTAIN RESEARCH AND DEVELOPMENT SERVICES EXEMPTION FROM GRT

**Category:** Economic Development

**Brief Description:** Receipts from selling research and development services performed outside New Mexico the product of which is initially used in New Mexico are exempt from GRT and the services are sold:

(1) between affiliated corporations;

(2) to the United States by persons who are prime contractors for New Mexico designated national laboratories but not organizations granted federal income tax exemption under Section 501(C)(3) of the Internal Revenue Code of 1986;

(3) to persons who are prime contractors for New Mexico designated national laboratories but not organizations granted federal income tax exemption under Section 501(C)(3) of the Internal Revenue Code of 1986.

As used in this section:

(1) An "affiliated corporation" means a corporation that directly or indirectly, through one or more intermediaries controls, is controlled by or is under common control with the subject corporation;

(2) "Control" means ownership of stock in a corporation that represents at least eighty percent of the total voting power of that corporation and has a stated or par value equal to a least eighty percent of the total stated or par value of the stock of that corporation.

**Statutory Basis:** 7-9-13.1 NMSA 1978

**Intended Purpose:** To encourage research and development in New Mexico, by allowing national laboratories and others access to out-of-state research and development without paying a penalty, as those research and development services cannot be obtained in New Mexico. Reducing the tax burden on innovation in New Mexico.

**History:** Originally enacted in 1989 and amended in 2019.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** No data is available to estimate the fiscal impact of this exemption.

**Fiscal Impact:** Unknown.

# SALE OF CERTAIN SERVICES TO AN OUT-OF-STATE BUYER GRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from performing a service in New Mexico are deductible from gross receipts if the sale of the service is made to an out-of-state buyer. To qualify for the deduction, the product of the service must be delivered to the buyer outside of New Mexico and be initially used by the buyer outside of New Mexico.

The buyer must present an appropriate non-taxable transaction certificate or alternative evidence acceptable to Tax & Rev.

**Statutory Basis:** 7-9-57 NMSA 1978

**Intended Purpose:** To encourage service exports by equalizing tax treatment with out-of-state service providers, most of which are not subject to a sales tax on services.

**History:** Originally enacted in 1969 and amended in 1973, 1977, 1983, 1988, 1989, 1998, and 2000.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** No data are available to estimate the fiscal impact.

**Fiscal Impact:** Unknown.

# SALE OF DYED SPECIAL FUEL FOR AGRICULTURAL PURPOSES GRT CREDIT

**Category:** Highly Specialized Industry

**Brief Description:** Beginning July 1, 2024, and prior to July 1, 2029, a taxpayer who sells special fuel dyed in accordance with federal regulations may claim a tax credit in an amount equal to the gross receipts tax from the sale of special fuel against gross receipts taxes, provided that:

(1) the taxpayer did not pass the amount of gross receipts tax on to the purchaser of the special fuel; and

(2) the dyed special fuel was sold to a person who confirms to the department the special fuel is for agricultural purposes primarily and the gross receipts tax was not charged.

The credit may be claimed for the taxable period in which the special fuel is sold. The credit has an aggregate annual cap of $10 million that may be claimed. The credit is not refundable but may be carried forward for thirty-six consecutive taxable periods (defined as 36 months by department regulation).

**Statutory Basis:** 7-9-58.1 NMSA 1978

**Intended Purpose:** To reduce special dyed fuel costs for New Mexico's agricultural producers.

**History:** Originally enacted in 2024.

**Evaluation:** None.

**Recommendation:** It is recommended that GRT tax expenditures be structured as deductions for ease of administration and taxpayer compliance, as credits are more complicated to administer than deductions. Taxpayer burden may be a reason this credit is not being widely claimed.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:** Data cannot be disclosed due to the number of taxpayers being fewer than three.

# SALE OF FOOD AT RETAIL FOOD STORES
# GRT DEDUCTION AND HOLD HARMLESS DISTRIBUTION

**Category:** Citizen Benefits

**Brief Description:** Receipts from qualifying food sales by retail food stores as defined under the federal food stamp program are deductible from gross receipts. The deduction is required to be separately reported by the taxpayer.

The original legislation provided that the revenues of municipal and county governments would be held harmless from any lost revenue resulting from the deduction. Under 2013 legislation, hold harmless distributions were to be phased out over 15 years with exceptions for certain small municipalities and counties. Under 2022 legislation, certain municipalities that did not enact a municipal hold harmless gross receipts tax began to have distributions frozen at fixed percentages of 30%, 50%, or 80%, based on their poverty rate in relation to the state poverty rate. The relative poverty rate comparison is calculated using the most current publication of the U.S. Census 5-year American Community Survey.

**Statutory Basis:** 7-9-92, 7-1-6.46 and 7-1-6.47 NMSA 1978

**Intended Purpose:** To reduce the burden of tax on food.

**History:** The GRT deduction was originally enacted in 2004 and amended in 2021. The 2021 amendment clarified that the deduction includes receipts for home-deliveries.

The hold harmless provision was originally enacted in 2004 and was amended in 2006, 2007, 2013, 2016, 2022 and 2025. The 2013 amendment phased out the hold harmless distribution to larger counties and municipalities over a 15-year period starting July 1, 2015, under Sections 7-1-6.46 and 7-1-6.47 NMSA 1978. A 2016 amendment added a penalty for incorrectly filing for the food and medical deductions that result in hold harmless distributions instead of other exemptions or deductions that must be taken first. The penalty is 20% of the value of the hold harmless distribution resulting from the incorrect deduction. The 2022 amendment froze certain municipal distributions at a fixed percentage depending on the local poverty rate in relation to the state poverty rate and if they did not enact a municipal hold harmless gross receipts tax. The 2025 amendment deleted certain obsolete language.

**Evaluation:** The GRT deduction reduces the effective cost of food for home consumption (as opposed to restaurant meals or prepared foods). With the hold harmless provision and the loss of the revenue being made up through other tax burdens, this reduction has a significant cost to both the State General Fund and local governments. The food deduction benefits lower-income individuals who spend a greater share of their income on necessities including food.

**Recommendations:** This deduction is subject to frequent debate given the large amount of revenue foregone as a result. While discussion typically centers on whether or not to repeal the deduction, policymakers may also consider ways to reduce the administrative burden of managing a deduction and distribution of this magnitude.

Any future decision to tax any portion of food for home consumption may be coupled with measures to promote the principle of simplicity. The hold harmless distribution uses an intricate methodology to calculate the distributions, leading to a more complex and costly tax administration.

**Reliability Factor:** 1 - The deduction and hold harmless are separately reported. The estimates reflect the amounts of GRT revenue forgone by multiplying the GRT deduction amounts by the statewide average GRT rate for each year.

**Fiscal Impact:**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Sale of Food at Retail Food Stores GRT Deduction and Hold Harmless Distribution** | **State General Fund Expenditure from Local Hold Harmless Distributions (thousands)** | $95,851 | $122,091 | $94,125 |
| | **State General Fund Expenditure from Deduction (thousands)** | $211,221 | $282,054 | $239,971 |
| | **Net State General Fund Expenditure (thousands)** | **$307,072** | **$404,145** | **$334,096** |
| | **Local Government Expenditure from Deduction (thousands)** | $136,846 | $184,852 | $157,272 |
| | **Net Local Government Expenditure** | **$40,995** | **$62,761** | **$63,147** |

# SALE OF SOFTWARE DEVELOPMENT SERVICES GRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from the sale of software development services performed in a rural area by an eligible software company are deductible from gross receipts. A rural area is anywhere except an incorporated municipality with a population of more than 50,000.

**Statutory Basis:** 7-9-57.2 NMSA 1978

**Intended Purpose:** To stimulate new business development in rural areas.

**History:** Originally enacted in 2002.

**Evaluation:** It is difficult to determine whether this deduction is the cause of expansion in the targeted locations or industries, but based on Tax & Rev's methodology, the amount of the applicable deductions has increased significantly in recent years.

**Recommendations:** None.

**Reliability Factor:** 2 - Gross receipts deductions for taxpayers classified as software publishers and computer programmers reported outside of incorporated municipalities are assumed to qualify for the deduction. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost. A recent NAICS code revision by the federal Office of Management & Budget is reflected in FY25 estimates

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Sale of Software Development Services GRT Deduction** | **State General Fund Expenditure (thousands)** | $4,193 | $3,673 | $16,600 |
| | **Local Government Expenditure (thousands)** | $2,717 | $2,407 | $10,880 |

# SALE OF TEXTBOOKS IN CERTAIN BOOKSTORES EXEMPTION FROM GRT

**Category:** Citizen Benefits

**Brief Description:** Receipts of certain bookstores from selling textbooks and other materials required for courses at a public post-secondary educational institution to a student enrolled at the institution are exempt from GRT. Only bookstores located on the campus of the institution and operated under a contractual agreement with the institution are eligible.

**Statutory Basis:** 7-9-13.4 NMSA 1978

**Intended Purpose:** To reduce the cost of educational materials to those attending higher educational institutions.

**History:** Originally enacted in 2002.

**Evaluation:** While the cost of textbooks is only one component of the overall cost of a college education, the exemption provides some relief.

**Recommendations:** Consider expanding the exemption so that it is not limited to bookstores operated by a post-secondary education institution. Off-campus school bookstores frequently stock required textbooks and materials for university courses. Also, the inclusion of eBooks purchases should be assessed in this exemption.

**Reliability Factor:** 4 - Using survey results from The National Association of College Stores, the estimate of the cost of required course materials is used. Enrollment numbers for public post-secondary institutions, reported by the New Mexico Higher Education Department, in combination with the cost of required course materials, calculates an aggregate total cost across all public institutions.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Sale of Textbooks in Certain Bookstores Exemption from GRT** | **State General Fund Expenditure (thousands)** | $1,500 | $1,400 | $1,500 |
| | **Local Government Expenditure (thousands)** | $1,000 | $1,000 | $1,000 |

# SALES OF SERVICES TO MANUFACTURING GRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from the sale of certain professional services may be deducted from gross receipts or governmental gross receipts if the sale is made to a person engaged in the business of manufacturing who delivers a nontaxable transaction certificate to the seller or provides alternative evidence. The professional services shall be related to the product that the buyer is in the business of manufacturing. The deduction is limited to accounting, architectural, engineering, information technology, and legal services.

**Statutory Basis:** 7-9-46.1 NMSA 1978

**Intended Purpose:** To encourage manufacturing businesses to locate in New Mexico and to reduce the cost of final products by reducing tax pyramiding on professional services.

**History:** Originally enacted in 2022.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 2 - This deduction is separately reported. Despite being separately reported, the reliability factor for this deduction is a 2 to reflect that some taxpayers may be claiming this deduction in error. The drop in FY 2025 compared to FY 2024 reflects Tax & Rev's attempt to refine the fiscal impact by determining taxpayers that truly qualify for this deduction. Tax & Rev will further analyze this data and taxpayer reporting of GRT deductions.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Sales of Services to Manufacturing GRT Deduction** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Taxpayers** | 133 | 2,986 | 2,049 |
| | **State General Fund Expenditure (thousands)** | $698 | $84,098 | $37,276 |
| | **Local Government Expenditure (thousands)** | $446 | $56,065 | $24,851 |

# SALES TO NONPROFIT ORGANIZATIONS
# GRT, GGRT, AND COMPENSATING TAX DEDUCTION

**Category:** Citizen Benefits

**Brief Description:** Gross receipts from selling tangible personal property to 501(c)(3) organizations for use in tax-exempt functions, and gross receipts from the sale of construction materials to a 501(c)(3) organization formed for the purpose of providing homeownership opportunities to low-income families are deductible from gross receipts and governmental gross receipts tax.

Also, out-of-state purchases of an organization that was granted a tax exemption under Section 501(c)(3) or Section 501(c)(6) of the U.S. Internal Revenue Code are exempt from the Compensating Tax so long as the receipts are not derived from an unrelated trade or business as defined in Section 513 of the U.S. Internal Revenue Code.

**Statutory Basis:** 7-9-60 and 7-9-15 NMSA 1978

**Intended Purpose:** To decrease the operating costs of nonprofit entities that provide homeownership opportunities to low-income families.

**History:** The GRT deduction was originally enacted in 1953, amended in 1969, reenacted in 1970, and amended in 1992, 1995, 2001, 2007, 2018, and 2021.

The 2021 amendment clarifies that, in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction.

The exemption from compensating tax was originally enacted in 1969 and amended in 1970, 1983, and 1990.

**Evaluation:** This tax expenditure may allow a greater number of low-income families to be served by nonprofits whose mission relates to low-income homeownership, or for enhanced services to be offered.

**Recommendations:** None.

**Fiscal Impact:** Unknown.

# SALES TO STATE-CHARTERED CREDIT UNIONS GRT AND GGRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from selling tangible personal property to state-chartered credit unions are deductible from gross receipts to the same extent that receipts from the sale of tangible personal property to federal credit unions are deductible.

**Statutory Basis:** 7-9-61.2 NMSA 1978

**Intended Purpose:** To provide equitable tax treatment between federally-chartered and state-chartered credit unions and treat state-chartered credit unions as an instrumentality of state government.

**History:** Originally enacted in 2000.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 4 - According to the National Credit Union Administration (NCUA), New Mexico had 18 state-chartered credit unions in 2025. NCUA also published a document on operating costs for state-chartered credit unions. From this document, the tangible property costs estimate is 50% of total operating costs. The estimated tangible property deduction is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Sales to State-Chartered Credit Unions GRT and GGRT Deduction** | **Credit Unions** | 18 | 18 | 18 |
| | **State General Fund Expenditure (thousands)** | $1,748 | $2,102 | $2,362 |
| | **Local Government Expenditure (thousands)** | $1,132 | $1,378 | $1,548 |

# SCHOOL SUPPLIES PURCHASED BY A PUBLIC SCHOOL TEACHER DEDUCTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** A taxpayer who is not a dependent of another individual and is a public school teacher may claim a deduction from net income in an amount equal to the costs of school supplies purchased by the public-school teacher, not to exceed $500 for tax year 2024 and $1,000 for tax years 2025 through 2028.

**Statutory Basis:** 7-2-41 NMSA 1978

**Intended Purpose:** To reduce the tax liability and increase disposable income of public school teachers who use personal funds to purchase school supplies.

**History:** Originally enacted in 2024 and amended in 2025.

**Evaluation:** Nationwide, 94% of teachers spend their own money to support the needs of their classroom by buying supplies. According to the National Center for Education Statistics, New Mexico schoolteachers spent an average of $494 and 8.5% spent more than $1,000 in the 2020 to 2021 school year.

This deduction falls short of compensating teachers for their expenses. A teacher who spent $500 in tax year 2024 would enjoy an estimated tax liability reduction of $15, rising to $30 for tax year 2025. For FY 2025, the average tax relief provided was $19 per taxpayer.

**Recommendation:** Consider alleviating the need for teachers to purchase school supplies through the public school funding formula.

**Reliability Factor:** 2 – This deduction is separately reported. Some estimation is required.

**Fiscal Impact:**

| | | |
|---|---|---|
| **School Supplies Purchased by a Public-School Teacher Deduction from PIT** | **Tax Year (Calendar)** | 2024 |
| | **Claims** | 12,251 |
| | **Expenditure (thousands)** | $233 |
| | | |
| | **Fiscal Year** | 2025 |
| | **Claims** | 12,157 |
| | **Expenditure (thousands)** | $232 |

# SMALL BUSINESS SATURDAY THANKSGIVING WEEKEND GRT DEDUCTION

**Category:** Economic Development

**Brief Description:** Receipts from retail sales of specified tangible personal property are deductible from GRT on the first Saturday after Thanksgiving. The deduction may be claimed on sales of property with a value of less than $500. Qualified retailers must be a business in New Mexico and have employed no more than 10 employees at any one time in the previous fiscal year.

**Statutory Basis:** 7-9-116 NMSA 1978

**Intended Purpose:** To reduce the cost of retail purchases and encourage purchases at small businesses in New Mexico.

**History:** Originally enacted in 2018 and amended in 2020 and 2025. Amended in 2020 to extend the sunset of the deduction from July 1, 2020, to July 1, 2025. The 2025 amendment revised reporting requirements.

**Evaluation:** This deduction was similar to the back-to-school tax-free weekend. This deduction, however, restricts purchases to those made at small businesses and is believed to have lower usage. While the deduction may result in a small increase in purchases at small businesses during the popular holiday shopping season, the overall benefit is limited. The number of businesses that claimed the deduction has increased since FY21.

**Recommendations:** None.

**Reliability Factor:** 2 – This deduction is separately reported. Despite being a separately reported deduction, the reliability factor for this deduction is a 2 to reflect that some taxpayers may be claiming this deduction in error and others may not be reporting under the correct deduction code. Tax & Rev will further analyze this data and taxpayer reporting of GRT deductions.

**Fiscal Impact:** **This is the last year this expenditure is reported.**

| | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | **Taxpayers** | 195 | 319 | 271 |
| **Small Business Thanksgiving Saturday GRT Deduction** | **State General Fund Expenditure (thousands)** | $161 | $542 | $518 |
| | **Local Government Expenditure (thousands)** | $103 | $361 | $345 |

# SOCIAL SECURITY INCOME EXEMPTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** An individual may claim an exemption from PIT starting in tax year 2022 in an amount equal to the social security income included in adjusted gross income as determined on a taxpayer's federal income tax return and includable except for this exemption in net income. The individual also must have an adjusted gross income that does not exceed the following thresholds by filing type:

(1) For married individuals filing separate returns, $75,000;
(2) For heads of household, surviving spouses, and married individuals filing joint returns, $150,000;
(3) For single individuals, $100,000.

**Statutory Basis:** 7-2-5.14 NMSA 1978

**Intended Purpose:** To ease the tax burden on low and middle-income individuals who rely heavily on social security retirement income and to encourage retirees to reside in New Mexico.

**History:** Originally enacted in 2022.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 2 – This exemption is separately reported. Some estimation is required. Note: The number of claims is based on tax returns. A joint return may have 2 spouses claiming the exemption.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Social Security Income Exemption** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 134,093 | 138,378 | 131,570 |
| | **Expenditure (thousands)** | $80,216 | $88,240 | $86,362 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 123,266 | 139,147 | 141,274 |
| | **Expenditure (thousands)** | $73,823 | $88,523 | $92,301 |

# SOLAR ENERGY SYSTEMS GRT DEDUCTION

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Receipts from the sale or installation of solar energy systems, including solar panels, solar hot water heaters, and trombe walls, are deductible from gross receipts if the equipment is used to generate power for on-site consumption.

**Statutory Basis:** 7-9-112 NMSA 1978

**Intended Purpose:** To incentivize consumer installation and use of solar energy systems.

**History:** Originally enacted in 2007.

**Evaluation:** The steady growth in Tax & Rev's estimated deduction utilization suggests that this deduction continues to benefit solar purchasers.

**Recommendations:** None.

**Reliability Factor:** 3 - Solar panel installation is one of the 47 subcategories in NAICS code 238210 Electrical Contractors and Other Wiring Installation Contractors. Data from Tax & Rev's RP-80 Report was used to estimate the deduction. The deduction amount is multiplied by the statewide average GRT rate for each year to estimate the cost.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Solar Energy Systems Deduction** | **State General Fund Expenditure (thousands)** | $2,029 | $2,587 | $2,335 |
| | **Local Government Expenditure (thousands)** | $1,351 | $1,723 | $1,555 |

# SOLAR MARKET DEVELOPMENT CREDIT AGAINST PIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Taxpayers who purchase and install a solar thermal system or a photovoltaic system in a residence, business, or agricultural enterprise owned in New Mexico may apply for a solar market development tax credit of up to 10% of the purchase and installation cost of the system against PIT. This purchase must have been made between January 1, 2006, and December 31, 2016.

The credit shall not exceed $9,000. The maximum aggregate amount of credits allowed in any tax year is $2 million for solar thermal systems and $3 million for photovoltaic systems. The credit is not refundable but may be carried forward for up to 10 years.

**Statutory Basis:** 7-2-18.14 NMSA 1978

**Intended Purpose:** To incentivize growth of the solar industry by subsidizing a portion of the purchase and installation costs of solar systems in New Mexico.

**History:** Originally enacted in 2006 and amended in 2009 to reduce the credit from 30% to 10% and remove the cumulative federal and state cap of 30%. Repealed in 2025 with an effective date of July 1, 2025.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:** This credit is repealed effective July 1, 2025. The fiscal impacts below represent credits that have been carried forward on systems purchased by December 31, 2016. This will be the last time this credit is reported on in the annual Tax Expenditure Report.

# NEW SOLAR MARKET DEVELOPMENT CREDIT AGAINST PIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Taxpayers who purchase and install a solar thermal system or a photovoltaic system in a residence, business, or agricultural enterprise in New Mexico owned by the taxpayer may apply for a new solar market development tax credit of no more than $6,000 per taxpayer per taxable year. The purchase and installation must be made from March 1, 2020, but before January 1, 2032. Taxpayers receive certification for a credit from EMNRD.

The maximum annual aggregate amount of credits that may be certified was $12 million for tax years 2020 through 2023, with an additional $20 million that was available to be certified after that aggregate annual limit was met. The aggregate annual cap increased to $30 million per year for tax years 2024 through 2031. For tax years after 2021, the credit is refundable and transferable for the full value of the credit.

**Statutory Basis:** 7-2-18.31 NMSA 1978

**Intended Purpose:** To encourage the installation of solar thermal and photovoltaic systems residences, businesses and agricultural enterprises.

**History:** Originally enacted in 2020 and amended in 2022, 2024 and 2025. The 2022 amendment extended the sunset, increased the annual credit cap, and made the credit refundable and transferable. The 2024 amendment increased the aggregate cap for tax years 2024 through 2031 to $30 million. The 2024 amendment also provided a one-time $20 million above the cap amounts for tax years 2020 through 2023 for taxpayers denied a credit certification due to the aggregate cap amount being reached. This $20 million additional credit must be claimed in tax year 2023. The 2024 amendment also extended eligibility to solar systems installed on a federally recognized Indian nation, tribe or pueblo land.

**Evaluation:** This credit has exceeded the number of claims seen in the original Solar Market Development Credit. This is in part due to the aggregate cap being increased. Tax years after 2021 are now fully refundable. To determine the extent that this credit has encouraged installation of solar thermal and photovoltaic systems above the current market trend, other supplementary data would be needed.

For a recent study on solar photovoltaic adoption, "Equity in Solar PV Adoption in New Mexico," by Yuting Yang and Jiaqing Zhao at the University of New Mexico, July 2024, see: https://econ.unm.edu/what-we-do/community-service/2_solar_equity_yang_final-report.pdf

**Recommendations:** None.

**Reliability Factor:** 1 – This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **New Solar Market Development Credit** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 3,417 | 4,535 | 2,352 |
| | **Expenditure (thousands)** | $8,955 | $12,804 | $6,072 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 3,302 | 3,837 | 3,431 |
| | **Expenditure (thousands)** | $8,556 | $10,336 | $9,447 |

# SPACEPORT-RELATED ACTIVITIES
# GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Deductible from GRT are receipts from:

(1) launching, operating, or recovering space vehicles or payloads;
(2) preparing a payload;
(3) operating a spaceport; or
(4) providing research, development, testing, and evaluation services for the U.S. Air Force Operationally Responsive Space Program.

**Statutory Basis:** 7-9-54.2 NMSA 1978

**Intended Purpose:** To encourage the development of the space industry in New Mexico.

**History:** Originally enacted in 1995 and amended in 1997, 2001, 2003, and 2007. The 2007 amendment added a deduction for receipts from the provision of research, development, testing, and evaluation services for the U.S. Air Force Operationally Responsible Space Program.

**Evaluation:** According to publicly available information, several out-of-state companies are conducting launches in New Mexico. Spaceport America also hosts a collegiate annual competition in which students from across the world launch rockets from Spaceport America. Virgin Galactic moved its headquarters to the state. Virgin Galactic's first crewed flight from Spaceport America was in May 2021, and its first commercial flight with paying passengers took place in June 2023.

**Recommendations:** Section 7-9-54.2 NMSA 1978's GRT deduction currently allows receipts from selling space flight tickets to be deducted because those receipts are considered to be received from "operating" space vehicles. Tax & Rev is not aware of a policy consideration that would support excluding receipts from space flight ticket sales from the GRT. Space flight tickets may be considered a luxury good, and purchasers of that good have the ability to contribute to the tax base. Consider amending Section 7-9-54.2 NMSA 1978 to narrow the deduction and ensure the GRT is imposed on future space flight ticket sales.

**Reliability Factor:** No data is available to estimate the fiscal impact. Many companies involved in this business could be described as having irregular cash flow. Without a reporting requirement, it is difficult to ascertain which companies qualify and how much of the deduction is being applied.

**Fiscal Impact:** Unknown.

# SPACE-RELATED TEST ARTICLES DEDUCTION FROM COMPENSATING TAX

**Category:** Highly Specialized Industry

**Brief Description:** Deduction of the value of space-related test articles used in New Mexico exclusively for research or testing, or placed on public display after use, or stored for future use. The value of equipment and materials used in New Mexico for research or testing to support the research or testing of space-related test articles, or for storage of such equipment or materials to support the research and testing of space-related test articles, is deductible for computing compensating tax due.

**Statutory Basis:** 7-9-54.4 NMSA 1978

**Intended Purpose:** Incentivize the development of the space industry in New Mexico.

**History:** Originally enacted in 2003.

**Evaluation:** According to publicly available information, there are several companies conducting tests in New Mexico. These companies hold proprietary information in a new and emerging industry which makes capturing accurate data very difficult.

**Recommendations:** None.

**Reliability Factor:** No data are available to estimate the fiscal impact. Companies in this industry belong to a highly-specialized niche that holds proprietary information, making it difficult to find external sources of information. Without a reporting requirement, it is difficult to ascertain which companies qualify and how much of the deduction is being applied.

**Fiscal Impact:** Unknown.

# SPECIAL NEEDS ADOPTED CHILD CREDIT AGAINST PIT

**Category:** Citizen Benefits

**Brief Description:** A taxpayer who has adopted a special needs child (an individual certified as a "difficult to place child") may claim a credit against PIT for $1,500. The credit is refundable.

**Statutory Basis:** 7-2-18.16 NMSA 1978

**Intended Purpose:** To provide tax relief for those who adopt a special needs child.

**History:** Originally enacted in 2007 and amended in 2024 and 2025. The 2024 amendment increased the credit from $1,000 to $1,500 and required Tax & Rev to report annually on the credit. The 2024 amendment will impact expenditures beginning fiscal year 2025. The 2025 amendment removed obsolete language and amended reporting requirements.

**Evaluation:** None.

**Recommendations:** Since the credit amount is not indexed to inflation, the taxpayer's benefit will diminish over time. Consider the indexing of the credit amount to account for inflation.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Credit, Special Needs Adopted Child** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 912 | 839 | 751 |
| | **Expenditure (thousands)** | $1,604 | $1,465 | $1,967 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 880 | 849 | 883 |
| | **Expenditure (thousands)** | $1,513 | $1,506 | $2,215 |

# SUPPLEMENTAL INCOME TAX REBATE 2021 TAX YEAR FILING

**Category:** Citizen Benefits

**Brief Description:** Resident taxpayers who are not dependents of another taxpayer were eligible for two supplemental income tax rebates in tax year 2021. Each of the two rebates was $500 for heads of household, surviving spouses, and married individuals filing jointly, and $250 for single individuals and married individuals filing separately.

**Statutory Basis:** 7-2-7.5 NMSA 1978

**Intended Purpose:** To provide temporary economic relief to New Mexico residents due to inflationary price increases.

**History:** Originally enacted in 2022.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 1 – This rebate was separately issued, and no estimation is required.

**Fiscal Impact:**

| | | | | | |
|---|---|---|---|---|---|
| **2021 Supplemental Income Tax Rebate** | **Tax Year (Calendar)** | 2021 | 2022 | 2023 | 2024 |
| | **Claims** | 960,057 | NA | NA | NA |
| | **Expenditure (thousands)** | $675,475 | | | |
| | | | | | |
| | **Fiscal Year** | 2022 | 2023 | 2024 | 2025 |
| | **Claims** | 873,926 | 68,725 | 16,451 | 918 |
| | **Expenditure (thousands)** | $614,493 | $57,360 | $2,728 | $871 |

# SUSTAINABLE BUILDING CREDIT AGAINST PIT AND CIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Until December 31, 2016, a taxpayer could claim a credit against PIT and CIT for investments in constructing or renovating sustainable residential or commercial buildings that meet specific "green" building standards. Taxpayers received certification of their project for a credit from EMNRD.

The amount of the credit that could be claimed ranged from $0.70 to $9.00 per square foot depending on the square footage of the building, the type of building, and the certification level the building has achieved in the LEED green building rating system.

For credits less than $100,000, a maximum of $25,000 would be applied against the taxpayer's liability each year as needed; for credits of $100,000 and more, a maximum of 25% would be applied against the taxpayer's liability each year.

The credit was not refundable but was transferable and could be carried forward up to seven years.

**Statutory Basis:** 7-2-18.19 and 7-2A-21 NMSA 1978

**Intended Purpose:** To encourage the construction of sustainable buildings and the renovation of existing buildings into sustainable buildings.

**History:** Originally enacted in 2007, amended in 2009 and 2013, and repealed in 2025. The 2013 amendment extended the expiration date, reduced the aggregate cap for commercial buildings from $5 million to $1 million and from $5 million to $4 million for residential buildings, and established thresholds for how much of the credit can be claimed in each year. Repealed in 2025 with an effective date of July 1, 2025.

**Evaluation:** According to EMNRD, the sustainable building tax credit reached its cap in FY2015 and FY2016.

Tax & Rev used data provided by EMNRD in thousands of British Thermal Units (MMBTUs) and the Public Service Company of New Mexico's monthly rates per kilowatt-hour to estimate the energy savings resulting from the credit. In FY2014, the total savings for residential homes was about $570,000. The future energy savings projections over 10 years were estimated to be $27 million, compared to $18 million in tax credits. Total savings for commercial buildings over 10 years were estimated at $30 million, compared to $2.2 million in tax credits. It should be noted that the monetized energy savings are annual savings and do not project or consider the cumulative energy savings over the useful life of the properties.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required. Given the seven-year carry forward period for claiming credits under the expired credit, tax liabilities will be reduced under this program through fiscal year 2023.

**Fiscal Impact:** This credit is repealed effective July 1, 2025. This will be the last time this credit is reported on in the annual Tax Expenditure Report.

| | | | | |
|---|---|---|---|---|
| **Sustainable Building Credit (expired)** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 5 | 0 | 0 |
| | **Expenditure (thousands)** | $6 | $0 | $0 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 126 | 65 | 13 |
| | **Expenditure (thousands)** | $976 | $629 | $128 |

# 2015 SUSTAINABLE BUILDING CREDIT AGAINST PIT AND CIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Until December 31, 2024, a taxpayer could claim a credit against PIT and CIT for investments in constructing a sustainable building, renovating an existing building into a sustainable building, or installing manufactured housing that is a sustainable building if the project was completed prior to April 1, 2023, and met specific "green" building standards. Taxpayers received certification of their project for the credit from EMNRD.

The amount of the credit that could be claimed ranged from $0.30 to $6.50 per square foot depending on the square footage of the building, the type of building, and the certification level the building has achieved in the LEED green building rating system.

For credits less than $100,000, a maximum of $25,000 would be applied against the taxpayer's liability each year as needed; for credits of $100,000 and more, a maximum of 25% would be applied against the taxpayer's liability each year.

For each calendar year, EMNRD may annually certify up to:

(1) $1,250,000 for commercial building;

(2) $3,375,000 for residential building;

(3) $375,000 for manufactured housing.

Should any one category of building has not meet its annual cap, EMNRD could transfer the excess to a different category. The overall annual cap between all three categories could not exceed $5,000,000.

The credit is not refundable but is transferable and could be carried forward up to seven years.

**Statutory Basis:** 7-2-18.29 and 7-2A-28 NMSA 1978

**Intended Purpose:** To encourage the construction of sustainable buildings and the renovation of existing buildings into sustainable buildings.

**History:** Originally enacted in 2015 and amended in 2021 and 2025.

The 2015 legislation replaced the original sustainable energy credit, which sunset on December 31, 2016. The 2015 credit lowered the qualified square footage and credit amount for residential buildings, and reinstated a per-credit (as opposed to an aggregated credit) methodology for determining annualized credit claim amounts.

While also creating a new 2021 credit, the 2021 amendment changed the name of this credit from 'new' to '2015' sustainable building credit. The amendment also shortened the eligibility period from December 21, 2026, to December 31, 2024. The 2025 amendment simplified the carry forward to up to 7 years.

**Evaluation:** The credit appears to be meeting the purpose of encouraging the construction of sustainable buildings and the renovation of existing buildings to meet sustainable building criteria. As a replacement of the original sustainable building credit, this credit has maintained a consistent range of claimants of between 550 and 750 every tax year. The credit has yet to reach the overall annual $5,000,000 cap and has room for more projects.

**Recommendations:** Repeal, as this credit applied to investments made through December 31, 2024. The 2021 Sustainable Building Tax Credit, detailed below, remains in effect.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **2015 Sustainable Building Credit** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 687 | 1,087 | 51 |
| | **Expenditure (thousands)** | $3,747 | $6,001 | $225 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 825 | 715 | 1,115 |
| | **Expenditure (thousands)** | $4,789 | $3,790 | $6,156 |

# 2021 SUSTAINABLE BUILDING CREDIT AGAINST PIT AND CIT

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** For taxable years beginning January 1, 2021 and before January 1, 2028, a taxpayer may claim a credit against PIT and CIT for investments in constructing a sustainable building, renovating an existing building into a sustainable building, installing manufactured housing that is a sustainable building, or installing energy-conserving products to existing building in New Mexico if they meet specific "green" building standards and for certain projects if they are completed on or after January 1, 2022. Taxpayers receive certification of their project for the credit from EMNRD.

The amount of the credit that may be claimed ranges from $0.10 to $5.50 per square foot depending on the square footage of the building, the type of building, and the certification level the building has achieved in the LEED green building rating system, or if the building is fully electric or zero carbon, energy, waste or water certified. Additional credits are available for energy conserving products installed i the building that range from $350 to $3,000.

For tax years 2021 to 2024, credits less than $100,000, a maximum of $25,000 will be applied against the taxpayer's liability each year as needed; for credits of $100,000 or more, a maximum of 25% will be applied against the taxpayer's liability each year.

In For annual calendar year, EMNRD may certify up to:

(1) $1,000,000 for the construction of new sustainable commercial buildings;

(2) $2,000,000 for the construction of new sustainable residential buildings that are not manufactured housing;

(3) $250,000 for the construction of new sustainable residential buildings that are manufactured housing;

(4) $1,000,000 for the renovation of large commercial buildings;

(5) $2,900,000 for the installation of energy-conserving products in existing commercial building.

Should any one category above not meet its annual cap, EMNRD may transfer the excess to a different category that has applications exceeding the cap.

The credit is refundable for qualified low-income taxpayers. For those that do not qualify for a refund, it may be carried forward up to seven years. The credit is transferable. The credit may not be claimed on the same sustainable building for which a 2015 sustainable building credit has been issued.

Select definitions:

(1) "low-income taxpayer" is defined as a taxpayer with an annual household adjusted gross income equal to or less than two hundred percent of the federal poverty level guidelines published by the United States Department of Health and Human Services;

(2) "manufactured housing" means a multisectioned home that is:

a. A manufactured home or modular home;

b. A single-family dwelling with a total heated area of at least 36 by 24 feet and a total area of at least 864 square feet;

c. Constructed in a factory meeting the standards of the United States Department of Housing and Urban Development, the National Manufactured Housing Construction and Safety Standards Act of 1974 and federal or New Mexico construction codes;

d. Installed consistent with the New Mexico Manufactured Housing Act.

**Statutory Basis:** 7-2-18.32 and 7-2A-28.1 NMSA 1978

**Intended Purpose:** To encourage the construction of sustainable buildings and the renovation of existing buildings into sustainable buildings.

**History:** Originally enacted in 2021, amended in 2022 and in 2025.

The 2021 legislation enacted the credit to replace the 2015 sustainable building credit. The 2021 credit has an increased cap of $7,150,000. The 2022 amendment shortened the claiming period from January 1, 2030 to prior to January 1, 2028 and added that certain projects need to be completed on or after January 1, 2022. The 2025 amendment simplified the refundability and carry forward to up to 7 years and allows for taxpayers with leaseholds on tribal land to qualify. This amendment also removed the stipulation that credits of less than $100,000, a maximum of $25,000 will be applied against the taxpayer's annual liability and for credits of $100,000 or more, a maximum of 25% will be applied against the taxpayer's liability each year.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|

| | **Expenditure (thousands)** | $5 | $250 | $1,735 |

# TAX STAMPS
# RATE DIFFERENTIAL IN CIGARETTE TAX

**Category:** Highly Specialized Industry

**Brief Description:** Tax & Rev sells tax stamps at face value to distributors of cigarettes. If the face value of tax stamps sold in a single sale is less than $1,000, a discount of 0.46% is applied for the first $30,000 of stamps purchased in one calendar month. A 0.36% discount is applied for the next $30,000 of stamps purchased in that month, and a 0.22% discount is applied for any stamps purchased in excess of $60,000.

**Statutory Basis:** 7-12-7(D) NMSA 1978

**Intended Purpose:** Presumably, this provides a scaled increase in the price of stamps. Rather than providing for a floor with increases at certain thresholds, it provides a ceiling with decreases at certain thresholds. This meets the definition of a tax expenditure but the intent to make it one is unclear.

**History:** Originally enacted in 1943 and amended in 1947, 1949, 1953, 1963, 1968, 1970, 1971, 1988, 2006, 2010, and 2019. The 2010 and 2019 amendments reduced the discount percentages.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 - The discounted amounts are reported separately. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Tax Stamps Rate Differential in Cigarette Tax** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Taxpayers** | 17 | 15 | 15 |
| | **Expenditure (thousands)** | $184 | $161 | $158 |

# TECHNOLOGY JOBS AND RESEARCH AND DEVELOPMENT CREDIT AGAINST GRT, COMPENSATING TAX, WITHHOLDING TAX, PIT, OR CIT

**Category:** Economic Development

**Brief Description:** A taxpayer that conducts qualified research and development at a facility in New Mexico, except at a facility operated for the U.S. government, may claim a basic credit equal to 5% (4% before January 1, 2016) of qualified expenditures against the state portion of GRT, compensating tax, or withholding tax. The credit is doubled to 10% when the qualified facility is in a rural area.

A taxpayer may qualify for an additional 5% credit against PIT and CIT liability by raising its in-state payroll by $75,000 for every $1 million in qualified expenditures claimed. This credit doubles if the qualified facility is in a rural area.

A 2015 amendment excluded local option gross receipts tax from the taxes against which the basic credit may be claimed.

Starting January 1, 2016, the credit may be refundable or partially refundable. If the taxpayer's total qualified expenditures for the taxable year for which the claim is made are less than $3 million, the excess additional credit shall be refunded to the taxpayer. If expenditures are between $3 million and $4 million, two-thirds of the credit is refundable. If expenditures are $4 to $5 million, the one-third of the credit is refundable.

Any amount of the approved basic credit or additional credit not claimed against the taxpayer's compensating tax, withholding tax, gross receipts tax, excluding local option gross receipts tax, income tax, or corporate income tax due may be carried forward for up to three years from the date of the original claim.

**Statutory Basis:** 7-9F-1 *et seq.* NMSA 1978

**Intended Purpose:** To incentivize the growth of technology-based businesses engaging in research, development, and experimentation by providing a favorable tax climate and to promote increased employment and higher wages in industries in New Mexico.

**History:** Originally enacted in 2000 and amended in 2015, 2019 and 2025. The 2015 amendment created the Technology Jobs and Research and Development Tax Credit Act from the Technology Jobs Tax Credit. Section 7-9F-9 NMSA 1978 was amended to set forth the mechanism for claiming the basic credit, and to exclude local option gross receipts tax from the taxes that the basic credit may be claimed against. A taxpayer reporting requirement was also created.

The 2019 amendment revised the definition of "local option gross receipts tax" to use the definition of local taxes as used in acts authorizing counties or municipalities to impose taxes on gross receipts. The 2025 amendment repealed subsection 7-9F-12 NMSA 1978, relating to reporting.

**Evaluation:** Investment in research and development is a major driving force for long-term technological change, innovation and economic growth. This tax credit aims to incentivize such R&D investment. In the last three fiscal years, the expenditure associated with this credit has averaged $4.9 million, with an average of 280 taxpayers claiming the credit. Of these taxpayers, about 13% also claim the additional credit, averaging $1.5 million annually. Economic literature on R&D tax credits suggests that such incentives increase research and development spending. In line with that expectation, New Mexico has seen exceptional growth in this credit expenditure. It is, however, difficult to gauge the extent to which this increased spending leads to increased innovation and technological change.

**Recommendations:** It is recommended that GRT tax expenditures be structured as deductions for ease of administration and taxpayer compliance, as credits are more complicated to administer than deductions.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|

# TECHNOLOGY READINESS CREDIT AGAINST GRT

**Category:** Economic Development

**Brief Description:** National laboratories that provide technology readiness assistance to businesses may receive a credit against state GRT of up to $150,000 per business for qualified expenditures. and cannot be claimed against any local option gross receipts tax liability. The credit has an annual cap per national laboratory of $1,000,000. Technology readiness assistance provided to a business by a national laboratory with the intent to help the business' technology achieve maturation. The credit is not refundable but may be carried forward indefinitely. The credit is available for taxable periods prior to July 1, 2027.

**Statutory Basis:** 7-9-96.3 NMSA 1978

**Intended Purpose:** To assist businesses in their achievement of maturation of the technologies developed at New Mexico national laboratories, and to increase economic development in the State.

**History:** Originally enacted in 2020 and amended in 2022. The 2022 amendment extended the sunset date and changed the funding mechanism for the credit.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 – The credit is separately reported.

**Fiscal Impact:** While only two taxpayers may claim this credit, the data is not redacted due to the statutory requirement that the national laboratories submit an annual report to the legislature disclosing this data.

| | | | | |
|---|---|---|---|---|
| **Technology Readiness Credit against Credit** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **State General Fund Expenditure (thousands)** | $689 | $955 | $1,000 |
| | | | | |
| | **Fiscal Year** | 2022 | 2023 | 2024 |
| | **State General Fund Expenditure (thousands)** | $1,040 | $93 | $1,955 |

# TEST ARTICLES
# DEDUCTION FROM COMPENSATING TAX

**Category:** Highly Specialized Industry

**Brief Description:** The value of test articles upon which research or testing is conducted in New Mexico pursuant to a contract with the U.S. Department of Defense is deductible from the compensating tax due. The deduction does not apply to the value of property purchased by a prime contractor operating a facility designated as a national laboratory by an act of Congress.

**Statutory Basis:** 7-9-54.5 NMSA 1978

**Intended Purpose:** To incentivize the retention of U.S. Air Force bases in New Mexico.

**History:** Originally enacted in 2004.

**Evaluation:** The deduction is determined to be effective as New Mexico has retained its air force bases while others outside of the state have been closed due to consolidation.

**Recommendations:** None.

**Reliability Factor:** No data are available to estimate the fiscal impact.

**Fiscal Impact:** Unknown.

# TIMBER RATE DIFFERENTIAL FROM PROCESSORS TAX

**Category:** Highly Specialized Industry

**Brief Description:** A processor of timber in New Mexico is required to pay a Processors Tax of 0.375%, a preferable rate compared to the base Processors Tax rate of 0.75%.

**Statutory Basis:** 7-25-5A(2) NMSA 1978

**Intended Purpose:** Presumably to incentivize the processing of timber.

**History:** Originally enacted in 1985 and amended in 1999.

**Evaluation:** The rate differential may not be achieving its purpose as processing activity has decreased over time.

**Recommendation:** None.

**Reliability Factor:**  1 – This expenditure is calculated directly using taxpayer data. No estimation is required. While fewer than three taxpayers have reported processing of timber, the data may be reported pursuant to Section 7-1-8.3(B) NMSA 1978.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Timber Rate Differential from Processors Tax** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Taxpayers** | 2 | 2 | 1 |
| | **Expenditure (thousands)** | $0.5 | $1.5 | $0.2 |

# UNREIMBURSED OR UNCOMPENSATED MEDICAL CARE EXPENSES CREDIT FROM PIT

**Category:** Citizen Benefits

**Brief Description:** A taxpayer who is 65 years of age or older may claim a credit of $2,800 if the taxpayer's medical care expenses paid by the taxpayer are $28,000 or more, and if those expenses are not reimbursed or compensated for by insurance or otherwise. This credit is refundable.

**Statutory Basis:** 7-2-18.13 NMSA 1978

**Intended Purpose:** To reduce the burden of out-of-pocket costs of medical care.

**History:** Originally enacted in 2005.

**Evaluation:** This is one of several citizen benefit expenditures related to unreimbursed medical expenses. Because a taxpayer must have qualifying expenses over $28,000 per year, this credit is restricted to taxpayers who incur significant unreimbursed or uncompensated medical care expenses. All claimants are aged 65 and older, a population that is often on a fixed income. Claims for this credit may increase as demographics shift to an older population and as inflation causes more individuals to surpass $28,000 per year in qualified expenses. The degree to which New Mexico residents over 65 are covered by high-quality insurance, including Medicare and supplemental Medicare plans, will also impact future expenditures.

**Recommendations:** None.

**Reliability Factor:** 1 – The expense is calculated directly from taxpayer data. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Unreimbursed Medical Expenses Credit** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 4,720 | 5,538 | 5,154 |
| | **Expenditure (thousands)** | $13,161 | $15,442 | $14,386 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 4,629 | 5,612 | 6,074 |
| | **Expenditure (thousands)** | $12,914 | $15,651 | $16,950 |

# UNREIMBURSED OR UNCOMPENSATED MEDICAL CARE EXPENSES DEDUCTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** Through tax year 2024, a taxpayer may claim a deduction from net income in an amount determined from medical care expenses paid during the tax year for medical care of the taxpayer, the taxpayer's spouse or dependent(s) if those expenses were not reimbursed or compensated by insurance or otherwise. The deduction amount is based on a percentage of applicable medical expenses during the taxable year and the this percentage is scaled by adjusted gross income. For all filing statuses, 10, 15, and 25 percent are the allowable percentages based on adjusted gross income.

**Statutory Basis:** 7-2-37 NMSA 1978

**Intended Purpose:** To reduce the burden of out-of-pocket costs of medical care.

**History:** Originally enacted in 2015. The deduction sunsets as of January 1, 2025.

**Evaluation:** This is one of several citizen benefit expenditures related to unreimbursed medical expenses. This deduction is available to all taxpayers, regardless of age, income, or amount of medical expenditures, subject to percentages determined by adjusted gross income thresholds. On average, approximately 30% of taxpayers claim this deduction each fiscal year.

**Recommendations:** None.

**Reliability Factor:** 2 – This expenditure is calculated directly using taxpayer data. Some estimation is required. This deduction sunsets January 1, 2025.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Unreimbursed Medical Expenses Deduction** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 320,060 | 321,856 | 309,258 |
| | **Expenditure (thousands)** | $5,634 | $5,822 | $5,656 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 323,770 | 329,019 | 338,947 |
| | **Expenditure (thousands)** | $5,694 | $5,928 | $6,276 |

# UNREIMBURSED OR UNCOMPENSATED MEDICAL CARE EXPENSES EXEMPTION FROM PIT

**Category:** Citizen Benefits

**Brief Description:** Any individual who is 65 years or older may claim a $3,000 exemption from net income for medical care expenses paid during the taxable year $28,000 and are not reimbursed or compensated by insurance or otherwise. Medical expenses could be for the individual, the individual's spouse, or the individual's dependents.

**Statutory Basis:** 7-2-5.9 NMSA 1978

**Intended Purpose:** To reduce the burden of out-of-pocket costs of medical care.

**History:** This exemption was enacted in 2005.

**Evaluation:** This is one of several citizen benefit expenditures related to unreimbursed medical expenses. Because a taxpayer must have qualifying expenses over $28,000 per year, this exemption is restricted to taxpayers who incur significant unreimbursed or uncompensated medical care expenses. All claimants are aged 65 and older, a population that is often on a fixed income. Claims for this exemption may increase as demographics shift to an older population and as inflation causes more individuals to surpass $28,000 per year in qualified expenses. The degree to which New Mexico residents over 65 are covered by high quality insurance, including Medicare and supplemental Medicare plans, will also impact future expenditures.

**Recommendations:** None.

**Reliability Factor:** 2 – This expenditure is calculated directly using taxpayer data. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Exemption, Unreimbursed Medical Expenses** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 4,841 | 5,573 | 5,432 |
| | **Expenditure (thousands)** | $345 | $421 | $433 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 4,728 | 5,589 | 6,401 |
| | **Expenditure (thousands)** | $345 | $422 | $496 |

# URANIUM ENRICHMENT PLANT EQUIPMENT DEDUCTION FROM COMPENSATING TAX

**Category:** Highly Specialized Industry

**Brief Description:** The value of equipment and replacement parts for plant equipment may be deducted in computing compensating tax due if the taxpayer uses the equipment or replacement parts to enrich uranium in a uranium enrichment plant.

**Statutory Basis:** 7-9-78.1 NMSA 1978

**Intended Purpose:** To incentivize uranium enrichment plants to locate in New Mexico.

**History:** Originally enacted in 1999.

**Evaluation:** Operating as intended. The only currently operating commercial enrichment facility in the United States opened in New Mexico a decade after this deduction was enacted.

**Recommendations:** None.

**Reliability Factor:** This deduction is not separately reported. No data are available to estimate the fiscal impact. If the deduction were separately reported, the data would likely remain redacted due to fewer than three taxpayers claiming the deduction.

**Fiscal Impact:** Unknown.

# URANIUM HEXAFLUORIDE AND URANIUM ENRICHMENT GRT DEDUCTION

**Category:** Highly Specialized Industry

**Brief Description:** Receipts from selling uranium hexafluoride and the services of uranium enrichment are deductible from gross receipts.

**Statutory Basis:** 7-9-90 NMSA 1978

**Intended Purpose:** To incentivize the uranium hexafluoride industry and uranium enrichment plants to locate in New Mexico.

**History:** Originally enacted in 1999 and amended in 2012 and 2025. The 2012 amendment expanded the deduction to include the sale of uranium hexafluoride. The 2025 amendment adjusted reporting requirements.

**Evaluation:** The deduction is operating as intended. The only operating commercial uranium enrichment facility in the United States opened in New Mexico a decade after this deduction was enacted.

**Recommendations:** None.

**Reliability Factor:** 1 - This deduction is separately reported. No estimation is required.

**Fiscal Impact:** Redacted in all years due to fewer than three taxpayers claiming the deduction.

# VETERAN EXEMPTION FROM PROPERTY TAX

**Category:** Citizen Benefits

**Brief Description:** Property owned by a veteran, unmarried surviving spouse or held in trust by a veteran or the veteran's unmarried surviving spouse is eligible for a $4,000 property tax exemption for tax years 2006 through 2024, $10,000 exemption for tax year 2025, and the exemption is adjusted for inflation for tax year 2026 and forward The veteran or the veteran's surviving spouse must be a New Mexico resident. The exemption is deducted from the taxable value of the property to determine the net taxable value of the property.

A "veteran" is an individual who has been honorably discharged from membership in the armed forces of the United States, and with exceptions, served in the armed forces of the United States on active duty continuously for 90 days. An individual who would otherwise meet the definition of veteran except for the 90 continuous days of service due to service-connected disablement is considered to meet the definition of a veteran.

An individual whose civilian service is recognized as service in the armed forces of the United States by federal law and who was issued a discharge certificate by a branch of the armed forces shall be considered to have served in the armed forces.

**Statutory Basis:** 7-37-5 NMSA 1978

**Intended Purpose:** To ease the tax burden of individuals who served in the armed forces.

**History:** Originally enacted in 1973 and amended in 1975, 1977, 1981, 1983, 1986, 1989, 1991, 1992, 2000, 2003, 2005 and 2025. The 2025 amendment implements a 2024 Constitutional amendment passed by the electorate increasing the exemption to $10,000 for tax year 2025 and annually indexing the exemption to inflation thereafter.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 2 - The fiscal impact is based on the reported number of taxpayers granted the veteran exemption and the associated taxable value exempted in each county in annual County Assessor Evaluation Reports. The fiscal impact is rated a two as the exempted value by county is then multiplied by the weighted average residential mill rate for that county. The total fiscal impact is the sum of the county level estimates.

**Fiscal Impact:** Fiscal impact is shared by various taxing authorities that impose a property tax. These include school districts, local governments, special districts and the State general obligation bond debt service fund. The 2025 amendment increasing the exemption to $10,000 takes effect for tax year 2025. Prior to tax year 2025, the fiscal impacts below are based on a $4,000 exemption.

| | | | | |
|---|---|---|---|---|
| **Veteran Exemption from Property Tax** | **Tax Year** | 2021 | 2022 | 2023 |
| | **Claims** | 76,177 | 70,613 | 69,083 |
| | **Expenditure (thousands)** | $8,636 | $8,697 | $8,443 |

# VETERANS' ORGANIZATION EXEMPTION FROM PROPERTY TAX

**Category:** Citizen Benefits

**Brief Description:** Property owned by a veterans' organization chartered by the United States congress and used for the primary benefit of veterans and their families are exempt from property taxation. Qualification for the exemption is done in collaboration between the Veterans' Services Department, county assessors, and the Taxation and Revenue Department., and once qualified, does not have to reapply for the exemption.

**Statutory Basis:** 7-37-5.3 NMSA 1978

**Intended Purpose:** To reduce the tax burden on organizations that contribute to the social and economic welfare of veterans and their families.

**History:** Originally enacted in 2011.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 2 - The fiscal impact is based on the reported number of taxpayers granted the veteran's organization exemption and the associated taxable value exempted in each county in annual County Assessor Evaluation Reports. The fiscal impact is rated a two as the exempted value by county is then multiplied by the weighted average residential mill rate for that county. The total fiscal impact is the sum of the county level estimates.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Veterans' Organization Exemption from Property Tax** | **Tax Year** | 2021 | 2022 | 2023 |
| | **Claims** | 19 | 35 | 38 |
| | **Expenditure (thousands)** | $72 | $82 | $97 |

# WIND AND SOLAR GENERATION EQUIPMENT GRT DEDUCTION

**Category:** Environment, Conservation & Renewable Energy

**Brief Description:** Receipts from selling wind generation equipment, solar generation equipment, and energy storage equipment and related equipment to a federal or state government agency for the purpose of installing a wind or solar electric generation facility and associated storage capability are deductible from gross receipts.

**Statutory Basis:** 7-9-54.3 NMSA 1978

**Intended Purpose:** To incentivize government entities to purchase wind and solar generation equipment and energy storage capability equipment for a renewable energy facility.

**History:** Originally enacted in 2002 and amended in 2010 and 2024. The 2024 amendment expanded the deduction to include energy storage facilities and placed a sunset date of July 1, 2034.

**Evaluation:** None.

**Recommendations:** "Government" is defined as federal or state level entities. Amending the statute to include county and municipal entities would extend savings to those governmental entities.

**Reliability Factor:** No data are available to estimate the fiscal impact.

**Fiscal Impact:** Unknown.

# WORKING FAMILIES TAX CREDIT AGAINST PIT

**Category:** Citizen Benefits

**Brief Description:** This credit may be claimed against PIT as a percentage of a taxpayer's federal earned income tax credit (EITC). The percentage of New Mexico's credit has risen over time and for tax year 2023 and forward, is 25% of EITC. The credit is refundable.

**Statutory Basis:** 7-2-18.15 NMSA 1978

**Intended Purpose:** To reduce the tax burden on working families, thereby reducing poverty and incentivizing workforce participation.

**History:** Originally enacted in 2007 at 8% of a taxpayer's federal EITC, amended in 2008 to 10%, and amended in 2019 to 17%.

In 2021, the tax credit was amended to 20% for tax years 2021 and 2022, and 25% effective for tax year 2023 and beyond. Effective tax year 2021, eligibility expanded to New Mexico taxpayers who file PIT using a federally-issued individual taxpayer identification number (ITIN) and to those between the ages 18 to 24 without a qualifying child.

**Evaluation:** The Working Families Tax Credit is one of several tax programs that contribute to New Mexico's Maintenance of Effort certification for the Temporary Assistance for Needy Families program[40]. Except for state expansions enacted in 2021, eligibility for this credit is contingent upon receipt of the federal EITC that annually adjusts income thresholds. This credit assists -lower-income workers by providing income tax relief. The credit phases out gradually as income rises and the credit is larger for families with more dependents. In the last three fiscal years, on average, 207,000 claims have been made annually, averaging $119 million in expenditures each fiscal year. Expansion of this credit has likely contributed to New Mexico's improved Supplemental Poverty Measure, especially contributing to improvements in child poverty. Similarly, in 2024, New Mexico's Official Poverty Measure for children fell 3.2%, the largest improvement in the nation.

Given that the savings rate among lower income taxpayers is relatively low, there is a high likelihood that this money is recirculating throughout the New Mexico economy to increase consumption and economic activity in New Mexico.

[40] TANF is a federal block grant that provides cash and medical assistance to low-income families with dependent children. To receive TANF funds, New Mexico must spend some of its own dollars (state or local monies) on programs for needy families. This is known as Maintenance of Effort (MOE).

**Recommendations:** None.

**Reliability Factor:** 1 - This credit is separately reported. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Working Families Tax Credit** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 200,238 | 197,233 | 201,819 |
| | **Expenditure (thousands)** | $92,853 | $125,255 | $130,807 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 206,380 | 207,004 | 208,205 |
| | **Expenditure (thousands)** | $93,497 | $126,732 | $135,911 |

# NOT TAX EXPENDITURES

While almost anything with respect to tax expenditures can be debated, little argument[41] surrounds the following deviations from the tax code; therefore, Tax & Rev classifies them as "Not Tax Expenditures".

Many of these deviations fall into the following broad categories:

1) Reducing the effects of pyramiding. One of the detrimental impacts of a GRT system is that, absent a deviation, external costs of production are taxed at the time the producer acquires them and then again when the producer sells the final product. When compared to a sales tax system, this makes the cost of a good or service more expensive when all factors other than the type of tax system are equal. Many of the deductions in New Mexico's GRT are designed to eliminate taxation on the inputs so that the tax is only applied to the final product. (Pyramiding is discussed in detail in this report under "Tax Policy Examination – Tax Pyramiding".)

2) Allowing deductions or exemptions under one tax program because the Legislature has elected to instead impose tax under another program.

Furthermore, New Mexico policymakers have decided to use different tax structures to tax different activities (e.g., MVX for the sale of motor vehicles). Deviations from one structure when the activity is taxed under a different structure (e.g., GRT deduction for the sale of motor vehicles) prevent double taxation.

3) Several other deviations are in the code because of the federal preemption doctrine. Because states are prohibited from taxing the federal government, New Mexico is unable to impose a tax, regardless of whether the deviation was placed in the code. Including these deviations in the tax code simply provides some measure of clarity to the taxpayer and the Taxation and Revenue Department.

Reporting information about tax code deviations that are "Not Tax Expenditures" is not specifically required. However, we have included some descriptive information about the deviations to give the reader a more complete picture of the New Mexico tax landscape.

'Not Tax Expenditures' are presented in alphabetical order. The table of contents provides an alphabetized list of the "not tax expenditures." To find a specific deviation based on its statute citation, use the index at the end of the report.

[41] Note that this is intentionally different from saying that "there is no argument"; judgment calls are an inherent feature of tax expenditure analysis and the economists at the New Mexico Taxation and Revenue Department have used their best judgement in determining what is and what is not a tax expenditure.

## ACCREDITED DIPLOMATS AND MISSIONS GRT DEDUCTION

**Brief Description:** Receipts from the sale or lease of property to, or from performing services for, accredited foreign missions or diplomats are deductible from gross receipts when required by a treaty to which the U.S. Government is a signatory.

**Statutory Basis:** 7-9-89 NMSA 1978

**Intended Purpose:** Presumably to comply with the federal preemption doctrine.

**History:** Originally enacted in 1998.

## ACQUISITION OF VEHICLE FOR SUBSEQUENT LEASE EXEMPTION FROM MVX

**Brief Description:** A person who acquires a vehicle for subsequent lease is exempt from the MVX if:

(1) the person does not use the vehicle in any manner other than holding it for lease or sale or leasing or selling it in the ordinary course of business;

(2) the lease is for a term of more than 6 months;

(3) the receipts from the subsequent lease are subject to GRT; and

(4) the vehicle does not have a gross vehicle weight of over 26,000 pounds.

**Statutory Basis:** 7-14-6(F) NMSA 1978

**Intended Purpose:** Presumably to define the tax base and avoid pyramiding as there is a requirement the subsequent lease be subject to GRT.

**History:** The section was originally enacted in 1988 and was amended in 1990, 1994, 2004, and 2007. The language in this subsection was added as part of the amendment in 1994.

## ACQUISITION OF VEHICLE MORE THAN 30 DAYS BEFORE MOVING TO NEW MEXICO EXEMPTION FROM MVX

**Brief Description:** A person who acquires a vehicle out of state thirty or more days before establishing a domicile in this state is exempt from the tax if the vehicle was acquired for personal use.

**Statutory Basis:** 7-14-6(A) NMSA 1978

**Intended Purpose:** Presumably to eliminate an unreasonable tax burden on non-residents relocating to New Mexico on personally owned and operated vehicles.

**History:** Originally enacted in 1988 and was amended in 1990, 1994, 2004, and 2007.

## ATHLETIC FACILITY SURCHARGE EXEMPTION FROM GRT AND GGRT

**Brief Description:** Exempted from the GRT and from the GGRT are the receipts of a university from an athletic facility surcharge imposed pursuant to the University Athletic Facility Funding Act.

**Statutory Basis:** 7-9-41.1 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple programs. Because the University Athletic Funding Act allows a university to impose an athletic facility surcharge on products and services sold at or related to the facility, this exempts those sales from the GRT and GGRT so that they are not taxed twice.

**History:** Originally enacted in 2007 as part of the legislation that enacted the University Athletic Facility Funding Act.

## BAD DEBTS DEDUCTION FROM INTERSTATE TELECOMMUNICATIONS GRT

**Brief Description:** Refunds and allowances made to buyers of interstate telecommunications services or amounts written off the books as an uncollectible debt by a person reporting Interstate Telecommunications GRT on an accrual basis are deductible from interstate telecommunications gross receipts.

If debts reported as uncollectible are subsequently collected, the receipts must be included in interstate telecommunications gross receipts when they are collected.

**Statutory Basis:** 7-9C-9 NMSA 1978

**Intended Purpose:** Presumably to properly define the tax base and avoid requiring a taxpayer to pay taxes on non-existent receipts.

**History:** Originally enacted in 1992.

## BIODIESEL DEDUCTION FROM SPECIAL FUEL EXCISE TAX

**Brief Description:** Biodiesel that is blended or resold at a rack in New Mexico is deductible from the special fuel excise tax

**Statutory Basis:** 7-16A-10(H)(1) and (2) and 7-16A-9.4 NMSA 1978

**Intended Purpose:** Presumably to prevent double taxation.

**History:** 7-16A-10(H)(1) and (2) NMSA 1978 were originally enacted in 2009 and amended in 2013. The 2013 amendment sunset a definition of the fuel as consisting of at least 99% vegetable oil or animal fat as of July 1, 2014, and converted to the term 'biodiesel' under subsection (2).

7-16A-9.4 NMSA 1978 was enacted in 2013 and amended in 2025. This statute requires the reporting of this deduction. The 2025 amendment revised the reporting requirements.

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 1 - This non-expenditure deduction is calculated directly using taxpayer data for the special fuels tax reporting.

| Biodiesel Deduction from Special Fuel Excise Tax | Fiscal Year | 2025 |
|---|---|---|
| | Expenditure (thousands) | $280 |

# BIODIESEL FOR SUBSEQUENT BLENDING OR RESALE BY A RACK OPERATOR DEDUCTION FROM PETROLEUM PRODUCTS LOADING FEE

**Brief Description:** Biodiesel loaded in or imported into New Mexico and delivered to a rack operator for subsequent blending or resale by a rack operator is deductible from gallons used to determine loads for the purposes of calculating the petroleum products loading fee.

**Statutory Basis:** 7-13A-5(B) and 7-13A-5(D) NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** The section was originally enacted in 1990. These subsections were created by an amendment in 2014. A 2025 amendment revised the reporting requirements under subsection (D).

**Evaluation:** None.

**Recommendations:** None.

**Reliability Factor:** 2 - This non-expenditure deduction is calculated directly using taxpayer data for the special fuels tax reporting. Estimation is required to extrapolate to the Petroleum Product Loading Fee.

| **Biodiesel Deduction from Petroleum Products Loading Fee** | **Fiscal Year** | 2025 |
|---|---|---|
| | **Expenditure (thousands)** | $1.1 |

## BOATS
## EXEMPTION FROM GRT AND COMPENSATING TAX

**Brief Description:** Both the receipts from selling, and the use of boats on which an excise tax is imposed are exempt from the GRT and the compensating tax.

**Statutory Basis:** 7-9-22.1 and 7-9-23.1 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple programs as these exemptions only apply to those boats on which a tax is imposed pursuant to Section 66-12-6.1 NMSA 1978.

**History:** Originally enacted in 1987.

## BUSINESS LOCATED ON LAND OWNED BY THE MUNICIPALITY BUT OUTSIDE THE MUNICIPAL BOUNDARIES
## EXEMPTION FROM SUPPLEMENTAL MUNICIPAL GRT AND MUNICIPAL LOCAL OPTION GRT

**Brief Description:** A business located outside of the boundaries of a municipality on land owned by that municipality is exempt from the supplemental municipal GRT and the municipal local option GRT.

**Statutory Basis:** 7-19-14(B) and 7-19D-5(B) NMSA 1978

**Intended Purpose:** Presumably to resolve a jurisdictional question and provide certainty about the tax rate that applies in this situation (without this clarification, there could be arguments about which tax rate applies).

**History:** Originally enacted in 1979 and amended in 1983 and 1994.

## CERTAIN RETAIL SALES OF GASOLINE ON AN INDIAN RESERVATION, PUEBLO GRANT OR TRUST LAND DEDUCTION FROM GASOLINE TAX

**Brief Description:** A person may deduct a percentage equal to the rate the Indian nation, tribe, or pueblo charges divided by the rate the state charges from the gasoline gallons received that are sold at retail on Indian nation, tribe, or pueblo land.

**Statutory Basis:** 7-13-4.4 NMSA 1978

**Intended Purpose:** Presumably to address multi-jurisdictional taxation as the deduction may only be taken if the Indian nation, tribe, or pueblo has certified that it has in effect an excise, privilege, or similar tax on gasoline.

**History:** Originally enacted in 2000.

## CHARITABLE ORGANIZATIONS EXEMPTION FROM PIT AND CIT

**Brief Description:** Religious, educational, benevolent, or other organizations not organized for profit which are exempt from income taxation under the Internal Revenue Code are exempt from PIT and CIT; however, PIT and CIT apply to the unrelated business income of the organization.

**Statutory Basis:** 7-2-4(B) and 7-2A-4(C) NMSA 1978

**Intended Purpose:** To define the tax base.

**History:** The PIT exemption was originally enacted in 1965 and amended in 1969, 1971, and 1981.

The CIT exemption was originally enacted in 1981 and amended in 1986 and 1989.

# CHEMICALS AND REAGENTS
# GRT DEDUCTION

**Brief Description:** Receipts from selling chemicals or reagents to any mining, milling, or oil company for use in processing ores or oil in a mill, smelter, or refinery or in acidizing oil wells, and receipts from selling chemicals or reagents in lots in excess of 18 tons to any hard-rock mining or milling company for use in any combination of extracting, leaching, milling, smelting, refining or processing ore at a mine site are deductible from gross receipts.

Receipts from selling explosives, blasting power or dynamite may not be deducted from gross receipts.

**Statutory Basis:** 7-9-65 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 2019 to clarify that lots of chemicals or reagents in excess of 18 tons must be sold to a hard-rock mining or milling company and must be used at a mine site for specific purposes.

# CONSTRUCTION MATERIAL GRT DEDUCTION

**Brief Description:** Receipts from selling construction material are deductible from gross receipts if the sale is made to a person engaged in the construction business.

The buyer must present a non-taxable transaction certificate or alternative evidence to the seller and incorporate the construction material as:

(1) an ingredient or component part of a construction project that is subject to the GRT upon its completion or upon the completion of the overall construction project of which it is a part;

(2) an ingredient or component part of a construction project that is subject to the GRT upon the sale in the ordinary course of business of the real property upon which it was constructed; or

(3) an ingredient or component part of a construction project that is located on the tribal territory of an Indian nation, tribe or pueblo.

**Statutory Basis:** 7-9-51 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 2000, 2001, and 2021.

The 2021 amendment clarifies that, in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction.

# CONSTRUCTION SERVICES AND CONSTRUCTION-RELATED SERVICE GRT DEDUCTION

**Brief Description:** Receipts from selling a construction service or a construction-related service are deductible from gross receipts if the sale is made to a person engaged in the construction business.

The buyer must present a non-taxable transaction certificate or alternative evidence to the seller and have the construction services or construction-related services directly contracted for or billed to:

(1) a construction project that is subject to the GRT upon its completion or upon the completion of the overall construction project of which it is a part;

(2) a construction project that is subject to the GRT upon the sale in the ordinary course of business of the real property upon which it was constructed; or

(3) a construction project that is located on the tribal territory of an Indian nation, tribe or pueblo.

**Statutory Basis:** 7-9-52 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 2000, 2012, and 2021.

The 2012 amendment included the deduction for constructed-related services.

The 2021 amendment clarifies that in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction.

# DEPENDENT DEDUCTION FROM PIT FOR CERTAIN DEPENDENTS

**Brief Description:** If the exemption amount pursuant to Section 151 of the Internal Revenue Code (IRC) is zero, any taxpayer who files a PIT return as a head of household or married filing jointly and is not a dependent of another taxpayer may claim a $4,000 deduction per eligible dependent beyond the first dependent claimed.

**Statutory Basis:** 7-2-39 NMSA 1978

**Intended Purpose:** To revert to the New Mexico tax base prior to the passage of the 2017 Federal Tax Cuts and Jobs Act (TCJA) and maintain conformity with federal IRC going forward.

**History:** The PIT deduction was originally enacted in 2019 and amended in 2025.

**Evaluation:** The deduction is serving its intended purpose of providing relief to households with dependents from the negative state-level TCJA impact. TCJA repealed the federal personal exemption in favor of a substantial increase in the federal standard deduction and a child tax credit. While conformity to federal tax code implies that the federal changes to personal exemption and standard deductions flow through to the New Mexico tax code, the child tax credit does not. This dependent deduction was intended to serve a similar function as the federal child tax credit. Since 2021, the deduction has been claimed by an average of 172,500 New Mexican taxpayers each fiscal year and has reduced the tax liability on average by $158.

**Recommendations:** None.

**Reliability Factor:** 2 – This non-expenditure deduction is calculated directly using taxpayer data. Some estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Dependent Deduction from PIT for Certain Dependents** | **Tax Year (Calendar)** | 2022 | 2023 | 2024 |
| | **Claims** | 170,118 | 169,170 | 155,847 |
| | **Expenditure (thousands)** | $26,315 | $26,979 | $25,438 |
| | | | | |
| | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Claims** | 169,992 | 174,029 | 173,457 |
| | **Expenditure (thousands)** | $26,474 | $27,505 | $27,768 |

## DIVIDENDS AND INTEREST EXEMPTION FROM GRT

**Brief Description:** Interest on money loaned or deposited; dividends or interest from stocks, bonds, or securities; and receipts from the sale of stocks, bonds, or securities are exempt from GRT.

**Statutory Basis:** 7-9-25 NMSA 1978

**Intended Purpose:** To avoid double taxation as these are taxed under the personal income tax.

**History:** Originally enacted in 1969.

## DYED GASOLINE USED FOR OFF-ROAD TRANSPORTATION DEDUCTION FROM GASOLINE TAX

**Brief Description:** Gasoline that is dyed in accordance with Tax & Rev regulations and is not used in motor vehicles operating on the highways of New Mexico is deductible from the gasoline tax but is subject to GRT.

**Statutory Basis:** 7-13-4(D) NMSA 1978

**Intended Purpose:** Presumably to recognize that off-road vehicles don't contribute to the deterioration of the roads, the maintenance of which is funded through the gasoline tax distributions to the State Road Fund.

**History:** The section was originally enacted in 1991 and amended in 1997, 1998, 1999, and 2007.

The language in this subsection was created by an amendment in 1998.

## DYED SPECIAL FUEL DEDUCTION FROM SPECIAL FUEL EXCISE TAX

**Brief Description:** Special fuels dyed in accordance with federal regulations are deductible from the special fuel excise tax.

**Statutory Basis:** 7-16A-10(E) NMSA 1978

**Intended Purpose:** Presumably to recognize that off-road vehicles do not contribute to the deterioration of the roads, the maintenance of which is funded through the special fuel excise tax distributions to the State Road Fund.

**History:** This section was originally enacted in 1992 and amended in 1993, 1997, 1998, 2001, 2005, 2006, 2007, 2009, and 2013.

# EVENT CENTER SURCHARGE EXEMPTION FROM GRT AND GGRT

**Brief Description:** Receipts from selling tickets, parking, souvenirs, concessions, programs, advertising, merchandise, corporate suites or boxes, broadcast revenues, and all other products or services sold at or related to a municipal event center on which an event center surcharge is imposed pursuant to the Municipal Event Center Funding Act are exempt from GRT and GGRT.

**Statutory Basis:** 7-9-13.5 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple tax programs as the receipts must be subject to an event center surcharge to be exempt.

**History:** Originally enacted in 2005 as part of the legislation that enacted the Municipal Event Center Funding Act.

**Evaluation:** The Municipal Event Center Funding Act provides an additional method of accessing the capital markets to meet the need for a complete funding package for functional and modern municipal event centers. Because the Municipal Event Center Funding Act allows a municipality to impose an event center surcharge on products and services sold at or related to the stadium, these exemptions from the GRT and GGRT prevent them from being taxed twice.

## EXEMPTIONS FROM THE INSURANCE PREMIUM TAX

**Brief Description:** Exempted from the Insurance Premium Tax are:

A. Premiums attributable to insurance or contracts purchased by the state or political subdivision for their active or retired employees
B. Payments received by a health maintenance organization from the federal secretary of health and human services pursuant to a risk-sharing contract issued under the provisions of 42 U.S.C. Section 1395 mm(g)
C. Any business transacted pursuant to the provisions of the Service Contract Regulation Act
D. The premiums from each policy of plan issued or offered pursuant to the Minimum Healthcare Protection Act during the first three years of the issuance of the master policy or individual policy (Effective July 1, 2025, this subsection is repealed.)
E. The money collected and placed in trust pursuant to Section 59A-49-6 NMSA 1978.
F. Premiums from supplemental health care plans issued by a nonprofit insurer (Effective July 1, 2025)

**Statutory Basis:** 7-40-5 NMSA 1978

**Intended Purpose:** Presumably to define the tax base and federal preemption.

**History:** Originally enacted in 2018, effective January 1, 2020. Amended in 2025 to repeal an outdated exemption and to add an exemption for premiums from supplemental health care plans issued by nonprofit insurers.

## FILMS AND TAPES GRT DEDUCTION

**Brief Description:** Receipts from leasing theatrical and television films and tapes to movie theaters or similar facilities are deductible when the theater's receipts are subject to GRT.

**Statutory Basis:** 7-9-76.2 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1984.

## FUEL
## EXEMPTION FROM GRT AND COMPENSATING TAX

**Brief Description:** The selling and the use of gasoline, special fuel, or alternative fuel on which the tax imposed by other acts has been paid are exempt from GRT and compensating tax.

**Statutory Basis:** 7-9-26 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple tax programs, as the fuels must be taxed pursuant to the gasoline tax, the special fuel excise tax, or the Alternative Fuel Tax Act to qualify for the exemption.

**History:** Originally enacted in 1969 and amended in 1971, 1980, 1981, 1983, 1993, 1995, and 2023.

## GASOLINE OR SPECIAL FUELS RETURNED TO THE REFINER AS UNCOLLECTIBLE
## DEDUCTION FROM PETROLEUM PRODUCTS LOADING FEE (PPLF)

**Brief Description:** Gasoline and special fuels that are returned to the refiner, pipeline terminal operator, or distributor are deductible from the gallons used to determine loads for purposes of calculating the PPLF when refunds and allowances are made to buyers for the returned fuel.

Gasoline and special fuels, when payment has not been collected and been determined to be uncollectible, are deductible from the gallons used to determine loads for purposes of calculating the PPLF.

**Statutory Basis:** 7-13A-5(A) NMSA 1978

**Intended Purpose:** Presumably to ensure that taxes are not paid on gasoline and special fuel which the taxpayer is unable to market.

**History:** Originally enacted in 1990 and amended in 2014.

## INCOME EARNED BY INDIANS EXEMPTION FROM PIT

**Brief Description:** Income earned by a member of a New Mexico federally-recognized Indian nation, tribe, band or pueblo, the member's spouse or dependent, who is a member of a New Mexico federally-recognized Indian nation, tribe, band or pueblo, is exempt from PIT if the income is earned from work performed within and the member, spouse or dependent is domiciled within the boundaries of the Indian member's or the spouse's reservation or pueblo grant or within the boundaries of lands defined as "Indian County" pursuant to 18 U.S.C Section 1151.

**Statutory Basis:** 7-2-5.5 NMSA 1978

**Intended Purpose:** To define the tax base and comply with federal limitations on a state's imposition of its taxes under federal Indian law.

**History:** Originally enacted in 1995 and amended in 2023.

## INSURANCE COMPANIES EXEMPTION FROM CIT

**Brief Description:** Insurance companies that pay the insurance premium tax to the state are exempt from CIT.

**Statutory Basis:** 7-2A-4(A) NMSA 1978

**Intended Purpose:** To avoid taxation under multiple programs as qualification for the exemption is dependent upon paying a premium tax.

**History:** Originally enacted in 1981 and amended in 1986 and 1989.

## INTERGOVERNMENTAL COAL SEVERANCE CREDIT AGAINST COAL SEVERANCE TAX

**Brief Description:** A person who severs coal from tribal land may claim a credit against the coal severance tax and the coal surtax imposed under Section 7-26-6 NMSA 1978.

The credit is calculated monthly and is equal to 75% of the lesser of:

(1) the aggregate amount of taxes in effect on March 1, 2001, that are imposed by the Indian nation, tribe, or pueblo; or

(2) the aggregate amount of coal severance tax and the coal surtax due to the state.

**Statutory Basis:** 7-29C-2 NMSA 1978

**Intended Purpose:** To recognize the sovereignty of Indian nations, tribes, and pueblos, and address issues with multi-jurisdictional taxation.

**History:** Originally enacted in 2001.

## INTERGOVERNMENTAL CREDIT AGAINST CIT

**Brief Description:** A new business that opens on Indian land after July 1, 1997, may claim a credit against the CIT.

The credit is calculated for each reporting period and is equal to 50% of the lesser of:

(1) the aggregate amount of tax paid by the taxpayer; or

(2) the amount of the taxpayer's CIT due from the new business' activity on Indian land.

**Statutory Basis:** 7-2A-16 NMSA 1978

**Intended Purpose:** To accommodate principles of fair apportionment between the tribes and the state.

**History:** Originally enacted in 1997.

# INTERGOVERNMENTAL PRODUCTION AND INTERGOVERNMENTAL PRODUCTION EQUIPMENT CREDIT AGAINST OIL AND GAS SEVERANCE TAX, OIL AND GAS CONSERVATION TAX, OIL AND GAS EMERGENCY SCHOOL TAX, AND OIL AND GAS AD VALOREM PRODUCTION TAX

**Brief Description:** A person who severs products from tribal land may claim a credit against the oil and gas severance tax, the oil and gas conservation tax, the oil and gas emergency school tax, or the oil and gas ad valorem production tax.

The credit is calculated monthly and is equal to 75% of the lesser of:

(1) the aggregate amount of taxes in effect on March 1, 1995, imposed by the Indian nation, tribe, or pueblo; or

(2) the aggregate amount of oil and gas severance tax, the oil and gas conservation tax, the oil and gas emergency school tax, or the oil and gas ad valorem production tax due the state.

A person who is liable for the payment of the oil and gas production equipment ad valorem tax imposed on equipment located on Indian tribal land may claim a credit.

The credit is calculated monthly and is equal to 75% of the lesser of:

(1) the aggregate amount of ad valorem or similar taxes in effect on March 1, 1995, imposed by the Indian nation, tribe, or pueblo; or

(2) the aggregate amount of oil and gas production equipment tax due to the state.

**Statutory Basis:** 7-29C-1 NMSA 1978

**Intended Purpose:** To recognize the sovereignty of Indian nations, tribes, and pueblos and to address the cumulative tax burden of multijurisdictional taxation.

**History:** Originally enacted in 1995 and amended in 1999.

## INTERNET SERVICES
## GRT DEDUCTION

**Brief Description:** Receipts from providing telecommunications, Internet, or Internet access services to internet service providers are deductible.

**Statutory Basis:** 7-9-56.1 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding as the final user must be subject to the GRT or ITGRT.

**History:** Originally enacted in 1998 and amended in 2000.

## INTERSTATE SALES OF SPIRITUOUS LIQUORS, BEER, & WINE AND WINEGROWER-TO-WINEGROWER TRANSFERS
## DEDUCTION FROM LIQUOR EXCISE TAX

**Brief Description:** A wholesaler who sells and ships liquor, beer, or wine out of state may claim a deduction for those liters from the units of alcoholic beverages subject to the liquor excise tax.

A winegrower who transfers wine to another winegrower for processing, bottling, or storage and subsequently returns the wine to the original winegrower may claim a deduction for those liters from the units of wine subject to the liquor excise tax.

**Statutory Basis:** 7-17-6 NMSA 1978

**Intended Purpose:** Presumably to increase New Mexico winegrowers' competitiveness in other states with respect to the out-of-state deduction and to ensure that the product is not taxed twice (once in New Mexico and once in the other state); and to reduce tax pyramiding with respect to the winegrower-to-winegrower transfers.

**History:** Originally enacted in 1984 and amended in 1995 and 2008.

## INTERSTATE SALES OF TOBACCO DEDUCTION AGAINST TOBACCO PRODUCTS TAX

**Brief Description:** The value of tobacco products sold or given and shipped to a person in another state is deductible from the product value subject to tax imposed by the Tobacco Products Tax Act.

**Statutory Basis:** 7-12A-5 NMSA 1978

**Intended Purpose:** Presumably to ensure that the product is not taxed twice (once in New Mexico and again in the other state).

**History:** Originally enacted in 1986.

## INTERSTATE TELECOMMUNICATIONS SERVICES EXEMPTION FROM GRT (ITGRT)

**Brief Description:** Receipts from selling or providing interstate telecommunications services that are subject to ITGRT are exempt

**Statutory Basis:** 7-9-38.1 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple programs as the exemption only applies to the sale or provision of interstate telecommunications services subject to the tax imposed by the Interstate Telecommunications Gross Receipts Tax Act[42].

**History:** Originally enacted in 1992 and amended in 1993.

## INTERSTATE COMMERCE TRANSACTIONS DEDUCTION FROM LEASED VEHICLE GROSS RECEIPTS TAX

**Brief Description:** Receipts from transactions in interstate commerce are deductible from gross receipts to the extent that the imposition of the leased vehicle gross receipts tax would be unlawful under the United States Constitution.

**Statutory Basis:** 7-14A-7 NMSA 1978

**Intended Purpose:** To comport with U.S. Constitutional limitations on state taxation under the Commerce Clause.

**History:** Originally enacted in 1991.

[42] Section 7-9C-1 NMSA 1978

# JEWELRY MANUFACTURING GRT DEDUCTION

**Brief Description:** Receipts from selling tangible personal property are deductible from gross receipts if the sale to the buyer is made to a jewelry manufacturer and the property p is incorporated as an ingredient or component part of the jewelry.

The deduction allowed to a seller under this section shall not exceed $5,000 during any twelve-month period attributable to purchases by a single purchaser.

This deduction was no longer necessary after the enactment of Section 7-9-46, which provides a general deduction for receipts from the sale of tangible personal property to a manufacturer.

**Statutory Basis:** 7-9-74 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding as the deduction only applies if the sale is made to a person who uses the property as an ingredient or component part of the jewelry the buyer manufactures.

**Recommendation:** None.

**History:** Originally enacted in 1971 and amended in 1975 and 1994. Repealed in 2025 with an effective date of July 1, 2025.

# JICARILLA APACHE TRIBAL CAPITAL IMPROVEMENTS TAX CREDIT AGAINST OIL AND GAS EMERGENCY SCHOOL TAX

**Brief Description:** A person who is liable for the payment of the oil and gas emergency school tax imposed on products severed from Jicarilla Apache tribal land shall be entitled to a credit against the oil and gas emergency school tax for products from a well on Jicarilla Apache tribal land.

The credit is calculated monthly and is equal to the lesser of:

(1) the Jicarilla Apache tribal capital improvements tax; or

(2) .7% of the taxable value of the products severed from qualified wells.

**Statutory Basis:** 7-31-27 NMSA 1978

**Intended Purpose:** To recognize the sovereignty of Indian nations, tribes, and pueblos and to address issues with multi-jurisdictional taxation. The Jicarilla Apache tribal capital improvements tax is exclusively dedicated to funding capital improvement projects on Jicarilla Apache tribal land and is not available to finance the construction of buildings used for commercial activity.

**History:** Originally enacted in 2002.

## LARGE HEALTH CARE FACILITY EXEMPTION FROM HEALTH CARE QUALITY SURCHARGE

**Brief Description:** A health care facility with more than 90,000 annual Medicaid-financed bed days may claim an exemption in an amount equal to 65 percent of the health care quality surcharge.

The percentage and annual Medicaid-financed days criteria may be modified by rules promulgated by HCA to comply with federal approval.

**Statutory Basis:** 7-41-5 NMSA 1978

**Intended Purpose:** To establish the tax base and meet approval requirements of the federal Centers for Medicare & Medicaid Services (CMS) approval.

**History:** The Health Care Quality Surcharge and this exemption were enacted in 2019 and amended in 2022 to make permanent.

## LEASE FOR SUBSEQUENT LEASE GRT DEDUCTION

**Brief Description:** Receipts from leasing tangible personal property or licenses used for subsequent lease in the ordinary course of business are deductible from gross receipts.

The lessee must provide a non-taxable transaction certificate or alternative evidence to the lessor.

**Statutory Basis:** 7-9-50 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1972, 1975, 1979, 1983, 1991, 1992, and 2021.

The 2021 amendment clarifies that in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction.

## LEASE OF CONSTRUCTION EQUIPMENT GRT DEDUCTION

**Brief Description:** Receipts from leasing construction equipment are deductible from gross receipts if the lease is made to a person engaged in the construction business.

The lessee must present a non-taxable transaction certificate or alternative evidence to the lessor and use the construction equipment at the location of:

(1) a construction project that is subject to the GRT upon its completion or upon the completion of the overall construction project of which it is a part;

(2) a construction project that is subject to the GRT upon the sale in the ordinary course of business of the real property upon which it was constructed; or

(3) a construction project that is located on the tribal territory of an Indian nation, tribe, or pueblo.

**Statutory Basis:** 7-9-52.1 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 2012 and amended in 2021.

The 2021 amendment clarifies that in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction.

## MARKETPLACE SELLER DEDUCTION FROM GROSS RECEIPTS AND GOVERNMENTAL GROSS RECEIPTS TAX

**Brief Description:** The receipts from the sale, lease, or license of real or tangible property by a marketplace seller that are facilitated by a marketplace provider are deductible from gross receipts.

**Statutory Basis:** 7-9-117 NMSA 1978

**Intended Purpose:** The deduction ensures that the incidence of taxation occurs once at the point of sale with the marketplace provider.

**History:** The section was originally enacted in 2019 and amended in 2020 to include governmental gross receipts.

## MEDICAL INSURANCE POOL ASSESSMENTS CREDIT AGAINST INSURANCE PREMIUM TAX

**Brief Description:** There is a 50 percent credit on the assessment for any New Mexico medical insurance pool member pursuant to Section 59A-54-10 NMSA 1978 and a 75 percent credit for the assessments attributable to the pool policyholders that receive premiums, in whole or in part, through the federal Ryan White CARE Act, the Ted R. Montoya hemophilia program at the university of New Mexico health sciences center, the children's medical services bureau of the public health division of the department of health, or other programs receiving state funding or assistance.

**Statutory Basis:** 7-40-6 NMSA 1978

**Intended Purpose:** To avoid double taxation.

**History:** Previously the credit was in the insurance code. Originally enacted in 2018 under the Tax Administration Act, effective January 1, 2020. Amended in 2023 to disallow any refund or carryforward of the credit that exceeds tax liability.

## MEDICAL CANNABIS EXEMPTION FROM CANNABIS EXCISE TAX

**Category:** Health Care

**Brief Description:** The cannabis excise tax shall not apply to retail sales of medical cannabis products sold to a qualified patient or a primary caregiver who presents a registry identification card issued pursuant to the Lynn and Erin Compassionate Use Act [Chapter 26, Article 2B NMSA 1978] or a reciprocal participant who presents similar proof from another state, the District of Columbia or a territory or commonwealth of the United States at the time of the sale.

**Statutory Basis:** 7-42-3(C) NMSA 1978

**Intended Purpose:** The Cannabis Tax Act exempts medical cannabis, presumably to define the tax base. Particularly since medical cannabis is also excluded from GRT and GGRT through Section 7-9-73.2 NMSA 1978. When defining its tax base, the law excluded retail sales of medical cannabis products sold to a person who presents a registry identification card issued pursuant to the Lynn and Erin Compassionate Use Act.

**History:** Originally enacted in 2021.

## NATURAL GAS ALREADY TAXED EXEMPTION FROM NATURAL GAS PROCESSORS TAX

**Brief Description:** The tax shall not be levied more than once on the same natural gas.

**Statutory Basis:** 7-33-7 NMSA 1978

**Intended Purpose:** Presumably to avoid double taxation.

**History:** Originally enacted in 1963 and amended in 1998.

## NATURAL RESOURCES SUBJECT TO RESOURCES EXCISE TAX EXEMPTION FROM GRT

**Brief Description:** Receipts from the sale or processing of natural resources, the severance or processing of which are subject to the resources excise tax, are exempt from gross receipts.

**Statutory Basis:** 7-9-35 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple tax programs as the exemption only applies to severed natural resources that are subject to the taxes imposed by the Resources Excise Tax Act.

**History:** Originally enacted in 1969 and amended in 1984 and 1989.

## "NET INCOME" EXEMPTIONS FROM PIT

**Brief Description:** Income (in the form of interest) derived from U.S. government obligations is excluded from the definition of "net income" and therefore exempt from PIT.

**Statutory Basis:** 7-2-2(N)(4) NMSA 1978

**Intended Purpose:** To comply with the federal preemption doctrine.

**History:** Originally enacted in 1991.

## NET INCOME SUBJECT TO ENTITY-LEVEL TAX CREDIT AGAINST PIT OR CIT

**Brief Description:** An owner of a pass-through entity electing annually to pay income tax under the entity-level tax may be allowed a tax credit against their PIT or CIT liability. The credit is in an amount equal to the owner's share of the entity-level tax. The credit is refundable.

**Statutory Basis:** 7-3A-10 (H) NMSA 1978

**Intended Purpose:** To prevent double taxation of net income under New Mexico's income tax programs.

**History:** 7-3A-10 NMSA 1978 was originally enacted in 2022 and was amended in 2023 to create the credit under subsection H. The credit replaces an exemption from PIT or CIT previously provided under 7-2-5.12 and 7-2A-4.1 NMSA 1978.

## NONPROFIT HOSPITAL EXEMPTION FROM LOCAL GROSS RECEIPTS TAX

**Brief Description:** The receipts from a nonprofit hospital licensed by the department of health are exempt from the local option gross receipts tax. They are not exempt from the state gross receipts tax.

**Statutory Basis:** 7-9-41.5 NMSA 1978

**Intended Purpose:** To establish the tax base among all hospitals regardless of profit or non-profit status.

**History:** The section was originally enacted in 2019.

## NONRESIDENT EXEMPTION FROM ESTATE TAX

**Brief Description:** The transfer of a nonresident's personal property is exempt from the estate tax to the extent that the personal property of a resident is exempt from taxation under the laws of the state in which the nonresident is domiciled.

**Statutory Basis:** 7-7-4(D) NMSA 1978

**Intended Purpose:** Presumably to reduce the administrative commitment between states.

**History:** Originally enacted in 1973 and amended in 1999.

## OCCASIONAL SALE OF PROPERTY OR SERVICES EXEMPTION FROM GRT

**Brief Description:** Receipts from the isolated or occasional sale or leasing of property or a service by a person who is not in the business of selling or leasing the same or similar property or service are exempt from GRT.

**Statutory Basis:** 7-9-28 NMSA 1978

**Intended Purpose:** Presumably to define the tax base.

**History:** Originally enacted in 1969.

## OIL AND GAS OR MINERAL INTERESTS EXEMPTION FROM GRT

**Brief Description:** Receipts from the sale or lease of oil, natural gas, or mineral interests are exempt from GRT.

**Statutory Basis:** 7-9-32 NMSA 1978

**Intended Purpose:** To prevent double taxation, as these receipts are taxed under different severance taxes.

**History:** Originally enacted in 1969.

## ONE-WAY HAUL AND EMPTY TRAVEL RATE DIFFERENTIAL FROM WDT

**Brief Description:** If (1) a motor vehicle is customarily used for one-way haul, (2) the motor vehicle travels empty of all load for at least 45% of the mileage traveled during a registration year, and (3) the registrant of the vehicle has made a sworn application, the tax is two-thirds of the standard WDT.

**Statutory Basis:** 7-15A-6(B) NMSA 1978

**Intended Purpose:** Presumably to appropriately tax vehicles based on its wear and tear on New Mexico roads, and thereby to define the tax base.

**History:** Originally enacted in 1988 and amended in 2003 and 2004.

## PERSONAL EFFECTS
## EXEMPTION FROM COMPENSATING TAX

**Brief Description:** The use by an individual of personal or household effects brought into the state in connection with the establishment by the individual of an initial residence in this state and the use of property brought into the state by a nonresident for their own nonbusiness use while temporarily within this state are exempt from compensating tax.

**Statutory Basis:** 7-9-27 NMSA 1978

**Intended Purpose:** Presumably to encourage relocating to New Mexico, and to avoid administrative complexity.

**History:** Originally enacted in 1969.

## PETROLEUM PRODUCTS EXPORTED FOR RESALE
## EXEMPTION FROM PETROLEUM PRODUCTS LOADING FEE

**Brief Description:** Petroleum products that are either loaded into cargo tanks in New Mexico and exported for resale and consumption outside of New Mexico, or are imported into New Mexico and subsequently exported for resale and consumption outside of New Mexico are exempt from the PPLF.

**Statutory Basis:** 7-13A-4(A) NMSA 1978

**Intended Purpose:** Presumably to properly define the tax base. Also, the loading fee typically supports environmental issues related to the storage of fuel in New Mexico.

**History:** Originally enacted in 1991.

## PREMIUM TAX IN LIEU OF ALL OTHER TAXES EXCEPT PROPERTY TAX

**Brief Description:** Insurance companies, nonprofit health care plans, health maintenance organizations, prepaid dental plans, prearranged funeral plans, and insurance producers who are required to pay taxes, licenses, and fees under the Insurance Premium Tax Act and the Insurance Code are exempt from all other taxes, licenses, fees imposed by the state or a political subdivision with exceptions. These exceptions include the payment of property tax and income tax for insurance producers. "Insurance producers" is the equivalent term for "insurance agents."

**Statutory Basis:** 59A-6-6 NMSA 1978

**Intended Purpose:** To avoid taxation under multiple programs as qualification for the exemption is dependent on paying premium taxes, licenses, or fees under the Insurance Premium Tax Act and the Insurance Code.

**History:** Original enacted in 1984 and amended in 1987, 1988, 2016 and 2018.

## PROCESSORS TAX PAID ON NATURAL RESOURCES EXEMPTION FROM RESOURCES TAX

**Brief Description:** The taxable value of any natural resource that is processed in New Mexico and on whose taxable value the processors tax is paid is exempt from the resources tax.

**Statutory Basis:** 7-25-7 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple tax programs, as the processors tax on the processed natural resource must be paid to qualify for the exemption.

**History:** Originally enacted in 1966.

# PROCESSING NATURAL GAS DEDUCTION FROM OIL AND GAS EMERGENCY SCHOOL TAX

**Category:** Highly Specialized Industry

**Brief Description:** The reasonable expense of processing natural gas when the actual price is determined at a point other than the production unit is deductible from the Oil and Gas Emergency School Tax.

**Statutory Basis:** 7-31-6 NMSA 1978

**Intended Purpose:** Presumably to incentivize the production of natural gas in New Mexico.

**History:** Originally enacted in 1959 and amended in 2025. Regulations, including 3.18.6.10 NMAC, were enacted to set values for the products that are commensurate with the actual price received for products of like quality, character, and use which are severed in the same field or area.

**Evaluation:** In conjunction with factors such as natural gas prices and advances in exploration technology, this deduction has increased over time, in par with natural gas production. This deduction appears to be achieving its presumed purpose.

Similar deductions exist in regulations under the Oil and Gas Conservation Tax Act, the Oil and Gas Ad Valorem Production Tax Act, and the Oil and Gas Severance Tax Act. The deductions in those statutes are considered non-expenditures because the incidence of the tax is on products severed. The product must be transported from the well to be processed and then sold in the marketplace. Once it reaches its point of sale, the product becomes taxable.

**Recommendations:** None

**Reliability Factor:** 1 – Processing deductions are separately reported by product type to the Department. No estimation is required.

**Fiscal Impact:**

| **Natural Gas Processing Deduction from Oil and Gas Emergency School Tax** | **Fiscal Year** | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | **Expenditure (thousands)** | $46,112 | $52,254 | $60,083 |

## PRODUCTS ALREADY TAXED
## EXEMPTION FROM OIL AND GAS AD VALOREM PRODUCTION TAX

**Brief Description:** The tax shall not be levied more than once on the same product.

**Statutory Basis:** 7-32-8 NMSA 1978

**Intended Purpose:** To avoid double taxation.

**History:** Originally enacted in 1959.

## PRODUCTS ALREADY TAXED
## EXEMPTION FROM OIL AND GAS CONSERVATION TAX

**Brief Description:** The tax shall not be levied more than once on the same product.

**Statutory Basis:** 7-30-8 NMSA 1978

**Intended Purpose:** To avoid double taxation.

**History:** Originally enacted in 1959 and amended in 1989.

## PRODUCTS ALREADY TAXED
## EXEMPTION FROM OIL AND GAS EMERGENCY SCHOOL TAX

**Brief Description:** The tax shall not be levied more than once on the same product.

**Statutory Basis:** 7-31-8 NMSA 1978

**Intended Purpose:** To avoid double taxation.

**History:** Originally enacted in 1959 and amended in 2025.

## PRODUCTS ALREADY TAXED
## EXEMPTION FROM OIL AND GAS SEVERANCE TAX

**Brief Description:** The tax shall not be levied more than once on the same product.

**Statutory Basis:** 7-29-5 NMSA 1978

**Intended Purpose:** To avoid double taxation.

**History:** Originally enacted in 1959 and amended in 2025.

## PRODUCTS SUBJECT TO OIL AND GAS EMERGENCY SCHOOL TAX
## EXEMPTION FROM GRT

**Brief Description:** Unless the sale of products is for: (1) subsequent resale in the ordinary course of business, (2) consumption outside the state, or (3) use as an ingredient or component part of a manufactured product, receipts from the sale of products are exempt from GRT when they are subject to the oil and gas emergency school tax.

The storage or use of crude oil, natural gas or liquid hydrocarbons for fuel in the operation of a production unit, as defined in the Oil and Gas Emergency School Tax Act, will not be subject to gross receipts tax or compensating tax.

**Statutory Basis:** 7-9-33 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple tax programs, as the exemption only applies to those severed products that are subject to the tax imposed by the Oil and Gas Emergency School Tax Act.

**History:** Originally enacted in 1969 and amended in 1975, 1984, and 1989.

## PURCHASE FOR RESALE
## EXEMPTION FROM LOCAL LIQUOR EXCISE TAX

**Brief Description:** Purchases for sale to retailers for resale are exempt from the local liquor excise tax.

**Statutory Basis:** 7-24-13 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding and define the tax base.

**History:** Originally enacted in 1989.

## PURCHASE OF UNDYED GASOLINE FOR CERTAIN OFF-ROAD USE REFUND OF GASOLINE TAX

**Brief Description:** A person using gasoline in the operation of a clothes cleaning establishment, in stoves or other appliances burning gasoline, or operators of aircraft using aviation gasoline exclusively in the operation of aircraft may purchase undyed gasoline and may claim a refund of gasoline tax paid.

**Statutory Basis:** 7-13-17 NMSA 1978

**Intended Purpose:** Presumably to recognize that these activities do not contribute to the deterioration of the roads, the maintenance of which is funded through the gasoline tax distributions to the State Road Fund.

**History:** Originally enacted in 1998.

## PURCHASES BY OR ON BEHALF OF THE STATE GRT DEDUCTION

**Brief Description:** Receipts from the sale of property or services purchased by or on behalf of the State of New Mexico from funds obtained from the forfeiture of financial assurance pursuant to the New Mexico Mining Act or the forfeiture of financial responsibility pursuant to the Water Quality Act are deductible from gross receipts.

**Statutory Basis:** 7-9-97 NMSA 1978

**Intended Purpose:** Presumably to relieve mining companies from the obligation to estimate (and potentially overpay) the GRT cost incurred by a third-party contractor that would complete the reclamation work on behalf of the state in the event the company failed to conduct the reclamation work.

**History:** Originally enacted in 2005.

# REASONABLE EXPENSE OF TRUCKING PRODUCT TO MARKET DEDUCTION FROM OIL AND GAS EMERGENCY SCHOOL TAX

**Category:** Highly Specialized Industry

**Brief Description:** The reasonable expense of trucking any product from the production unit to the first place of market is deductible from the Oil and Gas Emergency School Tax.

**Statutory Basis:** 7-31-5(C) NMSA 1978

**Intended Purpose:** Presumably to incentivize the production of oil in New Mexico.

**History:** Originally enacted in 1959 and amended in 1963.

**Evaluation:** In conjunction with factors such as oil prices and advances in oil exploration technology, this deduction has increased over time, in par with oil production. This deduction appears to be achieving its presumed purpose.

Similar deductions exist under the Oil and Gas Conservation Tax Act, the Oil and Gas Ad Valorem Production Tax Act, and the Oil and Gas Severance Tax Act. The deductions in those statutes are considered non-expenditures because the incidence of the tax is on products severed. The product must be transported from the well to be processed and then taken to the market place. Once it reaches its point of sale, the product becomes taxable.

**Recommendations:** None.

**Reliability Factor:** 1 – Transportation deductions are separately reported by product type. No estimation is required.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Oil Transportation Deduction from Oil and Gas Emergency School Tax** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Expenditure (thousands)** | $5,534 | $5,790 | $4,086 |

## REASONABLE EXPENSE OF TRUCKING PRODUCT TO MARKET DEDUCTION FROM OIL AND GAS SEVERANCE TAX, OIL AND GAS CONSERVATION TAX, AND OIL AND GAS AD VALOREM PRODUCTION TAX

**Brief Description:** The reasonable expenses of trucking any product from the production unit to the first place of market is deductible from the Oil and Gas Severance and the Oil and Gas Conservation taxes

**Statutory Basis:** 7-29-4.1C , 7-30-5A(3), and 7-32-A(3) NMSA 1978

**Intended Purpose:** Presumably to define the tax base as under these statutes the incidence of the tax is on the product severed. The point of sale where the product becomes taxable is at a location other than the wellhead, which requires the associated transportation costs.

**History:** 7-29-4.1(C) was originally enacted in 1980 and amended in 1989 and 2005.

7-30-5A(3) was originally enacted in 1959 and amended in 1975, 1977, 1980, and 1985.

7-32-5A(3) was originally enacted in 1959 and amended in 1972.

## RECEIPTS OF THE FEDERAL GOVERNMENT, STATE GOVERNMENT, INDIAN NATION, OR FOREIGN NATION EXEMPTION FROM GRT

**Brief Description:** Exempted from GRT are the receipts of the United States or any associated agency, the state of New Mexico and associated subdivisions, any Indian nation, tribe or pueblo from transactions occurring on its sovereign territory and any foreign nation when required by a treaty with the United States. The exemption excludes receipts from the sale of gas or electricity by a utility owned by a local government or subdivision of the state, as well as receipts from the operation of a cable television system owned or operated by a municipality. These receipts are subject to the gross receipts tax.

**Statutory Basis:** 7-9-13 NMSA 1978

**Intended Purpose:** To establish the tax base and avoid double taxation with the Governmental Gross Receipts Tax where applicable. In addition, the State is preempted from imposing taxes on the U.S. government, Indian nations, tribes or pueblos, or foreign nations.

**History:** Originally enacted in 1969 and amended in 1991, 1993, 1994 and 1998.

## REFINERS AND PERSONS SUBJECT TO NATURAL GAS PROCESSORS TAX EXEMPTION FROM GRT AND COMPENSATING TAX

**Brief Description:** Unless the sale or processing of products are for (1) subsequent resale in the ordinary course of business, (2) consumption outside the state, or (3) use as an ingredient or component part of a manufactured product, receipts from the sale or processing of products that are subject to the natural gas processors tax are exempt from the GRT.

Receipts from storing or using crude oil, natural gas, or liquid hydrocarbons when stored or used in New Mexico by a "processor" or by a person engaged in the business of refining oil, natural gas, or liquid hydrocarbons who stores or uses the crude oil, natural gas, or liquid hydrocarbons in the regular course of his refining business are exempt from GRT and compensating tax.

**Statutory Basis:** 7-9-34 NMSA 1978

**Intended Purpose:** Presumably to define the tax base with respect to the first part of the exemption which only applies to the sale or processing of products the processing of which is subject to the natural gas processors tax. The second part of the exemption is presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1970, 1975, 1984, and 1989.

## RELIGIOUS ACTIVITIES EXEMPTION FROM GRT

**Brief Description:** Receipts of a minister of a 501(c)(3) religious organization from performing religious services to an individual recipient of the service are exempt from GRT.

**Statutory Basis:** 7-9-41 NMSA 1978

**Intended Purpose:** Presumably to prevent taxation of expenses that are effectively business inputs of a 501(c)(3) religious organization.

**History:** Originally enacted in 1972.

## RESALE ACTIVITIES OF AN ARMED FORCES INSTRUMENTALITY EXEMPTION FROM GRT AND COMPENSATING TAX

**Brief Description:** Receipts from selling tangible personal property and the use of property by any instrumentality of the armed forces of the United States engaged in resale activities are exempt from GRT and compensating tax.

**Statutory Basis:** 7-9-31 NMSA 1978

**Intended Purpose:** To comply with the federal preemption doctrine and to reduce tax pyramiding.

**History:** Originally enacted in 1969.

## RETURNED OR DESTROYED TOBACCO PRODUCTS REFUND OR CREDIT AGAINST TOBACCO PRODUCTS TAX

**Brief Description:** Taxpayers who have paid the tobacco products tax on tobacco products that are destroyed or returned to the seller by the first purchaser as spoiled or otherwise unfit for sale or consumption are entitled to a refund or credit against the tobacco products tax.

**Statutory Basis:** 7-12A-6 NMSA 1978

**Intended Purpose:** Presumably to define the tax base and avoid requiring a taxpayer to pay taxes on unusable tobacco products that have no value.

**History:** Originally enacted in 1986 and amended in 1988.

# ROYALTIES PAID OR DUE TO THE US, STATE OF NM, OR ANY INDIAN TRIBE, PUEBLO, OR WARD OF THE US DEDUCTION FROM OIL AND GAS SEVERANCE TAX, OIL AND GAS CONSERVATION TAX, OIL AND GAS EMERGENCY SCHOOL TAX, AND OIL AND GAS AD VALOREM PRODUCTION TAX

**Brief Description:** Royalties paid or due the United States, any Indian tribe, Indian pueblo, or Indian that is a ward of the United States of America, or the state of New Mexico may be deducted from the value of the product severed.

**Statutory Basis:** 7-29-4.1A, 7-29-4.1B, 7-30-5A(1), 7-30-5A(2), 7-31-5A, 7-31-5B, 7-32-5A(1) and 7-32-5A(2) NMSA 1978

**Intended Purpose:** Because the State is preempted from imposing taxes on the U.S. government, Indian Tribes or Pueblos, and to prevent the State from taxing itself.

**History:** 7-29-4.1A and 7-29-4.1B were originally enacted in 1980 and amended in 1989 and 2005.

7-30-5A(1) and 7-30-5A(2) were originally enacted in 1959 and amended in 1975, 1977, 1980, 1985, and 2005.

7-31-5A and 7-31-5B were originally enacted in 1959 and amended in 1963.

7-32-5A(1) and 7-32-5A(2) were originally enacted in 1959 and amended in 1972.

## SALE OF A SERVICE FOR RESALE GRT AND GGRT DEDUCTION

**Brief Description:** Receipts from selling a service for resale are deductible from gross receipts or governmental gross receipts.

**Statutory Basis:** 7-9-48 NMSA 1978

**Intended Purpose:** Presumably to define the tax base and avoid tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1992, 2000, and 2021.

The 2000 amendment clarified that the resale must be subject to the GRT or GGRT to qualify for the deduction and removed the requirement that the buyer separately state the value of the service purchased in the buyer's charge for the service on its subsequent sale.

The 2021 amendment clarifies that, in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction.

## SALE OF A SERVICE FOR RESALE DEDUCTION FROM ITGRT

**Brief Description:** Receipts from providing an interstate telecommunications service that will be used by other persons in providing telephone or telegraph services to the final user are deductible from interstate telecommunications gross receipts.

**Statutory Basis:** 7-9C-7 NMSA 1978

**Intended Purpose:** Presumably to define the tax base.

**History:** Originally enacted in 1992 and amended in 1998 and 2025.

## SALE OF ALTERNATIVE FUEL TO THE FEDERAL GOVERNMENT OR NEW MEXICO TRIBES EXEMPTION FROM ALTERNATIVE FUEL EXCISE TAX

**Brief Description:** Alternative fuel distributed to or used by the United States government, or Indian nation, tribe or pueblo, is exempt from the imposition of the alternative fuel excise tax.

**Statutory Basis:** 7-16B-5 (A) and (C) NMSA 1978

**Intended Purpose:** Presumably to comply with the federal preemption doctrine and to address multi-jurisdictional taxation as the Indian nation, tribe or pueblo, may impose a tax on alternative fuel.

**History:** Originally enacted in 1995.

## SALE OF CERTAIN TELECOMMUNICATIONS SERVICES EXEMPTION FROM GRT

**Brief Description:** Exempted from GRT are the receipts of a home service provider from selling mobile telecommunications services to persons whose place of primary use is outside New Mexico, regardless of where the services originate, terminate, or pass through.

**Statutory Basis:** 7-9-38.2 NMSA 1978

**Intended Purpose:** Presumably to avoid double taxation.

**History:** Originally enacted in 2002.

## SALE OF GASOLINE AT RETAIL BY A REGISTERED INDIAN TRIBAL DISTRIBUTOR DEDUCTION FROM GASOLINE TAX

**Brief Description:** Gasoline received in New Mexico and sold at retail by a registered Indian tribal distributor is deductible from the gasoline tax to the extent it's taxed by the Indian nation, tribe, or pueblo, if:

(1) the sale occurs on the distributor's Indian reservation, pueblo grant, or trust land,

(2) the gasoline is placed into the fuel supply tank of a motor vehicle on that reservation, pueblo grant, or trust land, and

(3) the Indian nation, tribe, or pueblo has certified that it has in effect an excise, privilege, or similar tax on the gasoline

**Statutory Basis:** 7-13-4(E) NMSA 1978

**Intended Purpose:** To prevent or reduce the effects of multi-jurisdictional taxation.

**History:** The section was originally enacted in 1991 and amended in 1997, 1998, 1999 and 2007.

The language in this subsection was created by an amendment in 1999.

## SALE OF GASOLINE BY A REGISTERED INDIAN TRIBAL DISTRIBUTOR FROM A NON-MOBILE STORAGE CONTAINER DEDUCTION FROM GASOLINE TAX

**Brief Description:** Gasoline received in New Mexico and sold by a registered Indian tribal distributor from a non-mobile storage container within the distributor's Indian reservation, pueblo grant, or trust land for resale outside the Indian reservation, pueblo grant, or trust land is deductible from the gasoline tax as long as the distributor sold at least 1 million gallons of gasoline between May and August 1998 and that the amount of gasoline deducted by a registered Indian tribal distributor doesn't exceed 2.5 million gallons per month.

**Statutory Basis:** 7-13-4(F) NMSA 1978

**Intended Purpose:** Presumably to prevent and reduce the effects of multi-jurisdictional taxation.

**History:** The section was originally enacted in 1991 and amended in 1997, 1998, 1999, and 2007.

The language in this subsection was created by an amendment in 1999.

## SALE OF GASOLINE TO THE FEDERAL GOVERNMENT OR NEW MEXICO TRIBES DEDUCTION FROM GASOLINE TAX

**Brief Description:** Receipts from gasoline received in New Mexico, sold to the United States, Indian nation, tribe or pueblo, may be deducted from the gasoline tax.

**Statutory Basis:** 7-13-4 (B) and (C) NMSA 1978

**Intended Purpose:** Presumably to comply with the federal preemption doctrine.

**History:** Originally enacted in 1991.

## SALE OF SPECIAL FUEL SOLD TO THE FEDERAL GOVERNMENT OR NEW MEXICO TRIBES DEDUCTION FROM SPECIAL FUEL EXCISE TAX

**Brief Description:** Special fuel sold to the United States government, Indian nation, tribe or pueblo, may be deducted from the total amount of special fuel excise tax.

**Statutory Basis:** 7-16A-10 (B) and 7-16A-10 (D) NMSA 1978

**Intended Purpose:** Presumably to comply with the federal preemption doctrine and to address multi-jurisdictional taxation as the Indian nation, tribe or pueblo, may impose a tax on alternative fuel.

**History:** Originally enacted in 1992 and amended in 1993, 1997, and 1998.

## SALE OF TANGIBLE PERSONAL PROPERTY FOR LEASING GRT DEDUCTION

**Brief Description:** Receipts from selling tangible personal property and licenses to a buyer who leases or sells the tangible personal property or license are deductible from gross receipts.

The buyer must present a non-taxable transaction certificate or alternative evidence to the seller.

**Statutory Basis:** 7-9-49 NMSA 1978

**Intended Purpose:** Presumably to define the tax base and avoid tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1972, 1975, 1979, 1983, 1989, 1991, 1992, and 2021.

The 2021 amendment clarifies that in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction.

## SALE OF TANGIBLE PERSONAL PROPERTY FOR RESALE GRT AND GGRT DEDUCTION

**Brief Description:** Receipts from selling tangible personal property or licenses to a buyer who resells the tangible personal property or license are deductible from gross receipts or from governmental gross receipts.

The buyer must present a non-taxable transaction certificate or alternative evidence to the seller.

**Statutory Basis:** 7-9-47 NMSA 1978

**Intended Purpose:** Presumably to define the tax base and avoid tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1992, 1994, and 2021.

The 2021 amendment clarifies that in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction.

# SALES OF TANGIBLE PERSONAL PROPERTY OR SERVICES EXEMPTION FROM GGRT

**Brief Description:** Receipts from transactions involving tangible personal property or services that are subject to GRT, compensating tax, motor vehicle excise tax, gasoline tax, special fuel tax, special fuel excise tax, oil and gas emergency school tax, resources tax, processors tax, service tax, or the boat excise tax imposed under 66-12-6.1 NMSA 1978 are exempt from GGRT.

**Statutory Basis:** 7-9-13.2 NMSA 1978

**Intended Purpose:** To avoid double taxation.

**History:** Originally enacted in 1992 and amended in 1993, adding the special fuel excise tax.

# SALES TO MANUFACTURERS
# GRT AND GGRT DEDUCTION

**Brief Description:** Receipts from selling tangible personal property that will be incorporated as an ingredient or component part to a person in the manufacturing business are deductible from gross receipts and governmental gross receipts. (7-9-46(A))

Receipts from selling a manufacturing consumable to a person in the manufacturing business or a manufacturing service provider are deductible from gross receipts and governmental gross receipts. (7-9-46(B))

Receipts from selling or leasing qualified equipment to a person in the manufacturing business or a manufacturing service provider are deductible from gross receipts and governmental gross receipts. (7-9-46(C))

**Statutory Basis:** 7-9-46 NMSA 1978

**Intended Purpose:** The purpose of the deductions is to encourage manufacturing businesses to locate in New Mexico and to reduce the tax burden, including reducing pyramiding, on the tangible personal property that is consumed in the manufacturing process and that is purchased by manufacturing businesses in New Mexico.

**History:** Originally enacted in 1969 and amended in 1992, 2012, 2013, 2021, 2023, and 2025.

The 2013 amendment defined the term "consumable."

One 2021 amendment clarified that in addition to non-taxable transaction certificates, taxpayers may present alternative evidence to claim the deduction, and expanded the deduction to include manufacturing services and the selling and leasing of manufacturing equipment. The 2023 amendment further clarified when alternative evidence may be used. The 2025 amendment revised reporting requirements.

**Reliability Factor:** 2 - This deduction is separately reported. No estimation is required. Despite being a separately reported deduction, the reliability factor for this deduction is a 2 to reflect that some taxpayers may be claiming this deduction in error. Tax & Rev will be further analyzing this data and taxpayer reporting of GRT deductions.

**Fiscal Impact:**

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Sales to Manufacturers GRT Deduction – Total** | **Taxpayers** | 919 | 2,882 | 2,509 |
| | **State General Fund Expenditure (thousands)** | $90,601 | $200,788 | $269,721 |
| | **Local Government Expenditure (thousands)** | $58,699 | $131,592 | $176,769 |
| **GRT Deduction – Ingredient or Component (Subsection A.)** | **Taxpayers** | 544 | 1,562 | 1,406 |
| | **State General Fund Expenditure (thousands)** | $39,930 | $100,504 | $136,117 |
| | **Local Government Expenditure (thousands)** | $25,870 | $65,868 | $89,208 |
| **GRT Deduction – Consumable (Subsection B.)** | **Taxpayers** | 286 | 833 | 720 |
| | **State General Fund Expenditure (thousands)** | $48,996 | $89,598 | $121,602 |
| | **Local Government Expenditure (thousands)** | $31,744 | $58,721 | $79,696 |
| **GRT Deduction – Selling or leasing of equipment (Subsection C.)** | **Taxpayers** | 89 | 487 | 383 |
| | **State General Fund Expenditure (thousands)** | $1,675 | $10,686 | $12,001 |
| | **Local Government Expenditure (thousands)** | $1,085 | $7,003 | $7,865 |

## SCHOOL BUS
## DEDUCTION FROM SPECIAL FUEL EXCISE TAX

**Brief Description:** Special fuel (number 2 diesel) used in school buses that are contracted with the Public Education Department is deductible from computing the special fuel excise tax due.

**Statutory Basis:** 7-16A-10(F) NMSA 1978

**Intended Purpose:** Presumably to define the tax base.

**History:** Originally enacted in 1992, 1993, 1997, 1998, 2001, 2005, 2006, 2007, 2009, and 2013.

## SCHOOL BUS
## EXEMPTION FROM WEIGHT DISTANCE TAX

**Brief Description:** Use of the highways of New Mexico by school buses is exempt from the WDT.

**Statutory Basis:** 7-15A-5(A) NMSA 1978

**Intended Purpose:** Presumably to define the tax base.

**History:** Originally enacted in 1988 and amended in 2006.

## SERVICES ON MANUFACTURED PRODUCTS
## GRT DEDUCTION

**Brief Description:** Receipts from selling the service of combining or processing components or materials to a manufacturer are deductible from gross receipts. The service must be performed directly upon the tangible personal property the buyer is in the business of manufacturing or upon the ingredient or component parts thereof.

The buyer must present a non-taxable transaction certificate to the seller.

**Statutory Basis:** 7-9-75 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding as the service must be performed directly upon tangible personal property for a manufacturer as part of the readying of raw materials or in the manufacturing process.

**History:** Originally enacted in 1972.

## SERVICES PERFORMED OUTSIDE THE STATE CREDIT AGAINST INTERSTATE TELECOMMUNICATIONS GRT

**Brief Description:** A taxpayer who has paid a sales, use, gross receipts, or similar tax to another state on the same interstate telecommunications gross receipts that are subject to New Mexico's ITGRT is entitled to a credit against the ITGRT.

**Statutory Basis:** 7-9C-10 NMSA 1978

**Intended Purpose:** To comply with U.S. Commerce Clause concerns and prevent actual multi-jurisdictional taxation of the privilege of engaging in the business of providing interstate telecommunications services.

**History:** Originally enacted in 1992.

## STOCK BONUS, PENSION, AND PROFIT-SHARING TRUSTS EXEMPTION FROM PIT AND CIT

**Brief Description:** A trust organized or created in the U.S. and forming part of a stock bonus, pension, or profit-sharing plan of an employer for the exclusive benefit of employees or beneficiaries, which is exempt from taxation under the provisions of the Internal Revenue Code, is exempt from PIT and CIT.

**Statutory Basis:** 7-2-4(A) and 7-2A-4(B) NMSA 1978

**Intended Purpose:** To define the tax base.

**History:** The PIT exemption was originally enacted in 1965 and amended in 1969, 1971, and 1981.

The CIT exemption was originally enacted in 1981 and amended in 1986 and 1989.

# STADIUM SURCHARGE
# EXEMPTION FROM GRT AND GGRT

**Brief Description:** Receipts from sales at a minor league baseball stadium for which a stadium surcharge is imposed under the Minor League Baseball Stadium Funding Act are exempt from gross receipts tax and governmental gross receipts tax.

**Statutory Basis:** 7-9-13.3 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple tax programs.

**History:** Originally enacted in 2001 as part of the legislation that enacted the Minor League Baseball Stadium Funding Act.

**Evaluation:** The Minor League Baseball Stadium Funding Act provides an additional method of accessing the capital markets with the assistance of the New Mexico Finance Authority to meet the need for a complete funding package for functional and modern minor league baseball stadiums. Because the Minor League Baseball Stadium Funding Act allows a municipality to impose a stadium surcharge on products and services sold at or related to the stadium, this exemption from the GRT prevents these from being taxed twice.

Isotopes Park, home of the Albuquerque Isotopes, was constructed from 2001 to 2003 at a reported cost of $25 million. The park opened in April of 2003.

# SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM EXEMPTION FROM GRT

**Brief Description:** Receipts of retailers from the redemption of Supplemental Nutrition Assistance Program (SNAP) benefits are exempt from GRT.

**Statutory Basis:** 7-9-18.1 NMSA 1978

**Intended Purpose:** This program is not considered a tax expenditure because the Code of Federal Regulations Title 7, Subtitle B, Chapter II C, §278.2 prohibits the state from taxing food purchased with SNAP benefits. The intended purpose is to lower the cost of food for those who qualify and redeem SNAP benefits.

**History:** Originally enacted in 1987 and amended in 2025 to reflect the current name of the Supplemental Nutrition Assistance Program.

**Evaluation:** To comply with the federal preemption doctrine. This exemption only applies when a SNAP recipient does not buy food from one of 1,541 qualified SNAP points of sale in the state. Because of this, the estimated amount for this exemption are relatively small when compared to the total amount of SNAP benefits as reported by HCA.

**Recommendations:** None.

**Reliability Factor:** 3 – Using expenditure and case number data from HCA between FY2023 and FY2025, the annual average GRT rate was applied to the annual dollar amounts of SNAP expenditures. To estimate the amounts of these expenditures, Tax & Rev assumed a 4% exemption rate. This exemption applies when SNAP benefits are used to purchase food from a qualified food retail store. Therefore, receipts under Section 7-9-92 NMSA 1978 may not be deducted if they are exempted by Section 7-9-18.1 NMSA 1978.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **SNAP Exemption from GRT** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **Expenditure (thousands)** | $4,197 | $2,855 | $2,825 |

## TANGIBLE PERSONAL PROPERTY EXEMPTION FROM PROPERTY TAX

**Brief Description:** With certain exceptions, tangible personal property owned by a person is exempt from property taxation. Exceptions include among other things, livestock, manufactured homes and tangible personal property used for the purpose of a person's profession, business or occupation.

**Statutory Basis:** 7-36-8 NMSA 1978

**Intended Purpose:** Presumably to define the tax base for property tax.

**History:** Originally enacted in 1973 and amended in 1974, 1975, 1983, 1991, 1992, 1993, and 1995.

## TAX PAID BY OUT-OF-STATE TERMINAL DEDUCTION FROM GASOLINE TAX AND SPECIAL FUEL EXCISE TAX

**Brief Description:** Gasoline and special fuel received in New Mexico on which the New Mexico gasoline tax or special fuel excise tax was paid by the out-of-state terminal at which the gasoline or special fuel was loaded are deductible from computing the gasoline tax or special fuel excise tax due.

**Statutory Basis:** 7-13-4(G) and 7-16A-10(G) NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple tax regimes as it is only deductible if the gasoline tax or special fuel excise tax was paid by the out-of-state terminal at which the gasoline was loaded.

**History:** The gasoline tax section was originally enacted in 1991 and amended in 1997, 1998, 1999, and 2007.

The special fuel excise tax section was originally enacted in 1992 and amended in 1993, 1997, 1998, 2001, 2005, 2006, 2007, 2009, and 2013.

The subsections containing the gasoline tax and the special fuel excise tax deductions discussed here were created by an amendment in 2007.

## TAX PAID IN ANOTHER STATE FOR PROPERTY AND SERVICES CREDIT AGAINST GRT AND COMPENSATING TAX

**Brief Description:** The amount of gross receipts, sales, compensating, or similar tax paid to another state on property acquired in that state or another state for use in New Mexico or on services performed outside this state may be credited against the amount of compensating tax due to New Mexico on the use of the property or the GRT due on the services performed outside New Mexico.

**Statutory Basis:** 7-9-79 and 7-9-79.1 NMSA 1978

**Intended Purpose:** Presumably to address U.S. Commerce Clause concerns and prevent multi-jurisdictional taxation as gross receipts, sales, compensating, or similar tax must have been levied on the property or services to qualify for the credit.

**History:** The compensating tax credit for property was originally enacted in 1966 and amended in 1973, 1991 and 2021. The 2021 amendment adds services for the compensating credit.

The GRT credit for services was originally enacted in 1989 and amended in 1994.

## TAX PAID ON ALCOHOLIC BEVERAGES DESTROYED IN SHIPMENT, SPOILED, OR OTHERWISE DAMAGED REFUND OF OR CREDIT AGAINST LIQUOR EXCISE TAX AND LOCAL LIQUOR EXCISE TAX

**Brief Description:** Taxpayers are entitled to a refund or credit for taxes paid pursuant to the liquor excise tax and the local liquor excise tax on alcoholic beverages that are unsaleable and not consumable because they are destroyed in shipment, spoiled, or damaged.

**Statutory Basis:** 7-17-11 and 7-24-14 NMSA 1978

**Intended Purpose:** Presumably to define the tax base, by avoiding taxation of a product that is not available to be sold.

**History:** The liquor excise tax provision was originally enacted in 1968 and amended in 1969, 1971, 1973, 1977, 1984, and 1995.

The local liquor excise tax provision was originally enacted in 1989.

## TAX PAID ON GASOLINE OR SPECIAL FUEL DESTROYED BY FIRE, ACCIDENT OR ACTS OF GOD BEFORE RETAIL SALE REFUND OF OR CREDIT AGAINST GASOLINE TAX AND SPECIAL FUEL EXCISE TAX

**Brief Description:** A taxpayer is entitled to a refund of, or credit against, the gasoline tax and special fuel excise tax paid on gasoline and special fuel that is destroyed by fire, accident, or acts of God while in the possession of the distributor, wholesaler, or retailer.

**Statutory Basis:** 7-13-11 and 7-16A-13 NMSA 1978

**Intended Purpose:** Presumably to ensure that tax isn't paid on gasoline and special fuel which the taxpayer is unable to market.

**History:** The gasoline tax credit and refund section was originally enacted in 1971 and amended in 1983, 1993 and 2015.

The special fuel excise tax credit and refund section was originally enacted in 1992 and amended in 2015.

## TAX PAID ON SPECIAL FUEL IN CERTAIN CIRCUMSTANCES REFUND OF SPECIAL FUEL EXCISE TAX

**Brief Description:** A taxpayer is entitled to a refund of the special fuel excise tax paid on special fuel used:

(1) in a school bus authorized by contract with the Public Education Department,

(2) to propel a vehicle off-road,

(3) to operate auxiliary equipment by a power take-off from the main engine or transmission of a vehicle, or

(4) to operate a non-automotive apparatus vehicle.

**Statutory Basis:** 7-16A-13.1 NMSA 1978

**Intended Purpose:** Presumably, in the case of the school bus refund, to reduce the costs to the government and to recognize that the other activities do not contribute to the deterioration of the roads, the maintenance of which is funded through the special fuel excise tax distributions to the State Road Fund.

**History:** Originally enacted in 2001 and amended in 2005 and 2006.

## TAX PAID TO ANOTHER STATE
## CREDIT AGAINST MVX

**Brief Description:** A vehicle that has been acquired through an out-of-state transaction upon which a gross receipts, sales, compensating, or similar tax was paid may be credited against the MVX due to New Mexico on the same vehicle.

**Statutory Basis:** 7-14-7(A) NMSA 1978

**Intended Purpose:** Presumably to prevent multi-jurisdictional taxation.

**History:** Originally enacted in 1988.

## TAX PAID TO ANOTHER STATE
## DEDUCTION FROM GASOLINE TAX AND SPECIAL FUEL EXCISE TAX

**Brief Description:** A taxpayer may deduct gasoline and special fuel when computing the gasoline tax and special fuel excise tax if it is exported from New Mexico by a rack operator, distributor, or wholesaler as long as:

(1) the person exporting the gasoline and special fuel is registered in or licensed by the destination state to pay that state's gasoline or equivalent fuel tax,

(2) proof is submitted that the destination state's gasoline, special fuel, or equivalent fuel tax has been paid or is not due, or

(3) the destination state's gasoline, special fuel, or equivalent fuel tax is paid to New Mexico in accordance with the terms of an agreement with the destination state.

**Statutory Basis:** 7-13-4(A) and 7-16A-10(A) NMSA 1978

**Intended Purpose:** Presumably to prevent multi-jurisdictional taxation as the deduction is only available if proof is submitted that the destination state's gasoline tax was paid or is not due.

**History:** The gasoline tax deduction was originally enacted in 1991 and amended in 1997, 1998, 1999, and 2007.

The special fuel excise tax deduction was originally enacted in 1992 and amended in 1993, 1997, 1998, 2001, 2005, 2006, 2007, 2009, and 2013.

## TAX PAID TO ANOTHER STATE CREDIT AGAINST ESTATE TAX

**Brief Description:** A credit against the estate tax is available when any property of a resident is subject to an estate tax imposed by another state when the other state's tax does not have a reciprocal provision. The credit amount would be for the lesser of:

(1) the amount of the estate tax paid to the other state and credited against the federal estate tax, or

(2) an amount computed by multiplying the federal credit by the percentage of the estate the property represents.

**Statutory Basis:** 7-7-3(B) NMSA 1978

**Intended Purpose:** Presumably to prevent multi-jurisdictional taxation, as it is only available to the extent that taxes were paid to another state.

**History:** Originally enacted in 1973.

## TAX PAID TO NAVAJO NATION FOR SELLING COAL SEVENTY-FIVE PERCENT CREDIT AGAINST GRT

**Brief Description:** A taxpayer is entitled to a credit against the GRT for 75% of the amount of tax paid to the Navajo Nation on the receipts from selling the coal severed from Navajo Nation land.

**Statutory Basis:** 7-9-88.2 NMSA 1978

**Intended Purpose:** To recognize the sovereignty of Indian nations, tribes, and pueblos and to address issues with multi-jurisdictional taxation.

**History:** Originally enacted in 2001.

## TAX PAID TO NEW MEXICO TRIBES CREDIT AGAINST MVX

**Brief Description:** A taxpayer may receive a credit against MVX if a vehicle is purchased on reservation, trust land, or within an Indian nation, tribe or pueblo upon which a gross receipts, sales, compensating or similar tax was levied by the Indian nation, tribe or pueblo. The amount of tax paid may be credited against the MVX due on the same vehicle.

**Statutory Basis:** 7-14-7(B) NMSA 1978

**Intended Purpose:** Presumably to address multi-jurisdictional taxation as the credit may only be taken if the Indian nation, tribe or pueblo has levied a tax on the sale of a vehicle.

**History:** Originally enacted in 2022.

## TAX PAID TO NEW MEXICO TRIBES EXEMPTION FROM ITGRT

**Brief Description:** Excluded from the definition of "interstate telecommunications gross receipts" are gross receipts or sales taxes imposed by Indian nations, tribes, or pueblos as long as the Indian nation, tribe, or pueblo tax provides a reciprocal exclusion for GRT imposed by New Mexico.

**Statutory Basis:** 7-9C-2(E)(2) NMSA 1978

**Intended Purpose:** Presumably to avoid multi-jurisdictional taxation.

**History:** Originally enacted in 1992 and amended in 1993 and 2002.

## TAX PAID TO NEW MEXICO TRIBES
## SEVENTY-FIVE PERCENT CREDIT AGAINST GRT

**Brief Description:** A taxpayer is entitled to a credit against the GRT for 75% of the amount of tax paid to any of the 19 New Mexico Pueblos, the Jicarilla Apache Nation or the Mescalero Apache Tribe on taxable transactions taking place on tribal lands. The tax levied by the tribe must be similar in nature to GRT, does not discriminate by transaction and provides a credit against the tribe's tax equal to the lesser of 25% of the tax imposed by the tribe or the amount of revenue produced by total state and local GRT rates imposed on the same transaction.

**Statutory Basis:** 7-9-88.1 NMSA 1978

**Intended Purpose:** Presumably to prevent multi-jurisdictional taxation.

**History:** Originally enacted in 1999 and amended in 2000, 2001, 2003 and 2023.

The 2023 amendment removed the limitation on the tax levied by the tribe that is must be at a rate not greater than the total of the state and local option gross receipts tax rates applicable to the transaction within the boundaries of the tribe.

## TAXES PAID TO OTHER STATES
## CREDIT AGAINST PIT

**Brief Description:** When a resident individual is liable to another state for tax upon income derived from sources outside New Mexico but also included in net income allocated or apportioned to New Mexico, the individual is entitled to a credit against the tax due to New Mexico in the amount of the tax paid to the other state.

**Statutory Basis:** 7-2-13 NMSA 1978

**Intended Purpose:** To prevent multi-jurisdictional taxation.

**History:** Originally enacted in 1965 and amended in 1970, 1973, 1974, 1981, 1990, 1992, and 2013.

The 2013 amendment limited the tax credit paid to the amount of tax liability in New Mexico.

## TELECOMMUNICATION PROVIDERS
## DEDUCTION FROM INTERSTATE TELECOMMUNICATIONS GRT

**Brief Description:** Receipts from interstate telecommunications services that are provided by a corporation to itself or to an affiliated corporation may be deducted from interstate telecommunications gross receipts.

**Statutory Basis:** 7-9C-8 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1992 and amended in 1993.

## TRADE-IN ALLOWANCE
## GRT, MVX, AND DEDUCTIONS

**Brief Description:** Receipts from a trade-in of tangible personal property of the same type being sold are deductible from gross receipts; allowances granted for vehicle trade-ins are deductible from the price paid or the reasonable value of the vehicle purchased in calculating the MVX and the LVGRT.

**Statutory Basis:** 7-9-71, 7-14-4 and 7-14A-8 NMSA 1978

**Intended Purpose:** Presumably to properly define the tax base.

**History:** The GRT deduction was originally enacted in 1969 and amended in 1979, and 1991.

The MVX deduction was originally enacted in 1988.

The LVGRT deduction was originally enacted in 1991.

## TRANSACTIONS IN INTERSTATE COMMERCE
## GRT AND GGRT DEDUCTION

**Brief Description:** Receipts from certain transactions in interstate commerce and from sales of radio or television broadcast time if the ultimate buyer is a national or regional advertiser are deductible from gross receipts and governmental gross receipts.

**Statutory Basis:** 7-9-55 NMSA 1978

**Intended Purpose:** To comply with federal law regarding taxation of interstate commerce. U.S. Supreme Court precedent establishes the limitations on the ability of states to impose their tax on interstate commerce under the U.S. Constitution, and this deduction is based on that precedent.

**History:** Originally enacted in 1969 and amended in 1986 and 1993.

## TRANSACTIONS IN INTRASTATE TRANSPORTATION AND SERVICES IN INTERSTATE COMMERCE
## GRT DEDUCTION

**Brief Description:** Receipts incurred when transporting persons or property on an intrastate basis and under a single contract for transportation in interstate or foreign commerce (including handling, storage, drayage, or packing of property or other accessorial services on property) are deductible from gross receipts.

Receipts from telephone access charges paid by other telephone carriers are deductible.

**Statutory Basis:** 7-9-56 NMSA 1978

**Intended Purpose:** Presumably to address U.S. Commerce Clause concerns.

With regard to the telephone service portion of the deduction, the intended purpose is presumably to prevent double taxation, and to comply with federal law.

**History:** Originally enacted in 1994.

# TRANSPORTATION FROM WITHIN THE MUNICIPALITY TO OUTSIDE THE MUNICIPALITY
# EXEMPTION FROM LOCAL OPTION GRT

**Brief Description:** The transporting of persons or property for hire by any means from one point within the municipality (or county) to another point outside the municipality (or county) were exempt from the supplemental municipal GRT and the municipal local option GRT.

**Statutory Basis:** 7-19-14(A) and 7-19D-5(A) NMSA 1978

**Intended Purpose:** Presumably to resolve a jurisdictional question and provide certainty about the tax rate that applies in this situation.

**History:** The supplemental municipal GRT exemption was originally enacted in 1979 and amended in 1983, 1994 and 2019.

The municipal and county local option GRTs exemptions were originally enacted in 1993 and amended in 1994 and 2019.

The 2025 amendment removed certain obsolete language; deleted subsection designations "A" and "B"; and after "receipts arising from" deleted "prior to July 1, 2021.

# TRANSPORTATION OF NATURAL GAS DEDUCTION FROM OIL AND GAS EMERGENCY SCHOOL TAX

**Category:** Highly Specialized Industry

**Brief Description:** When the actual sale price of natural gas is determined away from the production unit, producers may deduct reasonable transportation costs from the taxable value under the Oil and Gas Emergency School Tax.

This transportation adjustment includes: gathering and pipeline charges, fuel gas, and compression costs downstream of the production unit.

Transportation must actually occur to qualify for the deduction. If payment is made in product rather than money, its value must be reported as both sale proceeds and a transportation deduction.

For affiliated transactions, deductions must follow one of three benchmarks:

(1) A regulated tariff;

(2) An arm's-length transaction from non-affiliated sales; or

(3) The prior year's actual allowable costs, including operating, maintenance, overhead, depreciation, and a reasonable return on capital

Trucking expenses cannot be deducted twice.

**Statutory Basis:** 7-31-6 NMSA 1978

**Intended Purpose:** Presumably to incentivize the production of natural gas in New Mexico.

**History:** Originally enacted in 1959. Regulations, including 3.18.6.9, were adopted that set values for the products that are commensurate with the actual price received for products of like quality, character, and use which are severed in the same field or area.

**Evaluation:** In conjunction with factors such as natural gas prices and advances in exploration technology, this deduction has increased over time, on par with natural gas production. This deduction appears to be achieving its presumed purpose.

Similar deductions exist under the Oil and Gas Conservation Tax Act, the Oil and Gas Ad Valorem Production Tax Act, and the Oil and Gas Severance Tax Act. The deductions in those statutes are considered non-expenditures because the incidence of the tax is on products severed and sold. The product must be transported from the well to be processed and then taken to the marketplace. Once it reaches its point of sale, the product becomes taxable.

**Recommendations:** None.

**Reliability Factor:** 1 – Transportation deductions are separately reported by product type. No estimation is required.

**Fiscal Impact:**

| Natural Gas Transportation Deduction from Oil and Gas Emergency School Tax | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| | Expenditure (thousands) | $56,612 | $59,930 | $72,498 |

## UNCOLLECTIBLE DEBTS
## GRT AND GGRT DEDUCTION

**Brief Description:** Refunds and allowances made to buyers or amounts written off the books as an uncollectible debt by a person reporting gross receipts tax and governmental gross receipts on an accrual basis may be deducted from gross receipts and governmental gross receipts.

**Statutory Basis:** 7-9-67 NMSA 1978

**Intended Purpose:** Presumably to avoid requiring a taxpayer to pay taxes on refunded or uncollectible receipts.

**History:** Originally enacted in 1969 and amended in 1994.

## UNPAID CHARGES FOR HOSPITAL SERVICES
## CREDIT AGAINST GRT

**Brief Description:** A licensed medical doctor or licensed osteopathic physician may claim a credit against gross receipts taxes for the value of unpaid qualified health care services. Qualified health care services must be provided by the doctor or physician while on call to a hospital.

**Statutory Basis:** 7-9-96.2 NMSA 1978

**Intended Purpose:** Presumably to avoid requiring a taxpayer to pay taxes on non-existent receipts.

**History:** Originally enacted in 2007 and amended in 2021.

The 2021 amendment clarifies that physician practice groups are eligible to claim the GRT credit, aligning the statute with regulations.

## USE OF PROPERTY AND SERVICES BY FEDERAL, STATE OR LOCAL GOVERNMENTS EXEMPTION FROM COMPENSATING TAX

**Brief Description:** Exempted from compensating tax is the use of property and services by the United States or the State of New Mexico and associated subdivisions. The exemption does not apply to the use of property for a metropolitan redevelopment project or the use of construction material.

**Statutory Basis:** 7-9-14(A) NMSA 1978

**Intended Purpose:** Presumably to define the tax base.

**History:** Originally enacted in 1969 and amended in 1985, 1990, 1993, 2001 and 2023. The 2023 amendment adds services to the exemption.

## USE OF PROPERTY BY INDIAN NATION, TRIBE OR PUEBLO EXEMPTION FROM COMPENSATING TAX

**Brief Description:** Exempted from compensating tax is the use of property by any Indian nation, tribe or pueblo on Indian reservation or pueblo grants.

**Statutory Basis:** 7-9-14(B) NMSA 1978

**Intended Purpose:** The State is preempted from imposing taxes on Indian nations, tribes or pueblos.

**History:** The section was originally enacted in 1969 and amended in 1985, 1990, and 1993. Subsection B was created by the 1990 amendment, separating tribal entities' use of property from the federal government, and state and local governments.

## USE OF TANGIBLE PERSONAL PROPERTY FOR LEASING DEDUCTION FROM COMPENSATING TAX

**Brief Description:** The value of tangible personal property held for lease by a person engaged in the business of selling or leasing the same type property may be deducted before computing compensating tax due; however, it does not apply to the value of furniture or appliances furnished as part of a rental house or apartment, coin-operated machines, or manufactured homes.

**Statutory Basis:** 7-9-78 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1973, 1975, 1979, 1981, 1984, and 1991.

## VEHICLE THAT IS OWNED BY THE STATE OF NEW MEXICO EXEMPTION FROM MVX

**Brief Description:** A vehicle with a certificate of title owned by New Mexico or any political subdivision is exempt from MVX.

**Statutory Basis:** 7-14-6(C) NMSA 1978

**Intended Purpose:** Presumably to define the tax base.

**History:** Originally enacted in 1988, and amended in 1990, 1994, 2004, and 2007.

## VEHICLE THAT WAS PREVIOUSLY REGISTERED IN NEW MEXICO EXEMPTION FROM MVX

**Brief Description:** A person applying for a certificate of title for a vehicle registered in another state is exempt from the tax if the person has previously registered and titled the vehicle in New Mexico and has owned the vehicle continuously since that time.

**Statutory Basis:** 7-14-6(B) NMSA 1978

**Intended Purpose:** Presumably to prevent double taxation.

**History:** Originally enacted in 1988, and amended in 1990, 1994, 2004, and 2007.

## VEHICLES
## EXEMPTIONS FROM GRT AND COMPENSATING TAX

**Brief Description:** The receipts from selling vehicles on which a tax is imposed by the Motor Vehicle Excise Tax Act, vehicles registered by persons with significant mobility limitations, and vehicles exempt from the MVX pursuant to Section 7-14-6(F) NMSA 1978 are exempt from GRT.

The use of vehicles used in New Mexico on which the tax imposed by the Motor Vehicle Excise Tax Act has been paid, the use of vehicles subject to registration under the Motor Vehicle Code and the use of vehicles exempt from MVX pursuant to Section 7-14-6(F) NMSA 1978 are exempt from compensating tax.

**Statutory Basis:** 7-9-22 and 7-9-23 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple tax programs, as the exemption only applies to vehicles on which a tax is imposed pursuant to the Motor Vehicle Excise Tax Act.

**History:** The GRT exemption was originally enacted in 1969 and amended in 1976, 1981, 1988, and 2004.

The compensating tax exemption was originally enacted in 1969 and amended in 1976, 1983, 1988, and 2004.

## VEHICLES USED FOR SHORT-TERM LEASING
## CREDIT AGAINST MVX

**Brief Description:** The MVX is suspended for vehicles used primarily as short-term rental vehicles that are part of a vehicle fleet of at least five vehicles that are subject to the leased vehicle gross receipts tax.

**Statutory Basis:** 7-14-7.1 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple tax programs.

**History:** Originally enacted in 1991 and amended in 1993 and 1994.

## VEHICLES USED IN INTERSTATE COMMERCE
## GRT DEDUCTION

**Brief Description:** Receipts from the rental or leasing of vehicles used in the transportation of passengers or property for hire in interstate commerce under the regulations or authorization of any agency of the U.S. are deductible from GRT.

**Statutory Basis:** 7-9-70 NMSA 1978

**Intended Purpose:** Presumably due to federal preemption.

**History:** Originally enacted in 1969.

## WAGES
## EXEMPTION FROM GRT

**Brief Description:** Receipts of employees from wages, salaries, commissions, or from any other form of remuneration for personal services are exempt from GRT.

**Statutory Basis:** 7-9-17 NMSA 1978

**Intended Purpose:** Presumably to define the tax base.

**History:** Originally enacted in 1969.

## WARRANTY OBLIGATIONS
## GRT DEDUCTION

**Brief Description:** Receipts of a dealer from furnishing goods or services to the purchaser of tangible personal property to fulfill a warranty obligation of the manufacturer of the property may be deducted from gross receipts.

**Statutory Basis:** 7-9-68 NMSA 1978

**Intended Purpose:** Presumably to properly define the tax base, as the cost of the warranty is part of the cost of the goods or services, and taxes were paid on it at the time of the original purchase.

**History:** Originally enacted in 1969.

# ARGUABLE

While many of the deviations from New Mexico's many tax programs are easily categorized as either "Tax Expenditures" or "Not Tax Expenditures", there are a number in which arguments could be made for both. With a few others, the purpose of the deviation is not entirely clear; without knowing why the deviation was created, it is not possible to determine in which category it belongs.

In this year's tax expenditure report, a number of items that do not affect taxpayer treatment but do 'Impact distributions of State and local revenue have been recategorized from "Tax Expenditures" to "Arguable". These include provisions directing GRT and property tax revenue associated with Tax Increment Development Districts, Metropolitan Redevelopment Act projects, and Local Economic Development Act projects. These items do not change the amount of tax due from a given taxpayer, but rather they earmark revenue for many years to a specific fund for use on a specific project. Tax & Rev will continue to provide full transparency and reporting on these items.

"Arguable" deviations are presented in alphabetical order. The table of contents provides an alphabetized list of the arguable deviations. To find a specific deviation based on its statute citation, use the index at the end of the report.

As with the "Not Tax Expenditures" section, we believe that including information about these deviations, even without analysis of the fiscal impact, makes the reader better informed about the New Mexico tax structure.

## ADMINISTRATIVE AND ACCOUNTING SERVICES
## GRT DEDUCTION

**Brief Description:** Receipts of a business entity for administrative, managerial, accounting, and customer services performed by it for an affiliate upon a nonprofit or cost basis are deductible from gross receipts.

Receipts of a business entity from an affiliate for the joint use or sharing of office machines and facilities upon a nonprofit or cost basis are deductible from gross receipts.

**Statutory Basis:** 7-9-69 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1990, 1993, 1998, 2002, and 2015.

## AGRICULTURAL PRODUCTS
## EXEMPTION FROM GRT AND GGRT

**Brief Description:** Receipts from selling livestock, including horses, and the receipts of growers, producers and trappers from selling live poultry, unprocessed agricultural products (for example, a bale of hay, a head of lettuce or an unroasted sack of green chili), hides or pelts are exempt from the GRT and GGRT.

Receipts from selling dairy products at retail are not exempt from the GRT.

**Statutory Basis:** 7-9-18 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1991, 1992, 1993, and 2011.

The 2011 amendment expanded the deduction by defining "livestock" as all domestic or domesticated animals that are used or raised on a farm or ranch, including the carcasses thereof, and includes horses, asses, mules, cattle, sheep, goats, swine, bison, poultry, ostriches, emus, rheas, camelids and farmed cervidae upon any land in New Mexico.

**Evaluation:** This deduction cannot be completely considered an anti-pyramiding device, as there is no limitation that the receipts come from the sale of goods that are intermediate goods, or that are for resale. However, it is not possible to determine which portion is attributable to resale activities and which is not.

## CERTAIN COMMISSIONS GRT DEDUCTION

**Brief Description:** Receipts derived from commissions from sales of tangible personal property when the property sold is not subject to gross receipts tax are deductible from gross receipts.

Receipts of the owner of a dealer store for selling a principal's goods are deductible from gross receipts.

**Statutory Basis:** 7-9-66 NMSA 1978

**Intended Purpose:** Presumably to avoid double taxation since commissions are taxable as personal income.

**History:** Originally enacted in 1969 and amended in 1999.

## FEED AND FERTILIZER & AUCTIONEERS SELLING LIVESTOCK AND AGRICULTURAL PRODUCTS AT AUCTION GRT DEDUCTION

**Brief Description:** Receipts from selling feed for livestock, fish, poultry, or animals raised for their hides/pelts and from selling seeds, roots, bulbs, plants, soil conditioners, fertilizers, insecticides, germicides, insects used to control populations of other insects, fungicides or weedicides or water for irrigation purposes are deductible from gross receipts.

**Statutory Basis:** 7-9-58 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1977, 1983, 1991, 1992 and 2002.

## GROSS AMOUNTS WAGERED EXEMPTION FROM GRT

**Brief Description:** Exempted from GRT are receipts of a horse racetrack which are authorized by the Horse Racing Act to be retained by a horse racetrack that is licensed to conduct horse races.

**Statutory Basis:** 7-9-40(B) NMSA 1978

**Intended Purpose:** Presumably to avoid taxing receipts over gross amounts wagered which are under no authority to be spent by a horse racetrack.

**History:** Originally enacted in 1970 and amended in 1971, 1985, and 1989.

**Recommendation:** Update the statute to reflect the correct citation. It currently references Section 60-1-10 NMSA 1978, which was repealed in 2007. Presumably the intention is for it to reference the successor statute which appears to be Section 60-1A-19 NMSA 1978.

## INSURANCE COMPANIES EXEMPTION FROM GRT

**Brief Description:** The receipts of insurance companies or any agent from premiums and any consideration received by a property bondsman as security or surety for a bail bond in connection with a judicial proceeding are exempt from GRT.

**Statutory Basis:** 7-9-24 NMSA 1978

**Intended Purpose:** Presumably to prevent taxation under multiple tax programs, as the receipts of insurance companies are subject to the insurance premium tax and presumably to ensure that considerations received as security of surety for a bail bond are not taxed as they are not guarantees and not considered receipts.

**History:** Originally enacted in 1969 and amended in 1988.

# LIVESTOCK FEEDING EXEMPTION FROM GRT

**Brief Description:** Receipts from feeding (including penning or handling livestock prior to sale and training livestock) or pasturing livestock, are exempt from GRT.

**Statutory Basis:** 7-9-19 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969 and amended in 1974, 1991, and 1992.

# LOCAL ECONOMIC DEVELOPMENT ACT (LEDA)
# SPECIAL GRT DISTRIBUTIONS

**Category:** Economic Development

**Brief Description:** A distribution shall be made to the Local Economic Development Act fund for the following amounts of the following taxes imposed and paid on expenses related to the construction of the qualifying entity's economic development project:

G. Fifty percent of the net receipts attributable to the state gross receipts tax and the state compensating tax; and
H. Fifty percent of the net receipts attributable to the local option gross receipts tax and county compensating tax imposed by a county and local option gross receipts tax and municipal compensating tax imposed by a municipality.

Qualifying projects must meet the requirements under the Local Economic Development Act (LEDA), 5-10 NMSA 1978. Section 5-10-14 NMSA 1978 creates the LEDA fund and details the use of the distributed funds to the qualified entities.

**Statutory Basis:** 5-10-14 NMSA 1978, 5-10-17 NMSA 1978, and 7-1-6.67 NMSA 1978

**Intended Purpose:** To create a mechanism for providing GRT and compensating tax increments to enhance the amount of resources available to foster, promote, and enhance local economic development projects. This empowers communities to embark on economic development projects tailored to their local needs.

**History:** 7-1-6.67 NMSA 1978 was originally enacted in 2021 and amended in 2024. 5-10-14 NMSA 1978 was originally enacted in 2020 and 5-10-17 NMSA 1978 in 2021. 5-10-17 NMSA 1978 provided for the distribution of state and local gross receipts tax revenue. The 2024 amendment provides for Tax & Rev to withhold a 3% administrative fee on the net amount of LEDA distributions and made certain technical amendments.

**Evaluation:** None.

**Recommendation:** Tax & Rev cautions that the proliferation of complex distributions, such as the new distributions created through this tax expenditure, add cost and risk to the overall tax distribution system. The goal of funding the LEDA fund may better be achieved through appropriations than through tax system distributions.

**Reliability Factor:** 1 – This distribution is reported in the RP-500 GRT report.

**Fiscal Impact:**

| | | | | |
|---|---|---|---|---|
| **Local Economic Development Act (LEDA) Special GRT Distributions** | **Fiscal Year** | 2023 | 2024 | 2025 |
| | **State General Fund Expenditure (thousands)** | $17,541 | $23,084 | $10,603 |
| | **Local Government Expenditure (thousands)** | $1,096 | $1,480 | $680 |

# METROPOLITAN REDEVELOPMENT PROJECTS GRT DISTRIBUTION

**Category:** Economic Development

**Brief Description:** A distribution for a metropolitan redevelopment project pursuant to the Metropolitan Redevelopment Code shall be made to the metropolitan redevelopment fund in accordance with the dedication of a gross receipts tax increment. Tax & Rev distributes a portion of State and local revenue above the base, as determined by the percentages dedicated to the area by the local government and the State Board of Finance.

**Statutory Basis:** 3-60A-21(B), 3-60A-23, and 7-1-6.71 NMSA 1978

**Intended Purpose:** To enhance the resources available to foster, promote, and enhance metropolitan redevelopment projects. The code was designed to address and prevent urban decay. It empowers local governments to undertake redevelopment projects in areas designated as "slum" or "blighted."

**History:** 3-60A-21(B) and 3-60A-23 NMSA 1978 were originally enacted in 1979 and amended in 2023 to allow for the dedication of local option and state gross receipts tax revenue to fund a metropolitan redevelopment project.

7-1-6.71 NMSA 1978 was originally enacted in 2023.

3-60A-21(B) and 7-1-6.71 NMSA 1978 were amended in 2024. The 2024 amendment to 3-60A-21(B) NMSA 1978 clarified the procedures to be used in determining the tax increment. The 2024 amendments to 7-1-6.71 NMSA 1978 added an administrative fee of three percent and clarified the distribution of revenues to the metropolitan redevelopment fund.

3-30A-21(B) was amended in 2025 to change the date that Tax & Rev shall designate a reporting location code for the metropolitan redevelopment area for purposes of determining a gross receipts tax increment.

**Evaluation:** None.

**Recommendation:** None.

**Reliability Factor:** 1 – This distribution will be reported in the RP-500 GRT distribution report.

**Fiscal Impact:** No Impact. There were no qualifying metropolitan redevelopment projects receiving revenue in FY2025.

## PETROLEUM PRODUCTS SOLD TO THE FEDERAL GOVERNMENT EXEMPTION FROM PETROLEUM PRODUCTS LOADING FEE

**Brief Description:** Petroleum products sold to the U.S. or any agency or instrumentality thereof for the exclusive use of the U.S. or any agency or instrumentality thereof are exempt from the PPLF.

**Statutory Basis:** 7-13A-4(B) NMSA 1978

**Intended Purpose:** To comply with the federal preemption doctrine.

**History:** Originally enacted in 1991.

## PIPELINE TRANSPORTATION OF OIL AND GAS PRODUCTS EXEMPTION FROM GRT AND COMPENSATING TAX

**Brief Description:** Receipts from the sale of oil, natural gas, liquid hydrocarbon, or any combination thereof consumed as fuel in the pipeline transportation of these products are exempt from GRT.

The use of oil, natural gas, liquid hydrocarbon or any combination thereof as fuel in the pipeline transportation of such products is exempt from compensating tax.

**Statutory Basis:** 7-9-36 and 7-9-37 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** The GRT and compensating exemptions were originally enacted in 1969.

## PROCESSING AGRICULTURAL PRODUCTS GRT DEDUCTION

**Brief Description:** Receipts from warehousing grain or other agricultural products and from threshing, harvesting, growing, cultivating, and processing agricultural products are deductible from gross receipts.

**Statutory Basis:** 7-9-59 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1969, and amended in 1970, 2000, and 2019.

## RECEIPTS OF HOMEOWNERS ASSOCIATIONS EXEMPTION FROM GRT

**Brief Description:** Receipts of homeowners' associations (HOA) from membership fees, dues, and assessments from owner-members to be used for tax, insurance, utility expenses, management and improvement, maintenance or rehabilitation of those common areas, elements, or facilities appurtenant thereto for commonly-owned areas and facilities are exempt from GRT.

**Statutory Basis:** 7-9-20 NMSA 1978

**Intended Purpose:** Presumably to provide clarification that a HOA can be recognized as a 501(c)(4) organization to qualify for this exemption if its activities benefit a community.

**History:** Originally enacted in 1988.

## RESALE OF CERTAIN MANUFACTURED HOMES GRT DEDUCTION

**Brief Description:** Receipts from the resale of a manufactured home which was subject to GRT, compensating tax, or MVX upon its original sale or use in New Mexico are deductible from gross receipts.

**Statutory Basis:** 7-9-76.1 NMSA 1978

**Intended Purpose:** Presumably to avoid taxation under multiple programs, as the deduction only applies if the initial sale was subject to the GRT, the compensating tax, or the MVX.

**History:** Originally enacted in 1979 and amended in 1980, 1990, and 1991.

## SALE BY OR TO U.S. ARMED FORCES EXEMPTION FROM LIQUOR EXCISE TAX AND LOCAL LIQUOR EXCISE TAX

**Brief Description:** Alcoholic beverages sold to or by any instrumentality of the U.S. armed forces that are engaged in resale activities are exempt from the liquor excise tax and the local liquor excise tax.

**Statutory Basis:** 7-17-9 and 7-24-12 NMSA 1978

**Intended Purpose:** Presumably to comply with the federal preemption doctrine with respect to sales by U.S. instrumentalities.

**History:** The liquor excise tax exemption was originally enacted in 1966 and amended in 1973, 1984, and 1985.

The local liquor excise tax exemption was originally enacted in 1989.

## SALE OF ALTERNATIVE FUEL TO THE STATE OF NEW MEXICO EXEMPTION FROM ALTERNATIVE FUEL EXCISE TAX

**Brief Description:** Alternative Fuel distributed to or used by the State of New Mexico, is exempt from the imposition of the alternative fuel excise tax.

**Statutory Basis:** 7-16B-5 (B) NMSA 1978

**Intended Purpose:** Presumably to define the tax base.

**History:** Originally enacted in 1995.

## SALE OF PROSTHETIC DEVICES
## GRT AND GGRT DEDUCTION

**Brief Description:** Receipts from selling prosthetic devices to persons and licensed to practice in several medical disciplines are deductible from gross receipts and governmental gross receipts.

The buyer must deliver a non-taxable transaction certificate and must deliver the prosthetic device incidental to the performance of a service and must include the value of the prosthetic device in the charge for the service.

**Statutory Basis:** 7-9-73 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding as the value of the prosthetic must be fully included in the final price of the service, and the nature of the final sale will determine whether it is taxable or not.

**History:** Originally enacted in 1970 and amended in 1992.

## SALE OF SPECIAL FUEL SOLD TO THE STATE OF NEW MEXICO
## DEDUCTION FROM SPECIAL FUEL EXCISE TAX

**Brief Description:** Special fuel sold to the state of New Mexico or any political subdivision, agency or instrumentality thereof, may be deducted from the total amount of special fuel excise tax.

**Statutory Basis:** 7-16A-10 (C) NMSA 1978

**Intended Purpose:** Presumably to define the tax base.

**History:** Originally enacted in 1993.

## SALE OR LEASE OF REAL PROPERTY & LEASE OF MANUFACTURED HOMES GRT DEDUCTION

**Brief Description:** Receipts from the sale or lease of real property, which includes the land and any permanent fixtures, from the lease of a manufactured home for at least one month, and from the rental of space for a manufactured home or recreational vehicle for at least one month, are deductible from gross receipts.

**Statutory Basis:** 7-9-53 NMSA 1978

**Intended Purpose:** Presumably to reduce tax burdens associated with occupancy of residential and commercial spaces on a non-transient basis.

**History:** Originally enacted in 1969 and amended in 1972, 1973, 1975, 1979, 1983, 1991, and 1998.

## SALES TO FEDERAL GOVERNMENT, STATE OF NEW MEXICO, OR NEW MEXICO TRIBES EXEMPTION FROM CIGARETTE TAX AND TOBACCO PRODUCTS TAX

**Brief Description:** Sales of cigarettes and tobacco products to the U.S., the State of New Mexico, or an Indian nation, tribe, or pueblo are exempt from the cigarette tax and the tobacco products tax.

**Statutory Basis:** 7-12-4 and 7-12A-4 NMSA 1978

**Intended Purpose:** In the case of selling personal property to the U.S. or Indian nations, presumably to comply with the federal preemption doctrine and to address multi-jurisdictional taxation. In the case of selling to the State of New Mexico, presumably to define the tax base.

**History:** The cigarette tax exemption was originally enacted in 1943. Section 7-12-4 NMSA 1978 was amended in 1971, 1992, and 2010. The 2010 legislation also included an increase of the cigarette tax by $0.75 per pack.

The tobacco products tax was originally enacted in 1986. Section 7-12A-4 NMSA 1978 was amended in 2009 to expand the exemption to include the sale of tobacco to tribes or tribal members.

## SALES TO GOVERNMENTAL AGENCIES
## GRT AND GGRT DEDUCTION

**Brief Description:** Receipts from selling tangible personal property to the U.S., the State of New Mexico, or an Indian nation, tribe, or pueblo for use on an Indian reservation or pueblo grant are deductible from gross receipts and governmental gross receipts.

**Statutory Basis:** 7-9-54 NMSA 1978

**Intended Purpose:** In the case of selling personal property to the U.S. or Indian nations, presumably to comply with the federal preemption doctrine and to address multi-jurisdictional taxation. In the case of selling to the State of New Mexico, presumably to define the tax base.

**History:** Originally enacted in 1969 and amended in 1976, 1985, 1989, 1992, 1993, 1995, 2000, 2001, 2003, 2018 and 2023.

## TAX PAID ON SPECIAL FUEL USED
## CREDIT AGAINST SPECIAL FUEL EXCISE TAX

**Brief Description:** A taxpayer is entitled to a credit against the calculated special fuel excise tax due for a reporting period for special fuel excise tax paid on special fuel used during the reporting period.

**Statutory Basis:** 7-16A-12 NMSA 1978

**Intended Purpose:** Presumably to avoid requiring a taxpayer to pay taxes on fuel that is not available to be sold.

**History:** Originally enacted in 1992 and amended in 1997.

# TAX INCREMENT FOR DEVELOPMENT DISTRICT (TIDD) DEDICATED GRT INCREMENTS

**Category:** Economic Development

**Brief Description:** The State and local governments may dedicate a portion of incremental GRT revenue attributable to activities within a TIDD, and local governments may dedicate a portion of incremental property tax revenues for use by a TIDD to fund eligible activities of the TIDD.

**Statutory Basis:** 5-15-15 and 7-1-6.54 NMSA 1978

**Intended Purpose:** To create a mechanism for providing GRT and property tax increment financing to decrease developer costs of constructing public infrastructure to incentivize the support of economic development and job creation.

**History:** Originally enacted in 2006 and amended in 2009, 2014, and 2025.

The 2009 amendment clarified that approval of the TIDD plan is by the governing body within which the TIDD projects are proposed, that the deposit the petitioners make may be reimbursed from proceeds from the sale of bonds issued by the TIDD, that the governing body of the local government must notify state entities of TIDD formation, and to add requirements for the content of hearing notices.

The 2014 amendment created a mechanism for adjusting a TIDD base year one time. To date, the base year adjustment criteria has only been met by the Winrock TIDD 1, Winrock TIDD 2 and Taos Ski Valley TIDD.

The 2025 amendment clarified language for destination-based sourcing. The amendment also requires 12 months of data collection to set base year and removed the January 1 distribution effective date of local tax rate changes.

**Evaluation:** TIDDs allow for the State and local governments to contribute tax revenue to developments that are deemed to be mutually beneficial. Administratively, TIDDs require considerable effort by Tax & Rev, the State Board of Finance, local governments, and developers.

**Recommendation:** None

**Reliability Factor:** 1 – GRT reporting within TIDDs are reported separately. No estimation is required.

**Fiscal Impact:** These fiscal impacts include GRT distributions to all TIDDs. They do not include property tax dedications by local governments.

| | Fiscal Year | 2023 | 2024 | 2025 |
|---|---|---|---|---|
| **Tax Increment for Development District Dedicated Increments** | **State General Fund Expenditure (thousands)** | $12,891 | $12,155 | $7,277 |
| | **Local Government Expenditure (thousands)** | $7,915 | $10,489 | $6,195 |

## TRAVEL AGENTS' COMMISSIONS
## GRT DEDUCTION

**Brief Description:** Receipts of travel agents from commissions paid by maritime transportation companies, and interstate airlines, railroads and passenger buses for booking, referral, reservation, or ticket services are deductible from gross receipts.

**Statutory Basis:** 7-9-76 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 1977.

## USE OF ELECTRICITY
## EXEMPTION FROM COMPENSATING TAX

**Brief Description:** Electricity used in the production and transmission of electricity, including transmission using voltage source conversion technology, is exempt from the compensating tax.

**Statutory Basis:** 7-9-38 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding

**History:** Originally enacted in 1969 and amended in 2012.

The 2012 amendment expanded the exemption to include electricity used in the transmission of electricity using voltage source conversion technology.

## VETERINARY MEDICAL FOR TREATMENT OF CATTLE GRT DEDUCTION

**Brief Description:** Receipts from sales of veterinary medical services, medicine, or medical supplies used in the medical treatment of cattle may be deducted from gross receipts if the sale is made to:

(1) a person who states in writing that the person is regularly engaged in the business of ranching or farming, including dairy farming, in New Mexico, or

(2) a veterinarian who is providing veterinary medical services, medicine, or medical supplies in the treatment of cattle owned by that person.

**Statutory Basis:** 7-9-109 NMSA 1978

**Intended Purpose:** Presumably to reduce tax pyramiding.

**History:** Originally enacted in 2007.

## WIDE-AREA TELEPHONE AND PRIVATE COMMUNICATIONS SERVICE DEDUCTION FROM INTERSTATE TELECOMMUNCIATIONS GRT

**Brief Description:** Receipts from the provision of wide-area telephone service and private communications service in this state may be deducted from interstate telecommunications gross receipts.

**Statutory Basis:** 7-9C-6 NMSA 1978

**Intended Purpose:** Unclear.

**History:** Originally enacted in 1992 and amended in 1993.

# APPENDIX A: TABLE OF EXPENDITURES BY CATEGORY

| Citizen Benefit Expenditures | |
|---|---|
| **Name of Expenditure** | **Statute** |
| Additional Income Tax Rebate 2021 Tax Year Filing | 7-2-7.7 |
| Affordable Housing Credit against Modified Combined Tax, PIT, or CIT | 7-9I-5 |

| Sale of Dyed Special Fuel for Agricultural Purposes GRT Credit | 7-9-58.1 |
| Sale and Use of Agricultural Implements, Farm Tractors, Aircraft, and Motor Vehicles that Don't Have to be Registered GRT and Compensating Tax Deduction | 7-9-62 and 7-9-77 |
| Sale of Aerospace Services for the U.S. Air Force GRT Deduction | 7-9-54.1 |
| Spaceport-Related Activities GRT Deduction | 7-9-54.2 |
| Space-Related Test Articles Deduction from Compensating Tax | 7-9-54.4 |
| Tax Stamps Rate Differential in Cigarette Tax | 7-12-7(D) |
| Test Article Deduction from Compensating Tax | 7-9-54.5 |
| Timber Rate Differential from Processors Tax | 7-25-4A(2) |
| Uranium Enrichment Plant Equipment Deduction from Compensating Tax | 7-9-78.1 |
| Uranium Hexafluoride and Uranium Enrichment GRT Deduction | 7-9-90 |

# APPENDIX B: FREQUENTLY USED ACRONYMS

**ACA** – Affordable Care Act

**CIT** - Corporate Income Tax

**CREG** – Consensus Revenue Estimating Group

**CYFD** – New Mexico Children, Youth and Families Department

**DFA** – New Mexico Department of Finance and Administration

**DOH** – New Mexico Department of Health

**DWS** – New Mexico Department of Workforce Solutions

**EDD** – New Mexico Economic Development Department

**EMNRD** – New Mexico Energy, Minerals, and Natural Resources Department

**GGRT** - Governmental Gross Receipts Tax

**GRT** - Gross Receipts Tax

**HCA** – New Mexico Health Care Authority (previously Human Services Department)

**IRS** – Federal Government Internal Revenue Service

**LVGRT** - Leased Vehicle GRT

**MCF** - 1,000 Cubic Feet

**MFA** - Mortgage Finance Authority

**MVX** - Motor Vehicle Excise Tax

**NAICS** – North American Industry Classification System

**NMDOT** – New Mexico Department of Transportation

**NMENV** – New Mexico Environment Department

**PIT** - Personal Income Tax

**PPLF** – Petroleum Products Loading Fee

**REPTC** – Renewable Energy Production Tax Credit

**RSTP** – Revenue Stabilization and Tax Policy - an interim legislative committee

**TIDD** - Tax Increment Development District

**TPP** - Tangible Personal Property

**Tax & Rev** - New Mexico Taxation and Revenue Department

**WDT** - Weight Distance Tax

**WTI** - West Texas Intermediate

# INDEX OF STATUTES

Please note that statutes are not listed in numerical order by tax program. The software orders the statutes numerically but does not recognize the hyphenated sections. In short, it lists, for example, 7-12-1 et seq. before 7-9-1.

The thirty-third annual *New York State Tax Expenditure Report* has been prepared by the Department of Taxation and Finance and the Division of the Budget in accordance with the provisions of Executive Law § 181, which mandates that any information relating to tax expenditures must be furnished in accordance with the secrecy provisions of the Tax Law.

As required by statute, the report includes:

- Tax expenditures associated with the:
  - personal income tax (Tax Law Article 22),
  - corporate franchise tax (Tax Law Article 9-A),
  - insurance tax (Tax Law Article 33),
  - corporation and utility taxes (Tax Law Article 9),
  - sales and compensating use tax (Tax Law Article 28),
  - petroleum business tax (Tax Law Article 13-A),
  - real estate transfer tax (Tax Law Article 31).
- the provisions of law authorizing the tax expenditures, their effective dates, and, where applicable, the date that such tax expenditures expire or are reduced;
- estimates (if reliable data are available) of the costs of the tax expenditures for the current taxable or calendar year and the five preceding years;
- an analysis of tax expenditure proposals included in the Governor's 2026-27 Executive Budget; and
- cautionary or advisory notes regarding the use of the report and data limitations.

As provided in prior years, the report also includes information that summarizes:

- tax expenditures that appear in more than one article of the Tax Law, for example *cross-article tax expenditures*; and
- state legislation enacted in recent years that added, deleted or modified certain tax expenditure provisions.

This report also includes a glossary of terms.

## USE OF THIS REPORT AND DATA LIMITATIONS

As defined by the Executive Law,[2] tax expenditures in this report are defined as *features of the Tax Law that by exemption, exclusion, deduction, allowance, credit, preferential tax rate, deferral, or other statutory device, reduce the amount of taxpayers' liabilities to the State by providing either economic incentives or tax relief to particular classes of persons or entities, to achieve a public purpose.* This definition is less subjective than an approach that defines tax expenditures by first defining a normal tax structure because it avoids judgments about what constitutes *normal.*

This report does not purport to offer an official list of tax expenditures. Rather, it describes as many tax expenditures as possible and provides revenue estimates for as many provisions as can be isolated and measured. Where applicable data are available, tax expenditure estimates generally cover five historical years. Forecasted estimates project the cost of a tax expenditure as reflected in the Tax Law as it was in effect on January 1, 2026. The forecasted estimates do not reflect changes proposed in the Executive Budget. A description of the Executive Budget Tax Expenditure proposals is included in a separate section of this report. As a result of new or improved information, the estimates may differ from those published in previous reports. The estimates in the report do not reflect the impact of the Metropolitan Transportation Authority surcharge, imposed on businesses operating in the Metropolitan Commuter Transportation District.

The *cost of a tax expenditure*,[3] or the tax expenditure revenue estimate, is the amount by which a tax expenditure reduces taxpayers' liability to the State for a taxable year or on a calendar year basis if a taxable year basis is not appropriate. The reduction in taxpayer liability is the difference between tax liability under the current Tax Law and tax liability if the particular expenditure did not exist. In the case of certain tax credits, the cost also includes amounts refunded to taxpayers. It is important to acknowledge that each tax expenditure estimate is measured separately and independently of other tax provisions (for example, other taxes are held constant) and no changes in taxpayer behavior are assumed. Thus, the tax expenditure estimates provided in this report are not equivalent to the impact on the State's Financial Plan if the expenditure were repealed or modified. In addition, because the expenditure estimates are measured separately and independently, individual tax expenditures cannot be summed.

[2] § 181(a).
[3] § 181(b).

The following table lists the taxes included in this report and the years for which tax expenditure estimates are provided.

| Tax Type | Historical | Forecast |
|---|---|---|
| Personal income tax | 2019, 2020, 2021, 2022, 2023 | 2026 |
| Corporate franchise tax* | 2018, 2019, 2020, 2021, 2022 | 2026 |
| Insurance tax* | 2018, 2019, 2020, 2021, 2022 | 2026 |
| Corporation and utilities | 2018, 2019, 2020, 2021, 2022 | 2026 |
| Cross-article credits | 2018, 2019, 2020, 2021, 2022, 2023 | 2026 |
| Sales and use tax | 2019, 2020, 2021, 2022, 2023 | 2026 |
| Petroleum business tax | 2020, 2021, 2022, 2023, 2024 | 2026 |
| Real estate transfer tax | 2020-21, 2021-22, 2022-23, 2023-24 | 2026-27 |

*Tax year is year with liability period beginning in the respective calendar year.

## Federal exclusions

The personal income (Article 22), corporate franchise (Article 9-A), and insurance (Article 33) taxes are all based, to some extent, on the federal tax law. In most cases, New York policymakers have opted to conform to the federal tax law. Conformity eases administration of the Tax Law, while at the same time promoting taxpayer compliance. As a result of this *coupling* of State definitions of the income base to federal definitions, exclusions or deductions from income at the federal level become exclusions or deductions at the State level. Therefore, these provisions automatically become tax expenditures at the State level but do not constitute tax expenditures in the same sense as provisions specifically designed by New York policymakers to promote economic development or to provide specific tax relief. No estimates for these provisions are included in the report. As states can decide to not follow (or decouple from) federal provisions, New York does not conform to all federal tax expenditure provisions.

## Reliability of the estimates

Estimates of the cost of tax expenditures have different levels of reliability based on the accuracy of both the data and the estimation procedure.

- For all of the taxes, with the exception of the sales and compensating use tax, the Department of Taxation and Finance assigns the highest category of reliability, Level 1, to estimates based on information from actual tax returns that were verified for accuracy.

- Level 2 applies to estimates based on data files containing unverified or incomplete information from actual tax returns. Neither of these tax return data sources is augmented with audit information.

- In Level 3 estimates, average marginal tax rates are applied to aggregate data.

- Level 4 estimates are based on national tax expenditure estimates made by the Federal Joint Committee on Taxation or the Office of Management and Budget or are estimates derived from non-tax data sources. Estimates for most of the sales tax expenditures are derived from non-tax data sources. Within this fourth level, the report further categorizes estimates based on the accuracy and suitability of the data sources. Category A estimates use both New York State and industry-specific data. Category B estimates use either New York-specific data that are not industry specific or national data derived from direct industry information, such as industry associations. Category C estimates use data other than state or industry-specific data.

- The last level of estimates, Level 5, includes those items for which no reliable data source currently exists.

The reliability of estimates may change from year to year. This is especially the case for base year and forecast estimates versus historical estimates. For example, provisions previously estimated with either less reliable tax return data or federal tax information might become Level 1 (highest reliability) if added directly to tax returns and verified for accuracy. As a result, current and projected estimates may differ from historical estimates.

The reliability of 2026 forecast values is generally lower than that of historical estimates. Historical estimates are based on data received by the Department or from sources covering periods or activity that already occurred. Forecasts by definition are for activity yet to happen and changes in taxpayer behavior, business choices, future economic conditions, and other events can have profound implications that cannot be precisely factored into the forecast estimates.

Recently enacted state legislation has added, deleted, or modified various provisions in this year's report.

## Additions:

- For taxable years beginning on or after January 1, 2025:
  - a new refundable credit for resident living organ donors is available for personal income taxpayers.
  - a new refundable Empire State independent film production credit, administered by the Governor's Office for Motion Picture and Television Development, is available under the corporate franchise tax and the personal income tax.
  - a new refundable credit for semiconductor research and development, administered by Empire State Development, is available under the corporate franchise tax and the personal income tax.
  - a new refundable credit for semiconductor manufacturing workforce training, administered by Empire State Development, is available under the corporate franchise tax and the personal income tax.

## Modifications:

- For tax years 2025 through 2027, the Empire State child credit is temporarily decoupled from the federal child credit and is increased to $1,000 per child under the age of four for tax years 2025 through 2027. The credit for children aged four to sixteen is $330 per child in 2025 and $500 per child in 2026 and 2027.
- For taxable years beginning on or after January 1, 2025, farm employers who indirectly paid eligible farm overtime through a qualified professional employer organization are eligible to claim the farm employer overtime credit. These farm employers must apply to the Department of Agriculture and Markets to receive a certificate allowing them to claim 2024 and 2025 expenses on their 2025 tax return. Beginning in tax year 2026, all farm employers must receive a certificate from the Department of Agriculture and Markets to claim the credit.
- The following changes apply to applications for the Empire State film production credit received on or after January 1, 2025:
  - An additional 10 percent credit is available for qualified production costs attributable to musical scoring.
  - A new Production Plus Program is established within the Empire State film production credit to allow an additional 5-10 percent credit to production companies that produce multiple projects in New York State.

  - The bifurcation/trifurcation claiming period is eliminated.

- For applications for the Empire State film post-production credit received on or after January 1, 2025, the eligibility criteria to claim credit for participation in program and for visual effects or animation post-production costs are lowered.
- The digital gaming media production credit is amended by lowering the production cost threshold, increasing the maximum wages paid that are considered eligible production costs and expanding the definition of digital gaming media production costs.
- The geothermal tax credit is increased to $10,000 for qualified systems placed in service on or after July 1, 2025. For taxable years beginning on or after January 1, 2026, the credit will become refundable for taxpayers below certain income thresholds.
- The low-income housing credit annual allocation is increased from $15 million to $30 million in 2025 and carried through every year at $30 million through 2029.
- The New York City musical and theatrical production credit is extended through tax year 2027 and increased by an additional $100 million in total available credit over the next two years.
- The following credit changes apply to tax years beginning on or after January 1, 2025:
  - Enhancements have been made to the Excelsior Jobs Program to add increased tax credits for semiconductor supply chain projects.
  - The credit for employment of persons with disabilities is increased to a flat $5,000 credit for qualified first or second-year wages under the corporate franchise tax and the personal income tax.
  - The Newspaper and Broadcast Media Jobs Program credit is amended to clarify eligiblity requirements for businesses with publications in more than one market.
  - The real property tax (circuit breaker) credit calculation is simplified by changing the basis of the credit from household income to federal adjusted gross income, condensing the credit brackets, creating a fixed credit amount that varies by income, and increasing the minimum credit amounts to $150 for seniors and $50 for taxpayers under age 65.
- The Jobs Retention Tax Credit Program is broadened to eliminate the strategic industries requirement and the credit amount is increased based on the number of employees for businesses located in a county where an emergency has been declared on or after June 1, 2025.
- The following tax credits have been extended:

- The Empire State film production and post-production credits are extended two years to taxable years beginning before January 1, 2037.
- The Excelsior Jobs Program is extended for five years from 2029 through 2034.
- The clean heating fuel credit is extended for three years to taxable years beginning before January 1, 2029, and applies to purchases of bioheating fuel for residential purchases before January 1, 2029.
- The alternative fuels and electric vehicle recharging property credit is extended for three years to taxable years beginning before January 1, 2029.
- The workers with disabilities credit is extended for three years to taxable years beginning before January 1, 2029.
- The hire a vet credit is extended for three years and is available for tax years beginning before January 1, 2029 for veterans who begin employment before January 1, 2028.
- The musical and theatrical production credit is extended for four years to taxable years beginning before January 1, 2030.
- The farm workforce retention credit is extended for three years to taxable years beginning before January 1, 2029.

- Effective May 9, 2025, property transfers for conservation and historic preservation to certain non-profit organizations are exempt from the mansion tax.
- For taxable years beginning on or after January 1, 2026, upon approval by the New York State Office of Parks, Recreation and Historic Preservation, a project is allowed a one-time transfer of the rehabilitation of historic properties credit.
- The personal income tax rates for certain brackets are permanently reduced gradually over two years beginning in tax year 2026. The temporary high income personal income tax rates are extended for five years through 2032.
- The sales tax exemption for certain vending machine sales of candy, juice, soft drinks and bottled water is extended through May 31, 2026.

## Deletions:

- The subtraction modification for unreimbursed organ donation expenses sunsets for taxable years beginning on or after January 1, 2025.

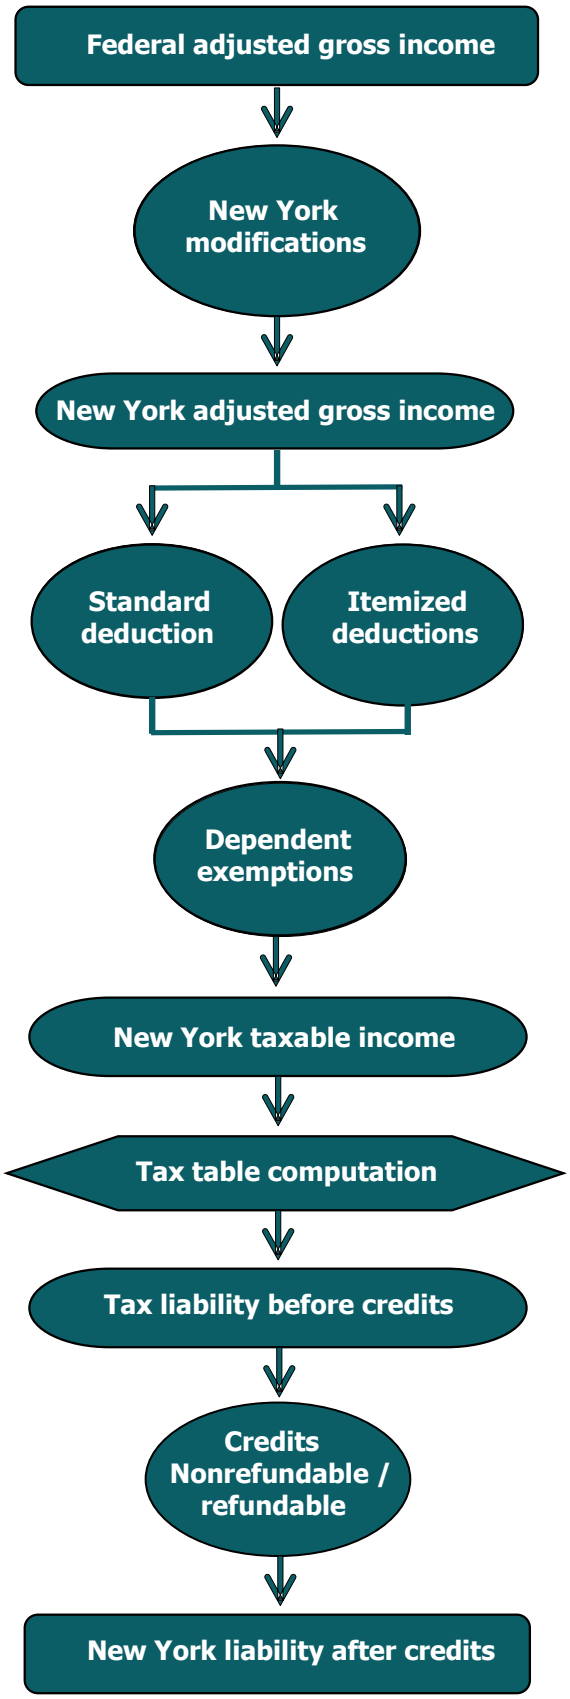
- The Employee Training Incentive Program is repealed for tax years beginning on or after January 1, 2029.

This section provides revenue estimates of New York State personal income tax expenditures for the 2026 tax year. Tax expenditures are first estimated for the 2023 tax year (the latest year for which historical tax data are available) and then projected to the 2026 tax year. This section also provides historical estimates from 2019 through 2023 for comparison. Table 1 lists the income tax provisions for which estimates exist, and the estimates themselves. To provide some perspective, it also shows total personal income tax liability for the 2023 tax year. The data used to generate the estimates do not include late-filed-returns, audited returns, or fiduciary returns because no contemporaneous data exist to make the estimates.

In 2025, New York State mailed over 8.2 million inflation refund checks totaling over $2 billion. Because this is a one-time program, this figure is not included in Table 1.

## Description of tax

The calculation of the New York State personal income tax starts with the federal definition of adjusted gross income. The Internal Revenue Code permits certain exclusions and adjustments in arriving at federal adjusted gross income. New York allows several state specific subtraction modifications and requires certain addition modifications in arriving at New York adjusted gross income. Taxpayers can then reduce their New York adjusted gross income by subtracting the higher of the New York standard deduction or New York itemized deductions. New York itemized deductions generally conform to federal itemized deductions as they existed prior to enactment of Public Law 115-97; however, certain modifications, such as an add-back for income taxes, apply. In addition, an overall New York State deduction limitation applies to upper-income taxpayers. New York taxpayers may also subtract from New York adjusted gross income a $1,000 exemption for each dependent, not including the taxpayer and spouse. After computing taxable income, taxpayers apply a marginal tax rate schedule to compute their tax before credit amount. Eligible refundable and/or nonrefundable credits are then subtracted to determine final New York liability. The chart below shows the calculation from federal adjusted gross income to final New York liability.



Federal adjusted gross income
New York modifications
New York adjusted gross income
Standard deduction
Itemized deductions
Dependent exemptions
New York taxable income
Tax table computation
Tax liability before credits
Credits Nonrefundable / refundable
New York liability after credits

Major features of the recent New York State income tax rates are as follows:

- For tax years 2018 through 2023, rate reductions were phased in for middle-class taxpayers. Fully phased in, taxpayers with taxable incomes between $13,900 and $80,650 ($27,900 and $161,550 for joint filers) saw their rates reduced to 5.50 percent and those with taxable incomes between $80,650 and $215,400 ($161,500 and $323,200 for joint filers) saw their rates reduced to 6.00 percent.

- Beginning with the 2026 tax year, an additional 0.2 percentage point rate reduction will be phased in over two years for all taxpayers with taxable income up to $215,400 ($323,200 for joint filers). The reduction will be fully phased in by tax year 2027 and is permanent for all tax years thereafter.

- For tax years 2021 through 2032, the top 8.82 marginal tax rate is replaced with three new rates and brackets as follows:

    - 9.65 percent on income between $1,077,550 and $5 million ($2,155,350 and $5 million for joint filers),
    - 10.30 percent on income between $5 million and $25 million (all filers), and
    - 10.90 percent on income over $25 million (all filers)

- For tax years 2033 and after, the top rate reverts to 8.82 percent on income over $1,077,550 ($2,155,350 for joint filers).

- If New York adjusted gross income exceeds $107,650, taxpayers must also compute a supplemental tax that recaptures the tax benefit that results from income in the lower brackets being taxed at rates lower than a taxpayer's top marginal rate.

The State personal income tax was originally enacted in 1919, but the present system of federal conformity with respect to income and deductions did not begin until 1960. Therefore, the report uses 1960 as the effective date for the provisions existing since the reorganization of the State's income tax. Many provisions have been amended since their enactment; however, this report does not provide a detailed legislative history of each item covering the entire intervening time frame.

The descriptive paragraph on each income tax expenditure summarizes the provision as it appears in the Tax Law in effect as of January 1, 2026. The listing includes some provisions that were repealed or allowed to sunset prior to 2026 to provide a complete history of the expenditure. Only tax credits specific to the personal income tax are described here. Descriptions of tax credits available under multiple tax articles are contained in the Cross-Article Tax Credits section of the report.

Repealed tax expenditures are removed from the report in the year following the publication of a complete history of the expenditure.

## Data sources

The primary source of data used in this section is:

- 2023 Personal Income Tax Population Study File—A data file based on 10.8 million personal income tax returns filed with the New York State Department of Taxation and Finance. The file includes micro data pertaining to full-year resident, part-year resident, and nonresident tax returns filed in 2024 for tax year 2023. The file represents the latest settled information as processed by the department's tax return system and is verified to ensure accuracy and reliability. These data are used in conjunction with a Personal Income Tax Simulation Model, a set of complex computer programs that simulate the various features of the Tax Law and variations thereof for the years being estimated.

## Methodology

For estimating tax expenditures in 2026, components of income, modifications, and itemized deductions on the 2023 population return file are extrapolated to 2026 levels using growth assumptions based on the economic forecast provided by the New York State Division of the Budget during December of 2025. This data file is then used with the Personal Income Tax Simulation Model revised to simulate 2026 Tax Law.

**Table 1**
**2026 personal income tax expenditure estimates (in millions of dollars)**
**(2023 total personal income tax liability = $50,927 Million)**

| Tax item | History | | | | | Forecast | Reliability level |
|---|---|---|---|---|---|---|---|
| | 2019 | 2020 | 2021 | 2022 | 2023 | 2026 | |
| **New York modifications** | | | | | | | |
| 1. Pension/annuity exclusion | 852.7 | 726.4 | 900.8 | 896.3 | 897.4 | 1,055.0 | 1 |
| 2. Exclusion of Social Security and Tier I railroad retirement benefits (taxable Social Security for federal purposes but New York exempt) | 1,233.9 | 1,241.7 | 1,397.2 | 1,461.5 | 1,656.8 | 2,015.0 | 1 |
| 3. Exclusion of interest on U.S. obligations | 291.3 | 164.9 | 113.5 | 269.2 | 673.1 | 596.0 | 1 |
| 4. Exclusion of pensions, annuities, interest, and lump sum payments received by New York State and municipal retirees | 1,128.6 | 1,134.7 | 1,245.4 | 1,271.3 | 1,292.7 | 1,466.0 | 1 |
| 5. Exclusion of pensions, annuities, interest, and lump sum payments by federal retirement systems | 216.2 | 217.4 | 238.6 | 243.6 | 244.2 | 279.0 | 1 |

## New York modifications

The New York adjusted gross income of a resident or nonresident individual is defined as federal adjusted gross income with modifications as specified by New York Tax Law, Article 22, § 612.

1. **Pension/annuity exclusion**
   **Citation:** Tax Law § 612(c)(3-a)
   **Effective date:** Effective for taxable years beginning on or after January 1, 1982
   **Description:** Taxpayers aged 59 ½ and over may exclude from New York adjusted gross income pensions and annuities, to the extent included in federal adjusted gross income, but not in excess of $20,000 ($20,000 each for two married pensioners or annuitants filing jointly).

2. **Exclusion of Social Security and Tier 1 railroad retirement benefits (Taxable Social Security for federal purposes but New York exempt)**
   **Citation:** Tax Law § 612(c)(3-c)
   **Effective date:** Effective for taxable years beginning after December 31, 1983
   **Description:** Taxpayers may exclude from New York adjusted gross income Social Security and Tier 1 railroad retirement benefits, to the extent included in federal adjusted gross income.

3. **Exclusion of interest on U.S. obligations**
   **Citation:** Tax Law § 612(c)(1)
   **Effective date:** Effective for taxable years beginning on or after January 1, 1960
   **Description:** Taxpayers may exclude from New York adjusted gross income interest income on obligations of the United States and its possessions, to the extent included in federal adjusted gross income. Federal law prohibits New York from taxing this item.

4. **Exclusion of pensions, annuities, interest, and lump sum payments received by New York State and municipal retirees**
   **Citation:** Tax Law § 612(c)(3)(i)
   **Effective date:** Effective for taxable years beginning on or after January 1, 1960
   **Description:** Retirement payments received by officers and employees (or their beneficiaries) of New York State and its municipalities (including corporations and authorities), to the extent includable in federal adjusted gross income, may be subtracted in computing New York adjusted gross income. The State Constitution prohibits taxation of this income.

5. **Exclusion of pensions, annuities, interest, and lump sum payments by federal retirement systems**
   **Citation:** Tax Law § 612(c)(3)(ii)
   **Effective date:** Effective for tax years beginning on or after January 1, 1989
   **Description:** Payments received by officers and employees (and their beneficiaries) from federal retirement systems to the extent includable in federal adjusted gross income, may be subtracted in determining New York adjusted gross income. A 1989

U.S. Supreme Court ruling (*Davis v. Michigan Department of Treasury*) mandated that states must provide equal tax treatment for federal and state/local pensions.

6. **Disability income exclusion**
**Citation:** Tax Law § 612(c)(3-b)
**Effective date:** Effective for taxable years beginning after December 31, 1983
**Description:** A taxpayer may subtract up to $5,200 of disability income included in federal adjusted gross income, to the extent that such income would have been excluded from federal gross income prior to January 1, 1984, under the repealed provisions of Internal Revenue Code § 105(d). The total exclusion for disability and pension and annuity income may not exceed $20,000. The exclusion is reduced by the amount that the taxpayer's adjusted gross income exceeds $15,000.

7. **Exclusion of interest or dividends on obligations or securities of a U.S. agency**
**Citation:** Tax Law § 612(c)(2)
**Effective date:** Effective for taxable years on or after January 1, 1960
**Description:** Taxpayers may subtract from federal adjusted gross income, interest or dividend income on obligations or securities of a U.S. agency, to the extent that such income has been included in federal adjusted gross income. Federal law prohibits New York from taxing this income.

8. **Exclusion of interest or dividend income on obligations or securities taxable for federal purposes but exempt for New York Tax purposes**
**Citation:** Tax Law § 612(c)(6)
**Effective date:** Effective for taxable years beginning on or after January 1, 1960
**Description:** The taxpayer may subtract from federal adjusted gross income interest or dividend income on obligations or securities, to the extent that such income is exempt for New York income tax purposes under New York law but is subject to federal income tax.

9. **Exclusion of accelerated death benefits and viatical settlements**
**Citation:** Tax Law § 612(c)(30)
**Effective date:** Effective for taxable years beginning on or after January 1, 1991, for death benefits and for payments received on or after July 27, 1994, on viatical settlements.
**Description:** Taxpayers may subtract from federal adjusted gross income accelerated payments of part or all of the death benefit or special surrender value of a life insurance policy as a result of certain diagnoses (i.e., terminal illnesses), specified in the Insurance Law. Also, taxpayers may subtract the amount received from a viatical settlement company from the sale of a life insurance policy. Persons with catastrophic or life-threatening illnesses are eligible for this subtraction when they sell such policies to a viatical settlement company licensed by the New York State Department of Financial Services.

10. **Exclusion for contributions to New York State College Choice Tuition Savings Program**
**Citation:** Tax Law § 612(c)(32)
**Effective date:** Effective for taxable years beginning after December 31, 1997
**Description:** Taxpayers may subtract from federal adjusted gross income up to $5,000 per year ($10,000 for married couples filing jointly) of contributions to *family tuition accounts*, as defined in Education Law, Article 14-A, to the extent not deductible or eligible for credit for federal tax purposes. The maximum account balance may not exceed $520,000 per beneficiary, and the State Comptroller has authority to increase this figure to reflect increases in higher education costs.

11. **Deferral of gain from sale of qualified emerging technology investments**
**Citation:** Tax Law § 612(c)(34)
**Effective date:** Effective for qualified investments acquired on or after March 12, 1998
**Description:** Gain from the sale of qualified emerging technology investments may be subtracted from federal adjusted gross income, if reinvested in another qualified emerging technology investment. The amount subtracted must be added to federal adjusted gross income when the reinvestment is sold if the gain is not reinvested in a qualified emerging technology investment.

12. **Exclusion of payments to victims of Nazi persecution**
**Citation:** Tax Law §§ 612(c)(35) and (36)
**Effective date:** Effective for taxable years beginning on or after January 1, 1995
**Description:** Taxpayers may subtract certain distributions, to the extent included in federal adjusted gross income, made based on their status as a victim of Nazi persecution as defined in Public Law 103-286. The subtraction also applies to distributions received by victims' spouses and needy descendants. In addition, a subtraction is allowed for items of income included in federal adjusted gross income attributable to assets stolen or hidden from, or otherwise lost by victims of Nazi persecution immediately prior to, during, or after World War II.

13. **Exclusion of compensation for members of an organized militia**
**Citation:** Tax Law § 612(c)(8-b) (i)(ii)
**Effective date:** Effective for taxable years beginning on or after January 1, 2004
**Description:** An individual who is a member of a New York State organized militia may subtract from federal adjusted gross income compensation received for performing active service within New York State pursuant to active-duty orders issued by the Governor or the federal government.

14. **Exclusion for living human organ donors**
**Citation:** Tax Law § 612(c)(38)
**Effective date:** Effective for taxable years beginning on or after January 1, 2007 and before January 1, 2025
**Description:** Resident taxpayers may subtract certain unreimbursed expenses from federal adjusted gross income that are incurred by the taxpayer while donating one or more of their human organs, while living, to another human being for human organ

transplantation. Unreimbursed expenses include travel expenses, lodging expenses and lost wages. In addition, a *human organ* is defined as all or part of a liver, pancreas, kidney, intestine, lung, or bone marrow. The subtraction can only be claimed once and must be claimed in the taxable year in which the human organ transplantation occurs. The maximum allowable subtraction is $10,000 per taxpayer.

15. **Exclusion of compensation for service in a combat zone for members of the armed services of the United States**
**Citation:** Tax Law § 612(c)(8-c)
**Effective date:** Effective for taxable years beginning on or after January 1, 2008
**Description:** An individual who is a member of the armed services of the United States may subtract from federal adjusted gross income compensation received for performing active service in an area designated by the President of the United States by executive order as a *combat zone*.

16. **Exclusion of small business and/or farm income**
**Citation:** Tax Law § 612(c)(39)
**Effective date:** Effective for taxable years beginning on or after January 1, 2014
**Description:** Resident taxpayers with small business and/or farm income may subtract 3 percent of the net items of income, gain, loss, and deduction attributable to a business or farm included in federal adjusted gross income (but not less than zero) for tax year 2014. This was increased to 3.75 percent in tax year 2015, 5 percent for tax year 2016 until tax year 2022 where it was increased to 15 percent. Small business is defined as a sole proprietor or a farm business employing one or more persons during the taxable year that has net business income or net farm income of less than $250,000 or non-farm LLCs, partnerships, and S-corporations with less than $1.5 million in New York source gross income.

17. **Exclusion of income attributable to the New York State Business Incubator and Innovation Hot Spot Support Act**
**Citation:** Tax Law § 612(c)(39)
**Effective date:** Effective for taxable years beginning on or after January 1, 2014
**Description:** The creation of the New York State Business Incubator and Innovation Hot Spot Support Act allows an exclusion for five years beginning with the first tax year a qualified entity becomes a tenant in or part of an innovation hot spot. An individual who is the sole proprietor of a qualified entity, or a member of a limited liability company treated as a partnership, a partner in a partnership, or a shareholder in a New York S corporation, who if taxable under Article 22 is allowed a deduction (in the form of a subtraction modification) for the amount of income or gain included in his or her federal adjusted gross income, only to the extent that the income or gain is attributable to the operations of the qualified entity at (or as part of) an innovation hot spot. The amount of the subtraction modification is determined using books and records.

18. **Exclusion of wages received from an employer located in START-UP New York area**
**Citation:** Tax Law § 612(c)(40)

**Effective date**: Effective for taxable years beginning on or after January 1, 2014
**Description:** Resident taxpayers may subtract any wages received as an employee of a business located within a tax-free New York area during the first five years of such business's ten-year taxable year period to the extent the wages are included in federal adjusted gross income. During the second five years of such business's ten-year taxable period, resident taxpayers may subtract the first $200,000 of such wages in the case of a taxpayer filing as a single individual, the first $250,000 of such wages in the case of a taxpayer filing as a head of household, and $300,000 of such wages in the case of a taxpayer filing a joint return, to the extent included in federal adjusted gross income.

19. **Exclusion of service award for volunteer firefighters and ambulance workers**
**Citation:** Tax Law § 612(c)(41)
**Effective date:** Effective for taxable years beginning on or after January 1, 2014
**Description:** Volunteer firefighters and volunteer ambulance workers who have not attained the age of 59 ½ may subtract service awards included in gross income for federal tax purposes. To qualify for the subtraction modification, the service award must be from a length of service defined contribution plan or defined benefit plan as provided for in General Municipal Law Articles 11-A, 11-AA, 11-AAA, and 11-AAAA and be included in the calculation of the taxpayer's federal adjusted gross income for the tax year. However, a service award will not qualify for the subtraction modification if it is distributed in the form of a lump-sum distribution as defined in Internal Revenue Code, § 402(e)(4)(A) and taxed under New York State Tax Law, § 603.

20. **Exclusion of moving expenses and moving expense reimbursements**
**Citation:** Tax Law § 612(x)
**Effective date:** Effective for taxable years beginning on or after January 1, 2018
**Description:** Taxpayers may exclude from New York adjusted gross income any applicable moving expenses paid by the taxpayer during the taxable year and any applicable qualified moving expense reimbursement received by the taxpayer during the taxable year. Applicable qualified moving expenses and reimbursements are those deductions allowed under the Internal Revenue Code immediately prior to the enactment of Public Law 115-97.

21. **New York's COVID-19 pandemic small business recovery grants**
**Citation:** Tax Law § 612(c)(45)
**Effective date**: Taxable years beginning on or after January 1, 2021
**Description:** Grants received pursuant to New York's COVID-19 Pandemic Small Business Recovery Grant Program are excluded from taxable income.

22. **Deduction for commercial cannabis activity**
**Citation:** Tax Law § 612(c)(46)
**Effective date:** Taxable years beginning on or after January 1, 2022
**Description:** A taxpayer engaged in commercial cannabis activity may subtract expenses related to adult-use cannabis products that are disallowed federally under Internal Revenue Code § 280E.

## New York itemized deductions and exemptions

Individual taxpayers who elect not to use the standard deduction may reduce their New York adjusted gross income by their itemized deductions, and all taxpayers are allowed exemptions for dependents who qualify for the federal exemption.

23. **Value of standard deductions for those returns with itemized deductions in excess of standard deduction**
**Citation:** Tax Law § 614
**Effective date:** Effective for taxable years beginning on or after January 1, 1960
**Description:** Because all taxpayers are entitled to a standard deduction as a minimum, itemizers have their standard deduction built into their total deduction.

24. **Itemized deductions**
Taxpayers may itemize deductions on their State returns irrespective of actions taken on their federal returns.

New York itemized deductions are freestanding and represent federal law as it existed for Tax Year 2017. Thus, the citations below reference the Internal Revenue Code prior to the enactment of Public Law 115-97. They are authorized in New York Tax Law, Article 22, § 615. New York limits the availability of itemized deductions for certain high-income taxpayers. The percentage of disallowed deductions varies according to the taxpayer's New York adjusted gross income and filing status. Itemized deductions for a single taxpayer with New York adjusted gross income in excess of $100,000 are reduced by up to 25 percent. This reduction also applies to married taxpayers filing jointly with New York adjusted gross income in excess of $200,000 and heads of household with New York adjusted gross income exceeding $250,000. For all taxpayers with New York adjusted gross income above $475,000, itemized deductions are reduced by up to an additional 25 percent, equaling 50 percent for all taxpayers with New York adjusted gross income above $525,000. Beginning in tax year 2009 and after, the New York itemized deduction limitation has been revised to further limit a taxpayer's New York itemized deduction. If a taxpayer's New York adjusted gross income is more than $1,000,000, but not more than $10 million, the New York itemized deduction is limited to 50 percent of the federal itemized deduction for charitable contributions. For tax years beginning after 2012, if an individual's New York adjusted gross income is more than $10 million, the itemized deduction is limited to 25 percent of the federal itemized deduction for charitable contributions. All other federal itemized deductions are reduced to zero.

The federal itemized deduction limitation that was in effect prior to enactment of Public Law 115-97 further reduces the value of the deductions.

a. **Medical/dental deduction**
**Citation:** Internal Revenue Code § 213
**Effective date:** Effective for taxable years beginning on or after January 1, 1960

**Description:** Medical and dental expenses paid during the taxable year by and on behalf of the individual or his/her spouse or dependent may be deducted from federal adjusted gross income, as an itemized deduction, to the extent that the expenses (a) exceed 7.5 percent of adjusted gross income, and (b) are not compensated for by insurance or otherwise.

b. **Interest deduction**
**Citation:** Internal Revenue Code § 163
**Effective date:** Effective for taxable years beginning on or after January 1, 1960
**Description:** A taxpayer may deduct mortgage and investment interest paid or accrued during the taxable year on debt owed by the taxpayer. However, interest incurred on loans made to purchase securities, the income from which is tax-exempt in New York, is not deductible for New York purposes. Generally, mortgage interest is totally deductible (certain limitations apply).

c. **Charitable contribution deduction**
**Citation:** Internal Revenue Code § 170
**Effective date:** Effective for taxable years beginning on or after January 1, 1960
**Description:** Taxpayers may subtract from federal adjusted gross income contributions made to qualified organizations, up to a limit of 60 percent of their adjusted gross income. In certain cases, lower limits may apply.

d. **Casualty/theft deduction**
**Citation:** Internal Revenue Code § 165
**Effective date:** Effective for taxable years beginning on or after January 1, 1960
**Description:** Individuals may deduct casualty losses. Casualty losses mean uncompensated losses sustained as a result of the total or partial destruction of property, caused by a sudden, unexpected, or unusual event. Losses incurred as a consequence of the theft or embezzlement of the taxpayer's property may also be deducted from federal gross income. In both cases, a deduction is allowed only with respect to individual losses that exceed $100 and to the extent that total net losses exceed 10 percent of federal adjusted gross income.

e. **Taxes paid deduction**
**Citation:** Internal Revenue Code §§ 164, 615(c)(1)
**Effective date:** Effective for taxable years beginning on or after January 1, 1960, for property taxes. Effective for taxable years beginning on or after January 1, 2010, and expiring at the end of tax year 2011 for sales and use taxes.
**Description:** Individuals may deduct from federal adjusted gross income, real and personal property taxes that have been paid to any state, local or foreign government during the year.

f. **Miscellaneous deductions subject to 2 percent of adjusted gross income limitation**
**Citation:** Internal Revenue Code §§ 67, 212, 280A

**Effective date:** Effective for taxable years beginning after December 31, 1986 (§ 67); on or after January 1, 1960 (§ 212); after December 31, 1975 (§ 280A)
**Description:** Taxpayers may deduct certain miscellaneous expenses. Miscellaneous itemized deductions consist of three broad categories of personal expenses: deductible employee expenses, deductible expenses of producing income, and other deductible expenses (essentially, tax counsel and assistance and appraisal fees). The first two categories include such items as work clothes and uniforms, union dues and expenses, safe deposit box rentals, and malpractice insurance premiums.

g. **Other miscellaneous deductions**
**Citation:** Internal Revenue Code § 67
**Effective date:** Effective for taxable years beginning on or after January 1, 1987
**Description:** Taxpayers may deduct miscellaneous expenses not subject to the 2 percent AGI limitation. These include gambling losses (up to the amount of gambling winnings), impairment-related work expenses, and certain other expenses.

h. **Union dues deduction**
**Citation:** Tax Law § 615(d)
**Effective date:** Effective for taxable years beginning on or after January 1, 2018
**Description:** A taxpayer may deduct the full amount of union dues paid during a tax year to the extent the dues were not allowed as a federal miscellaneous itemized deduction under Internal Revenue Code § 67. In the event that any amount of dues was allowed under Internal Revenue Code § 67, then the amount allowed as a New York State itemized deduction is equal to the amount of union dues disallowed under federal law.

25. **Dependent exemptions**
**Citation:** Tax Law § 616
**Effective date:** Effective for taxable years beginning on or after January 1, 1960
**Description:** In computing taxable income, taxpayers may deduct $1,000 for each exemption for qualified dependents for which they are entitled a deduction for federal income tax purposes.

## New York credits

Credits are amounts that may be subtracted from the individual's computed State tax liability. The credits described below are specific to the personal income tax. Descriptions of other tax credits that are available under the personal income tax as well as other tax articles are contained in the Cross-Article Tax Credits section of the report.

26. **Household credit**
**Citation:** Tax Law § 606(b)
**Credit type:** Nonrefundable/non-carryforward
**Effective date:** Effective for taxable years beginning on or after January 1, 1978

**Description:** Taxpayers with certain incomes may claim a credit as shown in the table below:

| Single filing status if federal adjusted gross income is: | | | All other filing statuses if federal adjusted gross income is: | | | |
|---|---|---|---|---|---|---|
| Over | but not over | the credit is | Over | but not over | the credit is | + for each federal exemption |
| $ 0 | $ 5,000 | $75 | $ 0 | $ 5,000 | $75 | $15 |
| 5,000 | 6,000 | 60 | 5,000 | 6,000 | 60 | 15 |
| 6,000 | 7,000 | 50 | 6,000 | 7,000 | 50 | 15 |
| 7,000 | 20,000 | 45 | 7,000 | 20,000 | 45 | 15 |
| 20,000 | 25,000 | 40 | 20,000 | 22,000 | 50 | 10 |
| 25,000 | 28,000 | 20 | 22,000 | 25,000 | 40 | 10 |
| 28,000 | | No credit | 25,000 | 28,000 | 35 | 5 |
| | | | 28,000 | 32,000 | 15 | 5 |
| | | | 32,000 | | No credit | |

27. **Earned income credit**

**Citation:** Internal Revenue Code § 32, Tax Law § 606(d)
**Credit type:** Refundable (residents only)
**Effective date:** Effective for taxable years beginning after 1993
**Description:** Taxpayers may claim a credit equal to 30 percent of their federal earned income credit. In previous tax years, the credit equaled the following percentages of the federal credit:

| 1994 | 1995 | 1996-1999 | 2000 | 2001 | 2002 | 2003+ |
|---|---|---|---|---|---|---|
| 7.5% | 10% | 20% | 22.5% | 25% | 27.5% | 30.0% |

The table below shows income eligibility parameters and maximum amounts for the 2026 tax year:

| Eligibility Parameters | Maximum creditable earnings | Federal credit rate | Maximum state credit | Income for start of phase-out (MFJ)* | Others | Income cut-off (MFJ)* | Others |
|---|---|---|---|---|---|---|---|
| Taxpayers with 1 child | 13,020 | 34% | 1,328 | 31,160 | 23,890 | 58,863 | 51,593 |
| Taxpayers with 2 children | 18,290 | 40% | 2,195 | 31,160 | 23,890 | 65,899 | 58,629 |
| Taxpayers with 3 or more children | 18,290 | 45% | 2,469 | 31,160 | 23,890 | 70,244 | 62,974 |
| Taxpayers aged 25-64 without children | 8,680 | 7.65% | 199 | 18,140 | 10,860 | 26,820 | 19,540 |

* Earned income or federal adjusted gross income, whichever is greater.

Taxpayers must subtract the amount of household credit used to reduce tax liability from the earned income credit.

28. **Real property tax credit (circuit breaker)**
**Citation**: Tax Law § 606(e)
**Credit type:** Refundable
**Effective date:** Effective for taxable years beginning after December 31, 1977
**Description:** Qualified individuals may claim a credit against excess real property taxes, determined according to the level of income, subject to certain specified conditions and limits. Eligibility for the credit depends on the size of income ($18,000 or less), property use, the value of the property, or the adjusted rent of a tenant. The credit claimant must be a New York resident for the entire taxable year.

Prior to tax year 2025, the credit was equal to 50 percent of excess property taxes capped at certain amounts that varied by household income. For taxpayers aged 65 and over the minimum credit is $86 and the maximum credit is $375 and for taxpayers under age 65 the minimum credit is $41 and the maximum credit is $75.

For tax years beginning on or after January 1, 2025, the credit calculation is simplified by changing the basis of the credit from household income to federal adjusted gross income, condensing the credit brackets, creating a fixed credit amount that varies by income, and increasing the minimum credit amounts to $150 for seniors and $50 for taxpayers under age 65.

29. **Child and dependent care credit**
**Citation:** Tax Law § 606(c)
**Credit type:** Refundable (residents only)
**Effective date:** Effective for taxable years beginning after December 31, 1976
**Description:** Taxpayers may claim a credit equal to a percentage of the federal credit for household and dependent care expenses necessary to allow gainful employment. The federal credit is based upon maximum work-related, allowable expenses of a total of $3,000 for one qualifying individual, or $6,000 for two or more qualifying individuals. The maximum credit rate is 35 percent for taxpayers with incomes less than $15,000 and a minimum credit rate of 20 percent for taxpayers with incomes exceeding $43,000.

The New York State credit is refundable and equals varying percentages of the federal credit ranging from 110 percent where New York adjusted gross income is $25,000 or less to 20 percent where New York adjusted gross income exceeds $150,000. In addition, the New York State credit is calculated allowing higher expense maximums for those with more than two qualifying individuals: $7,500 (three qualifying individuals), $8,500 (four), and $9,000 (five or more).

30. **Accumulation distribution credit**
**Citation:** Tax Law §§ 621 and 635
**Credit type:** Nonrefundable/non-carryforward
**Effective date:** Effective for taxable years beginning on or after January 1, 1962
**Description:** Beneficiaries of trusts (residents and nonresidents) receiving an accumulation distribution can claim a credit for tax paid by the trust fiduciary on income included in the distribution.

31. **Solar energy system equipment credit**
**Citation:** Tax Law § 606(g-1)
**Credit type:** Nonrefundable/carryforward
**Effective date:** Effective for property placed in service in taxable years beginning on or after January 1, 1998
**Description:** Taxpayers may claim a credit equal to 25 percent of qualified solar energy system equipment expenditures that are for the purchase and installation of solar energy system equipment used at a principal residence in New York. Qualified expenditures also include expenditures for the leasing of solar energy systems equipment or the purchase of power generated by qualified systems under a written agreement that spans at least ten years. The credit was expanded in 2008 to apply to members of large multi-unit dwellings like cooperative housing corporations and condominium associations. Qualified expenditures include material and installation costs relating to components utilizing solar radiation to produce energy designed to provide heating, cooling, hot water, or electricity for residential use. The credit was capped at $3,750 for equipment placed in service before September 1, 2006, and $5,000 for equipment placed in service after such date. If the credit exceeds tax liability, taxpayers may carry over the credit for five years.

32. **College tuition credit/deduction**
**Citation:** Tax Law §§ 606(t), 615(d)(4)
**Credit type:** Refundable
**Effective date:** Effective for tax years beginning on or after January 1, 2001
**Description:** A credit is permitted for undergraduate college tuition expenses paid by New York residents on behalf of themselves, their spouses, or dependents to attend qualifying in-state or out-of-state institutions of higher education. The credit equals 4 percent of expenses, up to a maximum of $10,000 of expenses per student. The minimum credit equals the lesser of expenses or $200.

In lieu of the credit, both resident and nonresident taxpayers may elect to deduct qualifying expenses as an itemized deduction. The maximum deduction is a maximum of $10,000 of expenses per student.

Qualifying tuition expenses are defined as net of scholarships and financial aid. Qualifying institutions include colleges and business, trade, technical, or other occupational schools recognized and approved by the Regents of the University of the State of New York, or by other nationally recognized accrediting agencies accepted by the Regents that provide study leading to a post-secondary degree, certificate, or diploma. Tuition paid by a dependent student who is claimed on a parent's New York return is attributed to the parent and used by the parent to claim the credit or deduction.

**College tuition credit/deduction in 2023**
**by New York adjusted gross income**

| New York adjusted gross income | Number of claims | Amount claimed (millions $) |
|---|---|---|
| Less than $10,000 | 34,834 | $10.1 |
| $ 10,000 - $24,999 | 66,071 | $17.7 |
| $ 25,000 - $49,999 | 92,812 | $24.4 |
| $ 50,000 - $99,999 | 99,261 | $28.9 |
| $100,000 - $199,999 | 106,383 | $39.4 |
| $200,000 and over | 84,263 | $36.3 |
| **Total:** | **483,624** | **$156.9** |

33. **Nursing home assessment tax credit**
**Citation:** Tax Law § 606(hh)
**Credit type:** Refundable
**Effective date:** Effective for taxable years beginning on or after January 1, 2005
**Description:** Taxpayers may claim a nursing home assessment tax credit equal to the assessment imposed on the gross receipts of residential health care facilities under Public Health Law § 2807-d. The credit is allowed in cases where the assessment is paid by the taxpayer and is not covered under Medicaid or private insurance.

**Nursing home assessment tax credit in 2023**
**by New York adjusted gross income**

| New York adjusted gross income | Number of claims | Amount claimed (millions $) |
|---|---|---|
| Less than $10,000 | 1,450 | $6.5 |
| $ 10,000 - $24,999 | 550 | $2.9 |
| $ 25,000 - $49,999 | 490 | $2.9 |
| $ 50,000 - $99,999 | 505 | $3.3 |
| $100,000 - $199,999 | 323 | $2.5 |
| $200,000 and over | 152 | $1.2 |
| **Total:** | **3,470** | **$19.3** |

34. **Empire State child credit**
**Citation:** Tax Law § 606(c-1)
**Credit type:** Refundable (residents only)
**Effective date:** Effective for taxable years beginning on or after January 1, 2006
**Description:** For tax years prior to 2025, resident taxpayers with children ages four through sixteen may claim a credit equal to the greater of $100 times the number of children who qualify for the federal child tax credit as it existed for tax year 2017, or 33 percent of the taxpayer's allowed federal child tax credit as it existed for tax year 2017. The federal credit is based on 2017 law and is a maximum of $1,000 per qualifying child. The federal credit phases-out beginning at $110,000 of modified federal adjusted gross income for married taxpayers filing jointly, and $75,000 for others. New York taxpayers with modified federal adjusted gross income above these thresholds may only claim a New York credit equal to 33 percent of their allowed federal credit.

For tax years beginning on or after January 1, 2023, the Empire State child credit was expanded to include children under the age of four.

For tax years 2025 through 2027, the Empire State child credit is temporarily enhanced and decoupled from the 2017 federal credit calculation. In tax years 2025 through 2027, resident taxpayers may claim a $1,000 credit per child under age four. The credit for children ages four through sixteen is $330 per child in tax year 2025 and $500 per child in tax years 2026 and 2027. The credit phases out beginning at $110,000 of federal adjusted gross income for married taxpayers filing jointly; $75,000 for single, head of household, or qualifying surviving spouse; and $55,000 for married filing separate.

35. **Enhanced State earned income tax credit for certain non-custodial parents**
**Citation:** Tax Law § 606(d-1)
**Credit type:** Refundable (residents only)
**Effective date:** Effective for taxable years beginning on or after January 1, 2006
**Description:** Certain taxpayers may claim an enhanced New York State earned income tax credit. To qualify for the enhanced credit, claimants must be a resident taxpayer, age 18 and over, and have a minor child with whom they do not reside. The credit is equal to the greater of 20 percent of the federal earned income tax credit that the taxpayer would otherwise be able to claim for one qualifying child (if they were a custodial parent) or two and one-half times the earned income tax credit for taxpayers without qualifying children. Claimants must have a child support order in effect for at least half the tax year and have made required support payments. In addition, unlike the existing state earned income tax credit, the amount of credit allowed is not reduced by the amount of the state household credit used by the taxpayer. Taxpayers are not allowed more than one credit if they have multiple children or support orders.

36. **Volunteer firefighters and ambulance workers credit**
**Citation:** Tax Law § 606(e-1)
**Credit type:** Refundable
**Effective date:** Effective for taxable years beginning on or after January 1, 2007
**Description:** Resident taxpayers serving as active volunteer firefighters or volunteer ambulance workers may claim a $200 credit. To receive the credit, the taxpayer must be an active volunteer for the entire taxable year and must not be receiving a real property tax exemption relating to such service. In the case of a taxpayer and spouse filing jointly who both qualify for the credit, the amount of the credit is $400.

37. **Historic homeownership rehabilitation credit**
**Citation:** Tax Law § 606(pp)
**Credit type:** Nonrefundable/Carryforward/Refundable to certain taxpayers
**Effective date:** Effective for taxable years beginning on or after January 1, 2007/Amended credit effective for taxable years beginning on or after January 1, 2010 and before January 1, 2025
**Description**: Taxpayers may claim a tax credit for the rehabilitation of historic homes located in New York State. The amount of the credit is equal to 20 percent of qualified rehabilitation expenditures made by the taxpayer with respect to a qualified historic home. A qualified historic home is defined as one located in a targeted area within the meaning of Internal Revenue Code § 143(j) and located in an area of a city, town, or village whose governing body has identified by resolution that such area is an area in

need of community renewal, and that has adopted an historic preservation and community renewal program. The taxpayer must own the home and reside there during the taxable year. The credit is limited to $25,000 per residence. For taxable years beginning on or after January 1, 2010, the credit is amended by increasing the credit cap from $25,000 to $50,000, making the credit refundable for taxpayers with New York adjusted gross income that is less than or equal to $60,000, and expanding the definition of eligible properties to include those located within a census tract that is at or below 100 percent of the state median family income in the most recent federal census. After December 31, 2024, the credit reverts back to pre-2010 law.

38. **STAR credit for homeowners**
**Citation:** Tax Law § 606(eee)
**Credit type:** Refundable
**Effective date:** Effective for taxable years beginning on or after January 1, 2016
**Description:** Beginning with the 2016-2017 assessment rolls, homeowners enrolled in the STAR program may receive their STAR savings in the form of an advanced refundable personal income tax credit, delivered as a check or direct deposit directly from New York State. First-time homebuyers and homeowners who move may only enroll in the STAR credit program, while homeowners previously enrolled for the STAR exemption have the option of transferring to the credit but are not obligated to do so. STAR registration is only required once, and registered homeowners will continue to automatically receive a STAR credit payment in the future, provided they are eligible.

39. **STAR credit for New York City residents**
**Citation:** Tax Law § 606(eee)
**Credit type:** Refundable
**Effective date:** Effective for taxable years beginning on or after January 1, 2016
**Description:** Resident taxpayers in New York City whose incomes are $250,000 or less may claim a refundable School Tax Relief *Fixed Amount* Credit in the amount of $125 for married taxpayers filing jointly and $62.50 for all others. Effective for taxable years beginning on or after January 1, 2017, the credit is expanded to include a refundable *rate reduction amount*. City residents whose incomes are $500,000 or less who previously received the benefit of lower New York City personal income tax rates are instead eligible to receive this equivalent state income tax credit.

40. **Employer compensation expense program wage credit**
**Citation:** Tax Law § 606(ccc)
**Credit type:** Nonrefundable/Carryforward
**Effective date:** Effective for taxable years beginning on or after January 1, 2019
**Description:** Employees working for an employer who elected to participate in the Employer Compensation Expense Program (ECEP) may be entitled to claim the ECEP wage credit. The credit amount is equal to 1.5 percent of eligible wages earned in tax year 2019, increasing to 3 percent in 2020 and 5 percent in tax years 2021 and after. For purposes of claiming the credit, eligible wages are wages and compensation in excess of $40,000 paid by an employer participating in the program. Qualifying

taxpayers must reduce the credit amount by their effective personal income tax rate calculated prior to the application of any credits.

41. **Pass-through entity tax credit**
**Citation:** Tax Law § 606(kkk)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2021
**Description:** Taxpayers subject to New York State personal income tax who are direct partners, members or shareholders of a partnership or S corporation that elects to pay an optional pass-through entity tax under New York State Tax Law Article 24-A, add back their share of the pass-through entity tax expense at the federal level as an income modification and then take the pass-through entity tax credit. Each eligible taxpayer's pass-through entity tax credit is equal to the taxpayer's direct share of pass-through entity tax that was reported by the electing entity on the entity's pass-through entity tax annual return.

42. **Geothermal energy systems credit**
**Citation:** Tax Law § 606(g-4)
**Credit type:** Nonrefundable; for tax years beginning on or after January 1, 2026 refundable for certain taxpayers.
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2022
**Description:** Taxpayers may claim a credit for 25 percent of costs related to the installation of a qualified geothermal energy system, with the credit capped at $5,000. For qualified systems placed in service on or after July 1, 2025, the credit cap is increased to $10,000. Unused credits may be carried forward up to five years.

Qualified expenditures refer to the purchase or lease of at least 10 years of geothermal equipment installed in a residential property located in state and is the taxpayer's residence at the time of installation. The expenses include materials, labor allocable to on-site preparation, assembly and original installation, architectural and engineering services, and designs and plans directly related to the construction or installation of the geothermal system equipment. Interest, finance charges, grants, or other costs used for any other credit cannot be used in the calculation of the credit.

In the case of equipment installed in a shared residence, the credit is prorated for each taxpayer based on its share of costs for installing the system. For lease agreements, the credit may only be claimed for 15 years and the 25 percent limit is on the aggregate payments made under the agreement.

For tax years beginning on or after January 1, 2026, the credit will become refundable for taxpayers with a federal adjusted gross income of $180,000 or less if they are filing as married filing jointly or qualified surviving spouse, or a federal adjusted gross income of $90,000 or less if they are filing single, married filing separately, or head of household.

43. **Real property tax relief credit**
**Citation:** Tax Law § 606(e-2)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2021, and before January 1, 2024
**Description:** The credit is computed using the amount of real property tax that exceeds 6 percent of the taxpayer's income, and a specified rate based on the taxpayer's income. To claim the credit, the computed amount must exceed $250. The credit cannot exceed $350, no matter the amount of the calculation.

To be eligible for this credit, New York State residents must have: (i) qualified gross income of $250,000 or less; (ii) owned and resided in New York State real property for more than six months; (iii) received either the STAR exemption or school tax relief credit; and (iv) paid real property taxes.

44. **Organ donation credit**
**Citation:** Tax Law § 606(ttt)
**Credit type:** Refundable
**Effective date of credit:** Effective for taxable years beginning on or after January 1, 2025
**Description:** Full-year resident taxpayers who, while living, donate one or more of their organs can claim a refundable credit for unreimbursed travel expenses, lodging expenses, and lost wages related to the organ donation that are incurred in the taxable year in which human organ transplantation occurs. The credit is capped at $10,000 and may only be claimed once. The credit may not apply to an organ donation for which the taxpayer received benefits under the Living Donor Support Program administered by the Department of Health (*Public Health Law § 4371*).

This section of the report lists 99 separate tax expenditures for the corporation franchise tax on general business corporations and banks. The list of tax expenditures is based on the Tax Law as of January 1, 2026. The listing includes some provisions that were repealed or allowed to sunset prior to 2026 to provide a complete history of the expenditure. Table 2 summarizes the tax expenditure estimates and includes total Article 9-A corporate franchise tax liability for the 2022 tax year to provide a benchmark for the tax expenditure estimates. Repealed tax expenditures are removed from the report in the year following the publication of a complete history of the expenditure.

In 2014, New York enacted comprehensive corporate tax reform, which took effect for tax years beginning on or after January 1, 2015. Given the significant changes to the tax structure, all of the individual expenditures listed in this section are considered effective for tax years beginning on or after January 1, 2015, even if they existed in years before reform.

Pre-reform descriptions of Articles 9-A and 32 and historical estimates of the tax expenditures for pre-reform tax years (prior to 2015) are reported in Appendices A and B in the FY 2020 Tax Expenditure Report.

## Description of tax

The corporate franchise tax has three separate bases. The business income base is the primary tax base, while the business capital and fixed dollar minimum tax bases are alternatives. Corporations pay the highest tax computed on these bases less applicable credits, but generally not less than the fixed dollar amount.

The calculation of the tax on business income begins with federal taxable income for U.S. corporations (including domestic banks) or effectively connected income, with treaty benefits added back, for alien (non-U.S.) corporations. Taxpayers then make several state specific modifications to arrive at entire net income. Many of these modifications are the tax expenditures included in this section. Investment income and other exempt income are then subtracted from entire net income, resulting in business income. Taxpayers use a single receipts factor with market-based sourcing rules to apportion business income to New York State.

The following table provides the tax rate schedule as it applies to the business income base:

| Type of business | Tax year 2015 | Tax year 2016 | Tax year 2017 | Tax years 2018 – 2020 | Tax years 2021 – 2026 | Tax year 2027 and thereafter |
|---|---|---|---|---|---|---|
| Qualified New York manufacturers | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% | 0.0% |
| Qualified emerging technology companies | 5.7% | 5.5% | 5.5% | 4.875% | 4.875% | 4.875% |
| Small businesses[1] | 6.5% | 6.5% | 6.5% | 6.5% | 6.5% | 6.5% |
| Taxpayers with business income base of more than $5 million | 7.1% | 6.5% | 6.5% | 6.5% | 7.25% | 6.5% |
| Remaining taxpayers | 7.1% | 6.5% | 6.5% | 6.5% | 6.5% | 6.5% |

[1] For the 2015 tax year, graduated rates apply to small businesses with business income over $290,000 but below $390,000. A flat 6.5% rate applies to tax years beginning on or after January 1, 2016.

The tax on business capital starts with the taxpayer's total assets reduced by its liabilities to arrive at total capital before apportionment. Taxpayers then subtract out investment capital as only business capital is subject to tax. Taxpayers multiply business capital by the business apportionment factor to determine the apportioned business capital base. For tax years beginning on or after January 1, 2021, qualified New York manufacturers, qualified emerging technology companies, cooperative housing corporations, and small business taxpayers are exempt from the capital base tax. The tax is capped at $5 million for remaining taxpayers subject to the base.

The capital base that was set to expire in tax year 2021 has been temporarily reinstated through tax year 2026. The following rate schedule applies to the capital base:

| Type of business | Tax year 2015 | Tax year 2016 | Tax year 2017 | Tax year 2018 | Tax year 2019 | Tax year 2020 | Tax years 2021 - 2026 | Tax year 2027 and thereafter |
|---|---|---|---|---|---|---|---|---|
| Qualified New York manufacturers & qualified emerging technology companies | 0.132% | 0.106% | 0.085% | 0.056% | 0.038% | 0.019% | 0% | 0% |
| Cooperative housing corporations | 0.04% | 0.04% | 0.04% | 0.04% | 0.04% | 0.025% | 0% | 0% |
| Small businesses | 0.15% | 0.125% | 0.100% | 0.075% | 0.050% | 0.025% | 0% | 0% |
| Remaining taxpayers | 0.15% | 0.125% | 0.100% | 0.075% | 0.050% | 0.025% | 0.1875% | 0% |

The fixed dollar minimum tax ranges from $25 to $200,000 depending on the taxpayer's New York receipts for the taxable year. Manufacturers, qualified emerging technology companies, non-captive real estate investment trusts, and non-captive regulated investment companies are subject to lower amounts.

Qualified New York manufacturers and qualified emerging technology companies are subject to the following fixed dollar minimum schedule:

| New York receipts | Tax year 2015 | Tax year 2016 | Tax year 2017 | Tax year 2018 and thereafter |
|---|---|---|---|---|
| Not more than $100,000 | $22 | $21 | $21 | $19 |
| More than $100,000 but not over $250,000 | $66 | $63 | $63 | $56 |
| More than $250,000 but not over $500,000 | $153 | $148 | $148 | $131 |
| More than $500,000 but not over $1,000,000 | $439 | $423 | $423 | $375 |
| More than $1,000,000 but not over $5,000,000 | $1,316 | $1,269 | $1,269 | $1,125 |
| More than $5,000,000 but not over $25,000,000 | $3,070 | $2,961 | $2,961 | $2,625 |
| Over $25 million | $4,385 | $4,230 | $4,230 | $3,750 |

Non-captive real estate investment trusts and non-captive regulated investment companies are subject to the following fixed dollar minimum schedule:

| New York receipts | Tax year 2016 and thereafter |
|---|---|
| Not more than $100,000 | $25 |
| More than $100,000 but not more than $250,000 | $75 |
| More than $250,000 but not over $500,000 | $175 |
| More than $500,000 | $500 |

Remaining taxpayers are subject to the following fixed dollar minimum schedule:

| New York receipts | Tax year 2015 and thereafter |
|---|---|
| Not more than $100,000 | $25 |
| More than $100,000 but not more than $250,000 | $75 |
| More than $250,000 but not over $500,000 | $175 |
| More than $500,000 but not over $1,000,000 | $500 |
| More than $1,000,000 but not over $5,000,000 | $1,500 |
| More than $5,000,000 but not over $25,000,000 | $3,500 |
| More than $25,000,000 but not over $50,000,000 | $5,000 |
| More than $50,000,000 but not over $100,000,000 | $10,000 |
| More than $100,000,000 but not over $250,000,000 | $20,000 |
| More than $250,000,000 but not over $500,000,000 | $50,000 |
| More than $500,000,000 but not over $1 billion | $100,000 |
| Over $1 billion | $200,000 |

## Data source

The major source of data used to compute the tax expenditure estimates is the Article 9-A study file compiled by the Department of Taxation and Finance. This study file includes information from tax returns filed under Article 9-A for tax years that began January 2022 through December 2022.

## Methodology

The projections of the tax expenditures from 2022 to 2026 account for tax law changes applicable in the forecast year.

Forecasts for modifications, exemptions, exclusions and base and rate preferences are estimated using a tax simulation model that adjusts only for law changes between the study file year and the forecast year. No other assumptions are made regarding economic growth or behavioral changes. Estimates for the credits are based on law changes, historical trends, and information supplied by other State agencies where applicable.

**Table 2**
**2026 New York State corporate franchise tax expenditure estimates (in millions of dollars)**
**(2022 total corporate franchise tax liability = $ 6,656 million)**

| Tax item | History | | | | | Forecast | |
|---|---|---|---|---|---|---|---|
| | 2018 | 2019 | 2020 | 2021 | 2022 | 2026 | Reliability level |
| **New York modifications to federal taxable income / effectively connected income** | | | | | | | |
| 1. Deduction of distributions made to victims or targets of Nazi persecution | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 0.0 | 1 |

1. The 2018 value includes the impact of exempting the one-time recognition of mandatory deemed repatriation income. The value includes the impact of exempting 95 percent of global intangible low-taxed income beginning in 2019/ net CFC tested income beginning in 2026.
2. A new expenditure item, revision of the methodology or revisions in the data sources resulting in a change that better reflects the tax expenditure value.

* Less than $0.1 million.

-- The tax expenditure was not applicable for these years.

N/A No data available.

## New York modifications to federal taxable income/effectively connected income

In computing New York entire net income, Article 9-A of the New York State Tax Law allows certain modifications to entire net income/effectively connected income.

1. **Deduction of distributions made to victims or targets of Nazi persecution**
   **Citation:** Tax Law § 13
   **Effective date:** Effective for tax years beginning on or after January 1, 2015
   **Description:** A taxpayer may exclude the amount received (including accumulated interest) from an eligible settlement fund, or from an eligible grantor trust established for the benefit of the victims or targets of Nazi persecution when computing New York entire net income.

2. **Deduction of receipts from school bus operations**
   **Citation:** Tax Law § 208(9)(a)(4)
   **Effective date:** Effective for tax years beginning on or after January 1, 2015
   **Description:** A taxpayer may exclude income less deductions with respect to amounts received from school districts and nonprofit religious, charitable, or educational organizations for the operation of school buses in determining entire net income.

3. **Deduction of taxable refunds or credits of State Tax**
   **Citation:** Tax Law § 208(9)(a)(5)
   **Effective date:** Effective for tax years beginning on or after January 1, 2015
   **Description:** A taxpayer may exclude any refund or credit of a tax imposed under Tax Law Article 9 (§§ 183, 183-a, 184, and 184-a), or Article 9-A, 23, or former 32 that was properly included as income for federal income tax purposes, and for which no exclusion or deduction was allowed in determining the taxpayer's entire net income for any prior year.

4. **Wage and salary expenses allowed as federal credits but not as federal expenses**
   **Citation:** Tax Law § 208(9)(a)(7)
   **Effective date:** Effective for tax years beginning on or after January 1, 2015
   **Description:** A taxpayer may exclude the amount of wages disallowed under Internal Revenue Code § 280C in the calculation of their applicable federal income from entire net income.

5. **Deferred gain on qualified emerging technology investments**
   **Citation:** Tax Law § 208(9)(a)(14)
   **Effective date:** Effective for tax years beginning on or after January 1, 2015
   **Description:** A deferral of gain on the sale of a qualified emerging technology investment is available to taxpayers for a qualified emerging technology investment that is (1) held for more than 36 months and (2) rolled over into the purchase of a replacement qualified emerging technology investment within 365 days. Gain deferred under this provision must be recognized when the replacement qualified emerging

technology investment is sold. However, gain on the sale of the replacement qualified emerging technology investment can be deferred if another replacement qualified emerging technology investment is acquired within 365 days.

6. **Federal Internal Revenue Code § 179 deduction recapture for a sport utility vehicle (SUV)**
**Citation:** Tax Law § 208(9)(a)(16)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** A taxpayer that previously claimed an Internal Revenue Code § 179 deduction with respect to an SUV may exclude the amount of that deduction that was recaptured in computing federal income.

7. **Modification for qualified residential loan portfolios**
**Citation:** Tax Law §§ 208(9)(a)(19), 208(9)(r)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** A thrift institution or a qualified community bank that maintains a qualified residential loan portfolio may deduct from federal taxable income the amount, if any, by which 32 percent of its entire net income exceeds the amounts deducted by the taxpayer pursuant to Internal Revenue Code §§ 166 and 585, less any amounts included in federal taxable income as a result of a recovery of a loan. A taxpayer utilizing this modification may not use the modifications described in items 8 and 9.

8. **Modification for community banks and small thrifts**
**Citation:** Tax Law §§ 208(9)(a)(19), 208(9)(s)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** A qualified community bank or a small thrift institution may be allowed a deduction in computing entire net income equal to the product of the taxpayer's net interest income from loans, a ratio of gross interest income during the taxable year from qualifying loans to gross interest income during the taxable year from all loans, and 50 percent. A taxpayer utilizing this modification may not use the modifications described in items 7 and 9.

9. **Captive real estate investment trust modification for small thrifts and community banks**
**Citation:** Tax Law §§ 208(9)(a)(19), 208(9)(t)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** A small thrift institution or a qualified community bank that maintained a captive real estate investment trust as of April 1, 2014, and continues to maintain such real estate investment trust must utilize a subtraction equal to 160 percent of the dividends paid deductions allowed to that captive real estate investment trust for the taxable year for federal income tax purposes. A taxpayer utilizing this modification may not use the modifications described in items 7 and 8.

10. **Exclusion of income for foreign airlines**
**Citation:** Tax Law § 208(9)(c-1)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** Certain foreign airlines may exclude all income from international operations of aircraft effectively connected to the United States, foreign passive income, and income earned overseas from overseas operations of aircraft from entire net income. These foreign airlines may also exclude business and investment assets connected with such exempt income from the capital base tax. These tax benefits apply provided the "home country" provides similar treatment to United States airlines.

11. **Deductions for qualified public utilities, power producers and pipeline companies**
**Citation:** Tax Law §§ 208(9)(c-2)(4), (5), 208(9)(c-3)(4)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description**: Taxpayers that are qualified public utility corporations, qualified power producers, or qualified pipeline corporations are allowed certain depreciation and expense deductions in determining entire net income.

12. **Contributions to capital of a corporation**
**Citation:** Tax Law § 208(9)(a)(20)
**Effective date:** Effective for tax years beginning on or after January 1, 2018
**Description:** In computing New York entire net income, a taxpayer may subtract contributions to a corporation's capital made by any governmental entity or civic group (other than a contribution made by a shareholder) that are included in gross income under Internal Revenue Code § 118(b)(2).

13. **New York's COVID-19 pandemic small business recovery grants**
**Citation:** Tax Law § 208(9)(a)(22)
**Effective date**: Taxable years beginning on or after January 1, 2021
**Description:** Grants received pursuant to New York's COVID-19 Pandemic Small Business Recovery Grant Program are excluded from taxable income.

14. **Deduction for commercial cannabis activity**
**Citation:** Tax Law § 208(9)(a)(23)
**Effective date:** Taxable years beginning on or after January 1, 2022
**Description:** A taxpayer engaged in commercial cannabis activity may subtract expenses related to adult-use cannabis products that are disallowed federally under Internal Revenue Code § 280E.

## New York modifications to entire net income

In computing New York Business Income, Article 9-A allows certain modifications to entire net income.

15. **Deduction for investment income**
**Citation:** Tax Law §§ 208(6), 208(8)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** A taxpayer may deduct income, including capital gains in excess of capital losses, from investment capital in determining business income.

Investment capital is defined as investments in stocks that:

1. satisfy the definition of a capital asset under Internal Revenue Code § 1221 at all times the taxpayer owned such stock during the taxable year;
2. are held by the taxpayer for investment for more than one year;
3. the dispositions of which are, or would be, treated by the taxpayer as generating long-term capital gains or losses under the Internal Revenue Code;
4. for stocks acquired on or after January 1, 2015, at any time after the close of the day in which they are acquired, have never been held for sale to customers in the regular course of business; and
5. before the close of the day on which the stock was acquired, are clearly identified in the taxpayer's records as stock held for investment in the same manner as required under Internal Revenue Code § 1236(a)(1) for the stock of a dealer in securities to be eligible for capital gain treatment (whether or not the taxpayer is in fact a dealer of securities).

In addition, investment capital includes debt and other securities the income of which cannot be apportioned under the U.S. Constitution.

Investment capital does not include stock in a corporation that is conducting a unitary business with the taxpayer, stock in a corporation that is included combined group pursuant to the commonly owned group election, and stock issued by the taxpayer.

Investment income must be reduced by interest expenses directly and indirectly attributable to those items of income. In lieu of performing expense attribution, taxpayers may instead elect to reduce the income by 40 percent. Finally, the amount of investment income, determined without regard to interest deductions, cannot exceed 8 percent of the taxpayer's entire net income.

16. **Deduction for other exempt income**
**Citation:** Tax Law §§ 208(6-a), 208(8)
**Effective date:** § 208(6-a) is effective for tax years beginning on or after January 1, 2015; § 208(6-a)(ii) is effective for tax years beginning on or after January 1, 2017; § 208(6-a)(iii) is effective for tax years beginning on or after January 1, 2019

**Description:** A taxpayer may deduct other exempt income from entire net income. Other exempt income means the sum of exempt controlled foreign corporation (CFC) income and exempt unitary corporation dividends.

Exempt CFC income defined in Tax Law § 208(6-a)(a) includes:

1. Subpart F income (other than that described in (2) below) required to be included in the taxpayer's federal gross income pursuant to Internal Revenue Code § 951(a) received from a corporation conducting a unitary business with the taxpayer but not included in the taxpayer's combined group;
2. mandatory deemed repatriation income required to be included in the taxpayer's federal gross income pursuant to Internal Revenue Code § 951(a) by reason of Internal Revenue Code § 965(a) received from a corporation that is not included in the taxpayer's combined group; and
3. 95 percent of net CFC tested income (NCTI), formerly global intangible low-taxed income (GILTI), required to be included in the taxpayer's federal gross income pursuant to Internal Revenue Code § 951A received from a corporation that is not included in the taxpayer's combined group.

The mandatory deemed repatriation related deduction allowed under Internal Revenue Code § 965(c) and the GILTI-related/NCTI-related deduction allowed under Internal Revenue Code § 250 must be added back to entire net income in years when the income is included in other exempt income.

For tax years beginning on or after January 1, 2018, and before January 1, 2019, GILTI income as well as the corresponding Internal Revenue Code § 250 deduction for a portion of GILTI income, flowed through from the federal return to New York. As a result, the net GILTI amount was generally included in taxable business income.

Exempt unitary corporation dividends defined in Tax Law § 208(6-a)(b) includes:

1. dividends received from a corporation conducting a unitary business with the taxpayer but taxable, or would be taxable, under a franchise tax imposed by Tax Law Article 9 or Article 33 (cross-article dividends); and
2. dividends (other than those described in item 1 above) received from a corporation conducting a unitary business with the taxpayer but not included in the taxpayer's combined group (i.e. alien corporations with no effectively connected income and corporations less than 50 percent directly or indirectly owned by the taxpayer).

The income listed above must be reduced by interest expenses directly or indirectly attributable to the production of such income. In lieu of performing expense attribution, taxpayers may instead elect to reduce the income (other than cross-article dividends) by 40 percent.

Other exempt income cannot exceed entire net income.

## Corporate exemptions

17. **Companies operating in an innovation hot spot**
**Citation:** Tax Law §§ 38, 208(9)(a)(18), 209(11)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** The New York State Business Incubator and Innovation Hot Spot Support Act created special tax benefits for qualified entities operating in Innovation Hot Spots. These tax benefits are allowed for five tax years beginning with the first tax year the qualified entity becomes a tenant in (or part of) an Innovation Hot Spot.

Qualified entities located completely within an Innovation Hot Spot are exempt from the business income and capital tax bases. Instead, these entities must only pay the fixed dollar minimum tax.

Qualified entities located both within and without an Innovation Hot Spot, or that are a corporate partner in a qualified entity, are allowed a deduction in computing entire net income for the amount of income or gain attributable to the operations at (or as part of) the Innovation Hot Spot.

18. **Exempt companies**
**Citation:** Tax Law §§ 3, 8, 208(9)(i), and 209(4)(9) and (12); Rural Cooperative Corporations Law § 77; Rural Electric Cooperative Law § 66; and Banking Law § 479
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** The following companies or organizations are exempt from taxation under Article 9-A:
- limited profit housing companies;
- limited dividend housing companies;
- trust companies organized under a law of New York, all of the stock of which is owned by not less than 20 savings banks organized under a law of New York;
- Urban Development Corporation and its subsidiaries;
- certain domestic corporations exclusively engaged in the operation of one or more vessels in foreign commerce;
- certain domestic international sales corporations;
- passive trusts;
- certain corporations organized other than for profit and those corporations that are generally exempt from federal tax by the Internal Revenue Code;
- corporations exempt pursuant to Public Law 86-272 wherein a foreign corporation has limited its activities in New York to the mere solicitation of orders for tangible property by its employees or representatives;
- real estate mortgage investment conduits;
- industrial development agencies;
- housing development fund companies;
- corporations exempt from tax under Internal Revenue Code, §§ 501(c)(2) and (25);

- certain cooperative heating and cooling service companies that are organized without capital stock and that are exempt from tax pursuant to Internal Revenue Code § 501(c)(12);
- federal and state credit unions chartered under 12 U.S. Code, § 1768, Internal Revenue Code § 501(c)(14)(A), or New York State Banking Law § 479; and
- all farmers, fruit growers, and other like agricultural corporations organized and operated on a cooperative basis for the purposes expressed in the Co-operative Corporations Law, whether or not such corporations have capital stock.

19. **Homeowners association exemption from fixed dollar minimum tax**
**citation:** Tax Law § 210(1)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** Article 9-A exempts qualified homeowners associations that have no homeowner's taxable income from payment of the fixed dollar minimum tax. The associations would still be subject to the other taxable bases under Article 9-A, if applicable.

20. **Capital base exemption**
**Citation:** Tax Law § 210(1)(b)
**Effective date:** Taxable years beginning on or after January 1, 2021 and before January 1, 2027
**Description**: Taxpayers that are qualified New York manufacturers, qualified emerging technology companies, small businesses, and cooperative housing corporations are exempt from the capital base.

## Preferential tax rates

21. **Special tax benefits for New York manufacturers and qualified emerging technology companies**

    a. **Special tax benefits for New York manufacturers**
    Manufacturers in New York are subject to reduced tax rates and fixed dollar minimum amounts, as well as a lower capital base liability cap.

    A *manufacturer* is defined as *a taxpayer…principally engaged in the production of goods by manufacturing, processing, assembling, refining, mining, extracting, farming, agriculture, horticulture, floriculture, viticulture, or commercial fishing*. The generation and distribution of electricity, the distribution of natural gas, and the production of steam associated with the generation of electricity are not qualifying activities for a manufacturer.

    To be a *qualified New York manufacturer* eligible for the preferential tax treatment, the taxpayer must meet two tests. First, the taxpayer, or the combined group, must be principally engaged in manufacturing. This test is satisfied if more than 50 percent

of the taxpayer's or group's gross receipts are derived from the sale of goods produced by the activities listed above.

The second test requires the taxpayer to have manufacturing property in New York State with a New York adjusted basis of at least one million dollars or have all of its real and personal property located in New York State.

A taxpayer, or combined group, that fails the receipts test may still be a *qualified New York manufacturer* if it has at least 2,500 New York manufacturing employees and manufacturing property in New York State with a New York adjusted basis of at least $100 million.

1. **Zero percent Business income rate**
   **Citation:** Tax Law § 210(1)(a)(vi)
   **Effective date:** Effective for tax years beginning on or after January 1, 2015
   **Description:** Taxpayers that are qualified New York manufacturers are subject to a zero percent business income rate.

2. **Reduced fixed dollar minimum amounts**
   **Citation:** Tax Law § 210(1)(d)
   **Effective date:** Effective for tax years beginning on or after January 1, 2015
   **Description:** Taxpayers that are manufacturers are subject to the following reduced fixed dollar minimum amounts:

| New York receipts | Fixed dollar minimum tax |
|---|---|
| Not more than $100,000 | $19 |
| More than $100,000 but not more than $250,000 | $56 |
| More than $250,000 but not more than $500,000 | $131 |
| More than $500,000 but not more than $1,000,000 | $375 |
| More than $1,000,000 but not more than $5,000,000 | $1,125 |
| More than $5,000,000 but not more than $25,000,000 | $2,625 |
| Over $25 million | $3,750 |

b. **Special tax benefits for qualified emerging technology companies**
Qualified emerging technology companies in New York are subject to reduced tax rates and fixed dollar minimum amounts, as well as a lower capital base liability cap. A corporation is a *qualified emerging technology company* if it meets the definition in Public Authorities Law § 3102-e(1)(c), except that the $10 million limitation under § 3102-e(1)(c)(1) does not apply. A combined group may be considered a qualified emerging technology company if all members of the group meet the definition of a qualified emerging technology company.

A qualified emerging technology company must meet one of two tests:

- it must be engaged in creating or developing emerging technologies referenced in Public Authorities Law § 3102-e to qualify under the *primary products or services test*; or
- it must have research and development activities in New York State and have a ratio of research and development funds to net sales equal to or in excess of the average ratio for all surveyed companies classified as determined by the National Science Foundation in the most recent published results from its *Survey of Industry Research and Development*, or any comparable successor survey (the *research and development test*).

1. **Reduced business income rate**
   **Citation:** Tax Law § 210(1)(a)(vii)
   **Effective date:** Effective for tax years beginning on or after January 1, 2015
   **Description:** Taxpayers that are qualified emerging technology companies are subject to a lower 4.875 percent rate.

2. **Reduced fixed dollar minimum amounts**
   **Citation:** Tax Law § 210(1)(d)
   **Effective date:** Effective for tax years beginning on or after January 1, 2015
   **Description:** Taxpayers that are qualified emerging technology companies are subject to the following reduced fixed dollar minimum amounts:

| New York receipts | Fixed dollar minimum tax |
|---|---|
| Not more than $100,000 | $19 |
| More than $100,000 but not more than $250,000 | $56 |
| More than $250,000 but not more than $500,000 | $131 |
| More than $500,000 but not more than $1,000,000 | $375 |
| More than $1,000,000 but not more than $5,000,000 | $1,125 |
| More than $5,000,000 but not more than $25,000,000 | $2,625 |
| Over $25 million | $3,750 |

22. **Special tax benefits for non-captive real estate investment trusts and non-captive regulated investment companies**

a. **Fixed dollar minimum amounts**
   **Citation:** Tax Law § 210(1)(d)(1)(D-1)
   **Effective date:** Effective for tax years beginning on or after January 1, 2016
   **Description:** Taxpayers that are non-captive real estate investment trusts or non-captive regulated investment companies are subject to the following reduced fixed dollar minimum amounts:

| New York receipts | Fixed dollar minimum tax |
|---|---|
| Not more than $100,000 | $25 |
| More than $100,000 but not more than $250,000 | $75 |
| More than $250,000 but not more than $500,000 | $175 |
| Over $500,000 | $500 |

b. **Capital base exemption**
**Citation:** Tax Law §§ 209(5), 209(7)
**Effective date:** Effective for tax years beginning on or after January 1, 2015
**Description:** Non-captive real estate investment trusts and non-captive regulated investment companies are exempt from the capital base tax.

## Corporate franchise tax credits

23. **Credit for servicing State of New York Mortgage Agency mortgages**
**Citation:** Tax Law § 210-b(10)
**Pre-reform citation:** Tax Law §§ 210(21-a), 1456(a)
**Credit type:** Nonrefundable/non-carryforward
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2015
**Description:** Banking corporations and mortgage bankers registered under Banking Law, Article 12-D and meeting certain regulatory requirements established by the State of New York Mortgage Agency (SONYMA) may claim a credit for servicing mortgages acquired by SONYMA. The credit equals 2.93 percent of the total principal and interest collected for each SONYMA mortgage secured by a one-to-four family residence. In addition, banks and mortgage bankers may receive an amount equal to the interest collected during the taxable year on each SONYMA mortgage secured by a five or more family-residence multiplied by a fraction. The fraction depends on the types of properties that secure the serviced mortgage loans. The credit may reduce tax liability to zero.

## Cross-article credits

Credits include amounts that the taxpayer may subtract in calculating New York tax liability or request as a refund or apply as a payment for the next tax period. Full descriptions of all the tax credits available under Article 9-A as well as other tax articles are contained in the cross-article tax credits section of this report.

This section of the report provides tax expenditure estimates for 57 separate provisions of the corporate franchise tax on insurance companies. The list of tax expenditures contained in Table 3 is based on the Tax Law as of January 1, 2026. The estimates are based on data from the 2022 tax year, the latest year for which Article 33 tax return data are available. They are also extrapolated to the 2026 tax year. The tax years refer to both the 2022 and 2026 calendar years and fiscal tax years beginning in 2022 and 2026. Total insurance tax liability for the 2022 tax year has been included to provide some perspective to the tax expenditure estimates. The listing includes some provisions that were repealed or allowed to sunset prior to 2026 to provide a complete history of the expenditure. Repealed tax expenditures are removed from the report in the year following the publication of a complete history of the expenditure.

## Description of tax

Article 33 imposes a franchise tax on insurance companies. The structure of the tax depends on the type of insurer as well as whether the insurance corporation is authorized to conduct an insurance business in New York.

**Life insurance corporations**
Life insurance corporations calculate tax on the highest of four bases and then add to the result both a subsidiary capital tax and a premiums tax.

The four alternative bases are:

- 7.1 percent of allocated entire net income; or
- 0.16 percent on allocated business and investment capital; or
- 9 percent of 30 percent of allocated entire net income plus officers' salaries less specified deductions; or
- a fixed dollar minimum tax of $250.

Life insurance corporations doing business within and without the State allocate entire net income, business and investment capital, and entire net income plus officers' salaries to New York based on weighted ratios of premiums and wages earned or paid in New York to those earned or paid everywhere.

Added to the highest of the four bases are:

- 0.08 percent tax on subsidiary capital allocated to New York; and
- 0.7 percent tax on gross premiums, less return premiums thereon, written on risks located or resident in New York.

The total tax liability, less Empire Zone credits, cannot be less than 1.5 percent of taxable premiums (the tax floor) or greater than 2 percent of taxable premiums (the cap on tax). Taxpayers may then claim other credits against the total tax liability.

**Non-life insurance corporations**
Non-life insurance corporations are subject to the larger of a tax on premiums or a flat $250 fixed dollar minimum. Accident and health insurance premiums are taxed at 2.0 percent and other non-life insurance premiums are taxed at 1.75 percent.

**Captive insurance corporations**
Captive insurance corporations are subject to tax on gross direct premiums and assumed reinsurance premiums, but cannot be less than a $5,000 minimum tax. Captives cannot use credits to reduce tax and are generally not included in a combined report.

**Unauthorized insurance corporations**
An unauthorized non-life insurance corporation, as well as an unauthorized life insurance corporation, doing business, employing capital, owning or leasing property in New York State in a corporate or organized capacity, or maintaining an office in New York State is subject to a franchise tax computed under the four bases plus the subsidiary capital base. However, an unauthorized insurance corporation is not subject to the additional premiums tax, or the limitations based on premiums.

## Data source
The major source of data used to compute the tax expenditure estimates is the Article 33 study file compiled by the Department of Taxation and Finance. This study file includes information from tax returns filed under Article 33 for tax years that began January 2022 through December 2022.

## Methodology
The projections of the tax expenditures from 2022 to 2026 account for tax law changes applicable in the forecast year.

Forecasts for modifications, exemptions, exclusions and base and rate preferences are estimated using a tax simulation model that adjusts only for law changes between the study file year and the forecast year. No other assumptions are made regarding economic growth or behavioral changes. Estimates for the credits are based on law changes, historical trends, and information supplied by other State agencies where applicable.

1. Tax expenditure item applies only to life insurance corporations.

* Less than $0.1 million.

-- The tax expenditure was not applicable for these years.

N/A No data available.

## New York modifications to federal taxable income

In computing New York entire net income, modifications to federal taxable income are provided for under Tax Law Article 33. These modifications apply only to life insurance corporations.

1. **Exclusion of income from subsidiary capital**
   **Citation:** Tax Law §§ 1503(b)(1)(A) and 1503(b)(2)(H)
   **Effective date:** Effective for tax years beginning on or after January 1, 1974
   **Description:** In computing New York entire net income, taxpayers may subtract dividends, interest, and gains derived from subsidiary corporations that are not part of the combined group.

   Taxpayers may also deduct net CFC tested income (NCTI), formerly global intangible low-taxed income (GILTI), as defined in Internal Revenue Code § 951A and the related Internal Revenue Code § 78 dividends (less attributable interest and noninterest deductions) received from subsidiary corporations that are not part of the combined group. The related deductions under Internal Revenue Code § 250 must also be added back in computing entire net income.

   This modification does not include mandatory deemed repatriation income from subsidiary corporations (described in item 11 below).

2. **Deduction of 50 percent of dividends from non-subsidiary corporations**
   **Citation:** Tax Law § 1503(b)(1)(B)
   **Effective date:** Effective for tax years beginning on or after January 1, 1974
   **Description:** Life insurance corporations may deduct 50 percent of the company's share of dividend income received from non-subsidiary corporations. This modification does not include mandatory deemed repatriation income from non-subsidiary corporations (described in item 11 below).

3. **Taxable refunds or credits of state tax**
   **Citation:** Tax Law § 1503(b)(1)(C)
   **Effective date:** Effective for tax years beginning on or after January 1, 1974
   **Description:** A taxpayer may exclude any refund or credit of a tax imposed under Tax Law Article 9 (§§ 183, 183-a, 184, and 184-a), or Article 9-A, 23, or 33 that was properly included as income for federal income tax purposes, and for which no exclusion or deduction was allowed in determining the taxpayer's entire net income for any prior year.

4. **Wage and salary expense allowed as federal credits but not as federal expenses**
   **Citation:** Tax Law § 1503(b)(1)(D)
   **Effective date:** Effective for tax years beginning on or after January 1, 1977

**Description:** In computing New York entire net income, a taxpayer may exclude the amount of wages disallowed under Internal Revenue Code § 280C in the calculation of their applicable federal income.

5. **Unearned premiums**
**Citation:** Tax Law § 1503(b)(1)(L)
**Effective date:** Effective for tax years beginning after December 31, 1986
**Description:** A taxpayer may exclude from entire net income the amount of unearned premiums on outstanding business at the end of the tax year included in premiums earned as a result of Internal Revenue Code § 832(b)(4)(B), 832(b)(7)(B)(i), and 832(b)(8)(A)(i).

6. **Discounted unpaid losses**
**Citation:** Tax Law §1503(b)(1)(N)
**Effective date:** Effective for tax years beginning after December 31, 1986
**Description:** A taxpayer may exclude from entire net income the difference between the amount of discounted unpaid losses at the end of the tax year used in the calculation of losses incurred as a result of Internal Revenue Code § 832(b)(5)(A), and the amount of unpaid losses at the end of the tax year that would have been used in such calculation if such losses were not discounted for federal income tax purposes.

7. **Reduction of loss deduction under Internal Revenue Code § 832(b)(5)(B)**
**Citation:** Tax Law §1503(b)(1)(O)
**Effective date:** Effective for tax years beginning after December 31, 1986
**Description:** A taxpayer may exclude from entire net income the amount by which losses incurred were reduced as a result of Internal Revenue Code § 832(b)(5)(B).

8. **Internal Revenue Code §§ 847(5) and 847(6)**
**Citation:** Tax Law §1503(b)(1)(P)
**Effective date:** Effective for tax years beginning on or after January 1, 1993
**Description:** A taxpayer may exclude from entire net income the amount included in federal gross income as a result of Internal Revenue Code §§ 847(5) and 847(6).

9. **Qualified emerging technology investments**
**Citation:** Tax Law § 1503(b)(1)(Q)
**Effective date:** Effective for investments sold on or after March 12, 1998
**Description:** A deferral of gain on the sale of a qualified emerging technology investment is available to taxpayers for a qualified emerging technology investment that is (1) held for more than 36 months and (2) rolled over into the purchase of a replacement qualified emerging technology investment within 365 days. Gain deferred under this provision must be recognized when the replacement qualified emerging technology investment is sold. However, gain on the sale of the

replacement qualified emerging technology investment can be deferred if another replacement qualified emerging technology investment is acquired within 365 days.

10. **Deduction of distributions made to victims or targets of Nazi persecution**
**Citation:** Tax Law § 13
**Description:** A taxpayer may exclude the amount received (including accumulated interest) from an eligible settlement fund, or from an eligible grantor trust established for the benefit of the victims or targets of Nazi persecution when computing New York entire net income.

11. **Mandatory deemed repatriation**
**Citation:** Tax Law §§ 1503(b)(1)(S), 1503(b)(2)(H)
**Effective date:** Effective for tax years beginning on or after January 1, 2017
**Description:** In computing New York entire net income, a taxpayer may subtract from federal taxable income the Internal Revenue Code § 965(a) inclusion amount, less interest and noninterest deductions attributable to it, received from foreign corporations that are not included in a combined report with the taxpayer. The related deduction allowed under Internal Revenue Code § 965(c) must be added back when computing entire net income.

12. **Contributions to capital of a corporation**
**Citation:** Tax Law § 1503(b)(1)(T)
**Effective date:** Effective for tax years beginning on or after January 1, 2018
**Description:** In calculating New York entire net income, a taxpayer may subtract contributions to a corporation's capital made by any governmental entity or civic group (other than a contribution made by a shareholder) that are included in gross income under Internal Revenue Code § 118(b)(2).

13. **Net CFC Tested Income (formerly global intangible low-taxed income)**
**Citation:** Tax Law §§ 1503(b)(1)(U)-(V), 1503(b)(2)(H)
**Effective date:** Effective for tax years beginning on or after January 1, 2019
**Description:** In computing New York entire net income, a taxpayer may subtract from federal taxable income 95 percent of the net CFC tested income (NCTI), formerly global intangible low-tax income, less the attributable interest and noninterest deductions, from a non-subsidiary corporation that is not included in a combined report with the taxpayer. In addition, a taxpayer may subtract from federal taxable income any related Internal Revenue Code § 78 dividends, that has not otherwise been deducted, less attributable interest and noninterest deductions. The related deductions under Internal Revenue Code § 250 must be added back in computing entire net income.

For tax years beginning on or after January 1, 2018 and before January 1, 2019, global intangible low-tax income and related Internal Revenue Code § 78 dividends received from non-subsidiary corporations were subject to tax. As a result, the

corresponding deductions allowed under Internal Revenue Code § 250 for global intangible low-tax income and related Internal Revenue Code § 78 dividends were allowed to flow through from the federal return when computing New York entire net income.

## Alternative bases

One tax expenditure item applicable to life insurance corporations is provided for under the alternative tax base measured by business and investment capital.

14. **Exclusion of assets held as reserves under New York State Insurance Law §§ 1303, 1304, and 1305**
**Citation:** State Insurance Law §§ 1303, 1304, and 1305; Tax Law § 1500(l)(j)
**Effective date:** Effective for tax years beginning on or after January 1, 1974
**Description:** Insurance corporations may exclude assets that are held for loss or claim reserves, valuation reserves, and unearned premium reserves (as specified in the Insurance Law) from the definition of business capital and investment capital for purposes of calculating tax liability under the capital base tax.

## Exclusions from premiums base tax

The premiums tax base excludes premiums from several types of insurance.

15. **Exclusion of annuities from the tax on premiums**
**Citation:** Tax Law § 1510(c)(1)
**Effective date:** Effective for tax years beginning on or after January 1, 1974
**Description:** The premiums tax base excludes annuities.

16. **Exclusion of premiums written on certain joint underwriting policies**
**Citation:** Tax Law § 1510(c)(2)
**Effective date:** Effective for tax years beginning on or after January 1, 1974
**Description:** The premiums tax base does not include premiums on joint underwriting of group health insurance for persons aged 65 and over.

17. **Exclusion of premiums written on marine vessels**
**Citation:** Tax Law § 1510(c)(2)
**Effective date:** Effective for tax years beginning on or after January 1, 1974
**Description:** The premiums tax base does not include premiums for ocean marine insurance.

18. **Exclusion of premiums written on certain reinsurance policies**
**Citation:** Tax Law § 1510(c)(3)(A-B)
**Effective date:** Effective for tax years beginning on or after January 1, 1974

**Description:** The premiums tax base does not include premiums received by way of reinsurance from corporations or other insurers authorized to transact business in New York. It also excludes premiums received by way of reinsurance from corporations or other insurers not authorized to transact business in New York if such premiums are subject to the Excess Line Tax imposed under the Insurance Law.

19. **Exclusion for certain non-New York property or individuals**
**Citation:** Tax Law § 1512(b)(1)-(3)
**Effective date:** Effective for tax years beginning on or after January 1, 1974 [§ 1512(b)(3) effective for tax years beginning on or after January 1, 1978]
**Description:** The premiums tax base does not include premiums from:
- property, risks, or residents located outside of New York written by nonprofit life or fire insurance companies; and
- insurance risks on residents outside of the New York State written by federally exempt life insurance companies organized by nonprofit voluntary employees' beneficiary associations.

## Limitation on tax

Article 33 provides for a maximum tax liability cap for life insurance corporations. The total tax less Empire Zone credits, but before other credits, may not exceed 2 percent of taxable premiums. Taxpayers may apply all other insurance corporation tax credits to reduce the tax as determined under the cap.

20. **Limitation on tax liability**
**Citation:** Tax Law § 1505
**Effective date:** Effective for tax years beginning on or after January 1, 1977
**Description:** Article 33 limits the total tax liability of a life insurance corporation. Effective for taxable years beginning on or after January 1, 1998, the limitation, or cap, equals 2 percent of gross premiums for life insurers. An insurance corporation's tax liability equals the lower of (1) the tax determined under the cap, or (2) the tax determined on the highest of four alternative bases, plus the taxes on the subsidiary capital and premiums bases, less Empire Zone credits.

## Corporate exemptions

Article 33 of the Tax Law does not apply to several types of entities that may be engaged in an insurance business. Several additional types of entities are exempt only from the premiums tax.

21. **Exemption from Article 33 for specific types of entities engaged in an insurance business**
**Citation:** Tax Law § 1512(a)(1)-(8), (c)

**Effective date:** Effective for tax years beginning on or after January 1, 1974 [§§ 1512(a)(8) and 1512 (c) effective for taxable years beginning on or after January 1, 1978]
**Description:** Entities exempt from tax under Article 33 include:

- charitable, religious, missionary, educational, and philanthropic non-stock corporations [1512(a)(2)];
- retirement systems or pension funds engaged solely in an annuity business [1512(a)(3)];
- nonprofit medical expense indemnity or hospital service corporations [1512(a)(4)];
- incorporated or unincorporated fraternal benefit societies [1512(a)(5)];
- corporations for the insurance of domestic animals on a cooperative plan [1512(a)(6)];
- a town or county cooperative insurance corporation exempt from tax under Tax Law § 187 as it existed prior to 1974 [1512(a)(7)];
- not-for-profit voluntary employees' beneficiary associations exempted from federal income tax the members of which are employees (or beneficiaries or dependent of employees) of a single employer [1512(a)(8)];
- any nonprofit property/casualty insurance company organized pursuant to Insurance Law § 6703 [1512(a)(9)]; and
- entities conducting insurance business as a member of the New York Insurance Exchange [1512 (c)].

## Preferential tax rates

22. **Preferential tax treatment for captive insurance companies**
**Citation:** Tax Law § 1502-b
**Effective date:** Effective for tax years beginning on or after January 1, 1998
**Description:** Captive insurers are subject to a special premiums tax at lower rates than the rate that applies to other insurers. The tax imposed on captives equals the greater of the sum of the tax imposed on gross direct premiums and the tax imposed on assumed reinsurance premiums, or $5,000. The tax rates that apply to gross direct premiums and assumed reinsurance premiums decrease as the amount of premiums subject to tax increases, with the highest rate equaling 0.4 percent.

A combinable captive insurance company must be included in a combined return under Article 9-A if it is more than 50 percent owned by an Article 9-A corporation.

## Credits

Credits are amounts, enumerated by New York State Tax Law Article 33 that insurance corporations may subtract from their calculated New York tax liability. Article 33 credits are available to both life and non-life insurance corporations unless otherwise noted.

## Insurance tax credits

The credits described below are specific to the Insurance Tax.

23. **Fire insurance premiums tax credit**
**Citation:** Tax Law § 1511(a)
**Credit type:** Nonrefundable/non-carryforward
**Effective date:** Effective for tax years beginning on or after January 1, 1974
**Description:** A credit is allowed for additional taxes on premiums written by foreign or alien corporations for any insurance against loss or damage by fire, paid by foreign and alien fire insurance companies and foreign mutual fire insurance companies. Such taxes are imposed under the Insurance Law and under the charters of the cities of Buffalo and New York. Taxpayers must have paid or accrued the taxes during the tax year covered by the return.

24. **Retaliatory tax credit**
**Citation:** Tax Law § 1511(c), (i)
**Credit type:** Refundable
**Effective date:** Effective for tax years beginning on or after January 1, 1974
**Description:** Taxpayers may claim a credit for up to 90 percent of any retaliatory taxes paid to other states by New York domiciled or organized insurers as a result of New York State imposed taxes on insurers domiciled or organized in those other states.

25. **Credit for assessments paid to the life and health insurance company guaranty corporation**
**Citation:** Insurance Law § 7712(a)(b); Tax Law § 1511(f)
**Credit type:** Nonrefundable/carryforward
**Effective date:** Effective for tax years beginning after December 31, 1986; expanded to include health insurers for tax years beginning on or after January 1, 2024
**Description:** For tax years beginning before January 1, 2024, life insurance corporations may claim a tax credit for a portion of the cost of assessments paid to the life insurance company guaranty corporation in prior years. The maximum credit allowed to all life insurance companies for a particular year is limited to the greater of $40 million or 40 percent of the total tax liability of all such companies. To calculate its respective credit amount, an individual corporation multiplies the $40 million/40 percent maximum by the assessments it paid divided by the sum all

assessments paid by all corporations. For tax years beginning on or after January 1, 2024, the nonrefundable Life Insurance Company Guaranty Corporation credit was renamed the Life and Health Insurance Company Guaranty Corporation credit (LHICGC). The credit is available to eligible life and health insurers and the calculation has been simplified. For assessments issued in 2024 and later, eligible insurers will receive a certificate of tax credit specifying the amount that can be claimed for the year. Transition provisions allow any unused credit related to assessments issued in 2023 and earlier to be claimed in taxable years beginning on or after January 1, 2024.

26. **Credit for investment in certified capital companies**
**Citation:** Tax Law § 1511(k)
**Credit type:** Nonrefundable/carryforward
**Effective date:** Effective for tax years beginning after 1998, although the credit may be earned before 1999; the credit has been expanded four times since its enactment, to a combined statewide cap for all five programs of $400 million, effective January 1, 2007
**Description:** Under the five programs, taxpayers may claim a credit for 100 percent of the amount invested in certified capital companies. The credit can be claimed over 10 years, at a rate of 10 percent per year. The combined statewide cap is $400 million on the total amount of investments for which credits may be claimed. The total for all five programs may not exceed $40 million in any year.

## Cross-article credits

Descriptions of other tax credits that are available under the insurance tax as well as other tax articles are contained in the cross-article tax credits section of the report.

This section of the report provides descriptions of 39 separate tax expenditure provisions of the Article 9 tax. It contains estimates of the tax expenditures for tax years 2018 through 2022 (2022 is the latest year for which Article 9 tax return data are available). The list of tax expenditures is based on the Tax Law as of January 1, 2026. The estimates are also extrapolated to the 2026 tax year. The listing includes some provisions that were repealed or allowed to sunset prior to 2026 to provide a complete history of the expenditure.

Table 4 summarizes the tax expenditure estimates. It also includes total tax liability of Article 9 to provide perspective.

Repealed tax expenditures are removed from the report in the year following the publication of a complete history of the expenditure.

## Description of tax

Tax Law Article 9 imposes capital stock-based franchise and gross receipts-based taxes on a variety of specialized businesses.

§ 183 imposes a franchise tax on transportation and transmission companies and associations (excluding aviation companies that are taxable under Article 9-A) on the basis of allocated capital stock. Generally, a corporation's stock is allocated to New York in the ratio that the corporation's gross assets employed in the State bear to gross assets everywhere. U.S. obligations and cash in hand are excluded from the calculation. The tax equals the highest of the three amounts computed by the following methods: (1) allocated value of issued capital stock multiplied by 1.5 mills; (2) allocated value of issued capital stock on which dividends are paid 6 percent or more, multiplied by 0.375 mills for each one percent of dividends paid; or (3) a fixed minimum tax of $75. Effective January 1998, trucking and railroad companies previously taxable under § 183 became taxable under Article 9-A, unless an election had been made to remain taxable under Article 9. Effective January 1, 2000, gas pipelines became taxable under Article 9-A.

§ 184 imposes an additional franchise tax on transportation and transmission corporations and associations based on their gross earnings within the state. The tax is 3/8 percent of gross earnings received from business conducted in New York. Beginning in 1995, § 184 no longer applies to inter-exchange carriers, but applies only to those telecommunications corporations or associations principally engaged in a local telephone business. Companies principally engaged in long distance services are excluded from the tax. In addition, the law provided two exclusions to equalize the tax treatment of telecommunications services provided by local carriers, which remain subject to the § 184 tax, and inter-exchange carriers. One hundred percent of receipts from sales for ultimate consumption from interLATA, interstate, or international services and 30 percent of intraLATA toll services, including interregion regional calling plan services are excluded in the computation of tax under § 184. In January 1998, trucking and railroad companies formerly taxable under § 184 became taxable under Article 9-A, unless they elected to

remain taxable under Article 9. In January 2000, gas pipelines became taxable under Article 9-A.

§ 186, which was repealed effective January 1, 2000, provided for a franchise tax on waterworks companies, gas companies, electric or steam heating, lighting, and power companies. The tax was imposed at a rate of .75 percent on New York gross earnings and 4.5 percent on the amount of dividends paid that exceeded 4 percent of the amount of the taxpayer's paid-in capital employed in New York State. The minimum tax alternative of $125 applied, but only in case and to the extent that the tax computed under the primary method was less than $125. An additional excess dividends tax may have also applied. Energy and water companies formerly taxable under this section are now taxable under Article 9-A. However, a company may elect to remain a continuing § 186 taxpayer and be subject to the tax as it existed in 1999, if certain conditions apply.

§ 186-a provides for a gross receipts tax on the furnishing of utility services. A utility is defined as any seller of gas, electricity, steam, water, or refrigeration. Utilities that provide telephone or telegraph services that are subject to the supervision of the Public Service Commission pay the tax on their gross receipts not derived from the sale of telecommunications services at a rate of 2.5 percent. Telecommunications service receipts are taxable under § 186-e. The tax rate imposed on receipts from transportation, transmission, distribution, or delivery of energy for residential customers is 2 percent.

The following table shows the history of the § 186-a rate structure as it pertains to receipts from the sale of an energy commodity and charges for the transportation, transmission, distribution, or delivery of energy.

| Calendar year | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 and after |
|---|---|---|---|---|---|---|
| Commodity rate | 2.1% | 2.0% | 1.9% | 0.85% | 0.4% | 0% |
| Transmission and delivery Rate | 2.5% | 2.45% | 2.4% | 2.25% | 2.125% | 2.0% |

§ 186-e provides for an excise tax on telecommunications services at rate of 2.5 percent on the gross receipts of providers of non-mobile telecommunications services. The tax applies to gross receipts from all intrastate services and interstate and international services that either originate or terminate in New York and are billed to a service address in the State.

A separate excise tax is imposed on the sale of mobile telecommunication services by a telecommunication services provider at the rate of 2.9 percent. This rate applies to gross receipts from any mobile telecommunication service provided on or after May 1, 2015, by a home service provider where the mobile telecommunications customer's place of primary use is within New York State.

Most of the revenue from the Article 9 tax resulted from the gross receipts-based taxes (Tax Law §§ 184, 186, 186-a, and 186-e).

§ 186-f imposes public safety communications surcharges on certain wireless communications services. A $1.20 per month surcharge is imposed for each postpaid wireless communications device in service for every customer whose place of primary use is in New York State. A $0.90 surcharge applies to each retail sale of a prepaid wireless communication service. This section took effect on September 1, 2009. The surcharge on prepaid wireless communications service was effective on December 1, 2017.

## Data source

The major source of data used to compute the tax expenditure estimates is the 2022 Article 9 study file compiled by the Department of Taxation and Finance.

## Methodology

The projections of the tax expenditures from 2022 to 2026 account for tax law changes applicable in the forecast year.

Forecasts for modifications, exemptions, exclusions and base and rate preferences are estimated using a tax simulation model that adjusts only for law changes between the study file year and the forecast year. No other assumptions are made regarding economic growth or behavioral changes. Estimates for the credits are based on law changes, historical trends, and information supplied by other State agencies where applicable.

**Table 4**
**2026 New York State corporation and utilities tax expenditure estimates (in millions of dollars)**
**(2022 corporation and utilities tax liability = $414.8 million)**

| Tax item[1] | History 2018 | 2019 | 2020 | 2021 | 2022 | Forecast 2026 | Reliability level |
|---|---|---|---|---|---|---|---|
| **New York modifications to gross income** | | | | | | | |

1/ Amounts in the table are the sum of the expenditure estimates across all Article 9 tax sections. See specific descriptions to determine the sections to which the expenditure applies and to view the section-specific estimates.
2/ A new expenditure item, revision of the methodology or revisions in the data sources resulting in a change that better reflects the tax expenditure value.

* Less than $0.1 million.
-- The tax expenditure was not applicable for these years.
N/A No data available.

## New York modifications to gross income

New York State Tax Law Article 9 provides for select modifications when computing New York gross income.

1. **Exclusion of interstate and foreign income**
   **Citation:** Tax Law § 184(1)
   **Effective date:** June 15, 1896
   **Description:** Corporations, joint stock corporations, or associations formed for or principally engaged in canal, steamboat, ferry, navigation, or corporations formed for or principally engaged in the operation of vessels may exclude earnings derived from business of an interstate or foreign character.

2. **Exclusion of receipts from interLATA, interstate, and international telephone services**
   **Citation:** Tax Law § 184(1)
   **Effective date:** January 1, 1995
   **Description:** Telephone companies subject to the tax may exclude 100 percent of receipts (other than those from the provision of carrier access services) from sales for ultimate consumption of interLATA, interstate, and international services.

3. **Exclusion of 30 percent of receipts from intraLATA toll telephone services**
   **Citation:** Tax Law § 184(1)
   **Effective date:** Effective for tax years beginning on or after January 1, 1996
   **Description:** Telephone companies subject to the tax may exclude 30 percent of receipts (other than those from the provision of carrier access services) from sales for ultimate consumption of intraLATA toll services, including inter-region regional calling plan services.

4. **Exclusion of cable television service**
   **Citation:** Tax Law § 186-e(2)(b)(2)
   **Effective date:** January 1, 1995
   **Description:** Cable television service is specifically excluded from the definition of telecommunications services and receipts from the sale of such service are not subject to tax.

5. **Exclusion of receipts from certain telecommunications services for air safety and navigation purposes**
   **Citation:** Tax Law § 186-e(2)(b)(3)
   **Effective date:** January 1, 1995
   **Description:** Receipts from the sale of telecommunications to air carriers solely for the purposes of air safety and navigation are excluded from the tax. Providers must be at least 90 percent owned (directly or indirectly) by air carriers and have the principal function of fulfilling requirements of the Federal Aviation Administration or

International Civil Aviation Organization relating to the existence of a communication system between aircraft and dispatcher, aircraft and air traffic control or ground station and ground station (or any combination of these entities).

## Corporate exemptions

6. **Ferry companies**
**Citation:** Tax Law §§ 183(1)(b), 184(1)
**Effective date:** April 14, 1914
**Description:** Ferry companies operating between any of the boroughs of the City of New York under a lease granted by the City are exempt from tax under §§ 183 and 184.

7. **Taxicabs and omnibuses**
**Citation:** Tax Law § 183(1)(c)
**Effective date:** April 11, 1951 (taxicabs); January 1, 1960 (omnibuses)
**Description:** With certain exceptions, and so long as the State tax on motor fuel exceeds two cents per gallon, corporations classified as taxicabs and omnibuses are taxable under Article 9-A and therefore are exempt from the tax imposed by § 183.

8. **Railroads and vessels engaged in interstate or foreign commerce**
**Citation:** Tax Law § 183(7)
**Effective date:** November 11, 1981 for taxable periods beginning on or after January 1, 1981 (original exclusion for vessels only, June 15, 1896)
**Description:** A railroad, palace car, or sleeping car corporation, navigation, canal, ferry (except a ferry operating between any of the boroughs of New York under a lease granted by the City), steamboat, or any other corporation formed for or principally engaged in the operation of vessels in interstate or foreign commerce is not subject to the § 183 tax, even though it maintains an office or otherwise employs capital in New York.

9. **Corporations principally engaged in providing telecommunications for air safety and navigation purposes**
**Citation:** Tax Law §§ 183(1)(b), 184(1)
**Effective date:** January 1, 1995
**Description:** Corporations principally engaged in selling of telecommunications to air carriers solely for the purposes of air safety and navigation are exempt from the tax under §§ 183 and 184. Providers must be at least 90 percent owned (directly or indirectly) by air carriers and have the principal function of fulfilling requirements of the Federal Aviation Administration or International Civil Aviation Organization relating to the existence of a communication system between aircraft and dispatcher, aircraft and air traffic control or ground station and ground station (or any combination of these entities).

10. **Foreign commerce**
**Citation:** Tax Law Article 1, § 3
**Effective date:** November 11, 1981 (original exclusion for vessels only, June 15, 1896)
**Description:** All corporations incorporated under the laws of the State of New York, exclusively engaged in the operation of vessels in foreign commerce, are exempted from tax on their capital stock, franchises, and earnings for State and local purposes.

11. **Railroad leasing**
**Citation:** Tax Law § 184(3)
**Effective date:** June 1, 1917
**Description:** In lieu of the tax on gross earnings, a railroad corporation involved in leasing railroad property to another railroad is subject to an excess income tax measured at the rate of 4 ½ percent on that portion of dividends paid in a calendar year in excess of 4 percent on the capital stock of the company.

12. **Foreign taxicabs and omnibuses**
**Citation:** Tax Law § 184(2)(b)(1)(iv)
**Effective date:** January 1, 1988, per trip fee enacted; taxable years beginning on or after January 1, 2021 complete exemption effective
**Description:** A foreign taxicab or omnibus company doing business in New York by making fewer than 12 trips into New York State on an annual basis, but not otherwise owning or leasing property, maintaining an office, or otherwise doing business in the State so as to become subject to tax, pays a tax equal to $15 per trip for tax years beginning before January 1, 2021. For tax years beginning on or after January 1, 2021, these entities are exempt from tax under § 184.

13. **Exempt companies**
**Citation:** Tax Law § 186-a(2)(a)
**Effective date:** January 1, 1960 (omnibuses)
**Description:** Persons engaged in operating omnibuses having a seating capacity of more than seven persons; or, street surface, rapid transit, subway, and elevated railroads are not subject to the § 186-a tax.

14. **Exempt organizations**
**Citation:** Tax Law § 186-a(2)(b)
**Effective date:** 1937
**Description:** The furnishing of utilities services by the State is exempt from tax. Utility services furnished by municipalities, political and civil subdivisions of the State or a municipality, public districts, and certain corporations and associations organized and operated exclusively for religious, charitable, or educational purposes are exempt from tax under certain circumstances.

15. **Water pollution facilities**
**Citation:** Tax Law § 186-a(2)(b)
**Effective date:** January 1, 1969
**Description:** § 186-a does not apply to a corporation organized and operated exclusively for the purpose of leasing from a city a water works system designed to alleviate water pollution within the city.

16. **Commercial, industrial, and not-for-profit relief**
**Citation:** Tax Law § 182-a(2)(c)(1)
**Effective date:** January 1, 2000
**Description:** In addition to the reduction and elimination of the tax on the commodity, the § 186-a tax on transmission and distribution for commercial, industrial and not-for-profit customers was eliminated through a phased in exclusion according to the following schedule:

| Calendar year | 2000 | 2001 | 2002 | 2003 | 2004 | 2005 and after |
|---|---|---|---|---|---|---|
| Exclusion | 0% | 0% | 25% | 50% | 75% | 100% |

17. **Exempt organizations**
**Citation:** Tax Law § 186-e(1)(c)
**Effective date:** January 1, 1995
**Description:** Telecommunications services provided by the State, municipalities, political and civil subdivisions of the State or municipality, public districts, and corporations and associations organized and operated exclusively for religious, charitable, or educational purposes are exempt from § 186-e tax.

18. **§ 186-f public safety communications surcharge**

    a. **Lifeline consumers — § 186-f**
    **Citation:** Tax Law § 186-f(4)
    **Effective date**: December 1, 2017
    **Description:** Consumers who receive a Lifeline discount on their wireless communications service are exempt from the public safety communications surcharges.

    b. **Exempt organizations — § 186-f**
    **Citation:** Tax Law § 186-f(4)
    **Effective date**: September 1, 2009
    **Description:** The public safety communications surcharges do not apply to purchases by the State of New York and its agencies and instrumentalities; the United States of America and its agencies and instrumentalities; the United Nations; and a nonprofit property/casualty insurance company organized under Insurance Law § 6703.

c. **Administrative fee — § 186-f**
**Citation:** Tax Law § 186-f(2)
**Effective date**: September 1, 2009
**Description:** Wireless communications service suppliers and prepaid wireless communications sellers may retain an administrative fee of 1.749 percent of surcharges collected for timely filed and fully paid returns. Prior to December 1, 2017, the administrative fee was 1.166 percent.

## Credits

Credits include amounts that the taxpayer may in calculating New York tax liability or request as a refund or apply as a payment for the next tax period.

## Corporation tax credits

The credits described below are specific to the corporation tax.

19. **Credit for tax paid in another jurisdiction**
**Citation:** Tax Law § 186-e(4)(a)(2)
**Credit type:** Nonrefundable/non-carryforward
**Effective date:** January 1, 1995
**Description:** To prevent actual multijurisdictional taxation of sales of telecommunications services, providers of interstate and international telecommunications services may claim a credit for a like tax paid to another state or country on a telecommunications service taxable under § 186-e. The amount of the credit is the amount of tax lawfully due and paid to the other country or jurisdiction not exceeding the tax due to New York.

20. **Utility COVID-19 debt relief credit**
**Citation:** Tax Law § 187-q
**Credit type:** Refundable
**Effective date of Credit:** Effective for tax years beginning on or after January 1, 2021
**Description:** Taxpayers under Tax Law, Article 9, § 186-a are eligible for a refundable credit equal to the amount of debt waived from customers who received certain utility arrears assistance. The credit is administered by the Public Service Commission and is claimed in the taxable year in which the Public Service Commission certifies the amount of customer debt waived by the taxpayer that qualifies for the credit.

## Cross-article credits

Descriptions of tax credits that are available under the corporation tax as well as other tax articles are contained in the cross-article tax credits section of the report.

This section of the report provides tax expenditure descriptions and estimates for 164 provisions of the Sales and Use Tax Law. The list of expenditures is based on the Tax Law in effect as of January 1, 2026. The tax expenditure estimates only pertain to the state portion of the tax and do not include estimates of the revenue foregone by local governments levying sales and use taxes.

The report presents historical estimates for calendar years 2019 through 2023. Table 5 lists the tax expenditures and provides historical year and projected 2026 estimates. It also lists the years for which data are available. For recently added tax expenditures, the report displays historical estimates only for years the item existed as a tax expenditure. The effective dates recorded in the report refer to the date the applicable provision took effect.

## Description of tax

The New York State sales and use tax was enacted in 1965 and took effect August 1, 1965. This tax applies primarily to retail sales of tangible personal property in New York State. The sales and use tax also applies to a variety of services, notably, services to real or personal property, telephone service, and commercial energy use. Hotel occupancy, restaurant meals and certain admissions are also taxed. Generally, the tax base includes tangible personal property unless the law provides a specific exclusion or exemption and does not include services unless the law specifically enumerates the service as taxable.

The Tax Law provides manufacturers with exemptions for the purchase, repair, and maintenance of machinery and equipment used in production. Other exempt items include food, medicine, residential energy, and sales to exempt organizations. Although most services are not subject to sales or use tax, this report examines only services that are specifically exempted by New York.

The Department of Taxation and Finance administers the sales and use tax for the State and its constituent jurisdictions that also impose the tax. The State rate equals 4 percent. Local rates range from 3 percent to 4.75 percent. Communities within the Metropolitan Commuter Transportation District are subject to an additional 3/8 of 1 percent tax rate. In State fiscal year 2024-25, the Department collected about $19.1 billion for the State and approximately $23.5 billion for local governments from sales and use taxes.

## Data sources

Most sales tax expenditure estimates use aggregate, non-tax data sources. This is because no tax return data exist for the many exclusions and exemptions. Thus, the estimates are only suggestive of the revenue loss associated with each provision. Estimates are rounded to the nearest million dollars.

Data sources used to calculate the tax expenditure estimates include:

- Federal government publications and surveys such as the U.S. Census Bureau's *Economic Census*;
- New York State data resources from Open New York's open data portal; and
- Industry surveys and information, such as the information provided by the National Automobile Dealers Association.

## Methodology

The report bases the historical estimates on the most recent data available. If data are not available for a particular year covered by the report, the tax expenditure is estimated from the most recent data. For example, where 2019 represents the latest year for which relevant data are available, the 2019 data are used to derive historical estimates. Historical estimates may vary from prior year reports due to the availability of more recent data. From the most recent data, tax expenditure estimates are projected to 2026 levels.

A sales tax transaction can be exempt from tax because the good or service is exempt or because its use, purchaser, or seller is exempt. In valuing the exemptions, no account is taken of the fact that if the good or service were made taxable, some of the transactions would remain exempt because of the nature of the use, purchaser, or seller. Hence, the value of a particular good or service may be included in two or more tax expenditure estimates. Because of this overlapping, the revenue value of eliminating an exemption would not necessarily coincide with the estimated value herein.

**Table 5**
**2026 New York State sales and use tax expenditure estimates (in millions of dollars)**
**(2024-25 total NY sales and use tax liability = $19,096 million)**

| Tax item | Data source Year(s) | History 2019 | 2020 | 2021 | 2022 | 2023 | Forecast 2026 | Reliability level |

1. A new tax expenditure item or a revision of the methodology, data or data sources resulting in an estimate that better reflects the tax expenditure value.
2. First estimate in history is a partial calendar year estimate.

-- The tax expenditure was not applicable for these years.

* Less than $1 million.

N/A No data available.

## Services

1. **Certain information services**
   **Citation:** Tax Law § 1105(c)(1)
   **Effective date:** August 1, 1965; September 1, 1995 for meteorological services; March 1, 2012 for electronic news services.
   **Description:** An exclusion is allowed for the furnishing of information that is personal or individual in nature, the services of advertising or other agents acting in a representative capacity, information services used by newspapers, electronic news services, radio broadcasters, and television broadcasters in the collection and dissemination of news, and meteorological services.

2. **Certain information services provided over the telephone**
   **Citation:** Tax Law § 1105(c)(9)
   **Effective date:** September 1, 1990
   **Description:** An information service that would be exempt from tax if delivered in printed form is also exempt from tax when provided over the telephone. This exemption complements § 1105(c)(1), which is item 1 above.

3. **Services performed on a non-trade basis**
   **Citation:** Tax Law §§ 1105(c)(3)(i), 1105(c)(5)(i)
   **Effective date:** August 1, 1965
   **Description:** An exclusion is allowed for installation, repair, and maintenance services rendered by an individual who is engaged directly by a private homeowner or lessee and who is not in a regular trade or business offering those services to the public.

4. **Laundering, tailoring, shoe repair, and similar services**
   **Citation:** Tax Law § 1105(c)(3)(ii)
   **Effective date:** August 1, 1965
   **Description:** Charges for laundering, dry cleaning, tailoring, weaving, pressing, shoe repairing, and shoe shining are excluded from tax.

5. **Capital improvement installation services**
   **Citation:** Tax Law § 1105(c)(3)(iii)
   **Effective date:** August 1, 1965
   **Description:** An exclusion is allowed for installing property that, when installed, will constitute an addition or capital improvement to real property.

6. **Services related to railroad rolling stock**
   **Citation:** Tax Law § 1105(c)(3)(viii)
   **Effective date:** September 1, 1985

**Description:** Excluded from tax are repair and maintenance services rendered with respect to railroad rolling stock primarily engaged in carrying freight, but not including any charge for parts.

7. **Services to property delivered outside New York**
**Citation:** Tax Law § 1115(d)
**Effective date:** August 1, 1965
**Description:** Services to tangible personal property are exempt when the property is delivered outside New York State for use outside the State.

8. **Municipal parking services**
**Citation:** Tax Law § 1105(c)(6)
**Effective date:** December 1, 1996
**Description:** Charges for parking, garaging, or storing motor vehicles are exempt at facilities owned and operated by local governments and local public parking authorities.

9. **Parking and garaging at a private residence**
**Citation:** Tax Law § 1105(c)(6)
**Effective date:** June 1, 1990
**Description:** Charges for parking, garaging or storing vehicles at a garage that constitutes part of the premises occupied solely as a private one- or two-family dwelling are exempt.

10. **Certain protective and detective services**
**Citation:** Tax Law § 1105(c)(8)
**Effective date:** June 1, 1990
**Description:** Protective and detective services provided by a security officer licensed by the New York Waterfront Commission or the waterfront commission of New York harbor are exempt from tax.

11. **Medical emergency alarm call services**
**Citation:** Tax Law § 1115(r)
**Effective date:** September 1, 1994
**Description:** Exempt from tax are medical emergency alarm services.

12. **Coin-operated car wash services**
**Citation:** Tax Law § 1115(t)
**Effective date:** December 1, 1997; December 1, 2004, for certain vacuuming services; December 1, 2005 for additional automated services.
**Description:** The sales tax exempts the service of washing, waxing, or vacuuming a motor vehicle or other property by means of coin-operated equipment.

13. **Trash removal from a waste transfer facility**
**Citation:** Tax Law § 1105(c)(5)(iv)
**Effective date:** December 1, 2005
**Description:** Excluded from tax is the removal of waste material from a waste transfer station or construction and demolition debris processing facility, where the waste to be removed was not originally generated by the facility.

14. **Transportation services in connection with funerals**
**Citation:** Tax Law § 1101(b)(34)
**Effective date**: June 1, 2009
**Description:** Excluded from tax is the transportation service of transporting persons in connection with funerals.

15. **Transportation services provided by affiliated livery vehicles**
**Citation:** Tax Law § 1101(b)(34)
**Effective date:** June 1, 2009
**Description:** Charges for transportation services provided by affiliated livery vehicles within New York City are excluded from the sales tax on certain transportation services.

16. **Water and sewer service line protection programs**
**Citation:** Tax Law § 1115(ii)
**Effective date:** October 21, 2013
**Description:** Water and sewer service line protection programs sold to owners of residential property are exempt from tax.

## Food

17. **Certain food products**
**Citation:** Tax Law §§ 1115(a)(1), 1105(d)(i)(3)
**Effective date:** August 1, 1965
**Description:** Exempt from tax are food, food products, beverages, dietary foods, and health supplements sold for human consumption. The exemption does not include candy and confectionery, fruit drinks that contain less than 70 percent of natural fruit juice, soft drinks, sodas, beer, wine, or other alcoholic beverages. Sales of food (other than sandwiches) or drink of a type commonly sold in food stores are exempt when sold by a restaurant or other establishment unheated and for off-premises consumption.

18. **Food sold to airlines**
**Citation:** Tax Law § 1105(d)(ii)(A)
**Effective date:** August 1, 1965

**Description:** The sales tax does not apply to food or drink that is sold to an airline for consumption by passengers while in flight.

19. **Food sold at school cafeterias**
**Citation:** Tax Law § 1105(d)(ii)(B)
**Effective date:** September 1, 1968
**Description:** Food or drink sold to nursery school, kindergarten, elementary, or secondary school students at a restaurant or cafeteria located at the school is excluded from tax. Also excluded are food and nonalcoholic beverages sold at a restaurant, tavern, or other establishment located on the premises of a college or university when sold to enrolled students under a contractual arrangement whereby the students do not pay cash at the time they are served.

20. **Food purchased with Supplemental Nutrition Assistance Program benefits**
**Citation:** Tax Law § 1115(k)
**Effective date:** October 1, 1987
**Description:** Food and beverages eligible to be purchased with the Supplemental Nutrition Assistance Program (formerly known as *food stamps*) are exempt from tax.

21. **Water delivered through mains or pipes**
**Citation:** Tax Law § 1115(a)(2)
**Effective date:** August 1, 1965
**Description:** Water delivered to consumers through mains or pipes is exempt.

22. **Mandatory gratuity charges**
**Citation:** Tax Law § 1105(d) and NYS Regulation § 527.8(l)
**Effective date:** August 1, 1965
**Description:** A separately stated charge specifically designated as a gratuity is exempt where all such monies received are paid over to employees.

23. **Alcoholic beverage tastings**
**Citation:** Tax Law §§ 1105(d)(ii), 1115(a)(33), 1115(a)(45), 1118(13)
**Effective date**: December 1, 1997 for wine; April 13, 2015 for kegs, cans, bottles, corks, caps, and labels; June 1, 2015 for beer, cider and liquor; March 28, 2019 for mead and beer samples
**Description:** Wine, beer, cider, liquor and mead furnished at a tasting held in accordance with the Alcoholic Beverage Control Law to a customer or prospective customer for consumption at the tasting is exempt from tax. Also exempt are kegs, cans, bottles, corks, caps, and labels used to package the alcoholic beverages served at the tastings. In addition, certain beer samples sold by a licensed brewery or farm brewery are exempt from tax.

24. **Vending machine sales of hot drinks and certain foods**
**Citation:** Tax Law § 1105(d)(i)(3)
**Effective date:** December 1, 1997; December 1, 1999 for credit/debit card-operated machines.
**Description:** Exempt from tax are hot drinks sold through coin-operated vending machines and vending machines accepting credit cards or debit cards. In addition, vending machine sales of other food and beverage, including food and beverage sold for on-premises consumption, are exempt if the food or beverage would be exempt when sold at a grocery store.

25. **Vending machine sales of candy, juice, soft drinks and bottled water**
**Citation:** Tax Law § 1115(a)(1)
**Effective date:** September 1, 2000; $2.00 exemption and inclusion of bottled water effective June 1, 2019
**Description:** Candy, fruit drinks, soft drinks and bottled water sold for two dollars or less are exempt from tax when sold from a vending machine that accepts forms of payment other than coin or currency. For vending machines that only accept coin and currency, the exemption threshold is $1.50. For June 1, 2014, through May 31, 2019, the exemption threshold was $1.50.
**Termination date:** Expires May 31, 2026

26. **Food sold at senior citizen housing communities**
**Citation:** Tax Law § 1115(w)
**Effective date:** December 1, 2000
**Description:** Sales by a senior citizen independent housing community of food or drink (except alcoholic beverages) for on-premises consumption are exempt from tax when served to residents and their guests at the dining facility or in the resident's room.

## Medical and health

27. **Drugs, medicine, and medical supplies**
**Citation:** Tax Law § 1115(a)(3), (g)
**Effective date:** August 1, 1965 for drugs and medicines; September 1, 1976 for medical equipment and supplies and services to medical equipment.
**Description:** Exempt from tax are drugs and medicines intended for use, internally or externally, in the cure, mitigation, treatment, or prevention of illnesses or diseases in human beings. The exemption extends to medical equipment and supplies and services to medical equipment. This exemption does not include medical equipment and supplies purchased by a person who provides medical or dental services for compensation.

28. **Breast pump parts and supplies**
**Citation:** Tax Law § 1115(a)(46)
**Effective date:** September 1, 2021
**Description:** Breast pump replacement parts and breast pump collection and storage supplies are exempt from sales tax when purchased by an individual for home use.

29. **Menstrual products**
**Citation:** Tax Law § 1115(a)(3-a)
**Effective date**: September 1, 2016
**Description:** The retail sale of menstrual products is exempt from tax.

30. **Diapers**
**Citation:** Tax Law § 1115(a)(30-a)
**Effective date:** September 1, 2022
**Description:** Diapers intended for human use are exempt from sales tax.

31. **Eyeglasses, hearing aids, and prosthetic aids**
**Citation:** Tax Law § 1115(a)(4), (g)
**Effective date:** August 1, 1965 [ § 1115(a)(4)]; September 1, 1969 [§ 1115(g)]
**Description:** Eyeglasses, hearing aids, prosthetic aids, and artificial devices and component parts purchased to correct physical incapacity in human beings, as well as services performed upon these items, are exempt from tax.

32. **Veterinarian services**
**Citation:** Tax Law § 1115(f)(1)
**Effective date:** June 1, 1967
**Description:** Services rendered by a licensed veterinarian in the practice of veterinary medicine are exempt from tax. Tangible personal property designed for use by domestic animals or poultry is also exempt when sold by a veterinarian. However, the veterinarian pays sales tax on the purchase of such property.

33. **Drugs or medicines used in farm production**
**Citation:** Tax Law § 1115(f)(2)
**Effective date:** June 1, 2018
**Description:** Drugs or medicines for use on livestock or poultry used in farm production are exempt from tax. Prior to June 1, 2018, only a refund or credit for tax paid on these drugs or medicines was available.

34. **Service dogs**
**Citation:** Tax Law § 1115(s)
**Effective date:** September 24, 1995

**Description:** The sale of any good or service necessary to acquire, sustain, or maintain a guide dog, a hearing dog, or a service dog that is used by a person with a disability is exempt.

## Energy

35. **Residential energy**
**Citation:** Tax Law §§ 1105-A, 1115(a)(25)
**Effective date:** October 1, 1980 [§ 1105-A]; September 1, 1985 [§ 1115(a)(25)]
**Description:** Receipts from the retail sale of wood used for residential heating purposes, fuel oil, propane (except when sold in containers that hold less than 100 pounds), natural gas, electricity and steam, and gas, electric, and steam services used for residential purposes are taxed at the rate of zero percent and thus are exempt from State sales tax. Residential use of natural gas obtained from a gas well located on the landowner's property is exempt.

36. **Fuel, gas, electricity, refrigeration, and steam used in research and development and production**
**Citation:** Tax Law § 1115(b)(ii), (c)(1)
**Effective date:** August 1, 1965
**Description:** Fuel, gas, electricity, refrigeration, and steam; and gas, electric, refrigeration, and steam service used directly and exclusively in research and development in the experimental or laboratory sense, or used directly and exclusively in the production of tangible personal property, gas, electricity, refrigeration, or steam, for sale, by manufacturing, processing, assembling, generating, refining, mining, or extracting are exempt from the sales tax.

37. **Fuel, gas, electricity, refrigeration, and steam used in farming and commercial horse boarding**
**Citation:** Tax Law § 1115(c)(2)
**Effective date:** September 1, 2000
**Description:** Fuel, gas, electricity, refrigeration, and steam; and gas, electric, refrigeration, and steam service used in the production of tangible personal property, for sale, by farming or in a commercial horse boarding operation are exempt from tax.

38. **Gas and electricity used in transmission, distribution and storage**
**Citation:** Tax Law § 1115(w)
**Effective date:** June 1, 2000
**Description:** Gas or electricity or gas or electric service used directly and exclusively to provide gas or electric service consisting of operating a gas pipeline or gas distribution line or an electric transmission or distribution line and ensuring the necessary working pressure in an underground gas storage facility is exempt.

39. **Residential solar energy systems**
**Citation:** Tax Law § 1115(ee)(1)
**Effective date:** September 1, 2005
**Description:** Residential solar energy systems equipment and the service of installing such systems is exempt from tax.

40. **Commercial solar energy systems**
**Citation:** Tax Law § 1115(ii)(1)
**Effective date:** January 1, 2013
**Description:** Commercial solar energy systems equipment and the service of installing such systems is exempt from tax.

41. **Solar power purchase agreements**
**Citation:** Tax Law § 1115(ee)(2), (ii)(2)
**Effective date**: December 1, 2015
**Description:** Electricity sold by a solar energy company is exempt when the electricity is generated by equipment owned by the solar energy company and installed at the purchaser's residential or non-residential premises.

42. **Commercial fuel cell electricity generating systems equipment**
**Citation:** Tax Law § 1115(kk)
**Effective date**: June 1, 2016
**Description:** Exempt from tax is the retail sale of commercial fuel cell electricity generating systems equipment and the service of installing and maintaining the systems. Electricity generated by a fuel cell is also eligible for the exemption from sales tax under certain circumstances.

43. **Residential energy storage systems equipment**
**Citation:** Tax Law § 1115(a)(11)
**Effective date**: June 1, 2024
**Description:** Residential energy storage systems, the service of installing such systems and the sale of electricity generated by such equipment is exempt from tax.
**Termination date:** Expires May 31, 2026

44. **Electricity, refrigeration, and steam sold by certain cooperative corporations**
**Citation:** Tax Law § 1115(b)(iii)
**Effective date:** March 1, 2006
**Description:** Exempt from tax are electricity, steam, and refrigeration produced by a cogeneration facility owned and operated by certain cooperative corporations and distributed to tenants.

45. **Automotive fuel receipts exceeding two dollars per gallon**
**Citation:** Tax Law § 1111(m)
**Effective date:** June 1, 2006

**Description:** Certain motor fuel and diesel motor fuel sales are subject to tax at the rate of eight cents per gallon. This effectively exempts the portion of the taxable receipt exceeding two dollars per gallon.

46. **Alternative fuels**
**Citation:** Tax Law § 1115(a)(42)
**Effective date:** September 1, 2006
**Description:** E85, CNG, or hydrogen is exempt from sales tax when used directly and exclusively in the engine of a motor vehicle.
**Termination date:** Expires August 31, 2026

47. **B20 bio-diesel fuel**
**Citation:** Tax Law § 1111(n)
**Effective date:** September 1, 2006
**Description:** Bio-diesel fuel that is B20 is exempt from 20 percent of the cents-per-gallon sales tax rate imposed on certain sales of diesel motor fuel.
**Termination date:** Expires August 31, 2026

## Transportation

48. **Commercial vessels**
**Citation:** Tax Law §§ 1101(b)(16), 1105(c)(3)(iv), 1115(a)(8)
**Effective date:** August 1, 1965 [§§ 1105(c)(3)(iv), 1115(a)(8)]; December 1, 1996 [§ 1101(b)(16)]
**Description:** Sales of commercial vessels primarily engaged in interstate or foreign commerce and property used by or purchased for the use of such vessels for fuel, provisions, supplies, maintenance, and repairs are exempt. Services rendered with respect to commercial vessels are also exempt.

49. **Vessels**
**Citation:** Tax Law § 1115(jj)
**Effective date**: June 1, 2015
**Description:** Receipts in excess of $230,000 for a vessel [as defined in the Vehicle and Traffic Law, § 2250], including any outboard motor or trailer when sold in conjunction with the vessel, are exempt from sales tax.

50. **Barge repairs**
**Citation:** Tax Law § 1115(q)
**Effective date:** December 1, 1993
**Description:** Exempt from tax are maintenance and repair services (including parts) performed on a barge having a cargo capacity of at least 1,000 short tons used exclusively to transport goods in the conduct of its owner's business and primarily engaged in transportation between New York State and any other state or foreign country.

51. **Commercial aircraft**
**Citation:** Tax Law §§ 1101(b)(17), 1105(c)(3)(v), 1115(a)(21)
**Effective date:** March 1, 1979 [§ 1105(c)(3)(v), 1115(a)(21)]; December 1, 1996 [§1101(b)(17)]
**Description:** Exempt from tax are commercial aircraft primarily engaged in intrastate, interstate, or foreign commerce; machinery or equipment to be installed on such aircraft; property used by or purchased for the use of such aircraft for maintenance and repairs; flight simulators purchased by commercial airlines; and services rendered with respect to exempt purchases.

52. **General aviation aircraft**
**Citation:** Tax Law § 1115(a)(21-a)
**Effective date**: September 1, 2015
**Description:** General aviation aircraft, and machinery and equipment to be installed on the aircraft, are exempt from sales tax.

53. **Fuel sold to airlines**
**Citation:** Tax Law § 1115(a)(9)
**Effective date:** August 1, 1965
**Description:** Fuel sold to an airline for use in its airplanes is exempt from tax.

54. **Parts for foreign aircraft**
**Citation:** Tax Law § 1118(8)
**Effective date:** September 1, 1977
**Description:** Parts, engines, consumable technical supplies, and maintenance and ground equipment used exclusively in the operation, handling, or maintenance of aircraft are exempt from use tax if it is a foreign airline that brings such items into New York from a foreign country. These items must be used on aircraft owned by the foreign airline and are exempt only if similar items would not be subject to tax in the airline's home country if taken into such country by a U.S. airline.

55. **Services to private aircraft**
**Citation:** Tax Law § 1115(dd)
**Effective date:** December 1, 2004
**Description:** A sales and use tax exemption is provided for maintenance and certain other services performed on private aircraft, as well as the tangible personal property purchased and used in performing the services and any related storage charges.

56. **Intra-family sales of motor vehicles**
**Citation:** Tax Law § 1115(a)(14)
**Effective date:** September 1, 1969, for transactions between spouses, and September 1, 1972, for transactions between parents and children.
**Description:** Motor vehicles sold between spouses, or by a parent to a child or child to parent are exempt from tax.

57. **Motor vehicles and vessels sold to nonresidents**
**Citation:** Tax Law § 1117(a)
**Effective date:** August 1, 1965, as amended December 1, 1994, and March 1, 2001.
**Description:** Sales of motor vehicles and vessels in New York to nonresidents are exempt from the sales tax provided the nonresident purchaser is not registering the newly purchased vehicle or vessel for use in New York.

58. **Motor vehicles purchased out-of-state by a member of the military service**
**Citation:** Tax Law § 1115(a)(14-a)
**Effective date**: December 18, 2013
**Description:** Motor vehicles purchased in another state by a person while they are in the military service of the United States are exempt from tax.

59. **Rental of trucks in certain cases**
**Citation:** Tax Law § 1115(a)(22)
**Effective date:** May 15, 1981
**Description:** Certain rentals or leases of trucks, tractors, or tractor-trailer combinations to an authorized carrier, pursuant to a written contractual agreement are exempt.

60. **Tractor-trailer combinations**
**Citation:** Tax Law § 1115(a)(26), (g)
**Effective date:** January 1, 1988
**Description:** Exempt from tax are tractors, trailers or semitrailers, and property installed on such vehicles for their equipping, maintenance, or repair, provided the vehicle is used in combination where the gross weight of such combination exceeds 26,000 pounds. Related services performed on these vehicles are also exempt.

61. **Sales of property by railroads in reorganization**
**Citation:** Tax Law § 1115(h)
**Effective date:** August 1, 1975
**Description:** Sales of tangible personal property by a railroad in reorganization to a profitable railroad are exempt if the transactions are part of a reorganization plan.

62. **Commercial buses**
**Citation:** Tax Law § 1115(a)(32), (u)
**Effective date:** December 1, 1997
**Description:** Exempt from tax are buses and parts, equipment, and lubricants used in operating the bus, provided the vehicle weighs at least 26,000 pounds and measures 40 feet and is used to transport persons for hire. Related services performed on these vehicles are also exempt.

63. **Marine terminal facility equipment**
**Citation:** Tax Law § 1115(a)(41)
**Effective date:** December 1, 2005
**Description:** Exempt from tax are machinery and equipment for use directly and predominantly in loading, unloading, and handling cargo at a marine terminal facility located in a city with a population of one million or more that, in 2003, handled more than 350,000 twenty-foot equivalent units (TEUs).

64. **Ferry boats**
**Citation:** Tax Law § 1115(a)(43)
**Effective date:** September 1, 2008
**Description:** Exempt from tax are ferry boats and property used in conjunction with exempt boats for fuel, provisions, supplies, maintenance and repairs.

## Communication and media

65. **Interstate or international telephone and telegraph service**
**Citation:** Tax Law § 1105(b)
**Effective date:** August 1, 1965
**Description:** Charges for interstate and international telephone and telegraph services are exempt.

66. **Internet access service**
**Citation:** Tax Law § 1115(v)
**Effective date:** February 1, 1997
**Description:** The sales tax exempts Internet access service. Incidental services such as Internet communications or navigation software, an email address, and news headlines when offered in conjunction with Internet access are considered part of the exempt service.

67. **Cable television service**
**Citation:** Tax Law § 1105(c)(9)
**Effective date:** September 1, 1990
**Description:** Cable television service is exempt from tax.

68. **Newspapers and periodicals**
**Citation:** Tax Law §§ 1101(b)(6), 1115(a)(5), NYS Regulation § 528.6, 1118(5)
**Effective date:** August 1, 1965 [§ 1115(a)(5)]; December 1, 1994 [§ 1101(b)(6)]
**Description:** The sales of newspapers and periodicals are exempt from tax. In addition, the paper and ink used to publish newspapers and periodicals are exempt.

69. **Electronic news services and electronic periodicals**
**Citation:** Tax Law § 1115(gg)
**Effective date:** March 1, 2012

**Description:** Certain electronic news services and electronic periodicals are exempt from tax.

70. **Shopping papers**
**Citation:** Tax Law § 1115(a)(20), (i)
**Effective date:** September 1, 1977
**Description:** Receipts from the retail sale of a shopping paper to the publisher are exempt as well as the receipts from the sale of printing services performed in publishing such paper. In addition, the paper and ink used to publish a shopping paper are exempt.

71. **Telephone service used by the media**
**Citation:** Tax Law § 1115(b)(i)
**Effective date:** August 1, 1965; March 1, 2012 for electronic news services
**Description:** Charges for telephone and telegraph service used by newspapers, electronic news services, radio broadcasters, and television broadcasters in the collection or dissemination of news are exempt if the charges are toll charges or charges for mileage.

72. **Certain coin-operated telephone charges**
**Citation:** Tax Law § 1115(e)
**Effective date:** September 1, 1998
**Description:** Coin-operated telephone charges of 25 cents or less are exempt.

73. **Telecommunications and internet equipment**
**Citation:** Tax Law §§ 1115(a)(12-a), 1105(c)(3)(x)
**Effective date:** September 1, 2000
**Description:** Exempt from tax is tangible personal property used directly and predominantly in the receiving, initiating, amplifying, processing, transmitting, re-transmitting, switching, or monitoring of switching of telecommunications services for sale or Internet access services for sale.

74. **Internet data centers**
**Citation:** Tax Law § 1115(a)(37), (y)
**Effective date:** September 1, 2000
**Description:** Machinery, equipment, and certain other tangible personal property sold to a person operating an Internet data center that is required for and directly related to the provision of Internet website hosting and other website services at the data center are exempt. Also exempt are certain services to the exempt tangible personal property and building security services.

75. **Radio and television broadcasting**
**Citation:** Tax Law § 1115(a)(38), (aa)
**Effective date:** September 1, 2000

**Description:** Exempt from tax are purchases by radio and television broadcasters of machinery, equipment, parts, tools, and supplies used in the production and transmission of live or recorded programs. Installing, maintaining, servicing, or repairing the exempt items is also exempt. Moreover, the services of producing, fabricating, processing, printing, or imprinting tangible personal property furnished to the service provider by the broadcaster and performed in connection with the production, post-production, or the transmission of live or recorded programs are exempt.

76. **Film production**
**Citation:** Tax Law §§ 1115(a)(39), 1115(bb)
**Effective date:** December 1, 2002
**Description:** Tangible personal property used or consumed directly and predominantly in the production of a film for sale is exempt, regardless of the medium by which the film is conveyed to the purchaser. The exemption also extends to services rendered to the exempt property and to fuel and utility services used directly and exclusively in production.

77. **Certain mobile telecommunication services**
**Citation:** Tax Law § 1115(cc)
**Effective date:** August 1, 2002
**Description:** The sale of mobile telecommunication services by a home service provider is exempt from tax if the mobile telecommunications customer's place of primary use is outside of New York State.

## Industry

78. **Tools and supplies used in production**
**Citation:** Tax Law §§ 1105-B(a), 1115(a)(36)
**Effective date:** March 1, 1981, December 1, 1998 [§1115(a)(36)]
**Description:** Receipts from the retail sale of parts with a useful life of one year or less, tools and supplies for use or consumption directly and predominantly in the production of tangible personal property, gas, electricity, refrigeration, or steam for sale by manufacturing, processing, generating, assembling, refining, mining, or extracting are exempt from sales tax.

79. **Farm production and commercial horse boarding**
**Citation:** Tax Law §§ 1115(a)(6), 1105(c)(3)(vi), 1105(c)(5)(iii)
**Effective date:** August 1, 1965 [§1115(a)(6)]; September 1, 1982 [§ 1105(c)(3)(vi)], September 1, 2000 [§ 1105(c)(5)(iii)]
**Description:** Exempt from tax is tangible personal property for use or consumption predominantly in the production, for sale, of tangible personal property by farming or in a commercial horse boarding operation. Also exempt are the services of installing,

repairing, maintaining, and servicing tangible personal property and real property used predominantly in farming or in a commercial horse boarding operation.

80. **Research and development property**
**Citation:** Tax Law § 1115(a)(10)
**Effective date:** August 1, 1965
**Description:** Tangible personal property purchased for use or consumption directly and predominantly in research and development in the experimental or laboratory sense is exempt from tax.

81. **Machinery and equipment used in production**
**Citation:** Tax Law § 1115(a)(12)
**Effective date:** August 1, 1965
**Description:** Exempt from sales tax are machinery and equipment for use or consumption directly and predominantly in the production of tangible personal property, gas, electricity, refrigeration, or steam for sale by manufacturing, processing, generating, assembling, refining, mining, or extracting.

82. **Services to machinery and equipment used in production**
**Citation:** Tax Law § 1105-B(b)
**Effective date:** March 1, 1981
**Description:** The services of installing, repairing, maintaining, or servicing exempt production machinery and equipment or exempt parts, tools, and supplies are exempt.

83. **Wrapping and packaging materials**
**Citation:** Tax Law § 1115(a)(19)
**Effective date:** July 1, 1974
**Description:** Cartons, containers, wrapping, and packaging materials and supplies are nontaxable when used by a vendor in packaging or packing tangible personal property for sale and actually transferred to the purchaser.

84. **Milk crates**
**Citation:** Tax Law § 1115(a)(19-a)
**Effective date:** September 1, 2007
**Description:** Exempt from tax are milk crates purchased by a dairy farmer or licensed milk distributor used exclusively and directly for packaging and delivering milk and milk products to customers.

85. **Commercial fishing vessels**
**Citation:** Tax Law §§ 1115(a)(24), 1105(c)(3)(vii)
**Effective date:** August 1, 1985
**Description:** Exempt from tax are the sales of commercial fishing vessels used directly and predominantly in the harvesting of fish for sale, and property used by or

purchased for the use of such vessels for fuel, provisions, supplies, maintenance, and repairs. Related services are also exempt.

86. **Certain services used in gas or oil production**
**Citation:** Tax Law § 1105(c)(3)(ix), (c)(5)
**Effective date:** December 1, 1998
**Description:** Exempt from tax are the services of installing, maintaining, repairing, or servicing tangible personal property used directly and predominately in producing gas or oil for sale. Also exempt are maintenance and repair services rendered to real property or land used directly and predominately in producing gas or oil for sale.

87. **Pollution control equipment**
**Citation:** Tax Law § 1115(a)(40)
**Effective date:** March 1, 2001
**Description:** Machinery or equipment used directly and predominantly in the control, prevention, or abatement of pollution or contaminants from manufacturing or industrial facilities is exempt to the extent not exempted under expenditure item 81.

88. **Property manufactured by the user**
**Citation:** Tax Law § 1110(c)
**Effective date:** March 1, 2001
**Description:** The compensating use tax imposed on certain self-produced items used by a manufacturer on its own premises is computed on the cost of materials rather than on the manufacturer's normal selling price.

## Miscellaneous

89. **Certain property sold through vending machines**
**Citation:** Tax Law § 1115(a)(13), (13-a)
**Effective date:** August 1, 1965 [§ 1115(a)(13)]; 50-cent exemption effective December 1, 1997 [§ 1115(a)(13-a)]
**Description:** Tangible personal property sold through coin-operated vending machines at 10 cents or less is exempt, provided the retailer is primarily engaged in making such sales. Also exempt is tangible personal property sold through coin-operated bulk vending machines at 50 cents or less, provided the retailer is primarily engaged in making such sales.

90. **Trade-in allowance**
**Citation:** Tax Law § 1101(b)(3)
**Effective date:** August 1, 1965
**Description:** A credit for a trade-in on an automobile or other item qualifies as a reduction of the taxable receipts, provided the item traded in is intended for resale by the vendor.

91. **Certain hotel room rent**
**Citation:** Tax Law § 1105(e)(1),(2)
**Effective date:** August 1, 1965
**Description:** The rent for occupancy of a hotel room by a permanent resident or where the rent is not more than two dollars per day is exempt from tax.

92. **Dues for fraternal societies**
**Citation:** Tax Law § 1105(f)(2)(i), 1105(f)(2)(ii)(A), (B)
**Effective date:** August 1, 1965
**Description:** Dues and initiation fees paid to a fraternal society, order, or association operating under the lodge system or any fraternal association of students of a college or university are excluded from tax. Dues of $10 or less per year paid to a social or athletic club are also exempt.

93. **Homeowner association dues**
**Citation:** Tax Law § 1105(f)(2)(ii)(C)
**Effective date:** September 1, 1995
**Description:** The tax law exempts the dues paid to a homeowner association operating social or athletic facilities for its members.

94. **Homeowner association parking services**
**Citation:** Tax Law § 1105(c)(6)
**Effective date:** December 1, 1997
**Description:** Charges paid by a homeowner association member for parking, garaging, or storing motor vehicles at a facility owned or operated by the association are exempt.

95. **Property sold by morticians**
**Citation:** Tax Law § 1115(a)(7)
**Effective date:** August 1, 1965
**Description:** Exempt from tax is tangible personal property sold by a mortician, undertaker, or funeral director. However, sales to them for use in conducting funerals do not qualify as a sale for resale and are taxable.

96. **Cemetery monuments**
**Citation:** Tax Law § 1115(a)(44)
**Effective date:** September 1, 2017; June 1, 2019, for tangible personal property that will become a physical component part of the monument
**Description:** The retail sale of monuments, as that term is defined in Not-For-Profit Corporation Law § 1502(f), and tangible personal property that will become a physical component part of the monument is exempt from tax.

97. **Flags**
**Citation:** Tax Law § 1115(a)(11)
**Effective date:** August 1, 1965
**Description:** Flags of the United States of America and the State of New York are exempt.

98. **Military decorations**
**Citation:** Tax Law § 1115(a)(11-a)
**Effective date:** December 1, 2006
**Description:** Purchases of military decorations (for example, ribbons, medals, and lapel pins) by a veteran or active member of the United States military are exempt from tax.

99. **Military flags and banners**
**Citation:** Tax Law § 1115(a)(11-b)
**Effective date:** December 1, 2012
**Description:** Military service flags, prisoner of war flags and blue star banners are exempt from tax.

100. **Property manufactured and sold by a veteran**
**Citation:** Tax Law § 1115(a)(18-a)
**Effective date:** March 1, 2017
**Description:** Tangible personal property manufactured and sold by a veteran for the benefit of the veteran's service organization is exempt from tax. The exemption applies to the first $2,500 of such sales in a calendar year.

101. **Garage sales**
**Citation:** Tax Law § 1115(a)(18)
**Effective date:** September 1, 1973
**Description:** Certain sales of property at private residences are not taxable if the sales do not take place more than three days in a calendar year, are reasonably expected not to exceed $600, if no member of the household conducts a trade or business selling similar products, and the sale is not held to liquidate an estate.

102. **New mobile homes**
**Citation:** Tax Law § 1111(f)
**Effective date:** September 1, 1983
**Description:** Thirty percent of the receipts or consideration from sales of new mobile homes is exempt from tax.

103. **Used mobile homes**
**Citation:** Tax Law § 1115(a)(23)
**Effective date:** January 1, 1982
**Description:** Sales of used mobile homes are tax exempt.

104. **Modular homes**
**Citation:** Tax Law § 1111(p)
**Effective date**: December 1, 2009
**Description:** Forty percent of a vendor's receipt from the sale of a new modular home module is exempt from sales tax.

105. **Registered racehorses**
**Citation:** Tax Law § 1115(a)(29)
**Effective date:** June 1, 1994
**Description:** Certain registered racehorses purchased or used for entry in events on which pari-mutuel wagering is authorized are exempt. The exemption does not apply to a horse that had never raced in such an event during the first four years of its life.

106. **Racehorses purchased through claiming races**
**Citation:** Tax Law § 1111(g)
**Effective date:** July 1, 1985
**Description:** The sale in New York of racehorses through claiming races, if not otherwise exempt, is taxable on the full purchase price. However, on the second or later sale of the same horse in the same calendar year within the State, the tax applies only to the excess of the purchase price over the highest of the prior purchase prices.

107. **Racehorses purchased out of state**
**Citation:** Tax Law § 1118(9), (10)
**Effective date:** July 28, 1981 [§ 1118(9)]; July 1, 1985 [§ 1118(10)]
**Description:** Certain racehorses purchased outside New York and brought into the State for the purpose of entering racing events are exempt from use tax. For racehorses not otherwise exempt and entered in racing events in New York on more than five days, the use tax does not apply to the value of the racehorse in excess of $100,000.

108. **Training and maintaining racehorses**
**Citation:** Tax Law § 1115(m)
**Effective date:** July 19, 1988
**Description:** Exempt from tax are the services of training and maintaining racehorses. Also exempt is the tangible personal property actually transferred by a trainer to the racehorse owner in conjunction with such services.

109. **Property sold to contractors for capital improvements or repairs for exempt organizations**
**Citation:** Tax Law § 1115(a)(15), (16)
**Effective date:** September 1, 1969

**Description:** Tangible personal property sold to a contractor, subcontractor, or repairman is exempt from tax if the property is used in erecting structures, maintaining, servicing, repairing, or adding to or altering the real property of an exempt organization and such property becomes an integral component part of the realty.

110. **Property donated by a manufacturer to an exempt organization**
**Citation:** Tax Law § 1115(l)
**Effective date:** September 1, 1986
**Description:** Tangible personal property manufactured and donated by the manufacturer to an exempt organization is exempt from tax provided that the manufacturer offers the same kind of property for sale in the regular course of business and that the manufacturer has not made any other use of the donated property.

111. **Sales and use tax paid to other states**
**Citation:** Tax Law § 1118(7)
**Effective date:** August 1, 1965
**Description:** Exempt from tax are property or services upon which a sales or use tax was properly paid to another state, providing such state allows a corresponding exemption for taxable purchases in New York, and no credit or refund is available from such other state. Tax is due to New York to the extent that the tax imposed by New York is at a higher rate than the rate of such other state.

112. **Precious metal bullion and coins**
**Citation:** Tax Law § 1115(a)(27)
**Effective date:** September 1, 1989
**Description:** Precious metal bullion and coins sold for investment are exempt.

113. **Computer software transferred to affiliated corporations**
**Citation:** Tax Law § 1115(a)(28)
**Effective date:** September 1, 1991
**Description:** Computer software that was originally purchased as a nontaxable custom computer program and is subsequently sold by the original purchaser to a corporation that is a member of an affiliated group to which the original purchaser also belongs, is exempt from tax.

114. **Services to computer software**
**Citation:** Tax Law § 1115(o)
**Effective date:** September 1, 1991
**Description:** Installing, maintaining, servicing, or repairing prewritten computer software is exempt from tax.

115. **Self-use of prewritten software by its author**
**Citation:** Tax Law § 1110(g)
**Effective date:** September 1, 1991
**Description:** The Use Tax on prewritten computer software used by its author or creator is calculated on the cost of the blank medium, such as the disks or tapes, and not at the price at which the software is normally offered for sale.

116. **Computer system hardware**
**Citation:** Tax Law § 1115(a)(35)
**Effective date:** June 1, 1998; March 1, 2001 for Internet Web sites
**Description:** Exempt from tax are purchases, leases, or rentals of computer system hardware used or consumed directly and predominantly in designing and developing computer software for sale or in providing the service, for sale, of designing and developing internet websites.

117. **Promotional materials mailed out of state**
**Citation:** Tax Law § 1115(n)(1), (2)
**Effective date:** September 1, 1989
**Description:** Exempt from tax are promotional materials mailed out of state, envelopes, and Cheshire labels used in mailing promotional materials from points in New York State to customers outside New York State. A pro rata exemption is also allowed for charges for the use of a mailing list, in connection with mailing such promotional materials.

118. **Printed promotional materials**
**Citation:** Tax Law § 1115(n)(4), (5) and (6)
**Effective date:** March 1, 1997
**Description:** Exempt from tax are printed promotional materials distributed by U.S. mail or common carrier. Also exempt are certain services purchased in connection with the exempt promotional materials, such as mailing list services and a printer's storage service.

119. **U.S. postage used in the distribution of promotional materials**
**Citation:** Tax Law § 1115(n)(3)
**Effective date:** September 1, 1991
**Description:** Separately stated charges by a vendor to the purchaser of promotional materials, or of taxable services to such promotional material, for the cost of mailing the promotional materials by means of the United States Postal Service are exempt from tax.

120. **Clothing and footwear**
**Citation:** Tax Law § 1115(a)(30)
**Effective date:** March 1, 2000

**Description:** Exempt from tax are items of clothing and footwear costing less than $110. The exemption also applies to most fabric, thread, yarn, buttons, snaps, hooks, zippers, and like items that become a physical component part of exempt clothing or are used to make or repair the exempt clothing.

121. **Coin-operated photocopying machines**
**Citation:** Tax Law § 1115(a)(31)
**Effective date:** December 1, 1997
**Description:** Copies made using a coin-operated photocopy machine where the charge is 50 cents or less per copy are exempt from tax.

122. **Luggage carts**
**Citation:** Tax Law § 1115(a)(13-b)
**Effective date:** December 1, 1997
**Description:** Exempt from tax are temporary transportation devices (for example, luggage carts) sold through coin-operated equipment, provided the retailer is primarily engaged in making such sales.

123. **Emissions testing equipment**
**Citation:** Tax Law § 1115(a)(31)
**Effective date:** September 1, 1997
**Description:** Exempt from tax is enhanced emissions inspection equipment certified by the Department of Environmental Conservation for use in an enhanced emissions inspection and maintenance program as required by the federal Clean Air Act of 1990, when purchased by an authorized inspection station.

124. **College textbooks**
**Citation:** Tax Law § 1115(a)(34)
**Effective date:** June 1, 1998
**Description:** Course textbooks purchased by full or part-time students enrolled in an institution of higher education are exempt.

125. **Live dramatic or musical arts production**
**Citation:** Tax Law § 1115(x)
**Effective date:** March 1, 2001
**Description:** Exempt from tax are certain items of tangible personal property and certain services that are used directly and predominantly in producing certain live dramatic or musical arts performances.

126. **Lower Manhattan commercial office space**
**Citation:** Tax Law § 1115(ee)
**Effective date:** September 1, 2005

**Description:** Exempt from tax is a commercial tenant's, landlord's, and contractor's purchases and uses of certain property used to outfit, furnish, and equip certain leased commercial office space in eligible areas in Lower Manhattan.
**Termination date:** Expires December 1, 2030

127. **Dodd-Frank Wall Street Reform and Consumer Protection Act**
**Citation:** Tax Law § 1115(jj)
**Effective date**: September 1, 2015
**Description:** A sales tax exemption is granted to certain related-party sales arising as a result of the Dodd-Frank Wall Street Reform and Consumer Protection Act.
**Termination date:** Expires June 30, 2028

## Exempt organizations

128. **New York State agencies and political subdivisions**
**Citation:** Tax Law § 1116(a)(1)
**Effective date:** August 1, 1965
**Description:** Exempt from tax is the State of New York, or any of its agencies, instrumentalities, public corporations, or political subdivisions where it is the purchaser, user, or consumer, or where it is a vendor of services or property of a kind not ordinarily sold by private persons.

129. **Industrial development agencies**
**Citation:** Tax Law § 1116(a)(1), and General Municipal Law, Article 18-A
**Effective date:** May 26, 1969
**Description:** An Industrial Development Agency or Authority (IDA) qualifies as an exempt government organization under § 1116(a)(1) and receives all the benefits of that status. In addition, General Municipal Law, Article 18-A, grants tax exempt status to purchases made by an IDA project beneficiary (as agent of the IDA) and for sales by an IDA even where it is a vendor of services or property of a kind ordinarily sold by private persons.

130. **Federal agencies**
**Citation:** Tax Law § 1116(a)(2), and 12 U.S. Code § 1768
**Effective date:** August 1, 1965
**Description:** Exempt from tax is the United States of America, and any of its agencies and instrumentalities where it is the purchaser, user, or consumer, or where it sells services or property of a kind not ordinarily sold by private persons.

131. **United Nations**
**Citation:** Tax Law § 1116(a)(3)
**Effective date:** August 1, 1965
**Description:** Exempt from tax is the United Nations, or any international organization of which the United States is a member, where it is the purchaser, user,

or consumer, or where it sells services or property of a kind not ordinarily sold by private persons.

132. **Diplomats and foreign missions**
**Citation:** Federal treaties with diplomat's country
**Effective date:** Effective dates vary by federal treaties
**Description:** Diplomats of foreign countries and foreign missions are exempt from all national, state, and local taxes if the treaty with the foreign nation provides a reciprocal exemption for U.S. diplomats abroad.

133. **Charitable organizations**
**Citation:** Tax Law § 1116(a)(4)
**Effective date:** August 1, 1965
**Description:** Exempt from tax are purchases by nonprofit organizations organized and operated exclusively for religious, charitable, scientific, testing for public safety, literary or educational purposes, fostering national or international amateur sports competition, or for the prevention of cruelty to children or animals.

134. **Veterans' posts or organizations**
**Citation:** Tax Law § 1116(a)(5), (g)
**Effective date:** September 1, 1974 [§ 1116(a)(5)]; December 1, 1993 [§ 1116(g)]
**Description:** Exempt from tax are purchases by certain posts or organizations of past or present members of the Armed Forces of the United States. Hotel occupancy purchased by individual members acting as duly authorized representatives of the post or organization are also exempt.

135. **Veterans' homes gift shops**
**Citation:** Tax Law § 1115(ff)
**Effective date:** December 1, 2006
**Description:** Sales of tangible personal property by any gift shop located in a veterans' home are exempt.

136. **Indian Nations and members of such Indian Nations**
**Citation:** Tax Law § 1116(a)(6); federal restrictions
**Effective date:** September 1, 1976
**Description:** The following Indian Nations residing in New York are exempt where they are the purchaser, user, or consumer: Cayuga, Oneida, Onondaga, Poospatuck, Saint Regis Mohawk, Seneca, Shinnecock, Tonawanda, and Tuscarora. In addition, members of these Nations are excluded from tax for purchases made by them on the reservation in New York State.

137. **U.S. Military base post exchanges**
**Citation:** 4 U.S. Code, §§ 104-110
**Effective date:** August 1, 1965

**Description:** Sales, except sales of motor fuel, made on a military base at a post exchange or commissary are exempt.

138. **Nonprofit health maintenance organizations**
**Citation:** Tax Law § 1116(a)(7)
**Effective date:** April 1, 1980
**Description:** Purchases by a nonprofit health maintenance organization subject to the provisions of Public Health Law, Article 44 are tax exempt.

139. **Nonprofit medical expense indemnity or hospital service corporations**
**Citation:** Insurance Law Article 43 § 4310(j)
**Effective date:** June 15, 1939
**Description:** The Insurance Law provides for an exemption from all State and local taxes (including State and local sales taxes) for certain entities. These entities include nonprofit corporations organized for the purpose of family medical expense indemnity, dental expense indemnity, hospital services, or health services.

140. **Nonprofit property/casualty insurance companies**
**Citation:** Insurance Law Article 67 § 6707
**Effective date:** December 20, 2000
**Description**: The Insurance Law provides for an exemption from sales tax for a nonprofit property/casualty insurance company subject to the provisions of Article 67 with respect to any property owned by it or under its jurisdiction, control, or supervision.

141. **Certain state credit unions**
**Citation:** Tax Law § 1116(a)(9)
**Effective date:** March 1, 2006
**Description:** New York State chartered credit unions are exempt from tax if they had converted to a state charter from a federal charter on or after January 1, 2006.

142. **Rural electric cooperatives**
**Citation:** Tax Law § 1116(a)(8)
**Effective date:** September 1, 1983
**Description:** Exempt from tax on their purchases are cooperatives and foreign corporations doing business in this State pursuant to the Rural Electric Cooperative Law.

143. **Municipal trash removal services**
**Citation:** Tax Law § 1116(e)
**Effective date:** June 30, 1980
**Description:** Receipts from the service of trash removal are exempt from tax where such service is rendered by or on behalf of a municipal corporation of the State other than New York City.

## Admission charges

144. **Certain admission charges**
**Citation:** Tax Law § 1105(f)(1)
**Effective date:** August 1, 1965; December 1, 1997, for circus admissions
**Description:** Exempt from tax are admission charges of 10 cents or less, plus admission charges to: race tracks; boxing or wrestling matches; live circus performances, dramatic, or musical arts performances; motion picture theaters; and sporting facilities where the patron is to be a participant, such as bowling alleys, health and fitness centers, and swimming pools.

145. **Amusement park admissions**
**Citation:** Tax Law § 1122
**Effective date:** July 27, 2004
**Description:** An exemption from Sales and Use Tax applies to 75 percent of the admission charge to certain amusement parks when the charge includes a fee for the use of amusement rides within the park.

146. **Events given for the benefit of charitable organizations, veterans posts, and Indian Nations**
**Citation:** Tax Law § 1116(d)(1)(A)
**Effective date:** August 1, 1965
**Description:** In general, admissions are exempt if all of the proceeds go exclusively to the benefit of a tax-exempt charitable organization, Indian Nations, or organization of past or present members of the Armed Forces.

147. **Events given for the benefit of certain orchestras and opera companies**
**Citation:** Tax Law § 1116(d)(1)(B)
**Effective date:** August 1, 1965
**Description:** Admissions are exempt if all of the proceeds go exclusively to the benefit of a society or organization conducted for the sole purpose of maintaining symphony orchestras or operas and receiving substantial support from voluntary contributions.

148. **National guard organization events**
**Citation:** Tax Law § 1116(d)(1)(c)
**Effective date:** August 1, 1965
**Description:** Admissions are exempt if all of the proceeds go exclusively to the benefit of a National Guard organization.

149. **Municipal police and fire department events**
**Citation:** Tax Law § 1116(d)(1)(D)
**Effective date:** August 1, 1965

**Description:** Admissions are exempt if all of the proceeds go exclusively to the benefit of a police or fire department of a political subdivision of the State, including its pension or disability funds, or to volunteer fire and ambulance companies.

150. **Certain athletic games**
**Citation:** Tax Law § 1116(d)(2)(A)
**Effective date:** August 1, 1965
**Description:** Admissions to any athletic game or exhibition are exempt where the proceeds go exclusively to the benefit of elementary or secondary schools.

151. **Carnivals or rodeos for certain charitable organizations**
**Citation:** Tax Law § 1116(d)(2)(B)
**Effective date:** July 30, 1983
**Description:** Admissions to carnivals or rodeos in which any professional performer or operator participates for compensation are exempt when the entire net profit inures exclusively to the benefit of a tax-exempt charitable organization having as its charitable purpose the operation of a school.

152. **Agricultural fairs**
**Citation:** Tax Law § 1116(d)(3)(A)
**Effective date:** August 1, 1965
**Description:** Admissions to agricultural fairs are exempt if no part of net earnings inures to the benefit of any stockholders or members of the association conducting the fair, and if the proceeds from the fair are used exclusively for the improvement, maintenance, and operation of such agricultural fairs.

153. **Historical homes, gardens, sites, and museums**
**Citation:** Tax Law § 1116(d)(3)(B), (c)
**Effective date:** August 1, 1965
**Description:** Admissions to an historical home or garden, historic sites, houses and shrines, or museums that are maintained and operated by a society or organization devoted to the preservation and maintenance of such historic places are exempt, provided that no part of net earnings goes to the benefit of any private stockholder or individual.

154. **Performances at a roof garden or cabaret**
**Citation:** Tax Law § 1123
**Effective date:** December 1, 2006
**Description:** The admission charge to a roof garden, cabaret, or similar place to attend a dramatic or musical arts performance is exempt from tax when separate from other charges such as charges for food or drink.

## Credits

155. **Sales tax vendor credit**
**Citation:** Tax Law § 1137(f)
**Effective date:** September 1, 1994; September 1, 2006, for current rates; September 1, 2010 for limitation of the credit to quarterly and annual filers.
**Description:** A vendor allowance is provided to vendors that timely file and fully pay quarterly or annual returns. The credit is equal to five percent of State and local taxes remitted up to $200 per return.

156. **Tangible property sold by contractors in certain situations**
**Citation:** Tax Law § 1119(a)
**Effective date:** August 1, 1965
**Description:** A credit for taxes paid is allowed on the sale to or use by a contractor or subcontractor of tangible personal property if that property is used solely in the performance of a preexisting lump sum or unit price construction contract. The credit would only be applicable following a sales and use tax rate change.

157. **Construction materials used in Empire Zones**
**Citation:** Tax Law § 1119(a)
**Effective date:** September 1, 1986
**Description:** A credit for taxes paid is allowed on the sale of tangible personal property purchased for use in constructing, expanding, or rehabilitating industrial or commercial real property located in an Empire Zone, but only to the extent that such property becomes an integral component part of the real property.

158. **Bus companies providing local transit service**
**Citation:** Tax Law § 1119(b)
**Effective date:** March 1, 1974
**Description:** A credit for taxes paid is allowed on the sale to, or use by, an omnibus carrier in New York of any omnibus, parts, equipment, lubricants, motor fuel, diesel fuel, maintenance or service, or repair purchased and used in the operation of any such omnibus by such carrier. The amount of credit is based on the ratio of the vehicle mileage in local transit service in New York to the total vehicle mileage in the State.

159. **Vessel operators providing local transit service**
**Citation:** Tax Law § 1119(b)
**Effective date:** December 1, 2004
**Description:** A credit or refund for taxes paid is allowed on the sale to, or use by a vessel operator of any vessel, parts, equipment, lubricants, diesel motor fuel, maintenance, servicing, or repairs purchased and used in the operation of certain vessels providing local transit service (for example, water taxis). The credit or refund is provided according to the percentage of the vessel's use in local transit service.

160. **Commercial motor vehicle leases with terminal rental adjustment clauses**
**Citation:** Tax Law § 1111(i)(B)
**Effective date:** June 1, 2022
**Description**: A credit or refund is allowed to a lessee or lessor under certain conditions for sales taxes paid on commercial motor vehicle leases with terminal rental adjustment clauses (TRAC leases).

161. **Qualified Empire Zone Enterprises**
**Citation:** Tax Law § 1119(d)
**Effective date**: September 1, 2009
**Description:** A credit or refund is available for tax paid on tangible personal property and certain services purchased by a Qualified Empire Zone Enterprise and used directly and predominantly in an Empire Zone in which the Qualified Empire Zone Enterprise has qualified for benefits. A refund or credit is also allowed for tax paid on tangible personal property sold to a contractor, subcontractor or repairman in certain situations.

162. **Economic transformation and facility redevelopment program**
**Citation**: Tax Law § 1119(f)
**Effective date:** March 31, 2011
**Description:** A refund is available to a participant in this program (or its contractor) for State tax paid on tangible personal property used in the construction, expansion, or rehabilitation of industrial or commercial real property located in an economic transformation area, but only to the extent that such property becomes an integral component part of the real property.

163. **New York State Business Incubator and Innovation Hot Spot Program**
**Citation:** Tax Law § 1119(d)
**Effective date:** March 28, 2013
**Description:** A credit or refund for taxes paid is allowed on tangible personal property and certain services purchased by a qualified entity that is a tenant in or part of a New York State innovation hot spot.

164. **START-UP New York tax elimination credit**
**Citation:** Tax Law § 1119(d)
**Effective date:** March 1, 2014
**Description:** A credit or refund is available for tax paid on tangible personal property and certain services purchased by an approved business that is located in a tax-free NY area. In addition, a credit or refund is available for certain purchases of tangible personal property by contractors, subcontractors, and repairmen that is used in constructing, improving, maintaining, servicing, or repairing real property of such an approved business.

This section provides tax expenditure estimates for 35 provisions of the petroleum business tax. Table 6 provides a list of expenditures based on the Tax Law as of January 1, 2026. The estimates are based on data for the 2024 calendar year (the latest complete year for which tax return data are available) and then extrapolated to the 2026 calendar year. Total petroleum business tax liability for calendar year 2024 is provided as a benchmark for the tax expenditure estimates.

## Description of tax

Tax Law, Article 13-A imposes a business privilege tax on petroleum businesses operating in New York State. The tax is measured by the quantity of various petroleum products refined or sold in the state or imported for sale or use in the state. Imposition of the tax occurs at different points in the distribution chain, depending upon the type of petroleum product. Motor fuel (gasoline) is subject to tax upon importation to New York State. Highway diesel motor fuel is taxable upon removal from an in-state registered fuel terminal. Non-highway diesel motor fuel and residual petroleum products become taxable on the final sale or use of the product in New York.

The Article 13-A business privilege tax was added to the Tax Law in 1983 and was imposed on the gross receipts of such businesses. On September 1, 1990, the tax was restructured, converting the annual gross receipts tax to a monthly tax measured by gallons.

Some of the exemptions, credits, and reimbursements provided for in the restructuring applied to the prior gross receipts tax. Although these provisions already had been in place, the effective dates and estimates cited herein reflect the date on which they were restructured.

## Data sources

The major sources of data used to calculate the tax expenditure estimates under Article 13-A include:

- Petroleum Business Tax (PBT) Master File for 2020-2024. This is an unverified file of all taxpayers filing a return under Article 13-A.
- Refund data from the Department of Taxation and Finance's Audit Division.
- Non-tax data sources such as: data from the U.S. Department of Energy and U.S. Department of Defense and New York State Energy Research and Development Authority.

## Methodology

The projections of the tax expenditures from 2024 to 2026 are based, where possible, on forecasted consumption of various petroleum products. These forecasts were produced by the United States Department of Energy - Energy Information Agency. The remaining expenditure estimates used forecasts of appropriate economic variables.

**Table 6**
**2026 New York State petroleum business tax expenditure estimates (in millions of dollars)**
**(2024 calendar year total petroleum business tax liability = $1,061 million)**

## Exemptions

The petroleum business tax allows certain exemptions for gallonage otherwise included in the calculation of tax.

## Products

1. **Kerosene**
   **Citation:** Tax Law § 301-b(a)(1)
   **Effective date:** September 1, 1990
   **Description:** Exemptions from tax apply to kerosene sold or used by a petroleum business registered as a diesel motor fuel distributor. The exemption applies to kerosene that has not been blended or mixed with any diesel motor fuel, motor fuel, or residual petroleum product and is not used by the petroleum business as fuel to operate a motor vehicle or sold to a consumer to use as fuel for operation of a motor vehicle.

2. **Bunker fuel**
   **Citation:** Tax Law § 301-b(a)(4)
   **Effective date:** September 1, 1990
   **Description:** This section exempts from tax residual petroleum products sold by a business registered as a *residual petroleum business* to a consumer for exclusive use as bunker fuel, or, for use by the residual petroleum business as bunker fuel for its own vessels. Bunker fuel is petroleum fuel used in ships.

3. **Liquid petroleum gases**
   **Citation:** Tax Law § 301-b(a)(5)
   **Effective date:** September 1, 1990
   **Description:** An exemption from tax is allowed for liquid petroleum gases such as butane, ethane, or propane.
   **Data source:** Crude oil: U.S. Department of Energy; Liquid Petroleum Gases: Petroleum Business Tax Master File and U.S. Department of Energy

4. **Compressed natural gas and hydrogen**
   **Citation:** Tax Law § 301-b(a)(8)
   **Effective date:** September 1, 2006
   **Description:** Exemptions from tax apply to compressed natural gas and hydrogen that are suitable for use in the engine of a motor vehicle. This provision sunsets on September 1, 2026.

5. **E-85**
   **Citation:** Tax Law § 301-b(a)(6)
   **Effective date:** September 1, 2006

**Description:** Exemptions from tax apply to sales of E-85 provided the E-85 is delivered to and placed in a storage tank of a filling station to be dispensed directly into a motor vehicle for use in the operation of the motor vehicle. This provision sunsets on September 1, 2026.

6. **B-20**
**Citation:** Tax Law § 301-b(a)(7)(i,ii)
**Effective date:** September 1, 2006
**Description:** A partial exemption from tax applies to sales of B-20 (20 percent biodiesel and 80 percent diesel motor fuel). The partial exemption is equal to a 20 percent reduction of the otherwise applicable petroleum business tax rates on diesel motor fuel. This provision sunsets on September 1, 2026.

## Sales

7. **Governments**
**Citation:** Tax Law §§ 301-b(c), 301-e(e)(4)
**Effective date:** September 1, 1990
**Description:** The petroleum business tax exempts the sales of motor fuel, diesel motor fuel, or residual petroleum products to the New York State, the United States of America, or any of their agencies, instrumentalities, or political subdivisions. The exemption applies where such fuel is used by these entities for its own use or consumption. An exemption from tax also exists for naphtha based aviation fuel used solely for propelling military jet aircraft of the United States Armed Forces.

8. **Residential heating**
**Citation:** Tax Law § 301-b(d)(1)
**Effective date:** September 1, 1990
**Description:** An exemption from tax applies to non-highway diesel motor fuel and residual petroleum product sold by a registered distributor of the product to a consumer, exclusively for residential heating purposes.

9. **Fuel used for manufacturing purposes**
**Citation:** Tax Law §§ 301-a(f)(4), 301-a(g)(4)
**Effective date:** January 1, 1998
**Description:** The sale or use of residual fuel or non-highway diesel fuel for use and consumption directly and exclusively in the production of tangible personal property for sale by manufacturing, processing, or assembly are exempt from the full petroleum business tax. Prior to January 1, 1998 (effective in September 1994), the above sales or uses of such fuels were exempt from the supplemental portion of the petroleum business tax. (See item 20 for reimbursement if the tax was paid on subsequent sales.)

10. **Fuel used for farm production**
**Citation:** Tax Law § 301-b(g)
**Effective date:** September 1, 1994
**Description:** The sale or use of non-highway diesel motor fuel and residual petroleum product for off-highway farm production of goods for sale are exempt from the tax. However, the fuel must be delivered on the farm site. (See item 24)

11. **Not-for-profit organizations and veterans groups**
**Citation:** Tax Law § 301-b(h)
**Effective date:** January 1, 1996
**Description:** Not-for-profit organizations and veterans' groups purchasing and using residual fuel, non-highway diesel motor fuel for their exclusive use are eligible for a full, up-front exemption from the tax. These organizations include not-for-profit groups organized for religious, charitable, scientific, testing for public safety, literary or educational purposes, to foster national or international amateur sports competition, for the prevention of cruelty to children or animals, or veteran groups as listed in Tax Law, § 1116(a)(4) or (5). (See item 29 for a full credit/reimbursement of the tax.)

12. **Fuel used for railroad purposes**
**Citation:** Tax Law §§ 301-a(e)(4), 301-j(a)(3)
**Effective date:** January 1, 1997
**Description:** The sale of non-highway diesel motor fuel for use or consumption directly and exclusively in the operation of a locomotive or a self-propelled vehicle run only on rails or tracks is exempt from the supplemental portion of the tax. Such fuel is also taxed at a preferential rate under the base portion of the tax that is computed as the automotive diesel base rate less 1.3 cents. (See item 25 for refund/reimbursement of tax.)

13. **Certain commercial gallonage**
**Citation:** Tax Law § 301-j(a)(2)
**Effective date:** March 1, 1997
**Description:** Commercial gallonage defined as non-highway type diesel motor fuel and residual fuel that does not qualify for the utility credit/reimbursement or the manufacturing exemption or the not-for-profit exemption or the non-residential heating rate or will not be used in a commercial vessel is exempt from the supplemental portion of the tax. This fuel is primarily used for electric generation purposes. (See item 21 for refund/reimbursement of tax.)

14. **Fuel used for non-residential heating purposes**
**Citation:** Tax Law § 301-b(d)(2)
**Effective date:** April 1, 2001
**Description:** A partial exemption from tax applies to non-highway diesel motor fuel and residual petroleum product sold by a registered distributor of the product to a

consumer exclusively for non-residential heating purposes. The rate of the partial exemption was calculated as the then-current petroleum business tax supplemental tax rate (imposed under § 301-j) plus 20 percent of the then current petroleum business tax base rate (imposed under § 301-a) for the applicable fuel above. Effective September 1, 2002, this partial exemption is calculated as the then-current supplemental tax rate plus 46 percent of the then-current petroleum business tax base rate.

## Credit, refund, or reimbursement

A credit, refund, or reimbursement is allowed against taxes paid by certain petroleum businesses for particular petroleum products.

15. **Residential heating fuel**
**Citation:** Tax Law § 301-c(a)(1)
**Effective date:** September 1, 1990
**Description:** A reimbursement is allowed for taxes paid by subsequent purchasers of non-highway diesel motor fuel purchased in the State and sold to a consumer for use exclusively for residential heating purposes.

16. **Governments**
**Citation:** Tax Law § 301-c(b)
**Effective date:** September 1, 1990
**Description:** This section provides a reimbursement for taxes paid pursuant to the petroleum business tax on motor fuel and diesel motor fuel purchased in the State and then sold by the purchaser to the State of New York, the United States of America, or any of their instrumentalities, agencies, or political subdivisions.

17. **Omnibus carriers**
**Citation:** Tax Law § 301-c(c)
**Effective date:** April 1, 1992
**Description:** A reimbursement is allowed for taxes paid on motor fuel and diesel motor fuel purchased in the State by an omnibus carrier. The reimbursement applies to fuel used in the operation of: i) an omnibus in local transit service pursuant to a certificate of convenience and necessity issued by the Commissioner of the Department of Transportation, or issued by the Interstate Commerce Commission of the United States, or pursuant to a contract, franchise, or consent with a city having a population of one million or more; and ii) as a school bus used for the transportation of children in the State pursuant to the Education Law.

18. **Non-public school operators**
**Citation:** Tax Law § 301-c(d)
**Effective date:** April 1, 1992

**Description:** This section provides a reimbursement for taxes paid on motor fuel and diesel motor fuel purchased in the State by a non-public school operator and consumed by the operator exclusively for education related activities.

19. **Regulated electric utilities**
**Citation:** Tax Law § 301-d
**Effective date:** September 1, 1990
**Description:** This section extends a credit, refund, or reimbursement for the tax surcharge and part of the basic tax for fuel used in the production of electricity. For periods July 1991, and August 1991, this credit was available only for petroleum used to produce residential electricity.

20. **Fuel used for manufacturing purposes**
**Citation:** Tax Law § 301-c(j)
**Effective date:** January 1, 1998
**Description:** Purchasers who subsequently sell residual fuel or non-highway diesel fuel used and consumed for manufacturing purposes may be reimbursed for the full petroleum business tax. (See item 9 for the up-front exemption.) Prior to January 1, 1998 (effective in September 1994), the above purchasers making such sales were eligible for reimbursement of the supplemental portion of the petroleum business tax.

21. **Certain commercial gallonage**
**Citation:** Tax Law § 301-c(i)(1, 2)
**Effective date:** March 1, 1997
**Description:** Reimbursements are allowed to a consumer where such consumer purchased non-highway type diesel fuel or residual fuel, absorbed the supplemental portion of the tax in the purchase price and used such gallonage as *commercial gallonage*. The reimbursement is calculated as the amount of such gallonage multiplied by the then-applicable supplemental tax rate. (See item 13 for refund/reimbursement of tax.) Prior to March 1997 (and subsequent to September 1994), commercial gallonage was eligible for a credit/reimbursement at a rate of one-half the then-applicable supplemental tax plus surcharge on the supplemental tax under § 301-k.

22. **Fuel used by commercial fishers**
**Citation:** Tax Law § 301-c(g)
**Effective date:** September 1, 1994
**Description:** A reimbursement is allowed for diesel motor fuel and motor fuel used in the operation of a commercial fishing vessel by commercial fishers while such vessel is engaged in harvesting fish for sale.

23. **Fuel used by tugboats and towboats**
**Citation:** Tax Law § 301-c(q)
**Effective date:** September 1, 2022
**Description:** A reimbursement is allowed for the use of motor fuel, diesel motor fuel, or residual petroleum product by tugboats and towboats. In addition, purchasers of motor fuel, diesel motor fuel, or residual petroleum product used by tugboats and towboats may claim a reimbursement of the full amount of tax that has been passed through to the purchaser.

24. **Fuel used for farm production**
**Citation:** Tax Law § 301-c(e), (f)
**Effective date:** September 1, 1994
**Description:** Reimbursements are allowed for non-highway diesel motor fuel and residual fuel purchased in this State and sold by such purchaser to a consumer for farm use. In addition, a purchaser of motor fuel or highway diesel motor fuel who uses the fuel for farm production is eligible for a reimbursement of the petroleum business tax. The reimbursement is only allowed if it is not more than 1,500 gallons of gasoline or 4,500 gallons of highway diesel motor fuel purchased in a 30-day period, or for greater amounts with prior clearance by the Commissioner of Taxation and Finance. The motor fuel or highway diesel motor fuel must be delivered on the farm site and consumed off-highway in the production of goods for sale. (See item 10 for the up-front exemption.)

25. **Fuel used for railroad purposes**
**Citation:** Tax Law § 301-c(k)(1, 2)
**Effective date:** January 1, 1997
**Description:** Reimbursements are allowed to subsequent purchasers, who are registered as distributors of diesel motor fuel, have absorbed the full petroleum business tax non-highway diesel rate and then sell such fuel as *railroad diesel*. The amount of the reimbursement is equal to the difference between the full non-highway diesel rate and the railroad diesel rate. (See item 12 for the exemption from tax.)

26. **Fuel used for non-residential heating purposes**
**Citation:** Tax Law § 301-c(a)(2)
**Effective date:** April 1, 2001
**Description:** A partial reimbursement from tax applies to non-highway diesel motor fuel purchased in the State and then sold by such purchaser to a consumer exclusively for non-residential heating purposes. The partial reimbursement is provided only when such non-highway diesel motor fuel is delivered into a storage tank (that is not equipped with a hose or other apparatus where such fuel can be dispensed into the tank of a motor vehicle)—and where such tank is attached to the heating unit burning such fuel. Additionally, the purchaser must possess documentary proof that it absorbed the full amount of the petroleum business tax.

The rate of the partial reimbursement was calculated as the then-current petroleum business tax supplemental tax rate (imposed under § 301-j) plus 20 percent of the then- current petroleum business tax base rate (imposed under § 301-a) applicable for the specific diesel motor fuel rate above. Effective September 1, 2002, this partial exemption is calculated as the then-current supplemental tax rate plus 46 percent of the then- current petroleum business tax base rate.

27. **Fuel used for mining or extracting purposes**
**Citation:** Tax Law § 301-c(l)
**Effective date:** April 1, 2001
**Description:** A purchaser may obtain a reimbursement of the petroleum business tax paid on non-highway diesel motor fuel or residual petroleum product when such fuel is purchased exclusively for use and consumption directly and exclusively in the production of tangible personal property for sale by mining or extracting. The reimbursement is provided only where such fuel is delivered at the mining or extracting site and is consumed other than on the public highways of the State. Additionally, the purchaser must possess documentary proof that it absorbed the full amount of the petroleum business tax.

28. **Bad debts**
**Citation:** Tax Law § 301-l
**Effective date:** September 1, 1994
**Description:** A registered petroleum business or aviation fuel business may apply for a refund for petroleum business tax that it has paid with respect to gallonage sold in-bulk by the business for the purchaser's own consumption. The same must then give rise to a debt that becomes worthless for federal income tax purposes. In addition, a sale of motor fuel and highway diesel motor fuel to a filling station is a sale in-bulk for such filling station's own use and consumption. Sales by a filling station are not eligible for this refund.

29. **Not-for-profit organizations and veterans groups**
**Citation:** Tax Law § 301-c(h)
**Effective date:** January 1, 1996
**Description:** Purchasers who subsequently sell residual fuel or non-highway diesel motor fuel used and consumed exclusively by certain not-for-profit organizations and veterans' groups may apply for a full refund of the petroleum business tax. These organizations include the organizations listed in Tax Law, § 1116(a)(4) or (5). (See item 11 for the full up-front exemption.)

30. **Fuel used by passenger commuter ferries**
**Citation:** Tax Law §301-c(m)
**Effective date:** December 1, 2000

**Description:** A reimbursement is allowed for non-highway diesel motor fuel and residual petroleum product used and consumed by a passenger commuter ferry when such fuel is used exclusively in providing a mass transportation service.

31. **E-85**
**Citation:** Tax Law § 301-c(n)
**Effective date:** September 1, 2006
**Description:** A reimbursement of tax applies for purchases of E-85 where the tax was paid by the purchaser and the E-85 was delivered to and placed in a storage tank of a filling station to be dispensed directly into a motor vehicle for use in the operation of the motor vehicle. This provision sunsets on September 1, 2026.

32. **B-20**
**Citation**: Tax Law §301-c(o)
**Effective date**: September 1, 2006
**Description**: A partial reimbursement of tax applies for purchases of B-20 where the tax was paid by the purchaser and subsequently resold. The partial reimbursement is equal to 20 percent of the petroleum business tax paid on diesel motor fuel. This provision sunsets on September 1, 2026.

## Exempt entities

33. **Fuel used by volunteer ambulance services and volunteer fire departments**
**Citation:** Tax Law § 301-c (p)
**Effective date:** June 1, 2013
**Description:** A reimbursement is allowed for petroleum business tax paid on motor fuel and diesel motor fuel purchased by volunteer ambulance services (as defined in Public Health Law § 3001), volunteer fire companies and volunteer fire departments (as defined in Volunteer Firefighters' Benefit Law § 3) and volunteer rescue squads. To qualify, the entity must be the purchaser, user or consumer of the motor fuel or diesel motor fuel and use it in a vehicle owned and operated by such entity exclusively for its purposes.

34. **Governments, the United Nations, and certain not-for-profit organizations**
**Citation:** Tax Law § 305
**Effective date:** July 1, 1983
**Description:** Organizations exempt under the Sales Tax Law, § 1116(a) that import petroleum into New York exclusively for their own use and consumption are not considered petroleum businesses and are exempt from the petroleum business tax. These organizations include: the New York State, the United States of America and any of its agencies, instrumentalities, or political subdivisions; the United Nations; or any international organization of which the United States is a member; any trust, corporation, association, fund, or foundation operated exclusively for religious, charitable, or scientific purposes, or to foster international amateur sports

competition, for the prevention of cruelty to children or animals, or veteran's groups; certain Indian nations or tribes; and certain not-for-profit health maintenance organizations.

35. **Certain airlines**
**Citation:** Tax Law § 301-e(f)
**Effective date:** June 1, 2005
**Description:** Aviation fuel businesses (for example, airlines) that service four or more cities in the State with direct non-stop flights between these cities are fully exempt from the petroleum business tax. This provision will allow these airlines to "burn" jet fuel on take-offs in New York State without paying the petroleum business tax whether the associated flights or legs of flights are intra or interstate in destination.

This section of the report provides tax expenditure estimates for 18 separate provisions of the real estate transfer tax. Table 7 provides a list of expenditures based on the Tax Law as of January 1, 2026. The estimates are based on liability data from the 2023-24 fiscal year. Base year 2023-24 liability is also extrapolated to the 2026-27 fiscal year. The estimates are based on an examination of liability incurred between April 1 and March 31. Real estate transfer tax liability for the 2023-24 fiscal year has been included to provide some perspective to the tax expenditure estimates.

## Description of tax

Adopted in 1968, Article 31 of the New York State Tax Law imposes a real estate transfer tax on the conveyance of real property or an interest in real property where the consideration exceeds $500. Payment is due no later than fifteen days after the delivery of the instrument affecting the conveyance (such as a deed). The rate of tax equals two dollars for every five hundred dollars (or fraction thereof) of consideration. Responsibility for payment rests with the grantor (the seller). If the grantor has failed to pay the tax or is exempt from liability, the grantee (the buyer) is responsible for payment.

The transfer tax also applies to conveyances of shares of stock in a cooperative housing corporation, the creation of long-term leaseholds and subleases, and transfers or acquisitions of a controlling interest in an entity that owns an interest in real property.

Together with the basic transfer tax, an additional one percent tax (the *mansion* tax) is imposed on the conveyance of residential real property or interest therein where the consideration is one million dollars or more. The additional tax is imposed upon the grantee. However, if the grantee is exempt from tax, then the tax is imposed on the grantor.

## Data sources

The major source of data used to compute the tax expenditure estimates is the Real Estate Transfer Tax Return Database. This file, compiled by the Department of Taxation and Finance, includes information on selected transfers of real property. It includes data items from the TP-584 and TP-584-NYC tax returns filed with these transfers and is an unverified data file.

## Methodology

Historical estimates are projected to fiscal year 2026-27 levels using various economic forecast variables.

**Table 7**
**2027 New York State real estate transfer tax expenditure estimates (in millions of dollars)**
**(Fiscal year 2024 total real estate transfer tax liability = $ 1,161 million)**

| Tax item | History | | | | Forecast | Reliability level |
|---|---|---|---|---|---|---|
| | 2020-2021 | 2021-2022 | 2022-2023 | 2023-2024 | 2026-2027 | |

D/ Tax law prohibits the disclosure of individual taxpayer information.

-- Not applicable.

## Exclusions

1. **Continuing lien deduction**
   **Citation:** Tax Law § 1402
   **Effective date:** August 1, 1968 (amended May 1, 1983)
   **Description:** The real estate transfer tax excludes the amount of any lien or encumbrance remaining at the time of sale involving a one-, two-, or three-family house or individual residential condominium unit, from the total consideration used to calculate the tax due. Additionally, consideration does not include the value of any lien or encumbrance at the time of sale where consideration is less than $500,000.

## Exemptions

New York State Tax Law § 1405 exempts certain organizations from payment of the transfer tax. Liability for any tax incurred, when an exempt organization is the grantor, becomes the responsibility of the grantee and is payable no later than 15 days after delivery of the instrument affecting the conveyance. Where both parties are exempt there is no tax due. § 1405 also exempts certain conveyances from tax.

2. **State of New York**
   **Citation:** Tax Law § 1405(a)(1)
   **Effective date:** August 1, 1968
   **Description:** New York State or any of its agencies, instrumentalities, political subdivisions, or public corporations (including a public corporation created pursuant to an agreement with another state or Canada) are exempt.

3. **The United Nations and United States of America**
   **Citation:** Tax Law § 1405(a)(2)
   **Effective date:** August 1, 1968
   **Description:** The United Nations, the United States of America, and any of its agencies or instrumentalities are exempt from the payment of tax.

4. **Conveyances to the United Nations, United States of America, or State of New York**
   **Citation:** Tax Law § 1405(b)(1)
   **Effective date:** August 1, 1968
   **Description:** Conveyances to the United Nations, the United States of America, the New York State, or any of their agencies, political subdivisions, instrumentalities, or any public corporation (including public corporations created pursuant to an agreement with another state or Canada) are exempt.

5. **Conveyances that secure a debt or other obligation**
   **Citation:** Tax Law § 1405(b)(2)
   **Effective date:** August 1, 1968

**Description:** Conveyances used to secure a debt or other obligation are exempt.

6. **Conveyances that confirm, correct, modify, or supplement a prior conveyance**
   **Citation:** Tax Law § 1405(b)(3)
   **Effective date:** August 1, 1968
   **Description:** The real estate transfer tax does not apply to conveyances that, without additional consideration, confirm, correct, modify, or supplement a prior conveyance.

7. **Bona fide gifts and conveyance without consideration**
   **Citation:** Tax Law § 1405(b)(4)
   **Effective date:** August 1, 1968
   **Description:** Conveyances made without consideration, bona fide gifts, bequests, or inheritances are exempt.

8. **Tax sale**
   **Citation:** Tax Law § 1405(b)(5)
   **Effective date:** August 1, 1968
   **Description:** Any conveyance given in connection with a tax sale is exempt.

9. **Mere changes of identity**
   **Citation:** Tax Law § 1405(b)(6)
   **Effective date:** July 1, 1989
   **Description:** The transfer tax does not apply to a conveyance used to effectuate a mere change in identity or form of ownership where there is no change in beneficial ownership. This exemption is not applicable to conveyances to a cooperative housing corporation of the real property comprising the cooperative dwelling.

10. **Deeds of partition**
    **Citation:** Tax Law § 1405(b)(7)
    **Effective date:** August 1, 1968
    **Description:** Conveyances that consist of a deed of partition are exempt from tax. Partition is the division of property between several persons who are co-owners of the property. The object of a partition is to end the joint tenancy or tenancy in common and divide the property among the respective co-owners.

11. **Federal bankruptcy act**
    **Citation:** Tax Law § 1405(b)(8)
    **Effective date:** August 1, 1968
    **Description:** Any conveyance given pursuant to the Federal Bankruptcy Act is exempt.

12. **Contract to sell or option to purchase without use**
    **Citation:** Tax Law § 1405(b)(9)
    **Effective date:** July 1, 1989

**Description:** A conveyance that consists of a contract to sell real property without the use or occupancy of such property is exempt. Likewise, conveyances granting an option to purchase real property without the use or occupancy of the property is exempt.

13. **Option or contract to purchase with right to occupy**
**Citation:** Tax Law § 1405(b)(10)
**Effective date:** July 1, 1989
**Description:** Conveyances of an option or contract to purchase real property with the right to use or occupy the property are exempt, provided:

    a. the consideration is less than $200,000;
    b. such property or at least one unit of a two- or three-family house was used solely as the grantor's personal residence; and
    c. the real property consists of a one-, two-, or three-family house, an individual residential condominium unit or the sale of stock in a cooperative housing corporation in connection with a grant or transfer of a proprietary leasehold covering an individual residential cooperative unit.

14. **START-UP NY Program leases**
**Citation:** Tax Law § 1405(b)(11)
**Effective date:** January 1, 2014
**Description:** Certain leases created for a term in excess of 49 years, as well as assignments of any existing leases, are taxable. An exemption is allowed for these leases of real property located in tax-free NY areas to an approved business participating in the START-UP NY Program.

15. **Exemption from additional tax (mansion tax) for certain conveyances of real property**
**Citation:** Tax Law § 1405(c)
**Effective date:** May 9, 2025
**Description:** Conveyances of real property for open space, parks, or historic preservation purposes to any not-for-profit tax-exempt corporation operated for conservation, environmental, parks, or historic preservation purposes are exempt from the additional tax (mansion tax).

## Credits

The real estate transfer tax allows credits for taxes paid in certain transactions.

16. **Credit for prior transfer tax paid**
**Citation:** Tax Law § 1405-A
**Effective date:** July 1, 1989
**Description:** A grantor is allowed credit against the tax due on a conveyance of real property to the extent tax was paid by the grantor on a prior creation of a leasehold for all or a portion of the same real property or on the granting of a contract or option to purchase all or a part of the same real property.

17. **Cooperative housing corporation transfer credit**
**Citation:** Tax Law § 1405-B
**Effective date:** July 1, 1989
**Description:** A credit is allowed for a proportionate part of the amount of tax paid upon the conveyance to the cooperative housing corporation of real property comprising the cooperative dwelling or dwellings. The credit applies to the conveyance of cooperative shares to unit purchases. It is allowed only to the extent that the original conveyance of the real property to the cooperative housing corporation effectuates a mere change in identity or form of ownership, and not a change in the beneficial ownership of the property.

## Preferential tax rates

The real estate transfer tax allows a preferential tax rate in the following instances.

18. **Real estate investment trust transfers**
**Citation:** Tax Law § 1402(b)
**Effective date:** June 9, 1994, for initial formation real estate investment trusts and July 13, 1996 for existing real estate investment trusts
**Description:** The transfer tax rate is reduced to $1 per $500 (or fractional part thereof) on transfers of real property effected through qualifying real estate investment trust transfers occurring on or after:
    - June 9, 1994, in order to form a real estate investment trust; or
    - July 13, 1996, and before September 1, 2026, to existing real estate investment trusts.

Many of the tax credits New York State offers are available under the personal income tax and several of the corporate taxes. This section provides descriptions of these credits and notes where there may be article-specific differences. The section also provides an estimate for the credit under each article where it is available. Credits that are only available under one tax article are reported in their respective section.

Some credits contained in this section can no longer be earned in the current year. They are retained in this report, however, because taxpayers possess a large, unused reserve of certain credits that can be carried forward and applied against future tax liabilities. These credits can be identified by looking at the effective dates included for each credit.

1. Data for non-personal income tax items are not yet available.
2. The total forecast for the Empire Zone/Qualified Empire Zone Enterprise Program, including sales tax, is $25 million.
3. The Employee Training Incentive Program, the Empire State Jobs Retention Program, and the Life Sciences research and development tax credit are funded out of the Excelsior Jobs Program.
4. A new tax expenditure item or a revision of the revision of the methodology or revisions in the data sources resulted in an estimate that better reflects the tax expenditure value.

* Less than $0.1 million.

-- Tax expenditure not applicable for these years.

## 1. Investment tax credit and employment incentive credit

### a. Investment tax credit

**Citation:** Tax Law §§ 210-B(1), 606(a), a-1
**Credit type:** Refundable to new businesses and eligible farmers only
**Effective date of credit:** Effective for tax years beginning on or after January 1, 1969; the sections of this credit covering research and development research and development property and pollution control facilities represent a consolidation of previously separate tax benefits and are effective for tax years beginning on or after January 1, 1987
**Description:** The law allows a credit based on the cost or other basis for federal tax purposes of depreciable tangible personal property, including buildings and their structural components, acquired, constructed, reconstructed, or erected after December 31, 1968, having a useful life of four years or more, located within the State of New York, and used primarily for the production of goods by a variety of processes. The claiming of a depreciation or expense deduction for such property under certain other tax provisions, or the leasing of the property to another individual or corporation, unless explicitly allowed, disqualifies the taxpayer from exercising a claim under this provision. A taxpayer may carry forward any unused credit and apply it against the tax for subsequent years or, in the case of a qualified new business, claim it as a refund. For tax years 2023 through 2027, the investment tax credit will be fully refundable for eligible farmers. The refundability only applies to credit claimed for property placed in service on or after January 1, 2023, and before January 1, 2028. Eligible farmers may continue to carry over existing credit for property placed in service prior to January 1, 2023, however such amounts of credit remain nonrefundable.

Taxpayers who provide three or more services, such as a studio lighting grid, lighting and grip equipment, or industrial scale electrical capacity to qualified film productions are eligible to claim the investment tax credit on property used in the qualified film production facility.

The law allows a credit for expenditures paid or incurred during the tax year for the construction, reconstruction, erection, or improvement of pollution control, waste treatment, and acid rain control facilities. To qualify for the credit, facilities must be located within the State, used in regular business activities, and certified by the New York State Commissioner of Environmental Conservation.

Tangible property, including buildings and structural components of buildings used for the purpose of research and development in the laboratory or experimental sense is eligible for a higher credit rate. However, credit is not allowed with respect to property that has been leased to another individual or corporation, or that has been the basis of a claim for an elective expense deduction or a regular investment tax credit. Furthermore, the credit is not

allowed with respect to tangible personal property and other tangible property principally used by the taxpayer in the production or distribution of electricity, natural gas after extraction from wells, steam, or water delivered through a pipe.

**Personal income tax filers**: The credit rate equals 4 percent of the investment credit base. The taxpayer may claim a rate of 7 percent on research and development property but is not allowed to also claim the employment incentive credit. For a taxpayer that is an eligible farmer, they may claim a rate of 20 percent for property placed in service on or after April 1, 2022 that is principally used by the farmer in the production of goods by farming, agriculture, horticulture, floriculture, or viticulture. Where the allowable credit exceeds the taxpayer's liability for a given year, the taxpayer may carry forward the excess credit for 10 subsequent tax years. In the case of a new business or an eligible farmer who claims credit for property placed in service after January 1, 2023, and before January 1, 2028, excess credit may be received as a refund.

**Corporate franchise tax filers**: The credit rate equals 5 percent of the first $350 million of the investment credit base. A 4 percent rate applies to amounts above $350 million. The taxpayer may claim a rate of 9 percent on research and development property but is not allowed to also claim the employment incentive credit. For a taxpayer that is an eligible farmer, they may claim a rate of 20 percent for property placed in service on or after April 1, 2022 that is principally used by the farmer in the production of goods by farming, agriculture, horticulture, floriculture, or viticulture. Where the allowable credit exceeds the taxpayer's liability for a given year, the taxpayer may carry forward the excess credit for 15 subsequent tax years. In the case of a new business or an eligible farmer who claims credit for property placed in service after January 1, 2023 and before January 1, 2028, excess credit may be received as a refund.

**Note**: When qualified investment tax credit property is disposed of or ceases to be in qualified use prior to the end of its useful life, a portion of the credit must be recaptured. Any investment tax credit recapture may be added to the tax otherwise due in the year of disposition or disqualification.

b. **Employment incentive credit**
**Citation:** Tax Law §§ 210-B(2), 606(a-1)
**Credit type:** Corporate franchise tax - nonrefundable/carryforward; personal income tax - refundable to new businesses only
**Effective date of credit:** Effective for tax years beginning on or after January 1, 1987 for corporate franchise taxpayers; January 1, 1997 for personal income taxpayers

**Description:** Taxpayers that increase employment may be eligible for the employment incentive credit, which is allowed for each of the two years succeeding the taxable year in which the investment tax credit is earned. The amount of the credit is as follows:

- 1.5 percent of the investment tax credit base if employment is at least 101 percent but less than 102 percent of the employment base year;
- 2.0 percent of the investment tax credit base if employment is at least 102 percent but less than 103 percent of the employment base year;
- 2.5 percent of the investment tax credit base if employment is at least 103 percent of the employment base year.

**Note**: As part of corporate tax reform, the rehabilitation credit for historic barns and the retail enterprise tax credit were eliminated under the corporate franchise tax. These credits are still available under the personal income tax, but information on the amount of credits used and refunded in any year is not separately available.

2. **Investment tax credit for the financial services industry**
**Citation:** Tax Law §§ 210-B(1), 606(a)(2)(A), 1511(q)
**Credit type:** Refundable to new businesses only
**Effective date of credit:** Personal income tax/corporate franchise tax - effective for property placed in service on or after October 1, 1998, and before October 1, 2015; insurance - available for property placed in service on or after January 1, 2002, and before October 1, 2015
**Description:** An investment tax credit and employment incentive credit are allowed for qualified property used in the financial services industry and employment increases respectively. The rate of credit, maximum amounts, refund/carryforward provisions, and recapture rules are generally the same as for the regular investment tax credit/employment incentive credit available under the corporate franchise and personal income taxes.

Qualified property includes property principally used in the ordinary course of the taxpayer's trade or business:

- as a broker or dealer in connection with the purchase or sale of stocks, bonds, or other securities as defined in Internal Revenue Code § 475(c)(2), or of commodities as defined in Internal Revenue Code § 475(e), or in providing lending, loan arrangement, or loan origination services to customers in connection with the purchase or sale of securities as defined in Internal Revenue Code § 475(c)(2);
- of providing investment advisory services for a regulated investment company as described in Internal Revenue Code, § 851; or
- as an exchange registered as a national securities exchange (such as the New York Stock Exchange) or a board of trade defined under the New York Not-For-Profit Corporation Law, or an entity wholly owned by one or more national

security exchanges or boards of trade that provides automation or technical services to the national security exchanges or boards of trade.

Property purchased by a taxpayer affiliated with a regulated broker, dealer, registered investment advisor, or national securities exchange or board of trade, or property leased by a taxpayer to an affiliated regulated broker, dealer, registered investment advisor, national securities exchange, or board of trade is eligible for this credit if the property is used by the affiliate in an activity described above.

Taxpayers must also satisfy an annual employment test that measures New York State employment in the current tax year against one of three standards:

- **80% current-year test**: 80 percent or more of the employees performing the administrative and support functions resulting from or relating to the qualifying uses of the property are located in New York State;
- **95% three-year back-office test**: The average number of employees located in New York State performing the administrative and support functions resulting from or related to the qualifying uses of such equipment during the tax year is equal to or greater than 95 percent of the number during the 36 months immediately preceding the year for which the credit is claimed; or
- **90% end-of-year test**: The number of New York State employees during the current tax year is equal to or greater than 90 percent of the number on December 31, 1998 or, if the taxpayer was not a calendar year taxpayer in 1998, the last day of its first taxable year ending after December 31, 1998.

3. **Special additional mortgage recording tax credit**
**Citation:** Tax Law §§ 187, 210-B(9, 27), 606(f)(3), 1511(e)
**Credit type:** Nonrefundable/carryforward (refundable under personal income tax/corporate franchise tax for certain residential mortgages only)
**Effective date of credit:** Corporate franchise tax/bank/insurance/corporation effective for tax years beginning after December 31, 1978; personal income tax — effective for tax years beginning after 2003
**Description:** Taxpayers may claim a credit equal to the special additional mortgage recording tax paid on certain mortgages. The credit is not available for special additional tax paid on mortgages of real property principally improved by one or more structures containing in the aggregate not more than six residential dwelling units, each dwelling unit having its own separate cooking facilities, where the real property is located in one or more of the counties comprising the Metropolitan Commuter Transportation District or Erie County.

Effective for special additional mortgage recording tax paid in tax years beginning after January 1, 1994, an S corporation could elect to treat the unused portion of the credit as either a refund or carryforward instead of passing the credit through to shareholders. S corporations could also elect to take a refund regardless of whether the credit is carried from a New York C year or a New York S year. Under Tax Law,

Article 9-A, credit earned on or after January 1, 2015, is refundable for certain residential mortgages.

4. **Empire Zone, Qualified Empire Zone Enterprise, and zone equivalent area tax credits**

The Empire Zones Program expired on June 30, 2010. No new entrants will be admitted to the Program, but existing participants can continue to earn credits for several years. Taxpayers will be allowed to utilize the remainder of their five-year period for the Empire Zone wage tax credit and the remainder of their benefit period for the Qualified Empire Zone Enterprise credits (15 or 10 years, depending on the date of first certification). Taxpayers will be allowed to earn additional Empire Zone investment tax credit until April 1, 2014, but qualified investment projects can earn Empire Zone income tax credit for their next nine tax years. The Empire Zone employment incentive credit will be fully available for the three years after an Empire Zone income tax credit is claimed if the taxpayer meets the requisite employment tests. Finally, taxpayers can continue to earn the Empire Zone capital credit through March 31, 2014 for certified contributions in fulfillment of a pledge made to an Empire Zone community development project.

a. **Empire Zone investment tax credit and Empire Zone employment incentive credit**

**Citation:** Tax Law §§ 210-B(3), 210-b(4), 606(j), 606(j-1)

**Credit type:** 1) Empire Zone investment tax credit: 50 percent refundable to new businesses only; 2) Empire Zone employment incentive credit—nonrefundable/carryforward for corporate taxpayers; and 3) Empire Zone employment incentive credit— 50 percent refundable to new businesses only for personal income taxpayers

**Effective date of credit:** Personal income tax/corporate franchise tax—effective for tax years beginning on or after January 1, 1986

**Description:** Taxpayers may qualify for an enhanced Empire Zone investment tax credit equal to a percentage of the cost or other federal basis of tangible personal property, including buildings and structural components of buildings, located within a designated Empire Zone. The credit is also available to taxpayers in the financial services industry and contains the same rules and qualifications as the regular financial services investment tax credit. The credit rate is 10 percent for corporate taxpayers and 8 percent for personal income taxpayers.

Taxpayers may also claim an Empire Zone employment incentive credit similar to the regular employment incentive credit, based upon Empire Zone investment tax credit claimed and employment increased within an Empire Zone. The amount of the Empire Zone employment incentive credit allowed is 30 percent of the Empire Zone investment tax credit for each of the three years following the year for which the original Empire Zone investment tax credit was allowed. The

Empire Zone employment incentive credit is allowed only for those years during which the average number of employees (except general executive officers) in the Empire Zone is at least 101 percent of the average number of employees (except general executive officers) in the Empire Zone during the tax year immediately preceding the tax year for which the original Empire Zone investment tax credit was allowed.

b. **Empire Zone/zone equivalent areas wage tax credit**
**Citation:** Tax Law §§ 210-B(46), 606(k), 1511(g)
**Credit type:** 50 percent refundable to new business only
**Effective date of credit:** Personal income tax/corporate franchise tax/insurance — effective for tax years beginning on or after January 1, 1986
**Description:** A taxpayer may claim an Empire Zone wage tax credit for doing business and creating full-time jobs in an Empire Zone. The credit equals the product of the average number of newly hired targeted Empire Zone employees receiving Empire Zone wages multiplied by $3,000. The corresponding credit amount for non-targeted employees is $1,500. Taxpayers certified in investment zones may claim an additional $500 for each employee paid over $40,000 in wages. The Empire Zone wage tax credit is available for five years. Taxpayers employing individuals in areas that met Empire Zone eligibility criteria but were not so designated - Zone Equivalent Areas - could claim a credit for zone equivalent area wages paid for full-time employment in jobs created in the zone equivalent area. The zone equivalent area credit expired in 2004, but taxpayers are allowed to use carryforwards until exhausted. The total wage tax credit cannot exceed 50 percent of tax due before credits.

**Note**: Excess amounts of Empire Zone investment tax credit — and Empire Zone wage tax credit are 50 percent refundable to new business taxpayers or taxpayers designated as owners of a qualified investment project (QUIP) or a significant capital investment project (SCIP). Owners of qualified investment project or significant capital investment project may also refund 50 percent of excess Empire Zone-employment incentive credit.

c. **Empire Zone capital credit**
**Citation:** Tax Law §§ 210-B(46), 606(l), 1511(h)
**Credit type:** Nonrefundable/carryforward
**Effective date of credit:** Effective for tax years beginning on or after January 1, 1986
**Description:** Taxpayers may qualify for a credit for direct equity investments in certified zone businesses and contributions to community development projects. The credit equals 25 percent of the sum of each type of investment. The maximum credit per taxpayer is $100,000 for each investment type for an aggregate limit of $200,000 and cannot exceed one half of the taxpayer's pre-credit tax. Taxpayers may carry unused credits forward indefinitely.

d. **Qualified Empire Zone Enterprise real property tax credit**
**Citation:** Tax Law §§ 14, 15, 210-B(5), 606(bb), 1511(r)
**Credit type:** Refundable
**Effective date of credit:** Personal income tax/corporate franchise tax/insurance — effective for tax years beginning on or after January 1, 2001
**Description:** For taxpayers certified prior to April 1, 2005, the Qualified Empire Zone Enterprise real property tax credit is the product of three factors. The benefit period factor is 1.0 in the first ten years of certification, declining by 0.2 each year thereafter. The employment increase factor is based upon the Qualified Empire Zone Enterprise's job growth. The final factor is the Qualified Empire Zone Enterprise's real property taxes for the current tax year.

For taxpayers certified on or after April 1, 2005, and located in an Investment Zone, the credit equals 25 percent of the wages and health and retirement benefits of net new employees. Taxpayers located in a Development Zone use the same formula but include an additional factor, the Development Zone employment increase factor, scaled to reward greater job increases. The credit can exceed these amounts if the capital investment limitation is greater, but the credit is capped at the amount of real property taxes.

Taxpayers certified on or after April 1, 2009, must reduce the computed credit amount by 25 percent.

e. **Qualified Empire Zone Enterprise tax reduction credit**
**Citation:** Tax Law §§ 14, 16, 210-B(6), 606(cc), 1511(s)
**Credit type:** Nonrefundable/Non-carryforward
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2001
**Description:** The Qualified Empire Zone Enterprise tax reduction credit is the product of four factors: the benefit period factor, the employment increase factor, the zone allocation factor, and the tax factor. The first two factors are discussed above. The zone allocation factor measures the Qualified Empire Zone Enterprise's economic presence in the zone. The tax factor depends on the type of filer:

Qualified Empire Zone Enterprise tax reduction credit tax factor

| Tax type | The tax factor is: |
|---|---|
| Personal income tax | The amount of personal income tax attributable to allocated Qualified Empire Zone Enterprise income |
| Corporate franchise tax | The Qualified Empire Zone Enterprise's tax on the business income base |
| Insurance tax | The greater of the Qualified Empire Zone Enterprise tax on the entire net income or entire net income plus compensation bases |

For corporate franchise taxpayers located entirely within an Empire Zone, the tax reduction credit can be applied against the fixed dollar minimum tax, potentially reducing a taxpayer's liability to zero.

5. **Farmers' School tax credit**
**Citation:** Tax Law §§ 210-B(11), 606(n)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 1997
**Description:** Taxpayers primarily engaged in farming may claim a credit equal to 100 percent of total school property taxes paid on qualified New York agricultural property up to 350 acres, and 50 percent of the school taxes paid on acres in excess of 350. To be eligible, taxpayers must earn two-thirds of their federal income from farming, with three-year income averaging allowed in determining this threshold. Recapture provisions apply if the taxpayer converts the property to a nonqualified use in the two years subsequent to first use of the credit.

**Personal income tax filers:** For purposes of this test, total gross income is reduced by the sum (not to exceed $30,000) of earned income, pensions, Social Security, interest, and dividends. The credit begins to phase out for taxpayers with New York adjusted gross income in excess of $200,000, after subtracting principal on farm indebtedness, and is phased out completely at $300,000.

**Corporate franchise tax filers:** The credit begins to phase out for taxpayers with New York entire net income in excess of $200,000 and is phased out completely at $300,000. Shareholders may elect to claim their pro rata share of the corporation's income and principal payments on farm indebtedness when determining the farmers' school tax credit. In such instances, the corporation does not claim any credit.

6. **Credit for employment of persons with disabilities**
**Citation:** Tax Law §§ 187-a, 210-B(12), 606(o), 1511(j)
**Credit type:** Nonrefundable/carryforward
**Effective date of credit:** Effective for tax years beginning on or after January 1, 1998, applicable to individuals who begin work on or after January 1, 1997
**Description:** Employers may claim a credit equal to 35 percent of the first $6,000 of first year wages paid to employees with disabilities (a maximum of $2,100 per employee). Beginning in tax year 2025, the credit allowed under Articles 9-A and 22 is $5,000 for qualified first-year wages. However, if the first year's wages qualify for the federal work opportunity tax credit, the New York credit will apply to second year wages. To be eligible for the state credit, the disabled employee must work for the employer on a full-time basis for at least 180 days or 400 hours and must be certified by the State Department of Education or another designated state agency. Visually handicapped individuals may receive certification from the appropriate agency responsible for vocational rehabilitation of the blind and visually impaired.

7. **Qualified emerging technology company credits**

   a. **Qualified emerging technology company capital tax credit**
   **Citation:** Tax Law §§ 210-B(8), 606(r)
   **Credit type:** Nonrefundable/carryforward
   **Effective date of credit:** Effective for tax years beginning on or after January 1, 1999
   **Description:** Taxpayers who make a qualified investment in a certified qualified emerging technology company can receive a credit that varies depending upon how long the investment is held. Taxpayers claim the credit in the year the investment is made and certify the duration of the holding period. Investments held for four years from the close of the tax year in which the credit is first claimed qualify for a 10 percent credit. Investments held for nine years qualify for a 20 percent credit. If the property is sold, transferred, or disposed of prior to the end of the holding period, the taxpayer must recapture a portion of the credit. The aggregate limits for all years are $150,000 for the 10 percent credit, and $300,000 for the 20 percent credit. The amount of credit deducted may not exceed 50 percent of the tax due before any credits.

   b. **Qualified emerging technology company employment credit**
   **Citation:** Tax Law §§ 210-B(7), 606(q)
   **Credit type:** Refundable
   **Effective date of credit:** Effective for tax years beginning on or after January 1, 1999
   **Description:** A qualified emerging technology company may claim a credit equaling $1,000 for each individual employed over a base year level. Credit is allowed for three years.

8. **Low-income housing credit**
   **Citation:** Tax Law §§ 18, 210-B(15), 606(x), 1511(n)
   **Credit type:** Nonrefundable/carryforward
   **Effective date of credit:** Effective for tax years beginning on or after January 1, 2000, with respect to commitments for construction of low-income housing agreed upon on or after May 15, 2000
   **Description:** The *New York State Low-Income Housing Tax Credit Program*, based on the existing federal program, requires an agreement between the taxpayer and the commissioner of the New York State Division of Housing and Community Renewal for a long-term commitment to low-income housing. The amount of the credit is determined by New York State Division of Housing and Community Renewal and depends on the applicable percentage of the qualified basis of each low-income building. The credit amount allocated is allowed as a credit against tax for 10 tax years. Beginning in 2019, for buildings that receive an allocation of low-income housing credit on or after January 1, 2019, the Public Housing Law allows a one-time transfer of the credit to a person or entity without regard to the allocation of the

federal low-income housing credit and notwithstanding that the recipient may have no ownership interest in the building.

9. **Credit for purchase of an automated external defibrillator**
**Citation:** Tax Law §§ 210-B(13), 606(s), 1511(l)
**Credit type:** Nonrefundable/Non-carryforward
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2001
**Description:** Taxpayers may claim a credit for the purchase of an automated external defibrillator, as defined in Public Health Law § 3000-b. The amount of credit equals the cost of each unit, up to a maximum of $500 per defibrillator.

10. **Green buildings credit**
**Citation:** Tax Law §§ 19, 187-d, 210-B(16), 606(y), 1511(o)
**Credit type:** Nonrefundable/carryforward
**Effective date of credit:** Effective for taxable years beginning on or after January 1, 2001
**Description:** The green building credit consists of several incentives for the purchase of recyclable building materials and other environmentally preferable tangible personal property. It also contains components for the purchase of fuel cells, photovoltaic modules, and environmentally sensitive non-ozone depleting refrigerants. Phase I authorized $25 million in credit for costs incurred on or after June 1, 1999, for property placed in service or that received a final certificate of occupancy in tax years from January 1, 2001, to 2004. Phase II of the program began in the 2005 tax year. An additional $25 million in total credit could be issued, but the amount on any one credit certificate was limited to $2 million.

11. **Long-term care insurance credit**
**Citation:** Tax Law §§ 190, 210-B(14), 606(aa), 1511(m)
**Credit type:** Nonrefundable/carryforward
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2002
**Description:** Taxpayers may take a credit equal to a percentage of the premiums paid for the purchase of, or continuing coverage under, a long-term care insurance policy approved by the New York State Department of Financial Services. When enacted, the credit rate was 10 percent. Subsequent legislation increased the credit to 20 percent for tax years beginning after 2003. For New York resident taxpayers in tax years beginning on or after January 1, 2020, the credit is restricted to returns with New York adjusted gross income of less than $250,000 and is limited to $1,500.

12. **Empire State film and commercial credits**

a. **Empire State film production credit**
**Citation:** Tax Law §§ 24, 210-B(20), 606(gg),
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2004 and before January 1, 2037
**Description:** Taxpayers satisfying a threshold level of film production activity in New York State may claim the Empire State film production credit. The credit is equal to 30 percent of qualified production costs incurred in the production of films and certain television shows. For initial applications received prior to April 1, 2023, and on or after April 1, 2020, the allowable amount of the credit was 25 percent. For tax years 2015 through 2036, Empire State film production and post-production projects are eligible for an additional credit equal to 10 percent of the wages or salaries of individuals employed by a qualified film or independent film production company for services performed in specific upstate New York counties. For initial applications received after January 1, 2025, the credit is increased by an additional 10 percent for qualified production costs attributable to musical scoring when such scoring costs include payment to a minimum of five musicians. Credit is awarded on a first come, first served basis with applications made to the New York State Governor's Office for Motion Picture and Television Development.

A new "production plus program" is established for tax years beginning on or after January 1, 2025. Qualified independent film production companies, qualified film production companies, or a company that is a majority owner of one or more qualified film production companies or qualified independent film production companies that undertake multiple productions in New York State may be eligible for a tax credit (in addition to the film production credit) for qualified production costs incurred on subsequent films or television series. A production company that submits at least two applications to the film production tax credit program after January 1, 2025, the sum of which total at least $100 million in qualified production costs in New York State, can receive an additional credit equal to 10 percent of qualified production costs. For independent film production companies that cannot meet the $100 million test, if two applications total at least $20 million, the additional credit is 5 percent. Initial applications for feature length films and new television series submitted after December 31, 2028 shall not be eligible for the program.

The annual amount of credit that could be allocated by the New York State Governor's Office for Motion Picture and Television Development was $420 million in 2010 through 2023. For tax years 2024 through 2036, the annual funding cap is increased to $700 million. Initially, up to $7 million of the annual allocation was available for the Empire State film post production credit.

Starting in 2015, the amount of the allocation dedicated to the post production credit increased to $25 million annually. For tax years 2024 through 2036, the annual allocation is increased to $45 million. The New York State Governor's Office for Motion Picture and Television Development has the authority to redirect Empire State film post production credit funds to the film credit if there are insufficient claims for the post production credit and applications for the film production credit exceed the allotted total. For tax years prior to January 1, 2008, the film credit was refundable across two years. For tax years starting in 2008, the credit was fully refundable. For tax years beginning on or after January 1, 2009 and before January 1, 2025, the utilization of the credit is spread across several years, depending on the size of the credit:

| If the amount of the credit is: | Then the film credit is claimed: |
|---|---|
| under $1 million | in the taxable year in which the film is completed |
| at least $1 million but less than $5 million | over a two-year period, with half claimed each year |
| at least $5 million | over a three-year period, with one-third claimed each year |

For applications submitted after January 1, 2025, the bifurcation/trifurcation claiming period of the film production and/or post-production is eliminated, now allowing the credit(s) to be claimed for the taxable year in which the qualified film is completed.

Taxpayers awarded credit from the 2010-2022 allocations claim credit in the later of the tax year the production of the qualified film is completed or the first taxable year beginning immediately after the allocation year for which the taxpayer was awarded credit. For initial applications received on or after April 1, 2023 and before January 1, 2025, credit may be claimed in the later of the tax year the production of the qualified film is completed or the taxable year that includes the last day of the allocation year for which the film has been allocated credit by New York State Empire State Development. In the case of a qualified film for which the credit application was received on or after January 1, 2025, the credit shall be claimed in the taxable year that includes the last day of the allocation year for which the film has been allocated a credit. If a certificate of tax credit is revoked because taxpayer did not meet the eligibility requirements, the amount of credit claimed prior to the revocation shall be added back to tax in the taxable year in which any such revocation becomes final.

b. **Empire State film post production credit**
**Citation:** Tax Law §§ 31, 210-B(32), 606(qq)
**Credit type:** Refundable—over 2 years
**Effective date of credit:** Effective for tax years beginning on or after August 11, 2010, and before January 1, 2037

**Description:** Companies that are ineligible for the film production credit may qualify for the film post production credit. Prior to tax year 2025, to be eligible for the post production credit, the costs incurred at a qualified post production facility, generally a facility in New York State, must equal or exceed 75 percent of the total post production costs at any post production facility. For applications received on or after January 1, 2025, eligible applicants must have incurred the lesser of $1 million or 75 percent of the amount of qualified post-production costs that exceed the total post-production costs of the qualified film. The credit is allowed for the taxable year in which the production of the qualified film is completed.

The credit is administered by the Governor's Office for Motion Picture and Television Development and was initially capped at $7 million per year (total allocation of $35 million) through tax year 2014. Starting in 2015, the amount of the allocation dedicated to the Empire State film post production credit was increased to $25 million annually. For tax years 2024 through 2036, the annual allocation is increased to $45 million.

As enacted, the credit equaled 10 percent of qualified post production costs paid in the production of a qualified film at a qualified post production facility. Applications received after July 24, 2012, were eligible for increased credit rates. The credit equaled 30 percent for work in the Metropolitan Commuter Transportation District (MCTD) and 35 percent for work outside of the MCTD. Beginning April 1, 2020, the allowable amount of credit was reduced from 30 percent to 25 percent for qualified films produced at qualified post-production facilities located within the MCTD and from 35 percent to 30 percent for qualified films produced at qualified post-production facilities located elsewhere in New York State. For initial applications received on or after April 21, 2023, the post-production credit rate is increased from 30 percent to 35 percent for qualified post production facilities located outside the MCTD and from 25 percent to 30 percent for work at qualified post production facilities located within the MCTD.

For tax years 2015 through 2036, Empire State film production and post-production projects are eligible for an additional credit equal to 10 percent of the wages or salaries of individuals directly employed (excluding those employed as writers, directors, composers, producers and performers) by a qualified film or independent film production company for services performed by those individuals in specific upstate New York counties in connection with a qualified film with a minimum budget of $500,000. If a certificate of tax credit is revoked because taxpayer did not meet the eligibility requirements, the amount of credit claimed prior to the revocation shall be added back to tax in the taxable year in which any such revocation becomes final.

c. **Empire State commercial production credit**
**Citation:** Tax Law §§ 28, 210-B(23), 606(jj)
**Credit type:** Refundable—over 2 years
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2007 and before January 1, 2029
**Description:** A taxpayer satisfying a threshold level of commercial production activity may claim a tax credit for qualified commercial production in New York State. The credit is capped at $7 million per year and is administered by the Governor's Office for Motion Picture and Television Development. Beginning on or after January 1, 2019, the credit consists of two components:

- **MCTD component ($3 million):** 20 percent (previously 5 percent) of qualified production costs in excess of $500,000 during the calendar year for work within the MCTD. This component is also awarded on a *pro rata* basis, but with no per company limitation.
- **Outside MCTD component ($4 million):** 30 percent (previously 5 percent) of qualified production costs during the calendar year for work done outside the MCTD. However, to be eligible for the credit, the amount of total qualified production costs done outside the MCTD must be greater than $100,000. This component is distributed in the same manner as the MCTD component.

d. **Empire state independent film production credit**
**Citation:** Tax Law §§§ 24-d, 210-B(20-a), 606(gg-1)
**Credit type:** Refundable
**Effective date of credit:** Effective for taxable years beginning on or after January 1, 2025
**Description:** Qualified independent film production companies taxable under Articles 9-A and 22 can claim a refundable credit equal to 30 percent of qualified production costs paid or incurred in the production of a qualified film. Qualified production costs must equal or exceed 75 percent of the production costs paid or incurred that are attributable to the use of tangible property or the performance of services at any film production facility within New York State in the production of a qualified film. Costs less than $3 million are only allowed if shooting days spent in New York State outside of the film production facility equal or exceed 75 percent of the total shooting days spent within and without the state in the production of the film. Productions with a minimum budget of $500,000 may receive an additional ten percent credit on qualified labor expenses and other costs incurred for production taking place within certain counties. An additional ten percent credit is also available for qualified production costs attributable to musical scoring when incurred within the state and when such scoring costs include payment to a minimum of five musicians. Production costs attributed to the film, excluding labor costs, are capped at $60 million and the credit is administered by the Governor's Office for Motion Picture and Television Development. The aggregate amount of credit allowed in a calendar year is $100 million, with qualified films with budgets less than $10 million allocated $20 million and $80 million allocated for qualified

films with a budget of $10 million or more. The credit is restricted to the production of two or less qualified films per calendar year and may be claimed in the taxable year in which production of the film is completed.

13. **Security training tax credit**
**Citation:** Tax Law §§ 26, 187-n, 210-B(21), 606(ii), 1511(x)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2005
**Description:** Owners of commercial buildings over 500,000 square feet can claim $3,000 for each security guard employed who has undergone training certified by the New York State Office of Homeland Security and is paid a certain minimum wage. The credit is administered by the Office of Homeland Security.

14. **Brownfields tax credits**

a. **Brownfield redevelopment tax credit**
**Citation:** Tax Law §§ 21, 187-g, 210-B(17), 606(dd), 1511(u)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after April 1, 2005; eligibility contingent on site being accepted into the Brownfield Cleanup Program before January 1, 2033
**Description:** The brownfield redevelopment tax credit consists of three components relating to costs associated with: site preparation; tangible property; and on-site groundwater remediation. The rates and rules for the credit vary depending on when a site is accepted into the Brownfield Cleanup Program.

b. **Remediated brownfield credit for real property taxes**
**Citation:** Tax Law §§ 22, 187-h, 210-B(18), 606(ee), 1511(v)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after April 1, 2005; not available to sites accepted into the brownfield credit program on or after July 1, 2015
**Description:** The remediated brownfield credit for real property taxes equals 25 percent of the product of the taxpayer's employment factor (a percentage based on the number of persons employed by the taxpayer on a qualified site) and the taxpayer's eligible real property taxes. If the site is located in an Environmental Zone, the credit increases to 100 percent. The credit is limited to the number of full-time employees at the qualified site multiplied by $10,000.

c. **Environmental remediation insurance credit**
**Citation:** Tax Law §§ 23, 187-i, 210-B(19), 606(ff), 1511(w)
**Credit type:** Refundable

**Effective date of credit:** Effective for tax years beginning on or after April 1, 2005; not available to sites accepted into the BCP on or after July 1, 2015
**Description:** The environmental remediation insurance credit is allowed one time for premiums paid for environmental remediation insurance up to the lesser of $30,000 or 50 percent of the cost of the premiums.

15. **Land conservation easement credit**
**Citation:** Tax Law §§ 210-B(22), 606(kk)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2006
**Description:** Taxpayers may claim a tax credit equal to 25 percent of the school district, county, and city/town real property taxes paid on land that is under a conservation easement held by a public or private conservation agency. The maximum allowable tax credit is $5,000. The credit, in combination with any other credit for property taxes, may not exceed such taxes. The term *conservation easement* means a perpetual and permanent conservation easement as defined in Environmental Conservation Law, Article 49 that serves to protect open space, scenic, natural resources, biodiversity, agricultural, watershed, and/or historic preservation resources. Any conservation easement for which a tax credit is claimed must be filed with the Department of Environmental Conservation and comply with the provisions of Environmental Conservation Law, Article 49, Title 3 and the provisions of Internal Revenue Code § 170(h).

16. **Clean heating fuel credit**
**Citation:** Tax Law §§ 210-B(25), 606(mm)
**Credit type:** Refundable
**Effective date of credit:** Effective for purchases made on July 1, 2006 through June 30, 2007 and on or after January 1, 2008 and before January 1, 2029
**Description:** Taxpayers may claim a tax credit for bioheat used for space heating or hot water production for residential purposes within the state. The credit equals 1 cent per percent of biodiesel per gallon of bioheat purchased by the taxpayer and is capped at 20 cents per gallon. Biodiesel is defined as fuel comprised exclusively of mono-alkyl esters of long chain fatty acids derived from vegetable oils or animal fats, designated B100 that meets the specifications of American Society of Testing and Materials designated D6751. In addition, bioheat means a fuel comprised of biodiesel blended with conventional home heating oil that meets the specifications of the American Society of Testing and Materials designation D396 or D975. Beginning in 2017, the minimum biodiesel fuel threshold for bioheat is increased to at least six percent biodiesel per gallon of bioheat. Any bioheat purchased on or after January 1, 2017, that is graded below B6, will no longer qualify for the credit.

17. **Rehabilitation of historic properties credit**
**Citation:** Tax Law §§ 210-B(26), 606(oo), 1511(y)
**Credit type:** Nonrefundable/Carryforward/Refundable for qualified rehabilitations placed in service on/after January 1, 2015
**Effective date of credit:** Personal income tax/corporate franchise tax - effective for tax years beginning on or after January 1, 2007; Insurance tax - effective for tax years beginning on or after January 1, 2010

Amended credit effective for tax years beginning on or after January 1, 2010, and before January 1, 2030
**Description:** Taxpayers may claim a tax credit for the rehabilitation of historic properties located in New York State. The amount of the state credit is based on the credit amount allowed for the same taxable year under federal Internal Revenue Code § 47(a)(2). Effective for taxable years beginning on or after January 1, 2018, taxpayers are allowed to claim the entire amount of the state credit in one year instead of ratably over five years as required as a result of the Federal Tax Cuts and Jobs Act of 2017. Internal Revenue Code§ 47(c)(3) defines a certified historic structure as a building and its structural components that are listed in the National Register of Historic Places or located in a registered historic district and certified to be of historic significance to the district. Any state credit taken must be recaptured if the federal credit upon which it is based is recaptured by the taxpayer.

For tax years beginning on or after January 1, 2010, the credit is 100 percent of the amount of the federal historic properties credit claimed by the taxpayer, capped at $5 million. The cap is imposed at the entity level for partnerships, LLCs, or S corporations. Also, the credit is limited to projects located in distressed areas as defined in Internal Revenue Code §143(j) or located within a census tract that is at or below 100 percent of the State median family income in the most recent American Community Survey.

For tax years beginning on or after January 1, 2020, the credit is expanded to include a qualified rehabilitation project undertaken within a state park, state historic site, or other land owned by the state, that is under the jurisdiction of the Office of Parks, Recreation and Historic Preservation.

For tax years beginning on or after January 1, 2022, small projects receive a credit amount equal to 150 percent of the credit for qualified rehabilitation expenses. Small projects are defined as projects where qualified rehabilitation expenditures are no greater than $2.5 million.

After December 31, 2029, the credit reverts to a 30 percent rate and $100,000 cap.

For qualified rehabilitation projects placed in service on or after January 1, 2015, the credit is refundable.

For taxable years beginning on or after January 1, 2026, a one-time transfer of the credit is allowed regardless of how the federal credit is allocated, when approved by the New York State Office of Parks, Recreation, and Historic Preservation.

18. **Excelsior Jobs Program tax credits**
**Citation:** Tax Law §§ 31, 210-B(31), 606(qq), 1511(y)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2011
**Description:** The program is administered by New York State Empire State Development and offers five tax credits focused on certain strategic industries. New York State Empire State Development will calculate the amount of each credit annually and issue a certificate of tax credit to participants entitling them to the credits. As initially enacted, taxpayers were allowed to claim credits for five consecutive years. Participants accepted into the program after April 1, 2011, have a 10-year benefit period. No credits are allowed for taxable years beginning on or after January 1, 2050. Enhancements were made to the program in 2020 to add tax credits for green projects aimed at reducing greenhouse gas emissions and supporting the use of clean energy and in 2025 for semiconductor supply chain projects.

    a. **Excelsior Jobs tax credit**
    Excelsior Jobs Program participants may claim a credit for each net new job created in the State. For participants accepted into the program on or before April 1, 2011, the value of the credit cannot exceed $5,000 per new job and is computed on marginal wages plus benefit basis as follows:
        - 5 percent of wages plus benefits of $50,000 or less;
        - 4 percent of wages plus benefits between $50,001 and $75,000; and
        - 1.33 percent of wages plus benefits over $75,000.

    For taxpayers accepted into the program after April 1, 2011, the credit is equal to the gross wages multiplied by 6.85 percent. For green projects, the credit is equal to gross wages multiplied by 7.5 percent. For semiconductor supply chain projects, the credit is equal to gross wages multiplied by 7 percent.

    b. **Excelsior Jobs Program investment tax credit**
    Excelsior Jobs Program participants may claim a credit equal to 2 percent of the cost of qualified investments in New York. The credit is increased to 5 percent of the cost of qualified investments for green projects and the construction of childcare service facilities. For a semiconductor supply chain project, the credit shall be equal to 3 percent of the cost or other basis for federal income tax purposes of the qualified investment. Taxpayers cannot claim both the Excelsior Jobs Program investment tax credit and the brownfield tangible property credit

component for the same property in a given year. In addition, taxpayers accepted into the program on or before April 1, 2011, are prohibited from claiming both the Excelsior Jobs Program investment tax credit and the regular investment tax credit.

c. **Excelsior Jobs Program research and development tax credit**
Excelsior Jobs Program participants may claim a credit for research and development expenditures in New York. The credit is a percentage of the portion of the taxpayer's federal research and development credit pertaining to expenditures attributable to New York. Eligible expenditures are defined in Internal Revenue Code § 41. For taxpayers accepted into the program on or before April 1, 2011, the percentage is 10 percent. For those accepted into the program after April 1, 2011, the percentage is 50 percent, subject to a limit of three percent of qualified research and development expenditures attributable to New York activity. For tax years beginning on or after January 1, 2018, the limit is increased to 6 percent. The credit for green projects is equal to 8 percent of qualified research and development expenditures attributable to activities conducted in New York State. The credit for a semiconductor supply chain project is equal to 7 percent of the qualified research and development expenditures attributable to activities conducted in New York state.

d. **Excelsior real property tax credit**
Excelsior Jobs Program participants located in areas formerly designated as investment zones under the Empire Zones Program or that qualify as regionally significant projects may claim a credit for real property taxes. The credit equals 50 percent of the property taxes assessed and paid in the year immediately prior to a taxpayer's application to the Excelsior Jobs Program and is gradually phased out. For taxpayers accepted into the program on or before April 1, 2011, the credit is phased down 10 percent a year over five years. For those accepted into the program after April 1, 2011, the credit declines by 5 percent a year over ten years.

e. **Excelsior child care services tax credit**
Excelsior Jobs Program participants are eligible to claim a child care services tax credit for child care services expenditures in New York State. The credit is equal to 6 percent of child care services expenditures for the operation, sponsorship or direct financial support of a child care services program.

19. **Credit for companies who provide transportation to individuals with disabilities**
**Citation:** Tax Law §§ 210-B(38), 606(tt)
**Credit type:** Nonrefundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2011 and before January 1, 2029

**Description:** Taxpayers providing taxicab or livery service may claim a tax credit equal to the incremental cost associated with upgrading a vehicle so that it is accessible by individuals with disabilities. In addition, taxpayers may also claim the credit for the purchase of new vehicles manufactured to be accessible by individuals with disabilities and for which there is no comparable make or model. The credit is limited to $15,000 per electric vehicle and $10,000 per other vehicles. Vehicles accessible for individuals with disabilities must comply with the Americans with Disabilities Act and other federal regulations. A similar credit existed for tax years beginning on or after January 1, 2006, and before January 1, 2011.

20. **Economic Transformation and Facility Redevelopment Program tax credit**
**Citation:** Tax Law §§ 35, 210-B(35), 606(ss), 1511(aa)
**Credit type:** Refundable
**Effective date of credit:** Effective on or after March 31, 2011 and before December 31, 2026
**Description:** Chapter 61 of the Laws of 2011 created the Economic Transformation and Facility Redevelopment Program designed to mitigate the economic consequences in communities where correctional facilities and facilities operated by the Office of Children and Family Services were closed through the period ending March 31, 2012. In addition, any psychiatric facility previously owned and operated by New York State located within the Metropolitan Commuter Transportation District (excluding New York City) is considered a closed facility under the program. The program is administered by New York State Empire State Development and offers a tax credit with four components to redevelop closed facilities and attract new businesses to the surrounding areas. Taxpayers may claim credit for five consecutive years.

    a. **Economic Transformation and Facility Redevelopment Program jobs tax credit component**
    Participants may claim a credit for each net new job created in the State. The credit is equal to the gross wages multiplied by 6.85 percent.

    b. **Economic Transformation and Facility Redevelopment Program investment tax credit component**
    Participants may claim a credit for qualified investments in the economic transformation area. For investments on the grounds of a closed facility, the credit is 10 percent of the cost of the investment, not to exceed $8 million for the facility. For investments in areas outside of the facility but within the economic transformation area, the credit is 6 percent of the cost of the investment, not to exceed $4 million per entity.

    c. **Economic Transformation and Facility Redevelopment Program job training tax credit component**

Participants may claim a credit for 50 percent of qualified training expenses paid during the year for employees displaced by a facility closure, not to exceed $4,000 per employee per tax year.

d. **Economic Transformation and Facility Redevelopment Program real property tax credit component**
Participants may claim a credit equal to 50 percent of the real property taxes assessed and paid in the first tax year of the benefit period for property located entirely within the grounds of a closed facility. The percentage decreases by 10 percent each year for the subsequent years of the benefit period. For property located outside of the facility but within the economic transformation area, the credit is equal to 25 percent of the real property taxes assessed and paid decreasing by 5 percent each year for subsequent years of the benefit period.

21. **New York Youth Jobs Program tax credit**
**Citation:** Tax Law §§ 210-B(36), 606(tt)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2012 and before January 1, 2028
**Description:** The New York Youth Works Tax Credit Program is designed to provide tax incentives to employers for employing at-risk youth in full-time and part-time positions in tax years 2012 through 2027. Legislation in 2015 renamed the program the Urban Youth Jobs Program Tax Credit. Legislation in 2017 further renamed the program the New York Youth Jobs Program tax credit to reflect that the program is now offered statewide. The program is administered by the New York State Department of Labor. Prior to 2018, the credit equaled $500 per month for up to six months for each qualified full-time employee or $250 per month for each qualified part-time position of at least 20 hours per week, or 10 hours if a full-time high school student. An additional $1,000 per full time employee or $500 per part time employee was available if the qualified employee remains employed for at least an additional six months. Finally, an additional $1,000 tax credit for each youth retained in full-time status and an additional $500 for each youth retained in part-time status was available if the qualified employee remains employed for one additional year. Beginning in 2018, these credit amounts are increased by fifty percent (for example, $250 increases to $375, $500 increased to $750 and $1,000 increases to $1,500).

To claim the credit, employers must first apply to and be approved by the New York State Department of Labor. The New York State Department of Labor will calculate the maximum amount of credit the employer will be allowed to claim and issue a certificate of eligibility to participants entitling them to the credit.

22. **Empire State Jobs Retention Program credit**
**Citation:** Tax Law §§ 36, 210-B(37), 606(tt), 1511(bb)

**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2012, pertaining to emergencies declared on or after January 1, 2011
**Description:** The Empire State Jobs Retention Program is designed to support the retention of strategic businesses and jobs directly impacted by an event that leads to an emergency declaration by the Governor. Prior to June 1, 2025, the Program offered a jobs tax credit equal to the product of 6.85 percent and the gross wages paid for each impacted job, defined as a job existing at the relevant location on the day before an event occurs that leads to an emergency declaration. A participant was also eligible for a 2 percent investment tax credit, but only for costs in excess of costs recovered by insurance. Taxpayers may claim the credit for 10 consecutive years. For a business to be eligible for the credit it must have: (a) been located in the county where an emergency is declared; (b) demonstrated substantial physical damage and economic harm; and (c) retained or exceeded 100 full-time equivalent jobs in the county where the emergency was declared.

To participate in the program on or after June 1, 2025, a business entity must submit a plan to retain, restore or increase staffing levels within one year from the date of application to at least the staffing levels that existed at the site the day prior to the date of the applicable declaration of the state of emergency. The new credit rate varies based on the number of employees. The credit is equal to the amount of gross wages paid for impacted jobs times 15 percent for business entities that employ 3-49 employees; 7.5 percent for business entities that employ 50-100 employees; or 3.75 percent for business entities that employ over 100 employees. An eligible business entity may only receive up to $500,000 in tax credits per event triggering an emergency declaration by the governor. The participant has six months of eligibility.

To claim credit, taxpayers must apply to and be approved by New York State Empire State Development who will calculate the amount of credit annually and issue a certificate of tax credit to participants. The total amount of tax credit issued is capped at $30 million allocated from the funds available for tax credits under the Excelsior Jobs Program Act.

23. **Alcoholic beverage production credit (formerly beer production credit)**
**Citation:** Tax Law §§ 37, 210-B(39), 606(uu)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2012
**Description:** For taxable years beginning on or after January 1, 2016, the beer production credit was expanded to include wine, liquor, and cider. The credit, renamed the alcoholic beverage production credit, was available to taxpayers registered as a distributor, under Tax Law, Article 18, that produced 60 million gallons or less of beer or cider, 20 million gallons or less of wine, or 800,000 gallons

or less of liquor in New York State. The credit was equal to 14 cents per gallon for the first 500,000 gallons of alcohol produced in New York State during the tax year, plus 4.5 cents per gallon for each additional gallon over 500,000 (up to 15 million additional gallons) produced in New York State in the same tax year.

For taxable years beginning on or after January 1, 2023, the credit rate for the first 500,000 gallons of alcohol produced in New York is amended as follows:

- Still wine, artificially carbonated sparkling wine, and natural sparkling wine: 30 cents per gallon
- Liquors containing more than 2 percent but not more than 24 percent of alcohol by volume: $2.54 per gallon produced
- Beer and Cider, artificially carbonated sparkling cider, and naturally sparkling cider containing more than 3.2 percent alcohol by volume: 14 cents per gallon produced
- Liquors containing more than 0 percent but less than 2 percent alcohol by volume: no credit
- All other liquors: $6.44 per gallon produced

The credit cap is applied at the entity level for partnerships, LLCs, and S corporations.

24. **Alternative fuels and electric vehicle recharging property credit**
**Citation:** Tax Law §§ 187-b, 210-B(30), 606(p)
**Credit type:** Nonrefundable
**Effective date of credit:** Effective for taxable years beginning on or after January 1, 2013 and before January 1, 2029
**Description:** Taxpayers may claim a nonrefundable credit equal to the lesser of $5,000 or 50 percent of the cost of alternative fuel vehicle refueling property or electric vehicle recharging property located in New York State less any costs paid from the proceeds of grants.

25. **START-UP NY tax elimination credit**
**Citation:** Tax Law §§ 39, 40, 210-B(41), 606(ww)
**Credit type:** Refundable
**Effective date of Credit:** Effective for taxable years beginning on or after January 1, 2014
**Description:** The tax-free New York area tax elimination credit is available to general business corporations, sole proprietorships, partnerships (including limited liability companies taxed as partnerships), and New York S corporations participating in the SUNY Tax-Free Areas to Revitalize and Transform Upstate New York Program (START-UP NY). The credit is equal to the product of:

- the tax-free NY area allocation factor and
- the tax factor.

The tax-free New York area allocation factor is the percentage of the business's economic presence in the tax-free New York area where the business was approved to locate under Economic Development Law, Article 21.

For Article 9-A taxpayers, the tax factor is the largest of the taxes on the business income base, capital base, or fixed dollar minimum tax after the deduction of any other credits. For Article 22 taxpayers, the tax factor is determined by reducing the individual's tax computed under Tax Law, § 601(a)-(d) for the tax year by any other allowable credits and adjusting that reduced amount by the ratio of the income from business in the tax-free New York area to the taxpayer's New York adjusted gross income. In both cases, the ratios may not exceed 1.0.

For corporate franchise taxpayers, the credit cannot reduce the tax due below the fixed dollar minimum unless the taxpayer has a tax-free New York area allocation factor of 100 percent. In that instance, the tax can be reduced to zero. Any excess credit may be refunded. For personal income taxpayers, the credit may reduce the tax to zero and any excess may be refunded.

26. **Credit for the excise tax on telecommunication services paid by START-UP New York businesses**
**Citation:** Tax Law §§ 210-B(44), 606(yy)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2014
**Description:** The credit is available to a business or owner of a business that is approved to participate in the START-UP NY program and located in a tax-free NY area. The credit is equal to the 2.5 percent excise tax on telecommunication services imposed by Tax Law § 186-e that is passed through to the approved business. The credit may be claimed when the tax is separately stated on a bill from the telecommunication service provider and the bill has been paid by such business.

27. **Real property tax relief credit for manufacturing**
**Citation:** Tax Law §§ 210-B(43), 606(i), 606(xx)
**Credit type:** Corporate franchise tax—nonrefundable/personal income tax—refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2014
**Description:** A qualified New York manufacturer is allowed a credit equal to 20 percent of the real property taxes paid during the tax year for real property located in New York and principally used in manufacturing, processing, assembling, refining, mining, extracting, farming, agriculture, horticulture, floriculture, viticulture or commercial fishing. A manufacturer must have at least 50 percent of its receipts from the forgoing activities and either all or at least $1 million of manufacturing property

located in New York. A manufacturer that fails the receipts test may still qualify if it employs at least 2,500 people in manufacturing in New York and has $100 million in manufacturing property in the state.

28. **Hire a veteran credit**
**Citation:** Tax Law §§ 210-B(29), 606(a-2), 1511 (g-1)
**Credit type**: Nonrefundable/carryforward for 3 years
**Effective date of credit:** Credit effective for taxable years beginning on or after January 1, 2015, and before January 1, 2029, but hiring may commence on January 1, 2014
**Description:** Employers hiring a qualified veteran to begin employment on or after January 1, 2014, but before January 1, 2028, and who is employed full-time or part-time in New York State for twelve continuous and uninterrupted months and 35 hours each week may claim the credit in the tax year in which the qualified veteran completes one year of employment with the taxpayer.

For tax years beginning on or after January 1, 2022, the credit equals 15 percent of the total amount of wages paid during the veteran's first full year of employment, or 20 percent for a disabled veteran. The credit is capped at $15,000 per veteran or $20,000 per disabled veteran.

For tax years beginning before January 1, 2022, the credit equaled 10 percent of the total amount of wages paid during the veteran's first full year of employment, or 15 percent for a disabled veteran. The credit was capped at $5,000 per veteran or $15,000 per disabled veteran.

29. **Musical and theatrical production credit**
**Citation:** Tax Law §§ 24-A, 210-B(47), 606(u)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2015 and before January 1, 2030
**Description:** Eligible production companies can claim a refundable credit equal to 25 percent of certain costs. The total amount of credit is capped at $8 million per year and the credit is administered by New York State Empire State Development. To be eligible, a company must produce a live, dramatic stage presentation in a qualified production facility on a tour that consists of eight or more shows in three or more localities. A qualified production facility is a 1,000 or more-seat theater located outside of New York City for which ticket receipts constitute 75 percent or more of the total receipts. The credit is based on costs for tangible property used and services performed in the course of production, with personal compensation expenses capped at $200,000 per week. The credit is also allowed for transportation expenditures that includes costs for packaging, crating, and transporting production equipment, sets, costumes, and cast and crew.

30. **Workers with disabilities tax credit**
**Citation:** Tax Law §§ 210-B(48), 606(zz)
**Credit type:** Nonrefundable/Carryforward for three years
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2015 and before January 1, 2029
**Description:** The Workers with Disabilities Tax Credit Program, administered by the New York State Department of Labor (DOL), annually provides $6 million in tax credits for employing individuals with developmental disabilities. To participate in the program, a taxpayer must apply to the DOL by November 30th of the prior year. At the end of the tax year, the employer must obtain a final certificate of eligibility from the DOL that states the maximum amount of credit allowed and provides verification for the credit claims.

The credit is equal to 15 percent of the qualified wages for qualified full-time employees and 10 percent of the qualified wages for qualified part-time employees. Full-time employment is defined as working at least 30 hours per week, and part-time employment at least 8 hours per week, each for at least 6 months. The credit is available for qualified wages paid after January 1, 2015. An employer is not allowed to concurrently claim this credit and any other credit for the employment of persons with disabilities for the same employee. Any unused credit may be carried forward for 3 years.

31. **Employee Training Incentive Program**
**Citation:** Tax Law §§ 210-B(50), 606(ddd)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2015 and before January 1, 2029
**Description:** The Employee Training Incentive Program, administered by New York State Empire State Development, provides a refundable tax credit for certain employers that procure skills training for their employees or provide internship programs in advanced technology. Effective April 12, 2019, businesses may receive the credit if they conduct their own training and are otherwise eligible. Previously, training had to be provided by an approved provider. The total amount of tax credits for any taxable year may not exceed $5 million dollars and will be allotted from the funds available for tax credits under the Excelsior Jobs Program Act. The portion of the tax credit cap allocated to internship programs in advanced technology shall be not less than $250,000 or more than $1 million.

The credit equals 50 percent of eligible training costs, up to $10,000 per employee receiving eligible training and 50 percent of the stipend paid to an intern, up to a credit of $3,000 per intern. The credit is allowed in the taxable year in which the eligible training is completed.

32. **Farm workforce retention credit**
**Citation:** Tax Law §§ 42, 210-B(51), 606(fff)
**Credit type:** Refundable
**Effective date of credit:** Effective for taxable years beginning on or after January 1, 2017, and before January 1, 2029
**Description:** A farm employer whose federal gross income from farming for the taxable year is at least two-thirds of excess federal gross income is allowed a credit equal to a fixed amount per eligible farm employee. Excess federal gross income is defined to mean the amount of federal gross income from all sources for the taxable year in excess of $30,000.

An eligible farm employee is an individual who is employed for 500 hours or more per taxable year by a farm employer in New York State. However, general executive officers of a farm employer are excluded from the credit. For tax years beginning on or after January 1, 2019, if more than fifty percent of an eligible farmer's federal gross income from farming is from the sale of wine or cider, then an eligible farm employee shall only be included for purposes of calculating the credit if such employee is employed on qualified agricultural property. Also, where an individual employed by a farm employer in New York State becomes unable to work due to a documented illness or disability, the hours such individual is employed may be combined with the hours worked by a hired replacement individual when determining the 500-hour threshold.

The credit is phased in gradually by taxable year:

| Tax years beginning on or after | and before | Credit per eligible farm employee |
|---|---|---|
| January 1, 2017 | January 1, 2018 | $250 |
| January 1, 2018 | January 1, 2019 | $300 |
| January 1, 2019 | January 1, 2020 | $500 |
| January 1, 2020 | January 1, 2021 | $400 |
| January 1, 2021 | January 1, 2022 | $600 |
| January 1, 2022 | January 1, 2029 | $1200 |

33. **Empire State apprenticeship tax credit**
**Citation:** Tax Law §§ 210-B(49), 606(vvv)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2018 and before January 1, 2028
**Description:** The refundable credit, administered and allocated by the Department of Labor, is capped at $10 million annually for ten years beginning in 2018 through 2028. Any unused annual allocation of the credit shall be made available in a subsequent year before 2028.

The base credit for a qualified apprentice is equal to:

- $2,000 for year one of apprenticeship
- $3,000 for year two of apprenticeship
- $4,000 for year three of apprenticeship
- $5,000 for year four of apprenticeship
- $6,000 for year five of apprenticeship

A *qualified apprentice* means an individual employed by a participating employer in a full-time position for at least six months of a calendar year pursuant to a qualified apprenticeship agreement with a qualified employer. The individual must also complete the apprenticeship training program within one year.

A participating employer is entitled to an enhanced tax credit of an additional $500 on top of the base amount if the employer can show that the apprentice is being trained in their trade by a mentor. An additional $3,000 is available in years one, two, and three if the apprentice is a disadvantaged youth. A *disadvantaged youth* means an individual:(i) who is between the ages of sixteen and twenty-four when the youth begins the apprenticeship; and (ii) who is low-income or at-risk, as those terms are defined by the Commissioner of the Department of Labor. An additional $2,000 is available in year four and $1,000 in year five. The credit is not allowed for construction work.

34. **Life sciences research and development tax credit**
**Citation:** Tax Law §§ 43, 210-B(52), 606(hhh)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2018, and before January 1, 2028
**Description:** The refundable life sciences research and development tax credit is awarded by New York State Empire State Development (ESD) and is funded from the Excelsior Program. ESD can award $10 million annually for ten years. New life sciences companies can claim a 15 percent credit on their research and development expenditures, with the rate increasing to 20 percent for businesses with less than 10 employees. A company can claim credit for up to three years with an annual maximum of $500,000.

*Life sciences* means agricultural biotechnology, biogenetics, bioinformatics, biomedical engineering, biopharmaceuticals, academic medical centers, biotechnology, chemical synthesis, chemistry technology, medical diagnostics, genomics, medical image analysis, marine biology, medical devices, medical nanotechnology, natural product pharmaceuticals, proteomics, regenerative medicine, RNA interference, stem cell research, medical and neurological clinical trials, health robotics and veterinary science.

A *life sciences company* is a business entity or an organization or institution that devotes the majority of its efforts in the various stages of research, development, technology transfer and commercialization related to any life sciences field.

35. **Farm donations to food pantries credit**
**Citation:** Tax Law §§ 210-B(52), 606(n-2)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2018
**Description:** The refundable credit is equal to 25 percent of the fair market value of the taxpayer's qualified food donations, not to exceed $5,000 per year. If the taxpayer is a partner in a partnership or shareholder of a New York S corporation, the $5,000 cap is applied at the entity level.
To qualify, the taxpayer must have federal gross income from farming that is at least two-thirds of gross income from all sources for the taxable year in excess of thirty thousand dollars. In order to claim the credit, the taxpayer must receive a receipt or written acknowledgment from the qualified food pantry detailing the name of the food pantry, the date and location of the qualified donation, and a reasonably detailed description of the qualified donation.

36. **Employer provided child care credit**
**Citation:** Tax Law §§ 44, 210-B(53), 606(jjj), 1511(dd)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2020
**Description:** A refundable credit is available to taxpayers who are allowed the federal employer-provided child care credit under Internal Revenue Code, § 45F for qualifying expenditures paid or incurred in providing child care alternatives for their employees. The credit is equal to 25 percent of qualified child care expenditures related to a child care facility located in New York, plus 10 percent of qualified child care resources and referral expenditures, attributable to employees working in New York. The credit is capped at $150,000 per taxable year. For taxable years starting on or after January 1, 2022, the amount of the credit is doubled to 200 percent of the credit allowed under Internal Revenue Code, § 45F and the per entity cap is increased from $150,000 to $500,000 per taxable year.

Qualified child care expenditures include operating costs of a qualified child care facility of the taxpayer or under contract with another taxpayer, as well as amounts paid or incurred to acquire, construct, rehabilitate, or expand property used as part of a care facility of the taxpayer. Qualified child care resource and referral expenditures are amounts paid or incurred under a contract to provide child care resource and referral services to an employee of the taxpayer.

37. **Recovery tax credit**
**Citation:** Tax Law §§ 210-B(53), 606(jjj), 1511(dd)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2020
**Description:** The Office of Addiction Services and Supports administers this credit to provide incentives to certified employers for employing eligible individuals in recovery from a substance use disorder in New York State. The credit equals $1 per hour worked by each eligible employee, with a minimum requirement of 500 hours worked for each eligible employee. The credit cannot exceed $2,000 per eligible individual and may be claimed only one time for each eligible employee. Qualifying employers must have a formal working relationship with a local recovery community organization and eligible employees must demonstrate they have completed a course of treatment for a substance use disorder and are in a state of wellness. Employers must apply to the Office of Addiction Services and Supports by January 15 for credit based on employment in the preceding year.

38. **Restaurant return-to-work tax credit**
**Citation:** Tax Law §§ 46, 210-B(56), 606(lll)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2021, and before January 1, 2022
**Description:** The credit was administered by New York State Empire State Development (ESD) and provided up to $35 million in refundable tax credits to support restaurants impacted by the Covid-19 pandemic. Independently owned restaurants within New York City or located in an area outside of New York City that had been designated by the Department of Health as either an orange or red zone that could demonstrate economic harm from the pandemic could apply to ESD for a credit equal to $5,000 per full-time equivalent net employee increase, capped at $50,000 per entity. *Net employee increase* is defined as an increase of at least one full-time equivalent employee between the average starting full-time employment and the average ending full-time employment of a business entity.

*Average starting full-time employment* is calculated as the average number of full-time equivalent positions employed by a business entity in an eligible industry between January 1, 2021, and March 31, 2021. *Average ending full-time employment* is calculated as the average number of full-time equivalent positions employed by a business entity in an eligible industry between April 1, 2021, and either August 31, 2021, or December 31, 2021, whichever date the business entity chose to use.

39. **New York City musical and theatrical production tax credit**
**Citation:** Tax Law §§ 24-C, 210-B(57), 606(mmm)
**Credit type:** Refundable

**Effective date of credit:** Effective for tax years beginning on or after January 1, 2021, and before January 1, 2028
**Description:** Participants may claim a refundable tax credit equal to 25 percent of qualified production expenditures paid for during the qualified New York City musical and theatrical production's credit period. The total amount of credit is capped at $3 million per production whose first performance was before January 1, 2023, and $1.5 million per production whose first performance is on or after January 1, 2023. The credit, administered by New York State Empire State Development, is allowed by production companies that are qualified New York City musical and theatrical production companies. The aggregate amount of tax credits allowed for tax years before January 1, 2025 is $300 million and is allocated based on the date of the first performance of the qualified musical and theatrical production.

For tax years beginning or after January 1, 2025, an additional $100 million in total credit is available. *Qualified musical and theatrical production* is defined as a for-profit live, dramatic stage presentation that, in its original or adaptive version, is performed in a qualified New York City production facility, whether or not such production was performed in a qualified New York City production facility prior to the state disaster emergency pursuant to executive order 202 of 2020.

To be eligible, a company must produce a live, dramatic stage presentation in a qualified New York City production facility. A qualified production facility is a 500 or more-seat theater located in New York City for which ticket receipts constitute 75 percent or more of the total receipts.

Starting in 2023, the credit is amended to add Level 1 and Level 2 qualified New York City production facilities. A Level 1 qualified New York City production facility is defined as a facility located within the borough of Manhattan, bounded by, and including 41st Street and 54th Street and between 6th Avenue and 9th Avenue for which receipts attributable to live theatrical productions constitute 75 percent or more of gross receipts of the facility. A Level 2 qualified New York City production facility modifies a Level 1 facility to include facilities located in Manhattan in which live theatrical productions are or are intended to be primarily presented and lowers the seating capacity from 500 or more seats to 100 or more seats.

The amount of the credit cannot exceed $350,000 per qualified New York City musical and theatrical production in a Level 2 facility or $3,000,000 per qualified New York City musical and theatrical production in a Level 1 facility.

The definition of a *qualified NYC musical and theatrical production* was amended to specify that productions performing in a Level 2 facility must have a production budget greater than or equal to $750,000 and incur qualified production expenditures greater than or equal to $750,000.

The credit is based on costs for tangible property used and services performed in the course of production, with personal compensation expenses capped at $200,000 per week. The credit is also allowed for technical and crew production costs, such as expenditures for a qualified New York city production facility, or any part thereof, props, make-up, wardrobe, costumes, equipment used for special and visual effects, sound recording, set construction, and lighting. Qualified production expenditure does not include any costs incurred prior to the credit period of a qualified New York city musical and theatrical production company.

40. **Covid-19 capital costs tax credit**
**Citation:** Tax Law §§ 47, 210-B(58), 606(nnn)
**Credit type:** Refundable
**Effective date of credit:** Effective for costs incurred between January 1, 2021, and December 31, 2022
**Description:** Small business taxpayers that incurred costs of at least $2,000 from January 1, 2021, through December 31, 2022 to comply with public health or other emergency orders or regulations related to the COVID-19 pandemic could claim a credit equal to 50 percent of qualifying costs. The credit was capped at $25,000 per claim and the total amount of credit under the program was capped at $250 million.

To be eligible, a small business must have:
- had $2.5 million or less of gross receipts;
- been a resident in the state;
- been independently owned and operated;
- not been dominant in its field; and
- had 100 or fewer employees.

Taxpayers were required to apply to New York State Empire State Development Corporation for a certificate of tax credit.

41. **Grade number 6 heating oil conversion tax credit**
**Citation:** Tax Law §§ 47, 210-B(58), 606(nnn)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2022, and before January 1, 2024
**Description:** Taxpayers that met certain eligibility requirements could claim a refundable tax credit equal to 50 percent of the conversion costs for all the taxpayers' buildings located in a facility regulated pursuant to New York State Environmental Conservation Law, § 19-0302 or Title 10 of Article 17 that were paid on or after January 1, 2022, and before July 1, 2023. The New York State Energy Research and Development Authority administered credit was capped at $500,000 per facility, with the cap applied at the entity level for partnerships, LLCs, or S corporations. Costs used for this credit could not be used for other credits.

Conversion costs are the equipment and labor costs associated with the design, installation, and use of space heating and other energy conversion systems that are designed to or accommodate use of biodiesel fuel or a geothermal system and, at the option of the taxpayer, the cost of completing an American Society of Heating, Refrigerating and Air-conditioning Engineers level 2 energy audit.

42. **Farm employer overtime credit**
**Citation:** Tax Law §§ 42-a, 210-B(58), 606(nnn)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2022. However, credit may only be claimed for tax years where the overtime threshold, as set by the Commissioner of Labor, is below 60 hours per week.
**Description:** Taxpayers may claim a refundable credit for farm employers equal to 118 percent of the amount of additional overtime paid to their employees as a result of the phase-in of a new 40-hour overtime threshold as recommended by the Farm Laborers Wage Board and the Commissioner of Labor. The credit base is overtime paid on time between the new threshold and 60 hours per week. Eligible taxpayers may request an advance payment for qualified overtime paid between January 1 and July 31 of the applicable year by submitting an application to the Department of Agriculture and Markets by September 30 of the applicable year.

For tax years beginning on or after January 1, 2025, farm employers who indirectly paid eligible farm overtime through a qualified professional employer organization are eligible to claim this credit. These farm employers must apply to the Department of Agriculture and Markets to receive a certificate allowing them to claim 2024 and 2025 expenses on their 2025 tax return.

Beginning in tax year 2026, all farm employers must certify their annual eligible expenses with the Department of Agriculture and Markets in order to claim the credit. Employers must submit their application by February 1 after the calendar year in which the expenses were incurred, and the Department of Agriculture and Markets will issue the farm employer an overtime expense certificate indicating the eligible expenses for the credit.

43. **Additional restaurant return-to-work tax credit**
**Citation:** Tax Law §§ 46-a, 210-B(56-a), 606(nnn)
**Credit type:** Refundable
**Effective date of credit:** Effective for the tax year that includes December 31, 2022
**Description:** Business entities that were in the restaurant return-to-work program could claim a credit of $5,000 per each full-time equivalent net employee increase between 11 and 20 employees, provided the jobs continued to exist as of March 31, 2022.

A business entity was required to submit an application to New York State Empire State Development by July 1, 2022.

44. **Empire State digital gaming media production tax credit**
**Citation:** Tax Law §§ 45, 210-B(55), 606(nnn)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2023, and before January 1, 2028
**Description:** A taxpayer that is a digital gaming media production entity may claim a refundable credit equal to 25 percent of qualified costs in the Metropolitan Commuter Transportation District and 35 percent of costs outside of the Metropolitan Commuter Transportation District, provided the maximum qualified costs per production is $5 million. The credit is administered by Empire State Development and up to $5 million of credit can be allocated a year.

*Qualified costs* are digital gaming media production costs incurred and paid within New York State directly and predominately related to the creation, production or modification of a qualified digital gaming media production. These costs include up to $200,000 in wages paid to people, other than actors or writers, that are directly employed for services performed by those individuals for the creation, development, production, editing, and compositing of a digital gaming media production or productions. Distribution, marketing, promotion, and advertising, costs not directly related to creation of the media, and executives' salaries, if functioning in a solely corporate capacity, are not qualified costs.

45. **Child care creation and expansion credit**
**Citation:** Tax Law §§ 48, 210-B(59), 606(ooo), 1511(ee)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after April 1, 2023, and before January 1, 2025
**Description:** Eligible businesses that operated in New York State and created or expanded child care seats, directly or through a third party, for their employees could claim a refundable tax credit. The credit, administered by the Office of Children and Family Services, was capped at $25 million annually for two years. The credit was limited to 25 occupied infant and toddler child care seats per tax year. The credit was equal to the sum of the product of the number of infant child care seats that had been created or expanded and 20 percent of the child care rate for such infant child care seats and the product of the number of toddler child care seats that had been created or expanded and 20 percent of the child care rate for such toddler child care seats.

To participate, a business entity was required to submit a complete application to the New York State Office of Children and Family Services by January 31 after the end of each year.

46. **Newspaper and Broadcast Media Jobs Program credit**
**Citation:** Tax Law §§ 49, 210-B(60), 606(ppp)
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2025, and before January 1, 2028
**Description:** To be eligible for the credit, a business must be: operating predominately within an eligible industry; be independently owned or, in the case of a print media business, demonstrate a reduction in circulation or in the number of full-time equivalent employees of at least 25 percent over the previous five years; and be located within New York.

The credit is administered by Empire State Development and is comprised of two components: the newspaper and broadcast media new job creation component and the newspaper and broadcast media existing jobs component. The newspaper and broadcast media new job creation component is equal to $5,000 per net new job created. The newspaper and broadcast media existing jobs component is equal to 50 percent of annual wages of an eligible employee, up to $50,000 per eligible employee.

A business entity may not receive in excess of $20,000 in tax credits under the new job creation component and $300,000 in tax credits under the existing jobs component. The $320,000 cap is applied on an entity basis and each print media publication servicing a different market is treated as a separate business.

The total amount of tax credits is capped at $30 million per year. The new job creation component may not exceed $4 million per year and the existing jobs component may not exceed $26 million per year. Fifty percent of the existing jobs component credit is for eligible business entities with 100 or fewer employees and 50 percent is for eligible business entities with over 100 employees.

47. **Commercial security tax credit**
**Citation:** Tax Law §§ 49, 210-B(60), 606(ppp), 187-r
**Credit type:** Refundable
**Effective date of credit:** Effective for tax years beginning on or after January 1, 2024, and before January 1, 2026
**Description:** A certified business entity that meets the eligibility requirements of the commercial security tax credit program may be eligible to claim the credit equal to $3,000 for each retail location of the business entity located in New York State. The credit, administered and allocated by the Division of Criminal Justice Services, is capped at $5 million annually. To be eligible for the credit, a business must have qualified retail theft prevention measure expenses that exceed $4,000 if it has 25 or fewer total employees or $6,000 for a qualified business if it has 26 to 50 employees for each physical New York retail location during the taxable year. It must certify that

it participates in a community anti-theft partnership as established by the Division of Criminal Justice Services.

48. **Semiconductor manufacturing workforce training program tax credit**
**Citation:** Tax Law §§ 210-B(62), 606(sss)
**Credit type:** Refundable
**Effective date of credit:** Effective taxable years beginning on or after January 1, 2025
**Description:** To be eligible for this credit administered by Empire State Development, a business entity operating in New York as a semiconductor manufacturing business or a manufacturing business must conduct eligible training or procure eligible training for its employees from an approved provider. The credit is equal to 75 percent of wages, salaries or other compensation, training costs, and wrap around services, up to a credit of $25,000 per employee receiving eligible training, up to $1 million per eligible non-semiconductor manufacturing business, and up to $5 million per eligible semiconductor manufacturing business. The credit is capped at $20 million per taxable year and is allocated from the funds available for tax credits under the Excelsior Jobs Program. The refundable credit can be claimed in the taxable year in which the training is completed.

49. **Semiconductor research and development tax credit**
**Citation:** Tax Law §§ 210-B(61), 606(rrr)
**Credit type:** Refundable
**Effective date of credit:** Effective for taxable years beginning on or after January 1, 2025
**Description:** To be eligible for this credit administered by Empire State Development, a taxpayer must incur at least $100 million in qualified investment in New York State with the establishment and operation of a research and development (R&D) facility. The credit is equal to 15 percent of the cost of qualified investments in semiconductor R&D projects in New York State. The total amount of credits issued by ESD is allocated from the funds available from Green CHIPS tax credits under the Excelsior Jobs Program. The credit can be claimed in the taxable year the certificate of credit is issued. Participants may receive this credit for up to ten consecutive taxable years.

This section describes the proposals contained in the 2026-27 Executive Budget that modify, add, or repeal specific tax expenditures. Each description begins with background information regarding the proposal, a summary of the proposal, reasons for recommending the change, and an estimate of the revenue implications. Table 9 provides a listing of these provisions.

**Table 9**
**2026-2027 Executive Budget proposals affecting tax expenditures**
**(in millions of dollars)**

| | 2026-27 fiscal year estimate |
|---|---|
| **Personal Income Tax** | |
| 1. Enhance and Reform the Child and Dependent Care Credit | -0- |
| 2. Eliminate Income Taxes on Tipped Wages | (52) |
| 3. Retain Deductibility of Certain Charitable Contributions | -0- |
| **Cross-article tax credits** | |
| 4. Extend the Refundability of the Investment Tax Credit for Farmers for Five Years | -0- |
| 5. Standardize the Definition of Farmer for Certain Tax Credits | -0- |
| 6. Extend the Commercial Security Tax Credit for Three Years | -0- |
| 7. Enhance the New York City Musical and Theatrical Production Tax Credit | -0- |
| **Real estate transfer tax** | |
| 8. Extend Reduced Transfer Tax Rates for Qualifying REITs (Three Year Extension) | -0- |
| **Sales tax** | |
| 9. Extend the Sales Tax Vending Machine Exemption for Three Years | (8) |
| 10. Establish a Sales Tax Exemption for EV Charging Stations | -0- |
| 11. Extend the Residential Energy Storage Exemption for Two Years | -0- |
| 12. Extend Alternative Fuels Exemptions for Five Years | -0- |

**1. Enhance and Reform the Child and Dependent Care Credit**

**Background**: The New York State child and dependent care credit (CDCC) is a benefit for working taxpayers to defray the costs of care for a dependent child under the age of 13 or an older disabled dependent or disabled spouse. The New York credit is computed as a share of the federal credit, with some additional state-specific enhancements. Taxpayers may be eligible for the State CDCC even if the federal credit was not claimed. The state CDCC is fully refundable for resident taxpayers, while part-year residents may claim a partially refundable credit and nonresidents may claim nonrefundable state CDCC.

**Proposal**: This proposal would replace the current child and dependent care credit with a new New York State child and dependent care credit that is no longer coupled with the federal counterpart. The reformed, refundable credit would provide a greater benefit to families and reduce complexity in claiming the credit. Eligibility for the credit would be limited to full-year New York residents.

**Discussion:** Computing the State's child and dependent care credit is currently complicated. Furthermore, the credit suffers from fairness issues due to its regressivity across some income ranges. These issues were compounded by the enhancement of the Federal child and dependent care credit by H.R. 1. This proposal corrects these problems while simultaneously making child and dependent care more affordable, dramatically simplifying the benefit calculation, enhancing the benefit, and making the credit fully progressive.

**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**2. Eliminate Income Taxes on Tipped Wages**

**Background**: Under current law, the Internal Revenue Code allows taxpayers a temporary deduction for qualified tips. The maximum annual deduction is $25,000 that phases out for taxpayers with income over $150,000 ($300,000 for joint filers). The design of the federal deduction does not allow the benefit to flow through to the state level.

**Proposal:** This proposal would create a state level subtraction that would reduce New York adjusted gross income by the same amount as the equivalent Federal deduction, up to $25,000.

**Discussion:** This proposal supports the State's goals of addressing affordability for New York taxpayers.

**Revenue:** This proposal would reduce state revenues in SFY 2026-27 by $52 million.

**3. Retain Deductibility of Certain Charitable Contributions**

**Background:** New York itemized deductions currently allow a deduction for contributions made to charitable organizations. The amount of the deduction is computed using the corresponding federal rules in place for the tax year. These federal rules generally require that donations be made to a qualified organization, which includes entities that are tax-exempt under Internal Revenue Code § 501(c)(3).

**Proposal:** This proposal would retain the state deductibility of certain charitable contributions to entities that lose their Internal Revenue Code § 501(c)(3) federal tax-exempt status.

**Discussion:** Federal officials have threatened to revoke the tax-exempt status of certain §501(c)(3) organizations for reasons unrelated to their compliance with the Internal Revenue Code. This threat has put tax-exempt organizations at risk of losing their preferential tax treatment. This bill would preserve the tax-exempt treatment for individual taxpayer donations to entities that continue to operate as charitable organizations that are or would be eligible for exemption from New York State sales tax, even if the Internal Revenue Service revokes their Internal Revenue Code § 501(c)(3) recognition. The organization must establish that the revocation was unrelated to its charitable mission.
**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**4. Extend the Refundability of the Investment Tax Credit for Farmers for Five Years**
**Background:** Taxpayers making qualifying investments in business property, primarily tangible personal property (like equipment) and certain structures used in production, may be eligible for the Investment Tax Credit (ITC). For eligible farmers, the credit rate is twenty percent of the qualified investment in certain farming related property. The ITC was temporarily made refundable for eligible farmers effective for taxable years beginning on or after January 1, 2023, for property placed in service on or after that date. This refundability provision currently applies through tax year 2027.
**Proposal:** This proposal would extend the refundability of the investment tax credit for farmers by five years, through tax year 2032.
**Discussion:** This proposal would maintain existing support for farmers and incentivize additional investment in New York State's agricultural sector by providing increased financial predictability for producers and farmers interested in relocating or expanding in the State.
**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**5. Standardize the Definition of Farmer for Certain Tax Credits**
**Background:** A taxpayer generally qualifies as an eligible farmer for certain credits if two-thirds of the farm's income is derived from farming. The computation of the two-thirds amount varies slightly across the investment tax credit, farmers' school tax credit, farm donation to food pantries credit, farm workforce retention credit, and farm overtime credit. These differences force farmers to determine eligibility for each credit separately, which results in farmers being eligible for some credits, but not others.
**Proposal:** This proposal would make one consistent definition of eligible farmer to be applied uniformly for the farm related tax credits under Articles 9-A and 22. Under this new definition, taxpayers are eligible for farm-related credits if gross income from farming in the current year (or the 3-year average) is at least two-thirds of their federal gross income less $30,000. This definition clarifies that gross income from farming includes payments from the state's farmland protection program, income from a commercial horse boarding operation, and income from the production or sale of maple syrup, Christmas trees, and cider or wine from a licensed New York state farm cidery or winery.
**Discussion:** New York State supports its farmers through a variety of programs, including various tax credits. Current inconsistency in the definition of "eligible farmer" can result in farm businesses qualifying for some benefits but not others. This proposal alleviates this

issue by unifying the definition of eligible farmer across multiple farm-related tax credits, streamlining the credit claim process. Additionally, it would allow the Department to administer these benefits in a more efficient and timely manner.
**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**6. Extend the Commercial Security Tax Credit for Three Years**
**Background**: Taxpayers that are subject to Article 9, 9-A, or 22 and have received a certificate of tax credit issued by the Division of Criminal Justice Services (DCJS) are able to claim a refundable tax credit equal to $3,000 for each retail location of a business entity that has incurred qualified retail theft prevention measure expenses for tax years 2024 and 2025. To be eligible, businesses that have between 26 and 50 total employees statewide must exceed $6,000 in retail theft prevention expenses per location, while businesses with 25 or fewer employees must spend more than $4,000 in retail theft prevention expenses per location.
**Proposal:** This proposal would extend the commercial security tax credit by three years, through tax year 2028.
**Discussion:** This proposal would continue to provide support for businesses investing in needed retail theft prevention measures for an additional three years.
**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**7. Enhance the New York City Musical and Theatrical Production Tax Credit**
**Background**: This credit program was enacted in 2021 to encourage musical and theatrical productions in New York City theaters. Taxpayers that are a qualified New York City musical and theatrical production company and have received a certificate of tax credit issued by Empire State Development (ESD) are eligible to claim a refundable credit equal to 25 percent of qualified production expenditures paid during the credit period under Articles 9-A and 22. A qualified level 1 production can receive a maximum credit of $3 million, while a qualified level 2 production can receive a maximum credit of $350,000. The total amount allocated for the credit is $400 million for the duration of the program and is available for tax years 2021 through 2027.
**Proposal:** This proposal would increase the aggregate credit cap for the New York City musical and theatrical production tax credit by $150 million for productions whose initial performances were on or after December 1, 2025.
**Discussion:** This proposal would expand existing financial incentives for musical and theatrical productions in New York City by increasing the aggregate cap from $400 million to $550 million for eligible productions.
**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**8. Extend Reduced Transfer Tax Rates for Qualifying REITs (Three Year Extension)**
**Background**: Certain real estate investment trusts (REITs) are eligible for reduced rates under the New York State Real Estate Transfer Tax (RETT). These reduced rates are currently set to expire on September 1, 2026.
**Proposal:** This proposal would extend the tax rate reductions for REITs under the New York State RETT until September 1, 2029.

**Discussion:** These provisions have been routinely extended since 1999. The extension of these preferential provisions would maintain and encourage new investments in real estate across the state.
**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**9. Extend the Sales Tax Vending Machine Exemption for Three Years**
**Background**: Candy, soft drinks, bottled water and certain fruit juice purchased from a vending machine that accepts only cash or coins are exempt from sales tax if the items are priced at $1.50 or less. If the vending machine can accept payment in some other form (such as a credit card), then the tax exemption threshold is $2.00 or less per item. These exemptions are set to expire after May 31, 2026.
**Proposal:** The 2026-27 Executive Budget would extend the existing sales tax exemption for certain food and drink purchased from vending machines for three years, through June 1, 2029.
**Discussion:** This proposal would incentivize the industry to continue to transition to cashless machines that are able to collect tax at the time of sale.
**Revenue:** This proposal would reduce state revenues by $8 million in SFY 2026-27.

**10. Establish a Sales Tax Exemption for EV Charging Stations**
**Background:** Electricity sold at EV charging stations is subject to state and local sales tax.
**Proposal:** The 2026-27 Executive Budget would provide a sales and use tax exemption for the retail sale of electricity at a commercial EV charging station. In addition, the purchase of electricity to be sold by a commercial EV charging station would be taxable.
**Discussion:** This proposal would encourage businesses to install and operate these stations by lowering the cost of owning and operating an EV charging station. These incentives will further the state's zero-emissions targets and simplify tax compliance for EV charging station operators.
**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**11. Extend the Residential Energy Storage Exemption for Two Years**
**Background:** Residential energy storage systems equipment and the service of installing these systems are exempt from state and local sales and use taxes. This exemption is set to expire after May 31, 2026.
**Proposal:** The 2026-27 Executive Budget would extend this exemption for two years, through June 1, 2028.
**Discussion:** This proposal would retain an incentive for New York households to purchase and use energy storage systems.
**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**12. Extend Alternative Fuels Exemptions for Five Years**
**Background:** E-85, CNG and hydrogen are fully exempt from the sales tax, motor fuel tax, and petroleum business tax. B20 is partially exempt from these taxes. Under current law, these exemptions are set to expire after August 31, 2026.

**Proposal:** The 2026-27 Executive Budget would extend these exemptions for five years, until September 1, 2031.
**Discussion:** This proposal would continue to encourage the use of alternative fuels and promote the consumption of cleaner energy sources.
**Revenue:** This proposal would have no effect on state revenues in SFY 2026-27.

**Business income:** Business income for Article 9-A taxpayers generally equals entire net income minus other exempt income and investment income.

**Business income base:** The taxable income base for Article 9-A taxpayers. It is computed by subtracting the prior net operating loss conversion subtraction and net operating loss deduction from apportioned business income.

**Compensating use tax**: Tax levied on tangible personal property and services for its consumption, storage, or use in the State of residency upon which sales tax has not been collected.

**Corporate exemption**: The partial or full statutory exemption of certain types of business entities from taxation.

**Credit**: Credits are amounts that are subtracted from tax liability (for example, credits reduce the amount of tax due by the amount of the credit):

**Credit Earned**: The amount of credit generated in the current tax year.

**Credit Claimed**: The amount of credit that taxpayers have available during the taxable year. Taxpayers determine this by adding credit earned in the current year to any unused credit from prior years and subtracting any applicable credit recapture. The claimed amount also reflects the imposition of any statutory limitations.

**Credit Used**: The amount of credit that taxpayers actually apply to their tax liability.

**Credit Carried Forward**: Any unused amount of credit that is allowed to be used to offset tax liability in future years. The amount of credit carried forward is determined by subtracting the amount of credit used or refunded in the current year from the amount of credit claimed.

**Credit Refunded**: Unused credit amounts requested as a refund or applied against the next liability period. These are requested amounts from the tax return, not necessarily amounts actually paid. Refund requests are subject to audit and adjustment by the New York state Tax Department and the Office of the State Comptroller.

**Deduction**: An amount that a taxpayer is allowed to subtract when computing the tax base.

**Deferral**: The legal authorization to delay the obligation to pay tax to a future period (for example, a future tax year).

**Dependent exemptions**: A fixed amount that is subtracted from New York adjusted gross income for an individual's dependents, not including the taxpayer or spouse.

**Entire net income:** Entire net income equals federal taxable income after certain additions and subtractions for items that New York treats differently. The major adjustment in the computation of entire net income for most taxpayers is the exclusion of certain income received from related entities not included in the New York combined group.

**Excise tax**: A fixed, per unit tax imposed on a commodity or commodities (for example, 14 cents per gallon of beer).

**Exclusion/exemption**: The statutory elimination of certain items or transactions from the tax base.

**Federal adjusted gross income (FAGI)**: The amount of federal income earned or received during the income year after certain exclusions and adjustments. Major exclusions from gross income include many government transfer payments, employer-provided pension contributions and fringe benefits, most capital gains from the sale of a primary residence, and a portion of Social Security benefits. Major adjustments to gross income include deductions for individual retirement arrangements, alimony paid, employee moving expenses, and one-half of self-employment tax paid.

**Federal conformity**: The extent to which state Tax Laws adopt or conform to various provisions of federal Tax Law.

**Federal taxable income (FTI)**: The amount of taxable income before certain deductions reported by a corporate taxpayer on its federal tax return. Federal taxable income includes all income received by the taxpayer during the tax year and most deductions from income. It does not include the federal net operating loss deduction or the special federal deductions for dividends received.

**Flow-through provisions**: Provisions (for example, definitions, deductions, exclusions) that are derived from provisions of the federal Tax Law and are applied to or flow-through to State Tax Law.

**Franchise tax**: A tax imposed on business corporations for the privilege of conducting business in New York State.

**Gross receipts tax**: Tax levied on the total receipts (for example, income from sales) of a business.

**Itemized deductions**: Individual deductions that are subtracted from New York adjusted gross income and are applied in lieu of a standard deduction.

**New York adjusted gross income**: The amount of federal adjusted gross income earned or received during the income year after certain modifications and before the subtraction of either the standard deduction or itemized deductions, and dependent exemptions. For example, New York state income tax refunds, included in federal adjusted gross income, are subtracted in determining New York adjusted gross income.

**Personal income tax**: A tax imposed on the income of persons. Examples of income that may be subject to tax include wages, non-wage income (interests, dividends, capital gains), business income, and investment income.

**Premiums tax**: A tax imposed on insurance corporations and levied on the amount of net premiums received.

**Reimbursement**: An amount due to a taxpayer where there was a payment of tax, but no liability.

**Sales tax**: An ad valorem tax levied on sales at retail.

**Service**: The performance of an action or activity for others.

**Standard deduction**: A statutorily fixed amount, determined by filing status, subtracted from New York adjusted gross income.

**Tangible personal property**: Corporeal personal property of any nature.

**Tax expenditure**: Features of the Tax Law that by exemption, exclusion, deduction, allowance, credit, preferential tax rate, deferral, or other statutory device, reduce the amount of taxpayers' liabilities to the State by providing either economic incentives or tax relief to particular classes of persons or entities, to achieve a public purpose.

**Taxable income**: The amount to which the applicable tax rate is applied. Taxable income is gross income (prior to any adjustments) minus modifications, deductions, and exemptions.

**Tax liability**: The amount of tax required to be paid by a taxpayer.

**Transfer tax**: A tax imposed on the transfer of tangible personal property (for example, real property) from one individual or entity to another.

# Introduction

In compliance with the requirements of Section 105-256 of the General Statutes of North Carolina, the Department of Revenue has prepared this report of tax expenditures contained in the Revenue Laws of North Carolina (except Subchapter II) as amended through 2025. The listing of expenditures and measurements of their respective costs will allow legislative review of their impact on the State's economy and on government revenues.

As in past publications, tax expenditures for each State-level tax type are presented in a separate section of this report. At the beginning of each section, some basic information of the tax base and normal State tax rates for relevant fiscal years is presented. Each tax expenditure provision includes a General Statutes citation, a short description of the tax expenditure, and a "Data Source" that notes the source of the data used for the estimate. Also, some of the tax expenditures have a "Note" that details some additional information pertinent to the estimation of that particular tax expenditure. The additional information in this report is to provide context for the estimates and is not intended to represent the official interpretation of the Department of Revenue.

The report includes information on the "enacting legislation" related to each tax expenditure, as available. These notes attempt to provide the session laws that first incorporated each of the tax expenditures into statute. In some cases, additional notes are given referring to prior treatment of a provision or substantive changes that have occurred subsequent to the initial enactment. However, it was not in the scope of this report to provide a comprehensive history of every provision. (Many of the older provisions are only followed back to the major re-codification of the tax laws in S.L. 1939-158.)

Several of the tax expenditure provisions have sunset dates. Notes related to the current sunset dates of each provision, when applicable, are included in the report. This report includes any tax expenditures that have a current sunset date after December 2025.

Estimates of the cost of tax expenditures are provided for Fiscal Year 2025-26 and Fiscal Year 2026-27.

## Defining Tax Expenditures for this Study

A tax expenditure is defined as an exemption, exclusion, deduction, allowance, credit, refund, preferential tax rate or other device that reduces the amount of tax revenue which otherwise would be collected.

Tax expenditures are created to give economic assistance to certain groups of producers or consumers in the economy or to promote other policy goals. This report does not purport to evaluate the various expenditures as to equity or desirability from a public policy standpoint.

Some tax expenditures are necessary. For instance, Constitutional restrictions forbid taxing the federal government's purchases, as well as certain transactions involving interstate trade and commerce on Indian Reservations. Also, there are specific exemptions or exclusions that are made in order to avoid duplicate taxation of an activity. For example, S-corporations are not taxed on profits that are transferred to shareholders, who subsequently pay income taxes on these dividends. Also, some exemptions and exclusions that are deemed necessary to define the appropriate tax base are not listed in the main body of this report. These types of tax expenditures are listed in Appendix B. No cost estimates are provided for these.

The sales tax presents the most ambiguous cases of when exemptions should be included as tax expenditures for this report. The sales tax is generally considered to be a tax on "final" purchases. Transactions involving the purchase of intermediate goods that will be further processed into a final good are properly exempted from the sales tax. It is arguable whether purchases of machinery, fuel or similar inputs used in production of final goods should be taxed. Since there is no consensus on this point, we include estimates of tax exemptions on inputs that are not directly transformed in the production process. Sales tax exemptions that are excluded from estimation are included in Appendix B.

The term "preferential tax rate" has been interpreted to mean any rate that is less than the basic rate that applies to the largest number of taxpayers. In some instances, higher rates are used on a relatively small number of taxpayers. In such cases, the lower general rates are not listed as preferential. Also, no preferential status is acknowledged when distinctly different bases are taxed at different rates under the same tax category. For example, under the alcoholic beverage taxes, different rates and bases are used to tax beer, wine, and spirituous liquor.

## Measuring the Fiscal Effects of Tax Expenditures

It should be noted at the outset of this report that the fiscal effects of tax expenditures are sometimes difficult to quantify. Several methods for estimating the costs of expenditures are used.

The most accurate source of information comes from actual tax returns that provide direct evidence of when certain expenditures are taken and the amounts of those expenditures. For example, we are able to use personal income tax and corporate income tax returns from 2021 and earlier years to measure the use of certain tax deductions and tax credits.

Sometimes, needed data are more timely and extensive at the national level than at the state level. When this occurs, the state-level data are estimated by determining North Carolina's share of national activity. In these cases, several assumptions must be made to derive the final estimates. Therefore, these estimates are less reliable than those that can be measured directly.

For most national economic data, the share of North Carolina's activities will consistently be in the range of 2.9% to 3.2%, which corresponds to North Carolina's share of gross domestic product (GDP) and population, respectively. Therefore, national statistics are often multiplied by one of these percentages to estimate North Carolina's value. However, when it is apparent that North Carolina's data are not typical of national activity, such as textile or pharmaceutical manufacturing, attempts are made to use more representative proportions.

In some cases, sufficient data were not available to allow estimation of the value of an expenditure. In these cases, the expenditure estimate is designated as "unavailable."

**Table 1. Summary of tax expenditure estimates for FY2025-26 by tax type**

| Tax Type | Number of Tax Expenditures | Sum of Estimates of $100,000 and Over ($Millions) | Number of Estimates Less than $100,000 | Number with Unavailable Estimates |
|---|---|---|---|---|
| Privilege Tax | 0 | 0.0 | 0 | 0 |
| Tobacco Products Tax | 7 | 14.0 | 2 | 0 |
| Alcoholic Beverage Tax | 6 | 3.1 | 4 | 1 |
| Franchise Tax | 17 | 549.6 | 2 | 2 |
| Corporation Income Tax | 34 | 242.9 | 7 | 15 |
| Various Tax Incentives (Articles 3B through 3L) | 7 | 39.5 | 0 | 0 |
| Individual Income Tax [see Note 1] | 22 | 1,973.2 | 5 | 1 |
| Sales and Use Tax | 179 | 7,048.8 | 8 | 64 |
| Highway Use Tax | 16 | 245.2 | 0 | 11 |
| Scrap Tire Disposal Tax | 2 | 1.0 | 0 | 1 |
| White Goods Disposal Tax | 1 | 0.0 | 1 | 0 |
| Severance Tax | 2 | 0.0 | 2 | 0 |
| Transportation Commerce Tax | 2 | 0.0 | 2 | 0 |
| Taxes on Insurance Companies | 9 | 317.5 | 0 | 3 |
| Excise Stamp Tax on Conveyances | 8 | 0 | 0 | 8 |
| Excise Taxes on Motor Fuels | 20 | 69.6 | 5 | 3 |
| Totals | 332 | 10,504.4 [see Note 2] | 38 | 109 |

Table 1 Notes

1 This summary does not include the “Government retirement income under Bailey decision” provision.

2 The sum of the estimates is provided for comparative purposes only. It should not be interpreted as the total gain to state revenue from eliminating all tax expenditures listed in this report. The total impact may be larger or smaller than this amount, depending on the interactions of the various tax expenditures.

3 The fiscal year 2025-26 Federal income tax expenditures that flow through to North Carolina income taxes are estimated in Appendix A. They are not included in the above table or in Table 2.

**Table 2. Forty-five largest estimated tax expenditures in FY2025-26**

| Rank | Tax Type | Item No. | Short Description | FY25-26 estimate ($Millions) |
|---|---|---|---|---|
| 1 | Sales and Use Tax | 148 | Food for Home Consumption | 1,460.0 |
| 2 | Sales and Use Tax | 60 | Prescription Drugs and Insulin for Human Use | 973.8 |
| 3 | Sales and Use Tax | 78 | Motor Vehicle Exemption Less Highway Use Tax | 926.9 |
| 4 | Individual Income Tax | 11 | Social Security Benefits in Excess of Federal Limit | 723.0 |
| 5 | Individual Income Tax | 3 | Standard Deduction in Excess of Base Amounts | 608.9 |
| 6 | Sales and Use Tax | 169 | Refunds to Nonprofits | 347.6 |
| 7 | Sales and Use Tax | 38 | Mill Machinery | 289.5 |
| 8 | Individual Income Tax | 12 | Government Retirement Income under Bailey Decision | 264.7 |
| 9 | Taxes on Insurance Premiums | 5 | Premiums Received from Annuities | 251.5 |
| 10 | Sales and Use Tax | 155 | Feeds, Litter and Medications for Farming | 245.1 |
| 11 | Franchise Tax | 14 | Deduction from Net Worth for Depreciation, Depletion and Amortization | 215.1 |
| 12 | Highway Use Tax | 3 | Trade-In Allowance on Sales of Motor Vehicles | 195.1 |
| 13 | Sales and Use Tax | 115 | Service Contracts or RMI Services on Exempt Items | 188.3 |
| 14 | Individual Income Tax | 4 | Charitable Contributions Itemized Deduction | 176.0 |
| 15 | Sales and Use Tax | 171 | Refunds to Certain Local Government Entities | 174.9 |
| 16 | Franchise Tax | 17 | Cap for Holding Companies | 166.7 |

| Rank | Tax Type | Item No. | Short Description | FY25-26 estimate ($Millions) |
|---|---|---|---|---|
| 17 | Sales and Use Tax | 9 | Landscaping | 142.3 |
| 18 | Corporation Income Tax | 14 | State Net Loss Carryforward | 141.1 |
| 19 | Sales and Use Tax | 59 | Durable Medical Equipment | 129.3 |
| 20 | Sales and Use Tax | 15 | Right to Participate in Sporting Activities | 127.4 |
| 21 | Sales and Use Tax | 86 | Custom Computer Software | 123.6 |
| 22 | Sales and Use Tax | 108 | Electricity Used by Manufacturers | 108.7 |
| 23 | Sales and Use Tax | 110 | Piped Natural Gas Used by Manufacturers (Power Plants) | 104.2 |
| 24 | Sales and Use Tax | 5 | Replacement or Installation of Building-Related System | 99.1 |
| 25 | Sales and Use Tax | 98 | Water Delivered Through Main Pipes | 98.5 |
| 26 | Individual Income Tax | 8 | Child Deduction | 96.1 |
| 27 | Sales and Use Tax | 69 | Packaging Items for Manufacturers | 93.3 |
| 28 | Sales and Use Tax | 35 | Telecommunications Equipment | 92.6 |
| 29 | Sales and Use Tax | 118 | Services Related to Cleaning of Real Property | 89.7 |
| 30 | Franchise Tax | 5 | Charitable Nonprofits | 87.4 |
| 31 | Corporation Income Tax | 21 | Accelerated Depreciation Adjustment | 84.5 |
| 32 | Sales and Use Tax | 12 | Installation by Real Property Contractor | 81.2 |
| 33 | Sales and Use Tax | 6 | Replacement or Installation of HVAC Systems | 79.1 |

| Rank | Tax Type | Item No. | Short Description | FY25-26 estimate ($Millions) |
|---|---|---|---|---|
| 34 | Individual Income Tax | 14 | Accelerated Depreciation Adjustment | 75.1 |
| 35 | Sales and Use Tax | 157 | Fowl Sold to a Farmer | 67.9 |
| 36 | Sales and Use Tax | 120 | Removal of Waste and Debris | 65.5 |
| 37 | Individual Income Tax | 20 | Net Operating Loss Carryforward | 63.8 |
| 38 | Sales and Use Tax | 7 | Replacement or Installation of Pavement, Patios & Decks | 61.4 |
| 39 | Individual Income Tax | 7 | Medical and Dental Expenses Itemized Deduction | 60.8 |
| 40 | Sales and Use Tax | 151 | Fertilizers, Seeds and Related Items Sold to a Farmer | 59.1 |
| 41 | Individual Income Tax | 13 | Uniformed Services Pension Income | 55.8 |
| 42 | Sales and Use Tax | 109 | Piped Natural Gas Used by Manufacturers (except Power Plants) | 44.9 |
| 43 | Sales and Use Tax | 4 | Painting and Wallpapering | 43.6 |
| 44 | Individual Income Tax | 5 | Qualified Mortgage Interest Itemized Deduction | 43.5 |
| 45 | Sales and Use Tax | 29 | Certain Services Provided Under a Property Management Contract | 39.9 |

# Updates to the Tax Expenditure Report Since 2023

This section highlights changes to tax expenditures since the last publication of this report in 2023. These changes are listed in the following categories:

1. tax expenditures that have been substantively altered
2. extended sunset dates and reactivated tax expenditures
3. new tax expenditures enacted
4. tax expenditures that have expired or have been repealed

In several of the entries below, a brief description of the changes to the tax expenditure is provided. For a more complete description, see the annual "Tax Law Changes" publication located on the North Carolina Department of Revenue website.

## Tax Expenditures That Have Been Substantively Altered

[There are no entries for this section]

## Extended Sunset Dates and Reactivated Tax Expenditures

1. Reactivation of certain real property donation tax credit

   Tax Category: Corporate Income Tax; Individual Income Tax

   Citation: G.S. 105-130.34; G.S. 105-153.11

   Enacting legislation: S.L. 2024-1

   Effective Date: Effective for taxable years beginning on or after Jan. 1, 2025 for donations made on or after Jan. 1, 2025. Expires for taxable years beginning on or after Jan. 1, 2027.

## New Tax Expenditure Provisions

2. Luxury liquor exemption

   Tax Category: Alcoholic Beverage Tax

   Citation: G.S. 105-113.81(f)

   Enacting legislation: S.L. 2024-41

   Effective Date: Effective for sales on or after Jan. 1, 2025

3. Use tax cap of $1,000 on luxury liquor

   Tax Category: Sales & Use Tax

   Citation: G.S. 105-164.27A(a4)

   Enacting legislation: S.L. 2024-41

   Effective Date: Effective for sales on or after Jan. 1, 2025

4. Public transportation use exemption from for-hire ground transport excise tax

   Tax Category: Transportation Commerce Tax

   Citation: G.S. 105-187.94(2)

   Enacting legislation: S.L. 2024-1, sec. 11.1(a)

   Effective Date: Effective July 1, 2025 and applies to for-hire ground transport services occurring on or after that date.

## Expired or Repealed Tax Expenditure Provisions

5. Exemption from professional license tax for professionals at least 75 years old

   Tax Category: Privilege Tax

   Citation: G.S. 105-41(b)(1)

   Effective Date: The professional license tax was repealed effective for taxable years beginning on or after July 1, 2024 by S.L. 2023-134, sec. 42.7.(a).

6. Exemption from professional license tax for individuals practicing the art of healing

   Tax Category: Privilege Tax

   Citation: G.S. 105-41(b)(2)

   Effective Date: Effective Date: The professional license tax was repealed effective for taxable years beginning on or after July 1, 2024.

7. Exemption from professional license tax for blind individuals

   Tax Category: Privilege Tax

   Citation: G.S. 105-41(b)(3)

   Effective Date: Effective Date: The professional license tax was repealed effective for taxable years beginning on or after July 1, 2024.

# Privilege Taxes (Article 2)

## Tax Base Information

Privilege taxes are imposed for the privilege of carrying on business or doing a remunerative act within the State. Privilege taxes on corporations are discussed under the "franchise tax" article.

Privilege tax bases are as follows:

- a tax of 0.277% of the face value of installment paper and related notes by installment paper dealers (these entities are distinct from banks).
- a tax of $250 per location at which business is conducted by loan agencies, including check cashing businesses and pawn brokers.

The privilege tax on professionals was repealed effective the taxable years beginning on or after July 1, 2024 (S.L. 2023-134)

A privilege tax on banks was repealed effective June 30, 2016, and a tax on publishers of newsprint publications was repealed effective Oct. 22, 2015.

During Fiscal Year 2024-25, approximately $39.4 million was collected from this tax, net of refunds.

**There are no tax expenditures for this tax type.**

# Tobacco Products Tax (Article 2A)

## Tax Base Information

A cigarette tax is levied on the sale or possession for sale in this State, by a distributor, of all cigarettes. Other tobacco products are taxed when a wholesale dealer or retail dealer first acquires or otherwise handles the products subject to the tax. Effective July 1, 2022, remote sellers of tobacco products are liable for the tax.

As of Sept. 1, 2009, the tax rate on a 20-pack of cigarettes is 45¢ and the tax rate on other tobacco products is 12.8% of the cost price.

A tax on vapor products at a rate of 5¢ per fluid milliliter of consumable product became effective June 1, 2015.

Effective July 1, 2025, there is a tax on certain alternative nicotine products. Also, the tax on snuff changed to a rate of 40¢ per ounce.

During Fiscal Year 2024-25, approximately $249.0 million was collected from this tax, net of refunds.

## Tax Expenditures

**1. Reduced Tax Rate for Modified Risk Tobacco Products**

**Citation:** G.S. 105-113.4E(b)

**Description:** The tax rate is reduced by 50% for a modified risk tobacco product issued a risk modification order by the United States Food and Drug Administration; the tax rate is reduced by 25% for a modified risk tobacco product issued an exposure modification order.

**Enacting Legislation:** S.L. 2018-5 - effective June 12, 2018

**FY25-26 Estimate (in $millions):** 5.3

**FY26-27 Estimate (in $millions):** 5.3

**Data Source:** Department of Revenue tax data

**2. Discount for Timely Reports -- Cigarettes**

**Citation:** G.S. 105-113.21(a1)

**Description:** A distributor who files a timely report and sends a timely payment may deduct from the amount due a discount of 2%. The current statute states that "(t)his

discount covers expenses incurred in preparing the records and reports required by this Part, and the expense of furnishing a bond."

**Enacting Legislation:** S.L. 2004-84 - effective for reporting periods beginning on or after August 1, 2004; there was a 4% discount prior to August 1, 2003 (S.L. 1969-1075).

**FY25-26 Estimate (in $millions):** 3.7

**FY26-27 Estimate (in $millions):** 3.7

**Data Source:** Department of Revenue tax data

**3. Refund for Unsalable Cigarettes**

**Citation:** G.S. 105-113.21(b)

**Description:** Refund for unsalable cigarettes upon which the tax has been paid.

**Enacting Legislation:** S.L. 1993-442

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Department of Revenue tax data

**4. Capped Amount of Tax on Cigars**

**Citation:** G.S. 105-113.36A(a)(2)

**Description:** Cigars are taxed as "other tobacco products," which are taxed at 12.8% of cost price. However, the tax on cigars is capped at 30¢ per cigar.

**Enacting Legislation:** SL 2021-180 -- sales or purchases occurring on or after July 1, 2022

**FY25-26 Estimate (in $millions):** 3.7

**FY26-27 Estimate (in $millions):** 3.8

**Data Source:** Department of Revenue tax data

**5. Sample Tobacco Products**

**Citation:** G.S. 105-113.36A(d)(3) [formerly G.S. 105-113.35(a2)(3)]

**Description:** The tax does not apply to a sample tobacco product distributed without charge.

**Enacting Legislation:** S.L. 1991-689 – effective Jan. 1, 1992 (this act created the tax on other tobacco products)

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**6. Discount for Timely Reports -- Other Tobacco Products**

**Citation:** G.S. 105-113.37C(a) [formerly G.S. 105-113.39(a)]

**Description:** A wholesale dealer or retail dealer who files a timely report and sends a timely payment may deduct from the amount due a discount of 2%. This discount does not apply to taxes paid on vapor products.

**Enacting Legislation:** S.L. 2004-84 - effective for reporting periods beginning on or after August 1, 2004; there was a 4% discount prior to August 1, 2003.

**FY25-26 Estimate (in $millions):** 1.2

**FY26-27 Estimate (in $millions):** 1.2

**Data Source:** Department of Revenue tax data

**7. Refund for Unsalable Tobacco Products**

**Citation:** G.S. 105-113.37C(b) [formerly G.S. 105-113.39(b)]

**Description:** A wholesale dealer or retail dealer in possession of stale or otherwise unsalable tobacco products upon which the tax has been paid may return the tobacco products to the manufacturer and apply to the Secretary for refund of the tax.

**Enacting Legislation:** S.L. 2005-406 - effective Sept. 1, 2005

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Department of Revenue tax data

# Alcoholic Beverage License and Excise Taxes (Article 2C)

## Tax Base Information

Excise taxes are levied on beer and wine based on volume; excise taxes are levied on liquor sold by ABC stores and distillery permittees based on price. These excise taxes are in addition to sales & use tax, as well as other charges on sales of liquor.

As of Sept. 1, 2009, the tax on beer is 61.71¢ per gallon; the tax on unfortified wine is 26.34¢ per liter; the tax on fortified wine is 29.34¢ per liter; the tax on liquor is 30% of the sum of the distiller's price, the State ABC warehouse freight and bailment charges, and a markup for local ABC boards.

Effective September 1, 2015, the spirituous liquor excise tax includes sales of antique spirituous liquor.

Effective October 1, 2021, ABC stores may accept online orders for alcoholic beverages. (SL 2021-150)

During Fiscal Year 2024-25, $589.5 million was collected from this tax, net of refunds. Of this amount, $39.8 million was distributed to local governments.

## Tax Expenditures

**1. Beer and Wine Destroyed by a Major Disaster**

**Citation:** G.S. 105- 113.81(a)

**Description:** Excise taxes are not required to be paid on malt beverages or wine rendered unsalable by a major disaster.

**Enacting Legislation:** S.L. 1967-759 - effective Jan. 1, 1968; this provision was enacted as G.S. 18-81(i)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**2. Beer and Wine for Oceangoing Vessels**

**Citation:** G.S. 105- 113.81(b)

**Description:** Excise taxes are not required to be paid on malt beverages or wine sold and delivered for use on oceangoing vessels. Sales made to officers, agents, crewmen, or passengers for their personal use are not exempt.

**Enacting Legislation:** S.L. 1963-992

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**3. Brewery, Winery and Distillery Tastings**

**Citation:** G.S. 105- 113.81(e)

**Description:** Resident breweries, wineries and distilleries are not required to remit excise taxes on alcoholic beverages given free of charge to customers, visitors, and employees on the manufacturer's licensed premises for consumption on those premises.

**Enacting Legislation:** S.L. 1985-114 - effective April 23, 1985; distilleries added by S.L. 2015-98, effective June 19, 2015.

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**4. Luxury Liquor Exemption**

**Citation:** G.S. 105- 113.81(f)

**Description:** A distillery is not required to remit excise taxes on spirituous liquor for which the purchase price for a single container is equal to or greater than $50,000. Purchaser must pay use tax in accordance with G.S. 105-164.27(a4).

**Enacting Legislation:** S.L. 2024-41 - effective for sales on or after Jan. 1, 2025

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**5. Discount for Timely Reports**

**Citation:** G.S. 105-113.85

**Description:** A wholesaler or importer who files a timely report and sends a timely payment may deduct from the amount due a discount of 2%. The current statute states that "(t)his discount covers losses due to spoilage and breakage, expenses incurred in preparing the records and reports required by this Article, and the expense of furnishing a bond."

**Enacting Legislation:** S.L. 2004-84 - effective for reporting periods beginning on or after August 1, 2004; there was a 4% discount prior to August 1, 2003 (S.L. 1969-1239)

**FY25-26 Estimate (in $millions):** 3.1

**FY26-27 Estimate (in $millions):** 3.0

**Data Source:** Department of Revenue tax data

**6. Sacramental Wine**

**Citation:** G.S. 105-113.87(a)

**Description:** Refund for wine used for sacramental purposes.

**Enacting Legislation:** S.L. 1945-708 - this provision was enacted as G.S. 18-88.1

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Department of Revenue tax data

# Franchise Tax (Article 3)

## Brief Description and Tax Base Information

The general business franchise tax is a privilege tax on corporations operating in North Carolina. Effective for tax periods beginning on or after Jan. 1, 2018, this includes partnerships that elect to be treated as a corporation for income tax purposes.

For taxable years beginning on or after Jan. 1, 2023, the tax is $1.50 for every $1,000 of the total amount of net worth (apportioned to N.C. for multistate corporations)

For corporations doing business both in and outside North Carolina, the share of net worth apportioned to North Carolina is calculated by the same method used for the corporation income tax. For taxable periods beginning on or after Jan. 1, 2019, this is based on sales-only apportionment.

Effective for taxable years beginning on or after Jan. 1, 2017, the minimum franchise tax is $200. For tax periods prior to this, the minimum franchise tax is $35.

Effective for taxable years beginning on or after Jan. 1, 2019, the tax rate on S corporations is $200 on the first $1 million of the corporation's tax base and $1.50 for every $1,000 of the tax base in excess of $1 million.

Effective for taxable years beginning on or after Jan. 1, 2025, the tax rate on C corporations is $500 on the first $1 million of the corporation's tax base and $1.50 for every $1,000 of the tax base in excess of $1 million.

Effective April 1, 2017, for taxes due on or after that date, the tax on mutual burial associations under this article is repealed.

In Fiscal Year 2024-25, North Carolina collected approximately $783.1 million in business franchise taxes, net of refunds. General Fund collections were approximately $775.0 million in Fiscal Year 2024-25 after several transfers to other funds.

## Exemptions

**1. Critical Infrastructure Disaster Relief Operations**

**Citation:** G.S. 105-114(d)

**Description:** A nonresident business that solely performs disaster-related work in this State during a disaster response period at the request of a critical infrastructure company is not considered to be doing business in this State for purposes of this Article.

**Enacting Legislation:** S.L. 2019-187 - Applies to disaster declarations on or after Aug. 1, 2019

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**2. Low Asset Noncorporate Affiliate**

**Citation:** G.S. 105-114.1(f)

**Description:** A corporation does not have to add the value of a noncorporate LLC for which it owns more than 50% of the capital interests if the total book value of the entity never exceeded $150,000 during the tax year.

**Enacting Legislation:** S.L. 2006-66 - effective for tax years beginning on or after Jan. 1, 2007

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Note:** The corporation parent must include the company's assets in its net worth base.

**3. Reduced C Corporation Tax on First $1 Million of Tax Base**

**Citation:** G.S. 105-120.2 & G.S. 105-122(d2)

**Description:** For a C corporation, the maximum tax on the first $1 million of the corporation's tax base is $500.

**Enacting Legislation:** S. L. 2023-134 - effective for taxable years beginning on or after Jan. 1, 2025.

**FY25-26 Estimate (in $millions):** 21.2

**FY26-27 Estimate (in $millions):** 22.0

**Data Source:** Department of Revenue tax data

**4. Reduced S Corporation Tax on First $1 Million of Tax Base**

**Citation:** G.S. 105-122(d2)

**Description:** For an S corporation, the tax rate is $200 for the first $1 million of the corporation's tax base instead of $1.50 per $1,000 of its tax base.

**Enacting Legislation:** S. L. 2017-57 - effective for taxable years beginning on or after Jan. 1, 2019

**FY25-26 Estimate (in $millions):** 26.8

**FY26-27 Estimate (in $millions):** 27.9

**Data Source:** Department of Revenue tax data

**5. Charitable Nonprofits**

**Citation:** G.S. 105-125(a)(1)

**Description:** Charitable, religious, fraternal, benevolent, scientific or educational nonprofit.

**Enacting Legislation:** S.L. 1939-158

**FY25-26 Estimate (in $millions):** 87.4

**FY26-27 Estimate (in $millions):** 90.9

**Data Source:** Based on IRS data compiled by the National Center for Charitable Statistics (NCCS) and IRS Form 990 summary data from IRS Statistics of Income Program

**6. Local Mutual Nonprofits**

**Citation:** G.S. 105-125(a)(3)

**Description:** Mutual ditch or irrigation association, mutual or cooperative telephone association, mutual canning association, cooperative breeding association or similar corporation of a purely local character deriving receipts solely from assessments, dues, or fees collected from members for the sole purpose of meeting expenses.

**Enacting Legislation:** S.L. 1955-1313

**FY26-27 Estimate (in $millions):** Unavailable

## Tax Credits

### 16. Tax Credit for LLCs Subject to Franchise Tax

**Citation:** G.S. 105-122.1

**Description:** Limited liability companies that are subject to the franchise tax are allowed a credit for the difference between the annual reporting fee for LLCs ($200) and the annual reporting fee for other corporations ($18 for electronic copy, $25 for paper copy). The amount of the credit cannot exceed the LLC's franchise tax liability for the year.

**Enacting Legislation:** S.L. 2006-66 – effective Jan. 1, 2007 (tax year 2006 returns). Prior to this, all LLCs were exempt from the franchise tax, but paid the higher reporting fee.

**FY25-26 Estimate (in $millions):** 3.4

**FY26-27 Estimate (in $millions):** 3.5

**Data Source:** Department of Revenue tax data

## Caps

### 17. Cap for Holding Companies

**Citation:** G.S. 105-120.2(b)(1)

**Description:** Maximum tax of $150,000 for holding companies. A holding company is any corporation which receives during its taxable year more than 80% of its gross income from corporations in which it owns directly or indirectly more than 50% of the outstanding voting stock.

**Enacting Legislation:** S.L. 1975-130 - effective Jan. 1, 1976; S.L. 2015-241 increased the maximum from $75,000, effective for taxes due on or after Jan. 1, 2017.

**FY25-26 Estimate (in $millions):** 166.7

**FY26-27 Estimate (in $millions):** 170.0

**Data Source:** Department of Revenue tax data

**Note:** Approximately 70 companies were subject to this cap in tax year 2024.

# Corporation Income Tax (Article 4, Part 1)

## Brief Description and Tax Base Information

The corporation income tax is a tax on the net income of every domestic C corporation and of every foreign C corporation doing business in North Carolina.

Exclusions and exemptions under federal law are generally passed through to North Carolina in order to determine taxable income. There are, however, a number of additions to federal taxable income; significant among these additions are (1) taxes paid on net income, (2) interest from obligations of other states and their political subdivisions, (3) net operating loss carryforwards, (4) domestic production activities deduction, (5) expenses related to non-taxed income, and (6) royalty payments paid to related entities.

A dividends-received deduction is considered necessary for determining the corporate income tax base, as it avoids multiple layers of taxation on dividends that are passed between related corporate entities. Expenses related to the exempt dividends must be added to North Carolina taxable income.

For certain nonprofit organizations, such as charities, exemption from the corporate income tax is not considered a tax expenditure because promoting public welfare is central to their operations, and these entities are still taxed on their unrelated business activities. Also, certain nonprofit cooperative business organizations, such as trade associations, are excluded because their profits are distributed to members. These exemptions from the tax base are similar to those used by the Joint Committee on Taxation in preparing their list of federal tax expenditures.

Corporation income tax rate: For taxable years beginning in 2019 through 2024, the tax rate is 2.5%. The tax rate in 2025 is 2.25%, and the rate is 2.0% for 2026 and 2027.

For multi-state corporations, apportionable income is apportioned to North Carolina using a sales-only formula for most corporations. This is effective for tax years beginning on or after Jan. 1, 2018. Prior to this, a three-factor formula with a greater weight on the sales factor was used. [In previous editions of this report, we included the deviation from the three-factor formula to be a tax expenditure, but that has been removed for this edition since the sales-only apportionment has become more standard across states.]

Corporations using an alternative apportionment calculation include air & water transportation, pipeline companies, railroads, motor carriers and electric power companies.

For tax years beginning on or after Jan. 1, 2020, the sales factor is calculated by most corporations using market-based sourcing rather than cost-of-performance rules. There are special provisions for banks and wholesale content distributors, such as television networks, cable program networks and television program distributors.

G.S. 105-130.5(a)(10) requires corporations to add the amount of most credits taken to their taxable income. The estimates of tax credits in this section were adjusted for this provision.

In Fiscal Year 2024-25, North Carolina collected approximately $1.6 billion in corporate income taxes, net of refunds.

## Exemptions

### 1. Critical Infrastructure Disaster Relief Operations

**Citation:** G.S. 105-130.1(b)

**Description:** A nonresident business that solely performs disaster-related work in this State during a disaster response period at the request of a critical infrastructure company is not considered to be doing business in this State for purposes of this Article.

**Enacting Legislation:** S.L. 2019-187 - Applies to disaster declarations on or after Aug. 1, 2019

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** S.L. 2019-187 also includes a new addition, G.S. 105-130.5(a)(30), for taxable corporations to add back to taxable income any payments to an affiliate or subsidiary that is not taxed due to this provision.

### 2. Air Transportation Company Apportionment

**Citation:** G.S. 105-130.4(s)

**Description:** A qualified air freight forwarder may use the revenue ton miles of an affiliated air carrier for purposes of apportioning its income to North Carolina.

**Enacting Legislation:** S. L. 2016-5 - effective for tax years beginning on or after Jan. 1, 2016

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

### 3. State Net Loss Apportionment Election

**Citation:** G.S. 105-130.4(t3)

**Description:** A taxpayer with a State net loss balance as of the end of its 2019 tax year may elect to apportion receipts from services based on the percentage of its income-producing activities performed in this State. The election is binding and irrevocable until the existing State net loss balance is fully utilized or has expired.

**Enacting Legislation:** S. L. 2019-246 - effective for tax years beginning on or after Jan. 1, 2020

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**4. Fraternal Beneficiary Societies**

**Citation:** G.S. 105-130.11(a)(1)

**Description:** Exemption for fraternal beneficiary societies, orders or associations (a) operating under the lodge system or providing benefits to members of a lodge system and (b) providing for the payment of life, sick, accident, or other benefits of the organization or their dependents.

**Enacting Legislation:** S.L. 1939-158

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**FY25-26 Estimate (in $millions):** 0.0

**FY26-27 Estimate (in $millions):** 0.0

**Data Source:** IRS Statistics of Income; Department of Revenue tax data

**Note:** The estimate is the amount of income tax that is estimated to be collected in excess of the amount of collections under the insurance gross premiums tax.

**9. Homeowners' Associations**

**Citation:** G.S. 105-130.11(a)(11)

**Description:** Exemption for nonprofit condominium associations, homeowners' associations, or cooperative housing corporation, although they are subject to tax on any unrelated business income.

**Enacting Legislation:** S.L. 1975-591 - effective for taxable years beginning on or after Jan. 1, 1975

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** National Center for Charitable Statistics; "Charities and Other Tax-Exempt Organizations, 2010," Statistics of Income, IRS

### 10. Nonprofit Unrelated Business Income from Research Activities

**Citation:** G.S. 105-130.11(b)(1)-(3)

**Description:** Entities that are exempt in G.S. 105-130.11(a) are taxable on their unrelated business income, except if their net income is derived from certain research activities.

**Enacting Legislation:** S.L. 1963-1169 - effective for taxable years beginning on or after Jan. 1, 1963

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

## Deductions

### 11. N.C. & Nonprofit Educational Institution Obligation Interest

**Citation:** G.S. 105-130.5(b)(1a)

**Description:** Deductions for interest on the obligations of this State, a political subdivision of this State, or a commission, an authority, or another agency of this State or of a political subdivision of this State, or a nonprofit educational institution.

**Enacting Legislation:** S.L. 1997-439 - effective for taxable years beginning on or after January 1, 1997. However, this was not a substantive change since interest has been exempt from income taxation under other long-standing statutes, e.g. G.S. 142.12.

**FY25-26 Estimate (in $millions):** 1.5

**FY26-27 Estimate (in $millions):** 1.4

**Data Source:** IRS Statistics of Income; Department of Revenue tax data

### 12. Dividends from Foreign Sources

**Citation:** G.S. 105-130.5(b)(3a)

**Description:** Deduction for dividends treated as received from sources outside the United States as determined under Section 862 of the Code, net of related expenses, to the extent included in federal taxable income.

**Enacting Legislation:** S.L. 2001-327

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**13. Various Provisions Related to Foreign Earnings**

**Citation:** G.S. 105-130.5(b)(3b)

**Description:** Deduction for any amount included in federal taxable income under section 78, 951, 951A or 965 of the Code, net of related expenses.

**Enacting Legislation:** S.L. 2001-327

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** Decouples from the adjustment for global intangible low-taxed income (GILTI) under IRC § 951A and treatment of deferred foreign income under IRC § 965 that were included in federal legislation effective for tax year beginning on or after Jan. 1, 2018.

**14. State Net Loss Carryforward**

**Citation:** G.S. 105-130.5(b)(4)&(4a)

**Description:** Deduction for net economic losses in any or all of the 15 preceding income years, pursuant to the provisions of G.S. 105-130.8A. For new losses in taxable years starting on or after Jan. 1, 2015, the net economic loss is redefined as State net loss and becomes a static amount. Any unused portion of a State net loss carried forward will not have to be first offset by nontaxable income in the future tax year.

**Enacting Legislation:** S.L. 1939-158; S.L. 2014-3 revised this be applicable to State net loss

**FY25-26 Estimate (in $millions):** 141.1

**FY26-27 Estimate (in $millions):** 138.0

**Data Source:** Department of Revenue tax data

**15. Net Capital Losses Not Deductible from Federal Taxable Income**

**Citation:** G.S. 105-130.5(b)(8)

**Description:** Deduction for the amount of losses realized on the sale or disposition of assets not allowed under section 1211(a) of the Code. (For federal taxes, certain capital losses can only be used to offset capital gains; however, they can be carried back 3 years and forward 5 years.)

**Enacting Legislation:** S.L. 1939-158

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**16. Shareholders of a Regulated Investment Company**

**Citation:** G.S. 105-130.5(b)(9)

**Description:** Deduction of the portion of undistributed capital gains of a regulated investment company for which a shareholder in the company takes a federal credit or deduction under Section 852 of the Code.

**Enacting Legislation:** S.L. 1971-820 - effective for taxable years beginning on or after Jan. 1, 1971

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**17. Basis Adjustment for Federal Tax Credit**

**Citation:** G.S. 105-130.5(b)(14)

**Description:** Deduction for the amount that the basis of a depreciable asset is reduced due to a Federal tax credit or because of a grant allowed under section 1603 of the American Recovery and Reinvestment Tax Act of 2009.

**Enacting Legislation:** S.L. 1983-61 - effective for taxable years beginning on or after Jan. 1, 1983

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**18. Natural Gas Expansion Surcharges**

**Citation:** G.S. 105-130.5(b)(16)

**Description:** Deduction for the amount of natural gas expansion surcharges collected by a natural gas local distribution company.

**Enacting Legislation:** S.L. 1991-598 - effective July 8, 1991

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** North Carolina Utilities Commission; Department of Revenue tax data

**19. 911 Charges**

**Citation:** G.S. 105-130.5(b)(17)

**Description:** To the extent included in federal taxable income, 911 charges imposed under G.S. 62A-43 and remitted to the 911 Fund under that section.

**Enacting Legislation:** S.L. 1998-158, as amended by S.L. 1999-337 - effective Sept. 25, 1998

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Department of Revenue tax data

**20. Dividends from Captive REIT**

**Citation:** G.S. 105-130.5(b)(23)

**Description:** Deduction for a dividend received from a captive REIT, as defined in G.S. 105-130.12.

**Enacting Legislation:** S.L. 2007-323 - effective for taxable years beginning on or after Jan. 1, 2007

**FY25-26 Estimate (in $millions):** no net negative impact; see note

**FY26-27 Estimate (in $millions):** no net negative impact; see note

**Note:** This deduction is offset by G.S. 105-130.5(a)(19). A captive REIT must add to its taxable income any dividends paid to shareholders. Therefore, this deduction is needed to avoid double taxation.

**21. Accelerated Depreciation Adjustment**

**Citation:** G.S. 105-130.5(b)(27); also refer to G.S. 105-130.5B

**Description:** he IRS Code allows bonus depreciation allowances and modified accelerated cost recovery system above straight-line depreciation. North Carolina has decoupled from these provisions by having taxpayers add back a percentage of the federal deduction in each year and allowing taxpayers to deduct the addback over a period of 5 years in the future. For bonus depreciation, taxpayers must add back 85% of the amount taken on the federal return. Federal tax law allows for 100% bonus depreciation for 2018 through 2022, 80% in 2023, 60% in 2024, 100% in 2025 and future years.

**Enacting Legislation:** S.L. 2002-126 was the first provision related to bonus depreciation addbacks

**FY25-26 Estimate (in $millions):** 84.5

**FY26-27 Estimate (in $millions):** 83.0

**Source:** Derived estimates using N.C. Department of Revenue tax data and federal estimates from the Joint Committee of Taxation.

### 22. Section 179 Expensing Adjustment

**Citation:** G.S. 105-130.5(b)(27); also refer to G.S. 105-130.5B

**Description:** The IRS Code allows expanded Section 179 expensing. North Carolina has decoupled from these provisions by requiring taxpayers to add back the amount of the federal deduction that excceds N.C. dollar limits and phaseout thresholds and allowing taxpayers to deduct the addback over a period of 5 years in the future. For tax years since 2013, the N.C. dollar limit is $25,000 and the phaseout threshold is $200,000. Federal law allows a dollar limit of $1 million and a phaseout threshold of $2.5 million for 2018 through 2024 (with inflation-indexing of both amounts). For 2025 and future years, federal law allows a dollar limit of $2,500,000 and a phaseout threshold of $4 million (with inflation-indexing of both amounts).

**Enacting Legislation:** S.L. 2011-5 added the provision related to the addback for section 179 expensing

**FY25-26 Estimate (in $millions):** 1.2

**FY26-27 Estimate (in $millions):** 1.3

**Source:** Derived estimates using N.C. Department of Revenue tax data and federal estimates from the Joint Committee of Taxation.

### 23. Certain Hurricane Relief Payments

**Citation:** G.S. 105-130.5(b)(29)

**Description:** To the extent included in federal taxable income, the amount paid to the taxpayer during the taxable year from the State Emergency Response and Disaster Relief Reserve Fund for hurricane relief or assistance, but not including payments for goods or services provided by the taxpayer.

**Enacting Legislation:** S.L. 2018-5 - effective for tax years beginning on or after Jan. 1, 2017; a similar provision had been enacted by S.L. 2005-1 and was repealed effective Jan. 1, 2016

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**24. Decouple from IRC Section 1400Z-2 Opportunity Fund**

**Citation:** G.S. 105-130.5(b)(30)

**Description:** Deduction of the amount of gain included in the taxpayer's federal taxable income under IRC § 1400Z-2(a) to the extent the same income was added back to the taxpayer's federal taxable income in a prior taxable year.

**Enacting Legislation:** S.L. 2018-5 - effective for tax years beginning on or after Jan. 1, 2018

**FY25-26 Estimate (in $millions):** no net negative impact; see note

**FY26-27 Estimate (in $millions):** no net negative impact; see note

**Note:** This deduction is offset by the required addition to taxable income in G.S. 105-130.5(a)(26). The net impact is to shift taxable income to earlier years.

**25. Amounts Received as Economic Incentives**

**Citation:** G.S. 105-130.5(b)(31)

**Description:** To the extent included in federal taxable income, a taxpayer may deduct the amount received by a taxpayer as an economic incentive pursuant to G.S. 143B-437.012 or Part 2G or Part 2H of Article 10 of Chapter 143B of the General Statutes.

**Enacting Legislation:** S.L. 2019-237 - effective for tax years beginning on or after Jan. 1, 2019

**FY25-26 Estimate (in $millions):** 0.5

**FY26-27 Estimate (in $millions):** 0.5

**Data Source:** Department of Revenue tax data; N.C. Department of Commerce reports for economic incentive grants

**26. Deduction for Certain Grant Monies**

**Citation:** G.S. 105-130.5(b)(31a)

**Description:** A taxpayer may deduct the amount received under the Business Recovery Grant Program, the ReToolNC grant program for recovery from the economic impacts of the COVID-19 pandemic; and rent and utility assistance pursuant to Section 3.3 of S.L. 2020-4, as amended by Section 1.2 of S.L. 2020-97.

**Enacting Legislation:** S.L. 2021-180 - effective for tax years beginning on or after Jan. 1, 2021 (expanded provisions in S.L. 2022-6)

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**27. Deduction for Extra Business Interest Expenses in 2019 and 2020**

**Citation:** G.S. 105-130.5(b)(32)

**Description:** A taxpayer may deduct 20% of the amount of interest expense added back to taxable income in 2019 and 2020 due to the de-coupling from Section 2306 of the CARES Act in each of the succeeding five tax years beginning with 2021.

**Enacting Legislation:** S.L. 2021-180 -- Effective for tax years beginning on or after Jan. 1, 2021

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**28. Qualified Interest Expense Ultimately Paid to an Unrelated Member**

**Citation:** G.S. 105-130.7B(b)(4)

**Description:** Interest deduction for a portion of a corporation's related member interest expense that represents its proportional share of amounts of interest traceable through related members and ultimately paid to an unrelated party.

**Enacting Legislation:** S. L. 2016-5 - effective for tax years beginning on or after Jan. 1, 2016

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**29. Percentage Depletion over Cost Depletion**

**Citation:** G.S. 105-130.5(a)(11)

**Description:** Allowance for percentage depletion over cost depletion for solid minerals or rare earths extracted from the soil or waters of this State.

**Enacting Legislation:** S.L. 1983-713 - effective for taxable years beginning on or after Jan. 1, 1983.

**FY25-26 Estimate (in $millions):** 1.8

**FY26-27 Estimate (in $millions):** 1.7

**Data Source:** Department of Revenue tax data

**30. Charitable Contributions Outside N.C.**

**Citation:** G.S. 105-130.9(1)

**Description:** Deduction for charitable contributions. The amount of deduction for this item may not exceed 5% of the taxpayer's net income. Contributions made to out-of-state donees are multiplied by the taxpayer's apportionment factor.

**Enacting Legislation:** S.L. 1939-158

**FY25-26 Estimate (in $millions):** 6.4

**FY26-27 Estimate (in $millions):** 6.3

**Data Source:** Department of Revenue tax data

**Note:** This estimate includes only contributions made to donees outside NC; see next item for deduction for donees in NC.

**31. Charitable Contributions Within N.C.**

**Citation:** G.S. 105-130.9(1)-(3)

**Description:** Most deductions are limited to 5% of the taxpayer's net income. Contributions to the State of North Carolina, its counties and municipalities and any agency or instrumentality of these institutions, in addition to contributions made to educational institutions located in North Carolina are fully deductible. For companies with income allocable outside North Carolina, charitable contributions to donees inside NC are not reduced by multiplying by the taxpayer's apportionment factor.

**Enacting Legislation:** S.L. 1939-158

**FY25-26 Estimate (in $millions):** 3.3

**FY26-27 Estimate (in $millions):** 3.3

**Data Source:** Department of Revenue tax data

**32. Amortization of Equipment Mandated by OSHA**

**Citation:** G.S. 105-130.10A

**Description:** In lieu of any depreciation allowance, a corporation may opt to deduct amortization of equipment mandated by the Occupational Safety and Health Act (OSHA), including the cost of planning, acquiring, constructing, modifying, and installing said equipment.

**Enacting Legislation:** S.L. 1979-776

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

## Tax Credits

### 33. Equipment for Cogenerating Power Plant

**Citation:** G.S. 105-130.25

**Description:** Credit of 10% of the costs to purchase and install electrical or mechanical equipment for a cogenerating power plant. A cogenerating power plant uses natural gas as its primary energy source. The total amount of tax credits for all taxpayers for qualifying payments in a calendar year may not exceed $5,000,000. A public utility, as defined in GS 62-3(23) is not eligible for this credit.

**Enacting Legislation:** S.L. 1979-801; S.L. 1993-674 limited the primary source of fuel to natural gas, effective Jan. 1, 1998.

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Department of Revenue tax data

### 34. Certain Real Property Donation Tax Credit

**Citation:** G.S. 105-130.34

**Description:** A taxpayer is allowed a tax credit of 25% of the fair market value of a qualified donation of real property interested located in North Carolina that is used for (1) forestland or farmland preservation, (2) fish and wildlife conservation, (3) a buffer for military training, testing or operations, (4) floodplain protection in certain counties, (5) historic landscape conservation, or (6) for public trails or access to public trails. The credit may not exceed $500,000 for a given C corporation The aggregate amount of credit for all taxpayers (including credits under G.S. 105-153.11) in a given taxable year is $5 million, $3.25 million of which is reserved for credits for property useful for forestland or farmland conservation.

**Enacting Legislation:** S.L. 2024-32, s. 15; S.L. 2025-4 - Effective for taxable years beginning on or after Jan. 1, 2025, for donations made on or after Jan. 1, 2025.

**Sunset Date:** Expires for taxable years beginning on or after Jan. 1, 2027, for donations made on or after Jan. 1, 2027.

**FY25-26 Estimate (in $millions):** 0.5

**FY26-27 Estimate (in $millions):** 0.5

**Data Source:** Fiscal note for SB 355 (2024); Department of Revenue tax data for a similar credit that expired in 2013.

# Various Incentive Tax Credits

The tax credits in this section can be applied against the franchise tax or income taxes. In addition, the historic rehabilitation tax credit in Articles 3H (except non-income producing property) and 3L may be taken against the insurance gross premiums tax.

**1. Credit for Investing in Major Recycling Facility (Article 3C)**

**Citation:** G.S. 105-129.27

**Description:** An owner that purchases or leases machinery and equipment for a major recycling facility in this State is allowed a credit equal to 50% of the amount payable by the owner during the taxable year to purchase or lease the machinery and equipment. Unused credits may be carried forward 25 years.

**Enacting Legislation:** S.L. 1998-55 - effective for taxable years beginning on or after Jan. 1, 1998

**FY25-26 Estimate (in $millions):** 6.0

**FY26-27 Estimate (in $millions):** 6.0

**Data Source:** Department of Revenue "Economic Incentive Reports"

**2. Credit for Income-Producing Rehabilitated Mill Property (Article 3H)**

**Citation:** G.S. 105-129.71(a)

**Description:** A taxpayer who makes qualified rehabilitation expenditures for a certified historic mill or agricultural warehouse located in this State is allowed a credit equal to 40% of the expenditures if the building is located in a Development Tier 1 or 2 area or 30% if the building is located in a Development Tier 3 area. A certificate from the State Historic Preservation Officer must be obtained which shows that the expenditures qualified for a Federal rehabilitation credit under section 47 of the Code and that the expenses exceeded $3,000,000. Unused credits can be carried forward for 9 years.

**Enacting Legislation:** S.L. 2006-40 - effective for taxable years beginning on or after Jan. 1, 2006 and applies to eligible sites placed into service on or after July 1, 2006

**Sunset Date:** Expires for rehabilitation projects not completed and placed in service by Jan. 1, 2030

**FY25-26 Estimate (in $millions):** 20.0

**FY26-27 Estimate (in $millions):** 20.0

**Data Source:** Department of Revenue "Economic Incentive Reports"

**Note:** This credit was reenacted by S.L. 2021-180; it was previously repealed for projects for which an eligibility certificate was issued on or after Jan. 1, 2015.

### 3. Mill Rehabilitation Tax Credit for Railroad Station (Article 3H)

**Citation:** G.S. 105-129.71(a1)

**Description:** Tax credit for rehabilitation of an eligible railroad station if qualified expenses were at least $10 million. The credit is 40% of expenditures incurred on or after Jan. 1, 2019. The credit cannot be taken for taxable years beginning prior to Jan. 1, 2021. The site must have been used as a manufacturing facility and either was used as a railroad station or is located adjacent to a site that was a railroad station. Other conditions apply.

**Enacting Legislation:** S.L. 2019-237 – qualified rehabilitation expenditures must be incurred on or after Jan. 1, 2019 and before Jan. 1, 2030

**Sunset Date:** Expires for rehabilitation projects completed and placed in service on or after Jan. 1, 2030

**FY25-26 Estimate (in $millions):** 5.8

**FY26-27 Estimate (in $millions):** 5.8

**Note:** Legislative fiscal note for House Bill 399 (2019 session) estimates the cost to be $5.8 million in each year.

### 4. Credit for Nonincome-Producing Rehabilitated Mill Property (Article 3H)

**Citation:** G.S. 105-129.72

**Description:** A taxpayer who makes qualified rehabilitation expenditures for a certified historic mill or agricultural warehouse located in this State is allowed a credit equal to 40% of the expenditures if the building is located in a Development Tier 1 or 2 area. A certificate from the State Historic Preservation Officer must be obtained which shows that the expenditures are for a certified historic structure and that the expenses exceeded $3,000,000. This credit must be taken in 5 annual installments. Unused credits may be carried forward 9 years.

**Enacting Legislation:** S.L. 2006-40 - effective for taxable years beginning on or after Jan. 1, 2006 and applies to eligible sites placed into service on or after July 1, 2006

**Sunset Date:** Expires for rehabilitation projects not completed and placed in service by Jan. 1, 2030

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Department of Revenue "Economic Incentive Reports"

**Note:** This credit was reenacted by S.L. 2021-180; it was previously repealed for projects for which an eligibility certificate was issued on or after Jan. 1, 2015.

**5. Credit for Constructing a Railroad Intermodal Facility (Article 3K)**

**Citation:** G.S. 105-129.96

**Description:** A taxpayer that constructs or leases an eligible railroad intermodal facility in this State and places it in service during the taxable year is allowed a tax credit equal to fifty percent (50%) of all amounts payable by the taxpayer towards the costs of construction or under the lease. In order to be eligible, the cost of construction must exceed $30 million. The credit may not exceed fifty percent (50%) of the tax against which it is applied. Any unused portion of a credit may be carried forward for the succeeding 10 years.

**Enacting Legislation:** S.L. 2007-323 - effective for eligible facilities placed into service on or after Jan. 1, 2007

**Sunset Date:** Expires Jan. 1, 2038

**FY25-26 Estimate (in $millions):** 1.0

**FY26-27 Estimate (in $millions):** 1.0

**Data Source:** Department of Revenue tax records

**6. Credit for Income-Producing Rehabilitated Historic Property (Article 3L)**

**Citation:** G.S. 105-129.100

**Description:** A taxpayer may receive a tax credit for qualified rehabilitation expenditures. The base amount of credit is 15% of the first $10 million of expenses and 10% of expenses over $10 million, but not exceeding $20 million. An additional 5% credit is allowed for a project located in a development tier 1 or 2 area or if the project is located on an eligible targeted investment site, or 10% for both. Effective for taxable years beginning on or after Jan. 1, 2021, an additional 5% tax credit on qualified expenditures on a project used for an educational purpose, not exceeding $20 million. The credit for an income-producing project cannot exceed $4,500,000. Any unused credits may be carried forward for the succeeding 9 years.

**Enacting Legislation:** S.L. 2015-241 - effective for eligible expenses incurred on or after Jan. 1, 2016; tax credits for historic rehabilitation were previously enacted by S.L. 1993-527 (expired on Jan. 1, 2015)

**Sunset Date:** Expires for qualified rehabilitation expenditures and rehabilitation expenses incurred on or after Jan. 1, 2030. Property that qualifies before this date must be placed in service by Jan. 1, 2032.

**FY25-26 Estimate (in $millions):** 6.0

**FY26-27 Estimate (in $millions):** 6.0

**Data Source:** Department of Revenue "Economic Incentive Reports" and newspaper reports of prospective projects.

**7. Credit for Nonincome-Producing Rehabilitated Historic Property (Article 3L)**

**Citation:** G.S. 105-129.101

**Description:** A taxpayer may receive a tax credit for qualified rehabilitation expenditures. The credit is 15% of expenses. At least $10,000 must be spent on the project and the tax credit cannot exceed $22,500 per discrete property parcel. Any unused credits may be carried forward for the succeeding 9 years.

**Enacting Legislation:** S.L. 2015-241 - effective for eligible expenses incurred on or after Jan. 1, 2016; tax credits for nonincome-producing historic rehabilitation were previously enacted by S.L. 1997-139 (expired on Jan. 1, 2015, with some exceptions)

**Sunset Date:** Expires for qualified rehabilitation expenditures and rehabilitation expenses incurred on or after Jan. 1, 2030. Property that qualifies before this date must be placed in service by Jan. 1, 2032.

**FY25-26 Estimate (in $millions):** 0.6

**FY26-27 Estimate (in $millions):** 0.7

**Data Source:** Department of Revenue "Economic Incentive Reports"

# Individual Income Tax (Article 4, Part 2)

## Brief Description and Tax Base Information

The individual income tax is a tax on the taxable income of every resident of the State and nonresidents deriving income from North Carolina sources.

The base of the individual income tax is federal adjusted gross income (AGI). This is a fairly broad definition of income, although it does not include certain exemptions and deductions from income, such as some Social Security payments, certain capital gains, interest on student loans, etc. AGI also does not include deductions for expenses necessary to produce income.

The North Carolina tax base does not include some components of AGI, including interest on obligations of other states and their political subdivisions. North Carolina has also de-coupled from several federal tax provisions in recent years.

North Carolina allows taxpayers to claim either a standard deduction or certain itemized deductions. For tax years 2020 and 2021, the standard deduction is $21,500 for filing statuses married filing jointly or surviving spouse; $16,125 for head of household; $10,750 for single or married filing separately. For tax years beginning on or after Jan. 1, 2022, the standard deduction is $25,500 for filing statuses married filing jointly or surviving spouse; $19,125 for head of household; $12,750 for single or married filing separately.

For purposes of this report, a standard deduction is considered part of the normal tax base as an allowance for necessary expenses associated with maintaining a household. The amounts used for the base standard deduction in this report are $20,000 for married individuals filing a joint return; $15,000 for heads of households; and $10,000 for single or married-filing-separately individuals. These amounts are the N.C. standard deduction amounts for tax year 2019. Since North Carolina currently allows larger standard deductions than these, a tax expenditure is included for the excess tax cost of these higher amounts.

Each shareholder’s pro rata share of an S Corporation’s income is subject to the adjustments provided under the individual income tax.

For taxable years beginning on or after Jan. 1, 2014, there has been only one tax bracket: the tax rate is 4.5% in 2024; 4.25% in 2025; and 3.99% in 2026 and later years. Additional rate reductions may be triggered for 2027 and future years, which could take the tax rate down to 2.49% if certain General Fund revenues amounts are met in a given year. Although these triggers may be expected to be met, resulting in lower tax rates in 2027 and later years, this report uses the 3.99% tax rate for these years.

The individual income tax is the largest component of the State’s General Fund revenues. In Fiscal Year 2024-25, North Carolina collected approximately $17.1 billion, net of refunds. Net General Fund collections were approximately $17.0 billion in Fiscal Year 2024-25 after several transfers.

## Exemptions

### 1. Critical Infrastructure Disaster Relief Operations

**Citation:** G.S. 105-153.2(2)

**Description:** This subdivision does not apply to a nonresident business or a nonresident employee who solely derives income from N.C. sources attributable to a business, trade, profession, or occupation carried on in this State to perform disaster-related work during a disaster response period at the request of a critical infrastructure company.

**Enacting Legislation:** S.L. 2019-187 - Applies to disaster declarations on or after Aug. 1, 2019

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

### 2. Certain Individuals Upon Death

**Citation:** G.S. 105-158

**Description:** An individual is not subject to tax if the individual is not subject to federal income tax under Code section 692, which exempts members of the Armed Forces and astronauts who have died in the line of duty, and persons killed as a result of certain terrorist attacks.

**Enacting Legislation:** S. L. 1969-1116 – effective Jan. 1, 1964

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Number of military deaths from Department of Defense

## Deductions

### 3. Standard Deduction in Excess of Base Amounts

**Citation:** G.S. 105-153.5(a)(1)

**Description:** Taxpayers may take either the standard deduction or itemized deductions. For tax years beginning on or after Jan. 1, 2022, standard deductions are $25,500 for married-filing-jointly or surviving spouses; $19,125 for head of household; $12,750 for single or married-filing-separately.

**Base standard deduction amounts:** Since the 2021 version of this report, the base standard deduction amounts are considered to be the Tax Year 2019 State standard deduction amounts. The base deductions are $10,000 for single and married-filing-

separately filers, $20,000 for married-filing-jointly and surviving-spouse filers, & $15,000 for head-of-household filers.

**Enacting Legislation:** S.L. 1939-158 allowed a $1,000 deduction for an individual (approximately $23,000 in 2025 dollars); $2,000 for a married man or head of household; $1,000 for a married woman having a separate and independent income; plus $200 for each dependent child or dependent incapable of self-support. S.L. 1953-1302 created a standard deduction in lieu of itemizing deductions; the deduction was the larger of $500 or 10% of gross income.

**FY25-26 Estimate (in $millions):** 608.9

**FY26-27 Estimate (in $millions):** 605.1

**Data Source:** Department of Revenue tax data

**Note:** The estimate reflects the amount of reduced tax liabilities for standard deductions above a base amount. The estimate includes (1) taxpayers taking the standard deduction and (2) taxpayers who switched from itemizing due to the higher standard deduction. In Tax Expenditure reports prior to 2021, the amount for this item also included taxpayers taking itemized deductions, whose deductions were converted to the standard deduction amount.

**4. Charitable Contributions Itemized Deduction**

**Citation:** G.S. 105-153.5(a)(2)a

**Description:** If itemizing deductions, a taxpayer may deduct an amount allowed as a deduction for charitable contributions under section 170 of the Code for that taxable year. For Tax Years 2014 through 2018, the amount may be increased for any 401K contributions under section 408(d)(8) deducted from federal income and added back to State income.

**Enacting Legislation:** S.L. 1939-158 allowed deductions for interest paid, charitable contributions and property taxes.

**FY25-26 Estimate (in $millions):** 176.0

**FY26-27 Estimate (in $millions):** 174.6

**Data Source:** Department of Revenue tax data

**5. Qualified Mortgage Interest Itemized Deduction**

**Citation:** G.S. 105-153.5(a)(2)b

**Description:** If itemizing deductions, a taxpayer may deduct the amount allowed as a deduction for interest paid or accrued during the taxable year under section 163(h) of the Code with respect to any qualified residence. The amount of this deduction is limited to $20,000 minus the amount of the property tax itemized deduction.

**Enacting Legislation:** S.L. 2013-316 – effective Jan. 1, 2014; S.L. 1939-158 allowed deductions for interest paid, charitable contributions and property taxes.

**FY25-26 Estimate (in $millions):** 43.5

**FY26-27 Estimate (in $millions):** 42.7

**Data Source:** Department of Revenue tax data

**6. Real Estate Property Tax Itemized Deduction**

**Citation:** G.S. 105-153.5(a)(2)b

**Description:** If itemizing deductions, a taxpayer may deduct the amount claimed as a deduction for property taxes paid or accrued on real estate under section 164 of the Code for that taxable year. The amount of this deduction is limited to $20,000 minus the amount of the mortgage interest itemized deduction.

**Enacting Legislation:** S.L. 2013-316 – effective Jan. 1, 2014; S.L. 1939-158 allowed deductions for interest paid, charitable contributions and property taxes.

**FY25-26 Estimate (in $millions):** 26.6

**FY26-27 Estimate (in $millions):** 26.6

**Data Source:** Department of Revenue tax data

**7. Medical and Dental Expenses Itemized Deduction**

**Citation:** G.S. 105-153.5(a)(2)c

**Description:** Effective January 1, 2015: If itemizing deductions, a taxpayer may deduct the amount allowed as a deduction for medical and dental expenses under section 213 of the Code for that taxable year.

**Enacting Legislation:** S.L. 2015-241; the deduction was previously included as an itemized deduction for tax years prior to 2014

**FY25-26 Estimate (in $millions):** 60.8

**FY26-27 Estimate (in $millions):** 63.3

**Data Source:** Department of Revenue tax data

**Note:** Federal law allows a deduction for medical and dental expenses that exceed 7.5% of adjusted gross income. North Carolina conforms to this threshold.

### 8. Child Deduction

**Citation:** G.S. 105-153.5(a1)

**Description:** A taxpayer may deduct an amount based on their AGI for each dependent child for whom they are allowed the federal child tax credit. S.L. 2021-180 increased the amount of the deductions and increased the AGI cap for taxable years beginning on or after Jan. 1, 2022. For taxpayers filing as married filing jointly, the deduction amount is $3,000 if AGI is $40,000 or less; $2,500 if AGI is between $40,001 and $60,000; $2,000 if AGI is between $60,001 and $80,000; $1,500 if AGI is between $80,001 and $100,000; $1,000 if AGI is between $100,001 and $120,000; and $500 if AGI is between $120,001 and $140,000.

**Enacting Legislation:** S.L. 2017-57, effective for tax years beginning on or after Jan. 1, 2018. This provision replaced the child tax credit under G.S. 105-153.10(a).

**FY25-26 Estimate (in $millions):** 96.1

**FY26-27 Estimate (in $millions):** 93.4

**Data Source:** Department of Revenue tax data

### 9. N.C. and Nonprofit Education Institution Interest

**Citation:** G.S. 105-153.5(b)(1)

**Description:** Deduction from adjusted gross income for interest upon the obligations of any of the following: (a) this State, a political subdivision of this State, or a commission, an authority, or another agency of this State or of a political subdivision of this State; (b) a nonprofit educational institution organized or chartered under the laws of this State.

**Enacting Legislation:** S.L. 1939-158; S.L. 1965-833 added the exemption for nonprofit educational institutions

**FY25-26 Estimate (in $millions):** 23.8

**FY26-27 Estimate (in $millions):** 23.4

**Data Source:** Department of Revenue tax data; Statistics of Income, Internal Revenue Service; Joint Committee on Taxation

### 10. Disposition of Certain Obligations

**Citation:** G.S. 105-153.5(b)(2)

**Description:** Deduction for gain from disposition of obligations issued before July 1, 1995, to the extent exempt from tax.

**Enacting Legislation:** S.L. 1995-46 repealed the tax-exempt status of the gain earned on the sale of certain North Carolina bonds.

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Department of Revenue tax data

**11. Social Security Benefits in Excess of Federal Limit**

**Citation:** G.S. 105-153.5(b)(3)

**Description:** Deduction for benefits received under Title II of the Social Security Act and amounts received from retirement annuities or pensions paid under the provisions of the Railroad Retirement Act of 1937.

**Enacting Legislation:** S.L. 1957-1340 - effective Jan. 1, 1957

**FY25-26 Estimate (in $millions):** 723.0

**FY26-27 Estimate (in $millions):** 728.3

**Data Source:** Department of Revenue tax data

**Note:** The Social Security Amendments of 1983 made OASDI benefits subject to federal income tax. Federal taxation of some Social Security benefits occurs when modified AGI exceeds $25,000 for single filers or $32,000 for married filing jointly. These limits are not increased each year for inflation and have not been adjusted since 1983.

**12. Government Retirement Income under Bailey Decision**

**Citation:** G.S. 105-153.5(b)(5)

**Description:** Deduction from adjusted gross income for certain retirement benefits received by eligible retirees of the State of North Carolina and its local governments or the federal government to the extent the amount is exempt pursuant to a court order in settlement of *Bailey v. State*, *Emory v. State*, or *Patton v. State*. Eligible retirees must have had 5 or more years of creditable service as of August 12, 1989. The exclusion also applies to retirement benefits received from the State's §401(k) and §457 plans if the retiree had contributed or contracted to contribute to the plan prior to August 12, 1989.

**Enacting Legislation:** S.L. 1941-25 established the State Retirement System and included an exemption from State taxation. This provision was repealed by S.L. 1989-792.

**FY25-26 Estimate (in $millions):** 264.7

**FY26-27 Estimate (in $millions):** 257.3

**Data Source:** Department of Revenue tax data

**13. Uniformed Services Pension Income**

**Citation:** G.S. 105-153.5(b)(5a)

**Description:** Deduction from adjusted gross income for the amount received during the taxable year from (a) retirement pay for service in the Armed Forces of the United States to a retired member that meets either of the following: (1) served at least 20 years; (2) medically retired under 10 U.S.C. Chapter 61, not including severance pay; (b) payments of a Plan defined in 10 U.S.C. § 1447 to a beneficiary of a retired member eligible to deduct retirement pay under (a). This exemption was expanded to include retirement pay for service in all uniformed services of the the United States for tax years beginning on or after Jan. 1, 2022.

**Enacting Legislation:** S.L. 2021-180 - effective for tax years beginning on or after Jan. 1, 2021.

**FY25-26 Estimate (in $millions):** 55.8

**FY26-27 Estimate (in $millions):** 56.9

**Data Source:** Department of Revenue tax data; legislative fiscal notes for SB12 (2021) and HB103 (2022)

**Note:** Certain military pension income would also be exempt under the "Bailey Decision" and included in that tax expenditure item and not included in this item.

**14. Accelerated Depreciation Adjustment**

**Citation:** G.S. 105-153.5(b)(8); also refer to G.S. 105-153.6

**Description:** The IRS Code allows bonus depreciation allowances and modified accelerated cost recovery system above straight-line depreciation. North Carolina has decoupled from these provisions by having taxpayers add back a percentage of the federal deduction in each year and allowing taxpayers to deduct the addback over a period of 5 years in the future. For bonus depreciation, taxpayers must add back 85% of the amount taken on the federal return. Federal tax law allows for 100% bonus depreciation for 2018 through 2022, 80% in 2023, 60% in 2024, and 100% in 2025 and future years.

**Enacting Legislation:** S.L. 2002-126 was the first provision related to bonus depreciation addbacks.

**FY25-26 Estimate (in $millions):** 75.1

**FY26-27 Estimate (in $millions):** 66.4

**Data Source:** Derived estimates using N.C. Department of Revenue tax data and federal estimates from the Joint Committee of Taxation.

**Note:** The estimate incorporates past and current differences between allowed depreciation and a straight-line depreciation method.

**15. Section 179 Expensing Adjustment**

**Citation:** G.S. 105-153.5(b)(8); also refer to G.S. 105-153.6

**Description:** The IRS Code allows expanded Section 179 expensing. North Carolina has decoupled from these provisions by requiring taxpayers to add back the amount of the federal deduction that excceds N.C. dollar limits and phaseout thresholds and allowing taxpayers to deduct the addback over a period of 5 years in the future. For tax years since 2013, the N.C. dollar limit is $25,000 and the phaseout threshold is $200,000. Federal law allows a dollar limit of $1 million and a phaseout threshold of $2.5 million for 2018 through 2024 (with inflation-indexing of both amounts). For 2025 and future years, federal law allows a dollar limit of $2,500,000 and a phaseout threshold of $4 million (with inflation-indexing of both amounts).

**Enacting Legislation:** S.L. 2011-5 added the provision related to the addback for section 179 expensing.

**FY25-26 Estimate (in $millions):** 12.8

**FY26-27 Estimate (in $millions):** 13.1

**Data Source:** Derived estimates using N.C. Department of Revenue tax data and federal estimates from the Joint Committee of Taxation.

**Note:** The estimate incorporates past and current differences between allowed expensing and a straight-line depreciation method.

**16. Personal Education Student Account**

**Citation:** G.S. 105-153.5(b)(12)

**Description:** Deduction for the amount deposited during the taxable year to a personal education student account under Article 41 of Chapter 115C of the General Statutes. (Scholarship funds up to $9,000 per eligible student for a fiscal year.)

**Enacting Legislation:** S.L. 2017-57 - effective for taxable years beginning on or after Jan. 1, 2018

**FY25-26 Estimate (in $millions):** 0.3

**FY26-27 Estimate (in $millions):** 0.3

**Data Source:** Derived estimates using N.C. Department of Revenue tax data and data from the North Carolina State Education Assistance Authority

**17. Certain Hurricane Relief Payments**

**Citation:** G.S. 105-153.5(b)(13)

**Description:** Deduction for the amount paid to the taxpayer during the taxable year from the State Emergency Response and Disaster Relief Reserve Fund for hurricane relief or assistance, but not including payments for goods or services provided by the taxpayer.

**Enacting Legislation:** S.L. 2018-5 - effective for tax years beginning on or after Jan. 1, 2017; a similar provision had been enacted by S.L. 2005-1 and was repealed effective Jan. 1, 2014

**FY25-26 Estimate (in $millions):** 0.2

**FY26-27 Estimate (in $millions):** 0.2

**Data Source:** Department of Revenue tax data

**18. Amounts Received as an Economic Incentive**

**Citation:** G.S. 105-153.5(b)(14)

**Description:** A taxpayer may deduct the amount received by a taxpayer as an economic incentive pursuant to G.S. 143B-437.012 or Part 2G or Part 2H of Article 10 of Chapter 143B of the General Statutes.

**Enacting Legislation:** S.L. 2019-237 - effective for tax years beginning on or after Jan. 1, 2019

**FY25-26 Estimate (in $millions):** 1.0

**FY26-27 Estimate (in $millions):** 1.0

**Data Source:** Department of Revenue tax data

**19. Deduction for Certain Grant Monies**

**Citation:** G.S. 105-153.5(b)(14a)

**Description:** A taxpayer may deduct the amount received under the Business Recovery Grant Program, the ReToolNC grant program for recovery from the economic impacts of the COVID-19 pandemic; and rent and utility assistance pursuant to Section 3.3 of S.L. 2020-4, as amended by Section 1.2 of S.L. 2020-97.

**Enacting Legislation:** S.L. 2021-180 and S.L. 2022-6 - effective for tax years beginning on or after Jan. 1, 2020

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**20. Net Operating Loss Carryforward**

**Citation:** G.S. 105-153.5(b)(16)

**Description:** A taxpayer may deduct net operating losses incurred in a tax year in the following 15 years under conditions in G.S. 105-153.5A. Nonresidents may only include income and deductions derived from a business carried on in this State in determining their net operating loss.

**Enacting Legislation:** SL 2021-180 - effective for tax years beginning on or after Jan. 1, 2022; prior to this, federal NOL provisions carried through to State taxable income

**FY25-26 Estimate (in $millions):** 63.8

**FY26-27 Estimate (in $millions):** 62.6

**Data Source:** N.C. Department of Revenue personal income tax microsimulation data

**21. Decouple from IRC Section 1400Z-2 Opportunity Fund**

**Citation:** G.S. 105-153.5(c2)(6)

**Description:** Deduction of the amount of gain included in the taxpayer's adjusted gross income under IRC § 1400Z-2(a) to the extent the same income was added back to the taxpayer's N.C. taxable income in a prior taxable year.

**Enacting Legislation:** S.L. 2018-5 - effective for tax years beginning on or after Jan. 1, 2018

**FY25-26 Estimate (in $millions):** no net negative impact

**FY26-27 Estimate (in $millions):** no net negative impact

**Note:** This deduction is offset by the required addition to adjusted gross income in G.S. 105-153.5(c2)(5). The net impact is to shift taxable income to earlier years. Thus, there is likely to be a positive impact on the present value of State revenues.

**22. Deduction for Extra Business Interest Expenses in 2019 and 2020**

**Citation:** G.S. 105-153.5(c2)(17a)

**Description:** A taxpayer may deduct 20% of the amount of interest expense added back to taxable income in 2019 and 2020 due to the de-coupling from Section 2306 of the CARES Act in each of the succeeding five tax years beginning with 2021.

**Enacting Legislation:** S.L. 2021-180 -- Effective for tax years beginning on or after Jan. 1, 2021

**FY25-26 Estimate (in $millions):** 1.0

**FY26-27 Estimate (in $millions):** 0.0

**Data Source:** Department of Revenue tax data

## Tax Credits

### 23. Certain Real Property Donation Tax Credit

**Citation:** G.S. 105-153.11

**Description:** A taxpayer is allowed a tax credit of 25% of the fair market value of a qualified donation of real property interested located in North Carolina that is used for (1) forestland or farmland preservation, (2) fish and wildlife conservation, (3) a buffer for military training, testing or operations, (4) floodplain protection in certain counties, (5) historic landscape conservation, or (6) for public trails or access to public trails. The credit may not exceed $500,000 for a given C corporation The aggregate amount of credit for all taxpayers (including credits under G.S. 105-153.11) in a given taxable year is $5 million, $3.25 million of which is reserved for credits for property useful for forestland or farmland conservation.

**Enacting Legislation:** S.L. 2024-32, s. 15; S.L. 2025-4 - Effective for taxable years beginning on or after Jan. 1, 2025, for donations made on or after Jan. 1, 2025.

**Sunset Date:** Expires for taxable years beginning on or after Jan. 1, 2027, for donations made on or after Jan. 1, 2027.

**FY25-26 Estimate (in $millions):** 4.5

**FY26-27 Estimate (in $millions):** 4.5

**Data Source:** Fiscal note for SB 355 (2024); Department of Revenue tax data for a similar credit that expired in 2013.

# Sales and Use Tax (Article 5)

## Brief Description and Tax Base Information

The sales tax in North Carolina is imposed on final sales (including the value of leases and rentals) of tangible personal property, digital property and certain services occurring in the State, and the use tax is imposed on purchases made outside the State if the taxable item purchased is used or stored in North Carolina.

For this report, services are not considered part of the sales tax base unless they are specifically listed as taxable items in the General Statutes.

Effective Jan. 1, 2010, the sales tax applies to certain digital property that is delivered or accessed electronically, is not considered tangible personal property, and would be taxable if sold in a tangible medium.

Effective Jan. 1, 2014, the sales tax applies to admission charges to certain entertainment activities and to service contracts.

Effective March 1, 2016, the sales tax applies to repair, maintenance and installation (RMI) services.

Effective Jan. 1, 2017, the sales tax on RMI services was amended by S.L. 2016-94 in order to treat similar transactions the same and to expand the tax base to services on real property, except those related to a capital improvement provided through a real property contract.

Effective Feb. 1, 2020, a marketplace facilitator must collect sales tax from remote sales that it makes or facilitates for its marketplace sellers in this State if it meets either of the following conditions for sales sourced to this State in the prior or the current calendar year: (a) gross sales in excess of $100,000 or (b) 200 or more separate transactions.

**State sales tax rate:** As of July 1, 2011, the State sales tax rate is 4.75%.

**Combined general rate:** The State sales tax rate on telecommunications and ancillary services, video programming, and spirituous liquor is equal to the State combined general rate. This rate has been 7.0% since July 1, 2011. Effective July 1, 2014, the combined general rate also applies to sales of electricity and piped natural gas. Effective Jan. 1, 2016, aviation gasoline and jet fuel are taxed at the combined general rate.

For Fiscal Year 2024-25, sales and use tax collections net of refunds and reserves for sales taxes imposed by local governments were approximately $12.6 billion. (Sales tax revenues related to the lease of motor vehicles are not included in collections amounts here.)

Various other transfers from State sales & use taxes to local governments, including the distribution to the State Public School Fund, were approximately $836 million in Fiscal Year 2024-25. Net General Fund collections were approximately $11.0 billion in Fiscal Year 2024-25 after these and several other transfers.

## Exemptions

### 1. Work that Requires a Building Permit

**Citation:** G.S. 105-164.3(31)b

**Description:** The definition of capital improvement includes: performance of work that requires the issuance of a permit under the State Building Code, other than repair or replacement of electrical components, gas logs, water heater, and similar individual items that are not part of new construction, reconstruction, or remodeling.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

### 2. Installation of Utilities

**Citation:** G.S. 105-164.3(31)c

**Description:** The definition of capital improvement includes: installation of utilities on utility-owned land, right-of-way, or easement, notwithstanding that charges for such are included in the gross receipts derived from services subject to the combined general rate under G.S. 105-164.4.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

### 3. Installation of Capitalized or Expensed Equipment

**Citation:** G.S. 105-164.3(31)d

**Description:** The definition of capital improvement includes: installation of equipment or fixture that is attached to real property and that is capitalized under GAAP or IFRS or is depreciated under the Code, or is expensed under Section 179 of the Code.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**4. Painting and Wallpapering**

**Citation:** G.S. 105-164.3(31)e

**Description:** The definition of capital improvement includes: painting or wallpapering, except where painting or wallpapering is incidental to the repair, maintenance, and installation service.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 43.6

**FY26-27 Estimate (in $millions):** 45.8

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

**5. Replacement or Installation of Building-Related Systems**

**Citation:** G.S. 105-164.3(31)f

**Description:** The definition of capital improvement includes: replacement or installation of a roofing, septic tank, plumbing, electrical, commercial refrigeration, irrigation, sprinkler, or other similar system. The term does not include the repair, replacement, or installation of electrical or plumbing components, water heaters, gutters, and similar individual items that are not part of new construction, reconstruction, or remodeling.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 99.1

**FY26-27 Estimate (in $millions):** 103.1

**Data Source:** 2012, 2017 & 2022 Economic Censuses; annual County Business Patterns (US Census); annual Nonemployer Statistics (US Census)

**6. Replacement or Installation of HVAC Systems**

**Citation:** G.S. 105-164.3(31)g

**Description:** The definition of capital improvement includes: replacement or installation of a heating, ventilation, and air conditioning unit or system. The term does not include the repair, replacement or installation of gas logs, water heaters, pool heaters, and similar items that are not part of new construction, reconstruction, or remodeling.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 79.1

**FY26-27 Estimate (in $millions):** 83.9

**Data Source:** 2012, 2017 & 2022 Economic Censuses; annual County Business Patterns (US Census); annual Nonemployer Statistics (US Census)

**7. Replacement or Installation of Pavement, Patios & Decks**

**Citation:** G.S. 105-164.3(31)h

**Description:** The definition of capital improvement includes: replacement or installation of roads, driveways, parking lots, patios, decks, and sidewalk.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 61.4

**FY26-27 Estimate (in $millions):** 63.3

**Data Source:** 2012, 2017 & 2022 Economic Censuses; annual County Business Patterns (US Census); annual Nonemployer Statistics (US Census)

**8. Resolution of Construction-Related Issues**

**Citation:** G.S. 105-164.3(31)i

**Description:** Services performed to resolve an issue that was part of a real property contract if the services are performed within 6 months of completion of the real property contract or, for new construction, within 12 months of the new structure being occupied for the first time.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 8.3

**FY26-27 Estimate (in $millions):** 8.6

**Data Source:** 2012, 2017 & 2022 Economic Censuses; annual County Business Patterns (US Census); annual Nonemployer Statistics (US Census)

**9. Landscaping**

**Citation:** G.S. 105-164.3(31)j

**Description:** The definition of capital improvement includes: landscaping. As defined in G.S. 105-164.3(16e), the term does not include services to trees, shrubs, flowers, and similar items in pots or in buildings.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 142.3

**FY26-27 Estimate (in $millions):** 158.1

**Data Source:** 2012 & 2017 Economic Censuses; annual County Business Patterns (US Census); annual Nonemployer Statistics (US Census)

**Note:** The estimates include installation and replacement of "hardscapes" such as patios and walkways that would be included in the receipts of landscaping services companies.

**10. Certain Additions & Alterations to Real Property**

**Citation:** G.S. 105-164.3(31)k

**Description:** The definition of capital improvement includes: addition or alteration to real property that is permanently affixed or installed to real property and is not an activity listed in subdivision (33i) of this section as a RMI service.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**11. Educational Service Via Digital Property**

**Citation:** G.S. 105-164.3(33)

**Description:** The definition of certain digital property excludes "educational service." Educational service is defined in GS 105-164.3(75) and is provided by or on behalf of a qualifying educational entity.

**Enacting Legislation:** S.L. 2020-6 - effective Oct. 1, 2019

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**12. Installation by Real Property Contractor**

**Citation:** G.S. 105-164.3(225)

**Description:** The definition of repair, maintenance and installation services is not applicable to tangible personal property or digital property installed or applied by a real property contractor pursuant to a real property contract.

**Enacting Legislation:** S.L. 2015-241 - effective Mar. 1, 2016

**FY25-26 Estimate (in $millions):** 81.2

**FY26-27 Estimate (in $millions):** 85.3

**Data Source:** 2022 Economic Census; County Business Patterns (US Census); Nonemployer Statistics (US Census); Quarterly Census of Employment and Wages

**Note:** This category includes estimated receipts of building finishing contractors (except painting and wallpapering) and plumbing

**13. Laundromat Self-Service Machines**

**Citation:** G.S. 105-164.4(a)(4)

**Description:** Taxation on the gross receipts of laundries does not apply to receipts derived from coin-, token-, or card-operated washing machines, extractors, and dryers.

**Enacting Legislation:** S.L. 1987-854 - effective July 1, 1988

**FY25-26 Estimate (in $millions):** 5.3

**FY26-27 Estimate (in $millions):** 5.4

**Data Source:** 2017 & 2022 Economic Censuses; annual County Business Patterns (US Census); annual Nonemployer Statistics (US Census)

**14. Certain Accommodation Rentals**

**Citation:** G.S. 105-164.4F(e); G.S. 105-164.13(70)

**Description:** Taxation at the general rate on accommodation rentals does not apply to (1) a private residence or cottage that is rented for fewer than 15 days in a calendar year unless the rental is made by an accommodation facilitator; (2) an accommodation supplied to the same person for a period of 90 or more continuous days; or (3) an accommodation arranged or provided by a school, camp, or similar entity where a tuition or fee is charged for enrollment in such entity.

**Enacting Legislation:** S.L. 1955-1313

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**15. Right to Participate in Sporting Activities**

**Citation:** G.S. 105-164.4G(e)(1)

**Description:** Exemption from tax on admission charges for an amount paid for the right to participate, other than to be a spectator, in sporting activities. Examples of these types of charges include bowling fees, golf green fees, and gym memberships.

**Enacting Legislation:** S.L. 2014-3 – effective May 29, 2014. These fees were excluded from the privilege tax on admissions previously, but not explicitly stated.

**FY25-26 Estimate (in $millions):** 127.4

**FY26-27 Estimate (in $millions):** 137.0

**Data Source:** 2012, 2017 & 2022 Economic Censuses; annual County Business Patterns (US Census); annual Nonemployer Statistics (US Census)

**16. Lifetime Seat Rights and Box Seat Rentals**

**Citation:** G.S. 105-164.4G(e)(4)

**Description:** Exemption from tax on admission charges for a charge for lifetime seat rights, lease, or rental of a suite or box for an entertainment activity, provided the charge is separately stated on an invoice or similar billing document given to the purchaser at the time of sale.

**Enacting Legislation:** S.L. 2014-3 – effective May 29, 2014. These fees were excluded from the privilege tax on admissions previously, but not explicitly stated.

**FY25-26 Estimate (in $millions):** 2.6

**FY26-27 Estimate (in $millions):** 2.7

**Data Source:** 2022 US Economic Census; 2022 Services Annual Survey, US Census Bureau

**17. Right to Participate in Certain Activities**

**Citation:** G.S. 105-164.4G(e)(6)a

**Description:** Exemption from tax for the right to participate, other than to be a spectator, in the following activities: rock climbing, skating, skiing, snowboarding, sledding, zip lining, or other similar activities.

**Enacting Legislation:** S.L. 2018-5 – effective June 12, 2018 (these items were not previously taxed)

**FY25-26 Estimate (in $millions):** 16.5

**FY26-27 Estimate (in $millions):** 17.5

**Data Source:** 2022 Economic Census, County Business Patterns and Nonemployer Statistics, US Census

**18. Right to Participate in Certain Instruction Classes**

**Citation:** G.S. 105-164.4G(e)(6)b

**Description:** Exemption from tax for the right to participate, other than to be a spectator, in the following activities: instruction classes related to the items in G.S. 105-164.4G(e)(6)a.

**Enacting Legislation:** S.L. 2018-5 – effective June 12, 2018 (these items were not previously taxed)

**FY25-26 Estimate (in $millions):** 3.2

**FY26-27 Estimate (in $millions):** 3.4

**Data Source:** 2022 Economic Census, County Business Patterns and Nonemployer Statistics, US Census

**19. Right to Participate in Certain Rides**

**Citation:** G.S. 105-164.4G(e)(6)c

**Description:** Exemption from tax for the right to participate, other than to be a spectator, in the following activities: riding in or on a carriage, boat, train, plane, horse, chairlift, or other similar rides.

**Enacting Legislation:** S.L. 2018-5 – effective June 12, 2018 (these items were not previously taxed)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**20. Right to Participate in Certain Amusement Rides**

**Citation:** G.S. 105-164.4G(e)(6)c

**Description:** Exemption from tax for the right to participate, other than to be a spectator, in the following activities: amusement rides, including a waterslide.

**Enacting Legislation:** S.L. 2018-5 – effective June 12, 2018 (these items were not previously taxed)

**FY25-26 Estimate (in $millions):** 13.0

**FY26-27 Estimate (in $millions):** 14.1

**Data Source:** 2022 Economic Census, County Business Patterns and Nonemployer Statistics, US Census

**21. Membership Charges Deductible as Charitable Contribution**

**Citation:** G.S. 105-164.4G(f)(1)

**Description:** Exemption from tax on admission charges for the portion of a membership charge that is deductible as a charitable contribution under section 170 of the Code or that is described in section 170(ℓ)(2) of the Code.

**Enacting Legislation:** S.L. 2014-3 – effective May 29, 2014

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**22. Donated Admission Charges**

**Citation:** G.S. 105-164.4G(f)(2)

**Description:** Exemption from tax on admission charges for a donation that is deductible as a charitable contribution under section 170 of the Code or that is described in section 170(ℓ)(2) of the Code.

**Enacting Legislation:** S.L. 2014-3 – effective May 29, 2014

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**23. Amenities Exemption for Admission Charges**

**Citation:** G.S. 105-164.4G(f)(3)

**Description:** The value of amenities is excluded from the amount subject to tax. If charges for amenities are not separately stated on the face of an admission ticket, then the transaction is a bundled transaction and taxed in accordance with G.S. 105-164.4D except that subsection (a)(3) does not apply.

**Enacting Legislation:** S.L. 2013-316 - effective Jan. 1, 2014; formerly exempt under the privilege tax on amusements (S.L. 2010-31)

**FY25-26 Estimate (in $millions):** 1.6

**FY26-27 Estimate (in $millions):** 1.7

**Data Source:** 2012 US Economic Census; 2022 Services Annual Survey, US Census Bureau

**24. Events Sponsored by Primary and Secondary Schools**

**Citation:** G.S. 105-164.4G(f)(4)

**Description:** Exemption for admission charges to an event that is sponsored by an elementary or secondary school.

**Enacting Legislation:** S.L. 2013-316 - effective Jan. 1, 2014; formerly exempt from privilege tax on amusements under GS 105-40 (S.L. 1945-708)

**FY25-26 Estimate (in $millions):** 16.6

**FY26-27 Estimate (in $millions):** 16.9

**Data Source:** National Center for Educational Statistics; NC Department of Public Instruction; NC Department of Administration

**25. Events Sponsored Solely by a Nonprofit**

**Citation:** G.S. 105-164.4G(f)(5)

**Description:** Exemption for an event sponsored solely by a nonprofit entity that is exempt from tax under Article 4 of Chapter 105 if all the following conditions are met: (1) the entire proceeds are used exclusively for the entity's nonprofit purposes; (2) the entity does not declare dividends, receive profits, or pay salary or other compensation to any members or individuals; (3) the entity does not compensate any person for participating in the event or producing the event.

**Enacting Legislation:** S.L. 2014-3 - effective Jan. 1, 2015; formerly exempt from privilege tax on amusements under G.S. 105-40 and G.S. 106-507

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**26. Admission to Events on Farmland**

**Citation:** G.S. 105-164.4G(f)(6)

**Description:** Exempts tax on admission charge to an event sponsored by a farmer that takes place on farmland and is related to farming activities, such as a corn maze or a tutorial on raising crops, or animals. Eligible farmers must hold a qualifying farmer sales tax exemption certificate and the farmland is enrolled in the present-use value property tax program.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2014

**FY25-26 Estimate (in $millions):** 0.3

**FY26-27 Estimate (in $millions):** 0.4

**Data Source:** 2022 Census of Agriculture state-level data, National Agricultural Statistics Service, USDA

**27. Retailer-Contractor Provision for Real Property Contracts**

**Citation:** G.S. 105-164.4H(b)

**Description:** A retailer-contractor is allowed an exemption for sales of tangible personal property that is to be installed and becomes part of real property. The retailer-contractor pays use tax on its purchase price of the tangible property when it is withdrawn from inventory.

**Enacting Legislation:** S.L. 2014-3 - effective Jan. 1, 2015

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**28. Mixed Transaction Contract for RMI**

**Citation:** G.S. 105-164.4H(d)

**Description:** If taxable repair, maintenance or installation services (RMI) is included in a contract with a real property contract for a capital improvement, and the taxable RMI portion does not exceed 25% of the contract price, then taxable RMI and tangible personal property, digital property or service used to perform that service are taxable as a real property contract.

**Enacting Legislation:** S.L. 2016-94; S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**29. Certain Services Provided Under a Property Management Contract**

**Citation:** G.S. 105-164.4K(b)

**Description:** The following services provided by a real property manager pursuant to a real property contract: (1) to troubleshoot, identify, or attempt to identify the source of a problem for the purpose of determining what is needed to restore the real property to working order or good condition; (2) to inspect or monitor the real property, including the normal operation of all systems that are part of the real property.

**Enacting Legislation:** S.L. 2019-169 - effective July 26, 2019

**FY25-26 Estimate (in $millions):** 39.9

**FY26-27 Estimate (in $millions):** 43.3

**Data Source:** 2022 Economic Census; County Business Patterns (US Census); Nonemployer Statistics (US Census)

**30. Items Given Away by Merchants**

**Citation:** G.S. 105-164.12C

**Description:** A retailer engaged in the business of selling prepared food and drink for immediate or on-premises consumption, who gives prepared food or drink to its patrons or employees free of charge, does not have to pay use tax on the value of the property given away.

**Enacting Legislation:** S.L. 2012-79 - this provision was previously included in the definition of "sale or selling" that was adopted to comply with a decision by the North Carolina Court of Appeals (S.L. 1996-14)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**31. Certain Products of Forests and Mines Sold by Producers**

**Citation:** G.S. 105-164.13(3)

**Description:** Sales of products of forests and mines in their original or non-manufactured state when such sales are made by the producer in the capacity of producer.

**Enacting Legislation:** S.L. 1933-445

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** Although a portion of sales of these products will undergo further processing or be sold for resale, a sizable amount of goods will be sold at retail by the producer, especially products of the mine such as gravel sold to road contractors and coal sold to power companies.

**32. Farm Products Sold by Producer and Ice Used for Preservation**

**Citation:** G.S. 105-164.13(4b)

**Description:** Sales of products of a farm sold in their original state by the producer of the products if the producer is not primarily a retail merchant and ice used to preserve agriculture, aquaculture and commercial fishery products until the products are sold at retail.

**Enacting Legislation:** S.L. 1939-158; all ice was exempt prior to Sept. 1, 1990 (S.L. 1989-1068).

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** 2022 Census of Agriculture & 2023 Census of Aquaculture (National Agricultural Statistics Service, USDA)

**33. Commercial Logging Machinery**

**Citation:** G.S. 105-164.13(4f)

**Description:** Sales to a person engaged in the commercial logging business of the following: (a) logging machinery; (b) attachments and repair parts for logging machinery; (c) lubricants applied to logging machinery; and (d) fuel used to operate logging machinery.

**Enacting Legislation:** S.L. 2006-19 - effective for sales on or after July 1, 2006; items were previously taxed at a preferential rate of 1% with an $80 cap on each piece of machinery, attachments and parts.

**FY25-26 Estimate (in $millions):** 12.9

**FY26-27 Estimate (in $millions):** 13.0

**Data Source:** Department of Revenue tax data; Legislative Fiscal Note for House Bill 1938 (2006). The number of firms and trends in logging industry in North Carolina were derived from Bureau of Labor Statistics data

**Note:** Motor fuels used off-highway are not subject to motor fuels tax but are subject to the sales tax.

**34. Wood Chippers for Out-of-State Use**

**Citation:** G.S. 105-164.13(4g)

**Description:** Exemption for a purchase of a wood chipper by a person who purchases a motor vehicle (trailer) in this State that is to be registered in another state for use in towing the wood chipper.

**Enacting Legislation:** S.L. 2010-147 - effective for sales made on or after July 1, 2009

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Legislative fiscal note for House Bill 1973 (2009)

**35. Telecommunications Equipment**

**Citation:** G.S. 105-164.13(5b)

**Description:** Sales to a telephone company of central office equipment, private branch exchange equipment, terminal equipment (other than public pay telephone), switchboard equipment, and attached parts and accessories.

**Enacting Legislation:** S.L. 2005-276 - effective Oct. 1, 2005; these items were previously taxed at 1%, with an $80 cap (S.L. 1961-826); exempt prior to 1961

**FY25-26 Estimate (in $millions):** 92.6

**FY26-27 Estimate (in $millions):** 94.5

**Data Source:** 2022 Service Annual Survey & 2022 Capital Spending Report, US Census Bureau

**36. Radio and Television Broadcast Equipment**

**Citation:** G.S. 105-164.13(5c)

**Description:** Sales of towers, broadcasting equipment, and attached parts and accessories to an FCC-licensed radio or television company.

**Enacting Legislation:** S.L. 2005-276 - effective Oct. 1, 2005; these items were previously taxed at 1%, with an $80 cap (S.L. 1961-826); exempt prior to 1961

**FY25-26 Estimate (in $millions):** 5.4

**FY26-27 Estimate (in $millions):** 5.7

**Data Source:** 2022 Service Annual Survey & 2022 Capital Spending Report, US Census Bureau

**37. Cable Service Broadcast Equipment**

**Citation:** G.S. 105-164.13(5d)

**Description:** Sales of broadcasting equipment and attached parts and accessories, excluding cable, to a cable service provider.

**Enacting Legislation:** S.L. 2005-276 - effective Oct. 1, 2005; these items were previously taxed at 1%, with an $80 cap

**FY25-26 Estimate (in $millions):** 8.5

**FY26-27 Estimate (in $millions):** 8.8

**Data Source:** 2022 Service Annual Survey & 2022 Capital Spending Report, US Census Bureau

**38. Mill Machinery**

**Citation:** G.S. 105-164.13(5e)

**Description:** Sales of mill machinery or mill machinery parts or accessories. A manufacturingplant does not include (i) a retailer principally engaged in the retail sale of foods prepared by it or (ii) a production company.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; mill machinery, attachments and parts had previously been taxed at a preferential rate of 1% with an $80 cap per item under the sales tax statutes (S.L. 1961-826) or later under Article 5F; exempt prior to 1961

**FY25-26 Estimate (in $millions):** 289.5

**FY26-27 Estimate (in $millions):** 295.4

**Data Source:** Department of Revenue Article 5F tax database; 2022 Capital Expenditures Survey, US Census Bureau; Bureau of Labor Statistics employment series

**39. Major Recycling Facility Equipment**

**Citation:** G.S. 105-164.13(5f)

**Description:** Sales of (a) cranes, structural steel crane and support systems, and foundations related to the cranes and support systems, (b) port and dock facilities, (c) rail equipment, (d) material handling equipment to a major recycling facility.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; items had previously been subject to tax under Article 5F (S.L. 2005-276, effective Jan. 1, 2006)

**FY25-26 Estimate (in $millions):** 0.2

**FY26-27 Estimate (in $millions):** 0.2

**Data Source:** Department of Revenue Article 5F tax database

**40. R&D Company Equipment**

**Citation:** G.S. 105-164.13(5g)

**Description:** Sales of equipment, or an attachment or repair part for equipment, that (a) is sold to a company primarily engaged in R&D activities in the physical, engineering and life sciences, (b) is capitalized by the company for tax purposes under the Code, (c) is used by the company in the research and development of tangible personal property.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; items had previously been subject to tax under Article 5F (S.L. 2006-66, effective Jan. 1, 2007)

**FY25-26 Estimate (in $millions):** 3.7

**FY26-27 Estimate (in $millions):** 3.8

**Data Source:** Department of Revenue Article 5F tax database; 2022 Capital Expenditures Survey, US Census Bureau; Bureau of Labor Statistics employment series

**41. Software Publishing Company Equipment**

**Citation:** G.S. 105-164.13(5h)

**Description:** Sales of equipment, or an attachment or repair part for equipment, that (a) is sold to a company primarily engaged in software publishing activities, (b) is capitalized by the company for tax purposes under the Code, (c) is used by the company in the research and development of tangible personal property.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; items had previously been subject to tax under Article 5F (S.L. 2007-323, effective Oct. 1, 2007)

**FY25-26 Estimate (in $millions):** 5.1

**FY26-27 Estimate (in $millions):** 5.2

**Data Source:** Department of Revenue Article 5F tax database; 2022 Capital Expenditures Survey, US Census Bureau; Bureau of Labor Statistics employment series

**42. Industrial Machinery Refurbishing Equipment**

**Citation:** G.S. 105-164.13(5i)

**Description:** Sales of equipment, or an attachment or repair part for equipment, that (a) is sold to a company primarily engaged at the esstablishment in industrial machinery refurbishing activities, (b) is capitalized by the company for tax purposes under the Code, and (c) is used by the company in repairing or refurbishing tangible personal property.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; items had previously been subject to tax under Article 5F (S.L. 2008-107, effective July 1, 2008)

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Department of Revenue Article 5F tax database

**43. Ports Facility Equipment**

**Citation:** G.S. 105-164.13(5j)

**Description:** Sales of the following to a company located at a ports facility for waterborne commerce: (a) machinery and equipment that is used at the facility to unload or to facilitate the unloading or processing of bulk cargo to make it suitable for delivery to and use by manufacturing facilities, (b) parts, accessories, or attachments used to maintain, repair, replace, upgrade, improve, or otherwise modify such machinery and equipment.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; items had previously been subject to tax under Article 5F (S.L. 2011-302, effective July 1, 2013)

**FY25-26 Estimate (in $millions):** Unavailable – included in item #38

**FY26-27 Estimate (in $millions):** Unavailable – included in item #38

**44. Secondary Metals Recycler Equipment, Fuel and Electricity**

**Citation:** G.S. 105-164.13(5k)

**Description:** Sales of the following to a secondary metals recycler: (a) equipment, or an attachment or repair part for equipment, that (i) is capitalized for tax purposes under the Code; (ii) is used by the person in the secondary metals recycling process, and (iii) is not a motor vehicle or an attachment or repair part for a motor vehicle; (b) fuel, piped

natural gas, or electricity for use at the person's facility at which the primary activity is secondary metals recycling.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; items had previously been subject to tax under Article 5F (S.L. 2016-94, effective July 1, 2016)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**45. Precious Metals Extraction Equipment**

**Citation:** G.S. 105-164.13(5l)

**Description:** Sales of equipment, or an attachment or repair part for equipment, that meets all the following requirements: (a) is sold to a company primarily engaged at the establishment in processing tangible personal property for the purposes of extracting precious metals to determine the value for potential purchase, (b) is capitalized for tax purposes under the Code, (c) is used by the company in the process.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; items had previously been subject to tax under Article 5F (S.L. 2016-94, effective July 1, 2016)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**46. Large Metal Fabricator Equipment**

**Citation:** G.S. 105-164.13(5m)

**Description:** Sales of equipment, or an attachment or repair part for equipment, that (a) is sold to a company that is engaged in the fabrication of metal work and that has annual gross receipts of at least $8 million; (b) is capitalized for tax purposes under the Code; (c) is used by the company at the establishment in the fabrication or manufacture of metal products or used by the company to create equipment for the fabrication or manufacture of metal products.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; items had previously been subject to tax under Article 5F (S.L. 2016-94, effective July 1, 2016)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**47. Ready-Mix Concrete Mill Parts**

**Citation:** G.S. 105-164.13(5n)

**Description:** Sales of repair or replacement parts for a ready-mix concrete mill, regardless of whether the mill is freestanding or affixed to a motor vehicle, to a company that primarily sells ready-mix concrete.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2018; items had previously been subject to tax under Article 5F

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**48. Large Fulfillment Facility Equipment**

**Citation:** G.S. 105-164.13(5o)

**Description:** Sales of equipment, or an accessory, an attachment, or a repair part for equipment, that (a) is sold to a large fulfillment facility, (b) is used at the facility in the distribution process, which includes receiving, inventorying, sorting, repackaging, or distributing finished retail products, (c) is not electricity. The facility must invest at least $100 million in real and tangible property and maintain an employment level of at least 400.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**49. Certain Stone-Cutting Equipment**

**Citation:** G.S. 105-164.13(5p)

**Description:** Sales of equipment, or an attachment or repair part for equipment, which is used in cutting, shaping, polishing, and finishing rough cut slabs and blocks of natural and engineered stone and stone-like products and sold to a company primarily engaged in the business of providing made-to-order countertops, walls, or tubs.

**Enacting Legislation:** S.L. 2019-169 - effective Oct. 1, 2019

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**50. Equipment, Supplies and Other Items for Alcoholic Beverage Manufacturing**

**Citation:** G.S. 105-164.13(5q)

**Description:** Sales of machinery, equipment, parts and accessories sold to certain alcoholic beverage manufacturers, as well as supplies and ingredients used or consumed in the manufacturing process.

**Enacting Legislation:** S.L. 2021-150, effective October 1, 2021

**FY25-26 Estimate (in $millions):** 2.7

**FY26-27 Estimate (in $millions):** 2.7

**Data Source:** Bureau of Labor Statistics Quarterly Census of Employment and Wages; Department of Revenue tax records

**51. Aquacultural Products in Raw State**

**Citation:** G.S. 105-164.13(7)

**Description:** Sales of products of waters in their original or non-manufactured state when such sales are made by the producer in the capacity of producer. Fish and seafoods are likewise exempt when sold by the fisherman in that capacity.

**Enacting Legislation:** S.L. 1957-1340

**FY25-26 Estimate (in $millions):** 1.4

**FY26-27 Estimate (in $millions):** 1.4

**Data Source:** 2023 Census of Aquaculture (National Agricultural Statistics Service, USDA)

**52. Fuel for Small Power Production Facility**

**Citation:** G.S. 105-164.13(8a)

**Description:** Sales of fuel to a small power production facility used by the facility to generate electricity. A small power production facitliy is defined by 16 USC § 796(17)(A) as a facility that produces energy using primarily renewable resources and has a power production capacity of not more than 80 megawatts.

**Enacting Legislation:** S.L. 1989-989 - effective July 1, 1991

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**53. Tangible Property Purchased for Commercial Fishing**

**Citation:** G.S. 105-164.13(9)

**Description:** Sales of boats, fuel oil, lubricating oils, machinery, equipment, nets, rigging, paints, parts, accessories, and supplies used in commercial fishing.

**Enacting Legislation:** S.L. 1957-1340

**FY25-26 Estimate (in $millions):** 1.2

**FY26-27 Estimate (in $millions):** 1.2

**Data Source:** NC Fisheries Association, NC Division of Marine Fisheries; Department of Revenue tax data

**54. Items Used by Laundries and Dry Cleaning Businesses**

**Citation:** G.S. 105-164.13(10)

**Description:** Sales to commercial laundries or to dry cleaning establishments of articles or materials used for the identification of garments being laundered or dry cleaned, wrapping paper, bags, hangers, starch, soaps, and similar items applied directly to the garments. As of January 1, 2006, this section also exempts laundry and dry-cleaning machinery, parts and accessories attached to the machinery, lubricants applied to the machinery, and fuel, other than electricity.

**Enacting Legislation:** S.L. 1957-1340; S.L. 2005-276 for laundering machinery, parts and accessories, and lubricants - these items were subject to a 1% tax with an $80 maximum per article prior to January 1, 2006. Fuel was subject to a 1% tax prior to January 1, 2006.

**FY25-26 Estimate (in $millions):** 1.7

**FY26-27 Estimate (in $millions):** 1.8

**Data Source:** 2022 Economic Census, US Census Bureau; County Business Patterns, US Census Bureau; Department of Revenue tax data

**55. Lubricants, Materials and Electricity Used by Major Recycling Facility**

**Citation:** G.S. 105-164.13(10a)

**Description:** Sales to major recycling facility of (a) lubricants and other additives for motor vehicles or machinery; (b) materials and supplies used or consumed in the facility; (c) electricity used at the facility.

**Enacting Legislation:** S.L. 1998-55 - effective for sales on or after July 1, 1998

**FY25-26 Estimate (in $millions):** 4.7

**FY26-27 Estimate (in $millions):** 4.8

**Data Source:** Department of Revenue tax data; 2012 Economic Census materials-consumed data for steel mills, 2022 Economic Census, US Census Bureau

**Note:** Electricity estimates for purchases made on or after July 1, 2014 are based on the State combined rate, with no netting for distribution to local governments

**56. Motor Fuel or Alternative Fuel Taxed by Articles 36C or 36D**

**Citation:** G.S. 105-164.13(11)

**Description:** Motor fuel, as defined in G.S. 105‑449.60, except motor fuel for which a refund of the per gallon excise tax is allowed under G.S. 105‑449.105A or G.S. 105‑449.107; alternative fuel taxed under Article 36D of this Chapter, unless a refund of that tax is allowed under G.S. 105‑449.107.

**Enacting Legislation:** S.L. 1947-501

**FY25-26 Estimate (in $millions):** 0.0

**FY26-27 Estimate (in $millions):** 0.0

**Data Source:** Department of Revenue tax records; Energy Information Administration

**Note:** The estimate is the amount of tax that would be collected at the State combined tax rate of 7.0% in excess of the amount collected by the excise tax on motor fuels.

**57. Diesel Fuel for Railroads**

**Citation:** G.S. 105-164.13(11a)

**Description:** Diesel fuel for railroad companies for use in rolling stock other than motor vehicles.

**Enacting Legislation:** S.L. 1995-451 - effective September 1, 1995

**FY25-26 Estimate (in $millions):** 10.2

**FY26-27 Estimate (in $millions):** 10.2

**Data Source:** Association of American Railroads; Surface Transportation Board

**58. Fuel Purchases by an Interstate Air Business**

**Citation:** G.S. 105-164.13(11b)

**Description:** Sales of aviation gasoline and jet fuel to an interstate air business for use in a commercial aircraft.

**Enacting Legislation:** S.L. 2015-259 – effective Jan. 1, 2016

**Sunset Date:** Jan. 1, 2029

**FY25-26 Estimate (in $millions):** 18.0

**FY26-27 Estimate (in $millions):** 18.7

**Data Source:** Legislative fiscal note for House Bill 117 (2015); Department of Revenue data on jet fuel purchases

**59. Durable Medical Equipment**

**Citation:** G.S. 105-164.13(12)

**Description:** Sales of (a) prosthetic devices for human use; (b) mobility-enhancing equipment sold on a prescription; (c) durable medical equipment sold on prescription; (d) durable medical supplies sold on prescription; (e) human blood, including whole, plasma, and derivatives; (f) human tissue, eyes, DNA, or an organ.

**Enacting Legislation:** S.L. 1943-400 - effective July 1, 1943; S.L. 2017-204 added the last two items, effective Aug. 11, 2017

**FY25-26 Estimate (in $millions):** 129.3

**FY26-27 Estimate (in $millions):** 134.8

**Data Source:** Centers for Medicare & Medicaid Services (2023): National Health Expenditure Projections

**Note:** The estimate does not include sales to patients in hospitals, nursing homes, and other provider settings, although optical goods sold by optometrists are included.

**60. Prescription Drugs and Insulin for Human Use**

**Citation:** G.S. 105-164.13(13)

**Description:** Drugs required by federal law to be dispensed only on prescription, over-the-counter drugs sold on prescription, and insulin. This exemption does not apply to over-the-counter drugs purchased by hospitals and other medical facilities for use and treatment of patients.

**Enacting Legislation:** S.L. 1937-406; the exemption for insulin was added by S.L. 1988-937, effective for sales on or after August 1, 1988.

**FY25-26 Estimate (in $millions):** 973.8

**FY26-27 Estimate (in $millions):** 1,028.0

**Data Source:** Centers for Medicare & Medicaid Services (2023): National Health Expenditure Projections

**Note:** The estimate does not include sales to patients in hospitals, nursing homes, and other provider settings.

**61. Drugs Prescribed by a Veterinarian**

**Citation:** G.S. 105-164.13(13)

**Description:** Drugs required by federal law to be dispensed only on prescription and over-the-counter drugs sold on prescription (by veterinarians). The exemption does not include pet food or feed to animals.

**Enacting Legislation:** S.L. 1985-555, effective July 1, 1985, added veterinarians to the list of professionals whose prescriptions were exempt. S.L. 1953-983 had added veterinarians previously, but that statute was repealed by S.L. 1961-826.

**FY25-26 Estimate (in $millions):** 19.8

**FY26-27 Estimate (in $millions):** 20.5

**Data Source:** American Veterinary Medical Association; 2012, 2017 and 2022 Economic Censuses

**Note:** The estimate does not include vaccines and medications for farm animals, which are predominantly exempt under G.S. 105-164.13E(6)a.

**62. Diapers and Incontinence Pads for Medicaid Beneficiaries**

**Citation:** G.S. 105-164.13(13d)

**Description:** Exemption for sales of diapers or incontinence underpads on prescription by an enrolled State Medicaid provider for use by beneficiaries of the State Medicaid program when the provider is reimbursed by the State Medicaid program or a Medicaid managed care organization, as defined in 42 U.S.C. § 1396b(m).

**Enacting Legislation:** S.L. 2019-169 - effective October 1, 2019

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**63. Public School Books**

**Citation:** G.S. 105-164.13(14)

**Description:** Sales of public school books on the adopted list, the selling price of which is set by State contract.

**Enacting Legislation:** S.L. 1933-445

**FY25-26 Estimate (in $millions):** 1.5

**FY26-27 Estimate (in $millions):** 1.5

**Data Source:** N.C. Department of Public Instruction - expenditures on textbooks from annual statistical report

**Note:** Except for this specific exemption, textbook sales in North Carolina are taxable.

### 64. Accounts of Sales Charged Off for Income Purposes

**Citation:** G.S. 105-164.13(15)

**Description:** Accounts of purchasers, representing taxable sales, on which the sales and use tax has been paid, that are found to be worthless and actually charged off for income tax purposes may be deducted from gross sales. In the case of a municipality that sells electricity, the account may be deducted if it meets all the conditions for charge-off that would apply if the municipality were subject to income tax.

**Enacting Legislation:** S.L. 1933-445

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

### 65. Sales by Blind Merchants

**Citation:** G.S. 105-164.13(20)

**Description:** Sales by blind merchants operating under supervision of the Department of Health and Human Services.

**Enacting Legislation:** S.L. 1957-1340

**FY25-26 Estimate (in $millions):** 0.4

**FY26-27 Estimate (in $millions):** 0.4

**Data Source:** Business Enterprise Program statistics from the N.C. Department of Health and Human Services, Division of Services for the Blind

### 66. Lease or Rental of Films for Exhibition

**Citation:** G.S. 105-164.13(21)

**Description:** Lease or rental of motion picture films used for exhibition purposes where the lease or rental of such property is an established business or part of an established business.

**Enacting Legislation:** S.L. 1957-1340

**FY25-26 Estimate (in $millions):** 7.2

**FY26-27 Estimate (in $millions):** 7.4

**Data Source:** Department of Revenue tax data; 2022 Service Annual Survey (US Census Bureau); 2022 Economic Censuses

**67. Lease or Rental of Films, Transcriptions and Recordings to Broadcasters**

**Citation:** G.S. 105-164.13(22)

**Description:** Lease or rental of films, motion picture films, transcriptions and recordings to radio stations and television stations operating under a certificate from the Federal Communications Commission.

**Enacting Legislation:** S.L. 1957-1340

**FY25-26 Estimate (in $millions):** 12.4

**FY26-27 Estimate (in $millions):** 12.5

**Data Source:** Department of Revenue tax data; 2022 Service Annual Survey (US Census Bureau); 2022 Economic Census

**68. Audiovisual Masters**

**Citation:** G.S. 105-164.13(22a)

**Description:** Sales of audiovisual masters made or used by a production company in making images for first generation reproduction.

**Enacting Legislation:** S.L. 1997-521 - effective Oct. 1, 1997

**FY25-26 Estimate (in $millions):** 0.7

**FY26-27 Estimate (in $millions):** 0.7

**Data Source:** 2022 Service Annual Survey (US Census Bureau); Bureau of Labor Statistics Quarterly Census of Employment and Wages

**69. Packaging Items for Manufacturers**

**Citation:** G.S. 105-164.13(23)a

**Description:** Sales of the following packaging items: wrapping paper, cloth, plastic bags, labels, wrapping twine, packages and containers, cartons, cores, cones or spools, wooden boxes, baskets, coops and barrels, and like articles sold to manufacturers, when such materials constitute a part of the sale of tangible personal property.

**Enacting Legislation:** S.L. 1957-1340

**FY25-26 Estimate (in $millions):** 93.3

**FY26-27 Estimate (in $millions):** 95.5

**Data Source:** 2012 & 2022 Economic Census (US Census Bureau); County Business Patterns (US Census Bureau)

**Note:** Packaging costs related to glass, plastic and metal containers that are likely to be included in final products for resale were not included in the estimates.

**70. Packaging Items for Retailers**

**Citation:** G.S. 105-164.13(23)a

**Description:** Sales of the following packaging items: wrapping paper, cloth, plastic bags, labels, wrapping twine, packages and containers, cartons, including paper cups, napkins and drinking straws and like articles sold to retailers, when such materials constitute a part of the sale of tangible personal property.

**Enacting Legislation:** S.L. 1957-1340

**FY25-26 Estimate (in $millions):** 32.2

**FY26-27 Estimate (in $millions):** 33.5

**Data Source:** Business Expenses Estimates from 2012 Economic Census; 2022 Economic Census (US Census Bureau); County Business Patterns (US Census Bureau): Bureau of Labor Statistics

**Note:** The estimate includes costs associated with retail trade, wholesale trade and food services. Due to possibility of resale, only 20% of wholesale packaging costs are included in the estimates.

**71. Packaging Returned to Seller**

**Citation:** G.S. 105-164.13(23)b

**Description:** Packaging that is required to be returned to seller.

**Enacting Legislation:** S.L. 1997-397 - effective Oct. 1, 1997

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** Prior to the enactment of this exemption, these items were being taxed as reusable containers. In practice, many of these containers contained ingredient materials that were exempt from taxation. The sellers of the products were taxed on the lease of the containers.

**72. Fuel and Consumables Used by Boats Transporting Freight**

**Citation:** G.S. 105-164.13(24)

**Description:** Exemption of fuel and other tangible personal property for use or consumption by on on watergoing vessels for transport of freight in intrastate, interstate or foreign commerce in intracoastal waterways, sounds or rivers (formerly exempion

was just for freight on ocean going vessels which ply the high seas, which was not considered a tax expenditure for this report).

**Enacting Legislation:** S.L. 2023-134 - effective for sales occurring on or after Nov. 1, 2023

**FY25-26 Estimate (in $millions):** 0.5

**FY26-27 Estimate (in $millions):** 0.5

**Data Source:** Legislative Fiscal Note for HB 259 (2023), adjusted for the change in effective start date

**Note:** This citation also allows an exempion for freight on ocean going vessels which ply the high seas, which has not been considered a tax expenditure for this report.

**73. Food Sold in a School**

**Citation:** G.S. 105-164.13(26)

**Description:** Food and prepared food sold in a school building during the regular school day.

**Enacting Legislation:** S.L. 1961-826 - effective July 1, 1961

**FY25-26 Estimate (in $millions):** 7.5

**FY26-27 Estimate (in $millions):** 7.3

**Data Source:** Department of Public Instruction; Division of Non-Public Education, Department of Administration

**Note:** Meals paid by federal or state funds were excluded from the estimate.

**74. Food Sold by a Public School Cafeteria to Certain Childcare Centers**

**Citation:** G.S. 105-105.164.13(26a)

**Description:** Sales of food sold not for profit by a public school cafeteria to a childcare center that participates in the Child and Adult Care Food Program.

**Enacting Legislation:** S.L. 1991-931 - effective Aug. 1, 1992

**FY25-26 Estimate (in $millions):** 0.5

**FY26-27 Estimate (in $millions):** 0.5

**Data Source:** Food and Nutrition Service, US Department of Agriculture

**75. Food Sold Not for Profit Related to a School**

**Citation:** G.S. 105-105.164.13(26b)

**Description:** Food, prepared food, soft drinks, cany and other items sold not for profit for or at an event that is sponsored by an elementary or secondary school when the net proceeds of the sales will be given or contributed to the school or to a nonprofit charitable organization, one of whose purposes is to serve as a conduit through which the net proceeds will flow to the school.

**Enacting Legislation:** S.L. 2016-5 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**76. Meals for the Elderly**

**Citation:** G.S. 105-164.13(31)

**Description:** Sales of meals not for profit to elderly and incapacitated persons by charitable or religious organizations not operated for profit which are entitled to the refunds provided by G.S. 105-164.14(b), when such meals are delivered to the purchasers at their places of abode.

**Enacting Legislation:** S.L. 1975-982 - effective July 1, 1976

**FY25-26 Estimate (in $millions):** 1.7

**FY26-27 Estimate (in $millions):** 1.7

**Data Source:** Meals on Wheels data from Wake, Mecklenburg, Guilford, Cabarrus and Rowan Counties

**77. Food Sold by a Church or Religious Organization**

**Citation:** G.S. 105-164.13(31a)

**Description:** Food sold by a church or religious organization not operated for profit when proceeds are used for religious purposes.

**Enacting Legislation:** S.L. 1989-1060 - effective for sales on or after Oct. 1, 1990

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**78. Motor Vehicle Exemption Less Highway Use Tax**

**Citation:** G.S. 105-164.13(32)

**Description:** Sales of motor vehicles, the sale of a motor vehicle body to be mounted on a motor vehicle chassis when a certificate of title has not been issued for the chassis, and the sale of a motor vehicle body mounted on a motor vehicle chassis that temporarily enters the State so the manufacturer of the body can mount the body or chassis.

**Enacting Legislation:** S.L. 1989-692 added the exemption for motor vehicles and created the Highway Use Tax. Motor vehicles had been taxed under the sales tax prior to this and were taxed at preferential rates with a cap.

**FY25-26 Estimate (in $millions):** 926.9

**FY26-27 Estimate (in $millions):** 952.8

**Data Source:** NC Department of Transportation; NC Department of Revenue

**Note:** The estimate only includes the sales of vehicles. The estimate is the additional revenue that would be collected at the 4.75% sales tax rate above the 3% Highway Use Tax. It is assumed that there would be no trade-in allowance (see estimate for G.S. 105-187.3(b)).

**79. Sales by Nonprofits Whose Proceeds Go to the State**

**Citation:** G.S. 105-164.13(34)

**Description:** Sales of items by a nonprofit civic, charitable, educational, scientific or literary organization when the net proceeds of the sales will be given to the State of North Carolina or to one of its agencies or instrumentalities, or to one or more nonprofit charitable organizations, one of whose purposes is to serve as a conduit through which such net proceeds will flow to the State or to one or more of its agencies or instrumentalities.

**Enacting Legislation:** S.L. 1979-801 - effective for sales on or after Jan. 1, 1974

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**80. Sales by Nonprofits Conducted Annually**

**Citation:** G.S. 105-164.13(35)

**Description:** Sales by nonprofits conducted annually when the proceeds are used for the organization's activities. The products sold must be delivered to the purchaser within 60 days after the first solicitation of any sale made during the organization's annual sales period. S.L. 2023-12 added conditions for nonprofits that conducted more than one annual sales event..

**Enacting Legislation:** S.L. 1979-801 - effective for sales on or after July 1, 1979

**FY25-26 Estimate (in $millions):** 2.4

**FY26-27 Estimate (in $millions):** 2.4

**Data Source:** Girl Scout & Boy Scout receipts from Guidestar

**81. Advertising Supplements Sold with Newspapers**

**Citation:** G.S. 105-164.13(36)

**Description:** Advertising supplements and any other printed matter ultimately to be distributed with or as part of a newspaper.

**Enacting Legislation:** S.L. 1983-873 – effective July 20, 1983

**FY25-26 Estimate (in $millions):** 0.3

**FY26-27 Estimate (in $millions):** 0.2

**Data Source:** Annual reports of publicly-traded newspaper companies; 2022 Service Annual Survey (US Census Bureau)

**82. Components of Free Distribution Periodicals**

**Citation:** G.S. 105-164.13(39)

**Description:** Sales of paper, ink, and other tangible personal property to commercial printers and commercial publishers for use in free distribution periodicals and sales by printers of free distribution periodicals to the publishers of these periodicals.

**Enacting Legislation:** S.L. 1985-656 - effective Oct. 1, 1985; S.L. 1999-438 repealed this exemption, effective Oct. 1, 1999; S.L. 2004-124 reinstated this exemption, effective July 1, 2005

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** An estimate was provided by a legislative fiscal note for House Bill 1149 (2003-04 session)

**83. Sales to the Department of Transportation**

**Citation:** G.S. 105-164.13(40)

**Description:** Sales to the North Carolina Department of Transportation. This exemption does not apply to sales of tangible personal property to contractors for use in the performance of contracts with the Department of Transportation.

**Enacting Legislation:** S.L. 1985-973 - effective Aug. 1, 1986

**FY25-26 Estimate (in $millions):** 0.0

**FY26-27 Estimate (in $millions):** 0.0

**Note:** Additional sales tax revenue would be offset by additional State costs.

### 84. Mobile Classrooms Purchased by Boards of Education or Community Colleges

**Citation:** G.S. 105-164.13(41)

**Description:** Sales of mobile classrooms to local boards of education or to local boards of trustees of community colleges.

**Enacting Legislation:** S.L. 1993-484 - effective Oct. 1, 1993; this exemption was enacted when mobile offices and classrooms became taxable under the sales tax rather than the highway use tax.

**FY25-26 Estimate (in $millions):** 0.7

**FY26-27 Estimate (in $millions):** 0.7

**Data Source:** Amount spent on mobile classrooms was estimated using data from NC Public Schools; various LEA budgets

### 85. Articles Donated by Retailer or Wholesaler

**Citation:** G.S. 105-164.13(42)

**Description:** Tangible personal property that is purchased by a retialer for resale or is manufactured or purchased by a wholesale merchant for resale and then withdrawn from inventory and donated by the retailer or wholesale merchant.

**Enacting Legislation:** S.L. 1996-14 - effective Aug. 1, 1996

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

### 86. Custom Computer Software

**Citation:** G.S. 105-164.13(43)

**Description:** Sales of custom computer software and the portion of prewritten computer software that is modified or enhanced if the modification or enhancement is designed and developed to the specifications of a specific purchaser.

**Enacting Legislation:** S.L. 1983-713 excluded custom computer software from the definition of "tangible property"; S.L. 1997-370, effective for sales made on or after Oct. 1, 1997, changed the statutes to the more restrictive exemption.

**FY25-26 Estimate (in $millions):** 123.6

**FY26-27 Estimate (in $millions):** 126.1

**Data Source:** 2022 Capital Expenditures Survey and 2022 Service Annual Survey, US Census Bureau

**87. Certain Computer Software**

**Citation:** G.S. 105-164.13(43a)

**Description:** Computer software that meets any of the following descriptions: (a) it is designed to run on an enterprise server operating system, (b) it is sold to a person who operates a datacenter and is used within the datacenter, (c) it is sold to a person who provides cable service; telecommunications service, or video programming and is used to provide ancillary service, cable service, Internet access service, telecommunications service, or video programming.

**Enacting Legislation:** S.L. 2009-451 - effective Jan. 1, 2010. Prior to this legislation, digital downloads were not subject to the sales tax.

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**88. Component Software or Digital Property**

**Citation:** G.S. 105-164.13(43b)

**Description:** Effective January 1, 2010: Computer software or digital property that becomes a component part of other computer software or digital property that is offered for sale or of a service that is offered for sale.

**Enacting Legislation:** S.L. 2009-451 - effective Jan. 1, 2010

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**89. Certain Items Purchased by Interstate Passenger Air Carriers**

**Citation:** G.S. 105-164.13(45)

**Description:** Sales of aircraft lubricants, repair parts and accessories to an interstate passenger air carrier for use at its hub.

**Enacting Legislation:** S.L. 1999-360 - effective Jan. 1, 2001

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**90. Lubricants and Parts Used in Maintenance of Commercial Aircraft**

**Citation:** G.S. 105-164.13(45a)

**Description:** Sales to an interstate air business of tangible personal property that becomes a component part of or is dispensed as a lubricant into commercial aircraft during its maintenance, repair, or overhaul.

**Enacting Legislation:** S.L. 2004-124 - effective Oct. 1, 2004

**FY25-26 Estimate (in $millions):** 7.9

**FY26-27 Estimate (in $millions):** 8.2

**Data Source:** 2022 Service Annual Survey; share of maintenance material in airline expenses from Air Transport Association "Quarterly Cost Index"; Bureau of Labor Statistics data on Air Transportation quarterly employment and wages

**91. Certain Items Purchased by Interstate Air Couriers**

**Citation:** G.S. 105-164.13(45b)

**Description:** Sales to interstate air courier (a) aircraft lubricants, repair parts and accessories, (b) materials handling equipment, racking systems, and related parts and accessories for the storage or handling and movement of tangible personal property at an airport or in a warehouse or distribution facility.

**Enacting Legislation:** S.L. 1999-360 added part (a) of this exemption, effective Jan. 1, 2001; S.L. 2005-276, effective Oct. 1, 2005, added the remaining parts; these items were previously subject to a 1% tax, with a $80 cap per item since Jan. 1, 2001 (S.L. 1998-55)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**92. Aircraft Simulators**

**Citation:** G.S. 105-164.13(45c)

**Description:** Sales of aircraft simulators to a company for flight crew training and maintenance training.

**Enacting Legislation:** S.L. 2009-511, effective Oct. 1, 2009; S.L. 2005-276 had allowed an exemption only for interstate air carriers; purchases by interstate air carriers or interstate air couriers were previously taxed at 1%, with a $80 cap, effective for purchases made on or after May 1, 1999 (S.L. 1999-360)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**93. Items Related to Qualified Aircraft or Qualified Jet Engine**

**Citation:** G.S. 105-164.13(45d)

**Description:** Parts and accessories for use in the repair or maintenance of a qualified aircraft or a qualified jet engine. S.L. 2023-134 expanded the deduction to include aircraft with a maximum take-off weight between 2,000 and 9,000 pounds.

**Enacting Legislation:** S.L. 2015-259 – effective Oct. 1, 2015

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**94. Items related to Interstate Air and Ground Courier**

**Citation:** G.S. 105-164.13(45e)

**Description:** Exemption for sales to an interstate air and ground courier of materials handling equipment, automated conveyor systems, racking systems, and related parts and accessories for the storage or handling and movement of tangible personal property at its package sorting facility.

**Enacting Legislation:** S.L. 2022-74 -- effective for purchases made on or after July 1, 2022

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** The investment of private funds must be at least $100 million and the employment level must be at least 400 within 5 years after the date the facility is placed into service. Refer to estimates in Legislative Fiscal Note for House Bill 103 (2022).

**95. Electricity to Municipalities Supplied by Federal Agency**

**Citation:** G.S. 105-164.13(46)

**Description:** Sales of electricity by a municipality whose only wholesale provider is a federal agency and who is required by a contract with that federal agency to make payments in lieu of taxes.

**Enacting Legislation:** S.L. 1999-438 - prior to this, the exemption was included in the definition of "utility" in G.S. 105-164.3 when the sales tax was applied to electricity in 1985 - S.L. 1985-23.

**FY25-26 Estimate (in $millions):** 2.9

**FY26-27 Estimate (in $millions):** 2.9

**Data Source:** Tennessee Valley Authority report for Federal Fiscal Year 2018

**Note:** The estimates are based on a 7% combined State rate. Payments by TVA in lieu of taxes have been netted out of the estimates.

### 96. Delivery Charges of Direct Mail

**Citation:** G.S. 105-164.13(49a)

**Description:** Delivery charges for delivery of direct mail if the charges are separately stated on an invoice.

**Enacting Legislation:** S.L. 2004-124 - effective Oct. 1, 2004

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** An estimate was provided by a legislative fiscal note for HB 1414 (2003-04 session)

### 97. Goods Sold Through Vending Machines

**Citation:** G.S. 105-164.13(50)

**Description:** 50% of the sales price of goods sold through coin-operated vending machines, except tobacco and newspapers.

**Enacting Legislation:** S.L. 1987-854 - effective July 1, 1989; this exemption was originally included in G.S. 105-164.3 under the definition of "sales price"

**FY25-26 Estimate (in $millions):** 13.6

**FY26-27 Estimate (in $millions):** 13.7

**Data Source:** "2023 State of the Vending Industry Report," Automatic Merchandiser; 2022 Economic Censuses; Bureau of Labor Statistics Quarterly Census of Employment and Wages

**98. Water Delivered Through Main Pipes**

**Citation:** G.S. 105-164.13(51)

**Description:** Water delivered through main lines for either commercial or domestic use or consumption.

**Enacting Legislation:** S.L. 2003-284 -- prior to this, water delivered through main lines or pipes was excluded from tax because it was excluded from the definition of tangible personal property.

**FY25-26 Estimate (in $millions):** 98.5

**FY26-27 Estimate (in $millions):** 100.4

**Data Source:** NC Department of Energy and Natural Resources; "Statistical Information on Water and Sewer Operations," North Carolina Department of State Treasurer

**Note:** The estimate only considers a sales tax on the variable rates on water consumption. It does not include fixed charges or wastewater rates. Prior to July 1, 2014, there was a franchise tax on water companies subject to regulation by the North Carolina Utilities Commission; the tax is 4% of taxable gross receipts from the operation of a water system and 6% of gross receipts from the operation of a public sewer system; however, systems owned by counties and municipal corporations are exempt from the franchise tax.

**99. Sales to State Agencies**

**Citation:** G.S. 105-164.13(52)

**Description:** Items subject to sales and use tax under G.S. 105‑164.4, other than electricity, telecommunications service, and ancillary service. The items must be purchased by a State agency for its own use and in accordance with G.S. 105‑164.29A.

**Enacting Legislation:** S.L. 2003-431, effective for sales made on or after July 1, 2004

**FY25-26 Estimate (in $millions):** 0.0

**FY26-27 Estimate (in $millions):** 0.0

**100. Aerial Survey Data**

**Citation:** G.S. 105-164.13(53)

**Description:** Sales to a professional land surveyor of tangible personal property on which custom aerial survey data is stored in digital form or is depicted in graphic form.

**Enacting Legislation:** S.L. 2004-124 - effective Oct. 1, 2004

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** 2017 Business Product data for Industry Codes related to Surveying Services (US Census Bureau)

**101. Pay Telephone Services**

**Citation:** G.S. 105-164.13(54)b

**Description:** Receipts of a pay telephone provider from the sale of pay telephone services.

**Enacting Legislation:** S.L. 2001-430 - effective Jan. 1, 2002. Pay telephone calls that are paid for by coin were exempt by S.L. 1998-197, effective Jan. 1, 2000.

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**102. 911 Charges**

**Citation:** G.S. 105-164.13(54)c

**Description:** 911 charges imposed under G.S. 62A-43 and remitted to the 911 Fund under that section.

**Enacting Legislation:** S.L. 2001-430 - effective Jan. 1, 2002

**FY25-26 Estimate (in $millions):** 6.5

**FY26-27 Estimate (in $millions):** 6.6

**Data Source:** 2024 State 911 Plan Report, NC 911 Board

**Note:** The estimate is based on the State tax rate on telecommunications, which is 7% for the relevant time periods.

**103. Telephone Charges Related to Occupancy of an Accommodation**

**Citation:** G.S. 105-164.13(54)d

**Description:** Charges for telephone service made by a hotel, motel, or another entity whose gross receipts are taxable under G.S. 105-164.4(a)(3) when the charges are incidental to the occupancy of the entity's accommodations.

**Enacting Legislation:** S.L. 2001-430 - effective Jan. 1, 2002

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** 2012 Economic Census product-line data for accomodations

**Note:** The estimate is based on the State tax rate on telecommunications, which is 7% for the relevant time periods.

**104. Charges Related to State Network and Other Government Data Networks**

**Citation:** G.S. 105-164.13(54)e

**Description:** Charges to a State agency or to a local unit of government for the State Network and other data networks owned or leased by the State or unit of local government.

**Enacting Legislation:** S.L. 2001-487 - effective Jan. 1, 2002

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**105. Electricity and Equipment for an Eligible Internet Datacenter**

**Citation:** G.S. 105-164.13(55)

**Description:** Sales of electricity and certain business property to an eligible Internet datacenter. The datacenter must be located in a Tier 1 or Tier 2 county and at least $250 million must be invested in real or eligible business property over 5 years. Eligible business property includes equipment cooling systems; equipment used in the generation, transformation, transmission, distribution, or management of electricity; and property used to provide related computer engineering or computer science research.

**Enacting Legislation:** S.L. 2006-66 - effective for sales on or after Oct. 1, 2006

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**106. Electricity and Equipment for a Qualifying Datacenter**

**Citation:** G.S. 105-164.13(55a)

**Description:** Sales of electricity and datacenter support equipment to an eligible datacenter. The datacenter must invest at least $75 million in real or tangible property within a 5-year period, beginning on or after Jan. 1, 2012.

**Enacting Legislation:** S.L. 2015-259 - effective Jan. 1, 2016

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** See estimate in Legislative Fiscal Note for House Bill 117 (2015)

**107. Locomotives, Cranes and Trucks for a Railroad Intermodal Facility**

**Citation:** G.S. 105-164.13(56)

**Description:** Sales to the owner or lessee of an eligible railroad intermodal facility of intermodal cranes, intermodal hostler trucks, and railroad locomotives that reside on the premises of the facility and are used at the facility.

**Enacting Legislation:** S.L. 2007-323 - effective Jan. 1, 2007

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**108. Electricity Used by Manufacturers**

**Citation:** G.S. 105-164.13(57)

**Description:** Electricity sold to a manufacturer for use in connection with the operation of a manufacturing plant. The exemption does not apply to electricity used at a facility at which the primary activity is not manufacturing.

**Enacting Legislation:** S.L. 2007-397 - effective July 1, 2010; prior to this, electricity for manufacturing had a preferential tax rate of 2.83% (S.L. 1996 2nd extra session-2013), which was phased out between Oct. 1, 2007 and June 30, 2010.

**FY25-26 Estimate (in $millions):** 108.7

**FY26-27 Estimate (in $millions):** 110.4

**Data Source:** Department of Revenue tax data; Energy Information Administration

**Note:** Estimates for electricity purchases made on or after July 1, 2014 are based on the 7% State combined tax rate. No deduction to the estimates is made to account for related distributions to municipalities of a share of tax revenues.

**109. Piped Natural Gas Used by Manufacturers (except Power Plants)**

**Citation:** G.S. 105-164.13(57)

**Description:** Piped natural gas sold to a manufacturer (except a power plant) for use in connection with the operation of a manufacturing plant. Piped natural gas used for comfort heating only is not included in this exemption.

**Enacting Legislation:** S.L. 2007-397 - effective July 1, 2010; prior to this, the piped natural gas tax implicitly gave manufacturers a tax break by having a tax schedule that gave reduced rates to large end-users; rates for manufacturers were further reduced between Oct. 1, 2007 and June 30, 2010.

**FY25-26 Estimate (in $millions):** 43.1

**FY26-27 Estimate (in $millions):** 43.6

**Data Source:** Department of Revenue tax databases; Energy Information Administration

**Note:** Estimates for piped natural gas purchases made on or after July 1, 2014 are based on the 7% State combined tax rate. No deduction to the estimates is made to account for related distributions to municipalities of a share of tax revenues.

**110. Piped Natural Gas Used by Manufacturers (Power Plants)**

**Citation:** G.S. 105-164.13(57)

**Description:** Piped natural gas sold to a power plant for use in connection with the operation of a manufacturing plant. Piped natural gas used for comfort heating only is not included in this exemption.

**Enacting Legislation:** S.L. 2007-397 - effective July 1, 2010; prior to this, the piped natural gas tax implicitly gave manufacturers a tax break by having a tax schedule that gave reduced rates to large end-users; rates for manufacturers were further reduced between Oct. 1, 2007 and June 30, 2010.

**FY25-26 Estimate (in $millions):** 104.2

**FY26-27 Estimate (in $millions):** 108.4

**Data Source:** Department of Revenue tax databases; Energy Information Administration

**Note:** Estimates for piped natural gas purchases made on or after July 1, 2014 are based on the 7% State combined tax rate. No deduction to the estimates is made to account for related distributions to municipalities of a share of tax revenues.

**111. Other Fuel Used by Manufacturers**

**Citation:** G.S. 105-164.13(57)

**Description:** Other fuel sold to a manufacturer for use in connection with the operation of a manufacturing plant.

**Enacting Legislation:** S.L. 2007-397 - effective July 1, 2010; prior to this, fuel for manufacturing had a preferential tax rate of 1% (S.L. 1961-826), which was phased out between Oct. 1, 2007 and June 30, 2010; S.L. 1955-1313 exempted fuel for manufacturing

**FY25-26 Estimate (in $millions):** 15.2

**FY26-27 Estimate (in $millions):** 15.6

**Data Source:** Department of Revenue tax databases; Energy Information Administration

**Note:** Estimates are based on the 4.75% State sales and use tax rate.

**112. Disaster Assistance Debit Card Purchases**

**Citation:** G.S. 105-164.13(58)

**Description:** Tangible personal property purchased with a client assistance debit card issued for disaster assistance relief by a State agency or a federal agency or instrumentality.

**Enacting Legislation:** S.L. 2008-107 - effective Aug. 1, 2008

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**113. Interior Design Services**

**Citation:** G.S. 105-164.13(59)

**Description:** Interior design services provided in conjunction with the sale of tangible personal property.

**Enacting Legislation:** S.L. 2008-107 - effective Aug. 1, 2008

**FY25-26 Estimate (in $millions):** 2.9

**FY26-27 Estimate (in $millions):** 3.0

**Data Source:** County Business Patterns and Nonemployer Statistics for the relevant industry subsector

**Note:** The estimate assumes 10% of estimated services would be taxable. The estimate does not factor in sales of decorator charges by other types of businesses, such as furniture stores. In general, charges by retailers for services necessary to complete a sale of tangible personal property are considered part of the sales price and are therefore taxable. The Department of Revenue issued a technical bulletin related to interior design services prior to this exemption setting out guidelines for taxpayers regarding when the services would be taxable.

**114. Motor Vehicle Service Contract**

**Citation:** G.S. 105-164.13(61)

**Description:** A motor vehicle service contract is exempt.

**Enacting Legislation:** S.L. 2015-259 - effective March 1, 2016 (re-codified by S.L. 2017-204)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** Service contracts on motor vehicles were taxable as of Jan. 1, 2014 and prior to March 1, 2016. Repair & maintenance services related to service contracts (except manufacturer or dealer warranties) were taxable as of March 1, 2016.

### 115. Service Contracts or RMI Services on Exempt Items

**Citation:** G.S. 105-164.13(61a)a

**Description:** Receipts from service contracts and RMI services related to an item exempt from tax under this Article are exempt. Also, property and services used to fulfill a service or contract for this item are exempt. This exemption does not apply to water for a pool, fish tank or similar aquatic feature or to a motor vehicle, except as provided under G.S. 105-164.13(62a).

**Enacting Legislation:** S.L. 2013-316 - effective Jan. 1, 2014 for service contracts; effective March 1, 2016 for RMI services

**FY25-26 Estimate (in $millions):** 188.3

**FY26-27 Estimate (in $millions):** 193.0

**Data Source:** Based on this report's estimates of the following exempt items: equipment exempt by G.S. 105.164.13(5a) through G.S. 105-164.13(5o); durable medical equipment; commercial logging machinery; and datacenter equipment. The estimate of service contract rate is derived from the "service contract" product line for retailers in 2012 Economic Census, US Census Bureau; repair and maintenance costs are estimated based on Annual Survey of Manufacturers (US Census Bureau)

### 116. Motor Vehicle Emissions and Safety Inspection Fee

**Citation:** G.S. 105-164.13(61a)b

**Description:** A motor vehicle emissions and safety inspection fee imposed pursuant to G.S. 20-183.7, provided the fee is separately stated on the invoice or other documentation provided to the purchaser at the time of sale.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 7.9

**FY26-27 Estimate (in $millions):** 8.0

**Data Source:** Estimates based on NC DOT Highway Fund financial statements

### 117. Services Performed by a Related Person

**Citation:** G.S. 105-164.13(61a)c

**Description:** Services performed for a person by a related member.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**118. Services Related to Cleaning of Real Property**

**Citation:** G.S. 105-164.13(61a)d

**Description:** Cleaning of real property, except where the service constitutes a part of the gross receipts derived from the rental of an accommodation subject to tax under G.S. 105-164.4 or for a pool, fish tank, or other similar aquatic feature.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 89.7

**FY26-27 Estimate (in $millions):** 94.2

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

**119. Services on Roads, Driveways, Parking Lots, & Sidewalks**

**Citation:** G.S. 105-164.13(61a)e

**Description:** Services on roads, driveways, parking lots, and sidewalks.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**120. Removal of Waste and Debris**

**Citation:** G.S. 105-164.13(61a)f

**Description:** Removal of waste, trash, debris, grease, snow, and other similar items from property, other than a motor vehicle. The exemption applies to household and commercial trash collection and removal services. The exemption applies to the removal of septage from property, including motor vehicles, but does not include removal of septage from portable toilets.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 65.5

**FY26-27 Estimate (in $millions):** 68.8

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

### 121. Certain Real Property Inspections

**Citation:** G.S. 105-164.13(61a)g

**Description:** An inspection performed where the results are included in a report for the sale or financing of real property; an inspection of the structural integrity of real property; an inspection to a system that is a capital improvement under G.S. 105-164.3(2c)f., provided the inspection is to fulfill a safety requirement.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 5.0

**FY26-27 Estimate (in $millions):** 5.3

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

### 122. Alterations & Clothing Repairs

**Citation:** G.S. 105-164.13(61a)h

**Description:** Alteration and repair of clothing, except where the service constitutes a part of the gross receipts derived from the rental of clothing subject to tax under G.S. 105-164.4 or for alteration and repair of belts and shoes.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 23.3

**FY26-27 Estimate (in $millions):** 24.8

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

### 123. Pest Control Service

**Citation:** G.S. 105-164.13(61a)i

**Description:** Pest control services.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 29.1

**FY26-27 Estimate (in $millions):** 31.0

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census) and Quarterly Census of Wages and Employment (BLS)

**124. Moving Services**

**Citation:** G.S. 105-164.13(61a)j

**Description:** Moving services.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 30.0

**FY26-27 Estimate (in $millions):** 32.1

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

**125. Self-Service & Limited-Service Vehicle Washes**

**Citation:** G.S. 105-164.13(61a)k

**Description:** Self-service vehicle washes and vacuums and limited-service vehicle washes.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017; for limited-service vehicle washes, S.L. 2019-169, effective Oct. 1, 2019

**FY25-26 Estimate (in $millions):** 11.0

**FY26-27 Estimate (in $millions):** 11.5

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

**126. Utility Network Assets**

**Citation:** G.S. 105-164.13(61a)ℓ

**Description:** Exempts tax on RMI and service contracts for a transmission, distribution, or other network asset contained on utility-owned land, right-of-way, or easement.

**Enacting Legislation:** S.L. 2013-316 - effective Jan. 1, 2014 for service contracts; effective March 1, 2016 for RMI services

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**127. Qualified Aircraft or Jet Engine**

**Citation:** G.S. 105-164.13(61a)m.1&2

**Description:** Exempts tax on RMI and service contracts for a qualified aircraft or qualified jet engine. A qualified aircraft has a maximum take-off weight of more than 9,000 pounds but not in excess of 15,000 pounds.

**Enacting Legislation:** 2015-259 - effective Oct. 1, 2015

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**128. RMI & Service Contracts for Other Aircraft**

**Citation:** G.S. 105-164.13(61a)m.3

**Description:** Exempts tax on RMI services and service contracts on an aircraft with a gross take-off weight of more than 2000 pounds.

**Enacting Legislation:** S.L. 2017-204 - effective July 1, 2019

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**129. Funeral-Related Services**

**Citation:** G.S. 105-164.13(61a)n

**Description:** Funeral-related services, including services for the burial of remains. This exemption does not apply to the sale of tangible personal property, such as caskets, headstones, and monuments.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 16.4

**FY26-27 Estimate (in $millions):** 16.7

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

**130. Services Performed on an Animal**

**Citation:** G.S. 105-164.13(61a)o

**Description:** Services performed on an animal, such as hoof shoeing and microchipping a pet.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 22.1

**FY26-27 Estimate (in $millions):** 23.7

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

### 131. Security Service Contract for Real Property

**Citation:** G.S. 105-164.13(61a)p

**Description:** A security or similar monitoring contract for real property. The exemption does not apply to charges for repair, maintenance, and installation services to repair security, alarm, and other similar monitoring systems for real property.

**Enacting Legislation:** S.L. 2014-3, sec. 6.1(c) - effective Oct. 1, 2014

**FY25-26 Estimate (in $millions):** 27.5

**FY26-27 Estimate (in $millions):** 28.0

**Data Source:** 2012, 2017 & 2022 Economic Censuses; County Business Patterns (US Census); Nonemployer Statistics (US Census)

**Note:** This item was formerly listed as G.S. 105-164.4I(c)(1)

### 132. Service Contract for a Wastewater System

**Citation:** G.S. 105-164.13(61a)q

**Description:** A contract to provide a certified operator for a wastewater system.

**Enacting Legislation:** S.L. 2017-204 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** This item was formerly listed as G.S. 105-164.4I(c)(2)

### 133. Items Used to Fulfill Taxable Service Contracts

**Citation:** G.S. 105-164.13(62)

**Description:** An item used to fulfill a taxable service contract if the purchaser of the contract is not charged the item or services. The exemption does not include a tool, equipment, supply or similar item that is not a component or repair part of the property for which a service contract is sold to a purchaser.

**Enacting Legislation:** S.L. 2013-316 - effective Jan. 1, 2014

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**134. RMI Services Used to Fulfill Taxable Service Contracts**

**Citation:** G.S. 105-164.13(62)

**Description:** Repair, maintenance, and installation services purchased or used to fulfill a service contract taxable under this Article if the purchaser of the contract is not charged for the services.

**Enacting Legislation:** S.L. 2015-241 - effective March 1, 2016 (modified by SL 2015-259)

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**135. Repair Parts and RMI Services on Items Covered by a Warranty**

**Citation:** G.S. 105-164.13(62a)

**Description:** Repair parts or repair, maintenance, and installation services used to maintain or repair property or a motor vehicle covered by a manufacturer's warranty or a dealer's warranty.

**Enacting Legislation:** S.L. 2015-259 - effective March 1, 2016

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**136. Modular & Manufactured Homes**

**Citation:** G.S. 105-164.13(64)

**Description:** Fifty percent of the sales price of a modular or manufactured home, including all accessories attached when delivered to the purchaser.

**Enacting Legislation:** S.L. 2014-100 - effective for sales made on or after Sept. 1, 2014; prior to Jan. 1, 2014, manufactured homes had a preferential tax rate of 2% with a maximum tax of $300 (S.L. 1957-1340; SL 1989-692) and modular homes had a preferential tax rate of 2.5% (S.L. 2003-400)

**FY25-26 Estimate (in $millions):** 22.8

**FY26-27 Estimate (in $millions):** 23.7

**Data Source:** Department of Revenue tax data

### 137. Motorsports Engine & Related Items

**Citation:** G.S. 105-164.13(65) & (65a)

**Description:** The sale, lease or rental of an engine to a professional motorsports racing team or a related member of a team for use in competition in a sanctioned race series; the sales price of or gross receipts derived from a service contract on, or repair, maintenance, and installation services for, a transmission, an engine, rear-end gears, and any other item that is purchased, leased or rented and that is exempt from tax or is allowed a sales tax refund under G.S. 105-164.14A(a)(5); an engine or part to build or rebuild an engine for use in competition in a sanctioned race series.

**Enacting Legislation:** S.L. 2013-414 - effective Jan. 1, 2014 for service contract; S.L. 2015-259 - effective Sept. 30, 2015

**Sunset Date:** Jan. 1, 2028

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

### 138. Storage of a Motor Vehicle

**Citation:** G.S. 105-164.13(66)

**Description:** Storage of a motor vehicle, provided the charge is separately stated on the invoice or other documentation provided to the purchaser at the time of the sale.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 3.3

**FY26-27 Estimate (in $millions):** 3.5

**Data Source:** 2022 Economic Census; County Business Patterns (US Census); Nonemployer Statistics (US Census)

### 139. Towing Services

**Citation:** G.S. 105-164.13(67)

**Description:** Towing services, provided the charge is separately stated on the invoice or other documentation provided to the purchaser at the time of the sales.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 20.3

**FY26-27 Estimate (in $millions):** 21.4

**Data Source:** 2012, 2017 & 2022 Economic Censuses; annual County Business Patterns (US Census); annual Nonemployer Statistics (US Census); annual NC Quarterly Census of Employment and Wages (BLS)

### 140. Wastewater Dispersal System Items

**Citation:** G.S. 105-164.13(68)

**Description:** Sales of products that are made of more than 75% by weight of recycled materials when the products are sold for use in an accepted wastewater dispersal system as defined in G.S. 130A-343. Effective July 1, 2017, other wastewater dispersal systems that are approved the the Department of Health and Human Services were exempted.

**Enacting Legislation:** S.L. 2016-94 - effective Oct. 1, 2016; S.L. 2017-139 expanded the exemption

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

### 141. Coins, Currency and Bullion Sales

**Citation:** G.S. 105-164.13(69)

**Description:** Sales of non-coin currency, investment metal bullion, and investment coins are exempt.

**Enacting Legislation:** S.L. 2017-181 - effective July 1, 2017

**FY25-26 Estimate (in $millions):** 0.9

**FY26-27 Estimate (in $millions):** 1.0

**Data Source:** Bullion sales from the US Mint; Legislative Fiscal Note for HB 434 (2017), adjusted for change in the price of gold

### 142. North Carolina Life and Health Insurance Guaranty Association

**Citation:** G.S. 105-164.13(71)

**Description:** Exemption for sales of items to the North Carolina Life and Health Insurance Guaranty Association.

**Enacting Legislation:** S.L. 2019-169 - effective July 26, 2019

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**143. Educational Service for Home Schools**

**Citation:** G.S. 105-164.13(72)

**Description:** Exemption for sales of a digital audio work or a digital audiovisual work that is a qualifying education expense under G.S. 115C-595(a)(3) to the operator of a home school as defined in G.S. 115C-563.

**Enacting Legislation:** S.L. 2020-6 - effective Oct. 1, 2019

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**144. Live Services Provided Through Digital Works**

**Citation:** G.S. 105-164.13(73)

**Description:** Exemption for sales of a digital audio work or digital audiovisual work that consists of nontaxable service content when the electronic transfer of the digital audio work or digital audiovisual work occurs contemporaneously with the provision of the nontaxable service in real time.

**Enacting Legislation:** S.L. 2020-6 - effective Oct. 1, 2019

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**145. Continuing Care Retirement Communities**

**Citation:** G.S. 105-164.13(74)

**Description:** Exemption for sales of items by a provider of continuing care to its residents, other than sales of alcoholic beverages. A provider of continuing care must pay sales and use tax on the purchase price of an item that is exempt from tax under this subdivision as if the provider is the user of the item. As a result, the provider of continuing care is not required to pay sales or use tax if the purchase would be exempt if purchased for use, not resale, by the provider.

**Enacting Legislation:** S.L. 2023-134, effective for sales occurring on or after Nov. 1, 2023

**FY25-26 Estimate (in $millions):** 8.7

**FY26-27 Estimate (in $millions):** 9.1

**Data Source:** 2022 Economic Census; Legislative Fiscal Note for HB 259 (2023), adjusted for change in effective date

### 146. Breast Pumps and Related Items

**Citation:** G.S. 105-164.13(74)

**Description:** Exemption for sales of breast pumps, including repair and replacement parts, breast pump kits, and breast pump collection and storage supplies.

**Enacting Legislation:** S.L. 2023-134, effective for sales occurring on or after Nov. 1, 2023.

**FY25-26 Estimate (in $millions):** 3.1

**FY26-27 Estimate (in $millions):** 3.2

**Data Source:** Legislative Fiscal Note for HB 259 (2023)

### 147. Service Charges on Meals and Beverages

**Citation:** G.S. 105-164.13A

**Description:** Service charges, considered tips, imposed on food, beverages or prepared food that do not exceed 20% of the sale price. The charges must be stated on the menu or price list and also in the invoice or bill. The charges must be given to the personnel directly involved in providing the service.

**Enacting Legislation:** S.L. 1979-801; S.L. 1998-438 expanded the exemption by increasing the tip percentage maximum from 15% to 20%.

### 148. Food for Home Consumption

**Citation:** G.S. 105-164.13B

**Description:** Food is exempt from sales and use taxes unless the food is in one of the following categories: (1) dietary supplements, (2) food sold through a vending machine, (3) prepared food, other than bakery items sold by an artisan bakery, (4) soft drinks, (5) candy.

**Enacting Legislation:** S.L. 1998-212 - effective for sales made on or after May 1, 1999; food was subject to the State sales tax beginning in 1961; the State tax on food for home consumption was phased out between Jan. 1, 1997 and May 1, 1999

**FY25-26 Estimate (in $millions):** 1,460.0

**FY26-27 Estimate (in $millions):** 1,552.3

**Data Source:** Department of Revenue data on 2% Local Sales Tax on food through June 2025

**Note:** Food for home consumption remains subject to a 2% local sales tax.

### 149. Certain Artisan Bakery Items

**Citation:** G.S. 105-164.13B

**Description:** Exempts bakery items sold without eating utensils by an artisan bakery. An artisan bakery is a bakery that (a) derives over 80% of its receipts from bakery items, and (b) has annual gross receipts of no more than $1.8 million.

**Enacting Legislation:** S.L. 2008-107 - effective for sales on or after Jan. 1, 2009

**FY25-26 Estimate (in $millions):** 4.9

**FY26-27 Estimate (in $millions):** 5.2

**Data Source:** 2022 Economic Censuses. NC data on number of establishments through 2024 were obtained from US Bureau of Labor Statistics Quarterly Census of Employment and Wages

### 150. Fuel and Electricity for Farming

**Citation:** G.S. 105-164.13E(a)(1)

**Description:** Qualifying farmers are allowed an exemption for fuel and electricity that is measured by a separate memter or another device and used for a purpose other than preparing food, heating dwellings, and other household purposes. For periods on or after July 1, 2014, a qualifying farmer has gross annual income from farming of at least $10,000 in the prior calendar year or an average of $10,000 in the prior 3 years.

**Enacting Legislation:** S.L. 2005-276 - effective Jan. 1, 2006; fuel had previously been exempt (S.L. 1949-392) before becoming subject to a 1% preferential tax rate (S.L. 1961-826); electricity was not exempt until July 1, 2010, although it was previously taxed at a preferential rate.

**FY25-26 Estimate (in $millions):** 25.8

**FY26-27 Estimate (in $millions):** 26.3

**Data Source:** Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture; Energy Information Administration

**151. Fertilizers, Seeds and Related Items Sold to a Farmer**

**Citation:** G.S. 105-164.13E(a)(2)

**Description:** Qualifying farmers are allowed an exemption for commercial fertilizer, lime, land plaster, plastic mulch, plant bed covers, potting soil, baler twine, and seeds. For periods on or after July 1, 2014, a qualifying farmer has gross annual income from farming of at least $10,000 in the prior calendar year or an average of $10,000 in the prior 3 years. . Compost was added to this list, effective October 1, 2023.

**Enacting Legislation:** S.L. 1939-158 exempted fertilizers; S.L. 1945-708 exempted seeds; S.L. 2001-514 limited the exemption of fertilizers and seeds to farmers; S.L. 2004-124 and S.L. 2005-276, and S.L. 2007-500 added items to the list of exemptions.

**FY25-26 Estimate (in $millions):** 59.1

**FY26-27 Estimate (in $millions):** 62.9

**Data Source:** Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture

**152. Farm Machinery and Related Parts and Lubricants**

**Citation:** G.S. 105-164.13E(a)(3)

**Description:** Qualifying farmers are allowed an exemption for farm machinery, attachment and repair parts for farm machinery, and lubricants applied to farm machinery. For periods on or after July 1, 2014, a qualifying farmer has gross annual income from farming of at least $10,000 in the prior calendar year or an average of $10,000 in the prior 3 years

**Enacting Legislation:** S.L. 2005-276 - effective Jan. 1, 2006; these items had been subject to a 1% preferential tax rate, with a $80 cap per item (S.L. 1961-826); they were previously exempt (S.L. 1955-1313)

**FY25-26 Estimate (in $millions):** 19.6

**FY26-27 Estimate (in $millions):** 20.1

**Data Source:** Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture; Energy Information Administration

**153. Certain Containers Sold to a Farmer**

**Citation:** G.S. 105-164.13E(a)(4)

**Description:** Qualifying farmers are allowed an exemption for containers used in the planting, cultivating, harvesting, or curing of farm crops or in the production of dairy products, eggs, or animals or used in packaging and transporting the farmer's product for sale. For periods on or after July 1, 2014, a qualifying farmer has gross annual

income from farming of at least $10,000 in the prior calendar year or an average of $10,000 in the prior 3 years.

**Enacting Legislation:** S.L. 2005-276 - effective Jan. 1, 2006; these items were previously subject to a 1% preferential tax rate, with a $80 cap, effective July 1, 1982 (S.L. 1981-1273)

**FY25-26 Estimate (in $millions):** 1.1

**FY26-27 Estimate (in $millions):** 1.1

**Data Source:** Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture

### 154. Certain Storage Facilities Sold to a Farmer

**Citation:** G.S. 105-164.13E(a)(5)

**Description:** Qualifying farmers are allowed an exemption for a grain, feed, or soybean storage facility and parts and accessories attached to the facility. For periods on or after July 1, 2014, a qualifying farmer has gross annual income from farming of at least $10,000 in the prior calendar year or an average of $10,000 in the prior 3 years.

**Enacting Legislation:** S.L. 2005-276 - effective Jan. 1, 2006; these items were previously subject to a 1% preferential tax rate, with a $80 cap, effective July 1, 1979 (S.L. 1979-801)

**FY25-26 Estimate (in $millions):** 3.2

**FY26-27 Estimate (in $millions):** 3.3

### 155. Feeds, Litter and Medications for Farming

**Citation:** G.S. 105-164.13E(a)(6)a

**Description:** Qualifying farmers are allowed an exemption for remedies, vaccines, medications, litter materials, and feeds for animals. For periods on or after July 1, 2014, a qualifying farmer has gross annual income from farming of at least $10,000 in the prior calendar year or an average of $10,000 in the prior 3 years.

**Enacting Legislation:** S.L. 1945-708 exempted seeds; S.L. 1977-1219 added the exemption for remedies, vaccines, and medications; S.L. 1995-477 restricted the exemptions to purchases for commercial use

**FY25-26 Estimate (in $millions):** 245.1

**FY26-27 Estimate (in $millions):** 252.5

**Data Source:** Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture

**Note:** G.S. 105-164.13E(c1), enacted by S.L. 2018-5 and effective retroactively to July 1, 2014, allows this exemption for persons who purchase these items in order to provide a service to a qualified farmer.

### 156. Certain Substances Used on Animals or Plants for Commercial Purposes

**Citation:** G.S. 105-164.13E(a)(6)b-e

**Description:** Qualifying farmers are allowed an exemption for (b) rodenticides, insecticides, herbicides, fungicides, and pesticides; (c) defoliants for use on cottor or other crops; (d) plant growth inhibitors, regulators, or stimulators, including systemic and contact or other sucker control agents for tobacco and other crops; (e) semen. For periods on or after July 1, 2014, a qualifying farmer has gross annual income from farming of at least $10,000 in the prior calendar year or an average of $10,000 in the prior 3 years.

**Enacting Legislation:** S.L. 1945-708 exempted insecticides; S.L. 1949-1271, S.L. 1963-1169 and S.L. 1969-907 added items; S.L. 1995-477 restricted the exemptions to purchases for commercial use.

**FY25-26 Estimate (in $millions):** 18.8

**FY26-27 Estimate (in $millions):** 19.4

**Data Source:** Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture

**Note:** G.S. 105-164.13E(c1), enacted by S.L. 2018-5 and effective retroactively to July 1, 2014, allows this exemption for persons who purchase these items in order to provide a service to a qualified farmer.

### 157. Fowl Sold to a Farmer

**Citation:** G.S. 105-164.13E(a)(7)a

**Description:** Qualifying farmers are allowed an exemption for purchases of fowl. (Prior to the enactment of S.L. 2021-180, this item referred to “baby chicks and poults”.)

**Enacting Legislation:** S.L. 2020-6, effective July 1, 2020. A similar exemption existed prior to July 1, 2014.

**FY25-26 Estimate (in $millions):** 67.9

**FY26-27 Estimate (in $millions):** 69.9

**Data Source:** North Carolina 2022 Census of Agriculture & Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture

**158. Livestock Sold to a Farmer – Cattle, Sheep, Goats and Swine**

**Citation:** G.S. 105-164.13E(a)(7)b

**Description:** Qualifying farmers are allowed an exemption for livestock, as defined by G.S. 105-164.3. This item only includes the sale of cattle, sheep, goats and swine under the livestock exemption.

**Enacting Legislation:** S.L. 2020-6, effective July 1, 2020. Many of these sales would have been exempt under G.S. 105-164.13(4b).

**FY25-26 Estimate (in $millions):** 36.5

**FY26-27 Estimate (in $millions):** 37.6

**Data Source:** North Carolina 2022 Census of Agriculture & Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture

**159. Livestock Sold to a Farmer – Horses and Mules**

**Citation:** G.S. 105-164.13E(a)(7)b

**Description:** Qualifying farmers are allowed an exemption for livestock, as defined by G.S. 105-164.3. This item only includes the sale of horses and mules under the livestock exemption.

**Enacting Legislation:** S.L. 2020-6, effective July 1, 2020. A similar exemption existed prior to July 1, 2014.

**FY25-26 Estimate (in $millions):** 0.5

**FY26-27 Estimate (in $millions):** 0.4

**Data Source:** North Carolina 2022 Census of Agriculture, National Agricultural Statistics Service, United States Department of Agriculture

**160. Manufactured Facilities, Building Materials, and Related Equipment for Commercial Housing of Animals**

**Citation:** G.S. 105-164.13E(a)(8)

**Description:** Qualifying farmers are allowed an exemption for (a) commercially manufactured facility to be used for commercial purposes for housing, raising, or feeding animals or for housing equipment necessary for these commercial activities, as well as equipment, and parts and accessories for the equipment, used in the facility; (b) building materials, supplies, fixtures, and equipment that become a part of or are used in the construction, repair, or improvement of an enclosure or a structure used for housing, raising or feeding animals or for housing equipment necessary for one of these commercial activities. For periods on or after July 1, 2014, a qualifying farmer has

gross annual income from farming of at least $10,000 in the prior calendar year or an average of $10,000 in the prior 3 years.

**Enacting Legislation:** S.L. 1985-973 - effective Aug. 1, 1986 for construction and repair materials; other items added by S.L. 1987-800; these items had been taxed at a preferential rate of 1%, with a $80 cap beginning July 1, 1979 (S.L. 1979-801) for swine facilities and July 1, 1983 (S.L. 1983-805) for livestock and poultry facilities.

**FY25-26 Estimate (in $millions):** 9.8

**FY26-27 Estimate (in $millions):** 10.1

**Data Source:** Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture

### 161. Tobacco Farming Items

**Citation:** G.S. 105-164.13E(a)(9)

**Description:** Qualifying farmers are allowed an exemption for a bulk tobacco barn or rack, parts and accessories attached to the tobacco barn or rack, and any similar apparatus, part, or accessory used to cure or dry tobacco or another crop. For periods on or after July 1, 2014, a qualifying farmer has gross annual income from farming of at least $10,000 in the prior calendar year.

**Enacting Legislation:** S.L. 2005-276 - effective Jan. 1, 2006; these items were previously subject to a 1% preferential tax rate, with a $80 cap per item (S.L. 1971-887)

**FY25-26 Estimate (in $millions):** 0.2

**FY26-27 Estimate (in $millions):** 0.2

**Data Source:** Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture

### 162. RMI Services for Farmers

**Citation:** G.S. 105-164.13E(a)(10)

**Description:** Repair, maintenance and installation services purchased by a qualifying or conditional farmer and for use by the farmer in farming operations.

**Enacting Legislation:** S.L. 2016-94 - effective Jan. 1, 2017

**FY25-26 Estimate (in $millions):** 10.6

**FY26-27 Estimate (in $millions):** 11.2

**Data Source:** Farm Production Expenditure report for North Carolina (through 2024), National Agricultural Statistics Service, United States Department of Agriculture; Energy Information Administration

**163. Items for a Zoo Operated by Farmer**

**Citation:** G.S. 105-164.13E(a1)

**Description:** Exemption for qualifying farmer or conditional farmer who operates a zoo in addition to the farmer's farming operations for the items listed in subsection (a) of this section and primarily used in the farmer's zoo operations..

**Enacting Legislation:** S.L. 2022-45 - effective for purchases made on or after Jan. 1, 2023

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**164. Items for a Wildlife Manager**

**Citation:** G.S. 105-164.13F

**Description:** Exemption for certain items purchased by a wildlife manager and used primarily for wildlife management activities on wildlife conservation land. The exemption also includes repair, maintenance and installation services for items exempt from sales tax.

**Enacting Legislation:** S.L. 2022-45 - effective for purchases made on or after Oct. 1, 2022

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**165. RMI Services for Boats, Aircraft and Jet Engines in Excess of $25,000**

**Citation:** G.S. 105-164.27A(a3)

**Description:** The amount of the use tax exemption is the amount of the installation charges and sales price of or gross receipts derived from the repair, maintenance, and installation services for boats, aircraft or a qualified jet engine that exceed $25,000.

**Enacting Legislation:** S.L. 2016-94 - effective July 1, 2016

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**166. Use tax on Luxury Liquor capped at $1,000**

**Citation:** G.S. 105-164.27A(a4)

**Description:** The maximum use tax on qualifying spirituous liquor is $1,000. "Qualifying spirituous liquor" is a single container of spirituous liquor, as defined in GS 18B-101, the purchase price of which is equal to or greater than $50,000.

**Enacting Legislation:** S.L. 2024-41 - effective for sales on or after Jan. 1, 2025

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

## Refunds

**167. Refund to Interstate Carrier**

**Citation:** G.S. 105-164.14(a)

**Description:** An interstate carrier is allowed a refund of part of the sales and use taxes paid on the purchase in this State of railway cars and locomotives, and fuel, lubricants, repair parts, and accessories for a motor vehicle, railroad car, locomotive, or airplane the carrier operates.

**Enacting Legislation:** S.L. 1957-1340

**FY25-26 Estimate (in $millions):** 3.4

**FY26-27 Estimate (in $millions):** 3.5

**Data Source:** Department of Revenue tax data

**Note:** Refund requests are made quarterly. Therefore, refunds lag taxes paid by up to 3 months.

**168. Partial Refund for Purchases of Railway Cars and Accessories by a Utility**

**Citation:** G.S. 105-164.14(a2)

**Description:** A utility company may receive a semiannual refund of part of the sales and use taxes it pays on the purchase in this State of railway cars and locomotives and accessories. The refund is based on the percentage of miles that the utility company operated its locomotives and railway cars in North Carolina during the refund period.

**Enacting Legislation:** S.L. 2006-06 - effective July 1, 2006

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Department of Revenue tax data

### 169. Refund of Sales Taxes to Nonprofits

**Citation:** G.S. 105-164.14(b)

**Description:** Refunds for sales taxes paid on purchases, other than electricity, telecommunications piped natural gas, video programming and prepaid meal plans, for use in carrying on the work of the nonprofit and indirect purchases of building materials and related equipment. The refund is only for nonprofits in the following categories: (1) hospitals, (2) an entity exempt from income tax under Section 501(c)(3) of the Code, except if they are in the following areas: community improvement and capacity building; public and societal benefit; mutual and membership benefit, (4) qualified retirement facilities, (5) volunteer fire departments and volunteer emergency medical service squads. Tax paid on sales by the nonprofits are not refundable.

**Enacting Legislation:** S.L. 1961-826 – effective July 1, 1961; this refund provision replaced an existing exemption (S.L. 1943-400)

**FY25-26 Estimate (in $millions):** 347.6

**FY26-27 Estimate (in $millions):** 356.9

**Data Source:** Department of Revenue tax data

**Note:** Effective for purchases made on or after July 1, 2014: the total annual State-related refund allowed an entity for a fiscal year may not exceed $31,700,000.

### 170. Refunds of Tax on Medicine and Drug Purchases to Certain Hospitals

**Citation:** G.S. 105-164.14(b)

**Description:** Hospitals not eligible for the refund of taxes on all tangible property purchases may receive a refund of tax on purchases of medicines and drugs for use in carrying out the work of such hospitals.

**Enacting Legislation:** SL 1977-895 - effective for taxes paid on or after July 1, 1977

**FY25-26 Estimate (in $millions):** included in Item #169

**FY26-27 Estimate (in $millions):** included in Item #169

**Data Source:** Department of Revenue tax data

**171. Refunds to Certain Local Government Entities**

**Citation:** G.S. 105-164.14(c)

**Description:** Refunds for sales taxes paid on purchases, other than electricity and telecommunications, by certain governmental entities and indirect purchases of building materials for use by those entities.

**Enacting Legislation:** S.L. 1961-826 - this refund provision replaced an existing exemption

**FY25-26 Estimate (in $millions):** 174.9

**FY26-27 Estimate (in $millions):** 186.5

**Data Source:** Department of Revenue tax data

**Note:** The estimate does not include refunds to the University of North Carolina Health Care System or a constituent institution of the University of North Carolina that were eligible under this provision.

**172. Refund for Major Recycling Facilities**

**Citation:** G.S. 105-164.14A(a)(2)

**Description:** The owner of a major recycling facility is allowed an annual refund of sales and use taxes paid by it on building materials, building supplies, fixtures, and equipment that became a part of the real property of the recycling facility.

**Enacting Legislation:** S.L. 1998-55 - effective July 1, 1998; this provision was formerly G.S. 105-164.14(g)

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Department of Revenue "Economic Incentive Reports"

**173. Refund of Aviation Fuel for Motorsports Events**

**Citation:** G.S. 105-164.14A(a)(4)

**Description:** A professional motorsports racing team or a motorsports sanctioning body is allowed a refund of the sales and use tax paid by it in this State on aviation fuel that is used to travel to or from a motorsports event in this State, to travel to a motorsports event in another state from a location in this State, or to travel to this State from a motorsports event in another state.

**Enacting Legislation:** S.L. 2005-435 - effective for purchases made on or after Jan. 1, 2005; this provision was formerly G.S. 105-164.14(l)

**Sunset Date:** Expires for purchases made on or after Jan. 1, 2029

**FY25-26 Estimate (in $millions):** 0.2

**FY26-27 Estimate (in $millions):** 0.2

**Data Source:** Department of Revenue "Economic Incentive Reports"

### 174. Refund on Professional Motor Racing Vehicle Parts

**Citation:** G.S. 105-164.14A(a)(5)

**Description:** A professional motorsports racing team may receive a refund of 50% of the sales tax paid on certain tangible personal property that comprises any part of a professional motor racing vehicle, except tires, instrumentation, telemetry, consumables and paint.

**Enacting Legislation:** S.L. 2006-66 - effective for purchases made on or after July 1, 2007; this provision was formerly G.S. 105-164.14(m)

**Sunset Date:** Expires for purchases made on or after Jan. 1, 2028

**FY25-26 Estimate (in $millions):** 2.7

**FY26-27 Estimate (in $millions):** 2.7

**Data Source:** Department of Revenue "Economic Incentive Reports"

### 175. Refund for Railroad Intermodal Facilities

**Citation:** G.S. 105-164.14A(a)(7)

**Description:** The owner or lessee of an eligible railroad intermodal facility is allowed an annual refund of sales and use taxes paid by it under this Article on building materials, building supplies, fixtures, and equipment that become a part of the real property of the facility.

**Enacting Legislation:** S.L. 2007-323 - effective Jan. 1, 2007; this provision was formerly G.S. 105-164.14(o)

**Sunset Date:** Expires for purchases made on or after Jan. 1, 2038

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Department of Revenue "Economic Incentive Reports"

**176. Refund for a Transformative Project**

**Citation:** G.S. 105-164.14A(a)(8)

**Description:** An owner or lessee of a business that is the recipient of a JDIG grant on or before June 30, 2019, for a transformative project as defined in G.S. 143B-437.51(9a) is allowed a refund of sales and use tax paid by it on building materials, building supplies, fixtures, and equipment that becomes a part of the real property of the facility. An eligible project required an investment of $1 billion and the creation of 3.000 jobs.

**Enacting Legislation:** S.L. 2017-57 - effective July 1, 2017

**FY25-26 Estimate (in $millions):** 0.0

**FY26-27 Estimate (in $millions):** 0.0

## Preferential tax rates

**177. Preferential Rate and Cap for Aircraft**

**Citation:** G.S. 105-164.4(a)(1a)c

**Description:** Effective October 1, 2015: Tax rate of 4.75% on the retail sale of each aircraft, including all accessories attached to the item at the time of purchase. The maximum tax is $2,500 per article. Prior to Oct. 1, 2015, the tax rate was 3% on the retail sale of each aircraft or boat, with a maximum tax of $1,500 per article.

**Enacting Legislation:** S.L. 1957-1340 - imposed a tax of 1% with an $80 cap on airplanes; tax rate and cap were increased at various time intervals; S.L. 1967-1116 added boats, effective July 1, 1967; in 1989, the maximum tax on boats and aircraft was increased from $300 to $1,500 (S.L. 1989-692); tax rate was increased from 3.0% to 4.75% with $2,500 cap, effective October 1, 2015 (S.L. 2015-259)

**FY25-26 Estimate (in $millions):** 18.9

**FY26-27 Estimate (in $millions):** 19.3

**Data Source:** Department of Revenue tax data

**Note:** For the estimates, a price elasticity of demand of -4 was used to reflect a lower demand at a higher rate of tax.

**178. Preferential Rate and Cap for Boats**

**Citation:** G.S. 105-164.4(a)(1b)

**Description:** Tax rate of 3% on the retail sale of each aircraft or boat. The maximum tax is $1,500 per article.

**Enacting Legislation:** S.L. 1957-1340 - imposed a tax of 1% with an $80 cap on airplanes; tax rate and cap were increased at various time intervals; S.L. 1967-1116 added boats, effective July 1, 1967; in 1989, the maximum tax on boats and aircraft was increased from $300 to $1,500 (S.L. 1989-692).

**FY25-26 Estimate (in $millions):** 22.3

**FY26-27 Estimate (in $millions):** 23.0

**Data Source:** Department of Revenue tax data; National Marine Manufacturers Association

**Note:** For the estimates, a price elasticity of demand of -2 was used to reflect a lower demand at a higher rate of tax.

## Caps

### 179. Out-of-State Telecommunications Service at Call Centers

**Citation:** G.S. 105-164.4C(f)

**Description:** The gross receipts tax on telecommunications service that originates outside this State, terminates in this State, and is provided by a call center that has a direct pay permit may not exceed $50,000. (S.L. 2001-430)

**Enacting Legislation:** S.L. 2001-430 - effective Jan. 1, 2002. This is also when the exemption from sales tax for interstate calls was removed.

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**Note:** There are five taxpayers with direct pay permits for telecommunications services. Not enough information was available to determine cost.

# Highway Use Tax (Article 5A)

## Tax Base Information

The highway use tax is imposed on the privilege of using the highways of this State. It is imposed on the sale or lease of motor vehicles for which a certificate of title is issued. Trailers pulled by automobiles are included in this tax if they are required to have a title.

Prior to the creation of this tax in 1989, the purchase of motor vehicles was taxed under the sales & use tax at a rate of 2%, with a $300 maximum. S.L. 1995-390 removed the $40 minimum tax, effective July 1, 1996. S.L. 2001-424 removed the cap from non-commercial vehicles, effective Oct. 1, 2001. (S.L. 2001-497 restored the cap for recreational vehicles.)

The base rate is 3% on the sales of motor vehicles and on long-term leases and rentals; short-term leases are taxed at 8%. As of October 1, 2019, vehicle subscription services are taxed at 5%, as authorized by Session Law 2019-69.

In Fiscal Year 2024-25, approximately $1.1 billion was collected under the 3% tax, net of refunds. Approximately $117 million was collected from the 8% short term lease and 5% subscription service, which are collected under the sales and use tax and transferred to the Highway Fund during each fiscal year.

## Tax Expenditures

**1. Maximum Tax of $2,000 for Class A or Class B Commercial Motor Vehicles**

**Citation:** G.S. 105-187.3(a)

**Description:** Effective Jan. 1, 2016, the tax on each title issued for a Class A or Class B commercial motor vehicles is capped at $2,000. Prior to Jan. 1, 2016, the maximum tax was $1,000.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989; there was a cap for motor vehicles under the sales tax prior to the creation of the Highway Use Tax.

**FY25-26 Estimate (in $millions):** 33.9

**FY26-27 Estimate (in $millions):** 34.9

**Data Source:** Estimates based on data from N.C. Department of Transportation

**2. Maximum Tax of $2,000 for Recreational Vehicles**

**Citation:** G.S. 105-187.3(a)

**Description:** Effective Jan. 1, 2016, the tax on each title issued for a recreational vehicles is capped at $2,000. Prior to Jan. 1, 2016, the maximum tax was $1,500.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989; the cap rose from $1,000 in 1989 to $1,500 on July 1, 1993; there was a cap for motor vehicles under the sales tax prior to the creation of the Highway Use Tax.

**FY25-26 Estimate (in $millions):** 7.7

**FY26-27 Estimate (in $millions):** 7.9

**Data Source:** Estimates based on data from N.C. Department of Transportation

**3. Trade-In Allowance on Sales of Motor Vehicles**

**Citation:** G.S. 105-187.3(b)

**Description:** The retail value of a motor vehicle for which a certificate of title is issued is reduced by the amount of any allowance given by the seller for a motor vehicle taken in trade as a full or partial payment for the purchased motor vehicle.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989; a trade-in allowance was added in the sales tax statutes for motor vehicles by S.L. 1983-713, effective Aug. 1, 1983, when the maximum tax was raised from $120 to $300.

**FY25-26 Estimate (in $millions):** 195.1

**FY26-27 Estimate (in $millions):** 200.9

**Data Source:** N.C. Department of Transportation; Virginia Department of Motor Vehicles; National Automobile Dealers Association; RL Polk & Co. (as used by NADA)

**4. Trade-In Allowance on Leases of Motor Vehicles**

**Citation:** G.S. 105-187.5(b)

**Description:** The gross receipts tax on a lease or rental of a motor vehicle does not include the amount of any allowance given for a motor vehicle taken in trade as a partial payment.

**Enacting Legislation:** S.L. 1995-410 - effective Oct. 1, 1995

**FY25-26 Estimate (in $millions):** 3.3

**FY26-27 Estimate (in $millions):** 3.3

**5. Title Issued by Will or Intestacy**

**Citation:** G.S. 105-187.6(a)(4)

**Description:** Full exemption when a certificate of title is issued by will or intestacy.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**6. Gift Between Close Family Members**

**Citation:** G.S. 105-187.6(a)(5)

**Description:** Full exemption when a certificate of title is issued by a gift between a husband and wife, a parent and child, or a stepparent and a stepchild.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**7. Vehicles Leased to Public School Driver Education Programs**

**Citation:** G.S. 105-187.6(a)(8)

**Description:** Full exemption when a certificate of title is issued to a local board of education for use in a driver education program when the vehicle is transferred back to retailer within 300 days or from another board of education.

**Enacting Legislation:** S.L. 1993-467 - effective Aug. 1, 1993

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**8. Volunteer Fire and Rescue Squad Vehicles**

**Citation:** G.S. 105-187.6(a)(9)

**Description:** Full exemption for volunteer fire department or rescue squad, when the vehicle is either (1) a fire truck, a pump truck, a tanker truck, or a ladder truck used to suppress fire, (2) a four-wheel drive vehicle intended to be mounted with a water tank and used to fight forest fires, (3) an emergency service vehicle.

**Enacting Legislation:** S.L. 2001-424, section 34.24, effective October 1, 2001

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**9. Transfer to a Revocable Trust**

**Citation:** G.S. 105-187.6(a)(11)

**Description:** Full exemption for transfer to a revocable trust from an owner who is the sole beneficiary of the trust.

**Enacting Legislation:** S.L. 2010-95 - effective July 17, 2010

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**10. Charities Related to Vehicle Donations**

**Citation:** G.S. 105-187.6(a)(12)

**Description:** Full exemption when a certificate of title is issued as the result of a transfer of a vehicle to a charitable 501(c)(3) organization, where the vehicle was donated solely for purposes of resale.

**Enacting Legislation:** S.L. 2018-43 - effective June 22, 2018

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**11. Secured Party with Perfected Interest**

**Citation:** G.S. 105-187.6(b)(1)

**Description:** Maximum tax of $40 when a certificate is issued to a secured party who has a perfected interest in the motor vehicle.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**12. Sales to Related Businesses**

**Citation:** G.S. 105-187.6(b)(2)

**Description:** Maximum of $40 when a certificate of title is issued to a business that is not a separate entity from the seller.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**13. Vehicles Titled in Another State**

**Citation:** G.S. 105-187.6(c)

**Description:** Maximum tax of $250 if vehicle has been titled in another state for at least 90 days. Prior to Jan. 1, 2016, the maximum tax was $150.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989

**FY25-26 Estimate (in $millions):** 5.2

**FY26-27 Estimate (in $millions):** 5.3

**Data Source:** Estimates based on data from N.C. Department of Transportation

**14. Credit for Tax Paid in Another State**

**Citation:** G.S. 105-187.7(a)

**Description:** Credit for amount of tax paid in another state within 90 days of applying for title.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**15. Credit for Tax Paid in Another State if Previously Titled in NC**

**Citation:** G.S. 105-1987.7(b)

**Enacting Legislation:** S.L. 1995-512 - effective Oct. 1, 1995

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**16. Return of Purchased Vehicle**

**Citation:** G.S. 105-187.8

**Description:** Refund for return of purchased vehicle within 90 days of purchase.

**Enacting Legislation:** S.L. 1989-692, effective Oct. 1, 1989

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

# Scrap Tire Disposal Tax (Article 5B)

## Tax Base Information

This privilege tax is imposed on a tire retailer on the sale price of each new tire sold at retail and on a retailer or wholesaler on the price of each new tire sold for placement on a vehicle offered for sale, lease or rental. The tax is also applicable to new tires that are purchased for storage, use or consumption in this State or for placement in this State on a vehicle offered for sales, lease or rental.

This tax was enacted by S.L. 1991-221 and became effective on July 1, 1991. (It replaced a similar provision that had been enacted in 1989 under Chapter 130A, effective Jan. 1, 1990.)

The base tax rate is 2%.

For Fiscal Year 2013-14 and forward, 30% of net revenues are transferred to the General Fund and the remaining 70% is distributed to counties on a per capita basis.

In Fiscal Year 2024-25, $29.2 million was collected from this tax, net of refunds. Of this amount, approximately $20.1 million was transferred to local governments. Net General Fund collections were approximately $8.6 million in Fiscal Year 2024-25 after these and other transfers.

## Tax Expenditures

**1. Lower Tax Rate for Large Tires**
**Citation:** G.S. 105-187.16
**Description:** The tax rate on tires with a bead diameter of 20 inches or more is 1%.
**Enacting Legislation:** S.L. 1993-548 - the tax rate on tires with a bead diameter of less than 20 inches was increased from 1% to 2% effective October 1, 1993. A sunset of July 1, 1997 was in effect for the original legislation. This sunset was extended by subsequent legislation and later repealed by S.L. 2002-10.

**FY25-26 Estimate (in $millions):** 1.0

**FY26-27 Estimate (in $millions):** 1.0

**Data Source:** Department of Revenue tax database

**Note:** The estimate does not include additional revenues that would be distributed to the counties, which is 70% of net revenues.

**2. Exemption for Certain Tire Sales**
**Citation:** G.S. 105-187.18
**Description:** Exemption for bicycle tires, recapped tires, tires sold for placement on new vehicle.
**Enacting Legislation:** S.L. 1991-221 – effective July 1, 1991

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

# White Goods Disposal Tax (Article 5C)

## Tax Base Information

The tax is imposed on a white goods retailer at a flat rate of $3 for each new white good sold. The tax is imposed on a new white good purchased outside the State for storage, use, or consumption in this State. Examples of white goods are refrigerators, ranges, water heaters, freezers, unit air conditioners, washing machines, clothes dryers, and dishwashers.

This tax was enacted by S.L. 1993-471 and became effective on January 1, 1994.

The base tax rate is $3 for each new white good sold.

For Fiscal Year 2013-14 and forward, 28% of net revenues are transferred to the General Fund and 72% is distributed to counties on a per capita basis (unless the county is disallowed a distribution under G.S. 130A-309.87).

In Fiscal Year 2024-25, $8.2 million was collected from this tax, net of refunds. Of this amount, approximately $4.3 million was distributed to local governments. Net General Fund collections were approximately $3.5 million in Fiscal Year 2024-25 after these and other transfers.

## Tax Expenditures

**1. Refund for Large Purchases**

**Citation:** G.S. 105-187.23

**Description:** Refund of 60% for person who buys at least 50 new white goods of any kind in the same sale.

**Enacting Legislation:** S.L. 1993-471 - effective Jan. 1, 1994

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Department of Revenue tax database

**Note:** The estimate does not include additional revenues that would be distributed to the counties.

# Severance Tax (Article 5I)

## Tax Base Information

The tax is imposed on all energy minerals severed from the soil and water of this State when sold.

This tax was enacted by S.L. 2014-4 and became effective July 1, 2015.

For oil and condensates, the tax rate is 2% between July 1, 2015 and Dec. 31, 2018; 3.5% between Jan. 1, 2019 and Dec. 31, 2020; and 5% on or after Jan. 1, 2021.

For gas, the tax rate ranges from 0.9% to 2.9% between July 1, 2015 and Dec. 31, 2018. The tax rate depends on the delivered to market value of the gas sold. Between Jan. 1, 2019 and Dec. 31, 2020, the tax rate ranges between 0.9% and 5%. On or after Jan. 1, 2021, the rate ranges from 0.9% to 9%.

The tax rate from a marginal gas well is 0.4% between July 1, 2015 and Dec. 31, 2018; 0.6% between Jan. 1, 2019 and Dec. 31, 2020; and 0.8% on or after Jan. 1, 2021.

In Fiscal Year 2024-25, there were no net collections from this tax.

## Tax Expenditures

**1. Delivered to Market Adjustment**

**Citation:** G.S. 105-187.78(a)

**Description:** A producer may deduct the actual costs of delivering the gas to market incurred from the gross receipts of a cost reimbursement.

**Enacting Legislation:** S.L. 2014-4 - effective July 1, 2015

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Note:** It is estimated that little to no activity will occur during the relevant time period.

**2. On-Site Use Exemption**

**Citation:** G.S. 105-187.79

**Description:** On-site use is exempt from the severance tax. On-site use refers to energy minerals that are used on the land from which they are taken by the producer and which have a yearly cumulative delivered to market value of not greater than $1,200.

**Enacting Legislation:** S.L. 2014-4 - effective July 1, 2015

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Note:** It is estimated that little to no activity will occur during the relevant time period.

# Transportation Commerce Tax (Article 5J)

## Tax Base Information

This excise tax is imposed on all for-hire ground transport service providers for which a passenger is charged a fee.

This tax was enacted by S.L. 2023-134. It is effective July 1, 2025, and applies to for-hire ground transport services occurring on or after that date.

For exclusive-ride services, the tax rate is 1.5%. For shared-ride service, the tax rate is 1%.

The net tax proceeds are credited to the Highway Fund. The cost of administration of the tax is retained by the Department of Revenue. In Fiscal Year 2024-25, there were no net collections from this tax.

## Tax Expenditures

**1. Lower tax rate for shared-ride service**
**Citation:** G.S. 105-187.91(a)(2)
**Description:** The tax rate on shared-ride service is 2/3 the rate for exclusive-ride service.
**Enacting Legislation:** S.L. 2014-4 - effective July 1, 2015

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Department of Revenue tax database

**2. Exempt for-hire transport used as public transportation**
**Citation:** G.S. 105-187.94(2)
**Description:** The tax does not apply to for-hire ground transport service provided by a for-hire ground transport service provider as public transportation on behalf of a State agency, a governmental entity listed in G.S. 105-164.14(c), or a local board of education.
**Enacting Legislation:** S.L. 2014-4 - effective July 1, 2015

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Reports from local governments with expected type of services

# Taxes on Insurance Companies (Article 8B)

## Tax Base Information

The tax on an insurer is measured by gross premiums from business done in this State during the calendar year. The base tax rate is 1.9%. However, premiums on worker compensation plans are taxed at 2.5%. There is an additional 0.74% tax on property coverage contracts.

There is also an insurance regulatory charge, which is a percentage of the insurer's gross premiums tax liability. The percentage has been set at 6.5% for recent calendar years. However, for calendar years 2024 and 2025, the regulatory charge was changed to 2.0% by S.L. 2023-134.

In Fiscal Year 2024-25, $1.5 billion was collected from the tax and regulatory fee, net of refunds. Net General Fund collections were approximately $1.43 billion in Fiscal Year 2024-25 after certain transfers.

## Tax Expenditures

**1. Foreign Captive Insurance Company**

**Citation:** G.S. 105-228.4A(a)

**Description:** The tax on captive insurance companies does not apply to a foreign captive insurance company.

**Enacting Legislation:** S.L. 2018-5, effective June 12, 2018

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**2. Captive Insurance Company Cap**

**Citation:** G.S. 105-228.4A(f)

**Description:** The aggregate amount of tax payable may not exceed $100,000. If the company is a protected cell captive insurance company with more than 10 cells, the tax may not exceed $100,000 plus $5,000 times the number of cells in excess of 10.

**Enacting Legislation:** S.L. 2013-116, effective July 1, 2013

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**3. Limited Definition of Tax Base for Bail Bonds**

**Citation:** G.S. 105-228.5(b1)

**Description:** Gross premiums from business done in this State in the case of an insurer of bail bonds means only the amounts received by the insurer from a surety bondsman during the calendar year for bail bonds written on behalf of the insurer.

**Enacting Legislation:** S.L. 2021-180 -- effective for tax years beginning on or after Jan. 1, 2022

**FY25-26 Estimate (in $millions):** 1.0

**FY26-27 Estimate (in $millions):** 1.0

**Data Source:** Fiscal note prepared by General Assembly staff for SB 105 (2021)

**4. Federally Tax-Exempt Pensions, Annuities or Profit-Sharing Plan**

**Citation:** G.S. 105-228.5(c)(1)

**Description:** Excludes premiums connected with funding a pension, annuity or profit-sharing plan qualified or exempt under section 401, 403, 404, 408, 457 or 501 of the Code.

**Enacting Legislation:** S.L. 1973-142 - effective July 1, 1973

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**5. Premiums Received from Annuities**

**Citation:** G.S. 105-228.5(c)(2)

**Description:** Excludes premiums if received from annuities, as defined in G.S. 58-7-15.

**Enacting Legislation:** S.L. 1993-600 - effective Jan. 1, 1995

**FY25-26 Estimate (in $millions):** 251.5

**FY26-27 Estimate (in $millions):** 249.0

**Data Source:** North Carolina Department of Insurance

**6. Premiums Related to Funding Agreements**

**Citation:** G.S. 105-228.5(c)(3)

**Description:** Excludes premiums if connected with funding agreements defined in G.S. 58-7-16.

**Enacting Legislation:** S.L. 1993-600 - effective Jan. 1, 1995

**FY25-26 Estimate (in $millions):** 16.0

**FY26-27 Estimate (in $millions):** 16.3

**Data Source:** Estimates based on data from N.C. Department of Insurance

**7. Automobile Premiums for Additional Rate on Property Coverage Contracts**

**Citation:** G.S. 105-228.5(d)(3)

**Description:** Only 10% of the gross premiums from insurance contracts for automobile physical damage coverage are taxed compared to 100% of all other types of property coverage. This provision refers to the additional tax on property coverage contracts.

**Enacting Legislation:** S.L. 2006-196 - effective for taxable years beginning on or after Jan. 1, 2008. This provision replaced a tax on fire and lightning coverage that had excluded automobile and marine contracts.

**FY25-26 Estimate (in $millions):** 36.9

**FY26-27 Estimate (in $millions):** 39.3

**Data Source:** Estimates based on data from N.C. Department of Insurance

**Note:** Only a fraction of the revenues of the additional tax on property coverage contracts are credited to the General Fund. The estimates , however, represent 100% of the foregone revenues.

**8. Farmers' Mutual Assessment Fire Insurance Companies and Fraternal Organizations**

**Citation:** G.S. 105-228.5(g)

**Description:** Excludes farmers' mutual assessment fire insurance companies and nonprofit fraternal organizations.

**Enacting Legislation:** This is a longstanding provision in the insurance statutes.

**FY25-26 Estimate (in $millions):** 4.0

**FY26-27 Estimate (in $millions):** 4.2

**Data Source:** Estimates based on data from N.C. Department of Insurance

**Note:** Includes an estimate for the additional 0.74% rate on property coverage contracts (for the farmers' mutuals only).

**9. Assessments paid to Insurance Guaranty Association and Life and Health Insurance Guaranty Association**

**Citation:** G.S. 105-228.5A

**Description:** Credit against gross premiums for assessments paid to the Insurance Guaranty Association and the Life and Health Insurance Guaranty Associaton. (These

organizations require insurers to pay assessments to cover claims against insolvent insurers.)

**Enacting Legislation:** S.L. 1991-689 - effective Jan. 1, 1991. Prior to this, insurance companies were allowed to increase their premiums to recoup assessment charges.

**FY25-26 Estimate (in $millions):** 8.1

**FY26-27 Estimate (in $millions):** 8.3

**Data Source:** Department of Revenue Insurance Tax database; North Carolina Insurance Guaranty Association

# Excise Tax on Conveyances (Article 8E)

## Tax Base Information

This tax is levied on each instrument by which any interest in real property is conveyed to another person. This tax applies to timber deeds and contracts for the sale of standing timber as if these were transfers of real property.

The tax rate is $1 on each $500 of real property value or fractional part thereof.

Fifty percent of the taxes collected are deposited in county funds, and the counties may also retain an additional 2% for administrative costs. The remaining amount is remitted to the State.

In Fiscal Year 2024-25, $117.0 million was remitted to the State from this tax. All these funds were deposited in the General Fund.

## Tax Expenditures

**1. Transfers of Property by Operation of Law**

**Citation:** G.S. 105-228.29(1)

# Excise Tax on Motor Fuels (Article 36C) and Alternative Fuels (Article 36D)

## Tax Base Information

The tax base includes only fuel for vehicles licensed for highway use. Fuels sold for non-highway use are exempt from the Motor Fuels Tax but are subject to the Sales and Use Tax.

The tax rate on Alternative Fuels is set equivalent to the tax on motor fuels, as determined by the Secretary of Revenue.

Beginning Jan. 1, 2017, the tax rate is adjusted each year using a weighted average of the population growth rate and the growth rate of the energy consumer price index. In 2020 and 2021, the tax rate was 36.1¢ per gallon. (S.L. 2020-91, sec. 4.2 set the 2021 tax rate to be the greater of 36.1¢ per gallon and the tax rate obtained from the above calculation. Also, the derivation of the tax rate for 2022 used the 2021 tax rate obtained from the calculation.) In calendar year 2025, the tax rate was 40.3¢ per gallon.

In Fiscal Year 2024-25, approximately $2.6 billion was collected from the motor fuels excise tax, net of refunds.

## Tax Expenditures

**1. Sales to the State for its Use**

**Citation:** G.S. 105-449.88(3)

**Description:** Exemption for motor fuel sales to the State for its use.

**Enacting Legislation:** S.L. 1991-689

**FY25-26 Estimate (in $millions):** 0.0

**FY26-27 Estimate (in $millions):** 0.0

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**Note:** The loss to the Highway Fund & Highway Trust Fund is approximately $10 million per year, but there is no net effect on overall State funds.

**2. Sales to Local Boards of Education**

**Citation:** G.S. 105-449.88(4)

**Description:** Exemption for motor fuel sales to local boards of education.

**Enacting Legislation:** S.L. 1995-390; formerly, there was an exemption for gasoline used in public school transportation (S.L. 1941-119)

**FY25-26 Estimate (in $millions):** 9.8

**FY26-27 Estimate (in $millions):** 10.2

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**3. Sales to Charter Schools**

**Citation:** G.S. 105-449.88(6)

**Description:** Exemption for motor fuels sales to charter schools.

**Enacting Legislation:** S.L. 2000-72 - effective Oct. 1, 2000

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**4. Sales to Community Colleges**

**Citation:** G.S. 105-449.88(7)

**Description:** Exemption for motor fuel sales to community colleges.

**Enacting Legislation:** S.L. 2001-427 - effective Jan. 1, 2003

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**5. Sales to County or Municipal Corporation**

**Citation:** G.S. 105-449.88(8)

**Description:** Exemption for motor fuel sales to county or municipal corporation.

**Enacting Legislation:** S.L. 2002-108 - effective Jan. 1, 2003; counties and municipal corporations were formerly allowed a refund of all but 1¢ per gallon (S.L. 1957-1226)

**FY25-26 Estimate (in $millions):** 30.4

**FY26-27 Estimate (in $millions):** 31.6

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**6. Biodiesel Used in the Producer's Vehicle**

**Citation:** G.S. 105-449.88(9)

**Description:** Exemption for biodiesel that is produced by an individual for use in a private passenger vehicle registered in that individual's name.

**Enacting Legislation:** S.L. 2007-524 - effective Oct. 1, 2007

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**7. Sales to a Hospital Authority**

**Citation:** G.S. 105-449.88(10)

**Description:** Exemption for motor fuel sold to a hospital authority created under G.S. 131E-17.

**Enacting Legislation:** S.L. 2016-5 - effective May 11, 2016

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**8. Sales to a Joint Agency for Fire, Police or Emergency Services**

**Citation:** G.S. 105-449.88(11)

**Description:** Exemptionfor motor fuel sold to a joint agency created by interlocal agreement for the purposes of fire protection, police protection, or emergency services.

**Enacting Legislation:** S.L. 2018-39 - effective October 1, 2018

**FY25-26 Estimate (in $millions):** Unavailable

**FY26-27 Estimate (in $millions):** Unavailable

**9. Discount for Timely Payment -- Licensed Distributors and Importers**

**Citation:** G.S. 105-449.93(b)

**Description:** 1% discount to licensed distributor for timely payment.

**Enacting Legislation:** S.L. 1995-390 - effective Jan. 1, 1996; prior to this, distributors had been allowed a tare deduction for gasoline

**FY25-26 Estimate (in $millions):** 25.4

**FY26-27 Estimate (in $millions):** 26.2

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**10. Discount for Collection Expense -- Suppliers**

**Citation:** G.S. 105-449.97(b)

**Description:** 0.1% discount to supplier for timely payment.

**Enacting Legislation:** S.L. 1995-390 - effective Jan. 1, 1996

**FY25-26 Estimate (in $millions):** 1.0

**FY26-27 Estimate (in $millions):** 1.0

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**11. Discount for Timely Filing and Payments -- Sales to Unlicensed Distributors or Bulk-End Users**

**Citation:** G.S. 105-449.97(c)

**Description:** A supplier that sells motor fuel directly to an unlicensed distributor or to the bulk-end user, the retailer, or the user of the fuel may take the same percentage discount on the fuel that a licensed distributor may take under G.S. 105-449.93(b) when making deferred payments of tax to the supplier.

**Enacting Legislation:** S.L. 1995-390 - effective Jan. 1, 1996

**FY25-26 Estimate (in $millions):** included in item #9

**FY26-27 Estimate (in $millions):** included in item #9

**12. Discount for Timely Filing and Payments -- Certain Returns of Importers**

**Citation:** G.S. 105-449.99(b)

**Description:** An importer that imports motor fuel received from an elective supplier or a permissive supplier may deduct the percentage discount under G.S. 105-449.93(b) when remitting tax to the supplier, as trustee, for payment to the State.

**Enacting Legislation:** S.L. 1995-390 - effective Jan. 1, 1996

**FY25-26 Estimate (in $millions):** included in item #9

**FY26-27 Estimate (in $millions):** included in item #9

**13. Damage to Conveyance**

**Citation:** G.S. 105-449.105(b)

**Description:** Exemption for loss of fuel due to damage to a conveyance transporting the motor fuel, fire, a natural disaster, an act of war, or an accident.

**Enacting Legislation:** S.L. 1995-390 - effective Jan. 1, 1996

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**14. Accidentally Combining Fuels**

**Citation:** G.S. 105-449.105(c)

**Description:** Refund for accidentally combining any of the following: (1) dyed diesel fuel with tax-paid motor fuel, (2) gasoline with diesel fuel, or (3) undyed diesel fuel with dyed kerosene.

**Enacting Legislation:** S.L. 1995-390 - effective Jan. 1, 1996

**FY25-26 Estimate (in $millions):** less than 0.1

**FY26-27 Estimate (in $millions):** less than 0.1

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**15. Hold Harmless Refunds to Distributors and Importers**

**Citation:** G.S. 105-449.105B

**Description:** Refund to distributors and importers of the difference between the amount of discount under G.S. 105-449.93(b) for all motor fuel and the amount calculated by the following schedule for gasoline: 2% of the first 150,000 gallons purchased per month; 1.5% of the next 100,000 gallons; and 1% of the amount over 250,000 gallons.

**Enacting Legislation:** S.L. 1995-390 - effective Jan. 1, 1996

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**16. Refund for Nonprofit Transportation Services**

**Citation:** G.S. 105-449.106(a)(2)

**Description:** Refund of tax less 1 cent per gallon for a private nonprofit organization that transports passengers under contract with or at the express designation of a unit of local government.

**Enacting Legislation:** S.L. 1977-1215 - effective July 1, 1978

**FY25-26 Estimate (in $millions):** 0.2

**FY26-27 Estimate (in $millions):** 0.2

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**17. Refund for Volunteer Fire Department**

**Citation:** G.S. 105-449.106(a)(3)

**Description:** Refund of tax less 1 cent per gallon for a volunteer fire department.

**Enacting Legislation:** S.L. 1971-1160 - effective Oct. 1, 1971

**FY25-26 Estimate (in $millions):** 0.4

**FY26-27 Estimate (in $millions):** 0.4

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**18. Refund for Volunteer Rescue Squad**

**Citation:** G.S. 105-449.106(a)(4)

**Description:** Refund of tax less 1 cent per gallon for a volunteer rescue squad.

**Enacting Legislation:** S.L. 1981-1246 - effective July 1, 1983

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**19. Refund for Sheltered Workshop**

**Citation:** G.S. 105-449.106(a)(5)

**Description:** Refund of tax less 1 cent per gallon for a sheltered workshop recognized by the Department of Human Services.

**Enacting Legislation:** S.L. 1975-845 - effective July 1, 1975

**FY25-26 Estimate (in $millions):** 0.1

**FY26-27 Estimate (in $millions):** 0.1

**Data Source:** Motor Fuels Tax Division, Department of Revenue

**20. Partial Refund for Power Takeoff Vehicles**

**Citation:** G.S. 105-449.107(b)

**Description:** Annual refund of 33.3% of taxes for certain vehicles, less appropriate sales or privilege tax. The vehicles include concrete mixing vehicles; solid waste compacting vehicle; bulk feed vehicle that delivers feed to poultry or livestock and uses a power takeoff to unload the feed; a vehicle that delivers lime or fertilizer in bulk to farms and uses a power takeoff to unload the lime or fertilizer; a tank wagon that delivers alternative fuel or motor fuel or another type of liquid fuel into storage tanks and uses a power takeoff to make the delivery; or a commercial vehicle that delivers and spreads mulch, soils, composts, sand, sawdust, and similar materials and that uses a power takeoff to unload, blow and spread the materials; a septage removal vehicle; and a sweeper.

**Enacting Legislation:** S.L. 1979-801 - effective Jan. 1, 1980 for concrete mixers; S.L. 1983-1025 added solid waste compactors; S.L. 1985-656 added farm delivery vehicles; S.L. 1997-423 reduced the refund by the amount of sales or privilege tax that would be due on the fuel; S.L. 2001-408 added mulch-blowing equipment; S.L. 2005-377 added septage pumpers and sweepers

**FY25-26 Estimate (in $millions):** 1.9

**FY26-27 Estimate (in $millions):** 1.9

# Appendix A: Federal Tax Expenditure Flow-Through Items

The taxable income amounts for North Carolina income taxes are derived in large part from federal rules defining what constitutes taxable income components. As such, most federal exemptions and exclusions "flow through" to State income taxes. The tables in this appendix provide estimates of the North Carolina FY25-26 and FY26-27 tax revenue loss for those federal flow-through provisions. For the individual income tax provision, only those provisions with an estimated impact over $0.5 million for either fiscal year are presented.

North Carolina's itemized deductions are based on federal itemized deduction provisions. However, these have been included in the main body of this report since there are specific provisions for each of these in North Carolina's tax code.

As of the timing of this publication, North Carolina conforms to the Internal Revenue Code (I.R.C.) enacted as of Jan. 1, 2023, as shown in G.S. 105-228.90(b)(7). Therefore, the estimates in this section do not encompass several federal acts, such as the One Big Beautiful Bill Act (OBBBA) of July 2025, that would otherwise have a substantive impact on North Carolina's flow-through tax expenditures.

North Carolina has decoupled from (or is not directly impacted by) the following federal provisions for recent years:

- Exclusion from income of the discharge of qualified principal residence indebtedness under I.R.C. Section 108 of the Code for tax years through 2025
- Exclusion from income for the employer payments of principal or interest on a taxpayer's education loan through tax year 2025
- Exclusion from income for the discharge of a student loan under I.R.C. Section 108(f)(5) through tax year 2025
- Deduction for qualified tuition and related expenses
- 20% deduction for qualified business income
- Deferred gains reinvested into an Opportunity Fund under sec. 1400Z-2 of the Code

Several provisions from the OBBBA would have a significant impact on N.C. income tax revenues if conformity were changed to allow these to pass through to N.C. taxable income.

An important provision is the OBBBA section 70301, which will allow a full expensing option for domestic research and development costs beginning in 2025 (with retroactive treatment for certain businesses that incurred R&D expenses during between 2022 and 2024.) This is a change from the general 5-year amortization of R&D expenses, which is not considered to be a tax expenditure.

Another significant provision from the OBBBA is section 70307, which would provide a special depreciation allowance for qualified production property constructed between Jan. 20, 2025, and Dec. 31, 2028.

Estimates for national impacts on federal income taxes of provisions of the OBBBA are available from "Estimated Budgetary Effects of Public Law 119-21, to Provide for Reconciliation Pursuant to Title II of H. Con. Res. 14, Relative to CBO's January 2025 Baseline," Congressional Budget Office, July 21, 2025.

**Table 4. Federal pass-through tax expenditures for the individual income tax**

| List Number | Individual Income Tax Expenditure Description | FY25-26 Estimate ($Millions) | FY26-27 Estimate ($Millions) |
|---|---|---|---|
| 1 | Net exclusion of contributions and earnings for defined contribution plans | 1,292.4 | 1,513.4 |
| 2 | Exclusion of employer contributions for health care, health insurance premiums, and long-term care insurance premiums | 1,187.6 | 1,180.0 |
| 3 | Net exclusion of contributions and earnings for defined benefit plans | 774.6 | 820.5 |
| 4 | Exclusion of capital gains at death (step-up basis) | 465.5 | 479.3 |
| 5 | Exclusion of untaxed Social Security and railroad retirement benefits | 417.1 | 445.2 |
| 6 | Exclusion of capital gains from sale of principal residences | 385.9 | 408.4 |
| 7 | Deduction for IRAs (traditional and Roth) | 216.0 | 238.9 |
| 8 | Exclusion of veterans' benefits (includes veteran's disability compensation, pensions, and readjustment benefits) | 102.7 | 103.4 |
| 9 | Medical care and Tricare insurance for military dependents and retirees | 96.1 | 94.4 |
| 10 | Exclusion of benefits and allowances to armed forces personnel (includes exemption for military disability benefits) | 95.5 | 96.5 |
| 11 | Exclusion of amounts received under life insurance contracts | 90.4 | 92.0 |
| 12 | Net exclusion of pension contributions and earnings for plans covering partners and sole proprietors ("Keogh" plans) | 88.2 | 96.4 |
| 13 | Health Savings Accounts | 75.0 | 79.9 |
| 14 | Deduction for health insurance premiums and long-term care insurance premiums for the self-employed | 57.7 | 63.5 |
| 15 | Treatment of meals and lodging (other than military) | 54.5 | 53.4 |
| 16 | Exclusion of miscellaneous fringe benefits | 52.8 | 52.7 |
| 17 | Exclusion of scholarship and fellowship income | 49.4 | 51.8 |
| 18 | Carryover basis of appreciated property transferred by gift | 40.6 | 41.5 |
| 19 | Deferral of gain on like-kind exchanges | 37.9 | 35.3 |
| 20 | Exclusion for employer paid accident and disability premiums | 36.9 | 37.8 |

| List Number | Individual Income Tax Expenditure Description | FY25-26 Estimate ($Millions) | FY26-27 Estimate ($Millions) |
|---|---|---|---|
| 21 | Exclusion for employer-paid transportation benefits and employer-provided transit and vanpool benefits | 33.6 | 33.5 |
| 22 | Exclusion of workers' compensation benefits (disability and survivors payments) | 32.7 | 34.8 |
| 23 | Exclusion of earnings of qualified tuition programs (including prepaid tuition programs and savings account programs) | 31.1 | 29.9 |
| 24 | Depreciation of rental housing in excess of alternative depreciation system | 29.8 | 28.4 |
| 25 | Exclusion of workers' compensation benefits (medical benefits) | 26.9 | 28.6 |
| 26 | Exclusion for employer contributions for premiums on group long-term life insurance | 23.3 | 23.9 |
| 27 | Exclusion of gain for certain small business stock | 22.5 | 22.9 |
| 28 | Special treatment of employee stock ownership plans | 21.3 | 22.0 |
| 29 | Deduction for interest on student loans | 15.7 | 16.3 |
| 30 | Exclusion of income earned by voluntary employees' beneficiary associations | 15.4 | 18.6 |
| 31 | Cash accounting, other than agriculture | 14.7 | 15.7 |
| 32 | Exclusion of health insurance benefits for military retirees and retiree dependents enrolled in Medicare | 14.2 | 15.2 |
| 33 | Exclusion of combat pay | 13.9 | 14.8 |
| 34 | Exclusion of compensatory damages on account of personal physical injuries or physical sickness | 10.5 | 10.1 |
| 35 | Deferral of gain on non-dealer installment sales | 10.5 | 10.8 |
| 36 | Exclusion of employer-provided (on-site) gyms | 10.0 | 10.1 |
| 37 | Exclusion of certain allowances for federal employees abroad | 9.4 | 9.2 |
| 38 | Exclusion of cash public assistance benefits | 9.2 | 9.3 |
| 39 | Exclusion of employer-provided education assistance benefits | 7.5 | 6.7 |
| 40 | Exclusion of housing allowances for ministers | 6.1 | 5.9 |
| 41 | Exemption from imputed interest rules | 6.0 | 6.6 |
| 42 | Exclusion of employer-provided child care | 6.0 | 6.6 |
| 43 | Deferral of taxation on spread on acquisition of stock under incentive stock option rules | 5.9 | 6.2 |

| List Number | Individual Income Tax Expenditure Description | FY25-26 Estimate ($Millions) | FY26-27 Estimate ($Millions) |
|---|---|---|---|
| 44 | Depreciation of buildings other than rental housing in excess of alternative depreciation system | 3.4 | 3.8 |
| 45 | Exclusion of certain foster care payments | 3.1 | 3.1 |
| 46 | Deduction for expenditures on energy-efficient commercial building property | 2.6 | 2.5 |
| 47 | Exclusion of employee awards | 2.5 | 2.4 |
| 48 | Inventory methods of valuation, including last in first out, lower of cost or market, specific identification for homogeneous products | 2.0 | 1.9 |
| 49 | Exclusion for employer-provided education & tuition reduction benefits | 1.9 | 1.9 |
| 50 | Deduction for overnight expenses for National Guard and Reserve members | 1.6 | 1.5 |
| 51 | Deduction for teacher classroom expenses | 1.5 | 1.5 |
| 52 | Amortization of business start-up costs | 1.0 | 1.4 |
| 53 | Deferral of taxation on spread on employee stock purchase plans | 1.0 | 1.0 |
| 54 | Completed contract rules | 0.9 | 1.0 |
| 55 | Exclusion for employer-provided adoption assistance | 0.7 | 0.7 |
| 56 | Distributions in redemption of stock to pay various taxes imposed at death | 0.5 | 0.5 |

Sources: *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028* (JCX-48-24), Joint Committee on Taxation, December 11, 2024. The reference tax law includes changes through November 1, 2024. Federal tax expenditures are also measured by *Tax Expenditures Fiscal Year* 2026, Office of Tax Analysis, US Department of the Treasury, November 27, 2024

These sources may differ on how a tax expenditure is defined. For example, the Office of Tax Analysis considers "exclusion of net imputed rental income" for owner-occupied housing as a tax expenditure, but the Joint Committee on Taxation does not. Generally, this table uses the estimates from the Joint Committee on Taxation.

Note: Descriptions of federal tax expenditures can be found in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, Congressional Research Service, December 2024.

**Table 5. Federal Pass-through tax expenditures for the corporate income tax**

| List Number | Corporate Income Tax Expenditure Description | FY25-26 Estimate ($Millions) | FY26-27 Estimate ($Millions) |
|---|---|---|---|
| 1 | Deferral of gain on non-dealer installment sales | 15.6 | 15.3 |
| 2 | Deferral of gain on like-kind exchanges | 8.1 | 7.5 |
| 3 | Special tax provisions for employee stock ownership plans | 7.6 | 7.7 |
| 4 | Special rules for IC-DISCs | 7.1 | 6.6 |
| 5 | Inventory methods and valuation, including last in first out, lower of cost or market, specific identification for homogeneous products | 5.0 | 4.5 |
| 6 | Completed contract rules | 2.4 | 2.3 |
| 7 | Cash accounting, other than agriculture | 1.8 | 1.7 |
| 8 | Depreciation of rental housing in excess of alternative depreciation system | 1.8 | 1.4 |
| 9 | Eliminate requirement that financial institutions allocate interest expense attributable to tax-exempt interest | 1.5 | 1.4 |
| 10 | Expensing of timber-growing costs | 0.9 | 0.8 |
| 11 | Depreciation of buildings other than rental housing in excess of alternative depreciation system | 0.9 | 0.8 |
| 12 | Amortization and expensing of reforestation expenses | 0.3 | 0.3 |
| 13 | Deduction for certain energy efficient commercial building property | 0.3 | 0.3 |
| 14 | Amortization of business start-up costs | 0.1 | 0.1 |
| 15 | Amortization of air pollution control facilities | 0.1 | 0.1 |

Sources: *Estimates of Federal Tax Expenditures for Fiscal Years 2024-2028* (JCX-48-24), Joint Committee on Taxation, December 11, 2024. The reference tax law includes changes through November 1, 2024. Federal tax expenditures are also measured by *Tax Expenditures Fiscal Year* 2026, Office of Tax Analysis, US Department of the Treasury, November 27, 2024.

Note: Items are included in this table if the State impact is measured to be at least $100,000. Items with negative amounts (meaning that the provision would increase tax revenues) are excluded.

# Appendix B: Other Tax Exclusions and Exemptions

This section contains a list of additional provisions that are not included in the main body of the report's text because they are considered necessary for the ordinary functioning of the tax system.

## Tobacco Tax

**1. Sales to Distributors**
**Description:** Manufacturers shipping cigarettes to other distributors are exempt.
**Citation:** G.S. 105-113.1
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**2. Out-of-State Shipments**
**Description:** A distributor is exempt from tax if possession is for out-of-state shipments.
**Citation:** G.S. 105-113.9
**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**3. Out-of-State Sales**
**Description:** Exemption for tobacco products sold outside the State.
**Citation:** G.S. 105-113.36A(d)(1) [formerly G.S. 105-113.35(a2)(1)]
**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**4. Sales to Federal Government**
**Description:** Exemption for tobacco products sold to the federal government.
**Citation:** G.S. 105-113.36A(d)(2) [formerly G.S. 105-113.35(a2)(2)]
**Reason for Excluding from Tax Expenditure List:** Constitutional Restrictions

## Alcoholic Beverage License and Excise Taxes

**5. Sales to U.S. Armed Forces**
**Description:** Exemption if beverage is sold to the U.S. Armed Forces.
**Citation:** G.S. 105-113.81(c)
**Reason for Excluding from Tax Expenditure List:** Constitutional Restrictions

**6. Out-of-State Sales**
**Description:** Exemption if beverage is sold outside the State.
**Citation:** G.S. 105-113.81(d)
**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

## Franchise Tax

**7. Insurance Companies**
**Description:** Exemption for an insurance company subject to tax under Article 8B of this Chapter.
**Citation:** G.S. 105-125(a)(2)
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**8. Transfers of Debt**
**Description:** For debtor corporations, a proportionate part of debt determined on the bases of the ratio of capital borrowed by a creditor corporation from a source other than a parent, subsidiary or affiliate to the total assets of the creditor corporation. For creditor corporations, the amount of any debt owed to it by a parent, subsidiary, or affiliated corporation to the extent that such debt has been included in the tax base of the parent, subsidiary, or affiliated debtor corporation reporting for taxation under the provisions of this section.
**Citation:** G.S. 105-122(b)
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

## Corporation Income Tax

**9. U.S. Obligation Interest**
**Description:** Deductions for interest upon the obligations of the U.S. or its possessions, to the extent included in federal taxable income.
**Citation:** G.S. 105-130.5(b)(1)
**Reason for Excluding from Tax Expenditure List:** Intergovernmental Reciprocity

**10. Payments Received from an Affiliated Company That Paid Tax on Payment**
**Description:** Payment received from a parent, subsidiary or affiliated corporation in excess of fair compensation in inter-company transactions which in the determination of the net income or net loss of such corporation were not allowed as a deduction.
**Citation:** G.S. 105-130.5(b)(2)
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**11. Adjustment for Federal Tax Credits**
**Description:** Deduction for business expenses when a federal tax credit was taken in lieu of a deduction.
**Citation:** G.S. 105-130.5(b)(11)
**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base: In the Code, there are some activities that may receive either a tax credit or a deduction from taxable income, but not both. A taxpayer that chooses to take the credit may deduct the alternative allowable Federal deduction when calculating North Carolina taxable income. Many of these deductions are related to the federal Work Opportunity, Welfare-to-Work, and fuel tax credits.

**12. Royalty Payments Taxed by Related Member**
**Description:** Exemption for royalty payments received from a related member who added the payments to income.

**Citation:** G.S. 105-130.5(b)(20)
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**13. Discharge of Certain Indebtedness**
**Description:** Section 108(i) of the Code allowed a business to cancel debt in 2009 and 2010, but defer paying taxes on the resultant income until a 5-year period beginning in 2014. NC decoupled from this provision. This deduction allows them to remove this amount from their NC taxable income in tax years 2014-2018.
**Citation:** G.S. 105-130.5(b)(25)
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**14. Exemption for Adding Back Paid Royalties to Taxable Income**
**Description:** A taxpayer that pays royalties to a related member that does not include this income on a North Carolina income tax return must add these payments to their taxable income. However, the addback may be foregone if the recipient of the payment is organized under the laws of another country that has a tax treaty with the U.S. and the country imposes a tax on the royalty income of the recipient at a rate that is equal to or exceeds the State's corporate income tax rate.
**Citation:** G.S. 105-130.7A(c)(3)
**Reason for Excluding from Tax Expenditure List:** Constitutional Restrictions

**15. Certain Charitable Organizations**
**Description:** Exemption for cemetery corporations and corporations organized for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals.
**Citation:** G.S. 105-130.11(a)(3)
**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base - following the Joint Committee on Taxation’s argument that the nonbusiness activities of charities predominate and unrelated business activities are subject to tax.

**16. Nonprofit Business Associations**
**Description:** Exemption for business leagues, chambers of commerce, merchants' associations or boards of trade not organized for profit.
**Citation:** G.S. 105-130.11(a)(4)
**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**17. Nonprofit Promoters of Social Welfare**
**Description:** Exemption for civic leagues or organizations not organized for profit, but operated for the promotion of social welfare.
**Citation:** G.S. 105-130.11(a)(5)
**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**18. Nonprofit Agricultural Marketing Memberships**
**Description:** Exemption for farmers' , fruit growers' or like organization for the purposes of marketing member products.
**Citation:** G.S. 105-130.11(a)(8)
**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**19. Certain Agricultural Associations**

**Description:** Exemption for mutual associations formed under G.S. 54-111 through 54-128 to conduct agricultural business on the mutual plan and marketing associations organized under GS 54-129 through 54-158.

**Citation:** G.S. 105-130.11(a)(9)

**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**20. Real Estate Mortgage Investment Conduits**

**Description:** An entity that qualifies as a real estate mortgage investment conduit, per Section 860D of the Code is exempt.

**Citation:** G.S. 105-130.11(d)

**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**21. Distributed Earnings of Regulated Investment Companies and Real Estate Investment Trusts**

**Description:** A regulated investment company or real estate investment trust shall be taxed only on that part of its net income which is not distributed or declared for distribution to shareholders.

**Citation:** G.S. 105-130.12

**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**22. S-Corporation Shareholders**

**Description:** Credits shall be given to prevent double taxation of S-Corporation shareholders.

**Citation:** G.S. 105-131.8

**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

## Individual Income Tax

**23. Right of Claim Itemized Deduction**

**Description:** Deduction for repayment in the current year of an amount included in an earlier taxable year because it appeared that the taxpayer had an unrestricted right to such item.

**Citation:** G.S. 105-153.5(a)(2)d

**Reason for Excluding from Tax Expenditure List:** Avoid double taxation

**24. U.S. Obligation Interest**

**Description:** Deductions for interest upon the obligations of the U.S. or its possessions, to the extent included in federal taxable income.

**Citation:** G.S. 105-153.5(b)(1)

**Reason for Excluding from Tax Expenditure List:** Intergovernmental Reciprocity

**25. Refunds of State, Local or Foreign Taxes in Federal AGI**

**Description:** Refunds of state, local, and foreign income taxes included in the taxpayer's federal adjusted gross income are exempt.

**Citation:** G.S. 105-153.5(b)(4)

**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**26. Income from Federally-Recognized Indian Reservation**

**Description:** Exemption for income that is (1) earned or received by an enrolled member of a federally recognized Indian Tribe and (2) derived from activities on a federally recognized Indian reservation while the member resides on the reservation.

**Citation:** G.S. 105-153.5(b)(6)

**Reason for Excluding from Tax Expenditure List:** Constitutional Restrictions

**27. Adjustment to the Basis of Property**

**Description:** Deduction for the amount by which the basis of property exceeds the basis of property under the Code, in the year the taxpayer disposes of the property.

**Citation:** G.S. 105-153.5(b)(7)

**Reason for Excluding from Tax Expenditure List:** The basis needs to be adjusted in order to apply the correct amount of taxation on capital gains and capital losses.

**28. Discharge of Certain Indebtedness**

**Description:** Deduction for the amount added to federal taxable income under section 108(i)(1) of the Code.

**Citation:** G.S. 105-153.5(b)(10)

**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation.

**29. Business-Related Deduction in Lieu of a Tax Credit**

**Description:** A taxpayer may deduct an ordinary and necessary business expense that was not deducted from federal income due to the taxpayer taking a federal tax credit.

**Citation:** G.S. 105-153.5(b)(11)

**Reason for Excluding from Tax Expenditure List:** Business expenses are deductible as a normal part of the income tax.

**30. Income Taxes Paid to Other States**

**Description:** Individuals residing in North Carolina may receive a tax credit for income taxes paid to other states. The tax credit may not exceed the amount of income tax that would have been paid to North Carolina on the relevant income.

**Citation:** G.S. 105-105.153.9

**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation: The income has been taxed by another State

## Sales and Use Tax

**31. Instructional Seminars and Workshops**
**Description:** Tuition, registration fees, or charges to attend instructional seminars, conferences, or workshops for educational purposes are excluded from sales tax on entertainment activities.
**Citation:** G.S. 105-164.4G(e)(2)
**Effective Date:** admissions sold on or after May 29, 2014 (S.L. 2014-3)
**Reason for Excluding from Tax Expenditure List:** Not in tax base

**32. Political Contributions Related to an Entertainment Activity**
**Description:** A political contribution is excluded from the sales tax on entertainment activities.
**Citation:** G.S. 105-164.4G(e)(3)
**Effective Date:** admissions sold on or after May 29, 2014 (S.L. 2014-3)
**Reason for Excluding from Tax Expenditure List:** Not in tax base

**33. Transportation Related to an Amusement**
**Description:** An amount paid solely for transportation is excluded from the sales tax on entertainment activities.
**Citation:** G.S. 105-164.4G(e)(5)
**Effective Date:** admissions sold on or after May 29, 2014 (S.L. 2014-3)
**Reason for Excluding from Tax Expenditure List:** Not in tax base

**34. Farm Products Requiring Further Processing**
**Description:** Exemption for sales of cotton, tobacco, peanuts or other farm products sold to manufacturers for further manufacturing or processing.
**Citation:** G.S. 105-164.13(4)
**Reason for Excluding from Tax Expenditure List:** Purchase of Intermediate Good

**35. Manufactured Products Sold for Resale**
**Description:** Exemption for sales of manufactured products produced and sold by manufacturers or producers to other manufacturers, producers, or registered retailers or wholesale merchants, for the purpose of resale.
**Citation:** G.S. 105-164.13(5)
**Reason for Excluding from Tax Expenditure List:** Purchase of Intermediate Good

**36. Ingredients in Manufacturing Process**
**Description:** Exemption for sales to a manufacturer of tangible personal property that enters into or becomes an ingredient or component part of tangible personal property that is manufactured.
**Citation:** G.S. 105-164.13(8)
**Reason for Excluding from Tax Expenditure List:** Purchase of Intermediate Good

**37. Articles Repossessed by Vendor**
**Description:** Exemption for sales of an article repossessed by the vendor if the tax was paid on the sales price of the article.

**Citation:** G.S. 105-164.13(16)
**Reason for Excluding from Tax Expenditure List:** Not in the Tax Base

**38. Sales with Constitutional Protection**
**Description:** Sales which a state would be without power to tax under the limitations of the Constitution or laws of the United States or under the Constitution of this State.
**Citation:** G.S. 105-164.13(17)
**Reason for Excluding from Tax Expenditure List:** Constitutional Restrictions

**39. Items for Use on Ocean-Going Vessels**
**Description:** Sales of fuel and other items for use or consumption by or on ocean-going vessels.
**Citation:** G.S. 105-164.13(24)
**Reason for Excluding from Tax Expenditure List:** Sales for Use Outside North Carolina

**40. Sales on Cherokee Indian Reservation**
**Description:** Exemption for sales by merchants on the Cherokee Indian Reservation.
**Citation:** G.S. 105-164.13(25)
**Reason for Excluding from Tax Expenditure List:** Constitutional Restrictions

**41. Articles Purchased for Export to a Foreign Country**
**Description:** Exemption for tangible property purchased solely for the purpose of export to a foreign country for exclusive use or consumption in that or some other foreign country.
**Citation:** G.S. 105-164.13(33)
**Reason for Excluding from Tax Expenditure List:** Sales for Use Outside North Carolina

**42. Purchases Delivered Outside N.C.**
**Description:** Exemption for tangible property sold by a retailer to purchasers within or without this State, when the property is delivered in this State to a common carrier or to the United States Postal Service for delivery to the purchaser or the purchaser's designees outside this State and the purchaser does not subsequently use the property in this State.
**Citation:** G.S. 105-164.13(33a)
**Reason for Excluding from Tax Expenditure List:** Sales for Use Outside North Carolina

**43. Food Stamp Purchases**
**Description:** Exemption for food and other items lawfully purchased under the Food Stamp Program or WIC.
**Citation:** G.S. 105-164.13(38)
**Reason for Excluding from Tax Expenditure List:** Federal law prohibits state or local taxation.

**44. Deposit on Returnable Beverage Container**
**Description:** Exemption for an amount charged as a deposit on a beverage container that is returnable to the vendor for reuse when the amount is refundable or creditable to the vendee.
**Citation:** G.S. 105-164.13(47)
**Reason for Excluding from Tax Expenditure List:** Not a Final Sale

**45. Deposit on Returnable Replacement Part**
**Description:** Exemption for an amount charged as a deposit on an aeronautic, automotive, industrial, marine or farm replacement part that is returnable to the vendor for rebuilding or remanufacturing when the amount is refundable or creditable to the vendee. This exemption does not include tires or batteries.
**Citation:** G.S. 105-164.13(48)
**Reason for Excluding from Tax Expenditure List:** Not a Final Sale

**46. Resold Telecommunications Services**
**Description:** Telecommunications service that is a component part of or is integrated into a telecommunications service that is resold.
**Citation:** G.S. 105-164.13(54)a
**Reason for Excluding from Tax Expenditure List:** Not a Final Sale

**47. Repair, Maintenance and Installation Services Purchased for Resale**
**Description:** Exemption for repair, maintenance and installation services purchased for resale. (Enacting Legislation: S.L. 2015-241)
**Citation:** G.S. 105-164.13(61b)
**Reason for Excluding from Tax Expenditure List:** Not a Final Sale

**48. Food, Prepared Food and Related Items Covered under a Prepaid Meal Plan**
**Description:** Exemption for food and prepared food to be provided to a person entitled to the food under a prepaid meal plan subject to tax under G.S. 105-164.4(a)(12). (Enacting Legislation: S.L. 2014-3)
**Citation:** G.S. 105-164.13(63)
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

## Highway Use Tax

**49. Salvage Vehicles**
**Description:** Full exemption when a certificate of title is issued to the insurer of the motor vehicle because the vehicle is a salvage vehicle.
**Citation:** G.S. 105-187.6(a)(1)
**Reason for Excluding from Tax Expenditure List:** Not a Final Sale

**50. Resale of Automobile by Manufacturer or Retailer**
**Description:** Full exemption when a certificate of title is issued to either a manufacturer or a motor vehicle retailer for the purpose of resale.
**Citation:** G.S. 105-187.6(a)(2)
**Reason for Excluding from Tax Expenditure List:** Not a Final Sale

**51. Correction in Owner's Name on Title**
**Description:** Full exemption when a certificate of title is issued to the same owner to reflect a change or correction in the owner's name.
**Citation:** G.S. 105-187.6(a)(3)
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**52. Removal of a Co-Owner's Name from Title**
**Description:** Full exemption when a certificate of title is issued to one or more of the same co-owners to reflect the removal of one or more other co-owners.
**Citation:** G.S. 105-187.6(a)(3a)
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**53. Change in Title Due to Marital Separation or Divorce**
**Description:** Full exemption when a certificate of title is issued by a distribution of marital or divisible property incident to a marital separation or divorce.
**Citation:** G.S. 105-187.6(a)(6)
**Reason for Excluding from Tax Expenditure List:** Avoid Double Taxation

**54. Transfer of Government-Operated Vehicle Through a State Agency**
**Description:** Full exemption for sale to a State agency from a unit of local government, volunteer fire department, or volunteer rescue squad to enable the State agency to transfer the vehicle to another unit of local government, volunteer fire department, or volunteer rescue squad.
**Citation:** G.S. 105-187.6(a)(10)
**Reason for Excluding from Tax Expenditure List:** Not a Final Sale

**55. Vehicle Donations to Charities Solely for Resale**
**Description:** Full exemption when a certificate of title is issued as the result of a transfer of a vehicle to a charitable 501(c)(3) organization, where the vehicle was donated solely for purposes of resale.
**Citation:** G.S. 105-187.6(a)(12)
**Enacting Legislation:** S.L. 2018-43 - effective June 22, 2018
**Reason for Excluding from Tax Expenditure List:** Not a Final Sale

## Gross Premiums Tax on Insurance Companies

**56. Premiums from Federal Employees Health Benefits Plan and Medicare or Medicaid**
**Description:** Excludes premiums to the extent prohibited by federal law from Federal Employees Health Benefits Plan and Medicare or Medicaid.
**Citation:** G.S. 105-228.5(c)(4)
**Reason for Excluding from Tax Expenditure List:** Constitutional Restrictions

## Excise Tax on Motor Fuels and Alternative Fuels

**57. Sales for Out-of-State Use**
**Description:** The excise tax on motor fuel does not apply to motor fuel removed from a terminal for export if the motor fuel is removed by a licensed distributor or a licensed exporter and the supplier of the motor fuel collects tax on it at the rate of the motor fuel's destination state.
**Citation:** G.S. 105-449.88(1)
**Reason for Excluding from Tax Expenditure List:** Sale for Use Outside North Carolina

**58. Sales to Out-of-State Suppliers**

**Description:** The tax does not apply to motor fuel removed by transport truck from a terminal for export if the motor fuel is removed by a licensed distributor or licensed exporter, the supplier that is the position holder for the motor fuel sells the motor fuel to another supplier as the motor fuel crosses the terminal rack, the purchasing supplier or its customer receives the motor fuel at the terminal rack for export, and the supplier that is the position holder collects the tax on the motor fuel at the rate of the motor fuel's destination state.

**Citation:** G.S. 105-449.88(1a)

**Reason for Excluding from Tax Expenditure List:** Sale for Use Outside North Carolina

**59. Sales to the Federal Government**

**Description:** The tax does not apply to motor fuel sold to the federal government for its use.

**Citation:** G.S. 105-449.88(2)

**Reason for Excluding from Tax Expenditure List:** Constitutional Restrictions

**60. Diesel Sold to an Airport**

**Description:** Exemption for sales of diesel that is kerosene and sold to an airport.

**Citation:** G.S. 105-449.88(5)

**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**61. Refunds for Sale to Exempt Entity**

**Description:** An entity whose use of motor fuel is exempt from tax may obtain a refund of any motor fuel excise tax the entity pays. The person who sells the fuel to the exempt entity is also allowed to obtain a refund of any taxes paid on the fuel.

**Citation:** G.S. 105-449.105(a)

**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**62. Sale of Kerosene for Uses Not Related to Motor Vehicles**

**Description:** A distributor who sells kerosene may obtain a refund for the excise tax paid on the kerosene if the distributor dispenses the kerosene into a storage facility for use in: (1) heating, (2) drying crops, (3) a manufacturing process. The storage facility must be installed in a manner that makes use of the fuel for any other purpose improbable.

**Citation:** G.S. 105-449.105A

**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**63. Motor Fuel for Off-Highway Equipment**

**Description:** Quarterly refunds of the estimated entire tax to a person who purchases and uses motor fuel to operate special mobile equipment off-highway. (Special mobile equipment is a vehicle that has a permanently attached crane, mill, ditch-digging apparatus, or similar attachment. It is not designed or used primarily for the transportation of persons or property.)

**Citation:** G.S. 105-449.106(c)

**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**64. Sale of Motor Fuel for Uses Not Related to Highway Vehicle**

**Description:** Refund for purchases and uses of motor fuel for a purpose other than to operate a licensed highway vehicle.

**Citation:** G.S. 105-449.107(a)

**Reason for Excluding from Tax Expenditure List:** Not in Taxable Base

**65. Sales to Cherokee Indian Reservation**
**Description:** Refund for motor fuels and special fuels taxes to the Cherokee Indians on behalf of its members who reside on or engage in otherwise taxable transactions within Cherokee trust lands.
**Citation:** G.S. 105-449.114
**Reason for Excluding from Tax Expenditure List:** Constitutional Restrictions

# A LETTER FROM THE COMMISSIONER

Greetings,

The North Dakota Office of State Tax Commissioner remains steadfast in its mission to provide efficient, accurate, and exceptional service to taxpayers by fairly and effectively administering the tax laws of our state. Established as an independent agency in 1912, the Office of State Tax Commissioner serves as North Dakota's primary revenue collection agency, accounting for more than 95 percent of all general fund dollars each biennium.

The agency administers nearly 30 tax types, including sales and use, individual and corporate income, oil and gas, and excise taxes such as motor vehicle, alcohol, and tobacco. The authority and responsibilities of the agency are outlined in Title 57 of the North Dakota Century Code, with general powers defined in N.D.C.C. § 57-01-02.

As Tax Commissioner of North Dakota, I am pleased to present the Biennial Report for the period of July 1, 2023, through June 30, 2025. This report highlights successful programs, legislative actions, and advancements made to better serve the taxpayers of the state.

During this biennium, the 69th North Dakota Legislative Assembly completed a productive and historic session with lawmakers introducing 1,089 bills, the most since 2009. Of these, 615 successfully passed both the House and Senate, with Governor Kelly Armstrong signing 536 into law.

This Biennial Report offers a comprehensive overview of our agency's key functions and responsibilities. It includes detailed information on income tax credits and incentives, alcohol wholesale tax administration, oil extraction tax legislation, biennium-to-biennium financial comparisons, an overview of tax collection types, and a full statement of expenditures. Through intuitive dashboards and in-depth analytics, Power BI helps identify trends, track performance, and present meaningful comparisons. The data featured in this report reflects our continued commitment to transparency, accuracy, and informed decision-making.

The Office of State Tax Commissioner will continue to remain focused on delivering exceptional customer service, advancing digital capabilities, and improving innovative solutions to better serve the residents and businesses of North Dakota. These efforts continue to guide our operations and reflect our ongoing commitment to effective tax administration in the state.

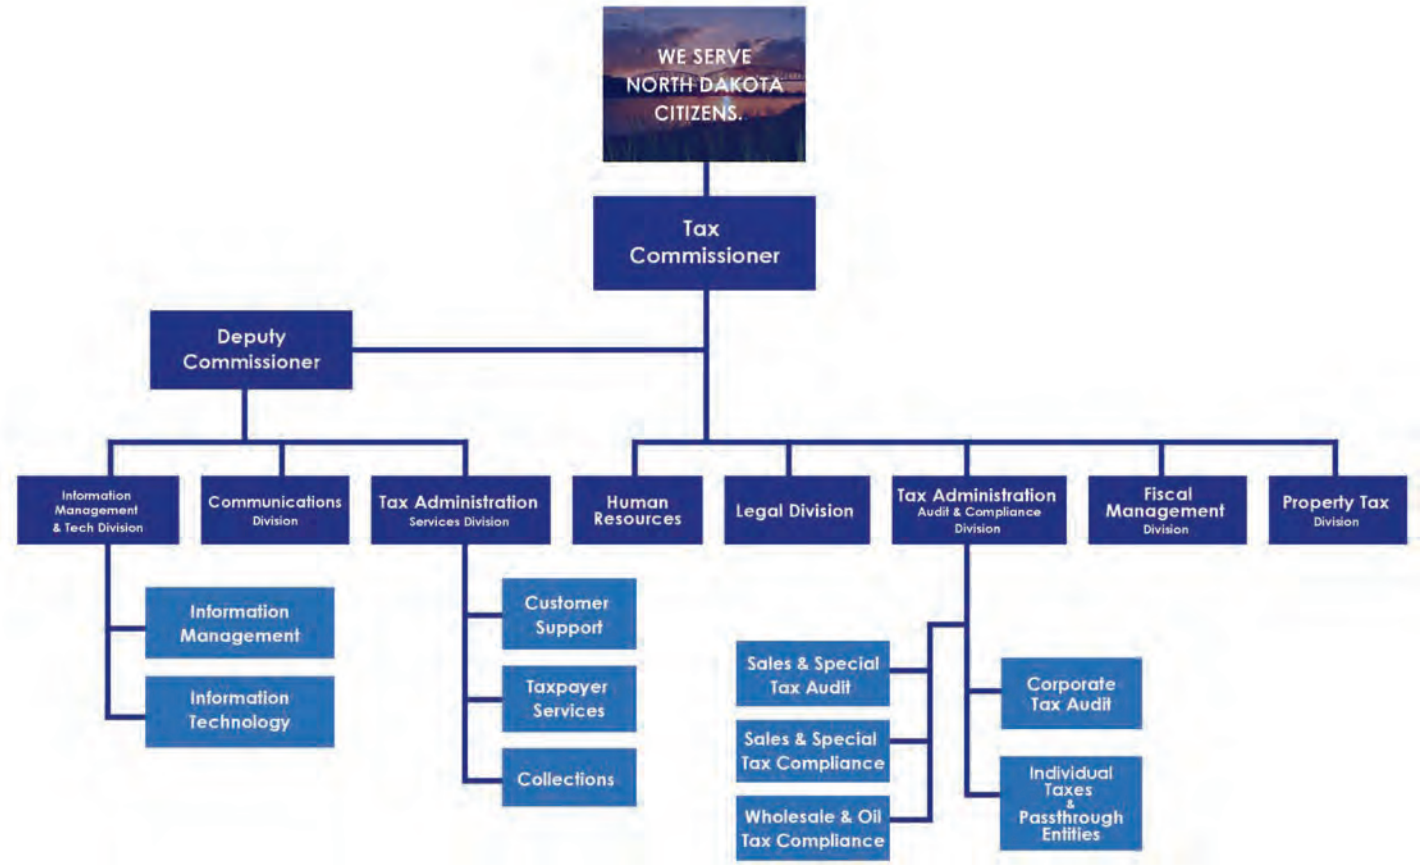
If you have any questions regarding North Dakota tax-related programs, please reach out to our agency at 701-328-7088, visit our website at www.tax.nd.gov, and connect with our social media.

Sincerely,

Brian Kroshus, Tax Commissioner

5559/8585

# ORGANIZATIONAL CHART



The Office of State Tax Commissioner is comprised of six divisions. The following provides insight into the roles and responsibilities of these divisions.

**COMMISSIONER'S DIVISION**

- This division serves as the administrative hub of the agency. It manages personnel, communications, and research functions, and conducts tax-related studies as assigned by the Tax Commissioner. The Deputy Commissioner and Human Resources are also part of this division.

**FISCAL MANAGEMENT DIVISION**

- This is the financial center covering revenue accounting, accounts payable, payroll, asset management, purchasing, and budgeting.

**INFORMATION MANAGEMENT AND TECHNOLOGY DIVISION**

- The Information Management and Technology (IM&T) Division leads the agency's technology efforts and safeguards taxpayer data. They support an integrated tax system (Gentax® and the onsite support staff) and all other software programs used throughout the agency. The IM&T division is also responsible for processing all incoming and outgoing mail, printing, validating, imaging, data entry, and storage of all tax records.

# FUNCTIONS & RESPONSIBILITIES

## LEGAL DIVISION

- The Legal Division provides litigation services, legal advice and counsel to the agency and State Board of Equalization. In addition to handling all aspects of litigation, services provided include drafting legislation, commissioner opinions, open records responses, policies, contracts, and correspondence. During legislative sessions, the division provides information and testimony to legislative committees on behalf of the agency. It also assists the agency in interpreting new or amended laws and aids the agency and Tax Commissioner in the implementation of those laws.

## PROPERTY TAX DIVISION

- The Property Tax Division administers property and utility taxes, coal taxes, the Primary Residence Credit Program, Homestead Property Tax Credit and Renter's Refund Program, Disabled Veterans Property Tax Credit Program, and provides administrative and technical support to the State Board of Equalization.

## TAX ADMINISTRATION DIVISION

- The largest division of the agency administers taxes for individual income, corporate income, sales and use, motor fuels, oil and gas gross production, oil extraction, alcoholic beverages, tobacco products and estate; special taxes; telecommunications gross receipts tax; and applicable local option taxes. This division is also responsible for the collection of delinquent taxes and determining licensing requirements, establishing filing frequency requirements and managing taxpayer demographic information.

5561/8585

# LEGISLATIVE UPDATES

The following are highlights of income tax, property tax, and sales and special taxes legislation approved by the 2025 Legislative Assembly and signed into law by Governor Kelly Armstrong.

*Please Note: The information provided in this section is not reflected in the charts and graphs on the succeeding pages. New approved state tax laws will affect future net collections and will be displayed in upcoming biennial reports.*

## INCOME TAX CREDIT LEGISLATION

### SB 2282 - INCOME TAX CREDIT FOR EMPLOYER PROVIDED CHILD CARE PAYMENTS

Beginning with tax year 2025, a new income tax credit was created for employers who provide child care assistance to their employees. The credit equals 50% of an employer's qualified child care payments made during the year, up to the first $1,000 of payments per employee. To qualify, employers must offer an equal opportunity for all employees with child care costs to participate. Eligible payments include those made directly to North Dakota–licensed child care facilities or to licensed facilities within ten miles of the state, as well as reimbursements made to employees for qualified child care.

The credit is available to corporations, individuals, estates, trusts, and passthrough entities, with passthrough credits distributed proportionally to each owner. There is no cap on the total amount of credit that may be earned in a tax year; however, it is nonrefundable and cannot be carried forward to future years.

### SB 2038 - DISCLOSURE OF TAX INCENTIVE INFORMATION

Senate Bill 2038 amends existing law to require the Office of State Tax Commissioner to disclose the amount of any tax exemption granted to a taxpayer upon request from the chairman of legislative management or a legislative standing committee. This change expands current law, which already allows similar disclosures for tax credits and deductions claimed.

However, the bill maintains confidentiality protections by prohibiting the disclosure of a taxpayer's name or any other information restricted under N.D.C.C. Title 57.

## FEDERAL TAX LAW CHANGES

### H.R. 1 - ONE BIG BEAUTIFUL BILL ACT

On July 4, 2025, President Donald Trump signed into law the One Big Beautiful Bill Act (OBBBA), a budget reconciliation measure that includes several federal income tax changes.

A major provision makes permanent many elements of the Tax Cuts and Jobs Act of 2017, which were set to expire after tax year 2025. New individual income tax provisions provide partial exclusions or deductions for tip income, overtime pay, car loan interest, and charitable contributions, along with adjustments to the standard deduction, itemized deductions, and child tax credit.

Some provisions apply retroactively to 2025, while others are permanent or expire after 2028. Because North Dakota's income tax calculation begins with federal taxable income, these federal changes will automatically affect North Dakota taxable income.

However, federal tax credit changes do not directly impact state calculations. North Dakota's income tax rates and brackets for 2025 remain unchanged, with updated 2026 rates and withholding tables to be published in November once federal inflation data becomes available.

# LEGISLATIVE UPDATES

## PROPERTY TAX CREDIT

### HB 1176 - PROPERTY TAX RELIEF: PRIMARY RESIDENCE CREDIT

House Bill 1176 continues and updates the Primary Residence Credit (PRC) program established during the 2023 Legislative Session under House Bill 1158. Qualifying PRC applicants receive an annual property tax credit against the property taxes due on their primary residence. Key updates include:

- Expansion of the maximum credit from $500 to $1,600 per primary residence
- One-time special application period for mobile homeowners.
- Funding the program with legacy fund earnings
- Creating a new primary residential property class for tax years after 2025

### RENTER'S REFUND

House Bill 1176 increases the maximum benefit under the Renter's Refund program from $400 to $600. The Renter's Refund program provides a partial refund of rent paid for a renter's place of residence or mobile home lot.

### DISABLED VETERAN'S CREDIT

House Bill 1176 increases the maximum benefit under the Disabled Veteran's Credit program from $8,100 to $9,000. The bill also allows a Disabled Veteran's benefit for a parent or child and clarifies the definitions of child, homestead, and parent for Disabled Veteran's Credit program purposes.

### ADMINISTRATIVE IMPACTS FOR HB 1176

- Places a 3% annual cap on how much local governments can increase property taxes levied
- Provides for an interim legislative management study of property tax reform and relief
- Eliminates estimated property tax notices and replaces with Notice of Assessment
- Requires notice of budget hearings to all property owners
- Updates information required on property tax statements

## SALES & SPECIAL TAXES

### HB 1466 - DOMESTIC AND MANUFACTURING DISTILLERIES

House Bill 1466 updates the production limits for domestic distilleries and manufacturing distilleries to a limit of 25,000 gallons and 40,000 gallons per year, respectively. The bill introduces new definitions to N.D.C.C. § 5-01-01.

- Domestic Distillery - a distillery that produces 25,000 gallons or fewer of distilled spirits in a year.
- Manufacturing Distillery - a distillery that produces 40,000 gallons or fewer of distilled spirits in a year.
- Satellite Location - an offsite location owned or leased by a manufacturing distillery to conduct retail operations.

Additionally, the bill revises the proof gallon to liter ratio for self-distribution, effectively increasing the production limits related to distillery self-distribution privileges, from 42,000 liters to 45,425 liters per year.

Lastly, it expands the locations a manufacturing distillery can use a special event permit to include off-premises events, on-premises events, and events at the manufacturing distillery's satellite location.

### HB 1281 - FIRE DEPARTMENT MOTOR FUEL TAX REFUNDS

House Bill 1281 establishes a new motor fuel and special tax refund available for fuel purchases made by a fire department certified under N.D.C.C. § 18-04-02.

For purchases made after June 30, 2025, fire departments may file a claim for a refund of motor vehicle fuel (gasoline/gasohol), special fuel (undyed diesel) and aviation fuel (jet fuel or aviation gasoline) taxes.

Claims for refund must be filed between January 1 and June 30 of the year following the fuel purchases.

# LEGISLATIVE UPDATES

## SALES & SPECIAL TAXES

### SB 2397 - DEVELOPMENT INCENTIVE WELL OIL EXTRACTION TAX EXEMPTION AND GAS TAX EXEMPTION

Senate Bill 2397 has two components. First, it expands the existing gas tax exemptions to include an exemption for gas used as fuel in the operation of the lease site for drilling or production of oil or gas.

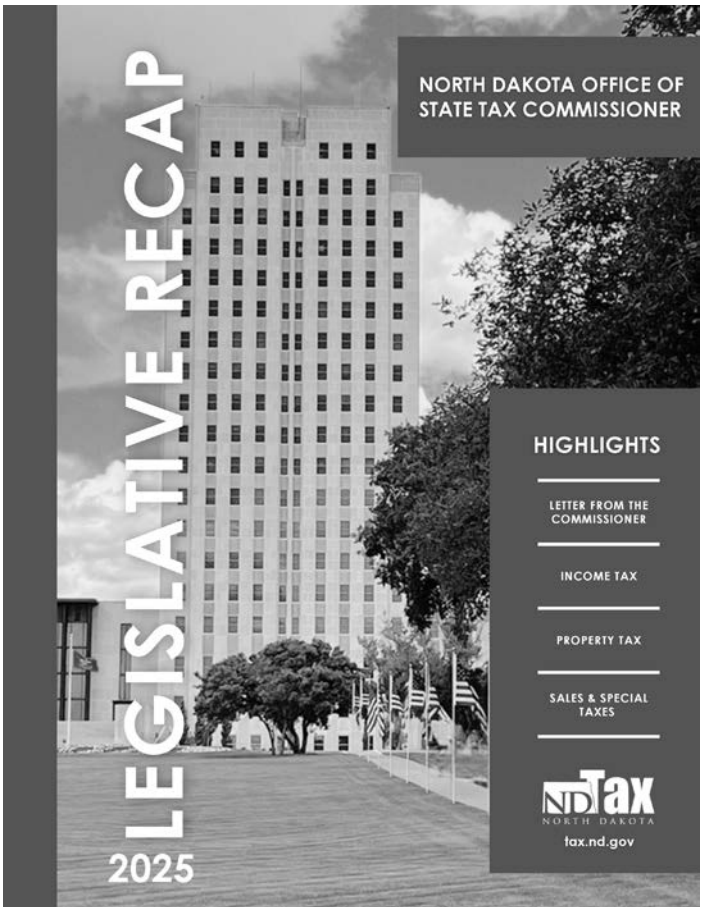
The expansion also applies to gas produced from an enhanced oil recovery project that utilizes gas for injection, up to the point where the volume of the initially injected gas has been recovered. Additionally, the previous requirement that generators at the well site must consume at least 75% of the gas produced has been removed.

Secondly, the bill establishes a new oil extraction tax exemption for development incentive wells. A development incentive well is defined as one that:

- Is spud after June 30, 2025.
- Utilizes a new or innovative drilling or completion technique that is a technical advancement.
- Demonstrates the ability to access a formation that otherwise would remain undeveloped.
- Is designed and anticipated to increase the number of wells, increase production, or boost the ultimate recovery of oil or gas from a well.

To qualify for the oil extraction tax exemption, development incentive wells must receive certification from the North Dakota Industrial Commission. The first 250,000 barrels of oil from a certified development incentive well drilled and completed before July 1, 2028, may be exempt from the oil extraction tax.

The exemption will not apply to wells located within the exterior boundaries of a reservation unless the tribe chooses to opt in by providing written notice. The development incentive well oil extraction tax exemption will expire on June 30, 2031.



A comprehensive publication regarding all tax changes made during the 2025 Legislative Session can be found in the Office of State Tax Commissioner's online Legislative Recap publication at **tax.nd.gov**.

# COMPARATIVE STATEMENTS

In this section, an overview of the Office of State Tax Commissioner's comparative statements will be provided. This provides a direct "biennium-to-biennium" comparison of the total collections.

# COMPARATIVE STATEMENT OF COLLECTIONS

The charts on this page give a broad overview of the net collections by tax type over the last two bienniums. The top score cards show the total collection amounts, as well as the biennium percentage change. The bar chart compares the biennium collections by tax type. The two pie charts show the net collections as a percentage. The line chart at the bottom gives a historical view of net collections for the previous 10 bienniums.

The following two pages provide the breakout of this data relative to the subsequent collection categories showcased throughout the remainder of this report.

| 2023-2025 Biennium | 2021-2023 Biennium | Biennium Difference |
|---|---|---|
| **$11.1bn** | **$11.0bn** | **0.9%** |

# LARGEST COLLECTION TYPES

In this section, North Dakota's net collections for sales and use tax, individual income tax, corporate income tax, oil & gas production tax, and oil extraction tax are highlighted.

Additional details can be found on the Office of State Tax Commissioner's website at www.tax.nd.gov/data.

5569/8585

# SALES AND USE TAX

Generally, the North Dakota sales, use, and gross receipts taxes are imposed on the gross receipts of retailers. Sales tax is paid by the purchaser and collected by the retailer. The general sales and use tax rate is 5%, alcoholic beverages are taxed at 7%, and the tax rate on new farm machinery and new mobile homes is 3%. The revenues are then deposited into a variety of funds, including the State Aid Distribution Fund, County Aid Distribution Fund, Ag Research Fund, Multistate Audit Fund, and the General Fund. These totals include motor vehicle excise tax collections, excluding North Dakota Department of Transportation collections, and do not include local sales tax collections.

5570/8585

# INDIVIDUAL INCOME TAX

For tax years 2015 through 2022, tax rates ranged from 1.10% to 2.90% of North Dakota taxable income. Tax years 2021 and 2022 included the tax relief credit which was worth up to $350 for single filers and up to $700 for joint filers. For tax years beginning with 2023, the tax rates range from 0% to 2.5%. Individual income tax revenues are deposited in the State General Fund.

Please Note: Although individual income tax is filed by calendar year, for the purpose of this report, collections are reported by fiscal year.

| 2023-2025 Biennium | 2021-2023 Biennium | Biennium Difference |

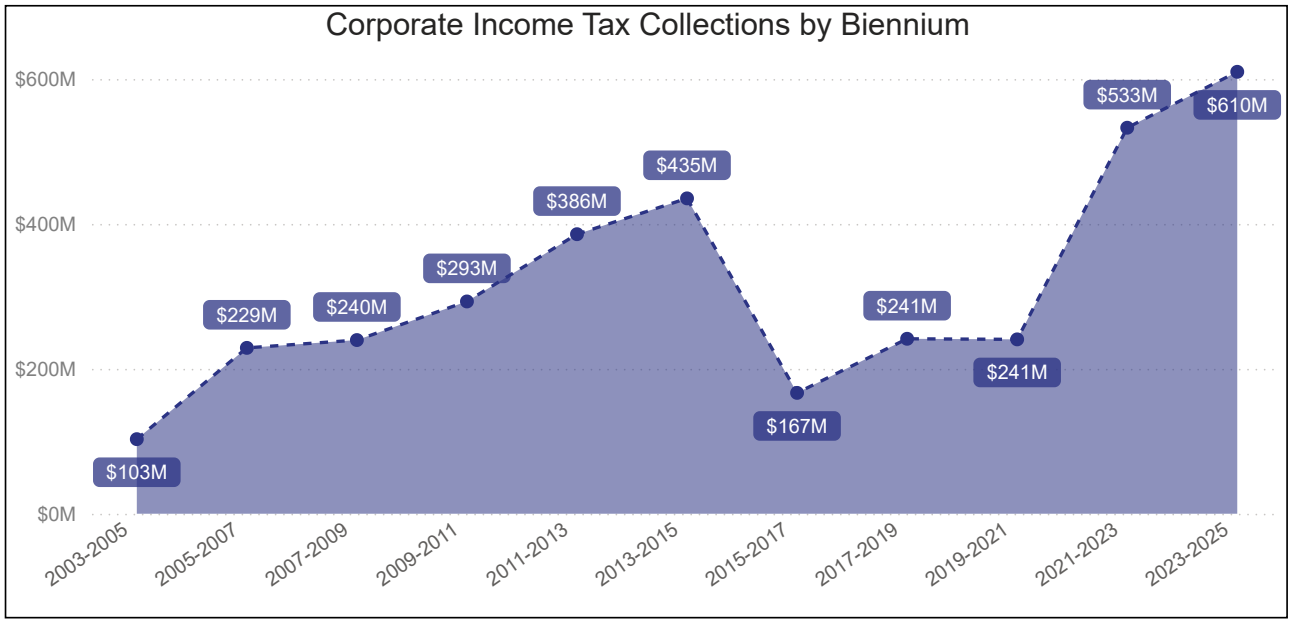
| 2016 | $97,580,800 |



# OIL AND GAS GROSS PRODUCTION TAX

The gross value of oil production at the well, less any part which is specifically exempt, is taxed at a rate of 5% in lieu of property taxes on the oil and gas producing properties. Gas production is taxed on a volume basis at a rate determined by the movement of a fuels cost index. These tax revenues are deposited into a variety of funds, including the Outdoor Heritage Fund, Abandoned Oil and Gas Well Plugging and Site Reclamation Fund, Legacy Fund, and the State General Fund. Additional revenue is allocated to the oil producing counties.

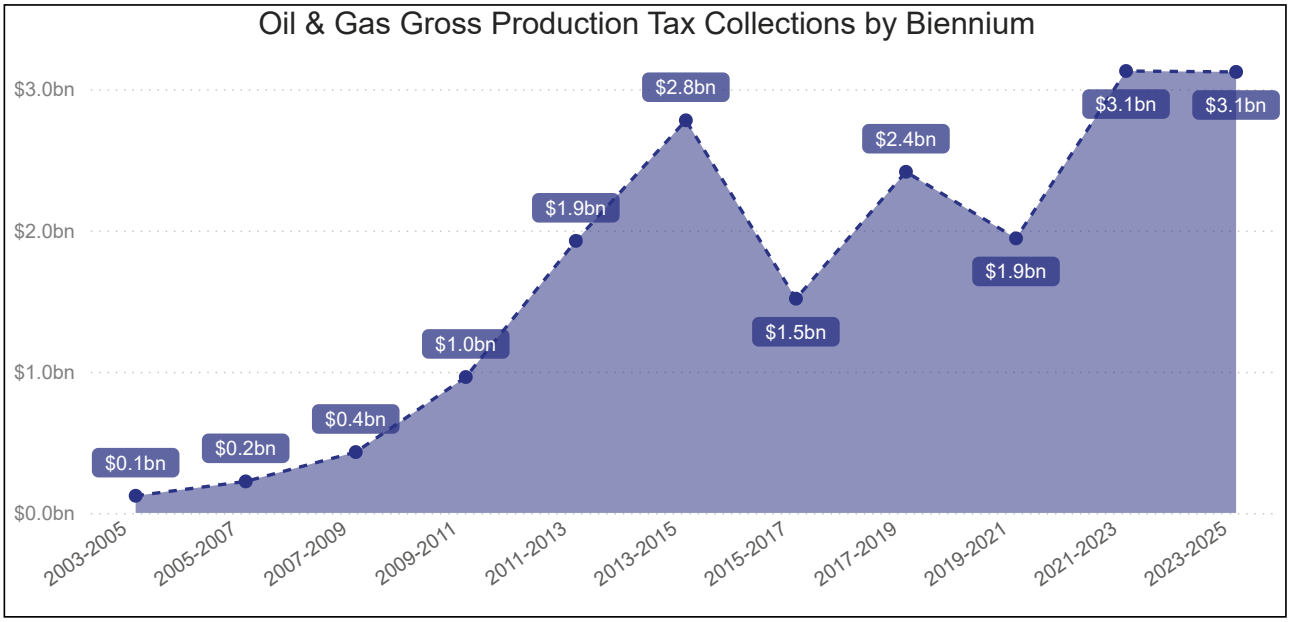
| 2016 | $750,474,504 |



# OIL EXTRACTION TAX

The oil extraction tax is a tax on the gross value of oil production at the well, less any part which is specifically exempt. The oil extraction tax trigger was in effect for the July through November months of Fiscal Year 2025 which caused an estimated revenue increase of over $135 million. Revenues from the oil extraction tax are deposited into several funds, including the Legacy Fund, Common Schools Trust Fund, Foundation Aid Stabilization Fund, Southwest Water Pipeline Sinking Fund, Resources Trust Fund, and the State General Fund.

# OTHER TAXES

This section features North Dakota's diverse tax categories, including coal conversion and severance taxes, motor fuel taxes, and other key sources such as alcohol, cigarette and tobacco products, and electric generation tax.

5575/8585

# COAL CONVERSION TAX

Facilities that process or convert coal are subject to the coal conversion facilities tax unless exempt by statute. Electrical generating plants that have a single generating unit with the capacity of 10,000 kilowatts or more are subject to the coal conversion facilities tax. The 2021 Legislature exempted electrical generating plants and coal conversion facilities from the 85% State General Fund tax beginning July 1, 2021, and ending June 30, 2026. Instead, the companies will pay a lignite research tax on 5% of the 85% State Legacy Fund tax. The 2025 Legislature implemented a graduated exemption of 85% of the State's share of tax from July 1, 2026, until June 30, 2031.

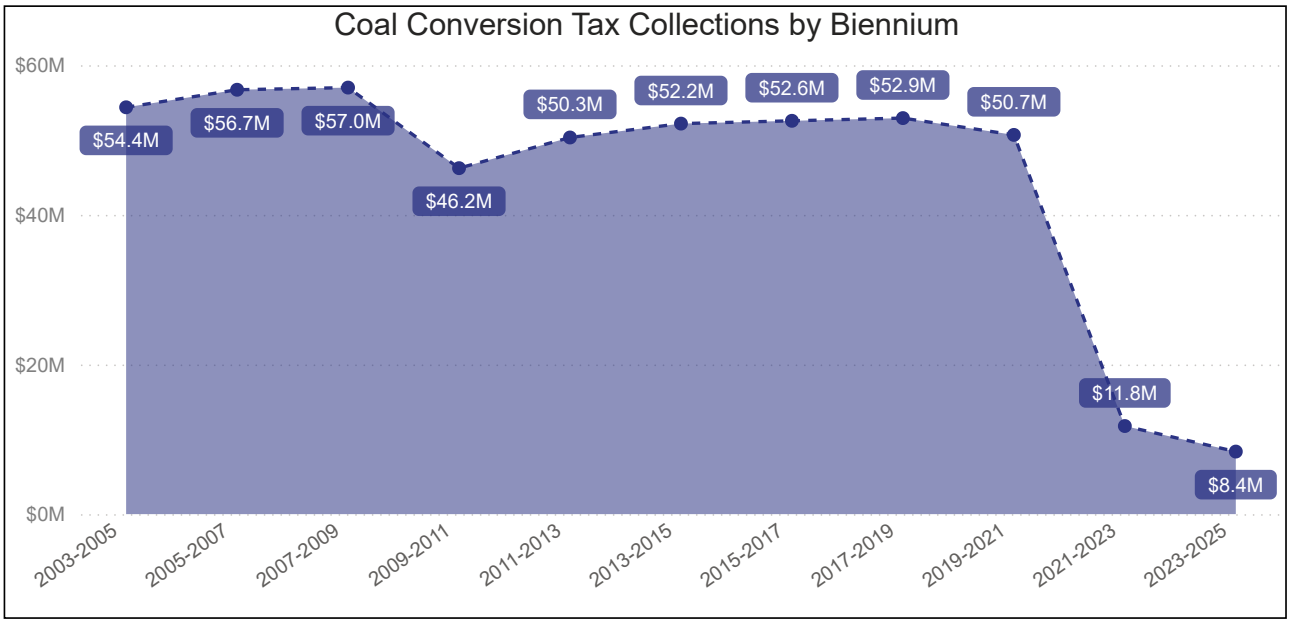
| 2018 | $26,237,709 |
| 2017 | $25,779,352 |
| 2016 | $26,785,652 |



# COAL SEVERANCE TAX

The coal severance tax is applied to coal severed from the ground on a $0.375 per ton basis. The 2021 Legislature approved HB 1412 which provides the county to grant an optional, partial, or complete exemption from up to 70% of the tax imposed. Any tax revenue exceeding 30% of the tax imposed under this subsection must be allocated to the county. In the 2025 Legislative Session, HB 1279 allowed for the 70% county exemption to be continued through June 30, 2031 unless the Tax Commissioner certifies to the Legislative Council that the production tax credit for electricity from renewables under section 45 of the Internal Revenue Code [26 U.S.C. 45] and the clean electricity production tax credit under section 45Y of the Internal Revenue Code [26 U.S.C. 45Y] have been repealed, if the certification is received before June 30, 2031.

# MOTOR FUEL TAX

The motor fuel taxes are made up of collections from aviation fuel, motor vehicle fuel and special fuel. Aviation fuel tax is a per gallon tax levied on all aviation fuel at $0.08 per gallon. Motor vehicle fuel tax is a per gallon tax levied on all motor vehicle fuel (gasoline and gasohol) at $0.23 per gallon. Special fuel taxes tax diesel fuels at $0.23 per gallon, dyed fuel and kerosene at $0.04 per gallon, and a tax of 2% is levied on propane.

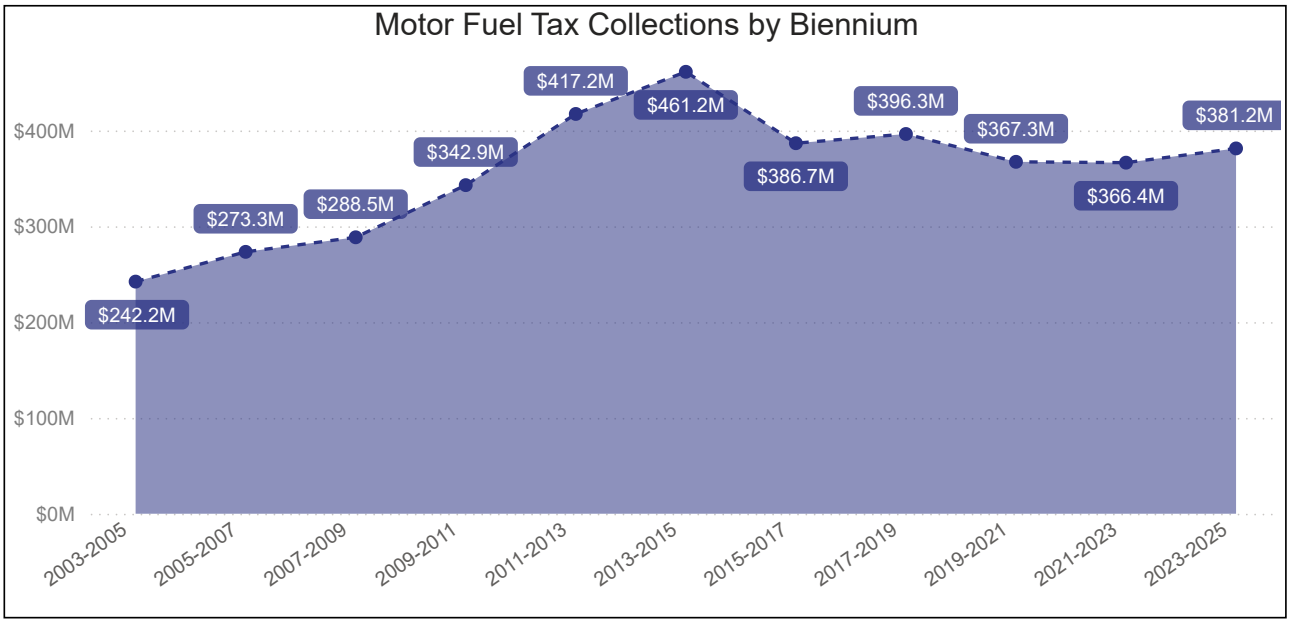
| 2016 | $197,177,741 |



# ALCOHOL TAX

The alcohol tax, made up of tax collections on beer and liquor, is a privilege tax imposed on all alcoholic beverage wholesalers doing business in North Dakota. In addition, direct shippers, microbrew pubs, brewer taprooms, domestic wineries, and domestic distilleries pay the taxes on alcoholic beverages made by those facilities and sold directly to consumers. These tax revenues are deposited into the State General Fund.

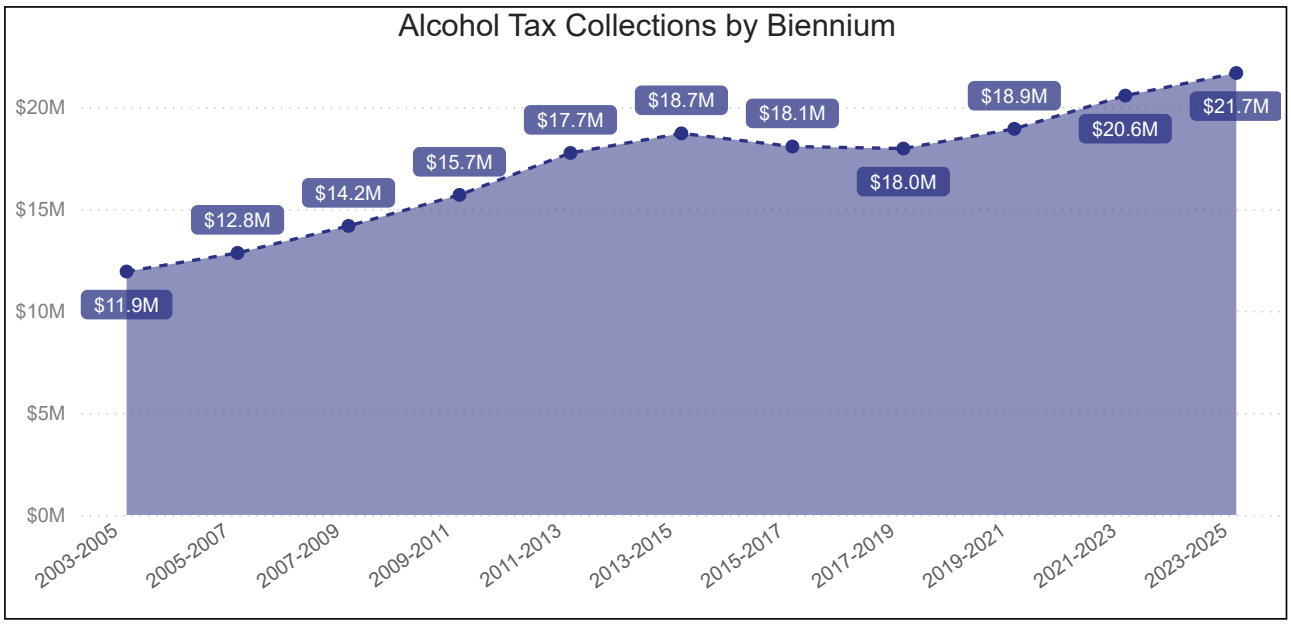
| 2018 | $8,912,231 |
| 2017 | $8,954,200 |
| 2016 | $9,106,683 |



# CIGARETTE & TOBACCO PRODUCTS TAX

The cigarette tax rate is $0.44 per package of 20 cigarettes. Generally, the tobacco products tax is 28% of the wholesale purchase price. Some tobacco products are taxed based on weight. Cigarette & tobacco products tax revenues are deposited into the State General Fund and allocated to cities and tribes in North Dakota.

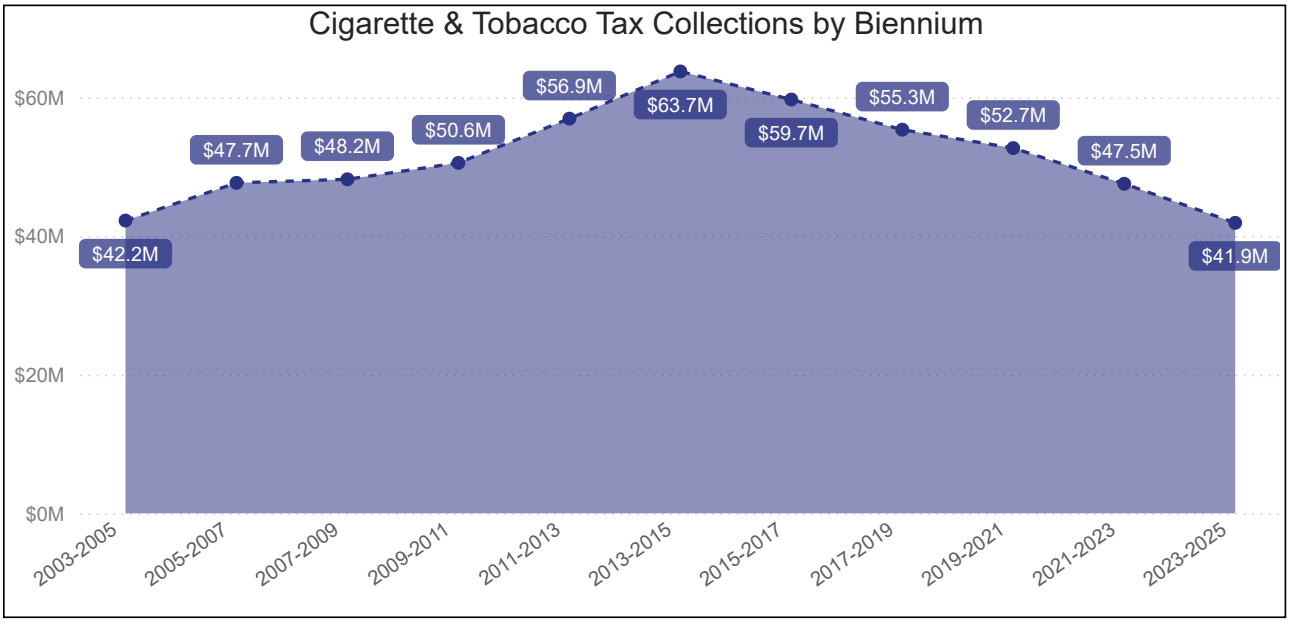
| 2017 | $28,952,046 |
| 2016 | $30,732,247 |



# ELECTRIC GENERATION TAX

All transmission lines of 100 kilowatts or more, on which construction is completed after December 31, 2014, or which is 20 years or more from the date of first assessment, are subject to taxes in lieu of property taxes. Electric generation tax revenues are deposited into the Electric Generation and Transmission Fund.

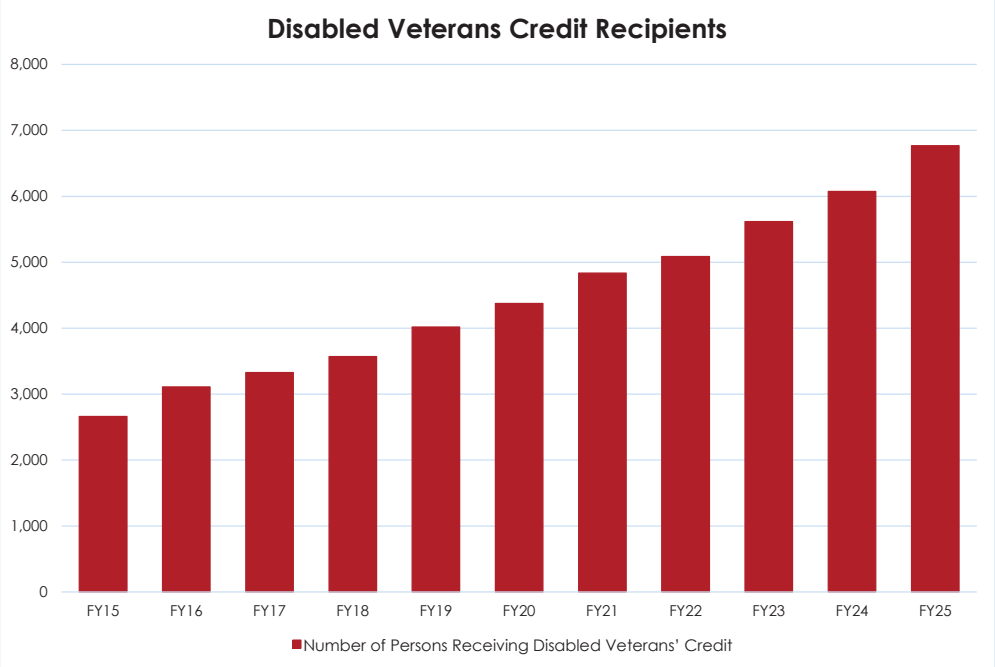
# PROPERTY TAX

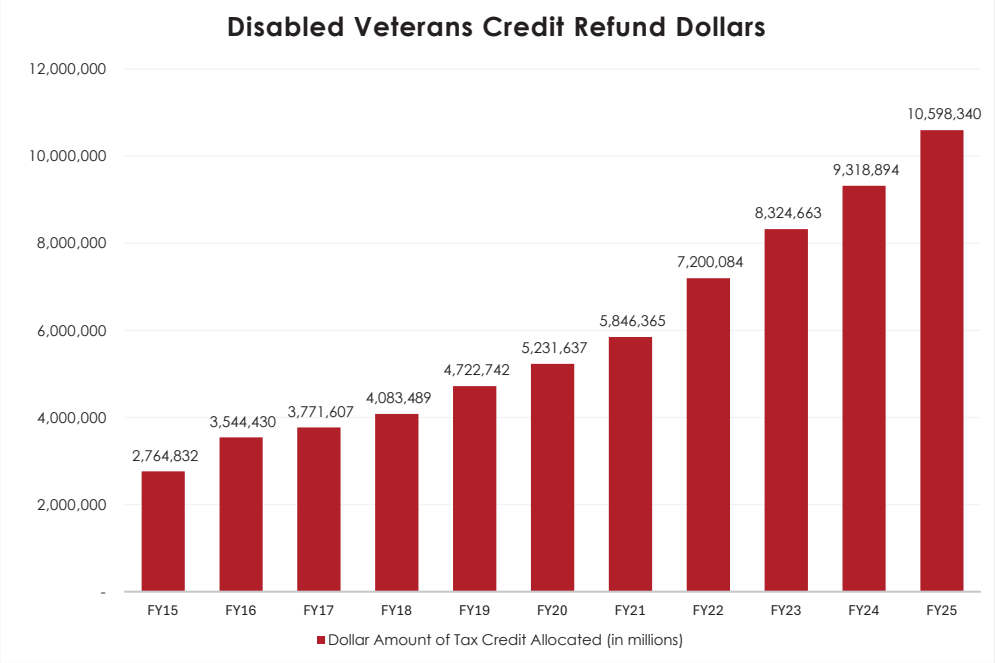
In this section, the Disabled Veterans Credit, Homestead Property Tax Credit, Renter's Refund Credit, and Primary Residence Credit programs are highlighted. For additional property tax details, please see the property tax Power BI on the Office of State Tax Commissioner's website at www.tax.nd.gov/data.

5583/8585

# DISABLED VETERANS CREDIT

The Disabled Veterans Credit is a property tax credit for U.S. Armed Forces veterans with a service-connected disability. It reduces the taxable value of a qualifying residence and the taxes owed. Eligible veterans must file an application with their local assessor or county director of tax equalization by March 31 of the assessment year. The charts below show, in thousands, the number of North Dakotans receiving the credit and the total refund dollars (in millions) distributed from fiscal years 2015 to 2025.





# HOMESTEAD PROPERTY TAX CREDIT & RENTER'S REFUND

The Homestead Property Tax Credit and Renter's Refund are available to eligible North Dakotans. Individuals may qualify for the property tax credit or partial refund of the rent they pay, if one of the following requirements is met:

- 65 years of age or older, OR
- An individual with a permanent and total disability
- Proof of total disability must be established by a certificate from a licensed physician or a written determination of disability from the Social Security Administration or federal or state agency authorized to certify an individual's disability.
- There is no age requirement for those with a permanent and total disability.
- For a married couple who are living together, only one may apply for the Homestead Property Tax Credit or Renter's Refund. Only the spouse applying for the credit needs to be 65 years of age or older, or permanently and totally disabled.
- Have a household income of $70,000 or less

**Homestead Credit Amount**

The credit for eligible homeowners is a reduction in the taxable value of the homestead as determined by the following schedule for taxes levied in 2023 and 2024 (Payable in 2024 and 2025):

| Income of | Reduction Percent | Maximum Amount |
|---|---|---|
| $0 - $40,000 | 100% | $9,000 |
| $40,001 - $70,000 | 50% | $4,500 |

**Renter's Refund Amount**

The refund for eligible renters is determined through a percentage comparison of annual rent payments and total household income. If 20% of your annual rent exceeds your annual income, you will receive a refund for the over payment.

For example, a renter pays $800 per month in rent ($9,600 per year) and the renter's income is $35,000.

- 20% of $9,600 (rent) is $1,920
- 4% of $35,000 (income) is $1,400
- $1,920 - $1,400 = $520 Renter's Refund

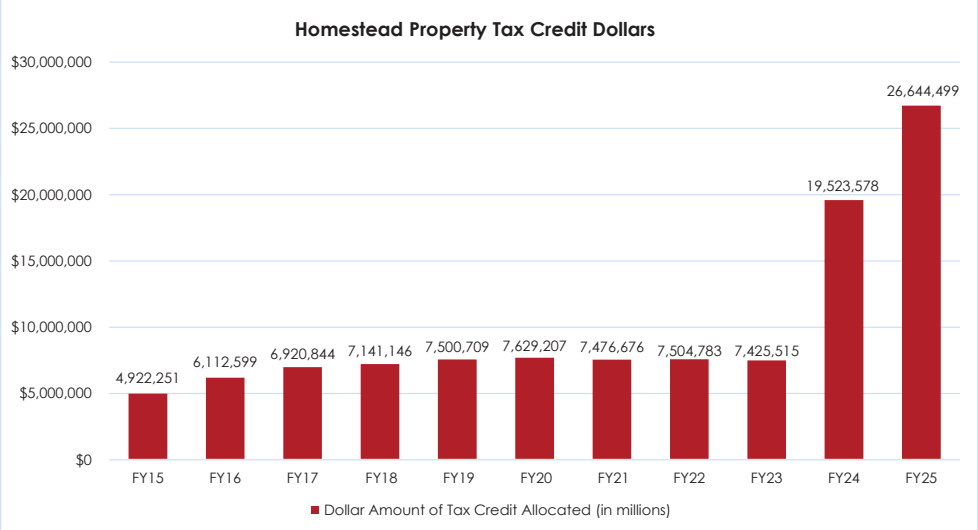
5585/8585

# HOMESTEAD PROPERTY TAX CREDIT & RENTER'S REFUND

The charts and data tables showcased below showcase the total amount of recipients and funding allocated to these programs from fiscal years 2015 - 2025.

## Homestead Property Tax Credit

| # of Individuals Receiving the Homestead Credit | |
|---|---|
| Fiscal Year | Recipients |
| 2015 | 6,740 |
| 2016 | 8,659 |
| 2017 | 8,621 |
| 2018 | 9,705 |
| 2019 | 9,399 |
| 2020 | 9,320 |
| 2021 | 9,173 |
| 2022 | 8,892 |
| 2023 | 8,687 |
| 2024 | 14,627 |
| 2025 | 19,490 |



## Renter's Refund Tax Credit

| # of Individuals Receiving the Renter's Refund Credit | |
|---|---|
| Fiscal Year | Recipients |
| 2015 | 2,680 |
| 2016 | 2,814 |
| 2017 | 2,749 |
| 2018 | 2,790 |
| 2019 | 2,844 |
| 2020 | 2,651 |

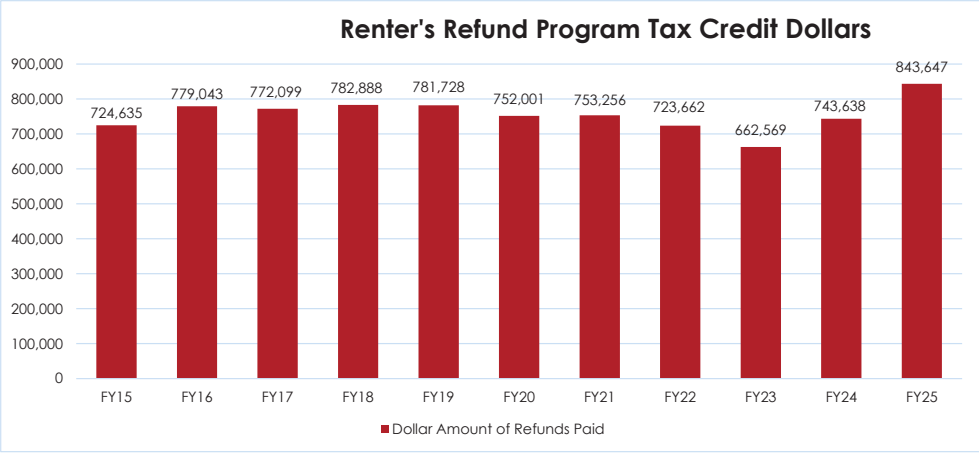
| 2022 | 2,453 |
| 2023 | 2,285 |
| 2024 | 2,544 |
| 2025 | 2,697 |



# PRIMARY RESIDENCE CREDIT

Among the most significant outcomes for taxpayers during the 2025 Legislative Session was the passage of House Bill 1176, a landmark property tax relief measure. This legislation increases the Primary Residence Credit (PRC) from $500 to $1,600 annually, delivering substantial tax savings to North Dakota homeowners.

The revised PRC program will be funded through a dedicated stream of earnings from the state's $12 billion dollar Legacy Earnings Fund. Over the 2025-2027 biennium, it is projected to provide $403 million in property tax relief, with the potential for continued growth as the Legacy Fund expands in future years.

HB 1176 builds upon the PRC program first established in the 2023 Legislative Session under HB 1158, ensuring property tax relief remains both sustainable and accessible. Eligible applicants receive an annual property tax credit applied directly against taxes due on their primary residence.

Key updates to the PRC program this session included:

- Expanding the maximum credit from $500 to $1,600 per primary residence
- Introducing a one-time special application period for mobile homeowners
- Funding the program with the Legacy Earnings Fund
- Creating a new primary residential property tax class for tax years after 2025

# Tax Expenditure Report

## The State of Ohio Executive Budget
Fiscal Years 2026/2027

Department of Taxation

5591/8585

Department of Taxation
Tax Commissioner's Office

Tax.Ohio.gov

November 1, 2024

Governor Mike DeWine
Riffe Center, 30th Floor
77 South High Street
Columbus, Ohio 43215

Dear Governor DeWine,

It is my pleasure to present Ohio's Tax Expenditure Report for the Governor's Executive Budget for the ensuing fiscal biennium, a responsibility required of the Tax Commissioner by Sections 107.03 and 5703.48 of the Ohio Revised Code.

This report describes 177 state tax expenditures allowed under current law. It contains a description of each tax expenditure under existing laws and, in comparative form, a detailed estimate of the approximate amount of revenue not available to the state general revenue fund in each fiscal year of the current and ensuing fiscal bienniums because of the operation of each tax expenditure.

Additionally, the report provides a description of, and the aggregate true value of, real property exempted in this state for the preceding tax year due to the operation of four categories of property tax exemptions. It also shows the amount of revenue paid from the general revenue fund in the preceding calendar year to reimburse subdivisions for each of three property tax exemptions for which reimbursement is required.

The report is not intended to and does not evaluate the merits of these tax expenditures. Its purpose is to serve as an important resource for those entrusted to make decisions about Ohio's state budget for the ensuing fiscal biennium.

Sincerely,

Patricia Harris,
Tax Commissioner

# Introduction

## State of Ohio Tax Expenditure Report

Section 5703.48 of the Ohio Revised Code (R.C.), enacted in 1987, requires the Department of Taxation to prepare and submit a tax expenditure report to the governor in each even-numbered year by November 1st. R.C. 107.03(D)(6) requires the governor to submit the report to the Ohio General Assembly as an appendix to the Governor's biennial budget. The report provides a description of each tax expenditure under existing law and a detailed estimate of the approximate amount of revenue not available (or "revenue foregone") to the General Revenue Fund (GRF) in each fiscal year of the current and ensuing fiscal biennia because of the operation of each tax expenditure.

R.C. 5703.48 defines a "tax expenditure" to mean "a tax provision in the Revised Code that exempts, either in whole or in part, certain persons, income, goods, services, or property from the effect of taxes levied by the state, including, but not limited to, tax deductions, exemptions, deferrals, exclusions, allowances, credits, reimbursements, and preferential tax rates, provided" certain statutory criteria that apply to the provision. Academic literature has described tax expenditures as "special preferences" that are "departures from the normal tax structure and are designed to favor a particular industry, activity, or class of persons" and that "essentially represent government spending for the favored activities or groups made through the tax system rather than through direct grants, loans, or other forms of government assistance." Unlike direct budgetary expenditures, unless there is a pre-existing termination date, tax expenditures may remain in law indefinitely.

An important purpose of this report is to inform the executive and legislative branches during the state budgetary process of revenue foregone to the GRF because of tax expenditures. This report provides an estimate of the dollar value of each tax expenditure, but it makes no statement on the expenditure's appropriateness or merit.

In this edition, estimated revenue foregone to the GRF is provided for the following two fiscal year (FY) biennial budget periods: FY 2024-2025 and FY 2026-2027. This edition includes 177 different state tax expenditures and provides the legal citation(s), year of enactment, and year(s) of major alterations (if any), and a brief description of each tax expenditure. The report also includes the aggregate true value of real property in this state exempted from property taxation due to 4 categories of property tax, as well as the amount of revenue paid from the general revenue fund in the preceding calendar year to reimburse subdivisions for each of 3 property tax exemptions for which reimbursement is required.

## The Tax Expenditure Concept

Since the tax expenditure concept was first articulated in 1967 by Stanley S. Surrey (Assistant Secretary for Tax Policy, U.S. Department of the Treasury), the executive and legislative branches of the U.S. government, most state governments, and many foreign governments have issued their own versions of a tax expenditure report. In its broadest outline, the tax expenditure concept is uniform and constant: A tax expenditure represents a legislated variation from – more commonly, a reduction to – a standardized tax base. Beyond this broad conceptualization, however, varying ideas about what constitutes a tax expenditure have led to differing approaches for identifying them.

At the federal level, the Joint Committee on Taxation (JCT) of the U.S. Congress is vested with the privilege of publishing a report on federal tax expenditures for the House Committee on Ways & Means and the Senate Committee on Finance.[1] According to the JCT:

> ***Tax expenditure analysis can help both policymakers and the public to understand the actual size of government, the uses to which government resources are put, and the tax and economic policy consequences that follow from the implicit or explicit choices made in fashioning legislation.***[2]

The JCT consults with the Office of Tax Analysis in the U.S. Department of the Treasury to produce the report.[3] The JCT's first report was prepared in 1972 covering FFY 1967-1971, and subsequent reports cover every five-year period since FFY 1977-1981.[4]

The vast majority of states and the District of Columbia produce a tax expenditure report in some form.[5] There is variation among the states on what is considered a tax expenditure (and by extension, implied "baseline" tax structures).[6] Ultimately, the variation stems from a fundamental ambiguity in the tax expenditure analysis: The lack of universally applicable and accepted definition of "tax expenditure" sufficiently robust in meaning for it to be used by all jurisdictions and for all taxes. As a result, each reporting agency applies an operating definition of "tax expenditure" with analytical utility for that agency

and its administration, as well as legislative policymakers and the wider policy audience within that jurisdiction.[7]

## Tax Expenditures in This Report

R.C. 5703.48 defines "tax expenditure" for purposes of this report. A "tax expenditure" means "a tax provision in the Revised Code that exempts, either in whole or in part, certain persons, income, goods, services, or property from the effect of taxes levied by the state, including but not limited to, tax deductions, exemptions, deferrals, exclusions, allowances, credits, reimbursements, and preferential tax rates" provided certain statutory criteria are met.

Listed below are the statutory criteria used to determine whether a tax provision constitutes a tax expenditure for this report. All four criteria must be true for the item to be considered as such:

1. **The provision reduces, or has the potential to reduce, revenue to the GRF.**

   By law, the Tax Expenditure Report includes only taxes the revenue from which are allocated in whole or in part to the GRF. Therefore, locally levied taxes are excluded from this report. Also excluded are certain state taxes the revenues from which are not allocated to the GRF (such as the motor fuel tax, horse racing tax, and the severance tax).

2. **The persons, income, goods, services, or property exempted by the provision would have been part of a defined tax base.**

   For a provision to be a tax expenditure, it specifically must exempt from taxation a person or activity that otherwise would have been part of the tax base. There are some items specifically exempt by the Ohio Revised Code that are not considered to be part of the tax base. These items are not included as a tax expenditure in this report. For example, services, unless specifically enumerated, are not part of Ohio's sales and use tax base. Therefore, this report does not list the numerous services that are not part of the sales and use tax base. Other examples include the sales tax "resale" exemption (discussion in the Sales & Use Tax section of this report) and the commercial activity tax exclusion for non-profit entities.

[7] Some agencies work under a statutorily prescribed definition of "tax expenditure." Even though these agencies comply with the statutory definition in good faith and to the maximum extent possible, there is no statutory definition with sufficient nuance and logic to guide all determinations. The agencies must develop an operating definition of tax expenditure and use reasonable judgement to determine the items that fit the definition.

3. **The persons, income, goods, services, or property exempted by the provision are not subject to an alternate tax levied by the state.**

   Persons or activities subject to alternative taxes are not considered tax expenditures in this report. For example, insurance companies are excluded from the commercial activity tax under the Ohio Revised Code, but this exclusion is not considered a tax expenditure since insurance companies are taxed under the insurance premium taxes.

4. **The provision is subject to modification or repeal by an act of the General Assembly.**

   The provision must take the form of an exemption, deduction, credit, etc., existing in the Ohio Revised Code. Anything that can be changed only by a state constitutional amendment, federal law change, or federal constitutional amendment is not considered a tax expenditure in this report. For example, Article XII, Section 3 of the Ohio Constitution prohibits the levy of collection of any excise tax upon the sale or purchase of food for human consumption off the premises where sold. Therefore, the R.C. 5739.02(B)(2) sales and use tax exemption for the sale or purchase of food for human consumption off the premises where sold is not considered a tax expenditure in this report.

Tax expenditures are organized in this report by tax types. Although revenue from the natural gas excise tax is distributed to the GRF, there are no tax expenditures related to it. Some tax expenditures apply to more than one tax. In most of these instances, the effects are combined and reported under a single tax so as not to be repetitive.[8]

## Interpretation of Tax Expenditures

Tax policy experts have identified nuanced ways to evaluate tax expenditures.[9] Tax expenditures provide an explicit accounting of deviations from a baseline tax structure. Users of a tax expenditure report can identify deviations from a baseline, who benefits, and the relative fiscal magnitudes. The report may serve as a foundation for further analysis on whether, and to what degree, a tax expenditure violates principles of good tax policy (e.g., efficiency, fairness,

[8] Example: The Job Creation Tax Credit is shown in the commercial activity tax (CAT) section, though the credit may be claimed against not only the CAT, but also the petroleum activity tax, insurance premium taxes, financial institutions tax, and the individual income tax. The estimate displayed in the report reflects the total of all applicable taxes.

[9] ***E.g.***, Eric J. Toder, Address at the National Tax Association Annual Conference (November 19, 2005), ***available at*** https://www.urban.org/sites/default/files/publication/50941/411371-Tax-Expenditures-and-Tax-Reform.PDF.

simplicity, and uniformity). To one degree or another, tax expenditures might reduce economic efficiency, heighten tax complexity, or treat people with the same ability to pay in a disparate or inequitable manner.

Tax expenditures are often viewed as an appropriate mechanism for spending government resources. Under this viewpoint, the tax system can serve as an instrument for reallocating resources or otherwise addressing economic inefficiencies. Thus, the tax expenditure report identifies the specific circumstances under which policymakers have chosen to allocate state resources through the tax code to address a perceived societal need or want fully or partially. According to this conceptualization, then the question is whether the "spending" is appropriate and not necessarily whether it violates a tax policy principle.

## Quantifying Tax Expenditures

In accordance with R.C. 5703.48, the FY 2026-2027 Biennial Tax Expenditure Report identifies the estimated revenue that is foregone, or "spent", by the GRF because of the existence of a tax expenditure under current law. The estimates reflect the amount of financial benefit provided to recipients, adjusted to reflect the GRF's share of the tax expenditure. No further adjustments are made to the estimates, except where another tax expenditure is also available to the taxpayer for the same item or activity ("overlap").

There are other methods to quantify tax expenditures including estimating revenues that would be gained if the tax expenditure were repealed. The tax expenditures in this report are not quantified using methods other than "revenue foregone." Estimates produced under a "revenue gain from repeal" concept encompass an extensive array of (primarily downward) adjustments. An example would be an adjustment regarding the effective date of a repeal as there may be important cash-flow consequences associated with the effective date of a repeal. Another potentially significant adjustment involves taxpayer behavioral responses to the repealed tax expenditure. Economic activity would likely be affected to varying degrees as tax is newly applied to the previously tax-exempt item or activity. Furthermore, one may expect short-term compliance difficulties with the newly taxed item or activity.

To summarize, the figures in this report do not represent the estimated revenue gain from repeal of each tax expenditure. Instead, the figures reflect reasonable estimates (rounded to the nearest $100,000 for estimates of $1 million or more) of the tax benefits realized by recipients of the tax expenditure's benefits – what has been referred to as the "revenue foregone." Additionally, while this report provides totals

summing the tax expenditures by tax type and in total, the totals do not represent the revenues that would be gained by the GRF from repealing all the tax expenditures simultaneously.

## Data Sources for Tax Expenditure Estimates

The accuracy of the estimates varies with the source of data and applicability of the data to the tax expenditure provision. In some instances, the Ohio Department of Taxation (ODT) must rely on external sources that may not be as reliable or accurate as internal data that is relied upon to estimate the revenue foregone from other tax expenditures. A data reference code has been provided to identify the source for individual tax expenditures as follows:

| | |
|---|---|
| **Data Source Code (A):** | Data emanating from tax returns filed with ODT as well as other information generated by the Department. |
| **Data Source Code (B):** | Data produced by government agencies other than ODT such as other State of Ohio agencies, the federal government (e.g., Internal Revenue Service, U.S. Census Bureau, and others), other state governments, and Ohio local governments. |
| **Data Source Code (C):** | All other data sources, including (but not limited to) information from business information service providers, academic research, and non-profit research organizations. |

# FY 2026-2027 Tax Expenditure Estimates Table

## *Sales and Use Tax*

# Sales & Use Tax

## Summary

The sales and use tax became law in 1934 at a rate of 3.0 percent and began to be levied on January 27, 1935. In 1967, the rate was increased to 4.0 percent. After a temporary 5.0 percent rate was imposed during the period of January through June 1981, a permanent 5.0 percent rate was adopted in November 1981. Until 1981, the sales and use tax was restricted to the sales or rental of tangible personal property. In November 1981, the tax base was extended to selected services. Since then, additional services were made subject to the tax. Authority to levy a permissive sales and use tax was given to counties in 1967 and to transit authorities in 1974. Currently, all 88 counties and nine transit authorities levy such tax. The local tax is reported and remitted along with the state sales and use tax. Counties and transit authorities are permitted to each levy a rate of up to 1.5 percent.

In 2003, legislation was enacted to impose a temporary increase in the state sales and use tax rate from 5.0 percent to 6.0 percent (in effect from July 1, 2003, through June 30, 2005). Rather than allowing the rate to revert to 5.0 percent once the temporary increase expired, the General Assembly set the rate at 5.5 percent, effective July 1, 2005. The rate was increased to 5.75 percent effective September 1, 2013.

### Taxpayer

The sales tax is called a “trust” tax because consumers entrust the tax to persons who make retail sales with the understanding that the tax will be reported and paid to the State of Ohio in a timely manner. Any person who makes a “retail sale” subject to tax, or stores, uses, or consumes tangible personal property, or realizes a benefit in this state from any taxable service on which tax has not been paid is required to file a return and remit the tax due. It is the consumer’s responsibility to file and remit use taxes if the sales tax is not collected and remitted by the vendor.

### Tax Base

The sale and rental of tangible personal property and statutorily enumerated services in Ohio (or property and selected services purchased out-of-state for use in Ohio) constitute the Ohio sales and use tax base. The tax base reflects a complex amalgam of statutory and constitutional provisions, as well as the accumulation of administrative and case law interpretations.

Since its 1935 inception, the sales and use tax structure has reflected a variety of exceptions, exemptions, and credits. This report omits some of these exceptions, exemptions, and credits because they are baseline features of the tax (see the **Introduction** section). For instance, certain sales and use tax exceptions have been excluded that conform the tax more closely to the concept of a tax on final consumption – thereby mitigating the economic distortions otherwise created by “pyramiding” (a phenomenon that occurs when

the same activity or final product is taxed more than once as it moves through the economic production chain). This exception is the resale exception.[11] The resale exception applies to purchased items that are subsequently resold by the purchaser in the same form (typically to a final consumer). This exception is elemental to a sales and use tax such that is it is not considered a tax preference and therefore does not appear as a tax expenditure in this report.

The report does not include a credit for sales tax paid to other states. When an item is purchased in another state and sales tax is paid to such state, Ohio law typically allows a credit for the tax paid to that state (although if the tax paid to the other state is lower than what the tax would have been under Ohio law, the purchaser must pay the difference to Ohio).[12] Such a credit is a baseline feature of the sales and use tax, and therefore it is not considered a tax expenditure for this report.

Another item excluded from this report is the exemption for "casual sales."[13] The report reflects the assumption that the sales tax was inherently designed to not tax the kinds of transactions subject to the casual sales exemption. Transactions covered by the casual sales exemption are those involving the sale of an item by a person that had originally acquired them for the person's own use if the item had already been subject to a state sales and use tax.

Other exceptions considered inherent to the sales and use tax – and therefore not appearing as a tax expenditure in this report – are those sanctioned by the Ohio Constitution. One such exception pertains to food sold for human consumption.[14] The Ohio Constitution precludes the imposition of a sales tax on food (including prepared food) consumed off the premises where sold.[15] Another such exception is for certain sales of motor fuel. Sales of fuel used by motor vehicles operated on public highways are not subject to the sales and use tax because the Ohio Constitution requires any revenue generated from an excise tax on this product is to be used solely for highway-related purposes and not be deposited into the GRF.[16]

[11] R.C. § 5739.01(E)

[12] R.C. § 5741.02(C)(5).

[13] R.C. § 5739.02(B)(8). However, sales of motor vehicles, watercraft, and other specified vehicles are not subject to the casual sales exemption.

[14] R.C. § 5739.02(B)(2)

[15] Ohio Constitution Art. XII, § 13.

[16] R.C. § 5739.02(B)(6)(a) and Ohio Constitution Art. XII, § 5a. Ohio imposes a motor vehicle fuel excise tax of 38.5 cents per gallon for gasoline and 47 cents per gallon for all other motor fuels (except compressed natural gas). The revenues are earmarked for highway-related purposes (construction, repair and maintenance or roads, bridges, et.) as prescribed in R.C. § 5735.01 et seq.

## Tax Rate

The tax is imposed by the State of Ohio at a 5.75 percent rate. In addition, a local permissive sales and use tax may be imposed by a county or transit authority, however, the revenue impacts of the listed tax expenditures to the counties and transit authorities are ***not*** reflected in this report.

## Significant Changes Enacted by the 134th & 135th General Assemblies

HB 66 of the 134th GA created a sales and use tax exemption for income tax filing fees and documentary service charges associated with motor vehicle and mobile home sales. The bill also created a use tax exemption for certain watercraft that are seasonally stored or repaired in Ohio. Lastly, the bill expanded the sales and use tax exemption for pollution control equipment to include leased property.

HB 223 of the 134t GA created a deduction on the sales tax return for unpaid balances on private label credit account receivables that are bad debt and are charged off as uncollectible on the books of a lender.

Am. Sub. HB 33 (FY 2024-FY 2025 Biennial Operating Budget) of the 135th GA instituted a sales and use tax exemption for baby items. These items include children's diapers, children's preventative skin creams and wipes, child vehicle restraints or booster seats, cribs for children, and strollers for children up to about 36 months of age. Additionally, the bill created an expanded sales tax holiday, modified the exemption for pollution control equipment to extend to leased property, and exempted the 4% fee on the sales of consumer grade fireworks from sales and use tax.

## Sales and Use Tax Expenditure Estimates

The estimates shown below reflect the estimated revenue foregone by the GRF from each tax expenditure. The estimates reflect the effect of "overlapping" provisions (i.e., another credit or exemption available to the taxpayer for the same item or activity) that effectively reduces the revenue consequences associated with the tax expenditure. Figures are rounded to the nearest tenth (to the nearest hundred thousand dollars).

The sales and use tax expenditure estimates rely mostly on secondary data sources rather than ODT's internal data sources such as tax returns. Economic Census data – generated by the U.S. Department of Commerce, Bureau of the Census – is the most extensively used source of data for the estimates. However, other types of data and information are used in these estimates, including those generated by other non-Census Bureau federal agencies, trade groups and academic, public, and non-profit research organizations.

**NOTE:** See page 9 for descriptions of data source codes.

# Exempt entities

## 1.01 Sales to churches and certain other non-profit organizations

***R.C. 5739.02(B)(12); originally enacted 1935, revised 2013.***

Sales to churches, non-profit entities organized under Internal Revenue Code section 501(c)(3), and certain other types of non-profit organizations are exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 657.4 | $ 702.1 | $ 741.3 | $ 776.1 |

Data Source Code: B, C

## 1.02 Sales to the state, any of its political subdivisions, and to certain other states[17]

***R.C. 5739.02(B)(1); originally enacted 1935, revised 1994.***

Sales to the State of Ohio and any of its political subdivisions are exempt. Also exempt are sales to any other state (and their political subdivisions) if such state provides a reciprocal exemption to Ohio.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 177.9 | $ 185.8 | $ 187.0 | $ 187.9 |

Data Source Code: B, C

[17] This estimate excludes estimated purchases by the State of Ohio because such purchases do not entail an appreciable state fiscal cost. The reason is currently foregone sales and use tax revenue is offset by decreased costs on the state's acquisitions. Viewed from another perspective, if the exemption were repealed, the State of Ohio would experience an increase in expenditures nearly commensurate with the sales tax revenue gain.

### 1.03 Sales by churches and certain other non-profit organizations

***R.C. 5739.02(B)(9); originally enacted 1961.***

Sales, other than motor vehicles, mobile homes, and manufactured homes, by churches, non-profit entities organized under Internal Revenue Code section 501(c)(3), and certain other non-profit organizations are exempt, if the number of days on which sales are made does not exceed six in any calendar year, except the limitation on the number of days does not apply to sales made by student clubs and other groups of students of a primary or secondary school, or a parent-teacher association, booster group, or similar organization that raises money to support or fund curricular or extra-curricular activities of a primary or secondary school.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 63.2 | $ 66.1 | $ 69.2 | $ 72.5 |

Data Source Code: B

## Exemptions for property used or consumed to produce a product

### 1.04 Tangible personal property used primarily in manufacturing tangible personal property

***R.C. 5739.011, 5739.02(B)(42)(g); originally enacted 1935, revised 1990, 2019, 2020.***

Sales of tangible personal property are exempt where the purpose of the purchaser is to use the property primarily in a manufacturing operation to produce tangible personal property for sale.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $2,362.7 | $2,427.7 | $2,480.8 | $2,513.0 |

Data Source Code: B, C

## 1.05 Packaging and packaging equipment

***R.C. 5739.02(B)(15); originally enacted 1961.***

Packaging and packaging equipment, including materials, labels, and parts for packaging machinery and equipment sold to manufacturers and other qualified businesses are exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 285.8 | $ 290.1 | $ 294.5 | $ 299.9 |

Data Source Code: B, C

---

## 1.06 Sales of tangible personal property and services to electricity providers

***R.C. 5739.02(B)(40); originally enacted 2000.***

Sales of tangible personal property and services to a provider of electricity used or consumed directly and primarily in generating or distributing electricity for use by others are exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 393.9 | $ 388.2 | $ 401.6 | $ 421.2 |

Data Source Code: A, B

---

## 1.07 Sales of tangible personal property used or consumed in agriculture

***R.C. 5739.02(B)(42)(n); originally enacted 1935, revised 2011, 2018.***

Sales where the purpose of the purchaser is to use or consume the thing transferred primarily in producing personal property for sale by farming, agriculture, horticulture, or floriculture are exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 441.7 | $ 436.1 | $ 432.7 | $ 430.7 |

Data Source Code: B

---

## 1.08 Sales of tangible personal property used or consumed in mining

***R.C. 5739.02(B)(42)(a), (q); originally enacted 1935, revised 2011, 2018.***

Sales of tangible personal property and certain services used or consumed directly in producing a product sold by mining operations or directly in the production of crude oil or natural gas are exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 67.0 | $ 68.9 | $ 71.0 | $ 73.0 |

Data Source Code: B, C

## 1.09 Agricultural land tile and portable grain bins

***R.C. 5739.02(B)(30), (31); originally enacted 1985.***

Sales and installation of agricultural land tile and erection or installation of portable grain bins are exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 2.2 | $ 2.2 | $ 2.2 | $ 2.2 |

Data Source Code: A, B

## 1.10 Tangible personal property used in the production of printed materials[18]

***R.C. 5739.02(B)(42)(f); originally enacted 1973.***

Machinery, equipment, and material used in the production for sales of printed, lithographic, photostatic, or other graphic productions or re-productions are exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 4.6 | $ 4.5 | $ 4.4 | $ 4.4 |

Data Source Code: B, C

## 1.11 Tangible personal property used in storing, preparing, and serving food[19]

***R.C. 5739.02(B)(27); originally enacted 1981.***

Tangible personal property purchased by a licensed food service operation used primarily to prepare food for human consumption, to preserve such food, or to clean tangible personal property used to prepare or preserve such food is exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 58.6 | $ 60.5 | $ 62.5 | $ 64.5 |

Data Source Code: B, C

[18] This estimate was reduced by an estimated 75% under the expectation that most of this property is also subject to the sales tax exemption for tangible personal property used primarily in manufacturing (tax expenditure item 1.04). The estimate for tax expenditure 1.04 was not adjusted for the tangible personal property also subject to tax expenditure item 1.10. The exemption also applies to property used to produce magazines distributed as controlled circulation publications as reported in tax expenditure item 1.70.

[19] This estimate was reduced by an estimated 50% under the expectation that most of this property is also subject to the sales tax exemption for tangible personal property used primarily in manufacturing (tax expenditure item 1.04) and for packaging and packaging equipment (tax expenditure item 1.05).

### 1.12 Tangible personal property used in preparation of eggs for sale

***R.C. 5739.02(B)(24); originally enacted 1974.***

Tangible personal property purchased by persons engaged in the preparation of eggs for sale and used or consumed directly in such preparation, including property used for cleaning, packaging, handling, and transportation equipment (except motor vehicles licensed to operate on public highways) is exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 5.9 | $ 6.1 | $ 6.3 | $ 6.5 |

Data Source Code: B

## Exemption based on specified use of property or service

### 1.13 Building and construction materials and services used in certain structures[20]

***R.C. 5739.02(B)(13); originally enacted 1959, revised 1994, 2022.***

Building and construction materials and services sold to construction contractors for incorporation into a structure or improvement to real property are exempt under a construction contract with the following entities: federal government; the State of Ohio and its political subdivisions; religious institutions and other organizations exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code; businesses engaged in horticultural and livestock purposes; and certain other specified types of entities.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 425.6 | $ 449.1 | $ 473.7 | $ 493.6 |

Data Source Code: B, C

[20] This estimate excludes estimated purchases attributable to building contracts with the State of Ohio. This reflects the assumption that currently foregone revenue from the exemption is offset by decreased project costs for state projects. Because the tax exemption creates no appreciable fiscal impact to the state on its projects, those projects were excluded. It includes the recent inclusion of materials sold for incorporation into a structure or improvement to real property that is used primarily as, or primarily in support of, a manufacturing facility or research and development facility and that is to be owned by a megaproject operator as found in HB 687 of the 134th General Assembly.

## 1.14 Tangible personal property used directly in providing a public utility service

***R.C. 5739.02(B)(42)(a); originally enacted 1935.***

Tangible personal property and fuel used in the production, transportation, or distribution of a public utility service, or used in the repair or maintenance of machinery and equipment used directly in providing a public utility service are exempt.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 171.6 | $ 173.3 | $ 175.5 | $ 179.1 |

Data Source Code: A, B, C

## 1.15 Property used to fulfill a warranty or service contract

***R.C. 5739.02(B)(42)(k); originally enacted 1986.***

Parts and labor used to fulfill a warranty that is provided as part of the price of tangible personal property sold are exempt from the sales and use tax. In addition, parts and labor used to fulfill a warranty, maintenance, or service contract in which the vendor of such warranty or contract agrees to repair or maintain the consumer's tangible personal property are exempt.

***(Dollars in millions)***

### 1.57 Deduction of sales tax remitted for certain bad debts charged off as uncollectable by private label credit card account lenders

***R.C. 5739.01(Y)(2)(l); originally enacted 2023.***

A vendor may deduct on a return the unpaid balance on private label credit accounts or private label credit account receivables that are bad debt and are charged off as uncollectible on the books of a lender on or after July 1, 2023, and against which a deduction has not previously been taken under this section. The deduction authorized may be taken by the vendor only on the basis of accounts or receivables bad debt from purchases from the vendor whose name is carried, referred to, or branded on the private label credit account or from purchases from any of the vendor's affiliates or franchisees.

## 1.59 Documentary service charges imposed for motor vehicle and manufactured homes

***R.C. 5739.02(B)(59), 4517.261, 4781.24; originally enacted 2023.***

Exempt from the sales and use tax are documentary service charges imposed for motor vehicles and manufactured homes. These are fees to title motor vehicles and manufactured homes. The fee is outlined in the written contract containing the agreements of the parties involved. In the case of manufactured homes, the fee is equal to the lesser of ten percent of the amount the buyer is required to pay pursuant to the contract, excluding tax, title, and registration fees, and any negative equity adjustment, or the amount allowed in a retail installment contract ($250). The fee for motor vehicles is similar, however the amount allowed in a retail installment contract is adjusted by the change in the CPI since 2006.

## Tax expenditures with annual revenue impact below $1 million

### 1.64 Expanded Ohio sales tax holiday[21]

***R.C. 131.44, 5739.01, 5739.02, 5739.41; originally enacted 2023.***

### 1.65 Four per cent fee on the sale of consumer grade fireworks

***R.C. 5739.02(B)(65); originally enacted 2023.***

### 1.66 Sales to veterans' headquarters

***R.C. 5739.02(B)(33); originally enacted 1986.***

### 1.67 Tangible personal property used or consumed directly in commercial fishing

***R.C. 5739.02(B)(42)(d); originally enacted 1945.***

### 1.68 Tangible personal property for use in a retail business outside Ohio

***R.C. 5739.02(B)(21); originally enacted 1968.***

### 1.69 Sales of tangible personal property and services for maintenance and repair of qualified fractionally owned aircraft[22]

***R.C. 5739.02(B)(44); originally enacted 2003.***

### 1.70 Controlled circulation magazines

***R.C. 5739.02(B)(4); originally enacted 1935, revised 2002, 2013.***

### 1.71 Sales to qualifying non-profits

***R.C. 307.695, 5739.02(B)(52); originally enacted 2013.***

[21] This expenditure occurs only if certification is received from the Office of Budget and Management under R.C. 131.44(B). Further, the expenditure is shown as having a minimal revenue impact under the expectation that, if the holiday is held, the GRF will be reimbursed for any revenue not received due to the operation of the holiday by the expanded sales tax holiday fund.

[22] This tax expenditure item is shown as having a minimal revenue impact under the expectation that most of the qualifying property and services is also eligible for the exemption for materials and services used in the maintenance and repair of aircraft (tax expenditure item 1.35). In contrast, the estimate for tax expenditure item 1.35 was not reduced to reflect tangible property and services subject to this tax expenditure item (item 1.69).

**1.72 Equipment stored, used, or otherwise consumed by an out-of-state disaster business during a disaster response period in Ohio**

***R.C. 5703.94, 5741.02(C)(10); originally enacted 2018.***

**1.73 Exports that are delivered into Ohio for temporary storage, packaging, or consolidation before shipment to a foreign citizen.**

***R.C. 5739.02(B)(38); originally enacted 2017, amended 2019.***

**1.74 Motor fuel used for powering refrigeration units on vehicles other than units that provide comfort for the operator or occupants**

***R.C. 5739.02(B)(6)(b) originally enacted 2020.***

**1.75 Sales of cribs for children**

***R.C. 5739.02(B)(63) originally enacted 2023.***

# Individual Income Tax

## Summary

Ohio was first authorized to levy an income tax in 1912 by constitutional amendment. However, 60 years passed before the state individual income tax became effective in 1972. The income tax was designed to be closely based on federal law to facilitate compliance by the taxpayer and ease of administration by the state.

### Taxpayer

The tax is paid by individuals, estates and trusts residing in Ohio, or earning or receiving Ohio income, including lottery winnings, prizes, or awards. The tax is also paid by individuals, estates and trusts otherwise having nexus with Ohio. Withholding responsibilities apply to employers who pay wages and salaries to employees who work in Ohio.

### Tax Base

The tax base for an individual's income, other than business income, is federal adjusted gross income (FAGI), plus or minus Ohio adjustments, less an exemption for the taxpayer, taxpayer's spouse, and each dependent. The tax base for an individual's business income is taxable business income. In the case of estates, the tax base is Ohio taxable income and for trusts it is a modified Ohio taxable income.

### Tax Rates

Ohio has implemented significant income tax reductions and reform under Am. Sub. H.B. 33 (135$^{th}$ General Assembly's FY 2024-FY 2025 Biennial Operating Budget). Ohio reduced the number of income tax brackets for non-business income from four to two; by collapsing the bottom two and top two brackets into each other; while at the same time, reducing top income tax rate from 3.99% to 3.5%. The tax rate on business income less any amount allowed under R.C. 5747.02(A)(4)(b) is a flat 3.0 percent after application of the business income deduction.

Annual indexing of the income tax brackets took effect in tax year 2010 (though there have been some years where it was suspended temporarily). Ohio law requires annual adjustments to the individual income tax brackets based on the growth in the gross domestic product deflator during the preceding calendar year. The calculated amounts are ultimately required to be rounded to the nearest $50. The changes to the tax brackets are calculated in August of each year and apply to the taxable year during which the calculations are made. Reductions in the tax caused by the

| Taxable Year 2024 Income Tax Table for Individuals | | | |
|---|---|---|---|
| Ohio adjusted gross income less taxable business income and exemptions | | Ohio Income Tax | |
| More Than | Not More Than | Marginal Tax Rate | Base Tax Liability |
| $0 | $26,050 | 0% | $0 |
| 26,050 | 100,000 | 2.750% | $360.69 |
| 100,000 | | 3.500% | $2,394.32 |
| | | | |
| Taxable business income less any amount allowed under 5747.02(A)(4)(b) | | Ohio Income Tax | |
| More than | | Marginal Tax Rate | Base Tax Liability |
| $0 | | 3.000% | $0 |

indexing are not considered tax expenditures for the purposes of this report. Similarly, alterations in tax brackets do not meet the operative definition of a tax expenditure, which is why the annual indexation of the individual income tax brackets is not included as a tax expenditure item in this report.

| Taxable Year 2024 Income Tax Table for Estates (Ohio Taxable Income) and Trusts (Modified Ohio Taxable Income) | | | |
|---|---|---|---|
| Ohio Taxable Income or Modified Ohio Taxable Income | | Ohio Income Tax | |
| More Than | Not More Than | Marginal Tax Rate | Base Tax Liability |
| $0 | $26,050 | 1.38462% | $0 |
| 26,050 | 100,000 | 2.750% | $360.69 |
| 100,000 | | 3.500% | $2,394.32 |

Annual indexing of the income tax brackets took effect in tax year 2010 (though there have been some years where it was suspended temporarily). Ohio law requires annual adjustments to the individual income tax brackets based on the growth in the gross domestic product deflator during the preceding calendar year. The calculated amounts are ultimately required to be rounded to the nearest $50. The changes to the tax brackets are calculated in August of each year and apply to the taxable year during which the calculations are made. Reductions in the tax rates caused by the indexing are not considered tax expenditures for the purposes of this report. Similarly, alterations in tax brackets do not meet the operative definition of a tax expenditure, which is why the annual indexation of the individual income tax brackets is not included as a tax expenditure item in this report.

### Significant Changes Enacted by the 134th and 135th General Assemblies

HB 45 of the 134th GA repealed the adoption credit and created in its place a grant program coupled with an income tax deduction for grant amounts received. The bill also created a deduction for taxpayers who were adopted and enrolled at a public or private two-or-four-year higher education institution for grants awarded by the chancellor of higher education.

HB 66 of the 134th GA created an income tax credit for commercial vehicle operator training expenses and amended the credit for donations to scholarship granting organizations by specifying that the maximum amount of credit that can be claimed for spouses filing jointly is $1,500. Prior law had limited the credit to $750 per taxpayer.

HB 150 of the 134th GA created an income tax deduction for student loan amounts repaid on behalf of the taxpayer under the rural practice incentive program.

Am. Sub HB 33 of the 135th GA altered the structure of the income tax brackets for other than business income. The bill also increased the annual limit for the eligible production credit and created a refundable tax credit for production companies completing qualifying capital improvement projects in Ohio. The bill added a deduction for income received as a result of the train derailment in East Palestine Ohio and increased the amount of the non-chartered, nonpublic school tuition credit by $500. Several housing related programs, credits, and deductions were created as part of the bill, including (1) an above market rate home savings account with an associated deduction for contributions made to and interest earned in such accounts, (2) a nonrefundable credit that piggybacks on the federal low-income housing tax credit for affordable housing projects in Ohio, (3) the Welcome Home Ohio program, which includes a non-refundable credit for electing subdivisions or eligible developers that rehabilitate or construct a unit of single-

family residential property and sell the property to a qualifying individual, for that individual's occupancy, and (4) a single-family housing development tax credit for investment in the development and construction of affordable single-family housing. Finally, the bill requires a pass-through entity (PTE) investor to add back entity level PTE taxes imposed by another state that were deducted from their federal adjusted gross income to their Ohio adjusted gross income. It then altered the resident credit to include these taxes in its calculation.

### Individual Income Tax Expenditure Estimates

The estimates shown below reflect the estimated revenue foregone by the GRF from each tax expenditure. The estimates reflect the effect of "overlapping" provisions (i.e., another credit, exemption, or deduction available to the taxpayer for the same or similar purpose) that effectively reduces the revenue consequences associated with the tax expenditure. Figures are rounded to the nearest tenth (to the nearest hundred thousand dollars).

Various data sources were used to derive the tax expenditure estimates. Most of the tax expenditure estimates were based on information reported on individual state and/or federal income tax returns filed with ODT or with the Internal Revenue Service. However, some estimates utilized secondary revenue sources such as the IRS's Statistics of Income, other state agencies, and published public research.

**NOTE:** See page 9 for descriptions of data source codes.

# Exemptions, exclusions, and deductions

## 2.01 Personal, spousal, and dependent exemption

***R.C. 5747.025; originally enacted 1972, revised 1974, 1975, 1995, 1996, 1997, 2002, 2013, 2014, 2019, 2021, 2023.***

A deduction may be claimed for the taxpayer, taxpayer's spouse, and each dependent. The deduction amount is dependent upon the taxpayer's income and is indexed for inflation. Indexing was suspended for tax years 2024 and 2025. For tax year 2024, the amounts are: (1) $2,400 for Modified Adjusted Gross Income (MAGI) less than or equal to $40,000; (2) $2,150 for MAGI greater than $40,000 but less than or equal to $80,000; and (3) $1,900 for MAGI greater than $80,000.

## Business tax credits

### 2.26 Historic structure rehabilitation credit[23]

***R.C. 149.311, 5725.34, 5726.52, 5729.17, 5747.76; originally enacted 2007, revised 2008, 2011, 2012, 2013, 2014, 2016, 2017, 2022, 2023.***

A credit equal to 25 percent of qualified rehabilitation expenditures, but not exceeding $5 million in a given taxable year, is available to owners of historic structures. Excess credits may be carried forward for five years or until used, whichever occurs first.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 33.0 | $ 124.6 | $ 72.2 | $ 48.1 |

Data Source Code: A, B

### 2.27 Eligible productions tax credit[24]

***R.C. 122.85, 5726.55, 5747.66, and 5751.54; originally enacted 2009, revised 2012, 2016, 2019, 2023.***

A refundable tax credit may be claimed for Ohio production expenditures by eligible productions. The credit equals 30 percent of eligible expenditures. The credit is based on the lesser of initially budgeted production expenditures or actual production expenditures. The total amount issued may not exceed $50 million per fiscal year.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 38.6 | $ 43.2 | $ 48.0 | $ 48.0 |

Data Source Code: A

[23] The credit is also available to qualifying taxpayers subject to the domestic and foreign insurance taxes and the financial institutions tax. Additionally, R.C. 5725.151 and 5733.47, are references to the now phased-out dealers in intangibles and corporate franchise taxes, respectively. The estimates given for this tax expenditure item are inclusive for all the stated taxes.

[24] The tax credit is also available to qualifying taxpayers subject to the financial institution tax and commercial activity tax. The estimates given for this tax expenditure item are inclusive for all stated taxes. R.C. 122.85 still references the corporate franchise tax; however, that tax has been repealed for tax years 2014 and thereafter.

## 2.28 Small business investment credit

***R.C. 122.86, 5747.81; originally enacted 2011, amended 2012, 2014, 2015, 2019.***

Investors in a qualified "small business enterprise" with an operating presence in Ohio are granted a non-refundable income tax credit.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |

## Tax expenditures with revenue impact below $1 million

### 2.37 Deduction for a medical savings account

*R.C. 3924.66, 5747.01(A)(13); originally enacted 1996.*

### 2.38 Deduction for student loan amounts repaid under rural practice incentive program

*R.C. 5747.01(A)(40), 3333.135; originally enacted 2023.*

### 2.39 Deduction for amounts delivered to a higher education institution on behalf of adopted Ohio residents who are attending the institution

*R.C. 5747.01(A)(37), 3333.128; originally enacted 2023.*

### 2.40 Contributions to another person's individual development account

*R.C. 329.11, 329.14, 5747.01(A)(16); originally enacted 2000.*

### 2.41 Deduction for Pell grant or Ohio college opportunity grant proceeds

*R.C. 5747.01(A)(27); originally enacted 2011.*

### 2.42 Deduction for ABLE account contributions

*R.C. 5747.01(A)(29) and 5747.78; originally enacted 2016.*

### 2.43 Lump sum retirement income credit for taxpayers with less than $100,000 in MAGI

*R.C. 5747.055(C) through (E); originally enacted 1972, revised 2015, 2019.*

### 2.44 Deduction for health insurance for qualified adult children and other dependents

*R.C. 5747.01(A)(10); originally enacted 2009.*

### 2.45 Deduction for qualified disaster relief work

*R.C. 5703.94, 5747.01(A)(30); originally enacted 2018.*

### 2.46 Deduction for certain disability severance payments for honorably discharged veterans

*R.C. 5747.01(A)(32); originally enacted 2019.*

### 2.47 Deduction for qualifying educators' out-of-pocket expenses for professional development and classroom supplies

*R.C. 5747.01(A)(31); originally enacted 2020.*

### 2.48 Deduction for amounts received under the Ohio adoption grant program

*R.C. 5747.01(A)(38), 5101.191; originally enacted 2023.*

### 2.49 Dependent care credit

*R.C. 5747.054; originally enacted 1988, revised 1993, 1997, 2016, 2019.*

### 2.50 Credit for dependents who attend non-chartered non-public schools

*R.C. 5747.75; originally enacted 2021, revised 2023.*

### 2.51 Lead abatement tax credit

*R.C. 3742.50, 5747.26; originally enacted 2019.*

### 2.52 Lump sum distribution credit for taxpayers with less than $100,000 in MAGI

*R.C. 5747.055(G); originally enacted 1972, revised 2015, 2019.*

### 2.53 Deduction for organ donation expenses

*R.C. 5747.01(A)(22); originally enacted 2007.*

### 2.54 Enterprise zone day care / training credit

*R.C. 5709.65(A)(4); originally enacted 1982, amended 2015.*

### 2.55 Enterprise zone employee credit

*R.C. 5709.66(B)(1); originally enacted 1994, amended 2015.*

### 2.56 Grape production credit

*R.C. 5747.28; originally enacted 1994, revised 2016.*

### 2.57 Displaced worker job training credit

*R.C. 5747.27(G); originally enacted 1994, revised 2015.*

# Financial Institutions Tax

## Summary

The financial institutions tax (FIT) was enacted in 2012 by Am. Sub. H.B. 510 (129th General Assembly). The tax replaced the corporate franchise tax that had remained on financial institutions after that tax was phased-out for most of its taxpayers, and the dealers in intangibles tax. FIT became effective in 2014, based on activity in 2013.

### Taxpayers

The FIT applies to each financial institution for the privilege of doing business in the state. A "financial institution" is a bank organization (national or state chartered bank, federal savings association or bank, agency or branch of a foreign bank, bank or savings and loan organizations, trust, corporation organized under 12 U.S.C. 611 or entities licensed as a small business investment company); holding company of a bank organization or a non-bank organizations (an entity that engages in business primarily as a "small dollar lender," which is defined as any person primarily engaged in the business of loaning money to individuals if the loan is for one year or less and does not exceed $5,000).

Various business organizations are not included in the definition of a FIT taxpayer. As this is an exclusion from the definition of a taxpayer, these are not within the tax base and therefore not considered a tax expenditure. These excluded businesses include insurance companies, credit unions, institutions organized exclusively for charitable purposes, diversified savings and loan holding companies and other specifically enumerated business types.

### Tax Base and Tax Rate

The tax base is "total Ohio equity capital" of financial institutions. Total equity capital is comprised of all forms of equity, such as common stock, surplus, and retained earnings. However, the equity capital of non-controlling minority interests in consolidated subsidiaries that are not financial institutions are not included. An apportionment ratio based on gross receipts is applied to total equity capital. H.B. 166 (133rd General Assembly) altered the tax base. For tax years 2014 through 2019, total Ohio equity capital is equal to the product of multiplying the total equity capital of the financial institution by an Ohio apportionment factor. For tax year 2020 and thereafter, total Ohio equity capital is equal to the total equity capital of the financial institution, limited to 14-percent of its total consolidated assets, multiplied by an Ohio apportionment factor.

FIT taxpayers are subject to a $1,000 minimum tax. The tax has a three-tier rate structure as follows:

1. 0.8 percent on the first $200 million of total Ohio equity capital.
2. 0.4 percent on the next $1.1 billion of total Ohio equity capital (above $200 million, but less than $1.3 billion).
3. 0.25 percent on the remaining total Ohio equity capital ($1.3 billion and above).

## Significant Changes Enacted by the 134th & 135th General Assemblies

There were no significant changes in the financial institutions tax.

## Financial Institutions Tax Expenditure Estimates

Specifically, enumerated deductions and tax credits are listed. Numerous tax credits are awarded by the Ohio Development Services Agency (DSA) that are applicable to a variety of taxes and are displayed either in the Individual Income Tax or the Commercial Activity Tax sections, as those taxes contain most of the claims. Various business types that are not included in the definition of a FIT taxpayer are not considered a tax expenditure for this report.[25]

The estimates shown below reflect revenue foregone by the GRF from each tax expenditure. As mentioned above, many of the credits are listed in other sections of this report.

Data are primarily from tax returns and other taxpayer filings with ODT and data from DSA.

**NOTE:** See page 9 for descriptions of data source codes.

[25] R.C. 5726.041

# Tax Credits

## 3.01 New markets tax credit[26]

*R.C. 5725.33, 5726.54, 5729.16; originally enacted 2009, revised 2013, 2015, 2017.*

Taxpayers with an equity investment in a qualifying community development entity may claim a non-refundable tax credit equal to a designated percentage of the adjusted purchase price of qualified low-income community investments. The credit percentage is zero percent in the first two years of the investment, 7.0 percent in the third year and 8.0 percent in each of the four following years (for a total credit of 39 percent).

# Tax expenditures with revenue impact below $1 million

## 3.03 De Novo Bank Exemption

*R.C. 5726.01, 5726.04; effective 2021.*

[26] This credit is also available to the foreign and domestic insurance premium taxes. Estimates for all taxes affected are displayed in this tax expenditure item.

[27] This credit is available to under the foreign and domestic premium tax, the public utility tax for natural gas and combined companies and the individual income tax. Estimates for all taxes affected are displayed in this tax expenditure item. Additionally, the dealers in intangibles tax and the corporate franchise tax still have references to this credit, though those taxes have been repealed and no further credits can be taken against them.

# Commercial Activity Tax

## Summary

The commercial activity tax (CAT) is a business privilege tax. The CAT is a successor tax to Ohio's general business property and corporate franchise taxes, both now phased out.

With the enactment of Am. Sub. H.B. 33 of the 135th Ohio General Assembly, the CAT underwent major changes beginning January 1, 2024. Effective January 1, 2024, persons with annual taxable gross receipts of $3 million or less are no longer subject to the CAT and the annual minimum tax was eliminated. Effective January 1, 2025, persons with annual taxable gross receipts of $6 million or less are no longer subject to the CAT.

The tax is paid on a quarterly basis. Returns and payments are due by the 10th day of the second month following the end of the calendar quarter (e.g., taxes for the third calendar quarter of 2023 were required to be filed and paid by November 10, 2023).

### Taxpayers

Prior to January 1, 2024, the CAT was paid by persons doing business in Ohio, including individuals and entities, having more than $150,000 in taxable gross receipts in a calendar year. Effective January 1, 2024, the CAT is paid by persons doing business in Ohio, including individuals and entities, having more than $3 million in taxable gross receipts in a calendar year. These persons include, but are not limited to, persons that have substantial nexus with Ohio. Substantial nexus with Ohio means a person that owns or uses a part or all its capital in Ohio, holds a certificate of compliance with Ohio laws authorizing it to do business in Ohio, has "bright-line presence" in Ohio, or otherwise has nexus with Ohio to the extent the person can be required to remit the tax under the Constitution of the United States.

A person has "bright line presence" in Ohio for a reporting period and for the remaining portion of the calendar year when the person:

1. Has at least $500,000 in taxable gross receipts in Ohio during the calendar year.
2. Has at least $50,000 in property in the aggregate in Ohio at any time during the calendar year.
3. Has as least $50,000 in payroll in Ohio during the calendar year.
4. Has at least 25 percent of total property, payroll, or gross receipts within Ohio at any time during the calendar year.

or

5. Is domiciled in Ohio as an individual or for corporate, commercial, or other business purposes.

### Tax Base

The CAT is imposed on the privilege of doing business in Ohio, measured by gross receipts from business activities in Ohio. “Taxable gross receipts” means gross receipts sitused to Ohio. “Gross receipts” means the total amount realized, without deduction for the cost of goods sold or other expenses incurred, that contributes to the production of gross income, except as otherwise specified in the statute. The taxpayer’s method of accounting for the CAT is the same as the method the taxpayer used for federal income taxes.

### Tax Rate

Prior to January 1, 2024, taxpayers with annual taxable gross receipts more than $1 million paid an annual minimum tax plus the product of the tax rate (0.26 percent) multiplied by taxable gross receipts for the tax period after subtracting the first $1 million of taxable gross receipts for a calendar year. Effective January 1, 2024, the annual minimum tax was eliminated, and the annual exclusion amount was increased to $3 million. Therefore, taxpayers pay the product of the tax rate (.26 percent) multiplied by taxable gross receipts for the tax period after subtracting the first $3 million of taxable gross receipts for a calendar year. Calendar quarter taxpayers apply the full exclusion amount to the first calendar quarter return filed that calendar year and may carry forward and apply any unused exclusion amount to subsequent calendar quarters within that same calendar year.

### Significant Changes Enacted by the 134th & 135th General Assemblies

Am. Sub H.B. 33 of the 135th GA made major changes to the CAT. Those changes include raising the annual exclusion from $1 million to $3 million beginning January 1, 2024, and from $3 million to $6 million beginning January 1, 2025. The annual minimum tax was repealed, and new exclusions were added for gross receipts received from governments or railroad companies because of the train derailment in East Palestine and for the 4% fee on the sale of consumer grade fireworks.

### CAT Tax Expenditure Estimates

The following characteristics are designated as meeting the definition of a CAT tax expenditure: (1) any exclusion, deduction, or credit not contained in R.C. 5751.01 or R.C. 5751.011; or (2) any gross receipts exclusion or deduction contained in R.C. 56751.01 or R.C. 5751.011 that benefits a

specific class of taxpayers. In all cases, the exclusion, deduction, or credit must produce a tax savings for taxpayers and an associated loss in GRF tax revenue to be considered a tax expenditure.

The estimates shown below reflect the estimated revenue foregone by the GRF from each tax expenditure. The estimates reflect the effect of "overlapping" provisions (i.e., another credit, exemption, or deduction available to the taxpayer for the same or similar purpose) that effectively reduces the revenue consequences associated with the tax expenditure. Figures are rounded to the nearest tenth (to the nearest hundred thousand dollars).

The estimates of the tax expenditures are based on various sources. Some of the estimates use data reported to ODT while others were generated using secondary sources, such as economic data reported by the Bureau of the Census. Some of the tax expenditure items in this section reflect tax credits issued by the Ohio Development Services Agency and apply to several taxes. These are reported here (as well as some in the **Individual Income Tax** section) as the credits taken against the CAT were most of the credits taken.

**NOTE:** See page 9 for description of data source codes.

## Exclusions and Deductions

### 4.01 Exclusion of the first $3 million in tax year 2024 and the first $6 million in tax year 2025 of taxable gross receipts

*R.C. 5751.01(R), 5751.03; originally enacted 2005, revised 2013, 2023.*

The first $3 million in tax year 2024 and the first $6 million in tax year 2025 of each taxpayer's annual taxable gross receipts are not subject to the commercial activity tax rate.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 353.2 | $ 607.1 | $ 760.3 | $ 791.3 |

Data Source Code: A

### 4.02 Exclusion for qualified distribution center receipts

*R.C. 5751.01(F)(2)(z), 5751.40; originally enacted 2006, revised 2012, 2020.*

Purchases made by a qualified Ohio distribution center, and destined for a location outside Ohio, are excluded from the suppliers' taxable gross receipts. A qualified distribution center is a facility in which the center's cumulative costs from its suppliers equals or exceeds $500 million and more than 50 percent of the center's total cost of qualified property is shipped to a location outside Ohio.

## Tax Credits

### 4.15 Credit for increased research and development[28]

*R.C. 5726.56, 5733.351, 5751.51; originally enacted 2001, revised 2005, 2013.*

Taxpayers may claim a non-refundable credit equal to 7.0 percent of the increased qualified research and development expenses incurred in Ohio.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 34.2 | $ 35.2 | $ 37.8 | $ 40.7 |

Data Source Code: A, B

[28] This credit was originally applicable to the corporate franchise tax under R.C. 5733.351. This tax has been phased out. The credit is now applicable to both CAT and to FIT and the revenue estimates reflect the amounts attributable to both.

### 4.16 Credit for job creation[29]

*R.C. 122.17, 5725.32, 5726.50, 5729.032, 5736.50, 5747.058(A), 5751.50(A); originally enacted 1993, revised 2005, 2011, 2013, 2014, 2015, 2017, 2021, 2022.*

A qualifying business may be granted a refundable tax credit for job creation through an agreement with the Ohio Tax Credit Authority (OTCA). The credit is an agreed upon percentage of a taxpayer's "excess payroll," which is the taxpayer's "Ohio employee payroll" less "baseline payroll." "Ohio employee payroll" is compensation paid by an employer that is subject to Ohio income tax withholding requirements. "Baseline payroll" means "Ohio employee payroll," except the measurement period is the 12 months immediately preceding the agreement (i.e., date OTCA approved the taxpayer's application or the date OTCA received a recommendation from the Chief Investment Officer of JobsOhio, whichever occurs first).

## Tax expenditures with revenue impact below $1 million

### 4.20 Exclusion for payments received from government or railroad companies for lost business because of the East Palestine train derailment

*R.C. 5751.01(F)(2) (ss); originally enacted 2023.*

[31] The credit is applicable to the individual income tax as well as the commercial activity tax. It is also still referred to in corporate franchise tax law, however as that tax has been repealed, no further credits may be taken against it.

### 4.21 Exclusion for the four percent fee on the sale of consumer grade fireworks

*R.C. 5751.01(F)(2)(tt); originally enacted 2023.*

### 4.22 Exclusion for motor vehicle transfers

*R.C. 5751.01(F)(2)(t); originally enacted 2005.*

### 4.23 Exclusion for pre-1972 trusts

*R.C. 5751.01(E)(7); originally enacted 2005.*

### 4.24 Exclusion for horse racing taxes and purses

*R.C. 5751.01(F)(2)(y); originally enacted 2005.*

### 4.25 Exclusion for receipts from the sale of uranium from a qualifying uranium enrichment zone

*R.C. 5751.01(F)(2)(gg), 5751.41; originally enacted 2011, Revised 2020.*

### 4.26 Exclusion for receipts realized by an out-of-state disaster business

*R.C. 5703.94, 5751.01(F)(2)(ll); originally enacted 2018.*

### 4.27 Exclusion for Bureau of Worker's Compensation dividend payments

*R.C. 5751.01(F)(2)(nn); originally enacted 2021, amended 2022.*

# Public Utility Excise Tax

## Summary

The public utility excise tax (PUET) is levied on companies classified by statute as public utilities. Originally enacted in 1894, the present tax structure was established in 1911. Historically, electric, natural gas, and local telephone companies have accounted for the bulk of the total PUET revenue collections. However, in 2001, electric and rural electric companies became subject to the kilowatt-hour tax and the corporate franchise tax (eventually replaced by the commercial activity tax) and these entities no longer were subject to the PUET. Similarly, in 2005, telephone companies were no longer subject to the PUET as they became subject to the corporate franchise tax and their services became subject to the sales tax.

### Taxpayer

Taxpayers include heating, pipeline (excluding businesses primarily consisting of producing or gathering natural gas – rather than supplying or distributing natural gas to consumers – or producing, refining, or marketing petroleum products), water transportation, waterworks, and natural gas companies.

### Tax Base

The PUET is applied to the gross receipts of natural gas, pipeline, heating, water transportation, and waterworks companies.[32]

### Tax Rate

The tax rate for the PUET for most public utilities is 4.75 percent, except that pipeline companies' rate is 6.75 percent. There is a minimum tax of $50 for each tax year.

### Significant Changes Enacted by the 134th & 135th General Assemblies

There were no significant changes affecting the public utility excise tax.

[32] In 2001, natural gas companies began to pay the PUET on a different schedule (Am. Sub. S.B. 215, 123rd General Assembly). Additionally, these companies became subject to the natural gas consumption tax (also known as "MCF Tax") to mitigate the impact of a reduction in their tangible personal property tax assessment rates (Am. Sub. S.B. 287, 123rd General Assembly).

### Public Utility Excise Tax Expenditure Estimates

The estimates shown below reflect the estimated revenue foregone by the GRF from each tax expenditure. The report reflects any possible "overlapping" effect (i.e., another credit, exclusion, or exemption available to the taxpayer) that effectively reduces the revenue consequences associated with the tax expenditure.

Data used to estimate the expenditures were primarily derived from PUET returns filed with ODT and other departmental sources. Data from the U.S. Census Bureau were also used as a basis for some estimates.

**NOTE:** See page 9 for description of data source codes.

## Exemptions, credits, and deductions

### 5.01 Exemption for municipal utilities and non-profit waterworks

*R.C. 5727.05; originally enacted 1896, revised 1999.*

Municipal utilities and non-profit corporations that are engaged in the treatment, distribution, and sale of water to consumers are exempt.

# Tax expenditures with revenue impact below $1 million

## 5.03 $25,000 deduction from gross receipts for each public utility company

*R.C. 5727.33; originally enacted 1934, revised 2004.*

# Kilowatt-Hour Tax

## Summary

Am. Sub. S.B. 3 (123rd General Assembly) restructured the electric utility industry in Ohio. Prior to this, electric companies had been subject to the public utility excise tax, and they were subject to higher assessment rates on their tangible personal property than general taxpayers. The Act removed electric and rural electric companies from the public utility excise tax, reduced the assessment rates on their tangible personal property, made them subject to the corporate franchise tax (eventually replaced by the commercial activity tax) and created the kilowatt-hour tax. The kilowatt-hour tax is levied on electric distribution companies and is measured by the end-user's consumption of electricity as measured in kilowatt-hours. Qualifying large end-users of electricity may elect to self-assess the tax based on the number of kilowatt-hours consumed at a tax rate structure specific only to self-assessors. The kilowatt-hour tax became effective in May 2001.

### Tax Base

The tax base for the kilowatt-hour tax is the number of kilowatt-hours distributed to the end-user by electric distribution companies. The base for self-assessors is the number of kilowatt-hours consumed.

### Tax Rate

Kilowatt-hour tax rate:

| Kilowatt-Hours Distributed to the End-User Per Month | Rate Per Kilowatt-Hour |
|---|---|
| Up to 2,000 Kilowatts | $0.00465 |
| 2,001-15,000 Kilowatts | $0.00419 |
| Over 15,000 Kilowatts | $0.00363 |

Self-assessor option: End-users above 45 million kilowatt-hours in annual consumption may register to self-assess the tax. Self-assessors pay $0.00257 on the first 500 million kilowatt-hours consumed and $0.001832 per kilowatt-hour consumed more than 500 million.

### Significant Changes Enacted by the 134th & 135th General Assemblies

There were no significant changes affecting the Kilowatt-Hour tax.

### Kilowatt-Hour Tax Expenditure Estimate

Data used to estimate the kilowatt-hour tax expenditures are primarily from return filings with ODT, industry data and data from the U.S. Energy Information Agency (U.S. Department of Energy).

**NOTE:** See page 9 for description of data source codes.

## Exemptions, credits, and deductions

### 6.01 Exemption for qualified end-users and certain self-generators[33]

*R.C. 5727.81(D(1), (2)); originally enacted 1999, revised 2009, 2017, 2021.*

Exempts from the kilowatt hour tax the distribution of any kilowatt hours of electricity to certain end-users and for certain self-generators of electricity that meet conditions specified in Ohio law.

***(Dollars in millions)***

| ***Estimate:*** | FY 2024 | FY 2025 | FY 2026 | FY 2027 |
|---|---|---|---|---|
| | $ 5.2 | $ 4.8 | $ 4.9 | $ 5.0 |

Data Source Code: A, B, C

[33] In order not to risk disclosure of confidential taxpayer information, several small kilowatt-hour tax exemptions are included here, as they are all "qualified end-users." These include: electricity distributed to the federal government, electricity distributed to an end-user located at a federal facility that uses electricity for the enrichment of uranium, an end-user of electricity that uses more than 3 million kilowatt-hours of electricity at one manufacturing location in this state for a calendar day for use in a qualifying manufacturing process, electricity distributed to a manufacturer who is using the electricity in a qualified chlor-alkali process to manufacture chlorine and other chemicals, and electricity distributed to a qualified regeneration facility. Additionally, added to this tax expenditure is the exemption for kilowatt hours of electricity generated by a self-generator if the electric generating facility is sized to as not to exceed 100% of the customer generator's annual requirements of electric energy at the time of interconnection.

# Insurance Premium Taxes

## Summary

The domestic insurance tax was created in 1830 with a 4.0 percent property tax on dividends paid by insurance companies. In 1933, the tax was changed to the lesser of 0.2 percent on capital and surplus or 1.67 percent of gross premiums. The franchise tax rate on gross premiums was increased to 2.5 percent in 1971. The tax rate on surplus and capital was increased to 0.6 percent in 1981.

The foreign insurance premium tax was also created in 1830, with a 4.0 percent property tax on profits from premiums. In 1852, the value of gross premiums (rather than net profits from premiums) was subject to the tax. In 1888, a supplemental tax was levied on gross premiums, and when added to the property tax, it produced an effective tax rate of 2.5 percent on gross premiums. A direct 2.5 percent gross premiums tax was created in 1902.

Am. Sub. H.B. 215 (122nd General Assembly) made numerous changes to the domestic and foreign insurance taxes, including changes to the rates and bases of the two taxes. These changes were fully phased in by tax year 2003, at which time the two taxes share the same gross premium rate (1.4 percent). The bill also established a small insurer's tax credit, along with a minimum tax of $250.

### Taxpayers

The tax is paid by insurance companies organized under Ohio law ("domestic" insurance companies) and those not organized under Ohio law ("foreign" insurance companies based out of state).

### Tax Base

The tax base for domestic and foreign insurance companies is the gross premiums covering risks in Ohio, less specified deductions.

### Tax Rate

Domestic and foreign insurers are taxed at 1.4 percent of gross premiums. Foreign insurers are also subject to retaliatory provisions. However, health insurers are instead subject to a 1.0 percent rate. Fire insurance is subject to an additional 0.75 percent rate on gross premiums.

### Significant Changes Enacted by the 133rd and 134th General Assembly

There were no significant changes affecting insurance premium taxes

### Insurance Premium Tax Expenditure Estimates

The estimates shown below reflect the estimated revenue foregone by the GRF from each tax expenditure. Data for these tax expenditures are obtained from the Ohio Department of Insurance and the Ohio Life and Health Guaranty Association. Additionally, certain business tax credits that are applicable to multiple taxes are reported in the tax where most of the revenue impact is realized. Please see sections for the **Individual Income Tax**, **Financial Institutions Tax,** and the **Commercial Activity Tax** for those estimates.

**NOTE:** See page 9 for descriptions of data source codes.

## Credits and deductions

### 7.01 Deduction for premiums received from qualified small business alliances

*R.C. 1731.07; originally enacted 1993, revised 1997.*

An insurer may deduct amounts received from underwriting a health care plan under the qualified small employer health care alliance program. The deduction is allowed on premiums or other charges received from, or on behalf of, an enrolled small employer and eligible employees and retirees covered by the health benefit plan.

# Cigarette and Other Tobacco Products Taxes

## Summary

The excise tax on cigarettes was first levied in 1931. The tax rate increased from its original $0.01 per pack to $0.15 per pack in 1971. The rate was reduced to $0.14 in 1981 as it became subject to the sales and use tax. The rate was increased to $0.24 per pack in 1993 and was increased to $0.55 per pack in 2002 and to $1.25 in 2005. In 2015, the current tax rate of $1.60 (80 mills per cigarette, translating into $0.08 per cigarette) per pack became effective.

Other tobacco products include cigars, chewing tobacco, rolling tobacco, smoking tobacco, snuff, little cigars, premium cigars, and similar tobacco products.[34] The excise tax on other tobacco products was levied beginning in 1993. The current rate is 17.0 percent on the wholesale price. However, the tax rate for little cigars is 37.0 percent of wholesale price and for premium cigars it is a maximum amount of $0.50 plus an inflationary factor set by ODT each year. For FY 2025, that rate for premium cigars is $0.64 per cigar.

Am. Sub. H.B. 166 (FY 2022-FY 2023 Biennial Operating Budget) created a tax on vapor products.[35] The tax became effective October 1, 2019, and is based on volume and is given below.

### Taxpayer

The cigarette tax is paid by wholesale dealers, meaning those who purchase cigarettes directly from manufacturers, producers, importers, or other wholesalers for stamping and then sell cigarettes to retailers for the purpose of resale. The Other Tobacco Tax (OTP) is paid by distributors, meaning all manufacturers, wholesalers, and retailers who are licensed as OTP distributors. An excise tax is levied on the use, consumption, or storage for consumption of cigarettes and OTP by consumers in Ohio if the tax has not already been paid.

[34] "Little cigars" are defined in R.C. 5743.01(P) as "(A)ny roll for smoking, other than cigarettes, made wholly or in part of tobacco that uses an integrated cellulose acetate filter and is wrapped in any substance containing tobacco, other than natural leaf tobacco." "Premium cigars," defined in R.C. 5743.01(Q), are defined as " (A)ny roll for smoking, other than cigarettes or little cigars," that is made wholly or in part of tobacco and that has all of the following characteristics: binder and wrapper consists entirely of leaf tobacco, roll contains no filter or tip, nor any mouthpiece consisting of a material other than tobacco, and the weight of one thousand such rolls is at least six pounds."

[35] "Vapor products" are defined in R.C. 5743.01(T) as liquid solution or other substance that (1) contains nicotine and (2) is depleted as it is used in an electronic smoking product. "Vapor product" does not include any solution or substance regulated as a drug, device, or combination product under Chapter V of the "Federal Food, Drug, and Cosmetic Act," 21 U.S.C. 301, et seq.

## Tax Base

The cigarette tax applies to the sale, use, consumption, or storage of cigarettes in Ohio. It is a tax per cigarette. The excise tax on other tobacco products applies to the receipt or import of other tobacco products for resale. While the tax on most other tobacco products is based on wholesale price, the tax for premium cigars is based on a maximum amount per premium cigar. The tax base for vapor is volume. "Vapor volume" is defined as one-tenth of one milliliter if the vapor product is sold in liquid form or one-tenth of one gram of vapor product if it is sold in something other than liquid form.

## Tax Rate

The cigarette tax rate is $0.08 per cigarette (translating into $1.60 per package of 20 cigarettes). The other tobacco products tax is 17.0 percent of the wholesale price, except for little cigars, which is taxed at 37.0 percent, and premium cigars are taxed at a maximum of $0.50 per premium cigar, indexed for inflation. Currently, for FY 2025, the rate for premium cigars is $0.64. For vapor products, the tax rate is $0.01 per one-tenth of one milliliter if the vapor product is sold in liquid form or $0.01 per one-tenth of one gram of vapor product if it is sold in something other than liquid form.

## Significant Changes Enacted by the 134th & 135th General Assemblies

There were no significant changes affecting cigarette and other tobacco products taxes.

## Cigarette and Other Tobacco Products Tax Expenditure Estimates

The estimates shown below reflect the estimated revenue foregone by the GRF from each tax expenditure and are based primarily on tax returns filed with ODT.

**NOTE:** See page 9 for descriptions of data source codes.

# Credits

## 8.01 Discount for cigarette tax stamps

*R.C. 5743.05; originally enacted 1934, revised in 2003, 2005, 2006, 2014, 2015.*

Cigarette excise taxpayers are eligible to receive a discount when purchasing cigarette excise tax stamps or meter impressions as a commission for affixing and cancelling the stamps or meter impressions. The value of this discount shall not be less than 1.8 percent or more than 10.0 percent of the face value of the tax stamps and meter impressions, the exact rate set by rule. Cigarette excise taxpayers shall not receive this discount on payments made when filing a monthly or semi-monthly return, but when they purchase the stamps.

# Alcoholic Beverage Taxes

## Summary

In 1933, the year Prohibition was repealed, the Ohio Department of Liquor Control was created and the General Assembly enacted tax levies on beer, wine, and other non-spirituous beverages. A spirituous liquor tax was added a year later. As of 1997, the Department of Liquor Control became a division of the Ohio Department of Commerce. The Division of Liquor Control administers Ohio's tax on spirituous liquor (i.e., intoxicating liquor with more than 21.0 percent of alcohol by volume). ODT administers Ohio's taxes on all other alcoholic beverages.

### Taxpayer

The alcoholic beverage taxes are levied on manufacturers, bottlers and canners, wholesale dealers, distributors, and retail dealers.

### Tax Base

Sales by volume of the following non-spirituous beverages: beer, wine, mixed beverages, and cider.

## Tax Rates

| Type of Product | Code Section | Measure | Rate |
|---|---|---|---|
| Beer in bottles or cans (12 ounces or less) | 4301.42 | per ounce | $0.14 |
| Beer in bottles or cans (more than 12 ounces) | 4301.42 | 6 oz. or Fraction thereof | $0.84 |
| Wine (containing 4-14% ABV) | 4301.43-.432 | gallon | $0.32 |
| Wine (containing 14-21% ABV) | 4301.43-.432 | gallon | $1.00 |
| Vermouth | 4301.43-.432 | gallon | $1.10 |
| Sparkling wine | 4301.43-.432 | gallon | $1.50 |
| Cider | 4301.43 | gallon | $0.24 |
| Mixed Beverages | 4301.43 | gallon | $1.20 |
| Beer in barrels | 4305.01 | 31 gallons | $5.58 |

### Significant Changes Enacted by the 134th & 135th General Assemblies

There were no significant changes affecting alcoholic beverage taxes.

### Alcoholic Beverage Tax Expenditure Estimates

The estimates shown below reflect the estimated revenue foregone by the GRF from each tax expenditure. Various data sources were used to derive the estimates. Most of the estimates were based upon information taken from returns filed with ODT.

**NOTE:** See page 9 for descriptions of data source codes.

## Credits

### 9.01 Advanced payment credit

*R.C. 4303.33; originally enacted 1963; amended 2016, 2021.*

Beer permit holders are eligible to claim a 3.0 percent credit on advance payments made on or before the 18th of the month for which the tax is paid. In addition, a discount is offered on the balance of the tax due (after the advanced payment) if received by the 10th day of the following month. This additional discount is the lesser of 0.3 percent of the advanced payment or 3.0 percent of the net amount of tax due after the deduction of the advanced payment. Wine and mixed beverage permit holders are eligible to claim a 3.0 percent credit on payments made on or before the 18th day of the month for the previous month's liability.

Data Source Code: A

### 9.02 Small brewers credit

*R.C. 4303.332; originally enacted 1981, revised 2002, 2013, 2021.*

Licensed Ohio beer manufacturers whose total production of beer, regardless of production location, is less than 31 million gallons per year are eligible for a credit (or refund) against the state's alcoholic beverages tax. The amount of the credit is equal to the excise tax paid on the beer/malt beverages distributed in Ohio with a maximum credit up to 9.3 million gallons. The taxpayer receives the credit in the following year.

## Tax expenditures with revenue impact below $1 million

### 9.03 Exemption for sacramental wine

*R.C. 4301.23; originally enacted 1937.*

### 9.04 Exemption for small wine producers

*R.C. 4303.333; originally enacted 1982, revised 2016, 2021.*

# Appendix A: Property Tax Exemptions

## Summary

The real property tax is Ohio's oldest tax. It has been an ad valorem tax – meaning, based on value – since 1825, and the Ohio Constitution has generally required property to be taxed by uniform rule according to value since 1851. The Department of Taxation ensures uniformity through its oversight of the appraisal work of Ohio's county auditors. According to state law and department rules, auditors conduct a full reappraisal of real property every six years and update values in the third year following each sexennial reappraisal. The Department's Division of Tax Equalization compares the assessed values of properties to sale prices, then uses these "sales ratios" to evaluate assessments and, if necessary, seek changes.

### Taxpayer

All real property owners who are not specifically exempt are subject to the real property tax.

### Tax Base

The real property tax base is the taxable (assessed) value of land and improvements. The taxable value is 35 percent of true (market) value, except for certain land devoted exclusively to agricultural use.

### Tax Rates

Real property tax rates are levied locally and vary by taxing authority. The total tax rate for any parcel includes all levies either enacted by a legislative body or approved by the voters of all taxing authority in which the property is a part. Examples of such jurisdictions include school districts, counties, municipalities, townships and special service districts.

### True Value of Exemptions

State law exempts or authorizes a subdivision to exempt from taxation all or a portion of the value of real property. Expressed major exemptions include:

- Primary and secondary schools (public and nonpublic).
- Public colleges, academies, and state universities.
- Churches and property used for public or charitable purposes.
- Government and public property.
- Public recreational facilities used for athletic events.
- Nature preserves.

For purposes of this report, in accordance with R.C. 5703.48, exemptions are categorized into one of four headings and summarized. Those four headings are:

(a) Charitable and public worship
(b) Public and educational
(c) Local economic development
(d) Other exemptions

State law requires county auditors to classify each separate parcel of real property according to its principal and current use[36]. The classifications are organized by land use codes prescribed by rule[37]. Each year county auditors submit an abstract of exempt real property to the Tax Commissioner. The abstract reports the taxable value of all real property that is on the exempt property tax list of the county, by exemption classification, and is the basis of the true value totals presented in this report.

**The table below** contains a list of exempt property land use descriptions and their assigned category. Please note that the classification "graveyards and cemeteries", does not delineate ownership and could therefore

| Land Use Code | Description | Category |
|---|---|---|
| 600 | Exempt property owned by United States of America | Public and Educational |
| 610 | Exempt property owned by state of Ohio | |
| 620 | Exempt property owned by counties | |
| 630 | Exempt property owned by townships | |
| 640 | Exempt property owned by municipalities | |
| 650 | Exempt property owned by board of education | |
| 660 | Exempt property owned by park districts (public) | |
| 670 | Exempt property owned by colleges, academies (private) | |
| 680 | Charitable exemptions - hospitals - homes for aged, etc. | Charitable and Public Worship |
| 685 | Churches, etc., public worship | |
| 690 | Graveyards, monuments, and cemeteries | Other |
| No Code | Other Exempted property | |
| 700 | Community urban redevelopment corporation tax abatements | Local Economic Development |
| 710 | Community reinvestment area tax abatements | |
| 720 | Municipal improvement tax abatements | |
| 730 | Municipal urban redevelopment tax abatements | |
| 740 | Other tax abatements | |

[36] ORC 5713.041
[37] OAC 5703-25-10

contain values representative of either the Public and Educational or the Charitable and Public Worship categories. As a result, it was determined that "graveyards and cemeteries" would be placed in the "Other exemptions" category for purposes of this report. The "Other exemptions" category includes items that the county auditors were unable classify.

### Property Tax Exemption Reimbursement by the GRF

The state reimburses local governments and school districts for the full amounts of two credits (when applicable) and the homestead exemption. Since 1971, a 10% credit has applied to each taxpayer's real property tax bill. In 2005, as part of a broader series of tax reforms, the General Assembly limited the 10% credit to all real property not intended primarily for use in a business activity. The state reimburses local governments and schools for the cost of this credit, now called the non-business credit. In addition, since the 1979 tax year, a 2.5% credit, called the owner occupancy credit, of real property taxes has been available to homesteads – meaning a dwelling plus up to one acre occupied by the homeowner. The state reimburses local governments and schools for the cost of this credit. These two credits do not apply to new local levies or replacement local levies passed after Sept. 29, 2013; they will continue to apply only to existing and renewed levies.

The homestead exemption dates to 1971. Eligibility for new exemptions is limited to qualifying taxpayers by age and modified Ohio adjusted gross income. The income threshold is adjusted annually for inflation as is the amount of the benefit. For tax year 2025, the income threshold is $40,000. Each qualified homeowner receives a credit equal to the taxes that would otherwise be charged on up, for tax year 2025, $29,000 of true value (meaning, $10,150 in taxable value) of the homestead. Surviving spouses of a public service officer killed in the line of duty and veterans who have received a 100% permanent total disability rating or a total disability rating for a service-connected disability or combination of service-connected disabilities are exempt from this income threshold and are eligible to receive a homestead credit value of $58,000 of true value, for tax year 2025.

# I. INTRODUCTION

The following report is the 17th issue of the Oklahoma Tax Expenditure Report prepared by the Tax Policy Division of the Oklahoma Tax Commission pursuant to 68 O.S. § 205(E). The report includes the Tax Commission's best estimate of the amount of state revenue that would have been collected but for the existence of each exclusion, deduction, credit, exemption, deferral, or other preferential tax treatment allowed by law for the previous fiscal year, or the most recent tax year with complete data. The report is prepared no later than October 1 of each even-numbered year. Our next report will be issued October 1, 2026, with estimates for Fiscal Year 2026.

The provisions of state tax law that fall within the definition of a "tax expenditure" are separated by tax type. The statutory provisions are listed for reference. Tax expenditures do not include incentive payment programs or exemptions to taxes not administered, regulated, or collected by the Tax Commission.

The estimates are based upon information from actual tax returns and secondary data sources. Each estimate has a different level of reliability based upon the accuracy of both the data and the estimation procedure. The different categories are as follows:

| | |
|---|---|
| Level 1 | Estimate based upon information contained in actual tax returns. The data collected is from returns verified for accuracy and unverified returns. This is the highest level of reliability. |
| Level 2 | Estimate based upon a projection from a composite of a fraction of returns filed or average amount of collections for the particular tax type involved. |
| Level 3 | Estimate derived from secondary data sources, such as other governmental agencies, industry sources, or national reports. |

The estimation process for income tax expenditures prevents the summing of each expenditure and the drawing of any precise conclusions about their aggregate value. All estimates given are rounded to the nearest thousand dollars, and estimates less than $25,000 are listed as "Minimal" unless a Level 1 estimate is available. Expenditures for which data resources are not available state "*Information Unavailable*" in place of an estimate. The Commission will continue to strive to provide an estimate for these expenditures in subsequent reports.

In 1995, the Tax Commission contracted with the Center for Economic and Management Research at the University of Oklahoma (OU) and the Office of Business and Economic Research at Oklahoma State University (OSU) wherein the departments utilized their resources to provide revenue estimates for sales tax expenditures. The expenditures for which the departments provided estimates are noted in the "Data Source" line as "OU/OSU Group." The original estimates provided by the OU/OSU Group have been adjusted for the 2024 fiscal year.

This report does not propose to offer an official list of tax expenditures. Rather, it describes as many statutory "tax expenditures" as possible and provides revenue estimates for as many provisions of the state tax laws as can be isolated and measured. Further, each description is a very brief overview and is not intended to describe the tax expenditure with specificity.

# II. INCOME TAX

## A. CREDITS

Tax credits directly reduce tax liability and, in some cases, are fully refundable, transferable, or can be carried forward to a subsequent tax year. Unless indicated otherwise, the following credits are nonrefundable, nontransferable, and have no carryover provisions. The following expenditure estimates reflect income tax filings for the 2022 tax year. Since the last expenditure report, some income tax credits have been repealed or allowed to sunset. Those credits that were allowed to sunset or were repealed that had provisions allowing for the carryover of unused credits are reflected in this report, while those without carryover provisions are not included.

1. ***Low Income Sales Tax Relief*, 68 O.S. § 1370.3**
   For Oklahoma residents whose gross household income does not exceed $12,000 per year, a refundable credit of $40 per personal exemption is allowed. The credit is only available if sales tax is levied under 68 O.S. § 1370.2. To date, sales tax has not been levied under 68 O.S. § 1370.2. (This credit is different from the Sales Tax Relief Credit authorized under 68 O.S. § 5011.)
   **Estimate:** $0
   **Data Source:** Income Tax Returns
   **Reliability:** 1

2. ***Taxes Paid to Another State*, 68 O.S. § 2357**
   An income tax credit is allowed for taxes paid to another state by resident individuals on income received as compensation for personal services in another state.
   **Estimate:** $55,912,000 / 36,387 Returns
   **Data Source:** Income Tax Returns
   **Reliability:** 1

3. ***Child Care / Child Tax Credit*, 68 O.S. § 2357**
   An income tax credit is allowed for childcare expenses in the amount of 20% of the federal childcare credit. Taxpayers can elect to take the greater of the childcare credit or 5% of the federal child tax credit authorized under the Internal Revenue Code. In both cases, federal adjusted gross income (AGI) cannot exceed $100,000. This credit is allowed to residents, part-year residents and non-resident military, subject to proration of Oklahoma AGI to federal AGI.
   **Estimate:** $42,559,000 / 352,998 Returns
   **Data Source:** Income Tax Returns
   **Reliability:** 1

4. ***Oklahoma Investment/New Jobs*, 68 O.S. § 2357.4**
   An income tax credit is allowed for either an investment in depreciable property used in a manufacturing or processing facility or for a net increase in average levels of employment in said facilities. Any credit allowed but not used may be carried over indefinitely.
   **Estimate:** $24,319,000 / 625 Returns
   **Data Source:** Income Tax Returns
   **Reliability:** 1

5. ***Venture Capital*, 68 O.S. § 2357.7**

Provides for an income tax credit of 20% of the amount of investments made in qualified venture capital companies. Any credit not utilized for the year of investment can be carried forward against subsequent income tax liabilities for a period of 3 years. The unutilized credit is freely transferable for the same 3-year period.

**Estimate:** $5,215,000 / 42 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

6. ***Investments in Clean-Burning Motor Vehicle Fuel Property (Motor Vehicles)*, 68 O.S. § 2357.22**

A credit for the purchase or conversion of qualified clean-burning motor vehicle fuel property is allowed. The amount of the credit for conversion of a vehicle is the cost of the equipment installed. The amount of the credit for a motor vehicle originally equipped with clean-burning fuel property is either the portion of the basis of the vehicle that is clean-burning fuel property or $1,500 if taxpayer is unable or elects not to determine the exaction portion of the basis that is attributable to such property. The maximum amount of the credit is based upon the gross vehicle weight of the qualified vehicle.

**Estimate:** $4,080,000 / 213 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

7. ***Investments in Clean-Burning Motor Vehicle Fuel Property (Infrastructure)*, 68 O.S. § 2357.22**

A per-location credit of 45% of the cost of the qualified clean-burning motor vehicle fuel property is allowed for property directly related to the delivery of a qualified fuel into the fuel tank of a motor vehicle and the storage of such fuel or for a public access recharging system for vehicles propelled by electricity. A per-location credit equal to the lesser of $2,500 or 50% of the cost of property which is directly related to the compression and delivery of natural gas from a private home or residence, for noncommercial purposes, into the fuel tank of a motor vehicle propelled by compressed natural gas is allowed.

**Estimate:** $3,098,000 / 144 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

8. ***Natural Disaster Tax Credit*, 68 O.S. § 2357.29A**

A refundable income tax credit is allowed for owners of residential real property whose primary residence was damaged or destroyed in a natural disaster occurring after December 31, 2011. For purposes of this credit, a “natural disaster” means a weather or fire event for which a Presidential Major Disaster Declaration was issued, or a tornado occurring in calendar year 2012 or 2013 regardless of whether a Presidential Major Disaster Declaration was issued. The amount of the credit is the difference between the ad valorem property tax paid on the property and on improvements in the year prior to the damage or destruction and the ad valorem property tax paid the first year after the improvement is complete. Eligible taxpayers will be entitled to claim this credit for 5 consecutive years. After the first year the credit is claimed, the amount of the credit will be 80% of the previous year's credit.

**Estimate:** $42,000 / 148 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

9. ***Credit for Electricity Generated by Zero-Emission Facilities,* 68 O.S. § 2357.32A**

An income tax credit is allowed based on the amount of electricity generated by a qualified zero-emission facility placed in service before July 1, 2017. The credit is available for 10 years after the qualified zero-emission facility is placed in service. Credits earned on or after January 1, 2014, are not transferable; any credit earned, but not used, is refundable in an amount equal to 85% of the amount of the credit.[1] The credit for electricity generated by non-wind sources, which sunsetted on December 31, 2021, is capped at $500,000.

**Estimate:** $16,410,000 / 40 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

10. ***Credit for Manufacturers of Advanced Small Wind Turbines,* 68 O.S. § 2357.32B**

A transferable income tax credit is allowed for Oklahoma manufacturers of advanced small wind turbine products, including rotor blades and alternators. The credit is based on the square footage of rotor-swept area of advanced small wind turbines manufactured in this state. This credit is for tax years ending on or before December 31, 2012; any unused credit may be carried over for a period of 10 years.

**Estimate:** $0
**Data Source:** Income Tax Returns
**Reliability:** 1

11. ***Tourism Promotion Credit*, 68 O.S. §§ 2357.34 through 2357.40**

An income tax credit is allowed for an investment in a qualified tourism attraction project. The credit is based on the approved costs of the project and is 10% if the approved costs are between $500,000 and $1 million, and 25%, if the approved costs are in excess of $1 million. Any credit allowed, but not used, may be carried over for 10 years. This credit was repealed, effective January 1, 2014.

**Estimate:** $0
**Data Source:** Income Tax Returns
**Reliability:** 1

12. ***Tax Credit for Qualified Rehabilitation Expenditures*, 68 O.S. § 2357.41**

A transferable income tax credit equal to 100% of the federal rehabilitation credit under 26 U.S.C. § 47 is allowed. Unused credit may be carried over for a period of 10 years.

**Estimate:** $241,000 / 40 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

13. ***Oklahoma Earned Income Tax Credit*, 68 O.S. § 2357.43**

A refundable income tax credit equal to 5% of the amount of the tax year 2022 federal earned income tax credit is allowed.

**Estimate:** $40,249,000 / 321,693 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

[1] 68 O.S § 2357.32A(D)(3) allows taxpayers the option of irrevocably electing to defer the payment of the tax credit refund for 10 years for any credits initially claimed on or after July 1, 2019.

14. ***Credit for Donations to Biomedical Research Institute*, 68 O.S. § 2357.45**
An income tax credit is allowed for donations to a qualified independent biomedical research institute. The credit is 50% of the amount donated, not to exceed $1,000. Unused credit may be carried over for a period of 4 years.
**Estimate:** $670,000 / 966 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

15. ***Credit for Donations to Cancer Research Institute*, 68 O.S. § 2357.45**
An income tax credit is allowed for donations to a cancer research institute. The credit is 50% of the amount donated, not to exceed $1,000. Unused credit may be carried over for a period of 4 years.
**Estimate:** $82,000 / 501 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

16. ***Investment Incentive Credit*, 68 O.S. § 2357.81**
An income tax credit is allowed for new or expanded facilities located within certain qualified incentive districts based on an ad valorem abatement. Any unused credit allowed, but not used, may be carried over for 10 years. This credit was repealed, effective January 1, 2014.
**Estimate:** $0
**Data Source:** Income Tax Returns
**Reliability:** 1

17. ***Credit for Eligible Taxpayer's Qualified Railroad Reconstruction or Replacement Expenditures*, 68 O.S. § 2357.104**
Eligible taxpayers may qualify for a transferable income tax credit equal to 50% of qualified track improvement expenditures up to a cap of $5,000 multiplied by the miles of railroad track owned or leased by that taxpayer within Oklahoma. Unused credits can be transferred and/or carried forward for 5 years following the year of qualification. The credit is capped at $5 million per year.
**Estimate:** $497,000 / 10 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

18. ***Strategic Industrial Development Enhancement (SIDE) Credit*, 68 O.S. § 2357.105**
An income tax credit is allowed for amounts invested in strategic industrial development enhancement projects, effective for tax years 2023 through 2027. The credit is allocated by the Oklahoma Department of Commerce to a qualifying project and is transferable. Credits allocated by Commerce may not exceed $12 million per year.
**Estimate:** *Information Unavailable. This credit was effective beginning with tax year 2023.*

19. ***Scholarship-Granting Organizations*, 68 O.S. § 2357.206**
An income tax credit is allowed for 50% of the amount donated to a scholarship granting organization (SGO), not to exceed $1,000 for each taxpayer, $2,000 for married taxpayers filing jointly, or $100,000 for a legal business entity. The SGO credit is capped at $25 million per year. Unused credit may be carried over for a period of 3 years.
**Estimate:** $4,681,000 / 1,427 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

20. ***Educational Improvement Grant Organizations*, 68 O.S. § 2357.206**
An income tax credit is allowed for 50% of the amount donated to an educational improvement grant organization not to exceed $1,000 for each taxpayer, $2,000 for married taxpayers filing jointly, or $100,000 for a legal business entity. The amount of credit for contributions to educational improvement grant organizations, public school foundations, and public school districts is capped $25 million per year. Unused credit may be carried over for a period of 3 years.
**Estimate:** $347,000 / 40 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

21. ***Public School Foundations or Public School Districts*, 68 O.S. § 2357.206**
An income tax credit is allowed for 50% of the amount donated to a public school foundation, or public school district not to exceed $1,000 for each taxpayer, $2,000 for married taxpayers filing jointly, or $100,000 for a legal business entity. The amount of credit for contributions to educational improvement grant organizations, public school foundations, and public school districts is capped $25 million per year. Unused credit may be carried over for a period of 3 years.
**Estimate:** $899,000 / 1,484 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

22. ***Credit for Employers in the Aerospace Sector*, 68 O.S. §§ 2357.302 and 2357.303**
A qualified employer is allowed an income tax credit for tuition reimbursement and/or compensation paid to a qualified employee. The amount of the tuition credit is 50% of the tuition reimbursed to a qualified employee for the first through fourth years of employment, and the amount of the compensation credit is 10% of the compensation paid for the first through fifth years of employment in the aerospace sector if the qualified employee graduated from an institution located in Oklahoma, or 5% if the qualified employee graduated from an institution located outside this state. The credit for compensation cannot exceed $12,500 for each qualified employee annually.
**Estimate:** $248,000 / 52 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

23. ***Credit for Employees in the Aerospace Sector*, 68 O.S. § 2357.304**
A qualified employee is allowed an income tax credit of $5,000 per year for a period of time not to exceed 5 years. Any credit claimed, but not used, may be carried over up to 5 subsequent taxable years during the lifetime of the qualified employee.
**Estimate:** $9,161,000 / 2,722 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

24. ***Affordable Housing Tax Credit*, 68 O.S. § 2357.403**
An income tax credit, equal to the amount of the federal low-income housing tax credit but not to exceed $4 million per allocation year, is allowed for qualified housing projects placed in service after July 1, 2015. Any credit not used can be carried forward against subsequent income tax liabilities for a period of 2 years.
**Estimate:** $532,000 / 7 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

25. ***Credit for Employers in the Vehicle Manufacturing Industry*, 68 O.S. § 2357.404**
A qualified employer is allowed an income tax credit for tuition reimbursement and/or compensation paid to a qualified employee. The amount of the tuition credit is 50% of the tuition reimbursed to a qualified employee for the first through fourth years of employment, and the amount of the compensation credit is 10% of the compensation paid for the first through fifth years of employment in the vehicle manufacturing sector if the qualified employee graduated from an institution located in Oklahoma, or 5% if the qualified employee graduated from an institution located outside this state. The credit for compensation cannot exceed $12,500 for each qualified employee annually.
**Estimate:** $0
**Data Source:** Income Tax Returns
**Reliability:** 1

26. ***Credit for Employees in the Vehicle Manufacturing Industry*, 68 O.S. § 2357.404**
A qualified employee is allowed an income tax credit of $5,000 per year for a period not to exceed 5 years. Any credit claimed, but not used, may be carried over up to 5 subsequent taxable years.
**Estimate:** $29,000 / 10 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

27. ***Software or Cybersecurity Employee Tax Credit*, 68 O.S. § 2357.405**
An income tax credit is allowed for individuals employed as qualified software or cybersecurity employees effective for tax years 2020 through 2029. The amount of the credit is either $2,200 or $1,800, depending upon the employee's level of education and is available for no more than 7 years.
**Estimate:** $1,224,000 / 226 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

28. ***Verified Blood Donation Tax Credit*, 68 O.S. § 2357.406**
An income tax credit in the amount of $20 for each qualified donation is allowed for employers for each verified blood donation made by an employee as part of a blood drive that is organized by an Oklahoma nonprofit blood donation organization in coordination with an employer or group of employers. Total credits are capped at $500,000 per year.
**Estimate:** $40,000 / 271 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

29. ***Adoption Expense Credit*, 68 O.S. § 2357.601**
A refundable income tax credit is allowed for nonrecurring adoption expenses paid by a resident individual taxpayer in connection with the adoption of a minor or the proposed adoption of a minor that did not result in a decreed adoption. The credit is 10% of qualified expenses, not to exceed $2,000 per calendar year with respect to single filing status or married filing separate income tax returns, and not to exceed $4,000 per calendar year with respect to married filing joint return filing status.
**Estimate:** *Information Unavailable. This credit was effective beginning with tax year 2023.*

30. ***Volunteer Firefighter Credit*, 68 O.S. § 2358.7**
An income tax credit of $200 or $400[2] is allowed for a volunteer firefighter who completes annual continuing education, training, and certification requirements.
**Estimate:** $709,000 / 2,233 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

31. ***Small Business Guaranty Fee Credit*, 68 O.S. § 2370.1**
Certain financial institutions, whose main office is located in Oklahoma, are entitled to claim as a credit against the "in lieu" tax the amount of the guaranty fees the financial institution pays to the SBA under certain SBA loan programs. Any credit allowed, but not used, may be carried over for a period of 5 years.
**Estimate:** $154,000 / 4 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

32. ***Low Income Property Tax Relief*, 68 O.S. § 2907**
A refundable income tax credit is allowed for an Oklahoma taxpayer, head of household, at least 65 years of age or totally disabled, with a gross household income that does not exceed $12,000. The credit is based on the amount of property tax that exceeds 1% of the household income, limited to a maximum credit of $200.
**Estimate:** $333,000 / 1,787 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

[2] Beginning with tax year 2024, the amount of the credit is increased to $300 or $600, based on training and certification requirements.

33. ***Oklahoma Rural Jobs Credit*, 68 O.S. § 3934**
Provides for an income tax credit for investments made in rural funds. Any unused credit can be carried forward against subsequent income tax liabilities for a period of 5 years.
**Estimate:** $5,800 / 21 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

34. ***Sales Tax Relief*, 68 O.S. § 5011**
Persons domiciled in Oklahoma during the entire calendar year and whose gross household income does not exceed $20,000 for individuals and $50,000 for those who claim a dependent, are at least 65 years old, or have a physical disability constituting a substantial handicap to employment may file a claim for sales tax relief. This relief is in the form of a refundable income tax credit in the amount of $40 per qualified exemption.
**Estimate:** $28,619,000 / 357,684 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

35. ***Oklahoma Research and Development Incentives Act*, 68 O.S. § 54006**
An income tax credit is allowed for a net increase in the number of full-time-equivalent employees engaged in computer services, data processing or research and development. The amount of the credit is $500 for each new employee, but not to exceed 50 new employees. Any credits allowed, but not used, in any taxable year may be carried over in order to each of the 4 years following the year of qualification and, to the extent not used in those years, in order to each of the 5 years following the initial 4-year period. This credit was repealed effective January 1, 2014.
**Estimate:** $12,000 / 24 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

36. ***Parental Choice Tax Credit – Private School Credit*, 70 O.S. § 28-101(C)(1)**
An income tax credit is allowed for qualified expenses to support the education of eligible students in Oklahoma. The amount of the credit varies based on the amount of tuition and fees and the federal adjusted gross income of the parents or legal guardians of the eligible student. The total amount of credits cannot exceed $150 million for tax year 2024, $100 million for January 1 through June 30, 2025, and $250 million for fiscal year 2026 and subsequent fiscal years.
**Estimate:** $75,000,000 in prepaid 2024 tax credits were issued in FY2024[3] / 27,048 Approved Applications
**Data Source:** Tax Commission Records
**Reliability:** 1

[3] The remaining $75,000 of tax year 2024 credits will be issued in FY2025.

37. ***Parental Choice Tax Credit – Homeschool Credit*, 70 O.S. § 28-101(C)(2)**
An income tax credit is allowed for qualified expenses paid by an Oklahoma taxpayer for the homeschool education of an eligible student. The amount of the credit is 100% of qualified expenses, not to exceed $1,000 per eligible student per tax year. For tax year 2025, and subsequent tax years, the total amount of credits cannot exceed $5 million annually.
**Estimate:** *Information Unavailable. This credit was effective beginning with tax year 2024.*

38. ***Parental Choice Tax Credit – Credit for Students Experiencing Homelessness*, 70 O.S. § 28-101(C)(3)**
An income tax credit is allowed for an eligible student who attends an accredited private school that exclusively serves students experiencing homelessness. The amount of the credit is $7,500 or the amount of the cost to educate the eligible student at the private school, whichever is less.
**Estimate:** $0[4]
**Data Source:** Tax Commission Records
**Reliability:** 1

39. ***Parental Choice Tax Credit – Credit for Financially Disadvantaged Students*, 70 O.S. § 28-101(C)(4)**
An income tax credit is allowed for an eligible student who attends an accredited private school that primarily serves financially disadvantaged students. The amount of the credit is $7,500 or the amount of the cost to educate the eligible student at the private school, whichever is less.
**Estimate:** $0[4]
**Data Source:** Tax Commission Records
**Reliability:** 1

40. ***Oklahoma Capital Investment Board*, 74 O.S. § 5085.7**
The Oklahoma Capital Investment Board is allowed to sell up to $20 million in income tax credits under certain circumstances per fiscal year.
**Estimate:** $3,145,000 / 15 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

[4] Tax year 2024 credit payments are expected to be made in FY2025.

## B. DEDUCTIONS AND EXEMPTIONS

Oklahoma allows deductions and exemptions to taxpayers in computing Oklahoma taxable income under certain conditions.[5] The amount of the deduction or exemption varies. Exemptions generally refer to a personal allowance or specific monetary exemption that may be claimed by an individual to reduce Oklahoma taxable income. A tax deduction is a reduction of a taxpayer's total income that decreases the amount of taxable income used in calculating the income tax. Expenditure estimates below reflect income tax filings for 2022 tax year.

1. ***Oil and Gas Allowance*, 68 O.S. § 2353**
   An income tax deduction is available as an allowance for depletion based upon cost of oil and gas deposit.
   **Estimate:** $17,381,000 / 76,959 Returns
   **Data Source:** Oklahoma Individual Income Tax Micro-Simulator
   **Reliability:** 2

2. ***Deduction for Living Organ Donation*, 68 O.S. § 2358**
   A one-time income tax deduction for individual taxpayers of up to $10,000 is allowed for unreimbursed expenses for the donation of one or more human organs. The donor must donate the organ while living to qualify for the deduction.
   **Estimate:** *Information Unavailable. This deduction is commingled with several others on Oklahoma income tax form 511.*

3. ***Taxpayers with Physical Disabilities*, 68 O.S. § 2358**
   Individual Oklahoma resident taxpayers with physical disabilities may deduct the expenditures to modify a motor vehicle, home, or workplace to compensate for their handicap.
   **Estimate:** Minimal
   **Data Source:** Oklahoma Individual Income Tax Micro-Simulator
   **Reliability:** 2

4. ***Nonrecurring Adoption Expenses*, 68 O.S. § 2358**
   Nonrecurring adoption expenses incurred in connection with the adoption or proposed adoption of a minor may be deducted from Oklahoma adjusted gross income, through tax year 2022. The deduction is limited to $20,000 per calendar year.
   **Estimate:** $148,000 / 532 Returns
   **Data Source:** Oklahoma Individual Income Tax Micro-Simulator
   **Reliability:** 2

5. ***Oklahoma College Savings Plan Act*, 68 O.S. § 2358**
   An income tax deduction is allowed for contributions to an account established under the Oklahoma College Savings Plan Act, up to $10,000 for each individual taxpayer or $20,000 for taxpayers filing a joint return.
   **Estimate:** $4,651,000 / 16,461 Returns
   **Data Source:** Oklahoma Individual Income Tax Micro-Simulator
   **Reliability:** 2

[5] While some of these deductions and exemptions are available for both corporate and individual income tax filers, aggregate data for corporate filers is not available. The tax expenditure estimates in this report for deductions and exemptions that are available for both corporate and individual filers reflect only individual income tax.

6. ***Members of the Armed Services*, 68 O.S. § 2358**

100% of income received from the United States as salary or compensation, other than retirement benefits, as a member of the U.S. Armed Forces is allowed as a deduction from taxable income.

**Estimate:** $30,216,000 / 22,290 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

7. ***Itemized/Standard Deductions*, 68 O.S. § 2358**

Individual taxpayers may either itemize their deductions or claim an Oklahoma standard deduction. If using itemized deductions, those will be the same as claimed for federal income tax purposes. The amount of the Oklahoma standard deduction is equal to the amount of tax year 2017 federal standard deduction.

**Estimate:** $559,151,000 / 1,701,659 Standard Deduction Returns
$81,813,000 / 166,472 Itemized Deductions Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

8. ***Swine and Poultry Producers*, 68 O.S. § 2358**

An income tax deduction from adjusted gross income is allowed for the depreciation of new construction or expansion costs incurred by swine and poultry producers.

**Estimate:** *Information Unavailable. This deduction is commingled with several others on Oklahoma income tax form 511.*

9. ***Oklahoma Police Corps Scholarship Program*, 68 O.S. § 2358**

An income tax deduction is allowed, by individual taxpayers, of federally taxable scholarship or stipend income if received from the Oklahoma Police Corps Scholarship Program.

**Estimate:** *Information Unavailable. This deduction is commingled with several others on Oklahoma income tax form 511.*

10. ***Deduction for Discharge of Farm Indebtedness Income*, 68 O.S. §2358**

An income tax deduction is allowed by individual taxpayers due to the discharge of farm indebtedness.

**Estimate:** *Information Unavailable. This deduction is commingled with several others on Oklahoma income tax form 511.*

11. ***Oklahoma Source Capital Gain Deduction*, 68 O.S. § 2358**

Taxpayers may deduct certain qualifying capital gains that are included in federal adjusted gross income or federal taxable income. The qualifying gain must be earned on real or tangible personal property located within Oklahoma, be earned on the sale of stock or ownership interest in an Oklahoma headquartered entity, or be earned on the sale of real property, tangible personal property or intangible personal property located within Oklahoma as part of the sale of all or substantially all of the assets of an Oklahoma headquartered entity or an Oklahoma proprietorship business enterprise.

**Estimate:** $161,896,000 / 20,206 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

12. ***Transfers of Technologies to Small Business*, 68 O.S. § 2358**
Royalty payments received for transfers of technologies to qualified Oklahoma small businesses are exempt from taxable income.
**Estimate:** *Information Unavailable. This exemption is commingled with several others on Oklahoma income tax form 511.*

13. ***Personal Exemption*, 68 O.S. § 2358**
A personal exemption of $1,000 in lieu of the federal personal exemption is allowed in calculating Oklahoma taxable income for an individual taxpayer.
**Estimate:** $127,908,000 / 1,797,471 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

14. ***Blind Individuals*, 68 O.S. § 2358**
An income tax exemption of $1,000 is allowed for each individual taxpayer or spouse who is blind at the close of the tax year.
**Estimate:** $115,000 / 4,355 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

15. ***Individuals 65 or Older*, 68 O.S. § 2358**
An income tax exemption of $1,000 is allowed for each individual taxpayer or spouse who is 65 years of age or older; provided certain income limitations apply.
**Estimate:** $197,000 / 85,663 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

16. ***Government Retirement Benefits*, 68 O.S. § 2358**
An income tax exemption is allowed for the first $10,000 of most Oklahoma and federal government retirement benefits that are included in federal adjusted gross income.
**Estimate:** $24,584,000 / 64,665 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

17. ***Social Security Benefits*, 68 O.S. § 2358**
An income tax exemption is allowed for 100% of social security benefits to the extent the social security benefits are included in federal adjusted gross income.
**Estimate:** $206,078,000 / 262,808 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

18. ***Civil Service Retirement in Lieu of Social Security Benefits*, 68 O.S. § 2358**
An income tax exemption is allowed for 100% of certain federal civil service benefits received in lieu of social security benefits.
**Estimate:** $30,319,000 / 19,232 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

19. ***Military Retirement Benefits*, 68 O.S. § 2358**
An income tax exemption is allowed for 100% of military retirement benefits from any component of the U.S. Armed Forces.
**Estimate:** $32,416,000 / 28,851 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

20. ***Private Retirement Benefits*, 68 O.S. § 2358**
An income tax exemption of up to $10,000 is allowed for specified private retirement benefits included in federal adjusted gross income.
**Estimate:** $88,122,000 / 273,923 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

21. ***Deferred Compensation*, 68 O.S. § 2358**
Lump-sum distributions from employer deferred compensation plans, which are not plans within the Internal Revenue Code, deposited in separate bank accounts, are excluded from an individual's taxable income.
**Estimate:** *Information Unavailable. This exemption is commingled with several others on Oklahoma income tax form 511.*

22. ***Medical Savings Account*, 68 O.S. § 2358**
Contributions made to a medical savings account and interest earned are exempt from an individual's taxable income.
**Estimate:** *Information Unavailable. This exemption is commingled with several others on Oklahoma income tax form 511.*

23. ***Agricultural Commodity Processing Facilities*, 68 O.S. § 2358**
An exclusion from taxable income, in the amount of 15% of the investment for new or expanded agricultural commodity processing facilities, is allowed.
**Estimate:** *Information Unavailable. This exemption is commingled with several others on Oklahoma income tax form 511.*

24. ***Safety Pays OSHA Consultation Service Exemption*, 68 O.S. § 2358**
An employer that utilizes the Safety Pays OSHA Consultation Service provided by the Oklahoma Department of Labor is entitled to a $1,000 exemption for the tax year the service is utilized.
**Estimate:** *Information Unavailable. This exemption is commingled with several others on Oklahoma income tax form 511.*

25. ***Competitive Livestock Show Award*, 68 O.S. § 2358**
The recipient of an award for participation in a competitive livestock show event may exclude from taxable income the amount of the award, not to exceed $600.
**Estimate:** *Information Unavailable. This exemption is commingled with several others on Oklahoma income tax form 511.*

26. ***Poll Worker Exemption*, 68 O.S. § 2358**
An employer providing paid leave to an employee for the purpose of volunteering as a poll worker with a county election board in Oklahoma may exclude from taxable income $100 for each day of leave provided in the tax year.
**Estimate:** *Information Unavailable. This exemption will be effective beginning in tax year 2025.*

27. ***Prisoners of War*, 68 O.S. § 2358.1**

Income of members of the U.S. Armed Forces and certain civilians who have been detained as prisoners of war or are listed as missing in action are exempt from state income taxes. The income of spouses and dependents of such persons is eligible for an exemption from Oklahoma income tax for the duration of the prisoner of war or missing in action status. Section 2358.1 further provides for refund provisions on taxes paid during prisoner of war or missing in action status.

**Estimate:** $0
**Data Source:** Income Tax Returns
**Reliability:** 1

28. ***Deceased Member of Armed Forces and Spouse*, 68 O.S. § 2358.1A**

Any payment made by the U.S. Department of Defense (USDOD) as a result of the death of a member of the U.S. Armed Forces who has been killed in action in a USDOD designated combat zone is exempt from Oklahoma income tax during the taxable year in which the individual is declared deceased by the U.S. Armed Forces. Any income earned by the spouse of a member of the Armed Forces who has been killed in action in a USDOD designated combat zone is exempt from Oklahoma income tax during the taxable year in which the individual is declared deceased by the Armed Forces.

**Estimate:** *Information Unavailable*

29. ***Foster Care Deduction*, 68 O.S. § 2358.5-1**

An income tax deduction of up to $5,000 is allowed for expenses incurred to provide care for a foster child.

**Estimate:** $228,000 / 1,433 Returns
**Data Source:** Income Tax Returns
**Reliability:** 1

30. ***Tax Incentives for Inventors*, 74 O.S. § 5064.7**

Royalty income is exempt from state income taxes for a period of 7 years upon certain products developed and manufactured in Oklahoma. Further, manufacturers may qualify for the Oklahoma Investment/ New Jobs Credit (68 O.S. § 2357.4) and an income exclusion of 65% of depreciable property purchased and directly used in manufacturing the product, not to exceed $500,000.

**Estimate:** *Information Unavailable. This exemption is commingled with several others on Oklahoma income tax form 511.*

31. ***Small Business Incubators – Tenants*, 74 O.S. § 5078**

Tenants of small business incubators are exempt from income tax on the income earned as a result of the occupancy in the incubator. This exemption is available for a period up to 10 years.

**Estimate:** *Information Unavailable. This exemption is commingled with several others on Oklahoma income tax form 511.*

32. ***Oklahoma First-Time Home Buyer Savings Account*, 46 O.S. § 311 et seq.**

Oklahoma residents may deduct from Oklahoma taxable income the amount contributed to a home buyer savings account, as well as exclude from Oklahoma taxable income the amount of earnings, including interest and other income on the principal in an eligible home buyer savings account.

**Estimate:** *Information Unavailable. This exemption is commingled with several others on Oklahoma income tax form 511.*

## C. BONDS, NOTES AND OBLIGATIONS

Oklahoma exempts the interest and other income earned on certain bonds, notes, and obligations from Oklahoma income tax. Tax return source data does not typically show this data; therefore, estimates are unavailable.

1. ***Municipal Power Authority*, 11 O.S. § 24-106 (MPA)**
   Income and interest earned on bonds and notes of the MPA are nontaxable.

2. ***Urban Renewal Authorities*, 11 O.S. § 38-115 (URA)**
   Income and interest earned on bonds and notes of the URA are nontaxable.

3. ***Public Rural Ambulance Service Districts*, 19 O.S. § 1220**
   Income interest and capital gains on securities and evidences of indebtedness issued by public rural ambulance service districts are exempt from income tax.

4. ***State of Oklahoma Building Bonds*, 62 O.S. § 57.4 (OBB)**
   All bonds issued pursuant to this act, and the interest thereon, is not subject to taxation by the State of Oklahoma.

5. ***State of Oklahoma Building Bonds of 1961*, 62 O.S. § 57.34**
   Income derived from OBB of 1961 is not subject to taxation by the State of Oklahoma.

6. ***State of Oklahoma Building Bonds of 1965*, 62 O.S. § 57.54**
   Income derived from State of OBB of 1965 is not subject to taxation by the State of Oklahoma.

7. ***State of Oklahoma Institutional Building Bonds of 1965*, 62 O.S. § 57.64**
   Income derived from State of Oklahoma Institutional Building Bonds of 1965 is not subject to taxation by the State of Oklahoma.

8. ***Local Industrial Development Act*, 62 O.S. § 660 (LIDA)**
   Bonds issued under the LIDA are exempt from all state taxes.

9. ***University Hospital Authority Revenue Bonds*, 63 O.S. § 3218 (UHA)**
   UHA revenue bonds are exempt from taxation by the State of Oklahoma and any political subdivision thereof, including the income therefrom, and any gain from the sale thereof.

10. ***Bond Interest Income*, 68 O.S. § 2358.5**
    Interest from local government obligations issued after July 1, 2001, by or on behalf of Oklahoma educational institutions, cities, towns, counties or public trusts (in which any of the foregoing are beneficiaries) is exempt from Oklahoma income tax.

11. ***Oklahoma Turnpike Authority*, 69 O.S. § 1714 (OTA)**
    The OTA is not required to pay any taxes or assessments on any project or property acquired under the statute creating and governing the OTA. Any income earned by the OTA, as well as any bond issued by the OTA, is exempt from state taxation. In the event the OTA leases property for concessions, that transaction creates a taxable event.

12. ***Oklahoma Educational Television Authority*, 70 O.S. § 23-116 (OETA)**
Income earned by the OETA and income derived from bonds issued by the OETA are exempt from income tax.

13. ***Oklahoma Student Loan Authority Bonds*, 70 O.S. § 695.3 (OSLA)**
Bonds and the income from bonds issued by the OSLA are exempt from income tax.

14. ***Independent School Districts – Stadium, Sports Arena, & Recreation Facilities Construction Revenue Bonds*, 70 O.S. § 821.4**
Any bond issued pursuant to 70 O.S. § 821 et seq. is exempt from income tax.

15. ***Board of Regents of Specific Institutions of Higher Learning Authorized to Issue Tax Exempt Bonds*, 70 O.S. § 4002**
Bonds issued by various boards of regents of institutes of higher learning are exempt from income tax.

16. ***Oklahoma Tuition Trust*, 70 O.S. § 6014 (OTT)**
The property and income of the OTT are exempt from taxation. Purchasers of advance tuition payments administered by the OTT are allowed to deduct those payments from taxable income in the year the purchase was made.

17. ***Oklahoma Industrial Finance Authority – State Industrial Finance Bonds*, 74 O.S. § 856 (OIFA)**
Income derived from bonds of OIFA is exempt from income tax.

18. ***Native American Cultural & Educational Authority of Oklahoma*, 74 O.S. § 1226.10 (Authority)**
The Authority is exempt from paying taxes on any project or property acquired or used by the Authority. This includes income from the property of the Authority.

19. ***Oklahoma Development Finance Authority Bonds*, 74 O.S. § 5062.11 (ODFA)**
Income derived from bonds issued by the ODFA is exempt from income tax.

20. ***Credit Enhancement Reserve Fund General Obligation Bonds Issued by the Oklahoma Development Finance Authority*, 74 O.S. § 5063.18 (CERFGO)**
Interest and income from CERFGO bonds issued by the ODFA are exempt from income tax.

21. ***Irrigation Districts*, 82 O.S. § 277.17**
All bonds, notes, and warrants, as well as interest thereon, issued pursuant to the Oklahoma Irrigation District Act are exempt from income tax.

22. ***Conservancy Districts/Conservancy Bonds*, 82 O.S. § 688**
Interest on any bond, note or warrant issued by a conservancy district is exempt from income tax.

23. ***Grand River Dam Authority*, 82 O.S. § 876 (GRDA)**
Bonds and interest on bonds issued by the GRDA are exempt from income tax.

24. ***Water Resources Board Investment Certificates*, 82 O.S. § 1085.33 (WRB)**
Income derived from WRB Investment Certificates is exempt from income tax.

25. ***Port Authority Bonds*, 82 O.S. § 1124**
Income derived from bonds issued by a port authority is exempt from income tax.

26. ***Regional Water Districts*, 82 O.S. § 1274**
Interest and capital gains on obligations, securities, and evidences of indebtedness of regional water districts are exempt from income tax.

27. ***Rural Water, Sewer, Gas & Solid Waste Management Districts*, 82 O.S. § 1324.22**
Interest and capital gains on securities or evidences of indebtedness of rural water, sewer, gas, and solid waste management districts are exempt from income tax.

## D. EXEMPT ENTITIES

Oklahoma statutes exempt a variety of entities from Oklahoma income tax. These include certain governmental entities, quasi-governmental agencies, and certain other tax-exempt organizations. Most do not have income tax filing requirements with the Oklahoma Tax Commission; therefore, an estimate of the tax expenditure is unavailable.

1. ***Airport Property & Income*, 3 O.S. § 65.17**
Any property in this state acquired by municipalities operating an airport for public purposes is exempt from Oklahoma state taxation.

2. ***Investment of Surplus Funds of Cemetery Corporations*, 8 O.S. § 17**
Surplus funds of cemetery corporations to be invested in secure real estate or securities to ensure perpetual maintenance and improvement of the cemetery are exempt from Oklahoma state taxation.

3. ***Municipal Power Authority*, 11 O.S. § 24-106**
Property of the Municipal Power Authority is nontaxable by the State of Oklahoma.

4. ***Rural Electric Cooperatives*, 18 O.S. § 437.25**
Income earned by rural electric cooperatives is exempt from income tax.

5. ***Oklahoma Property and Casualty Insurance Guaranty Association*, 36 O.S. § 2017**
The Association is exempt from payment of all fees and all taxes levied by the State of Oklahoma.

6. ***Oklahoma Life and Health Insurance Guaranty Association*, 36 O.S. § 2040**
The Association is exempt from payment of all fees and all taxes levied by the State of Oklahoma, except taxes levied on real property.

7. ***Nonprofit Hospital Service and Medical Indemnity Corporations*, 36 O.S. § 2617**
Income earned by nonprofit hospital service and medical indemnity corporations is exempt from income tax.

8. ***Nonprofit Optometric Service and Indemnity Corporations*, 36 O.S. § 2665**
Income earned by nonprofit optometric service and indemnity corporations is exempt from income tax.

9. ***Nonprofit Dental Service Corporations*, 36 O.S. § 2685**
Income earned by nonprofit dental service corporations is exempt from Oklahoma income tax.

10. ***Nonprofit Chiropractic Service Corporations*, 36 O.S. § 2691.15**
Income earned by nonprofit chiropractic service corporations is exempt from Oklahoma income tax.

11. ***Housing Authorities*, 63 O.S. § 1066**
Property and funds of housing authorities are exempt from all state taxes. This tax exemption does not apply to any portion of the project used by a profit-making enterprise.

12. ***Exempt Organizations*, 68 O.S. § 2359**
This provision exempts certain organizations from Oklahoma income tax. The exemption includes organizations exempt from taxation under provisions of the Internal Revenue Code and insurance companies paying a tax on gross premiums.

13. ***Oklahoma Turnpike Authority*, 69 O.S. § 1714 (OTA)**
The OTA is not required to pay any taxes or assessments on any project or property acquired under the statute creating and governing the OTA. Any income earned by the OTA, as well as any bond issued by the OTA, is exempt from state taxation. In the event the OTA leases property for concessions, that transaction creates a taxable event.

14. ***Oklahoma Educational Television Authority*, 70 O.S. § 23-116 (OETA)**
The OETA is not required to pay any taxes or assessments upon any project or any property acquired or used by the OETA.

15. ***Oklahoma Tuition Trust*, 70 O.S. § 6014 (OTT)**
The property and income of the OTT are exempt from taxation. Purchasers of advance tuition payments administered by the OTT are allowed to deduct those payments from taxable income in the year the purchase was made.

16. ***Native American Cultural & Educational Authority of Oklahoma*, 74 O.S. § 1226.10 (Authority)**
The Authority is exempt from paying taxes on any project or property acquired or used by the Authority. This includes income from the property of the Authority.

17. ***Export Trading Companies*, 74 O.S. § 2106**
An export trading company, with a registered office or other office in this state, is exempt from state corporate income tax and franchise tax for a period of 2 years from the date the Tax Commission certifies the export trading company as a qualified export trading company.

18. ***Oklahoma Center for the Advancement of Science and Technology*, 74 O.S. § 5060.9 (OCAST)**
The OCAST is exempt from all franchise, corporate business and income taxes levied by the state of Oklahoma.

## E. MISCELLANEOUS INCOME TAX EXPENDITURES

1. ***Qualified Refinery Property*, 68 O.S. § 2357.204**

Qualified Oklahoma refineries may elect to expense the cost of qualified refinery property that is not chargeable to a capital account.

**Estimate:** *Information Unavailable. This expense is commingled with several others on the Oklahoma income tax return.*

2. ***Cost of Complying with Sulfur Regulations*, 68 O.S. § 2357.205**

Qualified Oklahoma refineries may elect to allocate all or a portion of the cost of complying with sulfur regulations to its owners.

**Estimate:** *Information Unavailable. This expense is commingled with several others on the Oklahoma income tax return.*

3. ***Net Operating Losses*, 68 O.S. § 2358**

Oklahoma net operating losses can be used to offset another year's taxable income. Losses may either be carried forward or carried back at the option of the taxpayer.

**Estimate:** $41,251,000[6]/ 21,223 Returns
**Data Source:** Oklahoma Individual Income Tax Micro-Simulator
**Reliability:** 2

4. ***Income Averaging for Farmers*, 68 O.S. § 2358.4**

Farmers may elect to compute Oklahoma income tax using the income averaging method.

**Estimate:** *Information Unavailable*

[6] While net operating losses are available for both corporate and individual income tax filers, aggregate data for corporate filers is unavailable. The tax expenditure estimate for net operating losses reflects only individual income tax due to the data limitation.

# III. SALES AND USE TAXES

1. ***Rural Electric Cooperatives*, 18 O.S. § 437.25**
Purchases by rural electric cooperatives and foreign corporations transacting business under the Rural Electric Cooperative Act.
**Estimate(Sales Tax):** $9,612,000
**Data Source:** OU/OSU Group
**Reliability:** 3

2. ***Rural Water and Sewer Districts*, 18 O.S. § 863**
Purchases by nonprofit corporations organized for the purpose of developing and providing rural water supply and sewage disposal facilities.
**Estimate:** *Information Unavailable*

3. ***Ambulance Service Districts*, 19 O.S. § 1220**
Purchases made by ambulance service districts.
**Estimate:** *Information Unavailable*

4. ***Oklahoma Property and Casualty Insurance Guaranty Association*, 36 O.S. § 2017**
Purchases made by the Oklahoma Property and Casualty Insurance Guaranty Association.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

5. ***Oklahoma Life and Health Insurance Guaranty Association*, 36 O.S. § 2040**
Purchases made by the Oklahoma Life and Health Insurance Guaranty Association.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

6. ***Oklahoma Housing Authority*, 63 O.S. § 1066**
Purchase of property by an Oklahoma housing authority.
**Estimate(Sales Tax):** $43,000
**Data Source:** OU/OSU Group
**Reliability:** 3

7. ***Newspapers and Periodicals*, 68 O.S. § 1354**
Sales of newspapers and periodicals.
**Estimate(Sales Tax):** $2,276,000
**Data Source:** Tax Commission Records
**Reliability:** 1

8. ***Water, Sewage and Refuse Services*, 68 O.S. § 1354**
Sales of water, sewage, and refuse services.
**Estimate(Sales Tax):** $19,637,000
**Data Source:** OU/OSU Group
**Reliability:** 3

9. ***Tourism Broker Transportation Services*, 68 O.S. § 1354**
Transportation services provided by a tourism service broker that are incidental to the rendition of tourism brokerage services.
**Estimate(Sales Tax):** $739,000
**Data Source:** OU/OSU Group
**Reliability:** 3

10. ***Funeral Home Transportation Services*, 68 O.S. § 1354**
Transportation services provided by a funeral establishment to family members and other persons for purposes of conducting a funeral in this state.
**Estimate(Sales Tax):** $439,000
**Data Source:** OU/OSU Group
**Reliability:** 3

11. ***Scientific/Educational Lab Printing*, 68 O.S. § 1354**
Services of printing, copying or photocopying by a privately owned scientific and educational library.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

12. ***Credit for Contractors after Sales Tax Increase*, 68 O.S. § 1354**
Taxes paid by a contractor for purchases made subsequent to the date of a contract entered into prior to the effective date of an increase in the sales tax levied.
**Estimate(Sales Tax):** $0[7]

13. ***Sales of Admission Tickets by Aquariums*, 68 O.S. § 1354**
Sales of admission tickets by aquariums exempt from taxation pursuant to the provisions of the Internal Revenue Code, 26 U.S.C. §501(c)(3), or owned or operated by a public trust or political subdivision of this state, shall be collected and disbursed to the entity responsible for the aquarium's operations for use by that entity for promoting visitation primarily to out-of-state residents.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

14. ***Leases of Motor Vehicles*, 68 O.S. § 1355**
Leases for a period of 12 months or more of motor vehicles.
**Estimate:** *Information Unavailable*

15. ***Leases of Aircraft*, 68 O.S. § 1355**
Leases of aircraft upon which the owners have paid the aircraft excise tax or are exempt from such tax.
**Estimate:** *Information Unavailable*

16. ***United States Government, or Agents of the U.S. Government*, 68 O.S. § 1356**
Sales of property/services to the U.S. Government, or sales to agents of the U.S. Government wherein ownership and possession transfer immediately to the U.S. Government
**Estimate:** $0[8]

17. ***State of Oklahoma*, 68 O.S. § 1356**
Sales of property/services to the State of Oklahoma and its political subdivisions.
**Estimate(Sales Tax):** $138,982,000
**Data Source:** OU/OSU Group
**Reliability:** 3

[7] Not applicable for FY24; last increase to state sales tax rate was effective February 1, 1990.
[8] All expenditures involving the United States are given an estimate of zero. This estimate is provided since the State cannot levy a tax upon the federal government under the decision of the U.S. Supreme Court.

18. ***Federally Funded Facility*, 68 O.S. § 1356**
Sales of property to agents appointed by a political subdivision of this state if such sale is associated with the development of a qualified federal facility.
**Estimate:** *Information Unavailable*

19. ***County, District, or State Fair Authorities*, 68 O.S. § 1356**
Sales made by county, district or state fair authorities of this state, upon the premises of the fair authority, for the sole benefit of the fair authority.
**Estimate:** *Information Unavailable*

20. ***School Cafeterias*, 68 O.S. § 1356**
Sale of food in cafeterias or lunch rooms by elementary schools, high schools, colleges or universities.
**Estimate(Sales Tax):** $9,090,000
**Data Source:** OU/OSU Group
**Reliability:** 3

21. ***Fraternal, Religious, Civic, Charitable or Educational Societies*, 68 O.S. §1356**
Dues paid to fraternal, religious, civic, charitable or educational societies or organizations by regular members thereof.
**Estimate(Sales Tax):** $5,387,000
**Data Source:** OU/OSU Group
**Reliability:** 3

22. ***Privately Owned Scientific and Educational Libraries*, 68 O.S. § 1356**
Dues paid to privately owned scientific and educational libraries by members sharing the use of services rendered by such libraries with students interested in the study of geology, petroleum engineering, or related subjects.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

23. ***Churches*, 68 O.S. § 1356**
Sales of property/services to, or by, churches.
**Estimate(Sales Tax):** $8,218,000
**Data Source:** OU/OSU Group
**Reliability:** 3

24. ***Charitable Purposes*, 68 O.S. § 1356**
Sales by nonprofit organizations making sales on behalf of, or at the request of, a church(es) during a single 3-day period each year, where the proceeds are used for charitable purposes.
**Estimate:** *Information Unavailable*

25. ***Admission Tickets (College or University)* , 68 O.S. § 1356**
Amount of proceeds from the sale of admission tickets, which is separately stated on the ticket, for repayment of money borrowed by any state-supported college or university for the purpose of constructing or enlarging any facility.
**Estimate:** *Information Unavailable*

26. ***Council Organizations*, 68 O.S. § 1356**
Sales of tangible personal property/services to Council Organizations of the Boy Scouts of America, Girl Scouts of U.S.A. and Campfire USA.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

27. ***Subdivisions or Agencies of the State*, 68 O.S. § 1356**
Sales of property/services to any county, municipality, rural water district, public school district, city-county library system, the institutions of the Okla. State System of Higher Education, the Grand River Dam Authority, the Northeast Okla. Public Facilities Authority, Okla. Municipal Power Authority, City of Tulsa Rogers County Port Authority, Muskogee City-County Port Authority, the ODVA, the Broken Bow Economic Development Authority, Ardmore Development Authority, Durant Industrial Authority, Oklahoma Ordnance Works Authority, Central Okla. Master Conservancy District, Arbuckle Master Conservancy District, Fort Cobb Master Conservancy District, Foss Reservoir Master Conservancy District, Mountain Park Master Conservancy District, Waurika Lake Master Conservancy District and OMES only when carrying out a public construction contract on behalf of the ODVA, the University Hospital Trust, the OSU Medical Authority and Trust, and the OSU Veterinary Medicine Authority and Trust. The exemption also extends to persons who have entered into a public contract with any of the above-named subdivisions or agencies.
**Estimate(Sales Tax):** $172,887,000
**Data Source:** OU/OSU Group
**Reliability:** 3

28. ***Private Education Institutions*, 68 O.S. § 1356**
Sales to private institutions of higher education and private elementary and secondary institutions of education accredited by the State Department of Education.
**Estimate(Sales Tax):** $4,563,000
**Data Source:** OU/OSU Group
**Reliability:** 3

29. ***Tuition and Educational Fees*, 68 O.S. § 1356**
Tuition and educational fees paid to private institutions of higher education and private elementary and secondary institutions of education accredited by the State Department of Education.
**Estimate:** *Information Unavailable*

30. ***Sales by Schools*, 68 O.S. § 1356**
Sales of tangible personal property by a public/private school (K-12), public school district, public/private school board, public/private school student group or organization, parent-teacher association or organization, or public/private school personnel for the purpose of raising funds.
**Estimate(Sales Tax):** $9,935,000
**Data Source:** OU/OSU Group
**Reliability:** 3

31. ***4-H Clubs*, 68 O.S. § 1356**
Sales of tangible personal property by local, county, state or regional 4-H clubs, councils, committees, leader associations, foundations, camps, and training centers for the purpose of raising funds.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

32. ***Athletic Event Admission Tickets*, 68 O.S. § 1356**
The first $75,000 of gross receipts each year from sale of tickets and concessions at athletic events by organizations exempt from taxation under 26 U.S.C. §501(c)(4).
**Estimate:** *Information Unavailable*

33. ***Development and Production of Advertising, Promotion, Publicity and Public Relations Programs for the Oklahoma Tourism & Recreation Department*, 68 O.S. § 1356**
Sales of tangible personal property/services to any person with whom the Oklahoma Tourism and Recreation Department has entered into a public contract and which is necessary for carrying out such contract to assist the Department in the development and production of advertising, promotion, publicity and public relations programs.
**Estimate:** *Information Unavailable*

34. ***Volunteer Fire Departments*, 68 O.S. § 1356**
Sales of property/services to volunteer fire departments for use by the fire department.
**Estimate:** *Information Unavailable*

35. ***Complimentary Admission Tickets*, 68 O.S. § 1356**
**Citation:** **68 O.S. §1356**
**Description:** Free tickets for admission to places of amusement, sports, or other activities that are issued through a box office operated by a state institution of higher education or by a municipality.
**Estimate(Sales Tax):** Minimal
**Data Source:** OU/OSU Group
**Reliability:** 3

36. ***Sales by Fire Departments*, 68 O.S. § 1356**
The first $15,000 of gross receipts each year from sales of tangible personal property by fire departments organized pursuant to Titles 11, 18 or 19 of the Oklahoma Statutes for the purpose of raising funds.
**Estimate(Sales Tax):** $712,000
**Data Source:** OU/OSU Group
**Reliability:** 3

37. ***Boys and Girls Clubs of America*, 68 O.S. § 1356**
Sales of tangible personal property/services to any Boys and Girls Clubs of America affiliate in this state that is not affiliated with the Salvation Army.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

38. ***Court-Adjudicated Juvenile Facility*, 68 O.S. § 1356**
Sales of tangible personal property/services to any federally tax exempt organization that takes court-adjudicated juveniles for purposes of rehabilitation.
**Estimate(Sales Tax):** Minimal
**Data Source:** OU/OSU Group
**Reliability:** 3

39. ***Qualified Health Centers*, 68 O.S. § 1356**
Sales of property/services to federally-qualified health centers, indigent health care centers, and qualifying community-based health centers.
**Estimate:** *Information Unavailable*

40. ***Dues or Fees Paid to YMCAs or YWCAs*, 68 O.S. § 1356**
Dues or fees paid to YMCAs, YWCAs, or municipally-owned recreation centers for use of facilities or programs.
**Estimate:** *Information Unavailable*

41. ***Cultural Organizations*, 68 O.S. § 1356**
The first $15,000 each year from sales by, or to, cultural organizations.
**Estimate(Sales Tax):** $164,000
**Data Source:** Tax Commission Records
**Reliability:** 2

42. ***Accredited Museums*, 68 O.S. § 1356**
Sales of property/services to museums or other entities accredited by the American Association of Museums, a/k/a the American Alliance of Museums.
**Estimate:** $69,000
**Data Source:** Nonprofit Entities
**Reliability:** 3

43. ***Non-Accredited Museums*, 68 O.S. § 1356**
Sales of tangible personal property/services to a museum that operates as part of an organization that is exempt from taxation pursuant to 26 U.S.C., § 501(c)(3) and is not accredited by the American Alliance of Museums. To qualify, the described entities must operate on an annual budget of less than $1 million.[9]
**Estimate:** $33,000
**Data Source:** Nonprofit Entities
**Reliability:** 3

44. ***Museum Admission Tickets*, 68 O.S. § 1356**
Sales of tickets for admission to museums accredited by the American Association of Museums, a/k/a the American Alliance of Museums.
**Estimate:** $412,000
**Data Source:** Nonprofit Entities
**Reliability:** 3

45. ***Children's Homes*, 68 O.S. § 1356**
Sales of property/services to children's homes that are supported by one or more churches whose members serve as trustees of the home.
**Estimate:** *Information Unavailable*

46. ***Disabled American Veterans*, 68 O.S. § 1356**
Sales of property/services to the organization known as Disabled American Veterans, Department of Oklahoma, Inc., and subordinate chapters thereof.
**Estimate:** *Information Unavailable*

47. ***Youth Camps*, 68 O.S. § 1356**
Sales of property/services to youth camps supported or sponsored by one or more churches whose members serve as trustees of the organization.
**Estimate:** *Information Unavailable*

[9] Effective November 1, 2021 through December 31, 2024.

48. ***University Hospitals Trust and Nonprofit Organization with Joint Operating Agreement with the University Hospitals Trust*, 68 O.S. § 1356**

Effective July 1, 2022, transfer of tangible personal property/services to, or by, the University Hospitals Trust created pursuant to 63 O.S. § 3224 along with the transfer of tangible personal property/services to, or by, nonprofit entities which are exempt from taxation pursuant to 26 U.S.C., § 501(c)(3) which have entered into a joint operating agreement with the University Hospitals Trust.

**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

49. ***Lease or Lease-Purchase Agreement*, 68 O.S. § 1356**

Sales of tangible personal property/services to a municipality, county or school district pursuant to a lease or lease-purchase agreement between the vendor and a municipality, county or school district.

**Estimate:** *Information Unavailable*

50. ***Spaceport Operations*, 68 O.S. § 1356**

A. Sales of tangible personal property/services to any spaceport user.

B. Sale, use, storage, consumption, or distribution in this state of:

(1) Any satellite or associated launch vehicle, including components, parts and motors, imported or caused to be imported into this state for the purpose of export by means of launching into space.

(2) Any space facility, space propulsion system or space vehicle, satellite, or station of any kind possessing space flight capacity, including components thereof.

(3) Tangible personal property placed on or used aboard any space facility, space propulsion system or space vehicle, satellite, or station possessing space flight capacity.

C. Sale, lease, use, storage, consumption, or distribution in this state of tangible personal property meeting the definition of "section 38 property" as defined in Section 48(a)(1)(A) and (B)(i) of the Internal Revenue Code of 1986, that is an integral part of and used primarily in support of space flight.

D. Purchase or lease of machinery and equipment for use at a fixed location in this state, which is used exclusively in the manufacturing, processing, compounding, or producing of any space facility, space propulsion system or space vehicle, satellite, or station of any kind possessing space flight capacity.

**Estimate:** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

51. ***Admission Tickets Surcharge*, 68 O.S. § 1356**

Amount of surcharge or any other amount that is separately stated on an admission ticket that is imposed, collected and used for the sole purpose of constructing, remodeling or enlarging facilities of a public trust having a municipality or county as its sole beneficiary.

**Estimate:** *Information Unavailable*

52. ***State Parks*, 68 O.S. § 1356**

Purchases of items used in or for the benefit of the state parks by a 501(c)(3) organization whose purpose is to support one or more state parks.

**Estimate:** *Information Unavailable*

53. ***Parking Privileges*, 68 O.S. § 1356**
Sale, lease, or use of parking privileges by an institution of the Oklahoma State System of Higher Education.
**Estimate:** $350,000
**Data Source:** Higher Education Sources
**Reliability:** 3

54. ***Campus Construction Projects*, 68 O.S. § 1356**
Sales of tangible personal property/services for use on campus construction projects for the benefit of institutions of the Oklahoma State System of Higher Education or private institutions of higher education accredited by the Oklahoma State Regents for Higher Education when such projects are financed by or through the use of § 501(c)(3) nonprofit entities that are exempt from taxation.
**Estimate:** *Information Unavailable*

55. ***School Construction Projects*, 68 O.S. § 1356**
Sales of tangible personal property/services for use on school construction projects for the benefit of any public school or school district when such projects are financed by or through § 501(c)(3) nonprofit entities exempt from taxation.
**Estimate:** *Information Unavailable*

56. ***National Championship Sports Event*, 68 O.S. § 1356**
Sales of tangible personal property/services by a nonprofit organization made in the course of conducting a national championship sports event, if a portion of the payment would qualify as the receipt of a qualified sponsorship payment.
**Estimate:** *Information Unavailable*

57. ***Education Related to Robotics*, 68 O.S. § 1356**
Sales of tangible personal property/services to, or by, nonprofit organizations affiliated with a comprehensive university within the Oklahoma State System of Higher Education providing education and teachers training relating to robotics.
**Estimate:** *Information Unavailable*

58. ***Youth Athletic Teams*, 68 O.S. § 1356**
The first $15,000 in sales of tangible personal property to, or by, youth athletic teams, that are part of an organization that is exempt from taxation pursuant to § 501(c)(4), that are made to raise money for the team.
**Estimate(Sales Tax):** Minimal
**Data Source:** Tax Commission Records
**Reliability:** 2

59. ***Championship Event Tickets*, 68 O.S. § 1356**
Sales of tickets to college athletic events at venues owned or operated by a municipality or a public trust, of which the municipality is the sole beneficiary, that are part of a tournament to determine regional or national championships at the college or university level.
**Estimate:** *Information Unavailable*

60. ***Oklahoma City National Memorial*, 68 O.S. § 1356**
Sales of tangible personal property/services to, or by, a nonprofit organization operating the OKC National Memorial and Museum.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

61. ***Veterans' Organizations*, 68 O.S. § 1356**
Sales of tangible personal property/services to nonprofit veterans' organizations that furnish support to area veterans' organizations to be used for the purpose of constructing a memorial or museum.
**Estimate:** *Information Unavailable*

62. ***Public Libraries*, 68 O.S. § 1356**
Sales of tangible personal property/services to nonprofit organizations that are expending monies received from a private foundation grant in conjunction with expenditures of local sales tax revenue to construct a local public library.
**Estimate(Sales Tax):** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

63. ***Bordering States*, 68 O.S. § 1356**
Sales of tangible personal property/services to bordering states or their political subdivisions, but only to the extent those states afford this state and its political subdivisions the same sales tax treatment.
**Estimate:** *Information Unavailable*

64. ***Career Technology Student Organization*, 68 O.S. § 1356**
Sales of tangible personal property/services to the Career Technology Student Organizations under the supervision of the Oklahoma Department of Career and Technology Education.
**Estimate(Sales Tax):** Minimal
**Data Source:** Industry Sources
**Reliability:** 3

65. ***Improvements or Expansions of Hospitals or Nursing Homes*, 68 O.S. § 1356**
Purchases made to improve or expand hospitals and nursing homes owned and operated by cities, towns, counties, or by public trusts having these units of political subdivision as their beneficiary, or to § 501(c)(3) organizations, or to the contractor or subcontractor with one of the above named entity types.
**Estimate(Sales Tax):** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

66. ***Specialized Facilities Serving Physically and Mentally Handicapped Persons,* 68 O.S. § 1356**

**Estimate:** *Information Unavailable*

67. ***Neighborhood Watch Organizations*, 68 O.S. § 1356**
The first $2,000 in yearly sales to, by, or for the benefit of the first 2,000 neighborhood watch organizations to apply that are working directly with law enforcement.
**Estimate(Sales Tax):** Minimal
**Data Source:** Tax Commission Records
**Reliability:** 2

68. ***Organization Providing Services During the Day to Homeless Persons*, 68 O.S. § 1356**

Sales of tangible personal property to a § 501(c)(3) organization organized primarily for the purpose of providing services to homeless persons during the day and located in a metropolitan area with a population in excess of 500,000 persons.

**Estimate:** $314,000
**Data Source:** Nonprofit Entities
**Reliability:** 3

69. ***Organization Providing Funding for the Preservation and Conservation of Wetlands and Habitat for Wild Ducks and Turkeys*, 68 O.S. § 1356**

Sales of tangible personal property/services to, or by, a § 501(c)(3) organization for events the principal purpose of which is to provide funding for the preservation of wetlands and habitat for wild ducks and wild turkeys.

**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

70. ***Organization That is Part of a Network of Autonomous Member Organizations,* 68 O.S. § 1356**

Sales of tangible personal property/services to a § 501(c)(3) organization that is part of a network of community-based, autonomous member organizations that meet the following criteria:

a. Serves people with workplace disadvantages/disabilities by providing job training/employment services, job placement, and post-employment support,
b. Has locations in the United States and at least 20 other countries,
c. Collects donated clothing and household goods to sell in retail stores and provides contract labor services to business and government, and
d. Provides documentation to the OTC that over 75% of its revenues are channeled into employment, job training and placement programs and other critical community services.

**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

71. ***Tickets to National Basketball Association and National Hockey League Games*, 68 O.S. § 1356**

Sales or gifts of tickets to National Basketball Association or National Hockey League Games.

**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

72. ***Admission to Professional Sporting Events*, 68 O.S. § 1356**

Admissions to professional sporting events involving ice hockey, baseball, basketball, football or arena football, or soccer.

**Estimate(Sales Tax):** $1,276,000
**Data Source:** Industry Sources
**Reliability:** 3

73. ***Tickets to an Annual Event Sponsored by an Educational and Charitable Organization of Women*, 68 O.S. § 1356**

Admissions to an annual event sponsored by an educational and charitable § 501(c)(3) organization of women that promotes volunteerism, developing the potential of women and improving the community through the effective action and leadership of trained volunteers.

**Estimate:** *Information Unavailable*

74. ***Community Mental Health Center*, 68 O.S. § 1356**
Sales of tangible personal property/services to any community mental health center as defined in 43A O.S. § 3-302.
**Estimate:** $61,000
**Data Source:** Nonprofit Entities
**Reliability:** 3

75. ***Community Health Charities Member Organizations*, 68 O.S. § 1356**
Sales of tangible personal property/services to an organization primarily engaged either in providing educational services and programs concerning health-related diseases and conditions to individuals suffering from such health-related diseases and conditions or their caregivers and family members or support to such individuals, or in health-related research as to such diseases and conditions, or both. Such organization must itself be a member of a tax-exempt organization that is primarily engaged in advancing the purposes of its member organizations through fundraising, public awareness or other efforts for the benefit of its member organizations. In order to qualify for the exemption, the member nonprofit organization shall be required to provide proof to the OTC of its membership status in the membership organization.
**Estimate:** *Information Unavailable*

76. ***National Volunteer Women's Service Organization*, 68 O.S. § 1356**
Sales of tangible personal property/services to, or by, an organization that is part of a national volunteer women's service organization dedicated to promoting patriotism, preserving American history and securing better education for children and which has at least 168,000 members in 3,000 chapters across the U.S.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

77. ***YMCA or YWCA*, 68 O.S. § 1356**
Sales of tangible personal property/services to, or by, a YMCA or YWCA organization.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

78. ***Veterans of Foreign Wars*, 68 O.S. § 1356**
Sales of tangible personal property/services to, or by, the Oklahoma chapters.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

Sales of tangible personal property to the exempt 501(c)(19) service organization known as Blue Star Mothers of America, Inc., which sends personal property to U.S. Military personnel overseas who are serving in a combat zone.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

85. ***Local Public or Private School Foundations*, 68 O.S. § 1356**
Sales of tangible personal property by, or to, nonprofit local public/private school foundations that solicit money or property in the name of any public/private school or public school district.
**Estimate:** *Information Unavailable*

86. ***Organizations Providing Funds for Medical Scholarships*, 68 O.S. § 1356**
Sales of food and snack items to, or by, a § 501(c)(3) organization whose primary purpose is providing funds for scholarships in the medical field.
**Estimate:** *Information Unavailable*

87. ***Construction Projects for Entities Providing End-Of-Life Care and Hospice Services*, 68 O.S. § 1356**
Sales of tangible personal property/services for use solely on construction projects for § 501(c)(3) organizations whose purpose is to provide end-of-life care and access to hospice services to low-income individuals who live in a facility owned by the organization. The measure extends the exemption to sales to any person, including contractors and subcontractors, with whom such organization has duly entered into a construction contract, necessary for carrying out such contract.
**Estimate:** *Information Unavailable*

88. ***Event Admissions Sales by Organizations Supporting General Hospitals*, 68 O.S. § 1356**
Sales of admission tickets to events held by § 501(c)(3) organizations that are organized for the purpose of supporting general hospitals licensed by the Oklahoma Department of Health.
**Estimate:** *Information Unavailable*

89. ***Nonprofit Foundation Raising Contributions in Support of Activities of the NRA and Similar Organizations*, 68 O.S. § 1356**
Sales of property to a nonprofit foundation that raises tax deductible contributions in support of a wide range of firearms related public interest activities of the National Rifle Association of America and other organizations that defend and foster the Second Amendment and sales of property to, or by, grassroots fundraising programs related to events to raise funds for the referenced foundation.
**Estimate:** *Information Unavailable*

90. ***Nonprofit Fundraising Events*, 68 O.S. § 1356**
Sales by a § 501(c)(3) organization or entity that are related to a fundraising event sponsored by the organization or entity when the event does not exceed any 5 consecutive days and when the sales are not in the organization's or entity's regular course of business. The provided exemption is limited to tickets sold for admittance to the fundraising event and items that were donated to the organization or entity for sale at the event.
**Estimate:** *Information Unavailable*

91. ***Collaborative Model Organizations Connecting Community Agencies to Serve Persons Affected by Violence*, 68 O.S. § 1356**
Sales of tangible personal property/services to a § 501(c)(3) organization that operates as a collaborative model which connects community agencies in one location to serve individuals and families affected by violence and where victims have access to services and advocacy at no cost to the victim.
**Estimate:** $112,000
**Data Source:** Nonprofit Entities
**Reliability:** 3

92. ***National Guard Association of Oklahoma* , 68 O.S. § 1356**
Sales of tangible personal property/services to or by a § 501(c)(19) association which is known as the National Guard Association of Oklahoma.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

93. ***Marine Corps League of Oklahoma*, 68 O.S. § 1356**
Sales of tangible personal property/services to or by a § 501(c)(4) association which is known as the Marine Corps League of Oklahoma.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

94. ***American Legion*, 68 O.S. § 1356**
Sales of tangible personal property/services to the American Legion, whether the purchase is made by the entity chartered by the U.S. Congress or is an entity organized under the laws of Oklahoma or another state pursuant to the authority of the national American Legion organization.
**Estimate**: Not shown to avoid disclosure of information about specific taxpayers.

95. ***Fab Lab Network Member*, 68 O.S. § 1356**

Sales of tangible personal property/services to, or by, a § 501(c)(3) organization that is an official member of the Fab Lab Network in compliance with the Fab Charter as verified by a letter from the MIT Fab Foundation and whose primary and principal purpose is to provide community access to advanced 21st century manufacturing and digital fabrication tools for science, technology, engineering, art and math (STEAM) learning skills, developing inventions, creating and sustaining businesses and producing personalized products.

**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

96. ***Nonprofit Organizations that Construct, Remodel and Sell Affordable Housing*, 68 O.S. § 1356**

Sales of tangible personal property/services used solely for construction and remodeling projects to a § 501(c)(3) organization that meets the following requirements:

a. Its primary purpose is to construct or remodel and sell affordable housing and provide homeownership education to residents of Oklahoma that have an income that is below 100% of the Family Median Income guidelines as defined by the U.S. Department of Housing and Urban Development,

b. Conducts its activities in a manner that serves public or charitable purposes, rather than commercial purposes,

c. Receives funding and revenue and charges fees in a manner that does not incentivize it or its employees to act other than in the best interest of its clients,

d. Compensates its employees in a manner that does not incentivize employees to act other than in the best interest of its clients.

**Estimate (Sales Tax):** $302,000
**Data Source:** Industry Sources
**Reliability:** 3

97. ***Nonprofit Organizations Restoring Single-Family Housing Following a Natural Disaster*, 68 O.S. § 1356**

a. Sales of tangible personal property/services to qualified non-profit organizations that provide repair, restoration, or construction of replacement single-family dwellings following a natural disaster. To be eligible, an entity must have expended at least 75% of its funds on the restoration to single-family housing following a disaster.

b. Sales of tangible personal property/services made on or after July 1, 2022, to a qualified nonprofit entity, the principal functions of which are to provide assistance to a natural person following a disaster,[10] with program emphasis on repair, restoration, or construction of replacement single-family dwellings. An entity operated exclusively for charitable and educational purposes through the coordination of volunteers for the disaster recovery of homes[11] that offers its services free of charge to disaster survivors statewide who are low income, with no or limited means of recovery on their own, for the restoration of single-family housing following a disaster, including related general and administrative expenses, will be eligible for the exemption.

**Estimate (Sales Tax):** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

[10] For purposes of the exemption, "disaster" is defined to mean damage to property with or without accompanying injury to persons from heavy rain, high winds, tornadic winds, drought, wildfire, snow, ice, geologic disturbances, explosions, chemical accidents or spills and other events, causing damage to property on a large scale.

[11] As derived from Part III, Statement of Program Services, of Internal Revenues Service Form 990.

98. ***Nonprofit Organizations that Provide Support to Veterans, Members of the Armed Forces, National Guard and Reservists*, 68 O.S. § 1356**

**Estimate**: *Information Unavailable*

99. ***Oklahoma Women Veterans Organization and Subchapters*, 68 O.S. § 1356**
Sales of tangible personal property/services to or by a veteran's organization, and its subchapters in Oklahoma, that is exempt from taxation pursuant to 26 U.S.C. §501(c)(19) and is known as the Oklahoma Women Veterans Organization.
**Estimate**: *Information Unavailable*

100. ***Transportation of School Pupils*, 68 O.S. § 1357**
Transportation of school pupils to and from elementary schools or high schools.
**Estimate(Sales Tax):** $0
**Data Source:** OU/OSU Group
**Reliability:** 3

101. ***Local Transportation*, 68 O.S. § 1357**
Transportation of persons where the fare does not exceed $1 or local transportation within the corporate limits of a municipality except by taxicabs.
**Estimate(Sales Tax):** $343,000
**Data Source:** Industry Sources
**Reliability:** 3

102. ***Sales for Resale*, 68 O.S. § 1357**
Sales for resale to persons engaged in the business of reselling the articles purchased and who have been issued sales tax permits by the OTC.
**Estimate(Sales Tax):** $9,275,528,000
**Estimate(Use Tax):** $3,673,000,000
**Data Source:** Tax Commission Records
**Reliability:** 1

103. ***Sales of Certain Types of Advertising*, 68 O.S. § 1357**
Sales of advertising space in newspapers, periodicals, programs relating to sporting and entertainment events, on billboards (including signage, posters, panels, marquees, or on other similar surfaces, whether indoors or outdoors), or programs relating to sporting and entertainment events, and sales of any advertising displayed at a sporting event by way of the Internet, electronic display devices, or through public address or broadcast systems, and any advertising via the Internet, electronic display devices, electronic media, including radio, public address or broadcast systems, television (whether through closed circuit broadcasting systems or otherwise), and cable and satellite television, and the servicing of any advertising devices.
**Estimate(Sales Tax):** $62,772,000
**Data Source:** OU/OSU Group
**Reliability:** 3

104. ***Terrestrial or Aquatic Animal Life Supplies*, 68 O.S. § 1357**
Eggs, feed, supplies, machinery and equipment purchased by persons regularly engaged in the business of raising worms, fish or insects.
**Estimate(Sales Tax):** Minimal
**Data Source:** OU/OSU Group
**Reliability:** 3

105. ***Utilities for Residential Use*, 68 O.S. § 1357**
Sale of natural or artificial gas and electricity sold exclusively for residential use.
**Estimate(Sales Tax):** $177,614,000
**Data Source:** OU/OSU Group
**Reliability:** 3

106. ***Drugs*, 68 O.S. § 1357**
Sales of drugs, except for over-the-counter drugs, prescribed for the treatment of human beings by a person licensed to prescribe the drugs and sales of insulin and medical oxygen.
**Estimate(Sales Tax):** $275,909,000
**Data Source:** Secondary Sources
**Reliability:** 3

107. ***Oil or Chemical Drums*, 68 O.S. § 1357**
Sales of returnable oil and chemical drums to any person not in the business of reselling returnable oil drums.
**Estimate:** *Information Unavailable*

108. ***Utensils Sold to Vendors*, 68 O.S. § 1357**
Sales of one-way utensils, paper napkins, cups and disposable containers to a vendor of meals or beverages.
**Estimate:** *Information Unavailable*[12]

109. ***Federal Food Stamp Program*, 68 O.S. § 1357**
Sales of food or food products for home consumption that are purchased in whole or in part with federal food stamp coupons.
**Estimate(Sales Tax):** $0[13]
**Data Source:** Tax Commission Records
**Reliability:** 1

110. ***Meals on Wheels*, 68 O.S. § 1357**
Sales of food, food products or equipment and supplies to, or by, nonprofit organizations commonly known as “Meals on Wheels” or “Mobile Meals”, or nonprofit entities that receive funding pursuant to the Older Americans Act of 1965, to provide nutrition programs for the care and benefit of elderly persons.
**Estimate:** *Information Unavailable*

[12] The specific amount related to this expenditure is unavailable, but is included as a part of the estimate provided for the Sales for Resale exemption outlined in number 102 of the Sales and Use Tax Section.
[13] In accordance with Oklahoma Sales Tax Reports, sales tax in the amount of $67,210,686.37 was exempted pursuant to the federal food stamp program but because federal law prohibits states from imposing sales tax on items purchased with food stamps a zero estimate is provided. 7 U.S.C. §2013(a).

111. ***Collection and Distribution of Food to the Needy*, 68 O.S. § 1357**
Sales to, or by, nonprofit § 501(c)(3) organizations that are primarily engaged in the collection and distribution of food and household products, and that facilitate the distribution of them to the needy.
**Estimate:** *Information Unavailable*

140. ***Qualifying Broadband Equipment by Providers of Internet Service, 68 O.S. § 1357***
Sales, lease, rental, storage, use or other consumption of qualifying broadband equipment[15] by internet service providers or subsidiaries if the property is directly used or consumed by the provider or subsidiary in or during the distribution of broadband Internet service. The exemption for qualified broadband equipment is to be administered as a rebate. No claim for rebate shall be approved unless the equipment was purchased in order to establish or expand broadband services in underserved or unserved areas[16] and that the claimant establishes that as a result of the equipment purchased there has been net growth in the number of potential customers served in underserved or unserved areas.
**Estimate:** $0[17]
**Data Source:** Tax Commission Records
**Reliability:** 1

[14] "Sales or leases" includes railroad car maintenance and retrofitting of railroad cars for further use only on the railways.
[15] Does not include supporting or ancillary functions, such as office or field operations, marketing, transportation, warehousing, data storage, or similar operations that do not directly result in the distribution of broadband Internet service nor does it include property directly used or consumed during the data processing service or information service, or property sold or leased to the customer for use within the location receiving broadband.
[16] For purposes of the exemption authorized by 68 O.S. §1357(43), "broadband," "underserved" and "unserved" shall mean those services and areas as defined in 17 O.S. §139.102.
[17] No impact to state sales and use tax revenues is projected until FY 25.

141. ***Drugs and Medical Devices*, 68 O.S. § 1357.6**
Sales of drugs for the treatment of human beings, medical appliances, devices or equipment when administered or distributed by an authorized practitioner or when purchased or leased by or on behalf of any individual for their use under a prescription or work order of an authorized practitioner and when the cost of such items is reimbursable under the Medicare or Medicaid Program. Sales of prosthetics, durable medical equipment and mobility-enhancing equipment when administered, distributed or prescribed by a practitioner, who is authorized by law to administer, distribute or prescribe such items.
**Estimate(Sales Tax):** $16,102,000
**Data Source:** OU/OSU Group
**Reliability:** 3

142. ***Horses*, 68 O.S. § 1357.7**
Sales of horses.
**Estimate(Sales Tax):** $1,767,000
**Data Source:** OU/OSU Group
**Reliability:** 3

143. ***Related Entities*, 68 O.S. § 1357.9**
Sales of services between related entities
**Estimate(Sales Tax):** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

144. ***Sales Tax Holiday*, 68 O.S. § 1357.10**
Sales of clothing or footwear designed to be worn on or about the body if the sales price is less than $100 and the sale takes place during the period beginning at 12:01 AM, the first Friday in August and ending at midnight on the following Sunday. The exemption includes sales taxes levied by state, cities, counties and authorities. The local taxes are reimbursed to cities and counties from other state sales tax revenues.
**Estimate(Sales Tax):** $8,531,000
**Data Source:** Tax Commission Records
**Reliability:** 2

145. ***Agricultural Sales*, 68 O.S. § 1358**
Sales of agricultural products sold directly at or from a farm; livestock; baby chicks; turkey poults and starter pullets used in commercial production; animal feed; items to be used in production of agricultural products; farm machinery; supplies, machinery and equipment to persons raising evergreen trees; sales to an agricultural permit holder or to any person the permit holder has contracted to construct livestock facilities.
**Estimate(Sales Tax):** $180,593,000
**Data Source:** Tax Commission Records
**Reliability:** 1

146. ***Sales to Manufacturers*, 68 O.S. § 1359**

a. Sales of property to a manufacturer for use in a manufacturing operation and sales made to any person making purchases pursuant to a contractual relationship for the construction and improvement of manufacturing goods, wares, merchandise, property, machinery and equipment for use in a manufacturing operation of a petroleum refinery.
b. Ethyl alcohol when sold and used for the purpose of blending with motor fuel.
c. Sales of containers.
d. Sales of returnable soft drink, beer and water containers.
e. Sales of property by a manufacturer for immediate exportation out of the state.
f. Machinery and supplies sold for use in reducing the harmful properties of hazardous waste.
g. Sales of property to a "qualified manufacturer."
h. Sales of property purchased and used by a licensed radio or television station in broadcasting.
i. Sales of property purchased and used by a licensed cable television operator in cable casting.
j. Sales of packaging materials.
k. Sales of any pattern used in the process of manufacturing iron, steel or other metal castings.
l. Deposits made and that are subsequently refunded for returnable containers used to transport cement.
m. Machinery, electricity, fuels, explosives, and materials used in the mining of coals.
n. Deposits made for returnable cartons, crates, pallets, and containers used to transport mushrooms from a farm for resale.
o. Sales of tangible personal property/services used or consumed in all phases of the extraction and manufacturing of crushed stone and sand.
p. Sale, use or consumption of paper stock and other raw materials that are manufactured into commercial printed material in this state primarily for use and delivery outside this state.
q. Sale of machinery and equipment, including, but not limited to servers and computer, racks power distribution units, cabling, switchgear, transformers, substations, software, network equipment, and electricity, used for commercial mining of digital assets in a colocation facility.[18]

**Estimate(Sales Tax):** $2,638,668,000
**Estimate(Use Tax):** $8,447,000
**Data Source:** OU/OSU Group
**Reliability:** 3

147. ***Sales to Corporations, Partnerships, or Limited Liability Companies and Sales/Transfers Between Wholly Owned Subsidiaries of a Parent Company and Between a Parent Company and its Wholly Owned Subsidiary*, 68 O.S. § 1360**

Sales between corporations, partnerships, or limited liability companies pursuant to a merger, reorganization, or dissolution and sales or transfers of tangible personal property between wholly owned subsidiaries of a parent company and between a parent company and its wholly owned subsidiarity.

**Estimate:** *Information Unavailable*

[18] Effective November 1, 2024.

148. ***Donations*, 68 O.S. § 1362**
Items that are withdrawn from inventory for donation to persons affected by the tornadoes for which a presidential disaster declaration was issued.
**Estimate:** *Information Unavailable*

149. ***Bad Debt Credit*, 68 O.S. § 1366**
Taxes paid on gross receipts subsequently determined to be worthless or uncollectible.
**Estimate(Sales Tax):** $1,124,000
**Data Source:** Tax Commission Records
**Reliability:** 1

150. ***Out-of-State Tax Credit*, 68 O.S. § 1404**
Taxes paid on an article of tangible personal property to another state by the person using such tangible personal property in this state.
**Estimate(Use Tax):** $1,539,000
**Data Source:** Tax Commission Records
**Reliability:** 1

151. ***Commercial Airlines or Railroads*, 68 O.S. § 1404**
Tangible personal property used, or to be used by, commercial airlines or railroads.
**Estimate:** *Information Unavailable*

152. ***Livestock Purchased Outside the State*, 68 O.S. § 1404**
Livestock purchased outside this state and brought into this state for feeding or breeding purposes, and that is later resold.
**Estimate(Use Tax):** $86,527,000
**Data Source:** OU/OSU Group
**Reliability:** 3

153. ***Rail Transportation Cars*, 68 O.S. § 1404**
Leases of rail transportation cars used to transport coal to plants in this state that generate electricity.
**Estimate:** *Information Unavailable*

154. ***Bad Debt Credit*, 68 O.S. § 1407.1**
Use taxes paid on gross receipts pursuant to 68 O.S. §§ 1406 and 1407 and subsequently determined to be worthless or uncollectible.
**Estimate(Use Tax):** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

155. ***Oklahoma Administrative Code*, 75 O.S. § 256**
Sale or resale of the "Oklahoma Administrative Code" by Secretary of State.
**Estimate(Sales Tax):** Minimal
**Data Source:** Oklahoma Secretary of State's Office
**Reliability:** 3

156. ***Irrigation Districts*, 82 O.S. § 277.17**
All purchases or use of tangible personal property by irrigation districts.
**Estimate(Sales Tax):** $65,000
**Estimate(Use Tax):** *Information Unavailable*
**Data Source:** OU/OSU Group
**Reliability:** 3

157. ***Conservancy Districts*, 82 O.S. § 688.1**
All purchases of property by conservancy districts and master conservancy districts.
**Estimate:** *Information Unavailable*

158. ***Regional Water Districts*, 82 O.S. § 1274**
All purchases of property by regional water districts.
**Estimate:** *Information Unavailable*

159. ***Rural Water, Sewer, Gas and Solid Waste Management Districts*, 82 O.S. § 1324.22**
All purchases of property by rural water, sewer, gas and solid waste management districts.
**Estimate:** *Information Unavailable*

# IV. AD VALOREM TAX

Ad valorem tax is a local revenue source and, as such, state revenues are not affected by the imposition of exclusions, exemptions, deductions, credits, deferrals or other preferential tax treatment for purposes of ad valorem taxation. Therefore, a review of ad valorem tax expenditures is omitted from this report.

# V. MOTOR VEHICLE REGISTRATION FEES

1. ***Abandoned Vehicles Auctioned by Class AA Wreckers,* 42 O.S. § 91.1**
Abandoned vehicles auctioned by Class AA wrecker services upon which prior years fees are exempted.
**Estimate:** Minimal
**Data Source:** Service Oklahoma
**Reliability:** 3

2. ***Fire Department Vehicles*, 47 O.S. § 1113**
Vehicles owned and operated by a charitable corporation that provides a volunteer or full-time fire department.
**Estimate:** $7,000
**Data Source:** Service Oklahoma
**Reliability:** 3

3. ***Donated Vehicles,* 47 O.S. § 1115**
Vehicles donated to nonprofit charitable organizations.
**Estimate:** Minimal
**Data Source:** Service Oklahoma
**Reliability:** 3

4. ***Military Personnel Vehicles,* 47 O.S. § 1127**
Vehicles owned by qualifying service members (or spouse) of the U.S. Armed Forces who are either residents of, or stationed in, Oklahoma.
**Estimate:** $1,473,000
**Data Source:** Service Oklahoma
**Reliability:** 3

5. ***Special Mobilized Machinery,* 47 O.S. § 1129**
Special purpose machines that derive no revenue from the transportation of persons or property and whose useful revenue-producing service is performed at destinations away from public highways.
**Estimate:** $3,034,000
**Data Source:** Service Oklahoma
**Reliability:** 3

6. ***Vehicle Replacement Credit,* 47 O.S. § 1132**
Credit allowed towards the registration fee of a new vehicle that is a replacement for a stolen or defective new original vehicle.
**Estimate:** Minimal
**Data Source:** Service Oklahoma
**Reliability:** 3

7. ***Destroyed Vehicles,* 47 O.S. § 1132.3**
A credit towards the registration fee due on a vehicle that is a replacement for a vehicle destroyed by tornado and eligible for a registration fee credit.
**Estimate:** Minimal
**Data Source:** Service Oklahoma
**Reliability:** 3

8. ***Farm Vehicles,* 47 O.S. § 1134**
Pickup, truck or truck-tractor owned and operated by a farmer and used primarily for farm use.
**Estimate:** $3,879,000
**Data Source:** Service Oklahoma
**Reliability:** 3

9. ***Taxicabs and Privately Owned School Buses,* 47 O.S. § 1134.1**
Special registration fees for taxicabs and privately-owned school buses used for transporting school children.
**Estimate:** $19,000
**Data Source:** Service Oklahoma
**Reliability:** 3

10. ***Forestry Vehicles,* 47 O.S. § 1134.2**
Vehicles used for transporting unfinished forest products from point of harvest to the point of first processing.
**Estimate:** $272,000
**Data Source:** Service Oklahoma
**Reliability:** 3

11. ***Political Subdivision Vehicles,* 47 O.S. § 1135.1**
Vehicles owned by a political subdivision of this state.
**Estimate:** $327,000
**Data Source:** Service Oklahoma
**Reliability:** 3

12. ***Vehicles Owned by a Religious Corporation or Society*, 47 O.S. § 1135.1**
Motor bus, manufactured home, or mobile chapel and power unit owned and operated by a religious corporation or society.
**Estimate:** $171,000
**Data Source:** Service Oklahoma
**Reliability:** 3

13. ***Youth Program Vehicles,* 47 O.S. § 1135.1**
Vehicles owned or operated by nonprofit organizations devoted exclusively to youth groups.
**Estimate:** $83,000
**Data Source:** Service Oklahoma
**Reliability:** 3

14. ***Employment of the Handicapped,* 47 O.S. § 1135.1**
Vehicles owned or operated by nonprofit organizations actually involved in programs for the employment of the handicapped.
**Estimate:** $15,000
**Data Source:** Service Oklahoma
**Reliability:** 3

15. ***Transportation for Older Persons,* 47 O.S. § 1135.1**
Vehicles owned and operated by nonprofit organizations that provide older persons transportation to and from medical, dental and religious services and relief from business and social isolation.
**Estimate:** $114,000
**Data Source:** Service Oklahoma
**Reliability:** 3

16. ***Transportation of Surplus Food,* 47 O.S. § 1135.1**
Vehicles owned and operated by private nonprofit organizations used for the transportation of surplus foods.
**Estimate:** $10,000
**Data Source:** Service Oklahoma
**Reliability:** 3

17. ***Civil Air Patrol*, 47 O.S. § 1135.1**
Vehicles owned or operated by the Civil Air Patrol, a congressionally chartered corporation that also serves as an auxiliary of the United States Air Force.
**Estimate:** $0
**Data Source:** Service Oklahoma
**Reliability:** 3

18. ***Fraternal or Civic Service Organization Vehicles,* 47 O.S. § 1135.1**
Any vehicle owned by a fraternal or civic service organization with at least 100 local chapters or clubs, and used to provide mobile health screening services to the general public at no cost to the recipient.
**Estimate:** *Information Unavailable*

19. ***Physically Disabled Vehicles,* 47 O.S. § 1135.1**
Vehicles that have been modified because of the physical disability of the owner or of a family member within the second degree of consanguinity of the owner.
**Estimate:** $97,000
**Data Source:** Service Oklahoma
**Reliability:** 3

20. ***Indian Tribal Vehicles,* 47 O.S. § 1135.1**
Vehicles owned by a Native American Indian Tribal Association and used for the furtherance of its tribal functions.
**Estimate:** $204,000
**Data Source:** Service Oklahoma
**Reliability:** 3

21. ***Antique or Classic Vehicles,* 47 O.S. § 1135.1**
Vehicles 25 years of age or older that travel on the highways for historical or exhibition purposes only.
**Estimate:** $56,000
**Data Source:** Service Oklahoma
**Reliability:** 3

22. ***Prisoner of War Vehicles,* 47 O.S. § 1135.2**
Vehicles owned by members of the U.S. Armed Forces or civilians who were former prisoners of war held by a foreign country.
**Estimate:** $3,000
**Data Source:** Service Oklahoma
**Reliability:** 3

23. ***Congressional Medal of Honor Recipient Vehicles,* 47 O.S. § 1135.2**
Vehicles owned by residents of this state who have been awarded the Congressional Medal of Honor.
**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.

24. ***Killed in Action Vehicles,* 47 O.S. § 1135.2**
Vehicles owned by the spouse of a member of the U.S. Armed Forces who was killed in action.
**Estimate:** $1,000
**Data Source:** Service Oklahoma
**Reliability:** 3

25. ***Gold Star Parents' Vehicles,* 47 O.S. § 1135.2**
Vehicles owned by parents of a member of the U.S. Armed Forces who was killed during a war.
**Estimate:** $11,000
**Data Source:** Service Oklahoma
**Reliability:** 3

26. ***Disabled Veterans' Vehicles,* 47 O.S. § 1135.2**
Vehicles owned by veterans of the U.S. Armed Forces that have a service-connected disability rating of 50% or more.
**Estimate:** $6,281,000
**Data Source:** Service Oklahoma
**Reliability:** 3

27. ***Former Military Vehicles,* 47 O.S. § 1136.2**
Former military vehicles used only for exhibitions, club activities, parades, and other functions of public interest and not used for regular transportation.
**Estimate:** $1,000
**Data Source:** Service Oklahoma
**Reliability:** 3

28. ***Rural Water or Sewer District Vehicles,* 68 O.S. § 2903**
Vehicles owned by any rural water or sewer district.
**Estimate:** $33,000
**Data Source:** Service Oklahoma
**Reliability:** 3

29. ***Conservancy District Vehicles,* 82 O.S. § 688.1**
Vehicles owned by conservancy districts and master conservancy districts.
**Estimate:** $1,000
**Data Source:** Service Oklahoma
**Reliability:** 3

# VI. MOTOR VEHICLE EXCISE TAX

1. ***Donated Vehicles,* 47 O.S. §1115**
   Vehicles donated to nonprofit charitable organizations.
   **Estimate:** *Information Unavailable*

2. ***International Registration Plan (IRP) Motor Vehicle Excise Tax,* 68 O.S. § 2103**
   An excise tax rate of $10 is applicable to trucks or truck-tractors titled with the state under the IRP and registered for a laden weight or combined laden weight of 50,000 pounds or more.
   **Estimate:** $10,310,000
   **Data Source:** Service Oklahoma
   **Reliability:** 3

3. ***Marital and Parental Transfers,* 68 O.S. § 2103**
   Transfers of a motor vehicle without consideration between a husband and wife, or parent and child.
   **Estimate:** $28,884,000
   **Data Source:** Service Oklahoma
   **Reliability:** 3

4. ***Transfers to a Trust,* 68 O.S. § 2103**
   Transfers of a motor vehicle without consideration between an individual and an express trust with right of revocation.
   **Estimate:** $3,968,000
   **Data Source:** Service Oklahoma
   **Reliability:** 3

5. ***Replacement Vehicles,* 68 O.S. § 2103**
   Credit allowed with respect to excise tax paid for a new vehicle that is a replacement for a stolen or defective new original vehicle.
   **Estimate:** Minimal
   **Data Source:** Service Oklahoma
   **Reliability:** 3

6. ***Destroyed Vehicles*, 68 O.S. § 2103.1**
   A credit towards the excise tax due on a vehicle that is a replacement for a vehicle destroyed by tornado and eligible for an excise tax credit.
   **Estimate:** Minimal
   **Data Source:** Service Oklahoma
   **Reliability:** 3

7. ***Nonresident Person,* 68 O.S. § 2105**
   Vehicle owned by a nonresident person who operates principally in some other state, but who is in Oklahoma only occasionally.
   **Estimate:** Minimal
   **Data Source:** Service Oklahoma
   **Reliability:** 3

8. ***New Resident,* 68 O.S. § 2105**
Vehicle brought into this state by a person formerly living in another state, who has owned and registered the vehicle in such other state at least 60 days prior to being subject to registration in this state.
**Estimate:** $25,301,000
**Data Source:** Service Oklahoma
**Reliability:** 3

9. ***Political Subdivision Vehicles,* 68 O.S. § 2105**
Vehicles registered or leased by the state, political subdivisions of the state, or certain fire departments.
**Estimate:** $5,389,000
**Data Source:** Service Oklahoma
**Reliability:** 3

10. ***Inherited Vehicles,* 68 O.S. § 2105**
Vehicles, the legal ownership of which was obtained by the owner through inheritance.
**Estimate:** $6,287,000
**Data Source:** Service Oklahoma
**Reliability:** 3

11. ***Used Motor Vehicle Dealers,* 68 O.S. § 2105**
Vehicles that are owned and being offered for sale by a licensed used motor vehicle dealer.
**Estimate:** $82,971,000
**Data Source:** Service Oklahoma
**Reliability:** 3

12. ***Out-of-State Motor Vehicle Dealers,* 68 O.S. § 2105**
Vehicles purchased by a dealer licensed in another state for use or resale in another state.
**Estimate:** Minimal
**Data Source:** Service Oklahoma
**Reliability:** 3

13. ***Foreclosure Vehicles,* 68 O.S. § 2105**
Vehicles, the ownership of which was obtained by the lienholder or mortgagee under, or by, a foreclosure of a lien or mortgage.
**Estimate:** $21,807,000
**Data Source:** Service Oklahoma
**Reliability:** 3

14. ***Vehicles Taxed Under Ad Valorem Tax Code,* 68 O.S. § 2105**
Vehicles that are taxed under the Ad Valorem Tax Code.
**Estimate:** $602,000
**Data Source:** Service Oklahoma
**Reliability:** 3

15. ***Corporate, Partnership, or Limited Liability Company Vehicles,* 68 O.S. § 2105**
Vehicles transferred pursuant to the formation or dissolution of a corporation, partnership, or limited liability company.
**Estimate:** $1,227,000
**Data Source:** Service Oklahoma
**Reliability:** 3

16. ***Rental Vehicles,* 68 O.S. § 2105**
Vehicles purchased by a person to be used by a business engaged in renting motor vehicles without a driver.
**Estimate:** $15,912,000
**Data Source:** Service Oklahoma
**Reliability:** 3

17. ***New Motor Vehicle Dealer,* 68 O.S. § 2105**
Vehicles of the latest manufactured model transferred to a licensed, franchised new motor vehicle dealer.
**Estimate:** $3,084,000
**Data Source:** Service Oklahoma
**Reliability:** 3

18. ***Lease Vehicle,* 68 O.S. § 2105**
A leased vehicle transferred to the lessee.
**Estimate:** $841,000
**Data Source:** Service Oklahoma
**Reliability:** 3

19. ***Fraternal or Civic Service Organization,* 68 O.S. § 2105**
Any vehicle owned by a fraternal or civic service organization with at least 100 local chapters or clubs and used to provide mobile health screening services to the general public at no cost to the recipient.
**Estimate:** Minimal
**Data Source:** Service Oklahoma
**Reliability:** 3

20. ***New Dealer Temporary Registration,* 68 O.S. § 2105**
Any new vehicle registered and authorized by the manufacturer or dealer for an individual's personal use, not to exceed 4 months.
**Estimate:** $3,378,000
**Data Source:** Service Oklahoma
**Reliability:** 3

21. ***100% Disabled Veteran,* 68 O.S. § 2105**
Vehicles purchased by disabled veterans with 100% service connected disability.
**Estimate:** $4,739,000
**Data Source:** Service Oklahoma
**Reliability:** 3

22. ***Irrigation District Vehicles,* 82 O.S. §§ 277.17 and 688.1**

Vehicles purchased by irrigation districts, conservancy districts, and master conservancy districts and used in this state.

**Estimate:** Not shown to avoid disclosure of information about specific taxpayers.
**Data Source:** Service Oklahoma
**Reliability:** 3

23. ***Non-IRP Heavy Weight Commercial Trucks and All Cargo-Carrying Commercial Trailers,* 68 O.S. § 2103**

An excise tax rate of $10 applicable to commercial (non-IRP) trucks or truck-tractors registered at a laden weight or combined laden weight of 50,000 pounds or more and all cargo-carrying commercial trailers.

**Estimate:** $39,137,000
**Data Source:** Service Oklahoma
**Reliability:** 3

24. ***Return of Repossessed Vehicle Within 30 Days,* 68 O.S. § 2105**

Vehicles repossessed and then transferred back to the former owner within 30 days of issuance of the repossession title.

**Estimate:** $62,000
**Data Source:** Service Oklahoma
**Reliability:** 3

# VII. MOTOR FUEL TAXES

Motor fuel tax being inclusive of gasoline excise tax and diesel fuel tax is levied upon the sale of such products in Oklahoma. Gasoline and diesel fuel sold to, or consumed by certain entities may be exempt or subject to credits as provided for by statute.

1. ***Fuel for Exportation*, 68 O.S. § 500.10**
   Sale of gasoline or diesel to be exported out of this state by a licensed supplier or licensed exporter.
   **Estimate:** *Information Unavailable*

2. ***Diverted Fuel*, 68 O.S. § 500.10**
   Credit for gasoline or diesel taxes previously paid on motor fuel that was approved for diversion across state boundaries.
   **Estimate:** *Information Unavailable*

3. ***Fuel Exported by Tank Wagon*, 68 O.S. § 500.10**
   Gasoline or diesel exported out of a bulk plant in this state in a tank wagon.
   **Estimate:** *Information Unavailable*

4. ***K-1 Kerosene*, 68 O.S. § 500.10**
   K-1 kerosene sold at retail for use other than for highway use.
   **Estimate:** *Information Unavailable*

5. ***Sales to Federal Government*, 68 O.S. § 500.10**
   Sales of gasoline or diesel fuel to the United States of America.
   **Estimate(Gasoline Tax):** $0[19]
   **Estimate(Diesel Tax):** $0

6. ***Fuel Used for the Transportation of School Children*, 68 O.S. § 500.10**
   Fuel sold for use solely in FFA and 4-H Club trucks and vehicles and school buses operated by public school districts.
   **Estimate:** *Information Unavailable*

7. ***Fuel Used by Exempt Entities*, 68 O.S. § 500.10**
   Fuel sold for use in motor vehicles owned and operated by counties, cities, towns, volunteer fire departments, rural electric cooperatives, rural water and sewer districts, rural ambulance service districts, or federally-recognized Indian tribes.
   **Estimate:** *Information Unavailable*

8. ***Fuel Used for Agricultural Purposes*, 68 O.S. § 500.10**
   Sales to persons actually engaged in farming for use in farm tractors or stationary engines.
   **Estimate:** $151,000
   **Data Source:** Tax Commission Records
   **Reliability:** 1

[19] All expenditures involving the United States are given an estimate of zero. This estimate is provided since the State cannot levy a tax upon the federal government under the decision of the U.S. Supreme Court.

9. ***Fuel Sold within Indian Country*, 68 O.S. § 500.10**
Motor fuel sold within an Indian Reservation or within Indian Country by a federally-recognized tribe to a member of that tribe and used in motor vehicles owned by that tribal member.
**Estimate:** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

10. ***Diesel Fuel Used to Run Equipment*, 68 O.S. § 500.10**
The portion of diesel fuel used to operate equipment attached to a motor vehicle or consumed in a vehicle off-road.
**Estimate:** $1,127,000
**Data Source:** Tax Commission Records
**Reliability:** 1

11. ***Fuel Purchased Out of State*, 68 O.S. § 500.10**
Gasoline or diesel acquired outside the state in a motor vehicle and consumed in this state in the same vehicle.
**Estimate:** *Information Unavailable*

12. ***Diesel Fuel Used for Certain Purposes*, 68 O.S. § 500.10**
Diesel fuel used as heating oil, in railroad locomotives, or any other motorized, flanged-wheel rail equipment, or used for other non-highway purposes.
**Estimate:** $4,110,000
**Data Source:** Tax Commission Records
**Reliability:** 1

13. ***Lost or Destroyed Fuel*, 68 O.S. § 500.10**
Motor fuel lost or destroyed as a direct result of a sudden and unexpected casualty.
**Estimate:** *Information Unavailable*

14. ***Contaminated Diesel*, 68 O.S. § 500.10**
Credit for taxes paid on diesel fuel which has been accidentally contaminated by dye.
**Estimate:** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

15. ***Diesel Fuel That Has Been Dyed Under Federal Regulations for Off-Road Use*, 68 O.S. § 500.10**
Dyed diesel fuel.
**Estimate:** $76,810,000
**Data Source:** Tax Commission Records
**Reliability:** 1

16. ***Aircraft Fuel*, 68 O.S. § 500.10**
Gasoline, diesel and kerosene sold for use as fuel to generate power in aircraft engines.
**Estimate:** $54,000
**Data Source:** Tax Commission Records
**Reliability:** 1

17. ***Oklahoma Space Industry Development Authority*, 68 O.S. § 500.10**
Motor fuel sold to the Oklahoma Space Industry Development Authority or any spaceport user.
**Estimate:** *Information Unavailable*

18. ***Biofuels*, 68 O.S. § 500.10**
Biofuels or biodiesel produced by an individual with crops grown on property owned by that person for use in his or her vehicle on the public roads and highways.
**Estimate:** *Information Unavailable*

# VIII. FRANCHISE TAX

Oklahoma levies an annual franchise tax on all corporations that do business in Oklahoma.[20] Corporations[21] are taxed $1.25 for each $1,000 of capital invested or used in Oklahoma. Foreign corporations are additionally assessed $100 per year, payable to the OTC, for the Secretary of State acting as it's registered agent. The maximum annual tax is $20,000, and entities that have a calculated franchise tax of $250 or less are not required to remit the tax. Further, several types of entities are specifically exempt from franchise tax as outlined below. Data limitations do not allow for an estimate of the effect of the $20,000 maximum or exempted entities.

1. ***Maximum Tax of $20,000,* 68 O.S. § 1205**
   All capital employed that imposes a liability in excess of $20,000 is exempt.
   **Estimate:** *Information Unavailable*

2. ***Corporations Owing Tax of $250 or Less,* 68 O.S. § 1205**
   All capital employed that imposes a liability in the amount of $250 or less in tax is exempt.
   **Estimate:** $1,227,000 / 17,792 Returns
   **Data Source:** Tax Commission Records
   **Reliability:** 2

3. ***Export Trading Companies,* 74 O.S. § 2106**
   An export trading company, with a registered office or other office in this state, is exempt from state corporate income tax and franchise tax for a period of two years from the date the OTC certifies the export trading company as a qualified export trading company.
   **Estimate:** *Information Unavailable*

4. ***Oklahoma Center for the Advancement of Science and Technology,* 74 O.S. § 5060.9**
   OCAST is exempt from all franchise, corporate business and income taxes levied by the state of Oklahoma.
   **Estimate:** *Information Unavailable*

5. ***Oklahoma Development Finance Authority,* 74 O.S. § 5062.14**
   ODFA is exempt from all franchise, corporate, business and other taxes of any nature levied by the state of Oklahoma.
   **Estimate:** *Information Unavailable*

6. ***Exempt Corporations and Organizations,* 68 O.S. § 1206**
   This provision exempts certain organizations from Oklahoma franchise tax.
   **Estimate:** *Information Unavailable*

[20] Oklahoma franchise tax has been repealed, beginning with tax year 2024.
[21] Limited liability companies, as defined by 18 O.S. § 2001 are not subject to Oklahoma franchise tax.

# IX. GROSS PRODUCTION AND PETROLEUM EXCISE TAX

1. ***New Well Incentive (Reduced Rate @ 5%),* 68 O.S. § 1001**
The production of oil and gas is taxed at a rate of 5%, commencing with the month of first production for a period of 36 months.
**Estimate(Gross Production):** $178,933,000
**Estimate(Petroleum Excise):** $0
**Data Source:** Gross Production Tax Reports
**Reliability:** 1

2. ***Lease Interest Exemptions*, 68 O.S. §§ 1008 and 1106**
The portion of royalty interest exempt from gross production and petroleum excise tax attributable to the minerals owned by cities, counties, school districts, Indian tribes, and state or federal government.
**Estimate(Gross Production):** $13,752,000
**Estimate(Petroleum Excise):** $204,000
**Data Source:** Gross Production Tax Reports
**Reliability:** 1

3. ***Gas Marketing Deduction*, 68 O.S. §§ 1001.4, 1101 and 1102**
A deduction on the levy of gross production and petroleum excise tax for certain non-production related costs associated with the marketing and transportation of natural gas.
**Estimate(Gross Production):** $165,125,000
**Estimate(Petroleum Excise):** $2,491,000
**Data Source:** Gross Production Tax Reports
**Reliability:** 1

4. ***Economically At-Risk Oil or Gas Lease*, 68 O.S. § 1011.3a**
Exemption from gross production tax for production from an economically at-risk oil or gas lease.[22]
**Estimate(Gross Production):** $0
**Estimate(Petroleum Excise):** $0
**Data Source:** Gross Production Tax Reports
**Reliability:** 1

5. ***Secondary and Tertiary Recovery Projects,* 68 O.S. § 1001**
Exemption from gross production tax for production which results from secondary and tertiary recovery projects.[22]
**Estimate(Gross Production):** $0
**Estimate(Petroleum Excise):** $0
**Data Source:** Gross Production Tax Reports
**Reliability:** 1

6. ***Wells Drilled With the Use of Recycled Water,* 68 O.S. § 1001**
Exemption from gross production tax for production from wells completed with the use of recycled water.[22]
**Estimate(Gross Production):** $0
**Estimate(Petroleum Excise):** $0
**Data Source:** Gross Production Tax Reports
**Reliability:** 1

[22] Effective July 1, 2022. No refunds paid out in FY 2024.

# X. MISCELLANEOUS TAX PROVISIONS

## A. AIRCRAFT REGISTRATION FEES

Aircraft operated on or from any Oklahoma airport for 30 days or longer must be registered in this state and the applicable registration fees paid thereon. Aircraft licensed by a foreign country, owned by governmental and certain other groups, and those not currently airworthy are exempt from the referenced registration requirements. Aggregate data to estimate these tax expenditures is not presently available.

1. ***Aircraft Owned by the Manufacturer,* 3 O.S. § 253**
   Aircraft manufactured under a FAA approved certificate that are owned and in the possession of the manufacturer.

2. ***Aircraft Owned by Charitable Organizations,* 3 O.S. § 253**
   Aircraft owned by charitable organizations and used solely for the furtherance of charitable purposes.

3. ***Aircraft Owned by Nonresidents,* 3 O.S. § 253**
   Aircraft belonging to nonresidents of this state and registered in another state.

4. ***Aircraft of the Federal Government and State Government,* 3 O.S. § 253**
   Aircraft of the federal government, any state government, and any aircraft of the Civil Air Patrol.

5. ***Aircraft of a Foreign Country,* 3 O.S. § 253**
   Aircraft licensed by a foreign country with which the United States has a reciprocal agreement covering the operation of such licensed aircraft.

6. ***Aircraft Which Are Not Airworthy,* 3 O.S. § 253**
   Aircraft not currently licensed or holding a current airworthiness certificate by the FAA.

## B. AIRCRAFT EXCISE TAX

Aircraft excise tax is levied upon the transfer of legal ownership or use within Oklahoma of each aircraft that is to be registered with the FAA at a rate of 3.25% of the purchase price of such aircraft. Specific transactions are exempted from the imposition of aircraft excise tax including aircraft with a selling price in excess of $2.5 million, certain special purpose aircraft and aircraft transfers made without consideration to an express trust. Aggregate data to estimate these tax expenditures is not presently available.

1. ***Aircraft Owned by the Manufacturer*, 68 O.S. § 6003**
   Aircraft manufactured under a FAA approved certificate that are owned and in the possession of the manufacturer.

2. ***Aircraft Owned by Dealers*, 68 O.S. § 6003**
   Aircraft owned by a licensed dealer and in the dealer's inventory.

3. ***Aircraft of the Federal Government and State Governments*, 68 O.S. § 6003**
   Aircraft belonging to the federal government or any state government.

4. ***Corporate, Partnership or Limited Liability Company Aircraft*, 68 O.S. § 6003**
Aircraft transferred pursuant to the formation, reorganization or dissolution of a corporation, partnership, or limited liability.

5. ***Aircraft Owned by Commercial Airlines*, 68 O.S. § 6003**
Aircraft purchased or used by commercial airlines.

6. ***Aircraft upon Which an Out-Of-State Tax Has Been Paid*, 68 O.S. § 6003**
Aircraft on which a tax levied pursuant to the provisions of the laws of another state, equal to or in excess of the aircraft excise tax, has been paid by the person using the aircraft in this state.

7. ***Aircraft Acquired by Inheritance*, 68 O.S. § 6003**
Aircraft when the legal ownership of such aircraft is obtained by the applicant for a certificate of title by inheritance.

8. ***Aircraft Obtained through Foreclosure Proceedings*, 68 O.S. § 6003**
Aircraft obtained by the lienholder or mortgagee under or by foreclosure of a lien or mortgage.

9. ***Aircraft Transferred within the Family*, 68 O.S. § 6003**
Aircraft transferred between husband and wife, or parent and child, where no valuable consideration is given.

10. ***Aircraft Used for Agricultural Purposes*, 68 O.S. § 6003**
Aircraft purchased by a resident of this state and used exclusively in this state for agricultural spraying purposes.

11. ***Aircraft Sold for More Than $2,500,000*, 68 O.S. § 6003**
Aircraft with a selling price in excess of $2.5 million that are transferred to a purchaser who is not a resident of this state for immediate transfer out of state.

12. ***Trust Transfers*, 68 O.S. § 6003**
Aircraft transferred without consideration between an individual and an express trust.

## C. USED TIRE RECYCLING FEES

A used tire recycling fee is assessed on sales of motor vehicle tires and tires associated with the first registration of motor vehicles and trailers and semitrailers first titled in the state. Exemptions from the imposition of the used tire recycling fee exist for used or retread tires upon which the used tire fee was previously paid and all-terrain and off-road motorcycles. Exemptions are reported in the aggregate, and therefore, estimates are unavailable.

1. ***Recycling Fee Previously Paid,* 27A O.S. § 2-11-401.2**
Purchases of used or retreaded tires, provided that the tire dealer can document that the recycling fee has been previously paid.

2. ***All-terrain Vehicles and Off-road Motorcycles,* 27A O.S. § 2-11-401.2**
All-terrain vehicles and off-road motorcycles registered pursuant to 47 O.S. § 1132.

## D. ALCOHOLIC BEVERAGE TAX

1. ***Beer Manufactured for Export,* 37A O.S. § 5-101**
Beer manufactured for export.
**Estimate:** *Information Unavailable*

2. ***Industrial Use Alcohol*, 37A O.S. § 5-103**
Alcohol used exclusively for industrial purposes by the holder of an industrial license.
**Estimate:** *Information Unavailable*

3. ***U.S. Tax-Free Permit*, 37A O.S. § 5-103**
Alcohol lawfully withdrawn and used free of tax under a tax-free permit issued by the United States.
**Estimate:** *Information Unavailable*

4. ***Licensed Physicians and Dentists*, 37A O.S. § 5-103**
Alcohol used exclusively by licensed physicians, dentists, and pharmacists in the practice of their professions.
**Estimate:** *Information Unavailable*

5. ***Beer, Cider and Wine Made for Personal Use*, 37A O.S. § 5-103**
Beer, cider and wine made for personal use by a person licensed by the ABLE Commission.
**Estimate:** *Information Unavailable*

6. ***Sacramental Wine*, 37A O.S. § 5-103**
Wine used exclusively for sacramental purposes in bona fide religious ceremonies.
**Estimate:** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

7. ***Imported Alcoholic Beverages*, 37A O.S. § 5-103**
Alcoholic beverages, not exceeding one liter, imported into this state by the possessor for his/her personal use.
**Estimate:** *Information Unavailable*

8. ***Charitable events licensed and approved by the ABLE Commission,* 37A O.S. § 5-103**
Alcoholic beverages provided to attendees, free of charge, at charitable events licensed and approved by the ABLE Commission.
**Estimate:** *Information Unavailable*

9. ***Licensed Caterer*, 37A O.S. § 5-103**
Mixed beverage and public event licensees which utilize the services of a licensed caterer.
**Estimate:** *Information Unavailable*

## E. CIGARETTE STAMP TAX

***Veterans' Hospitals*, 68 O.S. § 321**
Cigarettes sold to veterans' hospitals and state-operated domiciliary homes for veterans.
**Estimate:** $5,000
**Data Source:** Cigarette Wholesaler Tax Reports
**Reliability:** 1

## F. TOBACCO PRODUCTS TAX

***Veterans' Hospitals,* 68 O.S. § 419**
Tobacco products sold to veterans' hospitals and state-operated homes for veterans.
**Estimate:** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

## G. SPECIAL FUEL USE TAX

Special fuel use tax is levied upon fuel existing in a liquid or gaseous state and that is delivered into fuel supply tanks of motor vehicles in Oklahoma or that is imported into this state in the fuel supply tanks of vehicles being used on the highways of this state for commercial purposes. Special fuels used in certain vehicles or by certain entities may be exempt or subject to credits as provided for by statute. Aggregate data is unavailable to estimate the tax expenditures.

1. ***United States of America,* 68 O.S. § 708**
   Special fuel delivered into the supply tanks of, or used by, motor vehicles owned by the United States.

2. ***Agricultural Use,* 68 O.S. § 708**
   Special fuel delivered into the supply tanks of farm tractors and stationary engines used for agricultural purposes.

3. ***Passenger Automobiles,* 68 O.S. § 708**
   Special fuel imported into Oklahoma in the fuel supply tanks of passenger automobiles.

4. ***Motor Vehicles with 25 Gallons or Less Supply Tanks,* 68 O.S. § 708**
   Special fuel imported into Oklahoma in storage tanks with a capacity of 25 gallons or less and not used for commercial purposes.

5. ***Agricultural Vehicles,* 68 O.S. § 708**
   Special fuel imported by persons transporting livestock and farm products to or from the market.

6. ***Road Machinery and Equipment,* 68 O.S. § 708**
   Special fuel used in road machinery and equipment built for and used on location in the construction of public highways.

7. ***Passenger Motor Buses or Coaches,* 68 O.S. § 708**
   Special fuel used in passenger motor buses or coaches with a seating capacity of 10 or more persons used in public transit systems.

8. ***County, City or Town Vehicles,* 68 O.S. § 708**
Special fuel purchased by any county, city or town for use in vehicles operated for the benefit of the county, city or town.

9. ***School Districts,* 68 O.S. § 708**
Special fuel purchased by an Oklahoma school district for use in vehicles for the sole benefit of the school district.

10. ***State Department of Transportation,* 68 O.S. § 708**
Special fuel purchased by the Oklahoma Department of Transportation for use in vehicles for the sole benefit of the Department of Transportation.

11. ***Credit for Special Fuel Consumed Outside the State,* 68 O.S. § 722**
Special fuel upon which tax has been paid andis is used outside Oklahoma.

12. ***Fee in Lieu of Tax,* 68 O.S. § 723**
Flat fee of $50 on liquefied petroleum gas (LPG) or natural gas used to propel automobiles, vans and pickup trucks not exceeding one ton capacity; $100 per year for those not exceeding one ton capacity using methanol or "M-85"; and $150 for those exceeding one ton capacity using LPG, methanol or "M-85". These fees are in lieu of the special fuel tax.

## H. COIN-OPERATED MUSIC AND AMUSEMENT DEVICE FEES

A coin-op fee is for vending, music, amusement, and bulk-vending devices and is in lieu of sales tax. An annual decal is required. No reporting requirement exists for coin-op devices exempted by statute and therefore tax expenditure estimates are unavailable.

1. ***Vending Devices Owned by Schools, Churches, or Governments,* 68 O.S. § 1503.1**
Coin-operated vending devices owned by and located in a public or private school, a church, or a governmental entity.

2. ***Newspaper Vending Devices*, 68 O.S. §1503.1**
Coin-operated vending devices that dispense only newspapers or periodicals.

3. ***Postage Stamp Vending Devices*, 68 O.S. §1503.1**
Coin-operated vending devices that dispense only postage stamps.

4. ***Vending Devices Installed on Federal Military Bases*, 68 O.S. §1503.1**
Coin-operated vending devices installed on federal military bases.

## I. MOTOR VEHICLE RENTAL TAX

1. ***Lease Vehicles,* 68 O.S. § 2110**
Vehicles subject to any lease agreements.
**Estimate:** *Information Unavailable*

2. ***Prorate Vehicles,* 68 O.S. § 2110**
Truck or truck-tractors having a combined laden weight of 8,000 pounds or more and registered pursuant to the International Registration Plan.
**Estimate:** *Information Unavailable*

3. ***Trailers or Semitrailers,* 68 O.S. § 2110**
Trailers or semitrailers registered pursuant to 47 O.S. § 1133.
**Estimate:** *Information Unavailable*

4. ***State Government,* 68 O.S. § 2110**
Vehicle rentals to state government entities.
**Estimate:** $28,000
**Data Source:** Tax Commission Records
**Reliability:** 1

5. ***Bad Debt Deduction,* 68 O.S. § 2110**
Vehicle rental tax deduction from gross receipts for bad debts.
**Estimate:** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

## J. DOCUMENTARY STAMP TAX

All property transferred by deed not specifically exempted by statute is subject to the documentary stamp tax. No centralized database exists to compile the property value or tax information for the property transfers exempted and therefore estimates are unavailable.

1. ***Deeds Which Secure a Debt,* 68 O.S. § 3202**
Deeds which secure a debt or other obligation.

2. ***Supplemental Deeds,* 68 O.S. § 3202**
Deeds which, without additional consideration, confirm, correct, modify or supplement a deed previously recorded.

3. ***Deeds between Family Members,* 68 O.S. § 3202**
Deeds, without consideration, between husband and wife, parent and child or any persons related within the second degree of consanguinity or deeds between any person and an express revocable trust created by such person or spouse.

4. ***Tax Deeds,* 68 O.S. § 3202**
Tax deeds.

5. ***Deeds of Release of Property,* 68 O.S. § 3202**
Deeds of release of property that is security for a debt or other obligation.

6. ***Deeds Executed by Indian Tribal Members,* 68 O.S. § 3202**
Deeds executed by members of Indian tribes in approval proceedings of the district courts or by the Secretary of the Interior.

7. ***Deeds of Partition,* 68 O.S. § 3202**
Deeds of partition, unless, for consideration, some of the parties take shares greater in value than their individual interests.

8. ***Merger Deeds,* 68 O.S. § 3202**
Deeds made pursuant to mergers of partnerships, limited liability companies, or corporations.

9. ***Deeds to a Parent Corporation,* 68 O.S. § 3202**
Deeds made by a subsidiary corporation to its parent corporation for no consideration.

10. ***State of Oklahoma,* 68 O.S. § 3202**
Deeds or instruments to which Oklahoma or any of its instrumentalities, agencies or subdivisions is a party.

11. ***United States of America,* 68 O.S. § 3202**
Deeds or instruments to which the United States or any of its agencies or departments is a party.
**Estimate:** $0[23]

12. ***Foreclosure Deeds,* 68 O.S. § 3202**
Deeds executed pursuant to a foreclosure proceeding in which the grantee is the holder of a mortgage on the property being foreclosed.

13. ***Oklahoma Space Industry Development Authority Deeds,* 68 O.S. § 3202**
Deeds or instruments to which the Oklahoma Space Industry Development Authority or a spaceport user is a party.

## K. CHARITY GAMES TAX

1. ***Veterans' Organizations,* 3A O.S. § 421**
Sales of bingo faces, U-PIK-EM bingo game sets, breakopen ticket games, and other charity game equipment to certain veterans' organizations.
**Estimate:** *Information Unavailable*

2. ***Group Home for Mentally Disabled Individuals,* 3A O.S. § 421**
Sales of bingo faces, U-PIK-EM bingo game sets, breakopen ticket games, and other charity games equipment to a group home for mentally disabled individuals exempt from taxation pursuant to Section 501(c)(3) of the Internal Revenue Code.
**Estimate:** *Information Unavailable*

3. ***Charitable Healthcare Organization,* 3A O.S. § 421**
Sales of bingo faces, U-PIK-EM bingo game sets, breakopen ticket games, and other charity games equipment to a charitable healthcare organization exempt from taxation pursuant to Section 501(c)(3) of the Internal Revenue Code.
**Estimate:** *Information Unavailable*

4. ***Bad Debt Credit,* 3A O.S. § 422**
Credit allowed for taxes paid by the distributor that become uncollectible from an organization.
**Estimate:** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

[23] All expenditures involving the United States are given an estimate of zero. This estimate is provided since the State cannot levy a tax upon the federal government under the decision of the U.S. Supreme Court.

5. ***Damaged Equipment,* 3A O.S. § 422**
Credit for tax paid on damaged bingo faces, U-PIK-EM bingo game sets, breakopen ticket games, or charity game equipment.
**Estimate:** $0
**Data Source:** Tax Commission Records
**Reliability:** 1

## L. BOAT AND OUTBOARD MOTOR REGISTRATION FEES

1. ***Military Personnel,* 63 O.S. § 4021**
Boats/motors owned by an active duty member (or spouse) of the U.S. Armed Forces who are either a resident of, or stationed in, Oklahoma.
**Estimate:** $8,000
**Data Source:** Service Oklahoma
**Reliability:** 3

2. ***Boat and Motor Replacement Credit,* 63 O.S. § 4021**
Credit allowed towards the registration fee of a new boat/motor that is a replacement for a stolen or defective new original boat/motor.
**Estimate:** Minimal
**Data Source:** Service Oklahoma
**Reliability:** 3

3. ***State of Oklahoma,* 63 O.S. § 4021**
Boats/motors owned by Oklahoma, its agencies, departments, or political subdivisions.
**Estimate:** $16,000
**Data Source:** Service Oklahoma
**Reliability:** 3

4. ***Houseboats of a Fleet of Twenty or More Vessels,* 63 O.S. § 4021**
Boats which are part of a fleet used for lodging and for which a rental fee and sales taxes are collected.
**Estimate:** Minimal
**Data Source:** Service Oklahoma
**Reliability:** 3

5. ***Boy Scouts of America, Girl Scouts of U.S.A. and Campfire Girls,* 63 O.S. § 4021**
Boats/motors owned by Boy Scouts of America, Girl Scouts of U.S.A. and Campfire Girls devoted exclusively to youth programs emphasizing physical fitness, character development and citizenship training.
**Estimate:** $1,000
**Data Source:** Service Oklahoma
**Reliability:** 3

6. ***Donated Boats and Motors,* 63 O.S. § 4021**
Boats/motors donated to nonprofit charitable organizations.
**Estimate:** Minimal
**Data Source:** Service Oklahoma
**Reliability:** 3

## M. BOAT AND OUTBOARD MOTOR EXCISE TAX

1. ***Donated Boats and Motors,* 63 O.S. § 4021**
   Boats/motors donated to nonprofit charitable organizations.
   **Estimate:** *Information Unavailable*

2. ***Marital and Parental Transfers,* 63 O.S. § 4103**
   Transfers of boats/motors, without consideration, between a husband and wife or parent and child.
   **Estimate:** $196,000
   **Data Source:** Service Oklahoma
   **Reliability:** 3

3. ***Replacement Boat and Motor*, 63 O.S. § 4103**
   Credit allowed with respect to excise tax paid for a new boat/motor that is a replacement for a stolen or defective new original boat/motor.
   **Estimate:** Minimal
   **Data Source:** Service Oklahoma
   **Reliability:** 3

4. ***New Resident,* 63 O.S. § 4106**
   Boat/motor brought into this state by a person formerly living in another state, who has owned and registered the boat/motor in such other state at least 60 days prior to being subject to registration in this state.
   **Estimate:** $115,000
   **Data Source:** Service Oklahoma
   **Reliability:** 3

5. ***Government Entities,* 63 O.S. § 4106**
   Any boat/motor registered by the United States, Oklahoma, or by any of their political subdivisions.
   **Estimate:** $8,000
   **Data Source:** Service Oklahoma
   **Reliability:** 3

6. ***Inherited,* 63 O.S. § 4106**
   Any boat/motor, the legal ownership of which was obtained by the owner through inheritance.
   **Estimate:** $104,000
   **Data Source:** Service Oklahoma
   **Reliability:** 3

7. ***Used Boat and Motor Dealers,* 63 O.S. § 4106**
   **Description:** Any boat/motor owned and being offered for sale by a licensed boat/motor dealer.
   **Estimate:** $40,000
   **Data Source:** Service Oklahoma
   **Reliability:** 3

8. ***Foreclosure,* 63 O.S. § 4106**
Any boat/motor, the ownership of which was obtained by the lienholder or mortgagee under or by a foreclosure of a lien or mortgage.
**Estimate:** $27,000
**Data Source:** Service Oklahoma
**Reliability:** 3

9. ***Boy Scouts of America, Girl Scouts of U.S.A. and Campfire Girls,* 63 O.S. § 4106**
Boats/motor owned by the council organization or similar state supervisory organizations of the Boy Scouts of America, Girl Scouts of U.S.A. and the Campfire Girls.
**Estimate:** $1,000
**Data Source:** Service Oklahoma
**Reliability:** 3

10. ***Corporate and Partnership Boats and Motors,* 63 O.S. § 4106**
Any boat or motor transferred pursuant to the formation or dissolution of a corporation or partnership.
**Estimate:** $2,000
**Data Source:** Service Oklahoma
**Reliability:** 3

# GOVERNOR'S MESSAGE

## Dear Fellow Oregonians -

The biennial Tax Expenditure Report is an important tool for understanding how government works towards our state's goals within Oregon's tax structure. My 2025-2027 recommended budget relies on the accuracy and predictability of our tax structure to make progress on Oregonians' top priorities.

This report, as a companion to the biennial Governor's Recommended Budget, contains important information that can help policy makers understand the broad scope of spending that occurs through tax credits and deductions. We must continue to examine the tax expenditures in this report to ensure that they are still effective, equitable, and deliver on the outcomes initially promised. Many of the tax expenditures in this report connect to existing federal tax code. If new proposals come forward at the federal level, this report should be used as an objective resource to determine whether Oregon should remain connected to specific federal tax codes.

Oregonians deserve full disclosure of how well the revenue system is working, consistent with my commitment to accountability, transparency, and excellent customer service. This report provides a factual contribution to the healthy debate of our public finance system.

Sincerely,

Governor Tina Kotek
State of Oregon

# INTRODUCTION

Oregon's 1995 Budget Accountability Act (the Act) requires the Governor, with the assistance of the Department of Revenue (DOR) and the Department of Administrative Services, to produce a tax expenditure report every biennium, along with the Governor's Budget. The report was first prepared in 1996 for the 1997–99 biennium. This report covers tax expenditures for the 2025–27 biennium.

## TAX EXPENDITURE DEFINED

The Act (see ORS 291.201) defines a tax expenditure as:

> any law of the federal government or of this state that exempts, in whole or in part, certain persons, income, goods, services, or property from the impact of established taxes, including, but not limited to tax deductions, tax exclusions, tax subtractions, tax exemptions, tax deferrals, preferential tax rates, and tax credits.

The term "tax expenditure" derives from the parallel between these tax provisions and direct government expenditures. For example, a program to encourage businesses to purchase pollution abatement equipment could be structured with an incentive in the form of a tax credit or a direct payment by the state to businesses.

It's not always entirely clear which provisions meet Oregon's definition of tax expenditure. For example, a law could exempt certain persons, income, goods, services, or property from the impact of a tax, but it may not be obvious whether that exemption was meant to be an *exemption from the established tax*, or if it was intended to *define the base of the established tax*.

For this report, a number of factors were considered to determine if a provision of law was included in this report. More information about the criteria used can be found on DOR's website in the associated document "Factors Used in Identifying Tax Expenditures Included in Oregon's Tax Expenditure Report."

This report describes 357 tax expenditures in 18 Oregon tax programs. Because tax expenditures impart special treatment to groups of taxpayers, it is necessary to begin with a clear explanation of how the tax generally works. Each of the 18 chapters in the report begins with a general description of the tax program, including a forecast of revenues based on current law.

In some tax programs, an alternative tax or fee is imposed for recipients of a tax expenditure. In the interest of being comprehensive, this report includes provisions involving tax relief from a specific tax, even if those taxpayers are subject to an alternative tax. The alternative taxes or fees paid are reported as *In Lieu* payments in the descriptive information for each tax expenditure.

This report provides general information about Oregon's tax expenditures. It is not intended as legal advice and is not a complete statement of Oregon laws and rules.

## PURPOSE OF THE TAX EXPENDITURE REPORT

The Act declares the necessity of:

> a review of the fairness and efficiency of all tax deductions, tax exclusions, tax subtractions, tax exemptions, tax deferrals, preferential tax rates, and tax credits. These types of tax expenditures are similar to direct government expenditures because they provide special benefits to favored individuals or businesses, and thus result in higher tax rates for all individuals... It is in the best interest of this state to have prepared a biennial report of tax expenditures that will allow the public and policy makers to identify and analyze tax expenditures and to periodically make criteria-based decisions on whether the expenditures should be continued. The tax expenditure report will allow tax expenditures to be debated in conjunction with on-line budgets and will result in the elimination of inefficient and inappropriate tax expenditures, resulting in greater accountability by state government and a lowering of the tax burden on all taxpayers.

The Act specifies that the report include the following information: a list of the tax expenditures; the statutory authority for each; the purpose for which each was enacted; estimates of the revenue loss for the coming biennium; the revenue loss for the preceding biennium; and a determination of whether each tax expenditure has achieved its

purpose, including an analysis of the persons who benefit from the tax expenditure. Each tax expenditure is to be categorized according to the programs or functions it supports. Finally, for those expenditures that will sunset next biennium, the report is to include the Governor's opinion on whether the sunset should be allowed to take effect as scheduled or be revised to a different date.

## HOW TO USE THIS REPORT

***Organization***

This report has been designed to allow a quick overview of Oregon's current tax expenditures as well as a perusal of more extensive details. There are four main sections: the summary, the Governor's recommendations on tax expenditures scheduled to sunset in the 2025–27 biennium, an index of all tax expenditures by tax program, and detailed descriptions of each tax expenditure (Chapters 1–18).

The Index of Tax Expenditures by Tax Program on page 10 is a good starting point to identify those expenditures for which more information is desired. The numbering system can be used as an index to locate the full description of each tax expenditure in Chapters 1–18. In the PDF version of this report, blue text can be clicked on to navigate to a section or tax expenditure.

The main body of this report, Chapters 1–18, is organized by tax program. Each chapter begins with a description of that chapter's tax and contains detailed descriptions of the tax expenditures associated with that tax program.

Appendix A on page 385 and Appendix B on page 389 include the full text of the Budget Accountability Act and a list of contributors to this report, including the agencies that evaluated the tax expenditures. Appendix C on page 391 lists the tax expenditures that are new, modified, or that have been removed since this report was last published in 2023. Appendix D on page 395 lists the personal income tax expenditures and corporation income tax expenditures separately along with their corresponding revenue impacts. The Index of Tax Expenditures by Keyword on page 409 orders tax expenditures by keyword. For example, finding "veterans" in the keyword index lists all of the tax expenditures with "veterans" in the name.

***Program/Function Categories***

Each tax expenditure has been assigned to one of 10 program/function categories. Wherever possible, an expenditure was categorized as one of the budget program areas used in the Governor's Budget: Education, Human Services, Economic and Community Development, Natural Resources, Transportation, and Consumer and Business Services. Those that did not fit one of these program areas were assigned to one of four function categories: Tax Administration, Government, Social Policy, and Federal Law. Because some tax expenditures can fit neatly into more than one category, those who wish to sum the revenue impacts by program or function should be careful that they agree with these assignments or change them accordingly.

***Evaluations***

Personnel in many state agencies contributed to this report, including evaluating whether these tax expenditures achieve their purpose (see Appendix B). Agencies were asked to evaluate tax expenditures if the expenditure related to their program responsibility or if they had appropriate knowledge of the subject matter.

Not all tax expenditures were evaluated. Tax expenditures were generally not evaluated if:

- it has already sunset in a previous biennium
- the revenue impact estimate for any biennia is less than $100,000
- no one qualifies for the tax expenditure
- there is no specific agency with program responsibility for the tax expenditure, or
- the tax expenditure exists for tax administration purposes only

In addition, income tax expenditures that result from Oregon's connection to federal law are also generally not evaluated by state agencies. Instead, citations are given for the federal assessments of the federal laws.

**Revenue Impacts**

The revenue impact of a tax expenditure is intended to measure indirect "spending" through the tax system with respect to that one provision, or alternatively the amount of relief or subsidy being provided through that provision. The revenue impact is generally estimated as the amount of tax not collected due to the tax expenditure, but the dollar impact is NOT the amount of revenue that could be gained by repealing the tax expenditure. There are four main reasons for this:

- Many income tax credits are taken over a period of years or the taxpayer can carry forward some amount of the credit if there is insufficient tax liability to offset. Similarly, some property tax exemptions and special assessments are granted for a specified number of years which may extend beyond when the tax expenditures expire. In these and other similar cases, even if the tax expenditure were eliminated, some taxpayers would be able to continue to get a reduction in their taxes for some years after the law had sunset.
- For property taxes, when a property no longer receives an exemption, its maximum assessed value is reset. The impact of this reset is unpredictable and can lead to higher or lower tax bills going forward.
- The revenue impact estimates do not incorporate behavioral changes that may occur if a tax expenditure were eliminated.
- Each provision is estimated independently. A tax expenditure beneficiary may qualify for a tax reduction under more than one law, thus eliminating one provision might increase the use of another one.
- Administratively, governments may not be able to collect the full liability for some tax expenditures.

**For these reasons, and because tax expenditures interact with each other and the rest of the tax system, caution should be used when summing the revenue impacts.**

The tax expenditures reported here represent revenue loss to the state and local governments. For example, income tax expenditures reduce state General Fund revenue while property tax expenditures reduce revenue to local governments. The property tax is unique in that exempting property from property taxation may result in both a revenue loss to local governments and a shift of taxes to other taxpayers. A complete explanation of revenue loss and shift can be found at the beginning of Property Tax on page 187. For all property tax expenditures, the detailed descriptions report the revenue loss and shift separately.

Revenue impact estimates are generally rounded to the nearest $100,000. For tax expenditures with an impact greater than zero but less than $100,000, the revenue impact is listed as "Less than $100,000." Revenue estimates for tax expenditures that arise from Oregon's connection to federal income taxes are generally rounded to the nearest $500,000, and tax expenditures with an impact greater than zero but less than $500,000 are listed as "Less than $500,000."

Because tax expenditures reflect income or property that is not taxed, direct data often did not exist for estimating revenue impacts. For income tax expenditures, the primary and secondary data sources were Oregon and federal tax returns, respectively. Where appropriate, estimates of selected federal tax expenditures made by the Joint Committee on Taxation of the U.S. Congress were used as the basis for Oregon estimates. For property tax expenditures, information reported by county assessors was used whenever possible. For all tax programs, data from various federal and state agencies were used where available.

Estimates provided within this book are based on current law at the time this publication was finalized in November 2024. Current law anticipates expiration of federal tax provisions that are scheduled to expire. Several provisions are routinely reauthorized for one- or two-year periods, often retroactively. These federal tax expenditures are commonly referred to as "tax extenders" because of their routine reauthorization. Most recently, the Inflation Reduction Act of 2022 (P.L. 117-169) extended a few federal provisions but also modified and added others. (Several more federal tax code modifications, though no "extenders", were enacted by the SECURE 2.0 Act of 2022, which was part of the omnibus legislative package of the Consolidated Appropriations Act of 2023, P.L. 117-328.) Future extension of expired or expiring federal provisions, most notably ones associated with the Tax Cuts and Jobs Act of 2017 (P.L. 115-97), could directly affect the revenue impact of those provisions. Because of the interactive effects between tax expenditures and the other reasons detailed above, revenue estimates should be viewed as orders of magnitude.

***Who Benefits***

Where possible, this report provides information about the beneficiaries of tax expenditures using the most recent tax return data available. For corporation returns, 2021 is the most recent complete tax year available; for personal income tax returns, 2022 is the most recent complete tax year available; and, for property tax information, tax year 2023–24 is the most recent year available. Note that these numbers are a snapshot at the time this report was published and could change as returns are amended, filed late, or changed as a result of an audit.

Where data is available for individual income tax provisions, we provide distributional tables by income for claimants. The term "filer" used in these tables corresponds to a filed return (either single or joint). For example, a return comprised of two people filing jointly would be reflected in the tables as one filer.

## ACKNOWLEDGMENTS

Although the Department of Revenue coordinated the construction of this report, numerous Oregon state agencies provided important information and analysis regarding the objectives and effectiveness of individual tax expenditures. These agencies are listed in Appendix B.

The Congressional Research Service publication, *Tax Expenditures: Compendium of Background Material on Individual Provisions,* is used extensively throughout this report to describe and evaluate the tax expenditures that result from Oregon's connection to the federal income tax. Estimates of federal tax expenditures made by the Joint Committee on Taxation of the U.S. Congress were used to estimate many tax expenditures that result from Oregon's connection to the federal income tax.

# SUMMARY

This report describes 357 individual tax expenditures currently specified in Oregon and federal law. Of those, 167 are related to Oregon's personal and corporation income taxes and 140 are related to local property taxes. The remaining 50 are related to various other state tax programs. Of the 167 income tax expenditures, 84 result from Oregon's connection to the federal income tax code. Oregon is tied to the federal definition of taxable income, except for a few provisions for which Oregon has explicitly disconnected. By adopting the federal definition of income, Oregon also adopts most of the exclusions and deductions from income that are part of federal personal and corporation income taxes.

It is also important to note that there are several extremely large single tax expenditures in both the property and income tax programs that influence these totals. For example, for 2025–27, roughly $7.3 billion of the nearly $13.5 billion of tax expenditures in the property tax program is related to three property tax expenditures: 2.078, State and Local Property ($3.6 billion), 2.072, Personal Property for Personal Use ($2.2 billion), and 2.063, Motor Vehicles and Trailers ($1.5 billion). Similarly, the three largest income tax expenditures (1.007, Employer Paid Medical and Cafeteria Plan Benefits; 1.307, Social Security Benefits (Oregon); and 1.008, Pension Contributions and Earnings) account for about $7.3 billion of the total $18.0 billion for all income tax expenditures.

In addition, some tax expenditures included in this report fit the statutory definition of tax expenditure but do not fit as easily into the framework of "spending" through the tax system. For example, the federal government prohibits state and local governments from taxing certain income (such as 1.324, Income Earned in "Indian Country") or property (such as 2.093, Federal Property). These "tax expenditures" do not represent the same explicit policy decisions as some of the more direct Oregon subtractions and credits.

**SUMMARY OF OREGON TAX PROGRAMS WITH TAX EXPENDITURES ($ Millions)**

| Tax Program | Number of Expenditures | Estimated Revenues 2025-27 | Revenue Impact 2023-25 | Revenue Impact 2025-27 |
|---|---|---|---|---|
| **Income (Personal and Corporate)** | 167 | 32,401 | 16,507 | 18,093 |
| Federal Exclusions | 54 | | 8,527 | 9,468 |
| Federal Adjustments/Deductions | 30 | | 3,130 | 3,316 |
| Oregon Subtractions | 30 | | 2,931 | 3,356 |
| Oregon Credits | 45 | | 1,660 | 1,683 |
| Other Oregon Provisions | 8 | | 260 | 272 |
| **Property** | 140 | 20,418 | 12,540 | 13,442 |
| Full Exemptions | 94 | | 11,024 | 11,878 |
| Partial Exemptions | 31 | | 879 | 874 |
| Special Assessment | 14 | | 642 | 700 |
| Other | 1 | | 0 | 0 |
| **All Other Oregon Taxes with Tax Expenditures** | 50 | 8,090 | 622 | 628 |
| **All Oregon Taxes with Tax Expenditures** | 357 | 60,909 | 29,675 | 32,174 |

For reasons explained in Revenue Impacts on page 3, there are difficulties with summing tax expenditures. This table is intended only to provide rough orders of magnitudes for large groups of tax expenditures and caution should be exercised when adding revenue impacts.

# SUNSETTING TAX EXPENDITURES AND GOVERNOR'S RECOMMENDATIONS

Many tax laws are explicitly written with a limited period of applicability; the last day the law is in effect is referenced in this book as the **sunset date**. In addition to explicit sunsets written into statute, ORS 315.037 specifies sunsets for recently enacted tax expenditures:

> (1) As used in this section, "tax expenditure" has the meaning given that term in ORS 291.201.
>
> (2) Any tax credit enacted by the Legislative Assembly on or after January 1, 2010, shall apply for a maximum of six tax years beginning with the initial tax year for which the credit is applicable, unless the Legislative Assembly expressly provides for another period of applicability.
>
> (3) Any tax expenditure enacted by the Legislative Assembly on or after January 1, 2014, shall apply for a maximum of six tax years beginning with the initial tax year for which the tax expenditure is applicable, unless the Legislative Assembly expressly provides for another period of applicability.

ORS 315.037 has added two sources of uncertainty to identification and reporting of sunset dates. The first source of uncertainty is the statutory definition of tax expenditure in ORS 291.201. The definition is difficult to apply because it relies on identifying exemptions from an "established tax," which is undefined. The second source of uncertainty is that "period of applicability" is not defined for purposes of ORS 315.037. [1] For provisions in this report that have an unclear sunset status, the source of uncertainty is noted in the description of the provision.

## GOVERNOR'S RECOMMENDATIONS

ORS 291.214 requires that the Governor's Tax Expenditure Report:

> Identify each tax expenditure that has a full or partial sunset that, if allowed to take effect, will have a fiscal impact on the state or on school districts for the next biennium, and shall prepare a recommendation as to each tax expenditure identified under this paragraph that indicates the Governor's opinion on whether the full or partial sunset of the tax expenditure should be allowed to take effect as scheduled or should be revised to a different date.

According to Oregon statute "full sunset" means any provision that completely eliminates an existing tax expenditure on a specified date, while "partial sunset" means any provision that reduces the amount of an existing tax expenditure or that alters the eligibility requirements for the expenditure as of a specified date. On the following pages are the 20 tax expenditures that are set to expire during the 2025–27 biennium, and the Governor's recommendation as to whether the specific tax provision should be allowed to sunset as scheduled, or have the sunset date changed. The table includes the revenue impact the tax expenditure will have under current law, and the additional cost if the tax expenditure were extended through the end of the 2025–27 biennium. For more details on these tax expenditures, see their entries in the full report.

1. For example, many statutes have language such as "This Act applies to tax years beginning on or after January 1, 2023 and before January 1, 2029," which suggests a clear period in which the tax expenditure is applicable. Other statutes have language like this: "This Act applies to tax years beginning on or after January 1, 2023." It is unclear if the absence of the end date, as shown in the latter example, implies that the Legislature intended the six-year limit from ORS 315.037 to apply.

## TAX EXPENDITURES SCHEDULED FOR SUNSET IN 2025-27

As part of the 1995 Budget Accountability Act, the governor is required to identify each tax expenditure that has a full or partial sunset occurring in the coming biennium and prepare a recommendation that indicates whether the full or partial sunset should be allowed to take effect. Below are those tax expenditures.

| | TAX EXPENDITURE NAME | TYPE | SUNSET | 2025-27 REVENUE IMPACT ($000)* | 2025-27 COST TO EXTEND ($000)* | GOVERNOR'S RECOMMENDATION |
|---|---|---|---|---|---|---|
| 1.303 | AmeriCorps Awards | Income Tax Subtraction | 12-31-2026 | Less than 100 | Less than 100 | Extend Sunset |
| 1.313 | Manufactured Dwelling Park Capital Gain | Income Tax Subtraction | 12-31-2025 | 300 | 600 | Extend Sunset |
| 1.314 | First-time Home Buyer Savings | Income Tax Subtraction | 12-31-2026 | 3,000 | 1,000 | Extend Sunset |
| 1.317 | Personal Casualty Loss | Income Tax Subtraction | 12-31-2025 | 200 | 0 | Extend Sunset |
| 1.318 | Wildfire Judgment or Settlement and Legal Fees | Income Tax Subtraction | 12-31-2025 | Not Available | Not Available | Extend Sunset |
| 1.406 | Earned Income Credit | Income Tax Credit | 12-31-2025 | 54,300 | 54,400 | Extend Sunset |
| 1.425 | Manufactured Dwelling Park Closure | Income Tax Credit | 12-31-2025 | Less than 100 | Less than 100 | Extend Sunset |
| 1.431 | Crop Donation | Income Tax Credit | 12-31-2025 | 200 | 100 | Extend Sunset |
| 1.445 | Certain Retirement Income | Income Tax Credit | 12-31-2025 | 400 | 400 | Extend Sunset |
| 2.015 | Brownfield Development | Property Tax Exemption | 01-01-2027 | Less than 100 | Less than 100 | Extend Sunset |
| 2.026 | Cargo Containers | Property Tax Exemption | 06-30-2026 | Less than 100 | Less than 100 | Extend Sunset |
| 2.102 | Vertical Housing Development Zone | Partial Property Tax Exemption | 12-31-2025 | 12,900 | 8,800 | Extend Sunset |
| 2.108 | Nonprofit Low-Income Rental Housing | Partial Property Tax Exemption | 06-30-2027 | 45,400 | 0 | Extend Sunset |
| 2.109 | New or Rehabilitated Multi-Unit Rental Housing | Partial Property Tax Exemption | 01-02-2027 | Less than 100 | Less than 100 | Extend Sunset |
| 3.003 | Vehicle Used for Testing Emissions (Gas and Use Fuel Taxes) | Gas, Use, and Jet Fuel Taxes Exclusion | 12-31-2025 | 0 | 0 | Extend Sunset |

* The revenue impact includes the effect of the currently scheduled sunset. The cost to extend is the additional revenue impact if the tax expenditure is extended.

## TAX EXPENDITURES SCHEDULED FOR SUNSET IN 2025-27

As part of the 1995 Budget Accountability Act, the governor is required to identify each tax expenditure that has a full or partial sunset occurring in the coming biennium and prepare a recommendation that indicates whether the full or partial sunset should be allowed to take effect. Below are those tax expenditures.

| | TAX EXPENDITURE NAME | TYPE | SUNSET | 2025-27 REVENUE IMPACT ($000)* | 2025-27 COST TO EXTEND ($000)* | GOVERNOR'S RECOMMENDATION |
|---|---|---|---|---|---|---|
| 4.003 | Vehicle Used for Testing Emissions (Weight-Mile Tax) | Weight-Mile Tax Exclusion | 12-31-2025 | 200 | 500 | Extend Sunset |
| 7.003 | Oregon Grapes for Wine Without Oregon Designation or AVA | Beer and Wine Tax Exclusion | 06-30-2027 | Less than 100 | Less than 100 | Extend Sunset |
| 9.001 | Sales of Prescription Drugs by Eligible Pharmacies | Corporate Activity Tax Exclusion | 12-31-2025 | 4,600 | 4,700 | Extend Sunset |
| 9.002 | Subcontractor Labor Payments for Residential Construction | Corporate Activity Tax Exclusion | 12-31-2025 | 900 | 1,000 | Extend Sunset |
| 9.004 | Insurers Subject to Retaliatory Tax | Corporate Activity Tax Exclusion | 12-31-2026 | Not Available | Not Available | Extend Sunset |

* The revenue impact includes the effect of the currently scheduled sunset. The cost to extend is the additional revenue impact if the tax expenditure is extended.

## INDEX OF TAX EXPENDITURES BY TAX PROGRAM

| | Tax Expenditure | Program or Function | Year Enacted | Oregon Statute | Revenue Impact ($ Thousands) 2023-25 | 2025-27 |
|---|---|---|---|---|---|---|
| **Personal & Corporate Income Taxes** | | | | | | |
| *Federal Exclusions* | | | | | | |
| 1.001 | Scholarship and Fellowship Income | Education | 1954 | 316.048 | 34,000 | 38,000 |
| 1.002 | Qualified Education Savings (Federal) | Education | 1996 | 316.048 | 41,000 | 43,000 |
| 1.003 | Exclusion of Employer-Provided Tuition Reduction | Education | 1984 | 316.048 | 2,000 | 2,500 |
| 1.004 | Certain Foster Care Payments | Human Services | 1982 | 316.048 | 4,000 | 4,000 |
| 1.005 | Employee Adoption Benefits | Human Services | 1996 | 316.048 | Less than 500 | Less than 500 |
| 1.006 | Compensatory Damages | Human Services | 1918 | 316.048 | 16,000 | 15,000 |
| 1.007 | Employer Paid Medical and Cafeteria Plan Benefits | Human Services | 1918 and 1978 | 316.048 | 1,800,000 | 1,800,000 |
| 1.008 | Pension Contributions and Earnings | Human Services | 1921 | 316.048 | 3,100,000 | 3,900,000 |
| 1.009 | Social Security Benefits (Federal) | Human Services | 1938 | 316.048 | 898,000 | 972,000 |
| 1.010 | Regional Economic Development Incentives | Economic/Community | 1993 | 316.048, 317.013 | Less than 500 | Less than 500 |
| 1.011 | Capital Gain Invested in Opportunity Zone | Economic/Community | 2017 | 316.048, 317.013 | 23,000 | 2,500 |
| 1.012 | Exclusion of Gain from Certain Small Business Stock | Economic/Community | 1993 | 316.048 | 78,000 | 77,000 |
| 1.013 | Imputed Interest Rules | Economic/Community | 1984 | 316.048, 317.013 | 7,500 | 8,000 |
| 1.014 | Employer Provided Dependent Care | Economic/Community | 1981 | 316.048 | 7,000 | 9,000 |
| 1.015 | Capital Gains on Home Sales | Economic/Community | 1997 | 316.048 | 450,000 | 470,000 |
| 1.016 | Income Earned Abroad by U.S. Citizens | Economic/Community | 1926 | 316.048 | 50,000 | 51,000 |
| 1.017 | Cancellation of Mortgage Debt | Economic/Community | 2007 | 316.048 | 1,500 | Less than 500 |
| 1.018 | Employer Paid Group Life Insurance Premiums | Economic/Community | 1920 | 316.048 | 35,000 | 36,000 |
| 1.019 | Employer Paid Accident and Disability Insurance | Economic/Community | 1954 | 316.048 | 54,000 | 57,000 |

## INDEX OF TAX EXPENDITURES BY TAX PROGRAM

| | Tax Expenditure | Program or Function | Year Enacted | Oregon Statute | Revenue Impact ($ Thousands) 2023-25 | 2025-27 |
|---|---|---|---|---|---|---|
| 1.020 | Employer Provided On-Site Gyms | Economic/Community | 1984 | 316.048 | 16,000 | 15,000 |
| 1.021 | Miscellaneous Fringe Benefits | Economic/Community | 1984 | 316.048 | 82,000 | 81,000 |

a. No revenue loss, tax expenditure results in a shift in tax liability from exempt to nonexempt taxpayers.

# CHAPTER 1. PERSONAL & CORPORATE INCOME TAXES

This chapter describes tax expenditures in Oregon's personal and corporation income tax programs. The chapter is divided into sections based on the legal source and form of the tax expenditures. A more complete discussion of how Oregon tax expenditures are identified is available at www.oregon.gov/DOR/Stats. The following is a brief summary of how tax expenditures are identified for the income tax programs.

Oregon law defines a tax expenditure as a reduction in tax resulting from a deviation from the "established tax." For tax expenditures resulting from Oregon's connection to the federal definition of taxable income, we adopt the definition of the tax expenditures used by the U.S. Congressional Research Service (CRS) and the federal Joint Committee on Taxation (JCT). Under that definition, the tax base is income from all sources, including both monetary and nonmonetary income, less any expenses incurred in earning investment and business income. Monetary income includes wages, salaries, interest, dividends, public assistance payments, and all other monetary income. Examples of nonmonetary income include the value of health benefits provided by employers, the value of gifts received by the individual, and discounts that employees may receive when they buy products from their employer. For business income, the expenses necessary to produce the income are not considered income, so deductions that result from economic expenses like wages and rents are not considered tax expenditures.

For tax expenditures that are specific to Oregon, we report provisions that create specific reductions in taxable income, differential tax rates, tax credits, and other provisions that reduce tax and are explicit in Oregon law.

The starting point for calculating Oregon's personal and corporate income taxes is income taxable at the federal level, and this connection to the federal tax code has important implications for Oregon's tax. Using the same definition of income helps simplify the Oregon tax return, reducing the number of calculations taxpayers need to make. The connection to the federal definition of taxable income also makes the tax easier for the state of Oregon to administer.

In 2017, significant changes were made to the federal income tax system by the law generally known as the Tax Cuts and Jobs Act of 2017 (TCJA). For individuals, TCJA temporarily increased the standard deduction, eliminated the personal exemption, lowered tax rates, and made changes to itemized deductions. Most of those changes do not directly affect Oregon's definition of taxable income, but a federal cap of $10,000 in deductible state and local income taxes impacts Oregon tax paid by taxpayers who itemize Oregon deductions and have property taxes in excess of $10,000. Most of these temporary federal provisions from TCJA will expire after tax year 2025. For corporations, TCJA made several permanent changes, including a reduction in the tax rate and significant changes in the way international corporations' income is taxed. Oregon is not connected to federal tax rates, but does have a connection to many federal provisions, including changes in treatment of depreciation and expensing, as well as the changes in international taxation.

Oregon has some deviations from federal taxable income. Income taxed federally but not by Oregon is subtracted from federal taxable income when computing Oregon tax (called subtractions). There are also additions to federal taxable income: income Oregon taxes that is not taxed federally. After those calculations are complete, Oregon also has tax expenditures expressed as tax credits or preferential tax rates.

**Personal Income Tax**

The personal income tax, sometimes called the individual income tax, is the state of Oregon's largest source of revenue. For the 2023–25 biennium, this revenue is estimated to be $21.9 billion, or 81 percent of General Fund revenues, and $29.3 billion for 2025–27. The Department of Revenue publishes an annual report that provides detailed information and statistics on the personal income tax. The most recent edition of *Oregon Personal Income Tax Statistics* is at www.oregon.gov/DOR/Stats.

**Corporation Excise and Income Taxes**

Oregon's corporation excise and income taxes are the taxes on corporate profits where net income is the measure of profitability. Virtually all corporate tax filers pay the excise tax, and very few pay the income tax. Because the taxes are nearly identical and the tax base is net income, we refer here to both taxes as the corporation income tax.

The corporation income tax is the second largest source of revenue for the state General Fund. For the 2023–25 biennium, this revenue is estimated to be $3.11 billion, or 11 percent of General Fund revenues, and $3.12 billion for 2025–27. The Department of Revenue publishes an annual report that provides detailed information and statistics on

the corporation income tax. The most recent version of *Oregon Corporate Excise and Income Tax* is at www.oregon.gov/DOR/Stats.

**Changes to Tax on Corporations' International Earnings**

The Tax Cuts and Jobs Act of 2017 made significant changes to how taxes are applied to corporations. In Oregon, a tax expenditure is a provision that exempts income from "the impact of established taxes," the established tax base of corporations with international operations is taken to be income earned within the U.S. Four major features of the federal system for taxing corporations with international operations are particularly relevant to state-reported tax expenditures.

- Participation Exemption: Corporations are taxed on their profits within the U.S. and not taxed on the profits of their foreign subsidiaries. This is accomplished by allowing a 100 percent deduction for dividends paid by foreign corporations to U.S. based corporations with at least 10 percent ownership in the payer. The exemption of foreign profits from domestic tax is considered the established tax base for a territorial tax system and is not reported as an Oregon tax expenditure.
- Global Intangible Low Taxed Income (GILTI): Corporations are required to add earnings in foreign countries that exceed 10 percent of their investment to the otherwise territorial base as taxable income. They are then allowed a deduction and a limited credit for foreign taxes paid on that income. Because those earnings would not be included in a purely territorial tax base, this acts as a minimum tax on foreign profits. The deduction that corresponds to the additional income included by GILTI is not reported as a tax expenditure in Oregon.
- Foreign Derived Intangible Income (FDII): Corporations with earnings in the U.S. that are attributable to exports can deduct a portion of those earnings that exceed 10 percent of their investment. This income is part of a territorial tax base, and therefore, the deduction is intended to selectively benefit exporters. This benefit is reported as an Oregon tax expenditure because it provides favorable treatment of some income that would otherwise be included in the territorial tax base.
- Base Erosion and Anti-Abuse Tax (BEAT): This federal provision acts as a minimum tax to very large corporations making significant payments to foreign affiliates. Oregon is not connected to the BEAT, therefore it has no impact on Oregon tax expenditure reporting.

# TAX EXPENDITURES IN FEDERAL TAXABLE INCOME

Like many states, Oregon's income tax calculations begin with the definition of taxable income in federal law, with some specific exceptions. Tying to the federal definition of taxable income implicitly adopts many of the tax expenditures that exist in the federal tax code. Special provisions allowed by the federal government that reduce taxable income will flow through to Oregon's tax and result in lower Oregon tax collections.

The listing of federal tax expenditures is based on the December 2023 estimates prepared by the federal Joint Committee on Taxation[1]. That publication is our primary source of information used to estimate the Oregon revenue reduction associated with federal tax expenditures. An additional source of information is the Fiscal Year 2025 Analytical Perspectives publication prepared by the White House's Office of Management and Budget [2].

For several of the tax expenditures, revenue impacts were estimated from Oregon personal income tax return information. Beginning with tax year 2018, a new schedule was created to complement the Oregon personal income tax return, where taxpayers who itemize deductions for Oregon are required to list their itemized deductions. This allowed for a more direct measure of the revenue impact for several of the tax expenditures related to itemized deductions.

The tax expenditures in this report differ from those reported by JCT in the following ways:

- Oregon does not have an automatic connection to federal tax credits, federal rates, or taxable income for insurance companies, so related federal tax expenditures are not presented;
- deviations from a "normal tax structure" that generally result in higher taxes are not listed in this report (JCT refers to these as negative tax expenditures);
- earnings of businesses outside the U.S. are no longer part of Oregon's established tax base after the changes made by the Tax Cuts and Jobs Act of 2017;
- some related provisions were combined, though an attempt was made to specify which ones have been combined in the descriptions of the tax expenditures; and
- employment-related moving expenses is listed as a tax expenditure.

For federal tax expenditures that reduce Oregon receipts and have an associated revenue impact estimated by JCT, this report provides full descriptions. The descriptions rely heavily on the Congressional Research Service Compendium of Tax Expenditures [3], which is a good resource to peruse for more detailed descriptions and analysis.

In addition, for these tax expenditures included in this report, if the federal counterpart is listed in the Congressional Research Service Compendium of Tax Expenditures, a specific citation is given under the Evaluation, which points to the federal assessment of that federal tax expenditure.

Tax expenditures resulting from the connection to federal taxable income are categorized into exclusions, adjustments (above-the-line deductions), and deductions.

The first part of the income tax chapter of this report provides estimates and descriptions for 84 federal provisions (exclusions, deductions, and adjustments). Of those, 53 flow through to Oregon's personal income tax, 5 flow through to corporations, and 26 flow through to both the personal and corporation income taxes.

We generally do not provide full descriptions of federal tax expenditures that are listed by JCT as *de minimis*, or not quantifiable. Nor do we give full descriptions of provisions that Oregon specifically does not connect to. These provisions are listed in Other Federal Provisions (Unquantified or Disconnected) on page 93.

# 1.001 SCHOLARSHIP AND FELLOWSHIP INCOME

**Internal Revenue Code Section:** 117
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1954

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $34,000,000 | $34,000,000 |
| 2025-27 | Not Applicable | $38,000,000 | $38,000,000 |

## DESCRIPTION

Scholarships and fellowships are excluded from personal taxable income to the extent that they cover tuition and course related expenses (e.g. books, supplies, fees and equipment) of individuals who are candidates for undergraduate or graduate degrees at colleges, universities, or other educational institutions.

This provision is extended by the subtraction described in 1.302, Scholarship Awards Used for Housing Expenses.

## PURPOSE

This provision "…initially justified the exclusion of scholarship and fellowship income on the grounds that the awards were analogous to gifts. With the development and proliferation of grant programs based on financial need, justification now rests on the hardship that taxation would impose." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

## WHO BENEFITS

Individuals receiving scholarship or fellowship income or reduced tuition. Students attending schools with higher tuition costs will generally benefit more because tuition and course-related fees are greater.

## EVALUATION

See Exclusion of Scholarship and Fellowship Income, Assessment, p. 723 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.002 QUALIFIED EDUCATION SAVINGS (FEDERAL)

**Internal Revenue Code Section:** 529 and 530
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1996

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $41,000,000 | $41,000,000 |
| 2025-27 | Not Applicable | $43,000,000 | $43,000,000 |

## DESCRIPTION

Individuals may establish tax-deferred and tax-exempt college savings plans through state-sponsored savings plans, trust or custodial accounts, or prepaid tuition accounts through qualifying educational institutions. These accounts are set up for the purpose of paying education-related expenses or tuition on behalf of a designated beneficiary. The SECURE 2.0 Act of 2022 allowed tax-free distributions in 2024 onwards for 529 qualified tuition programs to Roth IRAs, subject to some limitations.

Qualifying distributions from savings or prepaid tuition plans are excluded from taxable income. Nonqualifying distributions are subject to a federal penalty, and the earnings of the nonqualifying distribution are subject to income taxation.

Under federal law, contributions to these accounts are not tax deductible, but the earnings on the account balances are excluded from income. The revenue impact for this expenditure is based on earnings on the accounts.

The estimated revenue loss for this tax expenditure includes the following components listed separately by the U.S. Joint Committee on Taxation:

- Prepaid Tuition Programs.
- Savings Account Programs.
- Exclusion of earnings of trust accounts for higher education ("Coverdell ESAs").

Oregon also has a tax benefit for taxpayers who contribute to an Oregon 529 College Savings Network account in the form of a refundable tax credit. See 1.405, Contributions to 529 Account.

### PURPOSE
"…529 plans were intended to encourage families to save for college…" (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2020). Presumably, the purpose of the exclusion is to further encourage families to contribute to 529 plans as a way to save for college.

### WHO BENEFITS
Students and families of students are able to defer and eventually avoid tax on earnings of these accounts and therefore may accumulate savings more quickly for future higher education expenses. Tax benefits are more likely to accrue to higher income families reflecting higher tax rates and means to save for college.

### EVALUATION
See Assessments for tax expenditures related to Education Savings, p. 701 and 707 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.003 EXCLUSION OF EMPLOYER-PROVIDED TUITION REDUCTION

**Internal Revenue Code Section:** 117(d)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1984

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $2,000,000 | $2,000,000 |
| 2025-27 | Not Applicable | $2,500,000 | $2,500,000 |

### DESCRIPTION
Tuition reductions for employees of educational institutions may be excluded from federal income taxes provided they do not represent payment for services. The exclusion also applies to tuition reductions for an employee's spouse and dependent children. Tuition reductions can occur at schools other than where the employee works, provided they are granted by the school attended, and not paid by the employing school. Tuition reductions cannot discriminate in favor of highly compensated employees.

### PURPOSE
"Educational institutions provide tuition reductions to employees as a fringe benefit, which may reduce costs of labor and job turnover." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022).

### WHO BENEFITS
Employees of education institutions who receive untaxed tuition reductions.

### EVALUATION
See Exclusion of Employer-Provided Tuition Reduction Benefits, *Assessment*, p. 719 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.004 CERTAIN FOSTER CARE PAYMENTS

**Internal Revenue Code Section:** 131
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1982

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $4,000,000 | $4,000,000 |
| 2025-27 | Not Applicable | $4,000,000 | $4,000,000 |

### DESCRIPTION
Payments made by a state, local, or qualified foster care placement agency to a foster care provider for caring for a qualified foster individual in the provider's home are excluded from personal taxable income of the foster care provider. Payments received in excess of actual expenses incurred represent the monies that would be taxable were it not for the exclusion. A qualified foster individual is an individual placed by a qualified foster care placement agency, regardless of age at the time of placement.

### PURPOSE
"… payments made by charitable child-placing agencies or governments (such as child welfare agencies) were not taxable when the payments were reimbursements or advances for expenses incurred on behalf of the agencies or governments by the foster parents." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Foster care providers for qualified individuals.

### EVALUATION
See Exclusion of Certain Foster Care Payments, *Assessment*, p. 874 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.005 EMPLOYEE ADOPTION BENEFITS

**Internal Revenue Code Section:** 137
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1996

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Less than $500,000 | Less than $500,000 |
| 2025-27 | Not Applicable | Less than $500,000 | Less than $500,000 |

### DESCRIPTION
Benefits that employees who adopt children receive under employer-sponsored adoption assistance programs are excluded from personal taxable income. The maximum exclusion in 2023 was $15,950 per child, including special needs children. Expenses may be incurred over several years. Employees who receive employer-provided adoption assistance must do so under an established employer-sponsored adoption assistance program (see IRS publication 15-B for description of employee program parameters). In 2023, the exclusion was phased out for modified adjusted gross

incomes between $239,230 and $279,230, at which point no exclusion was allowed. The exclusion limit and the beginning of the income phase-out range are permanently indexed to inflation. The $40,000 range over which the exclusion is phased-out is not indexed to inflation.

### PURPOSE
"According to the Joint Committee on Taxation, Congress enacted the … exclusion because of the belief that the financial costs associated with the adoption process should not be a barrier to adoption." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Adoptive parents who receive benefits from employer-sponsored adoption assistance programs.

### EVALUATION
See Adoption Credit and Employee Adoption Benefits Exclusion, *Assessment*, p. 868 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.006 COMPENSATORY DAMAGES

**Internal Revenue Code Section:** 104(a)(2)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1918

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $16,000,000 | $16,000,000 |
| 2025-27 | Not Applicable | $15,000,000 | $15,000,000 |

### DESCRIPTION
Payments that a person receives as compensatory damages for physical injury or physical sickness, whether paid in a lump sum or in periodic payments, are excluded from taxable income.

### PURPOSE
"It [the exclusion] is based on the reasoning that these payments are compensating for a loss." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022), Presumably, the purpose of the exclusion is to avoid reducing of the value of these payments.

### WHO BENEFITS
People who have been injured and received compensatory damages.

### EVALUATION
See Exclusion of Damages on Account of Personal Physical Injuries or Physical Sickness, Assessment, p. 1012 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.007 EMPLOYER PAID MEDICAL AND CAFETERIA PLAN BENEFITS

**Internal Revenue Code Section:** 105, 106 and 125
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1918 and 1978 (Cafeteria plan benefits)

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $1,800,000,000 | $1,800,000,000 |
| 2025-27 | Not Applicable | $1,800,000,000 | $1,800,000,000 |

## DESCRIPTION

Employer payments for health insurance, other employee medical expenses, and long-term care insurance are not included in the employee's personal taxable income. Federal law does require that the imputed value of health and other fringe benefits of a domestic partner be included in adjusted gross income when cohabitating couples are not married.

Also included in this tax expenditure are employer-paid benefits under cafeteria plans, which offer employees a choice between taking monetary compensation or qualified benefits such as health insurance, dependent care assistance, and adoption assistance. The employee pays no tax when choosing the benefits but does pay tax when choosing the cash. This provision was enacted in federal law in 1978.

## PURPOSE

"The exclusion for employer-provided health benefits is thought to exert a strong influence on the health insurance coverage for a substantial share of the nonelderly working population. Because of the subsidy, employers face a significant incentive to offer employee compensation in the form of health benefits rather than taxable wages salaries. (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022).

## WHO BENEFITS

Employees, their spouses, and dependents receiving employer-paid health benefits and employees receiving employer-paid cafeteria plan benefits.

## EVALUATION

See Exclusion of Employer Contributions for Health Care, Health Insurance Premiums, and Long-Term Care Insurance Premiums, *Assessment*, p. 968 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.008 PENSION CONTRIBUTIONS AND EARNINGS

**Internal Revenue Code Section:** 401–407, 410–418E, and 457
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1921

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $3,100,000,000 | $3,100,000,000 |
| 2025-27 | Not Applicable | $3,900,000,000 | $3,900,000,000 |

## DESCRIPTION

In general, all compensation (wages and benefits) of an employee is taxable income for the employee. This provision exempts employer contributions to pension plans from inclusion in the employee's personal taxable income in the year

of contribution. In addition, self-employed individuals are allowed to reduce taxable income for qualified contributions to qualified retirement accounts. Earnings on balances in those accounts are also not taxed.

Tax on contributions and earnings is deferred until distribution when withdrawals are included in taxable income. The estimated revenue impact is a net figure; the revenue foregone in a given year is offset by the amount of tax paid on withdrawals in that year. The bulk of the revenue impact in most years is from the exclusion on earnings.

This tax expenditure includes the following components listed separately by the federal Joint Committee on Taxation:

- Defined Benefit Plans.
- Defined Contribution Plans.
- Plans covering partners and sole proprietors (sometimes referred to as "Keogh Plans").

More than 90 percent of the estimated revenue loss of this provision is attributable to employer (defined benefit and contribution) plans.

### PURPOSE
"The major economic justification for the favorable tax treatment of pension plans is that they arguably increase savings and increase retirement income security." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Employees and self-employed individuals with qualified retirement savings or pension benefits.

### EVALUATION
See Assessments for tax expenditures related to pension contributions and earnings, p. 1041, 1049, and 1059 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.009 SOCIAL SECURITY BENEFITS (FEDERAL)

**Internal Revenue Code Section:** 86 (and multiple revenue rulings)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1938

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $898,000,000 | $898,000,000 |
| 2025-27 | Not Applicable | $972,000,000 | $972,000,000 |

### DESCRIPTION
A portion of Social Security and Railroad Retirement Board benefits are considered nontaxable at the federal level. Oregon extends the tax exemption to the full amount of benefits. As a result, there are two tax expenditures pertaining to these benefits. This tax expenditure pertains to those benefits that are exempt at the federal level. The tax expenditure pertaining to the portion of benefits that are taxed at the federal level but are exempt in Oregon is 1.307, Social Security Benefits (Oregon).

The portion of benefits subject to federal taxation depends on the amount of "provisional income" above certain thresholds. Provisional income is adjusted gross income plus one-half of Social Security benefits and otherwise tax-exempt interest income (i.e., interest from tax-exempt bonds) as well as certain income specifically excluded from federal income taxation. Taxpayers with provisional income under $25,000 (single) or $32,000 (married filing jointly) pay no federal tax.

If provisional income is above these thresholds but below $34,000 (single) or $44,000 (joint) then the amount of benefits subject to tax is the lesser of: (1) 50 percent of benefits, or (2) 50 percent of provisional income above the first threshold. If income is above the second threshold, the amount of benefits subject to tax is the lesser of: (1) 85 percent

of benefits, or (2) 85 percent of income above the second threshold, plus the smaller of $4,500 (single) or $6,000 (joint), or 50 percent of benefits. For couples filing separately, taxable benefits are the lesser of 85 percent of benefits or 85 percent of provisional income.

### PURPOSE
The Congressional Research Service cited three reasons for the original exclusion: (1) Congress did not intend for these benefits to be taxed, (2) the benefits were intended to be in the form of government transfers, and (3) taxing these benefits would defeat their intended purposes.

### WHO BENEFITS
Oregon taxpayers who receive federally taxable Social Security or Railroad Retirement Board benefits. For 2022, about 430,500 full-year Oregon filers used this exclusion or the related Oregon subtraction.

For more detail, see the distributional table presented with the Oregon subtraction, 1.307, Social Security Benefits (Oregon).

### EVALUATION
See Exclusion of Untaxed Social Security and Railroad Retirement Benefits, *Assessment*, p. 1108 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.010 REGIONAL ECONOMIC DEVELOPMENT INCENTIVES

**Internal Revenue Code Section:** 38(b), 39(d), 280C(a), and 1391–1397D
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** 12-31-2025
**Year Enacted:** 1993

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $500,000 | Less than $500,000 | Less than $500,000 |
| 2025-27 | Less than $500,000 | Less than $500,000 | Less than $500,000 |

### DESCRIPTION
Federal law allowed for the designation of up to 40 empowerment zones, 95 enterprise communities, and 40 renewal communities in the United States to receive special tax benefits. These tax benefits include a wage tax credit (Oregon is not connected to the federal tax credit), the nonrecognition of gains on rollovers of empowerment zone investments, and expanded tax-exempt financing for certain empowerment zone facilities.

Designated areas must satisfy eligibility criteria including poverty rates, population, and geographic size limits. These provisions were enacted as temporary but have been extended several times. After the most recent extension (in the Consolidated Appropriations Act of 2021), designated areas are eligible for benefits through December 31, 2025.

Oregon currently has no areas that qualify for this tax expenditure. The 10-year designation of two Oregon federal Enterprise Communities in Josephine County and Portland ended on December 31, 2004. As of the publication date of this report, there has been no Oregon area designated as a federal Empowerment Zone or Renewal Community.

Oregon taxpayers may have lower taxable income due to investments in these zones despite their location outside Oregon.

### PURPOSE
"The geographically targeted tax provisions [of this tax expenditure] may encourage increased employment and income of individuals living and working in the zones and increased incentives to businesses operating in the zones." (Congressional Research Service, Tax Expenditures: Compendium of Background Material on Individual Provisions: 2022).

### WHO BENEFITS
Both businesses and employees within the designated areas may benefit.

### EVALUATION
See Empowerment Zone Tax Incentives, *Assessment*, p. 627 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.011 CAPITAL GAIN INVESTED IN OPPORTUNITY ZONE

**Internal Revenue Code Section:** 1400Z-1 and 1400Z-2
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** 12-31-2026
**Year Enacted:** 2017

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $3,000,000 | $20,000,000 | $23,000,000 |
| 2025-27 | Less than $500,000 | $2,500,000 | $2,500,000 |

### DESCRIPTION
Capital gains invested in or derived from investments in designated Opportunity Zones are eligible for deferral or exclusion from income.

Three tax incentives are associated with qualified Opportunity Zones:

- Federal income tax on capital gains may be temporarily deferred if the gains are reinvested in a qualified opportunity fund (QOF) within 180 days after the sale or disposition of the related asset.
- If the investment in the QOF is held for at least five years, 10 percent of the gain may be excluded from taxable income. If the asset or investment is held for at least seven years, 15 percent of the gain may be excluded from taxable income.
- QOF investments held for at least 10 years and until at least December 31, 2026, are to be eligible for permanent exclusion of capital gains tax on any gains from the qualified portion of their investment earned within the Opportunity Zone when the QOF investment is sold or disposed.

A qualified opportunity fund is a corporation or partnership that invests at least 90 percent of its assets in property in a designated qualified opportunity zone.

Designated Opportunity Zones are certain low-income census tracts designated by state governors and approved by the U.S. Treasury. In May of 2018, all 86 of Oregon's nominated Opportunity Zones were approved.

Oregon taxpayers may have lower taxable income due to investments in these zones whether their location is inside or outside Oregon.

Opportunity Zone tax incentives are in effect from December 22, 2017 through December 31, 2026. There is no gain or deferral available with respect to any sale or exchange made after December 31, 2026, and there is no exclusion available for investments in qualified Opportunity Zones made after December 31, 2026.

### PURPOSE
"Opportunity Zones are an economic development tool – that is, they are designed to spur economic development and job creation in distressed communities" (Internal Revenue Service Opportunity Zones Frequently Asked Questions, accessed July 2018)

### WHO BENEFITS
Taxpayers who invest in qualified opportunity funds.

### EVALUATION
See Qualified Opportunity Zones, *Assessment*, p. 647 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.012 EXCLUSION OF GAIN FROM CERTAIN SMALL BUSINESS STOCK

**Internal Revenue Code Section:** 1202 and 1045
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1993

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $78,000,000 | $78,000,000 |
| 2025-27 | Not Applicable | $77,000,000 | $77,000,000 |

## DESCRIPTION

Individual and non-corporate business taxpayers (including pass-through entities like partnerships and S corporations) are allowed to exclude from gross income 50 percent or more of gain from the sale or exchange of qualified small business stock (QSBS).

The exclusion is 100 percent for stock acquired after September 27, 2010 if it meets all of the following:

- The stock must be acquired by a noncorporate taxpayer at the time of issue in exchange for money, property, or services; and then held for at least five years.
- The stock must be issued by a C corporation with no more than $50 million in gross assets, and at least 80 percent of its assets must be employed during the five-year holding period.
- The corporation must be a "specialized small business investment company" (SSBIC) or in any line of business excluding the following: healthcare, law, engineering, architecture, food service, lodging, farming, insurance, finance, and mining.

The exclusion is limited to the greater of $10 million or ten times the taxpayer's basis in the stock. The former limit is not adjusted for inflation.

## PURPOSE

"The QSBS gains exclusion seems largely intended to increase the flow of equity capital to new or young small firms and SSBICs in a range of industries. These firms may have difficulty raising capital from more traditional sources such as banks, angel investors, or private equity firms." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions:* 2022)

## WHO BENEFITS

Individuals who invest in qualified small business stock at the initial offering and later realize gains on that investment. According to the Congressional Research Service, most of the benefits are captured by small business owners and high-income individuals.

## EVALUATION

See Exclusion of Gain from Certain Small Business Stock, *Assessment*, p. 575 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.013 IMPUTED INTEREST RULES

**Internal Revenue Code Section:** 163(e), 483, 1274 and 1274A
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1984

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $500,000 | $7,500,000 | $7,500,000 |
| 2025-27 | Less than $500,000 | $8,000,000 | $8,000,000 |

### DESCRIPTION

For debt instruments that pay less than the market rate of interest, a higher market rate (imputed interest rate) generally must be used to calculate income and expenses for tax purposes. The imputed interest must be included as income to the recipient and is deducted by the payer.

There are several exceptions to the general imputed interest rule. Debt associated with the sale of property when the total sales price is no more than $250,000, the sale of farms or small businesses by individuals when the sales price is no more than $1 million, and the sale of a personal residence are not subject to the imputation rules. The reported impact of this provision is the revenue loss caused by the exceptions.

A common example of this exemption is a low interest, no interest, or "gift" loan involved in the sale of property between family members.

### PURPOSE

According to the Congressional Research Service, the purpose of these exemptions is "to allow more flexibility in structuring sales of personal residences, small businesses, and farms by the owners, and to avoid the administrative problems that might arise in applying the rules to other smaller sales." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS

Sellers of residences, small businesses, and farms who would otherwise pay tax on interest they do not charge and will not receive.

### EVALUATION

See Exemptions from Imputed Interest Rules, *Assessment*, p. 505 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.014 EMPLOYER PROVIDED DEPENDENT CARE

**Internal Revenue Code Section:** 129
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1981

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $7,000,000 | $7,000,000 |
| 2025-27 | Not Applicable | $9,000,000 | $9,000,000 |

### DESCRIPTION

Employer payments for dependent care through a dependent care assistance program are not included in the employee's personal taxable income. The maximum exclusion is $5,000 and may not exceed the employee's (or employee's spouse if married) earned income. To qualify, the employer assistance must be provided under a plan that meets certain conditions, such as eligibility requirements that do not discriminate in favor of certain employees.

### PURPOSE
"The provision was intended to recognize the similarity of child care expenses to employee business expenses and provide a limited benefit." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions:* 2022).

### WHO BENEFITS
Employees receiving employer paid dependent care benefits.

### EVALUATION
See Credit for Child and Dependent Care and Exclusion of Employer-Provided Child Care, *Assessment*, p. 853 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.015 CAPITAL GAINS ON HOME SALES

**Internal Revenue Code Section:** 121
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1997

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $450,000,000 | $450,000,000 |
| 2025-27 | Not Applicable | $470,000,000 | $470,000,000 |

### DESCRIPTION
Homeowners may exclude from personal taxable income up to $250,000 (single taxpayers) or $500,000 (married taxpayers filing joint returns) of capital gain realized on the sale of their principal residence. (These limits are not indexed to inflation.) To qualify, the taxpayer must have owned and occupied the home for at least two of the previous five years. The exclusion applies only to the portion of the property associated with the residence, not portions of the property used in business activity. The exclusion is allowed each time a taxpayer meets the eligibility requirements, but generally not more than once every two years.

### PURPOSE
"… many see the exclusion on the sale of a principal residence as justifiable because the tax law does not allow the deduction of personal capital losses, because much of the profit from the sale of a personal residence can represent inflationary gains, and because the purchase of a principal residence is less of a profit-motivated decision than other types of investments. Taxing the gain on the sale of a principal residence might also interfere with labor mobility…" (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022).

### WHO BENEFITS
Homeowners who sell their principal residences for a gain.

### EVALUATION
See Exclusion of Capital Gains on Sales of Principal Residences, *Assessment*, p. 397 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.016 INCOME EARNED ABROAD BY U.S. CITIZENS

**Internal Revenue Code Section:** 911
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1926

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $50,000,000 | $50,000,000 |
| 2025-27 | Not Applicable | $51,000,000 | $51,000,000 |

### DESCRIPTION

U.S. citizens (except U.S. federal employees) who live abroad may exclude from personal taxable income any salary or wages earned from employment overseas. In 2023, the maximum exclusion is up to $120,000. The income limit of the foreign earned income exclusion is indexed to inflation. A taxpayer must meet foreign residence tests to receive the exclusion. Taxpayers may also exclude the value of employer provided foreign housing expenses if certain conditions are met.

Oregon law (ORS 316.027) clarifies that individuals qualifying for this federal exemption are not considered residents for the purpose of calculating Oregon individual income taxes.

This tax expenditure includes the following components listed separately by the federal Joint Committee on Taxation:

- Exclusion of Foreign Earned Income: Housing.
- Exclusion of Foreign Earned Income: Salary.

### PURPOSE

"Historically, the foreign-earned income and housing cost exclusions have been defended on the grounds that they help increase U.S. exports, because Americans working abroad play an important role in promoting the sale of U.S. goods abroad." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS

U.S. citizens who live and work abroad.

### EVALUATION

See Exclusion of Foreign Earned Income: Housing and Salary, *Assessment*, p. 37 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.017 CANCELLATION OF MORTGAGE DEBT

**Internal Revenue Code Section:** 108
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** 12-31-2025
**Year Enacted:** 2007

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $1,500,000 | $1,500,000 |
| 2025-27 | Not Applicable | Less than $500,000 | Less than $500,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION

In general, when a "discharge of indebtedness" occurs, the forgiven debt is considered income to the taxpayer. An exception is allowed for debt discharged through 2025 up to $2 million ($1 million if married filing separately) if the

debt was incurred to acquire, construct, or substantially improve the taxpayer's principal residence. The Taxpayer Certainty and Disaster Tax Relief Act of 2020 extended this provision, which was to expire in tax year 2020, through tax year 2025.

### PURPOSE
"A rationale for excluding canceled mortgage debt income has focused on minimizing hardship for households in distress." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Taxpayers who have had eligible debt discharged.

### EVALUATION
See Exclusion of Income Attributable to the Discharge of Principal Residence Acquisition Indebtedness, *Assessment*, p. 435 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.018 EMPLOYER PAID GROUP LIFE INSURANCE PREMIUMS

**Internal Revenue Code Section:** 79
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1920

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $35,000,000 | $35,000,000 |
| 2025-27 | Not Applicable | $36,000,000 | $36,000,000 |

### DESCRIPTION
The cost of employer provided group term life insurance plans that satisfy "anti-discrimination" provisions, net of employee contributions, above a $50,000 (not indexed to inflation) coverage threshold is excluded from the employees' gross income.

### PURPOSE
The Congressional Research Service did not state a clear purpose for this federal provision. Presumably, the purpose is to encourage employers and employees to incorporate life insurance benefits into compensation packages without discriminating between type of employee. An example of discriminating between employees would be offering insurance benefits to officers, owners, and/or highly compensated employees only.

### WHO BENEFITS
Employees who have some life insurance premiums paid by their employer.

### EVALUATION
See Exclusion of Other Employee Benefits: Premiums on Group Term Life Insurance, *Assessment*, p. 1089 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.019 EMPLOYER PAID ACCIDENT AND DISABILITY INSURANCE

**Internal Revenue Code Section:** 105 and 106
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1954

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $54,000,000 | $54,000,000 |
| 2025-27 | Not Applicable | $57,000,000 | $57,000,000 |

### DESCRIPTION
Employer payments for employee accident and disability insurance premiums are not included in the employee's personal taxable income. Benefits paid to employees are generally taxable, however payments that relate to permanent injuries are excluded from taxable income so long as those payments are computed without regard to the amount of time an employee is absent from work.

### PURPOSE
To encourage employers and employees to incorporate accident and disability insurance into compensation packages.

### WHO BENEFITS
Employees who have some accident and disability insurance premiums paid by their employer.

### EVALUATION
See Exclusion of Other Employee Benefits: Premiums on Accident and Disability Insurance, *Assessment*, p. 1092 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.020 EMPLOYER PROVIDED ON-SITE GYMS

**Internal Revenue Code Section:** 132(j)(4)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1984

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $16,000,000 | $16,000,000 |
| 2025-27 | Not Applicable | $15,000,000 | $15,000,000 |

### DESCRIPTION
The value that employees gain from having access to an on-site athletic facility provided and operated by their employer is exempt from personal income tax. The exemption applies if substantially all of the users of the facilities are employees, their spouses, and their children.

### PURPOSE
To codify the traditional treatment of these benefits as not contributing to taxable income and to avoid the difficulty of monitoring and assigning values to them.

### WHO BENEFITS
Employees with access to employer-provided on-site gyms at their workplace.

### EVALUATION
See Exclusion of Employer-Provided (On-Site) Gyms, *Assessment*, p. 820 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.021 MISCELLANEOUS FRINGE BENEFITS

**Internal Revenue Code Section:** 132 and 117(d)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1984

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $82,000,000 | $82,000,000 |
| 2025-27 | Not Applicable | $81,000,000 | $81,000,000 |

### DESCRIPTION

Certain fringe benefits are exempt from personal income tax. These benefits include no-additional-cost services (such as free standby flights for airline employees), qualified employee discounts, working condition fringe benefits, and low value fringe benefits (such as providing coffee to employees or allowing them occasional personal use of an office copy machine). Also included are subsidized parking and eating facilities. The provision of these fringe benefits must meet certain "anti-discrimination" rules to qualify. The benefits must be provided solely to employees, their spouses, and dependent children; retired employees; or the widows or widowers of former employees.

### PURPOSE

To codify the traditional treatment of these benefits as not contributing to taxable income and to avoid the difficulty of monitoring and assigning values to them.

### WHO BENEFITS

Employees receiving fringe benefits.

### EVALUATION

See Exclusion of Miscellaneous Fringe Benefits, *Assessment*, p. 814 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.022 EMPLOYEE MEALS AND LODGING (NONMILITARY)

**Internal Revenue Code Section:** 119 and 132(e)(2)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1918

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $89,000,000 | $89,000,000 |
| 2025-27 | Not Applicable | $83,000,000 | $83,000,000 |

### DESCRIPTION

Employees do not include in personal taxable income the fair market value of meals furnished by employers if the meals are furnished on the employer's business premises and for the convenience of the employer. In certain situations, this includes the value of meals provided to an employee at a subsidized eating facility operated by the employer.

Fair market value of lodging provided by the employer can also be excluded from income, if the lodging is furnished on business premises for the convenience of the employer, and if the employee is required to accept the lodging as a condition of employment.

The Tax Cuts and Jobs Act of 2017 included a provision denying businesses a tax deduction for 50 percent of expenses for meals provided to employees for the convenience of the employer. The federal Joint Committee on Taxation lists the increased tax paid by employers under these provisions as a "negative tax expenditure." Oregon's law defining tax

expenditures does not contemplate this type of negative tax expenditure, so an estimate of the impact of the associated tax increase for Oregon corporate tax is not included. Predominantly the reduction in taxes paid by employees is reflected in the estimated revenue loss above. This revenue impact would also include a small amount from a "negative tax expenditure" for businesses that report their business income on their federal personal income tax return, as the Joint Committee on Taxation reports only a net revenue impact.

### PURPOSE
To eliminate record keeping difficulties and to acknowledge that the fair market value of employer provided meals and lodging may be difficult to measure.

### WHO BENEFITS
Employees who are furnished exempt meals or lodging by their employers.

### EVALUATION
See Treatment of Meals and Lodging (Other Than Military), *Assessment*, p. 785 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.023 EMPLOYEE STOCK OWNERSHIP PLANS

**Internal Revenue Code Section:** 401(a)(28), 404(a)(9), 404(k), 415(c)(6), 512(e), 1042, 4975(d)(3), 4978, and 4979A
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1974

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $26,000,000 | $24,000,000 | $50,000,000 |
| 2025-27 | $29,000,000 | $23,000,000 | $52,000,000 |

### DESCRIPTION
An Employee Stock Ownership Plan (ESOP) is a defined contribution plan (similar to a 401(k) plan) that is required to invest primarily in the stock of the sponsoring employer. Generally, sponsoring employers provide the funds for the ESOP to purchase the stock for the benefit of their employees—no contribution from the employee is required, but the employees are the owners of the stock.

Employees are not taxed on the employer contributions or the earnings on invested funds until they are distributed. An employer may deduct dividends paid on stock held by an ESOP if the dividends are paid to plan participants, if the dividends are used to repay a loan that was used to buy the stock, or for dividends paid on stock in a retirement plan.

Under certain circumstances, a stockholder may defer the recognition of the gain from the sale of stock to an ESOP. The estimated tax benefit is a net figure; the revenue foregone in a given year is offset by the amount of tax paid on distributions in that year.

### PURPOSE
According to the Congressional Research Service, the purpose of the tax incentive is to broaden employee stock ownership, provide employees with a source of retirement income, and grant employers a tax favored means of financing.

### WHO BENEFITS
Employers and employees of participating companies.

### EVALUATION
See Special Tax Provisions for Employee Stock Ownership Plans (ESOPs), *Assessment*, p. 770 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.024 EMPLOYEE AWARDS

**Internal Revenue Code Section:** 74(c) and 274(j)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1986

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $4,000,000 | $4,000,000 |
| 2025-27 | Not Applicable | $4,000,000 | $4,000,000 |

### DESCRIPTION

Tangible personal property given as awards to employees for length of service or for safety are excluded from personal taxable income. The amount of the exclusion is usually limited to $400 but may be as much as $1,600 for individual awards given as part of qualified employee achievement rewards plan. There are certain qualification requirements to ensure that the awards do not constitute disguised compensation.

### PURPOSE

To encourage longevity in employment and safety practices on the job.

### WHO BENEFITS

Employees who receive length of service or safety awards.

### EVALUATION

See Exclusion of Employee Awards, *Assessment*, p. 781 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.025 EMPLOYER PROVIDED EDUCATION BENEFITS

**Internal Revenue Code Section:** 127 and 3121(a)(18)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1978

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $14,000,000 | $14,000,000 |
| 2025-27 | Not Applicable | $11,000,000 | $11,000,000 |

### DESCRIPTION

Employer-provided graduate and undergraduate assistance benefits are excluded from the personal taxable income of the recipient if they are part of an educational assistance program. The limit on the annual exclusion is $5,250, which is not indexed for inflation. Characteristics of the program must include the following:

- The program must not discriminate in favor of highly compensated employees.
- Assistance provided to employees owning more than 5 percent of the business may not exceed more than 5 percent of the benefits.
- Employees must have reasonable notification of the program's availability and terms.

Educational assistance includes the payment of tuition, fees, books, supplies, and equipment; however, it does not include items such as meals, lodging, and transportation. The exclusion does not apply to education pertaining to sports, games, or hobbies unless they involve the employer's business. Through 2025, student loan payments are eligible expenses.

### PURPOSE
According to the Congressional Research Service, the purpose of the exclusion is to encourage employers to offer educational assistance to employees.

### WHO BENEFITS
Employees receiving employer-provided educational assistance.

### EVALUATION
See Exclusion of Employer-Provided Education Assistance Benefits, *Assessment*, p. 764 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.026 SPREAD ON ACQUISITION OF STOCK

**Internal Revenue Code Section:** 421, 422, and 423
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1981

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $9,500,000 | $9,500,000 |
| 2025-27 | Not Applicable | $10,000,000 | $10,000,000 |

### DESCRIPTION
Employees who have been granted stock options under a qualified plan are allowed to exercise, or buy, those options within a specified time frame. Generally, these provisions provide options to employees allowing them to buy stock for less than the current market price. At the time the employee exercises his or her options, the stock is transferred from the company to the employee, but the difference in value between the market value and the option price is not immediately included in taxable income. The value of this exemption is that the tax is deferred until the employee sells the stock.

Contrary to normal treatment of compensation paid to employees, the employers that grants qualified options are not allowed to deduct the options as an expense. As a result, employers pay higher taxes than they would without these provisions. The Joint Committee on Taxation lists the increased tax paid by employers under these provisions as a "negative tax expenditure." Oregon's law defining tax expenditures doesn't contemplate this type of negative tax expenditure, so an estimate of the impact of the associated tax increase for Oregon corporate tax is not included. Predominantly the reduction in taxes paid by employees is reflected in the estimated revenue loss above. This revenue impact would also include a small amount from a "negative tax expenditure" for businesses that report their business income on their federal personal income tax return, as the Joint Committee on Taxation reports only a net revenue impact.

This tax expenditure includes the following components listed separately by the federal Joint Committee on Taxation:

- Deferral of Taxation on Spread on Acquisition of Stock under Incentive Stock Option Plans.
- Deferral of Taxation on Spread on Employee Stock Purchase Plans.

### PURPOSE
"The Economic Recovery Tax Act of 1981 (P.L. 97-34) reinstituted special rules for qualified stock options with the justification that encouraging the management of a business to have a proprietary interest in its successful operation would provide an important incentive to expand and improve the profit position of the companies involved."(Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Taxpayers who receive stock options as a form of compensation.

### EVALUATION
See Assessments for tax expenditures related to spread on acquisition of stock, p. 789 and 795 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.027 MEAL AND ENTERTAINMENT EXPENSES

**Internal Revenue Code Section:** 274
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1962

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $7,500,000 | $7,500,000 |
| 2025-27 | Not Applicable | $8,000,000 | $8,000,000 |

### DESCRIPTION
Employees do not include in personal taxable income the fair market value of entertainment provided by their employers. Employee holiday parties or annual picnics might be examples of employer-provided entertainment excluded by this provision.

The Tax Cuts and Jobs Act of 2017 included a provision denying businesses a tax deduction for most entertainment expenses. The federal Joint Committee on Taxation lists the increased tax paid by employers under these provisions as a "negative tax expenditure." Oregon's law defining tax expenditures does not contemplate this type of negative tax expenditure, so an estimate of the impact of the associated tax increase for Oregon corporate tax is not included. Predominantly the reduction in taxes paid by employees is reflected in the estimated revenue loss above. This revenue impact would also include a small amount from a "negative tax expenditure" for businesses that report their business income on their federal personal income tax return, as the Joint Committee on Taxation reports only a net revenue impact.

### PURPOSE
To eliminate record keeping difficulties and to acknowledge that the fair market value of employer provided entertainment may be difficult to measure.

### WHO BENEFITS
Employees who are furnished exempt entertainment by their employers.

### EVALUATION
See Treatment of Meals and Entertainment, Assessment, p. 825 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.028 VETERANS' BENEFITS AND SERVICES

**Federal Code:** U.S. Code Title 38, Section 5301
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1917

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $160,000,000 | $160,000,000 |
| 2025-27 | Not Applicable | $170,000,000 | $170,000,000 |

### DESCRIPTION
All benefits provided by the U.S. Department of Veterans Affairs (VA) are excluded from the personal taxable income of recipients, including disability compensation, pensions, and GI bill benefits.

This tax expenditure includes the following components listed separately by the federal Joint Committee on Taxation:

- Exclusion of Veteran's Disability Compensation.
- Exclusion of Veteran's Pensions.
- Exclusion of Veteran's Readjustment [GI bill] Benefits.

### PURPOSE
"Many have concluded that the exclusion is in recognition of the extraordinary sacrifices made by armed forces personnel, especially during periods of war." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions:* 2022)

### WHO BENEFITS
Veterans, their survivors, and dependents and their families receiving benefits from the VA.

### EVALUATION
See Assessments for tax expenditures related to veterans' benefits and services, p. 1118, 1124, and 1128 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.029 MILITARY AND DEPENDENTS TRICARE INSURANCE

**Internal Revenue Code Section:** 112 and 134
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1925

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $98,000,000 | $98,000,000 |
| 2025-27 | Not Applicable | $110,000,000 | $110,000,000 |

### DESCRIPTION
Health insurance benefits, such as medical and dental benefits, provided to dependents of active-duty military personnel as well as retired military and their dependents are not taxed. Some medical care for such dependents is provided in military facilities and by military doctors on a space available basis. The tax expenditure for benefits not taxed for active-duty military personnel is described in 1.051, Benefits and Allowances of Armed Forces Personnel.

The Department of Defense (DOD) has implemented TRICARE, in an effort to coordinate the efforts of armed services' medical facilities and civilian providers. Beneficiaries can receive care under one of three options:

- TRICARE Prime, a DOD-managed HMO
- TRICARE Extra, a preferred-provider organization
- TRICARE Standard, a fee-for-service option that provides access to any authorized provider but at a higher copayment.

Under the latter two options, beneficiaries are reimbursed for portions of the costs of health care received from civilian providers. Retirees and their dependents who are eligible for Medicare and participate in Medicare Part B are allowed to retain their TRICARE coverage, which includes pharmaceutical benefits.

The revenue estimate is based on two provisions listed separately by the federal Joint Committee on Taxation. The two provisions arise by differentiating between recipients based on their eligibility for Medicare.

### PURPOSE
"In 1925, the United States Court of Claims, in its ruling in Jones v. United States, 60 Ct. Cl. 552 (1925), drew a sharp distinction between the pay and the allowances received by military personnel. The court ruled that housing and housing allowances for these individuals constituted reimbursements similar to other tax-exempt benefits received by employees in the executive and legislative branches." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Retired military personnel receiving medical benefits for themselves or their dependents, and active-duty military members receiving medical care benefits for their dependents.

### EVALUATION
See Assessments for tax expenditures related to military and dependents medical care and insurance, p. 973 and 980 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.030 CASH ACCOUNTING, OTHER THAN AGRICULTURE

**Internal Revenue Code Section:** 446 and 448
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1916

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $5,000,000 | $16,000,000 | $21,000,000 |
| 2025-27 | $5,000,000 | $15,000,000 | $20,000,000 |

### DESCRIPTION
Employee-owned service businesses and small businesses with average annual gross receipts of less than $26 million (as of 2022) for the prior three years are allowed to choose the cash method of accounting instead of the accrual method.

The Tax Cuts and Jobs Act of 2017 increased the gross receipts threshold for tax years beginning in 2018 and added indexing for inflation. The prior threshold was $5 million in gross receipts.

This expenditure changes the timing of reporting earnings and expense but is classified here as an exclusion of income. Using the cash method of accounting for tax purposes effectively defers corporation and personal income tax by allowing qualified businesses to record income when it is received rather than when it is earned.

This expenditure relates to "Cash Accounting for Agriculture", which is among the Joint Committee on Taxation's list of de minimis tax expenditures. More information about this expenditure may be found on p. 327 in Tax Expenditures: Compendium of Background Material on Individual Provisions, 2022.

### PURPOSE
"Most self-employed individuals and many other smaller businesses use the cash method of accounting for tax purposes because recordkeeping is less burdensome. […] The Revenue Act of 1916 allowed businesses to calculate their taxable income using the same accounting method they used to compute their income for financial reporting". (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Primarily, owners of eligible small businesses and professional service corporations of all sizes.

### EVALUATION
See Cash Accounting, Other than Agriculture, *Assessment*, p. 527 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.031 INVENTORY METHODS OF VALUATION

**Internal Revenue Code Section:** 475, 491–492
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1938

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | $11,000,000 | $2,000,000 | $13,000,000 |
| 2025-27 | $11,000,000 | $2,000,000 | $13,000,000 |

## DESCRIPTION

A taxpayer who sells goods must generally maintain inventory records to determine the cost of goods sold. Inventory can be kept by tracking individual items or may use several other methods.

The method that is considered normal for purposes of this tax expenditure is FIFO (first-in, first-out, assuming the most recent good sold is the earliest one purchased). The method with the largest difference versus FIFO is known as LIFO (last-in, first-out, assuming the most recent good sold is the last one purchased). If using FIFO, a taxpayer with inventory that is valued below cost may choose the lower of cost or market (LCM) method which allows the taxpayer a further tax reduction. Taxpayers may also use a method known as "specific identification" to specify which lots are sold and which are valued in inventory.

The federal Joint Committee on Taxation lists estimates of the impact for the first two alternate methods separately, but the bulk of the impact of this provision is from the LIFO method. The Joint Committee on Taxation considers the impact of the "specific identification" method as de minimis and is therefore not included in this estimate.

## PURPOSE

When LIFO was adopted for tax purposes in 1939, the “reason for adopting it was to allow a standard accounting practice.” In 1981, LIFO reporting was simplified, “…by allowing a simplified dollar value method that could be applied to all inventory by small businesses and allowed the use of external indexes. The reason was to make the method that most effectively mitigates the effects of inflation more accessible to all businesses.” (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

## WHO BENEFITS

Business taxpayers who use alternate methods of valuing their inventory.

## EVALUATION

See Inventory Methods and Valuation: LIFO, LCM, and Specific Identification, *Assessment*, p. 584 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.032 ENERGY CONSERVATION SUBSIDIES (FEDERAL)

**Internal Revenue Code Section:** 136
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1992

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $500,000 | $500,000 |
| 2025-27 | Not Applicable | $500,000 | $500,000 |

## DESCRIPTION

Residential energy customers can exclude from personal taxable income subsidies provided by public utilities for the purchase or installation of an energy conservation improvement.

Subsidies paid to corporations are not exempt under this federal provision but can be subtracted from gross income under 1.320, Energy Conservation Subsidies (Oregon).

### PURPOSE
According to the Congressional Research Service, the purpose of the exclusion is to encourage residential customers of public utilities to participate in conservation programs sponsored by the utility. This would enhance energy efficiency of dwelling units and encourage energy conservation in residential buildings.

### WHO BENEFITS
Homeowners who participate in conservation programs and receive rebates to install energy saving devices.

### EVALUATION
See Exclusion of Energy Conservation Subsidies Provided by Public Utilities, *Assessment*, p. 124 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.033 PASS-THROUGH STATUS OF SPECIFIED PUBLICLY TRADED PARTNERSHIPS

**Internal Revenue Code Section:** 7704
**Oregon Statute:** 317.013 (Connection to federal corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1987

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $4,500,000 | Not Applicable | $4,500,000 |
| 2025-27 | $6,500,000 | Not Applicable | $6,500,000 |

### DESCRIPTION
With a few exceptions, publicly traded partnerships that receive at least 90 percent of their gross income from qualifying sources are treated as pass-through entities for tax purposes and are exempt from corporate taxes that would otherwise apply. This exemption is an exception to general rules that subject partnerships traded on established securities markets to corporate taxes.

Qualifying income sources include interest, dividends, property rental income and gain from disposition of real property. In addition, income derived from certain activities related to energy or mining of natural resources also qualifies. The federal Joint Committee on Taxation classifies this as a tax expenditure affecting personal income taxpayers and lists one provision for energy and another for mining.

### PURPOSE
The Congressional Research Service notes that proponents of these policies may argue, "…that the industries targeted through the definition of qualified income have reason to be subsidized, and government policy should help spur investment and growth" in the energy sector and the exploration of natural resources. (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Owners of publicly traded partnerships that are exempt from corporate-level taxation.

### EVALUATION
See Assessments for tax expenditures related to pass through status of specified publicly traded partnerships, p. 113 and 303 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.034 EMPLOYER PAID TRANSPORTATION BENEFITS

**Internal Revenue Code Section:** 132(f)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None (TCJA suspension of bike benefits is temporary, see description)
**Year Enacted:** 1984

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $53,000,000 | $53,000,000 |
| 2025-27 | Not Applicable | $52,000,000 | $52,000,000 |

## DESCRIPTION

In general, all compensation (wages and benefits) of an employee is taxable income of the employee. This provision exempts employer payments for employee parking, transportation in a commuter highway vehicle, and transit passes from inclusion in employees' personal taxable income. Employees can use pretax dollars, if their employer allows, to pay for transit passes, vanpool fares, and parking. Parking facilities provided free of charge by the employer are also excludable from income. Employees are allowed to elect taxable cash compensation in lieu of qualified transportation fringe benefits.

For 2024, the maximum exclusion for parking, transit, and commuter transportation is $315 per month, which is adjusted each year for inflation.

The Tax Cuts and Jobs Act of 2017 (TCJA) made these benefits non-deductible for employers that provide them. The federal Joint Committee on Taxation lists the increased tax paid by employers under these provisions as a "negative tax expenditure." Oregon's law defining tax expenditures does not contemplate this type of negative tax expenditure, so an estimate of the impact of the associated tax increase for Oregon corporate tax is not included. Predominantly, the reduction in taxes paid by employees is reflected in the estimated revenue loss above. This revenue impact would also include a small amount from a "negative tax expenditure" for businesses that report their business income on their federal personal income tax return, as the Joint Committee on Taxation reports only a net revenue impact.

TCJA also suspended the bicycle commuting exclusion for 2018 through 2025. The maximum exclusion for qualified bicycle commuting expenses was $20 per month for employees who regularly used a bicycle for commuting and did not receive other commuting benefits. The maximum exclusion for bicycle commuting is not adjusted for inflation.

## PURPOSE

According to the Congressional Research Service, the exclusions for mass transit and commuter transportation were introduced because "Subsidies for mass transit and vanpools encourage use of mass transportation and may reduce congestion and pollution." The parking benefit was given a statutory exclusion in 1984 because some employers had been providing free parking as a fringe benefit, "for many years, and employers, employees, and the Internal Revenue Service had not considered [it] taxable." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

## WHO BENEFITS

The exclusion benefits both employers and employees. Employees benefit through higher compensation while their employers may benefit through lower wage costs. To the extent this exemption induces employees to use mass transportation, and assuming mass transportation reduces congestion, this exemption may lower commuting costs to all workers in urban areas.

## EVALUATION

See Treatment of Employer-Paid Transportation Benefits (Parking, Van Pools, and Transit Passes, Black Car Services), *Assessment*, p. 616 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.035 CERTAIN DISASTER MITIGATION PAYMENTS

**Internal Revenue Code Section:** 139(g)
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 2005

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $500,000 | $1,000,000 | $1,000,000 |
| 2025-27 | Less than $500,000 | $500,000 | $500,000 |

### DESCRIPTION

Disaster mitigation payments made to the owner of a property to mitigate hazards to that property, as paid through the Robert T. Stafford Disaster Relief and Emergency Assistance Act or the National Flood Insurance Act, are excluded from taxable income.

### PURPOSE

To retain the value of disaster mitigation payments by not imposing tax on those payments.

### WHO BENEFITS

Recipients of specified disaster mitigation payments.

### EVALUATION

See Exclusion of Disaster Mitigation Payments, *Assessment*, p. 1002 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.036 CREDIT UNION INCOME

**Internal Revenue Code Section:** 501(c)(14) and 12 U.S.C. § 1768
**Oregon Statute:** 317.080(1)
**Sunset Date:** None
**Year Enacted:** 1951

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $32,000,000 | Not Applicable | $32,000,000 |
| 2025-27 | $37,000,000 | Not Applicable | $37,000,000 |

### DESCRIPTION

Credit unions without capital stock, organized and operated for mutual purposes and without profit are exempt from corporate income taxation. Credit unions are nonprofit cooperatives organized by people with a common bond that distinguishes them from the general public. Members pool their funds to make loans to one another. Credit unions may be more likely to provide services to low-income individuals at rates lower than other financial institutions.

Credit union members with deposits pay federal income tax on interest earned on those deposits, independent of this federal provision.

Before 1951, the income of mutual banks, savings and loans, and credit unions was not taxed. In 1951, the exemption from mutual banks and savings and loans was removed, but credit unions retained the exemption.

### PURPOSE

In 1951, at the time that the exemption for mutual banks and savings and loan institutions was removed, no specific reason was given for continuing the exemption of credit unions. “Supporters of the credit union exemption emphasize the uniqueness of credit unions compared to other depository institutions.” (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions:* 2022)

### WHO BENEFITS
Credit unions meeting the eligibility requirements.

### EVALUATION
See Exemption of Credit Union Income, *Assessment*, p. 342 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.037 ELIMINATION OF TAX EXEMPT INTEREST ALLOCATION FOR BANKS

**Internal Revenue Code Section:** 265(a), 265(b), 291(e) and 141
**Oregon Statute:** 317.013 (Connection to federal corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 2009

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $4,500,000 | Not Applicable | $4,500,000 |
| 2025-27 | $4,500,000 | Not Applicable | $4,500,000 |

### DESCRIPTION
This tax expenditure is a modification from complex rules intended to keep financial institutions from benefiting from two tax exemptions on interest on tax exempt bonds. Financial institutions normally deduct the interest they pay depositors from their income as a business expense. The interest deduction is required to be reduced by the percentage of a financial institution's investments that are in tax-free bonds.

For bonds issued in 2009 and 2010, the reduced interest deduction does not apply if the financial institution has less than 2 percent of its investments in tax-free bonds, or its tax-free bonds meet certain qualifying criteria.

### PURPOSE
According to the Congressional Research Service, "The American Recovery and Reinvestment Act of 2009 (P.L. 111-5) expanded the de minimis level for small issuers and allowed a two-percent safe harbor for financial institutions to stimulate demand for tax-exempt obligations." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Banks that have qualified investments in tax-free bonds.

### EVALUATION
See Eliminate Requirement that Financial Institutions Allocate Interest Expense Attributable to Tax-Exempt Interest, *Assessment*, p. 1146 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.038 WORKERS' COMPENSATION BENEFITS (MEDICAL)

**Internal Revenue Code Section:** 104(a)(1)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1918

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $37,000,000 | $37,000,000 |
| 2025-27 | Not Applicable | $44,000,000 | $44,000,000 |

### DESCRIPTION
Workers' compensation medical benefits are not included in personal taxable income. These benefits include payments for medical treatment of work-related illness or injury. The revenue impact estimates shown are for workers' compensation medical benefits only; workers' compensation nonmedical benefits are covered in tax expenditure 1.039, Workers' Compensation Benefits (Nonmedical).

### PURPOSE
To compensate for the economic hardship imposed by work-related injury, sickness, or death and to be consistent with the tax treatment of court-awarded compensatory damages. See tax expenditure 1.006, Compensatory Damages.

### WHO BENEFITS
Any worker covered by the workers' compensation program including injured or ill workers who receive workers' compensation medical benefits.

### EVALUATION
See Exclusion of Workers' Compensation Benefits (Medical Benefits), *Assessment*, p. 944 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.039 WORKERS' COMPENSATION BENEFITS (NONMEDICAL)

**Internal Revenue Code Section:** 104(a)(1)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1918

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $25,000,000 | $25,000,000 |
| 2025-27 | Not Applicable | $23,000,000 | $23,000,000 |

### DESCRIPTION
Workers' compensation nonmedical benefits are not included in personal taxable income. Nonmedical workers' compensation benefits are paid to disabled workers in the case of work-related injury or to their families in cases of work-related death. The revenue impact estimates shown above are for workers' compensation nonmedical benefits only. These benefits may include cash earnings replacement payments, special payments for physical impairment, and coverage for certain injury or death-related expenses (e.g., burial costs). The effect of workers' compensation medical benefits is covered in tax expenditure 1.038, Workers' Compensation Benefits (Medical).

### PURPOSE
To compensate for the economic hardship imposed by work-related injury, sickness, or death, and to be consistent with the tax treatment of court-awarded compensatory damages. See tax expenditure 1.006, Compensatory Damages, for more information.

### WHO BENEFITS
Any worker covered by the workers' compensation program including workers or their families (in cases of work-related death) receiving workers' compensation benefits.

### EVALUATION
See Exclusion of Workers' Compensation Benefits (Disability and Survivors Payments), *Assessment*, p. 1007 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.040 GAIN ON NONDEALER INSTALLMENT SALES

**Internal Revenue Code Section:** 453 and 453A(b)
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1921

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $41,000,000 | $8,500,000 | $49,500,000 |
| 2025-27 | $46,000,000 | $7,500,000 | $53,500,000 |

## DESCRIPTION

Persons who do not deal regularly in selling property (nondealers) are allowed to defer the tax on gains from sales of property that are not readily tradable by using the installment method of accounting. Under the installment method, gross profit from the sale is prorated over the years during which the payments are received. The deferral of taxes conveys a tax advantage compared to being taxed in full in the year of sale.

Interest must be paid to the federal government on the deferred taxes attributable to the portion of the installment sales that exceed $5 million. Oregon law (ORS 314.302) requires that interest also be paid to Oregon for these deferred taxes.

## PURPOSE

To match the timing of tax payments to the timing of the cash flow generated by the sale of the property. Requiring an up-front payment of taxes by a seller who won't receive the bulk of payments for the property until the future can place a heavy burden on infrequent sellers of property.

## WHO BENEFITS

Infrequent sellers of property who sell on an installment basis. "…the primary benefit probably flows to sellers of farms, small businesses, and small real estate investments." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

## EVALUATION

See Deferral of Gain on Non-Dealer Installment Sales, *Assessment*, p. 457 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.041 GAIN ON LIKE-KIND EXCHANGES

**Internal Revenue Code Section:** 1031
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1921

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $10,000,000 | $98,000,000 | $108,000,000 |
| 2025-27 | $9,500,000 | $86,000,000 | $95,500,000 |

## DESCRIPTION

Like-kind exchanges are exchanges of properties that are of the same general type but may be of very different quality and use, such as real estate. For exchanges in 2018 or later, the Tax Cuts and Jobs Act of 2017 limits the deferral of gain to real property (generally land and buildings).

Gain at the time of exchange is deferred until the property is ultimately disposed of. In the case of properties being exchanged in a series of transactions, the accumulated gains from each transaction are claimed for tax purposes only in the year the final property in the series is disposed of.

Before 2001, non-Oregon residents were required to claim the accumulated gains on property within Oregon at the time the property was disposed of in exchange for property outside Oregon. Following the passage of HB 2206 in 2001, non-Oregon resident taxpayers are allowed the same benefits as Oregon resident taxpayers in regard to continuing to defer the gains from the Oregon property until the series of like-kind exchanges is ended by the disposal of the final property.

### PURPOSE
To recognize that the investment in the new property is much like a continuation of the investment in the old and therefore, is not a taxable event.

### WHO BENEFITS
Taxpayers who engage in exchanges of like properties. This type of activity is concentrated in the real estate sector.

### EVALUATION
See Deferral of Gain on Non-Dealer Installment Sales, *Assessment*, p. 457 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.042 ALLOWANCES FOR FEDERAL EMPLOYEES ABROAD

**Internal Revenue Code Section:** 912
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1943

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $4,000,000 | $4,000,000 |
| 2025-27 | Not Applicable | $4,000,000 | $4,000,000 |

### DESCRIPTION
U.S. federal civilian employees working abroad are allowed to exclude from personal taxable income certain special allowances that are primarily for the costs of living abroad, such as the costs of housing, education, and travel.

### PURPOSE
"Congress determined that federal personnel overseas were engaged in 'highly important' duties and that the allowances merely offset the extra costs of working and living abroad. Congress determined that the government should bear the full burden of the excess living costs, including any income taxes that would otherwise be imposed on cost-of-living allowances." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Federal civilian employees working abroad.

### EVALUATION
See Exclusion of Certain Allowances for Federal Employees Abroad, *Assessment*, p. 41 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.043 INTEREST ON OREGON STATE AND LOCAL DEBT

**Internal Revenue Code Section:** 103, 141-146, 501(c)(3)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1913

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $40,400,000 | $40,400,000 |
| 2025-27 | Not Applicable | $41,600,000 | $41,600,000 |

## DESCRIPTION

The interest income earned from state or local government obligations is excluded from federal corporate and personal taxable income. Oregon does not allow this exclusion for corporate income taxpayers; however, Oregon does allow this exclusion for personal income taxpayers for interest income from Oregon state or local government obligations. These obligations are primarily bonds issued by the state of Oregon and local government taxing districts such as cities, counties, and school districts. Interest and dividends on bonds and notes of other states or political subdivisions are taxable in Oregon.

These bonds fall into two categories. First, there are governmental bonds in which the bond proceeds generally are used to build capital facilities that are owned and operated by governmental entities and serve the general public interest, such as highways, schools, and government buildings. The majority of the tax benefit falls in this category.

Second, there are qualified private activity bonds where a portion of the bond benefits accrue to individuals or businesses rather than to the general public. These include state and local government bonds for: energy production, local furnishing of electric energy or gas, and local district heating or cooling facilities; sewage, water as well as solid and hazardous waste facilities; owner-occupied, rental, and veterans' housing; small issue industrial development; high-speed rail, private airports, docks, mass-commuting, highway and surface freight transfer facilities; student loans and public education facilities; private nonprofit hospital facilities; carbon capture facilities; broadband projects; green building and sustainable design projects. Many of these bonds are subject to the state private activity bond annual volume cap set by the federal government.

Interest income on qualified private activity bonds is exempt from federal income tax as well as Oregon income tax. There are other nonqualified private activity bonds. The interest earned on these bonds is taxable at the federal level but not at the state level. See tax expenditure 1.316, Interest from State and Local Government Bonds, for more information.

## PURPOSE

"… many believe the exemption for governmental bonds is still justified on economic grounds, principally as a means of encouraging state and local governments to invest in public capital." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022). Presumably, the exclusion is allowed for interest from Oregon state or local government obligations for personal income taxpayers as a way to lower the cost of borrowing for Oregon state and local governments.

## WHO BENEFITS

In 2022, about 64,800 Oregon taxpayers reported nontaxable interest income from Oregon state or local government debt obligations, saving a total of about $18.9 million in tax.

## EVALUATION

See Exclusion of Interest on Public Purpose State and Local Government Bonds, *Assessment*, p. 1133 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.044 VOLUNTARY EMPLOYEES' BENEFICIARY ASSOCIATIONS

**Internal Revenue Code Section:** 419, 419A, 501(a), 501(c)(9), 512(a)(3), and 4976
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1928

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $16,000,000 | $16,000,000 |
| 2025-27 | Not Applicable | $16,000,000 | $16,000,000 |

### DESCRIPTION
Voluntary Employees' Beneficiary Associations (VEBAs) generally fund the expenses of life insurance, medical, accident, and other benefits to associations of employees, their dependents, and their beneficiaries. If certain requirements are met, contributions to and income earned by VEBAs can be exempt from income taxes. Depending on the circumstances, benefit distributions to recipients from VEBAs may or may not be taxable.

### PURPOSE
To promote the provision of life, sickness, accident, and other insurance and fringe benefits and the structuring of benefits in an irrevocable trust fund associated with a VEBA.

### WHO BENEFITS
Recipients of the program benefits and employers who contribute.

### EVALUATION
See Exclusion of Income Earned by Voluntary Employees' Beneficiary Associations, *Assessment*, p. 809 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.045 RENTAL ALLOWANCES FOR CLERGY HOUSING

**Internal Revenue Code Section:** 107 and 265
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1921

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $7,500,000 | $7,500,000 |
| 2025-27 | Not Applicable | $7,500,000 | $7,500,000 |

### DESCRIPTION
Clergy members can exclude from personal taxable income the fair rental value of a home owned or rented by a religious organization or a cash housing allowance paid as part of the clergy member's compensation. While the terms "minister" and "church" are referenced in the Internal Revenue Code, these exclusions apply to clergy in all religions.

### PURPOSE
"The exclusion for the housing allowances for ministers entered the federal tax code through the Revenue Act of 1921. There is no record of why Congress did so. … Congress may have intended to provide tax relief to a segment of society that was widely seen as essential to the spiritual welfare of Americans, but that often experienced economic deprivation because of their relatively low salaries." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Clergy members who receive a housing allowance or who live in a home provided by the religious organization.

### EVALUATION
See Exclusion of Housing Allowances for Ministers, *Assessment*, p. 800 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.046 DISCHARGE OF CERTAIN STUDENT LOAN DEBT

**Internal Revenue Code Section:** 108(f), 20 U.S.C. § 1087ee(a)(5)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None (TCJA provisions are temporary, see description)
**Year Enacted:** 1984

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $12,000,000 | $12,000,000 |
| 2025-27 | Not Applicable | $6,500,000 | $6,500,000 |

### DESCRIPTION
Income for tax purposes generally includes cancelled, forgiven, or debt repaid on the borrower's behalf. Discharged student loan debt may be excluded if the relevant loan was made by specified types of lenders, borrowed to assist an individual in attending an educational organization, and contained terms providing that some or all of the loan would be cancelled for work performed for a specified period of time, in a certain profession, and for a specified broad class of employers. Specified lenders include the federal government, state and local governments, public benefit corporations, tax-exempt public benefit corporations, and qualified educational institutions.

The major federal loans qualifying for exempt discharge of indebtedness are the William D. Ford Federal Direct Loan (DL), Federal Perkins Loan, and the Federal Family Education Loan (FFEL – no longer available, however any amount remaining amount on the loan that is cancelled may be excluded). This provision also excludes repayment of loans on behalf of graduates made under the National Health Service Corps repayment program.

The Tax Cuts and Jobs Act of 2017 temporarily expanded this provision, allowing discharge due to death or permanent disability to qualify in tax years 2018 through 2025. The American Rescue Plan Act (ARPA) of 2021 broadened this temporary expansion to include loans discharged for almost any reason.

### PURPOSE
To encourage individuals to work for federal, state, or local government agencies and school districts where discharge of a student loan is offered as an incentive.

### WHO BENEFITS
Individuals with student loans discharged under the program.

### EVALUATION
See Exclusion of Income Attributable to the Discharge of Certain Student Loan Debt and Certain Federal and State Education Loan Repayment Programs, *Assessment*, p. 748 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.047 CAPITAL GAINS ON INHERITED PROPERTY

**Internal Revenue Code Section:** 303, 1001, 1014, 1023, 1040, 1221, and 1222
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1921

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $690,000,000 | $690,000,000 |
| 2025-27 | Not Applicable | $730,000,000 | $730,000,000 |

## DESCRIPTION

In general, capital gains are taxed based on the increased value of property when it is sold or exchanged. However, when property is transferred at death, unrealized capital gains on the property are excluded from personal taxable income. The new basis for the heir is set to the market value on the date of the decedent's death. The revenue loss estimates do not reflect any potential tax liability associated with Oregon's estate tax.

In addition, income from redemption of stock (selling stock back to the corporation) after the decedent's death receives the new basis and is treated as a capital gain if the stock is more than 35 percent of the estate and the redemption value does not exceed the expenses or taxes associated with the estate. This redemption of stock is listed as a separate expenditure by the federal Joint Committee on Taxation, but income from redemption of stock represents a very small part of this tax expenditure.

## PURPOSE

At the federal level, this treatment is intertwined with the treatment of gifts given while a person is alive ("*inter vivos* gifts"). "The original rationale for nonrecognition of capital gains on *inter vivos* gifts or transfers at death is not indicated in the legislative history of any of the several interrelated applicable provisions. One current justification given for the treatment, however, is that death and *inter vivos* gifts are considered as inappropriate events to result in the recognition of income." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

## WHO BENEFITS

Recipients of inherited assets with accumulated capital gains.

## EVALUATION

See Assessments for tax expenditures related to capital gains on inherited property, p. 454 and 580 *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.048 CAPITAL GAINS ON GIFTS

**Internal Revenue Code Section:** 1015, 1023, 1040, 1221, and 1222
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1921

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $49,000,000 | $49,000,000 |
| 2025-27 | Not Applicable | $40,000,000 | $40,000,000 |

## DESCRIPTION

When a gift is made, any capital gain accrued on the property while held by the donor is excluded from personal taxable income until the recipient disposes of the property. The recipient is taxed on the capital gains at the time of sale

of the property. The tax expenditure is the net value of deferred taxes in a given year, minus the taxes on realized gains deferred in prior years.

### PURPOSE
At the federal level, gifts given while a person is alive are often called "*inter vivos* gifts" to distinguish them from inherited property given at the time of death. "The original rationale for nonrecognition of capital gains on *inter vivos* gifts or transfers at death is not indicated in the legislative history of any of the several interrelated applicable provisions. One current justification given for the treatment, however, is that death and *inter vivos* gifts are considered as inappropriate events to result in the recognition of income." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Donors and recipients of gifts.

### EVALUATION
See Carryover Basis of Appreciated Property Transferred by Gifts, *Assessment*, p. 532 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.049 LIFE INSURANCE PROCEEDS

**Internal Revenue Code Section:** 101
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1913

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $15,000,000 | $120,000,000 | $135,000,000 |
| 2025-27 | $16,000,000 | $130,000,000 | $146,000,000 |

### DESCRIPTION
Life insurance proceeds paid to a beneficiary because of the death of the insured person are generally excluded from taxable income. A few cases exist where proceeds may be included in taxable income, including interest on a delayed payment or certain profits from selling a policy during the lifetime of the insured person.

### PURPOSE
Presumably, the purpose is to support family members and businesses that receive a payment from a life insurance policy.

### WHO BENEFITS
Beneficiaries of untaxed life insurance proceeds.

### EVALUATION
See Exclusion of Amounts Received Under Life Insurance Contracts, *Assessment*, p. 1096 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.050 DISABILITY BENEFITS OF MILITARY AND VICTIMS OF TERRORISM

**Internal Revenue Code Section:** 104(a)(4)-(5) and 104(b)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1942

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $3,000,000 | $3,000,000 |
| 2025-27 | Not Applicable | $3,500,000 | $3,500,000 |

## DESCRIPTION

Individuals who were members of the armed forces on or before September 24, 1975, may be eligible for the exclusion of disability pay from personal taxable income. In addition, under the Victims of Terrorism Tax Relief Act of 2001, any civilian or member of the military whose disability is attributable to terrorism or military action anywhere in the world may exclude disability income from gross income.

For members of the armed forces, the amount of disability pay is calculated as the greater of:

- The percentage of disability multiplied by the terminal monthly basic pay
- The terminal monthly basic pay multiplied by the number of service years times 2.5.

If the percentage-of-disability method is used, the entire amount is excludable from taxable income. If the years-of-service method is used, only the portion that would have been paid under the percentage-of-disability method is excludable.

Members of the armed forces who joined after September 24, 1975, may exclude Department of Defense disability payments equivalent to disability payments they could have received from the Veterans' Administration. Otherwise, disability pensions may be excluded only if the disability is combat related.

## PURPOSE

To compensate for the economic hardship imposed by injury or sickness and to be consistent with the tax treatment of workers' compensation payments and court-awarded damages, which also are not taxed.

## WHO BENEFITS

Veterans or victims of terrorism receiving excluded disability payments.

## EVALUATION

See Exclusion of Military Disability Benefits, *Assessment*, p. 27 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.051 BENEFITS AND ALLOWANCES OF ARMED FORCES PERSONNEL

**Internal Revenue Code Section:** 112 and 134
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1925

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $64,000,000 | $64,000,000 |
| 2025-27 | Not Applicable | $66,000,000 | $66,000,000 |

### DESCRIPTION
Various in-kind benefits received by military personnel are not taxed. These benefits include medical and dental benefits, group term life insurance, professional education and dependent education, moving and storage, premiums for survivor and retirement protection plans, subsistence allowances, uniform allowances, housing allowances, overseas cost of living allowances, evacuation allowances, family separation allowances, travel for consecutive overseas tours, emergency assistance, family counseling and defense counsel, burial and death services, and travel of dependents to a burial site. In addition, payments made to families as death gratuities when members of the armed forces die are tax exempt.

### PURPOSE
"For some compensation, the rationale for an exclusion was a desire to reduce the tax burden of military personnel during wartime (e.g., the exclusion for combat pay). For other compensation, the exclusion was based on the belief that the benefits were intrinsic to the military way of life". (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
People serving in the U.S. military.

### EVALUATION
See Exclusion of Benefits and Allowances for Armed Forces Personnel, *Assessment*, p. 22 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.052 COMBAT PAY

**Internal Revenue Code Section:** 112
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None (TCJA provisions are temporary, see description)
**Year Enacted:** Pre-1945

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $6,500,000 | $6,500,000 |
| 2025-27 | Not Applicable | $7,500,000 | $7,500,000 |

### DESCRIPTION
Compensation paid to members of the U.S. armed forces is generally taxable. This provision excludes income earned by active-duty armed forces members in combat zones. It also applies to members hospitalized for injury received or a disease contracted in a combat zone for up to two years after termination of combatant activities in the combat zone.

The Tax Cuts and Jobs Act of 2017 includes a temporary provision expanding the definition of combat zones to include a "qualified hazardous duty area." Currently, the definition adds the Sinai Peninsula of Egypt. This provision applies to the portion of the first taxable year ending after June 9, 2015 as well as subsequent taxable years beginning before January 1, 2026.

### PURPOSE
"Generally, the compensation paid to military personnel serving in a combat zone is increased to reflect the hazards inherent in such a duty. Excluding combat pay from taxation may reflect a general public recognition that service members should be rewarded for putting their lives at risk." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Active-duty military personnel serving in a combat zone.

### EVALUATION
See Exclusion of Combat Pay, *Assessment*, p. 31 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.053 DEFERRAL OF INTEREST ON SAVINGS BONDS

**Internal Revenue Code Section:** 454(c)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1951

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $4,000,000 | $4,000,000 |
| 2025-27 | Not Applicable | $3,500,000 | $3,500,000 |

### DESCRIPTION
Owners of U.S. Treasury Series E, Series EE, and Series I savings bonds have the option of either including interest in taxable income as it accrues or excluding interest from taxable income until the bond is redeemed. The revenue loss shown above is the tax that would be due on the deferred interest if it were reported and taxed as it accrued.

The deferral of tax on interest income on savings bonds provides two advantages. The first advantage is the deferral of any tax payment on the accrued interest, which is equivalent to receiving an interest-free loan. The second advantage results from the taxpayer often being in a lower income tax bracket when the bond is redeemed, such as after the taxpayer has retired.

### PURPOSE
The Congressional Research Service reports that the purpose is to encourage holding U.S. savings bonds.

### WHO BENEFITS
Holders of savings bonds that defer the inclusion of earned interest in their taxable income. According to the Congressional Research Service, the primary beneficiaries are middle-income taxpayers.

### EVALUATION
See Deferral of Interest on Savings Bonds, *Assessment*, p. 1155 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.054 DEFERRAL OF CERTAIN ADVANCE PAYMENTS

**Internal Revenue Code Section:** 451(c)
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation income)
**Sunset Date:** None
**Year Enacted:** 2017

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | $12,000,000 | $3,500,000 | $15,500,000 |
| 2025-27 | $13,000,000 | $3,500,000 | $16,500,000 |

### DESCRIPTION
Taxpayers usually account for income using the accrual method, which accounts for income based on when transactions are made. The Tax Cuts and Jobs Act of 2017 (TCJA) codified an exception with respect to advance payments—i.e. payments received before the goods or services are provided—that had been formerly allowed by administrative guidance. The exception, which applies to tax years beginning after December 31, 2017, allows

taxpayers to defer, for one year only, the recognition of advance payments if the taxpayer's financial accounting statement defers recognition. Payments for goods and services (such as subscriptions and gift cards) are eligible whereas items such as rent and insurance payments are not.

## PURPOSE

The Congressional Research Service did not state a clear purpose for this federal provision. Presumably, it is meant to support businesses that receive advance payments. The Congressional Research Service did note, however, that this provision "conforms the recognition of income more closely to financial accounting and is consistent with matching income and costs." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions:* 2022)

## WHO BENEFITS

Taxpayers who receive advance payments. According to the Congressional Research Service, this tax expenditure "is used more extensively by unincorporated businesses." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions:* 2022)

## EVALUATION

See Deferral of Certain Advance Payments, Assessment, p. 600 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.101 TEACHER CLASSROOM EXPENSES

**Internal Revenue Code Section:** 62(a)(2)(D)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 2002

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $1,900,000 | $1,900,000 |
| 2025-27 | Not Applicable | $1,900,000 | $1,900,000 |

## DESCRIPTION

Eligible elementary or secondary school employees are allowed to deduct unreimbursed eligible expenses. The deduction was limited to $300 in 2023. This amount is adjusted each year for inflation (rounded to the nearest $50) and can be taken without itemizing (known as an adjustment or above the line deduction).

Eligible expenses are for books, supplies, computer equipment, supplementary materials used in the classroom and professional development. Eligible employees include kindergarten through grade 12 teachers, instructors, counselors, and principals working in a school for at least 900 hours during a school year.

This provision was enacted as a temporary provision in 2002 and was temporarily extended several times. The PATH Act of 2015 (P.L. 114-113) made this provision permanent, added the inflation adjustment, and added professional development as an eligible expense.

## PURPOSE

"An above-the-line deduction targeted at educators may be considered desirable because teachers voluntarily augment school funds by purchasing items thought to enhance the quality of children's education". (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

## WHO BENEFITS

In 2022, about 40,400 taxpayers claimed on average an adjustment of $267, which resulted in a savings of $22 in Oregon tax due to this provision. The table below shows use of this adjustment for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Adjustment | Average Adjustment | Total Adjusted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 990 | $250 | $0.2 | <$0.1 | 1% |
| $19,400 - $40,400 | 2,670 | $240 | $0.7 | <$0.1 | 6% |
| $40,400 - $67,700 | 6,160 | $270 | $1.6 | $0.1 | 16% |
| $67,700 - $117,800 | 10,770 | $280 | $3.1 | $0.3 | 30% |
| Above $117,800 | 14,590 | $320 | $4.6 | $0.4 | 46% |
| All Full-Year Filers | 35,160 | $290 | $10.2 | $0.9 | 100% |
| Part-Year and Nonresident Filers | 5,220 | $110 | $0.6 | <$0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

See Deduction for Teacher Classroom Expenses, *Assessment*, p. 678 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.102 INTEREST ON STUDENT LOANS

**Internal Revenue Code Section:** 221
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1997

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $18,200,000 | $18,200,000 |
| 2025-27 | Not Applicable | $38,000,000 | $38,000,000 |

## DESCRIPTION

A taxpayer may deduct interest on qualified higher education loans. The maximum deduction is $2,500 and is not indexed to inflation. The deduction can be taken without itemizing (known as an adjustment or above-the-line deduction). The deduction is not allowed for individuals who may be claimed as a dependent on another taxpayer's return.

A qualified education loan is indebtedness incurred solely to pay for qualified higher education expenses, such as tuition, fees, and room and board. Interest on loans from relatives or qualified employer plans may not be deducted. The qualifying expenses must be reduced by amounts received from other tax-free education benefits.

For 2023, the deduction was phased out for income between $75,000 and $90,000 (single) or $155,000 and $185,000 (married). For income above those upper amounts, no deduction is allowed. The phase-out range is adjusted for inflation each year.

## PURPOSE

"The interest deduction was seen as a way to help taxpayers repay student loan debt, which has risen substantially in recent years." Additionally, "The tax deduction can be justified both as a way of encouraging persons to undertake additional education and as a means of easing repayment burdens". (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

## WHO BENEFITS

Taxpayers who incurred indebtedness to pay qualified higher education expenses for themselves, their spouse, or their dependents. In 2022, approximately 57,900 Oregon taxpayers claimed on average, an adjustment of $786, which resulted in a savings of $64 in Oregon tax due to this provision. The table below shows usage of this adjustment for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Adjustment | Average Adjustment | Total Adjusted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 4,050 | $900 | $3.6 | $0.2 | 5% |
| $19,400 - $40,400 | 7,340 | $910 | $6.7 | $0.6 | 16% |
| $40,400 - $67,700 | 12,530 | $930 | $11.7 | $1.0 | 30% |
| $67,700 - $117,800 | 13,500 | $820 | $11.1 | $1.0 | 28% |
| Above $117,800 | 10,660 | $760 | $8.1 | $0.7 | 21% |
| All Full-Year Filers | 48,080 | $860 | $41.2 | $3.4 | 100% |
| Part-Year and Nonresident Filers | 9,810 | $440 | $4.3 | $0.3 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

See Deduction for Interest on Student Loans, *Assessment*, p. 693 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.103 SELF-EMPLOYMENT HEALTH INSURANCE

**Internal Revenue Code Section:** 162(L)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1986

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $83,000,000 | $83,000,000 |
| 2025-27 | Not Applicable | $84,600,000 | $84,600,000 |

## DESCRIPTION

Self-employed individuals may deduct amounts paid for health insurance. The insurance must be for themselves, their spouses, or their dependents. The deduction can be taken without itemizing (known as an adjustment or an above-the-line deduction) and is limited to the taxpayer's earned income. This adjustment is also available to working partners in a partnership and employees of an S corporation who own more than 2 percent of the corporation's stock.

Self-employed individuals may also adjust personal income by amounts paid for qualified long-term care insurance.

## PURPOSE

"In establishing the deduction for spending on health insurance and long-term care insurance by the self-employed, Congress seemed to have two motivations. One was to provide those individuals with a tax benefit comparable to the exclusion from the taxable income of any employer-provided health benefits received by employees. A second motive was to improve access to health care by the self-employed." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

## WHO BENEFITS

Self-employed individuals who paid for health and/or long-term care insurance, and their immediate family. In 2022, approximately 80,700 Oregon taxpayers claimed on average an adjustment of $6,232, which resulted in a savings of $538 in Oregon tax due to this provision. The table below shows usage of this adjustment for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Adjustment | Average Adjustment | Total Adjusted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 6,710 | $3,560 | $23.9 | $0.4 | 1% |
| $19,400 - $40,400 | 6,820 | $3,360 | $22.9 | $1.6 | 4% |
| $40,400 - $67,700 | 8,290 | $4,420 | $36.6 | $3.1 | 7% |
| $67,700 - $117,800 | 12,730 | $6,100 | $77.7 | $6.7 | 16% |
| Above $117,800 | 28,350 | $10,970 | $311.0 | $29.2 | 71% |
| All Full-Year Filers | 62,910 | $7,510 | $472.2 | $40.9 | 100% |
| Part-Year and Nonresident Filers | 17,740 | $1,710 | $30.4 | $2.5 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

See Deduction for Health Insurance Premiums and Long-Term Care Insurance Premiums by the Self-Employed, Assessment, p. 958 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.104 HEALTH SAVINGS ACCOUNTS

**Internal Revenue Code Section:** 223
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 2003

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $92,000,000 | $92,000,000 |
| 2025-27 | Not Applicable | $110,000,000 | $110,000,000 |

### DESCRIPTION

Contributions to health savings accounts (HSAs) by qualified individuals, or by a qualified individual's employer on behalf of the employee, are deductible from federal gross income. The deduction can be taken without itemizing (known as an adjustment or above-the-line deduction). Withdrawals from HSAs are exempt from income taxes if used for qualified medical expenses. HSA account earnings are tax-exempt and unused balances may accumulate without limit. The revenue loss numbers provided above include the losses related to both the adjustment and exclusion connected to HSAs.

The accounts are used to pay medical costs incurred until an insurance deductible amount is met. To qualify for 2023, individuals must have high deductible (at least $1,500 for individual coverage and $3,000 for families) health insurance and generally have no other health care coverage. Contributions are limited to $3,850 for individual coverage and $7,750 for a family. The deductible amounts and contribution limits are adjusted annually for inflation. Individuals who are 55 or older and not yet covered by Medicare may contribute an additional $1,000 each year.

### PURPOSE

"HSAs are a tax-advantaged account designed to help people save and pay for unreimbursed medical expenses such as health insurance cost sharing (e.g., deductibles, copayments, and co-insurance) and services not covered by insurance ... HSAs in concert with HDHPs [high-deductible health insurance plans] allow individuals to save for routine and other medical costs while insuring against large or catastrophic medical expenses. Properly designed, they may encourage more cost-conscious health care use and the accumulation of funds for medical care ... HDHPs and HSAs have also been touted as a way to lower overall health care costs, as consumers are incentivized to find out what health care providers charge and be willing to switch to lower-cost providers or forgo a doctor's visit for what they may consider a minor ailment." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions:* 2022)

### WHO BENEFITS

Taxpayers who use health savings accounts.

### EVALUATION

See Health Savings Accounts, *Assessment*, p. 912 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.105 IRA CONTRIBUTIONS AND EARNINGS

**Internal Revenue Code Section:** 219, 408, and 408A
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1974

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $220,000,000 | $220,000,000 |
| 2025-27 | Not Applicable | $280,000,000 | $280,000,000 |

### DESCRIPTION
There are two types of Individual Retirement Accounts (IRAs) from which taxpayers may receive a tax benefit: Traditional and Roth. The Traditional IRA allows for tax deductible contributions, while the Roth IRA allows for tax-free withdrawals. The revenue impact consists of the tax benefits from the deductibility of traditional IRAs, the tax-deferred earnings of traditional IRAs, and the tax-free earnings of Roth IRAs. This deduction can be taken without itemizing (known as an adjustment or above-the-line deduction).

The federal Joint Committee on Taxation lists the two account types as separate tax expenditures, but their estimated impact is combined here.

The Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020 made a temporary waiver of the minimum distribution requirement of certain employer-provided qualified retirement plans and IRAs for calendar year 2020. This waiver could change the timing of when taxpayers make withdrawals, hence affecting the earnings. The exact effect on the revenue impact is uncertain, however it is thought to be relatively small.

### PURPOSE
To provide an incentive for taxpayers to save for retirement, education, and homeownership, and to provide a savings incentive for workers who do not have employer provided pension plans.

### WHO BENEFITS
Taxpayers who contribute to eligible IRAs or have earnings within an eligible IRA.

### EVALUATION
See Assessments for tax expenditures related to IRA contributions and earnings, p. 1073 and 1079 *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.106 MOVING EXPENSES

**Internal Revenue Code Section:** 217
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None (TCJA provisions are temporary, see description)
**Year Enacted:** 1964

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $100,000 | $100,000 |
| 2025-27 | Not Applicable | $3,500,000 | $3,500,000 |

### DESCRIPTION
Active-duty members of the military incurring moving expenses related to being stationed in a new location are allowed an adjustment to personal taxable income for qualified moving expenses. The Tax Cuts and Jobs Act of 2017 suspended this provision for tax years 2018 through 2025 for non-military taxpayers.

This deduction is taken without itemizing (known as an adjustment or an above-the-line deduction). The expenses include costs of moving household goods and traveling expenses while moving.

The federal Joint Committee on Taxation does not consider this adjustment to be a tax expenditure, presumably because the costs associated with seeking income (e.g. a job) would be deductible under their "normal tax structure."

### PURPOSE
To reduce employment-related moving costs for active-duty members of the military.

### WHO BENEFITS
Active-duty members of the military incurring moving expenses related to being stationed in a new location. The number of taxpayers claiming this adjustment in 2022 was about 700 and the average savings in Oregon tax from this provision was $80.

### EVALUATION
Not evaluated.

## 1.107 OVERNIGHT TRAVEL EXPENSES OF NATIONAL GUARD AND RESERVE MEMBERS

**Internal Revenue Code Section:** 162(p) and 62(a)(2)(E)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 2003

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $2,000,000 | $2,000,000 |
| 2025-27 | Not Applicable | $2,000,000 | $2,000,000 |

### DESCRIPTION
A deduction is allowed for all unreimbursed overnight travel, meals, and lodging expenses of National Guard and Reserve members. This deduction can be taken without itemizing (known as an adjustment or above-the-line deduction). To qualify, recipients must have traveled more than 100 miles away from home and stayed overnight as part of an activity while on official duty. No deduction is permitted for commuting expenses to and from drill meetings, and the amount of expenses may not exceed the general federal government per diem rate applicable to that locale.

### PURPOSE
To offer a partial reimbursement to National Guard and Reserve members for unreimbursed overnight travel expenses incurred in the line of duty.

### WHO BENEFITS
Members of the National Guard and Reserve.

### EVALUATION
See Deduction for Overnight-Travel Expenses of National Guard and Reserve Members, *Assessment*, p. 16 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.201 MEDICAL AND DENTAL EXPENSES

**Internal Revenue Code Section:** 213
**Oregon Statute:** 316.695 (Connection to federal personal deductions)
**Sunset Date:** None
**Year Enacted:** 1942

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $255,000,000 | $255,000,000 |
| 2025-27 | Not Applicable | $288,000,000 | $288,000,000 |

## DESCRIPTION

Most medical expenses paid for by an individual but not reimbursed by an employer or insurance company are deductible from taxable income to the extent they exceed 7.5 percent of adjusted gross income (AGI) for the taxpayer. The Disaster Tax Relief Act of 2020 made the 7.5 percent of AGI floor permanent. The deduction includes amounts paid for such things as:

- Health insurance premiums
- Diagnosis, treatment, mitigation, or prevention of disease
- Prescription drugs and insulin (not over-the-counter medication)
- Transportation for and/or essential to medical care
- Long-term care insurance premiums up to an age-based annual limit. For 2023 the limit ranges from $480 for taxpayers 40 or younger, up to $5,960 for taxpayers over 70.

See also 1.304, Medical Subtraction for Elderly, which provides a description of Oregon's provision allowing certain qualified taxpayers to subtract medical and dental expenses.

## PURPOSE

"For individual taxpayers who itemize, the deduction can ease the financial burden imposed by costly medical expenses. The federal tax code, in part, regards these expenses as involuntary expenses that reduce a taxpayer's ability to pay taxes by absorbing a substantial part of income" (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions:* 2022)

## WHO BENEFITS

In 2022, approximately 254,000 Oregon taxpayers claimed on average a deduction for medical expenses of $8,700, which resulted in a savings of $510 in Oregon tax. The table below shows the use of this deduction for 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Deduction | Average Deduction | Total Deducted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 56,400 | $7,280 | $410.7 | $4.6 | 4% |
| $19,400 - $40,400 | 46,600 | $7,660 | $357.1 | $16.1 | 13% |
| $40,400 - $67,700 | 45,700 | $8,600 | $393.1 | $25.4 | 20% |
| $67,700 - $117,800 | 54,600 | $9,620 | $525.5 | $40.0 | 32% |
| Above $117,800 | 32,300 | $13,940 | $450.3 | $38.6 | 31% |
| All Full-Year Filers | 235,600 | $9,070 | $2,136.7 | $124.7 | 100% |
| Part-Year and Nonresident Filers | 18,800 | $4,120 | $77.5 | $4.5 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

See Deduction for Medical Expenses and Long-Term Care Expenses, *Assessment*, p. 924 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.202 REMOVAL OF ARCHITECTURAL BARRIERS

**Internal Revenue Code Section:** 190
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1976

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $500,000 | Less than $500,000 | Less than $500,000 |
| 2025-27 | Less than $500,000 | Less than $500,000 | Less than $500,000 |

### DESCRIPTION

A deduction from corporation or personal taxable income of up to $15,000 is allowed for the removal of architectural and transportation barriers. This limit is not adjusted for inflation. Eligible expenses include those necessary to make facilities or transportation vehicles, for use in trade or business, more accessible to the disabled and people 65 and over.

### PURPOSE

To reduce physical barriers for employees and customers who are disabled or age 65 and over.

### WHO BENEFITS

The taxpayers incurring eligible costs of making the structural changes.

### EVALUATION

See Expensing of Costs to Remove Architectural and Transportation Barriers to the Handicapped and Elderly, *Assessment*, p. 569 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.203 DEDUCTION OF CERTAIN FILM AND TELEVISION PRODUCTION COSTS

**Internal Revenue Code Section:** 181
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable incomes)
**Sunset Date:** 12-31-2025
**Year Enacted:** 2004

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $500,000 | Less than $500,000 | $500,000 |
| 2025-27 | Less than $500,000 | Less than $500,000 | Less than $500,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION

The cost of producing films and television programs is usually depreciated over a period of time using the income forecast method (which allows deductions based on the pattern of expected earnings). This federal tax provision allows production costs to be deducted when incurred. Eligible productions are restricted to those with a cost of $15 million or less ($20 million if produced in certain designated low-income areas) and in which at least 75 percent of the compensation is for services performed in the United States. Only the first 44 episodes of a television series qualify, and sexually explicit productions are not eligible.

This provision was enacted temporarily in 2004 and has been extended several times. The Taxpayer Certainty and Disaster Tax Relief Act of 2020 extended it through tax year 2025.

### PURPOSE

To encourage film production in the United States.

### WHO BENEFITS
Taxpayers with eligible film and television production costs.

### EVALUATION
Not evaluated.

## 1.204 ACCELERATED DEPRECIATION OF CERTAIN BUILDINGS

**Internal Revenue Code Section:** 167 and 168
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None (TCJA and other provisions are temporary, see description).
**Year Enacted:** 1954

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $2,500,000 | $2,500,000 | $5,000,000 |
| 2025-27 | $2,500,000 | $2,000,000 | $4,500,000 |

### DESCRIPTION
In general, taxpayers may deduct from corporation and personal taxable income the depreciation of buildings based on a straight-line method where equal amounts are deducted in each period. This tax expenditure permits the use of accelerated depreciation methods for most buildings, which allow for faster write-offs than the straight-line method. The revenue impact of this tax expenditure represents the additional tax that would have been paid if straight-line depreciation had been used. Note: The tax expenditure associated with rental housing is covered separately in 1.209, Accelerated Depreciation of Rental Housing.

The Tax Cuts and Jobs Act of 2017 (TCJA) made several changes to depreciation allowances. In terms of the estimated revenue impact, the extension of "bonus depreciation" was the most substantive. Bonus depreciation generally allows additional depreciation of an asset's cost in the first year it is in service. If an asset is acquired and placed in service between September 27, 2017 and December 31, 2022, the changes allow 100 percent expensing. For assets placed in service at later dates, the percentage declines by 20 points per year. Consequently, the bonus depreciation rate is 80 percent in 2023, and completely phased out beginning in 2026. The referenced end dates are increased by one year for longer production-period property with longer lives. TCJA also expanded the applicability of bonus depreciation to used buildings.

Accelerated depreciation of any type of capital does not change the cumulative amount of depreciation over all years. Therefore, this provision allows a taxpayer to deduct more in the first year of the investment and subsequently less in the later years of the capital life cycle resulting in a potential net increase in tax revenue from this provision in the years following accelerated depreciation of the building(s) (reported as a negative revenue impact).

### PURPOSE
"Accelerated depreciation provides a tax incentive to the extent it is faster than economic (i.e., actual) depreciation." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022). Presumably, this could promote investment in buildings.

### WHO BENEFITS
This expenditure benefits owners of buildings used in a trade or business.

### EVALUATION
See Depreciation of Buildings Other Than Rental Housing in Excess of Alternative Depreciation System, *Assessment*, p. 352 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.205 ACCELERATED DEPRECIATION OF EQUIPMENT

**Internal Revenue Code Section:** 167 and 168
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None (TCJA and other provisions are temporary, see description)
**Year Enacted:** 1954

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $97,000,000 | $36,000,000 | $133,000,000 |
| 2025-27 | $3,500,000 | Less than $500,000 | $3,500,000 |

## DESCRIPTION

In general, taxpayers may deduct from corporation and personal taxable income the depreciation of equipment based on a straight-line method where equal amounts are deducted in each period. This tax expenditure permits the use of accelerated depreciation methods, which allow for faster write-offs than the straight-line method. The tax expenditure is the additional tax that would have been paid if straight-line depreciation had been used.

The Tax Cuts and Jobs Act of 2017 (TCJA) made several changes to depreciation allowances. In terms of the estimated revenue impact, the extension and expansion of "bonus depreciation" was the most substantive. Bonus depreciation generally allows additional depreciation of an asset's cost in the first year it is in service. If an asset is acquired and placed in service September 27, 2017 through December 31, 2022, the changes allow 100 percent expensing. For assets placed in service at later dates, the percent declines by 20 points per year. Consequently, the bonus depreciation rate is 80 percent in 2023, and completely phased out after 2026. The referenced end dates are increased by one year for some production property with longer lives. TCJA also expanded applicability of bonus depreciation provisions to used equipment.

Accelerated depreciation of any type of capital does not change the cumulative amount of depreciation over all years. Therefore, this provision allows a taxpayer to deduct more in the first year of the investment and subsequently less in the latter years of the capital life cycle resulting in a potential net increase in tax revenue from this provision in the years following accelerated depreciation of the equipment (reported as a negative revenue impact).

This tax expenditure includes the following components listed separately by the federal Joint Committee on Taxation:

- Depreciation of equipment in excess of the alternative depreciation system.
- Five-year Modified Accelerated Cost Recovery System (MACRS) for certain energy property (solar, wind, etc.)
- 10-year MACRS for smart electric distribution property.
- 15-year MACRS for certain electric transmission property.
- 15-year MACRS for natural gas distribution line.
- 15-year straight-line cost recovery for qualified leasehold improvements, qualified restaurant improvements, and qualified retail improvements. (TCJA included language that leaves the status of these properties uncertain.)

## PURPOSE

"This [provision] represents a tax expenditure because the depreciation methods are faster than economic (i.e., actual) depreciation. Existing evidence indicates that the economic decline rate for equipment is much slower than that reflected in tax depreciation methods" (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022). Presumably, this could promote investment in business equipment.

## WHO BENEFITS

Owners of equipment used in a trade or business.

### EVALUATION

See Depreciation on Equipment in Excess of Alternative Depreciation System, Assessment, p. 485 and Depreciation Recovery Periods for Energy-Specific Items, *Assessment*, p. 109 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.206 SECTION 179 EXPENSING ALLOWANCES

**Internal Revenue Code Section:** 179
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1958

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $7,000,000 | $38,000,000 | $45,000,000 |
| 2025-27 | $8,000,000 | $39,000,000 | $47,000,000 |

### DESCRIPTION

In general, the cost of business property must be deducted from personal and corporation income as it depreciates over its useful life. Subject to specific limits, Section 179 allows a taxpayer to elect to take an immediate deduction for qualifying property.

For tax year 2023, the maximum for a Section 179 immediate deduction is $1.16 million for property placed in service in 2018 or later. The deduction is phased out for total expenditures exceeding $2.89 million. These limits are adjusted for inflation.

The Tax Cuts and Jobs Act of 2017 increased the allowed immediate deduction from $500,000 to $1 million and the amount for total expenditures where the deduction is phased out from $2 million to $2.5 million.

Immediate expensing of any type of property for tax purposes is in lieu of depreciating the property over a number of years and does not change the cumulative amount of depreciation over all years. Therefore, this provision allows a taxpayer to deduct more in the first year of the investment and subsequently less in the later years of the capital life cycle resulting in a potential net increase in tax from this provision (reported as a negative revenue impact).

### PURPOSE

When initially enacted, Section 179 expensing "…was intended to reduce the tax burden on small firms, give them an incentive to invest more, and simplify their tax accounting." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS

Businesses with qualified property purchases.

### EVALUATION

See Expensing Under Section 179 of Depreciable Business Property, *Assessment*, p. 493 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.207 AMORTIZATION OF BUSINESS START-UP COSTS

**Internal Revenue Code Section:** 195
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1980

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $500,000 | $1,000,000 | $1,000,000 |
| 2025-27 | Less than $500,000 | $1,500,000 | $1,500,000 |

## DESCRIPTION

This provision allows a taxpayer to deduct from personal or corporation taxable income eligible start-up expenditures incurred prior to the day the business starts. A deduction of these expenditures as a current expense is available up to $10,000 and any remaining amount is amortized over 15 years. The expense limit is reduced dollar for dollar when start-up expenses exceed $60,000. Thus, no deduction as a current expense is available if start-up expenditures are $70,000 or greater. Start-up expenditures must satisfy two requirements to qualify for this treatment. First, they must be paid in connection with creating or investigating a trade or business before the taxpayer begins an active business. Second, they must be an expenditure that would have been deductible for an active business.

## PURPOSE

To encourage the formation of new businesses and to clarify the tax treatment of start-up expenditures.

## WHO BENEFITS

New businesses that incur start-up costs.

## EVALUATION

See Amortization of Business Startup Costs, *Assessment*, p. 500 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.208 FOREIGN-DERIVED INTANGIBLE INCOME

**Internal Revenue Code Section:** 250
**Oregon Statute:** 317.013 (Connection to federal corporation taxable income)
**Sunset Date:** None (deduction reduced after 12-31-2025, see description)
**Year Enacted:** 2017

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $120,000,000 | Not Applicable | $120,000,000 |
| 2025-27 | $110,000,000 | Not Applicable | $110,000,000 |

## DESCRIPTION

Corporations deduct 37.5 percent of "foreign-derived intangible income" from their federal taxable income for tax years 2018 through 2025. The deduction is reduced to 21.875 percent starting in tax year 2026.

The concept of "foreign-derived intangible income" (FDII) is complex and defined in the Tax Cuts and Jobs Act of 2017 (TCJA). In brief summary, FDII is U.S. profits on sales of exported property or services that exceed 10 percent of the corporation's investment.

The deduction for FDII works in conjunction with provisions for Global Intangible Low Taxed Income (GILTI). The subsidy provided by FDII is supplemented by GILTI, which taxes certain international income that would otherwise be excluded from tax. The GILTI inclusion is based on profits exceeding 10 percent of the corporation's investment in countries outside the United States.

For a brief discussion on the changes to tax on corporations' international earnings due to TCJA see the introduction to Chapter 1, Income Tax (Personal and Corporation).

### PURPOSE
Presumably, to encourage locating intangible assets in the United States.

### WHO BENEFITS
Domestic corporations that export goods or services.

### EVALUATION
See Deduction for Foreign-Derived Intangible Income Derived from Trade or Business within the United States, *Assessment*, p. 63 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.209 ACCELERATED DEPRECIATION OF RENTAL HOUSING

**Internal Revenue Code Section:** 168(c)
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1954

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $6,000,000 | $31,000,000 | $37,000,000 |
| 2025-27 | $5,000,000 | $22,000,000 | $27,000,000 |

### DESCRIPTION
In general, taxpayers may deduct from corporation and personal taxable income the depreciation of rental housing based on a straight-line method where equal amounts are deducted in each period over 27.5 years.

This tax expenditure measures the revenue loss due to deductions in excess of those allowed under a 40-year straight-line depreciation method permitted by the Alternative Minimum Tax. Rental housing properties placed in service before 1986 continue depreciation according to the method they started with, which may allow the property to depreciate faster than under a straight-line method.

### PURPOSE
To promote investment in rental housing by effectively deferring taxes paid on those investments.

### WHO BENEFITS
Owners of rental housing.

### EVALUATION
See Depreciation of Rental Housing in Excess of Alternative Depreciation System, *Assessment*, p. 412 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.210 HOME MORTGAGE INTEREST

**Internal Revenue Code Section:** 163(h)
**Oregon Statute:** 316.695 (Connection to federal personal deductions)
**Sunset Date:** None (TCJA provisions are temporary, see description)
**Year Enacted:** 1913

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $962,000,000 | $962,000,000 |
| 2025-27 | Not Applicable | $1,010,000,000 | $1,010,000,000 |

## DESCRIPTION

Mortgage interest paid by owner-occupants on their primary and secondary residences is deductible from personal taxable income for taxpayers who itemize deductions. The current law allows this deduction for debt incurred after December 15, 2017 up to $750,000 ($375,000 if married filing separately) for a home purchase and does not allow the deduction of interest on home equity loans unless the proceeds are used for constructing or significantly improving the taxpayer's residence.

These temporary limits of the deduction set by Tax Cuts and Jobs Act of 2017 will revert to the previous limits for debts after December 31, 2025, allowing the deduction of the interest on loans up to $1 million ($500,000 if married filing separately) for the purchase of the residence. Deductions will also be allowed on home equity loans up to $100,000 ($50,000 if married filing separately).

## PURPOSE

According to the Congressional Research Service, no rationale was provided when this provision was originally enacted in 1913. Originally, when this provision was enacted, the deduction made no distinction between interest payments made for business, personal, living, or family expenses and there is no evidence in the legislative history that the interest deduction was intended to encourage home ownership or to stimulate the housing industry at that time. However, the Congressional Research Service also notes that major justifications for the mortgage interest deduction have been stated as the desire to encourage homeownership and to stimulate residential construction.

## WHO BENEFITS

In 2022, approximately 687,800 Oregon taxpayers claimed on average, a deduction for home mortgage interest paid of $7,670, which resulted in a savings of $640 in Oregon tax. The table below shows the use of this deduction for 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Deduction | Average Deduction | Total Deducted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 31,800 | $6,040 | $192.0 | $1.9 | <1% |
| $19,400 - $40,400 | 42,300 | $6,100 | $258.0 | $15.8 | 4% |
| $40,400 - $67,700 | 85,800 | $6,680 | $573.0 | $47.1 | 11% |
| $67,700 - $117,800 | 172,800 | $7,660 | $1,322.8 | $114.1 | 28% |
| Above $117,800 | 252,300 | $10,250 | $2,586.8 | $235.4 | 57% |
| All Full-Year Filers | 584,900 | $8,430 | $4,932.6 | $414.4 | 100% |
| Part-Year and Nonresident Filers | 102,900 | $3,340 | $343.6 | $25.9 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

See Deduction for Mortgage Interest on Owner-Occupied Residences, *Assessment*, p. 386 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.211 PROPERTY TAXES

**Internal Revenue Code Section:** 164
**Oregon Statute:** 316.695 (Connection to federal personal deductions)
**Sunset Date:** None (TCJA provisions are temporary, see description)
**Year Enacted:** 1913

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $587,000,000 | $587,000,000 |
| 2025-27 | Not Applicable | $656,000,000 | $656,000,000 |

### DESCRIPTION

Property taxes on nonbusiness property paid to state or local governments for services or benefits for the general public welfare are deductible from personal taxable income for taxpayers who itemize deductions. The taxes must be based on the value of the property and be charged uniformly across all property in the jurisdiction of the governing entity.

The Tax Cuts and Jobs Act of 2017 (TCJA) temporarily limits this deduction. For federal tax purposes, there is a limit of $10,000 total for the deduction for property tax combined with the deduction for state and local income tax. Because Oregon does not allow a deduction for state income tax, and, for most taxpayers, the local income tax deduction is very small, taxpayers who itemize Oregon deductions will generally have the $10,000 limit apply to their Oregon itemized deduction for property tax alone. This limit is in place for tax years 2018 through 2025.

### PURPOSE

"Deductibility of state and local taxes was adopted in 1913 to avoid taxing income that was obligated to expenditures over which the taxpayer had little or no discretionary control." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS

In 2022, approximately 865,000 Oregon taxpayers claimed on average a deduction for property taxes of $4,150, which resulted in a savings of $336 in Oregon tax. The table below shows the use of this deduction for 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Deduction | Average Deduction | Total Deducted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 56,700 | $3,600 | $204.1 | $2.6 | <1% |
| $19,400 - $40,400 | 64,900 | $3,590 | $233.2 | $13.4 | 5% |
| $40,400 - $67,700 | 110,400 | $3,630 | $400.9 | $31.9 | 11% |
| $67,700 - $117,800 | 208,900 | $4,150 | $867.2 | $74.1 | 27% |
| Above $117,800 | 301,800 | $5,710 | $1,724.7 | $156.7 | 56% |
| All Full-Year Filers | 742,700 | $4,620 | $3,430.0 | $278.8 | 100% |
| Part-Year and Nonresident Filers | 121,900 | $1,300 | $158.0 | $12.0 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

### EVALUATION

See Deduction of Nonbusiness State and Local Government Taxes, *Assessment*, p. 1140 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.212 SOIL AND WATER CONSERVATION EXPENDITURES

**Internal Revenue Code Section:** 175
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1954

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Less than $500,000 | $500,000 | $500,000 |
| 2025-27 | Less than $500,000 | $500,000 | $500,000 |

### DESCRIPTION

For corporation and personal income tax purposes, certain investments in soil and water conservation projects that produce benefits over a number of years can be expensed rather than depreciated. The expensing of these costs represents a departure from the typical practice of depreciating improvements and represents a tax expenditure because deductions can be claimed before the income associated with the deductions is realized.

### PURPOSE
To promote soil and water conservation and to reduce the tax burden on farmers.

### WHO BENEFITS
Farmers who engage in projects that conserve soil and water. In many cases these improvements are made to land or water areas that may not provide any return on investment to the farmer.

### EVALUATION
See Expensing of Soil and Water Conservation Expenditures, *Assessment*, p. 318 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.213 FERTILIZER AND SOIL CONDITIONER COSTS

**Internal Revenue Code Section:** 180 and 464 (Reg. S1.180-1 and S1.180-2)
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1960

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $500,000 | $500,000 | $500,000 |
| 2025-27 | Less than $500,000 | $500,000 | $500,000 |

### DESCRIPTION
For corporation and personal income tax purposes, certain investments in soil fertilization and conditioning projects that produce benefits over a number of years can be expensed rather than depreciated. The expensing of these costs represents a departure from typical practice and represents a tax expenditure because deductions can be claimed before the income associated with the deductions is realized.

### PURPOSE
To promote activities that maintain and improve the fertility of the soil.

### WHO BENEFITS
Farmers who invest in projects to fertilize and condition their soil.

### EVALUATION
See Expensing by Farmers for Fertilizer and Soil Conditioner Costs, *Assessment*, p. 336 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.214 EXTENDED CARRYBACK OF FARMING LOSS

**Internal Revenue Code Section:** 172(b)(1)(B)
**Oregon Statute:** 316.048 (Connection to federal personal taxable income)
**Sunset Date:** None
**Year Enacted:** 1999

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $500,000 | $500,000 |
| 2025-27 | Not Applicable | $500,000 | $500,000 |

### DESCRIPTION
This tax expenditure is an exception to a general limit imposed on loss carrybacks. When an individual taxpayer has a net operating loss (business expenses exceed gross income), the taxpayer generally may not elect to subtract the loss

amount from income that was taxed in previous years. This provision allows farming losses to be carried back up to two years.

The Tax Cuts and Jobs Act of 2017 modified this provision for losses incurred for tax years ending after 2017. Net operating loss was previously allowed up to two years for most individual taxpayers, and up to five years for farming.

For a related Oregon provision, see 1.321, Agriculture Sector Net Operating Loss Carryback.

### PURPOSE
According to the Congressional Research Service, congressional committee reports indicated that an extension of time to carry back losses was considered appropriate for the farm industry because of the volatility of farm income.

### WHO BENEFITS
Farmers with losses to carry back.

### EVALUATION
See Two-Year Carryback Period for Net Operating Losses Attributable to Farming, *Assessment*, p. 339 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.215 INTANGIBLE DEVELOPMENT COSTS FOR FUELS

**Internal Revenue Code Section:** 263(c), 291, 616, 617, 57(a)(2), 59(e) and 1254
**Oregon Statute:** 316.695 and 317.013 (Connections to federal personal and corporation deductions)
**Sunset Date:** None
**Year Enacted:** 1954

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $3,000,000 | Less than $500,000 | $3,000,000 |
| 2025-27 | $2,000,000 | Less than $500,000 | $2,000,000 |

### DESCRIPTION
Intangible drilling and development costs incurred in oil, gas, and geothermal wells may be expensed. Intangible drilling and development costs include amounts paid for fuel, labor, materials, hauling, or repair to drilling equipment. Costs associated with determining the precise location and potential size of a mineral deposit are amortized over two years by independent businesses, and over five years by major oil companies.

Though relatively few oil, gas and geothermal wells exist in Oregon, corporations' income is apportioned to Oregon after these costs are expensed.

This tax expenditure includes the following components listed separately by the federal Joint Committee on Taxation:

- Expensing of Exploration and Development Costs for Oil and Gas.
- Amortization of geological and geophysical expenditures associated with oil and gas exploration.

### PURPOSE
To encourage development of petroleum, natural gas, and geothermal wells.

### WHO BENEFITS
The owners incurring the specified expenses for qualified activities.

### EVALUATION
See Assessments for tax expenditures related to intangible development cost for fuels, p. 127 and 133 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.216 AMORTIZATION OF AIR POLLUTION CONTROL FACILITIES

**Internal Revenue Code Section:** 169(d)(5)
**Oregon Statute:** 317.013 (Connection to federal corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 2005

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $500,000 | Not Applicable | Less than $500,000 |
| 2025-27 | Less than $500,000 | Not Applicable | Less than $500,000 |

### DESCRIPTION

Coal-fired electric generation plants may amortize investments in certified pollution control equipment over shorter periods than the life of the equipment. A pollution control facility placed in service after April 11, 2005 qualifies for a 5-year (for plants placed in service prior to 1976) or 7-year amortization (newer plants) if the useful life of the facility is 15 years or less. The amount available for this amortization is reduced for facilities with useful lives in excess of 15 years.

### PURPOSE

"For installations in pre-1976 plants, the five-year amortization of pollution control equipment was added by the Tax Reform Act of 1969 (P.L. 91-172) to compensate for the loss of the investment tax credit, which was repealed by the same act." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS

Owners of coal-fired electric generation plants who install certified pollution control equipment.

### EVALUATION

See Amortization of Air Pollution Control Facilities, *Assessment*, p. 209 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.217 EXPENSING TIMBER-GROWING COSTS

**Internal Revenue Code Section:** 263A(c)(5)
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1986

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $2,500,000 | Less than $500,000 | $2,500,000 |
| 2025-27 | $2,500,000 | Less than $500,000 | $2,500,000 |

### DESCRIPTION

Most of the production costs (e.g. disease and pest control, clearing brush, etc.) of growing timber may be expensed rather than capitalized when computing corporation and personal taxable income. Expensing allows full deduction in the year the expenses are incurred, while capitalization requires the deduction to be taken over a number of years. In most other industries, these expenses must be capitalized.

### PURPOSE

To provide tax relief to timber growers in recognition of the long growing periods for timber during which no revenue is produced.

### WHO BENEFITS

Taxpayers who have timber-growing expenses that are not connected with a timber harvest or reforestation activity.

### EVALUATION
See Expensing of Timber-Growing Costs, Assessment, p. 284 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.218 EXPENSING AND AMORTIZATION OF REFORESTATION COSTS

**Internal Revenue Code Section:** 194 and 263A(c)(5)
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1980

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $500,000 | $500,000 | $500,000 |
| 2025-27 | Less than $500,000 | $500,000 | $500,000 |

### DESCRIPTION
Qualified reforestation costs can be expensed up to $10,000 annually with the remainder amortized (deducted) over seven years. Costs that qualify for amortization are those for site preparation, seed or seedlings, labor, and tools. The limitation on expensing is for each qualifying property.

Without this provision, reforestation costs would be capitalized into the property's cost basis and deducted when sold.

Reforestation costs do not include any costs for which the taxpayer has been reimbursed under any governmental reforestation cost-sharing program unless the amounts reimbursed have been included in the gross income of the taxpayer.

### PURPOSE
To lower the annual after-tax cost of reforestation.

### WHO BENEFITS
Business taxpayers who are reforesting forest lands.

### EVALUATION
See Amortization and Expensing of Reforestation Expenses, *Assessment*, p. 306 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.219 MAGAZINE CIRCULATION EXPENDITURES

**Internal Revenue Code Section:** 173
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1950

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $500,000 | Less than $500,000 | Less than $500,000 |
| 2025-27 | Less than $500,000 | Less than $500,000 | Less than $500,000 |

### DESCRIPTION
This provision allows publishers of periodicals to deduct expenditures to establish, maintain, or increase circulation in the year that the expenditures are made. The revenue impact of this tax expenditure is the difference between the current deduction of costs and the recovery that would have been allowed if these expenses were capitalized and deducted over time.

### PURPOSE
To reduce the cost of tax compliance.

### WHO BENEFITS
Publishers of periodicals.

### EVALUATION
See Expensing of Magazine Circulation Expenditures, *Assessment*, p. 508 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.220 COMPLETED CONTRACT RULES

**Internal Revenue Code Section:** 460
**Oregon Statute:** 316.048 and 317.013 (Connections to federal personal and corporation taxable income)
**Sunset Date:** None
**Year Enacted:** 1986

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $7,000,000 | $500,000 | $7,500,000 |
| 2025-27 | $7,500,000 | $1,000,000 | $8,500,000 |

### DESCRIPTION
Some taxpayers with construction or manufacturing contracts extending for more than one tax year are allowed to use the completed contract method of accounting. Under this method, income and costs pertaining to the contract are reported when the contract is completed; however, some indirect costs may be deducted from corporation and personal taxable income in the year paid or incurred. This mismatching of income and expenses results in a deferral of tax payments.

This provision is restricted to apply mostly to long-term home construction contracts. Other real estate construction contracts may qualify if the gross receipts of the contractor are $25 million or less and the contract is estimated to be completed within two years.

### PURPOSE
This tax reporting method was allowed because these contracts may involve “so many uncertainties that profit or loss was undeterminable until the contract was completed.” (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

### WHO BENEFITS
Residential construction contractors are the main beneficiaries.

### EVALUATION
See Completed Contract Rules, *Assessment*, p. 517 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# 1.221 CHARITABLE CONTRIBUTIONS

**Internal Revenue Code Section:** 170 and 642(c)
**Oregon Statute:** 316.695 and 317.013 (Connections to federal personal and corporation deductions)
**Sunset Date:** None (TCJA expansions are temporary, see description)
**Year Enacted:** 1917 and 1935 (personal and corporation)

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $38,000,000 | $505,000,000 | $543,000,000 |
| 2025-27 | $50,000,000 | $555,000,000 | $605,000,000 |

## DESCRIPTION

Contributions to charitable, educational, health, religious, and certain other nonprofit organizations are allowed as itemized deductions from personal taxable income of amounts up to 60 percent of adjusted gross income. Corporations can deduct from corporate taxable income contributions up to 10 percent of adjusted taxable income. Taxpayers who donate property may deduct the current market value of the property up to 30 percent of adjusted gross income and do not need to pay tax on any capital gains realized on the property. Contributions in excess of the limits may be applied up to five future tax years until the contributions are completely deducted.

Due to the passage of HB 2060 in 2013, an Oregon deduction is not allowed for contributions to a charitable organization that does not spend at least 30 percent of its total annual functional expenses on program services. Affected organizations are required to notify donors in writing that donations are not deductible for Oregon tax purposes.

The Tax Cuts and Jobs Act of 2017 (TCJA) temporarily increased the previous 50 percent of adjusted gross income limit for charitable cash donations to the current 60 percent limit. This limit is in effect from tax years 2018 through 2025. In addition, TCJA repealed the portion of the deduction that had been allowed to taxpayers who made donations to colleges in exchange for the right to purchase tickets to athletic events. That portion of the deduction is disallowed for tax years after 2017.

## PURPOSE

"The deduction for charitable contributions reduces the net cost of contributing." (Congressional Research Service, Tax Expenditures: Compendium of Background Material on Individual Provisions: 2022) Presumably, the purpose is to encourage donations to designated charitable organizations.

## WHO BENEFITS

In 2022, approximately 608,000 Oregon personal income tax taxpayers claimed a deduction for donations to charitable organizations on their Oregon Schedule OR-A. The average deduction of about $4,930 by those taxpayers resulted in an average tax savings of $430. See the table below for details on the use of the deduction by income level.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Deduction | Average Deduction | Total Deducted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 35,000 | $1,620 | $56.7 | $0.9 | <1% |
| $19,400 - $40,400 | 47,100 | $2,420 | $114.0 | $5.7 | 2% |
| $40,400 - $67,700 | 73,300 | $2,680 | $196.7 | $14.6 | 6% |
| $67,700 - $117,800 | 142,800 | $3,210 | $459.1 | $38.3 | 16% |
| Above $117,800 | 232,500 | $8,380 | $1,947.8 | $182.9 | 75% |
| All Full-Year Filers | 530,700 | $5,230 | $2,774.3 | $242.4 | 100% |
| Part-Year and Nonresident Filers | 77,400 | $2,860 | $221.5 | $19.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

According to the federal Joint Committee on Taxation, of the total amount deducted for personal income taxpayers for federal fiscal year 2023, 13 percent was for donations to educational organizations, 10 percent for donations to health organizations, and 77 percent for donations to other charitable organizations. Of the total amount deducted for

corporate income taxpayers, 23 percent was for donations to educational organizations, 27 percent for donations to health organizations, and 50 percent for donations to other charitable organizations.

### EVALUATION

See Assessments for Charitable Contribution related tax expenditures for Education, Health and Other, p. 755, 938, and 881 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.222 CASUALTY AND THEFT LOSSES

**Internal Revenue Code Section:** 165(c)(3), 165(e) and 165(h)-165(k)
**Oregon Statute:** 316.695 (Connection to federal personal deductions)
**Sunset Date:** None (TCJA provisions are temporary, see description)
**Year Enacted:** 1913

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $400,000 | $400,000 |
| 2025-27 | Not Applicable | $2,200,000 | $2,200,000 |

### DESCRIPTION

Taxpayers who itemize deductions may deduct from personal taxable income nonbusiness casualty and theft losses that are not reimbursed through insurance. For tax years 2018 through 2025, taxpayers can only claim this deduction if the losses were associated with a federally declared disaster. Taxpayers may deduct only losses of more than $100 each, but only to the extent that the total of such losses exceed 10 percent of adjusted gross income (AGI).

The limitation related to losses associated with a federally declared disaster, which was set by the Tax Cuts and Jobs Act of 2017 (TCJA), becomes no longer in effect after tax year 2025. For tax years beginning 2026, eligible losses will include losses arising from fire, storm, shipwreck, or other casualty, or from theft. The cause of the loss should be considered a sudden, unexpected, and unusual event.

### PURPOSE

According to the Congressional Research Service, no rationale was provided when this provision was originally enacted in 1913. However, it stated "The deduction was intended to be for extraordinary, nonrecurring losses which go beyond the average or usual losses incurred by most taxpayers in day-to-day living". (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions:* 2022)

### WHO BENEFITS

About 80 taxpayers claimed a deduction for losses incurred in federally declared disasters in 2022.

### EVALUATION

See Deduction for Casualty and Theft Losses, *Assessment*, p. 1039 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

## 1.223 LOCAL INCOME TAXES

**Internal Revenue Code Section:** 164
**Oregon Statute:** 316.695 (Connection to federal personal deductions)
**Sunset Date:** None
**Year Enacted:** 1913

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $8,700,000 | $8,700,000 |
| 2025-27 | Not Applicable | $26,100,000 | $26,100,000 |

## DESCRIPTION

Income taxes paid to cities and other local governments are deductible from personal taxable income for taxpayers who itemize deductions for state income tax.

For individual taxpayers, the Arts Tax imposed by the City of Portland, the Multnomah County Preschool for All Income Tax, and the Portland Metro Supportive Housing Services Income Tax qualify for this deduction.

For business taxpayers, while local taxes are deductible, it is considered a normal business cost and is not reported as an Oregon tax expenditure.

The Tax Cuts and Jobs Act of 2017 temporarily limits this deduction for individuals but not businesses. For federal tax purposes, there is a limit of $10,000 total for the deduction for property tax combined with the deduction for state and local income tax. The limit may reduce the impact of this Oregon itemized deduction for individuals. This limit is in place for tax years 2018 through 2025.

## PURPOSE

"Deductibility of state and local taxes was adopted in 1913 to avoid taxing income that was obligated to expenditures over which the taxpayer had little or no discretionary control." (Congressional Research Service, *Tax Expenditures: Compendium of Background Material on Individual Provisions*: 2022)

## WHO BENEFITS

Taxpayers who pay income taxes to local governments.

## EVALUATION

See Deduction of Nonbusiness State and Local Government Taxes, *Assessment*, p. 1140 in *Tax Expenditures: Compendium of Background Material on Individual Provisions*, 2022.

# OTHER FEDERAL PROVISIONS (UNQUANTIFIED OR DISCONNECTED)

**Tax Expenditures listed by federal Joint Committee on Taxation as "Quantitatively *de minimis*"**

These are tax expenditures that flow through to Oregon through the connection to federal taxable income, but JCT has estimated that their impact is lower than $250 million in federal tax for federal fiscal years 2023 through 2027. It is important to note that, in previous reports, the JCT used a lower threshold of $50 million. As a result, the following list has expanded.

- Miscellaneous nonresident individual income tax exclusions (certain gambling winnings, ship or aircraft operation income, certain exchange or training programs compensation, bond income of residents of the Ryukyu Islands, certain wagering income) (IRC 871(j), 872(b))
- Miscellaneous foreign corporate income tax exclusions (ship or aircraft operation income, foreign railroad rolling stock earnings, certain communication satellite earnings (IRC 883)
- Exclusion of interest on state and local qualified private activity bonds for green buildings and sustainable design projects (IRC 142(a)(14))
- Seven-year MACRS for Alaska natural gas pipeline (IRC 168(e)(3)(C))
- Energy efficient commercial buildings deduction (IRC 179D)
- Expensing of tertiary injectants (IRC 193)
- Expensing of exploration and development costs, other fuels (IRC 616 and 617)
- Special depreciation allowance for certain reuse and recycling property (IRC 168(m))
- Special rules for mining reclamation reserves (IRC 468)
- Exclusion of earnings of certain environmental settlement funds (IRC 468B(g))
- Expensing of exploration and development costs, nonfuel minerals (IRC 616 and 617)
- Exclusion of cancellation of indebtedness income of farmers (IRC 108(a)(1)(C))
- Exclusion of cost-sharing payments of farmers (IRC 126)
- Cash accounting for agriculture (IRC 446)
- Expensing of costs of raising dairy and breeding cattle (IRC 1231(b)(3))
- Exclusion of investment income from structured settlement arrangements (IRC 72(u)(3)(C) and 130)
- Inclusion of income arising from business indebtedness discharged by the reacquisition of a debt instrument (IRC 108(i))
- Alaska Native Corporation trusts (IRC 139G, 247, and 646)
- Seven-year MACRS for motorsports entertainment complexes (IRC 168(i)(15))
- Special rules for magazine, paperback book, and record returns (IRC 458)
- Inventory methods and valuation: specific identification for homogeneous products (IRC 471)
- Exclusion from unrelated business taxable income ("UBTI") of certain payments to controlling exempt organizations (IRC 512)
- Bad debt reserves of financial institutions (IRC 585)

- Deferral of gain on sales of property to comply with conflict-of-interest requirements (IRC 1043)
- Exclusion of gain or loss on sale or exchange of brownfield property (IRC 512(b)(19))
- Exclusion of interest on state and local qualified private activity bonds for high-speed intercity rail facilities (IRC 142(a)(11))
- Exclusion of Indian general welfare benefits (IRC 139E)
- Accelerated depreciation for business property on an Indian reservation (IRC 168(j))
- Exclusion of Olympic and Paralympic medals and prizes (IRC 74(d))
- Exclusion of interest on educational savings bonds (IRC 135)
- Exclusion of restitution payments received by victims of the Nazi regime and the victims' heirs and estates (Section 803 of Pub. L. No. 107-16)
- Archer Medical savings accounts (IRC 220)
- Exclusion of survivor annuities paid to families of public safety officers killed in the line of duty (IRC 101(h))
- Exclusion of special benefits for disabled coal miners (IRC 501(c)(21)
- ABLE accounts (IRC 529A)
- Burial expenses for veterans (IRC Section 134 and 38 USC 5301)
- Exclusion of certain amounts received by wrongfully incarcerated individual (IRC 139F)

**Tax Expenditures listed by federal Joint Committee on Taxation as "Not Quantifiable"**

These are tax expenditures that flow through to Oregon through the connection to federal taxable income, but JCT has noted that projected revenue changes due to these provisions are not available.

- Deduction for US employment tax paid under section 3121(l) agreements for employees of foreign affiliates
- Accelerated deductions for nuclear decommissioning costs (IRC 468A)
- Fossil fuel capital gains treatment (IRC 631(C))
- Exception to partial interest rule for qualified conservation contribution (IRC 170(h))
- Ten-year MACRS for single purpose agricultural or horticultural structures (IRC 168(e)(3), (i)(13))
- Exceptions from dealer disposition definition for installment sales (IRC 453(1)(2)(A))
- Exceptions from interest calculation on installment sales for small dispositions (IRC 453A(b)(3))
- Unrecaptured section 1250 gain rate, which applies to depreciation taken on real property (IRC 1(h))
- Treatment of loans under life insurance and annuity contracts and 401(k) plans (IRC 72(e), 72(p), and 7702)
- Amortization of organizational expenditures (IRC 248)
- Deferral of prepaid subscription income (IRC 455)
- Deferral of prepaid dues income of certain membership organizations (IRC 456)
- Exemption for cemetery companies (IRC 501(c)(13))
- Certain exceptions to the UBTI rules - passive income gains, income from certain research, trade shows and fairs, bingo games, pole rentals, sponsorship payments, real estate exception to the debt-financed income rules (IRC 512-514)

- Amortization of partnership organization and syndication fees (IRC 709)
- Nonrecognition of in-kind distributions by regulated investment companies in redemption of their stock (IRC 852(b)(6))
- Specific identification of sold equities (IRC 1012 (and Treasury Reg. sect. 1012-1))
- Losses on small business stock (IRC 1242-1244)
- Special discount rate rule for certain debt instruments where stated principal amount is $2.8 million or less (IRC 1274A)
- Tax treatment of convertible bonds (Treasury Reg. sect. 1.1275-4; Revenue Ruling 2002-31)

**Oregon law is not connected to Federal law**

These are federal tax expenditures but not Oregon tax expenditures because of specific modifications to federal taxable income in Oregon law.

- Interest expense allocation: Separate grouping of affiliated financial companies (IRC 864). ORS 317.625 disconnects from federal treatment in sections 861 to 864 of IRC.
- Inventory property sales source rules exception (IRC 861, 862, 863, and 865). ORS 317.625 disconnects from federal treatment in sections 861 to 864 of IRC.
- Excess of percentage over cost depletion for Oil and Gas (IRC 611, 612, 613, 613A, and 291). ORS 317.374 disconnects from federal treatment in IRC 611 and requires a "reasonable" Oregon depletion allowance in calculating Oregon taxable income.
- Excess of percentage over cost depletion for Other Fuels (IRC 611, 612, 613, 613A, and 291). ORS 317.374 disconnects from federal treatment in IRC 611 and requires a "reasonable" Oregon depletion allowance in calculating Oregon taxable income.
- Excess of percentage over cost depletion for nonfuel minerals (IRC 611, 612, 613, and 291). ORS 317.374 disconnects from federal treatment in IRC 611 and requires a "reasonable" Oregon depletion allowance in calculating Oregon taxable income.
- Deduction for income attributable to domestic production (QPAI) (IRC 199). ORS 316.836 and 317.398 require that taxpayers add the amount deducted from federal taxable income based on IRC 199 to calculate Oregon taxable income. The Tax Cuts and Jobs Act repealed this provision beginning with tax year 2018.
- Deferral of tax on capital construction funds of shipping companies (IRC 7518). ORS 317.319 requires that taxpayers add the amount deferred to Oregon taxable income.
- Special rules for interest-charge domestic international sales corporations (IRC 991-997). ORS 317.283 does not recognize transactions related to IC-DISCs formed after January 1, 2014. It does impose special treatment for IC-DISCs formed on or before January 1, 2014 (see 1.311, Dividend Received from an IC-DISC in this report).

# TAX EXPENDITURES FROM OREGON INCOME TAX PROVISIONS

Oregon has many provisions in its income tax law that reduce tax. Some provisions, known as subtractions, reduce federal taxable income, the starting point for calculating Oregon's personal and corporate income taxes. Other provisions, known as tax credits, directly reduce the tax. Finally, there are a small number of provisions that reduce tax through other mechanisms, such as reduced tax rates. Not all of these provisions are tax expenditures, as some exist, for example, to prevent double taxation.

Some tax expenditures only affect the personal income tax or corporate income tax, but many apply to both. Some tax expenditures specifically apply to businesses. The structure of a business determines how the income and hence the tax expenditure is reported. For C corporations, tax expenditures are reported on their corporate income tax returns. For sole proprietorships, partnerships, and S corporations, tax expenditures are reported on the business owners' personal income tax returns.

This report includes 30 Oregon specific subtractions (29 apply to the personal income tax and eight apply to the corporate income tax), 45 Oregon specific credits (43 apply to the personal income tax and 30 apply to the corporate income tax), and eight other provisions that reduce Oregon tax. See Appendix D on page 395 for a list separated by personal and corporate income tax.

Subtractions represent income included in federal taxable income that is not taxed by Oregon and deductions allowed by Oregon that are not included in federal taxable income. An example of the former is a subtraction for certain military related income. An example of the latter is a subtraction for medical expenses for elderly taxpayers beyond the deduction allowed at the federal level.

Tax credits reduce taxpayers' tax liability on a dollar-for-dollar basis. For a typical tax credit, the tax credit can only reduce the tax liability to zero. For some credits, if there is an excess portion more than the tax liability, that portion is lost and cannot be used. For other credits that additional portion can be carried forward to future tax years. Oregon has a small number of special credits called "refundable" credits where the taxpayer receives a payment for any portion of the credit that is more than the tax liability. Some credits have the feature that the credit may be transferred from one taxpayer to another qualified taxpayer at a specified rate. Typically, a taxpayer will transfer a credit when they do not have the tax liability to use it. To help readers of this report, additional information has been included in the header of each Oregon tax credit to indicate if the credit has a carryforward, is refundable, and is transferable.

A small number of other provisions in Oregon tax law also reduce income tax. These provisions include reduced tax rates for certain types of income, rules that determine how income is apportioned to Oregon for certain companies, and averaging a certain type of income over several years.

# 1.301 OREGON 529 COLLEGE SAVINGS NETWORK

**Oregon Statute:** 316.699
**Sunset Date:** 12-31-2019
**Year Enacted:** 1999

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $1,300,000 | $1,300,000 |
| 2025-27 | Not Applicable | $0 | $0 |

## DESCRIPTION

The Oregon 529 College Savings Network subtraction has expired and been replaced with a refundable credit. The last allowable contributions for this subtraction must have been made during tax years beginning before January 1, 2020. Nevertheless, there is a revenue impact for the 2023-25 biennium due to unused subtraction amounts carried forward to succeeding years. Carryforward of unused amounts in excess of the limitations may be subtracted from taxable income for up to four succeeding years after the donation. A taxpayer who donated at the time of the sunset may have carried forward unused amounts through tax years beginning before January 1, 2024.

A subtraction was allowed from individual taxable income for contributions made to Oregon 529 College Savings Network accounts for higher education. The maximum allowable carryforward subtraction amount for 2023 was $5,580 on a joint return or $2,790 on all other returns. This maximum applies to the combined total of ABLE account (see 1.306, ABLE Account Contributions) and Oregon 529 College Savings Network contributions carried forward.

The proceeds of these accounts are meant to be used to pay higher education related expenses for a designated beneficiary. Total contributions to these accounts were allowed up to the amount necessary to cover the qualified higher education expenses of the beneficiary or limits specified by the Oregon 529 Savings Board. Contributions over the annual limit could be carried forward for up to four years. Beginning with tax year 2012, taxpayers could make direct deposit contributions of personal income tax refunds into accounts.

The revenue impact above includes only the impact of the state allowed subtraction for contributions. Under federal law, contributions to these accounts are not tax deductible. However, earnings on contributions and qualifying distributions from the accounts are excluded from federal taxable income. The revenue impact and complete description of federal tax benefits applicable to Oregon 529 College Savings Network accounts are detailed in tax expenditure 1.002, Qualified Education Savings (Federal).

Federal tax reform passed by Congress in December 2017, the Tax Cuts and Jobs Act, extended the tax exemption for earnings to distributions used to pay elementary and secondary school tuition. HB 4080 (2018) amended ORS 316.680 to specify that funds in Oregon 529 savings plans could be used for higher education expenses only, and that earnings and previously subtracted contributions that were withdrawn and used to pay K-12 costs must be added to taxable income.

Legislation in 2019 (HB 2164) replaced this subtraction with a refundable credit for contributions to an Oregon 529 College Savings Network account. For details on the new credit, see 1.405, Contributions to 529 Account.

## PURPOSE

The statute that allowed this expenditure did not explicitly state a purpose. Presumably, the purpose was to increase the ability of families and individuals to save for higher education.

### WHO BENEFITS

Oregon personal income taxpayers who contributed to Oregon 529 College Savings Network accounts. For tax year 2022, only amounts carried forward from previous years were allowed to be subtracted. The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 280 | $2,120 | $0.6 | <$0.1 | <1% |
| $19,400 - $40,400 | 270 | $1,760 | $0.5 | <$0.1 | 1% |
| $40,400 - $67,700 | 510 | $1,710 | $0.9 | $0.1 | 2% |
| $67,700 - $117,800 | 1,600 | $2,200 | $3.5 | $0.3 | 10% |
| Above $117,800 | 7,610 | $3,530 | $26.9 | $2.5 | 86% |
| All Full-Year Filers | 10,270 | $3,150 | $32.4 | $2.9 | 100% |
| Part-Year and Nonresident Filers | 350 | $3,290 | $1.2 | $0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

### EVALUATION

Not evaluated.

## 1.302 SCHOLARSHIP AWARDS USED FOR HOUSING EXPENSES

**Oregon Statute:** 316.846
**Sunset Date:** None
**Year Enacted:** 1999

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $1,400,000 | $1,400,000 |
| 2025-27 | Not Applicable | $1,400,000 | $1,400,000 |

### DESCRIPTION

A subtraction from taxable income is allowed for scholarship and fellowship income used to pay for housing expenses. This provision extends the federal exclusion described in tax expenditure 1.001, Scholarship and Fellowship Income, for income received from scholarships and fellowships that is used only for tuition and course-related expenses. The scholarship recipient must be either the taxpayer or a dependent of the taxpayer and must be attending an accredited community college, college, university, or other institution of higher education. A subtraction may not be allowed under this section if the amounts are not included in the taxpayer's federal gross income for the tax year or are taken as a deduction on the taxpayer's federal income tax return for the tax year.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to help students meet the financial challenges of attending college.

## WHO BENEFITS

Individuals receiving scholarship or fellowship income to pay for housing expenses. The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 550 | $4,450 | $2.4 | $0.1 | 26% |
| $19,400 - $40,400 | 440 | $5,630 | $2.5 | $0.2 | 41% |
| $40,400 - $67,700 | 170 | $5,370 | $0.9 | $0.1 | 16% |
| $67,700 - $117,800 | 90 | $5,560 | $0.5 | <$0.1 | 8% |
| Above $117,800 | 70 | $6,240 | $0.4 | <$0.1 | 8% |
| All Full-Year Filers | 1,320 | $5,130 | $6.8 | $0.5 | 100% |
| Part-Year and Nonresident Filers | 210 | $5,380 | $1.1 | <$0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Higher Education Coordinating Commission*

This tax expenditure is a fiscally effective method of achieving its purpose, which is to reduce the cost of postsecondary education and training. It makes more funding available to these students, allowing them to complete their education with less debt. The preponderance of the expenditure is claimed by individuals that typically require the greatest assistance managing the cost of attendance (i.e., are least able to afford the cost of college/university).

Housing expenses are typically the largest expense for postsecondary students, making this an effective means for making postsecondary education and training more affordable. Because of the restrictions around using the benefit (the recipient must be either the taxpayer or a dependent of the taxpayer enrolled in an accredited institution), the benefit is effectively structured to flow to the intended recipients.

# 1.303 AMERICORPS AWARDS

**Oregon Statute:** 316.847
**Sunset Date:** 12-31-2026
**Year Enacted:** 2021

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Less than $100,000 | Less than $100,000 |
| 2025-27 | Not Applicable | Less than $100,000 | Less than $100,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

## DESCRIPTION

AmeriCorps national service educational award amounts can be subtracted from Oregon personal taxable income. Education awards can be used to pay current educational expenses at eligible schools or used to repay qualified student loans.

## PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2433 (2021), the purpose of this provision is "...to eliminate a tax burden on AmeriCorps members when using their education award, causing a subsequent increase in use of awards, and acting as an incentive for AmeriCorps members of other states to attend school in Oregon."

## WHO BENEFITS

Individuals receiving AmeriCorps national service educational awards. In tax year 2022, about 30 personal income taxpayers saved approximately $320, on average, using this subtraction.

### EVALUATION

*Provided by the Higher Education Coordinating Commission*

This tax expenditure is a fiscally effective method of reducing the cost of postsecondary education and training. It makes more funding available to students who are strengthening communities through their AmeriCorps service. AmeriCorps members engage in community service, and this fiscal benefit encourages the feasibility of that work. The program allows them to complete their education with less debt. Because of the restrictions around using the benefit (the recipient must receive the AmeriCorps national service educational award), the benefit is effectively structured to flow to the intended recipients.

## 1.304 MEDICAL SUBTRACTION FOR ELDERLY

**Oregon Statute:** 316.693
**Sunset Date:** None
**Year Enacted:** 2013

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $55,000,000 | $55,000,000 |
| 2025-27 | Not Applicable | $55,000,000 | $55,000,000 |

### DESCRIPTION

The amount an individual pays for medical care that is not compensated for by insurance or otherwise may be subtracted from their federal taxable income for purposes of calculating Oregon personal income tax liability. Medical care for dependents is not allowed to be subtracted under this provision. This subtraction is available to taxpayers age 66 and over.

The maximum allowable subtraction of medical expenses attributable to each individual taxpayer meeting the age requirement depends on filing status and income. None of the amounts are adjusted for inflation.

| Filing Status | Federal Adjusted Gross Income | Maximum Allowable Subtraction per Qualifying Individual |
|---|---|---|
| Single or Married Filing Separately | Below $25,000 | $1,800 |
| | $25,000 - $49,999 | $1,400 |
| | $50,000 - $99,999 | $1,000 |
| | Above $100,000 | $0 |
| Married Filing Jointly, Head of Household, or Qualifying Surviving Spouse | Below $50,000 | $1,800 |
| | $50,000 - $99,999 | $1,400 |
| | $100,000 - $199,999 | $1,000 |
| | Above $200,000 | $0 |

Legislation in 2013 (HB 3601) created this subtraction to replace the former Oregon Additional Medical Deduction for Elderly, which, when combined with the federal deduction, allowed certain taxpayers to deduct all or most of their medical and dental expenses from Oregon taxable income.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to offset the costs of medical and dental expenses for older taxpayers. The itemized deduction of the former expenditure was converted to a subtraction so that it would be available to all eligible taxpayers, whether they use the standard deduction or itemize their deductions.

### WHO BENEFITS

Older taxpayers with medical and dental expenses. Approximately 285,100 returns used the subtraction for tax year 2022. The average subtracted amount per tax return was approximately $1,600.

The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 56,400 | $1,120 | $63.0 | $1.4 | 5% |
| $19,400 - $40,400 | 50,840 | $1,710 | $87.1 | $4.6 | 16% |
| $40,400 - $67,700 | 54,430 | $1,720 | $93.4 | $6.5 | 23% |
| $67,700 - $117,800 | 71,730 | $1,710 | $122.4 | $9.9 | 35% |
| Above $117,800 | 38,150 | $1,690 | $64.7 | $5.6 | 20% |
| All Full-Year Filers | 271,550 | $1,590 | $430.6 | $27.9 | 100% |
| Part-Year and Nonresident Filers | 13,540 | $1,540 | $20.9 | $0.8 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Oregon Department of Human Services*

This tax measure seems to meet its purpose in allowing older individuals to deduct expenses for their medical and dental care from their Oregon taxable income. This allows individuals to keep or have more income available to them to support them remaining independent and less likely to use other state and federal programs.

# 1.305 ADDITIONAL DEDUCTION FOR ELDERLY OR BLIND

**Oregon Statute:** 316.695(7)
**Sunset Date:** None
**Year Enacted:** 1989

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $28,300,000 | $28,300,000 |
| 2025-27 | Not Applicable | $29,600,000 | $29,600,000 |

## DESCRIPTION

Taxpayers age 65 or over and those who are blind receive a larger Oregon standard deduction from personal taxable income based on their filing status. For taxpayers who are single or head of household, the standard deduction is increased by $1,200 per qualifying condition. For all other filers, the additional amount is $1,000 per qualifying condition. For example, the additional deduction amount is $2,400 if a single taxpayer is age 65 or over and blind. These amounts are not adjusted for inflation. This tax expenditure does not benefit taxpayers who itemize deductions for Oregon because they do not use the standard deduction. Taxpayers can take advantage of both this expenditure and 1.304, Medical Subtraction for Elderly.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to offset associated living expenses of Oregon taxpayers who are elderly or blind.

## WHO BENEFITS

The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 44,530 | $1,120 | $60.7 | $1.4 | 11% |
| $19,400 - $40,400 | 25,440 | $1,100 | $35.3 | $2.6 | 21% |
| $40,400 - $67,700 | 24,770 | $1,090 | $34.4 | $2.8 | 23% |
| $67,700 - $117,800 | 26,090 | $1,050 | $39.1 | $3.3 | 27% |
| Above $117,800 | 15,460 | $1,030 | $25.3 | $2.3 | 18% |
| All Full-Year Filers | 136,290 | $1,080 | $194.9 | $12.3 | 100% |
| Part-Year and Nonresident Filers | 14,250 | $400 | $7.7 | $0.5 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

Since both taxpayers on a joint return can claim this deduction, the 150,540 filed tax returns that took the subtraction presented in the above table represent approximately 199,230 individuals claiming the additional deduction. The majority, about 196,340, are elderly individuals.

## EVALUATION

*Provided by the Oregon Department of Human Services*

This tax expenditure achieves its purpose and is effective in promoting independence among its recipients. The deduction allows for greater disposable income for eligible individuals and helps build individual self-sufficiency. This money enables individuals to avoid needing other services offered by the state Department of Human Services. It is most beneficial to those people who are on the margin between self-reliance and reliance on the state.

# 1.306 ABLE ACCOUNT CONTRIBUTIONS

**Oregon Statute:** 316.699
**Sunset Date:** 12-31-2019
**Year Enacted:** 2015

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Less than $100,000 | Less than $100,000 |
| 2025-27 | Not Applicable | $0 | $0 |

## DESCRIPTION

The ABLE (Achieving a Better Life Experience) Account Contributions subtraction has expired and been replaced with a refundable credit. The last allowable contributions for this subtraction must have been made for tax years beginning before January 1, 2020. Nevertheless, there is a revenue impact for the 2023-25 biennium due to unused subtraction amounts carried forward to succeeding years. Carryforward of unused amounts in excess of the limitations may have been subtracted from taxable income for up to four succeeding years after the donation. A taxpayer who donated at the time of the sunset may have carried forward unused amounts through tax years beginning before January 1, 2024.

A subtraction was allowed from individual taxable income for contributions made to an Oregon ABLE account when the contributions were made before the designated beneficiary of the account was 21 years old. The maximum allowable carryforward subtraction amount for 2023 was $5,580 on a joint return or $2,790 on all other returns. This maximum applies to the combined total of ABLE account and Oregon 529 College Savings Network (see 1.301, Oregon 529 College Savings Network) contributions carried forward.

The proceeds of these accounts are meant to be used to pay qualified disability expenses of the designated beneficiary, including education, housing, transportation, employment training and support, health care, and financial management. Individuals diagnosed with a disability before the age of 26 (age 46 after 2025) are eligible for an Oregon

ABLE Savings Plan account. Up to $100,000 can be saved within an ABLE account without the assets affecting federal and state benefits, and up to the gift tax exemption limit ($18,000 in 2024) can be contributed annually. That said, for some taxpayers, the 2017 Tax Cuts and Jobs Act (TCJA) temporarily increased the allowable contribution for tax years 2018 through 2025. Beyond the standard annual contribution limit mentioned previously, eligible employed designated beneficiaries are allowed to contribute an additional amount up to the lower of the prior year's poverty level for a household of one or the beneficiary's compensation in the tax year. The TCJA also allows rollovers from 529 plans owned by the beneficiary or a family member into an ABLE account (subject to contribution limits).

Oregon legislation in 2017 (SB 1027) amended the law so that, in the event of the death of the designated beneficiary, the money in the ABLE account can be transferred to the estate of the beneficiary or to another eligible individual's ABLE account.

The revenue impact above includes only the impact of the state-allowed subtraction for contributions. Under federal law, contributions to these accounts are not tax deductible. However, earnings on the contributions and qualifying distributions from the accounts are excluded from federal taxable income. The Joint Committee on Taxation considers the federal tax expenditure to be quantitatively *de minimis*. As such, the federal tax expenditure is listed in the "Other Federal Provisions" section of this report.

Legislation in 2019 (HB 2164) replaced this Oregon subtraction with a refundable credit for contributions to an ABLE account. For details on the new credit, see 1.411, Contributions to ABLE Account.

### PURPOSE
The statute that allowed this expenditure did not explicitly state a purpose. According to the legislative staff revenue impact statement for the bill that created the Oregon subtraction, SB 777 (2015), the purpose was "…to help people with disabilities to save money for necessary expenses to meet the challenges of life."

### WHO BENEFITS
For tax year 2022, only amounts carried forward from previous years were allowed to be subtracted. About 310 personal income taxpayers saved approximately $130, on average, using this subtraction.

### EVALUATION
Not evaluated.

## 1.307 SOCIAL SECURITY BENEFITS (OREGON)

**Oregon Statute:** 316.054
**Sunset Date:** None
**Year Enacted:** 1985

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $1,350,000,000 | $1,350,000,000 |
| 2025-27 | Not Applicable | $1,560,000,000 | $1,560,000,000 |

### DESCRIPTION
Social Security and Railroad Retirement Board benefits are exempt from Oregon personal income tax. A portion of Social Security and Railroad Retirement Board benefits are considered nontaxable at the federal level. Oregon extends the tax exemption to the full amount of benefits. As a result, there are two tax expenditures pertaining to these benefits. This tax expenditure pertains to those benefits that are exempt only in Oregon (i.e., they are taxable at the federal level). The tax expenditure pertaining to those benefits that are exempt at both the federal level and in Oregon is 1.009, Social Security Benefits (Federal).

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the Official 1986 Primary Voters' Pamphlet, which described the ballot measure that passed and amended the Oregon Constitution to ban state and local taxes on Social Security and Railroad Retirement Board benefits, "Social Security benefits are the basic

retirement income for many Oregonians. These benefits do not provide an adequate standard of living. The erosion of these benefits through taxations would place an undue hardship on many Oregonians least able to pay. The taxation of Social Security benefits would also be unfair. Social Security recipients paid income taxes on their contribution to Social Security during their many years of work. It would be unfair to tax these benefits after retirement."

### WHO BENEFITS

Oregon taxpayers who receive federally taxable Social Security or Railroad Retirement Board benefits.

For tax year 2022, the table below shows the combined usage of this subtraction and the federal exclusion, 1.009, Social Security Benefits (Federal).

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers with SS Benefits | Average SS Benefit | Total SS Benefits ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 104,960 | $1,240 | $2,397.1 | $129.9 | 14% |
| $19,400 - $40,400 | 68,360 | $1,960 | $1,758.8 | $134.3 | 14% |
| $40,400 - $67,700 | 70,490 | $2,110 | $1,817.7 | $148.8 | 16% |
| $67,700 - $117,800 | 98,980 | $2,470 | $2,864.3 | $244.0 | 26% |
| Above $117,800 | 87,710 | $3,280 | $3,216.9 | $288.1 | 30% |
| All Full-Year Filers | 430,510 | $2,200 | $12,054.8 | $945.1 | 100% |
| Part-Year and Nonresident Filers | 43,650 | $650 | $382.5 | $28.3 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

### EVALUATION

*Provided by the Oregon Department of Human Services*

This tax expenditure achieves its purpose; however, the issue continues to be the focus of significant national discussion and debate. While this tax subtraction provides the recipients with more disposable income, some are concerned over the viability of the Social Security benefits system in the long term. Retirement index data forecasts that retirement programs and savings patterns of persons aged 30–48 years are not adequate to maintain these individuals at a living standard commensurate with their current living standards. Projections suggest that the rate of retirement savings must increase threefold from present standards in order to accomplish this future parity. The inability to achieve this parity will cause greater numbers of people to look to government service programs to assist them. The present population of those ages 30–48 years is substantial, and this program could have a dramatic impact when they reach the retirement age.

## 1.308 FILM PRODUCTION LABOR REBATE

**Oregon Statute:** 316.698 and 317.394
**Sunset Date:** 12-31-2029 (certification)
**Year Enacted:** 2005

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Less than $100,000 | $1,000,000 | $1,000,000 |
| 2025-27 | Less than $100,000 | $1,000,000 | $1,000,000 |

### DESCRIPTION

Labor rebate payments are excluded from taxation for individuals or corporations that incur $1 million or more in actual expenses for film, commercial, or television show production in Oregon. For S corporations and other pass-through entities that have qualifying income for the subtraction, the subtraction is shared by the shareholders and subtracted from their Oregon personal income tax. The Oregon Film and Video Office (OFVO) certifies persons or businesses engaging in qualifying film production as eligible for the labor rebate, commonly known as the Greenlight Oregon Labor Rebate, if it is reasonably likely that the person or business will incur actual expenses of at least $1

million. Upon completion of the film production, OFVO verifies actual expenses and disallows the rebate if actual expenses are less than $1 million.

The labor rebate is equal to 6.2 percent of the payroll paid during qualifying film production for which Oregon personal income tax withholding applies. Upon verification that the qualifying film production has paid the required withholding taxes, the Department of Revenue issues rebate payments to the Greenlight Oregon Labor Rebate Fund (GOLRF).

Legislation in 2021 extended the scheduled sunset of the provision from December 31, 2023 to December 31, 2029 (HB 2433).

### PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2433 (2021), the purpose of this provision is "...to maximize the value of the Greenlight Oregon Labor Rebate Fund."

### WHO BENEFITS

Individuals and businesses engaging in film production with expenses over $1 million who receive labor rebate payments from the GOLRF. The Department transferred $5.8 million to the GOLRF in fiscal year 2023 and $5.9 million in fiscal year 2024.

### EVALUATION

*Provided by the Oregon Film and Video Office*

This tax expenditure achieves its purpose of retaining and recruiting film production in the state and generating associated spending and employment. Without this program, there would undoubtedly be a drop in activity for Oregon's film, television, and commercial industry. This is an industry that provides jobs, small business spending and on-going media marketing value for the state.

The GOLRF, in tandem with the Oregon Production Investment Fund (OPIF), is integral in Oregon's ability to compete with the more than 30 other US states that offer production incentives and is directly responsible for the $285 million of direct film, television, and commercial production spending that was recorded in the 2021-2023 biennium. This number includes more than $37 million of local commercial production spending directly attributed to the GOLRF program.

In addition to helping recruit out-of-state productions into Oregon, this program also supports Oregon's local commercial production industry. Oregon-based commercial production companies utilize GOLRF to increase their competitive edge to both create work here in the state for export and to attract work into the state, creating a more sustained workforce and a stronger company foundation. Combined, GOLRF and OPIF have accounted for a more than $2 billion in direct production spending in Oregon since the program's inception in 2005, currently affecting more than 3600 jobs on an annual basis on more than 100 Oregon-based projects.

GOLRF has been integral to creating a balanced system that imports work into the state as much as creates and retains work from established companies and individuals already located here in the state. Oregon's media incentive programs are critical to making media work more competitive here in Oregon in a national landscape that includes more than 30 states and all Canadian provinces offering Film & Media incentive programs.

## 1.309 ARTIST'S CHARITABLE CONTRIBUTION

**Oregon Statute:** 316.838
**Sunset Date:** None
**Year Enacted:** 1979

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Less than $100,000 | Less than $100,000 |
| 2025-27 | Not Applicable | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
Under section 170 of the federal Internal Revenue Code, artists who donate their artwork for charitable contributions can only deduct the costs of materials used to produce the artwork, not the fair market value of the artwork. Oregon law expands the federal provision for charitable contributions, in that it allows artists liable for Oregon personal income taxes to subtract from taxable income the fair market value of the art, not just the costs of materials. Note that this subtraction only applies to artwork donated by the artist because if the donation of the artwork is by someone other than the artist, federal provisions already allow the deduction of the fair market value of the artwork. Due to the passage of HB 2060 in 2013, artists cannot use this subtraction if the donation was to a charitable organization disqualified from receiving tax deductible contributions due to not spending at least 30 percent of its total annual functional expenses on program services.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage the donation of artists' works to charitable organizations.

### WHO BENEFITS
Artists who donate their art to charitable organizations benefit from this expenditure. For tax year 2022, approximately 240 personal income taxpayers claimed an average subtraction of $1,300, resulting in a tax savings of $100 per taxpayer.

### EVALUATION
Not evaluated.

## 1.310 OREGON INVESTMENT ADVANTAGE

**Oregon Statute:** 316.778 and 317.391
**Sunset Date:** None
**Year Enacted:** 2001

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Available* | Not Available* | Not Available* |
| 2025-27 | Not Available* | Not Available* | Not Available* |

** In certain cases, to conform with taxpayer privacy disclosure laws, revenue impact numbers are not provided for tax expenditures that may affect at most a few taxpayers.*

### DESCRIPTION
Income from business operations at a certified facility may be subtracted for up to 10 consecutive years from Oregon taxable income on personal or corporate tax returns. For S corporations and other pass-through entities that have qualifying income, the subtraction is distributed among the shareholders or owners of the business to potentially reduce their Oregon personal income taxes. To be eligible for the subtraction, the business must apply for preliminary certification from the Oregon Business Development Department (OBDD) before hiring employees, starting construction, making improvements, or beginning facility operations. To qualify for preliminary certification, all the following must be true:

- The proposed facility site is in an eligible county (see below), and
  (i) inside the urban growth boundary of a city of 15,000 or fewer residents, or
  (ii) on industrially zoned land in a larger city or unincorporated area.
- The proposed facility is intended to operate for at least 10 years.
- The proposed operations at the facility

(i) constitute new business operations, unlike what the business does anywhere else in Oregon, and

(ii) do not compete with existing employers in the city, port, or county where the facility is located.

- The city, port, or county does not formally object within 60 days.
- The business intends to hire five or more full-time, year-round employees, who for preliminary certification applications submitted to OBDD:
  - between July 1, 2011, and October 5, 2017, receive compensation (wages and benefits) at least 50 percent higher than per capita personal income (PCPI) for the county at the time of the application, or at least equal to county PCPI while providing health insurance benefits, or,
  - since October 6, 2017 (HB 2066, 2017):
    (i) receive compensation meeting the above minimums or that is at least 30 percent more than county PCPI for locations outside any metropolitan statistical area, and
    (ii) (in all cases) receive average annual wage at least equal to the current average wage for the county.

To claim the subtraction, a preliminarily certified business needs to apply annually to OBDD for certification and confirm compliance with hiring and compensation requirements. If the business does not comply in a particular year when seeking certification, it is disqualified from the program for that year and any subsequent year.

Since July 1, 2016, a statutory definition for eligible counties are those counties that are both in the lower half among county PCPIs and in the upper half of annual unemployment rates. In 2024, this meant that businesses may apply to receive preliminary certification for locations only in 14 counties: Baker, Crook, Curry, Douglas, Grant, Harney, Jefferson, Josephine, Klamath, Lake, Linn Umatilla Union and Wallowa.

For a corporation, the amount of subtracted income is determined by multiplying the corporation's Oregon taxable income by the sum of:

- Fifty percent of the ratio of the payroll of the business from employment at the certified facility to total statewide payroll of the business, and
- Fifty percent of the ratio of the value of the property of the business at the certified facility to the value of the property of the business statewide.

For a personal income taxpayer who qualifies for a subtraction as a shareholder or owner of an S corporation or other pass-through entity that operates a certified facility, the amount of subtracted income is determined by multiplying the taxpayer's federal taxable income (limited for non-residents or part year residents to Oregon-sourced federal taxable income) by the product of:

- The ratio of the taxpayer's portion of federal adjusted gross income from the business to the taxpayer's total federally adjusted gross income, and
- The ratio of business income derived from sales at the certified facility to sales from all the business's activities.

## PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to encourage business development in low-income areas with high unemployment rates, especially those areas with low population.

## WHO BENEFITS

Businesses investing in new facility operations in areas with relatively high unemployment and lower incomes, especially in smaller cities.

During the 2024 fiscal year, OBDD issued annual certifications for fewer than ten businesses.

## EVALUATION

*Provided by the Oregon Business Development Department*

Depending on a business firm's state income tax situation and the nature of the facility, this exemption of taxable income—as a type of state tax holiday—may seem quite enticing for developments ranging from those by small business owners to very large corporate projects in certain parts of rural Oregon, where it is otherwise challenging to spur economic activity and diversity. It is, however, a complex incentive, requiring sophisticated tax knowledge to even estimate the probable, medium-term savings in any given case.

After 2011, new preliminary certification applications dropped off, probably due in part to further statutory complexities that hindered communication and marketing of this tax exemption, despite the five-year reinstatement of slightly broader eligibility criteria. Currently certified business firms employ 220 persons full-time with excellent levels of compensation for rural Oregon.

As Oregon's only significant incentive for business development based on state income taxes, this expenditure is valuable in fostering private investments to help counterbalance conditions in parts of Oregon that lack urban centers in economic development activity. Not only is it unique, but the tax benefit does not depend on the sheer size of new capital outlays like a property tax abatement. Even though its geographic focus is still quite narrow within rural Oregon, and despite other restrictions on use, this expenditure has served as a critical driver in advancing certain projects.

Further analysis is needed to take these geographic objectives into account, as well as incremental tax effects among a relatively small number of situations. Business Oregon presently lacks access to data and resources to thoroughly conduct such an analysis.

It may be noted, however, that while an analogous income tax credit would be simpler to communicate to businesses, this expenditure is less comparable to a direct government expenditure than a credit would be. The taxes abated by this expenditure might relate more directly to otherwise additional state tax revenues, such that there is not necessarily as much of a net fiscal loss. Other advantages over a direct expenditure include individual businessperson's determining where and what investments are economically cost-effective under the current tax structure, market conditions and so forth, as well as general avoidance of bureaucratic-administrative costs, complications or resource allocation inefficiencies. Nevertheless, it is not as finely controllable as a direct expenditure might be for policy purposes.

Other than its policy bias toward rural locations and against the expansion of existing business operations, this tax expenditure does not favor one group of industries in Oregon over another. Finally, like a tax credit, its effectiveness as an incentive depends on the taxpayer's having an Oregon tax liability, but the 10-year exemption period and potential for the new facility to generate additional taxable income could mitigate that issue.

# 1.311 DIVIDEND RECEIVED FROM AN IC-DISC

**Oregon Statute:** 316.749(1)
**Sunset Date:** None
**Year Enacted:** 2013

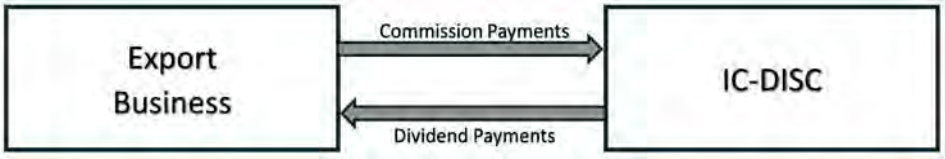
| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $13,200,000 | $13,200,000 |
| 2025-27 | Not Applicable | $14,100,000 | $14,100,000 |

## DESCRIPTION

Personal income taxpayers may subtract from Oregon taxable income any dividend received since 2013 from an Interest Charge – Domestic International Sales Corporation (IC-DISC) that was formed on or before January 1, 2014 if the IC-DISC is subject to tax under ORS 317.283(2)(a). An IC-DISC is defined in section 992 of the Internal Revenue Code.

As a simple overview, an export-oriented business creates an IC-DISC. The business then makes commission payments to the IC-DISC as a percentage of export sales. This income to the IC-DISC is then returned to the owners or

shareholders of the business as dividends. In most cases, aside from other functions or services performed through the IC-DISC, the amount of commission payments will equal the amount of dividend payments. The diagram below shows this simplified flow of funds.



At the federal level, regardless of when the IC-DISC was formed, an IC-DISC is not subject to federal income taxes and the dividends are taxed at the lower capital gains tax rate rather than the standard federal personal income tax rate.

At the state level, taxation of an IC-DISC depends on when the IC-DISC was formed. First, the commission payments to an IC-DISC are deductible if the IC-DISC was formed on or before January 1, 2014. Second, the IC-DISC formed before 2014 is taxed at a rate of 2.5 percent on its commissions received (see In Lieu below). Third, the owners or shareholders of the IC-DISC subtract the IC-DISC dividends on their personal income tax returns. In general, the net effect of the flow of payments is that the IC-DISC income distributed to the IC-DISC's owners or shareholders is taxed at a rate of 2.5 percent rather than at the prevailing marginal income tax rate of typically 8.75 or 9.9 percent.

For Oregon export businesses that created an IC-DISC after January 1, 2014, the IC-DISC is disregarded and dividends paid by it to the export business are treated as regular taxable income.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 3601 (2013 Special Session), the purpose of this provision "…is to encourage export activity of Oregon based businesses."

## WHO BENEFITS

Taxpayers with taxable personal income who receive a dividend from an IC-DISC that was formed on or before January 1, 2014. In tax year 2022, about 250 personal income taxpayers saved approximately $24,000 in tax, on average, using this subtraction.

Over 99 percent of the revenue impact goes to personal income tax filers with incomes above $100,000.

## IN LIEU

An IC-DISC is taxed on income at a rate of 2.5 percent. For tax year 2021, approximately 230 IC-DISCs paid a total of $3.0 million in income tax.

## EVALUATION

*Provided by the Oregon Business Development Department*

This tax expenditure may bolster foreign sales activity for certain Oregon exporters that work with IC-DISCs formed before 2014 especially during the brief period immediately following passage of HB 3601 by the 2013 special session of the Legislature, which could have an ongoing benefit to the Oregon economy. Nationally, that is the intent of the federal law that provides for IC-DISCs in the first place; for any IC-DISC formed after 2013, Oregon provisions for affected taxpayers operate more restrictively with respect to state taxable income compared to federal tax returns. The department lacks data or direct experience to address this expenditure further.

# 1.312 INDIVIDUAL DEVELOPMENT ACCOUNTS (EXCLUSION AND SUBTRACTION)

**Oregon Statute:** 316.848
**Sunset Date:** None
**Year Enacted:** 1999

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Less than $100,000 | Less than $100,000 |
| 2025-27 | Not Applicable | Less than $100,000 | Less than $100,000 |

## DESCRIPTION

Contributions, matching deposits (from fiduciary organizations), and account earnings of individual development accounts (IDAs) for low-income households are exempt from state income tax if funds are withdrawn for approved purposes. Contributions to the accounts by the account holder are subtracted from federal taxable income of the account holder as they are made, and the matching deposits and account earnings are exempt from taxation until withdrawn. If withdrawals from the account are for a qualified purpose, the entire withdrawal is exempt from taxation. For this subtraction, low-income households are defined as those having a net worth less than $20,000 and income no greater than 80 percent of the area median household income as determined by the U.S. Department of Housing and Urban Development.

The Oregon Housing and Community Services Department (OHCS) administers the Oregon IDA Initiative through Neighborhood Partnerships, which selects fiduciary organizations to manage the IDAs. These fiduciary organizations may establish lower thresholds for income and net worth of account holders than prescribed by statute. Approved purposes for which withdrawals may be made include: acquiring postsecondary education, the first time purchase of a primary residence, certain improvements and repairs to a primary residence, purchase of equipment or training needed to obtain or maintain employment, saving for retirement, and capitalization of a small business. Account holders may not accrue more than $6,000 of matching funds in any 12-month period. OHCS establishes a maximum total amount of state directed resources that may be used as matching funds for asset purchase for each individual development account.

Amounts remaining in accounts after asset purchase may be rolled over into qualified tuition savings program accounts. Legislation in 2015 (HB 2171) expanded the approved purposes for which withdrawals may be made and provided that accounts established for retirement savings may be rolled over into an individual retirement account, a retirement plan, or a similar account or plan established under the Internal Revenue Code. Legislation in 2021 (HB 2433) increased the maximum accrual of matching funds during any 12-month period from $3,000 to $6,000.

There is another tax expenditure closely related to this program: 1.423, Individual Development Account Donation (Credit), provides a credit for individuals or businesses that make contributions to the Oregon IDA Initiative through Neighborhood Partnerships in support of IDA programs.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to help lower income Oregonians obtain the assets needed to become economically more resilient by instituting an asset-based prosperity strategy that promotes improved personal financial management and savings and the accumulation of key assets.

## WHO BENEFITS

In tax year 2022, about 90 personal income taxpayers saved approximately $110, on average, using this subtraction.

## EVALUATION

Not evaluated.

# 1.313 MANUFACTURED DWELLING PARK CAPITAL GAIN

**Oregon Law:** Ore. Laws 2005 c.826 §6-10
**Sunset Date:** 12-31-2025
**Year Enacted:** 2005

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | $900,000 | $900,000 |
| 2025-27 | Less than $100,000 | $300,000 | $300,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

## DESCRIPTION

Individuals or corporations that sell a manufactured dwelling park may subtract the taxable gain from Oregon taxable income if the sale was made to a corporate entity formed by tenants of the park, or a nonprofit corporation or housing authority as described in ORS 90.844. In 2019, the Legislature (HB 2164) extended the sunset to December 31, 2025.

HB 2456 (2021) allows individuals or corporations to subtract the taxable gains from Oregon taxable income for any manufactured dwelling park that is destroyed by a natural disaster if the sale is made to a nonprofit corporation or housing authority that will redevelop the site as a manufactured dwelling park.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose of this subtraction is "to encourage sales of manufactured dwelling parks to a corporate entity formed by the tenants of the park, or by a nonprofit corporation or housing authority."

## WHO BENEFITS

Owners of manufactured dwelling parks who sell to one of the listed organizations and have a gain as a result of the sale. Few taxpayers have used this expenditure.

## EVALUATION

*Provided by the Oregon Housing and Community Services Department*

Through General Housing Account Program (GHAP) and/or Housing Development Grant Program (HDGP) funding, a number of manufactured home parks were preserved and sold either to a nonprofit or to a resident nonprofit cooperative, where the tenants form an organization to purchase the park. Preservation of parks is a critical tool for retaining housing stock affordable to low-income Oregonians, particularly for lower income rural communities. Nonprofits and resident nonprofit cooperatives compete with private investors when manufactured dwelling parks are for sale and this incentive provides a useful tool for encouraging park owners to consider selling to nonprofits. Despite low usage, any incentive that promotes retention of manufactured parks is absolutely meeting its objectives and is achieving the purpose of the tax expenditure.

# 1.314 FIRST-TIME HOME BUYER SAVINGS

**Oregon Statute:** 316.798
**Sunset Date:** 12-31-2026 (new accounts); 12-31-2036 (existing accounts)
**Year Enacted:** 2018

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $1,100,000 | $1,100,000 |
| 2025-27 | Not Applicable | $3,000,000 | $3,000,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

## DESCRIPTION

A subtraction from Oregon taxable income is allowed for cash contributed by an eligible account holder to an eligible first-time home buyer savings account. In addition, earnings on the account, including interest and other income, are exempt from state taxation up to a specified limit, provided that conditions are met.

A savings account is eligible if it is established for the purpose of paying or reimbursing the down payment and allowable closing costs for the purchase of a single-family dwelling in Oregon that serves as the principal residence of the account holder (or a qualified beneficiary, starting in 2025). Manufactured homes, residential trailers, mobile homes, and condominium units also qualify. A home buyer is eligible if they are an Oregon resident and haven't owned or purchased a single-family residence within three years prior to purchasing the single-family residence.

The subtraction may be claimed each year for up to ten years after the account is opened and cannot exceed specified limits that are adjusted for inflation. The combined principal and earnings per account holder that may be subtracted over the ten years is limited to $50,000. This subtraction is not available to accounts opened after December 31, 2026.

The subtraction is phased out for taxpayers with federal adjusted gross income of $104,000 or more if filing individually or income of $149,000 or more if filing a joint return. This table shows the maximum allowable annual subtraction amounts for 2024. Only amounts in the rightmost column are adjusted for inflation.

| Filing Status | Federal Adjusted Gross Income | Maximum Allowable Subtraction |
|---|---|---|
| Married Filing Jointly | Below $149,000 | $11,865 |
| | $149,000 - $157,999 | $9,495 |
| | $158,000 - $166,999 | $7,120 |
| | $167,000 - $175,999 | $4,750 |
| | $176,000 - $186,999 | $2,375 |
| | Above $186,999 | $0 |
| All Others | Below $104,000 | $5,935 |
| | $104,000 - $110,999 | $4,750 |
| | $111,000 - $116,999 | $3,560 |
| | $117,000 - $122,999 | $2,375 |
| | $123,000 - $130,999 | $1,190 |
| | Above $130,999 | $0 |

To qualify for the subtraction, an eligible residence must be purchased within ten years of opening the account. Any amount withdrawn and used for an unqualified purpose before the end of the ten-year period is subject to a five percent penalty and the amount withdrawn must be added back to income if previously subtracted. Any amount that remains in the account at the end of the tenth year must be added back to income if previously subtracted.

People other than the account holder may contribute to an account established for this program. However, only the account holder is eligible to claim this subtraction on their Oregon return.

Legislation in 2024 (SB 1527) made two modifications to this subtraction for accounts created on or after January 1, 2025. First, it allows the funds to be used by a designated qualified beneficiary in addition to the account holder. Second, it removes the requirement for financial institutions to designate accounts as first-time home buyer savings accounts and instead requires the taxpayers to designate the accounts.

## PURPOSE

The law that created this subtraction, Oregon Laws 2018, Chapter 109, states that "the Legislative Assembly finds that saving for a down payment and closing costs for the purchase of a first home is challenging in the present economy. The first-time home buyer savings account program will provide opportunities for Oregon residents to save funds for first-time home ownership and will provide Oregonians with meaningful incentives to save for the purchase of a first home."

## WHO BENEFITS

For tax year 2022, approximately 1,250 taxpayers claimed this subtraction. The average subtraction was slightly over $5,000.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 70 | $3,440 | $0.2 | <$0.1 | 1% |
| $19,400 - $40,400 | 160 | $3,960 | $0.6 | <$0.1 | 9% |
| $40,400 - $67,700 | 350 | $4,330 | $1.5 | $0.1 | 26% |
| $67,700 - $117,800 | 440 | $5,870 | $2.6 | $0.2 | 44% |
| Above $117,800 | 180 | $6,250 | $1.1 | $0.1 | 20% |
| All Full-Year Filers | 1,190 | $5,080 | $6.1 | $0.5 | 100% |
| Part-Year and Nonresident Filers | 60 | $5,740 | $0.3 | <$0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Oregon Housing and Community Services Department*

Homeownership is a key tool for lifting families out of poverty and creating generational wealth, which disproportionately impacts communities of color who have been excluded from ownership through direct actions of governments, financial institutions, and individual actors. OHCS doesn't administer this program and therefore cannot speak to the utilization rate or ultimate success.

# 1.315 MANUFACTURED DWELLING TENANT PAYMENT

**Oregon Statute:** 316.795 and 317.092
**Sunset Date:** None
**Year Enacted:** 2007

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

## DESCRIPTION

Under state law (ORS 90.645), an owner of a manufactured dwelling park is required to pay each manufactured dwelling tenant if the tenant is forced to relocate because the owner is closing the park. The tenant receiving this money can subtract this amount from their Oregon taxable income.

The payment amount depends on the size of the dwelling. Legislation passed in 2017 (HB 2008) requires the Oregon Housing and Community Services Department (OHCS) to update the amounts annually for inflation. OHCS reports that, as of 2024, the tenant of a single-wide manufactured dwelling will receive $7,982; the tenant of a double-wide manufactured dwelling will receive $10,643; and the tenant of a triple-wide manufactured dwelling will receive $13,304.

## PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to provide financial assistance to manufactured dwelling owners who are forced to relocate because of the closure of the manufactured dwelling park.

## WHO BENEFITS

Residents of closed manufactured dwelling parks who receive payments from the park owners. Few taxpayers claim this subtraction.

### EVALUATION
Not evaluated.

## 1.316 INTEREST FROM STATE AND LOCAL GOVERNMENT BONDS

**Oregon Statute:** 316.056
**Sunset Date:** None
**Year Enacted:** 1987

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $300,000 | $300,000 |
| 2025-27 | Not Applicable | $300,000 | $300,000 |

### DESCRIPTION
Interest or dividends from all federally taxable bonds issued by Oregon state and local governments may be subtracted from Oregon taxable income. This includes interest or dividends received from obligations of counties, cities, local service districts, special government bodies, the Oregon Health and Science University, Oregon public universities, or other political subdivisions of Oregon that are authorized by the Legislative Assembly to issue bonds. Interest on revenue bonds issued by the State Treasurer can be subtracted from income for tax purposes only to the extent that the structure financed is located within Oregon.

This provision also applies to nonqualified private activity bonds, which are bonds primarily issued by local governments to help finance private developments.

This subtraction applies only to interest or dividends that are taxed at the federal level but not by Oregon. See tax expenditure 1.043, Interest on Oregon State and Local Debt, for information related to interest or dividends not taxed federally or by Oregon.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to promote projects that have public benefits by encouraging the purchase of federally taxable bonds issued by the State of Oregon and local governments.

### WHO BENEFITS
Taxpayers holding these bonds benefit from the tax-free interest income. For tax year 2022, approximately 810 personal income taxpayers claimed an average subtraction of about $2,300 using this provision. The State of Oregon and local governments also benefit because this provision reduces the costs of borrowing.

### EVALUATION
Not evaluated.

## 1.317 PERSONAL CASUALTY LOSS

**Oregon Statute:** 316.850
**Sunset Date:** 12-31-2025
**Year Enacted:** 2023 (HB 2812)

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $600,000 | $600,000 |
| 2025-27 | Not Applicable | $200,000 | $200,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

### DESCRIPTION

The federal Tax Cuts and Jobs Act (TCJA) of 2017 temporarily limited the deduction of personal casualty losses only to those caused by a federally declared disaster. An Oregon provision enacted in 2023 (HB 2812) allows for the subtraction from taxable income of personal casualty losses that are incurred in Oregon and would have been federally deductible if not for the TCJA.

For this subtraction, qualified personal casualty losses must result from an event that is subject to a state of emergency declared by the Governor or which occur in an area subject to a Governor's executive order invoking the Emergency Conflagration Act. Subtractions are not allowed for losses from theft or which are deducted on a taxpayer's federal income tax return. Except for the requirement of a federal disaster declaration, other limitations associated with federal deductions for casualty losses still apply. See 1.222, Casualty and Theft Losses for a description of the related federal tax expenditure.

This subtraction applies to tax years beginning on or after January 1, 2020 and before January 1, 2026.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2812 (2023), "the policy purpose of this measure is to provide support to Oregonians with property destroyed in areas subject to Oregon declared emergencies thereby eliminating the tax deduction disparity between federal and state declared disasters."

### WHO BENEFITS

Personal income taxpayers who would have been otherwise been limited by a temporary federal law in their ability to subtract or deduct qualified personal casualty losses for Oregon tax purposes.

### EVALUATION

*Provided by the Oregon Department of Emergency Management*

The purpose of this tax expenditure appears to be meeting the appropriate stipulations for those residents incurring personal casualty losses in Oregon due to a catastrophic event for which a state of emergency has been declared by the Governor. Without this declaration, or invoking of the Emergency Conflagration Act, Oregonians affected by the event would be at a distinct economic disadvantage when trying to recover from personal casualty loss.

The structure of the tax expenditure allows those directly affected to benefit from the disparity that exists between federal and state law without this tax expenditure.

## 1.318 WILDFIRE JUDGMENT OR SETTLEMENT AND LEGAL FEES

**Oregon Law:** Ore. Laws 2024 c.50
**Sunset Date:** 12-31-2025 (see description)
**Year Enacted:** 2024 (SB 1520)

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Not Available | Not Available |
| 2025-27 | Not Applicable | Not Available | Not Available |

### DESCRIPTION

Income received in judgment or settlement of a civil lawsuit arising from a qualifying wildfire may be subtracted from taxable income for Oregon personal income tax purposes. Wildfires (defined in ORS 477.089) qualify for this subtraction if they are the subject of a state of emergency declared by the Governor, occur in an area subject to an executive order of the Governor invoking the Emergency Conflagration Act, or are federally declared disasters, whether located within Oregon or elsewhere.

This subtraction is only allowed for amounts not taken as a deduction or credit from federal income taxes and only to the extent that the damages remedied by the judgment or settlement are not compensated by insurance or otherwise.

Legal fees incurred by a plaintiff in wildfire-related litigation may also be subtracted from taxable income. In contrast, for tax years 2018 through 2025, such legal fees are not generally allowed to be deducted for federal tax purposes due to the federal Tax Cuts and Jobs Act of 2017.

The subtraction applies to declarations and executive orders issued between January 1, 2018 and December 31, 2025. Judgment or settlement amounts or legal fees arising from wildfires during that time may be subtracted as they are received or incurred going forward, effective 2018. For tax years beginning before January 1, 2021, taxpayers may file amended returns on an extended timeline (prior to May 15, 2025) to claim the subtraction retroactively. No interest accrues on such retroactive claims for applicable refunds.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for SB 1520 (2024), "the policy purpose of this measure is to assist taxpayers in rebuilding and recovering following the impact of a catastrophic wildfire."

### WHO BENEFITS
Plaintiffs in wildfire-related civil litigation who pay legal fees or receive a judgment or settlement arising from a qualifying wildfire. Relatively few taxpayers have used this new subtraction as of the publication date of this report.

### EVALUATION
*Provided by the Oregon Department of Emergency Management*

The purpose of this tax expenditure appears to be meeting the appropriate stipulations for those residents incurring legal fees or receiving a judgment in wildfire-related civil litigation in Oregon due to a catastrophic event for which a state of emergency has been declared by the Governor.

Oregonians affected by such events are already dealing with the effects of the catastrophic event and the benefit of this subtraction appears to be properly structured to pass through to its intended recipients allowing for economic relief as applicable.

## 1.319 DEPLETION COSTS FOR METAL MINES

**Oregon Statute:** 317.374
**Sunset Date:** None
**Year Enacted:** Pre-1953

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
Oregon operators of timber, mines, fossil fuel wells and other natural deposits are allowed a depletion allowance based on the cost of the property used to produce the natural resources (known as cost depletion). A partial exception exists for Oregon operators of metal mines which are allowed the option of calculating depletion using the percentage depletion method as opposed to cost depletion which is considered the standard accounting method.

The percentage depletion method allows Oregon operators of metal mines to elect to deduct a depletion allowance equal to 15 percent of the gross income from the metal mine. Up to 50 percent of the net income from the metal mine may be deducted using the depletion allowance based on gross income from the metal mine.

A tax expenditure exists if the percentage depletion method used by the metal mine operator yields a greater tax benefit than the cost depletion method otherwise would.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage discovery and development of metal deposits by potentially reducing the taxes on mining operations.

### WHO BENEFITS
Very few metal mining companies using the percentage depletion method.

### EVALUATION
Not evaluated.

## 1.320 ENERGY CONSERVATION SUBSIDIES (OREGON)

**Oregon Statute:** 316.744 and 317.386
**Sunset Date:** None
**Year Enacted:** 1981

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
Cash payments provided by publicly and investor-owned utilities for the purchase or installation of an energy conservation device under the Residential Energy Conservation Act (ORS 469.631–469.687) can be subtracted from corporate and personal taxable income. Cash payments received from the Oregon Housing and Community Services Department for energy conservation in oil-heated dwellings are also eligible.

For personal income taxpayers who receive cash payments from utilities as part of energy conservation programs, federal law already exempts these payments for residential energy customers from personal taxable income; see 1.032, Energy Conservation Subsidies (Federal). As a result, for personal income taxes, this expenditure only includes payments that are not covered by the federal law, that is, payments received from entities other than utilities.

### PURPOSE
The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to promote energy conservation by encouraging owners of housing to participate in conservation programs sponsored by utilities or the Oregon Housing and Community Services Department.

### WHO BENEFITS
Homeowners and contractors who receive payments from the Oregon Housing and Community Services Department for completing weatherization or energy conservation projects on oil-heated dwellings. The Oregon Housing and Community Services Department expects to provide payments of approximately $100,000 in 2024. Additionally, corporate owners of rental housing who receive cash payments from utilities as part of energy conservation programs may benefit.

### EVALUATION
Not evaluated.

## 1.321 AGRICULTURE SECTOR NET OPERATING LOSS CARRYBACK

**Oregon Law:** Ore. Laws 2022 c.82 §12-15
**Sunset Date:** 12-31-2028
**Year Enacted:** 2022

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | $10,600,000 | $100,000 | $10,700,000 |
| 2025-27 | $19,100,000 | $200,000 | $19,300,000 |

### DESCRIPTION

Net operating loss carryback allows businesses that have losses in a given year to deduct these losses from the taxable profit of preceding years by amending prior year tax returns. For certain eligible personal and corporate taxpayers, a net operating loss may be carried back for up to three years preceding the tax year in which the losses occur. This loss carryback is available to losses arising in tax years 2023 through 2028. Eligible taxpayers are those doing business (as identified by the 2017 North American Industry Classification System) in crop production, animal production, or aquaculture.

The federal Tax Cuts and Jobs Act of 2017 (TCJA) allowed personal income taxpayers in the specified industries to carry back losses for two years and such losses were allowed to offset up to 80 percent of taxable income for tax years after 2017. Oregon legislation passed in 2022 (SB 1524) grants an additional year to carry back losses incurred on personal income and removes the limitation of offsetting only 80 percent of taxable income. For personal income taxes, this tax expenditure and revenue impact estimate only includes the additional year to carry back losses and the removal of the 80 percent limit, as the initial two years are included in 1.214, Extended Carryback of Farming Loss.

For corporations, the TCJA only allowed losses to be carried forward whereas carryback was not allowed. The new legislation in 2022 allows corporate taxpayers in the specified industries to carry back losses for a total of three years.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for SB 1524 (2022) “the policy purpose of the net operating loss carryback provision is to smooth the tax liability of farm businesses reflective of the ups and downs in farm business income and losses.”

### WHO BENEFITS

Personal and corporate income taxpayers in the agriculture sector.

### EVALUATION

*Provided by the Oregon Department of Agriculture*

The tax subtraction facts are described and cannot be evaluated until implemented in 2024 for the 2023 tax year.

## 1.322 WET MARINE AND TRANSPORTATION POLICIES

**Oregon Statute:** 317.080(8)
**Sunset Date:** None
**Year Enacted:** 1995

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $2,500,000 | Not Applicable | $2,500,000 |
| 2025-27 | $2,500,000 | Not Applicable | $2,500,000 |

### DESCRIPTION

Foreign or alien insurers (those formed under the laws of a state other than Oregon or a country other than the United States, respectively) that are authorized by Oregon and write wet marine and transportation (often referred to as ocean marine) insurance are allowed to subtract from taxable income the underwriting profit derived from wet marine and transportation insurance. As described in ORS 731.194, wet marine and transportation insurance covers:

- The insurance of ships and freight
- The insurance of personal property in transport between countries or transported by coast or inland waterways
- The insurance of railroads and aircraft along with their freight while engaged in interstate transport or commerce

Legislation in 2019 (HB 2787) limited this subtraction to only authorized insurers.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to conform to other states' tax treatment of wet marine and transportation insurers.

### WHO BENEFITS
Authorized foreign or alien insurers that sell wet marine and transportation policies.

### IN LIEU
Authorized insurers that write wet marine and transportation policies are required under ORS 731.824 to pay an underwriting profit tax. A 5 percent tax is imposed on the average wet marine insurance underwriting profit during the previous three years. For calendar year 2023, 87 insurers had premiums; 38 of these insurers paid $191,885 in tax based on underwriting profits from writing wet marine and transportation insurance.

### EVALUATION
*Provided by the Department of Consumer and Business Services*

Wet marine and transportation insurers have been taxed only on their underwriting profit since at least 1928. Wet marine and transportation is subject to federal law and treaty. Taxing wet marine and transportation insurers based on underwriting profit rather than gross premium helps to achieve uniformity among states. This method of taxation ultimately benefits parties that purchase this type of insurance, such as ports and interstate transportation carriers, including marine, railroad, and aircraft, by reducing the cost of insurance (if the insurer passes the savings on to the insured).

If this tax expenditure were eliminated, Oregon would have a unique tax structure compared to other states. If the tax subtraction were repealed, it could potentially put the policy holders at a competitive disadvantage with other states.

## 1.323 HYDROELECTRIC DAM AND WATERWAY WORKERS

**Oregon Statute:** 316.127(8) and (10)
**Sunset Date:** None
**Year Enacted:** 1997

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Not Available | Not Available |
| 2025-27 | Not Applicable | Not Available | Not Available |

### DESCRIPTION
Under federal law enacted in 1998 (P.L.105-261), Oregon cannot tax nonresident federal employees who provide services at federally owned hydroelectric facilities on the Columbia River. In 2001, the Oregon Legislature (SB 426) made compensation nontaxable when earned by any nonresident dam workers on the Columbia River, not just nonresident federal employees working at the dams.

Under federal law approved in 2000 (P.L. 106-489), Oregon cannot tax nonresidents working on vessels or ships that operate in navigable waters of more than one state.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purposes are to comply with federal law and simplify tax compliance for certain nonresidents with regularly assigned duties in more than one state.

### WHO BENEFITS
Nonresident workers at federal dams on the Columbia River and nonresident pilots, captains, and crews of vessels operating in navigable waters of more than one state.

### EVALUATION
*Provided by the Department of Revenue*

This expenditure complies with federal law and also relieves the specified taxpayers of the difficulty of determining the portion of income earned in Oregon while working on dams or ships in border river areas.

## 1.324 INCOME EARNED IN "INDIAN COUNTRY"

**Oregon Statute:** 316.777
**Sunset Date:** None
**Year Enacted:** 1977

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $8,600,000 | $8,600,000 |
| 2025-27 | Not Applicable | $9,300,000 | $9,300,000 |

### DESCRIPTION
Income earned within the boundaries of federally recognized "Indian country" (as defined in 18 USC 1151) in Oregon by members of federally recognized American Indian tribes is exempt from taxation under Oregon's personal income tax. The taxpayer must reside in Indian country in Oregon and the income must be earned in Indian country to qualify for the exemption.

As defined in 18 USC 1151, "Indian country" means "(a) all land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and, including rights-of-way running through the reservation, (b) all dependent Indian communities within the borders of the United States whether within the original or subsequently acquired territory thereof, and whether within or without the limits of a state, and (c) all Indian allotments, the Indian titles to which have not been extinguished, including rights-of-way running through the same."

### PURPOSE
To comply with federal law.

### WHO BENEFITS
Tribal members who earn income in "Indian country." The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 270 | $9,400 | $2.5 | <$0.1 | 1% |
| $19,400 - $40,400 | 420 | $26,110 | $10.9 | $0.5 | 14% |
| $40,400 - $67,700 | 420 | $43,490 | $18.2 | $1.1 | 29% |
| $67,700 - $117,800 | 260 | $63,210 | $16.4 | $1.1 | 29% |
| Above $117,800 | 110 | $114,070 | $12.8 | $1.0 | 26% |
| All Full-Year Filers | 1,470 | $41,280 | $60.7 | $3.8 | 100% |
| Part-Year and Nonresident Filers | 30 | $31,380 | $1.1 | $0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

### EVALUATION
*Provided by the Department of Revenue*

This expenditure achieves its purpose of compliance with federal law.

# 1.325 FEDERAL PENSION INCOME

**Oregon Statute:** 316.680(1)(e)
**Sunset Date:** None
**Year Enacted:** 1998

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $129,000,000 | $129,000,000 |
| 2025-27 | Not Applicable | $129,000,000 | $129,000,000 |

## DESCRIPTION

Pension income attributable to federal employment prior to October 1, 1991, is exempt from the Oregon personal income tax. The subtraction is prorated based on the number of months of federal employment prior to October 1991 versus the months after October 1991.

This tax expenditure is the result of a series of legislative actions and court cases through the 1990s which attempted to define a consistent tax policy toward government pension income. This followed the 1989 U.S. Supreme Court ruling that state pensions could not receive better tax treatment than federal pensions (*Davis v. Michigan*, 489 U.S. 803).

## PURPOSE

To comply with federal law.

## WHO BENEFITS

The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 1,890 | $9,450 | $17.8 | $0.3 | <1% |
| $19,400 - $40,400 | 5,250 | $16,090 | $84.5 | $3.6 | 6% |
| $40,400 - $67,700 | 7,370 | $22,490 | $165.8 | $10.2 | 17% |
| $67,700 - $117,800 | 10,860 | $27,570 | $299.3 | $22.6 | 37% |
| Above $117,800 | 8,710 | $32,000 | $278.8 | $24.0 | 40% |
| All Full-Year Filers | 34,080 | $24,830 | $846.2 | $60.7 | 100% |
| Part-Year and Nonresident Filers | 660 | $23,680 | $15.7 | $0.7 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Department of Revenue*

This expenditure achieves its purpose of compliance with federal law.

# 1.326 LEGISLATIVE PER DIEM AND ALLOWANCE

**Oregon Statute:** 171.072(7)
**Sunset Date:** None
**Year Enacted:** 1967

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $100,000 | $100,000 |
| 2025-27 | Not Applicable | $100,000 | $100,000 |

### DESCRIPTION
Members of the Oregon Legislature are allowed to subtract from their Oregon taxable income a legislative per diem or allowance received. Members receive a per diem for each day that the Legislature is in session. In addition, members are entitled to a monthly allowance for expenses incurred in the performance of official duties during periods when the Legislature is not in session. Members may also receive mileage reimbursement and a per diem for each interim day spent serving on a nonlegislative committee or entity such as an interstate body or advisory committee. Further, when the Legislature is not in session, members may receive mileage reimbursement for periods spent working on a Legislative committee or task force.

Reimbursements of actual expenses related to legislative work, as well as ordinary and necessary business expenses in excess of the reimbursements may also be subtracted from income for state income tax purposes. Reimbursements by the state for actual expenses for meals and lodging associated with state travel for the same period during which a legislator receives per diem are subject to state income tax.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to maintain the benefits available to members serving in Oregon's Legislature.

### WHO BENEFITS
Members of the Oregon Legislative Assembly. For tax year 2022, approximately 30 taxpayers claimed an average subtraction of about $10,700, for an average tax savings of about $950.

### EVALUATION
Not evaluated.

## 1.327 OREGON STATE LOTTERY PRIZES

**Oregon Statute:** 461.560
**Sunset Date:** None
**Year Enacted:** 1985

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $400,000 | $400,000 |
| 2025-27 | Not Applicable | $500,000 | $500,000 |

### DESCRIPTION
Oregon State Lottery (Lottery) prize winners may subtract from Oregon taxable income Oregon Lottery winnings of up to $600. The $600 limit applies to a single play of a single game. The amount is not adjusted for inflation.

Originally, all prizes awarded by the Lottery were exempt from tax. In 1997, the Oregon Legislature changed the law so that only prizes up to and including $600 were exempt. However, individuals who purchased a winning ticket prior to January 1, 1998, may continue to subtract those winnings.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to enable ease of play and prize redemption for Lottery game participants and to support ease of selling and prize payment for Lottery game retailers.

## WHO BENEFITS

For tax year 2022, approximately 640 personal income taxpayers claimed an average subtraction of about $4,600 using this provision. The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 110 | $1,860 | $0.2 | <$0.1 | 2% |
| $19,400 - $40,400 | 80 | $2,050 | $0.2 | <$0.1 | 5% |
| $40,400 - $67,700 | 140 | $2,480 | $0.3 | <$0.1 | 13% |
| $67,700 - $117,800 | 140 | $4,130 | $0.6 | <$0.1 | 25% |
| Above $117,800 | 130 | $9,540 | $1.2 | <$0.1 | 54% |
| All Full-Year Filers | 600 | $4,170 | $2.5 | $0.2 | 100% |
| Part-Year and Nonresident Filers | 40 | $11,530 | <$0.1 | <$0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Oregon Lottery*

This tax expenditure achieves its purpose and helps support the statutory purpose of the Lottery: to generate profits for the public purpose without imposing additional or increased taxes. Eliminating this tax expenditure would be a disincentive to players. Most prizes awarded in Lottery games are less than $600. For example, in Fiscal Year 2023, players claimed more than $170 million in prizes each worth $600 or less. Because these prizes are not subject to reporting and withholding, winners can claim them through a statewide retailer network, such as at a local convenience store or gas station. The remaining prizes above $600 are subject to reporting and taxation and/or withholding. In calendar year 2023, 8,147 W2Gs were sent to DOR resulting in the remittance of $3,950,199.49 in state tax withholding for traditional Lottery prizes.

Since 2009, the Lottery has changed the prize mix on Video Lottery games offered to the public. In 2009 all Video Lottery prizes were under $600 and therefore not subject to taxation. These prizes were paid by 3,200 retailers throughout the State. In 2010 Lottery began awarding prizes above $600 which were subject to reporting and tax withholding for State purposes. In calendar year 2023, 47,220 W2Gs were sent to DOR resulting in the remittance of $10,166,843.86 in state tax withholding for Video Lottery prizes.

In October 2019 Lottery introduced an on-line sports betting game which is sold only through Lottery's downloadable mobile application. In calendar year 2023, 60,886 W2Gs were sent to DOR resulting in the remittance of $2,718,099.86 in state tax withholding for Lottery sports prizes.

As with Traditional prizes, most video prizes (which are also under $600) are paid directly by Lottery retailers. Changing the taxation and reporting requirements for Video and Traditional prizes would require that winners travel to claim centers for payment of smaller prizes and would be a burden for both winners from an inconvenience perspective and the Lottery. Specifically, there would be significant costs to program Lottery gaming systems and change processes to accommodate the tax change to send out reporting and withholding documents to all players for prizes paid by Lottery. These costs would result in reduced funds available as transfers to beneficiaries.

Lottery continues to face pressures from other entertainment options and gambling opportunities (such as illegal offshore gambling) for which players do not pay taxes. If players choose other options, as an example, a loss of even 1% of video sales over the last two fiscal years to competition would have reduced transfers to the state by roughly $15.8 million.

# 1.328 FEDERAL INCOME TAX SUBTRACTION

**Oregon Statute:** 316.680(1)(b), 316.685, and 316.695
**Sunset Date:** None
**Year Enacted:** 1929

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $1,200,000,000 | $1,200,000,000 |
| 2025-27 | Not Applicable | $1,420,000,000 | $1,420,000,000 |

## DESCRIPTION

Taxpayers are allowed a limited subtraction for their current year's federal income tax liability after credits. The subtraction limit is up to $8,250 for 2024 (indexed to inflation), except that those taxpayers who use a filing status of married filing separately have a subtraction limit up to 50 percent of that amount or $4,125 for 2024.

The maximum subtraction limit is phased down for high income filers. Filers with a filing status of single or married filing separately with an adjusted gross income of $125,000 to $145,000 have a reduced limit, as do filers with a filing status married filing jointly, head of household, or surviving spouse with an adjusted gross income of $250,000 to $290,000. For filers with an adjusted gross income above their respective upper limit, no subtraction of their federal income tax is allowed.

## PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. Presumably, the purpose is to help offset payments toward a federal income tax liability for taxpayers whose income is below a certain threshold.

## WHO BENEFITS

The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 66,230 | $290 | $19.5 | $1.6 | <1% |
| $19,400 - $40,400 | 254,190 | $1,600 | $407.9 | $34.5 | 7% |
| $40,400 - $67,700 | 321,330 | $3,720 | $1,193.9 | $102.2 | 21% |
| $67,700 - $117,800 | 357,360 | $6,070 | $2,168.3 | $187.5 | 38% |
| Above $117,800 | 276,690 | $6,700 | $1,852.9 | $162.1 | 33% |
| All Full-Year Filers | 1,275,810 | $4,420 | $5,642.5 | $487.9 | 100% |
| Part-Year and Nonresident Filers | 189,810 | $2,220 | $421.3 | $32.2 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

Not evaluated.

# 1.329 MILITARY ACTIVE DUTY AND RELATED PAY

**Oregon Statute:** 316.792
**Sunset Date:** None
**Year Enacted:** 1969

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Applicable | $47,200,000 | $47,200,000 |
| 2025-27 | Not Applicable | $48,100,000 | $48,100,000 |

## DESCRIPTION

Typically, military members who are Oregon residents or domiciled in Oregon may subtract qualifying military pay from Oregon taxable income.

Taxpayers may subtract all military pay for:

- Service performed outside this state in the year of initial draft or enlistment or in the year of discharge
- Service performed outside this state during any month beginning on or after August 1, 1990, and before the date designated by the President of the United States as the date of termination of combatant activities in the Persian Gulf Desert Shield area
- Service by a member of the reserve components, if:
  - The military pay is for service performed when the taxpayer is away from the home of the taxpayer overnight
  - The taxpayer is required to be away from home overnight in order to perform the service, and
  - The service is of a duration of at least 21 consecutive days, although the consecutive days need not be in the same tax year
- Service performed by a member of the Oregon National Guard while in active service of the state or on state active duty

An additional $6,000 per year can be subtracted for service not otherwise qualified in the list above. The total amount subtracted may not exceed the taxpayer's total military pay included in federal taxable income for the tax year. See 1.507, Nonresident Armed Forces for the special treatment of residency requirements for active-duty members of the military.

HB 2071 (2023) expanded the list of service to receive a full subtraction to include service performed by a member of the Oregon National Guard while in active service of the state or on state active duty.

## PURPOSE

The statutes that allow this tax expenditure do not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2171 (2015), the purpose of this subtraction "… is to provide tax relief to service members … in consideration of their work and sacrifices for their state and country."

## WHO BENEFITS

The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 890 | $9,040 | $8.0 | $0.3 | 2% |
| $19,400 - $40,400 | 3,900 | $23,910 | $93.2 | $5.3 | 26% |
| $40,400 - $67,700 | 2,780 | $32,610 | $90.5 | $5.5 | 27% |
| $67,700 - $117,800 | 2,020 | $38,190 | $77.3 | $5.4 | 26% |
| Above $117,800 | 1,410 | $37,810 | $53.2 | $4.1 | 20% |
| All Full-Year Filers | 10,990 | $29,320 | $322.2 | $20.6 | 100% |
| Part-Year and Nonresident Filers | 1,600 | $35,220 | $56.3 | $2.5 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Oregon Military Department*

This tax expenditure achieves its purpose and is a valuable benefit to members of the Oregon National Guard, both Army and Air, as well as other military personnel. Although the subtraction per tax return is not a great deal of money,

it is one of few incentives the State of Oregon offers its citizen soldiers that is comparable to those offered in other states. When talking with prospective recruits or soldiers contemplating re-enlistment, the subject of state incentives frequently arises. There is merit in offering benefits that are comparable to those of other states; examples of which include free tuition to state colleges and universities, re-enlistment bonuses, free automobile licenses, free driver's licenses, and free hunting and fishing licenses. These state benefits are an inexpensive way to recognize the contributions Guard members make to their communities. They help the state recruit and retain quality soldiers and airmen and should be maintained by the State of Oregon.

## 1.330 INTEREST AND DIVIDENDS ON U.S. OBLIGATIONS

**Oregon Statute:** 316.680(1)(a)
**Sunset Date:** None
**Year Enacted:** 1970

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $79,000,000 | $79,000,000 |
| 2025-27 | Not Applicable | $62,000,000 | $62,000,000 |

### DESCRIPTION

Interest and dividends earned on the direct obligations of the U.S. government are exempt from Oregon personal income tax. For example, the dividends or interest earned on U.S. Treasury bills, notes, bonds, and savings bonds are not taxable by state and local governments. Excluded from this provision are the debt instruments of quasi-governmental issuers like the Government National Mortgage Association and the Federal National Mortgage Association. Bonds issued by quasi-governmental issuers are not direct obligations of the U.S. government.

Interest income on state or local debt is excluded federally, and described in 1.043, Interest on Oregon State and Local Debt.

### PURPOSE

To comply with federal law prohibiting states from taxing interest and dividends on U.S. government obligations.

### WHO BENEFITS

The direct beneficiaries are taxpayers who receive income from U.S. obligations such as bonds. The table below shows usage of this subtraction for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Taking Subtraction | Average Subtraction | Total Subtracted ($ millions) | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|---|
| Below $19,400 | 6,740 | $770 | $5.2 | <$0.1 | <1% |
| $19,400 - $40,400 | 6,390 | $960 | $6.2 | $0.3 | 2% |
| $40,400 - $67,700 | 8,720 | $1,320 | $11.5 | $0.8 | 5% |
| $67,700 - $117,800 | 15,820 | $1,830 | $29.0 | $2.3 | 16% |
| Above $117,800 | 33,810 | $3,430 | $116.0 | $10.7 | 76% |
| All Full-Year Filers | 71,470 | $2,350 | $167.9 | $14.1 | 100% |
| Part-Year and Nonresident Filers | 2,640 | $2,970 | $7.8 | $0.4 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

### EVALUATION

*Provided by the Department of Revenue*

This expenditure achieves its purpose of compliance with federal law.

# 1.401 EMPLOYER PROVIDED SCHOLARSHIPS

**Oregon Statute:** 315.237
**Sunset Date:** 12-31-2029
**Year Enacted:** 2001

**Carryforward:** 5 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

## DESCRIPTION

Qualifying employers may claim a credit against their income tax for 50 percent of the amount of scholarships funded for their employees or their employees' dependents, with a maximum credit of $50,000 per tax year. The amount each taxpayer claims in any one year may not exceed the tax liability of that taxpayer for that year. If the credit exceeds the employer's tax liability, the excess may be carried forward up to five years. To qualify, employers must have between four and 250 full-time equivalent employees and have their scholarship program and credit amount certified by the Office of Student Access and Completion within the Oregon Higher Education Coordinating Commission. There is a $1 million cap on the total amount of credits that can be certified per calendar year, and the total lifetime amount of credits an employer may claim is limited to $1 million. The credit is prorated for a nonresident taxpayer.

Legislation in 2023 (HB 2071) extended the scheduled sunset of the provision from December 31, 2025 to December 31, 2029.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the revenue impact statement for HB 2164 (2019), the purpose of the credit is "to encourage and leverage private money to help pay for higher education."

## WHO BENEFITS

Taxpayers with a tax liability who fund employee and dependent scholarship programs. Very few taxpayers benefit from this credit.

## EVALUATION

*Provided by the Higher Education Coordinating Commission*

This benefit encourages employers to support the postsecondary education and training of its employees by providing a tax benefit to those employers for offering postsecondary scholarships to employees. Because the majority of postsecondary students are employed while they attend school, this benefit indirectly supports the educational attainment goals of individuals and the state.

# 1.402 CONTRIBUTIONS OF COMPUTER EQUIPMENT

**Oregon Statute:** 317.151
**Sunset Date:** 12-31-2013
**Year Enacted:** 1985

**Carryforward:** 5 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

## DESCRIPTION

The Contributions of Computer Equipment credit expired as of December 31, 2013. Nevertheless, there may be revenue impacts for the 2023-25 and 2025-27 biennia due to unused credit amounts carried forward to succeeding years or new credits based on agreements in place prior to the sunset. Unused credit amounts due to insufficient tax liability may be used in later years, for up to five years. A taxpayer who made a donation in the year of the sunset, 2013, may carry forward unused amounts through tax year 2018. Generally, the contribution had to be made in tax years

beginning before January 1, 2014, to qualify for the credit. However, if a written contract or agreement for donating money for scientific or engineering research was agreed upon before January 1, 2014, but the donation was given after that date, the credit is still allowed.

A credit against income taxes was allowed for contributions of any of the following to an institution of higher education, a postsecondary school, or a public school (grades K-12) in Oregon:

- Computers and scientific equipment
- An agreement for maintenance of the computers and scientific equipment
- Money given by contract or agreement for scientific or engineering research.

The credit was equal to 10 percent of the fair market value of the contribution donated. This credit is in lieu of any deduction based on the contribution. For S corporations that claim the credit, the credit is shared by the S corporation shareholders and claimed against their Oregon personal income tax.

### PURPOSE
The statute that allowed this expenditure did not explicitly state a purpose. Presumably, the purpose was to encourage donations of computers and scientific equipment to educational institutions.

### WHO BENEFITS
Very few taxpayers benefit from this credit.

### EVALUATION
Not evaluated.

## 1.403 OPPORTUNITY GRANT FUND CONTRIBUTIONS

**Oregon Statute:** 315.643
**Sunset Date:** 12-31-2022
**Year Enacted:** 2018
**Carryforward:** 3 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Available* | Not Available* | Not Available* |
| 2025-27 | Not Available* | Not Available* | Not Available* |

** In certain cases, to conform with taxpayer privacy disclosure laws, revenue numbers are not provided for tax expenditures that may affect at most a few taxpayers. This includes tax expenditures that do not currently affect any Oregon taxpayer, but could at a later date.*

### DESCRIPTION
The Opportunity Grant Fund Contributions credit expired as of December 31, 2022; however, there are revenue impacts for the 2023-25 and 2025-27 biennia due to unused tax credits carried forward to succeeding years. The last possible year to claim this credit is the tax year beginning before January 1, 2026. A credit against corporation or personal income taxes was available to taxpayers who purchase tax credits from an auction conducted by the Department of Revenue (DOR), in cooperation with the Higher Education Coordinating Commission (HECC). The proceeds of the auction went to the Opportunity Grant Fund.

DOR administered the auction process and determined the minimum bid before conducting the auction, which could not be below 90 percent of the value of the credit. Legislation in 2019 (SB 459) decreased the requirement for the minimum bid from 95 percent of the value of the credit to 90 percent. It also required the auction to be conducted no later than April 15 following December 31 of any tax year for which the credit was allowed. Legislation in 2021 (HB 2456) allowed taxpayers to either claim the credit for the tax year in which they participated in the auction or for the prior tax year, as long as they had not yet filed a tax return for the prior year. Legislation in 2023 (SB 129) sunset the Opportunity Grant Fund Contributions credit for tax years beginning on or after January 1, 2023 and allowed taxpayers to claim the credit for tax year 2023 if a taxpayer purchased credit at auction conducted on or after January 1, 2023, and before March 1, 2023. The final auction was held in February of 2023.

There was no maximum credit per taxpayer, but there was a $14 million limit on the total amount of credits that can be issued annually.

The tax credit was not transferable. The amount each taxpayer claimed in any one year could not exceed the tax liability of that taxpayer for that year. Any tax credit not used in a particular year because of insufficient tax liability could be carried forward for up to three years. A nonresident or part-year resident taxpayer could claim the credit in full, without proration.

### PURPOSE
According to the revenue impact statement for SB 1528 (2018), the purpose of the credit was to "establish an additional funding source to be used to support the Oregon Opportunity Grant program thereby expanding support to Oregon higher education students in need of financial assistance."

### WHO BENEFITS
Taxpayers with a tax liability who purchased tax credits in an auction, proceeds of which funded the Opportunity Grant Fund. At the final auctions in December 2022 and February 2023, about 140 taxpayers paid $13.2 million for tax credits with a total value of $13.8 million. According to the HECC website, more than 30,000 college students receive Opportunity Grants each year.

### EVALUATION
Not evaluated.

## 1.404 EMPLOYEE TRAINING

**Oregon Statute:** 315.523
**Sunset Date:** 12-31-2022 (see description)
**Year Enacted:** 2017

**Carryforward:** 3 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
The Employee Training credit expired as of December 31, 2022; however, there are revenue impacts for the 2023-25 and 2025-27 biennia due to unused tax credits carried forward to succeeding years. A credit was allowed against personal or corporation income taxes to a taxpayer who was located in a qualifying county and who established and implemented an employee training program in collaboration with a local community college. The credit allowed was 12 percent of the taxpayer's expenses to establish and implement the training program. The amount each taxpayer claimed in any one year could not exceed the tax liability of that taxpayer for that year. If the credit exceeded the employer's tax liability, the excess could be carried forward up to three years.

Only Klamath County was a qualifying county, which was defined as one with population greater than 60,000 but less than 80,000 that:

- was located entirely outside of the Portland Metropolitan Area Regional Urban Growth Boundary (UGB) and UGBs of cities with more than 30,000 in population
- had an annual economic development budget of $500,000 or greater
- had an unemployment rate at least 1.5 percentage points greater than the comparable statewide unemployment rate
- was party to an agreement with an institute of higher education to coordinate efforts to promote enterprise throughout the county

- was the site of a base or installation of the Armed Forces of the United States that employed at least 750 civilian and military personnel, and
- had access to internet service with the minimum connection speed required to effectively conduct electronic commerce.

Because the legislation enacting this statute did not explicitly provide a period of applicability for this tax expenditure, ORS 315.037(2) established that this tax credit shall apply for a maximum of six years beginning with the initial applicable tax year. In this case, the last applicable tax year is 2022 with carryforward available through 2025.

### PURPOSE
The statute that allowed this expenditure did not explicitly state a purpose. Presumably, the purpose was to encourage employers to collaborate with community colleges to offer employee training programs.

### WHO BENEFITS
Individuals or businesses implementing employee training programs in qualified counties. Very few taxpayers benefited from this credit.

### EVALUATION
Not evaluated.

## 1.405 CONTRIBUTIONS TO 529 ACCOUNT

**Oregon Statute:** 315.650
**Sunset Date:** 12-31-2029
**Year Enacted:** 2019

**Carryforward:** No
**Refundable:** Yes
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $17,600,000 | $17,600,000 |
| 2025-27 | Not Applicable | $17,600,000 | $17,600,000 |

NOTE: The revenue impact estimate includes both the portion used to reduce tax liability, and the portion paid directly to taxpayers.

### DESCRIPTION
A credit may be claimed against personal income taxes for contributions made to an Oregon 529 College Savings Network account for higher education. The amount of the credit allowed is limited based on the taxpayer's adjusted gross income (AGI) and is the lesser of $180 ($360 for a joint return) in 2024, adjusted annually for inflation, or the following:

| AGI Limit | Credit Amount |
|---|---|
| Less than $30,000 | 100% of contribution |
| $30,000 to $70,000 | 50% of contribution |
| $70,000 to $100,000 | 25% of contribution |
| $100,000 to $250,000 | 10% of contribution |
| $250,000 or more | 5% of contribution |

The credit is refundable. To the extent that the credit exceeds a taxpayer's liability (reduced by any nonrefundable credits), the taxpayer receives a payment for the excess.

The proceeds of Oregon 529 College Savings Network accounts are meant to be used to pay higher education related expenses for a designated beneficiary. Total contributions to these accounts are allowed up to the amount necessary to cover the qualified higher education expenses of the beneficiary or limits specified by the Oregon 529 Savings Board.

The revenue impact above includes only the impact of the state allowed credit for contributions. Under federal law, contributions to these accounts are not tax deductible. However, earnings on contributions and qualifying distributions from the accounts are excluded from federal tax. The revenue impact and complete description of federal tax benefits

applicable to Oregon 529 College Savings Network accounts are detailed in tax expenditure 1.002, Qualified Education Savings (Federal).

This credit replaces the corresponding subtraction, 1.301, Oregon 529 College Savings Network, which sunset December 31, 2019.

Legislation in 2023 (HB 2071) extended the scheduled sunset of the provision from December 31, 2025 to December 31, 2029.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the revenue impact statement for HB 2164 (2019), the purpose is "to provide families and individuals a tool with which to begin saving for higher education expenses thereby encouraging individuals to commit to continuing their education beyond high school. Policy intent of restructuring tax subtraction as a refundable credit is to make tax incentive more available to families and individuals of more modest means."

## WHO BENEFITS

The table below shows usage of this credit for tax year 2022:

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 1,030 | $180 | $0.2 | 2% |
| $19,400 - $40,400 | 930 | $190 | $0.2 | 2% |
| $40,400 - $67,700 | 2,150 | $190 | $0.4 | 5% |
| $67,700 - $117,800 | 7,200 | $180 | $1.3 | 15% |
| Above $117,800 | 30,170 | $210 | $6.5 | 76% |
| All Full-Year Filers | 41,470 | $210 | $8.5 | 100% |
| Part-Year and Nonresident Filers | 1,260 | $110 | $0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

Since this is a refundable credit, the full amount of credits claimed can be used, even if the taxpayer has little or no tax liability. Of the approximately $8.6 million claimed for 2022, $8.3 million was used to reduce tax liability, while the remaining $0.3 million exceeded tax liability and was paid directly to taxpayers.

## EVALUATION

*Provided by the Higher Education Coordinating Commission*

This tax expenditure is a fiscally effective method of achieving its purpose, which is to reduce the cost of higher education. With more than one-third of Oregon students having estimated resources that do not cover their cost of attendance, even after accounting for family and financial aid contributions, this allows families to save ahead to meet educational expenses. This is particularly important going forward as the fastest growing component of the cost of attendance is housing and related costs, which these contributions can be used to pay for. The greatest revenue impact occurs for families with higher incomes, and this is consistent with HECC analysis showing that families' and students' contributions cover nearly all of the cost of attendance for students from middle and higher income backgrounds.

# 1.406 EARNED INCOME CREDIT

**Oregon Statute:** 315.266
**Sunset Date:** 12-31-2025
**Year Enacted:** 1997

**Carryforward:** No
**Refundable:** Yes
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $106,000,000 | $106,000,000 |
| 2025-27 | Not Applicable | $54,300,000 | $54,300,000 |

NOTE: The revenue impact estimate includes both the portion used to reduce tax liability, and the portion paid directly to taxpayers. The revenue impact estimate includes the effect of the sunset.

## DESCRIPTION

Taxpayers eligible for the federal earned income tax credit (EITC), a refundable federal income tax credit for low-income working individuals and families, may claim an Oregon income tax credit equal to 9 percent of the federal credit. For taxpayers with at least one dependent under the age of three, the Oregon income tax credit increases to 12 percent of the federal EITC. Legislation in 2021 (HB 2433) expanded qualification for the credit starting in tax year 2022 by allowing resident and nonresident individuals to claim the credit using their Individual Taxpayer Identification Number (ITIN) in lieu of a Social Security Number, as required for the federal credit. To determine the amount of their Oregon credit, these taxpayers compute the amount of federal EITC they would qualify for but for the ITIN limitation and multiply that amount by the appropriate Oregon credit rate (9 percent or 12 percent).

Like the federal credit, the Oregon tax credit is also a refundable credit. To the extent that the state credit exceeds a taxpayer's liability (reduced by any nonrefundable credits), the taxpayer receives a payment for the excess.

The federal EITC varies based on a taxpayer's "earned" income (generally wages and certain types of self-employment income). Specifically, the federal EITC equals a fixed percentage of earned income until reaching a maximum amount. The credit then remains at this maximum amount over a subsequent range of earned income. The credit then decreases with earned income until the point when the credit becomes zero for incomes above a certain threshold. The income breakpoints and maximum credit depend on filing status and number of qualifying children. For tax year 2024, the maximum federal EITC for a taxpayer without children is $632. In contrast, the maximum credit for a taxpayer with one child is $4,213, with two children is $6,960, and with three or more children is $7,830. For married filing jointly taxpayers with three or more children, they cannot claim the credit if they a have an adjusted gross income above $66,819. For single taxpayers and taxpayers with two or fewer children the threshold income is less.

At inception, the Oregon credit was 5 percent of the federal earned income tax credit. In 2006, the Oregon credit became refundable. In 2008, the Oregon credit increased to 6 percent of the federal credit and further increased to 8 percent in 2014. Beginning with tax year 2017, the Oregon credit increased to 11 percent of the federal credit for taxpayers with a dependent under the age of three. Legislation in 2019 (HB 2164) increased the Oregon credit from 8 percent to 9 percent of the federal credit and, for taxpayers with a dependent under the age of three, from 11 percent to 12 percent. The same legislation extended the scheduled sunset of the Oregon earned income credit to December 31, 2025.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose of the credit is "to increase the spendable income of low-income working families by offsetting state income taxes, thereby encouraging low wage earners to enter the labor force or earn more if already part of the labor force." The legislative staff revenue impact statement for HB 2433 stated that the purpose of the expansion was "to make the earned income tax credit more equitable by eliminating the distinction between taxpayers filing with a Social Security Number and those filing with an Individual Taxpayer Identification Number."

## WHO BENEFITS

The table below shows usage of this credit for tax year 2022, including filers using an ITIN to claim the credit.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 107,050 | $160 | $16.8 | 39% |
| $19,400 - $40,400 | 72,200 | $320 | $22.9 | 53% |
| $40,400 - $67,700 | 27,590 | $120 | $3.3 | 8% |
| $67,700 - $117,800 | 0 | $0 | $0.0 | 0% |
| Above $117,800 | 0 | $0 | $0.0 | 0% |
| All Full-Year Filers | 206,840 | $210 | $43.0 | 100% |
| Part-Year and Nonresident Filers | 23,070 | $130 | $2.9 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

Since this is a refundable credit, the full amount of credits claimed can be used, even if the taxpayer has little or no tax liability. Of the approximately $45.9 million claimed for 2022, $25.8 million was used to reduce tax liability, while the remaining $20.1 million exceeded tax liability and was paid directly to taxpayers.

## EVALUATION

*Provided by the Oregon Department of Human Services*

Research has shown that providing cash to families can reduce the number of children living in poverty. A study from the U.S. Department of Health and Human Services found that children living in poverty are at seven times higher risk for neglect, three times higher risk for physical abuse and two times higher risk for sexual abuse. By giving cash refunds to families, the federal Earned Income Tax Credit (EITC) and Oregon (EIC) can reduce a family's chance of entering the child welfare system by reducing the risk of neglect and abuse.

Together, the EITC and the Oregon EIC can be a significant support to families, but many Oregonians don't receive it because they do not file a return. The IRS estimates that for tax year 2020, Oregon had the lowest EITC participation rate of eligible residents compared to other states. Roughly one out of every three eligible residents did not file for the EITC and thus did not receive either the federal or the state credit for 2020. Filing for 2020 occurred in early 2021 at the height of the pandemic, so a low rate of participation is to be expected, but Oregon has consistently been in the bottom half of the country for EITC uptake every year.

Electronic filing virtually ensures that taxpayers receive the tax credits that they are eligible for when they file. Lack of access to technology, questions about tax forms and rules, fear of making a mistake and the inability to afford tax preparation assistance prevent many Oregonians from filing. Access to free tax preparation assistance is critical to ensuring that Oregonians receive valuable tax credits like the Oregon EIC.

# 1.407 CHILD WITH A DISABILITY

**Oregon Statute:** 316.099(3)
**Sunset Date:** 12-31-2027
**Year Enacted:** 1985

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $8,700,000 | $8,700,000 |
| 2025-27 | Not Applicable | $8,700,000 | $8,700,000 |

## DESCRIPTION

For taxpayers with adjusted gross income that does not exceed $100,000, an additional exemption credit is allowed for each qualifying dependent child who is disabled. The adjusted gross income limits are not adjusted for inflation. The amount of the exemption credit (and hence the child with a disability credit) is indexed each year to account for

inflation and is prorated for nonresidents and part-year residents. The credit is $249 in 2024. This credit is in addition to 1.443, Personal Exemption.

"Child with a disability" is defined in statute as a dependent child who is eligible for early intervention services, or who is diagnosed for special education purposes as being intellectually disabled, multi-disabled, visually impaired, hearing impaired, deaf-blind, orthopedically impaired, other health impaired, or as having autism, emotional disturbance or traumatic brain injury, in accordance with State Board of Education rules.

Use of this program has been expanded by the federal Americans with Disabilities Act, as well as a tax court decision allowing the credit for nonresident dependents diagnosed and educated in other states.

Prior to 2013, there were no adjusted gross income limits for the additional personal exemption credit for a dependent child with a qualifying disability. In 2013, the Legislature eliminated all personal exemption credits, including any credit claimed for a child with a disability, for joint filers with adjusted gross income above $200,000, and for single filers with adjusted gross income above $100,000. In 2014, the Legislature reinstated the additional personal exemption credits for dependent disabled children for high income taxpayers, retroactive to tax year 2013, but in 2015 (HB 2171) limited this credit to taxpayers with adjusted gross income that does not exceed $100,000 regardless of filing status.

Legislation in 2021 (HB 2433) extended the sunset of the credit for a child with a disability to December 31, 2027.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2433 (2021) the purpose is, "to provide financial relief and offset costs associated with a child's disability."

## WHO BENEFITS

The table below shows usage of this credit for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 3,160 | $30 | $0.1 | 3% |
| $19,400 - $40,400 | 4,710 | $220 | $1.1 | 30% |
| $40,400 - $67,700 | 5,130 | $260 | $1.3 | 38% |
| $67,700 - $117,800 | 3,850 | $260 | $1.0 | 29% |
| Above $117,800 | 0 | $0 | $0.0 | 0% |
| All Full-Year Filers | 16,850 | $210 | $3.5 | 100% |
| Part-Year and Nonresident Filers | 1,230 | $120 | $0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Oregon Department of Human Services*

This tax expenditure achieves its purpose and is of greatest assistance to those people who are at the margin of needing state assistance. It allows for greater disposable income to meet the more costly needs of children with disabilities. This tax expenditure is well targeted and provides the recipients with valuable financial assistance that alleviates or prevents the reliance on direct state services. As a result, this tax credit saves the state more than it costs.

# 1.408 RURAL MEDICAL PRACTICE

**Oregon Statute:** 315.613, 315.616, and 315.619
**Sunset Date:** 12-31-2027 (new); 01-01-2037 (continuing)
**Year Enacted:** 1989

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $11,800,000 | $11,800,000 |
| 2025-27 | Not Applicable | $11,000,000 | $11,000,000 |

## DESCRIPTION

A nonrefundable credit of up to $5,000 against personal income taxes is allowed to certain rural medical providers. Eligible providers include physicians, dentists, podiatrists, optometrists, physician associates, certified registered nurse anesthetists, and nurse practitioners. Providers must be certified by the Office of Rural Health.

To qualify, providers must care for patients in a qualifying rural area for at least 20 hours per week, averaged over the month. They must also be willing to serve patients with Medicare coverage and patients receiving medical assistance in at least the same proportion as the proportion of Medicare and medical assistance populations in the county where they practice, up to 20 percent for Medicare patients or 15 percent for medical assistance patients. Other requirements for eligibility vary by type of provider.

The tax credit amount is based on the distance a provider's practice or hospital membership is from a major population center of 40,000 or more:

- If at least 10 miles but fewer than 20 miles, $3,000
- If at least 20 miles but fewer than 50 miles, $4,000
- If 50 or more miles, $5,000.

Currently, there are seven such major population centers in Oregon: the Portland area, Salem, Eugene/Springfield, Medford, Grants Pass, Bend, and Corvallis/Albany.

The total credit amount awarded by the Office of Rural Health is based on the distances outlined above and the number of months during the year that the practitioner maintains the rural practice. If the practice is maintained for fewer than 12 months, the Office of Rural Health prorates the credit accordingly. For nonresidents and part-year residents, the credit is also prorated.

Legislation in 2017 (HB 2066) placed an income cap on those eligible for the credit. Starting with tax year 2018, only taxpayers with income less than $300,000 qualify for the credit. Exempted from the income cap, however, are physicians who practice as general surgeons, specialize in obstetrics, or specialize in family or general practice and also provide obstetrical services. In 2021 (HB 2433), legislation expanded the income cap exemption to also include physicians who specialize in family or general practice and also practice emergency medicine in a county that is a frontier rural practice county.

Legislation in 2017 also added a lifetime 10-year limit starting on or after tax year 2018.

Legislation in 2019 (HB 2847) expanded the categories of hospitals in which practicing medical providers can qualify for the credit, including rural referral centers and sole community hospitals as defined by the Centers for Medicare and Medicaid Services. According to the revenue impact statement prepared by staff for this legislation, the expansion was intended to include the Sky Lakes Medical Center in Klamath Falls as a qualifying hospital.

Legislation in 2021 (HB 2433) extended the sunset for this tax credit to December 31, 2027. Providers who are eligible for the credit in 2027 may claim the credit for any tax year that begins on or before January 1, 2037.

## PURPOSE

The statutes that allow this expenditure do not explicitly state a purpose. According to the revenue impact statement prepared by legislative staff for HB 2433 (2021), "the policy purpose of this credit is to support the recruitment and retention of certain medical professionals in rural areas, thereby improving access in rural areas to such health care providers."

## WHO BENEFITS

Medical professionals who qualify for this tax credit. For the 2023 tax year, nearly 1,900 practitioners were certified by the Office of Rural Health for the credit. The table below shows usage of this credit for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | <10 | $20 | <$0.1 | <1% |
| $19,400 - $40,400 | <10 | $880 | <$0.1 | <1% |
| $40,400 - $67,700 | 30 | $2,550 | <$0.1 | <1% |
| $67,700 - $117,800 | 140 | $3,850 | $0.5 | 9% |
| Above $117,800 | 1,230 | $4,220 | $5.2 | 90% |
| All Full-Year Filers | 1,400 | $4,110 | $5.8 | 100% |
| Part-Year and Nonresident Filers | 190 | $2,290 | $0.4 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Office of Rural Health*

This tax credit was created to attract and retain practitioners in rural and frontier Oregon, thereby improving access to care for rural Oregonians. Past surveys conducted by the Office of Rural Health (ORH) indicate that rural practitioners value the tax credit more as a retention tool than a recruitment tool. A 2016 study mandated by HB 3396 (2015) examined a subset of tax credit recipients - those who are also National Health Service Corps (NHSC) providers. That study found that 67.5 percent of primary care NHSC providers who also received the tax credit continued to practice in primary care HPSA areas in Oregon one year after completion of their NHSC obligation, while the retention rate for primary NHSC providers who did not receive the tax credit was 61.4 percent. The difference in the retention rates two years after the completion of NHSC obligation is even greater: 53.6 percent among tax credit recipients versus 43.3 percent among non-recipients. ORH administers one state (Oregon Health Care Provider Loan Repayment) and one additional federal loan (Oregon Partnership Loan Repayment) repayment program to increase recruitment to rural and frontier communities. The tax credit program works in conjunction with these programs to retain providers beyond service obligations. In tax year 2023, ORH certified 1,898 providers as eligible for the tax credit. Of those, 604 were MDs, 117 DOs, 601 NPs, and 414 PAs.

# 1.409 VOLUNTEER RURAL EMERGENCY MEDICAL PROVIDERS

**Oregon Statute:** 315.622
**Sunset Date:** 12-31-2027
**Year Enacted:** 2005

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $100,000 | $100,000 |
| 2025-27 | Not Applicable | $100,000 | $100,000 |

## DESCRIPTION

A nonrefundable credit of $250 (not adjusted for inflation) against personal income taxes is allowed to certain rural emergency medical service providers certified by the Office of Rural Health. They cannot carry forward any unused portion. The amount of the credit is prorated for nonresidents and part-year residents. To receive the credit, at least 20 percent of the services provided by the emergency medical service provider must be volunteer hours spent in a qualifying rural area. For this provision, rural means any area at least 25 miles from a city with a population of 30,000 or more. Two joint personal income taxpayers can each qualify for and claim the credit for a total of $500 per return, if applicable.

Legislation in 2023 (HB 2071) extended the scheduled sunset of the provision from December 31, 2025 to December 31, 2027.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose is "To help defray the out of pocket costs of rural volunteer providers of emergency medical services."

### WHO BENEFITS
Certified emergency medical providers who volunteer at least 20 percent of their services in rural areas.

For tax year 2022, over 200 personal income tax filers saved an average of about $250 using this credit.

### EVALUATION
*Provided by the Office of Rural Health*

Rural volunteer EMTs must pay for the cost of training and certification out of their own pockets, which has made the recruitment and retention of rural volunteer EMTs difficult. The EMT Tax Credit program was designed to assist rural volunteer EMTs by offsetting those costs and increasing the retention of trained health care professionals. While the Office of Rural Health has not done a formal evaluation of this program, the office does believe it is an effective program and should be continued. For tax years 2022 and 2023, respectively, the Office of Rural Health certified 350 and 321 rural, volunteer EMTs for this tax credit.

## 1.410 SEVERE DISABILITY

**Oregon Statute:** 316.758
**Sunset Date:** 12-31-2027
**Year Enacted:** 1985

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $7,800,000 | $7,800,000 |
| 2025-27 | Not Applicable | $7,800,000 | $7,800,000 |

### DESCRIPTION
An exemption credit is allowed for nondependent taxpayers with severe disabilities and federal adjusted gross income that does not exceed $100,000. Two exemptions may be claimed on a joint return if both spouses qualify. The adjusted gross income limit is not adjusted for inflation. The amount of the exemption credit (and hence the severe disability credit) is indexed each year to account for inflation and is prorated for nonresidents and part-year residents. The credit is $249 in 2024. This credit is in addition to 1.443, Personal Exemption.

Severe disability is defined by any of the following:

- The loss of use of one or more lower extremities
- The loss of use of both hands
- Permanent blindness
- A physical or mental condition that limits the abilities of the person to earn a living, maintain a household, or provide personal transportation without employing special orthopedic or medical equipment or outside help.

Legislation enacted in 2021 (HB 2433) extended this credit's sunset, stating that the credit may not be claimed for tax years beginning after December 31, 2027.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2433 (2021), the purpose of this credit is "… provide financial relief and offset costs associated with a taxpayer's disability."

### WHO BENEFITS

The table below shows usage of this credit for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 9,890 | $50 | $0.5 | 15% |
| $19,400 - $40,400 | 6,110 | $160 | $1.0 | 27% |
| $40,400 - $67,700 | 5,620 | $190 | $1.1 | 30% |
| $67,700 - $117,800 | 4,710 | $210 | $1.0 | 27% |
| Above $117,800 | 0 | $0 | $0.0 | 0% |
| All Full-Year Filers | 26,330 | $140 | $3.6 | 100% |
| Part-Year and Nonresident Filers | 1,810 | $90 | $0.2 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

### EVALUATION

*Provided by the Oregon Department of Human Services*

This tax expenditure appears to achieve its purpose. It increases disposable income for eligible individuals. While a tax credit is clearly beneficial, there is a concern that those who qualify for this credit may not earn sufficient income to fully utilize it.

## 1.411 CONTRIBUTIONS TO ABLE ACCOUNT

**Oregon Statute:** 315.650
**Sunset Date:** 12-31-2029
**Year Enacted:** 2019

**Carryforward:** No
**Refundable:** Yes
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $600,000 | $600,000 |
| 2025-27 | Not Applicable | $600,000 | $600,000 |

NOTE: The revenue impact estimate includes both the portion used to reduce tax liability, and the portion paid directly to taxpayers.

### DESCRIPTION

A credit may be claimed against personal income taxes for contributions made to an Oregon ABLE (Achieving a Better Life Experience) account. The amount of the credit allowed is limited based on the taxpayer's adjusted gross income (AGI) and is the lesser of $180 ($360 for a joint return) for 2024, adjusted annually for inflation, or the following:

| AGI Limit | Credit Amount |
|---|---|
| Less than $30,000 | 100% of contribution |
| $30,000 to $70,000 | 50% of contribution |
| $70,000 to $100,000 | 25% of contribution |
| $100,000 to $250,000 | 10% of contribution |
| $250,000 or more | 5% of contribution |

The credit is a refundable credit. To the extent that the credit exceeds a taxpayer's liability (reduced by any nonrefundable credits), the taxpayer receives a payment for the excess.

The proceeds of Oregon ABLE accounts are meant to be used to pay qualified disability expenses of the designated beneficiary, including education, housing, transportation, employment training and support, health care, and financial management. Individuals diagnosed with a disability before the age of 26 (age 46 after 2025) are eligible for an Oregon ABLE Savings Plan account. Up to $100,000 can be saved within an ABLE account without the assets affecting federal and state benefits, and up to the gift tax exemption limit ($18,000 in 2024) can be contributed annually.

In addition, the 2017 Tax Cuts and Jobs Act (TCJA) temporarily increased the allowable contribution for tax years 2018 through 2025. Above and beyond the standard annual contribution limit mentioned previously, an eligible employed designated beneficiary is allowed to contribute an additional amount up to the lower of the prior year's poverty level for a household of one or the beneficiary's compensation in the tax year.

The revenue impact above includes only the impact of the state-allowed credit for contributions. Under federal law, contributions to these accounts are not tax deductible. However, qualifying distributions and earnings on contributions are excluded from federal and state taxable income. The Joint Committee on Taxation considers the federal tax expenditure to be quantitatively *de minimis*. As such, the federal tax expenditure is listed in the "Other Federal Provisions" section of this report.

This credit replaces the corresponding subtraction, 1.306, ABLE Account Contributions, which sunset December 31, 2019.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose is "to help people with disabilities to save money for necessary expenses to meet the challenges of life."

## WHO BENEFITS

The table below shows usage of this credit for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 580 | $150 | <$0.1 | 37% |
| $19,400 - $40,400 | 120 | $150 | <$0.1 | 8% |
| $40,400 - $67,700 | 90 | $170 | <$0.1 | 7% |
| $67,700 - $117,800 | 180 | $190 | <$0.1 | 15% |
| Above $117,800 | 370 | $220 | <$0.1 | 34% |
| All Full-Year Filers | 1,340 | $180 | $0.2 | 100% |
| Part-Year and Nonresident Filers | 40 | $140 | <$0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Oregon Department of Human Services*

Oregon ABLE is incredibly important for people with disabilities to be able to save money for unexpected expenses, long-term expenses such as a down payment on a vehicle, or home, etc. Currently, with federal requirements to remain connected to Social Security or Medicaid (critical to access health and safety services such as attendant care, medical, etc.) a person with a disability can only save up to $2,000 *at a time*. Meaning, once they save $2,000 to go towards unexpected expenses, a home, etc. they must immediately stop saving because excess of that will put them at risk of losing benefits. This makes it nearly impossible for people with disabilities to live as independently as possible, or step down from Medicaid services. As noted above, ABLE allows individuals to save more, which makes investing (like anyone else in Oregon) possible. The tax benefit allows individuals, parents, grandparents, etc. to contribute for their children, as well. Overall, this program has changed lives and expectations for people with disabilities in Oregon and should continue.

# 1.412 OREGON KIDS CREDIT

**Oregon Statute:** 315.273
**Sunset Date:** 12-31-2028
**Year Enacted:** 2023 (HB 3235)

**Carryforward:** No
**Refundable:** Yes
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $78,100,000 | $78,100,000 |
| 2025-27 | Not Applicable | $79,600,000 | $79,600,000 |

NOTE: The revenue impact estimate includes both the portion used to reduce tax liability, and the portion paid directly to taxpayers.

## DESCRIPTION

As of tax year 2023, a refundable personal income tax credit is allowed for low-income families with qualifying children and modified adjusted gross income below $30,000. Modified adjusted gross income is Oregon income after additions and subtractions plus any losses deducted on the federal return that exceed $20,000. The tax credit is equal to $1,000 per qualifying child under the age of six at the close of the tax year. The number of qualifying children is limited to no more than five per taxpayer. The credit phases out proportionally for taxpayers with qualifying income between $25,000 and $30,000. Starting with tax year 2024, the phaseout thresholds and credit amount will be adjusted for inflation. The credit cannot be claimed by taxpayers filing as married filing separately. The amount of the credit is prorated for nonresidents and part-year residents.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 3235 (2023), the purpose "is to decrease childhood poverty in Oregon, understanding that early childhood investments can be particularly effective in increasing the lifetime well-being of an individual."

## WHO BENEFITS

Low-income taxpayers with qualifying children under age six.

## EVALUATION

*Provided by the Oregon Department of Human Services*

This is a new credit that is available to very low-income families. In fact, the credit is available even if the taxpayer has no taxable income. It is also available to families who are not eligible for a Social Security Number because of their immigration status. Data pulled from the Oregon Health Plan database estimates that about 80,000 families were eligible for this credit in tax year 2023. To date, only about half of those families, filed and received the credit.

The dollar value of this credit is high and significantly impacts the financial position of eligible families, particularly when the credit supplements the EITC, the Oregon EIC and the Child Tax Credit. Sometimes, however, the taxpayer's income is so low that they are not eligible for the Child Tax Credit, or they don't have earned income for the EITC, so this is only credit they receive. This general applicability generously fills some gaps in the tax code that otherwise exclude needy families.

Unfortunately, many of the families that are eligible to receive the credit do not file tax returns, either because they do not have a filing requirement or because they need assistance to obtain an Individual Taxpayer Identification Number (ITIN) from the IRS in order to file. And for those families that do file, they often pay a provider $400 to file their return, reducing the full benefit of the credit. Access to free tax preparation assistance statewide is critical to ensuring that the full amount of this important and valuable credit reaches all eligible families.

## 1.413 FARMWORKER HOUSING LENDER'S CREDIT

**Oregon Statute:** 317.147
**Sunset Date:** 12-31-2013
**Year Enacted:** 1989

**Carryforward:** No
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | $0 | $0 | $0 |

### DESCRIPTION

The farmworker housing lender's credit expired as of December 31, 2013; however, there can be revenue impact for the 2023–25 biennium due to possible tax credits being claimed for up to a ten-year period. The last possible year to claim this credit is the tax year beginning before January 1, 2024. A credit against corporation income taxes was allowed for lending institutions financing construction or rehabilitation of farmworker housing projects. The credit equaled 50 percent of the interest income earned during the year on loans to finance the direct costs associated with constructing or rehabilitating farmworker housing. For S corporations that claimed the credit, the credit was shared by the S corporation shareholders and claimed against their Oregon personal income tax.

The lender must have received certification from the borrower that upon completion the project will comply with all health and safety standards. The housing must have been located in Oregon and the interest rate on the loan cannot have been above 13.5 percent. The credit could be claimed over the term of the loan or for ten years, whichever was less, and applied to the loans made on or after January 1, 1990.

If a lending institution sold a qualifying loan, the right to claim the credit was passed on to the buyer provided the same conditions were offered to the borrower. The selling bank retained the right to claim the credit if it continued to service the loan.

### PURPOSE

The statute that allowed this expenditure does not explicitly state a purpose. Presumably, the purpose was to promote construction and rehabilitation of safe and healthful housing for farm workers.

### WHO BENEFITS

Very few taxpayers benefit from the credit.

### EVALUATION

Not evaluated.

## 1.414 AGRICULTURE WORKFORCE HOUSING CONSTRUCTION

**Oregon Statute:** 315.164
**Sunset Date:** 12-31-2031
**Year Enacted:** 1989

**Carryforward:** 9 years
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $5,500,000 | $1,800,000 | $7,300,000 |
| 2025-27 | $7,100,000 | $2,900,000 | $10,000,000 |

### DESCRIPTION

A credit against corporation or personal income taxes is allowed for construction, rehabilitation, or acquisition of agriculture workforce housing in Oregon. The credit is 50 percent of the eligible costs for housing projects and may be taken for the tax year in which the project is completed or in any of the nine tax years succeeding the tax year in which the project is completed. The maximum allowable credit claimed by a taxpayer for any one tax year cannot exceed 20 percent of the total allowable credit. Taxpayer eligibility for the credit is determined by Oregon Housing and Community Services Department (OHCS).

Legislation in 2021 (HB 2433) increased the existing limit on eligible agriculture workforce housing construction tax credits from $7.25 million to no more than $16.75 million in total potential credits claimed per biennium, effective July 1, 2021.

The agriculture workforce housing must meet certain qualifications for the taxpayer to be eligible for the credit. Rehabilitation projects must restore housing to a condition that meets building code requirements. Agriculture workforce housing must also be registered, if required, as an agriculture workforce camp with the Department of Consumer and Business Services. The housing units for which the credit is being claimed must be occupied by agricultural workers.

Any portion of the credit allowed in a given tax year exceeding the taxpayer's tax liability may be carried forward for up to nine years. A taxpayer eligible to claim the credit may transfer the entire amount of the credit to another taxpayer who contributed to the project. In the case of a transfer, the credit is still taken for the tax year in which the project is completed or in any of the nine tax years succeeding the tax year in which the project is completed.

Legislation in 2023 (HB 2071) extended the sunset of this tax credit program to December 31, 2031. A credit may not be claimed for agriculture workforce housing projects completed in tax years beginning on or after January 1, 2032.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose of this credit is "to provide support for the construction or rehabilitation of agriculture workforce housing thereby supporting the goal of ensuring adequate agricultural labor housing through a collaboration of the public, private, and nonprofit sectors."

## WHO BENEFITS

For tax year 2022, 18 personal income taxpayers (including S corporation taxpayers) saved on average $15,000 in Oregon tax using this credit. For tax year 2021, 13 corporate taxpayers saved on average almost $185,000 in Oregon tax using this credit.

## EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves the purpose of promoting construction and rehabilitation of safe and healthy housing for agriculture workers. Recent progress in developing adequate housing for Oregon's agriculture worker population is due in large part to the availability of the agriculture worker housing development tax credits. If the tax expenditure were eliminated, financing of community based agriculture worker housing would be impeded and a primary incentive to improve or construct onsite housing would be eliminated. Major supporters of better agriculture worker housing include migrant health clinics that see the effects of unsanitary conditions. This concern has only become more present in light of the COVID-19 pandemic.

The availability of agriculture worker housing enhances the health of Oregon's agricultural industry, benefiting workers and growers alike. This industry must compete on a regional, national, and international basis for its labor force. It can be argued that to remain competitive in this market, Oregon must continue its efforts to improve the supply of decent and affordable housing for its farm labor force. Because agriculture is a major Oregon industry, with gross sales totaling $5.48 billion in 2012, and because crops dependent on the labor of agriculture workers account for over one-third of this amount, the impact on Oregon's economy is significant.

There are several direct spending programs, both at the state level and at the national level, that are used to develop affordable housing. This tax credit integrates well with these programs, since a chief factor in the award of funds under the other programs is the ability to match those funds. The availability of the agriculture worker tax credit allows Oregon to compete particularly well for federal dollars. Of significance are the USDA Rural Development 514 and 516 programs designated for agriculture worker housing. Before the advent of the agriculture worker housing development tax credit, Oregon's usage of U.S. Department of Agriculture labor housing fund was almost nonexistent.

# 1.415 FILM PRODUCTION DEVELOPMENT CONTRIBUTIONS

**Oregon Statute:** 315.514 and 315.516
**Sunset Date:** 12-31-2029
**Year Enacted:** 2003
**Carryforward:** 3 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Available | Not Available | $38,800,000 |
| 2025-27 | Not Available | Not Available | $38,800,000 |

## DESCRIPTION

A credit against corporation or personal income taxes is available to taxpayers who purchase tax credits from an auction conducted by the Department of Revenue (DOR), in cooperation with the Oregon Film and Video Office (OFVO). The proceeds of the auction go to the Oregon Production Investment Fund (OPIF) and are used to reimburse qualifying filmmakers or local media production services companies for a portion of their Oregon expenses.

ORS 315.516 allows the Legislature to directly appropriate funds to the OPIF in lieu of holding an auction in a future fiscal year. In 2018, HB 4028 amended this statute to allow the Legislature to make this direct appropriation for the current fiscal year, for the difference between the credits sold at auction and the annual maximum, in the event that credits remain unsold when the auction ends.

DOR administers the auction process and determines the minimum bid before conducting the auction, which cannot be below 90 percent of the value of the credit. Legislation in 2019 (SB 459) decreased the requirement for the minimum bid from 95 percent of the value of the credit. It also allows auctions to be conducted up until April 15 following December 31 of any tax year for which the credit is allowed. Due to legislation in 2021 (HB 2456), taxpayers can now either claim the credit for the tax year in which they participated in the auction or for the prior tax year, as long as they have not yet filed a tax return for the prior year.

There is no maximum credit per taxpayer, but there is a limit on the total amount of credits that can be issued annually. In 2021, the Legislature extended the sunset to December 31, 2029 and increased the annual credit limit from $14 million to $20 million (HB 2433).

The tax credit is not transferable, and any tax credit not used in a particular year because of insufficient tax liability may be carried forward for up to three years. A nonresident or part-year resident taxpayer can claim the credit in full, without proration. If the amount paid for the tax credits is claimed as a deduction for federal tax purposes, the amount paid is added to federal taxable income for Oregon tax purposes to claim the credit.

## PURPOSE

“Provide the necessary financial incentives for taxpayers to make contributions …” to the Oregon Production Investment Fund (ORS 315.514(2)(b)(C)). According to the revenue impact statement for HB 2433, the purpose of the Oregon Production Investment Fund is to “(encourage) film and video production in Oregon and (strengthen) Oregon’s film and video industry infrastructure by bringing in more production spending.”

## WHO BENEFITS

Taxpayers with a tax liability who purchase tax credits in an auction, whose proceeds fund the Oregon Production Investment Fund. At the most recent auction in September of 2023, about 70 taxpayers paid more than $18.9 million for tax credits with a total value of $20 million.

Typically, very few corporations claim this credit each year.

## EVALUATION

*Provided by the Oregon Film and Video Office*

This tax expenditure achieves its purpose of retaining and recruiting film production in the state and generating associated spending and employment. Without this program, there would undoubtedly be a drop in activity for Oregon's film, television, and commercial industry due to the high competition of state incentive programs in the US and Canada. This is an industry that provides jobs, small business spending and on-going media marketing value for the

state. Oregon is a competitive destination for creative media production because of OPIF and the Greenlight Oregon Labor Rebate Program.

The Oregon Production Investment Fund (OPIF) has been integral in Oregon's ability to compete with the more than 30 other U.S. states that offer production incentives. OPIF (in conjunction with Greenlight Oregon Labor Rebate Fund, "GOLRF") is directly responsible for the $285 million of direct film, television, media, and commercial production spending that was recorded in the 2021-2023 biennium. Since the introduction of the OPIF in 2003, OFVO has tracked the economic activity directly attributed to the incentive programs rising from just over $30 million for the 2005-2007 biennium, to now $165 million per year, while the number of tracked jobs per biennium has climbed from just over 1200 in 2005-2007 to more than 7000 for 2021-2023. Feature films, television series, animated projects, interactive games, and countless commercial projects are being produced by local crews and producers accumulating more than $2 billion of tracked in-state spending since the inception of the OPIF program.

The traditional "media industry" has changed rapidly and these programs have proven to be flexible and robust enough to keep up with that change. In recent years, Oregon has attracted projects not only from traditional studios like HBO, CBS, Warner Brothers, Disney, and NBC but also from the growing online programming industry with multiple projects from Netflix and Amazon. And a world class OSCAR winning animation industry based in Oregon.

In addition, the new "regional" incentive (R-OPIF) which was introduced in 2017 has quickly become a very useful tool for bringing production work to other parts of the state outside of the Portland metro area. Since its launch in July of 2017, we have seen production work grow in Bandon, Vernonia, Bend, Curry & Coos Counties, Astoria, Ashland, and Silverton resulting in more than $3.6 million in localized hotel and accommodation spending in non-Portland regions. While the "Local" or L-OPIF program specifically supports lower budgeted, locally produced projects - from indie features to homegrown interactive games to animated shorts and documentary films.

This growing group of diverse programming is also very useful to marketing Oregon to the tourism industry. Releases of new films like the Paramount's "Little Wing" and series like HBO's "The Rehearsal" in addition to upcoming major releases like Netflix's "The Night Always Comes" based on Oregon author Willy Vlautin's book and the anticipated Amazon series "Criminal" push the Oregon brand to international audience on a regular basis though major distribution outlets. This is celebrated by the first-in-the-world Oregon Film Trail and 42 signs drawing tourists to iconic production locations like Brownsville, Joseph, Astoria and Klamath Falls.

All of the projects are being put together by local producers utilizing local crews and cast and renting and buying equipment and supplies from countless local vendors.

But it is the local animation community that is most consistently growing and deeply Oregon Made. "Guillermo Del Toro's Pinocchio" won an Oscar in 2022 while Laika is working on their next feature based on Portland author Colin Meloy's book "Wildwood" combine to make Oregon a major destination for animated projects due to is deeply artistic and diverse workforce.

OPIF has been integral to creating a balanced system that imports work into the state as much as creates work for established companies and individuals already here in the state providing jobs and direct spending in a wide variety of the state's vendors - from caterers to car rentals; from dry cleaning to security firms. On top of that, Oregon's media incentive programs are instrumental in making media work more competitive here in Oregon in a national landscape that includes many states offering better Film & Media incentive programs and creates a knock-on marketing platform for the state in numerous national and international audiences.

# 1.416 RENEWABLE RESOURCE EQUIPMENT MANUFACTURING FACILITIES

**Oregon Statute:** 315.341
**Sunset Date:** 12-31-2013 (preliminary certification)
**Year Enacted:** 2011

**Carryforward:** 8 years, see description
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

## DESCRIPTION

The Renewable Energy Resource Equipment Manufacturing Facilities tax credit expired as of December 31, 2013; however, there are revenue impacts for the 2023-25 and 2025-27 biennia due to unused tax credits carried forward. The last tax year for which a carryforward credit may be used is the tax year beginning before January 1, 2027. Credits were certified for businesses with investments in qualified facilities that manufacture renewable energy resource equipment in Oregon. Businesses claiming this credit must have received certification from Oregon Business Development Department (OBDD). Legislation in 2007 (HB 3201) expanded the Business Energy Facilities tax credit (BETC) to allow renewable energy manufacturing facilities to qualify for the BETC tax credit. Subsequent legislation in 2011 (HB 2523) transferred the administration of the manufacturing portion of original BETC from the Oregon Department of Energy to OBDD and, in the process, made the manufacturing portion of BETC its own tax expenditure, the Renewable Energy Resource Equipment Manufacturing Facilities tax credit (Manufacturing BETC). The remaining part of BETC, which has also expired, is described in 1.435, Business Energy Facilities, Conservation and Renewables.

Eligible costs included buildings, equipment, machinery, and other expenses related to the manufacturing of renewable energy products such as solar cells, wind turbines or components manufactured for primary use in products using renewable energy, renewable energy storage devices, and the manufacturing of electric vehicles or component parts of electric vehicles.

Qualified Oregon facilities that manufactured renewable energy resource equipment were eligible for a tax credit equal to 50 percent of the maximum eligible cost. Costs were limited up to $2.5 million for a facility used to manufacture electric vehicles or component parts of electric vehicles and up to $40 million in the case of any other eligible facility. The credit was taken for the five succeeding tax years at 10 percent of the certified cost of the facility. Any tax credit not used in a particular year because of insufficient tax liability may be carried forward for up to eight years.

The total amount of certified tax credits allowed was $200 million for the 2009-11 biennium, $200 million for the 2011-13 biennium and $50 million for the period from July 1, 2013, to December 31, 2013.

A pass-through option allowed project owners to transfer their tax credit eligibility to another Oregon taxpayer in exchange for a lump sum cash payment. Transferees were a corporation or individual (but not partnerships or LLCs), who then claimed the tax credit on their tax returns. OBDD determined the credit transfer rate employing a formula established by administrative rule in accordance with ORS 285C.549. The credit could be transferred or sold only once.

## PURPOSE

The statute that allowed this expenditure did not explicitly state a purpose for this expenditure. Presumably, it was to provide an economic tool to expand existing manufacturing or attract renewable manufacturing plants to Oregon.

## WHO BENEFITS

Oregon businesses with investments in facilities that manufacture renewable energy resource equipment. Taxpayers with a tax liability who purchase tax credits also benefit. For calendar years 2008-2013, six corporations received nearly $115 million dollars in tax credits. All of these credits have been sold to 12 other corporate and 13 individual taxpayers for a total of $77 million.

## EVALUATION

Not evaluated.

# 1.417 OREGON LOW-INCOME COMMUNITY JOBS INITIATIVE

**Oregon Statute:** 315.533(2)
**Sunset Date:** 06-30-2016
**Year Enacted:** 2011

**Carryforward:** 5 years, see description
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Available* | Not Available* | Not Available* |
| 2025-27 | Not Available* | Not Available* | Not Available* |

** In certain cases, to conform with taxpayer privacy disclosure laws, revenue impact numbers are not provided for tax expenditures that may affect at most a few taxpayers.*

## DESCRIPTION

The Oregon Low-Income Community Jobs Initiative tax credit expired as of June 30, 2016; however, there are revenue impacts for the 2023-25 and 2025-27 biennia due to certified credits taken over a seven-year period and unused tax credits carried forward to succeeding years. Taxpayers who made a qualified low-income community investment were eligible for a credit against personal or corporate income taxes equal to 39 percent of the cost of the investment. A qualified low-income community investment was an equity investment in, or long-term debt security issued by, a qualified community development entity (CDE) which met specified conditions and obtained certification from the Oregon Business Development Department. The investment must have been acquired with cash after July 1, 2012, and the CDE must have used at least 85 percent of the cash purchase price toward making capital or equity investments in, or loans to, any qualified active low-income community business, as defined in section 45D of the Internal Revenue Code (federal New Markets Tax Credit program).

These low-income communities were located in census tracts that had a poverty rate of 20 percent or more, or where the median income was below 80 percent of either the statewide median income or the metropolitan median income, whichever was lower. Community development entities, also defined in section 45D of the Internal Revenue Code, are entities that have entered into an allocation agreement with the Community Development Financial Institutions Fund of the U.S. Department of the Treasury. CDEs serving Oregon that had been allocated Federal New Market Tax Credits were allowed to apply to use this tax credit.

The credit applied to qualified investments made between July 1, 2012 and June 30, 2016. The credit was taken over seven years with no credit in the tax year that the investment is made or in the following tax year, a seven percent credit in the third tax year, and an eight percent credit for each of the four subsequent tax years.

This credit was nonrefundable. Any allowable credit related to investments made on or after July 1, 2012, and before January 1, 2014, and not used by the taxpayer for a particular tax year could be carried forward to offset the taxpayer's tax liability for any subsequent tax year. Legislation in 2013 set a limit of five years for a taxpayer to carry forward any allowable credit related to investments made on or after January 1, 2014, that is not used by the taxpayer for a particular tax year to offset the taxpayer's tax liability in future tax years. The credit was not allowed to be transferred or sold.

A taxpayer who claimed this credit was not allowed to claim any other credit under ORS Chapter 317 or ORS Chapter 285C during the same tax year based on activities related to the same qualified active low-income community business.

The maximum amount that may be claimed by all Oregon taxpayers for this credit is $16 million per tax year; the maximum amount of Oregon tax credits invested in any single project could not exceed $4 million for investments made on or after July 1, 2012, and before January 1, 2014. Legislation in 2013 set the maximum amount of Oregon tax credits invested in any single project at $8 million for investments made on or after January 1, 2014.

Fifteen percent of the total $16 million, $2.4 million, was reserved for clean energy projects that produce goods that directly reduce emissions of greenhouse gases or were designed as environmentally sensitive replacements for products in current use, or projects which had a primary purpose of improving the environment or reducing emissions of greenhouse gases.

### PURPOSE
The statute that allowed this expenditure does not explicitly state a purpose. Based on the legislative staff revenue impact statement for SB 817 (2011), the purpose of this credit was "to increase private capital investments in Oregon small businesses operating in low-income communities."

### WHO BENEFITS
Investors in qualified equity investments.

### EVALUATION
Not evaluated.

## 1.418 LONG TERM RURAL ENTERPRISE ZONE FACILITIES (INCOME TAX)

**Oregon Statute:** 317.124
**Sunset Date:** 06-30-2018 (local certification)
**Year Enacted:** 1997
**Carryforward:** 5 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Available* | Not Available* | Not Available* |
| 2025-27 | Not Available* | Not Available* | Not Available* |

** In certain cases, to conform with taxpayer privacy disclosure laws, revenue numbers are not provided for tax expenditures that may affect at most a few taxpayers. This includes tax expenditures that do not currently affect any Oregon taxpayer, but could at a later date.*

### DESCRIPTION
Corporations that make certain large investments in a rural enterprise zone facility are eligible for a tax credit, if approved by the Governor. For S corporations that claim the credit, the credit is shared by the S corporation shareholders and claimed against their Oregon personal income tax. The investment must have been locally approved for the related property tax expenditure, 2.014, Long Term Rural Enterprise Zone (Property Tax), on or before June 30, 2018. To be eligible for the property tax exemption, the investment must be located in a county with chronic unemployment or low income. See 2.014, Long Term Rural Enterprise Zone (Property Tax) for details on investment and newly hired employee criteria.

The tax credit is equal to 62.5 percent of the taxpayer's gross payroll costs at the facility. The credit applies only against liabilities in excess of a threshold amount of up to $1 million. The amount of the threshold may be lower, depending on the facility's location and workforce size. The credit may be claimed over a period of five to 15 years, as determined by the Governor and elected by the taxpayer, starting with the tax year that begins no later than in the third calendar year after the facility is placed in service. Each year's unused credits can be carried forward for up to five years.

Approval from the Governor is required for this income tax credit; it is not required for the related property tax exemption, 2.014, Long Term Rural Enterprise Zone (Property Tax).

Income tax payments made by corporations that are approved by the Governor for this credit are deposited into the Long-Term Enterprise Zone Fund and are annually distributed to specified local property taxing districts. This redistribution occurs whether or not the taxpayer uses this credit.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. Presumably, the purpose is to encourage investment in rural areas of chronic unemployment or low income.

### WHO BENEFITS
Very few corporations have been approved by the Governor to claim the credit.

### EVALUATION
Not evaluated.

# 1.419 RESERVATION ENTERPRISE ZONE (INCOME TAX)

**Oregon Statute:** 315.506
**Sunset Date:** 12-31-2029
**Year Enacted:** 2001

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

## DESCRIPTION

Qualified taxpayers operating a new business facility in a reservation enterprise or partnership zone may claim an income tax credit against tribal property tax paid. The tribal tax must be imposed on non-tribal businesses on a uniform basis across the relevant territory. C corporations claim this credit against their corporate excise tax, and S corporation shareholders, partners, and sole proprietors claim it against personal income taxes.

The amount of the credit is prorated for nonresidents and part-year residents. The credit must be used in the same year that the tribal tax is paid and may not be carried forward to another year. The amount of tax credit used in a given tax year cannot exceed the tax liability for that tax year.

The government of each federally recognized Indian tribe in Oregon can have the Oregon Business Development Department designate a single reservation enterprise zone, covering any reservation area of the tribe, as well as any off-reservation land of the tribe held in trust by the U.S. Government or pending trust status anywhere in the state. The reservation enterprise zone may cover an area of no more than 12 square miles, which does not have to be contiguous.

The government of any eligible Indian tribe may also cosponsor one or more reservation partnership zones comprising a contiguous area of up to 12 square miles. A reservation partnership zone includes lands within the jurisdiction of a cosponsoring city, port or county and may (but does not need to) also include both lands held in trust by the federal government for the benefit of the tribe or lands within the boundaries of the tribe's reservation.

Except for this tax credit, reservation enterprise zones and reservation partnership zones are otherwise equivalent to a regular rural enterprise zone, such that businesses can be exempt from property taxes if they meet the requirements for tax expenditure 2.013, Enterprise Zone Businesses, or 2.014, Long Term Rural Enterprise Zone (Property Tax), which do not sunset for purposes of these tribally based designations. Neither property tax exemption has been used yet in a reservation enterprise zone.

In 2023, the Legislature extended the sunset of this credit to December 31, 2029 (HB 2071).

## PURPOSE

"To remove the tax disincentives that currently inhibit private business and industry from locating and operating enterprises within the boundaries of the rural Indian reservations of this state" (ORS 285C.303).

## WHO BENEFITS

Businesses operating in reservation enterprise/partnership zones. Currently, two reservation enterprise zones have been re-designated for the Confederated Tribes of Umatilla Indian Reservation (CTUIR) and the Confederate Tribes of Warm Springs. No reservation partnership zone is known to exist.

## EVALUATION

*Provided by the Oregon Business Development Department*

For CTUIR at least, this tax credit has reportedly been useful in its instituting a property tax to pay for infrastructure improvements, which can serve economic development in other ways. The credit as such makes this even more doable, by offsetting the deterrent of the tribal tax on businesses in the enterprise zone. In addition, this tax expenditure eliminates redundant tax layering among sovereign entities and may be compared to a credit for foreign taxes paid. OBDD stands ready to assist all Tribes in Oregon regarding the creation of tribal enterprise zones, and the taxation options that it would facilitate in addition to inducing private business development. This tax expenditure has apparently been used sparingly, so far. It does not have employment or reporting requirements, and the Department, otherwise, lacks the data or direct experience to address it further.

# 1.420 PUBLIC UNIVERSITY VENTURE DEVELOPMENT FUND

**Oregon Statute:** 315.640
**Sunset Date:** 12-31-2029
**Year Enacted:** 2005

**Carryforward:** 3 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | $200,000 | $200,000 |
| 2025-27 | Less than $100,000 | $200,000 | $200,000 |

## DESCRIPTION

Oregon public universities and Oregon Health and Science University may establish university venture development funds to provide capital for the development of commercially viable products and services. Either the universities or their foundations may administer the funds. When a fund accepts a donation, the university or foundation issues a certification letter to each donor.

Donors who have received certifications qualify for a credit, not to exceed $600,000, against their personal or corporate income taxes equal to 60 percent of the amount donated during that tax year. The amount each taxpayer claims in any one year may not exceed the tax liability of that taxpayer for that year. Unused credit amounts may be claimed in future tax years for up to three consecutive tax years after the year in which the credit is initially allowed. The credit is prorated for a nonresident taxpayer. If the amount of donation is claimed as a deduction for federal tax purposes, the donation amount is added to federal taxable income for Oregon tax purposes to claim the credit.

The venture development funds provide grants for the purpose of facilitating the commercialization of university research and development. When a venture development fund earns income from those grants in the form of royalties, cash from the sale of equity, or license fee payments, the fund must transfer 20 percent of the realized income to the state General Fund, up to the amount of tax credits certified by the university.

Whenever the total outstanding amount owed to the General Fund reaches $8.4 million, the issuance of further tax credit certificates must cease. The universities may issue new tax credits equal to the transferred amounts immediately upon deposit into the General Fund. ORS 350.540(2) divides the $8.4 million total into specific amounts allowed for each university:

- Oregon State University : $3,947,720
- University of Oregon : $2,122,670
- Portland State University : $1,275,840
- Oregon Health and Science University : $1,023,770
- Eastern Oregon University, Southern Oregon University, Western Oregon University, and Oregon Institute of Technology : $7,500 each.

Legislation in 2023 (HB 2071) extended the scheduled sunset of the provision from December 31, 2027 to December 31, 2029.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose for the tax credit, but the statute that allows university development venture funds does state a purpose. That purpose is “facilitating the commercialization of university research and development” (ORS 350.550).

## WHO BENEFITS

Taxpayers who make donations to university venture development funds. Typically, very few corporations claim this credit each year. For tax year 2022, about 30 personal income taxpayers saved an average of about $7,200 in Oregon taxes using this credit.

### EVALUATION

*Provided by the Higher Education Coordinating Commission*

This tax expenditure achieves its purpose. It facilitates taxpayers' contributions to the research and development activity of the research universities to further their research mission. University research is often in service of the creation of knowledge helpful to the development of economic activity in Oregon.

## 1.421 WORKING FAMILY HOUSEHOLD AND DEPENDENT CARE

**Oregon Statute:** 315.264
**Sunset Date:** 12-31-2027
**Year Enacted:** 2015

**Carryforward:** No
**Refundable:** Yes
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $34,300,000 | $34,300,000 |
| 2025-27 | Not Applicable | $34,200,000 | $34,200,000 |

NOTE: The revenue impact estimate includes both the portion used to reduce tax liability, and the portion paid directly to taxpayers.

### DESCRIPTION

A refundable personal income tax credit is allowed for low and middle-income working families with employment-related dependent care expenses. To qualify, the taxpayer must have paid qualifying expenses for one or more qualifying individuals (generally a dependent under age 13, a disabled dependent, a disabled taxpayer or a disabled spouse) so the taxpayer (and the taxpayer's spouse if filing jointly) could work, look for work, or attend school.

Qualified expenses include only amounts paid by the taxpayer for household services and care of the qualifying individual as specified by the federal child and dependent care expenses tax credit. The qualifying expenses cannot exceed $12,000 for one qualifying individual or $24,000 for two or more qualifying individuals and cannot exceed the taxpayer's earned and imputed income if filing single or the lesser of the taxpayer's or the taxpayer's spouse's earned and imputed income. These qualifying expenses limits are not adjusted for inflation. Imputed income is $1,000 or $2,000 multiplied by the number of qualified months a taxpayer was a student with one or more qualifying individuals, respectively.

For those filing jointly, if either the taxpayer or the taxpayer's spouse attended school full-time or were disabled, $250 ($500 if two or more qualifying persons cared for) per month counts toward earned income for that person.

A taxpayer cannot claim the credit unless the taxpayer's adjusted gross income (AGI) is less than or equal to three times the federal poverty guidelines. For 2024, the AGI limit by household size is:

| Household Size | AGI Limit |
|---|---|
| 2 | $61,320 |
| 3 | $77,460 |
| 4 | $93,660 |
| 5 | $109,740 |
| 6 | $125,880 |
| 7 | $142,020 |
| 8 or more | $158,160 |

The amount of the credit as a percentage of qualifying expenses varies depending on the taxpayer's household size, AGI, and the age of the youngest dependent. The percentage varies from 4 percent to 75 percent of the qualifying expense. The amount of the credit initially increases with income and then decreases until the credit is not allowed above three times the federal poverty guidelines. The credit increases for taxpayers with younger dependents.

Following the creation of this tax credit in 2015, the Legislature made minor technical modifications to it in 2017 (SB 162) and 2018 (HB 4028). In 2021, the Legislature (HB 2433) extended the sunset for this income tax credit to

December 31, 2027, and modified other provisions, including accounting for imputed income (in addition to earned income subject to taxation) as noted above, applicable on or after January 1, 2022 and before January 1, 2028.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2433 (2021), the "policy purpose of the credit is to enable low-income working families to care for young children and disabled dependents by offsetting care costs so that they may be gainfully employed or attending school."

### WHO BENEFITS

Low and middle-income working taxpayers with employment-related dependent care expenses whose federal adjusted gross income is less than three times the federal poverty level.

The table below shows usage of this credit for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 1,790 | $1,270 | $2.3 | 14% |
| $19,400 - $40,400 | 4,790 | $1,480 | $7.1 | 43% |
| $40,400 - $67,700 | 5,970 | $990 | $5.9 | 36% |
| $67,700 - $117,800 | 2,340 | $560 | $1.3 | 8% |
| Above $117,800 | 30 | $360 | <$0.1 | <1% |
| All Full-Year Filers | 14,920 | $1,110 | $16.6 | 100% |
| Part-Year and Nonresident Filers | 1,250 | $710 | $0.9 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

Since this is a refundable credit, the full amount of credits claimed can be used, even if the taxpayer has little or no tax liability. Of the approximately $17.5 million claimed for 2022, $10 million was used to reduce tax liability, while the remaining $7.5 million exceeded tax liability and was paid directly to taxpayers.

### EVALUATION

*Provided by the Oregon Department of Human Services*

With the high cost of dependent care in Oregon, this tax credit is helpful to families, though many still struggle to afford quality dependent care needed to work or attend school. This credit supplements other programs provided by the State of Oregon to help families afford dependent care and move towards self-sufficiency. Because this credit is only available to those who file a tax return, providing free tax preparation assistance to low-income families statewide is critical to ensuring that all eligible families receive the benefits of this credit.

## 1.422 CONTRIBUTIONS TO OFFICE OF CHILD CARE

**Oregon Statute:** 315.213
**Sunset Date:** 12-31-2021
**Year Enacted:** 2001

**Carryforward:** 4 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

The credit against corporation or personal income taxes for contributions made to the Office of Child Care (OCC) of the Oregon Department of Education expired as of December 31, 2021; however, there can be revenue impacts for the 2023–25 and 2025–27 biennia due to tax credits being carried forward for up to a four-year period. Carryforward credit may be used through tax years beginning before January 1, 2026.

The OCC issued tax credit certificates to taxpayers who made contributions to the Child Care Fund (CCF). The total value of tax credit certificates could not exceed $500,000 per calendar year. The 2015 Legislature set the maximum amount of credit available to taxpayer to be 50 percent of the contribution. Previously, it was 75 percent of the contribution.

The amount of the credit must be added to Oregon taxable income if it is deducted when computing federal taxable income.

The OCC distributed the funds from the contributions according to rules established by the Early Learning Council.

### PURPOSE

A statute (ORS 329A.706) pertaining to implementation of this tax credit program stated that its purposes were to "(a) Encourage taxpayers to make contributions to the Office of Child Care by providing a financial return on qualified contributions and by soliciting other contributions. (b) Achieve specific and measurable goals for targeted communities and populations. (c) Strengthen the viability and improve the professional development of child care providers."

### WHO BENEFITS

Very few taxpayers benefit from this tax credit.

### EVALUATION

Not evaluated.

## 1.423 INDIVIDUAL DEVELOPMENT ACCOUNT DONATION (CREDIT)

**Oregon Statute:** 315.271
**Sunset Date:** 12-31-2029
**Year Enacted:** 1999

**Carryforward:** 3 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | $13,400,000 | $13,400,000 |
| 2025-27 | Less than $100,000 | $13,700,000 | $13,700,000 |

### DESCRIPTION

Individuals or businesses donating to state selected fiduciary organizations for distribution to individual development accounts (IDAs) are allowed a tax credit for donations prior to January 1, 2030. The tax credit is equal to a percentage of the taxpayer's donation, as determined by the fiduciary organization, but cannot exceed 90 percent (increased from 70 percent by legislation in 2019) of the donation. Donations are applied toward matching IDA account holder savings and toward program related expenses. Any credit not used due to insufficient tax liability may be carried forward for up to three years.

The amount used to compute the credit must be added to Oregon taxable income if it was deducted when computing federal taxable income.

The Housing and Community Services Department (OHCS) maintains a limit on the total number of credits issued each year. The Legislature in 2015 set the limit of total credits allowed to all taxpayers as $7.5 million and in 2016 set the total credit allowed to a taxpayer in any tax year not to exceed $500,000. OHCS administers the Oregon IDA Initiative through Neighborhood Partnerships, which selects fiduciary organizations to manage the IDAs.

There is another tax expenditure closely related to this program: 1.312, Individual Development Accounts (Exclusion and Subtraction), which provides that contributions to and earnings from IDAs are not taxed by Oregon if used for approved purposes.

In 2023, legislation (HB 2071) extended the sunset of the tax credit for a donation to the Individual Development Account from December 31, 2027 to December 31, 2029.

### PURPOSE

The purpose for this credit is set forth in ORS 458.675. In summary, the purpose is to fund an asset-based antipoverty strategy providing lasting on-ramps to financial stability for low-income Oregonians that promotes personal financial

management, investment, and savings for key assets. These assets include: acquiring post-secondary education; the first-time purchase of a primary residence; capitalization of a small business; replacement of a primary residence when replacement offers significant improvement of habitability or energy efficiency; certain improvements and repairs to a primary residence; purchase of equipment or training needed to obtain or maintain employment; the rental of a primary residence to achieve housing stability; purchase or repair of a vehicle; saving of funds for retirement; debt repayment; and establishment of emergency savings.

### WHO BENEFITS

Individuals or businesses making donations to state selected fiduciary organizations for distribution to IDAs directly benefit from this credit. For tax year 2022, about 380 personal income tax filers used the credit and almost all of them had incomes above $100,000.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose in creating economic opportunity for low-income Oregonians. Proceeds from donations are matched with savings from participants to build the financial resiliency of households. Further, because the credit remains at no more than 90 percent of donations, the credit provides more resources than a direct expenditure. Available credits granted started at a contribution limit of $666,667 in 2003, rising two million each year, until 2009 when contributions were capped at $10 million. In 2016 the formula changed from a contribution cap to a cap on tax credits available and was set at $7.5 million where it has since remained. Tax credit contributions to administrative contractor Neighborhood Partnerships totaled $8.1 million in 2020, and $8.3 million in 2021 and 2022, which is the maximum possible revenue based on the current tax credit cap of $7.5 million annually. Between January 2017 and December 2021, more than 6,000 Oregon residents opened Individual Development Accounts (IDAs). In the same period, 5,256 savers successfully completed an asset purchase, saving over $12.8 million, and receiving $32 million in match funds. 90% of savers were extremely low to low income and 68% were women. Savers identified in the following racial and ethnic categories: 45.8% white alone; 26% Hispanic/Latinx; 11.9% Black or African American, 8.5% Native American, 5.2% Asian, Native Hawaiian, or other Pacific Islander. Upon successful completion of all program requirements, including financial education, over the course of six months to three years participants save toward their goals to purchase their first home, obtain needed postsecondary education, start a small business, or achieve other goals. Savers are matched up to $5 for every $1 they save. In the 2021 and 2022 program years 24% invested in education; 22% in home purchase; 18% in microenterprise, and 35% across the other asset categories. The Oregon IDA Initiative performs rigorous evaluation of the efficacy of the program, originally working with the Regional Research Institute at Portland State University and since 2015 using in-house data and evaluation expertise. This evaluation data demonstrates growing impact for communities of color and consistent stabilization outcomes, including improvements in credit, attainment of savings, and timely mortgage payments. Copies of the evaluations may be found here: https://www.oregonidainitiative.org/evaluation/.

## 1.424 OREGON AFFORDABLE HOUSING LENDER'S CREDIT

**Oregon Statute:** 317.097
**Sunset Date:** 12-31-2031 (certification)
**Year Enacted:** 1989

**Carryforward:** 5 years
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $14,700,000 | $300,000 | $15,000,000 |
| 2025-27 | $15,700,000 | $300,000 | $16,000,000 |

### DESCRIPTION

This provision allows a credit against corporation taxes for lending institutions that make qualified loans at below market interest rates for the construction, development, acquisition, or rehabilitation of a manufactured dwelling park, low-income housing, limited equity cooperative, or a preservation project. For S corporations that claim the credit, the credit is shared by the S corporation shareholders and claimed against their Oregon personal income tax.

The Housing and Community Services Department may certify qualified loans up to a specified cap on the total credits that can be granted each fiscal year for new and existing qualified loans. This cap has been increased multiple times over the past two decades, from $11 million per fiscal year in 2005, to the current cap of $35 million.

The amount of the credit for the lending institution is the difference between the finance charge on the qualified loan and the finance charge at the time the qualified loan was made that would have been charged had a similar loan been made at market interest rates. The finance charge is the total of all interest, loan fees, interest on any loan fees financed by the lending institution, and other charges related to the cost of obtaining credit.

The credit cannot exceed 4 percent of the unpaid balance of the qualified loan during the tax year for which the credit is claimed. Any credit that cannot be used because of insufficient tax liability in the current year can be used in later years, for up to five years.

To qualify for the credit, qualified loans must be made on or before December 31, 2025 and certified by the Housing and Community Services Department on or before December 31, 2031. Legislation in 2021 (HB 2433) allowed qualified loans to be certified to receive credits for up to 30 years in the case of a qualified loan with a contract for rent assistance or financing resources from the United States Department of Agriculture, or 20 years for any other qualified loan. This legislation also set the current cap on total credits that can be granted in each fiscal year.

Legislation in 2023 (HB 2071) extended the certification date from December 31, 2025 to December 31, 2031 and expanded the credit to include loans for limited equity cooperative housing.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. Based on the legislative staff revenue impact statement for HB 2066 (2017), “the policy purpose of the affordable housing lender’s tax credit is to increase the supply of low-income housing.”

## WHO BENEFITS

For tax year 2021, 18 corporate income taxpayers benefited from this credit, reducing tax liability by about $260,000 on average. For tax year 2022, 20 personal income taxpayers benefited from this credit, reducing tax liability by about $6,600 on average. Low-income households also benefit from this provision because some of the recipients of the loans are required to pass on savings from a reduced interest rate to their tenants in the form of lower rents.

## EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This expenditure achieves its purpose and effectively supports nearly 13,000 households throughout the state. Without the credit program, rents in Oregon Affordable Housing Tax Credit projects would be 15–25 percent higher, which would decrease the number of homes available for low and very low-income Oregonians while increasing the rent burden on those same families. Without this incentive, many of the low-income housing projects targeting households with incomes below 80 percent of Area Median Income would not be financially feasible.

The credit is used with many other direct spending programs such as housing grants and federal Low Income Housing Tax Credits. The credit is applied to the permanent financing after all direct spending programs have been incorporated into the overall project financing. By using the credit in this manner, the maximum benefit is passed on to the tenants for a “bottom line” tenant rent benefit. A direct spending program would likely be more costly to taxpayers.

Since July 2007 OHCS has successfully used this credit for projects partially financed with tax-exempt bonds. The ability to use these credits increases the amount of debt a development can service, which reduces the aggregate amount of federal, state and local public financing needed for such projects to be financially feasible. OHCS continues to effectively use this program to preserve projects that have Project Based Housing Assistance Payment contracts and other federal rent subsidies.

# 1.425 MANUFACTURED DWELLING PARK CLOSURE

**Oregon Statute:** 316.090
**Sunset Date:** 12-31-2025
**Year Enacted:** 2007

**Carryforward:** No
**Refundable:** Yes
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | Less than $100,000 | Less than $100,000 |
| 2025-27 | Not Applicable | Less than $100,000 | Less than $100,000 |

NOTE: The revenue impact includes both the portion used to reduce tax liability, and the portion paid directly to taxpayers. The revenue impact estimate includes the effect of the sunset.

## DESCRIPTION

A $5,000 refundable credit is allowed for owners of manufactured dwellings who are forced to move due to the closure of their manufactured dwelling park. To qualify for the credit, the taxpayer must live in the manufactured dwelling as their primary residence and then leave the park between January 1, 2007 and December 31, 2025 as a result of closure. The credit is reduced by any payments made as compensation for exercise of eminent domain by order of a federal, state or local agency. A taxpayer may claim only one credit due to park closure for any given tax year.

This credit is refundable. To the extent the credit exceeds a taxpayer's liability (reduced by any nonrefundable credits), the taxpayer is entitled to a payment of the excess.

Legislation in 2019 (HB 2164) extended the scheduled sunset of the provision from December 31, 2019 to December 31, 2025.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose of the credit is "to mitigate the costs to manufactured dwelling park households that are forced to move due to instances where market forces and development are causing closure of the manufactured dwelling park."

## WHO BENEFITS

Manufactured dwelling owners who are forced to move due to the closure of their manufactured dwelling park. Very few taxpayers claim this credit.

## EVALUATION

*Provided by the Oregon Housing and Community Services Department*

Manufactured homes and associated parks are critical housing stock options for low-income Oregonians. With extremely low vacancy rates and escalating rents across the state, many park tenants have few options if a park closes. Additionally, high property values are enticing park owners to redevelop, increasing the likelihood that park closures will occur. Despite low usage, likely due in part to OHCS' preservation efforts, any incentive that assists displaced low-income manufactured home tenants is absolutely meeting its objectives and is achieving the purpose of the tax expenditure.

# 1.426 QUALIFIED RESEARCH EXPENSES FOR SEMICONDUCTOR COMPANIES

**Oregon Statute:** 315.518 and 315.519
**Sunset Date:** 12-31-2029
**Year Enacted:** 2023 (HB 2009)

**Carryforward:** 5 years
**Refundable:** Partially, see description
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $23,100,000 | $800,000 | $23,900,000 |
| 2025-27 | $53,500,000 | $2,000,000 | $55,500,000 |

NOTE: The revenue impact includes both the portion used to reduce tax liability, and the portion paid directly to taxpayers.

## DESCRIPTION

A credit against personal or corporate income taxes is allowed for taxpayers who are qualified semiconductor companies with qualified research expenses for research conducted in Oregon starting in tax year 2024.

To qualify as a semiconductor company, a company's primary activity must be in the research, design, development, fabrication, assembly, testing, packaging or validation of semiconductors, or in the creation of semiconductor manufacturing equipment, semiconductor core intellectual property, or electronic design automation software that is primarily intended for use in the semiconductor industry.

The credit shall be determined in accordance with section 41 of the Internal Revenue Code, except as follows:

- The applicable percentage specified in section 41(a) of the Internal Revenue Code shall be 15 percent of the difference between qualified research expenses and a base amount prescribed by IRC 41. Also, the Oregon credit equals 15 percent of the basic research expenses determined under IRC 41(e)(1)(A).
- Qualified research and basic research consist only of research conducted in Oregon by a qualified semiconductor company, in support of a trade or business directly related to semiconductors.

To claim a credit, a taxpayer must obtain approval (certification) from the Oregon Business Development Department. The maximum credit that can be claimed by a taxpayer in one tax year is $4 million. Any credit that cannot be used because of insufficient tax liability in the current year can be carried forward up to five years.

A portion of the credit is refundable to taxpayers meeting certain employment criteria:

- 75 percent refundable for taxpayers with fewer than 150 employees in Oregon.
- 50 percent refundable for taxpayers with at least 150 employees in Oregon but fewer than 500.
- 25 percent refundable for taxpayers with at least 500 employees in Oregon but fewer than 3,000.
- There is no refundable portion allowed for taxpayers with 3,000 or more employees in Oregon.

The biennial credit certification limits are $35 million in 2023-25, $80 million in 2025-27, $90 million in 2027-29, and $50 million for fiscal year 2029-30. The sunset date for this credit is December 31, 2029. To administer these statutory biennial credit certification limits, Oregon Administrative Rule 123-401-0600, "Calculation of Tax Credit Certified Amount", establishes annual caps for each tax year as follows: $35 million for tax year 2024; $38.25 million for tax year 2025; $41.75 million for tax year 2026; $44 million for tax year 2027; $46 million for tax year 2028; $50 million for tax year 2029. The same rule prescribes the approach to managing credit usage if potential tax credits sought across all applications exceed the total annual credit cap for a particular tax year.

## PURPOSE

The statute that allowed this expenditure did not explicitly state a purpose. The legislative staff revenue impact statement for HB 2009 (2023) states "the policy purpose of the research and development tax credit is to increase Oregon's employment base across firms that support the semiconductor sector."

## WHO BENEFITS

Businesses who conduct research in the semiconductor industry. The Oregon Business Development Department (Business Oregon) registered 26 businesses who would be eligible to claim a credit for tax year 2024. Such pre-registration is not required for future tax years.

## EVALUATION

*Provided by the Oregon Business Development Department*

As a global center for semiconductor research & development, many semiconductor companies in Oregon play a critical role in the nation's efforts to regain technological leadership in this sector. This expenditure is intended to recognize and further the contributions of Oregon's semiconductor industry to regional and national economies. While no taxpayer has yet claimed the R&D Tax Credit, the one-time registration required to qualify for the credit in tax year 2024 provided information on expected utilization. An analysis issued by the Legislative Revenue Office in March 2024 identified 26 qualified taxpayers, projecting a total $600 million in R&D expenses and an estimated tax credit usage of $23.9 million in 2024. While the number of qualifying taxpayers is expected to vary year to year as business practices

evolve, Business Oregon expects the number of potential recipients to grow in future years. The 26 registered taxpayers for 2024 are likely a subset of potential recipients during the life of this expenditure, due to the short time frame and challenge of notifying all possible program stakeholders of the initial registration process in 2023.

The R&D Tax Credit is expected to benefit semiconductor companies of all sizes and representing different aspects of the production cycle, from software design start-ups to leading-edge chip manufacturers. Business Oregon anticipates the credit to serve as both a retention incentive for businesses with research and development operations already in Oregon, and a recruitment offering for new businesses interested in locating or expanding in the state. Growing the research and development ecosystem for the semiconductor sector increases both the demand and supply of highly educated workforce, which in turn supports further recruitment of semiconductor and other advanced manufacturing and technology companies to Oregon.

## 1.427 PUBLICLY SUPPORTED HOUSING SELLER'S CREDIT

**Oregon Statute:** 315.283
**Sunset Date:** 12-31-2029
**Year Enacted:** 2023 (HB 2071)

**Carryforward:** 3 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Yet Available | Not Yet Available | Not Yet Available |
| 2025-27 | Not Yet Available | Not Yet Available | Not Yet Available |

### DESCRIPTION

Qualified sellers of publicly supported housing (PuSH) are allowed to claim a credit against personal or corporate income taxes. A sale qualifies if the purchaser enters into a recorded agreement that extends or adopts affordability restrictions for a period of at least 30 years. Dwelling units that would have otherwise had expiring affordability restrictions generally must be extended as-is. Dwelling units with newly adopted restrictions must have rental rates that are affordable to households earning 80 percent of the area median income. The housing must have been owned by the seller for at least five years prior to the qualified sale. Sellers and purchasers may not have a business or familial relationship with each other, called an identity of interest.

The credit amount may not exceed 2.5 percent, or 5 percent if owned for at least ten years, of the lesser of the sale price or the appraised amount. Credit amounts not used by a taxpayer in a given tax year can be carried forward for up to three succeeding tax years.

Credits and sales must be approved by the Oregon Housing and Community Services Department to qualify. The total credit amount certified may not exceed $3 million for all taxpayers in a year.

Legislation passed in 2024 (SB 1526) states that this credit applies to sales of publicly supported housing completed in tax years beginning on or after January 1, 2024 and before January 1, 2030.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. The legislative staff revenue impact statement for HB 2071 (2023) states: "the policy purpose of this credit is to incentivize owners of affordable housing, in which affordability restrictions are nearing expiration, to sell such housing to a buyer willing to preserve affordable housing for an additional thirty years."

### WHO BENEFITS

Qualified sellers of publicly supported housing for which the purchaser enters into a recorded affordability restriction agreement.

### EVALUATION

*Provided by the Oregon Housing and Community Services Department*

This resource has not yet been made available, so we are not yet able to evaluate its impact.

# 1.428 AGRICULTURAL WORKER OVERTIME

**Oregon Statute:** 315.133
**Sunset Date:** 12-31-2028 (see description)
**Year Enacted:** 2022

**Carryforward:** No
**Refundable:** Yes
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | $2,900,000 | $16,700,000 | $19,600,000 |
| 2025-27 | $5,600,000 | $44,800,000 | $50,400,000 |

NOTE: The revenue impact estimate includes both the portion used to reduce tax liability and the portion paid directly to taxpayers.

## DESCRIPTION

A credit against personal or corporate income taxes is allowed based on overtime compensation paid to agricultural workers by eligible employers. The credit is available for tax years beginning on or after January 1, 2023. Eligible employers are defined as employers who are in the business of crop production, animal production, or aquaculture. The credit is a percentage of the overtime compensation paid to agricultural workers over the tax year.

The credit is refundable. To the extent that the credit exceeds a taxpayer's liability (reduced by any nonrefundable credits), the taxpayer receives payment for the excess. Uniquely, this credit is allowed to be claimed even by corporations paying the corporation minimum tax.

Labor contractors may not claim the credit, but eligible employers may claim the credit based on wages paid to workers through a labor contractor. Overtime wages paid to immediate family members do not qualify for this credit. Before claiming the credit, the taxpayer must receive a notice of acknowledgment from the Department of Revenue stating the maximum amount of credit the taxpayer can claim. The amount of credit depends on the year, number of employees, and whether the employer works in the dairy industry.

The total tax credit amount allowed for all taxpayers in a given calendar year may not exceed $55 million. Nonresidents are entitled to claim this credit. The same limitations and calculations apply to residents and non-residents if the employees perform the work in Oregon. Nonresidents shall prorate the credit using the proportion provided in ORS 316.117.

Because the legislation enacting this statute did not expressly provide a period of applicability for this tax expenditure, ORS 315.037(3) establishes that this tax expenditure shall apply for a maximum of six years beginning with the initial applicable tax year. In this case, the last applicable tax year is the tax year beginning before January 1, 2029.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 4002 (2022), "the purpose of this credit is to reduce the costs to eligible employers resulting from requiring overtime compensation, with greater benefit available primarily to smaller agricultural employers. The ultimate intent of the policy is to ensure agricultural employees receive overtime compensation for weekly hours worked in excess of forty hours".

## WHO BENEFITS

Eligible agricultural employers who are required to pay overtime compensation to their workers benefit from this tax credit.

## EVALUATION

*Provided by the Oregon Department of Agriculture*

The tax credit facts are described and cannot be evaluated until implemented in 2024 for the 2023 tax year.

# 1.429 SMALL FOREST OWNER FOREST CONSERVATION (INCOME TAX)

**Oregon Statute:** 315.124
**Sunset Date:** None
**Year Enacted:** 2022

**Carryforward:** Yes, see description
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Available | Not Available | Not Available |
| 2025-27 | Not Available | Not Available | Not Available |

## DESCRIPTION

A credit against personal or corporation income taxes is allowed for qualifying timber harvests. A qualifying harvest is one that is adjacent to a riparian area subject to the Oregon Forest Practices Act, is equal to or larger than the area not harvested in the riparian area, and abides by standard practice harvest restrictions. To qualify, a taxpayer must be a small forestland owner and they cannot have harvested more than two million board feet of timber in the prior three years. A small forestland owner is a person who owns fewer than 5,000 acres of forestland. Beginning January 1, 2024, applications to be certified for the credit were accepted by the Oregon Department of Forestry (ODF).

The amount of the credit is equal to the total of the certified stumpage value of the specified standing timber not harvested in the conservation area, the cost of establishing the stumpage value, and one-half of certified stumpage value of retained timber in a dry channel area adjacent to the forest conservation area (if applicable).

The stumpage value of the standing timber and the associated costs must be certified by ODF to be eligible for the credit and the taxpayer is required to abide by the standard practice harvest restrictions on the property for 50 years after the certification is issued. If the property used to claim this credit is subsequently harvested or otherwise violates the conservation restrictions required to be certified for this credit, then additional tax, interest, and penalties may apply.

The credit is claimed in the tax year in which the harvest is completed. Credits unclaimed because of insufficient tax liability can be carried forward to any following tax year, and may be carried forward to nonconsecutive tax years.

If the holder of the credit dies before being able to use the full amount certified, the estate of the decedent may use the credit for estate taxes imposed by Oregon (see 15.006, Small Forest Owner Forest Conservation (Estate Transfer Tax)). If the amount of the credit exceeds the estate tax liability, the heirs and devisees may use the remaining credit amount for their personal or corporate income taxes.

Legislation in 2023 (HB 2161) modified this tax credit by increasing certified stumpage value by 25 percent, if the small forestland owner has federal adjusted gross income of not more than 125 percent of the Oregon median household income averaged over three previous tax years, and if the small forestland owner is significantly disproportionately impacted by rules adopted by the State Forester under ORS 527.610 to 527.770 or cannot use the small forestland minimum option because of the horizontal lineal feet limitation applicable to fifth field watersheds.

The legislation that enacted this tax expenditure specified that any sunset under ORS 315.037 does not apply.

## PURPOSE

The statute that allowed this expenditure did not explicitly state a purpose. The legislative staff revenue impact statement for SB 1502 (2022) stated “the policy purpose of this credit is to provide small forestland owners with financial encouragement to adopt standard practice harvest restrictions.”

## WHO BENEFITS

Individuals, their heirs, and corporations that own fewer than 5,000 acres of forestland in the state and harvest fewer than 2 million board feet annually in accordance with the specific restrictions and avoid harvesting trees within riparian areas.

## EVALUATION

Not evaluated.

# 1.430 BOVINE MANURE

**Oregon Statute:** 315.176(3)(a)
**Sunset Date:** 12-31-2021
**Year Enacted:** 2017

**Carryforward:** 4 years
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | Corporation | Personal | Total |
| 2023-25 | Not Available* | Not Available* | Less than $100,000 |
| 2025-27 | Not Available* | Not Available* | Less than $100,000 |

**In certain cases, to conform with taxpayer privacy disclosure laws, revenue numbers are not provided for tax expenditures that may affect at most a few taxpayers. This includes tax expenditures that do not currently affect any Oregon taxpayer but could at a later date.*

## DESCRIPTION

The bovine manure tax credit expired as of December 31, 2021. Even though this credit has expired, there are revenue impacts in the 2023-25 and 2025-27 biennia due to credits carried forward. The last year to claim this credit is the tax year beginning before January 1, 2026. A credit was allowed for corporate or personal income taxpayers who collected bovine manure to be produced into biofuels or who produced bovine manure into biofuel. Tax credits were certified by the Oregon Department of Agriculture (ODA).

The credit rate is equal to $3.50 per wet ton of bovine manure collected for or produced into biofuels. The credit can be claimed only one time for each unit of manure. The amount of credit used in a given tax year cannot exceed the tax liability of the corporation or individual claiming the credit, and any unused credit can be carried forward for four years. The total amount certified by ODA may not exceed $5 million for all taxpayers in any calendar year. ODA is required to make rules to proportionately reduce the amount of certified credits among all taxpayers in the event that applications exceed the annual limit.

The tax credit for bovine manure collection or production can be transferred once to a third party. The transfer must take place before the due date (including extensions) or the filing date of either the transferor's or transferee's tax return, whichever is earliest, for the first year the credit is allowed.

Legislation in 2016 (SB 1507) extended only the biomass manure portion of the Production or Collection of Biomass income tax credit through December 31, 2021. A tax credit for all other forms of biomass was allowed to sunset. In addition, a tax credit for biomass manure was reduced from $5.00 to $3.50 per wet ton of biomass manure beginning tax year 2016, with the certification process to be continued by the Oregon Department of Energy. Legislation in 2017 (HB 2066) moved up the sunset date of the biomass manure provision to align with the sunset of the credit for other types of biomass, so no biomass credit could be claimed after tax year 2017, except for any unused credit carried forward.

The 2017 legislation also created a new credit for taxpayers who collect bovine manure that produce biofuels and producers of biofuels from bovine manure to be administered by ODA and with an annual limit per tax year for all credits certified.

Legislation in 2018 (HB 4028) changed the annual limit period from tax year to calendar year (due to the difficulty of administering the transfer provisions) and clarified that the term "bovine manure" means cattle manure, whereas "cattle" means cows, heifers, bulls, steers, or calves.

## PURPOSE

The statute that allowed this expenditure does not explicitly state a purpose. The legislative staff revenue impact statement for HB 2066 (2017) stated "The policy purpose of the bovine manure tax credit is to ensure the viability and use of digester technology investment."

## WHO BENEFITS

Producers and collectors of bovine manure that produce biofuel. The anaerobic digesters, which break down biodegradable material, in this case bovine manure, by microorganisms are located on dairy farms located in Tillamook and Morrow counties as well as in the Willamette Valley.

## EVALUATION
Not evaluated.

# 1.431 CROP DONATION

**Oregon Statute:** 315.156
**Sunset Date:** 12-31-2025
**Year Enacted:** 1977

**Carryforward:** 3 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | $300,000 | $300,000 |
| 2025-27 | Less than $100,000 | $200,000 | $200,000 |

NOTE: The revenue impact estimate includes the effect of the sunset.

## DESCRIPTION
A credit is allowed against personal or corporation income taxes for donating crops to gleaning cooperatives, food banks, or other qualifying charitable organizations in Oregon. The credit can be claimed on both harvested and post-harvest donations. The credit is calculated as 15 percent of the wholesale market price of the donated crops or livestock that produce food for human consumption.

Unused credit amounts due to insufficient tax liability may be carried forward for up to three years. The amount of the credit is prorated for nonresidents and part-year residents.

The Crop Donation credit was reinstated in 2014 after previously expiring in 2011, and the credit percentage was increased from 10 percent to 15 percent.

Legislation in 2019 (HB 2164) extended the scheduled sunset of the provision from December 31, 2019 to December 31, 2025.

## PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose of this credit is to "…increase the amount of food donated to gleaning cooperatives, food banks and other charitable organizations as well as providing compensation to farmers who donate already harvested crops."

## WHO BENEFITS
Farmers and agricultural producers who donate crops or livestock to qualified organizations benefit directly from this tax credit. For tax year 2022, about 50 personal income taxpayers claimed this credit. Few corporations claim the credit.

## EVALUATION
*Provided by the Oregon Department of Agriculture*

Food security is a significant issue for nearly 15 percent of the state's residents. The Crop Donation credit helps offset costs for farmers and growers who donate their crops/livestock to charitable organizations working to close this food gap.

The Crop Donation tax credit may serve as an efficient mechanism to encourage food donations from the agricultural sector by providing financial incentives that help offset the significant costs associated with harvesting, transporting, and donating crops. This credit leverages the existing tax infrastructure, potentially reducing administrative burdens compared to direct subsidies, and supports farmers in managing surplus crops in a way that benefits the community, enhances their public image, and fosters stronger ties with local communities.

However, the effectiveness of this credit may be limited for smaller or newer farming operations, which might struggle with awareness, logistical challenges, or insufficient taxable income to fully benefit. If the credit were eliminated, it is likely that food donations from the agricultural sector would decline, exacerbating food insecurity in Oregon. To improve the program, outreach efforts could be expanded to ensure all eligible farmers are informed and able to participate, while additional support for logistical challenges could help smaller farms contribute more effectively.

Additionally, expanding the credit to include more agricultural products or increasing the credit percentage could further enhance its impact on reducing food insecurity in the state.

## 1.432 ENERGY CONSERVATION LENDER'S CREDIT

**Oregon Statute:** 317.112
**Sunset Date:** 12-31-2011
**Year Enacted:** 1981

**Carryforward:** 15 years, see description
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION

The energy conservation lender's credit expired as of December 31, 2011; however, there can be revenue impacts for the 2023-25 and 2025-27 biennia due to unused tax credits carried forward to succeeding years. The last tax year for which a carryforward credit may be used is the tax year beginning before January 1, 2027.

Commercial lending institutions were allowed a tax credit for financing energy conservation measures of residential fuel oil customers or wood heating residents. The lending corporations must have charged no more than a 6.5 percent interest rate on the loan. The credit equaled the difference between the interest that would have been earned if the loan was made at the usual rate of interest (or alternatively at an upper limit rate established by the Department of Energy) and the interest earned at the 6.5 percent rate. For S corporations that claimed the credit, the credit was shared by the S corporation shareholders and claimed against their Oregon personal income tax.

The loan amount could not exceed $5,000 for a single dwelling unit or $2,000 for a single dwelling unit if it was owned by a corporation and the term could not exceed 10 years. The loan must have been used by the dwelling owner to finance energy conservation measures that were recommended as cost effective in an energy audit, which must have been completed before getting the loan. Any credits not used because of insufficient tax liability could be carried forward up to 15 succeeding years.

### PURPOSE

The statute that allowed this expenditure does not explicitly state a purpose. Presumably, the purpose was to promote energy conservation in oil and wood heated homes by encouraging lending institutions to make loans for the financing of energy saving projects.

### WHO BENEFITS

Lenders who made loans for energy conservation measures. Homeowners and owners of rental housing qualifying for energy conservation loans. Very few taxpayers benefit from this credit.

### EVALUATION

Not evaluated.

# 1.433 TRANSPORTATION PROJECTS

**Oregon Statute:** 315.336(1)
**Sunset Date:** 12-31-2017 (12-31-2015 for transit service projects)
**Year Enacted:** 2011

**Carryforward:** 5 years
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | $0 | $0 | $0 |

## DESCRIPTION

The credit for transportation projects expired as of December 31, 2017; however, there can be revenue impacts for the 2023-25 and 2025-27 biennia due to certified credits claimed over five years and unused tax credits that are allowed to be carried forward for a maximum of five years. A credit is only allowed if the first tax year for which the credit would otherwise be claimed began before January 1, 2018.

A credit is allowed against corporation or personal income taxes for transportation projects in Oregon. Entities were eligible for this credit if they acquired an alternative fuel vehicle fleet or developed alternative fuel vehicle infrastructure (AFVI) projects such as electric vehicle charging or compressed natural gas systems. Public or nonprofit entities that provided transit services to members of the public and received state or federal funding for those services were also eligible for a transportation projects tax credit. In the case of transit service projects, a credit was only allowed if the first tax year for which the credit would otherwise be allowed to be claimed began on or before 2015. Also in this case, the last tax year for which a carryforward credit may be used is the tax year beginning before January 1, 2025.

The transportation projects program was created in 2011, along with 1.436, Energy Conservation Projects, and a previous tax expenditure for renewable energy development contributions (ORS 315.326).

To qualify for a transportation project tax credit, a taxpayer must have had the project certified by the Oregon Department of Energy (ODOE).

Alternative fuel vehicle projects were eligible for a credit up to 35 percent of the certified cost. Alternative fuel vehicle projects could either be for the development of alternative fuel vehicle infrastructure or the acquisition of an alternative fuel vehicle fleet. Legislation in 2013 added alternative fuel vehicle fleet acquisitions as eligible for tax credits beginning in January 2015.

Certified projects other than alternative fuel vehicle projects were eligible for a credit amount ranging from 10 to 35 percent of certified project costs, depending on the tax year.

When this provision was enacted, the total amount of potential tax credits for the program was limited to $20 million per biennium. Legislation in 2013 and 2014 redirected a one-time total of $3 million of transportation project tax credits for the 2013-15 biennium to be auctioned for tax years 2013-2016. The proceeds from the auction of these tax credits were to be deposited into the Alternative Fuel Vehicle Revolving Fund.

Project owners with no tax liability—such as schools, governmental agencies, tribes or nonprofit organizations—could take advantage of the transportation project program by using the pass-through option, which allowed project owners to transfer their tax credit eligibility to a partner for a lump sum cash payment. Transfer partners can be businesses or individuals with an Oregon tax liability, who then claim the credit on their tax returns. Transfer to a partnership was not allowed. ODOE administered the transfer process and set the rate for calculating the payment. Each credit could be transferred or sold only once.

## PURPOSE

The statute that allowed this expenditure did not explicitly state a purpose. Presumably, the purpose was similar to that of 1.435, Business Energy Facilities, Conservation and Renewables, which was “to encourage the conservation of electricity, petroleum and natural gas by providing tax relief for Oregon facilities that conserve energy resources or meet energy requirements through the use of renewable resources.” (ORS 469B.133)

### WHO BENEFITS
The alternative fuel vehicle infrastructure and fleet portions of the transportation tax credit program benefited businesses, organizations, nonprofits, tribes, schools, and public bodies that wanted to invest in cleaner transportation fuels and vehicles.

The transit services portion of the transportation tax credit program benefited government or nonprofit entities that received state or federal funding for transit services.

### EVALUATION
Not evaluated.

## 1.434 ALTERNATIVE ENERGY DEVICES (RESIDENTIAL)

**Oregon Statute:** 316.116
**Sunset Date:** 12-31-2017
**Year Enacted:** 1977

**Carryforward:** 5 years, see description
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $200,000 | $200,000 |
| 2025-27 | Not Applicable | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
The alternative energy devices (residential) tax credit (or commonly referred to as the Residential Energy Tax Credit, RETC) expired as of December 31, 2017; however, there can be revenue impacts for the 2023-25 and 2025-27 biennia due to possible tax credits being claimed over a four-year period and also due to unused tax credits that are allowed to be carried forward for a maximum of five years. The last tax year for which a carryforward credit may be used is the tax year beginning before January 1, 2026.

A credit against personal income tax was allowed to taxpayers who installed qualifying alternative energy devices in their residences.

The Oregon Department of Energy (ODOE) listed a set of eligible devices that homeowners or renters could purchase and install in their primary or secondary residence located in Oregon. Eligible devices, appliances, and systems have changed over time to adapt to changes in energy use and market conditions.

Tax credit eligibility requirements varied for over twenty types of eligible devices. In general, tax credits were issued for no more than 50 percent of the cost of the device or $1,500. Credits over $1,500 must have been claimed over multiple years, with no more than $1,500 being claimed per year.

RETC applicants may also have been eligible for additional incentives offered by their utility, the Energy Trust of Oregon, or the federal government. These additional incentives were deducted from the eligible cost of the device when calculating the credit amount. The sum of the state and federal credits and incentives could not exceed the cost of the acquisition, construction, and installation of the alternative energy device.

Any credit unused in a particular year because of insufficient tax liability could be used in later years, for up to five years. If a taxpayer had no Oregon tax liability, the taxpayer could have transferred the tax credit to an individual with an Oregon tax liability, who made a lump sum payment equal the present value of the certified tax credit (as determined by ODOE) to the taxpayer.

### PURPOSE
The statute that allowed this expenditure did not explicitly state a purpose. Presumably, the purpose was to promote residential energy savings, energy displacement, and market transformation by providing personal income tax credits to Oregonians who purchased energy efficient devices and renewable energy systems for their homes.

### WHO BENEFITS
The Residential Energy Tax Credit program benefited homeowners, renters, and landlords statewide who upgraded or purchased energy efficient devices and renewable energy systems.

## EVALUATION
Not evaluated.

# 1.435 BUSINESS ENERGY FACILITIES, CONSERVATION AND RENEWABLES

**Oregon Statute:** 315.354
**Sunset Date:** 12-31-2012 (see description)
**Year Enacted:** 1979

**Carryforward:** 8 years, see description
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $200,000 | $100,000 | $300,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

## DESCRIPTION
The conservation and renewable energy resource components of the Business Energy Facilities tax credit (or commonly referred to as the Business Energy Tax Credit, BETC) have expired as of December 31, 2012; however, there can be revenue impacts for the 2023-25 and 2025-27 biennia due to certified credits taken over a five-year period and unused tax credits that are allowed to be carried forward for a maximum of eight years. The last tax year for which a carryforward credit may be used is the tax year beginning before January 1, 2028.

The 2011 Legislature transferred the administration of the manufacturing component of BETC from the Oregon Department of Energy (ODOE) to the Oregon Business Development Department and in the process made the manufacturing component of BETC its own tax expenditure, 1.416, Renewable Resource Equipment Manufacturing Facilities tax credit.

To replace the expired components of the BETC program, the 2011 Legislature created three new tax credits which are a part of the Energy Incentive Program (EIP):

- 1.433, Transportation Projects
- 1.436, Energy Conservation Projects
- A credit for contributions to the renewable energy development fund administered by ODOE (ORS 315.326)

For this tax expenditure, which includes just the conservation and renewable components of BETC, a credit was allowed against corporation or personal income taxes for Oregon businesses with investments in such projects as energy conservation and renewable energy resources.

To have qualified for a BETC (conservation and renewables), the project must have been certified by ODOE before starting. Conservation projects included a variety of energy conservation projects in the following categories: energy efficiency (e.g. insulation, HVAC, and lighting), homebuilder (e.g. solar systems installed in new or existing homes), rentals (e.g. appliance and weatherization improvements in rental housing), transportation (e.g. alternate fuel vehicles) and other projects, such as recycling. Renewable energy resource projects included a variety of projects that use or produce energy from biomass, wind, water, geothermal, solar photovoltaic cells or solar thermal (water heating) systems.

In general, conservation projects received a tax credit of 35 percent of the eligible costs. After the 2007 Legislative Session, renewable projects received a tax credit of 50 percent of eligible costs. Eligible costs must have been directly related to the project and included equipment costs, engineering and design fees, materials, supplies, installation costs, loan fees and permit costs. Maintenance costs and costs to replace equipment at the end of its useful life or required to meet regulations were not eligible.

The limit on eligible costs was $10 million for conservation projects and $20 million for renewable projects. For certain types of projects, there were additional limits on the eligible costs.

The tax credit was taken over five years with 10 percent taken the first two years and 5 percent taken the final three years for 35 percent tax credits, and 10 percent taken each year for 50 percent tax credits. If the eligible costs of the

project were $20,000 or less, the tax credit could be taken in one year. Any tax credit not used in a particular year because of insufficient tax liability could be carried forward for up to eight years.

Project owners with no tax liability, such as schools, governmental agencies, tribes or nonprofit organizations could take advantage of the BETC program by using the pass-through option, which allowed project owners to transfer their BETC eligibility to a partner for a lump sum cash payment. The transfer partner could have been a business or individual with an Oregon tax liability, who then claimed the tax credit on their tax returns. The ODOE administered the transfer process and set the rate for calculating the payment. The pass-through option was expanded by the Legislature in 2001 and participation steadily increased. In 2009, just over half of the projects transferred their BETC credit. The 2009 Legislature limited the transferability, so that the credit could not be transferred more than once.

- House Bills 3672 (2011) and 4079 (2012) clarified the sunset of the BETC program:
- Applications for preliminary BETC certification that were received by April 15, 2011 must have received their preliminary certification by June 30, 2011.
- Projects with a preliminary certification that began construction by April 15, 2011 must receive their final certification based on the conditions of their preliminary certifications (for conservation and transportation projects, final certification cannot be after June 30, 2014).
- Projects with preliminary certification that began construction after April 15, 2011 must receive final certification by December 31, 2012.

Certifications are granted for a period not to exceed five years and begin on the tax year during which the applicant submitted their completed application for final certification.

### PURPOSE
"To encourage the conservation of electricity, petroleum and natural gas by providing tax relief for Oregon facilities that conserve energy resources or meet energy requirements through the use of renewable resources." (ORS 469B.133)

### WHO BENEFITS
Businesses that invested in facilities that produced energy, reduced the consumption of energy, recycled, or used less polluting transportation fuels. For tax year 2021, approximately 11 corporate taxpayers benefited from the credit. These taxpayers reduced their tax liability by an average of about $120,000. For tax year 2022, approximately 20 personal income taxpayers (composed of individuals, S corporations, and partnerships) benefited from the credit.

### EVALUATION
Not evaluated.

## 1.436 ENERGY CONSERVATION PROJECTS

**Oregon Statute:** 315.331(1)
**Sunset Date:** 12-31-2017
**Year Enacted:** 2011

**Carryforward:** 5 years
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
The tax credit for an energy conservation project has expired as of December 31, 2017; however, there can be revenue impacts for the 2023-25 and 2025-27 biennia due to certified credits taken over a five-year period and unused credits that are allowed to be carried forward for a maximum of five years. The last tax year for which a carryforward credit may be used is the tax year beginning before January 1, 2027.

A credit was allowed against corporation or personal income taxes for energy conservation projects in Oregon. The Energy Conservation Projects program was created in 2011, along with 1.433, Transportation Projects, and a previous tax expenditure for renewable energy development contributions (ORS 315.326).

To qualify for an Energy Conservation Project tax credit, a taxpayer must have had the project certified by the Oregon Department of Energy (ODOE). Qualifying energy conservation projects were eligible for a credit that was equal to an amount up to 35 percent of the project cost. The credit was taken over five years in increments related to project cost: 10 percent in the first and second year and 5 percent each year thereafter. Taxpayers with certified costs of $20,000 or less could take the tax credit in one year. Any credit unused in a particular year because of insufficient tax liability could be carried forward for up to five years. The total amount of potential tax credits for the program was limited to $28 million per biennium.

Project owners with no tax liability, such as schools, governmental agencies, tribes, or non-profit organizations could take advantage of the Energy Conservation Project program by using the pass-through option, which allowed project owners to transfer their tax credit eligibility to a partner for a lump sum cash payment. Transfer partners could be a business or individual with an Oregon tax liability, who then claimed the tax credit on their tax return. Transfer to a partnership was not allowed. The ODOE administered the transfer process and set the rate for calculating the payment. The credit could be transferred or sold only once. The 2015 Legislature permitted ODOE to require applicants to enter into a performance agreement, which can include a recertification requirement for owners of projects with a cost of $1 million or more.

### PURPOSE
The statute that allowed this expenditure does not explicitly state a purpose. Presumably, the purpose was similar to 1.435, Business Energy Facilities, Conservation and Renewables which states "...to encourage the conservation of electricity, petroleum and natural gas by providing tax relief for Oregon facilities that conserve energy resources or meet energy requirements through the use of renewable resources." (ORS 469B.133)

### WHO BENEFITS
The program benefited businesses, organizations, public bodies, schools, nonprofits, and tribes that invested in energy efficiency or conservation projects at a business or residential rental property in Oregon.

### EVALUATION
Not evaluated.

## 1.437 WEATHERIZATION LENDER'S CREDIT

**Oregon Statute:** 317.111
**Sunset Date:** 10-31-1981
**Year Enacted:** 1977

**Carryforward:** 15 years, see description
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Not Applicable | Less than $100,000 |
| 2025-27 | Less than $100,000 | Not Applicable | Less than $100,000 |

### DESCRIPTION
The weatherization lender's credit has expired as of October 31, 1981; however, there can be revenue impacts in the 2023–25 and 2025–27 biennia due to credits carried forward to succeeding years due to possible unused tax credits from credits claimed during the term of the weatherization loan. A credit against corporation income taxes was allowed for commercial lending institutions that made below market rate loans for financing weatherization projects. The credit was equal to the difference between the amount of interest charged at a rate of 6.5 percent and the amount that would have been charged at the lesser of 12 percent or the average percent the lending institution charged for home improvement loans. Unused credit amounts could be carried forward for 15 years.

### PURPOSE
The statute that allowed this expenditure did not explicitly state a purpose. Presumably, the purpose was to promote energy conservation by encouraging lending institutions to make loans for projects to weatherize homes.

### WHO BENEFITS
Lending institutions that made weatherization loans between 1977 and 1981. Very few taxpayers benefit from this credit.

### EVALUATION
Not evaluated.

## 1.438 FISH SCREENING DEVICES

**Oregon Statute:** 315.138
**Sunset Date:** 01-01-2030 (preliminary certification)
**Year Enacted:** 1989

**Carryforward:** 5 years
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | Less than $100,000 | Less than $100,000 |
| 2025-27 | Less than $100,000 | Less than $100,000 | Less than $100,000 |

### DESCRIPTION
A credit against personal and corporation income tax is allowed for installing a fish screening device, bypass device, or fishway (except where the device is part of a federally regulated hydroelectric project). These projects are primarily on agricultural land to keep fish from entering irrigation canals. Legislation passed in 2007 attempted to encourage the wider use of these devices by allowing the credit on any substantial diversion of water from rivers, lakes and streams that is not required to be licensed by the Federal Energy Regulatory Commission. Legislation passed in 2009 (HB 2065) further clarified that the credit is allowed for installing any of the following: a fish screening device, bypass device, or fishway.

The credit for each device installed equals 50 percent of the taxpayer's net certified cost of installing the screening device, bypass device, or fishway. The total credit allowed cannot exceed $5,000 per device installed. Devices that are financed by the Water Development Fund are ineligible for the credit.

The device must be certified by Oregon Department of Fish and Wildlife (ODFW) to be eligible for the credit. There is a preliminary certification prior to installation and a final certification upon completion.

Screening devices may be required on any diversion located in waters of the state in which fish subject to the department’s jurisdiction live. The owner must maintain any mandatory device after completion.

The credit is claimed in the year of final certification. Credits unclaimed because of insufficient tax liability can be carried forward for up to five years. The 2023 Legislature extended this tax credit (HB 2071), so that ODFW may issue preliminary certifications up to January 1, 2030.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. The legislative staff revenue impact statement for HB 2171 (2023) stated “The policy purpose of this credit is to support fish protection, production, and population connectivity of native migratory fish thereby supporting the restoration of Oregon’s native salmonid populations.”

### WHO BENEFITS
Taxpayers who install fish screening or passage devices. For 2023, ODFW certified 23 screens and fishways for a qualifying tax credit.

## EVALUATION

*Provided by the Oregon Department of Fish and Wildlife*

This tax credit is an additional incentive for water users to install fish screens and fishways to maximize fish protection while still allowing landowners to divert and utilize water for agricultural and other operations. This program is not used frequently enough to create a significant impact on the State budget but it is a benefit at the individual land owner scale. Participation in this program is low due to many projects being implemented with cost share assistance from a variety of partners such that the landowner and eligible taxpayer does not end up with certifiable costs eligible for the tax credit. When landowners do fund these projects their ability to use this tax credit is part of the selling point of the project.

# 1.439 SHORT LINE RAILROAD REHABILITATION

**Oregon Statute:** 315.593
**Sunset Date:** 12-31-2029
**Year Enacted:** 2019

**Carryforward:** 5 years
**Refundable:** No
**Transferable:** Yes

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Available* | Not Available* | Not Available* |
| 2025-27 | Not Available* | Not Available* | Not Available* |

** In certain cases, to conform with taxpayer privacy disclosure laws, revenue numbers are not provided for tax expenditures that may affect at most a few taxpayers. This includes tax expenditures that do not currently affect any Oregon taxpayer, but could at a later date.*

## DESCRIPTION

A credit is allowed against corporation or personal income taxes based on short line railroad rehabilitation project costs paid or incurred during the tax year for which the credit is claimed.

Project costs are those directly related to the work necessary to maintain, reconstruct, or replace infrastructure in Oregon owned or leased by a short line railroad. Project costs do not include those funded by or used to qualify for any state or federal grants, or costs that are used to claim a federal tax credit.

A short line railroad is defined as a carrier by railroad with less than $900 million in annual operating revenues (see 49 C.F.R. pt. 1201).

The amount of the credit allowed to a taxpayer is the lesser of:

- 50 percent of the rehabilitation project costs paid or incurred
- $3,500 times the number of miles of short line track the taxpayer owns or leases in the state

Any portion of the credit exceeding the taxpayer's liability in a particular tax year may be carried forward for up to five years. The amount of the credit is prorated for nonresidents and part-year residents.

Rehabilitation projects must be certified by the Oregon Department of Transportation to be eligible for this credit. The total amount of potential tax credits allowed at the time of preliminary certification may not exceed $4 million for any biennium (ORS 315.603).

Legislation in 2023 (HB 2071) extended the sunset of this provision to allow claims for tax years beginning before January 1, 2030. Other legislation in 2023 (HB 3406) eliminated the distinction between tier 1 and tier 2 short line railroads. Prior to this legislation, the amount of the credit allowed to a taxpayer who owned or leased 200 or more miles of short line track in the state was the lesser of:

- 50 percent of the rehabilitation project costs paid or incurred
- $1,000 times the number of miles of short line track the taxpayer owns or leases in the state

The credit calculation did not change for taxpayers who owned or leased less than 200 or more miles of short line track in the state and for government owned or leased railroads.

### PURPOSE
The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose of this credit is "to encourage and leverage private capital investment in short line railroad infrastructure with the intent to create cascading economic development opportunities across the state and to incentivize new short line rail customers by improving the conditions of short line railroads throughout Oregon."

### WHO BENEFITS
Short line railroads with eligible rehabilitation costs.

### EVALUATION
*Provided by the Oregon Department of Transportation*

In 2023, ODOT issued preliminary certifications to eight short line railroads for the rehabilitation tax credit. This preliminary certification is step 1 of a 2-step process. Step 2 requires the railroad to submit proof that they actually completed the project and spent the funds as outlined in their application by year end. ODOT issued final certifications to six of those short line railroads for 2023, which is 75% of those that received preliminary certifications.

## 1.440 OREGON LIFE AND HEALTH IGA ASSESSMENTS

**Oregon Statute:** 734.835
**Sunset Date:** 12-31-2027
**Year Enacted:** 1975

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | $700,000 | Not Applicable | $700,000 |
| 2025-27 | $200,000 | Not Applicable | $200,000 |

### DESCRIPTION
Life and health insurance companies pay both the corporation income tax and two types of assessments (class A and class B) to Oregon Life and Health Insurance Guaranty Association (OLHIGA). The class B assessment is made if needed to cover the cost of claims against insurers that have gone out of business. In general, the solvent insurers are then entitled to a credit against their corporation income taxes for class B assessments paid to OLHIGA at the rate of 20 percent of the assessment per year for each of the five calendar years following the year in which the assessment was paid, not to exceed each solvent insurer's corporate income tax liability. In the event that an insurer goes out of business, all remaining assessment amounts may be credited for the year it goes out of business.

Legislation in 2021 (HB 2433) extended the sunset such that the first tax year for which the credit would be allowed is the tax year beginning before January 1, 2028.

### PURPOSE
ORS 734.770 states that "the purpose of ORS 734.750 to 734.890 is to protect the persons specified in ORS 734.790, subject to certain limitations, against failure in the performance of contractual obligations, under life and health insurance policies and annuity contracts specified in ORS 734.790, because of the impairment or insolvency of the insurer issuing such policies or contracts."

### WHO BENEFITS
Insurance companies affected by OLHIGA class B assessments. The recent OLHIGA class B assessments have been:

- $4,410,000 in 2017
- $1,700,000 in 2018
- $1,145,000 in 2019
- $1,500,000 in 2020

There was no assessment from 2021 onwards.

### EVALUATION

*Provided by the Department of Consumer and Business Services*

This type of credit is common throughout the United States. It allows insurers to recover the costs of the assessment they pay to the guaranty association, which in turn is used to cover the cost of claims against insolvent insurers. In effect the General Fund, through the OLHIGA, funds the costs associated with Oregon claims filed against insolvent insurers, with some offsetting increase in retaliatory tax.

Because this tax credit is taken on the excise tax and the excise tax, net of credits, is used in calculating the retaliatory tax, there is an offsetting increase in retaliatory tax as a result of this credit, which is dollar for dollar within certain thresholds.

## 1.441 POLITICAL CONTRIBUTIONS

**Oregon Statute:** 316.102
**Sunset Date:** 12-31-2027
**Year Enacted:** 1969

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Not Applicable | $6,000,000 | $6,000,000 |
| 2025-27 | Not Applicable | $4,600,000 | $4,600,000 |

### DESCRIPTION

A nonrefundable credit may be claimed against personal income taxes for qualified political contributions made, not to exceed $50 ($100 for a joint return). The credit may not be taken by joint filers with federal adjusted gross income above $150,000, or by other types of filers with federal adjusted gross income above $75,000. These limits were decreased from $200,000 and $100,000 by legislation in 2019 (HB 2164) and are not adjusted for inflation.

Qualified political contributions include cash contributions to a major or minor political party; to candidates for state, federal, or local elective office; or to political action committees that are registered with the Oregon Secretary of State's office. Credits that cannot be used because of insufficient tax liability in the current year may not be carried forward to later years.

Legislation in 2023 (HB 2071) extended the sunset of the provision to allow claims for tax years beginning before January 1, 2028.

### PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the legislative staff revenue impact statement for HB 2164 (2019), the purpose of the credit is "to encourage large numbers of people to contribute small amounts of money to candidates and political parties, thereby encouraging participation in the political process."

## WHO BENEFITS

Taxpayers who make cash contributions to political candidates or parties or political action committees. The number of full-year resident taxpayers who claim this credit fluctuates from year to year. Usage of the credit is generally highest during presidential election years. The table below shows usage of this credit for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 5,820 | $20 | $0.1 | 4% |
| $19,400 - $40,400 | 8,180 | $40 | $0.4 | 12% |
| $40,400 - $67,700 | 11,600 | $60 | $0.7 | 23% |
| $67,700 - $117,800 | 13,410 | $80 | $1.1 | 39% |
| Above $117,800 | 7,050 | $90 | $0.6 | 22% |
| All Full-Year Filers | 46,060 | $60 | $2.8 | 100% |
| Part-Year and Nonresident Filers | 1,130 | $50 | $0.1 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

## EVALUATION

*Provided by the Oregon Secretary of State*

In 2016, the multi-partisan Campaign Finance Task Force chaired by former Secretary of State Jeanne Atkins voted 13-1 (with three excused) to adopt the statement that: "Oregon campaign contribution tax credit is useful in encouraging small contributions by individuals and gives candidates and political committees the opportunity to do positive outreach to constituents. The program has had bipartisan support over the years."

Since the tax credit has been in effect since 1969, it is difficult to know how many Oregonians would participate without the tax credit, although many candidates and political committees highlight the tax credit as a fundraising tool. However, the credit amount is relatively small at $100 on a joint return for filers earning less than $150,000 and $50 for filers earning less than $75,000. In the absence of publicly funded elections or other state-sponsored grassroots campaign financing measures, the political contribution tax credit remains a tool to encourage political participation by individuals.

While prior assessments of this tax expenditure have included speculation on the percentage of contributions that used the credit, the adoption of income limits in 2017 makes such calculations untenable. For example, while the Secretary of State's Elections Division can reasonably estimate the number of donations made each year under $100, they are not able to assess the income level of the contributor(s) and whether they qualified for this tax credit. Therefore, the Oregon Secretary of State is unable to discern which contributions were received from contributors that are eligible for this tax credit from those that are not.

Because the income limit is not tied to inflation, the overall fiscal impact of this expenditure is likely to decrease with time, as fewer and fewer Oregonians become eligible.

# 1.442 OREGON CULTURAL TRUST

**Oregon Statute:** 315.675
**Sunset Date:** 12-31-2027
**Year Enacted:** 2001

**Carryforward:** No
**Refundable:** No
**Transferable:** No

| Revenue Impact | | | |
|---|---|---|---|
| | **Corporation** | **Personal** | **Total** |
| 2023-25 | Less than $100,000 | $8,500,000 | $8,500,000 |
| 2025-27 | Less than $100,000 | $8,800,000 | $8,800,000 |

## DESCRIPTION

A credit is allowed against personal or corporation income tax for contributions made to the Trust for Cultural Development Account of the Oregon Cultural Trust. In order to qualify for the credit, the taxpayer must first contribute

to one of the more than 1,600 Oregon cultural organizations exempt from federal income taxes per 26 U.S.C. § 501(c)(3). The taxpayer can then make a contribution of equal or lesser value to the Trust for Cultural Development Account, thereby purchasing a tax credit for that amount. The credit is equal to the amount of the contribution to the Trust for Cultural Development Account, and may not exceed $500 for a single filer, $1,000 for joint filers, or $2,500 for corporations. Married taxpayers filing separate returns may claim a share of the allowed joint credit in proportion to the contribution made by each spouse. The amount of the credit is prorated for nonresidents and part-year residents. This credit may not exceed the tax liability of the taxpayers and may not be carried forward to another tax year.

Legislation in 2023 (HB 2071) extended the scheduled sunset of the provision from December 31, 2025 to December 31, 2027.

## PURPOSE

The statute that allows this expenditure does not explicitly state a purpose. According to the revenue impact statement for HB 2164 (2019), the purpose of the credit is "to protect and stabilize Oregon's cultural resources by creating a solid foundation for the future through the leveraging of private sector support from both individuals and businesses."

## WHO BENEFITS

The table below shows personal income tax usage of this credit for tax year 2022.

**2022 Personal Income Tax Filers**

| Income Group of Full-Year Filers* | Number of Filers Using Credit | Average Revenue Impact of Credit | Revenue Impact ($ millions) | Percent of Revenue Impact by Income Group |
|---|---|---|---|---|
| Below $19,400 | 130 | $50 | <$0.1 | <1% |
| $19,400 - $40,400 | 250 | $180 | <$0.1 | 1% |
| $40,400 - $67,700 | 620 | $290 | $0.2 | 4% |
| $67,700 - $117,800 | 1,770 | $420 | $0.7 | 18% |
| Above $117,800 | 4,700 | $660 | $3.1 | 76% |
| All Full-Year Filers | 7,480 | $550 | $4.1 | 100% |
| Part-Year and Nonresident Filers | 80 | $290 | $0.0 | |

**Each income group contains 20 percent of the full-year filers (approximately 376,000)*

For tax year 2021, very few corporate taxpayers benefited from this credit. These taxpayers reduced their tax liability by $2,000, on average.

## EVALUATION

*Provided by the Oregon Cultural Trust*

Oregon Cultural Trust (OCT) is nationally recognized for its engagement of citizens around statewide cultural issues, and its role in providing stable and accessible funding for cultural nonprofits. Part of this access is achieved through 36 county coalitions, whose role is to distribute funds locally according to each county's cultural plan. Since its inception the Trust as brought in 175,618 donations totaling $86,137,185. Fiscal year 2024 was a record year with 10,317 donations totaling $4 million., with an average giving amount of $502 per gift. Annually, about one half of the income from contributions (50-40 percent) is allocated to the Trust corpus, ensuring the health and growth of the cultural sector in Oregon for future generations. The balance (no less than 50 percent, but no more than 60 percent) is granted to Cultural Development Grant Program, Community Participation Grant Program, and Core Partner Agencies. Through a competitive peer review process administered by the OCT, grant awards are strategically made to fulfill the OCT's mission, to lead Oregon in cultivating, growing and valuing culture as an integral part of communities. OCT does this by inspiring Oregonians to invest in a permanent fund that provides annual grants to cultural organizations. Final report and plans are also reviewed annually by the OCT for compliance and impact.

The Trust for Cultural Development Account serves as a repository for both public and private moneys designated to fund specific arts, heritage and humanities programs. Under the direction of the Trust Board, each fiscal year the Oregon Cultural Trust (OCT) disburses no less than 50 percent, but no more than 60 percent of the amount in the Trust for Cultural Development Account on July 1. The OCT may use up to $400,000 of the total amount disbursed from the account for administrative expenses, with a cost of living increase applied annually (Consumer Price Index). The balance of the amount disbursed from the account is distributed in the following three ways: Cultural Development

Grant Program (50 percent), Community Participation Grant Program (25 percent), and Core Partner Agencies (25 percent).

The Cultural Development Grant Program supports the preservation, stabilization of and investment in Oregon's cultural resources. Grants address significant opportunities to advance, preserve or stabilize cultural resources, and invest in the development of new cultural resources. Grant awards are required to be matched 1:1 and have a broad cultural impact, and applicants must have culture as a priority within their mission. To ensure equitable distribution of program awards, organizations must wait to apply for one year if they have received funding in the previous two consecutive years.
